PREFACE

This volume presents the five housing tables compiled on information collected on houselists prepared as a prelude to the taking of Census. A uniform houselist schedule was adopted for the first time in the 1961 Census. In the present planning era next in importance to food and clothing comes shelter. Hence a wide range of valuable information on housing conditions was collected on these schedules. The enquiries were not restricted to dwellings proper as in previous censuses, but covered non-residential houses too. The collection and processing of the data, which is the first of its kind, naturally proved onerous. I would consider my efforts amply rewarded if what I have presented herewith should be of some value to planners and others interested in the study of housing conditions.

K. Balasubramanyam,
Superintendent of Census Operations

PART IV - B
HOUSING AND ESTABLISHMENT TABLES

TABLE E—I

CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

Table E—I prepared on full count gives figures of census houses separately for total, rural and urban areas of the State, districts, taluks, cities and towns with population of 50,000 and over, classified into different categories according to the uses to which they are put. Those found vacant at the time of house listing have also been shown separately as such. The data regarding the use of census houses have been classified into the following categories:—

(i) Dwellings (ii) shop-cum-dwellings (iii) workshop-cum-dwellings (iv) hotels, hostels, sarais, dharmashalas, tourist houses and inspection houses, (v) shops excluding eating houses, (vi) business houses and offices, (vii) factories registered under the Factories Act and worksheds and workshops not so registered, (viii) schools and other educational institutions including training classes, coaching and shop classes, (ix) restaurants, sweetmeat shops and eating places, (x) places of entertainment and community gathering (Panchayat Ghar), (xi) public health and medical institutions, hospitals, health centres, doctor's clinics, dispensaries etc.

In addition to the above specific heads, a column is provided under "Others" for residual uses such as garages, granaries, cattlesheds, godowns, stores and warehouses, gymnasia, temples, mosques and other places of worship, mausoleums and Museums.

With a view to understand the significance of statistics incorporated in E Series of Tables, the concepts and definitions of the terms occurring in the Table are given below:—

'Census House': A census house is a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-cum-dwelling or a place of business, workshop, school etc., with a separate entrance. If a building has a number of flats or blocks which have separate entrances of their own and are independent of each other giving on the road a common staircase or a common court yard leading to a main gate, they have been considered as separate census houses. If, within an enclosed or open compound there are separate buildings, each such building has been treated as a separate census house. In the 1961 Census all structures whether inhabited or not have been treated as census houses, whereas in the earlier censuses, the term would signify only inhabited structures.

'Census Household': A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so.

'Shops': excluding eating houses: Census houses which are solely used as shops having transactions limited to purchase and sale of articles. These, however, do not include restaurants, eating houses, etc., used for non-residential purposes.

Factories, Workshops and Worksheds: All census houses which are solely used for carrying out any process of the manufacture or repairs or for servicing manufactured articles.

'Business Houses & Offices: Census Houses used for professional business and financial transactions not involving the direct purchase and selling of articles. Instances of this type are Lawyers' Offices, Income-tax Consultants' Offices, Banks, Chambers of Commerce, Insurance Companies, Government and non-governmental offices, offices of Local Bodies etc., and Villages Chavadis.

Detailed explanation of all these categories will be found in the Introductory Chapter of the Report on Housing and Establishments (Part IV—A.)

The figures given in this table in respect of Bangalore North Taluk and Bangalore South Taluk are for the Rural areas only. The figures given under Bangalore Metropolitan Area include the urban figures of Bangalore North Taluk and Bangalore South Taluk.

- (A) Urban units of Bangalore North Taluk included in Bangalore Metropolitan area are:—
 - (a) Bangalore Corporation, (b) 57.79 Sq. miles of Trust Board Area, (c) Devarajeevanahalli, (d) Yalahalli, (e) Jodi Kempapur, (f) Kadugondanahalli, (g) Kethamaranahalli, (h) Yalahanka and (i) Yeswantapura.
- (B) Urban units of Bangalore South Taluk included in Bangalore Metropolitan Area are:—
 - (a) 89.20 Sq. miles of Trust Board Area and (b) H.A.L. Sanitary Board.

TABLE E—II

**TENURE STATUS OF SAMPLE CENSUS HOUSEHOLDS LIVING IN CENSUS HOUSES USED
WHOLLY OR PARTLY AS DWELLING**

This table has been prepared on the basis of 20% sample. Census households used as dwellings, shop-cum-dwelling, workshop-cum-dwellings, and dwellings with other uses have been taken into account for the purpose of marking the samples. Shop-cum-dwellings and workshop-cum-dwellings are census houses which are partly used for residential or dwelling purposes and partly used as a shop or workshop. The total number of households given in column 4 of this table gives the total of such samples classified into the aforementioned four categories of dwellings, which have been further classified according to their tenure status, whether owned or rented, for the whole State, all the districts, taluks and towns with population of 50,000 or more as also for total/rural/urban.

