The pensions to Commissioned, Warrant, Non-Commissioned Officers and Soldiers are payable half-yearly at the India Office, in London, without deduction, at Midsummer and Christmas; but if Non-Commissioned Officers and Soldiers receive their pensions in the country, (if they reside more than 25 miles from London by special leave), a shilling will be charged on each payment for the person who pays them.

The pensions of Commissioned and Warrant Officers are payable as they fall due. Non-Commissioned Officers and Privates paid in advance on their landing, for the broken period to the end of the first half-year, and afterwards half-yearly in advance.

G. O. G. 22nd August, 1874, No. 211.—Officers who retire under the scheme published in G. O. G., No. 656 of 1874, are as much debarred from the benefits of Lord Clive's Fund as any other retired Officers are.

The retirement of an Officer under G. O. G., No. 656 of 1874, is in no way affected by the fact that he receives also compensation for the Colonel's allowance, and therefore has to relinquish the good service pension if he is on receipt of it, and forego all claim to bonus compensation under the terms of G. O. G., No. 808, dated 30th September, 1878.

2. "Such Officers cannot be required to subscribe to the Military Funds as Colonels; nor can they have the option of doing so in any rank higher than that they have attained substantively, unless under the operation of any rules of their respective funds, which would give them that privilege, if they merely retired from the service in ordinary course."

Pensions to Widows.

The Widows of Commissioned and Warrant Officers of the Indian Forces are entitled to the following pensions, upon providing satisfactory evidence that their husbands did not die possessed of property to the amount stated opposite to their respective ranks. The pensions continue during widowhood, but terminate finally on re-marriage which cancels all claim to reversion to the pension previously drawn in right of their former deceased husbands. Should the second husband have been an European Officer, or Soldier, the Widow will be entitled to pension on his account.

QUEEN'S MILITARY FUND.

Regulations of the Queen's Military Widows' Fund, for the Benefit of the Widows and Children of deceased Officers in Her Majesty's Service in India, established in 1820.

Under the protection and countenance of the Most Noble the Marquis of Hastings, Commander-in-Chief in India, the abovesaid Fund was established in the year 1820, for the purpose of sending Home, in comfort and respectability, the families of deceased subscribing Officers in Her Majesty's Service in India, preventing thereby the painful and degrading practice of appealing to the public for subscriptions on such occasions. The Fund also provides relief in such cases until they can conveniently embark.

Modifications of the original Rules have at different times become necessary, and have been adopted with the approval of the subscribers and the sanction of the Commander-in-Chief for the time being.

On the present occasion the Committee of General Management having observed the desirability of making some of the rules more complete, of modifying the rates of subscription hitherto paid, and of amplifying the field of the Fund's operations, represented these views to the subscribers at large, and circulated voting lists in which opinions were given on the proposed alterations.

The Committee are gratified to find that their suggestions have been almost unanimously accepted, and the same are accordingly embodied in the following Code of revised Regulations for the Government of the Fund, which will come into force on the 1st January 1874.

As Officers, on first landing in the country may not have convenient access to the books of Local Regulations, the following extracts are here re-printed, showing the benevolent object with which the Fund came to be originally instituted, and the benefits to be derived from supporting it.

G. O. 24th June, 1820. — "1. With reference to the Circular Letter from the Adjutant General of His Majesty's Forces to Officers Commanding Regiments, dated the 22nd October, 1819, His Excellency the Commander-in-Chief, with a view to give further aid and facility to the arrangement of the Fund for Widows and Children of His Majesty's Officers, is pleased to publish for general information of all concerned, that the Most Noble the Governor-General has signified his consent to become Patron to the humane institution now in progress to establishment, and His Excellency the Commander-in-Chief will consider himself as President, and has been pleased to order a Committee of General Management to be formed at Head Quarters, with which the Presidents of General and Regimental Committees can communicate on all subjects touching the object in view. It will be the business of the Committee of General Management to examine the accounts quarterly, and to order the sums in hand to be deposited in Government Security and that the Paymasters of Regiments make the remittances at the periods prescribed in the printed Regulations, &c., &c."

G. O. 22nd November, 1826. — "The Commander-in-Chief is pleased to publish, for the information of the Officers of His Majesty's Army serving in India, the following General Order, No. 271 of 1826, issued by the Supreme Government:—

Fort William, 17th November, 1826. — "Resolved:—That the following paragraph of a Military General Letter from the Honorable the Court of Directors under date the 27th

of May, 1826, be promulgated for the information of the Officers of His Majesty's Service in India:—

The grant of passage money to the widow of Lieut. Twiss, of His Majesty's 14th Regt., to enable her to return to England reported as a special case.

"Para 16. It appears from the documents annexed to these Proceedings, that Lieutenant Twiss had been so short a time in India, that he was probably not aware of the Fund established for the relief of the widows and families of Officers in His Majesty's Service, dying in India, and consequently had not subscribed to it.

"17. We desire that you will take measures for acquainting all Officers of His Majesty's Service, with the existence of this Fund, immediately on their arriving at any of the Presidencies, and with our determination not to provide maintenance or passage hereafter for the widows or families of any of His Majesty's Officers dying in India.

"The Commander-in-Chief is requested to issue such instructions for making all Officers of His Majesty's Service, on their arriving at any of the Presidencies, acquainted with the determination of the Honorable Court, expressed in the foregoing extract, as may appear necessary to His Excellency."

G. O. 20th April, 1829. — "The Commander-in-Chief, in directing the publication in General Orders of the accompanying statement of the Funds of the institution for the relief of widows of Officers of His Majesty's Service, regrets to find, that an institution so beneficial to all (whether married or single), and so perfectly within the means of the most limited incomes, should not meet with that universal support which it claims. His Lordship is satisfied that there are many who have, from want of attention only, omitted to return their names as subscribers, and is confident that such omissions have only to be pointed out to be remedied; but he considers it a duty which he owes to the Army, to inform them by the publication of the accompanying letter, in the sentiments of which he most fully coincides, that it now remains for the Service generally to consider whether they will support the institution, or allow the widows and children to appeal to individual charity for the means of enabling them in their distress to return to their homes, and an addition to their misfortunes may be removed, and their respectability maintained, by so small a subscription to the Fund, of at most two Rupees a month from a Subaltern, and from other ranks according to the moderate scale laid down in its Regulations."

after from the Secretary to Government, Military Department, to the Commander-in-Chief, No. 195, dated 13th December, 1828.

"The annexed extracts (paragraphs 2 and 11) of the Honorable Court's Military General Order to Madras, under date the 14th May 1828, prohibiting the grant of passage money to families of Officers of His Majesty's Service returning to England, having been forwarded to the Supreme Government, with an intimation that these orders are equally applicable to this Presidency, I am directed to request, that you will lay the same before the Commander-in-Chief for His Excellency's information.

Extract Military Letter to Fort St. George, dated 14th May 1829.

"Para. II. We have had repeated occasions to comment on the Regulations of your Government granting passage money to the families of King's Officers on their return to England, but we regret to find that our instructions on this point have not been attended to with their desired effect at your Presidency.

"III. The cases which have arisen divide themselves into two classes:

"1st. — Widows and orphans of Officers dying in India.

"2nd. — Wives and children of Officers returning to England."

"IV. To provide for the conveyance to England of widows and orphans, who are left in destitute circumstances, a Fund was established in the year 1820 by Officers of His Majesty's Regiments serving in India. The principles and objects of this Fund have received our concurrence, and a subscription of 6,000 Rupees a year has been authorized by us towards its support.

"It must be understood that they are willing to rely, in the event of their death, upon 'charity,' for the removal of their families to England. If, therefore, any widows or orphans of His Majesty's Officers be left destitute, it will be from the fault of their husbands and fathers."

"X. We, therefore, positively prohibit any further advance of money on your part to enable such widows and orphans to return to England."

"2nd.—Wives and children of Officers returning to England."

"XI. We had contemplated the advantage of including these cases among the objects to be provided for by the Fund; but on further consideration, we are of opinion that every Officer must be left to make his own arrangement, independent of any charitable institution, or of the assistance of the State. The Funds to which we contribute for the advantage of the Company's Officers, make no provision for such cases, and no allowance from the Government is ever granted to defray the private expense of Officers on this account. We must therefore absolutely prohibit the grant of passage money to the families of King's Officers returning to England."

G. O. 29th May 1844.—"In conformity with instructions from the Right Hon'ble the Secretary at War, under date the 6th March, 1844, the Commander-in-Chief desires it may be distinctly understood, that all Officers refusing to become subscribers to the Military Fund for the benefit of the widows and children of Officers of Her Majesty's Regiments serving in the East Indies, their widows and families can have no claim to be relieved, either by the East India Company or by the British Government from any expense they may incur in returning to England."

A. G.'s Cir., No. 25, 28th September, 1866.—"On two occasions recently, it has come to the notice of the Commander-in-Chief, that charitable contributions have been solicited from the public at large in aid of the widows of Officers of Her Majesty's Service in India, whose husbands had neglected to subscribe to the Queen's Military Widows' Fund."

"The origin of the Fund was to obviate such appeals, and at the same time to prevent what used to be not an uncommon spectacle, the reduction to the most painful state of destitution of ladies who, during the lifetime of their husbands, were enjoying great comfort, perhaps even affluence."

"Apart from other considerations, His Excellency thinks it very unfair to the unmarried Officers of the Army, a large proportion of whom have already consented to tax themselves in support of this Fund, that they should be thus called on to pay a further contribution in aid of the families of those who were too improvident, or too negligent, to become members of it in their lifetime."

"His Excellency therefore hopes that married Officers will recognise the advantages of this institution, one which the Government deems worthy of its support, and that they will bear in mind the hardship and suffering to which their widows may be exposed by a neglect on their part to entitle them, by the present payment of a small contribution, to a participation in the very substantial benefits which the Fund confers."

Rules.

Rule 1st.—That the Committee of General Management shall be fixed at Simla, and consist of all Officers of the Staff, they being subscribers and present; and that an Officer of the Adjutant General's Department act as Honorary Secretary.

Rule 2nd.—That a Sub-Committee for enquiring into all awards and circumstances connected with this Fund, and acting under the General Committee, shall be formed at Madras and Bombay, composed as follows, such Officers being subscribers:—

The Commander-in-Chief, the Patron.

The Senior Officer of Her Majesty's Army at the Presidency.

All Officers of the Staff.

The two senior Officers of Her Majesty's Regiment stationed at the Presidency.

The two senior Subalterns of Her Majesty's Regiment stationed at the Presidency.

The Adjutant General of the Presidency will depute an Officer to act as local Honorary Secretary, who under direction of the Sub-Committee shall collect and deposit quarterly in the Bank of Bengal, Calcutta, all subscriptions from Officers in the Presidency, at the same time rendering a detailed account to the Honorary Secretary, to the Committee of General Management, at Simla.

Subscriptions.

Rule 3rd.—That every Officer shall pay monthly according to his rank, as specified below:—

		MARRIED.	SINGLE.
		Per month.	
Commander-in-Chief	Rs. 20 per mensem	10	8
Officers drawing pay and allowances of Rs. 1,500 or upwards		8	6
Do. do. do. " 1,000 "		7	5
Do. do. do. " 750 "		6	4
Do. do. do. " 500 "		5	3
All others		2-8	1

Rule 4th.—That the Paymasters of Corps in the Bengal Presidency shall be authorized and required to make these deductions monthly, and shall remit the same quarterly by Transfer Receipt, on the Bank of Bengal, Calcutta, to the Honorary Secretary, Queen's Military Widows' Fund as Simla. In Madras and Bombay subscriptions will be collected in the same manner, and forwarded to the local Honorary Secretary."

No Officer present in India shall be allowed to fall into arrears of subscription to this Fund; and the Honorary Secretary (or Local Secretary, as the case may be), shall be required to warn any Officer whose subscription is six months in arrears, that he must pay up at once on pain of having his name removed from the rolls. An Officer whose name has thus been removed can only re-enter the Fund on the same terms as a new subscriber, and the fact of his removal will not absolve him from his liability for any subscription in arrears at the time his name is struck off. An Officer will be held to be a subscriber if in India, till such time as he notifies his wish for the removal of his name from the rolls.

Officers detached from regiments shall remit their subscriptions to the Honorary or Local Secretary quarterly in arrears by Transfer Receipt, on the Bank of Bengal, obtainable from the Treasury which pays them their salary.

Rule 5th.—All Officers of Her Majesty's British Forces serving in India are eligible to subscribe to the Queen's Military Widows' Fund, on their notifying their intention to that effect through the Regimental Paymaster to the Honorary Secretary at Simla, if they themselves are serving in the Bengal Presidency, or to the Local Secretaries in the other Presidencies if serving in Madras or Bombay. Officers on detached employ may notify direct to the Honorary Secretary their intention of subscribing.

I. All married Officers coming to India for the first time shall subscribe to the Fund within one year of their arrival in India, provided their families accompany them.

II. If followed by their families they must subscribe within six months of the families' arrival, or within one year of their own arrival.

III. An officer marrying in India shall join within six months of his marriage, or within one year of his first arrival in the country.

IV. All married officers returning with their families to India after an absence from any cause, shall subscribe within six months of their return.

V. Married officers, whose families are not in India, may subscribe at married rates, and their widows will be eligible for the advantages of Rule 21.

VI. Any married officer, whose family is in India, failing to comply with the above conditions, can only be admitted as a subscriber to the Fund, on payment of a donation not exceeding six months' subscription of his married grade.

For instance—an officer who had been fourteen months in the country, and his family present at least eight months, would be called on to pay a donation of two months' subscription on joining.

VII. Bachelors may subscribe at any time without payment of any arrears.

VIII. Widowers will subscribe at married rates if they have children in India. If their children are in England, they will only be required to subscribe as bachelors.

Rule 6th.—This Fund, having been established for the purpose of sending home families of deceased officers, and with a view of preventing those painful appeals for assistance to the public, at once so humiliating to respectable individuals, and to the Queen's Service in India, it is earnestly hoped that all ranks of staff and regimental officers will support it; and in order to ensure its objects being known, a copy of these Rules will be furnished to every subscriber, and to the Commanding Officer and Paymaster of each regiment and battery.

Rule 7th.—That, in order to obviate the difficulties which would arise occasionally from the remoteness of certain stations of Her Majesty's Corps serving under the several Presidencies, the Most Noble the Governor-General in Council was pleased to order and direct, when the Fund was established, that Public Service Remittances might be granted to the Paymasters of Her Majesty's Regiments payable at sight to the Honorary Secretary of the Queen's Military Widows' Fund, acting for the Committee of General Management, thereby avoiding commission, double agency and loss by exchange.

Public service remittances from the remoteness of certain stations of Her Majesty's Corps serving under the several Presidencies, the Most Noble the Governor-General in Council was pleased to order and direct, when the Fund was established, that Public Service Remittances might be granted to the Paymasters of Her Majesty's Regiments payable at sight to the Honorary Secretary of the Queen's Military Widows' Fund, acting for the Committee of General Management, thereby avoiding commission, double agency and loss by exchange.

* The Honorary Secretary would invite attention to Rule 1. The Balances of the Fund are kept as much as possible with the Bank of Bengal, consequently when transfer Receipts are payable in Simla, the local Bank charges a percentage for remitting the accumulated sums to Calcutta, and this will be saved, if remittances are made payable in Calcutta; but they must be sent to Simla for realization as the books of the Fund are in the Adjutant General's Office.

Grants.

Rule 8th.—That all grants of assistance from this Fund shall be regulated and assigned by Committees of Subscribers, as herein declared.

Lodgment of claim.

Rule 9th.—That in order to ascertain the claims of any widow or family, who may become entitled to the benefits of the Fund by the death of any regimental Officer, each widow shall represent the case of herself and family through the Commanding Officer of the Corps the casualty occurred in, in order to its being brought to the consideration of a Committee; and the Commanding Officer shall, as far as his knowledge will enable him, state his opinion of any case so received.

Committee of Award.

Rule 10th.—That whenever there may be more than one Corps of Her Majesty's Service stationed together, every application for relief from this Fund shall be heard and decided on by a Station Committee, composed, as equally as possible, of Officers from the Corps present, being subscribers to the Fund.

STATION COMMITTEE.

President.—A Field Officer or Surgeon-Major (if practicable).

Members.—One Captain or Officer of equivalent rank.
One Subaltern or Officer of equivalent rank.

Rule 11th.—In the event of Officers dying while the Corps they belong to is stationed by itself, or while they themselves are absent from their Regiment, it shall be in the power of every Commanding Officer of a Regiment or Station, under those circumstances, to assemble a Committee of any three Officers, being subscribers, to hear and decide upon the cases of any widows and children who have become entitled to relief from this Fund. In the event of there not being three subscribers at once available to form a Committee, the Commanding Officer of the Station or Corps may avail himself of non-subscribers, to avoid the delay which would be entailed in assembling a Committee composed wholly of subscribers in the usual manner. It shall also be competent for the Commander-in-Chief at either Presidency to assemble a Special Committee to report on the case of any lady who may have become a widow whilst the Regiment to which her husband belonged is at another distant Station, or on service beyond sea.

Special Committee.

Rule 12th.—That the Station, Regimental, or Special Committee, having duly examined into the circumstances, shall report their opinion thereon, and recommend the amount to be granted for passage-money and maintenance, strictly in conformity with the Regulations annexed. The opinion and recommendation of the Committee shall be immediately forwarded to the Honorary Secretary of the Presidency by the President of the Committee, and the Paymaster of the Regiment, or on arrival at the Port of embarkation, by the Honorary Secretary.

Rule 13th.—The Sub-Committees at Madras and Bombay will in cases of award in those Presidencies, on satisfying themselves of the accuracy of the statements laid before them, draw on the Adjutant-General of the Presidency for the amount which may be awarded; but in the final adjustment of the accounts of each Sub-Committee, the Committee of General Management will consider themselves bound to object to any sum, however trifling, which may be granted in excess of the Rules laid down. To facilitate the immediate payment of awards, a sum of Rupees 5,000 is lodged in each of the Presidency Banks, to the credit of the Adjutant-General of that Presidency.

Rule 14th.—The Sub-Committee will, on drawing for any sum on the Adjutant-General of the Presidency, in cases of awards, transmit to the Honorary Secretary at Simla, the Report of the Station Committee, accompanied by receipts and certificates, showing that the money has been appropriated in the manner and for the purposes for which it was awarded.

Rule 15th.—But to prevent doubts and misconceptions which might possibly arise hereafter, it is distinctly declared, that no widow permanently residing in this country after the death of her husband, can expect any provision or allowance for herself or children from the Fund, further than is stated in Rule 23.

Limitations.

Rule 16th.—Orphan children are eligible for the benefits of this Fund, but awards for them must be specially made by a Station or Regimental Committee, and sanctioned by the Commander-in-Chief of the Presidency, who is requested to appoint some eligible person to take care of them, and provide a passage, &c., &c.

Rule 17th.—That the Honorary Secretary, acting for the Committee of General Management, shall furnish an annual account of the Receipts and Disbursements of this Fund to the Adjutant-General, Bengal; in view to its being published in General Orders by the Commander-in-Chief in India.

Rule 18th.—That no General Rule or Regulation of this Fund shall be altered, except it is recommended by the General Committee, and approved by a majority of the subscribers.

Rule 19th.—That all widows of Officers, who were subscribers to the Fund up to date of departure from India, shall be entitled to the amount granted to widows and children for passage money to England if their husbands had provided their own passages, and died en-route to England or during their absence on sick certificate at the Cape of Good Hope, the Mauritius or Australia; but in cases where their late husbands were found in passages by the State, then such widows and children will be entitled to four months' maintenance allowance only, according to the scale laid down in Rule 21.

Rule 20th.—That no special grant, in cases of great distress (not provided for by the Regulations of the Fund), shall be passed by the Committee of General Management without the sanction of the majority of subscribers, which sanction is to be declared in the General Abstract of Accounts published annually for the information of Subscribers.

Rule 21st.—When an officer dies in India, his widow will be entitled to maintenance allowance, according to the following scale, for three months, from date of decease of her husband if in India, together with passage money; and to four months' maintenance allowance without passage money, if she is out of India, provided in the latter case that her husband was a subscriber at the married rate at date of his decease:

Of an officer, who paid on Rs. 400 and upwards, per mensem.....	" 400
Of all others.....	" 300

Rule 22nd.—In addition to the above a travelling allowance on the scale below, will be made to widows to the port of embarkation or place of residence in India, as the case may be. In certain exceptional instances, where the rates will not meet the expenses of the journey, the Committee assembled under Rules 9 and 10 should record in their Proceedings the actual cost of the journey, and the amount they recommended for incidental expenses; each case so specially recommended will be dealt with on its own merits, and the Committee of General Management reserve to themselves the power of rejecting any proposed deviation from the ordinary course, and will also, if the expenses of any journey appear to have been over-estimated, reduce the same to any limit which may appear to them fair and reasonable.

No. 507 of 1875.

The following General Order by the Government of India, is republished:—
Sd/-, 10th July, 1875, No. 728.—With reference to G. O. No. 1815,* dated the 28th December, 1872, the following letter from the Right Honorable the Secretary of State for India, received on this date, is published for general information:—

* Madras G. O. G., 29th July, 1875, No. 507.

FINANCIAL; MILITARY FUND, No. 328; INDIA OFFICE, LONDON, 21st JUNE, 1875.
To His Excellency the Right Honorable the Governor-General of India in Council.

My Lord,
1.—The case of an officer exchanging into the Staff Corps from the British Army not having been provided for in the regulations of the Indian services family pension fund, a reference was made to Major-General Hamington on the subject, and it appears from a calculation made by that officer that the ordinary donations for wives and sons will be sufficient to provide for the pensions allowed by the rules, but that the extra donations specified in the table in the margin must be charged in the case of daughters according to their age at the date of their admission to the fund.

2. Extra donations for daughters must accordingly be paid by an officer who has exchanged into the Staff Corps since the 1st January, 1873, and the table in question should be added to the regulations of the fund from the date of the receipt of this despatch.

I have, &c.,

When the sums required to secure the Maximum or Minimum pension in the Widows' Branch shown in columns 7 and 8 are paid on joining the initial donations above referred to are not demanded as that amount is included in the amount required to secure the Maximum and Minimum pensions.

Increased payments in one sum are required from persons joining the Funds after the age of 40, and no person can be admitted or transferred to a higher class after the age of 55 years; delay in joining after being admitted by the Committee necessitates a fresh medical certificate being submitted. Subscriptions in the Children's Branch commence from the date of application to subscribe for the child, and continue until the age at which pensions terminate. Transfers from a lower to a higher class are permitted on production of the prescribed medical certificate on payment in one sum of difference of donation and of subscription according to age. Subscribers to the Children's Branch must also belong to the Widows' Branch.

The pension in the Children's Branch is secured as soon as entrance donation is paid in full. In the Widows' Branch Maximum and Minimum pensions are respectively secured when the total payments in that branch amount to the sums specified in the foregoing table, see columns 7 and 8, irrespective of that paid for admission after 40 years of age. Subscribers are allowed at any time, on furnishing a medical certificate in the prescribed form, to pay in one sum, or by such instalments as they may find convenient, the difference required to entitle their Widows to immediate pension.

Pensioners may reside at any station or in any country they choose. Widows remarrying, lose pension during coverture, but revert to the Fund on again becoming Widows. They also receive a portion of a second pension if the second husband also had been a subscriber at the time of his death. Pension is forfeited by incontinence. No pension is paid to Widows and Orphans of Subscribers who die with six months' subscription in arrears, and Subscribers' names are struck off the books when twelve months in arrears. Subscriptions due for a period exceeding three months are not received unless accompanied by a Medical Certificate, and a sum equal to the amount due as a penalty.

Further particulars if required may be had on application to the undersigned. One Anna postage stamp must accompany the application.

PAY AND ALLOWANCES AND STAFF PAY.

2. All Warrant Officers will receive a monthly net "warrant pay" according to rank which, with a monthly sum as "warrant allowances" intended as a full equivalent for batta, tentage and house-rent will together constitute the monthly "warrant pay and allowances."

3. When in effective employ in the Ordnance, Commissariat, or any Department where no other special departmental Staff or consolidated salary is allowed, they will receive in addition to the warrant pay and allowances a warrant Staff pay according to grade.

4. When a Warrant Officer is out of employ owing to no fault or seeking on his part, or if he resigns his appointment with the full approval of Government, he will, whilst so unemployed, be entitled to his "warrant pay and allowances."

5. When put out of employ for misconduct or incapacity, or if he resigns his appointment without, in the opinion of Government, sufficient grounds for so doing, he will only be entitled to his net "warrant pay." In particular cases, however, he may be allowed, as a maximum, the invalid scale of pay of his rank, but only with the special sanction of Government.

6. The following are the monthly rates of pay and allowances for the several grades:—

GRADES.	Net or Warrant Pay.	Indian Warrant Allowances.	Total Warrant Pay and Allowances.	Staff Pay when effective, and not receiving departmental Staff or consolidated Pay.	Total receipts when in effective employ.
Deputy Commissary.....	Rs. 120	Rs. 180	Rs. 300	Rs. 240	Rs. 540
Assistant Commissary.....	75	150	225	150	375
Deputy Asst. Commissary.....	60	120	180	120	300
Conductor.....	50	50	100	60	160
Sub-Conductor.....	40	40	80	45	125

7. For broken periods the daily pay and allowances will be calculated at one-thirtieth of the monthly pay.

8. The extra Staff allowance of Rupees 60 and Rupees 30 to permanent Conductors of the 1st and 2nd class, will continue to be paid as heretofore in the Ordnance Department.

9. Warrant Officers in receipt of the effective Staff pay will, when on leave, be subject to reduction on the same principle as that applied to Commissioned Officers.

FURLOUGH AND INVALID PAY, RETIRED AND WOUND PENSIONERS.

10. The annual furlough pay and retired pensions will be the same according to grades, and will be payable in British Currency. The invalid pay can only be drawn in India.

The wound pensions will be those laid down in Government General Order, No. 577 of 22nd May, 1867.

Mauritius Screw Pile Pier.

This important work has been completed by Mr. Frederick Johnson, Civil Engineer of North Street, Westminster, London, pursuant to the terms of a Contract entered into between the Council of India and himself, under date the 9th November 1858.

The dimensions of the structure are as follows—
Extremes length, from high water-mark, 1,000 feet.
Breadth throughout, 30 feet. Besides the main body, the Pier has a cross of T-shaped head, 160 feet long by 40 broad. The work is constructed of Mitchell's Patent Screw Piles, of solid wrought iron, respectively 6 inches and 8 inches in diameter, placed in rows of four abreast, and at distances of 10 feet between the centre of each row.

These Piles are screwed down into the sand to the depths undermentioned, that is to say—the first 25 rows, 11 feet; the second 25 rows, 13 feet; and all the remainder, 15 feet. The whole structure is securely tied together by transverse T-braces of wrought iron, and by longitudinal tension rods of the same material.

Commencing at the inner part side of the Pier Head and continued 200 feet on each side of the main structure, the iron Piles are protected by tender piles of timber placed at short intervals, and secured to the Iron Screw Piles by strong wrought iron bands. Originally the platform was composed of beams of creosoted Baltic Timber covered with oak planks, six inches broad by four inches thick, with spaces between the planks. This has now been replaced by beams of oak covered with mango planks, three inches thick, placed close together and the seams caulked in the same manner as the deck of a Ship.

Four lines of railway are laid down along the main Pier, with the necessary Turntables, &c., and the rest of the space available fitted up for the service of foot-passengers.

The Pier Head is furnished with six fixed cranes, varying in their lifting power from 3 to 10 tons, and 6 moveable cranes of 30 hundred weight each are placed on the rail ways traversing from point to point as necessity arises.

It is proposed to dispense with the Screw Moorings provided for in the Contract, and in lieu of them to put down Brille Moorings with one-iron Anchors.

The total cost of the works, as agreed on in Mr. Johnson's Original Contract, £1,09,518, but a second Contract was subsequently entered into for the extension of structure shoreward a length of 80 feet, at an extra charge of £4,332.

PASSAGE RULES.

PORT ST. GEORGE, 22nd August 1863, No. 376.—The following Extract from Notification from the Gazette of India is re-published:—

FINANCIAL DEPARTMENT, No. 2467, SIMLA, the 23rd July 1866.

Rules for the Grant of free passage by Sea to Civil Officers.

The Governor-General in Council is pleased to prescribe the following rules for regulating the provision of free passage by Sea for Public Officers in Civil employ, in substitution of the Rules contained in Financial Notification, dated 15th December 1865, No. 224,* published in the Gazette of India of the 30th December 1865, page 1348:—

Officers and other public Servants on the permanent Establishment of a Department will be allowed a free passage when proceeding on duty by sea, in cases in which they would receive travelling allowances if proceeding on duty by land. Military Officers in Civil employ will, in addition, be allowed a free passage when being employed at a station beyond Sea, they may be obliged to return to their Presidency in progress to Europe or to a Hill Station, on leave on Medical Certificate, also when they rejoin their station on return from that leave.

For every Covenanted Civil Servant, Military Officer in Civil employ and Uncovenanted Officer of higher rank than Clerk, who may thus be entitled to a free passage, the entire charge for a first class passage will be paid by Government, who will recover from such Officer either the full or half rate of table-money for the number of days occupied in the passage, according as his salary may or may not exceed Rupees 600 a month.

The full rate of table-money shall be reckoned at 8 Rupees a day on vessels in which the cost of a free passage includes, but at 4 Rupees a day where it is exclusive of charge for wine, beer, spirits and soda water.

For Public Servants messes at the Warrant Officers' or Engineers' table, viz., for Warrant Officers of every grade, European Non-Commissioned Officers attached to Departments or Public Offices, Subordinate Accountants and Clerks of Departments of Public Offices, who are entitled to a free passage, and for the families of these classes, 2nd class accommodation, including generally a screened berth will be provided, and the entire cost of the second class passage, without any deduction from the passengers on account of table-money, will be borne by Government.

Passage for servants and luggage, within the limits prescribed by the rules of the Quarter-Master General's Department prevailing at the port of embarkation, will so be allowed and paid for by Government, in cases where a more liberal scale is already authorized on special grounds.

SECTION IV.—TROOPS IN GARRISON.

I. The Ordnance Department will as hitherto have charge of and will work the Rocket and life-saving apparatus, but portions of the Garrison Battery will be instructed and occasionally exercised in its use under the orders of the Commissary of Ordnance in charge of the Grand Arsenal.

