PART IV.—MILITARY.

LORD CLIVE'S FUND.

FOURTH S. GRONOS, 1st September, 1863, No. 306 of 1863.—The following Extract from a Military Despatch from the Right Honourable the Secretary of State for India is published:—

Despatch, dated 31st July, 1863, No. 109.—1. I have to inform you that the House of Lords has reversed the judgment of the Master of the Rolls in the matter of Lord Clive's Fund, and has ruled that the contingency specified in the Deed constituting the Fund, in the event of which the sum of Sixty Rupees 5,00,000 should be returned to Lord Clive, or to his Executors, Administrators, or Assigns, has happened, by the passing of the Acts 21 and 22, Victoria, Chapter 100.

2. You will, therefore, in future, admit all persons, who would have been entitled to pension from that Fund, to an equivalent rate of pension, without reference to the name of Lord Clive, upon production of the usual documents.

Pensions in lieu of those formerly granted from Lord Clive's Fund.

These pensions are granted to Commissioned and Warrant Officers and Soldiers of the Indian Forces, supernumerary or worn-out in the service.

The following Commissioned and Warrant Officers are entitled to the half-pay of their respective ranks from the date of their debarkation in England, on their making affidavit that they do not possess property to the amount opposite to their respective rank:—

G. O. G. 22nd August, 1874, No. 211.—Officers who retire under the scheme published in G. O. G., No. 656 of 1874, are as much debarred from the benefits of Lord Clive's Fund as any other retired Officers are.

The retirement of an Officer under G. O. G., No. 656 of 1874, is in no way affected by the fact that he receives also compensation for the Colonel's allowance, and therefore has to relinquish the good service pension if he is on receipt of it, and forgoes all claim to bonus compensation under the terms of G. O. G., No. 808, dated 30th September, 1876.

2. "Such Officers cannot be required to subscribe to the Military Funds as Colonels; nor can they have the option of doing so in any rank higher than that they have attained substantively, unless under the operation of any rules of their respective funds, which would give them that privilege, if they merely retired from the service in ordinary course."

Pensions to Widows.

The Widows of Commissioned and Warrant Officers of the Indian Forces are entitled to the following pensions, upon providing satisfactory evidence that their husbands did not die possessed of property to the amount stated opposite to their respective ranks. The pensions continue during widowhood, but terminate finally on re-marriage which cancels all claim to reversion to the pension previously drawn in right of their former deceased husbands. Should the second husband have been an European Officer, or Soldier, the Widow will be entitled to pension on his account.

QUEEN'S MILITARY FUND.

Regulations of the Queen's Military Widows' Fund, for the Benefit of the Widows and Children of deceased Officers in Her Majesty's Service in India, established in 1820.

Under the protection and countenance of the Most Noble the Marquis of Hastings, Commander-in-Chief in India, the abovenamed Fund was established in the year 1820, for the purpose of sending Home, in comfort and respectability, the families of deceased Officers in Her Majesty's Service in India, preventing thereby the painful and degrading practice of appealing to the public for subscriptions on such occasions. The Fund also provides relief in such cases until they can conveniently embark.

Modifications of the original Rules have at different times become necessary, and have been adopted with the approval of the subscribers and the sanction of the Commander-in-Chief for the time being.

On the present occasion the Committee of General Management, having observed the desirability of making some of the rules more complete, of modifying the rates of subscription hitherto paid, and of simplifying the mode of the Fund's operations, represented these views to the subscribers at large, and circulated voting lists in which opinions were given on the proposed alterations.

The Committee are gratified to find that their suggestions have been almost unanimously accepted, and the same are accordingly embodied in the following Code of revised Regulations for the Government of the Fund, which will come into force on the 1st January 1874.

As Officers, on first landing in the country may not have convenient access to the books of Local Regulations, the following extracts are here re-printed, showing the benevolent object with which the Fund came to be originally instituted, and the benefits to be derived from supporting it.

G. O., 25th Decr. 1820.—"1. With reference to the Circular Letter from the Adjutant General of His Majesty's Forces to Officers Commanding Regiments, dated the 22nd October, 1819, His Excellency the Commander-in-Chief, with a view to give further aid and facility to the arrangement of the Fund for Widows and Children of His Majesty's Officers, is pleased to publish for general information of all concerned, that the Most Noble the Governor-General has signified his consent to become Patron to the humane institution now in progress to be established, and His Excellency the Commander-in-Chief will consider himself as President, and has been pleased to order a Committee of General Management to be formed at Head Quarters, with which the Presidents of General and Regimental Committees can communicate on all subjects touching the object in view. It will be the business of the Committee of General Management to examine the accounts quarterly, and to order the sums in hand to be deposited in Government Security and that the Paymasters of Regiments make the remittances at the periods prescribed in the printed Regulations, &c., &c."

G. O., 25th November, 1826.—"The Commander-in-Chief is pleased to publish, for the information of the Officers of His Majesty's Army serving in India, the following General Order, No. 371 of 1826, issued by the Supreme Government:—

Fort William, 17th November, 1826.—"Enactment.—That the following paragraph of a Military General Letter from the Honorable the Court of Directors under date the 27th

of May, 1826, be promulgated for the information of the Officers of His Majesty's Service in India:—

The grant of passage money to the widow of Lieut. Twinbergen, of His Majesty's 44th Regt., to enable her to return to England, reported as a special case.

"17. We desire that you will take measures for acquainting all Officers of His Majesty's Service, with the existence of this Fund, immediately on their arriving at any of the Presidencies, and with our determination not to provide maintenance or passage hereafter for the widows or families of any of His Majesty's Officers dying in India.

"The Commander-in-Chief is requested to issue such instructions for making all Officers of His Majesty's Service, on their arriving at any of the Presidencies, acquainted with the termination of the Honorable Court, expressed in the foregoing extract, as may appear necessary to His Excellency."

G. O., 30th April, 1829.—"The Commander-in-Chief, in directing the publication in General Orders of the accompanying statement of the Funds of the institution for the relief of widows of Officers of His Majesty's Service, regrets to find, that an institution so beneficial to all (whether married or single), and so perfectly within the means of the most limited incomes, should not meet with that universal support which it claims. His Lordship is satisfied that there are many who have, from want of attention only, omitted to turn their names as subscribers, and is confident that such omissions have only to be pointed out to be remedied; but he considers it a duty which he owes to the Army, to inform them by the publication of the accompanying letter, in the sentiments of which he most fully coincides, that it now remains for the Service generally to consider whether they will support the institution, or allow the widows and children to appeal to individual charity for the means of enabling them in their distress to return to their homes, and in addition to their misfortunes may be removed, and their respectability maintained, by so small a subscription to the Fund, of at most two Rupees a month from a Subaltern, and from other ranks according to the moderate scale laid down in its Regulations."

after from the Secretary to Government, Military Department, to the Commander-in-Chief, No. 195, dated 13th December, 1828.

"The annexed extracts (paragraphs 2 and 11) of the Honorable Court's Military General Order to Madras, under date the 14th May 1828, prohibiting the grant of passage money to the families of Officers of His Majesty's Service returning to England, having been forwarded to the Supreme Government, with an intimation that these orders are equally applicable to this Presidency, I am directed to request, that you will lay the same before the Commander-in-Chief for His Excellency's information.

Extract Military Letter to Fort St. George, dated 14th May 1829.

"Para. II.—We have had repeated occasions to comment on the Regulations of your Government granting passage money to the families of King's Officers on their return to England, but we regret to find that our instructions on this point have not been attended to with their desired effect at your Presidency.

"III. The cases which have arisen divide themselves into two classes:

"1st.—Widows and orphans of Officers dying in India.

"2nd.—Wives and children of Officers returning to England."

"IV. To provide for the conveyance to England of widows and orphans, who are left in destitute circumstances, a Fund was established in the year 1820 by Officers of His Majesty's Regiments serving in India. The principles and objects of this Fund have secured our concurrence, and a subscription of 6,000 Rupees a year has been authorized by us towards its support.

"V. * * * * *

"VI. * * * * *

"VII. The Officers in our service, who have been appointed of late years, are all required to contribute to the support of the institution established for the relief of their widows and children, and we would hope that some rule, which shall be equally effectual for the support of this Fund may be adopted by His Majesty's Officers.

"VIII. In the subscription we have made we have done as much, if not more in proportion for His Majesty's Officers, as we have done for the Officers of the Company's Army, in our subscription to their Funds; and as we never provide for any individual case of distress, which may arise on the part of the widow and children of an Officer of our own service, we must likewise decline to make any such separate provision in any future case for the widow and children of an Officer of His Majesty's Army.

"IX. His Grace the Commander-in-Chief has observed on this subject 'that if the Officers of His Majesty's Army will contribute, the Fund will be sufficient to remedy the inconveniences which now exist; if, on the other hand, they decline to subscribe to it,

'it must be understood that they are willing to rely, in the event of their death, upon 'charity' for the removal of their families to England. If, therefore, any widows or orphans of His Majesty's Officers be left destitute, it will be from the fault of their husbands and fathers.

"X. We, therefore, positively prohibit any further advance of money on your part to enable such widows and orphans to return to England.

"End.—Wives and children of Officers returning to England.

"XI. We had contemplated the advantage of including these cases among the objects to be provided for by the Fund; but on further consideration, we are of opinion that every Officer must be left to make his own arrangement, independent of any charitable institution, or of the assistance of the State. The Funds to which we contribute for the advantage of the Company's Officers, make no provision for such cases, and no allowance from the Government is ever granted to defray the private expense of Officers on this account. We must therefore absolutely prohibit the grant of passage money to the families of King's Officers returning to England."

G. O., 29th May 1844.—"In conformity with instructions from the Right Hon'ble the Secretary at War, under date the 6th March, 1844, the Commander-in-Chief desires it may be distinctly understood, that all Officers refusing to become subscribers to the Military Fund for the benefit of the widows and children of Officers of Her Majesty's Regiments serving in the East India Company or by the British Government from any relief, either by the East India Company or by the British Government from any expense they may incur in returning to England.

A. G. O. Cir., No. 23, 28th September, 1865.—"On two occasions recently, it has come to the notice of the Commander-in-Chief, that charitable contributions have been solicited from the public at large in aid of the widows of Officers of Her Majesty's Service in India, whose husbands had neglected to subscribe to the Queen's Military Widows' Fund."

"The origin of the Fund was to obviate such appeals, and at the same time to prevent what used to be not an uncommon spectacle, the reduction to the most painful state of destitution of ladies who, during the lifetime of their husbands, were enjoying great comfort, perhaps even affluence.

"Apart from other considerations, His Excellency thinks it very unfair to tax themselves Officers of the Army, a large proportion of whom have already consented to tax themselves in support of this Fund, that they should be thus called on to pay a further contribution in aid of the families of those who were too improvident, or too negligent, to become members of it in their lifetime.

"His Excellency therefore hopes that married Officers will recognise the advantages of this institution, one which the Government deems worthy of its support, and that they will bear in mind the hardship and suffering to which their widows may be exposed by a neglect on their part to entitle them, by the present payment of a small contribution, to a participation in the very substantial benefits which the Fund confers."

Rules.

Rule 1st.—That the Committee of General Management shall be fixed at Simla, and consist of all Officers of the Staff, they being subscribers and present; and that an Officer of the Adjutant General's Department act as Honorary Secretary.

Rule 2nd.—That a Sub-Committee for enquiring into all awards and circumstances connected with this Fund, and acting under the General Committee, shall be formed at Madras and Bombay, composed as follows, such Officers being subscribers:—

The Commander-in-Chief, the Patron.

The Senior Officer of Her Majesty's Army at the Presidency.

All Officers of the Staff.

The two senior Officers of Her Majesty's Regiment stationed at the Presidency.

The two senior Subalterns of Her Majesty's Regiment stationed at the Presidency.

The Adjutant General of the Presidency will designate an Officer to act as local Honorary Secretary, who under direction of the Sub-Committee shall collect and deposit quarterly in the Bank of Bengal, Calcutta, all subscriptions from Officers in the Presidency, at the same time rendering a detailed account to the Honorary Secretary, to the Committee of General Management, at Simla.

Rule 3rd.—That every Officer shall pay monthly according to his rank, as specified below:—

Subscriptions.		MONTHLY. STIPEND.	
		Per mensem.	
Commander-in-Chief	Rs. 20 per mensem	10	8
Officers drawing pay and allowances of Rs. 1,500 or upwards		8	6
Ditto	" 1,000	7	5
Ditto	" 750	5	3
Ditto	" 400	2-8	1
All others	"		

Rule 4th.—That the Paymasters of Corps in the Bengal Presidency shall be authorized and required to make these deductions monthly, and shall remit the same quarterly by Transfer Receipt, on the Bank of Bengal, Calcutta, to the Honorary Secretary, Queen's Military Widows' Fund at Simla. In Madras and Bombay subscriptions will be collected in the same manner, and forwarded to the local Honorary Secretary."

No Officer present in India shall be allowed to fall into arrears of subscription to this Fund; and the Honorary Secretary (or Local Secretary, as the case may be), shall be required to warn any Officer whose subscription is six months in arrears, that he must pay up at once on pain of having his name removed from the rolls. An Officer whose name has thus been removed can only re-enter the Fund on the same terms as a new subscriber, and the fact of his removal will not absolve him from his liability for any subscription in arrears at the time his name is struck off. An Officer will be held to be a subscriber if in India, till such time as he notifies his wish for the removal of his name from the rolls.

Officers detached from regiments shall remit their subscriptions to the Honorary or Local Secretary quarterly in arrears by Transfer Receipt, on the Bank of Bengal, obtainable from the Treasury which pays them their salary.

Rule 5th.—All Officers of Her Majesty's British Forces serving in India are eligible to subscribe to the Queen's Military Widows' Fund, on their notifying their intention to that effect through the Regimental Paymaster to the Honorary Secretary at Simla, if they themselves are serving in the Bengal Presidency, or to the Local Secretaries in the other Presidencies if serving in Madras or Bombay. Officers on detached employ may notify direct to the Honorary Secretary their intention of subscribing.

- I. All married Officers coming to India for the first time shall subscribe to the Fund within one year of their arrival in India, provided their families accompany them.
- II. If followed by their families they must subscribe within six months of the families' arrival, or within one year of their own arrival.
- III. An officer marrying in India shall join within six months of his marriage, or within one year of his first arrival in the country.
- IV. All married officers returning with their families to India after an absence from any cause, shall subscribe within six months of their return.
- V. Married officers, whose families are not in India, may subscribe at married rates, and their widows will be eligible for the advantages of Rule 21.
- VI. Any married officer, whose family is in India, failing to comply with the above conditions, can only be admitted as a subscriber to the Fund, on payment of a donation not exceeding six months' subscription of his married grade.

For instance—an officer who had been fourteen months in the country, and his family present at least eight months, would be called on to pay a donation of two months' subscription on joining.

VII. Bachelors may subscribe at any time without payment of any arrears.

VIII. Widowers will subscribe at married rates if they have children in India. If their children are in England, they will only be required to subscribe as bachelors.

Rule 6th.—This Fund, having been established for the purpose of sending home families of deceased officers, and with a view of preventing those painful appeals for assistance to the public, at once so humiliating to respectable individuals, and to the Queen's Service in India, it is earnestly hoped that all ranks of staff and regimental officers will support it; and in order to ensure its objects being known, a copy of these Rules will be furnished to every subscriber, and to the Commanding Officer and Paymaster of each regiment and battery.

Rule 7th.—That, in order to obviate the difficulties which would arise occasionally from the remoteness of certain stations of Her Majesty's Corps serving under the several Presidencies, the Most Noble the Governor-General in Council was pleased to order and direct, when the Fund was established, that Public Service Remittances might be granted to the Paymasters of Her Majesty's Regiments payable at sight to the Honorary Secretary of the Queen's Military Widows' Fund, acting for the Committee of General Management, thereby avoiding commission, double agency and loss by exchange.

Public service remittances from the remoteness of certain stations of Her Majesty's Corps serving under the several Presidencies, the Most Noble the Governor-General in Council was pleased to order and direct, when the Fund was established, that Public Service Remittances might be granted to the Paymasters of Her Majesty's Regiments payable at sight to the Honorary Secretary of the Queen's Military Widows' Fund, acting for the Committee of General Management, thereby avoiding commission, double agency and loss by exchange.

Public Service Remittances might be granted to the Paymasters of Her Majesty's Regiments payable at sight to the Honorary Secretary of the Queen's Military Widows' Fund, acting for the Committee of General Management, thereby avoiding commission, double agency and loss by exchange.

* The Honorary Secretary would invite attention to Rule 1. The Salaries of the Fund are kept as much as possible with the Bank of Bengal, consequently when transfer Receipts are payable in Simla, the local Bank charges a percentage for remitting the accumulated sums to Calcutta, and this will be saved, if remittances are made payable in Calcutta; but they must be sent to Simla for realization as the books of the Fund are in the Adjutant General's Office.

Grants.

Rule 9th.—That in order to ascertain the claims of any widow or family, who may become entitled to the benefits of the Fund by the death of any regimental Officer, each widow shall represent the case of herself and family through the Commanding Officer of the Corps the casualty occurred in, in order to its being brought to the consideration of a Committee; and the Commanding Officer shall, as far as his knowledge will enable him, state his opinion of any case so received.

Lodgment of claim.

Rule 10th.—That whenever there may be more than one Corps of Her Majesty's Service stationed together, every application for relief from this Fund shall be heard and decided on by a Station Committee, composed, as equally as possible, of Officers from the Corps present, being subscribers to the Fund.

Committee of Award.

the Corps present, being subscribers to the Fund.

STATION COMMITTEE.

President.—A Field Officer or Surgeon-Major (if practicable).

Members.—(One Captain or Officer of equivalent rank.
One Subaltern or Officer of equivalent rank.

Rule 11th.—In the event of Officers dying while the Corps they belong to is stationed by itself, or while they themselves are absent from their Regiment, it shall be in the power of every Commanding Officer of a Regiment or Station, under those circumstances, to assemble a Committee of any three Officers, being subscribers, to hear and decide upon the cases of any widows and children who have become entitled to relief from this Fund. In the event of there not being three subscribers at once available to form a Committee, the Commanding Officer of the Station or Corps may avail himself of non-subscribers, to avoid the delay which would be entailed in assembling a Committee composed wholly of subscribers in the usual manner. It shall also be competent for the Commander-in-Chief at either Presidency to assemble a Special Committee to report on the case of any lady who may have become a widow, whilst the Regiment to which her husband belonged is at another distant Station, or on service beyond sea.

Special Committee.

Rule 12th.—That the Station, Regimental, or Special Committee, having duly examined into the circumstances, shall report their opinion thereon, and recommend the amount to be granted for Passage money and maintenance, strictly in conformity with the Regulations annexed. The opinion and recommendation of the Committee shall be immediately forwarded to the Honorary Secretary of the Presidency by the President of the Committee, and the Paymaster of the Regiment, under the above authority, can at once advance to the widow the amount of "Travelling" and "Maintenance" allowance awarded by the Committee, reimbursing himself by drawing a bill on the Honorary Secretary or Adjutant-General if in Madras or Bombay, the residue of the award to be adjusted by the Honorary Secretary under the sanction of the General or Sub-Committee of Management, and paid to the widow before leaving the Regiment, or on arrival at the Port of embarkation, by the Honorary Secretary.

Rule 13th.—The Sub-Committees at Madras and Bombay will in cases of award in those Presidencies, on satisfying themselves of the accuracy of the statements laid before them, draw on the Adjutant-General of the Presidency for the amount which may be awarded; but in the final adjustment of this account of each Sub-Committee, the Committee of General Management will consider themselves bound to object to any sum, however trifling, which may be granted in excess of the Rules laid down. To facilitate the immediate payment of awards, a sum of Rupees 5,000 is lodged in each of the Presidency Banks, to the credit of the Adjutant-General of that Presidency.

Rule 14th.—The Sub-Committees at Madras and Bombay will, on drawing for any sum on the Adjutant-General of the Presidency, in cases of awards, transmit to the Honorary Secretary at Simla, the Report of the Station Committee, accompanied by receipts and certificates, showing that the money has been appropriated in the manner and for the purposes for which it was awarded.

Rule 15th.—But to prevent doubts and misconceptions which might possibly arise hereafter, it is distinctly declared, that no widow permanently residing in this country after the death of her husband, can expect any provision or allowance for herself or children from the Fund, further than is stated in Rule 26.

Rule 16th.—Orphan children are eligible for the benefits of this Fund, but awards for them must be specially made by a Station or Regimental Committee, and sanctioned by the Commander-in-Chief of the Presidency, who is requested to appoint some eligible person to take care of them, and provide a passage, &c., &c.

Orphan children.

Rule 17th.—That the Honorary Secretary, acting for the Committee of General Management, shall furnish an annual account of the Receipts and Disbursements of this Fund to the Adjutant-General, Bengal; in view to its being published in General Orders by the Commander-in-Chief in India.

Annual account to be furnished by Secretary.

Rule 18th.—That no General Rule or Regulation of this Fund shall be altered, except it is recommended by the General Committee, and approved by a majority of the subscribers.

Non-alteration of Rules.

Rule 19th.—That all widows of Officers, who were subscribers to the Fund up to date of departure from India, shall be entitled to the amount granted to widows and children for passage money to England if their husbands had provided their own passages, and died en-route to England or during their absence on sick certificate at the Cape of Good Hope, the Mauritius or Australia; but in cases where their late husbands were found in passages by the State, then such widows and children will be entitled to four months' maintenance allowance only, according to the scale laid down in Rule 21.

Rule 20th.—That no special grant, in cases of great distress (not provided for by the Regulations of the Fund), shall be passed by the Committee of General Management without the sanction of the majority of subscribers, which sanction is to be declared in the General Abstract of Accounts published annually for the information of subscribers.

Special Grants.

Rule 21st.—When an officer dies in India, his widow will be entitled to maintenance allowance, according to the following scale, for three months, from date of decease of her husband if in India, together with passage money; and to four months' maintenance allowance without passage money, if she is out of India, provided in the latter case that her husband was a subscriber at the married rate at date of his decease:

To the widow of an officer, who paid a subscription on Rs. 750 a month or upwards, per mensem..... Rs. 600
Of an officer, who paid on Rs. 400 and upwards, per mensem..... " 400
Of all others..... " 300

Rule 22nd.—In addition to the above travelling allowance on the scale below, will be made to widows to the port of embarkation or place of residence in India, as the case may be. In certain exceptional instances, where the rates will not meet the expenses of the journey, the Committee assembled under Rules 9 and 10 should record in their Proceedings the actual cost of the journey, and the amount they recommended for incidental expenses; such case so specially recommended will be dealt with on its own merits, and the Committee of General Management reserve to themselves the power of rejecting any proposed deviation from the ordinary course, and will also, if the expenses of any journey appear to have been over-estimated, reduce the same to any limit which may appear to them fair and reasonable.

Annas 8 per mile for Dak travelling.

For each child above 12 years of age..... " 400.
For each child under 12 years of age..... " 200.

But this allowance is not claimable unless the widow and children embark within two years from the decease of the husband, and provided also she continues in the state of widowhood.

FOUR WILLIAM, the 22nd January, 1868.

No. 69 of 1863.—His Excellency the Governor-General in Council has the satisfaction to notify that Her Majesty's Government have sanctioned a revised and enhanced scale of pay and allowances, Staff and Furlough pay, retiring for the several warrant grades in Her Majesty's Indian Army.

1. The following are the rates which will have effect from the 1st instant:—

PAY AND ALLOWANCES AND STAFF PAY.

2. All Warrant Officers will receive a monthly net "warrant pay" according to rank which, with a monthly sum as "warrant allowances" intended as a full equivalent for batta, tentage and house-rent will together constitute the monthly "warrant pay and allowances."

3. When in effective employ in the Ordnance, Commissariat, or any Department where no other special departmental Staff or consolidated salary is allowed, they will receive in addition to the warrant pay and allowances a warrant Staff pay according to grade.

4. When a Warrant Officer is out of employ owing to no fault or seeking on his part, or if he resigns his appointment with the full approval of Government, he will, whilst so unemployed, be entitled to his "warrant pay and allowances."

5. When put out of employ for misconduct or incapacity, or if he resigns his appointment without, in the opinion of Government, sufficient grounds for so doing, he will only be entitled to his net "warrant pay." In particular cases, however, he may be allowed, as a maximum, the invalid scale of pay of his rank, but only with the special sanction of Government.

6. The following are the monthly rates of pay and allowances for the several grades:—

GRADES.	Net or Warrant Pay.	Indian Warrant Allowances.	Total Warrant Pay and Allowances.	Staff Pay when effective, and not receiving departmental Staff or consolidated Pay.	Total receipts when in effective employ.
Deputy Commissary.....	Rs. 120	Rs. 180	Rs. 300	Rs. 200	Rs. 500
Assistant Commissary.....	75	150	225	150	375
Deputy Asst. Commissary.....	60	120	180	120	300
Conductor.....	50	50	100	60	160
Sub-Conductor.....	40	40	80	45	125

7. For broken periods the daily pay and allowances will be calculated at one-thirtieth of the monthly pay.

8. The extra Staff allowance of Rupees 60 and Rupees 30 to permanent Conductors of the 1st and 2nd class, will continue to be paid as heretofore in the Ordnance Department.

9. Warrant Officers in receipt of the effective Staff pay will, when on leave, be subject to reduction on the same principle as that applied to Commissioned Officers.

FURLOUGH AND INVALID PAY, RETIRED AND WOUND PENSIONS.

10. The annual furlough pay and retired pensions will be the same according to grades, and will be payable in British Currency. The invalid pay can only be drawn in India.

The wound pensions will be those laid down in Government General Order, No. 577 of 23rd May, 1867.

Madras Screw Pile Pier.

This important work has been completed by Mr. Frederick Johnson, Civil Engineer of North Street, Westminster, London, pursuant to the terms of a Contract entered into between the Council of India and himself, under date the 9th November 1858.

The dimensions of the structure are as follows:—
Extreme length, from high water mark, 1,000 feet.

Breadth throughout, 40 feet. Besides its main body, the Pier has a cross of T-shaped head, 160 feet long by 40 broad. The work is constructed of Mitchell's Patent Screw Piles, of solid wrought iron, respectively 6 inches and 8 inches in diameter, placed in rows of four abreast, and at distances of 10 feet between the centre of each row.

These Piles are screwed down into the sand to the depths undermentioned, that is to say—the first 25 rows, 11 feet; the second 23 rows, 13 feet; and all the remainder, 15 feet.

The whole structure is securely tied together by transverse T-braces of wrought iron, and by longitudinal tension rods of the same material.

Commencing at the inner part of the Pier Head and continued 200 feet on each side of the main structure, the iron Piles are protected by fender piles of timber placed at short intervals, and secured to the iron Screw Piles by strong wrought iron bands.

Originally the platform was composed of beams of cross-sawn Baltic timber covered with oak planks, six inches broad by four inches thick, with spaces between the planks. This has now been replaced by beams of oak covered with mango planks, three inches thick, placed close together and the seams caulked in the same manner as the deck of a ship.

Four lines of railway are laid down along the main Pier, with the necessary Turntables, &c., and the rest of the space available fitted up for the service of foot-passengers.

The Pier Head is furnished with six fixed cranes, varying in their lifting power from 3 to 10 tons, and 8 moveable cranes of 30 hundred weight each are placed on the rail ways traversing from point to point as necessity arises.

It is proposed to dispense with the Screw Moorings provided for in the Contract, and in lieu of them to put down Brills Moorings with one arm Anchors.

The total cost of the works, as agreed on in Mr. Johnson's Original Contract, £1,000,000, but a second Contract was subsequently entered into for the extension of structure shoreward a length of 80 feet, at an extra charge of £4,532.

The Pier was damaged in the Cyclone in May 1872 by a native vessel drifting through it, in the same place as was damaged on a former occasion by the *St. Bernard*.

PORT ST. GEORGE, 22nd August 1865, No. 326.—The following Extract from Notification from the *Gazette of India* is re-published:—

FINANCIAL DEPARTMENT, No. 2467, SERIA, dt. 23rd July 1866.

Rules for the Grant of free passage by Sea to Civil Officers.

