1920/5

1920/5

Copy of the Office Note No. 238 of 13th Dec. 1870

The undersigned has the honor to forward to the Military Secretary to Government a copy of a report received from Dr King when acting Sanitary Commissioner on the Sanitary Condition of the buildings in Fort St George occupied by the Government Secretariat and to urge that now that it has practically been decided that the Government Offices are to remain where they are, steps should very speedily be taken to provide sufficient latrine accommodation for the employees of the Government Secretariat.

That at present existing is correctly described by Dr King at para. 5 page 1 of his memorandum. That it is totally insufficient and from the Sanitary point of view about as bad as it well can be, will be evident to any one who inspects the building.

The consequence is that it has been for some time past the practice with the native clerks and menials to resort to the beach for the purposes of nature. This has however recently been put a stop to in consequence of strict orders to the Police to prevent nuisances in and about the Casuarina topes in front of the Fort.

The undersigned avails himself of this opportunity to ask that the necessary steps may be taken as soon as possible in the direction of the provision of stabling for at any rate all the European and Superior native

and

and Eurasian employees of the Government Secretariat. This matter has been the subject of constant complaint for several years, and now that the Sanitary Commissioner his Deputy and the Sanitary Engineer have been brought into the Secretariat buildings the complaints are more frequent than ever. It is true that Secretaries to Government and Members of Council have all the accommodation that they want in this respect but it is not just or right that the Sanitary Commissioner, the Deputy, the Sanitary Engineer, Under Secretaries the Chief Assistant and others who may have horses and carriages quite as valuable as those of Secretaries and Members of Council should have as is now the case to expose their animals and vehicles to all weathers and pack them as they now do out on the glacis.

What is wanted is sites for latrines and sufficient stabling within a reasonable distance of the Secretariat buildings. The civil Department will if these are erected find the funds and the designs will be subject of course to the approval of the Military Authorities with whom would be also the management of both buildings as far as conservancy went.

The only stipulation that the undersigned would advance is that the apportionment of

of the accommodation should not be with the Military authorities, but entirely with either the Chief or Military Secretary to Government, and the no Officer ~~whether~~ civil or Military should be permitted to use any portion of the stabling without the express permission of the Official referred to above.

(Sd) J. J. Price.
Chief Secretary.

ARMY FORM A. 9.
Supplemental.

*N. B.—The Form being applicable to any Board of Officers or Committee, or Court of Inquiry, this blank to be filled in accordingly.

The Signature of each Officer composing the Board, &c., should be attached at the end of the Proceedings.

PROCEEDINGS of a* Committee

assembled at Fort St. George - Madras

on the 9th day of February 1894

in accordance with instructions received from the Director Medical General, Madras Army -

for the purpose of selecting a site for latrines for the use of the Clerks employed in the Government Secretariat building, Fort St. George -

1820/8

Major General G. J. Smart - R. A.
Commdg. Madras District -

MEMBERS:

Sy. Surgn. Genl. E. C. Mackay. C.B. — Pres. Med. Off. Med. Dist.
Lt. Col. W. C. J. Madden - — Comdg. 2/Somerset Lt. I.
Surgn. Major J. A. Laing - — Sanitary Commr. Madras.
Major L. A. McClintock - — Comdg. R. A. Fort St. George.
Capt. R. J. Collier - — Dist. A. G. Med. Dist.
Capt. H. Mallaly - — 8th Bn. Engr. Mily. Works.

The Committee having assembled pursuant to order, proceed first to look at the shed at present used as the only urinal for the Secretariat buildings; This shed is too close to the buildings, has been in use for a long time, and the floor is to a great extent saturated with urine; it is also faulty in construction.

The Committee are of opinion that it should

Calcutta Stm. Pg. Co.—No. 64 A—3.8.90—15,500.

be demolished, and a proper one on an approved plan erected—; and they see no objection to the site (B) marked in plan No. 2, being given for this purpose. The Latrine to be of Modern pattern, to be enclosed with iron railing, the same as the rest of the Secretariat — and shrubs planted round it to secure it from observation—.

There is no Latrine within a convenient distance of the buildings, and the Committee are given to understand that the native Clerks are in the habit of resorting the beach for purposes of nature—.

Committee consider that suitable provision should better be made — and are of opinion that a proper Latrine of approved pattern should be erected on the beach — and they see no objection to the site (A) marked in plan No. 1, being given for the purpose —.

Special Conservancy would have to be provided for this Latrine — and steps

taken to prevent its being used by others than those for whom it is intended.

Signed at Madras this ninth day of February 1891—.

Sir,

1 Enclosures.

I have the honor to return the papers received with your Endorsement No 2655 C dated 25th May 1892 with plans & Estimates, the latter amounting to Rs 4,551 for constructing a Latrine and a Urinal of galvanized corrugated iron.

2. Although I much prefer the plans now submitted, still I consider that in consequence of their proximity to the sea, the salt air would injuriously affect the iron latrine.

Capt. R. J. Collier - — Dist. A. G. Med. Dist.
Capt. H. Mallaly - — 8th Bn. Engr. Mily. Works.

The Committee having assembled pursuant to order, proceed first to look at the shed at present used as the only urinal for the Secretariat buildings; This shed is too close to the buildings, has been in use for a long time, and the floor is to a great extent saturated with urine; it is also faulty in construction.

The Committee are of opinion that it should

Calcutta Stm. Pg. Co.—No. 64 A—3.8.90—15,500.

be demolished, and a proper one on an approved plan erected—; and they see no objection to the site (B) marked in plan No. 2, being given for this purpose. The Latrine to be of Modern pattern, to be enclosed with iron railing, the same as the rest of the Secretariat — and shrubs planted round it to secure it from observation—.

There is no Latrine within a convenient distance of the buildings, and the Committee are given to understand that the native Clerks are in the habit of resorting the beach for purposes of nature—.

Committee consider that suitable provision should better be made — and are of opinion that a proper Latrine of approved pattern should be erected on the beach — and they see no objection to the site (A) marked in plan No. 1, being given for the purpose —.

Special Conservancy would have to be provided for this Latrine — and steps

taken to prevent its being used by others than those for whom it is intended.

Signed at Madras this ninth day of February 1891—.

Members.

I have not in view of the site A as proposed for a Latrine, as from my opinion, it will be offensive to the residents in the Fort, residing to Leeward —

From
Henry Irwin, Esq., C.I.E.,
Consulting Architect
to the Government of Madras,

To
The Chief Engineer
Public Works Department

Sir,

1 Enclosures.

I have the honor to return the papers received with your Endorsement No 2655 C dated 25th May 1892 with plans & Estimates, the latter amounting to Rs 4,551 for constructing a Latrine and a Urinal of galvanized corrugated iron.

2. Although I much prefer the plans now submitted, still I consider that in consequence of their proximity to the sea, the salt air would injuriously affect the iron latrine.

I have the honor to be
