No. M., JULY 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. M. SUBRAYALU CHETTI Garu, Chairman, Municipal Council, Gudiyáttam, to the Chief Secretary to Government (through the Divisional Officer, Vellore), dated Gudiyáttam, 2nd June 1896, No. 235.

I have the honour to submit the report on the working of the Gudiyáttam Municipality for the year 1895–96, as required by section 252 of Act IV of 1884.

I.—CONSTITUTION OF THE MUNICIPAL COUNCIL.

2. There were twelve councillors on the roll on the 31st March 1896 including the ex-officio ; of these twelve, three were officials and the rest non-officials. All were nominated. I held the office of Chairman till 21st February 1896 and was re-appointed on 25th March 1896.

3. The budget for the year under report was passed by the Government in their order, No. 235 M., dated 14th February 1895, and it was revised in their order, No. 301 M., dated 20th February 1896.

4. The usual statements of receipts and charges prepared in the prescribed form are herewith submitted.

II.—RECEIPTS.

5. The total receipts, including contributions from other funds and deducting the *minus* balance of Rs. 111–1–1 of the year 1894–95, amounted to Rs. 16,444–5–9.

6. The total current receipts amounted to Rs. 16,555–6–10 against Rs. 15,740 and Rs. 16,480 anticipated in the budget and the revised estimates, respectively, and Rs. 15,266–14–11, the actuals of the previous year. The increase over the revised figures is due to the increase and decrease under some of the heads as shown in Statement I.

7. The causes of variations between the actuals and the revised estimates of the year are explained below.

8. (2) *Municipal Rates and Taxes*—(*a*) *Tax on Arts, Current.*—Rs. 4,146 was the original amount fixed by the Chairman, of which Rs. 194–8–0 was remitted by the council. Hence the final settled demand was Rs. 3,951–8–0 against the revised estimate of Rs. 3,950. Rs. 3,247–8–0, or 82·1 per cent. of the net demand, was collected during the year against Rs. 3,067–8–0, or 81·2 per cent. of the previous year, and Rs. 107 has been since collected.

Arrears.—Out of Rs. 798–0–8 relating to arrears from 1890–91, alluded to in paragraph 3 (2) of G.O., No. 1499 M., dated 16th September 1895, Rs. 612–6–3 was collected and Rs. 181–8–8 was written off by the council as irrecoverable, leaving a balance of Rs. 4–1–9 ; of this small balance Rs. 3–1–9 has been since collected and the rest will have to be written off the accounts as it is irrecoverable, since all the necessary processes have been exhausted towards the recovery of the amount.

The number of persons taxed under all classes of the schedule was 1,399 against 1,229, and the amount of profession tax was Rs. 3,951–8–0 against Rs. 3,775 of the previous year. Thus the incidence of taxation per head was Rs. 2–13–2.

9. (*b*) *Tax on Buildings, Current.*—Rs. 4,017–5–0 was the original demand, the council reduced it to Rs. 3,990–13–0, of which Rs. 2,925–8–3, or 73·3 per cent., was collected during the year under report, against Rs. 2,691, or 70·9 per cent., of the previous year, and Rs. 182–7–9 has been collected since 1st April 1896. There were in all 3,794 houses including unoccupied, of which 3,142, or 83·8 per cent. of the census number, were subject to house-tax. The average incidence of house-tax was therefore Rs. 1–4–4.

Arrears.—Out of Rs. 1,111–6–3 relating to the years 1890–91 to 1894–95, which remained uncollected on the 31st March 1895, Rs. 1,087–6–3 was collected and Rs. 21–8–0 written off by the council, as being irrecoverable, during the year 1895–96, leaving a small balance of Rs. 2–8–0 on the 31st March 1896, of which Rs. 1–8–0 has been collected since 1st April 1896 and the rest will have to be written off as irrecoverable.

10. *Tax on Lands, Current.*—The demand was fixed at Rs. 466–10–10, of which Rs. 36–4–10 was remitted by the council and Rs. 193–9–1, or 45·1 per cent., was collected during the year 1895–96, against Rs. 102–8–0, or 25·2 per cent., in the previous year.

Arrears.—Out of Rs. 359–7–9 relating to the past nine years, that is, from 1886–87 to 1894–95, Rs. 328–15–7 was collected and Rs. 29–11–4 written off during the year under report, leaving a very small balance of As. 12–10 which will have to be written off as irrecoverable.

11. Tax on buildings and lands was levied at 5 per cent. on the annual rental value, and a tax of Pies (3) on every 80 square yards was charged, as usual, on unoccupied lands. The total extent of lands assessed during the year was 276 acres and 33 cents as in the previous year.

12. The registers of tax on arts, buildings and lands were revised partly during the year 1895–96.

13. *Tax on Animals, Current.*—The demand as assessed and finally settled was Rs. 582–12–0, against Rs. 700 of the revised, of which Rs. 424–12–0 was collected. The falling off under this item is due to several animals having been disposed of to outsiders on account of the unfavourable season.

Arrears.—Out of Rs. 166–10–6, Rs. 143–0–6 was collected and Rs. 23–2–6 was written off by the council, leaving a balance of As. 7–6, which is also irrecoverable and will have to be written off.

14. *Tax on Carts.*—Rs. 549 was collected against Rs. 700 of the revised. The decrease was due partly to the disposal of town carts to outsiders and partly to the change of permanent residents to out-stations.

15. *Sale of Night-soil, &c.*—For reasons explained in paragraph 9 of the revised budget, there has been a collection of only Rs. 27–4–0 under this head. The further decrease over the revised estimate is due for want of competition, as it could not be utilized for agricultural purposes owing to the failure of rains during the year.

16. *Fees from Educational Institutions.*—No accounts have been received from the municipal high school during the year about the demand of school fees for each month. Hence there is no means at present to know how much of school fees remains yet to be collected. The amount of Rs. 1,521–7–9 is only that actually remitted by the headmasters during the year against Rs. 1,300 of the revised estimate. The increase is due to the fair progress of the school and also on account of recoveries of school fees which had been in arrears.

17. *Income from Markets.*—Rs. 1,816–3–4 was collected against Rs. 1,820 of the revised estimate. The weekly market manure contractor having failed to pay the kists regularly, his contract was cancelled and resold at his risk. During its resale there was a loss of Rs. 12–4–0, which the former contractor has to pay. A warrant was issued for the recovery of the amount and the man is not to be found nor is any property of his available for distraint. The necessary steps will, however, be taken to recover the same in due course.

18. *Grants and Contributions from Government.*—Rs. 150, being the amount of furniture grant referred to in paragraph 13 of the budget report for 1896–97, was received from the Educational Department and credited to municipal funds.

19. *Private Scavenging Fees, Current.*—Rs. 56–4–0 was collected against the demand of Rs. 91–5–0, leaving a balance of Rs. 35–1–0, of which Rs. 17–4–0 has since been collected during the current year.

Arrears.—Rs. 69–14–0 was collected, and Rs. 40–9–0 was written off by the council as irrecoverable, out of a total demand of Rs. 110–7–0.

The system is now improving, the number of houses scavenged by municipal toties on the roll being 173. The provisions of section 221 are being enforced in obstinate cases. Nineteen cases were prosecuted for nuisance during the year under report.

20. The other items of receipts are more or less equal to the figures of the revised estimate and do not call for any special remarks.

III.—Expenditure.

21. The total expenditure amounted to Rs. 15,935–8–1 against Rs. 15,840 of the revised estimate.

22. *Grant I, New Works—Buildings.*—Rs. 2,259–8–6 was spent against Rs. 2,400 of the revised estimate. Though the hospital building was completed within the year under report, the balance due to the contractor was not paid to him on account of certain objections raised in passing the final bill, which is pending disposal. Hence decrease. At any rate, the amount that has to be paid to the contractor will not probably exceed Rs. 100, which will be paid as soon as the bill is finally passed by the council.

23. *Repairs to Buildings.*—Rs. 67–13–10 was spent in repairing toll-gate sheds and hospital shed. The construction of a cistern and cesspool, alluded to in paragraph 18 of the revised budget report, was not taken in hand as the council, in their meeting held on 15th February 1896, resolved not to spend money on it since the alleged owner of the said land took objection to the execution of the works. The subject is under reference with the Revenue authorities. Hence the amount of Rs. 100 was not spent.

24. The *roads* are in fair order, as would be seen from the remarks of the Sub-Collector and Collector of the district—*vide* G.O., No. 301 M., dated 20th February 1896 The total expenditure on roads during the year 1895–96 was Rs. 1,367–9–3, or 76·7 per cent. of the net municipal revenue from tolls, against a general average of 69·8 per cent. of all municipalities in 1894–95.

25. The outlay under Grant I amounted to Rs. 4,129–3–10 against Rs. 4,380 of the revised estimate.

26. *Grant II, Education.*—The standard of the middle school was raised to that of a high school in July 1895, as per G.O., Mis. No. 790 M., dated 4th May 1895. The increase of strength in the school gradually improved, and the results of the school examinations were also satisfactory, under the management of the then headmaster. On the strength of the above facts, the council proposed to open the V form, for reasons stated in paragraph 29 of the budget report for 1896–97, which the Government was also pleased to sanction in ~~their~~ order, No. 301 M., dated 20th February 1896. Meanwhile, the then headmaster was ordered by the Director of Public Instruction to undergo training in the Teachers' College, Madras. He (the headmaster) accordingly started from Gudiyáttam in February last and is now undergoing training. Owing to his absence and to the indifference of his successors, the strength of the school gradually fell down, and the council had, therefore, the necessity to abolish temporarily the IV and V forms, and for the various changes in consequence thereof the necessary proposition statement has also been submitted to Government, for ~~their~~ sanction, with this office letter, No. 171, dated 21st April 1896. Independent of this, the strength of the other classes also has fallen down on account of the admission of some Paraiya boys in the middle school.

Municipal Schools on Salary System.—Rs. 1,470–4–9 was entered against Rupees 1,500. The decrease is due to the stoppages and savings effected in the establishment pay. The average cost of educating each pupil during the year under report was Rs. 4–5–0 against Rs. 8–2–9 in the previous year.

27. The report of the Educational authorities is herewith submitted.

28. The total outlay under Grant II was Rs. 2,669–9–10 against Rs. 2,730.

29. *Grant III, Contribution to Government.*—Rs. 142 was entered against Rs. 70 of the revised estimate. The increase over the revised estimate is due to the payment of Rs. 77 and 52, against Rs. 15 and 40, to Medical College and Sanitary Inspection, respectively.

30. *Hospital.*—The report of the hospital assistant about the working of the dispensary is herewith submitted. The number of out-patients treated in the municipal dispensary was 11,193 against 9,803 of the previous year. The institution has of late been removed to the new building, which is found to be very convenient in every respect. It is hoped that the institution becomes more popular in the current year. The midwife attached to the dispensary is a trained certificated woman. The number of cases attended by her during 1895–96 was 136 against 118 of the previous year. She has been in service here from 1892.

31. *Vaccination.*—There is one second-class vaccinator on Rs. 10. The number of cases vaccinated by him was 750, of which 705 were successful, against 705 and 683 of the previous year, respectively. The greater number of unsuccessful cases was attributed to the supply of bad lymph on two occasions by the Deputy Inspector of Vaccination, Madras Municipality. The council have also raised the minimum to sixty. Eighty-two cases were reported to the magistrate for prosecution. The progress under this head will be more successful in future. Glycerine lymph was being used as usual. The hospital assistant supervises the vaccinator's work and he is given an allowance of Rs. 2 per month. He vaccinated twenty cases. All were successful.

32. *Registration.*—There is one registrar on Rs. 10. The total number of births and deaths registered during the year was 824 and 450, respectively, against 499 and 318 of the previous year. Only two prosecutions were instituted for failure to register births and deaths for reasons already stated in paragraph 32 of the last report. But now on the receipt of G.O., Mis. No. 378 M., dated 16th March 1896, the council have resolved to accord sanction for prosecution in cases of failure to report births and deaths.

33. *Sanitation.*—The sanitation of the town is fair and the several defects pointed out by the inspecting officers were remedied as far as possible. As funds permitted, a provision of Rs. 250 has been made in the current budget to increase the number of latrines as sanctioned by Government in paragraph 4 (2) of G.O., No. 301 M., dated 20th February 1896. With regard to the other suggestions of the Sanitary Commissioner embodied in G.O., No. 1237 M., dated 1st August 1895, the resolutions of the council on the subject are herewith submitted. For want of funds the conservancy staff could not be increased for the present as recommended by the Sanitary Commissioner in paragraph 2 of his letter, No. 1265, dated 16th January 1896, embodied in G.O., No. 301 M., dated 20th February 1896. One toty was added to the staff in the budget of 1896–97. Provision will be made in the next budget as funds allow.

34. *Cholera Charges.*—In reference to G.O., No. 1028 M., dated 26th June 1895, Rs. 71–9–11 was spent under this head in constructing two cholera sheds and in purchasing the required medicines, though there was no cholera during the year nor up to the date of this report.

35. The total outlay under Grant III was Rs. 5,135–15–11 against Rs. 5,070.

36. *Grant IV, Light Contingencies.*—Rs. 599–14–8 was entered against Rs. 500 of the revised estimate. The increase is due to the repair of lanterns and for painting them and also for having issued oil to more lights after their repairs.

37. *Other Charges.*—Under this item Rs. 1,070–10–5 was spent, against Rs. 800 of the revised estimate, under the following heads:—

		Rs.	A.	P.
(1)	Rewards for the destruction of stray dogs and pigs ..	52	2	0
(2)	Printing charges	927	14	9
(3)	Law charges	45	0	0
(4)	Land assessment	8	10	9
(5)	Rent of cart-stand	20	0	0
(6)	Numbering carts	13	4	7
(7)	Other charges, such as painting jutka-stand boards, purchasing tom-tom, &c.	3	10	4
	Total ..	1,070	10	5

The increase over the revised estimate is due mostly to printing and law charges. There was a greater number of meetings held during the year, and it was an unforeseen expenditure. Certain defaulters were prosecuted for non-payment of taxes. In about four or five cases out of twelve, parties contested by engaging vakils. Hence the council had the necessity to engage vakils in those cases at a cost of Rs. 45. The Government will be pleased to sanction the expenditure incurred over the revised estimate.

38. The outlay under Grant IV amounted to Rs. 2,300–4–10 against Rs. 1,950.

39. *Grant V, Purchase of Account Books, &c.*—Rs. 109–9–4 was entered against Rs. 130. This was over-estimated at the time of the revision.

40. The outlay under Grant V amounted to Rs. 1,673–5–8 against Rs. 1,710.

41. The other items of expenditure call for no special remarks.

42. The year closed with a balance of Rs. 508–13–8, or 3·07 per cent. of total receipts, against a *minus* balance of Rs. 111–1–1 in 1894–95.

43. *General Remarks.*—The balance outstanding at the close of the year under report was left uncollected for want of time, as greater attention was paid to the clearing off of the oldest arrears with greatest difficulty, in reference to the remarks of the Government in the last administration report. Prompt attempts will be made to clear off the collectable amount during the current year.

44. The total average incidence of taxation per head of the population in the municipality, including and excluding tolls, was As. 9–9 and As. 8–3, respectively.

45. During the year under report thirty-five meetings were actually held against twenty-six in the previous year, while eight had to be adjourned for want of quorum against six in the previous year.

46. The total mileage of roads within the municipal limits is $19\frac{7}{32}$, the total number of miles of roads including streets maintained by the council was $12\frac{7}{32}$ and the total length of roads metalled is 7 miles.

47. The report was placed before the council on 11th June 1896 and passed (copy of resolution enclosed).

The delay of eleven days in the submission of the report is due to the absence of the permanent shroff and clerk on leave.

ENCLOSURE.

ANNUAL Concise Report of the Municipal Dispensary, Gudiyáttam, for the year 1895–96.

Public Health.—Deficient rainfall during the year under report seems to have influenced the local physical conditions to an appreciable extent. The prices of staple grains were rather high, resulting from the failure of crops. Scarcity of water was much felt. Insufficient or unsuitable food and clothing in correlation with other factors made the public health rather indifferent. The most common diseases prevalent were fevers, bowel-complaints, ulcers, skin diseases. No epidemic of significant type broke out during the year except a few sporadic cases of small-pox and measles.

Municipal Schools on Salary System.—Rs. 1,470–4–9 was entered against Rupees 1,500. The decrease is due to the stoppages and savings effected in the establishment pay. The average cost of educating each pupil during the year under report was Rs. 4–5–0 against Rs. 8–2–9 in the previous year.

27. The report of the Educational authorities is herewith submitted.

28. The total outlay under Grant II was Rs. 2,669–9–10 against Rs. 2,730.

29. *Grant III, Contribution to Government.*—Rs. 142 was entered against Rs. 70 of the revised estimate. The increase over the revised estimate is due to the payment of Rs. 77 and 52, against Rs. 15 and 40, to Medical College and Sanitary Inspection, respectively.

30. *Hospital.*—The report of the hospital assistant about the working of the dispensary is herewith submitted. The number of out-patients treated in the municipal dispensary was 11,193 against 9,803 of the previous year. The institution has of late been removed to the new building, which is found to be very convenient in every respect. It is hoped that the institution becomes more popular in the current year. The midwife attached to the dispensary is a trained certificated woman. The number of cases attended by her during 1895–96 was 136 against 118 of the previous year. She has been in service here from 1892.

31. *Vaccination.*—There is one second-class vaccinator on Rs. 10. The number of cases vaccinated by him was 750, of which 705 were successful, against 705 and 683 of the previous year, respectively. The greater number of unsuccessful cases was attributed to the supply of bad lymph on two occasions by the Deputy Inspector of Vaccination, Madras Municipality. The council have also raised the minimum to sixty. Eighty-two cases were reported to the magistrate for prosecution. The progress under this head will be more successful in future. Glycerine lymph was being used as usual. The hospital assistant supervises the vaccinator's work and he is given an allowance of Rs. 2 per month. He vaccinated twenty cases. All were successful.

32. *Registration.*—There is one registrar on Rs. 10. The total number of births and deaths registered during the year was 824 and 450, respectively, against 499 and 318 of the previous year. Only two prosecutions were instituted for failure to register births and deaths for reasons already stated in paragraph 32 of the last report. But now on the receipt of G.O., Mis. No. 378 M., dated 16th March 1896, the council have resolved to accord sanction for prosecution in cases of failure to report births and deaths.

33. *Sanitation.*—The sanitation of the town is fair and the several defects pointed out by the inspecting officers were remedied as far as possible. As funds permitted, a provision of Rs. 250 has been made in the current budget to increase the number of latrines as sanctioned by Government in paragraph 4 (2) of G.O., No. 301 M., dated 20th February 1896. With regard to the other suggestions of the Sanitary Commissioner embodied in G.O., No. 1237 M., dated 1st August 1895, the resolutions of the council on the subject are herewith submitted. For want of funds the conservancy staff could not be increased for the present as recommended by the Sanitary Commissioner in paragraph 2 of his letter, No. 1265, dated 16th January 1896, embodied in G.O., No. 301 M., dated 20th February 1896. One toty was added to the staff in the budget of 1896–97. Provision will be made in the next budget as funds allow.

34. *Cholera Charges.*—In reference to G.O., No. 1028 M., dated 26th June 1895, Rs. 71–9–11 was spent under this head in constructing two cholera sheds and in purchasing the required medicines, though there was no cholera during the year nor up to the date of this report.

35. The total outlay under Grant III was Rs. 5,135–15–11 against Rs. 5,070.

36. *Grant IV, Light Contingencies.*—Rs. 599–14–8 was entered against Rs. 500 of the revised estimate. The increase is due to the repair of lanterns and for painting them and also for having issued oil to more lights after their repairs.

37. *Other Charges.*—Under this item Rs. 1,070–10–5 was spent, against Rs. 800 of the revised estimate, under the following heads :—

	Rs.	A.	P.
(1) Rewards for the destruction of stray dogs and pigs ..	52	2	0
(2) Printing charges	927	14	9
(3) Law charges	45	0	0
(4) Land assessment	8	10	9
(5) Rent of cart-stand	20	0	0
(6) Numbering carts	13	4	7
(7) Other charges, such as painting jutka-stand boards, purchasing tom-tom, &c.	3	10	4
Total ..	1,070	10	5

The increase over the revised estimate is due mostly to printing and law charges. There was a greater number of meetings held during the year, and it was an unforeseen expenditure. Certain defaulters were prosecuted for non-payment of taxes. In about four or five cases out of twelve, parties contested by engaging vakils. Hence the council had the necessity to engage vakils in those cases at a cost of Rs. 45. The Government will be pleased to sanction the expenditure incurred over the revised estimate.

