2. The circumstances leading to the substitution of revised figures are briefly as follows:—

At the time of sorting the enumeration slips in 1951, the sorters were given a list of the 77 Scheduled Castes shown in Roman type in the list in paragraph (ii) below. No instructions were given to the sorters as to how the slips were to be treated in the case of persons who returned themselves by a generic Scheduled Caste name such as Harijan or Depressed Class or Adivasi or by a recognised synonym such as Pulacheruman, Eralan, Kudan, Rolan, Alen, Paramban (for Cheruman), with the result that sorters in Tabulation Offices classified the communities according to their own interpretation. Consequently, a number of Scheduled Caste members who had returned themselves by generic names or by synonymous names were left out of the Scheduled Castes count. This situation came to the notice of the Government of India, who decided after careful consideration that persons who had returned themselves by generic or synonymous Scheduled Caste names should be counted as Scheduled Castes and that the Census Tables already published should be revised, where necessary, to show the correct position. In order to arrive at the correct figures of Scheduled Castes population a fresh sorting of the 1951 Census slips was accordingly organised in Madras.

(ii) Before commencing the sorting a list of synonymous names, i.e. names synonymous with those of the communities published in the 'Constitution (Scheduled Castes) Order, 1950' was prepared in consultation with the Collectors of districts and sent to the State Governments

of Madras and Andhra for acceptance. The list as finally accepted by the State Governments was got approved by the Government of India. Castes printed in Roman characters in the list below have been declared to be Scheduled Castes in the composite Madras State (as it existed before the formation of the Andhra State) by the 'Constitution (Scheduled Castes) Order, 1950' issued by the President under Article 341 (1) of the Constitution of India. The names in *italics* represent the synonyms of the names printed above them in Roman characters. The approved generic names adopted are the three names, Harijan, Depressed Class and Adivasi shown under generic names, in the list below:—

- | | |
|--|---|
| 1 Adi-Andhra. | 36 Koosa. |
| 2 Adi-Dravida. | 37 Koraga— <i>Kapada Koraga, Soppu Koraga, Vastra Koraga, Tippi Koraga, Vanti Koraga.</i> |
| 3 Adi-Karnataka. | 38 Kudubi— <i>Kariya.</i> |
| 4 Ajila. | 39 Kudumban. |
| 5 Arunthathiyar. | 40 Kuravar— <i>Koodaikatti Nakkiar, Kooda-katti Nattar, Narikuravan, Jogi, Yavanar, Kadukutti, Valliammaikuttam, Kakkalan, Veduvur.</i> |
| 6 Baira. | 41 Kurichchan— <i>Kurikke.</i> |
| 7 Bakuda. | 42 Madari— <i>Pamula.</i> |
| 8 Bandi. | 43 Madiga— <i>Jambava, Sindhuvalu, Dakkali, Gosangi, Mastiga, Puravabatta, Chakara, Chundi, Pavini, Vayani, Mayikkan, Matanga.</i> |

| 27 Hasla— <i>Hasula, Hasala.</i> | 62 Panchama. |
| 28 Holey— <i>Mari-Holey, Mera, Mundala, Mulada Holey, Salada Holey, Kusamaila, Raneyava, Mayyan, Kopala.</i> | 63 Panniandi. |
| 29 Jaggali. | 64 Paraiyan— <i>Vettiyan, Vetti, Vellam, Vel, Natu-vile, Pani, Pambaikaran, Ammaparaiyan, Urumikaran, Morasu, Tangalan.</i> |
| 30 Jambuvulu. | 65 Paravan. |
| 31 Kadan— <i>Kadir.</i> | 66 Pulayan— <i>Thanda Pulayan, Kuzhi Pulayan, Kanna Pulayan.</i> |
| 32 Kalladi. | |
| 33 Kanakkan— <i>Patunna Kanakkan, Vettuva Kanakkan, Chavala Kanakkan, Parattu Kanakkan.</i> | |
| 34 Karimpalan. | |
| 35 Kodalo. | |

- 67 Puthirai Vannan—*Podarayan.*
 68 Raneyar.
 69 Samagara—*Arya Samagara.*
 70 Samban—*Sambuni Kapu.*
 71 Sapari.
 72 Semman—*Tolmestri, Tondaman.*
 73 Thoti—*Odiya Thoti, Joyi, Joyar.*

- 74 Tiruvalluvar.
 75 Valluvan—*Paraiyan Tolia, Alyar Dasari, Tavida Dhari, Valluva Pandaram, Paniseivan or Panisavan, Nandan.*
 76 Valmiki.
 77 Vettuvan—*Vettuva Vellala, Vettaikaran, Viragu, Pannadai, Villi, Kodi, Peringala, Pulaya Vettuvan.*

GENERIC NAMES.

Harijan.

Depressed Class.

Adivasi.

(iii) Separate population figures have been ascertained for the following individual castes, the names of which are likely to be considered for inclusion in or exclusion from the existing list of Scheduled Castes:—

ANDHRA STATE :

1 Pombala.

2 Valmiki (Agency areas).

MADRAS STATE :

1 Perumkollan.

5 Valan.

2 Vathiriyar.

6 Mukkuvan.

3 Vedan.

7 Koliyan (recommended by Madras Government).

4 Araya.

8 Kurichchan.

The population figures of the communities, Valmiki and Kurichchan have been included in the re-sort of Scheduled Castes population figures as they already find a place in the Constitution (Scheduled Castes) Order, 1950' while those relating to the other communities have not been included.

Separate figures for the above communities are given in the Table below:—

MADRAS,

Dated the 8th December 1955.

J. I. ARPUTHANATHAN,
 Superintendent of Census Operations, Madras.

P R E F A C E

The Government used to compile and publish District Manuals for each district prior to 1905. The manuals became obsolete within a few years of their publication, containing as they did not only matter of a more or less permanent character such as physical characteristics, history, religion and ethnography, as also statistical matters which soon became out of date. The Government decided to replace the District Manuals by another publication known as the District Gazetteer, consisting of two volumes, A and B. The A volume contained descriptive matter and such general figures, as might be necessary to explain the text, and the B volume contained detailed statistics. They also decided that the B volume should be brought out periodically, especially after each decennial census. Between 1905 and 1927 A volumes for thirteen districts were published. In 1927 they were discontinued. B volumes for all the districts were published between 1906 and 1915. They were continued to be published even after the 1931 census. They were not published after the 1941 census.

Village Statistics, containing the results of the census for every village in the State, were first compiled and published in 1872, at the instance of Mr. C. E. Gover, who was then the Census Officer in Madras. His successor, in 1882, considered that this publication led to needless expenditure and trouble in printing the tables villagewar, but the Government decided that the Village Statistics should continue to be published. The practice of issuing village Statistics at every census was followed subsequently. The Village Statistics merely showed the number of occupied houses and population of each village and town by religions.

The idea of preparing the present volume, viz., the District Census Handbook for each district was put forward by Sri R. A. Gopalaswami, I.C.S., Registrar-General, India, and ex-officio Census Commissioner of India, as part of a plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the district census tables and census abstracts prepared during the process of sorting and compilation should be bound together in a single manuscript volume, called the District Census Handbook, and suggested to the State Governments that the handbook (with or without the addition of other useful information relating to the district) could be printed and published, at their own cost, in the same manner as the Village Statistics in the past. In accepting this suggestion, the Government of Madras decided to print and publish the more important portion of statistical data relating to the district and to preserve the rest of the records in a manuscript volume for any future use, to which any may be put.

2. The statistical data embodied in the District Census Handbook have to be understood from the background of the changes introduced in the 1951 census. The most important and fundamental change introduced in the 1951 census consists in the substitution of an economic classification of the people for the classification based on Religion and Communities

adopted in the past. The people were divided into two broad livelihood categories, the Agricultural and Non-Agricultural. Four agricultural classes and four non-agricultural classes were prescribed as shown below :—

Agricultural Classes—

- I. Cultivators of land, wholly or mainly owned, and their dependants,
- II. Cultivators of land, wholly or mainly unowned, and their dependants,
- III. Cultivating labourers and their dependants,
- IV. Non-cultivating owners of land, agricultural rent receivers and their dependants.

