DATED 16th Sept 1895

[Despatch Abstract.]

Administration Report.

Reviewing the --of the Coimbatore District Board for 1894-95.

Statement No. III. giving particulars as to the qualifications of teaching Staff employed in the Carnlough District Board for 94-5

Classes of Institutions.		Number of Teachers employed.	Number possessing Trained Teachers' Certificates.	Number possessing Untrained Teachers' Certificates.	Number with General Education Certificates.	Unpassed Teachers.	Remarks.
Colleges	Government						
	Board or Municipal						
	Aided from Provincial Funds						
	Aided from Local or Municipal Funds						
	Unaided and Indigenous						
Secondary Schools.	Government						
	Board ~~or Municipal~~	31	19	4	8		
	Aided from Provincial Funds	22	10	3	1		
	Aided from Local or Municipal Funds						
	Unaided and Indigenous	1	..	..	..	1	
Primary Schools	Government						
	Board ~~or Municipal~~	179	130	12	30	7	
	Aided from Provincial Funds	19	5	1	10	3	
	Aided from Local or Municipal Funds	511	47	8	196	260	
	Unaided and Indigenous	531	17	1	95	418	
	Total	1294	228	29	348	689	

For an increase on the whole of 101 more teachers over the previous year there were 14 more certificated men & 79 more teachers with general education certificate which shows a good advance made in the improvement of the teaching staff particularly by the sessional school at work during the year. Still more than half the number of teachers were unpassed men showing the necessity for the continuance of the Sessional school for years to come.

Assistant Inspector of Schools &c &c

Note.—1. *In the column of remarks it should be noted whether the provision made in the budget for training teachers during the year under report had been carried out.*
2. *No comments should be made except as notes entered in the column of remarks.*
3. *This statement should be submitted in time to reach the Presidents of Local Boards or the Chairman of Municipal Councils concerned before the 1st May.*

Notes to be appended to Statement IV-A

Column—I: The increase of 0¼ mile over the lengths shown in Column 2 of the Statement for 1893-94 is the length of the Irrigation tank road constructed in the year.

Columns 11 & 12.—The variations from the entries in the corresponding Columns of Statement IV A. for 1893-94 are due to the following additions & omissions.

Additions (i.e additional roads or lengths added to the portion maintained in 1893-94.

Omissions.—(Roads omitted to be kept or lengths not kept in 1894-95 but prepared in 1893-94)

Village roads.

NOTES.—(1) This statement should show only the Panchayats in which vacancies have occurred or appointments have been made during the year.

(2) In the last column—

(a) the cause of vacancy in each case;

(b) the reasons for the removal of members or chairmen by the President of the District Board under the power delegated to him in G.O., dated 17th May 1894, No. 889 L;

and (c) the reasons for appointing an official other than a Medical officer should always be stated.

(3) It should be remembered that official members do not vacate their seats on the Panchayats by reason of their transfer to other localities. Their resignations should therefore be invariably obtained before their places can be filled up.

2. Local Boards and Union Panchayats

The District Board held twelve meetings as in 1893-94, and the attendance of the members continued to be fair, though the decline in that of the non-officials which is stated to be due to delays in filling up two of the vacancies which occurred during the year among them. The Taluk Boards met a sufficient number of times, and the average attendance of the members, except that of the officials on the Erode Board, was, on the whole, good. As in the previous year, there were twenty-four Union Panchayats at work, and they met on an average four times each against the fifteen. It is to be regretted that the Panchayats of Perundurai and Aranarkurichi, which however have since been abolished, failed to assemble once a month as required by section 129 of the Local Boards Act. The average attendance of members, except those of Singanallur, Pollachi, Aldamalpet

Pollachi

have been irregular for the last three years in spite of repeated remarks in the annual reviews,

Gopichettipálaiyam and Kempanayakan-pálaiyam. ~~Panchayats~~, was good. The ward system of supervision was in force in eighteen Unions against seventeen in 1893-94, and it is reported to have worked well in seven of them and fairly in another. ~~The outlying hamlets of the Unions should also be provided with conservancy establishments, and if this is not possible, proposals should be submitted for excluding them from the Unions.~~ The ~~working~~ administration of the Taluk Boards and Union Panchayats is reported to have been, on the whole, satisfactory.

Receipts (1) ~~The collections under land cess amounted to~~ but the 94 per cent of ~~the demand~~ it was collected, against 93 in 1893-94.

There were twelve toll gates as the previous year. ~~and it is satisfactory that~~ the whole of ~~the demand under tolls~~ it was realized within the

The demand under land-cess decreased considerably ~~which~~ owing to the absence of arrears, ~~was much less decreased considerably~~.

The demand under this head was also less than in 1893-94, in which year it was exceptionally high, but

(3) The demand under house-tax ~~was~~ levied ~~in twenty Unions~~ at the maximum rates in thirteen Unions and at half rates in ~~the remaining~~ seven others against eleven and eight respectively in the previous year. The collections amounted to ~~only 80~~ eighty per cent of the demand against 78. They were good in nine Unions, fair in two others and very poor in the remaining nine, especially in Singánallúr, Palladam and Kempanáyakanpálaiyam, where only 38, 39 and 27 per cent of the respective demands were realized. These unsatisfactory results are clearly due to want of ~~diligence~~ energy in ~~the~~ collection ~~of the tax, as shown by the~~ for as the President remarks, ~~for~~ very few ~~small number of~~ distress warrants were issued in several ~~of the~~ Unions, in which ~~where~~ the balance was considerable. ~~These warrants~~ Coercive process was ~~were~~ issued in 630 cases but property was distrained in only 135 cases and sold in ~~21~~ only twenty one, the corresponding figures for the previous

He is hoped that now that the attention of the Prests. of the Taluk Boards concerned ~~is~~ has been mirted to the matter there will be an improvement in the current year.

being 580, 211 and ~~35~~ thirty-five. A large percentage of the houses ~~escaped taxation~~ in the Singánallúr, Kumanmuttúr and Kurichi Alnions ~~escaped taxation~~ paid no tax because the panchayats did not ~~tax~~ assess houses valued at less than Rs. 50, ~~while~~ and 250 houses in Véttagáranpudúr were exempted on account of poverty, but no explanation has been offered for the fact that 32 and 36 per cent of the houses in the Kempanayákanpálaiyam Bhavani Alnions respectively were not taxed.

(4) The fee system was newly extended to three markets and was revived in another, ~~There~~ and fees were thus ~~27~~ levied in eighty seven markets ~~in~~ ~~which fees were levied~~ against ~~83~~ eighty three in the previous year; ~~but~~ The income under this head fell, however, ~~was only~~ fell from ~~Rs. 35,983 against~~ Rs. 36,083. to Rs 35.983.

The outlay on public works connected with these institutions rose from Rs. 26,574 to Rs. 48,151 and the balance to their credit at the end of the year was reduced from Rs. 6,926 to Rs. 3,677. The construction of the new market at Pollachi was completed within the year at a total cost of Rs. 20,277, which was met by a loan from the District Funds, but it was opened to the public only from the beginning of the current year.

(5) The President is requested to quote the authority under which fees for licenses levied under the Places of Public Resort Act ~~were issued~~ in Aldamalpet ~~and~~ were credited to the Alnion funds.

(6). The condition of the road avenues is reported to have been good, but the revenue derived from them seems small. The Pres. Dr. Bd. will be requested to look into the matter & ascertain whether the rents derived from leasing the produce of fruit trees cannot be increased.

4. Expenditure. (1) Public Works. The percentage of expenditure to allotment under this head was 95 against 96 in the previous year. Village roads received greater attention, the outlay ~~thereon~~ upon them having risen from 14.5 to 16.7 per cent of the total expenditure on ~~roads~~ communications. The general condition of the roads is stated to have been good. The proportion of the outlay to allotment under buildings was again unsatisfactory, ~~while~~ but that under Miscellaneous Public Improvements was fair. The plantation

or about ~~50~~ fifty per cent of the income derived therefrom against 84 in the previous year. ~~The avenues are however stated to have been in very good condition.~~ The cost of the Local Fund Engineering establishment was ~~16~~ sixteen per cent of the outlay on public works incurred by that agency against ~~22~~ twenty in 1893–94.

(2) Education. As in the previous year, there were ten Inspecting schoolmasters. ~~and~~ Their work should on improvement ~~over~~ on that in 1893–94. The five sessional schools maintained by the District Board were attended by ~~65~~ sixty five students ~~of whom 62~~ of ~~three~~ sixty two of three who appeared for examination ~~and~~ ~~but~~ only forty seven ~~47~~ passed, ~~For want of a trained teacher~~, nearly one half of the number ~~presented for examination~~ sent up from the Satyamangalam and Kollegal schools having failed ~~failed~~ owing to the teachers at these places being untrained. The Taluk Boards continued to maintain five secondary schools — three on the salary system and two on the salary result

attendance at these [illegible]

the Matriculation examination were worse than in the previous year, only five students having passed out of ~~22 who~~ twenty two ~~appeared~~ sent up against six out of sixteen. ~~in that year. From these schools 34~~ Of twenty four students appeared for the Lower Secondary examination ~~and~~ sixteen passed against nine out of ~~27~~ twenty seven in 1893–94. There was an increase in the number ~~and attendance~~ of the Boards' Primary ~~institutions~~ schools, + in the attendance at them, as shown in the margin; but only 2,700 students passed out of 3,469 who ~~appeared~~ went up for the several standard examinations, the corresponding figures for the previous year being 2,757 and 3,324. The number of schools aided from Local Funds was nearly the same in both years, but the attendance at them and the percentage of passes ~~therefrom~~ at the grant examinations fell from 10,776 to 10,277 and ~~81~~ eighty-one to ~~80~~ eighty respectively. Only 92 per cent of the allotment for grants of all descriptions ~~were~~ was utilized within the year. The total number of boys under

from these ~~schools~~ institutions who

~~The Govt. trusts that the Boards will be successful in their efforts to render these institutions schools more nearly self-supporting, as the percentage of the local fund income spent upon education is already high.~~

	Schools.	Pupils.
1893–94	108	4,675.
1894–95	113	5,166.

instruction in the schools maintained and aided from Local Funds was 10.5 per cent of the male population of schoolgoing age against 10.7 in 1893-94, the average for the Presidency in that year being 13.4.

(3) Medical Relief. ~~The~~ Two new dispensaries were opened during the year at Nerinjipet and Hanur ~~were newly opened~~ and ~~the existing~~ those at Gopichettipalaiyam and Aravakurchi were converted into hospitals ~~during the year under report. There were thus~~ Ten hospitals and eight dispensaries were thus maintained by the Taluk Boards against eight of each ~~class~~ in 1893-94, ~~besides the~~ Besides these, two Women and Children's dispensaries were opened at Pollachi and Karur under female apothecaries recommended by the Dufferin Fund trained by the Dist. Bd. Committee. The Govt. is glad to note that both of these were popular and ~~that~~ the Dist. Bd. ~~has given scholarships to a two other~~ would do well to consider the advisability of giving scholarships to some more of the students under the Committee.

1892-93	89,784
1893-94	104,339
1894-95	123,971.

~~cated in a separate building from 1st September 1894 and placed in charge of the female apothecary trained by the District Board.~~ The steady increase in the number of patients treated in these medical institutions, ~~as shown in the margin~~, testifies to their growing popularity. As

68

in the previous year, there were five midwives, but the number of ~~labour~~ cases attended by them was only 234 against 319, ~~the decrease being attributed to the absconding of~~ as two of them absconded ~~women~~ and ~~the difficulty was experienced in replacing place of one of them not having been~~ ~~were~~ could not be ~~at~~ replaced ~~filled up for want of a caste midwife.~~ without difficulty.

Every endeavour should be made to ~~secure~~ obtain better results in the current year.

(4) Vaccination. The ~~total~~ reported numbers of successful operations and of those on children under one year of age were 28.6 and 13.9 respectively per mille of the population, the corresponding figures for the previous year being 25.5 and 12.0, ~~But the~~ quality of the work turned out showed a further retrogression, the reported percentage of the successful cases having fallen from 84 to 78. ~~This decline is~~ ~~for reasons~~ ~~from causes~~ ~~however~~ For reasons explained in para. 44 of the President's report, the

The Govt. trusts that such arrangements will be made in the current year as will prevent this branch of the Local Boards' work from still

(5) Sanitation. The expenditure under this head was 96 per cent of the allotment

allotment against 101 in the previous year.

The important subject of the improvement of water-supply unfortunately ~~and village sites~~ received less attention and it is hoped that Presᵗ. of Taluk Boards will not again allow allotments under this head to lapse. The District Medical and Sanitary officer again visited nine Taluk headquarter stations and ~~4~~ he inspected forty-six villages against ~~ten and 70 respectively~~ seventy six in 1893-94. ~~It is stated that~~ The first seven paragraphs of his report might with advantage have been condensed. the Taluk Boards have, in some instances, adopted such measures to remedy the Sanitary defects pointed out by the Inspecting officers, as the funds at their disposal permitted.

5. General Remarks. The year closed with a balance of Rs. 48,676. Of this sum, however, Rs. 417 appertained to Unions, Rs. 6,885 to endowed institutions and Rs. 39,921 to debt heads, leaving only Rs. 1,453 available for general purposes.

The President's report is as usual full and clear. Except in regard to Vaccination which was its weak point in 1893-94 also the administration of local affairs continued to be satisfactory.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper :—

From HERBERT BRADLEY, Esq., President, District Board, Coimbatore, to the Chief Secretary to Government, dated Coimbatore, 8th July 1895, Disposal No. 585-D.B. of 1895.

I have the honour to submit the report on the working of the local boards in the Coimbatore district for the year 1894–95 adopted by the district board at its meeting held on the 29th June 1895.

2. The prescribed statements and the District Medical and Sanitary officer's report on the working of the medical institutions accompany.

I.—General.

3. *District Board.*—The board had its maximum strength of 32 members on the 31st March 1894. Of these fourteen held office throughout the year, and eight were reappointed after brief intervals. The remaining ten ceased to be members—six officials (three *ex-officio*, one nominated and two elected members) were transferred from their stations, three nominated non-official members left the district and resigned, and an elected non-official lost his seat owing to the expiry of his term of office on the taluk board. Mr. Fernandez, the Vice-President, took leave and resigned. He was succeeded by the present Treasury Deputy Collector. For filling up the five vacancies among the elective seats, elections were held by the taluk boards of Pollachi (2), Erode (2) and Coimbatore (1), and the results of all these elections were approved by Government. All the taluk boards had the maximum number of elected representatives allotted to them. The details regarding these changes are given in the remark column of statement XVI. On the 31st March 1895, the district board had its full sanctioned strength of 32 members—four *ex-officio*, twelve nominated (four official and eight non-official) members and sixteen elected (four official and twelve non-official) members. Twelve meetings were held in 1894–95 as in the preceding year and no meeting had to be adjourned for want of a quorum. On an average, sixteen members (six officials and ten non-officials) attended each meeting against seventeen members (six officials and eleven non-officials) in 1893–94. The decline in the case of the elected official members was made good by the better attendance of the other officials. The decline in the attendance of the non-officials was partly due to the delays in filling up two of the vacancies that occurred among them.

4. *Taluk Boards.*—The constitution of the taluk boards and the attendance of members at meetings are shown in statements XVI and XVI-A. The Kollegal taluk board alone had its full sanctioned strength at the close of the year. The vacancies on the other boards occurred in March 1895; those on the Coimbatore (1) and Satyamangalam boards (2) were not filled up in view of their abolition from 1st April 1895. The remaining vacancies were filled up early in this year. One of the

seats on the Coimbatore taluk board previously occupied by an official member was in the year under report held by a non-official, while in Kollegal an official succeeded a non-official, who died in the course of the year.

The Coimbatore and Kollegal taluk boards held fourteen meetings each; Satyamangalam thirteen, and Erodé and Pollachi twelve each. None of these meetings had to be adjourned for want of a quorum.

The average attendance of the official members of the Erode taluk board rose from 1·8 in 1893–94 to 2·5; in Coimbatore, Satyamangalam and Kollegal it was nearly the same; no improvement was shown in the first of these boards owing to the fact that there were only three official members for a great part of the year as against four in 1893–94. In Pollachi it fell from 2·5 to 1·75 owing to a vacancy in an official seat for some months.

There was an improvement in the attendance of the non-official members of the Coimbatore, Erode and Pollachi taluk boards—4·7, 8·8 and 5·9 as against 4·3, 8·1 and 4·25 in 1893–94. In Kollegal it was nearly the same (5), while in Satyamangalam it declined from 5·6 to 4·8, one of the members who attended fourteen out of the nineteen meetings in 1893–94 having attended only one of the meetings in 1894–95 previous to his death about the end of the year. The working of the taluk boards was on the whole satisfactory, and the members of the late Coimbatore and Satyamangalam taluk boards and of the Kollegal taluk board are reported to have taken interest in the work.