38. The outlay under Grant IV amounted to Rs. 2,300–4–10 against Rs. 1,950.

39. *Grant V, Purchase of Account Books, &c.*—Rs. 109–9–4 was entered against Rs. 130. This was over-estimated at the time of the revision.

40. The outlay under Grant V amounted to Rs. 1,673–5–8 against Rs. 1,710.

41. The other items of expenditure call for no special remarks.

42. The year closed with a balance of Rs. 508–13–8, or 3·07 per cent. of total receipts, against a *minus* balance of Rs. 111–1–1 in 1894–95.

43. *General Remarks.*—The balance outstanding at the close of the year under report was left uncollected for want of time, as greater attention was paid to the clearing off of the oldest arrears with greatest difficulty, in reference to the remarks of the Government in the last administration report. Prompt attempts will be made to clear off the collectable amount during the current year.

44. The total average incidence of taxation per head of the population in the municipality, including and excluding tolls, was As. 9–9 and As. 8–3, respectively.

45. During the year under report thirty-five meetings were actually held against twenty-six in the previous year, while eight had to be adjourned for want of quorum against six in the previous year.

46. The total mileage of roads within the municipal limits is $19\frac{7}{32}$, the total number of miles of roads including streets maintained by the council was $12\frac{7}{32}$ and the total length of roads metalled is 7 miles.

47. The report was placed before the council on 11th June 1896 and passed (copy of resolution enclosed).

The delay of eleven days in the submission of the report is due to the absence of the permanent shroff and clerk on leave.

Public Health.—Deficient rainfall during the year under report seems to have influenced the local physical conditions to an appreciable extent. The prices of staple grains were rather high, resulting from the failure of crops. Scarcity of water was much felt. Insufficient or unsuitable food and clothing in correlation with other factors made the public health rather indifferent, The most common diseases prevalent were fevers, bowel-complaints, ulcers, skin diseases. No epidemic of significant type broke out during the year except a few sporadic cases of small-pox and measles.

2. *Vital Statistics.*—

Deaths.								Births.	Population.
Small-pox.	Fevers.	Bowel complaints.	Suicide.	Wound.	Accidents	All other causes.	Total deaths.		
13	210	34	1	1	2	209	470	824	18,747

There has been marked improvement in the registration due to the falling back on the old practice of serving notices through pygusts. Mortality among children from one to five years has been rather high—as much as more than half the total number of deaths.

3. *Sanitation.*—Three springs were maintained by the council in the bed of the river. Robinson tank was altogether abandoned. Springs supply filthy water for drinking and cooking purposes; their surroundings can be kept much cleaner. Before any ideal scheme for water-supply is practicable for this town, the council, in order to remove chronic scarcity and to supply purer water, will do well to have recourse to any other method than excavation system. The dangers of this system become all the more palpable when we conceive for a moment that a single infectious vessel is enough to propagate the disease through water. It is a pity that tube wells do not commend themselves to the council though they combine economy with efficiency. The present conservancy staff is quite inadequate to cope with the work. Only 173 houses are under the private scavenging agency. Latrines are anything but feasting places of stray pigs which play a considerable havoc at them. No attempt was made to obtain sanction to kill stray pigs which are always a source of great nuisance. Dry-earth heaps which were probably deposited near the latrines for cleansing them are putrified without having been utilized. Necessity under which public streets are unscrupulously converted by the people into latrines require an increase in the present number of latrines, which is only thirteen. In spite of depôts for depositing night-soil having been selected by the undersigned in consultation with the delegate Chairman, no attempt has been made to cart the night-soil to them, though these depôts were at a convenient distance from the municipal limits; on the other hand, it is deposited in proximity to public streets and roads. It seems there are only three serviceable hand-carts; it is desirable that many more should be added to the present number. The Sanitary Commissioner in his inspection notes suggested to the council to abandon the use of latrine at Pudupet, but no steps have yet been taken to give effect to his suggestion. Dyeing pots are found on the premises of most of the weavers, which number here very strong. The offensive effluvia emanating from them is highly prejudicial to the public health. It has also been observed that these men suffer mostly from diseases of the skin, ulcers and other constitutional diseases to a noticeable degree, and their children are anything but sickly and short-lived. It is but natural that they should be so from the fact of their living in dirty surroundings. It is therefore highly desirable that some remote place be shown to them to carry on their trade. No positive step as yet has been taken to carry out the suggestion of the Sanitary Commissioner to extend the municipal limits.

4. *Vaccination.*—

Primary vaccination.				Re-vaccination.				Grand total of primary and re-vaccination.			
Successful.	Unsuccessful.	Unknown.	Total.	Successful.	Unsuccessful.	Unknown.	Total.	Successful.	Unsuccessful.	Unknown.	Total.
679	34	9	722	26	2	..	28	705	36	9	750

The above is the result of vaccine operations done by the second-class vaccinator of this municipality. The District Medical and Sanitary Officer recommended the minimum to be increased from fifty to sixty, which was accordingly carried out. The hospital assistant vaccinated twenty cases with success. Vaccination is not yet a welcome thing with the people here, and it has to be pushed on with a certain amount of worry and annoyance.

5 Dispensary continued to be in the old thatched building till the month of April last, and it was since removed to the new building, which is highly accommodating though short of some supplemental requirements which require urgent attention, to wit, a compound wall and a shed for the treatment of police cases.

Furniture is in a bad state of repair. Two of the medicine almirahs have been recommended by the District Medical and Sanitary Officer to be auctioned and replaced by new ones.

Out-patients treated in the dispensary for the last three years:—

Years.	Number treated.	Daily average.
1893-94	8,812	35·88
1894-95	9,803	40·87
1895-96	11,493	48·76

There has been no mortality among the out-patients as far as could be ascertained.

As many as seventeen major and 478 minor operations have been performed during the year with success, against four major and 184 minor operations in the previous year. The amount of subscription collected during the year was Rs. 15, against Rs. 8 in the previous year.

The midwife conducted 136 cases of labour. The District Medical and Sanitary Officer recommended the appointment of an efficient midwife on Rs. 15, as the present one does not turn out good work; she is neither popular. The establishment continued to be as that of previous year without any change, and is at present quite adequate.

6. *General Remarks.*—The dispensary is now removed to the new building which is cut off from habitations, and it is not possible for the hospital assistant to secure a house within the two hundred yards of the dispensary. As a thousand rupees have been allotted to extend the school building, and which are likely to lapse, the work not being taken in hand in view of the present state of the school, the same may be utilised for building the hospital assistant's quarters.

GUDIYATTAM,
5th May 1896.

Gudiyattam municipality

1895-96

1797

C.S.
P.S.

advance. The number of operations rose from 722 to 770, but the quality of the work turned out deteriorated. Infantile vaccination also was worse than in 1894–95, the number of children under one year successfully vaccinated being only 23·5 per mille of the population, against 24·1 per mille and a registered birth-rate of 44 per mille. This is very unsatisfactory and requires explanation, which should ~~now~~ be submitted through the Collector. It is presumed that the attention of the President Municipal Commission was drawn to the bad quality of the lymph supplied on two occasions from the Madras Depot.

The registration of births and deaths improved, and the birth returns may now be regarded as very fairly accurate, but the death registers appear to be still incomplete. Increased attention should be paid to this branch of registration in future.

(5) *Sanitation.*—Nearly the whole of the allotment under this head was utilized and the expenditure amounted to 20·5 per cent. of the current receipts. The Government is glad to observe from paragraph 33 of the Chairman's report that some improvement has been effected in the sanitary condition of the town since it was last inspected by the Sanitary Commissioner and hopes that the council will take steps to remove all the remaining defects pointed out by him as funds permit. It is evident however from the remarks of the medical officer that in para 3 of his report that very much still remains to be done to put things into satisfactory order. The subject of destroying the stray pigs which frequent the latrines calls for very very attention so does the matter of the deposit of night soil.

5. *General Remarks.*—The year closed with a balance of only Rs. 509, or 3·1 per cent. of the current receipts. The excess expenditure incurred over the sanctioned allotment (not over the revised estimate as stated by the Chairman) under Grant IV will be admitted in the accounts. The charges for printing appear excessive for so small a municipality; the charges under this head seem to call for careful scrutiny.

In some respects the administration of the municipality showed an improvement on that of the previous year, but, as a great deal remains to be done in regard to the collection of taxes, private scavenging, education, vaccination, registration of deaths and sanitation, it cannot yet be regarded as efficient. ~~although it is satisfactory that there was some improvement on last year's admission~~

(True Extract.)

2. Thirty-five meetings were held by the municipal council against twenty-six in 1894–95, and eight others were adjourned for want of a quorum against six in that year. The average attendance of the members, both officials and non-officials, declined and was poor.

3. *Receipts.*—(1) Owing to the partial revision of assessments under the principal taxes, the net current demand under the taxes on arts and buildings rose from Rs. 3,775 and Rs. 3,795 to Rs. 3,951 and Rs. 3,991, respectively. That under the tax on lands, however, showed no material advance. It is observed that the incidence under the first two heads is much below the general average for municipalities in 1894–95. The revenue from these sources is evidently capable of further development, and every endeavour should be made to secure this end.

(2) Although coercive measures were adopted to a much smaller extent than in 1894–95, the arrear collections were satisfactory. The current collections, however, especially those under the tax on lands, were bad. It is hoped, now that the arrears have been cleared off, that prompt measures will be adopted to realize the whole demand in the current year.

(3) There was a decline in the receipts from the taxes on animals and carts, tolls and sale of sweepings, which is explained in paragraphs 13 to 15 of the Chairman's report. The income from school-fees, however, showed a large increase, which is satisfactory. In this connection the municipal council's attention will be drawn to the Revenue Divisional officer's remarks in his endorsement.

(4) The number of houses served by the private scavenging agency rose from 63 to 173, and the service was worked at a profit of Rs. 6 to the municipal council. Seeing, however, that over 3,000 houses are assessed to the tax on buildings, the progress made is very slow. The report does not contain any information as to the action taken by the municipal council in this matter, though the Chairman was specially directed to do this in paragraph 3 (5) of G.O., No. 1499 M., dated 16th September 1895. This omission is very unsatisfactory and should be supplied without delay. The Chairman should also state why the repeated instructions of Government regarding the collection of fees for this service in advance have not been followed.

4. *Expenditure*—(1) *Public Works.*—A sum of Rs. 2,064 was spent on the new hospital building which was completed during the year. The expenditure on communications was Rs. 1,368, or 77·6 per cent. of the net municipal income from tolls, and the town roads are reported by the Revenue Divisional officer to have been in good order.

(2) *Education.*—The net expenditure on education was Rs. 869, or 7·6 per cent. of the income from taxation, and all but Rs. 32 of this sum was devoted to primary education. The standard of the secondary school on the salary-result system was raised to that of a high school and a primary school for Muhammadans was opened during the year, so that on the 31st March 1896 there were a high school and four primary schools maintained by the municipal council against one secondary and three primary schools in the previous year. Taken together, the attendance at the old schools showed some improvement, while at the new school it was poor. The council also aided two primary schools with results grants against three in the previous year. The examination results of the municipal and aided schools were good. But it is to be regretted that about one-half of the allotment for result grant was allowed to lapse and that the total number of boys under instruction in the municipal and aided schools was only 357, or 25·8 per cent. of the male population of school-going age, against the general average of 54·3 per cent. for municipalities in 1894–95. It is also unsatisfactory to note that no steps were taken by the council to compel the managers of the aided schools to employ trained men as teachers. This should be attended to in the current year.

(3) *Medical Relief.*—Owing to the growing popularity of the municipal dispensary, the number of patients treated at it rose from 9,803 to 11,493. The midwife attached to this institution attended 138 cases of labour against 118 in the previous year. The municipal council's attention will be called to the remarks and suggestions contained in paragraphs 5 and 6 of the medical officer's report.

(4) *Vaccination and Vital Statistics.*—Notwithstanding the remarks of Government in the reviews of the reports for the last three years, vaccination made no material

Note to Statement I.

1. Tax on arts, &c., is levied on ~~the first~~ all classes.
2. Tax on buildings is levied at 5 per cent. and tax on lands at ~~plus~~ 0-0-3 per cent. of ~~rent value.~~ gross income for every 80 square yards. unoccupied land
3. Water-tax on buildings and lands is levied at ___ per cent.
4. Tax on vehicles and animals is levied at 4 per annum full the maximum rates.
5. Tax on carts, &c., is levied at Rs. 3 per cart per annum.
6. Tolls are levied at half the maximum rates.
7. License-fees are levied at the rates sanctioned in G.O. No 1165-0122: hour 96; 1403 of 10: April 89; 151 No 0/28/1/2 No 1840 No. 0/5 Dec 90; to 261 No mis 0/27: July 93 & 1098 No. mis 0/21: August 98
8. The house-tax registers were last revised in the official year 95-96 and the land tax registers in the official year. 95-96
9. Total extent of land assessed is 276 acres 33 cents partly
10. The mode of estimating the annual rental of houses and lands is as follows:—

The annual rental of houses is estimated on the probable amount that may be realized, if the houses are not actually let on for rent. In fixing such annual rent due consideration is given to the importance of locality of houses in which they are situated and the materials with which they are built.

In the case of assessed lands the estimated value of the gross produce after deducting the cultivation etc expenses is taken as the annual rental. In the case of lands unoccupied by houses the tax of 3 pies on every ~~sq~~ yards is charged. Municipal, Kajah Schools maintained entirely by Municipality

Statement I-A.—Endowments entrusted to the Municipal Council under Sections 25 and 26 of Act IV of 1884 for the official year 1895-96.

Submitted.

14.6.96 [illegible]

on the Salary System, it is not included in statement 4. Hence the seeing falling off under the numbers for the several standards. The introduction of revised text books which are bigger & more difficult operated to some extent as an obstacle in the way of Salary Pts. Schools & Results Schools. One of the Asst. masters of the Municipal Secondary School looked after the Primary Schools indifferently. As the L.S.I. S. masters is to be entrusted with the work, there may be more efficient supervision.

1 Read draft of the Administration report with statements &c for the year 1895-96.
Read also other papers connected thereto.
Read the following Gos
Go no 1499 m dated 16-9-95
1973 & 1974 m dated 25-11-95
704 m. mis dated 27-4-96.
Read also Sanitary Commissioner's Inspection notes, embodied in Go. no 1237 m dated 1-8-95, with the opinion of the Sub Committee.
Read again Resolutions of the Council dated 30-3-96, about water supply scheme, and 7-11-95 about the well in Dhinampal Public road.

Read irrecoverable list of arrears as detailed below:

No	Names	Amount		
	Profession Tax for 1894-95			
717	Venkata Subbayyar	1	0	0
	Buildings 94-95			
158	S. Ramasami	0	8	0
1871	Narasimhagga	0	8	0
	Vacant lands			
	Total balance	0	12	10
	Ploughing Cattle 94-95			
135-136	Vadageriyan	0	7	6
	License fees 94-95			
2	Ramasami Mudaly	0	8	0

It is unanimously resolved that the limits of the municipal town need not be extended considering the present financial circumstances of the municipality and in consideration of the heavy expense that has to be incurred for extending the municipal limits, as suggested by the Sanitary Commissioner, and also as suggested by the Sub Committee to whom the subject was referred.

The Sanitary Engineer having personally inspected and stated that the place around the Robinson Tank is quite unfit for erecting tube wells as suggested by the Sanitary Commissioner, the proposal cannot be carried out.

It is resolved that the latrine and the tank adjoining it in Pudupet will be closed at once as advised by the Sanitary Commissioner and the well be retained.

The administration report as amended will be adopted and submitted to Government.

2 The amounts will be written off the accounts.

Annual Concise Report.

DISTRICT MEDICAL & SANITARY OFFICER
No. 2878
8 - MAY 96
NORTH ARCOT
VELLORE

of the municipal Dispensary Gudiyalam
for the year 1895-96.

Public Health. Deficient rain fall during the year under report seems to have influenced the local physical conditions to an appreciable extent. The prices of staple grains were rather high, resulting from the failure of the crops. Scarcity of water was much felt. Insufficient or unsuitable food & clothing in correlation with other factors made the public health rather indifferent. The most common diseases prevalent were Fevers, Bowel complaints, ulcers, skin diseases. No epidemic of significant type broke out during the year [illegible] except a few sporadic cases of small pox and measles.

Vital Statistics.

Deaths									
Small pox	Fevers	Bowel complaints	Suicide	Wound	accident	all other causes	Total Deaths	Births	Population
13	210	34	1	1	2	209	470	824	18747

There has been marked improvement in the registration due to the falling back on the old practice of serving notices through pygushts. Mortality among children from 1 to 5 years has been rather high, as much as [illegible] half the total number of deaths.

Sanitation. Three springs were maintained by the Council in the bed of the river. Robinson tank was also of this abandoned. Springs supply

387

filthy water for drinking and cooking purposes, their surroundings can be kept much cleaner. Before any ideal scheme for water supply is practicable for this town, the Council, in order to ~~so~~ remove chronic scarcity, and to supply purer water, will do well to have recourse to any other method than excavation system. The dangers of this system became all the more palpable when we conceive for a moment that a single infectious vessel is enough to propagate the disease through water. It is a pity that tube wells do not commend themselves to the Council though they combine economy with efficiency.

The present conservancy staff is quite inadequate to cope with the work. Only [illegible] the private scavenging. Latrines are anything but feasting places of stray pigs which play a considerable havoc at them. No attempt was made to obtain sanction to kill stray pigs which are always a source of great nuisance. Dry earth heaps which were probably deposited near the latrines for cleansing them are petrified without having been utilized. Necessity under which public streets are unscrupulously converted by the people into latrines require an increase in the present number of latrines which is only thirteen. In spite of depots for depositing night soil having been selected by the undersigned in consultation with the delegate chairman no attempt has been made to cart the night soil to them, though these depots were at a convenient

Ow 173

Ow 13

distance from the municipal limits, on the other hand it is deposited unceremoniously on public streets & roads. It seems there are only three serviceable hand Carts; it is desirable that many more should be added to this number. The Sanitary Commissioner in his Inspection notes suggested the Council to abandon the use of latrine at Pudupet, but no steps have yet been taken to give effect to his suggestion. Dipping pits are found on the premises of the most of the weavers, which members are very dirty. The offensive effluvia emanating from them is highly prejudicial to the public health. It has also been observed that these men suffer mostly from diseases of the skin, ulcers and other constitutional diseases to a noticable degree and their children are anything but sickly and unhealthy. It is but natural that they should thus suffer from the fact of their living in dirty surroundings. It is therefore highly desirable that some remote place be shown to them to carry on their trade. No practical steps as yet has been taken to carry out the suggestion of the Sanitary Commissioner & extend the municipal limits.

Vaccination.

Primary Vaccination				Re-vaccination				Grand Total of Primary & Re-vaccination			
successful	unsuccessful	unknown	Total	successful	unsuccessful	unknown	Total	successful	unsuccessful	unknown	Total
679	34	9	722	26	2	-	28	705	36	9	750

51 5 3 5 5 5 3 3 5 5 3 5

5 8

The above is the result of vaccine operations done by the 2nd class vaccinator of this municipality. Dist Med Saint Officer recommended the minimum to be increased from 50 to 60 which was accordingly carried out. Hosp: asst vaccinated 20 cases with success. Vaccination is not yet a welcome thing with the people here, and it has to be pushed on with a certain amount of worry and annoyance.

Dispensary continued to be in the old thatched building till the month of April last and it was since removed to the new building which is highly accommodating though short of some supplemental requirements which require urgent attention, to wit, a cow pound wall ~~for the [illegible]~~ and a shed for the treatment of police cases.

Furniture is in a bad state of repair. Lend of the medicine almirahs have been recommended by the Dist Med: Saint officer to be auctioned and replaced by the new ones.

Out patients treated in the Dispensary for the last three years:—

Years	Number treated	Daily average	-
1893-94	8812 ✓	35.88	
1894-95	9803 ✓	40.87	
1895-96	11493 ✓	48.76	

There has been no mortality among the out patients as far as could be ascertained.

As many as 17 major and 478 minor operations

have been performed during the year with success against 74 major and 184 minor operations in the previous year.

