OCTOBER.

Administration Report.

Reviewing the — of the South Arcot District Board for 1894-95.

taken to remove the preponderance of the official element on the Mannárgudi panchayat. The ward system of supervision, which was introduced into all the unions except Tirukkóyilúr, appears to have been a success in many of them. The working of the taluk boards is reported to have been satisfactory and the administration of the panchayats to have shown a distinct improvement. The Government notes with pleasure the testimony borne by the President to the interest taken in local affairs by the chairmen of the panchayats, whose names are given in paragraph 24 of his report.

3. *Receipts* (1).—Owing to the existence of fewer arrears, the demand under land-cess fell by Rs. 9,111, but the collections continued to be good, having again been 99 per cent. of the demand.

(2) The current demand under tolls fell from Rs. 42,820 to Rs. 41,755 and the collections, including arrears, amounted to 94 per cent. of the demand against 88 per cent. in the previous year.

(3) House-tax was collected in all the eleven unions against five in the previous year, and was levied at the maximum rates in one of them and at half rates in the remaining ten. The collections rose from Rs. 2,870 or 90 per cent. of the demand to Rs. 9,466 or 91 per cent., but they were not satisfactory in the Nellikuppam union. Distress warrants were issued in 521 cases in six unions, but property was actually distrained in only twelve cases and in no instance was it sold.

(4) The receipts from avenues rose from Rs. 14,776 to Rs. 18,228 owing partly to higher bids for the avenue produce and partly to the collection of arrears. The condition of the avenues is reported to have been good.

4. *Expenditure* (1) *Public Works.*—The expenditure under this head was only 92 per cent. of the allotment against 101 in the previous year. The short outlay, which occurs chiefly under repairs to communications, is ascribed partly to the drought which lasted for five months of the year and rendered it difficult to procure water for the consolidation of road metal, and partly to the tendency of the Engineering establishment to put off works until nearly the close of the year. This latter cause of failure can, however, be removed by the exercise of firm and watchful control on the part of the executive. The general condition of the roads is reported to have been, with a few exceptions, unsatisfactory. The Engineer again complains of inadequate allotments in many cases, and the boards should look into the matter. It is hoped that the attention which appears to have been given to the subject and the recent strengthening of the subordinate Engineering staff will result in a marked improvement in the current year. The cost of the Engineering establishment again amounted to only 15 per cent. of the outlay on works by that agency.

(2) *Education.*—There were eight inspecting schoolmasters as in the previous year and their work is reported to have been satisfactory. Three sessional schools again worked at nine centres in all and trained 104 students. Of these 94 appeared for, and 64 passed the Primary Examination. The number of untrained teachers in the district is, however, still large and should be further reduced. The district board continued to maintain seven secondary schools which were attended by 517 pupils against 410 in the previous year. Five of these sent up thirty two pupils for the lower secondary examination, but only thirteen of them passed. The Tiruvannámalai school was fairly successful, but the results obtained by the others, especially Kallakurchi, were unsatisfactory. Unless these schools speedily improve, the boards should consider the advisability of reducing their grade. The net cost of the secondary department of the Vriddhachalam school was very high, being Rs. 24-5-10 per pupil educated, and steps should be taken in the current year to remedy this. The number of primary schools maintained by the taluk boards rose from 156 with 7,266 pupils to 162 with 7,463 pupils and their working was satisfactory, 73 per cent. of the pupils sent up for the standard examinations having been successful. Thirteen of these schools, against four in the previous year, were for the exclusive benefit of Panchamas, and their progress is reported to have been fairly satisfactory. Seeing, however, how large a proportion of the population of the district belongs to this class, there is evidently scope for a further advance in this direction. The number of aided schools fell from 565 with 12,558 pupils to 558 with 11,857, the decline being ascribed chiefly

to the enforcement of the conditions of the new Grant-in-aid Code, and the expenditure under this head was only 76 per cent. of the allotment, against 98 per cent. in 1893–94. From statement X appended to the report it would appear that the upper primary departments of certain schools under the Tirukkóyilúr Taluk Board received aid from local funds contrary to the provisions of Chapter I, Article 5 (ii) (3) of the Grant-in-aid Code. The President is requested to explain this. The total number of boys under instruction in the schools maintained and aided by local boards was 11·9 per cent. of the male population of school-going age, against 12·1 in the previous year, the decrease appearing under aided schools.

(3) *Medical Relief.*—Six hospitals and fourteen dispensaries were, as in the previous year, maintained by the local boards and the number of patients treated in them rose from 152,097 to 166,569. Twelve midwives were at work against eleven in 1893–94, but, owing partly to the fact that several of them were absent from duty at various times during the year, the number of labour cases attended fell from 613, or an average of five per mensem for each midwife, to 585 or four per mensem. It has not been stated whether the system of paying these servants partly by results, recommended in paragraph 4 (3) of G.O., No. 2015 L., dated 10th October 1894, has been adopted. It would perhaps lead to better results.

No information has been furnished regarding the steps, if any, taken by the local boards for the furtherance of female medical education as required in G.O., No. 1684 A.L., dated 5th September 1887. This omission should be supplied in future reports.

(4) *Vaccination.*—The reported number of successful operations and of those on children under one year rose from 32 and 7·9 to 33·5 and 10·9, respectively, per mille of the population. There is, however, considerable scope for further improvement especially in infantile vaccination.

(5) *Sanitation.*—The outlay under this head was only 89 per cent. of the allotment against 94 per cent. in the previous year, the decrease occurring chiefly under improvement of water-supply and scavenging establishment. Thirty-five watchmen were employed to guard sources of drinking water-supply against 24 in 1893–94 and 22 village-sites were improved and 31 union and other villages were provided with conservancy establishments against 15 and 32, respectively. The Government trusts that the local boards have made adequate arrangements to ensure that the large number of these establishments which are maintained in non-union villages are strictly controlled. In the absence of close supervision their work is likely to be worthless and the money spent in paying them thrown away. The District Medical and Sanitary Officer inspected 42 towns and villages against 23 in the previous year.

5. *General Remarks.*—The year closed with a balance of Rs. 1,01,489, of which Rs. 13,643 appertained to unions and Rs. 2,302 to endowed institutions, leaving Rs. 85,544 or 22 per cent. of the receipts available for general purposes. The greater portion of this should be spent for the benefit of the rate-payers in the current year. The roads appear to be most in need of additional funds.

Except in regard to the condition of communications, the administration of local affairs showed some advance on the results of the previous year and continued to be satisfactory.

2. *Local Boards and Union Panchayats.*—The district board held thirteen meetings against fourteen in 1893–94. The average attendance of both classes of members improved and was fair. The taluk boards met a sufficient number of times and the attendance of their members, except the officials on the Tindivanam Board, was, on the whole, good. Excluding the new union of Srimushnam, which was constituted too late in the year to begin work, there were eleven unions in existence as in the previous year. They met on an average fourteen times against eleven in 1893–94, and the attendance at their meetings was fair, being six out of eleven. Early steps should be

Karunguzhi, Komáramangalam, Pennadam, Elavanasur, Aiyur, Agaram, Chintamany, Ayyankovilput, Vikravándi, Valvanur, Pattambakum, Melugavarapet, Tiruvádi, Punganum, Kilagavarapet, Pulavanur, Latchmananarayanapuram, Kandrakottai, Tiruvennadalúr, Samakottai, Virapuragram (Porto Novo). There is much room for improvement in the sanitary condition of the district.

Improvements.

15. *Vriddhachalum Taluk Board.*—One maistry was appointed to supervise the scavenging establishment at Srímushnam. Night-soil carts were supplied to scavengers entertained in all the unions under this board.

16. *Tirukkóyilúr Taluk Board.*—Three scavengers and one maistry were entertained at Tiruvannanallúr, three scavengers and one maistry were also entertained at Dyadrug, four scavengers and one maistry at Tirukkóyilúr union. The rubbish depôt at Ulundurpet was removed to a site outside the village; considerable quantity of rank vegetation and prickly-pear removed.

17. *Cuddalore Taluk Board.*—Necessary allotments were sanctioned for the entertainment of more toties, scavengers and for the purchase of night-soil carts, &c., prickly-pear was removed in many places.

18. *Tindivanam Taluk Board.*—There had been a slight addition to the conservancy establishment at Tiruvannámalai; prickly-pear was removed in several villages; attempts were also made for the better conservancy of water-supply.

19. *General remarks.*—The public health, on the whole, was satisfactory in the year under report. The opening of a dispensary at Tiruvannanallúr and another at Vikravandi has already been recommended.

Cuddalore,
3rd *June* 1895.

(Signed) R. SUNDRAM, M.B.,
Asst. Surgeon in charge.

Order—No. 1949 L., Local and Municipal, dated 19th October 1895.

The Local Fund receipts and charges of the South Arcot District for 1894–95 are compared below with the budget and revised estimates for the year and the actuals of 1893–94 :—

—	Actuals, 1893–94.	Budget estimate, 1894–95.	Revised estimate, 1894–95.	Actuals, 1894–95. District Fund.	Taluk Funds.	Union Funds.	Total.

Two hospital assistants were specially deputed to attend the sanitary arrangements and to render medical aid to the sick. Medical subordinates in charge of institutions were instructed to render medical aid to those striken with the disease in their vicinity.

