Madras Screw Pile Pier.

This important work has been completed by Mr. Frederick Johnson, Civil Engineer of North Street, Westminster, London, pursuant to the terms of a Contract entered into between the Council of India and himself, under date the 9th November 1858.

The dimensions of the structure are as follows:—

Extreme length, from high water-mark, 1,000 feet.

Breadth throughout, 40 feet. Besides its main body, the Pier has a cross of T-shaped head, 160 feet long by 40 broad. The work is constructed of Mitchell's Patent Screw Piles, of solid wrought iron, respectively 6 inches and 8 inches in diameter, placed in rows of four abreast, and at distances of 10 feet between the centre of each row.

These Piles are screwed down into the sand to the depths undermentioned, that is to say—the first 25 rows, 11 feet; the second 25 rows, 13 feet; and all the remainder, 15 feet.

The whole structure is securely tied together by transverse T-braces of wrought iron, and by longitudinal tension rods of the same material.

Commencing at the inner part side of the Pier Head and continued 200 feet on each side of the main structure, the iron Piles are protected by fender piles of timber placed at short intervals, and secured to the Iron Screw Piles by strong wrought Iron bands.

Originally the platform was composed of beams of creosoted Baltic Timber covered with teak planks, six inches broad by four inches thick, with spaces between the planks. This has now been replaced by beams of teak covered with mango planks, three inches thick, placed close together and the seams caulked in the same manner as the deck of a Ship.

Four lines of railway are laid down along the main Pier, with the necessary Turntables, &c., and the rest of the space available fitted up for the service of foot-passengers.

The Pier Head is furnished with six fixed cranes, varying in their lifting power from

3 to 10 tons, and 8 moveable cranes of 80 hundred weight each are placed on the railways traversing from point to point as necessity arises.

It is proposed to dispense with the Screw Moorings provided for in the Contract, and in lieu of them to put down Bridle Moorings with one-arm Anchors.

The total cost of the works, as agreed on in Mr. Johnson's Original Contract, was £1,03,616, but a second Contract was subsequently entered into for the extension of the structure shoreward a length of 80 feet, at an extra charge of £4,332.

The Pier was damaged in the Cyclone in May 1872 by a native vessel drifting through it, in the same place as was damaged on a former occasion by the *St. Bernard*.

An Act to prevent damage to the Madras Pier; to regulate the Traffic and to provide for the levying of Toll upon the same.

WHEREAS it is expedient to make Rules and Regulations for the purpose of preserving order upon the Madras Pier, and for preventing damage thereto, and to provide for the levying of Tolls upon the same: It is enacted as follows:—

Preamble. Tolls at such rates as Government may from time to time fix, to be levied on all persons, &c., using the Madras Pier.

II. The said rates or Tolls, when so settled or approved as aforesaid shall, one week at least before the same shall take effect, be published in the Government Gazette, and shall also be legibly painted in the English, Tamil and Telugu languages, on boards exhibited in a conspicuous place at the entrance of the said Pier, and also at the Pier Head.

III. A Toll-keeper shall be appointed with an establishment (all and every of whom shall wear a distinguishing badge), whose duty it shall be to take the lawful Tolls, settled or approved and published as aforesaid, to pay the same into such Treasury, and keep such accounts as Government may from time to time prescribe.

IV. Every person, other than the persons appointed to collect the Tolls under this Act who shall levy or demand any Toll upon the said Pier, and also every person who shall unlawfully and extortionately demand or take any other or higher Toll than the lawful Toll, or under color of this Act seize or sell any property, knowing such seizure and sale to be unlawful, or in any manner unlawfully extort money or any valuable thing from any person under color of this Act, shall be deemed to have committed the offence of cheating, and shall be liable to such punishment as is prescribed for that offence by the Indian Penal Code.

V. Any person who shall evade payment of the lawful Toll, or who shall force his way into or upon the said Pier without paying the same, or who being upon the said Pier shall refuse to pay the same or who shall force, or attempt to force his way off, or from, or out of the said Pier without paying such lawful Toll, or who shall assault or in any way obstruct any Toll-keeper or any of his Assistants in the execution of their duty under this Act, shall be punishable with imprisonment of either description for a term which may extend to three months, or with fine which may extend to Rupees 500, or with both.

VI. Any person who shall unlawfully and maliciously damage the said Pier or any of its appurtenances, fixed or movable, shall be punishable under Section 426 or 427 of the Indian Penal Code, according to the amount of loss or damage caused by such mischief; that is, with imprisonment of either description for a term which may extend to three months, if the damage caused be not above the amount of fifty Rupees, or to two years, if the damage be of greater amount than fifty Rupees, or with fine or with both.

VII. Any person who shall unlawfully and maliciously cut, sever or unfasten, or who shall otherwise injure any rope, chain, or other fastening by which any boat, barge, or raft shall be made fast to the said Pier, or to any Buoy near the same, or who shall cut or send adrift any Buoy that shall be laid down near the said Pier, shall be punishable under Section 426 or 427 of the Indian Penal Code, according to the amount of loss or damage caused by such mischief; that is, with imprisonment of either description for a term which may extend to three months, if the damage caused be not above the amount of fifty Rupees, or to two years, if the damage be of greater amount than fifty Rupees, or with fine or with both.

VIII. It shall be lawful for the said Toll-keeper, or any of his Assistants, to detain any merchandize, baggage or other articles landed at, or to be shipped from the Pier, until the lawful Tolls are paid; and in the event of such payment being refused or withheld or delayed for the space of one week, if the owner or consignee of such goods be in Madras, (or otherwise for the space of one Calendar month) it shall be lawful for the Government to sell or cause to be sold by public auction the said merchandize, baggage or other articles, and after paying all expenses attendant on such seizure, detention and

Government to sell or cause to be sold by public auction the said merchandize, baggage or other articles, and after paying all expenses attendant on such seizure, detention and

sale, to hold the proceeds, (minus double the dues by way of a fine) at the disposal of the owner or consignee of the goods.

IX. If any ship or vessel shall foul the Pier and thereby occasion damage thereto, the amount of such damage shall be ascertained forthwith, or as soon as conveniently may be, and upon the amount of such damage being proved before a Magistrate to his satisfaction, it shall be lawful for such Magistrate to make an order upon the Master or Owners of such ship or vessel for the payment of such amount, and if the same be not paid within 24 hours after demand upon, or notice of such order to the Owners or Agents, or to the Master or other Officer of such ship or vessel (or forthwith if the Magistrate shall so order), it shall be lawful for the Conservator of the Port of Madras to levy the amount thereof by distraining in manner hereinafter provided, or if necessary, by seizure and sale of such vessel.

X. If any vessel or the Master or Owners of any vessel shall become liable under the provisions of this Act to pay any sum of money either by way of fine or penalty, or for the purpose of making good any damage, the same shall not be paid within 24 hours after demand or after notice of such liability, (or forthwith if the Magistrate before whom the complaint for the recovery of such fine, penalty or amount of damage shall be made, shall so order), then and in every such case it shall be lawful for the Conservator of the Port of Madras to distrain or cause to be distrained any goods or merchandize, to whomsoever the same may belong, on board such vessel, and any tackle, apparel or furniture belonging to such vessel, and to remove the same to some convenient place, leaving on board such vessel, notice in writing of such distress, and of the cause thereof, and of the place of removal, and if such sum of money, together with the cost of such distress and removal, be not paid within three days after the seizure, exclusive of the day of seizure, the said Conservator may cause the goods, merchandize, tackle, apparel and furniture so seized to be sold, and out of the proceeds of such sale shall pay to Government the said sum which the said vessel or the owners thereof were liable to pay under the provisions of this Act, together with the reasonable costs of such seizure, detention and sale rendering to the Owner or Agent or Master or other person having the command of such vessel, the overplus, if any, on demand.

Amended Rules for the better management of Boats and Canoes plying for hire at the Out-Ports of the Madras Presidency.

The following Rules for the better management and control of Boats and Catamarans, plying for hire at all out-ports under the Madras Presidency to which they may be extended by an Order of the Governor of Fort Saint George in Council, published in the Fort St. George Gazette, have received the sanction of the Government of India, and will come into force on the 1st day of October 1867.

I. No person, either as owner or servant, shall use any Boat, Canoe, or Catamaran, to carry goods or passengers to or from any ship or vessel at the port, unless such person shall have previously received a license, and unless the Boat, Canoe, or Catamaran which such person shall so use has been registered, as hereinafter mentioned. And in case any person who has not received such license shall use any Boat, Canoe, or Catamaran for the aforesaid purpose, or such Boat, Canoe, or Catamaran shall not have been so registered, such person shall be liable to a fine not exceeding the sum of (50) fifty Rupees, or, in default of payment, to imprisonment for a term not exceeding (3) three months, and the Boat, Canoe, or Catamaran shall be liable to confiscation, on conviction before a Magistrate or Justice of the Peace. This rule is not to be considered as interfering with Ships' Boats or Pleasure Boats taking off or landing passengers and their Baggage, or Ships' stores, all of which, however, must be embarked or debarked within the limits assigned by the proper authorities, in default of which a fine will be imposed under Clause X. The right of withdrawing this indulgence will be vested in the Master Attendant or Collector of Sea Customs, or other Registering Officer appointed by Government, should it appear that the interests of Government require it.

II. The Master Attendant or Collector of Sea Customs, or other Registering Officer appointed by Government, on being satisfied that a Boat, Canoe, or Catamaran is seaworthy and fit for the service of the port, will, on application of the owner or owners, who must first subscribe to a declaration in writing that he or they fully understand these Rules, grant a license to such owner to use the Boat, Canoe, or Catamaran, for the aforesaid purposes, such license (if a Boat or Canoe) expressing its dimensions and the number of the crew, as well as the number of passengers and quantity of cargo, it is to be permitted to carry. And, to enable the Registering Officer to grant a correct license, he shall survey, or cause to be surveyed, any such Boat or Canoe in presence of the owner, or any person deputed by him, the fee for such survey being regulated at each port by order of Government.

III. And as often as the property in such Boat, Canoe, or Catamaran shall be transferred, the owner must produce his license to the Registering Officer, that the requisite alteration may be made, the new owner subscribing to a similar declaration, respecting his comprehension of these Rules. In wilful neglect or default of which notice of change of ownership for the space of six days after such may have taken place, the original owner shall forfeit a sum not exceeding (25) twenty-five Rupees, or in default of payment, to imprisonment for a term not exceeding (6) six weeks, on conviction before a Magistrate or Justice of the Peace.

IV. Every owner shall paint in black English figures not less than six inches in length, upon a white ground, on a conspicuous part of the bow on one side, and of the quarter on the other, the number mentioned in the Register and license of his boat. And if any person shall fraudulently paint, or cause to be painted or counterfeited, upon any Boat or Canoe, not having been duly registered, any such figures, every such person shall be liable to a fine not exceeding the sum of (100) one hundred Rupees, or, in default of payment, to imprisonment, with or without hard labor, for a term not exceeding (6) six months, on conviction before a Magistrate or Justice of the Peace, and every such Boat or Canoe shall be confiscated.

V. For the better prevention of fraud and omission in painting the figures above provided to be used, the Registering Officer shall cause the number to be cut or branded in the most common Native character in some part of every Boat, Canoe, or Catamaran, on its being registered; and if the owner should refuse to keep cut branded or painted, the figures assigned, or should hide or obliterate them, he will be liable to a fine not exceeding (50) fifty Rupees, or, in default of payment, to imprisonment for a term not exceeding (3) three months, on conviction before a Magistrate or Justice of the Peace. And if any person, not being an owner shall be guilty of, or shall assist in, altering, or erasing any such figures, he shall be liable to a fine not exceeding (50) fifty Rupees, or, in default of payment, to imprisonment for a term not exceeding (3) three months, on conviction before a Magistrate or Justice of the Peace. All numbers painted or branded on a Boat, Canoe, or Catamaran are to be effaced by the Registering Officer on the license being withdrawn.

VI. All men employed as Tindals or Boatmen shall be registered in the Office of the Master Attendant or Collector of Sea Customs or other Registering Officers appointed by Government, and no others shall be allowed to ply in Registered Cargo Boats, Canoes or Catamarans, unless on emergency, and with the permission of the Registering Officer.

Any offence against this rule will subject the owner to a fine not exceeding (10) ten Rupees, or, in default of payment, to imprisonment for a term not exceeding (14) fourteen days, on conviction before a Magistrate or Justice of the Peace, for each man so engaged in his Boat: and the Lascars so employing themselves will forfeit all title to hire.

VII. All Boats, Canoes, or Catamarans must be manned with such number of crew as may be determined on by the Registering Officer and noted in the license: and any owner allowing his Boat, Canoe, or Catamaran to ply without the requisite complement of men, will be liable to a fine not exceeding the sum of (50) fifty Rupees, or, in default of payment, to imprisonment for a term not exceeding (3) three months, on conviction before a Magistrate or Justice of the Peace. And all Boats, Canoes, or Catamarans, must carry such number of passengers and quantity of goods as shall be expressed in the license a refusal to take, which will subject the owner to loss of hire, and suspension of license, if considered necessary.

VIII. If any Boat, Canoe, or Catamaran be loaded with passengers or cargo beyond what is specified in the license, the Tindal of such craft shall be liable to a fine not exceeding (5) five Rupees, or, in default of payment, to imprisonment for a term not exceeding (8) eight days, and the owner of the Boat to a fine not exceeding (10) ten Rupees, or, in default of payment, to imprisonment for a term not exceeding (16) sixteen days on conviction before a Magistrate or Justice of the Peace, for every surplus passenger and candy of goods. And every other person who shall be guilty, either as principal or accessory, of the like offence, after having been duly warned by the Tindal or owner, shall be liable, on conviction before a Magistrate or Justice of the Peace, to a fine not exceeding (10) ten Rupees, or, in default of payment, to imprisonment for a term not exceeding (16) sixteen days for every surplus passenger and candy of goods.

IX. All owners of licensed Boats, Canoes, and Catamarans must conform to the rules laid down by the Master Attendant or Collector of Sea Customs or other Registering Officer appointed by Government, for regulating the hours between which they are to ply to and from the shore, who shall be at liberty to prevent any such craft from leaving the shore when, in his judgment, danger would be incurred by so doing; and in case any Tindal offend against this clause, he shall forfeit all hire, and the owner be subject to suspension of license.

X. All owners of licensed Boats, Canoes, or Catamarans shall submit their Boats when called upon to do so, to the inspection of the Registering Officer, or any person duly authorized by him, who is empowered to order such repairs to the Boats as, in his judgment, are required to render the establishment efficient. Any owner refusing to attend to such orders shall be subject to suspension of his license, and, if such refusal be continued beyond one month, to an entire withdrawal of the license.

XI. The following Rules, made by His Excellency the Governor of Madras in Council, with the sanction of the Governor-General in Council, in pursuance of the provisions contained in Act I of 1870, are hereby promulgated for general information:—

I.—The Master or other person in charge of any vessel about to enter any of the ports mentioned in Schedule A, annexed thereto, in which any case or cases of cholera, yellow fever, Asiatic plague, small-pox, or other disease dangerous to the general health, may have occurred within a period of ten days previous to the date of the arrival of such vessel at any of the ports aforesaid, shall notify this fact by hoisting a signal, which signal shall be in the day-time a yellow flag at the fore, and in the night time two lighted lanterns, one over the other, at the same mast-head; and such Master, or other person as aforesaid, shall not take up anchoring ground within the said port without having obtained the previous sanction of the Master Attendant or other officer in charge of the port, nor without such sanction shall he hold any communication with the shore, or with any shipping within the said port.

II.—Whenever the Master or other person in charge of any vessel about to enter any of the ports aforesaid is unable to produce a clean bill of health obtained from the proper authority at the port last visited, he shall notify this fact to the Master Attendant or other officer in charge of the port by hoisting a signal as aforesaid; and thereupon the Master Attendant or other officer in charge of the port may, on the report of the Port Surgeon or other officer appointed by Government in that behalf suggesting or warranting the adoption of such a measure, refuse to permit the Master or other person as aforesaid to anchor his vessel within the ordinary limits of the said port, and may forbid all communication between the vessel and the shore, until a quarantine of observation, not exceeding twenty-four hours from the receipt of the report of the Port Surgeon or other officer appointed by Government in that behalf, shall have been enforced.

III.—It shall be the duty of the Port Surgeon or other officer appointed by Government in that behalf to proceed without delay on board any vessel about to enter any of the ports aforesaid in which any case or cases of cholera, yellow fever, Asiatic plague, small-pox, or other disease dangerous to the general health, shall have occurred within ten days previous to the date of the arrival of such vessel as aforesaid, or whenever the Master or other person in charge of any vessel is unable to produce a clean bill of health from the port last visited and such Port Surgeon or other officer as aforesaid shall inspect the crew and passengers of every vessel as aforesaid, and make careful inquiry as to the nature of the diseases then existing on board every such vessel, and make a report thereon to the Master Attendant or other officer in charge of the port, (a)

IV.—Upon the receipt of the report of the Port Surgeon or other officer appointed by Government in that behalf, the Master Attendant or other officer in charge of the port shall determine whether any passengers or merchandize may be landed, or whether the

Such report shall be deemed to be a report within the meaning of Rule 3."—*Proceedings of the Madras Government, Marine Department, 20th August, 1872* No. 205, para. 9.

master or other person in charge of such vessel shall be required to take the vessel to a quarantine anchorage, or to put it out to sea, or to anchor it beyond the limits of the port in such place as may be appointed for that purpose by the Master Attendant or other officer in charge of the port, or to undergo a quarantine of observation.

V.—Whenever cholera, yellow fever, Asiatic plague, small-pox, or other disease dangerous to the general health, shall be actually prevailing amongst any of the crew or passengers of any vessel as aforesaid, and none of those diseases shall exist at the time in the neighbourhood of the port which the said vessel is about to enter or has entered, it shall be the duty of the Port Surgeon or other officer appointed by Government in that behalf to report this state of facts to the Master Attendant or other officer in charge of the port. Thereupon the Master Attendant or other officer in charge of the port shall require the Master or other person in charge of such vessel as aforesaid to take the said vessel out to sea for a period of ten days, or to anchor it at any place to be appointed for that purpose for a period of ten days.

VI.—All persons on board vessels in quarantine are hereby prohibited from communicating with the shore beyond the limits of any place which may be set apart for performing quarantine on shore, or with any vessel in the roadstead, or vicinity of the roadstead, unless the permission of an officer duly authorized by Government in that behalf shall have been previously obtained; and all persons are hereby prohibited from going on board any vessel in quarantine, unless the permission of an officer duly authorized by Government in that behalf shall have been previously obtained.

VII.—It shall be lawful for every officer duly authorized by Government in that behalf to appoint a sufficient number of subordinates for the purpose of enforcing these rules at the expense of the owners of such vessels; and the Masters or other persons in charge of such vessels shall pay the subordinates so appointed and defray all expenses incurred in pursuance of this rule. It shall be the duty of the officer in charge of the Custom House to refuse port-clearance to such vessels until all such demands be discharged.

VII.—It shall be lawful for every officer duly appointed as aforesaid, with the sanction of Government, to appoint as many places for performing quarantine on shore as may be required, and to provide accommodation at such places for passengers on board any vessel to which these rules are applicable, at certain fixed fees to be determined from time to time by Government, which fees shall be payable by the Master or other person in charge of such vessel. No person shall be permitted to leave the place so appointed within ten days from the date of the last case of the disease for which quarantine was enforced, unless with the previous sanction of the said officer duly authorized as aforesaid.

IX.—Disobedience to any of the above Rules, Nos. I, II, III, IV, V, VI, and VIII, will subject the offender and all persons aiding or abetting him to a prosecution under Section 271 of the Indian Penal Code.

MADRAS CYCLONE CODE.

SECTION I.—METEOROLOGICAL DEPARTMENT.

I. It will be the duty of the local Superintendents of the Meteorological Stations at Masulipatam, Negapatam and Trichinopoly, to telegraph promptly to the Government Astronomer and Meteorological Superintendent at Madras, in accordance with detailed instructions which have been issued by him to them, all abnormal, barometrical, temperature, and wind variations, which may indicate the likelihood, approach, prevalence, or passing away of a Gale or Cyclone. Arrangements have been made for similar information being furnished from Trincomallee and Pondicherry.

II. On the first observation and during the continuance of "suspicious" or "dangerous" weather, the Government Astronomer will telegraph to his local Superintendents at all out-stations any observations, inquiries, directions, and warnings regarding the weather, which he may consider of possible utility. Orders have been given to ensure priority of despatch before all ordinary messages to his telegrams and their consequent replies.

III. Whenever the Astronomer shall have reason to apprehend the advent of a Gale or Cyclone he will at once by telegram or otherwise, communicate warning to the Master Attendant, and during the prevalence of such Gale or Cyclone he will continue to give such information regarding its varying phases as may be deemed by him to be of possible utility.

IV. As Cyclones after passing over Southern India from East to West have been known to be destructive to shipping on and beyond the West Coast, the Government Astronomer will communicate to the Master Attendant such information as may be by him obtainable regarding the inland direction and progress of any future Cyclone, in order that timely warning of the apprehended danger may, when possible, be given to the local authorities along that coast, and may by them be given to the shipping.

SECTION II.—MARINE DEPARTMENT.

I. The Marine Department will enforce, as far as possible, a strict observance of the Port Rules in regard to the anchorage and berthing of ships, &c. A copy of these Rules will as heretofore be given to every Master of a Vessel arriving in the roads. From the middle of April till June, and from the middle of September till January, each Commander will also be furnished with a copy of Circular marked A, appended to this Code, regarding the precautions to be taken at the periodical changes of the monsoons.

II. As on the occasions of wrecks at Madras, the establishment of communication, between the shore and stranded ships is, without the aid of rockets or other Artillery projectiles, sometimes practicable, two sets of life-saving apparatus, complete with hawsers, &c., (but without rockets), will be kept in charge of the Master Attendant, who will be responsible for their being in a constant state of readiness and efficiency, for their periodical inspection, and for his boats' crews being trained to their use.

III. The Master Attendants at the Out-ports on the Eastern Coast of this Presidency will despatch by telegraph to the Master Attendant at Madras prompt intimation of apprehended dangerous weather, and during the prevalence of such weather will continue, when practicable, to furnish information regarding its changes. Such information, when of an important character, as well as that which may be obtained by the Marine Department from ships or steamers, tending to establish the probable direction and progress of a Cyclone centre, will be promptly forwarded by the telegraph or otherwise by the Master Attendant to the Government Astronomer.

IV. Whenever the Master Attendant, or in his absence, the Senior Officer of the Marine Department present at Madras, shall have reason to apprehend the advent of dangerous weather, he will as hitherto direct the hoisting of "a white flag with a blue cross," signifying "the weather is suspicious. Prepare for running to sea." Information of this will be given to the Brigade Major and also to the Superintendent of the Marine Police, who will at once place himself, Serjeant, boats' crews, and Catamaran men under the orders of the Marine Department.

The following arrangements will also be made:—

1. All Officers of the Marine Department will be in attendance.
2. The Boat and Catamaran men belonging to the Marine Establishment will be assembled and held in readiness for immediate service.

3. The Marine life-saving apparatus will be run out by the boatmen, so as to be ready for use either independently or in co-operation with the Ordnance rocket parties.

4. The boats' crews for night service will be mustered before dark, and will remain in the lower verandah of the Marine Office.

5. The Pier Establishment will remain during the night at the Pier Office and will keep a good look-out along the Pier.

V. During the prevalence of "suspicious or dangerous weather," any important barometrical variations and any other information or advice that may be of possible utility will be, by signal or otherwise, communicated to the shipping by the Master Attendant.

VI. If it is decided by the Master Attendant, or Senior Marine Officer present at Madras, that the shipping shall be ordered to sea, the "red flag with swallow tail," signifying "cut or slip," will be hoisted at the Marine Office. If the indication of the approach of the storm should occur after sunset, three good lights will be hoisted—one at the masthead, and one at each yardarm of the Master Attendant's flag staff. These signals will be repeated at the Fort, and intimation thereof will be sent to the Brigade Major, who will in either case order seven (not an uncertain number as heretofore) guns to be fired seawards with an interval of five minutes between each gun. It is, however, open to any Ship Commander to put to sea before the signal is made, should he deem such a course to be prudent with regard to his own ship; and the signal is, moreover, not to be considered an imperative order. Each Commander must know best the trim of his own ship, and must exercise his own judgment as to whether he ought to remain at his anchors or proceed to sea.

VII. When from a change in the direction or increased violence of the wind, from observing that ships are beginning to drive, or from any other reason, the Master Attendant deems that imminent danger of actual wreck has arisen, he will intimate the fact to the Superintendent of Marine Police and to the Brigade Major, who will order "the wreck signal" to be fired. This signal will be two guns fired landwards in quick succession and twice repeated with an interval of three minutes between each pair of guns.

VIII. The Senior Officer of the Marine Department will keep his officers and men together, or will distribute them along the beach as occasion may require. He will also point out to the Ordnance rocket parties those ships which first require assistance; to the Senior Officer of the troops where and how the military working parties can be most usefully employed; and to the Senior Officer of Police where his men are likely to be most needed.

IX. The officers of the Marine Department will wear their distinctive dress or uniform on wreck occasions.

X. The Master Attendant at Madras will telegraph to the Master Attendants at the other ports on the other coasts of Southern India such warnings and indications of the progress of Cyclones as may be of possible utility.

SECTION III.—POLICE.

I. On information from the Master Attendant through the Superintendent of Marine Police being received by the Commissioner of Police of the "suspicious weather" signal having been hoisted, the latter will telegraph to Vellore, Salem and Coimbatore, warning Police Officers to hold their respective reserves in readiness. On the receipt of a second telegram, each of these reserves will be despatched by first train to Madras, where orders as to their duties will be issued to them.

II. The Commissioner will also send intelligence to St. Thomas's Mount, where the Police reserve will be held in readiness and await further orders.

III. Information will be at once circulated by the Commissioner to Divisional Inspectors, by whom beats will be immediately extended and other duties so arranged as to enable them to collect at their respective central stations certain forces, which in all will amount to about 500 men.

IV. The Marine Police boatmen on the "suspicious weather" signal being hoisted, will, with their Superintendent and European Serjeant, be at once placed under the orders of the Master Attendant.

V. On the Superintendent of Marine Police being informed by the Marine Authorities of imminent danger of wrecks occurring, or on hearing the wreck signal, he will promptly send intelligence to the Commissioner of Police, who will distribute marching orders to the Divisional parties. Unless special circumstances should require a change of arrangements, the F and G Divisions and reserve will assemble under the Reserve Inspector at the Commissioner's Office and await further orders. The B, H and C Divisions will be marched without delay to the Pier under the Deputy Commissioner. The D. Division

will be marched to the Beach near the Fort, and the E Division to the Ice House. Each party will be accompanied by two Sowars or mounted men.

VI. Should the services of the Police not be at once required, the party at the Pier will be sheltered in the verandah of the Custom House; that at the Fort in the arcade of the Grand Arsenal; and that at the Ice House at the Inspector-General's Office.

VII. The entire Police Force will be under the Commissioner, who will consult the Marine Officers on the spot as to where the services of his men are likely to be emergently required. The Commissioner will issue whatever detailed orders may be requisite.

VIII. The Police will be mainly restricted to their own proper duties, i. e., the maintenance of order, protecting personal or other property washed on shore; supervising the conveyance of the shipwrecked crews and passengers to the nearest shelter, and as soon after as circumstances will permit to the Hospital, Bidden Home, or other places of refuge; bringing back the hammocks, doolies, and sick carts; guarding or removing the dead, &c. They are not to be employed in hauling ropes or recovering wreckage or cargo, save in emergent circumstances, where there are no or insufficient military or other working parties on the spot.

IX. The Commissioner of Police will see that duties are so apportioned as to enable the men to be relieved from the reserves as frequently as circumstances may render requisite.

X. All officers and men will be in uniform.

SECTION IV.—TROOPS IN GARRISON.

I. The Ordnance Department will as hitherto have charge of and will work the Rocket and life-saving Apparatus, but portions of the Garrison Battery will be instructed and occasionally exercised in its use under the orders of the Commissary of Ordnance in charge of the Grand Arsenal.

II. The two-day Marine Signals to the shipping signifying "suspicious weather" (white flag with blue cross) and "cut or slip" (red flag with swallow tail), and the night signal of the approach of dangerous weather (three good lights, one at the mast head and one at each yardarm) will be repeated at the Fort flag-staff. On the first signal being hoisted the Brigade Major will warn the Ordnance, Medical, and Commissariat Departments of the fact, in order that all concerned may be held in readiness. On either of the last two signals being hoisted seven guns will be fired from the sea face of the Fort with an interval of five minutes between each gun. No further action will, however, be taken by the "Troops in Garrison" consequent on any of these signals.

III. In case of intimation being received from the Marine Department by the Brigade Major of imminent danger or of actual shipwreck, or in case of such danger or shipwreck being observed from the Fort, the "wreck signal" will be fired. It will be two guns fired in quick succession from St George's Bastion, which will be twice repeated at intervals of three minutes.