The Governor-General in Council is pleased to prescribe the following rules for regulating the provision of free passage by Sea for Public Officers in Civil employ, in substitution of the Rules contained in Financial Notification, dated 15th December 1865, No. 3,224, published in the *Gazette of India* of the 30th December 1865, page 1348:—

Officers and other public Servants on the permanent Establishment of a Department will be allowed a free passage when proceeding on duty by sea, in cases in which they would receive travelling allowances if proceeding on duty by land. Military Officers in Civil employ will, in addition, be allowed a free passage when being employed at a station beyond Sea, they may be obliged to return to their Presidency in progress to Europe or to a Hill Station, on leave on Medical Certificate, also when they rejoin their station on return from that leave.

For every Contracted Civil Servant, Military Officer in Civil employ and Uncovenanted Officer of higher rank than Clerk, who may thus be entitled to a free passage, the entire charge for a first class passage will be paid by Government, who will recover from such Officer either the full or half rate of table-money for the number of days occupied in the passage, according as his salary may or may not exceed Rupees 800 a month.

The full rate of table-money shall be reckoned at 4 Rupees a day on vessels in which the cost of a free passage includes, but at 4 Rupees a day where it is exclusive of charge for wine, beer, spirits and soda-water.

For Public Servants messes at the Warrant Officers' or Engineers' table, viz., for Warrant Officers of every grade, European Non-Commissioned Officers attached to Departments or Public Offices, Subordinate Accountants and Clerks of Departments of Public Offices, who are entitled to a free passage, and for the families of these classes, 2nd class accommodation, including generally a screened berth will be provided, and the entire cost of the second class passage, without any deduction from the passengers on account of table-money, will be borne by Government.

Passage for servants and luggage, within the limits prescribed by the rules of the Quarter-Master General's Department prevailing at the port of embarkation, will so be allowed and paid for by Government, in cases where a more liberal scale is already authorized on special grounds.

SECTION IV.—TROOPS IN GARRISON.

I. The Ordnance Department will as hitherto have charge of and will work the Rocket and life-saving apparatus, but portions of the Garrison Battery will be instructed and occasionally exercised in its use under the orders of the Commissary of Ordnance in charge of the Grand Arsenal.

II. The two-day Marine Signals to the shipping signifying "suspicious weather" (white flag with blue cross) and "cut or slip" (red flag with swallow tail), and the night signal of the approach of dangerous weather (three good lights, one at the mast head and one at each yardarm) will be repeated at the Fort flag-staff. On the first signal being hoisted the Brigade Major will warn the Ordnance, Medical, and Commissariat Departments of the fact, in order that all concerned may be held in readiness. On either of the last two signals being hoisted seven guns will be fired from the sea face of the Fort with an interval of five minutes between each gun. No further action will, however, be taken by the "Troops in Garrison" consequent on any of these signals.

III. In case of intimation being received from the Marine Department by the Brigade Major of imminent danger, or of actual shipwreck, or in case of such danger or shipwreck being observed from the Fort, the "wreck signal" will be fired. It will be two guns fired in quick succession from St. George's Bastion, which will be twice repeated at intervals of three minutes.

IV. When the "wreck signal" is rendered necessary, the Brigade Major will send intimation to the Troops in Garrison and to the Ordnance, Medical and Commissariat Departments; and the following arrangements will be carried out:—

1. Two mounted Non-Commissioned Officers and six Troopers of His Excellency the Governor's Body Guard will proceed to the Fort and place themselves under the order of the Brigade Major. They will be used as orderlies, as occasion may require, and when not actually wanted will be kept as much under shelter as convenient. Twelve additional men of the Body Guard will remain in their lines with their horses saddled in case their services as patrols may be needed to watch ships driving to points at some distance from the Fort, and to convey prompt intelligence of wreck or applications for aid along the extended line of beach to the Officers Commanding Troops and other authorities on the spot.

2. The Royal Artillery and British Regiment garrisoning the Fort will fall in, in fatigue dress, and working parties will be detailed, and promptly despatched to the scene of action as required. Before, however, the working parties leave the Fort, inquiry will be made at the Arsenal as to whether any assistance in men from the Royal Artillery is required to supplement the Ordnance rocket parties; and applications will, under the orders of the Officer Commanding Troops in Garrison, be made at the Arsenal for a supply of boat or firehooks, ropes of moderate length and thickness, grappling irons, &c., which will be under charge of the officers commanding the working parties, and will be used in saving life and property from the surf. Lanterns will also be supplied should the wreck be in place at night.

3. Half of the Native Infantry Regiment at Royapooram will at once fall in, and accompanied by its Medical Officer with medicines and surgical appliances, will march to the beach in fatigue dress. The remaining Native Infantry in Garrison will be restricted to their respective lines and await further orders.

V. It is not anticipated that the Police will be unable of themselves to keep perfect order along the beach, and adequately to perform all their appropriate duties, and, therefore, the action of the troops may be directed towards saving life and property; but they will be ready to keep the ground or aid the Police in any way that may be required.

VI. The Officers Commanding Troops will, wherever possible, consult with the Officers of the Marine Department on the spot as to where and how the services of their men can be most usefully employed, and the advice of the Marine Officers will be met with marked attention.

VII. Arrangements will be made for the relief, food, &c., of working parties by the Regiments and Departments concerned.

VIII. The Officer Commanding Troops in Garrison will make emergent requisition on the Officer in charge of the Camp Equipage Depot for such tents as may be required to shelter shipwrecked people.

IX. Officers on wreck duty will be in uniform, and mounted Officers will have their horses with them.

SECTION V.—ORDNANCE DEPARTMENT.

I. The Commissary of Ordnance, Fort St. George, will be responsible that three sets of life-saving apparatus, with rockets, &c., complete, are at all times kept packed in carts ready for use in the arcade of the Grand Arsenal, and that the Warrant and Non-Commissioned Officers, &c., of the Department are instructed and periodically drilled to the practical use of the whole apparatus.

II. Inconvenience, danger, loss of life and much damage of property were sustained in the Cyclone of May 1874 by there being no available means of dragging from the sea the logs, pieces of wreck, bales of goods, &c., which were drifting to and fro on the edge of the surf. There will, therefore, be held at all times in readiness by the Commissary of

Ordnance a supply of boat and firehooks, grappling irons, and ropes of short lengths for use as required to the Military working parties. Lanterns will also be kept ready for wreck night duties.

III. On the Commissary's receiving intelligence from the Brigade Major that the "suspicious weather" signal has been hoisted, he will make arrangements to have one rocket party of Europeans with a Detachment of Store Lascars in the Arsenal night and day till the danger passes off, or their services are required.

IV. On the "wreck signal" being fired, or on receiving intimation from the Brigade Major of imminent danger to the shipping, the Warrant and Non-Commissioned Officers will be formed by the Commissary of Ordnance into rocket parties with Detachments of Store Lascars; and, as speedily as possible, one, two, or three of these parties (as may be required) will proceed to the point or points where their services are most urgently required. These points, and the ships to which aid is to be first given, will be decided on by the Commissary in consultation with the Marine Authorities on the spot, by whom he will be guided in the matter. If the rockets are used in the rescue of any ship's crew, the whole apparatus attached to the rocket cart will, under ordinary circumstances, be employed and be worked by the men of the Ordnance Department.

V. Two trollies drawn by mules, have been ordered on occasions of wreck to be placed at the disposal of the Commissary of Ordnance by the Commissariat Department. They are intended to be used for the conveyance of rocket apparatus, hawsers, &c., should any wreck or wrecks take place at a distance from the Fort, such as at St. Thomas or the Adyar; but, should they not be required for this purpose, they may be employed under his orders, for any other necessary use connected with wreck work.

VI. The Commissary of Ordnance will, in communication with the Officer Commanding the District, arrange for the instruction of Detachments of the Battery of Royal Artillery in the use of the rocket and life-saving apparatus.

VII. He will apply to the Brigade Major or Officer Commanding Royal Artillery, Fort, for any aid in men which he may emergently require in the case of a Cyclone.

VIII. When hawsers are necessarily left attached to wrecks, the Commissary of Ordnance or Senior Ordnance Officer will inform the Police of the fact.

IX. All Officers, Warrant and Non-Commissioned Officers and Store Lascars will be in uniform on wreck occasions.

SECTION VI.—MEDICAL DEPARTMENT.

I. On the "wreck signal" becoming necessary, the Brigade Major will send intimation of the fact to the Fort Surgeon and the Resident Assistant Surgeon at the General Hospital. The latter will warn the Surgeon and the Physician of the General Hospital, and similar warning will be given to the Superintendent of the Eye Infirmary at Vepery and to the Surgeon of the 1st District at Royapooram by the Officers Commanding the Regiments at these places.

II. On hearing the guns of the "wreck signal," or on receipt of intimation from the Brigade Major, these Medical Officers (except the Physician, taking with them a portion of their establishments and the medicines and surgical appliances, which have been detailed by their Departmental Head, will forthwith proceed to the beach, and in consultation with the Senior Marine and Military Officers on the spot, will distribute themselves to the various scenes of wreck or apprehended wreck, as occasion may require.

III. The Physician of the General Hospital will remain at the institution to receive and afford medical aid to all such as may be sent there from the beach for treatment.

SECTION VII.—COMMISSARIAT DEPARTMENT.

I. On intimation being received from the Brigade Major of imminent danger to shipping, or on the "wreck signal" being heard, two trollies drawn by mules will immediately proceed under a Staff Sergeant to the Grand Arsenal and there await the orders of the Commissary of Ordnance.

II. Two other trollies, drawn by mules, each under care of a Warrant or Non-Commissioned Officer, and each containing an assortment (which will always be held in readiness in waterproof covers or cases) of blankets, towels, flannel trousers, flannel drawers, biscuits, brandy, water and drinking vessels, will be taken in the first place to the Marine Office, and thence, as directed by the Marine Officer, to the scenes of shipwreck, where the contents will, if required, be issued and used for the relief of shipwrecked persons under the orders of the directing Medical, Military or Marine Officers present. As many sets of bearers as are available with hammocks slung on poles will at the same time be sent to the beach and will be placed at the disposal of the said officers.

III. The Executive Commissariat Officer will also despatch a supply of draught bullocks with drivers to the Camp Equipage Depot for sick carts, which, under the orders of the Warrant or Non-Commissioned Officer in charge will be taken to the beach as soon as the violence of the weather permits, and will also be placed at the disposal of the said officers.

SECTION VIII.—QUARTERMASTER-GENERAL'S DEPARTMENT.

The Quartermaster-General will give directions that the officer in charge of the Camp Equipage Depot will in cases of wreck promptly comply with emergent requisitions in writing from the Commissariat Department for munnitions, doles, sick carts, &c. and with similar requisitions from the Officer Commanding Troops in Garrison for tents for the shelter of shipwrecked people.

A

CIRCULAR.

Whether uncertain at present season, or necessity for being prepared to stand to sea.

The periodical season of uncertain weather on this coast having now arrived, the undersigned would hereby earnestly caution all Commanders of Vessels in these Roads to keep their ships as much as possible prepared in every respect for standing to sea, at short notice, should the necessity arise for doing so.

1. Top-gallant masts, &c., with their rigging also, must be got on deck, flying jib-boom sent in, topsails and courses kept ready reefed, and everything on deck and below so arranged as to admit of being quickly secured on emergency. A good slip rope and buoy should be attached to the riding cable, and, as an additional precautionary measure, a stout warp also, to be used in a spring in cutting the vessel if found necessary, on being required to put to sea.

2. A prudent distance from the shore in respect to anchorage must now be observed, as a vessel lying nearer in at the time of bad weather here is, from exposure to the heavy ground swell, necessarily far less able to ride easily and securely than one well out.

3. Too much care cannot be paid in maintaining a perfectly clear berth, and Commanders should be careful to keep their ships at as great a distance from each other as can conveniently be managed in order to avoid risks of collision by driving, or when slipping to stand to sea.

4. Every attention in the way of observation and look out will be paid by this Department, and the usual warning and other signals promptly made, as need may call for. In order to prevent misapprehensions on the subject of signals, especial attention is requested to the circumstance that during the prevalence of foul weather, however, only when a *private* signal is intended to be made to a single vessel, besides hoisting her number in the first instance, No. 1 will be kept flying at the opposite yard arm. All other signals in which this said distinction is not made use of are to be considered as general, and obeyed accordingly.

5. It is very desirable that, during the prevalence of suspicious or threatening weather, Commanders should remain by their vessels, and also remain by them as much as possible until the uncertain period has been passed over.

6. In the event of wreck occurring, the usual appliances as put forth by the Board of Trade are adopted here, but should it be observed the rocket apparatus is not at once forthcoming, a line should be immediately sent on shore from the vessel by some kind of buoy, or other handy means, to which the tall block and double line will be attached by those on shore, or signals made as to what other steps must be carried out.

7. In conclusion, Commanders are earnestly reminded that, as intimated in the Port Instructions, "Commanding Officers are not to wait the display of signals if they deem it prudent to put to sea," it being in no way whatever obligatory for them so to await directions from the shore for standing to sea.

* A Compendium of the Law of Storms prepared for the Bay of Bengal.*

The Cyclone in all its various forms, and in all portions of the globe subject to its visitation, must be denominated the most fearful and the most frequent enemy which the mariner's perilsous calling obliges him to encounter. But for this obstacle the Bay of Bengal would be very easy of navigation, for the very large amount of evidence brought to bear upon the subject goes far to prove that in this sea all violent storms are of a cyclonic nature, and move from eastward and westward. They are great revolving storms varying in expanse from forty or fifty to some hundreds of miles, blowing round and round a centre or vortex, but with an ever-varying force, now falling into a strong breeze, and again swelling up into a blast of uncontrollable fury. The peculiar characteristic of their revolving action is that in each hemisphere the gyration invariably takes place in one direction contrary to the hands of a watch. In North Latitude from right to left; and in South Latitude from left to right. The knowledge of this law not only supplies the seaman with direct means of distinguishing them from common gales, but reveals to him the position of his vessel with respect to the vortex, and points out the way to escape from it. The following remarks and examples, though intended for the Bay of Bengal and Andaman Sea will apply also to the open parts of the Arabian Sea. These storms take their rise a few degrees of latitude north of the Equator, and at the periods of greatest atmospheric disturbance, owing to the changes of monsoons. About April and May and October and November though these dates are only approximate, and unusual weather at any time may be attributed to their neighbourhood, and suspected accordingly, they are accompanied with threatening aspect of the sky, together with grossy mists round the sun and moon; rolled and tufted forms of clouds, with lurid streams of light and extraordinary colors; a heavy bank of clouds forming an arch in the direction of the storm, varying currents of clouds in motion above, and dark banks on the horizon below, with darting forks and threads of pale lightning, lurid redness at sunrise and sunset; peculiar meaning in the winds, the frequent presence of weary land birds and insects; and last and best warning of all to those who possess it, the decline of that invaluable monitor the Barometer, doubly valuable here, because its usual state is one of almost perfect tranquillity, broken only by a daily tide rising and falling about one-tenth of an inch, highest at 10 a. m. and 4 p. m., and lowest at 8 a. m. and 2 p. m.; whenever this action is suspended or interrupted, bad weather is never far off. The surface of the sea also exhibits signs of disquietude, becoming confused and uneasy, and crossed frequently by long swells from other than the quarter of the prevailing wind. Whenever any or all of these warnings are met with, the mariner should at once consider the almost certainty that exists of having to encounter a storm of the revolving nature we are treating of. His first duty is to find the centre of vortex, and its bearing from the ship. To do this he should note the direction of the wind, and with his face to it, tail of eight points to the right, if in the open sea, which we will first consider thus—wind at N. the centre is E., with wind E. centre S., wind S. centre W., wind W. centre N., and so with intermediate points—wind N. E. storm S. E., wind S. E. storm S. W., wind S. W. storm N. W., wind N. W. storm N. E., &c.; when near land or in roadsteads, these bearings require modifying, as will be explained hereafter. Having determined the direction of the storm, the next consideration is his position with regard to it. All experience tends to show that they commence to southward between southward and eastward and eastward and cross the Bay in a curve, sometimes sharp, sometimes very extended nearly N. and S., but an average tract of from S. E. to N. W. will suit the purpose of illustration. The continuation of the voyage, and the direct course of the ship ceases at this period to be a primary object. All knowledge and seamanship should be directed to avoiding this enemy, and the saving of life and property. The accompanying diagrams will show better than any verbal description both the nature of the evil and the remedy to be adopted. The outside circle represents the shape of the storm; the arrows and letters the direction of the wind; the small circle the centre; the dotted lines the path on which the storm is advancing; the compass points are also indicated.—See Figure 1.

In this diagram all the ships are shown having the wind on starboard quarter so that if the storm was stationary sailing in that position would always ensure safety. It does in fact do so in all cases, except with the wind easterly, when great care and judgment are requisite, and the value of preliminary observations becomes apparent, the direction of the storm whether northward or westward of the average track, being of vital importance.

A careful study of books of reference and of logs and facts drawn from extended experience justifying the conclusion that the best course with the wind at E. or to the north of east is to run to the N. W., changing your course as the wind veers to the northward keeping it on the starboard quarter until it reaches N. W., when if bound to the N. E. you can bring it right aft and sail round the storm until your course is reached, or continue your track if bound to southward; much depends, however, upon the direction of the storm as indicated by phenomena, and the veerings of the wind if any have taken place.—See Figure 2.

* For the use of native vessels of all classes. The compendium is translated into Tamil, Telugu, and Hindustani and issued free of charge at the various ports of the Presidency.

Madras Light House.

The Light House at Madras is immediately to the Northward of the wall of Fort St. George, and the light from it was first exhibited in January 1844. The light is elevated 125 feet above the mean level of the Sea,—and may be seen from the deck of a Ship at the distance of 20 miles. The light is of the "Flashing Description" and the duration of the Flashes to that of the Eclipses or Dark periods is in the ratio of 2 to 3,—but as the nature of the motion is Reciprocating instead of Rotatory, the above ratio merely expresses the average proportion of the Light and Dark intervals which are themselves variable according to the position of the spectator. The rapidity of movement is so adjusted, that the duration of the Flashes will vary from 0' to 48", and that of the Eclipses from 0' to 7" the sum of the duration of Light and Darkness bearing however in every position the constant ratio of 2 to 3. From the South-Eastern extremity of the Pulicat Shoal the Light

House bears S. 23° W. and is distant 13 miles, but no Ship or Vessel when hauling in from the Northward for the Madras Roadstead should bring the Light to bear to the Southward of S. 28° W. or S. S. W. & W.,—unless her position is well ascertained. Commanders of Vessels are warned of the serious risk they incur by incautiously approaching the dangerous vicinity of the Pulicat Shoal, as heavy weather or other causes may obscure the Light,—true Soundings therefore and a vigilant look out are imperatively called for. The Limits of the Madras Roadstead (in S. or N. fathoms) are comprised within the following bearings, viz. from the Northward the Light House will bear S. 56° W. and from the Southward N. 81° W. or from S. S. W. to W. & N.

The Light House at Madras is in Latitude 13° 5' N. North.

And in Longitude 80° 20' East of Greenwich.

The Dimensions of the Light House are as follows:—

From the ground to the vane.....	125 Feet.

- Commencement. And it shall come into force on the passing thereof.
- Repeal of Act XXVI of 1855. 2. Act No. XXVI of 1855 (the *facilitate the payment of small deposits in Government Savings Banks to the representatives of deceased depositors*) is hereby repealed.

5. Such payment shall be a full discharge from all further liability in respect of the money so paid.

But nothing herein contained precludes any executor or administrator, or other representative of the deceased, from recovering from the person receiving the same the amount remaining in his hands after deducting the amount of all debts or other demands lawfully paid or discharged by him in due course of administration.

And any creditor or claimant against the estate of the deceased may recover his debt or claim out of the money paid under this Act, or the said

Provided that the person claiming such Probate, or Letters of Administration, or Certificate, shall exhibit to the Court authorized to grant the same a Certificate of the amount of the deposit in any Government Savings Bank belonging to the estate of the deceased. Such Certificate shall be signed by the Secretary of such Bank, and the Court shall receive it as evidence of the said amount.

9. Nothing hereinbefore contained applies to money belonging to the estate of any European officer, non-commissioned officer, or soldier dying in Her Majesty's service in India, or of any European who, at the time of his death, was a deserter from the said service.

Deposits belonging to Minors.

10. Any deposit made by, or on behalf of, any minor, may be paid to him personally, if he made the deposit, or to his guardian for his use, if the deposit was made by any person other than the minor, together with the interest accrued thereon.

Conditions, Regulations and General Information.

Passengers.

The Company's Rates of Passage-money are for the sea passage only. They include Steamer's Fees and Table; but not wine, spirits or beer, which can be purchased on board at moderate prices. Bedding, Linen, and all requisite Cabin Furniture are provided in the Steamers at the Company's expense, together with the attendance of experienced Male and Female Servants.

Passengers are not allowed to take on board Wine, Spirits, or other Liquors for use during the Voyage.

Each of the Company's Steamers carries a qualified Surgeon. Passengers suffering from illness will be attended to by the Company's Service. Half the amount of passage-money is required to be paid on securing passage, and the balance before embarkation, and can be paid to the Company's Agents at Calcutta, Bombay, or Madras, whichever is most convenient.

Passengers not embarking after securing passage forfeit half the amount of passage-money. In case, however, of a passenger being unavoidably prevented from availing himself of a passage at the period for which it is taken, transfer of the passage can be effected to a subsequent Steamer, on sufficient notice being given, without forfeiture of any portion of the passage-money.

Passengers must comply with the regulations published on board the Steamers, for general conduct and safety.

No Birth or Death is to be registered by a passenger without application to the Agent on board, or to the Master on shore. It is to be understood that a passenger occupying a berth of two or more berths in the same cabin or stateroom shall have paid a full fare and for its exclusive use, and no objection is to be made to the recent birth or deaths being filled up at the intermediate Ports, if required.

Passengers for Bombay, Suez, Calcutta and Australia are transferred at Point de Galle, and will be provided to defray their own Hotel expenses at the point of destination.

The intermediate cost of passage-money for steam or accommodation between Madras and Port in India, Calcutta and Suez, will be provided according to the accommodation required.

The rates for Native servants, between Ports in India and China, include a passage back to the Port of embarkation, if remaining at once. A reduction of one-half is made in favour of Native servants returning from England within three months after arrival from India.

Passengers are at liberty to remain on one or more intermediate Ports, as they proceed by the succeeding Steamer, provided there be room upon application to the Agent, who will give written permission on the passage ticket.

Tickets are obtainable at the Company's Office at Brindisi, but the number being limited, early application for them is advisable.

Only Passengers holding these Tickets are allowed to travel through with the Mail.

By this train baggage must be registered through to Brindisi from London, either from Charing Cross, Cannon Street, Victoria, Ludgate Hill or Holborn Viaduct, and to facilitate this Passengers are requested to be at the Station at least one hour before the departure of the train. Passengers joining the Sleeping Car either at Calais or Paris (Gare du Nord) will please note that no Luggage can be taken by the Car, only a Hand Bag and Bundle of Bags.

A similar Service is established on the Homeward Journey. Tickets to be obtained at the Company's Office at Brindisi.

Passengers are allowed 56 lbs. of Baggage free between London and Paris via *Niebach* and *Dieppe*, and 56 lbs. via *Dunce* or *Polkstone*. Between Paris and Madras (where Baggage is examined), the junction between the French and Italian Railways, the free allowance is 56 lbs.

On the Italian Railways there is no free allowance of Baggage, and the charge from Madras to Brindisi is Rs. 5d. per 26 lbs.

Upon the arrival of the Homeward Indian Mail, a Special Train leaves Brindisi for Turin, where Passengers can avail the Morning or Evening International Train for Paris.

The information given above is obtained from the published Time Tables of the Railways, and the Company cannot guarantee its accuracy.

In order to prevent detention of their Baggage, Passengers proceeding via Italy must be present and ready to open their Packages (whether registered or not) for Customs Examination at Madras or Ala.

Through Booking over Indian Railways.

For the convenience of passengers proceeding via Bombay to other parts of India, the Company are prepared to issue Tickets from that City to the principal Stations on the Great Indian Peninsula, East Indian, Madras, and Sindh Railways.

These tickets include the free conveyance of the Passengers' Baggage from the Steamer to the Bombay Railway Stations.

Baggage.

The attention of passengers by the Company's Steamers is particularly requested to the undermentioned Regulations in reference to Baggage; much trouble and loss are occasionally caused by their neglect or non-observance. These Regulations are equally important to passengers between Suez and Alexandria, for the Egyptian Transit Administration will not accept any responsibility unless they be strictly complied with.

All Baggage should be packed in leather portmanteaux or Trunks, marked with the owner's name and port of destination in paint in full, and fastened securely with case locks; padlocks and leather straps being liable to damage or removal. The Transit Administration will not be responsible for the safe conveyance of insecure Packages.

Deck-chairs are conveyed free of charge at passengers' risk.

Canvas covers to Packages of Baggage are not recommended, as they are frequently removed and lead to the loss of the Packages.

Packages containing Jewellery, Plate, or other Valuables, must be specially booked, and Freight paid thereon at the Company's established rates, failing which such Packages are liable to seizure and confiscation.

First Class passengers are allowed 336 lbs. of *permitted* Baggage free of Freight; Second Class passengers and servants 168 lbs. each; children over 3 and under 10 years, half these weights.

A passenger taking a reserved cabin will be entitled to take in the Steamers, free of Freight, 40 cwt., and a married couple, paying for reserved accommodation, will be entitled to take 80 cwt.

Passengers from Bombay can ship their heavy Baggage either at Calcutta or Madras, should they find any convenience in doing so, and if proceeding via Brindisi can forward any of their Packages to London without extra charge.

The charge for conveyance of extra Baggage between any two Ports 10s. per cwt. The Insurance of Baggage can be effected on moderate terms.

Passengers passing through Egypt will be charged by the Transit Administration 7s. per cwt. for conveyance of Baggage through, should it extend, for First Class passengers, 336 lbs. each, and Second Class 168 lbs. each; children over 3 and under 10 years are allowed half the above weights. This amount is collected on Board the Company's Steamers, for the convenience of passengers.

Passengers requiring information, respecting their Baggage during the voyage, can obtain it on application to the Office in Calcutta.

Passengers who may wish any Package of Baggage on arrival at their destination, are recommended to apply, *without delay*, to the Company's Agent, giving full particulars in writing, when application will be made to the Transit Baggage Depot at Roubaix or at London.

Baggage can be occasionally had up from the Baggage-room during the passage, on application to the officer in charge.

No Trunks or Boxes allowed in the Saloon or Cabin, but only small Portmanteaux or Carpet Bags. The Portmanteaux for Cabin use should not exceed 3 feet in length, 1 foot 6 inches in width, and 1 foot 6 inches in depth.

In order to facilitate the shipment and stowing of Baggage, Passengers are requested to have their Packages distinctly marked "Cabin," "Wanted on Voyage," or "Not Wanted on Voyage," as the case may be, Labels supplied on application.

CAUTION.—Goods of a dangerous nature. The Company will not receive on board of their Vessels any goods of a dangerous or damaging nature. If any such goods be shipped without notice, the shipper will not only be liable to the penalties imposed by Statute, but also for all damages sustained in consequence of such shipment.

NOTICE.—All parties are requested to take notice that the Company do not hold themselves liable for detention or delay of passengers arising from accident or from extraordinary or unavoidable circumstances, or from circumstances arising out of or connected with the employment of the Company's Vessels in Her Majesty's Mail Service, and that the Company do not hold themselves liable for any damage or loss or detention of Passengers' Baggage, or for any consequences arising from the restrictions of quarantine, when cargo is imposed. In all cases in which the Company's Steamers may be placed in quarantine, First Class passengers will be charged Ten Shillings and Second Class passengers Five Shillings per diem for their maintenance on board during the detention of the ship.

Special Notice.

The Egyptian Transit Administration having issued a notice that they will be liable to take charge of any Packages or Baggage intended for despatch through Egypt that are not properly secured, passengers are extremely requested to see that all Portmanteaux, &c., shipped by the Steamers of this Company for Europe, are thoroughly secured in this respect, thus obviating the possibility of any seizure or delay in Egypt.

Note.—Two miles of Broad Gauge line between the Trichinopoly old station (a station which has not been used since the 1st July 1875) and the Trichinopoly Fort Station were abandoned on the 1st July 1875. This piece of Broad Gauge road has since been taken up and removed. On the site named one mile of Narrow Gauge line was opened into Trichinopoly Junction from the neighbourhood of the old station site, this additional road being in substitution of the abandoned piece.

