Sir,

Bd No 3184

From the Collector of Trichinopoly - -

Para 1. In furtherance of my letter No 117 of the 26th ultimo, and in accordance with the instructions conveyed by your communication of the 26th April 1856 No 1241 - I do myself the honor to submit for the favorable consideration of your Board copies of correspondence lately had between the Collector of South arcot and myself in respect of the frontier of our respective Districts, with a view to establishing a straight and well defined boundary -

To the Collector of South arcot
19th June 1856 No 61.
From Do Do 15th July 1856 No 39
From Do Do 26th Do No 419
To Do Do 2nd August 1856
No 83.
From Do Do 8th August 1856 No 441.

2 Your Board will observe that I have acquiesced in Mr Halls arrangement as being more convenient and better adapted than the line I had originally proposed to him, that is, the trunk road from the lower anicut to the Vellaar river -

3. The rough sketch herewith sent will shew clearly the boundary line now proposed for

Fort St George 16th September 1856.

for sanction, and which takes the Vuddavaur Channel as my eastern limit from the Coleroon lower annicut as far as the Village of Cheltytongul and then from that point the diagonal line across to the Village of Arundangoody on the Vellaur as my northern limit.-

4 All the Villages in fact to the west of the great Vuddavaur Channel are to be Trichinopoly and all the Villages situated South of the diagonal line indicated in the rough sketch as well as those from Arundangoody on the South bank of the Vellaur to be considered Trichinopoly also.-

5 The transfer will be of 25 Villages from Trichinopoly to South Arcot and 13 Villages from South Arcot to Trichinopoly.-

6 The Revenue passing from this District will be Rupees 16,807-5-11. whilst that received by the exchange amounts to Rupees 6085-2-5 only.-

7 As the papers now submitted furnish all particulars and details. I do not deem it necessary to enter further into the subject.

8 I shall esteem it a favour if the

Fort St George 16th September 1856.

rough sketch can be returned me, when the question is finally disposed of.-

Trichinopoly
Collectors Office
13th August 1856.

Signed J. Bird
Collector

Encl 1
No 61

To,
A. Hall Esqr
Collector of South Arcot

Sir

Para 1. The copies of the orders I now do myself the honor to furnish will explain to you the wishes both of the Government and the Board of Revenue in reference to establishing a straight and well defined boundary between your province and my District.-

2. I have given the subject my best consideration, and with the assistance of my native subordinates both Huzzoor and Talook it occurs to me that to take the new Trunk road from the Coleroon North bank to the Vellaur river as the line of boundary, we shall obtain a straight and yet just division of our respective talook limits.-

3 The accompanying Sketch or map will show you how the Villages of your Talooks of Chellumbrum and Manargoody are interlaced and intermixed with Villages of my

16704

Fort St George 16th September 1856.

my Wodiarpolliem Talook. In many instances on both sides, Villages belonging to you are quite close to my Cusbah Town. and vice versa with Villages belonging to me.-

4. Taking then the Trunk Road above mentioned as our line of division I would beg to suggest that all the Villages belonging to Wodiarpolliam on the east of that road should be transferred to you while all the Villages lying to the west should be made over to me.-

5 I furnish you with lists of the respective Villages from which you will observe that 56 would be transferred from Mannargoody and Chellumbrem to this District and 27 from Wodiarpolliem to your Province.-

6 I give the Revenue of my Villages which amounts to about 16,200 Rupees in round numbers and this I believe is equivalent to the Beriz of your 56 Villages proposed to be transferred.-

7 From the Proceedings of the Board No 1591 dated the 26th Ultimo you will observe the Government consider it important this question of boundary should be speedily settled, may I request the expression of your opinion on my proposal at an early date.-

Trichinopoly - -

— Enclosure No. 2. —

No. 399.

To
John Bird Esqr.
Collector of Trichinopoly.

Sir
Para 1. I have the honor to acknowledge your letter of the 19th Ultimo and its accompaniments relative to the demarcation of a defined boundary line between this District and Trichinopoly, which you propose should be for the future Trunk Road No. 9 running from the Annicut across the Vellaur to the lower one on the Coleroon and the Vellaur itself from the Annicut towards the west.

2. There are some objections I think to this being taken as the line of boundary between the two Districts.

3. According to your Calculation it would involve the transfer of 27 Trichinopoly Villages to South Arcot and of 56 Villages of South Arcot to Trichinopoly.

4. Your List contains the names of only 25 Villages as belonging to Chellumbrum but

but situated on the west side of the road in question. There are however 28 Villages so placed, while the Villages of the Manargoody Talook which would be affected are 30 and not 31 as given in your letter.

5. The South Arcot Villages which would be thus transferred are those which comprise the resumed Jaghire of Palliam-cottah and the Maganum of streemoostum, over each of which I have a resident Peishcar with the Powers of a Head Police.

6. By taking the Trunk Road as the boundary your District would run up quite into a point at the Vellaur Annicut between the Talooks of Manargoody and Virdachellum, so that to go from one Talook to the other it would be necessary to traverse the Trichinopoly District nearly the whole way which would be an inconvenience.

7. We are now forming a Cart road to connect

connect Virdachellum with streemooshtum, Palliamcottah, and Trunk road No. 9 whence there is already a road to Manargoody.

8. Transfer of the south Arcot Villages to Trichinopoly would put them in a worse position as regards management and supervision, than they are at present more especially as I have been considered the propriety of attaching the Manargoody Villages in question to the Vir-dachellum Talook and joining those which at present belong to Chellumbrum to the Manar-goody Talook.

9. By this arrangement the Manar-goody Villages on the South bank of the Vellaur would come under the control of the Sub Collector who resides at Virdachellum, distant only about 12 Miles. This would be better than if parties had to go all the way to Trichino-poly before they could find a European Officer.

10 The distance from Cuddalore to Palliemcottah is about 36 Miles, so that in regard to those Villages also the people are, I fancy better off

off now than they would be, if they had to look to the Collector and Magistrate at Trichinopoly.

11. I beg to forward a List of the Beriz of the 58 Villages which would be transferred to you by your plan, but I must Mention that I am now engaged in fixing an assessment on those which are marked as belonging to the Palliamcottah Zaghire according to rates which have been sanctioned by Government They have all been surveyed by Captain Priestley. The total Beriz as far as it can be given of the 58 Villages amounts, as you will observe to about Rupees 34,871—12—1.

12. Upon the whole I am led to think that it will be better for us to adhere more closely to the present nominal frontier line than to adopt the one you have proposed and merely to transfer the Villages on either side to that District within which they respectively fall.

13. I am of opinion that all the Trichinopoly Villages on the East side of the Vaddavar Channel should certainly be annexed to this District following this Channel as the boundary from the lower Anicut to Chetty Tangal, I would then take a line, as I have mentioned to mark in red on the accompanying

* herewith returned.

across your sketch Map,* to Ammundangoody the point where the road from Verdachellum to Vodiarpolliem crosses the Vellaur, from which the Vellaur itself might be adopted.

14. This arrangement would involve the transfer, as nearly as I can judge of 24 or 25 Villages from Trichinopoly to South Arcot and of 13 Villages from South Arcot to Trichinopoly without necessitating any change in regard to the Establishments of the two Districts, while it would remove the inconvenience which arises from the Villages of the two Districts being intermixed with each other.

15. If it was resolved that the line I have proposed should be declared the boundary between the two Districts and that the Villages on either side should belong to that District within which they would then be situated a sketch Map might be prepared under the direction of Lieutenant Kelsey Assistant Superintendent of the Revenue Survey who is at present

16714 Fort St. George 16th September 1856.

present engaged in the Chellumbarum Talook.

16 I have roughly calculated that 13 South Arcot Villages would be transferred to Trichinopoly, but I must mention that there are other Villages amounting altogether to 12 which are not entered in your sketch or in the District Maps and whose positions are somewhat doubtful with reference to the proposed line of boundary.

17 I have added a list of these 12 Villages and I purpose ascertaining when I am in that part of the Country which I shall be in a short time hence, on which side of the line they are probably five or six will be found in the Trichinopoly side. If so the total number to be transferred from this would be 18 or 19.

To
A. Hall Esqre.
Collector of South Arcot.

Sir,

1. I do myself the honor to acknowledge

Fort St. George 16th September 1856.

acknowledge the receipt of your several letters dated the 15th 24th and 26th ultimo numbered respectively 399-414 and 419 all having reference to the demarcation of a defined and straight boundary line between our Districts.—

2. I have given every consideration to the objections and reasoning against my proposed line of boundary set forth in your first letter of date the 15th July and I am prepared to acquiesce in the justness of your argument in opposition to my proposal.—

3. I am ready to adopt the amendment as set forth in the 13th and following paras of your letter and to take the Vadavaur Channel as my eastern limit from the Coleroon lower anicut as far as Chetty tangul and then from that point the diagonal line across the Village of Aamundangoody on the Vellaur as my Northern limit.—

4 All the Villages to the

Fort St. George 16th September 1856.—

west of the great Vadavaur Channel are to be Trichinopoly and all the Villages situated South of the diagonal line indicated as well as those from Aamundungoody on the South bank of the Vellaur to be considered Trichinopoly also.—

5. This arrangement involves a transfer of 25 Villages from Trichinopoly bearing a revenue assessment of Rupees 16,809-5-11- to South Arcot, while Trichinopoly will receive in return from South Arcot 13 Villages with a Bariz of Rupees 6,085-2-5.

6. I beg to send you a list of my Villages with their revenue returns.—

7. Having thus met your proposals I presume that in the event of the boundary line being approved of by the Board of Revenue and Government you will not consider it at all necessary to require of me to give up any of my Woodiar pollium talook Establishment not even peons nothing in fact beyond the Village Municipal authorities as Monegar Moonsiff Curnum

16724 Fort St. George 16th September 1856.

Curnum and watchers.—

8. On the receipt of your letter of concurrence in reply I shall do myself the honor to submit the subject for the consideration and orders of the Revenue Board.—

3 The subjoined Abstract exhibits the extent to which the Talooks concerned in these changes will be affected in their Berry and the No. of their Villages.

Talooks

Government will observe that the size of the Tonniore and Woodiarpollium talooks will be reduced by this arrangement, and that they will be rendered more compact and easier of supervision, as the transferred Villages are nearer to the Cushak stations of their respective talooks than before.

D/27th March
In Cons: 10th apl 1856
№ 433/6

4 The Government when suggesting the changes now under consideration, remarked that a Village or Villages of Madura were enclosed in Vitticutty; the Collector of Madura has now informed

D/24th apl in Cons
15th Sept 1856
№ 1381

the Board that these Villages are situated in that portion of the Ramagherry Talook which has been transferred to Trichinopoly.

5 The second letter recorded at the head of these Proceedings contains copies of correspondence between Mr Bird and the Collector of South Arcot, regarding the changes by which it is proposed to simplify and improve the present distribution of the frontier Villages of the two Districts. Mr Bird at first proposed that the Trunk Road stretching across from the lower Anicut of the Coleroon river to the Vellaur should form

Government

form the Eastern and the Vellaur itself (from where it meets the road,) the Northern frontier of his District; but in consideration of several inconveniences which Mr. Hall explained would result from adopting boundaries, Mr. Bird was induced to relinquish his plan.

6 The arrangement now proposed with the concurrence of both Officers is that a portion of the Vedavan channel should form the Eastern boundary of Trichinopoly and the red line marked on that map forwarded by Mr. Bird together with that portion of the Vellaur which runs westward of it, its Northern boundary. This line is not intended to divide Villages; it will not interfere be so direct as it is drawn in the map. In order to effect this arrangement the following transfers of Villages must be made.

From the Woodiarpolliem Talook of Trichinopoly to South Arcot

Total Beriz Rupees 6,085-2-5

7 The Board remark that the foregoing plan involves the transfer of lands assessed at upwards of 10,000 Rupees from Trichinopoly to South Arcot; as however it will require an interchange of a smaller number of Villages than that first proposed by Mr. Bird and will secure for either district a well defined frontier, they resolve to recommend the arrangement now explained for the sanction of

Govt.

Government.

8

In the event of Government approving these alterations, the Board will ascertain whether any of the 13 Villages to be transferred from South Arcot are among those recently surveyed in Paliemcottah, in which case the Collector will be instructed to introduce the new assessment previous to making them over to Trichinopoly.

Bd. No. 2978
From the Ag. Collr. of Ganjam
Letter from the Ag. Collr. Ganjam to the Commissioner N. C. 8th March & 26th June 1855
Ext. Pro. Commr. 8th Septr. 1855
No. 679

Sir,

With reference to the correspondence noted in the margin in regard to the assortment of the old records of this Collectorate, I have the honor to submit herewith a list of the papers which have been separated as being of no use and which compose 600 Dufters. With the sanction of the Board I intend to send these dufters to Cuttack to be sold there as directed in Extract proceedings of the Commissioner for the Northern Circars under date the

8th

8th September 1855. I have ascertained from the Cuttack Collector that waste paper can be sold to the jail there at 1 anna a Bengal seer. The paper weighs about 300 Indian maunds, this would make the value of the paper about Rupees 225. Perhaps you can find a better market at Madras if you will be good enough to make enquiries. The paper could be sent down cheap by Sea.

Ganjam District

Ganjam District
Collector's Office
Chetterpore 26th July 1856

(Signed) W. Knox
Ag Collector

Bd. No. 3037
Proceedings thereon

680-681

The Board of Revenue authorize the sale of the useless records entered in the list which accompanies the foregoing letter in the manner proposed by the Acting Collector excepting numbers 1. 6. 8. 10 & 11, The Board consider that it would be advisable to retain Copies of these documents for the last 10 years at the least, as they may be of value for reference hereafter

2 In granting this sanction the Board depend upon the Judgment of the Ag Collector that no papers will be sold which there is any chance will be of utility in future

3 From enquiries made by the Board it seems that the paper if sold at Madras would realize very little more than the sum the Acting Collector expects to obtain for it. The Board therefore authorize the Acting Collector to send the paper to Cuttack for disposal.

