Ordinary Agricultural.

No. 188—W.

No. 536-A. *Note by the Chief Engineer for Irrigation.*

The return now submitted is a compilation received from the Examiner of Public Works Accounts and is intended to supersede and extend the information formerly laid before Government in the Statements of Repairs and Minor New Works under—

Capital Extraordinary.

	Rs.
The grants amounted to	2,78,440
„ expenditure to	1,62,049
„ normal average expenditure would have for 10 months been ...	2,32,033

The short outlay is partly according to what is usual and partly owing to the keeping open of the Delta canals beyond the ordinary time for their closure. A considerable surrender of funds has been since made.

G.O., dated 22nd February 1877, No. 605.

Capital Ordinary.

	Rs.
Grants	69,282
Expenditure	35,701
Do. normal average	57,735

The short outlay is considerable and unsatisfactory.

Revenue Extensions and Improvements.

	Rs.
Grants	40,538
Expenditure	25,624
Do. normal average	33,770

In some cases the grants have been exceeded, but on the whole the progress was not good. A surrender of more than one-fourth of the grant for the Cauvery Delta system has since been made and at a date much too late.

19th March.

Revenue Maintenance and Repairs.

	Rs.
Grants	4,56,229
Expenditure	3,69,815
Do. normal average	3,80,191

Probably the grants will be fully utilized. Most of the excess expenditure on the Palar Anicut system has been adjusted.

ORDINARY AGRICULTURAL.

Repairs.

	Rs.
Grants	9,69,176
Expenditure	7,95,267
Do. normal average	8,07,647

The general progress is as close an approximation to that intended as could perhaps be expected under the special circumstances of the season. Additional funds have

been provided for Nellore. In Chingleput the expenditure was greatly in excess of the appropriations. The grant is incorrectly entered. It should be 89,700.

Original Works,
Major.

In Kurnool the progress shown is unsatisfactory, but it is doubtful whether the entry under expenditure is correct. In Chingleput a large part of the grant was not available for expenditure, being under restriction pending the sanction of a revised estimate. The general results are—

	Rs.
Grants	1,86,742
Expenditure	1,29,041
Do. normal average	1,55,618

and taken in connection with the remarks above made they are tolerably good.

Minor Works.

	Rs.
Grants	1,83,087
Expenditure	1,29,790
Do. normal average	1,52,572

On the whole the progress is disappointing, as, in so dry a season, this class of work should have been ahead of, instead of behind, the average.

Fort St. George,
12th April 1877.

(Signed) JOHN MULLINS, Lt.-Col., R.E.,
Chief Engineer for Irrigation.
