The Honourable the Governor in Council is pleased to publish in General Orders the following report on the examination of Lieutenant Gardon in the Persian Language, and of Lieutenants Alves and Mackintosh in the Hindoostanee language.-

To His Excellency Lieutenant General
The Honourable John Abercromby
Governor in Council

Honourable Sir,

We have the honor to acknowledge the

the receipt of the letters from the Secretary to Government in the Military Department, dated the 10th and the 17th ultimo, and in conformity with the instructions therein contained to report the result of our examination of the proficiency by Lieutenant Gordon, of the Madras European Regiment in the Persian language, and by Lieutenant Alves of the 1st Battalion of Pioneers, and Lieutenant Mackintosh of the 2d Battalion of the 14th Regiment, in the Hindoostanee language.-

The proficiency made by Lieutenant Gordon in the Persian language is highly satisfactory. His translations were executed with considerable accuracy, his pronunciation is correct and he converses with sufficient fluency and ease.-

We have therefore much satisfaction in recommending that your Excellency in Council may be pleased to confer upon Lieutenant Gordon the usual honorary reward.-

The exercises performed by Lieutenant Alves are distinguished by peculiar correctness. His translation into Hindoostanee is particularly satisfactory as it

displays

displays a more than ordinary acquaintance with the idiom of the language as spoken in the Peninsula, and the ease and fluency with which he converses shew that his attention has been very successfully directed to this point.-

Lieutenant Alves having therefore established, in so creditable a manner, his claim to the honorary reward, we are persuaded that your Excellency in Council will feel considerable satisfaction in conferring this distinction upon him.-

The translations executed by Lieutenant Mackintosh, are with a few trifling exceptions, correct. His pronunciation however, is not very good, and he converses with considerable hesitation, but as we observe that his conversation in English is not altogether free from embarrassment, we are led to believe that the hesitation above noticed is not to be attributed to a deficiency in the knowledge of the language.-

With these remarks we beg leave to recommend that your Excellency in Council may be pleased to bestow on Lieutenant Mackintosh the

the honorary reward.-

The Governor in Council is pleased to direct that the usual donation for the attainment of the Hindoostance language be presented to Lieutenant A. Alves of the Corps of pioneers and to Lieutenant A. Mackintosh of the 14th Regiment of N. I.-

is pleased to direct that the following Regulations for the guidance of the European Medical Department under this Presidency shall in future be observed.-

Previously to the march of a European Regiment from its Station, a Committee consisting of the Regimental Commanding officer, the Superintending Surgeon of the Division, or in his absence, the Senior Medical officer on the spot, and the Regimental Surgeon, shall minutely examine the state of the Men in Hospital and determine upon such as may be capable of accompanying the Corps on its march without the aid of Carriage: for it is to be clearly understood that no Man shall be permitted to proceed in a Dooly from any Station, at which there may be a Garrison Hospital to receive him, these Conveyances being attached to Regiments for the sole purpose of providing for Contingencies during the march.-

The charge of the men who may be judged incapable of moving with the Corps will devolve on the Garrison Medical officer, whose duty it will be to make a weekly report of their individual state to

the

the Superintending Surgeon of the Division, and that officer will from those Statements frame a monthly report for the information of the Medical Board, in order that the necessary steps may be taken for the rejunction of the recovered men with the Head Quarters of the Regiment.

As the situation of a medical officer on his first arrival in India with his Regiment must be embarrassing, from his unavoidable ignorance of local arrangements, the Governor in Council is pleased to direct that in such cases the sick men of the Regiment or Detachment shall in the first instance be sent into the Presidency General Hospital until the Surgeon may have provided himself with the requisite Hospital Cloathing, and Establishment, when the efficiency of his appointments in these particulars will be reported by the officer superintending the medical Duties of the Presidency to the Medical Board.

The most pointed attention will be given by the Surgeons of European Regiments to the Regulations framed for their guidance and published in

General

General Orders by Government of date the 15th August, 1806.—

The Governor in Council having approved of new Patterns submitted by the Medical Board, of Hospital Cotts, Bedding, and Cloathing, is pleased to direct their general adoption, and expects that on or before the 1st of August next, the Military Sized, and Regimental Hospitals will be completely equipped with the new furniture, of which models will be immediately forwarded to the Surgeons in Charge authenticated by the Seal of the Medical Board.—

The strictest conformity, within the period prescribed above, is required to the Patterns of Cloathing and models of Cotts, which will thus be received from the Medical Board, and these Articles will be deposited in a convenient place of Custody at each Hospital, for the inspection of the officer Commanding the Division, or of the visiting Medical Authorities, whose especial Duty it will be to remark that the above Regulations are adhered to, and if not, to report the neglect of them for the information of the Government.—

The Honourable the Governor in Council has been pleased to establish the following rules for the construction, and repair or alteration of civil buildings at the subordinate stations -

The expediency of constructing buildings for civil purposes at the subordinate stations will be submitted to the consideration of Government by the local civil officers through the heads of departments at the Presidency. And the Government having decided on the expediency of the work, plans and estimates will be prepared by Superintending Engineers under such instructions, as they may receive from the Military Board, to whom the applications of the civil authorities will be communicated for that purpose. -

Materials for the construction of the works are to be supplied, and advances of money for the

the payment of workmen will be made under the system laid down in the new code of regulations for the Conduct of the department of buildings and repairs. But when the provision of materials by the Commissariat may be found to interfere with the public service in the military department, the supplies will be furnished under such other arrangements, as may be determined on by the Government: and in such cases the necessary orders will be issued to the local officers, and the workmen will also be provided and paid by the civil department.

Repairs or alterations to civil buildings at the subordinate stations, for which the sanction of Government has been obtained through the prescribed channel of reference, will continue to be made under the superintendance of the civil officers, unless from their nature and extent it may be considered advisable to superintend the work, which will then be executed under the instructions of the Military Board — subject to the proviso contained in the preceding paragraph.

G.O. By Government

The Honourable the Governor in Council has the greatest pleasure in publishing to the Army the following Report on the examination of Lieutenant N. Alves of the corps of Pioneers, in the Persian language, and notices with entire approbation the marked testimony which is borne by the Committee to that officer's distinguished and exemplary proficiency. -

Lieutenant Alves had recently established his claim to the honorary reward for the acquirement of the Hindoostanee language under circumstances highly to his credit - and the Governor in Council experiences the most sincere satisfaction in recognizing and recording his title to the additional distinction proclaimed in General Orders dated the 17th

17th of November 1812, for the attainment of the Persian language.

To His Excellency Lieutenant General
The Honourable John Abercromby,
Governor in Council.

Honorable Sir,

In compliance with the instructions communicated to us in the letter from the secretary to Government in the Military Department, dated the 25th ultimo, we have examined Lieutenant Alves of the 1st Battalion of Pioneers, in the Persian Languages, and we have the honor to report the result for the information of your Excellency in Council.