5. *Panchayats.*—Statement XVI-A shows the constitution of the 24 union panchayats on the 31st March 1895 and the average attendance of the members at meetings. On that date all these bodies had their full sanctioned strength of 211 members. Of these, 32 were the headmen of the villages comprised in the unions and members *ex-officio*, and ten other officials and 169 non-officials were appointed by the District Board President under the power delegated to him in G.O., No. 1168 L., dated 21st June 1887. Two persons—one in Kangayam and the other in Kollegal—were removed by the President for unsatisfactory attendance at the meetings of the panchayats, under the power delegated in G.O., No. 889 L., dated 17th May 1894. The panchayats held altogether 347 meetings against 359 in 1893–94. The number of meetings adjourned for want of a quorum was one each in Anamalais, Tiruppúr, Kollegal, two each in Singánallúr, Súlúr and Chettipalaiyam, three in Udamalpet, four in Palladam and five each in Gopichettipálaiyam and Kempanáyakanpálaiyam. The panchayats of Perundurai and Aravakurchi failed to meet once a month in spite of repeated instructions from the Taluk Board President as to the necessity of holding a meeting at least once in a month. These panchayats have since been dissolved. The average attendance of members at the meetings was not less than 50 per cent. of the sanctioned strength in the case of all unions except Singánallúr, Pollachi, Udamalpet and Gopichettipálaiyam. It was the best again in Súlúr, Palladam following close upon it. The management of the chattrams and bungalows in the union villages under the Pollachi taluk board which remained with the union panchayats since 1890–91 was, in the year under report, transferred to the Tahsildars in order to ensure more efficiency. There was no other change in the nature of the work entrusted to these bodies, the sanitation of the villages comprised in the unions being, as before, their chief, if not their only, concern. In most cases, especially where the union covers a set of hamlets scattered over several miles, the central village is alone touched by the union establishment, the other villages practically receiving no benefit.

The ward system of supervising sanitation was in force in all the unions except Kurichi, Kuniyamuttur, Súlúr, Gopichettipálaiyam, Kempanáyakanpálaiyam and Perundalaiyúr. The system is reported to be working well in the three unions in Coimbatore, in Véttagáranpudúr, Palladam and Udamalpet in the Pollachi taluk and in Kollegal, and fairly in Satyamangalam. It was not a success in Dhárápuram where the members are reported not to have evinced interest in working it; nor in Pollachi, Anamalais and Tiruppúr.

The private scavenging system was in force in Mettupálaiyam, Dhárápuram and Satyamangalam. It promises to work satisfactorily in Mettupálaiyam, as many as

ninety houses having been registered for service by the union scavenger; but in Satyamangalam the people who are accustomed to use the banks of the river as a latrine do not like the system. Steps are being taken to introduce it in Gopichettipálaiyam. The unions on the whole worked satisfactorily.

6. *Financial position.* — The following table shows the financial position in 1894–95 of each of the local boards in the district:—

Local boards.	Opening balance.	Receipts.	Total.	Charges.	Closing balance.
	Rs.	Rs.	Rs.	Rs.	Rs.
Coimbatore district board	44,534	63,372	1,07,906	87,945	19,961
Do. taluk board	2,245	47,280	49,525	45,277	4,248
Erode taluk board	9,794	1,01,295	1,11,089	1,05,008	6,081
Pollachi ,, ...	7,207	1,05,565	1,12,772	1,03,330	9,442
Satyamangalam taluk board	5,105	35,624	40,729	33,776	6,953
Kollegal taluk board	3,132	19,492	22,624	20,633	1,991
Total ..	27,483	3,09,256	3,36,739	3,08,024	28,715
Grand, Total ..	(*a*) 72,017	3,72,628	4,44,645	(*b*) 3,95,969	(*c*) 48,676

(*a*) Including Rs. 27,644 debt head receipts.
(*b*) ,, ,, 20,228 ,, charges.
(*c*) ,, ,, 39,921 balance under debt heads.

Excluding the debt heads, the actual receipts amounted to Rs. 3,44,984 against Rs. 3,80,766 in 1893–94 (according to Appendix VII of the General Local Fund Review for that year) and the charges to Rs. 3,75,741 against Rs. 3,31,532. The year closed with a balance of Rs. 8,755. The balance in favour of the endowed institutions was Rs. 6,885; Rs. 417 related to unions, and Rs. 1,453 to the general local funds.

Larger allotments to taluk funds for general purposes and the contribution as loan to the market funds of the Pollachi taluk board account for the decrease in the current receipts under district funds (Rs. 63,372 as compared with Rs. 1,27,039 in 1893–94).

7. The principles under which the receipts and charges were distributed among the district, taluk and union funds were the same as in the preceding years. For the first time since the constitution of the unions, a sum of Rs. 25, being the fees for the license issued by the Stationary Sub-Magistrate of Udamalpet under the Places of Public Resort Act, 1888, was in the year under report credited to the union funds.

8. The incidence of local fund taxation on each individual of the population of the district according to the census of 1891 was As. 1–9 excluding tolls and As. 2–2 including them, against As. 1–11 and As. 2–4, respectively, in 1893–94, the decrease being due to the comparatively smaller arrears of land-cess that had to be collected. Taking into consideration the entire local fund receipts, the average amount contributed by each individual was As. 2–10 against As. 3 in the preceding year.

II.—RECEIPTS.

9. *Statement I-A* shows the total receipts of all the local boards and the union panchayats under the several heads as compared with the estimate of 1894–95 and the actuals of 1893–94. The figures for the latter have been adopted from the appendix to the General Local Fund Review of 1893–94.

10. The year opened with a balance of Rs. 72,017, of which Rs. 11,438 related to endowed institutions. The difference between the former figure and that entered in the abstract given in paragraph 6 of the report for 1893–94 is due to the adjustment, subsequent to the preparation of that report, of a sum of Rs. 671 due from the district to the provincial funds.

The balance anticipated in the budget for 1894–95 was Rs. 22,100 only. The increase of nearly Rs. 50,000 over this was the result of enhanced receipts under almost all the important heads of revenue in 1893–94, to the credit of the loan raised

for the Pollachi market and of security deposits by toll and other contractors, and to short expenditure under all the grants in that year as explained in the last report.

11. *Receipts.*—The total current receipts amounted to Rs. 3,80,766 in 1893–94. The subjoined abstract compares the figures under the various heads for the two years:—

	1893–94.	1894–95.
	RS.	RS.
Cess on lands	2,18,241	1,99,782
Tolls	55,728	49,576
House-tax	10,964	13,856
Educational	13,193	15,096
Medical	882	624
Interest	706	803
Miscellaneous—		
Choultry rents	533	428
Market rents	36,192	36,113
Bungalow fees	577	542
Ferry rents	9,793	8,994
Fishery rents	2,346	1,495
Avenues	2,543	3,447
Other items	2,597	3,567
Public works	402	846
Contribution from provincial funds	10,069	9,803
Do. from special funds	..	12
Loans	16,000	..
Total	3,80,766	3,44,984

12. *Land-cess.*—The cess on land continued to be levied at the rate of one anna per rupee of the annual rent-value. The total demand, including the arrears of Rs. 12,665, was Rs. 2,13,282, of which Rs. 1,99,699 or about 93½ per cent. were collected before the close of the year against 93·1 per cent. in the previous year. The collections did not come up to the figure of the revised estimate by about Rs. 2,500.

The large decrease of Rs. 18,459 as compared with the receipts from this source in 1893–94 was due to the comparatively smaller arrears that had to be collected at the beginning of the year.

13. *Tolls.*—Tolls were levied at twelve stations in 1894–95. Eleven of these were the same as in the preceding year. The junction of the old and new roads from Dhárápuram to Tiruppúr at which tolls had been levied since 1890–91 did not give satisfaction, and facilities were shown to exist for the evasion of the payment of tolls there. The gate was therefore removed, from 1st April 1894, to the junction of the roads from Dhárápuram to Tiruppúr and to Kangayam—*vide* G.O., No. 537 L., Mis., dated 19th March 1894. The rates of tolls levied continued to be the same as before. The collection of tolls at these gates was leased out for Rs. 40,800. Of this sum, Rs. 302 were realised in advance in 1893–94 and the remainder within the year under report. The fees paid by the residents of Tiruppúr and certain other persons with whom the district board has compounded under section 87 (2) of Act V of 1884 amounted to Rs. 578 (excluding Re. 1 collected but subsequently refunded). The income from local fund tolls thus aggregated Rs. 41,076 against Rs. 47,839, * the actuals of 1893–94, and the budget estimate of Rs. 47,000 based thereon. The receipts in 1893–94 were unusually large as stated in paragraph 13 of the last report.

* *Vide* last report.

The contributions by the Municipal Councils of Coimbatore, Erode and Karur on account of the through traffic tolled by them were Rs. 8,499 against Rs. 7,883 in 1893–94. The whole amount due has been paid by the first two municipalities, while Rs. 595–8–0 is still due from the Karur municipal council (Rs. 200 for 1893–94 and Rs. 395–8–0 for 1894–95). The Chairman has promised to pay this sum on its recovery from the persons concerned—Rs. 166–10–8 from the fine imposed on Pattabi Chetti prosecuted and convicted under section 260 of Act IV of 1884 (*vide* G.O.,

No. 1728 M., Mis., dated 15th November 1894), and Rs. 33–5–4 from the late Municipal Manager in whose embezzlement Rs. 100 of the toll revenue for 1893–94 is also an item, and Rs. 395–8–0 from those responsible for the embezzlement of the toll deposits for 1894–95.

The net toll revenue after deducting the cost of toll-sheds, &c., amounted to Rs. 49,410 and was sufficient to meet about 34¾ per cent. of the outlay on roads—*vide* Statement IV-A.

14. *House-tax.*—On the 31st March 1894 all the unions under the Coimbatore, Pollachi, Satyamangalam and Kollegal taluk boards were subject to this tax, while of the seven unions under the Erode board, it was in force only in two—Dhárápuram and Pallapatti. The tax was levied at maximum rates in Bhaváni from the 1st October last. In the year two hamlets of Palladam were exempted from the payment of the tax under section 63 of Act V of 1884. Half rates continued to be levied in Pallapatti, Anamalais and Súlúr and all the four unions in Satyamangalam; in Kollegal the rates were raised to maximum under G.O., No. 487 L., Mis., dated 12th March 1894.

Statement VIII shows the demand, collection and balance of the tax for the district. The uncollected balance at the close of the preceding year was Rs. 2,939, of this Rs. 352 were remitted and all but Rs. 144 of the remainder was recovered. The details of the balance are shown at foot of the above statement. The Chairmen of the unions concerned have been asked to lose no time in realising the arrears. The demand due for the year was Rs. 14,179, of which Rs. 11,375 were collected before its close. The percentage of the current collections to the demand for each union is given below:—

Méttupálaiyam	90	Véttagáranpudúr	93
Singánallúr	38	Palladam	39
Kuniyamuttur	57	Súlúr	97
Chettipalaiyam	57	Tiruppúr	66
Kurichi	75	Udamalpet	73
Dhárápuram	95	Satyamangalam	100
Pallapatti	85	Gopichettipálaiyam	98
Bhaváni	95	Kempanáyakanpálaiyam	27
Pollachi	68	Perundalaiyúr	98
Anamalais	74	Kollegal	99

As compared with the previous year there was an improvement in the collection work in all the unions under the Coimbatore taluk board, though it was far from satisfactory in any of them and bad in Singánallúr. In Dhárápuram the work showed a decided advance and in Pallapatti it was much the same as before. It was satisfactory in Bhaváni. All the unions under the Pollachi taluk board, except Véttagáranpudúr and Súlúr, show a deterioration, Palladam being especially bad. The work was good in Satyamangalam, Gopichettipálaiyam and Perundalaiyúr, and in Kempanáyakanpálaiyam a large portion of the balance was collected early in the current year. In Kollegal the collections were good as usual. The Presidents of the Coimbatore and Pollachi taluk boards have issued the necessary instructions to secure prompt collection.

The receipts from this source rose from Rs. 10,964 in 1893–94 to Rs. 13,856. This increase was due to the enhancement of the rates in Kollegal, to the levy of the tax in an additional union, Bhaváni, and to better collections in the Coimbatore taluk. In the budget the receipts were placed at Rs. 14,670, but owing to short collections and to the reduction of the amount at the revision of assessment in Kollegal, the estimate was not realised.

The total number of houses assessed to the tax was 25,440 as against 27,904 occupied houses according to the census of 1891 in the villages comprised in the unions subject to the tax. With reference to the remark in paragraph 11 of the general Local Fund Review for 1893–94, the President of the Coimbatore taluk board reports that a larger number of houses has not been subjected to the tax

for the Pollachi market and of security deposits by toll and other contractors, and to short expenditure under all the grants in that year as explained in the last report.

11. *Receipts.*—The total current receipts amounted to Rs. 3,80,766 in 1893–94. The subjoined abstract compares the figures under the various heads for the two years:—

	1893–94.	1894–95.
	Rs.	Rs.
Cess on lands	2,18,241	1,99,782
Tolls	55,728	49,576
House-tax	10,964	13,856
Educational	13,193	15,096
Medical	882	624
Interest	706	803
Miscellaneous—		
Choultry rents	533	428
Market rents	36,192	36,113
Bungalow fees	577	542
Ferry rents	9,793	8,994
Fishery rents	2,346	1,495
Avenues	2,543	3,447
Other items	2,597	3,567
Public works	402	846
Contribution from provincial funds	10,069	9,803
Do. from special funds	..	12
Loans	16,000	..
Total	3,80,766	3,44,984

12. *Land-cess.*—The cess on land continued to be levied at the rate of one anna per rupee of the annual rent-value. The total demand, including the arrears of Rs. 12,665, was Rs. 2,13,282, of which Rs. 1,99,699 or about 93½ per cent. were collected before the close of the year against 93·1 per cent. in the previous year. The collections did not come up to the figure of the revised estimate by about Rs. 2,500.

The large decrease of Rs. 18,459 as compared with the receipts from this source in 1893–94 was due to the comparatively smaller arrears that had to be collected at the beginning of the year.

13. *Tolls.*—Tolls were levied at twelve stations in 1894–95. Eleven of these were the same as in the preceding year. The junction of the old and new roads from Dhárápuram to Tiruppúr at which tolls had been levied since 1890–91 did not give satisfaction, and facilities were shown to exist for the evasion of the payment of tolls there. The gate was therefore removed, from 1st April 1894, to the junction of the roads from Dhárápuram to Tiruppúr and to Kangayam—*vide* G.O., No. 537 L., Mis., dated 19th March 1894. The rates of tolls levied continued to be the same as before. The collection of tolls at these gates was leased out for Rs. 40,800. Of this sum, Rs. 302 were realised in advance in 1893–94 and the remainder within the year under report. The fees paid by the residents of Tiruppúr and certain other persons with whom the district board has compounded under section 87 (2) of Act V of 1884 amounted to Rs. 578 (excluding Re. 1 collected but subsequently refunded). The income from local fund tolls thus aggregated Rs. 41,076 against Rs. 47,839, * the actuals of 1893–94, and the budget estimate of Rs. 47,000 based thereon. The receipts in 1893–94 were unusually large as stated in paragraph 13 of the last report.

* *Vide* last report.

The contributions by the Municipal Councils of Coimbatore, Erode and Karur on account of the through traffic tolled by them were Rs. 8,499 against Rs. 7,883 in 1893–94. The whole amount due has been paid by the first two municipalities, while Rs. 595–8–0 is still due from the Karur municipal council (Rs. 200 for 1893–94 and Rs. 395–8–0 for 1894–95). The Chairman has promised to pay this sum on its recovery from the persons concerned—Rs. 166–10–8 from the fine imposed on Pattabi Chetti prosecuted and convicted under section 260 of Act IV of 1884 (*vide* G.O.,

No. 1728 M., Mis., dated 15th November 1894), and Rs. 33–5–4 from the late Municipal Manager in whose embezzlement Rs. 100 of the toll revenue for 1893–94 is also an item, and Rs. 395–8–0 from those responsible for the embezzlement of the toll deposits for 1894–95.

The net toll revenue after deducting the cost of toll-sheds, &c., amounted to Rs. 49,410 and was sufficient to meet about 34¾ per cent. of the outlay on roads—*vide* Statement IV-A.

14. *House-tax.*—On the 31st March 1894 all the unions under the Coimbatore, Pollachi, Satyamangalam and Kollegal taluk boards were subject to this tax, while of the seven unions under the Erode board, it was in force only in two—Dhárápuram and Pallapatti. The tax was levied at maximum rates in Bhaváni from the 1st October last. In the year two hamlets of Palladam were exempted from the payment of the tax under section 63 of Act V of 1884. Half rates continued to be levied in Pallapatti, Anamalais and Súlúr and all the four unions in Satyamangalam; in Kollegal the rates were raised to maximum under G.O., No. 487 L., Mis., dated 12th March 1894.

