Read—the following paper :—

From Captain H. A. STREET, H.M.'s I.M., Presidency Port Officer, to the Chief Secretary to Government, Marine Department, dated Madras, 13th March 1890, No. 812/137 G.

With reference to para. 3 of my letter, dated 4th November 1889, No. 812/490, I have the honor to forward, * herewith, an estimate from the Executive Engineer, Buckingham Canal Division, amounting to Rs. 895 for certain repairs to the Light-house Superintendent's quarters, out-houses and lascars' lines at Armeghon which are reported to be necessary.

* One estimate, Rs. 895, for repairs to Superintendent's quarters, with detail measurements and specification report.
One estimate, Rs. 580, for a new cook-house for light-keepers, with detail measurements, data and plan.

2. It appears to have been the practice hitherto for each light-keeper to cook in a hut of leaves erected by himself in the outer yard of the room allotted to him in the lines; but this, I am of opinion, should not be permitted, as the risk of the whole of the lines being destroyed is inevitable if any one of the huts in question should take fire. I would therefore recommend the construction of a separate cook-house for the light-keepers. The cost of such a building will be Rs. 580 as per Executive Engineer's estimate which is also herewith forwarded.

3. I beg that these estimates may be approved by Government and transferred to the Public Works Department for examination and sanction and for necessary action in regard to allotment of funds.

4. The total cost of the proposed works will form a general charge against the East Coast light-houses.

Approved and transferred to the Public Works Department. Funds will be allotted on application to the Financial Department.

(Signed) J. GROSE,
Ag. Chief Secretary.
