Passengers must comply with the regulations established on board the Steamers, for general comfort and safety.

No Berth or Cabin is to be occupied by a passenger without application to the Agent on shore, or to the Purser on board. It is to be understood that a passenger occupying a cabin of two or more berths, on the departure of the vessel (unless he shall have paid an additional sum for its exclusive occupation) is not to object to the vacant berth or berths being filled up at the intermediate Ports, if required.

Passengers for Bombay, Straits, China and Australia are transferred at Point de Galle, and will be required to defray their own Hotel expenses in the event of detention.

The intermediate rates of passage-money for reserved accommodation between Madras and Ports in India, China and Australia, will be regulated according to the accommodation required.

The rates for Native servants, between Ports in India and China, include a passage back to the Port of embarkation, if returning at once. A reduction of one-half is made in favour of Native servants returning from England within three months after arrival from India.

Passengers are at liberty to remain at one or more intermediate Ports, and proceed by the succeeding Steamer, provided there be room, upon application to the Agent, who will give written permission on the passage ticket.

Special Return Tickets are now issued from Bombay to Brindisi or Venice, available for Three Months from date of departure to arrival at Bombay, for Rs. 930, or available for Southampton, in one direction, Rs. 1,000, or via Southampton, both ways, Rs. 1,050.—These Tickets are also issued from Galle, Madras, and Calcutta, at the same rates.

Passengers holding Return-Tickets, and travelling on board the Steamers after this period, will be charged on board with a fifth part of the return passage-money, if not previously paid on shore to an Agent of the Company.

No berth can be occupied by any passenger without application to the Agents on shore, or the Steward, on board.

During the North-East Monsoon, when all the berths are engaged, Quarter Deck passages are granted to gentlemen entitling them to mess at the Cabin Table, at two-thirds of first-class fare. Quarter Deck Passengers are allowed space for a bed on the poop, which must be rolled up during the day, and a trunk or portmanteau of 5 cubic feet.

A number of the Steamers are provided with Forward-Cabins; and when such accommodation is available, Second-Class passages, inclusive of table, are granted at half of First-Class rates.

It must be distinctly understood that the Saloon and Quarter Deck are reserved for the use of First-Class Passengers only, and that, if any First-Class Passenger desires to hold communication with a Deck Passenger, he must do so on the Main Deck.

Servants, being Deck Passengers, must not sleep in the Saloon nor enter the Saloon Cabins, except when in actual attendance on their employers.

European servants, half of First-Class fare. European maid-servants occupying a berth in a Cabin with a lady, two-thirds of First-Class fare. Native servants on deck, ordinary deck fare.

The rate of passage for deck passengers does not include diet, but they can be dieted on board as per scale in possession of the Steward.

One child under three years of age, if with the parent, free. When more than one, each child additional will be charged one-quarter fare. Children of three and upwards to ten years, half fare. Children are not allowed in Cabin unless accompanied by an Adult Cabin passenger.

Passengers are strictly prohibited carrying Gunpowder, Sulphuric or other Acid, or any material which might occasion accidents on board the Steamers.

Passengers must comply with the Regulations established on board for general comfort and safety.

Baggage.

Each Adult Cabin Passenger is allowed 3 cwt. of personal baggage. Any baggage in excess will be charged at Cargo rates with 25 per cent. added.

Packages containing Jewellery, Plate, or other valuables must be specially booked, and freight paid thereon.

European servants and children over three years of age, are allowed 168 lbs. of personal baggage. Deck Passengers allowed 56 lbs. each.

Passengers are requested to note that the Company will not be responsible for any loss or damage to baggage or property under the former's charge.

Freight.

All packages shipped on board the Company's Steamers must be well packed, have a distinctive mark in English, and the port of destination also inscribed on each in English.

Although the Company's Steamers for the most part trade to free ports, all packages shipped on board must be accompanied by a Registered Custom House Pass. Non-compliance with this Regulation will subject shippers to detention in having their goods put on board till a Pass from the Custom House is obtained.

Freight on all packages must be prepaid at port of shipment.

The Company reserve to themselves the liberty to charge by weight, measurement, or value, and are not accountable for leakage, or for breakage or damage arising from any deficiency of address or packing; nor for damage, leakage, or breakage to re-exports, or goods.

For general facility, the Company reserve to themselves the power of receiving cargo at the ports of delivery in their own or hired boats, and when landed, deposit the same on wharf, in receiving vessel, or in store; charging consignees with the expense of landing and storing, according to a scale of rates to be seen at the offices of the Agents. Goods so landed to be at risk of consignees after being discharged from the Steamer.

The Company do not guarantee that the Steamer shall have room at ports of transhipment, nor that there shall be no delay there.

The correct contents of all packages must be stated in Bills of Lading. Packages containing Gunpowder, Sulphuric Acid, or any other material which might occasion accident, are strictly prohibited from being shipped on board the Steamers.

Packages weighing more than 3 cwt. (excepting bales and boxes of manufactured goods) are only carried at advanced rates of freight, and by special agreement.

When, owing to heavy weather or other causes, goods cannot be safely landed at their destination within the time stipulated for stoppage at such port in the Company's Mail Contract with Government, the Company reserve to themselves the right to convey them to the next port on the voyage or to the final port of call, to be returned thence by one of the Company's Steamers having space, at the Company's expense and Merchants' risk; and the consignee cannot claim indemnity for such delay nor the consequences thereof.

A written declaration of the contents and value of goods is required by the Company, and must be delivered by the shipper to the Company's Agent with the Bill of Lading. A wrong description of contents or false declaration of value shall release the Company from all responsibility in case of loss, seizure, or detention, and the goods shall be charged double freight on the real value, which freight shall be paid previous to delivery.

In case of quarantine, the goods may be discharged at risk of the Owners of the goods into quarantine dépôt, lighter, barge, or other vessel, as required for the ship's despatch. Quarantine expenses upon the goods, of whatever nature or kind, shall be borne by the owners of the goods.

The Company will not be liable for any single package of cargo beyond the value of Five Hundred Rupees, unless additional freight at half specie rates has been paid on value above Five Hundred Rupees, and in all cases where claims are made, proof of loss must be furnished.

Specie, precious stones, jewellery, plated-ware, and other valuables will not be landed by the Company. It can only be delivered on presentation of Bill of Lading on board, and will be carried on at consignee's risk if delivery is not taken during the Steamer's stay in port.

Goods must be alongside at least 24 hours before the advertised hour of departure, and shippers are requested to see that their receipts for same are in order before leaving the vessel. Most of the mistakes made arise through shippers sending their goods at the last moment.

Bills of Lading are only signed on the Company's forms, which may be had of the Agents at the several ports for the stamp duty only. These must be presented and delivered up, cancelled, before delivery of goods can be granted.

Single packages and parcels not exceeding 2 feet in measurement, are charged Rs. 2-8 under 1,000 miles; under 2,000 miles, Rs. 5; over that distance, Rs. 10.

Horses, Cattle, &c.

Carriages are conveyed by special agreement, and on deck at Shippers' risk.

The rates of conveyance for animals are exclusive of food, and all animals are carried on deck at shippers' risk.

The charge for conveyance of horses includes passage of a syce in attendance on each horse, and space for fodder, which must be provided by the owner.

Horse boxes are not provided by the Company.

Shippers of horses are recommended to remove the shoes, and to provide coir matting for the animals to stand on, to prevent them slipping with the motion of the vessel.

This Company has been incorporated for the purpose of connecting the town of Pondicherry with a branch of the South Indian Railway from Villupuram to the Gingee river, that river being the boundary between the English and French territory. The necessary arrangements having been made with the French Government and a Convention signed at Paris, the construction of the Pondicherry Railway (which for its entire length, about 8 miles, traverses French territory) has been carried out to completion. There are two stations, one at Villenour, and the other, (the terminal at Pondicherry. The surf is not so violent at Pondicherry as at other places on the coast, and as an iron pier of a serviceable character has been erected in a central position near the Custom House and offices of the principal merchants, this important town, now that it is placed in direct railway communication with all parts of India, possesses considerable advantages for the exportation and importation of merchandise. The Pondicherry Railway was opened for public traffic on the 10th December 1879.

This Company has been incorporated under a special Act of Parliament (37 and 38 Victoria, Session 1874) and is formed by the amalgamation of the Great Southern of India Railway Company and the Carnatic Railway Company. The object of the S. I. R. is to provide communication between Madras and the provinces of Southern India lying to the south of the existing Madras Railway. Starting from the People's Park at Madras (Cochrane's Canal) the line passes through Egmore, Chetpat, Saktipet, Saint Thomas' Mount Cantonment, Pallaveram, Chingleput, Villupuram, (from whence there is a branch to the Gingee river and Pondicherry), Cuddalore, Porto Novo, Kumbakonam, Tanjore, (from which town there is a branch to Negapatam), Trichinopoly (from whence a branch extends to Karur and Erode) Dindigul, Madurai, Maniyachi, (from whence a branch is open to Tinnevely), Tataparai, and Tuticorin.

Up to the 1st August 1880 the short line between Arkonam and Conjeevaram, had been divided by a gap of 21 miles from the main line, but on that date the gap was reduced to 8 miles by the opening of a section from Chingleput to Walajabad, the intention being to complete by the end of 1880 the remaining distance and to unite Arkonam with Chingleput by a continuous road. It is at Arkonam that the Madras Railway Company N. W. Line joins the S. W. Line.

The whole of the Company's lines is planned on the metro gauge system (3 feet 3 inches), and the South Indian Railway will when finally completed consist of nearly 700 miles of line, the longest continuous route in India constructed on this principle.

A branch from Villupuram (South Arcot District) to the Gingee river has been constructed by the South Indian Railway Company, the line being continued from the river into the town of Pondicherry by the Pondicherry Railway Company. It is not improbable that in the course of a few years Trevandrum will be connected with Tinnevely by an extension of the S. I. R., the two places being, as the crow flies, only 50 miles apart.

TABLES OF COINS, WEIGHTS AND MEASURES

(INDIAN.)

MONEY.

Silver is the legally constituted medium of exchange in all money transactions throughout the British Indian possessions. Gold Coin was intended to be a legal tender at a fixed value of 16 Rupees for the Gold Mohur of Calcutta and 15 Rupees for the Gold Rupee of Madras and Bombay; but it is not demandable in payment and is left to find its current value in the market. In 1841 officers in charge of public treasuries were authorized to receive gold coins struck in conformity with the provisions of Act XVII of 1835, establishing the 15 Rupee pieces, but in 1852 when the gold from California and Australia began to pour their treasures over the globe and in apprehension that India would be inundated with gold, the proclamation of 1841 was rescinded and gold debarred from entrance into any of the treasuries. Since then the sovereign has been made a legal tender for 10 Rupees.

WEIGHTS AND MEASURES.

The origin of all *Weights and Measures* in England was derived from a grain of wheat; 32 of them, well dried and gathered from the middle of the ear, were to make one pennyweight; 20 dwts. 1 ounce; and 16 oz. 1 pound. It was subsequently thought better to divide the pennyweight into 24 equal parts, called *grains*.

William the Conqueror introduced into England what was called Troy Weight, from Troyes, a town in the province of Champagne, in France, now in the department of Aube, where a celebrated fair was held. The English were dissatisfied with this weight, because the pound did not weigh so much as the pound in use at that time in England. Hence arose the terms *avoir du poids*, which was a medium between the French and the ancient English weights.

Avoirdupois Weight was first made legal in the reign of Henry VII. and its particular use was to weigh provisions and coarse heavy articles. Henry fixed the stone at 14 lbs., which has been confirmed by a recent Act of Parliament.

With respect to Measures of Length, it is recorded that the various denominations were constructed from a corn of barley, 3 of which, well dried from the middle of the ear, made an inch. Other terms were taken from portions of the human body—such as the *digit* (2 of an inch, or a finger's breadth), a *pala* (3 inches), a *hand* (4 inches), a *span* (9 inches), a *foot* (12 inches), and a *cubit* (18 inches), being the length of the arm or bone from the elbow to the wrist. A *pace* (5 feet), or two ordinary steps; a *fathom* (6 feet), from the extremity of one hand to that of the other, the arms oppositely extended. It is stated that Henry I. in 1101, commanded that the *vara*, or ancient ell, which answers to the modern yard, should be made the length of his arm; and that the other measures of length were thence derived, whether *linear*, *superficial* or *solid*.

The restored standard of Linear Measure, whose length is called a yard is a solid square bar 33 inches long, and one inch square in transverse section, the bar being of bronze or gun-metal, at the temperature of 62° of Fahrenheit's thermometer, marked copper 16 oz., tin 2½ oz., zinc 1 oz.; and near to each end a cylindrical hole is sunk to the depth of half an inch; the distance between the centres of the two holes being 3 feet or 36 inches, or 1 imperial standard yard. The standard square and cubic measures will therefore depend entirely upon it.

All Measures of Capacity were first taken from Troy Weight, and several laws were passed in the reign of Henry III. enacting that 8 lb. Troy of wheat, taken from the middle of the ear and well dried, should make 1 gallon of Wine Measure, and 8 such gallons make a bushel.

The carat is divided into grains, and the grains into quarters, thus:—

The Carat.—Troy.			
	lb. dwt.		dwt. gr.
24 carats make	1 0	1 grain or 1/4 carat make	2 10
2 carats "	0 20	1 quar. of a grain "	0 15
1 carat "	0 10		

The carat for weighing diamonds is 3¼ grains Troy.

TROY WEIGHT.

24 grains make 1 pennyweight (dwt.) | 12 ounces make 1 pound (lb.)
 20 pennyweights " 1 ounce (oz.)

By this weight gold, silver, jewels, and precious stones are weighed. It is also used in ascertaining the strength of spirituous liquors, and in experiments in natural philosophy, though the weights for this latter purpose are generally constructed in decimals from 10,000 grains to the one-hundredth part of a grain; it is used to compare the different weights with each other. The weighing of diamonds is an exception in jewellery; they are weighed by the carat, which is 3¼ grains.

14 oz., 11 dwt., 16 gra. Troy, are equal to a pound avoirdupois; or a pound Troy bears nearly the same proportion to a pound avoirdupois as 14 to 17 or 5,760 grains are a Troy pound, and 7,000 such grains are a pound avoirdupois. This standard was adopted as being the weight of a cubical inch of distilled water, which was found to weigh by Fahrenheit's thermometer (the barometer being at thirty-six inches), 252 grains, 458 thousandth part of a grain.

AVOIRDUPOIS WEIGHT.

16 drachms make 1 ounce (oz.)	25 pounds make 1 quarter (qr.)
16 ounces " 1 pound (lb.)	4 qrs. or 112 lb. " 1 hundred wt. (cwt.)
11 pounds " 1 stone (st.)	20 cwt. " 1 ton (ton)

By this weight are weighed all articles sold by weight, excepting gold, silver, platinum, diamonds, and other precious stones, and drugs when sold by retail.
 The sign *lb.* (*libra*, a pound) should never have an *s* after it, the plural being *libra*.

CUBIC OR SOLID MEASURE.

The dimensions of timber, stone, excavations, and all works which have length, breadth and thickness, are taken by lineal measure; but the contents are calculated by cubic measure.

A Cube is a solid body, and contains length, breadth and thickness. A cubic number is produced by multiplying the simple number twice into itself; thus 3^3 is a cubic number, being produced by multiplying the number 3 twice into itself; as $7 \times 7 \times 7 = 343$.

ARTIFICERS' TABLES AND CALCULATIONS.

TIMBER.

40 cubic feet of unhewn timber.	} 1 load.	240 superficial feet, 2½ inch planks or deals
50 do. of squared timber.		200 do. 3 inch ditto.
600 superficial feet, 1 inch planks or deals.		170 do. 3½ inch ditto.
400 do. 1½ inch ditto.		150 do. 4 inch ditto.
300 do. 2 inch ditto.		
20 deals 12 feet long, 3 inches thick, 9 inches wide, 5½ loads.		
1 ditto contains 2 feet, 3 inches cubic.		
A batten is from 2 to 8 inches broad, and from ½ to 1½ inch thick.		
A deal is above 7 inches wide.		
A plank is 11 inches wide, or above.		
120 deals are 1 hundred.		

TO MEASURE PIPES, TANKS, &c.

The following is a rough-and-ready way to find the contents of circular tanks, wells and pipes:—

Square the diameter in inches, and cut off the right-hand figure as a decimal, and the result will be gallons in each 8 feet (yard) of depth,—or length, if a pipe; as,—

Diameter.	Pipes.	Gallons
Inches.	Inches.	in 8 feet.
2.....	$2 \times 2 =$	4 or 0.4
6.....	$6 \times 6 =$	36 or 3.6
12.....	$12 \times 12 =$	144 or 14.4

WELL OR TANK.

36.....	$36 \times 36 =$	1,296 or 129.6
100.....	$100 \times 100 =$	10,000 or 1,000.0

TO FIND THE CONTENTS OF A BARREL.

If the diameter is equal everywhere—Multiply the square of the diameter in inches by the depth, and divide the product by 359. Thus a barrel with the diameter of 36 inches, and 50 inches deep; $36 \times 36 \times 50 = 61,800 \div 359 = 172.14$ old measure = 183½ Imperial gallons. If the centre or bung diameter is larger than the ends—First square the centre diameter in inches; and then multiply it by 2, to which add the square of the diameter of the end; then multiply this by the length of the cask and divide by 1,077. Thus a barrel with a centre diameter of 23 inches, and 25 inches and length 86 inches: $23 \times 23 \times 2 = 1,058 + 625 (25 + 25) = 8,163 \times 86 = 702,918 \div 1,077 = 652.74$ old measure = 714 Imperial gallons.

TO MEASURE TIMBER.

In order to ascertain the contents of unsquared timber, multiply the square of the quarter girth, or of ¼ of the mean circumference, by the length. When the buyer is not allowed his choice of girth in taper trees, he may take the mean dimensions, either by girthing it in the middle for the mean girth, or by girthing it at the two ends, and taking half of their sum. If not, girth the tree in so many places as is thought necessary, then the sum of the several girths divided by their number, will give a mean circumference, the fourth part of which being squared, and multiplied by the length, will give the solid contents.

The superficial feet in a board or plank is known by multiplying the length by the breadth. If the board be tapering, add the breadth of the two ends together, and take half their sum for the mean breadth, with which multiply the length.

The solid contents of squared timber are found by measuring the mean breadth by the mean thickness, and the product again by the length. Or multiply the square of what is called the quarter girth, in inches by the length in feet, and divide by 144, and you have the contents in feet.

APOTHECARIES' WEIGHT.

60 grains (gr.)	make 1 scruple =	20 gr. Troy, sign $\mathfrak{s}$
3 scruples	" 1 drachm =	60 " " $\mathfrak{d}$
8 drachms	" 1 ounce =	480 " " $\mathfrak{z}$
12 ounces	" 1 pound =	5,760 " " $\mathfrak{lb}$

Apothecaries compound their medicines by these weights, but buy and sell by *Avoirdupois*.

The pound, ounce, and grain, are the same as in *Troy* weight.

APOTHECARIES' FLUID MEASURE

60 minims (℥)	make 1 drachm, $\mathfrak{f}\mathfrak{z}$	16 ounces make 1 wine pint, C.
8 drachms	" 1 ounce, $\mathfrak{f}\mathfrak{l}$	8 pints " 1 gallon, gal.

MEDICAL PROPORTIONATE DOSES.

If a dose be a single drachm for a person of 21 years of age, the proportionate doses according to the age will be:—

Under 1 year	1/12 or 5 grs.	Under 14 years	1/2 or 30 grs.
2 years	1/6 " 10 grs.	20 "	1/2 " 40 grs.
3 "	1/4 " 15 grs.	Above 21 "	1 " 70 grs.
4 "	1/3 " 20 grs.		63 the inverse ratio.
7 "	1/2 " 30 grs.		

Women require smaller doses than men.

As a familiar guide to the house-nurse in giving medicine to a patient, the following will be found useful.

CHAPLAINS' VISITS TO OUT-STATIONS.

Extracts from Court's Despatch, 12th April 1862.

"Section 27 of the Regulations respecting leave of absence and deputation and travelling allowances which we have recently approved, you will find a Rule on the subject of travelling allowances on joining a Station, and when any change takes place except at the desire of the Chaplain or Assistant Chaplain.

3. But to avoid inconvenience and guard against the possibility of misunderstanding we think it desirable that for every circle of stations, the Lord Bishop should be requested to frame a plan determining the periods at which each Station shall be visited by the Chaplain or Assistant Chaplain officiating in each circle, which plan, when approved by Government shall continue in force till varied by the same authority. As minute local information will be necessary to the successful formation of such plan, we can only offer a few suggestions on the subject. The frequency of Ecclesiastical visits should be governed in a great degree by the extent of the Christian population of the place to be visited. A place may contain not more than three or four members of the English Church, and though it might not be right to exclude these few persons from the benefit of Christian ordinances, it is obvious that in the present state of our Ecclesiastical Establishment such a place could not be visited frequently without injury to others of greater importance. An annual visit might in some cases be all that could reasonably be afforded; while to others, visits twice, three or four times a year, might be expedient; and to others again, which might be more populous, it might be desirable that visits should be made once in six weeks, or once a month.

4. When a circle of Stations may, from the deficiency of our Establishment, or any other cause, be left without a resident Clergyman, we are of opinion that the Chaplain or Assistant Chaplain of a neighbouring district, should, as desired by the Lord Bishop, be appointed to visit the Station thus deprived of clerical services. In such cases the most convenient course will be for the Lord Bishop to bring the subject to the notice of Government, and submit a plan of visitation. Such plan, being approved, the Chaplain or Assistant Chaplain who can most conveniently discharge the required duty, should be specially appointed thereto, and thenceforward be entitled to draw travelling allowances in conformity with the provisions of the plan, and in accordance with our Financial Despatch of the 30th October 1859.