Statement VIII shows the demand, collection and balance of the tax for the district. The uncollected balance at the close of the preceding year was Rs. 2,939, of this Rs. 352 were remitted and all but Rs. 144 of the remainder was recovered. The details of the balance are shown at foot of the above statement. The Chairmen of the unions concerned have been asked to lose no time in realising the arrears. The demand due for the year was Rs. 14,179, of which Rs. 11,375 were collected before its close. The percentage of the current collections to the demand for each union is given below:—

Méttupálaiyam	90	Véttagáranpudúr	93
Singánallúr	38	Palladam	39
Kuniyamuttur	57	Súlúr	97
Chettipalaiyam	57	Tiruppúr	66
Kurichi	75	Udamalpet	73
Dhárápuram	95	Satyamangalam	100
Pallapatti	85	Gopichettipálaiyam	98
Bhaváni	95	Kempanáyakanpálaiyam	27
Pollachi	68	Perundalaiyúr	98
Anamalais	74	Kollegal	99

As compared with the previous year there was an improvement in the collection work in all the unions under the Coimbatore taluk board, though it was far from satisfactory in any of them and bad in Singánallúr. In Dhárápuram the work showed a decided advance and in Pallapatti it was much the same as before. It was satisfactory in Bhaváni. All the unions under the Pollachi taluk board, except Véttagáranpudúr and Súlúr, show a deterioration, Palladam being especially bad. The work was good in Satyamangalam, Gopichettipálaiyam and Perundalaiyúr, and in Kempanáyakanpálaiyam a large portion of the balance was collected early in the current year. In Kollegal the collections were good as usual. The Presidents of the Coimbatore and Pollachi taluk boards have issued the necessary instructions to secure prompt collection.

The receipts from this source rose from Rs. 10,964 in 1893–94 to Rs. 13,856. This increase was due to the enhancement of the rates in Kollegal, to the levy of the tax in an additional union, Bhaváni, and to better collections in the Coimbatore taluk. In the budget the receipts were placed at Rs. 14,670, but owing to short collections and to the reduction of the amount at the revision of assessment in Kollegal, the estimate was not realised.

The total number of houses assessed to the tax was 25,440 as against 27,904 occupied houses according to the census of 1891 in the villages comprised in the unions subject to the tax. With reference to the remark in paragraph 11 of the general Local Fund Review for 1893–94, the President of the Coimbatore taluk board reports that a larger number of houses has not been subjected to the tax

for the Pollachi market and of security deposits by toll and other contractors, and to short expenditure under all the grants in that year as explained in the last report.

11. *Receipts.*—The total current receipts amounted to Rs. 3,80,766 in 1893–94. The subjoined abstract compares the figures under the various heads for the two years:—

	1893–94.	1894–95.
	Rs.	Rs.
Cess on lands	2,18,241	1,99,782
Tolls	55,728	49,576
House-tax	10,964	13,856
Educational	13,193	15,096
Medical	882	624
Interest	706	803
Miscellaneous—		
Choultry rents	533	428
Market rents	36,192	36,113
Bungalow fees	577	542
Ferry rents	9,793	8,994
Fishery rents	2,346	1,495
Avenues	2,543	3,447
Other items	2,597	3,567
Public works	402	846
Contribution from provincial funds	10,069	9,803
Do. from special funds	..	12
Loans	16,000	..
Total	3,80,766	3,44,984

12. *Land-cess.*—The cess on land continued to be levied at the rate of one anna per rupee of the annual rent-value. The total demand, including the arrears of Rs. 12,665, was Rs. 2,13,282, of which Rs. 1,99,699 or about 93½ per cent. were collected before the close of the year against 93·1 per cent. in the previous year. The collections did not come up to the figure of the revised estimate by about Rs. 2,500.

The large decrease of Rs. 18,459 as compared with the receipts from this source in 1893–94 was due to the comparatively smaller arrears that had to be collected at the beginning of the year.

13. *Tolls.*—Tolls were levied at twelve stations in 1894–95. Eleven of these were the same as in the preceding year. The junction of the old and new roads from Dhárápuram to Tiruppúr at which tolls had been levied since 1890–91 did not give satisfaction, and facilities were shown to exist for the evasion of the payment of tolls there. The gate was therefore removed, from 1st April 1894, to the junction of the roads from Dhárápuram to Tiruppúr and to Kangayam—*vide* G.O., No. 537 L., Mis., dated 19th March 1894. The rates of tolls levied continued to be the same as before. The collection of tolls at these gates was leased out for Rs. 40,800. Of this sum, Rs. 302 were realised in advance in 1893–94 and the remainder within the year under report. The fees paid by the residents of Tiruppúr and certain other persons with whom the district board has compounded under section 87 (2) of Act V of 1884 amounted to Rs. 578 (excluding Re. 1 collected but subsequently refunded). The income from local fund tolls thus aggregated Rs. 41,076 against Rs. 47,839, * the actuals of 1893–94, and the budget estimate of Rs. 47,000 based thereon. The receipts in 1893–94 were unusually large as stated in paragraph 13 of the last report.

* *Vide* last report.

The contributions by the Municipal Councils of Coimbatore, Erode and Karur on account of the through traffic tolled by them were Rs. 8,499 against Rs. 7,883 in 1893–94. The whole amount due has been paid by the first two municipalities, while Rs. 595–8–0 is still due from the Karur municipal council (Rs. 200 for 1893–94 and Rs. 395–8–0 for 1894–95). The Chairman has promised to pay this sum on its recovery from the persons concerned—Rs. 166–10–8 from the fine imposed on Pattabi Chetti prosecuted and convicted under section 260 of Act IV of 1884 (*vide* G.O.,

No. 1728 M., Mis., dated 15th November 1894), and Rs. 33–5–4 from the late Municipal Manager in whose embezzlement Rs. 100 of the toll revenue for 1893–94 is also an item, and Rs. 395–8–0 from those responsible for the embezzlement of the toll deposits for 1894–95.

The net toll revenue after deducting the cost of toll-sheds, &c., amounted to Rs. 49,410 and was sufficient to meet about 34¾ per cent. of the outlay on roads—*vide* Statement IV-A.

14. *House-tax.*—On the 31st March 1894 all the unions under the Coimbatore, Pollachi, Satyamangalam and Kollegal taluk boards were subject to this tax, while of the seven unions under the Erode board, it was in force only in two—Dhárápuram and Pallapatti. The tax was levied at maximum rates in Bhaváni from the 1st October last. In the year two hamlets of Palladam were exempted from the payment of the tax under section 63 of Act V of 1884. Half rates continued to be levied in Pallapatti, Anamalais and Súlúr and all the four unions in Satyamangalam; in Kollegal the rates were raised to maximum under G.O., No. 487 L., Mis., dated 12th March 1894.

Statement VIII shows the demand, collection and balance of the tax for the district. The uncollected balance at the close of the preceding year was Rs. 2,939, of this Rs. 352 were remitted and all but Rs. 144 of the remainder was recovered. The details of the balance are shown at foot of the above statement. The Chairmen of the unions concerned have been asked to lose no time in realising the arrears. The demand due for the year was Rs. 14,179, of which Rs. 11,375 were collected before its close. The percentage of the current collections to the demand for each union is given below:—

Méttupálaiyam	90	Véttagáranpudúr	93
Singánallúr	38	Palladam	39
Kuniyamuttur	57	Súlúr	97
Chettipalaiyam	57	Tiruppúr	66
Kurichi	75	Udamalpet	73
Dhárápuram	95	Satyamangalam	100
Pallapatti	85	Gopichettipálaiyam	98
Bhaváni	95	Kempanáyakanpálaiyam	27
Pollachi	68	Perundalaiyúr	98
Anamalais	74	Kollegal	99

As compared with the previous year there was an improvement in the collection work in all the unions under the Coimbatore taluk board, though it was far from satisfactory in any of them and bad in Singánallúr. In Dhárápuram the work showed a decided advance and in Pallapatti it was much the same as before. It was satisfactory in Bhaváni. All the unions under the Pollachi taluk board, except Véttagáranpudúr and Súlúr, show a deterioration, Palladam being especially bad. The work was good in Satyamangalam, Gopichettipálaiyam and Perundalaiyúr, and in Kempanáyakanpálaiyam a large portion of the balance was collected early in the current year. In Kollegal the collections were good as usual. The Presidents of the Coimbatore and Pollachi taluk boards have issued the necessary instructions to secure prompt collection.

The receipts from this source rose from Rs. 10,964 in 1893–94 to Rs. 13,856. This increase was due to the enhancement of the rates in Kollegal, to the levy of the tax in an additional union, Bhaváni, and to better collections in the Coimbatore taluk. In the budget the receipts were placed at Rs. 14,670, but owing to short collections and to the reduction of the amount at the revision of assessment in Kollegal, the estimate was not realised.

The total number of houses assessed to the tax was 25,440 as against 27,904 occupied houses according to the census of 1891 in the villages comprised in the unions subject to the tax. With reference to the remark in paragraph 11 of the general Local Fund Review for 1893–94, the President of the Coimbatore taluk board reports that a larger number of houses has not been subjected to the tax

in the Kuniyamuttur, Kurichi and Singánallúr unions according to the principle adopted by the Panchayats not to tax houses valued at less than Rs. 50. In Vétta-gáranpudúr the exemption, on the ground of poverty, of about 250 houses belonging to chucklers and wodders mostly accounts for the difference between the number of houses as shown in the census tables and that of the houses taxed. The average incidence per house assessed was As. 8–11 against As. 8–8 in 1893–94. Tiruppúr continued to be the heaviest assessed union with respect to the house-tax. In the collection of the house-tax no coercive measures were adopted in Bhaváni, Pollachi, Anamalais, Tiruppúr, Udamalpet or Kollegal or in any of the unions under the Satyamangalam Taluk Board. The Chairmen of the other unions issued 630 distress warrants, 387 in Pallapatti alone, property was distrained in 135 cases for Rs. 47–7–0, but sold only in 21 for Rs. 5–12–0. The paucity in the number of warrants issued in several of the unions where the balance was considerable shows that sufficient diligence was not employed in the collection of the tax. The Presidents of the Taluk Boards will be requested to give attention to this matter.

15. *Educational.*—The receipts under this head amounted to Rs. 15,096 against Rs. 13,193 in 1893–94. School-fees brought in Rs. 14,403 against Rs. 12,492, an increase of Rs. 1,911. Of this, a sum of Rs. 1,014 related to the Bhaváni Middle school, which was under the taluk board's management during the whole of the year under report as against only three months in 1893–94; Rs. 800 to the other secondary schools, all of which improved in the strength of their classes, and Rs. 97 to the primary schools. More than the estimated amount was realized in the case of all the secondary schools except Bhaváni and of the primary schools under the Pollachi and Satyamangalam Taluk Boards.

The sale-proceeds of school books were Rs. 613, and miscellaneous receipts amounted to Rs. 80, of which the details are—amount recovered from former normal students who failed to serve as teachers, Rs. 67; refund of a stipend overdebited to district funds in 1893–94, Rs. 10; sale-proceeds of unserviceable articles belonging to the board schools, Rs. 2–7–6; and refund by schoolmasters of money received by them as witness batta, As. 6.

16. *Medical.*—The income credited to this head was Rs. 624 as follows: Sale-proceeds of medicines, Rs. 46; contribution from the Municipal Council, Karúr, towards the salary of the female apothecary working at the Women and Children's dispensary, Karúr, under the arrangement sanctioned in G.O., No. 2793 L., Mis., dated 14th December 1893, and G.O., No. 1724 L., Mis., dated 6th September 1894, Rs. 438; sale-proceeds of (1) calves at the animal lymph depôt, Rs. 8; (2) unserviceable articles of local fund hospitals, Rs. 26; (3) materials used for sanitary purposes, Rs. 59; and (4) materials belonging to old latrines and wells, Rs. 16; and amount received for the service by the union toties of the sub-jail latrines at Perundurai and Kollegal, Rs. 31.

17. *Interest.*—The endowment of the Pollachi hospital invested in Government securities of the 4 per cent. loan of 1865 was, under the notification of the Government of India, transferred to the $3\frac{1}{2}$ per cent. of 1893–94, and the adjustment of the interest under the terms of that notification accounts for the increase (Rs. 795 as against Rs. 706 in 1893–94).

18. *Miscellaneous.*—The miscellaneous items of revenue aggregated Rs. 54,586, about the same as in the preceding year.

(*a*) A sum of Rs. 382 was contributed by the inhabitants of Kollegal, Rs. 282 for the purchase of lanterns for lighting the town and Rs. 100 for improving a well; the inhabitants of Dhárápuram paid Rs. 100 for sinking a well there, and contributions paid by certain other villagers for the sinking of wells amounted to Rs. 124.

(*b*) *Choultry Rents.*—The fees paid by the travellers halting in chattram bungalows and the rents for the occupation by the Police of certain chattrams and musafarkhanas and of the lands attached to the Tiruppúr and Karumattampatti chattrams amounted to Rs. 428.

(*c*) *Market Rents.*—The total number of markets under the control of the taluk boards was 95 as in 1893–94, while fees were levied in 87 of them against 83 in that year. The markets to which the fee system was newly extended were Unjalur, Sivagiri and Malayampálaiyam in Erode taluk and in Uttamapálaiyam in Dhárápuram taluk it was revived. The markets are generally in good condition and freely resorted to and no opposition was met with in extending the fee system.

Statement VI shows the transactions relating to market funds. The opening balance in their favour was Rs. 6,926. Market rents realised Rs. 35,983 against the estimate of Rs. 37,350 and Rs. 36,083, the actuals of 1893–94, the decrease occurring chiefly under the Erode Taluk Board. Other miscellaneous receipts credited to market funds (for which details are given in the statement) amounted to Rs. 168. The charges were Rs. 59,677. Of this sum, Rs. 20,277 were spent on the new market at Pollachi which was completed within the year though not opened for trade; Rs. 35,835 (including Rs. 5,038, cost of supervision, &c.) were devoted to the construction and repair of walls, sheds and feeders to the other markets. The market establishments and contingencies cost Rs. 3,565. Excluding the charges relating to the new market at Pollachi, for which an equivalent sum has been contributed from the general funds as loan, the balance at the end of the year was Rs. 3,677 against Rs. 6,926 at its beginning.

(*d*) *Bungalow Fees.*—There were fourteen bungalows under the taluk boards as in the preceding years. Their condition was generally fair. Ten of the buildings were repaired or otherwise improved at a total cost of Rs. 840. The number of travellers who used the bungalows was 488 against 522 in 1893–94 and the fees paid by them amounted to Rs. 542.

In the year under report the rules regarding the occupation and control of the bungalows were revised and formulated.

(*e*) *Fees and fines.*—The details of the receipts credited to this head are—

	Rs.
(1) Pandal fees	341
(2) Fees for the use of street margins in Dhárápuram	141
(3) Private scavenging fees in Méttupálaiyam, Dhárápuram and Satyamangalam	46
(4) Fees for licenses under the Places of Public Resort Act, Udamalpet	25
(5) Fines under the Towns Nuisances Act credited to unions	1,555
(6) Do. do to taluk funds	316
Total	2,424

(*f*) *Ferry Rents.*—The income derived from this source was Rs. 8,994 against Rs. 9,793 in 1893–94. The decrease was in all the taluks except Coimbatore, Karúr and Satyamangalam. In Kollegal one of the ferries is reported to have been closed. The demand for the official year was Rs. 9,418 (including arrears), of which Rs. 8,835 were collected; a sum of Rs. 7 was written off as irrecoverable in the Dhárápuram taluk. The uncollected balance at the close of the year was Rs. 576, of which Rs. 214 have since been collected.

(*g*) *Fishery Rents.*—These brought in Rs. 1,495 only against * Rs. 1,935 in 1893–94. The fisheries are under the control of the Revenue Department which credits the rents realised to the taluk boards concerned.

* *Vide* Statement VIII for 1893–94.

(*h*) *Rent and Produce of Land.*—The sum of Rs. 3 shown under this head is the rent collected in Kollegal for the shops located in the "Jubilee Garden," Kollegal.

(*k*) *Avenues.*—The income from the rents of avenues and the sale-proceeds of withered trees and clippings was Rs. 3,447 against *Rs. 2,706 in 1893–94 and Rs. 3,565 in 1892–93. A sum of Rs. 1,689 was spent on the maintenance of avenues as against Rs. 2,137 in the preceding year. Statement IV-B shows the statistics of avenue trees in the district. The total number of trees on the 1,310 miles of avenue was 206,711 at the beginning of the year—70 trees, tamarind chiefly, were planted in the Erode taluk, and 11,750 trees principally *margosa* and *vagai* that had grown up spontaneously in the prickly-pear bushes alongside the roads had become suitable for avenues. Seven hundred and twenty-three trees of the latter description, however, perished. The number of trees alive at the close of the year was 217,702.