The South Indian Railway Company has been incorporated under a special Act of Parliament (37 and 38 Victoria, Session 1874) and is formed by the amalgamation of the Great Southern of India Railway Company and the Carnatic Railway Company. The object of the S. I. R. is to provide communication between Madras and the provinces of Southern India lying to the south of the existing Madras Railway. Starting from the People's Park at Madras (Buckingham Canal) the line passes through Egmore, Chelput, Saidapet, Saint Thomas' Mount, Contemment, Pallavaram, Chingleput, Villupuram, from whence there is a branch to the Gingee river and Pondicherry. Cuddalore, Porto Novo, Kumbakonam, Tanjore, (from which town there is a branch to Negapatam), Trichinopoly (from whence a branch extends to Karur and Erode) Dindigul, Madure, Madayach, from whence a branch is open to Tinnevely, Tanjore, and Tuticorin.

Up to the 31st December 1890 the short line from Arkham to Conjeeveram, was divided by a gap from the remainder of the S. I. R. system, but on the 1st January 1881 the Arkham Branch was opened throughout. It is at Arkham that the Madras Railway Company's N. W. Line joins their S. W. Line.

The whole of the S. I. R. Company's system is planned on the metre gauge (3 feet 3 3/4 inches), and the South Indian Railway consists of nearly 650 miles of line, the longest continuous route in India constructed on this principle.

A branch from Villupuram (South Arcot District) to the Gingee river has been constructed by the South Indian Railway Company, the line being continued from the river into the town of Pondicherry by the Pondicherry Railway Company. It is not improbable that in the course of a few years Trevandrum will be connected with the town of Tinnevely by an extension of the S. I. R., the two places being, as the crow flies, only 50 miles apart.

This Company has been incorporated for the purpose of connecting the town of Pondicherry with a branch of the South Indian Railway from Villupuram to the Gingee river, that river being the boundary between the English and French territory. The necessary arrangements having been made with the French Government and a Convention signed at Paris, the construction of the Pondicherry Railway (which for its entire length, about 5 miles, traverses French territory) has been carried out to completion. There are two stations, one at Villupuram, and the other (the terminus) at Pondicherry. The surf is not so violent at Pondicherry as at other places on the coast, and as an iron pier of a serviceable character has been erected in a central position near the Custom House and offices of the principal merchants, this important town, now that it is placed in direct railway communication with all parts of India, possesses considerable advantages for the exportation and importation of merchandise. The Pondicherry Railway was opened for public traffic on the 16th December 1873.

TABLES OF COINS, WEIGHTS AND MEASURES.

(INDIAN.)

MONEY.

Silver is the legally constituted medium of exchange in all money transactions throughout the British Indian possessions. Gold Coin was intended to be a legal tender at a fixed value of 15 Rupees for the Gold Mohur of Calcutta and 15 Rupees for the Gold Rupee of Madras and Bombay, but it is not demandable in payment and is left to find its current value in the market. In 1841 officers in charge of public treasures were authorized to receive gold coins struck in conformity with the provisions of Act XVII of 1833, establishing the 15 Rupee piece, but in 1852 when the gold from California and Australia began to pour their treasures over the globe and in apprehension that India would be inundated with gold, the proclamation of 1841 was rescinded and gold debarr'd from entrance into any of the treasures. Since then the sovereign has been made a legal tender for 10 Rupees.

WEIGHTS AND MEASURES.

The origin of all Weights and Measures in England was derived from a grain of wheat of three well dried and gathered from the middle of the ear, were to make one pennyweight; 24 dwts. 1 ounce; and 20 oz. 1 pound. It was subsequently thought better to divide the pennyweight into 24 equal parts, called grains.

William the Conqueror introduced into England what was called Troy Weight, from Troyes, a town in the province of Champagne, in France, now in the department of Aube, where a celebrated fair was held. The English were dissatisfied with this weight because the pound did not weigh as much as the pound in use at that time in England. Hence arose the terms *avoirdupois* and *apothecary*, which was a medium between the French and the ancient English weight.

Avoirdupois Weight was first made legal in the reign of Henry VII. and its particular use was to weigh provisions and other heavy articles. Henry fixed the stone at 14 lbs., which has been confirmed by a recent Act of Parliament.

With respect to Measures of Length, it is recorded that the various denominations were constructed from a *corn of barley*, 3 of which, well dried from the middle of the ear, made an inch. Other terms were taken from portions of the human body—such as the *digit* ($\frac{1}{4}$ of an inch, or a finger's breadth), a *palm* (3 inches), a *hand* (4 inches), a *cubit* (18 inches), a *pace* (5 feet), or two ordinary steps; a *fathom* (6 feet), from the extremity of one hand to that of the other, the arms oppositely extended. It is stated that Henry I. in 1101, commanded that the *span*, or ancient ell, which answers to the modern yard, should be made the length of his arm; and that the other measures of length were thence derived, whether *linear*, *superficial* or *solid*.

The *restored standard of Linear Measure*, whose length is called a *yard* is a solid square bar 36 inches long, and one inch square in transverse section, the bar being of bronze or gun-metal, at the temperature of 62° of Fahrenheit's thermometer, marked copper 16 oz., 54 21 oz., and 1 oz.; and near to each end a cylindrical hole is sunk to the depth of half an inch; the distance between the centres of the two holes being 3 feet or 36 inches, or 1 *imperial standard yard*. The standard *square* and *cubic* measures will therefore depend entirely upon it.

All Measures of Capacity were first taken from Troy Weight, and several laws were passed in the reign of Henry III. enacting that 8 lb. Troy of wheat, taken from the middle of the ear and well dried, should make 1 gallon of Wine Measure, and 8 such gallons make a bushel.

The carat is divided into grains, and the grains into quarters, thus—

The Carat.—Troy.

	lb.	dwt.		dwt.	gr.
24 carats make	1	0	1 grain or 1 carat make	1	10
2 carats " "	0	20	1 quar. of a grain " "	0	16
1 carat " "	0	10			

The carat for weighing diamonds is $\frac{1}{4}$ grains Troy.

TROY WEIGHT.

24 grains make	1 pennyweight (dwt.)	12 ounces make	1 pound (lb.)
50 pennyweights " "	1 ounce (oz.)		

By this weight gold, silver, jewels, and precious stones are weighed. It is also used in ascertaining the strength of spirituous liquors, and in experiments in natural philosophy, though the weights for this latter purpose are generally constructed in decimals from 10,000 grains to the one-hundredth part of a grain; it is used to compare the different weights with each other. The weighing of diamonds is an exception in jewellery; they are weighed by the carat, which is $\frac{1}{4}$ grains.

14 oz., 11 dwt., 16 grs. Troy, are equal to a pound avoirdupois; or a pound Troy bears nearly the same proportion to a pound avoirdupois as 14 to 15, or 5,760 grains are a Troy pound, and 7,000 such grains are a pound avoirdupois. This standard was adopted as being the weight of a cubical inch of distilled water, which was found to weigh by Fahrenheit's thermometer (the barometer being at thirty-six inches), 252 grains, 496 thousandth part of a grain.

AVOIRDUPOIS WEIGHT.

16 drachms make	1 ounce (oz.)	25 pounds make	1 quarter (qr.)
16 ounces " "	1 pound (lb.)	4 qrs. or 112 lb. " "	1 hundred wt. (cwt.)
14 pounds " "	1 stone (st.)	20 cwt. " "	1 ton (ton.)

By this weight are weighed all articles sold by weight, excepting gold, silver, platinum, diamonds, and other precious stones, and drugs when sold by retail.
The sign *lb. libra*, a pound) should never have an s after it, the plural being *libra*.

N. B.—The square of a number is obtained by multiplying the number by itself as $12 \times 12 = 144$, the square of 12.

By this measure all things that have length and breadth are measured.

Land is measured by Genter's Chain; which is as follows:—

Length.	make 1 link.	Square.	make 1 sq. link.

CUBIC OR SOLID MEASURE.

1,728 inches.....	make 1 solid foot.
27 feet.....	1 solid yard.
40 feet of rough, or 50 feet of hewn timber.....	1 ton or load.
42 feet.....	1 load.
1 yard of earth.....	

The dimensions of timber, shales, excavations, and all works which have length, breadth and thickness, are taken by lineal measure; but the contents are calculated by cubic measure.

A Cube is a solid body, and contains length, breadth and thickness. A cubic number is produced by multiplying the simple number twice into itself; thus 8 is a cubic number, being produced by multiplying the number 2 twice into itself; as $2 \times 2 \times 2 = 8$.

ARTIFICERS' TABLES AND CALCULATIONS.

Timber.	1 load.	240 superficial feet, 2½ inch planks or deals
40 cubic feet of unhewn timber.		300 do.
50 do. of hewn timber.		170 do.
600 superficial feet, 1 inch planks or deals.		120 do.
400 do. 1½ inch ditto.		
300 do. 2 inch ditto.		

20 deals 12 feet long, 8 inches thick, 7 inches wide, 5½ loads.

1 ditto contains 4 feet, 3 inches cubic.

A battin is from 2 to 3 inches broad, and from 1 to 1½ inch thick.

A deal is above 7 inches wide.

A plank is 11 inches wide, or above.

120 deals are 1 hundred.

TO MEASURE PIPES, TANKS, &c.

The following is a rough-and-ready way to find the contents of circular tanks, wells and pipes:—

Square the diameter in inches, and cut off the right-hand figure as a decimal, and the result will be gallons in each 3 feet (yard) of depth,—or length, if a pipe; as,—

Diameter Inches.	Inches.	Square.	Gallons in 3 feet.
2.....	2 × 2 =	4 or	0.4
6.....	6 × 6 =	36 or	3.6
12.....	12 × 12 =	144 or	14.4
WELL OR TANK.			
36.....	36 × 36 =	1,296 or	129.6
100.....	100 × 100 =	10,000 or	1,000.0

TO FIND THE CONTENTS OF A BARREL.

If the diameter is equal everywhere—Multiply the square of the diameter in inches by the depth, and divide the product by 359. Thus a barrel with the diameter of 36 inches, and 50 inches deep: $36 \times 36 \times 50 = 64,800 \div 359 = 180\frac{1}{2}$ old measure = 189½ Imperial gallons. If the centre or bung diameter is larger than the ends—First square the centre diameter in inches; and then multiply it by 2, to which add the square of the diameter of the end; then multiply this by the length of the cask and divide by 1,077. Thus a barrel with a centre diameter of 28 inches, and 25 inches and length 88 inches: $28 \times 28 \times 2 = 1,568 + 625 (25 \times 25) = 3,163 \times 88 = 78,948 \div 1,077 = 73\frac{1}{2}$ old measure = 74½ Imperial gallons.

TO MEASURE TIMBER.

In order to ascertain the contents of unsquared timber, multiply the square of the quarter girth, or of ¼ of the mean circumference, by the length. When the buyer is not allowed his choice of girth in taper trees, he may take the mean dimensions, either by girthing it in the middle for the mean girth, or by girthing it at the two ends, and taking half of their sum. If not, girth the tree in so many places as is thought necessary, then the sum of the several girths divided by their number, will give a mean circumference, the fourth part of which being squared, and multiplied by the length, will give the solid contents.

The superficial feet in a board or plank is known by multiplying the length by the breadth. If the board be tapering, add the breadth of the two ends together, and take half their sum for the mean breadth, with which multiply the length.

The solid contents of squared timber are found by measuring the mean breadth by the mean thickness, and the product again by the length. Or multiply the square of what is called the quarter girth, in inches by the length in feet, and divide by 144, and you have the contents in feet.

APOTHECARIES' WEIGHT.

90 grains (gr.) make 1 scruple =	20 gr. Troy, sign ℥
3 scruples " 1 drachm =	60 " " ℥
8 drachms " 1 ounce =	480 " " ℥
12 ounces " 1 pound =	5,760 " " lb.

Apothecaries compound their medicine by these weights, but buy and sell by Avoirdupois.

The pound, ounce, and grain, are the same as in Troy weight.

APOTHECARIES' FLUID MEASURE.

60 minims (℥) make 1 drachm, ℥ 5	16 ounces make 1 wine pint, ℥
8 drachms " 1 ounce, ℥ 1	8 pints " 1 gallon, gal.

MEDICAL PROPORTIONATE DOSES.

If a dose be a single drachm for a person of 21 years of age, the proportionate doses according to the age will be:—

Under 1 year	1/2 or 5/8 grs.	Under 14 years	1/2 or 30 grs.
2 years	1/4 " 7½ grs.	20 "	1/4 " 40 grs.
5 "	1/3 " 10 grs.	Above 21 "	1/2 " 70 grs.
4 "	1/2 " 15 grs.		65 the inverse ratio.
7 "	1 " 20 grs.		

Women require smaller doses than men.

USES OF THE PRECEDING TABLE.

1.—When Government 4 per cent. Securities sell at 76, what are the equivalent values of the 5 and 5½ per cent. loans?

In the table opposite 76 in the first column are 95, the value of 5 per cent. loan, and 104½ the value of 5½ per cent. loan—the interest in all the three cases being 4263 or 55-19 per cent.

2.—At what price should I purchase 4 per cent. to obtain 5½ per cent. for my money? In the fourth column opposite 5½ or 5-6 in the column for 4 per cent. stands 12721 or 75-11 the price required.

3.—What would I gain, by selling out Rs. 10,000, 5 per cent. Government loans at 104 and purchasing 5½ per cent. at 112?

In the third column opposite 104 in the 2nd, is 114-4
112

Gain on Rs. 100 of Capital 2-4
And in the fourth column opposite 112 in the 3rd, is 4-21 per cent.

104 " 2nd, 4-808 "

Difference, or gain per cent. per annum on Capital 0-107 " or fully 1-10 percent. being Rs. 10 5s. on every Rs. 1,000 is invested.

4.—To find the equivalent values of 4 and 5½ per cent. Securities when 5 per cent. are selling at 103½, or Rs. 107 6s.

Opposite 103½ in the second column, are 84-4 and 113½ in the 1st and 3rd, and among the "proportional parts" corresponding to 375 or 6s. in the 5 per cent. column are 0-3 R. in the 4 per cent. and 413 in the 5½ per cent. column.

Hence 84-4 + 3 = 87½, the equivalent price of 4 per cent., and 113-5 + 413 = Rs. 113-712, or Rupees 113, 11s. 5p. the equivalent price of 5½ per cent.

Other uses of this Table will readily occur to brokers and others.

CONSISTORY COURT.

OPENED 17th OCTOBER, 1843.

The Archbishop, Registrar, and Commissary.

E. R. Davidson, Esq., B.A., LL.B., Registrar. | William Francis Hyer, Esq., Appraiser.

RULES RELATING TO THE OFFICE AND DUTIES OF LAY TRUSTEES IN THE DIOCESE OF MADRAS.

FOUR ST. GEORGE, 29th OCTOBER, 1867.

I. Two Lay Trustees are appointed to each Chaplaincy or station where there is property belonging to or held in trust for the Church of England.

II. At Civil stations, or Joint Civil and Military stations, the Senior Civil Servant should be appointed a Trustee, provided that he is a communicant of the Church of England, and has no objection to hold the office. At Military stations the Officer Commanding the Cantonment or Garrison, and if the same provides, When these Officers are unwilling to hold the office the officer next in seniority (Civil or Military as the case may be), if qualified as above, should be nominated.

III. The second Trustee may be any communicant resident at the station, nominated by the Chaplain, and approved by the Bishop.

IV. When the office of either Trustee is vacant, the Chaplain should report the circumstances to the Lord Bishop, for the information of Government, and at the same time nominate a duly qualified person to fill the vacancy.

V. The duties of the Trustees are in many respects similar to those of Church Wardens in England. They are appointed to see that the Church and Churchyard or Cemetery are kept in good order and repair, to provide for the preservation of the property belonging to the Church, to present to the Bishop or Archbishop, either on their visitation or immediately by letter, whatever is wrong or irregular on the part either

of the Chaplain or the congregation, and to aid and assist the Chaplain in the performance of his duties.

VI. During the absence of the Chaplain or other licensed Clergymen, one of the Lay Trustees is, in ordinary cases, the proper person to read the Service and a sermon on Sundays, and to take charge of the Register and other books connected with the Chaplaincy. N.B.—It is to be borne in mind that Lay Trustees have no power to interfere in the administration of Divine Service, but merely to represent to the Ecclesiastical authorities whatever they may deem objectionable. Their office in this respect is one of observation and complaint, not of control.

VII. The Lay Trustees, in conjunction with the Chaplain or Minister, form a Committee of Management on all Church matters, and should meet for business once in each month, or oftener, if necessary. The assignment of seats in Church and (in places where they are authorized), the collection and disbursement of pew rents, the management of school and charity funds, should be supervised and arranged by the Committee at their Meetings.

VIII. All indent, letters, proceedings and other papers emanating from a Church Committee, are to be signed by both the Lay Trustees (unless for special reasons which are always to be assigned), as well as by the Chaplain; and all indent, letters, &c., received or sent, are to be entered in a correspondence book distinct from that of the Chaplain, and should be produced for examination at Meetings of the Committee.

IX. The Chaplain or Officiating Chaplain or Minister present, as a mark of respect due to religion in the person of its Minister, presides at all Meetings of the Committee of Management and signs proceedings and letters as President, and the two Lay Trustees in the order of their relative rank.

X. The Church Committee are responsible that no alteration is made whatever in the Church or Churchyard without representing the matter to the Archbishop, who will, except in matters of trifling importance, bring it before Government for their sanction.

XI. When any addition, alteration, or improvement to a Church or other Ecclesiastical building is considered necessary, or when any new building is required, the subject should be brought with full explanation to the notice of the Bishop, who, if approved by him, requests the Archbishop to submit the same for the consideration and orders of Government, on whose approval the necessary plans and estimates (if not previously furnished) are called for from the Public Works Department.

XII. All ordinary repairs to Ecclesiastical buildings in the provinces, the cost of which does not exceed Rupees 50, are effected, and all trifling articles within the same limit are supplied on the direct application of the Church Committee in the provinces by the District Executive Engineer, and at the Presidency by the Barrack Master. Contingent charges for the supply of waxing, blinding, and other articles of a similar kind necessary for each Chaplaincy, not exceeding 50 Rupees per annum, will be entered in a Contingent Bill, which should be submitted for the approval of the Archbishop.

Rules in regard to the Levy of Ecclesiastical Fees.

Letter from the Officiating Under-Secretary to the Government of India, Home Department, (Ecclesiastical), to the Secretary to Government, Fort St. George, dated Simla, 22d July, 1872, No. 165.

"The Lord Bishop of Calcutta having brought to notice that difficulty is occasionally experienced by Chaplains in collecting fees, under existing rules, on monuments and masonry graves, the Governor-General in Council considers that in all cases where such difficulty arises the duty of collection should be made over by the Chaplain to the Magistrate or Deputy Commissioner in charge of the district in which the burial ground may be situated; and I am to request that, with the permission of His Excellency the Governor in Council, instructions may be issued to the District Officers accordingly."

Orders for the performance of Funeral Rites on verdicts of Coroner's Inquests.

NOTIFICATION.—Fort Saint George Gazette, June 11, 1880, page 623.

The Right Honorable the Governor in Council is pleased to rescind the Order of Government of 5th April 1842, which directs a copy of the verdict of the Coroner's Inquest to be furnished, when practicable, to the Clergyman who is to officiate at the interment of a body on which an inquest may have been held, and the Reverend Chaplains will in future consider the warrant of the Coroner for the interment of a body on which an inquest has been held to be a sufficient authority for their performance of the Burial Service over it, if it would be their duty, under ordinary circumstances, to perform that service.

2. In the provinces where no Curator's jurisdiction exists, the same course will be served by the authorities appointed to enquire into the causes of sudden death, and the same difference will be paid by the Clergyman to their certificates of Warrant.

Parties desirous of being married should apply direct to some Surrogate residing near them; but from places where there is no Surrogate, application should be made to the Registrar, who will procure a commission under the Episcopal Seal, authorizing persons to administer the usual oath and grant the necessary license. None but a Clergyman of the Church of England can marry by virtue of Episcopal license. Parties who cannot on account of distance obtain the services of a Clergyman to marry them must state the fact, and apply to the Brigade Major, Fort Saint George, who will obtain the permission of the Right Honorable the Governor for their marriage under which the Senior Judicial Officer of any station is authorized by Government to marry them.

In the case of a minor in R. M.'s or the Honorable Company's Service, the written consent of the Governor must be obtained previous to the publication of Banns, or the grant of a license.

Further information respecting marriages can be obtained on application to the Registrar of the Diocese, F. Rowlandson, Esq., B.A., M.A.

Rules for the guidance of Surrogates in administering Oaths and granting Marriage Licenses within the Diocese and Archdeaconry of Madras.

I. Every application for a license must be made in writing, and the names of both the applicants be given in full, with the age, race, condition (i.e. bachelor, spinster, widower, or person whose previous marriage has been dissolved), and occupation, if any, of each, and the place or places in which each has resided for the six months prior to the application.

II. If either of the applicants is a person whose former marriage has been dissolved, the application besides stating such fact, must also state the cause of the dissolution of such former marriage.

N.B.—(a) If the cause of such dissolution be stated to have been adultery, the Surrogate shall require from the applicant, a copy of the Decree of the Court dissolving such marriage, and if it shall become known to the Surrogate, that such former marriage was dissolved on the ground of the adultery of the applicant, the Surrogate shall not grant the license, to the end that any Clergyman, other than the Surrogate, who shall marry the parties, may be duly apprised thereof; as no Clergyman is compelled to solemnize the remarriage of such person. (b) If the cause of such dissolution be stated to be the conversion of the applicant, or applicants, to Christianity, the Surrogate shall, by enquiry satisfy himself, before proceeding in the matter, that the circumstances connected with such conversion, such dissolution, and the proposed marriage be not such as to give occasion to scandal, or reproach.

III. When both applicants are non-residents in the place where the application is made, and are unknown to the Surrogate, he may decline to grant his license, until he shall have had time to make due enquiry, as to whether there be any impediment to the marriage, and may further require from the applicants the names of two or more persons in whom reference may be made.

IV. On a day subsequent to the receipt of the application, which shall be appointed by the Surrogate, and shall be not earlier than the fifth day (that is the ninety-seventh day), after such receipt, the parties, or one of them, shall in every case appear before the

Surrogate, and either one or both swear to the "Affidavit of Residence," to which the written application for the license shall be annexed by way of an exhibit, being marked as such, and endorsed as follows by the Surrogate:—

In the matter of the marriage of A. B. and C. D.

This is the exhibit referred to

to in the affidavit of A. B. sworn
herein on the day of before me.
E. P.
Surrogate.

V. The Surrogate will use great caution in examining the parties to be sworn, filling up the forms with the names, rank and places of residence, and dates at full length.

VI. In no case is a license to issue, unless the parties are sworn before the Surrogate, and in case of doubt or difficulty the Surrogate will refer to the Registrar as recommended in the Surrogate's appointment.

VII. In case the lady to be married has been delivered, the license should issue in her maiden name (see Rule 2).

VIII. In case the party to be married is a minor, consent of the father, if living, must be obtained, or if the father be dead, the guardian of the person of such minor, and in case there be no such guardian, then the mother of such minor may give consent, unless no person authorized to give such consent be resident in India.

IX. In case the party to be married is a minor, either in the Civil or Military service, and without possessing either a parent or guardian in this country, the consent of the Governor of Madras must be obtained by the minor to his marrying under age, unless the proper consent can be shown to be already given on the part of the absent parents or guardians to his marrying as a minor, in which case the consent of the Governor of Madras need not be obtained.

X. If the parties to be married are both of full age (twenty-one years) and both of them are to be sworn, the Surrogate will use No. 1 Form; but if one of the parties is prevented from attending and another person joins in the affidavit on behalf of the party not present, No. 2 is in such case to be used instead of No. 1.

XI. If one of the parties only is of full age (namely, twenty-one years), and the other is under that age, and the parent, next friend, or guardian makes oath on the part of the minor as to age and consent, the Surrogate will use No. 3 Form.

XII. If both the parties are minors (under the age of twenty-one years) and the respective parents, next friends, or guardians swear on their behalf, No. 4 is to be used.

XIII. In case the lady to be married is a widow and under the age of twenty-one years, oath No. 1 is to be used, the Surrogate first running his pen through the words "that they have respectively attained their respective ages of twenty-one years and upwards," and adding at the foot of the oath (above the signature), "the former being twenty-one years of age and upwards, and the latter a widow."

XIV. The Surrogate having filled up, and the party having read and signed the affidavit at the proper places, the former will then give the Testament to the party to be sworn, and holding the paper in his hand, say, "you (A. B.) do swear that the contents of this your affidavit are true. So help you God."

XV. The party answer "I do," and kisses the book, repeating, "So help me God."

XVI. The same form is observed to each person sworn.

XVII. The Surrogate will then fill up the license, date and sign it, adding his title as Surrogate, and hand the license to the parties.

XVIII. In case of any caveat entered in the registry or intimation received through the Surrogate against the grant of a license, the Surrogate will ascertain the particulars and communicate the same to the Registrar for immediate advice, refusing the license until the result of that reference is known and forwarding any affidavit sworn.

XIX. The Surrogate will forward to the Registrar for record all affidavits as above on the day they are administered, and the licenses with the Quarterly Returns, unless sooner or whenever required.

XX. A fee of Government Rupees fifty to be received by the Surrogate on each license previous to delivery of the same to the parties entitled to receive such license, Rupees sixteen of which fee for the license, being due and payable to the Registrar, are to be transmitted to him on the day the license is granted.

N.B.—Although every Surrogate has legal power to issue a license under which a marriage can be solemnized in any church or place where Divine Service is usually performed in any part of this Diocese, it has always been the custom for the Surrogate or one of the Surrogates in the District in or nearest to which the parties usually have resided to grant them his license even if it should be the wish of the parties that the marriage should be solemnized by some Clergyman other than such Surrogate. And of this custom the careful observance is commended to all Surrogates by the Right Reverend the Lord Bishop of the Diocese.

(By Order.)

F. ROWLANDSON, B.A., M.A.,
Registrar of the Diocese and Archdeaconry of Madras.

Number of sittings to be provided to include provision for women, children and pensioned soldiers. In ascertaining the number of seats to be provided, women, children and pensioned soldiers and their families may also be taken into account, two children being counted as one adult. In cases of stations where abnormal rates prevail special application may be made to the Government of India for an increase to the grant given by the State.

Limit on number of sittings to be provided. But no grant for more than 200 sittings will be made except at seats of Local Governments and Administrations, at Hill Stations, or at Railway Depots. In the two latter cases, the number of European-born British subjects in Government or Railway service must exceed (without their families) 129, to warrant the grant for a Church of greater accommodation than 300 sittings. When the number of sittings required is intermediate between the number given in the table, the grant for the seats in excess of the nearest number below the number required will be at the rate of the next lowest number in the table. And in no case will the Government grant be allowed until these contributions, together with the grant, amount to the estimated cost of the Church.

Church accommodation to be provided only for British-born European subjects. The number of sittings required for any particular Civil Station, other than a Railway Depot or Station, will be finally determined by the Government, solely with regard to the number of the British-born European subjects in the service of Government. No grant for Churches in Civil Stations will be made until private subscriptions have been obtained, and then the Government grant will not exceed double the amount of private subscriptions actually realized; the maximum figure in column 2 of the Table above being in any case the extreme limit of the grant towards the scale of accommodation which stands opposite in column 1.

Continuation of Civil with Military Church. It is desirable, whenever such a course will not be attended by inconvenience, to combine the Civil with the Military Church of a Station, the grant allowed for the Church accommodation of the British troops given in para. 9 being supplemented by a grant according to the scale shown in para. 10, and to the probable number of seats that will be required for the Civil British-born European residents in the service of Government or of a Railway Company.

General.

Authorized scale not to be exceeded. The scales of sizes, and of expense, for all Churches above laid down, are in no case to be exceeded without a reference to the Government of India, even through the proposed expenditure from Public Funds may be within the powers of sanction vested in the Local Government or Administration.