8. The total number of deaths from this cause was 2,383 against 4,330 of the previous year, thus giving a death-rate of 1·13 per mille of total population. Small-pox prevailed mostly in Villupuram, Chidambaram and Cuddalore taluks. There were 1,081 deaths against 1,652 of the previous year, giving thus a ratio of ·52 per mille of total population.

9. Fevers prevailed throughout the year especially in Kallakurchi, Vriddhachalam and Tiruvannámalai taluks. The total number of deaths from this cause was 14,521 against 13,240 of the previous year, giving thus a ratio of 6·93 per mille of total population.

10. *Inspection by the District Medical and Sanitary officer.*—The number of institutions with the frequency of their inspections by the District Medical and Sanitary officer is given below:—

Taluk boards.	Names.	How often inspected.
Tindivanam	Tindivanam	2
	Tiruvannámalai	2
	Villupuram	2
	Merkanam	2
	Vanur	1
	Chengam	2
	Gingee	2
	Vettavalam	1
Vriddhachalam	Vriddhachalam	1
	Porto Novo	2
	Mannárgudi	2
	Srímushnam	1
	Tittagudi	1
Tirukkóyilúr	Tirukkóyilúr	1
	Kallakurchi	1
	Sankarapuram	1
	Ulundurpet	2
	Panruti	2
Cuddalore	Kurinchippádi	1
	Nellikuppam	3

11. *Attendance of Patients, &c.*—The total number of in and out patients treated in the year in the local fund hospitals and dispensaries was 166,569 against 152,097 of the previous year, showing thus an increase of 14,472 patients. A comparative statement showing the attendance of patients during the past five years is herewith annexed.

12. *Midwives.*—The number of midwives at the beginning of the year was eleven; three midwives were newly entertained, two re-joined their appointments, of them one absconded, one resigned and one was dismissed from service and another suspended, so that there were twelve midwives working at the end of the year under report. The total number of labour cases conducted by them was 585 against 613 of the previous year, giving an average of 4·06 for each midwife per month. Six dispensaries are without the services of midwives.

13. *Vaccination.*—Animal vaccination was conducted throughout the year. The total number of cases vaccinated by the vaccine staff during the year was 71,900 against 68,832 of the previous year, showing thus an increase of 3,068 cases over that of the past year. Of the cases vaccinated during the year under report, 70,290 proved successful against 67,141 of the previous year, the percentage of successful inoculations being 97·76 against 97·54 of the previous year; 23,229 infants were vaccinated against 16,932 of the past year, showing an increase of 6,297 over that of the previous year, the percentage of successful cases being 98·23 and 97·95 respectively. The number of the re-vaccination cases performed by the vaccine staff was 1,396 against 461 of the previous year. Of the cases vaccinated 1,186 proved successful against 390 of the past year. The total cost of animal vaccination was Rs. 1,810-5-3. The cost of each case vaccinated was As. 2-9½ and of each successful case As. 2-11. The work and conduct of the staff was, on the whole, satisfactory. The number of cases vaccinated by the medical subordinate was 57 against 71 of the past year, of which 31 proved successful. The number of infants vaccinated by them was five against five of the previous year, of which three proved successful.

14. *Sanitation.*—The following towns and villages were inspected during the year by the District Medical and Sanitary officer and reports duly submitted to the Sanitary Commissioner, viz., Nellikuppam, Porto Novo, Chidambaram, Mannárgudi, Srímushnam, Kurinchippádi, Vriddhachalam, Tittagudi, Sankarápuram, Kallakurchi, Ulundurpet, Panruti, Tindivanam, Merkanam, Gingee, Tiruvannámalai, Chengam, Vettavalam, Tirukkóyilúr, Vanur, Villupuram,

77. *Markets.*—The only real markets in the district are those at Tirukkóyilúr and Panruti. The one at Tirukkóyilúr is reported to require attention so as to suit the convenience of the bazaarmen. The Tindivanam board contemplates the construction of one or two markets in the current year if funds permit. A good market at Villupuram is much needed and it ought to prove a good investment for the taluk board as well as being a great public convenience. In the Vriddhachalam taluk fees were collected at three weekly fairs. The Taluk Board President reports that the revenue officers concerned have been requested to report on the advisability of transferring markets now held on private land to poramboke or acquiring the sites in those cases in which no other land is available. The fairs are stated to be in a flourishing condition.

	Rs.
Estimate	*Nil.*
Actuals	,,

78. *Grant IV.*—The items under this grant call for no special notice. The rates at which travelling allowance was paid to the non-official members of the district and taluk boards remained the same as in the previous year.

IV.—Endowments.

79. The chief endowments in this district are the choultries. Only one of the hospitals, the Vriddhachalam hospital, and two of the middle schools are endowed.

V.—General Remarks.

80. The local fund accounts of this district up to December 1894 were audited by Mr. Brito in February last. The results of his examination were satisfactory.

The avenue produce continued to be sold by the revenue officers. The number of vaccine operations was larger than in the previous year, though there is room for further improvement. As regards education the year was one of progress on the whole, though the primary schools especially did not produce good results. In the matter of sanitation monthly reports were submitted by the taluk boards and reviewed by the district board, and had it not been for the causes detailed in paragraph 72 *supra*, the allotments would have been fully utilized. The taluk boards worked satisfactorily during the year and the work of the unions showed distinct improvement. My thanks are due to the members of the district board who have so cordially co-operated with me in efforts to promote the public welfare.

Enclosure.

Concise Annual Report on the working of Local Fund Hospitals and Dispensaries in the South Arcot district during the official year 1894–95.

The total number of medical institutions working at the end of the year under report was twenty, of which six are hospitals and the remaining fourteen, dispensaries.

2. All the hospitals are located in buildings specially constructed. They are in good repair excepting the hospital at Vriddhachalam, which has been condemned for years and needs extensive repairs, and those at Tiruvannámalai and Kallakurchi, which require repairs to roofing.

3. There are no lying-in wards nor separate accommodation for caste women in any of the hospitals, and the construction of these would add much to the popularity and utility of these institutions.

4. Seven dispensaries out of fourteen are provided with specially-constructed buildings and the remaining seven are located in private buildings erected by the taluk boards. Most of them are unsuited for the requirements. Suitable buildings for their location are necessary.

5. *Dispensary Committee, &c.*—All matters connected with the above institutions are disposed of by the taluk boards at their monthly meetings.

6. *The most prevalent diseases.*—Diseases in order of their frequency are as follows:—Fevers, diseases of the ear, eye, connective tissue and digestive system, ulcers, local injuries, rheumatic affections and skin diseases.

7. *Epidemics.*—Cholera broke out at Tiruvannámalai in December last during the Karthigai festival and spread throughout the district, affecting almost every taluk but chiefly Chidambaram.

during the current year. The assistant inspector, fifth division, reports that "the progress made by panchama education is fairly satisfactory."

Girls	694
Total ..	25,158

62. *Grant-in-aid Schools.*—According to the assistant inspector's statement there were 1,278 schools with 25,158 * pupils on the 31st March last including both aided and unaided schools (excluding those aided from provincial funds). Grants were disbursed at maximum rates as in the previous year. The decrease in the expenditure under this head is attributed chiefly to the following causes :—

(1) The difficulty experienced by teachers in attending to the rules of recognition for grant.

(2) The pressure brought to bear on the teachers to attend the sessional and training schools.

(3) Payment being made to the teachers in the Vriddhachalam taluk board up to the limit of the assignment for each school, the excess being withheld.

(4) The maximum for "merit" grants having been raised from half to three-fifths.

63. *General Education Results.*—The general results may, I think, on the whole be considered fair. The number of unpassed teachers is decreasing every year. New schools are springing up. The taluk boards will be requested to pay more attention to the education of the panchamas in co-operation with the educational officers. The examination results of the primary schools and some of the lower secondary schools were not satisfactory. This matter will receive due attention in the current year.

64. *Grant III, Medical Services, &c.*—The number of hospitals and dispensaries continued to be six and fourteen respectively. All the hospitals are located in local fund buildings. These buildings are reported to be in good condition, except the building at Vriddhachalam, for repairing which an estimate was recently sanctioned after consultation with the Superintending Engineer.

	Rs.
Estimate	1,01,385
Actuals	98,529

65. Of the fourteen dispensaries, seven are located in local fund buildings and the others in buildings rented by the taluk boards. The taluk boards are endeavouring to comply with the recent orders of Government as regards providing medical subordinates with suitable quarters close to their work.

66. The District Surgeon reports—

"Cholera broke out at Tiruvannámalai in December last during the Kartigai festival, and spread throughout the district affecting almost every taluk, but chiefly Chidambaram. Two hospital assistants were specially deputed to attend to sanitary arrangements and to render medical aid to the sick. Medical subordinates in charge of institutions were instructed to render medical aid to those stricken with the disease in their vicinity."

67. The total number of deaths from cholera during the year was 2,383 against 4,330 in 1893–94. The number of deaths from small-pox was 1,081 against 1,652.