The amt of subscription collected during the year from was Rs 15 against Rs 8 in the ~~past~~ previous year.

Midwife conducted 136 cases of labour.

The Dist Med: Sanit Officer recommended the appointment of an efficient midwife on rupees fifteen as the present one does not turn out good work; she is neither popular.

The Establishment continued to be as that of previous year without any change, and is at present quite adequate.

General Remarks. The dispensary is now removed to the new building which is cut off from habitations, and it is not possible for the Hosp: asst to secure a house within the two hundred yards of the dispensary. As a thousand rupees have been allotted to extend the school building & which are likely to lapse as the work is not being taken at hand in view of the present state of school, the same may be utilised for building the Hosp: asst's quarters.

No. 1296 M., 5TH AUGUST 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. M. SUBRAYALU CHETTI Garu, Chairman, Municipal Council, Gudiyáttam, to the Chief Secretary to Government (through the Divisional Officer, Vellore), dated Gudiyáttam, 2nd June 1896, No. 235.

I have the honour to submit the report on the working of the Gudiyáttam Municipality for the year 1895–96, as required by section 252 of Act IV of 1884.

I.—CONSTITUTION OF THE MUNICIPAL COUNCIL.

2. There were twelve councillors on the roll on the 31st March 1896 including the ex-officio ; of these twelve, three were officials and the rest non-officials. All were nominated. I held the office of Chairman till 21st February 1896 and was re-appointed on 25th March 1896.

3. The budget for the year under report was passed by the Government in their order, No. 235 M., dated 14th February 1895, and it was revised in their order, No. 301 M., dated 20th February 1896.

4. The usual statements of receipts and charges prepared in the prescribed form are herewith submitted.

II.—RECEIPTS.

5. The total receipts, including contributions from other funds and deducting the *minus* balance of Rs. 111–1–1 of the year 1894–95, amounted to Rs. 16,444–5–9.

6. The total current receipts amounted to Rs. 16,555–6–10 against Rs. 15,740 and Rs. 16,480 anticipated in the budget and the revised estimates, respectively, and Rs. 15,266–14–11, the actuals of the previous year. The increase over the revised figures is due to the increase and decrease under some of the heads as shown in Statement I.

7. The causes of variations between the actuals and the revised estimates of the year are explained below.

8. (2) *Municipal Rates and Taxes*—(*a*) *Tax on Arts, Current.*—Rs. 4,146 was the original amount fixed by the Chairman, of which Rs. 194–8–0 was remitted by the council. Hence the final settled demand was Rs. 3,951–8–0 against the revised estimate of Rs. 3,950. Rs. 3,247–8–0, or 82·1 per cent. of the net demand, was collected during the year against Rs. 3,067–8–0, or 81·2 per cent. of the previous year, and Rs. 107 has been since collected.

Arrears.—Out of Rs. 798–0–8 relating to arrears from 1890–91, alluded to in paragraph 3 (2) of G.O., No. 1499 M., dated 16th September 1895, Rs. 612–6–3 was collected and Rs. 181–8–8 was written off by the council as irrecoverable, leaving a

5

during the year vaccinations 6 [illegible]

have been performed against, 74 major and
184 minor operations in the previous year.
The cost of Inoculation collected during
the year from was Rs 15 against Rs 8 in the
previous year.
Midwife Candidates 136 Cases of labour
The Dist: Med: San: Officer recommends
the appointment of an efficient Midwife
on rupees fifteen as the present one does
turn out good work, she is neither popular
The Establishment continues the same as that of
previous year without any change and
is at present quite adequate.
General Remarks. The dispensary is now
removed to the new building which is a
[illegible] off from holiel lains, and it is not possible
for the hospi: asst to reside within two hundred

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. M. SUBRAYALU CHETTI Garu, Chairman, Municipal Council, Gudiyáttam, to the Chief Secretary to Government (through the Divisional Officer, Vellore), dated Gudiyáttam, 2nd June 1896, No. 235.

I have the honour to submit the report on the working of the Gudiyáttam Municipality for the year 1895–96, as required by section 252 of Act IV of 1884.

I.—CONSTITUTION OF THE MUNICIPAL COUNCIL.

2. There were twelve councillors on the roll on the 31st March 1896 including the ex-officio ; of these twelve, three were officials and the rest non-officials. All were nominated. I held the office of Chairman till 21st February 1896 and was re-appointed on 25th March 1896.

3. The budget for the year under report was passed by the Government in their order, No. 235 M., dated 14th February 1895, and it was revised in their order, No. 301 M., dated 20th February 1896.

4. The usual statements of receipts and charges prepared in the prescribed form are herewith submitted.

II.—RECEIPTS.

5. The total receipts, including contributions from other funds and deducting the *minus* balance of Rs. 111–1–1 of the year 1894–95, amounted to Rs. 16,444–5–9.

6. The total current receipts amounted to Rs. 16,555–6–10 against Rs. 15,740 and Rs. 16,480 anticipated in the budget and the revised estimates, respectively, and Rs. 15,266–14–11, the actuals of the previous year. The increase over the revised figures is due to the increase and decrease under some of the heads as shown in Statement I.

7. The causes of variations between the actuals and the revised estimates of the year are explained below.

8. (2) *Municipal Rates and Taxes*—(*a*) *Tax on Arts, Current.*—Rs. 4,146 was the original amount fixed by the Chairman, of which Rs. 194–8–0 was remitted by the council. Hence the final settled demand was Rs. 3,951–8–0 against the revised estimate of Rs. 3,950. Rs. 3,247–8–0, or 82·1 per cent. of the net demand, was collected during the year against Rs. 3,067–8–0, or 81·2 per cent. of the previous year, and Rs. 107 has been since collected.

Arrears.—Out of Rs. 798–0–8 relating to arrears from 1890–91, alluded to in paragraph 3 (2) of G.O., No. 1499 M., dated 16th September 1895, Rs. 612–6–3 was collected and Rs. 181–8–8 was written off by the council as irrecoverable, leaving a

balance of Rs. 4–1–9 ; of this small balance Rs. 3–1–9 has been since collected and the rest will have to be written off the accounts as it is irrecoverable, since all the necessary processes have been exhausted towards the recovery of the amount.

The number of persons taxed under all classes of the schedule was 1,399 against 1,229, and the amount of profession tax was Rs. 3,951–8–0 against Rs. 3,775 of the previous year. Thus the incidence of taxation per head was Rs. 2–13–2.

9. (*b*) *Tax on Buildings, Current.*—Rs. 4,017–5–0 was the original demand, the council reduced it to Rs. 3,990–13–0, of which Rs. 2,925–8–3, or 73·3 per cent., was collected during the year under report, against Rs. 2,691, or 70·9 per cent., of the previous year, and Rs. 182–7–9 has been collected since 1st April 1896. There were in all 3,794 houses including unoccupied, of which 3,142, or 83·8 per cent. of the census number, were subject to house-tax. The average incidence of house-tax was therefore Rs. 1–4–4.

Arrears.—Out of Rs. 1,111–6–3 relating to the years 1890–91 to 1894–95, which remained uncollected on the 31st March 1895, Rs. 1,087–6–3 was collected and Rs. 21–8–0 written off by the council, as being irrecoverable, during the year 1895–96, leaving a small balance of Rs. 2–8–0 on the 31st March 1896, of which Rs. 1–8–0 has been collected since 1st April 1896 and the rest will have to be written off as irrecoverable.

10. *Tax on Lands, Current.*—The demand was fixed at Rs. 466–10–10, of which Rs. 36–4–10 was remitted by the council and Rs. 193–9–1, or 45·1 per cent., was collected during the year 1895–96, against Rs. 102–8–0, or 25·2 per cent., in the previous year.

Arrears.—Out of Rs. 359–7–9 relating to the past nine years, that is, from 1886–87 to 1894–95, Rs. 328–15–7 was collected and Rs. 29–11–4 written off during the year under report, leaving a very small balance of As. 12–10 which will have to be written off as irrecoverable.

11. Tax on buildings and lands was levied at 5 per cent. on the annual rental value, and a tax of 3 pies on every 80 square yards was charged, as usual, on unoccupied lands. The total extent of lands assessed during the year was 276 acres and 33 cents as in the previous year.

12. The registers of tax on arts, buildings and lands were revised partly during the year 1895–96.

13. *Tax on Animals, Current.*—The demand as assessed and finally settled was Rs. 582–12–0, against Rs. 700 of the revised, of which Rs. 424–12–0 was collected. The falling off under this item is due to several animals having been disposed of to outsiders on account of the unfavourable season.

Arrears.—Out of Rs. 166–10–6, Rs. 143–0–6 was collected and Rs. 23–2–6 was written off by the council, leaving a balance of As. 7–6, which is also irrecoverable and will have to be written off.

14. *Tax on Carts.*—Rs. 549 was collected against Rs. 700 of the revised. The decrease was due partly to the disposal of town carts to outsiders and partly to the change of permanent residents to out-stations.

15. *Sale of Night-soil, &c.*—For reasons explained in paragraph 9 of the revised budget, there has been a collection of only Rs. 27–4–0 under this head. The further decrease over the revised estimate is due to want of competition, as it could not be utilized for agricultural purposes owing to the failure of rains during the year.

16. *Fees from Educational Institutions.*—No accounts have been received from the municipal high school during the year about the demand of school fees for each month. Hence there is no means at present to know how much of school fees remains yet to be collected. The amount of Rs. 1,521–7–9 is only that actually remitted by the headmasters during the year against Rs. 1,300 of the revised estimate. The increase is due to the fair progress of the school and also on account of recoveries of school fees which had been in arrears.

17. *Income from Markets.*—Rs. 1,816–3–4 was collected against Rs. 1,820 of the revised estimate. The weekly market manure contractor having failed to pay the kists regularly, his contract was cancelled and resold at his risk. During its resale there was a loss of Rs. 12–4–0, which the former contractor has to pay. A warrant was issued for the recovery of the amount and the man is not to be found nor is any property of his available for distraint. The necessary steps will, however, be taken to recover the same in due course.

18. *Grants and Contributions from Government.*—Rs. 150, being the amount of furniture grant referred to in paragraph 13 of the budget report for 1896–97, was received from the Educational Department and credited to municipal funds.

19. *Private Scavenging Fees, Current.*—Rs. 56–4–0 was collected against the demand of Rs. 91–5–0, leaving a balance of Rs. 35–1–0, of which Rs. 17–4–0 has since been collected during the current year.

Arrears.—Rs. 69–14–0 was collected, and Rs. 40–9–0 was written off by the council as irrecoverable, out of a total demand of Rs. 110–7–0.

The system is now improving, the number of houses scavenged by municipal toties on the roll being 173. The provisions of section 221 are being enforced in obstinate cases. Nineteen cases were prosecuted for nuisance during the year under report.

20. The other items of receipts are more or less equal to the figures of the revised estimate and do not call for any special remarks.

III.—Expenditure.

21. The total expenditure amounted to Rs. 15,935–8–1 against Rs. 15,840 of the revised estimate.

22. *Grant I, New Works—Buildings.*—Rs. 2,259–8–6 was spent against Rs. 2,400 of the revised estimate. Though the hospital building was completed within the year under report, the balance due to the contractor was not paid to him on account of certain objections raised in passing the final bill, which is pending disposal. Hence decrease. At any rate, the amount that has to be paid to the contractor will not probably exceed Rs. 100, which will be paid as soon as the bill is finally passed by the council.

23. *Repairs to Buildings.*—Rs. 67–13–10 was spent in repairing toll-gate sheds and hospital shed. The construction of a cistern and cesspool, alluded to in paragraph 18 of the revised budget report, was not taken in hand as the council, in their meeting held on 15th February 1896, resolved not to spend money on it since the alleged owner of the said land took objection to the execution of the works. The subject is under reference with the Revenue authorities. Hence the amount of Rs. 100 was not spent.

24. The *roads* are in fair order, as would be seen from the remarks of the Sub-Collector and Collector of the district—*vide* G.O., No. 301 M., dated 20th February 1896. The total expenditure on roads during the year 1895–96 was Rs. 1,367–9–3, or 76·7 per cent. of the net municipal revenue from tolls, against a general average of 69·8 per cent. of all municipalities in 1894–95.

25. The outlay under Grant I amounted to Rs. 4,129–3–10 against Rs. 4,380 of the revised estimate.

26. *Grant II, Education.*—The standard of the middle school was raised to that of a high school in July 1895, as per G.O., Mis. No. 790 M., dated 4th May 1895. The increase of strength in the school gradually improved, and the results of the school examinations were also satisfactory, under the management of the then headmaster. On the strength of the above facts, the council proposed to open the V form, for reasons stated in paragraph 29 of the budget report for 1896–97, which the Government was also pleased to sanction in its order, No. 301 M., dated 20th February 1896. Meanwhile, the then headmaster was ordered by the Director of Public

Instruction to undergo training in the Teachers' College, Madras. He (the headmaster) accordingly started from Gudiyáttam in February last and is now undergoing training. Owing to his absence and to the indifference of his successors, the strength of the school gradually fell down, and the council had, therefore, the necessity to abolish temporarily the IV and V forms, and for the various changes in consequence thereof the necessary proposition statement has also been submitted to Government, for its sanction, with this office letter, No. 171, dated 21st April 1896. Independent of this, the strength of the other classes also has fallen on account of the admission of some Paraiya boys in the middle school.

Municipal Schools on Salary System.—Rs. 1,470–4–9 was entered against Rupees 1,500. The decrease is due to the stoppages and savings effected in the establishment pay. The average cost of educating each pupil during the year under report was Rs. 4–5–0 against Rs. 8–2–9 in the previous year.

27. The report of the Educational authorities is herewith submitted.

28. The total outlay under Grant II was Rs. 2,669–9–10 against Rs. 2,730.

29. *Grant III, Contribution to Government.*—Rs. 142 was entered against Rs. 70 of the revised estimate. The increase over the revised estimate is due to the payment of Rs. 77 and 52, against Rs. 15 and 40, to Medical College and Sanitary Inspection, respectively.

30. *Hospital.*—The report of the hospital assistant about the working of the dispensary is herewith submitted. The number of out-patients treated in the municipal dispensary was 11,493 against 9,803 of the previous year. The institution has of late been removed to the new building, which is found to be very convenient in every respect. It is hoped that the institution becomes more popular in the current year. The midwife attached to the dispensary is a trained certificated woman. The number of cases attended by her during 1895–96 was 136 against 118 of the previous year. She has been in service here from 1892.

31. *Vaccination.*—There is one second-class vaccinator on Rs. 10. The number of cases vaccinated by him was 750, of which 705 were successful, against 705 and 683 of the previous year, respectively. The greater number of unsuccessful cases was attributed to the supply of bad lymph on two occasions by the Deputy Inspector of Vaccination, Madras Municipality. The council have also raised the minimum to sixty. Eighty-two cases were reported to the magistrate for prosecution. The progress under this head will be more successful in future. Glycerine lymph was being used as usual. The hospital assistant supervises the vaccinator's work and he is given an allowance of Rs. 2 per month. He vaccinated twenty cases. All were successful.

32. *Registration.*—There is one registrar on Rs. 10. The total number of births and deaths registered during the year was 824 and 450, respectively, against 499 and 318 of the previous year. Only two prosecutions were instituted for failure to register births and deaths for reasons already stated in paragraph 32 of the last report. But now on the receipt of G.O., Mis. No. 378 M., dated 16th March 1896, the council have resolved to accord sanction for prosecution in cases of failure to report births and deaths.

33. *Sanitation.*—The sanitation of the town is fair and the several defects pointed out by the inspecting officers were remedied as far as possible. As funds permitted, a provision of Rs. 250 has been made in the current budget to increase the number of latrines as sanctioned by Government in paragraph 4 (2) of G.O., No. 301 M., dated 20th February 1896. With regard to the other suggestions of the Sanitary Commissioner embodied in G.O., No. 1237 M., dated 1st August 1895, the resolutions of the council on the subject are herewith submitted. For want of funds the conservancy staff could not be increased for the present as recommended by the Sanitary Commissioner in paragraph 2 of his letter, No. 1265, dated 16th January 1896, embodied in G.O., No. 301 M., dated 20th February 1896. One toty was added to the staff in the budget of 1896–97. Provision will be made in the next budget as funds allow.

34. *Cholera Charges.*—In reference to G.O., No. 1028 M., dated 26th June 1895, Rs. 71–9–11 was spent under this head in constructing two cholera sheds and in purchasing the required medicines, though there was no cholera during the year nor up to the date of this report.

35. The total outlay under Grant III was Rs. 5,135–15–11 against Rs. 5,070.

36. *Grant IV, Light Contingencies.*—Rs. 599–14–8 was entered against Rs. 500 of the revised estimate. The increase is due to the repair of lanterns and for painting them and also for having issued oil to more lights after their repairs.

37. *Other Charges.*—Under this item Rs. 1,070–10–5 was spent, against Rs. 800 of the revised estimate, under the following heads :—

	Rs.	A.	P.
(1) Rewards for the destruction of stray dogs and pigs ..	52	2	0
(2) Printing charges	927	14	9
(3) Law charges	45	0	0
(4) Land assessment	8	10	9
(5) Rent of cart-stand	20	0	0
(6) Numbering carts	13	4	7
(7) Other charges, such as painting jutka-stand boards, purchasing tom-tom, &c.	3	10	4
Total ..	1,070	10	5

The increase over the revised estimate is due mostly to printing and law charges. There was a greater number of meetings held during the year, and it was an unforeseen expenditure. Certain defaulters were prosecuted for non-payment of taxes. In about four or five cases out of twelve, parties contested by engaging vakils. Hence the council had the necessity to engage vakils in those cases at a cost of Rs. 45. The Government will be pleased to sanction the expenditure incurred over the revised estimate.

38. The outlay under Grant IV amounted to Rs. 2,300–4–10 against Rs. 1,950.

39. *Grant V, Purchase of Account Books, &c.*—Rs. 109–9–4 was entered against Rs. 130. This was over-estimated at the time of the revision.

40. The outlay under Grant V amounted to Rs. 1,673–5–8 against Rs. 1,710.

41. The other items of expenditure call for no special remarks.

42. The year closed with a balance of Rs. 508–13–8, or 3·07 per cent. of total receipts, against a *minus* balance of Rs. 111–1–1 in 1894–95.

43. *General Remarks.*—The balance outstanding at the close of the year under report was left uncollected for want of time, as greater attention was paid to the clearing off of the oldest arrears with greatest difficulty in reference to the remarks of the Government on the last administration report. Prompt attempts will be made to clear off the collectable amount during the current year.

44. The total average incidence of taxation per head of the population in the municipality, including and excluding tolls, was As. 9–9 and As. 8–3, respectively.

45. During the year under report thirty-five meetings were actually held against twenty-six in the previous year, while eight had to be adjourned for want of quorum against six in the previous year.

46. The total mileage of roads within the municipal limits is $19\frac{7}{32}$, the total number of miles of roads including streets maintained by the council was $12\frac{7}{32}$ and the total length of roads metalled is 7 miles.

47. The report was placed before the council on 11th June 1896 and passed (copy of resolution enclosed).

The delay of eleven days in the submission of the report is due to the absence of the permanent shroff and clerk on leave.

Instruction to undergo training in the Teachers' College, Madras. He (the headmaster) accordingly started from Gudiyáttam in February last and is now undergoing training. Owing to his absence and to the indifference of his successors, the strength of the school gradually fell down, and the council had, therefore, the necessity to abolish temporarily the IV and V forms, and for the various changes in consequence thereof the necessary proposition statement has also been submitted to Government, for its sanction, with this office letter, No. 171, dated 21st April 1896. Independent of this, the strength of the other classes also has fallen on account of the admission of some Paraiya boys in the middle school.

Municipal Schools on Salary System.—Rs. 1,470–4–9 was entered against Rupees 1,500. The decrease is due to the stoppages and savings effected in the establishment pay. The average cost of educating each pupil during the year under report was Rs. 4–5–0 against Rs. 8–2–9 in the previous year.

27. The report of the Educational authorities is herewith submitted.

28. The total outlay under Grant II was Rs. 2,669–9–10 against Rs. 2,730.

29. *Grant III, Contribution to Government.*—Rs. 142 was entered against Rs. 70 of the revised estimate. The increase over the revised estimate is due to the payment of Rs. 77 and 52, against Rs. 15 and 40, to Medical College and Sanitary Inspection, respectively.

