

PART IV.—MILITARY.

PORT ST. GEORGE, 1st September, 1863, No. 306 of 1863.—The following Extract from a Military Despatch from the Right Honorable the Secretary of State for India is published:—

Despatch, dated 31st July, 1863, No 109.—1. I have to inform you that the House of Lords has reversed the judgment of the Master of the Rolls in the matter of Lord Clive's Fund, and has ruled that the contingency specified in the Deed constituting the Fund, in the event of which the sum of Sixty Rupees 5,00,000 should be returned to Lord Clive, or to his Executors, Administrators, or Assigns, has happened, by the passing of the Acts 21 and 22, Victoria, Chapter 106.

The pensions to Commissioned, Warrant, Non-Commissioned Officers and Soldiers are payable half-yearly at the India Office, in London, without deduction, at Midsummer and Christmas; but if Non-Commissioned Officers and Soldiers receive their pensions in the country, (if they reside more than 25 miles from London by special leave), a shilling will be charged on each payment for the person who pays them.

The pensions of Commissioned and Warrant Officers are payable as they fall due. Non-Commissioned Officers and Privates paid in advance on their landing, for the broken period to the end of the first half-year, and afterwards half-yearly in advance.

G. O. G., 22nd August, 1874, No. 211.—Officers who retire under the scheme published in G. O. G., No. 656 of 1874, are as much debarred from the benefits of Lord Clive's Fund as any other retired Officers are.

"The retirement of an Officer under G. O. G., No. 656 of 1874, is in no way affected by the fact that he receives also compensation for the Colonel's allowance, and therefore has to relinquish the good service pension if he is on receipt of it, and forego all claim to bonus compensation under the terms of G. O. G., No. 303, dated 25th September, 1866.

2. "Such Officers cannot be required to subscribe to the Military Funds as Colonels; nor can they have the option of doing so in any rank higher than that they have attained substantively, unless under the operation of any rules of their respective funds, which would give them that privilege, if they merely retired from the service in ordinary course.

Pensions to Widows.

The Widows of Commissioned and Warrant Officers of the Indian Forces are entitled to the following pensions, upon providing satisfactory evidence that their husbands did not die possessed of property, *to the amount stated opposite to their respective ranks.* The pensions continue during widowhood, but terminate finally on re-marriage which cancels all claim previously drawn in right of their former deceased husbands. Should the second husband have been an European Officer, or Soldier, the Widow will be entitled to pension on his account.

QUEEN'S MILITARY FUND.

Regulations of the Queen's Military Widows' Fund, for the Benefit of the Widows and Children of deceased Officers in Her Majesty's Service in India, established in 1820.

Under the protection and countenance of the Most Noble the Marquis of Hastings, Commander-in-Chief in India, the abovenamed Fund was established in the year 1820, for the purpose of sending Home, in comfort and respectability, the families of deceased

subscribing Officers in Her Majesty's Service in India, preventing thereby the painful and degrading practice of appealing to the public for subscriptions on such occasions. The Fund also provides relief in such cases until they can conveniently embark.

Modifications of the original Rules have at different times become necessary, and have been adopted with the approval of the subscribers and the sanction of the Commander-in-Chief for the time being.

On the present occasion the Committee of General Management having observed the desirability of making some of the rules more complete, of modifying the rates of subscription hitherto paid, and of amplifying the field of the Fund's operations, represented these views to the subscribers at large, and circulated voting lists in which opinions were given on the proposed alterations.

The Committee are gratified to find that their suggestions have been almost unanimously accepted, and the same are accordingly embodied in the following Code of revised Regulations for the Government of the Fund, which will come into force on the 1st January 1874.

As Officers, on first landing in the country may not have convenient access to the books of Local Regulations, the following extracts are here re-printed, showing the benevolent object with which the Fund came to be originally instituted, and the benefits to be derived from supporting it.

G. O. 25th June, 1820.—"1. With reference to the Circular Letter from the Adjutant General of His Majesty's Forces to Officers Commanding Regiments, dated the 22nd October, 1819, His Excellency the Commander-in-Chief, with a view to give further aid and facility to the arrangement of the Fund for Widows and Children of His Majesty's Officers, is pleased to publish for general information of all concerned, that the Most Noble the Governor-General has signified his consent to become Patron to the humane institution now in progress to establishment, and His Excellency the Commander-in-Chief will consider himself as President, and has been pleased to order a Committee of General Management to be formed at Head Quarters, with which the Presidents of General and Regimental Committees can communicate on all subjects touching the object in view. It will be the business of the Committee of General Management to examine the accounts quarterly, and to order the sums in hand to be deposited in Government Security and that the Paymasters of Regiments make the remittances at the periods prescribed in the printed Regulations, &c., &c."

G. O. 28th November, 1826.—"The Commander-in-Chief is pleased to publish, for the information of the Officers of His Majesty's Army serving in India, the following General Order, No. 271 of 1826, issued by the Supreme Government:—

Fort William, 17th November, 1826.—"Resolved—That the following paragraph of a Military General Letter from the Honorable the Court of Directors, under date the 27th of May, 1826, be promulgated for the information of the Officers of His Majesty's Service in India:—

59 and 61. The grant of passage money to the widow of Lieut. Twinberren, of His Majesty's 44th Regt., to enable her to return to England reported as a special case.

"Para. 16. 'It appears from the documents annexed to these Proceedings, that Lieutenant Twinberren had been so short a time in India, that he was probably not aware of the Fund established for the relief of the widows and families of Officers in His Majesty's Service, dying in India, and consequently had not subscribed to it.'

"17. We desire that you will take measures for acquainting all Officers of His Majesty's Service, with the existence of this Fund, immediately on their arriving at any of the Presidencies, and with our determination not to provide maintenance or passage hereafter for the widows or families of any of His Majesty's Officers dying in India.

"The Commander-in-Chief is requested to issue such instructions for making all Officers of His Majesty's Service, on their arriving at any of the Presidencies, acquainted with the determination of the Honorable Court, expressed in the foregoing extract, as may appear necessary to His Excellency."

G. O., 20th April, 1829.—“The Commander-in-Chief, in directing the publication in General Orders of the accompanying statement of the Funds of the institution for the relief of widows of Officers of His Majesty's Service, regrets to find, that an institution so beneficial to all (whether married or single), and so perfectly within the means of the most limited incomes, should not meet with that universal support which it claims. His Lordship is satisfied that there are many who have, from want of attention only, omitted to return their names as subscribers, and is confident that such omissions have only to be pointed out to be remedied; but he considers it a duty which he owes to the Army, to inform them by the publication of the accompanying letter, in the sentiments of which he most fully coincides, that it now remains for the Service generally to consider whether they will support the institution, or allow the widows and children to appeal to individual charity for the means of enabling them in their distress to return to their homes. Such an addition to their misfortunes may be removed, and their respectability maintained, by so small a subscription to the Fund, of at most two Rupees a month from a Subaltern, and from other ranks according to the moderate scale laid down in its Regulations.”

Letter from the Secretary to Government, Military Department, to the Commander-in-Chief, No. 195, dated 12th December, 1828.

“The annexed extracts (paragraphs 2 and 11) of the Honorable Court's Military General Letter to Madras, under date the 14th May, 1828, prohibiting the grant of passage money to the families of Officers of His Majesty's Service returning to England, having been forwarded to the Supreme Government, with an intimation that these orders are equally applicable to this Presidency, I am directed to request, that you will lay the same before the Commander-in-Chief for His Excellency's information.

Extract Military Letter to Fort St. George, dated 14th May, 1829.

“Para. 2nd. We have had repeated occasions to comment on the Regulations of your Government granting passage money to the families of King's Officers on their return to England, but we regret to find that our instructions on this point have not been attended to with their desired effect at your Presidency.

“3rd. The cases which have arisen divide themselves into two classes:

“1st.—Widows and orphans of Officers dying in India.

“2nd.—Wives and children of Officers returning to England.

“4th. To provide for the conveyance to England of widows and orphans, who are left in destitute circumstances, a Fund was established in the year 1820 by Officers of His Majesty's Regiments serving in India. The principles and objects of this Fund have received our concurrence, and a subscription of 6,000 Rupees a year has been authorized by us towards its support.

“5th.

“6th.

“7th. The Officers in our service, who have been appointed of late years, are all required to contribute to the support of the institution established for the relief of their widows and children, and we would hope that some rule, which shall be equally effectual for the support of this Fund may be adopted by His Majesty's Officers.

“8th. In the subscription we have made we have done as much, if not more in proportion for His Majesty's Officers, as we have done for the Officers of the Company's Army, in our subscriptions to their Funds; and as we never provide for any individual case of distress, which may arise on the part of the widow and children of an Officer of our own service, we must likewise decline to make any such separate provision in any future case for the widow and children of an Officer of His Majesty's Army.

“9th. His Grace the Commander-in-Chief has observed on this subject that if the Officers of His Majesty's Army will contribute, the Fund will be sufficient to remedy the inconveniences which now exist; if, on the other hand, they decline to subscribe to it, it must be understood that they are willing to rely, in the event of their death, upon charity for the removal of their families to England. If, therefore, any widows or orphans of His Majesty's Officers be left destitute, it will be from the fault of their husbands and fathers.

“10th. We, therefore, positively prohibit any further advance of money on your part to enable such widows and orphans to return to England.

“2nd.—Wives and children of Officers returning to England.

“11th. We had contemplated the advantage of including these cases among the objects to be provided for by the Fund; but on further consideration, we are of opinion, that every Officer must be left to make his own arrangement, independent of any charity.

able institution, or of the assistance of the State. The Funds to which we contribute for the advantage of the Company's Officers, make no provision for such cases, and no allowance from the Government is ever granted to defray the private expense of Officers on this account. We must therefore absolutely prohibit the grant of passage money to the families of King's Officers returning to England.”

G. O., 29th May 1844.—“In conformity with instructions from the Right Hon'ble the Secretary at War, under date the 6th March, 1844, the Commander-in-Chief desires it may be distinctly understood, that all Officers refusing to become subscribers to the Military Fund for the benefit of the widows and children of Officers of Her Majesty's Regiments serving in the East Indies, their widows and families can have no claim to be relieved, either by the East India Company or by the British Government from any expense they may incur in returning to England.”

A. G.'s Cir., No. 25, 28th September, 1866.—“On two occasions recently, it has come to the notice of the Commander-in-Chief, that charitable contributions have been solicited from the public at large in aid of the widows of Officers of Her Majesty's Service in India, whose husbands had neglected to subscribe to the Queen's Military Widows' Fund.

“The origin of the Fund was to obviate such appeals, and at the same time to prevent what used to be not an uncommon spectacle, the reduction to the most painful state of destitution of ladies who, during the lifetime of their husbands, were enjoying great comfort, perhaps even affluence.

“Apart from other considerations, His Excellency thinks it very unfair to the unmarried Officers of the Army, a large proportion of whom have already consented to tax themselves in support of this Fund, that they should be thus called on to pay a further contribution in aid of the families of those who were too improvident, or too negligent, to become members of it in their lifetime.

“His Excellency therefore hopes that married Officers will recognize the advantages of this institution, one which the Government deems worthy of its support, and that they will bear in mind the hardship and suffering to which their widows may be exposed by a neglect on their part to entitle them, by the present payment of a small contribution, to a participation in the very substantial benefits which the Fund confers.”

Rules.

Rule 1st.—That the Committee of General Management shall be fixed at Simla, and consist of all Officers of the Staff, they being subscribers and present; and that an Officer of the Adjutant General's Department act as Honorary Secretary.

Rule 2nd.—That a Sub-Committee for enquiring into all awards and circumstances connected with this Fund, and acting under the General Committee, shall be formed at Madras and Bombay, composed as follows, such Officers being subscribers:—

The Commander-in-Chief, the Patron.

The Senior Officer of Her Majesty's Army at the Presidency.

All Officers of the Staff.

The two senior Officers of Her Majesty's Regiment stationed at the Presidency.

The two senior Subalterns of Her Majesty's Regiment stationed at the Presidency.

The Adjutant General of the Presidency will depute an Officer to act as local Honorary Secretary, who under direction of the Sub-Committee shall collect and deposit quarterly in the Bank of Bengal, Calcutta, all subscriptions from Officers in the Presidency, at the same time rendering a detailed account to the Honorary Secretary, to the Committee of General Management, at Simla.

Subscriptions.

Rule 3rd.—That every Officer shall pay monthly according to his rank, as specified below:—

				MARRIED. SINGLE.	
				Per mensem.	
Commander-in-Chief	Rs. 20 per mensem.				
Officers drawing pay and allowances of Rs. 1,500 or upwards				10	8
Ditto	ditto	Rs. 1,000		8	6
Ditto	ditto	750		7	5
Ditto	ditto	400		5	3
All others				2-8	1

Rule 4th.—That the Paymasters of Corps in the Bengal Presidency shall be authorized and required to make these deductions monthly, and shall remit the same quarterly by Transfer Receipt, on the Bank of Bengal, Calcutta, to the Honorary Secretary, Queen's Military Widows' Fund at Simla. In Madras and Bombay subscriptions will be collected in the same manner, and forwarded to the local Honorary Secretary.

No Officer present in India shall be allowed to fall into arrears of subscription to this Fund; and the Honorary Secretary (or Local Secretary, as the case may be), shall be required to warn any Officer whose subscription is six months in arrears, that he must pay up at once on pain of having his name removed from the rolls. An Officer whose name has thus been removed can only re-enter the Fund on the same terms as a new subscriber, and the fact of his removal will not absolve him from his liability for any subscription in arrears at the time his name is struck off. An Officer will be held to be a subscriber if in India, till such time as he notifies his wish for the removal of his name from the rolls.

Officers detached from regiments shall remit their subscriptions to the Honorary or Local Secretary quarterly in arrears by Transfer Receipt, on the Bank of Bengal, obtainable from the Treasury which pays them their salary.

Rule 6th.—All Officers of Her Majesty's British Forces serving in India are eligible to subscribe to the Queen's Military Widows' Fund, on their notifying their intention to that effect through the Regimental Paymaster to the Honorary Secretary at Simla, if they themselves are serving in the Bengal Presidency, or to the Local Secretaries in the other Presidencies if serving in Madras or Bombay. Officers on detached employ may notify direct to the Honorary Secretary their intention of subscribing.

- I. All married officers coming to India for the first time shall subscribe to the Fund within one year of their arrival in India, provided their families accompany them.
- II. If followed by their families they must subscribe within six months of the families' arrival, or within one year of their own arrival.
- III. An officer marrying in India shall join within six months of his marriage, or within one year of his first arrival in the country.
- IV. All married officers returning with their families to India after an absence from any cause, shall subscribe within six months of their return.
- V. Married officers, whose families are not in India, may subscribe at married rates, and their widows will then be eligible for the advantages of Rule 21.
- VI. Any married officer, whose family is in India, failing to comply with the above conditions, can only be admitted as a subscriber to the Fund, on payment of a donation not exceeding six months' subscription of his married grade.

For instance—an officer who had been fourteen months in the country, and his family if present at least eight months, would be called on to pay a donation of two months' subscriptions on joining.

- VII. Bachelors may subscribe at any time without payment of any arrears.

Rule 6th.—This Fund, having been established for the purpose of sending home families of deceased officers, and with a view of preventing those painful appeals for assistance to the public, at once so humiliating to respectable individuals, and to the Queen's Service in India, it is earnestly hoped that all ranks of staff and regimental officers will support it; and in order to ensure its objects being known, a copy of these Rules will be furnished to every subscriber, and to the Commanding Officer and Paymaster of each regiment and battery.

Rule 7th.—That, in order to obviate the difficulties which would arise occasionally from the remoteness of certain stations of Her Majesty's Corps serving under the several Presidencies, the Most Noble the Governor-General in Council was pleased to order and direct, when the Fund was established that Public Service Remittances might be granted to the Paymasters of Her Majesty's Regiments payable at sight to the Honorary Secretary of the Queen's Military Widows' Fund, acting for the Committee of General Management, thereby avoiding commission, double agency and loss by exchange.

Rule 8th.—That all grants of assistance from this Fund shall be regulated and assigned by Committees of Subscribers, as herein declared.

Rule 9th.—That in order to ascertain the claims of any widow or family, who may become entitled to the benefits of the Fund by the death of any regimental Officer, such widow shall represent the case of herself and family through the Commanding Officer of the Corps the casualty occurred in, in order to its being brought to the consideration of a Committee; and the Commanding Officer shall, as far as his knowledge will enable him, state his opinion of any case so received.

Rule 10th.—That whenever there may be more than one Corps of Her Majesty's Service stationed together, every application for relief from this Fund shall be heard and decided on by a Station Committee, composed, as equally as possible, of Officers from the Corps present, being subscribers to the Fund.

Committee of Award.

STATION COMMITTEE.

President.—A Field Officer or Surgeon-Major (if practicable).

Members.—
 { One Captain or Officer of equivalent rank.
 { One Subaltern or Officer of equivalent rank.

Rule 11th.—In the event of Officers dying while the Corps they belong to is stationed by itself, or while they themselves are absent from their Regiment, it shall be in the power of every Commanding Officer of a Regiment or Station, under these circumstances, to assemble a Committee of any three Officers, being subscribers, to hear and decide upon the cases of any widows and children who have become entitled to relief from this Fund. In the event of there not being three subscribers at once available to form a Committee, the Commanding Officer of the Station or Corps may avail himself of non-subscribers, to avoid the delay which would be entailed in assembling a Committee composed wholly of subscribers in the usual manner. It shall also be competent for the Commander-in-Chief at either Presidency to assemble a Special Committee to report on the case of any lady who may have become a widow, whilst the Regiment to which her husband belonged is at another distant Station, or on service beyond sea.

Rule 12th.—That the Station, Regimental, or Special Committee, having duly examined into the circumstances, shall report their opinion thereon, and recommend the amount to be granted for Passage-money and maintenance, strictly in conformity with the Regulations annexed. The opinion and recommendation of the Committee shall be immediately forwarded to the Honorary Secretary of the Presidency by the President of the Committee, and the Paymaster of the Regiment, under the above authority, can at once advance to the widow the amount of "Travelling" and "Maintenance" allowance awarded by the Committee, reimbursing himself by drawing a bill on the Honorary Secretary or Adjutant-General if in Madras or Bombay, the residue of the award to be adjusted by the Honorary Secretary under the sanction of the General or Sub-Committee of Management, and paid to the widow before leaving the Regiment, or, on arrival at the Port of embarkation, by the Honorary Secretary.

Rule 13th.—The Sub-Committees at Madras and Bombay will in cases of award in these Presidencies, on satisfying themselves of the accuracy of the statements laid before them, draw on the Adjutant-General of the Presidency for the amount which may be awarded; but in the final adjustment of the accounts of such Sub-Committee, the Committee of General Management will consider themselves bound to object to any sum, however trifling, which may be granted in excess of the Rules laid down. To facilitate the immediate payment of awards, a sum of Rupees 5,000 is lodged in each of the Presidency Banks, to the credit of the Adjutant-General of that Presidency.

Rule 14th.—The Sub-Committee will, on drawing for any sum on the Adjutant-General of the Presidency, in cases of awards, transmit to the Honorary Secretary at Simla, the Report of the Station Committee, accompanied by receipts and certificates, showing that the money has been appropriated in the manner and for the purposes for which it was awarded.

Rule 15th.—But to prevent doubts and misconceptions which might possibly arise hereafter, it is distinctly declared, that no widow permanently residing in this country after the death of her husband, can expect any provision or allowance for herself and children from the Fund, further than is stated in Rule 28.

Rule 16th.—Orphan children are eligible for the benefits of this Fund, but awards for them must be specially made by a Station or Regimental Committee, and sanctioned by the Commander-in-Chief of the Presidency, who is requested to appoint some eligible person to take care of them, and provide a passage, &c., &c.

Rule 19th.—That all widows of Officers, who were subscribers to the Fund up to date of departure from India, shall be entitled to the amount granted to widows and children

Rule 20th.—That no special grant, in cases of great distress (not provided for by the Regulations of the Fund), shall be passed by the Committee of General Management without the sanction of the majority of subscribers, which sanction is to be declared in the General Abstract of Accounts published annually for the information of Subscribers.

Rule 21st.—When an officer dies in India, his widow will be entitled to maintenance allowance, according to the following scale, for three months, from date of decease of her husband if in India, together with passage money; and to four months' maintenance allowance without passage money, if she is in England; provided in the latter case that her husband was a subscriber at the married rate at date of his decease:

Of all others.....	" 300

Rule 22nd.—In addition to the above a travelling allowance on the scale below, will be made to widows to the port of embarkation or place of residence in India, as the case may be. In certain exceptional instances, when the rates will not meet the expenses of the journey, the Committee assembled under Rules 9 and 10 should record in their Proceedings the actual cost of the journey, and the amount they recommended for incidental expenses; each case so specially recommended will be dealt with on its own merits, and the Committee of General Management reserve to themselves the power of rejecting any proposed deviation from the ordinary course, and will also, if the expenses of any journey appear to have been over-estimated, reduce the same to any limit which may appear to them fair and reasonable.

Rule 26th.—On the submission by a widow, of a certificate by a Medical Officer, that she is prevented by the ill-health of herself or her children from leaving India within the three months for which maintenance allowance is in the first instance granted, or that the state of her health is such as to prevent her travelling with safety during the hot

or rainy seasons, i. e., between the 1st April and 15th October, the General Committee, if the three months are exceeded, may sanction an additional grant to the extent of two months' detention allowance on the scale sanctioned in Rule 21, proportionate to the interval which will elapse before the journey can be commenced; but in no case shall a widow receive more than five months' maintenance allowance in the aggregate from the Fund.

To His Excellency the Right Honorable the Governor-General of India in Council.

My Lord,

1.—The case of an officer exchanging into the Staff Corps from the British Army not having been provided for in the regulations of the Indian service family pension fund, a reference was made to Major-General Hannyngton on the subject, and it appears from a calculation made by that officer that the ordinary donations for wives and sons will be sufficient to provide for the pensions allowed by the rules, but that the extra donations specified in the table in the margin must be charged in the case of daughters according to their age at the date of their admission to the fund.

2. Extra donations for daughters must accordingly be paid by an officer who has exchanged into the Staff Corps since the 1st January, 1873, and the table in question should be added to the regulations of the fund from the date of the receipt of this despatch.

I have, &c.,

The Capital amounts to Rupees 1,45,728. The Government Securities are lodged in the Bank of Madras in the joint names of Captain D. Lissenburg, C. Hall, Esquire, and Surgeon R. Harvey.

The following is a brief abstract of the Rules of the Fund :—

The donations shown in columns 4 and 9 may be paid at once or by twelve equal monthly instalments.

When the sums required to secure the Maximum or Minimum pension in the Widows' Branch shown in columns 7 and 8 are paid on joining the initial donations above referred to are not demanded as that amount is included in the amount required to secure the Maximum and Minimum pensions.

Increased payments in one sum are required from persons joining the Funds after the age of 40, and no person can be admitted or transferred to a higher class after the age of 55 years; delay in joining after being admitted by the Committee necessitates a fresh medical certificate being submitted. Subscriptions in the Childrens' Branch commence from the date of application to subscribe for the child, and continue until the age at which pensions terminate. Transfers from a lower to a higher class are permitted (on production of the prescribed medical certificate) on payment in one sum of difference of donation and of subscription according to age. Subscribers to the Childrens' Branch must also belong to the Widows' Branch.

The pension in the Childrens' Branch is secured as soon as entrance donation is paid in full. In the Widows' Branch Maximum and Minimum pensions are respectively, secured when the total payments in that branch amount to the sums specified in the foregoing table, see columns 7 and 8, irrespective of that paid for admission after 40 years of age. Subscribers are allowed at any time, on furnishing a medical certificate in the prescribed form, to pay in one sum, or by such instalments as they may find convenient, the difference required to entitle their Widows to immediate pension.

Pensioners may reside at any station or in any country they choose. Widows remarrying, lose pension during coverture, but revert to the Fund on again becoming Widows. They also receive a portion of a second pension if the second husband also had been a subscriber at the time of his death. Pension is forfeited by incontinence. No pension is paid to Widows and Orphans of subscribers who die with six months' subscription in arrears, and subscribers' names are struck off the books when twelve months in arrears. Subscriptions due for a period exceeding three months are not received unless accompanied by a Medical Certificate, and a sum equal to the amount due as a penalty.

Further particulars if required may be had on application to the undersigned. One Anna postage stamp must accompany the application.

37. All schoolmistresses, whether they are the wives of schoolmasters or soldiers, serving in India or not, shall be on the same footing as

G. O. G. G., No. 1,305 of 27th December, 1872, regards bedding and rations for themselves and half rations for their children. Pupil teachers will be allowed half rations.

IX.—Infant and Industrial Schools.

38. A grant of one rupee twelve annas will be made annually for each child not under four years of age, attending an industrial school. The grant to be reckoned on the average attendance during the preceding year, and to be expended in the purchase of materials for instruction.

39. Sub-Inspectors will, when travelling on duty, ordinarily be provided with a free passage warrant for themselves, servant and baggage, as granted to officers of relative rank, and will be entitled to a detention allowance of Rupees 5 a day when detained on duty in stations. When not provided with conveyance at the public expense, they will be entitled to draw eight annas a mile when travelling by road, and three annas a mile by rail.

40. Schoolmasters, when travelling on duty without troops, to join their regiments, or to visit detachment schools, will be granted one rupee twelve annas daily in addition to the actual and necessary expenses of travelling by railway or by road, and this amount will be passed for the period during which the Indian staff allowance is not drawn.

FORT WILLIAM, the 22nd January, 1868.

No. 69 of 1868.—His Excellency the Governor-General in Council has the satisfaction to notify that Her Majesty's Government have sanctioned a revised and enhanced scale of pay and allowances, Staff and Furlough pay, retiring for the several warrant grades in Her Majesty's Indian Army.

2. The following are the rates which will have effect from the 1st instant:—

PAY AND ALLOWANCES AND STAFF PAY.

3. All Warrant Officers will receive a monthly net "warrant pay" according to rank which, with a monthly sum as "warrant allowances" intended as a full equivalent for batta, tentage and house-rent will together constitute the monthly "warrant pay and allowances."

4. When in effective employ in the Ordnance, Commissariat, or any Department where no other special departmental Staff or consolidated salary is allowed, they will receive in addition to the warrant pay and allowances a warrant Staff pay according to grade.

5. When a Warrant Officer is out of employ owing to no fault or seeking on his part, or if he resigns his appointment with the full approval of Government, he will, whilst so unemployed, be entitled to his "warrant pay and allowances."

6. When put out of employ for misconduct or incapacity, or if he resigns his appointment without, in the opinion of Government, sufficient grounds for so doing, he will only

be entitled to his net "warrant pay." In particular cases, however, he may be allowed, as a maximum, the invalid scale of pay of his rank, but only with the special sanction of Government.

7. The following are the monthly rates of pay and allowances for the several grades:—

10. Warrant Officers in receipt of the effective Staff pay will, when on leave, be subject to reduction on the same principle as that applied to Commissioned Officers.