68. The number of patients treated during the year was 166,569 against 152,097 in 1893–94.

69. *Midwives.*—The number of midwives at the beginning of the year was eleven. Three were newly entertained and two returned to duty during the year. Of these, one is reported to have absconded, one resigned, one was dismissed and one suspended during the year. The number of these servants working at the end of the year was therefore twelve. The total number of labour cases conducted by them was 585 against 613 in 1893–94. Six dispensaries are reported to be without

	Rs.
Estimate	1,806
Actuals	1,316

midwives. The midwife at Panruti did not work well. She has been transferred to a less important place, viz., Kurinjipadi. The Tindivanam hospital was without a midwife for three months, Gingee for six months, Chengam for five months and Kurinjipadi for a month or two. This accounts for the short work turned out by these women. It is difficult to obtain midwives and much more difficult to get good work out of them when they are secured. Time will doubtless bring about improvement, but as a class they are troublesome and unpopular.

70. *Vaccination.*—The number of cases vaccinated by the vaccinators was 71,900 against 68,832 in 1893–94. The number of successful cases was 70,290 against 67,141. The number of infants vaccinated was 23,299 against 16,932. The number of revaccinations was 1,396 against 461 in 1893–94. One thousand one hundred and eighty-six of these proved successful against 390. Animal vaccination was conducted throughout the year at a cost of Rs. 1,810–5–3.

	Rs.
Estimate	13,376
Actuals	13,004

71. The medical subordinates vaccinated 57 cases, 31 of which proved successful. The number of infants vaccinated by them was five, of which three cases were successful. These results are, I think, very satisfactory.

Sanitation.—Estimate, Rs. 40,344 ; actuals, Rs. 35,933.

72. *Improvement of Water-supply.*—The decrease was due chiefly to (1) some of the works not having been completed within the year on account of which no payment was made, (2) some of the ponds having been filled with water and (3) short expenditure in the case of some of the ponds. The expenditure was 93 per cent. of the allotment against 94 in 1893–94.

	Rs.
Estimate	17,735
Actuals	16,430

73. *Improvement of Village-site.*—The decrease was due chiefly to some of the works, for which funds had been allotted having been subsequently found unnecessary and to the non-completion of some others within the year.

	Rs.
Estimate	2,052
Actuals	1,676

74. *Scavenging Establishment.*—The additional establishment provided for in the budget for the Porto Novo, Bhuvanagiri and Mannárgudi unions were not entertained for want of funds. The establishments at Ulundúrpéttai and Kallakurchi were not strengthened as no unions were established in those places during the year. The increased establishments provided for Tiruvannanallúr and Tyagadrug were entertained late in the year. These were among the chief causes for short expenditure under this head.

	Rs.
Estimate	18,494
Actuals	15,891

75. *Choultries.*—There was no increase in the number of these institutions during the year. Two hundred and ninety-six Brahmins were fed during the year at the Panruti-Garudanadi choultry.

	Rs.
Estimate	1,361
Actuals	1,289

76. *Bungalows.*—A building at Valudavur in the Villupuram taluk which was made over to the Tindivanam taluk board during the year is used as a travellers' bungalow. It has been recently furnished by the taluk board and a watchman appointed. The Kallakurchi and Ammapett bungalows were repaired during the year. Necessary furniture was purchased during the year for the Ulundúrpéttai bungalow. All the bungalows are reported to be fairly well furnished and to be in good condition. The rates of fees collected continued to be the same as in the previous year.

	Rs.
Estimate	1,148
Actuals	1,091

77. *Markets.*—The only real markets in the district are those at Tirukkóyilúr and Panruti. The one at Tirukkóyilúr is reported to require attention so as to suit the convenience of the bazaarmen. The Tindivanam board contemplates the construction of one or two markets in the current year if funds permit. A good market at Villupuram is much needed and it ought to prove a good investment for the taluk board as well as being a great public convenience. In the Vriddhachalam taluk fees were collected at three weekly fairs. The Taluk Board President reports that the revenue officers concerned have been requested to report on the advisability of transferring markets now held on private land to poramboke or acquiring the sites in those cases in which no other land is available. The fairs are stated to be in a flourishing condition.

	Rs.
Estimate	*Nil.*
Actuals	,,

78. *Grant IV.*—The items under this grant call for no special notice. The rates at which travelling allowance was paid to the non-official members of the district and taluk boards remained the same as in the previous year.

IV.—Endowments.

79. The chief endowments in this district are the choultries. Only one of the hospitals, the Vriddhachalam hospital, and two of the middle schools are endowed.

V.—General Remarks.

80. The local fund accounts of this district up to December 1894 were audited by Mr. Brito in February last. The results of his examination were satisfactory.

The avenue produce continued to be sold by the revenue officers. The number of vaccine operations was larger than in the previous year, though there is room for further improvement. As regards education the year was one of progress on the whole, though the primary schools especially did not produce good results. In the matter of sanitation monthly reports were submitted by the taluk boards and reviewed by the district board, and had it not been for the causes detailed in paragraph 72 *supra*, the allotments would have been fully utilized. The taluk boards worked satisfactorily during the year and the work of the unions showed distinct improvement. My thanks are due to the members of the district board who have so cordially co-operated with me in efforts to promote the public welfare.

Enclosure.

Concise Annual Report on the working of Local Fund Hospitals and Dispensaries in the South Arcot district during the official year 1894–95.

The total number of medical institutions working at the end of the year under report was twenty, of which six are hospitals and the remaining fourteen, dispensaries.

2. All the hospitals are located in buildings specially constructed. They are in good repair excepting the hospital at Vriddhachalam, which has been condemned for years and needs extensive repairs, and those at Tiruvannámalai and Kallakurchi, which require repairs to roofing.

3. There are no lying-in wards nor separate accommodation for caste women in any of the hospitals, and the construction of these would add much to the popularity and utility of these institutions.

4. Seven dispensaries out of fourteen are provided with specially-constructed buildings and the remaining seven are located in private buildings erected by the taluk boards. Most of them are unsuited for the requirements. Suitable buildings for their location are necessary.

5. *Dispensary Committee, &c.*—All matters connected with the above institutions are disposed of by the taluk boards at their monthly meetings.

6. *The most prevalent diseases.*—Diseases in order of their frequency are as follows:—Fevers, diseases of the ear, eye, connective tissue and digestive system, ulcers, local injuries, rheumatic affections and skin diseases.

7. *Epidemics.*—Cholera broke out at Tiruvannámalai in December last during the Karthigai festival and spread throughout the district, affecting almost every taluk but chiefly Chidambaram.

of which is excellent; and that the coast road south of Cuddalore is bad up to the 15th mile. Funds have been allotted in the current year for improving this road.

51. The Tindivanam Taluk Board President reports that the roads are "not as good and substantial as they ought to be for the money spent," and complains that metal is not properly broken, that the roads are full of ruts and holes, and that the subordinates of the Engineering Department require to be galvanized into greater energy. The District Board Engineer is in special charge of this division and his attention is being drawn to the taluk board President's remarks.

52. The Vriddhachalam Taluk Board President reports that the general condition of the roads is far from satisfactory. He states "In some parts the roads are in good condition, but in many places they are in anything but good condition, although nearly the whole of the allotment was utilised." The Assistant Engineer who is in special charge of this portion of the division is actively engaged in improving matters.

53. The Cuddalore Taluk Board President states that the main roads in the taluk are all in fair order. The Tirukkóyilúr Taluk Board President has made very few remarks on the general condition of the roads.

54. My own personal experience of the roads in the district is that some of the roads in the Tindivanam, Tiruvannámalai, Cuddalore and Kallakurchi taluks are in a fairly satisfactory condition and that those in the Chidambaram taluk are mostly bad. I have every reason to hope that if the work of the A system contractors (almost all the roads in the district have been given out in the current year on the A system) is carefully supervised, the condition of the roads will be materially improved. The subordinate staff has been strengthened by the appointment of an Assistant Engineer and eight sub-overseers, and much stricter supervision than has hitherto been possible is now being exercised. The total length of the roads was so extensive that it was quite impossible for one Engineer to do justice to his work, but under existing arrangements there will be little excuse for the Engineering staff if the roads are not very considerably improved. One supervisor and one overseer were dismissed during the year under report. Those now employed have received fair warning that they may expect very short shrift if they fail to get all the roads into a satisfactory state.

55. *Avenues.*—The avenues are reported by the Local Fund Engineer to have been in good condition during the year. There were 209,019 trees at the commencement of the year. One thousand six hundred and ninety-one trees were planted and 578 died during the year. The number of trees at the end of the year was therefore 210,132.

56. The percentage of the cost of the Local Fund Engineering establishment and that of tools and plant to the total outlay on works during the year was about fifteen and ·8, respectively, against fifteen and ·9 in 1893–94. The total expenditure on works by the Engineering department came to 92 per cent. of the total allotment against 101 per cent. in 1893–94. The District Board Engineer writes: "the total expenditure is over 93 * per cent. of the total allotment of the year under report, about 4 per cent. savings on the A system contract works and recovery of materials at site, both put together, 97 per cent. A better percentage could have been shown but for the five months' continued drought as materials lying on the road on account of special repairs could not be put down for want of water." This prolonged drought doubtless partly accounted for delay; but the short expenditure was not altogether satisfactory. The Local Fund Engineer was in almost every monthly review of his progress reports requested to see that all the allotments were fully utilized within the year and up to the end he gave the assurance that there was no fear of any allotments lapsing at the close of the year. There has been far too much tendency in this district to rush work towards the end of the year, a tendency pointed out to the District Board Engineer as being highly objectionable.

* This should be 91.

