If the candidate is found qualified, the Examination Board shall cause his name, the name of his father, his age, place of residence, and other needful particulars, to be entered in a Register of persons permitted to appear at the examination.

17. An extract from the Register shall be forwarded to the District Judge or Deputy Registrar or Principal with a declaration that the candidate is permitted to appear at the next ensuing examination, for delivery to him. The Judge or Deputy Registrar shall cause a notice of his having received such extracts to be posted on a notice-board in the Court-house or Law College, and shall deliver them to the candidate on application; and it shall be the duty of the candidate on the day fixed for the examination to produce such extract, when called upon, to the officer appointed by Government to preside and superintend at the examination.

The District Judge, in carrying out these rules, shall conform to such instructions as he may receive from the Examination Board through their President or Secretary.

#### Admission.

18. Any person who shall have qualified under these rules, and who shall desire to be admitted to practise, shall pay into the Government treasury of the district in which he shall intend ordinarily to practise, the admission fee prescribed, and shall, on presentation of the certificate of the Examination Board or of his diploma, of the receipt for the said fee, and of a stamp paper\* of the necessary value for his first certificate of practice, be entitled to apply to the High Court for admission, stating in what Court he desires to practise with reference to Part I. of the second schedule of Act XVIII of 1879.

19. The application, together with the certificate or diploma, the receipt, and the stamp paper required by Rule 18, shall be presented to the Judge of the district in which the applicant intends ordinarily to practise, and shall be forwarded by the Judge to the Registrar of the High Court, with such remarks as he may think fit to make thereon. The name of the applicant and his place of abode, together with his father's name and place of abode, shall be affixed in some conspicuous place in the Court-house of the Judge to whom the application is sent; and also in the High Court, at least six weeks before the applicant is admitted to practise.

District Judges should see that applicants enter their names in full in their application for Pledership certificates. (Dis. No. 1317, dated 26th July 1897.)

20. The High Court may call for evidence of the respectability of the applicant in any case in which it may be deemed necessary.

#### Certificate.

21. Upon the applicant being admitted by the High Court, the Registrar of the High Court shall cause his name to be entered in the proper register, and shall issue to him a certificate as required by Section 7 of Act XVIII of 1879, authorizing him to practise, up to the end of the calendar year, in the Courts specified therein.

\* Under the General Stamp Act.—[G.O., 18th August 1884, No. 2061, and H. C. Circular, 24th February 1895, No. 559.]

Provided that,

- (a) in no certificate issued to a Pleader of the First Grade shall Courts in more than three adjacent districts be specified; and
- (b) in no certificate issued to a Pleader of the Second Grade shall Courts in more than one district be specified.

On the renewal of certificates, except with the special sanction of the High Court, those Districts and Courts only shall be entered which were entered in the certificate in the preceding year subject to the foregoing provisos. (Rule No. 1957, dated 10th August 1891.)

22. The certificate shall bear the number assigned to it in the Register, and shall be signed by the Registrar and forwarded to the District Judge, to be delivered to the applicant.

The certificate shall be taken to authorize enrolment in the Courts specified therein. The holder can take it to any Court therein mentioned, and may, with the approval of the presiding Judge, be enrolled in such Court. The approval should not be withheld unless the Judge is aware of circumstances which in his judgment affect the professional character of the applicant; and in any case in which enrolment is refused, the fact and the reasons for it should be communicated forthwith to the High Court.

23. Any Pleader who may apply for the renewal of his certificate under Section 7, Act XVIII of 1879, unless he has been ordinarily practising in the Court of the District Judge authorized to renew certificates, shall apply through the Judge presiding in the Court in which he ordinarily practises. Before the applicant can be refused a renewal of his certificate, it must be shown, 1st—that he has been guilty of professional misconduct or misconduct in any position of trust or responsibility; or 2nd—that he has committed a criminal offence.

Subordinate Judges and District Munsifs are required to bring to the notice of the District Judge every case in which a Pleader (1) is guilty of professional misconduct or (2) is convicted of a criminal offence.

Applications for renewal must be made not later than November 15th of the year in which they are made, and shall be forwarded by the District Judge to the Registrar of the High Court not later than the 30th idem. The renewed certificate shall be issued as soon as possible, and shall be dated January 1st of the year to which they relate. (Dis. No. 1908 of 2nd November 1897.)

#### Revision of Proceedings of District Courts.

In every case in which a report is received from a Subordinate Court under Section 14, or the Court, after perusal of the record, considers the proceedings of a Subordinate Court should be revised under section 15 of the Legal Practitioners Act, the Registrar shall set the case down for hearing by a Bench of two Judges and shall give reasonable notice to the Pleader and to the person (if any) on whose complaint proceedings were instituted, of the day on which the report and order will be considered, and such Pleader and complainant may appear in person or by Counsel or Vakils to show cause against or support the report or order. (H. C. Rule No. 2160, dated 20th September 1882.)

#### Printing of Renewed Certificates.

With reference to the provisions of the Legal Practitioners Act, 1879, for the renewal of Practitioners' certificates (Section 7, para. 2) renewed certificates are issued from the High Court, in a printed form, similar to that used for the original certificates. District Judges should accordingly submit the blank stamp papers produced by all applicants for renewed certificates to the High Court as early as possible. The prescribed form will thereupon be printed on the stamp paper in the High Court and will be returned to the District Courts for issue to the applicants. In case an applicant submits more than a single stamp paper for his renewed certificate, the paper of the highest value alone should be sent to the High Court with the words, First or Second Grade Pleader, as the case may be, written on the back.

Pending the receipt of the renewed certificate, Practitioners may, of course, continue to practise subject to such precautions as to identification as the District Judges may think fit to prescribe. (H. C. Circular letter No. 3181, dated 23rd December 1882.)

#### Fees.

24. The fees payable previous to examination and on application for enrolment, shall be as follows:—

|                   | First Grade<br>Pleadership. | Second Grade<br>Pleadership. |
|-------------------|-----------------------------|------------------------------|

(Rule No. 494, dated 19th February 1891.)

#### Refund of Fees.

No refund either of Pledership admission (enrolment) fees or of Pledership Examination fees shall be made without the sanction and authority of the High Court.

No refund of Examination fees will be granted except in cases in which the candidate shall have been declared disqualified to appear at the examination.

Refunds of admission (enrolment) fees may be granted at any time by the High Court of its own motion or on reference from a District Judge. Refunds of Examination fees may be granted at any time after the candidate is declared by the Pledership Examination Board to be ineligible for examination for the Pledership of either grade. (Extract from H. C. Circular letter to the Accountant-General, dated 27th October 1882.)

#### Penalties.

25. If any person, having passed the examination entitling him to be admitted and enrolled as a Pleader, shall fail to apply for such admission and enrolment for a period of one year from the time of passing the examination, he shall not be admitted and enrolled, except by special order of the High Court.

27. If any person shall hold any appointment under Government, or shall carry on any trade or other business, at the time of his application for admission as a Pleader, he shall state the fact in his application for admission, and the High Court may refuse to admit such person, or pass such orders thereon as it thinks proper. Save on the conditions mentioned hereunder, the High Court will not grant Pledership certificates to persons holding Judicial or other office under Government—

(1) The applicant must be prepared to resign his appointment on receipt of his Pledership certificate.

(2) The applicant must obtain leave of absence from his official superior with the object of practising as a Pleader. In this case, the certificate is granted only on condition of its being returned for cancellation should the applicant revert to appointment under Government.

Provided that when a Pleader is appointed by or under the authority of the High Court to the office of District Munsif, whether temporarily, or permanently, it shall not be necessary to give the notice prescribed in the first part of this rule; but no Pleader while employed as District Munsif shall be permitted to practise or do any business as a Pleader before any Court. (Rule No. 2021, dated 22nd August 1890.)

29. Any wilful violation of any of the above rules shall subject a Pleader to suspension or dismissal.

33. The words "the amount or value of the claim" in Rules 31 and 32 mean the value as set forth in the plaint or memorandum of appeal, and, where Court fees are payable *ad valorem*, the value on which such Court fees are paid.

35. In cases in which the subject-matter of the claim does not admit of valuation, the Court, or, in the case of the High Court, the Taxing Officer, shall fix a reasonable fee, regard being had to the time occupied in the preparation and hearing of the case and the nature of the questions raised therein.

36. If several defendants or respondents who have a joint or common interest, succeed upon a joint defence, or upon separate defences substantially the same, not more than one fee shall be allowed, unless the Court shall otherwise order for a reason which shall be recorded in the judgment. If only one fee be allowed, the Court shall direct to which of the defendants or respondents it shall be paid, or shall apportion it among the several defendants or respondents in such manner as the Court shall think fit.

37. If several defendants or respondents who have separate interests, set up separate and distinct defences and succeed thereon, a fee for one legal practitioner for each of the defendants or respondents who shall appear by a separate legal practitioner may be allowed in respect of his separate interest. Such fee, if allowed, shall be calculated with reference to the value of the separate interest of such defendant, or respondent, in the manner hereinbefore prescribed.

38. For each fee allowed under the two last preceding rules, the value of the stamp on one vakalatnama only shall be awarded as costs.

39. Except where an adjournment is made with the consent of all parties, or where from insufficiency of notice, a party has not had reasonable time to prepare himself for trial, or where the adjournment is necessitated by a cause beyond the control of the party, an adjournment should not be granted save on the condition that the party applying pays all the costs of the day, including a reasonable fee to the legal practitioner engaged by his adversary. In a District Munsif's Court, a sum not exceeding Rupees 5, and in a Subordinate Judge's Court and a District Court, a sum not exceeding Rupees 10, shall be deemed to be a reasonable fee within the meaning of this rule.

40. The fee allowed on the percentage scale for prosecuting or defending a suit is intended to cover all proceedings up to decree; and where a suit is remitted for re-hearing and disposal or for a finding on issues, the proceedings on such order must be regarded as a further proceeding in the trial of the suit, and no further fee can be allowed in respect of such proceedings.

#### Presidency Small Cause Court.

43. Fees shall be fixed at the termination of a suit, and, except as hereinafter mentioned (Rule 44), shall be in full of all trouble and attendances bestowed, but exclusive of any compensation which may be granted under Section 42 of Act IX of 1850, or under Section 15 of Act I. of 1875.

44. Except where an adjournment is made with the consent of all parties, or where from insufficiency of notice, a party has not had reasonable time to prepare himself for trial, or where the adjournment is necessitated by a cause beyond the control of the party, an adjournment should not be granted save on the condition that the party applying pays all the costs of the day, including a reasonable fee, not exceeding Rupees 10, to the legal practitioner engaged by his adversary.

45. Except by special leave of the Court, fees shall not be allowed in cases entered as compromised, or in any case where the defendant, three days before the day of hearing, has intimated to the Court his intention not to contest the plaintiff's demand. In cases decided *ex parte*, or when the defendant confesses judgment, or where a number of suits by the same plaintiff are summarily disposed of in succession, the Court will exercise its discretion in granting fees.

46. In respect of claims and proceedings under the Distress Act (I. of 1875) and other miscellaneous proceedings, the Court may order for an Advocate, Attorney or Pleader such fee as it thinks fit, provided that it will ordinarily be guided by the scales contained in these rules and that the highest rate of fee allowed is in no case exceeded.

49. When any appeal preferred to the High Court from a decree or order of any Subordinate Court—including a decree or order passed on appeal to such subordinate Court,—is otherwise than under section 583, C.P.C., rejected or dismissed with costs on the ground that no such appeal is allowed by law to the High Court, or that the appeal was presented after the period of limitation prescribed therefor, or that the appeal was admitted without sufficient cause being shown for not having presented it within the prescribed period, the pleader's fee allowable shall, unless the Court otherwise directs, be only one-fourth of what would be allowed by the rules in force immediately before the passing of this rule, unless, as hereinafter provided, the Respondent has given notice of an objection to the hearing of the appeal on any such ground.

Any Respondent may, before the appeal is called on for hearing, take objection to the hearing of the appeal on any such ground by filing such objection in Court at any time after service on him of notice of appeal, but not later than one week from the date on which the appeal was posted on the Ready Board.

Unless the Respondent files with the objection a written acknowledgment from the appellant or his pleader of having received a copy thereof, a copy of such objection shall be served, as soon as may be, after the filing of the objection, on the appellant or his pleader, at the expense of the Respondent. When allowed, Rupees 5 may be the fee recoverable by the party employing such Pleader, and no fee shall be allowed for the assistance of any other person. If an Advocate, instructed by an Attorney, or if a Vakil of the High Court shall appear, the fees as aforesaid shall be Rupees 15 and Rupees 10 respectively, in cases where the Judge certifies as above.

52. Where a Pleader is employed merely to obtain execution of a decree, one rupee shall be allowed as costs for that purpose in claims below Rupees 100, and two rupees in claims above that amount. In case of a second or other further application to obtain execution of a decree, the fee to be allowed shall be one-fourth of the fee allowable on the first application.

*General.*

53. Legal practitioners may, whether in civil or criminal cases, address the Court in English, either with the consent of the Court and both parties, or without such consent where due provision is made by the English speaker for the interpretation, if necessary, of what he says into the language of the Court.

V.—In all cases there shall be filed with petition a certificate from the Gaoler of the day or days and cause or causes of detainer against the prisoner.

VI.—The Chief Clerk, upon the filing in his office of the schedule of the debts and effects of any Insolvent Debtor in custody, shall forthwith cause a copy of such parts thereof as contain the particulars of the Insolvent's estate and effects and of the debts stated to be owing to him to be made out and delivered to the Official Assignee.

VII.—Notice of the filing of every petition and schedule and of every adjudication of an act of Insolvency, where an adjudication has been pronounced, and of the time and place appointed for the hearing of the matters of the Insolvency [and that an order has been made by the Court for vesting the estate and effects of such Insolvent in the Official Assignee—per Ord. IX.—The appearance at the hearing of any creditor or other person entitled to notice shall be deemed a waiver by him, her, or them, of such notice when there shall have been none, or of any defect or irregularity in the form or service thereof, unless the Court shall otherwise direct.

X.—The proof of notices published in the Gazette of the Presidency shall be by the production of the said Gazette without other proof, and the proof of other notices shall be ordinarily by affidavit, unless the Court shall think fit to call for *vide voce* testimony, in which case the deposition of the witness shall be taken in writing by the Chief Clerk of the Court.

XIII.—In all cases of opposition to the discharge of an Insolvent, where the Insolvent's petition shall be dismissed, the Court shall, if it think fit, order the costs of the opposing creditor or creditors to be paid by the Insolvent.

XIV.—The Official Assignee shall be entitled to receive a fixed remuneration of Rs. 250 a month (to be taken out of the interest of the Government Securities in which his collections are invested), and also to five per cent. commission on the principal sums forming the proceeds of each estate distributable as dividends.

XV.—The Official Assignee, and every person who shall hereafter be appointed to that office, previously to his admission thereto, shall give good and sufficient security by bond to the Chief Justice for the payment of such sum of money as the Court shall direct, with two or more able sureties to be approved by the Master; which bond shall be conditioned for his duly accounting for and administering all estates committed to his charge as Official Assignee, and the same shall be deposited with and kept by the Accountant-General, subject to the order of the Court.

XVI.—The Official Assignee shall proceed with all diligence to collect and get in the estate and effects of Insolvent persons committed to his charge, and shall pay in or deposit the same in the Honourable Company's Treasury with the privity of the Accountant-General retaining in his hands from time to time such sums only as may be necessary for immediate purposes: Provided nevertheless that the Official Assignee shall at no time retain in his hands a larger sum than two thousand rupees on the whole without the order of the Court.

XVII.—Whenever it shall become necessary for the Official Assignee to obtain any money bonds, or other securities out of the Honourable Company's Treasury for the purpose of distributing the same amongst the creditors entitled thereto, the mode of obtaining such money,

bonds and securities, shall be by order of the Court for the Relief of Insolvent Debtors signed by the Chief Clerk, and countersigned by one of the Judges, for the payment and delivery of the said money, bonds and securities to the Official Assignee, which order shall be by him presented to the Accountant-General and Treasurer in the same manner as any order of the Supreme Court of Madras for the payment out of the Treasury of money, effects, or securities of the suitors of the Supreme Court under order of the said Court.

XVIII.—The Official Assignee shall enter into a book to be kept by him for that purpose separate and distinct accounts of each estate under his charge, and of all such sums of money bonds and other securities for money, goods, effects, and things as shall come to his hands or to the hands of any persons employed by him, or in trust for him as such Official Assignee and likewise of all payments made by him for and on account of the said estate, specifying the dates of such receipts and payments respectively.

XIX.—The Official Assignee shall, twice in every year, that is, on the 1st day of January and the 1st day of July, or on the 1st day after those days on which the Court for Relief of Insolvent Debtors shall be sitting, exhibit and deliver in open Court a true and perfect schedule of all sums of money, bonds, and other securities received on account of each estate remaining under his charge, together with the payments made thereout during the preceding half-year, and the balance; and also of all estates wherein dividends shall have been ordered to be paid and shall have been paid over to persons entitled to the same during the preceding half-year, specifying the amount of such dividends, which schedule shall, on and after the 1st day of January 1849, be in the form following:—

Part 1st.—Containing the particulars of all estates committed to his charge since the period of exhibiting his last preceding schedule.

Part 2nd.—Containing the particulars of all estates committed to his charge prior to such last-mentioned period, on account of which he shall have received any money, bonds or other securities subsequently to such last-mentioned period.

Part 3rd.—Containing all estates wherein dividends shall have been paid over to the parties entitled thereto since the period of exhibiting his last preceding schedule, specifying the amount paid and the amount remaining unpaid.

XX.—Previous to the Official Assignee exhibiting and delivering in open Court his schedule in pursuance of the preceding rule, he shall lay the same, together with the accounts of each estate and the vouchers relating thereto, before the Master, in order that such schedule may be examined and the several vouchers compared with the accounts of the estates therein described.

XXI.—In all cases where the Courts shall direct that the estate and effects of any Insolvent shall be received by the Official Assignee and any Special Assignee, or Assignees jointly, all moneys, jewels, and securities for money belonging to each estate shall within seven days after the receipt thereof be paid or delivered and be kept in deposit in the Bank of Madras; and no part thereof shall be withdrawn therefrom but upon the order in writing of all such Assignees, or of any two of them, of whom the Official Assignee shall be one.

XXII.—The Chief Clerk shall, immediately after the hearing of any Insolvent upon his petition, and after adjudication of the Court thereon, deliver over to the Official Assignee the schedule of the Insolvent, which shall be thereafter kept in the Office of the Official Assignee. Provided that, if the schedule be required by the Chief Clerk for any temporary purpose, it shall be delivered out to him as often as may be necessary, and shall be restored to the custody of the Official Assignee as soon as such purpose has been fulfilled.

*The following Rule was passed by the Supreme Court on the 2nd March 1849.*

XXII (A).—The interest due, or which shall become due, upon any monies or securities now or hereafter paid into or deposited in the Treasury to the credit of the Official Assignee on account of collections of insolvent estates, shall be received by, or with the privity of the Accountant-General, and be by him, or with his privity, and with the privity and consent of the Official Assignee, forthwith, or as soon as conveniently may be, laid out and invested in securities of the Honourable Company, and deposited to the credit of the same account; and the Accountant-General shall, at the end of every year, certify to the Official Assignee the amount of interest drawn by, or with the privity of him the Accountant-General during that year, together with the numbers, date, and amounts of all Government securities purchased and deposited by him during the same period.

*Additional Rules for regulating the Proceedings in the Court for the Relief of Insolvent Debtors at Madras, made and passed by the Supreme Court of Judicature and read in Court on the 9th day of September 1853.*

That henceforth the following rule be substituted for Rule VII. XXIII.—That every Insolvent shall file with his schedule a general Balance Sheet of his receipts and expenditure, which account shall in no case commence later than twelve calendar months before the filing of the schedule. But if at any time subsequent to the date of the earliest debt in the schedule any property shall have gone from the Insolvent by sale, assignment, mortgage, distress, execution, or by any means other than the ordinary course of trade or living, the account shall commence so as to include all such transactions, and every Insolvent shall also state in the said general Balance Sheet the cause of his present insolvency and the amount of debts, if any, still due by him under any prior insolvency.

XXIV.—That no dividend shall be reserved for any disputed claim or debt that shall not have been substantiated before or at the sitting of the Court at which the dividend shall be declared, unless the Court shall direct such reservation to be made.

XXV.—That the Court in its discretion, and if it think fit to award any costs, may do so against, or to any Assignee, any Insolvent finally discharged, any petitioner for revocation of adjudication, any creditor or any person interested in an insolvent estate applying, opposing, or appearing on any application, and either out of the estate or out of the private monies of any such person or party, and may direct to what amount, how, when and in what manner, and by whom the same shall be paid, recovered or retained.

XXVI.—That the Official Assignee shall be at liberty to apply to the Supreme Court or to the Insolvent Court to permit him to proceed in Equity or at Law, or in the Ecclesiastical, or Admiralty Jurisdiction, or to defend any suit or action, or take or defend any proceedings without the payment of any fees of office to the Officers of the Supreme Court or Insolvent Court in respect of any demand, claim, or right against or belonging to any insolvent estate, wherein no assets have been received, and wherein there are no assets expected or recoverable except such as shall be the subject of such suit or action: Provided always that such fees shall be a primary charge on and payable out of the assets recovered therein.

*Approved G.O., No. 848, Judicial, dated 8th June 1901.*

### RULES OF PRACTICE IN THE PRESIDENCY MAGISTRATES' COURTS AT MADRAS.

1. *Hours of Business.*—The Office Hours are 11 A.M. to 5 P.M. The Summons Office will open at 10 A.M. The Magistrates will ordinarily sit from 11 A.M. to 5 P.M. The Chief Presidency Magistrate shall make such arrangements as may be necessary for the despatch of emergent business or the clearing off of any arrears, which may have accumulated owing to holidays.

2. *Magistrates.*—Before commencing the Judicial work of the day, the Magistrate sitting in the Second Court will hear all complaints and applications for processes.

(1) As soon after 11, as work in chambers may permit, the Magistrate presiding over the First Court will take his seat on the Bench and attend to applications for adjournments and such other applications as parties may desire to make.

3. *Order of hearing, Charges.*—Cases will be taken, so far as practicable, in the following order:—

1st.—Night charges and prisoners in custody.

2nd.—Summons and Warrant cases, subject to any cases being specially appointed for a particular hour.

(1) Ordinarily night charges and summons cases will be tried by the Second Court, charge sheets and warrant cases being disposed of in the First Court.

(2) In the event of one Court getting through all the cases on its list at an early hour, reference should be made to the other Court for the transfer of some of the cases there waiting trial.

4. *Transfer and Distribution of Cases.*—It shall be the duty of the other Presidency Magistrates to inform the Chief Presidency Magistrate of any unusual stress of business in their Courts and thereupon or of his own motion, the Chief Presidency Magistrate shall provide for such distribution or transfer of cases as will tend to prevent the disposal of any one case being unduly delayed by stress of business in a particular Court.

(1) If, in any case there exist special circumstances, which in the opinion of any party concerned or interested in such case, require a departure from the ordinary procedure prescribed by these rules, such party may bring such special circumstances to the notice of the Chief Presidency Magistrate, who shall thereupon make such lawful order in the matter as he shall think fit.

5. *Complaints, applications for process, &c.*—Ordinary applications for process, copies, certificates, &c., are to be made to the Magistrates on their first taking their seats on the Bench in the morning. Applications which are shown to involve urgency may be made at any time during the sitting of the Court.

(i) All applications must be presented in person or by pleader. The Magistrates will not undertake to reply to written communications.

(ii) Professional gentlemen applying on behalf of their clients for the issue of any process are requested to have their cases entered in the register of applications and also to furnish the Summons Clerk with a draft of the charge they wish to be entered in the process.

(iii) Complaints and applications should, as a general rule, be made in writing with proper stamp affixed. In each complaint, the names of the complainant and of the accused parties and also of the witnesses and the section of the law alleged to have been infringed should be legibly written with such particulars of the facts as may be necessary to support the complaint.

(iv) Subpoenas for witnesses must be applied for three clear days before the day of hearing, unless the Magistrate sees reason to order otherwise.

(v) Applications for subpoenas will not ordinarily be received after 1 P.M. Any emergent application made subsequent to that hour should be brought to the notice of the Magistrate for orders.

6. *Copying fees.*—Copies of records will be granted to persons authorized to receive them upon payment of the copying and examining charges, which will be levied in the form of two-anna copy stamp papers, at the rate of one paper for every 175 words or fraction thereof, except in cases where, under the law, such copies should be furnished free of cost. The payment of these charges does not affect the payment of fees under the Court-fees Act, or the exemptions from such payment, when the copies are exhibited in Court. No suitor or pleader will be allowed to make copies of records either personally or by agent.

(i) Translations made by the Court interpreters will be charged for at As. 8 per 90 words or fraction thereof.

(ii) Applications for copies of records must bear a Court-fee stamp, value one anna. Forms can be obtained on application to the Chief Clerk.

7. *Reports, returns, and record of cases.*—The Magistrates shall submit such forms, records, reports and returns as may be called for by the Chief Presidency Magistrate.

8. *Benches of Magistrates.*—(i) The Chief Presidency Magistrate may, of his own motion or on the application of any Presidency Magistrate, refer any case or classes of cases, triable by a Presidency Magistrate, for trial by a Bench of two or more Magistrates; and may, by his order, appoint the time and place at which such Bench shall sit.

(ii) The Chief Presidency Magistrate shall, if present, officiate as chairman. In his absence, the Senior Magistrate present shall officiate as chairman.

(iii) The chairman shall conduct the proceedings of the Court and exercise all the functions in that behalf usually exercised by a Presidency Magistrate when sitting alone; but it shall be competent to any member of the Bench to put any question to a witness either direct or through the chairman as the latter may deem advisable, and to suggest any matter for the chairman's consideration.

(iv) Each member of the Bench shall have a voice in the finding and sentence. In a Bench of three or other uneven number, the opinion of the majority shall prevail. When the numbers are even, the chairman shall have a casting vote.

(v) In regard to the recording of evidence and the judgment, the proceedings shall be conducted in a manner similar to proceedings before a single Magistrate and subject to the provisions of Act V of 1898.

(Signed) J. MEREDITH,

Chief Presidency Magistrate.