Bd. No. 3602
From Messrs. De La Rue & Co.
London

Sir

Referring to our letters of June 23d & July 24th and also to the samples of Record paper to which they relate and which were forwarded per "Ava" & per "Indus" we have the honor to state that these samples have been prepared in strict conformity with the precautions alluded to in our letter of the 25th April last, that is to say from white linen ragas requiring no subsequent bleaching when reduced to pulp and with all possible care in the process of sizing to avoid any excess of alum. The samples have moreover been impregnated during the process of manufacture with such a quantity of corrosive sublimate (choride of Mercury) as we believe will be efficacious in protecting the Record paper from the distructive attacks of insects. The quantity of Mercurial salt is however is so minute that even should it become entirely converted into sulphuret of Mercury by atmospheric influence it cannot discolour the paper injuriously. We would also remark that the fibre had been impregnated with the corrosive sublimate before sizing so that this substance

is

Fort St. George 16th September 1856

is in a great measure protected from discoloration and from accidental removal in consequence of the layer of size which completely envelopes the fibres of the paper. Not wishing to rely solely on our own judgement in a matter of such importance we have as we before stated explained our views to Dr. Hofmann and requested him to give us his opinion respecting them, as the Rt. which he has recently drawn up enter very fully into the discussion of the foregoing points and other questions which might suggest themselves it desirable you should have the opportunity of using the original document which we take leave

London 110 Bunhill Row
August 8th 1856.

Signed Thos. Dela Rue

No. 1

Gentlemen,

I have now the honor of reporting you the results obtained in the analysis of the for Public records, which you have submitted to examination.

By a series of careful experiments the of which are given in the appendix, I find that the which you have forwarded to me contains on 1/3 of a grain of corrosive sublimate per sheet of This quantity is far below the amount

Fort St. George 16th September 1856

could inspire the slightest uneasiness when considered from a sanatory point of view.

As much as 2 grains of corrosive sublimate is not unfrequently given in Medicine and it is generally admitted that the toxicological effects of this compound are produced with quantities not less than 3—4 grains. Having established to my satisfaction the amount of corrosive sublimate which is present in the paper. I was anxious to ascertain how far the Mercury salt was fixed by the surface action of the paper and by the size which I understand is applied in this case after the treatment with the Mercurial preparation.

In experiments made for this purpose it was found that a sheet of the record paper when immersed in to half a gallon of water for 3/4 of an hour did not give up the slightest trace of mercury to the water. Only after one hours immersion and very frequent agitation a most minute quantity amounting to about 1/3 of the total quantity of mercury present in the sheet, was found to be dissolved.

The preceding experiments prove that the record paper which you propose for the use

use of the East India Company may be employed without the slightest fear of dangers.-

Nor can it be urged that the presence of a metallic salt susceptible of becoming coloured under the influence of sulphuretted hydrogen which is invariably present in the atmosphere of densely populated cities, would gradually lead to an objectionable discoloration of the paper. I have convinced myself by direct experiments (see appendix) that the paper even when exposed to a quantity of sulphuretted hydrogen capable of affecting the whole of the mercury-salt which it contains undergoes only a most minute & perfectly harmless alteration of colour.-

Among all substances, I know corrosive sublimate appears to be the most appropriate means of preserving paper from the attacks of insects. There are numerous on record affording information about the amount which is necessary for this purpose. From analogy, however, I infer that the quantity found in the Record paper is perfectly harmless to the human economy & unable to give rise to any objectionable discoloration under the influence of atmospheric air; it is quite sufficient for the purpose of preserving the paper against the attacks of insects which prove so destructive in hot climates.-

Royal College of Chemistry
August 5th 1856 } (Signed) A. W. Hofmann
Professor of Chemistry
Metropolitan [illegible]

Appendix

Containing the experimental details of the Chemical Examination of Messrs De La Rue & Co's Paper for Public Records.-

After several preliminary experiments the following method was adopted for determining the amount of corrosive sublimate (chloride of mercury) present in the paper.-

Solutions of corrosive sublimate were prepared containing a known quantity of the mercury salt.-

To try these solutions measured off in cylinders graduated in cubic centimeters slips of un sized paper were introduced and allowed to remain until they were perfectly moistened. They were then removed, allowed to drain, care being taken to collect the water running off in the respective Cylinders and subsequently dried. The deminution of volume which the solutions suffered by this immersion was carefully observed and thus the amount of corrosive sublimate was obtained that had been absorbed by each slip of paper; moreover each of the slips

being

Fort St. George 16th September 1856

being exactly the $\frac{1}{128}$ part of a sheet equal to the sheet of the record paper it became only necessary to multiply by 128 the quantities of the mercury salt found in the several slips in order to obtain the amount corresponding to sheets.-

The solutions of corrosive sublimate were prepared of the following composition-

a 100000 per cent of corrosive sublimate

b ——— 050000 ——— 1/2 ——— per cent

c ——— 025000 ——— 1/4 ——— " ——— "

d ——— 012500 ——— 1/8 ——— " ——— "

e ——— 006250 ——— 1/16 ——— " ——— "

f ——— 003125 ——— 1/32 ——— " ——— "

g ——— 001562 ——— 1/64 ——— " ——— "

h ——— 000781 ——— 1/128 ——— " ——— "

It was found that each slip had sorbed exactly 2 cubic centemeters of the mercurial solution In 8 successive experiments, made with the several solutions, slips were obtained, cut

Fort St. George 16th September 1856

a ——— 00200000 grains, or 0512- grains ——— per sheet

b ——— 00100000 ——— " ——— " or 0256 grains per sheet

c ——— 00050000 ——— " ——— " or 0128 ——— " ——— "

d ——— 00025000 ——— " ——— " or 0064 ——— " ——— "

e ——— 00012500 ——— " ——— " or 0032 ——— " ——— "

f ——— 00006250 ——— " ——— " or 0016 ——— " ——— "

g ——— 00003125 ——— " ——— " or 0008 ——— " ——— "

h ——— 00001562 ——— " ——— " or 0004 ——— " ——— "

The slips thus prepared were then drawn through a saturated solution of sulphurated hydrogen a slip of the record paper being submitted to the same treatment

By comparing the tint assumed by the latter with the tints assumed by the standard slips, the amount of corrosive sublimate present in the record paper was found within limits sufficiently narrow for the object in contemplation.-

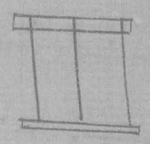
The results obtained are illustrated in the following conspectus in which paper slips treated with the several standard solutions are placed in juxta position with slips of the record paper

The several standard slips are designated by the letters corresponding to the standard solutions

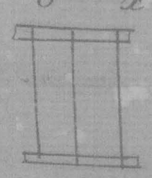
16748 Fort St. George 16th September 1856

solutions the record paper being represented by the letter x.

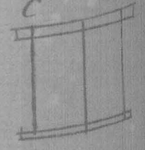
a x



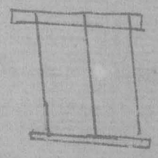
b x



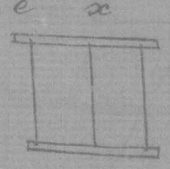
c x



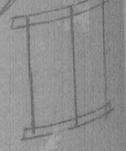
d x



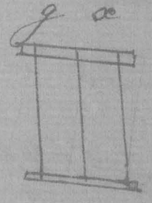
e x



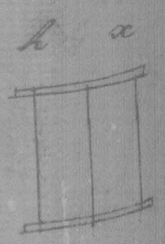
f x



g x



h x



By a careful comparison of the tints assumed by the record paper with those of standard slips it is obvious that slip e is a little Darker whilst slips f is somewhat lighter than the slip of record paper.—

A sheet of paper corresponding to e and f contains respectively—

0,032

and

0,016

it may be therefore safely inferred that a sheet of the record paper under examination standing as it does between the two contains about 0,024 Grains.— or in round numbers $\frac{1}{3}$ of a grain of corrosive sublimate

Bd. No. 3591
From the Acting Collector of Tanjore... }

Sir,

I have the honor to submit the statements of all the Convenanted Officers in the revenue department of this district together with my own, called for by the Board in their circular No. 1520 of the 19th May 1856.

2 The delay in the transmission of these statements, was unavoidable owing to my inability from want of the necessary experience to state the nature of the duties appertaining to the office of a Collector, as well as to my having been so much engaged, the last six weeks in the present anxious and arduous duties of Resident.-

A reference to the multifarious subjects that my short acquaintance now enables me to give as calling for the constant attention of the Head of this important district, will I trust in addition to the above reasons hold me excused by the Board for this delay.-

Tanjore

16761 Fort St George 15th September 1836

85 Carrying on an enormous and increasing English correspondence with the Board Government &c. &c. &c. —

86 The carrying on a vast amount of demi official correspondence —

87 The replying to the French correspondence of the authorities at Carical. —

88 The attendance at the half yearly examinations and &c reporting upon the qualifications of the junior Civilians involving generally a detention of 4 or 5 whole days during which the current duties of the Office fall into arrears. —

89 The examination into and reporting upon the qualifications of parties who offer themselves as candidates for the office of pleaders and district moonsiffs. —

90 The examination of applications from public servants for the purchase of lands in the District. —

91 There are also several other duties which it is difficult to enumerate and which take up much of the time and thoughts the officer in charge of the district viz replying to the orders of Government calling for observations and report upon general subjects such as the "prevalence of Torture" Swinging thus a saving has been effected of more than half the expences, and of the duties which nine officers in 1828 and for many years subsequently were employed in are now conducted by three and the salary of the Collector on whom the increased responsibility and labor have been imposed has been reduced &c nearly one third &c. I believe I am correct in asserting that were the same rule applied to Tanjore that obtains in the Bengal and Agra Presidencies the district would be considered more than a fit charge for one Commissioner of Revenue and two if not three Collectors & exclusive of the Political duty lately annexed to it But the union of the offices of

16762

Fort St. George 16th September 1836

swinging festivals walking thro fire the causes of cholera small pox &c. the character and efficiency of the village police, the adviseability of discontinuing prisoners confession before the heads of Police the concentration of troops the result of the planting topes the extent and improvement of the cultivation of Cotton Indigo Opium &c.

92 Further notwithstanding the intended relief to be afforded to the Collectors by the appointment of separate officers in the Postal Educational and Prison departments, yet the information and returns constantly required by the heads and deputies of these departments at a distance entail no small correspondence with the local officers upon whom most of the labors of the details still devolve for instance, the Inspector of schools writes for the Collectors assistance in procuring buildings, filling up the Tamil names &c. in his maps &c. The Inspecting Post Master wants the Collector to repair the runners huts, and finds fault because one of the ferry boats was insufficiently mended by one of the

of Collector and Resident while causing a saving to the Government has added to the expences of the Collector who called upon at times to live at Tanjore, must maintain an increased establishment being expected to support in some degree the credit of the Office and is also frequently obliged to travel on account of its duties from distant parts of the District. Had the liberal allowances which were allotted to Mr. Kindersley and his predecessors for the Collectorate duties alone been continued to his successor the extra expences which the Residency charge entails on him would not have been felt but on their now greatly reduced scale, it is different and the Collector cannot

Fort St George 15th September 1836

the subordinate Native officers and the Inspection of Prisons requires information as to the state of the ventilation in the jails the number of convicts in each jail, the division of labour and the quantity and quality of their food &c. The Collector has also to supply the materials for and an account of the work done by the prisoners in the looms.

93 The superintendence of the proceedings of Covenanted Assistant officers until they have been 12 Months in the district and are qualified to have an independent charge. This involves in some instances a greater amount of labor than that which would attend the examination held by the Collector himself

94 The discharge of political relations with the Court of his Highness the late Rajah of Tanjore Previous to 1841 the Resident was a distinct and separate officer receiving an allowance of Rupees 1750 per mensem The onerous and arduous duties at present required to be performed call urgently for the appointment of a separate officer. It is difficult to describe the Political duties but they are now sufficient to engage

Cannot but perceive that the Government are largely saving at his individual expence that augmented duties and concomitant burdens imposed on him instead of bringing with them any portion of the benefits derived by the State have on the contrary been attended with reduction of salary to the lowest possible degree; and that tho employed in an office whose responsibilities (prior even to these present augmentations) have always been considered to merit allowances larger than those of other Collectorates his are now only equal to the very lowest and his pecuniary position thereby rendered as much inferior to that of his contemporaries

engage an officers whole time as in addition to frequent official communications the responsibility and management of the whole of the extensive establishment appertaining to the Palace of the late Rajah and to which there is at present no recognized head, now devolves upon the Resident.

95 Preparing the annual Jummabundy or settlement & report of the district & containing the settlement made during the year under the different systems, the remissions granted for short produce &c. the statistics of the province, the rent roll. the state of the freshes and of the district, the prices that pervailed the dittum or estimated and actual extent cultivated of wet crops sugar cane, & cotton and Indigo the tuccavee or advances made to the meerassidars or Farmers for cultivation and the amount realized; and explaining the causes of the increase or decrease of the different items of land revenue, and & extra sources, such as & abkarry, Fish rent, & Chayaroot House & and

contemporaries as was all his predecessors superior to that of theirs & when theirs duties and their burdens were not equal to his.

7 The Honorable the Court of Directors have expressed their desire that four or five Collectorates should be classed and the officers entrusted with them remenurated as the Commissioners of Bengal and agra The late reduction of two Principal Collectorates leaves only three officers in the Mofussil revenue service receiving pay

Principal Coll. of Canara
of Coimbatore
of Madura

equal to that of Commissioners and these it is & expected will shortly be reduced to two.