IV. When the "wreck signal" is rendered necessary, the Brigade Major will send intimation to the Troops in Garrison and to the Ordnance, Medical and Commissariat Departments; and the following arrangements will be carried out:—

1. Two mounted Non-Commissioned Officers and six Troopers of His Excellency the Governor's Body Guard will proceed to the Fort and place themselves under the orders of the Brigade Major. They will be used as orderlies, as occasion may require, and when not actually wanted will be kept as much under shelter as convenient. Twelve additional men of the Body Guard will remain in their lines with their horses saddled in case their services as patrols may be needed to watch ships driving to points at some distance from the Fort, and to convey prompt intelligence of wreck or applications for aid along the extended line of beach to the Officers Commanding Troops and other authorities on the spot.

2. The Royal Artillery and British Regiment garrisoning the Fort will fall in in fatigue dress, and working parties will be detailed and promptly despatched to the scene of action as required. Before, however, the working parties leave the Fort, inquiry will be made at the Arsenal as to whether any assistance in men from the Royal Artillery is required to supplement the Ordnance rocket parties; and application will, under the orders of the Officer Commanding Troops in Garrison, be made at the Arsenal for a supply of boat or firehooks, ropes of moderate length and thickness, grappling irons, &c., which will be under charge of the Officers Commanding the working parties, and will be used in saving life and property from the surf. Lanterns will also be supplied should the wrecks take place at night.

3. Half of the Native Infantry Regiment at Royapooram will at once fall in, and accompanied by its Medical Officer with medicines and surgical appliances, will march to the beach in fatigue dress. The remaining Native Infantry in Garrison will be restricted to their respective lines and await further orders.

V. It is not anticipated that the Police will be unable of themselves to keep perfect order along the beach, and adequately to perform all their appropriate duties, and, therefore, the action of the troops may be directed towards saving life and property; but they will be ready to keep the ground or aid the Police in any way that may be required.

VI. The Officers Commanding Troops, will, wherever possible, consult with the Officers of the Marine Department on the spot as to where and how the services of their men can be most usefully employed, and the advice of the Marine Officers will be met with marked attention.

VII. Arrangements will be made for the relief, food, &c., of working parties by the Regiments and Departments concerned.

VIII. The Officer Commanding Troops in Garrison will make emergent requisition on the Officer in charge of the Camp Equipage Depot for such tents as may be required to shelter shipwrecked people.

IX. Officers on wreck duty will be in uniform, and mounted Officers will have their horses with them.

SECTION V.—ORDNANCE DEPARTMENT.

I. The Commissary of Ordnance, Fort St. George, will be responsible that three sets of life-saving apparatus, with rockets, &c., complete, are at all times kept packed in carts ready for use in the arcade of the Grand Arsenal, and that the Warrant and Non-Commissioned Officers, &c., of the Department are instructed and periodically drilled to the practical use of the whole apparatus.

II. Inconvenience, danger, loss of life and much damage of property were sustained in the Cyclone of May 1872 by there being no available means of dragging from the sea the logs, pieces of wreck, bales of goods, &c., which were dashing to and fro on the edge of the surf. There will, therefore, be held at all times in readiness by the Commissary of Ordnance a supply of boat and firehooks, grappling irons, and ropes of short lengths for issue as required to the Military working parties. Lanterns will also be kept ready for wreck night duties.

III. On the Commissary's receiving intelligence from the Brigade Major that the "suspicious weather" signal has been hoisted, he will make arrangements to have one rocket party of Europeans with a Detachment of Store Lascars in the Arsenal night and day till the danger passes off, or their services are required.

IV. On the "wreck signal" being fired, or on receiving intimation from the Brigade Major of imminent danger to the shipping, the Warrant and Non-Commissioned Officers will be formed by the Commissary of Ordnance into rocket parties with Detachments of Store Lascars; and, as speedily as possible, one, two, or three of these parties (as may be required) will proceed to the point or points where their services are most urgently required. These points, and the ships to which aid is to be first given, will be decided on by the Commissary in consultation with the Marine Authorities on the spot, by whom he will be guided in the matter. If the rockets are used in the rescue of any ship's crew, the whole apparatus attached to the rocket cart will, under ordinary circumstances, be employed and be worked by the men of the Ordnance Department.

V. Two trollies, drawn by mules, have been ordered on occasions of wreck to be placed at the disposal of the Commissary of Ordnance by the Commissariat Department. They are intended to be used for the conveyance of rocket apparatus, hawsers, &c., should any wreck or wrecks take place at a distance from the Fort, such as at St. Thomé or the Adyar; but, should they not be required for this purpose, they may be employed under his orders, for any other necessary use connected with wreck work.

VI. The Commissary of Ordnance will, in communication with the Officer Commanding the District, arrange for the instruction of Detachments of the Battery of Royal Artillery in the use of the rocket and life-saving apparatus.

VII. He will apply to the Brigade Major or Officer Commanding Royal Artillery, Fort, for any aid in men which he may emergently require in the case of a Cyclone.

VIII. When hawsers are necessarily left attached to wrecks, the Commissary of Ordnance or Senior Ordnance Officer will inform the Police of the fact.

XI. All Officers, Warrant and Non-Commissioned Officers and Store Lascars will be in uniform on wreck occasions.

SECTION VI.—MEDICAL DEPARTMENT.

I. On the "wreck signal" becoming necessary, the Brigade Major will send intimation of the fact to the Port Surgeon and the Resident Assistant Surgeon at the General Hospital. The latter will warn the Surgeon and the Physician of the General Hospital, and similar warning will be given to the Superintendent of the Eye Infirmary at Vepery and to the Surgeon of the 1st District at Royapooram by the Officers Commanding the Regiments at these places.

II. On hearing the guns of the "wreck signal," or on receipt of intimation from the Brigade Major, these Medical Officers (except the Physician, taking with them a portion of their establishments and the medicines and surgical appliances, which have been detailed by their Departmental Head, will forthwith proceed to the beach, and, in consultation with the Senior Marine and Military Officers on the spot, will distribute themselves to the various scenes of wreck or apprehended wreck, as occasion may require.

III. The Physician of the General Hospital will remain at the institution to receive and afford medical aid to all such as may be sent there from the beach for treatment.

SECTION VII.—COMMISSARIAT DEPARTMENT.

I. On intimation being received from the Brigade Major of imminent danger to shipping, or on the "wreck signal" being heard, two trollies drawn by mules will immediately proceed under a Staff Serjeant to the Grand Arsenal and there await the orders of the Commissary of Ordnance.

II. Two other trollies, drawn by mules, each under care of a Warrant or Non-Commissioned Officer, and each containing an assortment (which will always be held in readiness in waterproof covers or cases) of blankets, towels, flannel banians, flannel drawers, biscuits, brandy, water and drinking vessels, will be taken in the first place to the Marine Office, and thence, as directed by the Marine Officer, to the scenes of shipwreck, where the contents will, if required, be issued and used for the relief of shipwrecked persons under the orders of the directing Medical, Military or Marine Officers present. As many sets of bearers as are available with hammocks slung on poles will at the same time be sent to the beach and will be placed at the disposal of the said officers.

III. The Executive Commissariat Officer will also despatch a supply of draught bullocks with drivers to the Camp Equipage Depot for sick carts, which, under the orders of the Warrant or Non-Commissioned Officer in charge, will be taken to the beach as soon as the violence of the weather permits, and will also be placed at the disposal of the said officers.

SECTION VIII.—QUARTERMASTER-GENERAL'S DEPARTMENT.

The Quartermaster-General will give directions that the Officer in charge of the Camp Equipage Depot will in cases of wreck promptly comply with emergent requisitions in writing from the Commissariat Department for munchools, doolies, sick carts, &c., and with similar requisitions from the Officer Commanding Troops in Garrison for tents for the shelter of shipwrecked people.

A.

CIRCULAR.

Whether uncertain at present season, on necessity for being prepared to stand to sea.

The periodical season of uncertain weather on this coast having now arrived, the undersigned would hereby earnestly caution all Commanders of Vessels in these Roads to keep their ships as much as possible prepared in every respect for standing to sea, at short notice, should the necessity arise for doing so.

1. Top-gallant masts, &c., with their rigging also, must be got on deck, flying jib-boom sent in, topsails and courses kept ready reefed, and everything on deck and below so arranged as to admit of being quickly secured on emergency. A good slip rope and buoy should be attached to the riding cable, and, as an additional precautionary measure, a stout warp also, to be used as a spring in canting the vessel if found necessary, on being required to put to sea.

2. A prudent distance from the shore in respect to anchorage must now be observed, as a vessel lying nearer in at the time of bad weather here is, from exposure to the heavy ground swell, necessarily far less able to ride easily and securely than one well out.

3. Too much care cannot be paid in maintaining a perfectly clear berth, and Commanders should be mindful to keep their ships at as great a distance from each other as can conveniently be managed in order to avoid risks of collision by driving, or when slipping to stand to sea.

4. Every attention in the way of observation and look out will be paid by this Department, and the usual warning and other signals promptly made, as need may call for. In order to prevent misapprehensions on the subject of signals, especial attention is requested to the circumstance that (during the prevalence of foul weather, however, only) when a *private* signal is intended to be made to a single vessel, besides hoisting her number in the first instance, No. 1 will be kept flying at the opposite yard arm. All other signals in which this said distinction is not made use of are to be considered as general, and obeyed accordingly.

5. It is very desirable that, during the prevalence of suspicious or threatening weather, Commanders should stay at nights on board their respective vessels, and also remain by them as much as possible until the uncertain period has been fairly passed over.

6. In the event of wreck occurring, the usual appliances as put forth by the Board of Trade are adopted here, but should it be observed the rocket apparatus is not at once forthcoming, a line should be *immediately* sent on shore from the vessel by some kind of buoy, or other handy means, to which the tail block and double line will be attached by those on shore, or signals made as to what other steps must be carried out.

7. In conclusion, Commanders are earnestly reminded that, as intimated in the Port Instructions, "Commanding Officers are not to wait the display of signals if they deem it prudent to put to sea," it being in no way whatever obligatory for them so to await directions from the shore for standing to sea.

A COMPENDIUM OF THE LAW OF STORMS PREPARED FOR THE BAY OF BENGAL.*

The Cyclone in all its various forms, and in all portions of the globe subject to its visitation, must be denominated the most fearful and the most frequent enemy which the mariner's perilous calling obliges him to encounter. But for this obstacle the Bay of Bengal would be very easy of navigation, for the very large amount of evidence brought to bear upon the subject goes far to prove that in this sea all violent storms are of a cyclonic nature, and move from eastward and westward. They are great revolving storms varying in expanse from forty or fifty to some hundreds of miles, blowing round and round a centre or vortex, but with an ever-varying force, now lulling into a strong breeze, and again swelling up into a blast of uncontrollable fury. The peculiar characteristic of their revolving action is that in each hemisphere the gyration invariably takes place in one direction contrary to the hands of a watch. In North Latitude from right to left; and in South Latitude from left to right. The knowledge of this law not only supplies the seamen with direct means of distinguishing them from common gales, but reveals to him the position of his vessel with respect to the vortex, and points out the way to escape from it. The following remarks and examples, though intended for the Bay of Bengal and Andaman Sea will apply also to the open parts of the Arabian Sea. These storms take their rise a few

degrees of latitude north of the Equator, and at the periods of greatest atmospheric disturbance, owing to the changes of monsoons. About April and May, and Octr. and Novr., though these dates are only approximate, and unusual weather at any time may be attributed to their neighbourhood, and suspected accordingly, they are accompanied with threatening aspect of the sky, together with greasy halos round the sun and moon; rolled and tufted forms of clouds, with lurid streams of light and extraordinary colors; a heavy bank of clouds forming an arch in the direction of the storm, varying currents of clouds in motion above, and dark banks on the horizon below, with darting forks and threads of pale lightning, lurid redness at sunrise and sunset; peculiar moaning in the winds, the frequent presence of weary land birds and insects; and last and best warning of all to those who possess it, the decline of that invaluable monitor the Barometer, doubly valuable here, because its usual state is one of almost perfect tranquillity, broken only by a daily tide rising and falling about one-tenth of an inch, highest at 10 A. M. and P. M., and lowest at 4 A. M. and P. M.; whenever this action is suspended or interrupted, bad weather is never far off. The surface of the sea also exhibits signs of disquietude, becoming confused and uneasy, and crossed frequently by long swells from other than the quarter of the prevailing wind. Whenever any or all of these warnings are met with, the mariner should at once consider the almost certainty that exists of having to encounter a storm of the revolving nature we are treating of. His first duty is to find the centre of vortex, and its bearing from the ship. To do this he should note the direction of the wind, and with his face to it, tell off eight points to the right, if in the open sea, which we will first consider, thus—with wind at N. the centre is E., with wind E. centre S., wind S. centre W., wind W. centre N., and so with intermediate points—wind N. E. storm S. E., wind S. E., storm S. W., wind S. W. storm N. W., wind S. W. storm N. E., &c.; when near land or in roadsteads, these bearings require modifying, as will be explained hereafter. Having determined the direction of the storm, the next consideration in his position with regard to it. All experience tends to show that they commence to southward between southward and eastward and eastward and cross the Bay in a curve, sometimes sharp, sometimes very extended nearly N. and S., but an average tract of from S. E. to N. W. will suit the purpose of illustration. The continuation of the voyage, and the direct course of the ship ceases at this period to be a primary object. All knowledge and seamanship should be directed to avoiding this enemy, and the saving of life and property. The accompanying diagrams will show better than any verbal description both the nature of the evil and the remedy to be adopted. The outside circle represents the shape of the storm; the arrows and letters the direction of the wind; the small circle the centre; the dotted lines the path on which the storm is advancing; the compass points are also indicated.—See Figure 1.

In this diagram all the ships are shown having the wind on starboard quarter so that if the storm was stationary scudding in that position would always ensure safety. It does in fact do so in all cases, except with the wind easterly, when great care and judgment are requisite, and the value of preliminary observations becomes apparent, the direction of the storm, whether northward or westward of the average track, being of vital importance.

A careful study of books of reference and of logs and facts drawn from extended experience justify the conclusion that the best course with the wind at E. or to the north of east is to run to the N. W., changing your course as the wind veers to the northward, keeping it on the starboard quarter until it reaches N. W., when if bound to the N. E. you can bring it right aft and sail round the storm until your course is reached, or continue your track if bound to southward; much depends, however, upon the direction of the storm as indicated by phenomena, and the veerings of the wind if any have taken place.—See Figure 2.

With the wind from E. to E. S. E., carry on as long as possible to N. N. E., N. E., making all possible easting, then heave to on starboard tack. With wind at S. E. to S. if bound to southward or westward, you will be standing straight into danger, make easting until weather improves, then lie to on starboard tack. With wind from S. round to N. W., you must be behind the storm, and should have no difficulty in keeping clear of it. In fact the only risk with common management and taking in time is wind from E. N. E. to S. E.—See Figure 3.

When it suits best to heave to choose the port tack in the west side of the storm, and the starboard on the east side, for the wind in each will shift by the stern.

The foregoing remarks apply to the open seas, if Bengal and Arabia, and the ships are supposed to have sea room. They comprise all that need be said to advise and encourage the mariner. But on the coasts of Coromandel and Orissa and Ceylon, when the storm approaches the land, a modification of its form takes place, to which it is necessary to draw attention. The bad weather always commences a point or so on either side of north, although the centre may be E. S. E., S. E., or even S. S. E. There seems also to be a retardation of the speed of the southern half, as if it was marking time, until the outer half wheeled round before the whole flings itself on the land. This proceeding allows the careful navigator time to run to the southward, and having secured a position of

safety, return behind the storm to his anchorage, taking care not to overtake it. The shape of the land also favors this manœuvre, for even in Madras itself a run of a few hours to southward gives room to let the ship off to the westward, or run down to Pondicherry. Standing out into the offing is merely exchanging one danger for another, and is directly opposed to the law of storms. Run at the earliest intimation of danger, without giving a thought to the distance it may take you from your port. Wind and current will hurry you down, and when on the safe side wind and current will bring you back before the state of the sea and surf allow business to be reconducted. You are losing nothing, and knowing that you are following the advice given with all the advantages of scientific knowledge, of experience, of the study of example and practice, and the aid of the best instruments and the Electric Telegraph. You can dismiss from your mind the great care of forming a judgment in such critical period, and give all attention to the ship, knowing that your conduct will meet with approval.

Pages might be filled of successful instances of this treatment, and the disaster following any other courses, but space will not permit, and it is requested to accept the facts as they stand, reserving the study to some leisure moments.

When compelled to lie in severe weather, when shifts of wind are dangerous, it would be well to keep ready a large stone anchor, like Chinese, stone being selected for cheapness, and the materials of a catamaran, which being put overboard with say twenty fathoms of cable will make a secure buoy, at which the ship may ride with her strong bows to wind and sea, and extra stays to her mast, the rudder being secured in midships, which is always one of the first things to suffer when used to keep the ship's head up. Then with hatchways well secured, the crew sheltered, and only the state of the well-requiring attention, a vessel will stand a great deal: and from the moment the first change you have been taught to expect occurs, a spirit of confidence will replace the doubt and despondence which add additional terror to the disturbance around. It is, however, very advisable not to navigate if possible, during the bad-weather months. Any injury to a vessel will cause much greater detention, and involve direct expense, and no shipowner of common humanity or honesty will send a vessel to unload entirely or render herself so unseaworthy that the advent of one of these storms to be expected at any moment must ensure destruction to property and grievous loss of life.

SIGNALS TO BE USED WHEN A VESSEL IS SIGHTED HAVING ON BOARD THE GOVERNOR OF THE PRESIDENCY.

When any vessel is sighted having on board the Governor of the Presidency, four guns will be fired, two guns in quick succession, and after an interval of half a minute two more guns also in quick succession. From the 1st of February to the 30th of September, during the prevalence of southerly winds, the signal guns will be repeated at St. Thomas' Mount in order that they may be heard at the Adyar and Nungumbaukum.

Any vessel having on board a Governor of this Presidency should fly the Governor's Jack at the foremast head while entering the port.

MADRAS LIGHT HOUSE.

The Light House at Madras is immediately to the Northward of the walls of Fort St. George, and the light from it was first exhibited in January 1844. The light is elevated 128 feet above the mean level of the Sea,—and may be seen from the deck of a Ship at the distance of 20 miles. The Light is of the "Flashing Description," and the duration of the Flashes to that of the Eclipses or Dark periods is in the ratio of 2 to 3,—but as the nature of the motion is Reciprocating instead of Rotatory, the above ratio merely expresses the average proportion of the Light and Dark intervals which are themselves variable according to the position of the spectator. The rapidity of movement is so adjusted, that the duration of the Flashes will vary from 0' to 48", and that of the Eclipses from 0' to 7" the constant ratio of 2 to 3. From the South-Eastern extremity of the Pulicat Shoal the Light House bears S. 23° W. and is distant 13 miles, but no Ship or Vessel when hauling in from the Northward for the Madras Roadstead should bring the Light to bear to the Southward of S. 28, W. or S. S. W. $\frac{1}{4}$ W.—unless her position is well ascertained. Commanders of Vessels are warned of the serious risk they incur by incautiously approaching the dangerous vicinity of the Pulicat Shoal, as hazy weather or other causes may obscure the Light,—true Soundings therefore and a vigilant look out are imperatively called for. The limits of the Madras Roadstead (in 8 or 9 fathoms) are comprised within the following bearings, viz., from the Northward the Light House will bear S. 56° W., and from the Southward N. 81 W. or from S. b. W. to W. $\frac{1}{4}$ N.

The Light House at Madras is in Latitude 13° 5' 0" North.

And in Longitude 80° 20' East of Greenwich.

The Dimensions of the Light House are as follows:—

From the ground to the vane.....	125 Feet.
Light above the ground.....	117 "
Do. Sea, about.....	128 "
Diameter at base of column.....	16 "
At neck of do. below the capital.....	11 $\frac{1}{2}$ "
Height of Shaft column.....	84 "
Breadth of each corner buttress at the base not including cornice.....	16 $\frac{1}{2}$ "
Total breadth of the base including the buttress.....	55 "
Material, granite from Palaveram—cost in round numbers—Building.....	60,000 Rupees.
Lighting Apparatus, Reflectors and Lamps.....	15,000 "
	75,000 Rupees.

GOVERNMENT SAVINGS' BANK.

BANK OF MADRAS—POPHAM'S BROADWAY—Open daily from 10 A. M. to 3 P. M.

T. E. FRANCK, Esq.—Secretary and Treasurer, Bank of Madras, Ex-officio Secretary.

Savings' Bank Deposits—Revised Rules, 1874.

1. The duties connected with the Government Savings' Bank are conducted at the Bank of Madras, and the Secretary and Treasurer of that Institution is ex-officio Secretary to the Bank, and has immediate charge of its establishment, and is held responsible for the duties of the Bank being conducted in accordance with the orders which Government may from time to time issue.

2. The Bank opens daily (Sundays and general holidays excepted) for the transaction of business, from 10 o'clock A. M. till 3 P. M., except on Saturdays, when it is closed at 1 o'clock P. M.

3. With the exception of European Soldiers on the effective strength of the Army, for whom other provision has been made, all classes, including Native Soldiers, Non-effective Staff, Pensioners, Invalids, and the wives and children of Soldiers, may deposit their savings in the Bank, provided the amount of each deposit be not less than one rupee, or consist of fractions of a rupee, except when a draft on a Government Treasury is tendered; and no person will be allowed to deposit more than Rupees 500 in one year, or more than Rupees 3,000 in all. When the principal and interest at credit of any depositor shall amount to the latter sum, interest will cease, and no further deposit will be received.

A. G. C., No. 33, 13th Jan., 1874; G. O., No. 1026, 19th June, 1874.

4. Deposits tendered on account of security of Subordinate Officers of Government, will, however, be received up to Rupees 3,000 in one or more years, or in one sum, and deposits made in accounts opened with the sanction of Government on behalf of School, Dispensary and other Funds, may be received in excess of the limit of Rupees 500. In all other cases the prescribed limit should never be exceeded.

5. When security deposits are made by Government Subordinates or Contractors, the account will be opened in their own names, the Bank holding a letter of agreement in the form appended. The parties so depositing money with Government Officers must sign the letter of agreement, addressing it to the Secretary to the Government Savings' Bank or the Collector of the District, undertaking not to make any claim on the Bank for the principal of the sum deposited, except with the express written sanction of the Government Officer, not to object to payment by the Bank to the Government Officer upon his claiming it, and not to make any claim for the interest after such Officer shall have revoked the authority to him to receive it.

6. Persons residing in the Mofussil may effect the deposit and withdrawal of their savings either through the Civil, Hoozoor, or Divisional Paymaster's Treasuries, but no remittances are received from them direct at the Presidency Office.

7. Each depositor is furnished by the Bank with a "Pass-book," which book must be produced whenever a sum is deposited or withdrawn. Every sum paid or received is entered by the Bank in that Book. The Secretary of the Bank affixes his signature opposite to each deposit, and the depositor affixes his to each withdrawal.

8. The name, rank, profession, business, occupation or calling, and residence, of the depositors should be entered by the Bank in the Pass-books, and the signature or mark of the depositor must be written on the same page, or in the signature-book kept by the Bank.

9. Should a Pass-book be lost, another will be supplied by the Bank on the identity of the applicant, as the owner of the missing book, being satisfactorily established, and after the lapse of a month, a fee of one Rupee is charged for the new book.

10. Should a Pass-book be so defaced or torn as to render the entries therein illegible, it will be retained by the Bank, a new one supplied, and a Rupee charged for the same.

11. Depositors are permitted to deposit or withdraw at any time any sums or portions of sums deposited by them, but no person is permitted to deposit or withdraw money more than once during the month. An exception, however, is allowed in cases in which good and sufficient reasons are assigned.

12. As a general rule, the Bank refund money only to depositors in person; but when the depositor is a female, or prevented from attending at the Bank by unavoidable causes,

the Secretary exercises his discretion in making payments on behalf of such persons to those duly authorised by them to receive the money by an order written as follows:—

MADRAS, _____ 18.

To

THE SECRETARY TO THE

GOVERNMENT SAVINGS' BANK,

Madras.

Please pay to _____ Rupees _____, and place the same to my debit.

Signature.

13. No money is received by the Bank on account of trusts, and no joint account can be opened. But a depositor can open two accounts, one for his security as a Public Servant, or Contractor, and the other for his own private savings. Ordinarily no one may open for himself or the members of his family more than one account, but a wife can open a separate account for the investment of her own savings notwithstanding the existence of one in the name of her husband. So also each member of a (Hindoo) family, whether divided or undivided, may be allowed to open an account for himself.

A. G. C., No. 41, 3rd March, 1874.

Do. No. 7, dated 8th May, 1874.

Do. No. 33 of 13th Jan. 1874.

Do. 14 of 6th July, 1874.

Do. 7 of 8th May, 1874.

14. The surplus funds of an aided school, which the managers may put aside to accumulate for the eventual erection of School buildings, may be received in the Government Savings' Bank, to an amount not exceeding the limit allowed to private depositors, and on the understanding that two months' notice shall be given of the intention to withdraw such deposits.

A. G. C., No. 357, 1st Oct., 1867.

15. Instead of inserting the individual names of Commissioners and Deputy Inspectors of Local Schools in the accounts opened in the Government Savings' Bank, accounts may be opened in their capacity as Commissioners and Deputy Inspectors thus:—

"Commissioners and Deputy Inspector of Schools for the time being on account of* school in _____ Taluq," care being

A. G. C., No. 5397, 10th Jan., 1868.

* Name of village.

† Name of Taluq.

16. Deposits can only be withdrawn by those at whose credit they stand in the books of the Bank. Persons depositing money on behalf of a minor, should be warned that such money cannot be withdrawn during the owner's minority, except by a legally appointed guardian. If it is desired that the minor shall be able to withdraw the money, he must deposit it himself. When a deposit is made on account of a minor, the age of the child must be communicated, that it may be recorded by the Bank.

17. On the death of a depositor, the balance at credit will be paid to the Executor or Assignee, but if a depositor dies, leaving a sum of money not exceeding one thousand Rupees, and if Probate of his Will or Letters of Administration of his Estate, or a certificate granted under Act No. XXVII of 1860, (for facilitating the collection of debts on successions, and for the security of parties paying debts to the representatives of deceased persons) is not produced, the amount in deposit may then be paid in accordance with Sections 4 and 6 of Act V of 1873, on a Bond of Indemnity, copy of which will be furnished by the Secretary to the Bank on application. Should however, the depositor have been in the Army or Navy, the balance will be paid in conformity with the rules of the service to which he may have belonged.

18. If a depositor becomes insane, or otherwise incapable of managing his affairs, payments out of his deposits will be made from time to time to any proper person, or to a Committee, or Manager of the depositor's estate, under Section 19 of Act V of 1873.

19. Compound interest at 3½ per cent. per annum, or at such rate as may be authorized by Government, is allowed on deposits. No interest, however, is allowed for broken periods of a month, nor is it calculated on fractions of a rupee; but deposits during the first four working days of a month are dealt with as having been made in the preceding month, in regard to the interest due thereon.

20. All receipts given by Savings' Bank depositors for sums withdrawn exceeding Rupees 20, should bear a stamp of one anna.

A. G. C., No. 68, 3rd March, 1865.

21. The accounts are closed annually on the 31st of March, and the balance of Interest at that date is paid to depositors or carried to account.

22. In addition to the General Audit which all Public Accounts undergo in the Office of the Accountant General, a particular audit of the Accounts of the Bank after the close of each year, is effected by one of the gazetted Assistants to the Accountant General.

23. An Annual Statement of the transactions of the Bank, showing also the balance at the close of the year, is submitted for the information of Government and for publication in the Government Gazette.

24. Officers in charge of Civil, Hoozoor, and Divisional Paymasters' Treasuries are authorized to supply Pass-books, and to receive and refund deposits on behalf of the Government Savings' Bank, under the foregoing Rules; but every new book must be sent to the Bank that it may be registered and indexed before being made over to the depositor.

25. Officers in charge of Civil Treasuries, and Divisional Paymasters, communicate to the Bank, according to prescribed forms, the amounts deposited in, and withdrawn from, their Treasuries monthly.

26. As soon after the close of the official year as possible, Officers in charge of Civil Treasuries and Paymasters collect and forward to the Bank the Pass-books belonging to the depositors resident in their District, that the entries therein may be checked with those in the books of the Bank, and the interest due in each case credited.

27. Should an account be overdrawn in consequence of a withdrawal not having been duly debited, or through an erroneous entry in a Pass-book, the loss will have to be made good by the Officer at whose Treasury the oversight or mistake occurred.

28. When a depositor requests that his account may be finally closed, his Pass-book is to be sent to the Bank for that purpose.

29. Wherever Government Treasury business is conducted by Branch Banks, deposits on account of Government Savings Bank should be received at the Branch Banks under orders of the Collector, part payments therefrom being also made under his orders. In regard to entire withdrawals, the sanction of the Secretary to the Government Savings' Bank is necessary.

30. Pass-books to new depositors should be issued by the Branch Banks, and statements of deposits and withdrawals should be rendered to the Secretary Savings' Bank, by Collectors.

31. A statement of Military deposits on account of the Government Savings' Bank, is forwarded annually by the Accountant General to the Secretary to the Government Savings' Bank for verification.

Lost Notes, obtainment of duplicates.

Loss of a Government Promissory Note is reported to the Comptroller General, Calcutta. It is then stopped in the Loan and Interest Books at the Public Debt Office, and the applicant for a duplicate note is required to advertise the loss in three successive issues of the *Gazette of India* as well as the *Government Gazette* of the Province where he resides. Should the note have been enfaced for payment of interest at any other Treasury than Calcutta, the loser is required to give the necessary information to the Treasury concerned, and two years after the date of the last advertisement of loss he has to apply to the Public Debt Office for a Duplicate Note.

