NOTE

With every succeeding Census the spread of economic topics widened. B Series Tables presented in this part relate to the economic data collected during 1961 Census in the Individual Slips. Economic Tables of 1961 Census cover a very large field of data and are more elaborate and comprehensive than those of any of the previous ones. During the past Censuses, income or economic independence was the sole criterion for measuring the economic activity of the people of the country. But a significant departure has been made in the Census of 1961 by laying more emphasis on work than on income so that all people who work, including family workers who are not in receipt of any income have also been included as workers. Non-workers have been distributed into several categories according to the type of activities pursued by them. The tables presented in this part give the classification of workers and non-workers by age-groups, educational levels, industry, occupation etc.

In the 1961 Census there are seventeen Economic Tables in B Series as against seven (Tables A V, B I, B II, B III, C II, D VII and E) in 1951 Census. All the seven tables of 1951 related to the General Population. In 1961, Economic Tables are divided into two parts:

(i) General Economic Tables (B I to B IX) prepared from Individual Slips;

(ii) Household Economic Tables (B X to B XVII) prepared from Household Schedules.

General Economic Tables are presented in this part. These tables are prepared on the basis of full count. Household Economic Tables published in a separate part (Part III) are a special innovation of the 1951 Census. They are prepared from a 20% sample of households and give all possible data relating to the extent of land owned or held by a cultivating household, nature of household industry, period of working of household industry, persons employed in cultivation or household industry, the size of land cultivated, number of hired workers and family workers in cultivation and household industry etc.

The main departure made in the economic classification in 1961 Census was in the concept of 'work'. In the previous Censuses, distinction was drawn between economically independent and economically dependent persons. In 1881 a distinction was made between 'actual workers' and others. In 1891 no distinction was made between dependents and non-dependents. A uniform definition was adopted in 1901, 1911 and 1921 Censuses in respect of 'actual workers' who were distinguished from mere 'dependents' and among actual workers a distinction was made in the case of those who were 'partially agriculturists'. In 1931, besides the two categories viz., 'earner' and 'dependent', an intermediate category was also introduced i.e., 'working dependent'. In 1941, the term 'earner' was replaced by 'independent worker', 'working dependent' by 'partly dependent' and 'non-working dependent' by 'wholly dependent' though they did not carry the same meaning. The concepts of 'self-supporting persons' and 'earning dependents' were introduced in 1951. Up to 1951, the classification was made through what is generally termed as 'the dependency approach' through an enumeration of 'gainfully occupied' or who 'had an income' as against 'the production of goods and services' approach adopted in 1961.

The entire population of the State has been divided into workers and non-workers in the 1961 Census. In the case of regular employment in any trade, profession, service, business or commerce a person is taken to be a worker if he was employed during any of the 15 days preceding the day on which he is enumerated. If he was working but was absent from his work during the said 15 days or even more than this period due to illness or other causes he is still treated as a worker. But a person who has been offered work but has not actually joined is not treated as a worker. An exception to the above period of 15 days of reference to reckon one as a worker has been made in the case of seasonal work like cultivation, live-stock raising, dairying, household industry etc. in which cases the basis of work is taken to be satisfied if the person had some regular work at least for more than one hour a day throughout the greater part of the working season. Work includes not only actual work but also effective supervision and direction of work. A person may be working as a cultivator or an agricultural labourer or at household industry or may be doing any other work. He may be engaged either in one or more than one of the above. An undertrial prisoner is recorded for the work or kinds of work he was doing before he was apprehended. A person who is in a hospital or in a similar institution temporarily is recorded for the kind of work he was doing before he was admitted into the hospital or institution. But, a convict in a prison or a long term inmate of a penal, mental or charitable institution is treated as non-working. Persons under training as apprentices with or without stipend or wages are regarded as working