77. *Markets.*—The only real markets in the district are those at Tirukkóyilúr and Panruti. The one at Tirukkóyilúr is reported to require attention so as to suit the convenience of the bazaarmen. The Tindivanam board contemplates the construction of one or two markets in the current year if funds permit. A good market at Villupuram is much needed and it ought to prove a good investment for the taluk board as well as being a great public convenience. In the Vriddhachalam taluk fees were collected at three weekly fairs. The Taluk Board President reports that the revenue officers concerned have been requested to report on the advisability of transferring markets now held on private land to poramboke or acquiring the sites in those cases in which no other land is available. The fairs are stated to be in a flourishing condition.

6. *The most prevalent diseases.*—Diseases in order of their frequency are as follows:—Fevers, diseases of the ear, eye, connective tissue and digestive system, ulcers, local injuries, rheumatic affections and skin diseases.

7. *Epidemics.*—Cholera broke out at Tiruvannámalai in December last during the Karthigai festival and spread throughout the district, affecting almost every taluk but chiefly Chidambaram.

falling off was almost counterbalanced by the introduction of the tax for the first time in the unions of Mannárgudi and Tittagudi during the year and by increased collections in the other unions, notably in the Tindivanam, Tiruvannámalai and Vriddhachalam unions.

31. The total demand for the year under this head including arrears was Rs. 10,377–7–0; and the total collections, including an excess collection of Rs. 3–10–0 and distraint fees of As. 13, amounted to Rs. 9,465–10–0. Of the arrear * balance of Rs. 276–5–0, Rs. 237–5–0 were realised, and the balance of Rs. 39 remitted or written off in the year under report. The balance under the current demand—*vide* margin—was Rs. 877–4–0. Of this, Rs. 12–10–0 were remitted within the year. The balance which actually remained uncollected on the 31st March last was therefore Rs. 864–10–0. Of this amount, Rupees 320–2–2 have since been collected, Rupees 7–4–0 written off and Rs. 9 recommended for remission in the current year. The Taluk Board Presidents report that the Chairmen of the unions concerned have been instructed to take early steps to recover the remaining arrears.

* Arrear of 1893–94.

	Rs.	A.	P.
Current demand	10,101	2	0
Current collections excluding excess collection and distraint fees	9,223	14	0
Balance ..	877	4	0

32. The number of distress warrants issued during the year in the district was 521, the amount involved being Rs. 219–12–0. Property was however distrained in only twelve cases for the recovery of Rs. 3–1–0; but no sale of the distrained property was necessary in any of these cases as the defaulters paid the tax due by them.

33. (*ii*) *Education—(a) School-fees.*—The decrease under this head was chiefly due to the fall in the strength of the middle schools under the district board and the salary-result schools under the Vriddhachalam Taluk Board in the course of the year. The estimate of the Educational officers under this head as regards the middle schools appears to have been excessive.

	Rs.
Estimate	16,488
Actuals	15,106

34. (*e*) *Miscellaneous.*—The income realised under this head was chiefly made up of the sale-proceeds of unserviceable middle school articles.

	Rs.

38. (*v*) *Miscellaneous—(iii) From Private Individuals.*—The Tindivanam Taluk Board President reports that, owing to the poverty of the ryots, the amount expected by it as contributions towards the improvement of water-supply and village sites was not realised to anything like the extent anticipated when the budget for the

	Rs.
Estimate	2,000
Actuals	462

year was framed. It is manifest that the taluk board's expectations were far too sanguine. The dharmakartha of the Tiruvannámalai temple contributed Rs. 190–14–3 (*vide* G.O., No. 2015 L., dated 10th October 1894) towards making sanitary arrangements during the Karthigai festival. The dharmakartha of the Oyamadam at Tiruvannámalai also contributed Rs. 10 for the same purpose. Rs. 136 were paid to the district board by the ryots concerned for raising the Konalur tank bund on the road from Tiruvannámalai to Pondicherry *vid* Villupuram. The estimated cost of the work in question was Rs. 272.

39. (*b*) *Choultry Rents.*—The increase was due chiefly to (1) the adjustment made in the year of Rs. 407 which had been wrongly credited to land revenue in faslis 1297 to 1301 and (2) the recovery of arrears due on account of the Manalurpet choultry inam lands.

	Rs.
Estimate	605
Actuals	1,116

40. (*c*) *Market Rents.*—The market at Tirukkóyilúr did not realise as much as was expected, there being no demand for some of the stalls. This is alleged to have been due to their unfavourable situation. The satisfactory increase over the estimate was chiefly due to the collections of fees made by the Tindivanam and Vriddhachalam Taluk Boards in weekly fairs held on Government poramboke lands in some of the villages within their jurisdictions.

	Rs.
Estimate	250
Actuals	947

41. (*f*) *Ferry Rents.*—The decrease is attributed to the fall in the lease amounts of the Porto Novo and Bhuvanagiri ferries.

	Rs.
Estimate	2,130
Actuals	1,882

42. (*h*) *Fishery Rents.*—The large increase under this head is attributed chiefly to (1) the collection of arrears of previous faslis by the Cuddalore Taluk Board, (2) the lease of the fishery in some of the ponds in the Vriddhachalam Taluk Board and (3) to the favourable character of the season during the year.

	Rs.
Estimate	7,530
Actuals	11,157

43. (*j*) *Avenues.*—The produce of avenues on all the roads except those under the Tindivanam taluk board fetched more than they realised in the previous year. The increase was also partly due to the collection of arrears during the year by the Vriddhachalam and Cuddalore Taluk Boards.

	Rs.
Estimate	13,930
Actuals	18,228

44. (*b*) *Sundry Receipts.*—The sale of sweepings, &c., fetched a larger sum than had been estimated for in the budget.

	Rs.
Estimate	968
Actuals	1,104

45. (*vi*) *Public Works*—(*d*) *Contributions*—(*i*) *From Municipalities.*—The Cuddalore taluk board failed to realise within the year the annual contribution of Rs. 50 payable by the Cuddalore Municipality on account of the maintenance of the Gaddilam embankment. This will be collected. Rs. 483 realised by the district board were chiefly the arrears of contribution paid by the above municipality towards the pay of the Superintendent in charge of the Pennar and Gaddilam bridges.

	Rs.
Estimate	50
Actuals	483

46. (*f*) *Miscellaneous.*—The decrease was chiefly due to the fact that no rents were collected from medical subordinates with reference to G.O., No. 1005 L., dated 6th June 1894.

	Rs.
Estimate	770
Actuals	594

47. (*IV*) *From the Forest Department.*—The figure shown under this head was the contribution paid by the Forest department on account of the Chengam-Paramanandal road.

	Rs.
Estimate	1,500
Actuals	1,500

48. (*VII*) *Contribution from Provincial Funds*—(*a*) *Education.*—The decrease was due chiefly to (1) the failure of some of the salary-result schools to earn the amount of grants they were expected to earn in consequence of the raising of the percentage of marks for merit grant from one-half to three-fifths during the year, and (2) the Director's inability to sanction increased grants and grants for books, &c., for want of funds.

	Rs.
Estimate	8,437
Actuals	5,807

III.—Expenditure.

	Rs.
Estimate	4,24,512
Actuals	4,15,864

49. *Grant I—Public Works.*—The following were among the important works completed in the year :—

	Rs.
Estimate	2,25,713
Actuals	2,08,640

(1) The construction of a causeway across the Malattar.
(2) The formation of the Semmedu-Vettavallam road (within the limits of the Tirukkóyilúr taluk board).
(3) Forming a road from Chengam to Paramanandal.
(4) Construction of hospital assistants' quarters at Vanur.

Among the works commenced but not completed, the construction of hospital assistants' quarters at Mannárgudi deserves mention.

50. *Condition of Roads.*—The Local Fund Engineer reports that the roads in the Tindivanam and Tiruvannámalai taluks, which are worked on the A system, with the exception of 22 miles of the Merkanam-Samalputty road and 18 miles of the coast road, improved during the year ; that the portions which are not worked on that system are not in good condition, the annual maintenance grants being inadequate, but that an estimate for re-gravelling a portion of the Merkanam-Samalputty road has been sanctioned and the work is in progress ; that in the Villupuram taluk the Gingee-Villupuram road, the Villupuram-Mambalaput road and the Papanaput-Valudavur road were brought into better condition during the year ; that Trunk road Nos. 8 and 9 were in better order than they were in the previous year ; that the Villupuram-Pondicherry road is in very bad order, but that an estimate for improving it has been sanctioned and the work is in progress ; that in the Tirukkóyilúr taluk the roads are not in a satisfactory condition as the local fund board has not been able to allot sufficient funds for their proper upkeep ; that in the Kallakurchi taluk the A system contractor is doing his best to maintain the roads in good order, but that much improvement cannot be expected as the grants are inadequate ; that in the Vriddhachalam taluk the main road is in good order, but not so the branch roads ; that a large quantity of metal which has been collected on the Pennadam road could not be put down for want of rain ; that 10 miles of the Vriddhachalam-Ulundúrpétta road are in very bad order, as the maintenance grants are insufficient ; that in the Chidambaram taluk almost all the roads are mostly mud roads ; that the coast road, which is worked on the A system, is in fairly good order ; that the Porto Novo-Vriddhachalam road is decidedly bad, an estimate for improving it has been lately sanctioned by the district board ; that 5 miles of the Chidambaram-Mannárgudi road and 5 miles of the Viranam tank bund road have been metalled ; that the remaining miles of these roads will be metalled gradually ; that the formation of the road from the trunk road to Rajendrapatnam through Srimushnam is in progress and will be completed in three or four years ; that Trunk Road No. IX is not in good order ; that in the Cuddalore taluk the roads are generally in fair order, particularly the Salem frontier road up to the 24th mile, part

of which is excellent; and that the coast road south of Cuddalore is bad up to the 15th mile. Funds have been allotted in the current year for improving this road.

