PREFACE.

THE present volume contains the monthly and annual statements of rainfall published by the various Local Governments for the year 1921, and gives the data of the monthly and annual rainfall of about 3,000 stations in India. Symon's rain-gauges were in use at the great majority of stations during the whole of the year, the only important exception being the Mysore rain-gauge stations, which are provided with rain-gauges of local construction. The rainfall is measured at all stations daily at 8 A.M.

It may be noted that these statements are prepared in most cases by local officers appointed by the Provincial Governments, and that they are published in the first place in the Provincial Gazettes. Copies are sent to the Meteorological Office, Calcutta, which arranges through the Government Press for their combination into volumes and for their issue to the recipients. The Meteorological Department is hence not responsible for the accuracy of the data. Great attention is, however, now paid to the correct registration of rainfall in India by the Provincial Governments, and it is believed that the returns are as a whole accurate and reliable.

The tables are arranged according to months and the provinces are arranged in the order adopted in the Indian Daily Weather Report and the other publications of the Meteorological Department.

They are drawn up in a form which as far as possible explains itself. It should be carefully noted that, although the rainfall is measured to hundredths of an inch, a " rainy day " is assumed to be that on which a tenth of an inch or upwards has fallen, and the figures in the column " Total number of rainy days " and " Normal total number of rainy days " are calculated on this assumption.

It may be noted that the available rainfall data of India were originally collected and tabulated in the Meteorological Office, Calcutta, in the year 1888, and that the average monthly rainfall and number of rainy days in each month were calculated from this tabulated information for all stations for which at least five years' rainfall statistics were available. These averages were used in the tables of volumes I to XI of this " Rainfall of India." In 1901 the additional data for the period from 1889 to 1900 were utilised and fresh normals based on the whole of the available data up to the year 1900 were prepared; in the great majority of cases the normals depended on the records of 30 to 40 years. The preparation of averages based on records as far as 1910 was begun in 1911, and from October 1911 inclusive these new normals were used in the returns of Assam and Eastern Bengal. The normals revised up to 1910 for the whole of India were published in 1913 in Volume XXII, Parts I and II of the Memoirs of the Indian Meteorological Department and were brought into general use from January 1914. A further revision of the rainfall normals from all the available records up to 1915 was effected in 1917 and the new normals were introduced from January 1918. In the returns of Bihar and Orissa revised normals of number of rainy days were used from August 1918 and in those of Bengal from December, while in the other returns the normals of 1910 were employed throughout the year.

G. T. WALKER,
Director-General of Observatories.

METEOROLOGICAL OFFICE,
ALIPORE (CALCUTTA),
The 1st April 1922.

Table of Contents for the Rainfall Volume for 1921.

1. Monthly and annual rainfall at rainfall-recording stations in Burma for 1921 .
2. Monthly and annual rainfall at 125 rainfall-recording stations in the Province of Assam for 1921 . . . . . .
3. Monthly and annual rainfall at rainfall-recording stations in Bengal for 1921 . .
4. Monthly and annual rainfall at rainfall-recording stations in Bihar and Orissa for 1921 . . . . . .
5. Monthly and annual rainfall at stations in the United Provinces of Agra and Oudh for 1921 . . . . . .
6. Monthly and annual rainfall at 192 rainfall-recording stations in the Punjab for 1921 . . . . . .
7. Errata to the table showing the monthly and annual rainfall of 192 rainfall-recording stations in the Punjab for 1921 . . . . . .
8. Monthly and annual rainfall at 39 rainfall-recording stations in Kashmir for 1921
9. Monthly and annual rainfall at 34 rainfall-recording stations in the North-West Frontier Province for 1921 . . . . . .
10. Monthly and annual rainfall at 85 rainfall-recording stations in the Province of Baluchistan for 1921 . . . . . .
11. Monthly and annual rainfall at 183 rainfall-recording stations in Rajputana for 1921
12. Monthly and annual rainfall at 127 rainfall-recording stations in Central India for 1921 . . . . . .
13. Monthly and annual rainfall at rainfall-recording stations in the Central Provinces and Berar for 1921 . . . . . .
14. Monthly and annual rainfall at rainfall-recording stations in the Bombay Presidency for 1921 . . . . . .
15. Monthly and annual rainfall at rainfall-recording stations in His Exalted Highness the Nizam's Territory for 1921 . . . . . .
16. Monthly and annual rainfall at rainfall-recording stations in the Mysore State for 1921 . . . . . .
17. Monthly and annual rainfall of the Madras Presidency for the year 1921 . .

MONTHLY AND ANNUAL TABLE OF RAINFALL RECORDED AT STATIONS IN BURMA FOR THE YEAR 1921.

RANGOON: OFFICE OF THE SUPERINTENDENT, GOVERNMENT PRINTING, BURMA. JUNE 1922.

Statement showing the Monthly and Annual Rainfall at Rain-recording Stations in Burma for the year 1921.

C denotes canal rain gauge station.
? denotes that no average have been fixed.

Table showing the monthly and annual rainfall of 192 rainfall-recording stations in the Punjab for the year 1921—continued.

1 District	2 Station	3 January: Actual number of rainy days	3 January: Actual amount of rainfall	3 January: Normal rainfall	4 February: Actual number of rainy days	4 February: Actual amount of rainfall	4 February: Normal rainfall	5 March: Actual number of rainy days	5 March: Actual amount of rainfall	5 March: Normal rainfall	6 April: Actual number of rainy days	6 April: Actual amount of rainfall	6 April: Normal rainfall	7 May: Actual number of rainy days	7 May: Actual amount of rainfall	7 May: Normal rainfall	8 June: Actual number of rainy days	8 June: Actual amount of rainfall	8 June: Normal rainfall	2 Station	1 District

C Denotes canal rain gauge station.

? Denotes that no averages have been fixed.

R Denotes slight rainfall.

Table showing the monthly and annual rainfall of 192 rainfall-recording stations in the Punjab for the year 1921—continued.

1 District	2 Station	9 July Actual number of rainy days	9 July Actual amount of rainfall	9 July Normal rainfall	10 August Actual number of rainy days	10 August Actual amount of rainfall	10 August Normal rainfall	11 September Actual number of rainy days	11 September Actual amount of rainfall	11 September Normal rainfall	12 October Actual number of rainy days	12 October Actual amount of rainfall	12 October Normal rainfall	13 November Actual number of rainy days	13 November Actual amount of rainfall	13 November Normal rainfall	14 December Actual number of rainy days	14 December Actual amount of rainfall	14 December Normal rainfall	15 Total Actual number of rainy days	15 Total Actual amount of rainfall	15 Total Normal rainfall	2 Station	1 District