Salary and Duties of Head Assistant Collector of Tanjore -

Designation of Office and present Salary	Alterations which have taken place within the last 25 years in the salary allowed.	Duties performed.	Special circumstances which are considered or ought to be considered in fixing the Salary.
		Revenue is collected from the following sources Land, Quit Rent, Fish rent, Abkarry, and Moturpha	Arrived in this District in April in this year and found the Revenue management of these two Talooks held by this sub Collector (for the purpose laid down in Revenue Board's Circular Order 3d October 1853) with whom they remained until the commencement of the present Fasly when they were made over to me as the usual Charge of the Head Assistant, I consequently am scarcely able to give from experience any accurate account of the forfeitures of the duties of the Charge and the difficulties which may be found in administering it. The little I have seen of it and the information I have been able to gain concerning it lead me to a conviction that it is no slight one - The Settlement is Tarum Fisel but there are a few Olungoo rented Villages the duty therefore is considerably less complicated than that of the other Talooks of the District -

The

up without its proportion of exaggeration or
falsehood-

Tanjore being a Maritime District a Ma:
=gistrate's duty in the Sea board Talooks include
breaches of Salt Laws smuggling and thefts of
articles thrown up by the Sea a considerable
portion of the inhabitants of these Sea board
Talooks are miserably poor-

Since I arrived in the District in April
I have passed in Magisterial Department alone
256 orders and filed 112 Petitions- The French
Settlement of Karikal being situated in the District

gives one to the rather unusual offence of crimping investi:
=gation of which cannot be referred to the Head of Police-

Having been obliged on my entrance on the
duties of my offence to Master the details of the
Collection and Management the Extra Revenue
which falls to my charge which were quite new to
me, I have been able to give less attention to the
Magisterial duties than I should have otherwise
done, as for instance in disposing cases under
Act 7 of 1843 which very materially adel to the
labour in as much as all other work must come
to a stand until the case is concluded- Great stress
is laid by the Magistrate on the necessity of exer:
=cising these powers- This will make the work under
this Head about ½ as great again as it is now-

The

Collection of Salt Revenue.

In 1836 the Commission granted to Collectors and their Head Assistants was abolished it had been 1½ per cent on sales divided in proportion of ⅔ to the former and ⅓ to the latter.

Vide Memo on Salt Page 9 Paras 29, 30 and 31.

Salt Revenue

The Head Assistant Collector has charge of all the Salt transactions in the District.

There are 5 Salt Division of 19 subdivisions containing 36 Plat forms. Salt sale for Fusly 1265 — Rupees [illegible]

The details of duty are as follows.

The checking on receipt the account of Manufacture, sales, and wastage received from the Pans and Plat forms.

2. Prepairing accounts in transmission thro' the Collector's Office to the Board of Revenue which are in No. 7 of which are, Bi Monthly 1 Monthly 1 and 5 yearly total in the year 41 accounts to be kept in the Huzzoor with enclosures 13 shewing the daily Monthly and yearly transactions of receipts and charges.

Annual

The Salt Manufactures and Collections is a most troublesome charge the amount of labour and responsibility great while no extra allowance is granted to repay it.

The duties of Head Assistant in regard to the Salt Department are by far the least pleasant of any he has to discharge. Fraud always exists in this Department and the utmost vigilance is necessary to check it in fact the chief difficulty in the Department lies in the proverbial dishonesty of Salt servants which arises from the opportunity and temptation all both high and low (who are miserably paid) have to cheat in the storing and Sale of Salt. This in spite of all checks and precautions it is impossible entirely to prevent and the Office is inundated with complaints from Superior and inferior against one another the degree of falsehood and truth of which it is next to impossible to discover constant and unwearied attention to the pittiest details and commonest Statements is indispensible and is accompanied by the unsatisfactory conviction that it may be all excercised to no purpose. It is a common saying among the natives that if you wish to ruin a man there is no way so sure as putting him in the Salt Department.

It

Fort St. George 16th September 1856.

3. Annual inspection of Salt Manufacture -

4 Drafting answers to all questions and communications from whereever received regarding Salt Manufacture and revenue and furnishing any Statement called for and forwarding the same for Copy and transmission to the Collectors Office -

5. Superintending the conduct of Officers connected with the Department, and regulating succession to Offices vacated

6 Receiving and disposing of Petitions -

7 Regulating transfer of Meerasy right to Pans and settling Cases in dispute -

It will be seen from the details in Column III that the Current work of this department is very considerable and responsible - The accounts are of course voluminous as they include items from 1 Rupee to 1200 and the total revenue realized is very large and increasing -

The annual inspection of Salt is in itself no little matter - The Salt Division and Sub Division are spread over a space of 165 Miles which has to be travelled every year by the Head Assistant Rs. A. 8 2-10-0 a day Extra Tent allowance is granted for this which is about 1/3 if as much of the cost for the roads are bad and in some places hardly passible for wheeled carriages and the distances has therefore to be done on horse back or in a Palanquin - Every platform where salt is Manufactured during the year and stored has to be visited and the Salt examined and enough heaps measured to enable the Officer to judge if the returns are correct the distance of the Plat forms from the Head quarters of the division vary form 1/4 to 30 Miles. This I should imagine could hardly be done well under a Month or six weeks during which time in spite of the extra labour travelling and exposure, the Current work of the Office has to be kept down as much as possible -

The Head Assistant Collector is moreover called on for all information which may be required

Fort St. George 16th September 1856.

required concerning the details and working of the Salt Department which is forwarded like the accounts on his responsibility so that English correspondence forms another item in his duties from which other Head Assistant are generally nearly escempt-

The Salt Department containing 185 Subordinate Officers and employes-

The duties to be performed under this head tho' far easier and more agreeable than those of the Salt Department are by no means inconsiderable The items of account are often very small and the total transaction very large- The duties are rendered lighter by the much greater degree of integrity and honesty among the subordinates- The accounts are all received in Tamil and much trouble is often found in translating the items correctly and in drawing up the Statements required to be transmitted to Madras mistakes which however cannot be always prevented A good deal of English correspondence connected with the Department is, as stated under the head of Salt conducted entirely on the responsibility of the Head Assistant Collector-

I conceive that to render the supervision complete every port should be visited yearly which of course will aded to the trouble and escpence of the Office- There are 6 Principal and 5 Subordinate Ports in the District extending over a space of 160 Miles-

1. Sea Customs Superintendent-

D. Sea Customs are collected from principal and subordinate ports and realized revenue for Fasly 1265 Rs. 20,11,06

Of Duties-

1- Supervision of accounts and forwarding abstracts &c. to Reporter of External commerce at Madras

2- Exercising powers of Collection of Sea Customs under Act 6 of 1844-

3 Regulating sale and due disposal of all articles thrown up by the Sea and keeping accounts of the same-

4 Supervising state of Ports and harbours-

5 Affording all information called for and transmitting the same to the Collectors Office for communication

communication to inquirer

6. Registering Boats &
and Catamarans plying in
the ports.

7. Issuing Port clearance
from Boat notes and Ma:
=nifests as required for use
in the Ports supervision of a
appointment of subordinates
There are 46 persons em:
=ployed in the Department.

Land Customs. 8. Total Collection of
Sayer for Fasly 1265 &
Rupees 41228.

The duties under these
heads are very much the
same as those enumerated
under the head of Sea &
Customs.

These Sayer Collections are made by one &
Officer at Sumamungalum from whom all &
reports and accounts are received. The subordi
=nates are generally honest and the detail of the
duties not very heavy.

He must be some
reports thus as well as in the Sea Customs and &
Salt Department are made by letters which create
a large mass of correspondence none of the officers
employed have any Judicial authority so that &
every thing has to come before the Head Assistant &
Collector however trifling the confiscation of the smal
=lest articles for breach of customs regulation can only
be done on order of the Head Assistant to whom the sale
of every Maund of salt is reported and who decides on
questions of wastage of a Mercal which is about &
equivalent to 7/10 and is worth about 7d sterling.

It is chiefly the minute less of the details
each of which is the subject of a separate commu:
=nication and order that render the duties of
these three departments so heavy.

These

16771

16775

Fort St. George 16th September 1856.

6	Register of Shipping	F. Register and transferring register of shipping under Act No. 10 of 1841 and boats under Act No. 4 of 1842 and 9 of 1846 Ships Registered No. 21 Fees collected Rupees 361	These duties are not very heavy there are not many ships registered, the average being about 2 or 3 a Month but the process of registration takes some time and stops all other business. On this matter the Head Assistant Collector or Register of shipping corresponds directly with the Register of shipping at Madras.
7	Marriage Registrar	G. To celebrate marriage under Act No. 5 of 1852.	The services of the Marriage Registrar are not often called for, but the Registrar is at the beck and call of any one who requires him and from the wording of section 4 of the Act it would seem that he may be called upon to officiate in any place in the district the parties choose to appoint. There is no salary attached to the office nor is any part of the fees received of the Registrar.
8	Charge of Roads	H. Superintendance of roads in Talooks of Keevalore Trivalore Codavassel and Paupamassem.	I have celebrated 2 Marriages in three Months. This also necessitates moving about a report has to be sent in every quarter on the State of the Roads The distance of road in these divisions accounts on a rough Computation of 230 Miles.
9	Charge of Jail at Negapatam Containing 30 Prisoners.	I. To inspect the Jail occassionally regulate the labour of the convicts check the amount of charge and if necessary proceed under Regulation X of 1832	The work under this Head comes under the Magisterial Department and is not very heavy in itself but of course of adds its mite to the total of duty. In the absence of an Assistant the Head Assistant has charge of the Jail and Treasury at Tranquebar.

General

16776 Fort St. George 16th September 1856

General observation

It will be seen from this Statement that the Head Assistant of Tanjore has no less than nine departments under him and the total Revenue collected for Fusly 1265 was 1394,917 Rupees and the Pay of the Officer being 9174 Rupees per Annum with deducting the compulsory subscription to the Civil Fund shews the pay of the officer to be in proportion to the work done as 1:157 Infact the amount of Collections under the Head Assistant Collector of Tanjore for Fusly 1265 exceeds the total revenue from all sources of Chingleput and Ganjam in Fusly 1263 and is nearly double of that of Kurnool. To go over the items of accounts alone would taken up the full time of the Officer without any Magisterial duties at all. While the superintendance of the Roads can only be exercised by being constantly on the move. I believe I may safely say that the duties I have to perform are very considerably heavier in detail and being so multifarious more difficult than those of almost any Sub-Collectorate and that with a very inadequate establishment. The climate is good, House Rent 35 Rupees a month but all stores must be obtained from Madras which is nearly 200 Miles from Negapatam

(Signed) S. L. McGrenfell

3 General Superintendance over all Public works in course of execution in the Mannargoody and Puttookottee Talooks and occasionally in the other two Talooks.

4 Inspecting once a quarter and reporting on the Roads in the 4 Talooks Mannargoody Puttookottee Trivady and Papanasem.

work in 4 hours Last year I disposed of 20 cases under the extended Magisterial powers (Regulation X of 1816 of the Madras Code) and in 6 months which have elapsed of this year, I have had the same number to decide. This work is by me termed hard not on account of its nature, so much as because it in a great measure puts a stop to other work being carried on at the same time. The enclosed form shews the number of orders in both Police and Revenue Departments issued from this Office in the course of last year No. of Petitions received &ca.

Maramut to a very considerable extent is early carried on the Mannargoody Talook. The account annexed shews the amount expended in the last 10 years. The Puttoocottee Talook has hitherto been much neglected in this department but now progress is being made. The trouble in carrying out any public work in this Talook is very great partly owing to the want of both artificers and materials brick earth &ca which both have to be sent for from a distance.

4 A glance at the map will shew that the number of roads in the 4 Talooks Trivady Papanasam, Mannargoody and Puttookottee is very great and that in order to report on any thing like a considerable part of them the

16780

Fort St George 16th September 1856

	Rs A P (2-10-0 per diem)	the inspecting officer must be constantly on the move no travilling allowance is allowed but Extra Tent allowance is drawn when not at Tanjore or Mannargoody (It is however permitted to be drawn for 30 days in one year at the latter place) The head quarters of the office was formerly at Tanjore It is now at Mannargoody twenty miles south of it. No Kachery building is provided by Government.
5 Investigating and reporting upon the lapses of Enams.		5 The heaviest part of all the work attached to the Office is the reporting on the lapsed Enams The following remarks may serve to illustrate the nature of this duty There are 622 Shrotryam and Sirvamanyam Villages in the Puttookottee Talook alone and 40 in Mannargoody making 662 for the two Talooks Every Village is minutely subdivided among the descendants and donees of and purchasers from the original Grantees

Rd. No. 3341

From the acting Collector of Masulipatam† — Sir, Para. 1 — I have the honor to acknowledge the receipt of your Circular No. 2204 under date 15th July last regarding the introduction of the new forms of Village accounts and the cost of paper attending it. In this District the accounts written by the Kurnums is supplied by themselves at their own cost. The new forms will therefore entail no additional expence on the state and I do not think they will entail any upon the Kurnums either.

2 The new forms are framed specially to suit the circumstances of Nyelwary District where in there have been a land measurement and field assessment. In this District neither of these has taken place. The system of settlement is the Village Joint Rent which is known only in two of the Districts of this Presidency. The theory of this system does not necessitate

† Masulipatam Rajahmundry

necessitate the Keeping of many of the accounts pre=
scribed by the new forms but as the practice resembles
Ryotwar Districts there is nothing to prevent the Keeping
of the accounts in the new forms in a great degree tho the infor=
=mation therein given will often be more nominal than
real. During the last Jamabundy the printed Manuals
were distributed to the Kurnums in order that they
might make themselves acquainted with the contents
and state any objections they might find to their appli=
=cability. As in the end there appeared nothing to hinder the in=
=troduction of the new forms generally orders have been
issued to bring them into force from the commencement of this
Fusly.

3 On the subject of Extra Goomastahs whom Go=
=vernment have resolved not to allow this year. I must
beg permission to say a few words. I have no doubt that
when the accounts are once drawn up in the new forms the
assistance of Extra Goomastahs will not be needed. But
owing to the confessed inadequacy of the Establishment
of this District both Hoozoor & Gybut and to the fact of this
year being the first of the new forms much inconvenience
will be felt if the aid of Extra hands during Jamabundy
time is withdrawn. I hope therefore that the Board will
be good enough to recommend to Government not to enforce
their resolution for this year for this District.

Forwarding the complaint and sentence in a Torture case lately disposed of by the Joint Magistrate of Nellore

Extract Minutes of Consultation dated 10th June 1856
Ditto 23rd July 1856

Sir,

With reference to the orders of Government marginally noted I have the honor to forward the complaint and sentence in a recent case of alleged Torture disposed of by the Joint Magistrate.