In his translations from Persian into English, Lieutenant Alves has committed two or three trifling mistakes, but they are not such as at all to injure the sense. In his translation into Persian we have not been able to detect a single error of any description, and the sense of the original is rendered in a style of peculiar elegance. The hand writing of this exercise is remarkably good.

In the colloquial part of his examination

examination both as regards pronunciation and fluency, Lieutenant Alves acquitted himself equally to our satisfaction, and we have no hesitation in stating that we consider him to excel, without exception, all who have yet come before us.-

Under these circumstances we doubt not that your Excellency in Council will feel particular satisfaction in conferring upon Lieutenant Alves the honorary reward.-

G.O. By Government

Inconvenience having arisen from the Commissariat having been requised by officers in Command to supply Conveyances for the march of troops unauthorized by the Regulations; the Honorable the Governor in Council is pleased to explain that the Commandant of the Division is alone considered the proper authority to judge in the first instance of the emergency which may in any case render a departure from the Regulations indispensable.

Officers of the Commissariat are accordingly prohibited from furnishing such irregular supplies except on Indents Countersigned by the Quarter Master of Brigade "by order of the Commandant of the Division", when such authority can be procured without injurious delay to the public Service. But should the absence of the officer Commanding the Division render it impossible to procure his order for the purpose, the signature of the Commandant of the

the station will be sufficient to sanction the supply, and the responsibility which in the former case attached to the exercise of discretionary power by the Commandant of the Division, will in the latter case rest with the Commandant of the station, until the indent shall have received the final sanction of competent authority -

The Governor in Council further directs that all Indents connected with the conveyance of the troops and their marching equipments and of Ordnance proceedings on field service, shall be referred to the officer Commanding the Division through the Quarter Master of Division previous to supply, when such reference may be practicable without detriment to the service, and that until the signature of the officer of check be affixed, the responsibility of issue shall attach to the former signatures. -

G. O. By Government,

Lieutenant J. Jackson of the 17th Regimt. of Native Infantry, who was announced in General Orders of the 12th of April 1814, as having obtained the usual prize for a high degree of proficiency in the Hindoostanee languages, and had thereby entitled himself to undergo an examination in the Persian language, having been reported by the Military Committee of Examination to have established his claim to the further distinction for the attainment of that language proclaimed in General Orders dated the 17th November 1812, The Honourable the Governor in Council has great satisfaction in recording and publishing to the Army the sence entertained by the Committee of Lieutenant Jackson's merits, and in directing that the additional reward be accordingly presented to that officer.

To His Excellency Lieutenant General
The Honourable John Abercromby
Governor in Council

Honourable Sir,

We have the honor to acknowledge the receipt

receipt of the Letter from the secretary to Government in the Military Department dated the 20th ultimo, and in conformity with the instructions therein contained to report the result of our Examination of Lieutenant Jackson of the 2d Battalion 17th Regiment Native Infantry in the Persian Language.-

Lieutenant Jacksons translations from Persian into English was performed with great accuracy— in his translation into Persian there are several orthographi-=cal errors, and several expressions repugnant to the idiom of the language, but in this respect we are disposed to make considerable allowances in as much as the paper which we gave for translation was more than ordinarily difficult - with the exceptions above alluded to, we think that the translation is creditable to Lieutenant Jackson.- It is written in a good hand.-

In the colloquial part of the examination, Lieutenant Jackson acquitted himself tolerably well; but we could wish to direct his attention to the attainment of a more perfect pronunciation—

Upon the whole we consider—

Lieutenant

Lieutenant Jackson to have established his claim to the honorary reward, which we beg leave to recommend may be bestowed upon him.-

No. 130

Fort St. George 22d July 1814

G.O. By Government

The Honourable the Governor in Council has been pleased to resolve that the Family payments of the Army shall in future be placed under the management and direction of an officer who is to be designated "Superintendent of Family Payments," and to establish the following regulations for the conduct of that branch of the Military Pay Department - to have effect from the 1st of the ensuing month.-

2 No Family Certificates shall hereafter be issued without the previous authority

of His Excellency the Commander in Chief, of which, if not published in General Orders, intimation will in all cases be communicated to the superintendent and to the Military Auditor General by the adjutant General of the Army.

3. As the regularity of Family Payments will be essentially promoted by the Residence of Families at the Principal stations of the different Divisions of the Army during the absence of the Troops, His Excellency the Commander in Chief will be pleased to direct arrangements to that effect to be made on all occasions when Family Certificates may be authorized hereafter.

4 When the regular Corps of the Army or Detachments to which an adjutant may be appointed take the Field, the issuing of Family Certificates - the regulation of the stoppages, and the whole duty connected therewith will attach to that officer under the general superintendence of the Commanding officer.

The

5 The regulation under which Bills have hitherto been remitted for stoppages on account of Family Payments is rescinded and the amount will in future be paid into the hands of the Field or Expedition Paymasters under the provisions hereinafter established.-

6 An allowance of Ten Pagodas pr. Month is authorized to adjutants of Corps on account of the above duty, that is, when corps proceed beyond the frontiers on actual Service, or in other cases of service, when it may be deemed expedient by the Commander in Chief to authorize the issue of Family Certificates- this allowance is to be drawn under the head of "Family Certificate allowance" and will commence and cease from the same dates as the other Field Charges. It is not however to be considered applicable to Corps of the subsidiary Forces of Hydrabad and Poonah except when those Troops proceed on actual service beyond the limits of their fixed stations- nor is to be drawn by any officer but the adjutant-

as

7. as the terms advance and arrear are frequently misunderstood when applied to Family Payments, the following terms are to be used in future both in Family Certificates and casualty Rolls.-

Regarding the commencement of Payment of Family Certificates.- | The first monthly Payment to be made in January 1814

Regarding their discontinuance.- | The last Payment to be made in December 1814.-

in other respects Family Certificates and Casualty Rolls are to be drawn out in the form heretofore customary; but those of each Corps will be numbered from 1 upwards to 300-600-1000 or whatever number may be granted; so that on the removal of an individual from one Troop or Company to another, no report will be necessary to the superintendent nor any alteration in the Family Certificates.-

8 Each Family Certificate when signed by the officer in immediate charge of the Troop, Company &c and countersigned by the Commanding officer is to be delivered to the Adjutant, by whom also it

it will be countersigned. Rolls corresponding in every respect with the Family Certificates will be made out by the adjutant (one for each station at which they may be made payable) & forwarded to the Superintendent of Family Payments. the Certificates being at the same time delivered to the persons to whom they may be made payable.