A woman who is engaged in household duties but doing no other productive work to augment the family's resources is not considered working. If, however, in addition to her household work she engages herself in work such as rice pounding for sale or wages, or in domestic services for wages for others, or minding cattle, or selling firewood, or making and selling cow dung cakes or grass etc. or any such work, she is treated as a worker. Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who are earning an income but are not participating in any productive work are not treated as working unless they also work in cultivation, industry, trade, profession, business or commerce. A public or social service worker who is actively engaged in public service activities or a political worker who is also actively engaged in furthering the political activity of his party is also recorded as a worker. A worker may be an employer, an employee, a single worker or a family worker. An 'employer' is a person who hires one or more persons in his work connected with non-household industry, trade, business and services. He is responsible not only for his own personal work but also for giving work to others. But a person who employs a domestic servant for household duties or a subordinate under him in an office where he is employed by others is not considered as an employer. An 'employee' is a person who usually works under some other person for salary or wages in cash or kind. A 'single worker' is a person who works by himself but not as head of household in a household industry. He is not an employer under any one and in his turn does not employ anybody else, not even members of the household except casually. This definition of a single worker will include a person who works in joint partnership with one or several persons hiring no employees and also a member of the producers' co-operative. Each one of the partners or members of a producers' co-operative is a 'single worker'. A 'family worker' is a member who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by the members of the family and ordinarily does at least one hour of work every day during working season. Such an industry should be on a scale larger than a household industry, whether run at home or away from home in town or village and even away from village in rural areas and should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. Members of a family may be drawn for this purpose from beyond the limits of the household by ties of blood or marriage. A family worker may not be entitled to the share of the profits in the work of the business carried on either by the person or head of the household or other relatives.

A person is considered to be a cultivator if he or she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share. Cultivation involves ploughing, sowing and harvesting and does not include fruit-growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations Cultivation for the above purposes includes production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize, roots and tubers like potato, yam, beet etc., sugar-cane etc., production of pulses such as arhar, moong, masur, urd, khesari, other gram: production of raw jute, raw cotton and kindred fibre crops. A person who has given out land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, is not treated as working as cultivator. Similarly, a person working in another person's land only as a labourer and has no right or lease or contract on land on which he works, nor is responsible for taking decisions as to which crops to sow and when, nor taking the risks of cultivation and is paid wages in cash, kind or share such as share of produce is not treated as cultivator. An agricultural labourer is a person who works in another person's land only as a labourer without exercising any supervision or direction in cultivation for wages in cash, kind or share such as share of produce. He has no right or lease or contract on land on which he works, nor he is responsible for taking decision as to which crops to grow and when or taking the risks of cultivation. He should have been working as agricultural labourer in the last or current cultivating season. Those engaged in operations on land in fruit groves, orchards, plantations, and other items not included in the definition of cultivation are not treated as agricultural labourers. A household industry is one conducted by the head of the household himself and/or mainly by members of the household at home or within the village in rural areas and only at home in urban areas. The industry should be below the scale of a registered factory. A household industry should relate to the production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer. Questions 8 to 12 of the Individual Slips are intended to cover the economic characteristics of

the persons enumerated. The economic questions and the instructions pertaining to the filling up of the answers to these questions issued to the Census enumerators are reproduced in Appendix to this note.

In 1901 there were eight classes and in 1911, 1921 and 1931 all occupations were divided into four classes. In the 1951 Census, the Indian Census Economic Classification scheme was adopted. In 1951, the population was divided into eight livelihood classes, the first four forming the agricultural class and the rest non-agricultural. These eight livelihood classes were further subdivided into self-supporting persons, earning dependents and non-earning dependents. In actual practice, only self-supporting persons were tabulated according to the secondary means of livelihood. Self-supporting persons not dependent on agriculture proper were classified by divisions and subdivisions of industries and services according to the Indian Census Economic Classification. There was also a cross tabulation of the eight livelihood classes by age-groups and by literacy and educational standards, but not separately for self-supporting persons, earning and non-earning dependents.

