## TABLE I.

### AREA, HOUSES AND POPULATION.

1. This Table shows for each District and State the area, the number of towns and villages, the number of occupied houses, and the total urban and rural population, male and female. The Districts are arranged, in this and other Tables, in the order of Administrative Divisions, with the only exception that the figures of Delhi Province have not been shown in this Volume, a separate Volume for that Province being prepared on the present occasion.

2. "*Houses*" in columns 6 to 8 means census houses. For a discussion of the definition of this term, see the closing paragraphs of Chapter I of the Report Volume. Briefly, the census house is the dwelling-place of the commensal family ; but any non-residential building which contained a single individual on the Census night was also reckoned as a "*House*."

3. The differences between some of the areas shown in this Table and those given in the corresponding Table of 1921 are due to territorial transfers. The recent Survey figures as communicated by the Department of Survey of India for Rohtak, Gujrat, Shahpur and Sheikhupura Districts have been entered after adjustment for subsequent changes ; in the case of other Districts those supplied by the Survey of India and reported in the Tables of Agricultural Statistics of the Punjab for the year 1929-30 have been adopted without alteration.

4. The territorial transfers that have occurred since the last Census are :—

- (a) Inter-District transfers in the Ferozepore, Lahore, Sialkot, Sheikhupura, Montgomery, Lyallpur and Multan Districts.
- (b) A transfer of one square mile from Ferozepore District to Bikaner State.
- (c) A transfer of two square miles from Kangra District to Mandi State.
- (d) A transfer of less than one square mile from Bulandshahr District (U. P.) to Gurgaon District and *vice versa*, caused by alluvion and diluvion.
- (e) A transfer of less than one square mile from Muzaffarnagar District (U. P.) to Karnal District caused by alluvion and diluvion.

5. In the case of Indian States, the figures of 1921 have been repeated, as figures from Survey Department were received too late for adoption.

6. "Biloch Trans-Frontier" is the hilly tract across the border of the Dera Ghazi Khan District proper. It is administered by Tumandars (Tribal Chiefs) under the control of a Political Assistant to the Deputy Commissioner. The tract has not yet been regularly surveyed and the area given in the last Census Report has been repeated.

*Note.*—The population statistics for tahsils will be found in Provincial Tables I and II at the end of this Volume.

*Note.*—The figures in italics below the District figures relate to Cantonments.

### TABLE III.

#### TOWNS AND VILLAGES CLASSIFIED BY POPULATION.

1. This Table has been prepared from the Village Tables, every revenue estate being treated as one unit. When, however, one or more villages are included in a Town, City or Cantonment, the latter has been taken as one unit. According to revenue records the total number of villages in the British Territory is 36,861, of which 34,852 are inhabited. The total number of inhabited villages, towns and cities according to this Table comes to 34,819, the difference being due to some revenue estates being included in towns, cities, etc. In some of the Indian States, which have not been surveyed, the unit for collection of revenue has been treated as a village.

2. For the purposes of India Tables, figures of Cantonments are shown in smaller type in the proper class, and this accounts for an excess of 12 in the number of cities, towns and villages in this Table as compared with Table I, in which the 12 Cantonments adjoining towns and cities, are shown as forming part of them. Civil Lines have been included in towns which they adjoin except two (Hidayatpur Chhauni and Sanawar), which are isolated units.

3. Villages, whose homesteads lie in one block so that no line can be drawn to distinguish the population of one village from that of the other, were at the time of enumeration treated as a single unit. In compilation, however, the total population of such villages has been divided equally between the component villages and each village treated as a separate unit.

4. The total number of travellers enumerated in encampments, boats and trains, etc., has been shown separately in this Table. In Tables IV and V the number has been included in the population of the towns within whose limits the enumeration took place.

## TABLE IV.

### TOWNS CLASSIFIED BY POPULATION WITH VARIATION FOR FIFTY YEARS.

1. For Census purposes a town has been defined to include every Municipality, every Cantonment, all the Civil Lines not included in municipal limits, and every other continuous collection of houses inhabited by not less than 5,000 persons, which though not a Municipality possesses urban characteristics.

2. The question whether a collection of residential houses should or should not be classed under the last category was determined by the Superintendent of Census Operations in correspondence with local officers before the Census with reference to the probable population and consequently in many cases the limit of 5,000 was not reached. On the other hand many places with more than 5,000 inhabitants were omitted as they had not urban characteristics. The headquarters of all Punjab States, except the Simla Hill States, have been included in this Table irrespective of their population.

3. No attempt has been made to adjust the figures affected by changes in the area of towns during the last decade, and the figures given in the previous Census have been repeated.

