Amended Rules for the better management of Boats and Canoes plying for hire at the Out-Ports of the Madras Presidency.

The following Rules for the better management and control of Boats and Catamarans, plying for hire at all out-ports under the Madras Presidency to which they may be extended by an Order of the Governor of Fort Saint George in Council, published in the *Fort St. George Gazette*, have received the sanction of the Government of India, and will come into force on the 1st day of October 1867.

I. No person, either as owner or servant, shall use any Boat, Canoe, or Catamaran, to carry goods or passengers to or from any ship or vessel at the port, unless such person shall have previously received a license, and unless the Boat, Canoe, or Catamaran which such person shall so use has been registered, as hereinafter mentioned. And in case any person who has not received such license shall use any Boat, Canoe, or Catamaran for the aforesaid purpose, or such Boat, Canoe, or Catamaran shall not have been so registered, such person shall be liable to a fine not exceeding the sum of (50) fifty Rupees, or, in default of payment, to imprisonment for a term not exceeding (3) three months, and the Boat, Canoe, or Catamaran shall be liable to confiscation, on conviction before a Magistrate or Justice of the Peace. This rule is not to be considered as interfering with Ships' Boats or Pleasure Boats taking off or landing passengers and their baggage, or Ships' stores, all of which, however, must be embarked or debarked within the limits assigned by the proper authorities, in default of which a fine will be imposed under Clause X. The right of withdrawing this indulgence will be vested in the Master Attendant or Collector of Sea Customs, or other Registering Officer appointed by Government, should it appear that the interests of Government require it.

II. The Master Attendant or Collector of Sea Customs, or other Registering Officer appointed by Government, on being satisfied that a Boat, Canoe, or Catamaran is seaworthy and fit for the service of the port, will, on application of the owner or owners, who must first subscribe to a declaration in writing that he or they fully understand these Rules, grant a license to such owner to use the Boat, Canoe, or Catamaran, for the aforesaid purposes, such license (if a Boat or Canoe) expressing its dimensions and the number of the crew, as well as the number of passengers and quantity of cargo, it is to be permitted to carry. And, to enable the Registering Officer to grant a correct license, he shall survey, or cause to be surveyed, any such Boat or Canoe in presence of the owner, or any person deputed by him, the fee for such survey being regulated at each port by order of Government.

III. And as often as the property in such Boat, Canoe, or Catamaran shall be transferred, the owner must produce his license to the Registering Officer, that the requisite alteration may be made, the new owner subscribing to a similar declaration, respecting his comprehension of these Rules. In wilful neglect or default of which notice of change of ownership for the space of six days after such may have taken place, the original owner shall forfeit a sum not exceeding (25) twenty-five Rupees, or, in default of payment, to imprisonment for a term not exceeding (6) six weeks, on conviction before a Magistrate or Justice of the Peace.

IV. Every owner shall paint in black English figures not less than six inches in length, upon a white ground, on a conspicuous part of the bow in one side, and of the quarter on the other, the number mentioned in the Register and license of his boat. And if any person shall fraudulently paint, or cause to be painted or counterfeited, upon any Boat or Canoe, not having been duly registered, any such figures, every such person shall be liable to a fine not exceeding the sum of (100) one hundred Rupees, or, in default of payment, to imprisonment, with or without hard labor, for a term not exceeding (6) six months, on conviction before a Magistrate or Justice of the Peace, and every such Boat or Canoe shall be confiscated.

V. For the better prevention of fraud and omission in pointing the figures above provided to be used, the Registering Officer shall cause the number to be cut or branded in the most common Native character in some part of every Boat, Canoe, or Catamaran, on its being registered; and if the owner should refuse to keep cut, branded, or painted, the figures assigned, or should hide or obliterate them, he will be liable to a fine not exceeding (50) fifty Rupees, or, in default of payment, to imprisonment for a term not exceeding (3) three months, on conviction before a Magistrate or Justice of the Peace. And if any such figures, he shall be liable to a fine not exceeding (50) fifty Rupees, or, in default of payment, to imprisonment for a term not exceeding (3) three months, on conviction before a Magistrate or Justice of the Peace. All numbers painted or branded on a Boat, Canoe, or Catamaran are to be effaced by the Registering Officer on the license being withdrawn.

VI. All men employed as Tinkals or Boatmen shall be Registered in the Office of the Master Attendant or Collector of Sea Customs or other Registering Officers appointed by Government, and no others shall be allowed to ply in Registered Cargo Boats, Canoes or Catamarans, unless on emergency, and with the permission of the Registering Officer. Any offence against this rule will subject the owner to a fine not exceeding (10) ten Rupees, or, in default of payment, to imprisonment for a term not exceeding (14) fourteen days, on conviction before a Magistrate or Justice of the Peace, for each man so engaged in his Boat; and the Lascars so employing themselves will forfeit all title to hire.

VII. All Boats, Canoes, or Catamarans must be manned with such number of crew as may be determined on by the Registering Officer and noted in the license; and any owner will be liable to a fine not exceeding the sum of (50) fifty Rupees, or, in default of payment, to imprisonment for a term not exceeding (3) three months, on conviction before a Magistrate or Justice of the Peace. And all Boats, Canoes, or Catamarans, must carry such number of passengers and quantity of goods as shall be expressed in the license, a refusal to take, which will subject the owner to loss of hire, and suspension of license, if considered necessary.

VIII. If any Boat, Canoe, or Catamaran be loaded with passengers or cargo beyond what is specified in the license, the Tindal of such craft shall be liable to a fine not exceeding (5) five Rupees, or, in default of payment, to imprisonment for a term not exceeding (8) eight days, and the owner of the Boat to a fine not exceeding (10) ten Rupees, or, in default of payment, to imprisonment for a term not exceeding (16) sixteen days, on conviction before a Magistrate or Justice of the Peace, for every surplus passenger and candy of goods. And every other person who shall be guilty, either as principal or accessory, of the like offence, after having been duly warned by the Tindal or owner, shall be liable, on conviction before a Magistrate or Justice of the Peace, to a fine not exceeding (10) ten Rupees, or, in default of payment, to imprisonment for a term not exceeding (16) sixteen days for every surplus passenger and candy of goods.

IX. All owners of licensed Boats, Canoes, and Catamarans must conform to the rules laid down by the Master Attendant or Collector of Sea Customs, or other Registering Officer appointed by Government, for regulating the hours between which they are to ply to and from the shore, who shall be at liberty to prevent any such craft from leaving the shore when, in his judgment, danger would be incurred by so doing; and in case any Tindal offend against this clause, he shall forfeit all hire, and the owner be subject to suspension of license.

X. All owners of licensed Boats, Canoes, or Catamarans shall submit their Boats when called upon to do so, to the inspection of the Registering Officer, or any person duly authorized by him, who is empowered to order such repairs to the Boats as, in his judgment, are required to render the establishment efficient. Any owner refusing to attend to such orders shall be subject to suspension of his license, and, if such refusal be continued beyond one month, to an entire withdrawal of the license.

XI. All goods are to be landed or shipped off from within certain limits that may be pointed out by the Master Attendant or Collector of Sea Customs, or other Registering Officer appointed by Government; and any person engaged in shipping off or landing goods without such limits, unless the sanction of the Master Attendant or Collector of Sea Customs, or other Registering Officer appointed by Government, shall have been previously obtained, will be liable to a fine not exceeding (50) fifty Rupees, or, in default of payment, to

imprisonment for a term not exceeding (3) three months, on conviction before a Magistrate or Justice of the Peace.

XII. All owners of licensed Boats, Canoes, and Catamarans shall, under penalty of having their licenses withdrawn, be subject to the control of the Master Attendant or Collector of Sea Customs, or other Registering Officer appointed by Government, and shall submit to such rules as he, under the approval of the Collector of the District, shall think fit to impose, and the nature of the services required of them shall demand.

XIII. The rate of hire will also be determined by proper local authorities; and if any owner, or person deputed by him, shall demand a rate beyond that sanctioned, he shall, on conviction before a Magistrate or Justice of the Peace, be liable to a fine not exceeding (10) ten Rupees, or, in default of payment, to imprisonment for a term not exceeding (16) sixteen days for each offence, together with the forfeit of the amount of such hire.

XIV. Any owner of a licensed Boat, Canoe, or Catamaran, or person deputed by him, refusing to let on hire such Boat or Catamaran, without assigning reasonable and satisfactory cause for such refusal, shall be liable, on conviction before a Magistrate or Justice of the Peace, to a penalty not exceeding (10) ten rupees, or, in default of payment, to imprisonment for a term not exceeding (16) sixteen days for a first offence, and (30) thirty Rupees for a second, with withdrawal of license.

XV. And if any Boatman serving in any such licensed Boat or Catamaran shall, by wilful neglect or desertion of his duty, cause any impediment to the service of such Boat, he shall be liable, on conviction before a Magistrate or Justice of the Peace, to a penalty not exceeding (10) ten Rupees, or imprisonment for a term not exceeding (16) sixteen days, or to receive corporal punishment not exceeding (3) three dozen lashes for a first offence, and for a second, or if in either case life may have been endangered, he shall be liable, on conviction, to have the punishment increased to commitment to hard labour for a term not exceeding (6) six months, according as, in the opinion of the Magistrate or Justice of the Peace, before whom he is cited, the nature of the offence should warrant.

XVI. If any owner or person deputed by him shall be guilty of taking off or landing cargo without having previously received the permission of the Master Attendant or Collector of Sea Customs, or other Registering Officer appointed by Government, he shall, on conviction before a Magistrate, or Justice of the Peace, be liable to a fine not exceeding (50) fifty Rupees, or, in default of payment, to imprisonment for a term not exceeding (3) three months.

XVII. The Master Attendant, Collector of Sea Customs, and all Magistrates and Justices of the Peace, or such person as they shall duly authorize for that purpose, shall be empowered to search all parts of any Boat, Canoe, or Catamaran for prohibited, unaccounted, or smuggled goods, and to examine into all packages, boxes, or baggage, of whatever description, in such Boat, or landed therefrom, provided they shall have good reason to suppose that smuggled or prohibited goods are contained in such package, box or baggage. And if any person shall resist or impede such lawful search, he shall be liable, according to the circumstances of the case, and the quality of the party offending, on conviction before a Magistrate or Justice of the Peace, to a fine not exceeding (100) one hundred Rupees, or to imprisonment, with or without hard labour, for a period not exceeding (6) six months.

2. If a Boat or Catamaran is required for any extraordinary service to a Ship or Vessel, either at anchor or under weigh beyond the limits of the Port, then the amount of hire which may be demanded may be referred to the Master Attendant or his Deputy for adjustment. N. PASSAGE RULES.

PORT ST. GEORGE, 22nd August 1866, No. 323.—The following Extract from Notification from the Gazette of India, is re-published:—

FINANCIAL DEPARTMENT, No. 1,467, SIMLA, the 23rd July 1866.

Rules for the Grant of free passage by Sea to Civil Officers.*

The Governor-General in Council is pleased to prescribe the following rules for regulating the provision of free passage by Sea for Public Officers in Civil employ, in substitution of the Rules contained in Financial Notification, dated 15th December 1865, No. 3,524,* published in the Gazette of India of the 30th December 1865, page 1345:—

Officers and other public Servants on the permanent Establishment of a Department will be allowed a free passage when proceeding on duty by sea, in cases in which they would receive travelling allowances if proceeding on duty by land. Military Officers in Civil employ will, in addition, be allowed a free passage when, being employed at a station beyond Sea, they may be obliged to return to their Presidency in progress to Europe or to a Hill Station, on leave on Medical Certificate, also when they rejoin their station on return from that leave.

For every Covenanted Civil Servant, Military Officer in Civil employ and Uncovenanted Officer of higher rank than Clerk, who may thus be entitled to a free passage, the entire charge for a first class passage will be paid by Government, who will recover from such Officer either the full or half rate of table-money for the number of days occupied in the passage, according as his salary may or may not exceed Rupees 600 a month.

The full rate of table-money shall be reckoned at 8 Rupees a day on vessels in which the cost of a free passage includes, but at 4 Rupees a day where it is exclusive of charge for wine, beer, spirits and soda-water.

deliver them to the officer aforesaid, who shall thereupon (after having first mustered the passengers and compared the number and names of such passengers with the lists) countersign and return to the Master one of such lists.

The Master shall note in writing on such last-mentioned list, and on any additional list to be made under this Act, the date and supposed cause of death of any passenger who may die on the voyage, and shall forthwith, on the arrival of the Ship at her destination or at any Port at which it may be intended to land passengers, and before any passengers are landed, produce the list, with any additions hereto made, to any person lawfully exercising Consular authority on behalf of Her Majesty at the Port of arrival if it be a Foreign Port, or to the Chief Officer of Customs, or the Officer (if any) appointed under this Act, at any Port or place at which it shall be intended to land the passengers or any of them.

In case of non-compliance with any of the requirements of this section on the part of the Master, or if any false entry be wilfully made by him in any such list, the Master shall be liable to a fine not exceeding five hundred rupees for each offence, or to imprisonment for a term not exceeding three months, or to both.

15. If, after the Ship shall have departed or proceeded on any such voyage, any additional passengers are taken on board at a Port or place within British India or the said dominions, appointed under this Act for the embarkation of passengers,

or if such Ship shall, upon her voyage, touch or arrive at any such Port, having previously received on board additional passengers at any place beyond British India or the said dominions, the Master shall obtain a fresh certificate from the officer at such Port, and shall make lists of all such additional passengers; and all the provisions hereinbefore contained in that behalf shall be applicable to any certificate granted or list made under this section.

In case the Master fail to obtain any such fresh certificate, or to make any such list of additional passengers, he shall be liable to a fine not exceeding five hundred rupees, or to imprisonment for a term not exceeding three months, or to both.

16. 17. The Chief Officer of Customs, or the officer (if any) appointed under this Act, at any Port or place within British India at which the Ship shall touch or arrive, shall with advertence to the requirements of this Act, transmit any particulars which he may deem important respecting the Ship and the passengers conveyed therein, to the officer at the Port from which the Ship commenced her voyage, and also to the officer at any Port within British India or the said dominions where the passengers or any of them embarked.

18. In any proceeding for the adjudication of any penalty incurred under this Act, any document purporting to be a report of such particulars as are referred to in the last preceding section, or a copy of the proceedings of any Court of Justice duly authenticated, and also any like document purporting to be made and signed by any person lawfully exercising Consular authority on behalf of Her Majesty in any Foreign Port, shall be received in evidence, if the same appear to have been officially transmitted to any officer at or near the place where the proceeding under this Act is had.

19. Whenever, in the course of any legal proceeding instituted under this Act at any Port or place in British India, the testimony of any witness is required in relation to the subject-matter of such proceeding, any deposition that such witness may have previously made in relation to the same subject-matter before any Justice or Magistrate in Her Majesty's dominions (including all parts of India other than those subject to the same Local Government as the Port or place where such proceedings are instituted) or any British Consular Officer elsewhere, shall, if authenticated by the signature of the Justice, Magistrate or Consular Officer, be admissible in evidence on due proof that such witness cannot be found within the jurisdiction of the Court in which such proceedings are instituted.

Provided that, if the proceeding is criminal, such deposition shall not be admissible unless it was made in the presence of the person accused, and the fact that it was so made is certified by the Justice, Magistrate, or Consular Officer.

It shall not be necessary in any case to prove the signature or official character of the person appearing to have signed any such deposition; and in any criminal proceeding such certificate as aforesaid shall, unless the contrary is proved, be sufficient evidence of the accused having been present in manner thereby certified.

20. Within British India, the Local Government may, by any proclamation to be from time to time issued for that purpose and published in the Government Gazette (if any), or in one of the public newspapers, declare what shall be deemed, for the purposes of this Act, the duration of the voyage of any Native Passenger Ship from any Port or place in British India or the said dominions to any other Port or place.

21. Every Native Passenger Ship, at the time of departure from the Port or place at which passengers shall be embarked under this Act, shall have on board good and wholesome provisions for the use and consumption of the passengers, over and above the victualling of the crew, to the amount or in the proportion following, that is to say, a supply of water to the amount of five gallons to every week of the declared duration of the voyage for every passenger on board, such water being carried in tanks or sweet casks, and a supply of rice, flour, oatmeal, or bread-stuffs to the amount of seven pounds weight to every week of such duration voyage for every such passenger;

Provided that, when any such Ship shall be destined to call at a Port or place in the course of her voyage for the purpose of filling up her water casks, a supply of water at the rate before-mentioned for every week of an average voyage to such Port or place of calling, shall be deemed to be a compliance with this Act.

The provision of this section regarding food shall be deemed to have been complied with in any case where it shall appear that, by the special authority of the Local Government, any other articles of food were substituted for the articles above enumerated as being equivalent thereto.

Provided also that, in the case of Steam Ships, provided with a condenser, the officer authorized in that behalf may, if under the circumstances of the case he thinks fit, reduce the amount of water to be provided under the requirements of this Section to an amount not less than four gallons to every week of the declared duration of the voyage for every passenger on board.

22. The requirements of this Act respecting the supply of provisions for passengers shall not, except as to the supply of water, be applicable to any passenger who may have contracted to furnish his own provisions.

23. If any Ship, bringing passengers from any Port or place east of the Cape of Good Hope and not within British India or the said dominions to any Port or place within British India or the said dominions, shall have on board a greater number of passengers or persons than in the proportion prescribed by this Act, the Master of such Ship shall, in addition to any other penalty which he may have incurred under the provisions of this Act, be liable, on conviction, for each person in excess of such proportion to a fine not exceeding fifty rupees, or to imprisonment not exceeding one month, or to both.

24. In the case of every Native Passenger Ship sailing from any Port within British India to any Port in the Red Sea, the officer whose duty it is to grant a port-clearance for any such Ship, shall not grant such clearance unless and until the Owner, Agent or Master of such ship and two sureties resident in British India shall, by a joint and several bond, have become bound under the Secretary of State for India in Council in the penal sum of rupees five thousand, conditioned to be void if the said Ship touches at Aden on her outward and also on her homeward voyage and does not leave that Port without having obtained from the proper authority a clean bill of health.

Ships sailing to or from Natives of Asia or Africa and sailing from any Port east of the Cape of Good Hope to any Port in the Red Sea,

or sailing from any Port in the Red Sea to any Port east of the Cape of Good Hope, shall touch at Aden, and shall not leave that Port without having obtained from the proper authority a clean bill of health.

Every Master of a Ship offending under this Section, shall, for every such offence, be liable to a fine not exceeding two thousand rupees, or to imprisonment not exceeding six months, or to both.

26. No bill of health shall be granted under Section twenty-four or Section twenty-five in case the Ship has on board a greater number of passengers or persons than in the proportion prescribed by this Act.

Bill of health.

26a. Whenever a Convention shall have been entered into between the Government of Her Majesty the Queen and the Turkish Government that every Master of a Native Passenger Ship leaving a Turkish Port or place and bound for any place in British India, whether such ship be owned by a subject of Her Majesty or not, shall execute a bond binding him in a penalty to touch at Aden, and not to proceed thence without a clean bill of health obtained in the manner provided in Section twenty-five, any Master of any such ship, whether he be a subject of Her Majesty or not, who shall come into any Port or place in British India without such clean bill of health, may be taken by the officer in charge of such Port or place before any Magistrate having local jurisdiction, and on proof that such Master has come from a Turkish Port or place, such Magistrate shall presume that such bond was duly executed by such Master, and in default of production of such clean bill of health, shall presume that the penalty mentioned in such bond has been incurred, and may award the full amount of any part of such penalty against such Master, and, in default of payment of such penalty, may recover it as though it were a fine imposed under this Act.

Chapter III.—Coasting Steamers.

Certificates to be furnished to coasting Steam Vessels intended to carry passengers.

Certificates to coasting Steam Vessels how to be granted, &c.

The officer so authorized shall not grant such certificate, or suffer the same to remain in force, unless he is satisfied, by inspection or survey (to be made at least twice in each year at the expense of the Master or Owner, and upon payment of a fee not exceeding twenty rupees,) that such Steam Vessel is sea-worthy and properly equipped with boats and otherwise, and that the engine and machinery are in a fit state to enable her to proceed on her voyage.

The certificate shall state the limits (if any) within which the Vessel is to ply, and the number of Native Passengers which the Vessel is permitted to carry: such number to be subject to such conditions and variations according to the time of the year, the nature of the voyage, and the cargo carried, as the case requires.

28. The Owner or Master of any such Steam Vessel shall put up in a conspicuous part of the Ship, so as to be visible to persons on board the same, a copy of the said certificate, and shall cause it to be exhibited in such position so long as the certificate remains in force; and in default, such Owner or Master shall, for each offence, be liable to a fine not exceeding two hundred rupees, or to imprisonment for any term not exceeding a month, or to both.

30. If such Steam Vessel has on board thereof any number of passengers which, having regard to the time of the year and other circumstances, is greater than the number allowed by the certificate, the Owner or Master shall, for every passenger over and above the number allowed by the certificate, be liable to a fine not exceeding twenty rupees, or to imprisonment not exceeding one week or to both.

31. If any such Steam Vessel shall proceed on any such voyage without such certificate as aforesaid, the Owner or Master shall be liable to a fine not exceeding five hundred rupees, or to imprisonment for any term not exceeding three months, or to both.

32. In the grant or revocation of any certificate under this Act, the Officer granting or revoking the same shall be subject to the control of the Local Government or of any intermediate authority which that Government may appoint.

Chapter IV.—Miscellaneous.

33. If any Native Passenger in any Ship shall be landed at any Port or place other than the Port or place at which he may have contracted to land, unless with his previous consent, or unless such landing is made necessary by perils of the sea or other unavoidable accident, the Master shall, for each offence, be liable to a penalty not exceeding two hundred rupees, or to imprisonment for any term not exceeding a month, or to both.

34. Nothing in this Act contained shall take away or abridge any right of action which may accrue to any Native Passenger, or to any other person, in respect of the breach or non-performance of any contract made with the Master or Owner of the Ship or his Agent.

Application of offences.

If the person on whom any fine is imposed under this Act is the Master or Owner of a Ship, and the fine is not paid at the time and in the manner prescribed by the order of payment, the Magistrate may in addition to the means prescribed by law enforcing payment, direct by warrant the amount remaining unpaid to be levied by distress and sale of the said Ship, her tackle, furniture and apparel.

36. For the purpose of the application of penalties under this Act, every offence hereunder shall be deemed to have been committed within the limits of the jurisdiction of the Magistrate of the place where the offender is found.

Jurisdiction.

37. The penalties to which Masters and Owners of Ships are liable by this Act, shall be enforced only by information laid at the instance of the officers appointed to grant certificates under this Act; or, at any Port or place where there is no such officer, by the Chief Officer of Customs.

38. Any Magistrate imposing any fine under this Act may, if he thinks fit, direct the whole or any part thereof to be applied in compensating any person for any wrong or damage which he may have sustained by the act or default in respect of which such fine is imposed, or in or towards payment of the expenses of the proceedings.

Saving of Act XXV of 1859.

39. Nothing in this Act shall affect the provisions of Act XXV of 1859 (to prevent the overcrowding of vessels carrying Native Passengers in the Bay of Bengal.)

Rules relating to Quarantine for the Ports mentioned in Schedule A hereto annexed.

The following Rules, made by His Excellency the Governor of Madras in Council, with the sanction of the Governor-General in Council, in pursuance of the provisions contained in Act I of 1870, are hereby promulgated for general information:—

I.—The Master or other person in charge of any vessel about to enter any of the ports mentioned in Schedule A, annexed hereto, in which any case or cases of cholera, yellow fever, Asiatic plague, small-pox, or other disease dangerous to the general health, may have occurred within a period of ten days previous to the date of the arrival of such vessel at any of the ports aforesaid, shall notify this fact by hoisting a signal, which signal shall be in the day-time a yellow flag at the fore, and in the night time two lighted lanterns, one over the other, at the same mast-head; and such Master, or other person as aforesaid, shall not take up anchorage ground within the said port without having obtained the previous sanction of the Master Attendant or other officer in charge of the port, nor without such sanction shall he hold any communication with the shore, or with any shipping within the said port.

II.—Whenever the Master or other person in charge of any vessel about to enter any of the ports aforesaid is unable to produce a clean bill of health obtained from the proper authority at the port last visited, he shall notify this fact to the Master Attendant or other officer in charge of the port by hoisting a signal as aforesaid; and thereupon the Master Attendant or other officer in charge of the port may, on the report of the Port Surgeon or other officer appointed by Government in that behalf suggesting or warranting the adoption of such a measure, refuse to permit the Master or other person as aforesaid to anchor his vessel within the ordinary limits of the said port, and may forbid all communication between the vessel and the shore, until a quarantine of observation, not exceeding twenty-four hours from the receipt of the report of the Port Surgeon or other officer appointed by Government in that behalf, shall have been enforced.

III.—It shall be the duty of the Port Surgeon or other officer appointed by Government in that behalf to proceed without delay on board any vessel about to enter any of the ports aforesaid in which any case or cases of cholera, yellow fever, Asiatic plague, small-pox, or other disease dangerous to the general health, shall have occurred within ten days previous to the date of the arrival of such vessel as aforesaid, or whenever the Master or other person in charge of any vessel is unable to produce a clean bill of health from the port last visited; and such Port Surgeon or other officer as aforesaid shall inspect the

crew and passengers of every vessel as aforesaid, and make careful inquiry as to the nature of the diseases then existing on board every such vessel, and make a report thereon to the Master Attendant or other officer in charge of the port.^(a)

IV.—Upon the receipt of the report of the Port Surgeon or other officer appointed by Government in that behalf, the Master Attendant or other officer in charge of the port shall determine whether any passengers or merchandise may be landed, or whether the master or other person in charge of such vessel shall be required to take the vessel to a quarantine anchorage, or to put it out to sea, or to anchor it beyond the limits of the port in such place as may be appointed for that purpose by the Master Attendant or other officer in charge of the port, or to undergo a quarantine of observation.

V.—Whenever cholera, yellow fever, Asiatic plague, small-pox, or other disease dangerous to the general health, shall be actually prevailing amongst any of the crew or passengers of any vessel as aforesaid, and none of those diseases shall exist at the time in the neighbourhood of the port which the said vessel is about to enter or has entered, it shall be the duty of the Port Surgeon or other officer appointed by Government in that behalf to report this state of facts to the Master Attendant or other officer in charge of the port. Thereupon the Master Attendant or other officer in charge of the port shall require the Master or other person in charge of such vessel as aforesaid to take the said vessel out to sea for a period of ten days, or to anchor it at any place to be appointed for that purpose for a period of ten days.

VI.—All persons on board vessels in quarantine are hereby prohibited from communicating with the shore beyond the limits of any place which may be set apart for performing quarantine on shore, or with any vessel in the roadstead, or vicinity of the roadstead, unless the permission of an officer duly authorized by Government in that behalf shall have been previously obtained; and all persons are hereby prohibited from going on board any vessel in quarantine, unless the permission of an officer duly authorized by Government in that behalf shall have been previously obtained.

VII.—It shall be lawful for every officer duly authorized by Government in that behalf to appoint a sufficient number of subordinates for the purpose of enforcing these rules at the expense of the owners of such vessels; and the Masters or other persons in charge of such vessels shall pay the subordinates so appointed and defray all expenses incurred in pursuance of this rule. It shall be the duty of the officer in charge of the Custom House to refuse port clearance to such vessels until all such demands be discharged.

VIII.—It shall be lawful for every officer duly appointed as aforesaid, with the sanction of Government, to appoint as many places for performing quarantine on shore as may be required, and to provide accommodation at such places for passengers on board any vessel to which these rules are applicable, at certain fixed fees to be determined from time to time by Government, which fees shall be payable by the Master or other person in charge of such vessel. No person shall be permitted to leave the place so appointed within ten days from the date of the last case of the disease for which quarantine was imposed, unless with the previous sanction of the said officer duly authorized as aforesaid.

IX.—Disobedience to any of the above Rules, Nos. I, II, III, IV, V, VI and VIII, will subject the offender and all persons aiding or abetting him to a prosecution under Section 271 of the Indian Penal Code.

MADRAS CYCLONE CODE.

SECTION I.—METEOROLOGICAL DEPARTMENT.

I. It will be the duty of the local Superintendents of the Meteorological Stations at Masulipatam, Negapatam and Trichinopoly, to telegraph promptly to the Government Astronomer and Meteorological Superintendent at Madras, in accordance with detailed instructions which have been issued by him to them, all abnormal, barometrical, temperature, and wind variations, which may indicate the likelihood of approach, prevalence, or passing away of a Gale or Cyclone. Arrangements have been made for similar information being furnished from Trincomallee and Pondicherry.

II. On the first observation and during the continuance of “suspicious” or “dangerous” weather, the Government Astronomer will telegraph to his local Superintendents at all out-stations any observations, inquiries, directions, and warnings regarding the weather, which he may consider of possible utility. Orders have been given to ensure priority of despatch before all ordinary messages to his telegrams and their consequent replies.

III. Whenever the Astronomer shall have reason to apprehend the advent of a Gale or Cyclone he will at once by telegram or otherwise, communicate warning to the Master Attendant, and during the prevalence of such Gale or Cyclone he will continue to give such information regarding its varying phases as may be deemed by him to be of possible utility.

IV. As Cyclones after passing over Southern India from East to West have been known to be destructive to shipping on and beyond the West Coast, the Government Astronomer will communicate to the Master Attendant such information as may be by him obtainable regarding the inland direction and progress of any future Cyclone, in order that timely warning of the apprehended danger may, when possible, be given to the local authorities along that coast, and may by them be given to the shipping.

SECTION II.—MARINE DEPARTMENT.

I. The Marine Department will enforce, as far as possible, a strict observance of the Port Rules in regard to the anchorage and berthing of ships, &c. A copy of these Rules was as heretofore given to every Master of a Vessel arriving in the roads. From the middle of April till June, and from the middle of September till January, each Commander will also be furnished with a copy of Circular marked A, appended to this Code, regarding the precautions to be taken at the periodical changes of the monsoon.

II. As on the occasions of wrecks at Madras the establishment of communication between the shore and stranded ships is, without the aid of rockets or other Artillery projectiles, sometimes practicable, two sets of life-saving apparatus, complete with buoys, &c., (but without rockets) will be kept in charge of the Master Attendant, who will be responsible for their being in a constant state of readiness and efficiency, for their periodical inspection, and for his boats' crews being trained to their use.