5. We should lament that the practice of visiting Stations at which no Clergyman is permanently resident should be discontinued, and it would be unjust to subject the Clergy to the expense attendant on such visits. Under these impressions we deem it proper to sanction the payment of such reasonable charges not exceeding those authorized in our Despatch of the 30th October 1859, before referred to, and we are encouraged in this view by the fact that although Chaplains and Assistant Chaplains when absent from their districts are subject to the same deductions as Civil Servants, no charge is incurred in providing for the duty of the absentee. The deductions may thus be regarded as a fund, meeting to a certain extent the extra charges incurred by occasional or provisional visits of the Clergy to Stations in which they do not reside."

The revised Plan, determining the Circle of Out-stations for the several Chaplains under this Presidency, is published for general information in lieu of the one sanctioned under date 19th October 1852.

RULES RELATING TO BURIAL GROUNDS FOR THE DIOCESE
OF MADRAS.

FORT ST. GEORGE, 29th October 1866.

I. The Chaplain of the Station shall have the care of the General Cemetery. It shall be his duty to apply to the proper Officer, when the walls want repairing; to see that weeds, grass, or jungle be cleared away, and the remains of dilapidated tombs be removed, and that the Cemetery be kept in proper order.

In the absence of the Chaplain, the Lay Trustees shall have the care of the Cemetery.

N.B.—These Rules apply in places where there is no Chaplain, to Ministers of the Additional Clergy Society, and to any other Clergymen who are appointed to the charge of English Congregations, and are in receipt of part of their salary from Government.

II. The Sexton or Lascar in charge of the Cemetery, shall be borne on the Church Establishment, and shall be paid by Government through the Chaplains, with whom the appointment and dismissal of this servant shall rest.

III. In every station, a portion of the Cemetery shall be set apart for the use of members of the Roman Catholic congregation. For the use of any body or bodies of Christians at such station, not being members of the Church of England, nor of the Church of Rome, another portion of the Cemetery shall be appropriated, should they desire it, for the sole use of such congregation, or for the joint use of such congregations. The portions thus set apart shall not be fenced or walled off, but simply divided by a pathway, from the rest of the Cemetery, and shall be added to, or reserved from, the existing Cemetery according as such Cemetery has, or has not, been consecrated according to the rites of the Church of England. The whole Cemetery thus divided shall be surrounded by a wall, and shall have but one gate of entrance. The entire Cemetery shall be under the care of the Chaplain, for the purposes specified in Rule I. The key shall be kept by the Sexton or Lascar acting under the Chaplain's directions, so that access to the ground may be had by those having a right thereto, easily and without delay.

IV. The Chaplain shall provide that one or more graves be kept ready for cases of sudden emergency: such graves shall be covered with planks or boards. No grave shall be less than six feet deep.

V. A scale of charges for ordinary masonry-graves, headstones, and tombs, to be submitted by the Undertakers at each station, and approved by the Chaplain and District Engineer, shall be affixed to the Cemetery gate, or to the wall of the Church Porch, or exhibited in some other suitable place.

VI. Inscriptions intended for monuments to be placed in that portion of the Cemetery devoted to the Church of England, and for tablets to be placed in Churches shall be submitted to the Chaplain for approval; if not approved, such inscriptions shall not be allowed to be engraved on such monuments or tablets. But any party considering himself aggrieved by the Chaplain's decisions, may appeal to the Bishop.

VII. Stone or brick monuments shall not be placed over any but masonry graves; such monuments, unless built over masonry work, are liable to fall in during the rains. Brick monuments are to be discouraged, as they soon fall into decay in this climate.

VIII. The dimensions of monuments shall be allowed to exceed nine feet in length, and four and a half feet in width. In special cases, where more space is desired, a fee calculated at the rate of Rupees 3 for every square foot, shall be charged by the Chaplain. The sum collected shall be placed to the credit of the Fund for improving the Burial Ground, and repairing the monuments in it and the Church.

IX. The Chaplain shall communicate with the friends of the deceased when a monument requires repair. Should a monument fall into a ruined condition, and no one be willing to undertake its restoration, the ruined monument shall be made level with the ground, and any slab it may have contained shall be placed over the grave.

X. Every reasonable effort shall be made by the Chaplain, not only to keep the Cemetery in decent order, but to preserve the sacred associations of the place, by suggesting appropriate designs for monuments, and by planting the ground with suitable trees. The money obtained by the sale of the grass, and the fees abovementioned, shall be laid out in the improvement of the Cemetery.

XI. The Cemetery shall be inspected once a year by the Chaplain, in company with the Executive Engineer, and a report made to the Archdeacon; such reports shall be recorded in the Ecclesiastical Record Book of the station, and also in the Engineer's Office.

XII. The Collector, or one of his Assistants, shall annually, or as occasion may require, visit all Cemeteries in his District, as well as those disused as those still in use, and shall

make suggestions to the Clergymen or Lay Trustees in charge, and, if necessary, shall make a brief report to the Government or Archdeacon, regarding the condition of such Cemeteries.

XIII. Officers Commanding Regiments or Detachments shall cause a report to be made to the nearest Civil Officer of graves dug for Commissioned Officers, for Non-Commissioned Officers and Soldiers dying on the line of march, in order that measures may be taken for the effectual protection and preservation of such graves.

XIV. At stations where there is no Chaplain or other Clergyman in the pay of Government, the Lay Trustees will perform all the duties assigned to the Chaplain by these rules, with the exception of the approval of the inscriptions, which are to be forwarded to the Chaplain of the station or, during a vacancy, to the Archdeacon; such inscriptions shall not be engraved till the sanction of the Chaplain or Archdeacon is obtained. The Lay Trustees in stations where there is no Chaplain, shall place the key of the Cemetery at the disposal of the visiting Chaplain, on the occasion of that Minister's periodical visits to his out-stations. In the absence of a Clergyman of the Church of England, one of the Lay Trustees, or some Officer appointed by him, shall read the burial service at the interment of all persons entitled to burial according to the rites and ceremonies of the Church of England, and shall forward a return of the same, in duplicate, by the first post, one copy to the Registrar of the Diocese, Madras, and the other to be deposited in the Office of the Collector of the District. Forms can be obtained by application at the Office of the Diocesan Registrar, Madras.

CHURCHES AND CHAPELS.

The following P. W. D. Standing Order, No. 37 of 1865, regarding the expenditure of public money on Churches and Chapels in Military and Civil stations, is, we learn, to be considered applicable to the Madras Presidency:—

Churches and Chapels in Military and Civil Stations.

The following general principles and rules regarding the expenditure of public money on Churches and Chapels are published for general information, and must be strictly adhered to by local Governments and Administrations in considering proposals for such works, and in according sanction to them:—

I. In the case of purely Military stations, where there is no European population excepting the troops, such as the Hill Sanitaria at Dugshai or Subathoo, &c., applications for Protestant Churches, will not, as a rule, be entertained by the Government, and a Regimental School-room or other large suitable building should be made available for Divine worship.

II. Where, however, a Military station is of a permanent character, and there is also a Civil European community, Protestant Churches are desirable, and will be constructed by the Government.

III. Roman Catholic Chapels will be provided by the Government to the extent required for troops in those Military stations in which sanction is accorded to the erection of Protestant Churches.

IV. The amount of Government Grant for a Protestant Church, will, in no case, exceed such a sum as will suffice to provide a plain substantial building adapted to its special purposes and large enough to contain the whole congregation which may ordinarily be expected to attend together with such plain furniture as is essentially necessary for the proper performance of the service according to the ritual of the Church of England. It will rest with private individuals to furnish the means of imparting ecclesiastical features, and architectural decorations to the building, should they desire it, and also of supplying additional furniture, or furniture of a more costly description and means of lighting.

V. The same principles with regard to the extent of accommodation and amount of the Government Grants will hold good in the case of Roman Catholic Chapels.

VI. At the chief Civil station of a district, the Government will be ready to provide a small Protestant Church, on a scale commensurate with the probable congregation to be accommodated, whenever the community of the station is willing to bear a portion of the expense, the share taken by the Government being calculated on the principle above laid down, viz., that the Government will provide the cost of the solid and essential parts of the fabric, while it shall rest with the community to supply the means of giving to the building the special architectural character and the distinguishing features of ecclesiastical form, which it is desirable Churches should possess.

VII. The following sums are fixed as sufficient to provide places of worship on the above principles for the various details of troops and for Civil stations. The scale of size for Military stations, and of expense for all Churches or Chapels, now laid down, are in no case to be exceeded without a reference to the Government of India, even though the proposed expenditure may be within the power of sanction, vested in the Local Government or Administration.

RULES RELATING TO THE OFFICE AND DUTIES OF LAY TRUSTEES IN THE DIOCESE OF MADRAS.

Fort St. George, 29th October, 1867.

I. Two Lay Trustees are appointed to each Chaplaincy or station where there is property belonging to or held in trust for the Church of England.

II. At Civil stations, or Joint Civil and Military stations, the Senior Civil Servant should be appointed a Trustee, provided that he is a communicant of the Church of England, and has no objection to hold the office. At Military stations the Officer Commanding the Cantonment or Garrison under the same provisos. When these Officers are unwilling to hold the office the officer next in seniority (Civil or Military as the case may be), if qualified as above, should be nominated.

III. The second Trustee may be any communicant resident at the station, nominated by the Chaplain, and approved by the Bishop.

IV. When the office of either Trustee is vacant, the Chaplain should report the circumstances to the Lord Bishop, for the information of Government, and at the same time nominate a duly qualified person to fill the vacancy.

V. The duties of the Trustees are in many respects similar to those of Church Wardens in England. They are appointed to see that the

* Vide Rules relating to Church and Churchyard or Cemetery are kept in good Burial Grounds, dated Fort order and repair, to provide for the preservation of the Saint George, 29th October, property belonging to the Church, to present to the Bishop or Archdeacon, either on their visitation or immediately

by letter, whatever is wrong or irregular on the part either of the Chaplain or the congregation, and to aid and assist the Chaplain in the performance of his duties.

VI. During the absence of the Chaplain or other licensed Clergymen, one of the Lay

Trustees is, in ordinary cases, the proper person to read the Service and a sermon on Sundays, and to take charge of the Register and other books connected with the Chaplaincy.

N. B.—It is to be borne in mind that Lay Trustees have no power to interfere in the administration of Divine Service, but merely to represent to the Ecclesiastical authorities whatever they may deem objectionable. Their office in this respect is one of observation and complaint, not of control.

VII. The Lay Trustees, in conjunction with the Chaplain or Minister, form a Committee of Management on all Church matters, and should meet for business once in each month, or oftener, if necessary. The assignment of seats in Church and (in places where they are authorized), the collection and disbursement of pew rents, the management of school and charity funds, should be supervised and arranged by the Committee at their Meetings.

VIII. All indents, letters, proceedings and other papers emanating from a Church Committee, are to be signed by both the Lay Trustees (unless for special reasons which are always to be assigned), as well as by the Chaplain; and all indents, letters, &c., received or sent, are to be entered in a correspondence book distinct from that of the Chaplain, and should be produced for examination at Meetings of the Committee.

IX. The Chaplain or Officiating Chaplain or Minister present, as a mark of respect due to religion in the person of its Minister, presides at all Meetings of the Committee of Management and signs proceedings and letters as President, and the two Lay Trustees in the order of their relative rank.

X. The Church Committee are responsible that no alteration is made whatever in the Church or Churchyard without representing the matter to the Archdeacon, who will, except in matters of trifling importance, bring it before Government for their sanction.

XI. When any addition, alteration, or improvement to a Church or other Ecclesiastical building is considered necessary, or when any new building is required, the subject should be brought with full explanation to the notice of the Bishop, who, if approved by him, requests the Archdeacon to submit the same for the consideration and orders of Government, on whose approval the necessary plans and estimates (if not previously furnished) are called for from the Public Works Department.

XII. All ordinary repairs to Ecclesiastical buildings in the provinces, the cost of which does not exceed Rupees 50, are effected, and all trifling articles within the same limit are supplied on the direct application of the Church Committee in the provinces by the District Executive Engineer, and at the Presidency by the Barrack Master. Contingent charges for the supply of matting, blinds, and other articles of a similar kind necessary for each Chaplaincy, not exceeding 50 Rupees per annua, will be entered in a Contingent Bill, which should be submitted for the approval of the Archdeacon.

Rules in regard to the Levy of Ecclesiastical Fees.

ECCLESIASTICAL, *Simla*, the 20th September, 1869, No. 482.—The following amended Rules for the levy of Ecclesiastical fees throughout India, which have been framed by His Excellency the Governor-General in Council, are published for general information in supersession of the Rules which appeared under Notification, No. 518, dated the 18th September, 1868:—

I.—No fees are charged for the performance of the rite of baptism or burial, or for the registration of the performance of those offices.

II.—In addition to the fee for the Surrogate's license, a fee of Rs. 10 shall be charged on all marriages by license, except the marriages of Officers and others in the Military or Naval Service of Her Majesty.

III.—The fee for the Surrogate's license shall be Rs. 50 both at the Presidency Towns and in the interior. No fee will be charged on marriages by banns.

IV.—When registers are searched and copy of any entry given, a fee of one Rupee shall be charged for the first year,* and four Annas for every additional year,* which the search may extend, as well as a fee of one Rupee for the certificate. Soldiers, Sailors and Non-Commissioned and petty Officers are exempted from payment.

V.—A fee of eight Annas for every square foot of ground occupied shall be charged for the construction of any masonry grave in a burial ground.

VI.—A further fee of one Rupee per square foot shall be levied on the erection of a monument in a burial ground: provided, however, that for a simple headstone or flat slab of the size of an ordinary headstone, an uniform fee of Rs. 15 only shall be charged. A fee of Rs. 75 shall be levied on a faculty for the erection of a monument in a Church.

VII.—The fees levied on the construction of masonry graves and the erection of monuments shall form a fund for keeping the burial ground and Church compound in order, except in Calcutta, Madras and Bombay, where they will be credited to Government.

VIII.—British Soldiers and Non-Commissioned Officers are exempted, with retrospective effect, from the payment of any fee for the construction of masonry graves, or for the erection of monuments in burial grounds to the memory of their comrades, wives or children. No monument, however, either regimental or private, shall exceed six square feet, and no masonry grave shall occupy more ground than an area of eight feet by four. The simple stone slab or headstone should be generally adopted.

IX.—The Chaplain may at his discretion reduce, or altogether remit in cases of extreme poverty, the fee for searching registers and making copies, as well as the fee leviable on the construction of masonry graves, but not for the erection of monuments.

X.—The fees prescribed in these Rules should be paid to the Chaplain, or, in the absence of the Chaplain, to the Officer in charge of the burial ground, and shall be duly accounted for.

All fees levied for masonry graves and for cemetery monuments and all other receipts for cemeteries will now be placed at the disposal of the Provincial Governments who will take them as an asset simply with the gross, and will provide per contra in their budgets under the heads "Department Public Works" and "Civil" (Ecclesiastical) respectively, for such repairs as are to be done by the Chaplains or other Officers in charge of cemeteries as laid down in the Resolution of the Financial Department, No. 3915, dated 3rd September, 1870.

Letter from the Officiating Under-Secretary to the Government of India, Home Department, (Ecclesiastical), to the Secretary to Government, Fort St. George, dated Simla, 8th July, 1872, No. 165.

"The Lord Bishop of Calcutta having brought to notice that difficulty is occasionally experienced by Chaplains in collecting fees, under existing rules, on monuments and masonry graves, the Governor-General in Council considers that in all cases where such difficulty arises the duty of collection should be made over by the Chaplain to the Magistrate or Deputy Commissioner in charge of the district in which the burial ground may be situated; and I am to request that, with the permission of His Excellency the Governor in Council, instructions may be issued to the District Officers accordingly."

Orders for the performance of Funeral Rites on verdicts of Coroner's Inquests.

NOTIFICATION.—*Fort Saint George Gazette*, June, 11, 1850, page 623.

The Right Honorable the Governor in Council is pleased to rescind the Order of Government of 5th April 1842, which directs a copy of the verdict of the Coroner's Inquest to be furnished, when practicable, to the Clergyman who is to officiate at the interment of a body on which an inquest may have been held, and the Reverend Chaplains will in future consider the warrant of the Coroner for the interment of a body on which an inquest has been held to be a sufficient authority for their performance of the Burial Service over it, if it would be their duty, under ordinary circumstances, to perform that service.

2. In the provinces where no Coroner's jurisdiction exists, the same course will be observed by the authorities appointed to enquire into the causes of sudden death, and the same difference will be paid by the Clergymen to their certificates of Warrant.

Parties desirous of being married should apply direct to some Surrogate residing near them; but from places where there is no Surrogate, application should be made to the Registrar, who will procure a commission under the Episcopal Seal, authorizing some

persons to administer the usual oath and grant the necessary license. None but a Clergyman of the Church of England can marry by virtue of Episcopal license. Parties who cannot on account of distance obtain the services of a Clergyman to marry them must state the fact, and apply to the Brigade Major, Fort Saint George, who will obtain the permission of the Right Honorable the Governor for their marriage under which the Senior Judicial Officer of any station is authorized by Government to marry them.

In the case of a minor in H. M.'s or the Honorable Company's Services, the written consent of the Governor must be obtained previous to the publication of Banns, or the grant of a license.

Further information respecting marriages can be obtained on application to the Registrar of the Diocese, F. Rowlandson, Esq., B.A., LL.B.

Instructions for the Guidance of Surrogates in administering Oaths and granting Marriage Licenses within the Diocese and Archdeaconry of Madras.

1. The Surrogate will use great caution in examining the parties to be sworn filling up the Forms with the names, rank, and places of residence, and dates at full length.

2. In no case is a License to issue unless the parties are sworn before the Surrogate, and in case of doubt or difficulty the Surrogate will refer to the Registrar as recommended in the Surrogate's appointment.

3. In case the lady to be married has been divorced, the License should issue in her maiden name.

4. In case the party to be married is a minor, consent of the father if living must be obtained, or if the father be dead, the guardian of the person of such minor, and in case there be no such guardian, then the mother of such minor may give consent, unless no person authorized to give such consent be resident in India.

5. In case the party to be married is a minor, either in the Civil or Military Service, and without possessing either parents or guardian in this country, the consent of the Governor of Madras must be obtained by the minor to his marrying under age, unless the proper consent can be shown to be already given on the part of the absent parents or guardians to his marrying as a minor, in which case the consent of the Governor of Madras need not be obtained.

6. If the parties to be married are both of full age (twenty-one years), and both of them are to be sworn, the Surrogate will use No. 1 Form; but if one of the parties is prevented from attending and another person joins in the Affidavit on behalf of the party not present, No. 2 is in such case to be used instead of No. 1.

7. If one of the parties only is of full age (namely, twenty-one years), and the other is under that age, and the parent, next friend, or guardian makes oath on the part of the minor as to age and consent, the Surrogate will use No. 3 Form.

8. If both the parties are minors (under the age of twenty-one years) and the respective parents, next friends, or guardians swear on their behalf No. 4 is to be used.

9. In case the lady to be married is a widow and under the age of twenty-one years, Oath No. 1 is to be used, the Surrogate first running his pen through the words "that they have respectively attained their respective ages of twenty-one years and upwards," and adding at the foot of the oath (above the signature), "the former being twenty-one years of age and upwards, and the latter a widow."

10. The Surrogate having filled up, and the party having read and signed the Affidavit at the proper places, the former will then give the Testament to the party to be sworn, and holding the paper in his hand, say, "You (A.B.) do swear that the contents of this your Affidavit are true. So help you God."

11. The party answers, "I do," and kisses the book, repeating, "So help me God."

12. The same form is observed to each person sworn.

13. The Surrogate will then fill up the License, date and sign it, adding his title as Surrogate, and hand the License to the parties.

14. In case of any caveat entered in the Registry or intimation received through the Surrogate against the grant of a License, the Surrogate will ascertain the particulars and communicate the same to the Registrar for the immediate advice, refusing the License until the result of that reference is known and forwarding any Affidavit sworn.

15. The Surrogate will forward to the Registrar for record all Affidavits as above on the day they are administered, and the Licenses with the Quarterly Returns, unless sooner or whenever required.

16. A fee of Government Rupees fifty to be received by the Surrogate on each License previous to delivery of the same to the parties entitled to receive such License, Rupees sixteen of which fees for the License being due and payable to the Registrar, are to be transmitted to him either on the day the License is granted or with the Quarterly Returns.

Rules for the guidance of Surrogates in administering Oaths and granting Marriage

Licenses within the Diocese and Archdeaconry of Madras.

1. Every application for a license must be made in writing and the names of both the applicants be given in full with the age, race, condition, (i.e., bachelor, spinster, widower, widow, or person whose previous marriage has been dissolved), and occupation; if any, of each, and the place or places in which each has resided for the six months prior to the application.

II. If either of the applicants is a person whose former marriage has been dissolved, the application besides stating such fact, must also state the cause of the dissolution of such former marriage.

N.B.—(a) If the cause of such dissolution be stated to have been adultery, the Surrogate shall require from the applicant, a copy of the Decree of the Court dissolving such marriage, and if it shall become known to the Surrogate, that such former marriage was dissolved on the ground of the adultery of the applicant, the Surrogate shall note such fact on the license, to the end that any Clergyman, other than the Surrogate, who shall marry the parties, may be duly apprised thereof; as no Clergyman is compelled to solemnize the remarriage of such person. (b) If the cause of such dissolution be stated to be, the conversion of the applicant, or applicants, to Christianity, the Surrogate shall enquire satisfy himself, before proceeding in the matter, that the circumstances connected with such conversion, such dissolution, and the proposed marriage be not such as to give occasion to scandal, or reproach.