Should the Note alleged to be lost not be forthcoming, and the title of the claimant be fully proved, the owner and two sureties to be approved of by the Solicitor to Government are required to execute a bond of indemnity, and on the receipt of such bond of indemnity, the Controller General submits the case, with his opinion, for the orders of the Government of India. In case, however, there be any doubt as to the title of the claimant, the case is in the first instance forwarded to the Advocate General.

As a general rule, duplicate Notes will not be issued until ten years after the last correct advertisement of loss, but meanwhile, interest will be paid on the lost Notes after the lapse of two years under a bond of Indemnity.

LOST OR MUTILATED CURRENCY NOTES.

Notes slightly mutilated, will be readily paid to *bona fide* holders upon a written statement as to the circumstances of mutilation, and upon an indemnity signed by a Banker or some known responsible person.

Seriously mutilated or wholly lost or destroyed Notes which can be identified by the number and date; will, subject to a strict investigation, be paid only on the authority of the Head Commissioner of Paper Currency, Calcutta, or of the Commissioner at Madras or Bombay, at whose Head Circle the Note may be payable.

Intimation of the loss, destruction, or mutilation of a Note or portion of a Note, must be sent to the office where the Note is payable, thus—

If it be a Calcutta Circle Note, notice should be sent to the Head Commissioner of Paper Currency, Calcutta.

If a Madras Circle Note, and not having the countermark of either the Calicut, Trichinopoly, or Vizagapatam Circles, notice should be sent to the Commissioner of Paper Currency, Madras.

If a Bombay Circle Note, notice should be sent to the Commissioner of Paper Currency, Bombay, and the Secretary and Treasurer, Bank of Bombay.

If an Allahabad Circle Note notice should be sent to the Deputy Commissioner, of Paper Currency, Allahabad, and Head Commissioner of Paper Currency, Calcutta.

If a Lahore Circle Note, notice should be sent to the Deputy Commissioner of Paper Currency, Lahore, and Head Commissioner of Paper Currency, Calcutta.

If a Nagpore Circle Note, notice should be sent to the Deputy Commissioner of Paper Currency, Nagpore, and Head Commissioner of Paper Currency, Calcutta.

If a Calicut Circle Note, notice should be sent to the Deputy Commissioner of Paper Currency, Calicut.

If a Cocanada Circle Note, notice should be sent to the Deputy Commissioner of Paper Currency, Cocanada.

The Currency Department cannot stop payment of any Currency Note, even though it be one that has been reported to have been "lost" or "stolen." All that can be done, is to register the loss, and intimate the name and address of the presenter to the loser and to the Police.

For further particulars see Notification in *Gazette*, 21st August, 1866, No. 233.

Servants soliciting gratuities will be dismissed from the Company's Service.

Half the amount of passage-money is required to be paid on securing passage, and the balance before embarkation, and can be paid to the Company's Agents at Calcutta, Bombay, or Madras, whichever is most convenient.

Passengers not embarking after engaging passage, forfeit half the amount of passage money.

* For Overland Cargo.

In case, however, of a passenger being unavoidably prevented from availing himself of a passage at the period for which it is taken, transfer of the passage can be effected to a subsequent Steamer, on sufficient notice being given, without forfeiture of any portion of the passage-money.

Passengers must comply with the regulations established on board the Steamers, for general comfort and safety.

No Berth or Cabin is to be occupied by a passenger without application to the Agent on shore, or to the Purser on board. It is to be understood that a passenger occupying a cabin of two or more berths, on the departure of the vessel (unless he shall have paid an additional sum for its exclusive occupation) is not to object to the vacant berth or berths being filled up at the intermediate Ports, if required.

Passengers for Bombay, Straits, China and Australia are transferred at Point de Galle, and will be required to defray their own Hotel expenses in the event of detention.

The intermediate rates of passage-money for reserved accommodation between Madras and Ports in India, China and Australia, will be regulated according to the accommodation required.

The rates for Native servants, between Ports in India and China, include a passage back to the Port of embarkation, if returning at once. A reduction of one-half is made in favour of Native servants returning from England within three months after arrival from India.

Passengers are at liberty to remain at one or more intermediate Ports, and proceed by the succeeding Steamer, provided there be room, upon application to the Agent, who will give written permission on the passage ticket.

Passengers wishing to telegraph their safe arrival in England to friends in India, can do so on payment at Madras of Rupees 6-0-0; the receipt for which must be forwarded on arrival, to the Manager, Oriental Telegram Agency, 140, Leadenhall Street, London, when the message will be immediately despatched. Baggage.

The attention of passengers by the Company's Steamers is particularly requested to the undermentioned Regulations in reference to Baggage; much trouble and loss are occasionally caused by their neglect or non-observance. These Regulations are equally important to passengers between Suez and Alexandria, for the Egyptian Transit Administration will not accept any responsibility unless they be strictly complied with.

All Baggage should be packed in Leather Portmanteaux or Trunks, marked with the owner's name and port of destination in paint in full, and fastened securely with case locks; padlocks and leather straps being liable to damage or removal. The Transit Administration will not be responsible for the safe conveyance of insecure Packages.

Deck-chairs are conveyed free of charge at passengers' risk.

Canvas covers to Packages of Baggage are not recommended, as they are frequently removed and lead to the loss of the Packages.

Packages containing Jewellery, Plate, or other Valuables, must be specially booked, and Freight paid thereon at the Company's established rates, failing which such Packages are liable to seizure and confiscation.

First Class passengers are allowed 336 lbs. of personal Baggage free of Freight; Second Class passengers and servants 168 lbs. each; children over 3 and under 10 years, half these weights.

A passenger taking a reserved cabin will be entitled to take in the Steamers, free of Freight, 4½ cwts.; and a married couple, paying for reserved accommodation, will be entitled to take 9 cwts.

Passengers from Bombay can ship their heavy Baggage either at Calcutta or Madras, should they find any convenience in doing so, and if proceeding via Brindisi can forward any of their Packages to Southampton without extra charge.

The charge for conveyance of extra Baggage, will be at the rate of 10s. per cwt. between Southampton, Gibraltar, Brindisi, Malta, or Alexandria; 10s. per cwt. between Suez, India, China, Japan and Australia.

The Insurance of Baggage can be effected on moderate terms.

Passengers passing through Egypt will be charged by the Transit Administration 7s. per cwt. for conveyance of Baggage through, should it exceed, for First Class passengers, 336 lbs. each, and Second Class 200 lbs. each; Children over 3 and under 10 years are allowed half the above weights. This amount is collected on Board the Company's Steamers, for the convenience of passengers.

Passengers requiring information, respecting their Baggage during the voyage, can obtain it on application to the Officer in charge.

Passengers who may miss any Package of Baggage on arrival at their destination, are recommended to apply, *without delay*, to the Company's Agent, giving full particulars, in writing, when application will at once be made to the Missing Baggage Depot at Bombay, or at Southampton.

Baggage can be occasionally had up from the Baggage-room during the passage, on application to the officer in charge.

No Trunks or Boxes allowed in the Saloon or Cabins, but only small Portmanteaux or Carpet Bags. The Portmanteaux for Cabin use should not exceed 3 feet in length, 1 foot 3 inches in width, and 1 foot 3 inches in depth.

CAUTION.—Goods of a dangerous nature. The Company will not receive on board of their Vessels any goods of a dangerous or damaging nature. If any such goods be shipped without notice, the shipper will not only be liable to the penalties imposed by Statute, but also for all damages sustained in consequence of such shipment.

NOTICE.—All parties are requested to take notice that the Company do not hold themselves liable for detention or delay of passengers arising from accident or from extraordinary or unavoidable circumstances, or from circumstances arising out of or connected with the employment of the Company's Vessels in Her Majesty's Mail Service, and that the Company do not hold themselves liable from danger to or loss or detention of Passengers' Baggage, or for any consequences arising from the restrictions of quarantine wheresoever imposed. In all cases in which the Company's Steamers may be placed in quarantine, First Class passengers will be charged Ten Shillings and Second Class passengers Five Shillings per diem for their maintenance on board during the detention of the ship.

SPECIAL NOTICE.

The Egyptian Transit Administration having issued a notice that they will decline to take charge of any Packages of Baggage intended for despatch through Egypt that are not properly secured, passengers are earnestly requested to see that all Portmanteaux, &c., shipped by the Steamers of this Company for Europe, are thoroughly efficient in this respect, thus obviating the probability of any plunder or delay in Egypt.

Freight.

All packages shipped on board the Company's Steamers must be well packed, have a distinctive mark in English, and the port of destination also inscribed on each in English.

Although the Company's Steamers for the most part trade to free ports, all packages shipped on board must be accompanied by a registered Custom House Pass. Non-compliance with this Regulation will subject shippers to detention in having their goods put on board, till a Pass from the Custom House is obtained.

Freight on all packages must be prepaid at port of shipment.

The Company reserve to themselves the liberty to charge by weight, measurement, or value, and are not accountable for leakage, or breakage or for damage arising from insufficiency of address or packing; nor for damage, leakage, or breakage to re-exported goods.

For general facility, the Company reserve to themselves the power of landing cargo at the ports of delivery in their own or hired boats, and when landed, to deposit the same on wharf, in receiving vessel, or in store; charging consignees with the expense of landing and storing, according to a scale of rates to be seen at the Offices of the Agents. Goods so landed to be at risk of consignees after being discharged from the Steamer.

The Company do not guarantee that the Steamers shall have room at ports of transshipment, nor that there shall be no delay there.

The correct contents of all packages must be stated in Bills of Lading. Packages containing Gunpowder, Sulphuric Acid, or any other material which might occasion accident, are strictly prohibited from being shipped on board the Steamers.

Packages weighing more than 3 cwt. (excepting bales and boxes of manufactured goods) are only carried at advanced rates of freight, and by special agreement.

When, owing to heavy weather or other causes, goods cannot be safely landed at their destination within the time stipulated for stoppage at such port in the Company's Mail Contract with Government, the Company reserve to themselves the right to convey them to the next port on the voyage or to the final port of call, to be returned thence by one of the Company's Steamers having space, at the Company's expense and Merchants' risk; and the consignee cannot claim indemnity for such delay nor the consequences thereof.

A written declaration of the contents and value of goods is required by the Company, and must be delivered by the shipper to the Company's Agent with the Bill of Lading. A wrong description of contents or false declaration of value shall release the Company from all responsibility in case of loss, seizure, or detention, and the goods shall be charged double freight on the real value, which freight shall be paid previous to delivery.

In case of quarantine the goods may be discharged at risk of the Owners of the goods into quarantine depot, lighter, barge, hulk or other vessel as required for the ships despatch. Quarantine expenses upon the goods of whatever nature or kind shall be borne by the owners of the goods.

The Company will not be liable for any single package of cargo beyond the value of Five Hundred Rupees, unless additional freight at half specie rates has been paid on value above Five Hundred Rupees, and in all cases where claims are made, proof of loss must be furnished.

Specie will not be landed by the Company. It can only be delivered on presentation of Bill of Lading on board, and will be carried on at consignee's risk if delivery is not taken during the Steamer's stay in port.

Goods must be alongside at least 24 hours before the advertised hour of departure and shippers are requested to see that their receipts for same are in order before leaving the vessel. Most of the mistakes made arise through shippers sending their goods at the last moment.

Bills of Lading are only signed on the Company's forms, which may be had of the Agents at the several ports for the stamp duty only. These must be presented and delivered up, cancelled, before delivery of goods can be granted.

Single packages and parcels, not exceeding 2 feet in measurement, are charged Rs. 2-8 under 1,000 miles; under 2,000 miles, Rs. 5; over that distance, Rs. 10.

Horses, Cattle, &c.

Carriages are conveyed by special agreement, and on deck at Shippers' risk.

The rates of conveyance for animals are exclusive of food, and all animals are carried on deck at shippers' risk.

The charge for conveyance of horses includes passage of a syce in attendance on each horse, and space for fodder, which must be provided by the owner.

Horse boxes are not provided by the Company.

Shippers of horses are recommended to remove the shoes, and to provide coir matting for the animals to stand on, to prevent them slipping with the motion of the vessel.

Objects of the Company.

This Company has been incorporated under a special Act of Parliament (37 and 38, Victoria—Session 1874) and is formed by the amalgamation of the Great Southern of India and Carnatic Railway Companies. Its object is to provide railway accommodation between Madras and the provinces of Southern India, lying to the south of the existing Madras Railway. Starting from Madras the lines pass through Chingleput, Cuddalore, Porto Novo, Combaconum, Tanjore (from which town there is a branch to Negapatam), Trichinopoly (from whence a branch runs to Caroor and Erode), Dindigul, Madura and Maniachi. From the junction at the town last mentioned lines run to Tinnevely and Tuticorin. The provision of branches from the main line to Conjeeveram and to Pondicherry is under consideration.

At present there is an isolated portion of the South Indian Railway system running from Conjeeveram to Arconum. This line and that from Trichinopoly to Erode, are not on the metre gauge, which gauge has, however, been adopted for the remainder of the Company's undertakings. When the whole of the railway has been put upon one footing in regard to gauge, as it ultimately will be, the South Indian Railway will consist of about 670 miles of metre gauge line and will be the longest continuous route in India constructed on the 3 feet 3½ inch gauge.

A gap in the through working now existing (1877) between Porto Novo and Shiyali will be reduced in the course of a few months by the opening of an extension from Shiyali to the southern bank of the river Coleroon.

TIME AND FARE TABLES ON AND FROM SUNDAY THE 1ST JULY 1877.

The times shown in these Tables are those at which the Trains are intended to depart from the various Stations, but the Company cannot guarantee these times being kept under all circumstances, nor do they hold themselves responsible for delay.

Pending the completion of the permanent bridges over the Palar, Thondiar, Panar, and Guddalum rivers, the trains will run over a tramway laid across the bed of each river. In the event of floods preventing the use of these tramways, traffic between Chingleput and Cuddalore will be interrupted and the running of the trains may have to be temporarily discontinued.

TABLES OF COINS, WEIGHTS AND MEASURES.

(INDIAN.)

MONEY.

Silver is the legally constituted medium of exchange in all money transactions throughout the British Indian possessions. Gold Coin was intended to be a legal tender at a fixed value of 16 Rupees for the Gold Mohur of Calcutta and 15 Rupees for the Gold Rupee of Madras and Bombay; but it is not demandable in payment and is left to find its current value in the market. In 1841 officers in charge of public treasuries were authorized to receive gold coins struck in conformity with the provisions of Act XVII of 1835, establishing the 15 Rupee pieces, but in 1852 when the gold from California and Australia began to pour their treasures over the globe and in apprehension that India would be inundated with gold, the proclamation of 1841 was rescinded and gold debarred from entrance into any of the treasuries. Since then the sovereign has been made a legal tender for 10 Rupees.

WEIGHTS AND MEASURES.

The origin of all *Weights and Measures* in England was derived from a grain of wheat; 32 of them, well dried and gathered from the middle of the ear, were to make one pennyweight; 20 dwts. 1 ounce; and 20 oz. 1 pound. It was subsequently thought better to divide the pennyweight into 24 equal parts, called *grains*.

William the Conqueror introduced into England what was called Troy Weight, from Troyes, a town in the province of Champagne, in France, now in the department of Aube, where a celebrated fair was held. The English were dissatisfied with this weight, because the pound did not weigh so much as the pound in use at that time in England. Hence arose the terms *avoir du poids*, which was a medium between the French and the ancient English weights.

Avoirdupois Weight was first made legal in the reign of Henry VII, and its particular use was to weigh provisions and coarse heavy articles. Henry fixed the stone at 14 lbs., which has been confirmed by a recent Act of Parliament.

With respect to Measures of Length, it is recorded that the various denominations were constructed from a *corn of barley*, 3 of which, well dried from the middle of the ear, made an inch. Other terms were taken from portions of the human body—such as the *digit* ($\frac{1}{4}$ of an inch, or a finger's breadth), a *palm* (3 inches), a *hand* (4 inches), a *span* (9 inches), a *foot* (12 inches), and a *cubit* (18 inches), being the length of the arm or bone from the elbow to the wrist. A *pace* (5 feet), or two ordinary steps; a *fathom* (6 feet), from the extremity of one hand to that of the other, the arms oppositely extended. It is stated that Henry I, in 1101, commanded that the *ulna*, or ancient ell, which answers to the modern yard, should be made the length of his arm; and that the other measures of length were thence derived, whether *lineal*, *superficial* or *solid*.

The *restored standard* of Lineal Measure, whose length is called a yard is a solid square bar 38 inches long, and one inch square in transverse section, the bar being of bronze or gun-metal, at the temperature of 62° of Fahrenheit's thermometer, marked copper 16 oz., tin 2½ oz., zinc 1 oz.; and near to each end a cylindrical hole is sunk to the depth of half an inch; the distance between the centres of the two holes being 3 feet or 36 inches, or 1 *imperial standard yard*. The standard square and cubic measures will therefore depend entirely upon it.

All Measures of Capacity were first taken from Troy Weight, and several laws were passed in the reign of Henry III, enacting that 8 lb. Troy of wheat, taken from the middle of the ear and well dried, should make 1 gallon of Wine Measure, and 8 such gallons make a bushel.

The carat is divided into grains, and the grains into quarters, thus:—

The Carat.—Troy.

	lb.	oz.	dwt.	gr.		dwt.	gr.
24 carats make	1	0	0	0	1 grain or $\frac{1}{4}$ carat make	2	10
2 carats " "	0	0	20	0	1 quar. of a grain " "	0	15
1 carat " "	0	0	10	0			

TROY WEIGHT.

24 grains.....	make 1 pennyweight (dwt.)
20 pennyweights.....	" 1 ounce (oz.)
12 ounces.....	" 1 pound (lb.)

By this weight gold, silver, jewels, and precious stones are weighed. It is also used in ascertaining the strength of spirituous liquors, and in experiments in natural philosophy, though the weights for this latter purpose are generally constructed in decimals from 10,000 grains to the one-hundredth part of a grain; it is used to compare the different weights with each other. The weighing of diamonds is an exception in jewellery; they are weighed by the carat, which is four grains.

14 oz., 11½ dwt., 16 grs. Troy, are equal to a pound avoirdupois; or a pound Troy bears nearly the same proportion to a pound avoirdupois as 14 to 17 or 5,760 grains are a Troy pound, and 7,000 such grains are a pound avoirdupois. This standard was adopted as being the weight of a cubical inch of distilled water, which was found to weigh by Fahrenheit's thermometer (the barometer being at thirty-six inches), 252 grains, 458 thousandth part of a grain.

A VOIRDUPOIS WEIGHT.

A line is the 12th part of an inch.

The Scotch and Irish miles are about 1½ English.

The hand is rarely used except in the measurement of horses; and the fathoms in sounding the depth of the ocean or of miles. The navy long-line is 48 feet long.

N. B.—The square of a number is obtained by multiplying the number by itself as $12 \times 12 = 144$, the square of 12.

By this measure all things that have length and breadth are measured.

Land is measured by *Gunter's Chain*; which is as follows:—

Length.		Square.
7·92 inches	make 1 link.	62·726 sq. inches.....make 1 sq. link.
12 inches, or 1·515 links.....	" 1 foot.	2·295 sq. links....." 1 sq. foot.

80 chains.....	" 1 mile.	100·000 sq. links....." 1 sq. acre.

CUBIC OR SOLID MEASURE.

1,738 inches.....	make 1 solid foot.
27 feet.....	" 1 solid yard.
40 feet of rough, or 50 feet of hewn timber.....	" 1 ton or load.
42 feet.....	" 1 ton of shipping.
1 yard of earth.....	" 1 load.

The dimensions of timber, stones, excavations, and all works which have length, breadth and thickness, are taken by lineal measure; but the contents are calculated by cubic measure.

A Cube is a solid body, and contains length, breadth and thickness. A cubic number is produced by multiplying the simple number twice into itself; thus 343 is a cubic number, being produced by multiplying the number 7 twice into itself; as $7 \times 7 \times 7 = 343$.

ARTIFICERS' TABLES AND CALCULATIONS.

TIMBER.

40 cubic feet of unhewn timber.....	} 1 load.
50 do. of squared timber.....	
600 superficial feet, 1 inch planks or deals.....	
400 do. 1½ inch ditto.....	
300 do. 2 inch ditto.....	
240 do. 2½ inch ditto.....

150 do. 4 inch ditto.....	

20 deals 12 feet long, 3 inches thick, 9 inches wide, 5½ loads.

1 ditto contains 2 feet, 3 inches cubic.

A batten is from 2 to 8 inches broad, and from ½ to 1½ inch thick.

A deal is above 7 inches wide.

A plank is 11 inches wide, or above.

120 deals are 1 hundred.

TO MEASURE PIPES, TANKS, &c.

The following is a rough-and-ready way to find the contents of circular tanks, wells and pipes:—

Square the diameter in inches, and cut off the right-hand figure as a decimal, and the result will be gallons in each 3 feet (yard) of depth,—or length, if a pipe; as,—

PIPES.			Gallons in 3 feet.
Diameter Inches.	Inches.	Square.	
2.....	$2 \times 2 =$	4 or	0·4
6.....	$6 \times 6 =$	36 or	3·6
12.....	$12 \times 12 =$	144 or	14·4
WELL OR TANK.			
36.....	$36 \times 36 =$	1,296 or	129·6
100.....	$100 \times 100 =$	10,000 or	1,000·0

TO FIND THE CONTENTS OF A BARREL.

If the diameter is equal everywhere—Multiply the square of the diameter in inches by the depth, and divide the product by 359. Thus a barrel with the diameter of 36 inches, and 50 inches deep; $36 \times 36 \times 50 = 64,800 \div 359 = 180\frac{1}{2}$ old measure = 183½ Imperial gallons. If the centre or bung diameter is larger than the ends—First square the centre diameter in inches; and then multiply it by 2, to which add the square of the diameter of the end; then multiply this by the length of the cask and divide by 1,077. Thus a barrel with a centre diameter of 28 inches, end 25 inches and length 36 inches: $28 \times 28 \times 2 = 1,568 + 625 (25 + 25) = 3,163 \times 36 = 78,948 \div 1,077 = 73$ old measure = 74½ Imperial gallons.

TO MEASURE TIMBER.

In order to ascertain the contents of unsquared timber, multiply the square of the quarter girth, or of ¼ of the mean circumference, by the length. When the buyer is not allowed his choice of girth in taper trees, he may take the mean dimensions, either by girthing it in the middle for the mean girth, or by girthing it at the two ends, and taking half of their sum. If not, girth the tree in so many places as is thought necessary, then the sum of the several girths divided by their number, will give a mean circumference, the fourth part of which being squared, and multiplied by the length, will give the solid contents.

The superficial feet in a board or plank is known by multiplying the length by the breadth. If the board be tapering, add the breadth of the two ends together, and take half their sum for the mean breadth, with which multiply the length.

The solid contents of squared timber are found by measuring the mean breadth by the mean thickness, and the product again by the length. Or multiply the square of what is called the quarter girth, in inches by the length in feet, and divide by 144, and you have the contents in feet.

APOTHECARIES' WEIGHT.

20 grains (gr.) make 1 scruple =	20 gr. Troy, sign $\mathfrak{z}$
3 scruples " 1 drachm =	60 " " $\mathfrak{d}$
8 drachms " 1 ounce =	480 " " $\mathfrak{ss}$
12 ounces " 1 pound =	5,760 " " lb.

Apothecaries compound their medicine by these weights, but buy and sell by avoirdupois.

The pound, ounce, and grain, are the same as in Troy weight.

MEDICAL PROPORTIONATE DOSES.

If a dose be a single drachm for a person of 21 years of age, the proportionate doses according to the age will be:—

Under 1 year	$\frac{1}{12}$ or 5 grs.
2 years	$\frac{1}{6}$ " 7½ grs.
3 " "	$\frac{1}{4}$ " 10 grs.
4 " "	$\frac{1}{3}$ " 15 grs.
7 " "	$\frac{1}{2}$ " 20 grs.

20 " "	$\frac{3}{4}$ " 40 grs.
Above 21 " "	1 " 70 grs.

1.—When Government 4 per cent. Securities sell at 76, what are the equivalent values of the 5 and 5½ per cent. loans?

In the table opposite 76 in the first column are 95, the value of 5 per cent. loan, and 104½ the value of 5½ per cent. loan—the interest in all the three cases being 5.263 or 55.19 per cent.

2.—At what price should I purchase 4 per cents. to obtain 5½ per cent. for my money?

In the fourth column opposite 5½ or 5.5 in the column for 4 per cent. stands 72.727 or 728.11 the price required.

3.—What would I gain, by selling out Rs. 10,000, 5 per cent. Government loans at 104 and purchasing 5½ per cent. at 112?

In the third column opposite 104 in the 2nd, is..... 114.4
112

Gain on Rs. 100 of Capital 2.4

And in the fourth column opposite 112 in the 3rd, is 4.911 per cent.

" " " 104 " 2nd, 4.808 "

Difference, or gain per cent. per annum on Capital 0.103 " or fully 1.10 per cent. being Rs. 10 5a. on every Rs. 1,000 is invested.

4.—To find the equivalent values of four and 5½ per cent. Securities when 5 per cents. are selling at 103½, or Rs. 103 6a.

Hence 84.4 + .3 = 84.7, the equivalent price of 4 per cent., and 113.3 + .413 = Rs. 113.713, or Rupees 113, 11a. 5p. the equivalent price of 5½ per cents.

CHAPLAIN'S REGISTER OF HIS VISITS AND SERVICES IN HOSPITAL.

II. This book is to be provided by the Chaplain, and each visit and service performed at the Hospital is to be entered in it.

III. It is to be kept for the information of the Bishop, and is to be open to the inspection of the Military and Hospital authorities.

IV. It is not to be removed from the Hospital, the Medical Officer in charge is to arrange for its safe custody and production when required by the Chaplain or for inspection.

CHAPLAINS' VISITS TO OUT-STATIONS.

Extracts from Court's Despatch, 12th April 1842.

"Section 27 of the Regulations respecting leave of absence and deputation and travelling allowances which we have recently approved, you will find a Rule on the subject of travelling allowances on joining a station, and when any change takes place except at the desire of the Chaplain or Assistant Chaplain.

3. But to avoid inconvenience and guard against the possibility of misunderstanding, we think it desirable that for every circle of stations, the Lord Bishop should be requested to frame a plan determining the periods at which each place shall be visited by the Chaplain or Assistant Chaplain officiating in such circle, which plan being approved by Government shall continue in force till varied by the same authority. As minute local information will be necessary to the successful formation of such plan, we can only offer a few suggestions on the subject. The frequency of Ecclesiastical visits should be governed in a great degree by the extent of the Christian population of the place to be visited. A place may contain not more than three or four members of the English Church, and though it might not be right to exclude those few persons from the benefit of Christian ordinances, it is obvious that in the present state of our Ecclesiastical Establishment such a place could not be visited frequently without injury to others of greater importance. An annual visit might in some cases be all that could reasonably be afforded; while to others, visits twice, three or four times a year, might be expedient; and to others again, which might be more populous, it might be desirable that visits should be made once in six weeks, or once a month.

4. When a circle of Stations may, from the deficiency of our Establishment, or any other cause, be left without a resident Clergyman, we are of opinion that the Chaplain or Assistant Chaplain of a neighbouring district should, as desired by the Lord Bishop, be appointed to visit the Station thus deprived of clerical services. In such cases the most convenient course will be for the Lord Bishop to bring the subject to the notice of Government, and submit a plan of visitation. Such plan being approved, the Chaplain or Assistant Chaplain who can most conveniently discharge the required duty, should be specially appointed thereto, and thenceforward be entitled to draw travelling allowances in conformity with the provisions of the plan, and in accordance with our Financial Despatch of the 30th October 1839.

5. We should lament that the practice of visiting Stations at which no Clergyman is permanently resident should be discontinued, and it would be unjust to subject the Clergy to the expense attendant to such visits. Under these impressions we deem it proper to sanction the payment of such reasonable charges not exceeding those authorized in our Despatch of the 30th October 1839, before referred to, and we are encouraged in this view by the fact that although Chaplains and Assistant Chaplains when absent from their duty are subject to the same deductions as Civil Servants, no charge is incurred in providing for the duty of the absentee. The deductions may thus be regarded as a fund, meeting to a certain extent the extra charges incurred by occasional or provisional visits of the Clergy to Stations in which they do not reside."

The revised Plan, determining the Circle of Out-stations for the several Chaplaincies under this Presidency, is published for general information in lieu of the one sanctioned under date 19th October 1852.

Principal and Out-stations.	Miles distant from			Number of Visits.	Number of Chaplains required to each principal Station.	Remarks.

RULES RELATING TO BURIAL GROUNDS FOR THE DIOCESE OF MADRAS.

PORT ST. GEORGE, 29th October, 1866.

I. The Chaplain of the Station shall have the care of the General Cemetery. It shall be his duty to apply to the proper Officer, when the walls want repairing; to see that weeds, grass, or-jungle be cleared away, and the remains of dilapidated tombs be removed, and that the Cemetery be kept in proper order.

In the absence of the Chaplain, the Lay Trustees shall have the care of the Cemetery.

N. B.—These Rules apply in places where there is no Chaplain, to Ministers of the Additional Clergy Society, and to any other Clergymen who are appointed to the charge of English Congregations, and are in receipt of part of their salary from Government.