	Rs.
*Avenues	2,543
Rent and produce of land	163

In the year under report little or nothing was done to improve the avenues. The Local Fund Engineer, Coimbatore, has been asked to prepare a list showing the localities where avenues require planting or attention; as soon as the list is ready a system for securing proper attention to the subject will be decided on and introduced. The trees already in existence appear to be improving and considering the difficulties in the way of tree planting, the avenues are surprisingly good.

19. *Sundry Receipts.*—These amounted to Rs. 534, and comprised sale-proceeds of (1) street sweepings, rubbish and night-soil, Rs. 409–11–0; unserviceable articles of the offices of the local boards and unions, Rs. 119–7–6; (2) unclaimed proceeds of distrained property in Dhárápuram, As. 13; (3) refund of witness batta received by the members of the office establishments, Rs. 2–6–0; and (4) penalty levied under the orders of the President, Taluk Board, Rs. 2.

20. *Public Works.*—The details of the receipts under this head are—

	Rs.
(1) Compensation paid by the Madras Railway Company for the Madukkarai Chattram building acquired for it	125
(2) Sale of old tools	83
(3) Contribution from the inhabitants of Kollegal for the school-building	329
(4) Refund of expenditure	5
(5) Sale-proceeds of trees and the produce of trees, &c., belonging to local fund markets and buildings	64
(6) Rent for the use of the District Board's Hall by the Sub-Court, Coimbatore	30
(7) Rent for the quarters provided by the taluk board to the Civil Apothecary, Méttupálaiyam	135
(8) Sale of old materials	75
Total	846

21. *Contributions from Provincial Funds.*—The grants-in-aid of the local fund expenditure on education amounted to Rs. 5,039 against the estimate of Rs. 7,380 and Rs. 5,309, the actuals of 1893–94. The decrease as compared with the estimate was due to (1) the absence of the miscellaneous grants and the non-adjustment of salary grants on account of vacancies, &c., in the secondary schools, (2) to the short earnings of result grants in all taluks except Kollegal and Satyamangalam and to the non-completion of the buildings for which a grant of Rs. 970 was anticipated in the budget. The absence of any large arrears as those drawn in 1893–94 for the Pollachi Middle school and of building grants, and the comparatively smaller earnings of result grants by the Boards' schools chiefly account for the decline under the actuals of the previous year. When framing the budget proposals credit was not taken for any grant-in-aid of the stipend paid by the district board to a student at the School of Arts, Madras, whose term there would have been over on 1st April 1894 but for the district board's resolution to retain him for another year. The grant drawn for the stipend for an additional year led to an increase from Rs. 50 in the estimate to Rs. 95.

The usual money allowances on behalf of the endowed chattrams and water-pandal were drawn, but Rs. 4 due to the Satyamangalam taluk board was not adjusted as in the previous year. It will be credited in the current year.

22. *Miscellaneous Debt Accounts.*—The following are the details:—

	Rs.
Refund of permanent advance	54
Deposits of toll, market, ferry and rubbish contractors	26,256
Public Works receipts awaiting adjustment	1,308
Advances recoverable, adjusted	26
Total	27,644

III.—Expenditure.

23. Excluding the debt heads the total expenditure from local funds in 1894–95 was Rs. 3,75,741 against Rs. 3,31,532 in 1893–94. The details are given below:—

	1893–94. Rs.	1894–95. Rs.
(1) Public Works including establishment, tools and contributions, &c.	1,83,009	2,16,271
(2) Education	50,096	55,630
(3) Medical institutions including District Surgeon's establishment and contributions	31,858	39,598
(4) Vaccination	11,079	10,481
(5) Sanitation including contribution for sanitary inspection and refunds	24,866	23,683
(6) Lighting charges	2,204	3,137
(7) Markets, choultries, bungalows and other public institutions	7,230	7,429
(8) General management, pensions, &c.	21,190	19,032
(9) Interest on loans	..	480
Total	3,31,532	3,75,141

There was an increase under all the grants except Grant IV.

24. *Grant I, Public Works.*—The total outlay on works debited to local funds amounted to Rs. 1,84,981 against the sanctioned grant of Rs. 1,93,788 and Rs. 1,52,138, the actuals of the previous year. Of these, works to the value of Rs. 1,80,341 were executed by the District Board's Engineering establishment and the remainder by other agencies, viz., the Revenue and Forest departments and the panchayats. No work was in charge of the Public Works Department. The expenditure on communications alone was Rs. 1,49,147 against Rs. 1,40,123 in 1893–94, the construction and repair of buildings cost Rs. 10,922 against Rs. 5,953, and a sum of Rs. 24,912 against Rs. 6,062 was spent on markets, avenues and other miscellaneous public improvements.

25. *Roads.*—The road from the Tudiyalur market to Kalappatti in Coimbatore taluk, on which Rs. 1,000 was spent in 1891–92, and the road from Coimbatore to Savuripálaiyam begun in the last year were completed in the year under report at a total cost of Rs. 2,163 and Rs. 160, respectively; the Gudalur railway feeder was extended to the adjacent market (Rs. 245); an iron-wire fence was put up on both sides of the road to Tadagam in the portion lying over a tank bund near Coimbatore (Rs. 355); two bridges were renewed (Rs. 507); and certain culverts were constructed (Rs. 400). The culvert sanctioned to be built on the Mullur road in Kollegal taluk was incomplete pending check-measurement, only Rs. 218 having been spent within the year out of the estimated cost of Rs. 355. A sum of Rs. 800 was sanctioned for the formation of a road from the main road to the new Kallar railway station on the Nilgiri railway; but as it was very late in the year and there was difficulty in acquiring the required land, only Rs. 84 were spent.

The maintenance of the existing communications cost Rs. 1,46,233 against Rs. 1,39,399, the actuals of 1893–94, and Rs. 1,47,871, the sanctioned grant. The increased expenditure over the previous year from the district funds (Rs. 1,070)

was due to the payment to the Forest department for the repair of the Barghur ghât road which was not claimed in that year. Full utilization of allotments in Satyamangalam and Kollegal and the upkeep of additional roads, Coimbatore (2), Erode (1), Pollachi (2) and Satyamangalam (1), account for the increase under taluk funds. The percentage of expenditure to the sanctioned grant was 98·9. There was no necessity for the full utilization of the lump allotment in the budget for the repair of toll-sheds and the Forest department claimed Rs. 1,054 only as against Rs. 1,250 for the Barghur ghât road. There were savings on completed works and Rs. 339 only was spent on the repair of the road from Kalappatti to Gopichettipálaiyam (Satyamangalam taluk), for which Rs. 1,000 was allotted. Hence the short outlay. There were no special repairs of any importance.

Statement IV-A gives the statistics relating to roads. The total length actaully maintained in 1894–95 was *1,562$\frac{7}{8}$ miles against 1,536$\frac{1}{2}$ in 1893–94. The increase, for which details are given in the notes appended to the above statement, was chiefly on account of the additional roads taken up for maintenance in the year under report; three of the minor roads repaired in the previous year were not, however, kept up. The length of the road from Anamalais to Sethumadai, for the upkeep of which a sum of Rs. 880 was contributed by the Forest department, is not included in the statement. The average cost of maintaining each mile of village, taluk and district roads was Rs. 66, Rs. 89 and Rs. 120, respectively, as against Rs. 61, Rs. 87 and Rs. 118 in the preceding year. Fuller utilization of the allotments in Bhaváni, Satyamangalam and Kollegal chiefly contributed to the increase. Taking the three classes of roads together the average cost was about Rs. 90 against Rs. 88. About 339 miles of village roads were repaired at a cost of Rs. 22,354 against 311 miles at Rs. 19,223 in 1893–94.

* Total of columns 11, 12, 13 and 20.

The opinion of the Local Fund Engineer on the condition of each of the roads maintained in the year is entered in the last column of statement III.

Generally the condition of the roads may be said to be good.

26. *Buildings.*—The local fund offices at Kollegal begun in 1893–94 were nearly completed on the 31st March last, Rs. 1,996 having been spent up to that date out of the estimate of Rs. 2,150. The President, taluk board, under whose direct superintendence the work is executed was not able to show better progress, owing to his absence on other duties for nearly three months in the year and to the difficulty of securing labour at Kollegal. He undertook to spend Rs. 2,000 for tiles and timber required for another work, the construction of a school-house at Kollegal, for which an estimate amounting to Rs. 4,700 has been sanctioned with the approval of the educational department. But Rs. 845 only were spent on the purchase of timber, the Basel Mission factories not being able to supply the required number of tiles owing to other heavy demands. The last year's incomplete works in Coimbatore and Satyamangalam were completed in the year, but the latrine to the High school at Udamalpet was not proceeded with. The Pollachi taluk board sanctioned an estimate of Rs. 4,180 for the construction of a building for the primary school at Pollachi and work to the value of nearly one-half was completed within the year. The repairs to the building obtained for the chattram at Aravakurchi were completed at a cost of Rs. 696 which was allotted from the chattram endowment funds (*vide* paragraph 5 (1) of G.O., No. 528 L., dated 9th March 1893). The Chinnadharapuram school constructed in the last year was extended at a cost of Rs. 112 and improvements costing Rs. 421 in all were made to the building of the High school at Dhárápuram. A school house at Uttamapálaiyam, for which Rs. 400 (out of the estimate of Rs. 460) were sanctioned by the Erode taluk board, was left incomplete owing to difficulty in procuring labour during the prevalence of cholera in that neighbourhood towards the close of the year.

The expenditure on these and other Minor Works, New Buildings, amounted to Rs. 6,211 or nearly 79·1 per cent. of the sanctioned grants of Rs. 7,855. Of this amount of grant, Rs. 7,687 were appropriated for works, no expenditure having been proposed on the remaining lump allotment "for the construction of cheap

school-sheds." The percentage of expenditure to the appropriation was nearly 81. The short outlay was due to the non-completion of the Kollegal offices and schools and the Uttamapálaiyam school referred to above.

The outlay on repairs to buildings was Rs. 4,711 as below :—

	Rs.
School houses	396
Hospitals	1,223
Chattrams and other rest-houses	2,148
Bungalows	840
Office buildings	104
Total	4,711

The grant for repairs to civil buildings was Rs. 6,861, of which Rs. 6,343 were allotted in detail for works. The short outlay as compared with the latter was in the Erode and Satyamangalam taluks. The repairs sanctioned to the chattram at Nadukkaval (Rs. 540), in the forests of Bhaváni, were not undertaken as the working season had gone at the time of sanction; and those of the musafarkhanas in the taluk were not done, as, through a mistake, the Local Fund Engineer was under the impression that the Tahsildar was to do them, while the latter had received no instructions on the subject. The contractor who completed the repair of the Malayampálaiyam chattram (Rs. 176) did not submit his bill before the close of the year. Some minor repairs under the Erode Taluk Board found necessary and sanctioned towards the close of the year were not completed. Out of a sum of Rs. 950 sanctioned for the repair of the Gazelhatti chattram in Satyamangalam taluk, Rs. 757 were only spent owing to the difficulty in procuring labour at that locality. The repairs of the Talamalai chattram, for which Rs. 300 was sanctioned in January 1895, were abandoned subsequently.

27. *Miscellaneous Public Improvements.*—The expenditure under this head was distributed as follows :—

	Rs.
(1) Construction of a fresh market at Pollachi including compensation for the land acquired therefor	17,354
(2) Construction and repair of market-walls sheds and other improvements to markets	5,068
(3) Plantation and maintenance of avenues	1,689
(4) Improvement of water-supply at Tek Dhimbam	316
(5) Construction of three latrines in Mettupálaiyam	485
Total	24,912

The important work undertaken in the year under report was a fresh market at Pollachi. Twenty-seven acres of land near Pollachi were acquired on payment of a compensation of Rs. 2,802–8–0, and a compound wall, sheds and wells were provided at a total cost of Rs. 14,551 according to the plans and estimate approved by the Sanitary Board. The entire expenditure was incurred in the year about the close of which the market was ready for occupation. It was, however, opened to the public from the beginning of the current year. Besides the above work, sheds were constructed in the Kundadam market, in Dhárápuram taluk, and nearly half of the estimated cost (Rs. 2,240) of a compound wall for the Udamalpet market was spent. The Kollegal taluk board proposed to reconstruct the market shed at Kundur in an adjoining tope, but of Rs. 960 sanctioned for the purpose, there was time for the expenditure of Rs. 550 only. An estimate of Rs. 1,040 was sanctioned for the improvement of the tank at Tek Dhimbam on the Hassanur ghât and the channel leading to it. Owing to the nature of the locality, the contractor was required to complete only Rs. 320 work within the year, which he has done. Towards the close of the year a sum of Rs. 1,000 was sanctioned for the provision of three latrines in Mettupálaiyam union, the sanitation of which was reported to suffer for want of sufficient latrine accommodation. Difficulties as to the possession of the required sites and want of time permitted of an expenditure of Rs. 485 only. The expenditure was only 90 per cent. of the sanctioned grant owing to the non-completion of the works referred to above and to savings on completed works.

28. *Establishment, &c.*—The cost of the District Board's Engineerng establishment including contingencies amounted to Rs. 29,531 and was nearly 16·4 per cent. of the outlay on works executed under its control as against Rs. 28,776 and 19·7 per cent. in 1893–94.

The cost of the tin tickets supplied to the owners of vehicles in Tiruppúr, with whom the district board has compounded under section 87 (2) of Act V of 1884, was Rs. 19.

The expenditure incurred on tools and plant required for the Engineering staff was Rs. 1,195 or 0·7 per cent. of the outlay on works.

29. The usual contribution of Rs. 520 for the upkeep of two roads in this district by the Nilgiri district was paid, but that for the Punachi ghât was not claimed by the planters in the year.

30. The details of the amount debited to refunds are:—

	RS.
Refund of composition fees	1
Do. of ferry rents in Pollachi	12
Do. do. in Udumalpet	12

31. *Grant II, Education.*—The educational operations of the local boards in 1894–95 comprised chiefly the maintenance of sessional schools, of five secondary schools for boys and one elementary school for girls, and the maintenance and aid of boys' schools. At the end of the year there were 118 board schools with 5,748 pupils against 113 schools with 5,185 pupils on 31st March 1894. The number of girls attending these schools was 486, 19 being in the Hindustani girls' school at Haruvanapuram, Kollegal taluk, with 15 boys, and the rest in the boys' schools. Twelve of these schools were intended exclusively for the Panchamas, two each in Pollachi and Kollegal and one in each of the other taluks, with 321 boys and 14 girls under instruction, 10 boys in the upper primary department and the rest in the lower. In these schools fees were not levied; the Erode taluk board sanctioned small sums for the gratuitous supply of books and slates for some of the pupils. Besides the pupils attending the schools exclusively opened for them there were Panchama boys attending some of the general institutions, presumably those managed by the Christian Missionaries.

The total expenditure on education excluding the outlay on school buildings (Rs. 4,282) debited to Grant I amounted to Rs. 55,630 against the estimate of Rs. 58,515 and Rs. 50,096, the actuals of 1893–94. The chief items are detailed below:—

	1893–94.	1894–95.
	RS.	RS.
(1) Inspection	5,285	5,169
(2) Training Muhammadan teacher	9	95
(3) Sessional normal schools	..	1,086
(4) Secondary schools	9,092	10,240
(5) Elementary "	22,573	24,191
(6) Grants-in-aid	12,457	14,050
(7) Miscellaneous	680	799
Total ..	50,096	55,630

32. *Inspection.*—During the greater part of the year there were only nine inspecting schoolmasters, the Pollachi and Udamalpet taluks having been under one officer between May 1894 and February 1895. The number of villages visited by the inspecting schoolmasters was 1,338 and they prepared 768 schools for examination (112 board schools and 656 other schools). The corresponding figures for the last year were 981 villages and 805 schools. C. V. Appu Rao referred to in the report for 1893–94 was dismissed in October last for falsification of diaries and generally unsatisfactory work. S. Vasudeva Rao's work in Palladam is said to have improved a little. The work of the other officers does not call for remark.

33. *Training Schools and Sessional Normal Schools.*—The Muhammadan teacher from Dhárápuram sent for training at Madras was maintained in the school up to January 1895 and the stipends and travelling allowance paid to him amounted to Rs. 95.

Sessional normal schools were held at five centres in 1894–95—Erode, Pollachi, Tiruppúr, Satyamangalam and Kollegal—for three months at each. Eleven stipendiary students were trained in the Erode school, nine in Pollachi, ten each in Tiruppúr and Kollegal, and twelve in Satyamangalam. Thirteen others were admitted as free-students—eight in Pollachi, two each in Erode and Tiruppúr, and one in Satyamangalam. All of these students except one in Pollachi and two in Satyamangalam were presented for the Primary examination and 47 passed. Five of the students presented from each of the centres at Satyamangalam and Kollegal, two from Erode and Pollachi and one from Tiruppúr failed. A trained teacher was not available for conducting the schools at Satyamangalam and Kollegal, and the poor results achieved there might be due to this fact.

