2. The circumstances leading to the substitution of revised figures are briefly as follows:—

At the time of sorting the enumeration slips in 1951, the sorters were given a list of the 77 Scheduled Castes shown in Roman type in the list in paragraph (ii) below. No instructions were given to the sorters as to how the slips were to be treated in the case of persons who returned themselves by a generic Scheduled Caste name such as Harijan or Depressed Class or Adivasi or by a recognised synonym such as Pulacheruman, Eralan, Kudan, Rolan, Alen, Paramban (for Cheruman), with the result that sorters in Tabulation Offices classified the communities according to their own interpretation. Consequently, a number of Scheduled Caste members who had returned themselves by generic names or by synonymous names were left out of the Scheduled Castes count. This situation came to the notice of the Government of India, who decided after careful consideration that persons who had returned themselves by generic or synonymous Scheduled Caste names should be counted as Scheduled Castes and that the Census Tables already published should be revised, where necessary, to show the correct position. In order to arrive at the correct figures of Scheduled Castes population a fresh sorting of the 1951 Census slips was accordingly organised in Madras.

(ii) Before commencing the sorting a list of synonymous names, (i.e.) names synonymous with those of the communities published in the 'Constitution (Scheduled Castes) Order, 1950, was prepared in consultation with the Collectors of districts and sent to the State Governments

of Madras and Andhra for acceptance. The list as finally accepted by the State Governments was got approved by the Government of India. Castes printed in Roman characters in the list below have been declared to be Scheduled Castes in the composite Madras State (as it existed before the formation of the Andhra State) by the Constitution (Scheduled Castes) Order, 1950 issued by the President under Article 341 (1) of the Constitution of India. The names in *italics* represent the synonyms of the names printed above them in Roman characters. The approved generic names adopted are the three names, Harijan, Depressed Class and Adivasi shown under Generic names, in the list below:—

- 1 Adi-Andhra.
- 2 Adi-Dravida.
- 3 Adi-Karnataka.
- 4 Ajila.
- 5 Arunthathiyar.
- 6 Baira.
- 7 Bakuda.
- 8 Bandi.
- 9 Bariki.
- 10 Bavuri—*Bayri*.
- 11 Bellara.
- 12 Byagari.
- 13 Chachati.
- 14 Chakkiliyan—*Osangi*.
- 15 Chalavadi.
- 16 Chamar.
- 17 Chandala.
- 18 Cheruman—*Pulacheruman, Eralan, Kudan, Rolan, Alen, Paramban.*
- 19 Dandasi—*Behara*.
- 20 Devendrakulathan.
- 21 Dom or Dombara, Paidi Pano—*Domb, Domba, Dombar, Dommara, Mirigani, Kabbiriya, Odiya, Sodabisiya, Mandiri, Andiniya, Kalaikuttadi.*
- 22 Ghasi or Haddi, Relli, Sachandi—*Suddha Haddi, Karuva Haddi, Godomati Haddi, Sachchari, Sapiri.*
- 23 Godagali.
- 24 Godari.
- 25 Godda.
- 26 Gosangi.
- 27 Hasla—*Hasula, Hasala.*
- 28 Holeyá—*Mari-Holeyá, Mera, Mundala, Mulada Holeyá, Salada Holeyá, Kusamaila, Raneyava, Mayyan, Kopala.*
- 29 Jaggali.
- 30 Jambuvulu.
- 31 Kadan—*Kadir*.
- 32 Kalladi.
- 33 Kanakkan—*Patunna Kanakkan, Vettuva Kanakkan, Chavala Kanakkan, Parattu Kanakkan.*
- 34 Karimpalan.
- 35 Kodalo.
- 36 Koosa.
- 37 Koraga—*Kapada Koraga, Soppu Koraga, Vastra Koraga, Tippi Koraga, Vanti Koraga*
- 38 Kudubi—*Kariya*.
- 39 Kudumban.
- 40 Kuravan—*Koodaikatti Nakkiar, Koodakatti Nattar, Narikuravan, Jogi, Yavanar, Kadukutti, Valliammaikuttam, Kakkalan, Veduvar.*
- 41 Kurichchan—*Kurikke*.
- 42 Madari—*Pamula*.
- 43 Madiga—*Jambava, Sindhuvalu, Dakkali, Gosangi, Mastiga, Puravabatta, Chakara, Chundi, Pavini, Vayani, Mayikkan, Matanga.*
- 44 Maila.
- 45 Mala (including Agency Mala).
- 46 Mala Dasu.
- 47 Malasar.
- 48 Matangi—*Matangi Makkalu*.
- 49 Mavilan—*Tulumar, Chingattan, Tulumavilan, Edamavilan.*
- 50 Moger.
- 51 Muchi—*Mochi, Jinigara, Chitrakara, Muchala.*
- 52 Mundala.
- 53 Nalakeyava—*Nalke, Nalkadaya.*
- 54 Nayadi.
- 55 Pagadai.
- 56 Paimda.
- 57 Paky.
- 58 Pallan—*Devendra, Kadaiyan, Konga, Manadi, Kaladi, Vaikaran.*
- 59 Pambada.
- 60 Pamidi.
- 61 Panan—*Malayan, Tirurengan, Kodakatti, Minpidi, Pulluvan, Anjuttan, Munnuttan.*
- 62 Panchama.
- 63 Panniandi.
- 64 Paraiyan—*Vettiyan, Vetti, Vellam, Vel, Natuvile, Pani, Pambaikaran, Ammaparaiyan, Urumikaran, Morasu, Tangalan.*
- 65 Paravan.
- 66 Pulayan—*Thanda Pulayan, Kuzhi Pulayan, Kanna Pulayan.*