FURLOUGH AND INVALID PAY, RETIRED AND WOUND PENSIONS.

11. The annual furlough pay and retired pensions will be the same according to grades, and will be payable in British Currency. The invalid pay can only be drawn in India.

G. O. G., No. 57, dated 10th March, 1874.—Vide Part III, Civil, (Military Furlough Regulation of 1868, Revised), page 254 of this Manual.

G. O. G., 13th June, 1874, No. 146.—The following General Order by the Government of India, is re-published:—

PORT WILLIAM, 5th June, 1874.

No. 585 of 1874.—The following additions and corrections of G. O. G., No. 171,* dated 25th February, 1874; are notified for general information. Order books to be corrected accordingly:—

To paragraph 1 add the following note:—

"NOTE.—The advantages granted by the furlough rules of 1854 to officers who obtain furlough on medical certificate are not applicable to any officers of the British service whose regiments, battalions, brigades or batteries arrived in India after the date of the Passage Warrant of 1865, and neither those rules nor the furlough rules of 1868 are, as respects furlough on private affairs, applicable to British officers serving with their regiments or employed with a five years' tenure in staff situations (see para. 4)."

"But officers of the late Indian Army who hold permanent appointments under the Governments of India, and who may have elected to abide by the furlough rules of 1854, in preference to those of 1868, of course retain their election."

* Madras G. O. G., No. 57, dated 10th March, 1874.

2. For the 3rd clause of paragraph 5 substitute the following as Clauses 3 and 4:

§ 3. Such officers will be allowed an advance of passage money, or free passage in a troop ship if proceeding in the troping season, the advance to be refunded on receipt of the balance of furlough pay. The English rate of pay of their rank only will be passed to them during their leave; but at its conclusion, on their presenting an order for them to return to India, the difference between that rate and furlough pay, less the passage money they have received, will be paid to them in England conditionally on its refund if the order to return to India is not carried out.

§ 4. Those Royal Engineer officers who arrived in India before the 1st July, 1872, are, however, not subject to the provisions of the preceding clause as long as they do not exchange Indian for home service, but draw furlough pay during furlough as others.

3. After clause 4 of the same paragraph (para. 5) add the following:—

§ 5. An Officer of the British service holding permanent staff employ under the Government who may proceed on furlough under circumstances which involve the forfeiture of his appointment, must obtain the furlough as a British regimental officer, and it will reckon as a portion of the aggregate eight years of furlough on pay to which an officer is restricted during his service by Rule XVI. But, on again becoming permanently employed, he resumes the right of obtaining furlough under these rules.

4. Instead of the concluding sentence of Clause I of Rule XXII, following the words "if he possess one," read:—

"The aggregate staff salary granted to the acting officer in such cases will not be less than Rs. 100 per mensem unless the full staff salary of the post in which he is officiating is less than that sum."

5. At the end of Rule XXII, insert the following note:—

NOTE.—The indulgence granted by § 1 of this rule is only allowed to one directly officiating in the place of the officer absent on furlough, not to one acting in the room of an officer who is himself acting for an absentee on furlough.

VI. This order does not in any way interfere with the rules in G. G. O., No. 370† of 4th April, 1867, relative to the grant of allowances to Medical Officers of the Indian Service for "extra charges" connected with that service.

G. G. O., 3rd October, 1874, No. 254.—The following General Order by the Government of India, is re-published:—

PORT WILLIAM, 21st September, 1874.

No. 912 of 1874.—In continuation of previous orders on the subject, His Excellency the Governor-General in Council is pleased, with the sanction of the Right Honorable the Secretary of State for India, to decide that the invalid and retiring pensions admissible to Warrant Officers while in India and in England shall be as follows:—

I. Warrant officers invalided in India, after completion of the full or half periods of service laid down in paragraph 15 of G. G. O., No. 531 of 1863, are entitled while in India to the full invalid pension of their rank. If subsequently desirous of returning to England, those invalided after completing full periods of service will, from date of embarkation, be allowed the full retiring pension of their rank, whilst those invalided after having served half the periods in question will be restricted from date of embarkation to four-fifths of the retiring pension of their rank, as prescribed in G. G. O., No. 549* of 1868, for Warrant Officers invalided while on leave in England.

II.—Warrant officers invalided in India before they have served half the periods prescribed will only be allowed the invalid pension of the grades next below their own, and

General Order by His Excellency the Right Honorable the Governor-General of India in Council in the Military Department.

PORT WILLIAM, the 17th April, 1860.

No. 406 of 1860.—The Right Honorable the Secretary of State for India has decided that all Warrant Officers, after twenty-one years' service, who are not entitled to the advantages of the grade on account of insufficient services in the Department, shall be allowed the pension of the rank next below that of Sub-Conductor, viz., that of Sergeant-Major, being (2) two shillings and (6) six pence per diem, or (44) forty-five pounds (12) twelve shillings and (6) six pence per annum, provided that the last five years of service shall have been in a rank superior to that of Sergeant.

III.—Warrant Officers retiring (not invalided) in England or India with insufficient service to enable them to retire on the pension of their grade, will be dealt with under the provisions of G. G. O., No. 406 of 1860, a copy of which is marginally transcribed for facility of reference.

IV.—Warrant Officers proceeding to England after being pensioned in India will be provided with the passage money of their rank or free passage under existing rules, but it must be distinctly understood that those who proceed to England after being invalided will have no claim to be re-admitted to the invalid or Indian pension of their rank in the event of their returning to India.

The rates of pension of those Warrant Officers whose unfitness for active service may be caused by their own conduct or habits, will be those laid down in G. G. O., No. 538,* dated 7th June 1870.

III.—The Attorney of every Prisoner, and all opposing Creditors whose costs are ordered to be paid by the Insolvent or out of the Insolvent's estate, and all other Persons requiring their Bills of Costs to be taxed, shall cause their respective Bills to be taxed by the Master of the Supreme Court.

IV.—No Attorney shall directly or indirectly employ the Gaoler, Deputy Gaoler, or any Prisoner, or other Person confined or residing within the said Gaol, as Clerk or Agent to solicit retainers or to transact any business whatever relating to proceedings in the said Court touching the relief or discharge of any Prisoner, and no Attorney shall continue to practice in the said Court for the Relief of Insolvent Debtors whilst he shall himself be a Prisoner.

V.—In all cases there shall be filed with the Petition a Certificate from the Gaoler of the day or days and cause or causes of detainer against the Prisoner.

VI.—The Chief Clerk, upon the filing in his Office of the Schedule of the debts and effects of any Insolvent Debtor in custody, shall forthwith cause a copy of such parts thereof as contain the particulars of the Insolvent's estate and effects and of the debts stated to be owing to him to be made out and delivered to the Official Assignee.

VII.—Notice of the filing of every Petition and Schedule and of every adjudication of an act of Insolvency, where an adjudication has been pronounced, and of the time and place appointed for the hearing of the matters of the Insolvency, and that an order has been made by the Court for vesting the estate and effects of such Insolvent in the Official Assignee—Per Ord. Cur., 9th September, 1853—shall be given to Creditors and Persons claiming to

be Creditors, whether such debts are admitted or disputed in the Schedule, in the following manner:—

In cases where the Creditors or Persons claiming to be Creditors reside beyond those limits in any part of the territories of the East India Company, such notice shall be sent by the ordinary post. And in all cases notice to the like effect shall be published in two successive numbers of the *Fort St. George Gazette*, which shall be published next after the making of the vesting order of the appointment of the day for hearing—Per Ord. Cur., 9th September 1853—unless in any case the Court shall otherwise direct. All Affidavits of the service of such notices as are required by Rule VII. shall be prepared and left with the Chief Clerk one week before the day of hearing—Ord. Cur., 24th March, 1849.

VIII.—Where a vesting order of the estate of a Prisoner has been made on the Petition of a Creditor, notice thereof, together with an order to file a Schedule, shall forthwith be given to such Prisoner by service of a copy of the same, and delivery to the Gaoler shall be deemed good service of such notice and order upon the Prisoner in such case.

IX.—The appearance at the hearing of any Creditor or other Person entitled to notice shall be deemed a waiver by him, her, or them, of such notice when there shall have been none, or of any defect or irregularity in the form or service thereof, unless the Court shall otherwise direct.

X.—The proof of notices published in the *Gazette* of the Presidency shall be by the production of the said *Gazette* without other proof, and the proof of other notices shall be ordinarily by Affidavit unless the Court shall think fit to call for *exa voce* testimony, in which case the deposition of the witness shall be taken in writing by the Chief Clerk of the Court.

XI.—No Creditor shall be allowed at the hearing to oppose the discharge of a Prisoner, unless he shall have served the Prisoner with notice of his intention to oppose him, stating in such notice the specific grounds of his opposition three clear days before the day of hearing, and also shall have left a like notice at the Office of the Chief Clerk before the day of hearing: Provided always that the Court in its discretion may allow other grounds of opposition to be gone into.—Per Ord. Cur., 9th September, 1853.

XII.—At the hearing, the examination of the Prisoner by the Court shall be taken down in writing by the Chief Clerk, and shall be signed by the Prisoner and filed in Court.

XIII.—In all cases of opposition to the discharge of an Insolvent, where the Insolvent's Petition shall be dismissed, the Court shall, if it think fit, order the costs of the opposing Creditor or Creditors to be paid by the Insolvent.

XIV.—The Official Assignee shall be entitled to five per cent. Commission on the principal sum forming the proceeds of each estate distributable as dividends; and if such Commission shall not produce Rupees Two Hundred in any one month, his remuneration shall be made up to this amount by taking the sum required for that purpose out of the interest of the Government Securities in which his collections are invested.—Ord. Cur., 4th May, 1849—Ord. Cur., 5th October, 1853. This rule now stands as originally printed and passed on 22nd December, 1848.

XV.—The Official Assignee, and every person who shall hereafter be appointed to that office previously to his admission thereto, shall give good and sufficient security by Bond to the Chief Justice for the payment of such sum of money as the Court shall direct, with two or more able sureties to be approved by the Master; which Bond shall be conditioned for his duly accounting for and administering all estates committed to his charge as Official Assignee, and the same shall be deposited with and kept by the Accountant-General, subject to the order of the Court.

XVI.—The Official Assignee shall proceed with all diligence to collect and get in the estate and effects of insolvent persons committed to his charge, and shall pay in or deposit the same in the Honorable Company's Treasury with the privy of the Accountant-General, retaining in his hands from time to time such sums only as may be necessary for immediate purposes: Provided nevertheless that the Official Assignee shall at no time retain in his hands a larger sum than Two Thousand Rupees on the whole without the order of the Court.

XVII.—Whenever it shall become necessary for the Official Assignee to obtain any Money, Bonds, or other Securities out of the Honorable Company's Treasury for the purpose of distributing the same amongst the creditors entitled thereto, the mode of obtaining such Money, Bonds and Securities, shall be by order of the Court for the Relief of Insolvent Debtors, signed by the Chief Clerk, and countersigned by one of the Judges, for the payment and delivery of the said Money, Bonds and Securities to the Official Assignee, which order shall be by him presented to the Accountant-General and Treasurer in the same manner as any order of the Supreme Court of Madras for the payment out of the Treasury of Money, Effects, or Securities of the suitors of the Supreme Court under order of the said Court.

XVIII.—The Official Assignee shall enter into a book to be kept by him for that purpose separate and distinct accounts of each estate under his charge and of all such sums of Money, Bonds and other Securities for Money, Goods, Effects, and Things as shall come to his hands or to the hands of any persons employed by him, or in trust for him as such Official Assignee, and likewise of all payments made by him for and on account of the said estates, specifying the dates of such receipts and payments respectively.

3rd.—Containing all estates wherein dividends shall have been paid over to the parties entitled thereto since the period of exhibiting his last preceding Schedule, specifying the amount paid and the amount remaining unpaid.

XX.—Previous to the Official Assignee exhibiting and delivering in open Court his Schedule in pursuance of the preceding Rule, he shall lay the same, together with the accounts of each estate and the Vouchers relating thereto, before the Master, in order that such Schedule may be examined and the several Vouchers compared with the accounts of the estates therein described.

XXI.—In all cases where the Courts shall direct that the estate and effects of any Insolvent shall be received by the Official Assignee and any Special Assignee or Assignees jointly, all Moneys, Jewels, and Securities for Money belonging to each estate shall within seven days after the receipt thereof be paid or delivered and be kept in deposit in the Bank of Madras; and no part thereof shall be withdrawn therefrom but upon the order in writing of all such Assignees, or of any two of them, of whom the Official Assignee shall be one.

XXII.—The Chief Clerk shall, immediately after the hearing of any Insolvent upon his Petition, and after adjudication of the Court thereon, deliver over to the Official Assignee the Schedule of the Insolvent, which shall be thereafter kept in the Office of the Official Assignee. Provided that, if the Schedule be required by the Chief Clerk for any temporary purpose, it shall be delivered out to him as often as may be necessary, and shall be restored to the custody of the Official Assignee as soon as such purpose has been fulfilled.

Madras Screw Pile Pier.

This important work has been completed by Mr. Frederick Johnson, Civil Engineer of North Street, Westminster, London, pursuant to the terms of a Contract entered into between the Council of India and himself, under date the 9th November 1858.

The dimensions of the structure are as follows:—

Extreme length, from high water-mark, 1,000 feet.

Breadth throughout, 40 feet. Besides its main body, the Pier has a cross of T-shaped head, 160 feet long by 40 broad. The work is constructed of Mitchell's Patent Screw Piles, of solid wrought iron, respectively 6 inches and 8 inches in diameter, placed in rows of four abreast, and at distances of 10 feet between the centre of each row.

These Piles are screwed down into the sand to the depths undermentioned, that is to say—the first 25 rows, 11 feet; the second 25 rows, 13 feet; and all the remainder, 15 feet.

The whole structure is securely tied together by transverse T-braces of wrought iron, and by longitudinal tension rods of the same material.

Commencing at the inner part side of the Pier Head and continued 200 feet on each side of the main structure, the iron Piles are protected by fender piles of timber placed at short intervals, and secured to the Iron Screw Piles by strong wrought iron bands.

Originally the platform was composed of beams of crosscut Baltic Timber covered with teak planks, six inches broad by four inches thick, with spaces between the planks. This has now been replaced by beams of teak covered with mango planks, three inches thick, placed close together and the seams caulked in the same manner as the deck of a Ship.

Four lines of railway are laid down along the main Pier, with the necessary Turntables, &c., and the rest of the space available fitted up for the service of foot-passengers.

The Pier Head is furnished with six fixed cranes, varying in their lifting power from

3 to 10 tons, and 8 moveable cranes of 30 hundred weight each are placed on the railways traversing from point to point as necessity arises.

It is proposed to dispense with the Screw Moorings provided for in the Contract, and in lieu of them to put down Bridle Moorings with one-arm Anchors.

The total cost of the works, as agreed on in Mr. Johnson's Original Contract, was £1,03,616, but a second Contract was subsequently entered into for the extension of the structure shoreward a length of 80 feet, at an extra charge of £4,392.

The Pier was damaged in the Cyclone in May 1872 by a native vessel drifting through it, in the same place as was damaged on a former occasion by the *St. Bernard*.

By order of the Governor in Council,

Amended Rules for the better management of Boats and Canoes plying for hire at the Out-Ports of the Madras Presidency.

The following Rules for the better management and control of Boats and Catamarans, plying for hire at all out-ports under the Madras Presidency to which they may be extended by an Order of the Governor of Fort Saint George in Council, published in the Fort St. George Gazette, have received the sanction of the Government of India, and will come into force on the 1st day of October 1867.

I. No person, either as owner or servant, shall use any Boat, Canoe, or Catamaran, to carry goods or passengers to or from any ship or vessel at the port, unless such person shall have previously received a license, and unless the Boat, Canoe, or Catamaran which such person shall so use has been registered, as hereinafter mentioned. And in case any person who has not received such license shall use any Boat, Canoe, or Catamaran for the aforesaid purpose, or such Boat, Canoe, or Catamaran shall not have been so registered, such person shall be liable to a fine not exceeding the sum of (50) fifty Rupees, or, in default of payment, to imprisonment for a term not exceeding (3) three months, and the Boat, Canoe, or Catamaran shall be liable to confiscation, on conviction before a Magistrate or Justice of the Peace. This rule is not to be considered as interfering with Ships' Boats or Pleasure Boats taking off or landing passengers and their Baggage, or Ships' stores, all of which, however, must be embarked or debarked within the limits assigned by the proper authorities, in default of which a fine will be imposed under Clause X. The right of withdrawing this indulgence will be vested in the Master Attendant or Collector of Sea Customs, or other Registering Officer appointed by Government, should it appear that the interests of Government require it.

II. The Master Attendant or Collector of Sea Customs, or other Registering Officer appointed by Government, on being satisfied that a Boat, Canoe, or Catamaran is seaworthy and fit for the service of the port, will, on application of the owner or owners, who must first subscribe to a declaration in writing that he or they fully understand these Rules, grant a license to such owner to use the Boat, Canoe, or Catamaran, for the aforesaid purposes, such license (if a Boat or Canoe) expressing its dimensions and the number of the crew, as well as the number of passengers and quantity of cargo, it is to be permitted to carry. And, to enable the Registering Officer to grant a correct license, he shall survey, or cause to be surveyed, any such Boat or Canoe in presence of the owner, or any person deputed by him, the fee for such survey being regulated at each port by order of Government.

III. And as often as the property in such Boat, Canoe, or Catamaran shall be transferred, the owner must produce his license to the Registering Officer, that the requisite alteration may be made, the new owner subscribing to a similar declaration, respecting his comprehension of these Rules. In wilful neglect or default of which notice of change of ownership for the space of six days after such may have taken place, the original owner shall forfeit a sum not exceeding (25) twenty-five Rupees, or in default of payment to imprisonment for a term not exceeding (6) six weeks, on conviction before a Magistrate or Justice of the Peace.

IV. Every owner shall paint in black English figures not less than six inches in length, upon a white ground, on a conspicuous part of the bow on one side, and of the quarter on the other, the number mentioned in the Register and license of his boat. And if any person shall fraudulently paint, or cause to be painted or counterfeited, upon any Boat or Canoe, not having been duly registered, any such figures, every such person shall be liable to a fine not exceeding the sum of (100) one hundred Rupees, or, in default of payment, to imprisonment, with or without hard labor, for a term not exceeding (6) six months, on conviction before a Magistrate or Justice of the Peace, and every such Boat or Canoe shall be confiscated.

V. For the better prevention of fraud and omission in painting the figures above provided to be used, the Registering Officer shall cause the number to be cut or branded in the most common Native character in some part of every Boat, Canoe, or Catamaran, on its being registered; and if the owner should refuse to keep cut branded or painted, the figures assigned, or should hide or obliterate them, he will be liable to a fine not exceeding (50) fifty Rupees, or, in default of payment, to imprisonment for a term not exceeding (3) three months, on conviction before a Magistrate or Justice of the Peace. And if any person, not being an owner shall be guilty of, or shall assist in, altering, or erasing any such figures, he shall be liable to a fine not exceeding (50) fifty Rupees, or, in default of payment, to imprisonment for a term not exceeding (3) three months, on conviction before a Magistrate or Justice of the Peace. All numbers painted or branded on a Boat, Canoe, or Catamaran are to be effaced by the Registering Officer on the license being withdrawn.

VI. All men employed as Tindals or Boatmen shall be registered in the Office of the Master Attendant or Collector of Sea Customs or other Registering Officers appointed by Government, and no others shall be allowed to ply in Registered Cargo Boats, Canoes or Catamarans, unless on emergency, and with the permission of the Registering Officer.

Any offence against this rule will subject the owner to a fine not exceeding (10) ten Rupees, or, in default of payment, to imprisonment for a term not exceeding (14) fourteen days, on conviction before a Magistrate or Justice of the Peace, for each man so engaged in his Boat: and the Lascars so employing themselves will forfeit all title to hire.

VII. All Boats, Canoes, or Catamarans must be manned with such number of crew as may be determined on by the Registering Officer and noted in the license: and any owner allowing his Boat, Canoe, or Catamaran to ply without the requisite complement of men, will be liable to a fine not exceeding the sum of (50) fifty Rupees, or, in default of payment, to imprisonment for a term not exceeding (3) three months, on conviction before a Magistrate or Justice of the Peace. And all Boats, Canoes, or Catamarans, must carry such number of passengers and quantity of goods as shall be expressed in the license a refusal to take, which will subject the owner to loss of hire, and suspension of license, if considered necessary.

VIII. If any Boat, Canoe, or Catamaran be loaded with passengers or cargo beyond what is specified in the license, the Tindal of such craft shall be liable to a fine not exceeding (5) five Rupees, or, in default of payment, to imprisonment for a term not exceeding (8) eight days, and the owner of the Boat to a fine not exceeding (10) ten Rupees, or in default of payment, to imprisonment for a term not exceeding (16) sixteen days on conviction before a Magistrate or Justice of the Peace, for every surplus passenger and candy of goods. And every other person who shall be guilty, either as principal or accessory, of the like offence, after having been duly warned by the Tindal or owner, shall be liable, on conviction before a Magistrate or Justice of the Peace, to a fine not exceeding (10) ten Rupees, or, in default of payment, to imprisonment for a term not exceeding (16) sixteen days for every surplus passenger and candy of goods.

IX. All owners of licensed Boats, Canoes, and Catamarans must conform to the rules laid down by the Master Attendant or Collector of Sea Customs or other Registering Officer appointed by Government, for regulating the hours between which they are to ply to and from the shore, who shall be at liberty to prevent any such craft from leaving the shore when, in his judgment, danger would be incurred by so doing; and in case any Tindal offend against this clause, he shall forfeit all hire, and the owner be subject to suspension of license.

X. All owners of licensed Boats, Canoes, or Catamarans shall submit their Boats when called upon to do so, to the inspection of the Registering Officer, or any person duly authorized by him, who is empowered to order such repairs to the Boats as, in his judgment, are required to render the establishment efficient. Any owner refusing to attend to such orders shall be subject to suspension of his license, and, if such refusal be continued beyond one month, to an entire withdrawal of the license.

XI. All goods are to be landed or shipped off from within certain limits that may be pointed out by the Master Attendant or Collector of Sea Customs, or other Registering Officer appointed by Government; and any person engaged in shipping off or landing goods without such limits, unless the sanction of the Master Attendant or Collector of Sea Customs, or other Registering Officer appointed by Government, shall have been previously obtained will be liable to a fine not exceeding (50) fifty Rupees, or, in default of payment, to imprisonment for a term not exceeding (3) three months, on conviction before a Magistrate or Justice of the Peace.

XII. All owners of licensed Boats, Canoes, and Catamarans shall, under penalty of having their licenses withdrawn, be subject to the control of the Master Attendant or Collector of Sea Customs, or other Registering Officer appointed by Government and shall submit to such rules as he, under the approval of the Collector of the District, shall think fit to impose, and the nature of the services required of them shall demand.

XIII. The rate of hire will also be determined by the proper local authorities; and if any owner, or person deputed by him, shall demand a rate beyond that sanctioned, he shall, on conviction before a Magistrate or Justice of the Peace, be liable to a fine not exceeding (10) ten Rupees, or, in default of payment, to imprisonment for a term not exceeding (16) sixteen days for each offence, together with the forfeit of the amount of such hire.

XIV. Any owner of a licensed Boat, Canoe, or Catamaran, or person deputed by him, refusing to let on hire such Boat or Catamaran, without assigning reasonable and satisfactory cause for such refusal, shall be liable, on conviction before a Magistrate or Justice of the Peace, to a penalty not exceeding (10) ten rupees, or in default of payment, to imprisonment for a term not exceeding (16) sixteen days for a first offence, and (30) thirty Rupees for a second, with withdrawal of license.

XV. And if any Boatman serving in any such licensed Boat or Catamaran shall, by wilful neglect or dereliction of his duty, cause any impediment to the service of such Boats he shall be liable, on conviction before a Magistrate or Justice of the Peace, to a penalty not exceeding (10) ten Rupees, or imprisonment for a term not exceeding (16) sixteen days, or to receive corporal punishment not exceeding (3) three dozen lashes for a first offence; and for a second, or if in either case life may have been endangered, he shall be liable, on conviction, to have the punishment increased to commitment to hard labour

for a term not exceeding (6) six months, according as, in the opinion of the Magistrate or Justice of the Peace, before whom he is cited, the nature of the offence should warrant.

XVI. If any owner or person deputed by him shall be guilty of taking off or landing cargo without having previously received the permission of the Master Attendant or Collector of Sea Customs, or other Registering Officer appointed by Government, he shall, on conviction before a Magistrate, or Justice of the Peace, be liable to a fine not exceeding (50) fifty Rupees, or, in default of payment, to imprisonment for a term not exceeding (3) three months.

XVII. The Master Attendant, Collector of Sea Customs, and all Magistrates and Justices of the Peace, or such person as they shall duly authorize for that purpose, shall be empowered to search all parts of any Boat, Canoe, or Catamaran for prohibited, unaccounted, or smuggled goods, and to examine into all packages, boxes or baggage, of whatever description, in such Boat, or landed therefrom, provided they shall have good reason to suppose that smuggled or prohibited goods are contained in such package, box or baggage. And if any person shall resist or impede such lawful search he shall be liable according to the circumstances of the case, and the quality of the party offending, on conviction before a Magistrate or Justice of the Peace, to a fine not exceeding (100) one hundred Rupees, or to imprisonment, with or without hard labor, for a period not exceeding (6) six months.

2. If a boat or Catamaran is required for any extraordinary service to a Ship or Vessel, either at anchor or under weigh, beyond the limits of the Port, then the amount of hire which may be demanded may be referred to the Master Attendant or his Deputy for adjustment. N. PASSAGE RULES.

PORT ST. GEORGE, 22nd August 1865, No 326.—The following Extract from Notification from the Gazette of India, is re-published:—

FINANCIAL DEPARTMENT, No. 1,467, SIMLA, the 23rd July 1866.

Rules for the Grant of free passage by Sea to Civil Officers.

The Governor-General in Council is pleased to prescribe the following rules for regulating the provision of free passage by Sea for Public Officers in Civil employ, in substitution of the Rules contained in Financial Notification, dated 15th December 1865, No. 3,524,* published in the Gazette of India of the 30th December 1865, page 1348:—

Officers and other public Servants on the permanent Establishment of a Department will be allowed a free passage when proceeding on duty by sea, in cases in which they would receive travelling allowances if proceeding on duty by land. Military Officers in Civil employ will, in addition, be allowed a free passage when being employed at a station beyond Sea; they may be obliged to return to their Presidency in progress to Europe or to a Hill Station, on leave on Medical Certificate, also when they rejoin their station on return from that leave.

For every Covenanted Civil Servant, Military Officer in Civil employ and Uncovenanted Officer of higher rank than Clerk, who may thus be entitled to a free passage, the entire charge for a first class passage will be paid by Government, who will recover from such Officer either the full or half rate of table-money for the number of days occupied in the passage, according as his salary may or may not exceed Rspees 600 a month.