30. *Hospital.*—The report of the hospital assistant about the working of the dispensary is herewith submitted. The number of out-patients treated in the municipal dispensary was 11,493 against 9,803 of the previous year. The institution has of late been removed to the new building, which is found to be very convenient in every respect. It is hoped that the institution becomes more popular in the current year. The midwife attached to the dispensary is a trained certificated woman. The number of cases attended by her during 1895–96 was 136 against 118 of the previous year. She has been in service here from 1892.

31. *Vaccination.*—There is one second-class vaccinator on Rs. 10. The number of cases vaccinated by him was 750, of which 705 were successful, against 705 and 683 of the previous year, respectively. The greater number of unsuccessful cases was attributed to the supply of bad lymph on two occasions by the Deputy Inspector of Vaccination, Madras Municipality. The council have also raised the minimum to sixty. Eighty-two cases were reported to the magistrate for prosecution. The progress under this head will be more successful in future. Glycerine lymph was being used as usual. The hospital assistant supervises the vaccinator's work and he is given an allowance of Rs. 2 per month. He vaccinated twenty cases. All were successful.

32. *Registration.*—There is one registrar on Rs. 10. The total number of births and deaths registered during the year was 824 and 450, respectively, against 499 and 318 of the previous year. Only two prosecutions were instituted for failure to register births and deaths for reasons already stated in paragraph 32 of the last report. But now on the receipt of G.O., Mis. No. 378 M., dated 16th March 1896, the council have resolved to accord sanction for prosecution in cases of failure to report births and deaths.

33. *Sanitation.*—The sanitation of the town is fair and the several defects pointed out by the inspecting officers were remedied as far as possible. As funds permitted, a provision of Rs. 250 has been made in the current budget to increase the number of latrines as sanctioned by Government in paragraph 4 (2) of G.O., No. 301 M., dated 20th February 1896. With regard to the other suggestions of the Sanitary Commissioner embodied in G.O., No. 1237 M., dated 1st August 1895, the resolutions of the council on the subject are herewith submitted. For want of funds the conservancy staff could not be increased for the present as recommended by the Sanitary Commissioner in paragraph 2 of his letter, No. 1265, dated 16th January 1896, embodied in G.O., No. 301 M., dated 20th February 1896. One toty was added to the staff in the budget of 1896–97. Provision will be made in the next budget as funds allow.

34. *Cholera Charges.*—In reference to G.O., No. 1028 M., dated 26th June 1895, Rs. 71–9–11 was spent under this head in constructing two cholera sheds and in purchasing the required medicines, though there was no cholera during the year nor up to the date of this report.

35. The total outlay under Grant III was Rs. 5,135–15–11 against Rs. 5,070.

36. *Grant IV, Light Contingencies.*—Rs. 599–14–8 was entered against Rs. 500 of the revised estimate. The increase is due to the repair of lanterns and for painting them and also for having issued oil to more lights after their repairs.

37. *Other Charges.*—Under this item Rs. 1,070–10–5 was spent, against Rs. 800 of the revised estimate, under the following heads:—

	Rs.	A.	P.
(1) Rewards for the destruction of stray dogs and pigs ..	52	2	0
(2) Printing charges	927	14	9
(3) Law charges	45	0	0
(4) Land assessment	8	10	9
(5) Rent of cart-stand	20	0	0
(6) Numbering carts	13	4	7
(7) Other charges, such as painting jutka-stand boards, purchasing tom-tom, &c.	3	10	4
Total ..	1,070	10	5

The increase over the revised estimate is due mostly to printing and law charges. There was a greater number of meetings held during the year, and it was an unforeseen expenditure. Certain defaulters were prosecuted for non-payment of taxes. In about four or five cases out of twelve, parties contested by engaging vakils. Hence the council had the necessity to engage vakils in those cases at a cost of Rs. 45. The Government will be pleased to sanction the expenditure incurred over the revised estimate.

38. The outlay under Grant IV amounted to Rs. 2,300–4–10 against Rs. 1,950.

39. *Grant V, Purchase of Account Books, &c.*—Rs. 109–9–4 was entered against Rs. 130. This was over-estimated at the time of the revision.

40. The outlay under Grant V amounted to Rs. 1,673–5–8 against Rs. 1,710.

41. The other items of expenditure call for no special remarks.

42. The year closed with a balance of Rs. 508–13–8, or 3·07 per cent. of total receipts, against a *minus* balance of Rs. 111–1–1 in 1894–95.

43. *General Remarks.*—The balance outstanding at the close of the year under report was left uncollected for want of time, as greater attention was paid to the clearing off of the oldest arrears with greatest difficulty in reference to the remarks of the Government on the last administration report. Prompt attempts will be made to clear off the collectable amount during the current year.

44. The total average incidence of taxation per head of the population in the municipality, including and excluding tolls, was As. 9–9 and As. 8–3, respectively.

45. During the year under report thirty-five meetings were actually held against twenty-six in the previous year, while eight had to be adjourned for want of quorum against six in the previous year.

46. The total mileage of roads within the municipal limits is $19\frac{7}{32}$, the total number of miles of roads including streets maintained by the council was $12\frac{7}{32}$ and the total length of roads metalled is 7 miles.

47. The report was placed before the council on 11th June 1896 and passed (copy of resolution enclosed).

The delay of eleven days in the submission of the report is due to the absence of the permanent shroff and clerk on leave.

ENCLOSURE.

ANNUAL Concise Report of the Municipal Dispensary, Gudiyáttam, for the year 1895–96.

Public Health.—Deficient rainfall during the year under report seems to have influenced the local physical conditions to an appreciable extent. The prices of staple grains were rather high, resulting from the failure of crops. Scarcity of water was much felt. Insufficient or unsuitable food and clothing in correlation with other factors made the public health rather indifferent. The most common diseases prevalent were fevers, bowel-complaints, ulcers, skin diseases. No epidemic of significant type broke out during the year except a few sporadic cases of small-pox and measles.

2. *Vital Statistics.*—

Deaths.									
Small-pox.	Fevers.	Bowel complaints.	Suicide.	Wound.	Accidents.	All other causes.	Total deaths.	Births.	Population.
13	210	34	1	1	2	209	470	824	18,747.

There has been marked improvement in the registration due to the falling back on the old practice of serving notices through pygusts. Mortality among children from one to five years has been rather high—as much as more than half the total number of deaths.

3. *Sanitation.*—Three springs were maintained by the council in the bed of the river. Robinson tank was altogether abandoned. Springs supply filthy water for drinking and cooking purposes; their surroundings can be kept much cleaner. Before any ideal scheme for water-supply is practicable for this town, the council, in order to remove chronic scarcity and to supply purer water, will do well to have recourse to any other method than excavation system. The dangers of this system become all the more palpable when we conceive for a moment that a single infectious vessel is enough to propagate the disease through water. It is a pity that tube wells do not commend themselves to the council though they combine economy with efficiency. The present conservancy staff is quite inadequate to cope with the work. Only 173 houses are under the private scavenging agency. Latrines are nothing but feasting places of stray pigs which play a considerable havoc at them. No attempt was made to obtain sanction to kill stray pigs which are always a source of great nuisance. Dry-earth heaps which were probably deposited near the latrines for cleansing them are putrified without having been utilized. Necessity under which public streets are unscrupulously converted by the people into latrines require an increase in the present number of latrines, which is only thirteen. In spite of depôts for depositing night-soil having been selected by the undersigned in consultation with the delegate Chairman, no attempt has been made to cart the night-soil to them, though these depôts were at a convenient distance from the municipal limits; on the other hand, it is deposited in proximity to public streets and roads. It seems there are only three serviceable hand-carts; it is desirable that many more should be added to the present number. The Sanitary Commissioner in his inspection notes suggested to the council to abandon the use of latrine at Pudupet, but no steps have yet been taken to give effect to his suggestion. Dyeing pots are found on the premises of most of the weavers, who number here very strong. The offensive effluvia emanating from them is highly prejudicial to the public health. It has also been observed that these men suffer mostly from diseases of the skin, ulcers and other constitutional diseases to a noticeable degree, and their children are sickly and short-lived. It is but natural that they should be so from the fact of their living in dirty surroundings. It is therefore highly desirable that some remote place be shown to them to carry on their trade. No positive step as yet has been taken to carry out the suggestion of the Sanitary Commissioner to extend the municipal limits.

4. *Vaccination.*—

Primary vaccination.				Re-vaccination.				Grand total of primary and re-vaccination.			
Successful.	Unsuccessful.	Unknown.	Total.	Successful.	Unsuccessful.	Unknown.	Total.	Successful.	Unsuccessful.	Unknown.	Total.
679	34	9	722	26	2	..	28	705	36	9	750

The above is the result of vaccine operations done by the second-class vaccinator of this municipality. The District Medical and Sanitary Officer recommended the minimum to be increased from fifty to sixty, which was accordingly carried out. The hospital assistant vaccinated twenty cases with success. Vaccination is not yet a welcome thing with the people here, and it has to be pushed on with a certain amount of worry and annoyance.

5. The dispensary continued to be in the old thatched building till the month of April last, and it was since removed to the new building, which is highly accommodating though short of some supplemental requirements which require urgent attention, to wit, a compound wall and a shed for the treatment of police cases.

Furniture is in a bad state of repair. Two of the medicine almirahs have been recommended by the District Medical and Sanitary Officer to be auctioned and replaced by new ones.

Out-patients treated in the dispensary for the last three years:—

Years.	Number treated.	Daily average.
1893–94	8,812	35·88
1894–95	9,803	40·87
1895–96	11,493	48·76

There has been no mortality among the out-patients as far as could be ascertained.

As many as seventeen major and 478 minor operations have been performed during the year with success, against four major and 184 minor operations in the previous year. The amount of subscriptions collected during the year was Rs. 15, against Rs. 8 in the previous year.

The midwife conducted 136 cases of labour. The District Medical and Sanitary Officer recommended the appointment of an efficient midwife on Rs. 15, as the present one does not turn out good work; she is neither popular. The establishment continued to be as that of previous year without any change, and is at present quite adequate.

6. *General Remarks.*—The dispensary is now removed to the new building which is cut off from habitations, and it is not possible for the hospital assistant to secure a house within the two hundred yards of the dispensary. As a thousand rupees have been allotted to extend the school building, and which are likely to lapse, the work not being taken in hand in view of the present state of the school, the same may be utilised for building the hospital assistant's quarters.

ENCLOSURE.

ANNUAL Concise Report of the Municipal Dispensary, Gudiyáttam, for the year 1895-96.

Public Health.—Deficient rainfall during the year under report seems to have influenced the local physical conditions to an appreciable extent. The prices of staple grains were rather high, resulting from the failure of crops. Scarcity of water was much felt. Insufficient or unsuitable food and clothing in correlation with other factors made the public health rather indifferent, The most common diseases prevalent were fevers, bowel-complaints, ulcers, skin diseases. No epidemic of significant type broke out during the year except a few sporadic cases of small-pox and measles.

2. *Vital Statistics.*—

Deaths.									
Small-pox.	Fevers.	Bowel complaints.	Suicide.	Wound.	Accidents.	All other causes.	Total deaths.	Births.	Population.
13	210	34	1	1	2	209	470	824	18,747.

There has been marked improvement in the registration due to the falling back on the old practice of serving notices through pygusts. Mortality among children from one to five years has been rather high—as much as more than half the total number of deaths.

3. *Sanitation.*—Three springs were maintained by the council in the bed of the river. Robinson tank was altogether abandoned. Springs supply filthy water for drinking and cooking purposes; their surroundings can be kept much cleaner. Before any ideal scheme for water-supply is practicable for this town, the council, in order to remove chronic scarcity and to supply purer water, will do well to have recourse to any other method than excavation system. The dangers of this system become all the more palpable when we conceive for a moment that a single infectious vessel is enough to propagate the disease through water. It is a pity that tube wells do not commend themselves to the council though they combine economy with efficiency. The present conservancy staff is quite inadequate to cope with the work. Only 173 houses are under the private scavenging agency. Latrines are nothing but [illegible] places of stray pigs which play a considerable havoc at them. No attempt was made to obtain sanction to kill stray pigs which are always a source of great nuisance. Dry-earth heaps which were probably deposited near the latrines for cleansing them are putrified without having been utilized. Necessity under which public streets are unscrupulously converted by the people into latrines require an increase in the present number of latrines, which is only thirteen. In spite of depôts for depositing night-soil having been selected by the undersigned in consultation with the delegate Chairman, no attempt has been made to cart the night-soil to them, though these depôts were at a convenient distance from the municipal limits; on the other hand, it is deposited in proximity to public streets and roads. It seems there are only three serviceable hand-carts; it is desirable that many more should be added to the present number. The Sanitary Commissioner in his inspection notes suggested to the council to abandon the use of latrine at Pudupet, but no steps have yet been taken to give effect to his suggestion. Dyeing pots are found on the premises of most of the weavers, who number here very strong. The offensive effluvia emanating from them is highly prejudicial to the public health. It has also been observed that these men suffer mostly from diseases of the skin, ulcers and other constitutional diseases to a noticeable degree, and their children are sickly and short-lived. It is but natural that they should be so from the fact of their living in dirty surroundings. It is therefore highly desirable that some remote place be shown to them to carry on their trade. No positive step as yet has been taken to carry out the suggestion of the Sanitary Commissioner to extend the municipal limits.

4. *Vaccination.*—

Primary vaccination.				Re-vaccination.				Grand total of primary and re-vaccination.

2. Thirty-five meetings were held by the municipal council against 26 in 1894–95, and eight others were adjourned for want of a quorum against six in that year. The average attendance of the members, both officials and non-officials, declined and was poor. The Government trusts that the councillors will in future be more attentive to this part of their duties.

3. *Receipts.*—(1) Owing to the partial revision of assessments under the principal taxes, the net current demand under the taxes on arts and buildings rose from Rs. 3,775 and Rs. 3,795 to Rs. 3,951 and Rs. 3,991, respectively. That under the tax on lands, however, showed no material advance. It is observed that the incidence under the first two heads is much below the general average for municipalities in 1894–95. The revenue from these sources is evidently capable of further development, and every endeavour should be made to secure this end.

(2) Although coercive measures were adopted to a much smaller extent than in 1894–95, the arrear collections were satisfactory. The current collections, however, especially those under the tax on lands, were bad. It is hoped, now that the arrears have been practically cleared off, that prompt measures will be adopted to realize the whole demand including arrears in the current year.

(3) There was a decline in the receipts from the taxes on animals and carts, tolls and sale of sweepings, which is explained in paragraphs 13 to 15 of the Chairman's report. The income from school-fees, however, showed a large increase, which is satisfactory. In this connection the municipal council's attention will be drawn to the Revenue Divisional Officer's remarks in his endorsement which should have specifically stated the irregularities found to have been committed in the collection of school-fees.

(4) The number of houses served by the private scavenging agency rose from 63 to 173, and the service was worked at a profit of Rs. 6 to the municipal council. Seeing, however, that over 3,000 houses are assessed to the tax on buildings, the progress made was very slow. The report does not contain any information as to the action taken by the municipal council in this matter, though the Chairman was specially directed to do this in paragraph 3 (5) of G.O., No. 1499 M., dated 16th September 1895. This omission is very unsatisfactory and should be supplied without delay. The Chairman should also state why the repeated instructions of Government regarding the collection of fees for this service in advance have not been followed.

4. *Expenditure*—(1) *Public Works.*—A sum of Rs. 2,064 was spent on the new hospital building which was completed during the year. The expenditure on communications was Rs. 1,368, or 77·6 per cent. of the net municipal income from tolls, and the town roads are reported by the Revenue Divisional Officer to have been in good order.

(2) *Education.*—The net expenditure on education was Rs. 869, or 7·6 per cent. of the income from taxation, and all but Rs. 32 of this sum was devoted to primary education. The standard of the secondary school on the salary-result system was raised to that of a high school and a primary school for Muhammadans was opened during the year, so that on the 31st March 1896 there were a high school and four primary schools maintained by the municipal council against one secondary and three primary schools in the previous year. Taken together, the attendance at the old schools showed some improvement, while at the new school it was poor. The council also aided two primary schools with result grants against three in the previous year. The examination results of the municipal and aided schools were good. But it is to be regretted that about one-half of the allotment for result grant was allowed to lapse and that the total number of boys under instruction in the municipal and aided schools was only 357, or 25·8 per cent. of the male population of school-going age, against the general average of 54·3 per cent. for municipalities in 1894–95. It is also unsatisfactory to note that no steps were taken by the council to compel the managers of the aided schools to employ trained men as teachers. This should be attended to in the current year. It is only by strict measures that improvement in this direction can be attained.

(3) *Medical Relief.*—Owing to the growing popularity of the municipal dispensary, the number of patients treated at it rose from 9,803 to 11,493. The

midwife attached to this institution attended 136 cases of labour against 118 in the previous year. The municipal council's attention will be called to the remarks and suggestions contained in paragraphs 5 and 6 of the medical officer's report.

(4) *Vaccination and Vital Statistics.*—Notwithstanding the remarks of Government in the reviews of the reports for the last three years, vaccination made no material advance. The number of operations rose from 722 to 770, but the quality of the work turned out deteriorated. Infantile vaccination also was worse than in 1894–95, the number of children under one year successfully vaccinated being only 23·5 per mille of the population, against 24·1 per mille and a registered birth-rate of 44 per mille. This is very unsatisfactory and requires explanation, which should be submitted through the Collector. It is presumed that the attention of the President, Municipal Commission, was drawn to the bad quality of the lymph supplied on two occasions from the Madras depôt.

The registration of births and deaths improved, and the birth returns may now be regarded as very fairly accurate, but the death registers appear to be still incomplete. Increased attention should be paid to this branch of registration in future.

(5) *Sanitation.*—Nearly the whole of the allotment under this head was utilized and the expenditure amounted to 20·5 per cent. of the current receipts. The Government is glad to observe from paragraph 33 of the Chairman's report that some improvement has been effected in the sanitary condition of the town since it was last inspected by the Sanitary Commissioner and hopes that the council will take steps to remove all the remaining defects pointed out by him, as funds permit. It is evident, however, from the remarks of the medical officer in paragraph 3 of his report that very much still remains to be done to put things into satisfactory order. The subject of destroying the stray pigs which frequent the latrines calls for very early attention, as does also the matter of the deposit of night-soil.

5. *General Remarks.*—The year closed with a balance of only Rs. 509, or 3·1 per cent. of the current receipts. The excess expenditure incurred over the sanctioned allotment (not over the revised estimate as stated by the Chairman) under Grant IV will be admitted in the accounts. The charges for printing appear excessive for so small a municipality; the charges under this head seem to call for careful scrutiny.

In some respects the administration of the municipality showed an appreciable improvement on that of the previous year, but, as a great deal remains to be done in regard to the collection of taxes, private scavenging, education, vaccination, registration of deaths and sanitation, it cannot yet be regarded as efficient.

Rec'd 5 August

No. M., JULY 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. M. SUBRAYALU CHETTI Garu, Chairman, Municipal Council, Gudiyáttam, to the Chief Secretary to Government (through the Divisional Officer, Vellore), dated Gudiyáttam, 2nd June 1896, No. 235.

I have the honour to submit the report on the working of the Gudiyáttam Municipality for the year 1895–96, as required by section 252 of Act IV of 1884.

I.—CONSTITUTION OF THE MUNICIPAL COUNCIL.

2. There were twelve councillors on the roll on the 31st March 1896 including the ex-officio ; of these twelve, three were officials and the rest non-officials. All were nominated. I held the office of Chairman till 21st February 1896 and was re-appointed on 25th March 1896.

3. The budget for the year under report was passed by the Government in their order, No. 235 M., dated 14th February 1895, and it was revised in their order, No. 301 M., dated 20th February 1896.

4. The usual statements of receipts and charges prepared in the prescribed form are herewith submitted.

II.—RECEIPTS.

5. The total receipts, including contributions from other funds and deducting the *minus* balance of Rs. 111–1–1 of the year 1894–95, amounted to Rs. 16,444–5–9.

6. The total current receipts amounted to Rs. 16,555–6–10 against Rs. 15,740 and Rs. 16,480 anticipated in the budget and the revised estimates, respectively, and Rs. 15,266–14–11, the actuals of the previous year. The increase over the revised figures is due to the increase and decrease under some of the heads as shown in Statement I.