Non-Agricultural Classes—

Persons (including their dependants) who derive their principal means of livelihood from—

- V. Production other than cultivation,
- VI. Commerce,
- VII. Transport, and
- VIII. Other services and miscellaneous sources.

Each of the above eight livelihood classes were divided into three sub-classes with reference to their economic status as below :—

- (i) Self-supporting persons,
- (ii) Non-earning dependants, and
- (iii) Earning dependants.

These livelihood sub-classes have been defined in detail in the fly-leaf notes attached to Economic Table B-I included in this Handbook.

All non-earning dependants are economically passive, all earning dependants are economically semi-active. All self-supporting persons are ordinarily economically active, but the classes and groups specified below constitute an exception to this rule :—

- (1) Self-supporting persons of Agricultural Class IV,
- (2) Self-supporting persons of Livelihood Class VIII, who derive their principal means of livelihood from any source other than through economic activity, viz.—
 - (a) Non-working owners of non-agricultural property;
 - (b) Pensioners and remittance holders;
 - (c) Persons living on charity and other persons with unproductive occupations;
 and
 - (d) Inmates of penal institutions and asylums.

Economically active persons engaged in cultivation are either cultivators or cultivating labourers. Economic Table B-I gives particulars of the population classified according to eight livelihood classes and three sub-classes mentioned above.

Economically active persons engaged in industries and services have been classified with reference to the nature of the commodity produced or service performed. They are further divided into three sections, viz., Employers, Employees and Independent Workers.

Economic Table B-III gives particulars of the economically active persons classified under the divisions and subdivisions of industries and services of the Indian Census Economic Classification Scheme.

Table C-I included in this Handbook covers the population of sample households and Tables C-II and C-IV cover a 10 per cent sample population. The method adopted for extracting these samples has been described in detail in the fly-leaf notes attached to the relevant tables.

3. *Scheme of the Census Handbook.*—The Handbook has been divided into two parts; Part I consists of three sections, namely, Section (i) containing the general population tables (A series), the Economic Tables (B series), Summary figures for Taluks (Table E), Tables I, II and III relating to Small-scale Industrial establishments and Table L showing the Incidence of Leprosy; Section (ii) containing the Rural statistics, and Section (iii) containing the Urban statistics; and Part II containing the Household (size) Table C-I, and Tables showing Livelihood classes and Literacy by Age-groups (C-II and C-IV), the Social and Cultural Tables (D series) and an abstract of non-agricultural occupations in the district. Among the tables included in the Handbook, Table A-IV—Towns classified by population with variations since 1901, Economic Table B-II—Secondary means of livelihood under each livelihood class and Table C-II—Livelihood classes by age-groups furnish information at the district level. The other population tables in the A series, the summary figures for taluks (Table E) and the Infirmary (Table L) showing the incidence of leprosy furnish information for each taluk in the district with a district total. The rural statistics in Part I—Section (ii) furnish basic information in respect of every village and town arranged according to census tracts. In addition to the total population of the villages, and its distribution among the eight livelihood classes, information regarding the number of literates, the cultivated area, the number of small-scale industrial establishments under categories, textile and non-textile and the number of leprosy cases and doubtful cases has been included.

The Urban statistics in Part I, Section (iii) furnish similar information except that relating to cultivated area in respect of every unit classified as city or census town in the district with ward-wise data. All other tables included in the Handbook provide information for units called census tracts with totals for the district.

4. *Census Tracts.*—A distinctive feature of the census statistics is its rural urban break up designed with a view to compare the conditions and characteristics of the rural and urban population. The rural areas of each district were therefore kept distinct from the urban areas. For facilitating tabulation these areas were divided into a number of rural and urban tracts. As far as possible, the rural area in each taluk was constituted into a single rural tract. In a few cases however where the taluks were small in size with reference to their population, the rural areas of more than one taluk were taken together as a single rural tract. The urban tracts have been formed out of areas declared as cities and census towns in each district. Every city was treated as a separate tract. Towns other than cities were grouped together to form non-city urban tracts. Wherever possible, the towns in each taluk were constituted into a single non-city urban tract. In cases where the towns in a taluk had a population of less than 50,000 the towns in more than one taluk were grouped

together to form a non-city urban tract. All the rural tracts in the State have been assigned numbers in one series, the non-city urban tracts in another series and the city tracts in a third series. In all the tables where the data have been furnished for tracts, the tracts have been denoted by numbers that have been assigned to them. A list of tracts into which the district has been divided and the areas comprised in each is furnished in the fly-leaf note to Economic Table B-I relating to the district.

The districts, taluks and villages mentioned in the Tables and Abstracts have been shown along with the census location code numbers assigned to them for purposes of census operations.

The numbers given to the Tables in this publication correspond to those given in the State Census Report.

Elaborate notes explaining the scheme of each Table have been introduced in the fly-leaf notes attached to each with a view to enable the reader to get a precise idea of the data furnished in the Table.

5. *Tables relating to Small-scale Industries.*—In the year 1950 a census of Small-scale Industries was instituted under the orders of the Government. The object was to get some idea about small industries such as cottage and home industries, small establishments, workshops, etc., where articles were produced, repaired or otherwise treated for sale, use or disposal and small mines. The enquiry was confined to establishments to which the Factories Act was not applicable. Individuals who worked on their own and did not employ other people were left out of account. From the data collected three Tables were prepared and they have been included in the Handbook. Information giving village-wise and ward-wise information for Small-scale Industries have been incorporated in the rural and urban statistics. The details collected and embodied in the Tables are not to be considered accurate or exhaustive, as the enumeration staff employed had not been trained for the purpose and some cases of under enumeration were noticed. However, the figures given in the Tables may be sufficient to give an insight into the nature of the industries prevalent in the different parts of the district.

6. Opportunity has been taken to put in a short introductory note detailing the salient points connected with the district, such as the physical features, climate, rainfall, irrigation and drainage facilities, roads and other communications, crop statistics, education, industries and other matters of general interest. The information contained in the introductory note is based on the materials furnished by Collectors of districts and Departments of Government. The District Gazetteer was also freely referred to. The relevant paragraph of the 1951 Census Report discussing the growth of population in the district has also been incorporated in the proper place.

A district map showing taluk boundaries, physical features, important roads and places with a population exceeding 5,000 is also attached.

It is hoped that this Handbook will serve as a book of reference on matters relating to the district and that it will be found useful both by Departments of Government and the public.

