Honble Sir,

In doing Myself the Honor of addressing you from the Presidency of Bombay where I am at present on furlough, I take the liberty with every sen=timent of Respect, to acquaint you, that by the recent arrivals at this Port from England, I have received a Letter from My Father earnestly entreating my return to Europe, with as little delay as possi=ble on urgent private affairs, and as my future welfare and pros=pects in Life depend on my Speedy

arrival

8087 Fort St. George 25th June 1813.

arrival there I have consequently to solicit the indulgence of a fur-
=lough accordingly.—

Aware that my length of Service, do not entitle me to Pay during my leave of absence, I can of Course only Solicit a furlough agreeably to the existing Regulations.

I entertain the most lively hope that you will view my Ap=
=plication in a Satisfactory light, and that I shall be Honored with your Commands, permitting me to em=
=bark from hence, on board the first Ships that may be homeward bound.—

Sir,

In reply to your letter of the 20th Instant, I have the honor to Report for the information of the Officer Commanding the Division and the Military Board that the Building at present used as a Chapel

at—

8120 Fort St. George 25th June 1813.

at Vellore is 45 feet 6 Inches in
length, and 28 feet 6 inches in breadth;
its Construction is very incommodi=
=ous and its Site extremely incon=
=venient, and much confined, being
situated in the Compound of the
Commanding Officer, thro' which
it is necessary to pass in going to
the Chapel. - The Building will
scarcely afford accommodation for
more than fifty Men besides the
Officers of the Garrison; and the
Doors, Windows and Floor are through
=out much decayed. -

The foundation of a
Building intended as a place for
Divine Service and Situated be=
=tween the Commanding Officer's
Quarter and that occupied by -

from 6 to 9 and 10 feet deep in some
places and is 2 feet 9 Inches in
thickness at the Top.—

This building extends
60 feet in length and 30 in breadth
having a projection of 10 feet Square
at one end which appears to have
been intended as a recess for the
Communion Table. The foundation
has been completed, it appears per-
=fectly firm, and not to have sunk
in the least since its construction.—

To the Chief Engineer

Fort St. George.

Sir,

Agreeably to your directions I have inspected the Road lately Repaired by Nulla Tamby Zemindar, leading from Amarambadoo to Three Pernadoos, and have the honor to report the repairs properly executed.

The Drains on this part of the Road and near Seracadatoor are well constructed and correspond in number and dimensions, with the Contractors Estimate.

I have also inspected the Causeway lately Constructed near the Chumbarambaucum

Tank,

8127

Fort St. George 25th June 1813.

Sank, and find the work well executed and of the best Mate-rials, being constructed of dressed Blue Stone instead of Rough Stone as exhibited in the Estimate, which must have cost the Contractor a considerably greater Sum of money. It appears to me however that this work being raised about 15 Inches above the level of the Adjacent ground, is liable to be speedily undermined and destroyed by the overfall of water during the wet Season, which I conceive can only be remedied by laying an Apron of Rough Stone of 10 or 15 feet broad on either side throughout the whole extent

extent of the Causeway, sloping it down gradually to the level of the Adjacent ground.—

and Provisions with the Expedition to the French Islands in the year 1810 having been laid before us we beg leave to bring the Petitioners' case to the consideration of your Excellency in Council.—

The Petitioner it appears was entertained as a measuring man by Captain Snow the Commissary of Grain and Provisions on a Monthly pay of ten Pagodas, out of which he left a family certificate for Six Pagodas and embarked on the Expedition with that Officer, when Captain Snow proceeded with the Troops from Bourbon to the Isle of France in the Month of October, the Petitioner was left at St Denis at which

Sir

No 19.
From the Secretary to the Marine Board. In reply to the Letter of the 26th January last state their sentiments regarding the limitation of officers baggage and the tonnage to be allotted to troops on Transports. Detailed suggestions on the Subject.—

Para 1. I am directed by the President and Members of the Marine Board to acknowledge the receipt of your letter dated 26th of January last, transmitting, with reference to former correspondence, copy of a communication from the Quarter Master General of the Army, relative to the limitation of Officers baggage, and the allotment of Tonnage for Troops on board Transports.—

From

8144

Fort St. George 25 June 1813.

	Proposed Tonnage Including Camp Equipage	Tonnage of Camp Equipage
Field Officers	4½	2
Captain Payr. and Surgeon	3	1½
Subaltern and Assistant Surgeon not in Charge of a Corps	2	1

N.B. A Field Officer or Captain Commanding a Corps to have a half Ton additional to the above Rates.

2nd From the Quarter General's report, it appears that the proportion of Tonnage expressed in the Margin will cover all private equipment of Officers, that the Tonnage for Troops should be calculated at the rate of two Tons per man and that a Space 6 feet long and 1½ foot broad is sufficient for the birth of each non Commissioned rank and file, whose baggage, on embarkation, is to be limited to a Knapsack, and that of the women to a bundle each.

3. The Board beg leave to State that in the engagement

of

8145 Fort St. George 25th June 1813.-

of Transports in future, strict attention will be paid in the Marine De=partment, to the calculations above mentioned, and they request you will convey to His Excellency in Council their opinion that it would be very desireable that an Officer from the Quarter Master Genls Department, as suggested by Lieute=nant Colonel Blacker, should in company with the Surveying Officer inspect the accomodation proposed to be allotted for Troops, before any final arrangement is made for the hire of the Ship.-

4th With reference to the 3rd Paragraph of the Quarter Master=Generals letter, I am directed to observe

that

2146 Fort St George 25th June 1813—

that the Warehouse of the Survey of baggage will be open for the reception and examination of baggage from Nine in the Morn-=ing till five in the evening during the preparation of Transports for Sea—

The Board are of Opinion that no baggage should be received at a later period than the day preceding the embarkation. I am further desire-=ted to request that the particular instances when they occur, of a Seperate Tonnage being required for Regimental Stores, the property of Government, of the Colonel / in the case of His Majesty's Regiments / or of the Corps, may be communi-=cated as early as possible to the

removal of the Boatmen from the Spot at ~~which~~ present occupied by them be delayed till the Monsoon. Will ascertain, in communication with the Superintending Engineer the Compensation to be paid for the Huts. Suggest that the Collector of Madras be directed to investigate the Right of occupancy of the persons who have erected buildings on the Space allotted for the boatmen.

President and Members of the Marine Board to acknowledge the Receipt of Mr. Secretary Strachey's Letter of the 1st Instant on the Subject of removing the Boatmen from the Spot of Ground which they now occupy near the Black Town Wall.—

2. The Board beg leave to State that the Spot of Ground, pointed out by the Master Attendant in the Month of December last, for the accommodation of the Boatmen, has been inspected by the Superintending Engineer and found to be beyond Six hundred Yards from the Black Town Defences, and is consequently unobjectionable in that particular.

Gentlemen,

No. 23
To the President and Members of the Black Town Esplanade Committee - Encloses copy of a letter from the Marine Board - They will State whether the proposed delay in removing the huts at Royaporam will materially impede the progress of the new defences of the Black Town. They will prepare, as soon as possible, a distinct Valuation of the proposed Site for the Covert-way and Glacis. Steps to be taken with regard to the buildings erected without Authority at Royapooram

Para 1. I am directed by the Honorable the Governor in Council to transmit to you the enclosed Copy of a letter from the Secretary to the Marine Board, and to desire that you will State whether the proposed delay in removing the Huts of the Boatmen at Royaporam will materially interfere with the progress of the works in contemplation for the improvement of the Defences of the Black Town.

3. The Governor in Council is desirous of receiving as soon as it can be prepared a distinct valuation of the property situated in

Honorable Sir,

I have the honor to ac-
knowledge the Receipt of Mr. Secre-

No 24
From the Military Auditor General. Stating that the Extract of the letter from the Court of Directors granting increased Allowances

8155 Fort St. George 25th June 1813.

Allowances to the Military Auditor General admits of two constructions. Explains which he considers correct, and states what will be the amount of his Salary under that construction.

Secretary Strachey's Letter dated the 9th Instant, transmitting for my information and Guidance, an Extract from a General Letter from the Honorable Court of Directors in the Military Department dated the 21st October 1812, by which it is notified that the Honorable Court have been pleased to accede to the Recommendation of the Government in granting an encrease of Salary to the Military Auditor General.

2. In regulating the Military Auditor General's Allowances according to the above Communication, it becomes necessary from an expression in the Honorable Court's Letter which admits of different interpretations to trouble

. . . . .

your

8156 Fort St George 25th June 1813

your Excellency with a few Re=
=marks explanatory of the encrease
of allowances which it has been
the pleasure of the Honorable Court
to grant to the Military Auditor
General.—

3. Had the Subject re=
=lation to any other individual I
should have no difficulty in de=
=ciding as to the proper Construction
to be given to the Honorable Courts
Letter, but the Confidence reposed by the
Government in this Office will not
permit me, as my personal interest
is Concerned, to adopt that Construc=
=tion without the express Sanction
of your Honorable Board.—

4. The Circumstances con=
=nected with this question are

Shortly

8157 Fort St George 25th June 1813.—

Shortly as follow.—

5. The late Military Auditor General addressed a letter to Government dated the 6th December 1808, in which, after detailing the grounds on which his application was founded, he stated.— "Hope you will not deem it improper my respectfully requesting your support in representing to the favor= =able Consideration of the Honorable Court of Directors my soliciting an increase to the Salary of Military Auditor General &c"

6. The Honorable the Gover= =nor in Council having forwarded the application with their favorable re= =commendation to the Court of Direc= =tors, the Honourable Court were pleased to transmit the following reply thereto.—

D/158

Fort St. George 25th June 1813.

