ORDER—dated 16th February 1888, No. 408 A L., Local and Municipal.

The reports of the several District Boards for 1886-87 having been separately reviewed in the Proceedings read above, the Government now proceed to consider them collectively.

2. As regards the dates on which these reports were submitted, it is satisfactory to note that there was much improvement as compared with the previous year. But, nevertheless, only five (from South Arcot, Anantapur, Chingleput, Malabar and Nilgiris) were received within the prescribed date, viz. the 15th of July, while one (from Cuddapah) was more than two months, and the last (from Vizagapatam) nearly three months behind time. The Government trust that arrangements will be made in future not only to submit the reports more punctually, but also to make the accompanying statements complete in every respect, so as to avoid the frequent calls for explanation of discrepancies and for further information which now greatly delay the preparation of the general review.

## I.—GENERAL.

3. *Administration.*—The year under review was the second in which the Madras Local Boards Act V of 1884 was in operation. The administrative system introduced by that Act was completed in most districts by the constitution of Taluk Boards and Village Unions. Steps had been taken towards the formation of these bodies in 1885-86

(*vide* G.O., 4th July 1887, No. 1276 L, paragraph 5), but none of them had actually commenced work in that year. At the close of 1886-87 there were 66 Taluk Boards and 136 Unions at work: 17 more Taluk Boards and 77 Unions, which were constituted during the year, commenced work only in 1887-88. Rules for the guidance of Local Boards and their agents and officers in matters connected with the carrying out of the provisions of the Act, and for the election of members of District Boards by the Taluk Boards, were passed during the year under review, but did not come into force until after its close.

G.O., dated 26th June 1886, No. 721 L.F.
„ „ 28th January 1887, No. 196 L

4. *District Boards.*—These continued to be 21 in number, corresponding with the mofussil Collectorates, as required by the Act. Appendix I shows the constitution of the various Boards and the attendance at meetings. On the 31st March 1887, there were 585 members on these Boards, out of a sanctioned maximum strength of 752 members. All these members were appointed by Government; but under the rules above referred to half the members of each District Board will eventually be elected by the Taluk Boards, except in the districts of Kurnool and Nílgiris where no Taluk Boards exist. The South Canara and Ganjam District Boards had less than the minimum strength of 24 members prescribed by the Act, but the vacancies have since been filled up. Of the total number of District Board members, 146 were officials and 439 non-officials, against 148 and 459 respectively in the previous year. Each Board had thus on an average 28 members, of whom 7 were officials and 21 non-officials, the corresponding figures of 1885-86 being 7 and 22. The Boards held in all 240 meetings during the year, against 279 in 1885-86, and the average number of meetings for each Board thus fell from 13 to 11—a decrease which may be accounted for by the establishment of Taluk Boards and the consequent diminution of the District Boards' work. The largest number of meetings during the year (20) was held by the Trichinopoly District Board; the smallest by the Boards of Cuddapah (7), Tinnevelly (7), South Canara (8), Salem (8), and Chingleput (9). It is to be regretted that in Coimbatore and Tanjore 2 and 6 meetings respectively had to be postponed for want of a quorum. A similar complaint is made in Kurnool, but the number of postponed meetings has not been stated by the President. The average attendance for all Boards was 11 members at each meeting (2 officials and 9 non-officials) against 12 members (3 officials and 9 non-officials) in 1885-86. It was good in North Arcot and Bellary, being over one-half of the total strength, and poor in Coimbatore, Ganjam, Nellore, Tanjore and Trichinopoly, where it was a third or less of the number of members. The attendance of the official members was very poor in Chingleput and Malabar; that of the non-official members was, with certain exceptions which have been brought to notice in reviewing the individual reports, on the whole satisfactory.

5. *Taluk Boards.*—Appendix II shows the constitution and attendance of the Taluk Boards at work during the year. These were 66 in number, working in 15 districts. In Madura the Melúr taluk, the Tirushuli division, and the portion of the Madura taluk lying north of the Vaigai were under the direct control of the District Board—an arrangement which has, however, since been altered; in every other case the whole of the district was sub-divided into Local Fund taluks. In Kurnool and the Nílgiris the introduction of Taluk Boards is not contemplated for the present. In the remaining four districts * Boards were formed during the year, but did not commence working. The 66 Taluk Boards at work on the 31st March 1887 consisted of 851 members, of whom 244 were officials and 607 non-officials. Each Board had thus on an average 13 members—4 officials and 9 non-officials. These Boards held in all 589 meetings, the average attendance at each meeting being 7 members—2 officials and 5 non-officials. Considering that the year under review was the first in which the Boards began to work, and that in many cases they were started late in the year, the attendance of members and the number of meetings was on the whole satisfactory.

6. *Unions.*—The names of the Village Unions constituted up to the close of the year are given in two lists in Appendix III. Those actually at work within the year are entered in List I. They are 136 in number, distributed among twelve districts, as shown below:—

| | | | |
|---|---|---|---|
| Anantapur | 9 | Kistna | 15 |
| North Arcot | 7 | Kurnool | 1 |
| South Arcot | 7 | Madura | 28 |
| Bellary | 10 | Salem | 8 |
| Chingleput | 11 | Tanjore | 1 |
| Cuddapah | 16 | Tinnevelly | 23 |

Unions in which house-tax was levied are marked in the Appendix with an asterisk. Seventy-seven unions commenced work only during the current year and those are shown in List II. They belong to the following districts:—

| | | | |
|---|---|---|---|
| Coimbatore | 16 | Tanjore | 17 |
| Ganjam | 11 | Trichinopoly | 7 |
| Godávari | 1 | Vizagapatam | 11 |
| Nellore | 14 | | |

The districts in which no unions had been constituted up to the close of the year are Malabar, South Canara and Nílgiris. The unions actually at work raised from house-tax, and from market, pandal and other fees an income of Rs. 39,920 which was supplemented by grants amounting to Rs. 40,284 from District and Taluk funds as shown in the following paragraph. The receipts and charges of the Unions in each district are shown in detail in Appendix XXIII. Their work is at present mainly confined to sanitation and the construction and repair of village streets, and they appear in most cases to have made a good beginning. The power of appointing the Chairmen and Members of the Union Panchayats, which has since been made over to the Presidents of District Boards, was retained by Government during the year under review. Care was taken to select non-official Chairmen whenever possible, and Presidents were instructed not to nominate revenue officers except under special circumstances. Future reports should contain a statement similar in form to Appendix II, but omitting the last three columns (average attendance of members), to show the constitution of the Panchayats.

7. *Financial Position.*—Appendices IV and V furnished by the Accountant-General, show in detail the receipts and charges of the several Local Boards, including the Union Panchayats, while Appendix VI shows briefly their financial position. The following abstract compares the total results for all the Local Boards with those of the previous year:—

| Closing balance | 20,57,285 | 15,38,449 | 7,57,505 | 1,433 | 22,97,387 |

* This deficit balance was the amount standing against the Arcot market (North Arcot District) which was transferred to the local Union.

Excluding debt heads (Rs. 11,616) and contributions from the Local Boards of one district to those of another (Rs. 2,576), the actual receipts amounted to Rs. 60,83,335 against Rs. 60,40,686 in 1885-86, and the charges to Rs. 58,31,433 against

Rs. 58,19,675. The year closed with a balance of Rs. 22,97,387 or 38 per cent. of the actual receipts, of which Rs. 3,00,906 appertained to endowed institutions in charge of the several Local Boards, and Rs. 1,01,821 to the Railway Guarantee Fund under the control of the Tanjore District Board. All the districts closed the year with balances to their credit, and these exceeded a lakh in South Arcot (Rs. 1,77,793), Bellary (Rs. 1,10,035), Coimbatore (Rs. 1,08,680), Godávari (Rs. 1,60,902), Kistna (Rs. 3,14,559), Madura (Rs. 2,35,560), Malabar (Rs. 1,66,472), Salem (Rs. 1,22,380), Tanjore (Rs. 1,86,727) and Tinnevelly (Rs. 1,75,233). In Coimbatore and Tanjore the balance belongs very largely to endowments (including in the latter district the Railway Guarantee Fund). In South Arcot money is required for the reconstruction of bridges destroyed by the floods of 1884-85; in Tinnevelly for the erection of an iron girder bridge across the Támraparni at Srívaikuntham; and in Malabar to meet the expenditure on the Irrity and Merampoya bridges. In the remaining districts such large balances are not required, and they should be reduced as soon as possible by increased expenditure on works of public utility.

8. *District and Taluk Funds.*—The following are the principles on which distribution of receipts and charges between District and Taluk Boards is generally made:—

Taluk Boards receive half the land-cess; the whole receipts from schools, markets, choultries, dispensaries and other institutions under their control; and other miscellaneous receipts. In South Canara, South Arcot and Coimbatore, they also receive a share of the toll revenue. The other receipts, excepting those derived from house-tax, market-fees, &c., in Unions, are credited to the District Board. The regular Taluk receipts are, however, in many cases supplemented by special allotments from the District fund. As regards expenditure, the District Boards are responsible for the main lines of communication; for normal schools and educational inspection charges; all charges connected with vaccination; contributions to the municipality for dispensaries at the head-quarter town; the District Medical and Sanitary Officers' establishments; contributions to Government for the Medical College, &c.; and the greater part of the charges under Grant IV. Taluk Boards have to provide for minor roads, avenues, bungalows, &c.; all education charges except those borne by the District Board; the upkeep of dispensaries; conservancy charges in all villages other than Unions; and the cost of the establishments under their own control. The cost of the Engineering establishment is divided between District and Taluk Boards in proportion to their outlay on public works.

9. *Taxation.*—Appendix VII shows the incidence of Local Fund taxation per head of the population in each district according to the census of 1881. The average for the Presidency was the same as in 1885-86, being As. 2-10 including and As. 2-6 excluding tolls. Taxation was lightest in Malabar (As. 2-1 per head including tolls) and heaviest in Nílgiris (As. 9-11). The circumstances of the latter district are peculiar, and in only one other district, viz., Kistna (As. 4-10), was the incidence, including tolls, in excess of As. 4 per head.

## II.—RECEIPTS.

10. *Opening Balances.*—Appendix VIII shows the total receipts of all Local Boards under the several heads compared with the budget estimates for the year and the actuals of 1885-86. The year opened with a balance of Rs. 20,57,285 against the budget estimate of Rs. 12,65,200. The increase over the budget was large in Madura (Rs. 1,37,305), Tanjore (Rs. 1,30,781), Kistna (Rs. 99,381), Malabar (Rs. 91,390), Godávari (Rs. 84,522), Tinnevelly (Rs. 63,852), Kurnool (Rs. 42,884) and Trichinopoly (Rs. 38,157), and was generally due to enhanced receipts under land-cess and to short expenditure on public works in 1885-86. There was a decrease, as compared with the budget estimate, in five districts, but it did not exceed Rs. 10,000 in any.

11. The *current receipts* amounted to Rs. 60,83,335 against Rs. 60,40,686 in the previous year. The following abstract shows the receipts under the several heads compared with those of the previous year:—

| Total | 60,40,686 | 60,83,335 | 100·00 | 100·00 |

12. *Land-cess.*—The cess on land was levied at the rate of two annas per rupee of the annual rent value in Malabar, and at one anna in the other districts, except South Canara and Godávari, where it was one anna and three pies, and nine pies respectively. In South Canara the rate was formerly one anna, but it was raised during the year under review owing to the financial necessities of the Board. This tax is by far the most important source of local revenue. The collections thereunder amounted to Rs. 42,87,141, or 70·47 per cent. of the entire receipts of the year, against Rs. 44,42,936 or 73·55 per cent. in 1885-86. The decrease of Rs. 1,55,795 was the net result of a falling off amounting to Rs. 2,47,225 in fourteen districts, and of an increase of Rs. 91,430 in seven others. The decrease was large in Cuddapah (Rs. 41,059), Bellary (Rs. 37,000), Trichinopoly (Rs. 31,743), Tanjore (Rs. 30,663), Chingleput (Rs. 24,905), Tinnevelly (Rs. 17,450), Coimbatore (Rs. 16,821), Kurnool (Rs. 15,200), Anantapur (Rs. 13,872) and Godávari (Rs. 13,324), and was due, except in Bellary, Tinnevelly and Coimbatore, to the collections of 1885-86 having included a large amount of arrears. The decrease in Bellary is explained by the fact that the revenue of 1885-86 was abnormally raised by a change in the kistbundi instalments by which a large sum which would have been otherwise payable in 1884-85 fell due in that year. In Tinnevelly it was due to a fall in the demand and to slowness in collection owing to the unfavorable character of the season. The decrease in Coimbatore has not been explained. The increase was large in North Arcot (Rs. 25,027), Salem (Rs. 15,736), Ganjam (Rs. 15,327), South Canara (Rs. 15,170) and Nellore (Rs. 12,076). In North Arcot it was due to a corresponding increase in the land revenue demand and to the collection of the entire arrear and current demand of the Kálahasti zemindari. In Salem and Ganjam it was due to prompt collections; in South Canara to the raising of the rate by three pies from fasli 1296; and in Nellore partly to greater energy in collection, and partly to increased rates under the Sangam project.

13. Appendix IX shows the demand, collection and balance of the cess, the rates at which it was levied, and the percentage of collection to demand in the several districts. According to this statement, which has been compiled from the district returns, the total collections amounted to Rs. 42,77,307, or Rs. 9,834 less than the amount given above, which has been adopted from the Accountant-General's statements. The difference is, as usual, due to the fact that the Accountant-General's

figures, which are compiled from the treasury accounts, show the total collections during the year, including the sums paid in advance for 1887-88, while the demand, collection and balance statements received from the districts show only the collections appertaining to the year under review and those preceding it. In fourteen districts the percentage of collections to demand was higher, and in five * lower, than in 1885-86. It is satisfactory to note that the total collections of all the districts amounted to 91 per cent. of the demand against 90 per cent. in the previous year, while, taking the current collections alone, the percentage to demand was 93 against 91. The improvement in Ganjam was specially marked, the percentage of total collections having risen from 76 to 93. As in 1885-86, collections were best in South Canara and Malabar, being 99 per cent. of the demand in each case; Madura comes next with 97 per cent. against 94 in the previous year. On the other hand the percentage in Cuddapah fell from 83 to 76, owing to slack collections. The total amount written off the accounts as irrecoverable, chiefly in Nellore, Anantapur, Bellary and Kistna, was Rs. 7,743 against Rs. 13,016 in the previous year.

14. *Tolls.*—Appendix X shows the statistics of tolls. During the year under review tolls were collected at 213 stations against 191 in the previous year. Ten additional toll-gates were opened in the districts noted in the margin; the five gates on the Kullar-Gúdalúr road (Nílgiris) which is in charge of the Public Works Department were included in the District Board's accounts, as the tolls were levied under the Local Boards Act; and seven supplementary gates at the three towns of Polláchi (Coimbatore), Cumbum (Kurnool), and Pálkonda (Vizagapatam) were separately classed for the first time. Several gates, in the districts noted in the margin, were removed to better localities so as to catch traffic which hitherto evaded the payment of tolls. At 88 gates tolls were levied at the maximum schedule rates, and at the remaining 125 gates at half rates. The total gross revenue under this head amounted to Rs. 5,67,520 against Rs. 5,00,442 in the previous year, the increase being due chiefly to the additional gates above referred to. South Arcot is the only district in which the District Board collects the bulk of its tolls by departmental agency. In the remaining 16 districts in which tolls are levied the gates are mainly or entirely leased out by auction to contractors. Of the total receipts, Rs. 4,59,828, or 81 per cent., were realized from the Local Fund toll-gates, and the remainder was contributed by municipalities as the Local Fund share of the tolls levied on trunk roads passing through them. In North Arcot, Bellary, Godávari and Tanjore the Local Boards maintained no toll-gates of their own, and derived the whole of their income from municipal contributions. The Anantapur, Kistna, Kurnool, and Vizagapatam Boards maintained only four gates each; the Chingleput Board five; and the Madura Board six; while the Malabar, South Arcot and Cuddapah Boards had as many as 35, 28 and 24 gates, respectively. In Appendix IV the Local Fund toll receipts of the Kurnool district are shown as Rs. 5,520, whereas in the District Board's account only Rs. 3,405 are shown under this head, Rs. 2,102 of the balance being entered as contribution from the Kurnool municipality and Rs. 13 as ferry receipts. The Local Fund toll receipts of the Vizagapatam district are shown in the same statement as Rs. 5,269, whereas the amount given in the District Board's accounts and report is Rs. 5,469, there being a corresponding decrease of Rs. 200 under Markets. The Presidents concerned are requested to explain these discrepancies.

15. Deducting Rs. 31,225 contributed to Provincial and Municipal funds and Rs. 17,696 spent on establishments, works, &c., the net receipts from tolls for all districts amounted to Rs. 5,18,599, or Rs. 28-6 per mile of road maintained by the Local Boards. The cost of the upkeep of these roads being Rs. 105-3 per mile, nearly 27 per cent. of the outlay was thus recouped by tolls. In North Arcot, Godávari and Nellore the portion of the road expenditure thus covered was below 10 per cent., while in South Arcot, South Canara and Nílgiris it was 54, 64 and 64 per cent. respectively.

16. *House-tax.*—This tax, which was leviable under the old Act in connection with education, but was held in abeyance for some years, has been reimposed under the new Act in Village Unions to provide funds for their administration. During the year under review arrangements were made by the District Boards concerned for its imposition in 66 of the principal Unions, but it was actually levied in 53 Unions only, viz., at the maximum schedule rates in 18, at three-fourths rates in 4, and at half rates in the remaining 31. The proceeds of the tax in each Union were placed at the disposal of the Panchayat concerned for expenditure on sanitation. The revival of this tax was necessarily somewhat unpopular at the outset, but the Government believe that the feeling against it will die away when it is clearly understood that the whole of the proceeds will be devoted to local wants. In fact in many places it will simply take the place of a contribution that had been voluntarily paid to private sanitary associations. The principles which have guided the Government in this matter have been clearly explained in G.O., 15th June 1887, No. 1115 L., and they need only repeat now that the initiative in regard to the imposition of the tax has been left entirely in the hands of the District Boards, and that so far from exercising any pressure on the Boards, the Government have in some cases found it necessary to restrict their proposals. His Excellency the Governor in Council, however, does not wish it to be understood that the Government disapprove the tax. On the contrary they believe that it is very necessary and that it will not prove oppressive; but they desire to confine it to places where it is clearly wanted, where it can be well spent, and where accordingly the benefits of the Union organisation can make it appreciated by the taxpayers. Appendix XI shows the demand, collection and balance of this tax, and other particulars connected with it. According to this statement, the total demand of the year amounted to Rs. 54,019, of which only Rs. 36,965, or 68 per cent., were collected, against Rs. 57,200 anticipated in the budget. This sum differs from that shown in the statement in para. 11 by Rs. 426. In North Arcot Rs. 22, being fees &c., collected in the Unions, were erroneously included under House-tax in Appendix IV; the President of the District Board, Tinnevelly, will be requested to explain the remaining difference of Rs. 448, which occurs in his district. The decrease, compared with the budget estimate,* was due to (1) the tax not being levied during the year in 13 Unions which had been taken into account in the budgets, (2) the late date at which some of the Panchayats commenced work, and (3) the difficulty in collection owing to the novelty and initial unpopularity of the tax. It is hoped that the current year's collections under this head will be more satisfactory. A statement showing the incidence of this tax in the subjoined form should in future be submitted with the annual reports:—

17. *Educational.*—The receipts under this head amounted to Rs. 1,18,841 against Rs. 1,16,361 in the previous year. The principal item is of course school-fees, which brought in Rs. 98,275 against Rs. 96,351 in 1885-86, the increase being due to the larger attendance of pupils in most of the districts. The sum of Rs. 4,248 shown as income from endowments in paragraph 11 above was the rent of the Moyan endowment lands attached to the Female Normal School at Calicut. As in 1885-86, Appendix IV does not show the rent derived from the lands attached to the Ponnúr school in Kistna (Rs. 18), which appears in Appendix XXV. Of the sum of Rs. 16,318 shown under "Other items," Rs. 12,609 were derived from the sale of books.

18. *Medical.*—The receipts under this head, comprising the sale-proceeds of medicines, contributions from municipalities and private individuals for hospitals and dispensaries, income derived from the endowments of these institutions, &c., amounted to Rs. 11,993 against Rs. 15,281 in 1885-86. The sum of Rs. 511 shown as income from endowments in paragraph 11, represents the rent of lands attached to the dispensaries at Vriddháchalam (South Arcot), Saidápet (Chingleput), Tiruvadanai (Madura) and Ponáni (Malabar). Of the sum of Rs. 11,482 shown under "Other items," Rs. 3,542 represent contributions from private individuals against Rs. 8,145 in the previous year. The decrease under this latter head, which is much to be regretted, occurs mainly in North Arcot, Ganjam, Kistna, Malabar, Nílgiris, Tinnevelly and Vizagapatam.

19. *Interest.*—The income under this head amounted to Rs. 47,421 † against Rs. 42,578 in the previous year. The increase occurs under Interest on Government securities, mainly in Tanjore, where Rs. 2,18,200 appertaining to the Railway Guarantee Fund were invested during the year under review. Appendix XII shows the investments made in favor of endowed institutions managed by the Local Boards and the interest derived therefrom, which amounted to Rs. 42,646 as shown below:—

| | 1885-86. Rs. | 1886-87. Rs. |

| (4) Tanjore Railway Guarantee Fund .. .. .. | 5,00,000 | 15,663 |
| (5) Miscellaneous endowments referred to in paragraph below .. .. .. .. .. | 92,492 | 3,694 |
| Total .. | 11,78,292 | 42,646 |

In Kistna, Trichinopoly and Tinnevelly, the interest due on the amounts invested was not fully drawn within the year—an omission which should not be allowed to recur in future. In Godávari, Kistna, and Tanjore, income-tax is stated to have been paid on the interest drawn on the amounts invested in favor of the Taylorpettah Fund, the Peddapatam choultry, and the Railway Guarantee Fund. Application should at once be made for the refund of such payments, as the income of Local authorities has been exempted from liability to this tax (*vide* Government of India Financial Notification, dated 27th April 1886, No. 434). The President, District Board, Tinnevelly, is requested to explain why the sum of Rs. 1,393 invested in favor of the Tenkási middle school, referred to in his letter disposed of in G.O., dated 27th April 1885, No. 73 L.F., has not been included in the return submitted by him.

20. *Miscellaneous.*—The income under this head, comprising the rents of choultries, markets, bungalows, ferries and fisheries and the receipts from avenues, &c., as detailed

in paragraph 11 above, amounted to Rs. 5,11,353 against Rs. 4,99,638 in the previous year. The variations in the several items will be noticed below:—

(*a*) *Choultry Rents.*—The rents of lands attached to choultries, together with miscellaneous receipts therefrom, amounted to Rs. 2,09,037, against Rs. 2,21,105 * in the previous year. The decrease occurs chiefly in Tanjore, where the bulk of the revenue under this head is raised, and it is explained by the fact that the collections of 1885-86 included a large amount of arrears. The above sum is exclusive of Rs. 62, derived from the lands attached to the Nadagani choultry in Nílgiris and from the rent of the lands of the Peddapatam choultry in Kistna, which are incorrectly shown under the head "Rents and produce of land" in Appendix IV.

(*b*) *Market Rents.*—In the general review for 1885-86, the number of markets in which fees were levied by Local Boards was entered as 239. It now appears that the figure should have been 228. During the year now under review, the fee system was extended to 22 additional markets. Excluding the balance of Rs. 1,11,127 in favor of these institutions at the beginning of the year, and the receipts of two markets in Tanjore which, as they were started from chattram funds, are credited thereto, the total receipts amounted to Rs. 67,173 against Rs. 68,450 in 1885-86. The charges aggregated Rs. 52,460, of which Rs. 19,955 were spent on establishments, contingencies, &c., and Rs. 32,505 on the improvements to the markets. There was thus a balance of Rs. 1,25,840 at the close of the year. The closing balances were specially large in Coimbatore (Rs. 47,183) and Madura (Rs. 29,367). If these balances cannot be usefully laid out on the construction of new markets, on the improvement of the existing ones, or on the construction and repair of feeder roads, the rates of fees should be reduced. As in 1885-86, the receipts from this source were largest in Coimbatore (Rs. 20,220). Madura comes next with Rs. 12,024, and North Arcot, Trichinopoly, Salem, and Anantapur follow with Rs. 8,187, Rs. 5,163, Rs. 4,971 and Rs. 4,960 respectively. On the other hand the receipts were insignificant in South Arcot, Nílgiris, South Canara, Malabar and Vizagapatam; while no fees whatever were levied in Chingleput, Ganjam, Kistna and Nellore. In Chingleput the President reports that the question of introducing the fee system is being considered by the Taluk Boards, and in Kistna steps have now been taken to establish some markets; but the Presidents of the South Arcot, Nílgiris, South Canara, Malabar, Vizagapatam, Ganjam and Nellore Boards have not reported on the subject. They are requested to state, when submitting their next annual reports, what steps have been taken or are about to be taken for the development of local resources in this direction. The condition of the existing markets and the extent to which they are resorted to by the public should also be touched on in each annual report.

(*c*) *Bungalow Fees.*—Excluding the 17 bungalows in South Canara maintained from the District Officers' Fund, which are now under the control of the District Board, but are not available for use by ordinary private travellers, there were 262 Local Fund bungalows at which 7,772 travellers halted during the year, against 242 bungalows used by 7,866 travellers in 1885-86. The fees levied from these travellers amounted to Rs. 10,602 against Rs. 11,006 in the previous year, and the expenditure on the bungalows, including the cost of repairs, &c., was Rs. 25,207 against Rs. 24,614.

(*d*) *Ferry Rents.*—The income under this head, derived from the ferries under the control of the Local Boards, amounted to Rs. 21,858 against Rs. 20,724 in 1885-86.

(*e*) *Fishery Rents.*—The receipts from this source amounted to Rs. 1,13,347 against Rs. 97,750 in the previous year. The increase occurs mainly in Ganjam (Rs. 5,437), Tanjore (Rs. 4,744), Kistna (Rs. 3,109) and Salem (Rs. 1,553), and is ascribed to (1) the collection of the arrears of previous years, (2) competition at the sale of the farms, (3) the favorable character of the season, and (4) the realization of the entire current demand. Of the receipts under this head, Rs. 1,09,704 were realized by the Revenue Department and Rs. 3,643 by the Public Works Department.

* In addition to this a sum of Rs. 284 realized as interest on the funds of a choultry in Ganjam was included by the Accountant-General under Choultry Rents in 1885-86.

(*f*) *Avenue Receipts.*—The income derived from the rents of avenues and the sale of withered trees and clippings amounted to Rs. 53,455 against Rs. 45,875 in the previous year, while the amount spent on the plantation and maintenance of avenues was Rs. 67,248 against Rs. 63,385. Appendix XIII shows the statistics of avenues in the several districts. From these it appears that there were 2,114,423 trees under the care of the Local Boards at the beginning of the year; 173,862 were planted and 61,987 perished during the year; and thus the number left at its close was 2,226,298. The information furnished under this head cannot, however, be regarded as accurate. For instance the number of trees existing at the end of 1885-86 in the districts noted below, as now reported, differs widely from that given in the statements for that year, and the Presidents concerned are requested to explain the discrepancies :—

| | Number of trees on 31st Mar. 1886. | |
|---|---|---|
| | As reported in 1885-86. | As reported in 1886-87. |
| South Arcot .. .. .. .. .. .. | 120,294 | 181,499 |
| Tanjore .. .. .. .. .. .. | 121,782 | 251,054 |
| Vizagapatam .. .. .. .. .. .. | 27,756 | 36,740 |

The large number of trees planted during the year in Kistna, Vizagapatam, Madura, Coimbatore and Salem is very satisfactory. In Anantapur, South Arcot, Malabar and Tanjore the number of trees that withered was in excess of the new plantations. Nellore, Bellary, Ganjam, Kurnool and Anantapur are districts in which the number of avenue trees should be largely increased.

(*g*) The other items of miscellaneous receipts, excepting contributions from private individuals referred to in paragraph 70 below, call for no remarks.

21. *Public Works.*—The receipts under this head amounted to Rs. 47,978 against Rs. 43,970 in 1885-86. The increase occurs in Madura, where a sum of Rs. 15,000 paid in 1884-85 to the Madura municipality towards the construction of the Vaigai bridge was in the year under review refunded to the District Board to whom the work had been transferred.

22. *Contributions from Provincial Funds* amounted to Rs. 3,01,305 against Rs. 2,27,135 in the previous year, and were paid for the following purposes :—

| | 1885-86. | 1886-87. |
|---|---|---|
| | RS. | RS. |
| (*a*) Roads .. .. .. .. .. .. | 1,02,000 | 2,07,980 |
| (*b*) Schools .. .. .. .. .. .. | 45,711 | 36,655 |
| (*c*) Hospitals and dispensaries .. .. .. | 6,532 | 4,786 |
| (*d*) Choultries .. .. .. .. .. .. | 33,158 | 33,330 |
| (*e*) General purposes .. .. .. .. .. | 17,000 | 17,000 |
| (*f*) Miscellaneous (refunds, &c.) .. .. .. | 22,734 | 1,554 |
| Total .. | 2,27,135 | 3,01,305 |

(*a*) The grants for roads were paid to the Boards of South Arcot, South Canara and Nílgiris. The South Arcot Board received a grant of Rs. 1,27,130, viz., Rs. 90,000 (in addition to Rs. 50,000 paid in the previous two years) for the restoration of the roads and bridges damaged by the floods of 1884-85, and Rs. 37,130 for payment to the Pondicherry Government towards the reconstruction of the Chunambar bridge on the road from Cuddalore to Pondicherry, also destroyed by the floods of that year. The South Canara Board received Rs. 18,850, viz., Rs. 4,500 in part payment of a sum of Rs. 38,000 sanctioned for the construction of the Bisli ghât road on the representation of the Chief Commissioner of Coorg, and Rs. 14,350 towards the restoration of the Sanur and Todar bridges on the road from Mangalore to Shimoga; and a grant of Rs. 62,000 was made to the Nílgiri Board for the upkeep of the district roads.

G.O., dated 20th August 1886, Nos. 1018, 1019, L.F.

(*b*) Of the grants for schools, Rs. 35,695 were paid by the Director of Public Instruction on account of schools transferred to local management, and Rs. 960 was the allowance made for the support of the Yeomiah school at Arcot transferred to the North Arcot District Board in 1884.

(*c*) The grant of Rs. 4,786 on account of hospitals and dispensaries was made up of Rs. 2,066 contributed from the Arcot Langerkhana Fund to the North Arcot Board towards the upkeep of the Ranipet dispensary; Rs. 2,640 paid to the Tanjore Board on account of the Raja Mirassidar hospital at Tanjore; and Rs. 80 paid to the Madura Board on account of medicines used in the treatment of police constables in the Local Fund dispensary at Ramnad.

(*d*) The Anantapur, North Arcot, South Arcot, Coimbatore, Kurnool, Madura, Nílgiris, Salem, Tanjore, and Tinnevelly Boards were, as usual, paid grants amounting to Rs. 33,330 on account of choultries. These grants were in most cases given in lieu of emoluments from lands originally assigned to the choultries by their founders, but subsequently resumed by Government.

(*e*) The South Canara and Nílgiri Boards received grants, amounting to Rs. 5,000 and Rs. 12,000 respectively, for general purposes in consideration of the paucity of their funds.

(*f*) The sum of Rs. 1,554 shown under the head "Miscellaneous" comprises the refund * of the contribution of Rs. 1,337 paid by the Salem Board in 1885-86 on account of the Medical College, and of Rs. 217 spent by the Kurnool Board on the construction of a dead-house at Márkápur. In Appendix IV, however, the latter figure has been incorrectly shown under the head General Purposes; and it does not appear that the sum of Rs. 177, which is stated by the President to have been contributed from Provincial funds to the Tinnevelly Board towards the repairs of the bund of Puckle's channel, has been included in this statement.

23. *Contributions from Special Funds.*—(*a*) The share of the Pound Fund surplus transferred to Local funds was Rs. 40,251 against Rs. 40,227 in 1885-86. There was a considerable increase in Bellary (Rs. 1,250) and Kurnool (Rs. 2,716), counterbalanced by decreases in Cuddapah (Rs. 763), Tanjore (Rs. 1,722), and Trichinopoly (Rs. 945).

(*b*) *Contributions from the Canal and Ferry Fund*, from the surplus of the collections at the ferries in South Canara, Kistna, Malabar, Tanjore and Trichinopoly, to which the Canal and Ferry Act I of 1870 has been extended, amounted to Rs. 1,12,993 against Rs. 1,12,118 in the previous year. The bulk of the receipts under this head was realized in Malabar, where they amounted to Rs. 78,883 against Rs. 77,567 in 1885-86. South Canara comes next with Rs. 19,610; and Trichinopoly and Tanjore follow with Rs. 8,000 and Rs. 5,500, respectively.

24. *Contributions from Municipalities*, amounting to Rs. 18,106 against Rs. 22,856 in the previous year, were received for the following purposes, and are included under those heads in the statement given in paragraph 11 :—

| | 1885-86. | 1886-87. |

## III.—EXPENDITURE.

25. Excluding debt heads and contributions from the Local Boards of one district to those of another, the total expenditure of Local Boards amounted to Rs. 58,31,433

* Made in consequence of the Board having subsequently arranged to educate its medical pupils in the Prince of Wales' School at Tanjore.

against Rs. 58,19,675 in the previous year. The following abstract shows the expenditure under the several heads and the percentage of outlay under each Grant, compared with the corresponding figures for the previous year. A more detailed statement will be found in Appendix XIV :—

## GRANT I—PUBLIC WORKS.

26. Appendix XV shows the particulars of the outlay on public works and the cost of the supervising establishments, including contingencies and tools and plant. The total expenditure on works amounted to Rs. 28,81,810 against Rs. 30,74,937 in the previous year. The outlay on communications was Rs. 26,41,425 or 83 per cent. of the total allotments, against Rs. 28,32,988 or 82 per cent. in 1885-86. Of this sum, Rs. 25,95,163 were spent by the Engineering establishments employed by the Local Boards, and the remainder (Rs. 46,262) by the Public Works Department, chiefly on the Vaigai bridge in Madura and on roads running along tank and channel banks in South Arcot, Ganjam, Godávari, Kistna, Nellore, Tanjore and Trichinopoly. The expenditure on the construction and repair of buildings was Rs. 1,20,169 against Rs. 1,14,589 in the previous year, and that on miscellaneous public improvements relating to avenues, markets, tanks, wells, &c., amounted to Rs. 1,20,216 against Rs. 1,27,360.

27. It is satisfactory to note that the total outlay on public works was 83 per cent. of the sanctioned allotments, against 80 per cent. in the preceding year. In Tanjore, Godávari and Vizagapatam the expenditure exceeded the allotments by 10, 8,

and 5 per cent., respectively, owing to outlay having been incurred on the incomplete works of 1885-86, and on the repairs of roads damaged by floods, without a formal allotment of funds. The percentage was also very good in Nílgiris (97), North Arcot (95), Nellore (94), South Canara (92), Coimbatore (91), and Trichinopoly (91); but very low in Malabar (56), Bellary (60), Kistna (62), Kurnool (67), and Tinnevelly (73). The explanations given for the short outlay by these latter Boards will be found in Appendix XV. With the exception of Malabar, they are all districts which were specially noticed for short expenditure in the general review for 1885-86, and it is observed that the excuses now given are almost the same as were then put forward. The real cause is probably want of energy on the part of the Boards' Public Works establishments, and the Government look to the Presidents concerned to remedy this state of things.

28. *Roads.*—Appendix XVI shows the mileage and cost of the roads constructed and repaired during the year. All roads which merely connect one village with another or with a district or taluk road have been classed as "Village roads," and all other roads as "Taluk" or "District" according as they are maintained by a Taluk or by the District Board. The following abstract shows the total length of roads under the control of the Local Boards at the commencement of the year and of those maintained by them during the year, with the cost of their maintenance :—

| | — | Mileage of roads under Local Boards at the commencement of the year. | Mileage of roads maintained. | Cost of maintenance. | Mileage of new roads completed during the year. | Cost of new roads completed. | Mileage of roads under construction. | Cost of roads under construction. |

The expenditure on new roads, including those in progress, was large in the marginally-noted Districts. In Kistna much of this money might with advantage have been devoted to improving the existing communications, many of which appear to be in very bad order, especially in the Répalle and Bápatla Taluks. It will be seen from paragraph 7 *supra* that the balances in the Kistna District are very large, and the bad state of the roads cannot be ascribed to want of funds. The expenditure on village roads is still very small, being only 4 per cent. of the entire outlay on roads against 7 per cent. in 1885-86. In Anantapur, Bellary, South Canara, Nílgiris and Trichinopoly there was, according to Statement XVI, no expenditure whatever either on the repair or the construction of village roads. This is probably due to defective classification, and the Presidents of the District Boards concerned are directed to submit revised returns. In thirteen districts, the condition of the roads has been reported to be generally good, while in four (Kistna, Nellore, Madura and Trichinopoly) it was unsatisfactory. No information has been given as to the remaining four districts (Cuddapah, Tanjore, Bellary and Anantapur).

31. *Establishments and Contingencies.*—The expenditure of Rs. 5,82,075 shown under this head in the statement given in paragraph 25 above comprises the following items :—

| | RS. |
|---|---|
| (1) Local Fund Engineering establishments, including contingencies .. .. .. .. .. .. .. .. | 5,32,277 |
| (2) Public Works Department for supervision of works .. .. | 6,816 |
| (3) Do. do. for scrutiny of plans and estimates. | 29,263 |
| (4) Toll and Ferry establishments .. .. .. .. .. | 13,719 |
| Total .. | 5,82,075 |

During the year under review the Finance Committee suggested for consideration the execution of all Local Fund public works by the Imperial Public Works Department; but the Government considered that such a change would be most undesirable, as it would greatly diminish, if not wholly destroy, the responsibility of Local Boards for works which, while nominally remaining under their control, would in reality be supervised by officers entirely independent of their authority. The Local Fund public works accordingly continue under the charge of the special Engineering establishments employed by the Boards. These establishments worked under the direct control of the District Boards, the Taluk Boards generally contributing to their cost in proportion to the outlay from Taluk funds on public works. The total cost of these establishments, including contingencies, amounted to Rs. 5,32,277 or 19 per cent. of the outlay on works, against Rs. 5,31,078 or 17 per cent. in 1885-86, the maximum proportion fixed by rule being 20 per cent. The increase in the percentage during the year under review is due to decreased expenditure on public works. The prescribed maximum of 20 per cent. was exceeded in no less than eight districts, as noted in the margin. In the first six of these this was due to short expenditure on works; the excess in the remaining two districts has not been explained. In Kurnool, Nellore and South Canara, the 20 per cent. limit was exceeded in 1885-86 also. The Nellore District Board have been directed to take steps for the reduction of their establishment, and similar orders will have to be passed in the case of the other two districts if the current year's figures are not more satisfactory. The Government are glad to note that the establishments in South Arcot, Madura and Vizagapatam cost only 11, 13 and 15 per cent. of the outlay on works.