51. The Tindivanam Taluk Board President reports that the roads are "not as good and substantial as they ought to be for the money spent," and complains that metal is not properly broken, that the roads are full of ruts and holes, and that the subordinates of the Engineering department require to be galvanized into greater energy. The District Board Engineer is in special charge of this division and his attention is being drawn to the taluk board President's remarks.

52. The Vriddhachalam Taluk Board President reports that the general condition of the roads is far from satisfactory. He states "In some parts the roads are in good condition, but in many places they are in anything but good condition, although nearly the whole of the allotment was utilised." The Assistant Engineer who is in special charge of this portion of the division is actively engaged in improving matters.

53. The Cuddalore Taluk Board President states that the main roads in the taluk are all in fair order. The Tirukkóyilúr Taluk Board President has made very few remarks on the general condition of the roads.

54. My own personal experience of the roads in the district is that some of the roads in the Tindivanam, Tiruvannámalai, Cuddalore and Kallakurchi taluks are in a fairly satisfactory condition and that those in the Chidambaram taluk are mostly bad. I have every reason to hope that if the work of the A system contractors (almost all the roads in the district have been given out in the current year on the A system) is carefully supervised, the condition of the roads will be materially improved. The subordinate staff has been strengthened by the appointment of an Assistant Engineer and eight sub-overseers, and much stricter supervision than has hitherto been possible is now being exercised. The total length of the roads was so extensive that it was quite impossible for one Engineer to do justice to his work, but under existing arrangements there will be little excuse for the Engineering staff if the roads are not very considerably improved. One supervisor and one overseer were dismissed during the year under report. Those now employed have received fair warning that they may expect very short shrift if they fail to get all the roads into a satisfactory state.

55. *Avenues.*—The avenues are reported by the Local Fund Engineer to have been in good condition during the year. There were 209,019 trees at the commencement of the year. One thousand six hundred and ninety-one trees were planted and 578 died during the year. The number of trees at the end of the year was therefore 210,132.

56. The percentage of the cost of the Local Fund Engineering establishment and that of tools and plant to the total outlay on works during the year was about fifteen and ·8, respectively, against fifteen and ·9 in 1893–94. The total expenditure on works by the Engineering department came to 92 per cent. of the total allotment against 101 per cent. in 1893–94. The District Board Engineer writes: "the total expenditure is over 93 * per cent. of the total allotment of the year under report, about 4 per cent. savings on the A system contract works and recovery of materials at site, both put together, 97 per cent. A better percentage could have been shown but for the five months' continued drought as materials lying on the road on account of special repairs could not be put down for want of water." This prolonged drought doubtless partly accounted for delay; but the short expenditure was not altogether satisfactory. The Local Fund Engineer was in almost every monthly review of his progress reports requested to see that all the allotments were fully utilized within the year and up to the end he gave the assurance that there was no fear of any allotments lapsing at the close of the year. There has been far too much tendency in this district to rush work towards the end of the year, a tendency pointed out to the District Board Engineer as being highly objectionable.

* This should be 91.

Of the arrear collections, Rs. 2,071 appertained to the year 1892–93 and Rs. 741–1–0 to the year 1893–94. More than *99* per cent. of the current demand was realized under this head during the year. The system of toll-gates underwent no chang(

29. *House-tax.*—This tax was levied during the year under report at half the scheduled rates in all the unions in the district, Panruti and Srimushnam excepted. In the Panruti union maximum rates were levied during the year. No tax was levied in the Srimushnam union, as the panchayat was formed only at the end of the year. The tax will be levied at maximum rates in all the unions in the current year.

	Rs.
Estimate	9,490
Actuals	9,466

G.O., No. 2216, dated 7th October 1893.

30. The Tirukkóyilúr Taluk Board proposed to levy maximum rates in the Tirukkóyilúr union when the budget for the year under report was framed. But the district board recommended and Government approved of the proposal to levy only half the scheduled rates. In the Porto Novo and Bhuvanagiri unions the actual demand for the year fell considerably below the budget estimate. The original estimate appears to have been excessive. But this

G.O., Mis. No. 2826 L., dated 18th Dec. 1883.

of which is excellent; and that the coast road south of Cuddalore is bad up to the 15th mile. Funds have been allotted in the current year for improving this road.

51. The Tindivanam Taluk Board President reports that the roads are "not as good and substantial as they ought to be for the money spent," and complains that metal is not properly broken, that the roads are full of ruts and holes, and that the subordinates of the Engineering department require to be galvanized into greater energy. The District Board Engineer is in special charge of this division and his attention is being drawn to the taluk board President's remarks.

52. The Vriddhachalam Taluk Board President reports that the general condition of the roads is far from satisfactory. He states "In some parts the roads are in good condition, but in many places they are in anything but good condition, although nearly the whole of the allotment was utilised." The Assistant Engineer who is in special charge of this portion of the division is actively engaged in improving matters.

53. The Cuddalore Taluk Board President states that the main roads in the taluk are all in fair order. The Tirukkóyilúr Taluk Board President has made very few remarks on the general condition of the roads.

54. My own personal experience of the roads in the district is that some of the roads in the Tindivanam, Tiruvannámalai, Cuddalore and Kallakurchi taluks are in a fairly satisfactory condition and that those in the Chidambaram taluk are mostly bad. I have every reason to hope that if the work of the A system contractors (almost all the roads in the district have been given out in the current year on the A system) is carefully supervised, the condition of the roads will be materially improved. The subordinate staff has been strengthened by the appointment of an Assistant Engineer and eight sub-overseers, and much stricter supervision than has hitherto been possible is now being exercised. The total length of the roads was so extensive that it was quite impossible for one Engineer to do justice to his work, but under existing arrangements there will be little excuse for the Engineering staff if the roads are not very considerably improved. One supervisor and one overseer were dismissed during the year under report. Those now employed have received fair warning that they may expect very short shrift if they fail to get all the roads into a satisfactory state.

55. *Avenues.*—The avenues are reported by the Local Fund Engineer to have been in good condition during the year. There were 209,019 trees at the commencement of the year. One thousand six hundred and ninety-one trees were planted and 578 died during the year. The number of trees at the end of the year was therefore 210,132.

56. The percentage of the cost of the Local Fund Engineering establishment and that of tools and plant to the total outlay on works during the year was about fifteen and ·8, respectively, against fifteen and ·9 in 1893–94. The total expenditure on works by the Engineering department came to 92 per cent. of the total allotment against 101 per cent. in 1893–94. The District Board Engineer writes: "the total expenditure is over 93 * per cent. of the total allotment of the year under report, about 4 per cent. savings on the A system contract works and recovery of materials at site, both put together, 97 per cent. A better percentage could have been shown but for the five months' continued drought as materials lying on the road on account of special repairs could not be put down for want of water." This prolonged drought doubtless partly accounted for delay; but the short expenditure was not altogether satisfactory. The Local Fund Engineer was in almost every monthly review of his progress reports requested to see that all the allotments were fully utilized within the year and up to the end he gave the assurance that there was no fear of any allotments lapsing at the close of the year. There has been far too much tendency in this district to rush work towards the end of the year, a tendency pointed out to the District Board Engineer as being highly objectionable.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following paper:—

From A. E. CASTLESTUART STUART, Esq., President, District Board, South Arcot, to the Chief Secretary to Government, dated Cuddalore, 11th July 1895, No. 188-Dis.

I have the honour to report on the administration of Local funds in this district during the year 1894–95. The prescribed statements are appended.

I.—General.

2. *Administration.*—During the year under report the number of unions was increased by the establishment of the Srimushnam union under the Vriddhachalam Taluk Board. But as the seats on the panchayat were filled only at the end of March last, this union did not work during the year.

G.O., No. 2683 L., dated 22nd December 1894.

3. *District Board.*—The district board had its full sanctioned strength of 32 members on the 31st March last. Of these, 4 were *ex-officio* members, 16 elected and 12 appointed; 2 of the elected and 4 of the appointed members were officials.

4. There were two vacancies at the end of the previous year, one among the elected and the other among the appointed members. These were filled in the year under report.

5. During the year there were five elections (one by each of the taluk boards of Tindivanam, Vriddhachalam and Cuddalore, and two by the Tirukkóyilúr Board) and seven appointments. One of the elections took place and one of the appointments was made to fill seats which remained vacant on the 31st March 1894. The others were required to fill vacancies which occurred in the course of the year.

6. The district board held 13 meetings during the year—11 ordinary and 2 special. A *quorum* was secured on each occasion. The attendance of both official and non-official members was better than it was in the previous year, the averages being 5 against 4 and 13 against 12, respectively.

7. *Taluk Boards.*—There was no alteration in the territorial jurisdiction of the taluk boards during the year.

8. The taluk boards of Tindivanam, Vriddhachalam and Cuddalore held 13 meetings each during the year and the Tirukkóyilúr Taluk Board 12. None of the meetings had to be dissolved for want of a *quorum*.