The full rate of table-money shall be reckoned at 8 Rupees a day on vessels in which the cost of a free passage includes, but at 4 Rupees a day where it is exclusive of charge for wine, beer, spirits and soda-water.

* Madras G. O. G., 29th December 1865, No. 463.

For Public Servants messes at the Warrant Officers' or Engineers' table, viz., for Warrant Officers of every grade, European Non-Commissioned Officers attached to Departments or Public Offices, Subordinate Accountants and Clerks of Departments of Public Offices, who are entitled to a free passage, and for the families of these classes, 2nd class accommodation, including generally a screened berth will be provided; and the entire cost of the second class passage, without any deduction from the passengers on account of table-money, will be borne by Government.

Passage for servants and luggage, within the limits prescribed by the rules of the Quarter-Master General's Department prevailing at the port of embarkation, will so be allowed and paid for by Government, in cases where a more liberal scale is already authorized on special grounds.

THE NATIVE PASSENGER SHIPS' ACT, 1876.

Rules relating to Quarantine for the Ports mentioned in Schedule A hereto annexed.

The following Rules, made by His Excellency the Governor of Madras in Council, with the sanction of the Governor-General in Council, in pursuance of the provisions contained in Act I of 1870, are hereby promulgated for general information:—

I.—The Master or other person in charge of any vessel about to enter any of the ports mentioned in Schedule A, annexed thereto, in which any case or cases of cholera, yellow fever, Asiatic plague, small-pox, or other disease dangerous to the general health, may have occurred within a period of ten days previous to the date of the arrival of such vessel at any of the ports aforesaid, shall notify this fact by hoisting a signal, which signal shall be in the day-time a yellow flag at the fore, and in the night time two lighted lanterns, one over the other, at the same mast-head; and such Master, or other person as aforesaid, shall not take up anchoring ground within the said port without having obtained the previous sanction of the Master Attendant or other officer in charge of the port, nor without such sanction shall he hold any communication with the shore, or with any shipping within the said port.

II.—Whenever the Master or other person in charge of any vessel about to enter any of the ports aforesaid is unable to produce a clean bill of health obtained from the proper authority at the port last visited, he shall notify this fact to the Master Attendant or other officer in charge of the port by hoisting a signal as aforesaid; and thereupon the Master Attendant or other officer in charge of the port may, on the report of the Port Surgeon or other officer appointed by Government in that behalf suggesting or warranting the adoption of such a measure, refuse to permit the Master or other person as aforesaid to anchor his vessel within the ordinary limits of the said port, and may forbid all communication between the vessel and the shore, until a quarantine of observation, not exceeding twenty-four hours from the receipt of the report of the Port Surgeon or other officer appointed by Government in that behalf, shall have been enforced.

III.—It shall be the duty of the Port Surgeon or other officer appointed by Government in that behalf to proceed without delay on board any vessel about to enter any of the ports aforesaid in which any case or cases of cholera, yellow fever, Asiatic plague, small-pox, or other disease dangerous to the general health, shall have occurred within ten days previous to the date of the arrival of such vessel as aforesaid, or whenever the Master or other person in charge of any vessel is unable to produce a clean bill of health from the port last visited and such Port Surgeon or other officer as aforesaid shall inspect the crew and passengers of every vessel as aforesaid, and make careful inquiry as to the nature of the diseases then existing on board every such vessel, and make a report thereon to the Master Attendant or other officer in charge of the port (a).

IV.—Upon the receipt of the report of the Port Surgeon or other officer appointed by Government in that behalf, the Master Attendant or other officer in charge of the port shall determine whether any passengers or merchandize may be landed, or whether the

(a) Note.—“The Port Surgeon or other officer appointed by Government under Rule 3, shall in proceeding to visit an infected vessel, land the vessel from the waterside in the first instance; and if he is satisfied from the information he may thus obtain that it is necessary to place the vessel under quarantine, he shall refrain from going on board, and shall report the result of his inquiry to the Master Attendant or other officer in charge of the port. Such report shall be deemed to be a report within the meaning of Rule 3.”—Proceedings of the Madras Government, Marine Department, 20th August, 1872, No. 205, para. 9.

master or other person in charge of such vessel shall be required to take the vessel to a quarantine anchorage, or to put it out to sea, or to anchor it beyond the limits of the port in such place as may be appointed for that purpose by the Master Attendant or other officer in charge of the port or to undergo a quarantine of observation.

V.—Whenever cholera, yellow fever, Asiatic plague, small-pox, or other disease dangerous to the general health, shall be actually prevailing amongst any of the crew or passengers of any vessel as aforesaid, and none of those diseases shall exist at the time in the neighbourhood of the port which the said vessel is about to enter or has entered, it shall be the duty of the Port Surgeon or other officer appointed by Government in that behalf to report this state of facts to the Master Attendant or other officer in charge of the port. Thereupon the Master Attendant or other officer in charge of the port shall require the Master or other person in charge of such vessel as aforesaid to take the said vessel out to sea for a period of ten days, or to anchor it at any place to be appointed for that purpose for a period of ten days.

VI.—All persons on board vessels in quarantine are hereby prohibited from communicating with the shore beyond the limits of any place which may be set apart for performing quarantine on shore, or with any vessel in the roadstead, or vicinity of the roadstead, unless the permission of an officer duly authorized by Government in that behalf shall have been previously obtained; and all persons are hereby prohibited from going on board any vessel in quarantine, unless the permission of an officer duly authorized by Government in that behalf shall have been previously obtained.

VII.—It shall be lawful for every officer duly authorized by Government in that behalf to appoint a sufficient number of subordinates for the purpose of enforcing these rules at the expense of the owners of such vessels; and the Masters or other persons in charge of such vessels shall pay the subordinates so appointed and defray all expenses incurred in pursuance of this rule. It shall be the duty of the officer in charge of the Custom House to refuse port-clearance to such vessels until all such demands be discharged.

VIII.—It shall be lawful for every officer duly appointed as aforesaid, with the sanction of Government, to appoint as many places for performing quarantine on shore as may be required, and to provide accommodation at such places for passengers on board any vessel to which these rules are applicable, at certain fixed fees to be determined from time to time by Government, which fees shall be payable by the Master or other person in charge of such vessel. No person shall be permitted to leave the place so appointed within ten days from the date of the last case of the disease for which quarantine was enforced, unless with the previous sanction of the said officer duly authorized as aforesaid.

IX.—Disobedience to any of the above Rules, Nos. I, II, III, IV, V, VI, and VIII, will subject the offender and all persons aiding or abetting him to a prosecution under Section 271 of the Indian Penal Code.

MADRAS CYCLONE CODE.

SECTION I.—METEOROLOGICAL DEPARTMENT.

I. It will be the duty of the local Superintendents of the Meteorological Stations at Masulipatam, Negapatam and Trichinopoly, to telegraph promptly to the Government Astronomer and Meteorological Superintendent at Madras, in accordance with detailed instructions which have been issued by him to them, all abnormal, barometrical, temperature, and wind variations, which may indicate the likelihood, approach, prevalence, or passing away of a Gale or Cyclone. Arrangements have been made for similar information being furnished from Trincomallee and Pondicherry.

II. On the first observation and during the continuance of "suspicious" or "dangerous" weather, the Government Astronomer will telegraph to his local Superintendents at all out-stations any observations, inquiries, directions, and warnings regarding the weather, which he may consider of possible utility. Orders have been given to ensure priority of despatch before all ordinary messages to his telegrams and their consequent replies.

III. Whenever the Astronomer shall have reason to apprehend the advent of a Gale or Cyclone he will at once by telegram or otherwise, communicate warning to the Master Attendant, and during the prevalence of such Gale or Cyclone he will continue to give such information regarding its varying phases as may be deemed by him to be of possible utility.

IV. As Cyclones after passing over Southern India from East to West have been known to be destructive to shipping on and beyond the West Coast, the Government Astronomer will communicate to the Master Attendant such information as may be by him obtainable regarding the inland direction and progress of any future Cyclone, in order that timely warning of the apprehended danger may, when possible, be given to the local authorities along that coast, and may by them be given to the shipping.

SECTION II.—MARINE DEPARTMENT.

I. The Marine Department will enforce, as far as possible, a strict observance of the Port Rules in regard to the anchorage and berthing of ships, &c. A copy of these Rules will as heretofore be given to every Master of a Vessel arriving in the roads. From the middle of April till June, and from the middle of September till January, each Commander will also be furnished with a copy of Circular marked A, appended to this Code, regarding the precautions to be taken at the periodical changes of the monsoons.

II. As on the occasions of wrecks at Madras, the establishment of communication between the shore and stranded ships is, without the aid of rockets or other Artillery projectiles, sometimes practicable, two sets of life-saving apparatus, complete with hawsers, &c., (but without rockets), will be kept in charge of the Master Attendant, who will be responsible for their being in a constant state of readiness and efficiency, for their periodical inspection, and for his boats' crews being trained to their use.

III. The Master Attendants at the Out-ports on the Eastern Coast of this Presidency will despatch by telegraph to the Master Attendant at Madras prompt intimation of apprehended dangerous weather, and during the prevalence of such weather will continue, when practicable, to furnish information regarding its changes. Such information, when of an important character, as well as that which may be obtained by the Marine Department from ships or steamers, tending to establish the probable direction and progress of a Cyclone centre, will be promptly forwarded by the telegraph or otherwise by the Master Attendant to the Government Astronomer.

IV. Whenever the Master Attendant, or in his absence, the Senior Officer of the Marine Department present at Madras, shall have reason to apprehend the advent of dangerous weather, he will as hitherto direct the hoisting of "a white flag with a blue cross," signifying "the weather is suspicious. Prepare for running to sea." Information of this will be given to the Brigade Major and also to the Superintendent of the Marine Police, who will at once place himself, Serjeant, boats' crews, and Catamaran men under the orders of the Marine Department.

The following arrangements will also be made:—

1. All Officers of the Marine Department will be in attendance.
2. The Boat and Catamaran men belonging to the Marine Establishment will be assembled and held in readiness for immediate service.

3. The Marine life-saving apparatus will be run out by the boatmen, so as to be ready for use either independently or in co-operation with the Ordnance rocket parties.

4. The boats' crews for night service will be mustered before dark, and will remain in the lower verandah of the Marine Office.

5. The Pier Establishment will remain during the night at the Pier Office and will keep a good look-out along the Pier.

V. During the prevalence of "suspicious or dangerous weather," any important barometrical variations and any other information or advice that may be of possible utility will be, by signal or otherwise, communicated to the shipping by the Master Attendant.

VI. If it is decided by the Master Attendant, or Senior Marine Officer present at Madras, that the shipping shall be ordered to sea, the "red flag with swallow tail," signifying "cut or ship," will be hoisted at the Marine Office. If the indication of the approach of the storm should occur after sunset, three good lights will be hoisted—one at the masthead, and one at each yardarm of the Master Attendant's flag-staff. These signals will be repeated at the Fort, and intimation thereof will be sent to the Brigade Major, who will in either case order seven (not an uncertain number as heretofore) guns to be fired seawards with an interval of five minutes between each gun. It is, however, open to any Ship Commander to put to sea before the signal is made, should he deem such a course to be prudent with regard to his own ship; and the signal is, moreover, not to be considered an imperative order. Each Commander must know best the trim of his own ship, and must exercise his own judgment as to whether he ought to remain at his anchors or proceed to sea.

VII. When from a change in the direction or increased violence of the wind from observing that ships are beginning to drive, or from any other reason, the Master Attendant deems that imminent danger of actual wreck has arisen, he will intimate the fact to the Superintendent of Marine Police and to the Brigade Major, who will order "the wreck signal" to be fired. This signal will be two guns fired landwards in quick succession and twice repeated with an interval of three minutes between each pair of guns.

VIII. The Senior Officer of the Marine Department will keep his officers and men together, or will distribute them along the beach as occasion may require. He will also point out to the Ordnance rocket parties those ships which first require assistance; to the Senior Officer of the troops where and how the military working parties can be most usefully employed; and to the Senior Officer of Police where his men are likely to be most needed.

IX. The officers of the Marine Department will wear their distinctive dress or uniform on wreck occasions.

X. The Master Attendant at Madras will telegraph to the Master Attendants at the other ports on the other coasts of Southern India such warnings and indications of the progress of Cyclones as may be of possible utility.

SECTION III.—Police.

I. On information from the Master Attendant through the Superintendent of Marine Police being received by the Commissioner of Police of the "suspicious weather" signal having been hoisted, the latter will telegraph to Vellore, Salem and Coimbatore, warning Police Officers to hold their respective reserves in readiness. On the receipt of a second telegram, each of these reserves will be despatched by first train to Madras, where orders as to their duties will be issued to them.

II. The Commissioner will also send intelligence to St. Thomas's Mount, where the Police reserve will be held in readiness and await further orders.

III. Information will be at once circulated by the Commissioner to Divisional Inspectors, by whom beats will be immediately extended and other duties so arranged as to enable them to collect at their respective central stations certain forces, which in all will amount to about 500 men.

IV. The Marine Police boatmen on the "suspicious weather" signal being hoisted, will, with their Superintendent and European Serjeant, be at once placed under the orders of the Master Attendant.

V. On the Superintendent of Marine Police being informed by the Marine Authorities of imminent danger of wrecks occurring, or on hearing the wreck signal, he will promptly send intelligence to the Commissioner of Police, who will distribute marching orders to the Divisional parties. Unless special circumstances should require a change of arrangements, the F and G Divisions and reserve will assemble under the Reserve Inspector at the Commissioner's Office and await further orders. The B, H and C Divisions will be marched without delay to the Pier under the Deputy Commissioner. The D Division

will be marched to the Beach near the Fort, and the R Division to the Ice House. Each party will be accompanied by two Sowars or mounted men.

VI. Should the services of the Police not be at once required, the party at the Pier will be sheltered in the verandah of the Custom House; that at the Fort in the arcade of the Grand Arsenal; and that at the Ice House at the Inspector-General's Office.

VII. The entire Police Force will be under the Commissioner, who will consult the Marine Officers on the spot as to where the services of his men are likely to be emergently required. The Commissioner will issue whatever detailed orders may be requisite.

VIII. The Police will be mainly restricted to their own proper duties, i. e., the maintenance of order, protecting personal or other property washed on shore; supervising the conveyance of the shipwrecked crews and passengers to the nearest shelter, and as soon after as circumstances will permit to the Hospital, Bidden Home, or other places of refuge; bringing back the hammocks, doxies, and sick carts; guarding or removing the dead, &c. They are not to be employed in hauling ropes or recovering wreckage or cargo, save in emergent circumstances, where there are no or insufficient military or other working parties on the spot.

IX. The Commissioner of Police will see that duties are so apportioned as to enable the men to be relieved from the reserves as frequently as circumstances may render requisite.

X. All officers and men will be in uniform.

SECTION IV.—TROOPS IN GARRISON.

I. The Ordnance Department will as hitherto have charge of and will work the Rocket and life-saving Apparatus, but portions of the Garrison Battery will be instructed and occasionally exercised in its use under the orders of the Commissary of Ordnance in charge of the Grand Arsenal.

II. The two-day Marine Signals to the shipping signifying "suspicious weather" (white flag with blue cross) and "cut or ship" (red flag with swallow tail), and the night signal of the approach of dangerous weather (three good lights, one at the mast head and one at each yardarm) will be repeated at the Fort flag-staff. On the first signal being hoisted the Brigade Major will warn the Ordnance, Medical, and Commissariat Departments of the fact, in order that all concerned may be held in readiness. On either of the last two signals being hoisted seven guns will be fired from the sea face of the Fort with an interval of five minutes between each gun. No further action will, however, be taken by the "Troops in Garrison" consequent on any of these signals.

III. In case of intimation being received from the Marine Department by the Brigade Major of imminent danger or of actual shipwreck, or in case of such danger or shipwreck being observed from the Fort, the "wreck signal" will be fired. It will be two guns fired in quick succession from St. George's Bastion, which will be twice repeated at intervals of three minutes.

IV. When the "wreck signal" is rendered necessary, the Brigade Major will send intimation to the Troops in Garrison and to the Ordnance, Medical and Commissariat Departments; and the following arrangements will be carried out:—

1. Two mounted Non-Commissioned Officers and six Troopers of His Excellency the Governor's Body Guard will proceed to the Fort and place themselves under the order of the Brigade Major. They will be used as orderlies, as occasion may require, and when not actually wanted will be kept as much under shelter as convenient. Twelve additional men of the Body Guard will remain in their lines with their horses saddled in case their services as patrols may be needed to watch ships driving to points at some distance from the Fort, and to convey prompt intelligence of wreck or applications for aid along the extended line of beach to the Officers Commanding Troops and other authorities on the spot.

2. The Royal Artillery and British Regiment garrisoning the Fort will fall in in fatigue dress, and working parties will be detailed and promptly despatched to the scene of action as required. Before, however, the working parties leave the Fort, inquiry will be made at the Arsenal as to whether any assistance in men from the Royal Artillery is required to supplement the Ordnance rocket parties; and application will, under the orders of the Officer Commanding Troops in Garrison, be made at the Arsenal for a supply of boat or firehooks, ropes of moderate length and thickness, grapples, irons, &c., which will be under charge of the Officers Commanding the working parties, and will be used in saving life and property from the surf. Lanterns will also be supplied should the wrecks take place at night.

3. Half of the Native Infantry Regiment at Royapooram will at once fall in, and accompanied by its Medical Officer with medicines and surgical appliances, will march to the beach in fatigue dress. The remaining Native Infantry in Garrison will be restricted to their respective lines and await further orders.

V. It is not anticipated that the Police will be unable of themselves to keep perfect order along the beach, and adequately to perform all their appropriate duties, and, therefore, the action of the troops may be directed towards saving life and property; but they will be ready to keep the ground or aid the Police in any way that may be required.

VI. The Officers Commanding Troops, will, wherever possible, consult with the Officers of the Marine Department on the spot as to where and how the services of their men can be most usefully employed, and the advice of the Marine Officers will be met with marked attention.

VII. Arrangements will be made for the relief, food, &c., of working parties by the Regiments and Departments concerned.

VIII. The Officer Commanding Troops in Garrison will make emergent requisition on the Officer in charge of the Camp Equipage Depot for such tents as may be required to shelter shipwrecked people.

IX. Officers on wreck duty will be in uniform, and mounted Officers will have their horses with them.

SECTION V.—ORDNANCE DEPARTMENT.

I. The Commissary of Ordnance, Fort St. George, will be responsible that three sets of life-saving apparatus, with rockets, &c., complete, are at all times kept packed in carts ready for use in the arcade of the Grand Arsenal, and that the Warrant and Non-Commissioned Officers, &c., of the Department are instructed and periodically drilled to the practical use of the whole apparatus.

II. Inconvenience, danger, loss of life and much damage of property were sustained in the Cyclone of May 1872 by there being no available means of dragging from the sea the logs, pieces of wreck, balce of goods, &c., which were dashing to and fro on the edge of the surf. There will, therefore, be held at all times in readiness by the Commissary of Ordnance a supply of boat and firehooks, grappling irons, and ropes of short lengths for issue as required to the Military working parties. Lanterns will also be kept ready for wreck night duties.

III. On the Commissary's receiving intelligence from the Brigade Major that the "suspicious weather" signal has been hoisted, he will make arrangements to have one rocket party of Europeans with a Detachment of Store Lascars in the Arsenal night and day till the danger passes off, or their services are required.

IV. On the "wreck signal" being fired, or on receiving intimation from the Brigade Major of imminent danger to the shipping, the Warrant and Non-Commissioned Officers will be formed by the Commissary of Ordnance into rocket parties with Detachments of Store Lascars; and, as speedily as possible, one, two, or three of these parties (as may be required) will proceed to the point or points where their services are most urgently required. These points, and the ships to which aid is to be first given, will be decided on by the Commissary in consultation with the Marine Authorities on the spot, by whom he will be guided in the matter. If the rockets are used in the rescue of any ship's crew, the whole apparatus attached to the rocket cart will, under ordinary circumstances, be employed and be worked by the men of the Ordnance Department.

V. Two trollies, drawn by mules, have been ordered on occasions of wreck to be placed at the disposal of the Commissary of Ordnance by the Commissariat Department. They are intended to be used for the conveyance of rocket apparatus, hawsers, &c., should any wreck or wrecks take place at a distance from the Fort, such as at St. Thomé or the Adyar; but, should they not be required for this purpose, they may be employed under his orders, for any other necessary use connected with wreck work.

VI. The Commissary of Ordnance will, in communication with the Officer Commanding the District, arrange for the instruction of Detachments of the Battery of Royal Artillery in the use of the rocket and life-saving apparatus.

VII. He will apply to the Brigade Major or Officer Commanding Royal Artillery, Fort, for any aid in men which he may emergently require in the case of a Cyclone.

VIII. When hawsers are necessarily left attached to wrecks, the Commissary of Ordnance or Senior Ordnance Officer will inform the Police of the fact.

IX. All Officers, Warrant and Non-Commissioned Officers and Store Lascars will be in uniform on wreck occasions.

SECTION VI.—MEDICAL DEPARTMENT.

I. On the "wreck signal" becoming necessary, the Brigade Major will send intimation of the fact to the Port Surgeon and the Resident Assistant Surgeon at the General Hospital. The latter will warn the Surgeon and the Physician of the General Hospital, and similar warning will be given to the Superintendent of the Eye Infirmary at Vepery and to the Surgeon of the 1st District at Royapooram by the Officers Commanding the Regiments at these places.

II. On hearing the guns of the "wreck signal," or on receipt of intimation from the Brigade Major, these Medical Officers (except the Physician, taking with them a portion of their establishments and the medicines and surgical appliances, which have been detailed by their Departmental Head, will forthwith proceed to the beach, and, in consultation with the Senior Marine and Military Officers on the spot, will distribute themselves to the various scenes of wreck or apprehended wreck, as occasion may require.

III. The Physician of the General Hospital will remain at the institution to receive and afford medical aid to all such as may be sent there from the beach for treatment.

SECTION VII.—COMMISSARIAT DEPARTMENT.

I. On intimation being received from the Brigade Major of imminent danger to shipping, or on the "wreck signal" being heard, two trollies drawn by mules will immediately proceed under a Staff Sergeant to the Grand Arsenal and there await the orders of the Commissary of Ordnance.

II. Two other trollies, drawn by mules, each under care of a Warrant or Non-Commissioned Officer, and each containing an assortment (which will always be held in readiness in waterproof covers or cases) of blankets, towels, flannel banians, flannel drawers, biscuits, brandy, water and drinking vessels, will be taken in the first place to the Marine Office, and thence, as directed by the Marine Officer, to the scenes of shipwreck, where the contents will, if required, be issued and used for the relief of shipwrecked persons under the orders of the directing Medical, Military or Marine Officers present. As many sets of bearers as are available with hammocks slung on poles will at the same time be sent to the beach and will be placed at the disposal of the said officers.

III. The Executive Commissariat Officer will also despatch a supply of draught bullocks with drivers to the Camp Equipage Depot for sick carts, which, under the orders of the Warrant or Non-Commissioned Officer in charge, will be taken to the beach as soon as the violence of the weather permits, and will also be placed at the disposal of the said officers.

SECTION VIII.—QUARTERMASTER-GENERAL'S DEPARTMENT.

The Quartermaster-General will give directions that the Officer in charge of the Camp Equipage Depot will in cases of wreck promptly comply with emergent requisitions in writing from the Commissariat Department for munchies, dories, sick carts, &c., and with similar requisitions from the Officer Commanding Troops in Garrison for tents for the shelter of shipwrecked people.

A.

CIRCULAR.

Whether uncertain at present season, on necessity for being prepared to stand to sea.

The periodical season* of uncertain weather on this coast having now arrived, the undersigned would hereby earnestly caution all Commanders of Vessels in these Roads to keep their ships as much as possible prepared in every respect for standing to sea, at short notice, should the necessity arise for doing so.

1. Top-gallant masts, &c., with their rigging also, must be got on deck, flying jib-boom sent in, topsails and courses kept ready reefed, and everything on deck and below so arranged as to admit of being quickly secured on emergency. A good slip rope and buoy should be attached to the riding cable, and, as an additional precautionary measure, a stout warp also, to be used as a spring in canting the vessel if found necessary, on being required to put to sea.

2. A prudent distance from the shore in respect to anchorage must now be observed, as a vessel lying nearer in at the time of bad weather here is, from exposure to the heavy ground swell, necessarily far less able to ride easily and securely than one well out.

3. Too much care cannot be paid in maintaining a perfectly clear berth, and Commanders should be mindful to keep their ships at as great a distance from each other as can conveniently be managed in order to avoid risks of collision by driving, or when slipping to stand to sea.

4. Every attention in the way of observation and look out will be paid by this Department, and the usual warning and other signals promptly made, as need may call for. In order to prevent misapprehensions on the subject of signals, especial attention

is requested to the circumstance that (during the prevalence of foul weather, however, only) when a *private* signal is intended to be made to a single vessel, besides hoisting her number in the first instance, No. 1 will be kept flying at the opposite yard arm. All other signals in which this said distinction is not made use of are to be considered as general, and obeyed accordingly.

5. It is very desirable that, during the prevalence of suspicious or threatening weather, Commanders should stay at nights on board their respective vessels, and also remain by them as much as possible until the uncertain period has been fairly passed over.

6. In the event of wreck occurring, the usual appliances as put forth by the Board of Trade are adopted here, but should it be observed the rocket apparatus is not at once forthcoming, a line should be immediately sent on shore from the vessel by some kind of buoy, or other handy means, to which the tail block and

double line will be attached by those on shore, or signals made as to what other steps must be carried out.

7. In conclusion, Commanders are earnestly reminded that, as intimated in the Port Instructions, "Commanding Officers are not to wait the display of signals if they deem it prudent to put to sea," it being in no way whatever obligatory for them so to await directions from the shore for standing to sea.