Extract of a General Letter from the Honble Court of Directors in the Military Department:- dated 21st October, 1812.-

1st "We have attentively considered the application of Lieutenant Colonel Bruce your Military Auditor General for an increase of Salary, and we have agreed in Consequence of your earnest recommendation and of the increased duties of his office to allow him to draw an Annual Salary of Four Thousand Pounds Sterling (Pagodas 833⅓) per Month with the Regimental Pay of his Rank."

To England 29th Janry 1809. Paras 49. 51. Salary of the Military Auditor General - Recommend the Court to increase it & with retrospective effect.

2nd "This Salary which is to be in lieu of every allowance and advantage Arising from Batta,

House

8159 Fort St. George 25th June 1813.

House Rent, Establishment or any other source is to commence from the date of this letter'.—

3rd " "The Military Auditor Genl will however if not supplied with an office by Government, be allowed a reasonable monthly sum as office Rent."—

7. The second Paragraph of the above Extract is that which requires explanation, as it appears to bear two very different constructions, either that of precluding the Military Auditor-General from drawing any allowance whatever under the Heads of

Batta

House Rent and

Establishment

or that of precluding him from deriving

profit

8160 Fort St George 25th June 1813.

profit or advantage by any Superior or additional allowances attaching to his Official Situation under those heads. Such, for example, as the additional Batta drawn by the Commissary General, the Superintending engineer at the Presidency and some other Officers in addition to their Staff Salaries.—

8. With a view therefore to enable your Excellency in Council to determine which of the above constructions shall be applied to the Honorable Courts Orders, I beg leave to submit the annexed Statement shewing that the effect of the first of those Constructions would be to deprive the Military Auditor General

8161 Fort St. George 25th June 1813 —

General of the whole of his present Staff allowances and to reduce his Regimental Pay and Batta nearly one half Vizt. to Pagodas 66.33 per Month, which would constitute the total of his receipts of every description (Staff and Regimental) that construc=tion therefore cannot be applied to the Honorable Court's Orders —

9. With regard to the other construction of the Honorable Court's Letter Vizt. that in consideration of the encreased Rate of Salary the Military Auditor General shall no longer be=nefit by any extra or additional allowances which may have hitherto attached to his Office under the heads of Batta, — House Rent or Establishment

I beg

2162 Fort St. George 25th June 1813.

Beg leave to Submit.—

I. That the Military Auditor General receives only the half batta of his Regimental Rank and of course derives no advantage from his Office in that Respect.—

II. That the House rent which the Military Auditor General draws is Pagodas 50 per Month, while that of his Rank in the Army is but 20, there will therefore under the Honorable Court's Orders be a reduction of 30 Pagodas per Month under the head of House Rent.—

12. That as to advantage arising from the Office Establish-=ment it would be inconsistent with the Military Auditor Generals Obligations of public duty to derive

any

8163 Fort St. George 25th June 1813

any, even were it in his power - it will be in the recollection of Government that only a few Months since it was deemed expedient inconsequence of the inadequacy of the Establishment to abolish the appointment of an officer as second Assistant in this De=partment in Order that by the ap=propriation of his Salary to the pay=ment of Additional Clerks, the Office might benefit by their assistance (which it urgently required) without any Additional expence to the public Trust it is unnecessary to add that no Advantage has been or shall be derived by me from that source. —

13 — In regard to an allow=ance of 16 Pagodas per Month which the Military Auditor General draws

for

8164 Fort St George 25th June 1813

for Candles, it has been appropriated to provide that Article, and to defray other Small Contingent expences incidental to the Office, the Amount of which at the end of the year, it is believed, rather exceeds than falls short of that Allowance. —

14 The Paragraph of the Honorable Courts Letter regarding Office Rent appears to require no remark. —

15. According to this construction of the Honorable Courts Letter, the Military Auditor Generals Allowances will experience the following Change —

16. In place of the former Salary of Pagodas 625 he will

Draw

8165 Fort St. George 25th June 1813

draw in future Pagodas 833-22-40
per Month being a difference or
encrease of ---------- Pagodas 208-22-40
And in place of the
former Allowance of
Pagodas 50 for House
Rent he will in future
draw but 20 Pagodas
on that account being
a Reduction per Month
of ———————— 30-"-"
leaving a Nett encrease per
Month to the Military-"

Audr.

8166 Fort St George 25th June 1813

Auditor General's Allowance of P.s 178-22:40

17. From the explanations thus afforded, I trust your Excellency in Council will be of opinion not only that the latter construction is the Strictest which the Honor=able Court's Letter will bear but that no other interpretation of it would accord with the favorable recommendation of the Government to the Court of Directors, or with the liberal intentions of that Honorable Court towards the Military Aud.r Genl.

In

2167 Fort St. George 25th June 1813.—

18 In requesting your Excellency's further Orders for my guidance regarding the Military Auditor Generals Allowances, I shall of course consider the decision which may be passed thereon as subject to the approval of the Honour=able Court of Directors; and hope=I shall not be considered as presuming too much on the liberality of Govern=ment if I venture to solicit such favorable report to my Superiors at home when the Subject shall be brought to their notice as is

Minute and Resolution thereon—

The Governor in Council apprehends that under a Strict Construction of the Orders of the Honorable the Court of Directors for Augmenting the Salary of the Military Auditor General, the allowances of that Officer must be limited to a fixed Salary of Pagodas 833-22-40- per Month with the Regimental Subsistence of his Rank.—

Considering however the very small increase of income which the Military Auditor General

Fort St George 25th June 1813.

General would receive under such an interpretation of the orders of the Honorable Court, being in the case of Major Prendergast little more than Eighty Pagodas Monthly, while in that of the late Military Auditor & General Lieutenant Colonel Bruce it would even have been less, the Governor in Council is disposed to think that the doubt expressed by Major Prendergast regarding the intentions of the Honorable Court may without impropriety be entertained, and this Opinion

is

8173 Fort St. George 25th June 1813.

is strengthened by the consideration that under a different construction of those intentions if the Military Auditor General had arrived at the Rank of Colonel his aggregate allowances would have been diminished by an arrangement intended to augment them. —

Resolved therefore — that the Military Auditor General be authorized to draw in addition to the increased Salary of £4000 per Annum, the Subsistence Daily Batta and House Rent of his Re= =gimental rank, it being under=

stood

8174 Fort St George 25th June 1813-

it shall appear that in granting

Sir,

No. 29-
From the Accountant General. Report regarding the loss sustained by the Troops in Tinnevelly on the exchange of certain coins recently issued by the Resident in Travancore - Suggestions in consequence.

Para 1. I have the honor to acknowledge the receipt yesterday evening of Mr. Secretary Strachey's letter of the 15th Instant forwarding for my early consideration and report a letter from the Officer

Commanding

8189 Fort St George 25th June 1813.

Commanding the Troops in Travancore to the Commander in Chief's Military Secretary, relative to a loss stated to be sustained by the Troops on the Exchange of the Coins in which their pay is issued.—

2. The alteration in the mode of providing funds for the pay of the Troops in Travancore by issuing them from the Treasury of the Resident in Travancore instead of the Revenue Treasury of the District was established under the authority of Government, at the suggestion of the Resident, with a view to lessen in some measure the heavy loss hitherto sustained by Government in bringing to the Presidency for Recoinage, Certain

Coins

8190 Fort St. George 25th June 1813.

coins which the Resident re=
=ceives from the Circar of Tavan=
=core in payment of the Paishcush
of that Country, and which, it
appeared might in some Cases
be circulated in aid of the local
expenditure in the Contiguous dis=
=tricts.—

3. It does not appear that
inconvenience would have arisen
to the Troops from the operation
of this arrangement, had the Coins
embraced by it been issued to them
at the Current Bazar exchange.
It seems however from the pre=
=sent representation, that they were
issued at higher Rates, and the
Statement is corroborated by the
Report of the Resident in the=

result

8191

Fort St. George 25th June 1813.—

result of the arrangement in the two first months of it's introduction, of which a Copy was laid before Government on the 13th Instant.—

4. I am not aware of the grounds upon which the higher rates of exchange was adopted, but if it has been injurious to the Troops, it is but just that the loss should be restored to them.—

5 The present discussion has brought to the notice of the Office, a General Order of Government re=garding the issue of Money to the Troops in Tinnevelly, of which it was not before aware. It was gene=rally, in it's Knowledge, that a particular local Coin of the Tinne=velly District denominated the

Cully,

8192 Fort St. George 25 June 1813

bully fanams had been prohibited in public payments, but as that species of coin was not named in any of the papers upon which the new arrangement for paying the troops was founded, it was not contemplated that that arrange= =ment could interfere with the operation of any existing Order of Government.—

6. It may however, be found that the same order which prohibited the distribution of bully fanams, prescribed that the pay= =ments to the troops should be limitted to the current coins of this Presidency which, in the case under examination, the Residents

arrangement

8193 Fort St George 25th June 1813.

Arrangement has certainly opposed.