The facts of the case as furnished to me by that Officer are briefly these. The 1st Prisoner Gopalasawmy Naidoo lost a Box containing papers and money on the morning of the 12th July last, and as he suspected the complainant of having stolen it he sent for him in the early morning and as stated by the Complainant the three prisoners then burnt him with a firestick on the wrist to make him point out where he had concealed the box. They shut him up in a closed room on visitors coming where the Complainant was seen by many respectable parties. At 11 O'Clock he

1 G. Gopalasawmy Naidoo Garrison Dresser
2 E. Rungiah Garrison writer
3 Abdool Kareem

he was sent to the Barrack guard, as stated by the 1st Prisoner to the Sepoys on the orders of the Commanding Officer, and was Kept in the Barrack guard until the evening when the Commanding Officer, and Tahsildar went there together, and he was made over to the charge of the latter.

3 As soon as the Commanding Officer had gone away the Complainant made his charge to the Tahsildar, and shewed him the blister on his wrist. Previous to that time he had complained of Illusage except as he stated to the Sepoys who denied the fact.

4 The Commanding Officer has stated that he gave no orders for the detention of the complainant in the Barrack guard and was misinformed on some points and Kept in the dark on others by the 1st Prisoner with reference to the true facts of the case. The detention of the Complainant in the Barrack guard was clearly the unauthorized act of the 1st Prisoner who had sufficient influence over

over the Sepoys in the Garrison to have his orders executed without questioning.

The case has been appealed

5

to the Sessions Judge who has informed me that he considered the evidence of the guilt of the parties very deficient and that he had consequently acquitted & released them.

The persons charged in

6

the present instance are not Revenue Police Officers and with refer-

Para 1 -ence to Extract minutes of Con-
-sultation dated 2d August 1856, I beg to request instructions whether in future such cases, as this or the one referred to, in my letter of 30th July 1856, are to be reported.

16806. Fort St. George 17th September 1856

Read Petition dated 19th August

1856 from P Yagambara Pillay late Tahsildar of

723 Valcondapooram in Trichinopoly

Bd No. 3064

Proceedings thereon

Under date the 12th of Oct

October 1854 the Board at the recommendation of the Collector

of Trichinopoly sanctioned the removal from his

Office of Tahsildar of Valcondapooram of Yagambara

Pillay, directing at the same time that Mr Baird

should provide him with any less important post for

which he might be qualified

In petition No. 76 of 1855 Yagambara

2

Pillay having represented that he was still unemployed

the Board on the 17th of July 1855 called upon the

From Collr 3d July in cons 18th Septr 1855

Collector for explanation, and learning that no suitable

vacancy had yet occurred the Board expressed

Extl Cons. June 18th Septr 1855

them regret that the opportunity of the removal

of petitioner and of two other Tahsildars had not

been taken advantage of to provide him with em-

-ployment and desired the Collector to report for

what situation he considered Yagambara Pillay fit

In reply to this request the Collector

3

on the 21st of September 1855 reminded the Con

Board

In Cons 18th Oct. 1855

Board that as the them vacant talooks were filled by men not in permanent employ their appointment, had made no vacancy to which Yagambara pillay could be nominated and stated that the Offices of Carcoor & Pishary talook Goomastah were all Offices to which the applicant might be appointed on a vacancy.

4 Yagambara Pillay having again represented to the Board that he remained without employment his case was once more referred to the

Endorsement on Pet. No. 1856 of 56

Collector on the 22d July last with a request that he would take note that ten months had elapsed since he last reported his intention of providing for the petitioner in some subordinate situation, and in the Column of remarks in

R/4th in Cons 11th Septr 1856 Inv No. 2110

Mr. Birds Petition register for August it is stated that "particular notice has been taken of Petitioners case."

5 From a petition presented by

Date of receipt of Petn. 2510 of 1856

Yagambara Pillay on the 4th November the Board learn that the Collector having offered to

to employ him as a Head Curnum, he declined the Office, and is still without employment, although the Offices of Moograndar and Police Ameen have both been vacant since his case was advocated by the Board.

6 The Board regret that they cannot but feel that the attention which was due to their views in petitioners case has not been paid by the Collector. In sanctioning the removal of Yagam-bara Pillay from the Office of a Tahsildar the Board directed his employment in a Minor Situa-tion, his being provided with which therefore was an implied condition of his removal from the higher Office. On more than one occasion since the Board have reiterated their opinion of the justice of the mans claim to employment, and they do not consider that the Collector has met their views by his Offer of a Head Curnumship.

7 Unwilling as the Board are at all times to interfere with the patronage of Collectors, they cannot allow that a Servant whose removal from one Office they

8

they sanctioned on an implied condition that he should be nominated to another should he be left wholly unprovided for, for they cannot admit that the Collectors Offer of an Office so very subordinate as that of a Naud Curnum which it would not be reasonable to suppose that an Ex Shasildar would accept, is to be considered as any provision at all

8. The Board are therefore obliged to direct that the Collector will appoint Yagambara Pillay to the next vacancy that may occur among the Talook Sheristadars Goomastahs or the Peishcars and that he will report to the Board in having conformed to their directions.

731

Bd. No. 3674
From the Acting Collector of Ganjam

Sir

With reference to the Extract from the Proceedings of the Board of Revenue under date 23d May last No. 1569 I have the honor to inform you that from the records of this Collectorate it appears that in 29 Villages only of the Poobbacon-dah Tanlook the practice of receiving fees from the payers of the Moturpha tax excists. The rate varies from 2 annas to 3 annas a rupee. Except in four of these villages where the Naidoos also receive an anna upon every rupee of the Moturpha tax fees are paid only to the Curnoms although it cannot be traced to any re-cognition on the part of the officers of Government, yet I believe the practice prevails to a greater extent than at present known. In the event of Government

Fort St. George 17th September 1856

Government giving up the Moturpha taxe I do not think that any remuneration will be necessary - For the owners in as much as their right has never been acknowledged will not claim it. The service enams being very small the Curnums have been led to make these collections to remunerate themselves for their trouble; all such fees will be struck off when the revision of these Enams is completed -

2 With regard to the yearly issue of puttahs, such has not been the custom of the district, no puttahs whatever have been issued at Chicacole the parties came before the Principal Assistant Collector and sign a Mookilka, and one general puttah is given to each caste in the districts where there are but few payers this is done before the Tahseldar, and only cases of dispute come before the Collector; where a Collector as is now required makes his Summabendy in every taloak and ryots have no great way to come; I think is a

Fort St. George 17th September 1856

a good plan that they should attend and have an opportunity of seeing their European superior and the mere entry of the date and his initials in the case of any alterations or stamps when there were none to make would take up little time or trouble. I hope to have all the Revenue puttahs printed this fasly; -

743

Bd. No. 3672.
From the Ag. Collr. of Tanjore
Reporting on the provisions of Act XXII of 1855.

Sir,

With reference to the letter from the Marine Board No. 306 dated the 1st February last, I have the honor to enclose herewith a Statement, giving as much information as I have been able to collect, on the subjects particularly adverted to in the said letter, on Act XXII of 1855, which I trust will be useful in regard to the rules the Government wish the Board to prepare as stated in the Board's Circular No. 2015 of the 3d July last.

2. From the appendix A. and to the letter No. 2624 from the Secretary to the Marine Board to the Chief Secretary to Government the ports recommended to be immediately declared subject to the act are the ports of Nagore, Negapatam Tranquebar, Topootoray, Teroomulwassel, Moottoopettah and Adrampatam.

The total Collections at these ports for Fusly 1265 are as follows:—

Names

Names of the ports.	Total Collection	Anchorage and Port dues &ca.	Charges
	Rupees.	Rupees	Rupees.
Nagore	16,340	1,330	2,154
Negapatam including Velangany	101,039	1,351	4,310
Tranquebar	24,319	772	1,239
Teroomulvassel	11,604	442	799½
Moottoopettah and adrumpatam	41,486	435	1,711½
Topootoray	7,218	150	567
Total	201,406	4,480	10,781

3. Though the total amount of Collections from these ports is very considerable, it must be remembered that all the goods on which duty is levied, are brought into the ports, in boats of which there are at each port, a certain number registered. No ship loaded can enter any of the rivers forming the ports, and those that do so enter unloaded, do not exceed 211 tons burden, and they can only be got up or down the rivers, which is seldom attempted except for urgent repairs, or on launching, by means of great labor, and no inconsiderable expence; such a thing as a ship loading her cargo in a port is utterly impossible.

4. Many of the rivers leading down to the Sea are of considerable depth, but the bar

at the Month is an insuperable obstacle to the entrance of any craft of any size when loaded or to the excist of the same.

Section V

5. The boundaries I conceive should be settled by a competent professional authority after a careful survey of the ports, the limits being distinctly laid down in a map or plan certified as correct, to be held as conclusive authority in any matter of doubt or dispute, should such hereafter arise.

Section VI

6. The ports of chief importance is Negapatam, which however labors under the same disadvantages as all the others. The Sea Customs Manager there stationed Mr. J. Jensen is I conceive from his long service and familiarity with the necessities of the port best fitted for the post of Conservator of that port, and his intelligence and activity, point him out well fitted for the general Superintendence of the ports of the district. His pay is Rupees 60 per Mensem I would suggest that it might be raised to Rupees 100 or 150 with or without some travelling allowance, the distance between the ports being very considerable. The present Sea Custom Managers

Managers and Peishcars and successors might be appointed to the conservatorships of their respective ports subject to his authority and reporting to him, while he should have as his superior in authority, the Collector or his deputed Officer-

Section VII. 7. It would be seen from what has been stated above, para 3, that no ship of any size ever enter the river, except for the purpose of repair or launching and that empty under these circumstances the different clauses of the section would in no way affect vessels on which the general prosperity of the port depends- No formal port rules exist- The dhonies that enter go where they can and the boats (Clause XI) are already under certain rules which appeared in Fort St. George Gazette April 23d 1847. I passed an order a short time ago and the request of the Engineer prohibiting all docking below the second "vaganery" at Nagore which is the only formal Port rule that I know of, existing in the district- If such port rules are needed, it is obvious that they must be drawn up by a professional hand, but I have the authority of the Sea Customs

Manager

Manager at Negapatam that at his port none are required, and I presume the less important ports can hardly be in need of them-

Section XIX. 8. I know of no impediment or obstruction in any of the ports, excepting the natural deposits of sand and mud-

Section XXIV 9. No ballast comes into the ports except in dhonies, and that very seldom all that can be obtained, is taken up for road making-

Sections XXIV XXVI and XXX- 10. The Shipping is by no means crowded, but a place might well be set a part, for boiling pitch, if only to prevent the chance of any accident occurring; which place with those referred to in Sections 29 and 30 should be decided after a Survey of the port-

Section XXXII. 11. The officer should be the conservator of the port, or in his absence his first subordinate-

Section XLI 12. The fees now leviable are not found exorbitant; and no remission seems required the existing scale may be continued for the present-

Section XLIV 13. The Engineer should be called on to estimate the probable repair required and the

the cost until the amount to be laid out is known it is impossible to state whether the port can bear the expence from its own fund, whether of principal or interest; the following is the statement of port dues and charges for the last 3 years.

Years.	Receipts.	Charges.
1853	3,904	5099
1854	3,956	2867
1855	4,480	2811

14. The account should be kept by the Conservator.

Section XLV. 15. Form of account and receipt is enclosed.

Section XLVI. 13. The place of report should be the Conservators' or Master attendants' Office.

17. I trust the information given above and in the tabular Statement enclosed will enable you to judge whether the ports are of sufficient importance to be brought under the act in question. The Revenue Board in their Circular No. 2015 request to be informed whether there are any objections to the ports in question being brought under the act. In reply to this I would say I know of no objection

objection, except that from their natural deficiencies they can scarcely be said to require the formality. If however it be thought advisable to extend the provision of the act to any or all of them, I would urge the necessity of having the details settled once well and for ever, which I conceive can only be done by having the port rules arranged after a Survey of each port.

Tanjore

From the Collr. of Madura

Sir,

1 In reply to the Proceedings of the Board dated the 15th May 1856 No. 1464, I have the honor to state that in this District Goa paper of which I enclose a specimen has entirely superceded the Country Paper both in the Hoozoor and Talook cutcherry's for the purpose of correspondence and depositions and also to a considerable degree for accounts. In the Villages the Curnums have prepared their accounts on Country paper which is better adapted to their rough writing and more convenient as regards size.

+ received from the Superintendent of Stationary

2 For some accounts in the Hoozoor and Talooks where a larger

Bo No 2224
From the Offg Agent to the Governor of Fort St George at Kurnool - - - - } Sir

Submitting annual report on the Settlement of Land and Extra Sources of Revenue &c of the Kurnool District for Fusly 1265.

I have the honor to submit the annual report on the Settlement of Land and Extra Sources of Revenue &c of the Kurnool District for Fusly 1265 together with the prescribed Statements.