7. The causes of variations between the actuals and the revised estimates of the year are explained below.

8. (2) *Municipal Rates and Taxes*—(*a*) *Tax on Arts, Current.*—Rs. 4,146 was the original amount fixed by the Chairman, of which Rs. 194–8–0 was remitted by the council. Hence the final settled demand was Rs. 3,951–8–0 against the revised estimate of Rs. 3,950. Rs. 3,247–8–0, or 82·1 per cent. of the net demand, was collected during the year against Rs. 3,067–8–0, or 81·2 per cent. of the previous year, and Rs. 107 has been since collected.

Arrears.—Out of Rs. 798–0–8 relating to arrears from 1890–91, alluded to in paragraph 3 (2) of G.O., No. 1499 M., dated 16th September 1895, Rs. 612–6–3 was collected and Rs. 181–8–8 was written off by the council as irrecoverable, leaving a balance of Rs. 4–1–9 ; of this small balance Rs. 3–1–9 has been since collected and the rest will have to be written off the accounts as it is irrecoverable, since all the necessary processes have been exhausted towards the recovery of the amount.

The number of persons taxed under all classes of the schedule was 1,399 against 1,229, and the amount of profession tax was Rs. 3,951–8–0 against Rs. 3,775 of the previous year. Thus the incidence of taxation per head was Rs. 2–13–2.

9. (*b*) *Tax on Buildings, Current.*—Rs. 4,017–5–0 was the original demand, the council reduced it to Rs. 3,990–13–0, of which Rs. 2,925–8–3, or 73·3 per cent., was collected during the year under report, against Rs. 2,691, or 70·9 per cent., of the previous year, and Rs. 182–7–9 has been collected since 1st April 1896. There were in all 3,794 houses including unoccupied, of which 3,142, or 83·8 per cent. of the census number, were subject to house-tax. The average incidence of house-tax was therefore Rs. 1–4–4.

Arrears.—Out of Rs. 1,111–6–3 relating to the years 1890–91 to 1894–95, which remained uncollected on the 31st March 1895, Rs. 1,087–6–3 was collected and Rs. 21–8–0 written off by the council, as being irrecoverable, during the year 1895–96, leaving a small balance of Rs. 2–8–0 on the 31st March 1896, of which Rs. 1–8–0 has been collected since 1st April 1896 and the rest will have to be written off as irrecoverable.

10. *Tax on Lands, Current.*—The demand was fixed at Rs. 466–10–10, of which Rs. 36–4–10 was remitted by the council and Rs. 193–9–1, or 45·1 per cent., was collected during the year 1895–96, against Rs. 102–8–0, or 25·2 per cent., in the previous year.

Arrears.—Out of Rs. 359–7–9 relating to the past nine years, that is, from 1886–87 to 1894–95, Rs. 328–15–7 was collected and Rs. 29–11–4 written off during the year under report, leaving a very small balance of As. 12–10 which will have to be written off as irrecoverable.

11. Tax on buildings and lands was levied at 5 per cent. on the annual rental value, and a tax of Pies (3) on every 80 square yards was charged, as usual, on unoccupied lands. The total extent of lands assessed during the year was 276 acres and 33 cents as in the previous year.

12. The registers of tax on arts, buildings and lands were revised partly during the year 1895–96.

13. *Tax on Animals, Current.*—The demand as assessed and finally settled was Rs. 582–12–0, against Rs. 700 of the revised, of which Rs. 424–12–0 was collected. The falling off under this item is due to several animals having been disposed of to outsiders on account of the unfavourable season.

Arrears.—Out of Rs. 166–10–6, Rs. 143–0–6 was collected and Rs. 23–2–6 was written off by the council, leaving a balance of As. 7–6, which is also irrecoverable and will have to be written off.

14. *Tax on Carts.*—Rs. 549 was collected against Rs. 700 of the revised. The decrease was due partly to the disposal of town carts to outsiders and partly to the change of permanent residents to out-stations.

15. *Sale of Night-soil, &c.*—For reasons explained in paragraph 9 of the revised budget, there has been a collection of only Rs. 27–4–0 under this head. The further decrease over the revised estimate is due for want of competition, as it could not be utilized for agricultural purposes owing to the failure of rains during the year.

16. *Fees from Educational Institutions.*—No accounts have been received from the municipal high school during the year about the demand of school fees for each month. Hence there is no means at present to know how much of school fees remains yet to be collected. The amount of Rs. 1,521–7–9 is only that actually remitted by the headmasters during the year against Rs. 1,300 of the revised estimate. The increase is due to the fair progress of the school and also on account of recoveries of school fees which had been in arrears.

17. *Income from Markets.*—Rs. 1,816–3–4 was collected against Rs. 1,820 of the revised estimate. The weekly market manure contractor having failed to pay the kists regularly, his contract was cancelled and resold at his risk. During its resale there was a loss of Rs. 12–4–0, which the former contractor has to pay. A warrant was issued for the recovery of the amount and the man is not to be found nor is any property of his available for distraint. The necessary steps will, however, be taken to recover the same in due course.

18. *Grants and Contributions from Government.*—Rs. 150, being the amount of furniture grant referred to in paragraph 13 of the budget report for 1896–97, was received from the Educational Department and credited to municipal funds.

19. *Private Scavenging Fees, Current.*—Rs. 56–4–0 was collected against the demand of Rs. 91–5–0, leaving a balance of Rs. 35–1–0, of which Rs. 17–4–0 has since been collected during the current year.

Arrears.—Rs. 69–14–0 was collected, and Rs. 40–9–0 was written off by the council as irrecoverable, out of a total demand of Rs. 110–7–0.

The system is now improving, the number of houses scavenged by municipal toties on the roll being 173. The provisions of section 221 are being enforced in obstinate cases. Nineteen cases were prosecuted for nuisance during the year under report.

20. The other items of receipts are more or less equal to the figures of the revised estimate and do not call for any special remarks.

III.—Expenditure.

21. The total expenditure amounted to Rs. 15,935–8–1 against Rs. 15,840 of the revised estimate.

22. *Grant I, New Works—Buildings.*—Rs. 2,259–8–6 was spent against Rs. 2,400 of the revised estimate. Though the hospital building was completed within the year under report, the balance due to the contractor was not paid to him on account of certain objections raised in passing the final bill, which is pending disposal. Hence decrease. At any rate, the amount that has to be paid to the contractor will not probably exceed Rs. 100, which will be paid as soon as the bill is finally passed by the council.

23. *Repairs to Buildings.*—Rs. 67–13–10 was spent in repairing toll-gate sheds and hospital shed. The construction of a cistern and cesspool, alluded to in paragraph 18 of the revised budget report, was not taken in hand as the council, in their meeting held on 15th February 1896, resolved not to spend money on it since the alleged owner of the said land took objection to the execution of the works. The subject is under reference with the Revenue authorities. Hence the amount of Rs. 100 was not spent.

24. The *roads* are in fair order, as would be seen from the remarks of the Sub-Collector and Collector of the district—*vide* G.O., No. 301 M., dated 20th February 1896 The total expenditure on roads during the year 1895–96 was Rs. 1,367–9–3, or 76·7 per cent. of the net municipal revenue from tolls, against a general average of 69·8 per cent. of all municipalities in 1894–95.

25. The outlay under Grant I amounted to Rs. 4,129–3–10 against Rs. 4,380 of the revised estimate.

26. *Grant II, Education.*—The standard of the middle school was raised to that of a high school in July 1895, as per G.O., Mis. No. 790 M., dated 4th May 1895. The increase of strength in the school gradually improved, and the results of the school examinations were also satisfactory, under the management of the then headmaster. On the strength of the above facts, the council proposed to open the V form, for reasons stated in paragraph 29 of the budget report for 1896–97, which the Government was also pleased to sanction in ~~their~~ order, No. 301 M., dated 20th February 1896. Meanwhile, the then headmaster was ordered by the Director of Public Instruction to undergo training in the Teachers' College, Madras. He (the headmaster) accordingly started from Gudiyáttam in February last and is now undergoing training. Owing to his absence and to the indifference of his successors, the strength of the school gradually fell down, and the council had, therefore, the necessity to abolish temporarily the IV and V forms, and for the various changes in consequence thereof the necessary proposition statement has also been submitted to Government, for ~~their~~ sanction, with this office letter, No. 171, dated 21st April 1896. Independent of this, the strength of the other classes also has fallen down on account of the admission of some Paraiya boys in the middle school.

Municipal Schools on Salary System.—Rs. 1,470–4–9 was entered against Rupees 1,500. The decrease is due to the stoppages and savings effected in the establishment pay. The average cost of educating each pupil during the year under report was Rs. 4–5–0 against Rs. 8–2–9 in the previous year.

27. The report of the Educational authorities is herewith submitted.

28. The total outlay under Grant II was Rs. 2,669–9–10 against Rs. 2,730.

29. *Grant III, Contribution to Government.*—Rs. 142 was entered against Rs. 70 of the revised estimate. The increase over the revised estimate is due to the payment of Rs. 77 and 52, against Rs. 15 and 40, to Medical College and Sanitary Inspection, respectively.

30. *Hospital.*—The report of the hospital assistant about the working of the dispensary is herewith submitted. The number of out-patients treated in the municipal dispensary was 11,193 against 9,803 of the previous year. The institution has of late been removed to the new building, which is found to be very convenient in every respect. It is hoped that the institution becomes more popular in the current year. The midwife attached to the dispensary is a trained certificated woman. The number of cases attended by her during 1895–96 was 136 against 118 of the previous year. She has been in service here from 1892.

31. *Vaccination.*—There is one second-class vaccinator on Rs. 10. The number of cases vaccinated by him was 750, of which 705 were successful, against 705 and 683 of the previous year, respectively. The greater number of unsuccessful cases was attributed to the supply of bad lymph on two occasions by the Deputy Inspector of Vaccination, Madras Municipality. The council have also raised the minimum to sixty. Eighty-two cases were reported to the magistrate for prosecution. The progress under this head will be more successful in future. Glycerine lymph was being used as usual. The hospital assistant supervises the vaccinator's work and he is given an allowance of Rs. 2 per month. He vaccinated twenty cases. All were successful.

32. *Registration.*—There is one registrar on Rs. 10. The total number of births and deaths registered during the year was 824 and 450, respectively, against 499 and 318 of the previous year. Only two prosecutions were instituted for failure to register births and deaths for reasons already stated in paragraph 32 of the last report. But now on the receipt of G.O., Mis. No. 378 M., dated 16th March 1896, the council have resolved to accord sanction for prosecution in cases of failure to report births and deaths.

33. *Sanitation.*—The sanitation of the town is fair and the several defects pointed out by the inspecting officers were remedied as far as possible. As funds permitted, a provision of Rs. 250 has been made in the current budget to increase the number of latrines as sanctioned by Government in paragraph 4 (2) of G.O., No. 301 M., dated 20th February 1896. With regard to the other suggestions of the Sanitary Commissioner embodied in G.O., No. 1237 M., dated 1st August 1895, the resolutions of the council on the subject are herewith submitted. For want of funds the conservancy staff could not be increased for the present as recommended by the Sanitary Commissioner in paragraph 2 of his letter, No. 1265, dated 16th January 1896, embodied in G.O., No. 301 M., dated 20th February 1896. One toty was added to the staff in the budget of 1896–97. Provision will be made in the next budget as funds allow.

34. *Cholera Charges.*—In reference to G.O., No. 1028 M., dated 26th June 1895, Rs. 71–9–11 was spent under this head in constructing two cholera sheds and in purchasing the required medicines, though there was no cholera during the year nor up to the date of this report.

35. The total outlay under Grant III was Rs. 5,135–15–11 against Rs. 5,070.

36. *Grant IV, Light Contingencies.*—Rs. 599–14–8 was entered against Rs. 500 of the revised estimate. The increase is due to the repair of lanterns and for painting them and also for having issued oil to more lights after their repairs.

37. *Other Charges.*—Under this item Rs. 1,070–10–5 was spent, against Rs. 800 of the revised estimate, under the following heads:—

		Rs.	A.	P.
(1)	Rewards for the destruction of stray dogs and pigs ..	52	2	0
(2)	Printing charges	927	14	9
(3)	Law charges	45	0	0
(4)	Land assessment	8	10	9
(5)	Rent of cart-stand	20	0	0
(6)	Numbering carts	13	4	7
(7)	Other charges, such as painting jutka-stand boards, purchasing tom-tom, &c.	3	10	4
	Total ..	1,070	10	5

The increase over the revised estimate is due mostly to printing and law charges. There was a greater number of meetings held during the year, and it was an unforeseen expenditure. Certain defaulters were prosecuted for non-payment of taxes. In about four or five cases out of twelve, parties contested by engaging vakils. Hence the council had the necessity to engage vakils in those cases at a cost of Rs. 45. The Government will be pleased to sanction the expenditure incurred over the revised estimate.

38. The outlay under Grant IV amounted to Rs. 2,300–4–10 against Rs. 1,950.

39. *Grant V, Purchase of Account Books, &c.*—Rs. 109–9–4 was entered against Rs. 130. This was over-estimated at the time of the revision.

40. The outlay under Grant V amounted to Rs. 1,673–5–8 against Rs. 1,710.

41. The other items of expenditure call for no special remarks.

42. The year closed with a balance of Rs. 508–13–8, or 3·07 per cent. of total receipts, against a *minus* balance of Rs. 111–1–1 in 1894–95.

43. *General Remarks.*—The balance outstanding at the close of the year under report was left uncollected for want of time, as greater attention was paid to the clearing off of the oldest arrears with greatest difficulty, in reference to the remarks of the Government in the last administration report. Prompt attempts will be made to clear off the collectable amount during the current year.

44. The total average incidence of taxation per head of the population in the municipality, including and excluding tolls, was As. 9–9 and As. 8–3, respectively.

45. During the year under report thirty-five meetings were actually held against twenty-six in the previous year, while eight had to be adjourned for want of quorum against six in the previous year.

46. The total mileage of roads within the municipal limits is $19\frac{7}{32}$, the total number of miles of roads including streets maintained by the council was $12\frac{7}{32}$ and the total length of roads metalled is 7 miles.

47. The report was placed before the council on 11th June 1896 and passed (copy of resolution enclosed).

The delay of eleven days in the submission of the report is due to the absence of the permanent shroff and clerk on leave.

ENCLOSURE.

ANNUAL Concise Report of the Municipal Dispensary, Gudiyáttam, for the year 1895–96.

Public Health.—Deficient rainfall during the year under report seems to have influenced the local physical conditions to an appreciable extent. The prices of staple grains were rather high, resulting from the failure of crops. Scarcity of water was much felt. Insufficient or unsuitable food and clothing in correlation with other factors made the public health rather indifferent. The most common diseases prevalent were fevers, bowel-complaints, ulcers, skin diseases. No epidemic of significant type broke out during the year except a few sporadic cases of small-pox and measles.

Municipal Schools on Salary System.—Rs. 1,470–4–9 was entered against Rupees 1,500. The decrease is due to the stoppages and savings effected in the establishment pay. The average cost of educating each pupil during the year under report was Rs. 4–5–0 against Rs. 8–2–9 in the previous year.

27. The report of the Educational authorities is herewith submitted.

28. The total outlay under Grant II was Rs. 2,669–9–10 against Rs. 2,730.

29. *Grant III, Contribution to Government.*—Rs. 142 was entered against Rs. 70 of the revised estimate. The increase over the revised estimate is due to the payment of Rs. 77 and 52, against Rs. 15 and 40, to Medical College and Sanitary Inspection, respectively.

30. *Hospital.*—The report of the hospital assistant about the working of the dispensary is herewith submitted. The number of out-patients treated in the municipal dispensary was 11,193 against 9,803 of the previous year. The institution has of late been removed to the new building, which is found to be very convenient in every respect. It is hoped that the institution becomes more popular in the current year. The midwife attached to the dispensary is a trained certificated woman. The number of cases attended by her during 1895–96 was 136 against 118 of the previous year. She has been in service here from 1892.

31. *Vaccination.*—There is one second-class vaccinator on Rs. 10. The number of cases vaccinated by him was 750, of which 705 were successful, against 705 and 683 of the previous year, respectively. The greater number of unsuccessful cases was attributed to the supply of bad lymph on two occasions by the Deputy Inspector of Vaccination, Madras Municipality. The council have also raised the minimum to sixty. Eighty-two cases were reported to the magistrate for prosecution. The progress under this head will be more successful in future. Glycerine lymph was being used as usual. The hospital assistant supervises the vaccinator's work and he is given an allowance of Rs. 2 per month. He vaccinated twenty cases. All were successful.

32. *Registration.*—There is one registrar on Rs. 10. The total number of births and deaths registered during the year was 824 and 450, respectively, against 499 and 318 of the previous year. Only two prosecutions were instituted for failure to register births and deaths for reasons already stated in paragraph 32 of the last report. But now on the receipt of G.O., Mis. No. 378 M., dated 16th March 1896, the council have resolved to accord sanction for prosecution in cases of failure to report births and deaths.

33. *Sanitation.*—The sanitation of the town is fair and the several defects pointed out by the inspecting officers were remedied as far as possible. As funds permitted, a provision of Rs. 250 has been made in the current budget to increase the number of latrines as sanctioned by Government in paragraph 4 (2) of G.O., No. 301 M., dated 20th February 1896. With regard to the other suggestions of the Sanitary Commissioner embodied in G.O., No. 1237 M., dated 1st August 1895, the resolutions of the council on the subject are herewith submitted. For want of funds the conservancy staff could not be increased for the present as recommended by the Sanitary Commissioner in paragraph 2 of his letter, No. 1265, dated 16th January 1896, embodied in G.O., No. 301 M., dated 20th February 1896. One toty was added to the staff in the budget of 1896–97. Provision will be made in the next budget as funds allow.

34. *Cholera Charges.*—In reference to G.O., No. 1028 M., dated 26th June 1895, Rs. 71–9–11 was spent under this head in constructing two cholera sheds and in purchasing the required medicines, though there was no cholera during the year nor up to the date of this report.

35. The total outlay under Grant III was Rs. 5,135–15–11 against Rs. 5,070.

36. *Grant IV, Light Contingencies.*—Rs. 599–14–8 was entered against Rs. 500 of the revised estimate. The increase is due to the repair of lanterns and for painting them and also for having issued oil to more lights after their repairs.

37. *Other Charges.*—Under this item Rs. 1,070–10–5 was spent, against Rs. 800 of the revised estimate, under the following heads :—

	Rs.	A.	P.
(1) Rewards for the destruction of stray dogs and pigs ..	52	2	0
(2) Printing charges	927	14	9
(3) Law charges	45	0	0
(4) Land assessment	8	10	9
(5) Rent of cart-stand	20	0	0
(6) Numbering carts	13	4	7
(7) Other charges, such as painting jutka-stand boards, purchasing tom-tom, &c.	3	10	4
Total ..	1,070	10	5

The increase over the revised estimate is due mostly to printing and law charges. There was a greater number of meetings held during the year, and it was an unforeseen expenditure. Certain defaulters were prosecuted for non-payment of taxes. In about four or five cases out of twelve, parties contested by engaging vakils. Hence the council had the necessity to engage vakils in those cases at a cost of Rs. 45. The Government will be pleased to sanction the expenditure incurred over the revised estimate.

38. The outlay under Grant IV amounted to Rs. 2,300–4–10 against Rs. 1,950.

39. *Grant V, Purchase of Account Books, &c.*—Rs. 109–9–4 was entered against Rs. 130. This was over-estimated at the time of the revision.

40. The outlay under Grant V amounted to Rs. 1,673–5–8 against Rs. 1,710.

41. The other items of expenditure call for no special remarks.

42. The year closed with a balance of Rs. 508–13–8, or 3·07 per cent. of total receipts, against a *minus* balance of Rs. 111–1–1 in 1894–95.

43. *General Remarks.*—The balance outstanding at the close of the year under report was left uncollected for want of time, as greater attention was paid to the clearing off of the oldest arrears with greatest difficulty, in reference to the remarks of the Government in the last administration report. Prompt attempts will be made to clear off the collectable amount during the current year.

44. The total average incidence of taxation per head of the population in the municipality, including and excluding tolls, was As. 9–9 and As. 8–3, respectively.

45. During the year under report thirty-five meetings were actually held against twenty-six in the previous year, while eight had to be adjourned for want of quorum against six in the previous year.

