Govern.t

No. 4225

From

The Officiating Chief Engineer

To,

The Military Auditor General

Sir,

I have the honor to forward for submission to Government, the accompanying letter from the District Engineer Nellore with a Medical Certificate, recommending Sub Conductor P. J. Shannon a Sub Overseer 2nd Class 1st Grade for leave of Absence for two Months.

The Chief Engineer has hitherto granted leave to Subordinate Officers up to the grade of Assistant Overseers, but as Mr. Shannon bears a Warrant rank it is doubtful whether the Government is not the only competent authority to sanction the leave. The question has been referred to Government, with reference to Extract Minutes Consultation No. 1219, under date the 8th Ultimo, but as no decision has yet been passed, I consider the best course to be to submit the application to Govern^t.

No. 3934

From
The Officiating Chief Engineer

To
The Secretary
to Government D.P.W.

Sir,

I have the honor to submit the following particulars connected with Lieutenant E. L. Hankins' case for the consideration and orders of Government.

2. Lieutenant Hankin was attached to the District of Canara as 4th Class Executive Engineer and ceased to do duty in the Department from the 21st April 1857 in consequence of illness. In the Official Gazette of the 26th May 1857 he was permitted to proceed to Europe on Medical Certificate for 15 Months, and to embark from the Western Coast. The Civil Auditor has refused to pass any salary from 21st April to 25th May 1857 because he considers him as having been absent without leave since no leave was granted him for that period officially.

I

To Govt 23 Sept 58 No 3934

M 2233/58

3.

I beg herewith to submit Copies of the Medical Certificates granted him, from which it will be observed that he was actually very sick during the period noticed above, and to request that the Government will be pleased to grant him retrospective leave from the 21st April to 25th May 1857, in order that the Civil Auditor may pass to him such portion of his salary as he may be entitled to receive under the Rules for that period. —

No. 172

District Engineers Office
Bellary 27th September 1858.

From

Lieutenant J. F. Fisher
District Engineer of Bellary

To

The Chief Engineer D. P. W.
Fort Saint George

Sir

I have the honor to acknowledge receipt of a circular from your Office No. 110 dated 21st September 1858 drawing the attention of all District Engineers to the standing orders of the Department page 188 of the Circular order book.

2 With reference to the subject therein brought to consideration, I have the honor to report that this season has been generally most unfavorable and already the Collector has addressed the Government on the advisability and necessity of giving relief to the suffering population by undertaking famine roads.

3 The Toongabudra as usual has been flowing throughout the season but no heavy continuous floods have passed down it this year: the most remarkable circumstance of the season with reference to

to

to this river is that during the latter half of the month of August, the river fell very rapidly and was fordable for a few days but soon afterwards it rose again and the supply has been pretty uniform that is about 3 ft. on the Register.

4 One heavy fresh passed down the Huggry towards the end of May, that river has had no water in it since, and was reported to be perfectly dry in August. When I crossed it at Mokah about two inches of water was trickling down its bed.

Heavy freshes passed down the Pennar in May and June, and again towards the end of August, and commencement of this month. In July, when I saw this river it was quite dry, but this river is said to receive its supply during the approaching monsoon.

6 Of the Kindree river there are no reports.

7 Of the tanks of this District many of the larger ones received little or no supply of water, but singular to say the Anuntapore tank was almost filled by an early fall of rain whereas the usually far better supplied tank of Singanamullah immediately below it, received a very moderate supply. When I saw the Bookaputnum tank in July, it had but two months water in it, and the Durmaverum Tank was said to be equally badly off. Captain Syme however reports that there has been a steady fall of rain during this month, and I am in hopes the sub Collectorate has been preserved from famine.

8 The state of affairs in the western talooks is very bad, the large tank of Dansikenaram was quite dry a few days ago, and it has only lately received a 15 days supply of water. The Darojee tank has only 20 days supply of water in it at present; and threatens soon to be dry: the sub Engineer told me the other day that in the Hurpanhully talook there was but one tank which had received a full supply this season.

9 The Camlapoor tank has been kept nearly full during this season from the Toongabudra river.

10 In the Adoni goolliam and Punchapah

Punchapaliam Talooks sufficient rain has fallen to enable the people to plant their dry crops. In the Raydroog talook and that part of the Durmaverum talook lying between the rivers Pennar and Huggry, there has been a moderate supply of rain, but in the western talooks Bellary and Kumply there has been a great failure.

11 Last year was a bad year, this year threatens to be as bad if not worse, and I see nothing for it now but to set to work and cut the Toongabudra canal at once. the surveys and levels for this are finished and will soon be plotted and if the project were to cost One million sterling, I believe it would return 50 to percent on the outlay.

Fort St. George

Sir,

I have the honor to acknowledge receipt of the order of Government marginally noted, directing that arrangements be made without delay for the dispatch of certain Public Works Stores by the "Australian" to Negapatam and Cuddalore, and to inform you that in communication with the Chief Engineer the dispatch of these Stores had already been decided on, the Steamer touching at those two ports for no other purpose than to land them.

The Chief Engineer was yesterday requested to ship them on the 11th.