II. The Sexton or Lascar in charge of the Cemetery, shall be borne on the Church Establishment, and shall be paid by Government through the Chaplains, with whom the appointment and dismissal of this servant shall rest.

III. In every station, a portion of the Cemetery shall be set apart for the use of members of the Roman Catholic congregation. For the use of any body or bodies of Christians at such station, not being members of the Church of England, nor of the Church of Rome, another portion of the Cemetery shall be appropriated, should they desire it, for the sole use of such congregation, or for the joint use of such congregations. The portions thus set apart shall not be fenced or walled off, but simply divided by a pathway, from the rest of the Cemetery, and shall be added to, or reserved from, the existing Cemetery according as such Cemetery has, or has not, been consecrated according to the rites of the Church of England. The whole Cemetery thus divided shall be surrounded by a wall, and shall have but one gate of entrance. The entire Cemetery shall be under the care of the Chaplain, for the purposes specified in Rule I. The key shall be kept by the Sexton or Lascar acting under the Chaplain's directions, so that access to the ground may be had by those having a right thereto, easily and without delay.

IV. The Chaplain shall provide that one or more graves be kept ready for cases of sudden emergency: such graves shall be covered with planks or boards. No grave shall be less than six feet deep.

V. A scale of charges for ordinary masonry-graves, headstones, and tombs, to be submitted by the Undertakers at each station, and approved by the Chaplain and District Engineer, shall be affixed to the Cemetery gate, or to the wall of the Church Porch, or exhibited in some other suitable place.

VI. Inscriptions intended for monuments to be placed in that portion of the Cemetery devoted to the Church of England, and for tablets to be placed in Churches shall be submitted to the Chaplain for approval; if not approved, such inscriptions shall not be allowed to be engraved on such monuments or tablets. But any party considering himself aggrieved by the Chaplain's decisions, may appeal to the Bishop.

VII. Stone or brick monuments shall not be placed over any but masonry graves; such monuments, unless built over masonry work, are liable to fall in during the rains. Brick monuments are to be discouraged, as they soon fall into decay in this climate.

VIII. The dimensions of no monuments shall be allowed to exceed nine feet in length, and four and a half feet in width. In special cases, where more space is desired, a fee calculated at the rate of Rupees 3 for every square foot, shall be charged by the Chaplain. The sum collected shall be placed to the credit of the Fund for improving the Burial Ground, and repairing the monuments in it and the Church.

IX. The Chaplain shall communicate with the friends of the deceased when a monument requires repair. Should a monument fall into a ruined condition, and no one be willing to undertake its restoration, the ruined monument shall be made level with the ground, and any slab it may have contained shall be placed over the grave.

X. Every reasonable effort shall be made by the Chaplain, not only to keep the Cemetery in decent order, but to preserve the sacred associations of the place, by suggesting appropriate designs for monuments, and by planting the ground with suitable trees. The money obtained by the sale of the grass, and the fees abovementioned, shall be laid out in the improvement of the Cemetery.

XI. The Cemetery shall be inspected once a year by the Chaplain, in company with the Executive Engineer, and a report made to the Archdeacon; such reports shall be recorded in the Ecclesiastical Record Book of the station; and also in the Engineer's Office.

XII. The Collector, or one of his Assistants, shall annually, or as occasion may require, visit all Cemeteries in his District, as well as those disused as those still in use, and shall make suggestions to the Clergymen or Lay Trustees in charge, and, if necessary, shall make a brief report to the Government or Archdeacon, regarding the condition of such Cemeteries.

XIII. Officers Commanding Regiments or Detachments shall cause a report to be made to the nearest Civil Officer of graves dug for Commissioned Officers, for Non-Commissioned Officers and Soldiers dying on the line of march, in order that measures may be taken for the effectual protection and preservation of such graves.

XIV. At stations where there is no Chaplain or other Clergyman in the pay of Government, the Lay Trustees will perform all the duties assigned to the Chaplain by these rules, with the exception of the approval of the inscriptions, which are to be forwarded to the Chaplain of the station or, during a vacancy, to the Archdeacon; such inscriptions shall not be engraved till the sanction of the Chaplain or Archdeacon is obtained. The Lay Trustees in stations where there is no Chaplain, shall place the key of the Cemetery at the disposal of the visiting Chaplain, on the occasion of that Minister's periodical visits to his out-stations. In the absence of a Clergyman of the Church of England, one of the Lay Trustees, or some Officer appointed by him, shall read the burial service at the interment of all persons entitled to burial according to the rites and ceremonies of the Church of England, and shall forward a return of the same, in duplicate, by the first post, one copy to the Registrar of the Diocese, Madras, and the other to be deposited in the Office of the Collector of the District. Forms can be obtained by application at the Office of the Diocesan Registrar, Madras.

CHURCHES AND CHAPELS.

The following P. W. D. Standing Order, No. 37 of 1865, regarding the expenditure of public money on Churches and Chapels in Military and Civil stations, is, we learn, to be considered applicable to the Madras Presidency:—

Churches and Chapels in Military and Civil Stations.

The following general principles and rules regarding the expenditure of public money on Churches and Chapels are published for general information, and must be strictly adhered to by local Governments and Administrations in considering proposals for such works, and in according sanction to them:—

I. In the case of purely Military stations, where there is no European population excepting the troops, such as the Hill Sanitaria at Dugshai or Subathoo, &c., applications for Protestant Churches, will not, as a rule, be entertained by the Government, and a Regimental School-room or other large suitable building should be made available for Divine worship.

II. Where, however, a Military station is of a permanent character, and there is also a Civil European community, Protestant Churches are desirable, and will be constructed by the Government.

III. Roman Catholic Chapels will be provided by the Government to the extent required for troops in those Military stations in which sanction is accorded to the erection of Protestant Churches.

IV.—The amount of Government Grant for a Protestant Church, will, in no case, exceed such a sum as will suffice to provide a plain substantial building adapted to its special purposes and large enough to contain the whole congregation which may ordinarily be expected to attend together with such plain furniture as is essentially necessary for the proper performance of the service according to the ritual of the Church of England. It will rest with private individuals to furnish the means of imparting ecclesiastical features, and architectural decorations to the building, should they desire it, and also of supplying additional furniture, or furniture of a more costly description and means of lighting.

V. The same principles with regard to the extent of accommodation and amount of the Government Grants will hold good in the case of Roman Catholic Chapels.

VI.—At the chief Civil station of a district, the Government will be ready to provide a small Protestant Church, on a scale commensurate with the probable congregation to be accommodated, whenever the community of the station is willing to bear a portion of the expense, the share taken by the Government being calculated on the principle above laid down, viz., that the Government will provide the cost of the solid and essential parts of the fabric, while it shall rest with the community to supply the means of giving to the building the special architectural character and the distinguishing features of ecclesiastical form, which it is desirable Churches should possess.

VII.—The following sums are fixed as sufficient to provide places of worship on the above principles for the various details of troops and for Civil stations. The scale of size for Military stations, and of expense for all Churches or Chapels, now laid down, are in no case to be exceeded without a reference to the Government of India, even though the proposed expenditure may be within the power of sanction, vested in the Local Government or Administration.

RULES RELATING TO THE OFFICE AND DUTIES OF LAY TRUSTEES IN THE DIOCESE OF MADRAS.

Fort St. George, 29th October, 1867.

1. Two Lay Trustees are appointed to each Chaplaincy or station where there is property belonging to or held in trust for the Church of England.

II. At Civil stations, or Joint Civil and Military stations, the Senior Civil Servant should be appointed a Trustee, provided that he is a communicant of the Church of England, and has no objection to hold the office. At Military stations the Officer Commanding the Cantonment or Garrison under the same provisos. When these Officers are unwilling to hold the office the officer next in seniority (Civil or Military as the case may be), if qualified as above, should be nominated.

III. The second Trustee may be any communicant resident at the station, nominated by the Chaplain, and approved by the Bishop.

IV. When the office of either Trustee is vacant, the Chaplain should report the circumstances to the Lord Bishop, for the information of Government, and at the same time nominate a duly qualified person to fill the vacancy.

V. The duties of the Trustees are in many respects similar to those of Church Wardens in England. They are appointed to see that the Church and Churchyard or Cemetery* are kept in good order and repair, to provide for the preservation of the property belonging to the Church, to present to the Bishop or Archdeacon, either on their visitation or immediately by letter, whatever is wrong or irregular on the part either

* Vide Rules relating to Burial Grounds, dated Fort Saint George, 29th October, 1866.

of the Chaplain or the congregation, and to aid and assist the Chaplain in the performance of his duties.

VI. During the absence of the Chaplain or other licensed Clergymen, one of the Lay Trustees is, in ordinary cases, the proper person to read the Service and a sermon on Sundays, and to take charge of the Register and other books connected with the Chaplaincy.

N. B.—It is to be borne in mind that Lay Trustees have no power to interfere in the administration of Divine Service, but merely to represent to the Ecclesiastical authorities whatever they may deem objectionable. Their office in this respect is one of observation and complaint, not of control.

VII. The Lay Trustees, in conjunction with the Chaplain or Minister, form a Committee of Management on all Church matters, and should meet for business once in each month, or oftener, if necessary. The assignment of seats in Church and (in places where they are authorised) the collection and disbursement of pew rents, the management of school and charity funds, should be supervised and arranged by the Committee at their Meetings.

VIII. All indents, letters, proceedings and other papers emanating from a Church Committee, are to be signed by both the Lay Trustees (unless for special reasons which are always to be assigned), as well as by the Chaplain; and all indents, letters, &c., received or sent, are to be entered in a correspondence book distinct from that of the Chaplain, and should be produced for examination at Meetings of the Committee.

IX. The Chaplain or Officiating Chaplain or Minister present, as a mark of respect due to religion in the person of its Minister, presides at all Meetings of the Committee of Management and signs proceedings and letters as President, and the two Lay Trustees in the order of their relative rank.

X. The Church Committee are responsible that no alteration is made whatever in the Church or Churchyard without representing the matter to the Archdeacon, who will, except in matters of trifling importance, bring it before Government for their sanction.

XI. When any addition, alteration, or improvement to a Church or other Ecclesiastical building is considered necessary, or when any new building is required, the subject should be brought with full explanation to the notice of the Bishop, who, if approved by him, requests the Archdeacon to submit the same for the consideration and orders of Government, on whose approval the necessary plans and estimates (if not previously furnished) are called for from the Public Works Department.

XI. All ordinary repairs to Ecclesiastical buildings in the provinces, the cost of which does not exceed Rupees 50, are effected, and all trifling articles within the same limit are supplied on the direct application of the Church Committee in the provinces by the District Executive Engineer, and at the Presidency by the Barrack Master. Contingent charges for the supply of matting, blinds, and other articles of a similar kind necessary for each Chaplaincy, not exceeding 50 Rupees per annum, will be entered in a Contingent Bill, which should be submitted for the approval of the Archdeacon.

Rules in regard to the Levy of Ecclesiastical Fees.

ECCLESIASTICAL, Simla, the 20th September, 1869, No. 482.—The following amended Rules for the levy of Ecclesiastical fees throughout India, which have been framed by His Excellency the Governor-General in Council, are published for general information in supersession of the Rules which appeared under Notification, No. 548, dated the 18th September, 1868 :—

I.—No fees are charged for the performance of the rite of baptism or burial, or for the registration of the performance of those offices.

II.—In addition to the fee for the Surrogate's license, a fee of Rs. 10 shall be charged on all marriages by license, except the marriages of Officers and others in the Military or Naval Service of Her Majesty.

III.—The fee for the Surrogate's license shall be Rs. 50 both at the Presidency Towns and in the interior. No fee will be charged on marriages by banns.

IV.—When registers are searched and copy of any entry given, a fee of one Rupee shall be charged for the first year,* and four Annas for every additional year over which the search may extend, as well as a fee of one Rupee for the certificate. Soldiers, Sailors and Non-Commissioned and petty Officers are exempted from payment.

V.—A fee of eight Annas for every square foot of ground occupied shall be charged for the construction of any masonry grave in a burial ground.

VI.—A further fee of one Rupee per square foot shall be levied on the erection of a monument in a burial ground: provided, however, that for a simple headstone or flat slab of the size of an ordinary headstone, an uniform fee of Rs. 15 only shall be charged. A fee of Rs. 75 shall be levied on a faculty for the erection of a monument in a Church.

VII.—The fees levied on the construction of masonry graves and the erection of monuments shall form a fund for keeping the burial ground and Church compound in order except in Calcutta, Madras and Bombay, where they will be credited to Government.

VIII.—British Soldiers and Non-Commissioned Officers are exempted, with retrospective effect, from the payment of any fee for the construction of masonry graves, or for the erection of monuments in burial grounds to the memory of their comrades, wives or children. No monument, however, either regimental or private, shall exceed six square feet, and no masonry grave shall occupy more ground than an area of eight feet by four. The simple stone slab or headstone should be generally adopted.

IX.—The Chaplain may at his discretion reduce, or altogether remit in cases of extreme poverty, the fee for searching registers and making copies, as well as the fee leviable on the construction of masonry graves, but not for the erection of monuments.

X.—The fees prescribed in these Rules should be paid to the Chaplain, or, in the absence of the Chaplain, to the Officer in charge of the burial ground, and shall be duly accounted for.

All fees levied for masonry graves and for cemetery monuments and all other receipts for cemeteries will now be placed at the disposal of the Provincial Governments who will take them as an asset simply with the gross, and will provide per contra in their budgets under the heads "Department Public Works" and "Civil" (Ecclesiastical) respectively, for such repairs as are to be done by the Chaplains or other Officers in charge of cemeteries as laid down in the Resolution of the Financial Department, No. 3015, dated 3rd September, 1870.

Letter from the Officiating Under-Secretary to the Government of India, Home Department, (Ecclesiastical), to the Secretary to Government, Fort St. George, dated Simla, 8th July, 1872 No. 165.

"The Lord Bishop of Calcutta having brought to notice that difficulty is occasionally experienced by Chaplains in collecting fees, under existing rules, on monuments and masonry graves, the Governor-General in Council considers that in all cases where such difficulty arises the duty of collection should be made over by the Chaplain to the Magistrate or Deputy Commissioner in charge of the district in which the burial ground may be situated; and I am to request that, with the permission of His Excellency the Governor in Council, instructions may be issued to the District Officers accordingly."

Orders for the performance of Funeral Rites on verdicts of Coroner's Inquests.

NOTIFICATION.—Fort Saint George Gazette, June, 11, 1850, page 623.

The Right Honorable the Governor in Council is pleased to rescind the Order of Government of 5th April, 1842, which directs a copy of the verdict of the Coroner's Inquest to be furnished, when practicable, to the Clergyman who is to officiate at the interment of a body on which an inquest may have been held, and the Reverend Chaplains will in future consider the warrant of the Coroner for the interment of a body on which an inquest has been held to be a sufficient authority for their performance of the Burial Service over it, if it would be their duty, under ordinary circumstances, to perform that service.

2. In the provinces where no Coroner's jurisdiction exists, the same course will be observed by the authorities appointed to enquire into the causes of sudden death, and the same difference will be paid by the Clergymen to their certificates of Warrant.

Parties desirous of being married should apply direct to some Surrogate residing near them; but from places where there is no Surrogate, application should be made to the Registrar, who will procure a commission under the Episcopal Seal, authorizing some persons to administer the usual oath and grant the necessary license. None but a Clergyman of the Church of England can marry by virtue of Episcopal license. Parties who cannot on account of distance obtain the services of a Clergyman to marry them must state the fact, and apply to the Brigade Major, Fort Saint George, who will obtain the permission of the Right Honorable the Governor for their marriage under which the Senior Judicial Officer of any station is authorized by Government to marry them.

In the case of a minor in H. M.'s or the Honorable Company's Services, the written consent of the Governor must be obtained previous to the publication of Banns, or the grant of a license.

Further information respecting marriages can be obtained on application to the Registrar of the Diocese, F. Rowlandson, Esq., B.A., LL.B.

Instructions for the Guidance of Surrogates in administering Oaths and granting Marriage Licenses within the Diocese and Archdeaconry of Madras.

1. The Surrogate will use great caution in examining the parties to be sworn filling up the Forms with the names, rank, and places of residence, and dates at full length.
2. In no case is a License to issue unless the parties are sworn before the Surrogate, and in case of doubt or difficulty the Surrogate will refer to the Registrar as recommended in the Surrogate's appointment.
3. In case the lady to be married has been divorced, the License should issue in her maiden name.
4. In case the party to be married is a minor, consent of the father if living must be obtained, or if the father be dead, the guardian of the person of such minor, and in case there be no such guardian, then the mother of such minor may give consent, unless no person authorized to give such consent be resident in India.
5. In case the party to be married is a minor, either in the Civil or Military Service, and without possessing either parents or guardian in this country, the consent of the Governor of Madras must be obtained by the minor to his marrying under age, unless the proper consent can be shown to be already given on the part of the absent parents or guardians to his marrying as a minor, in which case the consent of the Governor of Madras need not be obtained.
6. If the parties to be married are both of full age (twenty-one years), and both of them are to be sworn, the Surrogate will use No. 1 Form; but if one of the parties is prevented from attending and another person joins in the Affidavit on behalf of the party not present, No. 2 is in such case to be used instead of No. 1.
7. If one of the parties only is of full age (namely, twenty-one years), and the other is under that age, and the parent, next friend, or guardian makes oath on the part of the minor as to age and consent, the Surrogate will use No. 3 Form.
8. If both the parties are minors (under the age of twenty-one years) and the respective parents, next friends, or guardians swear on their behalf, No. 4 is to be used.
9. In case the lady to be married is a widow and under the age of twenty-one years' Oath No. 1 is to be used, the Surrogate first running his pen through the words, "that they have respectively attained their respective ages of twenty-one years and upwards," and adding at the foot of the oath (above the signature), "the former being twenty-one years of age and upwards, and the latter a widow."
10. The Surrogate having filled up, and the party having read and signed the Affidavit at the proper places, the former will then give the Testament to the party to be sworn, and holding the paper in his hand, say, "You (A.B.) do swear that the contents of this your Affidavit are true. So help your God."
11. The party answers, "I do," and kisses the book, repeating, "So help me God."
12. The same form is observed to each person sworn.
13. The Surrogate will then fill up the License, date and sign it, adding his title as Surrogate, and hand the License to the parties.
14. In case of any caveat entered in the Registry or intimation received through the Surrogate against the grant of a License, the Surrogate will ascertain the particulars and communicate the same to the Registrar for the immediate advice, refusing the License until the result of that reference is known and forwarding any Affidavit sworn.
15. The Surrogate will forward to the Registrar for record all Affidavits as above on the day they are administered, and the Licenses with the Quarterly Returns, unless sooner or whenever required.
16. A fee of Government Rupees fifty to be received by the Surrogate on each License previous to delivery of the same to the parties entitled to receive such License, Rupees sixteen of which fees for the License being due and payable to the Registrar, are to be transmitted to him either on the day the License is granted or with the Quarterly Returns.

* Senior Marriage Registrar.

THE INDIAN CHRISTIAN MARRIAGE ACT XV OF 1872.

ECCLESIASTICAL DEPARTMENT, Fort St. George, March 14, 1874.

Rules for the submission to Government of the Returns of Marriages solemnized under Act XV of 1872, and for the disposal of marriage fees.

Under the provisions of Section 83 of the Indian Marriage Act (No. XV. of 1872) the Right Honorable the Governor in Council is pleased to direct the observance of the following Rules for the disposal of the fees prescribed by Section 82, the supply of register books, and the preparation and submission of returns of marriages solemnized under the Act.

*Head I.—Rules relating to Persons who have received Episcopal * Ordination (but who are not Clergymen of the Church of England nor the Church of Rome), and to Ministers of Religion who, under Section 6 of the Act, have obtained licenses to solemnize marriages.*

Definition of "Minister." 1. The term "Minister" will be used for both of these classes of officers under this Head.

2. As required by Section 34 of the Act, a Minister will forthwith detach from his marriage register book every certificate of marriage solemnized by him and transmit it, *within one month from the time of solemnization* of such marriage, to the Marriage Registrar or Senior Marriage Registrar of the District, or to the

Magistrate of the District, when there is only one Marriage Registrar, in a district, and such Registrar is absent from the District, or ill, or his office is temporarily vacant (Section 7). Ministers in Madras should forward their certificates to the Senior Marriage Registrar for the Town of Madras.

3. The form to be used by Ministers for this purpose is given in the fourth schedule of the Act.

4. The Marriage Registrar or Magistrate acting under Section 7 on behalf of the Marriage Registrar, as the case may be, is required by Section 34 and the two following sections of the Act:—

(a)—To add to each certificate the number of the entry of the copy in the book to be kept by him under Section 34;

(b)—To affix to it his signature or initials; and

(c)—To transmit all the certificates received during the month to Government, together with the certificates from his own marriage register book, if he should have solemnized any marriages during the month.

5. On the face of every certificate of marriage thus forwarded, the Minister *must* distinctly state if either party to the marriage is a *British subject*, as in this case it is imperative that the certificate should be forwarded to England. If neither party to the marriage be such, that fact also must be stated; and it

must be noted in the latter case if either of them desires the certificate to be transmitted to England for delivery to the Registrar-General of Births, Deaths, and Marriages.

6. The following is the definition of the term "British Subjects" which should be adopted in carrying out the above distinction:—"The term *British Subject* means (1) a subject of Her Majesty, born, naturalized or domiciled in the United Kingdom of Great Britain and Ireland, and (2) the child or grandchild of any such person by legitimate descent.

Native Christians. 7. The certificates furnished by Ministers are not to include entries of marriages between Native Christians.

These marriages, under Section 37 of the Act, must be registered in a separate register book in the form given in Schedule 4 of the Act. When certificates of such marriages are given, they shall also be in the form given in Schedule 4. The headings of this register book should be in the language of the district in which the register is kept, but so much of it as has to be filled in by the hand of the person performing the ceremony must be in his own vernacular language. This book, when filled, must be dealt with as directed by Section 37. Under Section 64, true extracts from this register book shall be deposited in the office of the Marriage Registrar or Senior Marriage Registrar of the District, or in that of the Magistrate of the District when the Marriage Registrar is absent from the District, or ill, or his office temporarily vacant on the 31st December of each year. For the form of extract see Appendix 1.

* Such as Clergymen of the Armenian and Greek Churches.

8. Applications from persons connected with any Missionary Society for licenses should be submitted to Government by the Secretary or Senior Chaplain of the Society through the Magistrate within whose jurisdiction the applicant may be residing, or in the case of residence in Madras, through the Senior Marriage Registrar for the town of Madras. Those officers should also forward an expression of their opinion. In every case the name of the applicant should be given in full.

9. When any person desires to resign the office of a Minister licensed to solemnize marriages under the Act, or is about to leave the station or district in which he has exercised such functions, it is particularly requested that he will report the circumstance to the Marriage Registrar or to the Magistrate of the District, as the case may be, and make over to him for safe custody the marriage register books, and all forms and other documents appertaining thereto, unless his (the Minister's) successor be duly licensed to solemnize marriages under the Act, in which case the books, forms, and documents referred to should be made over to such successor, and the fact should be reported to the Marriage Registrar or to the Magistrate of the District when there is no Marriage Registrar for information. In Madras the report should be made to the Senior Marriage Registrar for the town of Madras.

10. A form of report is given in Appendix No. 2.

Persons who send certificates to Government. 11. The person who are required to furnish the certificates to Government under this head are—

(a.)—All Marriage Registrars or Magistrates of Districts as the case may be.

(b.)—The Senior Marriage Registrar for the town of Madras.

Head II.—Rules relating to Marriage Registrars appointed under the provisions of Act No. XV of 1872, (the Indian Christian Marriage Act) Section 7.

1. A Marriage Registrar is required, by Section 55 of the Act, forthwith to separate the certificate from the marriage register book, and to submit the certificates of marriage which he has attached from his marriage register book during the month, to the Secretary to the Local Government "at the end of every

month." *Copies of the Certificate should never be sent. The original is required in every case.*

Form of certificate. 2. A form of the certificate is given in the fourth schedule of the Act.

3. On the face of every certificate of marriage thus forwarded, the Marriage Registrar must distinctly state if either party to the marriage is a *British subject* within the meaning of Rule 6 of the foregoing Rules (Head I), as in this case it is imperative that the certificate should be forwarded to England. If neither party to the marriage be such, that fact also must be stated; and it must be noted in the latter case if either of them desires the certificate to be transmitted to England for delivery to the Registrar-General of Births, Deaths and Marriages.

4. Applications from persons connected with any Missionary Society, for appointment to the office of Marriage Registrar in any district, should be sent through the Secretary or Senior Chaplain of the Society to the Magistrate of the District in which the applicant resides; applications for appointment in Madras should be sent through the Senior Marriage Registrar for the Town of Madras. The Magistrate, or the Senior Marriage Registrar, as the case may be, should forward the applications to Government with an expression of his opinion.

5. When any person, not being a Marriage Registrar of the district, desires to resign the office of Marriage Registrar under the Act, or is about to leave the district in which he has been authorised to exercise the functions of a Marriage Registrar, it is particularly requested that he will report the circumstance to the Magistrate of the District, and make over to him for safe custody the marriage register books, and all forms and other documents appertaining thereto, unless his (the Marriage Registrar's) successor be duly authorised to register marriages in the same district under the Act, in which case the marriage register books, forms, and documents referred to, should be made over to such successor, and the fact be reported to the Magistrate for information. In Madras the report should be made to the Senior Marriage Registrar for the town of Madras.

6. A form of report is given in Appendix No. 2.

Persons who send certificates to Government. 7. The persons who are required to furnish marriage certificates under this head to Government are—

(a.)—All persons specially appointed by Government to be Marriage Registrars under Section 7 of the Act.

(b.)—All Magistrates when there is no Marriage Registrar.

(c.) The Senior Marriage Registrar for the town of Madras.

8. The attention of Marriage Registrars and Senior Marriage Registrars is directed to Rule 4, Head I. The form of register to be kept by them is given in Appendix 3.

9. Marriage Registrars should see that the true extracts from the register book referred to in Sections 37, 62 and 64, are duly forwarded to them on the 31st December of each year for deposit in their offices.

10. At the close of each year the Marriage Registrar of each district will be furnished with two copies of the lists of the various persons authorized to solemnize marriages under the Act and residing in his district. One copy of each list it will be his duty, after inquiry, to return with the necessary information filled in, and the other should be retained in the Marriage Registrar's Office. These lists will be in the form shown in Appendix No. 4.

11. The form of the Registrar to be kept by Marriage Registrars under Section 59 of the Act for the registration of marriages between Native Christians should be the same as in the fourth schedule of the Act. When certificates of such marriages are given they shall also be in the form given in Schedule 4. The headings of the register book should be in the language of the district in which the register is kept, with an English translation, but so much of it as has to be filled in by the hand of the person performing the ceremony must be in his own vernacular language. This book, when filled, is to be dealt with as prescribed in Section 37.

Head III.—The following Rule is applicable to Persons who hold at the same time the offices of both Marriage Registrars and Ministers under the Heads I and II:

1. Only certificates of marriages solemnized by Ministers of religion under Part III of the Act are required to be submitted through the Marriage Registrar or the Senior Marriage Registrar, or the Magistrate of the District as the case may be. The certificates under Part V of the Act should be forwarded direct to Government by the Marriage Registrars.

Head IV.—Rules for the submission of Quarterly Returns of Marriages under Part IV of the Act.

1. By Section 29 of the Act, Clergymen of the Church of England should send to the Registrar of the Diocese at the end of every quarter, the returns, in duplicate, of the entries in the registrar of marriages solemnized at or in any station or district at which such clergymen shall have any spiritual charge. The said Registrar, upon receiving the same, shall transmit one duplicate of the returns to the Chief Secretary to the Government in the form prescribed in the third schedule of the Act.

2. By Section 30, returns of the entries of marriages solemnized by Clergymen of the Church of Rome, and registered during any quarter, are required to be forwarded quarterly by the person who registers the same (through the Roman Catholic Bishop of the Diocese or Vicariate in which such marriages shall be solemnized), to the Chief Secretary to Government.

3. By Section 31, Clergymen of the Church of Scotland are required to forward, in the form prescribed in the third schedule of the Act, the returns of marriages solemnized by them during any quarter, to the Senior Chaplain of the Church of Scotland, who will forward them to Government as at present through the Registrar of the Diocese.

4. A form of marriage return is given in the third schedule of the Act. It is optional with the Roman Catholic Bishops to adopt this form or any other; but they should invariably state the name of the Church in which each marriage was respectively celebrated.

5. The persons who are required to forward the returns of marriages specified in the four preceding rules to Government are—

(a.)—The Registrar of the Archdeaconry.

(b.) The Right Reverend the Vicars Apostolic in the Madras Presidency.

(c.)—The Very Reverend the Vicar-General of Saint Thomé.

(d.)—The Senior Chaplain of the Church of Scotland, through the Registrar of the Diocese.

6. Returns of marriages between Native Christians are not required by Government. These marriages, under Section 37 of the Act, must be registered in a separate register book in the form given in the fourth schedule of the Act. When certificates of such marriages are given, they should also be in the form given in Schedule 4. The headings of the register book should be in the language of the district in which the register is kept, but so much of it as has to be filled in by the hand of the person performing the ceremony, must be in his own vernacular language. This book, when filled, must be dealt with as directed by this section. Under Sections 62 and 64, true extracts from this register book shall be deposited on the 31st December of each year as follows:—By Clergymen of the Church of England in the office of the Registrar of the Archdeaconry, and by the other Clergymen named above in the office of the Senior Marriage Registrar for the town of Madras. ECCLESIASTICAL DEPARTMENT.