7 It further was not understood that the Coins with which the Resident intended to accomplish that arrangement, would be foreign Coins. If as expected they would be, - not indeed the new Currency of Government but certain Coins of local currency whose introduction to the Contiguous districts would lead to no inconvenience in any other shape. -

8 It is indeed stated in the latest advices from the Resident, that he expected to be able in future to provide for these payments without the use of foreign Coins, by means

of

8194 Fort St. George 25th June 1813.

of a local coin termed by him the Tinnevelly fanam, a circumstance which rendered it needless to advert before to the issue, in the first two Months, of the foreign Coins Mentioned in his Statements, and alluded to in the representation of the Officer Commanding the District. —

9. Another Circumstance however is brought to notice by this extended examination of the Subject, which is, that the Coin termed by the Resident the Tinnevelly fanam, may possibly be the Cully fanam prohibited by Government to be issued to the Troops. It has so often happened that some of the numerous small Coins of the Southern

8195 Fort St. George 25th June 1813.

Southern Provinces have been de=
=nominated in different places
by a different name, that it may
be the Case in this instance. If
on reference to the local autho=
=rities it should prove to be so, it
is presumed that their issue must
be discontinued, in pursuance of the
General Order of Government before
alluded to. A Communication on
this point will be immediately
made to the Resident in Travan=
=core, and the Collector of Tinnevelly
and if the result of it shall
establish the Conjecture I have
expressed, the whole arrange=
=ment must, it is submitted,
be relinquished.—

It is dated 26th Dec.r 1811

10th In the mean time

however

however I beg to recommend that, under the Circumstances stated in the 3rd and 4th Paragraphs of this report, the difference of Exchange shall be replaced to the Troops, and that the same adjustment shall take place, as far as the arrangement has had effect. It never was intended, in adopting the arrangement that any other principle should prevail in its operation.

Abercromby at Bombay in the Absence of His Excellency General Auchmuty; but as I have never heard the result of that reference and as the Officer who holds this Property / and all others Similarly Situated / is interested in Keeping back the Accounts of the Estate, having the use of the Money for I cannot recover Interest from him on that Sum, I therefore beg leave to request that you will take a Convenient opportunity to mention to His Excellency the Governor that the Inventory and Account Current of the Estate of the late Lieutenant Reid has not yet been

furnished, altho he has been dead nearly five Years, and that there is only the Sum of Thirty two Pagodas deposited in the Treasury on Account of that Estate in place of One Thousand Pagodas and upwards which Sum informed the Deceased's Effects sold for, and without the interference of His Excellency I have no hopes of being able to recover that Property.—

I also beg leave to request that you will repre= sent to His Excellency the Governor that other Commanding Officers in this Establishment as well as Colonel Rumley have taken upon them= =selves the irregular Administra= =tion to the Estate and effects

their command, by Paying away
the effects as far as they will go to
those Creditors they wish to serve
when they Know that there are
other Creditors who have an equal
right to share the effects, I beg leave
to mention one case as an Exam-
=ple - Major Dalrymple
=ing a Detachment of Artillery in
the Year 1804 Sold the Effects of
a Lieutenant H. Purves of the same
Corps for the Sum of Star Pagodas
1,103-40-63 out of which he paid Star
Pagodas 710-35-45 and of that sum
only Pagodas 51-3-68 appears to
be disbursements generally made
agreeable to the Articles of War
Viz for Funeral Expence, Servants
Wages

Wages, House Rent and Regimental
Debts, the Creditors who were ex=
=cluded from a participation of
the Assets directed me as the Ad=
=ministrator to resist such partial
payment and I accordingly com=
=menced a Suit in the Supreme
Court against Major Dalrymple
to Compel him to refund the Sums
which my Council advised me
had been paid Contrary to Law
or the usage of the Army, the
Matter has not been brought
to a final hearing, but by Mr
Anstruther's Answer to the Case
Submitted to him respecting Colonel
Rumley, I understood for the
first time that he was defending
Major Dalrymple at the ex=
=pence

8227 Fort St George 25th June 1813.-

Expense of the Honorable Company under this plea that I had brought the Suit against him for having discharged the Deceased's Regimental Debts; If I had been aware that the Suit was to be defended by this Government I certainly should not have Commenced it; and since I came to the Knowledge of that circumstance the Suit has been suspended, in the hopes that an opportunity would occur of having the Matter referred to the Military Authorities who are alone competent to decide what debts are to be discharged under the authority of the Articles of War; I therefore beg leave to state for the information of His Excellency the Governor that I am

Dear Sir

desirous to avoid adding further expence to Government or myself by bringing the Suit to a hearing in the Supreme Court, but that each party pay their own Law Expences, and that His Excellency will direct a Committee of Officers to decide whether Major Dalrymple has not made payments which he was not warranted to make, and if so that he be directed to refund those sums. The enclosed Copy of his Account Current with the Deceased's Estate will enable His Excellency to Judge whether I have had a just cause of Complaint.—

In representing those two cases for the information of

of His Excellency the Governor
I am sorry to say that they are
not the only ones by which
I am a sufferer for this too fre=
=quent practice for Officers who
take charge of deceased Officers
Effects, to withhold the Effects an
unreasonable length of time, and
if that Officer should also di=
=solvent his individual Creditors
claim the whole of his Estate
to the detriment of those whose
Property was left in this manner
in his hands, shall to His Excellency
the Honorable the Governor on in=
=quiry see the evils which I have
taken the liberty to complain of,
the remedy is already provided
by the General Orders of the 15th
August

Fort St. George 25th June 1813.—

August 1804 if that Order was
to be carried into Effect by
Lodging the Assets imme-
diately in the Company's Trea
-sury as collected or within
three Months of the Sale
of the deceased's Effects, and
to deliver over the Accounts
and Papers of the Estate when
called upon to do so by the
Legal Representative of the
Deceased - A very great Majority
of Officers who take Charge
of Deceased Officer's Effects do
so and pay the Funeral Ex-
-pences

Expence, Servants wages, House
Rent, and Regimental Debts
which is all that they con-
=sider themselves justified in
doing with an insolvent Estate
without taking out Letters of
Administration, but as Major
Dalrymple thought otherwise
and so others may be led
through error to follow his
example, it would therefore
be very satisfactory to Offi-

Order thereon

Ordered that a copy of the foregoing letter be furnished to the commander in chief, and His Excellency is requested to report the measures which may have been adopted in consequence of the instructions addressed to Major General Pater on the 12th and 22nd of November 1811 regarding the estate of the late Lieutenant Reid of the 5th Regiment of Native Cavalry and on the general question of the estates of Deceased Officers.

The Governor in Council observes that the measure of directing the Law Officers of the Honorable Company to defend the Suit instituted by Mr. Waddell against Major Salmon[illegible] of the Artillery was by no means intended for the purpose of inducing Mr. Waddel to relinquish his pursuit of a supposed right by legal process, and His Excellency is disposed

disposed to think that the regular termination of that proceeding by a Decree of the Supreme Court would have best decided the question, which is at issue, respecting the estate of the late Lieutenant Purvis, and in the discussion of which, as it has been placed in the hands of the Law Officers it is not the intention of the Government further to interfere.—

Ordered that the foregoing Resolutions be communicated to Mr. Waddel in the first instance, and that the result of the reference to the Commander in chief will be hereafter made known to him.—

To the Military Board — Sanctions Estimates — no Chapd. will

Gentlemen,
Para 1.

I am directed by the Ho=

8240

Fort St. George 4 June 1813.

Honorable the Governor in Council to acknowledge the receipt of your Letters of the 10th Instant Nos. 159, 160, 161 and 162.

2. The two Estimates submitted with your Letter No. 159 are approved by by the Governor in Council.

3. As it is not at present intended that a European Regiment shall be permanently posted at Vellore, it is considered inexpedient that the expense of erecting an extensive Chapel should be incurred at that Station, and the Commanding Officer of the Garrison will be desired, during the continuance of His Majesty's 86th Regiment at Vellore, to make some arrangement in communication with the Chaplain for the decent performance of Divine Service.

4. The manner in which the

will be built at Vellore, but an arrangement must be made by the Commanding Officer in communication with the Chaplain for the decent performance of divine Service. The Causeway at Seroco-latoor to be secured as suggested. Sanctions an abstract for arrears of pay to a person improperly discharged by the Officer in charge of the Commissariat at St. Paul's. They will consider of the expediency of establishing a Regulation against the arbitrary removal of Public Followers employed on Foreign Service.

the repair of the Road to Struperma-
-door is reported to have been executed
is creditable to the Native Contractor
for that work. I am directed to desire
that the Causeway at Seracalatoor may
be secured according to the suggestion
of the Engineer by whom it was in-
-spected and at the estimated ex-
-pense.—

5. As you are of opinion
that the person mentioned in your Re-
-port No. 162 was improperly deprived
of his employment in the Commissariat
by the Officer in temporary charge of
that Department at St. Paul's, the Go-
-vernor in Council has authorized the

the Horse Guards to come out to this
Country by the first opportunity, that
I was unavoidably detained at Bom-
-bay during the period alluded to by
the Monsoon, and that I left that Pre-
-sidency the moment the season would
permit to join my Regiment at this
Place, hoping that His Excellency will
be pleased to take my case into

The Board deem it pro-

-dressed by the Commanding Officer of his
Majesty's 25th Regiment of Light Dra-

in Chief does not appear to be an ap-
-peal against a Retrenchment, in which
case it would be necessary that it should
be rejected for its informality; but they
consider it to be a request for an indul-

-tions of the Service, and consequently
not allowable by the Military Auditor

To The Honorable the
Governor in Council

Honored Sir,

Agreeable to General Orders of the 3. of May 1812 I have the honor to forward the Plan of a House, I wish to erect, within the limits of the Cantonment of Bellary, but as the Ground is without the prescribed distance of the Fort, I have taken the liberty of requesting your permission to build, which is the plan of the house intended to be erected and the total expense will not exceed 110 Pagodas.-

I have also the honor of forwarding the Plan (No. 2) of an old uninhabitable House, which I have taken down, and beg leave to mention

8291

Fort St. George 2. July 1813.—

mention that the new house is to be erec=
=ted in the same compound, where the
former stood, which is one of the oldest En=
=closures in the Cantonment.—

The Compound is situa=
=ted on the West end of the Canton=
=ment, is about eighty paces square and
enclosed by a Hedge in many parts 10
feet in Height— on the East and South
sides it joins two other Compounds, and
on the North and West, is separated from
the other buildings by a Road.—

The old house was built
of Mud Covered with Thatch and fal=
=ling to pieces, when I purchased it
with the intention of building— The
house I am desirous of erecting, is to
Consist of a Hall with a Terraced
roof with a Sloping Verandah in
front and rear, which latter is to have

No. 31.

