Proceedings of the Madras Government, Revenue Department,
17th March 1877.

Famine Relief.

No. 533-A. Read the following Proceedings of the Board of Revenue, dated 10th March 1877 :—

Read the following letter from W. LOGAN, Esq., Collector of Malabar, to H. E. STOKES, Esq., Secretary to the Board of Revenue, dated Calicut, 5th March 1877, No. 54.

In continuation of my letter, dated 19th ultimo, No. 38, I have the honor to forward, herewith, copy of a further communication from Dr. Hewston, and to inform you that I have authorised the Deputy Collector of Wynaad to erect sheds from the relief funds placed at his disposal.

Enclosure No. 1.

From A. HEWSTON, Esq., M.D., Medical Officer in charge of Dispensary, Manantoddy, to the President of the Local Fund Board, dated Manantoddy, 1st March 1877.

I have the honor to report that the number of attacks of cholera has considerably increased during the past few days, and the staff of hospital servants is insufficient to allow of proper attendance upon the sick. I therefore request to be permitted to engage the services of a ward cooly for the hospital.

2. This morning the hospital toty is attacked, and with so severe a type of the disease that his recovery is doubtful.

3. The type of the disease generally has assumed a more serious character, the beginning of the attack being marked by extreme prostration and the disease running a more speedy course.

4. The abandoned police lines have been cleared and made habitable for cholera patients, but appears to me they are unsuited for cholera patients and too near to the other police lines to be safe for the police inhabiting them; two rooms only are being occupied, and every precaution is taken to prevent the spread of the disease.

5. Should the number of admissions increase beyond the accommodation of these two rooms, I advise the erection of a tatty shed in a suitable and isolated position.

6. I intend sending a report for February as soon as I can get it prepared. There have been about seventy-five attacks in the locality during the month.

(True Copy.)

(Signed) P. A. COLE,
for Collector.

Submitted to Government in continuation of Board's Proceedings, dated 27th February 1877, No. ——.

2. The outbreak seems a severe one, and copy of the report will be furnished to the Surgeon-General in view to additional assistance being sent if possible.

FAMINE RELIEF, No. 795-A.
Cholera in Manantoddy, Malabar District.—Recording Board's Proceedings submitting report on the prevalence of —.

To

The President, Local Fund Board

Sir,

I have the honor to report that the number of attacks of cholera has considerably increased during the past few days and the Staff of hospital Servants is insufficient to allow of proper attendance upon the sick. I therefore request to be permitted to engage the services of a ward coolie for the hospital.

This morning the hospital toty is attacked, and with so severe a type of the disease that his recovery is doubtful.

The type of the disease generally has assumed a more serious character. The beginning of the attack being marked by

by extreme prostration, and the disease running a more speedy course.

The abandoned police lines have been cleared and made habitable for cholera patients but I advised the Tahsildar to expend very little upon them because it appears to me they are unsuited for cholera patients and too near to the other police lines to be safe for the police inhabiting them - two rooms only are being occupied and every precaution is taken to prevent the spread of the disease.

Should the number of admissions increase beyond the accommodation of these two rooms, I advise the erection of a tally shed in a suitable and isolated position.

I

I intend sending a report for February as soon as I can get it prepared. There have been about 75 attacks in the locality during the month.

I have &c.