2 The Summabundy operations commenced on the 15th November 1855 and were concluded on the 24th April 1856. The Pannicum Nundicoor and Goodoor Talook were settled by myself and Mr Daniell conducted the Settlement of the Dhone Talook and of some Villages in each of the Chagulmarry, Sirwell, Nundial, and ettcoor Talooks. In consequence of his demise on the 7th March 1856 the Settlement of the remaining Villages devolved upon me. The Stations at which the Settlement of each Talook was made are enumerated in the Statement No 4 a number of Villages of different Talooks were settled at yelgode by permission of the Board simultaneously with the local exhibition which was held at that place. The reason of the

issue

16847 Fort St George 18th September 1856 –

issue of Puttahs of the other portions of the said Talooks both at Kurnool and at Calwah was owing to the prevalence of Cholera in the District. –

Villages and Hamlets		
Government Villages	470	
Hamlets	100	570
Shrotriem Villages paying fixed Jodee	6	
Do Do Hamlet	5	11
Jagheer Villages employed in life tenure		8
Surva Enam Villages		1
Villages	485	590
Hamlets	105	

3 – The number of Villages and hamlets brought under settlement in the year under review is the same as in Fusly Ch amounting to 590 – The Town of Kurnool not being included. –

4 The following is a Statement shewing in detail the sources of Irrigation in this District which corresponds with the Statement of the previous year. –

The

Season- 7- The season generally was not very favorable- The early rains very scant consequently the yellow Jawary Kungony and other Poonasa Crop throughout the Dis-trict except in the Attoor Talook sustain-ed considerable injury but owing to an abundant fall of rain in September the Poonjah Crop in the Paunicm Chagulum and Nundicootcoor Talook recovered and produced a fair yield in the Nun-dial and Goodoor Talook the crops are below the average- In the Dhone Talook and in 2 or 3 Villages of the Sirwell Talook the crops suffered greatly from blight- the falls of rain in September and October favored the Rubbee Crop. The white Jawary wheat Chenna and Cotton yielded a fair harvest throughout the District except in a few Villages of the Dhone Talook- Owing to a deficient sup-ply of water in the Tanks generally; and especially in the Nundial Talook situated at the foot of the Nulla Mulla which are unprecedented

unprecedented- Dry crops were raised in the wet lands situated under some of them- The wet crops under the remaining reservoirs of the pro-vince produced a good harvest but in some localities in the Attoor, Sirwell and Nun-dial Talooks the supply of water being insufficient the crops dried up; Notwith-standing all these disadvantages high prices compared with former years ena-bled the cultivator to meet the demands of Government-

8 The annexed Statement prepared as hitherto will shew that the prices of all grain excepting Codroo- Cungonee, and Cotton were below the average prices of the preceding year-

Net Increase 267 6 7

16856

Fort St George 18th September 1856

10 This decrease in the Shrotriem Talook is owing to the deduction on the Villawarees of the assessment which changed for the cultivation of -ably changed for the cultivation of the Fusly 1265 the water failing in the reservoirs also to reductions of assessment amounting to Rupees 600 on Lands at Coligotta which were found to be over assessed and to the deduction from the Villawarees of certain Dry waste Lands heretofore charged to

Pycotts.-

The decrease in the

11

Goodoor Talook arises from Lands having

12

On the cultivation Talook, the Villawarees Being thought Cofs them on the last year the excess of Land brought under cultivation is in excess the decrease arises

arises from a deduction in the Villawaree of reductions made on certain cultivated lands too highly assessed at Taregoppala and other Villages in which remission was granted as shewn in Para 38 of the report for last year, also to the deduction from Villawaree of the assessment leviable on the cultivation of Fussuljasty crops, which failed from an insufficient supply of water in the Reservoirs.

13 The increase in Chagulmurry, Sirwell, Nundial, Paunicom and Nundicootcoor Talooks arises from waste lands and sequestered Enams taken up for cultivation being in excess of Lands relinquished by impoverished Ryots notwithstanding reduced assessment on certain high assessed

assessed lands.

14 The subjoined Statement shews the particulars of the increase and decrease of the Villawaree Beriz.

16861 Fort St George 18th September 1856.

15 I will confine my remarks in regard to the causes of the increase and decrease to those items only which the statement does not itself sufficiently explain.—

Entry No 5.
Sirwell — 118-6-8 (Ro a p)
Nundial 13-13-11
Goodoor — 14-13-10
146-8-5

16. The decrease to the extent noted marginally arises from the restoration to Shajada Saib and Humza Hoossainee of their Enams together with the arrears of rent for Fuslies 1263 and 1264 disbursed to them to the amount of Rupees 247-8-6 under the orders conveyed in the Extract from the Minutes of Consultation dated the 17th February 1855.

Entry No 6.
Lands taken for Roads.
Paniem — 23-8-4
Dhone — 109-5-6
Goodoor 140-11-6
273-9-4

17 This decrease is on account of certain lands assessed at Rupees 254-10-- having been taken up in the year 1264 for public roads, for which remission was allowed in last year as adverted to in para 28 of the Report for that year, and also on account of certain lands assessed at Rupees 18-15-4 having been taken up in the Current year for the improvement of the same Roads.

Entry No 7
Lands taken for Public buildings
Rs 4-10-4.

18 This decrease was owing to a plot of land assessed at Rupees 4-10-4 having been taken up this year for building a Travellers Bungalow at Chinna Takoor in the Dhone Talook.—

In

20 In the decrease from reduction of assessment entered in the above Statement are included the sum of Rupees 151-7-3 and Rupees 1,754-3-5 referred to in Paras 29 and 37 respectively of last years report. The rate of assessment heretofore levied on certain wet and bagayet lands at Bookkapoor was regu-lated with reference to the nature of the crops raised upon them, the system was obviously ob-tionable and the rates were accordingly irrespectively of the crops raised, as mentioned in the 17th Para of the last Report, and the re-sult of the arrangement is a net decrease under this head of Rupees 140-.-.- The reduc-tion amounting to Rupees 560-.-.- made on certain highly assessed garden and dry lands at Tungadunchu, in the Nundicootcoor Talook were inconformity to the Extract from the Proceedings of the Board of Revenue under date the 28th May 1855 exclusive of the assessment imposed on the Ezara or rent free lands hereto attached to those lands as compensation to the cultivators

cultivators of such lands. I have also to no-tice that Goottajasty amounting to Rupees 367-.-.- was at the same time made on certain lightly assessed lands of this Village which will appear under its proper head. The reduction on certain over assessed lands at Culgotha in the Dhone Talook was made by the late Mr Daniel during the Settlement of last year but owing to a portion of the assessment having been al-ready collected, he ordered the balance then outstanding against such ryots to be suspended from collection. The reductions made on that account in the Current Fusly amounts to Rupees 600-.-.- and Rupees 52-.-.- in four or five other Villages.

Resumed Enam lands taken.

21 The lands resumed in the Current Fusly and taken up for cultivation during the Villawaree is shewn in the sub-joined Statement.

Tax on Rent free Lands - 23 - The practice of rent free land hitherto alluded as compensation to the cultivators of over assessed Lands was noticed in the late Mr Daniell's letter to the Board's address dated 23rd April 1855. These Lands have been assessed in the year under review and a reduction of assessment was allowed on the highly assessed lands attached to them under the instructions conveyed in the Extract from the Proceedings of the Board of Revenue dated 28th May 1855. No 305.

Entry No 3
Teerwajasty
Rs 387-3-1.

27 This remission was owing to certain dry lands usually cultivated with wet crops being cultivated with dry crops in consequence of a deficient supply of water.

Entry No 4
Tussuljasty
Rs 4593-2-3.

28 The remission under this head was on account of Lands under the large Tanks at Cusbah Nundial and other Tanks not having any supply of water to admit of a 1st or 2nd crop being raised.

Entry No 5
Lands inundated
Pauniem 16-8-
Dhone 364-7-3
380-15-3

29 This remission was granted on lands situated in the beds of Tanks which could not be cultivated in consequence of water remaining in them at the usual period of Cultivation and for lands in some Tanks which had received no supply of water.

Entry No 6
Payamally
Rs 112-7-5
Nundial 35-6-1
Paniem 77-1-4
112-7-5

30 The remission granted under this head was on account of lands in the Talooks noted marginally being rendered unfit for cultivation by an overflow of Jungle streams and on account of certain Lands having been taken for public Roads.

Entry No 7
Goottacummy
Remission
Rs 98-15-7

31 The Remission of Rupees 98-15-7 shewn in the following Statement is a reduction of the assessment on lands long waste in the Talooks entered in the Statement.

33

The subjoined Talooke-wa-
Statement exhibits a comparison the extent
land actually cultivated in this and the pre-
Fusly from which it will be seen that in the
current year there was a decrease of Rupees
2243-2-1 in the Nundical Talooke and an
increase of Rupees 8556-11-9 in the remain-
-ing 7 Talooks the result being a net in-
-crease of Rupees 6313-9-8 assessed on the
Lands actually sown as compared with
the preceding Fusly.-

16888 Fort St George 18th September 1856

Decrease of Jodee Rs 1180-13-2

50 The decrease of Rupees 683-3-4 is owing to the remission of Jodee levied on the usual 1st Crop and Fussuljasty Enam Wet lands under the Tanks of Nundial left uncultivated from want of water and of Rupees 396-3-4 is owing to the difference between the usual Jodee leviable on the Enam wet lands, and the assessment at the rate of 5 Rupees levied in the current Fusly on the dry Crops raised on these lands the resumption of certain lapsed Enams the surrender of several Enams by Enamdars unable to pay the Jodee and the resumption of other Jodee Enam lands Rupees 101-6-6.

The

Enamity Putty Rs. A. P. Increase 1285-7-1

51. The increase under this head was owing to a greater extent of Enam lands having been cultivated in the current Fusly.

Decrease of Enamity Fus=suljasty and Teerwajasty Rs. 162-1-9.

52. The Amount of decrease of Rupees 162-1-9 is on account of certain Enam Dry lands last year cultivated with wet and Bagayet Crops having been in the year under review left waste from want of water.

Groves and Scattered Trees. Increase Rs. 752-6-

53. The increase under this head was Rupees 752-6- which is owing to the assessment at

at the rate of annas 4 recently levied on each of the scattered fruit Trees.

Orchards Decrease of Rs. 63-"-"

54. This decrease arises from a lesser competition for the rents of Orchards.

Palmyra farm Increase

Chagulmurry	57-"-"
Nundiah	28-"-"
Pauniem	205-"-"
Total	290-"-"

55. The increase noted marginally is owing to the fruit and leaves of the Palmyra Trees which have hitherto been enjoyed by the Abkarry renter but without any Stipulation to that effect being separately rented out in the year under review.

Pollary Rs. A. P. Decrease 316-"-

56. The decrease under this head arises from a lesser competition amongst the bidders for the pasture lands in the Atcoor Talook.

57. The following Statement exhibits the general results of the settlement including the Land Revenue, Jodee Enamity, and Groves &ca. in the year under review in comparison with the preceding year shewing a Net decrease against the current year of Rupees 3942-6-5-

Talooks.

Stamps

Fusly	Rupees
1264 — Rs	3,284-4-0
1265 "	2,957-0-0
Decrease	281-4-0

71. The decrease in the different Items of Motarpha is in consequence of a succession of unfavourable Seasons since Fusly 1262 driving many of the poorer class of Traders, artisans and Weavers both of the Town of Kurnool and Talooks to relinquish their occupations, and earn their subsistence by working at the Bridge over the River Kundry and on the Roads, and is owing also to deaths emigration and impoverishment.

72. The total value of Stamps disposed of in this year amounted to Rupees 2,990-8-0 from which the sum of Rupees 33-8-0 the value of Papers supplied for the execution of security Bonds by public servants is to be deducted. The Total decrease of Rupees 281-4- below

below that realized in last year is owing to the closing of the accounts up to 30th April 1856 instead of 30th June as in the preceding Fusly.—

The demand for the year 73 was Rupees 12,3733-1-4 of which Rupees 9,8233-10-10. were collected up to 30th April 1856. leaving a balance on that date of Rupees 2,549-6-6 of this sum Rupees 8,313-14-0 have been collected up to 31st May 1856, of the remaining balance of Rupees 1,185-8-6 the sum of Rs. 8,853-5-4 is in deposit on account of Abkarry and small Farms and will be credited in the accounts on the 30th June the remaining balance will be enquired into during the Settlement of the ensuing Fusly.—

Statement.

16905 Fort St. George 18th September 1856.

Abkarry Rs. Sayer

This

Exhibition.

77. This year on the 1st February 1856 at Yelgode was held the first agricultural Provincial Exhibition, and although the competitors were not as numerous as could be desired, the object being now understood, I have no doubt that should it be the intention of Government to continue the experiment it will eventually lead to beneficial results.

Roads &c.

78. I had intended noticing the progress within the last 2 years in opening up communications but as I have just received the circular of the Board of Revenue dated 22d May 1856. I will supply this Statement separately.

Enam enquiry

79. The enquiry into the tenure of the Enams of this District is progressing, I have undertaken an investigation into the Ghiredakala* Enams alluded to in Mr. Bayley's Report.

* Enams not entered in the land lists under the former Government.

New Village accounts.

80. The introduction of the new Village accounts has after a great deal of trouble causing much delay in the settlement been accomplished throughout the

the District, as soon as the innate dislike of natives to innovation shall have worn out, they will acknowledge the advantage of these accounts over the old ones.—

Condition of the Ryots.

81. Since the punishment of a Tahsildar of the old school in 1851 a man who defied authority and probity the ryots of Kurnool have began to think, and to imagine that justice could be had beyond Tahsildars Cutcherry and a marked improvement in their condition is noticiable From the full enquiries which have been made into their affairs during the settlements of the last 4 or 5 years, and from the reduction of excessive assessment, also from the discontinuance of the practice of saddling the ryots with more lands than their means admitted of their cultivating, a stimulus has been given to industry, and a value to the occupation of land which did not formerly exist but for the failure of rains and its consequences the settlement would have been Rupees 12,269—— in excess of any previous Fusly

I.

16911 Fort St. George 18th Septr. 1856

Education. 82. I regret to state that as yet no steps have been taken in this District with regard to education Mr. Johnston a member of the London Mission has established himself at Nundial. and with some very trifling local assistance opened a School in an old ruined building which Government have under orders dated 6th May 1856 made over to him for that purpose.—

83. With the exception of the Tahsildar of Pauniem who was dismissed by order of the Board of Revenue dated 14th May

16912 Fort St. George 18th September 1856.

May 1856. the conduct of the Subordinate Officers is satisfactory.—

Kurnool, ------
Government agents Office,
10th June 1856 ----

(Signed) J. G. Russell

Read again letter from the Collector of Nellore dated 13th & entered in Cons. 17th June 1856

The Board observe, with reference to Para 2 of the foregoing letter, that the new forms of Village accounts include Moturpha puttahs; and they see no reason why such puttahs may not accordingly now be introduced in the Nellore district. The puttahs will not, as stated in Extract Minutes Consultation 3d March 1856, para 6, No. 243, necessarily require yearly renewal.