II. The two-day Marine Signals to the shipping signifying "suspicious weather" (white flag with blue cross) and "cut or slip" (red flag with swallow tail), and the night signal of the approach of dangerous weather (three good lights, one at the mast head and one at each yardarm) will be repeated at the Fort flag-staff. On the first signal being hoisted the Brigade Major will warn the Ordnance, Medical, and Commissariat Departments of the fact, in order that all concerned may be held in readiness. On either of the last two signals being hoisted seven guns will be fired from the sea face of the Fort with an interval of five minutes between each gun. No further action will, however, be taken by the "Troops in Garrison" consequent on any of these signals.

III. In case of intimation being received from the Marine Department by the Brigade Major of imminent danger or of actual shipwreck, or in case of such danger or shipwreck being observed from the Fort, the "wreck signal" will be fired. It will be two guns fired in quick succession from St. George's Bastion, which will be twice repeated at intervals of three minutes.

IV. When the "wreck signal" is rendered necessary, the Brigade Major will send intimation to the Troops in Garrison and to the Ordnance, Medical and Commissariat Departments; and the following arrangements will be carried out:—

1. Two mounted Non-Commissioned Officers and six Troopers of His Excellency the Governor's Body Guard will proceed to the Fort and place themselves under the order of the Brigade Major. They will be used as orderlies, as occasion may require, and when not actually wanted will be kept as much under shelter as convenient. Twelve additional men of the Body Guard will remain in their lines with their horses saddled in case their services as patrols may be needed to watch ships driving to points at some distance from the Fort, and to convey prompt intelligence of wreck or applications for aid along the extended line of beach to the Officers Commanding Troops and other authorities on the spot.

2. The Royal Artillery and British Regiment garrisoning the Fort will fall in, in fatigue dress, and working parties will be detailed, and promptly despatched to the scene of action as required. Before, however, the working parties leave the Fort, inquiry will be made at the Arsenal as to whether any assistance in men from the Royal Artillery is required to supplement the Ordnance rocket parties; and applications will, under the orders of the Officer Commanding Troops in Garrison, be made at the Arsenal for a supply of boat or firehooks, ropes of moderate length and thickness, grappling irons, &c., which will be under charge of the officers Commanding the working parties and will be used in saving life and property from the surf. Lanterns will also be supplied should the wreck take place at night.

3. Half of the Native Infantry Regiment at Royapooram will at once fall in, and accompanied by its Medical Officer with medicines and surgical appliances, will march to the beach in fatigue dress. The remaining Native Infantry in Garrison will be restricted to their respective lines and await further orders.

V. It is not anticipated that the Police will be unable of themselves to keep perfect order along the beach, and adequately to perform all their appropriate duties, and, therefore, the action of the troops may be directed towards saving life and property; but they will be ready to keep the ground or aid the Police in any way that may be required.

VI. The Officers Commanding Troops will, wherever possible, consult with the Officers of the Marine Department on the spot as to where and how the services of their men can be most usefully employed, and the advice of the Marine Officers will be met with marked attention.

VII. Arrangements will be made for the relief, food, &c., of working parties by the Regiments and Departments concerned.

VIII. The Officer Commanding Troops in Garrison will make emergent requisition on the Officer in charge of the Camp Equipage Depot for such tents as may be required to shelter shipwrecked people.

IX. Officers on wreck duty will be in uniform, and mounted Officers will have their horses with them.

SECTION V.—ORDNANCE DEPARTMENT.

I. The Commissary of Ordnance, Fort St. George, will be responsible that three sets of life-saving apparatus, with rockets, &c., complete, are at all times kept packed in carts ready for use in the arsenal of the Grand Arsenal, and that the Warrant and Non-Commissioned Officers, &c., of the Department are instructed and periodically drilled to the practical use of the whole apparatus.

II. Inconvenience, danger, loss of life and much damage of property were sustained in the Cyclone of May 1872 by there being no available means of dragging from the sea the logs, pieces of wreck, bales of goods, &c., which were dashing to and fro on the edge of the surf. There will, therefore, be held at all times in readiness by the Commissary of

Ordnance a supply of boat and firehooks, grappling irons, and ropes of short lengths for issue as required to the Military working parties. Lanterns will also be kept ready for wreck night duties.

III. On the Commissary's receiving intelligence from the Brigade Major that the "suspicious weather" signal has been hoisted, he will make arrangements to have one rocket party of Europeans with a Detachment of Store Lascars in the Arsenal night and day till the danger passes off, or their services are required.

IV. On the "wreck signal" being fired, or on receiving intimation from the Brigade Major of imminent danger to the shipping, the Warrant and Non-Commissioned Officers will be formed by the Commissary of Ordnance into rocket parties with Detachments of Store Lascars; and, as speedily as possible, one, two, or three of these parties (as may be required) will proceed to the point or points where their services are most urgently required. These points, and the ships to which aid is to be first given, will be decided on by the Commissary in consultation with the Marine Authorities on the spot, by which he will be guided in the matter. If the rockets are used in the rescue of any ship's crew, the whole apparatus attached to the rocket cart will, under ordinary circumstances, be employed and be worked by the men of the Ordnance Department.

V. Two trollies drawn by mules, have been ordered on occasions of wreck to be placed at the disposal of the Commissary of Ordnance by the Commissariat Department. They are intended to be used for the conveyance of rocket apparatus, hawsers, &c., should any wreck or wrecks take place at a distance from the Fort, such as at St. Thome or the Adyar; but, should they not be required for this purpose, they may be employed under his orders, for any other necessary use connected with wreck work.

VI. The Commissary of Ordnance will, in communication with the Officer Commanding the District, arrange for the instruction of Detachments of the Battery of Royal Artillery in the use of the rocket and life-saving apparatus.

VII. He will apply to the Brigade Major or Officer Commanding Royal Artillery, Fort, for any aid in men which he may emergently require in the case of a Cyclone.

VIII. When hawsers are necessarily left attached to wrecks, the Commissary of Ordnance or Senior Ordnance Officer will inform the Police of the fact.

IX. All Officers, Warrant and Non-Commissioned Officers and Store Lascars will be in uniform on wreck occasions.

SECTION VI.—MEDICAL DEPARTMENT.

I. On the "wreck signal" becoming necessary, the Brigade Major will send intimation of the fact to the Fort Surgeon and the Resident Assistant Surgeon at the General Hospital. The latter will warn the Surgeon and the Physician of the General Hospital, and similar warning will be given to the Superintendent of the Eye Infirmary at Vepery and to the Surgeon of the 1st District at Royapooram by the Officers Commanding the Regiments at these places.

II. On hearing the guns of the "wreck signal," or on receipt of intimation from the Brigade Major, these Medical Officers (except the Physician, taking with them a portion of their establishments and the medicines and surgical appliances, which have been detailed by their Departmental Head, will forthwith proceed to the beach, and in consultation with the Senior Marine and Military Officers on the spot, will distribute themselves to the various scenes of wreck or apprehended wreck, as occasion may require.

III. The Physician of the General Hospital will remain at the institution to receive and afford medical aid to all such as may be sent there from the beach for treatment.

SECTION VII.—COMMISSARIAT DEPARTMENT.

I. On intimation being received from the Brigade Major of imminent danger to shipping, or on the "wreck signal" being heard, two trollies drawn by mules will immediately proceed under a Staff Sergeant to the Grand Arsenal and there await the orders of the Commissary of Ordnance.

II. Two other trollies, drawn by mules, each under care of a Warrant or Non-Commissioned Officer, and each containing an assortment (which will always be held in readiness in waterproof covers or cases) of blankets, towels, flannel, banyans, flannel drawers, biscuits, brandy, water and drinking vessels, will be taken in the first place to the Marine Office, and thence, as directed by the Marine Officer, to the scenes of shipwreck, where the contents will, if required, be issued and used for the relief of shipwrecked persons under the orders of the directing Medical, Military or Marine Officers present. As many sets of bearers as are available with hammocks slung on poles will at the same time be sent to the beach and will be placed at the disposal of the said officers.

III. The Executive Commissariat Officer will also despatch a supply of draught bullocks with drivers to the Camp Equipage Depot for sick carts, which, under the orders of the Warrant or Non-Commissioned Officer in charge will be taken to the beach as soon as the violence of the weather permits, and will also be placed at the disposal of the said officers.

SECTION VIII.—QUARTERMASTER-GENERAL'S DEPARTMENT.

The Quartermaster-General will give directions that the officer in charge of the Camp Equipage Depot will in cases of wreck promptly comply with emergent requisitions in writing from the Commissariat Department for blankets, doilies, sick cart, &c., and with similar requisitions from the Officer Commanding Troops in Garrison for tents for the shelter of shipwrecked people.

A
CIRCULAR.

Whether uncertain at present season, or necessity for being prepared to stand to sea.

The periodical season of uncertain weather on this coast having now arrived, the undersigned would hereby earnestly caution all Commanders of Vessels in these Roads to keep their ships as much as possible prepared in every respect for standing to sea, at short notice, should the necessity arise for doing so.

1. Top-gallant masts, &c., with their rigging also, must be got on deck, flying jib-boom sent in, topsails and courses kept ready reefed, and everything on deck and below so arranged as to admit of being quickly secured on emergency. A good slip rope and buoy should be attached to the riding cable, and, as an additional precautionary measure, a stout warp also, to be used as a spring in casting the vessel if found necessary, on being required to put to sea.

2. A prudent distance from the shore in respect to anchorage must now be observed, as a vessel lying nearer in at the time of bad weather here is, from exposure to the heavy ground swell, necessarily far less able to ride easily and securely than one well out.

3. Too much care cannot be paid in maintaining a perfectly clear berth, and Commanders should be mindful to keep their ships at as great a distance from each other as can conveniently be managed in order to avoid risks of collision by drifting, or when slipping to stand to sea.

4. Every attention in the way of observation and look out will be paid by this Department, and the usual warning and other signals promptly made, as need may call for. In order to prevent misapprehensions on the subject of signals, especial attention is requested to the circumstance that (during the prevalence of foul weather, however, only when a press of signal is intended to be made to a single vessel, besides hoisting her number in the first instance, No. 1 will be kept flying at the opposite yard arm. All other signals in which this said distinction is not made use of are to be considered as general and obeyed accordingly.

5. It is very desirable that, during the prevalence of suspicious or threatening weather, Commanders should remain by their vessels. Commanders should stay at night on board their respective vessels, and also remain by them as much as possible until the uncertain period has been passed over.

6. In the event of wreck occurring, the usual appliances as put forth by the Board of Trade are adopted here, but should it be observed the rocket apparatus is not at once forthcoming, a line should be immediately sent on shore from the vessel by some kind of buoy, or other handy means, to which the tail block and double line will be attached by those on shore, or signals made as to what other steps must be carried out.

7. In conclusion, Commanders are earnestly reminded that, as intimated in the Port Instructions, "Commanding Officers are not to wait the display of signals if they deem it prudent to put to sea," it being in no way whatever obligatory for them to await directions from the shore for standing to sea.

* A Compendium of the Law of Storms prepared for the Bay of Bengal.*

The Cyclone in all its various forms, and in all portions of the globe subject to its visitation, must be denominated the most fearful and the most frequent enemy which the mariner's perilous calling obliges him to encounter. But for this obstacle the Bay of Bengal would be very easy of navigation, for the very large amount of evidence brought to bear upon the subject goes far to prove, that in this sea all violent storms are of a cyclonic nature, and move from eastward and westward. They are great revolving storms varying in expanse from forty or fifty to some hundreds of miles, blowing round and round a centre or vortex, but with an ever-varying force, now falling into a strong breeze, and again swelling up into a blast of uncontrollable fury. The peculiar characteristic of their revolving action is that in each hemisphere the gyration invariably takes place in one direction contrary to the hands of a watch. In North Latitude from right to left; and in South Latitude from left to right. The knowledge of this law not only supplies the seamen with direct means of distinguishing them from common gales, but reveals to him the position of his vessel with respect to the vortex, and points out the way to escape from it. The following remarks and examples, though intended for the Bay of Bengal and Andaman Sea will apply also to the open parts of the Arabian Sea. These storms take their rise a few degrees of latitude north of the Equator, and at the periods of greatest atmospheric disturbance, owing to the changes of monsoons. About April and May, and October and November though these dates are only approximate, and unusual weather at any time may be attributed to their neighbourhood, and suspected accordingly, they are accompanied with threatening aspect of the sky, together with greyish halos round the sun and moon; rolled and tufted forms of clouds, with bright streams of light and extraordinary colors; a heavy bank of clouds forming an arch in the direction of the storm, varying currents of clouds in motion above, and dark banks on the horizon below, with darting forks and threads of pale lightning, lurid redness at sunrise and sunset; peculiar murmuring in the winds, the frequent presence of weary land birds and insects; and last and best warning of all to those who possess it, the decline of that invaluable monitor the Barometer, deeply valuable here, because its usual state is one of almost perfect tranquility, broken only by a daily tide rising and falling about one-tenth of an inch, highest at 10 A. M. and P. M., and lowest at 5 A. M. and P. M.; whenever this action is suspended or interrupted, bad weather is never far off. The surface of the sea also exhibits signs of disquietude, becoming confused and uneasy, and crossed frequently by long swells from other than the quarter of the prevailing wind. Whenever any or all of these warnings are met with, the mariner should at once consider the almost certainty that exists of having to encounter a storm of the revolving nature we are treating of. His first duty is to find the centre of vortex, and its bearing from the ship. To do this he should note the direction of the wind, and with his face to it, tell of eight points to the right, if in the open sea, which we will first consider thus—wind at N. the centre is E., with wind E. centre S., wind S. centre W., wind W. centre N., and so with intermediate points—wind N. E., storm S. E., wind S. E., storm S. W., wind S. W., storm N. W., wind N. W., storm N. E., &c., when near land or in roadsteads, these bearings require modifying, as will be explained hereafter. Having determined the direction of the storm, the next consideration is his position with regard to it. All experience tends to show that they commence to southward between southward and eastward and eastward, and cross the Bay in a curve, sometimes sharp, sometimes very extended nearly N. and S., but an average tract of from S. E. to N. W. will suit the purpose of illustration. The continuation of the voyage, and the direct course of the ship ceases at this period to be a primary object. All knowledge and seamanship should be directed to avoiding this enemy, and the saving of life and property. The accompanying diagrams will show better than any verbal description both the nature of the evil and the remedy to be adopted. The outside circle represents the shape of the storm; the arrows and letters the direction of the wind; the small circle the centre; the dotted lines the path on which the storm is advancing; the compass points are also indicated.—See Figure 1.

In this diagram all the ships are shown having the wind on starboard quarter so that if the storm was stationary scudding in that position would always ensure safety. It does in fact do so in all cases, except with the wind easterly, when great care and judgment are requisite, and the value of preliminary observations becomes apparent, the direction of the storm whether northward or westward of the average track, being of vital importance.

A careful study of books of reference and of logs and facts drawn from extended experience justifying the conclusion that the best course, with the wind at E. or to the north of east is to run to the N. W., changing your course as the wind veers to the northward keeping it on the starboard quarter until it reaches N. W., when if bound to the N. E., you can bring it right aft and sail round the storm until your course is reached, or continue your track if bound to southward; much depends, however, upon the direction of the storm as indicated by phenomena, and the veerings of the wind if any have taken place.—See Figure 2.

* For the use of native vessels of all classes. The compendium is translated into Tamil, Telugu, and Hindustani and issued free of charge at the various ports of the Presidency.

With the wind from E. to E. S. E., carry on as long as possible to N. N. E., N. E., making all possible easing, then heave to on starboard tack. With wind at S. E. to S. if bound to southward or westward, you will be standing straight into danger, make easing until weather improves, then lie to on starboard tack. With wind from S. round to N. W., you must be behind the storm, and should have no difficulty in keeping clear of it. In fact the only risk with common management and taking in time is wind from E. N. E. to S. E.—See Figure 3.

When it suits best to heave to choose the port tack in the west side of the storm, and the starboard on the east side, for the wind in each will shift by the storm.

The foregoing remarks apply to the open seas, if Bengal and Arabia, and the ships are supposed to have sea room. They comprise all that need be said to advise and encourage the mariner. But on the coasts of Coromandel and Orissa and Ceylon, when the storm approaches the land, a modification of its form takes place, to which it is necessary to draw attention. The bad weather always commences a point or so on either side of north, although the centre may be E. S. E., or even S. S. E. There seems also to be a retardation of the speed of the southern half as if it was making time, until the outer half wheeled round before the whole thing itself on the land. This proceeding allows the careful navigator time to run to the southward, and having secured a position of safety, remain behind the storm to his anchorage, taking care not to overtake it. The shape of the land also favors this manœuvre, for even in Madras itself a run of a few hours to the southward gives room to let the ship off to the westward, or run down to Pondicherry. Standing out into the offing is merely exchanging one danger for another, and is directly opposed to the law of storm. Run at the earliest intimation of danger, without giving a thought to the distance it may take you from your port. Wind and current will hurry you down, and when on the safe side wind and currents will bring you back before the state of the sea and surf allow business to be reconducted. You are losing nothing, and knowing that you are following the advice given with all the advantages of scientific knowledge, of experience, of the study of example and practice, and the aid of the best instruments and the Electric Telegraph. You can dismiss from your mind the great care of forming a judgment in such critical period, and give all attention to the ship, knowing that your conduct will meet with approval.

Pages might be filled of successful instances of this treatment, and the disaster following any other course, but space will not permit, and it is requested to accept the facts as they stand, reserving the study to some leisure moments.

When compelled to lie in severe weather, when shifts of wind are dangerous, it would be well to keep ready a large stone anchor, like Chinese, stone being selected for cheapness, and the materials of a catamaran, which being put overboard with say twenty fathoms of cable will make a secure buoy, at which the ship may ride with her strong bows to wind and sea, and extra stays to suffer when used to keep the ship's head up, which is always one of the first things to suffer when used to keep the ship's head up. Then with hatchways well secured, the crew sheltered, and only the state of the weather requiring attention, a vessel will stand a great deal; and from the moment the first change you have been taught to expect occurs, a spirit of confidence will replace the doubt and despondence which add additional terror to the disturbance around. It is, however, very advisable not to navigate if possible during the bad-weather months. Any injury to a vessel will cause much greater detention, and involve direct expense, and no shipowner of common humanity or honesty will send a vessel to unload entirely or render herself so unseaworthy that the advent of one of these storms to be expected at any moment must ensure destruction to property and grievous loss of life.

Madras Light House.

The Light House at Madras is immediately to the Northward of the wall of Fort St. George, and the light from it was first exhibited in January 1844. The light is elevated 125 feet above the mean level of the Sea,—and may be seen from the deck of a Ship at the distance of 20 miles. The light is of the "Flashing Description" and the duration of the Flashes to that of the Eclipses or Dark periods is in the ratio of 2 to 3,—but as the nature of the motion is Reciprocating instead of Rotatory, the above ratio merely expresses the average proportion of the Light and Dark intervals which are themselves variable according to the position of the spectator. The rapidity of movement is so adjusted, that the duration of the Flashes will vary from 0' to 48", and that of the Eclipses from 0' to 7" the sums of the duration of Light and Darkness bearing however in every position the constant ratio of 2 to 3. From the South-Eastern extremity of the Pulicat Shoal the Light

House bears S. 23° W. and is distant 13 miles, but no Ship or Vessel when hauling in from the Northward for the Madras Boardstead should bring the Light to bear to the Southward of S. 28° W. or S. S. W. & W.—unless her position is well ascertained. Commanders of Vessels are warned of the serious risk they incur by incautiously approaching the dangerous vicinity of the Pulicat Shoal, as heavy weather or other causes may obscure the Light,—true Soundings therefore and a vigilant look out are imperatively called for. The Limits of the Madras Roadstead (in 3 or 4 fathoms) are comprised within the following bearings, viz. from the Northward the Light House will bear S. 58° W. and from the Southward N. 81° W. or from S. S. W. to W. & N.

The Light House at Madras is in Latitude 13° 5' 3" North.

And in Longitude 80° 20' East of Greenwich.

The Dimensions of the Light House are as follows:—

From the ground to the vane.....	125 Feet.

GENERAL RULES OF THE GOVERNMENT SAVINGS' BANK.**ACT NO. V OF 1873.**

AN ACT TO AMEND THE LAW RELATING TO GOVERNMENT SAVINGS' BANKS.

Whereas it is expedient to amend the Law relating to the payment of deposits in Government Savings Banks; It is hereby enacted as follows:—

Preliminary.

- Short title. 1. This Act may be called "The Government Savings' Banks Act, 1873."
- Local extent. It extends to the whole of British India;
- Commencement. And it shall come into force on the passing thereof.
- Repeal of Act XXVI of 1855. 2. Act No. XXVI of 1855 (to facilitate the payment of small deposits in Government Savings Banks to the representatives of deceased depositors) is hereby repealed.
- Interpretation-clause. 3. In this Act—
- "Depositor" means a person by whom, or on whose behalf, money has been heretofore, or shall be hereafter, deposited in a Government Savings Bank; and "deposit" means money so deposited;
- "Secretary" includes every person empowered to manage a Government Savings Bank;
- "Minor" means a person who has not completed the age of eighteen years.

Deposits belonging to the Estates of Deceased Persons.

- Payment on death of depositor. 4. If a depositor dies, leaving in a Government Savings Bank a sum of money not exceeding one thousand rupees, and if Probate of his Will or Letters of Administration of his estate, or a Certificate granted under Act No. XXVII of 1860 for facilitating the collection of debts on successions,

and for the security of parties paying debts to the representatives of deceased persons, is not produced to the Secretary of such Bank within three months of the death of the said depositor, the Secretary of such Bank may pay the said sum of money to any person appearing to him to be entitled to receive it, or to administer the estate of the deceased.

5. Such payment shall be a full discharge from all further liability in respect of the money so paid.

But nothing herein contained precludes any executor or administrator, or other representative of the deceased, from recovering from the person receiving the same the amount remaining in his hands after deducting the amount of all debts or other demands lawfully paid or discharged by him in the course of administration.

6. And any creditor or claimant against the estate of the deceased may recover his debt or claim out of the money paid under this Act, or the said Act No. XXVI of 1856, in any person, and remaining in his hands administered, in the same manner and to the same extent as if the latter had obtained Letters of Administration of the estate of the deceased.

7. The Secretary of any such Bank may take such security as he thinks necessary from any person to whom he pays any money under section four for the due administration of the money so paid.

8. And he may assign the said security to any person interested in such administration.

9. For the purpose of ascertaining the right of the person claiming to be entitled as aforesaid, the Secretary of any such Bank may take evidence on oath or affirmation according to the law for the time being relating to oath and affirmations.

10. Any person who, upon such oath or affirmation, makes any statement which is false, and which he either knows or believes to be false, or does not believe to be true, shall be deemed guilty of an offence under section one hundred and ninety-three of the Indian Penal Code.

11. Where the amount of the deposit belonging to the estate of a deceased depositor does not exceed one thousand rupees, such amount shall be included in computing the fee chargeable, under the Court Fees Act, 1870, on the Probate, or Letters of Administration, or Certificate (if any), granted in respect of his property.

12. Provided that the person claiming such Probate, or Letters or Certificate, shall exhibit to the Court authorized to grant the same a Certificate of the amount of the deposit in any Government Savings Bank belonging to the estate of the deceased. Such Certificate shall be signed by the Secretary of such Bank, and the Court shall receive it as evidence of the said amount.

13. Nothing hereinbefore contained applies to money belonging to the estate of any European officer, non-commissioned officer, or soldier dying in Her Majesty's service in India, or of any European who, at the time of his death, was a deserter from the said service.

14. Deposits belonging to Minors.

DEPARTMENT OF FINANCE AND COMMERCE.

NOTIFICATION.

S.M.S.A., the 9th May, 1881.

No. 161.—Read again.—

Resolution No. 5226, dated 27th October 1880, publishing the Rules for District and Presidency Savings' Banks.

Resolution.—The following revised Rules for Government Savings' Banks, are published in place of the Rules published in the Government Savings' Bank Act, 1873.

I.—In these Rules—"Depositor," "Deposit," and "Secretary" bear the meaning which they bear in The Government Savings' Bank Act, 1873.

"Account" means the account of a Depositor in a Government Savings Bank.

"Balance" means the balance in credit of an account.

II.—Any person may become a Depositor on his own behalf, or on behalf of any other named person, dependent upon him. Deposits may also be made by the managers of benevolent or other public Associations, or by public Officers, of money deposited with them *ex-officio*, as security, for the discharge of any public duty or for the fidelity of any public Officer, or for the accomplishment of any public object.

III.—Subject to the provisions of these Rules, the Government of India guarantees the repayment of every deposit with interest.

IV.—Without the sanction of the Comptroller-General, no account will be opened for less than one rupee; and no person may deposit more than five hundred rupees, in all, between the 1st of April in any year and the 31st March of the following year.

V.—Interest will not be allowed upon a smaller balance than Rs. 15 or upon the excess in any balance over the highest multiple of Rs. 15.

VI.—Interest will be allowed for each calendar month upon the minimum balance of the account between the close of the fourth day and the end of the month.

VII.—For further notice, interest will be allowed upon deposits at the rate of one pie a month for every Rs. 1-10-8, which is equal to one anna for every Rupee 20, being at the rate of Rupees 82 per centum per annum. Without the sanction of the Comptroller-General, no higher monthly interest will be allowed upon any balance than Rupees 2-6-0; being the interest upon Rupees 3,000.

In calculating interest, one anna will be taken as the interest for one month on every twenty rupees of the amount entitled to bear interest, and for broken sums below twenty rupees the following table will be used:—

Principal.	Interest.	Principal.	Interest.
Rs. A. P.	A. P.	Rs. A. P.	A. P.
1 10 8	0 1	11 10 8	0 7
2 5 4	0 2	12 5 4	0 8
3 0 0	0 3	13 0 0	0 9
3 10 8	0 4	13 10 8	0 10
4 5 4	0 5	14 5 4	0 11
5 0 0	0 6	15 0 0	1 0

Example.—Required interest for one month on Rs. 134-6-10.

Interest on	Rs. A. P.	Rs. A. P.
100 0 0	0 6 0	0 6 0
34 6 10	0 0 8	0 0 8
Total...	134 6 10	0 6 8

VIII.—Every account will be made up on the 31st March, and the interest then due, calculated under these Rules, added to the balance upon which future interest will accrue. If an account is closed on any other date, interest due to the end of the preceding calendar month will be paid to the Depositor; but a Depositor who closes an account should not, ordinarily, be permitted immediately to reopen it, except on payment of a fine varying at the discretion of the Secretary from one to ten rupees.

IX.—Whenever a Depositor changes his residence, an Account may be transferred, free of charge, to the Government Savings Bank in the District to which the Depositor is removing. Without the special permission of the Comptroller, an Account may not be otherwise transferred from one Bank to another.

X.—A Deposit Book will be supplied to each Depositor in which the Secretary, or, if the Savings Bank is at a public treasury, the Treasury Officer, will acknowledge every deposit. The personal attendance of a Depositor is not required; but no deposit will be received, or payments made, without the Depositor's Deposit Book, and the Government will not be responsible for any deposit the receipt of which is not acknowledged in a Deposit Book. The interest due to date, will be entered in each Deposit Book the first time that it is produced after the 31st March. The first Deposit Book will be supplied free of charge; but if a Deposit Book is lost or injured, or if a closed account is re-opened, one rupee will be charged for a new book.

XI.—Without special permission, a Depositor may not draw upon his Account more than once in thirty days, or open more than one Account in his own name or in the name of any member of his family or for his own benefit or the benefit of any member of his family. The Comptroller-General must take precautions to prevent any transgression of this Rule, and, in particular, any employment of an Account as an ordinary Drawing Account. This Rule is not meant to prevent any one from opening more than one *ex-officio* or public Account.

XII.—The Secretary may refuse to open any account or may close any account, for any sufficient reason, as, for example, because he thinks that the account is likely to be used, or is being used, contrary to the object with which Government Savings Banks are established, namely, the encouragement of saving.

XIII.—When the Secretary thinks it proper to close any account, he shall give notice, in writing, to the Depositor, of such closure. After the date of such notice, no deposit shall be accepted on the account so closed, and no interest shall be allowed upon the balance of the closed account after the end of the calendar month then current.

XIV.—These Rules apply as well to accounts opened before as after their publication. Save that upon Accounts opened before the date of this Resolution, interest will be calculated, up to 31st May 1881, at the rate of 4½ per centum per annum, according to the rules prescribed in Nos. V, VI and VII of the Resolution No. 3525 of 27th October 1880.

XV.—(1) Any person, whether a Depositor or not, who desires to purchase Government Securities, may make written application for the purpose at a Savings Bank. He will be required to tender in cash the amount necessary to complete the purchase, unless he has a sufficient deposit at his credit in the local Savings Bank. The purchase will be made through the Comptroller-General.

(2) The paper purchased will be of the 4 per cent. Loans, unless 4½ per cent. paper is specially applied for.

(3) The investor may also specially apply that the paper remain in the custody of the Comptroller-General, and that the interest be remitted as drawn to the local Savings Bank, for delivery to him. In this case the Comptroller-General will, if necessary, transfer the paper to the 4 per cent. Loan of 1865, and will remit the interest as applied for. The investor may at any time apply through the local Savings Bank for the delivery to him of paper thus held by the Comptroller-General. If application is not made under this clause, the paper purchased by the Comptroller-General will be enclosed for payment of interest at the local Treasury, and forwarded to the Savings Bank for delivery to the investor.

(4) An investor under these Rules may at any time apply in the same way for the sale of paper purchased through the Savings Bank, whether held by himself, or held for him by the Comptroller-General.

(5) These arrangements are intended only for persons of moderate income, who belong to a class who do not ordinarily have transactions with Bankers, and the advantage of them must be refused, both by the Savings Bank, and if necessary, by the Comptroller-General, if the applicant is not within this definition, except in the case of a Government servant purchasing Government paper, in consequence of an order requiring him to give security.

(6) In the case of applications made at Savings Banks at Treasuries in the interior of the Madras and Bombay Presidencies, the duties here laid upon the Comptroller-General will be performed by the Accountants General of Madras and Bombay respectively. And in the case of applications made at the Presidency Banks in the Towns of Calcutta, Madras and Bombay, they will be performed by the Secretaries of those Banks, in the capacity of Secretaries of the Presidency Savings Banks.

(7) The following fees will be charged:—

On purchase: 4 annas per cent.

On redemption and remittance of interest: 4 annas per cent.

On delivery out of custody: 4 annas per cent, unless the application for delivery is made within a year of the purchase.

On sales: 4 annas per cent, and any actual outlay upon brokerage.

These fees may be appropriated by the Presidency Banks, in the case of applications made in the Towns of Calcutta, Madras and Bombay, and complied with by the Secretaries of the Banks.

XVI.—The Governor-General in Council reserves the right to alter or add to these Rules at any time.