- 67 Puthirai Vannan—*Podarayan*.
- 68 Raneyar.
- 69 Samagara—*Arya Samagara*.
- 70 Samban—*Sambuni Kapu*.
- 71 Sapari.
- 72 Semman—*Tolmestri, Tondaman*.
- 73 Thoti—*Odiya Thoti, Joyi, Joyar*.

- 74 Tiruvalluvar.
- 75 Valluvan—*Paraiyan Toda, Alvar Dasari, Tavida Dhari, Valluva Pandaram, Paniseivan or Panisavan, Nandan.*
- 76 Valmiki.
- 77 Vettuvan—*Vettuva Vellala, Vettaikaran, Viragu, Pannadai, Villi, Kodi, Peringala, Pulaya Vettuvan.*

#### GENERIC NAMES.

Harijan  
Depressed Class  
Adivasi

(iii) Separate population figures have been ascertained for the following individuals castes, the names of which are likely to be considered for inclusion in or exclusion from the existing list of Scheduled Castes.

#### ANDHRA STATE :

- 1 Pombala
- 2 Valmiki (Agency areas).

#### MADRAS STATE :

- 1 Perumkollan
- 2 Vathiriyar.
- 3 Vedan.
- 4 Araya.
- 5 Valan.
- 6 Mukkuvan.
- 7 Koliyan (recommended by Madras Government)
- 8 Kurichchan.

The population figures of the communities, Valmiki and Kurichchan have been included in the re-sort of Scheduled Castes population figures as they already find a place in the 'Constitution (Scheduled Castes) Order, 1950' while those relating to the other communities have not been included.

Separate figures for the above communities are given in the Table below:—

| Tract number.  |    |    |    | POMBALA. |       |          |
|----------------|----|----|----|----------|-------|----------|
|                |    |    |    | Persons  | Males | Females. |
| Rural—         |    |    |    |          |       |          |

MADRAS,  
Dated the 8th December 1955.

J. I. ARPUTHANATHAN,  
Superintendent of Census Operations.

## P R E F A C E

The Government used to compile and publish District Manuals for each district prior to 1905. The manuals became obsolete within a few years of their publication, containing not only matter of a more or less permanent character such as physical characteristics, history, religion and ethnography, but also statistical matters which soon became out of date. The Government decided to replace the District Manuals by another publication known as the District Gazetteer, consisting of two volumes, A and B. The A volume contained descriptive matter and such general figures, as might be necessary to explain the text, and the B volume contained detailed statistics. They also decided that the B volume should be brought out periodically, especially after each decennial census. Between 1905 and 1927 A volumes for thirteen districts were published. In 1927 they were discontinued. B volumes for all the districts were published between 1906 and 1915. They were continued to be published even after the 1931 census. They were not published after the 1941 census.