A COMPENDIUM OF THE LAW OF STORMS PREPARED FOR THE BAY OF BENGAL.*

The Cyclone in all its various forms, and in all portions of the globe subject to its visitation, must be denominated the most fearful and the most frequent enemy which the mariner's perilous calling obliges him to encounter. But for this obstacle the Bay of Bengal would be very easy of navigation, for the very large amount of evidence brought to bear upon the subject goes far to prove that in this sea all violent storms are of a cyclonic nature, and move from eastward to westward. They are great revolving storms varying in expanse from forty or fifty to some hundreds of miles, blowing round and round a centre or vortex, but with an ever-varying force, now lulling into a strong breeze, and again swelling up into a blast of uncontrollable fury. The peculiar characteristic of their revolving action is that in each hemisphere the gyration invariably takes place in one direction contrary to the hands of a watch. In North Latitude from right to left; and in South Latitude from left to right. The knowledge of this law not only supplies the seamen with direct means of distinguishing them from common gales, but reveals to him the position of his vessel with respect to the vortex, and points out the way to escape from it. The following remarks and examples, though intended for the Bay of Bengal and Andaman Sea will apply also to the open parts of the Arabian Sea. These storms take their rise a few

* For the use of Native vessels of all classes. The compendium is translated into Tamil, Telugu, and Hindustani and issued free of charge at the various ports of the Presidency.

degrees of latitude north of the Equator, and at the periods of greatest atmospheric disturbance, owing to the changes of monsoons. About April and May, and Oct. and Nov., though these dates are only approximate, and unusual weather at any time may be attributed to their neighbourhood, and suspected accordingly, they are accompanied with threatening aspect of the sky, together with greasy halos round the sun and moon; rolled and tufted forms of clouds, with lurid streams of light and extraordinary colors; a heavy bank of clouds forming an arch in the direction of the storm, varying currents of clouds in motion above, and dark banks on the horizon below, with daring forks and threads of pale lightning, lurid redness at sunrise and sunset; peculiar moaning in the winds, the frequent presence of weary land birds and insects; and last and best warning of all to those who possess it, the decline of that invaluable monitor the Barometer, doubly valuable here, because its usual state is one of almost perfect tranquillity, broken only by a daily tide rising and falling about one-tenth of an inch, highest at 10 A. M. and P. M., and lowest at 4 A. M. and P. M.; whenever this action is suspended or interrupted, bad weather is never far off. The surface of the sea also exhibits signs of disquietude, becoming confused and uneasy, and crossed frequently by long swells from other than the quarter of the prevailing wind. Whenever any or all of these warnings are met with, the mariner should at once consider the almost certainty that exists of having to encounter a storm of the revolving nature we are treating of. His first duty is to find the centre of vortex, and its bearing from the ship. To do this he should note the direction of the wind, and with his face to it, tell off eight points to the right, if in the open sea, which we will first consider, thus—with wind at N. the centre is E., with wind E. centre S., wind S. centre W., wind W. centre N., and so with intermediate points—wind N. E. storm S. E., wind S. E. storm S. W., wind S. W. storm N. W., wind S. W. storm N. E., &c.; when near land or in roadsteads, these bearings require modifying, as will be explained hereafter. Having determined the direction of the storm, the next consideration is his position with regard to it. All experience tends to show that they commence to southward between southward and eastward and eastward and cross the Bay in a curve, sometimes sharp, sometimes very extended nearly N. and S., but an average tract of from S. E. to N. W. will suit the purpose of illustration. The continuation of the voyage, and the direct course of the ship ceases at this period to be a primary object. All knowledge and seamanship should be directed to avoiding this enemy, and the saving of life and property. The accompanying diagrams will show better than any verbal description both the nature of the evil and the remedy to be adopted. The outside circle represents the shape of the storm; the arrows and letters the direction of the wind; the small circle the centre; the dotted lines the path on which the storm is advancing; the compass points are also indicated.—See Figure 1.

In this diagram all the ships are shown having the wind on starboard quarter so that if the storm was stationary scudding in that position would always ensure safety. It does in fact do so in all cases, except with the wind easterly, when great care and judgment are requisite, and the value of preliminary observations becomes apparent, the direction of the storm, whether northward or westward of the average track, being of vital importance.

A careful study of books of reference and of logs and facts drawn from extended experience justify the conclusion that the best course with the wind at E. or to the north of east is to run to the N. W., changing your course as the wind veers to the northward, keeping it on the starboard quarter until it reaches N. W., when if bound to the N. E. you can bring it right aft and sail round the storm until your course is reached, or continue your track if bound to southward; much depends, however, upon the direction of the storm as indicated by phenomena, and the veerings of the wind if any have taken place.—See Figure 2.

With the wind from E. to E. S. E., carry on as long as possible to N. N. E., N. E., making all possible casting, then heave to on starboard tack. With wind at S. E. to S. if bound to southward or westward, you will be standing straight into danger, make casting until weather improves, then lie to on starboard tack. With wind from S. round to N. W., you must be behind the storm, and should have no difficulty in keeping clear of it. In fact the only risk with common management and taking in time is wind from E. N. E. to S. E.—See Figure 3.

When it suits best to heave to choose the port tack in the west side of the storm, and the starboard on the east side, for the wind in each will shift by the stern.

The foregoing remarks apply to the open seas, if Bengal and Arabia, and the ships are supposed to have sea room. They comprise all that need be said to advise and encourage the mariner. But on the coasts of Coromandel and Orissa and Ceylon, when the storm approaches the land, a modification of its form takes place, to which it is necessary to draw attention. The bad weather always commences a point or so on either side of north, although the centre may be E. S. E., S. E., or even S. S. E. There seems also to be a retardation of the speed of the southern half, as if it was marking time, until the outer half wheeled round before the whole flings itself on the land. This proceeding allows the careful navigator time to run to the southward, and having secured a position of

safety, return behind the storm to his anchorage, taking care not to overtake it. The shape of the land also favors this manœuvre, for even in Madras itself a run of a few hours to southward gives room to let the ship off to the westward, or run down to Pondicherry. Standing out into the offing is merely exchanging one danger for another, and is directly opposed to the law of storms. Run at the earliest intimation of danger, without giving a thought to the distance it may take you from your port. Wind and current will hurry you down, and when on the safe side wind and current will bring you back before the state of the sea and sky allow business to be reconducted. You are losing nothing, and knowing that you are following the advice given with all the advantages of scientific knowledge, of experience, of the study of example and practice, and the aid of the best instruments and the Electric Telegraph. You can dismiss from your mind the great care of forming a judgment in such critical period, and give all attention to the ship, knowing that your conduct will meet with approval.

Pages might be filled of successful instances of this treatment, and the disaster following any other courses, but space will not permit, and it is requested to accept the facts as they stand, reserving the study to some leisure moments.

When compelled to lie in severe weather, when shifts of wind are dangerous, it would be well to keep ready a large stone anchor, like Chinese, stone being selected for cheapness, and the materials of a catamaran, which being put overboard with say twenty fathoms of cable will make a secure buoy, at which the ship may ride with her strong bows to wind and sea, and extra stays to her mast; the rudder being secured in midships, which is always one of the first things to suffer when used to keep the ship's head up. Then with hatchways well secured, the crew sheltered, and only the state of the well-requiring attention, a vessel will stand a great deal; and from the moment the first change you have been taught to expect occurs, a spirit of confidence will replace the doubt and despondence which add additional terror to the disturbance around. It is, however, very advisable not to navigate if possible, during the bad weather months. Any injury to a vessel will cause much greater detention, and involve direct expense, and no shipowner of common humanity or honesty will send a vessel to unload entirely or render herself so unseaworthy that the advent of one of these storms to be expected at any moment must ensure destruction to property and grievous loss of life.

SIGNALS TO BE USED WHEN A VESSEL IS SIGHTED HAVING ON BOARD THE GOVERNOR OF THE PRESIDENCY.

When any vessel is sighted having on board the Governor of the Presidency, four guns will be fired, two guns in quick succession, and after an interval of half a minute two more guns also in quick succession. From the 1st of February to the 30th of September, during the prevalence of southerly winds, the signal guns will be repeated at St. Thomas' Mount in order that they may be heard at the Adyar and Nungumbaukum.

Any vessel having on board a Governor of this Presidency should fly the Governor's Jack at the foremast head while entering the port.

MADRAS LIGHT HOUSE.

The Light House at Madras is immediately to the Northward of the walls of Fort St. George, and the light from it was first exhibited in January 1844. The light is elevated 128 feet above the mean level of the Sea,—and may be seen from the deck of a Ship at the distance of 20 miles. The Light is of the "Flashing Description," and the duration of the Flashes to that of the Eclipses or Dark periods is in the ratio of 2 to 3,—but as the nature of the motion is Reciprocating instead of Rotatory, the above ratio merely expresses the average proportion of the Light and Dark intervals which are themselves variable according to the position of the spectator. The rapidity of movement is so adjusted, that the duration of the Flashes will vary from 0' to 48", and that of the Eclipses from 0' to 7" the sums of the duration of Light and Darkness bearing however in every position the constant ratio of 2 to 3. From the South-Eastern extremity of the Pulicat Shoal the Light House bears S. 23° W. and is distant 13 miles, but no Ship or Vessel when hauling in from the Northward for the Madras Roadstead should bring the Light to bear to the Southward of S. 28, W. or S. S. W. $\frac{1}{2}$ W.—unless her position is well ascertained. Commanders of Vessels are warned of the serious risk they incur by incautiously approaching the dangerous vicinity of the Pulicat Shoal, as hazy weather or other causes may obscure the Light,—true Soundings therefore and a vigilant look out are imperatively called for. The limits of the Madras Roadstead (in 8 or 9 fathoms) are comprised within the following bearings, viz., from the Northward the Light House will bear S. 56° W., and from the Southward N. 81 W. or from S. b. W. to W. $\frac{1}{2}$ N.

The Light House at Madras is in Latitude 13° 5' 0" North,
and in Longitude 80° 20' East of Greenwich.

The Dimensions of the Light House are as follows:—

GOVERNMENT SAVINGS' BANK.

BANK OF MADRAS—POPHAM'S BROADWAY—Open daily from 10 A. M. to 3 P. M.

T. E. FRANK, Esq.—Secretary and Treasurer, Bank of Madras, Ex-officio Secretary.

Savings' Bank Deposits—Revised Rules, 1874.

1. The duties connected with the Government Savings' Bank are conducted at the Bank of Madras, and the Secretary and Treasurer of that Institution is ex-officio Secretary to the Bank, and has immediate charge of its establishment, and is held responsible for the duties of the Bank being conducted in accordance with the orders which Government may from time to time issue.
2. The Bank opens daily (Sundays and general holidays excepted) for the transaction of business, from 10 o'clock A. M. till 3 P. M., except on Saturdays, when it is closed at 1 o'clock P. M.
3. With the exception of European Soldiers on the effective strength of the Army, for whom other provision has been made, all classes, including Native Soldiers, Non-effective Staff, Pensioners, Invalids, and the wives and children of Soldiers, may deposit their savings in the Bank, provided the amount of each deposit be not less than one rupee, or consist of fractions of a rupee, except when a draft on a Government Treasury is tendered; and no person will be allowed to deposit more than Rupees 500 in one year, or more than Rupees 2,500 in all. When the principal and interest at credit of any depositor shall amount to the latter sum, interest will cease, and no further deposit will be received.
4. Deposits tendered on account of security of Subordinate Officers of Government, will, however, be received up to Rupees 3,000 in one or more years, or in one sum, and deposits made in accounts opened with the sanction of Government on behalf of School, Dispensary and other Funds, may be received in excess of the limit of Rupees 500. In all other cases the prescribed limit should never be exceeded.
5. When security deposits are made by Government Subordinates or Contractors, the account will be opened in their own names, the Bank holding a letter of agreement in the form appended. The parties so depositing money with Government Officers must sign the letter of agreement, addressing it to the Secretary to the Government Savings' Bank or the Collector of the District, undertaking not to make any claim on the Bank for the principal of the sum deposited, except with the express written sanction of the Government Officer, not to object to payment by the Bank to the Government Officer upon his claiming it, and not to make any claim for the interest after such Officer shall have revoked the authority to him to receive it.

6. Persons residing in the Mofussil may effect the deposit and withdrawal of their savings either through the Civil, Hoozoor, or Divisional Paymaster's Treasuries, but no remittances are received from them direct at the Presidency Office.

7. Each depositor is furnished by the Bank with a "Pass-book," which book must be produced whenever a sum is deposited or withdrawn. Every sum paid or received is entered by the Bank in that Book. The Secretary of the Bank affixes his signature opposite to each deposit, and the depositor affixes his to each withdrawal.

8. The name, rank, profession, business, occupation or calling, and residence, of the depositors should be entered by the Bank in the Pass-books, and the signature or mark of the depositor must be written on the same page, or in the signature-book kept by the Bank.

9. Should a Pass-book be lost, another will be supplied by the Bank on the identity of the applicant, as the owner of the missing book, being satisfactorily established, and after the lapse of a month, a fee of one Rupee is charged for the new book.

10. Should a Pass-book be so defaced or torn as to render the entries therein illegible, it will be retained by the Bank, a new one supplied, and a Rupee charged for the same.

11. Depositors are permitted to deposit or withdraw at any time any sums or portions of sums deposited by them, but no person is permitted to deposit or withdraw money more than *once* during the month. An exception, however, is allowed in cases in which good and sufficient reasons are assigned.

12. As a general rule, the Bank refund money only to depositors in person; but when the depositor is a female, or prevented from attending at the Bank by unavoidable causes, the Secretary exercises his discretion in making payments on behalf of such persons to those duly authorised by them to receive the money by an order written as follows:—

To
MADRAS, _____ 18 ____
THE SECRETARY TO THE
GOVERNMENT SAVINGS' BANK,
Madras.
Please pay to _____ Rupees _____, and place the same
to my debit.

Signature.

13. No money is received by the Bank on account of trusts, and no joint account can be opened. But a depositor can open two accounts, one for his security as a Public Servant, or Contractor, and the other for his own private savings. Ordinarily no one may open for himself or the members of his family more than one account, but a wife can open a separate account for the investment of her own savings notwithstanding the existence of one in the name of her husband. So also each member of a (Hindoo) family, whether divided or undivided, may be allowed to open an account for himself.

14. The surplus funds of an aided school, which the managers may put aside to accumulate for the eventual erection of School buildings, may be received in the Government Savings' Bank, to an amount not exceeding the limit allowed to private depositors, and on the understanding that two months' notice shall be given of the intention to withdraw such deposits.

15. Instead of inserting the individual names of Commissioners and Deputy Inspectors of Local Schools in the accounts opened in the Government Savings' Bank, accounts may be opened in their capacity as Commissioners and Deputy Inspectors thus:—

"Commissioners and Deputy Inspector of Schools for the time being on account of" school in _____ Taluq," care being taken to specify the particular Village and Taluq, in order to enable the Government Savings' Bank to keep each account separately. This method of opening the accounts obviates the necessity of changing the names of Commissioners as casualties occur.

16. Deposits can only be withdrawn by those at whose credit they stand in the books of the Bank. Persons depositing money on behalf of a minor, should be warned that such money cannot be withdrawn during the owner's minority, except by a legally appointed guardian. If it is desired that the minor shall

be able to withdraw the money, he must deposit it himself. When a deposit is made on account of a minor, the age of the child must be communicated, that it may be recorded by the Bank.

17. On the death of a depositor, the balance at credit will be paid to the Executor or Assignee, but if a depositor dies, leaving a sum of money not exceeding one thousand Rupees, and if Probate of his Will or Letters of Administration of his Estate, or a certificate granted under Act No. XXVII of 1860, (for facilitating the collection of debts on successions, and for the security of parties paying debts to the representatives of deceased persons) is not produced, the amount in deposit may then be paid in accordance with Sections 4 and 6 of Act V of 1873, on a Bond of Indemnity, copy of which will be furnished by the Secretary to the Bank on application. Should however, the depositor have been in the Army or Navy, the balance will be paid in conformity with the rules of the service to which he may have belonged.

18. If a depositor becomes insane, or otherwise incapable of managing his affairs, payments out of his deposits will be made from time to time to any proper person, or to a Committee, or Manager of the depositor's estate, under Section 12 of Act V of 1873.

19. Compound interest at 34 per cent. per annum, or at such rate as may be authorized by Government, is allowed on deposits. No interest, however, is allowed for broken periods of a month, nor is it calculated on fractions of a rupee; but deposits during the first four working days of a month are dealt with as having been made in the preceding month, in regard to the interest due thereon.

A. G. C., No. 68, 3rd March, 1866. 20. All receipts given by Savings' Bank depositors for sums withdrawn exceeding Rupees 20, should bear a stamp of one anna.

21. The accounts are closed annually on the 31st of March, and the balance of interest at that date is paid to depositors or carried to account.

22. In addition to the General Audit which all Public Accounts undergo in the Office of the Accountant General, a particular audit of the Accounts of the Bank after the close of each year, is effected by one of the gazetted Assistants to the Accountant General.

23. An Annual Statement of the transactions of the Bank, showing also the balance at the close of the year, is submitted for the information of Government and for publication in the Government Gazette.

24. Officers in charge of Civil, Hoosoor, and Divisional Paymasters' Treasuries are authorized to supply Pass-books, and to receive and refund deposits on behalf of the Government Savings' Bank, under the foregoing Rules; but every new book must be sent to the Bank that it may be registered and indexed before being made over to the depositor.

25. Officers in charge of Civil Treasuries, and Divisional Paymasters, communicate to the Bank, according to prescribed forms, the amounts deposited in, and withdrawn from, their Treasuries monthly.

26. As soon after the close of the official year as possible, Officers in charge of Civil Treasuries and Paymasters collect and forward to the Bank the Pass-books belonging to the depositors resident in their District, that the entries therein may be checked with those in the books of the Bank, and the interest due in each case credited.

27. Should an account be overdrawn in consequence of a withdrawal not having been duly debited, or through an erroneous entry in a Pass-book, the loss will have to be made good by the Officer at whose Treasury the oversight or mistake occurred.

28. When a depositor requests that his account may be finally closed, his Pass-book is to be sent to the Bank for that purpose.

29. Wherever Government Treasury business is conducted by Branch Banks, deposits on account of Government Savings Bank should be received at the Branch Banks under orders of the Collector, part payments therefrom being also made under his orders. In regard to entire withdrawals, the sanction of the Secretary to the Government Savings' Bank is necessary.

30. Pass-books to new depositors should be issued by the Branch Banks, and statements of deposits and withdrawals should be rendered to the Secretary Savings' Bank, by Collectors.

Lost Notes, obtaining of duplicates.

Loss of a Government Promissory Note is reported to the Comptroller General, Calcutta. It is then stopped in the Loan and Interest Books of the Public Debt Office, and the applicant for a duplicate note is required to advertise the loss in three successive issues of the *Gazette of India* as well as the *Government Gazette* of the Province where he resides. Should the note have been encashed for payment of interest at any other Treasury than Calcutta, the loser is required to give the necessary information to the Treasury concerned, and two years after the date of the last advertisement of loss he has to apply to the Public Debt Office for a Duplicate Note.

Should the Note alleged to be lost not be forthcoming, and the title of the claimant be fully proved, the owner and two sureties to be approved of by the Solicitor to Government are required to execute a bond of indemnity, and on the receipt of such bond of indemnity, the Comptroller General submits the case, with his opinion, for the orders of the Government of India. In case, however, there be any doubt as to the title of the claimant, the case is in the first instance forwarded to the Advocate General.

As a general rule, duplicate Notes will not be issued until ten years after the last correct advertisement of loss, but meanwhile, interest will be paid on the lost Notes after the lapse of two years under a bond of indemnity.

The intermediate rates of passage-money for reserved accommodation between Madras and Ports in India, China and Australia, will be regulated according to the accommodation required.

The rates for Native servants, between Ports in India and China, include a passage back to the Port of embarkation, if returning at once. A reduction of one-half is made in favour of Native servants returning from England within three months after arrival from India.

Passengers are at liberty to remain at one or more intermediate Ports, and proceed by the succeeding Steamer, provided there be room, upon application to the Agent, who will give written permission on the passage ticket.

Baggage.

The attention of passengers by the Company's Steamers is particularly requested to the undermentioned Regulations in reference to Baggage; much trouble and loss are occasionally caused by their neglect or non-observance. These Regulations are equally important to passengers between Suez and Alexandria, for the Egyptian Transit Administration will not accept any responsibility unless they be strictly complied with.

All Baggage should be packed in Leather Portmanteaux or Trunks, marked with the owner's name and port of destination in paint in full, and fastened securely with case locks; padlocks and leather straps being liable to damage or removal. The Transit Administration will not be responsible for the safe conveyance of insecure Packages.

Deck-chairs are conveyed free of charge at passengers' risk.

Canvas covers to Packages of Baggage are not recommended, as they are frequently removed and lead to the loss of the Packages.

Packages containing Jewellery, Plate, or other Valuables, must be specially booked, and Freight paid thereon at the Company's established rates, failing which such Packages are liable to seizure and confiscation.

First Class passengers are allowed 336 lbs. of personal Baggage free of Freight; Second Class passengers and servants 168 lbs. each; children over 3 and under 10 years, half these weights.

A passenger taking a reserved cabin will be entitled to take in the Steamers, free of Freight, 4t cwt.; and a married couple, paying for reserved accommodation, will be entitled to take 9 cwt.

Passengers from Bombay can ship their heavy Baggage either at Calcutta or Madras, should they find any convenience in doing so, and if proceeding via Brindisi can forward any of their Packages to Southampton without extra charge.

The charge for conveyance of extra Baggage, will be at the rate of 10s. per cwt. between Southampton, Gibraltar, Brindisi, Malta, or Alexandria; 10s. per cwt. between Suez, India, China, Japan and Australia.

The Insurance of Baggage can be effected on moderate terms.

Passengers passing through Egypt will be charged by the Transit Administration 7s. per cwt. for conveyance of Baggage through, should it exceed, for First Class passengers, 336 lbs. each, and Second Class 200 lbs. each; Children over 3 and under 10 years are allowed half the above weights. This amount is collected on Board the Company's Steamers, for the convenience of passengers.

Passengers requiring information, respecting their Baggage during the voyage, can obtain it on application to the Officer in charge.

Passengers who may miss any Package of Baggage on arrival at their destination, are recommended to apply, without delay, to the Company's Agent, giving full particulars, in writing, when application will at once be made to the Missing Baggage Depot at Bombay or at Southampton.

Baggage can be occasionally had up from the Baggage-room during the passage, on application to the officer in charge.

No Trunks or Boxes allowed in the Saloon or Cabins, but only small Portmanteaux or Carpet Bags. The Portmanteaux for Cabin use should not exceed 3 feet in length, 1 foot 2 inches in width, and 1 foot 3 inches in depth.

In order to facilitate the shipment and stowing of Baggage, Passengers are requested to have their Packages distinctly marked "cabin," "Wanted on Voyage," or "Not Wanted on Voyage," as the case may be.

CAUTION.—Goods of a dangerous nature. The Company will not receive on board of their Vessels any goods of a dangerous or damaging nature. If any such goods be shipped without notice, the shipper will not only be liable to the penalties imposed by Statute, but also for all damages sustained in consequence of such shipment.

NOTICE.—All parties are requested to take notice that the Company do not hold themselves liable for detention or delay of passengers arising from accident or from extraordinary or unavoidable circumstances, or from circumstances arising out of or connected with the employment of the Company's Vessels in Her Majesty's Mail Service, and that the Company do not hold themselves liable from danger to or loss or detention of Passengers' Baggage, or for any consequences arising from the restrictions of quarantine wheresoever imposed. In all cases in which the Company's Steamers may be placed in quarantine, First Class passengers will be charged Ten Shillings and Second Class passengers Five Shillings per diem for their maintenance on board during the detention of the ship.

SPECIAL NOTICE.

The Egyptian Transit Administration having issued a notice that they will decline to take charge of any Packages of Baggage intended for despatch through Egypt that are not properly secured, passengers are earnestly requested to see that all Portmanteaux, &c., shipped by the Steamers of this Company for Europe, are thoroughly efficient in this respect, thus obviating the probability of any plunder or delay in Egypt.

Through-rates of passage to Brindisi, Venice, and Ancona are in all cases Rs. 50 less than those to Southampton, as above.

Through-rates of Freight on Cargo, Specie, &c., to Southampton and Liverpool may be ascertained by application at the Agents' Offices.

For general conditions under which Through Passage-Tickets for P. & O. Steamers are issued, see the following:—

General conditions under which through-tickets for P. & O. Steamers are issued.

On payment of through-passages, a receipt will be given, which Passengers will exchange at the port of embarkation (per Peninsular and Oriental Company's vessels) for a ticket by that Company's Steamer.

The receipt so given does not guarantee passage by any vessel in particular, as no accommodation will be reserved for Passengers until they present the receipt and obtain passage-tickets at the Peninsular and Oriental Company's Office.

The expenses of Passengers, while waiting at the port where they exchange vessels, are payable by themselves.

The rates charged for through-transit entitle a Passenger to a single berth in a Cabin only.

Children of 3 and upwards of 10 years of age, half-fare. Infants under 3 years of age, if with parent, free; when more than one, each child additional will be charged one quarter fare.

No Second-class or Deck Passengers are booked, as it is uncertain what accommodation may be available for these classes of Passengers by the Steamers of the Peninsular and Oriental Company.

First-class Passengers are allowed on board 336 lbs. of personal Baggage free of Freight. Children of first-class Passengers (over three and under ten years), Second-class Passengers and Servants, 168 lbs. each.

A Passenger taking a reserved Cabin is entitled to take, free of Freight 4½ cwt. and a married couple, paying for reserved accommodation, are entitled to take 9 cwt.

The charge for the conveyance of Extra Baggage is—

From Southampton or any Mediterranean Port to any Port east of Suez, or vice versa, 30s. per cwt.

Between any two Ports east of Suez, 10s. per cwt.

Between any two Ports west of Alexandria, 10s. per cwt.

The rate to Brindisi and Venice is Rs. 50 less than that to Southampton for an Adult Passenger.

The rates of Passage-money are exclusive of wines and all liquors by the vessels of both Companies.

INFORMATION AND GENERAL REGULATIONS.

Passengers.

The rate of Cabin passage-money includes Table, but not Wines or Liquors, which are provided on board and charged as per scale in possession of the Steward. Bedding, linen, and all requisite Cabin Furniture are provided in the Steamers at the Company's expense.

The full amount of passage-money is payable on accommodation being secured. Those who fail to embark after securing accommodation will have half the passage-money returned.

Return-Tickets, available for six months from date of landing, are issued to Cabin Passengers only at a reduction of one-fifth on the return passage money. Passengers holding Return-Tickets, and travelling on board the Steamers after this period, will be charged on board with a fifth part of the return passage-money, if not previously paid on shore to an Agent of the Company.

No berth can be occupied by any passenger without application to the Agents on shore, or the Steward, on board.

During the North-East Monsoon, when all the berths are engaged, Quarter Deck passages are granted to gentlemen entitling them to mess at the Cabin Table, at two-thirds of first-class fare. Quarter Deck Passengers are allowed space for a bed on the poop, which must be rolled up during the day, and a trunk or portmanteau of 5 cubic feet.

A number of the Steamers are provided with Forward Cabins; and when such accommodation is available, second-class passages, inclusive of table, are granted at half of first-class rates.

It must be distinctly understood that the Saloon and Quarter Deck are reserved for the use of First Class Passengers only, and that, if any First Class Passenger desires to hold communication with a Deck Passenger, he must do so on the Main Deck.

Servants, being Deck Passengers, must not sleep in the Saloon nor enter the Saloon Cabins, except when in actual attendance on their employers.

European servants, half of first-class fare. European maid-servants occupying a berth in a Cabin with a lady, two-thirds of first-class fare. Native servants on deck, ordinary deck fare.

The rate of passage for deck passengers does not include diet, but they can be dieted on board as per scale in possession of the Steward.