46. The total mileage of roads within the municipal limits is $19\frac{7}{32}$, the total number of miles of roads including streets maintained by the council was $12\frac{7}{32}$ and the total length of roads metalled is 7 miles.

47. The report was placed before the council on 11th June 1896 and passed (copy of resolution enclosed).

The delay of eleven days in the submission of the report is due to the absence of the permanent shroff and clerk on leave.

ENCLOSURE.

ANNUAL Concise Report of the Municipal Dispensary, Gudiyáttam, for the year 1895-96.

Public Health.—Deficient rainfall during the year under report seems to have influenced the local physical conditions to an appreciable extent. The prices of staple grains were rather high, resulting from the failure of crops. Scarcity of water was much felt. Insufficient or unsuitable food and clothing in correlation with other factors made the public health rather indifferent, The most common diseases prevalent were fevers, bowel-complaints, ulcers, skin diseases. No epidemic of significant type broke out during the year except a few sporadic cases of small-pox and measles.

2. *Vital Statistics.*—

Deaths.								Births.	Population.
Small-pox.	Fevers.	Bowel complaints.	Suicide.	Wound.	Accidents	All other causes.	Total deaths.		
13	210	34	1	1	2	209	470	824	18,747

There has been marked improvement in the registration due to the falling back on the old practice of serving notices through pygusts. Mortality among children from one to five years has been rather high—as much as more than half the total number of deaths.

3. *Sanitation.*—Three springs were maintained by the council in the bed of the river. Robinson tank was altogether abandoned. Springs supply filthy water for drinking and cooking purposes; their surroundings can be kept much cleaner. Before any ideal scheme for water-supply is practicable for this town, the council, in order to remove chronic scarcity and to supply purer water, will do well to have recourse to any other method than excavation system. The dangers of this system become all the more palpable when we conceive for a moment that a single infectious vessel is enough to propagate the disease through water. It is a pity that tube wells do not commend themselves to the council though they combine economy with efficiency. The present conservancy staff is quite inadequate to cope with the work. Only 173 houses are under the private scavenging agency. Latrines are anything but feasting places of stray pigs which play a considerable havoc at them. No attempt was made to obtain sanction to kill stray pigs which are always a source of great nuisance. Dry-earth heaps which were probably deposited near the latrines for cleansing them are putrified without having been utilized. Necessity under which public streets are unscrupulously converted by the people into latrines require an increase in the present number of latrines, which is only thirteen. In spite of depôts for depositing night-soil having been selected by the undersigned in consultation with the delegate Chairman, no attempt has been made to cart the night-soil to them, though these depôts were at a convenient distance from the municipal limits; on the other hand, it is deposited in proximity to public streets and roads. It seems there are only three serviceable hand-carts; it is desirable that many more should be added to the present number. The Sanitary Commissioner in his inspection notes suggested to the council to abandon the use of latrine at Pudupet, but no steps have yet been taken to give effect to his suggestion. Dyeing pots are found on the premises of most of the weavers, which number here very strong. The offensive effluvia emanating from them is highly prejudicial to the public health. It has also been observed that these men suffer mostly from diseases of the skin, ulcers and other constitutional diseases to a noticeable degree, and their children are anything but sickly and short-lived. It is but natural that they should be so from the fact of their living in dirty surroundings. It is therefore highly desirable that some remote place be shown to them to carry on their trade. No positive step as yet has been taken to carry out the suggestion of the Sanitary Commissioner to extend the municipal limits.

4. *Vaccination.*—

Primary vaccination.				Re-vaccination.				Grand total of primary and re-vaccination.			
Successful.	Unsuccessful.	Unknown.	Total.	Successful.	Unsuccessful.	Unknown.	Total.	Successful.	Unsuccessful.	Unknown.	Total.
679	34	9	722	26	2	..	28	705	36	9	750

The above is the result of vaccine operations done by the second-class vaccinator of this municipality. The District Medical and Sanitary Officer recommended the minimum to be increased from fifty to sixty, which was accordingly carried out. The hospital assistant vaccinated twenty cases with success. Vaccination is not yet a welcome thing with the people here, and it has to be pushed on with a certain amount of worry and annoyance.

5 Dispensary continued to be in the old thatched building till the month of April last, and it was since removed to the new building, which is highly accommodating though short of some supplemental requirements which require urgent attention, to wit, a compound wall and a shed for the treatment of police cases.

Furniture is in a bad state of repair. Two of the medicine almirahs have been recommended by the District Medical and Sanitary Officer to be auctioned and replaced by new ones.

Out-patients treated in the dispensary for the last three years:—

Years.	Number treated.	Daily average.
1893-94	8,812	35·88
1894-95	9,803	40·87
1895-96	11,493	48·76

There has been no mortality among the out-patients as far as could be ascertained.

As many as seventeen major and 478 minor operations have been performed during the year with success, against four major and 184 minor operations in the previous year. The amount of subscription collected during the year was Rs. 15, against Rs. 8 in the previous year.

The midwife conducted 136 cases of labour. The District Medical and Sanitary Officer recommended the appointment of an efficient midwife on Rs. 15, as the present one does not turn out good work; she is neither popular. The establishment continued to be as that of previous year without any change, and is at present quite adequate.

6. *General Remarks.*—The dispensary is now removed to the new building which is cut off from habitations, and it is not possible for the hospital assistant to secure a house within the two hundred yards of the dispensary. As a thousand rupees have been allotted to extend the school building, and which are likely to lapse, the work not being taken in hand in view of the present state of the school, the same may be utilised for building the hospital assistant's quarters.

GUDIYATTAM,
5th May 1896.

ORDER—No. 1296 M., dated 5th August July 1896.

The receipts and charges of the Gudiyáttam Municipality for 1895–96 are compared below with the budget and revised estimates for the year and the actuals of 1894–95 :—

—	Actuals, 1894–95.	Budget estimate, 1895–96.	Revised estimate, 1895–96.	Actuals, 1895–96.
	Rs.	Rs.	Rs.	Rs.

Gudiyattam municipality

1895-96

1797

C.S.
P.S.

advance. The number of operations rose from 722 to 770, but the quality of the work turned out deteriorated. Infantile vaccination also was worse than in 1894–95, the number of children under one year successfully vaccinated being only 23·5 per mille of the population, against 24·1 per mille and a registered birth-rate of 44 per mille. This is very unsatisfactory and requires explanation, which should ~~now~~ be submitted through the Collector. It is presumed that the attention of the President Municipal Commission was drawn to the bad quality of the lymph supplied on two occasions from the Madras Depot.

The registration of births and deaths improved, and the birth returns may now be regarded as very fairly accurate, but the death registers appear to be still incomplete. Increased attention should be paid to this branch of registration in future.

(5) *Sanitation.*—Nearly the whole of the allotment under this head was utilized and the expenditure amounted to 20·5 per cent. of the current receipts. The Government is glad to observe from paragraph 33 of the Chairman's report that some improvement has been effected in the sanitary condition of the town since it was last inspected by the Sanitary Commissioner and hopes that the council will take steps to remove all the remaining defects pointed out by him as funds permit. It is evident however from the remarks of the medical officer that in para 3 of his report that very much still remains to be done to put things into satisfactory order. The subject of destroying the stray pigs which frequent the latrines calls for very very attention so does the matter of the deposit of night soil.

5. *General Remarks.*—The year closed with a balance of only Rs. 509, or 3·1 per cent. of the current receipts. The excess expenditure incurred over the sanctioned allotment (not over the revised estimate as stated by the Chairman) under Grant IV will be admitted in the accounts. The charges for printing appear excessive for so small a municipality; the charges under this head seem to call for careful scrutiny.

In some respects the administration of the municipality showed an improvement on that of the previous year, but, as a great deal remains to be done in regard to the collection of taxes, private scavenging, education, vaccination, registration of deaths and sanitation, it cannot yet be regarded as efficient. ~~although it is satisfactory that there was some improvement on last year's admission~~

(True Extract.)

Under Secy., P.W.D.,

for *Chief Secretary.*

2/8/96.

To the Chairman, Municipal Council, Gudiyáttam.
,, Collector of North Arcot.
,, President, District Board, North Arcot.
,, Accountant-General.
,, Director of Public Instruction.
,, Surgeon-General.
,, Sanitary Commissioner.
,, Sanitary Engineer.
Editors' Table.

2. Thirty-five meetings were held by the municipal council against twenty-six in 1894–95, and eight others were adjourned for want of a quorum against six in that year. The average attendance of the members, both officials and non-officials, declined and was poor.

3. *Receipts.*—(1) Owing to the partial revision of assessments under the principal taxes, the net current demand under the taxes on arts and buildings rose from Rs. 3,775 and Rs. 3,795 to Rs. 3,951 and Rs. 3,991, respectively. That under the tax on lands, however, showed no material advance. It is observed that the incidence under the first two heads is much below the general average for municipalities in 1894–95. The revenue from these sources is evidently capable of further development, and every endeavour should be made to secure this end.

(2) Although coercive measures were adopted to a much smaller extent than in 1894–95, the arrear collections were satisfactory. The current collections, however, especially those under the tax on lands, were bad. It is hoped, now that the arrears have been cleared off, that prompt measures will be adopted to realize the whole demand in the current year.

(3) There was a decline in the receipts from the taxes on animals and carts, tolls and sale of sweepings, which is explained in paragraphs 13 to 15 of the Chairman's report. The income from school-fees, however, showed a large increase, which is satisfactory. In this connection the municipal council's attention will be drawn to the Revenue Divisional officer's remarks in his endorsement.

(4) The number of houses served by the private scavenging agency rose from 63 to 173, and the service was worked at a profit of Rs. 6 to the municipal council. Seeing, however, that over 3,000 houses are assessed to the tax on buildings, the progress made is very slow. The report does not contain any information as to the action taken by the municipal council in this matter, though the Chairman was specially directed to do this in paragraph 3 (5) of G.O., No. 1499 M., dated 16th September 1895. This omission is very unsatisfactory and should be supplied without delay. The Chairman should also state why the repeated instructions of Government regarding the collection of fees for this service in advance have not been followed.

4. *Expenditure*—(1) *Public Works.*—A sum of Rs. 2,064 was spent on the new hospital building which was completed during the year. The expenditure on communications was Rs. 1,368, or 77·6 per cent. of the net municipal income from tolls, and the town roads are reported by the Revenue Divisional officer to have been in good order.

(2) *Education.*—The net expenditure on education was Rs. 869, or 7·6 per cent. of the income from taxation, and all but Rs. 32 of this sum was devoted to primary education. The standard of the secondary school on the salary-result system was raised to that of a high school and a primary school for Muhammadans was opened during the year, so that on the 31st March 1896 there were a high school and four primary schools maintained by the municipal council against one secondary and three primary schools in the previous year. Taken together, the attendance at the old schools showed some improvement, while at the new school it was poor. The council also aided two primary schools with results grants against three in the previous year. The examination results of the municipal and aided schools were good. But it is to be regretted that about one-half of the allotment for result grant was allowed to lapse and that the total number of boys under instruction in the municipal and aided schools was only 357, or 25·8 per cent. of the male population of school-going age, against the general average of 54·3 per cent. for municipalities in 1894–95. It is also unsatisfactory to note that no steps were taken by the council to compel the managers of the aided schools to employ trained men as teachers. This should be attended to in the current year.

(3) *Medical Relief.*—Owing to the growing popularity of the municipal dispensary, the number of patients treated at it rose from 9,803 to 11,493. The midwife attached to this institution attended 138 cases of labour against 118 in the previous year. The municipal council's attention will be called to the remarks and suggestions contained in paragraphs 5 and 6 of the medical officer's report.

(4) *Vaccination and Vital Statistics.*—Notwithstanding the remarks of Government in the reviews of the reports for the last three years, vaccination made no material

Note to Statement I.

1. Tax on arts, &c., is levied on ~~the first~~ all classes.
2. Tax on buildings is levied at 5 per cent. and tax on lands at ~~plus~~ 0-0-3 per cent. of ~~rent value.~~ gross income for every 80 square yards. unoccupied land
3. Water-tax on buildings and lands is levied at ___ per cent.
4. Tax on vehicles and animals is levied at 4 per annum full the maximum rates.
5. Tax on carts, &c., is levied at Rs. 3 per cart per annum.
6. Tolls are levied at half the maximum rates.
7. License-fees are levied at the rates sanctioned in G.O. No 1165-0122: hour 96; 1403 of 10: April 89; 151 No 0/28/1/2 No 1840 No. 0/5 Dec 90; to 261 No mis 0/27: July 93 & 1098 No. mis 0/21: August 98
8. The house-tax registers were last revised in the official year 95-96 and the land tax registers in the official year. 95-96
9. Total extent of land assessed is 276 acres 33 cents partly
10. The mode of estimating the annual rental of houses and lands is as follows:—

The annual rental of houses is estimated on the probable amount that may be realized, if the houses are not actually let on for rent. In fixing such annual rent due consideration is given to the importance of locality of houses in which they are situated and the materials with which they are built.

In the case of assessed lands the estimated value of the gross produce after deducting the cultivation etc expenses is taken as the annual rental. In the case of lands unoccupied by houses the tax of 3 pies on every ~~sq~~ yards is charged. Municipal, Kajah Schools maintained entirely by Municipality

Statement No. IV relating to the results of the Grant Examinations in the Gudiattam Municipality in 1895-96.

Standard.	1894-95 Compulsory Subjects only.				1895-96. Compulsory Subjects only.				Remarks.
	Number of pupils presented for the Standard.	Number passed.	Merit.	Ordinary.	Number of pupils presented for the Standard.	Number passed.	Merit.	Ordinary.	
VII. Standard or Lower Secondary Examination.									
VI. Standard	2	2	1	1	-	-	-	-	As the Municipal which was on the Salary Result system in 1894-95 was placed on the salary system during 1895-96 the figures relating to it are not included in those for 1895-96. Hence the decrease in the no of pupils presented for Grant Examination. As regards the results, they were not as good as in the previous year. This is due to want of proper supervision on the part of the Inspecting schoolmaster.

Submitted.

14.6.96 [illegible]

on the Salary System, it is not included in statement 4. Hence the seeing falling off under the numbers for the several standards. The introduction of revised text books which are bigger & more difficult operated to some extent as an obstacle in the way of Salary Pts. Schools & Results Schools. One of the Asst. masters of the Municipal Secondary School looked after the Primary Schools indifferently. As the L.S. I.S. masters is to be entrusted with the work, there may be more efficient supervision.

1 Read draft of the Administration report with statements &c for the year 1895-96.
Read also other papers connected thereto.
Read the following Gos
Go no 1499 m dated 16-9-95
1973 & 1974 m dated 25-11-95
704 m. mis dated 27-4-96.
Read also Sanitary Commissioner's Inspection notes, embodied in Go. no 1237 m dated 1-8-95, with the opinion of the Sub Committee.
Read again Resolutions of the Council dated 30-3-96, about water supply scheme, and 7-11-95 about the well in Dhimampal Public road.

Read irrecoverable list of arrears as detailed below:

No	Names	Amount		
	Profession Tax for 1894-95			
717	Venkata Subbayyar	1	0	0
	Buildings 94-95			
158	S. Ramasami	0	8	0
1871	Narasimhagga	0	8	0
	Vacant lands			
	Total balance	0	12	10
	Ploughing Cattle 94-95			
135-136	Vadageriyan	0	7	6
	License fees 94-95			
2	Ramasami Mudaly	0	8	0

It is unanimously resolved that the limits of the municipal town need not be extended considering the present financial circumstances of the municipality and in consideration of the heavy expense that has to be incurred for extending the municipal limits, as suggested by the Sanitary Commissioner, and also as suggested by the Sub Committee to whom the subject was referred.

The Sanitary Engineer having personally inspected and stated that the place around the Robinson Tank is quite unfit for erecting tube wells as suggested by the Sanitary Commissioner, the proposal cannot be carried out.

It is resolved that the latrine and the tank adjoining it in Pudupet will be closed at once as advised by the Sanitary Commissioner and the well be retained.

The administration report as amended will be adopted and submitted to Government.

2 The amounts will be written off the accounts.

Annual Concise Report.

DISTRICT MEDICAL & SANITARY OFFICER
No. 2878
8 - MAY 96
NORTH ARCOT
VELLORE

of the municipal Dispensary Gudiyalam
for the year 1895-96.

Public Health. Deficient rain fall during the year under report seems to have influenced the local physical conditions to an appreciable extent. The prices of staple grains were rather high, resulting from the failure of the crops. Scarcity of water was much felt. Insufficient or unsuitable food & clothing in correlation with other factors made the public health rather indifferent. The most common diseases prevalent were Fevers, Bowel complaints, ulcers, skin diseases. No epidemic of significant type broke out during the year [illegible] except a few sporadic cases of small pox and measles.

Vital Statistics.

Deaths									
Small pox	Fevers	Bowel complaints	Suicide	Wound	accident	all other causes	Total Deaths	Births	Population
13	210	34	1	1	2	209	470	824	18747

There has been marked improvement in the registration due to the falling back on the old practice of serving notices through pygushts. Mortality among children from 1 to 5 years has been rather high, as much as [illegible] half the total number of deaths.

Sanitation. Three springs were maintained by the Council in the bed of the river. Robinson tank was also of this abandoned. Springs supply

387

filthy water for drinking and cooking purposes, their surroundings can be kept much cleaner. Before any ideal scheme for water supply is practicable for this town, the Council, in order to ~~so~~ remove chronic scarcity, and to supply purer water, will do well to have recourse to any other method than excavation system. The dangers of this system became all the more palpable when we conceive for a moment that a single infectious vessel is enough to propagate the disease through water. It is a pity that tube wells do not commend themselves to the Council though they combine economy with efficiency.

The present conservancy staff is quite inadequate to cope with the work. Only [illegible] the private scavenging. Latrines are anything but feasting places of stray pigs which play a considerable havoc at them. No attempt was made to obtain sanction to kill stray pigs which are always a source of great nuisance. Dry earth heaps which were probably deposited near the latrines for cleansing them are petrified without having been utilized. Necessity under which public streets are unscrupulously converted by the people into latrines require an increase in the present number of latrines which is only thirteen. In spite of depots for depositing night soil having been selected by the undersigned in consultation with the delegate chairman no attempt has been made to cart the night soil to them, though these depots were at a convenient

Ow 173

Ow 13

distance from the municipal limits, on the other hand it is deposited unceremoniously on public streets & roads. It seems there are only three serviceable hand Carts; it is desirable that many more should be added to this number. The Sanitary Commissioner in his Inspection notes suggested the Council to abandon the use of latrine at Pudupet, but no steps have yet been taken to give effect to his suggestion. Dipping pits are found on the premises of the most of the weavers, which members are very dirty. The offensive effluvia emanating from them is highly prejudicial to the public health. It has also been observed that these men suffer mostly from diseases of the skin, ulcers and other constitutional diseases to a noticable degree and their children are anything but sickly and unhealthy. It is but natural that they should thus suffer from the fact of their living in dirty surroundings. It is therefore highly desirable that some remote place be shown to them to carry on their trade. No practical steps as yet has been taken to carry out the suggestion of the Sanitary Commissioner & extend the municipal limits.

Vaccination.

Primary Vaccination				Re-vaccination				Grand Total of Primary & Re-vaccination			
successful	unsuccessful	unknown	Total	successful	unsuccessful	unknown	Total	successful	unsuccessful	unknown	Total
679	34	9	722	26	2	-	28	705	36	9	750

51 5 3 5 5 5 3 3 5 5 3 5

5 8

The above is the result of vaccine operations done by the 2nd class vaccinator of this municipality. Dist Med Saint Officer recommended the minimum to be increased from 50 to 60 which was accordingly carried out. Hosp: asst vaccinated 20 cases with success. Vaccination is not yet a welcome thing with the people here, and it has to be pushed on with a certain amount of worry and annoyance.

Dispensary continued to be in the old thatched building till the month of April last and it was since removed to the new building which is highly accommodating though short of some supplemental requirements which require urgent attention, to wit, a cow pound wall ~~for the [illegible]~~ and a shed for the treatment of police cases.

Furniture is in a bad state of repair. Lend of the medicine almirahs have been recommended by the Dist Med: Saint officer to be auctioned and replaced by the new ones.

Out patients treated in the Dispensary for the last three years:—

Years	Number treated	Daily average	-
1893-94	8812 ✓	35.88	
1894-95	9803 ✓	40.87	
1895-96	11493 ✓	48.76	

There has been no mortality among the out patients as far as could be ascertained.