Fort St. George 14th March, 1874.

Rules for submission of Quarterly Returns of Baptisms and Burials of European Christians.
The Governor in Council having, under the Indian Christian Marriage Act of 1872, prescribed Rules for the submission of Returns of Marriages, deems it desirable to issue the following Rules for the submission of Quarterly Returns of Baptisms and Burials of European Christians.

1. In addition to the Quarterly Marriage Returns required under the Indian Christian Marriage Act, 1872, the Government require the submission, for statistical and other purposes, of Quarterly Returns of Baptisms and Burials of European Christians, i.e., of "all Christians of European birth or descent, or of mixed European and Native descent," in the forms specified in Appendices A to C.
2. The Registrar of the Diocese is not called upon to use the certificate of correctness of the Returns as each Clergyman certifies to their correctness at the foot of each Return. The Senior Chaplain of the Church of Scotland is also permitted to write the certificate of correctness on the Returns.
3. The Return relating to baptisms and burials of each quarter should be kept distinct and not contain entries which belong to other quarters.
4. These Returns are to include no entries in respect of Native Christians.
5. Whenever there may have been no baptisms or burials recorded during any quarter, a "Certificate of No Occurrence" (see Appendix E) should be forwarded.
6. As the Government desire to possess a record of all deaths of European and Eurasian Christians buried by the laity and not only of those buried by the Clergy, all magisterial officers are required to report every burial by laymen within their several jurisdictions to the resident Chaplain, or to the Chaplain or Minister who visits the station at which the burial has taken place, in order that it may be included in the Returns furnished by him to the Registrar of the Archdeaconry.

* Indents should be forwarded in triplicate to the Superintendent of Stationery.

7. In cases of burials performed in places not visited by any Chaplain, the report should be made to the nearest Clergyman.

8. A list of all the stations and out-stations in Madras, showing by what Clergymen the out-stations are visited under the orders of the Lord Bishop of Madras, will be found in Appendix F.

9. For the purpose of registering burials not performed by Clergymen of the Church of England, or by laymen according to the forms of the Church of England, the following Rule will be adopted—"In every Register Book there should be a separate page or pages, with heading and form distinct from those entries of burials in which at present the Clergyman or layman officiating himself enters and certifies the record of the service which he has performed. In this part of the book the Chaplain shall enter (as a copy) the copy of the certificate transmitted to him by the magisterial officer of the district. In this form there should be added a statement of the place of interment. The Chaplain shall copy these entries and return them with the others in his Quarterly Return certifying the correctness of the copies which he makes."

10. The reports made by magisterial officers to Chaplains should include the names of all European and Eurasian Christians buried by laymen, whether the funeral service be conducted according to the form of the Church of England or not.

Baptisms by laymen.

11. The same rules are applicable to baptisms when performed by laymen.

Returns to be forwarded within one month.

12. All officers who forward the Quarterly Returns to Government should forward them, if possible, within one month after the close of each quarter.

Officers who are required to submit Returns.

13. The officers who are required to submit these Quarterly Returns of baptisms, and burials to Government are—

- (1.)—The Registrar of the Diocese, who collects them from (a), Chaplains in the service of Government; (b), Senior Chaplain of the Church of Scotland; (c), Clergymen (not being Covenanted Chaplains) ministering under the Bishop's license.
- (2.)—The Right Reverend the Vicars Apostolic in the Madras Presidency, who collect them from the various Roman Catholic registering officers within the Presidency.
- (3.)—The Very Reverend the Vicar-General of St. Thomé, who collects them in a similar manner.

- (4.)—Ministers of religion licensed to solemnize marriages under the Indian Christian Act, Section 6, and any other Ministers not included in any of the before-mentioned classes, who perform such offices as well as Ministers of the Baptist denomination who will furnish registers of births in lieu of Baptisms.

14. Forms of Returns will be issued gratis on application to the Chief Secretary to Government.

By order.

D. F. CARMICHAEL, Acting Chief Secretary.

IV.—The following articles will be supplied to Roman Catholic Churches by the Military Department on the Executive Engineer's certificates of the necessity of original supply or renewal as the case may be:—

	RS.
1.—One Tabernacle, inside covered with silk	150
2.—One Pyx with Silver Cup, inside gilt	100
3.—One Chalice	100
4.—One Monstrance	180
5.—Six Altar Candlesticks and Crucifix	180
6.—Two Cruets and one Plate	10
7.—One Altar Lamp	30
8.—One Missal	25
9.—Altar Canons (one set of three)	8
10.—Altar Vestments of silk (five sets of the five colours)	300
11.—Two Copes, one white and one black, of silk	120
12.—Humeral for Benediction	30
13.—Altar linen, comprising Albs, Altar covers, Communion cloth, &c.	80

The Executive Engineer will be guided in granting the certificates above alluded to by the following principles:—

Class I.—Churches built by Government.—The certificate should state that the Church was built by Government for the use of European Troops or British-born European subjects in the service of Government or of the local Railway Company, and is still maintained for the same purpose.

Class II.—Churches which have received building grants from Government.—The certificate should state that the Church received a building grant of Rs. _____, equal to the _____ part of the total cost of the building, and that the grant was made on account of European Troops or British-born European subjects in the service of Government or of the local Railway Company, and that the building is still used by them.

For this class of Churches a proportion of the standard cost of the articles will be sanctioned equal to the proportion of the grant-in-aid to the total cost of the building itself.

Class III.—Churches rented by Government.—The certificate should state that the Chapel is wholly rented by Government for the use of European Troops or British-born European subjects in the service of Government or of the local Railway Company.

In this class the articles necessary for service will be given by the Military Department, but returned into Store if the building ceases to be rented for the performance of Divine Service to a Military congregation.

In none of the classes described above should any article of furniture be allowed with retrospective effect, and the required certificates should afford information as to when the article was originally supplied, and by whom, and the reason for recommending its renewal. When, however, the Government pay for the use of a certain varying number of seats in a Church, the hire of the seats should include everything necessary for the performance of the Service.

V.—When a Church, whether Protestant or Roman Catholic, is to be furnished, the Executive Engineer should communicate with the Ecclesiastical authorities concerned with a view to afford the congregation an opportunity of furnishing the Church by private subscriptions in more costly style, should they wish to do so. It is to be understood, however, that any article of furniture to which any public funds may have been applied will remain the sole property of Government, even though a portion of its cost may have been contributed by private persons. And in cases where articles of Church furniture are procured from England, they should be purchased through the Secretary of State in the ordinary way, with the exception of the "fair linen cloth, napkins, Bibles and Prayer-books," which may be purchased in India.

21. *Renewals of furniture to be a charge against Pew rents.* When Pew rents are charged, the renewal and repair of furniture will be met from that fund, and not be allowed to be brought forward as a public charge.

22. *Clocks.* The care of Church clocks is to be charged against the above fund where it exists.

23. *Chowkedars.* The pay of Chowkedars of Churches will be disbursed through Chaplains.

24. *Tablets, &c.* Churches are under the control of the Bishop of the Diocese in respect to the erection of tablets, ornaments, &c., while in course of construction, as well as after completion and consecration.

25. *Churches built by Government to be considered property of Government.* All Churches built by Government under these rules shall be considered the property of the Government.

Compensation for accommodation for Roman Catholic Soldiers in Chapels neither belonging to, nor rented by, Government.

26. The rate of compensation for sittings for Roman Catholic soldiers shall be determined by the Public Works Department with reference to the value and description of the accommodation provided, subject to a limit of Rs. 3 per seat per annum, broken periods counting as a year.

27. The number of sittings for which compensation is allowed will be subject to the same limit as is imposed in the case of the number allowed in Churches built at Government expense (para. 6), the maximum allowed being 800 for a regiment of European Infantry or 33 per company.

28. The outlay will appear in the Public Works Department budget-estimates and accounts under the head of Civil Buildings—Repairs.

29. Charges for compensation require the previous sanction of the Government of India, and must be supported by a certificate from the officer commanding the station of the numbers of Roman Catholic soldiers, and by women and children for whom chapel accommodation has been obtained and by a receipt for the money paid.

Ex-officio.

The above Institution was founded by the Rev. John Anderson, in Black Town, on 3rd April 1837. Its aim is to provide for native youth a liberal Christian education, that shall cultivate, expand and quicken the whole man, the conscience and will as well as the understanding and memory. With this view all the branches of a liberal education are so taught as to show their connection with the great central truths of religion and Christianity. The Bible is regularly taught as the record of God's revelation of Himself for man's salvation.

The instruction is carried on by the Professors, Assistant Professors and Teachers mentioned above; and the managing body is the College Council. As the College is in-

tended to be the centre of the higher Christian education in Southern India, its constitution is as catholic as possible, and the members of the Council represent the majority of the Protestant Churches in the Presidency. The Church Missionary Society and the Wesleyan Missionary Society contribute each £300 a year to the support of the College, so that the Secretary of the former and the District Chairman of the latter are *ex-officio* members of the Council, as well as the Secretary of the Free Church of Scotland Mission. The College educates up to the standard of the Bachelor of Arts degree of the Madras University. It has at present 220 students.

In the school department there are 820 pupils, of whom 360 are in the upper; and 460 in the lower school.

Visitors are welcome on school days between the hours of 12 and 1 p. m.

SCHOOLS OF THE FREE CHURCH OF SCOTLAND MISSION.

In connection with the Central Institution, there are 9 Boys' Schools:—Iyempettah, Rajampettah, Wallajahbad, (Lower Class Schools), two in Madras (Middle Class Schools); Nellore, Conjeveram, Trivellore and Chingleput (Higher Class Schools.) These are conducted in the same manner as the Central School. At these 9 schools there is an attendance of upwards of 1,100 boys.

Female education is extensively carried on by the Mission. A Boarding School for daughters of Native Christians is under the charge at present of Miss Wolff. The number of pupils is about 60. Two schools in Black Town for Caste Girls are superintended by the Rev. R. M. Bauboo with an attendance of upwards of 400—one by Mr. Hufiton with an attendance of about 75, and one by the Rev. P. Rajahgopal with an attendance of 90. Besides these, the Mission has Caste Girls' Schools at Nellore, Conjeveram, Trivellore and Chingleput. The number of girls attending these 9 schools is upwards of 1,000.

On the whole, therefore, the number of young persons receiving a Christian education in the College and Schools of the Mission is about 3,200.

PURSEWALKUM GENERAL CEMETERY.

Fort St. George, 15th November, 1853.

The following Rules for the management of the Burial Ground for the interment of the dead of all Christian denominations not Members of the Church of England, are published for general information:—

I. That the Burial Ground be designated "Pursewalkum General Cemetery;" this designation being inscribed in large letters over the entrance; and that the right of interment belongs to all Christians not Members of the Church of England.

II. That the management of the "Pursewalkum General Cemetery" be confined to a Committee, selected from the Ministers labouring in Madras, those at present being connected with the London Mission, American Mission, Wesleyan Mission, the General Assembly's Mission, the Free Church Mission and the Baptist Mission, and such other Missionaries and other lay persons as may hereafter be deemed by Government entitled to take part in the management.

III. That the Committee keep the Burial Ground in order (free from all rank vegetation; the trees and shrubs in it being neatly lopped) from the fees realized, making over to Government annually any sums that may accrue after the payment of all expenses on this account, and rendering for the same period an account of receipts and disbursements to the Military Board for submission to Government, and for publication in the Official Gazette.

IV. That the Committee nominate their own Secretary and fill up vacancies, both being subject to the approval of the Military Board under the authority of Government.

V. That all applications for permission to inter must be in writing to the Secretary to the Committee of Management, with particulars of the name of the deceased, date and cause of death, age, late profession or employment.

VI. That all applications for the interment of children shall, besides containing the name of the child, also contain the name of the parents, their profession, &c., and the Committee will register all Burials according to the established form, submitting the same quarterly to the Military Board.

VII. That the Committee to whom the management of the Burial Ground is entrusted, be careful to have graves so arranged, that there shall be no waste space.

VIII. That the charge for monuments be as follows:—

- A first class monument, with ground not exceeding 10 feet by 6.....Rs. 40
- A second class monument, with ground not exceeding 7 feet by 3½....., 25
- A head-stone monument....., 5

The charge to Native Christians wishing to erect a monument, to be reduced to one-half of the above amounts.

BANGALORE FREE COMMUNION BAPTIST CHURCH.

(FORMED 26TH NOVEMBER, 1854.)

Pastor.—EDMUND MARSDEN.

Place of Worship—Ebenezer Chapel, Commissariat Road.

(Opened 18th August 1867.)

Times of Service.—Lord's day, 11 A. M. and 6½ P. M.—Thursday, 6½ P. M.

This Church was formed on the above date by the Rev. T. C. Page, (formerly of Madras) then temporarily residing at Bangalore. It enjoyed the pastoral superintendence of that esteemed servant of Christ for the first few months of its existence, but was for some time subsequently to his departure from the station without a Minister. On the 30th March, 1856, Mr. Marsden, who had been previously set apart for the work of the Gospel Ministry at Madras, became its Pastor.

Besides watching over this Christian Society, Mr. Marsden devotes a considerable portion of his time to evangelistic visitation among the residents of Bangalore, particularly the Military, of whom there is always a very large number at the Station. Last year [1876-77] they were in this way about 465 persons come into contact with, and plied and pressed with the Gospel offer, about three-fourths of whom had never previously been operated upon; and during the twenty-one preceding years, about 11,600 persons. A very large proportion of these were *Soldiers*. Though not bearing the name, Mr. Marsden, to the fullest extent of his ability, is doing the work of a Town Missionary.

The Madras Seamen's and City Mission was established more than twelve years ago, and during this time it has done a good work among the Sailors visiting this port. In September 1873, the Mission was reconstituted and placed on its present basis. A Committee was formed for its future management consisting of representatives, lay and clerical, of the different Christian denominations. They decided to direct their attention to the following spheres of effort:—

1. The Sailors on Board the Shipping in the Roads.
2. The Sailors' and Strangers' Homes.
3. The Lock and General Hospitals.
4. The Parcherries, low lodging houses, and other haunts of the lowest class of the English-speaking population.

The Committee are aware that to do this work thoroughly several agents will be required, but at present they are only able to employ one. The former agent, Mr. Graham, having left this country, they have engaged the services of Mr. Charles Yeomans, a man strongly recommended for his personal character and fitness for Christian work. He is now fully engaged in the work of the Mission, and judging from his labours in the cause of Christ elsewhere, there is good reason to believe that he will prove a valuable and successful agent.

Though the Committee have but a single agent at present, they earnestly trust that the funds will one day be sufficiently large to admit of their employing three agents, so as to place one in each of the principal districts of Madras.

It will be seen from the spheres of labour to which Mr. Yeomans is to direct his attention, that this special agency is not intended to interfere in any way with the work of established congregations, but rather to supplement it, by reaching a class that is not at present reached.

The Mission is strictly undenominational, the desire of the Committee being not to gain converts for this or that congregation, but to win souls to Christ, and they will not fail to impress this on every agent.

Little need be said in advocacy of such a work. It is one that must commend itself to every Christian heart. Neither is it necessary to attempt to prove that an agency like this is required. Its wants are well known and deeply felt by all who come in contact with the English-speaking people of this city. The Census returns published in 1872, shew that many hundreds of those who are classed as Protestants never enter a place of worship, nor give evidence of being Christians in anything more than name. By their unholy lives they prove one of the greatest hindrances to the progress of Christianity in this land. But degraded though they are, they are not too low for the message of mercy to reach, or for the Holy Spirit to sanctify.

And need one word be said to establish the claim of the British Sailor to the efforts of English Christians in India? Found on a foreign shore, and easy prey to temptations, his case at once appeals to our sympathy, and calls aloud for our help.

The Committee are not unmindful of the difficulties that lie before them, but they are prepared to face them, knowing that the work they have undertaken is well pleasing to Him who came on earth "to seek and to save the lost."

Subscriptions will be thankfully received by the Treasurers, or by the Secretary, 48, POONAMALEE ROAD, MADRAS.

THE NATIVE CHRISTIAN IMPROVEMENT SOCIETY.

RULES.

I. It is proposed to form a Society to be called "The Native Christian Improvement Society."

II. The Society will be Catholic in spirit and aim; and Protestant Christians of all denominations will be eligible for Membership. All the Society's operations will be conducted and maintained entirely by Native Christians without the intervention of foreign aid and support.

III. The object of the Society will be to employ all means in its power to promote the growth of the Native Christians of the Tamil country in Christian knowledge and practice, and to advance their social, intellectual, moral and religious progress, with a view to their attaining to an elevated standard of Christian character, and to gradual independence as a Native Indian Church.

IV. With a view to the development and attainment of this object, the Society proposes to adopt the following measures:—

1. A Monthly Periodical will be started, to be called "Desabhimani," or "the Patriot," and conducted in English and Tamil. It will, for the present, be limited to 16 pages Octavo. Its contents, consisting of original and translated articles, will embrace the following subjects: viz., Wonders and Curiosities of Nature, Mental and Physical Science, Useful Arts and Manufactures, Historical and Biographical Sketches, Interesting and useful Medical subjects, Social and Moral Reforms, Religion and Morality, Christian Literature, Religious Errors, Independence and self-support of the Native Church, Missionary and General Intelligence, Light Reading, &c.

2. The Society proposes to translate into Tamil a judiciously chosen collection of English books on various important and useful subjects, and by publishing them, from time to time, hopes to contribute, to a certain extent, towards enriching the Tamil Christian Literature. It may be mentioned that steps are being taken for forming principally among the members of the Society, a Committee comprising a good staff of writers who will make themselves responsible for a regular supply of materials for the Periodical and other Publications.

V. These and similar objects of the Society for the improvement of Native Christians cannot, of course, be expected to be attained at once. The Society will have to contend with difficulties; but by God's blessing upon its patient and persevering efforts, the difficulties will disappear, and the desirable objects of the Society will gradually be accomplished. Constituted as it is, the Society cannot but commend itself to all Native Christian brethren, of whatever denomination, as deserving their sympathy and aid, and it is confidently hoped that they will, under the constraining influence of the love of Christ, cordially co-operate with the Society and do all in their power to promote its important objects.

Directions concerning the Periodical:

1. Short and well digested articles on the subjects specified above, will be most thankfully received from all Native Christian brethren.

2. All such articles will be subjected to the examination and approval of a Sub-Committee appointed for the purpose who will be responsible for the soundness of the views contained in the Periodical.

3. Rates of subscription for Desabhimani:

In advance, One Rupee per annum.

In arrears, One Rupee and a half.

Postage, Twelve Annas per annum, extra.

Single copy, Two Annas.

Six copies can be sent for One Anna postage.

4. All articles and subscriptions are to be forwarded to the Rev. W. T. Saththianadhan, Secretary to the Society, Chintadrepettah, Madras.

Armenian Cemetery.

The present Cemetery was built and given to the Armenian Community by Government in the year 1862.

Previous to the erection of the Church, the Armenian Community performed Divine Service in a temporary place built of timber (on the North of Monument Esplanade, opposite Fort St. George), by the late Honorable East India Company, who also paid for the support of the Priest (50) £50 annually for 7 years, agreeably to a Treaty entered into by the said Company with the Armenian nation, dated London, the 22nd day of June, A. D. 1688, and in the fourth year of the reign of King James the Second. The present Church was built by the Armenian Community at their own expense in the year 1712, and alterations and additions made to it by them from time to time. In the year 1833, the British Government was pleased to grant the sum of Rupees five thousand (5,000) from the late Lottery Funds, for the repairs of the Church, out of which Funds the Community was enabled to erect a substantial and extensive verandah, 148 feet in length by 10 in breadth, on the east side of it. Government was further pleased to grant a donation of Rupees (2,000) two thousand from Dr. Woolley's Estate to the Church in the year 1839.

This Institution, the first Government School for Mussulmans exclusively in the Presidency, was opened on the 1st May 1859, Sir Charles Trevelyan being at the time Governor of Madras, Sir A. J. Arbutnot, Director of Public Instruction, and Mr J. T. Fowler, the Inspector of Schools in charge of the Division; Mr W. Joyes was the first Head Master and the late Mr. N. A. Harley, the first Second Master. The School numbers from 230 to 260 boys, who are divided into nine classes. There were originally seven Assistant Masters, two Persian and Hindustani Teachers, and two Tamil Teachers, Telugu taught by a separate teacher, was after some trial discontinued in consequence of but few of the boys studying the language.

The standard of education is properly that of a Zillah School, qualifying the highest class to pass the Matriculation Examination of the University; but by a recent order of Government the two highest classes have been transferred to the Presidency College. The Madrisa is situated in Triplicane, almost upon Wallajah Road, leading from the Round Tannah, Mount Road, to the Government buildings, Chepauk. The School hours are from 10½ to 1 P. M. and from 2 to 4½ P. M. No school on Friday.

NOTICE TO PRINTERS AND PUBLISHERS.

The Registrar of Books having noticed that Books and Pamphlets are not unfrequently printed with words on the Title-page intimating to the public that the copyright is "Registered" when in fact it is not registered, the attention of all Printers, Publishers and Proprietors is called to the following brief abstract of the Copyright Act (No. XX of 1847) so far as it affects them:—

In order to secure the proprietary right in any publication, a written application must be made to the Registrar in the subjoined form given in the Schedule to Act XX of 1847 (*vide* Section V):—

TO THE REGISTRAR OF BOOKS,
Madras.

SIR,—I have the honor to request that you will be so good as to cause any proprietorship of the copyright of work described in the annexed Schedule to be registered under Rule 6 of Section 20 of Act XXV of 1867, and I herewith forward the prescribed fee of two Rupees for the registry.

Madras,
Date

I have, &c.,
A. B.

SCHEDULE.

Time of making the entry.	Title of Book.	Name of the Publisher and place of publication.	Name and place of abode of the Proprietor of the Copyright.	Date of first publication.

Unless the copyright is secured thus formally the Author or Proprietor will have no copyright. Anybody else may publish the work with impunity and deprived him of his interest in his work, and no remedy can be had in a Court of law (Section XIV). If, on the other hand, copyright is registered, the fact will be admissible as *prima facie* evidence of title and the registered Proprietor can exercise the right to assign his interest or any portion of his interest in the book: (Section V).

Should any person print, or cause to be printed any book in which there subsists copyright without the consent in writing of the Proprietor entered as such in the Registry-book of this office, or have in his possession for sale or hire any book so unlawfully printed without such consent, such offender makes himself liable to a special action for damages (Section VII). And all printed copies of such work are forfeited to the copyright Proprietor: (Section XII).

The practice which now prevails of inserting such formula as "Copyright registered" or "Copyright reserved" on the Title-page of a book and then omitting intentionally or otherwise to register the same is highly objectionable. It amounts to a false statement, made with a view to deter others by misrepresentation from publishing the book. Apart from the utter worthlessness of such false statement, the party making it may probably render himself liable to prosecution for *cheating* under the Penal Code.

Under Section III of the Copyright Act, the Registry-book kept at this office is open to inspection at all reasonable times on payment at this office of eight Annas for every entry which any person may require to be searched for or inspected in the said book, and therefore such person can thus inspect it to satisfy himself whether the copyright has been registered or not, or he can obtain, if required, a copy of any entry in such book, certified under the Registrar's hand, on payment of Rupees 2; and such copies so certified are receivable in evidence in all Courts and in all summary proceedings, and are a *prima facie* proof of the proprietorship of copyright.

2. The Registrar of Books would now warn all concerned that hereafter there can be no excuse for any false statement made concerning copyright or for any infraction of the rules regarding the registration of books generally under Act XXV of 1867, on plea of ignorance; and that any omission to register a publication after the receipt of this notice will be presumed to be intentional, and all parties concerned are hereby warned against the consequences of such neglect.

This Institution was established by the Right Honorable Sir FREDERICK ADAM, K.C.B., by a General Order of Government, dated 13th February, 1835, for the instruction in "Medicine and Surgery" of Europeans, Eurasians and Natives entering the Medical branch of the public service. The benefits of instruction have been since thrown open to the community at large. The Medical College has been recognised by the Royal Colleges of Surgeons of London, Dublin and Edinburgh, as one of the Colonial Schools of Medicine and Surgery. It is under the control of the Director of Public Instruction.

A building has been appropriated solely to the objects of the Institution, the foundation stone of which was laid in December 1836. It was greatly enlarged and improved in 1867.

There is a separate building for practical Anatomy; there is also a Laboratory where practical Chemistry is taught.

A Museum has been formed, which in addition to morbid specimens, possesses numerous preparations, models, &c., for illustrating the different branches of the course of instruction. There is also a Museum of Botany and Materia Medica.

The Institution is supplied annually with a selection of Works on the several branches of Medical Science, for the purpose of forming a Library of Reference. There is also a Students' Library.

The Academical year extends from 1st October to 30th June inclusive, and is divided into a Winter Session of six, and Summer Session of three months. The annual examinations of the College are held in June.

The pupils in attendance at the College consist of—

1. Stipendiary and Private Students and Lane Scholars, who form the *Senior Department* of the College. The period of study for those qualifying for the M. B. & C. M. degree is five years and for those qualifying only for the L. M. degree four years.

2. Military Students, divided into three classes, who study for three years and qualify as Assistant Apothecaries. These form the *Second Department*.

3. Government Students, forming the *Junior Department* of the College, are divided into two classes. Their period of study extends over two years; they are designed for Hospital Assistants in Government employ.

A class of Lady Students has been formed. The pupils study for three years to qualify as medical practitioners.

The number of Students in attendance at the College, on 1st October, 1876, was 89.

The educational buildings needed will be erected on the farm on land situated in close proximity to the village of Sydapet, in which village students can readily obtain lodgings, board, &c., during their course of training.

In the farm workshops all kinds of agricultural implements and tools suited for use in India are manufactured and repaired.

An Agricultural Library is now in the course of formation, and a Reading-room for the use of students has been provided.

A Veterinary Hospital, a Chemical Laboratory, and an Agricultural Museum will also be established as funds are forthcoming.

MANAGEMENT, &c.

The institution is attached to the Educational Department under the general control of the Director of Public Instruction, acting in communication with the Board of Revenue. The direct management of the institution is entrusted to the Superintendent of Government Farms, who conducts all correspondence regarding the institution, issues all notices, orders, &c., regarding the delivery of lectures and other matters connected with the routine of the institution, and maintains discipline amongst the students who are in all things, subject to the orders he may issue.

INSTRUCTION, &c.

The course of instruction will extend over three years; there are two sessions in each year; a Summer Session and a Winter Session; the Summer Session begins each year on the 1st of April, and ends on the 30th of June; the Winter Session begins on the 1st of October, and ends on the 31st March. Though, in the Winter Session, class-room and lecture-room instruction does not begin until the 1st of October, students are nevertheless, expected to attend at Sydapet on the 1st of September, in order that they may witness and take part in the important field operations conducted at that season in connexion with the sowing of the cold weather-crops.

The instruction given in the institution, embraces a thorough study of agriculture and of such portions of Chemistry, Geology, Zoology, Botany, and the Veterinary Arts as bear on the theory and practice of agriculture. In addition to these special subjects, the following also receive attention:—Farm Book-keeping, land-surveying, mensuration, and arithmetic. The instruction is given by means of lectures, class-room discussions, and field classes.

During the portion of the day set apart for practical instruction in farming out of doors, every student is expected to take part in whatever work is going forward on the farm; compliance with this regulation is strictly enforced. Each student is expected to make himself acquainted with all the operations daily performed on the farm, and is required to keep a journal or diary of the same.

Instruction will be conveyed in the English language, but the Masters afford as much assistance as possible in explaining the lectures and instruction generally to students whose limited acquaintance with English may make it difficult for them to follow such instruction without explanation.

4th.—That the application (which should be submitted before the commencement of the undertaking) shall be accompanied by a plan and estimate of the cost of the building proposed to be erected, purchased or enlarged. The plan and estimate to be retained in the Director's Office.

5th.—That previous to the disbursement of the grant, it shall be certified by the Inspector of the Division, or other responsible Officer who may have been deputed to examine the building, that the work has been proceeded with, as provided for in the plan and estimate previously sanctioned by the Director of Public Instruction. Also, that, before disbursement, the Managers of the school shall declare that they have funds on hand sufficient, when supplemented by the grant, to clear off all the debts incurred in the execution of the work.

(a)—A grant will be made to every school favorably reported on by the Inspector at rates not exceeding those noted in the margin provided that a sum equal to the amount of the grant be contributed for the same purpose by the Managers of the school.

(b)—No further application for a grant of books of reference, maps, &c., will be complied with for a period of five years from the date of the previous grant.

(c)—After the lapse of 5 years from the date of the last grant, a renewal grant will be made at rates not exceeding those noted above and with the proviso already laid down.

6th.—That in the event of any building, towards the erection, purchase, or enlargement of which a grant may have been made by Government, being diverted, prior to the lapse of twenty years from the date of issue of the grant, to other than educational purposes, the Manager at the time of the diversion shall refund to Government such portion of the grant allowed them as shall be determined by Arbitrators, who, in making their award, shall take into consideration the length of time the building has been used as a school-house and its consequent deterioration; but in the event of such Managers failing to make such refund, then they shall sell the building to Government at a valuation to be determined by Arbitrators, who, in making their award, shall deduct from the price such portion of the grant as may seem equitable, regard being had to the length of time the building has been used as a school-house and its consequent deterioration.