## WILLS: TESTATORS AND EXECUTORS.

REASONS FOR MAKING A WILL.—Every man having a wife and family should make his will. However small his estate, however remote may seem the probability of death, however confident that his property will pass to those he most wishes to benefit, it is an imperative duty in most cases, and is safer in every case, to protect the interest of the survivors by means of a will, and by the appointment of one or more trustworthy persons to carry his wishes into effect. When persons die intestate, having foolishly put off making a will until it is too late, their negligence may deprive those for whom they were most anxious of the very benefits which had demanded a life-long struggle to provide. Thus a widow may find, to her grievous disappointment, that the estate, a life policy perhaps, or a few hundreds in Consols, is not all hers, but has to be shared with a distant cousin of her husband's, whose name perhaps she had never before heard. Or it may be the eldest son of an intestate ousting all his brothers and sisters from possession of the real estate, or an improvident or unbusinesslike nearest relative may claim to administer the estate. Instances might be multiplied in which negligence, or unreasoning dislike to making a will, becomes an irreparable crime against those who have the first claim to protection. The help of a lawyer in making a will is not in every case essential, but it is always advisable, particularly where there is a desire on a testator's part to provide for his property being "settled" as it is called—e.g., the income being paid to his widow or her life, or until remarriage, and on her death or remarriage the capital being divided among his children equally. The tying-up or postponing the enjoyment of income or capital requires the skill of a practised lawyer. Assuming that a lawyer is not employed, a person having resolved to make a will must not regard it as a light matter, to be got rid of in a few minutes, like writing a letter, but one demanding the most serious attention. It is only after a person is dead, and cannot explain his meaning, that his will can be open to dispute. It is the more necessary, therefore, to express what is meant in language of the utmost clearness, avoiding the use of any word or expression that seems to admit of another meaning than the one intended. The lawyers have a maxim that the unforeseen (i.e., the event not provided for) always happens. It is better to be prolix than to leave the smallest room for doubt or uncertainty, although the same name or word be repeated over and over again. Sounding phrases are entirely out of place. Avoid the use of "legal terms," such as "heirs" and "issue" when the same thing may be expressed in plain language. If in writing the will a mistake be made, it is better to rewrite the whole. Before a will is executed, that is, signed by the testator in presence of

two witnesses, an alteration may be made by striking through the words with a pen, but opposite to such alteration the testator and witnesses should write their names or place their initials. Never scratch out a word with a knife or other instrument, and no alteration of any kind whatever must be made after the will is executed. If the testator afterwards wishes to change the disposition of his estate, it is better to make a new will, revoking the old one, or to add a codicil to the first, which must be duly executed and attested in the same manner as the original will. *A will should be written in ink and very legibly on a single sheet of paper.* Although, of course, forms of wills must vary to suit different cases, the following directions may be found useful to those who, in cases of emergency, are called upon to draw up wills, either for themselves or others:—

**TESTATOR OR TESTATRIX.**—The person who makes the will is the testator, or if the will-maker be a woman, the testatrix.

**ESTATE.**—By this word is to be understood property of all kinds, both real and personal. Real property includes tithes and advowsons, as well as freehold lands and houses; while personal property includes debts due, arrears of rents, money, leasehold property, house furniture, goods, assurance policies, stock in public companies, and the like.

**RESIDUARY LEGATEES.**—It is well in all cases to leave to some person or persons "the residue of my estate and effects," although it may be thought that the whole of the property has been disposed of in legacies already mentioned in the will. It should be remembered that a will operates on property acquired after it has been made.

**TO BEGIN A WILL.**—A form in which a will may be commenced is:—"This is the last will of me, Thomas Smith, of Vine Cottage, Silver Street, Reading, in the county of Berks."

**TO END A WILL.**—After disposing of the property, the will may be ended as follows:—"And I revoke all former wills and codicils. Dated this tenth day of December, 1903."

**EXECUTION OF A WILL.**—The testator should sign his name at the foot or end of the will, in presence of two witnesses, who will immediately sign their names in his and in each other's presence. A person who has been left a legacy or share of residue in the will, or whose wife or husband has been left a legacy, should not be an attesting witness. Their attestation would be good, but they would forfeit the legacy. It is better that a person named as executor should not be a witness. Husband and wife may both be witnesses, provided neither is a legatee. If a solicitor be appointed executor, it is lawful to direct that his ordinary fees and charges shall be paid; but in this case he (as an interested party) must not be a witness to the will.

**ATTESTING EXECUTION.**—Opposite to or beneath the testator's signature should be written the attestation clause. The following form of attestation will be found sufficient:—

THOMAS SMITH  
[Signature of Testator.]  
Signed by the testator [or testatrix, as the case may be], in the presence of us, both present at the same time who in his [or her] presence and in the presence of each other have hereunto set our names as witnesses.  
William Jones, of Vine Cottage, Silver Street, Reading, Tailor. Henry Morgan, of North Street, Reading, Esq.

It is desirable that the witnesses should be fully described, as they may possibly be wanted at some future time. If the testator should be too ill to sign, even by a mark, another person may sign the testator's name to the will for him, in his presence and by his direction, and in this case it should be shown that the testator knew the contents of the document. The attestation clause should therefore be worded: "Signed by Thomas Brown, by the direction and in the presence of the testator, Thomas Smith, in the joint presence of us, who thereupon signed our names in his presence and in the presence of each other, the will having been first read over to the testator, who appeared fully to understand the same." If the testator be blind the will should be read aloud to him in the presence of the witnesses, and the fact mentioned in the attestation clause. If by inadvertence the testator should have signed his will without the witnesses being present, then the attestation should be:—"The testator acknowledged his signature already made as his signature to his last will and testament, in the joint presence," &c. Any omission in the observance of these details causes delay and expense, and sometimes great difficulty is experienced in procuring an affidavit by one of the attesting witnesses before the will can be admitted to probate.

**CODICIL.**—When any change is required to be made in the disposition of property as stated in the will, the change should be embodied in a codicil. A codicil should begin:—"This is a codicil to the will of me, Thomas Smith, of Vine Cottage, Silver Street, Reading, in the county of Berks, the said will bearing date," &c. A codicil must be dated at the end, and signed and witnessed with exactly the same formalities as the will.

**EXECUTORS.**—It is usual to appoint two executors, although one is sufficient. The name and address of each executor should be given in full, as follows:—"I appoint John Jones, of number twenty-one, London-street, Ipswich, and Edward Matthews, of number seventeen,

Market Street, Lincoln, executors of this my will." An executor may be a legatee under the will. Thus a child or wife to whom the whole or a portion of the estate is left may be appointed sole executor, or one of two executors. The addresses of the executors are not necessary if it is well known who are the persons intended; but it is desirable, here as elsewhere, to avoid ambiguity or vagueness.

**APPOINTMENT OF TRUSTEES.**—The form of appointment of executors will also serve when the estate is left in care of trustees, except that the persons should be designated "executors and trustees."

**TRUSTS OF THE WILL.**—When the estate is wholly for the children, the will may read after the appointment of the executors and trustees:—"I give and devise all my estate and effects, real and personal, of which I may die possessed or entitled to, unto the said John Jones and Edward Matthews, upon trust in equal shares for all or any of my children or child living at my death who being sons or a son attain the age of 21 years or being daughters or a daughter attain that age or marry. And for all or any of the children or child living at my death, who being male attain the age of 21 years or being female attain that age or marry of any child of mine who dies in my lifetime leaving children or a child living at my death, such last-mentioned children or child to take the share or shares which their parent would have taken if living at my death, and so that no grandchild of mine shall take whose parent is living and capable of taking." Where the widow is to have a life-interest use the following words: "upon trust for my wife during her life [or during her widowhood] and after her death [or second marriage, which first happens] upon trust in equal shares for all or any of my children or child," &c., as before. The words square brackets will only be used where the widow is to lose her interest if she marries again.

**WHO CANNOT MAKE A WILL.**—A minor cannot make a will. A woman married before the 1st of January, 1883, can make a will with her husband's consent; but without such consent, she can only (under the Married Women's Property Act) bequeath property accruing to her after that date except in certain circumstances, respecting which it is advisable to consult a solicitor. But a woman married after that date can dispose by will of all property belonging to her at the time of her marriage, and of all property acquired thereafter, in all respects as if she were an unmarried woman.

**REVOCATION.**—A will is revoked by a subsequent will (but only so far as such subsequent will operates as a virtual revocation, as by making other provisions inconsistent with the previous will; for this reason a will should always have a clause revoking previous testamentary disposition), or by burning, tearing, or otherwise destroying the same. It is not sufficient to obliterate the will with a pen. Marriage in every case acts as the revocation of a will: so that after marriage the old will should be re-acknowledged, or a new one made.

**LAPSED LEGACIES.**—If a legatee die in the lifetime of the testator, the legacy or share of residue lapses and falls into the residue, excepting only in cases where the legatee is a child or "other issue" of the testator and leaves issue living at the testator's death, and the will does not provide for the class of children or issue being ascertained at some period other than the death of the testator. For instance, if a share of residue is left to "all my children living at my wife's death," the share of a child who died in the wife's lifetime would lapse even though the child should leave issue.

**TO ONE PERSON ABSOLUTELY.**—When it is the intention to leave all the property to one person, as for instance a wife or child, the will may read:—"I devise and bequeath all my estate and effects, real and personal, which I may die possessed of or entitled to, unto my wife Mary Smith, absolutely."

**TO CHILDREN UNDER AGE.**—When estates are left wholly or in part to children under the age of 21 years, trustees should be appointed to hold the property in trust for those to whom it will ultimately belong. The trustees will have power to apply the annual income for their maintenance. A wife may be appointed a trustee, or may be sole trustee. It is also usual to appoint the executors, or some near relative, guardians of children under age. By the Guardianship of Infants Act, 1893, the mother of a child, if she survives the father, becomes the guardian of such child, either alone, if no guardian is appointed, or jointly with any guardian appointed by the father.

**ALL PROPERTY TO BE INVESTED.**—Executors and trustees may be empowered to sell and dispose of an estate, and after the payment of all just debts and expenses to invest the remainder. For this purpose the section headed "Trust Investments" should be consulted.

The stringency of the law as to the due execution of wills is only relaxed in favour of sailors and soldiers while on service. The law of wills is mostly contained in the Wills Act, 1 Vict. c. 27.

**ADMINISTRATORS.**—If an executor has not been appointed in the will, or if the executor be dead, or does not wish to act, the residuary legatee nearest of kin to the deceased, or a legatee under the will, is entitled to act and administer the will, and is called administrator.

**Explanation.—**In this part of the schedule—

- (a) "ship" means a sailing vessel, and "steamer" a steam vessel;  
 (b) "coasting-ship" or "coasting steamer" means respectively a ship or steamer which at any port discharges cargo exclusively from, or takes in cargo exclusively for, any port in the island of Ceylon or in any part of India between the westernmost part of Sind and the south-easternmost part of Burma; and "coasting steamer" includes a coasting steam vessel having a general pass under Section 164 of the Sea Customs Act, 1878;  
 (c) "foreign ship" or "foreign steamer" means respectively a ship or steamer not being a coasting ship or coasting steamer.  
 (d) "voyage." In the case of vessels other than those trading with Straits Settlements, after calling at a port in the western group and taking in cargo, proceeding to some other port in the same group and then returning to the first port to complete loading before finally sailing for Europe, the two visits are to be considered as occurring in one and the same voyage for the purposes of port dues.

In exercise of the powers conferred by Section 46 of the Indian Ports Act (X of 1889), His Excellency the Governor in Council is pleased to direct that the rates of port dues chargeable on any vessel entering a port in ballast and not carrying passengers, shall be three-fourths of the rate laid down in Notification above.

In exercise of the powers conferred by Section 47 of the Indian Ports Act (X of 1889), His Excellency the Governor in Council is pleased to direct that when a vessel enters a port but does not discharge or take in any cargo or passengers therein (with the exception of such unshipment and re-shipment as may be necessary for purposes of repair), she shall be charged with a port due at half the rate specified in Notification above.

(NOTE.—In the following Instructions the clauses, sections, &c., quoted from Act XII of 1875 should be read with the corresponding clauses, sections, &c., in Act X of 1889.)

## XIV.—ACTION TO BE TAKEN BY THE MASTER WHEN THERE IS DISEASE OR SICKNESS, OR A DEAD BODY ON BOARD HIS VESSEL, WHILE SUCH VESSEL IS WITHIN THE LIMITS OF THE PORT—CLAUSE (p).

## Part I.—Regulations in cases of Cholera, Small-pox or other Epidemic Diseases, common in India.

(a) The Master of every vessel, on board of which there is, either among the passengers or crew, any case of cholera, small-pox, or other epidemic disease, common in India, shall report every such case to the pilot or other boarding officer, at the earliest opportunity; or, in the absence of a pilot or other boarding officer, or if the vessel be at anchor within port limits when such disease first breaks out, shall hoist a signal, which shall be, during the day, Flag R\* of the Commercial Code at the main, and during the night, two white lights, one over the other, at the fore.

\* This is a square red flag with a yellow, St. George's Cross.

(b) The Master of every such vessel shall not allow any passenger suspected of having any such disease, to depart from such vessel before such vessel has been inspected by the Health Officer; but where the disease or diseases in question is or are limited to two cases, the vessel will not be prohibited from taking up the usual place of anchorage in the harbour, and passengers not suspected of having any such disease need not be detained on board pending the inspection of the Health Officer. Where, however, cases of any such disease have been more numerous than two, or when from their occurring on pilgrim or emigrant ships, or for other special reasons further precautions may be deemed advisable, the Master shall anchor the vessel in the place appointed for the purpose; and shall not allow any of the passengers to leave the vessel until the Health Officer has made his inspection, and the Master of such vessel shall, moreover, cause her to be thoroughly cleansed and fumigated under the directions of the Health Officer.

The anchorage in the South-West monsoon shall be in 9½ fathoms within the northern boundary pillar bearing W. ½ N. and in the North-East monsoon in 9½ fathoms with the South Beach Ice house bearing W.S.W., or such other position as may be ordered by the Deputy Port Conservator.

[NOTE.—Under Regulations for the Inspection of Inward and Outward Bound vessels under the Epidemic Diseases Act.]

The Master of every "infected," "suspected" or "healthy" vessel or of every vessel which has been in communication otherwise than orally or by signal with a vessel from an infected port, shall, when within 3 miles of the coast of any part of the Madras Presidency, cause to be hoisted at the foremost head the Commercial Code Flag Q being a yellow flag and shall keep the same displayed during the whole time between sunrise and sunset. If any vessel be infected in the sense of Regulation 1 (8), the Master shall also hoist the Commercial Code Flag R below the yellow Flag Q. Any such vessel arriving at a port after dark shall hoist on coming to an anchor one white light at the foremost head and one red light at the main mast head.

## Part II.—Regulations where a Death has occurred.

(a) On a death occurring during the day on board of a vessel in port, the ensign and house flag are to be immediately lowered half-mast and kept in such position from sunrise to sunset as long as the body remains on board. Should a death occur between sunset and sunrise, one red light is to be hoisted at the peak, half-mast.

(b) The Master of the vessel will cause the death of any person on board to be made known at once to the Deputy Commissioner of Police, either by letter or otherwise, and shall also forward to the Deputy Conservator of the Port a written report as soon as possible after the occurrence in which all the circumstances attending the death are to be fully detailed.

(c) No dead body is to be removed from the ship without the permission of the Police authorities. Unless the special permission of the Commissioner of Police to its interment on shore shall have been obtained, a dead body shall be buried in the sea, outside the harbour, in not less than 9 fathoms water, in such manner as shall ensure its sinking at once and remaining below water.

## LANDING AND SHIPMENT OF EXPLOSIVES.

## NOTIFICATION.

In exercise of the power conferred by section 5 of the Indian Explosives Act 1884 (IV of 1884) His Excellency the Governor in Council is pleased, with the previous sanction of the Governor-General in Council, to make the following rules for regulating the landing and shipment of explosives in the port of Madras:—

## Rules.

The rules to regulate the transport of explosives, made by the Governor-General in Council and published under Government of India Notification, No. 1393, dated the 8th July 1897, shall, subject to the following rules, apply to the transport of explosives within the limits of the port of Madras:—

Rule (a).—The master of any vessel arriving at the port of Madras with explosives on board as cargo shall give notice thereof to the Pilot or Harbour Master, who shall come on board such vessel, immediately on his boarding.

Rule (b).—The agents of any vessel expected to arrive at the port of Madras and known to have explosives on board as cargo, and the consignee or consignees of, and other person or persons interested in, such explosives so expected to arrive by any vessel at the port, shall give notice of the fact of such explosives being on board such vessel to the Chairman of the Harbour Trust Board not less than 48 hours before the arrival of such vessel, and the agents or consignor or consignors or other person or persons interested in any explosives intended to be shipped as cargo on board any vessel in the port of Madras shall give a like notice of his or their intention to ship such explosives by such vessel 48 hours before any such explosives shall be shipped. Every such notice shall be in writing and shall contain a statement showing the quantities and nature of the explosives to be landed at, or shipped from, Madras, and of those intended for other ports or, as the case may be, of the port or ports for which any such explosives may be shipped. Upon receipt of any such notice, the Chairman of the Harbour Trust Board shall depute an officer to take charge of such explosives where they are landed, and until they shall have been removed from the Board's premises for deposit in the magazine on shore appointed for that purpose; or in cases where explosives are to be exported, until they shall have been shipped to the vessel named in such notice.

Rule (c).—(i) Vessels carrying safety cartridges, safety fuzes, or manufactured fire-works in any quantity intended for discharge at Madras or elsewhere can enter the Madras Harbour without restriction.

(ii) Vessels carrying explosives of the following classes, intended for discharge at Madras, can enter the Madras Harbour, provided that such explosives are contained in a properly constructed magazine passed by the Board of Trade, or approved by the Deputy Conservator of the Port of Madras or other officer deputed by him to inspect it:—

Class 1, Gunpowder class, not exceeding 6,000 lb. in weight.

" 3, Gun-cotton wet, cordite, Schultz's and E. C. powder, and other sporting explosives of this class, in tins not exceeding 5 lb. in weight each.

" 6, Ammunition class, except cartridges and charges for blasting other than detonators containing explosives of classes 3, 4 or 5.

[—Safety cartridges and safety fuzes coming under this class need not be in a magazine—vide clause (i) of rule (c) above] and

Class 7, Division 2, manufactured fire-works.

NOTE.—The explosives mentioned in Rules (i) and (ii) may be discharged, shipped or transhipped within the harbour.

(iii) Vessels, carrying explosives of the following classes intended for discharge at Madras, may enter the Madras Harbour, provided that such explosives are contained in a properly constructed magazine passed by the Board of Trade, or approved by the

Deputy Conservator of the Port of Madras, or other officer deputed by him to inspect it, and provided that such magazine is kept closed while the vessel is inside the harbour:—

- Class 1, Gunpowder class, exceeding 6,000 lb. in weight;  
 " 3, Nitro-compound class, Division 1.  
 " 3, Division 2, except (a) gun-cotton wet; (b) cordite, not exceeding 6,000 lb. in weight; (c) Schultz's and E. C. powder, and other sporting explosives of this class in tins not exceeding 5 lb. in weight each subject to a limit of 6,000 lb. by any one vessel;  
 " 6, So far as regards cartridges and charges for blasting other than detonators containing explosives of classes 3, 4 or 5.

(iv) The following explosives are absolutely excluded from the harbour:—

- Class 2, Nitrate-mixture class;  
 " 4, Chlorate-mixture class;  
 " 5, Fulminate class;  
 " 7, Division 1, Firework class.

NOTE.—The explosive referred to in Rule (c) (iii) and (c) (iv) must be discharged, shipped or transhipped outside the harbour at a point which shall not be less than one mile north of the harbour and half a mile from shore.

(v) Vessels carrying explosives of the following classes intended for discharge elsewhere than at Madras, may enter the Madras Harbour, provided that such explosives are contained in a properly-constructed magazine passed by the Board of Trade or approved by the Deputy Conservator of the Port of Madras or other officer deputed by him to inspect it, and provided that such magazine is kept closed while the vessel is inside the harbour:—

- Class 1, Gunpowder class.  
 " 3, Nitro-compound class.  
 " 6, Ammunition class.

(vi) Nothing in this rule shall apply to a vessel carrying less than 25 lb. in all of explosives.

(vii) Any explosives of the 5th (Fulminate) class; or any such explosive of the 6th (Ammunition) class as contains its own means of ignition; or any explosive of the 7th (Fire-work) class, shall not be conveyed in any ship or boat with any explosive not of the class and division to which it belongs, unless it be separated therefrom to prevent any fire or explosion which may take place on any such explosive being communicated to another.

Rule (d).—Whilst any explosives remain on board any vessel, at the port of Madras, whether outside or inside the harbour, a red flag shall be kept flying at the fore mast-head between sunrise and sunset and one red light at the ensign staff of peak in addition to the usual anchor light between sunset and sunrise. The master or chief officer shall remain on board until the explosives intended for Madras have been discharged.

Every ship or steamer in the harbour carrying explosives shall be moored at a distance of not less than fifty yards from every other ship or steamer in the harbour.

Rule (e).—The Master of every vessel receiving or discharging any explosives shall see that the platform in the vessel's hold to be used in receiving or delivering such explosives and the gangways and combings of the hatchways of such vessel are covered with tanned hides or other suitable paddings; that the barrels or boxes containing any such explosives and received on board any such vessel are carefully stowed therein; that the hatches of such vessels are properly secured and locked, and that the key of the magazine in which any such explosives may be stowed remains in his own possession. All persons concerned in the handling, or in supervising the handling, of any such barrels or boxes of explosives, shall wear suitable shoes without any metal nails or other metal in or upon them, or shall wear no shoes.

Rule (f).—Barges, lighters and boats about to be used for the transport of any explosives shall be kept scrupulously clean and free from loose explosives, and shall not, when at anchor with explosives on board, lie closer than one cable's length or 200 yards from any of the shipping in the port or from any public landing place, and all explosives in any such barges, lighters or boats shall be securely covered with tarpaulins. Whilst any such explosives shall remain on board, a red flag shall be kept flying on every such barge, lighter or boat between sunrise and sunset, and a red light in an elevated position shall be shown from any such barge, lighter or boat between sunset and sunrise. No fires, smoking or matches, shall be allowed on board any such barge, lighter or boat, nor any light of any kind except the red light mentioned above and, except in the case of properly decked barges on the deck of which may be allowed one lantern of good pattern. Kerosine or other explosive oil is not to be used for the above-mentioned lights. The tidal and at least half of the crew of every such barge, lighter or boat, shall remain on board until all the explosives are discharged.

Rule (g).—All barges, lighters and boats having any explosives on board to be landed outside of the harbour, shall remain off shore until orders to approach the shore are received from the officer directing the landing. Such landing shall take place either at

the bay in the revetment at Cassimode or at the north end of the revetment according to the state of wind and current. At the bay, not more than two boats shall unload simultaneously, but beyond the north end of the revetment four boats may do so.

Rule (h).—Explosives which may be landed or shipped inside the harbour under rule (c) (ii) if properly packed as required by rule 2 of the rules issued by the Governor-General in Council under Section 5 of the Indian Explosives Act, 1884, may be shipped on board, or discharged from a vessel lying at the ordinary moorings within the harbour. Such shipment or discharge shall be effected under the precautions and conditions mentioned and contained in these rules, and such explosives must be taken on board the vessel for which they are intended, immediately after the boat carrying such explosives has come alongside, and no cargo boat or other vessel having fire on board shall be allowed to lie nearer than one cable's length or 200 yards of such vessel during the time that any explosives are being shipped on board the same. All other cargo work on board shall be stopped while such shipment or discharge is taking place.

Rule (i).—When explosives (other than those mentioned in class 6, and division 2, class 7, of the rules made by the Governor-General in Council under Section 5 of the Indian Explosives Act, 1884), are shipped or discharged within the Madras port limits, the smoking of tobacco on board the vessel on which they are being shipped or from which they are being discharged shall be prohibited, and all fires and lights on board shall be extinguished before the barge, lighter or boat bringing such explosives for shipment or receiving such explosives to be landed shall come alongside of such vessel. In the case of a steamer, should it be necessary that the fires in her engine-room should remain lighted, the barge, lighter or boat so bringing or receiving such explosives shall be placed to the windward of the steamer's funnel, and in the event of the steamer swinging, such explosives are to be covered with tarpaulins until such barge, lighter or boat is removed to a safe and proper position. No explosives other than those mentioned in the above two classes shall be discharged from a ship or shipped from the shore before 6-30 A.M. or after 4 P.M.

Rule (j).—No magazine on board any vessel containing explosives other than safety fuzes, safety cartridges and caps shall be opened while the ship is inside the Madras Harbour without the permission of the Chairman of the Harbour Trust Board, or other person he may depute to act for him, except in cases of emergency, and in case, in the opinion of the Chairman of the Harbour Trust Board, the emergency was not such as to justify the master of the vessel in opening or allowing the magazine to be opened, he shall be deemed to have contravened this rule. Such magazine shall remain open only for the time required to remove or stow explosives, and that operation shall always be performed in the presence of an officer of the ship.

Rule (k).—If any person shall contravene any of the foregoing rules, he shall, on conviction, be punished with fine which may extend to one thousand rupees.

- (2) no smoking, fire or light of any description shall be allowed in any cargo boat during the time that the petroleum is on board the boat.

#### LANDING AND SHIPMENT OF KEROSENE OIL.

Three hundred cases or drums of 8 Imperial gallons each may be shipped or landed inside the harbour to and from dhonies and 2,000 cases or drums to and from steamers.

Native passenger vessels with more than 60 native passengers on board are permitted to carry from Madras Port kerosine oil to the extent of 100 cases or 1,000 common gallons on the understanding that the cases are specially stowed and separated from other cargo.

(Section 28 of the Indian Ports Act X of 1889.)

If the Master of any vessel in which fire takes place while lying in any such port wilfully omits to take order to extinguish fire, or obstructs the Conservator or the Port Officer, or any person acting under the authority of the Conservator or Port Officer, in extinguishing or attempting to extinguish the fire, he shall be punished with imprisonment which may extend to six months, or with fine which may extend to one thousand rupees, or with both.

#### DISCHARGING OR TAKING IN GUNPOWDER OR OTHER EXPLOSIVES.

In loading or discharging gunpowder, ammunition or other explosives in excess of 100 lb. in weight, the master or other person in charge of the vessel shall be responsible that tanned hides or wadmiltits are laid over all portions of the vessel over which the barrels or cases pass, and also over all projections and on the platform in the hold: that a cushion (stuffed with white oakum) covered with leather is used for landing all barrels or cases upon, whether in the hold or on the deck: that the barrels or cases are carefully handled and stowed, and are on no account rolled over each other unless tanned hides are laid down for the purpose of protection: and after the gunpowder, ammunition or other explosives are stowed, the magazine and hatches leading thereto are properly secured and locked, and the key remains in his possession, and after the operation of discharging is completed, that the hides, hair cloths, &c., are removed and the hold or magazine is carefully cleaned out.

For the purposes of these rules, explosives shall be classified as follows, namely:—

When employed in shipping or discharging the explosive above mentioned, no person shall wear boots or shoes with iron or steel nails, heels or tips.

As a general rule in landing and depositing or taking on board such excess quantity, no combustible stores shall be conveyed in the same hoy with powder and ammunition. In special cases, however, where combustible stores of an exceptionally safe description are forwarded with proper precaution as to their stowage and security, this restriction may be omitted.