Ordered to be recorded

No. 254

To G. S. Forbes Esquire Secretary to the Board of Revenue Fort St. George

770

B. No. 3420 From the Collector of Tinnevelly Referring to his letter of 5th

Sir

With reference to my letter of 5th January last

Fort St. George 18th September 1856

5th January last reports upon the Extent of clearings already made and remaining to be made on the Courtallum Hills for Coffee Plantation & stating that he has required the Durkastdars to give information to the Tahsildar of the intended fresh clearings in order that the forest may be inspected and if any of the reserved descriptions of trees on which duty is leviable be found there that it may be collected accordingly—

last on the subject of the clearings on the Courtallum Hills in this District, I have now the honor to report for the information of the Board, that I have recently been engaged in inspecting the Hills, and enquiring into the extent of the clearings made, and still claimed to be made, under the Orders of the late Collector Mr. Bird—

2 Having known Courtallum well, so far back as twenty years ago, and having again spent some time at Courtallum, when I returned a second time to the District, on special duty thirteen years ago, I was much struck on my return for the third time as Collector of the District, with the altered appearance of the place—

3 The forest along the base of the Hills has been almost entirely cleared away for firewood and for Poonjah Cultivation, the clearings for Coffee are of course higher up on the Hills, as Coffee would not grow well on the low slopes. I have had an account particularly prepared of all the Durkasts accepted by my Predecessor, with the extent of the forest land granted to each Durkastdar, and the month and year in which the Durkasts were accepted, all of them I find to have been within

Fort St. George 18th September 1856

within the last two years 1854 and 1855. I have also had the extent of clearings measured, and find them to extent to one hundred and twelve chains, and in addition, twenty three chains on which the forest has been felled, but not burnt, and four chains burnt, but not cultivated—

4 Five hundred and forty chains of forest land still remain, which have not yet been cleared, and which appear from the returns furnished to me by the Tahsildar of the Taluk, to have been granted by Mr. Bird to different parties, but on which no outlay has yet been made. On a full consideration of all the circumstances, I have considered it advisable to let the several parties take advantage of the offers made to, and accepted by the late Collector to the extent of their Durkasts, merely requiring that they should from time to time, give intimation to the Tahsildar of the Taluk, of their intention to make fresh clearings, in order that the forest may be inspected, and if any of the reserved descriptions of trees on which duty is leviable, be found there, that it may be collected accordingly—Any cases which I may subsequently find the Durkasts or offers not to have been finally accepted by the late Collector, I will deal with, as the circumstance of each individual case may require.

It

16965 Fort St. George 18th September 1856

5 It will be some years before this extent of forest land is cleared, and in the mean time the Coffee bushes on the clearings already made, will be growing up, and tend in some degree to counteract the bad effect of clearing away the forest trees I am convinced that clearing forest land to any great extent in one locality has a marked influence on the climate, both in consing a diminution in the fall of rain, and in tending to cause the springs and Hill streams, on which the irrigation of this District s much depends, to decrease, I have therefore refused all applications made to me, for further clearings on this range, but intimated my perfect readiness to entertain offers for grants of Hill lands elsewhere.

6 The Hill country above the place where I am now encamped, appears well suited for Coffee cultivation it is, like Courtallum, within the influence of the South west Moonsoon, and I am of opinion that parties will turn their attention in this direction I shall shortly have the honor of Submitting to the Board a report on the forests in Tinnevelly, when I will recur to this subject again.

Tinnevelly Collectors Circuit Cutcherry
Paupanassum 26th August 1856.
Bd. No. 3063
Proceedings thereon

(Signed) J. Silver
Collector

(770-771)

In the foregoing letter Mr. Silver states that personal examination of the forests above Courtalum convinces him of the inespedience of admitting any fresh application to clear the jungle for Coffee plantations. The Board observe that he proposes to allow parties who have already obtained grants to proceed in clearing them, and as this course interferes with no existing rights and appears necessary to prevent a too great destruction of forest, the Board approve Mr. Silvers Proceedings.

16966 B Fort St. George 18th September 1856.

No. 110

To

G. S. Forbes Esquire
Secretary to the
Board of Revenue
Fort St. George

(772)

Bd. No. 3592
From the Ag. Magistrate of Tanjore. — Sir

Para 1 I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue under date the 21st August, directing the immediate restoration of Narain Row, Tahsildar of Combaconum who was suspended by the Joint Magistrate for neglect of duty in a case of Fortune and directing the imposition of a small fine on that Officer.

2 In reply, I have to state, that Narain Row has been restored to his Office and has been fined by me in the sum of Rupees 5, as directed by the Board.

3 The Joint Magistrate has reported, that the Deputy Tahsildar Ramanoojoopillay was appointed to act for Narain Row till the final orders of the Board were obtained without any increase of pay, the Annicut Ameen being at the same time directed to carry on the duties of

of the Deputy Tahsildar.—

4 The orders of the Board regarding the Village Servants will be attended to, the Joint Magistrate however has pointed out that the detention of the complainant in the Village of Shalapooram in the case, as admitted by the 1st Defendant, was for 8 days, and not for 4.—

5 With reference to the 6th Para of the Board's proceedings, I beg to state, that I would not have advised the Board to sanction the decision of the Joint Magistrate had I not approved of that Officers proceedings which I considered to be in accordance with the instructions of the Honorable Court of Directors in their despatch No. 46 of 1856, sent by the Sessions or Court under date 11th March 1855, as per Margin.—

† Wherever such a strong moral conviction exists in the mind of the officer conducting the trial and can be supported on grounds which he may consider to be sufficient to produce a like conviction in the mind of the Superior Authority, we think that a report of the circumstances should be required to be made with a view to the removal of the suspected individual from office, for although the Government cannot be permitted at its pleasure to inflict fines and imprisonments on unconvicted persons, yet it is right to retain in its service such persons only as possess its confidence, & cannot be questioned—

6 I am not aware that any appeal has been preferred against the decision, but with the permission

permission of the Board, the Joint Magistrate in a letter a copy of which accompanies, states, desires to have his proceedings reviewed by the Sessions Judge.—

7 The Proceedings of the Joint Magistrate were duly forwarded to Government, who were also, made aware of the suspension of the Tahsildar, but no order has hitherto been passed by them in the matter.—

Tanjore — — — } 6th September 1856 } Signed J. W. Cherry Jr. Magistrate

End. No. 1

No. 130

To J. W. Cherry Esquire Jr. Magistrate of Tanjore

Sir I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue under date the 21st August, and to state that as desired therein, I have restored Narain Row to his Office and fined him in the sum of Rupees 5. The village officers have also been directed to be suspended for 6 months.—

I would take leave very respectfully to

2

16969 Fort St. George 18th September 1856

to request, that the permission of the Board may be obtained for a review of my proceed=ings in this case by the Sessions Judge, I am well aware that no legal conviction could be founded on the evidence adduced, but I must submit with all deference, that the suspicion against the Head of Police and all the parties concerned, is very strong, and in my judgement amounts to strong moral conviction of their guilt.—

Tanjore District. Mayaveram — September 1856

Joint Magistrate
(True Copy)
(Signed) J. W. Cherry
Ag. Magistrate

772-773

B.C. No. 3065 C.B.

Proceedings thereon

The order of the Honorable Court to which reference is here made was, that removal from Office might justly follow on a strong moral conviction of guilt when, it must be supported on grounds sufficient to produce con=viction in the mind of Superior authority and in applying this order to the case in

16970 Fort St. George 18th September 1856

in question, Mr Cherry assumes the whole point at issue. The Board have already given their opinion that there were no grounds of suspicion against the Tahsildar, and have ordered his resto=ration to Office.

2 With respect to the request made by the Joint Magistrate the Board observe that the confirmation of sentences of suspension or dismissal of all public servants, whether Revenue or Police rests with them. It was in the exercise of this authority that they reinstated the Tahsildar and they see no special circumstances in the case to render any further proceeding necessary.

3 The Board remark that Ramanooja Pillay, who was appointed by the Sub Collector to act as Tahsildar on Narrain Row's suspension, was removed from the Office of Tahsildar of Velengamaun by their order in a re=presentation from the Collector of his unfit=ness for so responsible a post.—

Br. No. 2305

From the Collector of Madura —

Sir,

In conformity with the instructions conveyed in your letter of the 3d Instant, I have the honor to transmit an Extract from the Mahrattah Register of Enams in my Office. An English Register has been kept of all Enams Villages, but not of Enams less than a Village

There is no record of any Proceedings in regard to this Enam during the term of the Company's Government though the deceased was certainly not the original Incumbent his father Sikkod Shah having died in 1825. It was then no doubt continued without any Enquiry. Motah Fakeer is not I think the name of an individual but a description of his person.

I called it Fakeeree in my Tabular Statement, because it was so read to me from the Mahrattah. The correction to be made is only a "Sham Fakeer" instead of or belonging to a Sham Fakeer.

Bd. No. 3388
From the Collector of Salem ...

Sir

With reference to the Government Endorsement on petition No. 872 of 1856, calling upon me to report, through the Board of Revenue, whether the prayer of the petitioner may be granted, I have the honor to submit the following explanation.-

+ Reporting on Petn. Govt. No. 872 of 1856.

2 The petitioner states that Vencatasoobiah, his grandfather, on the mothers side, was the owner of Lakrajee land, consisting of 4 shares, in the Agraharum of Comarapollieu in the Salem Taluk which his grandfather, previous his death, gave the Petitioner 2 shares, that after the death of the petitioners grandfather in

in June 1855 the petitioner was deprived of these two shares by his grandfather's adopted son, Gooroosumien and another person, named Aroonachellien, who calls himself the brother of the Petitioner's deceased grand father, and the grand father of the abovementioned Gooroosamien. Petitioner therefore prays that sanction may be given him to sue these two parties in the Civil Court for the recovery of the shares adverted to in the petition.-

3 It appears from the report of the Tahsildar, that the village referred to in the petition is an Arthamania Aghraharum, or Agraharum in which the bramins enjoy one half of the Village and the Government the other half, that the Bramins half share consists of 6 divisions, each containing 4 shares that the two shares which the petitioner claims were in possession of one Sadasevien at the survey, and that they are now in the possession of two persons named Gooroosamien and Aroonachelien.-

Bd. No. 1121
From the Collector of South Arcot.

Submits with his observations copy of a letter from Captain Priestley and of his Report detailing the progress of his survey operations from 1st November 1854 to 1st November 1855.

Sir

I have the honor to submit for the information of the Board of Revenue and of Government the accompanying copy of a letter from Captain F. I. B. Priestley dated 10th Instant and of the Report received with it detailing the progress of his survey operations from the 1st November 1854 to 1st November 1855.

2. Captain Priestley has sent in this Report in

16989 Fort St. George 22d September 1856

in compliance with my request to him to draw up one and he has noticed some of the chief causes which have retarded his work in consequence of my having asked him to point them out with suggestions for the adoption of such measures as he might think calculated to facilitate or expedite future operations.

3. There are only a few points which appear to call for remarks from me.

4. It will be observed by reference to statement marked A that a very remarkable difference has been found to exist between the area of some of the Villages surveyed, as given by our accounts and that which the survey has shown to be the correct one.

5. The greatest discrepancy is apparent in the Jaghire Villages where as the Board are aware, no systematic survey or measurement has ever been made previous to the present time.

It

Fort St. George 22d September 1856

6. It is true that the villages have been once measured but there is reason to believe that it was done in a very cursory manner.

7. In the 150 villages alluded to by Captain Priestley the total difference of area is stated to be 24193-09 acres, a great portion of which is probably waste and uncultivable land.

8. Captain Priestley states that the chief causes which have hitherto delayed the Survey have arisen from the boundaries of the villages not having been properly defined, and from the disputes regarding limits not having been finally adjusted previous to his commencing operations. added to this he represents the difficulty he has experienced in securing the regular attendance of the village Officers and the evils resulting from their neglect.

9. These hindrances were also particularly brought to notice by him in his letter of the 23d June last which I submitted to the Board on the 28th idem and

Fort St. George 22d September 1856

and which was disposed of by Extract from their Proceedings dated 23d July.

10. It appears to me that provision should have been made in the estimate of the probable expense of the Survey for the entertainment of a small party for the Special purpose of defining the limits of the different villages and of settling boundary disputes, the adjustment of which has not proved to be quite so easy a matter in this District as it may perhaps have been anticipated that it would be.

11. It has been found impracticable to define boundaries at all for several of the Shuddy Villages in the Trenomallie Talook which are situated in a part of the District abounding in jungle and but seldom visited by either native officials or Europeans.

12. The case specified by Captain Priestley in Para 11. was rendered a particularly difficult one by the circumstance of two of the disputing villages being held on mocajah tenure by a minor

minor, whose guardians threw every obstacle in the way of a settlement.—

13 I must take to myself some blame for all the permanent boundary pillars not having been erected exactly on the Theodolite stations as stated in Para 17— It occurred from my not quite understanding till lately that it was so essentially necessary that they should be so placed— My idea was that they were intended simply to mark the boundaries and I therefore gave directions for them to be put up in such spots as I conceived most calculated to effect this object without reference to the Theodolite stations— The mistake has been rectified in several instances and for the future the pillars will be put at once under Captain Priestley's own eye.

14 In Para 18. Captain Priestly states the extent of field work performed during the period reported on to have been equal to the Survey by

by one party of an area of about 275 Square miles from which he calculates that three parties could have done 825 Square miles. This seems rather a strange computation in as much as during a great part of the year, he had a second party at work as shewn by his letter dated 2d April 1855 I must confess myself quite at a loss to understand what the removable causes were which he makes out to have kept his ameens unemployed for 3047 days as entered in Statement B unless he means that their being thus idle was owing to villages not being ready or the village Officers not in attendance, but surely this could not possibly have occasioned anything like so much delay as what is given in the Statement.—

15. Captain Priestley alludes in Para 13 to the neglect of the Tahsildar in the Cuddalore Taluk to furnish his ameens with work— Some of the Communes in this Taluk have several villages within their respective ranges, one having as many as seven close to Cuddalore. when the Survey ameens came to the Taluk on the occasion referred

referred to each wanted to get a village as near Cuddalore as possible and as every ameen required the constant attendance of the Surveyor while carrying on the measurement they could not all be satisfied at once upon which it appeared to me that many of them instead of going to other villages which were ready remained idle merely reporting to Captain Priestley that the Talookdar did not give them work - It was this which led me to ask Captain Priestley to send a person in authority to look after the ameens -

16. With reference to Captain Priestleys Suggestions in Para 23 I beg to state that from only having a Head assistant in the District I cannot now promise that I shall be able to station him for any length of time in the neighbourhood of the Survey camp I have however already specially deputed the Sheristadar of the Chellumbarum Talook to attend to

to all matters connected with the Survey. He is an intelligent and active man and will I think prove very useful -

17. To perform his ordinary Talook duties I have ventured to entertain a Substitute, to be paid at the rate of 21 Rupees a month from the Survey Funds. I trust my having done so will be approved of.