The total cost of sessional schools was Rs. 1,086 against the estimate of Rupees 1,160. Some of the bills for the charges incurred on the schools were paid in the current year and there was some saving on account of the temporary absence of students.

Out of 691 teachers employed on the 31st March 1895 in Primary schools maintained or aided from local funds, 178 held normal, 20 ordinary and 226 general education certificates, while as many as 267 were in no way trained. Provision has been made for training 60 men in sessional schools in the current year and it will be made the rule to train in these schools none but unpassed men now in the employ of the boards.

34. *Technical education.*—As stated in paragraph 33 of the report for 1893–94 the term of the board's stipendiary student at the Madras School of Arts was extended up to April 1895, and the stipend paid to him for this period amounted to Rs. 120. The district board has now no suitable employment to offer him, especially as the Pollachi taluk board has declined to open a drawing class in the Udamalpet High school. When the student was sent for training there were normal schools at Coimbatore and Erode, and it was apparently intended to attach a drawing teacher to each of these.

35. *Secondary schools.*—The High schools in Dhárápuram and Udamalpet were maintained on the salary system as before. The average attendance during the year and the strength on its last day in the former institution remained the same (82 and 88), but in the latter they rose from 89 and 111 to 101 and 130, both the departments sharing in the increase. The decline in the lower secondary department of the Dhárápuram High school is discouraging.

In the Matriculation examination 5 students passed out of 22 sent up—2 out of 9 in Dhárápuram and 3 out of 13 from Udamalpet. The results compare unfavourably with those of 1893–94, in which 3 passed from each of the schools out of 9 and 7, respectively, presented. Of the 25 students that appeared for the Lower Secondary examination—6 in Dhárápuram and 19 in Udamalpet—10 passed for complete certificates (2 in the former and 8 in the latter). The results of the Dhárápuram school were unsatisfactory and show a decline as compared with those of the previous year.

The increased fee-income in the Dhárápuram High school left a profit of Rs. 247 to the board after meeting the charges debited to Grant II. The profit is however nominal seeing that a sum of Rs. 421 was spent on the improvements to the school-house and the full salary of the appointment was not paid to the second master. The Pollachi taluk board worked the other high school at a profit of Rs. 130. There is however no prospect of this satisfactory result being sustained, as considerable improvements will have to be made shortly to the accommodation if the school is to remain on the "recognized" list; and increments may be claimed by the masters.

The Middle school at Pollachi continued to be kept up on the salary system. The average attendance during the year was 65 against 55 in 1893–94 and there were 80 pupils on the rolls on the 31st March 1895—an increase of 5 over the strength on the corresponding day of the previous year. The fee-income also rose to Rs. 1,247 from Rs. 1,054. The results in the Lower Secondary examination were the best in the district, 6 having passed out of 9 sent up. There was a decided advance in every way and the school worked at a profit.

36. *Secondary schools, Salary-results system.*—There were two schools of this description—one at Bhaváni opened in January 1894 and the other at Kollegal. On the last day of the year there were 135 pupils on the rolls of the former school as against 100 on the 31st March 1894, though the average attendance during the year was only 96. It was worked at a net cost of Rs. 27 only, the gross charges of the school having amounted to Rs. 1,355 against the budget estimate of Rs. 1,602. The decrease, as compared with this, was due to the non-entertainment of the proposed two additional teachers and the payment of only a portion of the results stipends earned by the existing teachers, counterbalanced by enhanced expenditure on the purchase of furniture, &c. One hundred and forty-nine pupils attended the Kollegal school on the 31st March 1895 as against 136 on the last day of the previous year; there was, however, a decrease in the upper primary department. The receipts of the school amounted to Rs. 744 and the charges to Rs. 1,201, or Rs. 457 more. The average attendance in all the departments during the year was 109, so that it cost the board over Rs. 4 to educate each pupil in this institution. The taluk board, however, hopes to be able to see the school self-supporting and expects additional strength on its removal to the new building in course of construction.

37. *Primary schools.*—During the year 6 aided schools were taken under the management of the taluk boards: Erode (3), Pollachi (2) and Satyamanglam (1); one of the schools in Pollachi and Dhárápuram is intended for Panchamas. New schools were also started for Panchamas,—one each in the taluks of Coimbatore, Bhaváni, Karúr and Kollegal. The Boards' schools at Velangurichi (Coimbatore), Pattakkaran-palaiyam (Erode), Kurumbapatti (Karúr), Kullakkapalaiyam (Pollachi), and Pudup-palaiyam (Satyamangalam) were however abolished. The number of Primary schools on the 31st March 1895 was 113, all managed on the salary-result system, with a total strength of 4,689 boys and 477 girls as against 108 schools with 4,215 boys and 460 girls on the corresponding day of the previous twelvemonth. There were Panchama schools in all the taluks.

The total cost of all the Primary schools aggregated Rs. 24,191 against the estimate of Rs. 24,754 and Rs. 22,573, the actuals of 1893–94. The charges under the other heads except "fixed salaries" of masters, and servants, exceeded the sanctioned allotment. The late opening of schools, especially in the Erode taluk, and savings on account of temporary vacancies led to the decline under the estimate for salaries of masters. The cost of educating each pupil was Rs. 4–0–5 in the upper primary departments of Boards' schools and Rs. 3–5–8 in the lower as against Rs. 5–8–10 and Rs. 2–15–11 in the previous year. From all Primary schools and departments 3,469 appeared for one or another of the Standard Primary examinations, of whom 2,700 or about 78 per cent. passed. The corresponding figures for 1893–94 were 3,324, 2,757 and 83. Poorer results than in the previous year were obtained in all the taluks except Satyamangalam, where there was a slight improvement. The number and percentage of passes declined largely in Coimbatore and Pollachi, but the increase in Pollachi in the previous year was too sudden to be sustained.

38. *Aided schools.*—Grants at the maximum rates allowed by the Grant-in-aid Code were paid from taluk funds to the lower primary standards of private schools. The number of schools so aided was 466, attended on the 31st March 1895 by 10,277 pupils, against 465 schools and 10,776 pupils in the previous year. From these schools 8,867 pupils were presented for examination, of whom 7,100 or 80 per cent. qualified and earned grants amounting to Rs. 13,710. The corresponding figures for 1893–94 were 9,010, 7,307, 81 and Rs. 14,626. The decline is ascribed to the "assignment" system under the new Grant-in-aid Code, which makes it impossible for the most able teacher to earn more than a certain sum. Of the grants earned, all but Rs. 399 were disbursed within the year. Of the undisbursed earnings (amounting to Rs. 2,489) of 1893–94, Rs. 689 were paid in 1894–95, the taluk boards of Coimbatore, Erode and Kollegal declining to sanction the amount earned over the estimated grants. In all Rs. 14,000 were paid as results grants against the sanctioned allotment of Rs. 14,513. The expenditure exceeded the allotment in Satyamangalam and Kollegal, but the earnings did not come up to the estimate in Erode and Pollachi, while in Coimbatore Rs. 98 of the earnings had not been disbursed before the close of the year.

A sum of Rs. 1,200 had been provided in the budget for building and miscellaneous grants; of this Rs. 477 were transferred for other purposes and only Rs. 50 were paid as building grants—Rs. 25 for a school in Bhaváni and Rs. 25 for another in Pollachi. The instructions recently issued by the Director of Public Instruction asking the officers of the Educational Department to endeavour to make the details of the aided system better known than is now the case, will, it is hoped, prevent the lapse of these grants in future.

39. *Purchase and sale of books.*—School books for sale in rural tracts were purchased for Rs. 588, and the commission paid to the Inspecting schoolmasters who sold the books amounted to Rs. 91. The sale-proceeds being Rs. 613, there was a loss of Rs. 66.

The difference between the estimated and the actual expenditure under purchase of books represents the amount of bills claimed too late for payment within the year.

40. *General educational results.*—The net expenditure on education was Rupees 35,495, or nearly 10·3 per cent. of the current receipts of Rs. 3,44,984 during the year as against Rs. 31,861, or 8·7 per cent. of Rs. 3,64,766 in 1893–94. Of this amount Rs. 29,013 were devoted to the maintenance and aid of Primary schools, Rs. 5,169 to their inspection and Rs. 1,146 to providing them with qualified teachers. The purely secondary schools were worked at a profit, those at Bhaváni and Kollegal in which the primary department was nearly thrice as strong as the secondary having cost Rs. 484 net. The local boards fully realize their duties in connection with primary education and are endeavouring to provide for its extension as far as funds permit. The total number of pupils under instruction in the schools maintained and aided from local funds at the close of the year was 16,025, or 11·04 per cent. of the male population of school-going age—a little over the number at the close of the previous year.

According to the statement furnished by the Educational officers, 26,749 pupils attended schools at the close of the year in the whole district, of whom 2,202 were girls. Panchama pupils numbered 984 in all—956 boys and 28 girls.

Grant III, Medical Services, Sanitation, &c.

41. *Hospitals and dispensaries.*—The District Medical and Sanitary officer's report herein enclosed explains the working of the medical institutions and the general health of the people in the district during the year. The dispensaries sanctioned in the previous year for Nerinjipet in Bhaváni and Hanur in Kollegal taluks were opened in this year, the former from September 1894 when the hospital assistant promised by the Surgeon-General was allowed to take charge, and the latter from June, by an hospital assistant employed by the district board for the purpose. From September 1894, a separate women and children's dispensary has been working at Pollachi in charge of one of the female apothecaries educated for the district board under the Countess of Dufferin's Fund committee. In-patients were admitted in the Gopi-chettipálaiyam dispensary and arrangements are said to have been made for receiving such patients in Aravakurchi also. The total number of patients treated in all the 19 institutions was 123,971 against 104,339 in 1893–94. Of the increase 7,317 were in Pollachi alone and 4,698 appertained to the institutions at Nerinjipet and Hanur. The admissions into the Talavadi dispensary aggregated 1,225 during the whole year as against 70 for the few days it was in work in 1893–94; the people in its neighbourhood have yet to be accustomed to appreciate the benefits of the European modes of treatment. All the old institutions seem to have sustained their popularity; though the admissions in Aravakurchi and Méttupalaiyam fell off as compared with those in 1893–94, they were an improvement over any of the preceding years since 1889–90.

36. *Secondary schools, Salary-results system.*—There were two schools of this description—one at Bhaváni opened in January 1894 and the other at Kollegal. On the last day of the year there were 135 pupils on the rolls of the former school as against 100 on the 31st March 1894, though the average attendance during the year was only 96. It was worked at a net cost of Rs. 27 only, the gross charges of the school having amounted to Rs. 1,355 against the budget estimate of Rs. 1,602. The decrease, as compared with this, was due to the non-entertainment of the proposed two additional teachers and the payment of only a portion of the results stipends earned by the existing teachers, counterbalanced by enhanced expenditure on the purchase of furniture, &c. One hundred and forty-nine pupils attended the Kollegal school on the 31st March 1895 as against 136 on the last day of the previous year; there was, however, a decrease in the upper primary department. The receipts of the school amounted to Rs. 744 and the charges to Rs. 1,201, or Rs. 457 more. The average attendance in all the departments during the year was 109, so that it cost the board over Rs. 4 to educate each pupil in this institution. The taluk board, however, hopes to be able to see the school self-supporting and expects additional strength on its removal to the new building in course of construction.

37. *Primary schools.*—During the year 6 aided schools were taken under the management of the taluk boards: Erode (3), Pollachi (2) and Satyamanglam (1); one of the schools in Pollachi and Dhárápuram is intended for Panchamas. New schools were also started for Panchamas,—one each in the taluks of Coimbatore, Bhaváni, Karúr and Kollegal. The Boards' schools at Velangurichi (Coimbatore), Pattakkaranpalaiyam (Erode), Kurumbapatti (Karúr), Kullakkapalaiyam (Pollachi), and Pudupalaiyam (Satyamangalam) were however abolished. The number of Primary schools on the 31st March 1895 was 113, all managed on the salary-result system, with a total strength of 4,689 boys and 477 girls as against 108 schools with 4,215 boys and 460 girls on the corresponding day of the previous twelvemonth. There were Panchama schools in all the taluks.

The total cost of all the Primary schools aggregated Rs. 24,191 against the estimate of Rs. 24,754 and Rs. 22,573, the actuals of 1893–94. The charges under the other heads except "fixed salaries" of masters, and servants, exceeded the sanctioned allotment. The late opening of schools, especially in the Erode taluk, and savings on account of temporary vacancies led to the decline under the estimate for salaries of masters. The cost of educating each pupil was Rs. 4–0–5 in the upper primary departments of Boards' schools and Rs. 3–5–8 in the lower as against Rs. 5–8–10 and Rs. 2–15–11 in the previous year. From all Primary schools and departments 3,469 appeared for one or another of the Standard Primary examinations, of whom 2,700 or about 78 per cent. passed. The corresponding figures for 1893–94 were 3,324, 2,757 and 83. Poorer results than in the previous year were obtained in all the taluks except Satyamangalam, where there was a slight improvement. The number and percentage of passes declined largely in Coimbatore and Pollachi, but the increase in Pollachi in the previous year was too sudden to be sustained.

38. *Aided schools.*—Grants at the maximum rates allowed by the Grant-in-aid Code were paid from taluk funds to the lower primary standards of private schools. The number of schools so aided was 466, attended on the 31st March 1895 by 10,277 pupils, against 465 schools and 10,776 pupils in the previous year. From these schools 8,867 pupils were presented for examination, of whom 7,100 or 80 per cent. qualified and earned grants amounting to Rs. 13,710. The corresponding figures for 1893–94 were 9,010, 7,307, 81 and Rs. 14,626. The decline is ascribed to the "assignment" system under the new Grant-in-aid Code, which makes it impossible for the most able teacher to earn more than a certain sum. Of the grants earned, all but Rs. 399 were disbursed within the year. Of the undisbursed earnings (amounting to Rs. 2,489) of 1893–94, Rs. 689 were paid in 1894–95, the taluk boards of Coimbatore, Erode and Kollegal declining to sanction the amount earned over the estimated grants. In all Rs. 14,000 were paid as results grants against the sanctioned allotment of Rs. 14,513. The expenditure exceeded the allotment in Satyamangalam and Kollegal, but the earnings did not come up to the estimate in Erode and Pollachi, while in Coimbatore Rs. 98 of the earnings had not been disbursed before the close of the year.

A sum of Rs. 1,200 had been provided in the budget for building and miscellaneous grants; of this Rs. 477 were transferred for other purposes and only Rs. 50 were paid as building grants—Rs. 25 for a school in Bhaváni and Rs. 25 for another in Pollachi. The instructions recently issued by the Director of Public Instruction asking the officers of the Educational Department to endeavour to make the details of the aided system better known than is now the case, will, it is hoped, prevent the lapse of these grants in future.

39. *Purchase and sale of books.*—School books for sale in rural tracts were purchased for Rs. 588, and the commission paid to the Inspecting schoolmasters who sold the books amounted to Rs. 91. The sale-proceeds being Rs. 613, there was a loss of Rs. 66.

The difference between the estimated and the actual expenditure under purchase of books represents the amount of bills claimed too late for payment within the year.

40. *General educational results.*—The net expenditure on education was Rupees 35,495, or nearly 10·3 per cent. of the current receipts of Rs. 3,44,984 during the year as against Rs. 31,861, or 8·7 per cent. of Rs. 3,64,766 in 1893–94. Of this amount Rs. 29,043 were devoted to the maintenance and aid of Primary schools, Rs. 5,169 to their inspection and Rs. 1,146 to providing them with qualified teachers. The purely secondary schools were worked at a profit, those at Bhaváni and Kollegal in which the primary department was nearly thrice as strong as the secondary having cost Rs. 484 net. The local boards fully realize their duties in connection with primary education and are endeavouring to provide for its extension as far as funds permit. The total number of pupils under instruction in the schools maintained and aided from local funds at the close of the year was 16,025, or 11·04 per cent. of the male population of school-going age—a little over the number at the close of the previous year.

According to the statement furnished by the Educational officers, 26,749 pupils attended schools at the close of the year in the whole district, of whom 2,202 were girls. Panchama pupils numbered 984 in all—956 boys and 28 girls.

Grant III, Medical Services, Sanitation, &c.