Smoking and carrying lucifer matches on board lighters or boats conveying such gunpowder are strictly prohibited, and no fire will be allowed on board on any pretence whatever.

No fire is to be permitted in the barges, lighters or boats having on board or receiving such gunpowder or explosives.

Vessels, barges and boats having or taking on board such explosives are to be kept scrupulously clean and free from loose gunpowder.

No percussion caps, fuzes or other priming, by which gunpowder, or other explosives may be exploded, shall be carried in a boat having such gunpowder or other explosives on board.

"(2) If any person offends against sub-section (1), he shall for every such offence be punished with fine which may extend to one hundred rupees, and shall pay the expenses of repairing the injury (if any) done by him to such bank or shore."

- To keep his vessel prepared in every respect to proceed to sea at short notice.
- To leave the port without waiting for instructions to do so, should he deem such a course prudent.
- On the hoisting of the Danger Signal, to take such other measures for securing the safety of his vessel as he may consider requisite, as no further instructions on that point will be furnished by the Port authorities.

SPECIAL NOTICE TO COMMANDERS OF VESSELS VISITING THE PORT OF  
MADRAS.

CODE FOR TELEGRAPHING WEATHER CONDITIONS IN THE BAY OF BENGAL DAILY TO OUTWARD-BOUND VESSELS PASSING SAUGOR ISLAND LIGHTHOUSE, AND TO VESSELS AT CERTAIN PORTS ON THE COAST OF THE BAY OF BENGAL, SUCH AS RANGOON, NEGAPATAM, COCANADA, AND MADRAS.

[Revised, October 1894.]

The following signals are intended to be used in ordinary weather and also if possible during stormy weather, and will therefore be supplementary to the ordinary storm-signals, which are hoisted only when storms have actually formed.

The ordinary Commercial Code signal flags (B. to W. inclusive) will be used in making these signals. Each signal flag will have a special signification as to the weather in the Bay, as indicated in the table on page 5. The weather in the Bay daily will be expressed by a single hoist of flags. Each signal, or hoist of flags, will consist ordinarily of four flags. The top flag will be considered to occupy position 1, that below it will be flag No. 2, and so on, the bottom flag being No. 4. These flags will be hoisted usually on the signal mast employed for hoisting the ordinary storm-signals, and by the same halyards, so as to distinguish these messages from ordinary commercial messages. By the experience of more than two years it has also been found possible to arrange the flag signals for each day, so that there are almost always at least two flags of the same letter (two B's. or two P's., &c.). Hence this forms at once a distinguishing mark of these weather messages from ordinary or commercial messages.

It is not possible for the information regarding the weather in the Bay for each day at 8 A.M. to be collected, and for the flag signal telegrams to be prepared and despatched from Calcutta, and for them to be received at the signalling stations much before 11 A.M. daily. Hence for the period between daylight and about 11 A.M. on each day, the flag signal message will usually deal with the weather at 8 A.M. on the previous day. To indicate that this is the case, and that the signal hoisted on any day from daylight up to about 11 A.M., denotes the weather of the previous day, the "Answering Pennant" will be hoisted at the bottom of the four code flags of the signal.

For the purposes of these signals the Bay of Bengal has been divided into four sections as shown in the chart on page 4. The top flag in each daily signal (i.e., flag No. 1) will denote the weather in section No. I of the Bay as in the chart, flag No. II will denote the weather in section No. 2, flag No. III the weather in section No. 3, and flag No. IV, or the bottom flag of the signal, will denote the weather in the 4th section of the Bay, i.e., that off the South Madras coast.

On receipt of the daily 8 A.M. meteorological telegrams by the Meteorological Office, and after their reduction, or at above 10.30 A.M., a daily code message by urgent telegram will be despatched by the Bengal Meteorological Office to Saugor Island and the other stations included in the service. Signals can, therefore, be hoisted at Saugor Island, &c., daily at about 11 A.M., showing the weather of the same day over the whole Bay to all vessels that leave the port after that hour.

Thus, supposing a weather signal of four flags hoisted at any of the stations included in this service on any day at 11 A.M. read B, B, B, B, it will mean that "ordinary weather for the season; light or moderate winds of direction about normal for the season, and calm or slight sea" prevailed in all four sections of the Bay at 8 A.M. of that same day. Also if the flag message at 10 A.M. of any day consisted of five flags and read "B, B, B, B, Answering Pennant," it would mean that ordinary weather for the season with light or moderate winds, &c., prevailed over the whole Bay at 8 A.M. on the previous day.

Again, if a weather flag-signal telegram read "B, P, S, V."—This will mean that 8 A.M. of the day in question whether in section I of the Bay (i.e., off Burmah and Arakan coasts to longitude 90° E.) was "ordinary weather for the season, light or moderate winds, of direction about normal for the season, and calm or slight sea." Also that—

Weather in section 2 of Bay (i.e., at the head of the Bay north of latitude 19° 30' N.) was "unsettled, suspicious, and probably squally weather, strong winds of rather abnormal direction, and probably moderate to rough sea." Also that—

Weather in section 3 of Bay (i.e., of Ganjam, Circars, and North Coromandel coasts to longitude 90° E.) was "unsettled, suspicious, and probably squally weather, strong winds, which apparently form part of a whirl or cyclonic circulation of winds, and probably moderate to rough sea." Also that—

Whether in section 4 of Bay (i.e., the southern part of the Bay off the South Madras coast, south of latitude 13° 30' N.) was—"Conditions indicate that a small storm at present of slight intensity has formed or is forming in the section of the Bay referred to, Strong winds. Probably moderate to rough sea."

If the flag message read "B, P, S, V." "Answering Pennant," the description of the weather given in the four previous paragraphs would refer to the previous day, and not to the day on which the signal was hoisted.

In the first issue of this code no arrangement was made by which the weather conditions in the Bay at any other hour than for 8 A.M. could be communicated. It is clear, however, that in certain exceptional cases it is desirable to have the power of conveying additional information for later periods than 8 A.M. Thus, as at first arranged, if a vessel were proceeding to sea in the early morning, and at, say, 6 A.M. of any day passed Saugor Island, she could only receive information of the character of the weather at 8 A.M. of the previous day or for a period 22 hours previous. In the very great majority of cases no difference in the weather in this period would have occurred, and hence no alteration of the signal would be required, and the vessel would receive all the information which could be given, or which was actually necessary.

It might, however, happen, and indeed sometimes does happen, that the weather is considered by the Meteorological Office to be only suspicious and unsettled at 8 A.M., when by the evening, as judged by additional meteorological observations received, the Meteorological Office would be able to say almost certainly that a storm had formed in the Bay and had perhaps commenced to move. Indeed, storms frequently form and become rather violent within a period of six or twelve hours during unsettled, suspicious weather, specially in the north of the Bay and in the Andaman Sea. It is hence highly desirable in such a case as previously mentioned of a ship leaving, say, at 6 A.M., that a signal could be made to her indicating the condition of the weather up to the very latest hour for which observations had been received.

With a view of supplying such information the following additions have been made to the code, for it is found a very slight modification of the method of exhibiting the flag signals will enable such additional information to be given:—

The ordinary four-flag signal message will always indicate the weather conditions in the Bay at 8 A.M. of the day in question.

All additional information for hours other than 8 A.M. will be shown by hoists of five flags or rather four code flags with the addition of the "Pilot Jack" (i.e., the Union Jack with the order of white one-fifth the breadth of the Jack).

The time to which the message refers will be indicated by the position of the Pilot Jack in the four flag signal message in the following manner:—

If the special weather flag signal message refers to the weather at midday (instead of 8 A.M.) the Pilot Jack will occupy the FIRST position in the signal, and the four flags of the signal will follow in their due order.

If the special flag signal message refers to the weather at 4 P.M. (instead of at 8 A.M.) the Pilot Jack will be in the SECOND position, i.e., it will be placed between the first and second flags of the four flags of the signal.

If the message refers to the weather at 8 P.M., the Pilot Jack will be in the THIRD place, i.e., it will be between the second and third of the four flags of the signal.

If the message refers to the weather at midnight, the Pilot Jack will be in the FOURTH place, i.e., it will be between the third and the fourth flags of the signal.

Finally, if the message refers to the weather at 4 A.M. (instead of 8 A.M. of the previous day), the Pilot Jack will occupy the LAST position of the signal after the usual four flags.

Thus, taking the second illustration previously given of the use of these signals when B, P, S, V, was hoisted. If the flags B, P, S, V, were hoisted alone, it would signify that the condition described on page 2 probably obtained at 8 A.M. of the day for which the signal was hoisted.

If the message referred to the weather at noon, the flag signal would be Pilot Jack B, P, S, V.

If the message referred to the weather at 4 P.M. previous to the hoisting of the signal, it would read B, Pilot Jack P, S, V.

If the message referred to the weather at 8 P.M. previous to the hoisting of the signal, it would read B, P, Pilot Jack S, V., and so on.

It is believed that the addition here described will prove to be valuable in cases when storms are in process of generation. It will, however, be understood that these additional signals will only rarely be used, and only in such cases when from additional information received in the Meteorological Office it is found that there had been such a decided change in the conditions of the weather as to necessitate the alteration of the usual signal message which had been issued after the receipt of the daily 8 A.M. observation.

[NOTE.—The expression "Boat" or "Boats" when used in any of the following rules shall be held as including steam launches, catamarans, flats, cargo, passenger and other boats.]

1. No person, either as owner or servant, shall use any boat to carry goods or passengers, whether for hire or not, to or from any ship or vessel at the port, or from place to place within the limits of the port as defined for the time being, unless such person shall hold a license from the Registering officer to so use such boat, and unless the boat which such person shall so use has been registered as hereinafter mentioned. This rule is not to be considered as interfering with boats forming part of a vessel's equipment or boats maintained solely for purposes of pleasure. The Registering officer may, if he see fit, withdraw this exemption.

2. Owners of licensed boats shall supply the Tindal of each registered boat with a printed copy of these rules and of any written directions issued by the Registering officer for carrying the same into effect, which copy shall be shown by such Tindal to any passenger by such boat demanding to see the same.

3. The Registering officer shall, upon the application of the owner or owners of a boat, and upon such boat being brought by him or them to such place as the Registering officer shall appoint for that purpose, survey and measure, or cause to be surveyed and measured, such boat in the presence of the owner or owners thereof, or of any other person duly appointed for that purpose by such owner or owners, and, on being satisfied that a boat is seaworthy and fit for the service of the port, will, upon the owner or owners delivering to him a document signed by such owner or owners specifying his or their name or names, occupation or respective occupations and place or respective places of residence and subscribing to a declaration that he or they fully understand these rules, grant a \*license, in a form approved by Government, to such owner or owners to use the boat for the purposes of carrying goods and passengers or goods or passengers, whether for hire or not, within the limits of the port. Such license shall express the dimensions of the boat, its rig, the equipment and the number of the crew considered necessary by the Registering officer, as well as the number of passengers and quantity of cargo it is to be permitted to carry and whether for hire or not, and every such license shall also contain a number for such boat and the name or names, occupation or occupations, and place or places of residence of the owner or owners thereof, and the name and place of residence of the Tindal of such boat; all of which particulars shall be entered by the Registering officer in a book † or register to be kept by him for that purpose.

\* Vide Appendix A. † Vide Appendix B.

4. Every boat being a steam launch, the owner or Master of which does not hold a certificate of survey under Act VI or Act VII of 1884, shall, before being licensed as hereinbefore provided, be surveyed by a person holding a certificate of competency as a first-class Engineer, who shall be selected for that purpose by the Registering officer and who shall report to the Registering officer as to the condition of the hull and machinery of such boat and the time for which her hull and machinery will be sufficient, and the Registering officer shall not license any such boat until her hull and machinery shall be declared by the person to be so selected to be sufficient for the service intended and in good condition, and the license granted under these rules in respect of such boat shall, unless forfeited as herein-after provided, be in force for one year from the date of survey if the hull and machinery of such boat shall be reported to the Registering officer as aforesaid as sufficient for so long, otherwise such license shall be granted only for the time for which the hull and machinery of such boat shall be reported sufficient. A fee of Rs. 25 shall be paid by the owner of any such boat in advance to the Registering officer before any such survey shall be made, which fee shall be paid by the Registering officer to the person making the survey on receipt of his report.

purpose of fishing until such license shall have been obtained and such boat shall have been registered; nor without such number being so placed as aforesaid. Registration and licensing in one port shall free every such boat in all other ports. Nothing in this Rule shall apply to catamarans, shoe-donies or canoes used exclusively for the purpose of fishing.

No person, whether an owner of a registered boat or boats or not, shall alter or erase, or shall assist in altering or erasing, any such figures as aforesaid. All numbers painted or branded on a registered boat shall be effaced by the Registering officer on the license granted in respect of such boat being withdrawn.

No person who, in the opinion of the Registering officer, is unaccustomed to the use of boats or is inefficient, shall be registered either as a tindal or as a boatman, or shall be employed in any registered boat.

14. The owners or owners of every registered boat at the ports of Madras and Masulipatam shall cause the tindal and every boatman employed in such boat, and the owner or owners of every registered boat at a coast port other than the port of Masulipatam, shall cause the tindal employed in such boat, to wear, when afloat in such boat, a metal badge engraved with the registered number of such boat; such badge shall be supplied by the Registering officer of the port free of charge in the first instance.

15. No tindal or boatman serving in any registered boat shall by wilful neglect of his duty cause any impediment to the service of such boat.

16. A registered boat shall not ply within the limits of the port between the hours of 6 p.m. and 6 a.m. without the permission of the Registering officer, which is to be first obtained, nor shall a registered boat ply between 6 a.m. and 6 p.m. when any signal indicating bad weather or high sea is displayed from the Port flagstaff, without the special permission of the Registering officer.

18. No registered boat shall ply in fine weather if loaded with passengers or cargo beyond the number or quantity specified in the license granted in respect of such boat, or in rough weather with a greater number or quantity than that authorized for the occasion by the Registering officer; all persons shall, on being required so to do by the tindal or owner of a registered boat, leave the boat, or, as the case may be, remove therefrom such quantity of cargo which such person shall have placed, or shall have caused to be placed, in such boat as the tindal or owner shall require him to remove if the number of passengers or quantity of cargo then in such boat shall exceed the number or quantity, as the case may be, allowed by this rule.

19. Owners of registered boats will instruct the tindal of such boats to pay immediate attention to the following signals of the Commercial Code when displayed from the Port flagstaff, viz.:-

20. No tindal or other person in charge of or navigating any registered boat shall attempt to make such boat fast to, or shall take it alongside of, a vessel approaching an anchorage, before such vessel has come to an anchor.

21. All passengers and goods shall be landed or shipped from within the limits, if any, that have been determined by Government, and no person engaged in shipping or landing passengers or goods shall do so beyond such limits unless the sanction of the chief Customs authority at the port shall have been previously obtained.

The rate of hire to be charged for the carriage of cargo and passengers, respectively, will be determined from time to time by Government, and no owner of a registered boat licensed to ply for hire, or person deputed by any owner of such registered boat to carry any cargo or passengers for hire, shall demand a rate beyond that sanctioned by Government for the carriage of any such cargo or passengers.

23. Any person who shall be convicted of disobedience of any of these rules shall be liable to forfeit any license which may have been granted to him under any of these rules.

24. The decision of the Registering officer upon any matter in connection with these rules shall be open to appeal, which at a coast port shall be made to the Collector of the district, and at Madras to the Presidency Port Officer, provided that such appeal be preferred in writing within three days after the decision of the Registering officer shall have been communicated in writing to the party or parties concerned, and the decision of the Collector of the district or of the Presidency Port Officer, as the case may be, shall be final and conclusive.

### PASSAGE RULES FOR THE MADRAS PRESIDENCY.

#### I.

Rules for the guidance of Military Officers having to engage passages at Madras and the Out-ports.

1. *Single Passages* will be obtained direct from the Agents, B. I. S. N. Company, in either of the following ways without reference to the Port Officer:—

(a) On payment by the officer ordered to travel: the amount being afterwards recovered by him on a contingent bill submitted to the Pay Examiner, Fort St. George.

(b) On application by District Staff Officers, Quartermaster-General's Department.—The B. I. S. N. Company's Agent forwarding the bill for passage accompanied by the embarkation certificate (which he will obtain direct from the Staff Officer of the district) to the Pay Examiner, Fort St. George.

2. Expenses on account of boat hire for embarking and disembarking must be defrayed by the officer himself.

3. *Passages for families and details not requiring special arrangements to be made for them* to be obtained direct by the District Staff Officer, Quartermaster-General's Department, without the intervention of the Port Officer; the bills to be forwarded for payment and adjustment as in the case of single passages.

4. Bills on account of boat hire expenses in connection with embarkation and disembarkation should be made out by the Port Department and countersigned by the District Staff Officer. An advance for the amount can then be taken up in the usual way from the nearest Civil Treasury, the bills with all sub-vouchers being at once forwarded by the District Staff Officer to the Pay Examiner, Fort St. George.

(a) At Madras payment will be made by the Presidency Paymaster.

5. *Special accommodation*.—When special accommodation is required, as for instance, in the case of large details and regiments, the necessary arrangements will be made through the Port Officer.

(a) The bills for such passages will be forwarded by the steamer Agent supported by the necessary vouchers to the Presidency Port Officer, Madras, who, after auditing the same, will forward the bills to the Pay Examiner, Fort St. George.

(b) The bills on account of boat hire expenses in connection with embarkation and disembarkation will be paid and adjusted as in para. 4 above.

#### II.

Rules for the guidance of Officers in the Civil Department having to engage passages at Madras and at Out-ports.

Passages will be obtained direct from the Agents of the B. I. S. N. Company in the case of gazetted officers and their servants, by the officers themselves, and in the case of non-gazetted officers and establishment, by the immediate Head of the Department, on requisition which should specify—

- (1) Number of passengers.
- (2) Name of passengers (age of children should always be given).
- (3) Port of disembarkation.
- (4) Name of steamer by which passage is required.
- (5) Class of passage, whether with or without diet.

- (6) Nature of the duty on which the officer or individual proceeds.  
 (7) The officer to whom the passage bill should be presented for payment. And such other information as may be required by the Agents.

[N.B.]—Strict attention to these instructions will obviate delay in the payment of the Agents' bills.

2. The Agents of the Company will present for payment the bill or bills for passage provided, to the paying officer named in the requisition, and these bills should be supported by (1) copy of requisition for passage and (2) certificate of embarkation obtained from the officers themselves except only in the case of an inferior servant, in which case a certificate from the officer with whom he travels should be accepted; and when this is not practicable, by a certificate from the Agents themselves or Commanders of vessels that the person or persons for whom passage money is claimed has or have actually embarked.

3. When passage bills are presented for payment to the officers named in the requisition, the paying officer will check the rates charged with reference to the contract rates published in the new agreement with the B. I. S. N. Company where the line of passage is under contract, or if not, with reference to the hand-book or other sources published by the Agents for the guidance of passengers; and when these two latter are not available, admit the bills as they are on the responsibility of the Agents, and, if found correct, pay the bills.

4. The scrutiny of the paying officers over the Agents' bills will extend only so far as the rates of passages are concerned, and they should not therefore delay the payment of the bill when the officers or establishment to whom passage was provided seem to them not to be entitled, under the rules, to the travelling allowance claimed; any such disallowance or recovery on account of table money being recovered from the individuals concerned in their salary or travelling allowance bill as the case may be.

5. Expenses on account of boat hire for embarking and disembarking should be defrayed by the officers themselves and recovered by them on their travelling allowance bill in the usual course.

The arrangements for the communication to the Presidency Port Officer, to the Deputy Port Conservator, Madras, and to the several Coast Port Officers of information respecting the formation, growth and course of cyclonic storms, necessary for their guidance in hoisting the storm signals, are carried out by the Meteorological Reporters at Simla and Calcutta under the general direction of the Meteorological Reporter to the Government of India.

2. The Madras ports included in this storm-warning system are as follows:—

| A.—Ports on the Coromandel Coast. |              |             |            |
|-----------------------------------|--------------|-------------|------------|
| Gopalpur.                         | Vizagapatam. | Madras.     | Negapatam. |
| Calingapatam.                     | Cocanada.    | Cuddalore.  | Pamban.    |
| Bimlipatam.                       | Masulipatam. | Porto Novo. | Tuticorin. |
| B.—Ports on the Malabar Coast.    |              |             |            |
| Cannanore.                        | Mangalore.   | Calicut.    | Kundapur.  |
| Tellicherry.                      | Cochin.      | Bey pore.   |            |

3. The Meteorological Reporter to the Government of Bengal (Calcutta) supplies the information and works the system for those ports classed as belonging to the Coromandel Coast, and the Assistant Meteorological Reporter for India (Simla) for the Malabar Coast ports as defined above. These officers also afford information respecting the first indications of bad weather in the Bay of Bengal and the Indian Ocean to the Presidency Port Officer, to the Deputy Port Conservator and to the Chief Engineer for Irrigation, Madras.

4. As soon as the existence and probable course of a cyclonic storm in the Bay of Bengal or the Indian Ocean has been ascertained by the Meteorological Reporter of Calcutta or Simla, the Deputy Port Conservator, Madras, Port Officers of the ports likely to be affected by the storm, and the Chief Engineer for Irrigation, Madras, will be informed and warned by the Reporter appointed to give such warnings to his port. The warning signal should usually be hoisted immediately after the receipt of this information. The Meteorological Reporter will continue to keep the Deputy Port Conservator, Madras, and Port Officers of the warned ports acquainted with the growth, progress, course and other features of the storm, which will be useful as a guide to these officers in hoisting, when necessary, the danger signal. The danger signal should be hoisted as soon as the Deputy Port Conservator, Madras, or the Port Officer, considers it advisable

to warn the shipping that a cyclone is approaching either the port itself or the coast in the near vicinity. By these arrangements, the Meteorological Reporters will transmit information and warnings direct to the Presidency Port Officer and Deputy Port Conservator at Madras, and the Port Officers of Gopalpur, Bimlipatam, Vizagapatam, Cocanada, Masulipatam, Negapatam, Tuticorin, Mangalore, Cochin, Calicut and Tellicherry. At the remaining ports, viz., Calingapatam, Cuddalore, Porto Novo, Cannanore and Beypore, where the signals will be hoisted by the Port Conservators, the Port Officer under whom they are immediately placed will instruct them by urgent telegram to hoist the warning and danger signals at the same time that they hoist them at their own ports. By this arrangement information respecting bad weather and direction relating to the hoisting of storm signals will be communicated to the—

Port Conservator of Calingapatam—By the Port Officer of Gopalpur.  
Port Conservators of Cuddalore and Porto Novo—By the Port Officer of Negapatam.  
Port Conservator of Beypore—By the Port Officer of Calicut.  
Port Conservator of Cannanore—By the Port Officer of Tellicherry.  
Port Conservator of Kundapur—By the Port Officer of Mangalore.

5. Copies of all telegrams despatched to the Deputy Port Conservator at Madras and to Port Officers relating to the approach of cyclonic storms, will be sent at the same time to the Presidency Port Officer, Madras, in order that he may be kept fully acquainted with the weather information and instructions communicated by the Meteorological Reporters to the Port Officers subordinate to him.

6. The duties of the Meteorological Reporters at Simla and Calcutta are confined solely to furnishing as definite, full, and early information as possible of the character, position, course, probable time of approach, and varying phases of cyclonic storms, to the Port Officers of all ports to which the cyclone will probably cause dangerous weather and a high sea. The responsibility of hoisting and taking down the storm signals rests solely with the Port Officers at coast ports, and at Madras with the Deputy Conservator of the Port. These officers will usually be guided mainly by the information received from the Meteorological Reporter, but if that information be insufficient or be delayed in transmission, or if telegraphic communication be suspended by breaks in the lines, they will then be guided by the indications of the barometer, force of the wind, state of the sea, and general aspect of the weather. The Deputy Conservator of the Port of Madras should also place himself in communication with the Meteorological Reporter to the Government of Madras or the Government Astronomer; both these officers should afford him full information.

7. The storm signals to be exhibited at the ports specified in paragraph 2, above, (with the exception of Porto Novo, Pamban, Tuticorin, Beypore and Kundapur) are those specified in Appendix A.

(a) At Porto Novo, Pamban, Tuticorin, Beypore and Kundapur the storm signals to be exhibited are those specified in Appendix B.

8. The Deputy Port Conservator at Madras and all Port Officers noting the appearance of suspicious weather before the receipt of any telegrams from the Meteorological Reporter in connection (or co-operating) with them, should communicate the information without delay to that officer.

9. The Deputy Port Conservator at Madras and all Port Officers receiving telegrams from the Meteorological Reporters during a storm should send a brief statement, after the cyclone has passed away, of the telegrams received from the reporters and of the exact times when they were delivered by the telegraph officers, &c., in order that the Meteorological department may exercise an effective check over this part of the working of the system and secure the necessary rapidity of telegraphic communication required for the proper working of the system.

## CHAPTER II.—GENERAL ARRANGEMENTS TO BE MADE AT MADRAS ON THE "WARNING," "DANGER" OR "GREAT DANGER" SIGNALS BEING DISPLAYED AT THE YARD OR GAFF OF THE PORT FLAG-STAFF.

1. These signals will be repeated at the Fort flagstaff.

2. All arrangements in connection with the safety of the shipping will be made by the Deputy Port Conservator upon whom solely the responsibility will rest.

3. When either of these storm signals is hoisted at or lowered from the flagstaff, the fact is to be communicated as soon as practicable by the Deputy Conservator of the Port to the undermentioned officials, viz.:—

The Secretary to Government, Marine Department, when in Madras.  
The Private Secretary to His Excellency the Governor, should His Excellency be in Madras.  
The Presidency Port Officer.  
The Secretary, Harbour Trust Board.  
The Commissioner of Police, through the Deputy Commissioner of Police.

Executive Engineer, St. Thomas' Mount.  
The Collector of Chingleput.  
The Chief Supply and Transport Officer and Supply and Transport Storekeeper-General.  
The Assistant Adjutant-General, Madras District, Fort St. George.  
The President, Madras Municipality.  
The Government Telephone Exchange.  
The Superintendent of Telegraphs, Madras Division.  
4. The Government telephone exchange will be kept open day and night whilst the signals are hoisted.  
5. The life-saving apparatus of Port and Pier Traffic Departments will be kept ready for immediate use.  
6. Should the Deputy Port Conservator require any assistance from the following Departments, it will be given at once upon that officer applying for same:—  
Police Boat establishment (on application to the Deputy Commissioner of Police).  
Harbour Engineer and Pier Traffic establishments (on application to Chairman, Harbour Trust Board).  
7. On the "Danger" signal being hoisted, the Commissioner of Police will place at the disposal of the Deputy Port Conservator two mounted orderlies, and keep fifty men available at the beach for duty.

## CHAPTER III.—WRECK ARRANGEMENTS.

1. Should wreck occur, or the Deputy Conservator deem the same imminent, the following signal will be hoisted:—

By day—2 balls vertically. | By night—2 white lights vertically.