III. When both applicants are non-residents in the place where the application is made, and are unknown to the Surrogate, he may decline to grant his license, until he shall have had time to make due enquiry, as to whether there be any impediment to the marriage, and may further require from the applicants the names of two or more persons to whom reference may be made.

IV. On a day subsequent to the receipt of the application, which shall be appointing the Surrogate, and shall be not earlier than the fifth day (that is the ninety-seventh) after such receipt, the parties, or one of them, shall in every case appear before the Surrogate, and either one or both swear to the "Affidavit of Residence," to which written application for the license shall be annexed by way of an exhibit, being made as such, and endorsed as follows by the Surrogate:—

Surrogate.

V. The Surrogate will use great caution in examining the parties to be sworn, filling up the forms with the names, rank, and places of residence, and dates at full length.

VI. In no case is a license to issue unless the parties are sworn before the Surrogate, and in case of doubt or difficulty the Surrogate will refer to the Registrar as recommended in the Surrogate's appointment.

VII. In case the lady to be married has been divorced, the license should issue in her maiden name (see Rule 2).

VIII. In case the party to be married is a minor, consent of the father, if living, must be obtained, or if the father be dead, the guardian of the person of such minor, and in case there be no such guardian, then the mother of such minor may give consent, unless no person authorized to give such consent be resident in India.

IX. In case the party to be married is a minor, either in the Civil or Military service, and without possessing either a parent or guardian in this country, the consent of the Governor of Madras must be obtained by the minor to his marrying under age, unless the proper consent can be shown to be already given on the part of the absent parents or guardians to his marrying as a minor, in which case the consent of the Governor of Madras need not be obtained.

X. If the parties to be married are both of full age (twenty-one years) and both of them are to be sworn, the Surrogate will use No. 1 Form; but if one of the parties is prevented from attending and another person joins in the affidavit on behalf of the party not present, No. 2 is in such case to be used instead of No. 1.

XI. If one of the parties only is of full age (namely, twenty-one years), and the other is under that age, and the parent, next friend, or guardian makes oath on the part of the minor as to age and consent, the Surrogate will use No. 3 Form.

XII. If both the parties are minors (under the age of twenty-one years) and the respective parents, next friends, or guardians swear on their behalf, No. 4 is to be used.

XIII. In case the lady to be married is a widow and under the age of twenty-one years, Oath No. 1 is to be used, the Surrogate first running his pen through the words, "that they have respectively attained their respective ages of twenty-one years and upwards," and adding at the foot of the oath (above the signature), "the former being twenty-one years of age and upwards, and the latter a widow."

XIV. The Surrogate having filled up, and the party having read and signed the Affidavit at the proper places, the former will then give the Testament to the party to be sworn, and holding the paper in his hand, say, "You (A. B.) do swear that the contents of your affidavit are true. So help you God."

The party answers, "I do," and kisses the book, repeating, "So help me God."

The same form is observed to each person sworn.

The Surrogate will then fill up the license, date and sign it, adding his title as

Surrogate, and hand the license to the parties.

36. CLERGYMEN NOT BEING CHAPLAINS OR MISSIONARIES. [PART VIII.]

XVIII. In case of any caveat entered in the registry or intimation received through the Surrogate against the grant of a license, the Surrogate will ascertain the particulars and communicate the same to the Registrar for immediate advice, refusing the license till the result of that reference is known and forwarding any affidavits sworn.

XIX. The Surrogate will forward to the Registrar for record all affidavits as above on the day they are administered, and the licenses with the Quarterly Returns, unless sooner when ever required.

XX. A fee of Government Rupees fifty to be received by the Surrogate on each license previous to delivery of the same to the parties entitled to receive such license, Rupees sixteen of which fee for the license, being due and payable to the Registrar, are to be transmitted to him on the day the license is granted.

N.B.—Although every Surrogate has legal power to issue a license under which a marriage can be solemnized in any church or place where Divine Service is usually performed in any part of this Diocese, it has always been the custom for the Surrogate or one of the Surrogates in the District in or near to which the parties usually have resided to grant them his license even if it should be the wish of the parties that the marriage should be solemnized by some Clergyman other than such Surrogate. And of this custom the careful observance is enjoined on all Surrogates by the Right Reverend the Lord Bishop of the Diocese.

(By Order.)

Registrar of the Diocese and Archdeaconry of Madras.

I.

CHANGE OF THE CEMETERY.

The whole cemetery thus divided is to be surrounded ave but one gate of entrance, and to be under the care of the officer speci-

(1.)—Ministers of all denominations have a right to conduct the service of the body of any deceased member of their respective congregations who may a any fitting portion of the ground set apart for the denomination to which he belonged. At least six hours previous notice of the burial should be given to the charge of the burial ground, or in the absence of the Chaplain, to the is may be in actual charge. The person herein mentioned may, for an ill Wa- shortened with the permission of the Chaplain or officer in charge of the same, such Chaplain or officer will, if he thinks the circumstances of the case demand it, in facts to the notice of the local Magisterial authorities in time to admit of an topping the burial being passed if necessary.

Rule VIII.—No burial can take place in that part of a Government cemetery which been set apart for the use of members of the Church of England, unless the service cribed by that Church is read by the Chaplain if that be done, or, in his absence, by a layman who officiates at the funeral. But a person may be interred in the other por- ns of a Government cemetery with or without the use of any service of religion.

ARRANGEMENTS FOR FUNERALS.

Rule IX.—The arrangements for making the necessary preparations for digging graves, preparing coffins, and the like, should rest in military stations upon the senior military officer, and in civil stations upon the chief local Magistrate. These officers are autho- rized to direct any local Public Works officer to supply all that is necessary. The local Public Works officer would usually be the Executive Engineer of Military Works in Mil- itary stations, and the Civil Executive Engineer in other stations. The expenditure in- curred by the Executive Engineer will be held in his miscellaneous advance account until repaid by the officer authorizing the expenditure. But in cases of necessity or emer- gency, either officer may be called upon to do what is required.

Rule X.—The officer in charge of the cemetery shall keep a plan of the entire ceme- tery to be provided by the Public Works Department, with references written upon it, in a book, in which the names of parties interred are recorded; this plan and book being kept with the church registers.

16. Private contributions. When private contributions are made towards building a Church in aid of a Government grant, the procedure to be adopted is as follows:—

17. Basis of design and estimate. The amount of private contributions being known, a definite design and estimate will be prepared by the Executive Engineer, and submitted for sanction in the usual way, the limit by which the Executive Engineer will be guided in his designs being the aggregate of the Government grant according to the scales given in paras. 8, 9 and 11, and the amount of private contributions actually realized.

18. Private contributions to be deposited. Before the work is commenced, the amount of the private contributions must be paid into a Government Treasury, and carried to credit of Deposits in the accounts of the Public Works Department, as laid down in Chapter XX, Section v, para. 16. The expenditure incurred from the Government grant, and the contributions, will be adjusted in the manner directed in Chapter XX, Section ii, para. 51, and on the principle laid down in para. 53 of the same Section.

Note.—In the case of a grant from the Church building fund for the Diocese of Calcutta, a certificate instead of a cash payment in advance may be accepted showing the amount of the contribution to be allowed. The conditions on which this certificate may be ac- cepted are that in every case definite arrangements must be made with the Local Govern- ment or administration concerned respecting the precise dates on which the contributions will be paid, and that, until the payment is made, the Government shall have a primary lien on the funds of the Society. In case of any failure in paying up the stipulated payment on due date, the privilege herein allowed is to cease.

19. Mode of treating these contributions. In dealing with cases of this nature, unless it be otherwise specifically ordered, the private contribution is to be looked upon as an addition to the Government grant, instead of the money allowed from Public Funds being considered as a grant-in-aid of private contributions, and the responsibility of Public Works Officers with respect to the preparation of estimates, and the construction of such buildings with reference to excess of expenditure over the estimate, will be as strictly enforced as in a case where only public funds are expended.

20. Supply of Church furniture to be regulated by following rules. The supply of Church furniture will be regulated by the following rules. All expenditure connected with the articles to be supplied by the Public Works Department will be provided for under the rules laid down in Chapter Section of Code.

The Executive Engineer will be guided in granting the certificates above alluded to by the following principles:—

Class I.—Churches built by Government.—The certificate should state that the Church was built by Government for the use of European Troops or British-born European subjects in the service of Government or of the local Railway Company, and is still maintained for the same purpose.

Class II.—Churches which have received building grants from Government.—The certificate should state that the Church received a building grant of Rs. _____, equal to the _____ part of the total cost of the building, and that the grant was made on account of European Troops or British-born European subjects in the service of Government or of the local Railway Company, and that the building is still used by them.

For this class of Churches a proportion of the standard cost of the articles will be sanctioned equal to the proportion of the grant-in-aid to the total cost of the building itself.

Class III.—Churches rented by Government.—The certificate should state that the Chapel is wholly rented by Government for the use of European Troops or British-born European subjects in the service of Government or of the local Railway Company.

In this class the articles necessary for service will be given by the Military Department, but returned into Store if the building ceases to be rented for the performance of Divine Service to a Military congregation.

In none of the classes described above should any article of furniture be allowed with retrospective effect, and the required certificates should afford information as to when the article was originally supplied, and by whom, and the reason for recommending its renewal. When, however, the Government pay for the use of a certain varying number of seats in a Church, the hire of the seats should include everything necessary for the performance of the Service.

V.—When a Church, whether Protestant or Roman Catholic, is to be furnished, the Executive Engineer should communicate with the Ecclesiastical authorities concerned with a view to afford the congregation an opportunity of furnishing the Church by private

or Roman Catholics, in the service of Government or of a Railway Co. If no Church exists already, the Government will contribute towards the cost of the building upon the following terms:—

(1). Number of sittings required.	(2). Maximum Government grant.
	Rs.
25	2,000
50	3,500
100	5,000
150	6,000
200	7,000
250	8,000
300	9,000
350	10,500
400	12,000
For any excess over.....400	Rupees 30 per seat in excess.

Note.—For Protestants accommodation will be provided for the Church of England service only.

Number of sittings to be provided to include provision for women, children & pensioned soldiers. In ascertaining the number of seats to be provided, women, children and pensioned soldiers and their families may also be taken into account, two children being counted as one adult. In cases of stations where abnormal rates prevail, special application may be made to the Government of India for an increase to the grant given by the State.

Limit on number of sittings to be provided. But no grant for more than 200 sittings will be made except at seats of Local Governments and Administrations, at Hill Sanatoria, or at Railway Depôts. In the two latter cases, the number of European-born British subjects in Government or Railway service must exceed (without their families) 120, to warrant the grant for a Church of greater accommodation than 200 sittings. When the number of sittings required is intermediate between the number given in the table, the grant for the seats in excess of the nearest number below the number required will be at the rate of the next lowest number in the table. And in no case will the Government grant be allowed until these contributions, together with the grant, amount to the estimated cost of the Church.

11. Church accommodation to be provided only for British-born European subjects. The number of sittings required for any particular Civil Station, other than a Railway Depôt or Station, will be finally determined by the Government, solely with regard to the number of the British-born European subjects in the service of Government. No grant for Churches in Civil Stations will be made until private subscriptions have been obtained, and then the Government grant will not exceed double the amount of private subscriptions actually realized; the maximum figure in column 2 of the Table above being in any case the extreme limit of the grant towards the scale of accommodation which stands opposite in column 1.

12. Combination of Civil with Military Church. It is desirable, whenever such a course will not be attended by inconvenience, to combine the Civil with the Military Church of a Station, the grant allowed for the Church accommodation of the British troops given in para. 9 being supplemented by a grant according to the scale shown in para. 10, and to the probable number of seats that will be required for the Civil British-born European residents in the service of Government or of a Railway Company.

General.

13. Authorized scale not to be exceeded. The scales of sizes, and of expense, for all Churches above laid down, are in no case to be exceeded without a reference to the Government of India, even through the proposed expenditure from Public Funds may be within the powers of sanction vested in the Local Government or Administration.

14. House for Chowkedar to be provided: as also in certain cases for other servants. A house for the Chowkedar or resident bearer may be provided. In cases, however, where the Church is distant from the bazaar, and where special grounds are shown, accommodation may be provided for other duly authorized servants, but such further accommodation will be limited to shelter for day use only. These houses should, when practicable, be adjoining to, and not within the Church compounds, but when within them they should be erected in keeping with the other Church buildings.

15. Churches for non-official residents require sanction of Government of India. Church accommodation for non-official residents, either British-born Europeans or others, or for official residents other than British-born, should not be sanctioned by the Local Government or Administrations without reference to the Government of India.

REVISED RULES.

Section IV.—ECCLESIASTICAL.

A.—CHURCHES.

Classification of charges. All charges for Churches, whether in Civil or Military Stations, are dealt with under the general head Civil Buildings. In the case of Churches in Stations where there are Military Cantonments, and the Military Works in which are the charge of the Inspector-General, Military Works, and in the case of those Churches in Provinces to which the Provincial Service arrangements do not apply, the necessary funds for the works will be provided for from the Ordinary grant for Imperial Works under "Other Services." In other cases the funds will have to be provided for from the allotment for Provincial Services.

Expenditure of Government money on Churches. The provision from Public Works funds of Churches at Military and Civil Stations is authorized under the limitations set in the following paragraphs.

Military Stations.

3. **Costs in which Churches will be provided.** At all permanent Military Stations, Churches will be provided by the Government for its Protestant and Roman Catholic British-born European Soldiers on the scale laid down in paragraph 6.

4. **Amount of grant for a Protestant (Military) Church.** The amount of the Government grant for a Protestant Church at a Military Station will in no case exceed such a sum as will suffice to provide a plain, substantial building of the simplest ecclesiastical design together with such plain furniture as is essentially necessary for the proper performance of the service according to the ritual of the Church of England. It will rest with private individuals to furnish the means of imparting any but the simplest ecclesiastical features and architectural decorations to the building, should they desire to do so, and also of supplying additional furniture, or furniture (including apparatus for lighting) of a more costly description.

5. **Roman Catholic Military Churches.** The same principles will regulate the grant for Roman Catholic Churches at Military Stations.

6. **Number of sittings to be provided in Military Churches.** The number of sittings to be provided in Churches in Military Stations will be calculated on the following scale:

DETAIL.	PROTESTANT.	ROMAN CATHOLIC.
	Numbers.	Numbers.
Regiment of British Infantry	400	300
Wing of " "	200	150
Regiment of " Cavalry	250	150
Wing of " "	150	100
Troop of Horse Artillery or Light Field Battery	100	50
Heavy Field Battery	100	50
Garrison Battery	50	..

7. **May include provision for additional sittings in certain cases.** Any reasonable provision that may be necessary can also be made for Staff Officers, Officers of Native Regiments, and where no Civil Church exists, for British-born European subjects in the service of Government or of the local Railway Company.

8. **Limitation on provision of Churches in each station.** As a rule, only one Protestant Church and one Roman Catholic Church will be provided at any Military Station, and where the number of sittings required for the troops according to the scale given in para. 6 is very large, the size of the Church may be regulated so as to allow of at least one-half of the troops attending service at one time.

9. **Government grant for Churches.** The Government grants for Churches at Military Stations will be regulated on the following basis. The Executive Engineer should prepare a ground plan, which will afford accommodation for the total congregation to be provided for, according to the scale laid down in paras. 6 and 7, allowing 6 superficial feet per sitting, exclusive of all passages and other parts not actually occupied by the congregation. To the total superficial area thus arrived at and sanctioned by competent authority may be applied a rate per superficial foot 25 per cent. in excess of that which prevails at the Station (or at any Station in the District where the general rates for works are the same) for ordinary single-storied buildings. The result will represent the Government grant.

Civil Stations.

10. **Churches at Principal Civil Stations.** At the chief Civil Station of a District, or at a Railway Station where there are at least 25 British-born European subjects, Protestants

ERECTION AND REPAIR OF MONUMENTS.

RULE XI.—Monuments may be erected by any interested person. The inscription before being cut, and the design, must be first approved of as laid down in Rule V, and the dimensions of the monument must accord with the orders in paragraph 3, Home Department Resolution* No. 6—370-82, dated 9th November 1876.

* Appendix A.

RULE XII.—(1.) The Chaplain should communicate with the friends of the deceased when a monument needs repairing, or, when such communication is not possible, advertise three times in the *Gazette of India* and the *Gazette of the Province*; and if it falls into a ruinous condition, and no party will undertake to restore it, the ruined monument must be made level with the ground during the next repairs, and any slab it contained must be placed over the grave in simple masonry, or be inserted in the wall.

(2.) All work connected with monuments must, as far as possible, be carried on outside the cemetery; and any undertaker not removing the debris of his work immediately upon its completion is liable to a fine of Rs. 6.

Note.—This rule does not apply to monuments of historical or archaeological interest. Lists of such tombs should be obtained by Local Governments and Administrations, and as many of them as may be properly preserved at the public expense should be looked after by the local Public Works Department.

INSPECTION.

RULE XIII.—The cemetery should be inspected once in a half-year by the Chaplain in company with the Executive Engineer, the plan and book kept under Rule X being also examined, and a report made to the Archdeacon, and recorded in the Ecclesiastical record-book of the station, and also in the Engineer's Office.

RULE XIV.—(1.) Commissioners of Divisions should inspect cemeteries, whether closed or in use, within their respective jurisdictions in the course of their annual tours and should bring to the notice of the local Government any instances of cemeteries which are negligently kept, or which the officers in charge may have allowed to fall into a state of bad repair or disorder. All cemeteries are equally subject to the visitation and supervision of the Bishop and Archdeacon.

(2.) Sanitary officers in cantonments are invited to inspect cemeteries within their respective cantonments, and to report to Local Governments any matter calling for notice.

MISCELLANEOUS.

RULE XV.—It is desirable that officers commanding regiment or detachments should be instructed to cause a report to be made to the nearest civil officer of graves dug for soldiers on march, that measures may be taken for their effectual protection and preservation. These graves and all scattered Christian graves throughout the district are under the care of the local civil authorities.

RULE XVI.—The above rules do not apply to Presidency cemeteries which have rules of their own.

II.

Rules regarding the levy and expenditure of Fees on Masonry Graves and Monuments in Cemeteries and Churches throughout India.

WHAT FEES ARE PAYABLE, AND BY WHOM.

RULE I.—A fee of 8 Annas for every square foot of ground occupied shall be charged for the construction of any masonry grave in a burial-ground.

NORMS.—(1.) This fee is independent of the actual charge for making a grave.

(2.) The fee leviable on a masonry grave regularly built up to the level of the ground is also leviable on a masonry grave which is not built up to the level of the ground, but which is only over and round the coffin.

(3.) The "ground occupied" is to be regulated according to the rule laid down in paragraph 3 of Home Department Resolution* No. 6—370-82, dated 9th November 1876.

* Appendix A.

(4.) The same fees which are levied on pukka graves should also be levied on cutcha graves which have pukka foundations.

RULE II.—A further fee of one Rupee per square foot shall be levied on the erection of a monument in a burial-ground; provided, however, that for a simple headstone or a slab not more than 3 feet 6 inches in height or length, and 2 feet in width, a uniform fee of Rs. 5 only shall be charged. A fee of Rs. 75 shall be levied on a faculty for the erection of a monument in a church.

NORMS.—(1.) A tablet on the wall of a cemetery is to be regarded as a monument.

(2.) "Simple headstone." A cross no higher than a usual headstone and no longer than a usual flat stone is included in this description.

(3.) When a monument is erected over a masonry grave, the total of the two fees will be equivalent to one and a half Rupee for each square foot of ground occupied.

(4.) The fee of Rs. 75 levied on a faculty, drawn in the case of non-Government churches by the present incumbents of the office of Registrar of the Diocese in Calcutta and Bombay, shall cease on a vacancy occurring in the appointment. The money is to be spent in charity as in the case of Government churches.

RULE III.—When a cenotaph is erected in a cemetery, a fee of Rs. 50 should be levied in addition to the fee charged for the ground occupied, and the space should be strictly limited to six feet square.

RULE IV.—Fees for masonry graves and monuments should be levied over the whole cemetery, including those portions which are used by Roman Catholics and Non-conformists.

NOTES.—(1.) The same rules in regard to fees apply to all graves, whether of Roman Catholics, of Non-conformists, or members of the Established Church.

(2.) Where a parcel of ground used for burial by a Christian community of any particular denomination other than the Established Church of England forms no part of the general cemetery but is separate from it, or where, although not so separate, it is clearly distinguishable and was not originally acquired, and has not been kept up at the expense of the State, then, if the community by which the ground is used so desire, the Government will give up all claim to fees, on the distinct understanding that it is divested of all responsibility for the maintenance of the cemetery in proper order. On the other hand, where such parcels of ground form part of a cemetery of the Established Church or the general Christian community, provided and maintained by the Government, no distinction can be made as to keeping up any one part of the cemetery, nor should any exemption from fees be permitted.

EXEMPTION FROM FEES IN GOVERNMENT CEMETERIES.

RULE V.—British soldiers and Non-commissioned officers are exempted, with retrospective effect, from the payment of any fee for the construction or masonry graves, or for the erection of monuments in burial-grounds to the memory of their comrades, wives, or children. No monument, however, either regimental or private, shall exceed the

* Appendix A.

dimensions prescribed in paragraph 3, Home Department Resolution, No. 6-370-82, dated 9th November 1876.

NOTES.—(1.) This rule is applicable to the British soldiers and Non-commissioned officers whether in military or civil employ.

(2.) Monuments erected under this rule subscribed for partly by Non-Commissioned officers and men, and partly by officers, are likewise exempted from the prescribed fee.

(3.) Warrant officers are not exempted from payment of ecclesiastical fees.

RULE VI.—The Chunar pensioners being more or less under military control come under the category of soldiers, and are therefore entitled to the same exemptions as soldiers. But this ruling does not apply to other pensioners who are not similarly under military control.