41. *Hospitals and dispensaries.*—The District Medical and Sanitary officer's report herein enclosed explains the working of the medical institutions and the general health of the people in the district during the year. The dispensaries sanctioned in the previous year for Nerinjipet in Bhaváni and Hanur in Kollegal taluks were opened in this year, the former from September 1894 when the hospital assistant promised by the Surgeon-General was allowed to take charge, and the latter from June, by an hospital assistant employed by the district board for the purpose. From September 1894, a separate women and children's dispensary has been working at Pollachi in charge of one of the female apothecaries educated for the district board under the Countess of Dufferin's Fund committee. In-patients were admitted in the Gopichettipálaiyam dispensary and arrangements are said to have been made for receiving such patients in Aravakurchi also. The total number of patients treated in all the 19 institutions was 123,971 against 104,339 in 1893–94. Of the increase 7,317 were in Pollachi alone and 4,698 appertained to the institutions at Nerinjipet and Hanur. The admissions into the Talavadi dispensary aggregated 1,225 during the whole year as against 70 for the few days it was in work in 1893–94; the people in its neighbourhood have yet to be accustomed to appreciate the benefits of the European modes of treatment. All the old institutions seem to have sustained their popularity; though the admissions in Aravakurchi and Méttupalaiyam fell off as compared with those in 1893–94, they were an improvement over any of the preceding years since 1889–90.

The total expenditure on the maintenance of hospitals and dispensaries was Rupees 30,185 * against Rs. 24,230 in 1893-94. The increase was mainly due to the entertainment of medical subordinates and servants for the new institutions and to the payment of increments to the officers who had earned them, and to the increased cost of medicines, &c., supplied. The average cost of treating each patient was As. 3-11 against As. 3-7 in the previous year.

* Column 14 of statement XII.

42. *Midwives.*—The midwives attached to the institutions at Dhárápuram, Pollachi and Kollegal worked throughout the year and a midwife was at work in Satyamangalam from November last, while in Tiruppúr there was no midwife since the woman employed there in the previous year left it in May 1894. The total number of cases attended by the midwives was 234 against 319 in 1893-94. The work of the Kollegal midwife compared unfavourably with that of the last year. The President, Taluk Board, considers that the decline "may in part be attributed to the fact that a private lady practitioner works in the town gratis also."

The question of re-organizing the scale of the salary, &c., to be paid to midwives is under consideration. Provision has been made in the current year's budget for the employment of additional midwives in Gopichettipálaiyam and Mettupálaiyam.

43. *Medical training of women.*—In the year under report the two female apothecaries trained under the Countess of Dufferin's Fund committee for employment in this district were placed in charge of separate institutions for the exclusive treatment of women and children—one in Pollachi and the other in Karúr. Towards the latter the district board contributed Rs. 38 in addition to half the pay and allowances of the apothecary in charge under the arrangement sanctioned in G.O., No. 1724 L., Mis., dated 6th September 1894. These separate institutions appear to be very popular.

The cost of the District Medical and Sanitary officer's establishment, &c., paid from local funds was Rs. 1,755 against Rs. 1,700 in 1893-94. The entire salary of the female apothecary working in Karúr was debited under this head as in the previous year and the charge allowance of Rs. 25 a month paid to her from September 1894 accounts for the increased expenditure as compared with the estimate.

44. *Vaccination.*—Statement XIII shows the strength, cost and operations of the vaccine establishment. The permanent staff employed in the three circles into which the district is divided for vaccination purposes consisted, as in the previous year, of three Deputy Inspectors of Vaccination, 10 first-class, 24 second-class and 5 third-class vaccinators and three peons. One of the first-class vaccinators continued in charge of the Glycerine Paste depôt at Coimbatore and the work in his division was looked after by a third-class man. A watchman on Rs. 5 was attached to the above depôt throughout the year. The subjoined abstract compares the work done by this agency for the last five years :—

Year.	Number of operations.	Number of successful cases.	Percentage.	Cost per successful case.
				As. P.
1890-91	48,941	46,388	94·8	3 0
1891-92	48,608	42,832	88·1	3 8
1892-93	65,948	61,005	92·5	2 11
1893-94	58,165	48,715	83·75	3 8
1894-95	69,207	54,252	78·4	3 1

The large use of the glycerine paste in the operations conducted in the district led to the establishment of a central depôt at Coimbatore for its cultivation ; and the abundant supply of the paste issued to the vaccinators accounts for the large increase in the total number of operations performed by them. The increase in the numbers vaccinated was spread over all the taluks except Satyamangalam and Dhárápuram where they fell off by 217.

The vaccinators were, however, not able to vaccinate successfully the prescribed minimum number (60,642) for the whole year. The quality of their work was bad, as many as 21½ per cent. of the vaccinations having turned out unsuccessful, or been left uninspected. This was due in part to the improper handling of the paste by some of the vaccinators, but mostly to the nature of the paste itself. In spite of all the precautions taken by the District Medical and Sanitary Officer, the paste at the depôt deteriorated from January 1895, owing, it is believed, to excessive heat and dryness of the atmosphere and it began to improve with the fall of the first rains. The District Medical and Sanitary Officer has suggested that the paste should be given up during the hot months of the year, when calf-to-arm operations are recommended.

The total number of cases shown as re-vaccination was 2,148 with 1,259 successful cases as against 1,052 with 578 in 1893–94. Instructions have been issued to the officers concerned to devote more attention to this matter.

Of the operations performed during the year, 33,559 were on children under one year of age ; 26,598 or about 79 per cent. of these were successful. The corresponding figures for the previous year were 27,668, 23,081 and 83.

In the year under report the Deputy Inspectors of Vaccination verified the results of 37,581 operations or about 54 per cent. of the total number performed in the year as against 41,894 cases in 1893–94. One of the two first-class deputy inspectors employed in the previous year was found guilty of having rendered false returns of work performed by him while in Cuddapah district and reduced and transferred. He was succeeded by a passed hospital assistant in January last. The other deputy inspector was fined by the Sanitary Commissioner "for unsatisfactory work in his circle in the first quarter of 1894–95." The work of the second-class deputy in the first half of the year under report compared unfavourably and the District Medical and Sanitary Officer has been asked to watch his work.

The medical subordinates in charge of local fund hospitals and dispensaries vaccinated 1,333 cases, of which 1,103 were successful, as against 606 out of 897 in the previous year. Including the work done by these officers, the total number of successful vaccine operations performed in the district in 1894–95 aggregated 55,355 or 28·6 per mille of the population according to the census of 1891 and that on infants under one year of age 26,936.

Fresh animal lymph was in use in the Kollegal taluk in April and a few days in May 1894 after which the paste was introduced there. One thousand four hundred and eighty-four cases were vaccinated direct from calf-to-arm, of which 1,398 or 94·2 per cent. were successful.

The total charges under vaccination amounted to Rs. 10,481 against Rs. 11,079 in 1893–94, and the sanctioned grant of Rs. 11,452. The decrease was due to the establishment of a central depôt in Coimbatore instead of the taluk depôts proposed in the budget to be worked during the greater part of the preceding year.

45. *Sanitation.*—Statement XIV shows the details of the expenditure under sanitation in the several taluks. In addition to Rs. 801 spent on the construction of latrines in Méttupálaiyam and the improvement of water-supply at Tek Dhimbam shown under Grant I, Rs. 22,379 were spent on sanitation against Rs. 23,476 of 1893–94 as shown below :—

	1893–94.	1894–95.
	Rs.	Rs.
Improvement of water-supply	5,162	4,224
,, of village site	1,507	1,131
Conservancy establishment	14,752	15,208
Arrangements at fairs and festivals	667	650
Other sanitary outlay	1,388	1,166
Total ..	23,476	22,379

The improvement of water-supply at Tek Dhimbam and the construction of latrines, the only important works undertaken during the year were left incomplete for the reasons explained above. Fourteen new wells were sunk and 37 existing

The total expenditure on the maintenance of hospitals and dispensaries was Rupees 30,185 * against Rs. 24,230 in 1893-94. The increase was mainly due to the entertainment of medical subordinates and servants for the new institutions and to the payment of increments to the officers who had earned them, and to the increased cost of medicines, &c., supplied. The average cost of treating each patient was As. 3-11 against As. 3–7 in the previous year.

* Column 14 of statement XII.

42. *Midwives.*—The midwives attached to the institutions at Dhárápuram, Pollachi and Kollegal worked throughout the year and a midwife was at work in Satyamangalam from November last, while in Tiruppúr there was no midwife since the woman employed there in the previous year left it in May 1894. The total number of cases attended by the midwives was 234 against 319 in 1893-94. The work of the Kollegal midwife compared unfavourably with that of the last year. The President, Taluk Board, considers that the decline "may in part be attributed to the fact that a private lady practitioner works in the town gratis also."

The question of re-organizing the scale of the salary, &c., to be paid to midwives is under consideration. Provision has been made in the current year's budget for the employment of additional midwives in Gopichettipálaiyam and Mettupálaiyam.

43. *Medical training of women.*—In the year under report the two female apothecaries trained under the Countess of Dufferin's Fund committee for employment in this district were placed in charge of separate institutions for the exclusive treatment of women and children—one in Pollachi and the other in Karúr. Towards the latter the district board contributed Rs. 38 in addition to half the pay and allowances of the apothecary in charge under the arrangement sanctioned in G.O., No. 1724 L., Mis., dated 6th September 1894. These separate institutions appear to be very popular.

The cost of the District Medical and Sanitary officer's establishment, &c., paid from local funds was Rs. 1,755 against Rs. 1,700 in 1893-94. The entire salary of the female apothecary working in Karúr was debited under this head as in the previous year and the charge allowance of Rs. 25 a month paid to her from September 1894 accounts for the increased expenditure as compared with the estimate.

44. *Vaccination.*—Statement XIII shows the strength, cost and operations of the vaccine establishment. The permanent staff employed in the three circles into which the district is divided for vaccination purposes consisted, as in the previous year, of three Deputy Inspectors of Vaccination, 10 first-class, 24 second-class and 5 third-class vaccinators and three peons. One of the first-class vaccinators continued in charge of the Glycerine Paste depôt at Coimbatore and the work in his division was looked after by a third-class man. A watchman on Rs. 5 was attached to the above depôt throughout the year. The subjoined abstract compares the work done by this agency for the last five years :—

Year.	Number of operations.	Number of successful cases.	Percentage.	Cost per successful case.
				AS. P.
1890–91	48,941	46,388	94·8	3 0
1891–92	48,608	42,832	88·1	3 8
1892–93	65,948	61,005	92·5	2 11
1893–94	58,165	48,715	83·75	3 8
1894–95	62,207	54,252	78·4	3 1

The large use of the glycerine paste in the operations conducted in the district led to the establishment of a central depôt at Coimbatore for its cultivation ; and the abundant supply of the paste issued to the vaccinators accounts for the large increase in the total number of operations performed by them. The increase in the numbers vaccinated was spread over all the taluks except Satyamangalam and Dhárápuram where they fell off by 217.

The vaccinators were, however, not able to vaccinate successfully the prescribed minimum number (60,642) for the whole year. The quality of their work was bad, as many as 21½ per cent. of the vaccinations having turned out unsuccessful, or been left uninspected. This was due in part to the improper handling of the paste by some of the vaccinators, but mostly to the nature of the paste itself. In spite of all the precautions taken by the District Medical and Sanitary Officer, the paste at the depôt deteriorated from January 1895, owing, it is believed, to excessive heat and dryness of the atmosphere and it began to improve with the fall of the first rains. The District Medical and Sanitary Officer has suggested that the paste should be given up during the hot months of the year, when calf-to-arm operations are recommended.

The total number of cases shown as re-vaccination was 2,148 with 1,259 successful cases as against 1,052 with 578 in 1893–94. Instructions have been issued to the officers concerned to devote more attention to this matter.

Of the operations performed during the year, 33,559 were on children under one year of age ; 26,598 or about 79 per cent. of these were successful. The corresponding figures for the previous year were 27,668, 23,081 and 83.

In the year under report the Deputy Inspectors of Vaccination verified the results of 37,581 operations or about 54 per cent. of the total number performed in the year as against 41,894 cases in 1893–94. One of the two first-class deputy inspectors employed in the previous year was found guilty of having rendered false returns of work performed by him while in Cuddapah district and reduced and transferred. He was succeeded by a passed hospital assistant in January last. The other deputy inspector was fined by the Sanitary Commissioner "for unsatisfactory work in his circle in the first quarter of 1894–95." The work of the second-class deputy in the first half of the year under report compared unfavourably and the District Medical and Sanitary Officer has been asked to watch his work.

The medical subordinates in charge of local fund hospitals and dispensaries vaccinated 1,333 cases, of which 1,103 were successful, as against 606 out of 897 in the previous year. Including the work done by these officers, the total number of successful vaccine operations performed in the district in 1894–95 aggregated 55,355 or 28·6 per mille of the population according to the census of 1891 and that on infants under one year of age 26,936.

Fresh animal lymph was in use in the Kollegal taluk in April and a few days in May 1894 after which the paste was introduced there. One thousand four hundred and eighty-four cases were vaccinated direct from calf-to-arm, of which 1,398 or 94·2 per cent. were successful.

The total charges under vaccination amounted to Rs. 10,481 against Rs. 11,079 in 1893–94, and the sanctioned grant of Rs. 11,452. The decrease was due to the establishment of a central depôt in Coimbatore instead of the taluk depôts proposed in the budget to be worked during the greater part of the preceding year.

45. *Sanitation.*—Statement XIV shows the details of the expenditure under sanitation in the several taluks. In addition to Rs. 801 spent on the construction of latrines in Méttupálaiyam and the improvement of water-supply at Tek Dhimbam shown under Grant I, Rs. 22,379 were spent on sanitation against Rs. 23,476 of 1893–94 as shown below :—

	1893–94.	1894–95.
	RS.	RS.
Improvement of water-supply	5,162	4,224
,, of village site	1,507	1,131
Conservancy establishment	14,752	15,208
Arrangements at fairs and festivals	667	650
Other sanitary outlay	1,388	1,166
Total ..	23,476	22,379

The improvement of water-supply at Tek Dhimbam and the construction of latrines, the only important works undertaken during the year were left incomplete for the reasons explained above. Fourteen new wells were sunk and 37 existing

wells repaired. Improvements were made to three tanks, one of which in Kollegal was converted into a draw-well. The steps leading to the Bhaváni river in Méttupálaiyam and Satyamangalam were repaired. Watchmen were employed to guard the Pechiparai well near Erode, the channel in Dhárápuram and the tanks at Kollegal and Allahalli. Prickly-pear was removed in 34 villages and a fresh burial ground provided in Kángayam. Conservancy establishments worked throughout the year in the 24 unions and 20 other villages and for a time at Kóttúr in Pollachi taluk. The arrangements for the supervision of these establishments remained unaltered. Special sanitary arrangements were made during the festivals held at 16 places. Latrines were constructed or repaired in Singánallúr, Perundurai, Bhaváni, Dhárápuram, Aravakurchi, Satyamangalam, Gopichettipalaiyam and Perundalaiyur; and dust-bins were purchased for Kodumudi and Bhaváni. Necessary preventive measures were taken in all the affected localities when cholera prevailed. The total outlay on sanitation was nearly 96 per cent. of the sanctioned grant of Rs. 23,337. The short expenditure was mainly under improvement of water-supply and was due to the postponement and cancelment of certain works in Erode and Kollegal Taluks, non-completion of a work in Pollachi owing to the rockiness of the soil, the non-commencement of the compound wall for the pond in Tálávadi (Satyamangalam taluk) on account of scarcity of water, and savings on completed works. The Coimbatore Taluk Board did not sanction works for the expenditure of Rs. 83 out of the lump allotment of Rs. 320 for improvement of village sites and one of the completed works was not paid for.

The Presidents of Taluk Boards have been told not to lose sight of the absolute importance of securing prompt and full expenditure of allotments for sanitary works.

46. *Village Sanitation.*—The subject is receiving attention chiefly through the weekly diaries of the Deputy Inspectors of Vaccination in reviewing which instructions are invariably issued when sanitary defects are brought to notice.

At the instance of the Sanitary Commissioner the Tahsildar of Palladam was asked to give a fair trial to the trench latrine system and to the removal of rubbish outside villages to be stored there in lots for use as manure. Much success was not achieved during the year, but better results are possible when the people get accustomed to these.

47. *Choultries.*—The number of choultries under the control of the taluk boards at the close of the year was 54—50 endowed and 4 unendowed institutions. The Madukkarai chattram was taken up for the use of the Madras Railway Company who paid a compensation of Rs. 125. Many of the buildings were repaired and the chattram at Gazelhatti is substantially improved. The building at Udiyúr in Dhárápuram taluk was reported to have almost fallen in ruins; the taluk board has under consideration the question of rebuilding it. In the absence of a separate head for the exhibition of the transactions relating to the Musafarkhanas, they have been included under choultries. The establishment and contingent charges of all these institutions amounted to Rs. 3,267 against Rs. 3,315 in 1893–94. The decrease was under the contingent charges.

48. *Contributions, &c.*—The contribution paid from the district fund for the Medical College was Rs. 2,034 against Rs. 634 in 1893–94; Rs. 1,289 was paid for sanitary inspection and Rs. 210 for the medical reserve staff. The contribution due on account of the cutlers' establishment was not claimed within the year. The Coimbatore and Erode taluk boards contributed Rs. 4,649 against Rs. 4,119 for the three municipal hospitals in the district. The sum of Rs. 38 entered under district funds as contribution to municipalities represents the moiety of the charges of the Women and Children's dispensary at Karúr.