XVII.—A copy of the Government Savings' Banks Act, 1873, and of these Rules, shall be printed in each Deposit Book delivered after this date, and the signature, or, if he cannot write, mark, of the Depositor obtained to the annexed declaration before any deposit is accepted from him.

XVIII.—These Rules shall come into force from the 1st June 1881.

Declaration to be recorded in accordance with Rule XVII.

I acknowledge that I have read these Rules (or, if he cannot read, that these Rules have been read to me.)

Lost Notes, attainment of duplicate.

Loss of a Government Promissory Note is reported to the Comptroller General, Calcutta. It is then stopped in the Loan and Interest Books of the Public Debt Office, and the applicant for a duplicate note is required to advertise the loss in three successive issues of the *Gazette of India* as well as the *Government Gazette of the Province* where he resides. Should the note have been enclosed for payment of interest at any other Treasury than Calcutta, the loser is required to give the necessary information to the Treasury concerned, and two years after the date of the last advertisement of loss he has to apply to the Public Debt Office for a Duplicate Note.

Should the Note alleged to be lost not be forthcoming, and the title of the claimant be fully proved, the owner and two sureties to be approved of by the Solicitor to Government are required to execute a bond of indemnity, and on the receipt of such bond of indemnity, the Comptroller General submits the case, with his opinion, for the orders of the Government of India. In case, however, there be any doubt as to the title of the claimant, the case is in the first instance forwarded to the Advocate General.

As a general rule, duplicate Notes will not be issued until six years after the last correct advertisement of loss, but meanwhile, interest will be paid on the lost Notes after the lapse of two years under a bond of indemnity.

These Tickets include the free conveyance of the Passengers' Baggage from the Steamer to the Bombay Railway Stations.

Baggage.

The attention of passengers by the Company's Steamers is particularly requested to the undermentioned Regulations in reference to Baggage; much trouble and loss are occasionally caused by their neglect or non-observance. These Regulations are equally important to passengers between Suez and Alexandria, for the Egyptian Transit Administration will not accept any responsibility unless they be strictly complied with.

All Baggage should be packed in Leather Portmanteaux or Trunks, marked with the owner's name and port of destination in paint in full, and fastened securely with case locks; padlocks and leather straps being liable to damage or removal. The Transit Administration will not be responsible for the safe conveyance of insecure Packages.

Deck-chairs are conveyed free of charge at passengers' risk. Trunks and boxes are not recommended, as they are frequently removed and lead to the loss of the Packages.

Packages containing Jewellery, Plate, or other Valuables, must be specially booked, and Freight paid thereon at the Company's established rates, failing which such Packages are liable to seizure and confiscation.

First Class passengers are allowed 336 lbs. of personal Baggage free of Freight; Second Class passengers and servants 192 lbs. each; children over 3 and under 10 years, half these weights.

A passenger taking a reserved cabin will be entitled to take in the Steamers, free of Freight, 4 cows; and a married couple, paying for reserved accommodation, will be entitled to take 2 cows.

Passengers from Bombay can ship their heavy Baggage either at Calcutta or Madras, should they find any convenience in doing so, and if proceeding via Brindisi can forward any of their Packages to London without extra charge.

The charge for conveyance of extra Baggage, between any two Ports 10s. per cwt.

The Insurance of Baggage can be effected on moderate terms.

Passengers passing through Egypt will be charged by the Transit Administration 7s. per cwt. for conveyance of Baggage through, should it exceed, for First Class passengers, 336 lbs. each, and Second Class 252 lbs. each; Children over 3 and under 10 years are allowed half the above weights. This amount is collected on Board the Company's Steamers, for the convenience of passengers.

Passengers requiring information, respecting their Baggage during the voyage, can obtain it on application to the Office in Calcutta.

Passengers who may mislay any Package of Baggage on arrival at their destination, are recommended to apply, without delay, to the Company's Agent, giving full particulars in writing, when application will stand on made to the Missing Baggage Depot at Bombay or at London.

Baggage can be occasionally had up from the Baggage-room during the passage, on application to the officer in charge.

No Trunks or Boxes allowed in the Saloon or Cabin, but only small Portmanteaux or Cases permitted. The Portmanteaux for Cabin use should not exceed 3 feet in length, 1 foot 6 inches in width, and 1 foot 6 inches in depth.

In order to facilitate the shipment and stowage of Baggage, Passengers are requested to have their Packages distinctly marked "Cabin," "Wanted on Voyage," or "Not Wanted on Voyage," as the case may be. Labels supplied on application.

CAUTION.—Goods of a dangerous nature. The Company will not receive on board of their Vessels any goods of a dangerous or damaging nature. If any such goods be shipped without notice, the shipper will not only be liable to the penalties imposed by statute, but also for all damages sustained in consequence of such shipment.

NOTICE.—All parties are requested to take notice that the Company do not hold themselves liable for detention or delay of passengers arising from accidents or from extraordinary or unreasonable circumstances, or from circumstances or delay out of or connected with the employment of the Company's Vessels in Her Majesty's Mail Service, and that the Company do not hold themselves liable for damage or loss or detention of Passengers' Baggage, or for any consequences arising from the operations of quarantine whereunder detained. In all cases in which the Company's Steamers may be placed in quarantine, First Class passengers will be charged Ten Shillings and Second Class passengers Five Shillings per diem for their maintenance on board during the detention of the ship.

General Notice.

The Egyptian Transit Administration having issued a notice that they will decline to take charge of any Packages or Baggage intended for despatch through Egypt that are not properly secured, passengers are earnestly requested to see that all Portmanteaux, &c., shipped by the Steamers of this Company for Europe, are thoroughly secured in this respect, thus obviating the possibility of any seizure or delay in Egypt.

Note.—Two miles of Broad Gauge line between the Trichinopoly old station (a station which has not been used since the 1st July 1875) and the Trichinopoly Port Station were abandoned on the 1st July 1875. This piece of Broad Gauge road has since been taken up and removed. On the date named one mile of Narrow Gauge line was opened into Trichinopoly Junction from the neighbourhood of the old station site, this additional road being in substitution of the abandoned piece.

The South Indian Railway Company has been incorporated under a special Act of Parliament (37 and 38 Victoria, Session 1874) and is formed by the amalgamation of the Great Southern of India Railway Company and the Carnatic Railway Company. The object of the S. I. R. is to provide communication between Madras and the provinces of Southern India lying to the south of the existing Madras Railway. Starting from the People's Park at Madras (Buckingham Canal) the line passes through Egmore, Chetpak, Saidapet, Saint Thomas Mount Cantonment, Pallavaram, Chingleput, Villupuram, from whence there is a branch to the Gingee river and Pondicherry, Cuddalore, Porto Novo, Ennialakovan, Tanjore, (from which town there is a branch to Negapatam), Trichinopoly (from whence a branch extends to Karur and Rode), Dindigul, Madura, Maniyachi, (from whence a branch is open to Tinnevely), Tuticorin, and Tuticorin.

Up to the 31st December 1890 the short line from Arkonam to Conjeevaram, was divided by a gap from the remainder of the S. I. R. system, but on the 1st January 1891 the Arkonam Branch was opened throughout. It is at Arkonam that the Madras Railway Company's N. W. Line joins their S. W. Line.

The whole of the S. I. R. Company's system is planned on the metre gauge (3 feet 3 3/4 inches), and the South Indian Railway consists of nearly 655 miles of line, the longest continuous route in India constructed on this principle.

A branch from Villupuram (South Arcot District) to the Gingee river has been constructed by the South Indian Railway Company, the line being continued from the river into the town of Pondicherry by the Pondicherry Railway Company. It is not improbable that in the course of a few years Trivandrum will be connected with the town of Tinnevely by an extension of the S. I. R., the two places being, as the crow flies, only 50 miles apart.

This Company has been incorporated for the purpose of connecting the town of Pondicherry with a branch of the South Indian Railway from Villupuram to the Gingee river, that river being the boundary between the English and French territory. The necessary arrangements having been made with the French Government and a Convention signed at Paris, the construction of the Pondicherry Railway (which for its entire length, about 4 miles, traverses French territory) has been carried out to completion. There are two stations, one at Villenour, and the other (the terminus) at Pondicherry. The surt is not so violent at Pondicherry as at other places on the coast, and as an iron pier of a serviceable character has been erected in a central position near the Custom House and offices of the principal merchants, this important town, now that it is placed in direct railway communication with all parts of India, possesses considerable advantages for the exportation and importation of merchandise. The Pondicherry Railway was opened for public traffic on the 16th December 1879.

MONEY.

Silver is the legally constituted medium of exchange in all money transactions throughout the British Indian possessions. Gold Coin was intended to be a legal tender at a fixed value of 15 Rupees for the Gold Mohur of Calcutta and 15 Rupees for the Gold Rupee of Madras and Bombay; but it is not demandable in payment and is left to find its current value in the market. In 1811 officers in charge of public treasuries were authorized to receive gold coins struck in conformity with the provisions of Act XVII of 1835, establishing the 15 Rupee piece, but in 1852 when the gold from California and Australia began to pour their treasures over the globe and in apprehension that India would be inundated with gold, the proclamation of 1811 was rescinded and gold debarr'd from entrance into any of the treasuries. Since then the sovereign has been made a legal tender for 40 Rupees.

WEIGHTS AND MEASURES.

The origin of all Weights and Measures in England was derived from a grain of wheat of which well-dried and purified from the middle of the ear, were to make one pennyweight; 24 dwts. 1 ounce; and 20 oz. 1 pound. It was subsequently thought better to divide the pennyweight into 24 equal parts, called grains.

William the Conqueror introduced into England what was called Troy Weight, from Troyes, a town in the province of Champagne, in France, now in the Department of Aube, where a celebrated fair was held. The English were dissatisfied with this weight, because the pound did not weigh as much as the pound in use at that time in England. Hence arose the terms *avoir de poids*, which was a mixture between the French and the ancient English weight.

Avordupois Weight was first made legal in the reign of Henry VII. and its particular use was to weigh provisions and other heavy articles. Henry fixed the stone at 14 lbs., which has been confirmed by a recent Act of Parliament.

With respect to Measures of Length, it is recorded that the various denominations were constructed from a *corn of barley*, 5 of which, well dried from the middle of the ear, made an inch. Other terms were taken from portions of the human body—such as the *digit* (¼ of an inch, or a finger's breadth), a *palm* (3 inches), a *hand* (4 inches), a *cubit* (2 inches), a *pace* (12 inches), and a *cubit* (18 inches), being the length of the arm or bone from the elbow to the wrist. A *pace* (6 feet), or two ordinary steps; a *fathom* (6 feet), from the extremity of one hand to that of the other, the arms oppositely extended. It is stated that Henry I. in 1101, commanded that the *elbow*, or ancient ell, which answers to the modern yard, should be made the length of his arm; and that the other measures of length were thence derived, whether *linear*, *superficial* or *solid*.

The *restored standard* of Linear Measure, whose length is called a yard is a solid square bar 38 inches long, and one inch square in transverse section, the bar being of bronze or gunmetal, at the temperature of 62° of Fahrenheit's thermometer, marked copper 16 oz., 2½ oz., and 1 oz.; and near to each end a cylindrical hole is sunk to the depth of half an inch; the distance between the centres of the two holes being 3 feet or 36 inches, or 1 imperial standard yard. The standard *linear* and *cubic* measures will therefore depend entirely upon it.

All Measures of Capacity were first taken from Troy Weight, and soverelaws were passed in the reign of Henry III. enacting that 8 lb. Troy of wheat, taken from the middle of the ear and well dried, should make 1 gallon of Wine Measure, and 3 such gallons make a bushel.

The carat is divided into grains, and the grains into quarters, thus—

The Carat—Troy.

	lb.	dwt.		dwt.	gr.
24 carats make	1	0	1 grain or ¼ carat makes	3	10
2 carats „	0	30	quar. of a grain „	0	15
1 carat „	0	10			

The carat for weighing diamonds is 3½ grains Troy.

TROY WEIGHT.

24 grains make	1 pennyweight (dwt.)	12 ounces make	1 pound (lb.)
80 pennyweights „	1 ounce (oz.)		

Be this weight gold, silver, jewels, and precious stones are weighed. It is also used in ascertaining the strength of spirituous liquors, and in experiments in natural philosophy, though the weights for this latter purpose are generally constructed in decimals from 10,000 grains to the one-hundredth part of a grain; it is used to compare the different weights with each other. The weighing of diamonds is an exception in jewellery; they are weighed by the carat, which is 3½ grains.

14 oz., 11 dwt., 16 grs. Troy, are equal to a pound avordupois; or a pound Troy bears nearly the same proportion to a pound avordupois as 14 to 17 or 3,760 grains are to a Troy pound, and 7,000 such grains are a pound avordupois. This standard was adopted as being the weight of a cubical inch of distilled water, which was found the weight by Fahrenheit's thermometer (the barometer being at thirty-six inches), 252 grains, 456 thousandth part of a grain.

AVOIRDUPOIS WEIGHT.

16 drachms make	1 ounce (oz.)	28 pounds make	1 quarter (qr.)
16 ounces „	1 pound (lb.)	4 qrs. or 112 lb. „	1 hundred wt. (cwt.)

By this weight are weighed all articles sold by weight, excepting gold, silver, platinum, diamonds, and other precious stones, and drugs when sold by retail.

The *signa lib. libra*, a pound should never have an s after it, the plural being *librae*.

A line is the 12th part of an inch.

The Scotch and Irish miles are about $\frac{1}{4}$ English.

The hand is rarely used except in the measurement of horses; and the fathom sounding the depth of the ocean or of mines. The navy long-line is 48 feet long.

By this measure all things that have length and breadth are measured.

Land is measured by *Gunter's Chain*; which is as follows:—

CUBIC OR SOLID MEASURE.

40 feet of rough, or 50 feet of hewn timber.....	1 ton or load.
42 feet.....	1 ton of shipping.
$\frac{1}{2}$ yard of earth.....	1 load.

The dimensions of timber, stones, excavations, and all works which have length, breadth and thickness, are taken by lineal measure; but the contents are calculated by cubic measure.

A Cube is a solid body, and contains length, breadth and thickness. A cubic number is produced by multiplying the simple number twice into itself; thus 343 is a cubic number, being produced by multiplying the number 7 twice into itself; as $7 \times 7 \times 7 = 343$.

ARTIFICERS' TABLES AND CALCULATIONS.

TIMBER.

40 cubic feet of unhewn timber.	1 load	240 superficial feet, 2 $\frac{1}{2}$ inch planks or deals
50 do. of hewn timber.		200 do. 3 inch ditto.
60 superficial feet, 1 $\frac{1}{2}$ inch planks or deals.		170 do. 3 $\frac{1}{2}$ inch ditto.
80 do. 1 $\frac{1}{2}$ inch ditto.		130 do. 4 inch ditto.

20 deals 12 feet long, 8 inches thick, 6 inches wide, 6 $\frac{1}{2}$ loads.
1 ditto contains 4 feet, 3 inches cubic.
A battin is from 2 to 4 inches broad, and from $\frac{1}{2}$ to 1 $\frac{1}{2}$ inch thick.
A deal is above 7 inches wide.
A plank is 11 inches wide, or above.
120 deals are 1 hundred.

TO MEASURE PIPES, TANKS, &c.

The following is a rough-and-ready way to find the contents of circular tanks, wells and pipes:—

Square the diameter in inches, and cut off the right-hand figure as a decimal, and the result will be gallons in each 8 feet (yard) of depth,—or length, if a pipe; as:—

Diameter	Inches.	Square.	Gallons
2.....	2 x 2 =	4 or	0.4
6.....	6 x 6 =	36 or	3.6
12.....	12 x 12 =	144 or	14.4

WELL OR TANK.

TO FIND THE CONTENTS OF A BARREL.

If the diameter is equal everywhere—Multiply the square of the diameter in inches by the depth, and divide the product by 359. Thus a barrel with the diameter of 26 inches, and 50 inches deep: $26 \times 26 \times 50 = 64,500 \div 359 = 180 \frac{1}{2}$ old measure = 189 $\frac{1}{2}$ Imperial gallons. If the centre or bung diameter is larger than the ends—First square the centre diameter in inches; and then multiply it by $\frac{1}{2}$, to which add the square of the diameter of the end; then multiply this by the length of the cask and divide by 1,077. Thus a barrel with a centre diameter of 28 inches, and 25 inches and length 54 inches: $28 \times 28 \times 2 = 1,568 + 625 (25 \times 25) = 2,193 \times 54 = 78,948 \div 1,077 = 73$ old measure = 74 $\frac{1}{2}$ Imperial gallons.

TO MEASURE TIMBER.

In order to ascertain the contents of unsquared timber, multiply the square of the quarter girth, or of $\frac{1}{4}$ of the mean circumference, by the length. When the buyer is not allowed his choice of girth in taper trees, he may take the mean dimensions, either by girthing it in the middle for the mean girth, or by girthing it at the two ends, and taking half of their sum. If not, girth the tree in so many places as is thought necessary, then the sum of the several girths divided by their number, will give a mean circumference, the fourth part of which being squared, and multiplied by the length, will give the solid contents.

The superficial feet in a board or plank is known, by multiplying the length by the breadth. If the board be tapering, add the breadth of the two ends together, and take half their sum for the mean breadth, with which multiply the length.

The solid contents of squared timber are found by measuring the mean breadth by the mean thickness, and the product again by the length. Or multiply the square of what is called the quarter girth, in inches by the length in feet, and divide by 144, and you have the contents in feet.

USES OF THE PRECEDING TABLE.

1.—When Government 4 per cent. Securities sell at 76, what are the equivalent values of the 5 and 5½ per cent. loans?

In the table opposite 76 in the first column are 85, the value of 5 per cent. loan, and 104½ the value of 5½ per cent. loan—the interest in all the three cases being 3-263 or 55-19 per cent.

2.—At what price should I purchase 4 per cent. to obtain 5½ per cent. for my money? In the fourth column opposite 5½ or 56 in the column for 4 per cent. stands 72-727 or 72-11 the price required.

3.—What would I gain, by selling out Rs. 10,000, 5 per cent. Government loans at 104 and purchasing 5½ per cent. at 112?

In the third column opposite 104 in the 2nd, is..... 114-4
112

Gain on Rs. 100 of Capital 2-4

And in the fourth column opposite 112 in the 3rd, is 4-311 per cent.

" " " 104 " 2nd, 4-305 "

Difference, or gain per cent. per annum on Capital 0-109, or fully 1-10 per cent. being Rs. 10 9s. on every Rs. 1,000 so invested.

4.—To find the equivalent values of four and 5½ per cent. Securities when 3 per cent. are selling at 103½ or Rs. 107 6s.

Opposite 103 in the second column, are 84-4 and 113½ in the 1st and 3rd, and among the "proportional parts" corresponding to 375 or 6s. in the 5 per cent. column are 0-3 R. in the 4 per cent. and 413 in the 5½ per cent. column.

Hence 84-4 + 3 = 87-7, the equivalent price of 4 per cent., and 113-8 + 413 = Rs. 113-113, or Rupees 113, 11s. 5p. the equivalent price of 5½ per cent.

Other uses of this Table will readily occur to brokers and others.

CONSISTORY COURT,

OPENED 17th OCTOBER, 1865.

The Archbishop.....Commissionary.

F. Rowlandson, Esq., B.A., LL.B., Registrar. William Francis Hyatt, Appraiser.

RULES RELATING TO THE OFFICE AND DUTIES OF LAY TRUSTEES IN THE DIOCESE OF MADRAS.

Four St. George's, 26th October, 1867.

I. Two Lay Trustees are appointed to each Chaplaincy or station where there is property belonging to or held in trust for the Church of England.

II. At Civil stations, or Joint Civil and Military stations, the Senior Civil Servant should be appointed a Trustee, provided that he is a communicant of the Church of England, and has no objection to hold the office. At Military stations the Officer Commanding the Cantonment or Garrison under the same provisos. When these Officers are unwilling to hold the office the officer next in seniority (Civil or Military as the case may be), if qualified as above, should be nominated.

III. The second Trustee may be any communicant resident at the station, nominated by the Chaplain, and approved by the Bishop.

IV. When the office of either Trustee is vacant, the Chaplain should report the circumstances to the Lord Bishop, for the information of Government, and at the same time nominate a duly qualified person to fill the vacancy.

V. The duties of the Trustees are in many respects similar to those of Church Wardens in England. They are appointed to see that the

Church and Churchyard or Cemetery are kept in good order and repair, to provide for the preservation of the property belonging to the Church, to present to the Bishop or Archbishop, either on their visitation or immediately by letter, whatever is wrong or irregular on the part either

of the Chaplain or the congregation, and to aid and assist the Chaplain in the performance of his duties.

VI. During the absence of the Chaplain or other licensed Clergymen, one of the Lay Trustees is, in ordinary cases, the proper person to read the Service and a sermon on Sundays, and to take charge of the Register and other books connected with the Chaplaincy. N.B.—It is to be borne in mind that Lay Trustees have no power to interfere in the administration of Divine Service, but merely to represent to the Ecclesiastical authorities whatever they may deem objectionable. Their office in this respect is one of observation and complaint, not of control.

VII. The Lay Trustees, in conjunction with the Chaplain or Minister, form a Committee of Management on all Church matters, and should meet for business once in each month, or oftener, if necessary. The assignment of seats in Church and in places where they are authorized, the collection and disbursement of pew rents, the management of school and charity funds, should be supervised and arranged by the Committee at their Meetings.

VIII. All indent, letters, proceedings and other papers emanating from a Church Committee, are to be signed by both the Lay Trustees (unless for special reasons which are always to be assigned), as well as by the Chaplain; and all indent, letters, &c., received or sent, are to be entered in a correspondence book, distinct from that of the Chaplain's, and should be produced for examination at Meetings of the Committee.

IX. The Chaplain or Officiating Chaplain or Minister present, as a mark of respect due to religion in the person of its Minister, presides at all Meetings of the Committee of Management and signs proceedings and letters as President, and the two Lay Trustees in the order of their relative rank.

X. The Church Committee are responsible that no alteration is made whatever in the Church or Churchyard without representing the matter to the Archbishop, who will, except in matters of trifling importance, bring it before Government for their sanction.

XI. When any addition, alteration, or improvement to a Church or other Ecclesiastical building is considered necessary, or when any new building is required, the subject should be brought with full explanation to the notice of the Bishop, who, if approved by him, requests the Archbishop to submit the same for the consideration and orders of Government, on whose approval the necessary plans and estimates (if not previously furnished) are called for from the Public Works Department.

XII. All ordinary repairs to Ecclesiastical buildings in the provinces, the cost of which does not exceed Rupees 50, are effected, and all trifling articles within the same limit are supplied on the direct application of the Church Committee in the provinces by the District Executive Engineer, and at the Presidency by the Barrack Master. Contingent charges for the supply of matting, blinds, and other articles of a similar kind necessary for each Chaplaincy not exceeding 50 Rupees per annum, will be entered in a Contingent Bill which should be submitted for the approval of the Archbishop.

Rules in regard to the Levy of Ecclesiastical Fees.

Letter from the Officiating Under-Secretary to the Government of India, Home Department, (Ecclesiastical), to the Secretary to Government, Fort St. George, dated Simla, 8th July, 1871, No. 155.

"The Lord Bishop of Calcutta having brought to notice that difficulty is occasionally experienced by Chaplains in collecting fees, under existing rules, on monuments and masonry graves, the Governor-General in Council considers that in all cases where such difficulty arises the duty of collection should be made over by the Chaplain to the Magistrate or Deputy Commissioner in charge of the district in which the burial ground may be situated; and I am to request that, with the permission of His Excellency the Governor in Council, instructions may be issued to the District Officers accordingly."

Orders for the performance of Funeral Rites on verdicts of Coroner's Inquests.

NOTIFICATION.—Fort Saint George Gazette, June 11, 1850, page 623.

The Right Honorable the Governor in Council is pleased to rescind the Order of Government of 5th April 1842, which directs a copy of the verdict of the Coroner's Inquest to be furnished, when practicable, to the Clergyman who is to officiate at the interment of a body on which an inquest may have been held, and the Reverend Chaplains will in future consider the warrant of the Coroner for the interment of a body on which an inquest has been held to be a sufficient authority for their performance of the Burial Service over it, if it would be their duty, under ordinary circumstances, to perform that service.

2. In the provinces where no Governor's jurisdiction exists, the same course will be followed by the authorities appointed to enquire into the causes of sudden death; and the same difference will be paid by the Clergyman to their certificates of Warrant.

Parties desirous of being married should apply direct to some Surrogate residing near them; but from places where there is no Surrogate, application should be made to the Registrar, who will procure a commission under the Episcopal Seal, authorizing some persons to administer the usual oath and grant the necessary license. None but a Clergyman of the Church of England can marry by virtue of Episcopal license. Parties who cannot on account of distance obtain the services of a Clergyman to marry them must state the fact, and apply to the Brigade Major, Fort Saint George, who will obtain the permission of the Right Honourable the Governor for their marriage under which the Senior Judicial Officer of any station is authorized by Government to marry them.

In the case of a minor in H. M.'s or the Honorable Company's Service, the written consent of the Governor must be obtained previous to the publication of Banns, or the grant of a license.

Further information respecting marriages can be obtained on application to the Registrar of the Diocese, F. Bowlandson, Esq., B.A., M.A.

Rules for the guidance of Surrogates in administering Oaths and granting Marriage Licenses within the Diocese and Archdeaconry of Madras.

I. Every application for a license must be made in writing, and the names of both the applicants be given in full, with the age, race, condition, (i.e. bachelor, spinster, widower, widow, or person whose former marriage has been dissolved), and occupation, if any, of each, and the place or places in which each has resided for the six months prior to the application.

II. If either of the applicants is a person whose former marriage has been dissolved the application besides stating such fact, must also state the cause of the dissolution of such former marriage.

N.B.—(a) If the cause of such dissolution be stated to have been adultery, the Surrogate shall require from the applicant, a copy of the Decree of the Court dissolving such marriage, and if it shall become known to the Surrogate, that such former marriage was dissolved on the ground of the adultery of the applicant, the Surrogate shall insist on such fact on the license, to the end that any Clergyman, other than the Surrogate, who shall marry the parties, may be duly apprised thereof; as no Clergyman is compelled to solemnize the remarriage of such person. (b) If the cause of such dissolution be stated to be the conversion of the applicant or applicants, to Christianity, the Surrogate shall by enquiry satisfy himself, before proceeding in the matter, that the circumstances connected with such conversion, such dissolution, and the proposed marriage be not such as to give occasion to scandal, or reproach.

III. When both applicants are non-residents in the place where the application is made, and are unknown to the surrogate, he may decline to grant, for he cannot and he shall have had time to make due enquiry, as to whether there be any impediment to the marriage, and may further require from the applicants the names of two or more persons to whom reference may be made.

IV. On a day subsequent to the receipt of the application, which shall be appointed by the Surrogate, and shall be not earlier than the fifth day (that is the seventh day), after such receipt, the parties, or one of them, shall on every case appear before the

Surrogate, and either one or both swear to the "Affidavit of Residence," to which the written application for the license shall be annexed by way of an exhibit, being marked as such, and endorsed as follows by the Surrogate:—

In the matter of the marriage of A. B. and C. D.

This is the exhibit referred to

to in the affidavit of A. B. sworn
to herein on the day of before me.
E. P.
Surrogate.

V. The Surrogate will use great caution in examining the parties to be sworn, filling up the forms with the names, rank and places of residence, and dates at full length.

VI. In no case is a license to issue unless the parties are sworn before the Surrogate, and in case of doubt or difficulty the Surrogate will refer to the Registrar as recommended in the Surrogate's appointment.

VII. In case the lady to be married has been delivered, the license should issue in her maiden name (see Rule 2).

VIII. In case the party to be married is a minor, consent of the father, if living, must be obtained; or if the father be dead, the guardian of the person of such minor, and in case there be no such guardian, then the mother of such minor may give consent, unless no person authorized to give such consent be resident in India.

IX. In case the party to be married is a minor, either in the Civil or Military service, and without possessing either a parent or guardian in this country, the consent of the Governor of Madras must be obtained by the minor to his marrying under age, unless the proper consent can be shown to be already given on the part of the absent parents or guardians to his marrying as a minor, in which case the consent of the Governor of Madras need not be obtained.

X. If the parties to be married are both of full age (twenty-one years) and both of them are to be sworn, the Surrogate will use No. 1 Form; but if one of the parties is prevented from attending and another person joins in the affidavit on behalf of the party not present, No. 2 is in such case to be used instead of No. 1.

XI. If one of the parties only is of full age (namely, twenty-one years), and the other is under that age, and the parent, next friend, or guardian makes oath on the part of the minor as to age and consent, the Surrogate will use No. 3 Form.

XII. If both the parties are minors (under the age of twenty-one years) and the respective parents, next friends, or guardians swear on their behalf, No. 4 is to be used.

XIII. In case the lady to be married is a widow and under the age of twenty-one years, oath No. 1 is to be used, the Surrogate first running his pen through the words "that they have respectively attained their respective ages of twenty-one years and upwards," and adding at the foot of the oath (above the signature), "the former being twenty-one years of age and upwards, and the latter a widow."

XIV. The Surrogate having filled up, and the party having read and signed the affidavit at the proper places, the former will then give the Testament to the party to be sworn, and holding the paper in his hand, say, "you (A. B.) do swear that the contents of this your affidavit are true. So help you God."

XV. The party answer "I do," and kisses the book, repeating, "So help me God."

XVI. The same form is observed to each person sworn.

XVII. The Surrogate will then fill up the license, date and sign it, adding his title as Surrogate, and hand the license to the parties.

XVIII. In case of any caveat entered in the registry or intimation received through the Surrogate against the grant of a license, the Surrogate will ascertain the particulars and communicate the same to the Registrar for immediate advice, refusing the license until the result of that reference is known and forwarding any affidavit sworn.

XIX. The Surrogate will forward to the Registrar for record all affidavits as above on the day they are administered, and the licenses with the Quarterly Returns, unless sooner or whenever required.

XX. A fee of Government Rupees fifty to be received by the Surrogate on each license previous to delivery of the same to the parties entitled to receive such license, Rupees sixteen of which fee for the license, being due and payable to the Registrar, are to be transmitted to him on the day the license is granted.

N.B.—Although every Surrogate has legal power to issue a license under which a marriage can be solemnized in any church or place where Divine Service is usually performed in any part of this Diocese, it has always been the custom for the Surrogate or one of the Surrogates in the District in or nearest to which the parties usually have resided to grant them his license even if it should be the wish of the parties that the marriage should be solemnized by some Clergyman other than such Surrogate. And of this custom the careful observance is commended to all Surrogates by the Right Reverend the Lord Bishop of the Diocese.