In the supplementary instructions issued for houselisting, it was made clear that only houses over which the occupant has got full and absolute rights of disposal either as an individual or as a coparcener should be deemed to be owned houses and all other houses should be brought under the category of rented houses even if no rent was actually being paid. In view of this clarification, rent free quarters provided by employers, houses attached to agricultural lands occupied by tenant cultivators of such lands, and houses made available without charging any rent but subject to some service being rendered have been shown as rented houses. So also a dwelling constructed by an agricultural labourer on land made available temporarily by the land-lord for whom he is working has been treated as rented as the land has to be vacated under certain conditions.

The figures given in this table in respect of Bangalore North Taluk and Bangalore South Taluk are for the Rural areas only. The figures given under Bangalore Metropolitan Area include the urban figures of Bangalore North Taluk and Bangalore South Taluk.

- (A) Urban units of Bangalore North Taluk included in Bangalore Metropolitan area are:—
 - (a) Bangalore Corporation, (b) 57·79 Sq. miles of Trust Board Area, (c) Devarajeevanahalli, (d) Jalahalli, (e) Jodi Kempapur, (f) Kadugondanahalli, (g) Kethamaranahalli, (h) Yalahanka and (i) Yeswantapura.
- (B) Urban units of Bangalore South Taluk included in Bangalore Metropolitan Area are:—
 - (a) 89·20 Sq. miles of Trust Board Area and (b) H.A.L. Sanitary Board.

TABLE E—III

CENSUS HOUSES USED AS FACTORIES AND WORKSHOPS CLASSIFIED BY INDUSTRY, POWER AND NO POWER USED AND SIZE OF EMPLOYMENT

This table which gives for the first time, statistics of census houses used as factories, workshops and worksheds classified by power and no power used and size of employment has been prepared on the basis of full count. Industrial establishments enlisted in the houselist have been classified according to the Standard Industrial Classification, Column 1 of the table giving the code number of industry. The single digit code represents a 'Division', the two digit code a 'Major Group' and the three digit code a 'Minor Group'. Details of each code number used are given in Annexure to this Fly leaf.

As the table relates to industrial establishments, workshops and factories, their industrial classification depending on the product manufactured, repair or servicing undertaken in each of them is confined to Divisions 2 and 3 (Manufacturing), Major group 04 (Livestock and hunting) except Minor group 047 (trapping of animals or games propagation) and Minor group 102 (Mining of gold ore) in Major Group 10. Though the gold ore is actually removed underground, structures numbered as census houses are used for housing the machinery for lifting the ore for further processing. This process of recovery of gold from the ore is a part of the mining operation and all census houses dealing with gold mining have been classified in Minor group 102 (mining of gold).

The establishments, factories and workshops have been further classified according to the kind of power used, viz. (a) Electricity (b) Liquid fuel (c) Coal, wood and bagasse, (d) other power and those run without power. Other power refers to forms of power other than those listed in (a), (b) and (c) above. Bullock power used for running 'oil ghanies' or sugar cane crushers is the only type of power coming under 'other power' in this State.

The size of employment in the establishments has been classified into the following ranges:—

- | | |
|--------------------|-----------------------------|
| (i) 1 person | (v) 20-49 persons |
| (ii) 2-5 persons | (vi) 50-99 persons |
| (iii) 6-9 persons | (vii) 100 persons and above |
| (iv) 10-19 persons | |

Average number of persons working per day during the week preceding the day of enumerator's visit has been taken as criterion for number of persons employed. For the purpose of computing average number of persons, the total number of workers including apprentices, paid or not paid, employed in the factory or workshop including the owner or proprietor and any of his family members have been taken into account. The table gives details for the State, districts and cities and towns with a population of 50,000 or more with rural/urban break-up.

Like all other tables in E series, Table E-III has also been compiled down to the taluk. But as printing of Table E-III for taluks is likely to occupy much space, it has been decided that the statistics of village industries from the houselists should be printed in the District Census Handbook.

At the commencement of the village directory of each taluk, will be found for the taluk as a whole and also separately for the rural and urban areas, a complete list of all industries indicated by 3 digit codes. Against each code number the number of establishments coming within that code number is indicated in brackets. The names of villages having establishments included in Table E-III are also given along with three digit code number of the industries found and the number under each such code, in the village concerned.

The State and the districts totals tally with the State total and district totals published in the All India Table E-III in Vol. I, Part IV B. In respect of Bangalore City, however, there are some differences between the figures given in the All India Table E-III and those found in the State Table which follows as indicated in the accompanying statement in which the figures within brackets are those published in the All India Table E-III. Where no separate figures are given in the brackets, there is no difference between the State Table E-III and All India Table E-III.