Village Statistics, containing the results of the census for every village in the State, were first compiled and published in 1872, at the instance of Mr. C. E. Gover, who was then Census Officer in Madras. His successor, in 1882, considered that this publication led to needless expenditure and trouble in printing the tables village-wise, but the Government decided that the Village Statistics should continue to be published. The practice of issuing Village Statistics at every census was followed subsequently. The Village Statistics merely recorded the number of occupied houses and population of each village and town by religions.

The idea of preparing the present volume, viz., the District Census Handbook for each district was put forward by Sri R. A. Gopalaswami, I.C.S., Registrar-General, India, and officio Census Commissioner of India, as part of a plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the district census tables and census abstracts prepared during the process of sorting and compilation should be bound together in a single manuscript volume, called District Census Handbook, and suggested to the State Governments that the handbook (with or without the addition of other useful information relating to the district) should be printed and published, at their own cost, in the same manner as the Village Statistics in the past. In accepting this suggestion, the Government of Madras decided to print and publish the more important portion of statistical data relating to the district and to preserve the rest of the records in a manuscript volume for any future use, to which they may be put.

The statistical data embodied in the District Census Handbook have to be understood in the background of the changes introduced in the 1951 census. The most important fundamental change introduced in the 1951 census consists in the substitution of an old classification of the people for the classification based on Religion and Communities.

adopted in the past. The people were divided into two broad livelihood categories, the Agricultural and the Non-Agricultural. Four agricultural classes and four non-agricultural classes were prescribed as shown below :—

*Agricultural Classes—*

- I. Cultivators of land, wholly or mainly owned, and their dependants.
- II. Cultivators of land, wholly or mainly unowned, and their dependants:
- III. Cultivating labourers and their dependants,
- IV. Non-cultivating owners of land, agricultural rent receivers and their dependants.

*Non-Agricultural Classes—*

Persons (including their dependants) who derive their principal means of livelihood from—

- V. Production other than cultivation,
- VI. Commerce,
- VII. Transport, and
- VIII. Other services and miscellaneous sources.

Each of the above eight livelihood classes were divided into three sub-classes with reference to their economic status as below :—

- (i) Self-supporting persons,
- (ii) Non-earning dependants, and
- (iii) Earning dependants.

These livelihood sub-classes have been defined in detail in the fly-leaf notes attached to Economic Table B-I included in this Handbook.

All non-earning dependants are economically passive, all earning dependants are economically semi-active. All self-supporting persons are ordinarily economically active but the classes and groups specified below constitute an exception to this rule—

- (1) Self-supporting persons of Agricultural Class IV,
  - (2) Self-supporting persons of Livelihood Class VIII, who derive their principal means of livelihood from any source other than through economic activity, viz.—
    - (a) Non-working owners of non-agricultural property ;
    - (b) Pensioners and remittance holders ;
    - (c) Persons living on charity and other persons with unproductive occupations ;
- and
- (d) Inmates of penal institutions and asylums.

Economically active persons engaged in cultivation are either cultivators or cultivating labourers. Economic Table B-I gives particulars of the population classified according to the eight livelihood classes and the three sub-classes mentioned above.

Economically active persons engaged in industries and services have been classified with reference to the nature of the commodity produced or service performed. They are further divided into three sections, viz., Employers, Employees and Independent Workers.

Economic Table B-III gives particulars of the economically active persons classified under the divisions and subdivisions of industries and services of the Indian Census Economic Classification Scheme.

Table C-I, included in this Handbook covers the population of sample households and Tables C-II and C-IV cover a 10 per cent sample population. The method adopted for extracting these samples has been described in detail in the fly-leaf notes attached to the relevant tables.

3. *Scheme of the Census Handbook.*—The Handbook has been divided into two parts : Part I consists of three sections, namely, Section (i) containing the General Population Tables (A-series), the Economic Tables (B-series), Summary figures for the district by Taluks (Table E), Tables I, II and III relating to Small-scale Industrial Establishments and Table L showing the Incidence of Leprosy, Section (ii) containing the Rural Statistics, and Section (iii) containing the Urban Statistics, and Part II containing the Household (size) Table C-I, and Tables showing Livelihood Classes and Literacy by Age-groups (C-II and C-IV), the Social and Cultural Tables (D-series) and an abstract of non-agricultural occupations in the district. Among the tables included in the Handbook, Table A-IV—Towns classified by population with variations since 1901, Economic Table B-II—Secondary means of Livelihood under each livelihood class and Table C-II—Livelihood classes by age-groups furnish information at the district level. The other population tables in the A-series, the summary figures by taluks (Table E) and the infirmity Table (L) showing the incidence of leprosy furnish information for each taluk in the district with a district total. The rural statistics in Part I—Section (ii) furnish basic information in respect of every village and town arranged according to census tracts. In addition to the total population of the villages, and its distribution among the eight livelihood classes, information regarding the number of literates, the cultivated area, the number of small-scale industrial establishments under categories, textile and non-textile and the number of leprosy cases and doubtful cases has been included.