4. The first five lines in the Table give the urban population of the Punjab, and in regard to the past five Censuses they do not represent the aggregate of the items that appear below them.

5. The Table below shows the changes that have taken place in the urban population of the province:—

| CHANGES IN THE URBAN POPULATION FROM CENSUS TO CENSUS.                                                    | 1891.    | 1901.    | 1911.    | 1921.    | 1931.    |

6. No attempt has been made to show the population for past Censuses of places treated as towns for the first time, as it is deemed to have been rural.

7. The summer population of Simla, as ascertained at a special Census held on the 30th June 1931, is as follows:—

| TOWNS.      | Persons. | Males. | Females. |

| Total ..    | 53,949   | 38,793 | 15,156   |

8. In this Table as well as Table V, Civil Lines and Cantonments have been included in towns or cities which they adjoin, except in cases in which they are isolated units such as Jutogh, Dagshai, Sabathu, etc. Separate figures have, however, been given for them under those of the cities and towns concerned. The abbreviations used are:—

M=Municipality.

C. L.=Civil Lines.

Cantt.=Cantonment.

U.=Urban.

S.=Suburban.

## TABLE VII.

### AGE, SEX AND CIVIL CONDITION.

1. The age at this Census was recorded according to the nearest birthday. At the last Census, age meant the number of years completed. Each age-group includes the persons who have attained the ages represented by the years constituting the group except the top year. For example, the age-group 5-10 includes all persons whose age is either 5, 6, 7, 8 or 9 years; persons whose age is 10 go into the next higher group, 10-15.

2. This Table is divided into three parts. Part A shows the distribution for the Punjab as a whole of the total population and for each main religion by age, sex and civil condition. Figures for Ad-Dharmis have been shown separately for the first time. Part B shows the distribution for British Territory, for Punjab States (both groups), and for each District and State, of the total population and of the five principal religions (Hindu, Muslim, Christian, Jain and Sikh). The age-groups in Part B are quinary, as in Part A, up to the age of 20 and thereafter decennial down to 60, the final group being 60 and over. Part C gives similar details, with the addition of the figures of "Others" (other religions which include Buddhist, Zoroastrian, Jew and Ad-Dharml) for cities and selected towns to which Lyallpur, Ludhiana and Sargodha have been added on the present occasion.

*Note 1.* The age statistics for places treated as towns for Census purposes are given in Part III. The age statistics for selected Tahsils have not been tabulated.

*Note 2.* Age statistics for Delhi Province appear in a separate Report.

## TABLE IX.

### INFIRMITIES.

1. This Table corresponds with Table XII of 1921 and is divided into two parts. Part I shows the distribution of the persons afflicted according to age, and Part II their distribution according to locality.

2. Dual infirmities were recorded. Persons afflicted with two or more infirmities have been shown under each of the infirmities in question in columns 5 to 16. The total under infirmities, therefore, exceeds the total number of persons afflicted as given in columns 2 to 4. The statement below shows the number of persons suffering from more than one infirmity :—

TABLE X.

## OCCUPATION OR MEANS OF LIVELIHOOD.

1. All occupations are divided into four classes, twelve sub-classes, fifty-five orders and one hundred and ninety-five groups. The scheme is the same as in 1921, except that there were then fifty-six orders and one hundred and ninety-one groups. All the columns for certain groups, the headings of which appear below, were blank for the whole Province and have therefore been omitted from the Table.

(8) Cultivators of Jhum, taungya and shifting areas. Cultivation of (9) Cinchona, (10) Coconut, (11) Coffee, (12) Ganja, (13) Pan Vine, (14) Rubber. (25) Raising of Silkworms. (26) Lac-cultivation. Exploitation of (30) Iron, (31) Lead, Silver and Zinc, (32) Manganese, (33) Coal, (38) Mica, (39) Precious and semi-precious stones. (48) Industry in hair (horse hair), etc. Manufacturers of (79) Opium, (80) Ganja. (155) Navy.

2. The Table deals with the entire population without regard to religion; the figures for Lahore, Amritsar and Multan cities, have been given separately. All non-working dependants have been thrown together, while earners have been divided into those following each occupation as principal means of livelihood and those following it as an occupation subsidiary to some other. Working dependants engaged in each occupation, who were included in actual workers at the last Census have been shown separately.

3. In group 192, only prisoners undergoing rigorous imprisonment are shown as working-dependants. All other kinds of prisoners as well as inmates of asylums, poor houses etc., were not separately sorted and have been included in the total of non-working dependants.