9. The number of members of the Tindivanam Taluk Board was raised from 12 to 15 during the year. The strength of the other taluk boards continued the same as in the previous year.

G.O., No. 621 L., dated 2nd April 1894.

10. Five appointments were made in the Tindivanam Taluk Board during the year. Three of these were made to fill the three additional seats sanctioned by Government and the remaining two to fill two of the three vacancies which arose during the year. The one seat which remained vacant on the 31st March last was filled in the current year.

11. Two vacancies occurred in the Vriddhachalam Taluk Board and both were filled within the year, as also the three seats which remained vacant on the 31st March 1894.

12. Seven seats fell vacant during the year in the Cuddalore Taluk Board. Six of these were filled within the year and the remaining seat in the current year.

13. Five appointments were made in the Tirukkóyilúr Taluk Board during the year. Four of them were to fill four of the seven vacancies which arose in the course of the year, and the fifth was to fill the seat which remained vacant on the 31st March 1894. The three seats which were vacant on the 31st March last were filled in the current year.

14. There were thus 14 members on the Tindivanam Taluk Board on the 31st March last, 11 on the Cuddalore Taluk Board and 9 on the Tirukkóyilúr Taluk Board. The Vriddhachalam Taluk Board retained its full sanctioned strength on that date.

15. *Unions.*—As reported in paragraph 2 *supra* an union was established at Srimushnam at the end of the year, but it did not commence work during that year for the reason stated. The strength of the unions of Tittagudy, Porto Novo Mannárgudi, Bhuvanagiri, Nellikuppam and Tirukkóyilúr was increased during the year from 6 to 10 in the case of the first two unions and from 6 to 15, 12 to 14, 11 to 13 and 6 to 8, respectively, in the case of the other unions. The strength of the Nellikuppam union was raised so as to give the non-official element a preponderance on that panchayat. In the case of the Tirukkóyilúr union the increase was necessary owing to the introduction of the house-tax. As regards the other unions, their strength had to be raised with the extension of their territorial jurisdiction—*vide* the Government orders quoted in the margin.

G.O., No.	877 L.,	dated 16th May	1894.
„ „	1796 L.,	„ 14th Sept.	„
„ „	878 L.,	„ 16th May	„
„ „	2684 L.,	„ 22nd Dec.	„
„ „	2676 L.,	„ 22nd „	„
„ „	297 L.,	„ 10th Feb.	1895.
„ „	504 L.,	„ 14th Mar.	1894.

16. The Tiruvannámalai and Mannárgudi unions held 15 meetings each during the year, the Porto Novo, * Villupuram, * Panruti and Bhuvanagiri unions, 14 meetings each, and the remaining unions, Srimushnam excepted, 13 each. A *quorum* was secured on each occasion by all the unions except Panruti and Villupuram, each of which had to dissolve one of their meetings. The Vriddhachalam Taluk Board President reports that the Vriddhachalam Union Chairman dissolved one of the panchayat's meetings under a misapprehension of the provisions of the Local Boards Act, though a *quorum* was not actually wanting, and that the Chairman's attention was directed to the provisions of the Act. Further details relating to panchayats are given in statement XVI-B.

* Excluding the one dissolved for want of a *quorum*.

17. The Tindivanam Taluk Board President reports that the attendance of some of the members of the Tindivanam Union Panchayat was unsatisfactory. The Vriddhachalam Taluk Board President reports that the Tittagudi Union Panchayat worked unsatisfactorily under the chairmanship of M.R.Ry. Somasundara Mudaliyar Avargal, but that the present Chairman has been attending to his duties very assiduously. The attendance of the members of all the unions except Mannárgudi under this taluk board is reported to have been fair. There is, however, reason to hope that, as the ward system has been introduced, the union of Mannárgudi will work better. The Panruti and Nellikuppam unions worked satisfactorily during the year. As regards the Tirukkóyilúr union, the Chairman M.R.Ry. E. Krishnayya Garu was found to mismanage the union affairs and his conduct in certain matters was not above suspicion. He resigned his appointment and since then matters have considerably improved.

18. All the unions under the Tindivanam Taluk Board were lighted during the year and their conservancy staffs strengthened by the appointment of a maistry on Rs. 7. An additional toti was also appointed for the Tindivanam union. The Villupuram union roads were repaired at a cost of Rs. 300 and the union office at a cost of Rs. 92. Rs. 491 were spent in improving some of the streets and roads of the Tiruvannámalai union and Rs. 50 and Rs. 8 were spent in the removal of prickly-pear in the unions of Villupuram and Tindivanam, respectively. Under water-supply Rs. 100 were spent in the Villupuram union and Rs. 360 in the Tindivanam union. The chief ponds in the unions of Tindivanam and Villupuram are reserved for drinking purposes. The Taluk Board President reports that it is under contemplation to reserve one or two ponds in the Tiruvannámalai union also. The Sanitary Commissioner recently pointed out that the funds allotted by the Tindivanam Taluk Board for sanitary arrangements at Tiruvannámalai during the Karthigai festival, were insufficient. The taluk board's attention was drawn to the matter. The question is now under correspondence with the Sanitary Commissioner.

19. Springs were tapped in the Manimuktanadi in the Vriddhachalam and Tittagudi unions. Toties were newly appointed in Porto Novo, Bhuvanagiri and Mannárgudi unions and 8 dust-bins were supplied to the Tittagudi union; 48 lamps were in use in the Vriddhachalam union against 44 in the previous year.

20. The district board sanctioned a special contribution of Rs. 2,000 for the improvement of sanitation and water-supply in the Nellikuppam union. Of this contribution, Rs. 473 were spent during the year in repairing the streets. The scavengering establishment attached to this union was strengthened during the year by the appointment of additional toties and scavengers. A drinking-water well was repaired and 8 lamp-posts fixed and lamps established in important places within the union. Four iron latrines and 40 iron dust bins were purchased during the year at a cost of Rs. 672 and Rs. 312–8–0, respectively. The sanitation of the union received particular attention during the year and considerable improvement was effected, though much remains to be done.

21. A water-pandal was maintained in the Tirukkóyilúr union during the hottest part of the year and a water-cart was purchased for the purpose. Springs were also tapped in the Pennár river during the prevalence of drought.

22. The Panruti union spent Rs. 726–12–0 in the construction and purchase of four additional and in repairing old latrines. Twenty additional lamps were established. The side channels in the Mariamman Koil street were completed and other side channels were made. The scavenging establishment cost over Rs. 1,900 and great progress was made in all directions.

23. The above were among the more important measures adopted for the improvement of the condition of the unions during the year which was one of decided progress. The unions held a sufficient number of meetings and all union matters received much careful attention at the hands of both the district and taluk boards. Irregular members have been personally addressed and there is every reason to hope for further improvement in the current year. The ward system was introduced in all the unions in the district except Tirukkóyilúr, and it is reported to be working satisfactorily in all cases where individual members take a personal interest in their wards. Those who fail to do so will be gradually eliminated from the unions and replaced by more useful public functionaries. The President, Taluk Board, Tirukkóyilúr, reports that in the Tirukkóyilúr union the ward system will be introduced during the current year.

24. The following Chairmen of unions were conspicuous for their interest in the work entrusted to them and much credit is due to them for their personal energy and exertions:—

Messrs. D'Sylva and Figredo, Chairmen of Tindivanam and Villupuram unions respectively; M.R.Ry. Rajaratna Mudaliar Avargal, Chairman of the Panruti union; M.R.Ry. Murugesa Mudaliyar Avargal, the Chairman of Vriddhachalam union and M.R.Ry. Chokkalinga Mudaliyar Avargal, the Chairman of the Nellikuppam union.

25. *District, Taluk and Union Funds.*—The subjoined table compares the receipts and charges of the year with those of 1893–94:—

—	Actuals of 1893–94.				Actuals of 1894–95.

Current do.	41,707	1	8
Total ..	44,519	2	8

Of the arrear collections, Rs. 2,071 appertained to the year 1892–93 and Rs. 741–1–0 to the year 1893–94. More than *99* per cent. of the current demand was realized under this head during the year. The system of toll-gates underwent no change.

29. *House-tax.*—This tax was levied during the year under report at half the scheduled rates in all the unions in the district, Panruti and Srimushnam excepted. In the Panruti union maximum rates were levied during the year. No tax was levied in the Srimushnam union, as the panchayat was formed only at the end of the year. The tax will be levied at maximum rates in all the unions in the current year.

	Rs.
Estimate	9,490
Actuals	9,466

G.O., No. 2216, dated 7th October 1893.

30. The Tirukkóyilúr Taluk Board proposed to levy maximum rates in the Tirukkóyilúr union when the budget for the year under report was framed. But the district board recommended and Government approved of the proposal to levy only half the scheduled rates. In the Porto Novo and Bhuvanagiri unions the actual demand for the year fell considerably below the budget estimate. The original estimate appears to have been excessive. But this

4. *Expenditure* (1) *Public Works.*—The
cent. of the allotment against 10[illegible] in the pr
chiefly under repairs to communications/
lasted for five months of the year, and r
consolidation of road metal, and partly to
ment to put off works until nearly the clos
roads is reported to have been, with a few
again complains of inadequate allotments i
into the matter. It is hoped that the atte
the subject and the recent strengthening
result in a marked improvement in the cu
establishment again amounted to only 15
agency.