From the Mily. Board - submitting Estimates.-

Honorable Sir,

We have the honor to
submit and recommend the following
Estimates Viz.

Estimate

8293

Fort St. George 2. July 1813.-

No. 1. Estimate for repairing the wood work to the Bridge in the Fort of Cannanore which leads to the Ravelin amounting to Pagodas 378-30-6.-

No. 2. Estimate for whitewashing the European Infantry Barracks and Hos=pital at Bangalore by order of the Officer Commanding amounting to Pagodas 153-3-50 already completed.

No. 3. Estimate for repairing the Commanding Officer's Quarters at Bangalore, ordered by the commanding Officer to be executed immediately, amount=ing to Pagodas 222-2-7 3/4.

No. 4. Estimate for building an Arrack Godown at Arcot to contain 60 casks of Arrack agreeably to the accom=panying Plan, amounting to Pagodas 407-32-11. This Estimate was called for under our orders at the suggestion of the

8294

Fort St. George 2d. July 1813.

the Commissary General who reported that the Building hitherto used as an Arrack Godown was situated at an inconvenient distance from the lines of the Europeans, and in the Bazars, at Arcot; It further appeared to be private property; for the use of which a monthly rent was chargeable to Govern-

-ment.-

No. 5. Estimate for constructing a Compound Wall at the Gun pow-
-der Manufactory to separate the Quarter where the people reside and the Bullocks and forage are kept from the other parts of the works as noted on the accompanying Sketch of the Powder Mills, amounting to Pagodas 1,131-42-47- The Superin-
-tendent of the Manufactory having

represented

Fort St. George 2. July 1813.

represented to us the Danger which he apprehended might result from the forage being accessible to the various persons who are employed at the mills and from whose negligence it might be set on fire, and also that after the labours of the day are over, he thought it proper that the people should be separated from the mills, we have duly considered the Statement of that officer, and being of opinion that every practicable security should be afforded to that manufactory, we directed the Estimate to be prepared, which we now submit for sanction.

N.º6. We have also the honour to submit an Estimate, amount-

ing

8296. Fort St. George 2d. July 1813.

amounting to Pagodas 52 - 22 - 40
of the probable expense of construct=
-ing two Gates and the Bridges
leading to and from the Maga=
=zines at the Powder Manufactory
These works we consider indispensa=
=bly necessary and accordingly recom=
=mend the Estimate for Sanction. -

Fort St. George

Gentlemen,

I have the honor to trans-
-mit herewith an account current between
the Department of the late General Agent
for Cavalry Supplies, and Rungapillah Con-
-tractor for supplying Grain to the Cavalry Re-
-giment stationed at Trichinopoly for the year
1808/9 wherein it will appear that a Balance
of Star Pagodas 192-22-40 is due by him
to -

8334

Fort St. George 2d. July 1813.-

to the Department.-

The Contract abovementi=
=oned was entered into with Rungapillah,
by Mr. H. Young late Sub Collector of this
place, at the request of the then General
agent, and the Contract agreements were sub=
=mitted for sanction of the Board in my
Predecessor's letter of the 27th. June 1808.

On my demanding of Run=
=gapillah to discharge the said Balance he
gave in an account Current between him
and the Collector here (Copy of which I have
the honor to enclose No. 2) exhibiting a ba=
=lance of Pagodas 62-16-47 in his favor to
be recovered from the Ryots and accounted
for by the Collector, whose non adjustment
of this Balance, Rungapillah stated to
me to be the cause of his not having
settled the Balance due to my late De=
=partment.-

I

8335.

8

Fort St. George 2d. July 1813.-

I forwarded to the Collector of Trichinopoly a Copy of the abovemen=-tioned Document and requested his exertion for the final Adjustment of the Contract account, to which the accompanying No. 3, 4, and 5 are Copies of the replies re=-ceived by me, wherein Mr. Travers the Col=-lector acknowledges a Claim of Rungapil=-lah against his Department, but only for Pagodas 42-37-38 of which sum that he had recovered Pagodas 37-17-35 and is ready to pay it from his Treasury, but that the Balance Pagodas 5-20-3 he regrets to say must be considered desperate.-

I intimated to Rungapillah the subject of Mr. Travers reply to me and desired him repeatedly to attend in per=-son at the Collector's Office to compare and get an Adjustment of the difference ar=-ising between the Documents No. 2 and 4

and

8336. Fort St. George 2d July 1813.

and finally to discharge the balance due to my late Department.—

I beg leave to suggest that the sum, the recovery of which Mr Travers states to be hopeless should be written off against the Public, and that the Board should authorize me to sue Rungapillah for the adjustment of the remaining balance, as his excuses are altogether frivolous.—

I take this opportunity to submit to you another Account Current No. 6. between my late Department and Rungapillah as Contractor for supplying Grain to the Cavalry Regiment stationed at Trichinopoly for the year 1807/8, wherein it will appear that a balance of Pags as 28—15—11 is due by him to the Department. On demanding which he produced a Statement (No. 7) of sums paid by him on account

of

8337

Fort St. George 2d. July 1813.

of Major Munt during the existence of the said Contract, amounting to Pagodas 50-"-" from which he deducts the Balance due to the Department - Pagodas 28-15-" and Claims for the remainder Pagodas 21-30-" to be credited in part of the Balance due by him on the other Year's Contract.-

Regarding the correctness of Rungapillah's Statement I have to observe that the two last Items appear to have been paid by him on the authority of Captain Munt, but from credible information, I believe entirely for the execution of some private Commissions, which he has improperly introduced into his Public Account taking Credit for the amount; the other 10 Pagodas stated in the 1st. Item I conceive is

not

8332

Fort St. George D. July 1813.

is not chargeable to Captain Stuart, who has regularly paid for 5 Garce of Grain purchased from him in February 1808. at the rate of Pagodas 31 per Garce char= =ged in his Public Account, but Runga= =pillah claims the 10 Pagodas to be the difference of Price he agreed for.—

Whether or not he possesses any Voucher in support of his assertion I cannot say, for, from his evasions when sent for, I find no possibility of bringing him to any adjustment but by a legal process as he will not even attend me when repeatedly called.—

I have the honor to be,

Gentlemen &c &c

Sir,

Para 1. I acknowledge the receipt of your letter of the 22d. September, enclosing an Account Current from Rungapilla formerly Grain Con=tractor, and have to apologize for the great delay which has arisen in replying to your commu=nication.—

2. On a reference to the Account Cur=rent enclosed in your letter, it appears Ranga=pilla demands Star Pagodas 62-16-47 an amount by which the Accounts of this Collectorate seems to be incorrect, as the real balance to Rangapilla is no more than Pagodas 42-37-38; Six Pago=das of which have been collected and can be paid to him whenever you think it ad=viseable for me to do so.—

Gentlemen,

To the Quarter Master of Brigade
Northern Division of the Army
Masulipatam

Sir,

In conformity to the instructions

8352

Fort St. George 2d. July 1813

instructions received, to proceed to Gunna=
=veram, I went to that Village and made
particular enquiry into the several sub=
=jects my attention was directed to. -
There being a well sunk already near
the Village, it afforded the means of
ascertaining two principal points. 1st.
The number of persons it could supply
with water, and 2d. The probable expense
of sinking Wells similar to it. -

From the total failure
of the rains the inhabitants of the Vil=
=lage amounting to about three hun=
=dred persons have supplied themselves
with water from the well, during
the last seven Months; and it has
been reckoned that the well has fur=
=nished about two hundred inhabitants
more, who reside in the adjoining
Villages

8353

Fort St. George 2. July 1813.-

Villages with water,- besides what has been drawn for the battle - Taking into consideration the great depth of the Well and the slowness with which water is drawn up; I am of opinion that two wells will be requires for a corps of Native Infantry, and four for a Regiment of Europeans. in all, twelve Wells for the force proposed to be cantoned at Gunnevaram.-

I have enclosed a Plan and Section of the Well, and an Estimate of the probable expense of excavating and bricking it, but there are circumstances attending the sinking of the Wells, which may either encrease or diminish the estimated amount. This work can be performed by Task - The tank diggers whom are employed from the surrounding Coun-

-try

8354

Fort St. George 2. July 1813.