The urban statistics in Part I—Section (iii) furnish similar information except that relating to cultivated area in respect of every unit classified as city or census town in the district with ward-wise data. All other tables included in the Handbook provide information for units called census tracts with totals for the district.

4. *Census Tracts.*—A distinctive feature of the census statistics is its rural/urban break-up designed with a view to compare the conditions and characteristics of the rural and urban population. The rural areas of each district were therefore kept distinct from the urban areas. For facilitating tabulation these areas were divided into a number of rural and urban tracts. As far as possible, the rural area in each taluk was constituted into a single rural tract. In a few cases however where the taluks were small in size with reference to their population, the rural areas of more than one taluk were taken together as a single rural tract. The urban tracts have been formed out of areas declared as cities and census towns in each district. Every city was treated as a separate tract. Towns other than cities were grouped together to form non-city urban tracts. Wherever possible, the towns in each taluk were constituted into a single non-city urban tract. In cases where the towns in a taluk had a population of less than 50,000 the towns in more than one taluk were grouped

together to form a non-city urban tract. All the rural tracts in the State have been assigned numbers in one series, the non-city urban tracts in another series and the city tracts in a third series. In all the tables where the data have been furnished for tracts, the tracts have been denoted by numbers that have been assigned to them. A list of tracts into which the district has been divided and the areas comprised in each is furnished in the fly-leaf note to Economic Table B-I relating to the district.

The districts, taluks and villages mentioned in the Tables and Abstracts have been shown along with the census location code numbers assigned to them for purposes of census operations.

The numbers given to the Tables in this publication correspond to those given in the State Census Report.

Elaborate notes explaining the scheme of each Table have been introduced in the fly-leaf attached to each with a view to enable the reader to get a precise idea of the data furnished in the Table.

5. *Tables relating to Small-scale Industries.*—In the year 1950 a census of Small-scale Industries was instituted under the orders of the Government. The object was to get some idea about small industries such as cottage and home industries, small establishments, workshops, etc., where articles were produced, repaired or otherwise treated for sale, use or disposal and small mines. The enquiry was confined to establishments to which the Factories Act was not applicable. Individuals who worked on their own and did not employ other people were left out of account. From the data collected three Tables were prepared and they have been included in the Handbook. Information giving village-wise and ward-wise information for Small-scale Industries have been incorporated in the rural and urban statistics. The details collected and embodied in the Tables are not to be considered accurate or exhaustive, as the enumeration staff employed had not been trained for the purpose and some cases of under-enumeration were noticed. However, the figures given in the Tables may be sufficient to give an insight into the nature of the industries prevalent in the different parts of the district.

6. Opportunity has been taken to put in a short introductory note detailing the salient points connected with the district, such as the physical features, climate, rainfall, irrigation and drainage facilities, roads and other communications, crop statistics, education, industries and other matters of general interest. The information contained in the introductory note is based on the materials furnished by Collectors of districts and Departments of Government. The District Gazetteer was also freely referred to. The relevant paragraph of the 1951 Census Report discussing the growth of population in the district has also been incorporated in the proper place.

A district map showing taluk boundaries, physical features, important roads and places with a population exceeding 5,000 is also attached.

It is hoped that this Handbook will serve as a book of reference on matters relating to the district and that it will be found useful both by Departments of Government and the public.