In 1961 the workers are grouped under nine industrial categories as shown below:—

I Working as Cultivator
II Working as Agricultural Labourer
III Working in Mining, Quarrying, Live-stock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities
IV Working at Household Industry
V Working in Manufacturing other than Household Industry
VI Working in Construction
VII Working in Trade and Commerce
VIII Working in Transport, Storage and Communications
IX Working in Other Services

Persons whose principal work is returned as cultivation under question 8 are grouped as Cultivators (I), whose principal work is returned as agricultural labour under question 9 are grouped as Agricultural Labourers (II) and those who are returned under question 10 as engaged principally in household industries are grouped under category IV, Household Industry. Persons employed in mines and quarries, in rearing and keeping of live-stock and poultry, in forestry and fishing and in growing fruits and vegetables fall under category III. Persons engaged in processing, manufacturing and repairing other than household industries, are included under category V. Construction (VI) includes persons engaged in construction and maintenance of buildings, roads, railways, telegraphs and telephone lines etc. Persons employed in retail and wholesale trade of all kinds and other commercial activities such as banking, insurance and money-lending have been included in Category VII. Trade and Commerce. Category VIII, Transport, Storage and Communications includes persons employed in any form of transporting, storage and warehousing activities and communications. Persons engaged in services like generation and supply of electricity, water-supply and sanitary services, public services, educational services, medical services, legal services etc. have been grouped under category IX, Other Services. All persons included under categories III, V, VI, VII, VIII and IX were returned under question 11.

In the previous Censuses there was no separate classification for industry and occupation but it was a combination of both. The Indian Census Economic Classification adopted in 1951 Census was found unsatisfactory in several respects and it was imperative that a more national scheme is to be adopted. So in this Census, the Indian Standard Industrial Classification (I. S. I. C.) and National Classification of Occupations (N. C. O.) adopted by the Government of India were followed. It is for the first time that a two way classification of the workers has been made, firstly with reference to the goods produced or services rendered by the individual himself or the establishment with which a worker is connected irrespective of the actual work he does in that establishment, and secondly with reference to the occupation i.e., actual work, a person does irrespective of the industry, business or service in which he is engaged. The first aspect referred to as the Industrial Classification in respect of the population engaged principally in work other than cultivation or agricultural labour, is given in detail in Table B IV. The descriptions of Division, Major Group and Minor Group of I. S. I. C. have been given in full in the flyleaf to Table B IV. The second aspect namely, the Occupational Classification is presented in Table B V. The N. C. O. has been adopted for the purpose of Table B V with slight modifications. This table also gives a cross classification of occupation with industry which is a novel feature of this Census. Another important point in 1961 Census is the introduction of the category of Household Industry.

The Industrial Categories corresponding to the divisions of the Indian Standard Industrial Classification are as follows.

Category	Industrial Division of I. S. I. C.
I. Cultivator II. Agricultural Labourer	These have not been separately coded for Industrial Classification, as they

Category	Industrial Division of I. S. I. C. formed distinct Categories in themselves. (Minor groups 000 to 004 and 005 partly)
III Mining, Quarrying. Live-stock, Forestry, Fishing, Hunting & Plantations, Orchards & allied activities	0 (except minor groups 000 to 004 and part of 005) and 1, if the industry is not a household industry.
IV Household industry	0 (except minor groups 000 to 004 and part of 005), 1 and 2 & 3, if the industry is a household industry.
V Manufacturing other than Household Industry	2 & 3, if the industry is not a household industry
VI Construction	4
VII Trade and Commerce	6
VIII Transport, Storage & Communications	7
IX Other Services	5, 8 and 9 (excluding minor group 999)

In the case of persons who are engaged in more than two productive activities, the principal work as well as the secondary work have been collected. The principal work, on which most time was spent, was to be recorded by putting a ring around the appropriate question number and the secondary one, on which next most time was spent, by putting a tick against the appropriate question number. For those persons whose principal work was given as cultivator, agricultural labourer or working at household industry and whose secondary work was any of these, a cross-tabulation between the principal work and secondary work has been attempted. Similarly a cross-tabulation was done in the case of persons whose principal work was non-household industry, trade, business, profession or service by household industry as secondary work.

The non-working population (Category X) is distributed separately for the first time according to the type of activity into the following eight groups.