(By Order)

F. BOWLANDSON, B.A., LL.B.,
Registrar of the Diocese and Archdeaconry of Madras.

Number of sittings to be provided to include provision for women, children and pensioned soldiers. In ascertaining the number of seats to be provided, women, children and pensioned soldiers and their families may also be taken into account, two children being counted as one adult. In cases of stations where abnormal rates prevail special application may be made to the Government of India for an increase to the grant given by the State.

Limit on number of sittings to be provided. But no grant for more than 200 sittings will be made except at seats of Local Governments and Administrations, at Hill Sanatoria, or at Railway Depots. In the two latter cases, the number of European-born British subjects in Government or Railway service must exceed (without their families) 120, to warrant the grant for a Church of greater accommodation than 200 sittings. When the number of sittings required is intermediate between the number given in the table, the grant for the seats in excess of the nearest number below the number required will be at the rate of the next lowest number in the table. And in no case will the Government grant be allowed until these contributions, together with the grant, amount to the estimated cost of the Church.

Church accommodation to be provided only for British-born European subjects. The number of sittings required for any particular Civil Station, other than a Railway Depot or Station, will be finally determined by the Government, solely with regard to the number of the British-born European subjects in the service of Government. No grant for Churches in Civil Stations will be made until private subscriptions have been obtained, and then the Government grant will not exceed double the amount of private subscriptions actually realized; the maximum figure in column 2 of the Table above being in any case the extreme limit of the grant towards the scale of accommodation which stands opposite in column 1.

Combination of Civil with Military Church. It is desirable, whenever such a course will not be attended by inconvenience, to combine the Civil with the Military Church of a Station, the grant allowed for the Church accommodation of the British troops given in para. 9 being supplemented by a grant according to the scale shown in para. 16, and so the probable number of seats that will be required for the Civil British-born European residents in the service of Government or of a Railway Company.

General.

Authorized scale not to be exceeded. The scales of sizes, and of expense, for all Churches above laid down, are in no case to be exceeded without a reference to the Government of India, even through the proposed expenditure from Public Funds may be within the powers of sanction vested in the Local Government or Administration.

House for Chowkedar to be provided; as also in certain cases for other servants. A house for the Chowkedar, or resident bazaar, and where special grounds are shown, accommodation may be provided for other duly authorized servants, but such further accommodation will be limited to shelter for day use only. These houses should, when practicable, be adjoining to, and not within the Church compounds, but when within them they should be erected in keeping with the other Church buildings.

Churches for non-official residents require sanction of Government of India. Church accommodation for non-official residents, either British-born Europeans or others, or for official residents other than British-born, should not be sanctioned by the Local Governments or Administrations without reference to the Government of India.

Private contributions. When private contributions are made towards building a Church in aid of a Government grant, the procedure to be adopted is as follows:—

1. Basis of design and estimate. The amount of private contributions being known, a definite design and estimate will be prepared by the Executive Engineer, and submitted for sanction in the usual way, the limit by which the Executive Engineer will be guided in his designs being the aggregate of the Government grant according to the scales given in paras. 8, 9 and 11, and the amount of private contributions actually realized.

2. Private contributions to be deposited. Before the work is commenced, the amount of the private contributions must be paid into a Government Treasury, and carried to credit of Deposits in the accounts of the Public Works Department, as laid down in Chapter XX, Section v, para. 16. The expenditure incurred from the Government grant, and the contributions, will be adjusted in the manner directed in Chapter XX, Section ii, para. 11, and on the principle laid down in para. 53 of the same Section.

Note.—In the case of a grant from the Church building fund for the Diocese of Calcutta, a certificate instead of cash payment in advance may be accepted showing the amount of the contribution to be allowed. The conditions on which this certificate may be accepted are that in every case definite arrangements must be made with the Local Government or Administration concerned respecting the precise dates on which the contributions will be paid, and that, until the payment is made, the Government shall have a primary lien on the funds of the Society. In case of any failure in paying up the stipulated payment on due date, the privilege herein allowed is to cease.

3. Mode of treating these contributions. In dealing with cases of this nature, unless it be otherwise specifically ordered, the private contribution is to be looked upon as an addition to the Government grant, instead of the money allowed from Public Funds being considered as a grant in-aid of private contributions, and the responsibility of Public

Works Officers with respect to the preparation of estimates, and the construction of such buildings with reference to excess of expenditure over the estimate, will be as strictly enforced as in a case where only public funds are expended.

20. Supply of Church furniture to be regulated by following rules. The supply of Church furniture will be regulated by the following rules. All expenditure connected with the articles to be supplied by the Public Works Department will be provided for under the rules laid down in Chapter Section of Code.

The Executive Engineer will be guided in granting the certificates above alluded to by the following principles—

Class I.—Churches built by Government.—The certificate should state that the Church was built by Government for the use of European Troops or British-born European subjects in the service of Government or of the local Railway Company, and is still maintained for the same purpose.

Class II.—Churches which have received building grants from Government.—The certificate should state that the Church received a building grant of Rs. ————, equal to the ———— part of the total cost of the building, and that the grant was made on account of European Troops or British-born European subjects in the service of Government or of the local Railway Company, and that the building is still used by them.

For this class of Churches a proportion of the standard cost of the articles will be sanctioned equal to the proportion of the grant-in-aid to the total cost of the building itself.

Class III.—Churches rented by Government.—The certificate should state that the Chapel is wholly rented by Government for the use of European Troops or British-born European subjects in the service of Government or of the local Railway Company.

In this class the articles necessary for service will be given by the Military Department, but returned into Store if the building ceases to be rented for the performance of Divine Service to a Military congregation.

In none of the classes described above should any article of furniture be allowed with retrospective effect, and the required certificates should afford information as to when the article was originally supplied, and by whom, and the reason for recommending its renewal. When, however, the Government pay for the use of a certain varying number of seats in a Church, the hire of the seats should include everything necessary for the performance of the Service.

V.—When a Church, whether Protestant or Roman Catholic, is to be furnished, the Executive Engineer should communicate with the Ecclesiastical authorities concerned with a view to afford the congregation an opportunity of furnishing the Church by private subscriptions in more costly style, should they wish to do so. It is to be understood, however, that any article of furniture to which any public funds may have been applied will remain the sole property of Government, even though a portion of its cost may have been contributed by private persons. And in cases where articles of Church furniture are procured from England, they should be purchased through the Secretary of State in the ordinary way, with the exception of the "fair linen cloth, napkins, Bibles and Prayer-books," which may be purchased in India.

21. *Renewals of furniture to be charged against Pew rents.* When Pew rents are charged, the renewal and repair of furniture will be met from that fund, and not be allowed to be brought forward as a public charge.

22. *Clocks.* The care of Church clocks is to be charged against the above fund where it exists.

23. *Chowkedars.* The pay of Chowkedars of Churches will be disbursed through Chaplains.

24. *Tablets, &c.* Churches are under the control of the Bishop of the Diocese in respect to the erection of tablets, ornaments, &c., while in course of construction, as well as after completion and consecration.

25. *Churches built by Government to be considered property of Government.* All Churches built by Government under these rules shall be considered the property of the Government.

Compensation for accommodation for Roman Catholic Soldiers in Chapels neither belonging to, nor rented by, Government.

26. The rate of compensation for sittings for Roman Catholic soldiers shall be determined by the Public Works Department with reference to the value and description of the accommodation provided, subject to a limit of Rs. 8 per seat per annum, broken periods counting as a year.

27. The number of sittings for which compensation is allowed will be subject to the same limit as is imposed in the case of the number allowed in Churches built at Government expense (para. 6), the maximum allowed being 300 for a regiment of European Infantry or 83 per company.

28. The outlay will appear in the Public Works Department budget-estimates and accounts under the head of Civil Buildings—Repairs.

29. Charges for compensation require the previous sanction of the Government of India, and must be supported by a certificate from the officer commanding the station of the numbers of Roman Catholic soldiers, and by women and children for whom chapel accommodation has been obtained and by a receipt for the money paid.

CEMETERIES.

HOME DEPARTMENT. NOTIFICATION—ECCELSIASTICAL.

Fort William, the 12th December 1877.

No. 421.—The following Rules for the care and use of Government Cemeteries other than those in the Presidency Town of the Diocese of Calcutta, for the levy and expenditure of fees on graves and monuments in Cemeteries and Churches throughout India, and for the levy of other ecclesiastical fees, are published for general information and guidance:—

Rules for the care and use of Government Cemeteries throughout India except those in the Presidency Town of the Diocese of Calcutta.

CHARGE OF THE CEMETERY.

RULE I.—(1)—The Resident Chaplain of a station has charge of the general cemetery and frames an estimate of the expenditure connected therewith in accordance with the directions contained in paragraph 1, Home Department Resolution No. 6—370-383, dated 9th November 1876.

(2)—The term "Resident Chaplain" includes a Clergyman of the Additional Clergy Society so far as concerns the stations to which he stands appointed or other Clergymen of the Church of England placed in charge by the Bishop.

(3)—During the temporary absence of the Chaplain, and at stations where there is no Resident Chaplain, the charge of the cemetery belongs to the Chief Magistrate on the spot, or the senior Military Officer if the cemetery is attached to a military cantonment.

(4)—At out-stations where there is a Church Committee the charge of the cemetery will belong to the senior member of Committee, and where there is no such Committee, to any subordinate officer nominated by the Magistrate or Deputy Commissioner of the district.

RULE II.—Each cemetery is allowed a malichowkidar or chowkidars in accordance with the scale prescribed in paragraph 2, Home Department Resolution No. 6—370-383, dated 9th November 1876. These chowkidars are paid by Government through the Resident Chaplain by whom they are appointed and dismissed. In stations where there is no Resident Chaplain, the chowkidars are paid, appointed and dismissed by the other officers named in Rule I.

RULE III.—Every reasonable effort should be made by the Resident Chaplain or other officer in charge under Rule I, not only to keep the cemetery in decent order, but to preserve its character as the resting-place of the remains of departed friends by providing for the necessary repairs and by planting the ground with suitable trees.

NOTE.—To meet the expenditure under this Rule, see Rule I, and paragraph 1 of Home Department Resolution No. 6—370-383, dated 9th November 1876.

† Appendix A.

RULE IV.—The chowkidar will keep the key of the cemetery under the direction of the officer in charge.

RULE V.—The officer who has charge of the cemetery under the operation of Rule I will perform all the duties assigned to the Chaplain by Rules VII, VIII, IX, X, and XI, with the exception of the approval of the inscriptions in that part of the cemetery reserved for the Church of England. There are to be forwarded to the visiting Chaplain, or, if there be none, to the Archdeacon, and not out till his sanction be obtained. Should however, an inscription be disapproved, it may be referred to the Government for decision.

INTERMENTS BY WHOM TO BE CONDUCTED.

RULE VI.—(1)—The Chaplain buries Christians of all denominations whose friends desire his services as laid down in the orders of the Government of India in the Home Department No. 153, dated the 6th June 1877, using always the service of the Church of England, and the consecrated portion of the cemetery.

† Appendix B.

(2)—A portion of every cemetery will be set apart by the orders of Government for the use of Roman Catholic congregations, and another portion will be appropriated for the

joint use of other Christians whose friends desire that they should be interred otherwise than according to the ritual of either the Church of England or of the Church of Rome, or who cannot legally be so interred.

(3).—These unconsecrated portions thus set apart are not to be fenced or walled off from the rest of the cemetery, but simply divided off by a pathway, and they must be added to the existing cemetery or reserved from it. If the existing cemetery be large enough for the wants of the whole Christian community, such portions will be reserved without reference to the fact that the whole enclosure has or has not been consecrated according to the rites of the Church of England. If the cemetery be only large enough for the wants of Christians desiring to be buried with the service of the Church of England, such portions will be added to the whole cemetery thus divided is to be surrounded by a wall, to have one gate or entrance, and be under the care of the officer specified in Rule I.

RULE VII.—(1).—Ministers of all denominations have a right to conduct the service of burial over the body of any deceased member of their respective congregations who may be buried in any fitting portion of the ground set apart for the denomination to which the deceased belonged. At least six hours' previous notice of the burial should be given to the Chaplain in charge of the burial-ground, or, in the absence of the Chaplain, to the officer who may be in actual charge. The period herein prescribed may, for special reasons, be shortened with the permission of the Chaplain or officer in charge of the cemetery. Such Chaplain or officer will, if he thinks the circumstances of the case demand it, bring the facts to the notice of the local Magisterial authorities in time to admit of an order stopping the burial being passed if necessary.

(2). A certificate of burial drawn up according to the required form must be sent to the Chaplain or to the Registrar of Births, Marriages and Deaths, to be entered in the Register kept up by him.

RULE VIII.—No burial can take place in that part of a Government cemetery which has been set apart for the use of members of the Church of England, unless the service prescribed by that Church is read by the Chaplain if there be one, or, in his absence, by the layman who officiates at the funeral. But a person may be interred in the other portions of a Government cemetery with or without the use of any services of religion.

ARRANGEMENT FOR BURYING.

RULE IX.—The arrangements for making the necessary preparations for dying graves, preparing coffins, and the like, should rest in military stations upon the sanitary officer, and in civil stations upon the chief local Magistrate. These officers are authorized to direct any local Public Works officer to supply all that is necessary. The local Public Works officer would usually be the Executive Engineer of Military Works in Military stations, and the Civil Executive Engineer in other stations. The expenditure incurred by the Executive Engineer will be held in his miscellaneous advance account until repaid by the officer authorizing the expenditure. But in cases of necessity or emergency, either officer may be called upon to do what is required.

RULE X.—The officer in charge of the cemetery shall keep a plan of the entire cemetery to be provided by the Public Works Department, with reference written upon it, in a book, in which the names of parties interred are recorded; this plan and book being kept with the church registers.

ERECTION AND REPAIR OF MONUMENTS.

RULE XI.—Monuments may be erected by any interested person. The inscription before being cut, and the design, must be first approved of as laid down in Rule V, and the dimensions of the monument must accord with the orders in paragraph 8, Home Department Resolution* No. 6-370-81, dated 9th November 1876.

RULE XII.—(1).—The Chaplain should communicate with the friends of the deceased when a monument needs repairing, or, when such communication is not possible, advertise three times in the *Gazette of India* and the *Gazette of the Province*; and if it falls into a ruinous condition, and no party will undertake to restore it, the ruined monument must be made level with the ground during the next repairs, and any slab it contained must be placed over the grave in simple masonry, or be inserted in the wall.

(2).—All work connected with monuments must, as far as possible, be carried on outside the cemetery, and any undertaker not removing the debris of his work immediately upon its completion is liable to a fine of Rs. 5.

NOTE.—This rule does not apply to monuments of historical or archaeological interest. Lists of such tombs should be obtained by Local Governments and Administrations, and as many of them as may be properly preserved at the public expense should be looked after by the local Public Works Department.

INSPECTION.

RULE XIII.—The cemetery should be inspected once in a half-year by the Chaplain in company with the Executive Engineer, the plan and book kept under Rule X being also examined, and a report made to the Archbishop, and recorded in the Ecclesiastical record-book of the station, and also in the Engineer's Office.

RULE XIV.—(1).—Commissioners of Divisions should inspect cemeteries, whether closed or in use, within their respective jurisdictions in the course of their annual tours and should bring to the notice of the local Government any instances of cemeteries which are negligently kept, or which the officers in charge may have allowed to fall into a state of bad repair or disorder. All cemeteries are equally subject to the visitation and supervision of the Bishop and Archbishop.

(2). Sanitary officers in cantonments are invited to inspect cemeteries within their respective cantonments, and to report to Local Governments any matter calling for notice.

MISCELLANEOUS.

RULE XV.—It is desirable that officers commanding regiments or detachments should be instructed to cause a report to be made to the nearest civil officer of graves dug for soldiers on march, that measures may be taken for their effectual protection and preservation. These graves and all scattered Christian graves throughout the district are under the care of the local civil authorities.

RULE XVI.—The above rules do not apply to Presidency cemeteries which have rules of their own.

II.

Rules regarding the levy and expenditure of Fees on Masonry Graves and Monuments in Cemeteries and Churches throughout India.

WHAT FEES ARE PAYABLE, AND BY WHOM.

RULE I.—A fee of 8 Annas for every square foot of ground occupied shall be charged for the construction of any masonry grave in a burial-ground.

NOTES.—(1). This fee is independent of the actual charge for making a grave.

(2). The fee leviable on a masonry grave regularly built up to the level of the ground is also leviable on a masonry grave which is not built up to the level of the ground, but which is only over and round the coffin.

(3). The "ground occupied" is to be regulated according to the rule laid down in paragraph 8 of Home Department Resolution,* No. 6-370-82, dated 9th November last.

* Appendix A.

(4). The same fees which are levied on public graves should also be levied on ecclesiastical graves which have pious foundations.

RULE II.—A further fee of one Rupee per square foot shall be levied on the erection of a monument in a burial-ground; provided, however, that for a simple headstone or a slab not more than 3 feet 6 inches in height or length, and 2 feet in width a uniform fee of Rs. 5 only shall be charged. A fee of Rs. 75 shall be levied on a faculty for the erection of a monument in a church.

NOTES.—(1). A tablet on the wall of a cemetery is to be regarded as a monument.

(2). "Simple headstone" means a cross no higher than a usual headstone and no longer than a usual flat stone is included in this description.

(3). When a monument is erected over a masonry grave, the total of the two fees will be equivalent to one and a half Rupees for each square foot of ground occupied.

(4). The fee of Rs. 75 levied on a faculty, drawn in the case of non-Government churches by the present incumbents of the office of Registrar of the Diocese in Calcutta and Bombay, shall cease on a vacancy occurring in the appointment. The money is to be spent in charity as in the case of Government churches.

RULE III.—When a cenotaph is erected in a cemetery, a fee of Rs. 50 should be levied in addition to the fee charged for the ground occupied, and the space should be strictly limited to six feet square.

RULE IV.—Fees for masonry graves and monuments should be levied over the whole cemetery, including those portions which are used by Roman Catholics and Non-conformists.

NOTES.—(1). The same rules in regard to fees apply to all graves, whether of Roman Catholics, of Non-conformists, or members of the Established Church.

(2). Where a parcel of ground used for burial by a Christian community of any particular denomination other than the Established Church of England forms no part of the general cemetery but is separate from it, or where, although not so separate, it is clearly distinguishable and was not originally acquired, and has not been kept up at the expense of the State, then, if the community by which the ground is used so desire, the Government will give up all claim to fees on the distinct understanding that it is divested of all responsibility for the maintenance of the cemetery in proper order. On the other hand, where such parcels of ground form part of a cemetery of the Established Church or the general Christian community, provided and maintained by the Government, no distinction can be made as to keeping up any one part of the cemetery, nor should any exemption from fees be permitted.

EXEMPTION FROM FEES IN GOVERNMENT CEMETERIES.

RULE V.—British soldiers and Non-commissioned officers are exempted, with retrospective effect, from the payment of any fee for the construction of masonry graves, or for the erection of monuments in burial-grounds to the memory of their comrades, wives, or children. The widows and children of British Soldiers and Non-Commissioned

Officers are also exempted from payment of these fees in the case of their deceased husbands or parents. No monument, however, either regimental or private, shall exceed the dimensions prescribed in paragraph 3, Home Department Resolution,* No. 6-370-82, dated 9th November 1876.

NOTES.—(1) This rule is applicable to the British soldiers and Non-commissioned officers whether in military or civil employ.

2. Monuments erected under this rule subscribed for partly by Non-Commissioned officers and men, and partly by officers, are likewise exempted from the prescribed fee.

3. Warrant officers are not exempted from payment of ecclesiastical fees.

RULE VI.—The Chunar pensioners being more or less under military control come under the category of soldiers, and are therefore entitled to the same exemptions as soldiers. But this ruling does not apply to other pensioners who are not similarly under military control.

RULE VII.—The Chaplain may at his discretion reduce, or altogether remit in cases of extreme poverty, the fee leviable on the construction of masonry graves, but not for the erection of monuments.

NOTE.—The Bishop on special occasions may sanction a reduction or remission of fees for the erection of monuments.

FEES BY WHOM TO BE COLLECTED.

RULE VIII.—In those stations in which a mason has been appointed, who alone is allowed to work within the cemetery, he is required, in exchange for the monopoly, to collect the fees on monuments and masonry graves, and pay them to the Chaplain; and any person ordering the construction of a masonry grave or monument to a mason or undertaker other than the person appointed by the Chaplain must pay the fees in advance.

NOTE.—Fees on masonry graves and monuments constructed by the appointed mason or undertaker need not be paid in advance, but, in case of failure of payment, their recovery must be entrusted by the Chaplain to the Magistrate or Deputy Commissioner as the case may be.

FEES TO WHOM TO BE PAID.

RULE IX.—The fees prescribed in Rules 1, 2, and 3 should be paid to the Chaplain or, in the absence of the Chaplain, to the officer in charge of the burial-ground and remitted at once to the Civil Treasury, except fees for monuments in churches, which would be paid over by the Chaplain to the charitable objects to which the Bishop assigns them when his faculty is issued.

CEMETERY RECEIPTS AND CHARGES.

RULE X.—All cemetery receipts and charges to be regulated as laid down in paragraph 4 of Home Department Resolution* No. 6-370-82, dated the 9th November 1876.

MISCELLANEOUS.

* Appendix A.

RULE XI.—(1) A person may not purchase a portion of a Government cemetery as a burial-place for himself and his family, so as to have a right to fence it with a rail or fence, and thus make it the private property of himself and family. But when such rights already exist, they are not without reason to be interfered with, and special cases as they arise may require exceptional treatment. And in such cases the Archdeacon may exercise his discretion with the sanction of the local Government.

(2) All private rights must, however, cease if for sanitary or other public reasons the cemetery is closed against burials, or even that portion of it in which the private ground is situated, but in special cases the Archdeacon may exercise his discretion of giving permission to open a vault or masonry grave.

(3) No kutcha grave can be opened in any cemetery for the purpose of converting it into a masonry grave without application to the Archdeacon, which must be accompanied by a certificate from the Principal Medical Officer that this may be done without risk to public health.

RULE XII.—(1) When a piece of ground is granted by Government as a cemetery to a Railway Company for the interment of its own servants, which afterward keeps it in repair and provides the necessary establishment, so that beyond the original grant of ground Government is at no expense, the collection and application of fees accruing is left to the decision of the Railway Company which maintains the cemetery in good order and repair.

(2) The Commissioner or District or Judicial Officer, and in military stations the officer commanding, should inspect such cemeteries and report to Government if they find them negligently kept.

III.

Other Ecclesiastical Fees.

RULE I.—No fees are charged for the performance of the rite of baptism or burial, or for the registration of the performance of these offices.

RULE II.—In addition to the fee for the Surrogate's license a fee of Rupees 10 shall be charged on all marriages by license, except the marriages of officers and others in the Military or Naval Service of Her Majesty.

RULE III.—The fee for a Surrogate's license shall be Rupees 50 both at the Presidency towns and in the interior. No fee shall be charged on marriages by banns.

RULE IV.—When registers are searched and a copy of any entry given, a fee of Rupee one shall be charged for the first year,* and four Annas

* The first year shall be for every additional year over which the search may be taken to mean any one year extend; as well a fee of Rupee one for the certificate, indicated by the applicant. Soldiers, sailors, and Non-Commissioned and petty officers are exempted from payment.

NOTE.—The amount of fees payable for marriages performed, and for searching registers kept in accordance with the provisions of Act XV of 1852 (The Indian Christian Marriage Act), is fixed by each local Government.

APPENDIX A.

Extract from the Proceedings of the Government of India, to the Home Dept. (Ecclesiastical), Nos. 6-370-82, dated Simla, the 14th November 1875.

Read Home Department Resolution, Nos. 314 to 318, dated 6th October 1875, appointing a Committee to report upon the following matters connected with ecclesiastical administration:—

- (1) The framing of joint estimates for expenditure on cemeteries or churches by the Executive Engineer and the Clergyman in charge.
- (2) A revision of establishments for cemeteries according to their area.
- (3) The size of monuments and amount of ground that may be enclosed.
- (4) Provision for planting cemeteries and preserving them in decent order.
- (5) Mode of supply of certain articles of church furniture.
- (6) The substitution of three for two classes of churches with respect to the expenditure allowed for them by Government.

Read the Report of the Committee, dated 25th October 1875.

RESOLUTION.—The Report of the Committee has been considered by the Governor-General in Council, who desires to express to the Committee his satisfaction at the result of their labors.

The following rules have been approved relative to the subjects referred to the Committee for report:—

I. Churches and cemeteries have already been divided into two classes: (1), those in stations where there are military cantonments and the military works which are under the charge of the Inspector-General of Military Works; and (2), those in other military cantonments and civil stations.

In both classes of stations joint estimates of expenditure should be framed annually by the undermentioned officers:—

- | | |
|--|--|
| (a) In the case of all expenditure connected with establishments, e.g., pay of servants, alterations in their pay or number, &c., also all expenditure by Government connected with the provision of articles of church furniture supplied by the Civil Department. | By the Chief Magistrate of the District and by the Chaplain. |
| (b) In the case of all expenditure connected with repairs and additions to church fabric, to church compounds or cemetery walls, to cemetery gates, walls, chancelbars, or other church servants' houses, provision of necessary appliances for graves or for the repair of tombs or for the planting of trees and shrubs in cemeteries and keeping the same in decent order; also all expenditure by Government connected with the provision of articles of church furniture supplied by the Public Works Department. | By the Executive Engineer and by the Chaplain. |

The estimates of expenditure to be prepared by the Executive Engineer and the Chaplain should show distinctly the probable charge under each of the following heads:—

- I.—New works connected with additions to existing churches and improvements to church compounds.
- II.—New supplies of furniture for churches and sanctioned articles of church use.
- III.—New works connected with additions to existing burial-grounds.
- IV.—Repairs to churches and church furniture and maintenance of church compounds.
- V.—Repairs to burial-grounds to be executed by Public Works Officers.
- VI.—Repairs to burial-grounds, including planting and cleaning, to be entrusted to the Chaplain or Chief Civil or Military Officer of the station or cantonment under paragraph 4.

It would be convenient if distinct estimates were prepared for each of these classes of expenditure.

The provision of funds to meet the charges above enumerated will be made in the Budget Estimate for the Public Works Department. The estimates for the same will be subject to the scrutiny of, and be passed by, the Superintending or Chief Engineer or

* NOTE.—The estimates should be for the financial year and should be prepared in advance, as is prescribed for other Budget Estimates.

local Government or Administration, according to the rules in force in the Public Works Department.

In stations in which the churches and burial-grounds are under the local Governments and Administrations in which the Provincial Service arrangements are in force, the charges debitable to the Public Works Department will be provided for in the Provincial Public Works Budget Estimate. In other Provinces and in the Military Works Branch the charge will be provided for in the Imperial Public Works Budget Estimate under Civil Buildings.

2. The following scale of establishments should be maintained at all cemeteries:—

- (i.) For a cemetery of which the area is five acres or less, one mali-chaukidar;
- (ii.) For a cemetery of which the area is more than five and less than ten acres, one mali-chaukidar and one assistant cooly;
- (iii.) For a cemetery of which the area is more than ten and less than fifteen acres, one mali-chaukidar and two assistant coolies;
- (iv.) For a cemetery of which the area is more than 15 acres, one mali-chaukidar and three assistant coolies.

It is left to the local Governments and Administrations to determine the proper wages to be given to each servant. The cost of this establishment will be charged to Provincial Services in the case of those local Governments and Administrations in which the Provincial Service arrangements are in force, and in the case of other local Governments and Administrations and the Military Works Branch of the Public Works Department to Imperial Funds. In either case the charge will be included in the Civil Budget Estimate.

3. The size of kutcha and pecku graves should be limited to 8' x 4', and the amount of ground to be enclosed should be restricted to 21' x 7', by external measurement in both cases. No monument over a pecku grave must exceed 8' x 4' at the base, except with the previous sanction of the local Government concerned. A simple cross or head-stone on an adequate masonry foundation, not exceeding 3' x 2', is the only monument that should be allowed over a kutcha grave; no kutcha grave should be enclosed by a railing.

4. No portion of the receipts from cemeteries should be retained by any Government officer to be directly expended by himself; all such receipts should be paid into the Civil Treasury to the credit of the Public Works Department. In the case of receipts from cemeteries in charge of the Military Works Branch and under those Governments and Administrations in which the Provincial Service arrangements are not in force, the credit will be treated in the Public Works accounts as a receipt under Imperial Public Works Revenue. In the case of the other Governments and Administrations the credit will be raised to Provincial Service Public Works Revenue. But the amount passed upon the joint estimate framed by the Executive Engineer and Chaplain to provide for planting a cemetery and preserving it in decent order should be entrusted to the Chaplain where there is one. Where there is no resident Chaplain, the amount should be placed at the disposal of the Chief Magistrate on the spot, or of the senior Military Officer if the cemetery is attached to a military cantonment. The necessary funds for the purpose will be advanced by the Executive Engineer concerned to the Chaplain or Civil or Military Officer. Bills for the expenditure should be rendered by the officer to whom the advance has been made, either monthly or otherwise, to the Executive Engineer, who will charge for the amount thereof in the usual way in his accounts. Until the bills are received and charged off, the advance will be placed in the Miscellaneous Advance Account of the Executive Engineer. All planting of shrubs and trees by private persons in cemeteries should be under the control of the Chaplain if resident, otherwise under that of the Magistrate or senior Military Officer, as the case may be. When practicable a well should be sunk in or near every cemetery.

In connection with the preservation of cemeteries in decent order, attention is invited to

the rule cited on the margin. This rule, however, should not be applied to monuments of historical or archaeological interests.

Lists of such tombs should be obtained by local Governments and Administrations, and as many of them as may be

The Chaplain should communicate with the friends of the deceased when a monument needs repairing; and if it falls into a ruinous condition, and no party will undertake to restore it, the ruined monument must be made level with the ground during the next repairs, and any slab it contained must be placed over the grave in simple masonry or be inserted in the wall by the Government officer.—(Rule VIII, *Diocese of Calcutta Burial-ground Rules*.)

properly preserved at the public expense should be looked after by the Local Public Works Department.

5. It should be understood that the Government cannot provide cemeteries at the public expense for Native Christian communities.

NOTE.—Where their number is small, the question is of little importance and is best arranged by mutual concessions or by special provisions made locally by the parties immediately concerned. And I am to suggest for His Lordship's (Bishop's) consideration, whether, if the necessity of dealing at the present time with this matter of Native Christian interment be in his judgment unavoidably established, it should not be carefully examined in consultation with the several local Governments, having regard to the diverse needs and circumstances of the population in each separate province.

6. It is not considered necessary to make any alteration in the existing rules regarding the mode of supply of church furniture.