A sum of Rs. 6,816 was paid to the Public Works Department for the execution of Local Fund works entrusted to their charge in Godávari, Kistna, Madura and Trichinopoly. The *minus* entry of Re. 1 against Nellore in Appendix V is explained to be due to the rounding off of figures.

Contributions, amounting to Rs. 29,263, were also paid to the Public Works Department for the scrutiny of important Local Fund plans and estimates. In previous years, a lump sum of Rs. 21,250 was paid on this account; but as this was thought to be excessive, the Government ruled that from the beginning of the year under review a fixed rate of 2½ per cent. on the value of estimates examined should be paid by each District Board. The change has, however, so far proved the reverse of economical, and the question of reducing the rate is now under consideration.

The cost of the Toll and Ferry establishments was Rs. 13,719 against Rs. 11,503 in 1885-86, the increase occurring in South Arcot, in which all the toll-gates except three were managed departmentally instead of being leased out as in the previous year.

32. The expenditure on *Tools and Plant* amounted to Rs. 24,002 or 0·8 per cent. of the outlay on works, against Rs. 37,610 or 1·2 per cent. in 1885-86, the sanctioned rate being 1 per cent. The outlay was high in Godávari (1·7), South Canara (1·6), Kistna (1·4), and Malabar (1·3). Steps should be taken by the Boards concerned to reduce this high cost in future.

33. *Contributions to Provincial, Municipal and other Funds.*—A sum of Rs. 8,962 was paid to Provincial Funds in partial adjustment of the famine debt of Rs. 5,67,000, the balance still due on this account being Rs. 12,730* at the end of the year. This sum has recently been ordered to be adjusted against Provincial funds. The following are the most important of the other items under this head :—

In addition to the above, payments, aggregating Rs. 21,537, were made to municipalities on account of tolls and public works in or near municipal towns, against Rs. 26,373 in the previous year.

## GRANT II—EDUCATION.

34. Excluding the cost of constructing and repairing school buildings (Rs. 16,884) shown under Grant I, the total expenditure on education was Rs. 6,45,776 against Rs. 7,00,797 in 1885-86, as shown below:—

| | 1885-86. | 1886-87. |

Appendix XVII shows the receipts and charges of the several schools, but does not include the receipts from the sale of books and contributions from municipalities for the inspection of municipal schools, or charges connected with the purchase of books, educational inspection and other miscellaneous items.

35. *Inspection.*—The educational operations of the Local Boards were, as usual, supervised by Deputy Inspectors of Schools and Inspecting Schoolmasters. As in 1885-86, the Deputy Inspectors were all borne on the Provincial list. Excluding three Deputy Inspectors under the direct control of the Inspectress of Girls' Schools and the Deputy Inspector employed exclusively for Madras town, there were 68 such officers against 65 in the preceding year, the increase being due to the entertainment of a fourth Deputy in Ganjam and Malabar and to the employment of a separate Deputy for the Nilgiris. An additional Deputy was also sanctioned for Salem, but the appointment does not appear to have been made within the year. There were 125 Inspecting Schoolmasters, paid entirely from Local Funds, against 121 in the previous year. These officers, who were maintained at a cost of Rs. 57,186 against Rs. 58,165 in 1885-86, visited 14,661 villages and prepared 14,948 schools for examination, the corresponding figures for the previous year being 16,380 and 14,435.

36. *Training Schools.*—At the close of 1885-86 there were 33* training schools for elementary teachers maintained by the several District Boards. This number was raised to 35 in the year under review by the opening of a new school for the training of Mappilas at Tellicherry (Malabar) and by the transfer to the District Board of a Hindu Normal School at that place which had been hitherto maintained by Government. Every District Board maintains at least one of these institutions, while in Malabar there are no less than 5. One school, at Calicut, maintained from the Moyan Endowment Funds, is intended for females. There were 857 students under training in all the schools, against 829 in the previous year. Of these, 772 were stipendiary students paid from Local Funds, and the remaining 85 were either free pupils or paid by municipalities, the corresponding figures for 1885-86 being 767 and 62. The number

* The figures for 1885-86 quoted in this paragraph exclude the Sessional schools in South Canara which were classed along with the ordinary Normal Schools in the review for that year, but are now treated separately.

of pupils who appeared for the Special Upper Primary examination from these schools was 692, of whom 448 or 65 per cent. passed. These figures, though they show a considerable improvement on the previous year, when the passes were only 54 per cent., are not so satisfactory as the results of 1884-85, when 74 per cent. of the candidates examined were successful. The results were best in Tanjore, Chingleput, Madura, Anantapur, Tinnevelly, South Canara and Cuddapah; and worst in North Arcot, Kurnool and Salem. All the 22 students who appeared from Tanjore were successful, while in Salem out of 54 presented not one passed. The special attention of the Salem District Board has already been called to this matter. The total cost of these institutions amounted to Rs. 70,300, against Rs. 66,661 in 1885-86. Excluding Provincial grants, school fees and miscellaneous receipts, the average net cost of training each successful student was Rs. 110 against Rs. 137 in the previous year, the falling off being the result of the increase in the number of passes. It was lowest in Madura (Rs. 43), Tanjore (Rs. 50), Tinnevelly (Rs. 53); and moderate in Chingleput (Rs. 64), Coimbatore (Rs. 69), Anantapur (Rs. 73) and Kistna (Rs. 82); but very high in North Arcot (Rs. 164), Cuddapah (Rs. 166), Bellary (Rs. 169), Malabar (Rs. 172) and Nilgiris (Rs. 259). The attention of the five last-named District Boards is drawn to these figures.

37. In addition to a regular Normal School, the South Canara District Board maintains three "Sessional Schools," at which village schoolmasters are trained in methods of teaching and prepared for the Special Upper Primary examination for about two months in the year. Twenty-seven schoolmasters were so trained during the year under review at a cost of Rs. 303 or on an average Rs. 11 per head. The Government consider these institutions well worthy of imitation in other districts.

38. *Secondary Schools.*—There were 100 Local Fund Secondary Schools at the close of the year, against 103 in the previous year, as shown in the margin. Of these 70 were maintained on the salary system, and the remaining 30 on the salary result system. The only collegiate institution was the Sanskrit College attached to the Kalyanamahal Chattram at Tiruvádi (Tanjore). This was attended by 70 pupils, who were as usual examined by the Head Pandit of the Kumbakónam College. The results of the highest class were poor, but those of the other classes fair.

| Colleges .. .. .. | 1 | 1 |
| High Schools .. .. .. | 3 | 4 |
| Middle Schools .. .. | 99 | 95 |

The four High Schools were those of Tiruválúr (Tanjore), Udamalpet and Dhárápuram (Coimbatore), and Amalápuram (Godávari). The last-named school was raised to the High School standard as an experimental measure in February 1887. These four schools were attended by 420 pupils, and the results of their examination were on the whole satisfactory, 22 out of 39 presented having passed the Matriculation examination.

The decrease of four in the number of Middle Schools was due to the opening of 4 new schools at Avalkondah (North Arcot), Tenkási (Tinnevelly), and Matigiri and Harur (Salem), and to the closure or transfer of 8 old ones as shown below:—

| District. | Name of Middle School closed or transferred. | Remarks. |

| Salem .. .. .. | Tirupatur .. .. .. .. | Transferred to the newly constituted Tirupatur Municipality. |

The working of the Secondary Schools has not been specially noticed in all the District reports. Information on this point should invariably be furnished in future in the annexed form :—

|---|---|---|---|---|---|---|
| | | | Number presented. | Number passed. | Number presented. | Number passed. |

39. The total expenditure on the Board Secondary Schools was Rs. 1,14,854, and their net cost to Local Funds Rs. 33,760. In the salary system schools the average net cost of educating each pupil was Rs. 7. It was as much as Rs. 13 in Vizagapatam and Kistna, while in Coimbatore it was only Rs. 2. The average cost of educating each pupil in the salary result system schools was Rs. 3. It was high (about Rs. 9) in South Arcot, Salem and Trichinopoly, while in South Canara and Tinnevelly, the schools were maintained at a profit to the Local Boards of Rs. 3,673 and Rs. 313, respectively.

| | Total Cost. | Net Cost. |
|---|---|---|
| | RS. | RS. |
| Salary system .. .. | 94,098 | 28,889 |
| Salary result system .. | 20,756 | 4,871 |
| Total .. | 1,14,854 | 33,760 |

40. *Elementary Schools.*—Including 33 schools attached to the training schools as Practising Departments, there were 283 Local Fund primary schools on the salary system and 939 on the salary result system, against 271 and 994, respectively, in the previous year. The increase in the number of salary system schools, in spite of the transfer of 16 schools in Tanjore to the salary result system, is due chiefly to the practising departments attached to the training schools being now treated as separate schools ; while the decrease in the number of salary results schools was mainly due to the conversion during the year under review of 49 salary result system schools in Madura into private schools aided on the combined system of salary and result grants. Most of the salary system schools—216 out of 283—are in Godávari. The President in his last annual report states that the remarks made by Government in paragraph 35 of the general review for 1885-86 regarding the advisability of converting them into schools on the salary result system, have been noted, but has said nothing regarding the character of the work done by them or by the salary result system schools, of which there were 205 in this district, during the year. The progress of these two classes of schools in the other districts was generally satisfactory. The salary system schools were attended by 9,100 pupils, against 7,989 in the previous year, and the salary result system schools by 27,279, against 28,861. The total cost of these two classes of schools was—salary schools Rs. 50,616 and salary results schools Rs. 1,33,527, and the net cost was Rs. 42,185 and Rs. 1,03,963, respectively. The average net cost of educating each pupil was Rs. 6 in the salary schools and Rs. 4 in salary results schools, against Rs. 5 for both classes together in 1885-86. It was highest in the salary system schools of Ganjam and Kistna (Rs. 13) and in the salary result system schools of Cuddapah and Nílgiris (Rs. 11). Steps should be taken for the reduction of unnecessary expenditure in these districts. The number of pupils who passed the several standard examinations from these schools was 16,014 out of 22,656 presented, the corresponding figures for the previous year being 20,973 and 27,926.

41. *Grant-in-aid Schools.*—Salary grants, amounting to Rs. 1,336, from Local Funds were paid to 21 private schools, attended by 519 pupils, against Rs. 1,335 paid to 16 schools attended by 360 pupils in 1885-86. Combined salary and result grants, amounting to Rs. 26,936, were paid to 489 other schools attended by 20,523 pupils, against Rs. 32,585 paid to 537 schools attended by 21,256 pupils in 1885-86. A sum of Rs. 962 was also paid, as arrears of 1885-86, to 73 combined grant schools in South Canara which were converted into simple result schools from the commencement of the year under review. Including these last, there were 8,932 result grant schools attended by 197,996 pupils, of which 7,619, with an attendance of 116,635 pupils, were actually examined and received grants amounting to Rs. 1,66,052, against

Rs. 2,14,155 paid to 7,910 schools with an attendance of 110,754 pupils in the previous year. This very large falling off in the amount of grant earned is ascribed to (1) the stringency of the provisions of the new Grant-in-aid Code, (2) the reduction in the rates of grants in Chingleput and Vizagapatam, and (3) the non-receipt of certifying memoranda within the year. The average grant per pupil examined was Rs. 2-9-2 in salary grant schools, Rs. 2-6-0 in combined grant schools, and Rs. 1-6-9 in result grant schools, against Rs. 3-11-4, Rs. 1-8-6 and Rs. 1-14-11, respectively, in the previous year.

42. The total number of pupils receiving instruction in the several schools maintained wholly or in part from Local Funds was 263,207, or 6·3 per cent. of the estimated number of children of school-going age, against 261,743, or 6·2 per cent. in 1885-86. These figures are not satisfactory. Even taking into account the constitution of seven new Municipalities with effect from 1886-87 and the consequent omission from the Local Fund returns of the schools therein situated, the fact remains that the Local Boards as a whole have made very little progress during the year in developing the education of the masses. Including the unaided indigenous schools, the total number of pupils under instruction within the jurisdiction of the District Boards was only 341,739, or 8·1 per cent. of the number of children of school-going age. The subject has been further dealt with by Government in reviewing the Public Instruction Report.

43. *Contribution to Provincial and Municipal Funds.*—Rs. 1,075 were refunded to Provincial funds on account of grants overdrawn in the previous year, and Rs. 1,151 were paid to the Nellore and Gudiyátam municipalities in aid of the municipal schools in those towns. A sum of Rs. 188 was further paid by the Tinnevelly District Board to Provincial funds as contribution towards the cost of Deputy Inspectors of Schools, but the amount is stated to have been subsequently refunded.

44. *Purchase and Sale of Books.*—A sum of Rs. 16,997 was spent on the purchase of school-books, and Rs. 1,921 were paid to the selling agents on account of salary and commission on sales, while the amount realised by the sale of these books was only Rs. 12,609. The net expenditure on this account was thus Rs. 6,309, against Rs. 4,331 in the previous year.

## GRANT III.—MEDICAL SERVICES AND SANITATION.

45. *Local Fund Hospitals and Dispensaries.*—Appendix XVIII shows the working of these institutions, of which there were 225 at the close of 1885-86. Seven of these were transferred to the newly constituted municipalities at the beginning of the year, and 15 new dispensaries were opened in the marginally noted districts during its course. Thus the total number of hospitals and dispensaries under the control of Local Boards at the close of the year was 233. Of these, 3 * are returned in the first class, as affording accommodation to in-patients and being provided with the necessary instruments for conducting major operations; 135 are of the second class, having wards for the accommodation of in-patients; and the remaining 95 are of the third class, in which provision is made for the relief of out-patients only, though in emergent cases in-patients are also admitted for treatment. The number of in-patients for whom accommodation is provided in the hospitals and dispensaries of the first two classes is now 1,166, against 1,057 in the preceding year. The above figures are derived from Appendix XVIII, which has been compiled from Statement XII furnished with the individual reports. The information given is, however, incorrect in several instances. For example, in Trichinopoly the six dispensaries of the district are all shown in the 2nd class, although the patients treated therein were

all out-patients. In Vizagapatam, out of 10 dispensaries, 9 are shown in the 3rd class, whereas in the President's annual report it is stated that there was accommodation for in-patients in all but one. In the Ganjam President's report, it is stated that in that district the dispensaries are equipped only for the treatment of out-patients, whereas in Statement XII, one of these dispensaries is shown in the 2nd class. These patent errors have been corrected in the Appendix, but there appear to be other cases in which the figures given are inaccurate, and the Presidents are requested, in submitting their next annual reports, to see that the dispensaries are correctly classed in accordance with the principles above laid down. In Godávari, Ganjam, Nellore and Trichinopoly all the Local Fund dispensaries are of the 3rd class, and in Anantapur and Kurnool the number of 2nd class dispensaries is unduly small. The desirability of providing additional accommodation for in-patients has already been impressed on most of these Boards in reviewing the individual reports. Of the total number of dispensaries, 133 were in buildings belonging to the Local Boards, and the rest in rented houses, or in buildings lent by Government or private individuals. Twenty-five were maintained either wholly or partly from endowments, and eighteen others from the chattram funds in Tanjore and Tinnevelly.

The total expenditure under this head, including the pay of the medical subordinates in charge, but excluding the cost of (1) the additional medical practitioners employed on sanitary inspection, distribution of medicines, &c., in the districts of Godávari, Kistna, Madura and Nellore, (2) the medical schools in Madura, Nellore and Tanjore, (3) the District Medical and Sanitary Officers' establishments, and (4) midwives and midwifery pupils, was Rs. 2,28,258 against Rs. 2,44,887* in 1885-86. The decrease occurs mainly in North Arcot, Ganjam, Madura, Salem, Tanjore, Tinnevelly and Vizagapatam, and was due to the transfer of seven dispensaries to the new municipalities, and to savings in the salaries of medical subordinates and contingencies. The number of patients treated in these institutions during the last three years is shown below :—

| Years. | In-patients. | Out-patients. | Total. |
|---|---|---|---|
| 1884-85 .. .. .. .. | 11,179 | 1,041,476 | 1,052,655 |
| 1885-86 .. .. .. .. | 11,975 | 1,129,996 | 1,141,971 |
| 1886-87 .. .. .. .. | 11,163 | 1,177,781 | 1,188,944 |

The continued increase in the number of out-patients is satisfactory, but the total number of cases treated is still only 4 per cent. of the population.

46. In addition to the regular dispensaries, the Nellore District Board maintained 4 "Medical Centres," *i.e.*, selected villages where trained hospital assistants, who are supplied with medicines for gratuitous distribution, are sent to practise. Two thousand eight hundred and twenty-two patients were treated at these centres in 1886-87. These have been included in the returns given at the close of the last paragraph. The system is one which might well be followed in other districts.

The Vizagapatam District Board have arranged to employ 20 native doctors, each to be paid Rs. 2 per mensem, for the distribution of cheap and reliable English medicines among the villagers, after first training them in a Local Fund dispensary; but the experiment was not tried by the Board until after the close of the year. In this connection District Boards are reminded of the instruction given to them in G.O., 9th December 1885, No. 1185 L.F., to do what they can to foster and meet a demand for simple medicines in the villages, each individual Board being free to adopt its own scheme and methods.

47. *Medical Schools.*—During the greater part of the year, the District Boards of Nellore, Tanjore and Madura each maintained a local medical school for training hospital assistants. The school at Madura was, however, closed in February 1887, the students then under instruction being transferred to the school at Tanjore to complete their course. These schools were managed by the respective District Surgeons, and cost in all Rs. 13,161, against Rs. 14,178 in 1885-86. The Nellore Medical

* The figure given in paragraph 40 of the review for 1885-86 is Rs. 2,79,098, but this includes the charges for Medical Schools, midwives, District Surgeons' establishments, &c., which are separately shown in the year under review.

School had only 7 pupils, all of whom completed their 4 years' course in June 1887, and appeared for the Hospital Assistant grade examination, at which six passed. The Prince of Wales' Medical School at Tanjore had 36 pupils at the end of March 1887. In June 1886 it sent up five students for the Hospital Assistant grade examination and all passed, the first among them carrying off the Government gold medal. Of the 36 students in this school, two were from Bellary, one from Salem, and 18 from Madura, all trained at the cost of the respective District Boards. The students of this school received, as usual, clinical instruction at the Rajah-Mirassidar hospital under the superintendence of the District Surgeon. Some of the Hospital Assistants formerly trained at the Madura school are employed in that district as Sanitary Inspectors, and appear to have done good work.

48. *Midwives and Midwifery Pupils.*—The Local Boards of Malabar, Nílgiris, Trichinopoly and Vizagapatam employed no midwives. In the remaining 17 districts, 89 of these women were employed against 101* in the previous year, but these attended 3,337 labor cases against 2,951 in 1885-86. The outturn of work was, however, still poor, each midwife having attended on an average 38 cases in the year, or only three cases per month. The average in Kistna was particularly low, being about one case per mensem. In Kurnool, the midwife attended only three cases throughout the year, while in Ganjam the only midwife employed (at Chicacole) attended one case up to November 1886, when she resigned. The attention of the Local Boards has been drawn to these unsatisfactory results in reviewing the individual reports, and the Government trust that every endeavour will be made to secure better work in future. The pay of the midwives should be made to depend to a certain extent on the amount of work done by them, and the services of caste females should be procured whenever possible. The cost of midwives and midwifery pupils is shown as Rs. 6,850 in Appendix V, whereas the cost of midwives alone, as reported by the Local Boards, was Rs. 10,860. It is presumed that the difference has been included under the head "Clerks and servants" in the former statement. If so, the procedure is incorrect. The Accountant-General should arrange in future to show the cost of midwives and of midwifery pupils separately.

49. In obedience to a request made by the Government of India, the various District Boards were called upon to report the steps taken by them towards increasing the supply of female doctors and trained nurses, and especially of nurses trained. The replies received will be found summarised in Appendix XIX. The Government consider that the progress made in this direction was, on the whole, satisfactory, and they trust that a further advance will be made in the current and ensuing years. The action of the Kistna, Nellore, Vizagapatam and Tanjore Boards in this matter is worthy of special commendation.

50. *Vaccination.*—Appendix XX shows the strength, cost and operations of the Local Fund vaccine establishments. There were 47 Deputy Inspectors of Vaccination, against 46 in 1885-86, and 632 vaccinators, including probationers, against 592 in that year. The work of these men and the average cost of each successful case are compared below with the corresponding figures of the previous year :—

| Years. | Number of persons vaccinated. | Number of successful cases. | Percentage of successful cases to number vaccinated. | Cost per successful case. |
|---|---|---|---|---|
| | | | | Rs. A. P. |
| 1885-86 .. .. .. .. .. .. | 601,160 | 569,058 | 95 | 0 4 0 |
| 1886-87 .. .. .. .. .. .. | 596,794 | 567,599 | 95 | 0 3 11 |

It will be seen that, in spite of the increase in establishments noted above, the number of vaccinations has diminished—a most unsatisfactory result. It is observed that 100,178 children under one year of age, or only 13 per cent. of the number of births registered during the year, were protected from small-pox. The districts which show the best results in regard to infantile vaccination are Malabar, Godávari, Tanjore and

* The decrease in the number of midwives appears to be due to the inclusion of mere nurses in some of the last year's returns.

Nellore, in which 43, 37, 28 and 22 per cent., respectively, of the number of children born were protected from small-pox. The worst percentages are shown by the districts noted in the margin. The progress of infantile vaccination should receive the earnest attention of these Boards, and special mention should be made in their future reports of the steps taken to promote it. Taking the total number of successful vaccinations, there was, as compared with 1885-86, a decrease in the outturn of work in the following 12 districts, and an increase in the remaining nine :—

| | | | |
|---|---|---|---|
| Vizagapatam | 1 | Madura | 3 |
| Bellary | 2 | Trichinopoly | 4 |
| South Arcot | 3 | South Canara | 5 |

| | Number of successful operations. 1885-86. | Number of successful operations. 1886-87. | Percentage of decrease. |
|---|---|---|---|
| Anantapur | 15,128 | 12,479 | 17·51 |
| Arcot, South | 24,130 | 24,072 | 0·24 |
| Canara, South | 29,529 | 29,516 | 0·04 |
| Godávari | 17,077 | 17,064 | 0·08 |
| Kistna | 13,371 | 11,978 | 10·42 |
| Kurnool | 12,607 | 8,003 | 36·52 |
| Madura | 45,625 | 43,762 | 4·08 |
| Nellore | 27,195 | 20,618 | 24·18 |
| Nilgiris | 1,818 | 1,510 | 16·94 |
| Tanjore | 44,432 | 41,046 | 7·62 |
| Trichinopoly | 22,002 | 20,385 | 7·35 |
| Vizagapatam | 45,304 | 37,236 | 17·81 |

The increase was particularly satisfactory in Salem and Chingleput, the number of successful cases exceeding those of the previous year by 22·6 per cent. and 19·8 per cent. respectively. It was also satisfactory in the districts shown in the margin. On the other hand, the decrease was enormous in Kurnool, Nellore, Anantapur, Vizagapatam and Nilgiris, and considerable in Kistna, Tanjore and Trichinopoly. It is ascribed to (1) the non-prevalence of small-pox during the year in the districts concerned; (2) the prejudice against vaccination among the rural population; and (3) the absence of vaccinators on leave, &c. In reviewing the individual district reports, the Government have shown these explanations to be unsatisfactory, and in Kurnool the Inspector of Vaccination has been directed to make a special inquiry into the work of the vaccine staff. The extension of vaccine operations depends a great deal on the amount of sympathy and active interest which the district officials and the Local Board members take in the matter and on the care with which they supervise the work of the vaccine staff. The fact of the vaccination charges being debited to the District fund does not in any way relieve the members of Taluk Boards and Panchayats from the duty of checking the local vaccinator's work and rendering him every assistance in their power, and the Government trust that the multiplication of Local Boards will tend to produce a great improvement in the results shown by this department. It is believed that the Deputy Inspectors of Vaccination are in many cases idle and inefficient. His Excellency in Council expects the Presidents of District Boards at once to report such men to the Sanitary Commissioner for punishment.

51. Judging from the returns, the quality of the vaccination work continues to be satisfactory, 95 per cent. of the total operations having proved successful as in the previous year. The average cost of each successful case for the Presidency also shows an improvement, being annas 3-11, or 1 pie less than in 1885-86. It was, however, very high in Nilgiris (annas 11-4), Kistna (annas 10-8), Cuddapah (annas 10-3), Kurnool (annas 9-10), Godávari (annas 7-5), and Nellore (annas 6-3). Compared with the previous year, there was an increase of cost in all these districts, except Cuddapah and Godávari, due to a diminished outturn of work.

52. Animal vaccination was continued in Kurnool with satisfactory results. In Chingleput, Bellary and Salem, it was introduced for the first time during the year, and the results have proved successful, but in North Arcot and Cuddapah, where it was introduced in 1885-86, it had to be abandoned owing to its excessive cost. In Malabar and South Arcot, it is stated that arrangements were made for its introduction during the current year.

53. In addition to the work of the Local Fund vaccinators dealt with above, 5,088 cases are shown in the Local Fund reports as having been vaccinated by medical subordinates attached to dispensaries in South Canara, Chingleput, Malabar, Salem, Tanjore and Trichinopoly. But from the Sanitary Commissioner's report for 1886, it would appear that operations were conducted by the medical subordinates in all districts. The District Boards' reports should in future contain information on this point.

54. *Sanitation.*—The details of the expenditure under this head in each district are shown in Appendix XXI. Excluding the sum of Rs. 24,136 spent on sanitary public works under Grant I, the outlay on sanitation was Rs. 2,51,529 as shown below, against Rs. 2,46,651 in 1885-86. In both years the sanitary expenditure amounted to 4·1 per cent. of the total current receipts :—

| | 1885-86. Rs. | 1886-87. Rs. |
|---|---|---|
| (1) Improvement of water-supply | 47,802 | 47,864 |
| (2) Do. of village sites | 15,062 | 19,849 |
| (3) Conservancy establishments | 1,56,727 | 1,54,022 |
| (4) Arrangements at fairs and festivals | 10,311 | 9,251 |
| (5) Other Sanitary outlay | 16,749 | 20,543 |
| Total | 2,46,651 | 2,51,529 |

No new work of any importance was undertaken during the year. As usual, the sanitary works under improvement of water-supply consisted chiefly of the construction and repair of wells and tanks. Eighty-eight wells and 10 tanks were newly constructed and 165 watchmen were employed in guarding drinking-water sources from contamination. One hundred and ninety village-sites were improved, and rank vegetation and prickly-pear was removed in 113 villages. In Coimbatore and Vizagapatam, itinerating gangs were employed to remove prickly pear, level streets, dig side-drains, &c., and are reported to have done good work. The system is a good one, and should be followed elsewhere.

Out of 51,930 minor towns and villages in the Presidency, only 562 are provided with regular conservancy establishments as shown below :—

In Nellore it is stated by the President that no scavenging establishments were maintained for want of funds, whereas on page 77 of the Sanitary Commissioner's report for 1886, the number of villages conserved in that district is given as 25. The discrepancy should be explained. The number of villages conserved in Malabar, Anantapur, South Canara, Chingleput, Trichinopoly, Vizagapatam, Kurnool, and Bellary should be increased. Where there is a Union, the conservancy establishment is now under the charge of the Chairman and the Panchayat; in other cases it is supervised by the local Revenue officers. Special sanitary arrangements, such as the entertainment of temporary scavengers and the construction of temporary latrines, &c., were made during important festivals at 139 places.

55. The total sanitary expenditure was only 80 per cent. of the sanctioned allotments, against 82 per cent. in 1885-86 and 85 per cent. in 1884-85. This decrease, notwithstanding the repeated orders of Government to work up to the allotments, is perhaps the most unsatisfactory feature of the year's administration. The

dercentage was specially bad in the districts noted in the margin, while in Madura, Anantapur, Bellary, and Nílgiris it exceeded 95 per cent. (in the first two districts the allotments were even exceeded). In Godávari and Nellore the Divisional officers appear to be at fault. In Vizagapatam the decrease, as compared with the budget, occurs chiefly under Improvement of water-supply, and is explained by the fact that the heavy rains of October and November 1886 filled almost all tanks and wells, and rendered expenditure impracticable in many cases. The short outlay in Cuddapah is ascribed to the late date at which the sanctioned budget was received and the Taluk Boards and Union Panchayats commenced to work. But even allowing for these circumstances, better results should have been achieved. In Malabar the President states that the outlay may appear small, but that the amount was properly utilized. In reply to this the Government have already intimated that the present expenditure is altogether inadequate to the needs of the district. No explanation has been given of the short expenditure in Kurnool. As the subject of village sanitation is one of immense importance, the Government trust that the newly constituted Taluk Boards and Panchayats will adopt special measures to see that the allotments sanctioned for the several works are fully utilized.

56. *Markets and Bungalows.*—The expenditure under these heads has already been noticed in paragraph 20.

57. *Choultries.*—Including the Arcot and Kurnool langarkhanas and the poor house at Tanjore, there were 376 Local Fund choultries, against 370 in 1885-86. Of these, 210 had endowments attached to them. In 42 of these latter, 1,972,515 daily rations were issued at a cost of Rs. 95,841, against 2,103,099 rations at a cost of Rs. 1,19,234 in the previous year. The remaining 334 are mere rest-houses. The decrease in the cost of feeding occurs chiefly in Tanjore, and is explained by the fact that the value of paddy used for feeding purposes in 1885-86 was computed at the high market prices which ruled in that year. In the Arcot langarkhana (poor-house), 24,332 persons were fed at a cost of Rs. 786, while in that at Kurnool, 30 infirm persons received a maintenance dole of Re. 1 each per mensem. In the poor-house at Tanjore, 130,245 persons were fed at a cost of Rs. 1,676. In Tinnevelly, Rs. 2,432 were paid from the Tirukurangudi and Kuttalam chattram funds as monthly pensions to 65 cripples. Including charges for establishments, contingencies, &c., the total expenditure on choultries was Rs. 2,01,176, as shown in Appendix XXII, against Rs. 2,22,567 in 1885-86. The Chingleput Board only maintained one choultry (at Chingleput). They should consider the advisability of establishing more.

Appendix XXII.

58. *Contributions.*—The contributions paid from Local funds for medical, sanitary, and other purposes amounted to Rs. 1,93,505, as shown in the statement below, against Rs. 1,64,405 in 1885-86. The increase occurs chiefly under medicines and surgical apparatus, and contributions to municipalities for hospitals and dispensaries. In the former case it was apparently due to medicines obtained for the dispensaries newly opened during the year, while the increase in the latter was due to the contributions paid to the newly-constituted municipalities and to the transfer of the unexpended balance of Rs. 5,291* in favor of the Tirupati dispensary to the town council. The increase under "Maintenance of Lunatics" appears to be partly owing to the payment of arrear charges of 1885-86.

GRANT IV—MISCELLANEOUS.

59. *Supervision and Office Management.*—The total cost of supervision, including contingencies, amounted to Rs. 2,50,265 against Rs. 1,87,822 in 1885-86 and was 4·1 per cent. of the actual receipts of the year and 4·3 per cent. of the charges. The increase occurs principally under Local Boards' office establishment and contingencies, and was due partly to the establishments entertained and the contingent charges incurred by the Taluk Boards and Panchayats newly constituted, and partly to the payment of printing charges at the Government Press for the years 1883-84, 1884-85 and 1885-86 having been made in the year under review. The pay of the head clerks or "managers" in the various District Boards' offices varies from Rs. 40 to Rs. 70. The maximum establishment allowed for each Taluk Board's office is a clerk on Rs. 25, or two clerks on Rs. 15 and Rs. 10 respectively, and an attender or peon on Rs. 8. The Panchayat of every Union in which house-tax is levied is permitted to employ a karnam on Rs. 10 and a bill-collector on Rs. 5; those of the other Unions a kárnam on Rs. 7 only.

60. *Repayment of, and interest on, Loans.*—The Chingleput and Malabar District Boards paid Rs. 9,792 as interest, and Rs. 16,510 as instalments of principal, on account of loans received from Imperial Funds. The purposes for which these loans were obtained and the balances due at the close of the year are shown below:—

| Boards. | Amount of Loan. | Purpose for which raised. | Mode of repayment. | Amount still due. | Probable date of repayment. |
|---|---|---|---|---|---|
| | RS. | | | RS. | |
| Chingleput .. .. .. .. | 1,99,790 @ 4½ per cent. | Construction of the iron girder bridge across the Kortalaiyár river. | Annual payment to Government. | 1,35,790 | 1,898 |
| Malabar .. .. .. .. | 1,49,000 @ 4½ per cent. | Completion of the Támrachéri and Peria ghât roads. | Do. .. | 68,968 | 1,898 |

In addition to the above, Rs. 1,050 were paid by the Tinnevelly District Board as interest on the sum of Rs. 35,000 borrowed by them from the surplus of the endowments (choultries Rs. 30,000 and markets Rs. 5,000) under the control of the Taluk Boards. In Tanjore a sum of Rs. 2,18,200 was invested in Government securities in favor of the Railway Guarantee Fund, the total investments on this account up to 31st March 1887 being Rs. 5,00,000.

61. *Refunds of Cess, &c.*—The payments under this head amounted to Rs. 8,146 against Rs. 11,321 in the previous year. The decrease is merely nominal, the educational and medical refunds of 1886-87 being exhibited in Appendix V under Grants II and III, instead of being shown under Grant IV as formerly.

## IV—ENDOWMENTS, &c.

62. The total number of endowed institutions, such as schools, hospitals and dispensaries, choultries, markets, &c., under the control of the various Local Boards and Panchayats, are shown in Appendix XXIV, while their gross receipts and charges are shown in Appendices XXV and XXVI furnished by the Accountant-General. Excluding Rs. 38,364 appropriated from general funds to meet excess expenditure and Rs. 26,737 allotted from the funds of some of the Rajah's chattrams in the

Tanjore District to meet the deficit with which other chattrams and dispensaries connected with the fund would otherwise have closed, the actual receipts of these institutions amounted to Rs. 3,56,216 against Rs. 3,69,247 in the previous year, and the charges to Rs. 3,63,823 against Rs. 3,73,832. The following abstract shows the receipts and charges under the several heads compared with the corresponding figures for the previous year :—

| — | Receipts. | | Charges. | |

| Total .. | 3,69,247 | 3,56,216 | 3,73,832 | 3,63,823 |

63. The decrease in the receipts under the first head was partly due to a sum of Rs. 4,029, representing the interest derived from the endowment in favor of the Prince of Wales' Medical School at Tanjore, being shown in the year under review under Hospitals and Dispensaries instead of under Schools as in 1885-86, and partly to the smaller receipts from the Moyan endowed lands attached to the Female Normal School at Calicut (Malabar). The decrease under the third head occurs chiefly in Tanjore for the reasons already explained in paragraph 20, while that under the fourth occurs mainly in Coimbatore, where the balance due from some of the contractors was not adjusted within the year from the security deposited by them. The total balance in favor of these institutions was Rs. 3,08,514 at the commencement of the year, and Rs. 3,00,907 at its close. The largest balances were in the districts noted in the margin, and these should be turned to good account in the current and ensuing years.

64. The following points require notice in connection with the Appendices above referred to :—

(*a*) In Appendix IV the Government contribution of Rs. 2,050 on account of the Munro's chattram and dispensary at Gooty in Anantapur is shown under Choultries, whereas in Appendix XXV it appears under Hospitals and Dispensaries.

(*b*) In Appendix IV a sum of Rs. 49 is shown as the income of the Vriddhá-chalam dispensary in South Arcot, whereas no such entry appears in Appendix XXV.

(*c*) In Appendix IV the Government contributions on account of choultries in Tanjore are shown as Rs. 12,356, whereas in Appendix XXV the amount is given as Rs. 12,596.

(*d*) In Appendix IV the choultry and market rents are shown as Rs. 2,09,037 and Rs. 67,173, respectively, whereas according to Appendix XXV they amounted to Rs. 2,09,563 and Rs. 66,707, respectively.

(*e*) The establishment, contingent, &c., charges of choultries as given in Appendix V differ in some cases from those shown in Appendix XXVI.

(*f*) The establishment and contingent charges of markets are shown in Appendix V as Rs. 14,976, whereas according to Appendix XXVI they amounted to Rs. 19,514.

(*g*) The fixed and contingent charges of the endowed schools in Kistna and Malabar and of the endowed dispensary in the latter district are incorrectly shown in Appendix XXVI under the heads "Allotted for education" and "Allotted for dispensaries," respectively.

It is noted that the Accountant-General has since stated, in explaining similar discrepancies noticed in the accounts for 1885-86, that it has not hitherto been found possible to effect a complete correspondence between the entries in Appendices IV and V and those in Appendices XXV and XXVI, as the detailed heads are not the same in both sets of accounts, but that steps have now been taken by him to secure such additional details in the accounts received from the districts as will make agreement possible in future.

65. *Endowed Schools.*—There were 6 schools of this class against 4 in the previous year, viz., the four specified in paragraph 52 of the general review for 1885-86, the Tenkási Anglo-Vernacular School in Tinnevelly district, and the Kulitalai Middle School in Trichinopoly. The two last schools were taken over during the year, the former with an endowment of Rs. 1,393, and the latter with Rs. 1,200, both in cash. In addition to these, there were 5 schools in Tanjore and 1 in Tinnevelly which may also be regarded as endowed, since they were entirely maintained from the funds of endowed chattrams, viz., the Sanskrit College at Tiruvádi ; the girls' school at Nídamangalam ; three boys' schools at Rajamattam, Oratanad and Patukóta, in the Tanjore district ; and the Anglo-Vernacular School at Tirukarangudi, in the Tinnevelly district.