49. *Miscellaneous institutions.*—The Terampalaiyam water-pandal used as a rest-house has been shown under this head, the Musafarkhanas having been shown under choultries as explained in paragraph 47 above.

50. *Miscellaneous charges.*—The following union villages were lighted during the year:—

	Number of lamps.	Cost.
		Rs.
Méttupálaiyam and the Bhavá i bridge	6	103
Dhárápuram	75	591
The Cauveri bridge at Bhaváni	3	37
Pollachi	40	246
Anamalai	25	190
Vettagaranpudur	19	190
Palladam	25	301
Súlúr	6	100
Tiruppúr	53	335
Udamalpet	72	378
Satyamangalam	25	168
Gopichettipalaiyam	15	92
Kollegal	20	406
Total	379	3,137

Súlúr, Bhaváni and Kollegal were lighted for the first time during the year under report. Additions were made to the lights in Dhárápuram, Vettagaranpudur, Anamalais and Tiruppúr. The attention of the taluk boards has been drawn to the remarks in the General Local Fund review of 1893–94 against unnecessarily increasing the expenditure under this head.

51. *Grant IV, Miscellaneous.*—The total charges under Grant IV aggregated Rs. 19,512 against Rs. 21,190, the actuals of 1893–94 and Rs. 21,867, the estimate. The details are given in Statement I-B. The decrease under the district fund was due to debiting the pensionary contribution of the office establishments to the grants concerned instead of to this grant as in 1893–94, and to savings under contingencies. Only the interest for the first half-year of the currency of the Pollachi market loan was claimed and paid within the year. There were savings under the several heads of expenditure debited to taluk funds.

The non-official members of the district board and of the Erode and Kollegal taluk boards were paid travelling allowance at the same rates as in 1893–94. The Pollachi taluk board paid travelling allowance to the non-official members from September 1894 at rates subject to the maximum prescribed in G.O., dated 16th November 1889, No. 2658 L.

The details of the amount debited to "Refunds" are—

	Rs.
Refund of land-cess	17
„ of fishery rent in Kollegal	1
„ of house-tax	8
Total	26

52. *Miscellaneous Debt Accounts.*—The details are—

	Rs.
Advances recoverable adjusted	26
Permanent advance to deputy inspectors of vaccination and vaccinators and to dispensaries	44
Deposits adjusted	18,851
Public works receipts adjusted	1,307
Total	20,228

53. *Endowments.*—The transactions relating to endowed institutions are shown in Statement VI. As before, money endowments are attached to the Pollachi hospital and fifty rest-houses, and lands to the Tiruppúr chattram. There were 95 markets. These have all been noticed above. Including the amount contributed as loan for the Pollachi market, the receipts of these institutions amounted to Rs. 65,735 against Rs. 45,476 in 1893–94 and the charges to Rs. 70,288 against Rs. 46,104. The opening

wells repaired. Improvements were made to three tanks, one of which in Kollegal was converted into a draw-well. The steps leading to the Bhaváni river in Méttupálaiyam and Satyamangalam were repaired. Watchmen were employed to guard the Pechiparai well near Erode, the channel in Dhárápuram and the tanks at Kollegal and Allahalli. Prickly-pear was removed in 34 villages and a fresh burial ground provided in Kángayam. Conservancy establishments worked throughout the year in the 24 unions and 20 other villages and for a time at Kóttúr in Pollachi taluk. The arrangements for the supervision of these establishments remained unaltered. Special sanitary arrangements were made during the festivals held at 16 places. Latrines were constructed or repaired in Singánallúr, Perundurai, Bhaváni, Dhárápuram, Aravakurchi, Satyamangálam, Gopichettipalaiyam and Perundalaiyur; and dust-bins were purchased for Kodumudi and Bhaváni. Necessary preventive measures were taken in all the affected localities when cholera prevailed. The total outlay on sanitation was nearly 96 per cent. of the sanctioned grant of Rs. 23,337. The short expenditure was mainly under improvement of water-supply and was due to the postponement and cancelment of certain works in Erode and Kollegal Taluks, non-completion of a work in Pollachi owing to the rockiness of the soil, the non-commencement of the compound wall for the pond in Tálávadi (Satyamangalam taluk) on account of scarcity of water, and savings on completed works. The Coimbatore Taluk Board did not sanction works for the expenditure of Rs. 83 out of the lump allotment of Rs. 320 for improvement of village sites and one of the completed works was not paid for.

The Presidents of Taluk Boards have been told not to lose sight of the absolute importance of securing prompt and full expenditure of allotments for sanitary works.

46. *Village Sanitation.*—The subject is receiving attention chiefly through the weekly diaries of the Deputy Inspectors of Vaccination in reviewing which instructions are invariably issued when sanitary defects are brought to notice.

At the instance of the Sanitary Commissioner the Tahsildar of Palladam was asked to give a fair trial to the trench latrine system and to the removal of rubbish outside villages to be stored there in lots for use as manure. Much success was not achieved during the year, but better results are possible when the people get accustomed to these.

47. *Choultries.*—The number of choultries under the control of the taluk boards at the close of the year was 54—50 endowed and 4 unendowed institutions. The Madukkarai chattram was taken up for the use of the Madras Railway Company who paid a compensation of Rs. 125. Many of the buildings were repaired and the chattram at Gazelhatti is substantially improved. The building at Udiyúr in Dhárápuram taluk was reported to have almost fallen in ruins; the taluk board has under consideration the question of rebuilding it. In the absence of a separate head for the exhibition of the transactions relating to the Musafarkhanas, they have been included under choultries. The establishment and contingent charges of all these institutions amounted to Rs. 3,267 against Rs. 3,315 in 1893–94. The decrease was under the contingent charges.

48. *Contributions, &c.*—The contribution paid from the district fund for the Medical College was Rs. 2,034 against Rs. 634 in 1893–94; Rs. 1,289 was paid for sanitary inspection and Rs. 210 for the medical reserve staff. The contribution due on account of the cutlers' establishment was not claimed within the year. The Coimbatore and Erode taluk boards contributed Rs. 4,649 against Rs. 4,119 for the three municipal hospitals in the district. Total ..	20,228

53. *Endowments.*—The transactions relating to endowed institutions are shown in Statement VI. As before, money endowments are attached to the Pollachi hospital and fifty rest-houses, and lands to the Tiruppúr chattram. There were 95 markets. These have all been noticed above. Including the amount contributed as loan for the Pollachi market, the receipts of these institutions amounted to Rs. 65,735 against Rs. 45,476 in 1893–94 and the charges to Rs. 70,288 against Rs. 46,104. The opening

balance in their favour having been Rs. 11,438, the year closed with a balance of Rs. 6,885. The rather large surplus (Rs. 3,254) under the chattram funds will disappear if the rebuilding of the Udiyur chattram is completed.

54. *General Remarks.*—In accordance with the instructions contained in the memorandum of the Inspector of Local Fund Accounts embodied in G.O., dated 31st May 1892, No. 1289 L., the head local audit clerk inspected during the year the accounts and registers maintained in the Taluk Board offices of Coimbatore and Erode and in all the unions under the Coimbatore Taluk Board, and in Bhaváni, Pallapatti, Dhárápuram and Udamalpet. The condition of the accounts inspected was satisfactory except in Singánallúr union under the Coimbatore Taluk Board.

ENCLOSURE.

ANNUAL Concise Report on the working of local fund hospitals and dispensaries in the district of Coimbatore for the year 1894–95.

I. *Public health.*—The climate was variable from April to July 1894; thermometer ranged from 90° to 100° in the shade, but the nights were fairly cool. From August 1894 to January 1895 the weather was cold, especially at nights. The rainfall was less, only 11·49 inches against an average of 22 inches. The water-supply was therefore scanty, but there was no drought. On the whole the year was not an unhealthy one and there was no scarcity of food-grains. As ascertained from dispensary statistics the principal diseases and conditions for which admissions and treatment were sought were the following:—

Diseases of eye, ear, skin, digestive system, connective tissue and respiratory system, malarial fevers, local injuries, rheumatic affections, worms, dyspepsia, diarrhœa, dysentery and syphilitic affections.

2. *Epidemics.*—The cholera of 1893–94 continued to prevail in a sporadic form from April to July in a few villages. The district was quite free from the disease during the months of August and September. In October it recommenced and caused seven deaths and five in November; about the end of December 1894 it broke out in an epidemic form in Palladam and Pollachi taluks and caused 48 deaths; in January and February 1895 it extended over Udamalpet and Dhárápuram taluks and the number of deaths was 252 in January and 278 in February. About the middle of March 1895, after the car festival of Kottai Mári in Erode taluk, the disease caused many casualties in Dhárápuram, Erode and Karúr taluks, the total number recorded being 787. The method of introduction was reported to be through pilgrims who returned from Palni, Tirupati and Thiruvannámalai, principally from the first. All such measures as were considered necessary to stamp out the disease were adopted. Medicines with instructions in the vernacular were freely distributed; medical aid was sent to all the affected villages. Special conservancy staffs were entertained in almost all the affected localities and the villages were thoroughly cleaned under the supervision of medical men with personal assistance of Tahsildars.

3. *Small-pox.*—Did not prevail in an epidemic form. The mortality was unusually and remarkably small, only 107 against 2,412 in 1891–92; 1,893 in 1892–93, and 591 in 1893–94. The steady decrease clearly points to the protective influence of vaccination.

II. *Vital Statistics.*—The following statement gives the vital statistics for four years:—

Years.	Total births.	Total deaths.	Cholera.	Small-pox.	Fevers.	All other causes.
1891–92	58,653	45,248	9,333	2,412	14,300	19,003
1892–93	49,204	32,504	742	1,983	14,098	15,681
1893–94	57,442	38,179	3,775	591	13,973	17,831
1894–95	57,497	34,411	1,726	107	13,285	19,293

Note.—Including Municipalities.

The total number of births and deaths registered in the district amounted to 57,497 and 34,411 against 57,442 and 38,179 respectively in 1893–94, showing an increase of 55 in the number of births; and a decrease of 3,768 in the number of deaths; a very favourable return. The decrease in the mortality is chiefly due to less prevalence of cholera and small-pox. The ratios of births and deaths per 1,000 of population are 28·6 and 17·2 against 28·6 and 19·0 in 1893–94. The registration is still very defective and can hardly be depended on to give an approximate number.

III. *Sanitation.*—Conservancy establishments consisting of maistries, sweepers and scavengers under the supervision of union members and Revenue officials are permanently maintained in 24 unions and 20 villages. In villages where there is no permanent staff, temporary establishment are entertained during epidemics, fairs and festivals. Inadequate number of dust-bins (masonry

and corrugated iron) are provided in some major unions. The refuse is daily collected by the sweepers and removed in hand-carts to waste lands immediately outside the village, where it is either sold or burnt. The main streets are generally clean and free from smell; lanes, open spaces and village sites are generally in an unsatisfactory state, being used as latrines. The village sites are overgrown with prickly-pear which affords shelter for all sorts of nuisance.

2. Latrines are provided in twelve union villages; they are principally mud-wall enclosures and seldom used, the inhabitants preferring to resort to village sites.

3. The chief natural sources of water-supply are the rivers Cauvery, Amaravati, Noyal, Nanganji, Manyar, Auliar and several jungle streams and irrigation channels from the above rivers. People residing close to rivers generally use river water for drinking purposes. Several of the above rivers are dry for several months, when wells are sunk in their beds. Some villages are provided with tanks, which are also dry during the most part of the year. Wells are largely used, the quality is generally brackish. The majority of the wells are provided with parapet walls and platforms, but the surroundings are usually filthy. The District Medical and Sanitary Officer on tour of inspection has paid particular attention to water-supply and explained to the people the benefits and ill-effects of pure and impure water.

4. There is no proper system of drainage, the existing drains are side-ditches in which house drains flow and stagnate. Street drains are generally in a filthy condition with stagnant sewage. Cesspits exist in some villages and are never cleaned.

5. The following improvements were made during the year:—

(*a*) Fourteen wells were newly sunk, three tanks were improved, 37 wells were repaired.
(*b*) Village-sites of 26 villages were cleared of prickly-pear.
(*c*) Seven latrines were newly constructed, eight were in course of construction and eight dust-bins were newly provided and five latrines were repaired.

6. During the year nine taluk head-quarter stations and 46 villages were inspected by the District Medical and Sanitary Officer; of the towns, eight were inspected twice. Reports on the sanitary condition of the above villages and towns were submitted to the Sanitary Commissioner and Presidents of Taluk Boards.

7. *Sanitary Defects.*—The defects are uniform in all the circles and are as follows:—

(*a*) *Drainage.*—There is absolutely no system of drainage in the towns and villages in the district. The principal streets have ordinary side-ditches into which the majority of house-drains empty their contents, where sewage of all sorts stagnates until flushed by rain-water.

(*b*) *Water-supply.*—River water is greatly polluted by being used for bathing and washing purposes, river banks are used as latrines and burial-grounds.

Tanks—receive their supply principally from the rivers and the surface rain-water, and contain all sorts of impurities; in many instances the supply-channels are used as latrines when dry, and tank-beds are resorted to for the same purpose.

Step Wells.—These are polluted with dirty feet and unclean vessels.

Draw Wells.—Several public wells are very near to drains, and private wells are generally in backyards which are the receptacles of all kinds of filth, and masonry cesspits exist near the wells.

(*c*) *Domestic Cleaning.*—Houses are daily swept and the sweepings with other filthy refuse of the house are thrown carelessly in backyards, some of which are never cleaned. Cattle are kept immediately in front and back of houses, ordure, &c., stored up and removed occasionally to fields; backyards are generally very unclean, being used as latrines, &c.

(*d*) *Conservancy.*—In towns and villages where there are conservancy establishments there is great laxity in supervision and much less work exacted than what otherwise could be.

(*e*) *Measures adopted to remedy the above defects.*—The inspecting officers have brought the defects to the notice of the taluk boards and they have in some instances adopted such measures to remedy them as funds permitted.

IV.—Hospitals and Dispensaries.—(1) Statement XII affords the statistics relating to hospitals and dispensaries maintained in the Local Fund Circle. At the end of the year there were ten hospitals and nine dispensaries working against eight and eight, respectively, in the previous year. The dispensaries at Gopichettipalaiyam and Aravakurchi were converted into hospitals and three dispensaries were newly opened—one at Hanur, one at Nerinjipet, and the third, a Women and Children's dispensary, at Pollachi. The number in proportion to the population was one to every 101,862 inhabitants.

(2) *General Statistics.*—The total number of in and out patients treated for the past three years and the average daily attendance are as follows:—

Year.	Total treated.	Average daily.
1892–93	89,784	662·94
1893–94	104,339	825·55
1894–95	123,971	962·16

This table shows a continuous and satisfactory increase both in the number treated and in the daily average sick—a strong proof of the growing popularity of the institutions and an appreciation of European methods of treatment.

(3) *In-door.*—The total treated was 548 against 577 in 1893–94. The decrease is principally due to greater care having been exercised in admitting only deserving cases. The number of deaths was 62 against 84, and the daily average number was 22·74 against 22·57. Accommodation available for in-patients was 79 beds—45 male and 34 female.

(4) *Out-door.*—The total admission was 123,423 against 103,762 in 1893–94; this large increase of 19,661 was contributed from dispensaries opened during the year, principally from the female dispensary. All the institutions showed increase in the number of admissions except Pollachi, Aravakurchi, Gopichettipalaiyam and Méttupálaiyam. The decrease at Pollachi was due to the opening of a separate female dispensary in the town, and in other institutions it was due to fewer admissions under ulcers and skin diseases. The daily average attendance has increased to 939·42 against 802·98.

(5) *Surgical Operations.*—The progress made during the year in surgical operations is fairly satisfactory as shown below:—

	Major.	Minor.
1893–94	149	4,798
1894–95	195	5,031

The increase in major operations is observed at the institutions at Pollachi, Udamalpet, Tiruppúr, Satyamangalam, Gopichettipalaiyam and Kollegal.

(6) All the old institutions were inspected by the District Medical and Sanitary Officer twice except Kollegal and Tálavádi which were inspected once. The newly-opened dispensaries were not inspected.

(7) Nature and sufficiency of accommodation, state of repairs of buildings and furniture, were found generally satisfactory and the defects were brought to the notice of the local boards.