One child under three years of age, if with the parent, free. When more than one, each child additional will be charged one-quarter fare. Children of three and upwards to ten years, half fare. Children are not allowed in Cabin unless accompanied by an adult Cabin Passenger.

Passengers are strictly prohibited carrying Gunpowder, Sulphuric or other Acid, or any material which might occasion accidents on board the Steamers.

Passengers must comply with the Regulations established on board for general comfort and safety.

Baggage.

Each adult Cabin Passenger is allowed 3 cwt. of personal baggage. Any baggage in excess will be charged as Cargo rates with 25 per cent. added.

Packages containing Jewellery, Plate, or other valuables must be specially booked, and freight paid thereon.

European servants, and children over three years of age, are allowed 168 lb. of personal baggage. Deck passengers allowed 56 lbs. each.

Passengers are requested to note that the Company will not be responsible for any loss or damage to baggage or property under the former's charge.

Freight.

All packages shipped on board the Company's Steamers must be well packed, have a distinctive mark in English, and the port of destination also inscribed on each in English.

Although the Company's Steamers for the most part trade to free ports, all packages shipped on board must be accompanied by a registered Customs House Pass. Non-compliance with this Regulation will subject shippers to detention in having their goods put on board till a Pass from the Customs House is obtained.

Freight on all packages must be prepaid at port of shipment.

The Company reserve to themselves the liberty to charge by weight, measurement, or value, and are not accountable for leakage, or for breakage or damage arising from insufficiency of address or packing; nor for damage, leakage, or breakage to re-exported goods.

For general facility, the Company reserve to themselves the power of landing cargo at the ports of delivery in their own or hired boats, and when landed, to deposit the same on wharf, in receiving vessel, or in store: charging consignees with the expense of landing and storing, according to a scale of rates to be seen at the Offices of the Agents. Goods so landed to be at risk of consignees after being discharged from the Steamer.

The Company do not guarantee that the Steamers shall have room at ports of transshipment, nor that there shall be no delay there.

The correct contents of all packages must be stated in Bills of Lading. Packages containing Gunpowder, Sulphuric Acid, or any other material which might occasion accident, are strictly prohibited from being shipped on board the Steamers.

Packages weighing more than 3 cwt. (excepting bales and boxes of manufactured goods) are only carried at advanced rates of freight, and by special agreement.

When, owing to heavy weather or other causes, goods cannot be safely landed at their destination within the time stipulated for stoppage at such port in the Company's Mail Contract with Government, the Company reserve to themselves the right to convey them to the next port on the voyage or to the final port of call, to be returned thence by one of the Company's Steamers having space, at the Company's expense and Merchants' risk; and the consignee cannot claim indemnity for such delay nor the consequences thereof.

A written declaration of the contents and value of goods is required by the Company, and must be delivered by the shipper to the Company's Agent with the Bill of Lading. A wrong description of contents or false declaration of value shall release the Company from all responsibility in case of loss, seizure, or detention, and the goods shall be charged double freight on the real value, which freight shall be paid previous to delivery.

In case of quarantine, the goods may be discharged at risk of the Owners of the goods into quarantine depot, lighter, barge, dock or other vessel, as required for the ship's despatch. Quarantine expenses upon the goods, of whatever nature or kind, shall be borne by the owners of the goods.

The Company will not be liable for any single package of cargo beyond the value of Five Hundred Rupees, unless additional freight at half special rates has been paid on value above Five Hundred Rupees, and in all cases where claims are made, proof of loss must be furnished.

Specie, precious stones, jewellery, plated ware, and other valuables will not be landed by the Company. It can only be delivered on presentation of Bill of Lading on board, and will be carried on at consignee's risk if delivery is not taken during the Steamer's stay in port.

Goods must be alongside at least 24 hours before the advertised hour of departure, and shippers are requested to see that their receipts for same are in order before leaving the vessel. Most of the mistakes made arise through shippers sending their goods at the last moment.

Bills of Lading are only signed on the Company's forms, which may be had of the Agents at the several ports for the steamers only. These must be presented and delivered up, cancelled, before delivery of goods can be granted.

Single packages and parcels, not exceeding 2 feet in measurement, are charged Rs. 2-8 under 1,000 miles; under 2,000 miles, Rs. 5; over that distance, Rs. 10.

Horses, Cattle, &c.

Carriages are conveyed by special agreement, and on deck at Shippers' risk.

The rates of conveyance for animals are exclusive of food, and all animals are carried on deck at shippers' risk.

The charge for conveyance of horses includes passage of a syce in attendance on each horse, and space for fodder, which must be provided by the owner.

Horse boxes are not provided by the Company.

Shippers of horses are recommended to remove the shoes, and to provide coir matting for the animals to stand on, to prevent them slipping with the motion of the vessel.

This Company has been incorporated for the purpose of connecting the town of Pondicherry with a branch of the South Indian Railway from Villupuram to the Gingee river, that river being the boundary between the English and French territory. The necessary arrangements having been completed with the French Government and a Convention having been signed at Paris, the construction of the Pondicherry Railway (which for its entire length, about 8 miles, is to traverse French territory) will be speedily commenced. As there are no special difficulties, and no heavy works, the completion of the undertaking may be expected at an early date. There will be two stations, one at Villenour, and the other (the terminus) at Pondicherry. The surf is not so violent at Pondicherry as at other places on the coast, and as an iron pier of a serviceable character has been erected in a central position near the Customs House and offices of the principal merchants, this important town now that it is to be placed in direct railway communication with all parts of India, will possess considerable advantages for the exportation and importation of merchandize, the more especially as the site of the terminus is in close proximity to the beach as well as to the European and mercantile quarter.

This Company has been incorporated under a special Act of Parliament (37 and 38 Victoria, Session 1874) and is formed by the amalgamation of the Great Southern of India Railway Company and the Carnatic Railway Company. The object of the S. I. R. is to provide communication between Madras and the provinces of Southern India lying to the south of the existing Madras Railway. Starting from the People's Park at Madras (Cochin's Canal) the line passes through Egmore, Chetput, Saidapet, Saint Thomas' Mount Cantonment, Palaveram, Chingleput, Villupuram, from whence there will be a branch to the Gingee river and Pondicherry, Cuddalore, Porto Novo, Combaconam, Tanjore, (from which town there is a branch to Negapatam), Trichinopoly from whence a branch extends to Kallar and Erode, Dindigul, Madurai, Maniyachi, (from whence a branch is open to Tinnevely), Thattaparai, and Tuticorin. At present an outlying portion of the South Indian Railway system connects Conjeeveram with Arkenam, and the provision of a branch line from Chingleput through Wallajahabad to Conjeeveram, for the purpose of completing the link now wanting between this outlying portion of the Company's system and the main line from Madras to the south, is under consideration.

The whole of the Company's lines (with the temporary exception of the branch from Trichinopoly to Erode) is constructed on the metre gauge (3 feet 3 inches), and when the Erode branch has been altered to this gauge, which has been determined on, the South Indian Railway will consist of about 670 miles of metre-gauge line, and will thus form the longest continuous route in India constructed on this principle.

The construction of a branch from Villupuram (South Arcot District) to the Gingee river will be speedily commenced by the South Indian Railway Company, the line being continued from the river into the town of Pondicherry by the Pondicherry Railway Company.

A gap (practically of little importance to travellers) in the construction of the South Indian Railway main line now exists (1878) at the Coleroon river, where a bridge, which has made great progress towards completion, remains to be finished. The opening of the bridge will probably take place in 1879. On that occurrence trains will run continuously from Madras to Tanjore, Trichinopoly, Madurai, Tinnevely, and Tuticorin.

TABLES OF COINS, WEIGHTS AND MEASURES.

(INDIAN.)

MONEY.

Silver is the legally constituted medium of exchange in all money transactions throughout the British Indian possessions. Gold Coin was intended to be a legal tender at a fixed value of 16 Rupees for the Gold Mohur of Calcutta and 15 Rupees for the Gold Rupee of Madras and Bombay; but it is not demandable in payment and is left to find its current value in the market. In 1841 officers in charge of public treasuries were authorized to receive gold coins struck in conformity with the provisions of Act XVII of 1835, establishing the 15 Rupee piece, but in 1852 when the gold from California and Australia began to pour their treasures over the globe and in apprehension that India would be inundated with gold, the proclamation of 1841 was rescinded and gold debarr'd from entrance into any of the treasuries. Since then the sovereign has been made a legal tender for 10 Rupees.

8 Pie = 1 Paisa or $\frac{1}{4}$ Anna	=	4 s. d.

WEIGHTS AND MEASURES.

The origin of all *Weights and Measures* in England was derived from a grain of wheat; 32 of them, well dried and gathered from the middle of the ear, were to make one pennyweight; 20 dwts. 1 ounce; and 20 oz. 1 pound. It was subsequently thought better to divide the *pennyweight* into 24 equal parts, called *grains*.

William the Conqueror introduced into England what was called Troy Weight, from Troyes, a town in the province of Champagne, in France, now in the department of Aube, where a celebrated fair was held. The English were dissatisfied with this weight, because the pound did not weigh so much as the pound in use at that time in England. Hence arose the terms *avoir du poids*, which was a medium between the French and the ancient English weights.

Avoirdupois Weight was first made legal in the reign of Henry VII. and its particular use was to weigh provisions and coarse heavy articles. Henry fixed the stone at 14 lbs., which has been confirmed by a recent Act of Parliament.

With respect to Measures of Length, it is recorded that the various denominations were constructed from a *corn of barley*, 3 of which, well dried from the middle of the ear, made an inch. Other terms were taken from portions of the human body—such as the *digit* (¼ of an inch, or a finger's breadth), a *palm* (3 inches), a *hand* (4 inches), a *span* (9 inches), a *foot* (12 inches), and a *cubit* (18 inches), being the length of the arm or bone from the elbow to the wrist. A *pace* (5 feet), or two ordinary steps; a *fathom* (6 feet), from the extremity of one hand to that of the other, the arms oppositely extended. It is stated that Henry I. in 1101, commanded that the *ulna*, or ancient ell, which answers to the modern yard, should be made the length of his arm; and that the other measures of length were thence derived, whether *linear*, *superficial* or *solid*.

The *restored standard of Linear Measure*, whose length is called a yard is a solid square bar 35 inches long, and one inch square in transverse section, the bar being of bronze or gun-metal, at the temperature of 62° of Fahrenheit's thermometer, marked copper 16 oz., 11 2½ oz., zinc 1 oz.; and near to each end a cylindrical hole is sunk to the depth of half an inch; the distance between the centres of the two holes being 3 feet or 36 inches, or 1 imperial standard yard. The standard square and cubic measures will therefore depend entirely upon it.

All Measures of Capacity were first taken from Troy Weight, and several laws were passed in the reign of Henry III. enacting that 8 lb. Troy of wheat, taken from the middle of the ear and well dried, should make 1 gallon of Wine Measure, and 8 such gallons make a bushel.

The carat is divided into grains, and the grains into quarters, thus:—

	lb.	oz.	dwt.	gr.		dwt.	gr.
24 carats make	1	0	0	0	1 grain or ¼ carat make	2	10
2 carats " "	0	0	20	0	1 quart. of a grain " "	0	15
" " " "	0	0	10	0			

TROY WEIGHT.

24 grains	make 1 pennyweight (dwt.)
20 pennyweights	" 1 ounce (oz.)
12 ounces	" 1 pound (lb.)

By this weight gold, silver, jewels, and precious stones are weighed. It is also used in ascertaining the strength of spirituous liquors, and in experiments in natural philosophy, though the weights for this latter purpose are generally constructed in decimals from 10,000 grains to the one-hundredth part of a grain; it is used to compare the different weights with each other. The weighing of diamonds is an exception in jewellery; they are weighed by the carat, which is four grains.

14 oz., 11 dwt. 16 grs. Troy, are equal to a pound avoirdupois; or a pound Troy bears nearly the same proportion to a pound avoirdupois as 14 to 17 or 5,760 grains are a Troy pound, and 7,000 such grains are a pound avoirdupois. This standard was adopted as being the weight of a cubical inch of distilled water, which was found to weigh by Fahrenheit's thermometer (the barometer being at thirty-six inches), 252 grains, 458 thousandth part of a grain.

AVOIRDUPOIS WEIGHT.

16 drachma	make 1 ounce (oz.)	28 pounds	make 1 quarter (qr.)
16 ounces	" 1 pound (lb.)	4 qrs. or 112 lb.	" 1 hundred wt. (cwt.)
14 pounds	" 1 stone (st.)	20 cwt.	" 1 ton (ton.)

By this weight are weighed all articles sold by weight, excepting gold, silver, platinum, diamonds, and other precious stones, and drugs when sold by retail.

The sign *lb. libra*, a pound could never have an *s* after it, the plural being *librae*.

A line is the 12th part of an inch.

The Scotch and Irish miles are about 1½ English.

The hand is rarely used except in the measurement of horses; and the fathoms in sounding the depth of the ocean or of miles. The navy long-line is 48 feet long.

N. B.—The square of a number is obtained by multiplying the number by itself as $12 \times 12 = 144$, the square of 12.

By this measure all things that have length and breadth are measured.

Land is measured by *Gunter's Chain*; which is as follows:—

Length.	make	Square.
792 inches	make 1 link.	62,726 sq. inches
12 inches, or 1,515 links	" 1 foot.	2,295 sq. links

CUBIC OR SOLID MEASURE.

1,728 inches	make 1 solid foot.
27 feet	" 1 solid yard.
40 feet of rough, or 50 feet of hewn timber	" 1 ton or load.
42 feet	" 1 ton of shipping.
1 yard of earth	" 1 load.

The dimensions of timber, stones, excavations, and all works which have length, breadth and thickness, are taken by lineal measure; but the contents are calculated by cubic measure.

A Cube is a solid body, and contains length, breadth and thickness. A cubic number is produced by multiplying the simple number twice into itself; thus 343 is a cubic number, being produced by multiplying the number 7 twice into itself; as $7 \times 7 \times 7 = 343$.

ARTIFICERS' TABLES AND CALCULATIONS.

400 do. 1½ inch ditto	
300 do. 2 inch ditto	
240 do. 2½ inch ditto	
200 do. 3 inch ditto	
170 do. 3½ inch ditto	}
150 do. 4 inch ditto	

30 deals 12 feet long, 3 inches thick, 9 inches wide, 5½ loads.

1 ditto contains 2 feet 3 inches cubic.

A batten is from 2 to 8 inches broad, and from ½ to 1½ inch thick.

A deal is above 7 inches wide.

A plank is 11 inches wide, or above.

120 deals are 1 hundred.

TO MEASURE PIPES, TANKS, &c.

The following is a rough-and-ready way to find the contents of circular tanks, wells and pipes:—

Square the diameter in inches, and cut off the right-hand figure as a decimal, and the result will be gallons in each 3 feet (yard) of depth,—or length, if a pipe; as,—

Diameter	Inches.	Square.	Gallons
2	2 × 2 =	4 or	0.4
6	6 × 6 =	36 or	3.6
12	12 × 12 =	144 or	14.4
WELL OR TANK.			
36	36 × 36 =	1,296 or	129.6
100	100 × 100 =	10,000 or	1,000.0

TO FIND THE CONTENTS OF A BARREL.

If the diameter is equal everywhere—Multiply the square of the diameter in inches by the depth, and divide the product by 359. Thus a barrel with the diameter of 86 inches, and 50 inches deep; $86 \times 86 \times 50 = 64,500 \div 359 = 180\frac{1}{2}$ old measure = 189½ Imperial gallons. If the centre or bung diameter is larger than the ends—First square the centre diameter in inches; and then multiply it by 2, to which add the square of the diameter of the end; then multiply this by the length of the cask and divide by 1,077. Thus a barrel with a centre diameter of 28 inches, end 25 inches and length 36 inches: $28 \times 28 \times 2 = 1,568 + 625 (25 + 25) = 3,163 \times 36 = 78,948 \div 1,077 = 73$ old measure = 74½ Imperial gallons.

TO MEASURE TIMBER.

In order to ascertain the contents of unsquared timber, multiply the square of the quarter girth, or of ¼ of the mean circumference, by the length. When the buyer is not allowed his choice of girth in taper trees, he may take the mean dimensions, either by girthing it in the middle for the mean girth, or by girthing it at the two ends, and taking half of their sum. If not, girth the tree in so many places as is thought necessary, then the sum of the several girths divided by their number, will give a mean circumference, the fourth part of which being squared, and multiplied by the length, will give the solid contents.

The superficial feet in a board or plank is known by multiplying the length by the breadth. If the board be tapering, add the breadth of the two ends together, and take half their sum for the mean breadth, with which multiply the length.

The solid contents of squared timber are found by measuring the mean breadth by the mean thickness, and the product again by the length. Or multiply the square of what is called the quarter girth, in inches by the length in feet, and divide by 144, and you have the contents in feet.

1.—When Government 4 per cent. Securities sell at 76, what are the equivalent values of the 5 and 5½ per cent. loans?

In the table opposite 76 in the first column are 95, the value of 5 per cent. loan, and 104½ the value of 5½ per cent. loan—the interest in all the three cases being 5-263 or 55-19 per cent.

2.—At what price should I purchase 4 per cents. to obtain 5½ per cent. for my money?

In the fourth column opposite 5½ or 5-5 in the column for 4 per cent. stands 72-727 or 728-11 the price required.

3.—What would I gain, by selling out Rs. 10,000, 5 per cent. Government loans at 104 and purchasing 5½ per cent. at 112?

In the third column opposite 104 in the 2nd, is..... 114-4
112

Gain on Rs. 100 of Capital 2-4

And in the fourth column opposite 112 in the 3rd, is 4-911 per cent.

" " " 104 " 2nd, 4-808 " "

Difference, or gain, per cent. per annum on Capital 0-103 " or fully 1-10 per cent. being Rs. 10 5a. on every Rs. 1,000 is invested.

4.—To find the equivalent values of four and 5½ per cent. Securities when 5 per cents. are selling at 103½, or Rs. 103 8a.

Opposite 103 in the second column, are 84-4 and 113-3 in the 1st and 3rd, and among the 'proportional parts' corresponding to 375 or 6a. in the 5 per cent. column are 0-3 R. in the 4 per cent. and 413 in the 5½ per cent. column.

Hence 82-4 + 3 = 82-7, the equivalent price of 4 per cent., and 113-3 + 413 = Rs. 113-713, or Rupees 113, 11a. 5p. the equivalent price of 5½ per cents.

CHAPLAIN'S REGISTER OF HIS VISITS AND SERVICES IN HOSPITAL.

Fort St. George, 31st October 1863, No. 87.—Government having directed that the following Rules are to be observed in every Military Hospital, they are published accordingly for general information:—

I. A book shall be placed in every European Military Hospital to be entitled "The Chaplain's Register of his visits and services in the Hospital."

II. This book is to be provided by the Chaplain, and each visit and service performed at the Hospital is to be entered in it.

III. It is to be kept for the information of the Bishop, and is to be open to the inspection of the Military and Hospital authorities.

IV. It is not to be removed from the Hospital, the Medical Officer in charge is to arrange for its safe custody and production when required by the Chaplain or for inspection.

CHAPLAINS' VISITS TO OUT-STATIONS.

Extracts from Court's Despatch, 12th April 1842.

"Section 27 of the Regulations respecting leave of absence and deputation and travelling allowances which we have recently approved, you will find a Rule on the subject of travelling allowances on joining a station, and when any change takes place except at the desire of the Chaplain or Assistant Chaplain.

3. But to avoid inconvenience and guard against the possibility of misunderstanding we think it desirable that for every circle of stations, the Lord Bishop should be requested to frame a plan determining the periods at which each place shall be visited by the Chaplain or Assistant Chaplain officiating in such circle, which plan being approved by Government shall continue in force till varied by the same authority. As minute local information will be necessary to the successful formation of such plan, we can only offer a few suggestions on the subject. The frequency of Ecclesiastical visits should be governed in a great degree by the extent of the Christian population of the place to be visited. A place may contain not more than three or four members of the English Church, and though it might not be right to exclude those few persons from the benefit of Christian ordinances, it is obvious that in the present state of our Ecclesiastical Establishment such a place could not be visited frequently without injury to others of greater importance. An annual visit might in some cases be all that could reasonably be afforded; while to others, visits twice, three or four times a year, might be expedient; and to others again, which might be more populous, it might be desirable that visits should be made once in six weeks, or once a month.

4. When a circle of Stations may, from the deficiency of our Establishment, or any other cause, be left without a resident Clergyman, we are of opinion that the Chaplain or Assistant Chaplain of a neighbouring district should, as desired by the Lord Bishop, be appointed to visit the Station thus deprived of clerical services. In such cases the most convenient course will be for the Lord Bishop to bring the subject to the notice of Government, and submit a plan of visitation. Such plan being approved, the Chaplain or Assistant Chaplain who can most conveniently discharge the required duty, should be specially appointed thereto, and thenceforward be entitled to draw travelling allowances in conformity with the provisions of the plan, and in accordance with our Financial Despatch of the 30th October 1839.

5. We should lament that the practice of visiting Stations at which no Clergyman is permanently resident should be discontinued, and it would be unjust to subject the Clergy to the expense attendant on such visits. Under these impressions we deem it proper to sanction the payment of such reasonable charges not exceeding those authorized in our Despatch of the 30th October 1839, before referred to, and we are encouraged in this view by the fact that although Chaplains and Assistant Chaplains when absent from their duty are subject to the same deductions as Civil Servants, no charge is incurred in providing for the duty of the absentees. The deductions may thus be regarded as a fund meeting to a certain extent the extra charges incurred by occasional or provisional visits of the Clergy to Stations in which they do not reside."

The revised Plan, determining the Circle of Out-stations for the several Chaplaincies under this Presidency, is published for general information in lieu of the one sanctioned under date 19th October 1852.

RULES RELATING TO BURIAL GROUNDS FOR THE DIOCESE OF MADRAS.

PORT ST. GEORGE, 29th October, 1866.

I. The Chaplain of the Station shall have the care of the General Cemetery. It shall be his duty to apply to the proper Officer, when the walls want repairing; to see that weeds, grass, or jungle be cleared away, and the remains of dilapidated tombs be removed, and that the Cemetery be kept in proper order.

In the absence of the Chaplain, the Lay Trustees shall have the care of the Cemetery.

N. B.—These Rules apply in places where there is no Chaplain, to Ministers of the Additional Clergy Society, and to any other Clergymen who are appointed to the charge of English Congregations, and are in receipt of part of their salary from Government.

II. The Sexton or Lascar in charge of the Cemetery, shall be borne on the Church Establishment, and shall be paid by Government through the Chaplains, with whom the appointment and dismissal of this servant shall rest.

III. In every station, a portion of the Cemetery shall be set apart for the use of members of the Roman Catholic congregation. For the use of any body or bodies of Christians at such station, not being members of the Church of England, nor of the Church of Rome, another portion of the Cemetery shall be appropriated, should they desire it, for the sole use of such congregation, or for the joint use of such congregations. The portions thus set apart shall not be fenced or walled off, but simply divided by a pathway, from the rest of the Cemetery, and shall be added to, or reserved from, the existing Cemetery according as such Cemetery has, or has not, been consecrated according to the rites of the Church of England. The whole Cemetery thus divided shall be surrounded by a wall, and shall have but one gate of entrance. The entire Cemetery shall be under the care of the Chaplain, for the purposes specified in Rule I. The key shall be kept by the Sexton or Lascar acting under the Chaplain's directions, so that access to the ground may be had by those having a right thereto, easily and without delay.

IV. The Chaplain shall provide that one or more graves be kept ready for cases of sudden emergency; such graves shall be covered with planks or boards. No grave shall be less than six feet deep.

V. A scale of charges for ordinary masonry-graves, headstones, and tombs, to be submitted by the Undertakers at each station, and approved by the Chaplain and District Engineer, shall be affixed to the Cemetery gate, or to the wall of the Church Porch, or exhibited in some other suitable place.

VI. Inscriptions intended for monuments to be placed in that portion of the Cemetery devoted to the Church of England, and for tablets to be placed in Churches shall be submitted to the Chaplain for approval; if not approved, such inscriptions shall not be allowed to be engraved on such monuments or tablets. But any party considering himself aggrieved by the Chaplain's decisions, may appeal to the Bishop.

VII. Stone or brick monuments shall not be placed over any but masonry graves; such monuments, unless built over masonry work, are liable to fall in during the rains. Brick monuments are to be discouraged, as they soon fall into decay in this climate.

VIII. The dimensions of no monuments shall be allowed to exceed nine feet in length, and four and a half feet in width. In special cases, where more space is desired, a fee calculated at the rate of Rupees 3 for every square foot, shall be charged by the Chaplain. The sum collected shall be placed to the credit of the Fund for improving the Burial Ground, and repairing the monuments in it and the Church.

IX. The Chaplain shall communicate with the friends of the deceased when a monument requires repair. Should a monument fall into a ruined condition, and no one be willing to undertake its restoration, the ruined monument shall be made level with the ground, and any slab it may have contained shall be placed over the grave.

X. Every reasonable effort shall be made by the Chaplain, not only to keep the Cemetery in decent order, but to preserve the sacred associations of the place, by suggesting appropriate designs for monuments, and by planting the ground with suitable trees. The money obtained by the sale of the grass, and the fees abovementioned, shall be laid out in the improvement of the Cemetery.

XI. The Cemetery shall be inspected once a year by the Chaplain, in company with the Executive Engineer, and a report made to the Archdeacon; such reports shall be recorded in the Ecclesiastical Record Book of the station, and also in the Engineer's Office.

XII. The Collector, or one of his Assistants, shall annually, or as occasion may require, visit all Cemeteries in his District, as well as those disused as those still in use, and shall make suggestions to the Clergymen or Lay Trustees in charge, and, if necessary, shall make a brief report to the Government or Archdeacon, regarding the condition of such Cemeteries.

XIII. Officers Commanding Regiments or Detachments shall cause a report to be made to the nearest Civil Officer of graves dug for Commissioned Officers, for Non-Commissioned Officers and Soldiers dying on the line of march, in order that measures may be taken for the effectual protection and preservation of such graves.

XIV. At stations where there is no Chaplain or other Clergyman in the pay of Government, the Lay Trustees will perform all the duties assigned to the Chaplain by these rules, with the exception of the approval of the inscriptions, which are to be forwarded to the Chaplain of the station or, during a vacancy, to the Archdeacon; such inscriptions shall not be engraved till the sanction of the Chaplain or Archdeacon is obtained. The Lay Trustees in stations where there is no Chaplain, shall place the key of the Cemetery at the disposal of the visiting Chaplain, on the occasion of that Minister's periodical visits to his out-stations. In the absence of a Clergyman of the Church of England, one of the Lay Trustees, or some Officer appointed by him, shall read the burial service at the interment of all persons entitled to burial according to the rites and ceremonies of the Church of England, and shall forward a return of the same, in duplicate, by the first post, one copy to the Registrar of the Diocese, Madras, and the other to be deposited in the Office of the Collector of the District. Forms can be obtained by application at the Office of the Diocesan Registrar, Madras.