RULE VII.—The Chaplain may at his discretion reduce, or altogether remit in cases of extreme poverty, the fee leviable on the construction of masonry graves, but not for the erection of monuments.

NOTE.—The Bishop on special occasions may sanction a reduction or remission of fees for the erection of monuments.

FEES BY WHOM TO BE COLLECTED.

RULE VIII.—In those stations in which a mason has been appointed, who alone is allowed to work within the cemetery, he is required, in exchange for the monopoly, to collect the fees on monuments and masonry graves, and pay them to the Chaplain; and any person ordering the construction of a masonry grave or monument by a mason or undertaker other than the person appointed by the Chaplain must pay the fees in advance.

NOTE.—Fees on masonry graves and monuments constructed by the appointed mason or undertaker need not be paid in advance, but, in case of failure of payment, their recovery must be entrusted by the Chaplain to the Magistrate or Deputy Commissioner as the case may be.

FEES TO WHOM TO BE PAID.

RULE IX.—The fees prescribed in Rules 1, 2, and 3 should be paid to the Chaplain or, in the absence of the Chaplain, to the officer in charge of the burial-ground and remitted at once to the Civil Treasury, except fees for monuments in churches, which would be paid over by the Chaplain to the charitable objects to which the Bishop assigns them when his faculty is issued.

CEMETERY RECEIPTS AND CHARGES.

† Appendix A.

RULE X.—All cemetery receipts and charges to be regulated as laid down in paragraph 4 of Home Department Resolution† No. 6-370-82, dated the 9th November 1876.

MISCELLANEOUS.

RULE XI.—(1.) A person may not purchase a portion of a Government cemetery as a burial-place for himself and his family, so as to have a right to fence it with a rail or fence, and thus make it the private property of himself and family. But when such rights already exist, they are not without reason to be interfered with, and special cases as they arise may require exceptional treatment. And in such cases the Archdeacon may exercise his discretion with the sanction of the local Government.

(2.) All private rights must, however, cease if for sanitary or other public reasons the cemetery is closed against burials, or even that portion of it in which the private ground

is situated, but in special cases the Archdeacon may exercise his discretion of giving permission to open a vault or masonry grave.

(3.) No kutchra grave can be opened in any cemetery for the purpose of converting it into a masonry grave without application to the Archdeacon, which must be accompanied by a certificate from the Principal Medical Officer that this may be done without risk to public health.

RULE XII.—(1.) When a piece of ground is granted by Government as a cemetery to a Railway Company for the interment of its own servants, which afterwards keeps it in repair and provides the necessary establishment, so that beyond the original grant of ground Government is at no expense, the collection and application of fees accruing is left to the decision of the Railway Company which maintains the cemetery in good order and repair.

(2.) The Commissioner or District or Judicial Officer, and in military stations the officer commanding, should inspect such cemeteries and report to Government if they find them negligently kept.

III.

Other Ecclesiastical Fees.

RULE I.—No fees are charged for the performance of the rite of baptism or burial, or for the registration of the performance of these offices.

RULE II.—In addition to the fee for the Surrogate's license a fee of Rupees 10 shall be charged on all marriages by license, except the marriages of officers and others in the Military or Naval Services of Her Majesty.

RULE III.—The fee for a Surrogate's license shall be Rupees 50 both at the Presidency towns and in the interior. No fee shall be charged on marriages by banns.

RULE IV.—When registers are searched and a copy of any entry given, a fee of Rupee one shall be charged for the first year,* and four Annas for every additional year over which the search may be taken to mean any one year extend; as well a fee of Rupee one for the certificate indicated by the applicant. Soldiers, sailors, and Non-Commissioned and petty officers are exempted from payment.

NOTE.—The amount of fees payable for marriages performed, and for searching registers kept in accordance with the provisions of Act XV of 1872 (The Indian Christian Marriage Act), is fixed by each local Government.

APPENDIX A.

Extract from the Proceedings of the Government of India in the Home Dept. (Ecclesiastical), Nos. 6-370-332, dated Simla, the 19th November 1876.

Read Home Department Resolution, Nos. 314 to 318, dated 6th October 1875, appointing a Committee to report upon the following matters connected with ecclesiastical administration:—

- (1.) The framing of joint estimates for expenditure on cemeteries or churches by the Executive Engineer and the Clergyman in charge.
- (2.) A revision of establishments for cemeteries according to their area.
- (3.) The size of monuments and amount of ground that may be enclosed.
- (4.) Provision for planting cemeteries and preserving them in decent order.
- (5.) Mode of supply of certain articles of church furniture.
- (6.) The substitution of three for two classes of churches with respect to the expenditure allowed for them by Government.

Read the Report of the Committee, dated 29th October 1876.

Resolution.—The Report of the Committee has been considered by the Governor-General in Council, who desires to express to the Committee his satisfaction at the result of their labors.

The following rules have been approved relative to the subjects referred to the Committee for report:—

- I. Churches and cemeteries have already been divided into two classes: (1), those in Public Works Department, stations where there are military cantonments and the No. 458-A-G, dated 13th July 1874, military works which are under the charge of the Inspector-General of Military Works; and (2), those in other military cantonments and civil stations.

In both classes of stations joint estimates* of expenditure should be framed annually by the undermentioned officers:—

- (a.) In the case of all expenditure connected with establishments, By the Chief Magistrate of the District and by the Chaplain.
- (b.) In the case of all expenditure connected with the provision of articles of church furniture supplied by the Civil Department.

* **NOTE.**—The estimates should be for the financial year and should be prepared in advance, as is prescribed for other Budget Estimates.

(5.) In the case of all expenditure connected with repairs and additions to church fabric, to church compound or cemetery walls, to cemetery gates, walks, wells, choulidars, or other church servants' houses, provision of necessary appliances for graves or for the repair of tombs, or for the planting of trees and shrubs in cemeteries and keeping the same in decent order; also all expenditure by Government connected with the provision of articles of church furniture supplied by the Public Works Department.

By the Executive Engineer and by the Chaplain.

The estimates of expenditure are to be prepared by the Executive Engineer and the Chaplain should show distinctly the probable charge under each of the following heads:—

- I.—New works connected with additions to existing churches and improvements to church compounds.
- II.—New supplies of furniture for churches and sanctioned articles of church use.
- III.—New works connected with additions to existing burial-grounds.
- IV.—Repairs to churches and church furniture and maintenance of church compounds.
- V.—Repairs to burial-grounds to be executed by Public Works Officers.
- VI.—Repairs to burial-grounds, including planting and cleaning, to be entrusted to the Chaplain or Chief Civil or Military Officer of the station or cantonment, under paragraph 4.

It would be convenient if distinct estimates were prepared for each of these classes of expenditure.

The provision of funds to meet the charges above enumerated will be made in the Budget Estimate for the Public Works Department. The estimates for the same will be subject to the scrutiny of, and be passed by, the Superintending or Chief Engineer or local Government or Administration, according to the rules in force in the Public Works Department.

In stations in which the churches and burial-grounds are under the local Government and Administrations in which the Provincial Service arrangements are in force, the charges debitable to the Public Works Department will be provided for in the Provincial Public Works Budget Estimate. In other Provinces and in the Military Works Branch the charge will be provided for in the Imperial Public Works Budget Estimate under Civil Buildings.

2. The following scale of establishments should be maintained at all cemeteries:—
 - (i.) For a cemetery of which the area is five acres or less, one mali-chaulkidar;
 - (ii.) For a cemetery of which the area is more than five and less than ten acres, one mali-chaulkidar and one assistant cooly;
 - (iii.) For a cemetery of which the area is more than ten and less than fifteen acres, one mali-chaulkidar and two assistant coolies;
 - (iv.) For a cemetery of which the area is more than 15 acres, one mali-chaulkidar and three assistant coolies.

It is left to the local Governments and Administrations to determine the proper wages to be given to each servant. The cost of this establishment will be charged to Provincial Services in the case of these local Governments and Administrations in which the Provincial Service arrangements are in force, and in the case of other local Governments, Administrations and the Military Works Branch of the Public Works Department to Imperial Funds. In either case the charge will be included in the Civil Budget Estimate.

3. The size of kutcha and pukka graves should be limited to 8' x 4', and the amount of ground to be enclosed should be restricted to 11' x 7', by external measurement in both cases. No monument over a pukka grave must exceed 8' x 4' at the base, except with the previous sanction of the local Government concerned. A simple cross or head-stone on an adequate masonry foundation, not exceeding 3' x 2', is the only monument that should be allowed over a kutcha grave; no kutcha grave should be enclosed by a railing.

4. No portion of the receipts from cemeteries should be retained by any Government officer to be directly expended by himself; all such receipts should be paid into the Civil Treasury to the credit of the Public Works Department. In the case of receipts from cemeteries in charge of the Military Works Branch and under those Governments and Administrations in which the Provincial Service arrangements are not in force, the credit will be treated in the Public Works accounts as a receipt under Imperial Public Works Revenue. In the case of the other Governments and Administrations the credit will be raised to Provincial Service Public Works Revenue. But the amount passed upon the joint estimate framed by the Executive Engineer and Chaplain to provide for planting a cemetery and preserving it in decent order should be entrusted to the Chaplain where there is one. Where there is no resident Chaplain, the amount should be placed at the disposal of the Chief Magistrate on the spot, or of the senior Military Officer if the cemetery is attached to a military cantonment. The necessary funds for the purpose will be advanced by the Executive Engineer concerned to the Chaplain or Civil or Military Officer. Bills for the expenditure should be rendered by the officer to whom the advance has been made, either monthly or otherwise, to the Executive Engineer, who will charge for the amount thereof in the usual way in his accounts. Until the bills are received and charged off, the advance will be placed in the Miscellaneous Advance Account of the Executive Engineer. All planting of shrubs and trees by private persons in cemeteries should be

under the control of the Chaplain if resident, otherwise under that of the Magistrate or senior Military Officer, as the case may be. When practicable a well should be sunk in or near every cemetery.

In connection with the preservation of cemeteries in decent order, attention is invited to the rule cited on the margin. This rule, however, should not be applied to monuments of historical or archaeological interests.

The Chaplain should communicate with the friends of the deceased when a monument needs repairing; and if it falls into a ruinous condition, and no party will undertake to restore it, the ruined monument must be made level with the ground during the next repairs, and any slab it contained must be placed over the grave in simple masonry or be inserted in the wall by the Government officer. (Rule VII, *Diocese of Calcutta Burial-ground Rules*.) Lists of such tombs should be obtained by the local Governments and Administrations, and as many of them as may be properly preserved at the public expense should be looked after by the Local Public Works Department.

5. It should be understood that the Government cannot provide cemeteries at the public expense for Native Christian communities.

NOTE.—Where their number is small, the question is of little importance and is best arranged by mutual concessions or by special provisions made locally by the parties immediately concerned. And I am to suggest for His Lordship's (Bishop's) consideration, whether, if the necessity of dealing at the present time with this matter of Native Christian interment be in his judgment unavoidably established, it should not be carefully examined in consultation with the several local Governments, having regard to the diverse needs and circumstances of the population in each separate province.

6. It is not considered necessary to make any alteration in the existing rules regarding the mode of supply of church furniture.

7. Further orders will be passed on the sixth point referred to the Committee for report.

8. The arrangements for making the necessary preparations for digging graves, preparing coffins, and the like, should rest in military stations upon the senior Military Officers, and civil stations upon the chief local Magistrate. These officers are authorised to direct any local Public Works Officer to supply all that is necessary. The "local Public Works Officer" would usually be the Executive Engineer of Military Works in military stations, and the Civil Executive Engineer in other stations. The expenditure incurred by the Executive Engineer will be held in his Miscellaneous Advance Account until repaid by the officer authorizing the expenditure. But in cases of necessity or emergency either officer may be called upon to do what is required.

NOTE.—The intention of this paragraph is to provide an ultimate authority in case of difficulty, and existing arrangements need not be disturbed.

RESOLUTION.—On a reconsideration of the subject, the Government of India think it necessary to modify the rules contained in the Resolution of 8th September 1875, so far as regards the burial of deceased Roman Catholics. The Government of India have now decided:

1st, that at stations where there is a Roman Catholic Priest drawing an allowance from Government, he shall be held bound to read the burial service over the body of every deceased Roman Catholic brought for burial, unless he be excused from doing so by the rubrics and canons of the Roman Catholic Church; and that when the Roman Catholic Priest refuses to read the burial service over the body of a deceased Roman Catholic soldier, the Military authorities shall make proper arrangements for the decent interment of the corpse;

2ndly, that where there is no Roman Catholic Priest paid by the State, the Protestant Chaplain shall, if requested by the friends of the deceased, or by the Officer Commanding, be bound to bury the deceased according to the rites and ritual of the Church of England, except in either of the three cases in which Protestant Chaplains in India are excused from burying a deceased Protestant, viz., dying unbaptized even by lay baptism; excommunicated by the major excommunication; or declared to be *felo de se*; and that when a Protestant Chaplain refuses to officiate at the burial of a deceased Roman Catholic

soldier on either of the three abovementioned grounds, the Military authorities shall, as in the case of refusal by a Roman Catholic Priest, make proper arrangements for the decent interment of the corpse;

3rdly, that whenever, with or without furnishing any explanation of his reasons, a Roman Catholic Priest paid by the State, or a Protestant Chaplain refuses to perform the funeral rites of his Church over the body of a deceased Roman Catholic soldier, the circumstances of the case should be fully reported by the Military authorities for the consideration and orders of the Government of India.

2. The Governor-General in Council is accordingly pleased to direct the modification in the above sense of the provisions of paragraphs 15 to 19 inclusive of the Resolution, 6th September 1873.

* Senior Marriage Registrar.

THE INDIAN CHRISTIAN MARRIAGE ACT XV OF 1872.

ECCLIASTICAL DEPARTMENT, Fort St. George, March 14, 1874.

Rules for the submission to Government of the Returns of Marriages solemnized under Act XV of 1872, and for the disposal of marriage fees.

Under the provisions of Section 83 of the Indian Marriage Act (No. XV. of 1872) the Right Honorable the Governor in Council is pleased to direct the observance of the following Rules for the disposal of the fees prescribed by Section 82, the supply of register books, and the preparation and submission of returns of marriages solemnized under the Act.

Head I.—Rules relating to Persons who have received Episcopal * Ordination (but who are not Clergymen of the Church of England nor the Church of Rome), and to Ministers of Religion who, under Section 8 of the Act, have obtained licenses to solemnize marriages.

Definition of "Minister." 1. The term "Minister" will be used for both of these classes of officers under this Head.

2. As required by Section 81 of the Act, a Minister will forthwith detach from his marriage register book every certificate of marriage solemnized by him and transmit it, within one month from the time of solemnization of such marriage, to the Marriage Registrar or Senior Marriage Registrar of the District, or to the

Magistrate of the District, when there is only one Marriage Registrar in a district, and such Registrar is absent from the District, or ill, or his office is temporarily vacant (Section 7). Ministers in Madras should forward their certificates to the Senior Marriage Registrar for the Town of Madras.

3. The form to be used by Ministers for this purpose is given in the fourth schedule of the Act.

4. The Marriage Registrar or Magistrate acting under Section 7 on behalf of the Marriage Registrar, as the case may be, is required by Section 82 and the two following sections of the Act:—

(a)—To add to each certificate the number of the entry of the copy in the book to be kept by him under Section 31;

(b)—To affix to it his signature or initials; and

(c)—To transmit all the certificates received during the month to Government, together with the certificates from his own marriage register book, if he should have solemnized any marriages during the month.

5. On the face of every certificate of marriage thus forwarded, the Minister must distinctly state if either party to the marriage is a British subject, as in this case it is imperative that the certificate should be forwarded to England. If neither party to the marriage be such, that fact also must be stated; and it must be noted in the latter case if either of them desires the certificate to be transmitted to England for delivery to the Registrar-General of Births, Deaths, and Marriages.

6. The following is the definition of the term "British Subjects" which should be adopted in carrying out the above distinction:—"The term *British Subject* means (1) a subject of Her Majesty, born, naturalized or domiciled in the United Kingdom of Great Britain and Ireland, and (2) the child or grandchild of any such person by legitimate descent.

Native Christians. 7. The certificates furnished by Ministers are not to include entries of marriages between Native Christians.

These marriages, under Section 87 of the Act, must be registered in a separate register book in the form given in Schedule 4 of the Act. When certificates of such marriages are given, they shall also be in the form given in Schedule 4. The headings of this register book should be in the language of the district in which the register is kept, but so much of it as has to be filled in by the hand of the person performing the ceremony must be in his own vernacular language. This book, when filled, must be dealt with as directed by Section 87. Under Section 64, true extracts from this register book shall be deposited in the office of the Marriage Registrar or Senior Marriage Registrar of the District, or in that of the Magistrate of the District when the Marriage Registrar is absent from the District, or ill, or his office temporarily vacant on the 31st December of each year. For the form of extract see Appendix 1.

8. Applications from persons connected with any Missionary Society for licenses should be submitted to Government by the Secretary or Senior Chaplain of the Society through the Magistrate within whose jurisdiction the applicant may be residing, or in the case of residence in Madras, through the Senior Marriage Registrar for the town of Madras. These officers should also forward an expression of their opinion. In every case the name of the applicant should be given in full.

9. When any person desires to resign the office of a Minister licensed to solemnize marriages under the Act, or is about to leave the station or district in which he has exercised such functions, it is particularly requested that he will report the circumstance

Procedure on resignation. or district in which he has exercised such functions, it is particularly requested that he will report the circumstance

to the Marriage Registrar or to the Magistrate of the District, as the case may be, and make over to him for safe custody the marriage register books, and all forms and other documents appertaining thereto, unless his (the Minister's) successor be duly licensed to solemnize marriages under the Act, in which case the books, forms, and documents referred to should be made over to such successor, and the fact should be reported to the Marriage Registrar or to the Magistrate of the District when there is no Marriage Registrar for information. In Madras the report should be made to the Senior Marriage Registrar for the town of Madras.

10. A form of report is given in Appendix No. 2.

Persons who send certificates to Government.

11. The persons who are required to furnish the certificates to Government under this head are—

- (a.)—All Marriage Registrars or Magistrates of Districts as the case may be.
(b.)—The Senior Marriage Registrar for the town of Madras.

Head II.—Rules relating to Marriage Registrars appointed under the provisions of Act No. XI of 1872, (the Indian Christian Marriage Act) Section 7.

1. A Marriage Registrar is required, by Section 55 of the Act, forthwith to separate the certificate from the marriage register book, and to submit the certificates of marriage which he has attached from his marriage register book during the month, to the Secretary to the Local Government "at the end of every month." Copies of the Certificate should never be sent. The original is required in every case.

2. A form of the certificate is given in the fourth schedule of the Act.

3. On the face of every certificate of marriage thus forwarded, the Marriage Registrar must distinctly state if either party to the marriage is a British subject within the meaning of Rule 6 of the foregoing Rules (Head I), as in this case it is imperative that the certificate should be forwarded to England. If neither party to the marriage be such, that fact also must be stated; and it must be noted in the latter case if either of them desires the certificate to be transmitted to England for delivery to the Registrar-General of Births, Deaths and Marriages.

4. Applications from persons connected with any Missionary Society, for appointment to the office of Marriage Registrar in any district, should be sent through the Secretary or Senior Chaplain of the Society to the Magistrate of the District in which the applicant resides; applications for appointment in Madras should be sent through the Senior Marriage Registrar for the Town of Madras. The Magistrate, or the Senior Marriage Registrar, as the case may be, should forward the applications to Government with an expression of his opinion.

5. When any person, not being a Marriage Registrar of the district, desires to resign the office of Marriage Registrar under the Act, or is about to leave the district in which he has been authorised to exercise the functions of a Marriage Registrar, it is particularly requested that he will report the circumstance to the Magistrate of the District, and make over to him for safe custody the marriage register books, and all forms and other documents appertaining thereto, unless his (the Marriage Registrar's) successor be duly authorised to register marriages in the same district under the Act, in which case the marriage register books, forms, and documents referred to, should be made over to such successor, and the fact be reported to the Magistrate for information. In Madras the report should be made to the Senior Marriage Registrar for the town of Madras.

6. A form of report is given in Appendix No. 2.

Persons who send certificates to Government.

7. The persons who are required to furnish marriage certificates under this head to Government are—

- (a.)—All persons specially appointed by Government to be Marriage Registrars under Section 7 of the Act.
(b.)—All Magistrates when there is no Marriage Registrar.
(c.)—The Senior Marriage Registrar for the town of Madras.

ECCLESIASTICAL DEPARTMENT.

For: St. George 14th March, 1874.

Rules for submission of Quarterly Returns of Baptisms and Burials of European Christians.

The Governor in Council having, under the Indian Christian Marriage Act of 1872, prescribed Rules for the submission of Returns of Marriages, deems it desirable to issue the following Rules for the submission of Quarterly Returns of Baptisms and Burials of European Christians.

1. In addition to the Quarterly Marriage Returns required under the Indian Christian Marriage Act, 1872, the Government require the submission, for statistical and other purposes, of Quarterly Returns of Baptisms and Burials of European Christians, i.e., of "all Christians of European birth or descent, or of mixed European and Native descent," in the forms specified in Appendices A to C.

2. The Registrar of the Diocese is not called upon to use the certificate of correctness of the Returns as each Clergyman certifies to their correctness at the foot of each Return. The Secular Chaplain of the Church of Scotland is also permitted to write the certificate of correctness on the Returns.

3. The Return relating to baptisms and burials of each quarter should be kept distinct and not contain entries which belong to other quarters.

4. These Returns are to include no entries in respect of Native Christians.

5. Whenever there may have been no baptisms or burials recorded during any quarter, a "Certificate of No Occurrence" (see Appendix E) should be forwarded.