(8) *Midwifery.*—Five institutions had diplomaed midwives attached, viz., Pollachi, Dhárápuram, Satyamangalam, Kollegal and Tiruppúr. About the middle of April 1894 the midwife attached to the local fund dispensary, Tiruppúr, absconded and the institution is still without one, the services of a caste midwife not being procurable. The midwife attached to the local fund hospital, Satyamangalam, also absconded on the 12th February 1894 and the services of another were with great difficulty secured on the 17th November 1894. Separate lying-in-ward for the reception of labour cases is provided only at Pollachi. There were 234 cases confined by this agency (2 in hospital and 232 at their residences) against 319 in the previous year. The decrease is due principally to the absconding of the two midwives above referred to; in the three remaining institutions each midwife attended an average of six cases each month against five in the previous year. Scale of pay and the rate of remuneration to be given to midwives and the minimum number to be attended by midwives will shortly be considered with reference to paragraphs 3 and 4 of G.O., dated 9th March 1895, No. 441 I..

(9) *Dispensary Vaccination.*—The total number of cases vaccinated was 1,333, of these 1,103, or 82·75 per cent. were successful; the figures for the previous year were 897, 606 and 67·45, respectively. The following statement gives the detail:—

Vaccination.	Total.	Successful.
Primary vaccination	1,278	1,064
Re-vaccination	55	39
Under one year	405	338

(10) *Female Dispensary, Pollachi.*—Lady Apothecary Miss Blazey opened the dispensary in a portion of the local fund choultry on the 1st September 1894. The total number of cases treated from 1st September 1894 to 31st March 1895 was 8,855 and the daily average attendance was 96·83. She has performed 29 major and 525 minor operations; all were successful. She has conducted twenty parturition cases, of which ten were tedious labours. She is very popular and energetic. The dispensary is worked without a compounder. Attempts were made to secure caste females to undergo training, but none offered their services. The taluk board has been requested to entertain caste male compounders in accordance with the wishes of Her Excellency the Lady President of the Countess of Dufferin Fund, Madras Branch.

(11) *Expenditure.*—The variations in the actuals of 1894–95 compared with the estimate of the year under report and the actuals of the previous year are explained below:—

Medical Subordinates.—The variations between the actuals of 1893–94 and 1894–95 are due (*a*) to departmental increments paid to medical subordinates at Véttagáranpudur, Tiruppúr, Bhaváni, Pollachi, Méttupálaiyam and Kángayam; (*b*) to the opening of new dispensaries at Nerinjipet, Tálavádi, Hanur and female dispensary at Pollachi. The difference between the actuals and budget estimate is about Rs. 4 which calls for no remarks.

Clerks and Servants.—The increase in the actuals of 1894–95 when compared with 1893–94 is due to opening of new dispensaries at Nerinjipet, Hanur and the female dispensary at Pollachi. The decrease when compared with the budget estimate is due to the opening of new dispensaries in the middle of the year instead of from April.

Midwives.—The decrease in the actuals than the past year and the budget estimate is due to the absence of midwives at Tiruppúr and Satyamangalam as reported above.

Medicines and Appliances.—The increase when compared with the actuals of the previous year and the budget estimate is due (*a*) to the opening of new dispensaries, (*b*) to the increase in the number of admissions, and (*c*) to the medicines having had to be purchased from Messrs. Burgoyne and Company, London, instead of from the Government Stores at Madras.

Diet.—The decrease is due to economy and less number of admissions.

Miscellaneous.—The increase over the actuals of the past year and the budget estimate is due to opening of new dispensaries and to repairs to hospital buildings, &c.

Coimbatore, 17*th May* 1895. (Signed) J. F. FITZPATRICK, M.D., Surgn.-Lt.-Col., *District Medical and Sanitary Officer.*

Order—dated 16th September 1895, No. 1708 L., Local and Municipal.

The local fund receipts and charges of the Coimbatore district for 1894–95 are compared below with the budget and revised estimates for the year and the actuals of 1893–94:—

—	Actuals, 1893–94.	Budget estimate, 1894–95.	Revised estimate, 1894–95.	Actuals, 1894–95.			
				District fund.	Taluk funds.	Union funds.	Total.

Total ..	1,83,009	2,25,398	2,17,460	42,921	1,69,758	3,592	2,16,271

This table shows a continuous and satisfactory increase both in the number treated and in the daily average sick—a strong proof of the growing popularity of the institutions and an appreciation of European methods of treatment.

(3) *In-door.*—The total treated was 548 against 577 in 1893–94. The decrease is principally due to greater care having been exercised in admitting only deserving cases. The number of deaths was 62 against 84, and the daily average number was 22·74 against 22·57. Accommodation available for in-patients was 79 beds—45 male and 34 female.

(4) *Out-door.*—The total admission was 123,423 against 103,762 in 1893–94; this large increase of 19,661 was contributed from dispensaries opened during the year, principally from the female dispensary. All the institutions showed increase in the number of admissions except Pollachi, Áravakurchi, Gopichettipalaiyam and Méttupálaiyam. The decrease at Pollachi was due to the opening of a separate female dispensary in the town, and in other institutions it was due to fewer admissions under ulcers and skin diseases. The daily average attendance has increased to 939·42 against 802·98.

(5) *Surgical Operations.*—The progress made during the year in surgical operations is fairly satisfactory as shown below:—

	Major.	Minor.
1893–94	149	4,798
1894–95	195	5,031

The increase in major operations is observed at the institutions at Pollachi, Udamalpet, Tiruppúr, Satyamangalam, Gopichettipalaiyam and Kollegal.

(6) All the old institutions were inspected by the District Medical and Sanitary Officer twice except Kollegal and Tálavádi which were inspected once. The newly-opened dispensaries were not inspected.

(7) Nature and sufficiency of accommodation, state of repairs of buildings and furniture, were found generally satisfactory and the defects were brought to the notice of the local boards.

(8) *Midwifery.*—Five institutions had diplomaed midwives attached, viz., Pollachi, Dhárápuram, Satyamangalam, Kollegal and Tiruppúr. About the middle of April 1894 the midwife attached to the local fund dispensary, Tiruppúr, absconded and the institution is still without one, the services of a caste midwife not being procurable. The midwife attached to the local fund hospital, Satyamangalam, also absconded on the 12th February 1894 and the services of another were with great difficulty secured on the 17th November 1894. Separate lying-in-ward for the reception of labour cases is provided only at Pollachi. There were 234 cases confined by this agency (2 in hospital and 232 at their residences) against 319 in the previous year. The decrease is due principally to the absconding of the two midwives above referred to; in the three remaining institutions each midwife attended an average of six cases each month against five in the previous year. Scale of pay and the rate of remuneration to be given to midwives and the minimum number to be attended by midwives will shortly be considered with reference to paragraphs 3 and 4 of G.O., dated 9th March 1895, No. 441 I..

(9) *Dispensary Vaccination.*—The total number of cases vaccinated was 1,333, of these 1,103, or 82·75 per cent. were successful; the figures for the previous year were 897, 606 and 67·45, respectively. The following statement gives the detail:—

Vaccination.	Total.	Successful.
Primary vaccination	1,278	1,064
Re-vaccination	55	39
Under one year	405	338

(10) *Female Dispensary, Pollachi.*—Lady Apothecary Miss Blazey opened the dispensary in a portion of the local fund choultry on the 1st September 1894. The total number of cases treated from 1st September 1894 to 31st March 1895 was 8,855 and the daily average attendance was 96·83. She has performed 29 major and 525 minor operations; all were successful. She has conducted twenty parturition cases, of which ten were tedious labours. She is very popular and energetic. The dispensary is worked without a compounder. Attempts were made to secure caste females to undergo training, but none offered their services. The taluk board has been requested to entertain caste male compounders in accordance with the wishes of Her Excellency the Lady President of the Countess of Dufferin Fund, Madras Branch.

(11) *Expenditure.*—The variations in the actuals of 1894–95 compared with the estimate of the year under report and the actuals of the previous year are explained below:—

Medical Subordinates.—The variations between the actuals of 1893–94 and 1894–95 are due (*a*) to departmental increments paid to medical subordinates at Véttagáranpudur, Tiruppúr, Bhaváni, Pollachi, Méttupálaiyam and Kángayam; (*b*) to the opening of new dispensaries at Nerinjipet, Tálavádi, Hanur and female dispensary at Pollachi. The difference between the actuals and budget estimate is about Rs. 4 which calls for no remarks.

Clerks and Servants.—The increase in the actuals of 1894–95 when compared with 1893–94 is due to opening of new dispensaries at Nerinjipet, Hanur and the female dispensary at Pollachi. The decrease when compared with the budget estimate is due to the opening of new dispensaries in the middle of the year instead of from April.

Midwives.—The decrease in the actuals than the past year and the budget estimate is due to the absence of midwives at Tiruppúr and Satyamangalam as reported above.

Medicines and Appliances.—The increase when compared with the actuals of the previous year and the budget estimate is due (*a*) to the opening of new dispensaries, (*b*) to the increase in the number of admissions, and (*c*) to the medicines having had to be purchased from Messrs. Burgoyne and Company, London, instead of from the Government Stores at Madras.

Diet.—The decrease is due to economy and less number of admissions.

Miscellaneous.—The increase over the actuals of the past year and the budget estimate is due to opening of new dispensaries and to repairs to hospital buildings, &c.

Coimbatore, 17*th May* 1895. (Signed) J. F. FITZPATRICK, M.D., Surgn.-Lt.-Col., *District Medical and Sanitary Officer.*

Order—dated 16th September 1895, No. 1708 L., Local and Municipal.

The local fund receipts and charges of the Coimbatore district for 1894–95 are compared below with the budget and revised estimates for the year and the actuals of 1893–94:—

2. *Local Boards and Union Panchayats.*—The district board held twelve meetings as in 1893–94, and the attendance of the members continued to be fair, the decline in the case of the non-officials being due to delays in filling up two vacancies which occurred during the year. The taluk boards met a sufficient number of times, and the average attendance of the members was on the whole good, except of the officials on the Erode board who have been irregular for the last three years, notwithstanding repeated remarks in the annual reviews. As in the previous year, there were twenty-four union panchayats at work, and they met on an average fourteen times each against fifteen. The panchayats of Perundurai and Aravakurchi, which have since been abolished, failed however to assemble once a month as required by section 129 of the Local Boards Act. The average attendance of the members, except in Singánallúr, Pollachi, Udamalpet, Gopichettipálaiyam and Kempanáyakanpálaiyam, was good. The ward system of supervision was in force in eighteen unions against seventeen in 1893–94, and it is reported to have worked well in seven of them and fairly in another. The administration of the taluk boards and union panchayats is reported to have been, on the whole, satisfactory.

3. *Receipts.*—(1) The demand under land-cess decreased considerably owing to the absence of arrears, but 94 per cent. of it was collected against 93 per cent. in 1893–94.

(2) There were twelve toll-gates as in the previous year. The demand under this head was also less than in 1893–94, in which year it was exceptionally high, but the whole of it was realized within the year.

(3) The demand under house-tax rose, it being levied at the maximum rates in thirteen unions and at half rates in seven others, against eleven and eight respectively in the previous year. The collections amounted to 80 per cent. of the demand against 78 per cent.. They were good in nine unions, fair in two others, and very poor in the remaining nine, especially in Singánallúr, Palladam and Kempanáyakanpálaiyam, where only 38, 39 and 27 per cent. of the respective demands were realized. These unsatisfactory results are clearly due to want of energy in collection, for, as the President remarks, very few distress warrants were issued in several unions in which the balance was considerable. It is hoped that, now that the attention of the Presidents of the taluk boards concerned has been invited to the matter, there will be an improvement in the current year. Coercive process was issued in 630 cases, but property was distrained in only 135 cases and sold in only 21, the corresponding figures for the previous year being 580, 211 and 35. A large percentage of the houses in the Singánallúr, Kunniyamuttur and Kurichi unions paid no tax, because the panchayats did not assess houses valued at less than Rs. 50, while 250 houses in Vettagaranpudúr were exempted on account of poverty; but no explanation has been offered for the fact that 32 per cent. of the houses in the Kempanáyakanpálaiyam union were not taxed.

(4) The fee system was newly extended to three markets and was revived in another, and fees were thus levied in eighty-seven markets against eighty-three in the previous year. The income under this head fell, however, from Rs. 36,083 to Rs. 35,983. The outlay on public works connected with these institutions rose from Rs. 26,574 to Rs. 48,151, and the balance to their credit at the end of the year was reduced from Rs. 6,926 to Rs. 3,677. The construction of the new market at Pollachi was completed within the year at a total cost of Rs. 20,277, which was met by a loan from the district funds. It was opened to the public only from the beginning of the current year.

(5) The President is requested to quote the authority under which fees for licenses issued under the Places of Public Resort Act in Udamalpet were credited to union funds.

(6) The condition of the road avenues is reported to have been good, but the revenue derived from them seems small. The President, District Board, will be requested to look into the matter and ascertain whether the rents derived from leasing the produce of fruit trees cannot be increased.

4. *Expenditure—Public Works* (1).—The percentage of expenditure to allotment under this head was 95 against 96 in the previous year. Village roads received greater attention, the outlay upon them having risen from 14·5 to 16·7 per cent. of the total expenditure on communications. The general condition of the roads is stated to have been good. The proportion of the outlay to allotment under buildings was again unsatisfactory, but under miscellaneous public improvements it was fair. The plantation and maintenance of avenues cost Rs. 1,689, or about 50 per cent. of the income derived therefrom against 84 per cent. in the previous year. The cost of the local fund engineering establishment was 16 per cent. of the outlay on public works incurred by that agency against 20 per cent. in 1893–94.

(2) *Education.*—As in the previous year there were ten inspecting school-masters. Their work showed an improvement on that in 1893–94. The five sessional schools maintained by the district board were attended by sixty-five students. Of sixty-two of these who appeared for examination, only forty-seven passed, nearly one-half of the number sent up from the Satyamangalam and Kollegal schools having

failed owing to the teachers at these places being untrained. The taluk boards continued to maintain five secondary schools—three on the salary system and two on the salary-result system. The attendance at these increased, but the results obtained at the Matriculation examination were worse than in the previous year, only five students having passed out of twenty-two sent up against six out of sixteen. Of twenty-four students from these institutions who appeared for the Lower Secondary examination, sixteen passed against nine out of twenty-seven in 1893–94. There was an increase in the number of the boards' primary schools, and in the attendance at them, as shown in the margin; but only 2,700 students passed out of 3,469 who went up for the several standard examinations, the corresponding figures for the previous year being 2,757 and 3,324.

	Schools.	Pupils.
1893–94	108	4,675
1894–95	113	5,166

The number of schools aided from local funds was nearly the same in both years, but the attendance at them fell from 10,776 to 10,277 and the percentage of passes at the grant examinations from 81 to 80. Only 92 per cent. of the allotment for grants of all descriptions was utilized within the year. The total number of boys under instruction in the schools maintained and aided from local funds was 10·5 per cent. of the male population of school-going age against 10·7 in 1893–94, the average for the Presidency in that year being 13·4.

(3) *Medical Relief.*—Two new dispensaries were opened during the year at Nerinjipet and Hanur, and those at Gopichettipálaiyam and Aravakurchi were converted into hospitals. Ten hospitals and eight dispensaries were thus maintained by the taluk boards against eight of each in 1893–94. Besides these, two women and children's dispensaries were opened at Pollachi and Karúr under female apothecaries recommended by the Countess of Dufferin Fund Committee and trained by the district board. The Government is glad to note that both of these were popular. The district board would do well to consider the advisability of giving scholarships to more of the students under the Committee. The steady increase in the number of patients treated in the medical institutions testifies to their growing popularity. As in the previous year there were five midwives, but the number of cases attended by them was only 234 against 319, as difficulty was experienced in filling the places of two of them who left. Every endeavour should be made to obtain better results in the current year.

1892–93	89,784
1893–94	104,339
1894–95	123,971

(4) *Vaccination.*—The reported number of successful operations was 28·6 per mille of the population, the successes in the case of children under one year of age representing 13·9 per mille, the corresponding figures for the previous year being 25·5 and 12·0 respectively. For reasons explained in paragraph 44 of the President's report, the quality of the work turned out showed a further retrogression, the reported percentage of the successful cases having fallen from 84 to 78. The Government trusts that such arrangements will be made in the current year as will materially advance this branch of the local boards' work.

(5) *Sanitation.*—The expenditure was 96 per cent. of the allotment against 101 in the previous year. The important subject of the improvement of water-supply unfortunately received less attention, and it is hoped that Presidents of taluk boards will not again allow allotments under this head to lapse. The District Medical and Sanitary Officer again visited nine taluk head-quarter stations and he inspected forty-six villages against seventy-six in 1893–94. The first seven paragraphs of his report might have been condensed with advantage.

5. *General Remarks.*—The year closed with a balance of Rs. 48,676. Of this sum, however, Rs. 417 appertained to unions, Rs. 6,885 to endowed institutions and Rs. 39,921 to debt heads, leaving only Rs. 1,453 available for general purposes.

The President's report is full and clear. Except in regard to vaccination, which was its weak point in 1893–94 also, the administration of local affairs continued to be satisfactory.