18. I venture also to suggest that the Government should be pleased to appoint Captain Priestley to be an assistant to the Collector of this District, in the Survey Department so long as he is employed in South arcot. -

19. This measure would tend greatly to facilitate his operations as it would raise him in the estimation of the natives in general and make the public Servants more ready, than they now are; to attend to his directions and obey his orders. -

20. In reference to what Captain Priestley says in Para 29. I beg leave respectfully to observe that I consider it highly important, in every point of view

view that the revision of the assessment or the introduction of uniform rates where none have hitherto existed / as in the Saghire villages / should follow closely upon the Survey.

21 Acting under this view I lost no time in commencing the assessment of the lands in the Pollicatcottah Saghire as soon as possible after they were measured by Captain Priestley after determining the rates and fixing them on 13 of the Villages I reported, by letter dated 12th February 1855. No. 19 what I had done to the Board of Revenue by whom I was directed on the 3d April 1855 to discontinue the work till the sanction of Government could be obtained. This sanction I only received last month, by Extract from Minutes of Consultation dated 8th February last No. 135.

22 In may 1855 I also submitted for approval the rates I proposed for the Colamalay Saghire villages in the Manargoody Talook, but up to this time I have received no final reply to my letters on the subject dated 12th may and 31st August neither

neither have I been favored with any notice respecting the proposition I made in my letter of the 15th may last No. 95. for reducing the rates of assessment and simplifying the turums of the land in the villages of the Manargoody and Chellumbrum Talooks.

23 I hope to be able to finish the assessment of the 14 Pollicatcottah villages in August next, when I shall take an opportunity of visiting the Survey camp.

24. Captain Priestley appears, from what he says in Para 26 to have overlooked the fact that Government were pleased by Extract from Minutes of Consultation dated 11th January last No. 14 to sanction his proposal to train a body of Volunteers for the Survey.

25. I beg leave in Conclusion to acknowledge the great Zeal and steady perseverance evinced by Captain Priestley in overcoming the various difficulties he has met with in organizing his survey Establishment and in carrying on his work, for which he appears to me to be deserving of the highest credit.

No. 30

To A. Hall Esqre
Collector of South Arcot

Sir

In forwarding the Report called for by you in letter dated 27th November 1855 on last years Survey operations I have the honor to state that I have been prevented sending it in before as the Office work of the whole of the villages in the Cuddalore Talook was not completed, and I was consequently unable to make up the tables annexed to the report.

2. As you will observe I have merely brought up the return to the 1st of November 1855 to which period also report extends.

Fort St George, 22d September 1856

No. 2

Report on the progress of the South Arcot Survey for the year beginning 1st of November 1854 and ending 1st November 1855.

November and December occupied in Office work.

1 The Months of November and December 1854 were occupied in Completing the Maps and registers of the Villages surveyed during the preceding ten Months.

Field work begun on 19th January.

2 In consequence of the lateness of the Monsoon, field work was not begun till the 19th January 1855 in that part of the Suncarapoorum Jaghire that lies in the Cullacoorchy Talook and Consists of Forty Villages, at the same time two Villages in the Ellavanasore Talook were also commenced.

3. The Survey next proceeded to the Tricullore Talook in which the remaining Villages (22 in Number) of the Suncarapoorum Jaghire are situated a party under Lieutenant Hessey was also detached to complete the survey of the Pollinncottah and Kollamalay Jaghire in the Chellumbarum and Manargoody Talooks, three Villages were measured

Trinomalay Talook	
Checkuddy Jaghire completely surveyed	23
Cultivation only measured no boundaries being recognizable	10
Cuddalore Talook	36
Total Number of Villages	150
Total area 176,206 acres or 275 square Miles & 206 acres	

measured in the former and 14 in the latter Jaghire / of these 14 four were re-measurements not having stood the usual test of the year before / The Chekuddy Jaghire in the Trenomallie Talook was next taken in hand, it comprises 44 Villages of which 33 were measured, the other 11 situated on the hills containing no cultivation, and having no fixed boundaries were not undertaken, instructions to that effect having been received.

4 It being found impossible to define any boundaries for 10 of the Chekuddy Villages the Cultivation only of them was surveyed.

5 As the measuring ameens finished their work in the Chekuddy Jaghire they were sent down to the Cuddalore Talook of which 36 Villages have been completed.

6 A Table is annexed marked A in which the Villages are enumerated, the total area of each and the quantity of Cultivated and uncultivated land is shown.

Boundaries marked beforehand in the Cullacoorchy Talook only.

7 In the Cullacoorchy Talook the boundaries of the Jaghire Villages had been

been carefully marked out beforhand, and no obstruction worthy of notice except that caused by the irregular attendance of the Village Servants occurred. The Collector Mr. Hall paid a visit to the Talook in the Month of January and by his countenance did much towards smoothing the way for the Survey.

8 On the ameens moving into the Trecullore Talook the difference between having the boundaries distinctly marked, and all disputes settled beforehand, and having those operations in progress whilst the land was being surveyed, was much felt. The disregard of orders on the part of the Village Officials, and the paucity of Curnums were the subject of numerous representations to the Collector, who promptly issued orders to the parties concerned, much time however was lost and the ameens were frequently thrown out of work for several days at a time.

but not so in Trecullore.

interruptions in consequence.

visit of Collector

9 The assistant Collector Mr. Puckle came in the Month of April to the Trecullore Talook

Also of his assistant.

Talook for the purpose of settling a boundary dispute, his visit was also of service.

Supposed unhealthiness of the Chekuddy Jaghire.

10 In the Chekuddy Jaghire Trinomallee Talook the difficulties were greatly increased, for the Survey being carried on in a part of the Country considered by the natives as extremely unhealthy, the great desire of the Native Officials was to get away from the neighbourhood as quickly as possible without much regard to the completion of the duties for which they had been sent there.

Haste on the part of the native Revenue authorities in quitting the neighbourhood.

11 The Talook Sheristadar, the Peishcar of the Cusbah and a Hoozoor sumprethy were ordered by Mr. Hall into the Jaghire, but the Sheristadar was almost immediately withdrawn to act as Tahsildar and the Peishcar having reported all disputes adjusted obtained leave and did not return, thus the sumprethy who had no more power than the Officers of the Survey over any of the Village authorities was the sole representative of the Collector's Department in the Jaghire. It would be out of

much interruption occurred.

difficulty experienced in consequence of absence of all the Civil authorities.

of place to enumerate all the annoyances to which the Survey was subjected, by the non attendance of Curnums and the disputes concerning boundaries which the Peishcar had reported as settled, the necessity of reporting every delinquency to the Tahsildar, some 30 Miles off in order that some punishment might after enquiry be awarded, and the non existence of anyone on the spot to carry out the Tahsildars orders caused me in a great measure to discontinue forwarding complaints a great cause of delay in this Jaghire was the general idea entertained of its extreme insalubrity, but though cases of fever were common enough and in some instances required change of air to effect their cure, no deaths or permanent ill health have resulted from them.

Lieutenant Hessey detached to Manargoody and Chellumbrum.

12 In the Collamalay and Polliemcottah Jaghires situated in the manargoody and Chellumbrum Talooks, Lieutenant Hessay found many boundary disputes (some of which had come to light during the first operations of the Survey in that part of the District) still unsettled; time

Disputes then unsettled.

Survey marks obliterated.

time of course was lost in waiting for their adjustment. The marks that had been made by the Surveyors the year before had almost all been obliterated either by neglect or design. The obstruction to the survey by the passive opposition on the part of the Village people was more vexatious and consistent than in almost any other part of the district.

In Cuddalore Talook delay experienced in obtaining Villages

13 When after the Survey ameens had finished their work in Trenomalay they were ordered to Cuddalore for the purpose of Surveying that Talook, several reported that they were compulsorily idle, as the Tahsildar to whom I had ordered them to apply for Villages with adjusted boundaries had not provided them with work. On this being represented to the Collector Mr. Hall he was uncertain after enquiry with whom the blame rested. As at the same time Mr. Hall expressed a wish that some head person should come to take charge of the Survey ameens in the Cuddalore Talook. I detached 27 June Lieutenant Hessay for a week, though his presence was much

Lieutenant Hessay at the request of Collector detached to Superintend the distribution of Villages.

much needed in the Chekuddy Jaghire, to Superintendent the distribution of Villages and ordered Head Surveyor Waywood from Manargoody shortly afterwards, in the middle of July, I returned to Cuddalore myself. I may take this opportunity to point out the great detriment caused by the extremely scattered state of the Survey party from the detached nature of the lands given to measure. I had at the same time men at work in five different Talooks Chinniempet where head quarters were being distant about 80 Miles from Cuddalore and the same distance or further from Manargoody, which latter places are about 40 Miles as under, were I to include the deputy Surveyors and testees there must have been parties at the same time in the Talooks of Ellavanasore, Cullacoorchy, Tricullore Trenomallie, Chellumbrum, Manargoody and Cuddalore, a great number of the Jaghire Villages are scattered in patches containing from 15 to a single one such being the case the difficulty of

Great hinderance to the Survey in consequence of the scattered state of the party men at work in 5 Talooks at the same time.

Difficulty of effectively Superintending operations so unconnected.

of exercising a strict Superintendence over operations so widely scattered may be imagined.

14 The disputes about boundaries in the Cuddalore Talook were (I presume) pertinaciously contested by the Villagers, as I had to apply again and again to the Tahsildar before the Villages were successively handed over to me. Out of 22 Villages reported ready for Survey, boundary disputes were found to exist in 5 of them, 4 were trifling 2 only causing each 3 days delay but the dispute in the Village of Trevendipoorum has not been yet settled. From this the care bestowed by Talooks Officials on similar duties in the more remote parts of the district may be judged.

Disputes in Cuddalore Talook pertinaciously contested.

A.B. Settled on the 23d December

15 The attendance of the Village authorities was very irregular, and caused much delay. I beg to refer to my letter of the 23d June addressed to Mr. Hall and forwarded by him to the Board of Revenue in which I detailed the inconvenience experienced, urged the necessity for Villages being prepared some time previous to Survey

attendance of Village authorities very irregular and caused much delay.

Letter to Collector of 23d June 1855 referred to.

Survey, and requested the presence of some one with power to adjust disputes and remove obstructions, the latter being in accordance with the desire expressed in Minutes of Consultation dated 13th March (in Proceedings of Revenue Board dated 27th February 1854 and 15 February 1855. Though noone could be spared to assist the Survey at that time I trust that in future some arrangement may be made to enable me to proceed without interruption.

Though noone could be spared at the time it is hoped that in future some one may be

16 Now that it has been made penal to displace the boundary and field marks, I trust that a source of great annoyance and loss of time will be removed altogether, or at any rate be much lessened.

Advantage expected from new Boundary mark act.

17 The consequence of the want of care on the part of the village authorities of the marks left by the Survey, is that the brick pillars intended to mark exactly the Theodolite stations have not, in many cases, been erected in their proper places. This will, when the rest of the Chellumbrum and Manargoody Talooks is surveyed next year, give

In consequence of neglect on the part of the Village authorities the boundary pillars not erected in proper places.

Disadvantage to be expected from this next year.

I

I may say, even more trouble to make the new work close on the Villages already surveyed, than if no marks had been set up at all.

Table B referred to in which there is a detailed account of the ameens work.

18 From a Table annexed marked B it will be seen that during only 2398 days have the ameens been actually occuppied in measuring, add to this the time passed in writing accounts and sickness the Total amounts 3216 or about 10 Months for one set, the Total area surveyed during the past year is about 275 Miles this multiplied by 3 for the three sets will give 825 square miles as capable of being surveyed by a party in the year at this rate. I have taken measures to prevent the ameens from spending such a great portion of their time in writing the village accounts. Since also during the next year, the survey operations will not be scattered over such an extent of Country, and the work will not be carried on in such an unhealthy part of the district as the Chekuddy. Jaghire is, I am confident that such ameen, as he gains additional experience, will turn out a greater share of work than he has hitherto done.

Present rate promises 800 square miles per annum.

The ameens may be expected to work better.

Greatest average work of any one ameen 50 acres per day least average 24 acres.

The

The greatest average of work of any one village has been 50 acres per diem the least (with the exception of the average of those men whom I have either reduced or employed otherwise on account of their slow measurement) is 24 acres.

19 This cultivation is based upon the return of work in the field books of the ameens who are obliged to account for every day and to show how their time has been employed, though the numbers of the working days may be a few more or less than I have shewn, yet the account is sufficiently accurate to enable me to strike an average.

20 I may add that had there been no delay in furnishing work to the survey a third set would have been completed much earlier. The time has not however been lost as more attention was consequently bestowed on the carefull training of the younger hands. The result is that many of the Goomastahs are perfectly fit to perform ameens duty on being called upon to do so.

Had there been no delay in furnishing work a third set would have been completed earlier

Advantage has been taken of the delay to devote more time to training subordinates.

21 The scientific part of the

Fort St. George 22d. September 1836

Scientific part of the survey fairly tested.

the Survey has been fairly tested in the very difficult Country that has been surveyed in the Trenomallies Talook.

Chief obstacle to the Survey.

22 The chief obstacle to the full performance of the work I expected to do, is the want of Villages with adjusted boundaries.

Acknowledges the assistance afforded by the Collector.