CHURCHES AND CHAPELS.

The following P. W. D. Standing Order, No. 37 of 1865, regarding the expenditure of public money on Churches and Chapels in Military and Civil stations, is, we learn, to be considered applicable to the Madras Presidency:—

Churches and Chapels in Military and Civil Stations.

The following general principles and rules regarding the expenditure of public money on Churches and Chapels are published for general information, and must be strictly adhered to by local Governments and Administrations in considering proposals for such works, and in according sanction to them:—

I. In the case of purely Military stations, where there is no European population excepting the troops, such as the Hill Sanitaria at Dugshai or Subathoo, &c., applications for Protestant Churches, will not, as a rule, be entertained by the Government, and a Regimental School-room or other large suitable building should be made available for Divine worship.

II. Where, however, a Military station is of a permanent character, and there is also a Civil European community, Protestant Churches are desirable, and will be constructed by the Government.

III. Roman Catholic Chapels will be provided by the Government to the extent required for troops in those Military stations in which sanction is accorded to the erection of Protestant Churches.

IV.—The amount of Government Grant for a Protestant Church, will, in no case, exceed such a sum as will suffice to provide a plain substantial building adapted to its special purposes and large enough to contain the whole congregation which may ordinarily be expected to attend together, with such plain furniture as is essentially necessary for the proper performance of the service according to the ritual of the Church of England. It will rest with private individuals to furnish the means of imparting ecclesiastical features, and architectural decorations to the building, should they desire it, and also of supplying additional furniture, or furniture of a more costly description and means of lighting.

V. The same principles with regard to the extent of accommodation and amount of the Government Grants will hold good in the case of Roman Catholic Chapels.

VI.—At the chief Civil station of a district, the Government will be ready to provide a small Protestant Church, on a scale commensurate with the probable congregation to be accommodated, whenever the community of the station is willing to bear a portion of the expense, the share taken by the Government being calculated on the principle above laid down, viz., that the Government will provide the cost of the solid and essential parts of the fabric, while it shall rest with the community to supply the means of giving to the building the special architectural character and the distinguishing features of ecclesiastical form, which it is desirable Churches should possess.

VII.—The following sums are fixed as sufficient to provide places of worship on the above principles for the various details of troops and for Civil stations. The scale of size for Military stations, and of expense for all Churches or Chapels, now laid down, are in no case to be exceeded without a reference to the Government of India, even though the proposed expenditure may be within the power of sanction, vested in the Local Government or Administration.

RULES RELATING TO THE OFFICE AND DUTIES OF LAY TRUSTEES IN THE DIOCESE OF MADRAS.

FORT ST. GEORGE, 23rd October, 1867.

I. Two Lay Trustees are appointed to each Chaplaincy or station where there is property belonging to or held in trust for the Church of England.

II. At Civil stations, or Joint Civil and Military stations, the Senior Civil Servant should be appointed a Trustee, provided that he is a communicant of the Church of England, and has no objection to hold the office. At Military stations the Officer Commanding the Cantonment or Garrison under the same provisos. When these Officers are unwilling to hold the office the officer next in seniority (Civil or Military as the case may be), if qualified as above, should be nominated.

III. The second Trustee may be any communicant resident at the station, nominated by the Chaplain, and approved by the Bishop.

IV. When the office of either Trustee is vacant, the Chaplain should report the circumstances to the Lord Bishop, for the information of Government, and at the same time nominate a duly qualified person to fill the vacancy.

V. The duties of the Trustees are in many respects similar to those of Church Wardens in England. They are appointed to see that the Church and Churchyard or Cemetery* are kept in good order and repair, to provide for the preservation of the property belonging to the Church, to present to the Bishop or Archdeacon, either on their visitation or immediately by letter, whatever is wrong or irregular on the part either of the Chaplain or the congregation, and to aid and assist the Chaplain in the performance of his duties.

VI. During the absence of the Chaplain or other licensed Clergymen, one of the Lay Trustees is, in ordinary cases, the proper person to read the Service and a sermon on Sundays, and to take charge of the Register and other books connected with the Chaplaincy.

N. B.—It is to be borne in mind that Lay Trustees have no power to interfere in the administration of Divine Service, but merely to represent to the Ecclesiastical authorities whatever they may deem objectionable. Their office in this respect is one of observation and complaint, not of control.

VII. The Lay Trustees, in conjunction with the Chaplain or Minister, form a Committee of Management on all Church matters, and should meet for business once in each month, or oftener, if necessary. The assignment of seats in Church and (in places where they are authorised) the collection and disbursement of pew rents, the management of school and charity funds, should be supervised and arranged by the Committee at their Meetings.

VIII. All indent, letters, proceedings and other papers emanating from a Church Committee, are to be signed by both the Lay Trustees (unless for special reasons which are always to be assigned), as well as by the Chaplain; and all indent, letters, &c., received or sent, are to be entered in a correspondence book distinct from that of the Chaplain, and should be produced for examination at Meetings of the Committee.

IX. The Chaplain or Officiating Chaplain or Minister present, as a mark of respect due to religion in the person of its Minister, presides at all Meetings of the Committee of Management and signs proceedings and letters as President, and the two Lay Trustees in the order of their relative rank.

X. The Church Committee are responsible that no alteration is made whatever in the Church or Churchyard without representing the matter to the Archdeacon, who will, except in matters of trifling importance, bring it before Government for their sanction.

XI. When any addition, alteration, or improvement to a Church or other Ecclesiastical building is considered necessary, or when any new building is required, the subject should be brought with full explanation to the notice of the Bishop, who, if approved by him, requests the Archdeacon to submit the same for the consideration and orders of Government, on whose approval the necessary plans and estimates (if not previously furnished) are called for from the Public Works Department.

XII. All ordinary repairs to Ecclesiastical buildings in the provinces, the cost of which does not exceed Rupees 50, are effected, and all trifling articles within the same limit are supplied on the direct application of the Church Committee in the provinces by the District Executive Engineer, and at the Presidency by the Barrack Master. Contingent charges for the supply of matting, blinds, and other articles of a similar kind necessary for each Chaplaincy, not exceeding 50 Rupees per annum, will be entered in a Contingent Bill, which should be submitted for the approval of the Archdeacon.

Rules in regard to the Levy of Ecclesiastical Fees.

ECCLESIASTICAL, Simla, the 20th September, 1869, No. 482.—The following amended Rules for the levy of Ecclesiastical fees throughout India, which have been framed by His Excellency the Governor-General in Council, are published for general information in supersession of the Rules which appeared under Notification, No. 548, dated the 18th September, 1868:—

I.—No fees are charged for the performance of the rite of baptism or burial, or for the registration of the performance of those offices.

II.—In addition to the fee for the Surrogate's license, a fee of Rs. 10 shall be charged on all marriages by license, except the marriages of Officers and others in the Military or Naval Service of Her Majesty.

III.—The fee for the Surrogate's license shall be Rs. 50 both at the Presidency Towns and in the interior. No fee will be charged on marriages by banns.

IV.—When registers are searched and copy of any entry given, a fee of one Rupee shall be charged for the first year,* and four Annas for every additional year over which the search may extend, as well as a fee of one Rupee for the certificate. Soldiers, Sailors and Non-Commissioned and petty Officers are exempted from payment.

V.—A fee of eight Annas for every square foot of ground occupied shall be charged for the construction of any masonry grave in a burial ground.

VI.—A further fee of one Rupee per square foot shall be levied on the erection of a monument in a burial ground: provided, however, that for a simple headstone or flat slab of the size of an ordinary headstone, an uniform fee of Rs. 15 only shall be charged. A fee of Rs. 75 shall be levied on a faculty for the erection of a monument in a Church.

VII.—The fees levied on the construction of masonry graves and the erection of monuments shall form a fund for keeping the burial ground and Church compound in order except in Calcutta, Madras and Bombay, where they will be credited to Government.

VIII.—British Soldiers and Non-Commissioned Officers are exempted, with retrospective effect, from the payment of any fee for the construction of masonry graves, or for the erection of monuments in burial grounds to the memory of their comrades, wives or children. No monument, however, either regimental or private, shall exceed six square feet, and no masonry grave shall occupy more ground than an area of eight feet by four. The simple stone slab or headstone should be generally adopted.

IX.—The Chaplain may at his discretion reduce, or altogether remit in cases of extreme poverty, the fee for searching registers and making copies, as well as the fee leviable on the construction of masonry graves, but not for the erection of monuments.

X.—The fees prescribed in these Rules should be paid to the Chaplain, or, in the absence of the Chaplain, to the Officer in charge of the burial ground, and shall be duly accounted for.

All fees levied for masonry graves and for cemetery monuments and all other receipts for cemeteries will now be placed at the disposal of the Provincial Governments who will take them as an asset simply with the gross, and will provide per contra in their budgets under the heads "Department Public Works" and "Civil" (Ecclesiastical) respectively, for such repairs as are to be done by the Chaplains or other Officers in charge of cemeteries as laid down in the Resolution of the Financial Department, No. 3015, dated 8th September, 1870.

Letter from the Officiating Under-Secretary to the Government of India, Home Department, (Ecclesiastical), to the Secretary to Government, Fort St. George, dated Simla, 8th July, 1872 No. 165.

"The Lord Bishop of Calcutta having brought to notice that difficulty is occasionally experienced by Chaplains in collecting fees, under existing rules, on monuments and masonry graves, the Governor-General in Council considers that in all cases where such difficulty arises the duty of collection should be made over by the Chaplain to the Magistrate or Deputy Commissioner in charge of the district in which the burial ground may be situated; and I am to request that, with the permission of His Excellency the Governor in Council, instructions may be issued to the District Officers accordingly."

Orders for the performance of Funeral Rites on verdicts of Coroner's Inquests.

NOTIFICATION.—Fort Saint George Gazette, June, 11, 1850, page 623.

The Right Honorable the Governor in Council is pleased to rescind the Order of Government of 5th April, 1842, which directs a copy of the verdict of the Coroner's Inquest to be furnished, when practicable, to the Clergyman who is to officiate at the interment of a body on which an inquest may have been held, and the Reverend Chaplains will in future consider the warrant of the Coroner for the interment of a body on which an inquest has been held to be a sufficient authority for their performance of the Burial Service over it, if it would be their duty, under ordinary circumstances, to perform that service.

2. In the provinces where no Coroner's jurisdiction exists, the same course will be observed by the authorities appointed to enquire into the causes of sudden death, and the same difference will be paid by the Clergymen to their certificates of Warrant.

Parties desirous of being married should apply direct to some Surrogate residing near them; but from places where there is no Surrogate, application should be made to the Registrar, who will procure a commission under the Episcopal Seal, authorizing some persons to administer the nuptial oath and grant the necessary license. None but a Clergyman of the Church of England can marry by virtue of Episcopal license. Parties who cannot on account of distance obtain the services of a Clergyman to marry them must state the fact, and apply to the Brigade Major, Fort Saint George, who will obtain the permission of the Right Honorable the Governor for their marriage under which the Senior Judicial Officer of any station is authorized by Government to marry them.

In the case of a minor in H. M.'s or the Honorable Company's Service, the written consent of the Governor must be obtained previous to the publication of Banns, or the grant of a license.

Further information respecting marriages can be obtained on application to the Registrar of the Diocese, F. Rowlandson, Esq., B.A., LL.B.

Instructions for the Guidance of Surrogates in administering Oaths and granting Marriage Licenses within the Diocese and Archdeaconry of Madras.

1. The Surrogate will use great caution in examining the parties to be sworn filling up the Forms with the names, rank, and places of residence, and dates at full length.

2. In no case is a License to issue unless the parties are sworn before the Surrogate, and in case of doubt or difficulty the Surrogate will refer to the Registrar as recommended in the Surrogate's appointment.

3. In case the lady to be married has been divorced, the License should issue in her maiden name.

4. In case the party to be married is a minor, consent of the father if living must be obtained, or if the father be dead, the guardian of the person of such minor, and in case there be no such guardian, then the mother of such minor may give consent, unless no person authorized to give such consent be resident in India.

5. In case the party to be married is a minor, either in the Civil or Military Service, and without possessing either parents or guardian in this country, the consent of the Governor of Madras must be obtained by the minor to his marrying under age, unless the proper consent can be shown to be already given on the part of the absent parents or guardians to his marrying as a minor, in which case the consent of the Governor of Madras need not be obtained.

6. If the parties to be married are both of full age (twenty-one years), and both of them are to be sworn, the Surrogate will use No. 1 Form; but if one of the parties is prevented from attending and another person joins in the Affidavit on behalf of the party not present, No. 2 is in such case to be used instead of No. 1.

7. If one of the parties only is of full age (namely, twenty-one years), and the other is under that age, and the parent, next friend, or guardian makes oath on the part of the minor as to age and consent, the Surrogate will use No. 3 Form.

8. If both the parties are minors (under the age of twenty-one years) and the respective parents, next friends, or guardians swear on their behalf, No. 4 is to be used.

9. In case the lady to be married is a widow and under the age of twenty-one years, Oath No. 1 is to be used, the Surrogate first running his pen through the words, "that they have respectively attained their respective ages of twenty-one years and upwards," and adding at the foot of the oath (above the signature), "the former being twenty-one years of age and upwards, and the latter a widow."

10. The Surrogate having filled up, and the party having read and signed the Affidavit at the proper places, the former will then give the Testament to the party to be sworn, and holding the paper in his hand, say, "You (A.B.) do swear that the contents of this your Affidavit are true. So help your God."

11. The party answers, "I do," and kisses the book, repeating, "So help me God."

12. The same form is observed to each person sworn.

13. The Surrogate will then fill up the License, date and sign it, adding his title as Surrogate, and hand the License to the parties.

14. In case of any caveat entered in the Registry or intimation received through the Surrogate against the grant of a License, the Surrogate will ascertain the particulars and communicate the same to the Registrar for the immediate advice, refusing the License until the result of that reference is known and forwarding any Affidavit sworn.

15. The Surrogate will forward to the Registrar for record all Affidavits as above on the day they are administered, and the Licenses with the Quarterly Returns, unless sooner or whenever required.

16. A fee of Government Rupees fifty to be received by the Surrogate on each License previous to delivery of the same to the parties entitled to receive such License, Rupees sixteen of which fees for the License being due and payable to the Registrar, are to be transmitted to him either on the day the License is granted or with the Quarterly Returns.

Rules for the guidance of Surrogates in administering Oaths and granting Marriage Licenses within the Diocese and Archdeaconry of Madras.

I. Every application for a license must be made in writing and the names of both the applicants be given in full with the age, race, condition, (i. e., bachelor, spinster, widower, widow, or person whose previous marriage has been dissolved), and occupation, if any, of each, and the place or places in which each has resided for the six months prior to the application.

II. If either of the applicants is a person whose former marriage has been dissolved, the application besides stating such fact, must also state the cause of the dissolution of such former marriage.

N.B.—(a) If the cause of such dissolution be stated to have been adultery, the Surrogate shall require from the applicant, a copy of the Decree of the Court dissolving such marriage, and if it shall become known to the Surrogate, that such former marriage was dissolved on the ground of the adultery of the applicant, the Surrogate shall note such fact on the license, to the end that any Clergyman, other than the Surrogate, who shall marry the parties, may be duly apprised thereof; as no Clergyman is compelled to solemnize the remarriage of such person. (b) If the cause of such dissolution be stated to be, the conversion of the applicant, or applicants, to Christianity, the Surrogate shall by enquiry satisfy himself, before proceeding in the matter, that the circumstances connected with such conversion, such dissolution, and the proposed marriage be not such as to give occasion to scandal, or reproach.

III. When both applicants are non-residents in the place where the application is made, and are unknown to the Surrogate, he may decline to grant his license until he shall have had time to make due enquiry, as to whether there be any impediment to the marriage, and may further require from the applicants the names of two or more persons to whom reference may be made.

IV. On a day subsequent to the receipt of the application, which shall be appointed by the Surrogate, and shall be not earlier than the fifth day (that is the ninety-seventh hour), after such receipt, the parties, or one of them, shall in every case appear before the Surrogate, and either one or both swear to the "Affidavit of Residence," to which the written application for the license shall be annexed by way of an exhibit, being marked as such, and endorsed as follows by the Surrogate:—

In the matter of the marriage of A. B. and C. D.

Surrogate.

V. The Surrogate will use great caution in examining the parties to be sworn, filling up the forms with the names, rank, and places of residence, and dates at full length.

VI. In no case is a license to issue unless the parties are sworn before the Surrogate, and in case of doubt or difficulty the Surrogate will refer to the Registrar as recommended in the Surrogate's appointment.

VII. In case the lady to be married has been divorced, the license should issue in her maiden name (see Rule 2).

VIII. In case the party to be married is a minor, consent of the father, if living, must be obtained, or if the father be dead, the guardian of the person of such minor, and in case there be no such guardian, then the mother of such minor may give consent, unless no person authorized to give such consent be resident in India.

IX. In case the party to be married is a minor, either in the Civil or Military service, and without possessing either a parent or guardian in this country, the consent of the Governor of Madras must be obtained by the minor to his marrying under age, unless the proper consent can be shown to be already given on the part of the absent parents or guardians to his marrying as a minor, in which case the consent of the Governor of Madras need not be obtained.

X. If the parties to be married are both of full age (twenty-one years) and both of them are to be sworn, the Surrogate will use No. 1 Form; but if one of the parties is prevented from attending and another person joins in the affidavit on behalf of the party not present, No. 2 is in such case to be used instead of No. 1.

XI. If one of the parties only is of full age (namely, twenty-one years), and the other is under that age, and the parent, next friend, or guardian makes oath on the part of the minor as to age and consent, the Surrogate will use No. 3 Form.

XII. If both the parties are minors (under the age of twenty-one years) and the respective parents, next friends, or guardians swear on their behalf, No. 4 is to be used.

XIII. In case the lady to be married is a widow and under the age of twenty-one years, oath No. 1 is to be used, the Surrogate first running his pen through the words, "that they have respectively attained their respective ages of twenty-one years and upwards," and adding at the foot of the oath (above the signature), "the former being twenty-one years of age and upwards, and the latter a widow."

XIV. The Surrogate having filled up, and the party having read and signed the affidavit at the proper places, the former will then give the Testament to the party to be sworn, and holding the paper in his hand, say, "you (A. B.) do swear that the contents of this your affidavit are true. So help you God."

XV. The party answers, "I do," and kisses the book, repeating, "So help me God."

XVI. The same form is observed to each person sworn.

XVII. The Surrogate will then fill up the license, date and sign it, adding his title as Surrogate, and hand the license to the parties.

XVIII. In case of any caveat entered in the registry or intimation received through the Surrogate against the grant of a license, the Surrogate will ascertain the particulars and communicate the same to the Registrar for immediate advice, refusing the license until the result of that reference is known and forwarding any affidavit sworn.

XIX. The Surrogate will forward to the Registrar for record all affidavits as above on the day they are administered, and the licenses with the Quarterly Returns, unless sooner or whenever required.

XX. A fee of Government Rupees fifty to be received by the Surrogate on each license previous to delivery of the same to the parties entitled to receive such license, Rupees sixteen of which fee for the license, being due and payable to the Registrar, are to be transmitted to him on the day the license is granted.

N.B.—Although every Surrogate has legal power to issue a license under which a marriage can be solemnized in any church or place where Divine Service is usually performed in any part of this Diocese, it has always been the custom for the Surrogate or one of the Surrogates in the District in or nearest to which the parties usually have resided to grant them his license even if it should be the wish of the parties that the marriage should be solemnized by some Clergyman other than such Surrogate. And of this custom the careful observance is commended to all Surrogates by the Right Reverend the Lord Bishop of the Diocese.

(By Order.)

* Senior Marriage Registrar.

THE INDIAN CHRISTIAN MARRIAGE ACT XV OF 1872.

ECCLESIASTICAL DEPARTMENT, Fort St. George, March 14, 1874.

Rules for the submission to Government of the Returns of Marriages solemnized under Act XV of 1872, and for the disposal of marriage fees.

Under the provisions of Section 83 of the Indian Marriage Act (No. XV. of 1872) the Right Honorable the Governor in Council is pleased to direct the observance of the following Rules for the disposal of the fees prescribed by Section 82, the supply of register books, and the preparation and submission of returns of marriages solemnized under the Act.

*Head I.—Rules relating to Persons who have received Episcopal * Ordination (but who are not Clergymen of the Church of England nor the Church of Rome), and to Ministers of Religion who, under Section 6 of the Act, have obtained licenses to solemnize marriages.*

Definition of "Minister." 1. The term "Minister" will be used for both of these classes of officers under this Head.

2. As required by Section 84 of the Act, a Minister will forthwith detach from his marriage register book every certificate of marriage solemnized by him and transmit it, *within one month from the time of solemnization* of such marriage, to the Marriage Registrar or Senior Marriage Registrar of the District, or to the

Magistrate of the District, when there is only one Marriage Registrar, in a district, and such Registrar is absent from the District, or ill, or his office is temporarily vacant (Section 7). Ministers in Madras should forward their certificates to the Senior Marriage Registrar for the Town of Madras.

3. The form to be used by Ministers for this purpose is given in the fourth schedule of the Act.

4. The Marriage Registrar or Magistrate acting under Section 7 on behalf of the Marriage Registrar, as the case may be, is required by Section 84 and the two following sections of the Act:—

(a)—To add to each certificate the number of the entry of the copy in the book to be kept by him under Section 84;

(b)—To affix to it his signature or initials; and

(c)—To transmit all the certificates received during the month to Government, together with the certificates from his own marriage register book, if he should have solemnized any marriages during the month.

5. On the face of every certificate of marriage thus forwarded, the Minister *must* distinctly state if either party to the marriage is a *British subject*, as in this case it is imperative that the certificate should be forwarded to England. If neither party to the marriage be such, that fact also must be stated; and it must be noted in the latter case if either of them desires the certificate to be transmitted to England for delivery to the Registrar-General of Births, Deaths, and Marriages.

6. The following is the definition of the term "British Subjects" which should be adopted in carrying out the above distinction:—"The term *British Subject* means (1) a subject of Her Majesty, born, naturalized or domiciled in the United Kingdom of Great Britain and Ireland, and (2) the child or grandchild of any such person by legitimate descent.

Native Christians. 7. The certificates furnished by Ministers are not to include entries of marriages between Native Christians.

These marriages, under Section 37 of the Act, must be registered in a separate register book in the form given in Schedule 4 of the Act. When certificates of such marriages are given, they shall also be in the form given in Schedule 4. The headings of this register book should be in the language of the district in which the register is kept, but so much of it as has to be filled in by the hand of the person performing the ceremony must be in his own vernacular language. This book, when filled, must be dealt with as directed by Section 37. Under Section 84, true extracts from this register book shall be deposited in the office of the Marriage Registrar or Senior Marriage Registrar of the District, or in that of the Magistrate of the District when the Marriage Registrar is absent from the District, or ill, or his office temporarily vacant on the 31st December of each year. For the form of extract see Appendix 1.

* Such as Clergymen of the Armenian and Greek Churches.

8. Applications from persons connected with any Missionary Society for licenses should be submitted to Government by the Secretary or Senior Chaplain of the Society through the Magistrate within whose jurisdiction the applicant may be residing, or in the case of residence in Madras, through the Senior Marriage Registrar for the town of Madras. Those officers should also forward an expression of their opinion. In every case the name of the applicant should be given in full.

9. When any person desires to resign the office of a Minister licensed to solemnize marriages under the Act, or is about to leave the station or district in which he has exercised such functions, it is particularly requested that he will report the circumstance to the Marriage Registrar or to the Magistrate of the District, as the case may be, and make over to him for safe custody the marriage register books, and all forms and other documents appertaining thereto, unless his (the Minister's) successor be duly licensed to solemnize marriages under the Act, in which case the books, forms, and documents referred to should be made over to such successor, and the fact should be reported to the Marriage Registrar or to the Magistrate of the District when there is no Marriage Registrar for information. In Madras the report should be made to the Senior Marriage Registrar for the town of Madras.

10. A form of report is given in Appendix No. 2. Persons who send certificates to Government.

11. The person who are required to furnish the certificates to Government under this head are—
(a).—All Marriage Registrars or Magistrates of Districts as the case may be.
(b).—The Senior Marriage Registrar for the town of Madras.

Head II.—Rules relating to Marriage Registrars appointed under the provisions of Act No. XV of 1872, (the Indian Christian Marriage Act) Section 7.

1. A Marriage Registrar is required, by Section 55 of the Act, forthwith to separate the certificate from the marriage register book, and to submit the certificates of marriage which he has attached from his marriage register book during the month, to the Secretary to the Local Government "at the end of every

month." Copies of the Certificate should never be sent. The original is required in every case.

Form of certificate. 2. A form of the certificate is given in the fourth schedule of the Act.

3. On the face of every certificate of marriage thus forwarded, the Marriage Registrar *must* distinctly state if either party to the marriage is a *British subject* within the meaning of Rule 6 of the foregoing Rules (Head I), as in this case it is imperative that the certificate should be forwarded to England. If neither

party to the marriage be such, that fact also must be stated; and it must be noted in the latter case if either of them desires the certificate to be transmitted to England for delivery to the Registrar-General of Births, Deaths and Marriages.

4. Applications from persons connected with any Missionary Society, for appointment to the office of Marriage Registrar in any district, should be sent through the Secretary or Senior Chaplain of the Society to the Magistrate of the District in which the applicant resides; applications for appointment in Madras should be sent through the Senior Marriage Registrar for the Town of Madras. The Magistrate, or the Senior Marriage Registrar, as the case may be, should forward the applications to Government with an expression of his opinion.

5. When any person, not being a Marriage Registrar of the district, desires to resign the office of Marriage Registrar under the Act, or is about to leave the district in which he has been authorised to exercise the functions of a Marriage Registrar, it is particularly requested that he will report the circumstance to the Magistrate of the District, and make over to him for safe custody the marriage register books, and all forms and other documents appertaining thereto, unless his (the Marriage Registrar's) successor be duly authorised to register marriages in the same district under the Act, in which case the marriage register books, forms, and documents referred to, should be made over to such successor, and the fact be reported to the Magistrate for information. In Madras the report should be made to the Senior Marriage Registrar for the town of Madras.

6. A form of report is given in Appendix No. 2. Persons who send certificates to Government.

7. The persons who are required to furnish marriage certificates under this head to Government are—
(a).—All persons specially appointed by Government to be Marriage Registrars under Section 7 of the Act.

(b.)—All Magistrates when there is no Marriage Registrar.

(c.) The Senior Marriage Registrar for the town of Madras.

8. The attention of Marriage Registrars and Senior Marriage Registrars is directed to Rule 4, Head I. The form of register to be kept by them is given in Appendix 3.

9. Marriage Registrars should see that the true extracts from the register book referred to in Sections 37, 62 and 64, are duly forwarded to them on the 31st December of each year for deposit in their offices.