(i) Full-time students or children attending school who do no other work
(ii) Housewives and persons engaged in unpaid home duties
(iii) Infants and other dependents including permanently disabled because of illness or old age
(iv) Retired persons, rentiers and others who are in receipt of income without doing any work
(v) Beggars, vagrants and others of unspecified source of existence
(vi) Convicts in jails or inmates of penal, mental or charitable institutions
(vii) Persons not employed before but seeking employment for the first time, and
(viii) Persons employed before but now out of employment and seeking employment.

Out of the nine tables prepared for workers and non-workers, seven tables (B I to B VII) deal mainly with workers, one table, B VIII, relates to unemployed persons and B IX deals with non-workers.

The following are the General Economic Tables prepared from the Individual Slips.

B I-Workers and non-workers classified by sex and broad age-groups
B II-Workers and non-workers in cities, town-groups and towns arranged territorially classified by sex and broad age-groups
B III-Industrial classification of workers and non-workers by educational levels

B VIII-Part B- Persons unemployed aged 15 and above by sex and educational levels in rural areas only
B IX-Persons not at work classified by sex, broad age-groups and type of activity

The salient features of the tables are explained in the respective flyleaves.

The General Economic Tables have been split up and presented in two parts, the first part viz., part II B (i) containing tables B I to B IV and the second part viz., Part II B (ii) (present volume) containing tables B V to B IX.

Instructions:

Q. 8 to 11 Working

These questions apply only to workers. A person who is working may be working as a cultivator, as an agricultural labourer, at household industry or may be doing any other work. You have to record the answers in questions 8, 9, 10 and 11 according as the person is working as a cultivator or as an agricultural labourer or at household industry or doing any other work.

He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a cultivator and an agricultural labourer, in which case he should be entered both in Q. 8 and Q. 9. Or, he may be working both as Cultivator and at household industry in which case he will be entered in Q. 8 and Q. 10. Or, he may be working in any possible combination of 8, 9, 10 and 11, in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four Questions 8 to 11.

Detailed instructions as to how the answers should be recorded in the individual questions are given against those questions below. You should carefully study them before recording the answers. For an undertrial prisoner enumerated in a jail he should be recorded for the work or kinds of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of work he was doing before he was admitted into hospital or institution. But for a convict in a prison or for long term inmates of penal or charitable or mental institutions the persons previous work should not be recorded but 'I' should be recorded in Q. 12 below.

The basis of work will be satisfied in the case of seasonal work like cultivation, live-stock, dairying, household industry, etc, if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as worker. A person who has been offered work but has not actually joined should be treated as non-worker. Work includes not only actual work but effective supervision and direction of work.

Persons under training as apprentices with or without stipend or wages will be regarded as working.

An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purposes of this question. If, however, in addition to her household work she engages herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cow dung cakes or grass etc., or any such work she should be treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in Q. 11.

After you have filled up the answers to questions 8 to 11 if you find that in the case of any person more than one productive activity has been recorded i. e. more than one of the questions 8, 9, 10 or 11 has been filled up by some work you should ask him which one of the activities that has been recorded for him is his principal work. The principal work is the one on which the person spends most time. Put a ring round the number of the question 8, 9, 10 or 11 according to the work on which the person says he spends most time. You should invariably ask for the principal work where more than one work is recorded and put a ring round the question relating to the principal work.

It may be that in a few cases you find that you have recorded more than two productive activities in questions 8 to 11 i. e, more than two of the questions 8 to 11 would have been

filled up by some work. In such cases you should first ascertain the principal work i. e., the one on which the person spends most time and put a ring round the number of the question. You should then ascertain the work which is the next in importance to his principal work i. e., the work after his principal work which occupies most time. You should put a tick against the question number of that work on the right hand side of the question number. The ring and the tick should be put clearly so that any difficulty will not be felt to recognise them clearly.