Houses for Chowkedars to be provided: as also in certain cases for other servants. A house for the Chowkedar, or resident bearer may be provided. In cases, however, where the Church is distant from the bazaar, and where special grounds are shown, accommodation may be provided for other duly authorized servants, but such further accommodation will be limited to shelter for day use only. These houses should, when practicable, be adjoining to, and not within the Church compounds, but when within them they should be erected in keeping with the other Church buildings.

Churches for non-official residents require sanction of Government of India. Church accommodation for non-official residents, either British-born Europeans or others, or for official residents other than British-born, should not be sanctioned by the Local Government or Administrations without reference to the Government of India.

Private contributions. When private contributions are made towards building a Church in aid of a Government grant, the procedure to be adopted is as follows:—

Basis of design and estimate. The amount of private contributions being known, a definite design and estimate will be prepared by the Executive Engineer, and submitted for sanction in the usual way, the limit by which the Executive Engineer will be guided in his design being the aggregate of the Government grant according to the scales given in paras. 8, 9 and 11, and the amount of private contributions actually realized.

Private contributions to be deposited. Before the work is commenced, the amount of the private contributions must be paid into a Government Treasury, and carried to credit of Deposits in the accounts of the Public Works Department, as laid down in Chapter XX, Section V, para. 16. The expenditure incurred from the Government grant, and the contributions, will be adjusted in the manner directed in Chapter XX, Section II, para. 51, and on the principle laid down in para. 53 of the same Section.

Note.—In the case of a grant from the Church building fund for the Diocese of Calcutta, a certificate instead of cash payment in advance may be accepted showing the amount of the contribution to be allowed. The conditions on which this certificate may be accepted are that in every case definite arrangements respecting the precise dates on which the contributions will be paid, and that, until the payment is made, the Government shall have a primary lien on the funds of the Society. In case of any failure in paying up the stipulated payment on due date, the privilege herein allowed is to cease.

Mode of treating these contributions. In dealing with cases of this nature, unless it be otherwise specifically ordered, the private contribution is to be looked upon as an addition to the Government grant, instead of the money allowed from Public Funds being considered as a grant-in-aid of private contributions, and the responsibility of Public

Works Officers with respect to the preparation of estimates, and the construction of such buildings with reference to excess of expenditure over the estimate, will be as strictly enforced as in a case where only public funds are expended.

The Executive Engineer will be guided in granting the certificates above alluded to by the following principles:—

Class I.—Churches built by Government.—The certificate should state that the Church was built by Government for the use of European Troops or British-born European subjects in the service of Government or of the local Railway Company, and is still maintained for the same purpose.

Class II.—Churches which have received building grants from Government.—The certificate should state that the Church received a building grant of Rs. ————, equal to the ———— part of the total cost of the building, and that the grant was made on account of European Troops or British-born European subjects in the service of Government or of the local Railway Company, and that the building is still used by them.

For this class of Churches a proportion of the standard cost of the articles will be sanctioned equal to the proportion of the grant-in-aid to the total cost of the building itself.

Class III.—Churches rented by Government.—The certificate should state that the Chapel is wholly rented by Government for the use of European Troops or British-born European subjects in the service of Government or of the local Railway Company.

In this class the articles necessary for service will be given by the Military Department, but returned into Store if the building ceases to be rented for the performance of Divine Service to a Military congregation.

In none of the classes described above should any article of furniture be allowed with retrospective effect, and the required certificates should afford information as to when the article was originally supplied, and by whom, and the reason for recommending its renewal. When, however, the Government pay for the use of a certain varying number of seats in a Church, the hire of the seats should include everything necessary for the performance of the Service.

V.—When a Church, whether Protestant or Roman Catholic, is to be furnished, the Executive Engineer should communicate with the Ecclesiastical authorities concerned with a view to afford the congregation an opportunity of furnishing the Church by private subscriptions in more costly style, should they wish to do so. It is to be understood, however, that any article of furniture to which any public funds may have been applied will remain the sole property of Government, even though a portion of its cost may have been contributed by private persons. And in cases where articles of Church furniture are procured from England, they should be purchased through the Secretary of State in the ordinary way, with the exception of the "fair linen cloth, napkins, Bibles and Prayer-books," which may be purchased in India.

21. *Renewals of furniture to be a charge against Pew rents.* When Pew rents are charged, the renewal and repair of furniture will be met from that fund, and not be allowed to be brought forward as a public charge.

22. *Clocks.* The care of Church clocks is to be charged against the above fund where it exists.

23. *Chowkeedars.* The pay of Chowkeedars of Churches will be disbursed through Chaplains.

24. *Tablets, &c.* Churches are under the control of the Bishop of the Diocese in respect to the erection of tablets, ornaments, &c., while in course of construction, as well as after completion and consecration.

25. *Churches built by Government to be considered property of Government.* All Churches built by Government under these rules shall be considered the property of the Government.

Compensation for accommodation for Roman Catholic Soldiers in Chapels neither belonging to, nor rented by, Government.

26. The rate of compensation for sittings for Roman Catholic soldiers shall be determined by the Public Works Department with reference to the value and description of the accommodation provided, subject to a limit of Rs. 3 per seat per annum, broken periods counting as a year.

27. The number of sittings for which compensation is allowed will be subject to the same limit as is imposed in the case of the number allowed in Churches built at Government expense (para. 6), the maximum allowed being 200 for a regiment of European Infantry or 83 per company.

28. The outlay will appear in the Public Works Department budget-estimates and accounts under the head of Civil Buildings—Repairs.

29. Charges for compensation require the previous sanction of the Government of India, and must be supported by a certificate from the officer commanding the station of the numbers of Roman Catholic soldiers, and by women and children for whom chapel accommodation has been obtained and by a receipt for the money paid.

CEMETERIES.

HOME DEPARTMENT. NOTIFICATION—ECCLESIASTICAL.

Fort William, the 12th December 1877.

No. 421.—The following Rules for the care and use of Government Cemeteries other than those in the Presidency Town of the Diocese of Calcutta, for the levy and expenditure of fees on graves and monuments in Cemeteries and Churches throughout India, and for the levy of other ecclesiastical fees, are published for general information and guidance:—

Rules for the care and use of Government Cemeteries throughout India except those in the Presidency Town of the Diocese of Calcutta.

CHARGE OF THE CEMETERY.

RULE I.—(1)—The Resident Chaplain of a station has charge of the general cemetery and frames an estimate of the expenditure connected therewith in accordance with the directions contained in paragraph 1, Home Department Resolution No. 6—370-382, dated 9th November 1876.

(2)—The term "Resident Chaplain" includes a Clergyman of the Additional Clergy Society so far as concerns the stations to which he stands appointed or other Clergymen of the Church of England placed in charge by the Bishop.

(3)—During the temporary absence of the Chaplain, and at stations where there is no Resident Chaplain, the charge of the cemetery belongs to the Chief Magistrate on the spot, or the senior Military Officer if the cemetery is attached to a military cantonment.

(4)—At out-stations where there is a Church Committee the charge of the cemetery will belong to the senior member of Committee, and where there is no such Committee, to any subordinate officer nominated by the Magistrate or Deputy Commissioner of the district.

RULE II.—Each cemetery is allowed a malichowkidar or chowkidars in accordance with the scale prescribed in paragraph 2, Home Department Resolution No. 6—370-382, dated 9th November 1876. These chowkidars are paid by Government through

the Resident Chaplain by whom they are appointed and dismissed. In stations where other officers named in Rule I.

RULE III.—Every reasonable effort should be made by the Resident Chaplain or other officer in charge under Rule I, not only to keep the cemetery in decent order, but to preserve its character as the resting-place of the remains of departed friends by providing for the necessary repairs and by planting the ground with suitable trees.

NOTE.—To meet the expenditure under this Rule, see Rule I, and paragraph 1 of Home Department Resolution No. 6—370-382, dated 9th November 1876.

RULE IV.—The chowkidar will keep the key of the cemetery under the direction of the officer in charge.

RULE V.—The officer who has charge of the cemetery under the operation of Rule I will perform all the duties assigned to the Chaplain by Rules VII, VIII, IX, X, and XI, with the exception of the approval of the inscriptions in that part of the cemetery reserved for the Church of England. There are to be forwarded to the visiting Chaplain, or, if there be none, to the Archdeacon, and not out till his sanction be obtained. Should however, an inscription be disapproved, it may be referred to the Government for decision.

INTERMENTS BY WHOM TO BE CONDUCTED.

RULE VI.—(1)—The Chaplain buries Christians of all denominations whose friends desire his services as laid down in the orders of the Government of India in the Home Department No. 155, dated the 6th June 1877, using always the service of the Church of England, and the consecrated portion of the cemetery.

(2)—A portion of every cemetery will be set apart by the orders of Government for the use of Roman Catholic congregations, and another portion will be appropriated for the

local Government or Administration, according to the rules in force in the Public Works Department.

In stations in which the churches and burial grounds are under the local Governments and Administrations in which the Provincial Service arrangements are in force, the charges doutable to the Public Works Department will be provided for in the Provincial Public Works Budget Estimate. In other Provinces and in the Military Works Branch the charge will be provided for in the Imperial Public Works Budget Estimate under Civil Buildings.

2. The following scale of establishments should be maintained at all cemeteries:—

- (i.) For a cemetery of which the area is five acres or less, one mali-chaukidar;
- (ii.) For a cemetery of which the area is more than five and less than ten acres, one mali-chaukidar and one assistant cooly;
- (iii.) For a cemetery of which the area is more than ten and less than fifteen acres, one mali-chaukidar and two assistant coolies;
- (iv.) For a cemetery of which the area is more than 15 acres, one mali-chaukidar and three assistant coolies.

It is left to the local Governments and Administrations to determine the proper wages to be given to each servant. The cost of this establishment will be charged to Provincial Services in the case of those local Governments and Administrations in which the Provincial Service arrangements are in force, and in the case of other local Governments and Administrations and the Military Works Branch of the Public Works Department to Imperial Funds. In either case the charge will be included in the Civil Budget Estimate.

3. The size of kutcha and packa graves should be limited to 8' x 4', and the amount of ground to be enclosed should be restricted to 11' x 7' by external measurement in both cases. No monument over a packa grave must exceed 8' x 4' at the base, except with the previous sanction of the local Government concerned. A simple cross or head-stone on an adequate masonry foundation, not exceeding 8' x 2', is the only monument that should be allowed over a kutcha grave; no kutcha grave should be enclosed by a railing.

4. No portion of the receipts from cemeteries should be retained by any Government officer to be directly expended by himself; all such receipts should be paid into the Civil Treasury to the credit of the Public Works Department. In the case of receipts from cemeteries in charge of the Military Works Branch and under those Governments and Administrations in which the Provincial Service arrangements are not in force, the credit will be treated in the Public Works accounts as a receipt under Imperial Public Works Revenue. In the case of the other Governments and Administrations the credit will be raised to Provincial Service Public Works Revenue. But the amount passed upon the joint estimate framed by the Executive Engineer and Chaplain in provide for planting a cemetery and preserving it in decent order should be entrusted to the Chaplain where there is one. Where there is no resident Chaplain, the amount should be placed at the disposal of the Chief Magistrate on the spot, or of the senior Military Officer if the cemetery is attached to a military cantonment. The necessary funds for the purpose will be advanced by the Executive Engineer concerned to the Chaplain or Civil or Military Officer. Bills for the expenditure should be rendered by the officer to whom the advance has been made, either monthly or otherwise, to the Executive Engineer, who will charge for the amount thereof in the usual way in his accounts. Until the bills are received and charged off, the advance will be placed to the Miscellaneous Advance Account of the Executive Engineer. All planting of shrubs and trees by private persons in cemeteries should be under the control of the Chaplain if resident, otherwise under that of the Magistrate or senior Military Officer, as the case may be. When practicable a well should be sunk in or near every cemetery.

In connection with the preservation of cemeteries in decent order, attention is invited to the rule cited on the margin. This rule, however, should not be applied to monuments of historical or archaeological interests. Lists of such tombs should be obtained by local Governments and Administrations, and as many of them as may be properly preserved at the public expense should be looked after by the Local Public Works Department.

5. It should be understood that the Government cannot provide cemeteries at the public expense for Native Christian communities.

NOTE.—Where their number is small, the question is of little importance and is best arranged by mutual concessions or by special provisions made locally by the parties immediately concerned. And I am to suggest for His Lordship's (Bishop's) consideration, whether, if the necessity of dealing at the present time with this matter of Native Christian interment be in his judgment unavoidably established, it should not be carefully examined in consultation with the several local Governments, having regard to the diverse needs and circumstances of the population in each separate province.

6. It is not considered necessary to make any alteration in the existing rules regarding the mode of supply of church furniture.

7. Further orders will be passed on the sixth point referred to the Committee for report.

8. The arrangements for making the necessary preparations for digging graves, preparing coffins, and the like, should rest in military stations upon the senior Military Officers, and civil stations upon the chief local Magistrate. These officers are authorised to direct any local Public Works Officer to supply all that is necessary. The "local Public Works Officer" would usually be the Executive Engineer of Military Works in military Stations, and the Civil Executive Engineer in other stations. The expenditure incurred by the Executive Engineer will be held in his Miscellaneous Advance Account until repaid by the officer authorizing the expenditure. But in cases of necessity or emergency either officer may be called upon to do what is required.

NOTE.—The intention of this paragraph is to provide an ultimate authority in case of difficulty, and existing arrangements need not be disturbed.

Office Memorandum from the Military Department, No. 810, dated the 16th November 1875, forwarding for an expression of opinion a draft General Order which His Excellency the Commander-in-Chief proposes to issue on the subject in accordance with the above rules.

RESOLUTION.—On a reconsideration of the subject, the Government of India think it necessary to modify the rules contained in the Resolution of 8th September 1875, so far as regards the burial of deceased Roman Catholics. The Government of India have now decided:

1st, that at stations where there is a Roman Catholic Priest drawing an allowance from Government, he shall be held bound to read the burial service over the body of every deceased Roman Catholic brought for burial, unless he be excused from doing so by the prelates and canons of the Roman Catholic Church; and that when the Roman Catholic Priest refuses to read the burial service over the body of a deceased Roman Catholic soldier, the Military authorities shall make proper arrangements for the decent interment of the corpse;

2nd, that where there is no Roman Catholic Priest paid by the State, the Protestant Chaplain shall, if requested by the friends of the deceased, or by the Officer Commanding, be bound to bury the deceased according to the rites and ritual of the Church of England, except in either of the three cases in which Protestant Chaplains in India are excused from burying a deceased Protestant, viz., dying unbaptised even by lay baptism; excommunicated by the major excommunication; or declared to be *felo de se*; and that when a Protestant Chaplain refuses to officiate at the burial of a deceased Roman Catholic soldier in either of the three abovementioned grounds, the Military authorities shall, as in the case of refusal by a Roman Catholic Priest, make proper arrangements for the decent interment of the corpse;

3rd, that whenever, with or without furnishing any explanation of his reasons, a Roman Catholic Priest paid by the State, or a Protestant Chaplain refuses to perform the funeral rites of his Church over the body of a deceased Roman Catholic soldier, the circumstances of the case should be fully reported by the Military authorities for the consideration and orders of the Government of India.

2. The Governor-General in Council is accordingly pleased to direct the modification in the above sense of the provisions of paragraphs 15 to 19 inclusive of the Resolution, 8th September 1875.

The Archdeacon or in his absence the Bishop, may, on sufficient cause being shown, permit a kutcha grave to be enclosed by a railing, other than wooden, on condition that the same fee is paid as is levied on the construction of Masonry graves.

THE INDIAN CHRISTIAN MARRIAGE ACT XV OF 1872.

ECCLIESIASTICAL DEPARTMENT, Fort St. George, March 14, 1874.

Rules for the submission to Government of the Returns of Marriages solemnized under Act XV of 1872, and for the disposal of marriage fees.

Under the provisions of Section 88 of the Indian Marriage Act (No. XV. of 1872) the Right Honorable the Governor in Council is pleased to direct the observance of the following Rules for the disposal of the fees prescribed by Section 82, the supply of register books, and the preparation and submission of returns of marriages solemnized under the Act.

Head I.—Rules relating to Persons who have received Episcopal * Ordination (but who are not Clergymen of the Church of England nor the Church of Rome), and to Ministers of Religion who, under Section 6 of the Act, have obtained licenses to solemnize marriages.

Definition of "Minister." 1. The term "Minister" will be used for both of these classes of officers under this Head.

2. As required by Section 84 of the Act, a Minister will forthwith detach from his marriage register book every certificate of marriage solemnized by him and transmit it, within one month from the time of solemnization of such marriage, to the Marriage Registrar or Senior Marriage Registrar of the District, or to the

Magistrate of the District, when there is only one Marriage Registrar in a district, and such Registrar is absent from the District, or III, or his office is temporarily vacant (Section 7). Ministers in Madras should forward their certificates to the Senior Marriage Registrar for the Town of Madras.

3. The form to be used by Ministers for this purpose is given in the fourth schedule of the Act.

* Senior Marriage Registrar.

* Such as Clergymen of the Armenian and Greek Churches.

4. The Marriage Registrar or Magistrate acting under Section 7 on behalf of the Marriage Registrar, as the case may be, is required by Section 84 and the two following sections of the Act:—

(a)—To add to each certificate the number of the entry of the copy in the book to be kept by him under Section 84;

(b)—To affix to it his signature or initials; and

(c)—To transmit all the certificates received during the month to Government, together with the certificates from his own marriage register book, if he should have solemnized any marriages during the month.

5. On the face of every certificate of marriage thus forwarded, the Minister must distinctly state if either party to the marriage is a British subject, as in this case it is imperative that the certificate should be forwarded to England. If neither party to the marriage be such, that fact also must be stated; and it must be noted in the latter case if either of them desires the certificate to be transmitted to England for delivery to the Registrar-General of Births, Deaths, and Marriages.

6. The following is the definition of the term "British Subjects" which should be adopted in carrying out the above distinction:—The term *British Subject* means (1) a subject of Her Majesty, born, naturalized or domiciled in the United Kingdom of Great Britain and Ireland, and (2) the child or grandchild of any such person by legitimate descent.

7. The certificates furnished by Ministers are not to include entries of marriages between Native Christians.

These marriages, under Section 83 of the Act, must be registered in a separate register book in the form given in Schedule 4 of the Act. When certificates of such marriages are given, they shall also be in the form given in Schedule 4. The headings of this register book should be in the language of the District in which the register is kept, but so much of it as has to be filled in by the hand of the person performing the ceremony must be in his own vernacular language. This book, when filled, must be dealt with as directed by Section 37. Under Section 64, true extracts from this register book shall be deposited in the office of the Marriage Registrar or Senior Marriage Registrar of the District, or in that of the Magistrate of the District when the Marriage Registrar is absent from the District, or III, or his office temporarily vacant on the 31st December of each year. For the form of extract see Appendix 1.

8. Applications from persons connected with any Missionary Society for licenses should be submitted to Government by the Secretary or Senior Chaplain of the Society through the Magistrate within whose jurisdiction the applicant may be residing, or in the case of residence in Madras, through the Senior Marriage Registrar for the town of Madras. Those officers should also forward an expression of their opinion. In every case the name of the applicant should be given in full.

9. When any person desires to resign the office of a Minister licensed to solemnize marriages under the Act, or is about to leave the station or district in which he has exercised such functions, it is particularly requested that he will report the circumstance to the Marriage Registrar or to the Magistrate of the District, as the case may be, and make over to him for safe custody the marriage register books, and all forms and other documents appertaining thereto, unless his (the Minister's) successor be duly licensed to solemnize marriages under the Act, in which case the books, forms, and documents referred to should be made over to such successor, and the fact should be reported to the Marriage Registrar or to the Magistrate of the District when there is no Marriage Registrar for information. In Madras the report should be made to the Senior Marriage Registrar for the town of Madras.

10. A form of report is given in Appendix No. 2. Persons who send certificates to Government. 11. The person who are required to furnish the certificates to Government under this Head are:—

(a)—All Marriage Registrars or Magistrates of Districts as the case may be.

(b)—The Senior Marriage Registrar for the town of Madras.

Head II.—Rules relating to Marriage Registrars appointed under the provisions of Act No. XV of 1872, (the Indian Christian Marriage Act) Section 7.

1. A Marriage Registrar is required, by Section 55 of the Act, forthwith to separate the certificates from the marriage register book, and to submit the certificates of marriage which he has attached from his marriage register book during the month, to the Secretary to the Local Government at the end of every month. Copies of the Certificate should never be sent. The original is required in every case.

2. A form of the certificate is given in the fourth schedule of the Act.

3. On the face of every certificate of marriage thus forwarded, the Marriage Registrar must distinctly state if either party to the marriage is a British subject within the meaning of Rule 6 of the foregoing Rules (Head I), as in this case it is imperative that the certificate should be forwarded to England. If neither

Information to be recorded on face of certificate.

party to the marriage be such, that fact also must be stated; and it must be noted in the latter case if either of them desires the certificate to be transmitted to England for delivery to the Registrar-General of Births, Deaths and Marriages.

4. Applications from persons connected with any Missionary Society, for appointment to the office of Marriage Registrar in any district, should be sent through the Secretary or Senior Chaplain of the Society to the Magistrate of the District in which the applicant resides; applications for appointment in Madras should be sent through the Senior Marriage Registrar for the Town of Madras. The Magistrate, or the Senior Marriage Registrar, as the case may be, should forward the applications to Government with an expression of his opinion.

5. When any person, not being a Marriage Registrar of the district, desires to resign the office of Marriage Registrar under the Act, or is about to leave the district in which he has been authorised to exercise the functions of a Marriage Registrar, it is particularly requested that he will report the circumstance to the Magistrate of the District, and make over to him for safe custody the marriage register books, and all forms and other documents appertaining thereto, unless his (the Marriage Registrar's) successor be duly authorised to register marriages in the same district under the Act, in which case the marriage register books, forms, and documents referred to, should be made over to such successor, and the fact be reported to the Magistrate for information. In Madras the report should be made to the Senior Marriage Registrar for the town of Madras.

At the close of each year the Marriage Registrar of each district will be furnished with two copies of the lists of the various persons authorized to solemnize marriages under the Act and residing in his district. One copy of each list it will be his duty, after inquiry to return with the necessary information filled in, and the other should be retained in the Marriage Registrar's Office. These lists will be in the form shown in Appendix No. 4.

11. The form of the Register to be kept by Marriage Registrars under Section 59 of the Act for the registration of marriages between Native Christians should be the same as in the fourth schedule of the Act. When certificates of such marriages are given they shall also be in the form given in Schedule 4. Part IV. George 14th March, 1874.

Rules for submission of Quarterly Returns of Baptisms and Burials of European Christians.

The Governor in Council having, under the Indian Christian Marriage Act of 1872, pre- scribed Rules for the submission of Returns of Marriages, deems it desirable to issue the following Rules for the submission of Quarterly Returns of Baptisms and Burials of Euro- pean Christians.

1. In addition to the Quarterly Marriage Returns required under the Indian Christian Marriage Act, 1872, the Government require the submis- sion, for statistical and other purposes, of Quarterly Re- turns of Baptisms and Burials of European Christians, i. e., of "all Christians of European birth or descent, or of mixed European and Native descent," in the forms specified in Appendices A to C.

2. The Registrar of the Diocese is not called upon to use the certificate of correctness of the Returns as each Clergyman certifies to their correct- ness at the foot of each Return. The Senior Chaplain of the Church of Scotland is also permitted to write the cer- tificate of correctness on the Returns.

3. The Return relating to baptisms and burials of each quarter should be kept distinct and not contain entries which belong to other quarters.

4. These Returns are to include no entries in respect of Native Christians.

5. Whenever there may have been no baptisms or burials recorded during any quarter, a "Certificate of No Occurrence" (see Appendix E) should be forwarded.

6. As the Government desire to possess a record of all deaths of European and Euro- asian Christians buried by the laity and not only of those buried by the Clergy, all magisterial officers are required to report every burial by laymen within their several juris- dictions to the resident Chaplain, or to the Chaplain or Minister who visits the station at which the burial has taken place, in order that it may be included in the Returns furnished by him to the Registrar of the Ecclesiastical.

7. In cases of burials performed in places not visited by any Chaplain, the report should be made to the nearest Clergyman.

8. A list of all the stations and out-stations in Madras, showing by what Clergymen the out-stations are visited under the orders of the Lord Bishop of Madras, will be found in Appendix F.

9. For the purpose of registering burials not performed by Clergymen of the Church of England, or by laymen according to the forms of the Church of England, the follow- ing Rule will be adopted:—"In every Register Book there should be a separate page or pages, with heading and form distinct from those entries of burials in which at present the Clergyman or layman officiating himself enters and certifies the record of the service which he has performed. In this part of the book the Chaplain shall enter (as a copy) the copy of the certificate transmitted to him by the magisterial officer of the district. In this form there should be added a statement of the place of interment. The Chaplain shall copy these entries and return them with the others in his Quarterly Return certifi- ing the correctness of the copies which he makes."

10. The reports made by magisterial officers to Chaplains should include the names of all European and Eurasian Christians buried by laymen, whether the funeral service be conducted according to the form of the Church of England or not.

Baptisms by laymen.

Returns to be forwarded within one month.

Officers who are required to submit Returns.

- (1.)—The Registrar of the Diocese, who collects them from (a), Chaplains in the service of Government; (b), Senior Chaplain of the Church of Scotland; (c), Clergymen (not being Covenanted Chaplains) ministering under the Bishop's license.
 - (2.)—The Right Reverend the Vicars Apostolic in the Madras Presidency, who collect them from the various Roman Catholic registering officers within the Presidency.
 - (3.)—The Very Reverend the Vicar-General of St. Thomé, who collects them in a similar manner.
 - (4.)—Ministers of religion licensed to solemnize marriages under the Indian Christian Marriage Act, Section 6, and any other Ministers not included in any of the before-mentioned classes, who perform such offices as well as Ministers of the Baptist denomination who will furnish registers of births in lieu of Baptisms.
14. Forms of Returns will be issued gratis on application to the Chief Secretary to Government.

By order,
D. F. CARMICHAEL, Acting Chief Secretary.

Ex-officio.

The above Institution was founded by the Rev. John Anderson, in Black Town, on 2nd April 1837. Its aim is to provide for native youth a liberal Christian education, that shall cultivate, expand and quicken the whole man, the conscience and will as well as the understanding and memory. With this view all the branches of a liberal education are so taught as to show their connection with the great central truths of religion and Christianity. The Bible is regularly taught as the record of God's revelation of Himself for man's salvation.

The instruction is carried on by the Professors, Assistant Professor, and Teachers mentioned above; and the managing body is the College Council. As the College is intended to be the centre of the higher Christian education in Southern India, its constitution is as catholic as possible, and the members of the Council represent the majority of the Protestant Churches in the Presidency. The Church Missionary Society and the Wesleyan Missionary Society contribute each £200 a year to the support of the College, as does the Secretary of the former and the District Chairman of the latter are members of the Council, as well as the Secretary of the Free Church of Scotland Mission. The College educates up to the standard of the Bachelor of Arts degree of the Madras University. It has at present 228 students.

In the school department there are upwards of 500 pupils, of whom 400 are in the upper, and 100 in the lower school.

Visitors are welcome on school days between the hours of 12 and 1 P.M.

SCHOOLS OF THE FREE CHURCH OF SCOTLAND MISSION.

In connection with the Central Institution, there are 7 Boys' Schools:—Tirupattal, Rajampet, (Lower Class Schools), (Middle Class), Wallejabad, Nellore, Conjeeveram, Tirvellore and Chingleput (Higher Class Schools). These are conducted in the same manner as the Central School. At these 7 schools there is an attendance of upwards of 1,000 boys.

Armenian Cemetery.

The present Cemetery was built and given to the Armenian Community by Government in the year 1862.

Previous to the erection of the Church, the Armenian Community performed Divine Service in a temporary place built of timber on the North of Monument Esplanade, opposite Fort St. George, by the late Honorable East India Company, who also paid for the support of the Priest 500/450 annually for 7 years, agreeably to a Treaty entered into by the said Company with the Armenian nation, dated London, the 22nd day of June, A. D. 1688, and in the fourth year of the reign of King James the Second. The present Church was built by the Armenian Community at their own expense in the year 1712, and alterations and additions made to it by them from time to time. In the year 1823, the British Government was pleased to grant the sum of Rupees five thousand (5000) from the late Lottery Funds, for the repairs of the Church, out of which Funds the Community was enabled to erect a substantial and extensive verandah, 148 feet in length by 10 in breadth, on the east side of it. Government was further pleased to grant a donation of Rupees (2000) two thousand from Dr. Woolley's Estate to the Church in the year 1829.

