From Lieut.-Col. C. E. CRIGHTON, Commandant, South Indian Railway Volunteer Rifle Corps, Negapatam, to the Superintending Engineer, VI Circle, dated 2nd November 1895, No. 1204.

In returning herewith, duly countersigned as requested, the plans and estimates forwarded with your letter No. 1149, dated 28th October, I have the honour to inform that the buildings appear to be suitable in every way and the cost moderate.

2. The sum of Rs. 5,000 granted by Government to the corps will be applied for and on receipt credited to your department, as also the sum of Rs. 613 mentioned by you as the balance required to complete the armoury.

3. I have the honour to point out that it is unlikely that any ground belonging to the South Indian Railway Company will be available at Madura during the present year for the erection of an armoury at that station. It will therefore be necessary for some ground to be acquired for the purpose in the vicinity of the railway station. The Adjutant Captain Bradly will proceed to Madura shortly to meet the Executive Engineer in order to choose an eligible site.

Sir,

With reference to correspondence ending with your No. 1485 dated 20th December 1895, I have the honor to attach herewith Treasury Officer's Receipt for Rs. 5000 being grant-in-aid of Armouries at Trichinopoly and Madura.

2. A further sum of Rs. 1525 has been applied for to complete these buildings during the year 1896-97.

3. It is hoped that the full amount Rs. 5000 may be expended before the close of the current season so that it may not lapse to Government. It will probably be possible to purchase materials sufficient to cover this amount.

4. As there seems no present prospect of land being available for a site at Madura the whole amount might me expended for the Trichinopoly Armoury and next year the Madura Armoury could be constructed from the further grant applied for.