2. Should the Deputy Port Conservator consider that there will be danger to life, he will inform the following officers and departments:—

The Port Surgeon. | The Ordnance Department.  
The Resident Surgeon, General Hospital. | The Supply and Transport Department.

3. Upon receipt of this information the Port Surgeon, taking with him a portion of his establishment and medicines and surgical appliances, will immediately proceed to the scene of wreck and render all assistance possible.

4. The Resident Surgeon, General Hospital, will make preparations to receive sick and wounded. The Ordnance Department will comply with any requisitions from the Deputy Port Conservator to provide tents for ship-wrecked people and men to pitch them.

5. The Supply and Transport Department will be prepared to comply with any requisitions from the Deputy Port Conservator to supply trollies, dandies, blankets, towels, brandy, water and other medical comforts, &c., and send a sufficient number of men to look after the trollies and to carry the dandies.

6. In the event of a working party being required from the troops in garrison they will be supplied by the Assistant Adjutant-General, Madras, upon application from the Deputy Port Conservator.

## POLICE DEPARTMENT.

7. On the Inspector of Marine Police seeing the wreck signal, or being informed by the Deputy Conservator of the Port of imminent danger of wrecks occurring, he will promptly send intelligence to the Deputy Commissioner of Police, who will immediately increase that division to such an extent as may be practicable at the time.

8. The entire Police force, pending the arrival of the Commissioner, will be under the Deputy Commissioner, who will consult the Deputy Conservator of the Port on the spot as to where the services of his men are likely to be emergently required, and will issue whatever detailed orders may be requisite.

9. The Police will be mainly restricted to their own proper duties, i.e., the maintenance of order; protecting personal or other property washed on shore; supervising the conveyance of the shipwrecked crews and passengers to the nearest shelter, and to hospital if necessary; bringing back the hammocks, doolies and sick-carts; guarding or removing the dead, &c. They are not to be employed in hauling ropes or recovering wreckage or cargo, save in emergent circumstances when other labour is not available.

10. The Commissioner of Police will see that duties are so apportioned as to enable the men to be relieved from the reserves as frequently as circumstances may render requisite.

11. All officers and men will be in uniform.

## APPENDIX A.—DAY SIGNALS.

### 1. CAUTIONARY SIGNAL.

#### Bay of Bengal.

The square flag W of the International Code hoisted on the storm signal staff as a cautionary signal indicates the existence of distributed squally weather in the Bay of

Bengal which may be the first stage in the formation of a cyclonic storm, and which, if it develops, is likely to affect that part of the coast on which the port is situated.

The disturbed conditions may pass away without developing into a cyclonic storm, in which case the cautionary signal will be taken down as soon as it is certain that stormy weather will not shortly follow. If, however, the disturbed weather be the first indication of the probable formation or approach of a cyclonic storm, the cautionary signal will be followed by one of the ordinary storm signals indicating the probable position, character and track of the approaching storm.

#### Arabian Sea.

The square flag W. of the International Code hoisted on the storm signal staff as a cautionary signal indicates the existence of disturbed weather off some parts of the West Coast of India in the neighbourhood of the port or ports at which the signal is hoisted, or the advance of a cyclonic storm across the Peninsula from the Bay of Bengal which may hence shortly cross the Western Ghats and give squally or stormy weather in the Arabian Sea.

The distributed conditions may in either case pass away without giving stormy cyclonic weather to the West Coast ports or to the adjacent parts of the Arabian Sea, in which case the cautionary signal will be taken down as soon as it is certain that stormy weather will not shortly follow. If, however, the disturbed weather be the first indication of the probable formation or approach of a cyclonic storm, this cautionary signal will be followed by one of the ordinary storm signals indicating the probable position, character and track of the approaching storm.

#### 2. WARNING SIGNAL.

A ball indicates that a cyclonic storm has formed, which will probably advance to that part of the coast on which the port is situated, but is still at a considerable distance from it. The same signal will also be hoisted at the larger and more important ports on the West Coast of India to indicate that a storm has formed in the Arabian Sea at some distance from the coast and will shortly cross one or other of the tracks of vessels leaving these ports, but is not likely to give the ports bad weather. The Port Officers, when instructed to hoist the warning signal, will also be informed of the object of the signal so as to communicate its full purport to masters of vessels about to leave the port.

#### 3. DANGER SIGNALS.

(1) A cone apex downwards indicates that a cyclonic storm (probably of slight to moderate intensity) is affecting the port and that its centre will probably cross the coast considerably to the south of the port.

(2) A cone apex upwards indicates that a cyclonic storm (probably of slight to moderate intensity) is affecting the port, and that its centre will probably cross the coast considerably to the north of the port.

(3) A drum indicates that a cyclonic storm (probably of slight to moderate intensity) is affecting the port and that its centre will probably cross the coast over or near to the port.

In order to indicate that a cyclonic storm in the sea area near a port is of great intensity, a ball is added to (and placed underneath) the corresponding danger signal.

#### 4. GREAT DANGER SIGNALS.

(1) A cone apex downwards and ball below indicate that a cyclonic storm of great intensity is affecting the port and that its centre will probably cross the coast considerably to the south of the port.

(2) A cone apex upwards and ball below indicate that a cyclonic storm of great intensity is affecting the port and that its centre will probably cross the coast considerably to the north of the port.

(3) A drum with a ball below indicates that a cyclonic storm of great intensity is affecting the port and that its centre will probably cross the coast over or near to the port.

#### NIGHT SIGNALS.

##### 1. CAUTIONARY SIGNAL.

##### 2. WARNING SIGNAL.

A red light (corresponding to day warning signal) indicates that a cyclonic storm has formed, which will probably advance to that part of the coast on which the port is situated, but is still at a considerable distance from it.

#### 3. DANGER SIGNALS.

(1) A red light vertically above a white light corresponds to day signal No. 1 and indicates that a cyclonic storm (probably of slight to moderate intensity) is affecting the port and that its centre will probably cross the coast considerably to the south of the port.

(2) A red light vertically below a white light corresponds to day signal No. 2 and indicates that a cyclonic storm (probably of slight to moderate intensity) is affecting the port, and that its centre will probably cross the coast considerably to the north of the port.

(3) Two red lights in a vertical line correspond to day signal No. 3 and indicate that a cyclonic storm (probably of slight to moderate intensity) is affecting the port and that its centre will probably cross the coast over or near to the port.

#### 4. GREAT DANGER SIGNALS.

(1) Two red lights with a white light below arranged in a vertical line correspond to day great danger signal No. 1 and indicate that a cyclonic storm of great intensity is affecting the port and that its centre will probably cross the coast considerably to the south of the port.

(2) Two red lights with a white light above in a vertical line correspond to day great danger signal No. 2 and indicate that a cyclonic storm of great intensity is affecting the port and that its centre will probably cross the coast considerably to the north of the port.

(3) Three red lights in a vertical line correspond to day great danger signal No. 3 and indicate that a cyclonic storm of great intensity is affecting the port and that its centre will probably cross the coast over or near to the port.

#### APPENDIX B.—DAY SIGNALS.

##### 1. WARNING SIGNAL.

A ball indicates that a cyclonic storm has formed, which will probably advance to that part of the coast on which the port is situated, but is still at a considerable distance from it.

##### 2. DANGER SIGNAL.

A drum indicates that a cyclonic storm (probably of slight to moderate intensity) is affecting the port and that its centre will probably cross the coast over or near to the port.

##### 3. GREAT DANGER SIGNAL.

A drum with a ball below indicates that a cyclonic storm of great intensity is affecting the port and that its centre will probably cross the coast over or near to the port.

#### NIGHT SIGNALS.

##### 1. WARNING SIGNAL.

A red light (corresponding to day warning signal) indicates that a cyclonic storm has formed, which will probably advance to that part of the coast on which the port is situated, but is still at a considerable distance from it.

##### 2. DANGER SIGNAL.

Two red lights in a vertical line correspond to day signal No. 2 and indicate that a cyclonic storm (probably of slight to moderate intensity) is affecting the port and that its centre will probably cross the coast over or near to the port.

##### 3. GREAT DANGER SIGNAL.

Three red lights in a vertical line correspond to day great danger signal No. 3 and indicate that a cyclonic storm of great intensity is affecting the port and that its centre will probably cross the coast over or near to the port.

#### A Compendium of the Law of Storms prepared for the Bay of Bengal.

The cyclone in all its various forms, and in all portions of the globe subject to its visitation, must be denominated the most fearful and the most frequent enemy which the mariner's perilous calling obliges him to encounter. But for this obstacle the Bay of Bengal would be very easy of navigation, for the very large amount of evidence brought to bear upon the subject goes far to prove that in this sea all violent storms are of a cyclonic nature, and move from eastward and westward. They are great revolving storms varying in expanse from forty or fifty to some hundreds of miles, blowing round and round

a centre or vortex, but with an ever-varying force, now lulling into a strong breeze, and again swelling up into a blast of uncontrollable fury. The peculiar characteristic of their revolving action is that in northern hemisphere the gyration takes place by north towards the west, or contrary to the hands of a watch; and in southern hemisphere its motion is the other way, or with the hands of a watch. The knowledge of this law not only supplies the seamen with direct means of distinguishing them from common gales, but reveals to him the position of his vessel with respect to the vortex, and points out the way to escape from it. The following remarks and examples, though intended for the Bay of Bengal and Andaman sea, will apply also to the open parts of the Arabian sea. These storms take their rise a few degrees of latitude north of the equator, and at the periods of greatest atmospheric disturbance, owing to the changes of monsoons. About April and May, and October and November, though these dates are only approximate, and unusual weather at any time may be attributed to their neighbourhood, and suspected accordingly, they are accompanied with threatening aspect of the sky, together with greasy halos round the sun and moon: rolled and tufted forms of clouds, with lurid streams of light and extraordinary colors; a heavy bank of clouds forming an arch in the direction of the storm, varying currents of clouds in motion above, and dark banks on the horizon below, with darting forks and threads of pale lightning, lurid redness at sunrise and sunset; peculiar moaning in the winds, the frequent presence of weary land birds and insects; and last and best warning of all to those who possess it, the decline of that invaluable monitor, the barometer, doubly valuable here, because its usual state is one of almost perfect tranquility, broken only by a daily tide rising and falling about one-tenth of an inch, highest at 10 A.M. and P.M., and lowest at 4 A.M. and P.M.; whenever this action is suspended or interrupted, bad weather is never far off. The surface of the sea also exhibits signs of disquietude, becoming confused and uneasy, and crossed frequently by long swells from other than the quarter of the prevailing wind. Whenever any or all of these warnings are met with, the mariner should at once consider the almost certainty that exists of having to encounter a storm of the revolving nature we are treating of. His first duty is to find the centre of vortex, and its bearing from the ship. To do this he should note the direction of the wind, and with his face to it, tell off eight points to the right, if in the open sea, which we will first consider thus—with wind at N. the centre is E., with wind E. centre S., wind S. centre W., wind W. centre N., and so with intermediate points—Wind N. E. storm S. E., wind S. E. storm S. W., wind S. W. storm N. W., wind S. W. storm N. E., &c.; when near land or in roadsteads, these bearings require modifying, as will be explained hereafter. Having determined the direction of the storm, the next consideration is his position with regard to it. All experience tends to show that they commence to southward between southward and eastward and cross the Bay in a curve, sometimes sharp, sometimes very extended nearly N. and S., but an average track of from S. E. to N. W. will suit the purpose of illustration. The continuation of the voyage, and the direct course of the ship ceases at this period to be a primary object. All knowledge and seamanship should be directed to avoiding this enemy, and the saving of life and property. The accompanying diagrams will show better than any verbal description both the nature of the evil and the remedy to be adopted. The outside circle represents the shape of the storm; the arrows and letters the direction of the wind; the small circle the centre; the dotted lines the path on which the storm is advancing; the compass points are also indicated.—See Figure 1.

In this diagram all the ships are shown having the wind on starboard quarter so that if the storm was stationary, scudding in that position would always ensure safety. It does in fact do so in all cases, except with the wind easterly, when great care and judgment are requisite, and the value of preliminary observations becomes apparent, the direction of the storm, whether northward or westward of the average track, being of vital importance.

A careful study of books of reference and of logs and facts drawn from extended experience justifying the conclusion that the best course with the wind at E. or to the north of east is to run to the N. W., changing your course as the wind veers to the northward, keeping it on the starboard quarter until it reaches N. W., when if bound to the N. E. you can bring it right aft and sail round the storm until your course is reached, or continue your track if bound to southward; much depends, however, upon the direction of the storm as indicated by phenomena, and the veerings of the wind if any have taken place.—See Figure 2.

With the wind from E. to E. S. E., carry on as long as possible to N. N. E., N. E., making all possible easting, then heave to on starboard tack. With wind at S. E. to S. if bound to southward or westward, you will be standing straight into danger, make easting until weather improves, then lie to on starboard tack. With wind from S. round to N. W., you must be behind the storm, and should have no difficulty in keeping clear of it. In fact the only risk with common management and tacking in time is wind from E. N. E. to S. E.—See Figure 3.

When it suits best to heave to choose the port tack on the west side of the storm, and the starboard on the east side, for the wind in each will shift by the stern.

The foregoing remarks apply to the open seas, if Bengal and Arabia, and the ships are supposed to have sea room. They comprise all that need be said to advise and encourage the mariner. But on the coasts of Coromandel and Orissa and Ceylon, when the storm approaches the land, a modification of its form takes place, to which it is necessary to draw attention. The bad weather always commences a point or so on either side of

north, although the centre may be E. S. E., or even S. S. E. There seems also to be a retardation of the speed of the southern half, as if it was marking time, until the outer half wheeled round before the whole flings itself on the land. This proceeding allows the careful navigator time to run to the southward, and having secured a position of safety, return behind the storm to his anchorage, taking care not to overtake it. The shape of the land also favors this manœuvre, for even in Madras itself a run of a few hours to the southward gives room to let the ship off to the westward, or run down to Pondicherry. Standing out into the offing is merely exchanging one danger for another, and is directly opposed to the law of storms. Run at the earliest intimation of danger, without giving a thought to the distance it may take you from your port. Wind and current will hurry you down, and when on the safe side wind and current will bring you back before the state of the sea and surf allow business to be re-conducted. You are losing nothing, and knowing that you are following the advice given with all the advantages of scientific knowledge, of experience, of the study of example and practice, and the aid of the best instruments and the Electric Telegraph, you can dismiss from your mind the great care of forming a judgment in such critical period, and given all attention to the ship, knowing that your conduct will meet with approval.

Pages might be filled of successful instances of this treatment, and the disaster following any other courses, but space will not permit, and it is requested to accept the facts as they stand, reserving the study to some leisure moments.

When compelled to lie in severe weather, when shifts of wind are dangerous, it would be well to keep ready a large stone anchor, like Chinese, stone being selected for cheapness, and the materials of a catamaran, which being put overboard with say twenty fathoms of cable will make a secure buoy, at which the ship may ride with her strong bows to wind and sea, and extra stays to her mast, the rudder being secured in midships, which is always one of the first things to suffer when used to keep the ship's head up. Then with hatchways well secured, the screw sheltered, and only the state of the well requiring attention, a vessel will stand a great deal; and from the moment the first change you have been taught to expect occurs, a spirit of confidence will replace the doubt and despondence which add additional terror to the disturbance around. It is, however, very advisable not to navigate if possible during the bad-weather months. Any injury to a vessel will cause much greater detention, and involve direct expense, and no shipowner of common humanity or honesty will send a vessel to unload entirely or render herself so unseaworthy that the advent of one of these storms to be expected at any moment must ensure destruction to property and grievous loss of life.

Acting Master Attendant, Administrative Department.

### THE MADRAS LIGHT-HOUSE.

On July 25th, 1893, the new Light-house was formally handed over by the Public Works Department to the Port Office. Captain H. A. Street, the Acting Presidency Port Officer, went over the building and inspected all arrangements, after which the formal transfer of control was made. The Light-house is located on the main tower of the High Court. The optical apparatus is a 3rd order, double-flashing, 8-sided apparatus of 80° verticle angle with a 4-wick, new pattern, Douglass burner in the focus. The focal plane is about 166 feet above high water level and the corresponding geographical range, assuming a co-efficient of refraction of 0.03 and that the observer's eye is 15 feet above water level is about 19 miles; the luminous range should be 19 marine miles. The following gives the official particulars of this light:—

## THE MADRAS HARBOUR WORKS.

This important undertaking was sanctioned by the Secretary of State for India in March 1875, chiefly through the warm support accorded by Lord Hobart, then Governor of Madras.

The Works were designed by William Parkes, Esq., M. INST. C.E., a well-known Harbour Engineer, who had designed the Manora Breakwater at Kurrachee which was completed in 1874.

The Madras Harbour was commenced in June 1875, under the superintendence of the late James May, Esq., M. INST. C.E., who, like Mr. Parkes, had been an assistant and colleague to the late James Walker, Esq., M. INST. C.E., an eminent Harbour Engineer much employed by Government in the design and construction of Harbours on the British coasts.

On the 15th December 1875, a memorial stone of the commencement of the Works was laid on the east side of the Beach Road, opposite the old High Court, by H. R. H. the Prince of Wales (now King Edward VII.), on the occasion of his visit to this Presidency.

In January 1876, the root of the North Pier was commenced and in December of the same year the first concrete block was laid.

The greater part of the year 1876 was occupied in constructing the block grounds, in preparing and erecting the stationary engines, cranes, machinery and locomotive engines for the construction and carriage of the concrete blocks. The machinery is capable of turning out sixteen concrete blocks of twenty-seven tons weight each per day. Unhappily in May 1876, Mr. May, the Superintendent, died, having succumbed to the effects of the climate.

In March 1877, the South Pier was commenced with stone brought from Pallavaram on the South Indian Railway which had lately been opened, and which was extended to the beach by the Harbour Works authorities. The elbow of the North Pier was reached in October 1879, and the same position in the South Pier was gained by June 1880.

At the end of the fair season of 1881 the two breakwaters were nearly finished, forming an artificial enclosed harbour with an opening at the entrance in the centre of 550 feet, as designed. From the Road Beach each breakwater extends nearly a mile. Taking the two breakwaters, and excluding the roots, or surf banks, as they have been called, they measure together one and-a-half mile.

On 12th November 1881, a cyclone occurred, and wrecked the eastern walls from the elbows to the entrance at both piers, but did not affect seriously the other portions. The sum of the damage amounted to half a mile of breakwater breached and otherwise damaged, two Titan cranes overthrown and destroyed, a mile and-a-half of single line of railway destroyed, and the steam barges, "Salisbury" and "Hobart," foundered, several lives being lost, besides a quantity of minor damage, such as the loss of small boats, injury to the platform, piles and bracing of the iron Pier, &c. Mr. Parkes, the Engineer-in-Chief, visited Madras shortly afterwards, and, after a careful examination, submitted his report to Government on the state of the Works with his recommendations for the re-construction of the damaged portions. The Secretary of State for India referred the question to a Committee formed of the two well-known Harbour Engineers, Sir John Hawkshaw and Sir John Coode, and Professor Stokes. The work of re-construction on the amended design was commenced in July 1884. In July the first new Titan crane arrived, and before the end of November 1885, two more heavy cranes reached the Works, one being completely erected.

The Harbour was vested in Trustees by Act II of 1886, and on the 9th May 1896 the Board's Engineer reported that the artificial Harbour had been completed according to the sanctioned design, and within the sanctioned estimate, which however has been of a somewhat elastic character, through circumstances beyond the Board's control.

#### Madras Screw Pile Pier.

This important work was completed by Mr. Frederick Johnson, Civil Engineer, of North Street, Westminster, London, pursuant to the terms of a contract entered into between the Council of India and himself, under date the 9th November 1858.

The dimensions of the structure are as follow:—

Extreme length from high-water mark, 1,000 feet.

Breadth throughout, 40 feet. Besides its main body, the pier has cross or T-shaped head, 160 feet long by 40 broad. The work is constructed of Mitchell's patent screw piles, of solid wrought-iron, respectively 6 inches and 8 inches in diameter, placed in rows of four abreast, and at distances of 10 feet between the centre of each row.

These piles are screwed down into the sand to the depths undermentioned, that is to say, the first 25 rows, 11 feet; the second 25 rows, 13 feet; and all the remainder, 15 feet. The whole structure is securely tied together by transverse T-braces of wrought-iron, and formerly also by longitudinal tension rods of the same material, but these have since been removed, being considered unnecessary since the Harbour Works have afforded protection.

Originally the platform was composed of beams of creosoted Baltic timber covered with teak planks, six inches broad by four inches thick, with spaces between the planks. This has now been replaced by beams of teak decked with teak plank three inches thick, placed close together.

Four lines of railway are laid down along the main pier, with the necessary turntables, &c.

The pier head is furnished with 5 fixed cranes varying in their lifting power from three to twenty tons, 2 forty cwt. steam cranes and 13 thirty cwt. hand cranes are placed on the railways traversing from point to point as necessity arises.

The total cost of the Works, as agreed on in Mr. Johnson's original contract, was £103,616, but a second contract was subsequently entered into for the extension of the structure shoreward, a length of 80 feet, at an extra charge of £4,332.

The pier was damaged in the cyclone on 2nd May 1872 by a native vessel drifting through it, in the same place as was damaged on a former occasion by the *St. Bernard*.

In 1887 a considerable portion of the superstructure of the pier at the shore end was removed, and an earthwork embankment substituted to allow of the pier lines being connected with the Madras and South India railways and to give access to the South-arm, where 2 fixed cranes of five and ten tons lifting power, and 6 forty cwt. travelling cranes have been provided by the Harbour Trust Board, for loading and unloading heavy material, machinery, &c. Four commodious goods sheds have also been provided by the Board, at the shore end of the pier, for the use of importers and exporters of goods; and Doty lamps have been provided to give light when working cargo after dark.

Two carriages for conveyance of passengers up or down the pier are available at any time on applying to the Traffic Manager at the shore end of the pier. No charge is made for the use of the carriages.

#### Lost Notes, obtainment of duplicates.

RESOLUTION—By the Government of India, Department of Finance and Commerce, Fort William, the 11th January 1882, No. 59.

Read the undermentioned papers relating to the issue of duplicates of Government Promissory Notes alleged to have been lost or destroyed:—

#### For the second time—

Proceedings in the Financial Department for the month of September 1873, Accounts Nos. 6—12, deciding that, as a general rule, duplicate notes should not be issued till after ten years from the last correct advertisement of loss and then only under direct orders received from the Government of India.

Proceedings in the Financial Department for October 1878, Nos. 772 and 773, authorising the Comptroller-General to issue duplicates under the rules, taking orders of Government only in exceptional cases.

#### For the first time—

Letter from Comptroller-General, No. 733, dated the 23rd April 1880.

| " from | " | 2468,  | " | 27th Aug. | " |
| " from | " | 4478D, | " | 9th Sept. | " |

OBSERVATIONS.—By existing practice, when the applicant for a duplicate note has given evidence of the loss of the original, and has established, by strong *prima facie* evidence, his title to the note, and has taken the prescribed measures preliminary to the application, a duplicate is issued after the lapse of ten years from the date of the last correct advertisement of the loss on a bond being executed by the claimant and two sureties, indemnifying Government against loss. Meanwhile, interest is allowed to be drawn also under a bond of indemnity.

2. It is found that, as the law at present stands, these measures do not give the Government sufficient protection from loss, as the period of limitation against the possible holder of the original note runs only from the date on which the note becomes payable; and the date may be many years after the bond of indemnity under which the duplicates have been issued has ceased to be of any practical value.

RESOLUTION.—To protect the State from such double liability, the Governor-General in Council has resolved to modify the procedure as follows:—

- (1) Every claim to the issue of a duplicate note, in lieu of one alleged to be lost will be submitted by the Public Debt Office to be provisionally decided by the Comptroller-General after at least two years have elapsed from the date of the last correct advertisement.
- (2) If there appears to be no objection to the issue of a duplicate note to the claimant, the Comptroller-General will record his opinion to that effect, and will direct that interest upon the note be paid to the claimant after execution of a bond of indemnity with two sufficient sureties.
- (3) If the note is payable after notice given in the Gazette, the Comptroller-General will give that notice, and will (unless any reason to the contrary appears) issue a duplicate note, on indemnity bond as above, six years after the date of payment fixed in such notice.
- (4) But if the note is of a loan of which such notice of payment cannot immediately be given, then no further steps can be taken, until notice of payment can be given in accordance with the terms of the loan.
- (5) The Comptroller-General will publish these notices twice a year, about January and again about July, and will to each such notice append a list showing the numbers of notes already within the last six years advertised for payment under this Resolution.

(6) These orders will apply to all notes on which, under existing rules, interest has been ordered to be paid, but on which duplicates have not yet been issued.

(7) No lost note of a loan which has been ordered for discharge may be paid until a duplicate note has been issued under the above procedure.

These orders do not apply to stock certificates payable to bearer, of which duplicates may not be issued without special orders of Government in each case.

(Signed) T. C. HOPE, Secy. to the Govt. of India.

#### SURVEY REPORTS AND ARBITRATION AWARDS.

(As revised in 1895.)

Whereas it has been represented to the Madras Chamber of Commerce that it is desirable to give Survey Reports and Arbitration Awards on Piece-goods and Yarns of an official character, the following Rules (in which the word "Arbitrator" includes "Surveyor") have been passed by the Chamber for the attainment of that end:—

Rule I.—Certain gentlemen, who have been nominated and unanimously elected by ballot by the Committee of the Chamber, shall be appointed Arbitrators to the said Chamber of Commerce; but the Chamber reserves the right of cancelling the first and all future appointments by a majority of votes of the Committee of the Chamber by ballot.

Rule II.—References to the Chamber may be made—

- (1) if both parties to a contract state their willingness in writing to abide by the decision of the Arbitrator selected by the Committee or Secretary from the above list, or subsequent additions thereto;
- (2) if one of the parties to a contract state in writing that one of the conditions of the contract in dispute be that a reference lies by him to the Chamber of Commerce.

Rule III.—No Arbitrator shall adjudicate in a matter in which he or his employers are interested, and no two Arbitrators connected with the same firm shall be selected to settle any dispute.

Rule IV.—The Secretary shall select the Arbitrators in rotation from the authorised list, subject to the provisions of Rule III.

Rule V.—One or more Arbitrators shall be appointed for the settlement of each matter under reference, according to the wishes of the person or persons referring the question to the Chamber. In the event of no special number of Arbitrators being agreed to, one only shall be appointed.

Rule VI.—The names of Arbitrators shall not be made known to any person whatever, except as provided in Rule XIX, but the Secretary's record of names of Arbitrators shall be available for inspection by the Chairman of the Chamber of Commerce, or, in his absence from Madras, by the Vice-Chairman.