Q. 8 Working as cultivator

For a person working as cultivator write 'C'. For a person not working as cultivator and for a person not working at all put 'X'. For purposes of the Census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations. Persons engaged in fruit growing or orchardry or plantations like tea, coffee, rubber, cinchona and other medicinal plantations should be entered in Q. 11 only e g., workers in tea estate, orchardry etc.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land only as a labourer and has no right or lease or contract on land on which he works, nor is responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation and is paid wages in cash, kind or share such as share of produce (agricultural labourer) will not be treated as cultivator in this question.

Cultivation of the following will come with in the scope of this question.

1. Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize, roots and tubers like potato, yam, beet etc., sugar-cane etc.
2. Production of pulses, such as arhar, moong, masur, urd, khesari, other gram.
3. Production of raw jute and kindred fibre crops.
4. Production of raw cotton and kindred fibre crops

Q.9 Working as agricultural labourer

Write 'AL' for a person working as agricultural labourer, i. e, a person who works in another person's land only as a labourer without exercising any supervision or direction in cultivation. for wages in cash, kind or share such as share of produce. For others put 'X'. The labourer should have no right or lease or contract on land on which he works, nor should he be responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation. A share of the produce goes to him only as wages. He should have been working as agricultural labourer in the last or current cultivating season. Those engaged in operations on land in fruit groves, orchards, plantations and other items not included in the definition of cultivation should not also be treated as agricultural labourers for purposes of question 9.

Qs 10 (a) & 10 (b) Household industry

If a person is working in a household industry write (1) the nature of work done by him in the household industry against question 10 (a) and (2) the nature of the household industry against question 10 (b). Otherwise put 'X' in both questions 10 (a) and 10 (b). A household industry is defined as an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a household industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. You should carefully keep in mind the definition of household industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

A household industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

A person though he may not be working in his own household industry may be working as a paid employee in another household industry. You should, therefore, enquire whether the person who is not working in his own household industry is working in any other household industry and if so, write the nature of the work done by him against question 10 (a) and the nature of the household industry against 10 (b).

Q. 10 (c) If Employee in household industry

This question will be filled up only for a person who is working as a paid employee in another person's household industry. In his or her case write 'E. E.' For all others put 'X'.

Q. 11. Doing work other than 8, 9, or 10

If a worker is not working as a cultivator or as an agricultural labourer or at any household industry write the actual work he is doing. If a person is working as a cultivator or as an agricultural labourer or at household industry and also does some other work (including dairying or live-stock raising, orchard or plantation etc., as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above write here the work on which he devotes more time.

Q 11 (a) Nature of work

In the case of persons not working or who work only as cultivator or as agricultural labourer or at household industry, put 'X'

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in vernacular transliteration of English.

At previous Censuses much trouble has been caused by inadequate answers, and if you do not succeed in obtaining satisfactory information on the Individual Slips, you will be required to make a further visit for that purpose.

Q. 11 (b) Industry, business, trade, profession or service

In the case of a person who is working and the nature of whose own work has been recorded in Question 11 (a), you should write here the nature of industry, business, trade, profession or service in which the person works.

As in the case of Question 11 (a), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired, should be given. If more than one article is produced the chief article produced or serviced or repaired should be given. In the case of business or trade the principal article of trade should be described. In the case of service describe the nature of the service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population. 2. an Employee, that is, who does his work described in Q. 11 (a) under others for wages or salary in cash or kind — write EE
3. a Single Worker, that is, who is doing his work describe in Q. 11 (a) without employing others except casually, and without the help of other members of the family except casually. This will include workers working as members of co-operatives — write SW
4. a Family Worker, that is, who is doing his work describe in Q. 11 (a) in own family without wages or salary in cash or kind — write FW

For a person for whom an 'X' is put in Qs. 11 (a) and 11 (b) put an 'X' in this question also.

Explanation:-

(i) An Employer is a person who has to employ other persons in order to perform the work entered in Q. 11 (a). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11 (a). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

(ii) An Employee is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in the capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

(iii) A Single Worker for the purpose of Q. 11 (c) is a person who works by himself but not as head of household in a household industry. He is not employed by any one else and in his turn does not employ anybody else not even members of his household except casually. This definition of a single worker will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producers' co operative. Each one of the partners or members of such producers' co-operatives should be recorded as 'Single Worker'.