7. Further orders will be passed on the sixth point referred to the Committee for report.

8. The arrangements for making the necessary preparations for digging graves, preparing coffins, and the like, should rest in military stations upon the senior Military Officers, and civil stations upon the chief local Magistrate. These officers are authorised to direct any local Public Works Officer to supply all that is necessary. The "local Public Works Officer" would usually be the Executive Engineer of Military Works in military stations, and the Civil Executive Engineer in other stations. The expenditure incurred by the Executive Engineer will be held in his Miscellaneous Advance Account until repaid by the officer authorizing the expenditure. But in cases of necessity or emergency either officer may be called upon to do what is required.

NOTE.—The intention of this paragraph is to provide an ultimate authority in case of difficulty, and existing arrangements need not be disturbed.

RESOLUTION.—On a reconsideration of the subject, the Government of India think it necessary to modify the rules contained in the Resolution of 8th September 1875, so far as regards the burial of deceased Roman Catholics. The Government of India have now decided:

1st, that at stations where there is a Roman Catholic Priest drawing an allowance from Government, he shall be held bound to read the burial service over the body of every deceased Roman Catholic brought for burial, unless he be excused from doing so by the rubrics and canons of the Roman Catholic Church; and that when the Roman Catholic Priest refuses to read the burial service over the body of a deceased Roman Catholic soldier, the Military authorities shall make proper arrangements for the decent interment of the corpse;

2ndly, that where there is no Roman Catholic Priest paid by the State, the Protestant Chaplain shall, if requested by the friends of the deceased, or by the Officer Commanding, be bound to bury the deceased according to the rites and ritual of the Church of England, except in either of the three cases in which Protestant Chaplains in India are excused from burying a deceased Protestant, viz., dying unbaptized even by lay baptism; excommunicated by the major excommunication; or declared to be *felo de se*; and that when a Protestant Chaplain refuses to officiate at the burial of a deceased Roman Catholic soldier on either of the three abovementioned grounds, the Military authorities shall, as in the case of refusal by a Roman Catholic Priest, make proper arrangements for the decent interment of the corpse;

3rdly, that whenever, with or without furnishing any explanation of his reasons, a Roman Catholic Priest paid by the State, or a Protestant Chaplain refuses to perform the funeral rites of his Church over the body of a deceased Roman Catholic soldier, the circumstances of the case should be fully reported by the Military authorities for the consideration and orders of the Government of India.

2. The Governor-General in Council is accordingly pleased to direct the modification in the above sense of the provisions of paragraphs 15 to 19 inclusive of the Resolution, 8th September 1875.

THE INDIAN CHRISTIAN MARRIAGE ACT XV OF 1872.

ECCLIASTICAL DEPARTMENT, Fort St. George, March 14, 1874.

Rules for the submission to Government of the Returns of Marriages solemnized under Act XV of 1872, and for the disposal of marriage fees.

Under the provisions of Section 88 of the Indian Marriage Act (No. XV. of 1872) the Right Honorable the Governor in Council is pleased to direct the observance of the following Rules for the disposal of the fees prescribed by Section 82, the supply of register books, and the preparation and submission of returns of marriages solemnized under the Act.

Head I.—Rules relating to Persons who have received Episcopal * Ordination (but who are not Clergymen of the Church of England nor the Church of Rome), and to Ministers of Religion who, under Section 6 of the Act, have obtained licenses to solemnize marriages.

Definition of "Minister." 1. The term "Minister" will be used for both of these classes of officers under this Head.

2. As required by Section 34 of the Act, a Minister will forthwith detach from his marriage register book every certificate of marriage solemnized by him and transmit it, within one month from the time of solemnization of such marriage, to the Marriage Registrar or Senior Marriage Registrar of the District, or to the Magistrate of the District, when there is only one Marriage Registrar in a district, and such Registrar is absent from the District, or ill, or his office is temporarily vacant (Section 7). Ministers in Madras should forward their certificates to the Senior Marriage Registrar for the Town of Madras.

3. The form to be used by Ministers for this purpose is given in the fourth schedule of the Act.

* Senior Marriage Registrar.

* Such as Clergymen of the Armenian and Greek Churches.

4. The Marriage Registrar or Magistrate acting under Section 7 on behalf of the Marriage Registrar, as the case may be, is required by Section 84 and the two following sections of the Act:—

(a)—To add to each certificate the number of the entry of the copy in the book to be kept by him under Section 34;

(b)—To affix to it his signature or initials; and

(c)—To transmit all the certificates received during the month to Government, together with the certificates from his own marriage register book, if he should have solemnized any marriages during the month.

5. On the face of every certificate of marriage thus forwarded, the Minister must distinctly state if either party to the marriage is a *British subject*, as in this case it is imperative that the certificate should be forwarded to England. If neither party to the marriage be such, that fact also must be stated; and it must be noted in the latter case if either of them desires the certificate to be transmitted to England for delivery to the Registrar-General of Births, Deaths, and Marriages.

6. The following is the definition of the term "*British Subjects*" which should be adopted in carrying out the above distinction:—The term *British Subject* means (1) a subject of Her Majesty, born, naturalized or domiciled in the United Kingdom of Great Britain and Ireland, and (2) the child or grandchild of any such person by legitimate descent.

Native Christians.

7. The certificates furnished by Ministers are not to include entries of marriages between Native Christians. These marriages, under Section 87 of the Act, must be registered in a separate register book in the form given in Schedule 4 of the Act. When certificates of such marriages are given, they shall also be in the form given in Schedule 4. The headings of this register book should be in the language of the district in which the ceremony is kept, but so much of it as has to be filled in by the hand of the person performing the ceremony must be in his own vernacular language. This book, when filled, must be dealt with as directed by Section 87. Under Section 84, true extracts from this register book shall be deposited in the office of the Marriage Registrar or Senior Marriage Registrar of the District, or in that of the Magistrate of the District when the Marriage Registrar is absent from the District, or ill, or his office temporarily vacant on the 31st December of each year. For the form of extracts see Appendix 1.

8. Applications from persons connected with any Missionary Society for licenses should be submitted to Government by the Secretary or Senior Chaplain of the Society through the Magistrate within whose jurisdiction the applicant may be residing.

Application for license. or in the case of residence in Madras, through the Senior Marriage Registrar for the town of Madras. Those officers should also forward an expression of their opinion. In every case the name of the applicant should be given in full.

9. When any person desires to resign the office of a Minister licensed to solemnize marriages under the Act, or is about to leave the station or district in which he has exercised such functions, it is particularly requested that he will report the circumstance to the Marriage Registrar or to the Magistrate of the District, as the case may be, and make over to him for safe custody the marriage register books, and all forms and other documents appertaining thereto, unless his (the Minister's) successor be duly licensed to solemnize marriages under the Act, in which case the books, forms, and documents referred to should be made over to such successor, and the fact should be reported to the Marriage Registrar or to the Magistrate of the District when there is no Marriage Registrar for information. In Madras the report should be made to the Senior Marriage Registrar for the town of Madras.

10. A form of report is given in Appendix No. 2.

Persons who send certificates to Government. 11. The person who are required to furnish the certificates to Government under this head are:—

(a)—All Marriage Registrars or Magistrates of Districts as the case may be.

(b)—The Senior Marriage Registrar for the town of Madras.

Head II.—Rules relating to Marriage Registrars appointed under the provisions of Act No. XV of 1872, (the Indian Christian Marriage Act) Section 7.

1. A Marriage Registrar is required, by Section 55 of the Act, forthwith to separate the certificate from the marriage register book, and to submit the certificates of marriage which he has attached from his marriage register book during the month, to the Secretary to the Local Government at the end of every month. Copies of the Certificate should never be sent. The original is required in every case.

Form of certificate. 2. A form of the certificate is given in the fourth schedule of the Act.

3. On the face of every certificate of marriage thus forwarded, the Marriage Registrar must distinctly state if either party to the marriage is a *British subject* within the meaning of Rule 6 of the foregoing Rules (Head I), as in this case it is imperative that the certificate should be forwarded to England. If neither

Information to be recorded on face of certificate.

party to the marriage be such, that fact also must be stated; and it must be noted in the latter case if either of them desires the certificate to be transmitted to England for delivery to the Registrar-General of Births, Deaths and Marriages.

4. Applications from persons connected with any Missionary Society, for appointment to the office of Marriage Registrar in any district, should be sent through the Secretary or Senior Chaplain of the Society to the Magistrate of the District in which the applicant resides; applications for appointment in Madras should be sent through the Senior Marriage Registrar for the Town of Madras. The Magistrate, or the Senior Marriage Registrar, as the case may be, should forward the applications to Government with an expression of his opinion.

5. When any person, not being a Marriage Registrar of the district, desires to resign the office of Marriage Registrar under the Act, or is about to leave the district in which he has been authorised to exercise the functions of a Marriage Registrar, it is particularly requested that he will report the circumstance to the Magistrate of the District, and make over to him for safe custody the marriage register books, and all forms and other documents appertaining thereto, unless his (the Marriage Registrar's) successor be duly authorised to register marriages in the same district under the Act, in which case the marriage register books, forms, and documents referred to, should be made over to such successor, and the fact be reported to the Magistrate for information. In Madras the report should be made to the Senior Marriage Registrar for the town of Madras.

6. A form of report is given in Appendix No. 2.

(b.)—All Magistrates when there is no Marriage Registrar.

(c.) The Senior Marriage Registrar for the town of Madras.

8. The attention of Marriage Registrars and Senior Marriage Registrars is directed to Rule 4, Head I. The form of register to be kept by them is given in Appendix 3.

9. Marriage Registrars should see that the true extracts from the register book referred to in Sections 37, 62 and 64, are duly forwarded to them on or the 31st December of each year for deposit in their offices.

10. At the close of each year the Marriage Registrar of each district will be furnished with two copies of the lists of the various persons authorized to solemnize marriages under the Act and residing in his district. One copy of each list it will be his duty, after inquiry to return with the necessary information filled in, and the other should be retained in the Marriage Registrar's Office. These lists will be in the form shown in Appendix No. 4.

11. The form of the Register to be kept by Marriage Registrars under Section 59 of the Act for the registration of marriages between Native Christians should be the same as in the fourth schedule of the Act. When certificates of such marriages are given they shall also be in the form given in Schedule 4. The

headings of the register book should be in the language of the district in which the register is kept, with an English translation, but so much of it as has to be filled in by the hand of the person performing the ceremony must be in his own vernacular language. This book, when filled, is to be dealt with as prescribed in Section 37.

Head III.—The following Rule is applicable to persons who hold at the same time the offices of both Marriage Registrars and Ministers under the Heads I and II.

1. Only certificates of marriages solemnized by Ministers of religion under Part III of the Act are required to be submitted through the Marriage Registrar or the Senior Marriage Registrar, or the Magistrate of the District as the case may be. The headings of the register book should be in the language of the district in which the register is kept, but so much of it as has to be filled in by the hand of the person performing the ceremony, must be in his own vernacular language. Under Sections 62 and 64, true extracts from this register book shall be deposited on the 31st December of each year as follows:—By Clergymen of the Church of England in the office of the Registrar of the Archdiocese, and by the other Clergymen named above in the office of the Senior Marriage Registrar for the town of Madras. ECCELESIASTICAL DEPARTMENT.

Part IV. George 14th March, 1874.

Rules for submission of Quarterly Returns of Baptisms and Burials of European Christians.

The Governor in Council having, under the Indian Christian Marriage Act of 1872, prescribed Rules for the submission of Returns of Marriages, deems it desirable to issue the following Rules for the submission of Quarterly Returns of Baptisms and Burials of European Christians.

1. In addition to the Quarterly Marriage Returns required under the Indian Christian Marriage Act, 1872, the Government require the submission, for statistical and other purposes, of Quarterly Returns of Baptisms and Burials of European Christians, i.e., of "all Christians of European birth or descent, or of mixed European and Native descent," as the forms specified in Appendices A to C.

2. The Registrar of the Diocese is not called upon to use the certificate of correctness of the Returns as each Clergyman certifies to their correctness at the foot of each Return. The Senior Chaplain of the Church of Scotland is also permitted to write the certificate of correctness on the Returns.

3. The Return relating to baptisms and burials of each quarter should be kept distinct and not contain entries which belong to other quarters.

4. These Returns are to include no entries in respect of Native Christians.

5. Whenever there may have been no baptisms or burials recorded during any quarter, a "Certificate of No Occurrence" (see Appendix E) should be forwarded.

6. As the Government desire to possess a record of all deaths of European and Eurasian Christians buried by the laity and not only of those buried by the Clergy, all magisterial officers are required to report every burial by laymen within their several jurisdictions to the resident Chaplain, or to the Chaplain or Minister who visits the station at which the burial has taken place, in order that it may be included in the Returns furnished by him to the Registrar of the Archdeaconry.

7. In cases of burials performed in places not visited by any Chaplain, the report should be made to the nearest Clergyman.

8. A list of all the stations and out-stations in Madras, showing by what Clergymen the out-stations are visited under the orders of the Lord Bishop of Madras, will be found in Appendix F.

9. For the purpose of registering burials not performed by Clergymen of the Church of England, or by laymen according to the forms of the Church of England, the following Rule will be adopted:—"In every Register Book there should be a separate page or pages, with heading and form distinct from those entries of burials in which at present the Clergyman or layman officiating himself enters and certifies the record of the service which he has performed. In this part of the book the Chaplain shall enter (as a copy) the copy of the certificate transmitted to him by the magisterial officer of the district. In this form there should be added a statement of the place of interment. The Chaplain shall copy these entries and return them with the others in his Quarterly Return certifying the correctness of the copies which he makes."

10. The reports made by magisterial officers to Chaplains should include the names of all European and Eurasian Christians buried by laymen, whether the funeral service be conducted according to the form of the Church of England or not.

Baptisms by laymen.

11. The same rules are applicable to baptisms when performed by laymen.

Returns to be forwarded within one month.

12. All officers who forward the Quarterly Returns to Government should forward them, if possible, within one month after the close of each quarter.

Officers who are required to submit Returns.

13. The officers who are required to submit these Quarterly Returns of baptisms and burials to Government are—

- (1.)—The Registrar of the Diocese, who collects them from (a), Chaplains in the service of Government; (b), Senior Chaplain of the Church of Scotland; (c), Clergymen (not being Covenanted Chaplains) ministering under the Bishop's license.
 - (2.)—The Right Reverend the Vicars Apostolic in the Madras Presidency, who collect them from the various Roman Catholic registering officers within the Presidency.
 - (3.)—The Very Reverend the Vicar-General of St. Thomas, who collects them in a similar manner.
 - (4.)—Ministers of religion licensed to solemnize marriages under the Indian Christian Marriage Act, Section 8, and any other Ministers not included in any of the before-mentioned classes, who perform such offices as well as Ministers of the Baptist denomination who will furnish registers of births in lieu of Baptisms.
14. Forms of Returns will be issued gratis on application to the Chief Secretary to Government.

By order,
D. F. CARMICHAEL, Acting Chief Secretary.

Ex-officio.

The above Institution was founded by the Rev. John Anderson, in Black Town, on 2nd April 1837. Its aim is to provide for native youth a liberal Christian education, that shall cultivate, expand and quicken the whole man, the conscience and will as well as the understanding and memory. With this view all the branches of a liberal education are so taught as to show their connection with the great central truths of religion and Christianity. The Bible is regularly taught as the record of God's revelation of Himself for man's salvation.

The instruction is carried on by the Professors, Assistant Professor and Teachers mentioned above; and the managing body is the College Council. As the College is intended to be the centre of the higher Christian education in Southern India, its constitution is as catholic as possible, and the members of the Council represent the majority of the Protestant Churches in the Presidency. The Church Missionary Society and the Wesleyan Missionary Society contribute each £200 a year to the support of the College, the Secretary of the former and the District Chairman of the latter are *ex-officio* members of the Council, as well as the Secretary of the Free Church of Scotland Mission. The College educates up to the standard of the Bachelor of Arts degree of the Madras University. It has at present 285 students.

In the school department there are upwards of 900 pupils, of whom 400 are in the upper, and 500 in the lower school.

Visitors are welcome on school days between the hours of 12 and 1 P.M.

SCHOOLS OF THE FREE CHURCH OF SCOTLAND MISSION.

In connection with the Central Institution, there are 7 Boys' Schools:—Lympettal, Rajampet, (Lower Class Schools), (Middle Class), Wallajahbad, Nellore, Conjeeveram, Tirvellore and Chingleput (Higher Class Schools). These are conducted in the same manner as the Central School. At these 7 schools there is an attendance of upwards of 1,000 boys.

Armenian Cemetery.

The present Cemetery was built and given to the Armenian Community by Government in the year 1862.

Previous to the erection of the Church, the Armenian Community performed Divine Service in a temporary place built of timber on the North of Monument Esplanade, opposite Fort St. George, by the late Honorable East India Company, who also paid for the support of the Priest 500 Rs. annually for 7 years, agreeably to a Treaty entered into by the said Company with the Armenian nation, dated London, the 22nd day of June, A. D. 1688, and in the fourth year of the reign of King James the Second. The present Church was built by the Armenian Community at their own expense in the year 1712, and alterations and additions made to it by them from time to time. In the year 1835, the British Government was pleased to grant the sum of Rupees five thousand (5,000) from the late Lottery Funds, for the repairs of the Church, out of which Funds the Community was enabled to erect a substantial and extensive verandah, 148 feet in length by 10 in breadth, on the east side of it. Government was further pleased to grant a donation of Rupees (2,000) two thousand from Dr. Woodley's Estate to the Church in the year 1839.

THE BRAHMO SOMAJ IN THE MADRAS PRESIDENCY.

We extract the following from the report sent in by Mr. P. C. Mozoomdar, the Apostle sent to this Presidency in connection with the Brahma Somaj, under Mr. Babu Keshub Chunder Sen:—

The following is a short account of the Brahma Somaj in Madras given by the Secretary of the Southern India Brahma Somaj. The latter institution is not in a most prosperous condition just now on account of the death of its most illustrious leaders. It most urgently requires the care of a guiding spirit, and the services of a missionary from Calcutta would be invaluable. There is a considerably greater progress and spirit in Bangalore where Babu Amrita Lal has so recently been doing very good work. Of course, the people of Madras are simple-hearted and susceptible, and therefore much less effort would be needed to convince them of the cardinal truths of our religion. But some one should

NOTICE TO PRINTERS AND PUBLISHERS.

The Registrar of Books having noticed that Books and Pamphlets are not unfrequently printed with words on the Title-page intimating to the public that the copyright is "Registered" when in fact it is not registered, the attention of all Printers, Publishers and Proprietors is called to the following brief abstract of the Copyright Act (No. XX of 1867) so far as it affects them:—

In order to secure the proprietary right in any publication, a written application must be made to the Registrar in the subjoined form given in the Schedule to Act XX of 1867, (vide Section V):—

To the Registrar of Books,

Madras.

SIR,—I have the honor to request that you will be so good as to cause any proprietorship of the copyright of work described in the annexed Schedule to be registered under Rule 8 of Section 20 of Act XXV of 1867, and I herewith forward the prescribed fee of two Rupees for the registry.

Madras,
Date

I have, &c.,
A. B.

SCHEDULE.

Time of making the entry.	Title of Book.	Name of the Publisher and place of publication.	Name and place of abode of the Proprietor of the Copyright.	Date of first publication.
---------------------------	----------------	---	---	----------------------------

Unless the copyright is secured thus formally the Author or Proprietor will have no copyright. Anybody else may publish the work with impunity and deprived him of his interest in his work, and no remedy can be had in a Court of law (Section XIV). If, on the other hand, copyright is registered, the fact will be admissible as *prima facie* evidence of title and the registered Proprietor can exercise the right to assign his interest or any portion of his interest in the book: (Section V).

Should any person print, or cause to be printed any book in which there subsists copyright without the consent in writing of the Proprietor entered as such in the Registry-book of this office, or have in his possession for sale or hire any book so unlawfully printed without such consent, such offender makes himself liable to a special action for damages (Section VII). And all printed copies of such work are forfeited to the copyright Proprietor: (Section XII).

The practice which now prevails of inserting such formula as "Copyright registered" or "Copyright reserved" on the Title-page of a book and then omitting intentionally or otherwise to register the same is highly objectionable. It amounts to a false statement, made with a view to deter others by misrepresentation from publishing the book. Apart from the utter worthlessness of such false statement, the party making it may probably render himself liable to prosecution for cheating under the Penal Code.

Under Section III of the Copyright Act, the Registry-book kept at this office is open to inspection at all reasonable times on payment at this office of eight Annas for every entry which any person may require to be searched for or inspected in the said book, and therefore such person can thus inspect it to satisfy himself whether the copyright has been registered or not, or he can obtain, if required, a copy of any entry in such book, certified under the Registrar's hand, on payment of Rupees 2; and such copies so certified are receivable in evidence in all Courts and in all summary proceedings, and are a *prima facie* proof of the proprietorship of copyright.

2. The Registrar of Books would now warn all concerned that hereafter there can be no excuse for any false statement made concerning copyright or for any infraction of the rules regarding the registration of books generally under Act XXV of 1867, on plea of ignorance; and that any omission to register a publication after the receipt of this notice will be presumed to be intentional, and all parties concerned are hereby warned against the consequences of such neglect.

This Institution was established by the Right Honorable Sir P. Venkayya, M.C., by a General Order of Government, dated 15th February, 1835, for the instruction in the "Medicine and Surgery" of Europeans, Eurasians and Natives entering the Medical branch of the public service. The benefits of instruction have been since thrown open to the community at large. The Medical College has been recognised by the Royal Colleges of Surgeons of London, Dublin and Edinburgh, as one of the Colonial Schools of Medicine and Surgery. It is under the control of the Director of Public Instruction.

A building has been appropriated solely to the objects of the Institution, the foundation stone of which was laid in December 1835. It was greatly enlarged and improved in 1867.

There is a separate building for practical Anatomy; there is also a Laboratory where practical Chemistry is taught.

A Museum has been formed, which in addition to mounted specimens, possesses numerous preparations, models, &c., for illustrating the different branches of the course of instruction. There is also a Museum of Botany and Materia Medica.

The Institution is supplied annually with a selection of Works on the several branches of Medical Science, for the purpose of forming a Library of Reference. There is also a Students' Library.

The Academic year extends from 1st October to 30th June inclusive, and is divided into a Winter Session of six, and Summer Session of three months. The annual examinations of the College are held in June.

The pupils in attendance at the College consist of—

1. Free Scholars, Private Students and a Lane Scholar, who form the *Senior or First Department* of the College. The period of study for those qualifying for the M. B. & C. M. degree is five years, and for those qualifying only for the L. M. & S. degree is four years.

2. Military, Civil and Private Students, divided into three classes, who study for three years and qualify as Assistant Apothecaries. These form the *Second Department*.

OBJECTS.

This institution is designed to afford instruction in the science of agriculture and in the practical application of sound principles in conducting the ordinary agriculture of this country.

THE FARM, &c.

The farm is conducted as an experimental farm; its area is about 280 acres, and it is well provided with suitable buildings.

In the farm workshops all kinds of agricultural implements and tools suited for use in India are manufactured and repaired.

The educational buildings contain 5 large lecture and class rooms affording every accommodation for lectures.

The Chemical Laboratory stands close to the educational buildings and is well supplied with the necessary apparatus for practical work in agricultural analysis.

The Veterinary Hospital is situated at some distance from the College. It consists of a yard with shade for accommodating sick horses and cattle and a Dispensary in which medicines can be prepared.

An Agricultural Library and a Museum are in course of formation, and a Reading-room for the use of students has been provided.

Botanical and Experimental grounds are attached to the College.

In the neighbouring village of Saidapet students can readily obtain board and lodging during their course of teaching; and a limited number of quarters have been provided on the Farm for such students as are willing to rent them.

MANAGEMENT, &c.

The institution is attached to the Educational Department under the control of the Director of Public Instruction. The direct management of the institution is entrusted to the Superintendent of Government Farms, who conducts all correspondence regarding the institution, issues all notices, orders, &c., regarding the delivery of lectures and other matters connected with the routine of the institution; and maintains discipline amongst the students, who are in all things, subject to the orders he issues.

INSTRUCTION, &c.

The course of instruction extends over three years; there are two sessions in each year, a Summer Session and a Winter Session: the Summer Session begins each year on the 1st of April, and ends on the 30th of June; the Winter Session begins on the 1st of October, and ends on the 31st of March. Though, in the Winter Session, class-room and lecture-room instruction does not begin until the 1st of October, students are nevertheless expected to attend at Saidapet on the 1st of September, in order that they may witness and take part in the important field operations conducted at that season in connexion with the sowing of the cold weather-crops.

The instruction given in the institution, embraces a thorough study of agriculture and of such portions of Chemistry, Geology, Botany, and the Veterinary Art as bear on the theory and practice of agriculture. In addition to these special subjects, the following also receive attention:—Physics, Physical Geography, Mechanics, Farm Book-keeping, land-surveying, mensuration, and plan drawing. The instruction is given by means of lectures, class-room discussions, and field classes.

During the portion of the day set apart for practical instruction in farming out of doors, every student is expected to take part in whatever work may be going forward on the farm; compliance with this regulation will be enforced. Each student is expected to make himself strictly acquainted with all the operations daily performed on the farm, and is required to keep a journal or diary of the same.

Instruction is conveyed in the English language, but the Masters will afford as much assistance as possible in explaining the lectures and instruction generally to students whose limited acquaintance with English may make it difficult for them to follow such instruction without explanation.

2. Grants are given under two alternative systems, viz:—

- (1) The Salary Grant System.
- (2) The Results Grant System.

Grants are also given for:—

- (3) The payment of Normal Scholarships.
- (4) The erection, purchase, enlargement and rent of school buildings.
- (5) The purchase of school furniture, maps, books for school libraries, special apparatus, diagrams, examples and tools.

II. THE SALARY GRANT SYSTEM.

(a) CONDITIONS OF AID.

1. It will be essential to the consideration of any application for aid under the salary grant system that the school on behalf of which it is preferred shall be under the management of one or more persons, who, in the capacity of Proprietors, Trustees, or Members of a Committee elected by the Society or Association, by which the school may have been established, will be prepared to undertake the general superintendence of the school, and to be answerable for its permanence for some given time.

2. Every application for a grant must be accompanied by a declaration that the applicant or applicants are prepared to subject the institution on behalf of which the application is made, together with its current accounts, list of establishment, time-table, scheme of studies, and registers of attendance, to the inspection of a Government Inspector, such inspection and examination relating only to the general management and to the secular instruction, and having no reference to any religious instruction which may be imparted.

3. Except in the case of Normal Schools for training teachers and of Female Schools, such monthly schooling fees must be levied as may from time to time be prescribed by Government.

4. No salary grant shall be given until a fairly suitable building has been provided.

5. No salary grant shall be given or continued to any school which cannot show an average attendance for three months of at least twenty pupils.

6. Generally a teacher will not be eligible for a grant unless he or she spends at least four hours per diem in secular teaching, but in the case of Pundits teaching oriental languages alone, and Mistresses teaching needle-work alone, two hours per diem will suffice, and in the case of Teachers instructing college classes three hours will be accepted.

(3) ISSUE, TRANSFER, WITHDRAWAL, AND PAYMENT OF GRANTS.

9. Applications for grants in aid of Masters and Mistresses must be sent to the Director of Public Instruction through the Inspector of the Division.

10. Except in cases in which a reference to Government is required, all grants from Provincial Funds will be sanctioned by the Director of Public Instruction.

11. Grants not exceeding Rupees 10 per mensem may be transferred, reduced, or withdrawn by an Inspector of Schools. The transfer, reduction, or withdrawal of grants exceeding the foregoing limit will be made by the Director on the recommendation of an Inspector.

12. A teacher absent on leave for a period not exceeding six months may, with the sanction of the Inspector of the Division when the monthly salary grant does not exceed Rupees 10, or with the sanction of the Director of Public Instruction if it exceeds that amount, receive half his or her grant during such absence, and the other half may be assigned to any fairly-qualified substitute, provided that the managers of the school contribute the proportion required of them under these rules towards the salaries of the absent and officiating teachers.

13. In case in which the managers of a school may desire to draw a grant for an absent teacher for a period exceeding six months, the sanction of Government shall be obtained.

14. All grants in aid of the salaries of Masters and Mistresses will be paid monthly. It will be essential to the payment of such grants that the proportion which the managers are required to contribute for the purpose for which the grants may have been sanctioned shall be duly paid. All grant bills shall therefore contain a declaration that the teachers have received the portion of their salaries payable by the managers.

(c) NATURE OF CERTIFICATES AND AMOUNT OF GRANTS.

DOVETON PROTESTANT COLLEGE,

OPENED 1st MARCH 1855.

COMMITTEE OF MANAGEMENT FOR 1881.—The Hon'ble J. G. Coleman, The Hon'ble P. O'Sullivan, J. Sturrock, Esq., C.S., J. Gray, Esq., The Rev. W. Stevenson, M.A., D. Sinclair, Esq., M.A., J. Burby, Esq., J. H. Burns, Esq., C. Hall, Esq., A. M. Hooper, Esq., The Rev. H. Bower, M.D., The Rev. E. Sell, M.D., Secretary, J. T. Greston, Esq., Financial Secretary, J. Cook, M.A., Principal.

PROSPECTUS OF THE BOYS' SCHOOL AND COLLEGE.

The object of this Institution is to provide a liberal and sound Christian Education for the Anglo-Indian community of Madras and South India. It was opened on the 1st March 1855 as "The Madras Parental Academic Institution and Doveton College" on the foundation Trust of the late Captain John Doveton, and was amalgamated the same year with the Madras Protestant College, under its present designation of the "Madras Doveton Protestant College."

The Religious Instruction is non-denominational having reference only to such views as are common to the Church of England, the Church of Scotland, and the whole body of the Protestant Churches of Europe.

The management is vested in the hands of a Committee of thirteen members. Nine are representatives of the Doveton Trust, and are elected at a yearly meeting of the Members of the Doveton Society. The remaining four are the Trustees of the Protestant College funds and fill up vacancies in their own body.

The various sources of Revenue are (1) Fees, (2) Subscriptions of Members, (3) Government Grant-in-Aid, and (4) Interest on Government Securities held in Trust for Captain Doveton's estate, for building and general purposes and the Protestant College Fund. (These securities amount in all to Rs. 323,000-0-0).