Rule VII.—The approved list of Arbitrators under these Rules shall be circulated annually, or whenever asked for, to all Members of the Chamber, and shall be supplied to any party applying for the same.

Rule VIII.—Before any Arbitration shall be entertained a deposit of Rs. 16 for each Arbitrator, and Rs. 16 for an Umpire (in case the number of Arbitrators asked for be an even number), and Rs. 16 for the Chamber of Commerce for each contract, together with the value of stamp under Act I of the Indian Stamp Act, 1879, required on the award, shall be made with the Secretary. Fees not expended will be returned to the depositor.

In cases where neither of the parties to the application shall be subscribing Members of the Chamber of Commerce, the fees payable shall be double those mentioned in the preceding part of this Rule, and the said enhanced fees shall be divided equally between the Arbitrators and Umpire of the one part, and the Chamber of Commerce of the other part.

Rule IX.—As soon as possible after applying for arbitration under the Chamber's Rules, each of the parties shall submit in writing a statement of the matter in dispute; the original of such statement shall be signed, but for the use of the Arbitrators the parties shall submit an unsigned copy of their statements.

A joint statement may be signed and sent in, but with an unsigned copy thereof.

The original contract, or an attested copy, must accompany every reference, and the Secretary shall make the necessary extracts therefrom for the use of the Arbitrator. The number of packages in dispute, with the names of the ships and bale marks and numbers, should also be stated; but the Secretary will omit the marks when passing on the information to the Arbitrator.

Rule X.—At the time appointed by the Secretary the parties will have ready at the rooms of the Chamber of Commerce, or elsewhere as directed by the Secretary, the sale samples duly attested, and if required, sample pieces, or complete bales. Goods, or samples thereof so sent, will be at sender's risk, and should be accompanied by a peon in charge.

When it is necessary to open original packages a cooper must be in attendance.

Rule XI.—In the event of the Arbitrators not being able to come to a decision by a majority of votes, the Secretary shall request the next Arbitrator on the list to act as Umpire to decide the matter, and his decision shall be final, and need not necessarily agree with that of either of the Arbitrators.

Rule XII.—Arbitrators and Umpires shall have the right to call for such evidence as they may deem necessary, but shall not have the right to take the opinion or assistance of Attorneys or Counsel.

Rule XIII.—Arbitrators and Umpires shall, as far as possible, support their awards by a statement of the reasons upon which the same may be founded.

Rule XIV.—If the seller shall have offered an allowance equal to, or more than the allowance granted by the arbitration, then the whole cost of the survey or arbitration shall fall on the buyer. If the buyer have offered to accept an allowance equal to or less than the allowance decided by the arbitration, then the whole cost of the survey or arbitration shall fall upon the seller. If the Arbitrator awards no allowance the whole cost of the arbitration shall fall on the buyer. In all other cases the award shall state which of the parties to the arbitration is liable for the payment of the arbitration fees.

Rule XV.—All decisions shall be submitted in writing to the Secretary, who shall then, without disclosing the names of the Arbitrators, communicate the result to the parties concerned.

Rule XVI.—A record of all arbitrations shall be kept in the office of the Chamber of Commerce, and shall be open at all times to the inspection of Members of the Chamber; but such record shall not disclose the names of the parties concerned in such arbitrations.

Rule XVII.—Both the parties to an arbitration shall on application be entitled to receive from the Secretary of the Chamber of Commerce a certified copy of the award under his signature. For each copy of such certificate a fee of Rs. 3-8 shall be payable to the Chamber of Commerce.

Rule XVIII.—The insertion of a clause is recommended in all contracts made with dealers to the effect that in the event of any dispute the parties to the contract agree to abide by the decision of an Arbitrator, or Arbitrators, appointed by the Chamber of Commerce under its Rules for Survey Reports and Arbitration Awards; but it is decided that the insertion of such clause is optional, and that Members of the Chamber are in no way bound to submit disputes to arbitration under these Rules in the absence of such clause in their agreements with dealers.

Rule XIX.—Should parties to an arbitration require the attendance of the Arbitrator in a suit pending in the Law Courts in which an award of the Chamber is to be produced in evidence, the Secretary is authorised to give the name of such Arbitrator upon receipt of a requisition by either party stating that it is for that purpose only that the information is desired.

## REUTER'S TELEGRAM COMPANY (LIMITED).

## PRIVATE TELEGRAM SERVICE

TO

GREAT BRITAIN, CONTINENT OF EUROPE, UNITED STATES OF AMERICA, AUSTRALASIA AND SOUTH AFRICA.

The Company registers *free of charge* the names and addresses of senders and receivers under a Code word, to be selected by the Company, which can be used, both Outwards and Homewards after the arrival of the mail by which the registration is effected.

Both parties are duly notified when the Cypher is available and full instructions how to use it accompany the notice.

The Cypher addresses registered with the Company are only available for the transmission of telegrams through its Agencies, and messages intended to be sent under such Cypher addresses must be delivered at or sent to the Company's offices for despatch.

Every telegram transmitted through the Company's Agency is delivered to the receiver with the full name and address of the sender, if registered, and the date on which it was despatched. To receivers in the mofussil a copy of the telegram wired from the Agency is transmitted by post.

Any change in address should be at once notified to the Company to ensure prompt and correct delivery of telegrams.

Enquiries respecting any telegram received through the Company, if not intelligible to the receiver, should be made at once of the Company's Manager. The Company does not hold itself in any way responsible for any charges or expenses incurred by the independent action of senders or receivers.

Passengers homeward may, if desired, have their arrival announced by telegraph to their friends in India at a cost of five rupees only. Particulars on application to the Manager in Madras.

All telegrams, correspondence, &c., should be addressed to, and cheques, remittances, &c., be made payable to the Manager, Madras, from whom any further information that may be desired can be obtained.

Tariffs, telegram forms, &c., are supplied *gratis* on application, and senders are requested to use the Company's form only.

#### ADVANTAGES TO SENDERS.

The advantages offered to senders of private telegrams through the Agency are:—

*Free Registration*—Whereby the full addresses of both sender and receiver are telegraphed in one word only.

*Use of Private Code*.—Telegrams in plain language can be forwarded in the Company's Code at a considerable saving of expense. A new and complete Code has been compiled especially to meet the requirements of private senders on social and business matters, thus affording facilities for cheap telegraphing which have not hitherto been accessible to the public.

Telegrams so coded will, in all cases, be translated before delivery to the receiver, to whom a copy in plain language only will be handed.

The Codes being the private property of the Company are not for sale.

RESIDENT SENDERS can obtain every assistance in coding their messages at the Company's office.

MORUSSIL SENDERS can forward their telegrams in plain language, writing the words "Code and despatch" immediately before the address or registered Code word of the receiver. The Company's Manager will then code the text as economically as possible, adhering to the wording employed by the sender.

*Remittances*—Remittances by mail or telegraph are now undertaken to all parts of the world at very favourable rates. Particulars on application to Manager.

#### INSTRUCTIONS TO SENDERS.

ALL CHARGES ARE PAYABLE IN ADVANCE, and the Company does not undertake to forward any telegram that is unpaid or insufficiently paid. Undercharges are recoverable from the sender.

Christian College Buildings,  
Madras.

Passengers can now book from Bombay to Marseilles direct, and after calling at Marseilles, the steamers generally continue their voyage to London, calling at Plymouth, and passengers landing at Marseilles are at liberty to send any portion of their baggage on to London in the steamer free of charge.

Passengers wishing to proceed to London via Marseilles can obtain a coupon for the Railway journey before embarkation on payment of Rs. 50, and this amount entitles them to a ticket 1st or 2nd Class according to the class by which they are travelling by steamer.

Second Class steamer passengers wishing to travel First Class by rail can do so on payment of £2 extra at the current exchange.

Passengers who have paid full steamer fares to London and who, on arrival at Marseilles, wish to change their route and proceed overland, can exchange the sea ticket for a rail coupon to London without additional charge.

Passengers who book to Marseilles only can obtain coupons for the rail journey to London from the Company's Agent at the former port at the following rates:—

NOTICE.—To meet with the convenience of passengers from Rangoon, and to avoid detention at Madras on the return journey (owing to the B. I. Steamers, Madras to Rangoon, leaving on Thursday), Return Tickets are now issued from Rangoon, homewards via Madras and Bombay, and Outwards via Bombay and Calcutta at a charge of Rs. 50 in addition to the above rates.

PASSENGERS FOR BRINDISI.—The special steamers "Isis" and "Osiris" leave Port Said for Brindisi in connection with the homeward mail steamers, and passengers wishing to proceed to that Port must tranship at Port Said.

The Company issue a special combined ticket, including rail and sleeping car tickets to London via Brindisi.

On arrival at Brindisi the Company's Agent boards the steamer immediately she comes alongside the quay and gives all information relative to trains, &c.; he is accompanied by the Company's Commissionaire in uniform with red facings, who will aid passengers by interpreting for them, and assist them in passing their baggage through the Customs, and at the Station.

The Customs authorities will not allow deck chairs to be landed unless accompanied by the owners. Passengers are therefore requested to see any chairs they wish to leave are deposited at the Company's Office, where they can be left until re-embarkation, provided they are reclaimed within 12 months.

The special combined tickets mentioned above must in all cases be taken in advance, otherwise the ordinary rail and sleeping car fares will be charged.

The fares to London, payable at the Railway Station, are as follows:—

|                                  | First Class. | Second Class. |
|----------------------------------|--------------|---------------|
| Via Mont Cenis—From Brindisi ... | £12 5 4      | £8 12 3       |
| Via St. Gothard— " ...           | £12 7 2      | £8 13 6       |

The Special Trains have no Second-class Carriages. Passengers of this Class proceed by the ordinary daily train from Brindisi.

The Italian Railway Companies will only issue children's tickets over each line, independently.

P. & O. MARSEILLES EXPRESS.—Arrangements have been completed by which the Sleeping Car Company will run a Special Train composed entirely of Sleeping, Restaurant and Baggage Cars through from Marseilles to Calais for the convenience of passengers holding First Class Railway and Sleeping Car Tickets, who are travelling by the Company's Steamers from Bombay. This Special Train is drawn up at Mole C, where the Company's Steamers are berthed, and passengers holding the above Tickets are therefore enabled to proceed direct from the ship to the train without the delay and trouble necessitated by a journey through the town to the Railway Station.

The fare is £2 15s. in addition to the cost of a First Class Railway Ticket and this amount can be paid at the Bombay Offices and Tickets issued there; it is advisable for passengers deciding to adopt this route to book their requirements beforehand, as the Train is limited to 144 berths, and in the busy Homeward Season the accommodation is sometimes all taken up in advance.

A great convenience has recently been secured for ALL PASSENGERS, whether travelling first or second class by rail, in connection with the registration of baggage, inasmuch as the French Railways have acceded to the request made by the P. & O. Company that they should provide facilities at Mole C for registering baggage of all passengers going through to London (Charing Cross station), whether proceeding by the special train or not, and this will prevent passengers having to encumber themselves with their impedimenta: will enable them to proceed to the Railway station in comfort, and will, moreover, prevent the need for any customs examination at Marseilles in the case of any package so registered.

BAGGAGE, &c.—All baggage is at passenger's risk, unless insured. Insurance can be effected on moderate terms at the Company's Offices.

First Saloon passengers are allowed 3 cwt. of baggage each, free of freight, and Second Saloon passengers half this quantity.

Children above 3 years and under 12 years of age, if accompanied by their parents, half fare.

One infant under 3 years of age (if with the parent) free, but no berth provided. If more than one, the other infants will be charged a quarter fare each.

A Nurse, or maid servant, occupying a berth in a First Saloon with her employer is charged 10s. 100 extra for such accommodation.

The fares entitle a passenger to one berth in a cabin. Passengers wishing to reserve a cabin can do so on payment of half fare for each unoccupied berth.

Passengers purchasing their tickets from the Parser on board will be charged ten per cent. extra.

All payments for wines, baggage, &c., on board the Company's steamers can only be received in sterling.

No berths are considered as engaged unless a deposit of passage-money has been paid on account, and the Company hold themselves at liberty to re-let, without notice, any such berths which may have been provisionally allotted, but not so secured. A deposit of passage-money can be paid to the Company's Agents at Bombay, Calcutta, or Madras.

Passengers not embarking after engaging passage, forfeit the deposit of half the amount of passage-money.

In case, however, of a passenger being unavoidably prevented from availing himself of a passage at the date for which it is taken, transfer of the passage can be effected to a subsequent steamer, on sufficient notice being given, without forfeiture of passage-money.

Any further information required will be furnished on application to Messrs. Arbuthnot and Co., Madras, Agents, P. & O. S. N. Company.

Shalimar and Garden Reach Stations are the goods termini of the B.-N. Railway in Calcutta. Shalimar is situated on the Howrah (or Bombay side) of the River Hooghly, and Garden Reach on the far side of the Hooghly River. These two stations are connected by Steamer Ferries, each steamer being capable of conveying 23 goods wagons across the river at each trip. By this means goods can be booked through to any stations on the Calcutta side of the river, on the Port Trust, Bengal Central, or E. B. S. Railways.

In many parts of the line the scenery is magnificent and a delightful change from the open flat plains seen on other Indian Railways.

The line between Kutni (Junction with the E. I. and I. M. Railways) and Bilaspur runs over the Pendra Ghats, the scenery of which is said to be unparalleled. Pendra is the station for Amarkantak, distant about 15 miles, and is 3,500 feet high, the latter is a very sacred place containing the temple of Amarnath, and being also the source of the Nerbudda River. The Kutni branch line gives direct communication between the Central Provinces and the N.-W. Provinces, and is the shortest route between them.

The Sambalpur branch, a line of 30 miles from Jharsuguda to Sambalpur, is worthy of attention; at the latter place a magnificent view of 15 miles can be obtained of the River Mahanuddy.

The magnificent and world renowned, temples of Juggernath at Puri (the terminus of the Khurda-Puri branch) and the varied and interesting scenery of the great inland sea known as "Lake Chilka," are objects of great interest to travellers passing over the section Khurda Road to Rambha on the E. C. section.

The Parlakimedi Light Railway, 25 miles long, worked by the B.-N. Railway, joint the latter Railway at its Naupada Station.

## LINES UNDER CONSTRUCTION OR OPENED DURING THE YEAR.

### MADRAS RAILWAY GROUP.

#### MADRAS JUNCTION WORKS.

5' 6" Gauge, 1·93 miles, Rs. 19,96,471.

The following works have been rendered necessary in connection with joining up the North-East Line (late East Coast Railway) with the Madras Railway system:—  
(a) An extension from Korukkupet (North-East Line) to Basin road (Madras Railway), Rs. 2,39,080.

(b) A loop line from Washermenpet to Basin Road, Rs. 7,33,563.

(c) A new goods yard at Rayapuram, Rs. 39,11,403.

(d) A new locomotive yard at Washermenpet, Rs. 5,08,704.

(e) Additions to the general offices, Rs. 1,23,984.

(a) A large quantity of earthwork filling has been necessary at Basin Road station, all of which has to be done by train, and good progress has been made. Near the station site a canal bridge and several road bridges are required, and the somewhat difficult foundations of these have been nearly completed.

(b) The loop line is practically ready.

(c) Two goods sheds have been completed and the sidings have been nearly all laid in. Weigh bridges and other appliances have been completed.

(d) The scheme for a new locomotive yard is in abeyance, as there are many disadvantages attached to all the possible sites in the vicinity of Madras. A project for moving the locomotive head-quarters to Arkonam is now under investigation.

(e) Work on the extension of the general offices at Rayapuram has not been commenced. It is possible that the project may be abandoned in favour of a scheme for providing new offices near Central Station.

#### CALICUT-AZHIKKAL EXTENSION.

5' 6" Gauge, 60·74 miles, Rs. 80,40,628.

The first section of this extension from Calicut to Badagara, 29 miles, was opened for traffic on 1st October 1901, and a further section of 15 miles to Tellicherry on 1st May 1902. The opening of the remaining section has been delayed by difficulties encountered at the Chala cutting where, owing to the nature of the soil, large masses of earth were constantly falling in. It was necessary to build massive retaining walls and the work was approaching completion at the end of the year under review. Other works were practically ready. [A further section from Tellicherry to Cannanore was opened on 20th May 1903.]

#### AZHIKKAL-MANGALORE EXTENSION.

5' 6" Gauge, 77·27 miles, Rs. 1,08,62,974.

The construction of this extension as a State Railway by the agency of the Madras Railway Company has been sanctioned. The final location survey has been carried out, land plans have been prepared, and detailed designs and estimates are under preparation. A few miles of earthwork have been commenced.

#### TIRUPATTUR-KRISHNAGIRI BRANCH.

2' 6" Gauge, 26·46 miles, Rs. 8,83,271.

This line was put forward by the Madras Government amongst a group of short branches which were considered necessary for famine protective purposes. Funds for its construction have been allotted by the Government of India from Revenue and the work will be carried out by the Madras Railway Company. The propriety of using a special narrow gauge has been much discussed and may be regarded as an experiment that will have to be justified by experience. The final location is approaching completion and land acquisition is about to commence.

#### MORAPPUR-DHARMAPURI BRANCH.

2' 6" Gauge, 18·37 miles, Rs. 7,04,914.

This is a famine protective branch to be constructed out of what used to be known as the Famine Insurance Fund, that it is to say, from the general revenues of India. The final location is on hand and land acquisition will shortly commence.

### SOUTH INDIAN RAILWAY GROUP.

#### PAMBAN BRANCH.

Metre gauge, 69·50 miles, Rs. 63,90,515.

The line was practically completed and opened for traffic on 1st August 1902. A certain amount of work in connection with station buildings, ballasting, etc., remains to be done.

## TRAVANCORE BRANCH.

Metre Gauge, 108.27 miles, Rs. 1,51,75,684.

The Travancore Branch may be considered to be divided naturally into three sections, according to the nature of the country passed through—

|                                    |     |     |     |      |           |
|------------------------------------|-----|-----|-----|------|-----------|
| (a) Tinnevely Bridge to Shenkottah | ... | ... | ... | Mile | 0 to 50   |
| (b) Shenkottah to Ponalur          | ... | ... | ... | "    | 50 to 80  |
| (c) Ponalur to Quilon              | ... | ... | ... | "    | 80 to 108 |

(a) On this section a length of 19 miles from Tinnevely to Kallidaikurichi was opened on 1st June 1902. Rails have been laid on the remainder of the section and work generally has been practically completed with the exception of the engine shed and other locomotive arrangements at Shenkottah which must be ready before the line can be opened. [The section was opened to Shenkottah on 1st August 1903.]

(b) The second or ghat section is through broken hilly country involving a large number of rock cuttings, high banks and viaducts. There are five tunnels, the most important of which, at the Aryankavu summit, will be 2,900 feet long. Headings have been driven for 1,000 feet on the east side and 960 feet on the west and the work of enlarging, lining, etc., is well advanced. It is probable that the tunnel will be approaching completion in January 1904. Great progress has been made with all other works and formation will be practically ready for rails throughout in a few months.

(c) The third section from Ponalur to Quilon is well advanced and rails have been laid. Locomotive and watering arrangements at Ponalur and Quilon are being pushed forward and when these are ready it is proposed to open this isolated section for traffic. A small quantity of rolling-stock for the purpose will be carried round to Quilon by sea.

Of this branch 50 miles are in British territory and will ultimately form part of the South Indian Railway proper, while 58 miles are in the State of Travancore. The State provides the funds for the construction of its own section, the estimated cost of the different sections being, British Rs. 43,31,029, Travancore Rs. 1,08,44,655.

At the close of 1902, the balance of stores account stood at Rs. 18,28,406 against Rs. 2,26,164 at the close of 1901. The receipts and issues during the year were—

## TANJORE DISTRICT BOARD RAILWAY.

## MUTUPET-ARANTANGI EXTENSION.

Metre gauge, 44.86 miles, Rs. 25,23,767.

The Mayavattam-Mutupet Railway was originally the joint property of Government and of the Tanjore District Board, but in 1901 an arrangement was made whereby the District Board was permitted to acquire the sole ownership of the line and to construct an extension to Arantangi. The purchase price of the Government share, Rs. 12,85,000 with interest, is payable in thirty annual instalments beginning from the date on which the extension to Arantangi is opened for traffic. The first length of 17 miles to Pattukkottai was opened on 10th October 1902. On the remaining length work is well advanced, but there are several large rivers and the bridges over them will take some time to finish. It is hoped that the section will be ready before the end of 1903.

The estimate includes provision for the main line as above, Rs. 23,31,425, a salt siding at Thambikottai, Rs. 23,778, a salt siding at Adirampatnam, Rs. 33,616, and a quarry branch at Arantangi, Rs. 1,34,943.

At the close of 1902 the balance of stores account stood at Rs. 3,83,322 against a balance of Rs. 2,39,799 at the close of 1901 showing an increase of Rs. 1,43,523 due chiefly to permanent-way materials. The receipts and issues during the year were—

## SOUTHERN MAHRATTA RAILWAY GROUP.

## BELLARY-KATADRUG BRANCH.

Metre gauge, 33.00 miles, Rs. 8,32,872.

This is one of the branches put forward by the Government of Madras as necessary for famine protective purposes. Funds for its construction have been allotted by the Government of India from the general revenues and work is being carried out through the agency of the Southern Mahratta Railway. The preliminary arrangements were conducted by the Madras Government, but the branch has now been transferred to the Bombay Circle of Control.

## HOSPET-KOTTUR BRANCH.

Metre gauge, 38.10 miles, Rs. 10,37,344.

This is a famine protective branch to be constructed out of funds from the general revenues. Work is being carried out through the agency of the Southern Mahratta Railway. During the investigations for the vast Tungabadra irrigation project, it was found that the proposed lake would submerge several miles of the line as laid out and the alignment has been revised accordingly. The branch has now been transferred to the Bombay Circle of Control.

## LINES SURVEYED OR PROJECTED.

## MADRAS RAILWAY GROUP.

## YERRAGUDIPAD-JAMMALAMADEGU BRANCH.

5' 6" Gauge, 24.05 miles, Rs. 8,92,878.

The project for this line having been considered by the Madras Railway Company, they have intimated that they are unwilling to construct and work it on terms that involve any financial liability, but would require a guarantee sufficient to cover the cost of working. As the prospects of traffic are not very good, the project remains in abeyance for the present.

## SALEM-ATUR BRANCH.

5' 6" Gauge, 38.06 miles, Rs. 21,91,075.

The Madras Railway have intimated their willingness to construct this branch on Calicut-Cannanore terms, but the Government of India are of opinion that it would be better to construct it as a State Railway, and it is hoped that it will before long find a place within the railway programme. The District Board of Salem is prepared to offer some support, but all proposals with regard to branch lines to south of Madras are held over pending a decision as to the alignment of the Indo-Ceylon broad gauge connection.

## PALGHAT OR PODANUR-PALNI BRANCH.

5' 6" Gauge, 52 miles.

This branch has been energetically advocated by the District Board, Coimbatore, and the Board is prepared to offer considerable financial assistance. A survey has been authorised, and the Madras Railway Company have proposed terms for construction and working which are under consideration. They are of opinion that the line should be constructed as a light railway on the 5' 6" gauge. They considered that the junction should be at Palghat, not at Podanur, and point out that the line must ultimately be extended to Dindigul and thence onwards to the Indo-Ceylon connection when made.

## NILGIRI RAILWAY.

## COONNOR-OOTACAMUND EXTENSION.

Metre Gauge, 11.83 miles, Rs. 20,87,073.

A survey was carried out by the Madras Railway in 1901 and a subsequent revision provides for bringing the line in to Ootacamund alongside the Coonoor road to a terminus at Charing Cross. The Nilgiri Railway was purchased by the Secretary of State with effect from 1st January 1903, and proposals for carrying out the extension have been submitted to the Government of India. Suggestions have been made that the whole undertaking including the extension should be worked by electric traction, the current being derived from a water-power station to be established at the junction of the Coonoor and Karteri rivers. It is hoped that a special officer will be appointed to commence the construction of the extension and at the same time to investigate the possibilities and advantages of working the whole railway by electricity.

## SOUTH INDIAN RAILWAY GROUP.

## MARINA LOOP.

Metre Gauge, 8.38 miles, Rs. 14,91,997.

The objects of this loop line from Beach station to Saldapet are to relieve the congestion of traffic on the main line near Madras and at the same time to provide railway facilities for the suburbs of San Thomé, Mylapore and Adyar. The project

involves the construction of the railway along the sands of the foreshore between the sea and the promenade known as the Marina. The proposal having aroused considerable opposition, Government took steps to explain the precise nature of the scheme and to obtain an expression of opinion from various representative public bodies. Having regard to the generally adverse views expressed, it has been decided to withdraw the project altogether.

#### ARANTANGI-AVADAIYAR KOIL EXTENSION.

Metre Gauge, 6.62 miles.

The original project for the extension of the Tanjore District Board Railway beyond Mutupet contemplated the construction of a line as far as Avadaiyarkoil, 51.48 miles. It was, however, decided to construct only as far as Arantangi in the first instance so that the remaining length of 6½ miles is at present in abeyance.

#### TRICHINOPOLY-TIRUKKOYLUR CHORD.

Metre Gauge, 96.75 miles, Rs. 74,43,000.

This line crosses from south to north an area of country roughly about 100 miles square having at its corners the stations of Jalarpet, Cuddalore, Tiruvallur and Erode. It would save about 37 miles on the length of the existing route from Trichinopoly to the north. The area served, though subject to periods of scarcity at long intervals, offers fair prospects of traffic.

#### ERODE-NANTANGODE CONNECTION.

Metre Gauge, 120.75 miles, Rs. 1,23,00,000.

This line is designed to form a connecting link between the South Indian and Southern Mahratta Railways, while a branch from Sityamangalam to Mettupalaiyam would also give a connection with the Nilgiri Railway. It would place Trichinopoly in direct communication with Mysore and would form the shortest route between Bombay and the Nilgiris and Southern India. The estimate of local traffic is small, but it is probable that the construction of the line would be followed by the creation of new traffic not now existing between the large towns which would then be connected by a direct route.

#### VAIGAI VALLEY LIGHT RAILWAYS.

2' 6" Gauge, 93.00 miles, Rs. 23,00,000.

The system is made up of the following portions:—

|                                                                         | MILES. |
|-------------------------------------------------------------------------|--------|
| Ammayanayakkanur to Kotagudi ... ..                                     | 55     |
| Periyakulam to Krishnama Naick's top ... ..                             | 5      |
| Theni to Uttamapalaiyam ... ..                                          | 18     |
| Uttamapalaiyam to Kuruvannur, and on to Madura district frontier ... .. | 15     |
| Total ... ..                                                            | 93     |

A concession to construct these railways has been obtained by Messrs. Wilson & Co., of Madras, the District Board allowing the rails to be laid on the cart-road and granting a subsidy under certain conditions. The agreement to be entered into between Messrs. Wilson & Co. and the District Board is still under negotiation.