66. *Endowed Dispensaries.*—There were 25 institutions of this class against 23 in 1885-86. In North Arcot, the dispensary at Tirupati, supported from the Devastanam funds, was made over to the Town Council, while in Trichinopoly the newly-opened dispensaries at Udayárpálaiyam, Turaiyúr and Perambalúr were provided with money endowments amounting to Rs. 3,000, Rs. 2,000 and Rs. 2,000, respectively. These sums were given by the local zemindars of the first two places, and subscribed by the inhabitants in the last. In addition to these, there were 16 dispensaries in Tanjore maintained wholly from the funds of the Rajah's chattrams, and two in Tinnevelly maintained from the funds of the Tirukarangudi chattram.

67. *Endowed Choultries.*—The number of these institutions was 210 against 201 in 1885-86. The increase is explained in a foot note to Appendix XXIV. Particulars with regard to the most important endowed choultries have already been given in paragraph 57.

68. *Endowed Tanks, &c.*—There was an increase of one in the number of endowed tanks* or ponds, as compared with 1885-86. The number of endowed water-sheds and langarkhanas (poor-houses) remained the same. Markets have already been noticed in paragraph 20.

| | 1885-86. | 1886-87. |
|---|---|---|
| * Tanks ... ... ... | 30 | 31 |
| Water-sheds ... ... | 13 | 13 |
| Langarkhanas, &c. ... | 3 | 3 |
| Markets ... ... ... | 228 | 250 |

69. *Miscellaneous Endowments.*—The items included under this head are the "District Officers' Bungalow Fund" in South Canara, which is composed of subscriptions from district officers for the upkeep of 17 bungalows used by them when on tour ; the "Surplus Pagoda Fund" in Chingleput, the proceeds of which are devoted to the upkeep of the Chingleput dispensary ; "Petrus Uscan's Charity Fund" in the same district founded for the perpetual repair of the Marmalong bridge and the steps up St. Thomas' Mount ; the "Taylorpettah Fund" in Godávari, consisting of the fees levied on godowns, stalls and carts in the cartstand at Taylorpettah, a suburb of Narsápur, and devoted to the sanitation and general improvement of the village ; the "Price Vaccination Fund" in Salem, intended for the promotion of vaccination in that district ; and the "Surplus Pagoda Fund" in the same district, the proceeds of which are devoted to sanitary improvement.

70. *Contributions from Private Individuals.*—The amount of voluntary contributions made by private individuals or bodies for works of local utility was only Rs. 20,300, as shown below, against Rs. 31,866 in the previous year :—

| | 1885-86. | 1886-87. |
|---|---|---|
| | RS. | RS. |
| Public works ... ... ... ... ... ... | 6,400 | 5,786 |
| Hospitals and dispensaries ... ... ... ... | 8,145 | 3,542 |
| Schools ... ... ... ... ... ... ... | 893 | 261 |
| Sanitary purposes ... ... ... ... ... | 16,428 | 10,711 |
| Total ... | 31,866 | 20,300 |

The decrease under "Hospitals and Dispensaries" has been already mentioned in paragraph 18; that under "Sanitary purposes" is observable chiefly in Ganjam, Madura and Vizagapatam. As regards the first two of these districts, no explanation has been given. The falling off in Vizagapatam is attributed to the fact that most of these contributions are for the improvement of water-supply, and that owing to favorable rains the existing sources were found sufficient in the year under review.

71. *Maps.*—In November 1886 Presidents of District Boards were required to submit with their annual reports once in every five years, commencing with the year under review, illustrative maps of the district showing the several Local Fund Taluks, Unions, hospitals and dispensaries, roads, bridges, ferries and toll-gates, as also the municipalities and principal municipal institutions, in view to a map of the Presidency showing these particulars being annexed to the general review as suggested by the Government of India in their letter, dated 31st August 1886, No. 25-1289. But as only 16 of such district maps have been received up to date, the Presidency map is not yet ready. It will be completed and circulated as soon as the maps of the remaining five districts are received.

G.O., dated 1st November 1886, No. 1447, L. F.

72. In conclusion, the Governor in Council is pleased to be able to observe that, taken as a whole, the administration of Local Funds during the year 1886-87 has been satisfactory and reflects credit on the Local Boards and their Presidents. The preceding paragraphs will show how large and varied are the interests confided to their care, and how vitally important their activity is to the people of the Presidency. The new Taluk Boards are only beginning to work, but there are already indications that their institution will tend to a quickening of the Local Fund administration, and that they will in the future take, as was intended, the chief share in it. The weak points in the year under review have in most cases been vaccination and expenditure of the sanitary allotments, as well as a want of progress in extending elementary education. But the Government are aware that the time which the Collector-President and his district officers can afford to give to Local Fund work has been greatly taken up in starting and guiding the Taluk Boards and Unions newly called into existence, and they trust that, now that the initial difficulties in this respect have been overcome, Presidents will be able seriously to direct their own attention and that of their Boards towards remedying the defects above pointed out. The adjustment of the accounts and powers of District and Taluk Boards were a matter of no small complication, and the Government are gratified to find that a good start has been made. Taking the districts individually, the District Boards of Madura, Malabar, Salem and South Canara may be singled out for special commendation, while, on the other hand, in Kistna and Nellore the results achieved left much to be desired.

## APPENDIX XIX.

*Action taken by the various District Boards towards the furtherance of Female Medical Education.*

SUMMARY of Replies to G.O., dated 5th September 1887, No. 1684-A. L.

*Anantapur and Nilgiris.*—The District Boards are not at present in a position to give the subject their consideration owing to want of funds.

*Arcot, North.*—The District Board employs a trained midwife for each of the dispensaries at Chittoor, Ranipet and Arni, and also contributes a moiety of the cost of a trained midwife employed by the Branch National Association at Chittoor to treat patients at their homes.

*Arcot, South.*—The District Board offered in 1886-87 to employ a female medical practitioner possessing the qualifications of a civil apothecary on a salary of Rs. 70 per mensem, but as no such person was procurable for the salary offered, the matter dropped. A midwifery pupil was being trained in the Cuddalore dispensary. In the current year (1887-88), the Board have established a monthly scholarship of Rs. 20 to be paid to a female student to enable her to prosecute her studies in the Madras Medical College for the hospital assistant grade, and have advertized for three midwifery pupils to be sent to Madras for training.

*Bellary.*—Provision was made in the budget for 1886-87 for the grant of scholarships to native women of the District who would undergo training at the Lying-in Hospital at Madras, but none were found willing to go there. Similar provision has been made in the current year, and steps are being taken to induce some of the barber caste women to proceed to Madras for the purpose. Provision has also been made for a midwife for each of the dispensaries in the District and for a nurse for the dispensary at Hadagalli.

*Canara South, Kurnool and Salem.*—No action was taken in the matter in the year under review.

*Chingleput.*—Five trained midwives are now employed in the District, and two midwifery pupils receiving a monthly stipend of Rs. 8 each are being trained at Madras.

*Coimbatore.*—Employment was given to four trained midwives, and measures are being adopted to establish scholarships for the education at Madras of a few female pupils to be sent from this District in connection with Lady Dufferin's Fund.

*Cuddapah.*—The Local Boards did not take any action in the matter in 1886-87. The Madanapalle and Pilér dispensaries are provided with midwives and nurses, and Kadiri and Ráyachóti dispensaries with nurses only.

*Ganjam.*—The only thing done by the District Board in or previous to 1886-87 was the employment of a trained midwife for the Chicacole Division. She resigned in November 1886, and her place was not filled up, as there appeared to have been very little demand for her services.

*Godávari and Malabar.*—The subject will engage the Boards' attention when the budget for the ensuing year comes under consideration.

*Kistna.*—Since January 1886, the District Board have been maintaining at Masulipatam a class of four female obstetric students, receiving a monthly stipend of Rs. 5 each. They are taught by a trained nurse on Rs. 50 per mensem under the supervision of the District Surgeon.

*Madura.*—The District Board has maintained two midwifery pupils on Rs. 5 each.

*Nellore.*—Native women are trained in midwifery at the Nellore Lying-in Hospital. Proposals for imparting better education in medicine and surgery in addition to midwifery are now being discussed by the District Board.

*Tanjore.*—Nothing was done during the year under review, but in October 1887, the District Board sanctioned the admission of three female students to the Tanjore Medical School to be educated for the medical practitioner grade.

*Tinnevelly.*—The District Board have undertaken to grant a scholarship of Rs. 20, for three years, to a lady pupil for the hospital assistant grade.

*Trichinopoly.*—Nothing was done in 1886-87, but three scholarships of Rs. 8 each have been provided for in the current year for training females as native midwives in connection with the Countess of Dufferin's Fund.

*Vizagapatam.*—The District Board have resolved to allot annually Rs. 2,400 for the establishment of qualified female medical practitioners, and a further sum not exceeding half per cent. of their income for medical tuition for females. In the current year, Rs. 1,380 have been allotted for training five females for the hospital assistant grade, each pupil to receive a monthly stipend of Rs. 20 for three years.

The increase in the number of choultries as compared with 1885-86 occurs in South Arcot (3), Bellary (1), Nellore (1), Tanjore (2), Tinnevelly (1) and Trichinopoly (1). In South Arcot the choultry at Kammapuram taken over by the District Board in April 1885 was granted some inam lands under G.O., Revenue Department, dated 16th January 1887, No. 29; the choultry at Kalakurchi with the lands attached to it was purchased by the District Board during the year under review; and the one at Buvanagiri is now classed as endowed as the District Board realize income from the rent of bazaars attached thereto. In Bellary, Bapu Row's choultry at Hampasagar with the lands attached to it was made over to the District Board during the year. The President of the Nellore District Board has been requested to explain the increase in the number of choultries in that district. The increase of two in Tanjore is accounted for by the transfer to the District Board of the Annadhana kuttalai chattram and the Nadiyam muttam endowment. In Tinnevelly the number of endowed choultries is now correctly shown as 23 instead of 22 as given in the review for 1885-86, while in Trichinopoly the increase of one was due to the inclusion of the Kammanur choultry, about which the President promises a further report.

Order—dated 16th February 1888, No. 408 A L., Local and Municipal.

The reports of the several District Boards for 1886-87 having been separately reviewed in the Proceedings read above, the Government now proceed to consider them collectively.

2. As regards the dates on which these reports were submitted, it is satisfactory to note that there was much improvement as compared with the previous year. But, nevertheless, only five (from South Arcot, Anantapur, Chingleput, Malabar and Nilgiris) were received within the prescribed date, viz. the 15th of July, while one (from Cuddapah) was more than two months, and the last (from Vizagapatam) nearly three months behind time. The Government trust that arrangements will be made in future not only to submit the reports more punctually, but also to make the accompanying statements complete in every respect, so as to avoid the frequent calls for explanation of discrepancies and for further information which now greatly delay the preparation of the general review.

### I.—GENERAL.

3. *Administration.*—The year under review was the second in which the Madras Local Boards Act V of 1884 was in operation. The administrative system introduced by that Act was completed in most districts by the constitution of Taluk Boards and Village Unions. Steps had been taken towards the formation of these bodies in 1885-86

(*vide* G.O., 4th July 1887, No. 1276 L, paragraph 5), but none of them had actually commenced work in that year. At the close of 1886-87 there were 66 Taluk Boards and 136 Unions at work: 17 more Taluk Boards and 77 Unions, which were constituted during the year, commenced work only in 1887-88. Rules for the guidance of Local Boards and their agents and officers in matters connected with the carrying out of the provisions of the Act, and for the election of members of District Boards by the Taluk Boards, were passed during the year under review, but did not come into force until after its close.

G.O., dated 26th June 1886, No. 721 L.F.
" " 28th January 1887, No. 196 L

4. *District Boards.*—These continued to be 21 in number, corresponding with the mofussil Collectorates, as required by the Act. Appendix I shows the constitution of the various Boards and the attendance at meetings. On the 31st March 1887, there were 585 members on these Boards, out of a sanctioned maximum strength of 752 members. All these members were appointed by Government; but under the rules above referred to half the members of each District Board will eventually be elected by the Taluk Boards, except in the districts of Kurnool and Nílgiris where no Taluk Boards exist. The South Canara and Ganjam District Boards had less than the minimum strength of 24 members prescribed by the Act, but the vacancies have since been filled up. Of the total number of District Board members, 146 were officials and 439 non-officials, against 148 and 459 respectively in the previous year. Each Board had thus on an average 28 members, of whom 7 were officials and 21 non-officials, the corresponding figures of 1885-86 being 7 and 22. The Boards held in all 240 meetings during the year, against 279 in 1885-86, and the average number of meetings for each Board thus fell from 13 to 11—a decrease which may be accounted for by the establishment of Taluk Boards and the consequent diminution of the District Boards' work. The largest number of meetings during the year (20) was held by the Trichinopoly District Board; the smallest by the Boards of Cuddapah (7), Tinnevelly (7), South Canara (8), Salem (8), and Chingleput (9). It is to be regretted that in Coimbatore and Tanjore 2 and 6 meetings respectively had to be postponed for want of a quorum. A similar complaint is made in Kurnool, but the number of postponed meetings has not been stated by the President. The average attendance for all Boards was 11 members at each meeting (2 officials and 9 non-officials) against 12 members (3 officials and 9 non-officials) in 1885-86. It was good in North Arcot and Bellary, being over one-half of the total strength, and poor in Coimbatore, Ganjam, Nellore, Tanjore and Trichinopoly, where it was a third or less of the number of members. The attendance of the official members was very poor in Chingleput and Malabar; that of the non-official members was, with certain exceptions which have been brought to notice in reviewing the individual reports, on the whole satisfactory.

5. *Taluk Boards.*—Appendix II shows the constitution and attendance of the Taluk Boards at work during the year. These were 66 in number, working in 15 districts. In Madura the Melúr taluk, the Tirushuli division, and the portion of the Madura taluk lying north of the Vaigai were under the direct control of the District Board—an arrangement which has, however, since been altered; in every other case the whole of the district was sub-divided into Local Fund taluks. In Kurnool and the Nílgiris the introduction of Taluk Boards is not contemplated for the present. In the remaining four districts * Boards were formed during the year, but did not commence working. The 66 Taluk Boards at work on the 31st March 1887 consisted of 851 members, of whom 244 were officials and 607 non-officials. Each Board had thus on an average 13 members—4 officials and 9 non-officials. These Boards held in all 589 meetings, the average attendance at each meeting being 7 members—2 officials and 5 non-officials. Considering that the year under review was the first in which the Boards began to work, and that in many cases they were started late in the year, the attendance of members and the number of meetings was on the whole satisfactory.

6. *Unions.*—The names of the Village Unions constituted up to the close of the year are given in two lists in Appendix III. Those actually at work within the year are entered in List I. They are 136 in number, distributed among twelve districts, as shown below:—

| | | | |
|---|---|---|---|
| Anantapur | 9 | Kistna | 15 |
| North Arcot | 7 | Kurnool | 1 |
| South Arcot | 7 | Madura | 28 |
| Bellary | 10 | Salem | 8 |
| Chingleput | 11 | Tanjore | 1 |
| Cuddapah | 16 | Tinnevelly | 23 |

Unions in which house-tax was levied are marked in the Appendix with an asterisk. Seventy-seven unions commenced work only during the current year and these are shown in List II. They belong to the following districts:—

| | | | |
|---|---|---|---|
| Coimbatore | 16 | Tanjore | 17 |
| Ganjam | 11 | Trichinopoly | 7 |
| Godávari | 1 | Vizagapatam | 11 |
| Nellore | 14 | | |

The districts in which no unions had been constituted up to the close of the year are Malabar, South Canara and Nílgiris. The unions actually at work raised from house-tax, and from market, pandal and other fees an income of Rs. 39,920 which was supplemented by grants amounting to Rs. 40,284 from District and Taluk funds as shown in the following paragraph. The receipts and charges of the Unions in each district are shown in detail in Appendix XXIII. Their work is at present mainly confined to sanitation and the construction and repair of village streets, and they appear in most cases to have made a good beginning. The power of appointing the Chairmen and Members of the Union Panchayats, which has since been made over to the Presidents of District Boards, was retained by Government during the year under review. Care was taken to select non-official Chairmen whenever possible, and Presidents were instructed not to nominate revenue officers except under special circumstances. Future reports should contain a statement similar in form to Appendix II, but omitting the last three columns (average attendance of members), to show the constitution of the Panchayats.

7. *Financial Position.*—Appendices IV and V furnished by the Accountant-General, show in detail the receipts and charges of the several Local Boards, including the Union Panchayats, while Appendix VI shows briefly their financial position. The following abstract compares the total results for all the Local Boards with those of the previous year:—

* This deficit balance was the amount standing against the Arcot market (North Arcot District) which was transferred to the local Union.

Excluding debt heads (Rs. 11,616) and contributions from the Local Boards of one district to those of another (Rs. 2,576), the actual receipts amounted to Rs. 60,83,335 against Rs. 60,40,686 in 1885-86, and the charges to Rs. 58,31,453 against

Rs. 58,19,675. The year closed with a balance of Rs. 22,97,387 or 38 per cent. of the actual receipts, of which Rs. 3,00,906 appertained to endowed institutions in charge of the several Local Boards, and Rs. 1,01,821 to the Railway Guarantee Fund under the control of the Tanjore District Board. All the districts closed the year with balances to their credit, and these exceeded a lakh in South Arcot (Rs. 1,77,793), Bellary (Rs. 1,10,035), Coimbatore (Rs. 1,08,680), Godávari (Rs. 1,60,902), Kistna (Rs. 3,14,559), Madura (Rs. 2,35,560), Malabar (Rs. 1,66,472), Salem (Rs 1,22,380), Tanjore (Rs. 1,86,727) and Tinnevelly (Rs. 1,75,233). In Coimbatore and Tanjore the balance belongs very largely to endowments (including in the latter district the Railway Guarantee Fund). In South Arcot money is required for the reconstruction of bridges destroyed by the floods of 1884-85; in Tinnevelly for the erection of an iron girder bridge across the Támraparni at Srívaikuntham; and in Malabar to meet the expenditure on the Irrity and Merampoya bridges. In the remaining districts such large balances are not required, and they should be reduced as soon as possible by increased expenditure on works of public utility.

8. *District and Taluk Funds.*—The following are the principles on which distribution of receipts and charges between District and Taluk Boards is generally made:—

Taluk Boards receive half the land-cess; the whole receipts from schools, markets, choultries, dispensaries and other institutions under their control; and other miscellaneous receipts. In South Canara, South Arcot and Coimbatore, they also receive a share of the toll revenue. The other receipts, excepting those derived from house-tax, market-fees, &c., in Unions, are credited to the District Board. The regular Taluk receipts are, however, in many cases supplemented by special allotments from the District fund. As regards expenditure, the District Boards are responsible for the main lines of communication; for normal schools and educational inspection charges; all charges connected with vaccination; contributions to the municipality for dispensaries at the head-quarter town; the District Medical and Sanitary Officers' establishments; contributions to Government for the Medical College, &c.; and the greater part of the charges under Grant IV. Taluk Boards have to provide for minor roads, avenues, bungalows, &c.; all education charges except those borne by the District Board; the upkeep of dispensaries; conservancy charges in all villages other than Unions; and the cost of the establishments under their own control. The cost of the Engineering establishment is divided between District and Taluk Boards in proportion to their outlay on public works.

9. *Taxation.*—Appendix VII shows the incidence of Local Fund taxation per head of the population in each district according to the census of 1881. The average for the Presidency was the same as in 1885-86, being As. 2-10 including and As. 2-6 excluding tolls. Taxation was lightest in Malabar (As. 2-1 per head including tolls) and heaviest in Nílgiris (As. 9-11). The circumstances of the latter district are peculiar, and in only one other district, viz., Kistna (As. 4-10), was the incidence, including tolls, in excess of As. 4 per head.

## II.—RECEIPTS.

10. *Opening Balances.*—Appendix VIII shows the total receipts of all Local Boards under the several heads compared with the budget estimates for the year and the actuals of 1885-86. The year opened with a balance of Rs. 20,57,285 against the budget estimate of Rs. 12,65,200. The increase over the budget was large in Madura (Rs. 1,37,305), Tanjore (Rs. 1,30,781), Kistna (Rs. 99,381), Malabar (Rs. 91,390), Godávari (Rs. 84,522), Tinnevelly (Rs. 63,852), Kurnool (Rs. 42,884) and Trichinopoly (Rs. 38,157), and was generally due to enhanced receipts under land-cess and to short expenditure on public works in 1885-86. There was a decrease, as compared with the budget estimate, in five districts, but it did not exceed Rs. 10,000 in any.

11. The *current receipts* amounted to Rs. 60,83,335 against Rs. 60,40,686 in the previous year. The following abstract shows the receipts under the several heads compared with those of the previous year:—

| Total | 60,40,686 | 60,83,335 | 100·00 | 100·00 |

12. *Land-cess.*—The cess on land was levied at the rate of two annas per rupee of the annual rent value in Malabar, and at one anna in the other districts, except South Canara and Godávari, where it was one anna and three pies, and nine pies respectively. In South Canara the rate was formerly one anna, but it was raised during the year under review owing to the financial necessities of the Board. This tax is by far the most important source of local revenue. The collections thereunder amounted to Rs. 42,87,141, or 70·47 per cent. of the entire receipts of the year, against Rs. 44,42,936 or 73·55 per cent. in 1885-86. The decrease of Rs. 1,55,795 was the net result of a falling off amounting to Rs. 2,47,225 in fourteen districts, and of an increase of Rs. 91,430 in seven others. The decrease was large in Cuddapah (Rs. 41,059), Bellary (Rs. 37,000), Trichinopoly (Rs. 31,743), Tanjore (Rs. 30,663), Chingleput (Rs. 24,905), Tinnevelly (Rs. 17,450), Coimbatore (Rs. 16,821), Kurnool (Rs. 15,200), Anantapur (Rs. 13,872) and Godávari (Rs. 13,324), and was due, except in Bellary, Tinnevelly and Coimbatore, to the collections of 1885-86 having included a large amount of arrears. The decrease in Bellary is explained by the fact that the revenue of 1885-86 was abnormally raised by a change in the kistbundi instalments by which a large sum which would have been otherwise payable in 1884-85 fell due in that year. In Tinnevelly it was due to a fall in the demand and to slowness in collection owing to the unfavorable character of the season. The decrease in Coimbatore has not been explained. The increase was large in North Arcot (Rs. 25,027), Salem (Rs. 15,736), Ganjam (Rs. 15,327), South Canara (Rs. 15,170) and Nellore (Rs. 12,076). In North Arcot it was due to a corresponding increase in the land revenue demand and to the collection of the entire arrear and current demand of the Kálahasti zemindari. In Salem and Ganjam it was due to prompt collections; in South Canara to the raising of the rate by three pies from fasli 1296; and in Nellore partly to greater energy in collection, and partly to increased rates under the Sangam project.

13. Appendix IX shows the demand, collection and balance of the cess, the rates at which it was levied, and the percentage of collection to demand in the several districts. According to this statement, which has been compiled from the district returns, the total collections amounted to Rs. 42,77,307, or Rs. 9,834 less than the amount given above, which has been adopted from the Accountant-General's statements. The difference is, as usual, due to the fact that the Accountant-General's

figures, which are compiled from the treasury accounts, show the total collections during the year, including the sums paid in advance for 1887-88, while the demand, collection and balance statements received from the districts show only the collections appertaining to the year under review and those preceding it. In fourteen districts the percentage of collections to demand was higher, and in five * lower, than in 1885-86. It is satisfactory to note that the total collections of all the districts amounted to 91 per cent. of the demand against 90 per cent. in the previous year, while, taking the current collections alone, the percentage to demand was 93 against 91. The improvement in Ganjam was specially marked, the percentage of total collections having risen from 76 to 93. As in 1885-86, collections were best in South Canara and Malabar, being 99 per cent. of the demand in each case; Madura comes next with 97 per cent. against 94 in the previous year. On the other hand the percentage in Cuddapah fell from 83 to 76, owing to slack collections. The total amount written off the accounts as irrecoverable, chiefly in Nellore, Anantapur, Bellary and Kistna, was Rs. 7,743 against Rs. 13,016 in the previous year.

14. *Tolls.*—Appendix X shows the statistics of tolls. During the year under review tolls were collected at 213 stations against 191 in the previous year. Ten additional toll-gates were opened in the districts noted in the margin; the five gates on the Kullar-Gúdalúr road (Nílgiris) which is in charge of the Public Works Department were included in the District Board's accounts, as the tolls were levied under the Local Boards Act; and seven supplementary gates at the three towns of Polláchi (Coimbatore), Cumbum (Kurnool), and Pálkonda (Vizagapatam) were separately classed for the first time. Several gates, in the districts noted in the margin, were removed to better localities so as to catch traffic which hitherto evaded the payment of tolls. At 88 gates tolls were levied at the maximum schedule rates, and at the remaining 125 gates at half rates. The total gross revenue under this head amounted to Rs. 5,67,520 against Rs. 5,00,442 in the previous year, the increase being due chiefly to the additional gates above referred to. South Arcot is the only district in which the District Board collects the bulk of its tolls by departmental agency. In the remaining 16 districts in which tolls are levied the gates are mainly or entirely leased out by auction to contractors. Of the total receipts, Rs. 4,59,828, or 81 per cent., were realized from the Local Fund toll-gates, and the remainder was contributed by municipalities as the Local Fund share of the tolls levied on trunk roads passing through them. In North Arcot, Bellary, Godávari and Tanjore the Local Boards maintained no toll-gates of their own, and derived the whole of their income from municipal contributions. The Anantapur, Kistna, Kurnool, and Vizagapatam Boards maintained only four gates each; the Chingleput Board five; and the Madura Board six; while the Malabar, South Arcot and Cuddapah Boards had as many as 35, 28 and 24 gates, respectively. In Appendix IV the Local Fund toll receipts of the Kurnool district are shown as Rs. 5,520, whereas in the District Board's account only Rs. 3,405 are shown under this head, Rs. 2,102 of the balance being entered as contribution from the Kurnool municipality and Rs. 13 as ferry receipts. The Local Fund toll receipts of the Vizagapatam district are shown in the same statement as Rs. 5,269, whereas the amount given in the District Board's accounts and report is Rs. 5,469, there being a corresponding decrease of Rs. 200 under Markets. The Presidents concerned are requested to explain these discrepancies.

15. Deducting Rs. 31,225 contributed to Provincial and Municipal funds and Rs. 17,696 spent on establishments, works, &c., the net receipts from tolls for all districts amounted to Rs. 5,18,599, or Rs. 28-6 per mile of road maintained by the Local Boards. The cost of the upkeep of these roads being Rs. 105-3 per mile, nearly 27 per cent. of the outlay was thus recouped by tolls. In North Arcot, Godávari and Nellore the portion of the road expenditure thus covered was below 10 per cent., while in South Arcot, South Canara and Nílgiris it was 54, 64 and 64 per cent. respectively.

16. *House-tax.*—This tax, which was leviable under the old Act in connection with education, but was held in abeyance for some years, has been reimposed under the new Act in Village Unions to provide funds for their administration. During the year under review arrangements were made by the District Boards concerned for its imposition in 66 of the principal Unions, but it was actually levied in 53 Unions only, viz., at the maximum schedule rates in 18, at three-fourths rates in 4, and at half rates in the remaining 31. The proceeds of the tax in each Union were placed at the disposal of the Panchayat concerned for expenditure on sanitation. The revival of this tax was necessarily somewhat unpopular at the outset, but the Government believe that the feeling against it will die away when it is clearly understood that the whole of the proceeds will be devoted to local wants. In fact in many places it will simply take the place of a contribution that had been voluntarily paid to private sanitary associations. The principles which have guided the Government in this matter have been clearly explained in G.O., 15th June 1887, No. 1115 L., and they need only repeat now that the initiative in regard to the imposition of the tax has been left entirely in the hands of the District Boards, and that so far from exercising any pressure on the Boards, the Government have in some cases found it necessary to restrict their proposals. His Excellency the Governor in Council, however, does not wish it to be understood that the Government disapprove the tax. On the contrary they believe that it is very necessary and that it will not prove oppressive; but they desire to confine it to places where it is clearly wanted, where it can be well spent, and where accordingly the benefits of the Union organisation can make it appreciated by the taxpayers. Appendix XI shows the demand, collection and balance of this tax, and other particulars connected with it. According to this statement, the total demand of the year amounted to Rs. 54,019, of which only Rs. 36,965, or 68 per cent., were collected, against Rs. 57,200 anticipated in the budget. This sum differs from that shown in the statement in para. 11 by Rs. 426. In North Arcot Rs. 22, being fees &c., collected in the Unions, were erroneously included under House-tax in Appendix IV; the President of the District Board, Tinnevelly, will be requested to explain the remaining difference of Rs. 448, which occurs in his district. The decrease, compared with the budget estimate,* was due to (1) the tax not being levied during the year in 13 Unions which had been taken into account in the budgets, (2) the late date at which some of the Panchayats commenced work, and (3) the difficulty in collection owing to the novelty and initial unpopularity of the tax. It is hoped that the current year's collections under this head will be more satisfactory. A statement showing the incidence of this tax in the subjoined form should in future be submitted with the annual reports:—

17. *Educational.*—The receipts under this head amounted to Rs. 1,18,841 against Rs. 1,16,361 in the previous year. The principal item is of course school-fees, which brought in Rs. 98,275 against Rs. 96,351 in 1885-86, the increase being due to the larger attendance of pupils in most of the districts. The sum of Rs. 4,248 shown as income from endowments in paragraph 11 above was the rent of the Moyan endowment lands attached to the Female Normal School at Calicut. As in 1885-86, Appendix IV does not show the rent derived from the lands attached to the Ponnúr school in Kistna (Rs. 18), which appears in Appendix XXV. Of the sum of Rs. 16,318 shown under "Other items," Rs. 12,609 were derived from the sale of books.

18. *Medical.*—The receipts under this head, comprising the sale-proceeds of medicines, contributions from municipalities and private individuals for hospitals and dispensaries, income derived from the endowments of these institutions, &c., amounted to Rs. 11,993 against Rs. 15,281 in 1885-86. The sum of Rs. 511 shown as income from endowments in paragraph 11, represents the rent of lands attached to the dispensaries at Vriddháchalam (South Arcot), Saidápet (Chingleput), Tiruvadanai (Madura) and Ponáni (Malabar). Of the sum of Rs. 11,482 shown under "Other items," Rs. 3,542 represent contributions from private individuals against Rs. 8,145 in the previous year. The decrease under this latter head, which is much to be regretted, occurs mainly in North Arcot, Ganjam, Kistna, Malabar, Nílgiris, Tinnevelly and Vizagapatam.

19. *Interest.*—The income under this head amounted to Rs. 47,421 † against Rs. 42,578 in the previous year. The increase occurs under Interest on Government securities, mainly in Tanjore, where Rs. 2,18,200 appertaining to the Railway Guarantee Fund were invested during the year under review. Appendix XII shows the investments made in favor of endowed institutions managed by the Local Boards and the interest derived therefrom, which amounted to Rs. 42,646 as shown below:—

In Kistna, Trichinopoly and Tinnevelly, the interest due on the amounts invested was not fully drawn within the year—an omission which should not be allowed to recur in future. In Godávari, Kistna, and Tanjore, income-tax is stated to have been paid on the interest drawn on the amounts invested in favor of the Taylorpettah Fund, the Peddapatam choultry, and the Railway Guarantee Fund. Application should at once be made for the refund of such payments, as the income of Local authorities has been exempted from liability to this tax (*vide* Government of India Financial Notification, dated 27th April 1886, No. 434). The President, District Board, Tinnevelly, is requested to explain why the sum of Rs. 1,393 invested in favor of the Tenkási middle school, referred to in his letter disposed of in G.O., dated 27th April 1885, No. 73 L.F., has not been included in the return submitted by him.

20. *Miscellaneous.*—The income under this head, comprising the rents of choultries, markets, bungalows, ferries and fisheries and the receipts from avenues, &c., as detailed

in paragraph 11 above, amounted to Rs. 5,11,353 against Rs. 4,99,638 in the previous year. The variations in the several items will be noticed below:—

(*a*) *Choultry Rents.*—The rents of lands attached to choultries, together with miscellaneous receipts therefrom, amounted to Rs. 2,09,037, against Rs. 2,21,105 * in the previous year. The decrease occurs chiefly in Tanjore, where the bulk of the revenue under this head is raised, and it is explained by the fact that the collections of 1885-86 included a large amount of arrears. The above sum is exclusive of Rs. 62, derived from the lands attached to the Nadagani choultry in Nílgiris and from the rent of the lands of the Peddapatam choultry in Kistna, which are incorrectly shown under the head "Rents and produce of land" in Appendix IV.

(*b*) *Market Rents.*—In the general review for 1885-86, the number of markets in which fees were levied by Local Boards was entered as 239. It now appears that the figure should have been 228. During the year now under review, the fee system was extended to 22 additional markets. Excluding the balance of Rs. 1,11,127 in favor of these institutions at the beginning of the year, and the receipts of two markets in Tanjore which, as they were started from chattram funds, are credited thereto, the total receipts amounted to Rs. 67,173 against Rs. 68,450 in 1885-86. The charges aggregated Rs. 52,460, of which Rs. 19,955 were spent on establishments, contingencies, &c., and Rs. 32,505 on the improvements to the markets. There was thus a balance of Rs. 1,25,840 at the close of the year. The closing balances were specially large in Coimbatore (Rs. 47,183) and Madura (Rs. 29,367). If these balances cannot be usefully laid out on the construction of new markets, on the improvement of the existing ones, or on the construction and repair of feeder roads, the rates of fees should be reduced. As in 1885-86, the receipts from this source were largest in Coimbatore (Rs. 20,220). Madura comes next with Rs. 12,024, and North Arcot, Trichinopoly, Salem, and Anantapur follow with Rs. 8,187, Rs. 5,163, Rs. 4,971 and Rs. 4,960 respectively. On the other hand the receipts were insignificant in South Arcot, Nílgiris, South Canara, Malabar and Vizagapatam; while no fees whatever were levied in Chingleput, Ganjam, Kistna and Nellore. In Chingleput the President reports that the question of introducing the fee system is being considered by the Taluk Boards, and in Kistna steps have now been taken to establish some markets; but the Presidents of the South Arcot, Nílgiris, South Canara, Malabar, Vizagapatam, Ganjam and Nellore Boards have not reported on the subject. They are requested to state, when submitting their next annual reports, what steps have been taken or are about to be taken for the development of local resources in this direction. The condition of the existing markets and the extent to which they are resorted to by the public should also be touched on in each annual report.

(*c*) *Bungalow Fees.*—Excluding the 17 bungalows in South Canara maintained from the District Officers' Fund, which are now under the control of the District Board, but are not available for use by ordinary private travellers, there were 262 Local Fund bungalows at which 7,772 travellers halted during the year, against 242 bungalows used by 7,866 travellers in 1885-86. The fees levied from these travellers amounted to Rs. 10,602 against Rs. 11,006 in the previous year, and the expenditure on the bungalows, including the cost of repairs, &c., was Rs. 25,207 against Rs. 24,614.

(*d*) *Ferry Rents.*—The income under this head, derived from the ferries under the control of the Local Boards, amounted to Rs. 21,858 against Rs. 20,724 in 1885-86.

(*e*) *Fishery Rents.*—The receipts from this source amounted to Rs. 1,13,347 against Rs. 97,750 in the previous year. The increase occurs mainly in Ganjam (Rs. 5,437), Tanjore (Rs. 4,744), Kistna (Rs. 3,109) and Salem (Rs. 1,553), and is ascribed to (1) the collection of the arrears of previous years, (2) competition at the sale of the farms, (3) the favorable character of the season, and (4) the realization of the entire current demand. Of the receipts under this head, Rs. 1,09,704 were realized by the Revenue Department and Rs. 3,643 by the Public Works Department.

* In addition to this a sum of Rs. 284 realized as interest on the funds of a choultry in Ganjam was included by the Accountant-General under Choultry Rents in 1885-86.

(*f*) *Avenue Receipts.*—The income derived from the rents of avenues and the sale of withered trees and clippings amounted to Rs. 53,455 against Rs. 45,875 in the previous year, while the amount spent on the plantation and maintenance of avenues was Rs. 67,248 against Rs. 63,385. Appendix XIII shows the statistics of avenues in the several districts. From these it appears that there were 2,114,423 trees under the care of the Local Boards at the beginning of the year; 173,862 were planted and 61,987 perished during the year; and thus the number left at its close was 2,226,298. The information furnished under this head cannot, however, be regarded as accurate. For instance the number of trees existing at the end of 1885-86 in the districts noted below, as now reported, differs widely from that given in the statements for that year, and the Presidents concerned are requested to explain the discrepancies :—

| | Number of trees on 31st Mar. 1886. | |
|---|---|---|
| | As reported in 1885-86. | As reported in 1886-87. |
| South Arcot .. .. .. .. .. .. | 120,294 | 181,499 |
| Tanjore .. .. .. .. .. .. | 121,782 | 251,054 |
| Vizagapatam .. .. .. .. .. .. | 27,756 | 36,740 |

The large number of trees planted during the year in Kistna, Vizagapatam, Madura, Coimbatore and Salem is very satisfactory. In Anantapur, South Arcot, Malabar and Tanjore the number of trees that withered was in excess of the new plantations. Nellore, Bellary, Ganjam, Kurnool and Anantapur are districts in which the number of avenue trees should be largely increased.

(*g*) The other items of miscellaneous receipts, excepting contributions from private individuals referred to in paragraph 70 below, call for no remarks.

21. *Public Works.*—The receipts under this head amounted to Rs. 47,978 against Rs. 43,970 in 1885-86. The increase occurs in Madura, where a sum of Rs. 15,000 paid in 1884-85 to the Madura municipality towards the construction of the Vaigai bridge was in the year under review refunded to the District Board to whom the work had been transferred.