(2) Education ~~2. *Grant II.*~~—There were eight ins
year and their work is reported to have b
again worked at nine centres in all and tra
for, and 64 passed the Primary Examinati
the district is, however, still large and shou
continued to maintain seven secondary sch
against 410 in the previous year. Five of t
secondary examination, but only thirteen
school was fairly successful, but the result
kurichi, were unsatisfactory. Unless these

*In accordance with the instructions given below, this figure will represent the total number of *School Departments*. The actual number of *Schools* should be given in the remark column.

INSTRUCTIONS.

(*a*) Where a school contains one or more departments or classes *e. g.*, Lower Secondary, Upper Primary and Lower Primary, each of these should be shown as a separate school for the purpose of this return.

(*b*) Each aided Secondary School and each Primary department of such school should be shown by name in column 1. The other Primary Schools should be shown talukwar.

(*c*) Column 10 is only to be filled up in the case of Combined Schools.

(*d*) Columns 7—13 are not to be filled up for Salary Grant Schools, nor column 14 for Results Schools.

(*e*) *Combined Schools*—Column 9 in the case of Combined Schools will show the grant which the school would have earned if it had been a Results Grant School; column 10 will show the proportion of such grant (usually one-half the figure in column 9) which the school under the combined system, is entitled to receive. Thus, if the full grant earned (to be shown in column 9) be Rs. 200, the amount to be shown in column 10 will usually be Rs. 100. Columns 11, 12 and 13 will show the payments actually made on account of results, while the amount paid to masters as stipends will be entered in Column 14.

(*f*) The grand total of column 13, taking results and combined schools together, must correspond with the entry under Head *e* (2) (Results Grants), Grant II, of Statement I-B; the grand total of column 14, taking combined schools and salary schools together, must correspond with the entry under Head *e* (1) (Salary Grants), Grant II, Statement I-B.

(*g*) Where results grants are not paid at maximum rates, the percentage given should be stated in the remark column.

Statt XI

* In accordance with the instructions given below, this figure will represent the total number of *School Departments*. The actual number of *Schools* should be given in the remark column.

INSTRUCTIONS.

(*a*) Where a school contains one or more departments or classes *e. g.*, Lower Secondary, Upper Primary and Lower Primary, each of these should be shown as a separate school for the purpose of this return.

(*b*) Each aided Secondary School and each Primary department of such school should be shown by name in full column I. The other Primary Schools should be shown talukwar.

(*c*) Column 10 is only to be filled up in the case of Combined Schools.

(*d*) Columns 7—13 are not to be filled up for Salary Grant Schools, nor column 14 for Results Schools.

(*e*)—*Combined Schools*—Column 9 in the case of Combined Schoolts will show the grant which the school would have earned if it had been a Result Grant School ; column 10 will show the proportion of such grant (usually one-half the figure in column 9) which the school under the combined system, is entitled to receive. Thus, if the full grant earned (to be shown in column 9) be Rs. 200, the amount to be shown in column 10 will usually be Rs. 100. Columns 11, 12 and 13 will show the payments actually made on account of results, while the amount paid to masters as stipends will be entered in Column 14.

(*f*) The grand total of column 13, taking results and combined schools together, must correspond with the entry under Head *e* (2) (Results Grants), Grant II, of Statement I B; the Grand total of column 14, taking combined schools and salary schools together, must correspond with the entry under Head *e* (1) (Salary Grants), Grant II, Statement I-B.

(*g*) Where results Grants are not paid at maximum rates, the percentage given should be stated in the remark column.

FOOTNOTE TO STATEMENT X.

Details of Building, &c., Grants. [*Head e* (3), *Grant II Statement I-B.*]

Name of School.	Amount of Grant.	Purpose for which made.

In the Chedambaram Taluk the roads are mostly Mud Roads with a few exception. The Coast Road on the A System is in fairly good order. The Portonovo Vriddhachalem Road is decidedly bad. Scarcely any metal left on it. The Maintenance grant admits of only 20 or 30 cyds of Laterite being put on it per mile per annum. No regravelling done for over 16 years. I have sent in an Estimate for regravelling which I hope will be sanctioned at a very early date.

The Chidambaram Mannargudy Road is a Mud Road which is being Metalled Of the 14 Miles, 5 Miles have been Metalled and greatly improved but the rest of it is a Mud Road and in wet and very dry weather bad. the work of Metalling up this road is being done by degrees yearly and when done will be a boon to the ryats who have to cart their produce over it to the Railway Station at Chiddambaram.

The Veeranam Tank Bund has been Metalled for a length of 5 miles and is good. The rest will be done by degrees as fund are available. This is also something too awful in the Mansoon or the best of weather where it is not Metalled

The formation of a new Road from Trunk Road No 9 to Rajendrapatnam thro' Streemushnam is in progress and in 3 or 4 years will be a thing ~~accompanied~~ accomplished. Communication in this part of the taluk is much needed.

The trunk Road No IX is not in good order. The trafic over it is exceedingly heavy and since the D. P. W. started the Construction of the large Road Dam at the Comaren-apapoo. the Cartage of Materials for its Construction from North to South has been so heavy that the Road has suffered Considerably on an average there is not more than 3" thickness of Metal on it and this Cannot has been Submitted for Sanction of Government and Rs 9535 is provided in the Budget for 1895 & 1896. If this work is Carried out promptly the road which is an important one will be much improved but until then it must necessarily go from bad to worse, a main road like this with a traffic of not less than 600 Carts daily and in certain Seasons as many as 1000 Carts, it is absured to expect to keep in good order on a Miserable grant of Rs 50 per mile per annum.

In the Kallacurichy Taluk the roads are all on the A System and the Contractor is doing his best to keep them in order. the grants however are much too small to expect great benificial results.

In Vriddhachalem Taluk the main road to Salem Frontier so far as it is kept up is good. the branch Roads are not good - but a large quantity of metal is Collected on the Pennadam road which for want of rain Cannot be put down on the Road. The Vridhachalem Mundurpet Road 14 miles, of which 10 miles are very bad not been regravelled for over 30 years. I have got in an estimate prepared for this and until this work is carried out the road will remain bad - it is too much broken up to be able to do anything substantial and permanent with the Maintenance grant.

Coast Road
Estimate Rs 1420 expend
Rs 1419-1-3 Work is Completed.

cannot be expected to bear such traffic as passes over it.

In the Cuddalore Saluk the roads are generally in fair order portions of the Salem Frontier Road are in splendid order up to 24 Mile. The Coast Road South of Cuddalore is bad up to 15 Mile: from 5 Mile an Estimate for putting this in order was sent up last year but no funds given & unless and something is done it must go from bad to worse.

	Main Roads		
	No. of miles of roads in the circle	No. of miles which have been maintained	No. of miles of new Roads under progress	No. of miles of new Roads Completed
	1008 3/8	912 7/8		

The total no. of miles of main roads in the circle and of those maintained during the year is shown in the Statement in the Margin

Distributing the expenditure of Rs 84190 over 912 7/8 miles maintained during the year the average cost per mile comes to 92-0-0 against Rs 87 in the previous year.

The subjoined statement contains the particulars of village roads.

General Remarks on the Condition of the Roads in the District

The roads in the Trinomalai and Tindivanam have improved under A System with the exception of the first 22 miles of the Merkanam Samulpatty Road & 18 miles of the Cost Road (not on the A System) These are not in good order but the maintenance grants for these does not admit of bringing them into decent Condition, as no remetalling

Estimate Rs 1710 allotment for both in very dry and very wet weather. An Estimate for remetalling a portion of the Tamulpatty Merkanam Road between 11 and 19 miles has been sanctioned and work under execution. A large quantity of metal is Collected on the road side but we have had no rain for the last 6 months or more and the metal cannot be put down.

In the Villapuram Taluk ~~Board~~ The Ginger Villapuram Road has been improved as also Villapuram Mambalapett Road and Papanapett Valudavoor Road, bad portions of which have been gravelled, but the gravel obtainable is poor stuff at best and no decided and permanent benefit can be looked for. The Trunk Road No VIII and IX are better than they were last year. The Road from Villapuram to Pandicherry is very bad but an estimate is sanctioned & under execution and a large quantity of gravel has been collected on the Road side which remains there for want of rain. The water difficulty this year ~~[illegible]~~ has been great and roads have suffered from the draught.

In the Trikoilore Taluk the Roads the remain in an unsatisfactory Condition. The board ~~are~~ are not in a position to give sufficient funds for their proper up-keep. I have sent in a

Rs 1419-1-3 Work is Completed.

has been Submitted for Sanction of government and Rs 9535 is provided in the Budget for 1895 & 1896. Tools and Plant	1315	.	.	1308	6	.
Grand Total	221403	6	7	201148	9	5

The total expenditure under all heads of Service was Rs 174174-4-0. The Cost of Establishment was Rs 25665-15-5 and that of Tools and Plant was Rs 1308-6-0.

The Percentage of cost of Establishment and Tools and Plant on the total outlay on works was 14.7 & 8 respectively against 20 and 1 allowed in the Rules in ~~[illegible]~~ force.

this should be 91 P.C. The total expenditure is over 93% of the total

the strength being so low as 5.

5. Two of the three Sessions in the Tindivanam Range were far from Satisfactory, the strength being below the Sanctioned number. Even last year, teachers were not sent in sufficiently large number in this Range. The Sub-Assistant Inspector and his Inspecting Schoolmasters should take more interest in the working of the Sessional School.