TABLE E-IV

**DISTRIBUTION OF SAMPLE HOUSEHOLDS LIVING IN CENSUS HOUSES
USED WHOLLY OR PARTLY AS DWELLINGS BY PREDOMINANT MATERIAL OF
WALL AND PREDOMINANT MATERIAL OF ROOF**

This table has been prepared on 20% sample basis. Census households used as dwellings, shop-cum-dwellings, workshop-cum-dwellings and dwellings with other uses have been taken into account for the purpose of making the sample. The total number of houses given in Col. 3 of this table gives the totals of all such sampled households. The material out of which most of the walls are made or where a house consists of separate structures, each constructed with different materials, the material out of which the walls of the main bed-rooms are made has been entered. The wall material has been classified into the following nine categories:—

- | | |
|------------------------------------|---------------------------------------|
| (1) Grass, leaves, reeds or bamboo | (6) C.I. sheets or other metal sheets |
| (2) Timber | (7) Stone |
| (3) Mud | (8) Cement concrete |
| (4) Unburnt bricks | (9) All other material |
| (5) Burnt bricks | |

The material out of which most of the outer roof exposed to the weather and not the ceiling is made, i.e., tiles, thatch, corrugated iron, zinc or asbestos cement sheets or concrete, etc., or in the case of multi-storeyed building, the material out of which the intermediate floor or floors has been made, have been entered and classified into the following seven categories:—

- | | |
|--|------------------------------|
| (1) Grass, leaves, reeds, thatch, wood or bamboo | (5) Brick and lime |
| (2) Tiles, slate, shingle | (6) Concrete and stone slabs |
| (3) Corrugated iron, zinc or other metal sheets | (7) All other material |
| (4) Asbestos cement sheets | |

This table has been prepared for the State, districts, taluks and cities and towns with population of 50,000 or more, as also for Total/Rural/Urban.

The figures given in this table in respect of Bangalore North Taluk and Bangalore South Taluk are for the Rural areas only. The figures given under Bangalore Metropolitan Area include the Urban figures of Bangalore North Taluk and Bangalore South Taluk.

- (A) Urban units of Bangalore North Taluk included in Bangalore Metropolitan Area are:—
(a) Bangalore Corporation, (b) 57.79 Sq. miles of Trust Board Area, (c) Devarajeevanahalli, (d) Jalahalli, (e) Jodi Kempapur, (f) Kadugondanahalli, (g) Kethamaranahalli, (h) Yalahanka and (i) Yeswantapura.
- (B) Urban units of Bangalore South Taluk included in Bangalore Metropolitan Area are:—
(a) 89.20 Sq. miles of Trust Board Area and (b) H.A.L. Sanitary Board.

TABLE E—V

**SAMPLE HOUSEHOLDS CLASSIFIED BY NUMBER OF MEMBERS AND
BY NUMBER OF ROOMS OCCUPIED**

This table has been prepared on 20 per cent sample basis. Census Households used as dwellings, shop-cum-dwellings, workshop-cum-dwellings and dwellings with other uses have been taken into account for the purpose of marking the samples. The figures given in Column 3 of this table are the totals of all such sampled households. The sex break-up of the total number of members occupying such sampled households as also the total number of rooms in these households are shown separately. All the sampled households have been further classified into the following six categories:—

Households with

- | | |
|---------------------|-------------------------|
| (i) no regular room | (iv) three rooms |
| (ii) one room | (v) four room |
| (iii) two rooms | (vi) five rooms or more |

The classification of households into the above categories gives not only the number of households in each category, but also the number of occupants by sex. The units for which this table has been compiled are State, districts, taluks and cities and towns with population of 50,000 of more, as also Total/Rural/Urban.

The figures given in this table in respect of Bangalore North Taluk and Bangalore South Taluk are for Rural areas only. The figures given under Bangalore Metropolitan area include the Urban figures of Bangalore North Taluk and Bangalore South Taluk.

- (A) Urban units of Bangalore North Taluk included in Bangalore Metropolitan area are:—
 (a) Bangalore Corporation, (b) 57.79 Sq. miles of Trust Board Area, (c) Devarajeevanahalli, (d) Jalahalli
 (e) Jodi Kempapur, (f) Kadugondanahalli, (g) Kethamaranahalli, (h) Yalahanka and (i) Yeswantapura.
- (B) Urban units of Bangalore South Taluk included in Bangalore Metropolitan Area are:—
 (a) 89.20 Sq. miles of Trust Board Area and (b) H.A.L. Sanitary Board.