III. The Master Attendants at the Out-ports on the Eastern Coast of this Presidency will dispatch by telegraph to the Master Attendant at Madras prompt intimation of apprehended dangerous weather, and during the prevalence of such weather will continue, when practicable, to furnish information regarding its changes. Such information, when of an important character, as well as that which may be obtained by the Marine Department from ships or steamers, tending to establish the probable direction and progress of a Cyclone centre, will be promptly forwarded by the telegraph or otherwise by the Master Attendant to the Government Astronomer.

IV. Whenever the Master Attendant, or in his absence the Senior Officer of the Marine Department present at Madras, shall have reason to apprehend the advent of dangerous weather, he will as hitherto direct the hoisting of “a white flag with a blue cross,” signifying “the weather is suspicious. Prepare for running to sea.” Information of this will be given to the Brigade Major and also to the Superintendent of the Marine Police, who will at once place himself, Serjeant, boat-crow, and catamaran men under the orders of the Marine Department.

The following arrangements will also be made:—

1. All Officers of the Marine Department will be in attendance.
2. The Boat and Catamaran men belonging to the Marine Establishment will be assembled and held in readiness for immediate service.

3. The Marine life-saving apparatus will be run out by the boatmen, so as to be ready for use either independently or in co-operation with the Ordnance rocket parties.

4. The boats' crews for night service will be mustered before dark, and will remain in the lower verandah of the Marine Office.

5. The Pier Establishment will remain during the night at the Pier Office and will keep a good look-out along the Pier.

V. During the prevalence of "suspicious or dangerous weather" any important barometrical variations and any other information or advice that may be of possible utility will be, by signal or otherwise, communicated to the shipping by the Master Attendant.

VI. If it is decided by the Master Attendant, or Senior Marine Officer present at Madras, that the shipping shall be ordered to sea, the "red flag with swallow tail," signifying "cut or slip" will be hoisted at the Marine Office. If the indication of the approach of the storm should occur after sunset, three good lights will be hoisted—one at the mast-head, and one at each yardarm of the Master Attendant's flag staff. These signals will be repeated at the Fort, and intimation thereof will be sent to the Brigade Major, who will in either case order seven (not an uncertain number as heretofore) guns to be fired seawards with an interval of five minutes between each gun. It is, however, open to any Ship Commander to put to sea before this signal is made, should he deem such a course to be prudent with regard to his own ship; and the signal is, moreover, not to be considered an imperative order. Each Commander must know best the run of his own ship, and must exercise his own judgment as to whether he ought to remain at his anchors or proceed to sea.

VII. When from a change in the direction or increased violence of the wind, from observing that ships are beginning to drive, or from any other reason, the Master Attendant deems that imminent danger of actual wreck has arisen, he will intimate the fact to the Superintendent of Marine Police and to the Brigade Major, who will order "the wreck signal" to be fired. This signal will be two guns fired landwards in quick succession and twice repeated with an interval of three minutes between each pair of guns.

VIII. The Senior Officer of the Marine Department will keep his officers and men together, or will distribute them along the beach as occasion may require. He will also point out to the Ordnance rocket parties those ships which first require assistance; to the Senior Officer of the troops where and how the military working parties can be most usefully employed; and to the Senior Officer of Police where his men are likely to be most needed.

IX. The officers of the Marine Department will wear their distinctive dress or uniform on wreck occasions.

X. The Master Attendant at Madras will telegraph to the Master Attendants at the other ports on the other coasts of Southern India such warnings and indications of the progress of Cyclones as may be of possible utility.

SECTION III.—POLICE.

I. On information from the Master Attendant through the Superintendent of Marine Police being received by the Commissioner of Police of the "suspicious weather" signal having been hoisted, the latter will telegraph to Vellore, Salem, and Coimbatore, warning Police Officers to hold their respective reserves in readiness. On the receipt of a second telegram each of these reserves will be despatched by first train to Madras, where orders as to their duties will be issued to them.

II. The Commissioner will also send intelligence to St. Thomas' Mount, where the Police reserve will be held in readiness and await further orders.

III. Information will be at once circulated by the Commissioner to Divisional Inspectors, by whom boats will be immediately extended and other duties so arranged as to enable them to collect at their respective central stations certain forces, which in all will amount to about 500 men.

IV. The Marine Police boatmen on the "suspicious weather" signal being hoisted will with their Superintendent and European Sergeant, be at once placed under the orders of the Master Attendant.

V. On the Superintendent of Marine Police being informed by the Marine Authorities of imminent danger of wrecks occurring, or on hearing the wreck signal, he will promptly send intelligence to the Commissioner of Police, who will distribute marching orders to the Divisional parties. Unless special circumstances should require a change of

arrangements, the F and G Divisions and reserves will assemble under the Reserve Inspector at the Commissioner's Office and await further orders. The B, H and C Divisions will be marched without delay to the Pier under the Deputy Commissioner. The D Division will be marched to the Beach near the Fort, and the E Division to the Ice House. Each party will be accompanied by two Sowars or mounted men.

VI. Should the services of the Police not be at once required, the party at the Pier will be sheltered in the verandah of the Custom House; that at the Fort in the arcade of the Grand Arsenal; and that at the Ice House at the Inspector General's Office.

VII. The entire Police Force will be under the Commissioner, who will consult the Marine Officers on the spot as to where the services of his men are likely to be emergently required. The Commissioner will issue whatever detailed orders may be requisite.

VIII. The Police will be mainly restricted to their own proper duties, i. e., the maintenance of order, protecting personal or other property washed on shore; supervising the conveyance of the shipwrecked crews and passengers to the nearest shelter; and as soon after as circumstances will permit to the Hospital, Bidden Home, or other places of refuge; bringing back the hammocks, doilies, and sick carts; guarding or removing the dead, &c. They are not to be employed in hauling ropes or recovering wreckage or cargo, save in emergent circumstances, where there are no or insufficient military or other working parties on the spot.

IX. The Commissioner of Police will see that duties are so apportioned as to enable the men to be relieved from the reserves as frequently as circumstances may render requisite.

X. All officers and men will be in uniform.

SECTION IV.—TROOPS IN GARRISON.

I. The Ordnance Department will as hitherto have charge of and will work the Rocket and life-saving Apparatus, but portions of the Garrison Battery will be instructed and occasionally exercised in its use under the orders of the Commissary of Ordnance in charge of the Grand Arsenal.

II. The two-day Marine Signals to the shipping signifying "suspicious weather" (white flag with blue cross) and "cut or slip" (red flag with swallow tail), and the night signal of the approach of dangerous weather (three good lights, one at the mast head and one at each yardarm) will be repeated at the Fort flag-staff. On the first signal being hoisted the Brigade Major will warn the Ordnance, Medical, and Commissariat Departments of the fact, in order that all concerned may be held in readiness. On either of the last two signals being hoisted seven guns will be fired from the sea face of the Fort with an interval of five minutes between each gun. No further action will, however, be taken by the "Troops in Garrison" consequent on any of these signals.

III. In case of intimation being received from the Marine Department by the Brigade Major of imminent danger or of actual shipwreck, or in case of such danger or shipwreck being observed from the Fort, the "wreck signal" will be fired. It will be two guns fired in quick succession from St. George's Bastion, which will be twice repeated at intervals of three minutes.

IV. When the "wreck signal" is rendered necessary, the Brigade Major will send intimation to the Troops in Garrison and to the Ordnance, Medical, and Commissariat Departments; and the following arrangements will be carried out:—

1. Two mounted Non-Commissioned Officers and six Troopers of His Excellency the Governor's Body Guard will proceed to the Fort and place themselves under the orders of the Brigade Major. They will be used as orderlies, as occasion may require, and when not actually wanted will be kept as much under shelter as convenient. Twelve additional men of the Body Guard will remain in their lines with their horses saddled in case their services as patrols may be needed to watch ships driving to points at some distance from the Fort, and to convey prompt intelligence of wreck or applications for aid along the extended line of beach to the Officers Commanding Troops and other authorities on the spot.

2. The Royal Artillery and British Regiment garrisoning the Fort will fall in in fatigue dress, and working parties will be detailed and promptly despatched to the scene of action as required. Before, however, the working parties leave the Fort, inquiry will be made at the Arsenal as to whether any assistance in men from the Royal Artillery is required to supplement the Ordnance rocket parties; and application will, under the orders of the

Officer Commanding Troops in Garrison, be made at the Arsenal for a supply of boat or firehooks, ropes of moderate length and thickness, grappling irons, &c., which will be under charge of the Officers Commanding the working parties, and will be used in saving life and property from the surf. Lanterns will also be supplied should the wrecks take place at night.

3. Half of the Native Infantry Regiment at Royapooram will at once fall in, and accompanied by its Medical Officer with medicines and surgical appliances, will march to the beach in fatigue dress. The remaining Native Infantry in Garrison will be restricted to their respective lines and await further orders.

V. It is not anticipated that the Police will be unable of themselves to keep perfect order along the beach, and adequately to perform all their appropriate duties, and, therefore, the action of the troops may be directed towards saving life and property; but they will be ready to keep the ground or aid the Police in any way that may be required.

VI. The Officers Commanding Troops, will, wherever possible, consult with the Officers of the Marine Department on the spot as to where and how the services of their men can be most usefully employed, and the advice of the Marine Officers will be met with marked attention.

VII. Arrangements will be made for the relief, food, &c., of working parties by the Regiments and Departments concerned.

VIII. The Officer Commanding Troops in Garrison will make emergent requisition on the Officer in charge of the Camp Equipage Depot for such tents as may be required to shelter shipwrecked people.

IX. Officers on wreck duty will be in uniform, and mounted Officers will have their horses with them.

SECTION V.—ORDNANCE DEPARTMENT.

I. The Commissary of Ordnance, Fort St. George, will be responsible that three sets of life-saving apparatus, with rockets, &c., complete, are at all times kept packed in carts ready for use in the arcade of the Grand Arsenal, and that the Warrant and Non-Commissioned Officers, &c., of the Department are instructed and periodically drilled to the practical use of the whole apparatus.

II. Inconvenience, danger, loss of life, and much damage of property were sustained in the Cyclone of May 1872 by there being no available means of dragging from the sea the logs, pieces of wreck, bales of goods, &c., which were dashing to and fro on the edge of the surf. There will, therefore, be held at all times in readiness by the Commissary of Ordnance a supply of boat and firehooks, grappling irons, and ropes of short lengths for use as required to the Military working parties. Lanterns will also be kept ready for wreck night duties.

III. On the Commissary's receiving intelligence from the Brigade Major that the "suspicious weather" signal has been hoisted, he will make arrangements to have one rocket party of Europeans with a Detachment of Store Lascars in the Arsenal night and day till the danger passes off, or their services are required.

IV. On the "wreck signal" being fired, or on receiving intimation from the Brigade Major of imminent danger to the shipping, the Warrant and Non-Commissioned Officers will be formed by the Commissary of Ordnance into rocket parties with Detachments of Store Lascars; and, as speedily as possible, one, two, or three of these parties (as may be required) will proceed to the point or points where their services are most urgently required. These points, and the ships to which aid is to be first given, will be decided on by the Commissary in consultation with the Marine Authorities on the spot, by whom he will be guided in the matter. If the rockets are used in the rescue of any ship's crew, the whole apparatus attached to the rocket cart will, under ordinary circumstances, be employed and be worked by the men of the Ordnance Department.

V. Two trollies, drawn by mules, have been ordered on occasions of wreck to be placed at the disposal of the Commissary of Ordnance by the Commissariat Department. They are intended to be used for the conveyance of rocket apparatus, hawsers, &c., should any wreck or wrecks take place at a distance from the Fort, such as at St. Thomé or the Adyar; but, should they not be required for this purpose, they may be employed under his orders for any other necessary use connected with wreck work.

VI. The Commissary of Ordnance will, in communication with the Officer Commanding the District, arrange for the instruction of Detachments of the Battery of Royal Artillery in the use of the rocket and life-saving apparatus.

VII. He will apply to the Brigade Major or Officer Commanding Royal Artillery, Fort, for any aid in men which he may emergently require in the case of a Cyclone.

VIII. When hawsers are necessarily left attached to wrecks, the Commissary of Ordnance or Senior Ordnance Officer will inform the Police of the fact.

IX. All Officers, Warrant and Non-Commissioned Officers and Store Lascars will be in uniform on wreck occasions.

SECTION VI.—MEDICAL DEPARTMENT.

I. On the "wreck signal" becoming necessary, the Brigade Major will send intimation of the fact to the Fort-Surgeon and the Resident Assistant Surgeon at the General Hospital. The latter will warn the Surgeon and the Physician of the General Hospital, and similar warning will be given to the Superintendent of the Eye Infirmary at Vepery and to the Surgeon of the 1st District at Royapooram by the Officers Commanding the Regiments at these places.

II. On hearing the guns of the "wreck signal," or on receipt of intimation from the Brigade Major, these Medical Officers (except the Physician), taking with them a portion of their establishments and the medicines and surgical appliances, which have been detailed by their Departmental Head, will forthwith proceed to the beach, and, in consultation with the Senior Marine and Military Officers on the spot, will distribute themselves to the various scenes of wreck or apprehended wreck, as occasion may require.

III. The Physician of the General Hospital will remain at the institution to receive and afford medical aid to all such as may be sent there from the beach for treatment.

SECTION VII.—COMMISSARIAT DEPARTMENT.

I. On intimation being received from the Brigade Major of imminent danger to shipping, or on the "wreck signal" being heard, two trollies drawn by mules will immediately proceed under a Staff Sergeant to the Grand Arsenal and there await the orders of the Commissary of Ordnance.

II. Two other trollies, drawn by mules, each under care of a Warrant or Non-Commissioned Officer, and each containing an assortment (which will always be held in readiness in waterproof covers or cases) of blankets, towels, flannel banians, flannel drawers, biscuits, brandy, water and drinking vessels, will be taken in the first place to the Marine Office, and thence, as directed by the Marine Officer, to the scenes of shipwreck, where the contents will, if required, be issued and used for the relief of shipwrecked persons under the orders of the directing Medical, Military or Marine Officers present. As many sets of bearers as are available with hammocks slung on poles will at the same time be sent to the beach and will be placed at the disposal of the said Officers.

III. The Executive Commissariat Officer will also despatch a supply of draught bullocks with drivers to the Camp Equipage Depot for sick carts, which, under the orders of the Warrant or Non-Commissioned Officer in charge, will be taken to the beach as soon as the violence of the weather permits, and will also be placed at the disposal of the said officers.

SECTION VIII.—QUARTERMASTER-GENERAL'S DEPARTMENT.

The Quartermaster-General will give directions that the Officer in charge of the Camp Equipage Depot will in cases of wreck promptly comply with emergent requisitions in

writing from the Commissariat Department for munched, doolies, sick carts, &c., and with similar requisitions from the Officer Commanding Troops in Garrison for tents for the shelter of shipwrecked people.

A. CIRCULAR.

Weather uncertain at present season, on necessity for being prepared to stand to sea.

The periodical season of uncertain weather on this coast having now arrived, the undersigned would hereby earnestly caution all Commanders of Vessels in these Roads to keep their ships as much as possible prepared in every respect for standing to sea, at short notice, should the necessity arise for doing so.

1. Top-gallant masts, &c., with their rigging also, must be got on deck, flying jib-boom sent in, topsail and courses kept ready reefed, and everything on deck and below so arranged as to admit of being quickly secured on emergency. A good slip rope and buoy should be attached to the riding cable, and, as an additional precautionary measure, a stout warp also, to be used as a spring in canting the vessel, if found necessary, on being required to put to sea.
2. A prudent distance from the shore in respect to anchorage must now be observed, as a vessel lying nearer in at the time of bad weather here is, from exposure to the heavy ground swell, necessarily far less able to ride easily and securely than one well out.
3. Too much care cannot be paid in maintaining a perfectly clear berth, and Commanders should be mindful to keep their ships at as great a distance from each other as can conveniently be managed in order to avoid risks of collision by driving, or when slipping to stand to sea.
4. Every attention in the way of observation and look out will be paid by this Department, and the usual warning and other signals promptly made, as need may call for. In order to prevent misapprehension on the subject of signals, especial attention is requested to the circumstance that (during the prevalence of foul weather, however, only) when a *private* signal is intended to be made to a single vessel, besides hoisting her number in the first instance, No. 1 will be kept flying at the opposite yard arm. All other signals in which this said distinction is not made use of are to be considered as general, and obeyed accordingly.
5. It is very desirable that, during the prevalence of suspicious or threatening weather, Commanders should stay at nights on board their respective vessels, and also remain by them as much as possible until the uncertain period has been fairly passed over.
6. In the event of wreck occurring, the usual appliances as put forth by the Board of Trade are adopted here, but should it be observed the rocket apparatus is not at once forthcoming, a line should be immediately sent on shore from the vessel by some kind of buoy, or other handy means, to which the tail block and double line will be attached by those on shore, or signals made as to what other steps must be carried out.

7. In conclusion, Commanders are earnestly reminded that, as intimated in the Port Instructions, "Commanding Officers are not to wait the display of signals if they deem it prudent to put to sea," it being in no way whatever obligatory for them to await directions from the shore for standing to sea.

LAW OF STORMS

THE Cyclone in all its various forms, and in all portions of the globe subject to its visitation, must be denominated the most fearful and the most frequent enemy which the mariner's perilous calling obliges him to encounter. But for this obstacle the Bay of Bengal would be very easy of navigation, for the very large amount of evidence brought to bear upon the subject goes far to prove that in this sea all violent storms are of a cyclonic nature, and move from eastward to westward. They are great revolving storms, varying in expanse from forty or fifty to some hundreds of miles, blowing round and round a centre or vortex, but with an ever-varying force, now lulling into a strong breeze, and again swelling up into a blast of uncontrollable fury. The peculiar characteristic of their revolving action is that in each hemisphere the gyration invariably takes place in one direction contrary to the hands of a watch. In North Latitude from right to left; and in South Latitude from left to right. The knowledge of this law not only supplies the seamen with direct means of distinguishing them from common gales, but reveals to him the position of his vessel with respect to the vortex, and points out the way to escape from it. The following remarks and examples, though intended for the Bay of Bengal and Andaman Sea, will apply also to the open parts of the Arabian Sea. These storms take their rise a few degrees of latitude north of the Equator, and at the periods of greatest atmospheric disturbance, owing to the changes of monsoons. About April and May, and October and November, though these dates are only approximate, and unusual weather at any time may be attributed to their neighbourhood, and suspected accordingly, they are accompanied with threatening aspect of the sky, together with greasy halos round the sun and moon; rolled and tufted forms of clouds, with lurid streams of light and extraordinary colors; a heavy bank of clouds forming an arch in the direction of the storm, varying currents of clouds in motion above, and dark banks on the horizon below, with darting forks and threads of pale lightning, lurid redness at sunrise and sunset; peculiar moaning in the winds, the frequent presence of weary land birds and insects; and last and best warning of all to those who possess it, the decline of that invaluable monitor the Barometer, doubly valuable here, because its usual state is one of almost perfect tranquillity, broken only by a daily tide rising and falling

about one-tenth of an inch, highest at 10 A. M. and P. M., and lowest at 4 A. M. and P. M.; whenever this action is suspended or interrupted bad weather is never far off. The surface of the sea also exhibits signs of disquietude, becoming confused and uneasy, and crossed frequently by long swells from other than the quarter of the prevailing wind. Whenever any or all of these warnings are met with, the mariner should at once consider the almost certainty that exists of having to encounter a storm of the revolving nature we are treating of. His first duty is to find the centre or vortex, and its bearing from the ship. To do this he should note the direction of the wind, and with his face to it, tell off eight points to the right, if in the open sea, which we will first consider, thus—with wind at N. the centre is E., with wind E. centre S., wind S. centre W., wind W. centre N., and so with intermediate points—wind N. E. storm S. E., wind S. E. storm S. W., wind S. W. storm N. W., wind N. W. storm N. E., &c.; when near land or in roadsteads, these bearings require modifying, as will be explained hereafter. Having determined the direction of the storm, the next consideration is his position with regard to it. All experience tends to show that they commence to southward between southward and eastward and cross the Bay in a curve, sometimes sharp, sometimes very extended nearly N. and S., but an average track of from S. E. to N. W. will suit the purpose of illustration. The continuation of the voyage, and the direct course of the ship ceases at this period to be a primary object. All knowledge and seamanship should be directed to avoiding this enemy, and the saving of life and property. The accompanying diagrams will show better than any verbal description both the nature of the evil and the remedy to be adopted. The outside circle represents the shape of the storm; the arrows and letters the direction of the wind; the small circle the centre; the dotted lines the path on which the storm is advancing; the compass points are also indicated.—See Figure 1.

In this diagram all the ships are shown having the wind on starboard quarter so that if the storm was stationary scudding in that position would always ensure safety. It does in fact do so in all cases, except with the wind easterly, when great care and judgment are requisite, and the value of preliminary observations becomes apparent, the direction of the storm, whether northward or westward of the average track, being of vital importance.

A careful study of books of reference and of logs and facts drawn from extended experience justify the conclusion that the best course with the wind at E. or to the north of east is to run to the N. W., changing your course as the wind veers to the northward, keeping it on the starboard quarter until it reaches N. W., when if bound to the N. E. you can bring it right aft and sail round the storm until your course is reached, or continue your track if bound to southward; much depends, however, upon the direction of the storm as indicated by phenomena, and the veerings of the wind if any have taken place.—See Figure 2.

With the wind from E. to E. S. E., carry on as long as possible to N. N. E. N. E., making all possible casting, then heave to on starboard tack. With wind at S. E. to S. if bound to southward or westward, you will be standing straight into danger, make casting until weather improves, then lie to on starboard tack. With wind from S. round to N. W., you must be behind the storm, and should have no difficulty in keeping clear of it. In fact the only risk with common management and taking in time is wind from E. N. E. to S. E.—See Figure 3.

When it suits best to heave to choose the port tack in the west side of the storm, and the starboard on the east side, for the wind in each will shift by the stern.

The foregoing remarks apply to the open seas, if Bengal and Arabia, and the ships are supposed to have sea room. They comprise all that need be said to advise and encourage the mariner. But on the coasts of Coromandel and Orissa and Ceylon, when the storm approaches the land, a modification of its form takes place, to which it is necessary to draw attention. The bad weather always commences a point or so on either side of north, although the centre may be E. S. E., S. E., or even S. S. E. There seems also to be a retardation of the speed of the southern half, as if it was marking time, until the outer half wheeled round before the whole flings itself on the land. This proceeding allows the careful navigator time to run to the southward, and having secured a position of safety, return behind the storm to his anchorage, taking care not to overtake it. The shape of the land also favors this manoeuvre, for even in Madras itself a run of a few hours to southward gives room to let the ship off to the westward, or run down to Pondicherry. Standing out into the offing is merely exchanging one danger for another, and is directly opposed to the law of storms. Run at the earliest intimation of danger, without giving a thought to the distance it may take you from your port. Wind and current will hurry you down, and when on the safe side wind and current will bring you back before the state of the sea and surf allow business to be reconducted. You are losing nothing, and knowing that you are following the advice given with all the advantages of scientific knowledge, of experience, of the study of example and practice, and the aid of the best instruments and the Electric Telegraph. You can dismiss from your mind the great care of forming a judgment in such critical period, and give all attention to the ship, knowing that your conduct will meet with approval.

Pages might be filled of successful instances of this treatment, and the disaster following any other courses, but space will not permit, and it is requested to accept the facts as they stand, reserving the study to some leisure moments.

When compelled to lie in severe weather, when shifts of wind are dangerous, it would be well to keep ready a large stone anchor, like Chinese, stone being selected for cheapness, and the materials of a catamaran, which being put overboard with say twenty fathoms of cable will make a secure buoy, at which the ship may ride with her strong bows to wind and sea, and extra stays to her mast, the rudder being secured in midships, which is always one of the first things to suffer when used to keep the ship's head up. Then with hatchways well secured, the crew sheltered, and only the state of the well-requiring attention, a vessel will stand a great deal; and from the moment the first change you have been taught to expect occurs, a spirit of confidence will replace the doubt and despondence which add additional terror to the disturbance around. It is, however, very advisable not to navigate, if possible, during the bad-weather months. Any injury to a vessel will cause much greater detention, and involve direct expense, and no shipowner of common humanity or honesty will send a vessel to unload entirely or render herself so unsavoury that the advent of one of these storms to be expected at any moment must ensure destruction to property and grievous loss of life.

MADRAS LIGHT HOUSE.

The Light House at Madras is immediately to the Northward of the Walls of Fort St. George, and the light from it was first exhibited in January 1844. The light is elevated 128 feet above the mean level of the Sea,—and may be seen from the deck of a Ship at the distance of 20 miles. The Light is of the "Flashing Description," and the duration of the Flashes to that of the Eclipses or Dark periods is in the ratio of 3 to 3,—but as the nature of the motion is Reciprocating instead of Rotatory, the above ratio merely expresses the average proportion of the Light and Dark intervals which are themselves variable according to the position of the spectator. The rapidity of movement is so adjusted, that the duration of the Flashes will vary from 0' to 48", and that of the Eclipses from 0' to 7' the sums of the duration of Light and Darkness bearing however in every position the constant ratio of 2 to 3. From the South-Eastern extremity of the Pulicat Shoal the Light House bears S. 23° W. and is distant 13 miles, but no Ship or Vessel when hailing in from the Northward for the Madras Roadstead should bring the Light to bear to the Southward of S. 23° W. or S. S. W. 2° W.—unless her position is well ascertained. Commanders of Vessels are warned of the serious risk they incur by incautiously approaching the dangerous vicinity of the Pulicat Shoal, as hazy weather or other causes may obscure the Light,—true Soundings therefore add a vigilant look out are imperatively called for. The limits of the Madras Roadstead (in 8 or 9 fathoms) are comprised within the following bearings, viz., from the Northward the Light house will bear S. 55° W., and from the Southward N. 51° W. or from S. b. W. to W. 2° N.

The Light House at Madras is in Latitude 13° 5' 0" North.

And in Longitude 80° 30' East of Greenwich.

GOVERNMENT SAVINGS' BANK.

BANK OF MADRAS—POTHAN'S BROADWAY—Open daily from 10 A. M. to 3 P. M.
T. E. FRANCE, Esq.—Secretary and Treasurer, Bank of Madras, Ex-officio Secretary.

Savings' Bank Deposits—Revised Rules, 1874.

1. The duties connected with the Government Savings' Bank are conducted at the Bank of Madras, and the Secretary and Treasurer of that Institution is ex-officio Secretary to the Bank, and has immediate charge of its establishment, and is held responsible for the duties of the Bank being conducted in accordance with the orders which Government may from time to time issue.

2. The Bank opens daily (Sundays and general holidays excepted) for the transaction of business, from 10 o'clock A. M. till 3 P. M., except on Saturdays, when it is closed at 1 o'clock P. M.

3. With the exception of European Soldiers on the effective strength of the Army, for whom other provision has been made, all classes, including Native Soldiers, Non-effective Staff, Pensioners, Invalids, and the wives and children of Soldiers, may deposit their savings in the Bank; provided the amount of each deposit be not less than one rupee, or consist of fractions of a rupee, except when a draft on a

A. G. C., No. 33, 13th Government Treasury is tendered; and no person will be allowed to deposit more than Rupees 500 in one year, or more than Rupees 3,000 in all. When the principal and interest at credit of any depositor shall amount to the latter sum, interest will cease, and no further deposit will be received.

4. Deposits tendered on account of security of Subordinate Officers of Government, will, however, be received up to Rupees 3,000 in one or more years, or in one sum, and deposits made in accounts opened with the sanction of Government on behalf of School, Dispensary and other Funds, may be received in excess of the limit of Rupees 500. In all other cases the prescribed limit should never be exceeded.

A. G. C., No. 41, 2nd March 1874.

5. When security deposits are made by Govt. Subordinates or Contractors, the account will be opened in their own names, the Bank holding a letter of agreement in the form appended. The parties so depositing money with Government Officers must sign the letter of agreement, addressing it to the Secretary to the Government

Savings' Bank or the Collector of the District, undertaking not to make any claim on the Bank for the principal of the sum deposited, except with the express written sanction of the Government Officer, not to object to the payment by the Bank to the Government Officer upon his claiming it, and not to make any claim for the interest after such Officer shall have revoked the authority to him to receive it.

A. G. C. No. 5, dated 25th April 1874.

6. Persons residing in the Mofussil may effect the deposit and withdrawal of their savings either through the Civil, Hoozoor, or Divisional Paymaster's Treasuries, but no remittances are received from them direct at the Presidency Office.

7. Each depositor is furnished by the Bank with a "Pass-book," which book must be produced whenever a sum is deposited or withdrawn. Every sum paid or received is entered by the Bank in that book. The Secretary of the Bank affixes his signature opposite to each deposit, and the depositor affixes his to each withdrawal.

8. The name, rank, profession, business, occupation or calling, and residence, of the depositors should be entered by the Bank in the Pass-books, and the signature or mark of the depositor must be written on the same page, or in the signature-book kept by the Bank.

9. Should a Pass-book be lost, another will be supplied by the Bank on the identity of the applicant, as the owner of the missing book, being satisfactorily established, and after the lapse of a month, a fee of one Rupee is charged for the new book.

10. Should a Pass-book be so defaced or torn as to render the entries therein illegible, it will be retained by the Bank, a new one supplied, and a Rupee charged for the same.

11. Depositors are permitted to deposit or withdraw at any time any sums or portions of sums deposited by them, but no person is permitted to deposit or withdraw money more than once during the month. An exception, however, is allowed in cases in which good and sufficient reasons are assigned.

12. As a general rule, the Bank refund money only to depositors in person; but when the depositor is a female, or prevented from attending at the Bank by unavoidable causes,

the Secretary exercises his discretion in making payments on behalf of such persons to those duly authorized by them to receive the money by an order written as follows:—

MADRAS ————— 18

To

THE SECRETARY TO THE
GOVERNMENT SAVINGS' BANK.

Madras.

Please pay to ————— Rupees —————, and place the same
to my debit.

Signature.