22. *Contributions from Provincial Funds* amounted to Rs. 3,01,305 against Rs. 2,27,135 in the previous year, and were paid for the following purposes :—

| | 1885-86. | 1886-87. |
|---|---|---|
| | RS. | RS. |
| (*a*) Roads .. .. .. .. .. .. | 1,02,000 | 2,07,980 |

| (*f*) Miscellaneous (refunds, &c.) .. .. .. | 22,734 | 1,554 |
| Total .. | 2,27,135 | 3,01,305 |

(*a*) The grants for roads were paid to the Boards of South Arcot, South Canara and Nílgiris. The South Arcot Board received a grant of Rs. 1,27,130, viz., Rs. 90,000 (in addition to Rs. 50,000 paid in the previous two years) for the restoration of the roads and bridges damaged by the floods of 1884-85, and Rs. 37,130 for payment to the Pondicherry Government towards the reconstruction of the Chunambar bridge on the road from Cuddalore to Pondicherry, also destroyed by the floods of that year. The South Canara Board received Rs. 18,850, viz., Rs. 4,500 in part payment of a sum of Rs. 38,000 sanctioned for the construction of the Bisli ghât road on the representation of the Chief Commissioner of Coorg, and Rs. 14,350 towards the restoration of the Sanur and Todar bridges on the road from Mangalore to Shimoga; and a grant of Rs. 62,000 was made to the Nílgiri Board for the upkeep of the district roads.

G.O., dated 20th August 1886, Nos. 1018, 1019, L.F.

(*b*) Of the grants for schools, Rs. 35,695 were paid by the Director of Public Instruction on account of schools transferred to local management, and Rs. 960 was the allowance made for the support of the Yeomiah school at Arcot transferred to the North Arcot District Board in 1884.

(*c*) The grant of Rs. 4,786 on account of hospitals and dispensaries was made up of Rs. 2,066 contributed from the Arcot Langerkhana Fund to the North Arcot Board towards the upkeep of the Ranipet dispensary; Rs. 2,640 paid to the Tanjore Board on account of the Raja Mirassidar hospital at Tanjore; and Rs. 80 paid to the Madura Board on account of medicines used in the treatment of police constables in the Local Fund dispensary at Ramnad.

(*d*) The Anantapur, North Arcot, South Arcot, Coimbatore, Kurnool, Madura, Nílgiris, Salem, Tanjore, and Tinnevelly Boards were, as usual, paid grants amounting to Rs. 33,330 on account of choultries. These grants were in most cases given in lieu of emoluments from lands originally assigned to the choultries by their founders, but subsequently resumed by Government.

(*e*) The South Canara and Nílgiri Boards received grants, amounting to Rs. 5,000 and Rs. 12,000 respectively, for general purposes in consideration of the paucity of their funds.

(*f*) The sum of Rs. 1,554 shown under the head "Miscellaneous" comprises the refund * of the contribution of Rs. 1,337 paid by the Salem Board in 1885-86 on account of the Medical College, and of Rs. 217 spent by the Kurnool Board on the construction of a dead-house at Márkápur. In Appendix IV, however, the latter figure has been incorrectly shown under the head General Purposes; and it does not appear that the sum of Rs. 177, which is stated by the President to have been contributed from Provincial funds to the Tinnevelly Board towards the repairs of the bund of Puckle's channel, has been included in this statement.

23. *Contributions from Special Funds.*—(*a*) The share of the Pound Fund surplus transferred to Local funds was Rs. 40,251 against Rs. 40,227 in 1885-86. There was a considerable increase in Bellary (Rs. 1,250) and Kurnool (Rs. 2,716), counterbalanced by decreases in Cuddapah (Rs. 763), Tanjore (Rs. 1,722), and Trichinopoly (Rs. 945).

(*b*) *Contributions from the Canal and Ferry Fund*, from the surplus of the collections at the ferries in South Canara, Kistna, Malabar, Tanjore and Trichinopoly, to which the Canal and Ferry Act I of 1870 has been extended, amounted to Rs. 1,12,993 against Rs. 1,12,118 in the previous year. The bulk of the receipts under this head was realized in Malabar, where they amounted to Rs. 78,883 against Rs. 77,567 in 1885-86. South Canara comes next with Rs. 19,610; and Trichinopoly and Tanjore follow with Rs. 8,000 and Rs. 5,500, respectively.

24. *Contributions from Municipalities*, amounting to Rs. 18,106 against Rs. 22,856 in the previous year, were received for the following purposes, and are included under those heads in the statement given in paragraph 11 :—

## III.—EXPENDITURE.

25. Excluding debt heads and contributions from the Local Boards of one district to those of another, the total expenditure of Local Boards amounted to Rs. 58,31,433

* Made in consequence of the Board having subsequently arranged to educate its medical pupils in the Prince of Wales' School at Tanjore.

against Rs. 58,19,675 in the previous year. The following abstract shows the expenditure under the several heads and the percentage of outlay under each Grant, compared with the corresponding figures for the previous year. A more detailed statement will be found in Appendix XIV :—

## GRANT I—PUBLIC WORKS.

26. Appendix XV shows the particulars of the outlay on public works and the cost of the supervising establishments, including contingencies and tools and plant. The total expenditure on works amounted to Rs. 28,81,810 against Rs. 30,74,937 in the previous year. The outlay on communications was Rs. 26,41,425 or 83 per cent. of the total allotments, against Rs. 28,32,988 or 82 per cent. in 1885-86. Of this sum, Rs. 25,95,163 were spent by the Engineering establishments employed by the Local Boards, and the remainder (Rs. 46,262) by the Public Works Department, chiefly on the Vaigai bridge in Madura and on roads running along tank and channel banks in South Arcot, Ganjam, Godávari, Kistna, Nellore, Tanjore and Trichinopoly. The expenditure on the construction and repair of buildings was Rs. 1,20,169 against Rs. 1,14,589 in the previous year, and that on miscellaneous public improvements relating to avenues, markets, tanks, wells, &c., amounted to Rs. 1,20,216 against Rs. 1,27,360.

27. It is satisfactory to note that the total outlay on public works was 83 per cent. of the sanctioned allotments, against 80 per cent. in the preceding year. In Tanjore, Godávari and Vizagapatam the expenditure exceeded the allotments by 10, 8,

and 5 per cent., respectively, owing to outlay having been incurred on the incomplete works of 1885-86, and on the repairs of roads damaged by floods, without a formal allotment of funds. The percentage was also very good in Nílgiris (97), North Arcot (95), Nellore (94), South Canara (92), Coimbatore (91), and Trichinopoly (91); but very low in Malabar (56), Bellary (60), Kistna (62), Kurnool (67), and Tinnevelly (73). The explanations given for the short outlay by these latter Boards will be found in Appendix XV. With the exception of Malabar, they are all districts which were specially noticed for short expenditure in the general review for 1885-86, and it is observed that the excuses now given are almost the same as were then put forward. The real cause is probably want of energy on the part of the Boards' Public Works establishments, and the Government look to the Presidents concerned to remedy this state of things.

28. *Roads.*—Appendix XVI shows the mileage and cost of the roads constructed and repaired during the year. All roads which merely connect one village with another or with a district or taluk road have been classed as "Village roads," and all other roads as "Taluk" or "District" according as they are maintained by a Taluk or by the District Board. The following abstract shows the total length of roads under the control of the Local Boards at the commencement of the year and of those maintained by them during the year, with the cost of their maintenance :—

| — | | Mileage of roads under Local Boards at the commencement of the year. | Mileage of roads maintained. | Cost of maintenance. | Mileage of new roads completed during the year. | Cost of new roads completed. | Mileage of roads under construction. | Cost of roads under construction. |

| | District | 10,714 | 8,898 | 11,90,815 | 64 | 2,02,666 | 119 | 93,935 |
| | Total | 21,239 | 18,267 | 19,21,905 | 234 | 2,75,071 | 207 | 1,21,135 |

The expenditure on new roads, including those in progress, was large in the marginally-noted Districts. In Kistna much of this money might with advantage have been devoted to improving the existing communications, many of which appear to be in very bad order, especially in the Répalle and Bápatla Taluks. It will be seen from paragraph 7 *supra* that the balances in the Kistna District are very large, and the bad state of the roads cannot be ascribed to want of funds. The expenditure on village roads is still very small, being only 4 per cent. of the entire outlay on roads against 7 per cent. in 1885-86. In Anantapur, Bellary, South Canara, Nílgiris and Trichinopoly there was, according to Statement XVI, no expenditure whatever either on the repair or the construction of village roads. This is probably due to defective classification, and the Presidents of the District Boards concerned are directed to submit revised returns. In thirteen districts, the condition of the roads has been reported to be generally good, while in four (Kistna, Nellore, Madura and Trichinopoly) it was unsatisfactory. No information has been given as to the remaining four districts (Cuddapah, Tanjore, Bellary and Anantapur).

31. *Establishments and Contingencies.*—The expenditure of Rs. 5,82,075 shown under this head in the statement given in paragraph 25 above comprises the following items :—

| | RS. |
|---|---|
| (1) Local Fund Engineering establishments, including contingencies .. .. .. .. .. .. .. .. | 5,32,277 |
| (2) Public Works Department for supervision of works .. .. | 6,816 |
| (3) Do. do. for scrutiny of plans and estimates. | 29,263 |
| (4) Toll and Ferry establishments .. .. .. .. .. | 13,719 |
| Total .. | 5,82,075 |

During the year under review the Finance Committee suggested for consideration the execution of all Local Fund public works by the Imperial Public Works Department; but the Government considered that such a change would be most undesirable, as it would greatly diminish, if not wholly destroy, the responsibility of Local Boards for works which, while nominally remaining under their control, would in reality be supervised by officers entirely independent of their authority. The Local Fund public works accordingly continue under the charge of the special Engineering establishments employed by the Boards. These establishments worked under the direct control of the District Boards, the Taluk Boards generally contributing to their cost in proportion to the outlay from Taluk funds on public works. The total cost of these establishments, including contingencies, amounted to Rs. 5,32,277 or 19 per cent. of the outlay on works, against Rs. 5,31,078 or 17 per cent. in 1885-86, the maximum proportion fixed by rule being 20 per cent. The increase in the percentage during the year under review is due to decreased expenditure on public works. The prescribed maximum of 20 per cent. was exceeded in no less than eight districts, as noted in the margin. In the first six of these this was due to short expenditure on works; the excess in the remaining two districts has not been explained. In Kurnool, Nellore and South Canara, the 20 per cent. limit was exceeded in 1885-86 also. The Nellore District Board have been directed to take steps for the reduction of their establishment, and similar orders will have to be passed in the case of the other two districts if the current year's figures are not more satisfactory. The Government are glad to note that the establishments in South Arcot, Madura and Vizagapatam cost only 11, 13 and 15 per cent. of the outlay on works.

A sum of Rs. 6,816 was paid to the Public Works Department for the execution of Local Fund works entrusted to their charge in Godávari, Kistna, Madura and Trichinopoly. The *minus* entry of Re. 1 against Nellore in Appendix V is explained to be due to the rounding off of figures.

Contributions, amounting to Rs. 29,263, were also paid to the Public Works Department for the scrutiny of important Local Fund plans and estimates. In previous years, a lump sum of Rs. 21,250 was paid on this account; but as this was thought to be excessive, the Government ruled that from the beginning of the year under review a fixed rate of $2\frac{1}{2}$ per cent. on the value of estimates examined should be paid by each District Board. The change has, however, so far proved the reverse of economical, and the question of reducing the rate is now under consideration.

The cost of the Toll and Ferry establishments was Rs. 13,719 against Rs. 11,503 in 1885-86, the increase occurring in South Arcot, in which all the toll-gates except three were managed departmentally instead of being leased out as in the previous year.

32. The expenditure on *Tools and Plant* amounted to Rs. 24,002 or 0·8 per cent. of the outlay on works, against Rs. 37,610 or 1·2 per cent. in 1885-86, the sanctioned rate being 1 per cent. The outlay was high in Godávari (1·7), South Canara (1·6), Kistna (1·4), and Malabar (1·3). Steps should be taken by the Boards concerned to reduce this high cost in future.

33. *Contributions to Provincial, Municipal and other Funds.*—A sum of Rs. 8,962 was paid to Provincial Funds in partial adjustment of the famine debt of Rs. 5,67,000, the balance still due on this account being Rs. 12,730* at the end of the year. This sum has recently been ordered to be adjusted against Provincial funds. The following are the most important of the other items under this head :—

| (*e*) Contribution to the Vizagapatam Municipality towards the cost of the Pontoon bridge at Vizagapatam .. .. .. | 15,000 |

In addition to the above, payments, aggregating Rs. 21,537, were made to municipalities on account of tolls and public works in or near municipal towns, against Rs. 26,373 in the previous year.

## GRANT II—EDUCATION.

34. Excluding the cost of constructing and repairing school buildings (Rs. 16,884) shown under Grant I, the total expenditure on education was Rs. 6,45,776 against Rs. 7,00,797 in 1885-86, as shown below :—

| | 1885-86. | 1886-87. |
|---|---|---|

| Miscellaneous | 3,685 | 4,293 |

Appendix XVII shows the receipts and charges of the several schools, but does not include the receipts from the sale of books and contributions from municipalities for the inspection of municipal schools, or charges connected with the purchase of books, educational inspection and other miscellaneous items.

35. *Inspection.*—The educational operations of the Local Boards were, as usual, supervised by Deputy Inspectors of Schools and Inspecting Schoolmasters. As in 1885-86, the Deputy Inspectors were all borne on the Provincial list. Excluding three Deputy Inspectors under the direct control of the Inspectress of Girls' Schools and the Deputy Inspector employed exclusively for Madras town, there were 68 such officers against 65 in the preceding year, the increase being due to the entertainment of a fourth Deputy in Ganjam and Malabar and to the employment of a separate Deputy for the Nílgiris. An additional Deputy was also sanctioned for Salem, but the appointment does not appear to have been made within the year. There were 125 Inspecting Schoolmasters, paid entirely from Local Funds, against 121 in the previous year. These officers, who were maintained at a cost of Rs. 57,186 against Rs. 58,165 in 1885-86, visited 14,661 villages and prepared 14,948 schools for examination, the corresponding figures for the previous year being 16,380 and 14,435.

36. *Training Schools.*—At the close of 1885-86 there were 33* training schools for elementary teachers maintained by the several District Boards. This number was raised to 35 in the year under review by the opening of a new school for the training of Mappilas at Tellicherry (Malabar) and by the transfer to the District Board of a Hindu Normal School at that place which had been hitherto maintained by Government. Every District Board maintains at least one of these institutions, while in Malabar there are no less than 5. One school, at Calicut, maintained from the Moyan Endowment Funds, is intended for females. There were 857 students under training in all the schools, against 829 in the previous year. Of these, 772 were stipendiary students paid from Local Funds, and the remaining 85 were either free pupils or paid by municipalities, the corresponding figures for 1885-86 being 767 and 62. The number

* The figures for 1885-86 quoted in this paragraph exclude the Sessional schools in South Canara which were classed along with the ordinary Normal Schools in the review for that year, but are now treated separately.

of pupils who appeared for the Special Upper Primary examination from these schools was 692, of whom 448 or 65 per cent. passed. These figures, though they show a considerable improvement on the previous year, when the passes were only 54 per cent., are not so satisfactory as the results of 1884-85, when 74 per cent. of the candidates examined were successful. The results were best in Tanjore, Chingleput, Madura, Anantapur, Tinnevelly, South Canara and Cuddapah; and worst in North Arcot, Kurnool and Salem. All the 22 students who appeared from Tanjore were successful, while in Salem out of 54 presented not one passed. The special attention of the Salem District Board has already been called to this matter. The total cost of these institutions amounted to Rs. 70,300, against Rs. 66,661 in 1885-86. Excluding Provincial grants, school fees and miscellaneous receipts, the average net cost of training each successful student was Rs. 110 against Rs. 137 in the previous year, the falling off being the result of the increase in the number of passes. It was lowest in Madura (Rs. 43), Tanjore (Rs. 50), Tinnevelly (Rs. 53); and moderate in Chingleput (Rs. 64), Coimbatore (Rs. 69), Anantapur (Rs. 73) and Kistna (Rs. 82); but very high in North Arcot (Rs. 164), Cuddapah (Rs. 166), Bellary (Rs. 169), Malabar (Rs. 172) and Nílgiris (Rs. 259). The attention of the five last-named District Boards is drawn to these figures.

37. In addition to a regular Normal School, the South Canara District Board maintains three "Sessional Schools," at which village schoolmasters are trained in methods of teaching and prepared for the Special Upper Primary examination for about two months in the year. Twenty-seven schoolmasters were so trained during the year under review at a cost of Rs. 303 or on an average Rs. 11 per head. The Government consider these institutions well worthy of imitation in other districts.

38. *Secondary Schools.*—There were 100 Local Fund Secondary Schools at the close of the year, against 103 in the previous year, as shown in the margin. Of these 70 were maintained on the salary system, and the remaining 30 on the salary result system. The only collegiate institution was the Sanskrit College attached to the Kalyanamahal Chattram at Tiruvádi (Tanjore). This was attended by 70 pupils, who were as usual examined by the Head Pandit of the Kumbakónam College. The results of the highest class were poor, but those of the other classes fair.

|---|---|---|
| Colleges | 1 | 1 |
| High Schools | 3 | 4 |
| Middle Schools | 99 | 95 |
| Total | 103 | 100 |

The four High Schools were those of Tiruválúr (Tanjore), Udamalpet and Dhárápuram (Coimbatore), and Amalápuram (Godávari). The last-named school was raised to the High School standard as an experimental measure in February 1887. These four schools were attended by 420 pupils, and the results of their examination were on the whole satisfactory, 22 out of 39 presented having passed the Matriculation examination.

The decrease of four in the number of Middle Schools was due to the opening of 4 new schools at Avalkondah (North Arcot), Tenkási (Tinnevelly), and Matigiri and Harur (Salem), and to the closure or transfer of 8 old ones as shown below :—

| District. | Name of Middle School closed or transferred. | Remarks. |
|---|---|---|
| North Arcot | Gudiyátam | Transferred to the newly-constituted Gudiyátam Municipality. |
| North Arcot | Palmanér | Converted into a Primary School owing to diminished attendance. |
| Bellary | Narainadevarakera | Converted into a Primary School owing to its bad results. |
| Trichinopoly | Jayankondacholapuram | Do. do. do. do. |
| Chingleput | Poonamallee | Closed, as a Middle School has been established in the same village by the Church Missionary Society. |
| Coimbatore | Dhárápuram | Raised to the High School standard. |

all out-patients. In Vizagapatam, out of 10 dispensaries, 9 are shown in the 3rd class, whereas in the President's annual report it is stated that there was accommodation for in-patients in all but one. In the Ganjam President's report, it is stated that in that district the dispensaries are equipped only for the treatment of out-patients, whereas in Statement XII, one of these dispensaries is shown in the 2nd class. These patent errors have been corrected in the Appendix, but there appear to be other cases in which the figures given are inaccurate, and the Presidents are requested, in submitting their next annual reports, to see that the dispensaries are correctly classed in accordance with the principles above laid down. In Godávari, Ganjam, Nellore and Trichinopoly all the Local Fund dispensaries are of the 3rd class, and in Anantapur and Kurnool the number of 2nd class dispensaries is unduly small. The desirability of providing additional accommodation for in-patients has already been impressed on most of these Boards in reviewing the individual reports. Of the total number of dispensaries, 133 were in buildings belonging to the Local Boards, and the rest in rented houses, or in buildings lent by Government or private individuals. Twenty-five were maintained either wholly or partly from endowments, and eighteen others from the chattram funds in Tanjore and Tinnevelly.

The total expenditure under this head, including the pay of the medical subordinates in charge, but excluding the cost of (1) the additional medical practitioners employed on sanitary inspection, distribution of medicines, &c., in the districts of Godávari, Kistna, Madura and Nellore, (2) the medical schools in Madura, Nellore and Tanjore, (3) the District Medical and Sanitary Officers' establishments, and (4) midwives and midwifery pupils, was Rs. 2,28,258 against Rs. 2,44,887* in 1885-86. The decrease occurs mainly in North Arcot, Ganjam, Madura, Salem, Tanjore, Tinnevelly and Vizagapatam, and was due to the transfer of seven dispensaries to the new municipalities, and to savings in the salaries of medical subordinates and contingencies. The number of patients treated in these institutions during the last three years is shown below:—

| Years. | In-patients. | Out-patients. | Total. |
|---|---|---|---|
| 1884-85 .. .. .. .. | 11,179 | 1,041,476 | 1,052,655 |
| 1885-86 .. .. .. .. | 11,975 | 1,129,996 | 1,141,971 |
| 1886-87 .. .. .. .. | 11,163 | 1,177,781 | 1,188,944 |

The continued increase in the number of out-patients is satisfactory, but the total number of cases treated is still only 4 per cent. of the population.

46. In addition to the regular dispensaries, the Nellore District Board maintained 4 "Medical Centres," *i.e.*, selected villages where trained hospital assistants, who are supplied with medicines for gratuitous distribution, are sent to practise. Two thousand eight hundred and twenty-two patients were treated at these centres in 1886-87. These have been included in the returns given at the close of the last paragraph. The system is one which might well be followed in other districts.

The Vizagapatam District Board have arranged to employ 20 native doctors, each to be paid Rs. 2 per mensem, for the distribution of cheap and reliable English medicines among the villagers, after first training them in a Local Fund dispensary; but the experiment was not tried by the Board until after the close of the year. In this connection District Boards are reminded of the instruction given to them in G.O., 9th December 1885, No. 1185 L.F., to do what they can to foster and meet a demand for simple medicines in the villages, each individual Board being free to adopt its own scheme and methods.

47. *Medical Schools.*—During the greater part of the year, the District Boards of Nellore, Tanjore and Madura each maintained a local medical school for training hospital assistants. The school at Madura was, however, closed in February 1887, the students then under instruction being transferred to the school at Tanjore to complete their course. These schools were managed by the respective District Surgeons, and cost in all Rs. 13,161, against Rs. 14,178 in 1885-86. The Nellore Medical

* The figure given in paragraph 40 of the review for 1885-86 is Rs. 2,79,098, but this includes the charges for Medical Schools, midwives, District Surgeons' establishments, &c., which are separately shown in the year under review.

School had only 7 pupils, all of whom completed their 4 years' course in June 1887, and appeared for the Hospital Assistant grade examination, at which six passed. The Prince of Wales' Medical School at Tanjore had 36 pupils at the end of March 1887. In June 1886 it sent up five students for the Hospital Assistant grade examination and all passed, the first among them carrying off the Government gold medal. Of the 36 students in this school, two were from Bellary, one from Salem, and 18 from Madura, all trained at the cost of the respective District Boards. The students of this school received, as usual, clinical instruction at the Rajah-Mirassidar hospital under the superintendence of the District Surgeon. Some of the Hospital Assistants formerly trained at the Madura school are employed in that district as Sanitary Inspectors, and appear to have done good work.

48. *Midwives and Midwifery Pupils.*—The Local Boards of Malabar, Nílgiris, Trichinopoly and Vizagapatam employed no midwives. In the remaining 17 districts, 89 of these women were employed against 101* in the previous year, but these attended 3,337 labor cases against 2,951 in 1885-86. The outturn of work was, however, still poor, each midwife having attended on an average 38 cases in the year, or only three cases per month. The average in Kistna was particularly low, being about one case per mensem. In Kurnool, the midwife attended only three cases throughout the year, while in Ganjam the only midwife employed (at Chicacole) attended one case up to November 1886, when she resigned. The attention of the Local Boards has been drawn to these unsatisfactory results in reviewing the individual reports, and the Government trust that every endeavour will be made to secure better work in future. The pay of the midwives should be made to depend to a certain extent on the amount of work done by them, and the services of caste females should be procured whenever possible. The cost of midwives and midwifery pupils is shown as Rs. 6,850 in Appendix V, whereas the cost of midwives alone, as reported by the Local Boards, was Rs. 10,860. It is presumed that the difference has been included under the head "Clerks and servants" in the former statement. If so, the procedure is incorrect. The Accountant-General should arrange in future to show the cost of midwives and of midwifery pupils separately.

49. In obedience to a request made by the Government of India, the various District Boards were called upon to report the steps taken by them towards increasing the supply of female doctors and trained nurses, and especially of nurses trained. The replies received will be found summarised in Appendix XIX. The Government consider that the progress made in this direction was, on the whole, satisfactory, and they trust that a further advance will be made in the current and ensuing years. The action of the Kistna, Nellore, Vizagapatam and Tanjore Boards in this matter is worthy of special commendation.

50. *Vaccination.*—Appendix XX shows the strength, cost and operations of the Local Fund vaccine establishments. There were 47 Deputy Inspectors of Vaccination, against 46 in 1885-86, and 632 vaccinators, including probationers, against 592 in that year. The work of these men and the average cost of each successful case are compared below with the corresponding figures of the previous year:—

| Years. | Number of persons vaccinated. | Number of successful cases. | Percentage of successful cases to number vaccinated. | Cost per successful case. |
|---|---|---|---|---|
| | | | | RS. A. P. |
| 1885-86 .. .. .. .. .. .. | 601,160 | 569,058 | 95 | 0 4 0 |
| 1886-87 .. .. .. .. .. .. | 596,794 | 567,599 | 95 | 0 3 11 |

It will be seen that, in spite of the increase in establishments noted above, the number of vaccinations has diminished—a most unsatisfactory result. It is observed that 100,178 children under one year of age, or only 13 per cent. of the number of births registered during the year, were protected from small-pox. The districts which show the best results in regard to infantile vaccination are Malabar, Godávari, Tanjore and

* The decrease in the number of midwives appears to be due to the inclusion of mere nurses in some of the last year's returns.

Nellore, in which 43, 37, 28 and 22 per cent., respectively, of the number of children born were protected from small-pox. The worst percentages are shown by the districts noted in the margin. The progress of infantile vaccination should receive the earnest attention of these Boards, and special mention should be made in their future reports of the steps taken to promote it. Taking the total number of successful vaccinations, there was, as compared with 1885-86, a decrease in the outturn of work in the following 12 districts, and an increase in the remaining nine :—

| Vizagapatam .. .. .. .. .. | 45,304 | 37,236 | 17·81 |

The increase was particularly satisfactory in Salem and Chingleput, the number of successful cases exceeding those of the previous year by 22·6 per cent. and 19·8 per cent. respectively. It was also satisfactory in the districts shown in the margin. On the other hand, the decrease was enormous in Kurnool, Nellore, Anantapur, Vizagapatam and Nílgiris, and considerable in Kistna, Tanjore and Trichinopoly. It is ascribed to (1) the non-prevalence of small-pox during the year in the districts concerned; (2) the prejudice against vaccination among the rural population; and (3) the absence of vaccinators on leave, &c. In reviewing the individual district reports, the Government have shown these explanations to be unsatisfactory, and in Kurnool the Inspector of Vaccination has been directed to make a special inquiry into the work of the vaccine staff. The extension of vaccine operations depends a great deal on the amount of sympathy and active interest which the district officials and the Local Board members take in the matter and on the care with which they supervise the work of the vaccine staff. The fact of the vaccination charges being debited to the District fund does not in any way relieve the members of Taluk Boards and Panchayats from the duty of checking the local vaccinator's work and rendering him every assistance in their power, and the Government trust that the multiplication of Local Boards will tend to produce a great improvement in the results shown by this department. It is believed that the Deputy Inspectors of Vaccination are in many cases idle and inefficient. His Excellency in Council expects the Presidents of District Boards at once to report such men to the Sanitary Commissioner for punishment.

51. Judging from the returns, the quality of the vaccination work continues to be satisfactory, 95 per cent. of the total operations having proved successful as in the previous year. The average cost of each successful case for the Presidency also shows an improvement, being annas 3-11, or 1 pie less than in 1885-86. It was, however, very high in Nílgiris (annas 11-4), Kistna (annas 10-8), Cuddapah (annas 10-3), Kurnool (annas 9-10), Godávari (annas 7-5), and Nellore (annas 6-3). Compared with the previous year, there was an increase of cost in all these districts, except Cuddapah and Godávari, due to a diminished outturn of work.

52. Animal vaccination was continued in Kurnool with satisfactory results. In Chingleput, Bellary and Salem, it was introduced for the first time during the year, and the results have proved successful, but in North Arcot and Cuddapah, where it was introduced in 1885-86, it had to be abandoned owing to its excessive cost. In Malabar and South Arcot, it is stated that arrangements were made for its introduction during the current year.

53. In addition to the work of the Local Fund vaccinators dealt with above, 5,088 cases are shown in the Local Fund reports as having been vaccinated by medical subordinates attached to dispensaries in South Canara, Chingleput, Malabar, Salem, Tanjore and Trichinopoly. But from the Sanitary Commissioner's report for 1886, it would appear that operations were conducted by the medical subordinates in all districts. The District Boards' reports should in future contain information on this point.

54. *Sanitation.*—The details of the expenditure under this head in each district are shown in Appendix XXI. Excluding the sum of Rs. 24,136 spent on sanitary public works under Grant I, the outlay on sanitation was Rs. 2,51,529 as shown below, against Rs. 2,46,651 in 1885-86. In both years the sanitary expenditure amounted to 4·1 per cent. of the total current receipts :—

| | 1885-86. Rs. | 1886-87. Rs. |
|---|---|---|
| (1) Improvement of water-supply .. .. .. | 47,802 | 47,864 |

| (4) Arrangements at fairs and festivals .. .. | 10,311 | 9,251 |
| (5) Other Sanitary outlay .. .. .. .. | 16,749 | 20,543 |
| Total .. | 2,46,651 | 2,51,529 |

No new work of any importance was undertaken during the year. As usual, the sanitary works under improvement of water-supply consisted chiefly of the construction and repair of wells and tanks. Eighty-eight wells and 10 tanks were newly constructed and 165 watchmen were employed in guarding drinking-water sources from contamination. One hundred and ninety village-sites were improved, and rank vegetation and prickly-pear was removed in 113 villages. In Coimbatore and Vizagapatam, itinerating gangs were employed to remove prickly pear, level streets, dig side-drains, &c., and are reported to have done good work. The system is a good one, and should be followed elsewhere.

Out of 51,930 minor towns and villages in the Presidency, only 562 are provided with regular conservancy establishments as shown below :—

In Nellore it is stated by the President that no scavenging establishments were maintained for want of funds, whereas on page 77 of the Sanitary Commissioner's report for 1886, the number of villages conserved in that district is given as 25. The discrepancy should be explained. The number of villages conserved in Malabar, Anantapur, South Canara, Chingleput, Trichinopoly, Vizagapatam, Kurnool, and Bellary should be increased. Where there is a Union, the conservancy establishment is now under the charge of the Chairman and the Panchayat; in other cases it is supervised by the local Revenue officers. Special sanitary arrangements, such as the entertainment of temporary scavengers and the construction of temporary latrines, &c., were made during important festivals at 139 places.

55. The total sanitary expenditure was only 80 per cent. of the sanctioned allotments, against 82 per cent. in 1885-86 and 85 per cent. in 1884-85. This decrease, notwithstanding the repeated orders of Government to work up to the allotments, is perhaps the most unsatisfactory feature of the year's administration. The

dercentage was specially bad in the districts noted in the margin, while in Madura, Anantapur, Bellary, and Nílgiris it exceeded 95 per cent. (in the first two districts the allotments were even exceeded). In Godávari and Nellore the Divisional officers appear to be at fault. In Vizagapatam the decrease, as compared with the budget, occurs chiefly under Improvement of water-supply, and is explained by the fact that the heavy rains of October and November 1886 filled almost all tanks and wells, and rendered expenditure impracticable in many cases. The short outlay in Cuddapah is ascribed to the late date at which the sanctioned budget was received and the Taluk Boards and Union Panchayats commenced to work. But even allowing for these circumstances, better results should have been achieved. In Malabar the President states that the outlay may appear small, but that the amount was properly utilized. In reply to this the Government have already intimated that the present expenditure is altogether inadequate to the needs of the district. No explanation has been given of the short expenditure in Kurnool. As the subject of village sanitation is one of immense importance, the Government trust that the newly constituted Taluk Boards and Panchayats will adopt special measures to see that the allotments sanctioned for the several works are fully utilized.

56. *Markets and Bungalows.*—The expenditure under these heads has already been noticed in paragraph 20.

57. *Choultries.*—Including the Arcot and Kurnool langarkhanas and the poor house at Tanjore, there were 376 Local Fund choultries, against 370 in 1885-86. Of these, 210 had endowments attached to them. In 42 of these latter, 1,972,515 daily rations were issued at a cost of Rs. 95,841, against 2,103,099 rations at a cost of Rs. 1,19,234 in the previous year. The remaining 334 are mere rest-houses. The decrease in the cost of feeding occurs chiefly in Tanjore, and is explained by the fact that the value of paddy used for feeding purposes in 1885-86 was computed at the high market prices which ruled in that year. In the Arcot langarkhana (poor-house), 24,332 persons were fed at a cost of Rs. 786, while in that at Kurnool, 30 infirm persons received a maintenance dole of Re. 1 each per mensem. In the poor-house at Tanjore, 130,245 persons were fed at a cost of Rs. 1,676. In Tinnevelly, Rs. 2,432 were paid from the Tirukurangudi and Kuttalam chattram funds as monthly pensions to 65 cripples. Including charges for establishments, contingencies, &c., the total expenditure on choultries was Rs. 2,01,176, as shown in Appendix XXII, against Rs. 2,22,567 in 1885-86. The Chingleput Board only maintained one choultry (at Chingleput). They should consider the advisability of establishing more.

Appendix XXII.

58. *Contributions.*—The contributions paid from Local funds for medical, sanitary, and other purposes amounted to Rs. 1,93,505, as shown in the statement below, against Rs. 1,64,405 in 1885-86. The increase occurs chiefly under medicines and surgical apparatus, and contributions to municipalities for hospitals and dispensaries. In the former case it was apparently due to medicines obtained for the dispensaries newly opened during the year, while the increase in the latter was due to the contributions paid to the newly-constituted municipalities and to the transfer of the unexpended balance of Rs. 5,291* in favor of the Tirupati dispensary to the town council. The increase under "Maintenance of Lunatics" appears to be partly owing to the payment of arrear charges of 1885-86.

GRANT IV—MISCELLANEOUS.

59. *Supervision and Office Management.*—The total cost of supervision, including contingencies, amounted to Rs. 2,50,265 against Rs. 1,87,822 in 1885-86 and was 4·1 per cent. of the actual receipts of the year and 4·3 per cent. of the charges. The increase occurs principally under Local Boards' office establishment and contingencies, and was due partly to the establishments entertained and the contingent charges incurred by the Taluk Boards and Panchayats newly constituted, and partly to the payment of printing charges at the Government Press for the years 1883-84, 1884-85 and 1885-86 having been made in the year under review. The pay of the head clerks or "managers" in the various District Boards' offices varies from Rs. 40 to Rs. 70. The maximum establishment allowed for each Taluk Board's office is a clerk on Rs. 25, or two clerks on Rs. 15 and Rs. 10 respectively, and an attender or peon on Rs. 8. The Panchayat of every Union in which house-tax is levied is permitted to employ a karnam on Rs. 10 and a bill-collector on Rs. 5; those of the other Unions a karnam on Rs. 7 only.

60. *Repayment of, and interest on, Loans.*—The Chingleput and Malabar District Boards paid Rs. 9,792 as interest, and Rs. 16,510 as instalments of principal, on account of loans received from Imperial Funds. The purposes for which these loans were obtained and the balances due at the close of the year are shown below:—

| Boards. | Amount of Loan. | Purpose for which raised. | Mode of repayment. | Amount still due. | Probable date of repayment. |
|---|---|---|---|---|---|
| | RS. | | | RS. | |
| Chingleput .. .. .. .. | 1,99,790 @ 4½ per cent. | Construction of the iron girder bridge across the Kortalaiyár river. | Annual payment to Government. | 1,35,790 | 1,898 |
| Malabar .. .. .. .. | 1,49,000 @ 4½ per cent. | Completion of the Támrachéri and Peria ghât roads. | Do. .. | 68,968 | 1,898 |

In addition to the above, Rs. 1,050 were paid by the Tinnevelly District Board as interest on the sum of Rs. 35,000 borrowed by them from the surplus of the endowments (choultries Rs. 30,000 and markets Rs. 5,000) under the control of the Taluk Boards. In Tanjore a sum of Rs. 2,18,200 was invested in Government securities in favor of the Railway Guarantee Fund, the total investments on this account up to 31st March 1887 being Rs. 5,00,000.

61. *Refunds of Cess, &c.*—The payments under this head amounted to Rs. 8,146 against Rs. 11,321 in the previous year. The decrease is merely nominal, the educational and medical refunds of 1886-87 being exhibited in Appendix V under Grants II and III, instead of being shown under Grant IV as formerly.

## IV—ENDOWMENTS, &c.

62. The total number of endowed institutions, such as schools, hospitals and dispensaries, choultries, markets, &c., under the control of the various Local Boards and Panchayats, are shown in Appendix XXIV, while their gross receipts and charges are shown in Appendices XXV and XXVI furnished by the Accountant-General. Excluding Rs. 38,364 appropriated from general funds to meet excess expenditure and Rs. 26,737 allotted from the funds of some of the Rajah's chattrams in the

Tanjore District to meet the deficit with which other chattrams and dispensaries connected with the fund would otherwise have closed, the actual receipts of these institutions amounted to Rs. 3,56,216 against Rs. 3,69,247 in the previous year, and the charges to Rs. 3,63,823 against Rs. 3,73,832. The following abstract shows the receipts and charges under the several heads compared with the corresponding figures for the previous year :—

| — | Receipts. | | Charges. | |
|---|---|---|---|---|
| | 1885-86. | 1886-87. | 1885-86. | 1886-87. |
| | Rs. | Rs. | Rs. | Rs. |
| Schools .. .. .. .. | 12,056 | 6,848 | 11,465 | 5,379 |

| Choultries .. .. .. .. | 2,66,630 | 2,58,675 | 2,88,879 | 2,72,144 |
| Markets .. .. .. .. | 68,477 | 66,889 | 44,597 | 50,510 |

| Total .. | 3,69,247 | 3,56,216 | 3,73,832 | 3,63,823 |

63. The decrease in the receipts under the first head was partly due to a sum of Rs. 4,029, representing the interest derived from the endowment in favor of the Prince of Wales' Medical School at Tanjore, being shown in the year under review under Hospitals and Dispensaries instead of under Schools as in 1885-86, and partly to the smaller receipts from the Moyan endowed lands attached to the Female Normal School at Calicut (Malabar). The decrease under the third head occurs chiefly in Tanjore for the reasons already explained in paragraph 20, while that under the fourth occurs mainly in Coimbatore, where the balance due from some of the contractors was not adjusted within the year from the security deposited by them. The total balance in favor of these institutions was Rs. 3,08,514 at the commencement of the year, and Rs. 3,00,907 at its close. The largest balances were in the districts noted in the margin, and these should be turned to good account in the current and ensuing years.

| Madura ... ... ... ... | 59,632 |
| Coimbatore ... ... ... .. | 50,559 |

64. The following points require notice in connection with the Appendices above referred to :—

(*a*) In Appendix IV the Government contribution of Rs. 2,050 on account of the Munro's chattram and dispensary at Gooty in Anantapur is shown under Choultries, whereas in Appendix XXV it appears under Hospitals and Dispensaries.