#### DINDIGUL-SITYAMANGALAM RAILWAY.

Metre Gauge, 135 miles.

Sityamangalam is a point on the Erode-Nanjangod Line and the present survey was undertaken at the instance of the Government of India as an alternative route for a connection between the South Indian and Southern Mahratta Railways, so as to avoid the inclusion of the section from Trichinopoly to Erode which it was thought might possibly have to be converted to broad gauge. Starting from Dindigul the first part of the present project as far as Palni, would coincide with the alignment of a possible Dindigul-Palghat line. From Palni the line would turn north through Dharapuram, cross the Madras Railway at Tiruppur and so onwards to Sityamangalam, from which point a branch would be laid out to connect with Mettupalaiyam.

#### RAMESWARAM EXTENSION AND CANAL.

Railway, metre gauge, 11.83 miles, Rs. 33,44,014

Canal 3 " " 86,53,353

Total ,, 1,19,97,367

The Pamban Branch of the South Indian Railway at present terminates at Mandapam on the coast. The town of Pamban is situated on the opposite shore of the island of Rameswaram. The distance between the mainland and the island is under two miles and between the two there is a more or less continuous reef of rocks rising to a considerable length above water level. At one point is the channel known as the Pamban Pass which has been improved through a long course of years to make it

suitable for navigation by moderate sized vessels. The island of Rameswaram is at one place only two miles wide and at each end of a line drawn across this narrow part there is deep water suitable for ocean-going steamers.

The original project for the extension comprised a railway across the Pamban Strait running on the reef of rocks and provided with a swing-bridge at the Pamban passage. Having reached the shore of the island it would continue to the south side, where a harbour station would be formed with jetties to enable boats to communicate with vessels lying in the deep water in the vicinity. The cost of the whole scheme was estimated at about Rs. 27,00,000.

When, however, the detailed survey was being carried out, it became evident that the conditions were very suitable for the cutting of a canal about two miles long from sea to sea, and it was found that the configuration of the sea bottom on both sides was such as to give deep water approaches which would require very little work to make them available for vessels of considerable draught. It then suggested itself that instead of providing jetties at the harbour station, it would be far better and cost very little more to excavate a small basin designed so as ultimately to form part of the canal if constructed. This would allow large vessels to come actually alongside.

The Railway, however, approaches from the west of the canal alignment while the great Rameswaram temple, which is visited constantly by thousands of people and forms one of the chief objectives for passenger traffic, is on the east. In order to reach it the railway must be carried across the alignment of the canal and in any case it must be so carried across when it is continued to form the connection with Ceylon which is the ultimate objective of the whole scheme.

It will thus be seen that when the canal is made a swing bridge must be provided to carry the railway over it without obstructing navigation. At the same time the construction of the canal with its greatly increased facilities for navigation would render the retention of the Pamban Pass channel superfluous. Obviously two channels and two swing bridges are not wanted.

It may now be indicated how this point has a bearing on any proposal to spread the execution of the whole project over a long period.

It has been suggested by the Government of India that, looking to final possibilities, the grand scheme will probably develop somewhat along the following lines and that the project should be so divided up as to be capable of being carried out in instalments as below:—

- (1) Extension of the railway to Rameswaram island with fairly good boat access to steamers lying off the shore.
- (2) Construction of a short length of canal which should form a ship basin.
- (3) Completion of a canal across the island.
- (4) Extension of the railway to Ceylon.

From what has been said above it will be evident that there are certain strong objections to dividing up in this way. To carry out instalment (1) alone would involve the construction of a swing bridge across the Pamban Pass at a cost of about Rs. 3 lakhs. When instalment (3) came to be carried out such bridge would be useless, as the canal would become the regular channel for navigation and another bridge would have to be provided over it at a further cost of Rs. 3 lakhs. Again the construction of a short length of canal to serve as a ship basin would involve the provision of expensive dredging plant which would do this small amount of work and then be idle. It is therefore evident that instalment (1) taken alone does not properly lead up to instalment (3), and (2) alone though it leads up to (3) does so in a wasteful and expensive manner. Of course (1), (2) and (3) if taken together do properly lead up to (4).

#### TINNEVELLY-TIRUCHENDUR BRANCH.

2' 6" Gauge, 33 miles.

A survey of this branch, which would run on the south side of the Tambraparni river, is being carried out by the South Indian Railway at the expense of the District Board, Tinnevely. The Board is anxious to construct a cheap district railway and proposes to adopt a gauge of 2' 6", because it believes that a metre gauge line would be beyond its resources. In other cases, however, it has been found that the extra cost of rolling stock and of junction appliances for a special gauge bring up the total cost of an isolated narrow gauge line to as much as that of a metre gauge branch which can be worked by the parent line with its ordinary stock. After the completion of the survey, a comparative estimate will not doubt enable the Board to come to a sound decision on the subject.

#### SOUTHERN MAHRATTA RAILWAY GROUP.

##### BEZWADA-MASULIPATAM EXTENSION.

Metre Gauge, 49.50 miles, Rs. 27,83,406.

The Kistna District Board has for some time been endeavouring to promote the construction of this line by the offer of financial assistance. Certain persons have obtained a concession from the Secretary of State and have endeavoured to form a company to be called the Deccan Branch Railways Company for the purpose of raising capital to carry out

the construction of this and other proposed branches in the Kistna and Kurnool districts. Various terms have been proposed at different times but without success and the position is now as follows:—The Secretary of State has consented that the Southern Mahratta Railway shall undertake the construction of the branch and shall provide rolling-stock and work the line for 45 per cent. of gross receipts. The parent line also agrees that, when the net earnings of the branch do not amount to 3½ per cent. on the capital expenditure, it will give a rebate (up to the limit of the amount earned by it from interchanged traffic) sufficient to bring the earnings up to 3½ per cent. The District Board give a full guarantee that the dividends shall amount to 4 per cent. holding themselves liable to make up any deficiency that the earnings may show below that percentage. The only open question at present is the remuneration to be paid to the promoters, and as soon as this matter is settled there seems to be a good prospect of the company being floated in London.

#### GUNTUR-REPALLE BRANCH.

This line will start from Guntur and cross the North-East Line, Madras Railway, at Tenali, being carried on to Repalle near the mouth of the Kistna. It is one of the lines that is to be undertaken by the Deccan Branch Railways Company under the guarantee of the Kistna District Board as explained in the case of the Bezwada-Masulipatam branch.

#### PHIRANGIPURAM-GURZALA BRANCH.

Metre Gauge, 50·64 miles, Rs. 12,59,640. This is one of the group of three branches to be guaranteed by the Kistna District Board and to be financed by the Deccan Branch Railways Company as explained in the case of the Bezwada-Masulipatam branch.

#### DHONE-KURNOOL BRANCH.

Metre gauge, 32 miles, Rs. 7,10,892. This branch is to be financed by the Deccan Branch Railways Company under the guarantee of the Kurnool District Board. The terms are generally similar to those arranged in the case of the three branches guaranteed by the Kistna District Board as described above.

#### INDEPENDENT LINES.

##### MYSORE-TELICHERRY RAILWAY.

2° 6' Gauge, 144·69 miles, Rs. 74,12,217. This line is designed to connect the Mysore plateau with the Madras Railway at Telicherry on the west coast. At the instance of the Government of India enquiries were made to ascertain whether the project would receive any support from the Mysore Darbar, the Coorg Administration, the District Board, Malabar, and the Madras and Southern Mahratta Railways. The replies hold out little or no hope of assistance and as the construction of the line must of necessity be very expensive and the traffic prospects appear to be small there is little likelihood of the scheme being taken up at an early date.

##### ARSIKERE-MANGALORE RAILWAY.

Metre Gauge, 28·71 miles, Rs. 85,43,784. This forms an alternative to the Mysore-Telicherry Railway and similar enquiries were made with regard to the prospects of local support from the Mysore Darbar, the District Board, South Canara, and the Southern Mahratta and Madras Railways. The replies are even less encouraging than in the case of that line and it is clear that the scheme must remain in abeyance for the present.

##### VIZIANAGRAM-RAIPUR RAILWAY.

5° 6' Gauge, 358·86 miles, Rs. 2,81,04,780. Of this railway a length of 193 miles lies within the Madras Presidency and the remainder in the Central Provinces. As, however, it would connect at both ends with the Bengal-Nagpur Railway, it would not come within the Madras Circle of control. It is understood that proposals have been made by a company for its construction.

The additional charge for fractions in excess of even maunds will be the amount entered in the respective columns. Thus, a parcel weighing 1 maund and 15 seers carried 550 miles, will be charged Rs. 4 + Rs. 2 = Rs. 6.

NOTES.—1. Parcels exceeding 40 seers in weight, or 8 cubic feet in measurement, are booked only if accommodation will allow.

2. Parcels are charged either by weight or measurement, whichever gives the greater charge, 2 cubic feet being considered equal to 10 seers in weight.

3. Method of charging parcels in cases where the rates differ.—In calculating the charges for parcels in through-booking, where the rates differ, the charge is to be made on the local distance of each line at the rates applicable to those lines subject to the condition that when the combined charge is more than the charge at full parcels rates on the through distance, the latter will be charged and divided between the Railways concerned in mileage proportions. This applies over all Railways with which through-booking arrangements are in force.

4. Each parcel will be separately charged for.

5. Parcels and luggage traffic of all descriptions between South-West line stations, Arkonam to Calicut, including branches and stations on the North-West line in local booking and in through-booking via Raichur with stations on the G. I. P. and connected Railways, will be conveyed by the broad gauge route without break of gauge at the rates in force by the shortest route.

6. All parcels, whether insured or not, must be securely fastened and sealed, and addressed in English.

7. Credit Notes will be accepted from all Departments of Government and from the Police.

8. The pre-payment of charges on parcels booked to stations on the Madras and Foreign Railways, provided such parcels do not contain perishables or dangerous goods, is optional, but the Railways reserve to themselves the right of correcting any charges that have been incorrectly entered in Railway receipts and to collect at destination before delivery of the parcel, all under-charges from whatever cause arising. Articles booked at half and quarter Parcels rates must in all cases be pre-paid, both in local and foreign booking.

### SOUTH INDIAN RAILWAY COMPANY (LIMITED).

The Railway known for many years as "The South Indian Railway," was taken over by purchase by Government on the 1st January 1891, and is now the South Indian State Railway. It is, however, worked for Government by a Company which has been organized for this special purpose under Limited Liability, and derives its authority for managing the line from an agreement entered into in London in November 1890 with the Secretary of State for India. All the officers, servants and employés on the Railway are now in the service of the new Company, the old Company having ceased to have in India either property or representatives.

The Tanjore District Board Railway—99 miles—a line constructed by the agency of the South Indian Railway from funds provided by the District Board of Tanjore, is worked by the South Indian Railway. An extension from Pattukkottai to Arantangi (28 miles) is under construction.

A branch from Villupuram (South Arcot District) to the Gingee river, constructed by the South Indian Railway Company, is continued from the river into the town of Pondicherry by a railway owned by the Pondicherry Railway Company. A branch from Peralam on the Tanjore District Board Railway to Karaikkal (14 miles) was constructed at the expense of the French Colonial Government and opened to traffic on 14th March 1898.

An Extension is under construction from Shenkottah to Quilon, 58 miles. The rails of the S. I. R. Company's system are laid to the metre gauge (3 feet, 3 inches), and the present length of the line is 1,173 miles.

This Company was incorporated for the purpose of connecting the town of Pondicherry with a branch of the South Indian Railway from Villupuram to the Gingee River, that river being the boundary between the English and French territories. The necessary arrangements with the French Government having been made and a Convention signed at Paris, the construction of the Pondicherry Railway (which for its entire length, about 8 miles, traverses French territory) was opened for traffic on December 15th, 1879. There are two stations, one at Villianur, and the other (the terminus) at Pondicherry. The surf is not so violent at Pondicherry as at other places on the coast, and as an iron pier of a serviceable character has been erected in a central position near the Custom House and offices of the principal merchants, this important town possesses considerable advantages for the exportation and importation of merchandise.

## WEIGHTS AND MEASURES.

The origin of all *Weights and Measures* in England was derived from a grain of wheat; 32 of them, well dried and gathered from the middle of the ear, were to make one pennyweight; 20 dwts. 1 ounce; and 20 oz. 1 pound. It was subsequently thought better to divide the pennyweight into 24 equal parts, called *grains*.

William the Conqueror introduced into England what was called Troy Weight, from Troyes, a town in the province of Champagne, in France, now in the departement of Aube, where a celebrated fair was held. The English were dissatisfied with this weight, because the pound did not weigh so much as the pound in use at that time in England. Hence arose the terms *avoir du pois*, which was a medium between the French and the ancient English weights.

Avoirdupois Weight was first made legal in the reign of Henry VII. and its particular use was to weigh provisions and coarse heavy articles. Henry fixed the stone at 14 lbs., which has been confirmed by a recent Act of Parliament.

With respect to Measures of Length, it is recorded that the various denominations were constructed from a *corn of barley*, 3 of which, well dried from the middle of the ear, made an inch. Other terms were taken from portions of the human body—such as the *digit* (¼ of an inch, or a finger's breadth), a *palm* (3 inches), a *hand* (4 inches), a *span* (9 inches), a *foot* (12 inches), and a *cubit* (18 inches), being the length of the arm or bone from the elbow to the wrist. A *pace* (5 feet), or two ordinary steps; a *fathom* (6 feet), from the extremity of one hand to that of the other, the arms oppositely extended. It is stated that Henry I. in 1101, commanded that the *ulna*, or ancient ell, which answers to the modern yard, should be made the length of his arm; and that the other measures of length were thence derived, whether *lineal*, *superficial* or *solid*.

The restored standard of Lineal Measure, whose length is called a yard, is a solid square bar 38 inches long, and one inch square in transverse section, the bar being of bronze or gun-metal, at the temperature of 62° of Fahrenheit's thermometer, marked copper 16 oz., tin 2½ oz., zinc 1 oz.; and near to each end a cylindrical hole is sunk to the depth of half an inch; the distance between the centres of the two holes being 3 feet or 36 inches, or 1 imperial standard yard. The standard square and cubic measures will therefore depend entirely upon it.

All Measures of Capacity were first taken from Troy Weight, and several laws were passed in the reign of Henry III. enacting that 8 lb. Troy of wheat, taken from the middle of the ear and well dried, should make 1 gallon of Wine Measure, and 8 such gallons make a bushel.

The carat is divided into grains, and the grains into quarters, thus:—

| The Carat.—Troy. |     |      |                              |
|------------------|-----|------|------------------------------|
|                  | lb. | dwt. | gr.                          |
| 24 carats make   | 1   | 0    |                              |
| 2 carats " "     | 0   | 20   |                              |
| 1 carat " "      | 0   | 10   |                              |
|                  |     |      | 1 grain or ¼ carat make 2 10 |
|                  |     |      | 1 quar. of a grain " 0 15    |

The carat for weighing diamonds is 3½ grains Troy.

## TROY WEIGHT.

24 grains make 1 pennyweight (dwt.) | 12 ounces make 1 pound (lb.)  
20 pennyweights " 1 ounce (oz.)

By this weight gold, silver, jewels, and precious stones are weighed. It is also used in ascertaining the strength of spirituous liquors, and in experiments in natural philosophy, though the weights for this latter purpose are generally constructed in decimals from 10,000 grains to the one-hundredth part of a grain; it is used to compare the different weights with each other. The weighing of diamonds is an exception in jewellery; they are weighed by the carat, which is 3½ grains.

14 oz., 1 dwt., 16 grs. Troy, are equal to a pound Avoirdupois; or a pound Troy bears nearly the same proportion to a pound Avoirdupois as 14 to 17 or 5,760 grains are a Troy pound, and 7,000 such grains are a pound Avoirdupois. This standard was adopted as being the weight of a cubical inch of distilled water, which was found to weigh by Fahrenheit's thermometer (the barometer being at thirty-six inches), 252 grains, 458 thousandth part of a grain.

## AVOIRDUPOIS WEIGHT.

16 drachms make 1 ounce (oz.) | 28 pounds make 1 quarter (qr.).  
16 ounces " 1 pound (lb.) | 4 qrs. or 112 lb. " 1 hundred wt. (cwt.).  
14 pounds " 1 stone (st.) | 20 cwt. " 1 ton (ton).

By this weight are weighed all articles sold by weight, excepting gold, silver, platinum, diamonds, and other precious stones, and drugs when sold by retail.

A line is the 12th part of an inch.

The Scotch and Irish miles are about 1½ English.

The hand is rarely used except in the measurement of horses; and the fathom in sounding the depth of the ocean or of mines. The navy long-line is 48 feet long.

N.B.—The square of a number is obtained by multiplying the number by itself as 12 × 12 = 144, the square of 12.

By this measure all things that have length and breadth are measured.

Land is measured by Gunter's Chain, which is as follows:—

| Length.                        |              | Square.                |                  |

## CUBIC OR SOLID MEASURE.

|                                                  |                      |
|--------------------------------------------------|----------------------|
| 1,728 inches.....                                | make 1 solid foot.   |
| 27 feet.....                                     | " 1 solid yard.      |
| 40 feet of rough, or 50 feet of hewn timber..... | " 1 ton or load.     |
| 42 feet.....                                     | " 1 ton of shipping. |
| $\frac{1}{4}$ yard of earth.....                 | " 1 load.            |

The dimensions of timber, stones, excavations, and all works which have length, breadth and thickness, are taken by lineal measure; but the contents are calculated by cubic measure.

A cube is a solid body, and contains length, breadth and thickness. A cubic number is produced by multiplying the simple number twice into itself; thus 343 is a cubic number, being produced by multiplying the number 7 twice into itself; as  $7 \times 7 \times 7 = 343$ .

20 deals 12 feet long, 3 inches thick, 9 inches wide, 5 $\frac{1}{2}$  loads.

1 do. contains 2 feet, 3 inches cubic.

A batten is from 2 to 8 inches broad, and from  $\frac{1}{4}$  to 1 $\frac{1}{2}$  inch thick.

A deal is above 7 inches wide.

A plank is 11 inches wide, or above.

120 deals are 1 hundred.

## TO MEASURE PIPES, TANKS, &amp;c.

The following is a rough-and-ready way to find the contents of circular tanks, wells and pipes:—

Square the diameter in inches, and cut off the right-hand figure as a decimal, and the result will be gallons in each 3 feet (yard) of depth,—or length, if a pipe; as,—

## PIPES.

| Diameter<br>Inches. | Inches.          | Square. | Gallons<br>in 3 feet. |
|---------------------|------------------|---------|-----------------------|
| 2.....              | $2 \times 2 =$   | 4 or    | 0.4                   |
| 6.....              | $6 \times 6 =$   | 36 or   | 8.6                   |
| 12.....             | $12 \times 12 =$ | 144 or  | 14.4                  |

## WELL OR TANK.

|          |                    |           |         |
|----------|--------------------|-----------|---------|
| 36.....  | $36 \times 36 =$   | 1,296 or  | 129.6   |
| 100..... | $100 \times 100 =$ | 10,000 or | 1,000.0 |

## TO FIND THE CONTENTS OF A BARREL.

If the diameter is equal everywhere—Multiply the square of the diameter in inches by the depth, and divide the product by 359. Thus a barrel with the diameter of 36 inches, and 50 inches deep;  $36 \times 36 \times 50 = 64,800 \div 359 = 180\frac{1}{2}$  old measure = 193 $\frac{1}{2}$  Imperial gallons. If the centre or bung diameter is larger than the ends—First square the centre diameter in inches; and then multiply it by 2, to which add the square of the diameter of the end; then multiply this by the length of the cask and divide by 1,077. Thus a barrel with a centre diameter of 28 inches, end 25 inches and length 36 inches:  $28 \times 28 \times 2 = 1,568 + 625 (25 \times 25) = 2,193 \times 36 = 78,948 \div 1,077 = 73$  old measure = 74 $\frac{1}{2}$  Imperial gallons.

## TO MEASURE TIMBER.

In order to ascertain the contents of unsquared timber, multiply the square of the quarter girth, or of  $\frac{1}{4}$  of the mean circumference, by the length. When the buyer is not allowed his choice of girth in taper trees, he may take the mean dimensions, either by girthing it in the middle for the mean girth, or by girthing it at the two ends, and taking half of their sum. If not, girth the tree in so many places as is thought necessary, then the sum of the several girths divided by their number, will give a mean circumference, the fourth part of which being squared, and multiplied by the length, will give the solid contents.

The superficial feet in a board or plank is known by multiplying the length by the breadth. If the board be tapering, add the breadth of the two ends together, and take half their sum for the mean breadth, with which multiply the length.

The solid contents of squared timber are found by measuring the mean breadth by the mean thickness, and the product again by the length. Or multiply the square of what is called the quarter girth, in inches by the length in feet, and divide by 144, and you have the contents in feet.

Women require smaller doses than men.

## THE METRICAL SYSTEM OF WEIGHTS AND MEASURES.

The inconveniences of the English system of weights and measures has long been felt by all who are engaged in any form of research. It is not a question of the units so much as of their divisions. If it were only a matter of English convenience, there would probably be little desire to change the pound and the yard, which are our standards, and it would only be a question of dividing them suitably. But decimal division and multiplication of these units, or their subordinate ones, is practically impossible to avoid, and no one can help feeling the advantage which would follow from universal decimalisation, at least no one who has much to do with the calculations necessary for modern science, which reduces all things to number, weight, and measure. If this decimalisation were taken in hand with our present units (standards), it would be necessary to devise new names for some subordinate units, and to make them such as would clearly distinguish them from the old system. No one surely would seriously propose to deliberately add to the confusion we already enjoy of having two ounces, three drachms, and two pounds (not to speak of the monetary unit represented by a sovereign) which are a constant source of confusion, even though some of these are not sanctioned by law. Besides, if we retain our units, we should still be under the disadvantage in our commerce of differing in our units from all our neighbours, and in our science of want of ready connexion between our units of length and weight. There have been several suggestions made for decimalising our weights; of these the best probably was that the avoirdupois pound, of 7,000 grains, should be divided into 1,000 parts, to be called septems, and that the measure of fluids should correspond to a pound of pure water and be divided similarly, but nothing has ever come of this. Recently, indeed, a proposal was made to adopt a new pound of 8,000 grains, divided into 16 ounces of 500 grains each, thus adding to our confusion for the sole purpose of getting an ounce of a round number of grains, for it is difficult to see what other gain there would be.

If there is to be a change, then, the new system should be free from as many as possible of the disadvantages of what we have, and not be liable to require further modification. One solution only seems possible, and that is that Englishmen take the advice of,

\* The cubic centimetre (15·432 grains = 1 gramme) and is a standard at 4° C., the grain at 16°, 65 c.

and follow the practice of, the most scientific portion of their body, and adopt the metric system in its entirety. The units are not practically inconvenient, nor are the names of them really difficult to deal with; and, if they were so, objections would come with a bad grace from photographers, whose journals teem with words of Greek and Latin derivation, awful to look at and far worse to pronounce than kilo, gramme, metre, litre, or c. c.

Whether our readers are prepared to go the whole length with us or no (and the retention of the old forms should meet the convenience of the most conservative) we think there is another convenience arising from the use of the metric system. It must be well known to all that the use of percentages, and even of what are called parts, has been in use for ages in work. What the advantage of parts, as lately used, is we fail to see; but the use of percentages is a practical confession of the advantage of decimalisation.

The English grains per ounce have been converted into grammes per litre by multiplying them by  $\frac{1}{16}$ , and drops per ounce into c. c. per litre by the factor  $\frac{1}{16}$ .

## THE METRICAL SYSTEM.

In the appended comparative tables of British and metrical weights and measures, the following metrical units and their equivalents have been adopted as the basis of calculation, viz. :—

## The Metre.

The metre, as a unit of length, represents the ten-millionth part of a meridian, drawn from the Pole to the Equator. A centimetre, as the name implies, is the hundredth part of a metre; and a kilometre is equal to one thousand metres.

|                            |
|----------------------------|
| 1 Metre = 39·371 inches.   |
| 1 Yard = 0·914 metre.      |
| 1 Mile = 1·609 kilometres. |

## The Litre.

The litre, as the unit of capacity, represents the cube of a tenth part of a metre, a cubic centimetre (c. c.) thus being the thousandth part of a litre.

|                          |
|--------------------------|
| 1 Litre = 1·761 pints.   |
| 1 Gallon = 4·543 litres. |

## The Gramme.

The gramme, as the unit of weight, corresponds to the thousandth part of the weight of a litre of distilled water at its greatest density. One thousand grammes represent one kilogramme.

|                       |                      |
|-----------------------|----------------------|
| 1 Gramme              | = 15·432 grains.     |
| 1 Grain               | = 0·065 grammes.     |
| 1 Pound (avoirdupois) | = 0·454 kilogrammes. |
| 1 Hundredweight       | = 50·800 "           |

## GENERAL REMARKS.

Centimetres, metres, and kilometres, grammes and kilogrammes, and litres and millimetres (millimetres are usually called, for the measure of capacity, cubic centimetres, c. c.), are, as a rule, in the metrical system, the only weights and measures used on the Continent; the kilometres, kilogrammes, and litres for large quantities, and the subdivisions for small quantities. On such usage our tables are made out.

HOW TO USE THE TABLES.

The last column in both tables represents the multiplying term for any unit in either system of weights and measures. Thus, 1 drachm, fluid (troy), being 3.544 cubic centimetres (c. c.), 6 drachms will be  $6 \times 3.544$ , or 21.264 c. c., or 21 c. c. more or less. In the same way, 1 drachm, solid (avoirdupois), being 1.772 grammes, 6 drachms will be  $6 \times 1.772$ , or 10.632, or 10 grammes more or less. As examples in the other table, 1 gramme being 15.432 grains, 10 grammes will be 154.32 grains; or 1 gramme being 0.035 ounce, solid (avoirdupois), 109 grammes will be 3.80 ounces, or  $3\frac{1}{2}$ .

AND THEIR EQUIVALENTS IN ENGLISH.

1 Cubic Centimètre = 17 minims nearly.

$3\frac{1}{2}$  " " = 1 drachm.

28.4 " " = 1 ounce.

50 " " = 1 ounce, 6 drachms, 5 minims.

100 " " = 3 ounces, 4 drachms, 9 minims.

1000 " " } = 35 ounces, 1 drachm, 36 minims.  
or 1 litre, " }  
= 61 cubic inches

The unit of French liquid measures is a cubic centimètre.  
A cubic centimètre of water measures nearly 16 minims (16.896); it weighs 15.4 grains, or 1 gramme. A cubic inch of water weighs 252.5 grains.

The unit of French weights is the gramme = 15.4 grains; thus a drachm (60 grains) is nearly 4 grammes (3.88). An easy way to convert grammes into English weight is to divide the sum by 4, which gives the equivalent in drachms very nearly thus:—

Grammes. Drachms. Oz. Drachm. Grains.  
100 + 4 = 25 = 8 . 1 + 43

## CHAPLAINS' VISITS TO OUT-STATIONS.

*Extracts from Court's Despatch, 12th April 1843.*

"Section 27 of the regulations respecting leave of absence and deputation and travelling allowances which we have recently approved, you will find a rule on the subject of travelling allowances on joining a station, and when any change takes place except at the desire of the Chaplain or Assistant Chaplain.