Country have agreed to sink a well similar to that in the Village, to the depth of seventy feet, for eighty Ma=dras Pagodas; but in the event of not finding water at that depth, they expect to be paid for any additional labour, in case they should be re=quired to sink it deeper; and as at that depth they will have to perforate a Rock, and to raise the excavated frag=ments, in clearing the Well, to a very considerable height they hoped those cir=cumstances would be taken into con=sideration - As their demand appeared reasonable, I assented to these condi=tions, but told them, that if water ~~a~~ should be found at a less depth than seventy seven feet, a proportionable de=duction should be made from the

Sum

8355

Fort St. George 2. July 1813.-

Swan before agreed upon; which was admitted as a thing of course.-

I made very particular enquiry as to the probability of finding water by sinking wells, and was assured by every one, that there was no doubt of finding water in any part of the high ground proposed for the Cantonment; but it was not certain at what depth it would be met with.- A piece of the Rock taken out of the well at the Village, was shewn me as a certain indication of the presence of water, wherever a Bed of that kind of Rock existed; and as the soil in the vicinity is uniformly the same, it is reasonable to conclude that the Bed of Rock pervades the whole space of Ground at and near Gunnaveram, Consequently there is a great probability

8

8356.

Fort S.t George 2.d July 1813.:-

of water being found by sinking wells.-

It is not possible to ascer-
=tain with precision, the probable period
during the year the Troops must depend
on wells alone; and whether water for Cat=
=tle is procurable throughout the year, as
that depends on the vicissitude of the sea=
=sons; but if the water should flow as
abundantly into the new wells proposed
for the Cantonment, as into that at
Gunnaveram, there can be no doubt
of a sufficient quantity of water, and of
good quality being obtainable through=
=out the year, from the Wells alone pro=
=vided they be kept clean - But there is
no certainty of the Tanks affording wa=
=ter every year, or for any determinate
period; as they are all dried up at pre=
=sent, and from the information of the
Tasadar, and Head Farmers, have not
afforded

8357.

Fort St. George 2. July 1813.

afford a drinkable water either for the in-
=habitants or battle for the last seven months.
In the regular succession of the seasons,
when the rains fall at the usual time,
and in usual quantity, water is procur-
=able from the tanks throughout the Year,
not only for the use of the inhabitants
and battle, but also for the purposes
of Cultivation - The inhabitants have
never resorted to the use of the well, un-
=less the Tank water has failed them. -
This happened six years ago, in the interve-
=ning four years the Tank supplies them
with water. - but they have been obliged
to have recourse to the well again in the
present drought - The Headmen observed
generally, that the failure of the periodi-
=cal rains has happened (within the limits
of their knowledge) about once in every
six or seven years, and that for the pre-
=ceding

8358.

Fort St. George 2d. July 1813.-

preceding three years, there had been a deficiency of rain at the proper seasons, which had augmented the distress of the present time, to a degree almost equal to that of the last famine, which happened twenty three years ago.-

The Village of Gunnaveram, is situated in the Noorjee Purgunnah, and in the Zemindary of the Rajah Ram Chunder appah Row. It has a tank, which was originally established by an individual, for religious and charitable purposes; consequently, no water is permitted to be drawn from it for the cultivation of Grain fields - It is now in want of repair and would cost about six hundred Rupees to put it into good condition.-

At the distance of a Mile from Gunnaveram in a Northerly direction

8359

Fort St. George 2d. July 1813.-

direction is another Tank belonging to the Village of Marlapollam, which extends at least a Mile and a half in length- This Tank is in a bad state and would require eight hundred Rupees to put it into Repair- There is a third Tank at the Village of Danajecgoodums, distant one Mile in an easterly direction from Gunnaveram, and about the same dis=tance from Marlapollam- This is not so extensive as the foregoing, but is in worse condition, and would require at least a thousand Rupees to repair it- The inhabitants are of opinion, that if these three tanks were properly repaired that a Supply of water could be collec=ted during a single rainy season, adequate to every purpose for a period of three Years- But there is another made of Supply by which water could

be

8360 Fort St. George 2d. July 1813.

be retained for a much longer period, presuming no unfavorable circumstances happening to operate against it.—

I have been informed that in a Northerly direction from Gunnaveram, and distant about eight Miles is a very extensive Natural tank, formed by two ranges of Hills inclining to one another, the lower opening being shut up, by a strong Dam of earth extending between the two Hills, about half a Mile in length— The name in general use among the Natives is the Brumiah Lingum Tank—although properly there are three tanks belonging to the three Villages Suggooroo, Mallapully and Gotoor or Nainaveram—which adjoin to one another and appear to be but one Tank when they are full. This assemblage of Tanks, contains in ordinary Seasons, such

Fort St. George 2d. July 1813.-

such an abundance of water, as not only to supply sufficient for the Cultivation in the neighbourhood, but to discharge its surplus into the Tanks of thirty Vil=
=lages at some distance from it by means of water courses; and I had the oppor=
=tunity of ascertaining by personal exam=
=ination, that the water courses coming from the Brummah Lingum Tank, that supply those of Gunnaveram, Mar=
=lapollam and Danajeegaadum, are in existence and require only to be repaired to be again useful - I was further inform=
=ed by the Head Farmers, that notwith=
=standing the Rains has fallen in less than usual quantity during the last three years, the Brummah Lingum Tank contained water till the month of June, when it was exhausted in the Cultivation of the lands adjacent to the

Tank

Fort St. George 2d. July 1813.

Tank, and produced about six hundred candies of Grain - The Dam of the Tank requires some, but not very considerable repair, as it was thoroughly repaired in the Collectorship of Mr. Stranghan. The Ground in the vicinity, is reported to be rich, as high and extensive as that at Gunnaveram, but covered with rocks and a much thicker Jungle.-

The Brumiah Linguem Tank is computed to be about four Miles in Length and as many broad, in its broadest part.-

From the strictest enquiry I have been able to make, no materials or artificers are procurable on the Spot.- The subjoined list will point out the names of the Villages and places whence artificers and Materials are procurable, and their respective distance from Gun-

-naveram

8363

Fort St. George 2d. July 1813.-

Gunnaveram.-

In order that the examina-
=tion should be correct, whether the soil is
adapted for making bricks Tiles &c. I engaged
some of the Head men of the Pot Makers,
from Masulipatam and Ellore, to accompa-
=ny me to Gunnaveram; and having collected
others from the Villages in the vicinity, I
went with them to every likely spot within
a certain distance of the site of the intended
Cantonment, and attended personally the
digging up of the soil several feet in depth;
and examined into the nature of it minute-
=ly, by the usual process - Having found
some that appeared well adapted to our purpose,
about twenty bricks were made, and on
burnt but they proved to be of the worst
quality, and inferior to the Pellah bricks
at Masulipatam - The Potmakers were

of

8364 Fort St. George 2. July 1813.-

were of opinion that flat and Pan
Tiles might be made, but they could
not speak decidedly as to their quality,
they seemed apprehensive of not being
able to make the best kind of tiles
at Gunnaveram.-

The Bricks used in the
Construction of the well at Gunnave=
=ram, were made at the Villages of
Munthuna and Thulapolao, each dis=
=tant from Gunnaveram about four
Miles- The inhabitants of other Villages
in the neighbourhood have been also
obliged to procure Bricks for Wells they
are now sinking from the above na=
=med places, the soil being no where
else favorable for making Bricks.-

I have

8365

Fort St. George 2d. July 1813.

I have particularly examined the qua-
-lity of the Bricks in question, and
find them excellent - but the distance
from which firewood is procurable,
and the Carriage to Gunnaveram,
will make them a very expensive
material. - The price inserted in the
enclosed Estimate for bricking a well,
is the same the Inhabitants said they
paid for them - There are other places
for making Bricks further off from
Gunnaveram, but none nearer than
Shalapolas and Munthinna. -

Fort St. George 2d. July 1813.

the honor to submit a Plan
and Estimate for the repair of
these Gun Sheds as prepared by the
late Superintending Engineer
of the Ceded Districts who calcu=
=lated that the Walls now pro=
=posed to be taken down were suf=
=ficiently strong but since that
period the rains have destroyed the
Walls so much as to render them in
the opinion of a Committee of
Officers, as well as of the Executive
Officer, incapable of sustaining
the roof, we therefore called for this
Estimate which we now have the
honor to recommend for Sanction

Honorable Sir,

No. 48.

From the Mily. Auditor General.- States his sentiments on the accountant General's suggestions for altering various heads of Account Contained by him to be no longer appropriate.-

1. In reply to Mr. Secretary Strachey's letter of the 11th Ultimo, forwarding for my Consideration and report Copy of a letter from the Accountant General suggesting alterations in certain Heads of Account now exhibited in the Military Books of this Presidency, I have the honor to state as follows.-

2. The first suggestion of the Accountant General is respecting the Head to which the Pensions granted to the Heirs of Men deceased on the late

8435

Fort St. George 2d. July 1813.—

late Expeditions against the French Islands should be debited — in all cases of Native Troops on Foreign Service, the heirs of those who die or are killed in Battle are pensioned by Government and the Pensions have been debited to the head of the Service on which the Casualties occured — thus the Pensions granted to the Heirs of deceased Native Troops who proceeded on the Expeditions in the year 1795, against Malacca, Ceylon and the Molucca Islands have been debited to the head of "Expedition against the Dutch Settlements" — and in the same manner the Pensions granted to the heirs of deceased Native Troops who proceeded to the Isles of Bourbon and the Mauritius have been debited to the head of "Bengal Presidency

8436

Fort St. George 2d July 1813.