(*b*) In Appendix IV a sum of Rs. 49 is shown as the income of the Vriddhá-chalam dispensary in South Arcot, whereas no such entry appears in Appendix XXV.

(*c*) In Appendix IV the Government contributions on account of choultries in Tanjore are shown as Rs. 12,356, whereas in Appendix XXV the amount is given as Rs. 12,596.

(*d*) In Appendix IV the choultry and market rents are shown as Rs. 2,09,037 and Rs. 67,173, respectively, whereas according to Appendix XXV they amounted to Rs. 2,09,563 and Rs. 66,707, respectively.

(*e*) The establishment, contingent, &c., charges of choultries as given in Appendix V differ in some cases from those shown in Appendix XXVI.

(*f*) The establishment and contingent charges of markets are shown in Appendix V as Rs. 14,976, whereas according to Appendix XXVI they amounted to Rs. 19,514.

(*g*) The fixed and contingent charges of the endowed schools in Kistna and Malabar and of the endowed dispensary in the latter district are incorrectly shown in Appendix XXVI under the heads "Allotted for education" and "Allotted for dispensaries," respectively.

It is noted that the Accountant-General has since stated, in explaining similar discrepancies noticed in the accounts for 1885-86, that it has not hitherto been found possible to effect a complete correspondence between the entries in Appendices IV and V and those in Appendices XXV and XXVI, as the detailed heads are not the same in both sets of accounts, but that steps have now been taken by him to secure such additional details in the accounts received from the districts as will make agreement possible in future.

65. *Endowed Schools.*—There were 6 schools of this class against 4 in the previous year, viz., the four specified in paragraph 52 of the general review for 1885-86, the Tenkási Anglo-Vernacular School in Tinnevelly district, and the Kulitalai Middle School in Trichinopoly. The two last schools were taken over during the year, the former with an endowment of Rs. 1,393, and the latter with Rs. 1,200, both in cash. In addition to these, there were 5 schools in Tanjore and 1 in Tinnevelly which may also be regarded as endowed, since they were entirely maintained from the funds of endowed chattrams, viz., the Sanskrit College at Tiruvádi ; the girls' school at Nídamangalam ; three boys' schools at Rajamattam, Oratanad and Patukóta, in the Tanjore district ; and the Anglo-Vernacular School at Tirukarangudi, in the Tinnevelly district.

66. *Endowed Dispensaries.*—There were 25 institutions of this class against 23 in 1885-86. In North Arcot, the dispensary at Tirupati, supported from the Devastanam funds, was made over to the Town Council, while in Trichinopoly the newly-opened dispensaries at Udayárpálaiyam, Turaiyúr and Perambalúr were provided with money endowments amounting to Rs. 3,000, Rs. 2,000 and Rs. 2,000, respectively. These sums were given by the local zemindars of the first two places, and subscribed by the inhabitants in the last. In addition to these, there were 16 dispensaries in Tanjore maintained wholly from the funds of the Rajah's chattrams, and two in Tinnevelly maintained from the funds of the Tirukarangudi chattram.

67. *Endowed Choultries.*—The number of these institutions was 210 against 201 in 1885-86. The increase is explained in a foot note to Appendix XXIV. Particulars with regard to the most important endowed choultries have already been given in paragraph 57.

68. *Endowed Tanks, &c.*—There was an increase of one in the number of endowed tanks* or ponds, as compared with 1885-86. The number of endowed water-sheds and langarkhanas (poor-houses) remained the same. Markets have already been noticed in paragraph 20.

| | 1885-86. | 1886-87. |
|---|---|---|
| * Tanks ... ... ... | 30 | 31 |
| Water-sheds ... ... | 13 | 13 |
| Langarkhanas, &c. ... | 3 | 3 |
| Markets ... ... ... | 228 | 250 |

69. *Miscellaneous Endowments.*—The items included under this head are the "District Officers' Bungalow Fund" in South Canara, which is composed of subscriptions from district officers for the upkeep of 17 bungalows used by them when on tour ; the "Surplus Pagoda Fund" in Chingleput, the proceeds of which are devoted to the upkeep of the Chingleput dispensary ; "Petrus Uscan's Charity Fund" in the same district founded for the perpetual repair of the Marmalong bridge and the steps up St. Thomas' Mount ; the "Taylorpettah Fund" in Godávari, consisting of the fees levied on godowns, stalls and carts in the cartstand at Taylorpettah, a suburb of Narsápur, and devoted to the sanitation and general improvement of the village ; the "Price Vaccination Fund" in Salem, intended for the promotion of vaccination in that district ; and the "Surplus Pagoda Fund" in the same district, the proceeds of which are devoted to sanitary improvement.

70. *Contributions from Private Individuals.*—The amount of voluntary contributions made by private individuals or bodies for works of local utility was only Rs. 20,300, as shown below, against Rs. 31,866 in the previous year :—

| | 1885-86. | 1886-87. |
|---|---|---|
| | Rs. | Rs. |
| Public works ... ... ... ... ... ... | 6,400 | 5,786 |
| Hospitals and dispensaries ... ... ... ... | 8,145 | 3,542 |
| Schools ... ... ... ... ... ... ... | 893 | 261 |
| Sanitary purposes ... ... ... ... ... | 16,428 | 10,711 |
| Total ... | 31,866 | 20,300 |

The decrease under "Hospitals and Dispensaries" has been already mentioned in paragraph 18; that under "Sanitary purposes" is observable chiefly in Ganjam, Madura and Vizagapatam. As regards the first two of these districts, no explanation has been given. The falling off in Vizagapatam is attributed to the fact that most of these contributions are for the improvement of water-supply, and that owing to favorable rains the existing sources were found sufficient in the year under review.

71. *Maps.*—In November 1886 Presidents of District Boards were required to submit with their annual reports once in every five years, commencing with the year under review, illustrative maps of the district showing the several Local Fund Taluks, Unions, hospitals and dispensaries, roads, bridges, ferries and toll-gates, as also the municipalities and principal municipal institutions, in view to a map of the Presidency showing these particulars being annexed to the general review as suggested by the Government of India in their letter, dated 31st August 1886, No. 25-1289. But as only 16 of such district maps have been received up to date, the Presidency map is not yet ready. It will be completed and circulated as soon as the maps of the remaining five districts are received.

G.O., dated 1st November 1886, No. 1447, L. F.

72. In conclusion, the Governor in Council is pleased to be able to observe that, taken as a whole, the administration of Local Funds during the year 1886-87 has been satisfactory and reflects credit on the Local Boards and their Presidents. The preceding paragraphs will show how large and varied are the interests confided to their care, and how vitally important their activity is to the people of the Presidency. The new Taluk Boards are only beginning to work, but there are already indications that their institution will tend to a quickening of the Local Fund administration, and that they will in the future take, as was intended, the chief share in it. The weak points in the year under review have in most cases been vaccination and expenditure of the sanitary allotments, as well as a want of progress in extending elementary education. But the Government are aware that the time which the Collector-President and his district officers can afford to give to Local Fund work has been greatly taken up in starting and guiding the Taluk Boards and Unions newly called into existence, and they trust that, now that the initial difficulties in this respect have been overcome, Presidents will be able seriously to direct their own attention and that of their Boards towards remedying the defects above pointed out. The adjustment of the accounts and powers of District and Taluk Boards were a matter of no small complication, and the Government are gratified to find that a good start has been made. Taking the districts individually, the District Boards of Madura, Malabar, Salem and South Canara may be singled out for special commendation, while, on the other hand, in Kistna and Nellore the results achieved left much to be desired.

## APPENDIX XIX.

*Action taken by the various District Boards towards the furtherance of Female Medical Education.*

SUMMARY of Replies to G.O., dated 5th September 1887, No. 1684-A. L.

*Anantapur and Nilgiris.*—The District Boards are not at present in a position to give the subject their consideration owing to want of funds.

*Arcot, North.*—The District Board employs a trained midwife for each of the dispensaries at Chittoor, Ranipet and Arni, and also contributes a moiety of the cost of a trained midwife employed by the Branch National Association at Chittoor to treat patients at their homes.

*Arcot, South.*—The District Board offered in 1886-87 to employ a female medical practitioner possessing the qualifications of a civil apothecary on a salary of Rs. 70 per mensem, but as no such person was procurable for the salary offered, the matter dropped. A midwifery pupil was being trained in the Cuddalore dispensary. In the current year (1887-88), the Board have established a monthly scholarship of Rs. 20 to be paid to a female student to enable her to prosecute her studies in the Madras Medical College for the hospital assistant grade, and have advertized for three midwifery pupils to be sent to Madras for training.

*Bellary.*—Provision was made in the budget for 1886-87 for the grant of scholarships to native women of the District who would undergo training at the Lying-in Hospital at Madras, but none were found willing to go there. Similar provision has been made in the current year, and steps are being taken to induce some of the barber caste women to proceed to Madras for the purpose. Provision has also been made for a midwife for each of the dispensaries in the District and for a nurse for the dispensary at Hadagalli.

*Canara South, Kurnool and Salem.*—No action was taken in the matter in the year under review.

*Chingleput.*—Five trained midwives are now employed in the District, and two midwifery pupils receiving a monthly stipend of Rs. 8 each are being trained at Madras.

*Coimbatore.*—Employment was given to four trained midwives, and measures are being adopted to establish scholarships for the education at Madras of a few female pupils to be sent from this District in connection with Lady Dufferin's Fund.

*Cuddapah.*—The Local Boards did not take any action in the matter in 1886-87. The Madanapalle and Pilér dispensaries are provided with midwives and nurses, and Kadiri and Ráyachóti dispensaries with nurses only.

*Ganjam.*—The only thing done by the District Board in or previous to 1886-87 was the employment of a trained midwife for the Chicacole Division. She resigned in November 1886, and her place was not filled up, as there appeared to have been very little demand for her services.

*Godávari and Malabar.*—The subject will engage the Boards' attention when the budget for the ensuing year comes under consideration.

*Kistna.*—Since January 1886, the District Board have been maintaining at Masulipatam a class of four female obstetric students, receiving a monthly stipend of Rs. 5 each. They are taught by a trained nurse on Rs. 50 per mensem under the supervision of the District Surgeon.

*Madura.*—The District Board has maintained two midwifery pupils on Rs. 5 each.

*Nellore.*—Native women are trained in midwifery at the Nellore Lying-in Hospital. Proposals for imparting better education in medicine and surgery in addition to midwifery are now being discussed by the District Board.

*Tanjore.*—Nothing was done during the year under review, but in October 1887, the District Board sanctioned the admission of three female students to the Tanjore Medical School to be educated for the medical practitioner grade.

*Tinnevelly.*—The District Board have undertaken to grant a scholarship of Rs. 20, for three years, to a lady pupil for the hospital assistant grade.

*Trichinopoly.*—Nothing was done in 1886-87, but three scholarships of Rs. 8 each have been provided for in the current year for training females as native midwives in connection with the Countess of Dufferin's Fund.

*Vizagapatam.*—The District Board have resolved to allot annually Rs. 2,400 for the establishment of qualified female medical practitioners, and a further sum not exceeding half per cent. of their income for medical tuition for females. In the current year, Rs. 1,380 have been allotted for training five females for the hospital assistant grade, each pupil to receive a monthly stipend of Rs. 20 for three years.

The increase in the number of choultries as compared with 1885-86 occurs in South Arcot (3), Bellary (1), Nellore (1), Tanjore (2), Tinnevelly (1) and Trichinopoly (1). In South Arcot the choultry at Kanmapuram taken over by the District Board in April 1885 was granted some inam lands under G.O., Revenue Department, dated 16th January 1887, No. 29; the choultry at Kallakurchi with the lands attached to it was purchased by the District Board during the year under review; and the one at Buvanagiri is now classed as endowed as the District Board realize income from the rent of bazaars attached thereto. In Bellary, Bapu Row's choultry at Hampasagar with the lands attached to it was made over to the District Board during the year. The President of the Nellore District Board has been requested to explain the increase in the number of choultries in that district. The increase of two in Tanjore is accounted for by the transfer to the District Board of the Annadhana kuttalai chattram and the Nadiyam muttam endowment. In Tinnevelly the number of endowed choultries is now correctly shown as 23 instead of 22 as given in the review for 1885-86, while in Trichinopoly the increase of one was due to the inclusion of the Kanmanur choultry, about which the President promises a further report.

ORDER—dated 16th February 1888, No. 408 A L., Local and Municipal.

The reports of the several District Boards for 1886-87 having been separately reviewed in the Proceedings read above, the Government now proceed to consider them collectively.

2. As regards the dates on which these reports were submitted, it is satisfactory to note that there was much improvement as compared with the previous year. But, nevertheless, only five (from South Arcot, Anantapur, Chingleput, Malabar and Nílgiris) were received within the prescribed date, viz. the 15th of July, while one (from Cuddapah) was more than two months, and the last (from Vizagapatam) nearly three months behind time. The Government trust that arrangements will be made in future not only to submit the reports more punctually, but also to make the accompanying statements complete in every respect, so as to avoid the frequent calls for explanation of discrepancies and for further information which now greatly delay the preparation of the general review.

## I.—GENERAL.

3. *Administration.*—The year under review was the second in which the Madras Local Boards Act V of 1884 was in operation. The administrative system introduced by that Act was completed in most districts by the constitution of Taluk Boards and Village Unions. Steps had been taken towards the formation of these bodies in 1885-86

(*vide* G.O., 4th July 1887, No. 1276 L, paragraph 5), but none of them had actually commenced work in that year. At the close of 1886-87 there were 66 Taluk Boards and 136 Unions at work: 17 more Taluk Boards and 77 Unions, which were constituted during the year, commenced work only in 1887-88. Rules for the guidance of Local Boards and their agents and officers in matters connected with the carrying out of the provisions of the Act, and for the election of members of District Boards by the Taluk Boards, were passed during the year under review, but did not come into force until after its close.

G.O., dated 26th June 1886, No. 721 L.F.
" " 28th January 1887, No. 196 L.

4. *District Boards.*—These continued to be 21 in number, corresponding with the mofussil Collectorates, as required by the Act. Appendix I shows the constitution of the various Boards and the attendance at meetings. On the 31st March 1887, there were 585 members on these Boards, out of a sanctioned maximum strength of 752 members. All these members were appointed by Government; but under the rules above referred to half the members of each District Board will eventually be elected by the Taluk Boards, except in the districts of Kurnool and Nílgiris where no Taluk Boards exist. The South Canara and Ganjam District Boards had less than the minimum strength of 24 members prescribed by the Act, but the vacancies have since been filled up. Of the total number of District Board members, 146 were officials and 439 non-officials, against 148 and 459 respectively in the previous year. Each Board had thus on an average 28 members, of whom 7 were officials and 21 non-officials, the corresponding figures of 1885-86 being 7 and 22. The Boards held in all 240 meetings during the year, against 279 in 1885-86, and the average number of meetings for each Board thus fell from 13 to 11—a decrease which may be accounted for by the establishment of Taluk Boards and the consequent diminution of the District Boards' work. The largest number of meetings during the year (20) was held by the Trichinopoly District Board; the smallest by the Boards of Cuddapah (7), Tinnevelly (7), South Canara (8), Salem (8), and Chingleput (9). It is to be regretted that in Coimbatore and Tanjore 2 and 6 meetings respectively had to be postponed for want of a quorum. A similar complaint is made in Kurnool, but the number of postponed meetings has not been stated by the President. The average attendance for all Boards was 11 members at each meeting (2 officials and 9 non-officials) against 12 members (3 officials and 9 non-officials) in 1885-86. It was good in North Arcot and Bellary, being over one-half of the total strength, and poor in Coimbatore, Ganjam, Nellore, Tanjore and Trichinopoly, where it was a third or less of the number of members. The attendance of the official members was very poor in Chingleput and Malabar; that of the non-official members was, with certain exceptions which have been brought to notice in reviewing the individual reports, on the whole satisfactory.

5. *Taluk Boards.*—Appendix II shows the constitution and attendance of the Taluk Boards at work during the year. These were 66 in number, working in 15 districts. In Madura the Melúr taluk, the Tirushuli division, and the portion of the Madura taluk lying north of the Vaigai were under the direct control of the District Board—an arrangement which has, however, since been altered; in every other case the whole of the district was sub-divided into Local Fund taluks. In Kurnool and the Nílgiris the introduction of Taluk Boards is not contemplated for the present. In the remaining four districts * Boards were formed during the year, but did not commence working. The 66 Taluk Boards at work on the 31st March 1887 consisted of 851 members, of whom 244 were officials and 607 non-officials. Each Board had thus on an average 13 members—4 officials and 9 non-officials. These Boards held in all 589 meetings, the average attendance at each meeting being 7 members—2 officials and 5 non-officials. Considering that the year under review was the first in which the Boards began to work, and that in many cases they were started late in the year, the attendance of members and the number of meetings was on the whole satisfactory.

6. *Unions.*—The names of the Village Unions constituted up to the close of the year are given in two lists in Appendix III. Those actually at work within the year are entered in List I. They are 136 in number, distributed among twelve districts, as shown below:—

| | | | |
|---|---|---|---|
| Anantapur | 9 | Kistna | 15 |
| North Arcot | 7 | Kurnool | 1 |
| South Arcot | 7 | Madura | 28 |
| Bellary | 10 | Salem | 8 |
| Chingleput | 11 | Tanjore | 1 |
| Cuddapah | 16 | Tinnevelly | 23 |

Unions in which house-tax was levied are marked in the Appendix with an asterisk. Seventy-seven unions commenced work only during the current year and these are shown in List II. They belong to the following districts:—

| | | | |
|---|---|---|---|
| Coimbatore | 16 | Tanjore | 17 |
| Ganjam | 11 | Trichinopoly | 7 |
| Godávari | 1 | Vizagapatam | 11 |
| Nellore | 14 | | |

The districts in which no unions had been constituted up to the close of the year are Malabar, South Canara and Nílgiris. The unions actually at work raised from house-tax, and from market, pandal and other fees an income of Rs. 39,920 which was supplemented by grants amounting to Rs. 40,284 from District and Taluk funds as shown in the following paragraph. The receipts and charges of the Unions in each district are shown in detail in Appendix XXIII. Their work is at present mainly confined to sanitation and the construction and repair of village streets, and they appear in most cases to have made a good beginning. The power of appointing the Chairmen and Members of the Union Panchayats, which has since been made over to the Presidents of District Boards, was retained by Government during the year under review. Care was taken to select non-official Chairmen whenever possible, and Presidents were instructed not to nominate revenue officers except under special circumstances. Future reports should contain a statement similar in form to Appendix II, but omitting the last three columns (average attendance of members), to show the constitution of the Panchayats.

7. *Financial Position.*—Appendices IV and V furnished by the Accountant-General, show in detail the receipts and charges of the several Local Boards, including the Union Panchayats, while Appendix VI shows briefly their financial position. The following abstract compares the total results for all the Local Boards with those of the previous year:—

* This deficit balance was the amount standing against the Arcot market (North Arcot District) which was transferred to the local Union.

Excluding debt heads (Rs. 11,616) and contributions from the Local Boards of one district to those of another (Rs. 2,576), the actual receipts amounted to Rs. 60,83,335 against Rs. 60,40,686 in 1885-86, and the charges to Rs. 58,31,433 against

Rs. 58,19,675. The year closed with a balance of Rs. 22,97,387 or 38 per cent. of the actual receipts, of which Rs. 3,00,906 appertained to endowed institutions in charge of the several Local Boards, and Rs. 1,01,821 to the Railway Guarantee Fund under the control of the Tanjore District Board. All the districts closed the year with balances to their credit, and these exceeded a lakh in South Arcot (Rs. 1,77,793), Bellary (Rs. 1,10,035), Coimbatore (Rs. 1,08,680), Godávari (Rs. 1,60,902), Kistna (Rs. 3,14,559), Madura (Rs. 2,35,560), Malabar (Rs. 1,66,472), Salem (Rs. 1,22,380), Tanjore (Rs. 1,86,727) and Tinnevelly (Rs. 1,75,233). In Coimbatore and Tanjore the balance belongs very largely to endowments (including in the latter district the Railway Guarantee Fund). In South Arcot money is required for the reconstruction of bridges destroyed by the floods of 1884-85; in Tinnevelly for the erection of an iron girder bridge across the Támraparni at Srívaikuntham; and in Malabar to meet the expenditure on the Irrity and Merampoya bridges. In the remaining districts such large balances are not required, and they should be reduced as soon as possible by increased expenditure on works of public utility.

8. *District and Taluk Funds.*—The following are the principles on which distribution of receipts and charges between District and Taluk Boards is generally made:—

Taluk Boards receive half the land-cess; the whole receipts from schools, markets, choultries, dispensaries and other institutions under their control; and other miscellaneous receipts. In South Canara, South Arcot and Coimbatore, they also receive a share of the toll revenue. The other receipts, excepting those derived from house-tax, market-fees, &c., in Unions, are credited to the District Board. The regular Taluk receipts are, however, in many cases supplemented by special allotments from the District fund. As regards expenditure, the District Boards are responsible for the main lines of communication; for normal schools and educational inspection charges; all charges connected with vaccination; contributions to the municipality for dispensaries at the head-quarter town; the District Medical and Sanitary Officers' establishments; contributions to Government for the Medical College, &c.; and the greater part of the charges under Grant IV. Taluk Boards have to provide for minor roads, avenues, bungalows, &c.; all education charges except those borne by the District Board; the upkeep of dispensaries; conservancy charges in all villages other than Unions; and the cost of the establishments under their own control. The cost of the Engineering establishment is divided between District and Taluk Boards in proportion to their outlay on public works.

9. *Taxation.*—Appendix VII shows the incidence of Local Fund taxation per head of the population in each district according to the census of 1881. The average for the Presidency was the same as in 1885-86, being As. 2-10 including and As. 2-6 excluding tolls. Taxation was lightest in Malabar (As. 2-1 per head including tolls) and heaviest in Nílgiris (As. 9-11). The circumstances of the latter district are peculiar, and in only one other district, viz., Kistna (As. 4-10), was the incidence, including tolls, in excess of As. 4 per head.

## II.—RECEIPTS.

10. *Opening Balances.*—Appendix VIII shows the total receipts of all Local Boards under the several heads compared with the budget estimates for the year and the actuals of 1885-86. The year opened with a balance of Rs. 20,57,285 against the budget estimate of Rs. 12,65,200. The increase over the budget was large in Madura (Rs. 1,37,305), Tanjore (Rs. 1,30,781), Kistna (Rs. 99,381), Malabar (Rs. 91,390), Godávari (Rs. 84,522), Tinnevelly (Rs. 63,852), Kurnool (Rs. 42,884) and Trichinopoly (Rs. 38,157), and was generally due to enhanced receipts under land-cess and to short expenditure on public works in 1885-86. There was a decrease, as compared with the budget estimate, in five districts, but it did not exceed Rs. 10,000 in any.

11. The *current receipts* amounted to Rs. 60,83,335 against Rs. 60,40,686 in the previous year. The following abstract shows the receipts under the several heads compared with those of the previous year:—

| Total | 60,40,686 | 60,83,335 | 100·00 | 100·00 |

12. *Land-cess.*—The cess on land was levied at the rate of two annas per rupee of the annual rent value in Malabar, and at one anna in the other districts, except South Canara and Godávari, where it was one anna and three pies, and nine pies respectively. In South Canara the rate was formerly one anna, but it was raised during the year under review owing to the financial necessities of the Board. This tax is by far the most important source of local revenue. The collections thereunder amounted to Rs. 42,87,141, or 70·47 per cent. of the entire receipts of the year, against Rs. 44,42,936 or 73·55 per cent. in 1885-86. The decrease of Rs. 1,55,795 was the net result of a falling off amounting to Rs. 2,47,225 in fourteen districts, and of an increase of Rs. 91,430 in seven others. The decrease was large in Cuddapah (Rs. 41,059), Bellary (Rs. 37,000), Trichinopoly (Rs. 31,743), Tanjore (Rs. 30,663), Chingleput (Rs. 24,905), Tinnevelly (Rs. 17,450), Coimbatore (Rs. 16,821), Kurnool (Rs. 15,200), Anantapur (Rs. 13,872) and Godávari (Rs. 13,324), and was due, except in Bellary, Tinnevelly and Coimbatore, to the collections of 1885-86 having included a large amount of arrears. The decrease in Bellary is explained by the fact that the revenue of 1885-86 was abnormally raised by a change in the kistbundi instalments by which a large sum which would have been otherwise payable in 1884-85 fell due in that year. In Tinnevelly it was due to a fall in the demand and to slowness in collection owing to the unfavorable character of the season. The decrease in Coimbatore has not been explained. The increase was large in North Arcot (Rs. 25,027), Salem (Rs. 15,736), Ganjam (Rs. 15,327), South Canara (Rs. 15,170) and Nellore (Rs. 12,076). In North Arcot it was due to a corresponding increase in the land revenue demand and to the collection of the entire arrear and current demand of the Kálahasti zemindari. In Salem and Ganjam it was due to prompt collections; in South Canara to the raising of the rate by three pies from fasli 1296; and in Nellore partly to greater energy in collection, and partly to increased rates under the Sangam project.

13. Appendix IX shows the demand, collection and balance of the cess, the rates at which it was levied, and the percentage of collection to demand in the several districts. According to this statement, which has been compiled from the district returns, the total collections amounted to Rs. 42,77,307, or Rs. 9,834 less than the amount given above, which has been adopted from the Accountant-General's statements. The difference is, as usual, due to the fact that the Accountant-General's

figures, which are compiled from the treasury accounts, show the total collections during the year, including the sums paid in advance for 1887-88, while the demand, collection and balance statements received from the districts show only the collections appertaining to the year under review and those preceding it. In fourteen districts the percentage of collections to demand was higher, and in five * lower, than in 1885-86. It is satisfactory to note that the total collections of all the districts amounted to 91 per cent. of the demand against 90 per cent. in the previous year, while, taking the current collections alone, the percentage to demand was 93 against 91. The improvement in Ganjam was specially marked, the percentage of total collections having risen from 76 to 93. As in 1885-86, collections were best in South Canara and Malabar, being 99 per cent. of the demand in each case; Madura comes next with 97 per cent. against 94 in the previous year. On the other hand the percentage in Cuddapah fell from 83 to 76, owing to slack collections. The total amount written off the accounts as irrecoverable, chiefly in Nellore, Anantapur, Bellary and Kistna, was Rs. 7,743 against Rs. 13,016 in the previous year.

14. *Tolls.*—Appendix X shows the statistics of tolls. During the year under review tolls were collected at 213 stations against 191 in the previous year. Ten additional toll-gates were opened in the districts noted in the margin; the five gates on the Kullar-Gúdalúr road (Nílgiris) which is in charge of the Public Works Department were included in the District Board's accounts, as the tolls were levied under the Local Boards Act; and seven supplementary gates at the three towns of Polláchi (Coimbatore), Cumbum (Kurnool), and Pálkonda (Vizagapatam) were separately classed for the first time. Several gates, in the districts noted in the margin, were removed to better localities so as to catch traffic which hitherto evaded the payment of tolls. At 88 gates tolls were levied at the maximum schedule rates, and at the remaining 125 gates at half rates. The total gross revenue under this head amounted to Rs. 5,67,520 against Rs. 5,00,442 in the previous year, the increase being due chiefly to the additional gates above referred to. South Arcot is the only district in which the District Board collects the bulk of its tolls by departmental agency. In the remaining 16 districts in which tolls are levied the gates are mainly or entirely leased out by auction to contractors. Of the total receipts, Rs. 4,59,828, or 81 per cent., were realized from the Local Fund toll-gates, and the remainder was contributed by municipalities as the Local Fund share of the tolls levied on trunk roads passing through them. In North Arcot, Bellary, Godávari and Tanjore the Local Boards maintained no toll-gates of their own, and derived the whole of their income from municipal contributions. The Anantapur, Kistna, Kurnool, and Vizagapatam Boards maintained only four gates each; the Chingleput Board five; and the Madura Board six; while the Malabar, South Arcot and Cuddapah Boards had as many as 35, 28 and 24 gates, respectively. In Appendix IV the Local Fund toll receipts of the Kurnool district are shown as Rs. 5,520, whereas in the District Board's account only Rs. 3,405 are shown under this head, Rs. 2,102 of the balance being entered as contribution from the Kurnool municipality and Rs. 13 as ferry receipts. The Local Fund toll receipts of the Vizagapatam district are shown in the same statement as Rs. 5,269, whereas the amount given in the District Board's accounts and report is Rs. 5,469, there being a corresponding decrease of Rs. 200 under Markets. The Presidents concerned are requested to explain these discrepancies.

15. Deducting Rs. 31,225 contributed to Provincial and Municipal funds and Rs. 17,696 spent on establishments, works, &c., the net receipts from tolls for all districts amounted to Rs. 5,18,599, or Rs. 28-6 per mile of road maintained by the Local Boards. The cost of the upkeep of these roads being Rs. 105-3 per mile, nearly 27 per cent. of the outlay was thus recouped by tolls. In North Arcot, Godávari and Nellore the portion of the road expenditure thus covered was below 10 per cent., while in South Arcot, South Canara and Nílgiris it was 54, 64 and 64 per cent. respectively.

16. *House-tax.*—This tax, which was leviable under the old Act in connection with education, but was held in abeyance for some years, has been reimposed under the new Act in Village Unions to provide funds for their administration. During the year under review arrangements were made by the District Boards concerned for its imposition in 66 of the principal Unions, but it was actually levied in 53 Unions only, viz., at the maximum schedule rates in 18, at three-fourths rates in 4, and at half rates in the remaining 31. The proceeds of the tax in each Union were placed at the disposal of the Panchayat concerned for expenditure on sanitation. The revival of this tax was necessarily somewhat unpopular at the outset, but the Government believe that the feeling against it will die away when it is clearly understood that the whole of the proceeds will be devoted to local wants. In fact in many places it will simply take the place of a contribution that had been voluntarily paid to private sanitary associations. The principles which have guided the Government in this matter have been clearly explained in G.O., 15th June 1887, No. 1115 L., and they need only repeat now that the initiative in regard to the imposition of the tax has been left entirely in the hands of the District Boards, and that so far from exercising any pressure on the Boards, the Government have in some cases found it necessary to restrict their proposals. His Excellency the Governor in Council, however, does not wish it to be understood that the Government disapprove the tax. On the contrary they believe that it is very necessary and that it will not prove oppressive; but they desire to confine it to places where it is clearly wanted, where it can be well spent, and where accordingly the benefits of the Union organisation can make it appreciated by the taxpayers. Appendix XI shows the demand, collection and balance of this tax, and other particulars connected with it. According to this statement, the total demand of the year amounted to Rs. 54,019, of which only Rs. 36,965, or 68 per cent., were collected, against Rs. 57,200 anticipated in the budget. This sum differs from that shown in the statement in para. 11 by Rs. 426. In North Arcot Rs. 22, being fees &c., collected in the Unions, were erroneously included under House-tax in Appendix IV; the President of the District Board, Tinnevelly, will be requested to explain the remaining difference of Rs. 448, which occurs in his district. The decrease, compared with the budget estimate,* was due to (1) the tax not being levied during the year in 13 Unions which had been taken into account in the budgets, (2) the late date at which some of the Panchayats commenced work, and (3) the difficulty in collection owing to the novelty and initial unpopularity of the tax. It is hoped that the current year's collections under this head will be more satisfactory. A statement showing the incidence of this tax in the subjoined form should in future be submitted with the annual reports:—

17. *Educational.*—The receipts under this head amounted to Rs. 1,18,841 against Rs. 1,16,361 in the previous year. The principal item is of course school-fees, which brought in Rs. 98,275 against Rs. 96,351 in 1885-86, the increase being due to the larger attendance of pupils in most of the districts. The sum of Rs. 4,248 shown as income from endowments in paragraph 11 above was the rent of the Moyan endowment lands attached to the Female Normal School at Calicut. As in 1885-86, Appendix IV does not show the rent derived from the lands attached to the Ponnúr school in Kistna (Rs. 18), which appears in Appendix XXV. Of the sum of Rs. 16,318 shown under "Other items," Rs. 12,609 were derived from the sale of books.

18. *Medical.*—The receipts under this head, comprising the sale-proceeds of medicines, contributions from municipalities and private individuals for hospitals and dispensaries, income derived from the endowments of these institutions, &c., amounted to Rs. 11,993 against Rs. 15,281 in 1885-86. The sum of Rs. 511 shown as income from endowments in paragraph 11, represents the rent of lands attached to the dispensaries at Vriddháchalam (South Arcot), Saidápet (Chingleput), Tiruvadanai (Madura) and Ponáni (Malabar). Of the sum of Rs. 11,482 shown under "Other items," Rs. 3,542 represent contributions from private individuals against Rs. 8,145 in the previous year. The decrease under this latter head, which is much to be regretted, occurs mainly in North Arcot, Ganjam, Kistna, Malabar, Nílgiris, Tinnevelly and Vizagapatam.

19. *Interest.*—The income under this head amounted to Rs. 47,421 † against Rs. 42,578 in the previous year. The increase occurs under Interest on Government securities, mainly in Tanjore, where Rs. 2,18,200 appertaining to the Railway Guarantee Fund were invested during the year under review. Appendix XII shows the investments made in favor of endowed institutions managed by the Local Boards and the interest derived therefrom, which amounted to Rs. 42,646 as shown below:—

In Kistna, Trichinopoly and Tinnevelly, the interest due on the amounts invested was not fully drawn within the year—an omission which should not be allowed to recur in future. In Godávari, Kistna, and Tanjore, income-tax is stated to have been paid on the interest drawn on the amounts invested in favor of the Taylorpettah Fund, the Peddapatam choultry, and the Railway Guarantee Fund. Application should at once be made for the refund of such payments, as the income of Local authorities has been exempted from liability to this tax (*vide* Government of India Financial Notification, dated 27th April 1886, No. 434). The President, District Board, Tinnevelly, is requested to explain why the sum of Rs. 1,393 invested in favor of the Tenkási middle school, referred to in his letter disposed of in G.O., dated 27th April 1885, No. 73 L.F., has not been included in the return submitted by him.

20. *Miscellaneous.*—The income under this head, comprising the rents of choultries, markets, bungalows, ferries and fisheries and the receipts from avenues, &c., as detailed

in paragraph 11 above, amounted to Rs. 5,11,353 against Rs. 4,99,638 in the previous year. The variations in the several items will be noticed below:—

(*a*) *Choultry Rents.*—The rents of lands attached to choultries, together with miscellaneous receipts therefrom, amounted to Rs. 2,09,037, against Rs. 2,21,105 * in the previous year. The decrease occurs chiefly in Tanjore, where the bulk of the revenue under this head is raised, and it is explained by the fact that the collections of 1885-86 included a large amount of arrears. The above sum is exclusive of Rs. 62, derived from the lands attached to the Nadagani choultry in Nílgiris and from the rent of the lands of the Peddapatam choultry in Kistna, which are incorrectly shown under the head "Rents and produce of land" in Appendix IV.

(*b*) *Market Rents.*—In the general review for 1885-86, the number of markets in which fees were levied by Local Boards was entered as 239. It now appears that the figure should have been 228. During the year now under review, the fee system was extended to 22 additional markets. Excluding the balance of Rs. 1,11,127 in favor of these institutions at the beginning of the year, and the receipts of two markets in Tanjore which, as they were started from chattram funds, are credited thereto, the total receipts amounted to Rs. 67,173 against Rs. 68,450 in 1885-86. The charges aggregated Rs. 52,460, of which Rs. 19,955 were spent on establishments, contingencies, &c., and Rs. 32,505 on the improvements to the markets. There was thus a balance of Rs. 1,25,840 at the close of the year. The closing balances were specially large in Coimbatore (Rs. 47,183) and Madura (Rs. 29,367). If these balances cannot be usefully laid out on the construction of new markets, on the improvement of the existing ones, or on the construction and repair of feeder roads, the rates of fees should be reduced. As in 1885-86, the receipts from this source were largest in Coimbatore (Rs. 20,220). Madura comes next with Rs. 12,024, and North Arcot, Trichinopoly, Salem, and Anantapur follow with Rs. 8,187, Rs. 5,163, Rs. 4,971 and Rs. 4,960 respectively. On the other hand the receipts were insignificant in South Arcot, Nílgiris, South Canara, Malabar and Vizagapatam; while no fees whatever were levied in Chingleput, Ganjam, Kistna and Nellore. In Chingleput the President reports that the question of introducing the fee system is being considered by the Taluk Boards, and in Kistna steps have now been taken to establish some markets; but the Presidents of the South Arcot, Nílgiris, South Canara, Malabar, Vizagapatam, Ganjam and Nellore Boards have not reported on the subject. They are requested to state, when submitting their next annual reports, what steps have been taken or are about to be taken for the development of local resources in this direction. The condition of the existing markets and the extent to which they are resorted to by the public should also be touched on in each annual report.

(*c*) *Bungalow Fees.*—Excluding the 17 bungalows in South Canara maintained from the District Officers' Fund, which are now under the control of the District Board, but are not available for use by ordinary private travellers, there were 262 Local Fund bungalows at which 7,772 travellers halted during the year, against 242 bungalows used by 7,866 travellers in 1885-86. The fees levied from these travellers amounted to Rs. 10,602 against Rs. 11,006 in the previous year, and the expenditure on the bungalows, including the cost of repairs, &c., was Rs. 25,207 against Rs. 24,614.

(*d*) *Ferry Rents.*—The income under this head, derived from the ferries under the control of the Local Boards, amounted to Rs. 21,858 against Rs. 20,724 in 1885-86.

(*e*) *Fishery Rents.*—The receipts from this source amounted to Rs. 1,13,347 against Rs. 97,759 in the previous year. The increase occurs mainly in Ganjam (Rs. 5,437), Tanjore (Rs. 4,744), Kistna (Rs. 3,109) and Salem (Rs. 1,553), and is ascribed to (1) the collection of the arrears of previous years, (2) competition at the sale of the farms, (3) the favorable character of the season, and (4) the realization of the entire current demand. Of the receipts under this head, Rs. 1,09,704 were realized by the Revenue Department and Rs. 3,643 by the Public Works Department.