3. But to avoid inconvenience and guard against the possibility of misunderstanding we think it desirable that for every circle of stations, the Lord Bishop should be requested to frame a plan determining the periods at which each place shall be visited by the Chaplain or Assistant Chaplain officiating in such circle, which plan being approved by Government shall continue in force till varied by the same authority. As minute local information will be necessary to the successful formation of such plan, we can only offer a few suggestions on the subject. The frequency of Ecclesiastical visits should be governed in a great degree by the extent of the Christian population of the place to be visited. A place may contain not more than three or four members of the English Church, and though it might not be right to exclude those few persons from the benefit of Christian ordinances, it is obvious that in the present state of our Ecclesiastical Establishment such a place could not be visited frequently without injury to others of greater importance. An annual visit might in some cases be all that could reasonably be afforded; while to others visits twice, three or four times a year, might be expedient; and to others again, which might be more populous, it might be desirable that visits should be made once in six weeks, or once a month.

4. When a circle of stations may, from the deficiency of our Establishment, or any other cause, be left without a resident Clergyman, we are of opinion that the Chaplain or Assistant Chaplain of a neighbouring district should, as desired by the Lord Bishop, be appointed to visit the station thus deprived of clerical services. In such cases the most convenient course will be for the Lord Bishop to bring the subject to the notice of Government, and submit a plan of visitation. Such plan being approved, the Chaplain or Assistant Chaplain who can most conveniently discharge the required duty, should be specially appointed thereto, and thenceforward be entitled to draw travelling allowances in conformity with the provisions of the plan, and in accordance with our Financial Despatch of the 30th October 1839.

5. We should lament that the practice of visiting stations at which no Clergyman is permanently resident should be discontinued, and it would be unjust to subject the Clergy to the expense attendant on such visits. Under these impressions we deem it proper to sanction the payment of such reasonable charges not exceeding those authorized in our Despatch of the 30th October 1839, before referred to, and we are encouraged in this view by the fact that although Chaplains and Assistant Chaplains when absent from their duty are subject to the same deductions as Civil Servants, no charge is incurred in providing for the duty of the absentee. The deductions may thus be regarded as a fund, meeting to a certain extent the extra charges incurred by occasional or provisional visits of the Clergy to stations in which they do not reside."

## CONSISTORY COURT.

OPENED 27TH OCTOBER 1845.

The Ven'ble the Archdeacon.....Commissary.

F. Rowlandson, Esq., B.A., LL.B....Registrar. | .....Apparitor.

## RULES RELATING TO THE OFFICE AND DUTIES OF LAY TRUSTEES IN THE DIOCESE OF MADRAS.

I. Two lay-trustees shall be appointed by the Governor in Council to each Chaplaincy or station where there is property belonging to or held in trust for the Church of England.

II. (1) At civil or joint civil and military stations, the senior civil servant, and at military stations, the officer commanding the cantonment or garrison shall be appointed a trustee, provided that he is a communicant of the Church of England and has no objection to hold the office. Failing these officers, the officer next in seniority (civil or military as the case may be) shall, if qualified as above, be nominated.

(2) When the trustee thus appointed is not a gazetted officer in Government service, he shall vacate office on Wednesday in the next Easter week; but shall be eligible for re-appointment, provided no gazetted officer is qualified and willing to accept office.

III. (1) The second trustee may be any communicant resident at the station. He shall be nominated by the chaplain and approved by the Lord Bishop and shall hold the appointment for one year from the Wednesday in Easter week, but shall be eligible for re-appointment.

(2) If the second trustee vacate office between Easter and Easter, the person appointed in his place shall vacate office on Wednesday in the next Easter week, but shall be eligible for re-appointment.

IV. When the office of either trustee is vacant, the chaplain shall report the circumstance to the Lord Bishop, for the information of Government, and shall at the same time nominate a duly qualified person to fill the vacancy.

V. The chaplain shall be in charge of the church, church yard, cemetery and church property; but the lay-trustees are, jointly with him, empowered to keep, and are held responsible for keeping the church and premises in good repair, providing for the preservation and safe custody of all property belonging to the church, and disbursing the Government grants and the church funds. The church accounts shall ordinarily be kept by the chaplain, but where there is no resident chaplain they may be kept by one of the lay trustees if he is prepared to undertake the duty. The chaplain and the lay-trustees shall supervise and arrange the assignment of seats. In case of any serious disagreement between the chaplain and the lay-trustees on these matters, the point in dispute shall be referred to the Lord Bishop. The chaplain and the lay-trustees shall also jointly decide questions regarding the appointment, punishment or removal of the church or cemetery servants, provided that no church or cemetery servant eligible for pension or gratuity shall be removed without the prior consent of the Archdeacon.

VI. The lay-trustees shall not interfere with the administration of divine service, or with the ritual and ornaments of the church. Their function in these matters is to report to the Lord Bishop if they consider that anything contrary to law and order has been done or that there has been any neglect of duty on the part of the chaplain. During the absence of the chaplain or licensed clergyman, one of the lay-trustees is, in ordinary cases, the proper person to read the service, and a sermon on Sundays, and to take charge of the register and other books connected with the chaplaincy.

VII. The lay-trustees shall, when practicable, meet once a month, or oftener, if necessary. It shall be the duty of the chaplain, or, in his absence, of the senior lay trustee, to call a meeting. The chaplain, or in his absence one of the lay-trustees in order of seniority, shall preside. The agenda shall ordinarily be prepared by the president and circulated to the lay-trustees before the meeting, but it shall be competent for one of the lay-trustees to bring forward any question connected with the matters over which they have control. At such meetings, the account books shall, at least once a quarter, be presented together with the cash balances and all necessary vouchers, and shall be audited either by the chaplain and the lay-trustees at the meeting or by such other person as the meeting may appoint. A certificate of audit shall then be prepared for submission to the Archdeacon on the next quarter day.

VIII. All communications shall be signed by the chaplain and countersigned by the lay-trustees, and all proceedings shall be entered in a correspondence book and produced for examination at the next meeting.

IX. On the appointment of a lay-trustee the Archdeacon shall send him a copy of these rules.

Note.—The Bishop requests that in out-stations one of the lay-trustees willing to be responsible for this service as a regular duty may be recommended to him by the Chaplain for a temporary License or Faculty as a Lay Reader which will be issued from the Bishop's Office free of charge.

#### Rules in regard to the Levy of Ecclesiastical Fees.

*Letter from the Officiating Under-Secretary to the Government of India, Home Department. (Ecclesiastical), to the Secretary to Government, Fort St. George, dated Simla, 6th July 1872, No. 165.*

"The Lord Bishop of Calcutta having brought to notice that difficulty is occasionally experienced by Chaplains in collecting fees, under existing rules, on monuments and masonry graves, the Governor-General in Council considers that in all cases where such difficulty arises, the duty of collection should be made over by the Chaplain to the Magistrate or Deputy Commissioner in charge of the district in which the burial ground may be situated; and I am to request that, with the permission of His Excellency the Governor in Council, instructions may be issued to the District Officers accordingly."

#### Orders for the performance of Funeral Rites on Verdicts of Coroners' Inquests.

*NOTIFICATION.—Fort Saint George Gazette, June 11, 1850, page 623.*

The Right Honorable the Governor in Council is pleased to rescind the Order of Government of 5th April 1842, which directs a copy of the verdict of the Coroner's Inquest to be furnished, when practicable, to the Clergyman who is to officiate at the interment of a body on which an inquest may have been held, and the Reverend Chaplains will in future consider the warrant of the Coroner for the interment of a body on which an inquest has been held to be a sufficient authority for their performance of the burial service over it, if it would be their duty, under ordinary circumstances, to perform that service.

2. In the provinces where no Coroner's jurisdiction exists, the same course will be observed by the authorities appointed to enquire into the causes of sudden death, and the same deference will be paid by the Clergymen to their certificates of warrant.

#### Surrogates for granting Marriage Licenses.

The following Clergymen have been empowered by the Right Reverend the Lord Bishop to issue his license for the solemnization of Holy Matrimony in the Diocese of Madras without the publication of banns:—

Parties desirous of being married by License should apply direct to the nearest Surrogate; but from places where there is no Surrogate, application should be made to the Registrar, who will obtain the Bishop's directions according to the special circumstances of each case as it may arise. None but a Clergyman of the Church of England can marry by virtue of Episcopal license.

Further information respecting marriages by license can be obtained on application to the Registrar of the Diocese, F. Rowlandson, Esq., B.A., LL.B., Madras.

#### Rules for the guidance of Surrogates in administering Oaths and granting Marriage Licenses within the Diocese and Archdeaconry of Madras.

I. Every application for the Bishop's license to be married without the publication of banns must be made in writing and the names of both the applicants be given in full with the age, race, condition (i.e., bachelor, spinster, widower, or widow, and occupation, if any), of each, and the place or places in which each has resided for the six months prior to the application.

II. No license can be claimed by any person as a matter of right or of course, and no license is to be issued by any Surrogate until four days after the receipt of such application. And in no case and under no circumstances is any license to be issued for the marriage of any divorced person, and that notwithstanding that such person may have been divorced without any fault on his or her part; or, in other words, whether his or her former marriage has been dissolved by the civil law on the ground of his or her adultery or otherwise. Moreover, no license is to be issued in order to make marriage less public to persons who have been living in sin.

III. When both applicants are non-residents in the place where the application is made, and are unknown to the Surrogate, he may decline to grant the license, until he shall have had time to make due enquiry, as to whether there be any impediment to the marriage, and may further require from the applicants the names of two or more persons to whom reference may be made.

IV. On a day subsequent to the receipt of the application, which shall be appointed by the Surrogate, and shall be not earlier than the 5th day (that is, the ninety-seventh hour), after such receipt, the parties, or one of them, shall in every case appear before the Surrogate, and either one or both swear to the "Affidavit of Residence," to which the written application for the license shall be annexed by way of an exhibit, being marked as such, and endorsed as follows by the Surrogate:—

In the matter of the marriage of A. B. and C. D.

This is the exhibit referred

A

to in the affidavit of A. B. sworn

to herein on the day of

before me.

E. F.,

Surrogate.

V. The Surrogate will use great caution in examining the parties to be sworn, filling up the forms with the names, rank and places of residence, and dates at full length.

VI. In no case is a license to issue unless the parties are sworn before the Surrogate, and in case of doubt or difficulty the Surrogate will refer to the Registrar as recommended in the Surrogate's appointment.

VII. In case the party to be married is a minor, consent of the father, if living, must be obtained, or if the father be dead, the guardian of the person of such minor, and in case there be no such guardian, then the mother of such minor may give consent, unless no person authorized to give such consent be resident in India.

VIII. In case the party to be married is a minor, either in the Civil or Military service, and without possessing either a parent or guardian in this country, the consent of the Governor of Madras must be obtained by the minor to his marrying under age, unless the proper consent can be shown to be already given on the part of the absent parents or guardians to his marrying as a minor, in which case the consent of the Governor of Madras need not be obtained.

IX. If the parties to be married are both of full age (twenty-one years) and both of them are to be sworn, the Surrogate will use No. 1 form; but if one of the parties is prevented from attending and another person joins in the affidavit on behalf of the party not present, No. 2 is in such case to be used instead of No. 1.

X. If one of the parties only is of full age (namely, twenty-one years) and the other is under that age, and the parent, next friend, or guardian makes oath on the part of the minor as to age and consent, the Surrogate will use No. 3 form.

XI. If both the parties are minors (under the age of twenty-one years) and the respective parents, next friends, or guardians swear on their behalf, No. 4 is to be used.

XII. In case the lady to be married is a widow and under the age of twenty-one years, oath No. 1 is to be used, the Surrogate first running his pen through the words "that they have respectively attained their respective ages of twenty-one years and upwards," and adding at the foot of the oath (above the signature), "the former being twenty-one years of age and upwards, and the latter a widow."

XIII. The Surrogate having filled up, and the party having read and signed the affidavit at the proper places, the former will then give the Testament to the party to be sworn, and holding the paper in his hand, say, "you (A. B.) do swear that the contents of this your affidavit are true. So help you God."

XIV. The party answers "I do," and kisses the book, repeating, "So help me God."

XV. The same form is to be observed to each person sworn.

XVI. The Surrogate will then fill up the license, date and sign it, adding his title as Surrogate, and hand the license to the parties.

XVII. In case of any caveat entered in the registry or intimation received through the Surrogate against the grant of a license, the Surrogate will ascertain the particulars and communicate the same to the Registrar for immediate advice, refusing the license until the result of that reference is known and forwarding any affidavit sworn.

XVIII. The Surrogate will forward to the Registrar for record all affidavits as above on the day they are administered, and the licenses with the Quarterly Returns, unless sooner or whenever required.

XIX. A fee of Government Rupees fifty is to be received by the Surrogate on each license previous to delivery of the same to the parties entitled to receive such license, Rupees sixteen of which fee for the license, being due and payable to the Registrar, are to be transmitted to him on the day the license is granted.

XX. In every case in which the Surrogate does not himself perform the marriage for which he issues a license, he shall send the license direct to the Clergyman who is to perform the ceremony.

N.B.—Although every Surrogate has legal power to issue a license under which a marriage can be solemnized in any church or place where Divine Service is usually performed in any part of this Diocese, it has always been the custom for the Surrogate or one of the Surrogates in the District in (or, if there be none then a Surrogate in the next District to that in) which the parties usually have resided to grant them a license even if it should be the wish of the parties that the marriage should be solemnized by some Clergyman other than such Surrogate. And of this custom the careful observance is commended to all his Surrogates by the Right Reverend the Lord Bishop of the Diocese.

(By Order.)

(Signed) F. ROWLANDSON, LL.B.,

Registrar of the Diocese and Archdeaconry of Madras.

## SOCIETY FOR PROMOTING CHRISTIAN KNOWLEDGE.

PARENT SOCIETY FOUNDED 1693.

MADRAS DIOCESAN COMMITTEE ESTABLISHED 1815.

The Madras Diocesan Committee was formed with the following objects:—

1. To circulate, at very low rates, the Bible, the Book of Common Prayer, Religious Books and Tracts, and Works of Pure Literature.

2. To supply Mission and other Charitable Schools with maps and apparatus at cost prices.

3. To publish translations of the Prayer Book and Religious and Educational Works and Tracts into the Vernaculars of South India.

4. To aid in forming Libraries for Barracks, Hospitals, Schools and Missions.

5. To assist in Church Building, and generally to assist the work of the Church in India in every possible way.

In pursuit of the above objects the Society has, during nearly 200 years, and in this country nearly 90 years, originated or supported a variety of agencies of the greatest importance to the progress of Christianity.

It assists largely, in addition, in the spread of religious education in the diocese.

No less than one hundred native girls are entirely maintained and educated by the Society, in schools under the direct supervision of Missionaries, and eight students who are being prepared to take part in Mission work are maintained at a Theological College.

Subscriptions, Donations, Church Collections and Legacies are earnestly sought, that the Society may be able to increase its activity in proportion to the growing wants of the Church.

#### CHURCH OF SCOTLAND WOMEN'S ASSOCIATION FOR FOREIGN MISSIONS.

KILPAUK, MADRAS.

The Association supports five Schools in Madras, and three at Sholinghur. The Schools at Triplicane, Black Town, and Pursewalkum are Hindu Caste Girls' Schools, as is also one at Sholinghur. The School at Chetput is for non-caste poor boys and girls, while the School at Kilpauk is a Boarding School for Native Christian girls. An Industrial Class for teaching lace-making and embroidery has been added to the Kilpauk School.

The attendance at the Madras Caste Girls' Schools is about ...500.

At the Chetput Poor School about ...120.

At the Boarding School, Kilpauk, to 95 girls, and Sholinghur about ...220.

The Association supports a large staff of Zanana teachers and Bible-women, who visit the homes regularly, teaching the Bible, English, Tamil and Telugu, reading, and plain and fancy needlework.

One of the most interesting departments of the Association's work is the village work carried on in some of the villages near Kilpauk, as well as near Sholinghur. Bible-women visit from house to house teaching the Scriptures to such women as they can gather, their work being superintended by one of the Ladies in charge of Zanana work.

As the teaching of Christianity is the chief object of the Association's work, the Bible is taught in all the Schools and in every Zanana visited.

**MISSION STAFF.**—*Sholinghur Station.*—Miss McLean, Miss McNeill, and Miss Symonds, B.A. *Madras.*—Miss Henderson, Miss Forbes, Miss Brookes and Miss Graham. **Honorary Secretary and Treasurer.**—Rev. J. N. Ogilvie.

#### MUTUAL CANADIAN BAPTIST TELUGU MISSION.

1.—The Foreign Mission Board of Ontario and Quebec, Canada.—This Mission was established by the Rev. John McLaurin, D.D., with the first station at Cocanada in the year 1874. He took over some 150 adult converts and continued the work which had for several years been prosecuted by the Rev. Thomas Gabriel. There were then but one ordained Minister, Rev. Thomas Gabriel, who died a short time after, two unordained preachers, and three school teachers. The annual income of the Home Society for that year amounted to \$1,832, a portion of which went to the support of a family then working with the A. B. M. U. Telugu Mission to the south. The baptisms of believers for the first year numbered 57.

Through the 29 years of the Mission's history, 21 men with their wives, and 15 single ladies have been sent out from Canada. Of these, three men and two married women have died, two single ladies and five families have been forced to retire owing to ill-health, including the founder of the Mission, who is now under the A. B. M. U. on one of their hill stations.

There are at present 11 families and 14 single ladies on the staff. There are 9 stations, of which 2 are in Vizagapatam, 1 in the Kistna and 6 in the Godavari districts. There are now 10 ordained native Ministers, 58 unordained preachers, 6 colporteurs, 31 Bible women, 62 male and 28 female teachers, and 6 medical assistants, or a total native staff, amongst whom are included two very competent Eurasian Biblewomen, of 204.

The churches number 38, one being English, and the entire membership totals 4,583. Of these, 481 received baptism in 1902. The native Christians contributed alone some Rs. 4,215 in 1901; 3,481 scholars are gathered in 151 Sunday Schools. The day schools number 71, with an average attendance of 782. There are 8 boarding schools with 169 boys and 121 girls, or a total of 277 pupils. The Mission property is worth about \$47,000, or at Rs. 3 to a dollar, some Rs. 1,41,000. The converts are mostly from the out-caste classes.

There are four Medical Missionaries, one of these being the wife of a Missionary.

The Mission has a Theological Seminary and Lower Secondary School at Samalkotta under the Principalship of the Rev. John Craig, B.A.

The work amongst the English and Eurasians in Cocanada includes a Day and Boarding School for boys and girls, known as the Timpany Memorial School. Only girls are admitted as boarders. Boys up to 15 years of age may attend the day classes.

### THE MADRAS TAMIL MISSION.

The Madras Tamil Mission is purely an Indian Christian effort to bring "that which is lost" to the feet of our Lord Jesus Christ. It was established in 1881, and among its friends and supporters it has many well-known Christians in India and Europe.

The Orphan Home of this Mission, which contains 129 inmates, is now quartered in a beautiful permanent habitation of its own (with 6½ acres of land) in rural Tondiarpet, 4½ miles to the north of Madras. The day school attached to the Home is in charge of an experienced Christian Headmaster with four assistants (all of them are senior orphans), and the pupils are taught up to the VII Standard. Edmund Eaton, the orphan who has finished his education in this school, will appear at the Matriculation Examination of the University of Calcutta in March next. There is also an embroidery class, and beautiful pieces of this work are being constantly turned out. There is also a printing office in the Home, as well as a weaving department. Pillow-lace work and carpentry have been introduced in the Home lately.

Next to the work among orphans, the waifs and ragged children receive much attention from the Mission. At present the Mission has four ragged school centres in and around the city, with 410 pupils. The number of workers of this Mission is 20.

The Mission distributes 2,000 tracts monthly among the heathen population of Madras. It also carries on Gospel work among lepers as well as in the villages round about the Orphan Home.

A free Reading Room was opened in North Black Town on the 16th March 1900, and many of the Madras, English and Tamil Dailies, as well as Periodicals from India, Europe and America, are placed on the table. It is opened from 6 to 8 a.m. and 4-30 to 8 p.m. It is well used by those for whom it is intended, and is exercising an influence for good.

To carry on efficiently all the departments of the work of the Mission to its present extent, it will need £700 per annum and more, if the work is to be extended. The Mission neither issues personal appeals to its friends for help nor reminds its annual subscribers about their contributions. The Mission wholly depends upon God in prayer to move the hearts of its friends to send help from time to time.

The accounts of the Mission are audited by a Public Accountant, Madras. A Board of Trustees is to be formed to hold all the real properties of the Mission.

All contributions in the United Kingdom may be sent in crossed checks to C. A. Ropes, Esq., 90, Princes Road, Liverpool.

Contributions may also be sent direct either in crossed checks or foreign money order to Gnanamuthu Joseph Israel, or G. Samuel Israel, The Orphan Home, Tondiarpet, Washermanpet P. O., Madras, India.

## ARMENIAN CHURCH OF ST. MARY.

OPENED IN THE YEAR 1712, IN No. 1, ARMENIAN STREET.

Rev. M. Israel, Diocesan Priest.

CHURCHWARDEN.—J. M. Narcis, Esq.

Madras Armenian Orphans' Fund, established in the year 1783, No. 1, Armenian Street.

GOVERNOR AND DIRECTOR.—J. M. Narcis, Esq.

Armenian Cemetery.

The present Cemetery was built and given to the Armenian community by Government in the year 1862.

Previous to the erection of the Church, the Armenian community performed Divine Service in a temporary place built of timber (on the north of Monument Esplanade, opposite Fort St. George), the Priests being paid by the Funds of the Church. The present Church was built by the Armenian community at their own expense in the year 1712, and alterations and additions made to it by them from time to time. In the year 1833 the British Government was pleased to grant the sum of Rupees five thousand (5,000) from the late Lottery Funds, for the repairs of the Church, out of which funds the community was enabled to erect a substantial and extensive verandah, 148 feet in length by 10 in breadth, on the east side of it. Government was further pleased to grant a donation of Rupees (2,000) two thousand, from Dr. Woolley's Estate to the Church in the year 1839.

The revised Ecclesiastical rules, received with Government of India letter, No. 218, dated 8th June 1897, recorded in the second of the orders read above, as amended by Government, are appended to these proceedings. They will be communicated to all officers concerned for information and guidance in supersession of those issued with G.O., No. 141, Ecclesiastical, dated 17th July 1885, and will be republished in the *Port St. George Gazette*.

† Also Registrar of Marriages under Act III of 1872.

† Pay, Rs. 50.

I.

## Rules for the care and use of Government Cemeteries throughout India, except those in the Presidency Town of the Diocese of Calcutta, and the Presidency Town of the Diocese of Bombay.

## CHARGE OF THE CEMETERY.

RULE I.—(1) The Resident Chaplain of a station has charge of the general cemetery, and frames an estimate of the expenditure connected therewith in accordance with the directions contained in paragraph 1, Home Department \* Resolution, Nos. 6—370-382, dated 9th November 1876.

(2) The term "Resident Chaplain" includes a clergyman of the Additional Clergy Society so far as concerns the stations to which he stands appointed, or other clergyman of the Church of England placed in charge by the Bishop.

(3) Where there are Lay Trustees or a Church Committee they will have the same powers and the responsibilities in regard to the cemetery as in regard to the church. At stations where there are no Trustees or Committee, if there is no Resident Chaplain or during the temporary absence of the Chaplain, the charge of the cemetery belongs to the Chief Magistrate on the spot, or the senior military officer if the cemetery is attached to a military cantonment.

(4) At out-stations, where there is a Church Committee, the charge of the cemetery will belong to the Senior Member of the Committee, provided that if the station does not contain a church which is the property of the Government, the appointment of the Senior Member of the Committee to hold charge of the cemetery will be subject to the approval of the Bishop or Archdeacon who may, if he consider it advisable, appoint some other person to the charge. At out-stations, where there is no Church Committee, the charge of the cemetery will belong to such person as may be nominated thereto from time to time by the Magistrate or Deputy Commissioner of the District, but subject to the control of such Magistrate or Deputy Commissioner.

RULE II.—Each cemetery is allowed a mali-chowkidar or chowkidars in accordance with the scale prescribed in paragraph 2, Home Department Resolution,† Nos. 6—370-382, dated 9th November 1876. These chowkidars are paid by Government through the Resident Chaplain, by whom they are appointed and dismissed. In stations where there is no Resident Chaplain, the chowkidars are paid, appointed and dismissed by the other officers named in Rule I.

RULE III.—Every reasonable effort should be made by the Resident Chaplain or other officer in charge under Rule I, not only to keep the cemetery in decent order, but to preserve its character as the resting-place of the remains of departed friends by providing for the necessary repairs and by planting the ground with suitable trees.

NOTE.—To meet the expenditure under this rule, see Rule I and paragraph 1 of Home Department Resolution,† Nos. 6—370-382, dated 9th November 1876.

RULE IV.—The chowkidar will keep the key of the cemetery under the direction of the officer in charge.

RULE V.—The officer who has charge of the cemetery under the operation of Rule I will perform all the duties assigned to the Chaplain by Rules VII, VIII, IX, X, XI and XII, with the exception of the approval of designs of tombstones and of inscriptions to be cut on them. In the case of a tombstone in that part of the cemetery which is reserved for the Church of England, the proposed design and inscription must be forwarded to the Resident or Visiting Chaplain, or, if there be none, to the Archdeacon, and no action taken to erect the monument till his sanction has been obtained. In all other cases the design and inscription must be approved by the Minister of the particular denomination to which the deceased belonged. Should there be no Resident or Visiting Minister of that denomination, the inscription and design must be approved by the senior Minister belonging to it in the province, or, if there be none, then by the Local Government or Administration. Should a design or inscription be disapproved, it may be referred, if those who are interested desire this, through the Ecclesiastical superior of the denomination concerned, to the Local Government or Administration for decision.

## INTERMENTS BY WHOM TO BE CONDUCTED.

RULE VI.—(1) The Chaplain will bury Christians of all denominations whose friends desire his services as laid down in the orders of the Government of India in the Home Department, \* No. 159, dated the 6th June 1877, using always the service of the Church of England and the consecrated portion of the cemetery.

(2) A portion of every cemetery will be set apart by the orders of Government for the use of Roman Catholic congregations, and another portion will be appropriated for the joint use of other Christians whose friends desire that they should be interred otherwise than according to the ritual of either the Church of England or of the Church of Rome, or who cannot legally be so interred.