6. As the Government desire to possess a record of all deaths of European and Eurasian Christians buried by the laity and not only of those buried by the Clergy, all magisterial officers are required to report every burial by laymen within their several jurisdictions to the resident Chaplain, or to the Chaplain or Minister who visits the station at which the burial has taken place, in order that it may be included in the Returns furnished by him to the Registrar of the Archdiocese.

7. In cases of burials performed in places not visited by any Chaplain, the report should be made to the nearest Clergyman.

8. A list of all the stations and out-stations in Madras, showing by what Clergymen the out-stations are visited under the orders of the Lord Bishop of Madras, will be found in Appendix F.

9. For the purpose of registering burials not performed by Clergymen of the Church of England, or by laymen according to the forms of the Church of England, the following Rule will be adopted:—"In every Register Book there should be a separate page or pages, with heading and form distinct from those entries of burials in which at present the Clergyman or layman officiating himself enters and certifies the record of the service which he has performed. In this part of the book the Chaplain shall enter (as a copy) the copy of the certificate transmitted to him by the magisterial officer of the district. In this form there should be added a statement of the place of interment. The Chaplain shall copy these entries and return them with the others in his Quarterly Return certifying the correctness of the copies which he makes."

10. The reports made by magisterial officers to Chaplains should include the names of all European and Eurasian Christians buried by laymen, whether the funeral service be conducted according to the form of the Church of England or not.

11. The same rules are applicable to baptisms when performed by laymen.

12. All officers who forward the Quarterly Returns to Government should forward them, if possible, within one month after the close of each quarter.

13. The officers who are required to submit these Quarterly Returns of baptisms and burials to Government are—

(1.)—The Registrar of the Diocese, who collects them from (a), Chaplains in the service of Government; (b), Senior Chaplain of the Church of Scotland; (c), Clergymen (not being Covenanted Chaplains) ministering under the Bishop's license.

(2.)—The Right Reverend the Vicar Apostolic in the Madras Presidency, who collect them from the various Roman Catholic registering officers within the Presidency.

(3.)—The Very Reverend the Vicar-General of St. Thomas, who collects them in a similar manner.

331

(1.)—Ministers of religion licensed to solemnize marriages under the Indian Christian Marriage Act, Section 6, and any other Ministers not included in any of the before-mentioned classes, who perform such offices as well as Ministers of the Baptist denomination who will furnish registers of births in lieu of Baptisms.

14. Forms of Returns will be issued gratis on application to the Chief Secretary to Government.

By order.

D. F. CARMICHAEL, Acting Chief Secretary.

The above Institution was founded by the Rev. John Anderson, in Black Town, on 3rd April 1837. Its aim is to provide for native youth a liberal Christian education, that shall cultivate, expand and quicken the whole man; the conscience and will as well as the understanding and memory. With this view all the branches of a liberal education are so taught as to show their connection with the great central truths of religion and Christianity. The Bible is regularly taught as the record of God's revelation of Himself for man's salvation.

The instruction is carried on by the Professors, Assistant Professor and Teachers mentioned above; and the managing body is the College Council. As the College is intended to be the centre of the higher Christian education in Southern India, its constitution is as catholic as possible, and the members of the Council represent the majority

of the Protestant Churches in the Presidency. The Church Missionary Society and the Wesleyan Missionary Society contribute each £300 a year to the support of the College, whilst the Secretary of the former and the District Chairman of the latter are *ex-officio* members of the Council, and the Secretary of the Free Church of Scotland Mission. The College educates up to the standard of the Bachelor of Arts degree of the Madras University. It has at present 234 students.

In the school department there are 849 pupils, of whom 369 are in the upper, and 480 in the lower school.

Visitors are welcome on school days between the hours of 12 and 1 p.m.

SCHOOLS OF THE FREE CHURCH OF SCOTLAND MISSION.

In connection with the Central Institution, there are 7 Boys' Schools:—Iyempettah, Rajampettah, Wellajabadi, Lower Class Schools, Nellore, Conjevaram, Trivellore and Chingleput (Higher Class Schools.) These are conducted in the same manner as the Central School. At these 7 schools there is an attendance of upwards of 1,000 boys.

Female education is extensively carried on by the Mission. A Boarding School for daughters of Native Christians is under the charge at present of Miss Wolff. The number of pupils is about 60. Three schools in Black Town for Caste Girls are superintended by the Rev. R. M. Babbon, with an attendance of upwards of 600—and two by the Rev. P. Rajahgopal with an attendance of 150. Besides these, the Mission has Caste Girls' Schools at Nellore, Conjevaram, Trivellore and Chingleput. The number of girls attending these 9 schools is upwards of 1,000.

On the whole, therefore, the number of young persons receiving a Christian education in the College and Schools of the Mission is about 3,200.

The following gentlemen compose the Financial Board.

Besides watching over this Christian Society, Mr. Marsden devotes a considerable portion of his time to evangelistic visitation among the residents of Bangalore, particularly the Military, of whom there is always a very large number at the Station.

Armenian Cemetery.

The present Cemetery was built and given to the Armenian Community by Government in the year 1862.

Previous to the erection of the Church, the Armenian Community performed Divine Service in a temporary place built of timber on the North of Monument Esplanade, opposite Fort St. George, by the late Honorable East India Company, who also paid for the support of the Priest (50) £50 annually for 7 years, agreeably to a Treaty entered into by the said Company with the Armenian nation, dated London, the 22nd day of June, A. D. 1688, and in the fourth year of the reign of King James the Second. The present Church was built by the Armenian Community at their own expense in the year 1712, and alterations and additions made to it by them from time to time. In the year 1833, the British Government was pleased to grant the sum of Rupees five thousand (5,000) from the late Lottery Funds, for the repairs of the Church, out of which Funds the Community was enabled to erect a substantial and extensive verandah, 148 feet in length by 10 in breadth, on the east side of it. Government was further pleased to grant a donation of Rupees (2,000) two thousand from Dr. Woolley's Estate to the Church in the year 1833.

Office of the Registrar of Books,

Registrar of Books.

NOTICE TO PRINTERS AND PUBLISHERS.

The Registrar of Books having noticed that Books and Pamphlets are not unfrequently printed with words in the Title-page intimating to the public that the copyright is "Registered" when in fact it is not registered, the attention of all Printers, Publishers and Proprietors is called to the following brief abstract of the Copyright Act (No. XX of 1817) so far as it affects them.

In order to secure the proprietary right in any publication, a written application must be made to the Registrar in the subjoined form given in the Schedule to Act XX of 1817 (see Section VI):—

To the Registrar of Books,

Madras.

Sir—I have the honor to request that you will be so good as to cause any proprietorship of the copyright of work described in the annexed Schedule to be registered under Rule 1 of Section 20 of Act XXV of 1867, and I herewith forward the prescribed fee of 400 Rupees for the Registry.

Madras,
Date

I have, &c.,
A.B.

SCHEDULE.

Time of making the entry.	Title of Book.	Name of the Publisher and place of publication.	Name and place of abode of the Proprietor of the Copyright.	Date of first publication.

Unless the copyright is secured that formally the Author or Proprietor will have no copyright. Anybody else may publish the work with impunity and deprived him of his interest in his work, and no remedy can be had in a Court of law (Section XIV). If on the other hand, copyright is registered, the fact will be admitted as prima facie evidence of title and the registered Proprietor can exercise the right to assign his interest or any portion of his interest in the book (Section V).

Should any person print, or cause to be printed any book in which there subsists copyright without the consent in writing of the Proprietor entered as such in the Registry-book of this office, or have it in his possession for sale or hire any book so unlawfully printed without such consent, such offender makes himself liable to a special action for damages (Section VII). And all printed copies of such work are forfeited to the copyright Proprietor (Section XIV).

The penalty for infringement of Copyright.

The practice which now prevails of inserting such formula as "Copyright registered" or "Copyright reserved" on the title-page of a book and then omitting intentionally or otherwise to register the same is highly objectionable. It amounts to a false statement, made with a view to deter others by misrepresentation from publishing the book. Apart from the unworthiness of such false statement, the party making it may probably render himself liable to prosecution for cheating under the Penal Code.

Under Section IV of the Copyright Act, the Registry-book kept in this office is open to inspection at all reasonable times on payment at this office of eight Annas for every entry which any person may require to be searched for or inspected in the said book, and therefore such person can thus inspect it to satisfy himself whether the copyright has been registered or not, or he can obtain, if required, a copy of any entry in such book, certified under the Registrar's hand, on payment of Rupees 2; and such copies so certified are receivable in evidence in all Courts and in all summary proceedings, and are a prima facie proof of the proprietorship of copyright.

Registry-book open to inspection and copies of entries how procurable.

2. The Registrar of Books would now warn all concerned that hereafter there can be no excuse for any false statement made concerning copyright or for any intrusion of the public regarding the registration of books generally under Act XXV of 1867, on plea of ignorance; and that any omission to register a publication after the receipt of this notice will be presumed to be intentional, and all parties concerned are hereby warned against the consequences of such neglect.

On behalf of the Publisher of Books, Old College,
Madrass, 1st August 1878.

OBJECTS.

This institution is designed to afford instruction in the science of agriculture and for the practical application of sound principles in conducting the ordinary agriculture of this country.

THE FARM, &c.

The farm is conducted as an experimental farm; its area is about 250 acres, and it is well provided with suitable buildings.

In the farm workshops all kinds of agricultural implements and tools suited for use in India are manufactured and repaired.

The educational buildings needed are in course of erection on the farm; of these, a Chemical Laboratory has already been built on an adjacent site.

In the neighbouring village of Sallaket students can readily obtain board and lodging during their course of training; and a limited number of quarters have been provided on the farm for such students as are willing to rent them.

An Agricultural Library and a Museum are in course of formation, and a Reading room for the use of students has been provided.

A Veterinary Hospital will be established; the buildings being in course of erection.

MANAGEMENT, &c.

The institution is attached to the Educational Department under the general control of the Director of Public Instruction, acting in communication with the Board of Revenue. The direct management of the institution is entrusted to the Superintendent of Government Farms, who conducts all correspondence regarding the institution, transmits notices, orders, &c., regarding the delivery of lectures and other matters connected with the routine of the institution; and maintains discipline amongst the students, who are in all things subject to the orders of his office.

INSTRUCTION, &c.

The course of instruction extends over three years; there are two sessions in each year, a Summer Session and a Winter Session; the Summer Session begins each year on the 1st of April, and ends on the 30th of June; the Winter Session begins on the 1st of October, and ends on the 31st of March. Though, in the Winter Session, class-room and lecture-room instruction does not begin until the 1st of October, students are nevertheless expected to attend at Sallaket on the 1st of September, in order that they may witness and take part in the important field operations conducted at that season in connection with the sowing of the seed in the crops.

The instruction given in the institution embraces a thorough study of agricultural subjects of such portions of Chemistry, Geology, Botany, Zoology, and the Veterinary Art as bear on the theory and practice of agriculture. In addition to these special subjects, the following also receive attention:—Farm Book-keeping, Land-surveying, mensuration, and drawing. The instruction is given by means of lectures, class-room discussions, and field classes.

During the portion of the day set apart for practical instruction in farming, all of the day, every student is expected to be present in whatever work may be going forward on the farm; compliance with this regulation will be enforced. Each student is expected to make himself strictly acquainted with all the operations, duly performed on the farm, and is required to keep a journal or diary of the same.

Instruction is conveyed in the English language, but the Masters will afford as much assistance as possible in explaining the lectures and instruction generally to students whose limited acquaintance with English may make it difficult for them to follow such instruction without explanation.

ADMISSION.

Europeans, Europeans, and Natives of all classes and from any part of the country are eligible for admission into the institution when vacancies exist, on complying with the following conditions:—

Candidates who desire to avail themselves of stipendiary studentships or scholarships must be between sixteen and twenty-four years of age, and must produce with their application for admission the following certificates:—

14. All grants in aid of the salaries of Masters and Mistresses will be paid monthly. It will be essential to the payment of such grants that the proportion which the managers are required to contribute for the purpose for which the grants may have been sanctioned shall be duly paid. All grant bills shall therefore contain a declaration that the teachers have received the portion of their salaries payable by the managers.

(6) NATURE OF CERTIFICATES AND AMOUNT OF GRANTS.

21. The departmental examinations for these tests will be held at Madras and at other places appointed by the Director of Public Instruction once a year commencing on the 8th day of December, unless that day falls on a Sunday, in which case the examination will commence on the Monday following.

22. The examination of European and East Indian teachers in a vernacular will not be essential when they are employed in schools intended mainly for European and East Indian children. Similarly, in the case of Hindu or Mussulman teachers engaged in Hindu or Mussulman Schools, examination in English will not be essential. In the case

of teachers passing in but one language the maximum grant will be only 75 per cent. of the sum specified, except in the lowest grade, in which only one language is prescribed.

III.—THE RESULTS GRANT SYSTEM.

(1) SUGGESTION OR SUGGEST.

49. Every Manager, who desires to have his school examined for a grant under the results system, shall forward, before the 31st December, an application, in the subjoined Form B, to the President of the Local Fund Board or Municipality in which the school is situated. In Madras, the Managers of schools other than poor schools shall forward their application to the Director of Public Instruction before the above-mentioned date, and Managers of poor schools only shall forward their applications to the President of the Madras Municipality before the 30th September.

50. Every such application shall be referred to the Deputy Inspector, who shall, as soon as possible after the 1st January, embody the substance of all the applications referred to him in a tabular statement, and shall submit the same to the Inspector of the Division with a covering letter, in which he shall briefly state any facts which he may consider it desirable to communicate regarding the respective claims to aid of the several schools applying for grants, and shall also name the dates on which he proposes to examine each school. In the Madras Municipality the Deputy Inspector shall submit the tabular statement and letter relating to poor schools as soon as possible after the 1st October.

51. A copy of this letter and list shall be furnished by the Inspector of the Division with his own opinion to the Local Fund Board or Municipality, who shall determine what schools shall be eligible for results grants payable from Local or Municipal Funds.

during the ensuing official year. A list of such schools and of the dates fixed for their examination shall be published in the District Gazette before the 31st March, and no other schools shall be examined for results grants payable from Local or Municipal Funds without special orders from the President. In the Madras Municipality the list of poor schools and of the dates fixed for their examination shall be published in the *Fert St. George Gazette* before the 31st December.

52. Such portions of the list and reports as relate to schools applying for results grants payable from Provincial Funds shall be forwarded by the President of the Local Fund Board or Municipality with his own opinion to the Director of Public Instruction, who shall decide what schools shall be eligible for results grants payable from Provincial Funds during the ensuing official year, and under what standards such schools shall be examined. The names of such schools, the dates fixed for their examination, and the standards under which they are to be examined, shall be published by the President of the Local Fund Board or Municipality in the District Gazette, and no other schools shall be examined for results grants payable from Provincial Funds without special orders from the Director of Public Instruction.

53. In the selection of schools to be aided, the amount of funds available and the educational wants of the special neighbourhood and of the Circle or Municipality itself will be taken into consideration.

54. An appeal shall lie to Government from any order passed by the President of a Local Fund Board or Municipality, or by the Director of Public Instruction refusing to declare a school eligible for results grants. The omission from the published list of any school for which an application (E) has been submitted, within the prescribed time, shall be deemed equivalent to an order of refusal.

(f) CONDITIONS OF AID.

55. No school shall be deemed eligible for a results grant if it contains classes working beyond the seventh standard.

56. A school receiving aid under the salary-grant system cannot claim assistance in the same official year under the payment-for-results system, and similarly a result school cannot be aided under the salary-grant system.

57. A school cannot receive aid under the salary-grant system for one portion of the school and under the result-grant system for another.

58. Amongst schools otherwise equally eligible a preference will be given to those in which school fees are levied and trustworthy returns of such fees are submitted.

59. All schools receiving aid under the system of payment for results shall furnish such returns and statements as may from time to time be prescribed.

60. Regular registers of admissions, attendance, and fee collections shall be kept and shall be submitted for inspection when demanded.

61. The attendance registers must be marked every time that the school meets.

62. The village or house-name of the pupils must be written in full in all the registers, and when there are two pupils of the same name, the father's name must be added. No entries are to be made in pencil, to be inked over afterwards. There must be no blanks or erasures. If any error has been made, it must be corrected by a foot-note. And in every case the register produced must be the original register, and not a fair copy.

63. Every register must have the pages numbered before any entries are made in it.

(c) EXAMINATIONS.

64. A school shall be examined for a results grant once a year.

65. Local Fund Boards and Municipal Boards are invited to depute one or more members to be present at such examinations. In villages the head of the village and other local village officials are invited in like manner to attend, and should be present at such examination.

66. The subjects of examination under the several standards are specified in Schedule F. English-speaking children may bring up the English language as their Vernacular and one of the Vernaculars of this Presidency as an extra language. Mussulman children are permitted to bring up Hindustani as their Vernacular with a Hindu language or Persian or English as their extra language, or a Hindu language as their Vernacular with Hindustani, Persian or English as their extra language.

67. In the third and fourth standards the choice is given of certain alternative subjects. In the third standard History may be substituted for English or the extra language. In the fourth standard any two of the three following subjects, viz., History, Hygiene and Agriculture, may be substituted for English or the extra language in boys' schools. In girls' schools only History and Hygiene may be so substituted.

68. To be eligible for examination a pupil must have attended the school for at least ninety days during the six working months preceding the examination. Attendance for not less than three hours will suffice to allow a day to count.

69. Only such pupils as have been actually studying within the standards throughout the six working months preceding the inspection shall be eligible for examination.

70. A pupil presented under the first or second standard will not receive any grant unless he or she passes in at least two of heads 1, 2, or 3, of the standard. A pupil presented under the third or fourth standard will not receive any grant unless he or she

passes in at least three heads, two of which must be 1, 2, or 3. Under the fifth and sixth standards, in each of which there are four heads, a grant may be given even if a pupil passes only in one head.

71. A pupil is not to be presented for examination under the first, second, third, or fourth standard if he has already received a grant for that standard. Under the fifth and sixth standards he may be presented again as often as may be necessary, provided he remains in the same class, but no second grant will be given for the head or heads under which he has already passed.

72. To pass in any head of the first, second, third, fourth, fifth or sixth standard, a pupil must secure one-half the marks assigned to that head. Forty per cent. may, however, be accepted if the deficiency under one head is compensated by an equivalent proficiency under another.

73. When it is evident that some of the results attained at examination are due to some other school in the town or village, no grant shall be passed for those results, and the ground on which it is proposed to withhold it shall be reported for approval to the President of the Local Fund Board or Municipality, if the grant is one payable from Local or Municipal Funds, or to the Inspector of the Division, if the grant is one payable from Provincial Funds.

74. Any falsification of the registers, any misrepresentation regarding the fees and attendance, any deception in the presentation of pupils, and any other fraud or irregularity, shall be similarly reported after the completion of the examination, and the countersigning Officer will have the power to withhold the grant in such cases and to take any ulterior measures which the occasion may appear to him to demand.

75. As soon as possible after the conclusion of the examination the inspecting Officer shall furnish the Manager with a statement giving the names of the pupils passed, the standards under which they were examined, and the marks which they obtained under each head.

83. All results grants earned by boys under the first, second, and third standards shall be payable from Local and Municipal Funds. All other results grants shall be payable from Provincial Funds. In the Madras Municipality all results grants earned by boys or girls in primary schools under the first, second and third standards shall be payable from Municipal Funds, and all grants earned by such boys or girls under the fourth standard shall be payable from Provincial Funds. All results grants earned in the Madras Municipality in schools which are not poor schools shall be payable from Provincial Funds.

84. In view of any misapplication, the fund available for the payment of results grants run short of the amount required, all unpaid claims due for the past year shall be discharged before any sums are paid for grants earned during the current year.

IV. NORMAL SCHOLARSHIPS.

85. Half grants will be given according to the following maximum scale on account of scholarships to normal students in well-organized Normal Schools:—

V	5 0 0	2 0 0	—	—

86. In the case of students who are being taught as well as being trained, a grant for a scholarship will be made in each grade for two years. In the case of students who have passed the examination then set of the grade, and are only being trained, a grant for such scholarship will be made for one year.

V. SCHOOL BUILDINGS.

87. Grants will be made towards the erection, purchase, or enlargement of a school-building on the following conditions:—

1st.—That in each case the managers of the school shall contribute double the amount of the grant.

2nd.—That satisfactory evidence shall be adduced of the necessity for the erection, purchase, or enlargement, in 50 of which the grant is sought.

3rd.—That the amount applied for shall not exceed what may be considered reasonable taking into account the budget provision for the year, the importance of the school, and any previous grants which may have been issued to the managers of the school.

4th.—That the application, which should be submitted before the commencement of the underwriting, shall be accompanied by a plan and estimate of the cost of the building proposed to be erected, purchased, or enlarged. The plan and estimate will be returned by the Director of Public Instruction.

54.—That previous to the disbursement of the grant it shall be certified by the District Engineer, or other responsible officer who may have been deputed to examine the building, that the work has been proceeded with as provided for in the plan and estimate previously sanctioned. Also that before disbursement the managers of the school shall declare that they have funds on hand sufficient, when supplemented by the grant, to clear off all the debts incurred in the execution of the work.

64.—That in the event of any building, towards the erection, purchase, or enlargement of which a grant may have been made by Government, being diverted prior to the lapse of twenty years from the date of the issue of the grant to other than educational purposes, the managers at the time of the diversion shall refund to Government such portion of the grant allowed them as shall be determined by arbitrators, who, in making their award, shall take into consideration the length of time the building has been used as a school-house, and its consequent deterioration; but in the event of managers failing to make such refund, then they shall sell the building to Government at a valuation to be determined by arbitrators, who, in making their award, shall deduct from the price such portion of the grant as may seem equitable, regard being had to the length of time the building has been used as a school-house, and its consequent deterioration.