The Education given in the Institution comprises a School and a College curriculum. The former aims at providing a thorough English, Classical, Mathematical and Scientific Education on a level with the Collegiate Schools of England and Scotland. The Curriculum of the College Department is adapted to the requirements of the First Arts and Bachelor of Arts Examinations of the Madras University, with which the Institution is affiliated. The School Department includes

- (1) A Primary School, consisting of two Classes, I and II of boys from 9 to 11 years of age, under separate qualified masters. The Lower Primary, and Upper Primary Examinations as prescribed by Government are the Standards of these respective classes: and certificates of passing such Examinations are given to all pupils successful at the December Examinations, by the Principal who conducts these Examinations personally. The Fee for these classes is Rs. 3 per month.
- (2) A Middle School, consisting of three Classes, III, IV (B) and IV (A), entrance into which is secured by all pupils passing the Upper Primary Examinations in this or any aided School. The Fee for each of these classes is Rs. 4 per month. The Standard of Class IV (A) is that prescribed for the Middle School Examination, for which its pupils have to appear.
- (3) A High School consisting of two Classes, V and VI, taught by highly qualified teachers, a Classical, a Mathematical, and an English master. The Standard of Class VI is that of the Matriculation Examination of the Madras University for which the pupils appear.

The Fees are for Class V, Rs. 4, and for Class VI, Rs. 5 per month.

Free-hand Drawing, and Tamil are also taught by qualified masters: the former for a merely nominal fee (8 annas for Junior pupils and Rs. 1 for Senior); the latter subject is also extra and optional, but taught gratis.

Gymnastic Apparatus is provided for the pupils under a substantial building with suitable protection from the sun.

The Entrance Fee is Rs. 1 for the Lower and Middle Schools, Rs. 2 for the High School and Rs. 3 for the College.

A Reduction of School Fees is made for each additional pupil more than two from the same family, attending the Doveton School or College or Girls' School. Thus if there were 2 boys at the College and 2 girls at the Girls' School there would be a monthly reduction of Rs. 2 in the conjoint bill for Fees.

The College Department is under the immediate tutorial charge of the Principal, who must be a graduate of a British University, and other experienced graduates. The Fee is Rs. 5 for all classes in the college.

Scholarships. No less than four Scholarships are conferred annually on pupils who have just matriculated and who enter the first College Class, and undertake to prosecute their studies for the Degree Examination of the University. Two are conferred on the two Doveton Matriculates who have passed highest in the University Entrance Examination, and two others on any two European or Eurasian Students from other Institutions who shall have passed this Examination holding higher rank than any Doveton pupils, other than the two holders of Scholarships for the year. These Scholarships are of the value of Rs. 10 per month for the first two years, and Rs. 25 or Rs. 15 per month for the next two years, according as the holder is placed in the 1st or 2nd Class of the First Arts Examination at the end of his second year.

PEOPLE'S PARK, INSTITUTED IN 1839.

CUSTOMERS—MUNICIPAL COMMISSIONERS FOR THE TOWN OF MADRAS.

MR. CHAIRMAN JAMES HAY ELLIS, Superintendent.

We owe the People's Park to Sir Charles Trevelyan. It is not at all improbable that the idea of some such place suggested itself to many a man in power before his day. It would be singular indeed if Europeans should, for a hundred years, have seen a large native town growing up on the site of a small village—a vast population mashing together with lungs to be fed with fresh air and limbs to be allured to exercise and health—without sometimes thinking it possible that the "village greens," "commons," and "parks" of his native land might perhaps be reproduced with advantage within reach of Black Town. The monotony of Indian life, and the lack of sympathy between the classes of Indian society, may be regarded as the causes why such an idea, if suggested, was never carried into execution. While the "upper ten thousand" could have their drive along the beach and round the Island, it mattered little to them that the "masses" (unfriendly phrase) who could not drive, or were to be stimulated to recreation, had no place convenient for health, exercise and amusement.

But when Sir Charles Trevelyan was a man not given to routine; and somewhat wide in his sympathy. So the idea of the people's park suggested itself to him and he having the power as well as the will—the people got their Park. Thousands who know nothing of the step that cost him a Governorship, will hold his name in memory by the People's Park.

But when Sir Charles was recalled, the scheme was in a most elementary state. The plan upon paper; but never adopted. Little else was done, and little else would have been done if the inheritors of Sir Charles Trevelyan's dignity had not also inherited his sympathy with the people. We owe it to the various gentlemen who have been entrusted with the execution of the scheme, that the "plan" was not thrown into the official waste paper basket, and the idea, recorded as one of Sir Charles' admirable follies. It is in unison with Sir William Denison's career, previous to his arrival in this country that he should have shown a hearty approval of an undertaking so intimately connected with the health and pleasure of the middle class population.

There can be no doubt that the Park has been a success. Any one may convince himself of that by a visit morning or evening. The place has already fixed its character as a popular resort, and it is certain that it will be so in a much greater degree when the attractions of the ground are fully developed. It is pleasing to see that the native population appreciate the pleasure provided for them, and when the sternness of social life amongst them is relaxed, we may expect to see not only the Ramanawanders, but the Lutchenies of Black Town taking their ease in the fretted shade of well-grown trees.

But we must suspend any further remarks, and lay before our readers a brief description of the Park.

The gate adjacent to the Hospital Bridge is the main entrance. The trees are planted in avenues and groups. Eleven lakes of various dimensions and shades are completed; and various other things have been achieved; but we cannot do better than print the following description (though brief) of the park, kindly furnished by the Superintendent, which will convey a clear idea of the Park.

In the North-west angle of the Park is a Serpentine lake, with two large raised islands one at each end. One of these is 30 feet above the water, and is well calculated for a large basin, from which the cascades might heretofore be made to fall over the sides. The second or Victoria lake, with a central island, is situated almost midway between the band-stand and the northern end of the Park and now occupied by the Monkeys. The island is approached by one bridge of ornamental design, measuring 200 x 4½ feet. The third is a small lake on the west side, elliptical in shape, and contains good drinking water for cattle. The fourth is a small lake close to the Aviary. The fifth a similar one. The sixth is a semi-lunar lake near the band-stand. The seventh is a medium lake, between the band-stand and the Superintendent's house. The eighth is an irregularly shaped lake, with a central island and grove of various sorts planted on it. The ninth is a large lake on the west side of the main road. The tenth is a medium lake west of the last-mentioned. The eleventh is a medium lake, with a central island at the south end.

There are two masonry basins, one elliptical, measuring 170 feet x 78 feet, and 4½ ft. in depth, formed of solid masonry with brick-on-edged foundation and central fountain; the latter, of ornamental design, galvanized. This has recently been surrounded by an iron fence and converted into a public bath, the floor of one-half of it has been raised so as to give a depth of about 4 feet adapted for the use of boys—the other half has a uniform depth of 5 to 6 feet. It is supplied with Red Hills lake-water from the public main road, and good dressing rooms have been built round it for the bathers. The roads of the Park, embracing 5½ miles, are complete.

The Zoological collection in the Park consists of the following specimens:—

1 Lion, 2 H. mss, 12 large Tigers, 3 Tigresses, 2 Cougars, 1 Chestnut Cub, 8 large Hyenas, 1 Rh. mss, 1 Elephant, 2 Porcupines, 2 Black Swans, 1 Opossum, 1 Emeu, 1 Black Bear, 1 Rattail, 15 Spotted Deers, 17 Monkeys of different species, Guinea Pigs, and a variety of Rabbits.

VIII. IX and X, and to discharge all the other duties devolving on the Committee of Management, as laid down in these Rules, and in the Trust Deed, with another Committee can be formed in accordance with Article II.

VIII. That the Hall shall be available for the Public Meetings of the Religious Societies named in Article No. II, and of such other Religious Societies as the Committee of Management shall approve.

IX. That all Societies or parties obtaining the use of the Hall shall pay a Fee of Rs. 50 for each occasion of such occupation, except in the case of its use for several days consecutively by the same Society or party, in which case the Fee shall be Rs. 25 per diem. But it shall be competent for the Committee of Management, from time to time to modify this Rule, and to determine what rate of fees shall be paid generally, or by any Society or party specially, provided however the rate shall not be altered more than two-thirds of the amount of the fee payable for the same.

X. That subject to the approval of the Committee of Management in each case, the Hall shall be available for Religious, Educational, Charitable and Scientific purposes, and for such other objects as the Committee of Management may see fit to approve, as may be provided by the Committee of Management to be not inconsistent with the design of the building, viz., to the Glory of God, and as memorial of His goodness in appointing this Presidency, viz., to the Memory of 1857. Provided nevertheless that it may be distinctly understood that among the objects left to the discretion of the Committee of Management are not included balls, concerts, theatrical exhibitions and such like amusements as have the character of mere worldly amusements.

XI. That the Committee of Management shall be authorized to receive all sums advanced on account of the Hall, and to apply them in defraying the expenses incurred on account of its occupation, repairs, &c.

XII. That the Committee of Management shall publish in the *Madras Gazette* every year a statement of money received and expended on account of the Hall.

XIII. That the Committee of Management shall appoint one of their number to be their Secretary and shall also appoint a Treasurer and four Members shall form a quorum.

XIV. That these Rules shall be regarded as Fundamental, and that therefore they shall not be competent, under them, to the Committee of Management, or to the Trustee or to any other person, to introduce any alteration or addition in their provisions with their spirit, principle or scope.

Rev. S. V. ORRANE, Secretary.

The Hill Fort of Golconda was anciently the seat of its Government, and in the Fort as well as near it are the fine-famed Tombs of Golconda, a series of splendid mausoleums built in oriental style over the departed Sovereigns and Princes of the Hyderabad dynasty. The Tombs are greatly admired for their extent and beauty.

The Nizam's Government.

The last Ruler, His Highness Afzal-ul-Daula Bahadur, C.S.I., was the seventh Nizam of the Deccan, who was the descendant in succession of the celebrated Asaf-ud-Daula, the "First Nizam," or founder of the Hyderabad Dynasty since the 17th century. Asaf Jah Nizam-ul-Mulk died in 1788.

The late Afzal-ul-Daula, the seventh Nizam or Nawab of Hyderabad, departed this life in February 1909, after a reign of twelve years, and has been succeeded by a son, who is a minor.

The infant Prince was placed on the Hyderabad Mawad on the 1st March 1909 as H. H. Nawab Mir Mahbub Ali Khan Bahadur shortly after the demise of the late Nizam, Afzal-ul-Daula. During the minority of the present Prince, Mir Mahbub Ali Khan Bahadur, two officers have been appointed to conduct the affairs of the Hyderabad Government.

Nawab Mooktar-ul-Mulk Sir Saif Jung Bahadur, C.S.I., Prime Minister.

Sappers and Miners, 2 Companies.	

The Head Quarters of the H. H. (Prince of Wales' Lancers) have been removed into the enclosed buildings that have been erected at north Trimulgherry. North Trimulgherry is E. E. of the Bolarum Residency, and immediately beyond Rythu's Canebrake, this will give the reader who knows anything of this locality, some idea of what the Station of Trimulgherry now is. Several Officers' Quarters are finished to the East of and in line with the Bolarum Residency, and within a short distance of it.

There is a Church also at Trimulgherry, which affords the convenience of British Europeans at that Station.

Rev. J. W. Wrench, M.A., Church of England, Chaplain of Trimulgherry.

BOLARUM

In 12 miles north of the Residency, a Military Station for troops of the Hyderabad Contingent, Commanded by Brigadier General Sir C. J. Gough, K.C.B., &c. The Protestant Church at this place is a neat Gothic structure, erected by public subscription in 1843. The Rev. C. H. Pelly is the Chaplain of Bolarum. There are also two Catholic Chapels, (Irish and Gael), a Post Office and an English school for children of both sexes of Europeans and East Indians. A People's garden has also been beautifully laid out, and is a great ornament to the Station. The Band of the Infantry Regiment plays in the garden once a week. Owing to the proximity of Bolarum to north Trimulgherry, the Troops (Lancers) are marched to the Bolarum Church for Divine worship. The Church has been enlarged to provide sufficient accommodation for the Lancers. Chaplain Rev. C. H. Pelly, M.A.

The Nilgiri Library has been duly Registered under the Government of India Act XXI of 1860, and a certificate to that effect has been obtained from the Registrar of Madras.

LIBRARY.

The Library is well provided with Standard Works in every department of Literature and Science.

The most useful and popular Books of the day in every subject are procured upon publication.

The books in the Library are in good order, are much circulated, and are increasing constantly. At the end of last March the books numbered totaled 9,694 volumes, 617 volumes were added during the last year.

There are two very complete Cabinets of Mineral and Geological Specimens in the Secretary's Room which can be seen on application to the Librarian.

READING ROOM.

Twenty-three Newspapers and 25 Magazines and Periodicals, or 46 in all, both European and Indian, are now taken in by the Institution.

RULES FOR ADMISSION.

Members are those who pay a Donation, an Annual Subscription wherever resident, and a Local Monthly Subscription from the 1st of each month, during residence within local limits. There are now 101 Members on the books of the Institution.

To provide for the convenience of persons making a short stay on the Hills, monthly admission tickets dating from day of issue can be purchased, and renewed by the ticket-holders from month to month, but only for 6 months out of any one year. Ticket-holders pay to Entrance Donation, nor Annual Subscription, and are not Members. Admission tickets are in great demand by persons who are not Members.

The affairs of the Institution are managed by a Committee composed of a President and twelve Members, one of whom the Government of Madras appoints.

An Annual General Meeting of the Members of the Institution is held in the first week of July of each year, or at such other convenient time as to the President in concert with the Committee, or to any Special General Meeting shall seem expedient for the election by Members' ballot of the President and eleven Committee-men for the ensuing year. Not less than thirty Members can at any time call a General Meeting of Members by giving fourteen days' notice.

All Members pay an Entrance Donation of Rs. 10, an Annual Subscription of Rs. 12, and a Local monthly Subscription of Rs. 24. Admission tickets are priced 84, and Rs. 6 for a single monthly ticket respectively; persons who have paid a donation under the old rules to pay Rs. 24, all others Rs. 6.

OOTACAMUND LAWRENCE ASYLUMS.

FOUNDED ON SEPTEMBER, 1858.

PATRON.—His Excellency the Commander-in-Chief and The Right Reverend the Lord Bishop of Madras. COMMITTEE OF MANAGEMENT.—General R. J. Baker, Capt. R. Deane, Major E. Jago, W. Lonsdale, Esq., Major Martin, N. A. Roupell, Esq., W. E. Schmidt, Esq., Major Livers, Colonel W. J. Wilson, Reverend O. Dene, B.A., Principal and Secretary: Surgeon Major J. Smith, in Medical charge; Asst. Apothecary F. Green, Resident Apothecary, Mr. T. Burrows, Manager.

MALE NURSERY.—Mr. G. W. Armstrong, Head Master; Mr. J. Clouston, Second Master; Mr. Wynne, Third Master; Mr. A. Campbell, Fourth Master; Mr. Hoge, Fifth Master; Mrs. Lee, Matron.

FEMALE NURSERY.—Lady Visitors.—Mrs. Carmichael, Mrs. Campbell, Mrs. Dene, Miss Leggett, Mrs. Roupell, Miss Carroll, Head Mistress, Miss Lee, Second Mistress, Mrs. Campbell, Matron.

The objects contemplated in the Establishment of this Institution are two-fold—first, to do honor to the memory of a great and good man, the late Sir Henry M. Lawrence, K.C.B.; second, "to benefit the children of the European Soldier, by providing for them a refuge, both from the debilitating effects of a tropical climate and the demoralizing influence of a Barrack life."

The amalgamation of the Madras Military Male Orphan Asylum with the Ootacamund Lawrence Asylum was effected in September 1871, on the completion of the new Buildings at Lovedale.

The number at present on the rolls are, boys 330 and girls 60.

The salubrity of the situation (which surpasses that of some of the healthiest public schools in England) is shown by the diminished percentage of sick in Hospital, and the robust appearance and healthy appetite of the children.

Although the Institution may be said to have been adopted by the State, it is not perhaps so generally known that Government has never contemplated doing more than furnishing it with a *liberal Grant-in-aid*. Contributions are earnestly requested that the benefit of the Asylum may be more widely extended to a class which has one of the strongest claims on British Subjects in India. Four years' annual subscription of Rupees 50, or a donation of Rupees 500, gives a title to nominate a child.

The boys receive such a training as will fit them for usefulness hereafter in various lines of life, whilst the girls are employed in such occupations as will tend to qualify them to become useful wives and mothers, should they be spared. The clothing and most of the in-door work in both branches are done by the children, and native servants are dispensed with as much as possible.

The Shevaroy Hills.

Are situated in the Salem Collectorate between 78° 20' East longitude and 116° 50' North latitude, and is reported to comprise 100 square miles. The highest point is about 5,000 feet above the level of the sea. Ercaud is the chief European settlement containing a Protestant Church, Roman Catholic Chapel, Post Office, Library and Reading Room, Hotel, Civil Dispensary, Travellers' Bungalow, Chattram for native Travellers, Cutcherry, Police Lines, &c. There is a resident Deputy Tahsildar. It is 14 miles distant from Salem, and 12 miles from the Shevaroy Hill Station. It has two ghats or approaches; one on the southern side communicating with the Town of Salem, and the Salem Railway station, and the other leading to the Shevaroy Hill Station. These ghats are not practicable for wheeled carriages, supplies being brought up by coolies or pack bullocks. A market or bazaar is held twice a week on Sundays and Wednesdays, whence supplies can be purchased. Bread, poultry, mutton, and beef are brought for sale to the door. There is a small European shop where English Provisions, Wines, Spirits, Beer, &c., is procurable.

In addition to the Civil Dispensary under the care of a Civil Apothecary, a Retired Medical Officer conducts private practice.

Whilst Ercaud is the chief and only Post Station, it forms the centre from whence radiate within a circumference of 10 miles, the various Coffee plantations.

Coffee is the chief product whilst most of the English fruits and vegetables, and all the English flowers are successfully raised. Tea and cinchona are grown in experimental patches on some estates. The various gum trees (*Eucalyptus*) and firs are also met with. Many beautiful views of the low country are to be seen from most of the houses. Green Hills or the Shevaroyan forms the highest point. There are many villages scattered about various parts of the Hills in small groups consisting of from 20 to 100 conical-shaped huts inhabited by a tribe of natives called Malayalis. Labour is cheap and abundant, independent of the Malayalis coolies from Salem come and work on the estates, men at one Rupee a week, women at 10 annas, and children from 6 to 8 annas a week. These Hills get the benefit of both the S. W. and N. E. monsoons. There is a decent carriage road in and about Ercaud; and good bridle paths leading to the various plantations and to most of the villages. The house accommodation for Europeans is yearly on the increase and large number of visitors resort thither to enjoy its quiet, lovely scenery, the beautiful climate. The season lasts from April to October; but at all times of the year, a few visitors or health-seekers are to be met with. The permanent residents are chiefly planters. The climate is healthy; but from imprudence and careless exposure and fatigue, visitors are liable to take fever, as well as natives and servants from the plains who from exposure to rain, and neglecting to change their clothes, they suffer much from fever, and from recklessly eating unripe fruit they get dysentery. Ercaud is about 230 miles distance from Madras by rail and may be reached within 12 hours when proper arrangements are made for ascending the Ghat. It is about the same distance from Bangalore, 97 miles from Coimbatore and 126 from Trichinopoly.

Most of the waste lands on these Hills now not private property is covered with forest trees, and applications for such blocks at a rule, are not granted. The only land now available is in the Salem Nad of the Shevaroy Hills which it is possible to secure under the waste land rules.

The Pulney Mountains.

Are situated in the Madura District of Southern India, between 10° and 10° 16' North latitude, and 77° 55' East longitude and connected to the Western Ghats by an Isthmus or ridge of hills about 8 miles in width, being otherwise isolated. Bounded on the North by Coimbatore and Trichinopoly districts whilst those of Madura and Tanjore lie to the East. *Kodai Kanal* being the name of the plateau, in and about which the Europeans reside. It is 7,000 feet above the sea level, the annual rainfall is about 60 inches. The thermometer ranges from 60° to 70° Fahrenheit. There are only three permanent residents, twenty houses, and eighteen sites selected for building purposes.

The native village consists of over 100 houses belonging chiefly to emigrants from the plains, and they comprise servants of the European residents, visitors, and others. The South India Railway now runs to within 40 miles of these Hills.

The Railway Station is *Ayandakur* from whence transits are procurable to Periacolam where there is a travellers' bungalow, 4 miles from the foot of the hills and 16 miles from Kodakal.

The Public Buildings are the American Mission Chapel and School house, a Roman Catholic Chapel, a Government Post Office, and a Local Fund Dispensary. The usual season

for visiting these Hills is from March to October. The American Missionaries and the officials of the Madras district are the chief visitors, whilst a few from the other districts resort to these Hills. All months of the year supplies have to be procured from the large custom station of Periakulam at the foot of the Hills, and European supplies chiefly from the cities and seaports.

There are no coffee plantations on the upper Pulneya. They exist in the lower Pulneya which is mountainous, the best quarters of coffee is Perior, the distance between Perior and Kodakanal is a ride of 11 hours. There are numerous small coffee estates on the Periakulam Hills, Dindigul Taluk, and also in the Periakulam Taluk of the Madras District ranging from 5 to 40 acres each, chiefly held by ryots. Chinese plantations have been commenced at Kodakanal and Shamagour and Tea and Cinchona at Kodakanal and Neutral Saddle.

The new bandy ghaut is nearly completed and ready for traffic as far as Neutral Saddle where a new settlement has been commenced in a delightful spot with a softer and balmy air than Kodai Kanal, centre from which it is six miles distant and 1,800 feet lower. Excepting the Engineer's Bungalow, Lone Cottage, a picturesque little place is the only European Residence.

The Kodai Kanal Hills are reached by train to Annamalakoor Station, S. I. R.; from thence by transit (to be ordered a short time before wanted) by letter to T. M. Namasivayam, (S.I.R.) "Transit Agent," Annamalakoor, Madras District) to the foot of the ghaut at Kristappa Nall's Top, and from thence up the hills by chairs and bearers, (in number from 8 to 16 according to the weight to be carried) or by mule ponies at the rate of two to each person to be carried. The transit agent will arrange this if asked.

Supplies of food, bread, &c., may be obtained through industries who come from Periakulam once a week to receive orders for a week's supply. The transit agent should be asked to arrange for the first week's supply beforehand and for a supply of firewood.

Stores and luggage may be sent from Annamalakoor by the transit agent, at reasonable rates, and are carried up the hills at a charge of 8 annas for 50 lbs. The wage of each bearer carrying a chair or shoochy is 15 annas, and the hire for ponies is 8 annas to Vengal-puray, one Rupee to the 6th mile stone, Rs. 1-8 to Shenbaganur, and two Rupees to Kodai Kanal, or Neutral Saddle.

There is a very good travellers' bungalow at Annamalakoor with a man and cook; breakfast and dinner can be got from them, but notice should be given to them beforehand. The best time to start for the hills from this bungalow is 8 or 9 at night after dinner so as to reach the foot in the very early morning and begin the ascent. Torches should be ordered when there is no moonlight.

There is a good public bungalow at Periakulam, 4 miles from the foot of the Ghaut, where it is usual to stop to wash and change clothing. The transit agent will here also obtain supplies (bread, eggs, &c.) in the village for travellers needing them.

Dialies and Chairs may be obtained at the Mission Bungalow by applying to the Native Agent there at reasonable charge.

2. But nothing herein contained shall vest in an executor or administrator any property of a deceased person which would otherwise have passed by survivorship to some other person.

3. When a will has been proved and deposited in a Court of competent jurisdiction, situated beyond the limits of the Province, whether in the British dominions, or in a foreign country, and a properly authenticated copy of the will is produced, letters of administration may be granted with a copy of such copy annexed.

4. Probate can be granted only to an executor appointed by the will.

5. The appointment may be express or by necessary implication.

6. Probate cannot be granted to any person who is a minor or is of unsound mind.

(b) The testator bequeaths the residue of his property to A when he shall complete the age of 18. A, if he complete that age, is entitled to receive the residue. The income which has accrued in respect of it since the testator's death goes as undisposed of.

140. Where no time has been fixed for the payment of a general legacy, interest begins to run from the expiration of one year from the testator's death.

Exceptions.—(1) Where the legacy is bequeathed in satisfaction of a debt, interest runs from the death of the testator.

(2) Where the testator was a parent or a more remote ancestor of the legatee, or has put himself in the place of a parent of the legatee, the legacy shall bear interest from the death of the testator.

(3) Where a sum is bequeathed to a minor with a direction to pay for his maintenance out of it, interest is payable from the death of the testator.

Interest when time fixed. 141. Where a time has been fixed for the payment of a general legacy, interest begins to run from the time so fixed.

The interest up to such time forms part of the residue of the testator's estate. Exception.—Where the testator was a parent or a more remote ancestor of the legatee, or has put himself in the place of a parent of the legatee, and the legatee is a minor, the legacy shall bear interest from the death of the testator, unless a specific sum is given by the will for maintenance, or unless the will contains a direction to the contrary.

Rate of interest. 142. The rate of interest shall be six per cent. per annum.

No interest on arrears of annuity within first year after testator's death. 143. No interest is payable on the arrears of an annuity within the first year from the death of the testator, although a period earlier than the expiration of that year may have been fixed by the will for making the first payment of the annuity.

Interest on sum to be invested to produce annuity. 144. Where a sum of money is directed to be invested to produce an annuity, interest is payable on it from the death of the testator.

CHAPTER XII.

OF THE REFUNDING OF LEGACIES.

Refund of legacy paid under Judge's orders. 145. An executor who has paid a legacy under the order of a Judge is entitled to call upon the legatee to refund in the event of the assets proving insufficient to pay all the legacies.

No refund if paid voluntarily. 146. When an executor has voluntarily paid a legacy, he cannot call upon a legatee to refund in the event of the assets proving insufficient to pay all the legacies.

147. When the time prescribed by the will for the performance of a condition has elapsed, without the condition having been performed, and the executor has thereupon, without fraud, distributed the assets; in such case, if further time has, under the second clause of this section, been allowed for the performance of the condition, and the condition has been performed accordingly, the legacy cannot be claimed from the executor, but those to whom he has paid it are liable to refund the amount.

Where the will requires an act to be performed by the legatee within a specified time, either as a condition to be fulfilled before the legacy is enjoyed, or as a condition upon the non-fulfilment of which the subject-matter of the bequest is to go over to another person, or the bequest is to cease to have effect, the act must be performed within the time specified, unless the performance of it be prevented by fraud, in which case such further time shall be allowed as is requisite to make up for the delay caused by such fraud.

When each legatee compellable to refund in proportion. 148. When the executor has paid away the assets in legacies, and he is afterwards obliged to discharge a debt of which he had no previous notice, he is entitled to call upon each legatee to refund in proportion.

149. Where an executor or administrator has given such notices as the High Court may, by any general rule to be made from time to time, prescribe, for creditors and others to send in to him their claims against the estate of the deceased, he shall, at the expiration of the time therein named for sending in claims, be at liberty to distribute the assets, or any part thereof, in discharge of such lawful claims as he knows of, and shall not be liable for the assets so distributed to any person of whose claim he has not had notice at the time of such distribution.

Creditor may follow assets. but nothing herein contained shall prejudice the right of any creditor or claimant to follow the assets, or any part thereof, in the hands of the persons who may have received the same respectively.

150. A creditor who has not received payment of his debt may call upon a legatee who has received payment of his legacy to refund, whether the assets of the testator's estate were or were not sufficient at the time of his death to pay both debts and legacies, and whether the payment of the legacy by the executor was voluntary or not.

Creditor may call upon legatee to refund. 151. A creditor who has not received payment of his debt may call upon a legatee who has received payment of his legacy to refund, whether the assets of the testator's estate were or were not sufficient at the time of his death to pay both debts and legacies, and whether the payment of the legacy by the executor was voluntary or not.

141. If the assets were sufficient to satisfy all the legacies at the time of the testator's death, a legatee who has not received payment of his legacy, or who has been compelled to refund under the last preceding section, cannot oblige one who has received payment in full to refund, whether the legacy were paid to him with or without suit, although the assets have subsequently become deficient by the wasting of the executor.

142. If the assets were not sufficient to satisfy all the legacies at the time of the testator's death, a legatee who has not received payment of his legacy must, before he can call on a satisfied legatee to refund, first proceed against the executor if he is solvent; but if the executor is insolvent or not liable to pay, the unsatisfied legatee can oblige each satisfied legatee to refund in proportion.

143. The refunding of one legatee to another shall not exceed the sum by which the satisfied legatee ought to have been reduced if the estate had been properly administered.

Illustration.

A has bequeathed 240 rupees to B, 480 rupees to C, and 720 rupees to D. The assets are only 1,200 rupees, and if properly administered would give 200 rupees to B, 400 rupees to C, and 600 rupees to D. C and D have been paid their legacies in full, leaving nothing to B. B can oblige C to refund 80 rupees, and D to refund 120 rupees.

144. The refunding shall in all cases be without interest.

145. The surplus or residue of the deceased's property, after payment of debts and legacies, shall be paid to the residuary legatee when any has been appointed by the will.

CHAPTER XIII.

OF THE LIABILITY OF AN EXECUTOR OR ADMINISTRATOR FOR DEVIATION.

146. When an executor or administrator misapplies the estate of the deceased, or subjects it to loss or damage, he is liable to make good the loss or damage so occasioned.

Illustrations.

(a) The executor pays out of the estate an unfounded claim. He is liable to make good the loss caused by the payment.

(b) The deceased had a valuable lease renewable by notice, which the executor neglects to give at the proper time. The executor is liable to make good the loss caused by the neglect.

(c) The deceased had a lease of less value than the rent payable for it, but terminable on notice at a particular time. The executor neglects to give the notice. He is liable to make good the loss.

For neglect to get in a part of property.

147. When an executor or administrator occasions a loss to the estate by neglecting to get in any part of the property of the deceased, he is liable to make good the amount.

Illustrations.

(a) The executor absolutely releases a debt due to the deceased from a solvent person, or compounds with a debtor who is able to pay in full. The executor is liable to make good the amount so lost.

(b) The executor neglects to sue for a debt till the debtor is able to plead the Act for the limitation of suits, and the debt is thereby lost to the estate. The executor is liable to make good the amount of the debt.

THE SCHEDULE.

Specification explanatory of the Test Apparatus.

The following is a description of the details of the apparatus:—

The oil-cup consists of a cylindrical vessel 2" diameter, 2½" height (internal), with outward projecting rim ½" wide, 1" from the top and 1½" from the bottom of the cup. It is made of gun-metal or brass (17 B. W. G.), lined inside. A bracket, consisting of a short stout piece of wire, bent upwards and terminating in a point, is fixed to the inside of the cup to serve as a gauge. The distance of the point from the bottom of the cup is 1½". The cup is provided with a close-fitting overlapping cover made of brass (22 B. W. G.), which carries the thermometer sink test lamp. The latter is suspended from two supports from the side by means of transoms, upon which it may be made to oscillate: it is provided with a spout the mouth of which is ½" in diameter. The socket, which is to hold the thermometer, is fixed at such an angle, and its length is so adjusted that the bulb of the thermometer, when inserted to its full depth, shall be 1½" below the centre of the lid.