The latter institution is not in a most prosperous condition just now on account of the death of its most illustrious leaders. It most urgently requires the care of a guiding spirit, and the services of a missionary from Calcutta would be invaluable. There is a considerably greater progress and spirit in Bangalore where Babu Amrita Lal has so recently been doing very good work. Of course, the people of Madras are simple-hearted and susceptible, and therefore much less effort would be needed to convince them of the cardinal truths of our religion. But some one should

This Institution was established by the Right Honorable Sir Frederick Adam, M.C., by a General Order of Government, dated 13th February, 1835, for the instruction in "Medicine and Surgery" of Europeans and Natives entering the Medical branch of the public service. The benefits of instruction have been since thrown open to the community at large. The Medical College has been recognised by the Royal College of Surgeons of London, Dublin and Edinburgh, as one of the Colonial Schools of Medicine and Surgery. It is under the control of the Director of Public Instruction.

A building has been appropriated solely to the objects of the Institution, the foundation stone of which was laid in December 1835. It was greatly enlarged and improved in 1867.

There is a separate building for practical Anatomy; there is also a Laboratory where practical Chemistry is taught.

A Museum has been formed, which in addition to morbid specimens, possesses numerous preparations, models, &c., for illustrating the different branches of the course of instruction. There is also a Museum of Botany and Materia Medica.

The Institution is supplied annually with a selection of Works on the several branches of Medical Science, for the purpose of forming a Library of Reference. There is also a Students' Library.

The Academic year extends from 1st October to 30th June inclusive, and is divided into a Winter Session of six, and Summer Session of three months. The annual examinations of the College are held in June.

The pupils in attendance at the College consist of—

1. Free Scholars, Private Students and a Lane Scholar, who form the *Senior or First Department* of the College. The period of study for those qualifying for the M. B. & C. M. degree is five years, and for those qualifying only for the L. M. & S. degree is four years.

The Chemical Laboratory stands close to the educational buildings and is well supplied with the necessary apparatus for practical work in agricultural analysis.

The Veterinary Hospital is situated at some distance from the College. It consists of a yard with sheds for accommodating sick horses and cattle and a Dispensary in which medicines can be prepared.

An Agricultural Library and a Museum are in course of formation, and a Reading-room for the use of students has been provided.

Botanical and Experimental grounds are attached to the College.

In the neighbouring village of Saidapet students can readily obtain board and lodging during their course of teaching; and a limited number of quarters have been provided on the Farm for such students as are willing to rent them.

MANAGEMENT, &c.

The institution is attached to the Educational Department under the control of the Director of Public Instruction. The direct management of the institution is entrusted to the Superintendent of Government Farms, who conducts all correspondence regarding the institution, issues all notices, orders, &c., regarding the delivery of lectures and other matters connected with the routine of the institution; and maintains discipline amongst the students, who are in all things, subject to the orders he issues.

INSTRUCTION, &c.

The course of instruction extends over three years; there are two sessions in each year, a Summer Session and a Winter Session; the Summer Session begins each year on the 1st of April, and ends on the 30th of June; the Winter Session begins on the 1st of October, and ends on the 31st of March. Though, in the Winter Session, class-room and lecture-room instruction does not begin until the 1st of October, students are nevertheless expected to attend at Saidapet on the 1st of September, in order that they may witness and take part in the important field operations conducted at that season in connexion with the sowing of the cold weather-crops.

The instruction given in the institution, embraces a thorough study of agriculture and of such portions of Chemistry, Geology, Botany, and the Veterinary Art as bear on the theory and practice of agriculture. In addition to these special subjects, the following also receive attention:—Physics, Physical Geography, Mechanics, Farm Book-keeping, land-surveying, mensuration, and plan drawing. The instruction is given by means of lectures, class-room discussions, and field classes.

During the portion of the day set apart for practical instruction in farming out of doors, every student is expected to take part in whatever work may be going forward on the farm; non-compliance with this regulation will be enforced. Each student is expected to make himself strictly acquainted with all the operations daily performed on the farm, and is required to keep a journal or diary of the same.

Instruction is conveyed in the English language, but the Masters will afford as much assistance as possible in explaining the lectures and instruction generally to students whose limited acquaintance with English may make it difficult for them to follow such instruction without explanation.

2. Every application for a grant must be accompanied by a declaration that the applicant or applicants are prepared to subject the institution on behalf of which the application is made, together with its current accounts, list of establishment, time-table, scheme of studies, and registers of attendance, to the inspection of a Government Inspector, such inspection and examination relating only to the general management and to the secular instruction, and having no reference to any religious instruction which may be imparted.

14. All grants in aid of the salaries of Masters and Mistresses will be paid monthly. The management is vested in the hands of a Committee of thirteen members. Nine are representatives of the Doveton Trust, and are elected at a yearly meeting of the Members of the Doveton Society. The remaining four are the Trustees of the Protestant College funds and fill up vacancies in their own body.

The various sources of Revenue are (1) Fees, (2) Subscriptions of Members, (3) Government Grant-in-Aid, and (4) Interest on Government Securities held in Trust for Captain Doveton's estate, for building and general purposes and the Protestant College Fund. The progress made by these children is most interesting not only in the more humble class objects of the school, but in those of order, cleanliness, and tidiness.

1879.

Committee. Lady Anne Greenville, *President*; Mrs. Spring-Branson, Mrs. Carmichael, Mrs. Evans, Mrs. Funnell, Miss Gell, Mrs. Gray, Miss Morphet, Mrs. Normandy, Lady Tarnham and Mrs. Symonds; Mrs. Firth, *Honorary Secretary*; W. A. Symonds, Esq., *Honorary Treasurer*.

The design of this Institution is to afford a refuge for such destitute orphan girls of European descent, as are not eligible for either the Military or the Civil Female Orphan Asylum. As such, it is one, the Committee feel, well deserving of public support.

The number of children now in "The Refuge" is 70.

The utmost economy is observed in the management of the Institution, consistent with due regard to the proper feeding and care of the children. The cost of maintaining each child, inclusive of superintendence, food and clothing, is about Rs. 8-8 a month.

The girls of "The Refuge" do neat plain and fancy work. The Secretary will be happy to receive orders.

INDUSTRIAL GIRLS' SCHOOL,

1st September 1880.

LADY TURNER—Lady Patroness.

There being no Asylum in Madras in which destitute girls above 12 years of age can be admitted and boarded, an "Industrial School" has been opened in St. Thomas; in the hope that such an Institution may be the means of protecting girls (who are anxious to do well) from the many temptations to wrong doing, to which those of such an age are especially exposed.

The girls in the "Industrial School" receive an elementary education in Reading, Writing, and Arithmetic, and are taught various and useful branches of needlework, so that in a few years they may be able to attend "Women's Workshops" as neat good workers, and as such, have a chance of earning sufficient to keep themselves in comparative comfort. The number of girls in the "Industrial School" is 20.

The undersigned trusts that this project will meet with the approbation of the public, and that they will kindly give the School that practical and pecuniary support of which it stands so much in need.

The condition of the poorer classes of Europeans and East Indians, residing in Black Town and the neighbouring suburbs, is admitted to be most deplorable. This distress is occasioned by their inability to earn a livelihood. Those who are most seriously affected are the old and the infirm who are physically unable to labor, and the young who have not the necessary skill to compete with others in the labour market. The former perhaps will more legitimately for relief on the Friend-in-Need Society, and arrangements are being made, it is believed, to meet the evil so far as funds will permit. But the young require help of a special nature, they require to be taught how to earn an honest livelihood. The Education given in the several Charitable Institutions of this City, fits them only for Writers and Accountants, a section of the labour market which is already supplied to overflowing, and which will as far as the experience of the past can be depended upon be taken up entirely by the Natives of the country who can work equally well and at lower rates of remuneration. Other portions therefore of the labour market must be tried. To meet this great difficulty, an Industrial School has been established for the poorer classes of Europeans and East Indians in Black Town. The extent of the operations are confined to a few of the principal industrial trades, repairs, varnishing, &c. of

PEOPLE'S PARK.

INSTITUTED IN 1859.

CUSTOMERS—MUNICIPAL COMMISSIONERS FOR THE TOWN OF MADRAS.

Mr. CHARLES JAMES HAY ELLIS, Superintendent.

We owe the People's Park to Sir Charles Trevelyan. It is not at all improbable that the idea of some such place suggested itself to many a man in power before his day. It would be singular indeed if Europeans should, for a hundred years, have seen a large native town growing up on the side of a small village—a vast population massing together with lungs to be fed with fresh air and limbs to be allured to exercise and health—with-out sometimes thinking it possible that the "village greens," "commons," and "parks" of his native land might perhaps be re-produced with advantage within reach of Black Town. The monotony of Indian life, and the lack of sympathy between the classes of Indian society, may be regarded as the causes why such an idea, if suggested, was never carried into execution. While the "upper ten thousand" could have their drive along the Beach and round the Island, it mattered little to them that the "masses" (unfriendly phrase) who could not drive, or were to be assimilated to recreation, had no place convenient for health, exercise and amusement.

But then Sir Charles Trevelyan was a man not given to routine; and somewhat wide in his sympathy. So the idea of the people's park suggesting itself to him and he having the power as well as the will—the people got their Park. Thousands who know nothing of the step that cost him a Governorship, will hold his name in memory by the People's Park.

But when Sir Charles was recalled, the scheme was in a most elementary state. The plan was on paper; but never adopted. Little else was done, and little else would have been done if the inheritors of Sir Charles Trevelyan's dignity had not also inherited his sympathy with the people. We owe it to the various gentlemen who have been entrusted with the execution of the scheme, that the "plan" was not thrown into the official waste paper basket, and the idea, recorded as one of Sir Charles' amiable follies. It is in unison with Sir William Denison's career, previous to his arrival in this country that he should have shown a hearty approval of an undertaking so intimately connected with the health and pleasure of the middle class population.

There can be no doubt that the Park has been a success. Any one may convince himself of that by a visit morning or evening. The place has already fixed its character as a popular resort, and it is certain that it will be so in a much greater degree when the attractions of the ground are fully developed. It is pleasing to see that the native population appreciate the pleasure provided for them; and when the sternness of social life amongst them is relaxed, we may expect to see not only the Ramanavudai, but the Lutchies of Black Town, taking their ease in the fretted shade of well-grown trees.

But we must suspend any further remarks, and lay before our readers a brief description of the Park.

The gate adjacent to the Hospital Bridge is the main entrance. The trees are planted in avenues and groups. Eleven lakes of various dimensions and shades are completed; and various other things have been achieved; but we cannot do better than print the following description (though brief) of the park, kindly furnished by the Superintendent, which will convey a clear idea of the Park.

In the North-west angle of the Park is a Serpentine lake with two large raised islands one at each end. One of these is 30 feet above the water, and is well calculated for a large basin, from which the cascades might hereafter be made to fall over the sides. The second or Victoria lake, with a central island, is situated almost midway between the band-stand and the northern end of the Park and now occupied by the Monkeys. The island is approached by one bridge of ornamental design, measuring 200 x 4 feet. The third is a small lake on the west side, elliptical in shape, and contains good drinking water for cattle. The fourth is a small lake close to the Aviary. The fifth is a similar one. The sixth is a semi-lunar lake near the band-stand. The seventh is a medium lake, between the band-stand and the Superintendent's house. The eighth is an irregularly shaped lake, with a central island and trees of various sorts planted on it. The ninth is a large lake on the west side of the main road. The tenth is a medium lake west of the last-mentioned. The eleventh is a medium lake, with a central island at the south end.

There are two masonry basins, one elliptical, measuring 170 feet x 78 feet, and 4 ft. in depth, formed of solid masonry with brick on-edged foundation and central fountain; the latter, of ornamental design, galvanized. This has recently been surrounded by an iron fence and converted into a public bath, the floor of one-half of it has been raised so as to give a depth of about 4 feet adapted for the use of boys—the other half has a uniform depth of 5 to 6 feet. It is supplied with Red Hills lake-water from the public main road, and good dressing rooms have been built round it for the bathers. The roads of the Park, embracing 5½ miles, are complete.

The Zoological collection in the Park consists of the following specimens:—

1 Lion, 2 L. tigers, 12 large Tigers, 2 Tigeresses, 2 Cheetahs, 1 Cheeta Cub, 3 large Hyenas, 1 Rh. osseus, 1 Elephant, 2 Porcupines, 2 Black Swans, 1 Opossum, 1 Kine, 1 Black Bear, 1 Bat, 1 Spotted Deer, 1 Monkey of different species, Guinea Figs, and a variety of Rabbits.

THE LAL BAGH.

THE MYSCOE GOVERNMENT GARDEN, commonly known as the Lal Bagh, (from the Hindustani, signifying red or ruby and garden) is under the direction of a Superintendent who is responsible to H. H. the Maharajah. The present Superintendent is Mr. J. Cameron. The garden is situated about two miles south-east of the centre of the Cantonment, and covers

an area of about 50 acres of ground, which slopes gently from the southern boundary, where there is a tank communicating with water channels which are led through most of the garden. The greater portion of the ground is very tastefully laid out in ornamental lawns and terraced flower gardens with green houses, aviary, and cages for Lions, Tigers and Cheetahs, &c. The Menagerie has now been enclosed and enlarged; a Picnic House built; the large Terrace completed, and upon which it is contemplated to build an Exhibition house. The Deer Park is situated at the East end of the gardens and greatly adds to the curiosities of the garden. Fruits and Vegetables are cultivated and acclimatized to a greater extent than hitherto. The garden is open from 6 A. M. till dusk. Carriages and horses are expected to enter by the left-hand entrance gate, and return by the one on the right, keeping to the main drive which crosses the garden. Furious driving is strictly prohibited. Visitors are not permitted to pick flowers or fruits; and are expected not to bring dogs to the garden, as they do much injury to the plants and seed beds. Plants and seeds may be purchased at the garden. A detailed catalogue of the stock on sale, showing the prices, can be obtained from the Superintendent on application.

A large ornamental Fernery has been built adjoining the rockery in which the collection of Ferns will be arranged progressively.

The plants in the gardens are being permanently named for the information of visitors; and an economic garden in which the official and medicinal plants will be brought together and grouped according to their natural orders is being formed near the Menagerie.

The number of visitors that entered the garden gate during the official year 1878-79, were Pedestrians 260,898, Equestrians 3,835, Carriages 5,926.

HOBBY SHOWS.—Since the Mysore Agri-Horticultural Society has been dissolved, the half-yearly shows which are held in the gardens in the months of July and January, are conducted and managed, by the Director of Government gardens, (Colonel W. H. Johnson) and the Superintendent, assisted by a temporary Committee of Jurors.

A horticultural class will be opened shortly, for the instruction of Botany, Vegetable Physiology, and Practical gardening.

The Institution now belongs to H. H. the Maharajah of Mysore, but under his government the direction and management is exactly the same as heretofore.

The Menagerie and Aviary will be fully stocked with a better collection of Animals and Birds.

The register of visitors has not been kept for last year.

The Hill Fort of Golconda was anciently the seat of the Government, and in the Fort as well as near it are the far-famed Tombs of Golconda, a series of splendid mausoleums built in oriental style over the departed Sovereigns and Princes of the Hyderabad dynasty. OOTACAMUND NILGIRI LIBRARY.

ESTABLISHED 1859.

Registered under the Government of India Act XXI of 1860.

COMMITTEE OF MANAGEMENT.—The Hon'ble D. P. Carmichael, President; Colonel W. J. Wilson, Vice President and Government Nominee; Alex. Allan, Esq., E. S. Benson, Esq., Col. C. D. Clementson, Walter Gule, Esq., Col. E. L. Hankin, Major-General H. R. Morgan, N. A. Roupell, Esq., Dr. J. Smith, Major E. Wood; W. E. Schmidt, Esq., Honorary Treasurer; T. G. Shaw, Esq., Honorary Secretary; Mr. J. C. Martin, Librarian; P. J. Manooch Nadoo, Assistant Librarian.

REGISTRATION.

The Nilgiri Library has been duly Registered under the Government of India Act XXI of 1860, and a certificate to that effect has been obtained from the Registrar of Madras.

LIBRARY.

The Library is well provided with Standard Works in every department of literature and science.

The most useful and popular books of the day in every subject are procured upon publication.

The books in the Library are in good order, are much circulated, and are increasing in number. At the end of last March the books numbered 9,324 volumes, 347 volumes were added during the last year.

There are two very complete Cabinets of Mineral and Geological Specimens in the Secretary's Room which can be shown on application to the Librarian.

READING ROOM.

Twenty-three Newspapers and 35 Magazines and Periodicals, or 46 in all, both European and Indian, are now taken in by the Institution.

RULES FOR ADMISSION.

Members are those who pay a Donation, an Annual Subscription wherever resident, and a Local Monthly Subscription from the list of each month during residence within local limits. There are now 111 Members on the books of the Institution.

To provide for the convenience of persons making a short stay on the Hills, monthly admission tickets dating from day of issue can be purchased, and renewed by the ticket-holders from month to month, but only for 6 months out of any one year. Ticket-holders pay no Entrance Donation, nor Annual Subscription, and are not Members. Admission tickets are in great demand by persons who are not Members.

The affairs of the Institution are managed by a Committee composed of a President and twelve Members, one of whom the Government of Madras appoints.

An Annual General Meeting of the Members of the Institution is held in the first week of July of each year, or at such other convenient time as to the President, in concert with the Committee, or to any Special General Meeting shall seem expedient for the election by Members' ballot of the President and eleven Committee-men for the ensuing year. Not less than thirty Members can at any time call a General Meeting of Members by giving fourteen days' notice.

All Members pay an Entrance Donation of Rs. 10, an Annual Subscription of Rs. 12, and a Local monthly Subscription of Rs. 25. Admission tickets are priced 24 and Rs. 6 for a single monthly ticket respectively; persons who have paid a donation under the old rules to pay Rs. 24, all others Rs. 6.

OOTACAMUND LAWRENCE ASYLUMS.

FOUNDED BY SIR FRANCIS LAWRENCE, 1858.

PATRON.—His Excellency the Commander-in-Chief and The Right Reverend the Lord Bishop of Madras. COMMISSIONERS OF MANAGEMENT.—General R. J. Baker, Capt. E. Begbie, Major E. Jago, W. Lovedale, Esq., Major Martin, N. A. Roupell, Esq., W. E. Schmidt, Esq., Major Lindsay, Colonel W. J. Wilson, Reverend O. Duns, B.A., Principal and Secretary: Surgeon Major J. Smith, in Medical charge; Asst. Apothecary F. Greene, Resident Apothecary; Mr. T. Burrows, Manager.

MALE BRANCH.—Mr. G. W. Armstrong, Head Master; Mr. J. Clowson, Second Master; Mr. Wynne, Third Master; Mr. A. Campbell, Fourth Master; Mr. Hogg, Fifth Master; Mrs. Lee, Matron.

FEMALE BRANCH.—Lady Masters.—Mrs. Carmichael, Mrs. Campbell, Mrs. Duns, Miss Leggett, Mrs. Roupell.—Miss Carroll, Head Mistress, Miss Lee, Second Mistress, Mrs. Campbell, Matron.

The objects contemplated in the Establishment of this Institution are two-fold—first, to do honor to the memory of a great and good man, the late Sir Henry M. Lawrence, K.C.B.; second, "to benefit the children of the European Soldier, by providing for them a refuge, both from the debilitating effects of a tropical climate and the demoralizing influence of a Barrack life."

The amalgamation of the Madras Military Male Orphan Asylum with the Ootacamund Lawrence Asylum was effected in September 1874, on the completion of the new Buildings at Lovedale.

The number at present on the rolls are, boys 330 and girls 60. The salubrity of the situation (which surpasses that of some of the healthiest public schools in England), is shown by the diminished percentage of sick in Hospital, and the robust appearance and healthy appetite of the children.

Although the Institution may be said to have been adopted by the State, it is not perhaps so generally known that Government has never contemplated doing more than furnishing it with a liberal Grant-in-aid. Contributions are earnestly requested that the benefit of the Asylum may be more widely extended to a class which has one of the strongest claims on British Subjects in India. Four years' annual subscription of Rupees 50, or a donation of Rupees 300, gives a title to nominate a child.

The boys receive such a training as will fit them for usefulness hereafter in various lines of life, whilst the girls are employed in such occupations as will tend to qualify them to become useful wives and mothers, should they be spared. The clothing and most of the in-door work in both branches are done by the children, and native servants are dispensed with as much as possible.

The Shevaroy Hills.

Are situated in the Salem Collectorate between $78^{\circ}20'$ East longitude and $110^{\circ}30'$ North latitude, and is reported to comprise 100 square miles. The highest point is about 5,000 feet above the level of the sea. Ercaud is the chief European settlement containing a Protestant Church, Roman Catholic Chapel, Post Office, Library and Reading Room, Hotel, Civil Dispensary, Traveller's Bungalow, Chatrum for native Travellers, Catcherry, Police lines, &c. There is a resident Deputy Tahsildar. It is 14 miles distant from Salem, and 12 miles from the Shevaroy Hill Station. It has two ghats or approaches; one on the southern side communicating with the Town of Salem, and the Salem Railway station, and the other leading to the Shevaroy Hill Station. These ghats are not practicable for wheeled carriages, supplies being brought up by coolies or pack bullocks. A market or bazaar is held twice a week on Sundays and Wednesdays, whence supplies can be purchased. Bread, poultry, mutton, and beef are brought for sale to the door. There is a small European shop where English Provisions, Wines, Spirits, Beer, &c., is procurable.

In addition to the Civil Dispensary under the care of a Civil Apothecary, a Retired Medical Officer conducts private practice.

Whilst Ercaud is the chief and only Post Station, it forms the centre from whence radiate within a circumference of 10 miles, the various Coffee plantations.

Coffee is the chief product whilst most of the English fruits and vegetables, and all the English flowers are successfully raised. Tea and cinchona are grown in experimental patches on some estates. The various gum trees (*Eucalyptus*) and firs are also met with. Many beautiful views of the low country are to be seen from most of the houses. Green Hills or the Shevaroyan forms the highest point. There are many villages scattered about various parts of the Hills in small groups consisting of from 20 to 100 conical-shaped huts inhabited by a tribe of natives called Malayallies. Labour is cheap and abundant, independent of the Malayallies coolies from Salem come and work on the estates, men at one Rupee a week, women at 10 annas, and children from 6 to 8 annas a week. These Hills get the benefits of both the S. W. and N. E. monsoons. There is a decent carriage road in and about Ercaud; and good bridle paths leading to the various plantations and to most of the villages. The house accommodation for Europeans is yearly on the increase and large number of visitors resort thither to enjoy its quiet, lovely scenery, the beautiful climate. The season lasts from April to October; but at all times of the year, a few visitors or health-seekers are to be met with. The permanent residents are chiefly planters. The climate is healthy; but from imprudence and careless exposure and fatigue, visitors are liable to take fever, as well as natives and servants from the plains who from exposure to rain, and neglecting to change their clothes, they suffer much from fever, and from recklessly eating unripe fruit they get dysentery. Ercaud is about 220 miles distance from Madras by rail and may be reached within 12 hours when proper arrangements are made for ascending the Ghat. It is about the same distance from Bangalore, 97 miles from Coimbatore and 125 from Trichinopoly.

Most of the waste lands on these Hills now not private property is covered with forest trees, and applications for such blocks as a rule, are not granted. The only land now available is in the Salem Nad of the Shevaroy Hills which it is possible to secure under the waste land rules.

The Pulney Mountains.

Are situated in the Madura District of Southern India, between 10° and $10^{\circ}16'$ North latitude, and $77^{\circ}55'$ East longitude and connected to the Western Ghats by an isthmus or ridge of hills about 8 miles in width, being otherwise isolated. Bounded on the North by Coimbatore and Trichinopoly districts whilst those of Madura and Tanjore lie to the East. *Kodaikanal* being the name of the plateau, in and about which the Europeans reside. It is 7,000 feet above the sea level, the annual rainfall is about 65 inches. The thermometer ranges from 60° to 70° Fahrenheit. There are only three permanent residents, twenty houses, and eighteen sites selected for building purposes.

The native village consists of over 100 houses belonging chiefly to emigrants from the plains, and they comprise servants of the European residents, visitors, and others. The South India Railway now runs to within 40 miles of these Hills.

The Railway Station is *Annamakur* from whence transits are procurable to Periaculum where there is a travellers' bungalow, 4 miles from the foot of the hills and 16 miles from Kodkanal.

The Public Buildings are the American Mission Chapel and School house, a Roman Catholic Chapel, a Government Post Office, and a Local Fund Dispensary. The usual season

for visiting these Hills is from March to October. The American Missionaries and the officials of the Madras district are the chief visitors, whilst a few from the other districts resort to these Hills. All months of the year supplies have to be procured from the large cashew station of Periakulam at the foot of the Hills, and European supplies chiefly from the cities and seaports.

There are no coffee plantations on the upper Palays. They exist in the lower Palays which is mountainous, the head quarters of coffee is Perior, the distance between Perior and Kodai Kanal is a ride of 11 hours. There are numerous small coffee estates on the Siva main Hills, Dandugal Taluk, and also in the Periakulam Taluk of the Madras District ranging from 6 to 40 acres each, chiefly held by ryots. Chincana plantations have been commenced at Kodai Kanal and Shamsugur and Tea and Chincana at Kodai Kanal and Neutral Saddle.

The new bandy ghaut is nearly completed and ready for Traffic as far as Neutral Saddle where a new settlement has been commenced in a delightful spot with a softer and balzier air than Kodai Kanal centre from which it is six miles distant and 1,800 feet lower. Excepting the Engineer's Bungalow, Lone Cottage, a picturesque little place is the only European Residence.

The Kodai Kanal Hills are reached by train to Ammanikanoor Station, S. I. R., from thence by transit (to be ordered a short time before wanted by letter to T. M. Nannasvayan Esq., "Transit Agent," Ammanikanoor, Madras District) to the foot of the ghaut at Kristappa Nair's Top, and from thence up the hills by chairs and bearers, (in number from 8 to 16 according to the weight to be carried,) or by two ponies at the rate of two to each person to be carried. The transit agent will arrange this if asked.

Supplies of food, bread, &c., may be obtained through mailtrains who come from Periakulam once a week to receive orders for a week's supply. The transit agent should be asked to arrange for the first week's supply beforehand and for a supply of firewood.

Stores and baggage may be sent from Ammanikanoor by the transit agent, at reasonable rates, and are carried up the hills at a charge of 8 annas for 50 lbs. The wage of each bearer carrying a chair or dhooly is 10 annas, and the hire for ponies is 8 annas to Vengalpur, one Rupee to the 6th mile stone, Rs. 1-8 to Shenbaganur, and two Rupees to Kodai Kanal, or Neutral Saddle.

There is a very good travellers bungalow at Ammanikanoor, with a mury and cook; breakfast and dinner can be got from them, but notice should be given to them beforehand. The best time to start for the hills from this bungalow is 8 or 9 at night after dinner so as to reach the foot in the very early morning and begin the ascent. Torches should be ordered when there is no moonlight.

There is a good public bungalow at Periakulam, 4 miles from the foot of the Ghaut, where it is usual to stop to wash and change clothing, the transit agent will here also obtain supplies (bread, eggs, &c.) in the village for travellers needing them.

Dhoolies and Chairs may be obtained at the Mission Bungalow by applying to the Native Agent there at reasonable charge.

In any case in which it appears necessary for preserving the property of a deceased person, the Court within whose jurisdiction the property is situate may grant, to any person whom such Court thinks fit, letters of administration limited to the collection and preservation of the property of the deceased, due to his estate, subject to the directions of the Court.

41. When a person has died intestate, or leaving a will of which there is no executor willing and competent to act, or where the executor is, at the time of the death of such person, resident out of the Province, and it appears to the Court that it is necessary and convenient to appoint some person to administer the estate or any part thereof other than the person who under ordinary circumstances would be entitled to a grant of administration, the Judge may, in his discretion, having regard to expediency, appoint such person as he thinks fit to be administrator; and in every such case letters of administration may be limited or not as the Judge thinks fit.