13. No money is received by the Bank on account of Trusts, and no joint account can be opened. But a depositor can open two accounts, one for his security as a Public Servant, or Contractor, and the other for his own private savings. Ordinarily no one may open for himself or the members of his family more than one account, but a wife can open a separate account for the investment of her own savings notwithstanding the existence of one in the name of her husband. So also each member of a (Hindoo) family, whether divided or undivided, may be allowed to open an account for himself.

14. The surplus funds of an aided school, which the managers may put aside to accumulate for the eventual erection of school buildings, may be received in the Government Savings' Banks, to an amount not exceeding the limit allowed to private depositors, and on the understanding that two months' notice shall be given of the intention to withdraw such deposits.

15. Instead of inserting the individual names of Commissioners and Deputy Inspectors of Local Schools in the accounts opened in the Government Savings' Bank, accounts may be opened in their capacity as Commissioners and Deputy Inspectors thus:—

"Commissioners and Deputy Inspector of Schools for the time being on account of*
school in + ————— Taluq," care being taken to specify the particular Village and Taluq, in order to enable the Government Savings' Bank to keep each account separately. This method of opening the accounts obviates the necessity of changing the names of Commissioners as casualties occur.

16. Deposits can only be withdrawn by those at whose credit they stand in the books of the Bank. Persons depositing money on behalf of a minor, should be warned that such money cannot be withdrawn during the owner's minority, except by a legally appointed guardian. If it is desired that the minor shall be able to withdraw the money, he must deposit it himself. When a deposit is made on account of a minor, the age of the child must be communicated, that it may be recorded by the Bank.

17. On the death of a depositor, the balance at credit will be paid to the Executor or Assignee, but if a depositor dies, leaving a sum of money not exceeding one thousand Rupees, and if Probate of his Will or Letters of Administration of his Estate, or a certificate granted under Act No. XXVII of 1860, (for facilitating the collection of debts on successions, and for the security of parties paying debts to the representatives of deceased persons) is not produced, the amount in deposit may then be paid in accordance with Sections 4 and 6 of Act V of 1873, on a Bond of Indemnity, copy of which will be furnished by the Secretary to the Bank on application. Should, however, the depositor have been in the Army or Navy, the balance will be paid in conformity with the rules of the service to which he may have belonged.

18. If a depositor becomes insane, or otherwise incapable of managing his affairs, payments out of his deposits will be made from time to time to any proper person, or to a Committee, or Manager of the depositor's estate, under Section 12 of Act V of 1873.

19. Compound interest at 3½ per cent. per annum, or at such rate as may be authorized by Government, is allowed on deposits. No interest, however, is allowed for broken periods of a month, nor is it calculated on fractions of a rupee; but deposits during the first four working days of a month are dealt with as having been made in the preceding month, in regard to the interest due thereon.

A. G. C., No. 68, 3rd March 1865. 20. All receipts given by Savings' Bank depositors for sums withdrawn exceeding Rupees 20, should bear a stamp of one anna.

21. The Accounts are closed annually on the 31st of March, and the balance of Interest at that date is paid to depositors or carried to account.

22. In addition to the General Audit which all Public Accounts undergo in the Office of the Accountant General, a particular audit of the Accounts of the Bank after the close of each year, is effected by one of the gazetted Assistants to the Accountant General.

23. An Annual Statement of the transactions of the Bank, showing also the balance at the close of the year, is submitted for the information of Government and for publication in the Government Gazette.

24. Officers in charge of Civil, Hoozoor, and Divisional Paymasters' Treasuries are authorized to supply Pass-books, and to receive and refund deposits on behalf of the Government Savings' Bank, under the foregoing Rules; but every new book must be sent to the Bank that it may be registered and indexed before being made over to the depositor.

25. Officers in charge of Civil Treasuries, and Divisional Paymasters, communicate to the Bank, according to prescribed forms, the amounts deposited in, and withdrawn from, their Treasuries monthly.

26. As soon after the close of the official year as possible, Officers in charge of Civil Treasuries and Paymasters collect and forward to the Bank the Pass-books belonging to the depositors resident in their District, that the entries therein may be checked with those in the books of the Bank, and the interest due in each case credited.

27. Should an account be overdrawn in consequence of a withdrawal not having been duly debited, or through an erroneous entry in a Pass-book, the loss will have to be made good by the Officer at whose Treasury the oversight or mistake occurred.

28. When a depositor requests that his account may be finally closed, his Pass-book is to be sent to the Bank for that purpose.

29. Wherever Government Treasury business is conducted by Branch Banks, deposits on account of Government Savings' Bank should be received at the Branch Banks under orders of the Collector, part payments therefrom being also made under his orders. In regard to entire withdrawals, the sanction of the Secretary to the Government Savings' Bank is necessary.

30. Pass-books to new depositors should be issued by the Branch Banks, and statements of deposits and withdrawals should be rendered to the Secretary, Savings' Bank, by Collectors.

31. A statement of Military deposits on account of the Government Savings' Bank is forwarded annually by the Accountant General to the Secretary to the Government Savings' Bank for verification.

SOLICITORS—Messrs. Prichard and Barclay, Madras.

SECRETARIES AND TREASURERS—Messrs. Arbuthnot and Co., Madras.

The object for which it is proposed to establish the abovementioned COMPANY is to purchase the premises, plant and good-will of the NAPIER FOUNDRY at Madras, at present owned entirely by A. DeClossets, Esq., C. E., who also gives it his personal superintendence.

This Foundry was established by the present proprietor in 1863 on a very small scale, since which it has developed a constantly increasing business. It now produces monthly an average out-turn of forty tons of castings and can run at the rate of about eight tons at one time.

In consequence of the orders for work being far in excess of the means at the disposal of Mr. DeClossets for increasing the monthly production of iron castings, it is proposed to raise the necessary Capital, for purchasing improved Machinery by means of which iron may be extracted direct from the hematite ores with which either locally, or within a short distance by Railway or Canal, Madras is bountifully supplied by the formation of a limited Company, to be called the NAPIER FOUNDRY COMPANY (Limited) with a Capital of Rupees 250,000 in 1,000 shares of Rs. 250 each. Rupees 10 per share to be paid on application. Rupees 140 on allotment and the remainder as required on calls of Rs. 50 each at intervals of not less than three months between each call.

The Dogs must be placed in charge of the butcher on board, and under no circumstances are admitted on the Quarter-deck or in the Saloon.

XV.—OBSERVANCE OF THE GENERAL REGULATIONS.

Passengers must comply with the Regulations established on board the Steamers for the general comfort and safety.

BAGGAGE.

The attention of Passengers by the Company's Steamers is respectfully requested to the undermentioned Regulations in reference to Baggage: much trouble and loss are occasionally caused by their neglect or non-observance.

All Baggage should be packed in Leather Portmanteau or Trunks, marked with the Owner's name and Port of destination in Paint, in full, and fastened securely with case locks, padlocks and leather straps being liable to damage or removal. The Transit Administration will not be responsible for the safe conveyance of insecure Packages. Canvas Covers to Packages of Baggage are not recommended, as they are frequently removed, and lead to the loss of the Packages.

The Baggage of Passengers must contain only their personal effects: Packages containing Jewellery, Plate, and other valuables, must be specially declared and registered prior to shipment, and Freight paid thereon. Any infringement of these Regulations will subject the Packages to detention for Freight by the Company's Agents or Custom House authorities.

The reduction of 30 per cent. which is allowed to Passengers booked, by order of the French Government, is extended to the payment of their extra luggage fares.

Baggage allowance and Tariffs from London.

When starting from London, First and Second Class Passengers are allowed on board the Company's Steamers 3 cwt. of Personal Luggage, free of freight, and children from three to ten and Third Class Passengers 1½ cwt.

A Passenger taking a reserved accommodation will be allowed 5 cwt. of Personal Luggage free.

Passengers Booked in London are entitled to the Free Conveyance of Luggage from London as above.

Luggage must be delivered at this Company's London Head Office, 97, Cannon Street, E. C., or at the Sub-Agency, 51, Pall Mall, S. W., eight days before the departure of the Steamer from Marseilles, if forwarded *en route*, via *Boulogne*.

Extra Luggage over the said limits will be charged for as follows:—From London, 36s. per cwt.; from Marseilles, 20s. per cwt.; from Suez, 10s. per cwt. to ports eastward of Suez.

Insurance on Luggage can be effected through the Company's Offices in London at moderate rates.

Luggage is also received at the Company's Offices at above-mentioned *forty* days before the departure of the Steamer from Marseilles, for conveyance to Marseilles via *Gibraltar*, by the Company's Steamers from London.

Extra Luggage, exceeding the limits above stated, will then be charged from London 20s. instead of 36s. per cwt.

All Baggage must be shipped not later than noon on the day previous to sailing, except one Portmanteau for Cabin use, Carpet Bags or Hat Boxes.

The Portmanteau for Cabin use should not exceed 3 ft. in length, 1 ft. 3 in. in width, and 1 ft. 3 in. in depth.

Deck Chairs received on board at owner's risk.

Baggage is daily placed at the disposal of the Passengers in the Baggage room between Suez and the Port of destination. They can be occasionally hoisted in the between Decks or Cabins on application to the Officer in charge.

No Trunks or large Boxes are allowed in the Cabins, but only small Portmanteau or Carpet Bags.

Passengers who may miss any package or Baggage on arrival at their destination are recommended to apply, *without delay*, to the Company's Agent, giving full particulars, in writing, when application will at once be made to the Missing Baggage Department.

Caution to Passengers—Goods of a dangerous nature.

The Company will not receive on board of their vessels any Goods of a dangerous or damaging nature. If any such Goods be shipped without notice, the Shippers will not only be liable to the penalties imposed by Statute, but also for all damages sustained in consequence of such shipment.

NOTICE.—The Company will not be responsible for and shall be exempt from all liability in respect of any detention or delay of Passengers arising from any circumstances whatever, and

the Company will not be responsible for and shall be exempt from any act, default, or negligence of the Company's servants, or from the restrictions of quarantine wherever imposed, or from circumstances arising out of or connected with the employment of the Company's Vessels in the Mail Service of the French Government, or any foreign power.

Passenger's Personal Baggage (except plate, jewellery, precious stones, gold or silver of any kind, watches, sports or bullion, trunks, boxes, notes, deeds, papers or other valuables) can be insured against all the above risks on declaration of the value and payment of insurance, and such insurance may be effected at the Company's Offices on special application to that effect, by writing.

GENERAL CONDITIONS.

The Passage Tickets are delivered on the conditions stipulated thereon. Passengers are to accept all consequences resulting from the employment of the Steamers in the Mail Service.

The Company waive all responsibility in the event of the Steamers' non-arrival at the several points of junction; such as Aden, Point de Galle, Singapore, and Hong-Kong, whether arising from accidents, or circumstances beyond their control; in such cases the Company undertake only to convey Passengers to their destination by their next Steamer: the expense of such detention at the port of transhipment or any other consequences arising from the absence of such coincidences, will be borne by the Passengers.

In case of any advance or delay in the departure from any port, Passengers booked will not, on account of such advance or delay, be entitled to any claim whatever upon the Company.

The Passage Tickets delivered by the Agents of the Company must, in order to be made available, be signed by the Passenger to whom they are delivered.

The Passage Tickets must be given up on board to the Commander, or to the Purser, or any other appointed Company's Officer.

The Passage Tickets are *personal* and cannot be transferred without the authorization of the Company.

In case a Passenger should desire to change from a general Cabin to a single Cabin, or from Second to First Class, the difference will be charged from the last port called at to his destination.

Persons dangerously ill, or suffering with a contagious disease, or those suffering from mental alienation, cannot be admitted on board the Steamers.

In the event of either of such afflictions declaring itself in the course of the voyage, the person will be landed at the nearest port at which the Steamer may call; such detention will be at the Passenger's own expense, who will, however, after convalescence, be entitled to resume his journey, without additional expense, on one of the Company's Steamers.

Passengers must conform to the regulations of the respective Countries relative to Passports.

When that formality is required, Passengers should present themselves, with their Passports duly *visa*, at the Company's Offices at least 3 hours before the departure of the Steamer.

N. B.—No Passport required at present for embarking on board the Company's Steamers at Marseilles.

ADDITIONAL INFORMATION FOR PASSENGERS.

Gentlemen will not be admitted into the Ladies' Saloon; each Cabin is reserved for the exclusive use of its occupants.

No Passenger, except those who retain single Cabins, will be allowed the use of a whole Cabin as long as other Passengers of the same class require accommodation.

Third Class and Deck Passengers will not be admitted to the after part or quarter-deck of the Steamers, the space allotted to them on Deck is that from the Funnel forward.

Passengers' Servants will be admitted into the Saloon and Cabins but whilst attending on their masters, and they will be allowed to remain there only the time strictly necessary.

Smoking is strictly prohibited in the Saloons, Cabins, and Stowage, or other parts between-decks, and will be tolerated only on such parts of the Deck where it may not be inconvenient to other Passengers.

INFORMATION AND GENERAL REGULATIONS.

Passengers.

The rate of Cabin passage-money includes Table, but not Wines or Liquors, which are provided on board and charged as per scale in possession of the Steward. Bedding, linen, and all requisite Cabin Furniture are provided in the Steamers at the Company's expense.

The full amount of passage-money is payable on accommodation being secured. Those who fail to embark after securing accommodation will have half the passage-money returned.

Return-Tickets, available for six months from date of landing, are issued to Cabin Passengers only at a reduction of one-fifth on the return passage-money. Passengers holding Return-Tickets and travelling on board the Steamers after this period, will be charged on board with a fifth part of the return passage-money, if not previously paid on shore to an Agent of the Company.

No berth can be occupied by any passenger without application to the Agents on shore, or the Steward on board.

During the North-East monsoon, when all the berths are engaged, Quarter Deck passages are granted to gentlemen entitling them to mess at the Cabin Table, at two-thirds of first-class fare. Quarter Deck Passengers are allowed space for a bed on the poop, which must be rolled up during the day, and a trunk or portmanteau of 5 cubic feet.

A number of the Steamers are provided with Forward-Cabins; and when such accommodation is available, second-class passages, inclusive of table, are granted at half of first-class rates.

It must be distinctly understood that the Saloon and Quarter-deck are reserved for the use of First Class passengers only, and that, if any First-Class passenger desires to hold communication with a Deck passenger, he must do so on the main Deck.

Servants, being Deck passengers, must not sleep in the Saloon nor enter the Saloon Cabins except when in actual attendance on their employers.

European servants half of first-class fare. European maid-servants occupying a berth in a Cabin with a lady, two-thirds of first-class fare. Native servants on deck, ordinary Deck fare.

The rate of passage for Deck passengers does not include diet, but they can be dieted on board as per scale in possession of the Steward.

One child under three years of age, if with the parent, free. When more than one each child, additional will be charged one-quarter fare. Children above three and under ten years, half fare. Children are not allowed in Cabin unless accompanied by an adult Cabin passenger.

Passengers are strictly prohibited carrying Gunpowder, Sulphuric or other Acid, or any material, which might occasion accidents on board the Steamers.

Passengers must comply with the Regulations established on board for general comfort and safety.

Baggage.

Each adult Cabin passenger is allowed 3 cwts. of personal baggage. Any baggage in excess will be charged at Cargo rates with 25 per cent. added.

Packages containing Jewellery, Plate, or other valuables, must be specially booked, and freight paid thereon.

European servants, and children over three years of age, are allowed 168 lbs. of personal baggage. Deck passengers allowed 56 lbs. each.

Passengers are requested to note that the Company will not be responsible for any loss or damage to baggage of property under their own charge.

Freight.

All packages shipped on board the Company's Steamers must be well packed, have a distinctive mark in English, and the port of destination also inscribed on each in English.

Although the Company's Steamers for the most part trade to free ports, all packages shipped on board must be accompanied by a registered Custom House Pass. Non-compliance with this Regulation will subject shippers to detention in having their goods put on board, till a Pass from the Custom House is obtained.

Freight on all packages must be pre-paid at port of shipment.

The Company reserve to themselves the liberty to charge by weight, measurement, or value, and are not accountable for damage arising from insufficiency of address or packing; nor for damage, leakage, or breakage to re-exported goods.

For general facility, the Company reserve to themselves the power of landing cargo at the ports of delivery in their own or hired boats, and when landed, to deposit the same on wharf in receiving vessel, or in store; charging consignees with the expense of landing and storing, according to a scale of rates to be seen at the Offices of the Agents. Goods so landed to be at the risk of consignees after being discharged from the Steamer.

The Company do not guarantee that the Steamers shall have room at ports of transhipment nor that there shall be no delay there.

The correct contents of all packages must be stated in Bills of Lading. Packages containing Gunpowder, Sulphuric Acid, or any other material which might occasion accident, are strictly prohibited from being shipped on board the Steamers.

Packages weighing more than 3 cwt. (excepting bales and boxes of manufactured goods) are only carried at advanced rates of freight, and by special agreement.

When, owing to heavy weather or other cause, goods cannot be safely landed at their destination within the time stipulated for stoppage at such port in the Company's Mail Contract with Government, the Company reserve to themselves the right to convey them to the next port on the voyage or to the final port of call, to be returned thence by one of the Company's Steamers having space at the Company's expense and merchant's risk; and the consignee cannot claim indemnity for such delay nor the consequences thereof.

A written declaration of the contents and value of goods is required by the Company, and must be delivered by the shipper to the Company's Agent with the Bill of Lading. A wrong description of contents or false declaration of value shall release the Company from all responsibility in case of loss, seizure, or detention, and the goods shall be charged double freight on the real value which freight shall be paid previous to delivery.

The Company will not be liable for any single package of cargo beyond the value of Five Hundred Rupees, unless additional freight at half specie rates has been paid on value above Five Hundred Rupees, and in all cases where claims are made, proof of loss must be furnished.

Specie will not be landed by the Company. It can only be delivered on presentation of Bill of Lading on board, and will be carried on at consignee's risk if delivery is not taken during the Steamer's stay in port.

Goods must be alongside at least 24 hours before the advertised hour of departure, and shippers are requested to see that their receipts for the same are in order before leaving the vessel. Most of the mistakes made arise through shippers sending their goods at the last moment.

Bills of Lading are only signed on the Company's forms, which may be had of the Agents at the several ports for the stamp duty only. These must be presented and delivered up, cancelled, before delivery of goods can be granted.

Single packages and parcels, not exceeding 2 feet in measurement, are charged Rs. 2-8 under 1,000 miles; under 2,000 miles, Rs. 5; over that distance, Rs. 10.

Horse, Cattle, &c.

Carriages are conveyed by special agreement.

The rates of conveyance for animals are exclusive of food, and all animals are carried on deck at shipper's risk.

The charge for conveyance of horses includes passage of a syce in attendance on each horse and space for fodder, which must be provided by the owner.

Horse boxes are not provided by the Company.

Shippers of horses are recommended to remove the shoes, and to provide cow-matting for the animals to stand on, to prevent them slipping with the motion of the vessel.

Baggage.

The attention of passengers by the Company's Steamers is particularly requested to the undermentioned Regulations in reference to Baggage; much trouble and loss are occasionally caused by their neglect or non-observance. These Regulations are equally important to passengers between Suez and Alexandria, for the Egyptian Transit Administration will not accept any responsibility unless they be strictly complied with.

All Baggage should be packed in Leather Portmanteaux or Trunks, marked with the owner's name and port of destination in paint in full, and fastened securely with case locks; padlocks and leather straps being liable to damage or removal. The Transit Administration will not be responsible for the safe conveyance of insecure Packages.

Packages containing Jewellery, Plate, or other Valuables, must be especially booked, and Freight paid thereon at the Company's established rates, failing which such Packages are liable to seizure and confiscation.

First Class passengers are allowed 336 lbs. of personal Baggage free of Freight: Second Class passengers and servants 168 lbs. each; children over 3 and under 10 years, half these weights.

A passenger taking a reserved cabin will be entitled to take in the Steamer, free of Freight, 4½ cwt.; and a married couple, paying for reserved accommodation, will be entitled to take 9 cwt.

Passengers from Bombay can ship their heavy Baggage either at Calcutta or Madras, should they find any convenience in doing so, and if proceeding *via* Brindisi can forward any of their Packages to Southampton without extra charge.

The charge for conveyance of extra Baggage, will be at the rate of 10s. per cwt. between Southampton, Gibraltar, Brindisi, Malta, or Alexandria; 10s. per cwt. between Suez, India, China, Japan and Australia.

The Insurance of Baggage can be effected on moderate terms.

Passengers passing through Egypt will be charged by the Transit Administration 7s. per cwt. for conveyance of Baggage through, should it exceed, for First Class passengers, 336 lbs. each, and Second 200 lbs. each; Children over 3 and under 10 years are allowed half the above weights. This amount is collected on board the Company's Steamers, for the convenience of passengers.

Passengers requiring information, respecting their Baggage during the voyage, can obtain it on application to the Officer in charge.

Passengers who may miss any Package of Baggage on arrival at their destination, are recommended to apply, *without delay*, to the Company's Agent, giving full particulars, in writing, when application will at once be made to the Missing Baggage Depot at Bombay or at Southampton.

Baggage can be occasionally had up from the Baggage-room during the passage, on application to the officer in charge.

No Trunks or Boxes allowed in the Saloon or Cabins, but only small Portmanteaux or Carpet Bags. The Portmanteaux for Cabin use should not exceed 3 feet in length, 1 foot 3 inches in width, and 1 foot 3 inches in depth.

CAUTION.—Goods of a dangerous nature. The Company will not receive on board of their Vessels any goods of a dangerous or damaging nature. If any such goods be shipped without notice, the shipper will not only be liable to the penalties imposed by Statute, but also for all damages sustained in consequence of such shipment.

NOTICE.—All parties are requested to take notice that the Company do not hold themselves liable for detention or delay of passengers arising from accident or from extraordinary or unavoidable circumstances, or from circumstances arising out of or connected with the employment of the Company's Vessels in Her Majesty's Mail Service, and that the Company do not hold themselves liable for damage to or loss or detention of Passengers' Baggage, or for any consequences arising from the restrictions of quarantine wherever imposed. In all cases in which the Company's Steamers may be placed in quarantine, First Class passengers will be charged Ten Shillings and Second Class passengers Five Shillings per diem for their maintenance on board during the detention of the Ship.

Special Notice.

The Egyptian Transit Administration having issued a notice that they will decline to take charge of any Packages of Baggage intended for despatch through Egypt that are not properly secured, passengers are earnestly requested to see that all Portmanteaux, &c., shipped by the Steamers of this Company for Europe, are thoroughly efficient in this respect, thus obviating the probability of any plunder or delay in Egypt.

Objects of the Company.

This Company has been incorporated under a special Act of Parliament, (37 & 38 Victoria—Session 1874) and is formed by the amalgamation of the Great Southern of India and Carnatic Railway Companies. Its object is to provide railway accommodation between Madras and the provinces of Southern India, lying to the south of the existing Madras Railway. Starting from Madras the line will pass through Chingleput, Cuddalore, Porto Novo, Coimbatore, Tanjore (branch to Negapatam), Trichinopoly (branch to Carror and Erode), Dindigul, Madura, and thence to Tinnevely and Tuticorin. The provision of branches from the main line to Conjeeveram and to Pondicherry is under consideration.

From Conjeeveram to Arconam, and from Negapatam to Erode, the lines have been for some years used for public traffic; it has been decided to alter the gauge of these sections to the metre gauge, upon which the rest of the Company's railway will be formed. When this has been effected and when the sections now under construction have been completed, the South Indian Railway system will comprise about 670 miles, the longest continuous line in India constructed on the 3 feet 3½ inch gauge.

It is anticipated that the railway will be available for public use between Trichinopoly and Madura in July 1875. An unfavorable season has retarded building operations along the eastern coast, and the section south of Madras, except for a short distance will not be completed until a later date.

No Luggage is allowed in the Carriages except small packages which can be placed under the Seat occupied by the owner. Guards are required to remove all Packages which cannot be deposited under the Seat.

6. LOST LUGGAGE.—Articles found in the Carriages or on the Railway are placed in a Lost Luggage Office at the Trichinopoly Station where application should be made for lost articles. A fee of two annas will be charged for each article of Luggage when claimed at the Lost Luggage Office, but if not claimed within one month, an additional storage charge of annas 4 per month, after the first month, will be made. All lost Luggage if not claimed within six months, will be sold by the Company to pay expenses.

7. THE COMPANY WILL NOT BE RESPONSIBLE for loss of, or injury to, any Gold, Silver, Jewellery, Writings, Securities and Valuable Papers, Plated Goods, Pictures, Glass, China Articles of Ivory, Ebony, Sandal-Wood and such like Valuables; Silks, manufactured or unmanufactured, wrought or not wrought up with other materials; Shawls, Laces, Cloths, Tissues embroidered with the precious metals, or of which such metals form part, unless the same shall have been accepted by an authorised servant of the Company, and an increased charge or charges paid.

8. SPECIAL OR RESERVED ACCOMMODATION in the Ordinary Train may be had on application to the Traffic Manager, Trichinopoly, on 24 hours' notice being given.

9. TO PREVENT ACCIDENTS it is requested that no Passenger will lean upon, or open the Carriage door, or step from or into any Carriage when the train is in motion; any person doing so, is liable to be prosecuted for a breach of the Company's Bye-Law, No. 6, viz:—

Any person attempting to get into, or upon, or to quit any Carriage after the train has been put in motion, is liable to a penalty of Twenty Rupees.

10. PARCELS are received and booked at all Stations on the line. Parcels and packages under 50 lbs. weight each, are conveyed by Passenger Trains exclusively at Parcel rates, and all parcels weighing above 50 lbs. each, are likewise forwarded by Passenger Trains and charged at parcel rates, if "Per Goods Train," be not distinctly marked thereon.

N. B.—Parcels must be delivered at the Station 30 minutes before the departure of Trains.

11. HORSES AND CARRIAGES cannot be forwarded by Nos. 2 and 4 Trains. As Horse boxes and Carriage trucks are only kept at the principal Stations, notice should be given the day previous of such being required; and Carriages and Horses must be at the Station 30 minutes before the time mentioned in these tables. Each horse must be in charge of a Horsekeeper who will be conveyed free.

12. DOGS must each be provided with Muzzle, Collar and Chain, without which the Company will not be answerable for their safety. Dogs will be conveyed in a compartment of a Carriage provided for that purpose, and under no consideration will they be allowed to accompany Passengers inside the Carriages.

13. ELECTRIC TELEGRAPH.—The Company's Telegraph Offices are open from 6 A. M. to 6 P. M., and Messages are received from the public between those hours for transmission to any place at which a Government or Railway-signal Station has been established, upon condition that the Company is not held responsible for the accuracy of the message, or for any delay in its transmission or delivery, from whatever cause it may arise.

14. SMOKING in Carriages, or at Stations, is prohibited under a penalty.

15. FEES.—The Company's servants are prohibited from receiving any gratuity under pain of dismissal.

16. COMPLAINTS.—It is requested that any incivility, want of attention or any other irregularity, may be immediately notified to Mr. ALFRED STANTON, Traffic Manager, Trichinopoly, or to the undersigned.

Agent.

MONEY.

Silver is the legally constituted medium of exchange in all money transactions throughout the British Indian possessions. Gold Coin was intended to be a legal tender at a fixed value of 16 Rupees for the Gold Mohar of Calcutta and 15 Rupees for the Gold Rupee of Madras and Bombay; but it is not demandable in payment and is left to find its current value in the market. In 1841 officers in charge of public treasuries were authorized to receive gold coins struck in conformity with the provisions of Act XVII of 1835, establishing the 15 Rupee piece, but in 1852 when the gold from California and Australia began to pour their treasures over the globe and in apprehension that India would be inundated with gold, the proclamation of 1841 was rescinded and gold debarred from entrance into any of the treasuries. Since then the sovereign has been made a legal tender for 10 Rupees.

WEIGHTS AND MEASURES.

The origin of all *Weights and Measures* in England was derived from a grain of wheat; 32 of them, well dried and gathered from the middle of the ear, were to make one pennyweight; 20 dwts. 1 ounce; and 20 oz. 1 pound. It was subsequently thought better to divide the pennyweight into 24 equal parts, called *grains*.

William the Conqueror introduced into England what was called Troy Weight, from Troyes, a town in the province of Champagne, in France, now in the department of Aube, where a celebrated fair was held. The English were dissatisfied with this weight, because the pound did not weigh so much as the pound in use at that time in England. Hence arose the terms *Avoir du poids*, which was a medium between the French and the ancient English weights.

Avoirdupois Weight was first made legal in the reign of Henry VII, and its particular use was to weigh provisions and coarse heavy articles. Henry fixed the stone at 14 lbs., which has been confirmed by a recent Act of Parliament.

With respect to Measures of Length, it is recorded that the various denominations were constructed from a *corn of barley*, 3 of which, well dried from the middle of the ear, made an inch. Other terms were taken from portions of the human body—such as the *digit* (¼ of an inch, or a finger's breadth), a *palm* (3 inches), a *hand* (4 inches), a *span* (9 inches), a *foot* (12 inches), and a *cubit* (18 inches), being the length of the arm or bone from the elbow to the wrist. A *pace* (5 feet), or two ordinary steps; a *fathom* (6 feet), from the extremity of one hand to that of the other, the arms oppositely extended. It is stated that Henry I, in 1101, commanded that the *ulna*, or ancient ell, which answers to the modern yard, should be made the length of his arm; and that the other measures of length were thence derived, whether *lineal*, *superficial*, or *solid*.

The *restored standard* of Lineal Measure, whose length is called a yard is a solid square bar 38 inches long, and one inch square in transverse section, the bar being of bronze or gun-metal, at the temperature of 62° of Fahrenheit's thermometer, marked copper 16 oz., tin 2½ oz., zinc 1 oz.; and near to each end a cylindrical hole is sunk to the depth of half an inch; the distance between the centres of the two holes being 3 feet or 36 inches, or 1 *imperial standard yard*. The standard *square* and *cubic* measures will therefore depend entirely upon it.

All Measures of Capacity were first taken from Troy Weight, and several laws were passed in the reign of Henry III, enacting that 8 lb. Troy of wheat, taken from the middle of the ear and well dried, should make 1 gallon of Wine Measure, and 8 such gallons make a bushel.