74.—That the arbitrators referred to in the last preceding rule shall be three in number, one of whom shall be nominated by Government, another by the managers of the school, and the third by the two arbitrators so appointed; and in case of the arbitrators differing in opinion, the award of the majority shall be binding and conclusive on all parties.

88. Building grants on account of schools are not intended to provide house accommodation for teachers or pupils.

89. Grants are not given to pay off debts for building, nor in consideration of former expenditure for building, nor for the maintenance of buildings.

90. When a school is held in a building not owned by the managers, and for which rent is paid, a grant may be given not exceeding one-third of such rent.

VI. SCHOOL FURNITURE, MAPS, SCHOOL LIBRARIES, APPARATUS, DIAGRAMS, EXAMPLES AND TOOLS.

92. No grants will be given for the payment of school-tervants, contingent charges and prices, but grants will be issued once to any college or school for the purchase of school furniture, special apparatus, diagrams, and examples, required for the instruction of pupils in Science or Art.

93. Grants for special apparatus will be confined to articles of a non-destructible nature; hence no aid will be afforded in the purchase of breakable articles, such as glass retorts, test tubes, &c., nor indeed generally in the purchase of articles to be used by the student, as distinguished from those of permanent and illustrative character, which are required by the teacher in giving instruction in Science or Art.

94. Grants may be given once in five years on account of maps, and at such intervals as the Director of Public Instruction may consider expedient on account of school alterations.

95. All applications for these grants must be accompanied by a priced list of the furniture, apparatus, maps, books, diagrams, and examples which it is proposed to purchase. In the event of the grant being sanctioned, half the cost of the articles will be paid on the Director of Public Instruction being satisfied that they have been provided. No grants will be allowed for any school benches made without backs.

96. In the event of the college or school being closed within five years from the date on which the grant may have been made, the Government shall be at liberty to purchase the furniture, maps, books, apparatus, diagrams, and examples, towards the supply of which the grant was given, at a valuation to be determined, as in the case of school-buildings, by arbitrators, credit being taken in each case for depreciation due to wear and tear.

97. Grants may be given on similar conditions for the purchase of tools in Industrial schools and in other schools which have an Industrial Department, with the exception that the restriction in Rule 93 will not apply to these grants.

98. Grants may be given on similar conditions for the purchase of gymnastic apparatus.

Abstract

Principal.—Rev. J. Cooling, B.A.

The school was founded in 1839, with the object of giving a superior education based on Christian principles to all classes of the Native community. It now contains 350 boys. The course of secular studies is adapted to the requirements of the Matriculation Examination of the Madras University.

Principal.—Rev. J. Cooling, B.A.

This school was established in 1878, and now contains 200 boys. Its aim is to give a secular education adapted to the requirements of the Matriculation Examination combined with religious truth.

This School was established in 1919, chiefly for the benefit of Native Christian Girls. It is under the superintendence of the European Missionaries and contains about twenty day scholars and seventy Boarders, who are fed, clothed and educated chiefly at the expense of the Mission, with the aid of local contributions. An experienced Matron lives on the premises. Special attention is paid to needlework and to instruction in the duties of domestic life.

Five Caste Hindu Girls' Schools are supported by the Mission; in Royapettah, North and South Triplicane, Egmore and Black Town. These schools contain about 300 scholars. The languages taught are Tamil, Telugu and English. These schools are partly supported by Government Grants-in-aid.

This well-known Institution, founded in 1897, is the oldest of the Schools and Colleges intended specially for natives. Its distinctive character is that it combines religious with secular education. There are more than 1,000 pupils on the roll, of whom about 240 are students in the College Department.

In the School department about 30 Teachers are employed.

Hon'ble D. F. Carmichael, H. B. Grigg, Esq., c.s., Lieut.-Col. F. H. Tyrrell.

Ahmed Moideen Khan Bahadoor, Hon'ble Mir Humayoon Jah Bahadoor, Dr. Moodeen Sheriff Khan Bahadoor, Major B. Hobart, *Hony. Treasurer*; Mrs. Firth, *Hony. Secretary*.

In January 1875 a Committee under the Presidentship of Lady Hobart, discussed the question of the education of Mahomedan girls, and proposed to encourage it by promoting the establishment of Schools, where the girls will be taught their own language, needlework of every description, and their industrial occupations.

The School has, by desire of the Members of the Committee, been called "The Hobart School" in memory of the warm interest taken in this movement by the late Lord Hobart, and the active assistance and sympathy given by Lady Hobart, the President of the Committee. Lady Hobart has presented the School with a donation of Rs. 10,000, to be invested for its support, and has been asked to continue her interest as Honorary President whilst in England.

In December 1875 the School was visited by H. H. the Princess of Tanjore. The Committee are much encouraged by the warm interest taken by Her Highness in the institution and by her liberality in assigning the interest of Rs. 7,000 towards the support of the School.

The accommodation of the School House proving insufficient for the increasing number of children, that had been admitted from time to time, another building was engaged on the 30th November, 1875.

There are now 160 names on the books and an average daily attendance of 130. The Staff employed to instruct them is: one Head School Mistress (an Englishwoman), one East Indian, five Mahomedan school teachers, and one Mahomedan work teacher.

The Committee especially have in view the promotion of such industrial work as will enable the children when they have grown up to earn a livelihood. They particularly wish to have them taught all kinds of Indian needlework, as the girls make sufficient progress in plain sewing, knitting, &c.

The progress made by these children is most interesting, not only in the more immediate objects of the School, but in habits of order, cleanliness, and tidiness.

The Committee take this opportunity of expressing their best thanks to those European and Mahomedan ladies and gentlemen, who have given their kind interest and substantial support towards the advancement of this experimental undertaking.

ST. THOME, MADRAS.

1879.

COMMITTEE.—*President*; Mrs. Spring-Branson, Mrs. Carmichael, Mrs. Evans, Mrs. Furnell, Miss Gell, Mrs. Grigg, Miss Morphet, Mrs. Normandy, and Mrs. Symonds; Mrs. Firth, *Honorary Secretary*; Rev. Mrs. Strange, *Honorary Treasurer*.

The design of this Institution is to afford a refuge for such destitute orphan girls of European descent, as are not eligible for either the Military or the Civil Female Orphan Asylum. As such, it is one, the Committee plead, well deserving of public support.

The number of children now in the "Refuge" is 65.

The utmost economy is observed in the management of the Institution, consistent with due regard to the proper feeding and care of the children. The cost of maintaining each child, inclusive of superintendence, food and clothing, is about Rs. 8-8 a month.

The girls of "The Refuge" do neat plain and Fancy works. The Secretary will be happy to receive orders.

INDUSTRIAL GIRLS' SCHOOL,

1st September 1889.

LADY TURNER—*Lady Patroness*.

There being no Asylum in Madras in which destitute girls above 12 years of age can be admitted and boarded, an "Industrial School" has been opened in St. Thome; in the hope that such an Institution may be the means of protecting girls (who are anxious to do well) from the many temptations to wrong doing, to which those of such an age are especially exposed.

The girls in the "Industrial School" receive an elementary education in Reading, Writing, and Arithmetic, and are taught various and useful branches of needlework, so that in a few years they may be able to attend "Women's Workshops" as neat good workers, and as such, have a chance of earning sufficient to keep themselves in comparative comfort.

The undersigned trusts that this project will meet with the approbation of the public, and that they will kindly give the School that practical and pecuniary support of which it stands so much in need.

A. FIRTH.

MADRAS INDUSTRIAL SCHOOL,

POPHAM'S BROADWAY, BLACK TOWN.

COMMITTEE.—*President*, The Lord Bishop of Madras; *Vice-President*, Chief Justice The Hon. C. A. Turner; Rev. G. Warlow, Rev. J. Smithwhite, Rev. Aug. W. Atkinson, C. R. Trotter, Esq., C. E. Phipps, Esq., G. Hammett, Esq., A. M. Hooper, Esq., Hon'ble J. G. Coleman, *Ex-Officio*; J. J. D'Rozario, Esq., F. Rowlandson, Esq., Rev. J. Guest, G. H. Smith, Esq., and J. Gray, Esq.

J. Young, Esq., *Honorary Secretary and Treasurer*; Bankers, Messrs. Arbuthnot and Co. *STAFF*.—Mr. C. DeWaltz, General Superintendent; Mr. T. Browne, Schoolmaster and Clerk; D. Julien, Carpenter Instructor.

Shoemaking, Rattan work and Blacksmithery are carried on by Native Instructors. The condition of the poorer classes of Europeans and East Indians, residing in Black Town and the neighbouring suburbs, is admitted to be most deplorable. This distress is occasioned by their inability to earn a livelihood. Those who are most seriously affected are the old and the infirm who are physically unable to labor, and the young who have not the necessary skill to compete with others in the labour market. The former perhaps fall more legitimately for relief on the Friend-in-Need Society, and arrangements are being made, it is believed, to meet the evil so far as funds will permit. But the young require help of a special nature; they require to be taught how to earn an honest livelihood. The Education given in the several Charitable Institutions of this City, fits them only for Writers and Accountants; a section of the labour market which is already supplied to overflowing, and which will as far as the experience of the past can be depended upon be taken up entirely by the Natives of the country who can work equally well and at lower rates of remuneration. Other portions therefore of the labour market must be tried. To meet this great difficulty, an Industrial School has been established for the poorer classes of Europeans and East Indians in Black Town. The extent of the operations are confined to a few of the principal industrial trades, repairs, varnishing, &c., of carriages, house painting, carpentry, work in leather, book-binding, Blacksmith's work, Turning, Rattan work, &c., but will be extended as funds permit.

The School was opened on the 2nd November, 1874: at present there are 65 boys borne on its Rolls, many have obtained employments as Carpenters, Blacksmiths, Artificers, &c., since the school opened.

Contributions in aid of the Industrial School will be most thankfully received by the Secretary, J. Young, Esq., and will be duly acknowledged.

The existence of this Society is owing in great part to the exertions of the late Dr. Wright, formerly a Surgeon in the Madras Army, whose valuable contributions to Botanical Science have gained for him a widely-spread and well-earned celebrity.

The gardens are situated opposite to the chief entrance to the Cathedral, and an additional piece of ground on the east of the Cathedral was purchased in the year 1856-57.

The garden occupies a space of about 7 acres, which were originally granted by the local Government. Part is laid out as a landscape garden and much increased of late in space, with the additions of a number of new and rare plants, especially tropical palms and Australian trees; the whole forming a splendid collection, gathered from various parts of the world, which is constantly being increased by exchanges and purchases. It is open at all times to the public, and forms a healthful place of recreation for the inhabitants of Madras.

A nursery for seedlings and cuttings of useful and ornamental trees, is maintained to meet the requirements of the Members, who are supplied from it gratis. European vegetable and flower seeds are also similarly distributed; but all these advantages are open to the general public on payment.

Most of the plants are labelled with their botanical names and the natural order to which they belong, and information regarding them can be obtained on enquiry at the Office.

There is also a Botanical Library attached, to which access can be had by Subscribers or persons known or introduced to the Honorary Secretary.

The general affairs of the Society are managed by the Committee who meet on the 1st Wednesday in each month, and compile annually, in the month of March, a Report of the year's Proceedings, which is submitted to a General Meeting of the Subscribers. The Proceedings of each Meeting of the Committee are also published and distributed to Members.

Persons of all nations are eligible as Members of the Society, and have a voice in the annual election of the Committee and Office-bearers.

The rate of subscription is 7 Rupees a quarter; no entrance fee being demanded, and the subscription being allowed to lapse, temporarily, should a Member be absent from India.

Up-country Subscribers are entitled to all the advantages of Members, which it is possible to place at their disposal.

An annual show is held in February, when a large number of prizes are awarded for flowers, fruits, vegetables, and several articles of importance in connection with botanical science. The Society has also made arrangements to award prizes for tea, coffee, &c.

Lists of the prizes to be distributed, and all information may be obtained on application to the Honorary Secretary, by whom lists of Members, Rules of the Society, &c., will be supplied gratis.

GOVERNMENT CENTRAL MUSEUM,

21, PANTHEON ROAD.

Established on the 11th August 1851, by the Madras Government.

G. Bidie, Esq., M.B., Superintendent. T. Kistnasawmy Naidoo, Herbarium Keeper.
Mr. W. F. Dique, Curator. P. Sashiah Rajoo, Draughtsman.
T. Abbey Naidu, Assistant Curator, A. S. Duraisawmy Pillay, Head Taxidermist

This is a Museum of Natural History, Raw products used in the arts and manufactures; specimens of Manufactures, Implements and Machinery, Ethnography, Antiquities, &c. The Natural History section is the most extensive and embraces a small number of Minerals, and extensive collections of Birds, Reptiles, Fish, Shells, Insects, Crustacea, &c. There is also an extensive Herbarium and very large collection of mineralogical and geological specimens. The Museum is intended chiefly to illustrate the natural history, natural resources and manufactures of British India, and the manners, customs, and antiquities of its inhabitants. There is also a very interesting collection of Gold, Silver and Copper Coins, which can be seen by personal application to the Superintendent or Curator. As the collections in the various sections are yet far from complete, specimens for any of

them will be very acceptable, and the Superintendent will be glad to enter into arrangements with contributors or collectors which will prove advantageous to both parties. Attached to the Museum there is an extensive general Library to which large numbers of new books are annually added and in the Reading Room of which any visitor may consult books daily from 6 A. M. to 5 P. M. Amongst other works of interest and utility this Library is furnished with copies of the highly interesting ancient records of Great Britain which are being issued by the Master of the Rolls, and with the numerous publications of the Patent Office. There is also a large scientific library containing books of reference on the various subjects of Natural History; and any one wishing to consult such works, may obtain permission to do so by applying to the Superintendent or Curator.

The Museum is open gratuitously to the Public daily, Sundays excepted, from 6 A. M. to 5 P. M. The Popular Lectures at the Institution are also free to the Public. The number of visitors to the Museum in 1879-80 was 198,423.

N.B.—On the first Saturday of every month, after 12 noon, male visitors are excluded, and the Museum reserved for posha and other native ladies.

PEOPLE'S PARK. INSTITUTED IN 1859.

CUSTODIANS—MUNICIPAL COMMISSIONERS FOR THE TOWN OF MADRAS.

MR. CHARLES JAMES HAY ELLIS, Superintendent.

We owe the People's Park to Sir Charles Trevelyan. It is not at all improbable that the idea of some such place suggested itself to many a man in power before his day. It would be singular indeed if Europeans should, for a hundred years, have seen a large native town growing up on the site of a small village—a vast population massing together with lungs to be fed with fresh air and limbs to be alkared to exercise and health—without sometimes thinking it possible that the "village greens," "commons," and "parks" of his native land might perhaps be re-produced with advantage within reach of Black Town. The monotony of Indian life, and the lack of sympathy between the classes of Indian society, may be regarded as the causes why such an idea, if suggested, was never carried into execution. While the "upper ten thousand" could have their drive along the Beach and round the Island, it mattered little to them that the "masses" (unfriendly phrase) who could not drive, or were to be stimulated to recreation, had no place convenient for health, exercise and amusement.

But then Sir Charles Trevelyan was a man not given to routine; and somewhat wide in his sympathy. So the idea of the people's want suggesting itself to him and he having the power as well as the will—the people got their Park. Thousands who know nothing of the step that cost him a Governorship, will hold his name in memory by the People's Park.

But when Sir Charles was recalled, the scheme was in a most elementary state. The plan was on paper; but never adopted. Little else was done, and little else would have been done if the intentions of Sir Charles Trevelyan's dignity had not also inherited his sympathy with the people. We owe it to the various gentlemen who have been entrusted with the execution of the scheme, that the "plan" was not thrown into the official waste paper basket, and the idea, recorded as one of Sir Charles' amiable follies. It is in unison with Sir William Denison's career, previous to his arrival in this country that he should have shown a hearty approval of an undertaking so intimately connected with the health and pleasure of the middle class population.

There can be no doubt that the Park has been a success. Any one may convince himself of that by a visit morning or evening. The place has already fixed its character as a popular resort, and it is certain that it will be so in a much greater degree when the attractions of the ground are fully developed. It is pleasing to see that the native population appreciate the pleasure provided for them, and when the sternness of social life amongst them is relaxed, we may expect to see not only the Ramasawraies, but the Lutchmies of Black Town taking their ease in the fretted shade of well-grown trees.

But we must suspend any further remarks, and lay before our readers a brief description of the Park.

The gate adjacent to the Hospital Bridge is the main entrance. The trees are planted in avenues and groups. Twelve lakes of various dimensions and shades are completed; and various other things have been achieved; but we cannot do better than print the following description (though brief) of the park, kindly furnished by the Superintendent, which will convey a clear idea of the Park.

In the North-west angle of the Park is a Serpentine lake with two large raised islands one at each end. One of these is 30 feet above the water, and is well calculated for a large basin, from which the cascades might hereafter be made to fall over the sides. The second or Victoria lake, with a central island, is situated almost midway between the band-stand and the northern end of the Park. The island is approached by one bridge of ornamental design, measuring 200x4½ feet. The third is a small lake on the west side,

elliptical in shape, and contains good drinking water for cattle. The fourth is a small lake close to the Aviary. The fifth a similar one. The sixth is a semi-lunar lake near the band-stand, with a gravel walk around it. The seventh is a medium lake, between the band-stand and the Superintendent's house. The eighth is an irregularly shaped lake, with a central island and two small rustic bridges on each side of the main road, and trees of various sorts have been planted. The ninth is a large lake on the west side of the main road. The tenth is a medium lake west of the last-mentioned. The eleventh is a medium lake, with a central island at the south end.

There are two masonry basins, one elliptical, measuring 170 feet x 73 feet, and 4½ ft. in depth, formed of solid masonry with brick-on-edged foundation and central fountain; the latter, of ornamental design, galvanized. This has recently been surrounded by an iron fence and converted into a public bath, the floor of one-half of it has been raised so as to give a depth of about 4 feet adapted for the use of boys—the other half has a uniform depth of 5 to 6 feet. It is supplied with Red Hills lake-water from the public main road, and good dressing rooms have been built round it for the bathers. The roads of the Park, embracing 5½ miles, are complete.

The Zoological collection in the Park consist of the following specimens:—

1 Lion, 1 Lioness, 2 large Tigers, 2 Tigresses, 1 Black Panther, 1 Spotted Panther, 2 Cheetahs, 3 large Hyenas, 1 Rhinoceros, 1 Elephant, 2 Porcupines, 2 Black Swans, 1 Opossum, 1 Tameus, 1 Black Bear, 1 Rattle, 15 Spotted Deer, 17 Monkeys of different species, Guinea Pigs, and a variety of Rabbits.

THE NAPIER PARK.

Mr. CHARLES JAMES HAY ELLIS, *Superintendent.*

Madras owes so much to the administration of Lord Napier that it is very fitting that some permanent and palpable token of the public approbation of his labors should remain in our midst, at once to stimulate succeeding Governors to walk in Lord Napier's steps, and to remind generations to come of how much the sick, the suffering and the poor must always owe to one who has initiated so great improvements in all our public charities that their effect must long continue—blessing those who are too weak or poor to help themselves. The Napier Park is such a memorial. Its very position is most fitting. Standing midway between Government House and one of the most squalid quarters of Madras, its beneficent influence will rest upon both. Its site had been for scores of years a pestiferous swamp, covered for months in each year by salt and stagnant water, the overflow of the filthy Cooum. Within was a wretched pacheri, notorious for its liability to epidemic disease, that spread from thence throughout the city. To partially remedy the evil, the Municipality made it a depot for street sweepings, so that in time its level might be raised sufficiently to ensure its being free from water. This while amending one evil created another—placing on the borders of a dense population masses of putrescent matter that could not but be very injurious to both the water and air of the locality. This grew to be such an evil that the Sanitary Commissioner at last put a stop to the discharge of sweepings on the land. It was, however, impossible to build on such a spot and the whole remained a useless “disnal swamp.”

At present all is changed. The level has been raised, by material dug from ornamental tanks. Trees of useful and beautiful kinds have been planted, and are rapidly growing to their full height. Roads and side-paths have been laid out, and in the midst a Band stand will probably be erected. Parks are things of slow growth, and it must be years before this can be worthy of the name it bears, but it is hoped that before Lord Napier leaves our shores, the whole of the area will be ready for the public—a boon that cannot but greatly influence for good the whole population of Chintadrepettah and Nursingepooram.

The Park contains an area of about 18 acres. A great part of this was formerly the property of Government, but was generously given to the town on condition that the Municipality purchased the rest from the native owners. For this purpose the Municipality has expended several thousand rupees, and the total cost previous to the public opening will not be less than twenty thousand Rupees. The river-face of the Park has already been protected by a simple elegant fence palmyra and laterite, while a new road divides the northern side from Chintadrepettah. The design and laying out the park are the work of Mr. Standish Lee, the Municipal Engineer, who deserves greater credit not only for this but also for the economical but yet effectual manner in which the whole work has been performed.

As a last gift, Lord Napier has provided the whole of the funds required for erecting on the west side of the Park a handsome building for a girls' school in the Indian fashion. The cost will not be less than 6,000 Rupees. It is intended to be a purely national girls' school and to lead on through carefully gained experience to some mode of teaching which will embody the best western systems while not departing from Hindu customs any more than may be necessary. It is greatly to be hoped the scheme will prove a benefit to the public while the school shall ornament the Park.

X. That subject to the approval of the Committee of Management in each case, the Hall shall be available for Religious, Educational, Charitable and Scientific purposes, and for such other objects not being included under the above terms, as may be pronounced by the Committee of Management to be not inconsistent with the design of its erection, viz., to the Glory of God, and as a memorial of His goodness in exempting this Presidency from the Mutiny of 1857. Provided nevertheless that it be distinctly understood, that among the objects left to the discretion of the Committee of Management are not included balls, concerts, theatrical exhibitions and such like entertainments as have the character of mere worldly amusements.