7th.—That the Arbitrators referred to in the last preceding rule shall be three in number, one of whom shall be nominated by Government, another by the Managers of the school, and the third by the two Arbitrators so appointed; and, in case of the Arbitrators differing in opinion, the award of the majority shall be binding and conclusive on all parties.

24. Grants for the provision of school furniture will be made once in five years, on condition that the Managers of the school shall contribute in equal sum for the same purpose, and that, in the event of the school being permanently closed within five years from the date on which the grant may have been made, the Government shall be at liberty to purchase the furniture, towards the supply of which the grant was given at a valuation to be determined, as in the case of school buildings, by Arbitrators, credit being taken in each case for the amount of the grant, allowing for depreciation due to wear and tear. All applications for grants must be accompanied by a list of the furniture required. A furniture grant will be paid on the Director of Public Instruction being satisfied that furniture to the full amount proposed to be expended, including both local contributions and the Government grant, has been made up and placed in the School.

25. Application for grants-in-aid of Industrial Schools, for the rent of school houses, the wages of school servants, the contingent charges of schools, school prizes, and for other purposes not provided for in this Notification, will be disposed of on their merits, each case being determined, as far as possible, by the analogy of the foregoing rules.

EDUCATIONAL DEPARTMENT.

Fort St. George, October 18th, 1877.

NOTIFICATION.

The following Revised Rules for Results Grants will supersede the special Regulations and Schedules published in the Notification of the 3rd December 1867 and hitherto appended to the Educational Grant-in-Aid Rules.

2. Examinations will be held and payments of grants will be made under the new Rules from and after the 1st April 1878. Every Manager who desires to have his school examined for a result grant in the year 1878-79 must forward before the 31st December 1877 the application prescribed in Rule 1 to the President of the Local Fund Board or Municipality in which the school is situated. Lists of the schools selected for examination and of the dates fixed for such examinations will be published in the District Gazettes before the 31st March 1878, and any prospective reductions in the scale of grants, whether general or affecting particular schools, will be notified at the same time under Rules 3, 4, and 28.

3. During the remainder of the current official year examinations will be held and grants issued under the Rules which have been hitherto in force.

RULES FOR RESULTS GRANTS.

N.B.—Not applicable to schools on the combined system.

I. SELECTION OF SCHOOLS.

1. Every Manager who desires to have his school examined for a grant under the results system shall forward before the 31st December an application, in the subjoined Form A, to the President of the Local Fund Board or Municipality in which the school is situated.

2. Every such application shall be referred to the Deputy Inspector, who shall, as soon as possible after the 1st January, embody the substance of all the applications referred to him in a tabular statement, and shall submit the same to the Inspector of the Division with a covering letter in which he shall briefly state any facts which he may consider it desirable to communicate regarding the respective claims to aid of the several schools applying for grants, and shall also name the date on which he proposes to examine each school.

3. A copy of this letter and list shall be furnished by the Inspector of the Division with his own opinion to the Local Fund Board or Municipality, who shall determine what schools shall be eligible for results grants payable from Local or Municipal Funds during the ensuing official year. A list of such schools and of the dates fixed for their examination shall be published in the District Gazette before the 31st March, and no other schools shall be examined for results grants payable from Local or Municipal Funds without special orders. When a school has been placed on a Local Fund or Municipal list it shall be considered eligible for a grant from Provincial Funds for the fourth standard in the event of its being able to earn one.

4. Such portions of the list and reports as relate to schools applying for results grants payable from Provincial Funds only shall be forwarded by the President of the Local Fund Board or Municipality with his own opinion to the Director of Public Instruction, who shall decide what schools shall be eligible for results grants payable from Provincial Funds only during the ensuing official year. The names of such schools and the dates fixed for their examination shall be published by the President of the Local Fund Board or Municipality in the District Gazette, and no other schools shall be examined for results grants payable from Provincial Funds only without special orders.

5. In the selection of schools to be aided the amount of funds available and the educational wants of the special neighbourhood and of the Circle or Municipality itself will be taken into consideration.

6. An appeal shall lie to Government from any order passed by the President of a Local Fund Board or Municipality, or by the Director of Public Instruction refusing to declare a school eligible for results grants. The omission from the published list of any school for which an application (A) has been submitted, within the prescribed times, shall be deemed equivalent to an order of refusal.

II. CONDITIONS OF AID.

7. No school shall be deemed eligible for a results grant if it contains classes working beyond the fourth standard.

8. A school receiving aid under the salary-grant system cannot claim assistance in the same official year under the payment-for-results system, and similarly a result school cannot be aided under the salary grant system.

9. A school cannot receive aid under the salary-grant system for one portion of the school and under the result-grant system for another.

10. Amongst schools otherwise equally eligible a preference will be given to those in which school fees are levied and trustworthy returns of such fees are submitted.

11. All schools receiving aid under the system of payment for results shall furnish such returns and statements as may from time to time be prescribed.

12. Regular registers of admissions, attendance, and fee collections shall be kept and shall be submitted for inspection when demanded.

13. The attendance registers must be marked every time that the school meets.

14. The village or house-name of the pupils must be written in full in all the registers, and when there are two pupils of the same name the father's name must be added. No entries are to be made in pencil, to be inked over afterwards. There must be no blanks or erasures. If any error has been made it must be corrected by a foot-note. And in every case the register produced must be the original register, and not a fair copy.

15. Every register must have the pages numbered before any entries are made in it.

III. EXAMINATIONS.

16. A school shall be examined for a results grant once a year.

17. Local Fund Boards and Municipal Boards are invited to depute one or more members to be present at such examination. In villages the head of the village and other local village officials are invited in like manner to attend and should be present at such examination.

18. The subjects of examination under the several standards are specified in Schedule B.

19. To be eligible for examination a pupil must have attended the school for at least ninety days during the six working months preceding the examination. Attendance for not less than three hours will suffice to allow a day to count.

20. Only such pupils as have been actually studying within the standards throughout the six working months preceding the inspection shall be eligible for examination.

21. A pupil presented under the first or second standard will not receive any grant unless he or she passes in at least two of heads 1, 2, or 3 of the standard. A pupil presented under the third or fourth standard will not receive any grant unless he or she passes in at least three heads, two of which must be 1, 2, or 3.

22. A pupil is not to be presented for examination under any standard who has already received a grant for that standard.

23. To pass in any head a pupil must secure one-half the marks assigned to that head. Forty per cent. may, however, be accepted if the deficiency under one head is compensated by an equivalent proficiency under another.

24. When it is evident that some of the results attained at examination are due to some other school in the town or village, no grant shall be passed for those results, and the ground on which it is proposed to withhold it shall be reported for approval to the President of the Local Fund Board or Municipality, if the grant is one payable from Local or Municipal Funds, or to the Inspector of the division, if the grant is one payable from Provincial Funds.

25. Any falsification of the registers, any misrepresentation regarding the fees and attendance, any deception in the presentation of pupils, and any other fraud or irregularity, shall be similarly reported after the completion of the examination, and the Countersigning Officer will have the power to withhold the grant in such cases and to take any ulterior measures which the occasion may appear to him to demand.

26. As soon as possible after the conclusion of the examination the Inspecting Officer shall furnish the Manager with a statement giving the names of the pupils passed, the standards under which they were examined, and the marks which they obtained under each head.

IV. PAYMENT OF GRANTS.

27. The maximum scale of grants claimable under these Rules is shown in Schedule C. Rates less than maximum rates may be given to any school when a smaller proportion of aid is evidently sufficient.

28. All prospective reductions in the scale of grants, whether general or affecting particular schools, shall be notified in the District Gazette, when the list of schools to be aided is published.

29. The Inspecting Officer shall as soon as possible after the examination of a school furnish the Manager with a certifying memorandum in duplicate, or, if necessary, with two certifying memoranda in duplicate, showing the number of pupils examined and passed under each standard, and the grant claimable in consequence either at maximum rates or at the reduced rates noted in the District Gazette.

30. If the grant is payable from Local or Municipal Funds, the certifying memorandum shall be submitted to the President of the Local Fund Board or Municipality, on whose countersignature the grant therein specified shall be paid by the Treasury Officer of the Circle or the proper Municipal Officer.

31. If the grant is payable from Provincial Funds the certifying memorandum shall be submitted to the Inspector of Division, on whose countersignature the grant therein specified shall be paid by the Treasury Officer.

32. The duplicate copy of every certifying memorandum shall be forwarded, with an endorsement showing the amount paid thereon, to the Inspector of the Division for transmission to the Director of Public Instruction.

33. All results grants earned by boys under the first, second, and third standards shall be payable from Local and Municipal Funds. All other results grants shall be payable from Provincial Funds.

34. If, owing to any miscalculation, the funds available for the payment of results grants run short of the amount required, all unpaid claims due for the past year shall be discharged before any sums are paid for grants earned during the current year.

SCHOLARSHIP RULES.

The Committee of the Doveton Protestant College with the view of encouraging and aiding students to prepare for and to join the degree of Bachelor of Arts in the University of Madras, resolve to confer scholarships on pupils who have passed the entrance examination of the University and who shall promise to pursue their studies for four years thereafter in the Doveton College.

The following are the Rules, in accordance with which the scholarships shall be given and held.

1. That four scholarships shall be given each year to the students who are commencing their collegiate course, and that each of these scholarships shall be tenable for four years under the rules hereinafter laid down.

2. That two of the scholarships shall be given to Christian pupils who have matriculated from the Doveton Institution according to the order in which they may have passed the University Matriculation Examination provided they also attain to a certain fixed standard in scriptural knowledge, and produce satisfactory evidence of moral character.

3. That two remaining scholarships shall be given to Christian pupils coming from other Institutions on the same terms, provided such pupils hold higher places at the University Matriculation Examination than Doveton students excluding those holding scholarships.

4. That the Scholarships shall be Rupees 10 each per mensem during the first and second years of the College course, and Rs. 20 or 15 per mensem during the third and fourth years of the said course according as the holder shall be placed in the First or Second Class at the First Examination in Arts.

5. That should the holder of a scholarship fail to pass the First Examination in Arts at the end of his second year, the scholarship held by him shall lapse; should such holder of a scholarship, however, pass the First Examination in Arts from the Doveton College in a subsequent year, the Committee may at their discretion grant him a scholarship during the third and fourth year of his course.

6. That unauthorized absence, continued absence for three months from whatever cause or misconduct shall involve forfeiture of scholarship, and that a scholarship thus forfeited shall be available for other students in the same year of the course according to the principles laid down in these Rules.

7. That scholarships not conferred by the Doveton Protestant College shall be held on such conditions as may be prescribed by their founders, subject, however, to the provisions laid down in these Rules.

8. That the scholarships shall cease or be liable to diminution, if the state of the funds render such a course necessary, and that these Rules may be altered by the Committee on sufficient grounds.

9. That the Committee reserves to itself the right of withholding one or more of the scholarships if it deems fit.

In January 1875 a Committee under the Presidentship of Lady Hobart, discussed the question of the education of Mahomedan girls, and proposed to encourage it by promoting the establishment of Schools, where the girls will be taught their own language, needlework of every description, and other industrial occupations.

The School has, by desire of the Members of the Committee, been called "The Hobart School" in memory of the warm interest taken in this movement by the Late Lord Hobart, and the active assistance and sympathy given by Lady Hobart, the President of the Committee. Lady Hobart has presented the School with a donation of Rs. 10,000, to be invested for its support, and has been asked to continue her interest as Honorary President whilst in England.

In December 1875 the School was visited by H. H. the Princess of Tanjore. The Committee are much encouraged by the warm interest taken by Her Highness in the institution and by her liberality in assigning the interest of Rs. 7,000 towards the support of the School.

The accommodation of the School House proving insufficient for the increasing number of children, that had been admitted from time to time, another building was engaged on the 30th November, 1875.

There are now 160 names on the books and an average daily attendance of 130. The Staff employed to instruct them is: one Head School Mistress (an Englishwoman), one East Indian, five Mahomedan school teachers: and one Mahomedan work teacher.

The Committee especially have in view the promotion of such industrial work as will enable the children when they have grown up to earn a livelihood. They particularly wish to have them taught all kinds of Indian needlework, as the girls make sufficient progress in plain sewing, knitting, &c.

The progress made by these children is most interesting, not only in the more immediate objects of the School, but in habits of order, cleanliness, and tidiness.

The Committee take this opportunity of expressing their best thanks to those European and Mahomedan ladies and gentlemen, who have given their kind interest and substantial support towards the advancement of this experimental undertaking.

The condition of the poorer classes of Europeans and East Indians, residing in Black Town and the neighbouring suburbs, is admitted to be most deplorable. This distress is occasioned by their inability to earn a livelihood. Those who are most seriously affected are the old and the infirm who are physically unable to labor, and the young who have not the necessary skill to compete with others in the labour market. The former perhaps fall more legitimately for relief on the Friend-in-Need Society, and arrangements are being made, it is believed, to meet the evil so far as funds will permit. But the young require help of a special nature; they require to be taught how to earn an honest livelihood. The Education given in the several Charitable Institutions of this City, fits them only for Writers and Accountants; a section of the labour market which is already supplied to overflowing, and which will as far as the experience of the past can be depended upon be taken up entirely by the Natives of the country who can work equally well and at lower rates of remuneration. Other portions therefore of the labour market must be tried. To meet this great difficulty, an Industrial School has been established for the poorer classes of Europeans and East Indians in Black Town. The extent of the operations are at present limited, confined to one or two of the principal industrial trades, Repairs, varnishing, &c., of carriages, house painting, carpentry, work in leather, book-binding, &c., but will be extended as funds permit.

The School was opened on the 2nd November, 1874: at present there are 56 boys borne on its Rolls, many have obtained employments as Carpenters, Blacksmiths, Artificers, &c. &c., since the school opened.

Contributions in aid of the Industrial School will be most thankfully received by the Secretary, Rev. Dr. Sayers, and will be duly acknowledged.

The design of this Institution is to afford a refuge for those destitute orphan girls of European descent, who are not eligible for either the Military or the Civil Orphan Asylums. As such, it is one, the Committee plead, well deserving of public support. The Committee invite those who may be disposed to aid this Institution to visit it, and to judge by personally inspection whether it be worthy of support.

The existence of this Society is owing in great part to the exertions of the late Dr. Wight, formerly a Surgeon in the Madras Army, and whose valuable contributions to Botanical Science have gained for him a widely-spread and well-earned celebrity.

The gardens are situated opposite to the chief entrance to the Cathedral, and an additional piece of ground on the east of the Cathedral was purchased in the year 1856-57.

The garden occupies a space of about 7 acres, which were originally granted by the local Government. Part is laid out as a landscape garden and much increased of late in space, with the additions of a number of new and rare plants, especially in tropical palms and Australian trees; the whole forming a splendid collection, gathered from various parts of the world, and is constantly being increased by exchanges and purchases. It is open at all times to the public, and forms a healthful place of recreation, for the inhabitants of Madras.

A nursery for seedlings and cuttings of useful and ornamental trees, is maintained to meet the requirements of the Members who are supplied from it gratis. European vegetable and flower seeds are also similarly distributed; but all these advantages are open to the general public on payment.

Most of the plants are labelled with their botanical names and the natural order to which they belong. The number each holds in the Catalogue is also given, so that those who may wish to obtain the botanical history of the plant, can do so immediately by referring to the page of the Treasury of Botany given in the Catalogue.

There is also a Botanical Library attached, to which access can be had by Subscribers.

The general affairs of the Society are managed by the Committee who meet on the 1st Wednesday in each month, and compile annually, in the month of March, a Report of the year's Proceedings which is submitted to a General Meeting of the Subscribers at large. The Proceedings of each Meeting of the Committee are also published and distributed to Members.

Persons of all nations are eligible as Members of the Society, and have a voice in the annual election of the Committee and Office-bearers.

The rate of subscription is 7 Rupees a quarter; no entrance fee being demanded, and the subscription being allowed to lapse, temporarily, should a Member be absent from India.

Up-country Subscribers are entitled to all the advantages of Members, which it is possible to place at their disposal.

An annual show is held in February, when a large number of prizes are awarded for flowers, fruits, vegetables, and several articles of importance in connection with botanical science. The Society has also made arrangements to award prizes for tea, coffee, &c.

Lists of the prizes to be distributed, and all information may be obtained on application to the Honorary Secretary, by whom lists of Members, Rules of the Society, &c., will be supplied gratis.

The objects of the Club are:—

- (1.) To afford greater facilities than at present exist for intercourse of an interesting and useful kind between Native and European Gentlemen in Madras.
- (2.) To provide a good Reading room, where the current literature of the day may be found, and a really good Library be gradually collected.
- (3.) To afford opportunities for occasional lectures, discussions, readings, &c., whenever opportunity offered, or it appeared desirable to collect opinions on any particular topic.

(4.) To supply a place where Gentlemen, residents in the Mofussil, visiting Madras, may meet their friends, make appointments, &c.

(5.) To supply means for introducing European visitors to Madras to the principal residents, and thus affording them some insight into native society.

The entrance Fee is Rs. 25; the Annual Subscription for Residents in Madras, Rs. 36, for non-residents, Rs. 12, payable quarterly.

It is hoped that those who view the establishment of the Club with favor, will be disposed to assist it by donations, either of money or books. The formation of a good Library must depend mainly on the degree of support thus afforded, and the Committee earnestly hope that aid may be generously accorded.

The Club was opened on the 6th of October 1873.

GOVERNMENT CENTRAL MUSEUM,

PANTHEON ROAD.

Established on the 14th August, 1851, by the Madras Government.

G. Bidie, Esq., M.B., Superintendent.

Mr. W. F. Dique, Assistant Curator.

C. Authecasavooloo Naidu, Curator.

P. Anthony Pillay, Head Taxidermist.

This is a Museum of Natural History, Raw products used in the arts and manufactures; specimens of Manufactures, Implements and Machinery, Ethnography, Antiquities, &c. The Natural History section is the most extensive and embraces a small number of Mammals, and extensive collections of Birds, Reptiles, Fish, Shells, Insects, Crustacea, &c. There is also an extensive Herbarium and very large collection of mineralogical and geological specimens. The Museum is intended chiefly to illustrate the natural history natural resources and manufactures of British India, and the manners, customs, and antiquities of its inhabitants. There is also a very interesting collection of Gold, Silver and Copper Coins, which can be seen by personal application to the Superintendent or Curator. As the collections in the various sections are yet far from complete, specimens for any of them will be very acceptable, and the Superintendent will be glad to enter into arrangements with contributors or collectors which will prove advantageous to both parties. Attached to the Museum there is a general Library and Reading Room, in which any visitor may consult books daily from 6½ A. M. to 5 P. M. There is also a scientific library containing books of reference on the various subjects of Natural History; and any one wishing to consult such works, may obtain permission to do so by applying to the Superintendent who will grant a ticket of admission.

The Museum is opened gratuitously to the Public daily, Sundays excepted, from 6½ A. M. to 5 P. M. The Popular Lectures at the Institution are also free to the Public.

PEOPLE'S PARK,

INSTITUTED IN 1859.

CUSTODIANS—MUNICIPAL COMMISSIONERS FOR THE TOWN OF MADRAS.

Mr. JAMES HAY ELLIS, Superintendent.

We owe the People's Park to Sir Charles Trevelyan. It is not at all improbable that the idea of some such place suggested itself to many a man in power before his day. It would be singular indeed if Europeans should, for a hundred years, have seen a large native town growing up on the site of a small village—a vast population massing together with lungs to be fed with fresh air and limbs to be allured to exercise and health—without sometimes thinking it possible that the “village greens,” “commons,” and “parks” of his native land might perhaps be re-produced with advantage within reach of Black Town. The monotony of Indian life, and the lack of sympathy between the classes of Indian society, may be regarded as the causes why such an idea, if suggested, was never carried into execution. While the “upper ten thousand” could have their drive along the Beach and round the Island, it mattered little to them that the “masses” (unfriendly phrase) who could not drive, or were to be stimulated to recreation, had no place convenient for health, exercise and amusement.

But then Sir Charles Trevelyan was a man not given to routine; and somewhat wide in his sympathy. So the idea of the people's want suggesting itself to him and he having the power as well as the will—the people got their Park. Thousands who know nothing of the step that cost him a Governorship, will hold his name in memory by the People's Park.

But when Sir Charles was re-called, the scheme was in a most elementary state. The plan was on paper; but never adopted. Little else was done, and little else would have been done if the inheritors of Sir Charles Trevelyan's dignity had not also inherited his sympathy with the people. We owe it to the various gentlemen who have been entrusted with the execution of the scheme, that the “plan” was not thrown into the official waste paper basket, and the idea, recorded as one of Sir Charles' amiable follies. It is in unison with Sir William Denison's career, previous to his arrival in this country that he should have shown a hearty approval of an undertaking so intimately connected with the health and pleasure of the middle class population.

There can be no doubt that the Park has been a success. Any one may convince himself of that by a visit morning or evening. The place has already fixed its character as a popular resort, and it is certain that it will be so in a much greater degree when the attractions of the ground are fully developed. It is pleasing to see that the native population appreciate the pleasure provided for them, and when the sternness of social life amongst them is relaxed, we may expect to see not only the Ramasawmies, but the Lutchnies of Black Town taking their ease in the fretted shade of well-grown trees.

But we must suspend any further remarks, and lay before our readers a brief description of the Park.

The gate adjacent to the Hospital Bridge is the main entrance. The trees are planted in avenues and groups. Twelve lakes of various dimensions and shades are completed; and various other things have been achieved: but we cannot do better than print the following description (though brief) of the park, kindly furnished by the Superintendent, which will convey a clear idea of the Park.

In the North-west angle of the Park is a Serpentine lake with two large raised islands one at each end. One of these is 30 feet above the water, and is well calculated for a large basin; from which the cascades might hereafter be made to fall over the sides. The second or Victoria lake, with a central island, is situated almost midway between the band-stand and the northern end of the Park. The island is approached by one bridge of ornamental design, measuring 200×4½ feet. The third is a small lake on the west side, elliptical in shape, and contains good drinking water for cattle. The fourth is a small lake close to the Aviary. The fifth a similar one. The sixth is a semi-lunar lake near the band-stand, with a gravel walk around it. The seventh is a medium lake, between the band-stand and the Superintendent's house. The eighth is an irregularly shaped lake, with a central island and two small rustic bridges on each side of the main road, and trees of various sorts have been planted. The ninth is a large lake on the west side of the main road. The tenth is a medium lake west of the last-mentioned. The eleventh is a medium lake, with a central island at the south end.

There are two masonry basins, one elliptical, measuring 170 feet × 73 feet, and 4½ ft. in depth, formed of solid masonry with brick-on-edged foundation and central fountain; the latter, of ornamental design, galvanized. This has recently been surrounded by an iron fence and converted into a public bath, the floor of one-half of it has been raised so as to give a depth of about 4 feet adapted for the use of boys—the other half has a uniform depth of 5 to 6 feet. It is supplied with Red Hills lake-water from the public main road, and good dressing rooms have been built round it for the bathers. The roads of the Park, embracing 5½ miles, are complete.

The Zoological collection in the Park consist of the following specimens:—

2 Lions, 1 Lion Cub, 2 large Tigers, 1 Black Panther, 2 Panther Cubs, 5 Cheetahs, 2 large Hyenas, 1 Rhinoceros, 1 Elephant, 2 Porcupines, 5 Black Swans, 1 White Swan, 1 Opossum, 1 Emeu, 2 Black Bears, 1 Rattail, 12 Spotted Deer, 15 Monkeys of different species, Guinea Pigs, and a variety of Rabbits.

The Aviary contains a great variety of handsome Ornithological specimens, too numerous to detail here.

The area of the Park is 88 cawnies or 116 English acres.

THE NAPIER PARK.

— Superintendent.

Madras owes so much to the administration of Lord Napier that it is very fitting that some permanent and palpable token of the public approbation of his labors should remain in our midst, at once to stimulate succeeding Governors to walk in Lord Napier's steps, and to remind generations to come of how much the sick, the suffering and the poor must always owe to one who has initiated so great improvements in all our public charities that their effect must long continue—blessing those who are too weak or poor to help themselves. The Napier Park is such a memorial. Its very position is most fitting. Standing midway between Government House and one of the most squalid quarters of Madras, its beneficent influence with rest upon both. Its site had been for scores of years a pestiferous swamp, covered for months in each year by salt and stagnant water, the overflow of the filthy Coom. Within was a wretched parcherry, notorious for its liability to epidemic disease, that spread from thence throughout the city. To partially remedy the evil, the Municipality made it a depot for street sweepings, so that in time its level might be raised sufficiently to ensure its being free from water. This while amending one evil created another—placing on the borders of a dense population masses of putrescent matter that could not but be very injurious to both the water and air of the locality. This grew to be such an evil that the Sanitary Commissioner at last put a stop to the discharge of sweepings on the land. It was, however, impossible to build on such a spot and the whole remained a useless "dismal swamp."

At present all is changed. The level has been raised by material dug from ornamental tanks. Trees of useful and beautiful kinds have been planted, and are rapidly growing to their full height. Roads and side-paths have been laid out, and in the midst a Band stand will probably be erected. Parks are things of slow growth, and it must be years before this can be worthy of the name its bears, but it is hoped that before Lord Napier leaves our shores, the whole of the area will be ready for the public—a boon that cannot but greatly influence for good the whole population of Chintadrepattah and Nursingapooram.

The Park contains an area of about 18 cawnies. A great part of this was formerly the property of Government, but was generously given to the town on condition that the Municipality purchased the rest from the native owners. For this purpose the Municipality has expended several thousand rupees, and the total cost previous to the public opening will not be less than twenty thousand Rupees. The river-face of the Park has already been protected by a simple elegant fence—palmyra and laterite, while a new road divides the northern side from Chintadrepattah. The design and laying out the park are the work of Mr. Standish Lee, the Municipal Engineer, who deserves great credit not only for this but also for the economical but yet effectual manner in which the whole work has been performed.

As a last gift, Lord Napier has provided the whole of the funds required for erecting on the west side of the Park a handsome building for a girls' school in the Indian fashion. The cost will not be less than 6,000 Rupees. It is intended to be a purely national girls' school and to lead on through carefully gained experience to some mode of teaching which will embody the best western systems while not departing from Hindu customs any more than may be necessary. It is greatly to be hoped the scheme will prove a benefit to the public while the school shall ornament the Park.

X. That subject to the approval of the Committee of Management in each case, the Hall shall be available for Religious, Educational, Charitable and Scientific purposes, and for such other objects not being included under the above terms, as may be pronounced by the Committee of Management to be not inconsistent with the design of its erection, viz., to the Glory of God, and as a memorial of His goodness in exempting this Presidency from the Mutiny of 1857. Provided nevertheless that it be distinctly understood, that among the objects left to the discretion of the Committee of Management are not included balls, concerts, theatrical exhibitions and such like entertainments as have the character of mere worldly amusements.

XI. That the Committee of Management shall be authorized to receive the sums obtained on account of the Hall, and to apply them in defraying the expenses incurred on account of servants, assessment, repairs, &c.

---	---	---

The MONEGAR CHOULTRY is an Institution which affords shelter, food and raiment to the Native poor, lame, halt and blind of Madras, without reference to caste. It was founded in the year 1808, and why named as above cannot now be ascertained. The Institution is supported by public contributions aided largely by the Government. The management is placed under the supervision of a Committee selected annually by Government, from amongst the European and Native gentlemen of Madras.

In its early days, large contributions were made by Lord William Bentinck, Colonel Martinz, Mr. D'Monte and Pollium Arnachellum Chetty. The nature of the Institution having been explained to His Highness the Nabob of the Carnatic, he munificently agreed to subscribe 800 Pagodas a year, which sum is still continued.

In 1868, Sir Stafford Northcote kindly remitted a sum of money through Lord Napier to be distributed amongst the Charitable Institutions at Madras. His Lordship kindly sent the sum of 1,000 Rupees to the Directors. Two wards, Male and Female, have been furnished with bedding for 25 Patients, and are called "NORTHCOTE SURGICAL AND MEDICAL WARDS."

The late Doctor Wyllie, C.B., of the Madras Medical Establishment, bequeathed the sum of 18,025 Rupees for the poor of this Institution.

Lord Napier has kindly furnished bedding for 11 Patients, which is called the "NAPIER WARD." His Lordship, with the late Honorable R. ELLIS, has also undertaken liberally to build a School-room which is now completed to educate the Foundlings, the children of the Paupers in the Institution, and the poorer children in and about the neighbourhood.

The Honorable Gajapathi Rau has kindly contributed 1,000 Rupees, which was applied for furnishing a Ward for 8 Patients, and which Ward has been designated as that of the family of "STREX, GODAYS." This contribution is in addition to 400 Rupees annually granted by this charitable Native gentleman.

The Maharajah of Vizianagrum has also lately very liberally placed the sum of 10,000 Rupees at the disposal of the Directors for the erection of a Ward, for Bed-ridden Paupers. The Ward is now completed and will contain about 20 Beds and designated after the name of the Maharajah.

The Zemindar of Kalahustury very kindly sent a donation of 2,000 Rupees after visiting the Institution, as indicative of his satisfaction and good-will towards the charity.