The carat is divided into grains, and the grains into quarters, thus:—

The Carat.—Troy.			
	lb.	oz.	dwt. gr.
24 carats make	1	0	0 0
2 carats	"	0	0 20 0
1 carat	"	0	0 10 0
1 grain or ¼ carat make			2 10
1 quar. of a grain			0 15

TROY WEIGHT.

24 grains	= make 1 pennyweight (dwt.)
20 pennyweights	= 1 ounce (oz.)
12 ounces	= 1 pound (lb.)

By this weight gold, silver, jewels, and precious stones are weighed. It is also used in ascertaining the strength of spirituous liquors, and in experiments in natural philosophy, though the weights for this latter purpose are generally constructed in decimals from 10,000 grains to the one-hundredth part of a grain; it is used to compare the different weights with each other. The weighing of diamonds is an exception in jewellery; they are weighed by the carat, which is four grains.

14 oz. 11 dwt. 16 grs. Troy, are equal to a pound avoirdupois; or a pound Troy bears nearly the same proportion to a pound avoirdupois as 14 to 17, for 5,760 grains are a Troy pound, and 7,000 such grains are a pound avoirdupois. This standard was adopted as being the weight of a cubical inch of distilled water, which was found to weigh by Fahrenheit's thermometer (the barometer being at thirty-six inches), 252 grains, 458 thousandth part of a grain.

AVOIRDUPOIS WEIGHT.

16 drachms	make 1 ounce (oz.)	28 pounds	make 1 quarter (qr.)
16 ounces	= 1 pound (lb.)	4 qrs. or 112 lb.	= 1 hundred weight (cwt.)
14 pounds	= 1 stone (st.)	20 cwt.	= 1 ton (ton.)

By this weight are weighed all articles sold by weight, excepting gold, silver, platina, diamonds, and other precious stones; and drugs when sold by retail. The sign *lb.* (*libra*, a pound) could never have an *s* after it, the plural being *librae*.

N. B.—The square of a number is obtained by multiplying the number by itself, as $12 + 12 = 144$, the square of 12.

By this measure all things that have length and breadth are measured.

Land is measured by *Gunter's Chain*; which is as follows:—

Length.

7-92 inches.....	make 1 link.
12 inches, or 1-515 links.....	1 foot.
36 inches, or 4-545 links.....	1 yard.

CUBIC OR SOLID MEASURE.

27 feet.....	1 solid yard.

42 feet.....	1 ton of shipping.
1 yard of earth.....	1 load.

The dimensions of timber, stores, excavations, and all works which have length, breadth and thickness, are taken by lineal measure; but the contents are calculated by cubic measure.

A Cube is a solid body, and contains length, breadth and thickness. A cubic number is produced by multiplying the simple number twice into itself; thus 343 is a cubic number, being produced by multiplying the number 7 twice into itself; as $7 \times 7 \times 7 = 343$.

150 do. 4 inch ditto.....	

20 deals 12 feet long, 3 inches thick, 9 inches wide, 5½ loads.

1 ditto contains 2 feet, 3 inches cubic.

A batten is from 2 to 8 inches broad, and from ½ to 1½ inch thick.

A deal is above 7 inches wide.

A plank is 11 inches wide, or above.

120 deals are 1 hundred.

TO MEASURE PIPES, TANKS, &c.

The following is a rough-and-ready way to find the contents of circular tanks, wells and pipes:—

Square the diameter in inches, and cut off the right-hand figure as a decimal, and the result will be gallons in each 3 feet (yard) of depth,—or length, if a pipe; as,—

PIPES.

Diameter Inches.	Inches.	Square.	Gallons in 3 feet.
2.....	2 × 2 =	4 or	0-4
6.....	6 × 6 =	36 or	3-6
12.....	12 × 12 =	144 or	14-4
WELL OR TANK.			
36.....	36 × 36 =	1,296 or	129-6
100.....	100 × 100 =	10,000 or	1,000-0

TO FIND THE CONTENTS OF A BARREL.

If the diameter is equal everywhere.—Multiply the square of the diameter in inches by the depth, and divide the product by 359. Thus a barrel with a diameter of 36 inches, and 50 inches deep; $36 \times 36 \times 50 = 64,800 \div 359 = 180\frac{1}{2}$ old measure = 183½ Imperial gallons. If the centre or bung diameter is larger than the ends.—First square the centre diameter in inches; and then multiply it by 2, to which add the square of the diameter of the end; then multiply this by the length of the cask, and divide by 1,077. Thus a barrel with a centre diameter of 28 inches, end 25 inches and length 36 inches: $28 \times 28 \times 2 = 1,568 + 625 (25 \times 25) = 2,193 \times 36 = 78,948 \div 1,077 = 73$ old measure = 74½ Imperial gallons.

TO MEASURE TIMBER.

In order to ascertain the contents of unsquared timber, multiply the square of the quarter girth, or of ¼ of the mean circumference, by the length. When the buyer is not allowed his choice of girth in taper trees, he may take the mean dimensions, either by girthing it in the middle for the mean girth, or by girthing it at the two ends, and taking half of their sum. If not, girth the tree in so many places as is thought necessary, then the sum of the several girths divided by their number, will give a mean circumference, the fourth part of which being squared, and multiplied by the length, will give the solid contents.

The superficial feet in a board or plank is known by multiplying the length by the breadth. If the board be tapering, add the breadth of the two ends together, and take half their sum for the mean breadth, with which multiply the length.

The solid contents of squared timber are found by measuring the mean breadth by the mean thickness, and the product again by the length. Or multiply the square of what is called the quarter girth, in inches by the length in feet, and divide by 144, and you have the contents in feet.

USES OF THE PRECEDING TABLE.

1.—When Government 4 per cent. Securities sold at 76, what are the equivalent values of the 5 and 5½ per cent. loans?

In the table opposite 76 in the first column are 95, the value of 5 per cent. loan, and 104½ the value of 5½ per cent. loan,—the interest in all the three cases being 4-263 or 59-19 per cent.

2.—At what price should I purchase 4 per cents. to obtain 5½ per cent. for my money?

In the fourth column opposite 5½ or 5-5 in the column for 4 per cent. stands 72-727 or 728-11 the price required.

3.—What would I gain, by selling out Rs. 10,000, 5 per cent. Government loans at 104 and purchasing 5½ per cent. at 112?

In the third column opposite 104 in the 2nd, is 114-4
112

Gain on Rs. 100 of Capital 2-4

And in the fourth column opposite 112 in the 3rd, is 4-911 per cent.

" " " " 104 " 2nd, 4-968

Difference, or gain per cent. per annum on Capital... 0-103 " or fully 1-10 per cent. being Rs. 10 Rs. on every Rs. 1,000 is invested.

4.—To find the equivalent values of four and 5½ per cent. Securities when 5 per cents. are selling at 103½, or Rs. 103 6a.

Opposite 103 in the second column, are 81-4 and 113-3 in the 1st and 3rd, and among the "proportional parts" corresponding to 375 or 6a. in the 5 per cent. column are 6-3 R. in the 4 per cent. and 418 in the 5½ per cent. column.

Hence 82-4 + 3 = 85-7, the equivalent price of 4 per cent., and 113-3 + 418 = Rs. 113,713, or Rupees 113, 11a. 5p. the equivalent price of 5½ per cents.

Other uses of this Table will readily occur to brokers and others.

TRAVELLING ALLOWANCES TO CHAPLAINS.

RESOLUTION.—On a re-consideration of the subject of the correspondence mentioned above, the Governor-General in Council is pleased to lay down the following Rules:—

- I.—The Chaplain of a Station to which a conveyance allowance is attached will draw travelling allowance at the usual mileage rates of twelve and three Annas when visiting Out-stations more than five miles distant from his principal Station. The Chaplain of a Station in which no conveyance allowance is given will draw travelling allowance for visiting Out-stations not less than three miles distant.
- II.—A Chaplain absent from his Station on any gazetted leave will forfeit his conveyance allowance.
- III.—A Chaplain officiating for another at a Station to which a conveyance allowance is attached will draw that conveyance allowance for the period during which he officiates.
- IV.—A Chaplain officiating at a Station to which a conveyance allowance is not attached without being relieved of the charge of his substantive Station will draw, for visiting the former station, the same travelling allowance which he would receive if it were an Out-station.
- V.—A Chaplain may exchange the mileage admissible to him under Rules I and IV for an allowance of Rupees six per diem for the period of absence from his principal Station.

CHAPLAIN'S REGISTER OF HIS VISITS AND SERVICES IN HOSPITAL.

FORT ST. GEORGE 31st October 1863, No. 87.—Government having directed that the following Rules are to be observed in every Military Hospital, they are published accordingly for general information:—

- I. A book shall be placed in every European Military Hospital to be entitled "The Chaplain's Register of his visits and services in the Hospital."
- II. This book is to be provided by the Chaplain, and each visit and service performed at the Hospital is to be entered in it.
- III. It is to be kept for the information of the Bishop, and is to be open to the inspection of the Military and Hospital authorities.
- IV. It is not to be removed from the Hospital, the Medical Officer in charge is to arrange for its safe custody and production when required by the Chaplain or for inspection.

CHAPLAIN'S VISITS TO OUT-STATIONS.

Extracts from Court's Despatch, 12th April 1842.

"Section 27 of the Regulations respecting leave of absence and deputation and travelling allowances which we have recently approved, you will find a Rule on the subject of travelling allowances on joining a station, and when any change takes place except at the desire of the Chaplain or Assistant Chaplain.

3. But to avoid inconvenience and guard against the possibility of misunderstanding, we think it desirable that for every circle of stations, the Lord Bishop should be requested to frame a plan determining the periods at which each place shall be visited by the Chaplain or Assistant Chaplain officiating in such circle, which plan being approved by Government shall continue in force till varied by the same authority. As minute local information will be necessary to the successful formation of such plan, we can only offer a few suggestions on the subject. The frequency of Ecclesiastical visits should be governed in a great degree by the extent of the Christian population of the place to be visited. A place may contain not more than three or four members of the English Church, and though it might not be right to exclude these few persons from the benefit of Christian ordinances, it is obvious that in the present state of our Ecclesiastical Establishment such a place could not be visited frequently without injury to others of greater importance. An annual visit might in some cases be all that could reasonably be afforded; while to others, visits twice, thrice or four times a year, might be expedient; and to others again, which might be more populous, it might be desirable that visits should be made once in six weeks, or once a month.

4. When a circle of Stations may, from the deficiency of our Establishment, or any other cause, be left without a resident Clergyman, we are of opinion that the Chaplain or Assistant Chaplain of a neighbouring district should, as desired by the Lord Bishop, be appointed to visit the Station thus deprived of clerical services. In such cases the most convenient course will be for the Lord Bishop to bring the subject to the notice of Government, and submit a plan of visitation. Such plan being approved, the Chaplain or Assistant Chaplain who can most conveniently discharge the required duty, should be specially appointed thereto, and thenceforward be entitled to draw travelling allowances in conformity with the provisions of the plan, and in accordance with our Financial Despatch of the 30th October 1839.

5. We should lament that the practice of visiting Stations at which no Clergyman is permanently resident should be discontinued, and it would be unjust to subject the Clergy to the expense attendant on such visits. Under these impressions we deem it proper to sanction the payment of such reasonable charges not exceeding those authorized in our Despatch of the 30th October 1839, before referred to, and we are encouraged in this view by the fact that although Chaplains and Assistant Chaplains when absent from their duty are subject to the same deductions as Civil Servants, no charge is incurred in providing for the duty of the absentee. The deductions may thus be regarded as a fund, meeting to a certain extent the extra charges incurred by occasional or provisional visits of the Clergy to Stations in which they do not reside."

The revised Plan, determining the Circle of Out-stations for the several Chaplaincies under this Presidency, is published for general information in lieu of the one sanctioned under date 19th October 1852.

RULES RELATING TO BURIAL GROUNDS FOR THE
DIOCESE OF MADRAS.

FORT ST GEORGE, 20th October 1856.

I. The Chaplain of the Station shall have the care of the General Cemetery. It shall be his duty to apply to the proper Officer, when the walls want repairing; to

see that weeds, grass, or jungle be cleared away, and the remains of dilapidated tombs be removed, and that the Cemetery be kept in proper order.

In the absence of the Chaplain, the Lay Trustees shall have the care of the Cemetery.

N. B.—These Rules apply in places where there is no Chaplain, to Ministers of the Additional Clergy Society, and to any other Clergymen who are appointed to the charge of English Congregations, and are in receipt of part of their salary from Government.

II. The Sexton or Lascar in charge of the Cemetery, shall be borne on the Church Establishment, and shall be paid by Government through the Chaplains, with whom the appointment and dismissal of this servant shall rest.

III. In every station, a portion of the Cemetery shall be set apart for the use of members of the Roman Catholic congregation. For the use of any body or bodies of Christians at such station, not being members of the Church of England, nor of the Church of Rome, another portion of the Cemetery shall be appropriated, should they desire it, for the sole use of such congregation, or for the joint use of such congregations. The portions thus set apart shall not be fenced or walled off, but simply divided by a pathway, from the rest of the Cemetery, and shall be added to, or reserved from, the existing Cemetery, according as such Cemetery has, or has not, been consecrated according to the rites of the Church of England. The whole Cemetery thus divided shall be surrounded by a wall, and shall have but one gate of entrance. The entire Cemetery shall be under the care of the Chaplain, for the purposes specified in Rule I. The key shall be kept by the Sexton or Lascar acting under the Chaplain's directions, so that access to the ground may be had by those having a right to use, easily and without delay.

IV. The Chaplain shall provide that one or more graves be kept ready for cases of sudden emergency; such graves shall be covered with planks or boards. No grave shall be less than six feet deep.

V. A scale of charges for ordinary masonry-graves, headstones, tombstones and tombs, to be submitted by the Undertakers at each station, and approved by the Chaplain and District Engineer, shall be affixed to the Cemetery gate, or to the wall of the Church Porch, or exhibited in some other suitable place.

VI. Inscriptions intended for monuments to be placed in that portion of the Cemetery devoted to the Church of England, and for tablets to be placed in Churches shall be submitted to the Chaplain for approval; if not approved, such inscriptions shall not be allowed to be engraved on such monuments or tablets. But any party considering himself aggrieved by the Chaplain's decision, may appeal to the Bishop.

VII. Stone or brick monuments shall not be placed over any but masonry graves; such monuments, unless built over masonry work, are liable to fall in during the rains. Brick monuments are to be discouraged, as they soon fall into decay in this climate.

VIII. The dimensions of no monument shall be allowed to exceed nine feet in length, and four and a half feet in width. In special cases, where more space is desired, a fee calculated at the rate of Rupees 3 for every square foot, shall be charged by the Chaplain. The sum collected shall be placed to the credit of the Fund for improving the Burial Ground, and repairing the monuments in it and the Church.

IX. The Chaplain shall communicate with the friends of the deceased when a monument requires repair. Should a monument fall into a ruined condition, and no one be willing to undertake its restoration, the ruined monument shall be made level with the ground, and any slab it may have contained shall be placed over the grave.

X. Every reasonable effort shall be made by the Chaplain, not only to keep the Cemetery in decent order, but to preserve the sacred associations of the place, by suggesting appropriate designs for monuments, and by planting the ground with suitable trees. The money obtained by the sale of the graves, and the funds mentioned, shall be laid out in the improvement of the Cemetery.

XI. The Cemetery shall be inspected once a year by the Chaplain, in company with the Executive Engineer, and a report made to the Archdeacon; such reports shall be recorded in the Ecclesiastical Record Book of the station, and also in the Engineer's Office.

XII. The Collector, or one of his Assistants, shall annually, or on occasion may require, visit all Cemeteries in his District, as well as those disused as those still in use, and shall make suggestions to the Clergyman or Lay Trustees in charge, and, if necessary, shall make a brief report to the Government or Archdeacon, regarding the condition of such Cemeteries.

XIII. Officers Commanding Regiments or Detachments shall cause a report to be

made to the nearest Civil Officer of graves dug for Commissioned Officers, for Non-Commissioned Officers and Soldiers dying on the line of march, in order that measures may be taken for the effectual protection and preservation of such graves.

XIV. At stations where there is no Chaplain or other Clergyman in the pay of Government, the Lay Trustees will perform all the duties assigned to the Chaplain by these rules, with the exception of the approval of the inscriptions, which are to be forwarded to the Chaplain of the station or, during a vacancy, to the Archdeacon; such inscriptions shall not be engraved till the sanction of the Chaplain or Archdeacon is obtained. The Lay Trustees in stations where there is no Chaplain, shall place the key of the Cemetery at the disposal of the visiting Chaplain, on the occasion of that Minister's periodical visits to his out-stations. In the absence of a Clergyman of the Church of England, one of the Lay Trustees, or some Officer appointed by him, shall read the burial service at the interment of all persons entitled to burial according to the rites and ceremonies of the Church of England, and shall forward a return of the same, in duplicate, by the first post, one copy to the Registrar of the Diocese, Madras, and the other to be deposited in the Office of the Collector of the District. Forms can be obtained by application at the Office of the Diocesan Registrar, Madras.

CHURCHES AND CHAPELS.

The following P. W. D. Standing Order, No. 37 of 1865, regarding the expenditure of public money on Churches and Chapels in Military and Civil stations, is, we learn, to be considered applicable to the Madras Presidency:—

Churches and Chapels in Military and Civil Stations.

The following general principles and rules regarding the expenditure of public money on Churches and Chapels are published for general information, and must be strictly adhered to by local Governments and Administrations in considering proposals for such works, and in according sanction to them:—

I.—In the case of purely Military stations, where there is no European population excepting the troops, such as the Hill Sanitaria at Dugshai or Subathoo, &c., applications for Protestant Churches, will not, as a rule, be entertained by the Government, and a Regimental School-room or other large suitable building should be made available for divine worship.

II.—Where, however, a Military station is of a permanent character, and there is also a Civil European community, Protestant Churches are desirable, and will be constructed by the Government.

III.—Roman Catholic Chapels will be provided by the Government to the extent required for troops in those Military stations in which sanction is accorded to the erection of Protestant Churches.

IV.—The amount of the Government Grant for a Protestant Church will, in no case, exceed such a sum as will suffice to provide a plain substantial building adapted to its special purposes and large enough to contain the whole congregation which may ordinarily be expected to attend together with such plain furniture as is essentially necessary for the proper performance of the service according to the ritual of the Church of England. It will rest with private individuals to furnish the means of imparting ecclesiastical features, and architectural decorations to the building, should they desire it; and also of supplying additional furniture, or furniture of a more costly description and means of lighting.

V.—The same principles with regard to the extent of accommodation and amount of the Government Grants will hold good in the case of Roman Catholic Chapels.

VI.—At the chief Civil station of a district, the Government will be ready to provide a small Protestant Chapel, on a scale commensurate with the probable congregation to be accommodated, whenever the community of the station is willing to bear a portion of the expense, the share taken by the Government being calculated on the principle above laid down, viz., that the Government will provide the cost of the solid and essential parts of the fabric, while it shall rest with the community to supply the means of giving to the building the special architectural character and the distinguishing features of ecclesiastical form; which it is desirable Churches should possess.

VII.—The following sums are fixed as sufficient to provide places of worship on the above principles for the various details of troops and for Civil stations. The scale

of size for Military stations, and of expense for all Churches or Chapels, now laid down, are in no case to be exceeded without a reference to the Government of India, even though the proposed expenditure may be within the power of sanction, vested in the local Government or Administration.

RULES RELATING TO THE OFFICE AND DUTIES OF LAY TRUSTEES IN THE DIOCESE OF MADRAS.

FORT ST. GEORGE, 25th October 1865.

I. Two Lay Trustees are appointed to each Chaplaincy or station where there is property belonging to or held in trust for the Church of England.

II. At Civil stations, or Joint Civil and Military stations, the Senior Civil Servant communicant of the Church of England, and has no objection to hold the office. At Military stations the Officer Commanding the Cantonment or Garrison under the same provisions. When these Officers are unwilling to hold the office, the officer next in seniority (Civil or Military) shall be nominated.

III. The second Trustee may be any communicant resident at the station, nominated by the Chaplain, and approved by the Bishop.

IV. When the office of either Trustee is vacant, the Chaplain should report the circumstance to the Lord Bishop, for their information, and at the same time nominate a duly qualified person to fill the vacancy.

V. The duties of the Trustees are in many respects similar to those of Church Wardens in England. They are appointed to see that the Church and Churchyard or Cemetery,* are kept in good order and repair, to provide for the preservation of the property belonging to the Church, to present to the Bishop or Archdeacon, either on their visitation or immediately by letter, whatever is wrong or irregular on the part either of the Chaplain or the congregation, and to aid and assist the Chaplain in the performance of his duties.

VI. During the absence of the Chaplain or other licensed Clergyman, one of the Lay-Trustees is, in ordinary cases, the proper person to read the service and a sermon on Sundays, and to take charge of the Register and other books connected with the Chaplaincy.

N. B.—It is to be borne in mind that Lay-Trustees have no power to interfere in the administration of Divine Service, but merely to represent to the Ecclesiastical authorities whatever they may deem objectionable. Their office in this respect is one of observation and complaint, not of control.

VII. The Lay-Trustees, in conjunction with the Chaplain or Minister, form a Committee of Management on all Church matters, and should meet for business once in each month, or oftener, if necessary. The assignment of seats in Church and (in places where they are authorized) the collection and disbursement of pew rents, the management of school and charity funds should be supervised and arranged by the Committee at their Meetings.

VIII. All indents, letters, proceedings and other papers emanating from a Church Committee, are to be signed by both the Lay-Trustees (unless for special reasons, which are always to be assigned), as well as by the Chaplain; and all indents, letters, &c., received or sent, are to be entered in a correspondence book distinct from that of the Chaplain, and should be produced for examination at Meetings of the Committee.

IX. The Chaplain or Officiating Chaplain or Minister present, as a mark of respect due to religion in the person of its Minister, presides at all Meetings of the Committee of Management and signs proceedings and letters as President, and the two Lay-Trustees in the order of their relative rank.

X. The Church Committee are responsible that no alteration is made whether in the Church or Churchyard without representing the matter to the Archdeacon, who will, except in matters of trifling importance, bring it before Government for their sanction.

XI. When any addition, alteration, or improvement to a Church or other Ecclesiastical building is considered necessary, or when any new building is required, the subject should be brought with full explanation to the notice of the Bishop, who, if approved by him, requests the Archdeacon to submit the same for the consideration and orders of Government, on whose approval the necessary plans and estimates (if not previously furnished) are called for from the Public Works Department.

XII. All ordinary repairs to Ecclesiastical buildings in the provinces, the cost of which does not exceed Rupees 50, are effected, and all trifling articles within the same limit are supplied on the direct application of the Church Committee in the provinces by the District Executive Engineer, and at the Presidency by the Barrack Master. Contingent charges for the supply of matting, blinds, and other articles of a similar kind necessary for each Chaplaincy, not exceeding 10 Rupees per annum, will be entered in a Contingent Bill, which should be submitted for the approval of the Archdeacon.

RULES IN REGARD TO THE LEVY OF ECCLESIASTICAL FEES.

ECCLESIASTICAL, *Single*, the 29th September 1869, No. 182.—The following amended Rules for the levy of Ecclesiastical fees throughout India, which have been framed by His Excellency the Governor-General in Council, are published for general information in supersession of the Rules which appeared under Notification, No. 548, dated the 18th September 1863:—

I. No fees are charged for the performance of the rite of baptism or burial, or for the registration of the performance of these offices.

II.—In addition to the fee for the Surrogate's license, a fee of Rs. 10 shall be charged on all marriages by license, except the marriages of Officers and others in the Military or Naval Service of Her Majesty.

III.—The fee for the Surrogate's license shall be Rs. 50 both at the Presidency Towns and in the interior. No fee will be charged on marriages by banns.

IV.—When registers are searched and copy of any entry given, a fee of one Rupee shall be charged for the first year,* and four Annas for every additional year over which the search may extend, as well as a fee of one Rupee for the certificate. Soldiers, Sailors and Non-Commissioned and petty Officers are exempted from payment.

V.—A fee of eight Annas for every square foot of ground occupied shall be charged for the construction of any masonry grave in a burial ground.

VI.—A further fee of one Rupee per square foot shall be levied on the erection of a monument in a burial ground: provided, however, that for a simple headstone or flat slab of the size of an ordinary headstone, an uniform fee of Rs. 15 only shall be charged. A fee of Rs. 75 shall be levied on a faculty for the erection of a monument in a Church.

VII.—The fees levied on the construction of masonry graves and the erection of monuments, shall form a fund for keeping the burial ground and Church compound in order, except in Calcutta, Madras and Bombay, where they will be credited to Government.

VIII.—British Soldiers and Non-Commissioned Officers are exempted, with retrospective effect, from the payment of any fee for the construction of masonry graves, or for the erection of monuments in burial grounds to the memory of their comrades, wives or children. No monument, however, either regimental or private, shall exceed six square feet, and no masonry grave shall occupy more ground than an area of eight feet by four. The simple stone slab or headstone should be generally adopted.

IX.—The Chaplain may at his discretion reduce, or altogether remit in cases of extreme poverty, the fee for searching registers and making copies, as well as the fee leviable on the construction of masonry graves, but not for the erection of monuments.

X.—The fees prescribed in these Rules should be paid to the Chaplain, or, in the absence of the Chaplain, to the Officer in charge of the burial ground, and shall be duly accounted for.

Appendix to Rule X.

By a resolution of the Government of India, dated 3rd September 1870, No. 3,015, it is ordered, that the fees for masonry graves shall be paid into the Treasury for repairing the walls, gates and paths, and that the fees for monuments in Churches shall be paid over to the charitable objects to which the Bishop assigns them, when his faculty is issued. It is further ordered that the fees for Cemetery monuments in all Burial Grounds, except those in the presidency Towns of Calcutta, Madras and Bombay, shall be retained by the Chaplain to form a fund under the management of himself and the Church Committee, for the decoration of the Cemetery, by planting trees and shrubs and for repairing tombs.—*Vide Proceedings of Madras Government, 12th October 1870, No. 165.*

Letter from the Officiating Under-Secretary to the Government of India, Home Department, (Ecclesiastical), to the Secretary to Government, Fort St. George, dated Simla, 8th July 1872, No. 165.

"The Lord Bishop of Calcutta having brought to notice that difficulty is occasionally experienced by Chaplains in collecting fees, under existing rules, on monuments and masonry graves, the Governor-General in Council considers that in all cases where such difficulty arises the duty of collection should be made over by the Chaplain to the Magistrate or Deputy Commissioner in charge of the district in which the burial ground may be situated; and I am to request that, with the permission of His Excellency the Governor in Council, instructions may be issued to the District Officers accordingly."

Orders for the performance of Funeral Rites on verdicts of Coroner's Inquests.

NOTIFICATION.—*Fort Saint George Gazette, June 11, 1850, page 623.*

The Right Honorable the Governor in Council is pleased to rescind the Order of Government of 5th April 1842, which directs a copy of the verdict of the Coroner's Inquest to be furnished, when practicable, to the Clergyman who is to officiate at the interment of a body on which an inquest may have been held, and the Reverend Chaplains will in future consider the warrant of the Coroner for the interment of a body on which an inquest has been held to be a sufficient authority for their performance of the Burial Service over it, if it would be their duty, under ordinary circumstances, to perform that service.

2. In the provinces where no Coroner's jurisdiction exists, the same course will be observed by the authorities appointed to enquire into the causes of sudden death, and the same difference will be paid by Clergyman to their certificates of Warrant.

Order for the burial of a Roman Catholic when refused burial by the Roman Catholic Priest.

By the Orders of the Government of India, dated 31st December 1855, communicated to the Right Reverend the Bishop, 15th January 1856, and quoted by the Chaplain of Cannanore, Chaplains of the Church of England are, on the requisition of the Officer Commanding a Military station, bound to bury a Roman Catholic according to the ritual of the Church of England when the Roman Catholic Priest of that station may have refused to bury the deceased.

Parties desirous of being married should apply direct to some Surrogate residing near them; but from places where there is no Surrogate, application should be made to the Registrar, who will procure a commission under the Episcopal Seal, authorizing some persons to administer the usual oath and grant the necessary license. None but a Clergyman of the Church of England can marry by virtue of Episcopal license. Parties who cannot on account of distance obtain the services of a Clergyman to marry them must state the fact, and apply to the Brigade Major, Fort Saint George, who will obtain the permission of the Right Honorable the Governor for their marriage under which the Senior Judicial Officer of any station is authorized by Government to marry them.

In the case of a minor in H. M.'s or the Honorable Company's Services, the written consent of the Governor must be obtained previous to the publication of Banns, or the grant of a license.

Further information respecting marriages can be obtained on application to the Registrar of the Diocese, J. O. Wright, Esq., M. A.

General Assembly's Institution and Schools of the Free Church of Scotland.

Commenced by the Rev. J. Anderson, in Black Town, 3rd April 1837.

The Free Church Mission Institution, Esplanade, Black Town, is intended to provide for Natives a good Christian education. It is managed by European Missionaries (named above) assisted by a staff of about 30 Native Masters. Instruction in all the branches of a liberal education, including Scripture knowledge, is communicated chiefly through the medium of the English language. Tamil, Telugu, Hindustani and Sanscrit are systematically taught by competent Munsis. The Institution is divided into two departments, the School and the College. The latter educates up to the standard of the Bachelor of Arts Degree of the Madras University. The number of pupils in the school is about 700, and those in the College upwards of 100. Visitors are welcome on school-days between the hours of 12 and 3 P. M.

In connection with the Central Institution, there are 9 Boys' Schools:—Iyempettah, Rajampettah, Wallajahbad, (Lower Class Schools); two in Madras (Middle Class Schools); Nellore, Conjeeveram, Trivellore and Chingleput (Higher Class Schools). These are conducted in the same manner as the Central School. At these 9 schools there is an attendance of upwards of 1,100 boys.

Female education is extensively carried on by the Mission. A Boarding School for children of Native Christians is under the charge of Miss Liddell. The number of pupils is about 70. Two schools in Black Town for Caste Girls are superintended by the Rev. E. M. Bauboo with an attendance of upwards of 400—one by Mr. Hutton with an attendance of about 90, and one by the Rev. P. Rajahgopal with an attendance of 80. Besides these, the Mission has Caste Girls' Schools at Nellore, Conjeeveram, Trivellore and Chingleput. The number of girls attending these 9 schools is upwards of 900.