XI. That the Committee of Management shall be authorized to receive the sums obtained on account of the Hall, and to apply them in defraying the expenses incurred on account of servants, assessment, repairs, &c.

XIII. That the Committee of Management shall appoint one of their number to be their Secretary and shall also appoint a Treasurer, and that 5 Members shall form a quorum.

The MONEGAR CHOLTRY is an Institution which affords shelter, food and raiment to the Native poor, lame, halt and blind of Madras, without reference to caste. It was founded in the year 1808, and why named as above cannot now be ascertained. The Institution is supported by public contributions aided largely by the Government. The management is placed under the supervision of a Committee selected annually by Government, from amongst the European and Native gentlemen of Madras.

In its early days, large contributions were made by Lord William Bentinck, Colonel Martinz, Mr. D'Monte and Pollum Amachellum Chetty. The nature of the Institution having been explained to His Highness the Nabob of the Carnatic, he munificently agreed to subscribe 300 Pagodas a year, which sum is still continued.

In 1868, Sir Stafford Northcote kindly remitted a sum of money through Lord Napier to be distributed amongst the Charitable Institutions at Madras. His Lordship kindly sent the sum of 1,000 Rupees to the Directors. Two wards, Male and Female, have been furnished with bedding for 25 Patients, and are called "NORTACORE SINGICAL AND MEDICAL WARDS."

The late Doctor Wyllie, M.B., of the Madras Medical Establishment, bequeathed the sum of 18,025 Rupees for the poor of this Institution.

Lord Napier has kindly furnished bedding for 11 Patients; which is called the "NAPIER WARD." His Lordship, with the late Honorable R. Ellis, has also undertaken liberally to build a School-room which is now completed to educate the Foundlings, the children of the Paupers in the Institution, and the poorer children in and about the neighbourhood.

The Honorable Gajapathi Ran has kindly contributed 1,000 Rupees, which was applied for furnishing a Ward for 8 Patients, and which Ward has been designated as that of the family of "STREE GOVYS." This contribution is in addition to 400 Rupees annually granted by this charitable Native gentleman.

The Maharajah of Vizianagram has also lately very liberally placed the sum of 10,000 Rupees at the disposal of the Directors for the erection of a Ward, for Bed-ridden Paupers. The Ward is now completed and will contain about 20 Beds and designated after the name of the Maharajah.

The Zemindar of Kalahustry very kindly sent a donation of 2,000 Rupees after visiting the Institution, as indicative of his satisfaction and good-will towards the charity.

During the late famine some 60,000 and more were fed, clothed and when sick attended to; the daily number maintained in the several branches of this Institution at present is 600, viz., Infirmary, Alms Houses, Bed-ridden and Incurable disease Wards, and Foundling Asylum.

In the year 1867, the Venecatagerry Rajah built a Choultry to the east of the Monagar, which cost about 9,400 Rs., in which 70 Paupers are fed daily and clothed, besides 120 outdoor poor receive 2 ollocks of Raw-rice per diem. The Rajah contributes annually Rs. 5,000 to meet the expenses of this branch of his charity. The Rajah has forwarded to the Directors the sum of one lac, the interest of which is to support this Institution.

The Executive Committee of the Choultry is composed of the following Gentlemen:—The Hon'ble P. Macadaven, *President*; Hon'ble J. G. Coleman, *Secy. & Treas.*; P. S. Ramswamy Moodelly, Y. Venetaramiah, A. Arcoomooogum Moodelly and T. Ramachandra Row.

And the 2 Visitors for the month, and the Surgeon, 1st District, Members.

The smallest contributions will be thankfully received by the Hon'ble J. G. Coleman, the Treasurer of this useful Institution.

This Institution was established in the year 1850, to afford a refuge and temporary home to such fallen women of European and East Indian parentage as may desire to earn an honest livelihood.

The Bishop of the Diocese is President of the Institution, and appoints the Chaplain, to whom is entrusted the religious instruction of the inmates. The internal arrangements are under the care of a Committee of Ladies, who visit the Asylum weekly in rotation. One Head, and an Assistant Matron reside on the premises. No restraint whatever is used beyond the attractive influences of Christian sympathy and kindness; the inmates are as free to leave at any time as they were to come, the object being not to make it a Penitentiary, but a Christian Home.

The Asylum has already, during the 30 years that it has been in existence, been the means of rescuing 90 women, and opening to them once more a door of hope.

During the past 2 years there were 14 admissions; of this number, two have entered service, one was taken back by her father, and one left the Institution without permission. There are now 10 inmates in the Asylum.

THE LAL BAGH.

THE MYSORE GOVERNMENT GARDEN, commonly known as the LAL BAGH, (from the Hindustani, signifying *red* or *ruby* and *garden*) is under the direction of a Superintendent who is responsible to the Commissioner. The present Superintendent is Mr. J. CAMERON. The garden is situated about two miles south-east of the centre of the Cantonment, and covers an area of about 66 acres of ground, which slopes gently from the southern boundary, where there is a tank communicating with water channels which are led through most of the garden. The greater portion of the ground is very tastefully laid out in ornamental lawns and terraced flower gardens with green houses, aviary, and cages for Lions, Tigers and Cheetahs, &c. The Menagerie has now been enclosed and enlarged; a Picnic House built; the large Terrace completed, and upon which it is contemplated to build an Exhibition house. The Deer Park is situated at the East end of the gardens and greatly adds to the beautifications of the garden. Fruits and Vegetables are cultivated and acclimatized to a greater extent than hitherto. The garden is open from 6 A. M. till dusk. Carriages and horses are expected to enter by the left-hand entrance gate, and return by the one on the right, keeping to the main drive which encircles the garden. Furious driving is strictly prohibited. Visitors are not permitted to pluck flowers or fruits; and are expected not to bring dogs to the garden, as they do much injury to the plants and seed beds. Plants and seeds may be purchased at the garden. A detailed catalogue of the stock on sale, showing the prices, can be obtained from the Superintendent on application.

A large ornamental Fernery has been built adjoining the rookery in which the collection of Ferns will be arranged geographically.

The plants in the gardens are being permanently named for the information of visitors; and an economic garden in which the officinal and medicinal plants will be brought together and grouped according to their natural orders is being formed near the Menagerie.

The number of visitors that entered the garden gates during the official year 1878-79, were Pedestrians 250,308 Equestrians 3,835, Carriages 5,928.

HORTICULTURAL SHOWS.—Since the Mysore Agri-Horticultural Society has been dissolved, the half-yearly shows which are held in the gardens in the months of July and January, are conducted and managed, by the Director of Government gardens, (Colonel W. R. Johnson) and the Superintendent, assisted by a temporary Committee of Jurors.

A horticultural class will be opened shortly, for the instruction of Botany, Vegetable Physiology, and Practical gardening.

HYDERABAD

In the capital of the Nizam's territories and the present seat of Government. It is situated within 6 miles from the Fort of Golcondah, its distance from Calcutta is about 962 miles, from Madras 460, and from Bombay 470 miles. The Nizam's country, viz., that part under the sole management of His Highness' Government contains an area of about 60,000 square miles. No census has been taken of the population, but it is generally com-

puted at ten millions. It is bounded by Berar on the north, the Madras Presidency on the south, Bombay on the west, and the Central Provinces on the east. The population of the city of Hyderabad is supposed to be about (four) 4 hundred thousand. The city is approached by numerous bridges, gates and posterns, it being surrounded by a stone wall, which, however, is in a weak and ruined state. Great improvements are, however, being effected in the city, by widening the streets in several parts, and sanitary arrangements are being slowly introduced under the present enlightened minister, Sir Salar Jung, G.C.S.I.

The Hill Fort of Golconda was anciently the seat of its Government, and in the Fort as well as near it are the far-famed Tombs of Golconda, a series of splendid mausoleums built in oriental style over the departed Sovereigns and Princes of the Hyderabad dynasty. The Tombs are greatly admired for their extent and beauty.

The Nizam's Government.

The last Ruler, His Highness Afzal ud Daula Bahadur, G.C.S.I., was the seventh Nizam of the Deccan, who was the descendant in succession of the celebrated Asaf Jah Nizam-ul-Mulk, the "First Nizam," or founder of the Hyderabad Dynasty since the 17th century. Asaf Jah Nizam-ul-Mulk died in 1748.

The late Afzal-ad-Daula, the seventh Nizam or Nawab of Hyderabad, departed this life in February 1869, after a reign of twelve years, and has been succeeded by a son, who is a minor.

The infant Prince was placed on the Hyderabad Masnad on the 1st March 1869 as H. H. Nawab Mir Mahbub Ali Khan Bahadur shortly after the demise of the late Nizam, Afzal-ad-Daula. During the minority of the present Prince, Mir Mahbub Ali Khan Bahadur, two officers have been appointed to conduct the affairs of the Hyderabad Government.

Nawab Mooktar-ul-Mulk Sir Salar Jung Bahadur, G.C.S.I., Prime Minister.

Nawab, "Shamsul Oomrah" Amir-i-Kabir Bahadur Co-administrator.

The re-construction of the Government of the Nizam, during the minority of the present Prince, is one proof of the Minister's administrative ability and sound judgment, for which advantages this country will be indebted, and the benefit thereof will be fully appreciated in due course of time.

The undermentioned four Noblemen are selected to superintend the departments of the City Public Service:—

The Nilgiri Library has been duly Registered under the Government of India Act XXI of 1860, and a certificate to that effect has been obtained from the Registrar of Madras.

LIBRARY.

The Library is well provided with Standard Works in every department of literature and science.

The most useful and popular Books of the day in every subject are procured upon publication.

The books in the Library are in good order, are much circulated, and are increasing in number. Several additional volumes have been added to the Library. At the end of last March the books totalled 5,354 volumes. 225 volumes were added during the past year.

READING ROOM.

Thirty-one Newspapers and 25 Magazines and Periodicals; or 60 in all, both European and Indian, are now taken in by the Institution.

RULES FOR ADMISSION.

Members are those who pay a Donation, an Annual Subscription wherever resident, and a Local Monthly subscription from the 1st of each month during residence within local limits. There are now 112 Members on the books of the Institution.

To provide for the convenience of persons making a short stay on the Hills, monthly admission tickets expire from day of issue can be purchased, and renewed by the ticket-holders from month to month, but only for 6 months out of any one year. Ticket-holders pay no Entrance Donation, nor Annual Subscription, and are not Members. Admission tickets are in great demand by persons who are not Members.

The affairs of the Institution are managed by a Committee composed of a President and twelve Members, one of whom the Government of Madras appoints.

An Annual General Meeting of the Members of the Institution is held in the first week of July of each year, for the election by Members' ballot of the President and eleven Committee-men for the ensuing year. Not less than thirty Members can at any time call a General Meeting of Members by giving fourteen days' notice.

All Members pay an Entrance Donation of Rs. 10, an Annual Subscription of Rs. 12, and a Local Monthly Subscription of Rs. 24. Admission tickets are priced 3s, and Rs. 6 for a year's monthly ticket respectively; persons who have paid a donation under the old rules pay Rs. 24, all others Rs. 6.

OOTACAMUND LAWRENCE ASYLUMS.

FOUNDED 6th SEPTEMBER, 1858.

PATRON.—His Excellency the Commander-in-Chief and The Right Reverend the Lord Bishop of Madras; COMMISSIONER OF MANAGEMENT.—General R. J. Baker, Capt. E. Bagdie, Major R. Jago, Major J. H. Knox, Major Martin, N. A. Roupell, Esq., W. E. Schmidt, Esq., Colonel F. C. Threlk, Colonel W. J. Wilson, Reverend O. Dent, M.A., *Principal and Secretary*; Surgeon Major H. S. Fox, in Medical charge; Asst. Apothecary F. Greene, Resident Apothecary; Mr. T. Barrows, Manager.

MR. BRADSHAW.—Mr. G. W. Armstrong, Head Master; Mr. A. Wilson, Second Master; Chascon, Third Master; Mr. Wyand, Fourth Master; Mr. Campbell, Fifth Master; Lady, Matron.

MADRAS BRANCH.—Lady Visitors.—Mrs. Carmichael, Mrs. Campbell, Mrs. Dent, Miss J. H. Roupell, Miss Harrison, Head Mistress, Miss Carroll, Second Mistress, Mrs. J. H. Roupell, Matron.

Madras Committee.—The Ven'ble the Archdeacon, Colonel J. W. Rideout; H. B. Esq., L. J. Firth, Esq., Secretary; Mr. W. H. Moore, Superintendent of the Printing Press, Madras.

The objects contemplated in the Establishment of this Institution are two-fold—first, to honor to the memory of a great and good man, the late Sir Henry M. Lawrence, K.C.B.; second, to benefit the children of the European Soldier, by providing for them a refuge, both from the debilitating effects of a tropical climate and the demoralizing influence of a barracks life.

The amalgamation of the Madras Military Male Orphan Asylum with the Ootacamund Lawrence Asylum was effected in September 1871, on the completion of the new Buildings at Kovvada.

The number at present on the rolls are, boys 330 and girls 60.

The salubrity of the situation (which surpasses that of some of the healthiest public schools in England) is shown by the diminished percentage of sick in Hospital, and the robust appearance and healthy appetite of the children.

Although the Institution may be said to have been adopted by the State, it is not perhaps so generally known that Government has never contemplated doing more than furnishing it with a liberal Grant-in-aid. Contributions are earnestly requested that the benefit of the Asylum may be more widely extended to a class which has one of the strongest claims on British Subjects in India. Four years' annual subscription of Rupees 50, or a donation of Rupees 200, gives a title to nominate a child.

The boys receive such a training as will fit them for usefulness hereafter in various lines of life, whilst the girls are employed in such occupations as will tend to qualify them to become useful wives and mothers, should they be spared. The clothing and most of the in-door work in both branches is done by the children, and native servants are dispensed with as much as possible.

THE SHEVAROY HILLS

Are situated in the Salem Collectorate, between 78°20' East longitude and 116°30' North latitude, and is reported to comprise 100 square miles. The highest point is about 5,000 feet above the level of the sea. Ercaud is the chief European settlement containing a Protestant Church, Roman Catholic Chapel, Post Office, Library and Reading Room, Hotel, Civil Dispensary, Traveller's Bungalow, Chuttrum for native Travellers, Cutcherry, Police Lines, &c. There is a resident Deputy Tahsildar. It is 14 miles distant from Salem, and 12 miles from the Shevaroy Hill Station. It has two ghauts or approaches, one on the southern side communicating with the Town of Salem, and the Salem Railway station, and the other leading to the Shevaroy Hill Station. These ghauts are not practicable for wheeled carriages, supplies being brought up by coolies or pack bullocks. A market is

European foodstuffs are brought to a Wednesday whence supplies can be purchased. Bread, mutton, and beef are brought for sale to the depot. There is a small European shop where English provisions, wines, spirits, beer, &c. is procurable.

In addition to the Civil Dispensary under the care of a Civil Apothecary, a Retired Medical Officer conducts private practice.

Whist: Keadah is the chief and only Post Station. It forms the centre from whence radiate within a circumference of 12 miles, the various Coffee plantations.

Coffee is the chief product whilst most of the English fruits and vegetables, and all the English flowers are successfully raised. Tea and cinchona are grown in experimental patches on some isolated hills. The various gum trees (Eucalyptus) and fir are also met with. Many beautiful views of the low country are to be seen from most of the heights. Green Hill or the Shervany Hills forms the highest point. There are many villages scattered about various parts of the Hills in small groups consisting of from 20 to 100 conical-shaped huts inhabited by a tribe of natives called Malayalis. Labour is cheap and abundant, independent of the Malayalis coolies from Siam come and work on the estates; many at one time a week, whilst at 12 months, and children from 6 to 8 years a week. (These Hills get the benefit of both the S. W. and N. E. monsoons). There is a decent carriage road by and about Keadah, and good bridle paths leading to the various plantations and to most of the villages. The climate is a great boon for Europeans as it is easily on the increase and large number of visitors resort thither to enjoy its quiet, lovely scenery, the beautiful climate. The season lasts from April to October; but at all times of the year a few visitors of English blood are to be met with. The permanent residents are chiefly planters. The climate is healthy, but from its proximity and exposure and foreign visitors are liable to take fever, as well as natives and servants, from the plants who from exposure to rain, and according to change their clothes, they suffer much from fever, and from recklessly eating unripe fruit they get dysentery. Keadah is about 220 miles distance from Madras by rail and may be reached within 12 hours when proper arrangements are made for ascending the Ghat. It is about the same distance from Bombay, 97 miles from Calcutta and 125 from Trichinopoly.

Most of the waste lands on these Hills now not private property is covered with forest trees, and applications for such blocks as a rule, are not granted. The only land now available is in the Salera Nad of the Shervany Hills which it is possible to secure under the waste land rules.

THE PULNEY MOUNTAINS

Are situated in the Madras District of Southern India, between 10° and 10° 16' North latitude, and 77° 15' East longitude and compared to the Western Ghats by an extension of range of Hills about 10 miles in width, being otherwise isolated. Bounded on the North by Coimbatore and Travancore districts whilst those of Madras and Tanjore lie to the East. It extends being the range of the plateau in and about which the Europeans reside. It is 7,000 feet above the sea level, the annual rainfall is about 45 inches. The thermometer ranges from 69° to 77° Fahrenheit. There are only three permanent residents, twenty houses, and eighteen others attended for banking purposes.

The three villages consist of over 10 houses belonging chiefly to emigrants from the plains, and they occupy servants of the European residents, visitors, and others. The South Hills, Malabar, give much to within 40 miles of these Hills.

The Malabar Hills, a hill, is about 10 miles from whence travellers are provided to Perinad, where there is a small station, 4 miles from the foot of the hills and 16 miles from Keadah.

The hills buildings are the American Mission, Chapel, and School house, a Roman Catholic Chapel, Government Post Office, and a Local Fund Dispensary. The residents of the village visit the Hills in from March to October. The American Missionaries and the officials of the Madras District are the chief visitors, whilst a few from the other districts resort to these Hills. All months of the year supplies have to be procured from the large market station of Perinad at the foot of the hills, and European supplies chiefly from the station and exports.

There are no coffee plantations on the hills. The hills in the lower Pulney which is situated in the head quarters of coffee in Malabar, the distance between Perinad and Keadah is a ride of 11 hours. There are numerous small coffee estates on the Shervany Hills, Pundarikottai, and also in the Pundarikottai Taluk of the Madras District and 2 from 5 to 10 acres each, chiefly held by 100 years. Chinese and Malabars have been commenced at Keadah and Shervany and beyond Chingom at Keadah and South Hills.

Such new trustee may be appointed in such manner as may be agreed upon by such body, or by a majority of not less than two-thirds of the members of such body actually present at the meeting at which the appointment is made.

Appointment under Section 2 to be recorded in a memorandum under the hand of the chairman of the meeting.

3. Every appointment of new trustees under Section two shall be made to appear by some memorandum under the hand of the chairman for the time being of the meeting at which such appointment is

8. Nothing in Sections six and seven shall be deemed to affect any provision contained in any instrument for the disposition of such body, or for the payment or distribution of such property.

9. Whenever any question arises, either in connection with the matters heretofore referred to, or otherwise, as to whether any person is a member of any such body as aforesaid, or as to the validity of any appointment under this Act, any person interested in such question may apply by petition to the High Court for its opinion on such question. A copy of such petition shall be served upon, and the hearing thereof may be attended by, such other persons interested in the question as the Court thinks fit.

12. In the event of execution of this chapter the Local Government may, from time to time, appoint a sufficient number of fit persons as its officers

Every officer so appointed (hereinafter referred to as a detaining-officer) shall have, for the purpose of his duties under this Chapter, the following powers (that is to say):—

- (a) he may go on board any British ship and may inspect the same or any part thereof, or any of the machinery, equipments and cargo on board thereof, and may require the unloading or removal of any cargo, ballast or tackle, not unnecessarily detaining or delaying her from discharging, loading or proceeding on any voyage;
 - (b) he may, by summons under his hand, require the attendance of all such persons as he thinks fit to call before him, may examine such persons, and may, by a like summons, require referees in writing to any inquiries he thinks fit to make;
 - (c) he may require and enforce the production of all books, papers or documents which he considers important; and
 - (d) he may administer oaths or may, in lieu of administering an oath, require every person examined by him to make and subscribe a declaration of the truth of his statements made by him in his examination.
12. Every detaining officer shall, in addition to the powers hereinbefore conferred have the same powers as the Local Government has under Section eleven and eight respectively, of provisionally ordering the detention of a ship for the purpose of being surveyed, and of appointing a person to survey her; and if he thinks that a ship so detained by him is not unsafe, may order her to be released.
13. Every such officer shall forthwith report to the Local Government any order made by him for the detention or release of a ship.

Of the Court of Survey and of Appeals and References thereto.

14. A Court of Survey for a port shall consist of a Judge sitting with two assessors.

15. The Judge shall be a District Judge, Judge of a Court of Small Causes, Presidency Magistrate, Magistrate of the first class or other fit person appointed in this behalf by the Local Government either generally or for any specified case.

The Assessors.

16. The assessors shall be persons of practical, engineering or other special skill and experience. One of them shall be appointed by the Local Government either generally or in each case, and the others shall be summoned by the Judge, in the manner prescribed, out of a list of persons from time to time prepared for the purpose and published by the Local Government in the official Gazette, and there is no such list or if it is impracticable to procure the attendance of any person named in such list, shall be appointed by the Judge.

17. The Judge shall, on receiving notice of an appeal or reference from the Local Government, immediately arrange the business in the manner prescribed, to meet with such appeal.