9 In cases where no adjutant may be employed, the above duties will be performed by officers commanding detachments or in charge of Departments (always the senior of each) who, as well as the adjutants will be held strictly answerable for paying into the hands of the Field or Expedition Paymasters the full amount for which Family Certificates may have been issued — the duty of those Paymasters in regard to Family Certificates will therefore be confined to the receipt of the stoppages which are to be entered in their accounts Current under the head of "Superintendent of Family Payments"

10 It will be the special duty of the officers abovementioned, by whom the stoppages on account of Family Certificates shall be paid into the hands of the Field or Expedition Paymasters, to transmit each month to the Superintendent, Copies of the receipts of those Paymasters for

for the amount of the stoppages, retaining the originals to be referred to, or produced as occasion may require- the stoppages to appear as heretofore at foot of the abstracts from which the amount has been deducted.-

11 If the amount of the stoppages of one month varies in the smallest degree from that of the preceding month, the encrease or decrease will be stated in the most particular manner on the back of the receipt, or in a separate paper accompanying it & every three months, viz.t in may, august, november, & February of each official year, correct Rolls in detail of the Family Certificates will be forwarded to the superintendent for the purpose of enabling that officer to check any irregularities that may have occurred.-

12 Rolls of Casualties will be forwarded as soon as may be practicable after they occur, both to the superintendent of Family Payments & to the officer Commanding the station at which the Family Certificates may be payable- & duplicates of Casualty Rolls will be sent by the next opportunities after the dispatch of the originals.-

13 The officers specified in the 4.th & 9.th Paragraph on whom the duty of regulating the stoppages on account of Family Certificates devolves, are directed to correspond with the superintendent on the subject of the payment of the Families in all cases when it may become necessary, as they will be held responsible for any deficiency that may arise from neglect on their part in the amount of the stoppages.-

14 The superintendent of Family Payments shall pay particular attention to the Casualties and communications &c. &c. which he may receive from time to time from

from Staff officers, officers Commanding Corps &c&c as he will be held responsible for any sum that may be over paid to the Families from neglect on his part.

15 In all cases of Detachment or separation of Corps, Departments or individuals on Field service from their Head Quarters, or of their transfer to other Divisions, Corps, Departments &c&c the most particular instructions regarding their Family Certificates will be given in writing to the officer Commanding or in charge, or who is afterwards to receive charge of the parties detached or transferred. The adjutant or Head of the Corps &c&c from which such parties proceed will transmit a copy of the instructions so issued for the information of the superintendent, and they are to be so framed as to enable that officer to attach responsibility for any deficiency of stoppages which may occur.

16 On the arrival in Quarters of Troops from Field service or previously thereto if necessary and practicable, adjutants of Corps and Commanding and Staff officers shall notify such return to the superintendent of Family payments as also to Commanding officers

officers of the stations at which the Family Certificates may be payable, stating particularly the period from which the payments are to be discontinued - the notifi=cations to state that the whole of the Family Certificates of the Corps, Detachments &c.a are to be discontinued, or otherwise those which are to remain for payment will be particularly specified - Any failure in the notifications directed by this and the preceding Paras which may be the cause of payments being made to the Families beyond the period of corresponding stoppages, will attach direct and positive responsibility for the Amount of such continued payments to the officers neglecting to make the prescribed communications -

17 A copy of the Roll of stoppages of each month on account of Family Certificates will form a public record of every Corps, Detachment, Department and staff office on Field service, so as to admit of reference in regard to any want of information which may afterwards occur -

18 The Superintendent is to be considered as a General Agent, to whom all officers will

will Communicate their instructions regarding Family Certificates when proceeding on Service.

19 The Funds for the payment of Family Certificates will be provided by the Superintendent in the following manner, but that officer is himself never to receive or disburse any Cash for those payments.

20 The superintendent will transmit to the public staff officers, or, if there should be no staff, to the Commanding officers of stations (including the Presidency) Rolls of the Family Certificates payable at each, accompanied by receipts for their Amount - the receipts to be dispatched so as to reach the stations prior to the date on which the payments of the Family Certificates are to take place, and Paymasters are authorized and directed to discharge them on demand requiring to each receipt the countersignature of the officer receiving the Amount which will be entered in the Paymasters accounts Current as advances under the head of "Superintendent of Family Payments".

21. When the payments of each month shall have been completed the Commanding or staff officers

officer of the station by whom they were made is to retain the Rolls and transmit a Letter to the following effect to the Superintendent, both Rolls and Letter to remain on public record as the official Documents to prove the payment at any after period.—

To The Superintendent of Family Certificates.

Sir,

In acknowledging the receipt of your Letter of the transmitting four Rolls of Family Certificates on account of Corps stated in the Margin, accompanied by your receipt for Pagodas 153 to be taken up from the Paymaster of this station, I have the honor to report that the full Amount has been disbursed to the families according to your instructions

In each subsequent month Receipts will in like manner be transmitted by the superintendent with instructions to Commanding or Staff officers to make the same payments as in the preceding month, unless any

any alterations may have occurred / occasioned by Casualties or otherwise /
in which case those alterations are to be particularly specified -
in order however to guard as much as possible against irregulari-
-ties the Superintendent will transmit with his receipts -
every third Month, viz.t in May - August - November, and
February of each official Year, Correct Rolls of the Family
Certificates Corresponding with the Amount of the receipts. -

23 Commanding officers of Stations are directed
on receipt of Communications of Casualties to give the necessary
information to the officers by whom the Families are paid, in
order that those payments, to which the Casualty Rolls refer
may be discontinued / altho' not notified by the Superinten-
-dent / and their Amount be with-held subject to the Orders
of the Superintendent to whom the Circumstance will be
reported by the officers paying the Families. The Superin-
-tendent in such cases will make a proportionate reduction
from the Amount of the receipt which he transmits for the
payment of the Families in the Ensuing Month, and
such remarks will be inserted in his Books as may suffice
at any after period to explain the Circumstance. -

24 The only legitimate Claims on
the

the Government for losses occasioned by Family Certificates are those on account of payments which may be made to families for periods between the dates of Casualties and of the reports thereof reaching the superintendent or officers Commanding Stations - On the occurrence of such Claims the superintendent will make out an abstract for the Amount and transmit it, accompanied by authenti=cated Copies of the Casualty Rolls and a declaration upon honor of the date when he received them, to the Secretary to the Commander in Chief, in order to be laid before Government with such remarks regarding the delay of Communication of the Casualties, as Circum=stances may in His Excellency's opinion render necessary to enable the Government to decide as to the respons=ibility which may attach to officers under the 13th 14th and 16th Paragraphs of these Regulations -

25 When Claims of the above description are sanctioned by Government they are to be passed for payment by the Military Auditor General under the head of the service on which the Troops were employed, and the superintendent will present the abstracts -

to

to the Paymaster of the Presidency who will grant a receipt for their amount which is to be credited in his account Current to the Superintendent of Family Payments and the abstracts will be entered in his accounts of Disbursements as public Charges.

26 In all cases when it may be deemed expedient to authorize the payment of Family Certificates to be continued after the death of the individuals who granted them until the termination of the service on which their Corps &c. are Employed, it will be the special duty of the Superintendent to keep the accounts of such continued payments perfectly distinct from those of the regular family payments so as to prevent any difficulty in their adjustment on the return of the Troops to Quarters.