J. I. ARPUTHANATHAN,
Superintendent of Census Operations, Madras.

INTRODUCTION
TO
ANANATPUR DISTRICT

I. (a) (i) *Situation and physical characteristics.*—The Anantapur District forms one of the group of four districts called the “Ceded Districts”. It lies between 13°40’ and 15°15’ of the northern Latitude and 76°50’ and 78°30’ of the Eastern Longitude. The district is roughly oblong in shape with the longer side running North to South with a portion of the Mysore State jutting into it from the west between Kalyandrug and Madakasira taluks. The district is bounded by the Bellary and Kurnool districts on the north, by Cuddapah district on the east, by the Chittoor district and the Mysore State on the South, and by the Mysore State and Bellary districts on the west. The villages of Kanajanahalli, Sarjammanahalli and Kotagaralahalli in Madakasira taluk and Tsantikuntapalli in Hindupur taluk were transferred to Mysore State under the Provinces and States (Absorption of Enclaves) Order, 1950. The district consists of the following nine taluks comprised in two Revenue divisions as detailed below :—

Name of Revenue divisions.					Headquarters of Revenue division.	Taluks comprised in the Revenue division.				Area in square miles.	Headquarters of taluk.
Anantapur	..	..	..	..	Anantapur	..	..	{	Anantapur	926	Anantapur.
									Gooty	896	Gooty.
									Tadpatri	641	Tadpatri.
									Kalyandrug	821	Kalyandrug.
Penukonda	..	..	..	Penukonda	..	..	{	Penukonda	682	Penukonda.	
								Dharmavaram	736	Dharmavaram.	
								Kadiri	1,157	Kadiri.	
								Hindupur	430	Hindupur.	
							{	Madakasira	417	Madakasira.	
Total ..									6,706		

The district may be said to consist of three natural divisions : They are (1) the northern taluks of Gooty and Tadpatri containing large areas of black cotton soil, (2) Kalyandrug, Anantapur, Dharmavaram, Penukonda and Kadiri taluks in the centre, which are mainly made up of arid, treeless expanse of poor, red soils and (3) the high level land of Madakasira and Hindupur taluks which connect with the Mysore Plateau and stand at a higher elevation than the rest of the district. Portions of Gooty and Kalyandrug taluks in the west of the district slope towards the west and the northern portions of Gooty and Tadpatri taluks slope towards the south draining into the Pennar while the rest of the district slopes from south to north. The wide plains are broken up by ridges, lines and clusters of rocky hills.

Hills.—The Muchukotah hills about 35 miles in length and in places as wide as 7 miles, run from north of Gooty town up to the extreme southern corner of Tadpatri taluk proceeding along the western border of Tadpatri taluk and the eastern borders of Gooty and Anantapur taluks. It is cut across by the Chitravathy river in the south-west corner of Tadpatri taluk.

Another line of hills starts from the west of Gooty taluk and runs south for about 50 miles through the centre of Gooty taluk and into the western parts of Anantapur and Dharmavaram taluks. This range is called the Nagasamudram hills. It contains several breaks and diminishes in height as it proceeds southwards.

The Mallappakonda range begins at Dharmavaram and runs into Mysore State.

The Penukonda range starts in the south of Dharmavaram taluk and proceeds into Mysore State through Penukonda and Hindupur taluks.

In Madakasira taluk, the Madakasira hills divide the taluk into the southern and northern portions.

There are numerous isolated peaks and rocky clusters characteristic of the Deccan. Examples of these are the Gooty Rock and the cluster round about Kalyandrug and Singanamala of Anantapur taluk. Along the eastern side of Tadpatri taluk is the low Erramala Hill range of Kurnool.

There is plenty of vegetation in Hindupur and Madakasira taluks but the rest of the district is made

up mostly of barren undulating wastes diversified with some topes and cultivation in the valleys.

(b) *Rivers*.—The Pennar is the chief river in the district. Rising in the Chemmesava hills north-west of Nandidrug in Mysore State, it enters the district on its extreme southern point in Hindupur taluk and flows northwards along the western portions of Hindupur, Penukonda and Dharmavaram taluks and the eastern portion of Kalyandrug taluk. Then it flows on the western boundary of Anantapur taluk and striking east takes its course between Gooty and Anantapur taluks and across Tadpatri taluk. It then passes through the districts of Cuddapah and Nellore eventually enters the Bay of Bengal. Near Utukuru in Hindupur taluk, the river is joined by its tributary the Jayamangali.

The Chitravathy is the next notable river of the district. Like the Pennar, it rises in the Mysore State in the Harihareswara Hill north of Nandidrug and enters Anantapur district on the eastern part of Hindupur taluk. Flowing north across Hindupur taluk it enters the Bukkapatnam tank in Penukonda taluk. Emerging thence as its surplus it proceeds on its northerly course across Dharmavaram taluk, enters the Dharmavaram tank, and emerges again as its surplus course. Thence it strikes northeast across Dharmavaram taluk and the southern corner of Tadpatri taluk and leaves the district to join the Pennar in Cuddapah district.

The Kusavathi river in Hindupur taluk is a tributary of the Chitravathy.

The Tadakaleru river rises in the southernmost portion of the Nagasamudram hills and flows into the Sanganamala tank in Anantapur taluk and thence into the Pennar.

The Pandemeru feeds the Anantapur tank and emerging over its surplus weir joins the Tadakaleru.

The river Swarnamukhi in Madakasira taluk flows down to join the Hagari river in Mysore State.

The Maddaleru is a stream flowing north in Kadiri taluk. It joins the Chitravathy.

The Papagni is another stream in Kadiri taluk.

(c) *Forests*.—The district contains forests over an extent of 698·84 square miles. The taluk-wise extent of these forests is furnished below :—

Name of taluk.	Reserve forest—square miles.
Gooty	59·64
Tadpatri	71·45
Kalyandrug	71·45
Anantapur	44·67
Dharmavaram	72·77
Penukonda	44·52
Kadiri	119·67
Madakasira	214·66
Hindupur	33·95
	37·51
Total ..	698·84

The Reserved forests in Penukonda taluk are exploited for fuel, bamboo and minor forest produce. The reserved forests in Kadiri taluk contain thorny species. The growth in the Reserved forest in Hindupur taluk is comparatively better than that in the other taluks.

(d) *Climate and rainfall*.—The hottest months are March, April and May. From June, after the arrival of the South-West Monsoon the average maximum temperature drops gradually till December. The three hot months are unpleasant. The nights and early mornings from November to January are delightful. The district is one of the driest in the State.

The district is among those that have the poorest rainfall in the State. The particulars of the average annual rainfall and the average number of rainy days in a year in the various taluks of the district are furnished below :—

Name of taluk.	Average annual rainfall inches.	Average number of rainy days.
Gooty	21·37	38·4
Tadpatri	21·88	37·2
Kalyandrug	20·17	30·7
Anantapur	24·36	34·6
Dharmavaram	20·82	32·4
Penukonda	24·50	38·1
Kadiri	23·04	37·0
Madakasira	21·70	32·8
Hindupur	23·18	39·9

The particulars of the mean of monthly maximum temperature and minimum temperature, the highest recorded and lowest recorded temperature and the actual monthly rainfall for the year, 1951 as recorded at Anantapur are given in the subjoined statement.

Months.	Mean maximum temperature.	Mean minimum temperature.	Highest recorded temperature.	Lowest recorded temperature.	Actual rainfall.
January	86·2	63·4	89	58	0·0
February	92·1	62·6	98	59	0·0
March	98·2	68·5	103	59	1·93
April	98·4	77·5	104	72	0·92
May	100·1	77·9	105	66	6·92
June	92·3	74·8	97	71	2·58
July	90·8	74·2	97	71	1·11
August	93·1	73·6	97	71	0·29
September	91·8	74·1	97	71	3·87
October	91·5	72·2	94	68	2·37
November	89·3	68·8	94	61	0·11
December	85·7	60·6	90	54	0·0
For the year ..	92·5	70·7	105	54	20·12

There is not much difference in the temperatures of the taluks except, that the taluks of Madakasira, Hindupur and Penukonda by reason of their higher altitude have a cooler atmosphere.