* In addition to this a sum of Rs. 284 realized as interest on the funds of a choultry in Ganjam was included by the Accountant-General under Choultry Rents in 1885-86.

(*f*) *Avenue Receipts.*—The income derived from the rents of avenues and the sale of withered trees and clippings amounted to Rs. 53,455 against Rs. 45,875 in the previous year, while the amount spent on the plantation and maintenance of avenues was Rs. 67,248 against Rs. 63,385. Appendix XIII shows the statistics of avenues in the several districts. From these it appears that there were 2,114,423 trees under the care of the Local Boards at the beginning of the year; 173,862 were planted and 61,987 perished during the year; and thus the number left at its close was 2,226,298. The information furnished under this head cannot, however, be regarded as accurate. For instance the number of trees existing at the end of 1885-86 in the districts noted below, as now reported, differs widely from that given in the statements for that year, and the Presidents concerned are requested to explain the discrepancies :—

| | Number of trees on 31st Mar. 1886. | |
|---|---|---|
| | As reported in 1885-86. | As reported in 1886-87. |
| South Arcot .. .. .. .. .. .. | 120,294 | 181,499 |
| Tanjore .. .. .. .. .. .. | 121,782 | 251,054 |
| Vizagapatam .. .. .. .. .. .. | 27,756 | 36,740 |

The large number of trees planted during the year in Kistna, Vizagapatam, Madura, Coimbatore and Salem is very satisfactory. In Anantapur, South Arcot, Malabar and Tanjore the number of trees that withered was in excess of the new plantations. Nellore, Bellary, Ganjam, Kurnool and Anantapur are districts in which the number of avenue trees should be largely increased.

(*g*) The other items of miscellaneous receipts, excepting contributions from private individuals referred to in paragraph 70 below, call for no remarks.

21. *Public Works.*—The receipts under this head amounted to Rs. 47,978 against Rs. 43,970 in 1885-86. The increase occurs in Madura, where a sum of Rs. 15,000 paid in 1884-85 to the Madura municipality towards the construction of the Vaigai bridge was in the year under review refunded to the District Board to whom the work had been transferred.

22. *Contributions from Provincial Funds* amounted to Rs. 3,01,305 against Rs. 2,27,135 in the previous year, and were paid for the following purposes :—

| | 1885-86. | 1886-87. |
|---|---|---|
| | RS. | RS. |
| (*a*) Roads .. .. .. .. .. .. | 1,02,000 | 2,07,980 |

| (*f*) Miscellaneous (refunds, &c.) .. .. .. | 22,734 | 1,554 |
| Total .. | 2,27,135 | 3,01,305 |

(*a*) The grants for roads were paid to the Boards of South Arcot, South Canara and Nílgiris. The South Arcot Board received a grant of Rs. 1,27,130, viz., Rs. 90,000 (in addition to Rs. 50,000 paid in the previous two years) for the restoration of the roads and bridges damaged by the floods of 1884-85, and Rs. 37,130 for payment to the Pondicherry Government towards the reconstruction of the Chunambar bridge on the road from Cuddalore to Pondicherry, also destroyed by the floods of that year. The South Canara Board received Rs. 18,850, viz., Rs. 4,500 in part payment of a sum of Rs. 38,000 sanctioned for the construction of the Bisli ghât road on the representation of the Chief Commissioner of Coorg, and Rs. 14,350 towards the restoration of the Sanur and Todar bridges on the road from Mangalore to Shimoga; and a grant of Rs. 62,000 was made to the Nílgiri Board for the upkeep of the district roads.

G.O., dated 20th August 1886, Nos. 1018, 1019, L.F.

(*b*) Of the grants for schools, Rs. 35,695 were paid by the Director of Public Instruction on account of schools transferred to local management, and Rs. 960 was the allowance made for the support of the Yeomiah school at Arcot transferred to the North Arcot District Board in 1884.

(*c*) The grant of Rs. 4,786 on account of hospitals and dispensaries was made up of Rs. 2,066 contributed from the Arcot Langerkhana Fund to the North Arcot Board towards the upkeep of the Ranipet dispensary; Rs. 2,640 paid to the Tanjore Board on account of the Raja Mirassidar hospital at Tanjore; and Rs. 80 paid to the Madura Board on account of medicines used in the treatment of police constables in the Local Fund dispensary at Ramnad.

(*d*) The Anantapur, North Arcot, South Arcot, Coimbatore, Kurnool, Madura, Nílgiris, Salem, Tanjore, and Tinnevelly Boards were, as usual, paid grants amounting to Rs. 33,330 on account of choultries. These grants were in most cases given in lieu of emoluments from lands originally assigned to the choultries by their founders, but subsequently resumed by Government.

(*e*) The South Canara and Nílgiri Boards received grants, amounting to Rs. 5,000 and Rs. 12,000 respectively, for general purposes in consideration of the paucity of their funds.

(*f*) The sum of Rs. 1,554 shown under the head "Miscellaneous" comprises the refund * of the contribution of Rs. 1,337 paid by the Salem Board in 1885-86 on account of the Medical College, and of Rs. 217 spent by the Kurnool Board on the construction of a dead-house at Márkápur. In Appendix IV, however, the latter figure has been incorrectly shown under the head General Purposes; and it does not appear that the sum of Rs. 177, which is stated by the President to have been contributed from Provincial funds to the Tinnevelly Board towards the repairs of the bund of Puckle's channel, has been included in this statement.

23. *Contributions from Special Funds.*—(*a*) The share of the Pound Fund surplus transferred to Local funds was Rs. 40,251 against Rs. 40,227 in 1885-86. There was a considerable increase in Bellary (Rs. 1,250) and Kurnool (Rs. 2,716), counterbalanced by decreases in Cuddapah (Rs. 763), Tanjore (Rs. 1,722), and Trichinopoly (Rs. 945).

(*b*) *Contributions from the Canal and Ferry Fund*, from the surplus of the collections at the ferries in South Canara, Kistna, Malabar, Tanjore and Trichinopoly, to which the Canal and Ferry Act I of 1870 has been extended, amounted to Rs. 1,12,993 against Rs. 1,12,118 in the previous year. The bulk of the receipts under this head was realized in Malabar, where they amounted to Rs. 78,883 against Rs. 77,567 in 1885-86. South Canara comes next with Rs. 19,610; and Trichinopoly and Tanjore follow with Rs. 8,000 and Rs. 5,500, respectively.

24. *Contributions from Municipalities*, amounting to Rs. 18,106 against Rs. 22,856 in the previous year, were received for the following purposes, and are included under those heads in the statement given in paragraph 11 :—

## III.—EXPENDITURE.

25. Excluding debt heads and contributions from the Local Boards of one district to those of another, the total expenditure of Local Boards amounted to Rs. 58,31,433

* Made in consequence of the Board having subsequently arranged to educate its medical pupils in the Prince of Wales' School at Tanjore.

against Rs. 58,19,675 in the previous year. The following abstract shows the expenditure under the several heads and the percentage of outlay under each Grant, compared with the corresponding figures for the previous year. A more detailed statement will be found in Appendix XIV :—

## GRANT I—PUBLIC WORKS.

26. Appendix XV shows the particulars of the outlay on public works and the cost of the supervising establishments, including contingencies and tools and plant. The total expenditure on works amounted to Rs. 28,81,810 against Rs. 30,74,937 in the previous year. The outlay on communications was Rs. 26,41,425 or 83 per cent. of the total allotments, against Rs. 28,32,988 or 82 per cent. in 1885-86. Of this sum, Rs. 25,95,163 were spent by the Engineering establishments employed by the Local Boards, and the remainder (Rs. 46,262) by the Public Works Department, chiefly on the Vaigai bridge in Madura and on roads running along tank and channel banks in South Arcot, Ganjam, Godávari, Kistna, Nellore, Tanjore and Trichinopoly. The expenditure on the construction and repair of buildings was Rs. 1,20,169 against Rs. 1,14,589 in the previous year, and that on miscellaneous public improvements relating to avenues, markets, tanks, wells, &c., amounted to Rs. 1,20,216 against Rs. 1,27,360.

27. It is satisfactory to note that the total outlay on public works was 83 per cent. of the sanctioned allotments, against 80 per cent. in the preceding year. In Tanjore, Godávari and Vizagapatam the expenditure exceeded the allotments by 10, 8,

and 5 per cent., respectively, owing to outlay having been incurred on the incomplete works of 1885-86, and on the repairs of roads damaged by floods, without a formal allotment of funds. The percentage was also very good in Nílgiris (97), North Arcot (95), Nellore (94), South Canara (92), Coimbatore (91), and Trichinopoly (91); but very low in Malabar (56), Bellary (60), Kistna (62), Kurnool (67), and Tinnevelly (73). The explanations given for the short outlay by these latter Boards will be found in Appendix XV. With the exception of Malabar, they are all districts which were specially noticed for short expenditure in the general review for 1885-86, and it is observed that the excuses now given are almost the same as were then put forward. The real cause is probably want of energy on the part of the Boards' Public Works establishments, and the Government look to the Presidents concerned to remedy this state of things.

28. *Roads.*—Appendix XVI shows the mileage and cost of the roads constructed and repaired during the year. All roads which merely connect one village with another or with a district or taluk road have been classed as "Village roads," and all other roads as "Taluk" or "District" according as they are maintained by a Taluk or by the District Board. The following abstract shows the total length of roads under the control of the Local Boards at the commencement of the year and of those maintained by them during the year, with the cost of their maintenance :—

The expenditure on new roads, including those in progress, was large in the marginally-noted Districts. In Kistna much of this money might with advantage have been devoted to improving the existing communications, many of which appear to be in very bad order, especially in the Répalle and Bápatla Taluks. It will be seen from paragraph 7 *supra* that the balances in the Kistna District are very large, and the bad state of the roads cannot be ascribed to want of funds. The expenditure on village roads is still very small, being only 4 per cent. of the entire outlay on roads against 7 per cent. in 1885-86. In Anantapur, Bellary, South Canara, Nílgiris and Trichinopoly there was, according to Statement XVI, no expenditure whatever either on the repair or the construction of village roads. This is probably due to defective classification, and the Presidents of the District Boards concerned are directed to submit revised returns. In thirteen districts, the condition of the roads has been reported to be generally good, while in four (Kistna, Nellore, Madura and Trichinopoly) it was unsatisfactory. No information has been given as to the remaining four districts (Cuddapah, Tanjore, Bellary and Anantapur).

31. *Establishments and Contingencies.*—The expenditure of Rs. 5,82,075 shown under this head in the statement given in paragraph 25 above comprises the following items :—

| | RS. |
|---|---|
| (1) Local Fund Engineering establishments, including contingencies .. .. .. .. .. .. .. .. | 5,32,277 |
| (2) Public Works Department for supervision of works .. .. | 6,816 |
| (3) Do. do. for scrutiny of plans and estimates. | 29,263 |
| (4) Toll and Ferry establishments .. .. .. .. .. | 13,719 |
| Total .. | 5,82,075 |

During the year under review the Finance Committee suggested for consideration the execution of all Local Fund public works by the Imperial Public Works Department; but the Government considered that such a change would be most undesirable, as it would greatly diminish, if not wholly destroy, the responsibility of Local Boards for works which, while nominally remaining under their control, would in reality be supervised by officers entirely independent of their authority. The Local Fund public works accordingly continue under the charge of the special Engineering establishments employed by the Boards. These establishments worked under the direct control of the District Boards, the Taluk Boards generally contributing to their cost in proportion to the outlay from Taluk funds on public works. The total cost of these establishments, including contingencies, amounted to Rs. 5,32,277 or 19 per cent. of the outlay on works, against Rs. 5,31,078 or 17 per cent. in 1885-86, the maximum proportion fixed by rule being 20 per cent. The increase in the percentage during the year under review is due to decreased expenditure on public works. The prescribed maximum of 20 per cent. was exceeded in no less than eight districts, as noted in the margin. In the first six of these this was due to short expenditure on works; the excess in the remaining two districts has not been explained. In Kurnool, Nellore and South Canara, the 20 per cent. limit was exceeded in 1885-86 also. The Nellore District Board have been directed to take steps for the reduction of their establishment, and similar orders will have to be passed in the case of the other two districts if the current year's figures are not more satisfactory. The Government are glad to note that the establishments in South Arcot, Madura and Vizagapatam cost only 11, 13 and 15 per cent. of the outlay on works.

A sum of Rs. 6,816 was paid to the Public Works Department for the execution of Local Fund works entrusted to their charge in Godávari, Kistna, Madura and Trichinopoly. The *minus* entry of Re. 1 against Nellore in Appendix V is explained to be due to the rounding off of figures.

Contributions, amounting to Rs. 29,263, were also paid to the Public Works Department for the scrutiny of important Local Fund plans and estimates. In previous years, a lump sum of Rs. 21,250 was paid on this account; but as this was thought to be excessive, the Government ruled that from the beginning of the year under review a fixed rate of $2\frac{1}{2}$ per cent. on the value of estimates examined should be paid by each District Board. The change has, however, so far proved the reverse of economical, and the question of reducing the rate is now under consideration.

The cost of the Toll and Ferry establishments was Rs. 13,719 against Rs. 11,503 in 1885-86, the increase occurring in South Arcot, in which all the toll-gates except three were managed departmentally instead of being leased out as in the previous year.

32. The expenditure on *Tools and Plant* amounted to Rs. 24,002 or 0·8 per cent. of the outlay on works, against Rs. 37,610 or 1·2 per cent. in 1885-86, the sanctioned rate being 1 per cent. The outlay was high in Godávari (1·7), South Canara (1·6), Kistna (1·4), and Malabar (1·3). Steps should be taken by the Boards concerned to reduce this high cost in future.

33. *Contributions to Provincial, Municipal and other Funds.*—A sum of Rs. 8,962 was paid to Provincial Funds in partial adjustment of the famine debt of Rs. 5,67,000, the balance still due on this account being Rs. 12,730* at the end of the year. This sum has recently been ordered to be adjusted against Provincial funds. The following are the most important of the other items under this head :—

In addition to the above, payments, aggregating Rs. 21,537, were made to municipalities on account of tolls and public works in or near municipal towns, against Rs. 26,373 in the previous year.

## GRANT II—EDUCATION.

34. Excluding the cost of constructing and repairing school buildings (Rs. 16,884) shown under Grant I, the total expenditure on education was Rs. 6,45,776 against Rs. 7,00,797 in 1885-86, as shown below :—

| | 1885-86. | 1886-87. |

Appendix XVII shows the receipts and charges of the several schools, but does not include the receipts from the sale of books and contributions from municipalities for the inspection of municipal schools, or charges connected with the purchase of books, educational inspection and other miscellaneous items.

35. *Inspection.*—The educational operations of the Local Boards were, as usual, supervised by Deputy Inspectors of Schools and Inspecting Schoolmasters. As in 1885-86, the Deputy Inspectors were all borne on the Provincial list. Excluding three Deputy Inspectors under the direct control of the Inspectress of Girls' Schools and the Deputy Inspector employed exclusively for Madras town, there were 68 such officers against 65 in the preceding year, the increase being due to the entertainment of a fourth Deputy in Ganjam and Malabar and to the employment of a separate Deputy for the Nilgiris. An additional Deputy was also sanctioned for Salem, but the appointment does not appear to have been made within the year. There were 125 Inspecting Schoolmasters, paid entirely from Local Funds, against 121 in the previous year. These officers, who were maintained at a cost of Rs. 57,186 against Rs. 58,165 in 1885-86, visited 14,661 villages and prepared 14,948 schools for examination, the corresponding figures for the previous year being 16,380 and 14,435.

36. *Training Schools.*—At the close of 1885-86 there were 33* training schools for elementary teachers maintained by the several District Boards. This number was raised to 35 in the year under review by the opening of a new school for the training of Mappilas at Tellicherry (Malabar) and by the transfer to the District Board of a Hindu Normal School at that place which had been hitherto maintained by Government. Every District Board maintains at least one of these institutions, while in Malabar there are no less than 5. One school, at Calicut, maintained from the Moyan Endowment Funds, is intended for females. There were 857 students under training in all the schools, against 829 in the previous year. Of these, 772 were stipendiary students paid from Local Funds, and the remaining 85 were either free pupils or paid by municipalities, the corresponding figures for 1885-86 being 767 and 62. The number

* The figures for 1885-86 quoted in this paragraph exclude the Sessional schools in South Canara which were classed along with the ordinary Normal Schools in the review for that year, but are now treated separately.

of pupils who appeared for the Special Upper Primary examination from these schools was 692, of whom 448 or 65 per cent. passed. These figures, though they show a considerable improvement on the previous year, when the passes were only 64 per cent., are not so satisfactory as the results of 1884-85, when 74 per cent. of the candidates examined were successful. The results were best in Tanjore, Chingleput, Madura, Anantapur, Tinnevelly, South Canara and Cuddapah; and worst in North Arcot, Kurnool and Salem. All the 22 students who appeared from Tanjore were successful, while in Salem out of 54 presented not one passed. The special attention of the Salem District Board has already been called to this matter. The total cost of these institutions amounted to Rs. 70,300, against Rs. 66,661 in 1885-86. Excluding Provincial grants, school fees and miscellaneous receipts, the average net cost of training each successful student was Rs. 110 against Rs. 137 in the previous year, the falling off being the result of the increase in the number of passes. It was lowest in Madura (Rs. 43), Tanjore (Rs. 50), Tinnevelly (Rs. 53); and moderate in Chingleput (Rs. 64), Coimbatore (Rs. 69), Anantapur (Rs. 73) and Kistna (Rs. 82); but very high in North Arcot (Rs. 164), Cuddapah (Rs. 166), Bellary (Rs. 169), Malabar (Rs. 172) and Nilgiris (Rs. 259). The attention of the five last-named District Boards is drawn to these figures.

37. In addition to a regular Normal School, the South Canara District Board maintains three "Sessional Schools," at which village schoolmasters are trained in methods of teaching and prepared for the Special Upper Primary examination for about two months in the year. Twenty-seven schoolmasters were so trained during the year under review at a cost of Rs. 303 or on an average Rs. 11 per head. The Government consider these institutions well worthy of imitation in other districts.

38. *Secondary Schools.*—There were 100 Local Fund Secondary Schools at the close of the year, against 103 in the previous year, as shown in the margin. Of these 70 were maintained on the salary system, and the remaining 30 on the salary result system. The only collegiate institution was the Sanskrit College attached to the Kalyanamahal Chattram at Tiruvádi (Tanjore). This was attended by 70 pupils, who were as usual examined by the Head Pandit of the Kumbakónam College. The results of the highest class were poor, but those of the other classes fair.

| Colleges .. .. .. | 1 | 1 |
| High Schools .. .. .. | 3 | 4 |

The four High Schools were those of Tiruválúr (Tanjore), Udamalpet and Dhárápuram (Coimbatore), and Amalápuram (Godávari). The last-named school was raised to the High School standard as an experimental measure in February 1887. These four schools were attended by 420 pupils, and the results of their examination were on the whole satisfactory, 22 out of 39 presented having passed the Matriculation examination.

The decrease of four in the number of Middle Schools was due to the opening of 4 new schools at Avalkondah (North Arcot), Tenkási (Tinnevelly), and Matigiri and Harur (Salem), and to the closure or transfer of 8 old ones as shown below :—

| District. | Name of Middle School closed or transferred. | Remarks. |

| North Arcot .. .. | Palmanér .. .. .. .. | Converted into a Primary School owing to diminished attendance. |

| Salem .. .. .. | Tirupatur .. .. .. .. | Transferred to the newly constituted Tirupatur Municipality. |

The working of the Secondary Schools has not been specially noticed in all the District reports. Information on this point should invariably be furnished in future in the annexed form :—

| | | | Number presented. | Number passed. | Number presented. | Number passed. |

39. The total expenditure on the Board Secondary Schools was Rs. 1,14,854, and their net cost to Local Funds Rs. 33,760. In the salary system schools the average net cost of educating each pupil was Rs. 7. It was as much as Rs. 13 in Vizagapatam and Kistna, while in Coimbatore it was only Rs. 2. The average cost of educating each pupil in the salary result system schools was Rs. 3. It was high (about Rs. 9) in South Arcot, Salem and Trichinopoly, while in South Canara and Tinnevelly, the schools were maintained at a profit to the Local Boards of Rs. 3,673 and Rs. 313, respectively.

| | Total Cost. | Net Cost. |

| | RS. | RS. |
| Salary system .. .. | 94,098 | 28,889 |
| Salary result system .. | 20,756 | 4,871 |
| Total .. | 1,14,854 | 33,760 |

40. *Elementary Schools.*—Including 33 schools attached to the training schools as Practising Departments, there were 283 Local Fund primary schools on the salary system and 939 on the salary result system, against 271 and 994, respectively, in the previous year. The increase in the number of salary system schools, in spite of the transfer of 16 schools in Tanjore to the salary result system, is due chiefly to the practising departments attached to the training schools being now treated as separate schools ; while the decrease in the number of salary results schools was mainly due to the conversion during the year under review of 49 salary result system schools in Madura into private schools aided on the combined system of salary and result grants. Most of the salary system schools—216 out of 283—are in Godávari. The President in his last annual report states that the remarks made by Government in paragraph 35 of the general review for 1885-86 regarding the advisability of converting them into schools on the salary result system, have been noted, but has said nothing regarding the character of the work done by them or by the salary result system schools, of which there were 205 in this district, during the year. The progress of these two classes of schools in the other districts was generally satisfactory. The salary system schools were attended by 9,100 pupils, against 7,989 in the previous year, and the salary result system schools by 27,279, against 28,861. The total cost of these two classes of schools was—salary schools Rs. 50,616 and salary results schools Rs. 1,33,527, and the net cost was Rs. 42,185 and Rs. 1,03,963, respectively. The average net cost of educating each pupil was Rs. 6 in the salary schools and Rs. 4 in salary results schools, against Rs. 5 for both classes together in 1885-86. It was highest in the salary system schools of Ganjam and Kistna (Rs. 13) and in the salary result system schools of Cuddapah and Nílgiris (Rs. 11). Steps should be taken for the reduction of unnecessary expenditure in these districts. The number of pupils who passed the several standard examinations from these schools was 16,014 out of 22,656 presented, the corresponding figures for the previous year being 20,973 and 27,926.

41. *Grant-in-aid Schools.*—Salary grants, amounting to Rs. 1,336, from Local Funds were paid to 21 private schools, attended by 519 pupils, against Rs. 1,335 paid to 16 schools attended by 360 pupils in 1885-86. Combined salary and result grants, amounting to Rs. 26,936, were paid to 489 other schools attended by 20,523 pupils, against Rs. 32,585 paid to 537 schools attended by 21,256 pupils in 1885-86. A sum of Rs. 962 was also paid, as arrears of 1885-86, to 73 combined grant schools in South Canara which were converted into simple result schools from the commencement of the year under review. Including these last, there were 8,932 result grant schools attended by 197,996 pupils, of which 7,619, with an attendance of 116,635 pupils, were actually examined and received grants amounting to Rs. 1,66,052, against

Rs. 2,14,155 paid to 7,910 schools with an attendance of 110,754 pupils in the previous year. This very large falling off in the amount of grant earned is ascribed to (1) the stringency of the provisions of the new Grant-in-aid Code, (2) the reduction in the rates of grants in Chingleput and Vizagapatam, and (3) the non-receipt of certifying memoranda within the year. The average grant per pupil examined was Rs. 2-9-2 in salary grant schools, Rs. 2-6-0 in combined grant schools, and Rs. 1-6-9 in result grant schools, against Rs. 3-11-4, Rs. 1-8-6 and Rs. 1-14-11, respectively, in the previous year.

42. The total number of pupils receiving instruction in the several schools maintained wholly or in part from Local Funds was 263,207, or 6·3 per cent. of the estimated number of children of school-going age, against 261,743, or 6·2 per cent. in 1885-86. These figures are not satisfactory. Even taking into account the constitution of seven new Municipalities with effect from 1886-87 and the consequent omission from the Local Fund returns of the schools therein situated, the fact remains that the Local Boards as a whole have made very little progress during the year in developing the education of the masses. Including the unaided indigenous schools, the total number of pupils under instruction within the jurisdiction of the District Boards was only 341,739, or 8·1 per cent. of the number of children of school-going age. The subject has been further dealt with by Government in reviewing the Public Instruction Report.

43. *Contribution to Provincial and Municipal Funds.*—Rs. 1,075 were refunded to Provincial funds on account of grants overdrawn in the previous year, and Rs. 1,151 were paid to the Nellore and Gudiyátam municipalities in aid of the municipal schools in those towns. A sum of Rs. 188 was further paid by the Tinnevelly District Board to Provincial funds as contribution towards the cost of Deputy Inspectors of Schools, but the amount is stated to have been subsequently refunded.

44. *Purchase and Sale of Books.*—A sum of Rs. 16,997 was spent on the purchase of school-books, and Rs. 1,921 were paid to the selling agents on account of salary and commission on sales, while the amount realised by the sale of these books was only Rs. 12,609. The net expenditure on this account was thus Rs. 6,309, against Rs. 4,331 in the previous year.

## GRANT III.—MEDICAL SERVICES AND SANITATION.

45. *Local Fund Hospitals and Dispensaries.*—Appendix XVIII shows the working of these institutions, of which there were 225 at the close of 1885-86. Seven of these were transferred to the newly constituted municipalities at the beginning of the year, and 15 new dispensaries were opened in the marginally noted districts during its course. Thus the total number of hospitals and dispensaries under the control of Local Boards at the close of the year was 233. Of these, 3 * are returned in the first class, as affording accommodation to in-patients and being provided with the necessary instruments for conducting major operations; 135 are of the second class, having wards for the accommodation of in-patients; and the remaining 95 are of the third class, in which provision is made for the relief of out-patients only, though in emergent cases in-patients are also admitted for treatment. The number of in-patients for whom accommodation is provided in the hospitals and dispensaries of the first two classes is now 1,166, against 1,057 in the preceding year. The above figures are derived from Appendix XVIII, which has been compiled from Statement XII furnished with the individual reports. The information given is, however, incorrect in several instances. For example, in Trichinopoly the six dispensaries of the district are all shown in the 2nd class, although the patients treated therein were

all out-patients. In Vizagapatam, out of 10 dispensaries, 9 are shown in the 3rd class, whereas in the President's annual report it is stated that there was accommodation for in-patients in all but one. In the Ganjam President's report, it is stated that in that district the dispensaries are equipped only for the treatment of out-patients, whereas in Statement XII, one of these dispensaries is shown in the 2nd class. These patent errors have been corrected in the Appendix, but there appear to be other cases in which the figures given are inaccurate, and the Presidents are requested, in submitting their next annual reports, to see that the dispensaries are correctly classed in accordance with the principles above laid down. In Godávari, Ganjam, Nellore and Trichinopoly all the Local Fund dispensaries are of the 3rd class, and in Anantapur and Kurnool the number of 2nd class dispensaries is unduly small. The desirability of providing additional accommodation for in-patients has already been impressed on most of these Boards in reviewing the individual reports. Of the total number of dispensaries, 133 were in buildings belonging to the Local Boards, and the rest in rented houses, or in buildings lent by Government or private individuals. Twenty-five were maintained either wholly or partly from endowments, and eighteen others from the chattram funds in Tanjore and Tinnevelly.

The total expenditure under this head, including the pay of the medical subordinates in charge, but excluding the cost of (1) the additional medical practitioners employed on sanitary inspection, distribution of medicines, &c., in the districts of Godávari, Kistna, Madura and Nellore, (2) the medical schools in Madura, Nellore and Tanjore, (3) the District Medical and Sanitary Officers' establishments, and (4) midwives and midwifery pupils, was Rs. 2,28,258 against Rs. 2,44,887* in 1885-86. The decrease occurs mainly in North Arcot, Ganjam, Madura, Salem, Tanjore, Tinnevelly and Vizagapatam, and was due to the transfer of seven dispensaries to the new municipalities, and to savings in the salaries of medical subordinates and contingencies. The number of patients treated in these institutions during the last three years is shown below:—

| Years. | In-patients. | Out-patients. | Total. |
|---|---|---|---|
| 1884-85 .. .. .. .. | 11,179 | 1,041,476 | 1,052,655 |
| 1885-86 .. .. .. .. | 11,975 | 1,129,996 | 1,141,971 |
| 1886-87 .. .. .. .. | 11,163 | 1,177,781 | 1,188,944 |

The continued increase in the number of out-patients is satisfactory, but the total number of cases treated is still only 4 per cent. of the population.

46. In addition to the regular dispensaries, the Nellore District Board maintained 4 "Medical Centres," *i.e.*, selected villages where trained hospital assistants, who are supplied with medicines for gratuitous distribution, are sent to practise. Two thousand eight hundred and twenty-two patients were treated at these centres in 1886-87. These have been included in the returns given at the close of the last paragraph. The system is one which might well be followed in other districts.

The Vizagapatam District Board have arranged to employ 20 native doctors, each to be paid Rs. 2 per mensem, for the distribution of cheap and reliable English medicines among the villagers, after first training them in a Local Fund dispensary; but the experiment was not tried by the Board until after the close of the year. In this connection District Boards are reminded of the instruction given to them in G.O., 9th December 1885, No. 1185 L.F., to do what they can to foster and meet a demand for simple medicines in the villages, each individual Board being free to adopt its own scheme and methods.

47. *Medical Schools.*—During the greater part of the year, the District Boards of Nellore, Tanjore and Madura each maintained a local medical school for training hospital assistants. The school at Madura was, however, closed in February 1887, the students then under instruction being transferred to the school at Tanjore to complete their course. These schools were managed by the respective District Surgeons, and cost in all Rs. 13,161, against Rs. 14,178 in 1885-86. The Nellore Medical

* The figure given in paragraph 40 of the review for 1885-86 is Rs. 2,79,098, but this includes the charges for Medical Schools, midwives, District Surgeons' establishments, &c., which are separately shown in the year under review.

School had only 7 pupils, all of whom completed their 4 years' course in June 1887, and appeared for the Hospital Assistant grade examination, at which six passed. The Prince of Wales' Medical School at Tanjore had 36 pupils at the end of March 1887. In June 1886 it sent up five students for the Hospital Assistant grade examination and all passed, the first among them carrying off the Government gold medal. Of the 36 students in this school, two were from Bellary, one from Salem, and 18 from Madura, all trained at the cost of the respective District Boards. The students of this school received, as usual, clinical instruction at the Rajah-Mirassidar hospital under the superintendence of the District Surgeon. Some of the Hospital Assistants formerly trained at the Madura school are employed in that district as Sanitary Inspectors, and appear to have done good work.

48. *Midwives and Midwifery Pupils.*—The Local Boards of Malabar, Nílgiris, Trichinopoly and Vizagapatam employed no midwives. In the remaining 17 districts, 89 of these women were employed against 101* in the previous year, but these attended 3,337 labor cases against 2,951 in 1885-86. The outturn of work was, however, still poor, each midwife having attended on an average 38 cases in the year, or only three cases per month. The average in Kistna was particularly low, being about one case per mensem. In Kurnool, the midwife attended only three cases throughout the year, while in Ganjam the only midwife employed (at Chicacole) attended one case up to November 1886, when she resigned. The attention of the Local Boards has been drawn to these unsatisfactory results in reviewing the individual reports, and the Government trust that every endeavour will be made to secure better work in future. The pay of the midwives should be made to depend to a certain extent on the amount of work done by them, and the services of caste females should be procured whenever possible. The cost of midwives and midwifery pupils is shown as Rs. 6,850 in Appendix V, whereas the cost of midwives alone, as reported by the Local Boards, was Rs. 10,860. It is presumed that the difference has been included under the head "Clerks and servants" in the former statement. If so, the procedure is incorrect. The Accountant-General should arrange in future to show the cost of midwives and of midwifery pupils separately.

49. In obedience to a request made by the Government of India, the various District Boards were called upon to report the steps taken by them towards increasing the supply of female doctors and trained nurses, and especially of nurses trained. The replies received will be found summarised in Appendix XIX. The Government consider that the progress made in this direction was, on the whole, satisfactory, and they trust that a further advance will be made in the current and ensuing years. The action of the Kistna, Nellore, Vizagapatam and Tanjore Boards in this matter is worthy of special commendation.

50. *Vaccination.*—Appendix XX shows the strength, cost and operations of the Local Fund vaccine establishments. There were 47 Deputy Inspectors of Vaccination, against 46 in 1885-86, and 632 vaccinators, including probationers, against 592 in that year. The work of these men and the average cost of each successful case are compared below with the corresponding figures of the previous year:—

| Years. | Number of persons vaccinated. | Number of successful cases. | Percentage of successful cases to number vaccinated. | Cost per successful case. |
|---|---|---|---|---|
| | | | | Rs. A. P. |
| 1885-86 .. .. .. .. .. .. | 601,160 | 569,058 | 95 | 0 4 0 |
| 1886-87 .. .. .. .. .. .. | 596,794 | 567,599 | 95 | 0 3 11 |

It will be seen that, in spite of the increase in establishments noted above, the number of vaccinations has diminished—a most unsatisfactory result. It is observed that 100,178 children under one year of age, or only 13 per cent. of the number of births registered during the year, were protected from small-pox. The districts which show the best results in regard to infantile vaccination are Malabar, Godávari, Tanjore and

* The decrease in the number of midwives appears to be due to the inclusion of mere nurses in some of the last year's returns.

Nellore, in which 43, 37, 28 and 22 per cent., respectively, of the number of children born were protected from small-pox. The worst percentages are shown by the districts noted in the margin. The progress of infantile vaccination should receive the earnest attention of these Boards, and special mention should be made in their future reports of the steps taken to promote it. Taking the total number of successful vaccinations, there was, as compared with 1885-86, a decrease in the outturn of work in the following 12 districts, and an increase in the remaining nine :—

| Trichinopoly | 22,002 | 20,385 | 7·35 |
| Vizagapatam | 45,304 | 37,236 | 17·81 |

The increase was particularly satisfactory in Salem and Chingleput, the number of successful cases exceeding those of the previous year by 22·6 per cent. and 19·8 per cent. respectively. It was also satisfactory in the districts shown in the margin. On the other hand, the decrease was enormous in Kurnool, Nellore, Anantapur, Vizagapatam and Nílgiris, and considerable in Kistna, Tanjore and Trichinopoly. It is ascribed to (1) the non-prevalence of small-pox during the year in the districts concerned; (2) the prejudice against vaccination among the rural population; and (3) the absence of vaccinators on leave, &c. In reviewing the individual district reports, the Government have shown these explanations to be unsatisfactory, and in Kurnool the Inspector of Vaccination has been directed to make a special inquiry into the work of the vaccine staff. The extension of vaccine operations depends a great deal on the amount of sympathy and active interest which the district officials and the Local Board members take in the matter and on the care with which they supervise the work of the vaccine staff. The fact of the vaccination charges being debited to the District fund does not in any way relieve the members of Taluk Boards and Panchayats from the duty of checking the local vaccinator's work and rendering him every assistance in their power, and the Government trust that the multiplication of Local Boards will tend to produce a great improvement in the results shown by this department. It is believed that the Deputy Inspectors of Vaccination are in many cases idle and inefficient. His Excellency in Council expects the Presidents of District Boards at once to report such men to the Sanitary Commissioner for punishment.

51. Judging from the returns, the quality of the vaccination work continues to be satisfactory, 95 per cent. of the total operations having proved successful as in the previous year. The average cost of each successful case for the Presidency also shows an improvement, being annas 3-11, or 1 pie less than in 1885-86. It was, however, very high in Nílgiris (annas 11-4), Kistna (annas 10-8), Cuddapah (annas 10-3), Kurnool (annas 9-10), Godávari (annas 7-5), and Nellore (annas 6-3). Compared with the previous year, there was an increase of cost in all these districts, except Cuddapah and Godávari, due to a diminished outturn of work.

52. Animal vaccination was continued in Kurnool with satisfactory results. In Chingleput, Bellary and Salem, it was introduced for the first time during the year, and the results have proved successful, but in North Arcot and Cuddapah, where it was introduced in 1885-86, it had to be abandoned owing to its excessive cost. In

Malabar and South Arcot, it is stated that arrangements were made for its introduction during the current year.

53. In addition to the work of the Local Fund vaccinators dealt with above, 5,088 cases are shown in the Local Fund reports as having been vaccinated by medical subordinates attached to dispensaries in South Canara, Chingleput, Malabar, Salem, Tanjore and Trichinopoly. But from the Sanitary Commissioner's report for 1886, it would appear that operations were conducted by the medical subordinates in all districts. The District Boards' reports should in future contain information on this point.

54. *Sanitation.*—The details of the expenditure under this head in each district are shown in Appendix XXI. Excluding the sum of Rs. 24,136 spent on sanitary public works under Grant I, the outlay on sanitation was Rs. 2,51,529 as shown below, against Rs. 2,46,651 in 1885-86. In both years the sanitary expenditure amounted to 4·1 per cent. of the total current receipts :—

| | 1885-86. Rs. | 1886-87. Rs. |
|---|---|---|
| (1) Improvement of water-supply | 47,802 | 47,864 |
| (2) Do. of village sites | 15,062 | 19,849 |
| (3) Conservancy establishments | 1,56,727 | 1,54,022 |
| (4) Arrangements at fairs and festivals | 10,311 | 9,251 |
| (5) Other Sanitary outlay | 16,749 | 20,543 |
| Total | 2,46,651 | 2,51,529 |

No new work of any importance was undertaken during the year. As usual, the sanitary works under improvement of water-supply consisted chiefly of the construction and repair of wells and tanks. Eighty-eight wells and 10 tanks were newly constructed and 165 watchmen were employed in guarding drinking-water sources from contamination. One hundred and ninety village-sites were improved, and rank vegetation and prickly-pear was removed in 113 villages. In Coimbatore and Vizagapatam, itinerating gangs were employed to remove prickly pear, level streets, dig side-drains, &c., and are reported to have done good work. The system is a good one, and should be followed elsewhere.

Out of 51,930 minor towns and villages in the Presidency, only 562 are provided with regular conservancy establishments as shown below :—

In Nellore it is stated by the President that no scavenging establishments were maintained for want of funds, whereas on page 77 of the Sanitary Commissioner's report for 1886, the number of villages conserved in that district is given as 25. The discrepancy should be explained. The number of villages conserved in Malabar, Anantapur, South Canara, Chingleput, Trichinopoly, Vizagapatam, Kurnool, and Bellary should be increased. Where there is a Union, the conservancy establishment is now under the charge of the Chairman and the Panchayat; in other cases it is supervised by the local Revenue officers. Special sanitary arrangements, such as the entertainment of temporary scavengers and the construction of temporary latrines, &c., were made during important festivals at 139 places.