On the whole, therefore, the number of young persons receiving a Christian education in the College and Schools of this Mission is about 2,800.

London Missionary Society's English Institution for Native Youths,

ARMENIAN STREET, BLACK TOWN, MADRAS.

This Institution was established in 1851 for the purpose of giving a good general and scriptural education to the native youths of Madras, as well as for the training of Frenchers, Catechists and Teachers to assist at the numerous stations occupied by the Society in Southern India.

The studies pursued in the highest classes of the Institution are those required for the Matriculation examination of the Madras University. The studies in the other classes are arranged accordingly. Every boy in the school is daily instructed in the sacred Scriptures by a Christian teacher. The number of scholars is 450. School fees are paid according to the rates recently fixed by Government.

There are also two Branch Schools in the immediate neighbourhood of Madras connected with the Institution. In the Institution and its Branch Schools there are 550 native youths receiving Christian education.

A native congregation comprising 154 souls and 66 communicants has been formed in connexion with this part of the Mission. The plan of the Institution provides for a special service adapted to native youths every Sunday morning after the Sunday School.

Vepery District.

Connected with this Branch of the Mission is another native congregation of 107 souls, and 39 communicants. The Mission supports a Boarding School for girls and four Girls' Day Schools, which are attended by caste children to the number of 353. The total number of girls at present is 378.

T. Heeting, | C. Beer.

Itinerating and preaching. Six Native brethren, two of whom are occupied in the Eastern Delta and four in the Western in instructing Native Christians and evangelizing among the heathen.

The Mission was commenced in 1836, and has been supported by unsolicited contributions from Christian friends both in England and in this country.

The work of the Mission is chiefly confined to preaching the Gospel in the Vernacular (Telugu), an English School conducted by the Messrs. Beer, and which now numbers 155 pupils including a few boarders.

There are five Village Schools. A Girls' Boarding School conducted by Mrs. Heelis numbering 45 boarders and a few day scholars, also a caste school for girls and very small boys, under Mrs. Bowden's charge. An adult school for young Christian men under Mr. Bowden's direction, and a night school for young men and boys in the town of Nursapur, under Mr. Heeling's direction.

The members of the Native Congregations reside in Nursapur, Palcole and about 30 other villages.

The *Witness*, a quarterly publication intended to assist in meeting the spiritual need of Native Christians is published in Telugu by this Mission and is now in its fifth year. It appeared necessary to stop this publication, but arrangements are now making to re-commence.

BANGALORE FREE COMMUNION BAPTIST CHURCH.

(FORMED 26TH NOVEMBER 1854.)

Pastor.—EDMUND MARSDEN.

Place of Worship.—*Ebenezer Chapel, Commissariat Road.*

(OPENED 18TH AUGUST 1867.)

Times of Service.—Lord's day, 11 A. M. and 6 $\frac{1}{2}$ P. M.—Thursday, 6 $\frac{1}{2}$ P. M.

This Church was formed on the above date by the Rev. T. C. Page, (formerly of Madras,) then temporarily residing at Bangalore. It enjoyed the pastoral superintendence of that esteemed servant of Christ for the first few months of its existence, but was for some time subsequently to his departure from the station without a Minister. On the 30th March 1866, Mr. Marsden, who had been a short time previously set apart for the work of the Gospel Ministry at Madras, became its Pastor.

Besides watching over this Christian Society, Mr. Marsden devotes a considerable portion of his time to evangelistic visitation among the residents of Bangalore, particularly the *Military*, of whom there is always a very large number at the Station. Last year [1873-74] there were in this way about 635 persons come into contact with, and blessed and pressed with the Gospel offer, more than three-fourths of whom had never previously been operated upon, and during the eighteen preceding years, about 9,820 persons. A very large proportion of these were *Soldiers*. Though not bearing the name, Mr. Marsden, to the fullest extent of his ability, is doing the work of a Town Missionary.

The present Cemetery was built and given to the Armenian Community by Government in the year 1862.

Previous to the erection of the Church the Armenian community performed Divine Service in a temporary place, built of timber, on the North, or Mount Esplanade, opposite Fort Saint George, by the late Honorable East India Company, who also paid for the support of the Priest (50) fifty pounds annually for 7 years, agreeably to a Treaty entered into by the said Company with the Armenian nation, dated London, the 22nd day of June, A. D. 1688, and in the fourth year of the reign of King James the Second. The present Church was built by the Armenian community at their own expense in the year 1712, and alterations and additions made to it by them from time to time. In the year 1833 the British Government was pleased to grant the sum of Rupees (5,000) five thousand from the late Lottery Funds, for the repairs of the Church; out of which Funds the community was enabled to erect a substantial and extensive Verandah, 145 feet in length by 19 in breadth, on the west side of it. Government was further pleased to grant a Donation of Rupees (2,000) two thousand from Dr. Wootley's Estate to the Church in the year 1839.

* Senior Marriage Registrar.

THE INDIAN CHRISTIAN MARRIAGE ACT XV OF 1872.

ECCLESIASTICAL DEPARTMENT, Fort St. George, March 11, 1874.

Rules for the submission to Government of the Returns of Marriages solemnized under Act XV of 1872, and for the disposal of marriage fees.

Under the provisions of Section 83 of the Indian Christian Marriage Act (No. XV of 1872) the Right Honourable the Governor in Council is pleased to direct the observance of the following Rules for the disposal of the fees prescribed by Section 82, the supply of register books, and the preparation and submission of returns of marriages solemnized under the Act.

Head I.—Rules relating to Persons who have received Holy Orders (and who are not Clergymen of the Church of England, nor the Church of Rome, and to Ministers of Religion who, under Section 6 of the Act, have claimed license to solemnize marriages.)

Definition of "Minister." 1. The term "Minister" will be used for both of these classes of officers under this Head.

2. As required by Section 34 of the Act, a Minister will forthwith detach from his marriage register book every certificate of marriage solemnized by him and transmit it, within one month from the date of solemnization of such marriage, to the Marriage Registrar or Senior Marriage Registrar of the District, or to the Magistrate of the District, when there is only one Marriage Registrar in the District, or to the District or Magistrate's office if the Marriage Registrar is absent from the District, or to the Senior Marriage Registrar for the town of Madras.

3. The form to be used by Ministers for this purpose is given in the fourth schedule of the Act.

Duties of Magistrates, &c. 4. The Marriage Registrar or Magistrate acting under Section 7 on behalf of the Marriage Registrar, as the case may be, is required by Section 34 and the two following sections of the Act—

(a.) To add to each certificate the number of the entry of the copy in the book to be kept by him under Section 34;

(b.) To affix to it his signature or initials; and

(c.) To transmit all the certificates received during the month to Government, together with the certificates from his own marriage register book, if he should have solemnized any marriages during the month.

5. On the face of every certificate of marriage thus forwarded, the Minister must distinctly state if either party to the marriage is a British subject, as in this case it is imperative that the certificate should be forwarded to England. If neither party to the marriage be such, that fact also must be stated; and it must be noted in the latter case if either of them desires the certificate to be transmitted to England for delivery to the Registrar-General of Births, Deaths, and Marriages.

6. The following is the definition of the term "British Subject" which should be adopted in carrying out the above distinction:—"The term British subject means (1) a subject of Her Majesty, born, naturalized or domiciled in the United Kingdom of Great Britain and Ireland, and (2) the child or grandchild of any such person by legitimate descent."

Native Christians. 7. The certificates furnished by Ministers are not to include entries of marriages between Native Christians.

These marriages, under Section 87 of the Act, must be registered in a separate register book in the form given in Schedule 1 of the Act. When certificates of such marriages are given, they shall also be in the form given in Schedule 4. The headings of the register book should be in the language of the district in which the register is kept, but so much of it as has to be filled in by the hand of the person performing the ceremony must be in his own vernacular language. This book, when used, must be dealt with as directed by Section 87. Under Section 86, two extracts from this register book shall be deposited in the office of the Marriage Registrar or Senior Marriage Registrar of the District, or in that of the Magistrate of the District when the Marriage Registrar is absent from the District, or in his office temporarily vacant on the 31st December of each year. For the form of extract see Appendix 1.

8. Applications from persons connected with any Missionary Society for licenses should be submitted to Government by the Secretary or Senior Chaplain of the Society through the Magistrate within whose jurisdiction the applicant may be residing, or in the case of residence in Madras, through the Senior Marriage Registrar for the town of Madras. Those officers should also forward an expression of their opinion. In every case the name of the applicant should be given in full.

* Such as Clergymen of the Armenian and Greek Churches.

9. When any person desires to resign the office of a Minister licensed to solemnize marriages under the Act, or is about to leave the station or district in which he has exercised such functions, it is particularly requested that he will report the circumstance to the Marriage Registrar or to the Magistrate of the District, as the case may be, and make over to him for safe custody the marriage register books, and all forms and other documents appertaining thereto, unless his (the Minister's) successor be duly licensed to solemnize marriages under the Act, in which case the books, forms, and documents referred to should be made over to such successor, and the fact should be reported to the Marriage Registrar or to the Magistrate of the District when there is no Marriage Registrar for information. In Madras the report should be made to the Senior Marriage Registrar for the town of Madras.

10. A form of report is given in Appendix No. 2.

Persons who send certificates to Government. 11. The persons who are required to furnish the certificates to Government under this head are—

(a.) All Marriage Registrars or Magistrates of Districts as the case may be.

(b.) The Senior Marriage Registrar for the town of Madras.

Head II.—Rules relating to Marriage Registrars appointed under the provisions of Act No. XXV of 1872 (the Indian Christian Marriage Act), Section 7.

1. A Marriage Registrar is required, by Section 65 of the Act, forthwith to separate the certificates from the marriage register book, and to submit the certificates of marriage which he has detached from his marriage register book during the month, to the Secretary to the Local Government "at the end of every month." Copies of the

Certificate should never be sent. The original is required in every case.

2. A form of the certificate is given in the fourth schedule of the Act.

3. On the face of every certificate of marriage thus forwarded, the Marriage Registrar must distinctly state if either party to the marriage is a British subject within the meaning of Rule 6 of the foregoing Rules (Head I), as in this case it is imperative that the certificate should be forwarded to England. If neither party to the marriage be such, that fact also must be stated; and it must be noted in the latter case if either of them desires the certificate to be transmitted to England for delivery to the Registrar-General of Births, Deaths, and Marriages.

Information to be recorded on face of certificate.

4. Applications from persons connected with any Missionary Society, for appointment to the office of Marriage Registrar in any district, should be sent through the Secretary or Senior Chaplain of the Society to the Magistrate of the District in which the applicant resides; applications for appointment in Madras should be sent through the Senior Marriage Registrar for the Town of Madras. The Magistrate, or the Senior Marriage Registrar, as the case may be, should forward the applications to Government with an expression of his opinion.

5. When any person, not being a Marriage Registrar of the district, desires to resign the office of Marriage Registrar under the Act, or is about to leave the district in which he has been authorized to exercise the functions of a Marriage Registrar, it is particularly requested that he will report the circumstance to the Magistrate of the District, and make over to him for safe custody the marriage register books, and all forms and other documents appertaining thereto, unless his (the Marriage Registrar's) successor be duly authorized to register marriages in the same district under the Act, in which case the marriage register books, forms, and documents referred to, should be made over to such successor, and the fact be reported to the Magistrate for information. In Madras the report should be made to the Senior Marriage Registrar for the Town of Madras.

6. A form of report is given in Appendix No. 2.

Persons who send certificates to Government. 7. The persons who are required to furnish marriage certificates under this head to Government are—

(a.) All persons specially appointed by Government to be Marriage Registrars under Section 7 of the Act.

(b.) All Magistrates when there is no Marriage Registrar.

(c.) The Senior Marriage Registrar for the town of Madras.

8. The attention of Marriage Registrars and Senior Marriage Registrars is directed to Rule 1, Head I. The form of register to be kept by them is given in Appendix 3.

9. Marriage Registrars should see that the true extracts from the register book referred to in Sections 87, 82, and 64, are duly forwarded to them on the 31st December of each year for deposit in their offices.

Extracts from native register.

10. At the close of each year the Marriage Registrar of each District will be furnished with two copies of the lists of the various persons authorized to solemnize marriages under the Act and residing in his district. One copy of each list it will be his duty, after inquiry, to return with the necessary information filled in, and the other should be retained in the Marriage Registrar's Office. These lists will be in the form shown in Appendix No. 4.

11. The form of the Register to be kept by Marriage Registrars under Section 59 of the Act for the registration of marriages between Native Christians should be the same as in the fourth schedule of the Act. When certificates of such marriages are given they shall also be in the form given in Schedule 4. The headings of the register book should be in the language of the district in which the register is kept, with an English translation, but so much of it as has to be filled in by the hand of the person performing the ceremony must be in his own vernacular language. This book, when filled, is to be dealt with as prescribed in Section 37.

Head III.—The following rule is applicable to Persons who hold at the same time the offices of both Marriage Registrars and Ministers under the Heads I and II.

1. Only certificates of marriages solemnized by Ministers of religion under Part III of the Act are required to be submitted through the Marriage Registrar or the Senior Marriage Registrar, or the Magistrate of the District as the case may be. The certificate under Part V of the Act should be forwarded direct to Government by the Marriage Registrar.

Head IV.—Rules for the submission of Quarterly Returns of Marriages under Part IV of the Act.

1. By Section 29 of the Act, Clergymen of the Church of England should send to the Registrar of the Diocese at the end of every quarter, the returns, in duplicate, of the entries in the register of marriages solemnized at or in any station or district at which such clergymen shall have any spiritual charge. The said Registrar, upon receiving the same, shall transmit one duplicate of the returns to the Chief Secretary to the Government in the form prescribed in the third schedule of the Act.

2. By Section 30, returns of the entries of marriages solemnized by Clergymen of the Church of Rome, and registered during any quarter, are required to be forwarded quarterly by the person who registers the same (through the Roman Catholic Bishop of the Diocese or Vicariate in which such marriages shall be solemnized), to the Chief Secretary to Government.

3. By Section 31, Clergymen of the Church of Scotland are required to forward, in the form prescribed in the third schedule of the Act, the returns of marriages solemnized by them during any quarter, to the Senior Chaplain of the Church of Scotland, who will forward them to Government as at present through the Registrar of the Diocese.

4. A form of marriage return is given in the third schedule of the Act. It is optional with the Roman Catholic Bishops to adopt this form or any other; but they should invariably use the same of the Church in which each marriage was respectively celebrated.

5. The persons who are required to forward the returns of marriages specified in the four preceding rules to Government are—

- (a.) The Registrar of the Archdiocese.
- (b.) The Right Reverend the Vicar Apostolic in the Madras Presidency.
- (c.) The Very Reverend the Vicar-General of Saint Thomas.
- (d.) The Senior Chaplain of the Church of Scotland, through the Registrar of the Diocese.

6. Returns of marriages between Native Christians are not required by Government. These marriages, under Section 37 of the Act, must be registered in a separate register book in the form given in the fourth schedule of the Act. When certificates of such marriages are given, they should also be in the form given in schedule 4. The headings of the register book should be in the language of the district in which the register is kept, but so much of it as has to be filled in by the hand of the person performing the ceremony, must be in his own vernacular language. This book, when filled, must be dealt with as directed by this section. Under Section 37 of the Act, true extracts from this register book shall be deposited on the 31st December of each year as follows:—By Clergymen of the Church of England in the office of the Registrar of the Archdiocese, and by the other Clergymen named above in the office of the Senior Marriage Registrar for the town of Madras. ECCLESIASTICAL DEPARTMENT.

Fort St. George, 15th March 1874.

Rules for submission of Quarterly Returns of Baptisms and Burials of European Christians.

The Governor in Council having, under the Indian Christian Marriage Act of 1872, prescribed Rules for the submission of Returns of Marriages, deems it desirable to issue the following Rules for the submission of Quarterly Returns of Baptisms and Burials of European Christians.

1. In addition to the Quarterly Marriage Returns required under the Indian Christian Marriage Act, 1872, the Government require the submission, for statistical and other purposes, of Quarterly Returns of Baptisms and Burials of European Christians, i. e. of "all Christians of European birth or descent, or of mixed European and Native descent," in the forms specified in Appendices A to C.
2. The Registrar of the Diocese is not called upon to use the certificate of correctness of the Returns as each Clergyman certifies to their correctness at the foot of each Return. The Senior Chaplain of the Church of Scotland is also permitted to write the certificate of correctness on the Returns.
3. The Return relating to baptisms and burials for each quarter should be kept distinct and not contain entries which belong to other quarters.
4. These Returns are to include no entries in respect of Native Christians.
5. Whenever there may have been no baptisms or burials recorded during any quarter, a "Certificate of No Occurrence" (see Appendix E) should be forwarded.
6. As the Government desire to possess a record of all deaths of European and Eurasian Christians buried by the laity and not only of those buried by the Clergy, all magisterial officers are required to report every burial by laymen within their several jurisdictions to the resident Chaplain, or to the Chaplain or Minister who visits the station at which the burial has taken place, in order that it may be included in the Returns furnished by him to the Registrar of the Archdeaconry.
7. In cases of burials performed in places not visited by any Chaplain the report should be made to the nearest Clergyman.

* Returns should be forwarded in triplicate to the Superintendent of Stationery.

8. A list of all the stations and out-stations in Madras, showing by what Clergymen the out-stations are visited under the orders of the Lord Bishop of Madras, will be found in Appendix F.

9. For the purpose of registering burials not performed by Clergymen of the Church of England, or by laymen according to the forms of the Church of England, the following Rule will be adopted:—“In every Register Book there should be a separate page or pages, with heading and form disposed from those entries of burials in which at present the Clergyman or layman officiating himself enters and certifies the record of the service which he has performed. In this part of the book the Chaplain shall enter (as a copy) the copy of the certificate transmitted to him by the magisterial officer of the district. In this form there should be added a statement of the place of interment. The Chaplain shall copy these entries and return them with the others in his Quarterly Return certifying the correctness of the copies which he makes.”

10. The reports made by magisterial officers to Chaplains should include the names of all European and Eurasian Christians buried by laymen, whether the funeral service be conducted according to the form of the Church of England or not.

Baptisms by laymen.

11. The same rules are applicable to Baptisms when performed by laymen.

Returns to be forwarded within one month.

Officers who are required to submit Returns.

12. All officers who forward the Quarterly Returns to Government should forward them, if possible, within one month after the close of each quarter.

13. The officers who are required to submit these Quarterly Returns of baptisms, and burials to Government are—

- (1.)—The Registrar of the Diocese, who collects them from (a) Chaplains in the service of Government; (b) Senior Chaplain of the Church of Scotland; (c) Clergymen (not being Covenanted Chaplains) ministering under the Bishop's license.
- (2.)—The Right Reverend the Vicars Apostolic in the Madras Presidency, who collect them from the various Roman Catholic registering officers within the Presidency.
- (3.)—The Very Reverend the Vicar-General of St. Thomas, who collects them in a similar manner.
- (4.)—Ministers of religion licensed to solemnize marriages under the Indian Christian Act, Section 6, and any other Ministers, not included in any of the before-mentioned classes, who perform such offices, as well as Ministers of the Baptist denomination who will furnish registers of births in lieu of Baptisms.

14. Forms of Returns will be issued gratis on application to the Chief Secretary to Government.

By order.

D. F. CARMICHAEL,

Acting Chief Secretary.

2. Every application for a grant must be accompanied by a declaration that the applicant, or applicants, are prepared to subject the institution, on behalf of which the application is made, together with its current accounts, list of establishment, time table, scheme of studies and registers of attendance, to the inspection of a Government Inspector, such inspection and examination relating only to the general management and to the secular instruction and having no reference to any religious instruction which may be imparted.

3. Except in the case of Normal Schools for training teachers, and of female schools, grants will be restricted to those schools, in which a monthly schooling fee, of an amount to be approved by the Director of Public Instruction, and which in general is not to fall below one Anna, is paid by at least three-fourths of the pupils.

[It is not permissible for a teacher to draw a salary grant in one school and at the same time to serve as a Master in another which receives a grant upon the system of payment for results.]—*Order of Government, 2nd December 1868, No. 418.*

4. It will be opened to Managers of schools, who desire to obtain grants on the results of periodical examinations of the pupils, to submit their schools to examination according to the standards described in Schedule A, appended to this Notification, and to obtain grants at the rates provided for in Schedule B.

5. In other cases, the grants will be made only for specific purposes, and not in the form of contributions in aid of the general expenses of a school; and it will be essential to the payment of the grants, that the proportion which, under the following rules, the Managers are required to contribute for the purposes for which the grants may have been mentioned, shall have been duly paid. Subject to the conditions prescribed in these rules, a grant, not exceeding in amount the sum contributed by the Managers of a school, will be given in aid of the salary of each Schoolmaster, or Schoolmistress, who may have obtained a certificate of qualification from the Director of Public Instruction. A grant, not exceeding one-half of the sum contributed by the Managers of the School, will be given in aid of the salary of each Schoolmaster or Schoolmistress, in regard to whom the Managers may satisfy the Director of Public Instruction, either by the report of a Government Inspector of Schools, or by such other means as the Director of Public Instruction may consider sufficient that the said teacher is fairly qualified to perform the duties which are entrusted, or which it may be proposed to entrust, to him or her; provided that, in such cases, the amount of the grant to be given shall bear a due proportion to the amounts sanctioned to the following rules for teachers holding certificate, and that the exact amount to be assigned in each case shall be determined by the Director of Public Instruction.

6. The following are the specific objects for which, and the conditions upon which, grants will ordinarily be given:—

- 1st.—The payment, in part, of the salaries of Schoolmasters and Mistresses.
- 2nd.—The payment of Normal, and certain other scholarships.
- 3rd.—The provision of books of reference, maps, &c., and, in some cases, of school books.
- 4th.—The establishment and maintenance of school libraries and public libraries.
- 5th.—The erection, purchase, enlargement, or repair of school buildings.
- 6th.—The provision of school furniture.

7. The test to be passed by teachers to entitle them to certificates, shall be of a three-fold character—the first, relating to general education; the second, to theoretical knowledge of school management; and the third, to teaching power, as practically exemplified by teaching a class in the presence of an Inspector of Schools.

Grants to Schoolmasters.—8. The certificates to be awarded to Schoolmasters will be of five grades, and, as regards the general education test, candidates for certificates of the first three grades will be required to have passed one of the Madras University Examinations according to the grade of certificate which the candidate may seek to obtain, viz:—

For the 1st grade, the examination for the degree of B. A.

For the 2nd grade, the first examination in Arts.

For the 3rd grade, the Matriculation examination.

9. The general education tests for the 4th and 5th grades of Schoolmasters will be those specified in Schedule C.

10. A certificate of the 1st grade will render the holder eligible to such grant, not exceeding the amount contributed by the Managers of the school in which he is employed, as the Director of Public Instruction, with the sanction of Government, may determine, due regard being had to the amount of funds available for expenditure on grants-in-aid. Certificates of the other grades will render the holders eligible to the following grants, provided that the amount of the grant shall not exceed the amount contributed by the Managers of the school, and that it shall be competent to the Director of Public Instruction to assign a grant lower than the maximum, with reference to the manner in which the candidate may have acquitted himself in the certificate examination.

A certificate of the 2nd grade to a monthly grant not exceeding Rupees... 75

Do. of the 3rd grade do. do. 50

Do. of the 4th grade do. do. 25

Do. of the 5th grade do. do. 10

[A Pandit holding a certificate of the 5th grade will be eligible to a half salary grant of Rupees 15 per mensem when employed in teaching students of the 1st Arts Class, and to a half salary grant of Rupees 25 per mensem when engaged in instructing those who are preparing for the B. A. degree.]—*Order of Government, 29th April 1865, No. 163.*

Ordinarily, the maximum grant will not be assigned to a teacher on being first employed in that capacity.

11. In the case of Masters employed in schools intended mainly for European or East Indian pupils, the examination for certificates of the 4th and 5th grades may be conducted in English, and in such cases the language test for the 5th grade shall be that which is prescribed in the Schedule as the English test for the 4th grade.

12. Graduates of Universities, in Europe, America and Australia, and of other Indian Universities, and holders of certificates granted by the Councils of Education in England or Ireland will be placed in such grades as, in the judgment of the Director of Public Instruction, their attainments and other qualifications may render appropriate.

Grants to Schoolmistresses.—13. Certificates for Schoolmistresses will be of three grades.

A certificate of the first grade will render the holder eligible to such grant not exceeding the amount contributed by the Managers of the school in which she is employed, as the Director of Public Instruction, with the sanction of Government, may determine, due regard being had to the amount of funds available for expenditure on grants-in-aid. Certificates of the other grades will render the holders eligible to the following grants, provided that the amount of the grant shall not exceed the amount contributed by the Managers of the school, and that it shall be competent to the Director of Public Instruction to assign a grant lower than the maximum, with reference to the manner in which the candidate may have acquitted herself in the certificate examination.

A certificate of the 2nd grade, to a monthly grant not exceeding Rupees 25

Do. of the 3rd grade do. do. 10

Schoolmistresses holding certificates from the Councils of Education in England or Ireland, will be placed in the 1st grade, and will be assigned such grants as the Director of Public Instruction may deem proper.

14. The general education tests for all grades of schoolmistresses will be those specified in Schedule D.

[Generally a teacher will not be eligible for a grant unless he or she spends at least four hours per diem in secular class-teaching or examining.]—*Order of Government, 29th March 1865, No. 28.*

15. The examination of Schoolmasters, candidates for certificates of the first three grades in the theory of school management, and the examination of all other candidates in all their subjects, will be held once a year in July, or at such other time as may be hereafter appointed.

16. All grants-in-aid of the salaries of Schoolmasters and Mistresses will be paid monthly. Their continuance will depend in each case upon the Annual Report of the Inspector of the Division, that the school or class under the Master's or Mistress's charge has been satisfactorily conducted during the previous year.

17. Grants made to elementary schools on the results of periodical examinations of the pupils, as provided for in Schedules A and B, will be paid annually, half-yearly or quarterly, as the Director of Public Instruction may decide in communication with the Managers of the school, provided that the amount to be given for a single year shall not exceed the rates entered in Schedule B.

18. Scholarship grants will be issued to well organized Normal schools conducted by certificated teachers; each application will be disposed of on its merits.

19. Besides the scholarship grants abovementioned, a certain number of scholarships will be given each year upon the results of the University Matriculation Examination. These will be tenable for three years, under conditions to be laid down by the Director of Public Instruction, at such colleges, or schools as may be so organized as to allow of the holders being educated up to the standard of the B. A. Examination.

20. Grants for the provision of books of reference, maps, &c., for schools, will be made on the following terms:—

In the case of a school in which the Head Master, or one of the Assistant Masters, may hold a certificate of the 1st grade, at the rate of 10 Annas per head of the average attendance during the preceding quarter.

(a)—A grant will be made to every school favorably reported on by the Inspector at rates not exceeding those noted in the margin provided that a sum equal to the amount of the grant be contributed for the same purpose by the Managers of the school.

In the case of a school in which the Head Master, or one of the Assistant Masters, may hold a certificate of the 2nd or 3rd grade, at the rate of 8 Annas per head of the average attendance during the preceding quarter.

(b)—No further application for a grant of books of reference, maps, &c., will be complied with for a period of five years from the date of the previous grant.

In the case of a school in which the Head Master, or one of the Assistant Masters, may hold a certificate of the 4th or 5th grade, at the rate of 6 Annas per head of the average attendance during the preceding quarter.

(c)—After the lapse of five years from the date of the last grant, a renewal grant will be made at rates not exceeding those noted above and with the proviso already laid down.

(d)—Grants for the provision of books of reference, maps, &c., will be made in money. Applications for such grants must be accompanied by a list of the books required; and on the Director of Public Instruction satisfying himself of the propriety of complying with the application, prospective sanction will be given for the issue of the grant, which will be paid on the Government Inspector reporting that the articles have been procured and are ready for use.

21. A grant for the provision of school books will be issued to *bona fide* pauper schools at a rate not exceeding 8 Annas a head upon the average attendance of the preceding three months, the Managers of the schools contributing in every case an equal amount. After the expiration of three years, a renewal grant will be issued upon the same terms.

22. Grants will be made in aid of schools and public libraries, to such extent as may seem fitting in each case, and subject to the condition that an equal sum shall be contributed by the Managers.

23. Grants will be made towards the erection, purchase, repair or enlargement of a school-building on the following conditions:—

1st.—That in each case an equal sum shall be contributed by the Managers of the school for the same purpose.

2nd.—That satisfactory evidence shall be adduced of the necessity for the erection, purchase, repair or enlargement, in aid of which the grant is sought.

3rd.—That the amount applied for shall not exceed what may be considered reasonable, taking into account the Budget provision for the year, the importance of the school, and any previous grants which may have been issued to the Managers of the Institution.

4th.—That the application (which should be submitted before the commencement of the undertaking) shall be accompanied by a plan and estimate of the cost of the building proposed to be erected, purchased or enlarged. The plan and estimate to be retained in the Director's Office.

5A.—That previous to the disbursement of the grant, it shall be certified by the Inspector of the Division, or other responsible Officer who may have been deputed to examine the building, that the work has been proceeded with, as provided for in the plan and estimate previously sanctioned by the Director of Public Instruction. Also, that, before disbursement, the Managers of the school shall declare that they have funds on hand sufficient, when supplemented by the grant, to clear off all the debts incurred in the execution of the work.

6A.—That in the event of any building, towards the erection, purchase, or enlargement of which a grant may have been made by Government, being diverted, prior to the lapse of twenty years from the date of issue of the grant, to other than educational purposes, the Manager at the time of the diversion shall refund to Government such portion of the grant as shall be determined by Arbitrators, who, in making their award, shall take into consideration the length of time the building has been used as a school-house and its consequent deterioration; but in the event of such Managers failing to make such refund, then they shall sell the building to Government at a valuation to be determined by Arbitrators, who, in making their award, shall deduct from the price such portion of the grant as may seem equitable, regard being had to the length of time the building has been used as a school-house and its consequent deterioration.

7A.—That the Arbitrators referred to in the last preceding rule shall be three in number, one of whom shall be nominated by Government, another by the Managers of the school, and the third by the two Arbitrators so appointed; and, in case of the Arbitrators differing in opinion, the award of the majority shall be binding and conclusive on all parties.