(e) *Soils*.—The soils of the assessed land have been classified under six heads, viz., black clay, black loam, black sand, red clay, red loam and red sand. Black soil is the best in productivity followed by black loam, red clay, red loam and black sand and red sand is the worst of all. The percentages under these classifications in each taluk are given below :—

Taluk.	Black.			Red.		
	Clay.	Loam.	Sand.	Clay.	Loam.	Sand.
Gooty	33·2	13·1	3·0	11·2	39·5	
Tadpatri	42·1	25·6	3·8	20·6	7·9	
Kalyandrug	3·2	0·5		26·5	69·8	
Anantapur	5·3	9·1	3·0	35·4	47·2	
Dharmavaram	0·1	5·6	0·8	40·3	53·2	
Penukonda	9·1	5·0		26·0	59·9	
Kadiri	0·1	0·2		41·0	36·8	21·9
Madakasira	0·2	6·8	0·3	64·0	28·7	
Hindupur	0·6	12·8	1·1	0·2	63·8	21·5

(f) *Irrigation and drainage facilities and liability to famine*.—The district cannot boast of any productive or protective system of irrigation projects except the Yellanur tank in Tadpatri taluk. The rivers in the district are torrential streams and carry water only when there are good rains. For the most part of the year they are dry. The rivers are not provided with regular anicuts. Temporary sand-dams are put up across them. Spring channels are dug from jungle streams, tank-beds, hill sides valleys, etc., and only very small extents are cultivated thereby. There are a number of small tanks which require several fillings for a crop to mature. They are particularly numerous in Kadiri taluk. There are certain river-fed tanks such as the Singanamala tank in Anantapur taluk fed by the Tadakaleru, the Bukkapatnam tank in Penukonda taluk and the Dharmavaram tank in Dharmavaram taluk both across the Chitravathy and the Anantapur tank in Anantapur taluk. Most of the tanks in the district are silted up. There are wells, but most of them fail during drought.

Due to lack of irrigation facilities and due to its unfortunate geographical situation which is at the thin end of either monsoon and the poor quality of the soil in more than one-half of the district, the whole district falls a prey to famine conditions frequently.

The Government have now taken up the Upper Pennar Project. The Kumudavathi Project is in progress. The contemplated Bhairavani-Tippa Project will serve Kalyandrug taluk. These projects should improve the irrigational facilities to some extent.

Anan.—2a

A statement showing the number of minor and major irrigation sources and their ayacut in the taluks is furnished below :—

Taluk.	Minor irrigation sources.	Ayacut.	Major irrigation sources.	Ayacut.
Gooty	191	7,183·98	5	1,725·58
Tadpatri	108	8,794·02	3	1,563·71
Kalyandrug	313	7,531·75	9	3,873·17
Anantapur	384	13,340·62	7	6,409·74
Dharmavaram	267	9,749·05	13	5,205·19
Penukonda	241	12,135·49	20	8,978·47
Kadiri	599	11,994·06	7	2,313·00
Madakasira	172	9,425·25	16	8,063·90
Hindupur	203	11,104·05	29	14,505·00
Total ..	2,478	91,258·27	109	52,637·76

(g) *Cultivated area*.—Paddy, cholam, cumbu and korra are the chief food crops. Varagu, ragi and samai are also cultivated on a small scale. Horsegram is widely cultivated. Groundnut and cotton are the chief commercial crops. There are coconut and arecanut gardens in Madakasira and Hindupur taluks. The particulars of the area cultivated with food-crops, pulses and commercial crops in the various taluks of the district in the year 1946-47 the last normal year for the district, is furnished in *Annexure I*.

(h) *Communications*—(i) *Roads*.—The district is connected by roads with the adjoining districts of Bellary, Cuddapah, Kurnool and Chittoor and the Mysore State. There are 1,360 miles of roads in the district consisting of 106 miles of National Highways, 251 miles of Provincial Highways, 543 miles of major district roads, 124 miles of other districts roads, 275 miles of village roads and 61 miles of municipal roads. Their taluk-wise distribution is furnished below except in the case of municipal roads :—

Name of taluk.	National Highways.	Provincial Highways.	Major District roads.	Other district roads.	Village roads.	Total.
Gooty	28	107	18	71	32	256
Tadpatri	43	24	..	..	37	104
Kalyandrug	..	100	11	23	134	
Anantapur	19	28	20	..	21	88
Dharmavaram	23	..	72	..	42	137
Penukonda	23	..	56	..	31	110
Kadiri	..	73	111	42	36	262
Madakasira	..	..	75	..	23	98
Hindupur	13	..	67	..	30	110
Total ..	106	251	543	194	275	1,299

The communications in the district are adequate, a number of roads having been formed by way of famine relief measures. The National Highways are

well looked after and their condition is good. The condition of the Provincial Highways is also good. The district roads under the management of the district board which have heavier traffic such as the Anantapur-Tadpatri road, the Anantapur-Kalyandrug road, the Madakasira-Hindupur road, the Anantapur-Gooty road and Uravakonda-Guntakal road, require better attention. The condition of the roads formed as famine relief works is bad. The village roads are least attended to and their condition is no better than that of an ordinary cart-track. The maintenance of the municipal roads in the district is satisfactory.

(ii) *Railways*.—There are 61 miles of broad gauge and 191½ miles of metre gauge railway in the district. The broad gauge line from Madras to Bombay traverses Tadpatri and Gooty taluks. A metre gauge line runs south from Guntakal in Gooty taluk to Bangalore across Gooty, Anantapur, Dharmavaram, Penukonda and Hindupur taluks. A metre gauge line branches off from Dharmavaram and proceeds south-east into Chittoor district, traversing Kadiri taluk. There is no railway in Kalyandrug and Madakasira taluks. The district headquarters and all the taluk headquarters except those of Kalyandrug and Madakasira taluks are connected by railway.

(iii) *Posts and Telegraphs*.—There are 14 sub-post and telegraph offices, 5 non-combined sub-post offices and 207 branch post offices in the district. Their taluk-wise distribution is given below :—

Name of taluk.	Branch post offices.	Non-combined sub-post offices.	Post and telegraph sub-offices.
Gooty	24	..	5
Tadpatri	12	..	1
Kalyandrug	15	..	1
Anantapur	15	4	2
Dharmavaram	24	..	1
Penukonda	17	..	1
Kadiri	40	..	1
Madakasira	30	..	1
Hindupur	30	1	1
Total .	207	5	14

II. (a) (i) *Growth of population*.—The particulars of population of the district and taluks in 1941 and 1951 and the percentage of variation are furnished below :—

Name of district and taluk.	Population.		Percentage of variation.
	1941.	1951.	
Anantapur district ..	1,166,225	1,361,556	16.7
Gooty taluk	178,189	214,851	20.6
Tadpatri	127,700	132,794	4.0
Kalyandrug	97,321	118,394	21.7
Anantapur	136,446	164,703	20.7
Dharmavaram	99,260	114,812	15.7
Penukonda	104,094	123,349	18.5
Kadiri	193,438	219,112	13.3
Madakasira	102,579	120,209	17.2
Hindupur	127,198	153,332	20.5

The growth of population in the district during the decade 1941-51 as revealed at the Census of 1951 is 16.7 per cent as against 14.4 per cent for the Madras State. The variations of increase in the taluk populations range from 4.0 per cent in Tadpatri taluk to 21.7 per cent in Kalyandrug. In spite of this district being in the famine zone, the taluks in this district have recorded large increases ranging from 13.3 per cent to 21.7 per cent with the exception of Tadpatri taluk which has registered a low increase of 4.0 per cent. It is a dry and healthy tract, and the large increase in the population of this district is evidence of the effective manner in which Governmental activities have been counteracting the effects of adverse seasonal conditions. While the area under food-crops has decreased during the decade, that under commercial crops has increased. The decade was one of general prosperity and there has been an increase in the total area under cultivation in the district. The Tadpatri taluk is a black soil area, depending mostly on rainfed crops. It is one of the taluks visited by famine periodically. Due to adverse seasonal conditions in 1950, a large number of families belonging to the labouring classes left the taluk in November 1950 and did not return to their homes till May or June 1951. These temporary emigrants went to the Tungabhadra Project works in Bellary, Cuddapah and Kurnool districts, and also hired themselves out as labourers for picking cotton, harvesting groundnut, etc., in Bellary, Cuddapah and Kurnool districts.

(Extracted from Census Report—Part I.)

(ii) *Vital statistics*.—A statement showing the births and deaths and deaths due to various causes for the decennium 1941 to 1950 is furnished in *Annexure II*.