23 I am fully sensible of the interest that the Collector of South Arcot Mr. Hall has taken in the Survey and of the promptness and politeness with which he has attended to any representations I have made. I venture to suggest that as difficulty seems to have been felt in detaching an assistant to the Collector for the purpose of settling disputes about boundaries prior to the commencement of Survey operations, some Civil Officer might be stationed in the neighbourhood of the Survey Camp, so that in the event of any obstinate disputes occurring beyond the powers of a Tahsildar or Sheristadar to settle, he might be able to visit the spot and dispose of the matter in a summary manner. This course will often save weeks of delay

Suggests a method for summary settlement of disputes.

neither

Fort St. George 22d September 1836

neither Surveying assistants having any authority over the Villagers, it would be useless our attempting to settle any disputes especially in a part of the Country like Manargoody and Chedlumbrum, where the inhabitants are so very litigious. If however it be found incompatible with the interest of the Public Service for any assistant Collector to be near the Survey Camp it would greatly facilitate operations if I were given some powers to enable me to decide such cases as might require immediate adjustment, and the delay of which would retard the Survey. The duties of my position are at present so many and constant that I can be hardly said to have any spare time. I would therefore strictly confine my interference to occasions when it was absolutely necessary.

I also beg to suggest that a native Revenue Official should be detailed expressly for the purpose of assisting the Survey. The Sheristadars who have been sent now and then for a time to give aid, have for the most

most part been old and infirm men - A young and active man is required who will not shrink from a little exposure when it is necessary and when a person fitted for the duty has been found he should not be hastily withdrawn from it.

24. As such difficulty has been found in having the permanent boundary marks erected in their proper places, I have suggested to Mr. Wall that they should be built under the Superintendance of men of any department who will answer to me for their correctness. Mr. Wall has consented to assent to this and I trust that during the ensuing year I may be able to leave such marks as may be depended upon.

Boundary Pillars to be erected under the superintendance of the Survey.

25 I have hitherto had considerable difficulty in obtaining respectable and intelligent natives to be employed in the Survey.

Difficulty formerly felt in obtaining respectable natives.

26 I am happy to say that I anticipate no such difficulty in future as there is an idea gaining currency that the prospects of the Survey are brightening; until now the natives

natives generally considered the Survey to be a temporary thing. If the Government is pleased to sanction the proposal I made for the entertainment of 60 Volunteers on pay of Rs 5 or 3-8. I could, were it necessary, in a very few months from the commencement of the working season turn out 3 fresh sets, that is one complete party.

27. During the past year the details of the Survey have been gradually undergoing improvement. The operations have been more systematized and increased precautions have been taken to ensure accuracy.

Gradual improvement introduced in the Survey.

28 On referring to the returns annexed marked A it will be seen that the discrepancy between the areas of Villages as found by the Survey amount measurement and that determined by the Scientific part of the Survey has rarely exceeded 2 per Cent; the total average of discrepancy again only amounts to 1.79 per Cent. I was given to understand that an error of 10 per Cent even would not impair the efficiency of the Survey.

Table A referred to discrepancy between amount measurement and Scientific part of the Survey not more than 2 per cent on total area not more than 0-86.

Survey of revenue purposes.

Survey not popular amongst the Natives.

29 The Survey is not at all popular among the natives as they are as yet only acquainted with the trouble the prosecution of it gives them and have experienced no benefit from it, were the revision of assessment to follow close on the Survey, the dislike that the Village people shew to having their land measured would be much removed.

Reason for this

30 In conclusion I hope that the Board will be satisfied with the Progress that has been made for as I have endeavoured to show, the work that has been performed this year affords good grounds for expectation that in the ensuing year I shall be able to Survey 800 Square Miles, provided that I am kept supplied with Villages with boundary disputes adjusted.

Conduct of the Natives employed has been good.

31 The conduct of the Natives employed in the Survey has with some few exceptions been very good. Though the Village people have made several accusations against individuals of taking bribes &c. yet

J. F. B.

yet when these complaints were handing over to the Collector they have invariably proved to be malicious libels I have been much pleased with the conduct of the 3 artificers who are under my orders. I am sorry to say that their emoluments have lately been decreased by the order of Government directing that they should not draw Military pay whilst engaged in Civil duty.

So also has that of the artificers.

32 If in offering the various suggestions in the Course of this report I be deemed to have stepped out of my province I beg to state that I have acted in accordance with the instructions conveyed to me by Mr. Hall.

+? 33 Before closing this report + injustice Lieutenant Hessey, I take the opportunity of bringing to notice the very great assistance he has afforded me by his untiring zeal and ability in fact he is perfectly Competent to perform any duties connected with the conduct of the Survey.

3d. No. 3069

To the Collector of South Arcot

To The Collector of South Arcot

Sir

As your letter of the 29th March last was not accompanied by a Statement to show the expenditure on Survey and assessment operations for the year under report 1855 and the Board cannot find this information in their Communications I am directed to request that you will supply the deficiency at an early date as Government require to know the cost at which the results reported by you and Captain Priestley have been attained.

2. The various points alluded to by you and Captain Priestley will be noticed hereafter but in reference to Para 31 of that Officers report you are requested to State how far the orders of Government regarding Military pay have affected the pay of 3 artificers employed under him and whether in your and his opinion they now receive a fair remuneration for their services

17027 Fort St. George 22d September 1856

services. you are also requested to send a copy of the Government order and of any correspondence which preceded it.—

Revenue Board Office
Fort St. George

To
G. S. Forbes Esqre
Secretary to the Board of Revenue
Fort St. George

818

Bd. No. 3211
From the Collector of Coimbatore

Sir.

I have the honor to acknowledge the receipt of Extract from the Boards Proceedings of the 25th June No. 1946 and with reference to paras 4 and 5 I have the honor to state for their information that finding it impossible to spare any Goomastahs from my already over burdened establishment to attend at the Moonsiffs Court and as no respectable person will undertake the duty for the very small per centage allowed I requested the Civil Judge to depute any

17028 Fort St. George 22d September 1856

any one of the Goomastahs[x] from the Moonsiffs Courts for the purpose and a copy of his reply thereto I beg to forward.—

[x] to sell at his own Court

2. I see no necessity myself to change the long observed system and to introduce a new one while there is a ready sale of stamps at each Talook Cutcherry in nearly every instance near the Moonsiffs Court. Tho. two of the Moonsiffs appear to have alleged some delay no specific instances are given and I cannot on careful enquiry discover any real cause of complaint there are stamp papers in abundance in every Talook and orders have been repeated to the Tahsildars to see that they are ready for sale.— If the Board consider another depot necessary at the Moonsiffs Court near to each Talook Cutcherry in most cases I see no possible way of effecting it but by one of the Moonsiffs Courts Goomastahs selling as is done in each Cutcherry. The Moonsiffs Goomastah can have if the Board think necessary half the per centage now drawn by the Talook Goomastah and the Moonsiffs would be

be responsible as each Tahsildar is for safe
Custody of the Stamps for the convenience of his
Court he being supplied with as many as he like
to ask for—

Coimbatore
13th August 1856 } /Signed/ E. B. Thomas
Collector

Enc. 1
No 221,

To T. B Roupell Esqre.
Civil Judge of Coimbatore

Sir

The Board of Revenue in their Proceedings of the 25th June 1856 No 1946 having decided to establish a vender in each District Moonsiffs Court for the supply of Stamps to the Courts, I have the honor to inform you that the employment of a new vender in the Moonsiffs Courts for the small emolument that can be allowed at 1 Rupee per cent on the sale proceeds of Stamp papers appears neither advisable nor safe I therefore to suggest that one of the Goomastahs of the Moonsiffs

Moonsiffs Court may be nominated for the purpose at 1 Rupee per cent in the same manner as is allowed to the Talook Servants and I request that the District Moonsiffs may be called upon to recommend one of their Goomastahs for the above duty. On the receipt of your reply to this letter I shall issue the necessary orders for the new arrangement. The Moonsiffs Court Goomastah who sells will have to give the usual prescribed Security.—

/Signed/ J. A. le. Boswell
Assistant Collector

Enc 2.
No 148.

To E B Thomas Esqre
Collector of Coimbatore

Sir

In reply to your letter No 224 dated 16th instant I have the honor to state that the

Fort St. George 22d September 1856

the Goomastahs attached to the several District Moonsiffs Courts under my jurisdiction are already overburdened with business and that I am of opinion that it would not be advisable on any account to nominate any of those officers to perform the functions of Stamp venders in addition to their legitimate duties. I therefore request you will be good enough to make your own arrangements in that respect to carry out the decision of the Board of Revenue as early as practicable as great inconvenience is at present experienced in procuring Stamp Paper

Coimbatore
Gillah Court
29th July 1856

/Signed/ T. B. Rowsell
Civil Judge

/True Copy/
/Signed/ J. A. le Boswell
Assistant Collector

818-819
Bd. No. 3070
Proceedings thereon.— The Board regret to find from this letter that their instructions for arranging for the sale of Stamps at the different Moonsiffs Court have not been carried into effect because the

Fort St. George 22d September 1856

Civil Judge objects to any of the Moonsiffs Court Servants being appointed venders and the Collector represents that the Sales are so small that the commission fee holds out no inducement for persons in search of employ to undertake the office.

2. The Board had anticipated that some Canditates for Government employ would have been found ready to accept this Office for although the present remuneration might be small there would be hope of succeeding to other appointments Thomas has exerted himself to find such persons and will continue to do so meanwhile he is requested to report what the amount of the annual Stamp Sales is at Coimbatore and Bhowanny where complaints have arisen and at what distance the Tahsildars Cutcherries are from the Moonsiffs Courts in those two towns.

3. Stamps are reported to be now sold in every place where is a District Moonsiff

and

and the orders which Mr. Thomas reports he has given to prevent purchasers meeting with delays will the Board trust be successful in mitigating if not in removing the inconvenience which has been complained of by the Judicial authorities.

No. 217

To G. S. Forbes Esqre

Secretary to the Board of Revenue

Fort St. George

820

Bd. No. 3415

From the Ag. Collector of Tanjore . . .

Sir.

The Sea Custom Manager at Negapatam represented to Mr. Forbes on 6th June 1855 that the owner of the house at that place now rented by the Government as a Sea Custom house at a rental of Rupees 24 8 " was intending to sell the building and he represented the advantage that would result to Government were it to be purchased.

* Miss Walkers

2. Mr. Forbes accordingly desired Mr. Overseer Miles to value the building that Officer gave Rupees 1,500 as the result of his estimate.

3 Miss Walkers then wrote to Mr. Forbes complaining of the lowness of the estimate and urged the propriety of recommending the Government to purchase it at a higher rate Mr. Forbes replied that such a measure was impossible It now appears however that a merchant in Negapatam has offered 5000 Rupees for the house Mr. Grenfell the Head Assistant Collector in advising me of this circumstance strongly recommends the purchase by Government / whom Miss Walkers is desirous of accommodating and whose decision she is willing to await / of the house for Rupees 5000 the Grounds for his recommendation are / the very Convenient situation of the house exactly opposite to where the boats discharges their Cargoes. 2 the building being in itself so extremely well adapted to the purpose to which it is applied 3 that the measure of Sea Custom revenue in one year equalled nearly 4 times the amount of proposed purchase and lastly the absence of safe guard against a larger rental than 24 8 " being demanded

0035

Fort St. George 22d September 1856

demanded by any one into whose hands it may pass that the present owner will sell it is certain as she states herself to be in pecuniary distress.

4th The offer of Rupees 5000 may be fair under the circumstances mentioned by the Head Assistant Collector and detailed above and in consideration of the last of his grounds in particular I consider that it would be to the interest of Government to purchase the house for Rupees 5000 and beg to recommend that sanction may be obtained for the same

Tanjore
27th August 1856 } (Signed) J. W. Scherry
Acting Collector

Bd. No. 3077
Proceedings thereon
820-821

The Board of Revenue understand that the building referred to in the above is a good deal out of repair. Before therefore recommending its purchase they would wish to know what amount it would cost to put it in good order. The Collector should also ascertain whether the party who is said to have offered 5000 Rupees for the house would be willing to allow it to remain in the occupation of Government at its present rental in the event of his becoming the purchaser.

No. 2687.

Sir,

I have the honor to acknowledge the receipt of an Extract from the Board's Proceedings of the 23d Instant and to state that as therein decided, I have altered the date of Sale to 27th September next in the advertisement alluded to.

The lands selected for sale are in the possession of Cheriamannick the Proprietress.

I have &c.
(Signed) J. Clarke
Collector.

822

Assent
30 August 1856
822-826

Order thereon

Ordered to be recorded

17037 Fort St. George 22 September 1856

824

Bd. No. 3736

From the Civil Auditor — Pension Departt.

No. 1083.

Official Memorandum.

The Civil Auditor has the honor to request that the Secretary to the Board of Revenue will transmit for record two Copies of their Circular Order, dated 21st July 1853, regarding the Commutation of Pensions alluded to in the Extract of their Proceedings, dated 12th October 1853.

Fort St. George, Civil Auditor's Office, 17th September, 1856. — Signed F. Lushington, Civil Auditor.

Ordered that the following Official Memorandum be sent.—

824-825

Bd No. 3074

To the Civil Auditor.

Official Memorandum.

The Secretary to the Board of Revenue has the honor to forward to the Civil Auditor 2 Copies of the Circular Orders, dated 21st July 1853 and to inform him that the Board's Circular Orders for 1853 have been printed in a separate volume, and may be had on application to Government

Resolved

17038 Fort St. George 22 September 1856

Resolved that the following letters be despatched:—

826

Bd No. 3076.

Circular to all Collectors

Circular.

Sir,

I am directed by the Board of Revenue to inform you that they will, from this date, dispense with Column V* of the Monthly Register of Petitions referred for disposal, viz.—

2. When they require a Copy of your Endorsement on any particular Petition, a Special reference will be made to you for it; these calls, however, are not likely to be frequent if care is taken to furnish Petitions with Endorsements on their addresses and the dates of such Endorsements are duly entered in the proper Column of the Register.

3. The Board desire me to remark that the last Column of the Register is intended for occasional remarks bearing on the Petitions not for such routine entries as will be disposed of "Referred to the Tahsildar," viz.—

* Heading Collectors Endorsement.

Revenue Board Office, Fort St. George, 22 September, 1856 — Signed G. Forbes, Secretary.

&c.