24. Grants for the provision of school furniture will be made once in five years, on condition that the Managers of the school shall contribute in equal sum for the same purpose, and that, in the event of the school being permanently closed within five years from the date on which the grant may have been made, the Government shall be at liberty to purchase the furniture, towards the supply of which the grant was given at a valuation to be determined, as in the case of school buildings, by Arbitrators, credit being taken in each case for the amount of the grant, allowing for depreciation due to wear and tear. All applications for grants must be accompanied by a list of the furniture required. A furniture grant will be paid on the Director of Public Instruction being satisfied that furniture to the full amount proposed to be expended, including both local contributions and the Government grant, has been made up and placed in the school.

25. Application for grants-in-aid of Industrial Schools, for the rent of school houses, the wages of school servants, the contingent charges of schools, school prizes, and for other purposes not provided for in this Notification, will be disposed of on their merits, each case being determined, as far as possible, by the analogy of the foregoing rules.

4th do.	3	1	3	1 $\frac{1}{2}$	1 $\frac{1}{2}$	10	3	1 $\frac{1}{2}$	6

(a) For English and Eurasian children, the English language may be taken as the Vernacular; and, in the place of English as an extra language, one of the Vernaculars of the Presidency—Tamil, Telugu, Canarese, Malayalam and Hindoostanee—may be brought up.

(b) The modified rule appears at the end.

Only one examination, within an official year will be claimable by a school; but, to meet the case of indigenous schools, half-yearly examinations will, when practicable, be given to such schools, and half the prescribed annual grants will be issued upon the results of each examination.

2. To be eligible for examination, a pupil must have attended six months at the school in which he is reading; and, to count a month's attendance, a pupil must have attended at least 15 days in that month.

3. A pupil is not to be presented for examination under any standard who has already passed for that standard at another school.

4. Where the inspection of a school is made annually, a pupil will not be allowed to pass more than once under any standard, save the fourth or highest. For the fourth, a pupil will be permitted to pass twice at the same school.

5. Where the inspection of a school is made half-yearly, a pupil may pass twice for each of the first, second and third standards, and four times for the fourth standard.

6. In the case of half-yearly examinations, the first may be made somewhat less severe than the second.

7. An application in the annexed Form (C) must be made to the Inspector of the Division by the Managers of a school seeking aid under the system of payment for results; and, at the same time, a copy of the application must be forwarded by them to the Office of the Director of Public Instruction. An application, for inspection, under the system, must reach the Inspector at least three months before, in the course of his ordinary tour, he will visit the district in which the school is situated. If this condition is not fulfilled, the Inspector will be at liberty, should his arrangements render it decidedly inconvenient for him to visit the school, to let the application stand over till the following year's tour. In this case, the Inspector is to send a memorandum of the course pursued by him to the Managers of the school, and a copy of the same to the Office of the Director of Public Instruction.

8. When the preliminary conditions are fulfilled, the Inspector will examine the children presented to him according to the standard specified by the Managers of the school. After examination he will furnish the Managers with a memorandum showing the pupils examined and passed under each standard, and the grant claimable in consequence. This memorandum is to be submitted to the Director of Public Instruction by the Managers, with an application, requesting that the sum stated by the Inspector to be claimable may be paid to them. On receiving the application and memorandum, the Director of Public Instruction will take immediate steps to pay the money.

9. Schools receiving aid under the salary-grant system cannot claim assistance under the "payment for results" system and *vice versa*.

10. All schools receiving aid under the system of "payment for results" will be similarly to schools under the salary grant system, have to furnish such returns and statements as may be called for by Government.

11. To pass at an annual examination for any head belonging to a standard, a pupil must occupy one-half of the marks assigned by the Inspector to that head. The Inspector is at liberty, however, to allow a small deficiency under one head to be compensated for by superior proficiency under another.

The following is the new form of the Scholarship Rules as proposed by the Sub-Committee of August 1871 and amended and adopted by the General Committee, November 9th, 1871.

Scholarship Rules.

The Committee of the Doveton Protestant College with the view of encouraging and aiding students to prepare for and to join the degree of Bachelor of Arts in the University of Madras, resolve to confer scholarships on pupils who have passed the entrance examination of the University and who shall promise to pursue their studies for four years thereafter in the Doveton College.

The following are the Rules, in accordance with which the scholarships shall be given and held.

1. That four scholarships shall be given each year to the students who are commencing their collegiate course, and that each of these scholarships shall be tenable for four years under the rules hereinafter laid down.

2. That two of the scholarships shall be given to Christian pupils who have matriculated from the Doveton Institution according to the order in which they may have passed the University Matriculation Examination provided they also attain to a certain fixed standard in scriptural knowledge, and produce satisfactory evidence of moral character.

3. That the two remaining scholarships shall be given to Christian pupils coming from other Institutions on the same terms, provided such pupils hold higher places at the University Matriculation Examination than Doveton students excluding those holding scholarships.

4. That the scholarships shall be Rupees 10 each per mensem during the first and second years of the College course, and Rs. 20 or 15 per mensem during the third and fourth years of the said course according as the holder shall be placed in the First or Second Class at the First Examination in Arts.

5. That should the holder of a scholarship fail to pass the First Examination in Arts at the end of his second year, the scholarship held by him shall lapse; should such holder of a scholarship, however, pass the First Examination in Arts from the Doveton College in a subsequent year, the Committee may at their discretion grant him a scholarship during the third and fourth years of his course.

6. That unauthorized absence, continued absence for three months from whatever cause or misconduct shall involve forfeiture of scholarship, and that a scholarship thus forfeited shall be available for other students in the same year of the course according to the principles laid down in these Rules.

7. That scholarships not conferred by the Doveton Protestant College shall be held on such conditions as may be prescribed by their founders, subject, however, to the provisions laid down in these Rules.

8. That the scholarships shall cease or be liable to diminution, if the state of the funds render such a course necessary, and that these Rules may be altered by the Committee on sufficient grounds.

9. That the Committee reserves to itself the right of withholding one or more of the scholarships if it deems fit.

The first grant of land for a garden was in 1796. Its existence is owing in great part to the exertions of the late Dr. Wight, formerly a Surgeon in the Madras Army, and whose valuable contributions to Botanical Science have gained for him a widely-spread and well-earned celebrity.

The gardens are situated opposite to the chief entrance to the Cathedral, and an additional piece of ground on the east of the Cathedral was purchased in the year 1856-57. The garden occupies a space of about 71 acres, which were originally granted by the local Government. Part is laid out as a landscape garden and much increased of late in space, with the additions of a number of new and rare plants, especially in tropical palms and Australian trees; the whole forming a splendid collection, gathered from various parts of the world, and is constantly being increased by exchanges and purchases. It is open at all times to the public, and forms a healthful place of recreation for the inhabitants of Madras.

A nursery for seedlings and cuttings of useful and ornamental trees, is maintained to meet the requirements of the Members who are supplied from it gratis. European vegetable and flower seeds are also similarly distributed; but all these advantages are open to the general public on payment.

Most of the plants are labelled with their botanical names and the natural order to which they belong. The number each holds in the Catalogue is also given, so that those who may wish to obtain the botanical history of the plant, can do so immediately by referring to the page of the Treasury of Botany given in the Catalogue. Pressed specimens of each plant with flower and seed will be added also a figure of the plant, so that those who may wish to acquire a practical knowledge of Botany will have every facility of doing so.

There is also a Botanical Library attached, to which access can be had by application to the Superintendent by Subscribers.

The general affairs of the Society are managed by the Committee who meet on the 1st Wednesday at 6½ a.m. in each month, and compile annually, in the month of March, a Report of the year's Proceedings which is submitted to a General Meeting of the Subscribers at large. Publicity is also given to the Proceedings of each Meeting of the Committee in the Newspapers; and they are afterwards published and distributed to Members.

Persons of all nations are eligible as Members of the Society, and have a voice in the annual election of the Committee and Office-bearers.

The rate of subscription is 7 Rupees a quarter; no entrance fee being demanded, and the subscription being allowed to lapse, temporarily, should a Member be absent from Madras.

Up-country Subscribers are entitled to all the advantages of Members, which it is possible to place at their disposal.

An annual show is held about the end of February, when a large number of prizes are awarded for flowers, fruits, vegetables, and several articles of importance in connection with botanical science. The Society has also made arrangements to award prizes for tea, coffee, &c.

Lists of the prizes to be distributed, and all information may be obtained on application to the Honorary Secretary or Superintendent, by whom lists of Members, Rules of the Society, &c., will be supplied gratis.

it shall be competent for the Committee of Management from time to time to modify this Rule, and to determine what rate of fees shall be paid generally, or by any Society or party specially, provided however the Rule shall not be altered unless two-thirds of the Members of Committee concur in the change.

X. That subject to the approval of the Committee of Management in each case, the Hall shall be available for Religious, Educational, Charitable and Scientific purposes, and for such other objects, not being included under the above terms, as may be pronounced by the Committee of Management to be not inconsistent with the design of its erection, viz., to the Glory of God, and as a memorial of his goodness in exempting this Presidency from the Mutiny of 1857. Provided nevertheless that it be distinctly understood, that among the objects left to the discretion of the Committee of Management are not included balls, concerts, theatrical exhibitions and such like entertainments as have the character of mere worldly amusements.

EXECUTIVE COMMITTEE.

 T. Ramachandra Row, Esq.,
 M. Venkataswamy Naidoo, and
 The 2 Visiting Members for the month,
 ex-officio.

The Executive Committee sits once a month for the audit of accounts and the transaction of business.

The MONEGAR CHOULTRY is an Institution which affords shelter, food and raiment for the Native poor, lame, halt and blind of Madras, without reference to caste. It was founded in the year 1803, and why named as above cannot now be ascertained. The Institution is supported by public contributions aided largely by the Government. The management is placed under the supervision of a Committee selected annually by Government, from amongst the European and Native gentlemen of Madras.

In its early days, large contributions were made by Lord William Bentinck, Colonel Maruz, Mr. D'Monte and Pollum Arnachellum Chetty. The nature of the Institution having been explained to His Highness the Nabob of the Carnatic, he munificently agreed to subscribe 300 Pagodas a year, which sum is still continued.

In 1863, Sir Stafford Northcote kindly remitted a sum of money through Lord Napier to be distributed amongst the Charitable Institutions at Madras. His Lordship kindly sent the sum of 1,000 Rupees to the Directors. Two wards, Male and Female, have been furnished with bedding for 25 Patients, and are called "NORTHCOTE SURGICAL AND MEDICAL WARDS."

The late Doctor Wyllie, C.B., of the Madras Medical Establishment, bequeathed the sum of 18,025 Rupees for the poor of this Institution.

Lord Napier has kindly furnished bedding for 12 Patients, which is called the "NAPIER WARD." His Lordship, with the Honorable R. S. Ellis, has also undertaken liberally to build a School, which is now completed to educate the Foundlings, the children of the Paupers in the Institution, and the poorer children in and about the neighbourhood.

The Honorable Gajapathi Rao has kindly contributed 1,000 Rupees, which was applied for furnishing a Ward for 8 Patients, and which Ward has been designated as that of the family of "SEREE GODAYS." This contribution is in addition to 400 Rupees annually granted by this charitable Native gentleman.

The Maharajah of Vizianagram has also lately very liberally placed the sum of 10,000 Rupees at the disposal of the Directors for the erection of a Ward, for Bed-ridden Paupers. The Ward is now completed and will contain about 20 Beds and designated after the name of the Maharajah.

The Zemindar of Kalahstry very kindly sent a donation of 2,500 Rupees after visiting the Institution, as indicative of his satisfaction and good-will towards the charity.

The new buildings in the Choultry are now completed, viz., 3 blocks; 2 blocks are to contain 25 Paupers each, and the other 30 Paupers. The improvements are now complete.

The Choultry is undergoing great improvements. The old Alms House has been pulled down, and three new buildings in separate blocks have been completed.

The block to accommodate 25 Paupers is already finished. The Native Infirmary attached to the Choultry has also undergone great improvements. Several of the old buildings were removed, and three new blocks have been erected. Two other blocks have been built by Government on the north-west of the Infirmary, for the reception and treatment of contagious diseases. By the above improvements and additions, the Infirmary can now accommodate 100 Patients, and the Contagious Ward 20. The Native Infirmary is undergoing further improvements. Mr. D. Sassoon of Bombay has kindly through Lord Napier given 4,000 Rupees for the Institution, out of the sum it is proposed to build an Operating-room and Surgery over the present Surgery. This building is now completed.

In the year 1867 the Venkatagerry Rajah built a Choultry to the east of the Monegar, which cost about 9,400 Rs. in which 70 Paupers are fed daily and clothed, besides 108 out-door poor receive 2 olocks of Raw-rice per diem. The Rajah contributes annually Rupees 5,000 to meet the expenses of this branch of his charity. The Rajah has forwarded to the Directors the sum of one lac, the most of which is to support this Institution.

PEOPLE'S PARK.

INSTITUTED IN 1859.

GESTODIANS—MUNICIPAL COMMISSIONERS FOR THE TOWN OF MADRAS.

Mr. James Hay Ellis, Superintendent.

We owe the People's Park to Sir Charles Trevelyan. It is not at all improbable that the idea of some such place suggested itself to many a man in power before his day. It would be singular indeed if Europeans should, for a hundred years, have seen a large native town growing up on the site of a small village—a vast population massing together with lungs to be fed with fresh air and limbs to be allured to exercise and health—without sometimes thinking it possible that the "village greens," "commons," and "parks" of his native land might perhaps be re-produced with advantage within reach of Black Town. The monotony of Indian life, and the lack of sympathy between the classes of Indian society, may be regarded as the causes why such an idea, if suggested, was never carried into execution. While the "upper ten thousand" could have their drive along the beach and round the island, it mattered little to them that the "masses" (unfriendly phrase) who could not drive, or were to be stimulated to recreation, had no place convenient for health, exercise and amusement.

But then Sir Charles Trevelyan was a man not given to routine; and somewhat wide in his sympathy. So the idea of the people's want suggesting itself to him and he having the power as well as the will—the people got their Park. Thousands who know nothing of the step that cost him a Governorship, will hold his name in memory by the People's Park.

But when Sir Charles was re-called, the scheme was in a most elementary state. The plan was on paper; but never adopted. Little else was done; and little else would have been done if the inheritors of Sir Charles Trevelyan's dignity had not also inherited his sympathy with the people. We owe it to the various gentlemen who have been entrusted with the execution of the scheme, that the "plan" was not thrown into the official waste paper basket, and the idea, recorded as one of Sir Charles' amiable follies. It is in unison with Sir William Denison's career, previous to his arrival in this country that he should have shown a hearty approval of an undertaking so intimately connected with the health and pleasure of the middle class population.

There can be no doubt that the Park has been a success. Any one may convince himself of that by a visit morning or evening. The place has already fixed its character as a popular resort, and it is certain that it will be so in a much greater degree when the attractions of the ground are fully developed. It is pleasing to see that the native population appreciate the pleasure provided for them, and when the sternness of social life amongst them is relaxed, we may expect to see not only the Ramaswamis, but the Lutchmies of Black Town taking their ease in the fretted shade of well-grown trees.

But we must suspend any further remarks, and lay before our readers a brief description of the Park.

The gate adjacent to the Hospital Bridge is the main entrance. The trees are planted in avenues and groups. Twelve lakes of various dimensions and shapes are completed; and various other things have been achieved; but we cannot do better than print the following description (though brief) of the Park, kindly furnished by the Superintendent, which will convey a clear idea of the Park.

In the North-west angle of the Park is a Serpentine lake with two large raised islands one at each end. One of these is 30 feet above the water, and is well-calculated for a large basin, from which cascades might hereafter be made to fall over the sides. The second or Victoria lake, with a central island, is situated almost midway between the Band-stand and the northern end of the Park. The island is approached by one bridge of ornamental design, measuring 200 x 4½ feet. The third is a small lake on the west side, elliptical in shape, and contains good drinking water for cattle. The fourth is a small lake close to the Aviary. The fifth a similar one. The sixth is a semi-lunar lake near the Band-stand, with a gravel walk around it. The seventh is a medium lake, between the Band-stand and the Superintendent's house. The eighth is an irregularly shaped lake, with a central island and two small rustic bridges on each side of the main road, and trees of various sorts have been planted. The ninth is a large lake on the west side of the main road. The tenth is a medium lake west of the last-mentioned. The eleventh is a medium lake, with a central island at the south end.

There are two masonry basins, one elliptical, measuring 120 feet $\times$ 75 feet, and 44 feet in depth, formed of solid masonry with brick-on-edged foundation and central fountain; the latter, of ornamental design, galvanized. This has recently been surrounded by an iron fence and converted into a public bath, the floor of one-half of it has been raised so as to give a depth of about 1 foot adapted for the use of boys--the other half has a uniform depth of 5 to 6 feet. It is supplied with Red Hills lake-water from the public main road, and good dressing rooms have been built round it for the bathers. The roads of the Park, embracing 54 miles, are complete.

The sheds for Zoological specimens are as follows:—

A large shed with four cages contains 2 Tigers, 3 Cheetahs, a Lion and Lioness. The Committee and the Public are much indebted to Colonel Carpendale and Wilkieson; also to Dr. Mudge, the late Honorary Secretary, for the addition of the two last popular and attractive specimens of Natural History. Dr. Mudge, while on sick leave to England, succeeded in effecting an exchange with the Clifton Zoological Society for Tiger Cubs.

The Tiger Cubs were provided by Sir William Denison and Hon. J. D. Sim, &c. The Zoological collection in the Park consists of the following specimens:—2 Black Bears, 1 Kangaroo Rat, Guinea Pig, 2 Black Panthers, 1 Nyghan, 5 Spotted Deer, 6 Elks, 1 Emen, 4 Black Swans, 4 Cynceis, 18 Monkeys of different species, 1 Wild Dog from Burmah, 1 Porcupine, 3 Muskies, 1 Rhinoceros, 2 Striped Hyenas, and a variety of Rabbits.

The Aviary contains a great variety of handsome Ornithological specimens, too numerous to detail here.

The area of the Park is 88 cawnies or 116 English acres. It is, in some measure, self-supporting, and will be almost so in time. The principal source of revenue just now is the hay, which is cultivated with much success, and obtains ready sale at Rupees 50, 1st Class, and Rs. 35, 2nd Class, per ton.

Newly-built Sheds.

1 Shed for Lions, 1 Shed for Elephants, 2 Galvanized Aviaries from Europe. Additions to the Zoological specimens are as follows:—

1 Elephant, 1 male Emen, 2 Black Bears, 2 Cheetahs, 1 Hog Deer, 1 half-bred between the Hog Deer and Spotted Deer, 3 Spotted Deer, 1 Black Panther.

All the hay sold this year, 50 Rupees per ton.

Two new Europe Aviaries covered in.

A new Shed and enclosure built for Abyssinian Goats and Gazelles, presented to the People's Park by Major B. F. Heysham.

A new Bat-house built.

A new Shed and enclosure built for the small breeds of Zebu cattle.

The following buildings were completed during the year. One for Bears, one for Deer, two for the Lions, two for Birds, and a large shed is now completed for Cattle, Poultry and Game of all kinds, which latter will be sold to the Public. The Park has had many new Lamps put up, which are now lit with Kerosene oil.

A large building has been built on the west side of the Park for milking cows and calves and working cattle with store rooms, and calf pens attached.

Through the instrumentality of the President of the Municipal Commission, channels have been cut, tanks deepened, and tanks connected with each other to preserve all the rain water; and the surplus of water from the Shoolay tank and Sydenham road are brought into the Park, which gives water to a very large number of native families, and that gratis.

Increase of various Animals.

Of the young Lions that were born in the Park on the 25th September 1883, the male Lion lost his tail; it was bitten off by the Tiger; they are growing and doing well. The Lioness cubbed the second time on the 19th of August 1884, three were born dead and one alive, all four are now dead. The Cheetahs are all breeding freely.

Free Visitors to the Animals of the Park without fee.

Colonel McMaster presented to the Park one Sun Bear, 1 Hog-Deer, one Wild Dog, and a number of other animals and birds.

Major B. F. Heysham presented two Abyssinian Goats and two Gazelles. Nulathem Shunmoogaraya Moodalliar presented a pair of large working Bullocks. Cavatee Nugguram, Zemindar, presented two young Tigers, one Lynx and one Morphoid Sheep.

Increase of Stock.

One large Sarus Crane, four Australian Black Swans, two White Swans from Europe, brought out by Dr. Shortt, two Australian Ducks, one Cockatoo, Peas and Jungle Fowls, a number of other birds, one Nyghan, two Aden Monkeys, two Porcelain Vases for the Bird-stand, three pairs of Malta Pigeons, and one Mowing Machine brought out from Europe.

Increase of Wild Animals.

The Lioness cubbed on the 28th May 1872, 3 young Lionesses were born, both are doing well.

The Black Panther cubbed in August. She has three Cubs, all doing well.

Another Cheetah has two young Cheetahs, born in September, one died, and the other is doing well.

THE NAPIER PARK.

Madras owes so much to the administration of Lord Napier that it is very fitting that some permanent and palpable token of the public approbation of his labors should remain in our midst, at once to stimulate succeeding Governors to walk in Lord Napier's steps, and to remind generations to come of how much the sick, the suffering and the poor must always owe to one who has initiated so great improvements in all our public charities that their effect must long continue—blessing those who are too weak or poor to help themselves. The Napier Park is such a memorial. Its very position is most fitting. Standing midway between Government House and one of the most squabbling quarters of Madras, its beneficent influence will rest upon both. Its site had been for scores of years a pestiferous swamp, covered for months in each year by salt and stagnant water, the overflow of the filthy Cooum. Within was a wretched parcherry, notorious for its liability to epidemic disease, that spread from thence throughout the city. To partially remedy the evil, the Municipality made it a depot for street sweepings, so that in time its level might be raised sufficiently to ensure its being free from water. This while amending one evil created another—placing on the borders of a dense population masses of putrescent matter that could not but be very injurious to both the water and air of the locality. This grew to be such an evil that the Sanitary Commissioner at last put a stop to the discharge of sweepings on the land. It was, however, impossible to build on such a spot and the whole remained a useless, dismal swamp.

At present all is changed. The level has been raised by material dug from ornamental tanks. Trees of useful and beautiful kinds have been planted, and are rapidly growing to their full height. Roads and side-paths have been laid out, and in the midst a band-stand will probably be erected. Parks are things of slow growth, and it must be years before this can be worthy of the name it bears, but it is hoped that before Lord Napier leaves our shores, the whole of the area will be ready for the public—a boon that cannot but greatly influence for good the whole population of Chintadrepettah and Narsingapooram.

The Park contains an area of about 18 cawnies. A great part of this was formerly the property of Government, but was generously given to the town on condition that the Municipality purchased the rest from the native owners. For this purpose the Municipality has expended several thousand rupees, and the total cost previous to the public opening will not be less than twenty thousand Rupees. The river-face

of the Park has already been protected by a simple elegant fence palmyra and laterite, while a new road divides the northern side from Chintadrepettah. The design and laying out the park are the work of Mr. Standish Lee, the Municipal Engineer, who deserves great credit not only for this but also for the economical but yet effectual manner in which the whole work has been performed.

As a last gift, Lord Napier has provided the whole of the funds required for erecting on the west side of the Park a handsome building for a girls' school in the Indian fashion. The cost will not be less than 6,000 Rupees. It is intended to be a purely national girls' school and to lead on through carefully gained experience to some mode of teaching which will embody the best western systems while not departing from Hindu customs any more than may be necessary. It is greatly to be hoped the scheme will prove a benefit to the public while the school shall ornament the Park.

Out-patients are seen every morning between 7 and 9 o'clock.

A class, consisting of a limited number of European and East Indian female pupils for instruction in practical Midwifery, exists at this Institution by permission of Government, European and East Indian Candidates are required to pass through a course of training as Nurses at the General Hospital previous to entry at this Institution. During that period they will be resident in the General Hospital and will receive pay at the rate of 15 Rupees per mensem, and at the end of six months will, if qualified, receive a *Nurse Certificate*.

The pupils are resident in Hospital and are allowed to remain under instruction for a period not exceeding twelve months, when, if found by examination competent to practice as Midwives, they are presented with Certificates of qualification.

Pupils receive an allowance of 15 Rupees per mensem as ration money.

Candidates who are desirous of being instructed both as Nurses and Midwives should furnish, with a written application for admission, a pupil, testimonials of character, and state her age, condition, residence, previous experience in nursing, &c., and whether European or East Indian.

RULES FOR THE ENTERTAINMENT AND INSTRUCTION OF PUPIL MIDWIVES AT THE LYING-IN HOSPITAL.

The following regulations will apply whenever candidates may be admitted, under special circumstances, to the class of Pupil Midwives at the Lying-in Hospital, who have not passed through a preliminary course of training and passed the prescribed examination for Sick Nurses:—

I. The period of residence in hospital shall not be less than 12 months or more than 18 months. If a Pupil be unable to qualify both as a Sick Nurse and as a Midwife at the end of that time, she will be liable to dismissal as incompetent to qualify. The first six months of residence will, as a rule, be devoted by Pupils to the study and practice of Sick Nursing, and the remainder of the time to the study and practice of Midwifery.

II. Candidates should, if married or widows, be not less than 20 or more than 35 years of age, and if single, not under 25 years of age.

III. Candidates must apply for admission to the Superintendent of the Lying-in Hospital on Wednesdays or Fridays, or if by letter, information must be given on the following points:—

Condition.—Whether married, widowed, or single.

Age, &c.—Date of Birth, where born, and present address.

Race.—Whether European, Eurasian, or Native.

State of health—age of youngest child, if any.

IV. European and Eurasian Candidates must possess the following qualifications:—

- Ability to read fluently and explain the meaning of a passage of not less than twenty lines in any standard work.
- Ability to write to dictation a passage of not less than fifteen lines from any standard work.
- Ability to converse freely and describe any common object or occurrence.
- Testimonials of moral character and respectability.

V. The names of candidates who pass a fair examination and are otherwise eligible, will be recorded in a register at the Lying-in Hospital, from which selections will be made, for entertainment as pupils, from time to time, as vacancies occur.

More than three errors will be held to disqualify a candidate for three months, but at the end of that time she may again be examined.

VI. The examination of candidates at Madras will be conducted at the Lying-in Hospital, and, at up-country stations, by the Senior Medical Officer. In the latter case the dictation paper, with report on the other subjects of examination, on her appearance and intelligence, and on the probability of her being able to qualify as a Midwife, will be sent to the Superintendent of the Lying-in Hospital for registration.

VII. A Candidate cannot be entertained as a Pupil Midwife while pregnant or suckling, but her name may be registered for admission to the class at a future time. No child is permitted to reside in the quarters of the Pupil Midwives.

VIII. Pupil Midwives on first joining the class are entitled to "travelling batta" at the rate of one anna per mile from the station at which they were residing previously, and "return batta" at the same rate after passing the prescribed examination.

IX. The Pupils reside in the hospital compound, and will occupy furnished quarters, and be provided with bedding, &c.

X. The entire control of the Pupils is vested in the Superintendent. Disobedience of orders, or of the rules of the institution, and misconduct of any kind will be punished according to the gravity of the offence by extra duty, suspension, or dismissal.

XI. When it appears to the Superintendent that a Pupil, after a fair trial is not likely to qualify as an efficient Nurse, she will be allowed the option of resigning.

XII. The rules regarding the instruction and duties of the Midwifery Pupils shall be also applicable to Nurse Pupils.

XIII. At the expiration of six months, Nurse Pupils will be examined by a Committee of Medical Officers on the Manual for Pupil Nurses and on Practical Nursing.

W. H. HARRIS, M. B.,

Superintendent, Lying-in Hospital.

There is no establishment at this Institution for procuring Wet Nurses. It is expected that the sum of 2 Rupees will be sent with all applications for assistance in obtaining Nurses to cover cost of cooly and carriage hire.

SECRETARY & TREASURER.

Mr. N. Bazely, *Officiating*.

The object of this Association is to make provisions for Widows and Orphans by means of small monthly payments.

Its chief characteristics are:—Mutual assurance—members may reside in any part of the world without involving an increased rate of subscription—members have a vote in framing new or altering old Rules, and in all matters affecting the interests of the Fund—claims paid immediately on proof of death—5 months' grace allowed in paying subscriptions—Funds invested in Government Securities only, in the joint names of the Trustees.

The Fund has worked successfully for the last 40 years. It has hitherto contributed more than thirteen lakhs of Rupees towards the support of Widows and Orphans, and during the last ten years its capital has nearly doubled and is yearly augmenting. It has two branches of operation, the Widows' and the Children's.

WIDOWS' BRANCH.

The following statement exhibits the subscriptions and donations payable by members in this branch of the Fund and the pension to which Widows become entitled by virtue of such payments.

Classes.	Monthly subscription.	ENTRANCE DONATION.			SPECIAL DONATION PAYABLE.		Amount of monthly pension to Widow.
		To secure full pension to Widow.	To secure 5-6th of pension to Widow.	Payable by 48 instalments to secure do. after a lapse of 3 1/4 years.	By Medical, Maritime and Military men and those whose age exceeds 50 years.	By those whose ages range from 45 to 50 years.	
1	2	3	4	5	6	7	8
1st Class	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1st Grade	20	4,000	1,200	480	240	120	120
2nd Grade	14	2,800	840	336	168	84	84
3rd Grade	10	2,000	600	240	120	60	60
2nd Class	7	1,400	420	168	84	42	42
3rd Class	5	1,000	300	120	60	30	30
4th Class	3	600	180	72	36	18	18
5th Class	2	400	120	48	24	12	12
6th Class	1	200	60	24	12	6	6

The payment, in one sum, of the entrance donation shown in columns 3 and 4, secures a pension to the Widow absolutely and certainly, immediately on the death of the husband whenever that may occur; but the payment of the donation by small instalments, as indicated in column 5, defers the title to pension for a period of 40 months, and if the Subscriber meanwhile die, his widow gets no benefit whatever. At any time in the interval, however, a Subscriber may, on production of a medical certificate of health, make up the amount entered in columns 3 or 4, paying the difference between it and his previous aggregate payments. This will entitle his widow to an immediate benefit. Should those who pay the donations, as entered in columns 4 and 5, survive sufficiently long to make their total payments to the Fund, i. e., donation + subscription at the time of their death equal or exceed the amount entered in column 3, then their widows also receive the full rate of pension. The deduction of 1-6th from the widow's pension, is added to her husband's payments until the sum entered in column 3 is made up, when she draws the full amount of pension.