The new buildings in the Choultry are now completed, viz., 3 blocks; 2 blocks are to contain 25 Paupers each, and the other 30 Paupers. The improvements are now complete.

The Choultry is undergoing great improvements. The old Alms House has been pulled down, and three new buildings in separate blocks have been completed.

The block to accommodate 25 Paupers is already finished. The Native Infirmary attached to the Choultry has also undergone great improvements. Several of the old buildings were removed, and three new blocks have been erected. Two other blocks have been built by Government on the north-west of the Infirmary, for the reception and treatment of contagious diseases. By the above improvements and additions, the Infirmary can now accommodate 100 Patients, and the Contagious Wards 20. The Native Infirmary is undergoing further improvements. Mr. D. Sassoon of Bombay has kindly, through Lord Napier, given 4,000 Rs. for the Institution, out of the sum it is proposed to build an Operating-room and Surgery over the present Surgery. This building is now completed.

In the year 1867, the Vencatagerry Rajah built a Choultry to the east of the Monegar, which cost about 9,400 Rs., in which 70 Paupers are fed daily and clothed, besides 180 outdoor poor receive 2 olocks of Raw-rice per diem. The Rajah contributes annually Rs. 5,000 to meet the expenses of this branch of his charity. The Rajah has forwarded to the Directors the sum of one lac, the interest of which is to support this Institution.

The Executive Committee of the Choultry is composed of the following Gentlemen:—

Dy. Surg. G. W. J. vanSomerem, M.D., *Presdt.*
The Hon'ble J. G. Coleman, *Secy. & Treas.*
T. Ramachendra Row.

And the 2 Visitors for the month, and the Surgeon, 1st District, Members.

MONEGAR CHOULTRY SPECIAL RELIEF OPERATION.

There is also an Hospital shed in charge of the Surgeon of the Monegar Choultry. The Apothecary with a Staff of Nurses and Students are in constant attendance. The Directors of the Choultry see to the distribution of the food to the poor in rotation.

ST. PAUL'S CHURCH MISSION,

ESTABLISHED IN 1817.

The present Church was built by the Rev. G. Trevor, and consecrated on the 31st March, 1840.

An increase in the Tamil congregation having necessitated the enlargement of the Church in 1864, a Chancel was added with a Vestry, and the Church greatly improved and beautified through the exertions of the then Honorary Secretary, the Rev. S. T. Pettigrew, by whom also the very pretty compound wall was built.

The Mission premises, which are close to the Church, contain a residence for the Native Pastor, as well as School-rooms for boys and girls. The present Pastor, the Rev. G. Lazarus, was appointed in August 1870, in succession to the Rev. J. Eleazer. He is assisted by 3 Catechists; and there are also 4 Schoolmasters and a Schoolmistress attached to the Mission. The former contains about 66 boys and the latter 51 girls. A Girls' Boarding School has been established in connection with the Mission, and is supported entirely by voluntary subscriptions.

The number of Christians in connection with the Mission in Bangalore is 650. During the past year the beautiful Church of St. Paul's has been enlarged to meet the requirements of an increasing congregation.

The salary of the Native Pastor in charge of the Mission is provided by the Venerable Society for the Propagation of the Gospel, and the rest of the expenses of the Mission are met by local subscriptions and donations.

Subscriptions and donations will be thankfully received by the following Members of the Committee:—

- Rev. Dr. POPE.
 „ G. WARLOW, M.A. Chaplain of St. Mark's Church, *Honorary Secretary*.
 „ G. ENGLISH, Chaplain of Holy Trinity Church.

THE LAL BAGH.

THE MYSORE GOVERNMENT GARDEN, commonly known as the LAL BAGH, (from the Hindustani, signifying *red or ruby and garden*) is under the direction of a Superintendent who is responsible to the Commissioner. The present Superintendent is Mr. J. CAMERON. The garden is situated about two miles, south-east of the centre of the Cantonment, and covers an area of about 50 acres of ground, which slopes gently from the southern boundary, where there is a tank communicating with water channels which are led through most of the garden. The greater portion of the ground is very tastefully laid out in ornamental lawns and terraced flower gardens with green houses, aviary, and cages for Lions, Tigers and Cheetahs, &c. The Menagerie has now been enclosed and enlarged; a Picnic House built; the large Terrace completed, and upon which it is contemplated to build an Exhibition house. The Deer Park is situated at the East end of the gardens and greatly adds to the curiosities of the garden. Fruits and Vegetables are cultivated and acclimatized to a greater extent than hitherto. The garden is open from 6 A. M. till dusk. Carriages and horses are expected to enter by the left-hand entrance gate, and return by the one on the right, keeping to the main drive which encircles the garden. Furious driving is strictly prohibited. Visitors are not permitted to pluck flowers or fruits; and are expected not to bring dogs to the garden, as they do much injury to the plants and seed beds. Plants and seeds may be purchased at the garden.

A large ornamental Fernery has been built adjoining the rookery in which the collection of Ferns will be arranged geographically.

The plants in the gardens are being permanently named for the information of visitors. And an economic garden in which the officinal and medicinal plants will be brought together and grouped according to their natural orders is being formed near the Menagerie.

The number of visitors that entered the garden gates during the official year 1876-77, were Pedestrians 118,152, Equestrians 2,098, Carriages 9,338.

HYDERABAD

Is the capital of the Nizam's territories and the present seat of Government. It is situated within 6 miles from the Fort of Golcondah, its distance from Calcutta is about 962 miles, from Madras 460, and from Bombay 470 miles. The Nizam's country viz., that part under the sole management of His Highness' Government contains an area of about 80,000 square miles. Although no census has been taken of the population, yet it is generally computed at ten millions. It is bounded by Berar on the north, the Madras Presidency on the south, Bombay on the west, and the Central Provinces on the east. The population of the city of Hyderabad is supposed to be about (four) 4 hundred thousand. The city is approached by numerous bridges, gates and posterns, it being surrounded by a stone wall, which, however, is in a weak and ruinous state. Great improvements are, however, being effected in the city, by widening the streets in several parts, and sanitary arrangements are being slowly introduced under the present enlightened minister, Sir Salar Jung, G.C.S.I.

The Hill Fort of Golcondah was anciently the seat of its Government, and in the Fort as well as near it are the far-famed Tombs of Golcondah, a series of splendid mausoleums built in oriental style over the departed Sovereigns and Princes of the Hyderabad dynasty. The Tombs are greatly admired for their extent and beauty.

The Nizam's Government.

The last Ruler, His Highness Afzool-ud-Dowlah Bahadoor, G.C.S.I., was the seventh Nizam of the Deccan, who was the descendant in succession of the celebrated Asaph Jah Nizam-ool-Moolk, the "First Nizam," or founder of the Hyderabad Dynasty since the 17th century. Asaph Jah Nizam-ool-Moolk died in 1748.

The late Afzul-ud-Dowlah, the seventh Nizam or Nawab of Hyderabad, departed this life in February 1869, after a reign of twelve years, and has been succeeded by an infant son.

The infant Prince was placed on the Hyderabad Musnud on the 1st March 1869 as H. H. Nawab Meer Maboob Ali Khan Bahadoor shortly after the demise of the late Nizam, Afzul-ud-Dowlah. During the minority of the present Prince, Meer Maboob Ali Khan Bahadoor, two officers have been appointed to conduct the affairs of the Hyderabad Government.

Nawab Mooktiar-ul-Moolk Sir Salar Jung Bahadoor, G.C.S.I., Prime Minister.

Nawab, "Shumsool Oomrah" Amir-i-Kabir Bahadoor Co-administrator.

The re-construction of the Government of the Nizam, during the minority of the present Prince, is one proof of the Minister's administrative ability and sound judgment, for which advantages this country will be indebted, and the benefit thereof will be fully appreciated in due course of time.

The undermentioned four Noblemen were further selected to superintend the departments of the City Public Service:—

TRIMULGHERRY.

At Trimulgherry are the Barracks of the European Regiments of the Subsidiary Force—also of the Horse Artillery. Nearly all the Troops have been removed from Secunderabad and Baigumpett to the new and stately buildings erected at Trimulgherry. At Trimulgherry is also an entrenched fort, which contains all the Barracks and principal buildings of the two Regiments of European Infantry, affording accommodation if need be for four thousand people. It is surrounded by a stone ditch and earthen parapets flanked by five batteries. Besides there are an Arsenal (removed from Secunderabad), two Magazines, Commissariat Store Houses, a Bakery, and a good supply of water. The Head Quarters of the 12th (Prince of Wales' Lancers) have been removed into the splendid buildings that have been erected at north Trimulgherry. North Trimulgherry is

S. E. of the Bolarum Residency, and immediately behind Byam's Cenotaph, this will give the reader, who knows anything of this locality, some idea, of what the Station of Trimulgherry now is. Several Officers' Quarters are nearly finished to the East of and in line with the Bolarum Residency, and within a short distance of it.

There is a Church also at Trimulgherry, which answers the convenience of British Europeans at that Station.

Rev. F. Horsley, Church of England, Chaplain of Trimulgherry.

BOLARUM,

Is 12 miles north of the Residency, a Military Station for troops of the Hyderabad Contingent. The Protestant Church at this place is a neat Gothic structure, erected by public subscription in 1845. The Rev. H. C. Pelly is the Chaplain of Bolarum. There are also two Catholic Chapels, (Irish and Goa), a Post Office and an English school for children of both sexes of Europeans and East Indians. A People's garden has also been beautifully laid out, and is a great ornament to the Station. The Band of the Infantry Regiment plays in the garden once a week. Owing to the proximity of Bolarum to north Trimulgherry, the Troops (Lancers) are marched to the Bolarum Church for Divine worship. The Church is about to be enlarged to provide sufficient accommodation for the Lancers.

The following Civil Offices are located at Bolarum:—

LIBRARY.

The Books in the Library are in good order, are much circulated, and are increasing in number. One-fifth of the Books are often out in the hands of Subscribers at the same time. At the end of last March, they totalled 8,135 volumes. 472 volumes were added during the past year, at a cost of £300: of these one was presented by the Government of Madras, namely, "Brecks' Report on the Tribes of the Nilgiris."

READING ROOM.

Thirty-six Newspapers and 32 Periodicals and Magazines, or 68 in all, both European and Indian, are now taken in by the Institution.

RULES FOR ADMISSION.

The objects contemplated in the Establishment of this Institution are two-fold—first, to do honor to the memory of a great and good man, the late Sir Henry M. Lawrence, K.C.B.; second, "to benefit the children of the European Soldiery, by providing for them a refuge, both from the debilitating effects of a tropical climate and the demoralizing influence of a Barrack life."

The amalgamation of the Madras Military Male Orphan Asylum with the Ootacamund Lawrence Asylum was effected in August, 1871, on the completion of the new Buildings at Lovedale.

The number at present on the rolls are, boys 330 and girls 60.

The salubrity of the situation (which surpasses that of some of the healthiest public schools in England) is shown by the diminished percentage of sick in Hospital, and the robust appearance and healthy appetite of the children.

Although the Institution may be said to have been adopted by the State, it is not perhaps so generally known that Government has never contemplated doing more than furnishing it with a liberal *Grant-in-aid*. Contributions are earnestly requested that the benefit of the Asylum may be more widely extended to a class which has one of the strongest claims on British Subjects in India. Four years' annual subscription of Rupees 50, or a donation of Rupees 300, gives a title to nominate a child.

The boys receive such a training as will fit them for usefulness hereafter in various lines of life, whilst the girls are employed in such occupations as will tend to qualify them to become useful wives and mothers, should they be spared. The clothing and most of the in-door work in both branches is done by the children, and native servants are dispensed with as much as possible.

- (4).—When the sender does not give intimation of loss within three months from the date of posting.
- (5).—In cases of damage as distinguished from loss; it being understood that the sender is responsible for the proper packing of articles liable to damage so as to provide sufficient protection for them.
- (6).—When there is no visible damage to the envelope or other covering or seals: it being understood that the sender must so pack the letter or parcel that its contents cannot be touched without visible damage as aforesaid being caused.
3. The compensation will be payable one month after the date on which intimation of loss is given by the sender to the post office, except in cases in which the postmaster general or chief inspector of post offices may consider that the circumstances demand the withholding of payment pending enquiry.
4. An acknowledgment signed by the addressee will in ordinary course be transmitted to the sender: and in the event of the acknowledgment conveying the intimation of loss, or of the non-receipt of an acknowledgment within three months, he is expected to give intimation to the post office.
5. The sender shall, on receiving compensation, make over in writing to the Government the whole of his rights in the lost property, and shall give all information necessary to facilitate the search for it.
6. No letter or parcel may be insured for an amount greater or less than the actual value of its contents as certified thereon by the sender. Letters and parcels may be insured without limit as to value. The weight of an insured parcel may not exceed the usual limit of 2,000 tolas: and in respect of size also it will be subject to the ordinary conditions mentioned in the postal guide.

7. The charges for insurance will be as follows:—

When the value certified does not exceed Rs. 10	... 1 anna.
" " " " 25	... 2 annas.
" " " " 50	... 4 "
" " " " 75	... 6 "
" " " " 100	... 8 "

and 8 annas for every additional rupees 100 or fraction thereof.

* Specimen of declaration to accompany the letter or parcel.

This letter (or parcel) addressed to
Major G. H. Grantly,
15th Hussars,
Muttra,
is declared by us, the senders, to contain
the following articles, viz:—

A gold ring, value	Rs. 110
Three gold studs, value	72
and currency notes—	
No. $\frac{E}{12}$ 46569	20
" $\frac{G}{7}$ 60339	10
" $\frac{L}{27}$ 66441	5
	35
Total value	217

(Signature) HAMILTON & Co.,
8, Old Court House Street,
Calcutta.
Dated 19th March 1878.

8. The prepayment of postage, and in the case of letters of the registration fee, is compulsory and must be effected by postage stamps affixed to the article. The prepayment of the insurance fee is also compulsory and must be made in cash to be tendered with the article. Thus a letter weighing (say) three-fourths of a tola and insured for rupees 1,000 must be prepaid with stamps to the extent of 1 anna for postage and 4 annas for registration (the total prepayment by stamps thus being 5 annas), and in presenting it at the post office it must be accompanied by rupees 5 in cash for insurance. Similarly a parcel weighing (say) 110 tolas and insured for rupees 1,000 must be prepaid with stamps of the value of 1 rupee for postage and accompanied by rupees 5 in cash for insurance.

9. A written declaration* stating the nature and value of the contents must accompany each registered letter or parcel tendered for insurance, and if currency notes form the contents or part of the contents thereof, the serial and general numbers as well as the value of each note must be written in the declaration. The signature and address of the sender must be added. This declaration will be recorded in the post office.

* Specimen of writing the certified value on the envelope.

Certified value of two hundred and seventeen (217) rupees.

To Major G. H. Grantly,
15th Hussars,
Muttra.

10. The declared value must also be certified by the sender in figures and words immediately above the address* on the envelope or cover of the letter or parcel: no correction or erasure is permissible in the writing or figures of the amount certified.

11. Any person making a false certificate will be liable to the penalty under Section 43 of the Post Office Act of 1866, as well as to penalties for cheating under the Penal Code.

12. Registered letters and parcels intended for insurance must be presented at the window

of the post office. The hours for their reception will be the ordinary registration hours, which with a few exceptions are from 7 to 8 A.M. and from noon to 5 P.M. They will not be received at all on Sundays, and they must be tendered at least one hour before the time fixed for the closing of the mail by which they are intended to be despatched: otherwise they will be detained till the next despatch is made.

13. Letters and parcels intended for insurance should be closed as follows:—

In the case of a letter if the cover be an envelope of the ordinary kind as represented on the margin, it should be of strong paper having seals on the flap point in the centre, and on each of the four corners, with distinct impressions of some device other than that of a current coin. If the cover of the letter be other than an ordinary envelope of the kind referred to above, it should be of strong paper or other substantial material, the seals being placed along each fold or seam not

more than two inches apart. A parcel should be securely packed in cloth, wax-cloth or tin, and if it is packed in cloth or wax-cloth it should bear similar seals at intervals not exceeding three inches along each line of sewing.

14. Letters and parcels not fulfilling the required conditions will not be insured.

15. As a further precaution it is recommended that in closing an envelope containing only paper enclosures, the flaps should be closed with paste as well as with seals, and that a needle and thread should be passed through the envelope and its contents, the knot of the thread being placed under the central seal: a specimen of an envelope closed in this manner can be seen at the post office.

16. The addressee of an insured letter or parcel must sign both the receipt and acknowledgment presented therewith, unless the outward appearance of the cover give rise to suspicion of tampering. In such case he should return the letter or parcel unopened, arranging with the post master to take delivery at the post office, the letter or parcel being opened there in the presence of the post master and its contents entered in an inventory which will be prepared in duplicate and must be signed by the addressee. One copy of the signed inventory will be forwarded by the post office to the sender with the unsigned acknowledgment attached to it.

17. "Value payable parcels," i. e., parcels the value of which is realized from the addressee and paid to the sender under the Postal Notice of 1st November 1877 may also be insured; insurance however renders the prepayment of postage and the insurance fee compulsory. When a "value payable" parcel is insured the sender will receive from the post office two receipts, viz., a value payable receipt and an insurance receipt.

MARRIAGE LICENSES.

I.—RULE OF RESIDENCE.

II.—RULE REGARDING DIVORCED PERSONS.

TO THE REVEREND THE SURROGATES.

MADRAS,

December 1875.

REVEREND SIR,

With reference to Rule 3 in the "Instructions for the guidance of Surrogates," I am directed by the Right Reverend the Bishop to inform you, that, inasmuch as the prescribed residence of fifteen days before the granting of a marriage license has from time to time been found impracticable, and there has hitherto been no requirement that a period of time should elapse during which the Surrogate, after receiving an application for a license, may inquire concerning the parties desiring to be married, and for want of due inquiry improper marriages have occasionally taken place—the residence of fifteen days is no longer required, but instead thereof the Surrogate must henceforth require that every application for a license be made in writing, and that, after he has received such application and immediately before his granting the license, one of the parties to be married shall reside in his (the Surrogate's) Station or District for four successive days. He must not issue the license until satisfied by affidavit* of such four days' residence.

2. A similar rule to this was promulgated by the Right Reverend the Metropolitan last year for observance in the Diocese of Calcutta.

3. The opinion of the Advocate-General of Madras as to the power of Indian Bishops to make such a rule, obtained through the Government, is here subjoined:—

OPINION.

- It is true that 4, Geo. IV., Cap. 76, Sec. 14, (the enactment regulating the grant of licenses for marriage by the Surrogate or other authorized person), provides that one of the parties shall swear to having resided for fifteen days preceding within the Parish or Chaplaincy; and that the residence for fifteen days in such cases is, accordingly, a "rule" of the Church of England.

2. Considering, however, that the practice has never been observed in the Diocese of Calcutta, and only very partially observed in the Diocese of Madras, I do not consider that it can have been the intention of Section 5 of the Christian Marriage Act of 1872 to impose a rule not hitherto observed, or to deprive the Indian Bishops of a power, which they appear long to have exercised, of prescribing a shorter period than that laid down in the Act. I think, therefore, that it is competent to the Bishop to issue instructions as to residence in such cases similar to those issued by the Right Reverend the Metropolitan for the Clergy in Bengal.

MADRAS,
24th September 1875.

(Signed) H. S. CUNNINGHAM,
Advocate-General.

II.

For the removal of doubts which some have entertained regarding the purport of Rule 4, I am directed to state, that it is not intended thereby to compel any Surrogate to grant a marriage license to any person whose former marriage may have been dissolved on the ground of his or her adultery.

I am, Reverend Sir,

Yours very faithfully,

FRED. ROWLANDSON,

Offg. Registrar of the Diocese

* Forms of the requisite affidavit can be obtained on application to the Registrar of the Diocese.

Note.—No standing order not contained in this Code should be quoted or trusted in deciding or submitting for orders any question affecting Leave. Without the special authority of the Government of India, no such order has any validity.

SECTION 2.

Substitute the following for the last sentence.

Nor does this rule apply to a military officer who either vacates his appointment in the Civil Department when going on leave and reverts to the Military Department, or receives only English furlough pay, or to a Covenanted Civil Servant who receives only subsistence allowance: in these cases the allowance admissible is charged to the British Indian revenues.

SECTION 37.

Insert the following as Rule 1-B under this Section together with the note appended.

1-B.—If the Local Government decides before an officer whom it has the power to remove from the service leaves India, that he shall not be permitted to return to duty in India, notice should be given to him before he leaves India, so that any remonstrance which he may wish to make may be considered on the spot by an authority fully cognizant of the facts of the case. Such notice should not be postponed until after the officer's departure and then communicated to him through the Secretary of State. But if the question to be determined is the propriety of removing an officer for incapacity, whether mental or physical, which is of such a nature that it is not possible to say before his departure whether it will be permanent or temporary, the Local Government should report the circumstances fully to the Government of India for communication to the Secretary of State for India.

Note.—These Rules (1-A and 1-B) must not be understood to authorise the grant of furlough to an officer who ought to be dismissed or removed from the service for misconduct or general incapacity.

For the words "admissible as invalid pension or gratuity" substitute "admissible under this section."

Insert the words,

See Rule 5 under Section 95. A gratuity is intended to be less valuable than a pension, and must not be awarded if it is likely to impose upon the revenue a higher charge than would arise from a pension.

Every applicant for a gratuity should appear before a Commissioned Officer or Medical Officer in charge of a Civil station, and if the Medical Officer considers that the applicant has clearly not the moral prospects of life, he should so certify in a confidential report to the head of the office explaining briefly the grounds of his opinion. In such case the Local Government should grant, in lieu of the gratuity, a pension equal to that which the gratuity would purchase according to the scale in Table A, Appendix E, for a pension of the same age with normal prospects of life. But it is not intended that this rule should be employed indiscriminately, and the Government of India will be ready specially to consider any cases in which its strict operation would work serious hardships.

SUPPLEMENT A.

With the sanction of Her Majesty's Secretary of State for India in Council the following is substituted for Section 8.

Section 8—After thirty-five years' service counting from the date of his arrival in India, an officer shall not, except for special reasons, with the sanction of the Secretary of State, retain his office or be appointed to any new office. Provided that, if such an officer has held his office for less than five years, he may, for special reasons, with the sanction of the Government of India, be permitted to retain his office until he has held it for five years. The term "Office" in this section includes an officiating appointment.

CEMETERIES.

HOME DEPARTMENT. NOTIFICATION—ECCLESIASTICAL.

Fort William, the 12th December 1877.

No. 421.—The following Rules for the care and use of Government Cemeteries other than those in the Presidency Town of the Diocese of Calcutta, for the levy and expenditure of fees on graves and monuments in Cemeteries and Churches throughout India, and for the levy of other ecclesiastical fees, are published for general information and guidance:—

I.

Rules for the care and use of Government Cemeteries throughout India except those in the Presidency Town of the Diocese of Calcutta.

CHARGE OF THE CEMETERY.

RULE I.—(1)—The Resident Chaplain of a station has charge of the general cemetery and frames an estimate of the expenditure connected therewith in accordance with the directions contained in paragraph 1, Home Department* Resolution No. 6—870-382, dated 9th November 1876.

* Appendix A.
(2)—The term "Resident Chaplain" includes a Clergyman of the Additional Clergy Society so far as concerns the stations to which he stands appointed or other Clergymen of the Church of England placed in charge by the Bishop.

(3)—During the temporary absence of the Chaplain, and at stations where there is no Resident Chaplain, the charge of the cemetery belongs to the Chief Magistrate on the spot, or the senior Military Officer if the cemetery is attached to a military cantonment.

(4)—At out-stations where there is a Church Committee the charge of the cemetery will belong to the senior member of Committee, and where there is no such Committee, to any subordinate officer nominated by the Magistrate or Deputy Commissioner of the district.

RULE II.—Each cemetery is allowed a malichowkidar or chowkidars in accordance with the scale prescribed in paragraph 2, Home Department Resolution† No. 6—370-382, dated 9th November 1876. These chowkidars are paid by Government through

† Appendix A.

the Resident Chaplain by whom they are appointed and dismissed. In stations where there is no Resident Chaplain, the chowkidars are paid, appointed and dismissed by the other officers named in Rule I.

RULE III.—Every reasonable effort should be made by the Resident Chaplain or other officer in charge under Rule I, not only to keep the cemetery in decent order, but to preserve its character as the resting-place of the remains of departed friends by providing for the necessary repairs and by planting the ground with suitable trees.

NOTE.—To meet the expenditure under this Rule, see Rule I, and paragraph 1 of Home Department Resolution† No. 6—370-382, dated 9th November 1876.

‡ Appendix A.

RULE IV.—The chowkidar will keep the key of the cemetery under the direction of the officer in charge.

RULE V.—The officer who has charge of the cemetery under the operation of Rule I will perform all the duties assigned to the Chaplain by Rules VII, VIII, IX, X and XI, with the exception of the approval of the inscriptions in that part of the cemetery reserved for the Church of England. These are to be forwarded to the visiting Chaplain, or, if there be none, to the Archdeacon, and not cut till his sanction be obtained. Should however, an inscription be disapproved, it may be referred to the Government for decision.

INTERMENTS BY WHOM TO BE CONDUCTED.

RULE VI.—(1)—The Chaplain buries Christians of all denominations whose friends desire his services as laid down in the orders of the Government of India in the Home Department‡ No. 159, dated the 6th June 1877, using always the service of the Church of England, and the consecrated portion of the cemetery.

§ Appendix B.

(2)—A portion of every cemetery will be set apart by the orders of Government for the use of Roman Catholic congregations, and another portion will be appropriated for the joint use of other Christians whose friends desire that they should be interred otherwise than according to the ritual of either the Church of England or of the Church of Rome, or who cannot legally be so interred.

(3)—These unconsecrated portions thus set apart are not to be fenced or walled off from the rest of the cemetery, but simply divided off by a pathway, and they must be added to the existing cemetery or reserved from it. If the existing cemetery be large enough for the wants of the whole Christian community, such portions will be reserved, without reference to the fact that the whole enclosure has or has not been consecrated

according to the rites of the Church of England. If the cemetery be only large enough for the wants of Christians desiring to be buried with the service of the Church of England, such portions will be added. The whole cemetery thus divided is to be surrounded by a wall, to have but one gate of entrance, and to be under the care of the officer specified in Rule I.

RULE VII.—(1)—Ministers of all denominations have a right to conduct the service of burial over the body of any deceased member of their respective congregations who may be buried in any fitting portion of the ground set apart for the denomination to which the deceased belonged. At least six hours' previous notice of the burial should be given to the Chaplain in charge of the burial-ground, or, in the absence of the Chaplain, to the officer who may be in actual charge. The period herein prescribed may, for special reasons, be shortened with the permission of the Chaplain or officer in charge of the cemetery. Such Chaplain or officer will, if he thinks the circumstances of the case demand it, bring the facts to the notice of the local Magisterial authorities in time to admit of an order stopping the burial being passed if necessary.

(2). A certificate of burial drawn up according to the required form must be sent to the Chaplain or to the Registrar of Births, Marriages and Deaths, to be entered in the register kept up by him.

RULE VIII.—No burial can take place in that part of a Government cemetery which has been set apart for the use of members of the Church of England, unless the service prescribed by that Church is read by the Chaplain if there be one, or, in his absence, by the layman who officiates at the funeral. But a person may be interred in the other portions of a Government cemetery with or without the use of any services of religion.

ARRANGEMENT FOR BURYING.

RULE IX.—The arrangements for making the necessary preparations for digging graves, preparing coffins, and the like, should rest in military stations upon the senior military officer, and in civil stations upon the chief local Magistrate. These officers are authorized to direct any local Public Works officer to supply all that is necessary. The local Public Works officer would usually be the Executive Engineer of Military Works in Military stations, and the Civil Executive Engineer in other stations. The expenditure incurred by the Executive Engineer will be held in his miscellaneous advance account until repaid by the officer authorizing the expenditure. But in cases of necessity or emergency, either officer may be called upon to do what is required.

RULE X.—The officer in charge of the cemetery shall keep a plan of the entire cemetery to be provided by the Public Works Department, with references written upon it, in a book, in which the names of parties interred are recorded; this plan and book being kept with the church registers.

ERECTION AND REPAIR OF MONUMENTS.

RULE XI.—Monuments may be erected by any interested person. The inscription before being cut, and the design, must be first approved of as laid down in Rule V, and the dimensions of the monument must accord with the orders in paragraph 3, Home

* Appendix A.

Department Resolution* No. 6—370-82, dated 9th November 1876.

RULE XII.—(1). The Chaplain should communicate with the friends of the deceased when a monument needs repairing, or, when such communication is not possible, advertise three times in the *Gazette of India* and the *Gazette of the Province*; and if it falls into a ruinous condition, and no party will undertake to restore it, the ruined monument must be made level with the ground during the next repairs, and any slab it contained must be placed over the grave in simple masonry, or be inserted in the wall.

(2)—All work connected with monuments must, as far as possible, be carried on outside the cemetery, and any undertaker not removing the debris of his work immediately upon its completion is liable to a fine of Rs. 5.

NOTE.—This rule does not apply to monuments of historical or archaeological interest. Lists of such tombs should be obtained by Local Governments and Administrations, and as many of them as may be properly preserved at the public expense should be looked after by the local Public Works Department.

INSPECTION.