27 It will be the duty of the Superintendent to Communicate and Correspond with Corps, and Departments as also with Paymasters and with the Accountant General regarding any deficiencies or differencies which may occur between the payment to the Families and the Amount Credited on the same account and to supply every information and instruction which

which the Circumstances of the public Service may render necessary / altho' not prescribed by Regulation / in the same manner as if the payments to the Families were regulated by private Regimental agency.—

28 The Superintendent shall keep Books in which regular accounts / Debtor and Creditor / will be kept of the Amount of the receipts which he transmits to Commanding and Staff Officers, and of the Credits given on the same account by the different Field or Expedition Paymasters, as also an account for each Corps, Department &c. which may be permitted to leave Family Certificates, and it will be the Superintendents duty to bring to the early notice of the Commander in Chief for the information of Government, the conduct of any officer who may neglect to make the necessary or prescribed Communications for the Superintendents' information.—

29 The Superintendent of Family payments will furnish the Accountant General monthly with an account current exhibiting the receipts and payments of the Department

under

under his superintendence from the documents to be transmitted to him under the 10th Para of these Regulations, and from the receipts for Advances forwarded by him in each month for the payment of the families - the names of the Paymasters to be always specified in the accounts - Current -

30 The superintendent will bring under the earliest examination in such manner as Circumstances may require any differences which may occur between the amount of receipts and Payments on account of Family Certificates of any Corps, Department &c. in order that they may be adjusted while the means exist of obtaining information from the parties concerned -

31 In the event of the decease of a person to whom a Family Certificate may be made payable - of a Family Certificate being lost - transferred, or having got into the hands of a person whom there may be reason to suppose is not entitled to receive payment of it, in all such or other Cases of doubt which may occur, the officer paying the Families shall represent the nature of the difficulty to the superintendent of Family payments who will inquire into

into the circumstances and issue new Certificates authenticated by his signature, or sanction or withold payment of the old as shall appear to him to be just, until reference can be made to the person on whose account the Certificate was issued — should Circumstances render it necessary on such occasions, the superintendent will submit the questions that may arise thro' the medium of the Commander in Chief for the consideration of Government.—

32 In order that due provision of Funds may be made in regard to Family payments, ~~payments~~ the superintendent shall notify to the Military auditor General on or before the 15th of each month the particulars and amount for which he will have occasion to issue receipts in the following month, specifying the stations and amount payable at each.—

33 The superintendent shall keep copies of all the correspondence of his office and regulate his Books in such form as may enable him at all times to state for the information of Government the amount due by each Corps, Department and

staff

staff office on account of Family Certificates and to whom in all such cases responsibility may attach under these regulations for any deficiencies or differences between the amount of payments and stoppages -

34 As in this particular branch of the Pay Department many circumstances may occur to which these Regulations do not apply, the superintendent will from time to time suggest to His Excellency the Commander in Chief such modifications or additional regulations as experience may shew to be calculated to improve the system of his office -

35 When references to Government connected with the stoppages on account of Troops serving under the Presidencies may become necessary, they will be transmitted by the superintendent thro' the medium of the accountant General with every necessary information to enable the Government to decide on the questions submitted -

36 When Troops are proceeding on Field, or Foreign Service (particularly the latter) it will be the superintendents' special duty to -

Communicate

communicate to adjutants Commanding officers &c. in writing, and also personally, if practicable every necessary information for their guidance regarding Family payments, adverting particularly to the Troops being paid by Paymasters of other Presidencies - to the removal of individuals from one branch of the service to another - and also to the removal of the Commanding and staff officers themselves, so as to enable them to adopt the most efficacious measures for preserving regularity in the accounts.-

37. Family Certificates will be payable in all cases at the periods prescribed for the payment of the Army.-

38 The proportion of the Pay of Native Commissioned and non Commissioned officers Drummers and Fifers proceeding on Field Service to be appropriated Monthly for the support of their Families shall not exceed half their net Pay - that for the support of the Family of a Trooper shall in no case exceed Six Rupees, nor that for the support of the Family of a Sepoy four Rupees per Month.-

Native

39 Native Troops proceeding on Foreign Service are permitted to leave Family Certificates for a proportion of their Pay not exceeding two-thirds of the Pay and allowances of the Native Commissioned Non Commissioned officers, Drummers and Fifers, and six Rupees of that of the Privates and Puchallies.

40 No stoppages will be made from the arrear of Pay which may be due to Native Troops and followers who may die on service, on account of the broken period of the month in which such casualties occur. When European Non Commissioned or Privates die before the 15th of a month no arrears can be due on their account as they are paid in advance, but if they die after the 15th as the pay of the following month is in such case authorized to be drawn, the regular stoppages on account of Family Certificates are to be made therefrom, that is net pay only to which such individuals would have been entitled had they lived will be issued for the subsequent Month.

41 All calculations relative to Family payments will be made at the exchange of

of 45 Fanams to the star Pagoda -

42 It will be the special duty of the superintendent to effect the earliest practicable adjustments of the accounts of Family payments and to adopt such other measures as maybe calculated to give efficiency to the Department placed under his charge -

43 The superintendent shall obey all orders which he may receive from the Military auditor General regarding the duties of his office -

44 The superintendent is authorized to frank Letters on the public service -

45 Major Vans Agnew is appointed superintendent of Family payments -

46 It having been ascertained that there are at present many Family Certificates in course of payment under this Presidency which were granted by Troops proceeding on Foreign or Field Service which has long since terminated, & also by Troops not now in situation to entitle them to that indulgence, the Honble the Governor in Council is pleased to direct that payment shall cease from the 31st Instant on all Family Certificates granted by other than the undermentioned Corps Departments & Individuals, & that the future payment of their certificates hereby authorized to be continued shall be brought by the superintendent of Family Payments under the new system from the 1st of the ensuing Month -

Their personal staff allowance will commence from the date of receipt of His Excellency the Commander in Chiefs Order, to join, of which information will be given to the Military Auditor General by the Quarter Master General of the Army, and the Charge for office Establishment will be supported by a certificate from the

Para 1

The Right Honourable the

the Governor in Council is pleased to Establish the following regulations in addition to those published in General orders dated the 22d. July last, for the conduct of the family payments of the Army.-

2 It is to be considered a general Rule that Rolls of all Casualties, arising in the option or private convenience of the parties interested shall be despatched so as to reach the superintendent on or before the 20th. of the month preceding that, in the payments of which they are intended to occasion alterations.-

3 Casualty Rolls of the above description omitted to be sent off in time to be received by the superintendent on or before the date specified in the foregoing paragraph, shall not have any effect on the Amount of the stoppages to be made from the Abstracts of Corps &c. payable in the next month, but will lay over for the following month.-

4 All persons granting and holding Family Certificates are to be Cautioned to give timely notice to their Corps, as well as to the officers in charge of the Families at the stations where they may

may reside, of the intended removal of the families from one place to another; a practice, however, which should be discouraged as much as possible, for of any other Circumstance affecting their Certificates, should they neglect to do so, it is to be clearly understood that the stoppages for their Certificates must be continued and that the risk and difficulty of recovering any Amount overpaid will devolve on them, and not on the public, which in granting the indulgence of this favorable mode of remittance to the Troops, shall not be subjected to any loss or embarrassment from the negligence of the parties availing themselves of it.