A Subscriber may remove from a lower to higher class, by paying the difference of the donation between the two classes, as entered in column 5, and a bonus equal in amount to 2 years' subscription of the higher class.

N. B.—The two first grades of the 1st Class have not yet been entirely formed, but names are required on the express condition, (1) that neither of the grades shall be considered to have come into operation until 50 Subscribers shall have been admitted into it; and (2) that if a Subscriber admitted to either of these grades dies before it comes into operation, the pension of the 3rd (the present first class) viz., 60 Rupees shall be given to his widow, subject to the Rules of the Fund, and all sums paid by him over and above the amount paid by him to secure that pension, shall be returned to her.

CHILDREN'S BRANCH.

The rate of subscription in this branch ranges from 4 Annas to 16 Rupees, and the donation payable is 12 times the amount of the subscription; exclusive of the special donations on account of age, &c., which are 50 and 25 per cent. of this sum as in the widows' branch, vide columns 7 and 8. The pension to the children is four times the amount of subscription; or when deprived of both parents, six times that sum, provided they be enrolled during the life-time of their mother. Boys receive pensions until the age of 18, girls until 21 or marriage, whichever may first occur. The pensions may be extended to a further period on payment of a special premium.

For further particulars, copies of the Rules, Forms of Application, &c., apply to

ST. PAUL'S CHURCH MISSION,

ESTABLISHED IN 1817.

The present Church was built by the Rev. G. Trevor, and consecrated on the 21st March 1840.

An increase in the Tamil congregation having necessitated the enlargement of the Church in 1864, a Chancel was added with a Vestry, and the Church greatly improved and beautified through the exertions of the then Honorary Secretary, the Rev. S. T. Pettigrew, by whom also the very pretty compound wall was built.

The Mission premises, which are close to the Church, contain a residence for the Native Pastor, as well as School-rooms for boys and girls. The present Pastor, the Rev. G. Lazarus, was appointed in August 1870, in succession to the Rev. J. Eleazer. He is assisted by 3 Catechists; and there are also 3 Schoolmasters and a Schoolmistress attached to the Mission. The former contains about 60 boys and the latter 46 girls. A Girls' Boarding School has been established in connection with the Mission, and is supported entirely by voluntary subscriptions.

The number of Christians in connection with the Mission in Bangalore is 350, for whom the present edifice is not sufficient. It is contemplated therefore to extend the church building by the beginning of the coming year, and the average attendance on Sundays from 200 to 300.

The salary of the Native Pastor in charge of the Mission is provided by the Venerable Society for the Propagation of the Gospel, and the rest of the expenses of the Mission are met by local subscriptions and donations.

Subscriptions and donations will be thankfully received by the following Members of the Committee:—

- Rev. Dr. Pope.
- " J. T. D. Kinn, B.A., Chaplain of Trinity Church.
- " H. PIGOT JAMES, Chaplain of St. Mark's Church, *Honorary Secretary*.
- " T. FOULES, M.A., Chaplain of St. John's Church.
- " G. LAZARUS, S. P. G., Missionary.
- " Dr. J. STRACHAN, M.A., *Secretary*, S. P. G., Madras.

HYDERABAD

Is the capital city of the Nizam's territories and the present seat of His Government. It is situated within 12 miles from the Fort of Golconda, its distance from Calcutta is about 962 miles, from Madras 460, and from Bombay 470 miles. The Nizam's country contains an area of about 80,000 square miles, viz., that part under the sole management of His Highness' Government. Although no census has been taken of the population, yet it is generally computed at ten millions. It is situated having Berar on the north, the Madras Presidency on the south, Bombay on the west, and the Central Provinces on the east. The population of the city of Hyderabad is supposed to be about (four) 4 millions. It is approached by numerous bridges, gates and posterns. The city itself being surrounded by a stone wall, which, however, is in a weak and ruinous state. Great improvements are, however, being effected in the city, by widening the streets in several parts, and sanitary arrangements are being slowly introduced under the present enlightened minister, Sir Salar Jung, B.C.S.I.

The Hill Fort of Golconda was anciently the seat of its Government, and in the Fort, and outside near the Fort, are the far-famed Tombs of Golconda, a series of splendid mausoleums built in Oriental style over the departed Sovereigns and Princes of the Hyderabad dynasty. The Tombs are greatly admired for their extent and beauty.

The Nizam's Government.

The last Highness Afzool-ud-Dowlah Bahadoor, B.C.S.I., was the fifth Nizam or Ruler of the Deccan, who was the descendant in succession from the celebrated Asoph Jah Nizam-Moolk, the "First Nizam," or founder of the Hyderabad Dynasty since the 15th century. Asoph Jah Nizam-ool-Moolk died in 1748.

The late Afzool-ud-Dowlah, the seventh Nizam or Nawab of Hyderabad, departed this life in February 1869, after a reign of twelve years, and has been succeeded by an infant son.

The infant Prince was placed on the Hyderabad Musnud on the 1st March 1869 as H. II. Nabob Meer Myboob Ali Khan Bahadoor shortly after the demise of the late Nizam, Afzool-ud-Dowlah. During the minority of the present Prince, Meer Myboob-Ali Khan Bahadoor, a Regency had been appointed to conduct the affairs of the Hyderabad Government.

Nabob Mooktar-ool-Moolk Sir Salar Jung Bahadoor, B.C.S.I., Minister.

The re-constitution of the Government of the Nizam, during the minority of the present Prince, is one proof of the Minister's administrative ability and sound judgment, for which advantages this country will be indebted, and the benefit thereof will be fully appreciated in due course of time.

It is surrounded by a stone ditch and earthen parapets flanked by five batteries. Besides there are an Arsenal (removed from Secunderabad), two Magazines, Commissariat Store Houses, a Bakery, and a good supply of water. To the north of Trimulgherry, and near Bolarum, double-storied barracks are in course of erection for the one Regiment of European Cavalry of the Hyderabad Subsidiary Force.

The Head Quarters of the 16th (Queen Lancers) will it is expected move into the splendid building that have been erected, and are in course of erection at north Trimulgherry, before this note is printed, three Troops of the Lancers having been, for several months, located in the new barracks, north Trimulgherry; and the remainder of the Regiment will be removed as soon as the blocks under construction are finished. This Library is well provided with Standard Works in every department of literature and science.

The most useful and popular Books of the day in every subject are procured upon publication.

A Reading Room is part of the Institution, and in it are nearly all the Magazines and principal Newspapers as well as a letter box for the convenience of Subscribers in posting their letters.

The Subscription is 3 Rupees 8 Annas a month, and an entrance fee of 1 Rupee paid once for all is required. A large and handsome building was erected in 1868.

The Committee have incurred a considerable debt in order to finish this building.

The benefit of this Institution is fully appreciated by both the permanent residents in Ootacamund and visitors from all parts of India.

Archdeacon J. Gorton, M. A.,	B. J. Firth, Esq., <i>Secretary.</i>

Mr. Win. Thomas, *Superintendent of the Printing Press, Madras.*

The objects contemplated in the Establishment of this Institution are two-fold—first, to do honor to the memory of a great and good man, the late Sir Henry M. Lawrence, K. C. B.; second, "to benefit the children of the European soldiery, by providing for them a refuge, both from the debilitating effects of a tropical climate and the demoralizing influence of a Barracklife."

The amalgamation of the Madras Military Male Orphan Asylum with the Ootacamund Lawrence Asylum was effected in August last, on the completion of the new Buildings at Lovedale.

The number at present on the rolls are, boys 330 and girls 63.

The salubrity of the situation (which surpasses that of some of the healthiest public schools in England) is shown by the diminished percentage of sick in Hospital, and the robust appearance and healthy appetite of the children.

Although the Institution may be said to have been adopted by the State, it is not perhaps so generally known that Government has never contemplated doing more than furnishing it with a liberal *Grant-in-aid*. Contributions are earnestly requested that the benefit of the Asylum may be more widely extended to a class which has one of the strongest claims on British Subjects in India. Four years' annual subscription of Rupees 50, or a donation of Rupees 300, gives a title to nominate a child.

The boys receive such a training as will fit them for usefulness hereafter in various lines of life, whilst the girls are employed in such occupations as will tend to qualify them to become useful wives and mothers, should they be spared. The clothing and most of the in-door work in both branches is done by the children, and native servants are dispensed with as much as possible.

Contributions to the support of the Institution will be received by Messrs. Arbuthnot and Co., Madras, or the Bank of Madras, Ootacamund.

ANYWHERE WITH JESUS.

Matt. viii. 19.

ANYWHERE with Jesus, says the Christian heart;
Let Him take me where He will, so we do not part;
Always sitting at His feet, there's no cause for tears;
Anywhere with Jesus in this vale of tears.

Anywhere with Jesus, though He leadeth me
Where the path is rough and long, where the dangers
be;
Though He taketh from me all I love below,
Anywhere with Jesus will I gladly go.

Anywhere with Jesus, in the summer heat,
Anywhere with Jesus, through the winter sleet;
Anywhere with Jesus, where the bright sun shines,
Anywhere with Jesus, when the day declines.

Anywhere with Jesus, though He please to bring
Into fires the fiercest, into suffering;
Though He bid me work or wait, or only bear for Him,
Anywhere with Jesus, still shall be my hymn.

Anywhere with Jesus, though it be the tomb,
With its frightening terror, with its dreaded gloom,
Though it be the weariness of a long-drawn life,
Fainting with the constant toll, drooping in the strife.

Anywhere with Jesus, for it cannot be
Dreary, dark, or desolate, where He is with me;
He will love me away, every need supply,
Anywhere with Jesus, should I live or die.

—Christian Remembrancer.

56. Provided that this Act shall not authorize the transfer or payment of any such proceeds as aforesaid, pending any suit heretofore or hereafter instituted in respect thereof.

63. If any claim be hereafter made to any part of the securities, moneys, or proceeds carried to the account and credit of the Government of India under the provisions of this Act, and if such claim be established to the satisfaction of the Controller-General or the Accountant-General to the Government of Fort St. George or Bombay, as the case may be, the Government of India shall pay to the claimant the amount of the principal so carried to its account and credit or so much thereof as appears to be due to the claimant.

If the claim be not established to the satisfaction of the said Controller-General or Accountant-General, as the case may be, the claimant may apply by petition to the High Court at the Presidency town against the Secretary of State for India, and, after taking evidence either orally or on affidavit in a summary way as the Court thinks fit, the Court shall make such order on the petition for the payment of such portion of the said principal sum as justice requires, and such order shall be binding on all parties to the suit,

and the Court may direct by whom the whole or any part of the costs of each party shall be paid.

64. Whenever any person, other than a Hindu, Muhammadan, or Buddhist, or a person exempted under the Indian Succession Act, 1865, section three hundred and thirty-two, from the operation of that Act, dies leaving assets within the limits of the jurisdiction of a District Judge, the District Judge shall report the circumstance without delay to the Administrator-General of the Presidency, stating the following particulars so far as they may be known to him:—

- the amount and nature of the assets.
- whether or not the deceased left a Will, and, if so, in whose custody it is, and, on the lapse of one month from the date of the death,
- whether or not any one has applied for probate of the Will of the deceased or letters of administration to his effects.

The District Judge shall retain the property under his charge, or appoint an officer under the provisions of the Indian Succession Act, 1865, section two hundred and thirty-nine, to take and keep possession of the same until the Administrator-General has obtained letters of administration, or until some other person has obtained such

letters or a certificate from the Administrator-General under the provisions of this Act, when the property shall be delivered over to the person obtaining such letters of administration or certificate, or, in the event of a Will being discovered, to the person who may obtain probate of the Will.

65. Nothing in this Act is intended to require the Administrator-General to take proceedings to obtain letters of administration to the estate or effects of any officer or soldier or other person subject to any Articles of War, unless when the Administrator-General is duly authorized or required so to do by the Military Secretary to Government, or by a Committee of Adjustment or other officers or persons acting under any law for the time being in force relating to the payment of regimental debts;

nor is anything in this Act contained intended to interfere with or alter the provisions of any Act of Parliament for regulating the payment of regimental debts and the distribution of the effects of officers and soldiers dying in the service of Her Majesty in India, or of any Articles of War.

Indian Succession Act and Indian Companies' Act not to affect Administrator-General.

66. Nothing contained in the Indian Succession Act, 1865, or the Indian Companies' Act, 1863, shall be taken to supersede or affect the rights, duties, and privileges of the Administrators-General and Officiating Administrators-General of Bengal, Madras and Bombay respectively.

And nothing contained in the Indian Succession Act, 1865, or in this Act, or in the said Act No. XXIV of 1867, shall be deemed to affect, or to have affected, any provisions for the time being in force relating to the moveable property under two hundred rupees in value of persons dying intestate within any of the Presidency Towns, which shall be or has been taken charge of by the Police for the purpose of safe custody.

ACT III, PASSED 24TH FEBRUARY 1874.

An Act to explain and amend the law relating to certain Married Women, and for other purposes.

WHEREAS it is expedient to make such provision as hereinafter appears for the enjoyment of wages and earnings by women married before the first day of January 1866, and for insurances on lives by persons married before or after that day:

Preamble.

And whereas by the Indian Succession Act, 1865, section four, it is enacted that no person shall by marriage acquire any interest in the property of the person whom he or she marries, nor become incapable of doing any act in respect of his or her own property, which he or she could have done, if unmarried:

And whereas by force of the said Act all women to whose marriages it applies are absolute owners of all property vested in, or acquired by, them, and their husbands do not by their marriage acquire any interest in such property, but the said Act does not protect such husbands from liabilities on account of the debts of their wives contracted before marriage, and does not expressly provide for the enforcement of claims by or against such wives;

It is hereby enacted as follows:—

I.—PRELIMINARY.

Short title.

1. This Act may be called "The Married Women's Property Act, 1874."

2. It extends to the whole of British India, and, so far as regards subjects of Her Majesty, to the dominions of Princes and States in India in alliance with Her Majesty.

But nothing herein contained applies to any married woman who at the time of her marriage professed the Hindū, Muhammadan, Buddhist, Sikh, or Jaina religion, or whose husband, at the time of such marriage, professed any of those religions.

And the Governor-General in Council may from time to time, by order, either retrospectively from the passing of this Act or prospectively, exempt from the operation of all or any of the provisions of this Act the members of any race, sect or tribe,

or part of a race, sect or tribe, to whom he may consider it impossible or inexpedient to apply such provisions.

The Governor-General in Council may also revoke any such order, but not so that the revocation shall have any retrospective effect.

All orders and revocations under this section shall be published in the *Gazette of India*.

The fourth section of the said Indian Succession Act shall not apply, and shall be deemed never to have applied, to any marriage one or both of the parties to which professed at the time of the marriage, the Hindú, Muhammadan, Buddhist, Sikh, or Jaina religion.

Commencement.

3. This Act shall come into force on the passing thereof.

II.—MARRIED WOMEN'S WAGES AND EARNINGS.

Married women's earnings to be their separate property.

4. The wages and earnings of any married woman acquired or gained by her after the passing of this Act, in any employment, occupation or trade carried on by her and not by her husband,

and also any money or other property so acquired by her through the exercise of any literary, artistic or scientific skill,

and all savings from and investments of such wages, earnings and property,

shall be deemed to be her separate property, and her receipts alone shall be good discharges for such wages, earnings and property.

III.—INSURANCES BY WIVES AND HUSBANDS.

5. Any married woman may effect a policy of insurance on her own behalf and independently of her husband; and the same and all benefit thereof, if expressed on the face of it to be so effected, shall enure as her separate property, and the contract evidenced by such policy shall be as valid as if made with an unmarried woman.

6. A policy of insurance effected by any married man on his own life, and expressed on the face of it to be for the benefit of his wife, or of his wife and children, or any of them, shall enure and be deemed to be a trust for the benefit of his wife, or of his wife and children, or any of them, according to the interest as expressed, and shall not, so long as any object of the trust remains, be subject to the control of the husband, or to his creditors, or form part of his estate.

When the sum secured by the policy becomes payable, it shall, unless special trustees are duly appointed to receive and hold the same, be paid to the Official Trustee of the Presidency in which the office at which the insurance was effected is situate, and shall be received and held by him upon the trusts expressed in the policy, or such of them as are then existing.

And in reference to such sum he shall stand in the same position in all respects as if he had been duly appointed trustee thereof by a High Court, under Act No. XVII of 1864 (to constitute an Office of Official Trustee), section ten.

Nothing herein contained shall operate to destroy or impede the right of any creditor to be paid out of the proceeds of any policy of assurance which may have been effected with intent to defraud creditors.

IV.—LEGAL PROCEEDINGS BY AND AGAINST MARRIED WOMEN.

7. A married woman may maintain a suit in her own name for the recovery of property of any description which, by force of the said Indian Succession Act, 1865, or of this Act, is her separate property; and she shall have, in her own name, the same remedies, both civil and criminal, against all persons, for the protection and security of such property, as if she were unmarried, and she shall be liable to such suits, processes, and orders in respect of such property as she would be liable to if she were unmarried.

8. If a married woman (whether married before or after the first day of January 1866) possesses separate property, and if any person enters into a contract with her with reference to such property, or on the faith that her obligation arising out of such contract will be satisfied out of her separate property, such person shall be entitled to sue her, and, to the extent of her separate property, to recover against her whatever he might have recovered in such suit had she been unmarried at the date of the contract and continued unmarried at the execution of the decree:

Provided that nothing herein contained shall affect the liability of a husband for debts contracted by his wife's agency, express or implied, or render a married woman liable to arrest or to imprisonment in execution of a decree.

V.—HUSBAND'S LIABILITY FOR WIFE'S DEBTS.

9. A husband married after the thirty-first day of December 1865 shall not by reason only of such marriage be liable to the debts of his wife contracted before marriage, but the wife shall be liable to be sued for, and shall, to the extent of her separate property, be liable to satisfy such debts as if she had continued unmarried:

Provided that nothing contained in this section shall affect any suit instituted before the passing of this Act, nor invalidate any contract into which a husband may, before the passing of this Act, have entered into consideration of his wife's antenuptial debts.

(b) knowingly aids in the engagement of any person so induced, by forwarding

or conveying him or by advancing money or in any other way whatever, shall be liable to imprisonment for a term which may extend to seven years, or to fine to such amount as the Court thinks fit, or to both.

ACT VI, PASSED 24TH MARCH 1874.

THE PRIVY COUNCIL APPEALS ACT, 1874.

An Act to consolidate and amend the law relating to appeals to the Privy Council from decrees of the Civil Courts.

WHEREAS it is expedient to consolidate and amend the law regulating the admission of appeals to Her Majesty in Council from certain judgments, decrees and orders of the Civil Courts; It is hereby enacted as follows:—

Preamble.

I.—PRELIMINARY.

Short title.

It extends to the whole of British India; but it does not apply to any matter of criminal, or admiralty, or vice-admiralty, jurisdiction; nor to appeals from orders and decrees of Prize-courts; And it shall come into force on the passing thereof.

Extent.

Commencement.

Repeal of enactments.

'Decree' defined.

1. This Act may be called "The Privy Council Appeals Act, 1874."

2. The enactments specified in the schedule hereto annexed are repealed to the extent mentioned in the third column thereof.

3. In this Act, unless there be something repugnant in the subject or context, the expression "decree" includes also judgment and order.

II.—ADMISSION OF APPEALS.

When appeals lie to Queen in Council.

4. Subject to such rules as may, from time to time, be made by Her Majesty in Council regarding appeals from the Courts of British India, and to the provisions hereinafter contained—

an appeal shall lie to Her Majesty in Council,

- from any final decree passed on appeal by a High Court or other Court of final appellate jurisdiction,
- from any final decree passed by a High Court in the exercise of original civil jurisdiction, and
- from any decree, when the case, as hereinafter provided, is certified to be a fit one for appeal to Her Majesty in Council.

Value of subject-matter. 5. In each of the cases mentioned in clauses (a) and (b) of section four, the amount or value of the subject-matter of the suit in the Court of first instance must be ten thousand rupees or upwards, and the amount or value of the matter in dispute on appeal to Her Majesty in Council must be the same sum or upwards.

or the decree must involve, directly or indirectly, some claim or question to, or respecting, property of like amount or value, and where the decree appealed from affirms the decision of the Court immediately below the Court passing such decree, the appeal must involve some substantial question of law.

Bar of certain appeals. 6. Notwithstanding anything contained in section four,—

no appeal shall lie to Her Majesty in Council from the judgment of one Judge of a High Court established under the twenty-fourth and twenty-fifth of Victoria, chapter one hundred and four, or of one Judge of a Division Court, or of two or more Judges of such High Court, or of a Division Court constituted by two or more Judges of such High Court, wherever such Judges are equally divided in opinion, and do not amount in number to a majority of the whole of the Judges of the High Court at the time being;

and no appeal shall lie to Her Majesty in Council from any decree which, under Act No. XXIII. of 1861, section twenty-seven, is final.

Application to Court. 7. Whoever desires to appeal under this Act to Her Majesty in Council must apply by petition to the Court whose decree is complained of.

Time within which application must be made. 8. Such application must ordinarily be made within six months from the date of such decree.

But if that period expires when the Court is closed, the application may be made on the day that the Court re-opens.

9. Every petition under section seven must state the grounds of appeal, and pray for a certificate, either that as regards amount or value and nature, the case fulfils the requirements of section five, or that it is otherwise a fit one for appeal to Her Majesty in Council.

Upon receipt of such petition, the Court may direct notice to be served on the opposite party to show cause why the said certificate should not be granted.

Refusal of certificate. 10. If such certificate be refused, the petition shall be dismissed:

Provided that, if the decree complained of be a final decree passed by a Court other than a High Court, the order refusing the certificate shall be appealable within thirty days from the date of the order, to the High Court to which the former Court is subordinate.

Security and deposit required on grant of certificate. 11. If the certificate be granted, the applicant shall, within six months from the date of the decree complained of, or within six weeks from the grant of the certificate, whichever is the later date,

- give security for the costs of the respondent, and
- deposit the amount required to defray the expense of translating, transcribing, indexing, and transmitting to Her Majesty in Council a correct copy of the whole record of the suit, except

(1) formal documents directed to be excluded by any order of Her Majesty in Council in force for the time being;

(2) papers which the parties agree to exclude;

(3) accounts, or portions of accounts, which the officer empowered by the Court for that purpose considers unnecessary, and which the parties have not specifically asked to be included; and

(4) such other documents as the High Court may direct to be excluded; and when the applicant prefers to print in India the copy of the record, except as aforesaid, he shall also, within the time mentioned in the first clause of this section, deposit the amount required to defray the expense of printing such copy.

Admission of appeal and procedure thereon. 12. When such security has been completed and deposit made to the satisfaction of the Court, the Court may

- declare the appeal admitted, and
- give notice thereof to the respondent, and shall then

(c) transmit to Her Majesty in Council, under the seal of the Court, a correct copy of the said record, except as aforesaid, and

(d) give to either party one or more authenticated copies of any of the papers in the suit on his applying therefor and paying the reasonable expenses incurred in preparing them.

Revocation of acceptance of security.

13. At any time before the admission of the appeal, the Court may, upon cause shown, revoke the acceptance of any such security, and make further directions thereon.

Power to order further security or payment.

14. If at any time after the admission of the appeal, but before the transmission of the copy of the record, except as aforesaid, to Her Majesty in Council, such security appears inadequate,

or further payment is required for the purpose of translating, transcribing, printing, indexing, or transmitting the copy of the record, except as aforesaid,

the Court may order the appellant to furnish, within a time to be fixed by the Court, other and sufficient security, or to make, within like time, the required payment.

Failure to comply with order.

15. If the appellant fail to comply with such order, the proceedings shall be stayed,

and the appeal shall not proceed without an order in this behalf of Her Majesty in Council,

and in the meantime execution of the decree appealed against shall not be stayed.

16. When the copy of the record, except as aforesaid, has been transmitted to

Refund of balance of deposit. Her Majesty in Council, the appellant may obtain a refund of the balance, if any, of the amount which he has deposited under section eleven.

III.—PROCEEDINGS PENDING APPEALS.

Powers of Court pending appeal.

17. Notwithstanding the admission of any appeal under this Act, the decree appealed against shall be unconditionally enforced unless the Court admitting the appeal otherwise directs.

But the Court may, if it think fit, on any special cause shown by any party interested in the suit, or otherwise appearing to the Court—

(a) impound any moveable property in dispute, or any part thereof, or

(b) allow the decree appealed against to be enforced, taking such security from the respondent as the Court thinks fit for the due performance of any order which Her Majesty in Council may make on the appeal, or

(c) stay the execution of the decree appealed against, taking such security from the appellant as the Court thinks fit for the due performance of the decree appealed against, or of any order which Her Majesty in Council may make on the appeal, or

(d) place any party seeking the assistance of the Court under such conditions, or give such other direction respecting the subject-matter of the appeal, as it thinks fit.

Increase of security found inadequate.

18. If at any time during the pendency of the appeal the security so furnished by either party appears inadequate, the Court may, on the application of the other party, require further security.

In default of such further security being furnished as required by the Court, if the original security was furnished by the appellant, the Court may, on the application of the respondent, issue execution of the decree appealed against as if the appellant had furnished no such security.

And if the original security was furnished by the respondent, the Court shall, so far as may be practicable, stay all further execution of the decree, and restore the parties to the position in which they respectively were when the security which appears inadequate was furnished, or give such direction respecting the subject-matter of the appeal as it thinks fit.

IV.—EXECUTION OF ORDERS OF HER MAJESTY IN COUNCIL.

19. Wherever directed by or to obtain execution of any order of Her

Procedure to enforce orders of Queen in Council.

Her Majesty in Council shall apply by petition, accompanied by a certified copy of the decree or order made in appeal and sought to be enforced or executed, to the Court from which the appeal to Her Majesty was preferred.

Such Court shall transmit the order of Her Majesty to the Court which made the first decree appealed from, or to such other Court as Her Majesty by her said order may direct, and shall (upon the application of either party) give such directions as may be required for the enforcement or execution of the same; and the Court to which the said order is so transmitted shall enforce or execute it accordingly, in the manner and according to the rules applicable to the execution of its original decrees.

20. The orders made by

the Court which enforces or executes the order of Her Majesty in Council relating to such enforcement or execution, shall be appealable in the same manner and subject to the same rules as the orders of such Court relating to the enforcement or execution of its own decrees.

Appeal against order relating to execution.

Amendment of Act IX of 1871, Schedule II, No. 169.

21. To the first column of No. 169 of the second schedule annexed to the Indian Limitation Act, 1871, the following words shall be added (that is to say), "or any order of Her Majesty in Council."

V.—MISCELLANEOUS.

Power to make rules.

22. The High Court may, from time to time, make general rules consistent with this Act to regulate—

(a) the service of notices under section nine,

(b) the grant or refusal of certificates, under sections ten and eleven, by Courts of final appellate jurisdiction subordinate to the High Court,

(c) the amount and nature of the security required under sections eleven, fourteen, and eighteen,

(d) the testing of such security,

(e) the estimate of the cost of transcribing the record,

(f) the preparation, examination, and certifying of such transcript,

(g) the revision and authentication of translations,

(h) the preparation of indices to transcripts of records, and of lists of the papers not included therein,

and all other matters connected with the enforcement of this Act.

All such rules shall be published in the local official Gazette, and shall thereupon have the force of law in the High Court and the Courts of final appellate jurisdiction subordinate thereto.

Publication of rules. All rules heretofore made and published by any High Court relating to appeals to Her Majesty in Council and in force immediately before the passing of this Act, shall, so far as they are consistent with this Act, be deemed to have been made and published hereunder.

Rules heretofore made. 23. In sections four and twenty-two, the expression 'High Court' shall be deemed to include also the Recorder of Rangoon, but not so as to empower him to make rules binding on Courts other than his own Court.

Construction of Bengal Regulation III of 1828, Section 4, Clause 5.

24. The rules and restrictions referred to in Bengal Regulation III of 1828, section four, clause five, shall be deemed to be the rules and restrictions applicable to appeals under this Act from the decisions of the High Court of Judicature at Fort William in Bengal.

Saving of Her Majesty's pleasure.

25. Nothing herein contained shall be understood—
(a) to bar the full and unqualified exercise of Her Majesty's pleasure in receiving or rejecting appeals to Her Majesty in Council, or otherwise howsoever, or

and of the rules for the conduct of business before the Judicial Committee.

(b) to interfere with any rules made by the Judicial Committee of the Privy Council and for the time being in force for the presentation of appeals to Her Majesty in Council, or their conduct before the said Judicial Committee.

THE EUROPEAN VAGRANCY ACT, 1874.

An Act to consolidate and amend the law relating to European Vagrancy.

WHEREAS it is expedient to consolidate and amend the laws relating to persons of European extraction who wander in a destitute condition throughout India; It is hereby enacted as follows:—

Preamble.

PART I.

I.—PRELIMINARY.

Short title.

1. This Act may be called "The European Vagrancy Act, 1874."

Local extent.

It extends to the whole of British India and to the dominions of Princes and States in India in alliance with Her Majesty;

And it shall come into force at once: Provided that sections four to sixteen (both inclusive), nineteen, twenty, twenty-four, and twenty-nine shall not come into force in Coorg, or in the Andaman and Nicobar Islands, or in any of the dominions of the Princes and States in India in alliance with Her Majesty not situate within the limits of any Presidency, Lieutenant-Governorship or Chief Commissionership in British India, until such day or respective days as the Governor-General in Council from time to time, by notification in the *Gazette of India*, appoints in this behalf.

the Princes and States in India in alliance with Her Majesty not situate within the limits of any Presidency, Lieutenant-Governorship or Chief Commissionership in British India, until such day or respective days as the Governor-General in Council from time to time, by notification in the *Gazette of India*, appoints in this behalf.

Repeal of Acts.

2. Acts No. XXI of 1869 (to provide against European Vagrancy) and No. XXVIII of 1871 (to amend the European Vagrancy Act, 1869) are hereby repealed.