55. The total sanitary expenditure was only 80 per cent. of the sanctioned allotments, against 82 per cent. in 1885-86 and 85 per cent. in 1884-85. This decrease, notwithstanding the repeated orders of Government to work up to the allotments, is perhaps the most unsatisfactory feature of the year's administration. The

dercentage was specially bad in the districts noted in the margin, while in Madura, Anantapur, Bellary, and Nílgiris it exceeded 95 per cent. (in the first two districts the allotments were even exceeded). In Godávari and Nellore the Divisional officers appear to be at fault. In Vizagapatam the decrease, as compared with the budget, occurs chiefly under Improvement of water-supply, and is explained by the fact that the heavy rains of October and November 1886 filled almost all tanks and wells, and rendered expenditure impracticable in many cases. The short outlay in Cuddapah is ascribed to the late date at which the sanctioned budget was received and the Taluk Boards and Union Panchayats commenced to work. But even allowing for these circumstances, better results should have been achieved. In Malabar the President states that the outlay may appear small, but that the amount was properly utilized. In reply to this the Government have already intimated that the present expenditure is altogether inadequate to the needs of the district. No explanation has been given of the short expenditure in Kurnool. As the subject of village sanitation is one of immense importance, the Government trust that the newly constituted Taluk Boards and Panchayats will adopt special measures to see that the allotments sanctioned for the several works are fully utilized.

56. *Markets and Bungalows.*—The expenditure under these heads has already been noticed in paragraph 20.

57. *Choultries.*—Including the Arcot and Kurnool langarkhanas and the poor house at Tanjore, there were 376 Local Fund choultries, against 370 in 1885-86. Of these, 210 had endowments attached to them. In 42 of these latter, 1,972,515 daily rations were issued at a cost of Rs. 95,841, against 2,103,099 rations at a cost of Rs. 1,19,234 in the previous year. The remaining 334 are mere rest-houses. The decrease in the cost of feeding occurs chiefly in Tanjore, and is explained by the fact that the value of paddy used for feeding purposes in 1885-86 was computed at the high market prices which ruled in that year. In the Arcot langarkhana (poor-house), 24,332 persons were fed at a cost of Rs. 786, while in that at Kurnool, 30 infirm persons received a maintenance dole of Re. 1 each per mensem. In the poor-house at Tanjore, 130,245 persons were fed at a cost of Rs. 1,676. In Tinnevelly, Rs. 2,432 were paid from the Tirukurangudi and Kuttalam chattram funds as monthly pensions to 65 cripples. Including charges for establishments, contingencies, &c., the total expenditure on choultries was Rs. 2,01,176, as shown in Appendix XXII, against Rs. 2,22,567 in 1885-86. The Chingleput Board only maintained one choultry (at Chingleput). They should consider the advisability of establishing more.

Appendix XXII.

58. *Contributions.*—The contributions paid from Local funds for medical, sanitary, and other purposes amounted to Rs. 1,93,505, as shown in the statement below, against Rs. 1,64,405 in 1885-86. The increase occurs chiefly under medicines and surgical apparatus, and contributions to municipalities for hospitals and dispensaries. In the former case it was apparently due to medicines obtained for the dispensaries newly opened during the year, while the increase in the latter was due to the contributions paid to the newly-constituted municipalities and to the transfer of the unexpended balance of Rs. 5,291* in favor of the Tirupati dispensary to the town council. The increase under "Maintenance of Lunatics" appears to be partly owing to the payment of arrear charges of 1885-86.

GRANT IV—MISCELLANEOUS.

59. *Supervision and Office Management.*—The total cost of supervision, including contingencies, amounted to Rs. 2,50,265 against Rs. 1,87,822 in 1885-86 and was 4·1 per cent. of the actual receipts of the year and 4·3 per cent. of the charges. The increase occurs principally under Local Boards' office establishment and contingencies, and was due partly to the establishments entertained and the contingent charges incurred by the Taluk Boards and Panchayats newly constituted, and partly to the payment of printing charges at the Government Press for the years 1883-84, 1884-85 and 1885-86 having been made in the year under review. The pay of the head clerks or "managers" in the various District Boards' offices varies from Rs. 40 to Rs. 70. The maximum establishment allowed for each Taluk Board's office is a clerk on Rs. 25, or two clerks on Rs. 15 and Rs. 10 respectively, and an attender or peon on Rs. 8. The Panchayat of every Union in which house-tax is levied is permitted to employ a karnam on Rs. 10 and a bill-collector on Rs. 5; those of the other Unions a karnam on Rs. 7 only.

60. *Repayment of, and interest on, Loans.*—The Chingleput and Malabar District Boards paid Rs. 9,792 as interest, and Rs. 16,510 as instalments of principal, on account of loans received from Imperial Funds. The purposes for which these loans were obtained and the balances due at the close of the year are shown below:—

| Boards. | Amount of Loan. | Purpose for which raised. | Mode of repayment. | Amount still due. | Probable date of repayment. |
|---|---|---|---|---|---|
| | RS. | | | RS. | |
| Chingleput .. .. .. .. | 1,99,790 @ 4½ per cent. | Construction of the iron girder bridge across the Kortalayár river. | Annual payment to Government. | 1,35,790 | 1,898 |
| Malabar .. .. .. .. | 1,49,000 @ 4½ per cent. | Completion of the Támrachéri and Peria ghât roads. | Do. .. | 68,968 | 1,898 |

In addition to the above, Rs. 1,050 were paid by the Tinnevelly District Board as interest on the sum of Rs. 35,000 borrowed by them from the surplus of the endowments (choultries Rs. 30,000 and markets Rs. 5,000) under the control of the Taluk Boards. In Tanjore a sum of Rs. 2,18,200 was invested in Government securities in favor of the Railway Guarantee Fund, the total investments on this account up to 31st March 1887 being Rs. 5,00,000.

61. *Refunds of Cess, &c.*—The payments under this head amounted to Rs. 8,146 against Rs. 11,321 in the previous year. The decrease is merely nominal, the educational and medical refunds of 1886-87 being exhibited in Appendix V under Grants II and III, instead of being shown under Grant IV as formerly.

## IV—ENDOWMENTS, &c.

62. The total number of endowed institutions, such as schools, hospitals and dispensaries, choultries, markets, &c., under the control of the various Local Boards and Panchayats, are shown in Appendix XXIV, while their gross receipts and charges are shown in Appendices XXV and XXVI furnished by the Accountant-General. Excluding Rs. 38,364 appropriated from general funds to meet excess expenditure and Rs. 26,737 allotted from the funds of some of the Rajah's chattrams in the

Tanjore District to meet the deficit with which other chattrams and dispensaries connected with the fund would otherwise have closed, the actual receipts of these institutions amounted to Rs. 3,56,216 against Rs. 3,69,247 in the previous year, and the charges to Rs. 3,63,823 against Rs. 3,73,832. The following abstract shows the receipts and charges under the several heads compared with the corresponding figures for the previous year :—

| — | Receipts. | | Charges. | |

63. The decrease in the receipts under the first head was partly due to a sum of Rs. 4,029, representing the interest derived from the endowment in favor of the Prince of Wales' Medical School at Tanjore, being shown in the year under review under Hospitals and Dispensaries instead of under Schools as in 1885-86, and partly to the smaller receipts from the Moyan endowed lands attached to the Female Normal School at Calicut (Malabar). The decrease under the third head occurs chiefly in Tanjore for the reasons already explained in paragraph 20, while that under the fourth occurs mainly in Coimbatore, where the balance due from some of the contractors was not adjusted within the year from the security deposited by them. The total balance in favor of these institutions was Rs. 3,08,514 at the commencement of the year, and Rs. 3,00,907 at its close. The largest balances were in the districts noted in the margin, and these should be turned to good account in the current and ensuing years.

64. The following points require notice in connection with the Appendices above referred to :—

(*a*) In Appendix IV the Government contribution of Rs. 2,050 on account of the Munro's chattram and dispensary at Gooty in Anantapur is shown under Choultries, whereas in Appendix XXV it appears under Hospitals and Dispensaries.

(*b*) In Appendix IV a sum of Rs. 49 is shown as the income of the Vriddhá-chalam dispensary in South Arcot, whereas no such entry appears in Appendix XXV.

(*c*) In Appendix IV the Government contributions on account of choultries in Tanjore are shown as Rs. 12,356, whereas in Appendix XXV the amount is given as Rs. 12,596.

(*d*) In Appendix IV the choultry and market rents are shown as Rs. 2,09,037 and Rs. 67,173, respectively, whereas according to Appendix XXV they amounted to Rs. 2,09,563 and Rs. 66,707, respectively.

(*e*) The establishment, contingent, &c., charges of choultries as given in Appendix V differ in some cases from those shown in Appendix XXVI.

(*f*) The establishment and contingent charges of markets are shown in Appendix V as Rs. 14,976, whereas according to Appendix XXVI they amounted to Rs. 19,514.

(*g*) The fixed and contingent charges of the endowed schools in Kistna and Malabar and of the endowed dispensary in the latter district are incorrectly shown in Appendix XXVI under the heads "Allotted for education" and "Allotted for dispensaries," respectively.

It is noted that the Accountant-General has since stated, in explaining similar discrepancies noticed in the accounts for 1885-86, that it has not hitherto been found possible to effect a complete correspondence between the entries in Appendices IV and V and those in Appendices XXV and XXVI, as the detailed heads are not the same in both sets of accounts, but that steps have now been taken by him to secure such additional details in the accounts received from the districts as will make agreement possible in future.

65. *Endowed Schools.*—There were 6 schools of this class against 4 in the previous year, viz., the four specified in paragraph 52 of the general review for 1885-86, the Tenkási Anglo-Vernacular School in Tinnevelly district, and the Kulitalai Middle School in Trichinopoly. The two last schools were taken over during the year, the former with an endowment of Rs. 1,393, and the latter with Rs. 1,200, both in cash. In addition to these, there were 5 schools in Tanjore and 1 in Tinnevelly which may also be regarded as endowed, since they were entirely maintained from the funds of endowed chattrams, viz., the Sanskrit College at Tiruvádi ; the girls' school at Nídamangalam ; three boys' schools at Rajamattam, Oratanad and Patukóta, in the Tanjore district ; and the Anglo-Vernacular School at Tirukarangudi, in the Tinnevelly district.

66. *Endowed Dispensaries.*—There were 25 institutions of this class against 23 in 1885-86. In North Arcot, the dispensary at Tirupati, supported from the Devastanam funds, was made over to the Town Council, while in Trichinopoly the newly-opened dispensaries at Udayárpálaiyam, Turaiyúr and Perambalúr were provided with money endowments amounting to Rs. 3,000, Rs. 2,000 and Rs. 2,000, respectively. These sums were given by the local zemindars of the first two places, and subscribed by the inhabitants in the last. In addition to these, there were 16 dispensaries in Tanjore maintained wholly from the funds of the Rajah's chattrams, and two in Tinnevelly maintained from the funds of the Tirukarangudi chattram.

67. *Endowed Choultries.*—The number of these institutions was 210 against 201 in 1885-86. The increase is explained in a foot note to Appendix XXIV. Particulars with regard to the most important endowed choultries have already been given in paragraph 57.

68. *Endowed Tanks, &c.*—There was an increase of one in the number of endowed tanks* or ponds, as compared with 1885-86. The number of endowed water-sheds and langarkhanas (poor-houses) remained the same. Markets have already been noticed in paragraph 20.

| Water-sheds ... ... | 13 | 13 |
| Langarkhanas, &c. ... | 3 | 3 |
| Markets ... ... ... | 228 | 250 |

69. *Miscellaneous Endowments.*—The items included under this head are the "District Officers' Bungalow Fund" in South Canara, which is composed of subscriptions from district officers for the upkeep of 17 bungalows used by them when on tour ; the "Surplus Pagoda Fund" in Chingleput, the proceeds of which are devoted to the upkeep of the Chingleput dispensary ; "Petrus Uscan's Charity Fund" in the same district founded for the perpetual repair of the Marmalong bridge and the steps up St. Thomas' Mount ; the "Taylorpettah Fund" in Godávari, consisting of the fees levied on godowns, stalls and carts in the cartstand at Taylorpettah, a suburb of Narsápur, and devoted to the sanitation and general improvement of the village ; the "Price Vaccination Fund" in Salem, intended for the promotion of vaccination in that district ; and the "Surplus Pagoda Fund" in the same district, the proceeds of which are devoted to sanitary improvement.

70. *Contributions from Private Individuals.*—The amount of voluntary contributions made by private individuals or bodies for works of local utility was only Rs. 20,300, as shown below, against Rs. 31,866 in the previous year :—

| | 1885-86. | 1886-87. |
|---|---|---|
| | RS. | RS. |
| Public works ... ... ... ... ... ... | 6,400 | 5,786 |
| Hospitals and dispensaries ... ... ... ... | 8,145 | 3,542 |
| Schools ... ... ... ... ... ... | 893 | 261 |
| Sanitary purposes ... ... ... ... ... | 16,428 | 10,711 |
| Total ... | 31,866 | 20,300 |

The decrease under "Hospitals and Dispensaries" has been already mentioned in paragraph 18; that under "Sanitary purposes" is observable chiefly in Ganjam, Madura and Vizagapatam. As regards the first two of these districts, no explanation has been given. The falling off in Vizagapatam is attributed to the fact that most of these contributions are for the improvement of water-supply, and that owing to favorable rains the existing sources were found sufficient in the year under review.

71. *Maps.*—In November 1886 Presidents of District Boards were required to submit with their annual reports once in every five years, commencing with the year under review, illustrative maps of the district showing the several Local Fund Taluks, Unions, hospitals and dispensaries, roads, bridges, ferries and toll-gates, as also the municipalities and principal municipal institutions, in view to a map of the Presidency showing these particulars being annexed to the general review as suggested by the Government of India in their letter, dated 31st August 1886, No. 25-1289. But as only 16 of such district maps have been received up to date, the Presidency map is not yet ready. It will be completed and circulated as soon as the maps of the remaining five districts are received.

G.O., dated 1st November 1886, No. 1447, L. F.

72. In conclusion, the Governor in Council is pleased to be able to observe that, taken as a whole, the administration of Local Funds during the year 1886-87 has been satisfactory and reflects credit on the Local Boards and their Presidents. The preceding paragraphs will show how large and varied are the interests confided to their care, and how vitally important their activity is to the people of the Presidency. The new Taluk Boards are only beginning to work, but there are already indications that their institution will tend to a quickening of the Local Fund administration, and that they will in the future take, as was intended, the chief share in it. The weak points in the year under review have in most cases been vaccination and expenditure of the sanitary allotments, as well as a want of progress in extending elementary education. But the Government are aware that the time which the Collector-President and his district officers can afford to give to Local Fund work has been greatly taken up in starting and guiding the Taluk Boards and Unions newly called into existence, and they trust that, now that the initial difficulties in this respect have been overcome, Presidents will be able seriously to direct their own attention and that of their Boards towards remedying the defects above pointed out. The adjustment of the accounts and powers of District and Taluk Boards were a matter of no small complication, and the Government are gratified to find that a good start has been made. Taking the districts individually, the District Boards of Madura, Malabar, Salem and South Canara may be singled out for special commendation, while, on the other hand, in Kistna and Nellore the results achieved left much to be desired.

* The total District Fund expenditure will have to be raised by Rs. 521, and the Taluk Fund expenditure reduced by a like sum, to arrive at the closing balances shown in Appendix V, as a contribution of this amount from the North Arcot to the Chingleput District has been shown in Appendix IV as a receipt to Taluk instead of District Funds.

## APPENDIX XIX.

*Action taken by the various District Boards towards the furtherance of Female Medical Education.*

SUMMARY of Replies to G.O., dated 5th September 1887, No. 1684-A. L.

*Anantapur and Nilgiris.*—The District Boards are not at present in a position to give the subject their consideration owing to want of funds.

*Arcot, North.*—The District Board employs a trained midwife for each of the dispensaries at Chittoor, Ranipet and Arni, and also contributes a moiety of the cost of a trained midwife employed by the Branch National Association at Chittoor to treat patients at their homes.

*Arcot, South.*—The District Board offered in 1886-87 to employ a female medical practitioner possessing the qualifications of a civil apothecary on a salary of Rs. 70 per mensem, but as no such person was procurable for the salary offered, the matter dropped. A midwifery pupil was being trained in the Cuddalore dispensary. In the current year (1887-88), the Board have established a monthly scholarship of Rs. 20 to be paid to a female student to enable her to prosecute her studies in the Madras Medical College for the hospital assistant grade, and have advertized for three midwifery pupils to be sent to Madras for training.

*Bellary.*—Provision was made in the budget for 1886-87 for the grant of scholarships to native women of the District who would undergo training at the Lying-in Hospital at Madras, but none were found willing to go there. Similar provision has been made in the current year, and steps are being taken to induce some of the barber caste women to proceed to Madras for the purpose. Provision has also been made for a midwife for each of the dispensaries in the District and for a nurse for the dispensary at Hadagalli.

*Canara South, Kurnool and Salem.*—No action was taken in the matter in the year under review.

*Chingleput.*—Five trained midwives are now employed in the District, and two midwifery pupils receiving a monthly stipend of Rs. 8 each are being trained at Madras.

*Coimbatore.*—Employment was given to four trained midwives, and measures are being adopted to establish scholarships for the education at Madras of a few female pupils to be sent from this District in connection with Lady Dufferin's Fund.

*Cuddapah.*—The Local Boards did not take any action in the matter in 1886-87. The Madanapalle and Pílér dispensaries are provided with midwives and nurses, and Kadiri and Ráyachóti dispensaries with nurses only.

*Ganjam.*—The only thing done by the District Board in or previous to 1886-87 was the employment of a trained midwife for the Chicacole Division. She resigned in November 1886, and her place was not filled up, as there appeared to have been very little demand for her services.

*Godávari and Malabar.*—The subject will engage the Boards' attention when the budget for the ensuing year comes under consideration.

*Kistna.*—Since January 1886, the District Board have been maintaining at Masulipatam a class of four female obstetric students, receiving a monthly stipend of Rs. 5 each. They are taught by a trained nurse on Rs. 50 per mensem under the supervision of the District Surgeon.

*Madura.*—The District Board has maintained two midwifery pupils on Rs. 5 each.

*Nellore.*—Native women are trained in midwifery at the Nellore Lying-in Hospital. Proposals for imparting better education in medicine and surgery in addition to midwifery are now being discussed by the District Board.

*Tanjore.*—Nothing was done during the year under review, but in October 1887, the District Board sanctioned the admission of three female students to the Tanjore Medical School to be educated for the medical practitioner grade.

*Tinnevelly.*—The District Board have undertaken to grant a scholarship of Rs. 20, for three years, to a lady pupil for the hospital assistant grade.

*Trichinopoly.*—Nothing was done in 1886-87, but three scholarships of Rs. 8 each have been provided for in the current year for training females as native midwives in connection with the Countess of Dufferin's Fund.

*Vizagapatam.*—The District Board have resolved to allot annually Rs. 2,400 for the establishment of qualified female medical practitioners, and a further sum not exceeding half per cent. of their income for medical tuition for females. In the current year, Rs. 1,380 have been allotted for training five females for the hospital assistant grade, each pupil to receive a monthly stipend of Rs. 20 for three years.

The increase in the number of choultries as compared with 1885-86 occurs in South Arcot (3), Bellary (1), Nellore (1), Tanjore (2), Tinnevelly (1) and Trichinopoly (1). In South Arcot the choultry at Kammapuram taken over by the District Board in April 1885 was granted some inam lands under G.O., Revenue Department, dated 15th January 1887, No. 29; the choultry at Kallakurchi with the lands attached to it was purchased by the District Board during the year under review; and the one at Sivanagiri is now classed as endowed as the District Board realize income from the rent of bazaars attached thereto. In Bellary, Bapu Row's choultry at Hampasagar with the lands attached to it was made over to the District Board during the year. The President of the Nellore District Board has been requested to explain the increase in the number of choultries in that district. The increase of two in Tanjore is accounted for by the transfer to the District Board of the Annadhana kuttalai chattram and the Nadiyam muttam endowment. In Tinnevelly, the number of endowed choultries is now correctly shown as 23 instead of 22 as given in the review for 1885-86, while in Trichinopoly the increase of one was due to the inclusion of the Kannanur choultry, about which the President promises a further report.

ABSTRACT.—Forwarding revised statements of receipts and charges under Local Funds Act V of 1884, for the year 1885-86, with remarks.

From the Accountant-General, dated 20th December 1886, No. L.F.D.-152.

ABSTRACT.—Forwarding statements of receipts and charges of Endowment Funds—Local Funds Act V of 1884—for 1885-86, with certain remarks.

ORDER—dated 4th July 1887, No. 1276 L., Local and Municipal.

The reports of the several District Boards for 1885-86 having been separately reviewed from a financial point of view in the proceedings read above, the Government now proceed to review them collectively.

2. The reports and the accounts accompanying them have been prepared in accordance with the new Local Fund Rules; but notwithstanding the fact that the date prescribed for their submission has now been altered from the 1st June to the

15th of July, the Chingleput report alone was received in time. The reports from fifteen other districts were submitted within the end of August; those from Kistna, Vizagapatam, Tinnevelly, and Cuddapah not till September; while the Ganjam report, which was the last, came in only on the 1st October last. Every endeavour should be made to secure punctuality in future.

## I. GENERAL.

3. *Administrative Changes.*—On the 1st April 1885, the Madras Local Boards Act, V of 1884, which superseded Madras Act IV of 1871, was introduced into all the districts of the Presidency, except the scheduled tracts of the Northern Circars and the Collectorate of Madras. From this date, the control over Local Funds formerly exercised by the Board of Revenue was assumed directly by Government, and the audit of Local Fund accounts, which had till then been conducted in the Presidents' offices, was transferred to the Treasury Deputy Collectors.

4. The following are the principal changes effected by the new Act :—

(1) The administration of the local affairs of each district (municipal towns being excluded) is now vested in a single District Board, consisting of a President and of not less than twenty-four members. Formerly a district was often divided into two Local Fund circles, each of which had an independent Board of its own.

(2) All Revenue officers in charge of divisions of the district are now members of the Board *ex officio*, whereas formerly they had to be gazetted by name. As the Revenue divisional officer was always made a member of the Board, the new practice saves much trouble and delay.

(3) Under present arrangements, the Collector continues to be President of the District Board; but the proportion of official members has been reduced from one-half to one-fourth of its total strength.

(4) The new Act provides for the establishment of "Taluk Boards" working in subordination to the District Board for sub-divisions of districts; and

(5) For the constitution of the larger villages into "unions" under the management of local committees or "panchayats." The panchayat is subordinate to the Taluk Board in whose jurisdiction the union is situated, or if no Taluk Board has been constituted, it works under the District Board direct. Each Taluk Board consists of the Revenue divisional officer as *ex officio* President, and of not less than twelve members, the proportion of officials being fixed at one-third of the total strength. A "union" may comprise one or more revenue villages, and its "panchayat" is to consist of not less than five members, the headman of every village included in the union being an *ex officio* member. The executive work of the panchayat is entrusted to one of the members as chairman.

(6) Formerly Local Fund Boards had no power to levy taxes on their own authority, but could only administer the funds raised on their account by Government. By the new Act they are placed on the same footing as Municipal Councils, *i.e.*, they are empowered to levy, with the approval of Government, any of the taxes authorized by the Act.

(7) In addition to the taxes and tolls hitherto levied, the new Act provides for the imposition of fees for licenses granted —

(*a*) for the temporary erection of pandals and such like structures in streets and other public places in unions; and

(*b*) for the temporary use of cart-stands, and of markets, market sites, and other similar public places, on the occasion of fairs and festivals.

As a matter of fact, however, fees for the use of markets and cart-stands have long been levied, though not under statutory authority.

(8) The house-tax, which was leviable under the old Act in connection with education, but had for some years been held in abeyance, is re-imposed in the new Act in village unions to provide funds for their administration. It was not levied anywhere during the year, but steps were taken for its introduction into some of the more important unions in 1886-87.

5. During the year under review, the necessary measures were taken for the formation of 65 Taluk Boards and 157 panchayats in the 16 districts noted in the margin, but none of these local bodies commenced to work before the 1st April 1886. Rules were also framed for the guidance of Local Boards and their agents and the officers of Government in matters connected with the carrying out of the provisions of the new Act, but they were not finally sanctioned until after the close of the year.

Anantapur, North Arcot, South Arcot, Bellary, South Canara, Chingleput, Coimbatore, Cuddapah, Ganjam, Kistna, Madura, Malabar, Salem, Tinnevelly, Trichinopoly, and Vizagapatam.

6. *District Boards.*—The number of circle boards having in the preceding year been reduced to 21, the introduction of the new Act caused no change in the number of District Boards, which consisted of 607 members—148 official and 459 non-official—against 624 members—268 official and 356 non-official—in 1884-85. The aggregate maximum number of members fixed by Government for these boards under the new Act was 788, but pending the constitution of Taluk Boards, additional members were not appointed except in Chingleput, Nílgiris, Trichinopoly, and Vizagapatam, where the existing number was below the minimum fixed by the Act. The *personnel* of the several boards was, however, revised with reference to the provision of the Act that the number of official members should not exceed one-fourth of the whole.

Appendix I.

7. Each board had on an average 29 members, of whom 7 were officials and 22 non-officials, the corresponding figures for the previous year being 12 and 17. The several boards held altogether 279 meetings during the year against 301 in 1884-85. The average number of meetings for each board thus fell from 14 to 13. The Bellary, Salem, and Tinnevelly boards met only 11 times during the year; the Kurnool and Malabar boards 10 times; the Vizagapatam board 9 times; the Cuddapah, Nellore, and Nílgiri boards only 8 times each. In Cuddapah, Kurnool, Nílgiris, and Vizagapatam, the small number of meetings held is ascribed to delay in the reconstitution of the board, and this was probably the case in the other districts also. The average attendance for all boards was 12 members per meeting (3 officials and 9 non-officials) against 10 (4 officials and 6 non-officials) in the preceding year. It was specially good in North Arcot, being over one-half of the total strength of the board. The attendance of the official members was very poor in Anantapur and Salem. The attendance of non-official members was, the Government are glad to note, generally satisfactory.

8. *Financial Position.*—Appendices II and III, furnished by the Accountant-General, show in detail the receipts and charges of the several District Boards, while in Appendix IV, from which the following totals are taken, the financial position of each Board is concisely summarized. The total results for all the Boards taken together are as below: —

| — | Opening balance. | Receipts. | Total assets. | Expenditure. | Closing balance. |
|---|---|---|---|---|---|
| | RS. | RS. | RS. | RS. | RS. |
| 1884-85 .. .. .. | 22,94,944 | 54,46,589 | 77,41,533 | 58,96,693 | 18,44,840 |
| 1885-86 .. .. .. | 18,44,840 | 60,56,463 | 79,01,303 | 58,44,018 | 20,57,285 |

Excluding debt heads and contributions from one District Board to another, the actual receipts of the year amounted to Rs. 60,40,686 against Rs. 54,37,284 in 1884-85, and the charges to Rs. 58,19,675 against Rs. 58,89,732. All the districts except Anantapur closed the year with balances to their credit. The Anantapur deficit (Rs. 2,731) was not made good as usual by an advance from Provincial funds—apparently, because it represented merely the amount of cheques issued but not cashed before the close of the year.

9. *Taxation.*—Appendix V shows the incidence in each district of Local Fund taxation per head of the population with reference to the census figures of 1881. The average was Annas 2-10 per head including, and Annas 2-6 excluding, tolls, against

As. 2-6 and As. 2-3, respectively, in 1884-85, the increase in both cases being the result of enhanced receipts under Land-cess and Tolls. Taxation was lightest in South Canara (As. 1-11 per head including tolls), and heaviest in Kistna (As. 4-10).

## II. RECEIPTS.

10. In Appendix VI the aggregate receipts of District Boards under the several heads are compared with the budget estimates for the year and the actuals of 1884-85. The year opened with a *balance* of Rs. 18,44,840, against the budget estimate of Rs. 13,01,880, the general increase of Rs. 5,42,960 being the net result of increases ranging from Rs. 10,382 to Rs. 1,51,169 in twelve districts, counterbalanced by decreases varying from Rs. 66 to Rs. 22,691 in nine others. The increase was large in Godávari (Rs. 1,51,196), Malabar (Rs. 1,15,537), Tanjore (Rs. 93,401), Tinnevelly (Rs. 70,224), Coimbatore (Rs. 57,596), Salem (Rs. 55,203), and Kistna (Rs. 53,190), and was generally due to short expenditure on public works in 1884-85. The decrease, which occurs principally in Nellore (Rs. 22,691), Anantapur (Rs. 22,038), Chingleput (Rs. 15,383), South Arcot (Rs. 13,812), and Cuddapah (Rs. 11,908), was the result of short collections under Land-cess.

11. The *current receipts* amounted to Rs. 60,40,686 against Rs. 54,37,284 in 1884-85, the increase occurring chiefly under Land-cess and Tolls. The following statement compares the receipts under the several heads with those of the preceding year:—

12. *Land-Cess.*—The cess on land continued to be levied at the rate of two annas per rupee of the annual rent-value in Malabar, and at one anna in all the other districts except Godávari, where it was 9 pies only. It is by far the most important source of local revenue, the collections under this head amounting to Rs. 44,42,936, against Rs. 39,57,211 in the previous year. The increase occurs in all districts except South Canara, Godávari, Nílgiris and Salem, and was due mainly to—

(1) the favorable character of the season;
(2) the collection of dues suspended on account of bad season in 1884-85, and of the large arrears outstanding at the close of that year;
(3) the punctual collection of the current revenues.

Appendix VII shows the demand, collection and balance of the cess, the rates at which it was levied, and the percentage of collection to demand in the several districts. According to this statement, which has been compiled from the district returns, the total collections amounted to Rs. 44,20,473, or Rs. 22,463 less than the figure given above, which has been taken from the Accountant-General's statements. The difference is explained by the fact that the Accountant-General's figures, which are based on the treasury accounts, show the actual collections during the year including sums paid in advance for 1886-87, while the demand, collection and balance statements show only the collections relating to the year under report and the arrears of previous years. In fifteen districts the percentage of collection to demand was higher, and in four lower, than in 1884-85. The collections in South Canara and Malabar (98 per cent. of demand) were particularly good, and it is satisfactory to observe that the total collections for the Presidency aggregated 90 per cent. of the demand against 81 per cent. in the preceding year, the percentages under arrears and current being, respectively, 85 and 91 against 70 and 83. Sums aggregating Rs. 13,016 were written off the accounts as irrecoverable—chiefly in Godávari, Kistna and Anantapur—against Rs. 1,15,527 in the previous year.

13. *Tolls.*—Next to land cess in importance comes the revenue derived from tolls levied upon carriages, carts and animals, which, under the new as under the old Act, has to be devoted entirely to "Streets, bridges and other means of communication." Appendix VIII shows the statistics of tolls, which in the year under review were collected at 191 places, against 154 in the previous year. In South Arcot, where there had only been one toll-gate previously, 27 new ones were established with a view to raise funds for the reconstruction of the district roads which had been seriously damaged by the floods of 1884. Fifteen additional gates were also opened in the districts of South Canara (1), Cuddapah (9), and Ganjam (5). On the other hand, five gates on the Kullar-Gúdalúr road, Nílgiris, the maintenance of which was made over to the Public Works Department, have been excluded from the District Board's returns, although the tolls continued to be levied by the Board and part of the receipts are made over to them. Tolls were levied at the maximum rates entered in Schedule B of the Act at 78 gates, and at half rates at the remaining 113. The total income from this source amounted to Rs. 5,00,442, against Rs. 4,52,928 in 1884-85, the increase being due chiefly to the establishment of the additional gates above referred to. Of this amount, Rs. 3,91,763, or 78 per cent., was collected by the District Boards themselves or by their contractors, the remainder (Rs. 1,08,679) being contributed by Municipalities as the Local Fund share of the tolls collected on trunk roads passing through them. The District Boards of North Arcot, Bellary, Godávari and Tanjore maintained no toll-gates of their own, but derived their revenue under this head from municipal contributions; the Vizagapatam board maintained only one toll-gate; the Kurnool board two; the Kistna and Nellore boards four; the Chingleput board five; and the Madura and Coimbatore boards six apiece. Deducting Rs. 13,487 spent on establishments, &c., the net income from tolls amounted to Rs. 4,86,955, or Rs. 25-14-3 for every mile of road maintained by the district boards. The cost of maintenance of these roads being Rs. 108-9-3 per mile, nearly 24 per cent. of the outlay is thus recouped by this means.

14. *Educational.*—The receipts connected with education amounted to Rs. 1,16,361 (see statement in paragraph 11), against Rs. 88,659 in 1884-85, the increase occurring mainly under *School-fees*, which yielded Rs. 96,351 against Rs. 70,549. The increase under this head is spread over all districts except Nílgiris, and is generally ascribed to the adoption of the new scale of fees and to the larger attendance of pupils, especially in secondary schools. The sum of Rs. 5,305 shown as *Income from endowments* represents the receipts of the Moyan endowment lands attached to the female normal school at Calicut. The Accountant-General will be requested to state why the rent of Rs. 38 derived from the lands of the Ponnúr school, in the Kistna district, as shown in Appendix XIX, is not included under this head in Appendix II. Of the sum of Rs. 14,705 shown under *Other items*, Rs. 10,531 represent the sale-proceeds of books.

15. *Medical.*—The receipts under this head, comprising sale-proceeds of medicines, contributions from municipalities and private individuals on account of hospitals and

dispensaries, income derived from the endowments of these institutions, &c., amounted to Rs. 15,281, against Rs. 21,953 in 1884-85. The sum of Rs. 1,393 shown as *Income from endowments* in paragraph 11 is the rent of lands attached to the dispensaries at Vriddháchalam (South Arcot), Sáidapet (Chingleput), Tiruvadanai (Madura), and Ponáni (Malabar). The other items, aggregating Rs. 13,888, include contributions from private individuals amounting to Rs. 8,145.

16. *Interest.*—A sum of Rs. 42,578 was realized under this head, against Rs. 48,362 in the previous year, the decrease occurring under *Interest on arrears of revenue*, which fell from Rs. 10,028 to Rs. 4,037, owing to the fact that interest is now charged only from the end of the revenue year in which the arrear accrues, instead of from the date of each instalment as formerly. The sum of Rs. 38,541, shown as *Interest on Government securities*, is made up as follows :—

| | Investment. | Interest. |
|---|---|---|
| | Rs. | Rs. |
| (1) Schools | 1,12,100 | 4,509 |
| (2) Dispensaries | 95,800 | 5,379 |
| (3) Choultries | 3,47,100 | 14,758 |
| (4) Tanjore Railway Guarantee Fund | 2,81,800 | 10,624 |
| (5) Miscellaneous Endowments referred to in para. 56 below | 92,005 | 3,271 |
| Total | 9,28,805 | 38,541 |

The Accountant-General will be requested to explain the following discrepancies :—

(1) In Appendix II, a sum of Rs. 2,093 is shown as interest on Government securities in Chingleput; but from Appendix XIX and the District Board's accounts, it would appear that this amount includes Rs. 500 drawn from the Savings Bank for the purchase of a Government promissory note in favor of Petrus Uscan's Charity Fund.

(2) Appendix II shows no income under this head in Ganjam, but Appendix XIX and the District Board's accounts show that a sum of Rs. 284 was realized as interest from the invested funds of the choultry at Kanchali.

(3) In Appendix II, a sum of Rs. 157 is shown under this head against Godávari, in which the only investment made is a sum of Rs. 2,000 in favor of the Taylorpetta Fund, whereas Appendix XIX gives the amount of interest as Rs. 225.

As the Accountant-General has expressed his inability to furnish a correct statement of investments, Presidents of district boards are requested to submit one in future with their annual reports.

17. *Miscellaneous.*—The Miscellaneous receipts, the chief of which are separately shown in the statement in para. 11, amounted to Rs. 4,99,638, against Rs. 4,96,817 in the previous year.

(*a*) *Choultries.*—The most important item is the rent of lands attached to choultries, which brought in Rs. 2,21,105 (excluding Rs. 284 in Ganjam referred to in the preceding paragraph), against Rs. 1,99,561 in 1884-85. More than three-fourths of the total income under this head was raised in Tanjore, and the increase occurs chiefly in that district. It is ascribed by the President to the punctual adjustment of the value of paddy used for feeding purposes in the choultries. There is also an increase of Rs. 3,874 under this head in Tinnevelly, which is attributed to good crops on lands leased on the sharing system, and to extension of cultivation generally owing to favorable season. In the Nílgiri district a sum of Rs. 60 is shown under this head in Appendix XIX, whereas in Appendix II it is included under a separate head, Rents and Produce of Land—a discrepancy which should be explained by the Accountant-General.

(*b*) *Market Rents.*—In 1884-85, there were 224 markets in which fees were levied by the District Boards. In the year under review, the fee system was extended to 15 additional markets. According to Appendix II, the collections under this head amounted to Rs. 68,450 (against Rs. 60,944 in the previous year), but in Appendix XIX they are given as Rs. 68,477. The discrepancy should be explained by the Accountant-General, as also the difference between the expenditure figures in Appendices XX and III noted below. The expenditure on markets amounted to Rs. 44,596, of which Rs. 14,356 (according to Appendix XX) were spent on establishments and contingencies, and Rs. 30,240 on improvements, including cost of supervision and tools and plant. In Appendix III, however, the outlay on market establishments and contingencies is given as Rs. 14,585. As regards income from markets, Coimbatore stands first with Rs. 24,090; Madura and North Arcot come next with Rs. 9,702 and Rs. 9,383; and Trichinopoly, Anantapur and Salem follow with Rs. 5,305, Rs. 5,078, and Rs. 4,590, respectively. In Chingleput, Ganjam, Kistna, Nellore and Tanjore, no fees whatever are levied, and in Vizagapatam, Kurnool, Nílgiris, South Canara, South Arcot and Malabar the receipts are very small. As already observed in the review for 1884-85, there is ample room for the development of local resources in this direction, and the special attention of all District Boards is again drawn to the matter.