(d)—Grants of Effects undistributed.
45. If the executor to whom probate has been granted has died leaving a part of the testator's estate undistributed, a new representative may be appointed for the purpose of administering such part of the estate.

46. In granting letters of administration of an estate not fully administered, the Court shall be guided by the same rules as apply to original grants, and shall grant letters of administration to those persons only to whom original grants might have been made.

47. When a limited grant has expired by effluxion of time, or the happening of the event or contingency on which it was limited, and there is still some part of the deceased's estate undistributed, letters of administration shall be granted to those persons to whom original grants might have been made.

CHAPTER IV.

48. Errors in names and descriptions, or in setting forth the time and place of the deceased's death, or the purpose in a limited grant, may be rectified by the Court, and the grant of probate or letters of administration may be altered and amended accordingly.

49. If, after the grant of letters of administration with the will annexed, a codicil be discovered, it may be added to the grant on due proof and identification, and the grant altered and amended accordingly.

50. The grant of probate or letters of administration may be revoked or annulled for just cause.

"Just cause."

Explanation.—Just cause is—

- 1st, that the proceedings to obtain the grant were defective in substance;
- 2nd, that the grant was obtained fraudulently by making a false suggestion, or by concealing from the Court something material to the case;
- 3rd, that the grant was obtained by means of an untrue allegation of a fact essential in point of law to justify the grant, though such allegation was made in ignorance or inadvertency;

- (e) A has taken administration to the estate of B as if he had died intestate, but a will has since been discovered.
- (f) Since probate was granted, a later will has been discovered.
- (g) Since probate was granted, a codicil has been discovered, which revokes or adds to the appointment of executors under the will.
- (h) The person to whom probate was, or letters of administration were, granted has subsequently become of unsound mind.

A has bequeathed to B a diamond ring, valued at 500 rupees, and to C a horse, valued at 1,000 rupees. It is found necessary to sell all the effects of the testator, and his assets, after payment of debts, are only 1,000 rupees. Of this sum Rupees 533-5-4 are to be paid to B, and Rupees 466-10-8 to C.

111. For the purpose of abatement, a legacy for life, a sum appropriated by the will to produce an annuity, and the value of an annuity when no sum has been appropriated to produce it, shall be treated as general legacies.

CHAPTER VIII.

OF THE EXECUTOR'S ASSENT TO A LEGACY.

Assent necessary to complete legatee's title. 112. The assent of the executor is necessary to complete a legatee's title to his legacy.

Illustrations.

(a) A by his will bequeaths to B his Government paper, which is in deposit with the Bank of Bengal. The Bank has no authority to deliver the securities, nor B a right to take possession of them, without the assent of the executor.

(b) A by his will has bequeathed to C his house in Calcutta in the tenancy of B. C is not entitled to receive the rents without the assent of the executor.

113. The assent of the executor to a specific bequest shall be sufficient to divest his interest as executor therein, and to transfer the subject of the bequest to the legatee, unless the nature or the circumstances of the property require that it shall be transferred in a particular way.

Effect of executor's assent to specific legacy. This assent may be verbal, and it may be either express or implied from the conduct of the executor.

Nature of assent.

Illustrations.

(a) A horse is bequeathed. The executor requests the legatee to dispose of it, or a third party proposes to purchase the horse from the executor, and he directs him to apply to the legatee. Assent to the legacy is implied.

(b) The interest of a fund is directed by the will to be applied for the maintenance of the legatee during his minority. The executor commences so to apply it. This is an assent to the whole of the bequest.

(c) A bequest is made of a fund to A, and after him to B. The executor pays the interest of the fund to A. This is an implied assent to the bequest to B.

(d) Executors die after paying all the debts of the testator, but before satisfaction of specific legacies. Assent to the legacies may be presumed.

(e) A person to whom specific article has been bequeathed takes possession of it and retains it without any objection on the part of the executor. His assent may be presumed.

Conditional assent.

114. The assent of an executor to a legacy may be conditional, and if the condition be one which he has a right to enforce, and it is not performed, there is no assent.

Illustrations.

(a) A bequeaths to B his lands of Suddapur, which at the date of the will, and at the death of A, were subject to a mortgage for 10,000 rupees. The executor assents to the bequest on condition that B shall within a limited time pay the amount due on the mortgage at the testator's death. The amount is not paid. There is no assent.

(b) The executor assents to a bequest on condition that the legatee shall pay him a sum of money. The payment is not made. The assent is nevertheless valid.

115. When the executor is a legatee, his assent to his own legacy is necessary to complete his title to it, in the same way as it is required when the bequest is to another person and his assent may in like manner be express or implied.

Assent shall be implied if, in his manner of administering the property he does any act which is referable to his character of legatee and is not referable to his character of executor.

Implied assent.

Illustration.

An executor takes the rent of a house or the interest of Government securities bequeathed to him, and applies it to his own use. This is assent.

Effect of executor's assent. 116. The assent of the executor to a legacy gives effect to it from the death of the testator.

Illustrations.

(a) A legatee sells his legacy before it is assented to by the executor. The executor's subsequent assent operates for the benefit of the purchaser, and completes his title to the legacy.

(b) A bequeaths 1,000 rupees to B with interest from his death. The executor does not assent to this legacy until the expiration of a year from A's death. B is entitled to interest from the death of A.

Executor when to deliver legacies. 117. An executor is not bound to pay or deliver any legacy until the expiration of one year from the testator's death.

Illustration.

A by his will directs his legacies to be paid within six months after his death. The executor is not bound to pay them before the expiration of a year.

CHAPTER IX.

OF THE PAYMENT AND APPOINTMENT OF ANNUITIES.

118. Where an annuity is given by the will, and no time is fixed for its commencement, it shall commence from the testator's death, and the first payment shall be made at the expiration of a year next after that event.

119. Where there is a direction that the annuity shall be paid quarterly or monthly, the first payment shall be due at the end of the first quarter or first month, as the case may be, after the testator's death, and shall, if the executor think fit, be paid when due; but the executor shall not be bound to pay it till the end of the year.

120. Where there is a direction that the first payment of an annuity shall be made within one month or any other division of time from the death of the testator, or on a day certain, the successive payments are to be made on the anniversary of the earliest day on which the will authorizes the first payment to be made.

Investment of sum bequeathed where legacy, not specific, given for life. 122. Where a general legacy is given to be paid at a future time, the executor shall invest a sum sufficient to meet it in securities of the kind mentioned in the last preceding section.

Investment of general legacy to be paid at future time. The intermediate interest shall form part of the residue of the testator's estate.

Intermediate interest. Procedure when no fund charged with, or appropriated to, annuity. 123. Where an annuity is given and no fund is charged with its payment or appropriated by the will to answer it, a Government annuity of the specified amount shall be purchased, or,

If no such annuity can be obtained, then a sum sufficient to produce the annuity shall be invested for that purpose in such securities as the High Court may, by any general rule to be made from time to time, authorize or direct.

124. Where a bequest is contingent, the executor is not bound to invest the amount of the legacy, but may transfer the whole residue of the estate to the residuary legatee (if any) on his giving sufficient security for the payment of the legacy if it shall become due.

Transfer to residuary legatee or contingent bequest.

Investment of residue bequeathed for life, will directed to invest in specified securities.

Time and manner of conversion and investment.

and, until such conversion

Interest payable until investment.

and such money, when paid in, shall be invested in the purchase of Government securities, which, with the interest thereon, shall be transferred or paid to the person entitled thereto, or otherwise applied for his benefit, as the Judge or the Court of Wards, as the case may be, may direct.

185. Where the testator has bequeathed the residue of his estate to a person for life with a direction that it shall be invested in certain specified securities, so much of the estate as is not at the time of his death invested in securities of the specified kind shall be converted into money and invested in such securities.

126. Such conversion and investment as are contemplated by the last preceding section shall be made at such times and in such manner as the executor in his discretion thinks fit.

and investment shall be completed, the person who would be for the time being entitled to the income of the fund when so invested shall receive interest at the rate of six per cent. per annum upon the market-value (to be computed as of the date of the testator's death) of such part of the fund as shall not yet have been so invested.

127. Where, by the terms of a bequest, the legatee is entitled to the immediate payment or possession of the money or thing bequeathed, but is a minor, and there is no direction in the will to pay it to any person on his behalf, the executor or administrator shall pay or deliver the same into the Court of the District Judge by whom, or by whose District Delegate, the probate was, or letters of administration with the will annexed were granted, to the account of the legatee, unless the legatee be a ward of the Court of Wards; and, if the legatee be a ward of the Court of Wards, the legacy shall be paid into that Court to his account.

CHAPTER XII.

OF THE PRODUCE AND INTEREST OF LEGACIES.

Legatee's title to produce 128. The legatee of a specific legacy is entitled to the clear produce thereof, if any, from the testator's death.

Exception.—A specific bequest, contingent in its terms, does not comprise the produce of the legacy between the death of the testator and the vesting of the legacy.

The clear produce of it forms part of the residue of the testator's estate.

Illustrations.

(a) A bequeaths his flock of sheep to B. Between the death of A and delivery by his executor the sheep are shorn, or some of the ewes produce lambs. The wool and lambs are the property of B.

(b) A bequeaths his Government securities to B, but postpones the delivery of them till the death of C. The interest which falls due between the death of A and the death of C belongs to B, and must, unless he is a minor, be paid to him as it is received.

(c) The testator bequeaths all his four per cent. Government promissory notes to A, when he shall complete the age of 18. A, if he complete that age, is entitled to receive the notes, but the interest which accrues in respect of them between the testator's death and A's completing 18 forms part of the residue.

Residuary legatee's title to produce of residuary fund. 129. The legatee under a general residuary bequest is entitled to the produce of the residuary fund from the testator's death.

Exception.—A general residuary bequest contingent in its terms does not comprise the income which may accrue upon the fund bequeathed between the death of the testator and the vesting of the legacy.

Such income goes as undisposed of.

Illustrations.

(a) The testator bequeaths the residue of his property to A, a minor, to be paid to him when he shall complete the age of 18. The income from the testator's death belongs to A.

(b) The testator bequeaths the residue of his property to A when he shall complete the age of 18. A, if he complete that age, is entitled to receive the residue. The income which has accrued in respect of it since the testator's death goes as undisposed of.

Interest when no time fixed 130. Where no time has been fixed for the payment of a general legacy, interest begins to run from the expiration of one year from the testator's death.

Exceptions.—(1) Where the legacy is bequeathed in satisfaction of a debt, interest runs from the death of the testator.

(2) Where the testator was a parent or a more remote ancestor of the legatee, or has put himself in the place of a parent of the legatee, the legacy shall bear interest from the death of the testator.

(3) Where a sum is bequeathed to a minor with a direction to pay for his maintenance out of it, interest is payable from the death of the testator.

Interest when time fixed. 131. Where a time has been fixed for the payment of a general legacy, interest begins to run from the time so fixed. The interest up to such time forms part of the residue of the testator's estate.

Exception.—Where the testator was a parent or a more remote ancestor of the legatee, or has put himself in the place of a parent of the legatee, and the legatee is a minor, the legacy shall bear interest from the death of the testator, unless a specific sum is given by the will for maintenance, or unless the will contains a direction to the contrary.

Rate of interest. 132. The rate of interest shall be six per cent. per annum.

No interest on arrears of annuity within first year after testator's death. 133. No interest is payable on the arrears of an annuity within the first year from the death of the testator, although a period earlier than the expiration of that year may have been fixed by the will for making the first payment of the annuity.

Interest on sum to be invested to produce annuity. 134. Where a sum of money is directed to be invested to produce an annuity, interest is payable on it from the death of the testator.

CHAPTER XII.

OF THE REFUNDING OF LEGACIES.

Refund of legacy paid under Judge's orders. 135. An executor who has paid a legacy under the order of a Judge is entitled to call upon the legatee to refund in the event of the assets proving insufficient to pay all the legacies.

No refund if paid voluntarily. 136. When an executor has voluntarily paid a legacy, he cannot call upon a legatee to refund in the event of the assets proving insufficient to pay all the legacies.

137. When the time prescribed by the will for the performance of a condition has elapsed, without the condition having been performed, and the executor has thereupon, without fraud, distributed the assets; in such case, if further time has, under the second clause of this section, been allowed for the performance of the condition, and the condition has been performed accordingly, the legacy cannot be claimed from the executor, but those to whom he has paid it are liable to refund the amount.

Refund when legacy becomes due on performance of condition within further time allowed.

Where the will requires an act to be performed by the legatee within a specified time, either as a condition to be fulfilled before the legacy is enjoyed, or as a condition upon the non-fulfilment of which the subject-matter of the bequest is to go over to another person, or the bequest is to cease to have effect, the act must be performed within the time specified, unless the performance of it be prevented by fraud, in which case such further time shall be allowed as is requisite to make up for the delay caused by such fraud.

When each legatee compellable to refund in proportion. 138. When the executor has paid away the assets in legacies, and he is afterwards obliged to discharge a debt of which he had no previous notice, he is entitled to call upon each legatee to refund in proportion.

139. Where an executor or administrator has given such notices as the High Court may, by any general rule to be made from time to time, prescribe, for creditors and others to send in to him their claims against the estate of the deceased, he shall, at the expiration of the time therein named for sending in claims, be at liberty to distribute the assets, or any part thereof, in discharge of such lawful claims as he knows of, and shall not be liable for the assets so distributed to any person of whose claim he has not had notice at the time of such distribution.

Creditor may follow assets, but nothing herein contained shall prejudice the right of any creditor or claimant to follow the assets, or any part thereof, in the hands of the persons who may have received the same respectively.

140. A creditor who has not received payment of his debt may call upon a legatee who has received payment of his legacy to refund, whether the assets of the testator's estate were or were not sufficient at the time of his death to pay both debts and legacies, and whether the payment of the legacy by the executor was voluntary or not.

Creditor may call upon legatee to refund.

141. A creditor who has not received payment of his debt may call upon a legatee who has received payment of his legacy to refund, whether the assets of the testator's estate were or were not sufficient at the time of his death to pay both debts and legacies, and whether the payment of the legacy by the executor was voluntary or not.

141. If the assets were sufficient to satisfy all the legacies at the time of the testator's death, a legatee who has not received payment of his legacy, or who has been compelled to refund under the last preceding section, cannot oblige one who has received payment in full to refund, whether the legacy were paid to him with or without suit, although the assets have subsequently become deficient by the wasting of the executor.

142. If the assets were not sufficient to satisfy all the legacies at the time of the testator's death, a legatee who has not received payment of his legacy must, before he can call on a satisfied legatee to refund, first proceed against the executor if he is solvent; but, if the executor is insolvent or not liable to pay, the unsatisfied legatee can oblige each satisfied legatee to refund in proportion.

143. The refunding of one legatee to another shall not exceed the sum by which the satisfied legatee ought to have been reduced if the estate had been properly administered.

Illustration.

A has bequeathed 250 rupees to B, 450 rupees to C, and 720 rupees to D. The assets are only 1,200 rupees, and if properly administered would give 250 rupees to B, 400 rupees to C, and 550 rupees to D. C and D have been paid their legacies in full, leaving nothing to B. B can oblige C to refund 80 rupees, and D to refund 120 rupees.

Refunding to be without interest.

Residue after usual payments to be paid to residuary legatee.

144. The refunding shall in all cases be without interest.

145. The surplus or residue of the deceased's property, after payment of debts and legacies, shall be paid to the residuary legatee when any has been appointed by the will.

CHAPTER XIII.

OF THE LIABILITY OF AN EXECUTOR OR ADMINISTRATOR FOR DEVALUATION.

146. When an executor or administrator misapplies the estate of the deceased, or subjects it to loss or damage, he is liable to make good the loss or damage so occasioned.

Illustrations.

(a) The executor pays out of the estate an unfounded claim. He is liable to make good the loss caused by the payment.

(b) The deceased had a valuable lease renewable by notice, which the executor neglects to give at the proper time. The executor is liable to make good the loss caused by the neglect.

(c) The deceased had a lease of less value than the rent payable for it, but terminable on notice at a particular time. The executor neglects to give the notice. He is liable to make good the loss.

For neglect to get in a part of property.

147. When an executor or administrator occasions a loss to the estate by neglecting to get in any part of the property of the deceased, he is liable to make good the amount.

Illustrations.

(a) The executor abscondingly releases a debt due to the deceased from a solvent person, or compounds with a debtor who is able to pay in full. The executor is liable to make good the amount so lost.

(b) The executor neglects to sue for a debt till the debtor is able to plead the Act for the limitation of suits, and the debt is thereby lost to the estate. The executor is liable to make good the amount of the debt.

THE SCHEDULE.

Specification explanatory of the Test Apparatus.

The following is a description of the details of the apparatus:—

The oil-cup consists of a cylindrical vessel 2" diameter, 2½" height (internal), with outward projecting rim ½" wide, 1" from the top and 1½" from the bottom of the cup. It is made of gun-metal or brass (17 D. W. G.), threaded inside. A bracket, consisting of a short stout piece of wire, bent upwards and terminating in a point, is fixed to the inside of the cup to serve as a gauge. The distance of the point from the bottom of the cup is 1½". The cup is provided with a close-fitting overlapping cover made of brass (22 D. W. G.), which carries the thermometer and test lamp. The latter is suspended from two supports from the side by means of transverse, upon which it may be made to oscillate; it is provided with a stout mouth of which is ½" in diameter. The socket which is to hold the thermometer is fixed at such an angle, and its length is so adjusted that the bulb of the thermometer, when inserted to its full depth, shall be 1½" below the centre of the lid. The cover is provided with three square holes, one in the centre, ½" by ½", and two smaller ones, ½" by ½", close to the sides and opposite each other. These three holes may be closed and uncovered by means of a slide moving in grooves, and having perforations corresponding to those on the lid.

In moving the slide so as to uncover the holes, the oscillating lamp is caught by a pin fixed in the slide, and tilted in such a way as to bring the end of the spout just below the surface of the lid. Upon the slide being pushed back so as to cover the holes, the lamp returns to its original position.

Upon the cover, in front of, and in line with, the mouth of the lamp, is fixed a white band, the dimensions of which represent the size of the test flame to be used.

The bath or heated vessel consists of two flat-bottomed copper cylinders (24 B. W. G.), an inner one of 3" diameter and 2½" height, and an outer one of 3½" diameter and 5½" height; they are soldered as a spherical copper plate (20 B. W. G.) perforated in the centre, which forms the top of the bath, in such a manner as to enclose the space between the two cylinders, but leaving access to the inner cylinder. The top of the bath projects both outwards and inwards about ½", that is, its diameter is about ½" greater than that of the body of the bath, while the diameter of the circular opening in the centre is about the same amount less than that of the inner copper cylinder. To the inner projection of the top is fastened, by six small screws, a flat ring of ebonite, the screws being sunk below the surface of the ebonite to avoid metallic contact between the bath and the oil-cup. The exact distance between the sides and bottom of the bath of the oil-lamp is 1½". A spirit socket similar to that on the cover of the oil-cup, but set at a right angle, allows a thermometer to be inserted into the space between the two cylinders. The bath is further provided with a funnel, an overflow pipe, and two loop handles.

The bath rests upon a cast-iron tripod stand, to the ring of which is attached a copper cylinder or jacket (24 B. W. G.), flanged at the top, and of such dimensions that the bath, while firmly resting on the iron ring, just touches with its projecting top the inward turned flange. The diameter of this outer jacket is 6½". One of the three legs of the stand serves as a support for the spirit-lamp, attached to it by means of a small swing bracket. The distance of the wick-holder from the bottom of the bath is 1".

Two thermometers are provided with the apparatus, the one for ascertaining the temperature of the bath, the other for determining the flashing-point. The thermometer for ascertaining the temperature of the water has a long bulb and a space at the top. Its range is from about 90° to 190° Fahrenheit. The scale (in degrees of Fahrenheit) is marked on an ivory back fastened to the tube in the usual way; it is fitted with a metal collar fitting the socket, and the part of the tube below the scale should have a length of about 3½" measured from the lower end of the scale to the end of the bath. The thermometer for ascertaining the temperature of the oil is fitted with a collar and ivory scale in a similar manner to the one described. It has a round bulb, a space at the top, and ranges from about 50° F. to 150° F.; it measures from end of ivory back to bulb 2½".

NOTE.—A model apparatus is deposited at the office of the Chemical Examiner to Government at Calcutta.

Directions for applying the Test.

1. The test-apparatus is to be placed for use in a position where it is not exposed to currents of air or draughts.

2. The heating vessel or water-bath is filled by pouring water into the funnel until it begins to flow out at the spout of the vessel. The temperature of the water at the commencement of the test is to be 130° Fahrenheit, and this is attained in the first instance either by mixing hot and cold water in the bath, or in a vessel from which the bath is filled, until the thermometer which is provided for testing the temperature of the water gives the proper indication; or by heating the water with the spirit-lamp (which is attached to the stand of the apparatus) until the required temperature is indicated.

If the water has been heated too highly, it is easily reduced to 130° by pouring in cold water little by little (to replace a portion of warm water) until the thermometer gives the proper reading.

When a test has been completed, this water-bath is again raised to 130° by placing the lamp underneath, and the result is readily obtained while the petroleum cup is being emptied, cooled, and refilled with a fresh sample to be tested. The lamp is then turned on its axis from under the apparatus, and the next test is proceeded with.

3. The test-lamp is prepared for use by filling it with a piece of flat plated candlestick, and filling it with kerosene or rape-oil up to the lower edge of the opening of the spout or wick-tube. The lamp is trimmed so that when lighted it gives a flame of about 0½ of an inch diameter, and this size of flame, which is represented by the projecting white band on the cover of the oil-cup, is readily maintained by simple manipulation from time to time with a small wire trimmer.

When gas is available it may be conveniently used in place of the little oil lamp, and for this purpose a test-flame arrangement for use with gas may be substituted for the lamp.

4. The bath having been raised to the proper temperature, the oil to be tested is introduced into the petroleum cup, being poured in slowly until the level of the liquid just reaches the point of the range which is fixed in the cup. In warm weather the temperature of the room in which the sample to be tested has been kept should be observed by the first instance, and, if it exceeds 65°, the sample to be tested should be cooled down (to about 60°) by immersing the bottle containing them in cold water, or by any other convenient method. The lid of the cup, with the slide closed, is then put on, and the cup is put into the bath or heating vessel. The thermometer in the lid of the cup has been

adjusted so as to have its bulb just immersed in the liquid, and its position is not under any circumstances to be altered. When the cup has been placed in the proper position, the scale of the thermometer faces the operator.

5. The test-lamp is then placed in position upon the lid of the cup, the lead line or pendulum, which has been fixed in a convenient position in front of the operator, is set in motion, and the rise of the thermometer in the petroleum cup is watched. When the temperature has reached about 60°, the operation of testing is to be commenced, the test-flame being applied once for every rise of one degree in the following manner:—

The slide is slowly drawn open while the pendulum performs three oscillations, and is closed during the fourth oscillation.

NOTE.—If it is desired to employ the test apparatus to determine the flashing-points of oils of very low volatility, the mode of proceeding is to be modified as follows:—

The air-chamber which surrounds the cup is filled with cold water to a depth of 1½ inches, and the heating vessel or water-bath is filled as usual, but also with cold water. The lamp is then placed under the apparatus and kept there during the entire operation. If a very heavy oil is being dealt with, the operation may be commenced with water previously heated to 130°, instead of with cold water.

6. Such rules shall be published in the local official Gazette; and shall thereupon have the force of law. Provided that, in the case of rules made by a High Court not established by Royal Charter, such rules have been previously approved by the Local Government.

7. On the admission, under Section six, of any person as a Pleader or Mukhtar, the High Court shall cause a certificate, signed by such officer as the Court from time to time appoints in this behalf, to be issued to such person authorizing him to practise up to the end of the current year in the Courts, and, in the case of a Pleader, also the Revenue-offices, specified therein.

8. At the expiration of such period, the holder of the certificate, if he desires to continue to practise, shall, subject to any rules consistent with this Act which may, from time to time, be made by the High Court in this behalf, be entitled to have his certificate renewed by the Judge of the District Court within the local limits of whose jurisdiction he then ordinarily practises, or by such officer as the High Court, from time to time, appoints in this behalf.

13. The High Court may suspend or dismiss any Pleader or Mukhtar holding a certificate issued under Section seven who is convicted of any criminal offence involving a defect of character which renders him to be a Pleader or Mukhtar, as the case may be.

14. The High Court may also, after such inquiry as it thinks fit, suspend or dismiss any Pleader holding a certificate as aforesaid who takes part in any case except from the party on whose behalf he is retained, or appoints any agent of such party, or some person who is the recognized agent of such party within the meaning of the Code of Civil Procedure, of

Any District Judge, or with his sanction any Judge subordinate to him, any District Magistrate, or with his sanction any Magistrate subordinate to him, and any Revenue-officer not inferior to a Collector, or with the Collector's sanction, any Revenue-officer subordinate to him, may, pending the investigation and the orders of the High Court, suspend from practice any Pleader or Mukhtar charged before him or it under this section.

Every report made to the High Court under this section shall

Every such report shall be accompanied by the opinion of each Judge, Magistrate or Revenue-authority through whom or which it is made.

17. The High Court, in any case in which a Pleader or Mukhtar has been acquitted under Section fourteen otherwise than by an order of the High Court, may call for the record and pass such order thereon as it thinks fit.

18. Notwithstanding anything contained in any Letters Patent or in the Code of Civil Procedure, Section 87, Clause (c), any High Court established by Royal Charter may, from time to time, make rules consistent with this Act as to the following matters (namely):—

At the expiration of such period, the holder of the certificate, if he desires to continue to practise, shall be entitled to have his certificate renewed by the Secretary of the Chief Controlling Revenue-authority, or by any other officer authorized by such Authority in that behalf.

22. The Chief Controlling Revenue-authority may also, after making such inquiry as it thinks fit, suspend or dismiss any Revenue-agent holding a certificate issued under this Act who is guilty of fraudulent or grossly improper conduct in the discharge of his professional duty, or for any other reasonable cause.

23. If any Revenue-agent holding a certificate issued under this Act is charged with any such conduct in any office subordinate to the Chief Controlling Revenue-authority, or in the Court of any Munsif, the officer as the head of such office, or such Munsif, as the case may be, shall send him a copy of the charge and also a notice that, on a day to be therein appointed, such charge will be taken into consideration.

Such copy and notice shall be served upon the person charged at least fifteen days before the day so appointed. On such day or on any other day to which the inquiry may be adjourned, the officer or Munsif shall receive all evidence properly produced in support of the charge, or by the person charged, and shall proceed to adjudicate on the charge.

If the officer or Munsif finds the charge established, and considers that the person charged should be suspended or dismissed, in consequence, he shall record his finding and the grounds thereof, and report the same to the Chief Controlling Revenue-authority; and such authority shall proceed to acquit, suspend or dismiss him.

Any Revenue-officer not inferior to a Collector, and, with the Collector's sanction, any Revenue-officer subordinate to him, or any Munsif in his district, may, pending the investigation and the order of the Chief Controlling Revenue-authority, suspend from practice any Revenue-agent charged before him under this section.

Where any officer acting under this section is subordinate to the Commissioner of a Division, he shall transmit the report through such Commissioner, who shall forward with the same an expression of his own opinion on the case.

24. The Chief Controlling Revenue-authority, in any case in which a Revenue-agent has been acquitted under Section twenty-three otherwise than by an order of the Chief Controlling Revenue-authority, may call for the record and pass such order thereon as seems fit.

 (h) "I promise to pay B Rupees 500 and to deliver to him my black horse on 1st January next."
- The instruments respectively marked (a) and (b) are promissory notes. The instruments respectively marked (c), (d), (e), (f), (g) and (h) are not promissory notes.
5. A "bill of exchange" is an instrument in writing containing an unconditional order, signed by the maker, directing a certain person to pay a certain sum of money only to, or to the order of, a certain person or to the bearer of the instrument.
- A promise or order to pay is not "conditional," within the meaning of this section and Section four, by reason of the time for payment of the amount or any instrument thereof being expressed to be on the lapse of a certain period after the occurrence of a specified event which, according to the ordinary expectation of mankind, is certain to happen, although the time of its happening may be uncertain.
- The sum payable may be "certain," within the meaning of this section and Section four, although it includes future interest or is payable at an indicated rate of exchange, or is according to the course of exchange, and although the instrument provides that, on default of payment of an instalment, the balance unpaid shall become due.