But all appointments and orders made, work-houses provided, certificates given, powers conferred, rules prescribed, and exemptions granted under the former Act shall be deemed to have been respectively made, provided, given, conferred, prescribed, and granted under this Act.

Interpretation-clause.

3. In this Act—

"Person of European extraction."

"Person of European extraction" includes—
(a) persons born in Europe, America, the West Indies, Australia, Tasmania, New Zealand, Natal, or the Cape Colony,

(b) the sons and grandsons of such persons,

but does not include persons commonly called Eurasians or East Indians:

"Vagrant" means a person of European extraction found asking for alms, or wandering about without any employment or visible means of subsistence:

"Master of a ship." "Master of a ship" includes any person in charge of a decked vessel:

And in parts III and V of this Act, "Magistrate" means, within the limits of the towns of Calcutta, Madras, and Bombay, a Magistrate of Police, and, outside those limits, a person exercising powers under the Code of Criminal Procedure not less than those of a Magistrate of the second class.

PART II.

PROCEDURE.

4. Any Police officer may, within the limits of the towns of Calcutta, Madras, and Bombay, require any person who is apparently a vagrant to accompany him or any other Police officer to, and to appear before, the nearest Magistrate of Police, and may, without those limits, require any such person to accompany him or any other Police officer to, and to appear before, the nearest

Justice of the Peace exercising the powers of a Magistrate of the first class under the Code of Criminal Procedure.

5. The Magistrate of Police or Justice shall in such case, or in any other case where a person apparently a vagrant comes before him, make a summary inquiry into the circumstances and character of the apparent vagrant; and if he is satisfied that such person is a vagrant, he shall record in his office a declaration to that effect.

Summary inquiry into vagrant's circumstances.

If he is further of opinion that the vagrant is not likely to obtain employment at once, or if he has reason to believe that a declaration of vagrancy has on any former occasion been recorded in respect of such vagrant, he shall require the vagrant to go to a Government work-house, and shall draw up an order to that effect.

Order to go to work-house.

The vagrant shall then be placed in charge of the Police for the purpose of being forwarded to the work-house, and the said order shall be a sufficient authority to the Police for retaining him in their charge while he is on his way to the work-house, and to the Governor of the work-house for receiving and detaining such vagrant.

6. Where the officer making the inquiry mentioned in section five is of opinion that the vagrant is likely to obtain employment in any place subject to the Local Government, or (when the vagrant is in any part of the dominions mentioned in section one) in any place subject to any adjacent Local Government, such officer may, in his discretion, forward the vagrant to such place in charge of the Police, and draw up an order to that effect.

Forwarding vagrant to place of employment.

Such order shall be a sufficient authority to the Police for retaining the vagrant in their charge while he is on his way to such place of employment.

Assistance to obtain employment.

7. Upon his arrival at the place of employment, the vagrant shall be taken before the nearest Magistrate of Police or Justice of the Peace exercising powers as aforesaid, to whom the order for transmission shall be delivered.

Such officer shall thereupon, to the best of his ability, assist the vagrant in seeking employment, and may in the meantime, if he think fit, keep the vagrant in the charge of the Police.

Should the vagrant fail to obtain suitable employment within a reasonable time not exceeding fifteen days from such arrival, such officer shall forward him to Government work-house in the manner provided by section five.

8. Every person while in charge of the Police, whether before inquiry as to his vagrancy, or while he is on his way, under section five, to the work-house, or, under section six, to a place of employment, shall be entitled to an allowance for his subsistence at the rate of eight annas per diem.

The Magistrate of Police or Justice, before whom any vagrant is taken under section seven, may, if he think fit, order the vagrant to receive a similar allowance while he is seeking employment.

The Local Government shall cause such allowance to be paid out of such funds at its disposal and in such manner as it may from time to time direct.

9. Any Magistrate of Police or Justice of the Peace exercising powers as aforesaid may, on being satisfied that any person of European extraction is not likely to become a vagrant, give such person a certificate under his hand stating that for a certain time (mentioning it) not exceeding six months from the date of the certificate, and within certain limits (mentioning them), nothing in sections four, five, six, and seven shall apply to the holder of such certificate; and thereupon so long as the certificate remains in force nothing in sections four, five, six, and seven shall apply to such person within such limits as aforesaid.

Power to give certificates.

Form of certificate.

Every such certificate shall be in the form set forth in the first schedule to this Act annexed, or as near thereto as circumstances will admit.

10. PART III—CIVIL.

FROM 16TH SEPTEMBER 1874.

PENSION CODE.

The following be added under Section 102 (b) of the Civil Pension Code:—

(5.)—Men of the Bhaugulpore Hill Rangers, who on the disbandment of the Corps took employment in the police, count their service in that Corps, including the period of employment in it during the time the Corps was under the orders of the Civil Department after the reductions in the Native Army made in 1861.

RULE 1, SECTION 2, SUPPLEMENT A.

(In modification of the definition in Rule 1 under Section 2 of Supplement A to the Civil Pension Code, and Rule 1 under Section 7 (a) (3) of the Civil Leave Code, of the date of "first arrival in India since the 5th May 1869", that the date of first arrival in India of a Member of the Bengal Covenanted Civil Service, who is posted in England to Upper India, and comes out *via* Bombay shall, if he has been instructed by the Secretary of State to enquire at the Secretariat of the Government of Bombay for any orders as to his ultimate destination and receives no such orders there, be held to be the date of his reporting himself at Allahabad to the Secretary to the Government of India in the Home Department, and to the Secretary to the Government of the North-Western Provinces. But if he receives orders at the Bombay Secretariat, the date of his first arrival in India shall be held to be the date of his reporting his arrival at any station or province to which he may be attached by such orders.

The following be inserted as Rule 3 under Section 13 of the Civil Pension Code:—

3. An officer on the establishment of any Government school in Bengal, the expenses of which are paid out of lump sum assignments made to a local Committee having the direct management of the School and also out of the fees received at the school, may, with the permission of the local Government subscribe for pension or gratuity under the rules in this code, in the manner prescribed in Section 35, provided, in the case of an officer hereafter appointed, that the appointment is made at the proper age, and that a certificate of good health, as prescribed in Rules 2 and 3 of Section 49, is submitted by him if he is appointed to superior service. An officer on the establishment of any school, the expenses of which are paid out of municipal funds and from the fees received at the school, may, in like manner, and under the same conditions, subscribe for pension and gratuity.

When the local Government allows an officer to subscribe for pension or gratuity, his name, with his age and other particulars necessary for his identification, shall be recorded in the office of the Accountant-General. The certificate of good health should also be sent to the office.

RULE 2, SECTION 49.

The Governor-General in Council directs that in the form of certificate annexed to Rule 2 under Section 49 of the Civil Pension Code, the words "cannot discover that he has any" be substituted for the words "find that he has no".

The following be inserted as Rule 2 under Section 97 of the Civil Pension Code:—

2. The Port Blair police force, though not organized under any of the Acts mentioned above and never having had a superannuation fund, is on the same footing with respect to pension and gratuity as the police in India generally.

CIVIL LEAVE CODE.—

LEAVE AND ALLOWANCES.

(In modification of the definition in Rule 1 under Section 2 of Supplement A to the Civil Pension Code, and Rule 1 under Section 7 (a) (3) of the Civil Leave Code, of the date of "first arrival in India since 5th May 1869", that the date of first arrival in India of a Member of the Bengal Covenanted Civil Service, who is posted in England to Upper India, and comes out *via* Bombay shall, if he has been instructed by the Secretary of State to enquire at the Secretariat of the Government of Bombay for any orders as to his ultimate destination and receives no such orders there, be held to be the date of his reporting himself at Allahabad to the Secretary to the Government

of India in the Home Department, and to the Secretary to the Government of the North Western Provinces. But if he receives orders at the Bombay Secretariat, the date of his first arrival in India shall be held to be the date of his reporting his arrival at any station or province to which he may be attached by such orders.

In continuation of the Notification of the Government of India in this Department, No. 3373, dated 30th October 1873, the Governor-General in Council is pleased to rule that when a ministerial officer in superior service on a salary of less than Rs. 50 a month travels by railway he may, if he prefer it, be allowed in lieu of the cost of his ticket under that Notification any bounty which would have been admissible to him for the period of the journey if it had not been made by railway.

The Governor-General in Council is pleased to rule that, unless in cases of emergency, no last pay certificate can be given to any military officer in civil employ desiring to proceed on furlough until he obtains from the Military Department of the presidency to which he belongs, and submits to the Accountant-General of the province in which he is employed, a certificate or memorandum showing what furlough is at his credit and the furlough rules to which he is subject.

Substitute the following for the rule proscribed for "Case III." in Chapter XI of the Civil Leave Code: The officer should obtain a certificate in Form A in Appendix A from the Accountant-General of his presidency or province; but if he is not proceeding to any place out of that presidency or province, the tenth space in the certificate may be left blank.

The Governor-General in Council is pleased to sanction the following interpolation in the directions for filling up forms of last-pay certificate in Appendix A to the Civil Leave Code:—

(2 a.) In line 8, in forms A to D, the section of Supplement E to the Civil Leave Code, or of the Military furlough regulations under which the advance is made, should be mentioned. Similarly, the words under *Supplement E to the Civil Leave Code*, or under the military furlough regulations, should be inserted between the words "that" and "you will grant" on the reverse of forms C and D.

ACTING ALLOWANCE CODE.

Substitute the following example and exception for the example and rule under Section 20 (a) of the Acting Allowance Code:—

Examples of the appointments referred to.—The appointments of Postmasters-General and Judges of Small Cause Courts of the first class in Bengal, viz., the Small Cause Courts in Calcutta and Sealdah, the principal Court in Jessore and the Courts in Magoorah, Jhenida, Narail, Hooghly, Serampore, and Howrah.

Exception.—The above Section (20) (a) does not apply to the cases of officers officiating in appointments in the classified list of the Financial Department.

2. His Excellency in Council is also pleased to sanction the insertion of the following example under Section 20 (b) of the Acting Allowance Code:—

Examples of the appointments referred to.—Extra Assistant Commissionerships in the Punjab, Judgeships of Small Cause Courts in Bengal, not mentioned in the example under Section 20 (a) and the Subordinate Judgeships with which they are classed.

In supersession of the notification of the Government of India in this Department, No. 3564, dated the 11th December 1873, the Governor-General in Council is pleased to rule that when a public officer is transferred without promotion from one substantive appointment to another at a different station, a copy of the order transferring him shall be sent to the Accountant-General of the Province where he is serving, with an endorsement stating either that the transfer has been ordered on public grounds, and not at the request of the officer, or that the transfer had been made at the officer's request.

In supersession of all previous orders regarding free passage to Military officers in civil employ on leave, the Governor-General in Council is pleased to rule that a Subaltern in civil employ is entitled to passage money when he proceeds to England on furlough on medical certificate, and that such passage money is chargeable to the department from which he draws his furlough pay.

THE PILGRIM'S WANTS.

I WANT that adorning Divine,
Thou only, my God, canst bestow;
I want in those beautiful garments to shine,
Which distinguish Thy household below.
I want every moment to feel
That Thy Spirit resides in my heart,
That His power is present to cleanse and to heal,
And newness of life to impart.
I want, oh! I want to attain
Some likeness, my Saviour to Thee!
That longed-for resemblance once more to regain,
Thy comeliness put upon me!
I want to be marked for Thine own,
Thy seal on my forehead to wear;
To receive that "new name" on the mystic white stone,
Which none but Thyself can declare.
I want so in Thee to abide,
As to bring forth some fruit to Thy praise!
The branch which Thou prunest, though feeble and dried,
May languish, but never decays.
I want Thine own hand to unbind
Each tie to terrestrial things—
Too tenderly cherished, too closely entwined,
Where my heart too tenaciously clings.
I want, by my aspect serene,
My actions and words to declare—
That my treasure is placed in a country unseen,
That my heart's best affections are there.
I want, as a traveller, to haste
Straight onward, nor pause in my way—
Nor forththought, nor anxious contrivance, to waste
On the tent only pitched for a day.
I want—and this sums up my prayer—
To glorify Thee till I die;
Then calmly to yield up my soul to Thy care,
And breathe out, in faith, my last sigh.

THIS COMPANY was established in 1825, and is one of the largest and most successful of the Life Assurance Institutions of Great Britain. Its income exceeds £700,000 per annum; and its Accumulated and Invested Funds amount to upwards of Four and a half Millions Sterling. Its Profits have been very large, and persons assured have derived very valuable benefits from their

connection with the Company. It has also acquired a marked character for liberal management, being the first institution which relieved Policies of Assurance from restrictive and unnecessary conditions, and gave such contracts increased value and stability in other ways.

PROGRESS OF THE COMPANY'S BUSINESS.

The business of the Standard Life Assurance Company since its institution has increased steadily year by year, until it has attained its present large amount.

Amount proposed for Assurance during the year
1873 (2137 Proposals)..... £1,460,240 3 0

Amount of Assurances accepted during the year
1873 (1802 Policies)..... £1,218,619 8 0

Annual Premiums on new Policies during the year
1873..... £39,149 2 7

Claims by Death during the year 1873, exclusive
of Bonus Additions..... £351,840 15 8

Amount of Assurances accepted during the last
five years..... £5,741,916 4 7

Subsisting Assurances at 15th November
1873 (of which £1,038,680: 7s. is Re-
assured with other Offices)..... £17,576,999 16 10

Beginning in 1825 at all, there are now subsisting Assurances to the amount of more than Seventeen Million Sterling; the annual Revenue of Company is upwards of Seven Hundred Thousand Pounds; and the Assets are upwards of Four and a half Millions Sterling.

These results have not been attained by any other than constitutional means; and the Directors are satisfied that, large as the Business has been, no office can exhibit a better class of risks, the Assurances being to a great extent in connection with Family Provisions, Marriage and other Settlements.

INVESTMENT OF FUNDS.

The Funds of the Company, amounting to considerably upwards of Four and a half Millions Sterling, are invested in Government Securities; in Loans on the security of Land, by bond or mortgage; in Landed property; in advances to the Company's Policyholders; and in other ways affording undoubted security.

DIVISION OF PROFITS AMONG THE POLICYHOLDERS.

One feature in the STANDARD LIFE ASSURANCE COMPANY, the operation of which has contributed in a marked degree to the great success of the Institution, is the liberal Division of Profits among the Assured, and the Directors request attention to the great advantages of the system. The Divisions are made at intervals of five years, they are preceded by a most searching investigation into the affairs of the Company.

AT THE DIVISION OF PROFITS IN 1870,

THE LARGE SUM OF
£331,591: 18s.

was allocated to the Policyholders, representing Bonus Additions to existing Assurances.

Those who did not wish to add the amount of the Bonus to the Sum Assured were permitted to take the value of the addition in a present sum, or to apply its value to the reduction of the Annual Premium for five years.

The next Investigation and Division of Profits will be made at 15th November 1875, and quinquennially thereafter.

RESERVES.

While the Company have conferred these important benefits on the Assured, they have at the same time made very large reserves in estimating their Liabilities, so as to secure the future stability and welfare of the Institution. In valuing the Liabilities of the Company the Actuaries have adopted, as the basis of their calculation, a rate of Interest considerably below that which the Company can readily realise on the best security which the country affords. The rate of Interest assumed in the great bulk of the Company's calculations is 3 per cent.—In some cases 3½ per cent. is adopted as more appropriate to the particular class of risks under consideration, and in others as high as 4 is the assumption, but on the whole there is a gain of above one per cent. on Interest alone, which, on upwards of Four Millions of Money invested, gives a large and handsome Annual Profit. But the large Reserve of the Company, consisting of the unvalued portion of the premiums payable, is the mainstay of the business, being sums set aside at the Investigations which the Company may calculate on receiving equally with the rest of the Premiums contracted for, but which are not taken into account in the calculations. That is to say, if an Annual Premium under a Policy is £100 per annum, £80 only may be valued, the difference being called the Reserve or Loading. It is not easy to explain this distinctly without fuller illustration than can be here given, but the effect is apparent, when it is stated, that the Company have set aside at 15th November 1870 about £100,000 per annum in this way, worth in present value not less than thirteen years' purchase. The Company have other large sources of profit arising from the selection of lives, surrendered and abandoned Policies, etc., etc., but enough has been stated to show that the Company's affairs are highly prosperous, while the benefits conferred on all interested are very large.

THE RATES OF THE COMPANY,

which have been calculated on data derived from the most authentic sources, will be found moderate, and, looking to the facilities and advantages afforded, they are undoubtedly more advantageous, and less expensive, than those of any other Office transacting the same class of business.

A STANDARD POLICY

is

UNCHALLENGEABLE

according to the resolution of 1861, on any ground whatever connected with the original Assurances on which the Assurance was effected, after it has endured five years, and this without application to the Directors or other forms, evidence of age having been produced.

GENERAL REGULATIONS AND CONDITIONS.

These have been framed with much care, with the view of making the Company's Policies available securities of the most perfect kind, and of allowing as much freedom to the Policyholder as may safely be granted. The Directors invite particular attention to them.

Claims paid at home or abroad.

Policies with Profits purchased at any time after payment of one year's Premium, and Policies without profits for the whole term of life, after three years' Premiums have been paid.

Assignments of Policies recorded, and from the date of such recording, Assurances not subject to forfeiture on any ground whatever, except fraud, or non-payment of the Proper Premiums.

Age and Interest admitted on the Company's Policies in all cases where proof is given satisfactorily to the Directors.

Thirty days of grace allowed for payment of Premiums, yearly, half-yearly and quarterly and ten days' grace for monthly, and in the event of death taking place during the currency of these days, before payment of the Premium, the Policy will be as valid and effectual as if it had been paid.

Assurances forfeited may be revived within 18 months from the date at which the Premium became due, under certain conditions.

The Indian Military Rate covers the risk of war in the case of Officers in Her Majesty's service, while on the Indian Establishment.

Military Men holding appointments of a civil character, not requiring military service, charged the rate applicable to civilians, with certain exceptions.

Persons Assured through the Indian Branches of the Company have permission to reside in any part of the world, so long as they continue to pay the original rate of Premium stipulated in their Policies.

Persons Assured for the whole Term of Life returning to Europe or other climate considered equally healthy by the Directors, pay the reduced Premium applicable to Europe, according to the Company's published Rates (Table No. 1D), commencing with the first Premium due, after their arrival within such limits has been duly reported, and they receive a return of a proportion of the extra premium calculated by days for the period from the date of their arrival in Europe to the date of the next renewal Premium falling due, provided the return is then claimed. This rule, however, does not apply to the first year's Premium except in special cases.

Persons Assured paying a reduced rate of Premium for residence in Europe or elsewhere, desirous of returning to India, require to make application to the Directors for permission to do so, paying the original rate of Premium required in terms of their Policy. If desirous to proceed to any other part of the world instead of returning to India, the terms will be specially arranged.

No Expenses in connection with obtaining Policies for the whole term of life, and all Medical Fees paid by the Company.

Assurances for limited periods can also be effected at moderate rates of Premium.

The Local Boards in India are empowered to accept Proposals and issue Policies; and every facility is afforded for the despatch of business.

Full particulars, together with Proposal Forms, Prospectuses, &c., will be forwarded on application being made to any of the Sub-Agents of the Company, or to

BINNY AND CO.,

Agents and Secretaries to the Local Board at Madras.

THE MADRAS EQUITABLE ASSURANCE SOCIETY,

(SUCCESSOR TO THE MADRAS LAUDABLE SOCIETY, ESTABLISHED IN 1829.)
Regulated by Act No. VI of 1869 of the Legislative Council of Fort St. George.

HEAD OFFICE IN MADRAS.

BOARD OF DIRECTORS.

THE HON'BLE W. R. ARBUTHNOT, *Chairman.* (Arbuthnot & Co.)
R. C. WALKER, Esq. (Shand & Co.)
H. G. PRICHARD, Esq. (Govt. Solicitor.)
J. JONES, Esq. (Perry & Co.)

Medical Examiner.

W. H. HARRIS, Esq., M.D.

Actuary.

A. H. BAILEY, Esq., of the London Assurance Corporation.

Agents in London.

Messrs. ARBUTHNOT, LATHAM & Co.

The Chief Characteristics of this Society are:—

Mutual Assurance.

Consequently there are no shareholders to be provided out of the premiums with a dividend.

Claims paid immediately upon a casualty being proved to the satisfaction of the Directors.

An official notice of death in any of Her Majesty's Government Gazettes is a sufficient proof of death.

Life Policies, (excepting those formerly issued at annually increasing rates of premium), when they have paid three years' premiums are saleable to the Society at rates specially prepared by the Society's Actuary in London.

For the convenience of policy-holders residing in Europe, an agency has been opened in London for the receipt of premiums at a fixed Exchange of Two Shillings per Rupee, and for payment of death claims at the current Exchange on Madras. In the event of policies thus transferred to the London Register, becoming claims by death, Indian Probate or Letters of Administration are not required.

Renewal premiums are payable half-yearly on the 1st January and 1st July.

One calendar month's grace allowed for payment of renewal premiums.

Claims arising whilst renewal premiums are due are not invalidated provided the premium be paid within the month's grace.

Policies voided by non-payment of premium may be renewed at any time within twelve months upon production of satisfactory health certificates.

The funds of the Society not required for current purposes, must be invested in Securities of the Government of India, or in Securities, the interest of which is guaranteed by the Government of India, or by the Secretary of State for India in Council.

All such Securities must be held in the joint names of three of the Directors of the Society. The Directors must be residents at Madras, and are elected by the Members.

Quinquennial valuations of all the Society's assets and liabilities are made by the Actuary of an Assurance Office established in London having a duration of not less than twenty years.

The Surplus Funds which by every such valuation are found to be held by the Society, are divisible, at the discretion of the Directors, rateably with the premiums paid during the expired quinquennium amongst the holders of life policies subsisting on the last day of the period embraced by every such valuation, and are applicable to the reduction of premiums becoming payable during the ensuing quinquennium.

The valuation to 31st December 1870 was made by A. H. Bailey, Esq., of the London Assurance Corporation, his report shows that the Society had on that date a clear Surplus of Rs. 5,42,183.

Premiums payable during the quinquennium 1871-1875, on policies that were subsisting on the 31st December 1870, have been reduced to the extent of sixty per cent. of the aggregate amount of premium paid on such policies during 1866-1870.

The following is an example of the effect of the Reduction. Policy No. 1011 for Rs. 20,000, age next birthday 44 years, civil rate, gross Annual Premium Rs. 56 per Rs. 1,000. Premiums paid thereon from 1st January 1866 to 31st December 1870 ... Rs. 5,600
Sixty per cent. of which amount is ... 3,360
Divided by five for so many years of ensuing quinquennium
gives an annual reduction during 1871-1875 of ... Rs. 627

Gross annual premium	...	Rs. 1,120
Less annual reduction as above stated	...	627
Net annual premium payable during 1871-1875	...	448

Or at the rate of Rs. 22-6-5 per Rs. 1,000 annually.

The current quinquennium commenced on the 1st January 1871, from which date reduced premiums on new Assurances came into force.

The members of the Society consist of all persons who hold policies of assurance either on their own lives or on the lives of other parties, *for the duration of life*.

General meetings of members must be held annually.

Special general meetings may be summoned by the Directors or by twenty members.

An Annual audit of the Society's accounts is made by an Auditor elected by the members.

The Report of the Directors and of the Auditor, together with an abstract of the accounts for the previous year, are read at every annual general meeting.

Members holding policies for Rs. 1,000 or up to Rs. 10,000 have one vote, and an additional vote, not exceeding ten in all, for every additional Rupees 10,000.

The past experience of the Society leads the Directors to anticipate that the retention of the mutual principle, and the quinquennial distributions of Surpluses, will bring down the cost of assurance by this office, for life, to the lowest possible point.

Term policy-holders are not members, and are not entitled to share in the surplus funds of the Society.

Term policies are therefore issued at reduced, non-participating rates of premium.

Assurances may be granted on the lives of Europeans, East Indians or Eurasians, and Parsis.

No policy issued for a less sum than Rupees 500, or for a larger sum than Rupees 30,000, on any one life.

The Medical Examiner sees Applicants for Assurance at his residence, Hanson's Gardens, Nungambakum, on Wednesdays and Saturdays between 11 and 12 A. M.

For further particulars, copies of the Director's Reports containing Abstracts of the Society's Accounts, Forms of Proposals, &c. (which are sent free to any part of India,) apply to

C. L. O'BRIEN, Esq.

The Positive Government Security Life Assurance Company was founded for the purpose of introducing a new system of Life Assurance, which confers upon the Assured several important advantages never before presented to the Public.

The Positive system, while it gives to Life Assurance a new and valuable character, by providing the highest order of security in the world for the Assured, sweeps away all the harassing conditions and technicalities which surround ordinary Life Assurance, it puts an end to policy forfeiture, provides the Assured with a negotiable property for every Premium paid, but still does not disturb the scientific principles on which Life Assurance has so long and safely rested.

An ordinary policy is full of most stringent conditions, perplexing in its terms, difficult of transfer, dependent on the regular payment of premiums throughout life, as well as on the observance of strict rules regarding residence and occupation, liable to forfeiture of all sums paid to the Company, possessing no fixed surrender value, giving the Assured no control or power of supervision during life, and affording no means of proof, to the uninitiated, that security exists for the payment of claims.

In the place of these glaring defects the Positive Policy is perfectly simple in language, intelligible to the most illiterate, and free from conditions, except for payment of a definite number of premiums, according to the election of the Assured.

Positive notes are issued which gradually take the place of the policy as each payment of the premium is made, and are, in fact, policies payable to bearer, independent of any future payment by the Assured. The death of the assured renders them an absolute claim for the amount they represent; a fixed value is given for surrender or loan, during life, of not less than 40 per cent. of the premiums paid to the Company; all premiums to that extent are a deposit with the office instead of an absolute payment, while at the same time they secure greater advantages to the Assured than an absolute payment to an ordinary office can possibly afford; and, above all, forfeiture is made an absolute impossibility.

Under all possible contingencies the Assured in the "Positive" exercises independent control over the office; he can at any time retire from it without loss; his position is defined when he pays his first Premium, and nothing can occur to deprive him of benefits he has purchased.

By the unalterable conditions of carefully-framed deeds all net premiums on each Assurance are invested as trust funds in Government Securities, which (with interest) are set apart in the hands of Trustees, exclusively for the purpose of paying claims; and these net premiums being so fixed as to cover all risks, and the investment of the trust funds for Great Britain being made wholly in Consols, the value of the security afforded to an Assured can be tested at any time to the smallest fraction, without actuarial or other skilled aid being required, and the intrinsic value of a policy can be ascertained without the possibility of error.

Short Table of Rates, illustrative of the Positive system of paying premia under Table A of Prospectus. Tables B and C of Prospectus refer to the half-yearly and quarterly rates for similar Assurances, Table D to ordinary Assurances for the whole term of life, Tables E, F and G to short term Assurances, Table H, I, J and K to Endowment Assurances, and Table L to the joint Assurance of one or more lives.

Columns No. I, shows the cost of, or the Annual Premium required for, an Assurance of Rs. 1,000 payable at death, to be paid for by 5, 10, 15, 20, 25 or 30 Annual Instalments. No. II, the amount of Positive Promissory Note, or fully paid up policy, granted on the payment of each Premium. No. III, proportion of Premium to be invested in Government Securities, absolutely for the Assured. No. IV, the surrender value or amount redeemable at any time at the option of the Assured and No. V, amount retainable for expenses and profits and bonus to the Assureds.

Short Extracts from the "Stock Exchange Review" and "Insurance Guardian," respecting the "Positive."

No friend of the "Positive" could read without pleasure the report made by the Chairman at the meeting held at Manchester early in the month. We are glad to note the recurrence of these reunions; as it serves to keep public attention directed towards the excellent principles of the institution. The explanations of business transactions prove that these principles are making successful way, and if future progress should be maintained on a scale even distantly approaching the experience of last year, the anticipation that before long the "Positive" will be amongst the largest, as it already is amongst the safest and strongest, offices in the world, will be amply realised.—*Stock Exchange Review*, April 1874.

The Principles of the "Positive" are from first to last indistinctly sound, the office itself is unprecedented for strength, security, and the certainty of giving liberal returns to those whose interests are bound up with it. Let not then absurd nervousness, or the malevolence arising from disappointed vanity and ambition, be allowed to interfere with the progress of this grand institution.—*Stock Exchange Review*, August 1874.

We trust that these articles may have the effect of placing this splendid institution in the way of realizing the brilliant hopes which have been entertained of it, and should such be the case, none will rejoice more heartily than ourselves. We have unshaken faith that a brilliant future is in store for the "Positive" if rightly conducted, &c. &c.—*Insurance Guardian*, August 1st, 1874.

Church of England Assurance Institution,

ESTABLISHED 1840.

HEAD OFFICE—KING STREET, CHEAPSIDE, LONDON.

EMPOWERED BY SPECIAL ACT OF PARLIAMENT.

Capital—One Million.

“Short Term” and “Whole Life” Assurances are granted.

In addition to ordinary Assurances this Company issues Policies by which the sums assured are made payable to the Policy-holder himself on his attaining a specified age or to his representatives in the event of his previous death. By this means Officers and others may both provide for their families and secure *Retiring Provision* for themselves.

Also “FREE” Policies are granted which can never altogether lapse in consequence of the non-payment of Premiums.

“Clergy Rates” have been recently prepared to enable Clergymen and Ministers of all denominations to assure their Lives in this Institution upon more favorable terms than in any other Office.

Premiums may be paid annually, half-yearly, quarterly or monthly as desired.

Thirty days' grace are allowed for the payment of annual, half-yearly and quarterly premiums, and fifteen days for monthly premiums. The validity of the Policy will, in every case, be maintained by payment of the Premiums within the stipulated period, notwithstanding the death of the Assured may have occurred before such premiums shall have been received.

No extra rate is charged for sea-passages, and on arrival in Europe a reduction is made in the premium without the assured being required to pass any Medical examination.

Policies effected by parties on their own lives, and assigned as a bona fide security to others, will not be rendered void in the event of death by suicide, duelling, or the hands of justice. Claims will become payable within three months after satisfactory proof of death.

The Medical Officer, Dr. Harris, sees applicants for Assurance at Hanson's Gardens, Nungumbakum, from 11 to 12 A. M., on Wednesdays and Saturdays.