"Presidency Expedition against
"Bourbon"—

3. In conformity to the instructions received from Ben=
=gal, the whole of the Expenses in=
=curred at this Presidency on account
of the Expeditions against the French
Islands, including the fixed Garri=
=son Pay and allowances of the Troops
(European and Native) were inserted
in the Statements of those expenses
prepared in this Office, and amongst
them the charges on account of
Pensions of the description above=
=mentioned.—

4. If the Troops of this
Establishment had not been employ=
=ed on those Expeditions, no pub=
=lic expense of the description in
question

question could have been incurred.—
those Pensions therefore as arising
out of the Expeditions form an ex=
=pense of this Government coming
clearly within the instructions of the
Supreme Government as charges on
account of the Expeditions, but as
such charges were probably not
in the contemplation of the Governor
General in Council, when His Lord=
=ship's Orders were transmitted to
this Presidency, and as the charges
on account of Pensions which were
included in the Statements trans=
=mitted to Bengal, have not been
objected to, I am of opinion that
the question should be referred for de=
=cision to the Supreme Government
or to the Honorable Court of Di=
=rectors as in your Excellency's judg=
=ment

judgement shall appear most expe=
=dient.—

5. In the mean time it may be deemed proper to continue to debit the charges on account of those Expeditions to their respective heads as hitherto, in the Statements now pre=
=paring, and if necessary they can be transferred hereafter to such other head as shall be deemed proper.—

6. With regard to other Pensions of the same description now debited in the public Books under the heads of the several Services out of which they arose they may be debited to the General Head of "Pensions to the "Heirs of Native Soldiers deceased in "Foreign Service" distinguishing the Amounts chargeable to each Expedition.—

The

Fort St. George 2. July 1813.

7. The Accountant Gene=
=ral further suggests, that the extra
expense of the Regiment of Native
Cavalry of this Establishment ser=
=ving with the Poonah Subsidiary
Force, which is now debited to the
head of "War with the Confederated
"Mahratta Chiefs" shall be transfer=
=red to some other Head or be en=
=tered in common with the General
Charges Military of this Establish=
=ment.-

8. Regarding this ques=
=tion it appears that the Regiment
which first joined the Poonah Sub=
=sidiary Force from this Presidency
formed part of the Army employed in
the Mahratta War of 1803/4, and that
the extra Expenses of that Army were

debited

Fort St. George 2. July 1813.-

debited by order of Government to the head of "War with the Confe-derated Mahratta Chiefs", under which head the Extra Expense of the Regiment at Poonah has since been carried to account.

9. The Accountant Ge-neral's Objection to this expendi-ture being continued under the above head is certainly deserving of Consideration, but before any altera-tion is adopted, I should beg leave to recommend that it may be ascertained by reference to Bom-bay, to what head the expenses of the Bombay Corps composing the Poonah Subsidiary Force are Carried at your Excellency in Coun-

-cil

8441

Fort St. George 2d July 1813

Council will probably consider it proper to debit the expenditure of this Government on the same account to a similar head.—

No. 55

From the Comy. General - Reports on the application of the Resident Com=missioner to be in=formed of the rates at which timber can be supplied from the Public Stores for the use of His Majesty's Squadron.

Sir,

1. I have the honor to
acknowledge the receipt of your letter
of the 15th Instant, enclosing a
Copy of a letter from the Resident
Commissioner; and desiring me

to

8449 Fort St. George 2d. July 1813

to furnish with the least possible delay, the information which he has requested relative to the price at which timber can be supplied from the Public Stores at this Presidency for the use of His Majes-ty's Squadron.—

2.

The Honourable the Governor in Council will be aware that this Government has no resources at present for the supply of timber as the Resident Commissioner would seem to suppose; the quantities of this article required for the public Service being provided in the Market, which is alike open to the Commissioner and to this Department. It was indeed propos-ed with a view to avoid Competition

and

Vide Reports of the Mily. Board to Government dated 22. Oct., 28th Nov., & 31st Dec. 1812

and consequently to produce mu-
=tual advantage to the Crown and
to the Honourable Company, that
such timber as might be wanted
for His Majesty's Navy should be
received from the Public Stores; but
this offer was declined for the reasons
stated in the Resident Commissioner's
letter to the Chief Secretary of date
the 11th of November last, as the Mi-
=litary Board were unable to form
any Calculation of the advantages
which would be derived by a re-
=moval of the Competition, above
alluded to although they had little
doubt but the timber would be
procured at the lowest rates in
Consequence.-

3. No depôt of timber
however

8451

Fort St. George 2d. July 1813.

however having been as yet formed, it is not possible at this moment to comply with any demand for timber or plank to be delivered at the King's arsenals at this Presidency and Trincomallee; and as time and ex= =perience can alone enable me to estimate the quantity or the rate at which timber can be furnished on account of the Crown, I have only to express my regret that it is not within my power to supply the information required on those points.-

4. With regard to the Conveyance of the timber to Trinco= =mallee it would not I conceive rest with this Department to take up Vessels for this purpose; but it ap= =pears

Fort St. George 2d. July 1813

appears difficult if not impracticable to calculate on what proportion the price would be enhanced, while it remains uncertain what shipping would be employed or what terms of freight might be eventually pro= =curable, at the period when the Timber might be ready for dis= =patch.

5. In addition to the preceding observations, I may be permitted to take this opportunity of stating, that under any circum= =stances the description of timber as specified in the accompaniment of the Resident Commissioner's letter viz.t Poor Spars for Masts, Yards, and Bow Sprits, could never have been intended to be supplied from the

proposed

8453

Fort St. George 2d. July 1813.-

proposed depôt, as such would never have been purchased for the Service of the Honorable Company at Fort Saint George, and as their provision by the Naval Department would not therefore have caused any compe=tition, or have enhanced the rates of the timber required for the com=mon purposes of the Ordnance and Engineer's Departments.-

From the Comy. General — states his further opinion respecting the demands outstanding against the Commanders of the "Ann" & "James Drummond" & reports the manner in which the salt Provisions remaining at Goa have been disposed of.

Sir,

1. I have the honor to acknowledge the receipt of your letter of the 20th. of April last, transmitting to me Copies of letters & from the Secretaries at Bombay and Fort William, from the British Envoy at Goa, and from the Officer Commanding in Malabar and & Canara; and desiring me to submit my further opinion respecting the demands outstanding against the Commanders of the Transport Vessels, Ann and James Drummond, with reference to the dispatch from Bombay on that

subject

subject; and to issue such instructions as might appear most advisable for the disposal of the Salt Provi-=sions in Store at Goa, on a due Consideration of the suggestion of the Envoy.—

2. The Commander of the Ship Ann, having stated that the Provisions were placed under the immediate charge of a Non Commis-=sioned Officer who issued them daily to the Troops and Followers, and that neither he nor his Officers had any au-=thority or Controul over them, further than opening the hatches and seeing that there was not any neglect nor wilful waste; the Sergeant who Su-=perintended the issues having decla-=red that every Article was correctly

delivered

delivered at Quilon, and that he was satisfied with the accuracy of the rest; and Lieutenant Barclay having asserted that the correct number of packages were received from the Ship, I am of opinion that the explanation afforded may be deemed satisfactory, and if the Honorable the Governor in Council should concur in this opinion, His Excellency may perhaps be induced to relieve the Commander from the Retrenchment brought against him.

3. After a full consideration of the reply and accompaniments submitted by the Commander of the Ship James Drummond I have prepared a revised state-

Statement which I now beg leave to forward, shewing the extent of the de-mand formerly made for short deli-veries, the quantity and value of pro-visions which I would recommend may be admitted in consequence of his explanation, and the balance still to be accounted for; and as it does not seem that any additional infor-mation can be obtained by further Correspondence, or that any benefit would result from keeping the ac-count open for a longer period, I take the liberty of suggesting that the Honorable the Governor in Council may be pleased to refer this State-ment for the final determination of the Bombay Government; with whom it will then rest either to en-force

enforce or remit the payment of the reduced demand, which is as therein stated, and which after making every possible allowance, amounts to Pagodas 436-43-67.—

4. With respect to the Salt Provisions that were in store at Goa, I have the honour of re=porting that such a proportion as was required for the Field Force under the Command of Lieuten=ant Colonel Dause was despatch=ed to Camp, and that instructi=ons were immediately given for the removal of the remainder to Cannanore; and for their even=tual sale at that place, in case it should be found practi=cable to obtain a fair and rea=

From the Town Major of Fort St. George - States that it will be difficult to convert such a place of confine-ment the Bomb-proof mentioned in his letter of the 28th April last, and recommends that the orders which have been given for preparing it for that purpose be countermanded.

On the subject of the Keys, I have made enquiry from the Barrack Department, and am given to understand that Keys for the new Barracks were provided and are now forthcoming, but that many of them not having originally fitted the locks, are entirely useless —

The Doors of the old Barracks are unprovided with Keys, and the locks are rendered useless by rust. —

Respecting the Gunny Screens it has been usual to renew them once every Year, but this is found

in the Village of Vepery, we have called upon the several proprietors, with the exception of the spot belonging to the Natives included in the former extent, to state the amount at which they will dispose of their respective Properties, and have now the honor to submit Copies of the several replies received - Mr. Waddell since writing the letter enclosed has, under an arrangement for removing the materials of the buildings, consented to a reduction of the total amount at which he has valued his ground, as hereunder stated. -

2. It hence appears that the Property of Mr. Hart is valued by him at

Pagodas		
that of Mr. Frazer		12,000
that of Mr. Waddell		12,670
that belonging to Singana Chetty & Colonel Norris, of which a joint tender has been made		10,955
		13,000
Yielding a Total of Star Pagodas		48,625

8472 Fort St. George 2d July 1813

The extent of the spot, abovementi=
=oned as being held by the Native
Inhabitants, is Cawnies 15, Grauns
10, Square feet 1200, and, estimated
at the average rate at which si=
=milar Lands have been disposed of
in the Village of Egmore, is valued
at Star Pagodas 7,400 making a
general Total of Star Pagodas 56,025.