5 Under this Regulation all casualty Rolls of the description referred to should be despatched by Corps &c. in the Deccan on or before the 10th of each month, and it will be proper that Adjutants of Corps, Commanding officers of Detachments and heads of Departments should decline to forward any rolls not given in to them before that date, untill the following month.

6 Corps &c. on Foreign Service, or in distant

distant situations in the Field in India, must allow ample time for their Communications to reach the Superintendent before the usual stoppages on account of their Family Certificates shall be reduced or discontinued

7 Rolls of Casualties arising from Public causes, viz.t Deaths, Desertions and removals from the Service, either by discharging, Invaliding or Pensioning must of course be dispatched on the day on which such occurrences may take place, but the date and occasion of the Casualty, are in these cases to be particularly stated in the Rolls.—

8 The Copies of receipts alluded to in the 10th Paragraph of the G.O. of the 22d. July last shall in future, to be attested by Paymasters themselves.—

9 Casualty Rolls need not under the 12th Paragraph of the above orders be transmitted to the officer Commanding the Troops at Fort St. George, the Superintendent being on the spot, and the Copies sent to him being therefore sufficient.—

10 Such new forms as the Superintendent may find it necessary to direct from time to

to time, shall be observed by all officers concerned in family payments.-

11 Arrangements to be made in all cases of men absent from their Corps or Departments for the amount of their Family Certificates being included in the monthly remittances to the Superintendent from the Adjutant or officer Commanding or in Charge-

12 It having been represented in reference to the 23d. Paragraph of the G.O. 22d. July 1814 that the officers paying Family Certificates may have frequent occasion in order to prevent Confusion of accounts to remit small sums of money from one station to another - those officers are authorized in such cases, on paying the amount into the Paymasters' hands, to obtain Bills on the Accountant General at sight for such sums the particulars of the remittances to be in all cases notified to the Superintendent.-

Fort St. George 28th October, 1814.

G. O. By Government,

The Right Honourable the Governor in Council is pleased to publish the following extracts of letters from the Honourable the Court of Directors, for the information of the Army.

Letter dated 3d September, 1813.

To England 6th Feby 1810. 69 - Explanation furnished relative to the donations granted to wounded officers. } 14

"In authorizing the extension of His Majesty's Indulgence to wounded officers, to officers in our service we intended to confine ourselves strictly to the practice of

of His Majesty's Army and we direct that in future such donations be limited to a grant of one years' pay only.-"

15 "The remark of your Military Auditor General" that it was a generally received idea that a Captain's Pay and allowances of Gratuity and Half Batta is considered as forming a part of his regular pay and subsistence" we Consider to be incorrect - By Pay or subsistence as it is sometimes called, we always understand and mean Pay only, exclusive of Gratuity, Batta, or any other allowance - we desire your attention to this remark in future.-"

26 "Your Resolution on this subject was entirely proper"-

27 "Having in our Military Letter dated 9th of May 1810, Para 5 authorized you to make a very liberal annual contribution to the Military Fund, one of the objects of which was to provide a passage

147 & 8. application from the managers of the military widow's Fund for Passage money for the widow of the late Revd. Dr. Kerr - rejected for reasons stated - The sum of 371 S. Pags. 9f. 12d. on account of her Pension paid into the Treasury by the Secretary to the Military Board -

a passage to Europe for the widows and Children of officers dying in distressed Circumstances, we do not expect to have any further demand made upon us for these purposes".-

300 Surgeon Alfred Jones having exceeded his Furlo by 12 months, his name struck off the medical List.

67 "In our military Letter to Bengal dated 27th February 1811 Para 48 - we directed that in all cases of officers exceeding their Furlough to Europe their names should be continued on the strength of our Army, until our directions should be signified respecting them - we intended that this Regulation should apply to Surgeons and Assistant Surgeons, as well as officers, and we direct that hereafter it be so construed and applied at all the Presidencies.-

68 With respect to Mr. Alfred Jones, as he has not returned to his duty according to our directions, we acquiesce in our Resolutions respecting him"

him" -

372 & 5. - Death of the Physician General, Doctor James Anderson & appointment of - Doctor Terence Gahagan to be President of the medical Board with the Title of Physician General. -

82 "In consideration of the very long and meritorious services of Doctor Gahagan, we shall make no objections to your having permitted him to retain the Title of Physician General during the time of his continuing at the Head of the medical Board" -

83 "Doctor Gahagan having now retired from the service, the Title of Physician General will of course be discontinued, in compliance with our former directions. -

527 - Memorial from Lieut. Hanson who was transferred from the Establishment of St. Helena on the subject of his rank.

125 "a reference to the 4th" - Class of Cadets of the season 1814, in which Mr. Hanson stands second will enable you correctly to adjust the Rank of that officer. -

We -

642. Lieut. Colo. Montresor, having offered his House at Secunderabad for sale as a proper quarter, the Commanding officer at that Station authorized the purchase, Amount Pagodas 3000 — " —

151 "We do not perceive any just principle upon which the purchase of Lieutenant Colonel Montresors' House at Secunderabad could be made" —

152 Lieutenant Colonel Montresor himself states indeed that it is the Custom both at your Presidency and at that of Bombay to furnish officers situated like himself with Houses — We were not acquainted with any such custom, and must entirely disap= =prove it" —

153. "All officers in the situ= =ation of Lieutenant Colonel Montresor receive Full Batta and Tentages, and in most cases, if not in all even the Batta of the next superior Rank. There can therefore be no just plea= for this additional accommo=dation at any of the Presidencies (none such is

is made in Bengal, and we direct that it be immediately withdrawn not only at Secunderabad but at all other places."