(*c*) *Fees levied from Travellers using the Local Fund Bungalows.*—Including the 18 bungalows in South Canara maintained from the district officers' fund lately transferred to the District Board, there were 260 of these institutions, at which 9,205 travellers halted during the year, against 239 bungalows used by 7,866 travellers in the previous year. The amount of fees collected was Rs. 11,538, and the expenditure amounted to Rs. 24,909, against Rs. 11,797 and Rs. 29,494, respectively, in 1884-85.

(*d*) The *Rents of Ferries* under the control of the District Boards amounted to Rs. 20,724, against Rs. 23,375 in 1884-85.

(*e*) *Fishery* rents yielded Rs. 97,750, against Rs. 91,737 in the previous year, the increase occurring mainly in Madura, Tanjore, Ganjam and Nellore. The increase in Tanjore is stated to be due to the greater protection against trespassers afforded to renters by the judicial tribunals; that in the other districts has not been explained. On the other hand, there was a decrease of Rs. 5,784 in Kistna, which is accounted for by the absence of large arrears as in the preceding year, and by the non-payment of Rs. 4,005 due by a contractor. Early steps should be taken to realise this amount. Of the total receipts under this head, Rs. 94,081 were collected through the agency of the Revenue Department, and Rs. 3,669 through the Department of Public Works.

(*f*) *Avenue* rents and clippings brought in Rs. 45,875, against Rs. 48,238 in 1884-85 and Rs. 45,678 in 1883-84. The receipts in 1884-85 were abnormally large owing to the great number of trees blown down in Chingleput, South Arcot and Tanjore in the cyclone of December 1884. Appendix IX shows the statistics of avenues in the several districts. According to the returns received, there were 1,864,767 trees under the care of the District Boards at the beginning of the year; 101,321 trees were planted and 58,991 perished during the year; and the number left at its close was thus 1,907,097. The information furnished under this head must, however, be regarded as, at best, approximate only.

(*g*) The *Other items* of miscellaneous revenues, excepting contributions from private individuals noted in paragraph 50 below, do not call for special remark.

18. *Public Works Receipts.*—The income under this head was Rs. 43,970, against Rs. 26,072 in the previous year, the increase being due to the payment of a contribution of Rs. 18,938 by the Madura municipality towards the construction of the Vaigai bridge.

19. *Contributions from Provincial Funds.*—Provincial grants aggregating Rs. 2,27,135 (against Rs. 2,02,071 in 1884-85) were obtained for the following purposes:—

| | Rs. |
|---|---|
| (*a*) For Roads | 1,02,000 |
| (*b*) „ Tolls | 22,733 |
| (*c*) „ Schools | 45,711 |
| (*d*) „ Hospitals and Dispensaries | 6,532 |
| (*e*) „ Choultries | 33,158 |
| (*f*) „ General purposes | 17,001 |
| Total | 2,27,135 |

(*a*) The South Arcot district board received a further grant of Rs. 20,000 in addition to the Rs. 30,000 given in 1884-85 for the restoration of the communications damaged by the floods of 1884; a special grant of Rs. 10,000 was given to the South Canara District Board for the upkeep of the main lines of traffic with Coorg and Mysore; and the Nílgiri District Board received a grant of Rs. 72,000 for the maintenance of the district roads.

(*b*) The sum of Rs. 22,733 was paid to the Nílgiri District Board on account of the toll collections on the Kullar-Gúdalúr road mentioned in paragraph 13.

(*c*) Of the grant for schools, Rs. 44,751 were paid by the Director of Public Instruction under the Grant-in-aid Code, and the remainder (Rs. 960) was the allowance made for the support of the yeomiah school at Arcot transferred to the district board of North Arcot by G.O., of 31st January 1884, Mis. No. 222.

(*d*) The grant of Rs. 6,532 for hospitals and dispensaries was made up as follows:—

(1) Rs. 2,066 contributed from the Arcot Langarkhana Fund to the North Arcot District Board towards the upkeep of the Ranipet dispensary.

(2) Rs. 2,640 paid to the Tanjore District Board on account of the Rajamirasidar Hospital at Tanjore.

(3) Rs. 1,746, the revenue of two inam villages in the Sivaganga Zemindari credited to Government in past years, but made over to the Madura District Board in the year under review for the support of the dispensary at Tiruvadanai.

(4) Rs. 80 paid to the same board on account of medicines used in the treatment of police constables in the local fund dispensary at Ramnad.

(*e*) Grants amounting to Rs. 33,158 were as usual paid to the Anantapur, North Arcot, South Arcot, Coimbatore, Kurnool, Madura, Nílgiris, Salem, Tanjore, and Tinnevelly district boards on account of choultries. These grants are for the most part given in lieu of emoluments from lands originally assigned to the choultries in question, but subsequently resumed by Government.

(*f*) Grants for general purposes, amounting to Rs. 5,000 and Rs. 12,000, respectively, were paid to the South Canara and Nílgiri district boards, in consideration of the paucity of their funds.

20. *Contributions from Special Funds.*—(*a*) The share of the *Pound Fund* surplus transferred to Local Funds was Rs. 40,227, against Rs. 30,059 in 1884-85. The increase occurs chiefly in Tanjore, Salem, Kistna, Godávari, Trichinopoly and North Arcot, and was due mostly to enhanced receipts from pounds and to short expenditure on their construction and maintenance. In Tanjore, however, there was a special cause of increase, viz., the adjustment during the year of the collections of 1884-85 which had been reserved for pound construction and repair.

(*b*) The amount transferred to Local Funds from the surplus of the collections at the *ferries* in South Canara, Kistna, Malabar, Tanjore and Trichinopoly to which the Canal and Ferry Act I of 1870 had been extended was Rs. 1,12,118, against Rs. 1,13,152 in 1884-85. The major portion of this sum was raised in Malabar, viz., Rs. 77,567, against Rs. 79,116 in 1884-85. In South Canara and Trichinopoly, the contributions amounted to Rs. 17,051 and Rs. 8,500, respectively, or Rs. 384 and 131 more than in the preceding year. In Kistna and Tanjore, the previous year's contributions, amounting to Rs. 1,000 and Rs. 8,000, respectively, were repeated.

## III. EXPENDITURE.

21. Appendix X shows the total expenditure for the year under the several heads as compared with the budget estimates and the actuals of 1884-85. Excluding debt heads and contributions from one District Board to another, the total expenditure amounted to Rs. 58,19,675 against Rs. 58,89,732 in 1884-85. There was a decrease in round numbers of Rs. 1,10,000 under Grant I, which was partly counterbalanced by increases of Rs. 13,000, Rs. 7,000, and Rs. 20,000, respectively, under Grants II, III, and IV. The following statement compares the expenditure under the several heads and the percentage of outlay under each grant with the corresponding figures for the previous year:—

| Grants. | 1884-85. | 1885-86. | Percentage of outlay under each Grant to total expenditure. | |

### GRANT I, PUBLIC WORKS.

22. *Appendix XI.* — The total outlay on *Communications* amounted to Rs. 28,32,988, or 82 per cent. of the budget allotments, against Rs. 29,20,317, or 79 per cent., in 1884-85. Of the former sum, Rs. 28,08,148 were spent by the engineering establishments employed by the District Boards, and the remainder (Rs. 24,840) by the Public Works Department, chiefly on roads running along tank embankments and channel banks. The expenditure on the construction and repair of *Buildings* was Rs. 1,14,589 against Rs. 1,22,979; and that on *Miscellaneous Public Improvements* relating to avenues, markets, tanks, wells, &c., (inclusive of Rs. 498 spent by the Public Works Department in improving the sanitary condition of the town of Dowlaishweram in the Godávari district), aggregated Rs. 1,27,360 against Rs. 1,50,000 in the previous year. Thus the total outlay on *Public Works* was Rs. 30,74,937, or 80 per cent. of the budget allotments, against Rs. 31,93,296, or 77 per cent., in 1884-85. The percentage of expenditure to allotments was very good in the first seven districts noted in the margin, and unduly low in the last seven. The explanations given for their short outlay by the boards of these latter districts will be found in Appendix XI. The Government cannot accept these as altogether satisfactory, but they trust that steps will be taken to show better results in future.

23. *Roads.*—Appendix XII shows the mileage and cost of the district and village roads constructed and repaired during the year. The total length of roads under the control of the District Boards at the commencement of the year was 21,646 miles, of which 19,574 miles belonged to district roads and 2,072 miles to village roads. Of these, 17,327 miles of district road and 1,482 miles of village road were maintained during the year at a cost of Rs. 19,48,805 and Rs. 95,481, respectively, against 18,280 miles of the former and 2,717 miles of the latter in 1884-85. Rs. 4,47,381 were further expended in the completion of 330 miles, and the commencement of 251 miles, of new roadway. The outlay on village roads was 7 per cent. of the total road expenditure against 8 per cent. in the previous year. The statistics furnished regarding the mileage of roads, cannot, however, be regarded as altogether accurate. No information has been given regarding the general condition of the roads in most districts—an omission which should be supplied in future reports.

24.—*Buildings, &c.*—The outlay on civil buildings amounted to Rs. 1,14,589, as shown below, against Rs. 1,22,979 in the preceding year :—

| | RS. |
|---|---|
| Schools | 18,560 |

25. *Miscellaneous Public Improvements.*—The expenditure under this head was Rs. 1,27,360 against Rs. 1,50,000 in the previous year. The principal items are as follows :—

| | RS. |
|---|---|
| Markets | 25,833 |
| Tanks and wells | 14,454 |
| Sanitary works | 2,282 |
| Chattram irrigation works | 11,404 |
| Avenues | 63,385 |
| Miscellaneous | 10,002 |
| Total .. | 1,27,360 |

26. *Establishments and Contingencies.*—The sum of Rs. 5,62,613 entered under this head in the statement given in paragraph 21 above is made up as follows :—

| | RS. |
|---|---|
| (1) Local Fund engineering establishment including contingencies | 5,31,078 |
| (2) Public Works Department for supervision of works | —1,218 |
| (3) Do. do. for scrutiny of plans and estimates. | 21,250 |
| (4) Tolls and Ferry establishments | 11,503 |
| Total .. | 5,62,613 |

Each District Board maintains its own engineering establishment for the execution of its public works. The total cost of these establishments, including contingencies, was Rs. 5,31,078, or 17 per cent., of the total outlay on works, the maximum proportion fixed being 20 per cent. In Kurnool, Nellore, Godávari, and South Canara, the prescribed rate was exceeded, the percentage being 27 in the first two districts and 21 in the last two. In the first three districts this was due to the short expenditure on works, while in the last it is attributed to retrenchment of the Provincial grant for roads connecting the district with Mysore and Coorg from Rs. 25,000 to Rs. 10,000.

Rs. 1,526 were paid to the Public Works Department for the execution of Local Fund works entrusted to their charge in Godávari, Kistna, and Trichinopoly ; but, on the other hand, in Tanjore a sum of Rs. 2,744, paid to the department in 1884-85, was refunded to the District Board, and this amount is shown as a *minus* entry under this head in Appendix III.

Contributions, amounting to Rs. 21,250, were also paid to the Public Works Department for the scrutiny of the more important Local Fund plans and estimates.

Tolls and Ferry establishments cost Rs. 11,503 against Rs. 9,612 in the preceding year.

27. The outlay on *Tools and Plant* was Rs. 37,610 or 1·2 per cent. of the outlay on works, against Rs. 41,845 or 1·3 per cent. in the previous year, the sanctioned rate being 1 per cent. The highest percentage (3·2) was in Vizagapatam, and is explained by the purchase of scientific instruments required for the survey of certain roads.

28. *Contributions to Provincial, Municipal and other Funds.*—The amount paid to Provincial Funds in partial adjustment of the famine debt of Rs. 5,67,000 was Rs. 26,789. The total payment on this account up to the end of the year under review has been Rs. 5,45,308, and of the balance of nearly Rs. 22,000 then due, Rs. 9,000 was to be paid in 1886-87. The chief payments on other accounts under this head were as follows :—

(*a*) *Nílgiris.*—Refund of Rs. 10,000, being the unexpended Provincial grant for the improvement of the Kótagiri ghât road.

(*b*) *Godávari.*—Contribution of Rs. 20,000 to the Canal and Ferry Fund on account of the cost of the Kovur-Manjair canal.

(*c*) *Malabar.*—Payment of Rs. 28,000 to the Madras Railway Company as the first instalment of the promised contribution of Rs. 1,12,500 on account of the Ferokh and Kallai bridges.

Payments to municipalities on account of Tolls and for Public works in or near municipal towns amounted to Rs. 26,373, against Rs. 47,621 in the preceding year.

## GRANT II.—EDUCATION.

29. *Appendix XIII.*—The total number of pupils under instruction in the several schools maintained wholly or in part from Local Funds was 261,743,* or 6·2 per cent. of the estimated number of children of school-going age, against 228,348, or 5·4 per cent. in the preceding year. This advance in numbers shows that the falling off noticed in 1884-85 was merely temporary, being due to the special reasons

assigned in the review of that year. The increase would have been much larger, but for a decrease in the strength of the Local Fund secondary schools in the districts noted in the margin, owing mainly to the adoption of the new scale of fees.

30. Excluding Rs. 18,560, being the cost of constructing and repairing school buildings shown under Grant I, the total expenditure on education was Rs. 7,00,797 (against Rs. 6,87,744 in 1884-85), distributed as follows :—

| | 1884-85. | 1885-86. |

Appendix XIII shows the receipts and charges of the several schools, but does not include receipts from the sale of books, contributions from municipalities for the inspection of municipal schools, or charges connected with the purchase of books and educational inspection.

31. *Inspection.*—The educational operations of the District Boards were as usual supervised by Deputy Inspectors of Schools and Inspecting Schoolmasters. The Deputy Inspectors are borne on the provincial list, and during the year under review their cost was met altogether from Provincial Funds, the Government having, in accordance with the recommendation of the Education Commission, waived their claim to the contribution formerly received from District Boards on this account. A sum of Rs. 2,258 was, however, paid from Local Funds on account of contribution due for the previous year. There were 121 inspecting schoolmasters paid entirely from Local Funds, against 120 in the previous year. These officers visited 16,380 villages, and prepared 14,435 schools for examination. They cost in all Rs. 58,165, or Rs. 1,836 more than in the preceding year.

32. *Training Schools.*—Including two sessional schools for the training of village schoolmasters in South Canara, and the Yellamanchili school mentioned below, there were 36 elementary normal schools maintained by District Boards, against 33 in the previous year. In Tinnevelly a new school was established at Palamcottah in October 1885, while in Tanjore the Tiruválúr school was abolished towards the close of 1884-85 for want of funds. The school at Vizagapatam, formerly maintained from Provincial Funds, was made over to the District Board in July 1885, while the Yellamanchili school in that district, having been badly reported upon, was closed in February 1886. One of these schools, maintained at Calicut from the Moyan endowment funds, is intended for the training of females. The total number of students under training rose from 753 in 1884-85 to 857 in the year under review. Of the latter, 795 were stipendiary students paid from Local Funds, while the remaining 62 were either free pupils or were paid by Municipalities. 669 of these pupils appeared for the Special Upper Primary Examination, but only 371 or 55 per cent. passed, against 486 or 74 per cent. of the total number of candidates in 1884-85. Looking to the results of the previous two years, the Government are disposed to agree with the Director of Public Instruction* in thinking that this falling off is due for the most part to the variation in the standard of the examination. The total cost of these institutions amounted to Rs. 67,017, against Rs. 61,131 in the previous year. Deducting

* Paragraph 142 of his report for 1885-86.

provincial grants, school fees and miscellaneous receipts, the average net cost of training each successful student was Rs. 128, against Rs. 91 in 1884-85, the increase being, of course, due to the falling off in the number of passes. The average cost varies greatly in the several districts. In South Canara, it was only Rs. 13 a head; Madura comes next with Rs. 66; Chingleput, Vizagapatam and Trichinopoly follow with Rs. 86, Rs. 90, and Rs. 95, respectively; while in Malabar, Godávari, Cuddapah and Ganjam, it was as much as Rs. 211, Rs. 283, Rs. 329, and Rs. 352 respectively. The attention of the last-named Boards is drawn to these figures in view to their taking steps to reduce the cost in future.

33. *Secondary Schools.*—There were 103 Local Fund secondary schools, against 136 in the previous year, as shown in the margin. The only collegiate institution was the Sanscrit College attached to the Kalyanamahal chattram, at Tiruvádi, in the Tanjore district. It was attended by 66 pupils, of whom 26 are reported to have passed the annual examination. The three high schools are at Tiruválúr in Tanjore, at Udamalpet in Coimbatore, and at Amalápuram in Godavári. They were attended by 363 pupils, and the examination results were on the whole satisfactory. Twelve out of 26 candidates passed the University Matriculation Examination. The decrease in the number of middle schools, which occurs chiefly in Godávari, Kistna, Nellore and North Arcot, is explained by closure of schools (*a*) for want of funds, and (*b*) on account of decreased attendance owing to the introduction of the new scale of fees. Sixty-seven middle schools were maintained on the salary, and the remaining 32 on the salary-results, system. They were attended in all by 6,689 pupils, against 7,404 in 1884-85. The number of pupils who appeared for and passed the several departmental examinations is not given in 8 districts. In the remaining 11 districts in which there were middle schools, 204 pupils appeared for, and 85 passed, the Middle School Examination, and 306 appeared for, and 192 passed, the Lower Fourth-class Comparative Examination. The working of these schools should in future be specially noticed in the district reports.

34. The total expenditure on secondary schools was Rs. 1,06,373 against Rs. 80,635 in 1884-85, but their net cost to Local Funds was only Rs. 22,897 against Rs. 27,386 in that year. The average net cost * of educating each pupil amounted to Rs. $3\frac{3}{4}$ against Rs. $3\frac{1}{2}$ in the previous year; but it varied from As. 2-5 in South Arcot to Rs. 18-4-11 in Godávari, while in three districts—South Canara, Chingleput and Trichinopoly—the secondary schools were maintained at a slight profit to the District Board.

35. *Elementary Schools.*—There were 271 Local Fund primary schools on the salary system, and 994 on the salary-results system, against 274 and 1,024, respectively, in the preceding year. The decrease in the former case is due to the closure of schools in Ganjam and Nellore; in the latter case it occurs chiefly in the districts noted in the margin. Most of the salary system schools—219 out of 271—are in Godávari. These schools have been unfavorably reported upon by the educational officers, and recommended for conversion into salary-results system schools, but the District Board are unwilling to take this step, on the ground that, owing to the small attendance at most of them, it would be impossible for the teachers to earn a sufficient income. But in the opinion of Government, schools that cannot support themselves on the salary-results method might well be closed altogether. The present system, as pointed out by the President in paragraph 61 of his annual report, results in many cases in teachers getting paid

* The average net cost per pupil in this paragraph and in paragraph 36 is obtained by dividing the total net cost of the schools by the total average attendance during the year.

† In South Arcot, seven girls' schools were transferred to Government, and five boys' schools amalgamated with the middle schools. In Coimbatore, the combined system schools are now treated as private schools. In Nellore, 21 schools were closed for want of funds.

for work which they do not do. The 211 salary-results system schools which at present exist in this district are favorably reported on.

36. The 271 salary system schools were attended by 7,989, and the 994 salary-results system schools by 28,861, pupils, against 7,280 and 27,611, respectively, in the preceding year. The total cost of these two classes of schools was Rs. 2,00,058 against Rs. 2,02,196 in 1884-85, and the net cost Rs. 1,57,505 against Rs. 1,59,142. The average cost of educating each pupil was Rs. 5, against Rs. 4½; but it varied from Rs. 2-10-0 in Anantapur to Rs. 14-3-0 in Tinnevelly. 20,973 pupils from these schools passed the several standard examinations out of 27,926 who appeared.

37. *Grant-in-aid Schools.* — Aid was given from Local Funds to 16 private schools attended by 360 pupils by payment of *salary grants* amounting to Rs. 1,335, and to 537 such schools attended by 21,256 pupils by payment of *salary and result grants combined* to the extent of Rs. 32,585. In addition to these, there were 9,735 *results grants* schools attended by 195,302 pupils, of which 7,910, with an attendance of 110,754 pupils, were actually examined and paid grants amounting to Rs. 2,14,155 during the year. The number of schools which received results grants in 1884-85 was 8,532 with an attendance of 119,574, and the amount of grant earned Rs. 2,17,796. The average grant per pupil examined in the above three cases was Rs. 3-11-4 in salary grants schools, Rs. 1-8-6 in combined grants schools, and Rs. 1-14-11 in results grants schools, against Rs. 3-10-5, Rs. 1-8-0 and Rs. 1-4-11, respectively, in the preceding year.

38. *Contributions to Provincial and Municipal Funds.*—As already remarked, Rs. 2,258 was contributed to Provincial Funds towards the pay and allowances of Deputy Inspectors of Schools for 1884-85. Further, Rs. 867 were refunded to Provincial Funds on account of salary grants over-drawn in the previous year, and Rs. 1,016 were as usual paid to the Nellore Municipality in aid of the municipal schools there.

39. *Purchase and Sale of School-books.*—A sum of Rs. 13,283 was spent on the purchase of school-books, besides Rs. 1,579 paid as salary to the selling agents and for commission on sales. The amount realised by the sale of these books was Rs. 10,531 ; the net cost for the year under this head was thus Rs. 4,331, against Rs. 1,306 in 1884-85.

## GRANT III—MEDICAL SERVICES AND SANITATION.

40. *Appendix XIV—Hospitals and Dispensaries.*—Four new dispensaries were opened during the year, viz., at Viravasaram in the Godávari district, at Tiruvadanai in Madura, and at Nilambúr and Cherpalcheri in Malabar, while one at Kótagiri, in the Nilgiri district, was transferred from private management to that of the District Board. The total number of hospitals and dispensaries under the management of local boards was thus raised from 220 to 225. Of these, seven are included in the first class, as affording accommodation to in-patients and being provided with the necessary instruments for conducting major operations; 150 are dispensaries of the second class, having wards for the accommodation of in-patients; and the remaining sixty-eight are of the third class, in which provision is made for the relief of out-patients only, though in emergent cases in-patients are also admitted. Of these institutions, 137 were situated in buildings belonging to the District Boards, while the others were in rented houses, or in buildings lent by Government or by private individuals. Twenty-three were maintained either wholly or partly from endowments, and eighteen from the chattram funds in Tanjore and Tinnevelly. The total expenditure on hospitals and dispensaries—including the pay of the regular medical subordinates in charge, but excluding that of additional medical practitioners maintained in the districts of Godavári, Kistna, Nellore and Malabar—was Rs. 2,79,098, against Rs. 2,96,648 in the previous year. The decrease, however, is merely nominal, as the cost of medicines and surgical apparatus, which last year was shown under this head, is now shown under Contributions to Provincial Funds. The following statement shows the number of patients treated in these institutions during the last three years. The steady increase testifies to their growing popularity :—

| Years. | In-patients. | Out-patients. | Total. |
|---|---|---|---|
| 1883-84 .. .. .. .. | 10,770 | 969,021 | 979,791 |

| 1885-86 .. .. .. .. | 11,975 | 1,129,996 | 1,141,971 |

In addition to the above, 2,951 cases of labor were treated by 101 midwives in the employ of District Boards, against 2,845 cases treated by ninety-four midwives in the preceding year. Each midwife had thus on an average twenty-nine cases in the year, or only 2·5 cases per month. The average was particularly low in the districts noted in the margin, and the District Boards concerned should take steps to produce better results in future.

41. *Medical Schools* for the training of hospital assistants were maintained by the District Boards of Nellore, Tanjore and Madura. They were managed by the respective District Surgeons, and their working is thus summarized in paras. 167—169 of the annual report of the Director of Public Instruction :—

"The Nellore Local Fund Medical School had 7 pupils, against 17 in the beginning of the year. All the senior-class students passed the examination held in June 1885, and obtained employment as local fund hospital assistants. As a fresh batch was not admitted, the attendance fell to 7. No pupils were ready for the last examination for hospital assistants.

"The attendance rose at the Medical School, Tanjore, from 18 to 28, ten pupils having joined as first year's students. The five pupils presented for the last hospital assistant examination were successful, the Government medal for the highest number of marks being also gained by one of the pupils. The pupils of the second and third years receive clinical instruction weekly in the wards of the Rajah-Mirasidar hospital, which contains 124 beds and is said to be the largest mofussil hospital in the presidency.

"In the Madura Medical School, the attendance remained almost the same as in the previous year. Seven out of the 9 pupils passed in the last final examination. The institution, which is making good progress, is attended by 6 private pupils."

42. *Appendix XV—Vaccination.*—There were 46 Deputy Inspectors of Vaccination, as in 1884-85, and 592 vaccinators, including probationers, against 614 in that year. The work done by this staff and the average cost of each successful operation are compared below with the corresponding figures of 1884-85 :—

| Years. | Number of persons vaccinated. | Number of successful cases. | Percentage of successful cases to number vaccinated. | Cost per successful case. |
|---|---|---|---|---|
| | | | | RS. A. P. |
| 1884-85 .. .. .. | 611,032 | 575,178 | 94 | 0 4 0 |
| 1885-86 .. .. .. | 601,160 | 569,058 | 95 | 0 4 0 |

Taking the birth-rate of the presidency at 29·3 per mille of the population—the figure given in the Sanitary Commissioner's report for 1885—the number of persons protected from small-pox in the year under review was 69 per cent. of the number of births, that is to say, there was a slight retrogression as compared with the previous year, when the proportion was 69·8. The districts which show the best results in proportion to population are South Canara and Bellary, where the number of operations performed exceeded that of the births, and Coimbatore, Vizagapatam, Tinnevelly, Anantapur, Chingleput, Nílgiris, and Salem, where it was between 80 and 90 per cent. of the latter. The worst results are exhibited by the districts shown in the margin. In Kistna, the number of successful cases has fallen from 25,417 in 1884-85 to 13,371, the decrease being

ascribed to the unwillingness of the people, the non-prevalence of small-pox, and the want of help given to vaccinators by the heads of zemindari villages. There was also a decrease of 8,033 cases in Godávari, and the President states that he has issued instructions to the taluk revenue officers to closely supervise the working of the vaccine department in future. In Cuddapah certain proposals made by the District Board, and lately sanctioned by Government in regard to the department, will, it is hoped, produce better results in future. In North and South Arcot the Collectors have issued stringent orders to their subordinates to encourage vaccination in every possible and legal way, and considerable improvement is expected in the next year. No special measures appear to have been adopted in Ganjam, and the President of the District Board is requested to give the subject his special attention. The average cost of each successful case for the presidency was the same as in the previous year, viz., Annas 4, but it was very high in Cuddapah (As. 13-8), Nílgiris (As. 10-9), Kistna (As. 9-6), Godávari (As. 8), and Kurnool (As. 6-8). These figures compare unfavorably with those of 1884-85, especially as regards Cuddapah, Kistna, and Godávari.

43. *Appendix XVI—Sanitation.*—Exclusive of the expenditure of Rs. 26,738 incurred on sanitary public works under Grant I, the outlay on sanitation was Rs. 2,46,651 against Rs. 2,57,571 in the previous year. The following are the purposes for which this amount was spent:—

| | 1884-85. | 1885-86. |
|---|---|---|
| | RS. | RS. |
| (1) Inprovement of water-supply .. .. .. | 48,184 | 47,802 |
| (2) Improvement of village sites .. .. .. | 12,577 | 15,062 |
| (3) Conservancy establishments .. .. .. | 1,54,801 | 1,56,727 |
| (4) Arrangements at fairs and festivals .. .. | 10,486 | 10,311 |
| (5) Other sanitary outlay .. .. .. .. | 31,523 | 16,749 |
| Total .. | 2,57,571 | 2,46,651 |

It is to be regretted that the amount actually spent was only 82 per cent. of the budget allotments, against 85 per cent. in the preceding year, though the Presidents of District Boards assured Government that the sanctioned grants for the year would be fully utilized. The percentage was specially low in the districts noted in the margin. In Tanjore it would appear that a large number of tank works were only partially repaired, and that even the cost of repair was not fully paid within the year, as bills were not submitted in time. In South Arcot the short outlay is explained by the postponement of optional expenditure under the orders of the Government of India. In Kistna it is stated that the whole of the budget allotment was placed in the hands of the tahsildars who could not obtain trustworthy contractors to carry out all the works. These explanations cannot be accepted as satisfactory. The Government, as stated in last year's review, attach the greatest importance to this subject, and they trust that the taluk boards and union panchayats recently constituted will take measures for the full utilization of the grants sanctioned. The details of the conservancy establishments employed in the several villages have not been furnished in all the district reports. These particulars, as well as complete information regarding the several works undertaken, should be given in future reports as required in G.O., dated 16th October 1886, No. 1340 L.F.

44. *Markets and Bungalows.*—The expenditure under these heads has already been noticed in paragraph 17.

45. *Appendix XVII—Choultries, &c.*—Including the Arcot and Kurnool langarkhanas and the poor-house at Tanjore, there were 370 choultries under the control of the District Boards in 1885-86 (against 333 in the preceding year), of which 201 had endowments of their own. In 41 of these latter, 2,103,099 daily rations were issued at a cost of Rs. 1,19,234, against 1,973,925 at a cost of Rs. 81,793 in 1884-85. The increase in the cost occurs principally in the Tanjore district, and was due to the adjustment of the value of paddy at the current selling prices as already explained in paragraph 17. 24,615 persons were fed in the Arcot langarkhana (poor-house), at a cost of Rs. 1,001, while in that at Kurnool 30 infirm persons received a maintenance dole of Re. 1 each per mensem. It is presumed that the usual monthly pensions to blind persons were granted from the Tirukurangudi chattram funds in Tinnevelly. In the poor-house at Tanjore 127,830 persons were fed at a cost of Rs. 2,343. As the latter amount is included in the sum of Rs. 98,837 shown in Appendix III as the cost of feeding travellers in choultries, the separate entry of Rs. 1,000 under this head as a contribution to the poor-house appears to be incorrect. The Accountant-General is requested to explain this.

46. *Contributions.*—The contributions paid from Local funds for medical and sanitary purposes amounted to Rs. 1,64,405 against Rs. 1,48,114 in the previous year, as shown below:—

| | 1884-85. | 1885-86. |

| For other purposes .. .. .. .. .. | 600 | 550 |
| Total .. | 1,48,114 | 1,64,405 |

The increase is merely nominal, as a sum of Rs. 24,557, being the cost of medicines, &c., is now shown under this head instead of under Hospitals and Dispensaries as in previous years (see paragraph 40 above).

## GRANT IV—MISCELLANEOUS.

47. *Supervision and Office Management.*—The total cost of supervision, including contingencies, amounted to Rs. 1,87,822 against Rs. 1,80,742 in 1884-85, and formed 3·1 per cent. of the actual receipts of the year, and 3·2 per cent. of the charges. The increase, as compared with last year, occurs under Contingencies, particularly in Vizagapatam, Salem, and North Arcot. The pay of the head clerks or "managers" in the various District Board offices varies from Rs. 40 in Nílgiris to Rs. 70 in Ganjam, Madura, Salem, Tanjore, Trichinopoly and Vizagapatam.

48. *Repayment of Interest on Loans.*—Interest and instalments of principal, amounting to Rs. 10,522 and Rs. 16,125, respectively, were paid by the Chingleput and Malabar District Boards on account of the loans made to them from Imperial funds. The subjoined statement shows the purposes for which these loans were obtained, and the balances due at the close of the year:—

| Boards. | Works. | Amount of Loan. | Amount repaid. | Balance due. |
|---|---|---|---|---|
| | | RS. | RS. | RS. |
| Chingleput .. | Construction of the iron girder bridge across the Kortalayár river .. | 1,99,790 | 55,155 | 1,44,635 |
| Malabar .. | Completion of the Támracheri and Peria ghât roads .. .. .. | 1,49,000 | 72,367 | 76,633 |
| | Total .. | 3,48,790 | 1,27,522 | 2,21,268 |

The temporary loan of Rs. 9,752 advanced from Provincial Funds to the Anantapur District Board to wipe off the deficit at the close of 1884-85 was also repaid during the year under review.

49. *Refunds of Cess, &c.*—Refunds of cess, &c., amounted to Rs. 11,321 against Rs. 7,893 in the previous year. The increase occurs chiefly in Tanjore.

## IV. CONTRIBUTIONS AND ENDOWMENTS UNDER THE CONTROL OF DISTRICT BOARDS.

50. *Contributions, &c.*—The total amount of voluntary contributions made by private individuals or bodies for works of local utility was only Rs. 31,866, against Rs. 52,974 in 1884-85. Of this sum, Rs. 6,400 were on account of public works; Rs. 8,145 for hospitals and dispensaries; Rs. 893 for schools; and the remainder, Rs. 16,428, for sanitary purposes. The corresponding figures for the preceding year were Rs. 8,365, Rs. 11,249, Rs. 777, and Rs. 32,583. The decrease thus occurs chiefly under contribution for sanitary purposes; but a portion of this is merely nominal, as in 1884-85 a sum of Rs. 8,750 paid by the Buckingham Memorial Committee for the construction of two choultries in the Nellore district was incorrectly shown under this head in the Accountant-General's statements.

51. *Endowments, &c.*—Appendix XVIII gives the total number of endowed institutions, such as schools, hospitals, dispensaries, choultries, markets, &c., under the control of the various District Boards, while their gross receipts and charges are shown in Appendices XIX and XX, furnished by the Accountant-General. Excluding appropriations from general funds to meet excess expenditure, the receipts on account of these institutions amounted to Rs. 3,69,247 against Rs. 3,28,318 in 1884-85, and the charges to Rs. 3,73,832 against Rs. 3,43,111. The variations in the receipts occur chiefly in North Arcot, Madura, Malabar, Tanjore, Tinnevelly and Trichinopoly. There was a balance of Rs. 3,08,126 in favor of these institutions at the close of the year, of which Rs. 82,714 belonged to Tanjore, Rs. 60,732 to Tinnevelly, Rs. 59,318 to Coimbatore, and Rs. 40,890 to Madura. The District Boards concerned should submit proposals for utilizing these large sums.

52. *Endowed Schools.*—As in the preceding year, these were four in number, viz., the yeomiah school at Arcot under the management of the North Arcot District Board; the school at Ponnur, in Kistna, maintained from the proceeds of lands in the Bápatla taluk; the Female Normal School at Calicut, maintained from the Moyan endowment fund transferred to the Malabar District Board for the encouragement of female education; and the Prince of Wales' Medical School at Tanjore, supported from the interest on the sum locally subscribed in honor of the visit of His Royal Highness the Prince of Wales in 1875. Besides these, there were four schools in Tanjore and one in Tinnevelly which may also be regarded as endowed, inasmuch as they were entirely maintained from the funds of endowed choultries. These were the "Sanskrit College" at Tiruvádi, the girls' school at Nídámangalam, two boys' schools at Rajamattam and Oratanad, and the Anglo-Vernacular school at Tirukurangudi (Tinnevelly district).

53. The number of *endowed dispensaries* rose from 21 in 1884-85 to 23 in the year under review. In South Arcot, the dispensary at Vriddháchalam is now classed as an endowed institution, as it is partly maintained from the rental of a private tope planted by a former Sub-Collector, who desired that its proceeds should be applied for

that purpose. In Madura, the newly-opened dispensary at Tiruvadanai is wholly maintained from the revenues of the inam villages of Kumani and Machiyur, in the Sivaganga Zemindari, made over to the District Board for this purpose. In addition to the institutions entered in Appendix XVIII there are sixteen dispensaries in Tanjore, maintained wholly from the funds of the Rajah's chattrams, and two in Tinnevelly, maintained from the revenues of the Tirukurangudi chattram.

54. The number of *endowed choultries* was 201, or one more than in 1884-85, the choultry at Vadamadura having been transferred from private management to that of the Madura District Board during the year under review. In South Arcot, the choultry at Bhuvanigiri, formerly included under this head, is now shown as an unendowed institution, while in Kistna the number of choultries is correctly shown as four instead of three as given in the review for 1884-85.

55. The number of endowed *water-sheds*, *tanks or ponds*, *topes*, and *langarkhanas* (poor-houses), remained the same as in the two previous years, and *markets* have been already treated of in paragraph 17.

56. Under the head of *Miscellaneous Endowments* may be mentioned, as in last year's review, the "Surplus Pagoda Fund" in Chingleput, the proceeds of which are devoted to the upkeep of the Chingleput dispensary; "Petrus Uscan's Charity Fund," in the same district, founded for the perpetual repair of the Marmalong bridge and the steps up St. Thomas' Mount; the "Taylor Pettah Fund," in Godávari, consisting of the fees levied on godowns, stalls and carts in the cart-stand at Taylorpetta, a suburb of Narsápur, and devoted to the sanitation and general improvement of the village; the "Price Vaccination Fund," in Salem, intended for the promotion of vaccination in that district; and the "Surplus Pagoda Fund," in the same district, the proceeds of which are expended on sanitary improvement.

57. In conclusion, the Government are glad to observe that the year under review marks on the whole a satisfactory advance in the administration of Local Funds throughout the Presidency.

| 1. Anantapur .. | 98 | 9,092 | .. | 9,092 | 20 | 600 | .. | 600 | 1·3 | (1)—Operations had to be restricted during the early portion of the year owing to want of rains which rendered the consolidation of material on roads impracticable. |
| 2. Arcort, North .. | 97 | 33,744 | .. | 33,744 | 19 | 2,443 | .. | 2,443 | 1·3 | (2)—The Local Fund Engineer attributes the short outlay to the loss of several overseers who left the District Board's service for the better prospects offered by the Public Works Department, and to a misunderstanding of the rule regarding the execution of the incomplete and uncommenced works of the previous year before receipt of fresh formal sanction. The District Board, however, are of opinion that it was in a great measure due to defective plan and method on the part of the Engineering staff. |

| 9. Ganjam .. .. | 80 | 21,044 | .. | 21,044 | 19 | 848 | 1 | 849 | 0·8 | (4)—(*a*) Postponement of all optional expenditure under the orders of the Government of India; (*b*) sickness of the staff working on the Mantralakama road; (*c*) absorption of labor by the railway works in progress in the district; (*d*) late preparation of the estimate for the Nandyál-Atmakur road; and (*e*) non-payment for a portion of the work done. The President, while admitting the short expenditure to be far from satisfactory, states that allowance must be made for the fact that the Local Fund Engineer is greatly overworked and that it is difficult to induce good men to take service in the district which has a bad reputation for fever. |