(iv) A Family Worker is a member who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work everyday during the working season. For the purpose of the entire Q. 11, such an industry should be on a scale larger than what has been covered in 'household industry' in Q. 10 whether run at home or away from home in town or village and even away from village in rural area and should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or head of the household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

Q. 11 (d) Name of establishment

Describe in detail the name of the factory, workshop, business house, company, shop, etc. If a person has no fixed place of work, write 'No fixed place of work'.

For a person for whom an 'X' is put in Qs. 11 (a), 11 (b) and 11 (c) put 'X' in this question also.

Q. 12 Activity, if not working.

This question will apply to a person NOT working.

Write 'X' in this question for a person who is working, that is for whom you have recorded the work in any of the questions 8 to 11 above.

The following activities should be recorded in the case of persons NOT working.

1. For a full-time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation, industry, trade or business — write ST
2. For a person engaged in unpaid home duties (like housewife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business — write HW

APPENDIX

For a convict in jail (an undertrail prisoner will be shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution	write I	Explanation:— If a person, who does not work, cannot be readily classified in any of the above categories, put him in category 5 and write B in this question. A retired person who has taken up regular work again should not be entered in this question as he would have been entered for his new work in Questions 8 to 11.
7. For a person who has not been employed before but is seeking employment for the first time	write NE	A person who is not working but has been offered work which he has not joined should be included in item 3 and 'D' should be written. He should not be included in item 7 or 8.

FLYLEAF TO TABLE B V

This table gives the distribution of non-agricultural workers by sex according to the 'National Classification of Occupations' issued by the Ministry of Labour and Employment, Government of India which classifies occupations into 331 families, 75 groups and 11 divisions.

A few modifications as mentioned below have been made in the N. C. O. while classifying the economic data in this table.

(i) The family OX4 relating to Geographers has been deleted and code 073 assigned to them. Actuaries coming under the family 073 according to the N. C. O. have been brought under 072-Statisticians.

(ii) The families 400-Owner cultivators, 401-Cultivating tenants, 414-Agricultural labourers and the major group X0-workers without occupations of the N.C.O have been omitted because of the exclusion of Cultivators, Agricultural labourers and non-workers for the purpose of classification in this table.

(iii) The code number 063 given to Jurists and Legal Technicians n.e.c. (including petition writers) in the N. C. O. has been changed as 069.

(iv) The family 673- Teleprinter operators has been newly added. Under this scheme each individual is classified on the basis of the nature of his (or her) work irrespective of the nature of establishment where he (or she) works. Each of these divisions, groups and families is cross-classified with the 7 non-agricultural industrial categories (categories III to IX). The cross classification of occupation with industry is a peculiarity of the 1961 Census and this being the first time that such an attempt is made there are some occupational families which appear incongruous vis-a-vis the industrial category in which they have been placed. Such instances are given below suggesting the more appropriate categories to which they should belong.

In spite of the limitations pointed out above, this table will be of much use in giving an idea about the variety of occupations and the employment opportunities under different industries.

In this table those occupational families the figures of which are less than 1% of the respective divisions (less than 0.5% in the case of division 7 -8) have been omitted giving the figures of these families in the Appendix at the end of the table. The description of the code numbers of the families appearing in the Appendix relating to the State is given below.

FLYLEAF TO TABLE B VI

This table is prepared only for the urban areas of the State and districts. This gives the distribution of non-agricultural workers in the 11 occupational divisions of National Classification of Occupations by educational levels and broad age-groups. The changes made in the N. C. O. for the purpose of B V table are applicable in the case of this table also. The educational levels given in the table are the same as those given in table B III Part A and the age-groups are those followed in tables B I and B II. The age-groups correspond to different stages of life which have special significance with reference to the capacity to work viz., children, young persons, middle aged persons and elderly persons. This table gives very valuable data in assessing the under employment among educated persons and also provides useful information about those occupations which attract educated personnel.