Reply to separate Letters dated 15th Decr. 1810 - 12th Feb.y 1811 & 29th Feb.y 1812 - Revision of Staff appointments and Institution of a Commissariat. Refers to the minutes of the President and Comm.r in Chief & to the Drafts of the General Orders & Regulations for the details -

184 We have perused, with the highest degree of satisfaction the very able minutes of Sirs. George Barlow, and Lieut. General Hewett, on the important subjects detailed in this letter, and in your Military Letters of 12th February 1811 and 29th February 1812, and we are satisfied that The Company have derived, and we hope will continue to derive, the most extensive advantages from the Establishment of a Commissariat, and the other arrangements treated of in these Letters" -

185 "From your Letter of the 29th February 1812, it appears that the savings effected by the Commissariat in one year amounted to Pags.das 166283 and that

that still greater annual savings may be hereafter expected.-

186 "Under these circumstances we feel ourselves called upon to express in very strong terms the deep sense of obligation which we feel to the late Commander in Chief in India, Lieut. General Hewett, for having suggested and carried into effect the Institution of a Commissariat in Bengal, and at your Presidency, an arrangement which has been extended to Bombay to the great improvement of the efficiency of the Army, as well as a material reduction of its expenses at all the Presidencies-

187 Your Commissary General Major Morrison is also entitled to our highest approbation for the eminent zeal, ability, and success with which he has carried the

Com

Commissariat arrangements into execution.-

188 The only part of those arrangements upon the propriety of which we entertain any doubt, is your resolution to give official Rank to the Commissary General with a seat at the Military Board.-

189 "From the Bengal correspondence we perceive that a similar arrangement took place on the institution of a Commissariat at that Presidency. This might perhaps however have been induced by the circumstance of that officer, who was selected for the office of Commissary General having already the official Rank of Lieutenant Colonel, together with a seat at the Military Board in virtue of his former office of Quarter Master General, from which it might not have appeared advisable to remove him."

190 We perceive however that

an

on the extension of the Commissariat System to Bombay. The officer appointed to the head of it although allowed the official Rank of Major was not made a member of the Military Board at that Presidency."

191 "We have already expressed our opinion that there exists no adequate reason for giving official Rank to the Military Auditor General at any of the Presidencies, and we have in consequence directed it to be withdrawn at Bombay and declined granting it in Bengal."

192 "We are also of opinion that there is no necessity for Conferring official Rank on the Commissary General, and we accordingly direct that it be not hereafter granted to that officer, we shall not however order it to be recalled in the present instance."

With respect to giving the Commissary General a seat at the "

Military

Military Board, we are of opinion, that it is objectionable upon the general principle, that no officer should sit in judgement on be called upon to act as a Check and Controul over his own supplies, and we are not aware of any advantage likely to arise from such an arrangement which would at all counterbalance the infringement of this principle. We therefore direct that the Commissary General be not allowed a seat at the Military Board."

Letter dated the 14th April, 1814.

2 "Having had occasion to transmit to the Presidency of Bengal several Orders that are equally applicable to yours, we send a Copy of them herewith a number in the Packet and direct that they be strictly attended to at your Presidency also."

3 From the Testimonials produced to us in favour of the Character of

of William Sidney Mitchell late "
Serjeant in the Carnatic European Veteran
Battalion on your Establishment, we have
been induced to permit him to return to
your Presidency with a view to your "
employing him as a Serjeant should you
see it proper so to do".-

4 "We have received a Letter
from A. Cunningham Esqr. His Majesty's
Deputy Consul General at Rio de Janeiro
advising us that Captain William Coote
Campbell of the 3d. Regiment of Cavalry and
Captain Richard Burn of the 2d. Regiment
of Native Infantry on your Establishment
died at sea on board the Portuguese India
ship Soze Americano, the former on the
19th of May, and the latter on the 26th

Extract Military Letter to Bengal
Dated 16th February 1814

Letter from 3d Decr 1811.
Submitting a memorial from major General Palmer in behalf of himself and the other major Genls of the Bengal Establishment who are not employed on the staff, soliciting the

Para 92 "Being at all times willing to shew every proper degree of indulgence to old and meritorious servants, We authorize you

the restoration of the Batta of Colonel-

you to allow The Major Generals in our Service whilst residing in India, but not employed on the staff to draw the Batta of their Regimental Rank in addition to their Pay and offreckonings when entitled to the latter allowance"-

93 "This allowance to commence "from the date of it's notification in General Orders"-

Letter from 25th February, 1812. (1 @ 7) "Major General John Garftin Continued in Command of the Corps of Engineers notwithstanding his promotion"-

Para 128. "Having reconsidered our former Orders on the subject of the Employment of General Officers of Engineers and artillery (as contained in Paras 88 @ 93 of our Military Letter to Bengal dated 12th July 1805) we have for the following reasons, as well as those stated in the Paras to which we are now replying resolved to alter the Regulations heretofore laid down on that subject-"

129 "The operation of the military arrangements

arrangements of 1796, which regulates the promotion of officers in our Service after attaining the rank of Lieutenant Colonel by the General Brevets issued by His Majesty necessarily throws out of active Employment all those officers of the Line who attain the rank of Major General, and who are not selected to fill the situations and to exercise the duties of General officers on the staff."

130 "It was an erroneous extension of this Rule, we conceive, as applied to the Corps of Artillery and Engineers, which led, in its consequences to the occasional nomination of officers of these Corps to be Generals on the staff, not only to the prejudice of the officers of the line, but to the obvious disadvantage of the Public by detaching them from those branches of the service in which their experience was likely to be most useful."

131 "We understand that, although it is not the practice of His Majesty's Service

service to invest the officers of Engineers and Artillery with the Command of Districts, yet neither is it the practice to exclude them altogether from Employment, after they have attained the Rank of General officers In this rank they are still eligible to be called into service and to exercise the functions of command limited however to the Duties and Details of their own particular Corps."

132 "Under these considerations we have thought it advisable to annul the existing Regulations on this subject both as they respect the eligibility of officers of Artillery and Engineers to be employed on the General Staff, and the prohibition against their continuing to conduct the details of their respective Corps after promotion to the rank of General officers."

133 "We therefore direct that no General officer of Engineers or Artillery be

be hereafter put upon the General staff of the Army, but that you select from among the General officers of Engineers and artillery, and the officers actually at the head of those Corps at the time, whether General officers or not, such officers as you may think most fit to conduct the duties of those Corps respectively."

134 "Such General officers of Engineers and artillery will of course be relieved every four years according to the practice which prevails among the General officers of Cavalry and Infantry selected for the staff, unless some special reason shall occasionally exist for deviating from this Rule, of which of course you will duly advise us."