The person to whom it is clear that the direction is given or that payment is to be made may be a "certain person," within the meaning of this section and Section four, although he is mis-named or designated by description only.

6. A "cheque" is a bill of exchange drawn on a specified banker and not expressed to be payable otherwise than on demand.
7. The maker of a bill of exchange or cheque is called the "drawer;" the person thereby directed to pay is called the "drawee."
- When in the bill or in any indorsement thereon the name of any person is given in addition to the drawee to be resorted to in case of need, such person is called a "drawee in case of need."
- After the drawee of a bill has signed his assent upon the bill, or, if there are more parts thereof than one, upon one of such parts, and delivered the same, or given notice of such signing to the holder or to some person on his behalf, he is called the "acceptor."
- When acceptance is refused and the bill is protested for non-acceptance, and any person accepts it *pro tunc* for honor of the drawer or of any one of the indorsers, such person is called an "acceptor for honor."
- The person named in the instrument, to whom, or to whose order the money is by the instrument directed to be paid, is called the "payee."
8. The "holder" of a promissory note, bill of exchange or cheque means any person entitled in his own name to the possession thereof and to receive or recover the amount due thereon from the parties thereto.
- Where the note, bill or cheque is lost or destroyed, its holder is the person so entitled at the time of such loss or destruction.
9. "Holder in due course" means any person who for consideration became the possessor of a promissory note, bill of exchange or cheque if payable to bearer, or the payee or indorsee thereof, if payable to, or to the order of, a payee, before the amount mentioned in it became payable, and without having sufficient cause to believe that any defect existed in the title of the person from whom he derived his title.
10. "Payment in due course" means payment in accordance with the apparent tenor of the instrument in good faith and without negligence to any person in possession thereof under circumstances which do not afford a reasonable ground for believing that he is not entitled to receive payment of the amount therein mentioned.
11. A promissory note, bill of exchange or cheque drawn or made in British India, and made payable in, or drawn upon any person resident in, British India shall be deemed to be an inland instrument.
12. Any such instrument not so drawn, made or made payable shall be deemed to be a foreign instrument.
13. A "negotiable instrument" means a promissory note, bill of exchange or cheque expressed to be payable to a specified person or his order, or to the order of a specified person, or to the bearer thereof, or to a specified person or the bearer thereof.
14. When a promissory note, bill of exchange or cheque is transferred to any person, so as to constitute that person the holder thereof, the instrument is said to be negotiated.
15. When the maker or holder of a negotiable instrument signs the same, otherwise than as such maker, for the purpose of negotiation, on the back or face thereof or on a slip of paper annexed thereto, or so signs for the same purpose a stamped paper intended to be completed as a negotiable instrument, he is said to indorse the same, and is called the "indorser."
16. If the indorser signs his name only, the indorsement is said to be "in blank," and if he adds a direction to pay the amount mentioned in the instrument to, or to the order of, a specified person, the indorsement is said to be "in full," and the person so specified is called the "indorsee" of the instrument.
17. Where an instrument may be construed either as a promissory note or bill of exchange, the holder may at his election treat it as either, and the instrument shall be thenceforward treated accordingly.
18. If the amount undertaken or ordered to be paid is stated differently in figures and in words, the amount stated in words shall be the amount undertaken or ordered to be paid.

Instrument payable on demand.

20. Where one person signs and delivers to another a paper stamped in accordance with the law relating to negotiable instruments then in force in British India, and either wholly blank or having written thereon an incomplete negotiable instrument, he thereby gives *prima facie* authority to the holder thereof to make or complete, as the case may be, upon it a negotiable instrument, for any amount specified therein and not exceeding the amount covered by the stamp. The person so signing shall be liable upon such instrument, in the capacity in which he signed the same, to any holder in due course for such amount: provided that no person other than a holder in due course shall recover from the person delivering the instrument anything in excess of the amount intended by him to be paid thereunder.

21. In a promissory note or bill of exchange the expression "at sight" and "on presentment" mean on demand. The expression "after sight" means, in a promissory note, after presentment for sight, and, in a bill of exchange, after acceptance, or nothing for non-acceptance, or protest for non-acceptance.

22. The maturity of a promissory note or bill of exchange is the date at which it falls due.

Every promissory note or bill of exchange which is not expressed to be payable on demand, at sight or on presentment is at maturity on the third day after the day on which it is expressed to be payable.

23. In calculating the date at which a promissory note or bill of exchange made payable a stated number of months after date or after sight, or after a certain event, is at maturity, the period stated shall be held to terminate on the day of the month which corresponds with the day on which the instrument is dated, or presented for acceptance or sight, or noted for non-acceptance, or the event happens, or where the instrument is a bill of exchange made payable a stated number of months after sight and has been accepted for honor, with the day on which it was so accepted. If the month in which the period would terminate has no corresponding day, the period shall be held to terminate on the last day of such month.

Illustrations.

(a) A negotiable instrument, dated 20th January 1878, is made payable at one month after date. The instrument is at maturity on the 20th February 1878.
(b) A negotiable instrument, dated 30th August 1878, is made payable three months after date. The instrument is at maturity on the 30th November 1878.

(c) A promissory note or bill of exchange, dated 31st August 1878, is made payable three months after date. The instrument is at maturity on the 31st December 1878.

24. In calculating the date at which a promissory note or bill of exchange made payable a certain number of days after date or after sight, or after a certain event is at maturity, the day of the date, or of presentment for acceptance or sight, or of protest for non-acceptance, or on which the event happens, shall be excluded.

25. When the day on which a promissory note or bill of exchange is at maturity is a public holiday, the instrument shall be deemed to be due on the next preceding business day.

Explanation.—The expression "public holiday" includes Sunday, New Year's day, Christmas day; if either of such days falls on a Sunday, the next following Monday; Good Friday; and any other day declared by the Local Government, by notification in the Official Gazette, to be a public holiday.

CHAPTER III.

PARTIES TO NOTES, BILLS AND CHEQUES.

26. Every person capable of contracting, according to the law to which he is subject, may bind himself and be bound, by the making, drawing, acceptance, indorsement, delivery and negotiation of a promissory note, bill of exchange or cheque.

A minor may draw, indorse, deliver and negotiate such instruments as to bind all parties except himself.

Nothing herein contained shall be deemed to empower a corporation to make, indorse or accept such instruments except in cases in which, under the law for the time being in force, they are so empowered.

27. Every person capable of binding himself or of being bound, as mentioned in Section twenty-six, may so bind himself or be bound by a duly authorized agent acting in his name.

A general authority to transact business and to receive and discharge debts does not confer upon an agent the power of accepting or indorsing bills of exchange so as to bind his principal.

An authority to draw bills of exchange does not of itself import an authority to indorse.

28. An agent who signs his name to a promissory note, bill of exchange or cheque without indorsing thereon that he signs as agent, or that he does not intend thereby to incur personal responsibility, is liable personally on the instrument, except to those who induced him to sign upon the belief that the principal only would be held liable.

29. A legal representative of a deceased person who signs his name to a promissory note, bill of exchange or cheque is liable personally thereon unless he expressly limits his liability to the extent of the assets received by him as such.

30. The drawer of a bill of exchange or cheque is bound, in case of dishonor by the drawee or acceptor thereof, to compensate the holder, provided due notice of dishonor has been given to, or received by, the drawer as hereinafter provided.

31. The drawee of a cheque having sufficient funds of the drawer in his hands properly applicable to the payment of such cheque must pay the cheque when duly required so to do, and, in default of such payment, must compensate the drawer for any loss or damage caused by such default.

32. In the absence of a contract to the contrary, the maker of a promissory note and the acceptor before maturity of a bill of exchange are bound to pay the amount thereof at maturity according to the apparent tenor of the note or acceptance respectively, and the acceptor of a bill of exchange at or after maturity is bound to pay the amount thereof to the holder on demand.

In default of such payment as aforesaid, such maker or acceptor is bound to compensate any party to the note or bill for any loss or damage sustained by him and caused by such default.

33. No person except the drawee of a bill of exchange, or all or some of several drawees, or a person named therein as a drawee in case of need, or an acceptor for honor, can bind himself by an acceptance.

34. Where there are several drawees of a bill of exchange who are not partners, each of them can accept it for himself, but none of them can accept it for another without his authority.

35. In the absence of a contract to the contrary, whoever indorses and delivers a negotiable instrument before maturity, without, in such indorsement, expressly excluding or making conditional his own liability, is bound thereby to every subsequent holder, in case of dishonor by the drawee, acceptor or maker, to compensate such holder for any loss or damage caused to him by such dishonor, provided due notice of dishonor has been given to, or received by, such indorser as hereinafter provided.

Every indorser after dishonor is liable as upon an instrument payable on demand.

36. Every prior party to a negotiable instrument is liable thereon to a holder in due course until the instrument is duly satisfied.

37. The maker of a promissory note or cheque, the drawer of a bill of exchange until acceptance, and the acceptor are, in the absence of a contract to the contrary, respectively liable thereon as principal debtors, and the other parties thereto are liable thereon as sureties for the maker, drawer or acceptor as the case may be.

38. As between the parties so liable as sureties, each prior party is, in the absence of a contract to the contrary, also liable thereon as a principal debtor in respect of each subsequent party.

Illustration.

A draws a bill payable to his own order on B, who accepts. A afterwards indorses the bill to C, C to D, and D to E. A is between E and B, B is the principal debtor, and A, C and D are his sureties. As between E and A, A is the principal debtor, and C and D are his sureties. As between E and C, C is the principal debtor and D is his surety.

39. When the holder of an accepted bill of exchange enters into any contract with the acceptor which, under Section 134 or 135 of the Indian Contract Act, 1872, would discharge the other parties, the holder may expressly reserve his right to charge the other parties, and in such case they are not discharged.

Suretyship.

40. Where the holder of a negotiable instrument, without the consent of the indorser, destroys or impairs the indorser's remedy against a prior party, the indorser is discharged from liability to the holder to the same extent as if the instrument had been paid at maturity.

Illustration.

A is the holder of a bill of exchange made payable to the order of B, which contains the following indorsements in blank:—

- First indorsement, "B."
- Second indorsement, "Peter Williams."
- Third indorsement, "Wright & Co."
- Fourth indorsement, "John Rosario."

This bill A puts in suit against John Rosario and strikes out, without John Rosario's consent, the indorsements by Peter Williams and Wright & Co. A is not entitled to recover anything from John Rosario.

41. An acceptor of a bill of exchange already indorsed is not relieved from liability by reason that such indorsement is forged, if he knew or had reason to believe the indorsement to be forged when he accepted the bill.

42. An acceptor of a bill of exchange drawn in a fictitious name and payable to the drawer's order is not, by reason that such name is fictitious, relieved from liability to any holder in due course claiming under an indorsement by the same hand as the drawer's signature, and purporting to be made by the drawer.

43. A negotiable instrument made, drawn, accepted, indorsed or transferred without consideration, or for a consideration which fails, creates no obligation of payment between the parties to the transaction. But if any such party has transferred the instrument with or without indorsement to a holder for consideration, such holder, and every subsequent holder deriving title from him, may recover the amount due on such instrument from the transferor for consideration or any prior party thereto.

Exception I.—No party for whose accommodation a negotiable instrument has been made, drawn, accepted or indorsed can, if he have paid the amount thereof, recover thereon such amount from any person who became a party to such instrument for his accommodation.

Exception II.—No party to the instrument who has induced any other party to make, draw, accept, indorse or transfer the same to him for a consideration which he has failed to pay or perform is to be liable thereon an amount exceeding the value of the consideration (if any) which he has actually paid or performed.

44. When the consideration for which a person signed a promissory note, bill of exchange or cheque consisted of money, and was originally absent in part or has subsequently failed in part, the sum which a holder standing in immediate relation with such signer is entitled to receive from him is proportionally reduced.

Explanation.—The drawer of a bill of exchange stands in immediate relation with the acceptor. The maker of a promissory note, bill of exchange or cheque stands in immediate relation with the payee, and the indorser with his indorsee. Other signers may by agreement stand in immediate relation with a holder.

Illustration.

A draws a bill on B for Rs. 500 payable to the order of A. B accepts the bill, but subsequently dishonours it by non-payment. A sues B on the bill. B proves that it was accepted for value as to Rs. 400, and as an accommodation to the plaintiff as to the residue. A can only recover Rs. 400.

45. Where a part of the consideration for which a person signed a promissory note, bill of exchange or cheque, though not consisting of money, is ascertainable in money without collateral enquiry, and there has been a failure of that part, the sum which a holder standing in immediate relation with such signer is entitled to receive from him is proportionally reduced.

CHAPTER IV.

OF NEGOTIATION.

Delivery.

As between parties standing in immediate relation, delivery to be effectual must be made by the party making, accepting or indorsing the instrument, or by a person authorized by him in that behalf.

As between such parties and any holder of the instrument other than a holder in due course, it may be shown that the instrument was delivered conditionally or for a special purpose only, and not for the purpose of transferring absolutely and properly therein.

A promissory note, bill of exchange or cheque payable to bearer is negotiable by the delivery thereof.

A promissory note, bill of exchange or cheque payable to order is negotiable by the holder by indorsement and delivery thereof.

47. Subject to the provisions of Section fifty-eight, a promissory note, bill of exchange or cheque payable to order is negotiable by delivery thereof.

Exception.—A promissory note, bill of exchange or cheque delivered on condition that it is not to take effect until a certain event is not negotiable (except in the hands of a holder for value without notice of the condition) unless such event happens.

Illustration.

48. A, the holder of a negotiable instrument payable to bearer, delivers it to B's agent to keep for him. The instrument is not negotiable.

49. A, the holder of a negotiable instrument payable to bearer, which is in the hands of A's banker, who is at the time the holder of it, directs the banker to transfer the instrument to his credit in the banker's account with B. The banker then so, and accordingly now presents the instrument at B's agent. The instrument has been negotiated, and B must recognize the holder of it.

48. Subject to the provisions of Section fifty-eight, a promissory note, bill of exchange or cheque payable to the order of a specified person, or to his specified person or other assignee, is negotiable by indorsement and delivery thereof.

49. The holder of a negotiable instrument indorsed in blank may, without writing his own name, by writing on or over the indorser's signature a direction as to to what order or orders the instrument is to be cashed, convert the instrument into indorsement, in which case it is negotiable by delivery, and the holder does not thereby lose the negotiability of an indorser.

50. The indorsement of a negotiable instrument followed by delivery transfers to the indorsee the property therein, with the right of further negotiation, but the indorsement may, by express words, restriction or otherwise, exclude such right, or may merely constitute the indorser an agent to indorse the instrument, or to receive the contents for the indorser, or for some other specified person.

Illustration.

B signs the following indorsements on different negotiable instruments payable to bearer:—

- (a) "Pay the contents to C only."
- (b) "Pay C for my use."
- (c) "Pay C or order for the account of B."
- (d) "The within must be credited to C."

These indorsements exclude the right of further negotiation by C.

51. Every sale, making, drawing, paying or indorsing, or all of several joint makers, drawers, payees or indorsees, of a negotiable instrument, may, if the negotiability of such instrument has not been restricted or excluded as mentioned in Section fifty, indorse and negotiate the same.

Explanation.—Nothing in this section enables a maker or drawer to indorse or negotiate an instrument, unless he is in lawful possession or is holder thereof, or enables a payee or indorsee to indorse or negotiate an instrument, unless he is holder thereof.

Illustration.

A bill is drawn payable to A or order. A indorses it to B, the indorsement not containing the words "or order" or any equivalent words. B may negotiate the instrument.

52. The indorsement of a negotiable instrument may, by express words, exclude the indorser's own liability thereon, or make such liability or the right of the indorsee to require the amount over his liability or make it conditional upon the happening of a specified event, although such event may never happen.

Where an indorser so excludes his liability and effectuals because the holder of the instrument, all intermediate indorsements are liable to him.

Illustrations.

- (a) The indorser of a negotiable instrument signs his name, adding the words—
"Without recourse."

Upon this indorsement he incurs no liability.

(b) A is the payee and holder of a negotiable instrument. Excluding personal liability by an indorsement "without recourse," he transfers the instrument to B, and B indorses it to C, who indorses it to A. A is not only reinstated in his former rights, but has the rights of an indorsee against B and C.

Holder deriving title from title from a holder in due course has the rights thereon of that holder in due course.

Instrument indorsed in blank. Subject to the provisions hereinafter contained as to crossed cheques, a negotiable instrument indorsed in blank is payable to the bearer thereof even although originally payable to order.

55. If a negotiable instrument, after having been indorsed in blank, is indorsed in full, the amount of it cannot be claimed from the indorser in full, except by the person to whom it has been indorsed in full, or by one who derives title through such person.

56. No writing on a negotiable instrument is valid for the purpose of negotiation if such writing purports to transfer only a part of the amount appearing to be due on the instrument; but where such amount has been partly paid, a note to that effect may be indorsed on the instrument, which may then be negotiated for the balance.

Legal representative cannot by delivery only negotiate instrument indorsed by deceased.

58. When a negotiable instrument has been lost, or has been obtained from any maker, acceptor or holder thereof by means of an offence or fraud, or for an unlawful consideration, no possessor or indorsee who claims through the person who found, or so obtained the instrument is entitled to receive the amount due thereon from such maker, acceptor or holder, or from any party prior to such holder, unless such possessor or indorsee is, or some person through whom he claims was, a holder thereof in due course.

59. The holder of a negotiable instrument, who has acquired it after dishonor, whether by non-acceptance or non-payment, with notice thereof, or after maturity, has only, as against the other parties, the rights thereon of his transferor.

Provided that any person who, in good faith and for consideration, becomes the holder, after maturity, of a promissory note or bill of exchange made, drawn or accepted without consideration, for the purpose of enabling some party thereto to raise money thereon, may recover the amount of the note or bill from any prior party.

Illustrations.

The acceptor of a bill of exchange, when he accepted it, deposited with the drawer certain goods as a collateral security for the payment of the bill, with power to the drawer to sell the goods and apply the proceeds in discharge of the bill if it were not paid at maturity. The bill not having been paid at maturity, the drawer sold the goods and retained the proceeds, but indorsed the bill to A. A's title is subject to the same objection as the drawer's title.

60. A negotiable instrument may be negotiated (except by the maker, drawee or acceptor after maturity) until payment or satisfaction thereof by the maker, drawee or acceptor at or after maturity, but not after such payment or satisfaction.

Instrument negotiable till payment or satisfaction.

CHAPTER V. OF PRESENTMENT.

61. A bill of exchange payable after sight must, if no time or place is specified therein for presentment, be presented to the drawee thereof for acceptance, if he can, after reasonable search, be found, by a person entitled to demand acceptance, within a reasonable time after it is drawn, and in business hours on a business day. In default of such presentment, no party thereto is liable thereon to the person making such default.

If the drawee cannot, after reasonable search, be found, the bill is dishonored.

If the bill is directed to the drawee at a particular place, it must be presented at that place; and if at the due date for presentment he cannot, after reasonable search, be found there, the bill is dishonored.

62. A promissory note, payable at a certain period after sight, must be presented to the maker thereof for sight (if he can after reasonable search be found) by a person entitled to demand payment, within a reasonable time after it is made and in business hours on a business day. In default of such presentment, no party thereto is liable thereon to the person making such default.

63. The holder must, if so required by the drawee of a bill of exchange presented to him for acceptance, allow the drawee twenty-four hours (exclusive of public holidays) to consider whether he will accept it.

64. Promissory notes, bills of exchange and cheques must be presented for payment to the maker, acceptor or drawee thereof respectively, by or on behalf of the holder as hereinafter provided. In default of such presentment, the other parties thereto are not liable thereon to such holder.

Exception.—Where a promissory note is payable on demand and is not payable at a specified place, no presentment is necessary in order to charge the maker thereof.

Hours for presentment. 65. Presentment for payment must be made during the usual hours of business, and, at a banker's, within banking hours.

66. A promissory note or bill of exchange, made payable at a specified period after date, must be presented for payment at maturity.

67. A promissory note payable by instalments must be presented for payment on the third day after the date fixed for payment of each instalment; and non-payment on such presentment has the same effect as non-payment of a note at maturity.

68. A promissory note, bill of exchange or cheque made, drawn or accepted payable at a specified place and not elsewhere must, in order to charge any party thereto, be presented for payment at that place.

69. A promissory note or bill of exchange made, drawn or accepted payable at a specified place must, in order to charge the maker or drawer thereof, be presented for payment at that place.

70. A promissory note or bill of exchange, not made payable as mentioned in Sections sixty-eight and sixty-nine, must be presented for payment at the place of business (if any), or at the usual residence, of the maker, drawee or acceptor thereof, as the case may be.

71. If the maker, drawee or acceptor of a negotiable instrument has no known place of business or fixed residence, and no place is specified in the instrument for presentment for acceptance or payment, such presentment may be made to him in person wherever he can be found.

72. A cheque must, in order to charge the drawer, be presented at the bank upon which it is drawn before the relation between the drawer and his banker has been affected to the prejudice of the drawer.

73. A cheque must, in order to charge any person except the drawer, be presented within a reasonable time after delivery thereof by such person.

74. Subject to the provisions of Section thirty-one, a negotiable instrument payable on demand must be presented for payment within a reasonable time after it is received by the holder.

75. Presentment for acceptance or payment may be made to the duly authorized agent of the drawer, maker or acceptor, as the case may be, or, where the drawer, maker or acceptor has died, to his legal representative, or where he has been declared an insolvent, to his assignee.

76. No presentment for payment is necessary, and the instrument is dishonored at the due date for presentment, in any of the following cases:—

- (a) if the maker, drawee or acceptor intentionally prevents the presentment of the instrument, or,

If the instrument being payable at his place of business he closes such place on a business day during the usual business hours, or
 If the instrument being payable at some other specified place, not less than any persons authorized to pay it attends at such place during the usual business hours, or
 If the instrument not being payable at any specified place, he failed after due search to be found.

(4) as against any party sought to be charged therewith, if he has engaged to pay notwithstanding non-presentment;

(5) as against any party of after maturity, with knowledge that the instrument has not been presented;

he makes a part payment on account of the amount due on the instrument or promises to pay the amount due thereon in whole or in part.

or otherwise waives his right to take advantage of any default in presentment for payment.

(6) as against the drawer, if the drawer could not suffer damage from the want of such presentment.

77. When a bill of exchange accepted payable at a specified bank, has been duly presented there for payment and dishonoured, if the holder so negligently or improperly accepts, deals with or delivers back such bill as to cause loss to the holder, he must compensate the holder for such loss.

CHAPTER VI.

OF PAYMENT AND INTEREST.

78. Subject to the provisions of Section eighty-two, clause (1), payment of the amount due on a promissory note, bill of exchange or cheque must, in order to discharge the maker or acceptor, be made to the holder of the instrument.

79. When interest at a specified rate is expressly made payable on a promissory note or bill of exchange, interest shall be calculated at the rate specified, on the amount of the principal money due thereon, from the date of the instrument, until tender or realization of such amount, or until such date after the institution of a suit to recover such amount as the Court directs.

80. When no rate of interest is specified in the instrument interest on the amount due thereon shall, except in cases provided for by the Code of Civil Procedure, Section 198, be calculated at the rate of six per centum per annum, from the date at which the same ought to have been paid by the party charged, until tender or realization of the amount due thereon, or until such date after the institution of a suit to recover such amount as the Court directs.

81. Interest when not specified.

82. When the party charged in the instrument dishonoured or non-payment, is liable to pay interest only from the time that he receives notice of the dishonour.

83. Any person liable to pay, and called upon by the holder thereof to pay, the amount due on a promissory note, bill of exchange or cheque is liable to have the instrument delivered up to him, and if the instrument is lost or cannot be produced, to be indemnified against any further claim thereon against him.

84. Delivery of instrument on tender of payment, or indemnity in case of loss.

CHAPTER VII.

OF DISCHARGE AND LIABILITY IN NOTES, BILLS AND CHEQUES.

85. The maker, acceptor or indorser respectively of a negotiable instrument is discharged from liability thereon—

(a) to a holder thereof who accepts such acceptance or indorsement with intent to discharge him, and to all parties claiming under such holder;

(b) to a holder thereof who otherwise discharges such maker, acceptor or indorser, and to all parties claiming title under such holder after notice of such discharge;

(c) to all parties thereof, if the instrument is payable by money, or has been cashed in bank, and such maker, acceptor or indorser makes payment in due course of the business of the bank.

discharge by allowing drawee more than twenty-four hours to accept.

When cheque not duly presented and drawer damaged thereby.

Cheque payable to order.

86. If the holder of a bill of

Parties not consenting discharged by qualified or limited acceptance.

holder and those claiming under him, unless on notice given by the holder assent to such acceptance.

Explanation.—An acceptance is qualified—

(a) where it is conditional, declaring the payment to be dependent on the happening of an event therein stated;

(b) where it undertakes the payment of part only of the sum ordered to be paid;

(c) where, no place of payment being specified on the order, it undertakes the payment at a specified place and not otherwise or elsewhere; or where, a place of payment being specified in the order, it undertakes the payment at some other place and not otherwise or elsewhere;

(d) where it undertakes the payment at a time other than that at which under the order it would be legally due.

87. Any material alteration of a negotiable instrument renders the same void as against any one who is a party thereto at the time of making such alteration and does not consent thereto, unless it was made in order to carry out the common intention of the original parties;

Effect of material alteration.

88. And any such alteration, if made by an indorsee, discharges his indorser from all liability to him in respect of the consideration thereof.

Alteration by indorsee.

The provisions of this section are subject to those of Sections twenty, forty-nine, eighty-six and one hundred and twenty-five.

89. Any acceptor or indorser of a negotiable instrument is bound by his acceptance or indorsement notwithstanding any previous alteration of the instrument.

90. Where a promissory note, bill of exchange or cheque has been materially altered but does not appear to have been so altered,

or where a cheque is presented for payment which does not at the time of presentation appear to be crossed or to have had a crossing which has been obliterated,

payment thereof by a person or banker liable to pay, and paying the same according to the apparent tenor thereof at the time of payment and otherwise in due course, shall discharge such person or banker from all liability thereon, and such payment shall not be questioned by reason of the instrument having been altered, or the cheque crossed.

91. If a bill of exchange which has been negotiated in, at or after maturity, held by the acceptor in his own hands,

or where a cheque is presented for payment which does not at the time of presentation appear to be crossed or to have had a crossing which has been obliterated,

payment thereof by a person or banker liable to pay, and paying the same according to the apparent tenor thereof at the time of payment and otherwise in due course, shall discharge such person or banker from all liability thereon, and such payment shall not be questioned by reason of the instrument having been altered, or the cheque crossed.

92. If a bill of exchange which has been negotiated in, at or after maturity, held by the acceptor in his own hands,

or where a cheque is presented for payment which does not at the time of presentation appear to be crossed or to have had a crossing which has been obliterated,

payment thereof by a person or banker liable to pay, and paying the same according to the apparent tenor thereof at the time of payment and otherwise in due course, shall discharge such person or banker from all liability thereon, and such payment shall not be questioned by reason of the instrument having been altered, or the cheque crossed.

93. If a bill of exchange which has been negotiated in, at or after maturity, held by the acceptor in his own hands,

or where a cheque is presented for payment which does not at the time of presentation appear to be crossed or to have had a crossing which has been obliterated,

payment thereof by a person or banker liable to pay, and paying the same according to the apparent tenor thereof at the time of payment and otherwise in due course, shall discharge such person or banker from all liability thereon, and such payment shall not be questioned by reason of the instrument having been altered, or the cheque crossed.

94. If a bill of exchange which has been negotiated in, at or after maturity, held by the acceptor in his own hands,

or where a cheque is presented for payment which does not at the time of presentation appear to be crossed or to have had a crossing which has been obliterated,

payment thereof by a person or banker liable to pay, and paying the same according to the apparent tenor thereof at the time of payment and otherwise in due course, shall discharge such person or banker from all liability thereon, and such payment shall not be questioned by reason of the instrument having been altered, or the cheque crossed.

CHAPTER VIII.

OF NOTICE OF DISHONOUR.

95. A bill of exchange is said to be dishonoured by non-acceptance when the drawee, or one of several drawees not being partners, makes default in acceptance upon being duly required to accept the bill, or where presentment is excused and the bill is not accepted.

Dishonor by non-acceptance.