10. At the close of each year the Marriage Registrar of each district will be furnished with two copies of the lists of the various persons authorized to solemnize marriages under the Act and residing in his district. One copy of each list it will be his duty, after inquiry, to return with the necessary information filled in, and the other should be retained in the Marriage Registrar's Office. These lists will be in the form shown in Appendix No. 4.

11. The form of the Registrar to be kept by Marriage Registrars under Section 59 of the Act for the registration of marriages between Native Christians should be the same as in the fourth schedule of the Act. When certificates of such marriages are given they shall also be in the form given in Schedule 4. The headings of the register book should be in the language of the district in which the register is kept, with an English translation, but so much of it as has to be filled in by the hand of the person performing the ceremony must be in his own vernacular language. This book, when filled, is to be dealt with as prescribed in Section 37.

Head III.—The following Rule is applicable to Persons who hold at the same time the offices of both Marriage Registrars and Ministers under the Heads I and II.

1. Only certificates of marriages solemnized by Ministers of religion under Part III of the Act are required to be submitted through the Marriage Registrar or the Senior Marriage Registrar, or the Magistrate of the District as the case may be. The certificates under Part V of the Act should be forwarded direct to Government by the Marriage Registrars.

Head IV.—Rules for the submission of Quarterly Returns of Marriages under Part IV of the Act.

1. By Section 29 of the Act, Clergymen of the Church of England should send to the Registrar of the Diocese at the end of every quarter, the returns, in duplicate, of the entries in the register of marriages solemnized at or in any station or district in which such clergymen shall have any spiritual charge. The said Registrar, upon receiving the same, shall transmit one duplicate of the returns to the Chief Secretary to the Government in the form prescribed in the third schedule of the Act.

2. By Section 30, returns of the entries of marriages solemnized by Clergymen of the Church of Rome, and registered during any quarter, are required to be forwarded quarterly by the person who registers the same (through the Roman Catholic Bishop of the Diocese or Vicar in which such marriages shall be solemnized), to the Chief Secretary to Government.

3. By Section 31, Clergymen of the Church of Scotland are required to forward, in the form prescribed in the third schedule of the Act, the returns of marriages solemnized by them during any quarter, to the Senior Chaplain of the Church of Scotland, who will forward them to Government as at present through the Registrar of the Diocese.

4. A form of marriage return is given in the third schedule of the Act. It is optional with the Roman Catholic Bishops to adopt this form or any other; but they should invariably state the name of the Church in which each marriage was respectively celebrated.

5. The persons who are required to forward the returns of marriages specified in the four preceding rules to Government are—

(a.)—The Registrar of the Archdeaconry.

(b.) The Right Reverend the Vicars Apostolic in the Madras Presidency.

(c.)—The Very Reverend the Vicar-General of Saint Thomé.

(d.)—The Senior Chaplain of the Church of Scotland, through the Registrar of the Diocese.

6. Returns of marriages between Native Christians are not required by Government. These marriages, under Section 37 of the Act, must be registered in a separate register book in the form given in the fourth schedule of the Act. When certificates of such marriages are given, they should also be in the form given in Schedule 4. The headings of the register book should be in the language of the district in which the register is kept, but so much of it as has to be filled in by the hand of the person performing the ceremony, must be in his own vernacular language. This book, when filled, must be dealt with as directed by this section. Under Sections 62 and 64, true extracts from this register book shall be deposited on the 31st December of each year as follows:—By Clergymen of the Church of England in the office of the Registrar of the Archdeaconry, and by the other Clergymen named above in the office of the Senior Marriage Registrar for the town of Madras. ECCLESIASTICAL DEPARTMENT.

Fort St. George 14th March, 1874.

Rules for submission of Quarterly Returns of Baptisms and Burials of European Christians. The Governor in Council having, under the Indian Christian Marriage Act of 1872, prescribed Rules for the submission of Returns of Marriages, deems it desirable to issue the following Rules for the submission of Quarterly Returns of Baptisms and Burials of European Christians.

1. In addition to the Quarterly Marriage Returns required under the Indian Christian Marriage Act, 1872, the Government require the submission, for statistical and other purposes, of Quarterly Returns of Baptisms and Burials of European Christians, i.e., of "all Christians of European birth or descent, or of mixed European and Native descent," in the forms specified in Appendices A to C.

2. The Registrar of the Diocese is not called upon to use the certificate of correctness of the Returns as each Clergyman certifies to their correctness at the foot of each Return. The Senior Chaplain of the Church of Scotland is also permitted to write the certificate of correctness on the Returns.

Returns to be kept distinct.

3. The Return relating to baptisms and burials of each quarter should be kept distinct and not contain entries which belong to other quarters.

Native Christians.

4. These Returns are to include no entries in respect of Native Christians.

"No Occurrence" Certificate.

5. Whenever there may have been no baptisms or burials recorded during any quarter, a "Certificate of No Occurrence" (see Appendix E) should be forwarded.

6. As the Government desire to possess a record of all deaths of European and Eurasian Christians buried by the laity and not only of those buried by the Clergy, all magisterial officers are required to report every burial by laymen within their several jurisdictions to the resident Chaplain, or to the Chaplain or Minister who visits the station at which the burial has taken place, in order that it may be included in the Returns furnished by him to the Registrar of the Archdeaconry.

* Indents should be forwarded in triplicate to the Superintendent of Stationery.

7. In cases of burials performed in places not visited by any Chaplain, the report should be made to the nearest Clergyman.

8. A list of all the stations and out-stations in Madras, showing by what Clergymen the out-stations are visited under the orders of the Lord Bishop of Madras, will be found in Appendix F.

9. For the purpose of registering burials not performed by Clergymen of the Church of England, or by laymen according to the forms of the Church of England, the following Rule will be adopted:—"In every Register Book there should be a separate page or pages, with heading and form distinct from those entries of burials in which at present the Clergyman or layman officiating himself enters and certifies the record of the service which he has performed. In this part of the book the Chaplain shall enter (as a copy) the copy of the certificate transmitted to him by the magisterial officer of the district. In this form there should be added a statement of the place of interment. The Chaplain shall copy these entries and return them with the others in his Quarterly Return certifying the correctness of the copies which he makes."

10. The reports made by magisterial officers to Chaplains should include the names of all European and Eurasian Christians buried by laymen, whether the funeral service be conducted according to the form of the Church of England or not.

Baptisms by laymen.

11. The same rules are applicable to baptisms when performed by laymen.

Returns to be forwarded within one month.

Officers who are required to submit Returns.

12. All officers who forward the Quarterly Returns to Government should forward them, if possible, within one month after the close of each quarter.

13. The officers who are required to submit these Quarterly Returns of baptisms, and burials to Government are—

(1.)—The Registrar of the Diocese, who collects them from (a), Chaplains in the service of Government; (b), Senior Chaplain of the Church of Scotland; (c), Clergymen (not being Covenanted Chaplains) ministering under the Bishop's license.

(2.)—The Right Reverend the Vicars Apostolic in the Madras Presidency, who collect them from the various Roman Catholic registering officers within the Presidency.

(3.)—The Very Reverend the Vicar-General of St. Thomé, who collects them in a similar manner.

(4.)—Ministers of religion licensed to solemnize marriages under the Indian Christian Act, Section 6, and any other Ministers not included in any of the before-mentioned classes, who perform such offices as well as Ministers of the Baptist denomination who will furnish registers of births in lieu of Baptisms.

14. Forms of Returns will be issued gratis on application to the Chief Secretary to Government.

By order,
D. F. CARMICHAEL, Acting Chief Secretary.

REVISED RULES.

Section IV.—ECCLESIASTICAL.

A.—CHURCHES.

1. *Classification of charges.* All charges for Churches, whether in Civil or Military Stations, are dealt with under the general head Civil Buildings. In the case of Churches in stations where there are Military Cantonments, and the Military Works in which are under the charge of the Inspector-General, Military Works, and in the case of those Churches in Provinces to which the Provincial Service arrangements do not apply, the necessary funds for the works will be provided for from the Ordinary grant for Imperial Works under "Other Services." In other cases the funds will have to be provided for from the allotment for Provincial Services.

2. *Expenditure of Government money on Churches.* The provision from Public Works Funds of Churches at Military and Civil Stations is authorized under the limitations given in the following paragraphs.

Military Stations.

3. *Cases in which Churches will be provided.* At all permanent Military Stations, Churches will be provided by the Government for its Protestant and Roman Catholic British-born European Soldiers on the scale laid down in paragraph 6.

4. *Amount of grant for a Protestant Military Church.* The amount of the Government grant for a Protestant Church at a Military Station will in no case exceed such a sum as will suffice to provide a plain, substantial building of the simplest ecclesiastical design together with such plain furniture as is essentially necessary for the proper performance of the service according to the ritual of the Church of England. It will rest with private individuals to furnish the means of imparting any but the simplest ecclesiastical features and architectural decorations to the building, should they desire to do so, and also of supplying additional furniture, or furniture (including apparatus for lighting) of a more costly description.

5. *Roman Catholic Military Churches.* The same principles will regulate the grant for Roman Catholic Churches at Military Stations.

6. *Number of sittings to be provided in Military Churches.* The number of sittings to be provided in Churches in Military Stations will be calculated on the following scale:—

DETAIL.	PROTESTANT.	ROMAN CATHOLIC.
	Numbers.	Numbers.
Regiment of British Infantry	400	800
Wing of	200	150
Regiment of .. Cavalry	250	150
Wing of	150	100
Troop of Horse Artillery or Light Field Battery ..	100	50
Heavy Field Battery	100	50
Garrison Battery	50	..

7. *May include provision for additional sittings in certain cases.* Any reasonable provision that may be necessary can also be made for Staff Officers, Officers of Native Regiments, and where no Civil Church exists, for British-born European subjects in the service of Government or of the local Railway Company.

8. *Limitation on provision of Churches in each station.* As a rule, only one Protestant Church and one Roman Catholic Church will be provided at any Military Station, and where the number of sittings required for the troops according to the scale given in para. 6 is very large, the size of the Church may be regulated so as to allow of at least one-half of the troops attending service at one time.

9. *Government grant for Churches.* The Government grants for Churches at Military Stations will be regulated on the following basis. The Executive Engineer should prepare a ground plan, which will afford accommodation for the total congregation to be provided for, according to the scale laid down in paras. 6 and 7, allowing 6 superficial feet per sitting, exclusive of all passages and other parts not actually occupied by the

congregation. To the total superficial area thus arrived at and sanctioned by competent authority may be applied a rate per superficial foot 25 per cent. in excess of that which prevails at the Station (or at any Station in the District where the general rates for works are the same) for ordinary single-storied buildings. The result will represent the Government grant.

Civil Stations.

10. *Churches at Principal Civil Stations.* At the chief Civil Station of a District, or at a Railway Station where there are at least 25 British-born European subjects, Protestants or Roman Catholics, in the service of Government or of a Railway Company, and where no Church exists already, the Government will contribute towards Church accommodation upon the following terms:—

(1). Number of sittings required.	(2). Maximum Government grant.
	Rs.
25	2,000
50	3,500
100	5,000
150	6,000
200	7,000
250	8,000
300	9,000
350	10,500
400	12,000
For any excess over 400	Rupess 30 per seat in excess.

Note.—For Protestants accommodation will be provided for the Church of England service only.

Number of sittings to be provided to include provision for women, children & pensioned soldiers. In ascertaining the number of seats to be provided, women, children and pensioned soldiers and their families may also be taken into account, two children being counted as one adult. In cases of stations where abnormal rates prevail, special application may be made to the Government of India for an increase to the grant given by the State.

Limit on number of sittings to be provided. But no grant for more than 300 sittings will be made except at seats of Local Governments and Administrations, at Hill Sanitaria, or at Railway Depôts. In the two latter cases, the number of European-born British subjects in Government or Railway service must exceed (without their families) 120, to warrant the grant for a Church of greater accommodation than 200 sittings. When the number of sittings required is intermediate between the number given in the table, the grant for the seats in excess of the nearest number below the number required will be at the rate of the next lowest number in the table. And in no case will the Government grant be allowed until these contributions, together with the grant, amount to the estimated cost of the Church.

11. *Church accommodation to be provided only for British-born European subjects.* The number of sittings required for any particular Civil Station, other than a Railway Depôt or Station, will be finally determined by the Government, solely with regard to the number of the British-born European subjects in the service of Government. No grant for Churches in Civil Stations will be made until private subscriptions have been obtained, and then the Government grant will not exceed double the amount of private subscriptions actually realized; the maximum figure in column 2 of the Table above being in any case the extreme limit of the grant towards the scale of accommodation which stands opposite in column 1.

12. *Combination of Civil with Military Church.* It is desirable, whenever such a course will not be attended by inconvenience, to combine the Civil with the Military Church of a Station, the grant allowed for the Church accommodation of the British troops given in para. 9 being supplemented by a grant according to the scale shown in para. 10, and to the probable number of seats that will be required for the Civil British-born European residents in the service of Government or of a Railway Company.

General.

13. *Authorized scale not to be exceeded.* The scales of rates, and of expense, for all Churches above laid down, are in no case to be exceeded, without a reference to the Government of India, even though the proposed expenditure from Public Funds may be within the powers of sanction vested in the Local Government or Administration.

14. *House for Chowkeedar to be provided: as also in certain cases for servants other.* A house for the Chowkeedar or resident beater may be provided. In cases, however, where the Church is distant from the bazaar, and where special grounds are shown, accommodation may be provided for other duly authorized servants, but such further accommodation will be limited to shelter for day use only. These houses should, when practicable, be adjoining to, and not within the Church compounds, but when within them they should be erected in keeping with the other Church buildings.

15. *Churches for non-official residents require sanction of Government of India.* Church accommodation for non-official residents, either British-born Europeans or others, or for official residents other than British-born, should not be sanctioned by the Local Governments or Administrations without reference to the Government of India.

16. *Private contributions.* When private contributions are made towards building a Church in aid of a Government grant, the procedure to be adopted is as follows:—

17. *Plan of design and estimate.* The amount of private contributions being known, a definite design and estimate will be prepared by the Executive Engineer, and submitted for sanction in the usual way, the limit by which the Executive Engineer will be guided in his designs being the aggregate of the Government grant according to the scales given in paras. 8, 9 and 11, and the amount of private contributions actually realized.

18. *Private contributions to be deposited.* Before the work is commenced, the amount of the private contributions must be paid into a Government Treasury, and carried to credit of Deposits in the accounts of the Public Works Department, as laid down in Chapter XX, Section v, para. 16. The expenditure incurred from the Government grant, and the contributions, will be adjusted in the manner directed in Chapter XX, Section ii, para. 51, and on the principle laid down in para. 53 of the same Section.

Note.—In the case of a grant from the Church building fund for the Diocese of Calcutta, a certificate instead of a cash payment in advance may be accepted showing the amount of the contribution to be allowed. The conditions on which this certificate may be accepted are that in every case definite arrangements must be made with the Local Government or administration concerned respecting the precise dates on which the contributions will be paid, and that, until the payment is made, the Government shall have a primary lien on the funds of the Society. In case of any failure in paying up the stipulated payment on due date, the privilege herein allowed is to cease.

19. *Mode of treating these contributions.* In dealing with cases of this nature, unless it be otherwise specifically ordered, the private contribution is to be looked upon as an addition to the Government grant, instead of the money allowed from Public Funds being considered as a grant in aid of private contributions, and the responsibility of Public Works Officers with respect to the preparation of estimates, and the construction of such buildings with reference to excess of expenditure over the estimate, will be as strictly enforced as in a case where only public funds are expended.

20. *Supply of Church furniture to be regulated by following rules.* The supply of Church furniture will be regulated by the following rules. Class I.—Churches built by Government.—The certificate should state that the Church was built by Government for the use of European Troops or British-born European subjects in the service of Government or of the local Railway Company, and is still maintained for the same purpose.

Class II.—Churches which have received building grants from Government.—The certificate should state that the Church received a building grant of Rs. _____, equal to

the part of the total cost of the building, and that the grant was made on account of European Troops or British-born European subjects in the service of Government or of the local Railway Company, and that the building is still used by them.

For this class of Churches a proportion of the standard cost of the articles will be sanctioned equal to the proportion of the grant-in-aid to the total cost of the building itself.

Class III.—Churches rented by Government.—The certificate should state that the Chapel is wholly rented by Government for the use of European Troops or British-born European subjects in the service of Government or of the local Railway Company.

In this class the articles necessary for service will be given by the Military Department, but returned into Store if the building ceases to be rented for the performance of Divine Service to a Military congregation.

In none of the classes described above should any article of furniture be allowed with retrospective effect, and the required certificates should afford information as to when the article was originally supplied, and by whom, and the reason for recommending its renewal. When, however, the Government pay for the use of a certain varying number of seats in a Church, the hire of the seats should include everything necessary for the performance of the Service.

V.—When a Church, whether Protestant or Roman Catholic, is to be furnished, the Executive Engineer should communicate with the Ecclesiastical authorities concerned with a view to afford the congregation an opportunity of furnishing the Church by private subscriptions in more costly style, should they wish to do so. It is to be understood, however, that any article of furniture to which any public funds may have been applied will remain the sole property of Government, even though a portion of its cost may have been contributed by private persons. And in cases where articles of Church furniture are procured from England, they should be purchased through the Secretary of State in the ordinary way, with the exception of the "fair linen cloth, napkins, Bibles and Prayer-books," which may be purchased in India.

21. *Renewals of furniture to be a charge against Pew rents.* When Pew rents are charged, the renewal and repair of furniture will be met from that fund, and not be allowed to be brought forward as a public charge.

22. *Clocks.* The care of Church clocks is to be charged against the above fund where it exists.

23. *Chowkedars.* The pay of Chowkedars of Churches will be disbursed through Chaplains.

24. *Tablets, &c.* Churches are under the control of the Bishop of the Diocese in respect to the erection of tablets, ornaments, &c., while in course of construction, as well as after completion and consecration.

25. *Churches built by Government to be considered property of Government.* All Churches built by Government under these rules shall be considered the property of the Government.

Compensation for accommodation for Roman Catholic Soldiers in Chapels neither belonging to, nor rented by, Government.

26. The rate of compensation for sittings for Roman Catholic soldiers shall be determined by the Public Works Department with reference to the value and description of the accommodation provided, subject to a limit of Rs. 3 per seat per annum, broken periods counting as a year.

27. The number of sittings for which compensation is allowed will be subject to the same limit as is imposed in the case of the number allowed in Churches built at Government expense (para. 6), the maximum allowed being 300 for a regiment of European Infantry or 33 per company.

28. The outlay will appear in the Public Works Department budget-estimates and accounts under the head of Civil Buildings—Repairs.

29. Charges for compensation require the previous sanction of the Government of India, and must be supported by a certificate from the officer commanding the station of the numbers of Roman Catholic soldiers, and by women and children for whom chapel accommodation has been obtained and by a receipt for the money paid.

CEMETERIES.

HOME DEPARTMENT. NOTIFICATION—ECCLESIASTICAL.

Fort William, the 12th December 1877.

No. 421.—The following Rules for the care and use of Government Cemeteries other than those in the Presidency Town of the Diocese of Calcutta, for the levy and expenditure of fees on graves and monuments in Cemeteries and Churches throughout India, and for the levy of other ecclesiastical fees, are published for general information and guidance:—

I.

Rules for the care and use of Government Cemeteries throughout India except those in the Presidency Town of the Diocese of Calcutta.

CHARGE OF THE CEMETERY.

RULE I.—(1).—The Resident Chaplain of a station has charge of the general cemetery and frames an estimate of the expenditure connected therewith in accordance with the directions contained in paragraph 1, Home Department* Resolution No. 6—370-382, dated 9th November 1876.

(2).—The term "Resident Chaplain" includes a Clergyman of the Additional Clergy Society so far as concerns the stations to which he stands appointed or other Clergymen of the Church of England placed in charge by the Bishop.

(3).—During the temporary absence of the Chaplain, and at stations where there is no Resident Chaplain, the charge of the cemetery belongs to the Chief Magistrate on the spot, or the senior Military Officer if the cemetery is attached to a military cantonment.

(4).—At out-stations where there is a Church Committee the charge of the cemetery will belong to the senior member of Committee, and where there is no such Committee, to any subordinate officer nominated by the Magistrate or Deputy Commissioner of the district.

RULE II.—Each cemetery is allowed a malichowkidar or chowkidars in accordance with the scale prescribed in paragraph 2, Home Department Resolution† No. 6—370-382, dated 9th November 1876. These chowkidars are paid by Government through

the Resident Chaplain by whom they are appointed and dismissed. In stations where there is no Resident Chaplain, the chowkidars are paid, appointed and dismissed by the other officers named in Rule I.

RULE III.—Every reasonable effort should be made by the Resident Chaplain or other officer in charge under Rule I, not only to keep the cemetery in decent order, but to preserve its character as the resting-place of the remains of departed friends by providing for the necessary repairs and by planting the ground with suitable trees.

NOTE.—To meet the expenditure under this Rule, see Rule I, and paragraph 1 of Home Department Resolution‡ No. 6—370-382, dated 9th November 1876.

RULE IV.—The chowkidar will keep the key of the cemetery under the direction of the officer in charge.

RULE V.—The officer who has charge of the cemetery under the operation of Rule I will perform all the duties assigned to the Chaplain by Rules VII, VIII, IX, X and XI, with the exception of the approval of the inscriptions in that part of the cemetery reserved for the Church of England. These are to be forwarded to the visiting Chaplain, or, if there be none, to the Archdeacon, and not cut till his sanction be obtained. Should however, an inscription be disapproved, it may be referred to the Government for decision.

INTERMENTS BY WHOM TO BE CONDUCTED.

RULE VI.—(1).—The Chaplain buries Christians of all denominations whose friends desire his services as laid down in the orders of the Government of India in the Home Department§ No. 159, dated the 6th June 1877, using always the service of the Church of England, and the consecrated portion of the cemetery.

(2).—A portion of every cemetery will be set apart by the orders of Government for the use of Roman Catholic congregations, and another portion will be appropriated for the joint use of other Christians whose friends desire that they should be interred otherwise than according to the ritual of either the Church of England or of the Church of Rome, or who cannot legally be so interred.

(3).—These unconsecrated portions thus set apart are not to be fenced or walled off from the rest of the cemetery, but simply divided off by a pathway, and they must be

added to the existing cemetery or reserved from it. If the existing cemetery be large enough for the wants of the whole Christian community, such portions will be reserved, without reference to the fact that the whole enclosure has or has not been consecrated according to the rites of the Church of England. If the cemetery be only large enough for the wants of Christians desiring to be buried with the service of the Church of England, such portions will be added. The whole cemetery thus divided is to be surrounded by a wall, to have but one gate of entrance, and to be under the care of the officer specified in Rule I.

RULE VII.—(1.)—Ministers of all denominations have a right to conduct the service of burial over the body of any deceased member of their respective congregations who may be buried in any fitting portion of the ground set apart for the denomination to which the deceased belonged. At least six hours' previous notice of the burial should be given to the Chaplain in charge of the burial-ground, or, in the absence of the Chaplain, to the officer who may be in actual charge. The period herein prescribed may, for special reasons, be shortened with the permission of the Chaplain or officer in charge of the cemetery. Such Chaplain or officer will, if he thinks the circumstances of the case demand it, bring the facts to the notice of the local Magisterial authorities in time to admit of an order stopping the burial being passed if necessary.

(2.) A certificate of burial drawn up according to the required form must be sent to the Chaplain or to the Registrar of Births, Marriages and Deaths, to be entered in the register kept up by him.

RULE VIII.—No burial can take place in that part of a Government cemetery which has been set apart for the use of members of the Church of England, unless the service prescribed by that Church is read by the Chaplain if there be one, or, in his absence, by the layman who officiates at the funeral. But a person may be interred in the other portions of a Government cemetery with or without the use of any services of religion.

ARRANGEMENT FOR BURYING.

RULE IX.—The arrangements for making the necessary preparations for digging graves, preparing coffins, and the like, should rest in military stations upon the senior military officer, and in civil stations upon the chief local Magistrate. These officers are authorized to direct any local Public Works officer to supply all that is necessary. The local Public Works officer would usually be the Executive Engineer of Military Works in Military stations, and the Civil Executive Engineer in other stations. The expenditure incurred by the Executive Engineer will be held in his miscellaneous advance account until repaid by the officer authorizing the expenditure. But in cases of necessity or emergency, either officer may be called upon to do what is required.

RULE X.—The officer in charge of the cemetery shall keep a plan of the entire cemetery to be provided by the Public Works Department, with references written upon it, in a book, in which the names of parties interred are recorded; this plan and book being kept with the church registers.

ERECTION AND REPAIR OF MONUMENTS.

RULE XI.—Monuments may be erected by any interested person. The inscription before being cut, and the design, must be first approved of as laid down in Rule V, and the dimensions of the monument must accord with the orders in paragraph 3, Home Department Resolution* No. 6—370-82, dated 9th November 1876.

* Appendix A.

RULE XII.—(1.) The Chaplain should communicate with the friends of the deceased when a monument needs repairing, or, when such communication is not possible, advertise three times in the *Gazette of India* and the *Gazette of the Province*; and if it falls into a ruinous condition, and no party will undertake to restore it, the ruined monument must be made level with the ground during the next repairs, and any slab it contained must be placed over the grave in simple masonry, or be inserted in the wall.

(2.)—All work connected with monuments must, as far as possible, be carried on outside the cemetery, and any undertaker not removing the debris of his work immediately upon its completion is liable to a fine of Rs. 5.

Note.—This rule does not apply to monuments of historical or archaeological interest. Lists of such tombs should be obtained by Local Governments and Administrations, and as many of them as may be properly preserved at the public expense should be looked after by the local Public Works Department.

INSPECTION.

RULE XIII.—The cemetery should be inspected once in a half-year by the Chaplain in company with the Executive Engineer, the plan and book kept under Rule X being also examined, and a report made to the Archdeacon, and recorded in the Ecclesiastical record-book of the station, and also in the Engineer's Office.

RULE XIV.—(1.)—Commissioners of Divisions should inspect cemeteries, whether closed or in use, within their respective jurisdictions, in the course of their annual tours

and should bring to the notice of the local Government any instances of cemeteries which are negligently kept, or which the officers in charge may have allowed to fall into a state of bad repair or disorder. All cemeteries are equally subject to the visitation and supervision of the Bishop and Archdeacon.

(2.) Sanitary officers in cantonments are invited to inspect cemeteries within their respective cantonments, and to report to Local Governments any matter calling for notice.

MISCELLANEOUS.

RULE XV.—It is desirable that officers commanding regiments or detachments should be instructed to cause a report to be made to the nearest civil officer of graves dug for soldiers on march, that measures may be taken for their effectual protection and preservation. These graves and all scattered Christian graves throughout the district are under the care of the local civil authorities.

RULE XVI.—The above rules do not apply to Presidency cemeteries which have rules of their own.

II.

Rules regarding the levy and expenditure of Fees on Masonry Graves and Monuments in Cemeteries and Churches throughout India.

WHAT FEES ARE PAYABLE, AND BY WHOM.