135 With a view to prevent any interference with the Command of officers on the General staff of the Army we direct that when General officers of Engineers or artillery shall be appointed to the Command of their respective Corps, they shall be stationed in the

the Garrisons of Fort William, Fort Saint George and Bombay respectively -"

136 "As the Duties of the officers in Charge of the Engineers and Artillery will be exactly the same whether General officers or not, we direct that no addition be made to the allowances at present drawn by the Commandants of either of those Corps" -

137 "On this occasion we think it proper to repeat our orders of the 3th January 1796 and 21st January 1807 that the officer in Charge of the Engineer Corps, shall have no Concern whatever in Public Buildings or Works or in the Materials used therein and to direct further, that if any officer succeeding to the Charge of the Engineer Corps shall at the time of such succession have any concern of that nature he be immediately relieved from it" -

138 "You will consider these orders as having effect from the date of your

receipt

receipt of this Letter, a Copy of which we desire you will send to the other Presidencies for their information and guidance"—

Letter from 25th February 1812 — 18/ Major George Hickson Fagan appointed adjutant General, with the official Rank of Lieut. Colonel vice Lieut. Colonel Ball, deceased.—

Para 139 "Having taken into our most serious consideration the numerous instances which have lately occurred of appointing officers of short standing and of inferior rank to the most important and distinguished situations in our Military service, and being convinced that such a practice is no less injurious to that subordination of mind on which discipline is founded than it is prejudicial to the interests and hurtful to the feelings of old and deserving officers, we have come to the following resolutions"—

1st No officer shall be eligible to hold the situation of Adjutant or Quarter master General, Military Auditor General, or Commissary General, who has not previously attained

attained the Rank of Major in the Army, either Regimentally or by the operation of His Majesty's Brevet."-

2dly "No officer shall be eligible for the appointment of Deputy Adjutant or Deputy Quarter Master General, Deputy Military Auditor, or Deputy Commissary General, who has not been at least Two years a Captain."-

3d "No officer shall be appointed to the situation of Assistant Adjutant or Quarter Master General who has not attained the rank of Captain."-

140 "We observe by your last Army List that Major Fagan is second Captain in the 25th Regiment of Native Infantry, and that his Rank of Major was merely official, he having for some time held the office of Deputy Adjutant General of your Army."-

140/A/ "Under the Regulations above

above prescribed Major Fagan would not have been eligible to the situation of Adjutant General, and We should have been glad that so important an office had been conferred upon some officer of longer standing in our Service".—

141 "as however We understand Major Fagan to be a very meritorious officer, that he officiated for some time as Acting Adjutant General and that he lost an Arm on Service, We shall not think it necessary to enforce the Regulations now laid down in his instance, but content ourselves with enjoining your strict attention to them on all future occasions"—

142 "We shall probably resume the consideration of this subject at no very distant period, with a view to the more extensive application of the principle now laid down for your guidance. In the mean time We desire that you will send a copy

of

of these Paragraphs to the other Presidencies for their information and guidance"-

Letter from 8th June 1812 - (1 & 3) Requesting Court's early attention to the sentiments of the Commander in Chief on the inconveniences arising from their orders of 7th September 1808 directing, "that "officers should "not be allowed "to retire in "India", and that the same may be revised, - also the Regulations for allowing Furlo' to Europe.-

Para 212 "We have perused with attention the adjutant Generals' Letter of the 14th March 1812, referred to in these Paragraphs, and for the reasons stated in that Letter, we authorize you to allow officers to retire from the service in India on the Pay of their respective Ranks after they shall have completed the regulated periods of service"-

213 "On all occasions of this nature, you will be careful strictly to observice the Regulations laid down in our Military Letter of the 6th June 1798 (Para 31): for the purpose of preventing the Clandestine sales of Commissions, our apprehensions of which formed the Chief ground of our Orders of the 7th September 1808, now cancelled".-

214 "With regard to the observations in the Adjutant Generals' Letter on the

the subject of Furlough, we have to observe that we have from time to time, imposed additional checks upon this indulgence and laid down Rules which we trust will be effectual in preventing its abuse among officers at home, and it is the duty of our several Governments in India to see that there is no abuse of it there".

215 "The case of Lieutenant Colonel Gahagan, as stated in the adjutant Generals' Letter /Paras 17 & 22/ is an instance of the abuse of the indulgence of the Furlo' Regulations in India, which ought therefore to have been checked by the Commander in Chief in the same manner as a similar abuse, when attempted by Lieutenant Colonel Hunter was checked as described in Paras 23 & 26 of the same letter".

216 "With respect to the cases of Lieutenant Colonels' Pine and Broughton we shall only remark that the latter was

was employed on duty by our Orders at St. Helena and cannot therefore, with any justice, or propriety be struck off the List of our Army and that the former of those officers Lieutenant Colonel Pine is detained as he represents and as we believe very much against his inclination a Prisoner in France"-

217 "In addition to the Regulations on the subject of Furlough which have been at various times passed by us and communicated to you, we have come to the following Reso-=lutions, and we are not aware that any further Regulations are necessary or can with propriety be added to those now in force, viz.t-

"That in future whenever the absence of a Military officer from India shall exceed the period of his Regular Furlo', no further leave of absence shall be given to him, upon the mere production of a medical Certificate, or other unauthenticated statement of circumstances, but that previous to such

Leave

leave being granted, proof of the statement made by the Party in support of his application shall be adduced, To the Committee of Correspondence by personal examination or by such other Evidence as shall be deemed fully satisfactory to the Committee."

218 "Also that Military officers wishing to avail themselves of the Provisions of the act of the 33d. of His present Majesty /sec: 70: Cap: 52/ as to the time of absence after which Civil, and Military officers may return to our service must arrive in India within five years from their departure from thence, or otherwise they will not be entitled to any Pay Rank or Military Authority, unless they shall have permission from us to return to India having previously proved to our satisfaction and to that of the Board of Commissioners for the affairs of India, that their absence was occasioned by sickness or infirmity or some inevitable accident".

Letter

Letter dated 29th April, 1814.—

2 "In our Military Letter dated 12th March 1813, we conveyed to you [Paras 2 & 3] our decision and Orders on the cases of some of your officers who had relinquished, and of others who had been dismissed from the service, in consequence of their reprehensible conduct in the late disturbances at your Presidency, and we have now to advise you that having reconsidered the case of major D. C. Kenny one of the officers adverted to in those Paragraphs, and having also taken into consideration the case of Lieutenant Colonel Robert Munro, we have come to the following resolution"—

3. "Although Lieutenant Colonel Robert Munro and major D. C. Kenny, appear to have been deeply implicated in the criminal proceedings of part of the Madras Army in the year 1809, and to have thereby rendered themselves unworthy of our notice, yet having taken into our consideration the testimonies

testimonies in favor of Lieutenant Colonel Robert Munro by his Commanding officer, and the strong recommendation of the Court Martial in favor of Major Kenny, as well as the contrite and penitent acknowledgement of both those officers and the punishment which they have already undergone, we have resolved that, as a special mark of the Court's lenity, Lieutenant Colonel Robert Munro and Major D. C. Kenny be now restored to the service and resume their former rank in it."

4

"Colonel Thomas Munro having been detained in this Country by our Orders beyond the time limited by act of Parliament, has our permission to return to his Rank on your Establishment. This permission has been sanctioned by the approbation of the Board of Commissioners for the affairs of India,

in conformity to act of the 33d of His present

12 "We have permitted Mr. George Jenkins whose name is included in the List of Rank of Artillery Cadets advised in our letter of the 22d. February last, to remain in this Country to qualify himself for the Corps of Engineers - we therefore direct that you erase the name of George Jenkins from the List of Rank abovementioned."

Letter dated 29th April, 1814.

To England 15th March, 1811 - 30. From the failure of Messrs. Chase & Co. for the sum due from them, on account of Columbo Prize money will only be recovered as directed in part.