As many as 17 major and 478 minor operations

have been performed during the year with success against 74 major and 184 minor operations in the previous year.

The amt of subscription collected during the year from was Rs 15 against Rs 8 in the ~~past~~ previous year.

Midwife conducted 136 cases of labour.

The Dist Med: Sanit Officer recommended the appointment of an efficient midwife on rupees fifteen as the present one does not turn out good work; she is neither popular.

The Establishment continued to be as that of previous year without any change, and is at present quite adequate.

General Remarks. The dispensary is now removed to the new building which is cut off from habitations, and it is not possible for the Hosp: asst to secure a house within the two hundred yards of the dispensary. As a thousand rupees have been allotted to extend the school building & which are likely to lapse as the work is not being taken at hand in view of the present state of school, the same may be utilised for building the Hosp: asst's quarters.

No. 1296 M., 5TH AUGUST 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. M. SUBRAYALU CHETTI Garu, Chairman, Municipal Council, Gudiyáttam, to the Chief Secretary to Government (through the Divisional Officer, Vellore), dated Gudiyáttam, 2nd June 1896, No. 235.

I have the honour to submit the report on the working of the Gudiyáttam Municipality for the year 1895–96, as required by section 252 of Act IV of 1884.

I.—CONSTITUTION OF THE MUNICIPAL COUNCIL.

2. There were twelve councillors on the roll on the 31st March 1896 including the ex-officio ; of these twelve, three were officials and the rest non-officials. All were nominated. I held the office of Chairman till 21st February 1896 and was re-appointed on 25th March 1896.

3. The budget for the year under report was passed by the Government in their order, No. 235 M., dated 14th February 1895, and it was revised in their order, No. 301 M., dated 20th February 1896.

4. The usual statements of receipts and charges prepared in the prescribed form are herewith submitted.

II.—RECEIPTS.

5. The total receipts, including contributions from other funds and deducting the *minus* balance of Rs. 111–1–1 of the year 1894–95, amounted to Rs. 16,444–5–9.

6. The total current receipts amounted to Rs. 16,555–6–10 against Rs. 15,740 and Rs. 16,480 anticipated in the budget and the revised estimates, respectively, and Rs. 15,266–14–11, the actuals of the previous year. The increase over the revised figures is due to the increase and decrease under some of the heads as shown in Statement I.

7. The causes of variations between the actuals and the revised estimates of the year are explained below.

8. (2) *Municipal Rates and Taxes*—(*a*) *Tax on Arts, Current.*—Rs. 4,146 was the original amount fixed by the Chairman, of which Rs. 194–8–0 was remitted by the council. Hence the final settled demand was Rs. 3,951–8–0 against the revised estimate of Rs. 3,950. Rs. 3,247–8–0, or 82·1 per cent. of the net demand, was collected during the year against Rs. 3,067–8–0, or 81·2 per cent. of the previous year, and Rs. 107 has been since collected.

Arrears.—Out of Rs. 798–0–8 relating to arrears from 1890–91, alluded to in paragraph 3 (2) of G.O., No. 1499 M., dated 16th September 1895, Rs. 612–6–3 was collected and Rs. 181–8–8 was written off by the council as irrecoverable, leaving a

No. 1296 M., 5TH AUGUST 1896.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. M. SUBRAYALU CHETTI Garu, Chairman, Municipal Council, Gudiyáttam, to the Chief Secretary to Government (through the Divisional Officer, Vellore), dated Gudiyáttam, 2nd June 1896, No. 235.

I have the honour to submit the report on the working of the Gudiyáttam Municipality for the year 1895–96, as required by section 252 of Act IV of 1884.

I.—CONSTITUTION OF THE MUNICIPAL COUNCIL.

2. There were twelve councillors on the roll on the 31st March 1896 including the ex-officio ; of these twelve, three were officials and the rest non-officials. All were nominated. I held the office of Chairman till 21st February 1896 and was re-appointed on 25th March 1896.

3. The budget for the year under report was passed by the Government in their order, No. 235 M., dated 14th February 1895, and it was revised in their order, No. 301 M., dated 20th February 1896.

4. The usual statements of receipts and charges prepared in the prescribed form are herewith submitted.

II.—RECEIPTS.

5. The total receipts, including contributions from other funds and deducting the *minus* balance of Rs. 111–1–1 of the year 1894–95, amounted to Rs. 16,444–5–9.

6. The total current receipts amounted to Rs. 16,555–6–10 against Rs. 15,740 and Rs. 16,480 anticipated in the budget and the revised estimates, respectively, and Rs. 15,266–14–11, the actuals of the previous year. The increase over the revised figures is due to the increase and decrease under some of the heads as shown in Statement I.

7. The causes of variations between the actuals and the revised estimates of the year are explained below.

8. (2) *Municipal Rates and Taxes*—(*a*) *Tax on Arts, Current.*—Rs. 4,146 was the original amount fixed by the Chairman, of which Rs. 194–8–0 was remitted by the council. Hence the final settled demand was Rs. 3,951–8–0 against the revised estimate of Rs. 3,950. Rs. 3,247–8–0, or 82·1 per cent. of the net demand, was collected during the year against Rs. 3,067–8–0, or 81·2 per cent. of the previous year, and Rs. 107 has been since collected.

Arrears.—Out of Rs. 798–0–8 relating to arrears from 1890–91, alluded to in paragraph 3 (2) of G.O., No. 1499 M., dated 16th September 1895, Rs. 612–6–3 was collected and Rs. 181–8–8 was written off by the council as irrecoverable, leaving a

balance of Rs. 4–1–9 ; of this small balance Rs. 3–1–9 has been since collected and the rest will have to be written off the accounts as it is irrecoverable, since all the necessary processes have been exhausted towards the recovery of the amount.

The number of persons taxed under all classes of the schedule was 1,399 against 1,229, and the amount of profession tax was Rs. 3,951–8–0 against Rs. 3,775 of the previous year. Thus the incidence of taxation per head was Rs. 2–13–2.

9. (*b*) *Tax on Buildings, Current.*—Rs. 4,017–5–0 was the original demand, the council reduced it to Rs. 3,990–13–0, of which Rs. 2,925–8–3, or 73·3 per cent., was collected during the year under report, against Rs. 2,691, or 70·9 per cent., of the previous year, and Rs. 182–7–9 has been collected since 1st April 1896. There were in all 3,794 houses including unoccupied, of which 3,142, or 83·8 per cent. of the census number, were subject to house-tax. The average incidence of house-tax was therefore Rs. 1–4–4.

Arrears.—Out of Rs. 1,111–6–3 relating to the years 1890–91 to 1894–95, which remained uncollected on the 31st March 1895, Rs. 1,087–6–3 was collected and Rs. 21–8–0 written off by the council, as being irrecoverable, during the year 1895–96, leaving a small balance of Rs. 2–8–0 on the 31st March 1896, of which Rs. 1–8–0 has been collected since 1st April 1896 and the rest will have to be written off as irrecoverable.

10. *Tax on Lands, Current.*—The demand was fixed at Rs. 466–10–10, of which Rs. 36–4–10 was remitted by the council and Rs. 193–9–1, or 45·1 per cent., was collected during the year 1895–96, against Rs. 102–8–0, or 25·2 per cent., in the previous year.

Arrears.—Out of Rs. 359–7–9 relating to the past nine years, that is, from 1886–87 to 1894–95, Rs. 328–15–7 was collected and Rs. 29–11–4 written off during the year under report, leaving a very small balance of As. 12–10 which will have to be written off as irrecoverable.

11. Tax on buildings and lands was levied at 5 per cent. on the annual rental value, and a tax of 3 pies on every 80 square yards was charged, as usual, on unoccupied lands. The total extent of lands assessed during the year was 276 acres and 33 cents as in the previous year.

12. The registers of tax on arts, buildings and lands were revised partly during the year 1895–96.

13. *Tax on Animals, Current.*—The demand as assessed and finally settled was Rs. 582–12–0, against Rs. 700 of the revised, of which Rs. 424–12–0 was collected. The falling off under this item is due to several animals having been disposed of to outsiders on account of the unfavourable season.

Arrears.—Out of Rs. 166–10–6, Rs. 143–0–6 was collected and Rs. 23–2–6 was written off by the council, leaving a balance of As. 7–6, which is also irrecoverable and will have to be written off.

14. *Tax on Carts.*—Rs. 549 was collected against Rs. 700 of the revised. The decrease was due partly to the disposal of town carts to outsiders and partly to the change of permanent residents to out-stations.

15. *Sale of Night-soil, &c.*—For reasons explained in paragraph 9 of the revised budget, there has been a collection of only Rs. 27–4–0 under this head. The further decrease over the revised estimate is due to want of competition, as it could not be utilized for agricultural purposes owing to the failure of rains during the year.

16. *Fees from Educational Institutions.*—No accounts have been received from the municipal high school during the year about the demand of school fees for each month. Hence there is no means at present to know how much of school fees remains yet to be collected. The amount of Rs. 1,521–7–9 is only that actually remitted by the headmasters during the year against Rs. 1,300 of the revised estimate. The increase is due to the fair progress of the school and also on account of recoveries of school fees which had been in arrears.

17. *Income from Markets.*—Rs. 1,816–3–4 was collected against Rs. 1,820 of the revised estimate. The weekly market manure contractor having failed to pay the kists regularly, his contract was cancelled and resold at his risk. During its resale there was a loss of Rs. 12–4–0, which the former contractor has to pay. A warrant was issued for the recovery of the amount and the man is not to be found nor is any property of his available for distraint. The necessary steps will, however, be taken to recover the same in due course.

18. *Grants and Contributions from Government.*—Rs. 150, being the amount of furniture grant referred to in paragraph 13 of the budget report for 1896–97, was received from the Educational Department and credited to municipal funds.

19. *Private Scavenging Fees, Current.*—Rs. 56–4–0 was collected against the demand of Rs. 91–5–0, leaving a balance of Rs. 35–1–0, of which Rs. 17–4–0 has since been collected during the current year.

Arrears.—Rs. 69–14–0 was collected, and Rs. 40–9–0 was written off by the council as irrecoverable, out of a total demand of Rs. 110–7–0.

The system is now improving, the number of houses scavenged by municipal toties on the roll being 173. The provisions of section 221 are being enforced in obstinate cases. Nineteen cases were prosecuted for nuisance during the year under report.

20. The other items of receipts are more or less equal to the figures of the revised estimate and do not call for any special remarks.

III.—Expenditure.

21. The total expenditure amounted to Rs. 15,935–8–1 against Rs. 15,840 of the revised estimate.

22. *Grant I, New Works—Buildings.*—Rs. 2,259–8–6 was spent against Rs. 2,400 of the revised estimate. Though the hospital building was completed within the year under report, the balance due to the contractor was not paid to him on account of certain objections raised in passing the final bill, which is pending disposal. Hence decrease. At any rate, the amount that has to be paid to the contractor will not probably exceed Rs. 100, which will be paid as soon as the bill is finally passed by the council.

23. *Repairs to Buildings.*—Rs. 67–13–10 was spent in repairing toll-gate sheds and hospital shed. The construction of a cistern and cesspool, alluded to in paragraph 18 of the revised budget report, was not taken in hand as the council, in their meeting held on 15th February 1896, resolved not to spend money on it since the alleged owner of the said land took objection to the execution of the works. The subject is under reference with the Revenue authorities. Hence the amount of Rs. 100 was not spent.

24. The *roads* are in fair order, as would be seen from the remarks of the Sub-Collector and Collector of the district—*vide* G.O., No. 301 M., dated 20th February 1896. The total expenditure on roads during the year 1895–96 was Rs. 1,367–9–3, or 76·7 per cent. of the net municipal revenue from tolls, against a general average of 69·8 per cent. of all municipalities in 1894–95.

25. The outlay under Grant I amounted to Rs. 4,129–3–10 against Rs. 4,380 of the revised estimate.

26. *Grant II, Education.*—The standard of the middle school was raised to that of a high school in July 1895, as per G.O., Mis. No. 790 M., dated 4th May 1895. The increase of strength in the school gradually improved, and the results of the school examinations were also satisfactory, under the management of the then headmaster. On the strength of the above facts, the council proposed to open the V form, for reasons stated in paragraph 29 of the budget report for 1896–97, which the Government was also pleased to sanction in its order, No. 301 M., dated 20th February 1896. Meanwhile, the then headmaster was ordered by the Director of Public

Instruction to undergo training in the Teachers' College, Madras. He (the headmaster) accordingly started from Gudiyáttam in February last and is now undergoing training. Owing to his absence and to the indifference of his successors, the strength of the school gradually fell down, and the council had, therefore, the necessity to abolish temporarily the IV and V forms, and for the various changes in consequence thereof the necessary proposition statement has also been submitted to Government, for its sanction, with this office letter, No. 171, dated 21st April 1896. Independent of this, the strength of the other classes also has fallen on account of the admission of some Paraiya boys in the middle school.

Municipal Schools on Salary System.—Rs. 1,470–4–9 was entered against Rupees 1,500. The decrease is due to the stoppages and savings effected in the establishment pay. The average cost of educating each pupil during the year under report was Rs. 4–5–0 against Rs. 8–2–9 in the previous year.

27. The report of the Educational authorities is herewith submitted.

28. The total outlay under Grant II was Rs. 2,669–9–10 against Rs. 2,730.

29. *Grant III, Contribution to Government.*—Rs. 142 was entered against Rs. 70 of the revised estimate. The increase over the revised estimate is due to the payment of Rs. 77 and 52, against Rs. 15 and 40, to Medical College and Sanitary Inspection, respectively.

30. *Hospital.*—The report of the hospital assistant about the working of the dispensary is herewith submitted. The number of out-patients treated in the municipal dispensary was 11,493 against 9,803 of the previous year. The institution has of late been removed to the new building, which is found to be very convenient in every respect. It is hoped that the institution becomes more popular in the current year. The midwife attached to the dispensary is a trained certificated woman. The number of cases attended by her during 1895–96 was 136 against 118 of the previous year. She has been in service here from 1892.

31. *Vaccination.*—There is one second-class vaccinator on Rs. 10. The number of cases vaccinated by him was 750, of which 705 were successful, against 705 and 683 of the previous year, respectively. The greater number of unsuccessful cases was attributed to the supply of bad lymph on two occasions by the Deputy Inspector of Vaccination, Madras Municipality. The council have also raised the minimum to sixty. Eighty-two cases were reported to the magistrate for prosecution. The progress under this head will be more successful in future. Glycerine lymph was being used as usual. The hospital assistant supervises the vaccinator's work and he is given an allowance of Rs. 2 per month. He vaccinated twenty cases. All were successful.

32. *Registration.*—There is one registrar on Rs. 10. The total number of births and deaths registered during the year was 824 and 450, respectively, against 499 and 318 of the previous year. Only two prosecutions were instituted for failure to register births and deaths for reasons already stated in paragraph 32 of the last report. But now on the receipt of G.O., Mis. No. 378 M., dated 16th March 1896, the council have resolved to accord sanction for prosecution in cases of failure to report births and deaths.

33. *Sanitation.*—The sanitation of the town is fair and the several defects pointed out by the inspecting officers were remedied as far as possible. As funds permitted, a provision of Rs. 250 has been made in the current budget to increase the number of latrines as sanctioned by Government in paragraph 4 (2) of G.O., No. 301 M., dated 20th February 1896. With regard to the other suggestions of the Sanitary Commissioner embodied in G.O., No. 1237 M., dated 1st August 1895, the resolutions of the council on the subject are herewith submitted. For want of funds the conservancy staff could not be increased for the present as recommended by the Sanitary Commissioner in paragraph 2 of his letter, No. 1265, dated 16th January 1896, embodied in G.O., No. 301 M., dated 20th February 1896. One toty was added to the staff in the budget of 1896–97. Provision will be made in the next budget as funds allow.

34. *Cholera Charges.*—In reference to G.O., No. 1028 M., dated 26th June 1895, Rs. 71–9–11 was spent under this head in constructing two cholera sheds and in purchasing the required medicines, though there was no cholera during the year nor up to the date of this report.

35. The total outlay under Grant III was Rs. 5,135–15–11 against Rs. 5,070.

36. *Grant IV, Light Contingencies.*—Rs. 599–14–8 was entered against Rs. 500 of the revised estimate. The increase is due to the repair of lanterns and for painting them and also for having issued oil to more lights after their repairs.

37. *Other Charges.*—Under this item Rs. 1,070–10–5 was spent, against Rs. 800 of the revised estimate, under the following heads :—

	Rs.	A.	P.
(1) Rewards for the destruction of stray dogs and pigs ..	52	2	0
(2) Printing charges	927	14	9
(3) Law charges	45	0	0
(4) Land assessment	8	10	9
(5) Rent of cart-stand	20	0	0
(6) Numbering carts	13	4	7
(7) Other charges, such as painting jutka-stand boards, purchasing tom-tom, &c.	3	10	4
Total ..	1,070	10	5

The increase over the revised estimate is due mostly to printing and law charges. There was a greater number of meetings held during the year, and it was an unforeseen expenditure. Certain defaulters were prosecuted for non-payment of taxes. In about four or five cases out of twelve, parties contested by engaging vakils. Hence the council had the necessity to engage vakils in those cases at a cost of Rs. 45. The Government will be pleased to sanction the expenditure incurred over the revised estimate.

38. The outlay under Grant IV amounted to Rs. 2,300–4–10 against Rs. 1,950.

39. *Grant V, Purchase of Account Books, &c.*—Rs. 109–9–4 was entered against Rs. 130. This was over-estimated at the time of the revision.

40. The outlay under Grant V amounted to Rs. 1,673–5–8 against Rs. 1,710.

41. The other items of expenditure call for no special remarks.

42. The year closed with a balance of Rs. 508–13–8, or 3·07 per cent. of total receipts, against a *minus* balance of Rs. 111–1–1 in 1894–95.

43. *General Remarks.*—The balance outstanding at the close of the year under report was left uncollected for want of time, as greater attention was paid to the clearing off of the oldest arrears with greatest difficulty in reference to the remarks of the Government on the last administration report. Prompt attempts will be made to clear off the collectable amount during the current year.

44. The total average incidence of taxation per head of the population in the municipality, including and excluding tolls, was As. 9–9 and As. 8–3, respectively.

45. During the year under report thirty-five meetings were actually held against twenty-six in the previous year, while eight had to be adjourned for want of quorum against six in the previous year.

46. The total mileage of roads within the municipal limits is $19\frac{7}{32}$, the total number of miles of roads including streets maintained by the council was $12\frac{7}{32}$ and the total length of roads metalled is 7 miles.

47. The report was placed before the council on 11th June 1896 and passed (copy of resolution enclosed).

The delay of eleven days in the submission of the report is due to the absence of the permanent shroff and clerk on leave.

Instruction to undergo training in the Teachers' College, Madras. He (the headmaster) accordingly started from Gudiyáttam in February last and is now undergoing training. Owing to his absence and to the indifference of his successors, the strength of the school gradually fell down, and the council had, therefore, the necessity to abolish temporarily the IV and V forms, and for the various changes in consequence thereof the necessary proposition statement has also been submitted to Government, for its sanction, with this office letter, No. 171, dated 21st April 1896. Independent of this, the strength of the other classes also has fallen on account of the admission of some Paraiya boys in the middle school.

Municipal Schools on Salary System.—Rs. 1,470–4–9 was entered against Rupees 1,500. The decrease is due to the stoppages and savings effected in the establishment pay. The average cost of educating each pupil during the year under report was Rs. 4–5–0 against Rs. 8–2–9 in the previous year.

27. The report of the Educational authorities is herewith submitted.

28. The total outlay under Grant II was Rs. 2,669–9–10 against Rs. 2,730.

29. *Grant III, Contribution to Government.*—Rs. 142 was entered against Rs. 70 of the revised estimate. The increase over the revised estimate is due to the payment of Rs. 77 and 52, against Rs. 15 and 40, to Medical College and Sanitary Inspection, respectively.

30. *Hospital.*—The report of the hospital assistant about the working of the dispensary is herewith submitted. The number of out-patients treated in the municipal dispensary was 11,493 against 9,803 of the previous year. The institution has of late been removed to the new building, which is found to be very convenient in every respect. It is hoped that the institution becomes more popular in the current year. The midwife attached to the dispensary is a trained certificated woman. The number of cases attended by her during 1895–96 was 136 against 118 of the previous year. She has been in service here from 1892.