The district recorded the highest average birth rate of 37.5 per mille during the decade as against the average of 31.7 for the State. The average death rate 22.3 per mille was slightly more than the average for the State (21.2), but excepting for 1947 the recorded annual death rates show a gradual decline. A very severe wave of cholera epidemic swept over the district in 1942 causing 4,525 deaths. This represents about 70 per cent of the total deaths from cholera during the decade. Deaths from plague were returned from the district during every year of the decade although the intensity varied from year to year. Plague incidence was very low in 1943, 1949 and 1950. The mortality

from the other principal diseases was about normal. The infant mortality rates also show a downward trend, especially during the second half of the decade.

(b) *Medical relief*.—The medical institutions and their bed strength in each of the taluks of the district are listed below :—

Serial number and name of taluk.	Medical institutions.	Number of beds.
1 Gooty	1 Government Hospital, Gooty. 2 Municipal Dispensary, Guntakal. 3 Local Fund Dispensary, Uravakonda. 4 Local Fund Dispensary, Pamidi. 5 Rural Dispensary, Vidapanakal.	12 6 4
2 Tadpatri	1 Government Hospital, Tadpatri. 2 Local Fund Dispensary, Yadaki.	8 ..
3 Kalyandrug	1 Local Fund Dispensary, Kalyandrug.	4
4 Anantapur	1 Government Headquarters Hospital, Anantapur. 2 Government Police Hospital, Anantapur. 3 Engineering College Dispensary, Anantapur.	100 20 ..
5 Dharmavaram	1 Local Fund Dispensary, Dharmavaram.	4
6 Penukonda	1 Government Hospital, Penukonda. 2 Local Fund Dispensary, Bukkapatnam.	8 ..
7 Kadiri	1 Government Hospital, Kadiri. 2 Local Fund Dispensary, Tanaikal.	4 ..

Serial number and name of taluk.	Medical Institutions.	Number of beds.
8 Madakasira ..	1 Government Hospital, Madakasira. 2 Local Fund Dispensary, Amara-puram.	4 ..
9 Hindupur ..	1 Government Hospital, Hindupur.	24

The district headquarters hospital at Anantapur is provided with a minor X-Ray set. Leprosy treatment is also provided in the district headquarters hospital.

(c) *Water-supply and drainage arrangements*.—Drinking water is generally taken from wells. In some places tank water is used for drinking. There is protected water-supply only in Anantapur town. There are drainage arrangements only in Anantapur, Gooty and Guntakal towns. The particulars of the number of public drinking water wells constructed in each taluk under the rural water-supply scheme are furnished below :—

Name of taluk.							Number of wells constructed.
Gooty	..	..	..	..	..	..	74
Tadpatri	..	..	..	..	..	..	114
Kalyandrug	..	..	..	..	..	..	36

(d) *Fairs and Festivals*.—The festivals and fairs in the various taluks of the district are listed below :—

Name of festival.	Duration.
<i>Gooty Taluk.</i>	
1 Karibasaswamy Car Festival, Uravakonda	Second week of March.
2 Sri Pennahobalam Narasimhaswamy Car Festival, Pennahobalam	Second week of May.
3 Bheemalingeswaraswamy Car Festival, Gadekal	Second week of July.
4 Shah Masthan Vali Urs, Guntakal	Second week of November.
5 Parvathappaswamy Car Festival, Rayampalli	First week of February.
6 Bolikonda Rangaswamy Car Festival, Tondapadu	Second week of February.
7 Ramalingaswamy Car Festival, Ramapuram	Last week of February.
8 Venkateswaraswamy Car Festival, Vajrakarur	Second week of April.
9 Anjaneyaswamy Car Festival, Kasapuram	Last week of March.
10 Mahamad Shavali Urs, Gooty	Second week of April.
11 Syed Shavali Urs, Gooty	Third week of April.
12 Kadla Gowramma festival, Vidapanakal	First week of November.
<i>Tadpatri Taluk.</i>	
1 Aswartham Car Festival, Chinna Pappur	Second week of February.
2 Mahasivarathri Festival, Chillavaripalli	Last week of February.
3 Hajee Vali Urs, Talaricheruvu	Second week of March.
4 Bata Sunkulamma, Putlur	Last week of March.
<i>Kalyandrug Taluk.</i>	
1 Lingaswamy Festival, Tenagal	Second and third week of February.
2 Rangaswamy Car Festival, Vepalaparthi	First week of April.
<i>Anantapur Taluk.</i>	
1 Bukkarayasamudram Car Festival, Bukkarayasamudram	Second week of February.
2 Sanapa Car Festival, Sanapa	Second week of April.
3 Moharam Festival at Gugudu	First week of November.

Name of festival.	Duration.
<i>Dharmavaram Taluk.</i>	
1 Mahasivapathi Festival, Sangameswaram	 Last week of February.
2 Pothulajah Parasha, Dadalur	 First week of March.
3 Katamajah Parasha, Sanjeevapuram	 Second week of March.
<i>Penukonda Taluk.</i>	
1 Babujah, Urs, Penukonda	 Second week of March.
2 Sangameswara Car Festival, Kothacheruvu	 Third week of May.
3 Subrahmanyswamy Car Festival, Poddanumuthu	 First week of March.
4 Ranganathaswamy Car Festival, Gudipalli	 Last week of April.
5 Parvathi Parameswara Car Festival, Volidadakula	 Second week of May.
<i>Kadiri Taluk.</i>	
1 Lakshminarasimhaswamy Car Festival, Kadiri	 Second and third week of March.
2 Nallacheruvu Vamana Parasha, Nallacheruvu	 Second week of April.
3 Anjanoyaswamy Thirunala, Thavalem	 Last week of April and first week of May.
<i>Madakasira Taluk.</i>	
1 Siddoswaraswamy Car Festival, Homavathi	 Last week of March.
2 Gangadharaswamy Car Festival, Halukur	 Second week of February.
3 Mottabanda Anjanoyaswamy Car Festival, Madakasira	 Second and Third week of February.
4 Kollapuramma Car Festival, Ratnagiri	 First week of May.
<i>Hindupur Taluk.</i>	
1 Sangameswara Car Festival, Utakur	 Last week of February.
<i>Anantapur Taluk.</i>	
1 Sanapa Cattle Fair, Sanapa	 Second week of April.
<i>Dharmavaram Taluk.</i>	
1 Sangameswara Cattle Fair, Sangameswaram	 Second week of March.
<i>Penukonda Taluk.</i>	
1 Sangameswaraswamy Cattle Fair, Kothacheruvu	 Third week of May.
2 Ranganathaswamy Cattle Fair, Gudipalli	 Last week of April.
3 Parvati Parameswara Cattle Fair, Volidadakula	 Second week of May.
<i>Kadiri Taluk.</i>	
1 Anjanoyaswamy Cattle Fair, Thavalem	 First week of May.
<i>Madakasira Taluk.</i>	
1 Gangadharaswamy Cattle Fair, Halukur	 Second week of February.
2 Mottabanda Anjanoyaswamy Cattle Fair, Madakasira	 Second week of February.
3 Cattle Fair, Hireturpi	 Second week of January.
4 Cattle Fair, Homavathy	 Second week of March.
<i>Hindupur Taluk.</i>	
1 Sangameswara Cattle Fair, Utakur	 Last week of February.

III. *Educational institutions*.—A statement showing the number of the various types of educational institutions in each taluk of the district and their strength as on 31st March 1951 is given in *Annexure III*.

IV. *Industry*—(i) *Cottage and small-scale*.—A statement showing the particulars of the number of the important cottage and small scale industries and the approximate number of persons employed in them in each taluk are furnished in *Annexure IV*.