6. Now that the number of stipends for each Sessional School has been raised to 15, Efforts should be made to prepare as large a number of teachers as possible for the next Primary Examination.

Villupuram
4 July 1895

Asst. Inspr. of Schools,
Fifth Division

TREASURY DEPARTMENT COLLECTOR
-6 JUL 95
CUDDALORE

No. 17145
4-7-95

Memo showing the working of Sessional Schools in the South Arcot District for the year 1894-95

There were three Sessional Schools in the District during the year, one in each Sub Assistant Inspector's Range.

2. The following statement gives particulars regarding each of them:—

	School	Period during which held from to	No: of teachers admitted	No: that appeared for the Primary Examination: Complete test	Compulsory subject and one optional subject	Compulsory subjects only	Optional subjects only	No: that passed the Primary Examination: Complete test	Compulsory subject and one optional subject	Compulsory subjects only	Optional subjects only	General condition
Cuddalore Range	Sankarapuram	from 1-4-94 to 31-7-94	12	12	-	-	-	10	-	-	-	Good
	Ulundurpet	from 1-8-94 to 30-11-94	16	16	-	-	-	11	-	-	-	very fair
	Nellikuppam	from 1-12-94 to 31-3-95	12	6	-	-	-	5	-	-	-	very fair
Vridhachalam Range	Mannarpudi	from 1-4-94 to 31-7-94	14	14	-	-	-	8	-	-	-	very fair
	Portottoro	from 1-8-94 to 30-11-94	13	13	-	-	-	12	-	-	-	Good
	Pennadam	from 1-12-94 to 31-3-95	6	Have yet to appear for the Examination								
Tiruvannamalai Range	Chengam	from 11-4-94 to 29-7-94	7	(a) 18	-	-	-	9	4	1	-	Fair
	Tiruvannamalai	from 1-8-94 to 27-11-94	15	15	-	-	-	9	-	1	-	very fair
	Vikravandi	from 1-12-94 to 31-3-95	9	Have yet to appear for the Examination								

(a) Including those trained at the Tiruvannamalai Session during the previous quarter.

3. The Cuddalore Range Sessional School has done well at all the Sessions except at Nellikuppam at which the number has increased only towards the close of March.

4. The Session at Pennadam in the Vriddhachalam Range was not successful

Memo showing the working of Sessional Schools in the South Arcot District for the year 1894-95

There were three Sessional Schools in the District during the year, one in each Sub-Assistant Inspector's Range.

2. The following statement gives particulars regarding each of them:—

	School	Period during which held from to	No: of teachers admitted	No: that appeared for the Primary Examination: Complete test	Compulsory subject and one optional subject	Compulsory subjects only	Optional subjects only	No: that passed the Primary Examination: Complete test	Compulsory subject and one optional subject	Compulsory subjects only	Optional subjects only	General Condition
Cuddalore Range	Sankarapuram	from 1-4-94 to 31-7-94	12	12	-	-	-	10	-	-	-	Good

Edul Statistics

4/1932 L/95

memo showing the working of the Board and Aided Secondary Schools in the South West District for the year 1894-95

There were at the close of the year under report, 9 Secondary Schools with 681 pupils, against 8 Schools and 545 pupils at its beginning, the new School being the Unaided Middle School at Udayarpudi which has yet to be recognized as a Middle School.

2. Of these 9 schools, 7 are Board Schools, one is an Aided School and the remaining one is Unaided. It is gratifying to note that each and every Board School has increased in strength, the total increase being 136 pupils. The largest increase was at Villupuram and the highest strength was at Panruti.

3 The following table compares the strength of all the Lower Secondary Schools in the District for two years: —

Range	Description of School	Name of School	Strength on 31st March 1894	Strength on 31st March 1895	General condition
Tiruvannamalai	B.D. school	Villupuram	49	76	Fair
do.	do	Tiruvannamalai	54	65	Fair
Virdhachalam.	do	Virdhachalam.	48	65	Pretty fair
do	do.	Porto Novo	47	53	Good
Cuddalore	do	Panruti	106	126	Middling
do.	do	Tirukoilur	66	79	Fair
do	do	Kallakurchi	40	53	Fair
Tiruvannamalai	Aided Middle School	Tiruvannamalai.	135	142	Middling
Virdhachalam		Udayarpedi	-	22	Poor
		Total	545	681.	

4. Panruti wants a 3rd form class to make it a fully developed middle school. This deficiency should be soon supplied.

None were sent up for the Lower Secondary Examination from the Virdhachalam Middle school. This is very unsatisfactory.

At Kallakurchi only one passed the Lower Secondary Examination.

No school which does not pass at least half a dozen pupils at the Lower Secondary Examination deserves a place among the Board Middle Schools.

5. The next table shews the results produced by the Board Middle schools at the Public Examinations.

Name of School	Lower Secondary Examination		Primary School Examination		Percentage of passes	
	no: sent up	no: passed	no: sent up	no: passed	Lower Secondary Exn.	Primary School Exn.
Villupuram.	9	4.	-	-	44	-
Tiruvannamalai	7	4.	17	5	57	29
Virdhachalam.	.	.	18	13	-	72
Porto Novo	5	2	18	14	40	78
Panruti	-	.	16	7	-	44
Tirukoilur	6	2	20	13	33	65
Kallakurchi	5	1.	14	9	20	64
Tiruvannamalai.	12	3	32	10	25	31.

6. One school did well, 4 fairly, one pretty fairly, two middling; and the remaining one school poorly. The Head and the Assistant Masters of the Board schools should work with greater interest and produce better results during the current year.

7. The working of the Board Lower Secondary Schools during the year has with two exceptions been fairly satisfactory.

Vellore 4th June 1895

ASSISTANT INSPECTOR OF SCHOOLS, FIFTH DIVISION.

Statement No. II showing the proportion of pupils of the great classes of the population under instruction to children of school-going age in South Arcot District, for 1894-95

Classes of Population.	Population of school-going age (Exclusive of municipalities)		Pupils under instruction.		Percentage.		Remarks.
	Boys.	Girls.	Boys.	Girls.	Boys.	Girls.	
Europeans and Eurasians	-	-	1	-	-	-	
Native Christians	3956	3986	627	65	15·8	1·6	
Muhammadans	4159	4159	1654	96	39·7	2·3	
Hindus — Brahmans	148497	148934	1460	239	19·9	·8	
Hindus — Non-Brahman Caste Hindus ..			26743	988			
Hindus — Paraiyas and Kindred Classes ..			1394	87			
Others	417	421	4	1	·9	-	
Total	157029	157500	31883	1475	20·3	·9	

The per cent ages under instruction are compared below for two years:—

	1893-94		1894-95	
	Boys	Girls	Boys	Girls
Native Christians	17·6	3·2	15·8	1·6
Muhammadans	38·7	1·5	39·7	2·3
Hindus	19·5	·7	19·9	·8
Others	·5	·8	·9	-

In the figures in the column headed 'Population of school-going age' of last year's statement the figures of the two municipalities were excluded and hence the apparent increase in the percentages notwithstanding the fall in the strengths.

The percentage of boys under instruction for the District for the year under review is 20·3 against 20·5 of the years previous. This is far below the average for the Presidency which in 1893-94 was 24·31. There is much room for extension of operations.

Improvement is noticeable in the educational condition of the Panchamas.

Note.—1. *No comments should be made except as notes entered in the column of remarks.*

2. *In the column of remarks the figures of the previous year should be briefly compared.*

3. *This statement should be submitted in time to reach the Presidents of Local Boards or the Chairmen of Municipal Councils concerned before the 1st May.*

Statement N

			Remarks.
Colleges	Government	.. ..	The increase in the strength
	Board or Municipal	.. ..	of the Board Secondary
	Aided from Provincial Funds	..	Schools is satisfactory.
	Aided from Local or Municipal Fun		Board Primary Schools
	Unaided and Indigenous	..	have risen by 6 Schools
Secondary Schools	Government	.. ..	and 197 pupils. The increase
	Board ~~or Municipal~~	.. ..	not appreciably large.
	Aided from Provincial Funds	..	any Local Fund Schools
	Aided from Local ~~or Municipal~~ F		
	Unaided and Indigenous	..	
Primary Schools	Government	.. ..	are numerically weak and
	Board ~~or Municipal~~	.. ..	ise should be transferred
	Aided from Provincial Funds	..	other places or abolished.
	Aided from Local ~~or Municipal~~		The fall in the Aided
	Unaided and Indigenous		mary Schools is considerably
Training Schools	Government	..	and this is due to the
	Board or Municipal	..	ssignment system inaugurated
	Aided from Provincial Funds		of the new Code and the
	Aided from Local or Municipa		rules regarding recognition.
	Unaided and Indigenous		The Sessional Schools are
Sessional Schools	Government	..	low their normal strength.
	Board ~~or Municipal~~	..	The net result for the whole
	Aided from Provincial Funds		strict for the year is an
	Aided from Local or Munici		crease of 10 Schools and
	Unaided and Indigenous		fall of 171 pupils. This
Industrial Schools	Government	..	far from satisfactory.
	Board ~~or Municipal~~	..	
	Aided from Provincial Fun		
	Aided from Local or Muni		
	Unaided and Indigenous