96. Where the drawee is incompetent to contract, or the acceptance is qualified, the bill may be treated as dishonoured.

97. A promissory note, bill of exchange or cheque is said to be dishonoured by non-payment when the maker of the note, acceptor of the bill or drawer of the cheque makes default in payment upon being duly required to pay the same.

Dishonor by non-payment.

98. If a bill of exchange which has been negotiated in, at or after maturity, held by the acceptor in his own hands,

or where a cheque is presented for payment which does not at the time of presentation appear to be crossed or to have had a crossing which has been obliterated,

payment thereof by a person or banker liable to pay, and paying the same according to the apparent tenor thereof at the time of payment and otherwise in due course, shall discharge such person or banker from all liability thereon, and such payment shall not be questioned by reason of the instrument having been altered, or the cheque crossed.

93. When a promissory note, bill of exchange or cheque is dishonored by non-acceptance or non-payment, the holder thereof, or some party thereto who remains liable thereon, must give notice that the instrument has been so dishonored to all other parties whom the holder seeks to make severally liable thereon, and to some one of several parties whom he seeks to make jointly liable thereon.

Nothing in this section renders it necessary to give notice to the maker of the dishonored promissory note, or the drawee or acceptor of the dishonored bill of exchange or cheque.

94. Notice of dishonor may be given to a duly authorized agent of the person to whom it is required to be given, or where he has died, to his legal representative, or, where he has been declared an insolvent, to his assignee; may be oral or written; may, if written, be sent by post; and may be in any form; but

it must inform the party to whom it is given, either in express terms or by reasonable intendment, that the instrument has been dishonored, and in what way, and that he will be held liable thereon; and it must be given within a reasonable time after dishonor at the place of business or (in case such party has no place of business, at the residence of the party for whom it is intended).

If the notice is duly directed and sent by post, and miscarries, such miscarriage does not render the notice invalid.

95. Any party receiving notice of dishonor must, in order to render any prior party liable to himself, give notice of dishonor to such party within a reasonable time, unless such party otherwise receives due notice as provided by Section ninety three.

96. When the instrument is deposited with an agent for presentment, the agent is entitled to the same to give notice to his principal as if he were the holder giving notice of dishonor, and the principal is entitled to a further like period to give notice of dishonor.

97. When the party to whom notice of dishonor is despatched is dead, but the party despatching the notice is ignorant of his death, the notice is sufficient.

98. No notice of dishonor is necessary—

- when it is dispensed with by the party entitled thereto;
- in order to charge the drawer, when he has countermanded payment;
- when the party charged could not suffer damage for want of notice;
- when the party entitled to notice cannot after due search be found; or the party bound to give notice is, for any other reason, unable without any fault of his own to give it;
- to charge the drawers, when the acceptor is also a drawer;
- in the case of a promissory note which is not negotiable;
- when the party entitled to notice, knowing the facts, promises unconditionally to pay the amount due on the instrument.

CHAPTER IX.

OF NOTICE AND PROTEST.

99. When a promissory note or bill of exchange has been dishonored by non-acceptance or non-payment, the holder may cause such dishonor to be noted by a notary public upon the instrument, or upon a paper attached thereto, or partly upon each.

Such note must be made within a reasonable time after dishonor, and must specify the date of dishonor, the reason, if any, assigned for such dishonor, or, if the instrument has not been expressly dishonored, the reason why the holder treats it as dishonored, and the notary's charges.

100. When a promissory note or bill of exchange has been dishonored by non-acceptance or non-payment, the holder may, within a reasonable time, cause such dishonor to be noted and certified by a notary public. Such certificate is called a protest.

When the acceptor of a bill of exchange has become insolvent, or his credit has been publicly impeached, before the maturity of the bill, the holder may, within a reasonable time, cause a notary public to demand better security of the acceptor, and on his being refused may, within a reasonable time, cause such facts to be noted and certified as aforesaid. Such certificate is called a protest for better security.

Contents of protest. 101. A protest under Section one hundred must contain—

- either the instrument itself, or a literal transcript of the instrument and of everything written or printed thereupon;
- the name of the person for whom and against whom the instrument has been protested;
- a statement that payment or acceptance, or better security, as the case may be, has been demanded of such person by the notary public; the terms of his answer, if any, or a statement that he gave no answer, or that he could not be found;
- when the note or bill has been dishonored, the place and time of dishonor, and, when better security has been refused, the place and time of refusal;
- the subscription of the notary public making the protest;
- in the event of an acceptance for honor or of a payment for honor, the name of the person by whom, of the person for whom, and the manner in which, such acceptance or payment was offered and effected.

102. When a promissory note or bill of exchange is required by law to be protested, notice of such protest be given instead of notice of dishonor, in the same manner and subject to the same conditions; but the notice may be given by the notary public who makes the protest.

103. All bills of exchange drawn payable at some other place than the place mentioned as the residence of the drawee, and which are dishonored by non-acceptance, may, without further presentment to the drawee, be protested for non-payment, in the place specified for payment, unless paid before or at maturity.

104. Foreign bills of exchange must be protested for dishonor when such protest is required by the law of the place where they are drawn.

CHAPTER X.

OF REASONABLE TIME.

105. In determining what is a reasonable time for presentment for acceptance or payment, for giving notice of dishonor and for noting, regard shall be had to the nature of the instrument and the usual course of dealing with respect to similar instruments; and, in calculating such time, public holidays shall be excluded.

106. If the holder and the party to whom notice of dishonor is given carry on business or live (as the case may be) in different places, such notice is given within a reasonable time if it is despatched by the next post or on the day next after the day of dishonor.

If the said parties carry on business or live in the same place, such notice is given within a reasonable time if it is despatched in time to reach its destination on the day next after the day of dishonor.

107. A party receiving notice of dishonor, who seeks to enforce his right against a prior party, transmits the notice within a reasonable time if he transmits it within the same time after its receipt as he would have had to give notice if he had been the holder.

CHAPTER XI.

OF ACCEPTANCE AND PAYMENT FOR HONOR AND REFERENCE IN CASE OF NEED.

108. When a bill of exchange has been noted or protested for non-acceptance or for better security, any person not being a party already liable thereon may, with the consent of the holder, by writing on the bill, accept the same for the honor of any party thereto.

Unless the person who intends to accept *supra protest* first declares, in the presence of a notary, that he does it for honor, and has such declaration duly recorded in the notarial register at the time, his acceptance shall be a nullity.

109. A person desiring to accept for honor must, in the presence of a notary public, subscribe the bill with his own hand, and declare that he accepts under protest the protested bill for the honor of the drawer or of a particular indorser whom he names, or generally for honor; and such declaration must be recorded by the notary in his register.

110. Where the acceptance does not express for whose honor it is made, it shall be deemed to be made for the honor of the drawer.

111. An acceptor for honor binds himself to all parties subsequent to the party for whose honor he accepts to pay the amount of the bill if the drawee do not, and such party and all prior parties are liable in their respective capacities to compensate the acceptor for honor for all loss or damage sustained by him in consequence of such acceptance.

But an acceptor for honor is not liable to the holder of the bill unless it is presented, or (in case the address given by such acceptor on the bill is a place other than the place where the bill is made payable) forwarded for presentation not later than the day next after the day of its maturity.

112. An acceptor for honor cannot be charged unless the bill has at its maturity been presented to the drawee for payment, and has been dishonored by him, and noted or protested for such dishonor.

113. When a bill of exchange has been noted or protested for non-payment, any person may pay the same for the honor of any party liable to pay the same, provided that the person so paying has previously declared before a notary public the party for whose honor he pays, and that such declaration has been recorded by such notary public.

114. Any person so paying is entitled to all the rights, in respect of the bill, of the holder at the time of such payment, and may recover from the party for whose honor he pays all sums so paid, with interest thereon and with all expenses properly incurred in making such payment.

115. Where a drawee in case of need is named in a bill of exchange, or in any indorsement thereon, the bill is not dishonored until it has been dishonored by such drawee.

116. A drawee in case of need may accept and pay the bill of exchange without previous protest.

CHAPTER XII.

OF COMPENSATION.

117. The compensation payable in case of dishonor of a promissory note, bill of exchange or cheque, by any party liable to the holder or any indorser, shall (except in cases provided for by the Code of Civil Procedure, Section 582) be determined by the following rules:—

- the holder is entitled to the amount due upon the instrument, together with the expenses properly incurred in presenting, noting and protesting it;
- when the person charged resides at a place different from that at which the instrument was payable, the holder is entitled to receive such sum at the current rate of exchange between the two places;
- an indorser who, being liable, has paid the amount due on the same is entitled to the amount so paid with interest at six per centum per annum from the date of payment until tender or realization thereof, together with all expenses caused by the dishonor and payment;
- when the person charged and such indorser reside at different places, the indorser is entitled to receive such sum at the current rate of exchange between the two places;
- the party entitled to compensation may draw a bill upon the party liable to compensate him, payable at sight or on demand, for the amount due to him, together with all expenses properly incurred by him. Such bill must be accompanied by the instrument dishonored and the protest thereon (if any). If such bill is dishonored, the party dishonoring the same is liable to make compensation thereon in the same manner as in the case of the original bill.

CHAPTER XIII.

SPECIAL RULES OF EVIDENCE.

118. Until the contrary is proved, the following presumptions shall be made:—

- that every negotiable instrument was made or drawn for consideration, and that every such instrument, when it has been accepted, indorsed, negotiated or transferred for consideration, was accepted, indorsed, negotiated or transferred for consideration;
- that every negotiable instrument bearing a date was made or drawn on such date;

as to time of acceptance; (c) that every accepted bill of exchange was accepted within a reasonable time after its date and before its maturity;

as to time of transfer; (d) that every transfer of a negotiable instrument was made before its maturity;

as to order of indorsement. (e) that the indorsements appearing upon a negotiable instrument were made in the order in which they appear thereon.

as to stamp; (f) that a lost promissory note, bill of exchange or cheque was duly stamped;

(g) that the holder of a negotiable instrument is a holder in due course: provided that holder is a holder in due course; provided that, where the instrument has been obtained from its lawful owner, or from any person in lawful custody thereof, by means of an offence or fraud, or has been obtained from the maker or acceptor thereof by means of an offence or fraud, or for unlawful consideration, the burden of proving that the holder is a holder in due course lies upon him.

119. In a suit upon an instrument which has been dishonored, the Court shall, on proof of the protest, presume the fact of dishonor, unless and until such fact is disproved.

120. No maker of a promissory note, and no drawer of a bill of exchange or cheque, and no acceptor of a bill of exchange for the honor of the drawer shall, in a suit thereon by a holder in due course, be permitted to deny the validity of the instrument as originally made or drawn.

121. No maker of a promissory note and no acceptor of a bill of exchange payable to, or to the order of, a specified person shall, in a suit thereon by a holder in due course, be permitted to deny the payee's capacity, at the date of the note or bill, to indorse the same.

122. No indorser of a negotiable instrument shall, in a suit thereon by a subsequent holder, be permitted to deny the signature or capacity to contract of any prior party to the instrument.

CHAPTER XIV.

OF CROSSED CHEQUES.

123. Where a cheque bears across its face an addition of the words "and company" or any abbreviating thereof, between two parallel transverse lines, or of two parallel transverse lines, either with or without the words "not negotiable," that addition shall be deemed a crossing, and the cheque shall be deemed to be crossed generally.

124. Where a cheque bears across its face an addition of the name of a banker, either with or without the words "not negotiable," that addition shall be deemed a crossing, and the cheque shall be deemed to be crossed specially, and to be crossed to that banker.

125. Where a cheque is crossed, the holder may cross it generally or specially.

Where a cheque is crossed generally, the holder may cross it specially.

Where a cheque is crossed specially, the holder may cross it generally.

Where a cheque is crossed generally or specially, the holder may add the words "not negotiable."

Where a cheque is crossed specially, the banker to whom it is crossed may again cross it specially to another banker, his agent, for collection.

126. Where a cheque is crossed generally, the banker on whom it is drawn shall not pay it otherwise than to a banker.

Where a cheque is crossed specially, the banker on whom it is drawn shall not pay it otherwise than to the banker to whom it is crossed, or his agent, for collection.

127. Where a cheque is crossed specially to more than one banker, except when crossed to an agent for the purpose of collection, the banker on whom it is drawn shall refuse payment thereof.

128. Where the banker on whom a crossed cheque is drawn has paid the same in due course, the banker paying the cheque, and (in case such cheque has come to the hands of the payee) the drawer thereof, shall respectively be entitled to the same rights, and be placed in the same position in all respects, as they would respectively be entitled to and placed in if the amount of the cheque had been paid to and received by the true owner thereof.

129. Any banker paying a cheque crossed generally otherwise than to a banker, or a cheque crossed specially otherwise than to the banker to whom the same is crossed, or his agent for collection, being a banker, shall be liable to the true owner of the cheque for any loss he may sustain owing to the cheque having been so paid.

130. A person taking a cheque crossed generally or specially, bearing in either case the words "not negotiable," shall not have, and shall not be capable of giving, a better title to the cheque than that which the person from whom he took it had.

131. A banker who has in good faith and without negligence received payment for a customer of a cheque crossed generally or specially to himself shall not, in case the title to the cheque proves defective, incur any liability to the true owner of the cheque by reason only of having received such payment.

CHAPTER XV.

OF BILLS IN SETS.

132. Bills of exchange may be drawn in parts, each part being numbered and containing a provision that it shall continue payable only so long as the others remain unpaid. All the parts together make a set; but the whole set constitutes only one bill, and is extinguished when one of the parts, if a separate bill, would be extinguished.

Exception.—When a person accepts or indorses different parts of the bill in favor of different persons, he and the subsequent indorsers of each part are liable on each part as if it were a separate bill.

133. As between holders in due course of different parts of the same set, he who first acquired title to his part is entitled to the other parts and the money represented by the bill.

CHAPTER XVI.

OF INTERNATIONAL LAW.

134. In the absence of a contract to the contrary, the liability of the maker or drawer of a foreign promissory note, bill of exchange or cheque is regulated in all essential matters by the law of the place where he made the instrument, and the respective liabilities of the acceptor and indorser by the law of the place where the instrument is made payable.

Illustration.

A bill of exchange was drawn by A in California, where the rate of interest is 35 per cent. and accepted by B, payable in Washington, where the rate of interest is 6 per cent. The bill is endorsed in British India, and is dishonored. An action on the bill is brought against B in British India. He is liable to pay interest at the rate of 6 per cent. only; but if A is charged as drawer, A is liable to pay interest at the rate of 35 per cent.

135. Where a promissory note, bill of exchange or cheque is made payable in a different place from that in which it is made or indorsed, the law of the place where it is made payable determines what constitutes dishonor and what notice of dishonor is sufficient.

Illustration.

A bill of exchange drawn and indorsed in British India, but accepted payable in France, is dishonored. The indorser claims it to be protested for such dishonor, and gives notice thereof in accordance with the law of France, though not in accordance with the rules herein contained in respect of bills which are not foreign. The notice is sufficient.

136. If a negotiable instrument is made, drawn, accepted or indorsed out of British India, but in accordance with the law of British India, the circumstance that any agreement evidenced by such instrument is invalid according to the law of the country wherein it was entered into does not invalidate any subsequent acceptance or indorsement made thereon in British India.

137. The law of any foreign country regarding promissory notes, bills of exchange and cheques shall be presumed to be the same as that of British India, unless and until the contrary is proved.

Telegrams so coded will in all cases be translated before delivery to the receiver, to whom a copy in plain language only will be handed.

A very complete code has been compiled especially to meet the requirements of private senders on social or business subjects, and thus, in conjunction with the Company's ordinary codes, will, it is believed, afford facilities for cheap telegraphing which have not hitherto been accessible to the public.

A fixed and uniform charge of (Ten) 10 annas per code word used will be made on all messages in addition to the ordinary tariff rate. Beyond this small payment senders will enjoy the entire benefit of the saving resulting from the use of the Company's codes.

Although the Company cannot accept any responsibility for errors made in coding, translating, or transmitting telegrams, every precaution will be taken to ensure the same accuracy as in the case of its own telegrams.

Telegrams in private codes will be accepted as heretofore.

Further particulars may be obtained at the Company's office, where every facility and assistance will be afforded for the compilation of telegrams in the most economical manner.

REBATE ON TELEGRAMS.

A Rebate of 55 per cent. on the cost of Registered Addresses is allowed by the Company to regular senders of telegrams to any station in Europe and America.

As regular senders will be considered those who send—

- a. A minimum of one telegram monthly to the same correspondent,
- b. A minimum of one telegram weekly to different correspondents.

The Rebate will be allowed half yearly to the former category, and to the latter either monthly, quarterly, or half-yearly, at the option of the senders.

In addition to the Rebate the Company's system offers the following exclusive advantages—

1. Free Registration of any number of addresses.
2. Full names of senders and receivers are given in every telegram.
3. The Company, being independent and constantly using the various telegraph lines, is in a position to select the quickest routes.
4. Telegrams can be sent at a great saving of expense in the Company's codes.

Further particulars, tariffs and forms of application for Rebate may be obtained at the Company's Offices and Agencies.

The Company was registered on the 14th day of February last, and arrangements were made with Messrs. J. Taylor and Sons, who are Mining Engineers of the highest repute in London, to open up a mine on the Company's property, and contracts for the purchase and erection of machinery capable of crushing and treating 50 tons or more a day were concluded in London. The necessary Mining staff have also been engaged. In the meantime the buildings requisite for miners' residences, &c., have been constructed. Everything has therefore been done to place the Company in a position to commence their operations as quickly as possible. The Machinery has now arrived and is in course of erection.

The land leased to the Company comprises an area containing reefs but in excess of those which the Company could work, unless a very large increase were made to the capital. The Company's property has therefore been divided into four suitable mining blocks, three of 150 acres each, and one of 100 acres.

The Company is formed for the purpose of carrying on the usual operations of Gold-mining in Southern India, more especially by means of crushing (and if possible utilizing) the quartz and extracting Gold and other minerals therefrom.

It was not until the publication of Mr. Brough Smyth's Report in October last, that the Government and the country became fully aware of the importance and richness of the deposits contained in the reefs of auriferous quartz that are met with in the Wynaad. Several Companies have since then been formed in London for carrying on Gold mining operations, the shares of which have advanced to a high premium; in one instance amounting it is said to 200 per cent. These Companies have purchased the mining rights of the vendors of the land for large cash payments in addition to allotments of fully paid-up shares in the Companies.

Mr. Brough Smyth states in his report that "it may safely be asserted that a complete plant, consisting of ten Stampheads with Engine, Stone-breaking Machine, Buddle, Saw and Frame, necessary Buildings, Reverberatory Furnace, and all other works "could be erected for £5,000." His estimates of working expenses and profits compared with the output of Gold will be found in the appendices.

Through the valuable co-operation of Mr. Thomas Laing, and with the assistance of the Honble G. V. Smith, of Melbourne, the Board have secured the services of Mr. Ralph Hill, a thoroughly experienced and practical Gold Mining Engineer. Mr. Hill, accompanied by a Mining Captain and staff of miners, arrived in Bombay from Australia on the 15th July last, and proceeded at once to the Ripon property. In the meantime much work of a necessary character had been accomplished, such as clearing the jungle, constructing roads and paths, building houses for the miners, and erecting sheds and stores for the tools, appliances, and some machinery which had been obtained from England, so that on Mr. Hill's arrival on the property he was in a position to at once commence mining operations.

As soon as the quartz reefs were opened, Mr. Hill began to speak of the quality of the stone in a very encouraging manner, and the Board are glad to be able to report, now that several shafts and tunnels have been made, that, according to all accounts from the spot, the reefs appear to improve in richness as they go down. Although visible gold is constantly seen in the stone, it appears that for the most part the gold is of a fine flakey character, so that in Mr. Hill's opinion the quartz will have to be treated with the greatest care, and machinery of the best quality will be required. Under these circumstances the Board decided to send Mr. Hill back to Australia, in order that he might personally superintend the obtaining and shipment of every requisite. It is at present proposed to purchase and erect a battery of 20 stamps which Mr. Hill estimates, will be capable of refining say 300 tons of quartz per week. According to Mr. Hill's estimate about 15,000 tons of stone should be crushed in the first year's working, yielding a profit of Rs. 12 a ton.

Mr. Hill hopes to have everything shipped from Australia by the end of February next, so that before the monsoon of 1892 sets in all the machinery should be on the Company's property and in course of erection. If nothing unforeseen happens to delay operations, some return on the money invested may be expected twelve months hence.

Arrangements have been made for carrying on the mining operations during Mr. Hill's absence, and if the present quality of the quartz be maintained, there is no doubt but that by the time the machinery is erected the Company will have many thousand tons of excellent stone ready to be treated. The Company possess Estates for mining as well as cultivation of Coffee, and planting Chincona. The Company's Engineer Mr. John Jeken Cooper, M. E. has been now some months on the properties and expresses himself as highly satisfied with them. It is regretted that owing to the violence of the monsoon, crushing operations were not commenced as quickly as had been anticipated, but the latest report states that crushing on a moderate scale had commenced.

The S. E. Wynaad Company has an acreage of 2,500 acres, comprising three properties, viz. *The Richmond Elizabeth, The Bollingbrook and The Needlerock* all of which have been proved to contain good auriferous reefs. Trial crushings to the amount of 50 tons have been made from the Elizabeth and Tea Reefs on the S. E. Wynaad Company's Estates, giving a very fair average yield of Gold. It is hoped to get the heavy battery of stamps to work by February 1892.

In conformity with the Articles of Association, which fix the termination of the financial year for the 31st May, the Directors have had the accounts to that date made out and duly audited. The Directors think that this is a good opportunity for informing the Shareholders of the exact state of affairs with regard to the position of the Company, which, in their opinion, is favourable and they themselves have every confidence in its success. The mining outlay was about £8,500 including the cost of the machinery (Cook's pulverizers, &c.), buildings, roads and salaries. The capital has been fully paid up, and the available cash in hand invested at the date of last meeting amounted to about £24,500, out of the £30,000 remaining over after paying the vendors the purchase money (£50,000 in cash and shares). The actual mining operations commenced about the 1st June, when Captain Frost and his Cornish staff set to work. They arrived in good health just before the monsoon burst, and have continued well and at work ever since. The extracts from the Report of the Mining Engineer, Mr. J. J. Cooper, dated the 25th August last, and from the Report of Mr. Robert Stanes, of Coonoor, the Company's agent in India (who personally inspected the property), dated the 28th September, which are annexed, will, however, give you every information, and will no doubt be read with interest. Cook's foreman, now in India, has arrived on the Estate to superintend the erection of the pulverizers, &c., and may therefore at no very distant date have some trial crushings, the results of which will be made public. One very favourable feature of the mining is the cheapness of labour, the wages paid to the Chinese coolies, who are becoming very expert,

Days and moments quickly flying
Blend the living with the dead;
Soon will you and I be lying
Each within his narrow bed.

Soon our souls to God's Throne have flown
Will have need their faithful light;
Able now to guide to heaven
Oh, that while we live we might!

Jesus, Infinite Redeemer,
Maker of this subject race,
Teach, O teach us to remember
What we are and whence we came.

Where we came and whither we're going
Soon we meet through darkness go,
To inherit life eternal
Or slavery of woe.

O by Thy power grant, Lord, that we
At our last hour may not from Thee
Saved by Thy grace, O Lord, may we be
All through the days of eternity. Amen.

CHURCH OF ENGLAND ASSURANCE INSTITUTION.

ESTABLISHED 1840.

HEAD OFFICE—KING STREET, CHEAPSIDE, LONDON.
EMPOWERED BY SPECIAL ACT OF PARLIAMENT.

"Short Term" and "Whole Life" Assurances are granted.

In addition to ordinary Assurances this Company issues Policies by which the sums assured are made payable to the Policy-holder himself on his attaining a specified age or to his representatives in the event of his previous death. By this means Officers and others may both provide for their families and secure *Retiring Provision* for themselves.

Also "FREE" Policies are granted which can never altogether lapse in consequence of the non-payment of Premiums.

"Clergy Rates" have been recently prepared to enable Clergymen and Ministers of all denominations to assure their Lives in this Institution upon more favorable terms than in any other Office.

Premiums may be paid annually, half-yearly, quarterly or monthly as desired.

Thirty days' grace are allowed for the payment of annual, half-yearly and quarterly premiums, and fifteen days for monthly premiums. The validity of the Policy will, in every case, be maintained by payment of the Premiums within the stipulated period, notwithstanding the death of the Assured may have occurred before such premiums shall have been received.

No extra rate is charged for sea-passages, and on arrival in Europe a reduction is made in the premium without the assured being required to pass any Medical examination.

Policies effected by parties on their own lives, and assigned as a *bona fide* security to others, will not be rendered void in the event of death by suicide, duelling, or the hands of justice. Claims will become payable within three months after satisfactory proof of death.

The Medical Officer, Dr. Cockerill, sees applicants for Assurance at the General Hospital, on any day of the week at 9 A.M. and Noon at his House, Nungunbakkum.

Detailed Prospectuses, with the names of the Trustees and Directors, Full Tables of Life Premiums, and the necessary Forms of Proposal, may be obtained on application to the following Agents:—

Actuary.

A. H. BAILEY, Esq., of the London Assurance Corporation.

The chief characteristics of this Society are:—

Mutual Assurance.

Policies for terms of years issued at largely reduced rates without participation in Surplus.

Premiums payable half yearly, on 1st January and 1st July.

Claims paid immediately after satisfactory proof of death. An official Notice of death in any of Her Majesty's Government Gazettes is a sufficient proof.

Claims can be adjusted, and premiums can be paid in London, if desired by the Policy holders.

Surrender Values allowed for Life Policies issued at fixed rates of premium which have paid three years' premiums.

The Society's funds must be invested in Indian Government Securities or in other guaranteed Indian Securities.

Quinquennial valuations, by a London Actuary, of Assets and Liabilities. The reduction of premiums for the Quinquennium 1881-85 is at the rate of 70 per cent. of original Annual premiums paid during 1876-80.

Assurances granted on the lives of Europeans, East Indians or Eurasians, and Parsees.

Past experience leads the Directors to anticipate that the retention of the "Mutual" principle and the Quinquennial distributions of Surplus, will bring down the cost of Assurance by this Office, or life to the lowest possible point.

The Medical Examiner sees Applicants for Assurance at his residence, Pantheon Road, Egmore, on Wednesdays and Saturdays between 11 and 12 A.M.

ABRIDGED PROSPECTUS.

This Company has been formed for the purpose of acquiring Estates with auriferous veins in the mountainous Indian Gold Mining Districts, and for reselling the same or for developing the mineral resources thereof.

It is known that many owners are unable, either from want of opportunities or funds, to ascertain the mineral values of their properties, and that most of them are not in a position to obtain the market value for their Estates. The Agency of this Company will in consequence prove attractive to them.

In its negotiations, the Company, before it empowers its Engineers to proceed to an estimation of any property, will enter into a written agreement with the owner as to the terms on which if that estimation proves satisfactory, he will be bound to sell.

Where there is no such evidence that an estate is auriferous, no property will be undertaken, free of cost, to the owner. In other cases, where there is no such evidence, the Company does not propose to undertake any examination, except at the request and cost of the owner.

It is intended that the prominent feature of this Company shall be the operations of the Company shall be to the main, not to part with the cash which will be represented by adequate and substantial properties and securities; and the Company reserves to itself the right upon due advice to undertake such further developments of its purchases as may be desirable for the purposes of resale.

The inducement offered to owners of Estates to deal with the Company will be very great. Hitherto they have received but a very small portion of the profits realized by the sale of their Estates through individual agency to English Companies, but by dealing with this Company they will at once realize the market value of their surface rights, and obtain a liberal share in the disposal of their mining rights.

No agreements have been entered into, and no promotion money has been or will be paid.

Mr. G. J. Harvey's services have been secured as Consulting Engineer and a Mining Engineer of experience and repute is very expertly reported from Australia.

A portable prospecting plant, comprising a four portable stamps, engine, boiler, etc., has been under order for some time and is expected in India about the end of the month. It is capable of working from six to eight tons of ore a day, and being specially designed by Mr. Harvey to be easily moved about, with workings which can also afford reliable data as to the auriferous value of any estate, will be readily obtainable.

Owners of properties wishing to enter into negotiations with the Company are invited to communicate with

MR. JEN. BYAN,
Chelmsford or Chelmsford.
