From Colonel H. M. VIBART, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Bangalore, 1st June 1888, No. 902.

In returning your endorsement No. 70 C., dated 7th January 1888, I have the honor to state that the practice in the Presidency Public Works Stores has been to class as surplus stores, in view of reducing the stock balance to the sanctioned reserve limit of Rs. 1,50,000, all excesses over anticipated requirements of items of stock, and also all such articles of which no issue has been made for the past three years. The same procedure is observed as regards instruments, tools and machinery.

2. Lists of such surplus articles have not been hitherto printed and circulated periodically. If this course is to be adopted in future, the General Superintendent, Public Works Stores, might obtain from Superintending Engineers lists of surplus stores in the circles, and include the articles in his general list for the Presidency under the several heads in question. The General Superintendent reports that a list of surplus stores was printed and circulated in April 1886, and that a revised list is being printed now.

ORDER—dated 14th June 1888, No. 1762 W., Public Works.

Printed lists of surplus Public Works stores in this Presidency will, in future, be circulated in the manner ordered by the Government of India.

2. The General Superintendent, Public Works Stores, will, as suggested by the Superintending Engineer, V Circle, obtain from Superintending Engineers lists of surplus stores in the several circles, and will compile a consolidated list for the whole Presidency, the stores being arranged under the various service heads to which they relate. The list should be prepared yearly and printed, and twenty-five copies should be forwarded by the Superintending Engineer, V Circle, to Government for circulation.

3. Steps should at once be taken to compile a list for the year ending 30th June 1888. In future, the lists will be made for the official year.