3. We feel it a duty to
state that the tenders made by Messrs.
Frazer and Waddell are exorbitant,
and that of Mr. Hart, though not
in the same proportion, is higher
than the actual value of the property,
the price per Cawny of Ground in
the Village of Egmore is according
to the estimate in the preceding
paragraph, Star Pagodas 450
per Cawny while that required

by

Fort St. George 2d July 1813

by the persons first mentioned in Star Pagodas 840, a demand not warranted either by the condition or situation of the Houses erected on the grounds in question — and with respect to the offer of Mr. Strachan and Suriganar Chetty the same observation may be made as with regard to the tender of Mr. Hart. —

4th

With respect to the land held by the Native Inhabitants of which we have stated the estimated value, we beg leave to observe that Considerable difficulty will be experienced in arranging the purchase of it at any rate, as it is held by a number of persons in small portions and is part of the small extent of the ancient Merasi of the Village, remaining in the hands of the proprietors, of which

they

8474 Fort St. George 2d July 1813

they are very tenacious - we shall en=
=deavour to obtain their Consent to
the alienation of it, but expect it
will ultimately be necessary to in=
=terpose the direct authority of Go=
=vernment to obtain it. -

Could these several spots of Ground
be procured at the rates hereunder men=
=tioned, it is our opinion that the Total
amount may be considered as a fair va=
=luation of the whole extent of ground

Mr Hart's ground . .	Star Pag.s	11,000

From the Resident at Poonah - Transmits Copy of a letter from the Surgeon of the Residency, suggesting the expediency of stationing an Officer on the Western Coast to procure supplies of horses for the Cavalry, & of appointing a Weekly Committee to inspect them at Sirsor, or at Hydrabad. -

Sir,

I have the honour to enclose for the notice of His Excellency the Governor a Copy of a letter which I have received from Mr. Jeffereys who is attached as Surgeon to this Residency.

I take the liberty of transmitting this proposal though not connected with my Duty because it appears to offer Considerable advantages to the Public without exposing it to any risk of loss. I understand that the Government of Fort St. George has met with some difficulty in obtaining Horses and during the two Years that I have been at Poona there have been good opportunities of purchasing such as Mr. Jeffereys has de-

-scribed

described; while that Gentleman having been in the habit of buying horses for these last five Years and consequently having had good means of knowing the Dealers and observing the state of the Market may be considered as capable of appreciating the probability of success in the Design which he proposes.-

I have only to add that Mr Jeffreys's duties at this Residency are not of such a nature as to oppose any Obstacle to his Conducting the arrangement he recommends if the Government should wish to employ him in it.-

To the Honorable M. Elphinstone

Resident at

Poonah

Sir,

I hope it will not be thought presumptuous in me if under the expectation of serving the Public, I lay before you this Memorial on a Subject so important as providing Horses for the Cavalry - and which I have & heard has engaged so much the attention of the Madras Government - It has been the Plan, as I understand to draw their supplies of Horses from different sources so that in case of one failing the others may make up the deficiency, under this impression an Officer (Captain Campbell) has been authorized to purchase, and a Committee sets Weekly to pass Horses at Hydrabad

and

8485 Fort St. George 2d. July 1813.-

and this Plan has been attended with Considerable Success - No Madras Officers being stationary on the Western side of India which abounds in the Cheapest and best kind of Horses none have been hitherto purchased for the public and during a residence of five Years at Poonah I may safely say that had I been authorized, I could have purchased at the allowed average price 500 Horses chiefly Arabs such in my opinion as no Cavalry Committee would have declined.-

With this experience I beg leave to suggest the following proposal to your consideration That the Madras Government appoint an Officer on the Western Coast of India for the purchase of Horses for the Cavalry in the same manner that Captain Campbell is employed at Hydrabad.

That

8486.

Fort St. George 2d. July 1813

That his attention be chiefly directed to the supply of Horses for the Regi=ments of Cavalry at Seroor and Jaul=nah, and in case of failure in other Sources for the Regiment at Hydra=bad also - That a Committee of Cavalry Officers be held weekly at Seroor for passing the Horses in the same manner as at Hydrabad, and that they shall not be at the respon=sibility or charge of Government until they are thus passed.-

The Sources from which an Officer thus situated would de=rive his Supplies are Bombay, the Maratta Country, Guzerat, Cutch, and occasionally the Banks of the Indus, and the Enquiries I have made for the last three Years from the

Dealers

8487 Fort St. George 2d. July 1813

Dealers all satisfy me that an abundant supply of Horses can be obtained though I could wish that if you do me the Honour of mention=ing my name to the Madras Go=vernment, my responsibility should not, for the present extend beyond the supply of remount Horses for the Regiments I have already men=tioned.—

The Horses supplied will conform in all respects to the descripti=on contained in the Instructions of the Madras Commissariat with the single exception of Arab Horses, which Government will probably authorize the Committee to pass provided they are above 14 Hands instead of 14, 1. High in consideration of their ac=

-knowledge

acknowledged superiority above all other Horses.—

You will be pleased to observe under the terms of this proposal, the Government are secured from all risk, that they will have the choice out of a very large number of horses, and that they will not have on their hands any Horses, but those which their own Committee have previously judged proper for the Service.—

To George Strachey Esqre.
Secretary to Government

Sir,

No. 76.

From Major J. Prendergast— Explains that the Passage Money allowed to Lady Clarke on her proceeding to England, was not granted on his responsibility; & that the amount should be demanded from Lady Clarke, but expresses his hope that in consideration of the circumstances under which it was advanced, the Court of Directors will forgo their claim, requests the recommendation of Government to that effect.

Para 1. I have the honor to acknowledge the receipt of your Letter dated the 11th Instant, accompanied by an Extract of a General Letter from the Honorable Court of Directors dated the 9th September last.—

2. By the Honorable Court's letter it appears that the payment of

Passage

8493

Fort St. George 2d. July 1813.

Passage money to the Widow of the late Major General Sir William Clarke has been disapproved, and having been granted on my application, I am informed by your Letter that His Excellency the Governor in Council has resolved that I shall be required to refund the amount being Pagodas 625.-

3. In order to relieve myself from this claim it is only necessary to state, that the letter which I had the honor to address to Government dated 10th March 1808 soliciting the allowance of Passage money for Lady Clarke was not of a nature to involve me in any responsibility - I addressed Government as her Brother, and the only Friend, who Lady Clarke had to assist her at that period, when the two fold distress arising from her Husband's death

and

Fort St George 2d July 1813.

and the necessity of immediate prepa=
=ration for her return with her Fami=
=ly to England rendered her wholly unable
to act for herself.—

4. His Excellency in Council
will hope, pardon my observing that
although the Honorable Court have
disapproved of the Passage Money ha=
=ving been issued, they do not direct that
the Amount shall be refunded, but il
that construction of the Honorable
Court's Letter shall appear to the Go=
=vernment to be just, I must request
the favor of the Claim being trans=
=ferred to Lady Clarke whose present
residence is in St. James's Square, Bath.

5. In regard to this Claim
as applicable to Lady Clarke I may
be permitted to notice as the Honora=
=ble Court's objection is founded on

the

8495

Fort St. George. 2d. July 1813.

the case not being one of positive dis-
=tress that the Passage money was not
solicited on that ground - my Letter it
is true stated that by the death of Sir
William Clarke his family were placed
"in circumstances by no means affluent"
but by reference to that Letter His Ex-
=cellency in Council will find that,
extraordinary expenses incurred for which
even the liberal allowances granted to
Major Generals were not under the pecu-
=liar circumstances of the case an ade-
=quate compensation, was the principal
plea which was urged and on which it
was understood the allowance was granted
for Lady Clarke's Passage to England.-
6. I trust under the above
explanation that His Excellency in
Council will not only deem it just to
relieve me from the present claim, but

also

8496 Fort St. George 2d. July 1813.-

also to convey the expression of my humble request to the Honorable Court of Directors that they may be pleased to forego the demand on re-consideration of the grounds on which the allowance was in the first instance solicited - of the circumstance of no condition having been either expressed or implied when the allowance was granted but more particularly as an act of liberality to the Family of a respectable Officer, who when living possessed strong claims to consideration from the Honorable Court and whose Widow could not now answer the demand without suffering serious difficulty and distress.-

I. Should my letter to the Government dated 10th March 1808

not

8497

Fort St. George 2d July 1813.

not have been already forwarded to the Honorable Court of Directors, I have to request His Excellency will be pleased to order a Copy of it to be transmitted with any communication on the above subject which it may be deemed expedient to make in consequence of this letter for the information of the Honorable Court.—

Having understood that it is the intention of Government to erect Military Cantonments upon the grounds leading from the Pantheon extending to the range opposite to my dwelling house, I beg leave to represent that if such a measure should be carried in- to execution, it will deeply affect the Health and property of this populous neighbourhood, where, for a series of years, it has became the residence of many respectable families, I can with confidence anticipate that, were

No. 4
Extract from the
Minutes of Consul=
=tation in the Judi=
cial Department -
Regarding a Monthly
allowance drawn
without due authority
by two Protestant
missionaries