The cover is provided with three square holes, one in the centre ½" by ½" and two smaller ones, ¼" by ¼", close to the sides and opposite each other. These three holes may be closed and uncovered by means of a slide moving in grooves, and having perforations corresponding to those on the lid.

In moving the slide so as to uncover the sides, the oscillating lamp is caught by a pin fixed to the slide, and tilted in such a way as to bring the end of the spout just below the surface of the lid. Upon the slide being pushed back so as to cover the holes, the lamp returns to its original position.

Upon the cover, in front of, and in line with, the mouth of the lamp, is fixed a white band, the dimensions of which represent the size of the test flame to be used.

The bath or heated vessel consists of two flat-bottomed copper cylinders (24 B. W. G.), an inner one of 5" diameter and 2½" height, and an outer one of 5½" diameter and 4" height; they are soldered to a circular copper plate (20 B. W. G.) perforated in the centre, which forms the top of the bath, in such a manner as to enclose the space between the two cylinders, but leaving access to the inner cylinder. The top of the bath projects both outwards and inwards about ½", that is, its diameter is about 2" greater than that of the body of the bath, while the diameter of the circular opening in the centre is about the same amount less than that of the inner copper cylinder. To the inner projection of the top is fastened, by six small screws, a flat ring of ebonite, the screws being sunk below the surface of the ebonite to avoid metallic contact between the bath and the oil-cup. The exact distance between the sides and bottom of the bath of the oil-cup is 1½". A split socket similar to that on the cover of the oil-cup, but set at a right angle, allows a thermometer to be inserted into the space between the two cylinders. The bath is further provided with a funnel, an overflow pipe, and two loop handles.

The bath rests upon a cast-iron tripod stand, to the ring of which is attached a copper cylinder or jacket (24 B. W. G.), flanged at the top, and of such dimensions that the bath, while firmly resting on the iron ring, just touches with its projecting top the inward turned flange. The diameter of this outer jacket is 6½". One of the three legs of the stand serves as support for the spirit-lamp, attached to it by means of a small swing bracket. The distance of the wall-holder from the bottom of the bath is 1".

Two thermometers are provided with the apparatus, the one for ascertaining the temperature of the bath, the other for determining the flashing-point. The thermometer for ascertaining the temperature of the water has a long bulb and a space at the top. Its range is from about 70° to 190° Fahrenheit. The scale (in degrees of Fahrenheit) is marked on an ivory label fastened to the tube in the usual way; it is fitted with a metal roller fitting the socket, and the part of the tube below the scale should have a length of about ½" measured from the lower end of the scale to the end of the bulb. The thermometer for ascertaining the temperature of the oil is fitted with collar and ivory scale in a similar manner to the one described. It has a round bulb, a space at the top, and ranges from about 50° F. to 160° F. It measures from end of ivory back to bulb 2".

NOTE.—A model apparatus is deposited at the office of the Chemical Examiner to Government at Calcutta.

Directions for applying the Test.

1. The test-apparatus is to be placed for use in a position where it is not exposed to currents of air or draughts.

2. The heating vessel or water-bath is filled by pouring water into the funnel until it begins to flow out at the spout of the vessel. The temperature of the water at the commencement of the test is to be 130° Fahrenheit, and this is attained in the first instance either by mixing hot and cold water in the bath, or in a vessel from which the bath is filled, until the thermometer which is provided for testing the temperature of the water gives the proper indication; or by heating the water with the spirit-lamp (which is attached to the stand of the apparatus) until the required temperature is indicated.

If the water has been heated too highly, it is easily reduced to 130° by pouring in cold water little by little (to replace a portion of warm water) until the thermometer gives the proper reading.

When a test has been completed, this water-bath is again raised to 130° by placing the lamp underneath, and the result is readily obtained while the petroleum cup is being emptied, cooled, and refilled with a fresh sample to be tested. The lamp is then tilted on its swivel from under the apparatus, and the next test is proceeded with.

3. The test-lamp is prepared for use by fitting it with a piece of flat pinned candlewick, and filling it with oil or naphtha up to the lower edge of the opening of the spout or wick-tube. The lamp is trimmed so that when lighted it gives a flame of about 0.15 of an inch diameter, and this size of flame, which is represented by the projecting white band on the cover of the oil-cup, is readily maintained by simple manipulation from time to time with a small wire trimmer.

When gas is available it may be conveniently used in place of the little oil lamp, and for this purpose a test-flame arrangement for use with gas may be substituted for the lamp.

4. The bath having been raised to the proper temperature, the oil to be tested is introduced into the petroleum cup, being poured in slowly until the level of the liquid just reaches the point of the gauge which is fixed to the cup. In warm weather the temperature of the room in which the samples to be tested have been kept should be observed in the first instance, and if it exceeds 65° the samples to be tested should be cooled down (to about 60°) by immersing the bottle containing them in cold water, or by any other convenient method. The lid of the cup, with the thermometer in the lid of the cup has been put into the bath or heating vessel. The thermometer in the lid of the cup has been

adjusted so as to have its bulb just immersed in the liquid, and its position is not under any circumstances to be altered. When the cup has been placed in the proper position, the scale of the thermometer faces the operator.

5. The test-lamp is then placed in position upon the lid of the cup, the lead line or pendulum, which has been fixed in a convenient position in front of the operator, is set in motion, and the rise of the thermometer in the petroleum cup is watched. When the temperature has reached about 66°, the operation of testing is to be commenced, the test-flame being applied once for every rise of one degree in the following manner:—

The slide is slowly drawn open while the pendulum performs three oscillations, and is closed during the fourth oscillation.

NOTE.—If it is desired to employ the test-apparatus to determine the flashing-points of oils of very low volatility, the mode of proceeding is to be modified as follows:—

The air-chamber which surrounds the cup is filled with cold water to a depth of 1½ inches, and the heating vessel or water-bath is filled as usual, but also with cold water. The lamp is then placed under the apparatus and kept there during the entire operation. If a very heavy oil is being dealt with, the operation may be commenced with water previously heated to 120°, instead of with cold water.

When the maker or holder of a negotiable instrument signs the same, otherwise than as such maker, for the purpose of negotiation, on the back or face thereof or on a slip of paper annexed thereto, or so signs for the same purpose a stamped paper intended to be completed as a negotiable instrument he is said to indorse the same, and is called the "indorser."

16. If the indorser signs his name only, the indorsement is said to be "in blank," and if he adds a direction to pay the amount mentioned in the instrument to, or to the order of, a specified person, the indorsement is said to be "in full," and the person so specified is called the "indorsee" of the instrument.

17. Where an instrument may be construed either as a promissory note or bill of exchange, the holder may at his election treat it as either, and the instrument shall be thenceforward treated accordingly.

18. If the amount undertaken or ordered to be paid is stated differently in figures and in words, the amount stated in words shall be the amount undertaken or ordered to be paid.

Where the amount is stated differently in figures and in words, the amount stated in words shall be the amount undertaken or ordered to be paid.

Instruments payable on demand.

20. Where one person signs and delivers to another a paper stamped in accordance with the law relating to negotiable instruments then in force in British India, and either wholly blank or having written thereon an incomplete negotiable instrument, he thereby gives *prima facie* authority to the holder thereof to make or complete, as the case may be, upon it a negotiable instrument, for any amount specified therein and not exceeding the amount covered by the stamp. The person so signing shall be liable upon such instrument, for any amount so specified therein and not exceeding the amount covered by the stamp, to any holder in due course for such amount: provided that no person other than a holder in due course shall recover from the person delivering the instrument anything in excess of the amount intended by him to be paid thereunder.

21. In a promissory note or bill of exchange the expression "at sight" and "on presentment" mean on demand. The expression "after sight" means, in a promissory note, after presentment for sight and, in a bill of exchange, after acceptance, or nothing for non-acceptance, or protest for non-acceptance.

22. The maturity of a promissory note or bill of exchange is the date at which it falls due.

Every promissory note or bill of exchange which is not expressed to be payable on demand, at sight or on presentment is at maturity on the third day after the day on which it is expressed to be payable.

23. In calculating the date at which a promissory note or bill of exchange, made payable a stated number of months after date or after sight, or after a certain event, is at maturity, the period stated shall be held to terminate on the day of the month which corresponds with the day on which the instrument is dated, or presented for acceptance or sight, or noted for non-acceptance, or protested for non-acceptance, or the event happens, or where the instrument is a bill of exchange made payable a stated number of months after sight and has been accepted for honor, with the day on which it was so accepted. If the month in which the period would terminate has no corresponding day, the period shall be held to terminate on the last day of such month.

Illustrations.

(a) A negotiable instrument, dated 29th January 1878, is made payable at one month after date. The instrument is at maturity on the third day after the 29th February 1878.

(b) A negotiable instrument, dated 30th August 1878, is made payable three months after date. The instrument is at maturity on the 31st December 1878.

(c) A promissory note or bill of exchange, dated 31st August 1878, is made payable three months after date. The instrument is at maturity on the 31st December 1878.

24. In calculating the date at which a promissory note or bill of exchange made payable a certain number of days after date or after sight, or after a certain event, is at maturity, the day of the date, or of presentment for acceptance or sight, or of protest for non-acceptance, or on which the event happens, shall be excluded.

25. When the day on which a promissory note or bill of exchange is at maturity is a public holiday, the instrument shall be deemed to be due on the next preceding business day.

Explanation.—The expression "public holiday" includes Sundays, New-Year's day, Christmas day; if either of such days falls on a Sunday, the next following Monday; Good-Friday; and any other day declared by the Local Government, by notification in the Official Gazette, to be a public holiday.

CHAPTER III.

POWER TO NOTES, BILLS AND CHEQUES.

26. Every person capable of contracting, according to the law to which he is subject, may bind himself and be bound by the making, drawing, acceptance, endorsement, delivery and negotiation of a promissory note, bill of exchange or cheque.

27. A minor may draw, endorse, deliver and negotiate such instruments as he is bound to do by himself.

Nothing herein contained shall be deemed to empower a corporation to make, endorse or accept such instrument except in cases in which, under the law for the time being in force, they are so empowered.

28. Every person capable of binding himself or being bound, as mentioned in Section twenty-six, may so bind himself or be bound by a duly authorized agent acting in his name.

A general authority to transact business and to receive and discharge debts does not confer upon an agent the power of accepting or indorsing bills of exchange so as to bind his principal.

An authority to draw bills of exchange does not of itself import an authority to indorse.

29. An agent who signs his name to a promissory note, bill of exchange or cheque without indicating thereon that he signs as agent, or that he does not intend thereby to incur personal responsibility, is liable personally on the instrument, except to those who induced him to sign upon the belief that the principal only would be held liable.

30. A legal representative of a deceased person who signs his name to a promissory note, bill of exchange or cheque is liable personally thereon unless he expressly limits his liability to the extent of the assets received by him as such.

31. The drawer of a bill of exchange or cheque is bound, in case of dishonor by the drawee or acceptor thereof, to compensate the holder, provided due notice of dishonor has been given to, or received by, the drawer as hereinafter provided.

32. The drawee of a cheque having sufficient funds of the drawer in his hands properly applicable to the payment of such cheque must pay the cheque when duly required so to do, and, in default of such payment, must compensate the drawer for any loss or damage caused by such default.

33. In the absence of a contract to the contrary, the maker of a promissory note and the acceptor before maturity of a bill of exchange are bound to pay the amount thereof at maturity according to the apparent tenor of the note or acceptance respectively, and the acceptor of a bill of exchange at or after maturity is bound to pay the amount thereof to the holder on demand.

34. In default of such payment as aforesaid, such maker or acceptor is bound to compensate any party to the note or bill for any loss or damage sustained by him and caused by such default.

35. No person except the drawee of a bill of exchange, or all or some of several drawees, or a person named therein as a drawee in case of need, or an acceptor for honor, can bind himself by an acceptance.

36. Where there are several drawers of a bill of exchange who are not partners, each of them can accept it for himself, but none of them can accept it for another without his authority.

37. In the absence of a contract to the contrary, whoever indorses and delivers a negotiable instrument before maturity, without, in such indorsement expressly excluding or making conditional his own liability, is bound thereby to every subsequent holder, in case of dishonor by the drawee, acceptor or maker, to compensate such holder for any loss or damage caused to him by such dishonor, provided due notice of dishonor has been given to, or received by, such indorser as hereinafter provided.

38. Every indorser after dishonor is liable as upon an instrument payable on demand.

39. Every prior party to a negotiable instrument is liable thereon to a holder in due course until the instrument is duly satisfied.

40. The maker of a promissory note or cheque, the drawer of a bill of exchange until acceptance, and the acceptor are, in the absence of a contract to the contrary, respectively liable thereon as principal debtors, and the other parties thereto are liable thereon as sureties for the maker, drawer or acceptor, as the case may be.

41. As between the parties so liable as sureties, each prior party is, in the absence of a contract to the contrary, also liable thereon as a principal debtor in respect of each subsequent party.

42. As between the parties so liable as sureties, each prior party is, in the absence of a contract to the contrary, also liable thereon as a principal debtor in respect of each subsequent party.

43. As between the parties so liable as sureties, each prior party is, in the absence of a contract to the contrary, also liable thereon as a principal debtor in respect of each subsequent party.

44. As between the parties so liable as sureties, each prior party is, in the absence of a contract to the contrary, also liable thereon as a principal debtor in respect of each subsequent party.

45. As between the parties so liable as sureties, each prior party is, in the absence of a contract to the contrary, also liable thereon as a principal debtor in respect of each subsequent party.

46. As between the parties so liable as sureties, each prior party is, in the absence of a contract to the contrary, also liable thereon as a principal debtor in respect of each subsequent party.

47. As between the parties so liable as sureties, each prior party is, in the absence of a contract to the contrary, also liable thereon as a principal debtor in respect of each subsequent party.

48. As between the parties so liable as sureties, each prior party is, in the absence of a contract to the contrary, also liable thereon as a principal debtor in respect of each subsequent party.

49. As between the parties so liable as sureties, each prior party is, in the absence of a contract to the contrary, also liable thereon as a principal debtor in respect of each subsequent party.

50. As between the parties so liable as sureties, each prior party is, in the absence of a contract to the contrary, also liable thereon as a principal debtor in respect of each subsequent party.

40. Where the holder of a negotiable instrument, without the consent of the indorser, destroys or impairs the indorser's remedy against a prior party, the indorser is discharged from liability to the holder to the same extent as if the instrument had been paid at maturity.

Illustration.

A is the holder of a bill of exchange made payable to the order of B, which contains the following indorsements in blank:—

- First indorsement, "B."
- Second indorsement, "Peter Williams."
- Third indorsement, "Wright & Co."
- Fourth indorsement, "John Rozario."

This bill A puts in suit against John Rozario and strikes out, without John Rozario's consent, the indorsements by Peter Williams and Wright & Co. A is not entitled to recover anything from John Rozario.

41. An acceptor of a bill of exchange already indorsed is not relieved from liability by reason that such indorsement is forged, if he knew or had reason to believe the indorsement to be forged when he accepted the bill.

42. An acceptor of a bill of exchange drawn in a fictitious name and payable to the drawer's order is not, by reason that such name is fictitious, relieved from liability to any holder in due course claiming under an indorsement by the same hand as the drawer's signature, and purporting to be made by the drawer.

43. A negotiable instrument made, drawn, accepted, indorsed or transferred without consideration, or for a consideration which fails, creates no obligation of payment between the parties to the transaction. But if any such party has transferred the instrument with or without indorsement to a holder for consideration, such holder, and every subsequent holder deriving title from him, may recover the amount due on such instrument from the transferor for consideration or any prior party thereto.

Exception I.—No party for whose accommodation a negotiable instrument has been made, drawn, accepted or indorsed can, if he have paid the amount thereof, recover thereon such amount from any person who became a party to such instrument for his accommodation.

Exception II.—No party to the instrument who has induced any other party to make, draw, accept, indorse or transfer the same to him for a consideration which he has failed to pay or perform, is entitled to recover thereon an amount exceeding the value of the consideration (if any) which he has actually paid or performed.

44. When the consideration for which a person signs a promissory note, bill of exchange or cheque consisted of money, and was originally absent in part or has subsequently failed in part, the sum which a holder standing in immediate relation with such signer is entitled to receive from him is proportionally reduced.

Explanation.—The drawer of a bill of exchange stands in immediate relation with the acceptor. The maker of a promissory note, bill of exchange or cheque stands in immediate relation with the payee, and the indorser with his indorsee. Other signers may by agreement stand in immediate relation with a holder.

Illustration.

A draws a bill on B for Rs. 500 payable to the order of A. B accepts the bill, but subsequently dishonours it by non-payment. A sues B on the bill. B proves that it was accepted for value as to Rs. 400 and as an accommodation to the plaintiff as to the residue. A can only recover Rs. 400.

45. Where a part of the consideration for which a person signs a promissory note, bill of exchange or cheque, though not consisting of money, is ascertainable in money without collateral enquiry, and there has been a failure of that part, the sum which a holder standing in immediate relation with such signer is entitled to receive from him is proportionally reduced.

CHAPTER IV. OF NEGOTIATION.

Delivery.

46. The making, acceptance or indorsement of a promissory note, bill of exchange or cheque is completed by delivery, actual or constructive.

As between parties standing in immediate relation, delivery to be effectual must be made by the party making, accepting or indorsing the instrument, or by a person authorized by him to that behalf.

As between such parties and any holder of the instrument other than a holder in due course, it may be shown that the instrument was delivered additionally to, for a special purpose only, and not for the purpose of transferring absolutely and properly issued.

A promissory note, bill of exchange or cheque payable to order is negotiable by the delivery thereof.

A promissory note, bill of exchange or cheque payable to order is negotiable by the holder by indorsement and delivery.

47. Subject to the provisions of Section 48, a promissory note, bill of exchange or cheque payable to order is negotiable by delivery.

Exception.—A promissory note, bill of exchange or cheque delivered on condition that it is not to take effect, or if it is a certain condition is not to be taken up, is not negotiable by a holder for value and out of the reach of the instrument, unless such event happens.

Illustration.

48. A, the holder of a negotiable instrument payable to B, delivers it to B's agent to keep for B. The instrument has been accepted.

49. A, the holder of a negotiable instrument payable to B, delivers it to the holder of A's bank, who at the time the holder of B. Through the bank to transfer the instrument to its credit in the bank's account with B. The bank does so, and accordingly now possesses the instrument in its own right. The instrument has been negotiated, and it can remain the holder of it.

48. Subject to the provisions of Section 49, a promissory note, bill of exchange or cheque payable to the order of a specified person, or to a specified person or order, is negotiable by the holder by indorsement and delivery thereof.

49. The holder of a negotiable instrument indorsed in blank may, without acting as an agent, by writing across the instrument's signature a direction to any third party to pay the amount thereof to such party, convert the instrument into an order, and the holder does not thereby lose the negotiability of an instrument.

50. The indorsement of a negotiable instrument followed by delivery transfers to the indorsee the property therein, with the right of further negotiation; but the indorsement may, by express words, restrict or exclude such right, or may merely constitute the indorsee an agent to indorse the instrument, or to receive its contents for the indorser, or for some other specified person.

Illustration.

B signs the following indorsements on a negotiable instrument payable to bearer:—

- (a) "Pay the contents of C order."
- (b) "Pay C for my acc."
- (c) "Pay C on order for the account of B."
- (d) "The within must be credited to C."

These indorsements exclude the right of further negotiation by C.

- (e) "Pay C."
- (f) "Pay C value in account with the Oriental Bank."
- (g) "Pay the contents to C, being part of the consideration in a certain deed of assignment executed by C with indorser and others."

These indorsements do not exclude the right of further negotiation by C.

51. Every sole maker, drawer, payee or indorsee, or all of several joint makers, drawers, payees or indorsees, of a negotiable instrument may, if the negotiability of such instrument has not been restricted or excluded as mentioned in Section 49, indorse and negotiate the same.

Explanation.—Nothing in this section enables a maker or drawer to indorse negotiable instrument, unless he is in legal possession of it, holder thereof, or makes a payee or indorsee to indorse or negotiate an instrument, unless he is holder thereof.

Illustration.

A bill is drawn payable to A or order. A indorses it to B, the indorsee not containing the words "or order" or any equivalent words. B may negotiate the instrument.

52. The indorser of a negotiable instrument may, by express words in the indorsement, exclude his own liability thereon, or make such liability or the right of the indorsee to receive the amount due thereon depend upon the happening of a specified event, although such event may never happen.

Where an indorser so excludes his liability and afterwards becomes the holder of the instrument, all intermediate indorsers are liable to him.

Illustrations.

(a) The indorser of a negotiable instrument signs his name, adding the words—
"Without recourse."

Upon this indorsement he incurs no liability.

(b) A is the payee and holder of a negotiable instrument. Excluding personal liability by an indorsement "without recourse," he transfers the instrument to B, and B indorses it to C, who indorses it to A. A is not only reinstated in his former rights, but has the rights of an indorsee against B and C.

Holder deriving title from title from a holder in due course has the rights thereon of that holder in due course.

Instrument indorsed in blank. Subject to the provisions hereinafter contained as to crossed cheques, a negotiable instrument indorsed in blank is payable to the bearer thereof even although originally payable to order.

55. If a negotiable instrument, after having been indorsed in blank, is indorsed in full, the amount of it cannot be claimed from the indorser in full, except by the person to whom it has been indorsed in full, or by one who derives title through such person.

56. No writing on a negotiable instrument is valid for the purpose of negotiation if such writing purports to transfer only a part of the amount appearing to be due on the instrument; but when such amount has been partly paid, a note to that effect may be indorsed on the instrument, which may then be negotiated for the balance.

Legal representative cannot by delivery only negotiate instrument indorsed by deceased. 57. The legal representative of a deceased person cannot negotiate by delivery only a promissory note, bill of exchange or cheque payable to order and indorsed by the deceased but not delivered.

58. When a negotiable instrument has been lost, or has been obtained from any maker, acceptor or holder thereof by means of an offence of fraud, or for an unlawful consideration, no possessor or indorsee who claims through the person who found or so obtained the instrument is entitled to receive the amount due thereon from such maker, acceptor or holder, or from any party prior to such holder, unless such possessor or indorsee is, or some person through whom he claims was, a holder thereof in due course.

59. The holder of a negotiable instrument, who has acquired it after dishonor, whether by non-acceptance or non-payment, with notice thereof, or after maturity, has only, as against the other parties, the rights thereon of his transferor.

Provided that any person who, in good faith and for consideration, becomes the holder, after maturity, of a promissory note or bill of exchange made, drawn or accepted, without consideration, for the purpose of enabling some party thereto to raise money thereon, may recover the amount of the note or bill from any prior party.

Accommodation note or bill. 60. A negotiable instrument may be negotiated (except by the maker, drawee or acceptor after maturity) until payment or satisfaction thereof by the maker, drawee or acceptor at or after maturity, but not after such payment or satisfaction.

Illustrations.

The acceptor of a bill of exchange, when he accepted it, deposited with the drawer certain goods as a collateral security for the payment of the bill, with power to the drawer to sell the goods and apply the proceeds in discharge of the bill if it were not paid at maturity. The bill not having been paid at maturity, the drawer sold the goods and retained the proceeds, but indorsed the bill to A. A's title is subject to the same objection as the drawer's title.

61. A negotiable instrument may be negotiated (except by the maker, drawee or acceptor after maturity) until payment or satisfaction thereof by the maker, drawee or acceptor at or after maturity, but not after such payment or satisfaction.

CHAPTER V. OF PRESENTMENT.

61. A bill of exchange payable after sight must, if no time or place is specified therein for presentment, be presented to the drawee thereof for acceptance, if he can, after reasonable search, be found, by a person entitled to demand acceptance, within a reasonable time after it is drawn, and in business hours on a business day. In default of such presentment, no party thereto is liable thereon to the person making such default.

If the drawee cannot, after reasonable search, be found, the bill is dishonored.

If the bill is directed to the drawee at a particular place, it must be presented at that place; and if at the due date for presentment he cannot, after reasonable search, be found where, the bill is dishonored.

62. A promissory note, payable at a certain period after sight, must be presented to the maker thereof for sight (if he can after reasonable search be found) by a person entitled to demand payment, within a reasonable time after it is made and in business hours on a business day. In default of such presentment, no party thereto is liable thereon to the person making such default.

63. The holder must, if so required by the drawee of a bill of exchange presented to him for acceptance, allow the drawee twenty-four hours (exclusive of public holidays) to consider whether he will accept it.

64. Promissory notes, bills of exchange and cheques must be presented for payment to the maker, acceptor or drawee thereof respectively, by or on behalf of the holder as hereinafter provided. In default of such presentment, the other parties thereto are not liable thereon to such holder.

Exception.—Where a promissory note is payable on demand and is not payable at a specified place, no presentment is necessary in order to charge the maker thereof.

Hours for presentment. 65. Presentment for payment must be made during the usual hours of business, and, if at a banker's, within banking hours.

66. A promissory note or bill of exchange, made payable at a specified period after date, or sight thereof, must be presented for payment at maturity.

67. A promissory note payable by instalments must be presented for payment on the third day after the date fixed for payment of each instalment; and non-payment on such presentment has the same effect as non-payment of a debt at maturity.

68. A promissory note, bill of exchange or cheque made, drawn or accepted payable at a specified place and not elsewhere must, in order to charge any party thereto, be presented for payment at that place.

69. A promissory note or bill of exchange made, drawn or accepted payable at a specified place must, in order to charge the maker or drawee thereof, be presented for payment at that place.

70. A promissory note or bill of exchange, not made payable as mentioned in Sections sixty-eight and sixty-nine, must be presented for payment at the place of business (if any), or at the usual residence, of the maker, drawee or acceptor thereof, as the case may be.

71. If the maker, drawee or acceptor of a negotiable instrument has no known place of business or fixed residence, and no place is specified in the instrument for presentment for acceptance or payment, such presentment may be made to him in person wherever he can be found.

72. A cheque must, in order to charge the drawer, be presented at the bank upon which it is drawn before the relation between the drawer and his banker has been altered to the prejudice of the drawer.

73. A cheque must, in order to charge any person except the drawer, be presented within a reasonable time after delivery thereof by such person.

74. Subject to the provisions of Section thirty-one, a negotiable instrument payable on demand must be presented for payment within a reasonable time after it is received by the holder.

75. Presentment for acceptance or payment may be made to the duly authorized agent of the drawer, maker or acceptor, as the case may be, or, where the drawer, maker or acceptor has died, to his legal representative, or where he has been declared an insolvent, to his assignee.

76. No presentment for payment is necessary, and the instrument is dishonored at the due date for presentment, in any of the following cases:—

(a) If the maker, drawee or acceptor intentionally prevents the presentment of the instrument, or,

If the instrument is being payable at his place of business, he closes such place on a business day during the usual business hours, or

If the instrument being payable at some other specified place, neither he nor any person authorized to pay it attends at such place during the usual business hours, or

If the instrument not being payable at any specified place, he cannot after due search be found.

- (6) as against any party sought to be charged therewith, if he has straggled to pay notwithstanding non-presentments;
- (7) as against any party, if after maturity, with knowledge that the instrument has not been presented,—
- he makes a part payment on account of the amount due on the instrument, or promises to pay the amount due thereon in whole or in part,
- or otherwise waives his right to take advantage of any default in presentment for payment;
- (8) as against the drawer, if the drawer could not suffer damage from the want of such presentment.

77. When a bill of exchange, accepted payable at a specified bank, has been duly presented there for payment and dishonoured, if the holder so negligently or improperly keeps, deals with or delivers back such bill as to cause loss to the holder, he must compensate the holder for such loss.

CHAPTER VI.

OF PAYMENT AND INTEREST.

78. Subject to the provisions of Section eighty-two, clause 1, payment of the amount due on a promissory note, bill of exchange or cheque, in order to discharge the maker or acceptor, is made to the holder of the instrument.

79. When interest at a specified rate is expressly made payable on a promissory note or bill of exchange, interest shall be calculated at the rate specified, in the amount of the principal money due thereon, from the date of the instrument, until tender or realization of such amount, or until such date after the institution of a suit to recover such amount as the Court directs.

80. When no rate of interest is specified in the instrument, interest on the amount due thereon shall, except in cases provided for by the Code of Civil Procedure, Section 109, be calculated at the rate of six per centum per annum, from the date at which the same ought to have been paid by the party charged, until tender or realization of the amount due thereon, or until such date after the institution of a suit to recover such amount as the Court directs.

Explanation.—When the party charged in the instrument of an instrument dishonoured of non-payment, as is liable to pay interest only, from the time that he receives notice of the dishonour.

Any person liable to pay, and called upon by the holder thereof to pay the amount due on a promissory note, bill of exchange or cheque is to be presumed to have possession and is on payment entitled to have it delivered up, to him, or if the instrument is lost or cannot be produced, to be indemnified against any further claim thereon against him.

CHAPTER VII.

OF DISCHARGE FROM LIABILITY ON NOTES, BILLS AND CHEQUES.

82. The maker, acceptor or indorser respectively of a negotiable instrument is discharged from liability—

- (a) to a holder thereof who receives such acceptance or indorsement with intent to discharge him, and to all parties claiming under him;
- (b) to a holder thereof who otherwise discharges such maker, acceptor or indorser, and to all parties claiming under him, after notice of such discharge;
- (c) to all parties thereto, if the instrument is payable to bearer, or has been indorsed to bearer, and such maker, acceptor or indorser makes payment in due course of the amount due thereon.

When cheque not duly presented and drawer damaged thereby.

Cheque payable to order.

86. If the holder of a bill of

Parties not consenting discharged by qualified or limited acceptance.

holder and those claiming under him, unless on notice given by the holder the assent to such acceptance.

Explanation.—An acceptance is qualified—

- (a) where it is conditional, declaring the payment to be dependent on the happening of an event therein stated;
- (b) where it undertakes the payment of part only of the sum ordered to be paid;
- (c) where, no place of payment being specified on the order, it undertakes the payment at a specified place and not otherwise or elsewhere; or where, a place of payment being specified in the order, it undertakes the payment at some other place and not otherwise or elsewhere;
- (d) where it undertakes the payment at a time other than that at which under the order it would be legally due.

87. Any material alteration of a negotiable instrument renders the same void as against any one who is a party thereto at the time of making such alteration and does not consent thereto, unless it was made in order to carry out the common intention of the original parties;

and any such alteration, if made by an indorsee, discharges his indorser from all liability to him in respect of the consideration thereof.

The provisions of this section are subject to those of Sections twenty, forty-nine, eighty-six and one hundred and twenty-five.