18. Every such appeal and reference shall be heard in open Court.

19. The Judge and each assessor shall, for the purpose of this Chapter, have the same powers as are, by Section eleven conferred on a detaining-officer.

20. The Judge may appoint any competent person to survey the ship and report thereon to the Court.

21. The owner and master of the ship and any person appointed by the owner or master, and also any person appointed by the Local Government, may attend at any inspection or survey made in exercise of powers conferred by Section eighteen or Section nineteen.

22. The Judge shall have the same power as the Local Government has to order the ship to be released or, finally detained; but, unless one of the assessors concurs in an order for the detention of the ship, the ship shall be released.

23. The Judge shall report the proceedings of the Court in each case to the Local Government, and each assessor shall sign such report or reports to the Local Government for its use.

24. The Local Government may, with the previous sanction of the Governor-General in Council, from time to time make rules to carry into effect the provisions of this Chapter with respect to a Court of Survey, and in particular with respect to—

- (a) the procedure before the Court;
- (b) the requirement of security for costs and damages;

- (c) the amount and application of fees; and,
- (d) the ascertainment, in case of dispute, of the proper amount of costs under this Chapter.

Such rules shall be published in the official Gazette, and shall thereupon have the force of law.

Scientific Referees.

25. If the Local Government is of opinion that an appeal under this Chapter involves a question of construction or design, or of scientific difficulty or important principle, it may refer the matter to such one or more out of a list of scientific referees, to be from time to time prepared by the Local Government, as may appear to possess the special qualifications necessary for the particular case, and may be selected by agreement between the Port Officer and the appellant, or, in default of any such agreement, by the Local Government; and thereupon the appeal shall be determined by the referees or referees instead of by the Court of Survey.

26. The Local Government, if the appellant in any such appeal so requires and gives security to its satisfaction to pay the costs of and incidental to the reference, shall refer such appeal to a referee or referees selected as aforesaid.

27. The referees or referees to whom an appeal is referred under Section twenty-four or Section twenty-five shall have the same powers as a Judge of the Court of Survey.

Costs of Detention and Damages incidental thereto.

28. If it appears that there was not reasonable and probable cause, by reason of the condition of the ship or the act or default of the owner for the provisional detention of a ship, the Government shall be liable to pay to the owner of the ship his costs of and incidental to the detention and survey of the ship, and also compensation for any loss or damage sustained by him by reason of the detention or survey.

29. If a ship is finally detained under this Chapter or if it appears that a ship provisionally detained was at the time of such detention unsafe, the owner of the ship shall be liable to pay to Government its costs of and incidental to the detention and survey of the ship; and such costs shall, without prejudice to any other remedy, be recoverable as salvage is recoverable.

30. For the purposes of this Chapter the costs of and incidental to any proceeding before a Court of Survey, and a reasonable amount in respect of the remuneration of the surveyor or officer of the Local Government, shall be deemed to be part of the costs of the detention and survey of the ship.

31. When a complaint is made to the Local Government or a detaining-officer that a British ship is unsafe, it shall be in the discretion of such Government or officer (as the case may be) to require the complainant to give security to the satisfaction of such Government or officer for the costs and compensation which such complainant may become liable to pay as hereinafter mentioned:

Provided that, where the complaint is made by one-fourth, being not less than three, of the persons belonging to the ship and is not in the opinion of such Government or officer frivolous or vexatious, such security shall not be required; and such Government or officer shall, if the complaint is made in sufficient time before the sailing of the ship, take proper steps to ascertain whether the ship ought to be detained under this Chapter.

32. Where a ship is detained in consequence of any complaint, and the circumstances are such that the Government is liable under this Chapter to pay to the owner of the ship any costs or compensation, the complainant shall be liable to pay to the Government all such costs and compensation as the Government incurs, or is liable to pay, in respect of the detention and survey of the ship.

33. Costs, &c., payable by Government, recoverable from complainant.

Grain Cargoes.

34. No cargo of which more than one-third consists of any kind of grain, corn, rice, paddy, pulse, seeds, nuts or nut-kernels (hereinafter referred to as grain cargo) shall be carried on board any British Indian ship unless the same be contained in bags, sacks or barrels, or secured from shifting by boards or bulkheads or otherwise.

If the owner or master of any ship, or any agent of such owner who is charged with the loading of such ship or the sending her to sea, knowingly allows any grain cargo or part of a grain cargo to be shipped therein for carriage contrary to the provisions of this section, he shall be punished with fine which may extend to three thousand rupees.

Deck and Lead Lines.

33. Every British Indian ship shall be permanently and conspicuously marked with lines of not less than twelve inches in length and one inch in breadth painted longitudinally on each side amidships or as near thereto as is practicable, and indicating the position of each deck which is above water.

The upper edge of each of these lines shall be level with the upper side of the deck planks next the waterway at the place of marking. The lines shall be white or yellow on a dark ground or black on a light ground.

34. The master of every British ship not being a coasting vessel within the meaning of the Sea Customs Act, 1878, shall, before his ship is cleared outwards from any port in British India upon any voyage, or if that is not practicable, as soon after as may be, mark outside upon each of her sides amidships, or as near thereto as is practicable, in white or yellow on a dark ground, or in black on a light ground, a circular disc twelve inches in diameter, with a horizontal line eighteen inches in length drawn through its centre.

The centre of such disc shall indicate the maximum load-line in salt water to which it is intended to load such ship for that voyage.

35. The person applying for entry of any such ship outwards shall insert, in the form of application made to the Customs-collector, a statement in writing of the distances in feet and inches between the centre of such disc and the upper edge of each of the lines indicating the position of the ship's deck which is above such centre, and if default is made in delivering this statement, the Customs-collector may refuse to enter the ship outwards.

36. A copy of this statement shall be entered in the agreement with the crew before it is signed by any member of the crew, and no shipping-master shall proceed with the engagement of the crew till this entry is made.

37. The Master shall enter a copy of this statement in the official log-book (if any).

38. When a ship has been marked as by Section thirty-four required, she shall be kept so marked until she next returns to a port of discharge in British India or arrives at a port in the United Kingdom.

39. The master of every British ship which is a coasting vessel within the meaning of the Sea Customs Act, 1878, shall, before proceeding to sea from any port, mark outside upon each of her sides amidships, or as near thereto as is practicable, in white or yellow on a dark ground or in black on a light ground, a circular disc twelve inches in diameter, with a horizontal line eighteen inches in length drawn through its centre.

The centre of this disc shall indicate the maximum load-line in salt-water to which it is intended to load the ship, until notice is given of an alteration.

40. He shall also once in every twelve months, immediately before the ship proceeds to sea, send or deliver to the Collector, or other principal officer of Customs of such port as the Local Government may from time to time appoint on this behalf, a statement in writing of the distance in feet and inches between the centre of the disc and the upper edge of each of the lines indicating the position of the ship's deck which is above that centre.

The master, before the ship proceeds to sea after any renewal or alteration of the disc, shall send or deliver to the Collector or other principal officer of Customs aforesaid notice in writing of such renewal or alteration, together with such statement in writing as before mentioned of the distance between the centre of the disc and the upper edge of each of the deck-lines.

If default is made in sending or delivering any notice or statement required by this section to be sent or delivered, the master shall be punished with fine which may extend to one thousand rupees.

41. When a ship has been marked as required by Section thirty-eight, she shall be kept so marked until notice is given of an alteration.

Penalty for neglecting to mark, for submerging load-line.

41. Any master of a ship who neglects to cause his ship to be marked as by this chapter required, or to keep her so marked, or who allows the ship to be so loaded that when in perfectly smooth salt-water the centre of the disc is submerged,

CHURCH OF ENGLAND ASSURANCE INSTITUTION.

ESTABLISHED 1840.

HEAD OFFICE—KING STREET, CHEAPSIDE, LONDON.

EMPOWERED BY SPECIAL ACT OF PARLIAMENT.

"Short Term" and "Whole Life" Assurances are granted.

In addition to ordinary Assurances this Company issues Policies by which the sums assured are made payable to the Policy-holder himself on his attaining a specified age or to his representatives in the event of his previous death. By this means Officers and others may both provide for their families and secure *Retiring Provision* for themselves.

Also "Free" Policies are granted which can never altogether lapse in consequence of the non-payment of Premiums.

"Clergy Rates" have been recently prepared to enable Clergymen and Ministers of all denominations to assure their Lives in this Institution upon more favorable terms than in any other Office.

Premiums may be paid annually, half-yearly, quarterly or monthly as desired.

Thirty days' grace are allowed for the payment of annual, half-yearly and quarterly premiums, and fifteen days for monthly premiums. The validity of the Policy will, in every case, be maintained by payment of the Premiums within the stipulated period, notwithstanding the death of the Assured may have occurred before such premiums shall have been received.

No extra rate is charged for sea-passages, and on arrival in Europe a reduction is made in the premium without the assured being required to pass any Medical examination.

Policies effected by parties on their own lives, and assigned as a *bond fide* security to others, will not be rendered void in the event of death by suicide, duelling, or the hands of justice. Claims will become payable within three months after satisfactory proof of death.

The Medical Officer, Dr. Cockerill, sees applicants for Assurance at the General Hospital, on any day of the week at 7 A. M. and 5 P. M.

Detailed Prospectuses, with the names of the Trustees and Directors, Full Tables of Life Premiums, and the necessary Forms of Proposal, may be obtained on application to the following Agents:—

Messrs. PARRY & Co., Madras.

Messrs. REMINGTON & Co., Bombay.

Messrs. LAW, BROWN & Co., Ceylon.

Quinquennial valuations, by a London Actuary, of Assets and Liabilities. The reduction of premiums for the Quinquennium 1876-80 is at the rate of 65 per cent. of premiums paid during 1871-75.

Assurances granted on the lives of Europeans, East Indians or Eurasians, and Parsees.

That experience leads the Directors to anticipate that the retention of the "Mutual" principle and the Quinquennial distributions of Surpluses, will bring down the cost of Assurance by this Office, for Life, to the lowest possible point.

The Medical Examiner sees Applicants for Assurance at his residence, Pantheon Road, Egmore, on Wednesdays and Saturdays between 11 and 12 A.M.

TESTIMONIALS.

Piles.—Your "Thilum" is an excellent remedy for Piles externally applied.
 It removes the intense pain like a charm, and I very confidently recommend it now in my
 practice, expecting it also to heal rapidly, broken piles that are ulcerating.

MADRAS, 11th November 1890.

GEO. WILKIE,
 Honorary Surgeon.

REPORT OF THE DRESSER, ON HUNNETMADE ESTATE,
COORNOOR, MUNGHEERIES.

I have treated the following case with the Ointment called Henry's "Thilum" with the following results:—

Inflammation of the Elbow Joint.—A Cooly on the Gledale Estate, aged about 30, had a small wound on his elbow, which he scratched till it caused inflammation of the joint. His arm was enormously swollen and he suffered severe and continuous pain. I tried both internal and external remedies, stimulating Ointments and Lotions for 1 day with little effect, but the first day that I applied Henry's "Thilum" the patient was much relieved, and with its application was cured in a few days and able to resume his work.

Sprain of Ankle.—A Cooly had been the same day sprained his ankle, and there was much swelling with intense pain. The patient was unable to use his hand. I applied "Thilum" twice on the same day when he was much relieved. The next morning I again applied the Ointment and gave some to the 1st's mother to use in the evening. I saw the boy on the third day and found the swelling reduced, and the pain relieved and the boy soon recovered.

Neuralgia Hemicrania.—(One of the best of all remedies I have come to me with above acute pains, and I myself have rubbed "Thilum" to the parts affected and found it gave immediate relief. "Thilum" does not make pain, irritation or redness. Many coolies now prefer it to any other Ointment or Liniment, and say it is very soothing to pain in the chest, headache, Rheumatism, &c. I have used it for both adults and children and never found it produce any ill effect, in acute Rheumatism, neuralgia, bronchitis and catarrh. I have also found Henry's "Thilum" very useful and can say it takes great effect. In the beginning of any inflammatory disease if "Thilum" is applied it gives immediate relief. I consider it a very valuable remedy for most of the complaints so common amongst coolies and others employed on Estates.
Coornoor, 12th July 1890.

J. EPHEAUM.

Dresser, Hunnetmade Hospital.

I am compelled from a deep sense of gratitude to bear testimony to the beneficial results derived from the use of Henry's "Thilum."

For more than 7 years I was afflicted with Chronic Neuralgia which exhibited itself in needles about my arms, head and immediately over the eyes. My sufferings on these occasions were intense. My friends had been assiduous in procuring me constant medical aid, but I never derived anything beyond temporary relief, and my case appeared hopeless and incurable.

In the month of December last, whilst preoccupied with excruciating pains in the head, I was advised to give "Thilum" a fair trial instead of a blister then in the act of being applied to the nose. My wife rubbed some of the "Thilum" gently but well into the part affected for about 20 minutes, and I am thankful to state that from that day to this I have not had the shadow of a pain to trouble me.

I purpose to deliver (nearly 9 months) hence, you this to see whether the Neuralgia would return. You are at liberty to make what use you like of it, as I consider it should be made public for the benefit of sufferers.

J. M. WILLIAMS,

S. I. D. College, Madras.

Vizianagaram, 24th August 1890.

I have used Henry's "Thilum" for the orphans and other inmates of the Mission (Vizianagaram) and out-patients treated at the dispensary; for the past 12 months with the most satisfactory results have found it most efficacious for Rheumatism, Sore Throat, Neuralgia, Sprains, Bruises and Swellings. The British Missionary of Srirangapatna (South Arcot district) suffered severely for 6 months from acute pains in both knee joints, accompanied by swellings some 4 months ago. I gave him about 4 pints of "Thilum" which effected a perfect cure in a few days. He has since come to see us and has shown unmistakable proof of his gratitude.

I consider "Thilum" a most valuable remedy which should be always kept at hand.

CAUTION.

The success that has attended the introduction of "Thilum" has led to some worthless preparations being offered (under other names) for sale by unscrupulous persons. Parts of Henry's "Thilum" pamphlet have been surreptitiously adopted verbatim to describe these base imitations. The public is cautioned against being victimised by Henry's "Thilum" is the original Sufferer's Friend. Each pot bears the trade mark (as at heading) on the circular label on the trade wrapper, as also on the band round which further bears the facsimile of the proprietor's signature.

GOVERNMENT HOUSE,

SIMLA, 29th September 1878.

G. W. PHILLIPS, Esq.,

Madras Army, Poonamallee, near Madras.

1

SIR,—I have to acknowledge the receipt of your letter of the 20th instant, and to thank you for the two copies of your pamphlet on the treatment of Leprosy, referred to therein, which have also been duly received.

I am glad to see the satisfactory results that attend your course of treatment.

Yours faithfully,

(Sd.) SIR GEORGE POMEROY COLLEY,

Lieut.-Genl. C.B., C.M.G., G.C.S.I., late Military

Secretary to the Earl of Lytton, and now

Governor and Commander-in-Chief of South Africa.

2

GOVERNMENT HOUSE,

OORACAMUND, 9th November 1878.

G. W. PHILLIPS, Esq.,

Madras Army, Poonamallee, near Madras.

SIR,—I have to acknowledge the receipt of copies of your pamphlet on the Gurjon Oil treatment.

Two copies as you desired were duly submitted to His Grace, and I am desired to thank you for your attention in sending them.

I beg to thank you for also giving me a copy of this record of your valuable treatment, which affords hopes that the terrible malady of Leprosy may be combated.

Yours faithfully,

(Signed) BERTIE HOBART, Major, R. A.,

Mil. Secy. to His Grace the Duke of Buckingham and Chandos.

3

We learn that Apothecary G. W. Phillips, Madras Medical Establishment, who during a professional residence of some years in the Andamans, devoted his attention so successfully to the discovery of an effectual treatment of Leprosy, has now a number of patients placed under his especial care in Poonamallee. For these a separate building has been engaged by Mr. Phillips, and they are dieted and treated according to the nature of each case. At the recommendation of Dr. Fayer the son of a wealthy gentleman in England has also been placed under Mr. Phillips' care.

The Madras Athenaeum, dated 20th May 1879.

4

I have much pleasure in certifying to the following case, in which I am personally interested, being the Medical Attendant of the Family for a considerable time.

A—, aged 10 years, was affected with Tubercular Leprosy, which shewed itself a few years after birth. I treated him for about four years with every Alterative the Materia Medica suggested; Arsenic, Iodide of Potassium, Sarsaparilla, Horse Radish, Clarke's Blood Mixture, &c., &c., without the least perceptible effect.

I was about abandoning the case when the Family suggested the trial of Mr. Phillips' Specific, and the patient was transferred to him for treatment. He continued it for one year (in 1877) and was completely cured. The largest tubercle on the cheek has disappeared without a scar and he is in excellent health at present.

(Signed) H. A. HUNTLEY, F. C. S.,

Chemist, &c., &c., at Messrs. Barrie & Co.'s Dispensary.

Madras, 24th Sep. 1879.

Extract from the late's mother's letter, dated 5th September 1879:—"Your little patient is doing remarkably well."

5

POONAMALLEE.

This place is getting famous through Mr. Phillips of the British Medical Staff in his treatment of Leprosy.

Unaided by Government he has established a Hospital, and patients from different parts of the world are now undergoing treatment, and with surprising success. A gentleman left the Hospital a few days ago cured—and a young lady will be leaving in the course of a month or so, cured also.

The Madras Athenaeum, dated 30th June 1880.

6.

PROGRESS REPORTS OF PATIENTS OUT OF HOSPITAL.

CUTTACK, 2nd May 1880.

You will be glad to hear that your patient is doing very well. The blotches about the body have entirely disappeared, and the swelling here and there, which was noticed before using your medicines has quite vanished.

(Signed) J. A. S.

7.

BOMBAY, 18th June 1880.

All the members of my family were greatly surprised to see that so much cure has been effected in so short a time (6 months). They even say that I am now nearly well.

There are very few Doctors who take so much care of their patients as you do, I have personal experience of it, and, therefore, I so much cling to your medicines.

(Signed) S. TOLE.

8.

SALEM, 27th November 1880.

My parents when I last went to Pondicherry found me almost entirely well. I hope this time I shall make a long stay on your side. My health is very good, I continue to take both of the internal medicines you gave me. None of the discolourations that were removed appeared again thank God.

(Signed) C.

9.

CURES EFFECTED DURING THE YEAR 1880.

It is with extreme pleasure and deep gratitude that I hasten myself to send you this certificate to testify to the marvellous effect I derived from your most valuable treatment. Though I cannot declare I am completely cured, yet I think to be so in the course of a few months, and get myself examined by some of the Surgeon-Majors of the Madras Army, under whose care I have been, and send you their declaration to be published. Meanwhile I consider myself restored to parents, friends and society, and hope with the blessing of God to continue the remainder of my life in the perfect good health I am enjoying now.

(Signed) T. OLIVIER.

MADRAS, 4th December 1880.

10.

PANNOOL,
Near KILACHERI MONASTERY,
4th November 1880.

I have much pleasure in certifying that C. M. S., aged 17 years, has been cured of Tubercular Leprosy by Mr. G. W. Phillips of the Madras Medical Department. Chiefly on my advice the boy was sent from Nellore to Madras in the latter half of 1878 to Mr. Phillips, who treated him for nearly two years, at the end of which period young S. is to the best of my knowledge and belief thoroughly and radically cured.

I took a particular interest in young S.'s case, and watched the treatment of the disease, and the progress of its cure, paying periodical visits to Mr. Phillips' Leper Hospital for this purpose, and I conscientiously declare that young S.'s case has been an unqualified success. My sincere belief is that Mr. Phillips has discovered the only true cure for leprosy, as speedy and efficacious, as it is devoid of pain. This fact is one of which the Madras Medical Department in general and Mr. G. W. Phillips in particular should be justly proud.

I can confidently recommend those suffering from this dread disease to put themselves under Mr. Phillips' treatment for a longer or shorter period, according to its violence, and I assure them that an implicit obedience to his directions will induce a permanent cure.

(Signed) C. E. MITCHELL,
Catholic Missionary.

I hereby certify that my daughter L. M. S., aged 14 years was thoroughly cured by Mr. G. W. Phillips in the course of two years.

(Signed) M. J. S.

MADRAS, 8th December 1880.

11.

PROFESSIONAL RECOMMENDATION.

CALCUTTA, 7th November 1880.

The gentleman who recommended my son to place himself under your treatment was Surgeon-Major Reid, R.M., Senior Medical Officer of Port Blair.

(Signed) S. P.

12.

I have pleasure in stating that I consider myself greatly improved in general health since I have been under treatment (a period of 8 months) and with regard to the disease itself, I think I may safely state, that I am nearly cured, and have every hope in Mr. Phillips' assurance, that I shall be fully so in another six months.

POONAMALLEE,
8th December 1880.

(Signed) S. P., Junior.

13.

DEAR SIR,—I am glad to inform you that one Notton, otherwise called Murugan, who was some years ago very badly off with Leprosy, and who has now been thoroughly cured from the effects thereof, having been under excellent treatment, has now returned to my village, wherein he lives.

He is to our great astonishment thoroughly free from the disease, and is remarkably doing well, being wonderfully looked at by all.

Not only your patient, but we also stand as witnesses to the wonderful cure of the Leprosy.

I have one of my fellow country men suffering from Leprosy of long duration, and I wish to send him to your hospital for treatment.

ARUNYOAL, near TRIVELLORE,
8th December 1880.

(Signed) A. RUNGASAWMY MOODELLI,
Village Munsiff of Arunoyal.

Anæsthetic and Tubercular Leprosy radically cured by the undersigned.

Extreme cases would require special advice to conduce to recovery.

The remedy is admittedly a marvellous one—slow and sure in its action, and will not rest till the last vestige of the disease is entirely removed from the system.

Pamphlets on the treatment of Leprosy, Parts I, II and III, price three Rupees.