(3) The unconsecrated portions thus set apart are not to be fenced or walled off from the rest of the cemetery, but simply divided off by a pathway, and they must be added to the existing cemetery or reserved from it. If the existing cemetery be large enough for the wants of the whole Christian community, such portions will be reserved without reference to the fact that the whole enclosure has or has not been consecrated according to the rites of the Church of England. If the cemetery be only large enough for the wants of Christians desiring to be buried with the service of the Church of England, such portions will be added. The whole cemetery thus divided is to be surrounded by a wall, to have but one gate of entrance, and to be under the care of the officer specified in Rule I.

**RULE VII.**—(1) Ministers of all denominations have a right to conduct the service of burial over the body of any deceased member of their respective congregations who may be buried in any fitting portion of the ground set apart for the denomination to which the deceased belonged. At least six hours' previous notice of the burial should be given by the Chaplain or Minister of the denomination to which the deceased belonged, or, in his absence from the station, by the friends of the deceased, to the Chaplain in charge of the burial-ground, or, in the absence of the Chaplain, to the officer who may be in current charge. The Chaplain, or officer in current charge of the cemetery, should, on receipt of the notice, give the conducting Chaplain or Minister, or, in his absence, the friends of the deceased, a certificate as to the hour when the funeral may take place. The period herein prescribed may, for special reasons, be shortened, with the permission of the Chaplain or officer in charge of the cemetery. Such Chaplain or officer will, if he thinks the circumstances of the case demand it, bring the facts to the notice of the local magisterial authorities in time to admit of an order stopping the burial being passed, if necessary.

(2) In the cases in which the deceased was in the military or civil employment of Government and the death occurred in a military station, it is the duty of the Officer Commanding the Corps or Head of the Department concerned to inform the Minister of the denomination to which the deceased belonged, of the hour at which the funeral may be expected at the cemetery. This report is to be in addition to that required by Rule VII (1).

(3) A certificate of burial drawn up according to the required form must be sent to the Chaplain or to the Registrar of Births, Marriages and Deaths, to be entered in the Register kept up by him. The Officer Commanding the station or regiment or the Local Head of the Department with which the deceased was connected is responsible for the submission of the certificate.

**RULE VIII.**—(1) No burial can, as a general rule, take place in that part of a Government cemetery which has been set apart for the use of members of the Church of England, unless the service prescribed by that Church is read by the Chaplain, if there be one, or, in his absence, by the layman who officiates at the funeral. But a person may be interred in the other portions of a Government cemetery with or without the use of any services of religion.

(2) Where in that part of a Government cemetery which has been set apart for the use of members of the Church of England there is a family vault or grave, or a reserved plot of ground purchased by a member of the family, or a masonry grave prepared in immediate contiguity to such family vault or grave or reserved plot, any deceased member of a family may, if the relative, friend, or legal representative having charge of the funeral arrangements shall so desire, be interred in such family vault, grave, or reserved plot without the performance of the service for the burial of the dead according to the rites of the Church of England.

(3) The burial may take place at the option of the person having charge of the same either without any religious service or with such Christian and orderly religious service at the grave as such person shall think fit; and any person or persons who shall be thereunto invited, or be authorized by the person having charge of such burial, may conduct such service or take part in any religious act thereat.

(4) Notice of any burial which it is intended to conduct under the provisions of clauses (2) and (3) shall be given to the Chaplain or other officer in charge of the burial-ground in the manner prescribed by Rule VII.

#### ARRANGEMENTS FOR BURYING.

**RULE IX.**—Where there is a Resident Chaplain he is responsible for the arrangements for digging a grave and shall, ordinarily, arrange for the preparation of a coffin. Should he find or anticipate difficulty in making private arrangements for the preparation of a coffin, he

should apply in military stations to the senior military officer, and in civil stations to the chief local Magistrate to make the necessary arrangements; and these officers are authorized to direct any local Public Works officer to supply all that is necessary. The local Public Works officer would usually be the Executive Engineer of Military Works in military stations and the Civil Executive Engineer in civil stations; but the senior military officer in a military station and the chief local Magistrate in a civil station may, in cases of emergency, direct the Civil Executive Engineer or the Military Works Executive Engineer, respectively, to make the necessary arrangements. The Resident Chaplain is in all such cases responsible that timely notice is given to the Government officers who may be called upon to arrange for the preparation of a coffin.

The senior military officer in a military station and the chief local Magistrate in a civil station may, should the Resident Chaplain report that private arrangements for the preparation of coffins are not feasible, issue a general order on the Executive Engineer, Military Works, and the Civil Executive Engineer, respectively, to prepare coffins upon the requisition of the Resident Chaplain. The expenditure incurred by the Executive Engineer will be held in his miscellaneous advance account till repaid by the officer under whose special or general order it was incurred.

During the absence of the Resident Chaplain from the station the senior military officer in a military station and the chief local Magistrate in a civil station shall be responsible for the arrangements for digging graves and preparing coffins.

**NOTE.**—The expenses incurred in connection with the burial of paupers who die within Cantonment limits will be defrayed from Cantonment Funds under the orders contained in the Circular from the Quartermaster-General in India, No. 18, dated the 20th March 1884. In the case of paupers who die out of Cantonment limits, the expenses will be defrayed by the Magistrate of the District.

**RULE X.**—The officer in charge of the cemetery shall keep a plan of the entire cemetery to be provided by the Public Works Department, with references written upon it, in a book, in which the names of parties interred are recorded; this plan and book being kept with the church registers.

**NOTE.**—The Executive Engineer prepares a plan of the cemetery showing on it all the existing graves and the spaces allotted for future graves, and giving them all consecutive numbers.

**RULE XI.**—The officer in charge of the cemetery may reserve grave space, as limited by Rule XII below, on the application of near relatives of persons already buried in the cemetery and for the burial of the persons named in the application. A double ground fee shall be levied in advance before granting any such application, and each grant shall be registered in a book to be kept for the purpose and indicated on the plan. The ground will then be reserved for ten years. Before the expiry of that period, a fresh application should be made and a further double fee paid, failing which the ground will be resumed.

**RULE XII.**—The size of each grave, whether of masonry or not, is limited to 9' x 4', and the area of ground to be enclosed must not exceed 11' x 7' by external measurement.

**RULE XIII.**—(1) All graves must be at least 6 feet in depth.  
(2) No body shall be buried in any vault or masonry grave which it is intended at any after time within 14 years to re-open unless the coffin be separately entombed in an air-tight manner by properly cemented stone or brick work, which shall never be disturbed.

(3) One body only shall be buried in a grave at one time, unless the bodies be those of members of the same family.

(4) No non-masonry grave or masonry grave unprovided with the separate air-tight compartment prescribed in clause (2) shall be re-opened within 14 years after the burial of a person above 12 years of age, or within eight years after the burial of a child under 12 years of age, unless to bury another member of the same family, in which case a layer of earth not less than one foot thick shall be left undisturbed over the previously buried coffin. If on re-opening the grave any soil is found to be offensive, such soil shall be left undisturbed.

(5) There shall never be less than three feet of earth between the topmost coffin in a grave and the surface of the ground.

#### ERECTION AND REPAIR OF MONUMENTS.

**RULE XIV.**—Monuments may be erected by any interested person. The inscription before being cut and the design, when the monument is other than a simple headstone, must be first approved of as laid down in Rule V.

**RULE XV.**—When a grave is not of masonry throughout, the only monument ordinarily allowed over it is a simple cross or headstone on an adequate masonry foundation not exceeding 3' x 2'; and the whole structure must not stand higher than 3' 6" from the ground level. But, with the permission of the officer in charge of the cemetery, a monument, such as may be erected over a masonry grave, may be placed over a non-masonry grave when adequate masonry foundations are provided on which the monument may rest.

**RULE XVI.**—No monument, of whatever material constructed, shall exceed 8' x 4' at the base without the previous sanction of the Local Government.

**RULE XVII.**—No monument of masonry shall stand higher than 3 feet from the ground-level.

**RULE XVIII.**—No cenotaph shall be more than 6 feet square at the base.

**RULE XIX.**—The enclosure of ground round a grave must be by a metal railing, or by chains or bars of metal supported on masonry or metal pillars. Wooden or masonry enclosures are not permitted. The previous sanction of the Archdeacon, or, in his absence, of the Bishop, is necessary to the enclosure of a non-masonry grave: and no such sanction will be given unless the fee required by Rule I of Part II has been paid.

**RULE XX.**—When a monument needs repairing, the officer in charge of the cemetery should communicate with the friends of the deceased, or when such communication is not possible, advertise three times in the *Gazette of India* and the *Gazette of the Province*; and if it falls into a ruinous condition, and no person will undertake to restore it, the ruined monument shall be made level with the ground during the next repairs, and any slab it contained will be placed over the grave in simple masonry, or be inserted in the wall of the cemetery.

**NOTE.**—(1) This rule does not apply to monuments of historical or archaeological interest. Lists of such tombs should be obtained by Local Governments and Administrations, and as many of them as may be properly preserved at the public expense should be looked after by the local Public Works Department.

(2) The cost of the advertisements in the *Gazette* is met by the Government.

(3) A person other than a British soldier or a non-commissioned officer desiring to erect a monument over a grave is required to pay into the treasury a sufficient sum of money to be invested in Government securities, so that the interest on it will be sufficient to cover the cost of repairs annually. A British soldier or a non-commissioned officer is not compelled to make a deposit; but in the event of money for repairs not being forthcoming, Rule XX is held to apply. The foregoing rules shall apply *mutatis mutandis* to railings round graves, which shall not be constructed until the requisite sum has been paid to cover the cost of repairs.

**Explanation.**—It is optional with a person, other than a British soldier or non-commissioned officer, proposing to erect a simple cross, head-stone or slab, consisting of a single stone over an adequate foundation, to pay the endowment fee for its maintenance and repairs; but, if no such fee is paid, the cross, head-stone or slab will be liable to removal, if it should need renewal, under Rule XX. The optional endowment fee may be paid at any time after the erection of the stone.

**NOTE.**—In the Madras Presidency endowments of all monuments is entirely optional. [Letter from the Government of India, Home Department (Ecclesiastical), No. 526, dated 29th December 1897, and G.O., Nos. 30-31, Ecclesiastical, dated 23rd February 1898.]

**RULE XXI.**—All work connected with monuments must, as far as possible, be carried on outside the cemetery, and any undertaker not removing the debris of his work immediately upon its completion is liable to a fine of Rs. 5.

#### INSPECTION.

**RULE XXII.**—The cemetery should be inspected annually by the Chaplain in company with the Executive Engineer, the plan and book kept under Rule X being also examined, and a report made to the Archdeacon, and recorded in the Ecclesiastical record-book of the station, and also in the Engineer's office.

**RULE XXIII.**—(1) Commissioners of Divisions should inspect cemeteries, whether closed or in use, within their respective jurisdictions, in the course of their annual tours, and should bring to the notice of the Local Government any instances of cemeteries which are negligently kept, or which the officers in charge may have allowed to fall into a state of bad repair or disorder. All cemeteries are equally subject to the visitation and supervision of the Bishop and Archdeacon.

(2) Sanitary officers in cantonments are invited to inspect cemeteries within their respective cantonments, and to report to Local Governments any matter calling for notice.

#### MISCELLANEOUS.

**RULE XXIV.**—It is desirable that officers commanding regiments or detachments should be instructed to cause a report to be made to the nearest civil officer of graves dug for soldiers on march that measures may be taken for their effectual protection and preservation. These graves and all scattered Christian graves throughout the district are under the care of the local Civil authorities.

**NOTES.**—(1) A tablet on the wall of a cemetery shall be regarded as a monument.

(2) Where a parcel of ground used for burial by a Christian community of any particular denomination other than the Established Church of England forms no part of the general cemetery, but is separate from it, or where, although not so separate, it is clearly distinguishable and was not originally acquired, and has not been kept up at the expense of the State, then if the community by which the ground is used so desire, the Government will give up all claim to fees, on the distinct understanding that it is divested of all responsibility for the maintenance of the cemetery in proper order. On the other hand, where such parcels of ground form part of a cemetery of the Established Church or the general Christian community, provided and maintained by the Government, no distinction can be made as to keeping up any one part of the cemetery, nor should any exemption from fees be permitted.

#### EXEMPTION FROM FEES IN GOVERNMENT CEMETERIES.

**RULE III.**—Regimental and non-departmental warrant officers and all British non-commissioned officers and soldiers are exempted from the payment of any fee for the construction of graves, or for the erection of monuments in burial-grounds to the memory of their comrades, wives, or children; but not from the fees prescribed under Rule I (6) and (7). The widows and children of regimental and non-departmental warrant officers and all British non-commissioned officers and soldiers are also exempted from payment of the former class of fees in the case of their deceased husbands and parents. No monument, either regimental or private, shall exceed the dimensions prescribed in Part I of these rules.

**NOTES.**—(1) This rule is applicable to regimental and non-departmental warrant officers, and all British non-commissioned officers and soldiers whether in military or civil employ.

Native Christians belonging to His Majesty's army are British soldiers within the meaning of this rule.

(3) Departmental warrant officers and volunteers are not exempted from payment of ecclesiastical fees.

**RULE IV.**—The Chunar pensioners, being more or less under military control, come under the category of soldiers, and are therefore entitled to the same exemptions as soldiers. But this ruling does not apply to other pensioners who are not similarly under military control.

**RULE V.**—The Chaplain may at his discretion reduce, or in cases of extreme poverty altogether remit, the fee leviable on the construction of graves, but not for the erection of monuments.

**NOTE.**—The Bishop on special occasions may sanction a reduction or remission of fees for the erection of monuments.

#### FEES BY WHOM TO BE COLLECTED.

**RULE VI.**—The Chaplain or other officer in charge of a cemetery may appoint an official mason, who may be granted a monopoly of the whole or any portion of the masonry work beneath the surface within the cemetery, subject to such conditions as may be agreed upon at the time of making the appointment; and may, subject to the same conditions, discharge him at his discretion. When an official mason has been appointed, he shall be responsible for the collection and payment to the Chaplain or other officer as aforesaid of the requisite fees in respect of all work executed by him. Fees in respect of work in the cemetery not executed by an official mason must be paid in advance.

**NOTE.**—Fees on masonry graves and monuments constructed by the appointed mason or undertaker need not be paid in advance; but in case of failure of payment their recovery must be entrusted by the Chaplain to the Magistrate or Deputy Commissioner, as the case may be.

#### FEES TO WHOM TO BE PAID.

**RULE VII.**—The fees prescribed in Rule I should be paid to the Chaplain, or, in the absence of the Chaplain, to the officer in charge of the cemetery and remitted at once to the Civil treasury, except fees for monuments in churches, which should be paid over by the Chaplain to the charitable objects to which the Bishop assigns them when his acuity is issued.

#### CEMETERY RECEIPTS AND CHARGES.

**RULE II.**—In addition to the fee for the Surrogate's license, a fee of Rs. 10 shall be charged on all marriages by license, except the marriages of officers and others in the Military or Naval Service of His Majesty.

**RULE III.**—The fee for a Surrogate's license, shall be Rs. 50 both at the Presidency towns and in the interior. No fee shall be charged on marriages by banns.

**RULE IV.**—When registers are searched and a copy of any entry given, a fee of one rupee shall be charged for the first year, and four annas for every additional year over which the search may extend, as well as a fee of one rupee for the certificate. Soldiers, sailors and non-commissioned and petty officers are exempted from payment.

**NOTES.**—(1) The amount of fees payable for marriages performed, and for searching registers kept in accordance with the provisions of Act XV of 1872 (The Indian Christian Marriage Act), is fixed by each Local Government.

(2) The Chaplain may at his discretion reduce, or altogether remit, in cases of extreme poverty, the fee for searching registers.

#### MISCELLANEOUS.

**RULE IX.**—(1) A person may not purchase a portion of a Government cemetery as a burial place for himself and his family so as to have a right to fence it with a rail or fence, and thus make it the private property of himself and family. But when such rights already exist, they are not without reason to be interfered with, and special cases as they arise may require exceptional treatment. In such special cases the Archdeacon may exercise his discretion with the sanction of the Local Government.

(2) All private rights must, however, cease if, for sanitary or other public reasons, the cemetery is closed against burials, or even that portion of it in which the private ground is situated; but in special cases the Archdeacon may exercise his discretion of giving permission to open a vault or masonry grave.

(3) No cutcha grave can be opened in any cemetery for the purpose of converting it into a masonry grave without application to the Archdeacon, which must be accompanied by a certificate from the Principal Medical Officer that this may be done without risk to public health.

**RULE X.**—(1) When a piece of ground is granted by Government as a cemetery to a Railway Company for the interment of its own servants, which afterwards keeps it in repair and provides the necessary establishment, so that beyond the original grant of ground Government is at no expense, the collection and application of fees accruing are left to the decision of the Railway Company which maintains the cemetery in good order and repair.

(2) The Commissioner or District or Judicial Officer, and in military stations the Officer commanding, should inspect such cemeteries and report to Government if they find them negligently kept.

† Government of India, Finance Department, Notification No. 1603, dated the 9th June 1882. In exercise of the powers conferred by Section 8 of the Indian Stamp Act (I of 1879), the Governor-General in Council is pleased to remit the stamp duty (if any) chargeable on copies of, or extracts from, baptismal, marriage, or burial registers certified by Government Chaplains, subsidised or unsubsidised clergymen, or Diocesan Registrars and granted to—

(1) soldiers, sailors, or non-commissioned or petty officers;

(2) or persons in needy circumstances, in whose favour Chaplains may exercise the discretionary power vested in them by Rule IX (a) of the Ecclesiastical Fee Rules published on the 29th September 1869, and may grant exemption from the payment of fees under Rule IV (b) of those rules.

Government of India, Finance Department, Notification No. 2036, dated the 30th June 1882.

Whereas copies or extracts certified to be true copies or extracts of baptismal, marriage, and burial certificates, granted by Ministers and Marriage Registrars, are generally furnished on printed forms for which impressed sheets of stamp paper cannot be used without inconvenience; therefore in exercise of the powers conferred by Section 9 of the Indian Stamp Act, 1879, the Governor-General in Council is pleased to make the following rule:—

The stamp duty payable under Article 22 of Schedule I of the Indian Stamp Act, 1879, on copies or extracts certified to be true copies or extracts of baptismal, marriage, and burial certificates shall be denoted by means of adhesive court-fee labels.

A letter from the Officiating Senior Chaplain of the Church of Scotland, No. 58-A, dated the 5th July 1882, on the same subject.

**RESOLUTION.**—In connection with the orders contained in the above-mentioned Notification issued by the Department of Finance and Commerce, the following questions have now been raised by the Officiating Senior Chaplain of the Church of Scotland:—

(1) In what way the adhesive court-fee labels prescribed by the Notification, dated the 30th June last, should be defaced; and

(2) Whether in a case of a certificate granted to a person belonging to any of the classes exempted by the Notification, dated the 9th June last, anything should be written on the certificate to show why it has been granted without the payment of stamp duty.

2. As regards the first question, the Governor-General in Council is pleased to direct that the officer issuing the certificate shall cancel the adhesive court-fee label affixed thereto by writing his name across it; and with regard to the second question, His Excellency in Council considers it desirable that a statement signed by the officer issuing the certificate should be made thereon, showing the grounds on which such certificate is issued without the payment of stamp duty.

§ From Mr. JAMES SUTHERLAND, to the Officiating Secretary to the Government of India, dated 10, Clive Row, Calcutta, the 29th December 1877.

A Mr. Joseph Gill came out to this country with letters of introduction to me, and died very suddenly at the General Hospital, Calcutta. On a reference from the hospital authorities I had his body interred in the Catholic portion of the military burial-ground at Bhowanipur. His widow, now resident in Paris, writes to me to have his body exhumed and buried in a family vault in the Roman Catholic Church at Dhurumtolla, but I am advised that the Garrison Chaplain, under whose care the burial-ground is, requires the sanction of Government (Home Department) before permitting this to be carried out; and I would be much obliged if you would be good enough to give me the necessary sanction.

As the body will be interred in another grave without loss of time, I would also be obliged if you would dispense with the necessity of a zinc coffin, which, from its imperishable nature, is likely to form a serious obstruction in a family vault.

From F. C. DAUKES, Esq., Under Secretary to the Government of India, to the Secretary to the Government of Bengal, No. 1, dated Fort William, the 3rd January 1878.

I am directed to forward the accompanying letter, dated the 20th ultimo, from Mr. James Sutherland, asking for permission to remove the body of one Joseph Gill from the military burial-ground at Bhowanipur for re-interment in a family vault in the Dhurumtolla Roman Catholic Church, and to enquire what is the rule or practice in such cases, and whether there is any objection to permission being granted to remove the body for re-interment.

rate per sitting for the excess number of seats over such lower figure being arrived at by dividing the difference between the maximum grant shown against the next higher figure and the said lower figure by the difference between the higher and lower figure. Thus, for 110 seats, the Government grant for 100 seats will be Rs. 5,000, and for the remaining 10, at the rate of  $\frac{6,000-5,000}{150-100} = \text{Rs. } 20 \text{ per seat.}$

(2) As a rule, only one Protestant and one Roman Catholic church will be provided. In the case of Protestant churches, accommodation will ordinarily only be provided for the number willing to attend the Church of England service.

(3) In ascertaining the number of seats to be provided, women and children belonging to the families of European British-born subjects in the general service of Government and pensioned soldiers and their families may be taken into account: two children being counted as one adult.

(4) In case of stations where abnormal rates prevail, special application may be made to the Government of India for an increase to the grant given by the State; but no grant for more than 200 sittings will be made except at seats of Local Governments and Administrations, or at Hill Sanitaria. In the latter case, the number of European British-born subjects in Government service must exceed (without their families) 120 to warrant the grant for a church of greater accommodation than 200 sittings.

**RULE XI.**—No Government grant for a church in a civil station will be made until private subscriptions have been obtained, and then the grant will not exceed double the amount thus actually realised, the maximum figure in column 2 of the table above being in any case the extreme limit of the grant towards the scale of accommodation which stands opposite in column 1. And in no case will the Government grant be allowed until these contributions, together with the grant, amount to the estimated cost of the church.

#### RAILWAY STATIONS.

**RULE XII.**—Whenever there are, at any State Railway station or depôt so situated that other church accommodation does not exist, or is not available with reasonable convenience, at least 25 persons in the Railway service who are of European descent, pure or mixed, retaining European habits and modes of life and professing the Christian religion, whether Protestant or Catholic, churches will be provided by the Government for them in accordance with Rules IV, V and VIII; the number of sittings being calculated on the principle, *mutatis mutandis*, of Rule X, notes (2) and (3), and the grant being in conformity with Rule IX.

**RULE XIII.**—Whenever such separate churches are not required, church accommodation for any such persons may be provided in the plans of any church which is about to be erected at a military or civil station; but in the case of a church at a civil station, the restrictions in Rule X, note (4), and in Rule XI shall not apply in respect of the numbers of, and grants for, such persons.

**RULE XIV.**—In cases where a State Railway station or depôt is considered by the Railway Administration to be likely to increase, such addition may be made to the number of sittings, calculated as above provided, as the Government of India in the Public Works Department may, in each case, sanction.

**NOTES.**—Rules XII to XIV apply only to State Railways worked by the State and in other cases when the State is in the position of the employer of labour.

**RULE XV.**—In the case of church accommodation for servants of a Railway not worked by State Agency and not falling within the note to Rule XIV, it will be within the discretion of the Board of Directors or other duly empowered representative of the Company, with the approval of the Government of India, to provide funds for church accommodation under Rules XII to XIV. In such cases the cost will be chargeable to the Capital or Revenue account of the Railway as the circumstances of each case may suggest.

#### GENERAL.

**RULE XVI.**—It is desirable, whenever such a course will not be attended by inconvenience, to combine the Civil or Railway with the Military church of a station, the grant allowed for the church accommodation of the British troops or State Railway servants before given being supplemented by a grant according to the scale shown in Rules X and XI, or XII to XV, as the case may be. In special cases buildings may be rented for Divine service, with the previous sanction of the Government of India, or of the Local Government or Administration, according to whether the charge is Imperial or Provincial.

**RULE XVII.**—In addition to church accommodation as above prescribed, a house for the chowkidar or resident bearer may be provided. In cases, however, where the church is distant from the bazaar and where special grounds are shown, accommodation may be provided for other duly authorized servants; but such further accommodation will be

limited to shelter for day use only. These houses should, when practicable, be adjoining to, and not within, the church compounds; but when within them, they should be erected in keeping with the other church buildings.

**RULE XVIII.**—Grants from Imperial Funds will be sanctioned by the Government of India in the Public Works Department only. Grants from Provincial Funds will be sanctioned by the Local Governments and Administrations, subject to the limitations contained in these rules.

**RULE XIX.**—The scales of accommodation and expense for all churches above laid down are in no case to be exceeded without a reference to the Government of India, even though the proposed expenditure from Public Funds may be within the powers of sanction vested in the Local Government or Administration.

**RULE XX.**—Church accommodation for non-official residents, either British-born Europeans or others, or for official residents other than British-born or State Railway servants, should not be sanctioned by the Local Governments or Administrations without reference to the Government of India.

**RULE XXI.**—When private contributions are combined with a Government grant towards building a church, the procedure to be adopted is as follows:—

(a) (1) Under ordinary circumstances, the amount of private contributions being known, a definite design and estimate will be prepared by the Executive Engineer and submitted for sanction in the usual way, the limit by which the Executive Engineer will be guided in his designs being the aggregate of the Government grant according to the scales given in the preceding rules, and the amount of private contributions actually realised.

(2) Before the work is commenced, the amount of the private contributions must be paid into a Government Treasury, or guaranteed by sufficient security, and carried to credit of deposits in the accounts of the department.

**NOTE.**—In the case of a grant from the Church Building Fund for the Diocese of Calcutta, a certificate instead of a cash payment in advance may be accepted, showing the amount of the contribution to be allowed. The conditions on which this certificate may be accepted are that in every case definite arrangements must be made with the Local Government or Administration concerned respecting the precise date on which the contributions will be paid, and that, until the payment is made, the Government shall have a primary lien on the funds of the Society. In case of any failure in paying up the stipulated payment on due date, the privilege herein allowed is to cease.

(3) In dealing with cases of this nature, the private contribution is to be looked upon as an addition to the Government grant, instead of the money allowed from public funds being considered as grant-in-aid of private contributions, and the responsibility of Public Works officers with respect to the preparation of estimates and the construction of such buildings with reference to excess of expenditure over the estimate, will be as strictly enforced as where only public funds are expended.

**NOTE.**—In the case of State Railways, the functions assigned in this and succeeding rules to the Executive Engineer will devolve on the Manager.

(b) (1) In special cases, however, the Government grant for a church at a Civil or Railway station may, with the sanction of the Government of India or of the Local Government or Administration, as the case may be, be treated as a grant-in-aid of private contributions raised for a church intended either as a Civil or Railway church within the meaning of these rules, or partly for the use of non-official residents or others for whom grants are not admissible under these rules.