3 "With a view to prevent losses of this Kind to the Company hereafter as well as with a view to the security of the interests of our Officers and Soldiers, we direct that the proceeds of all Prize Property be in future lodged in the Treasury and we authorize you to allow such a rate of Interest on these sums as shall at the time of deposit appear to be equitable and proper" -

The

119 "The orders which were communicated to you in para 9 of our Military Letter to Bengal dated 16th February 1810 (Copy of which we forwarded with our Letter in this Department dated 23d January 1811) relative to the allowances to be made to officers in our service detained Prisoners of war, were intended to be equally applied to officers serving in His Majesty's Army or Navy in India - we direct that all cases similar to Captain Owen's be hereafter decided by those rules" -

To England 13th April 1811 -

5 Military Board's reply to certain paras of Court's letter of 21st April 1809, forwarded -

171 "The explanations of the Military Board upon the several subjects referred to in this Para preclude the necessity of any further observation upon them except upon that which relates to the supplying officers with quarters at certain fixed rents" -

We

172 "We conceive it to be highly improbable that the Company can supply officers with Quarters at as low a rate as they can supply themselves even if the Quarters were always occupied and the rent consequently permanent."

173 "We are also of opinion that if even the expense of repairing the Quarters for officers at Walleyahbad and other places were covered by the rent received, it would still be desirable to relieve the Military Board and the Government from an unnecessary superintendence of buildings which the officers can with equal facility take care of themselves."

174 "Upon these principles the Government of Bengal some years ago directed all officers quarters not situated in Garrisons or fortified posts to be sold, and we have every reason to suppose that the Company has benefitted by that arrangement."

We

175 "We observe also that your Military Board themselves remark / para 10 of their letter dated 11th March 1811 / that, "at stations where there are no public Quarters the officers of the Army generally erect houses for their own accommodation and there can be little doubt but that this measure is conducive to the health and consequent efficiency of the Army."

176 "We therefore direct that all quarters erected for officers at posts not fortified under your Presidency be sold at such rates as may be recommended by the Military Board and approved by you"

The Right Honourable the Governor in Council permits Captain James Stuart Fraser of the 18th Regiment of Native Infantry, to resign the appointment of Town Major of Fort St. George -

to

to be kept open during such hours as they may fix and which will always be noted in Orders.-

19th. Canteens are invariably to be kept shut on Sundays, and holy-days, during the performance of Divine Service.-

20th. No Credit is ever to be given at any Canteen, but all articles must be paid for on delivery.-

22d. Canteens are to be considered exclusively for the use of the soldiers of the Regiment, to which the Canteen is attached, and no soldiers of other Regiments are to be permitted to enter, without a regular pass, but at all stations, where European Detachments may be doing duty and which from their limited numbers, cannot have a Canteen to themselves. The officer Commanding will make such arrangements with the Corps to which the Canteen belongs, as he may consider most judicious, and best

best adapted, to ensure the Non-Commissioned Rank and File, of such Detachments, a due and fair participation in the Comforts and advantages of the Canteen.-

23d. The issue of Daily Drams to the European Troops will be continued at the fixed rates, but Commanding officers will be careful to exclude from that indulgence (for such periods as they may think proper) all soldiers who may abuse it by selling or bartering their Drams.-

24th Men confined to the Guard or Gaol house, or such others as Commanding officers may, as a punishment, exclude from the daily Indents for Arrack, are not to be allowed during such period, to receive any supplies from the Canteen.-

25th Care must be taken, that the daily Indents for Arrack, include only such men, as will make a proper use of it, and Men who may desire half allowance from any cause will be included accordingly.-

26th No Individual who may appear to be intoxicated, is to be permitted to remain longer in a Canteen, and all persons attending a Canteen, are

are to be Cleanly dressed, either in Regimentals or fatigue Dress as may be established Regimentally.-

27th. Gambling is to be strictly prohibited in every Canteen, but playing and every kind of amusement consistent with good Order and decorum is to be encouraged as much as possible.-

28th The opening and shutting of a Canteen is to be regularly reported to the Captain or Subaltern of the day, who will frequently visit the Canteen during their tours of duty, and report to Commanding officers respectively.-

29th Commanding officers will establish the most vigilant System of Control over the Canteens, and those entrusted with the accounts to prevent all unauthorized profit or advantage.-

30th. Canteen Serjeants are to be held responsible, that the greatest attention be observed, as well to neatness and Cleanliness in the apartments of the Canteen, as in the furniture, and utensils of it.-

31st. No Canteen serjeant is to be permitted to hold any other situation either Regimentally or otherwise.-

Canteen

32d Canteen Serjeants on particular occasions, and under the authority of Commanding officers, may furnish Dinners and suppers at the Canteen, and the Charges made on this account will be regulated upon principles of oeconomy, and moderate profit, approved of by the Commanding officers.

33d Canteens shall be open to all the regular and good soldiers, but the comfort and accommodation of them, shall be denied to, and withheld, from men of bad Character, those in debt, or such as are in the habits of making away with their necessaries.

34th No man on Duty is ever, on any Account to be permitted to enter a Canteen, unless in the execution of his duty, nor is he to be allowed to receive any thing from it.

35th The establishment of Canteens being made, with a view to the Comfort, Recreation, and health of the European Troops, it is expected that every exertion will be made to ensure Regularity, and a good internal oeconomy in their Management. Frequent

personal

personal inspections, and a vigilant superintendance by those who maybe entrusted with it, can alone ensure these important objects.-

The foregoing regulations are considered sufficiently comprehensive for the general Conduct of the Canteen Establishment, but Commanding officers are authorized to frame such further Regulations, as from time and experience they may find advisable, to ensure, Order, Regularity and decency of conduct, they will appoint such visiting officers, and guards as may appear necessary, and prescribe such Rules for the behaviour of Men frequenting the canteens, as well as for excluding such, as are unworthy, from irregularity, and disorderly habits as may be found useful and judicious.

The general superintendance, and watchful interest of officers in Command of Divisions, and stations, will greatly contribute to the fulfilement of objects so very desirable, and it may reasonably be expected, / indeed it can hardly be doubted, / that a wise and careful application of the Funds, procuring for the soldier every rational Comfort, Recreation, and

Amusement

amusement cannot fail of effectually checking, and finally eradicating a vicious propensity to excess, and shameful debauchery, by employing the soldier, and affording the well disposed, an opportunity of spending their leisure hours, with pleasure and advantage to themselves. -

The soldier will be gradually weaned from fatal intemperance, and inclination to vice, and those awful examples of punishment, the certain consequence of crimes, which but too often arise from the effects of degrading intoxication, will no longer exist nor tarnish the moral Character, and virtues, of the European Army on this Establishment. -

30th The situations for the buildings to be erected for canteens, will be fixed upon without delay by Officers Commanding Divisions and Stations in communication with, and under instructions from the Quarter Master General of the Army. -