(ii) *Large scale*.—There are no large scale industries in the taluks of Kalyandrug, Dharmavaram, Penukonda and Madakasira. The nature and number of the large

scale industries and the number of persons employed in them in the other taluks are furnished below :—

Taluk.	Nature of industry.	Number of factories	Number of persons employed.
(1)	(2)	(3)	(4)
Gooty ..	Cotton Ginning and Pressing.	21	626
Tadpatri ..	Cotton Ginning and Groundnut Decortiating and oil extraction.	7	178
Anantapur ..	Groundnut Decortiating and Oil Mills.	16	358
Kadiri ..	Beedi factories	8	171

V. *Items of general interest*.—The Fort built by the Maharatta Chieftain, Murarirao on the Gooty hill is a protected monument. This and the Munro's Choultry in Gooty are of historical importance. Penukonda has a Fort built by one of the Kings of the ancient Vijayanagar Empire. Penukonda is also a pilgrim centre for the Muslims of South India as it contains the Fort of the famous Muslim saint, Babaiah. The Lepakshi temple in Hindupur taluk with mural paintings and a monolithic bull attract persons interested in art from far and near.

In the Narasimhaswamy temple in Kadiri, Harijans were allowed to enter the temple after the Car

Procession as an age-long custom even before the Temple Entry Act. At Katarupilli village in Kadiri taluk a Pagoda has been built on the grave of the Poet Vemana.

Anantapur, Guntakal, Hindupur and Tadpatri are the municipal towns in the district.

Dharmavaram is a famous silk weaving centre. Silk sarees produced here are very popular.

Vajrakarur in Gooty taluk is famous for occasional finds of diamonds.

10. ANANTAPUR DISTRICT.

ANNEXURE I.

[Vide item I (g) of the Introduction.]

STATEMENT SHOWING THE PARTICULARS OF THE AREA CULTIVATED WITH FOOD CROPS AND COMMERCIAL CROPS IN EACH TALUK OF THE DISTRICT FOR THE YEAR 1946-47.

10. ANANTAPUR DISTRICT.

PART I

Section (I)

A—GENERAL POPULATION TABLES.

A-I—Area, Houses and Population.

This table shows for the rural and urban areas of each taluk and for the district, the area, the number of inhabited villages and towns, occupied houses and the total population with distribution by sex.

2. The district area shown in column (2) of this table is that supplied by the Surveyor-General of India. Area figures furnished by the Central Survey Office, Madras, have been adopted for the taluks. The total area of the taluks as furnished by the Central Survey Office, Madras, shown within brackets in column (2) differs from the area of the district furnished by the Surveyor-General.

3. "Village" is the revenue administrative unit within defined boundaries. This table gives particulars in respect of all villages containing one or more groups of habitations. Villages with no habitations are not included in this table.

4. "Town" is a place of usually not less than 5,000 inhabitants, possessing distinct urban characteristics. Cantonments have been treated as forming part of the towns in which they are situated.

5. House.—Every dwelling with a separate main entrance has been treated as a house for census purposes.

Taluk.	Area in sq. miles.	Villages.	Town.	Occupied houses.		
				Total.	Rural.	Urban.
(1)	(2)	(3)	(4)	(5)	(6)	(7)

10. ANANTAPUR DISTRICT.

A-II—Variation in Population during fifty years.

This table compares the population of the district and of each taluk in the district as ascertained at the Census of 1951 with the corresponding figures of the five previous Censuses. The figures recorded at the previous Censuses have been adjusted for subsequent territorial changes, if any, in order to afford a correct basis for comparison. The adjusted figures show the population of taluks and the district as constituted at present.

2. The main territorial changes that occurred during the decade is the transfer of the following villages from Anantapur district to Mysore State:—

Kanajanahalli, Sarjammanahalli, Kotagarlahalli and Tsautikuntapalli.

The transfer resulted in a reduction in the population of the district to the extent of 8,194 persons (5,757 males and 2,437 females).

Taluk.					Persons.	Variation.	Net variation 1901-1951.	Males.	Variation.	Females.	Variation.

10. ANANTAPUR DISTRICT.

A-III—Towns and Villages classified by Population.

This table shows the total number of inhabited towns and villages in each taluk of the district distributed on population basis under three main heads with sub-heads under each as follows:—

(1) Towns and villages with less than 2,000 population—

(a) Population with less than 500.

(b) Population between 500 and 1,000.

(c) Population between 1,000 and 2,000.

(2) Towns and villages with population of 2,000 to 10,000—

(a) With population of 2,000 to 5,000.

(b) With population of 5,000 to 10,000.

(3) Towns and villages with population of 10,000 and above—

(a) With population of 10,000 to 20,000.

(b) With population of 20,000 to 50,000.

(c) With population of 50,000 to 100,000.

(d) With population of 100,000 and above.

II. For definition of a "Town" and "Village" see fly-leaf to Table A-I.

Taluk.	Total number of inhabited towns and villages.	Total population.			Towns and villages with less than 2,000 population.		
		Persons.	Males.	Females.	Total.

10. ANANTAPUR DISTRICT.

A-IV—Cities and Towns classified by Population with variations since 1901.

This table shows the population and distribution of sex of cities and towns of the district at each of the last six enumerations.

2. The cities and towns have been arranged in this table according to their population in 1951 under the following six classes:—

Class.	Limits of population.
I	100,000 and over.
II	50,000 to 100,000.
III	20,000 to 50,000.
IV	10,000 to 20,000.
V	5,000 to 10,000.
VI	Under 5,000.

3. Where possible, the former population of places treated for the first time as towns in 1941 and at this census, has been extracted from Village Statistics. Where this could not be done, the columns have been left blank.

4. The population of towns for previous censuses are those then recorded. No adjustments have been made for intervening changes in area.

5. Municipality, panchayat and cantonment are indicated by the use of the letters (M), (P), (C), respectively, within brackets.

6. Towns newly appearing at this census have been printed in *italics*.

Town.	Taluk.	Persons.	Variation.	Net variation, 1901-1951.	Males.	Variation.	Females.	Variation.

10. ANANTAPUR DISTRICT.

A-V—Towns arranged talukwise

(i) *Agricultural Classes.*

- I. Cultivators of land wholly or mainly owned and their dependants.
 II. Cultivators of land wholly or mainly unowned and their dependants.
 III. Cultivating labourers and their dependants.
 IV. Non-cultivating owners of land, agricultural rent receivers and their dependants.

This table shows the analysis of the Urban population in towns by livelihood classes, instead of by communities as in the previous censuses.

2. Under the Indian Census Economic Classification Scheme, the people have been divided into two broad livelihood categories, viz., the Agricultural Classes and the Non-agricultural classes. There are four Agricultural classes and four Non-agricultural classes as shown below :—

Taluk.	Town.	Population.			Livelihood classes.			
		Persons.	Males.	Females.	Non-agricultural classes.			
					Persons (including dependants) who derive their principal means of livelihood from			
					V. Production other than cultivation.		VI. Commerce.

10. ANANTAPUR DISTRICT.

with Population by Livelihood Classes.

(ii) *Non-Agricultural Classes.*

Persons (including dependants) who derive their principal means of livelihood from —

- V. Production (other than cultivation).
 VI. Commerce.
 VII. Transport.
 VIII. Other services and miscellaneous sources.

3. In this table, the figures for the agricultural livelihood classes I to III are not given separately but have been clubbed together.

4. The towns in each taluk of the district are arranged in the order of their population as in Table A-IV.

5. Municipality, Panchayat and Cantonment are indicated by the use of the letters (M), (P), (C), respectively within brackets.

6. For the definition of a "Town" see fly-leaf to Table A-I.

7. Towns newly appearing at this census have been printed in *italics*.

Livelihood classes—cont.										Town.

10. ANANTAPUR DISTRICT.

E—Summary figures by taluks.

The data contained in this table have been given for each taluk in the district.

2. The areas shown in column (2) of the table for the district and the taluk 'total' are the latest figures furnished by the Central Survey Office, Madras. The areas given for 'urban' are those furnished by the District Officers. The areas for 'rural' have been obtained by deducting the figures for 'urban' from those for district and taluk 'total'.