RULE XIII.—The cemetery should be inspected once in a half-year by the Chaplain in company with the Executive Engineer, the plan and book kept under Rule X being also examined, and a report made to the Archdeacon, and recorded in the Ecclesiastical record-book of the station, and also in the Engineer's Office.

RULE XIV.—(1).—Commissioners of Divisions should inspect cemeteries, whether closed or in use, within their respective jurisdictions, in the course of their annual tours and should bring to the notice of the local Government any instances of cemeteries which are negligently kept, or which the officers in charge may have allowed to fall into a state of bad repair or disorder. All cemeteries are equally subject to the visitation and supervision of the Bishop and Archdeacon.

(2). Sanitary officers in cantonments are invited to inspect cemeteries within their respective cantonments, and to report to Local Governments any matter calling for notice.

MISCELLANEOUS.

RULE XV.—It is desirable that officers commanding regiments or detachments should be instructed to cause a report to be made to the nearest civil officer of graves dug for

soldiers on march, that measures may be taken for their effectual protection and preservation. These graves and all scattered Christian graves throughout the district are under the care of the local civil authorities.

RULE XVI.—The above rules do not apply to Presidency cemeteries which have rules of their own.

II.

Rules regarding the levy and expenditure of Fees on Masonry Graves and Monuments in Cemeteries and Churches throughout India.

WHAT FEES ARE PAYABLE, AND BY WHOM.

RULE I.—A fee of 8 Annas for every square foot of ground occupied shall be charged for the construction of any masonry grave in a burial-ground.

NOTES.—(1.) This fee is independent of the actual charge for making a grave.
(2.) The fee leviable on a masonry grave regularly built up to the level of the ground is also leviable on a masonry grave which is not built up to the level of the ground, but which is only over and round the coffin.

(3.) The "ground occupied" is to be regulated according to the rule laid down in paragraph 3 of Home Department Resolution, * No. 6—370-382, dated 9th November last.

* Appendix A.
(4.) The same fees which are levied on pukka graves should also be levied on cutcha graves which have pukka foundations.

RULE II.—A further fee of one Rupee per square foot shall be levied on the erection of a monument in a burial-ground; provided, however, that for a simple headstone or flat slab not more than 3 feet 6 inches in height or length, and 2 feet in width, a uniform fee of Rs 5, only shall be charged. A fee of Rs. 75 shall be levied on a faculty for the erection of a monument in a church.

NOTES.—(1.) A tablet on the wall of a cemetery is to be regarded as a monument.
(2.) "Simple headstone." A cross no higher than a usual headstone and no longer than a usual flat stone is included in this description.

(3.) When a monument is erected over a masonry grave, the total of the two fees will be equivalent to one and a half Rupee for each square foot of ground occupied.

(4.) The fee of Rs. 75 levied on a faculty, drawn in the case of non-Government churches by the present incumbents of the office of Registrar of the Diocese in Calcutta and Bombay, shall cease on a vacancy occurring in the appointment. The money is to be spent in charity as in the case of Government churches.

RULE III.—When a cenotaph is erected in a cemetery, a fee of Rs. 50 should be levied in addition to the fee charged for the ground occupied, and the space should be strictly limited to six feet square.

RULE IV.—Fees for masonry graves and monuments should be levied over the whole cemetery, including those portions which are used by Roman Catholics and Non-conformists.

NOTES.—(1.) The same rules in regard to fees apply to all graves, whether of Roman Catholics, of Non-conformists, or members of the Established Church.

(2.) Where a parcel of ground used for burial by a Christian community of any particular denomination other than the Established Church of England forms no part of the general cemetery but is separate from it, or where, although not so separate, it is clearly distinguishable and was not originally acquired, and has not been kept up at the expense of the State, then, if the community by which the ground is used so desire, the Government will give up all claim to fees, on the distinct understanding that it is divested of all responsibility for the maintenance of the cemetery in proper order. On the other hand, where such parcels of ground form part of a cemetery of the Established Church or the general Christian community, provided and maintained by the Government, no distinction can be made as to keeping up any one part of the cemetery, nor should any exemption from fees be permitted.

EXEMPTION FROM FEES IN GOVERNMENT CEMETERIES.

RULE V.—British soldiers and Non-commissioned officers are exempted, with retrospective effect, from the payment of any fee for the construction or masonry graves, or for the erection of monuments in burial-grounds to the memory of their comrades, wives, or children. No monument, however, either regimental or private, shall exceed the

* Appendix A.

dimensions prescribed in paragraph 3, Home Department Resolution, * No. 6—370-82, dated 9th November 1876.

NOTES.—(1.) This rule is applicable to the British soldiers and Non-commissioned officers whether in military or civil employ.

2. Monuments erected under this rule subscribed for partly by Non-Commissioned officers and men, and partly by officers, are likewise exempted from the prescribed fee.

3. Warrant officers are not exempted from payment of ecclesiastical fees.

RULE VI.—The Chunar pensioners being more or less under military control come under the category of soldiers, and are therefore entitled to the same exemptions as soldiers. But this ruling does not apply to other pensioners who are not similarly under military control.

RULE VII.—The Chaplain may at his discretion reduce, or altogether remit in cases of extreme poverty, the fee leviable on the construction of masonry graves, but not for the erection of monuments.

NOTE.—The Bishop on special occasions may sanction a reduction or remission of fees for the erection of monuments.

FEES BY WHOM TO BE COLLECTED.

RULE VIII.—In those stations in which a mason has been appointed, who alone is allowed to work within the cemetery, he is required, in exchange for the monopoly, to collect the fees on monuments and masonry graves, and pay them to the Chaplain; and any person ordering the construction of a masonry grave or monument by a mason or undertaker other than the person appointed by the Chaplain must pay the fees in advance.

NOTE.—Fees on masonry graves and monuments constructed by the appointed mason or undertaker need not be paid in advance, but, in case of failure of payment, their recovery must be entrusted by the Chaplain to the Magistrate or Deputy Commissioner as the case may be.

FEES TO WHOM TO BE PAID.

RULE IX.—The fees prescribed in Rules 1, 2, and 3 should be paid to the Chaplain or, in the absence of the Chaplain, to the officer in charge of the burial-ground and remitted at once to the Civil Treasury, except fees for monuments in churches, which would be paid over by the Chaplain to the charitable objects to which the Bishop assigns them when his faculty is issued.

CEMETERY RECEIPTS AND CHARGES.

RULE X.—All cemetery receipts and charges to be regulated as laid down in paragraph 4 of Home Department Resolution† No. 6—370-382, dated the 9th November 1876.

† Appendix A.

MISCELLANEOUS.

RULE XI.—(1.) A person may not purchase a portion of a Government cemetery as a burial-place for himself and his family, so as to have a right to fence it with a rail or fence, and thus make it the private property of himself and family. But when such rights already exist, they are not without reason to be interfered with, and special cases as they arise may require exceptional treatment. And in such cases the Archdeacon may exercise his discretion with the sanction of the local Government.

(2.) All private rights must, however, cease if for sanitary or other public reasons the cemetery is closed against burials, or even that portion of it in which the private ground is situated, but in special cases the Archdeacon may exercise his discretion of giving permission to open a vault or masonry grave.

(3.) No kutcha grave can be opened in any cemetery for the purpose of converting it into a masonry grave without application to the Archdeacon, which must be accompanied by a certificate from the Principal Medical Officer that this may be done without risk to public health.

RULE XII.—(1.) When a piece of ground is granted by Government as a cemetery to a Railway Company for the interment of its own servants, which afterwards keeps it in repair and provides the necessary establishment, so that beyond the original grant of ground Government is at no expense, the collection and application of fees accruing is left to the decision of the Railway Company which maintains the cemetery in good order and repair.

(2.) The Commissioner or District or Judicial Officer, and in military stations the officer commanding, should inspect such cemeteries and report to Government if they find them negligently kept.

III.

Other Ecclesiastical Fees.

RULE I.—No fees are charged for the performance of the rite of baptism or burial, or for the registration of the performance of these offices.

RULE II.—In addition to the fee for the Surrogate's license a fee of Rupees 10 shall be charged on all marriages by license, except the marriages of officers and others in the Military or Naval Service of Her Majesty.

RULE III.—The fee for a Surrogate's license shall be Rupees 50 both at the Presidency towns and in the interior. No fee shall be charged on marriages by banns.

RULE IV.—When registers are searched and a copy of any entry given, a fee of Rupee one shall be charged for the first year,* and four Annas

* The first year shall be for every additional year over which the search may taken to mean any one year extend; as well a fee of Rupee one for the certificate indicated by the applicant. Soldiers, sailors, and Non-Commissioned and petty officers are exempted from payment.

NOTE.—The amount of fees payable for marriages performed, and for searching registers kept in accordance with the provisions of Act XV of 1872 (The Indian Christian Marriage Act), is fixed by each local Government.

APPENDIX A.

Extract from the Proceedings of the Government of India in the Home Dept. (Ecclesiastical), Nos. 6—370-382, dated Simla, the 19th November 1876.

Read Home Department Resolution, Nos. 314 to 318, dated 6th October 1875, appointing a Committee to report upon the following matters connected with ecclesiastical administration:—

- (1.) The framing of joint estimates for expenditure on cemeteries or churches by the Executive Engineer and the Clergyman in charge.
- (2.) A revision of establishments for cemeteries according to their area.
- (3.) The size of monuments and amount of ground that may be enclosed.
- (4.) Provision for planting cemeteries and preserving them in decent order.
- (5.) Mode of supply of certain articles of church furniture.
- (6.) The substitution of three for two classes of churches with respect to the expenditure allowed for them by Government.

Read the Report of the Committee, dated 29th October 1875.

Resolution.—The Report of the Committee has been considered by the Governor-General in Council, who desires to express to the Committee his satisfaction at the result of their labors.

The following rules have been approved relative to the subjects referred to the Committee for report:—

I. Churches and cemeteries have already been divided into two classes: (1), those in Public Works Department, stations where there are military cantonments and the military works which are under the charge of the Inspector-General of Military Works; and (2), those in other military cantonments and civil stations.

In both classes of stations joint estimates* of expenditure should be framed annually by the undermentioned officers:—

(a.) In the case of all expenditure connected with establishments, e.g., pay of servants, alterations in their pay or number, &c., also all expenditure by Government connected with the provision of articles of church furniture supplied by the Civil Department, } By the Chief Magistrate of the District and by the Chaplain.

(b.) In the case of all expenditure connected with repairs and additions to church fabric, to church compound or cemetery walls, to cemetery gates, walks, wells, choudkars, or other church servants' houses, provision of necessary appliances for graves or for the repair of tombs or for the planting of trees and shrubs in cemeteries and keeping the same in decent order; also all expenditure by Government connected with the provision of articles of church furniture supplied by the Public Works Department. } By the Executive Engineer and by the Chaplain.

The estimates of expenditure to be prepared by the Executive Engineer and the Chaplain should show distinctly the probable charge under each of the following heads:—

- I.—New works connected with additions to existing churches and improvements to church compounds.
- II.—New supplies of furniture for churches and sanctioned articles of church use.
- III.—New works connected with additions to existing burial-grounds.
- IV.—Repairs to churches and church furniture and maintenance of church compounds.
- V.—Repairs to burial-grounds to be executed by Public Works Officers.
- VI.—Repairs to Burial-grounds, including planting and cleaning, to be entrusted to the Chaplain or Chief Civil or Military Officer of the station or cantonment under paragraph 4.

It would be convenient if distinct estimates were prepared for each of these classes of expenditure.

The provision of funds to meet the charges above enumerated will be made in the Budget Estimate for the Public Works Department. The estimates for the same will be subject to the scrutiny of, and be passed by, the Superintending or Chief Engineer or local Government or Administration, according to the rules in force in the Public Works Department.

In stations in which the churches and burial-grounds are under the local Governments and Administrations in which the Provincial Service arrangements are in force, the

* NOTE.—The estimates should be for the financial year and should be prepared in advance, as is prescribed for other Budget Estimates.

charges debitable to the Public Works Department will be provided for in the Provincial Public Works Budget Estimate. In other Provinces and in the Military Works Branch the charge will be provided for in the Imperial Public Works Budget Estimate under Civil Buildings.

2. The following scale of establishments should be maintained at all cemeteries:—

- (i.) For a cemetery of which the area is five acres or less, one mali-chaukidar;
- (ii.) For a cemetery of which the area is more than five and less than ten acres, one mali-chaukidar and one assistant cooly;
- (iii.) For a cemetery of which the area is more than ten and less than fifteen acres, one mali-chaukidar and two assistant coolies;
- (iv.) For a cemetery of which the area is more than 15 acres, one mali-chaukidar and three assistant coolies.

It is left to the local Governments and Administrations to determine the proper wages to be given to each servant. The cost of this establishment will be charged to Provincial Services in the case of those local Governments and Administrations in which the Provincial Service arrangements are in force, and in the case of other local Governments and Administrations and the Military Works Branch of the Public Works Department to Imperial Funds. In either case the charge will be included in the Civil Budget Estimate.

3. The size of kutchra and pukka graves should be limited to 8' x 4', and the amount of ground to be enclosed should be restricted to 11' x 7', by external measurement in both cases. No monument over a pukka grave must exceed 8' x 4' at the base, except with the previous sanction of the local Government concerned. A simple cross or head-stone on an adequate masonry foundation, not exceeding 3' x 2', is the only monument that should be allowed over a kutchra grave; no kutchra grave should be enclosed by a railing.

4. No portion of the receipts from cemeteries should be retained by any Government officer to be directly expended by himself; all such receipts should be paid into the Civil Treasury to the credit of the Public Works Department. In the case of receipts from cemeteries in charge of the Military Works Branch and under those Governments and Administrations in which the Provincial Service arrangements are not in force, the credit will be treated in the Public Works accounts as a receipt under Imperial Public Works Revenue. In the case of the other Governments and Administrations the credit will be raised to Provincial Service Public Works Revenue. But the amount passed upon the joint estimate framed by the Executive Engineer and Chaplain to provide for planting a cemetery and preserving it in decent order should be entrusted to the Chaplain where there is one. Where there is no resident Chaplain, the amount should be placed at the disposal of the Chief Magistrate on the spot, or of the senior Military Officer if the cemetery is attached to a military cantonment. The necessary funds for the purpose will be advanced by the Executive Engineer concerned to the Chaplain or Civil or Military Officer. Bills for the expenditure should be rendered by the officer to whom the advance has been made, either monthly or otherwise, to the Executive Engineer, who will charge for the amount thereof in the usual way in his accounts. Until the bills are received and charged off, the advance will be placed in the Miscellaneous Advance Account of the Executive Engineer. All planting of shrubs and trees by private persons in cemeteries should be under the control of the Chaplain if resident, otherwise under that of the Magistrate or senior Military Officer, as the case may be. When practicable a well should be sunk in or near every cemetery.

In connection with the preservation of cemeteries in decent order, attention is invited to the rule cited on the margin.

The Chaplain should communicate with the friends of the deceased when a monument needs repairing; and if it falls into a ruinous condition, and no party will undertake to restore it, the ruined monument must be made level with the ground during the next repairs, and any slab it contained must be placed over the grave in simple masonry or be inserted in the wall by the Government officer.—(Rule VIII, Diocese of Calcutta Burial-ground Rules.)

properly preserved at the public expense should be looked after by the Local Public Works Department.

5. It should be understood that the Government cannot provide cemeteries at the public expense for Native Christian communities.

NOTE.—Where their number is small, the question is of little importance and is best arranged by mutual concessions or by special provisions made locally by the parties immediately concerned. And I am to suggest for His Lordship's (Bishop's) consideration, whether, if the necessity of dealing at the present time with this matter of Native Christian interment be in his judgment unavoidably established, it should not be carefully examined in consultation with the several local Governments, having regard to the diverse needs and circumstances of the population in each separate province.

6. It is not considered necessary to make any alteration in the existing rules regarding the mode of supply of church furniture.

7. Further orders will be passed on the sixth point referred to the Committee for report.

8. The arrangements for making the necessary preparations for digging graves, preparing coffins, and the like, should rest in military stations upon the senior Military Officers, and civil stations upon the chief local Magistrate. These officers are authorised to direct any local Public Works Officer to supply all that is necessary. The "local Public Works Officer" would usually be the Executive Engineer of Military Works in military Stations, and the Civil Executive Engineer in other stations. The expenditure incurred by the Executive Engineer will be held in his Miscellaneous Advance Account until repaid by the officer authorizing the expenditure. But in cases of necessity or emergency either officer may be called upon to do what is required.

NOTE.—The intention of this paragraph is to provide an ultimate authority in case of difficulty, and existing arrangements need not be disturbed.

Office Memorandum from the Military Department, No. 810, dated the 16th November 1875, forwarding for an expression of opinion a draft General Order which His Excellency the Commander-in-Chief proposes to issue on the subject in accordance with the above rules.

RESOLUTION.—On a reconsideration of the subject, the Government of India think it necessary to modify the rules contained in the Resolution of 8th September 1875, so far as regards the burial of deceased Roman Catholics. The Government of India have now decided:

1st, that at stations where there is a Roman Catholic Priest drawing an allowance from Government, he shall be held bound to read the burial service over the body of every deceased Roman Catholic brought for burial, unless he be excused from doing so by the rubrics and canons of the Roman Catholic Church; and that when the Roman Catholic Priest refuses to read the burial service over the body of a deceased Roman Catholic soldier, the Military authorities shall make proper arrangements for the decent interment of the corpse;

2ndly, that where there is no Roman Catholic Priest paid by the State, the Protestant Chaplain shall, if requested by the friends of the deceased, or by the Officer Commanding, be bound to bury the deceased according to the rites and ritual of the Church of England, except in either of the three cases in which Protestant Chaplains in India are excused from burying a deceased Protestant, viz., dying unbaptized even by lay baptism; excommunicated by the major excommunication; or declared to be *felo de se*; and that when a Protestant Chaplain refuses to officiate at the burial of a deceased Roman Catholic soldier on either of the three abovementioned grounds, the Military authorities shall, as in the case of refusal by a Roman Catholic Priest, make proper arrangements for the decent interment of the corpse;

3rdly, that whenever, with or without furnishing any explanation of his reasons, a Roman Catholic Priest paid by the State, or a Protestant Chaplain refuses to perform the funeral rites of his Church over the body of a deceased Roman Catholic soldier, the circumstances of the case should be fully reported by the Military authorities for the consideration and orders of the Government of India.

2. The Governor-General in Council is accordingly pleased to direct the modification in the above sense of the provisions of paragraphs 15 to 19 inclusive of the Resolution, 8th September 1875.

THE MADRAS EQUITABLE ASSURANCE SOCIETY.

(SUCCESSOR TO THE MADRAS LAUDABLE SOCIETY, ESTABLISHED IN 1829),

Regulated by Act No. VI of 1869 of the Legislative Council of Fort St. George.

HEAD OFFICE IN MADRAS.

BOARD OF DIRECTORS.

R. C. WALKER, Esq.....

J. JONES, Esq. (Parry & Co.)

THE HON'BLE J. G. COLEMAN (McDowell & Co.)

W. H. HARRIS, Esq., M.D.

Actuary,

A. H. BAILEY, Esq., of the London Assurance Corporation.

* * *

Agents in London,

Messrs. ARBUTHNOT, LATHAM & Co.

The Chief Characteristics of this Society are:—

Mutual Assurance.

Consequently there are no shareholders to be provided out of the premiums with a dividend.

Claims paid immediately upon a casualty being proved to the satisfaction of the Directors.

An official notice of death in any of Her Majesty's Government Gazettes is a sufficient proof of death.

Life Policies, (excepting those formerly issued at annually increasing rates of premium), when they have paid three years' premiums are saleable to the Society at rates specially prepared by the Society's Actuary in London.

For the convenience of policy-holders residing in Europe, an agency has been opened in London for the receipt of premiums at a fixed Exchange of Two Shillings per Rupee, and for payment of

death claims at the current Exchange on Madras. In the event of policies thus transferred to the London Register, becoming claims by death, Indian Probate or Letters of Administration are not required.

Renewal premiums are payable half-yearly on the 1st January and 1st July.

One calendar month's grace allowed for payment of renewal premiums.

Claims arising whilst renewal premiums are due are not invalidated provided the premium be paid within the month's grace.

Policies voided by non-payment of premium may be renewed at any time within twelve months upon production of satisfactory health certificates.

The funds of the Society not required for current purposes, must be invested in Securities of the Government of India, or in Securities, the interest of which is guaranteed by the Government of India, or by the Secretary of State for India in Council.

All such Securities must be held in the joint names of three of the Directors of the Society. The Directors must be residents at Madras, and are elected by the Members.

Quinquennial valuations of all the Society's assets and liabilities are made by the Actuary of an Assurance Office established in London having a duration of not less than twenty years.

The Surplus Funds which by every such valuation are found to be held by the Society, are divisible, at the discretion of the Directors, rateably with the premiums paid during the expired quinquennium amongst the holders of life policies subsisting on the last day of the period embraced by every such valuation, and are applicable to the reduction of premiums becoming payable during the ensuing quinquennium.

The valuation to 31st December 1875 was made by A. H. Bailey, Esq., of the London Assurance Corporation, his report shows that the Society had on that date a clear Surplus of Rs. 5,96,434.

Premiums payable during the quinquennium 1876--1880 on policies that were subsisting on the 31st December 1875, have been

reduced to the extent of sixty-five per cent. of the aggregate amount of premium paid on such policies during 1871--1875.

The following is an example of the effect of the reduction. Policy No. — for 15,000 Rs., age next birthday 35 years, civil rate, gross annual premium 46 Rs. per 1,000 Rs. Premiums paid thereon from 1st January 1871 to 31st December 1875

3,450-0-0 Rs.

Sixty-five per cent. of which amount is 2,242-8-0 „

Divided by five for so many years of ensuing quinquennium gives an annual reduction

during 1876--1880 of 448-8-0 „

Gross annual premium 690-0-0 „

Less, annual reduction as above stated 448-8-0 „

Net annual premium payable during 1876--1880 241-8-0 „

Or at the rate of 16-1-7 Rs. per 1,000 Rs. annually.

The current quinquennium commenced on the 1st January 1876. Reduced premiums on new Assurances came into force on the 1st January 1871.

The members of the Society consist of all persons who hold policies of assurance either on their own lives or on the lives of other parties, *for the duration of life.*

General meetings of members must be held annually.

Special general meetings may be summoned by the Directors or by twenty members.

An Annual audit of the Society's accounts is made by an Auditor elected by the members.

The Report of the Directors and of the Auditor, together with an abstract of the accounts for the previous years, are read at every annual general meeting.

Members holding policies for Rs. 1,000 or up to Rs. 10,000 have one vote, and an additional vote, not exceeding ten in all, for every additional Rupees 10,000.

The past experience of the Society leads the Directors to anticipate that the retention of the mutual principle, and the quinquennial distributions of Surpluses, will bring down the cost of assurance by this office, for life, to the lowest possible point.

Term policy-holders are not members, and are not entitled to share in the surplus funds of the Society.

Term policies are therefore issued at reduced, non-participating rates of premium.

Assurances may be granted on the lives of Europeans, East Indians or Eurasians, and Parsis.

No policy issued for a less sum than Rupees 500, or for a larger sum than Rupees 30,000, on any one life.

The Medical Examiner sees Applicants for Assurance at his residence, Pantheon Road, Egmore, on Wednesdays and Saturdays between 11 and 12 A. M.

THIS COMPANY was established in 1825, and is one of the largest and most successful of the Life Assurance Institutions of Great Britain. Its Profits have been very large, and persons assured have derived very valuable benefits from their connection with the Company. It has also acquired a marked character for liberal management, being the first institution which relieved Policies of Assurance from restrictive and unnecessary conditions, and gave such contracts increased value and stability in other ways.

PROGRESS OF THE COMPANY'S BUSINESS.

The business of the Standard Life Assurance Company since its institution, has increased steadily year by year, until it has attained its present large amount.

Beginning in 1825 at *nil*, there are now subsisting Assurances to the amount of more than *Eighteen-and-a-half Millions sterling*; the annual revenue of the Company is *Seven hundred and seventy thousand Pounds*; and the Assets are considerably upwards of *Five Millions sterling*.

These results have not been attained by any other than constitutional means; and the Directors are satisfied that large as the Business has been, no Office can exhibit a better class of risks, the Assurances being to a great extent in connection with Family Provisions, Marriage and other Settlements.

INVESTMENT OF FUNDS.

The Funds of the Company, amounting to considerably upwards of *Five Millions sterling*, are invested in Government Securities; in Loans on the security of Land, by bond or mortgage; in Landed property; in advance to the Company's Policyholders; and in other ways affording undoubted security.

DIVISION OF PROFITS AMONG THE POLICYHOLDERS.

One feature in the STANDARD LIFE ASSURANCE COMPANY, the operation of which has contributed in a marked degree to the great success of the Institution, is the liberal DIVISION OF PROFITS among the Assured, and the Directors request attention to the great advantages of the system. The Divisions are made at intervals of *five years*, and they are preceded by a most searching investigation into the affairs of the Company.

At the Division of Profits in 1875 THE LARGE SUM OF £372,710

was allocated to the Policy-holders, representing Bonus Additions to existing Assurances to the amount of upwards of
£720,000.

The following Table shows the Bonus Additions to Policies in force at 15th November 1875.

The additions to Policies of larger or smaller amount are in the same proportion.

Those who did not wish to add the amount of the Bonus to the Sum Assured were permitted to take the value of the addition in a present sum, or to apply its value to the reduction of the Annual Premium for five years.

The next Investigation and Division of Profits will be made at 15th November 1880, and quinquennially thereafter.

RESERVES.

While the Company have conferred these important benefits on the Assured, they have at the same time made very large reserves in estimating their Liabilities, so as to secure the future stability and welfare of the Institution. In valuing the Liabilities of the Company the Actuaries have adopted, as the basis of their calculation, a rate of Interest considerably below that which the Company can readily realise on the best security which the country affords. The rate of Interest assumed in the great bulk of the Company's calculations is 3 per cent. In some cases $3\frac{1}{2}$ per cent. is adopted as more appropriate to the particular class of risks under consideration, and in others as high as 4 is the assumption; but, on the whole, there is a gain of above one per cent. on Interest alone, which, on upwards of Five Millions of Money invested, gives a large and handsome Annual Profit. But the large Reserve of the Company, consisting of the unvalued portion of the premiums payable, is the mainstay of the business, being sums set aside at the Investigations which the Company may calculate on receiving equally with the rates of the Premiums contracted for, but which are not taken into account in the calculations. That is to say, if an Annual Premium under a Policy is £100 per annum, £80 only may be valued, the difference being called the Reserve or Loading. It is not easy to explain this distinctly without fuller illustration than can be here given, but the effect is apparent, when it is stated that the Company have an annual income of upwards of £100,000, coming in year by year in this shape. The Company have other large sources of profit arising from the selection of lives surrendered and abandoned Policies, etc., etc., but enough has been stated to show that the Company's affairs are highly prosperous, while the benefits conferred on all interested are very large.

THE RATES OF THE COMPANY,

which have been recently reduced, being calculated on data derived from the most authentic sources, will be found moderate, and looking to the facilities and advantages afforded, they are undoubtedly more advantageous, and less expensive, than those of any other Office transacting the same class of business.

A STANDARD POLICY IS**UNCHALLENGEABLE**

according to the resolution of 1861, on any ground whatever connected with the original documents on which the Assurance was effected, after it has endured five years, and that without application to the Directors or other forms, evidence of age having been produced.

This rule, however, does not apply to first year's Premium, except in special cases.

Persons Assured paying a reduced rate of Premium for residence in Europe or elsewhere, desirous of returning to India, require to make application to the Directors for permission to do so, paying the original rate of Premium required in terms of their Policy. HEAD OFFICE—KING STREET, CHEAPSIDE, LONDON.

EMPOWERED BY SPECIAL ACT OF PARLIAMENT.

Capital—One Million.

"Short Term" and "Whole Life" Assurances are granted.

In addition to ordinary Assurances, this Company issues Policies by which the sums assured are made payable to the Policy-holder himself on his attaining a specified age or to his representatives in the event of his previous death. By this means Officers and others may both provide for their families and secure *Retiring Provision* for themselves.

Also "FREE" Policies are granted which can never altogether lapse in consequence of the non-payment of Premiums.

"Clergy Rates" have been recently prepared to enable Clergymen and Ministers of all denominations to assure their Lives in this Institution upon more favorable terms than in any other Office.

Premiums may be paid annually, half-yearly, quarterly or monthly as desired.

Thirty days' grace are allowed for the payment of annual, half-yearly and quarterly premiums, and fifteen days for monthly premiums. The validity of the Policy will, in every case, be maintained by payment of the Premiums within the stipulated period notwithstanding the death of the Assured may have occurred before such premium shall have been received.

No extra rate is charged for sea-passages, and on arrival in Europe a reduction made in the premium without the assured being required to pass any Medical examination.

Policies effected by parties on their own lives, and assigned as a *bonâ fide* security to others, will not be rendered void in the event of death by suicide, duelling, or the hands of justice. Claims will become payable within three months after satisfactory proof of death.

The Medical Officer, Dr. Harris, sees applicants for Assurance at his residence, Pantheon Road, Egmore, from 11 to 12 A. M., on Wednesdays and Saturdays.

Detailed Prospectuses, with the names of the Trustees and Directors, Full Tables of Life Premiums, and the necessary Forms of Proposal, may be obtained on application to the following Agents:—