88. Any acceptor or indorser of a negotiable instrument is bound by his acceptance or indorsement notwithstanding any previous alteration of the instrument.

Payment of instrument on which alteration is not apparent.

89. If a bill of exchange which has been negotiated in, at or after maturity, held by the acceptor in his own right, all rights of action thereon are extinguished.

CHAPTER VIII.

OF NOTICE OF DISHONOUR.

91. A bill of exchange is said to be dishonoured by non-acceptance when the drawee, or one of several drawees not being partners, makes default in acceptance upon being duly required to accept the bill, or where presentment is excused and the bill is not accepted.

Dishonor by non-acceptance.

Where the drawee is incompetent to contract, or the acceptance is qualified, the bill may be treated as dishonoured.

92. A promissory note, bill of exchange or cheque is said to be dishonoured by non-payment when the maker of the note, acceptor of the bill or drawer of the cheque makes default in payment upon being duly required to pay the same.

Dishonor by non-payment.

93. When a promissory note, bill of exchange or cheque is dishonored by non-acceptance or non-payment, the holder thereof, or some party thereto who remains liable thereon, must give notice that the instrument has been so dishonored to all other parties whom the holder seeks to make severally liable thereon, and to some one of several parties whom he seeks to make jointly liable thereon.

Nothing in this section renders it necessary to give notice to the maker of the dishonored promissory note, or the drawee or acceptor of the dishonored bill of exchange or cheque.

94. Notice of dishonor may be given to a duly authorized agent of the person to whom it is required to be given, or, where he has died, to his legal representative, or, where he has been declared insolvent, to his assignee; may be oral or written; may, if written, be sent by post; and may be in any form; but it must inform the party to whom it is given, either in express terms or by reasonable intendment, that the instrument has been dishonored, and in what way, and that he will be held liable thereon; and it must be given within a reasonable time after dishonor, at the place of business or (in case such party has no place of business, at the residence of the party for whom it is intended).

If the notice is duly directed and sent by post, and miscarries, such miscarriage does not render the notice invalid.

95. Any party receiving notice of dishonor must, in order to render any prior party liable to himself, give notice of dishonor to such party within a reasonable time, unless such party otherwise receives due notice as provided by Section ninety three.

96. When the instrument is deposited with an agent for presentment, the agent is entitled to the same to give notice to his principal as if he were the holder giving notice of dishonor, and the principal is entitled to a further like period to give notice of dishonor.

97. When the party to whom notice of dishonor is despatched is dead, but the party despatching the notice is ignorant of his death, the notice is sufficient.

98. No notice of dishonor is necessary—

- (a) when it is dispensed with by the party entitled thereto;
- (b) in order to charge the drawer, when he has countermanded payment;
- (c) when the party charged could not suffer damage for want of notice;
- (d) when the party entitled to notice cannot after due search be found; or the party bound to give notice is, for any other reason, unable without any fault of his own to give it;
- (e) to charge the drawers, when the acceptor is also a drawer;
- (f) in the case of a promissory note which is not negotiable;
- (g) when the party entitled to notice, knowing the facts, promises unconditionally to pay the amount due on the instrument.

CHAPTER IX.

OF NOTICE AND PROTEST.

99. When a promissory note or bill of exchange has been dishonored by non-acceptance or non-payment, the holder may cause such dishonor to be noted by a notary public upon the instrument, or upon a paper attached thereto, or partly upon each.

Such note must be made within a reasonable time after dishonor, and must specify the date of dishonor, the reason, if any, assigned for such dishonor, or, if the instrument has not been expressly dishonored, the reason why the holder treats it as dishonored, and the notary's charges.

100. When a promissory note or bill of exchange has been dishonored by non-acceptance or non-payment, the holder may, within a reasonable time, cause such dishonor to be noted and certified by a notary public. Such certificate is called a protest.

When the acceptor of a bill of exchange has become insolvent, or his credit has been publicly impeached, before the maturity of the bill, the holder may, within a reasonable time, cause a notary public to demand better security of the acceptor, and on his being refused may, within a reasonable time, cause such facts to be noted and certified as aforesaid. Such certificate is called a protest for better security.

Protest for better security.

Contents of protest.

- 101. A protest under Section one hundred must contain—
 - (a) either the instrument itself, or a literal transcript of the instrument and of everything written or printed thereupon;
 - (b) the name of the person for whom and against whom the instrument has been protested;
 - (c) a statement that payment or acceptance, or better security, as the case may be, has been demanded of such person by the notary public; the terms of his answer, if any, or a statement that he gave no answer, or that he could not be found;
 - (d) when the note or bill has been dishonored, the place and time of dishonor, and, when better security has been refused, the place and time of refusal;
 - (e) the subscription of the notary public making the protest;
 - (f) in the event of an acceptance for honor or of a payment for honor, the name of the person by whom, of the person for whom, and the manner in which, such acceptance or payment was offered and effected.

102. When a promissory note or bill of exchange is required by law to be protested, notice of such protest be given instead of notice of dishonor, in the same manner and subject to the same conditions; but the notice may be given by the notary public who makes the protest.

103. All bills of exchange drawn payable at some other place than the place mentioned as the residence of the drawee, and which are dishonored by non-acceptance, may, without further presentment to the drawee, be protested for non-payment, in the place specified for payment, unless paid before or at maturity.

104. Foreign bills of exchange must be protested for dishonor when such protest is required by the law of the place where they are drawn.

CHAPTER X.

OF REASONABLE TIME.

105. In determining what is a reasonable time for presentment for acceptance or payment, for giving notice of dishonor and for noting, regard shall be had to the nature of the instrument and the usual course of dealing with respect to similar instruments; and, in calculating such time, public holidays shall be excluded.

106. If the holder and the party to whom notice of dishonor is given carry on business or live (as the case may be) in different places, such notice is given within a reasonable time if it is despatched by the next post or on the day next after the day of dishonor.

If the said parties carry on business or live in the same place, such notice is given within a reasonable time if it is despatched in time to reach its destination on the day next after the day of dishonor.

107. A party receiving notice of dishonor, who seeks to enforce his right against a prior party, transmits the notice within a reasonable time if he transmits it within the same time after its receipt as he would have had to give notice if he had been the holder.

Reasonable time for transmitting such notice.

CHAPTER XI.

OF ACCEPTANCE AND PAYMENT FOR HONOR AND REFERENCE IN CASE OF NEED.

108. When a bill of exchange has been noted or protested for non-acceptance or for better security, any person not being a party already liable thereon may, with the consent of the holder, by writing on the bill, accept the same for the honor of any party thereto.

Unless the person who intends to accept *supra protest* first declares, in the presence of a notary, that he does it for honor, and has such declaration duly recorded in the notarial register at the time, his acceptance shall be a nullity.

109. A person desiring to accept for honor must, in the presence of a notary public, subscribe the bill with his own hand, and declare that he accepts under protest the protested bill for the honor of the drawer or of a particular indorser whom he names, or generally for honor; and such declaration must be recorded by the notary in his register.

How acceptance for honor must be made.

110. Where the acceptance does not express for whose honor it is made, it shall be deemed to be made for the honor of the drawer.

Acceptance not specifying for whose honor it is made.

111. An acceptor for honor binds himself to all parties subsequent to the party for whose honor he accepts to pay the amount of the bill if the drawer do not; and such party and all prior parties are liable in their respective capacities to compensate the acceptor for honor for all loss or damage sustained by him in consequence of such acceptance.

But an acceptor for honor is not liable to the holder of the bill unless it is presented, or in case the address given by such acceptor on the bill is a place other than the place where the bill is made payable, forwarded for presentment, not later than the day next after the day of its maturity.

When acceptor for honor the bill has at its maturity been presented to the drawee for payment, and has been dishonored by him, and noted or protested for such dishonor.

112. When a bill of exchange has been noted or protested for non-payment, any person may pay the same for the honor of any party liable to pay the same, provided that the person so paying has previously declared before a notary public the party for whose honor he pays, and that such declaration has been recorded by such notary public.

113. Any person so paying is entitled to all the rights, in respect of the bill, of the holder at the time of such payment, and may recover from the party for whose honor he pays all sums so paid, with interest thereon and with all expenses properly incurred in making such payment.

114. Where a drawee in case of need is named in a bill of exchange, or in any indorsement thereon, the bill is not dishonored until it has been dishonored by such drawee.

115. A drawee in case of need may accept and pay the bill of exchange without previous protest.

CHAPTER XIII.

OF COMPENSATION.

117. The compensation payable in case of dishonor of a promissory note, bill of exchange or cheque, by any party liable to the holder or any indorser, shall (except in cases provided for by the Code of Civil Procedure, Section 322) be determined by the following rules:—

- (a) the holder is entitled to the amount due upon the instrument, together with the expenses properly incurred in presenting, noting and protesting it;
- (b) when the person charged resides at a place different from that at which the instrument was payable, the holder is entitled to receive such sum at the current rate of exchange between the two places;
- (c) an indorser who, being liable, has paid the amount due on the same is entitled to the amount so paid with interest at six per centum per annum from the date of payment until tender or realization thereof, together with all expenses caused by the dishonor and payment;
- (d) when the person charged and such indorser reside at different places, the indorser is entitled to receive such sum at the current rate of exchange between the two places;
- (e) the party entitled to compensation may draw a bill upon the party liable to compensate him, payable at sight or on demand, for the amount due to him, together with all expenses properly incurred by him. Such bill must be accompanied by the instrument dishonored and the protest thereof (if any). If such bill is dishonored, the party dishonoring the same is liable to make compensation on thereof in the same manner as in the case of the original bill.

CHAPTER XIII.

SPECIAL RULES OF EVIDENCE.

Presumptions as to negotiable instruments. 118. Until the contrary is proved, the following presumptions shall be made:—

- (a) that every negotiable instrument was made or drawn for consideration, and that every such instrument, when it has been accepted, indorsed, negotiated or transferred, was accepted, indorsed, negotiated or transferred for consideration;
- (b) that every negotiable instrument bearing a date was made or drawn on such date;

as to time of acceptance; (c) that every accepted bill of exchange was accepted within a reasonable time after its date and before its maturity;

as to time of transfer; (d) that every transfer of a negotiable instrument was made before its maturity;

as to order of indorsement; (e) that the indorsements appearing upon a negotiable instrument were made in the order in which they appear thereon;

as to stamp; (f) that a lost promissory note, bill of exchange or cheque was duly stamped;

(g) that the holder of a negotiable instrument is a holder in due course: provided that, where the instrument has been obtained from its lawful owner, or from any person in lawful custody thereof, by means of an offence of fraud, or has been obtained from the maker or acceptor thereof by means of an offence of fraud, or for unlawful consideration, the burden of proving that the holder is a holder in due course lies upon him.

119. In a suit upon an instrument which has been dishonored, the Court shall, on proof of the protest, presume the act of dishonor, unless and until such fact is disproved.

120. No maker of a promissory note, and no drawer of a bill of exchange or cheque, and no acceptor of a bill of exchange for the honor of the drawer shall, in a suit thereon by a holder in due course, be permitted to deny the validity of the instrument as originally made or drawn.

121. No maker of a promissory note and no acceptor of a bill of exchange payable to, or to the order of, a specified person, shall, in a suit thereon by a holder in due course, be permitted to deny the payee's capacity, at the date of the note or bill, to indorse the same.

122. No indorser of a negotiable instrument shall, in a suit thereon by a subsequent holder, be permitted to deny the signature or capacity to contract of any prior party to the instrument.

CHAPTER XIV.

OF CROSSED CHEQUES.

123. Where a cheque bears across its face an addition of the words "and company" or any abbreviation thereof, between two parallel transverse lines, or of two parallel transverse lines, either with or without the words "not negotiable," that addition shall be deemed a crossing, and the cheque shall be deemed to be crossed generally.

124. Where a cheque bears across its face an addition of the name of a banker, either with or without the words "not negotiable," that addition shall be deemed a crossing, and the cheque shall be deemed to be crossed specially, and to be crossed to that banker.

125. Where a cheque is uncrossed, the holder may cross it generally or specially. Where a cheque is crossed generally, the holder may cross it specially.

Where a cheque is crossed specially, the banker to whom it is crossed may again cross it specially to another banker, his agent for collection.

126. Where a cheque is crossed generally, the banker on whom it is drawn shall not pay it otherwise than to a banker. Where a cheque is crossed specially, the banker on whom it is drawn shall not pay it otherwise than to the banker to whom it is crossed, or his agent for collection.

127. Where a cheque is crossed specially to more than one banker, except when crossed to an agent for the purpose of collection, the banker on whom it is drawn shall refuse payment thereof.

128. Where the banker on whom a crossed cheque is drawn has paid the same in due course, the banker paying the cheque, and (in case such cheque has come to the hands of the payee) the drawer thereof, shall respectively be entitled to the same rights, and be placed in the same position in all respects, as they would respectively be entitled to and placed in if the amount of the cheque had been paid to and received by the true owner thereof.

129. Any banker paying a cheque crossed generally otherwise than to a banker, or a cheque crossed specially otherwise than to the banker to whom the same is crossed, or his agent for collection, being a banker, shall be liable to the true owner of the cheque for any loss he may sustain owing to the cheque having been so paid.

Payment of crossed cheque out of due course.

130. A person taking a cheque crossed generally or specially, bearing in either case the words "not negotiable," shall not have, and shall not be capable of giving, a better title to the cheque than that which the person from whom he took it had.

Cheque bearing "not negotiable."

131. A banker who has in good faith and without negligence received payment for a customer of a cheque crossed generally or specially to himself shall not, in case the title to the cheque proves defective, incur any liability to the true owner of the cheque by reason only of having received such payment.

Non-liability of banker receiving payment of cheque.

CHAPTER XV.

OF BILLS IN SETS.

132. Bills of exchange may be drawn in parts, each part being numbered and containing a provision that it shall continue payable only so long as the others remain unpaid. All the parts together make a set; but the whole set constitutes only one bill, and is extinguished when one of the parts, if a separate bill, would be extinguished.

Set of bills.

Exception.—When a person accepts or indorses different parts of the bill in favor of different persons, he and the subsequent indorsers of such part are liable on such part as if it were a separate bill.

Holder of first acquired part entitled to all.

133. As between holders in due course of different parts of the same set, he who first acquired title to his part is entitled to the other parts and the money represented by the bill.

CHAPTER XVI.

OF INTERNATIONAL LAW.

134. In the absence of a contract to the contrary, the liability of the maker or drawer of a foreign promissory note, bill of exchange or cheque is regulated in all essential matters by the law of the place where he made the instrument, and the respective liabilities of the acceptor and indorser by the law of the place where the instrument is made payable.

Law governing liability of maker, acceptor or indorser of foreign instrument.

Illustration.

A bill of exchange was drawn by A in California, where the rate of interest is 35 per cent. and accepted by B, payable in Washington, where the rate of interest is 6 per cent. The bill is indorsed in British India, and is dishonored. An action on the bill is brought against B in British India. He is liable to pay interest at the rate of 6 per cent. only; but if A is charged as drawer, A is liable to pay interest at the rate of 35 per cent.

135. Where a promissory note, bill of exchange or cheque is made payable in a different place from that in which it is made or indorsed, the law of the place where it is made payable determines what constitutes dishonor and what notice of dishonor is sufficient.

Law of place of payment governs dishonor.

Illustration.

A bill of exchange drawn and indorsed in British India, but accepted payable in France, is dishonored. The indorser cannot be protected for such dishonor, and gives notice thereof in accordance with the law of France, though not in accordance with the rules herein contained in respect of bills which are not foreign. The notice is sufficient.

136. If a negotiable instrument is made, drawn, accepted or indorsed out of British India, but in accordance with the law of British India, the circumstance that any agreement evidenced by such instrument is invalid according to the law of the country wherein it was entered into does not invalidate any subsequent acceptance or indorsement made thereon in British India.

137. The law of any foreign country regarding promissory notes, bills of exchange and cheques shall be presumed to be the same as that of British India, unless and until the contrary is proved.

Presumption as to foreign law.

CODING OF PRIVATE TELEGRAMS.

With the view of affording facilities for the economical transmission of private telegrams to and from the United Kingdom, the Company has decided to introduce a new feature in its telegraphic business, viz., to place its codes at the service of senders, by means of which telegrams may be sent at a considerable saving in the cost of their transmission in plain language.

Telegrams so coded will in all cases be translated before delivery to the receiver, to whom a copy in plain language only will be handed.

A very complete code has been compiled especially to meet the requirements of private senders on social or business subjects, and this, in conjunction with the Company's ordinary codes, will, it is believed, afford facilities for cheap telegraphing which have not hitherto been accessible to the public.

A fixed and uniform charge of (7½) 10 annas per code word used will be made on all messages in addition to the ordinary tariff rate. Beyond this small payment senders will enjoy the entire benefit of the saving resulting from the use of the Company's codes.

Although the Company cannot accept any responsibility for errors made in coding, translating, or transmitting telegrams, every precaution will be taken to ensure the same accuracy as in the case of its own telegrams.

Telegrams in private codes will be accepted as heretofore.

Further particulars may be obtained at the Company's office, where every facility and assistance will be afforded for the compilation of telegrams in the most economical manner.

REBATE ON TELEGRAMS.

A Rebate of 25 per cent. on the cost of Registered Addresses is allowed by the Company to regular senders of telegrams to any station in Europe and America.

As regular senders will be considered those who send—

- A minimum of one telegram monthly to the same correspondent,
- A minimum of one telegram weekly to different correspondents.

The Rebate will be allowed half yearly to the former category, and to the latter either monthly, quarterly, or half-yearly, at the option of the sender.

In addition to the Rebate the Company's system offers the following exclusive advantages—

- Free Registration of any number of addresses.
- Full names of senders and receivers are given in every telegram.
- The Company, being independent and constantly using the various telegraph lines, is in a position to select the quickest routes.
- Telegrams can be sent at a great saving of expense in the Company's codes.

Further particulars, tariffs and forms of application for Rebate may be obtained at the Company's Office and Agencies.

The Company was registered on the 11th day of February last, and arrangements were made with Messrs. J. Taylor and Sons, who are Mining Engineers of the highest repute in London, to open up a mine on the Company's property, and contracts for the purchase and erection of machinery capable of crushing and treating 50 tons or over a day were concluded in London. The necessary Mining staff have also been engaged. In the meantime the buildings requisite for mine residences, &c., have been constructed. Everything has therefore been done to place the Company in a position to commence their operations as quickly as possible. The Machinery has now arrived and is in course of erection.

The land leased by the Company comprises an area containing reefs far in excess of those which the Company could work, unless a very large increase were made in the capital. The Company's property has therefore been divided into four suitable mining blocks, three of 150 acres each, and one of 100 acres.

The Company is formed for the purpose of carrying on the usual operations of Gold-mining in Southern India, more especially by means of crushing (and if possible utilizing) the quartz and extracting Gold and other minerals therefrom.

It was not until the publication of Mr. Brough Smyth's Report in October last, that the Government and the country became fully aware of the importance and richness of the deposits contained in the reefs of auriferous quartz that are met with in the Wynnad. Several Companies have since then been formed in London for carrying on Gold mining operations, the shares of which have advanced to a high premium; in one instance amounting to 200 per cent. These Companies have purchased the mining rights of the vendors of the land for large cash payments in addition to allotments of fully paid-up shares in the Companies.

Mr. Brough Smyth states in his report that "it may safely be asserted that a complete plant, consisting of ten Stampheads with Engine, Stone-breaking Machine, Buddle, Saw and Frame, necessary Buildings, Reverberatory Furnace, and all other works "could be erected for £5,000." His estimates of working expenses and profits compared with the outturn of Gold will be found in the appendices.

Through the valuable co-operation of Mr. Thomas Laing, and with the assistance of the Hon'ble G. V. Smith, of Melbourne, the Board have secured the services of Mr. Ralph Hill, a thoroughly experienced and practical Gold Mining Engineer. Mr. Hill, accompanied by a Mining Captain and staff of miners, arrived in Bombay from Australia on the 14th July last, and proceeded at once to the Ripon property. In the meantime much work of a necessary character had been accomplished, such as clearing the jungle, constructing roads and paths, building houses for the miners, and erecting shade and stores for the tools, appliances, and some machinery which had been obtained from England, so that on Mr. Hill's arrival on the property he was in a position to at once commence mining operations.

As soon as the quartz reefs were opened, Mr. Hill began to speak of the quality of the stone in a very encouraging manner, and the Board are glad to be able to report, now that several shafts and tunnels have been made, that, according to all accounts from the spot, the reefs appear to improve in richness as they go down. Although visible gold is constantly seen in the stone, it appears that for the most part the gold is of a fine flakey character, so that in Mr. Hill's opinion the quartz will have to be treated with the greatest care, and machinery of the best quality will be required. Under these circumstances the Board decided to send Mr. Hill back to Australia, in order that he might personally superintend the obtaining and shipment of every requisite. It is at present proposed to purchase and erect a battery of 20 stamps which Mr. Hill estimates will be capable of reducing say 300 tons of quartz per week. According to Mr. Hill's estimate about 15,000 tons of stone should be crushed in the first year's working, yielding a profit of Rs. 12 a ton.

Mr. Hill hopes to have everything shipped from Australia by the end of February next, so that before the monsoon of 1883 sets in all the machinery should be on the Company's property and in course of erection. If nothing unforeseen happens to delay operations, some return on the money invested may be expected twelve months hence.

Arrangements have been made for carrying on the mining operations during Mr. Hill's absence, and if the present quality of the quartz be maintained, there is no doubt but that by the time the machinery is erected the Company will have many thousand tons of excellent stone ready to be treated. The Company possess Estates for mining as well as cultivation of Coffee and planting Cinchona. The Company's Engineer Mr. John Jeken Cooper, M. E. has been now some months on the properties and expresses himself as highly satisfied with them. It is regretted that owing to the violence of the monsoon, crushing operations were not commenced as quickly as had been anticipated, but the latest report states that crushing on a moderate scale had commenced.

The S. E. Wynaad Company has an acreage of 2,500 acres, comprising three properties, viz. *The Richmond Elizabeth, The Bollingbrook and The Needlerock* all of which have been proved to contain good auriferous reefs. Trial crushings to the amount of 50 tons have been made from the Elizabeth and Tea Reefs on the S. E. Wynaad Company's Estates, giving a very fair average yield of Gold. It is hoped to get the heavy battery of stamps to work by February 1882.

In conformity with the Articles of Association, which fix the termination of the financial year for the 31st May, the Directors have had the accounts to that date made out and duly audited. The Directors think that this is a good opportunity for informing the Shareholders of the exact state of affairs with regard to the position of the Company, which, in their opinion, is favourable and they themselves have every confidence in its success. The mining outlay was about £8,500 including the cost of the machinery (Cook's pulverizers, &c.), buildings, roads and salaries. The capital has been fully paid up, and the available cash in hand invested at the date of last meeting amounted to about £21,500, out of the £80,000 remaining over after paying the vendors the purchase-money (£50,000 in cash and shares). The actual mining operations commenced about the 1st June, when Captain Frost and his Cornish staff set to work. They arrived in good health just before the monsoon burst, and have continued well and at work ever since. The extracts from the Report of the Mining Engineer, Mr. J. J. Cooper, dated the 25th August last, and from the Report of Mr. Robert Stanes, of Coonoor, the Company's agent in India (who personally inspected the property), dated the 26th September, which are annexed, will, however, give you every information, and will no doubt be read with interest. Cook's foreman, now in India, has arrived on the Estate to superintend the erection of the pulverizers, &c., and may therefore at no very distant date have some trial crushings, the results of which will be made public. One very favourable feature of the mining is the cheapness of labour, the wages paid to the Canarese coolies, who are becoming very expert,

being only six annas, or, at the present rate of exchange, about 7½ p. per diem. This Company is also exceptionally favoured in having an unlimited supply of firewood for the engines, which can be cut and brought down to the works at the rate of 4s. 2½ (2½) p. per ton. The necessary buildings are all either completed or in a forward state, and considering the short time that has elapsed since operations were commenced, there is every reason to be satisfied with the progress made. With reference to the Estate part of the business, your Directors feel that they can congratulate the Shareholders. The property contains, which for a bare in the Wynnad do to the same extent, a most valuable forest, with a large supply both of timber and undergrowth, and arrangements are going on for felling and saving timber, both for the Company's own use for mining and other purposes, and ultimately for sale to other Companies. This may prove a source of additional revenue.

Coffee.—There are about 160 acres now planted. This year's crop, owing to deficiency of rain during the blossoming season, will not be good, but the trees are healthy, free from leaf disease, and capable in a good season of producing about a forty-ton crop, which would leave a good margin for profit.

Cinchona.—Cultivation is being actively carried on this branch, and up to date some 20,000 macrantha and 250 Cal. Longeparia have been planted out permanently, and next season another 20,000 to 25,000 such plants will be planted out from the nurseries on the property. These trees will in the course of 4 to 5 years produce a large income, say at the rate of one pound of bark per tree, at two shillings a pound, on about 100,000 trees, £10,000 per annum.

The survey of the property has not yet been completed; the acreage, however, may be taken to come up to, if not exceed, that stated in the Prospectus. The Directors, for every reason to continue to have confidence in the Company and its ultimate success, and no efforts will be spared on their part to promote the interests of the Shareholders.

Machinery now being purchased in Australia. Mr. A. N. Pearson, Engineer in charge, now in Australia, superintending shipment of Machinery. Water power only going to be used. Good stone being extracted. (Dec. 1881.)

The last General Meeting of the Company was held on the 9th May, and in accordance with the Resolutions passed thereat, a Board accepted the title made by the Vendor in the Mining Estate. Formal possession of the property was handed over to the Company on the 27th July, when one-third of the purchase-money was paid on account thereof, and mining operations have since been pushed forward as rapidly as possible.

The Mining Staff arrived in India on the 26th June last, and at once proceeded to the Estate, where the house erected by Mr. Pearson, the Resident Engineer, were in readiness to receive them. Owing to the very short time that has elapsed since the Company obtained possession of the property, the Resident Engineer has not been in a position to report at any length on the quartz rock. It is hoped that a cursory report may be received before the date fixed for the meeting. Operations were commenced on Yenge's reef, which was successfully struck 50 feet below the surface, where it was found to be very strong and thick. As soon as the principal reefs have been opened, and the gold-bearing quality of the same ascertained, steps will be taken to purchase and erect suitable machinery. The Directors have in the meantime obtained estimates and specifications of machinery from both England and Australia. The trial workings that have now commenced in India by some of the other Companies will be carefully watched with a view of profiting by their experience. (Extract from Directors Report.)

Dare and moments quickly flying
Blend the living with the dead;
Soon will you find I am left
Each within his narrow bed.

From our souls to God, the grave men
Will have up and down right
Able now to praise to heaven
Oh, that while we can we might!

Jesus, Infinite Redeemer,
Maker of this mortal frame,
Teach, O teach us to remember
What we are and whence we came.

Whence we came and whither we go,
Soon we must through darkness go,
To inherit bliss unending
Or eternity of woe.

O by Thy power grant, Lord, that we
At our last hour may not from Thee
Beav'd by Thy grace, that we may be
All through the days of eternity. Amen.

CHURCH OF ENGLAND ASSURANCE INSTITUTION.

ESTABLISHED 1840.

HEAD OFFICE—KING STREET, CHEAPSIDE, LONDON.
EMPOWERED BY SPECIAL ACT OF PARLIAMENT.

"Short Term" and "Whole Life" Assurances are granted.

In addition to ordinary Assurances this Company issues Policies by which the sums assured are made payable to the Policy-holder himself on his attaining a specified age or to his representatives in the event of his previous death. By this means Officers and others may both provide for their families and secure *Retiring Provision* for themselves.

Also "Free" Policies are granted which can never altogether lapse in consequence of the non-payment of Premiums.

"Clergy Rates" have been recently prepared to enable Clergymen and Ministers of all denominations to assure their Lives in this Institution upon more favorable terms than in any other Office.

Premiums may be paid annually, half-yearly, quarterly or monthly as desired.

Thirty days' grace are allowed for the payment of annual, half-yearly and quarterly premiums, and fifteen days for monthly premiums. The validity of the Policy will, in every case, be maintained by payment of the Premiums within the stipulated period, notwithstanding the death of the Assured may have occurred before such premiums shall have been received.

No extra rate is charged for sea-passages, and on arrival in Europe a reduction is made in the premium without the assured being required to pass any Medical examination.

Policies effected by parties on their own lives, and assigned as a *bona fide* security to others, will not be rendered void in the event of death by suicide, duelling, or the hands of justice. Claims will become payable within three months after satisfactory proof of death.

The Medical Officer, Dr. Cockerill, sees applicants for Assurance at the General Hospital, on any day of the week at 9 A.M. and Noon at his House, Nungunbankum.

Detailed Prospectuses, with the names of the Trustees and Directors, Full Tables of Life Premiums, and the necessary Forms of Proposal, may be obtained on application to the following Agents:—

Messrs. PARRY & Co., Madras.

Messrs. REMINGTON & Co., Bombay.

Messrs. LAW, BROWN & Co., Ceylon.

BOARD OF DIRECTORS.

R. C. WALKER, Esq.

G. LONDALE MURRAY, Esq. (Murray & Co.)

Capt. J. H. TAYLOR, R.N.R. (Master Attendant) J. FORTUNE, Esq. (Parr & Co.)

Medical Examiner.

Surgeon A. M. BRANFORD, M.D.

Actuary.

A. H. BAILEY, Esq., of the London Assurance Corporation.

The chief characteristics of this Society are:—

Mutual Assurance.

Policies for terms of years issued at largely reduced rates without participation in Surpluses.

Premiums payable half yearly, on 1st January and 1st July.

Claims paid immediately after satisfactory proof of death. An official Notice of death in any of Her Majesty's Government Gazettes is a sufficient proof.

Claims can be adjusted, and premiums can be paid in London, if desired by the Policy holders.

Surrender Values allowed for Life Policies issued at fixed rates of premium which have paid three years' premiums.

The Society's funds must be invested in Indian Government Securities or in other guaranteed Indian Securities.

Quinquennial valuations, by a London Actuary, of Assets and Liabilities. The reduction of premiums for the Quinquennium 1881-85 is at the rate of 70 per cent. of original Annual premiums paid during 1876-80.

Assurances granted on the lives of Europeans, East Indians or Eurasians, and Parsees.

Past experience leads the Directors to anticipate that the retention of the "Mutual" principle and the Quinquennial distributions of Surpluses, will bring down the cost of Assurance by this Office, or Life, to the lowest possible point.

The Medical Examiner sees Applicants for Assurance at his residence, Fanechon Road, Egmore, on Wednesdays and Saturdays between 11 and 12 A.M.