8527 Fort St. George — July 1813.

Missionaries at Vizagapatam —

1

thereto regarding the Monthly Allowance hi-
therto drawn by the Protestant Missionaries
at this place for performing Divine Service
in this Garrison —

In reply I beg leave to re-
port that in December 1808 (about 3
years Subsequent to the Original grant
of this allowance to the Reverend Messrs.
Cran and Des Granges) the former Gentlemen
died leaving the latter in sole Charge of the
various duties of the Mission, to assist —
whom Messrs. Lee & Gordon Subsequently
came round from Calcutta being attached
to the Same Mission and having been
Sent out by the Same Society they obtained
the permission of Government to remain
here and Continued in Conjunction with —
Mr. Des Granges to assist him in his
various duties and among others that of
performing Divine Service to the Garrison

to

8528 Fort St. George 1st July 1813

to the period of his death in July 1810;
from this period it Appears Mr. Lee has
Continued drawing the Same allowance,
and it is presumable that since Mr. Lees
departure for Ganjam in January last,
it has been drawn by Mr. Gordon before
which period his labors had been relie-
ved by the Arrival of Mr. C. Pritchett
from Calcutta who also belongies to the
Same Society and Still remains here. On this
point I can only observe that this Gentle-
man have regularly performed divine
Service in the Garrison every Sunday and
most probably Conceived the allowance
was designed by Government to attach to
the discharge of the duty and not to the
individual also; and that on a liberal
Construction of the Government order they
were fairly entitled to this monthly Stipend

as

3529 Fort St. George — July 1813.

as having succeeded Messrs. Cran and Des-Granges. Not being in this station when the allowance was originally granted it did not occur to me to point out to these — Gentlemen the Necessity of obtaining the Sanction of Government for the Continuance of this Stipend, Subsequent to the death of Messrs. Cran and Des Granges, and their — habits of life must obviously have precluded any knowledge on their parts of the forms and regulations of the Service. I trust therefore that this omission will in no way operate to their prejudice. If my testimony can have any weight in Recommending their Case to the favorable Consideration of his — Excellency the Governor in Council, I can with truth observe that their Characters are truly respectable, their Conduct exemplary, their Manners inoffensive and their Zeal: —

abundant,

8530 Fort St. George — July 1813.

abundant, but bounded by prudence and good Sense, so that if it Cannot ensure Success in the Main object of their pursuit, it will at least guard them against giving Offence or exciting disgust. I may further Safely add that the lower part of the European Community have been Much benefitted by their Counsel and example; they have also expressed their readi=ness to perform divine Service without any Salary whatever: on these grounds I beg leave to recommend the Continuance of this allowance to the Protestant Missionaries Messrs. John Gordon and Edward Pritchett and I trust I shall stand excused for taking the liberty of further Suggesting that it would add Much to the personal Comforts of the Soldiers and other Protestants if his Excellency the Governor in Council would be further pleased to empower these

Gentlemen

8531

Fort St George — July 1813.

Gentlemen by a General Order to perform
the other Duties of a Chaplain to a Gar.
-rison as the Military Chaplain of this
Division resides at too great a distance
to afford them any assistance except at
stated periods, and those too distant to be
of any use. any allowance His Excellency
may be pleased to grant them will be
gratefully received for this increase of
duty, which I can vouch for they will
Discharge with Zeal and industry. I
have been emboldened to prefer this —
request from observing in the Papers —
that the Honorable the Governor in
Council was pleased Some Months ago
to nominate a protestant Missionary
to the discharge of the clerical duties of
the force Serving in Travancore. I shall —
now conclude with again intreating His

Over in silence - the first was at Sadras,
the Cutwall of that place owned that he
had previous notice at least five days
yet he had nothing in readiness for the
Detachment or followers, although We
halted at Sadras part of two days, the
Supplies were very scarce and inferior in qua=
=lity and at the same time dearer than at any
other

other Station I came through, the only way these things can be accounted for, is that the Cutwall Appeared to be without Authority, or respect, in the place, Consequently of no use to people passing through, and entirely unfit for the Situation.

The next instance which I beg leave to bring to your Notice is the Collector's Head Peon at Trepegoolore a Stage on this side of Saoras a man who Appeared to me to do all he could to impose upon the people the few things with which he Supplied us he charged enormously, and it was not till the evening that we could procure a Sufficiency at any price.

The Board Approve the orders reported in the foregoing Letter to have been issued by the Officer Commanding the Northern Division of the Army

To the Secretary of Government
Military Department

No. 17
From the Quarter Master General of the Army forwarding a Plan of the New route from Madras to Trichinopoly
Observations.

Sir,

I have the honor, under the Orders of His Excellency the Commander in Chief to transmit to you address a Plan of the route from Madras to Trichinopoly by the general direction of which His Excellency recommends the great Military Road to

Fort St. George 6th July 1813

to the Southward Should be Constructed Some partial deviations of a local Nature will be found Necessary, and those will be distinct=ly expressed hereafter in forwarding the Estimates, but before entering into Considera=tions so particular His Excellency has or=dered me to request on his part the Senti=ments of Government in respect to the Merits of the general direction.

The present Sketch of the Route from Madras to Trichinopoly has been prepared, with its explanatory remarks by Lieutenant Donoghue, who will hereafter proceed to prepare the desired Estimates.

It is presumed that no=more is intended on the present Occasion than to give the line of Communication a Sufficient Breadth, perhaps forty feet to remove any Impediments to free Move=ment to form Causeways Over Swamps which it

8563

Fort St. George 6th July 1813.

it may be inexpedient to go round and to cut down the Jungle and Brushwood.

Should these Objects embrace the Intention of Government, the expence to be incurred in their execution will be best estimated, by a computation of the Number of Men who will be sufficient for that purpose, and by applying to that number the rate of hire in the different Villages, by this Means the expenditure of a certain Sum may be sanctioned and not exceeded whilst the uncertainty will be in the degree of repair the road will receive from the estimated number of Labourers.

Should a terraced road be required like that from Poonamallee to Madras, lately executed under the Orders of the Military Board, the formation of the estimate will be a work of time and the expence enormous.

With regard to Bridges if

they

Fort St. George 6th July 1813.

they are to be built, it will probably be on permanent Principles and their Estimates will therefore require to be prepared by an Officer of Engineers.

The Same Officer who makes the Estimate Must Mark out the confines of the road, as Any alteration in the latter will of Course affect the former; these two undertakings may be performed at the Same time but for the purpose of marking the Line the officer Should have the aid of Labourers in the first instance, and be assisted by a few intelligent Pioneers. these latter Might also be employed afterwards in overseeing the work, which unless it be executed under Some Superintendance of this description, will most probably be Neither performed as intended or with attention to the proposed alligniments.

These

8565

Fort St. George 6th July 1813.

These Observations I have the honor of informing you, have been under the Consideration of His Excellency the Commander in Chief by whose Orders they are now presented with a request that they may be laid before Government for in His Excellency's Opinion it would be an unavailing Task to proceed further in this Business until the pleasure of Government thereon shall have been received.

To His Excellency Lieutenant General The Honorable John Abercromby Governor in Council &c. — &c. — &c.

Honorable Sir,

1 With reference to my Letter under date the 26th April last, I have the honor to report that I have recieved replies from the different Paymasters regarding the pay and allowances of Lieutenant Knott of the 2d Regiment Native Infantry / now of the Carnatic European Veteran Battalion / from December 1807 to October 1809 from which it

No 27.

From the Military Auditor General — Reports that Lieut. Knotts pay and allow=ances from December 1807. have not been drawn on regular abstracts. Has prepa=red them. States the Balance due by Lieut. Knott upto 1st April 1813. His abstracts for Arrears of pay and allowances not having been presented within the prescribed period of Six Months, requests authority

8580

Fort St. George 6th July 1813

authority to insert them in the disbursements of the Paymaster at the Presidency-

it clearly appears / according to the opinion expressed in the above Letter, that pay and allowances have not been drawn by, or for that Officer on regular Pay abstracts during the period abovementioned.-

2 I have in Consequence pre-paid abstracts for Lieutenant Knotts Pay and allowances from December 1809. to Octo-ber 1809, Amounting to Pagodas 1324.8.20. which Sum being deducted from the Amount Stated by the Accountant General in the Military Department of Accounts to be due by Lieutenant Knott on the 1st April 1813. Viz. Pagodas 2,176:8:19. reduces the Balance due by that Officer to Pagodas 851. 44:79 on account of the advances of Cash Made to him in Bengal in the years 1808 and 1809.-

3 To the above balance of Pagodas 851:44:79. is however to be added the

8581

Fort St. Georg 6th July 1813.

the Sum of Pagodas 44.68.20. being the Amount of Lieutenant Knott's pay and allowances in Arrear for September and advance for October 1807 drawn twice for the same period, Vizt. once by the Officer in Charge of the Company to which Lieutenant Knott belonged, and again by himself at the Presidency in October 1807, when on the eve of embarking for Bengal. -

4 The total amount therefore due to the Public by Lieutenant Knott on the 1st April 1813, is Pagodas 897. 23. 19.

5 As the abstracts for the Arrears of Pay and allowances due to Lieutenant Knott as above, have not been presented within the prescribed period of Six Months after they became due, I beg leave to suggest that I may be Authorized by your Excellency in Council to sanction the insertion of the Abstracts in the Disbursements of the

The water cask has been landed and will be brought on the Returns of this Department; and as the utensils when issued to the men are Considered as their property, Mr. Savage's explanation appears satisfactory, and no claim remains against him on the part of Government on Account of the Provisions &c.