In this table the figures by age-groups of total workers under each occupational division have not been given. The occupational divisions of the N. C. O. are given below.

DIVISION 0	PROFESSIONAL, TECHNICAL AND RELATED WORKERS
DIVISION 1	ADMINISTRATIVE, EXECUTIVE AND MANAGERIAL WORKERS
DIVISION 2	CLERICAL AND RELATED WORKERS
DIVISION 3	SALES WORKERS
DIVISION 4	FARMERS, FISHERMEN, HUNTERS, LOGGERS AND RELATED WORKERS
DIVISION 5	MINERS, QUARRYMEN AND RELATED WORKERS
DIVISION 6	WORKERS IN TRANSPORT AND COMMUNICATION OCCUPATIONS
DIVISION 7-8	CRAFTSMEN, PRODUCTION PROCESS WORKERS AND LABOURERS NOT ELSEWHERE CLASSIFIED
DIVISION 9	SERVICE, SPORT AND RECREATION WORKERS
DIVISION X	WORKERS NOT CLASSIFIABLE BY OCCUPATION

FLYLEAF TO TABLE B VII

This table which is prepared in two parts gives information about secondary work. Part A of the table is prepared in the case of workers who are principally engaged

(i) as cultivator
(ii) as agricultural labourer or
(iii) at household industry

and who are also additionally engaged in any of the above 3 categories of work. Workers who are principally engaged at household industry are also given by divisions and major groups of I. S. I. C.

Part B of the table gives sex-wise data on the basis of cross tabulation of principal and secondary work in the case of persons who are principally engaged in non-household industry, trade, business, profession for service and also additionally working at household industry. The household industries and non-household industries are further classified according to divisions and major groups of I. S. I. C.

Table B VII Part A is important as it shows the extent to which cultivation is supplemented by household industry or vice versa. From B VII Part B the extent of influence of principal work on the nature of secondary work can be studied This table roughly corresponds to table B-II of 1951 which shows secondary means of livelihood of the self-supporting persons and earning dependents under the eight livelihood classes.

Tables B VII Part A and Part B are prepared for total, rural and urban areas of the State and districts. In Table B VII Part A the major groups of those industries where the persons engaged in auxiliary work are less than 5% of the persons having that particular major group as principal work in Table B IV Part A have been omitted on the basis of the figures of total area. These major groups are shown in the appendix.

Workers who have no secondary work are excluded from this table.

B VII PART A—PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS (ii) AS AGRICULTURAL LABOURERS OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT HOUSEHOLD INDUSTRY (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

Note:—Major groups of household industry, where persons having secondary work as cultivation or agricultural labour, are less than 5% of the persons having the major group as principal work, have not been shown in this table, but are given in the appendix to this table. Divisions thus affected are marked with an asterisk (*).

Part A of the table which relates to urban areas gives the distribution of persons seeking employment for the first time in the age-groups 15—19, 20—24, 25—29, 30—34 and 35+ and also the distribution of persons who were employed before but now out of employment and seeking work in the age-groups 15—19, 20—24, 25—34, 35—44, 45—59 and 60+ by educational levels, as given in Table B III Part A.

Part B of the table relating to rural areas shows the distribution of unemployed persons aged 15 and above by the same educational levels as given in Table B III Part B.

The table will be useful for purposes of planning for employment and also for assessing the available man power.

FLYLEAF TO TABLE B IX

This table gives details about the activities of non-workers. Non-workers are divided into 8 categories which are given in flyleaf to Table B-I. It is the first time in the history of Indian Census that information about the activities of non workers are given. Any study of workers and non-workers is likely to be incomplete without getting detailed information about the activities of non-workers, especially when the figures of non-workers are more than 50% of the total population.

The excess of student population in the age-group 0-14 o this table over the literates in the age-group 5-14 of Table C-III of Part II C is due to the student population in the lower standards of the primary schools, nursery schools and kintergarten schools who do not know how to read and write with understanding.