3. The district area furnished by the Surveyor-General, India, which has been shown in Table A-I, could not be adopted in this table as talukwise figures have not been furnished by him. The district areas given by the Surveyor-General differ from those furnished by the Central Survey Office, Madras.

4. Previous census figures of population have been adjusted with reference to the merger of States, transfer of enclaves, and inter-district transfers, if any. The rural and urban population figures have been taken as they were at the 1941 and 1931 censuses and as they are at the present census, regardless of the changes of rural areas into urban areas and *vice versa* from census to census, for the purpose of calculating percentage variation between 1931 and 1941 and between 1941 and 1951. For calculating density for 'rural' and 'urban' for 1941, the areas of the towns newly formed at the present census rounded to the nearest square mile have been deducted from the areas given for urban in column (2) for 1951 and added to the areas given for 'rural', in the districts and taluks where new towns have been recognized.

Taluk.	Area in sq. miles.	Population.				Variation.		Density.	
(1)	(2)	Persons.				1951-41.	1941-31.	1951.	1941.

10. ANANTAPUR DISTRICT.

B—ECONOMIC TABLES.

B-I—Livelihood Classes and Sub-classes.

This table shows by rural/urban break-up for each Census tract in the district the distribution of population, sex-wise, among the eight livelihood classes and the three sub-classes, viz., self-supporting persons, non-earning dependants and earning dependants under each livelihood class into which the economic characteristics of the people have been classified under the I.C.E.C. Scheme—vide fly-leaf to Table A-V.

2. The areas comprised in each of the Census tracts into which this district has been delimited for the purposes of Census tabulation are given below :—

Rural Tracts.		
No. 93—Gooty	All the villages and panchayats not treated as Census towns.	In Gooty taluk.
No. 94—Tadpatri	Do.	In Tadpatri taluk.
No. 95—Kalyandrug.	Do.	In Kalyandrug taluk.
No. 96—Anantapur.	Do.	In Anantapur taluk.
No. 97—Dharmavaram.	Do.	In Dharmavaram taluk.
No. 98—Penukonda	Do.	In Penukonda taluk.
No. 99—Kadiri	Do.	In Kadiri taluk.
No. 100—Madakasira.	Do.	In Madakasira taluk.
No. 101—Hindupur..	Do.	In Hindupur taluk.

Non-City Urban Tracts.		
No. 23—Gooty, Guntakal, Uravakonda and Pamidi towns in Gooty taluk.		
No. 24—Tadpatri and Yadiki towns in Tadpatri taluk, Kalyandrug town in Kalyandrug taluk and Anantapur town in Anantapur taluk.		
No. 25—Dharmavaram town in Dharmavaram taluk, Penukonda and Bukkapatnam towns in Penukonda taluk, Kadiri town in Kadiri taluk, Madakasira town in Madakasira taluk and Hindupur town in Hindupur taluk.		

3. The livelihood classification is based on the principal means of livelihood of the self-supporting persons, the principal means of livelihood for earning and non-earning dependants being the same as that of the self-supporting persons on whom they are dependant.

4. "The principal means of livelihood" is the means of livelihood which provides the largest or the major part of the income in the case of self-supporting persons who have more than one means of livelihood. In the case of other self-supporting persons, it is the only means of livelihood.

5. A person has been regarded as "Self-supporting" if the income secured by the person is sufficient at least for his (or her) own maintenance at the level of living and adopted by him (or her) at the time of the Census. The income secured may be in cash or kind. Anyone who is not a "Self-supporting" person in this sense has been regarded as a dependant. An 'earning' dependant is a person who secures an income which is not sufficient to support him (or her). A person who does not secure any income either in cash or kind, is a 'non-earning dependant'.

6. The non-earning dependants include persons performing housework or other domestic or personal services for other members of the same family household, but do not include "unpaid family workers" or persons who take part along with the members of the family household in carrying on cultivation or a home industry as a family enterprise. These latter persons have been classed as either self-supporting or earning dependants according to the share of income attributable to them.

7. The self-supporting persons shown in Livelihood Class VIII include also persons who derive their income otherwise than through productive activity, i.e., persons coming under the following groups, details for which are given in the fly-leaf to Economic Table B-III :—

(1) Persons living principally on income from non-agricultural property ;

(2) Persons living principally on pensions, remittances, scholarships and funds ;

(3) Inmates of jails, asylums, alms-houses and recipients of doles ;

(4) Beggars and vagrants ; and

(5) All other persons living principally on income derived from non-productive activity.

10. ANANTAPUR DISTRICT.

B-II—Secondary means of Livelihood.

This table gives for the district the number of persons, in each of the eight livelihood classes mentioned in Economic Table B-I, who possess a secondary means of livelihood, and cross classifies them (according to the nature of such means of livelihood) under the same eight livelihood classes.

2. The secondary means of livelihood shown for self-supporting persons is the means of livelihood next

in importance to their principal means of livelihood. In respect of earning dependants, it is the means of livelihood which provides the earning, or the largest part of their income if they have more than one source of income.

3. Non-earning dependants and self-supporting persons who have no secondary means of livelihood are excluded from this Table.

Livelihood classes.	Number of persons deriving their secondary means of livelihood from

10. ANANTAPUR DISTRICT.

B-III—Employers, Employees and Independent Workers in Industries and Services by Divisions and Subdivisions.

This table gives figures for each Census tract in the district. The areas comprised in each census tract denoted by its number in Column 1 have been specified in the fly-leaf to Table B-I. In this table the self-supporting persons in the four Non-Agricultural Classes given in Economic Table B-I are distributed in the various divisions and subdivisions of Industries and Services under the Indian Census Economic classification scheme, according to their secondary Economic Status, namely, Employer, Employee, and Independent worker.

2. (An) Employer (is) a person who employs other persons in order to carry on the business from which he secures his livelihood and pays them a salary or wage in cash or kind.

3. (An) Employee (is) a person who ordinarily works for some other person for a salary or a wage, whether in cash or in kind in order to earn his livelihood.

4. (An) Independant worker (is) a person who works on his own without being employed by anyone for a salary or wage and who does not also employ anyone else in order to earn his livelihood.

5. Under the New Indian Census Economic Classification Scheme all Employers and Independent workers have been classified with reference to the commodity produced or services performed by them individually. As regards employees, all persons engaged in Production, Commerce, or Transport (and not being Domestic servants) have been classified with reference to their own activity and without reference to that of their employer. Domestic servants have been classified in one subdivision without reference to the nature of their work. All other employees (including all managerial and supervisory employees, clerical services, messengers, watchmen and unskilled labour of every description) have been classified with reference to the commodity produced or services rendered by their employers.

6. The Non-Agricultural classes classified in Economic Table B-I, correspond to the divisions and subdivisions into which they are distributed in this table as follows :—

Livelihood class.	Division and subdivisions of the I.C.E.C. Scheme.
Class V—Production other than cultivation.	Division 0.—Primary Industries not elsewhere specified. Division 1.—Mining and Quarrying. Division 2.—Processing and Manufacture of Foodstuffs, Textiles, Leather and Products thereof. Division 3.—Processing and Manufacture—Metals, Chemicals and Products thereof. Division 4.—Processing and Manufacture—Not elsewhere specified.
Class VI—Commerce.	Division 6.—Commerce.
Class VII—Transport.	Subdivisions 7-0 to 7-4 of Division 7.—Transport, Storage and Communications
Class VIII—Other Services and Miscellaneous sources.	Division 5.—Construction and Utilities; Division 7.—Transport, Storage and Communications with the exception of subdivisions 7-0 to 7-4; Division 8.—Health, Education and Public Administration; and Division 9.—Services not elsewhere specified.