RULE I.—A fee of 8 Annas for every square foot of ground occupied shall be charged for the construction of any masonry grave in a burial-ground.

NOTES.—(1.) This fee is independent of the actual charge for making a grave.

(2.) The fee leviable on a masonry grave regularly built up to the level of the ground is also leviable on a masonry grave which is not built up to the level of the ground, but which is only over and round the coffin.

(3.) The "ground occupied" is to be regulated according to the rule laid down in paragraph 3 of Home Department Resolution, * No. 6—370-82, dated 9th November last.

* Appendix A.

(4.) The same fees which are levied on pukka graves should also be levied on cutcha graves which have pukka foundations.

RULE II.—A further fee of one Rupee per square foot shall be levied on the erection of a monument in a burial-ground; provided, however, that for a simple headstone or flat slab not more than 3 feet 6 inches in height or length, and 2 feet in width, a uniform fee of Rs. 5. only shall be charged. A fee of Rs. 75 shall be levied on a faculty for the erection of a monument in a church.

NOTES.—(1.) A tablet on the wall of a cemetery is to be regarded as a monument.

(2.) "Simple headstone," A cross no higher than a usual headstone and no longer than a usual flat stone is included in this description.

(3.) When a monument is erected over a masonry grave, the total of the two fees will be equivalent to one and a half Rupee for each square foot of ground occupied.

(4.) The fee of Rs. 75 levied on a faculty, drawn in the case of non-Government churches by the present incumbents of the office of Registrar of the Diocese in Calcutta and Bombay, shall cease on a vacancy occurring in the appointment. The money is to be spent in charity as in the case of Government churches.

RULE III.—When a cenotaph is erected in a cemetery, a fee of Rs. 50 should be levied in addition to the fee charged for the ground occupied, and the space should be strictly limited to six feet square.

RULE IV.—Fees for masonry graves and monuments should be levied over the whole cemetery, including those portions which are used by Roman Catholics and Non-conformists.

NOTES.—(1.) The same rules in regard to fees apply to all graves, whether of Roman Catholics, of Non-conformists, or members of the Established Church.

(2.) Where a parcel of ground used for burial by a Christian community of any particular denomination other than the Established Church of England forms no part of the general cemetery but is separate from it, or where, although not so separate, it is clearly distinguishable and was not originally acquired, and has not been kept up at the expense of the State, then, if the community by which the ground is used so desire, the Government will give up all claim to fees, on the distinct understanding that it is divested of all responsibility for the maintenance of the cemetery in proper order. On the other hand, where such parcels of ground form part of a cemetery of the Established Church or the general Christian community, provided and maintained by the Government, no distinction can be made as to keeping up any one part of the cemetery, nor should any exemption from fees be permitted.

EXEMPTION FROM FEES IN GOVERNMENT CEMETERIES.

RULE V.—British soldiers and Non-commissioned officers are exempted, with retrospective effect, from the payment of any fee for the construction or masonry graves, or for the erection of monuments in burial-grounds to the memory of their comrades, wives, or children. No monument, however, either regimental or private, shall exceed the dimensions prescribed in paragraph 3, Home Department Resolution,* No. 6—370-82, dated 9th November 1876.

* Appendix A.

NOTES.—(1.) This rule is applicable to the British soldiers and Non-commissioned officers whether in military or civil employ.

2. Monuments erected under this rule subscribed for partly by Non-Commissioned officers and men, and partly by officers, are likewise exempted from the prescribed fee.

3. Warrant officers are not exempted from payment of ecclesiastical fees.

RULE VI.—The Cluniar pensioners being more or less under military control come under the category of soldiers, and are therefore entitled to the same exemptions as soldiers. But this ruling does not apply to other pensioners who are not similarly under military control.

RULE VII.—The Chaplain may at his discretion reduce, or altogether remit in cases of extreme poverty, the fee leviable on the construction of masonry graves, but not for the erection of monuments.

NOTE.—The Bishop on special occasions may sanction a reduction or remission of fees for the erection of monuments.

FEES BY WHOM TO BE COLLECTED.

RULE VIII.—In those stations in which a mason has been appointed, who alone is allowed to work within the cemetery, he is required, in exchange for the monopoly, to collect the fees on monuments and masonry graves, and pay them to the Chaplain; and any person ordering the construction of a masonry grave or monument by a mason or undertaker other than the person appointed by the Chaplain must pay the fees in advance.

NOTE.—Fees on masonry graves and monuments constructed by the appointed mason or undertaker need not be paid in advance, but, in case of failure of payment, their recovery must be entrusted by the Chaplain to the Magistrate or Deputy Commissioner as the case may be.

FEES TO WHOM TO BE PAID.

RULE IX.—The fees prescribed in Rules 1, 2, and 3 should be paid to the Chaplain or, in the absence of the Chaplain, to the officer in charge of the burial-ground and remitted at once to the Civil Treasury, except fees for monuments in churches, which would be paid over by the Chaplain to the charitable objects to which the Bishop assigns them when his faculty is issued.

CEMETERY RECEIPTS AND CHARGES.

RULE X.—All cemetery receipts and charges to be regulated as laid down in paragraph 4 of Home Department Resolution† No. 6—370-82, dated the 9th November 1876.

† Appendix A.

MISCELLANEOUS.

RULE XI.—(1.) A person may not purchase a portion of a Government cemetery as a burial-place for himself and his family, so as to have a right to fence it with a rail or fence, and thus make it the private property of himself and family. But when such rights already exist, they are not without reason to be interfered with, and special cases as they arise may require exceptional treatment. And in such cases the Archdeacon may exercise his discretion with the sanction of the local Government.

(2.) All private rights must, however, cease if for sanitary or other public reasons the cemetery is closed against burials, or even that portion of it in which the private ground is situated, but in special cases the Archdeacon may exercise his discretion of giving permission to open a vault or masonry grave.

(3.) No kutchra grave can be opened in any cemetery for the purpose of converting it into a masonry grave without application to the Archdeacon, which must be accompanied by a certificate from the Principal Medical Officer that this may be done without risk to public health.

RULE XII.—(1.) When a piece of ground is granted by Government as a cemetery to a Railway Company for the interment of its own servants, which afterwards keeps it in repair and provides the necessary establishment, so that beyond the original grant of ground Government is at no expense, the collection and application of fees accruing is left to the decision of the Railway Company which maintains the cemetery in good order and repair.

(2.) The Commissioner or District or Judicial Officer, and in military stations the officer commanding, should inspect such cemeteries and report to Government if they find them negligently kept.

III.

Other Ecclesiastical Fees.

RULE I.—No fees are charged for the performance of the rite of baptism or burial, or for the registration of the performance of these offices.

RULE II.—In addition to the fee for the Surrogate's license a fee of Rupees 10 shall be charged on all marriages by license, except the marriages of officers and others in the Military or Naval Services of Her Majesty.

RULE III.—The fee for a Surrogate's license shall be Rupees 50 both at the Presidency towns and in the interior. No fee shall be charged on marriages by banns.

RULE IV.—When registers are searched and a copy of any entry given, a fee of Rupee one shall be charged for the first year,* and four Annas

* The first year shall be for every additional year over which the search may extend; as well a fee of Rupee one for the certificate indicated by the applicant. Soldiers, sailors, and Non-Commissioned and petty officers are exempted from payment.

NOTE.—The amount of fees payable for marriages performed, and for searching registers kept in accordance with the provisions of Act XV of 1872 (The Indian Christian Marriage Act), is fixed by each local Government.

APPENDIX A.

Extract from the Proceedings of the Government of India in the Home Dept. (Ecclesiastical), Nos. 6—370-82, dated Simla, the 19th November 1876.

Read Home Department Resolution, Nos. 814 to 818, dated 6th October 1875, appointing a Committee to report upon the following matters connected with ecclesiastical administration:—

- (1.) The framing of joint estimates for expenditure on cemeteries or churches by the Executive Engineer and the Clergyman in charge.
- (2.) A revision of establishments for cemeteries according to their area.
- (3.) The size of monuments and amount of ground that may be enclosed.
- (4.) Provision for planting cemeteries and preserving them in decent order.
- (5.) Mode of supply of certain articles of church furniture.
- (6.) The substitution of three for two classes of churches with respect to the expenditure allowed for them by Government.

Read the Report of the Committee, dated 29th October 1875.

RESOLUTION.—The Report of the Committee has been considered by the Governor-General in Council, who desires to express to the Committee his satisfaction at the result of their labors.

The following rules have been approved relative to the subjects referred to the Committee for report:—

I. Churches and cemeteries have already been divided into two classes: (1), those in stations where there are military cantonments and the military works which are under the charge of the Inspector-General of Military Works; and (2), those in other military cantonments and civil stations.

In both classes of stations joint estimates* of expenditure should be framed annually by the undermentioned officers:—

(a.) In the case of all expenditure connected with establishments, e.g., pay of servants, alterations in their pay or number, &c., also all expenditure by Government connected with the provision of articles of church furniture supplied by the Civil Department. By the Chief Magistrate of the District and by the Chaplain.

* NOTE.—The estimates should be for the financial year and should be prepared in advance, as is prescribed for other Budget Estimates.

(b.) In the case of all expenditure connected with repairs and additions to church fabric, to church compound or cemetery walls, to cemetery gates, walks, wells, chaulkidars, or other church servants' houses, provision of necessary appliances for graves or for the repair of tombs or for the planting of trees and shrubs in cemeteries and keeping the same in decent order; also all expenditure by Government connected with the provision of articles of church furniture supplied by the Public Works Department.

By the Executive Engineer and by the Chaplain.

The estimates of expenditure to be prepared by the Executive Engineer and the Chaplain should show distinctly the probable charge under each of the following heads:—

- I.—New works connected with additions to existing churches and improvements to church compounds.
- II.—New supplies of furniture for churches and sanctioned articles of church use.
- III.—New works connected with additions to existing burial-grounds.
- IV.—Repairs to churches and church furniture and maintenance of church compounds.
- V.—Repairs to burial-grounds to be executed by Public Works Officers.
- VI.—Repairs to Burial-grounds, including planting and cleaning, to be entrusted to the Chaplain or Chief Civil or Military Officer of the station or cantonment under paragraph 4.

It would be convenient if distinct estimates were prepared for each of these classes of expenditure.

The provision of funds to meet the charges above enumerated will be made in the Budget Estimate for the Public Works Department. The estimates for the same will be subject to the scrutiny of, and be passed by, the Superintending or Chief Engineer or local Government or Administration, according to the rules in force in the Public Works Department.

In stations in which the churches and burial-grounds are under the local Governments and Administrations in which the Provincial Service arrangements are in force, the charges debitable to the Public Works Department will be provided for in the Provincial Public Works Budget Estimate. In other Provinces and in the Military Works Branch the charge will be provided for in the Imperial Public Works Budget Estimate under Civil Buildings.

2. The following scale of establishments should be maintained at all cemeteries:—

- (i.) For a cemetery of which the area is five acres or less, one mali-chaulkidar;
- (ii.) For a cemetery of which the area is more than five and less than ten acres, one mali-chaulkidar and one assistant cooly;
- (iii.) For a cemetery of which the area is more than ten and less than fifteen acres, one mali-chaulkidar and two assistant coolies;
- (iv.) For a cemetery of which the area is more than 15 acres, one mali-chaulkidar and three assistant coolies.

It is left to the local Governments and Administrations to determine the proper wages to be given to each servant. The cost of this establishment will be charged to Provincial Services in the case of those local Governments and Administrations in which the Provincial Service arrangements are in force, and in the case of other local Governments and Administrations and the Military Works Branch of the Public Works Department to Imperial Funds. In either case the charge will be included in the Civil Budget Estimate.

3. The size of kutchra and pukka graves should be limited to 8' x 4', and the amount of ground to be enclosed should be restricted to 11' x 7', by external measurement in both cases. No monument over a pukka grave must exceed 8' x 4' at the base, except with the previous sanction of the local Government concerned. A simple cross or head-stone on an adequate masonry foundation, not exceeding 3' x 2', is the only monument that should be allowed over a kutchra grave; no kutchra grave should be enclosed by a railing.

4. No portion of the receipts from cemeteries should be retained by any Government officer to be directly expended by himself; all such receipts should be paid into the Civil Treasury to the credit of the Public Works Department. In the case of receipts from cemeteries in charge of the Military Works Branch and under those Governments and Administrations in which the Provincial Service arrangements are not in force, the credit will be treated in the Public Works accounts as a receipt under Imperial Public Works Revenue. In the case of the other Governments and Administrations the credit will be raised to Provincial Service Public Works Revenue. But the amount passed upon

the joint estimate framed by the Executive Engineer and Chaplain to provide for planting a cemetery and preserving it in decent order should be entrusted to the Chaplain where there is one. Where there is no resident Chaplain, the amount should be placed at the disposal of the Chief Magistrate on the spot, or of the senior Military Officer if the cemetery is attached to a military cantonment. The necessary funds for the purpose will be advanced by the Executive Engineer concerned to the Chaplain or Civil or Military Officer. Bills for the expenditure should be rendered by the officer to whom the advance has been made, either monthly or otherwise, to the Executive Engineer, who will charge for the amount thereof in the usual way in his accounts. Until the bills are received and charged off, the advance will be placed in the Miscellaneous Advance Account of the Executive Engineer. All planting of shrubs and trees by private persons in cemeteries should be under the control of the Chaplain if resident, otherwise under that of the Magistrate or senior Military Officer, as the case may be. When practicable a well should be sunk in or near every cemetery.

In connection with the preservation of cemeteries in decent order, attention is invited to the rule cited on the margin.

The Chaplain should communicate with the friends of the deceased when a monument needs repairing; and if it falls into a ruinous condition, and no party will undertake to restore it, the ruined monument must be made level with the ground during the next repairs, and any slab it contained must be placed over the grave in simple masonry or be inserted in the wall by the Government officer.—(Rule VIII, Diocese of Calcutta Burial-ground Rules.)

This rule, however, should not be applied to monuments of historical or archaeological interests. Lists of such tombs should be obtained by local Governments and Administrations, and as many of them as may be

properly preserved at the public expense should be looked after by the Local Public Works Department.

5. It should be understood that the Government cannot provide cemeteries at the public expense for Native Christian communities.

NOTE.—Where their number is small, the question is of little importance and is best arranged by mutual concessions or by special provisions made locally by the parties immediately concerned. And I am to suggest for His Lordship's (Bishop's) consideration, whether, if the necessity of dealing at the present time with this matter of Native Christian interment be in his judgment unavoidably established, it should not be carefully examined in consultation with the several local Governments, having regard to the diverse needs and circumstances of the population in each separate province.

6. It is not considered necessary to make any alteration in the existing rules regarding the mode of supply of church furniture.

7. Further orders will be passed on the sixth point referred to the Committee for report.

8. The arrangements for making the necessary preparations for digging graves, preparing coffins, and the like, should rest in military stations upon the senior Military Officers, and civil stations upon the chief local Magistrate. These officers are authorised to direct any local Public Works Officer to supply all that is necessary. The "local Public Works Officer" would usually be the Executive Engineer of Military Works in military Stations, and the Civil Executive Engineer in other stations. The expenditure incurred by the Executive Engineer will be held in his Miscellaneous Advance Account until repaid by the officer authorizing the expenditure. But in cases of necessity or emergency either officer may be called upon to do what is required.

NOTE.—The intention of this paragraph is to provide an ultimate authority in case of difficulty, and existing arrangements need not be disturbed.

APPENDIX B.

Extract from the Proceedings of the Government of India in the Home Department (Ecclesiastical), No. 163, dated Simla, the 8th June 1877.

Home Department Resolution, Nos. 275—287, dated the 8th September 1875, laying down certain rules for the guidance of Chaplains of the Church of England in regard to burial of suicides, &c.

Read also—

Office Memorandum from the Military Department, No. 810, dated the 16th November 1875, forwarding for an expression of opinion a draft General Order which His Ex-

cellency the Commander-in-Chief proposes to issue on the subject in accordance with the above rules.

RESOLUTION.—On a reconsideration of the subject, the Government of India think it necessary to modify the rules contained in the Resolution of 8th September 1875, so far as regards the burial of deceased Roman Catholics. The Government of India have now decided:

1st, that at stations where there is a Roman Catholic Priest drawing an allowance from Government, he shall be held bound to read the burial service over the body of every deceased Roman Catholic brought for burial, unless he be excused from doing so by the rubrics and canons of the Roman Catholic Church; and that when the Roman Catholic Priest refuses to read the burial service over the body of a deceased Roman Catholic soldier, the Military authorities shall make proper arrangements for the decent interment of the corpse;

2ndly, that where there is no Roman Catholic Priest paid by the State, the Protestant Chaplain shall, if requested by the friends of the deceased, or by the Officer Commanding, be bound to bury the deceased according to the rites and ritual of the Church of England, except in either of the three cases in which Protestant Chaplains in India are excused from burying a deceased Protestant, viz., dying unbaptized even by lay baptism; excommunicated by the major excommunication; or declared to be *felo de se*; and that when a Protestant Chaplain refuses to officiate at the burial of a deceased Roman Catholic soldier on either of the three abovementioned grounds, the Military authorities shall, as in the case of refusal by a Roman Catholic Priest, make proper arrangements for the decent interment of the corpse;

3rdly, that whenever, with or without furnishing any explanation of his reasons, a Roman Catholic Priest paid by the State, or a Protestant Chaplain refuses to perform the funeral rites of his Church over the body of a deceased Roman Catholic soldier, the circumstances of the case should be fully reported by the Military authorities for the consideration and orders of the Government of India.

2. The Governor-General in Council is accordingly pleased to direct the modification in the above sense of the provisions of paragraphs 15 to 19 inclusive of the Resolution, 8th September 1875.

The above Institution was founded by the Rev. John Anderson, in Black Town, on 8th April 1837. Its aim is to provide for native youth a liberal Christian education, that shall cultivate, expand and quicken the whole man, the conscience and will as well as the understanding and memory. With this view all the branches of a liberal education are so taught as to show their connection with the great central truths of religion and Christianity. The Bible is regularly taught as the record of God's revelation of Himself for man's salvation.

The instruction is carried on by the Professors, Assistant Professors and Teachers mentioned above; and the managing body is the College Council. As the College is intended to be the centre of the higher Christian education in Southern India, its constitution is as catholic as possible, and the members of the Council represent the majority of the Protestant Churches in the Presidency. The Church Missionary Society and the Wesleyan Missionary Society contribute each £300 a year to the support of the College, so that the Secretary of the former and the District Chairman of the latter are *ex-officio* members of the Council, as well as the Secretary of the Free Church of Scotland Mission. The College educates up to the standard of the Bachelor of Arts degree of the Madras University. It has at present 220 students.

In the school department there are 820 pupils, of whom 360 are in the upper, and 460 in the lower school.

Visitors are welcome on school days between the hours of 12 and 1 p. m.

SCHOOLS OF THE FREE CHURCH OF SCOTLAND MISSION.

In connection with the Central Institution, there are 9 Boys' Schools:—Iyempettah, Rajampettah, Wallajahbad, (Lower Class Schools), two in Madras (Middle Class Schools); Nellore, Conjeveram, Trivellore and Chingleput (Higher Class Schools.) These are conducted in the same manner as the Central School. At these 9 schools there is an attendance of upwards of 1,100 boys.

Female education is extensively carried on by the Mission. A Boarding School for daughters of Native Christians is under the charge at present of Miss Wolff. The number of pupils is about 60. Two schools in Black Town for Caste Girls are superintended by the Rev. R. M. Banboo with an attendance of upwards of 400—one by Mr. Hutton with an attendance of about 75, and one by the Rev. P. Rajahgopal with an attendance of 90. Besides these, the Mission has Caste Girls' Schools at Nellore, Conjeveram, Trivellore and Chingleput. The number of girls attending these 9 schools is upwards of 1,000.

On the whole, therefore, the number of young persons receiving a Christian education in the College and Schools of the Mission is about 3,200.

The following gentlemen compose the Financial Board.

BANGALORE FREE COMMUNION BAPTIST CHURCH.

(FORMED 25th NOVEMBER, 1864.)

Pastor.—EDMUND MARSDEN.

This Church was formed on the above date by the Rev. T. C. Page, (formerly of Madras) then temporarily residing at Bangalore. On the 30th March, 1866, Mr. Marsden, who had been previously set apart for the work of the Gospel Ministry at Madras, became its Pastor.

Besides watching over this Christian Society, Mr. Marsden devotes a considerable portion of his time to evangelistic visitation among the residents of Bangalore, particularly the Military, of whom there is always a very large number at the Station.

Missionary.—Mr. C. Yeomans.

The Madras Seamen's and City Mission was established more than twelve years ago, and during this time it has done a good work among the Sailors visiting this port. In September 1873, the Mission was reconstituted and placed on its present basis. A Committee was formed for its future management consisting of representatives, lay and clerical, of the different Christian denominations. They decided to direct their attention to the following spheres of effort:—

1. The Sailors on Board the Shipping in the Roads.
2. The Sailors' and Strangers' Homes.
3. The Lock and General Hospitals.
4. The Parcherries, low lodging houses, and other haunts of the lowest class of the English-speaking population.

The Committee are aware that to do this work thoroughly several agents will be required, but at present they are only able to employ one. The former agent, Mr. Graham, having left this country, they have engaged the services of Mr. Charles Yeomans, a man strongly recommended for his personal character and fitness for Christian work. He is now fully engaged in the work of the Mission, and judging from his labours in the cause of Christ elsewhere, there is good reason to believe that he will prove a valuable and successful agent.

Though the Committee have but a single agent at present, they earnestly trust that the funds will one day be sufficiently large to admit of their employing three agents, so as to place one in each of the principal districts of Madras.

It will be seen from the spheres of labour to which Mr. Yeomans is to direct his attention, that this special agency is not intended to interfere in any way with the work of established congregations, but rather to supplement it, by reaching a class that is not at present reached.

The Mission is strictly undenominational, the desire of the Committee being not to gain converts for this or that congregation, but to win souls to Christ, and they will not fail to impress this on every agent.

Little need be said in advocacy of such a work. It is one that must commend itself to every Christian heart. Neither is it necessary to attempt to prove that an agency like this is required. Its wants are well known and deeply felt by all who come in contact with the English-speaking people of this city. The Census returns published in 1872, shew that many hundreds of those who are classed as Protestants never enter a place of worship, nor give evidence of being Christians in anything more than name. By their unholy lives they prove one of the greatest hindrances to the progress of Christianity in this land. But degraded though they are, they are not too low for the message of mercy to reach, or for the Holy Spirit to sanctify.

And need one word be said to establish the claims of the British Sailor or efforts of English Christians in India? Found on a foreign shore, and easy prey to temptations, his case at once appeals to our sympathy, and calls aloud for our help.

The Committee are not unmindful of the difficulties that lie before them, but they are prepared to face them, knowing that the work they have undertaken is well pleasing to Him who came on earth "to seek and to save the lost."

Subscriptions will be thankfully received by the Treasurers, or by the Secretary, 46, POONAMALLEE ROAD, MADRAS.

THE NATIVE CHRISTIAN IMPROVEMENT SOCIETY.

RULES.

I. It is proposed to form a Society to be called "The Native Christian Improvement Society."

II. The Society will be Catholic in spirit and aim; and Protestant Christians of all denominations will be eligible for Membership. All the Society's operations will be conducted and maintained entirely by Native Christians without the intervention of foreign aid and support.

III. The object of the Society will be to employ all means in its power to promote the growth of the Native Christians of the Tamil country in Christian knowledge and practice, and to advance their social, intellectual, moral and religious progress, with a view to their attaining to an elevated standard of Christian character, and to gradual independence as a Native Indian Church.

IV. With a view to the development and attainment of this object, the Society proposes to adopt the following measures:—

1. A Monthly Periodical will be started, to be called "Desabhimani," or "the Patriot," and conducted in English and Tamil. It will, for the present, be limited to 16 pages Octavo. Its contents, consisting of original and translated articles, will embrace the following subjects: viz., Wonders and Curiosities of Nature, Mental and Physical Science, Useful Arts and Manufactures, Historical and Biographical Sketches, Interesting and useful Medical subjects, Social and Moral Reforms, Religion and Morality, Christian Literature, Religious Errors, Independence and self-support of the Native Church, Missionary and General Intelligence, Light Reading, &c.

2. The Society proposes to translate into Tamil a judiciously chosen collection of English books on various important and useful subjects, and by publishing them, from time to time, hopes to contribute, to a certain extent, towards enriching the Tamil Christian Literature. It may be mentioned that steps are being taken for forming principally among the members of the Society, a Committee comprising a good staff of writers who will make themselves responsible for a regular supply of materials for the Periodical and other Publications.

V. These and similar objects of the Society for the improvement of Native Christians cannot, of course, be expected to be attained at once. The Society will have to contend with difficulties; but by God's blessing upon its patient and persevering efforts, the difficulties will disappear, and the desirable objects of the Society will gradually be accomplished. Constituted as it is, the Society cannot but commend itself to all Native Christian brethren, of whatever denomination, as deserving their sympathy and aid, and it is confidently hoped that they will, under the constraining influence of the love of Christ, cordially co-operate with the Society and do all in their power to promote its important objects.

Directions concerning the Periodical:

1. Short and well digested articles on the subjects specified above, will be most thankfully received from all Native Christian brethren.

2. All such articles will be subjected to the examination and approval of a Sub-Committee appointed for the purpose who will be responsible for the soundness of the views contained in the Periodical.

3. Rates of subscription for Desabhimani:

In advance, One Rupee per annum.

In arrears, One Rupee and a half.

Postage, Six Annas per annum, extra.

Single copy, Two Annas.

Six copies can be sent for Half Anna postage.

4. All articles and subscriptions are to be forwarded to the Rev. W. T. Saththianadhan, Secretary to the Society, Chintadrepettah, Madras.

III. The charge to Native Christians wishing to erect a monument, to be reduced to one-half of the above amounts.

IX. The charge for monuments will be appropriated by the Committee, in liquidation of the expenses incurred in keeping the ground, walls and gate, and the balance made over to Government, as proposed in Rule III.

Armenian Cemetery.

The present Cemetery was built and given to the Armenian Community by Government in the year 1862.

Previous to the erection of the Church, the Armenian Community performed Divine Service in a temporary place built of timber (on the North of Monument Esplanade, opposite Fort St. George), by the late Honorable East India Company, who also paid for the support of the Priest (50) £50 annually for 7 years, agreeably to a Treaty entered into by the said Company with the Armenian nation, dated London, the 22nd day of June, A. D. 1683, and in the fourth year of the reign of King James the Second. The present Church was built by the Armenian Community at their own expense in the year 1712, and alterations and additions made to it by them from time to time. In the year 1833, the British Government was pleased to grant the sum of Rupees five thousand (5,000) from the late Lottery Funds, for the repair of the Church, out of which Funds the Community was enabled to erect a substantial and extensive verandah, 15 feet in length by 10 in breadth, on the east side of the Church. Government was further pleased to grant a donation of Rupees (2,000) two thousand from Mr. Woolley's Estate to the Church in the year 1839.