31. *Vaccination.*—There is one second-class vaccinator on Rs. 10. The number of cases vaccinated by him was 750, of which 705 were successful, against 705 and 683 of the previous year, respectively. The greater number of unsuccessful cases was attributed to the supply of bad lymph on two occasions by the Deputy Inspector of Vaccination, Madras Municipality. The council have also raised the minimum to sixty. Eighty-two cases were reported to the magistrate for prosecution. The progress under this head will be more successful in future. Glycerine lymph was being used as usual. The hospital assistant supervises the vaccinator's work and he is given an allowance of Rs. 2 per month. He vaccinated twenty cases. All were successful.

32. *Registration.*—There is one registrar on Rs. 10. The total number of births and deaths registered during the year was 824 and 450, respectively, against 499 and 318 of the previous year. Only two prosecutions were instituted for failure to register births and deaths for reasons already stated in paragraph 32 of the last report. But now on the receipt of G.O., Mis. No. 378 M., dated 16th March 1896, the council have resolved to accord sanction for prosecution in cases of failure to report births and deaths.

33. *Sanitation.*—The sanitation of the town is fair and the several defects pointed out by the inspecting officers were remedied as far as possible. As funds permitted, a provision of Rs. 250 has been made in the current budget to increase the number of latrines as sanctioned by Government in paragraph 4 (2) of G.O., No. 301 M., dated 20th February 1896. For want of funds the conservancy staff could not be increased for the present as recommended by the Sanitary Commissioner in paragraph 2 of his letter, No. 1265, dated 16th January 1896, embodied in G.O., No. 301 M., dated 20th February 1896. One toty was added to the staff in the budget of 1896–97. Provision will be made in the next budget as funds allow.

34. *Cholera Charges.*—In reference to G.O., No. 1028 M., dated 26th June 1895, Rs. 71–9–11 was spent under this head in constructing two cholera sheds and in purchasing the required medicines, though there was no cholera during the year nor up to the date of this report.

35. The total outlay under Grant III was Rs. 5,135–15–11 against Rs. 5,070.

36. *Grant IV, Light Contingencies.*—Rs. 599–14–8 was entered against Rs. 500 of the revised estimate. The increase is due to the repair of lanterns and for painting them and also for having issued oil to more lights after their repairs.

37. *Other Charges.*—Under this item Rs. 1,070–10–5 was spent, against Rs. 800 of the revised estimate, under the following heads:—

	Rs.	A.	P.
(1) Rewards for the destruction of stray dogs and pigs ..	52	2	0
(2) Printing charges	927	14	9
(3) Law charges	45	0	0
(4) Land assessment	8	10	9
(5) Rent of cart-stand	20	0	0
(6) Numbering carts	13	4	7
(7) Other charges, such as painting jutka-stand boards, purchasing tom-tom, &c.	3	10	4
Total ..	1,070	10	5

The increase over the revised estimate is due mostly to printing and law charges. There was a greater number of meetings held during the year, and it was an unforeseen expenditure. Certain defaulters were prosecuted for non-payment of taxes. In about four or five cases out of twelve, parties contested by engaging vakils. Hence the council had the necessity to engage vakils in those cases at a cost of Rs. 45. The Government will be pleased to sanction the expenditure incurred over the revised estimate.

38. The outlay under Grant IV amounted to Rs. 2,300–4–10 against Rs. 1,950.

39. *Grant V, Purchase of Account Books, &c.*—Rs. 109–9–4 was entered against Rs. 130. This was over-estimated at the time of the revision.

40. The outlay under Grant V amounted to Rs. 1,673–5–8 against Rs. 1,710.

41. The other items of expenditure call for no special remarks.

42. The year closed with a balance of Rs. 508–13–8, or 3·07 per cent. of total receipts, against a *minus* balance of Rs. 111–1–1 in 1894–95.

43. *General Remarks.*—The balance outstanding at the close of the year under report was left uncollected for want of time, as greater attention was paid to the clearing off of the oldest arrears with greatest difficulty in reference to the remarks of the Government on the last administration report. Prompt attempts will be made to clear off the collectable amount during the current year.

44. The total average incidence of taxation per head of the population in the municipality, including and excluding tolls, was As. 9–9 and As. 8–3, respectively.

45. During the year under report thirty-five meetings were actually held against twenty-six in the previous year, while eight had to be adjourned for want of quorum against six in the previous year.

46. The total mileage of roads within the municipal limits is $19\frac{7}{32}$, the total number of miles of roads including streets maintained by the council was $12\frac{7}{32}$ and the total length of roads metalled is 7 miles.

47. The report was placed before the council on 11th June 1896 and passed (copy of resolution enclosed).

The delay of eleven days in the submission of the report is due to the absence of the permanent shroff and clerk on leave.

ENCLOSURE.

ANNUAL Concise Report of the Municipal Dispensary, Gudiyáttam, for the year 1895–96.

Public Health.—Deficient rainfall during the year under report seems to have influenced the local physical conditions to an appreciable extent. The prices of staple grains were rather high, resulting from the failure of crops. Scarcity of water was much felt. Insufficient or unsuitable food and clothing in correlation with other factors made the public health rather indifferent. The most common diseases prevalent were fevers, bowel-complaints, ulcers, skin diseases. No epidemic of significant type broke out during the year except a few sporadic cases of small-pox and measles.

2. *Vital Statistics.*—

Deaths.									
Small-pox.	Fevers.	Bowel complaints.	Suicide.	Wound.	Accidents.	All other causes.	Total deaths.	Births.	Population.
13	210	34	1	1	2	209	470	824	18,747.

There has been marked improvement in the registration due to the falling back on the old practice of serving notices through pygusts. Mortality among children from one to five years has been rather high—as much as more than half the total number of deaths.

3. *Sanitation.*—Three springs were maintained by the council in the bed of the river. Robinson tank was altogether abandoned. Springs supply filthy water for drinking and cooking purposes; their surroundings can be kept much cleaner. Before any ideal scheme for water-supply is practicable for this town, the council, in order to remove chronic scarcity and to supply purer water, will do well to have recourse to any other method than excavation system. The dangers of this system become all the more palpable when we conceive for a moment that a single infectious vessel is enough to propagate the disease through water. It is a pity that tube wells do not commend themselves to the council though they combine economy with efficiency. The present conservancy staff is quite inadequate to cope with the work. Only 173 houses are under the private scavenging agency. Latrines are nothing but feasting places of stray pigs which play a considerable havoc at them. No attempt was made to obtain sanction to kill stray pigs which are always a source of great nuisance. Dry-earth heaps which were probably deposited near the latrines for cleansing them are putrified without having been utilized. Necessity under which public streets are unscrupulously converted by the people into latrines require an increase in the present number of latrines, which is only thirteen. In spite of depôts for depositing night-soil having been selected by the undersigned in consultation with the delegate Chairman, no attempt has been made to cart the night-soil to them, though these depôts were at a convenient distance from the municipal limits; on the other hand, it is deposited in proximity to public streets and roads. It seems there are only three serviceable hand-carts; it is desirable that many more should be added to the present number. The Sanitary Commissioner in his inspection notes suggested to the council to abandon the use of latrine at Pudupet, but no steps have yet been taken to give effect to his suggestion. Dyeing pots are found on the premises of most of the weavers, who number here very strong. The offensive effluvia emanating from them is highly prejudicial to the public health. It has also been observed that these men suffer mostly from diseases of the skin, ulcers and other constitutional diseases to a noticeable degree, and their children are sickly and short-lived. It is but natural that they should be so from the fact of their living in dirty surroundings. It is therefore highly desirable that some remote place be shown to them to carry on their trade. No positive step as yet has been taken to carry out the suggestion of the Sanitary Commissioner to extend the municipal limits.

4. *Vaccination.*—

Primary vaccination.				Re-vaccination.				Grand total of primary and re-vaccination.			
Successful.	Unsuccessful.	Unknown.	Total.	Successful.	Unsuccessful.	Unknown.	Total.	Successful.	Unsuccessful.	Unknown.	Total.
679	34	9	722	26	2	..	28	705	36	9	750

The above is the result of vaccine operations done by the second-class vaccinator of this municipality. The District Medical and Sanitary Officer recommended the minimum to be increased from fifty to sixty, which was accordingly carried out. The hospital assistant vaccinated twenty cases with success. Vaccination is not yet a welcome thing with the people here, and it has to be pushed on with a certain amount of worry and annoyance.

5. The dispensary continued to be in the old thatched building till the month of April last, and it was since removed to the new building, which is highly accommodating though short of some supplemental requirements which require urgent attention, to wit, a compound wall and a shed for the treatment of police cases.

Furniture is in a bad state of repair. Two of the medicine almirahs have been recommended by the District Medical and Sanitary Officer to be auctioned and replaced by new ones.

Out-patients treated in the dispensary for the last three years:—

Years.	Number treated.	Daily average.
1893–94	8,812	35·88
1894–95	9,803	40·87
1895–96	11,493	48·76

There has been no mortality among the out-patients as far as could be ascertained.

As many as seventeen major and 478 minor operations have been performed during the year with success, against four major and 184 minor operations in the previous year. The amount of subscriptions collected during the year was Rs. 15, against Rs. 8 in the previous year.

The midwife conducted 136 cases of labour. The District Medical and Sanitary Officer recommended the appointment of an efficient midwife on Rs. 15, as the present one does not turn out good work; she is neither popular. The establishment continued to be as that of previous year without any change, and is at present quite adequate.

6. *General Remarks.*—The dispensary is now removed to the new building which is cut off from habitations, and it is not possible for the hospital assistant to secure a house within the two hundred yards of the dispensary. As a thousand rupees have been allotted to extend the school building, and which are likely to lapse, the work not being taken in hand in view of the present state of the school, the same may be utilised for building the hospital assistant's quarters.

GUDIYATTAM,
5th May 1896.

ENCLOSURE.

ANNUAL Concise Report of the Municipal Dispensary, Gudiyáttam, for the year 1895-96.

Public Health.—Deficient rainfall during the year under report seems to have influenced the local physical conditions to an appreciable extent. The prices of staple grains were rather high, resulting from the failure of crops. Scarcity of water was much felt. Insufficient or unsuitable food and clothing in correlation with other factors made the public health rather indifferent, The most common diseases prevalent were fevers, bowel-complaints, ulcers, skin diseases. No epidemic of significant type broke out during the year except a few sporadic cases of small-pox and measles.

2. *Vital Statistics.*—

Deaths.									
Small-pox.	Fevers.	Bowel complaints.	Suicide.	Wound.	Accidents.	All other causes.	Total deaths.	Births.	Population.
13	210	34	1	1	2	209	470	824	18,747.

There has been marked improvement in the registration due to the falling back on the old practice of serving notices through pygusts. Mortality among children from one to five years has been rather high—as much as more than half the total number of deaths.

3. *Sanitation.*—Three springs were maintained by the council in the bed of the river. Robinson tank was altogether abandoned. Springs supply filthy water for drinking and cooking purposes; their surroundings can be kept much cleaner. Before any ideal scheme for water-supply is practicable for this town, the council, in order to remove chronic scarcity and to supply purer water, will do well to have recourse to any other method than excavation system. The dangers of this system become all the more palpable when we conceive for a moment that a single infectious vessel is enough to propagate the disease through water. It is a pity that tube wells do not commend themselves to the council though they combine economy with efficiency. The present conservancy staff is quite inadequate to cope with the work. Only 173 houses are under the private scavenging agency. Latrines are nothing but [illegible] places of stray pigs which play a considerable havoc at them. No attempt was made to obtain sanction to kill stray pigs which are always a source of great nuisance. Dry-earth heaps which were probably deposited near the latrines for cleansing them are putrified without having been utilized. Necessity under which public streets are unscrupulously converted by the people into latrines require an increase in the present number of latrines, which is only thirteen. In spite of depôts for depositing night-soil having been selected by the undersigned in consultation with the delegate Chairman, no attempt has been made to cart the night-soil to them, though these depôts were at a convenient distance from the municipal limits; on the other hand, it is deposited in proximity to public streets and roads. It seems there are only three serviceable hand-carts; it is desirable that many more should be added to the present number. The Sanitary Commissioner in his inspection notes suggested to the council to abandon the use of latrine at Pudupet, but no steps have yet been taken to give effect to his suggestion. Dyeing pots are found on the premises of most of the weavers, who number here very strong. The offensive effluvia emanating from them is highly prejudicial to the public health. It has also been observed that these men suffer mostly from diseases of the skin, ulcers and other constitutional diseases to a noticeable degree, and their children are sickly and short-lived. It is but natural that they should be so from the fact of their living in dirty surroundings. It is therefore highly desirable that some remote place be shown to them to carry on their trade. No positive step as yet has been taken to carry out the suggestion of the Sanitary Commissioner to extend the municipal limits.

4. *Vaccination.*—

Primary vaccination.				Re-vaccination.				Grand total of primary and re-vaccination.			
Successful.	Unsuccessful.	Unknown.	Total.	Successful.	Unsuccessful.	Unknown.	Total.	Successful.	Unsuccessful.	Unknown.	Total.
679	34	9	722	26	2	..	28	705	36	9	750

The above is the result of vaccine operations done by the second-class vaccinator of this municipality. The District Medical and Sanitary Officer recommended the minimum to be increased from fifty to sixty, which was accordingly carried out. The hospital assistant vaccinated twenty cases with success. Vaccination is not yet a welcome thing with the people here, and it has to be pushed on with a certain amount of worry and annoyance.

5. The dispensary continued to be in the old thatched building till the month of April last, and it was since removed to the new building, which is highly accommodating though short of some supplemental requirements which require urgent attention, to wit, a compound wall and a shed for the treatment of police cases.

Furniture is in a bad state of repair. Two of the medicine almirahs have been recommended by the District Medical and Sanitary Officer to be auctioned and replaced by new ones.

Out-patients treated in the dispensary for the last three years:—

Years.	Number treated.	Daily average.
1893-94	8,812	35·88
1894-95	9,803	40·87
1895-96	11,493	48·76

There has been no mortality among the out-patients as far as could be ascertained.

As many as seventeen major and 478 minor operations have been performed during the year with success, against four major and 184 minor operations in the previous year. The amount of subscriptions collected during the year was Rs. 15, against Rs. 8 in the previous year.

The midwife conducted 136 cases of labour. The District Medical and Sanitary Officer recommended the appointment of an efficient midwife on Rs. 15, as the present one does not turn out good work; she is neither popular. The establishment continued to be as that of previous year without any change, and is at present quite adequate.

6. *General Remarks.*—The dispensary is now removed to the new building which is cut off from habitations, and it is not possible for the hospital assistant to secure a house within the two hundred yards of the dispensary. As a thousand rupees have been allotted to extend the school building, and which are likely to lapse, the work not being taken in hand in view of the present state of the school, the same may be utilised for building the hospital assistant's quarters.

GUDIYATTAM,
5th May 1896.

2. Thirty-five meetings were held by the municipal council against 26 in 1894–95, and eight others were adjourned for want of a quorum against six in that year. The average attendance of the members, both officials and non-officials, declined and was poor. The Government trusts that the councillors will in future be more attentive to this part of their duties.

3. *Receipts.*—(1) Owing to the partial revision of assessments under the principal taxes, the net current demand under the taxes on arts and buildings rose from Rs. 3,775 and Rs. 3,795 to Rs. 3,951 and Rs. 3,991, respectively. That under the tax on lands, however, showed no material advance. It is observed that the incidence under the first two heads is much below the general average for municipalities in 1894–95. The revenue from these sources is evidently capable of further development, and every endeavour should be made to secure this end.

(2) Although coercive measures were adopted to a much smaller extent than in 1894–95, the arrear collections were satisfactory. The current collections, however, especially those under the tax on lands, were bad. It is hoped, now that the arrears have been practically cleared off, that prompt measures will be adopted to realize the whole demand including arrears in the current year.

(3) There was a decline in the receipts from the taxes on animals and carts, tolls and sale of sweepings, which is explained in paragraphs 13 to 15 of the Chairman's report. The income from school-fees, however, showed a large increase, which is satisfactory. In this connection the municipal council's attention will be drawn to the Revenue Divisional Officer's remarks in his endorsement which should have specifically stated the irregularities found to have been committed in the collection of school-fees.

(4) The number of houses served by the private scavenging agency rose from 63 to 173, and the service was worked at a profit of Rs. 6 to the municipal council. Seeing, however, that over 3,000 houses are assessed to the tax on buildings, the progress made was very slow. The report does not contain any information as to the action taken by the municipal council in this matter, though the Chairman was specially directed to do this in paragraph 3 (5) of G.O., No. 1499 M., dated 16th September 1895. This omission is very unsatisfactory and should be supplied without delay. The Chairman should also state why the repeated instructions of Government regarding the collection of fees for this service in advance have not been followed.

4. *Expenditure*—(1) *Public Works.*—A sum of Rs. 2,064 was spent on the new hospital building which was completed during the year. The expenditure on communications was Rs. 1,368, or 77·6 per cent. of the net municipal income from tolls, and the town roads are reported by the Revenue Divisional Officer to have been in good order.

(2) *Education.*—The net expenditure on education was Rs. 869, or 7·6 per cent. of the income from taxation, and all but Rs. 32 of this sum was devoted to primary education. The standard of the secondary school on the salary-result system was raised to that of a high school and a primary school for Muhammadans was opened during the year, so that on the 31st March 1896 there were a high school and four primary schools maintained by the municipal council against one secondary and three primary schools in the previous year. Taken together, the attendance at the old schools showed some improvement, while at the new school it was poor. The council also aided two primary schools with result grants against three in the previous year. The examination results of the municipal and aided schools were good. But it is to be regretted that about one-half of the allotment for result grant was allowed to lapse and that the total number of boys under instruction in the municipal and aided schools was only 357, or 25·8 per cent. of the male population of school-going age, against the general average of 54·3 per cent. for municipalities in 1894–95. It is also unsatisfactory to note that no steps were taken by the council to compel the managers of the aided schools to employ trained men as teachers. This should be attended to in the current year. It is only by strict measures that improvement in this direction can be attained.

(3) *Medical Relief.*—Owing to the growing popularity of the municipal dispensary, the number of patients treated at it rose from 9,803 to 11,493. The

midwife attached to this institution attended 136 cases of labour against 118 in the previous year. The municipal council's attention will be called to the remarks and suggestions contained in paragraphs 5 and 6 of the medical officer's report.

(4) *Vaccination and Vital Statistics.*—Notwithstanding the remarks of Government in the reviews of the reports for the last three years, vaccination made no material advance. The number of operations rose from 722 to 770, but the quality of the work turned out deteriorated. Infantile vaccination also was worse than in 1894–95, the number of children under one year successfully vaccinated being only 23·5 per mille of the population, against 24·1 per mille and a registered birth-rate of 44 per mille. This is very unsatisfactory and requires explanation, which should be submitted through the Collector. It is presumed that the attention of the President, Municipal Commission, was drawn to the bad quality of the lymph supplied on two occasions from the Madras depôt.

The registration of births and deaths improved, and the birth returns may now be regarded as very fairly accurate, but the death registers appear to be still incomplete. Increased attention should be paid to this branch of registration in future.

(5) *Sanitation.*—Nearly the whole of the allotment under this head was utilized and the expenditure amounted to 20·5 per cent. of the current receipts. The Government is glad to observe from paragraph 33 of the Chairman's report that some improvement has been effected in the sanitary condition of the town since it was last inspected by the Sanitary Commissioner and hopes that the council will take steps to remove all the remaining defects pointed out by him, as funds permit. It is evident, however, from the remarks of the medical officer in paragraph 3 of his report that very much still remains to be done to put things into satisfactory order. The subject of destroying the stray pigs which frequent the latrines calls for very early attention, as does also the matter of the deposit of night-soil.

5. *General Remarks.*—The year closed with a balance of only Rs. 509, or 3·1 per cent. of the current receipts. The excess expenditure incurred over the sanctioned allotment (not over the revised estimate as stated by the Chairman) under Grant IV will be admitted in the accounts. The charges for printing appear excessive for so small a municipality; the charges under this head seem to call for careful scrutiny.

In some respects the administration of the municipality showed an appreciable improvement on that of the previous year, but, as a great deal remains to be done in regard to the collection of taxes, private scavenging, education, vaccination, registration of deaths and sanitation, it cannot yet be regarded as efficient.