Class VIII also includes persons who derive their principal means of livelihood from miscellaneous sources (otherwise than through economic activity), e.g., income from investments, pensions and family remittances, proceeds of begging and other unproductive activities. These are not, however, included in this table as it is limited to economically active persons engaged in Industries and Services. Hence there will be a difference to this extent between the total self-supporting persons of the non-agricultural class in Economic Table B-I and the total of this table. The reconciliation will be effected by adding the figures given in the next paragraph.

10. ANANTAPUR DISTRICT.

B-III—Employers, Employees and Independent Workers in Industries and Services by Divisions and Subdivisions.

7. Details of persons who derive their principal means of livelihood otherwise than through productive activity and who are included under livelihood Class VIII mentioned in the Fly-leaf to Economic Table B-I are given below :—

Non-productive means of livelihood.															
Tract No.			Total.	Persons living principally on income from non-agricultural property		Persons living principally on pensions, remittances, scholarships and funds		Inmates of jails, asylums, alms-houses and recipients of doles.		Beggars and vagrants.		All other persons living principally on income derived from non-productive activities.

10. ANANTAPUR DISTRICT.

III—Employment in Non-Textile Establishments.

This table gives for each Census tract the number of persons employed in non-textile establishments referred to in Table I. The establishments have been grouped with reference to the scheme of grouping adopted in the Indian Census Economic Classification Scheme.

2. As in Table II, 'Boys' and 'Girls' refer to persons below 15 years of age.

3. The areas covered by each Census tract in the district have been given in the fly-leaf to Table B-I.

NOTE.—The symbols 'W.T.' and 'P.T.' adopted in this table stand for 'Whole Time' and 'Part Time'.

INFIRMITY.

L—Incidence of Leprosy by Livelihood Classes for Taluks.

This table shows for each taluk in the district the incidence of leprosy among the population, males and females, by the eight livelihood classes.

2. Figures are given separately for leprosy and doubtful cases. The former refers to clear cases of leprosy while the latter to suspected cases of leprosy.

3. Information regarding the number of leprosy cases and doubtful cases in each village/town of each tract has been given in the appropriate Rural and Urban Statistics.

Taluk.	Males.			Females.			Agricultural classes.		
	I. Cultivators of land wholly or mainly owned and their dependants.			II. Cultivators of land wholly or mainly unowned and their dependants.			III. Cultivating labourers and their dependants.

10. ANANTAPUR DISTRICT.

Section (ii)

Rural Statistics.

This is an abstract giving a complete list of villages and towns in each taluk in the district with sexwise distribution of population in each livelihood class in the villages alone. Among the other items of statistical information furnished, those relating to occupied houses, households, inmates of institutions and houseless persons and literates, were obtained from the National Register of Citizens prepared for each village from the information recorded in the enumeration slips. Villagewise statistics of textile and non-textile establishments collected in the course of the Census of Small scale Industries and the number of leprosy cases and doubtful cases are also given in the abstract.

2. For detailed explanation of the livelihood classes I to VIII see fly-leaf to general population Table A-V.

3. The areas included in each Census tract in the district has been furnished in the fly-leaf to Table B-I.

4. A list of villages with a population exceeding 5,000 but treated as rural is given below :—

Taluk.	Name of village.
Gooty	Vajrakarur
Kadiri	Gandlapenta
Do.	Kondakamarla.
Do.	Tanakal.
Hindupur	Chilamatur.

Rural Statistics.

Location Code number and name of Village or Town.	Area in sq. miles.	Occupied Houses.		Total number of persons enumerated (including inmates of Institutions and houseless persons).			Inmates of institutions and houseless people.		Literates.	
		Number of houses.	Number of households.	Persons.	Males.	Females.	Males.	Females.	Males.	Females.

Section (iii)
Urban Statistics.

This is an abstract giving in respect of cities and other census towns, wardwise information under all items given for villages in the Rural Statistics, except that relating to cultivated area. The localities or blocks or wards specified are the divisions of the towns made for purposes of numbering of houses.

Location Code number and name of Town, number of Ward (house numbering locality or block).	Area in sq. miles.	Occupied Houses.		Total number of persons enumerated (including inmates of Institutions and houseless persons).		Inmates of Institutions and houseless people.		Literates.		
		Number of houses.	Number of households.	Persons.		Males.		Females.

10. ANANTAPUR DISTRICT.

10. ANANTAPUR DISTRICT.

PART II

C—HOUSEHOLD AND AGE (SAMPLE) TABLES.

C-I—Household (size).

This table has been prepared in respect of a population covering the members of sample households selected from the entries in the National Register of Citizens on the basis of one household for every one thousand households. The sample households selected include roughly every tenth household in every hundredth House-numbering Block in the Rural areas and every fiftieth household in every twentieth House-numbering block or locality in Urban areas.

2. The Agricultural and the Non-agricultural classes refer to the four Agricultural and the four Non-agricultural classes given in Table A-V. The Backward

Classes include the Scheduled Castes, the Scheduled Tribes and other classes not treated as Non-backward by the State Government for the purpose of 1951 Census. Anglo-Indians are included among the Non-backward classes.

3. Columns (2) to (5) of the table relate to all the households and household population in the entire tract while columns (6) to (17) relate to the sample households selected.

4. The figures have been given for each Census Tract (vide fly-leaf to Table B-I) in the district.

Tract No.				Total number of households.	Total household population.			Total number of sample households.	Sample households.			
					Persons.	Males.	Females.		Sample of household population.

C-II—Livelihood Classes by Age-groups.

This table shows the livelihood distribution by age-groups for rural, urban and district totals in respect of a sample population based on a ten per cent sample taken out when the enumeration slips were initially sorted. The ten per cent sample was taken out as follows:—

Each enumeration pad which consisted generally of 100 enumeration slips was broken and the slips relating to displaced persons which had been noticed during the process of the preliminary scrutiny were removed from the pack of slips for being dealt with separately. The pack was then "cut" as in a card-game. The lower portion was placed above the upper portion and the slips were dealt into two pigeon-holes one marked "G" and the other marked "S" as follows:—

The first 5 slips were placed in the pigeon hole "G", then one slip was placed in the pigeon-hole "S". Thereafter for every nine slips placed in the pigeon-hole "G", one slip was placed in the pigeon-hole "S" until the total number of slips left was less than 9 and these residuary slips were all put into hole "G". All the slips contained in the pigeon-hole marked "S" were taken out, counted and marked as 'Sample' slips.

No smoothing formula has been adopted in preparing the table as in previous Censuses and the figures have been tabulated as actually returned in suitable age-groups.

The figures under age '0' represent infants below one year.

Age-group.	Livelihood classes.									
	Agricultural classes.

10. ANANTAPUR DISTRICT.

C-IV—Age and Literacy.

This is yet another table prepared in respect of the ten per cent samples of the general population. (Vide fly-leaf to Table C-II).

2. Age groups 0 and 1 to 4 given in Table C-II have been combined into one age group, and the age group 5 to 14 has been split into two sub-groups 5 to 9 and 10 to 14. Persons of age groups 0 to 4 are treated as illiterate.

3. The figures are given for each Census tract (Rural and Urban) denoted by its number in column 1 in the district. The areas covered by each Census tract have been specified in the fly-leaf to Table B-I.

4. 'Literates' are those who are able to read and write any simple letter in any language.

5. Persons who are partly literate, i.e., persons who are able to read only, have been included among the illiterates. Details for such persons are given below :—

Age-group.	Able to read only.		
	Persons.	Males.	Females.
5—9	371	258	113

10. ANANTAPUR DISTRICT.

D—SOCIAL AND CULTURAL TABLES.

D-I—Languages.

(i) *Mother-tongue.*

This table shows for each Census tract in the district, denoted by its number in Column (1) the languages spoken as mother-tongue and the number of persons speaking each one of them. The areas covered by each Census tract have been specified in the fly-leaf to table B-I.

2. Mother-tongue means the language spoken by the person from the cradle. In the case of infants and deaf mutes the mother-tongue of the mother is taken as the mother-tongue.