J. I. ARPUTHANATHAN,  
Superintendent of Census Operations, Madras.

## INTRODUCTION

### TO

### BELLARY DISTRICT

**I. (a) Situation and physical characteristics.**—Bellary is the westernmost of the four Ceded Districts of the Madras State. It is situated between 14° 30' and 16° of the northern latitude and 75° 35' and 76° 40' of the eastern longitude. The district is flanked on the south by the Mysore State and on the west by the Bombay State, and on the north by the Hyderabad State. The districts of Kurnool and Anantapur lie on the east. The district consists of the following ten taluks comprised in two Revenue Divisions as shown below:—

| Revenue Division. | Head-quarters. | Taluks.                                  | Area (in sq. miles). | Head-quarters.       |
|-------------------|----------------|------------------------------------------|----------------------|----------------------|
| Bellary           | Bellary        | Bellary ..                               | 652                  | Bellary.             |
|                   |                | Rayadrug ..                              | 682                  | Rayadrug.            |
|                   |                | Siruguppa ..                             | 403                  | Siruguppa.           |
|                   |                | Alur ..                                  | 613                  | Alur.                |
|                   |                | Adoni ..                                 | 766                  | Adoni.               |

The villages of Jodikasinayakanahalli, Gowripura, Jodibommanahalli, Bommagatta, Sarvainam, Obalapuram and Devarabuddenahalli villages of Mysore State were absorbed in this district under the Absorption of Enclaves Order, 1950. The district is elongated from south-west to north-east. The Rayadrug taluk is wedged between Mysore State and the district of Anantapur.

The level of the district falls gently from south to north towards the river Tungabhadra which covers its entire northern boundary. A small area in the extreme east of Alur and Adoni taluks and an even smaller portion of Rayadrug taluk slope down towards the east.

The district is divided into two natural regions by the Sandur hills running right across the middle of the district from north-west to south-east. The eastern portion consisting of the taluks of Adoni, Siruguppa, Alur, Bellary and Rayadrug and the eastern portion of Hospet taluk is a flat treeless expanse of black cotton soil diversified here and there by rocky hills characteristic of the Deccan. The western portion comprising Hadagalli, Harpanahalli, Kudligi and

Bellary—1

Sandur taluks and the western portions of Hospet taluk is of mixed soil and the terrain is broken up by a succession of tiers of wild and rugged hills lying at a greater elevation than in the eastern portion.

The Sandur hills already mentioned, begin in the north at Mallapuram in Hospet taluk on the bank of the Tungabhadra river and run south-east for over 30 miles right across the district separating it into two divisions with only one break through which the Narihalla river crosses their main axis at right angles. The highest point in the Sandur hills is in the south and is 3,400 feet above the sea. Ramanamalai overlooking the hill station of Ramandrug in the centre is 3,256 feet in altitude and the Jambunath peak in the extreme north is 2,980 feet in elevation.

The other ranges of hills in the district also run from north-west to south-east roughly parallel to the Sandur hills.

The most prominent is the Copper Mountain Hill which rising near Daroji tank in Hospet taluk runs along the borders of Hospet and Bellary taluks in the north and along the borders of Rayadrug and Bellary taluks on the south to within four miles of the Hagari river. Its highest point, the Copper Mountain, is 3,285 feet above the sea.

Some 30 miles south-west of the Sandur hills in the Hadagalli and Harpanahalli taluks and close to the Tungabhadra near Honnuru the Mallappan Gudda range runs south-east for some 25 miles and is broken by the Valley of the Chikka Hagari. It starts again 7 miles farther on and extends into the Mysore territory. The chief peak, Mallappan Betta, is 3,177 feet in height.

Further south-west about 8 to 10 miles from the Mallappan Gudda range are the Kalla Halli Gudda hills. Starting in Hadagalli taluk, they run for about nine miles from north-west to south-east and entering the Harpanahalli taluk join the group of hills south of Harpanahalli town which run up to Huchangidurgam.

In Kudligi taluk a line of hills starting at Anekallu Gudda (2,387 feet high) at the trijunction of Hospet, Kudligi and Hadagalli taluks run south-east wards passing to the north and east of Kudligi town and terminating near Taramalidrug, 2,743 feet high.

Another range starts at Choranuru in Sandur taluk and passing through Gudekota in the eastern portion of Kudligi taluk and through the Mysore State between Rayadrug and Kudligi taluks terminates at Rayadrug.

The Alur hills consist of a number of hills too detached to be called ranges; the Kenchanaguddam hill on the banks of the Tungabhadra, the cluster of hills near Halekota, the Kanchagara-Bellagalluridge, all in Siruguppa taluk, the hills near Holalagondi, and the confused group north-west of Alur town, and the isolated peaks of Hattibellagalu, Ramadurgam and Chippigiri form the Alur hills

In Adoni taluk a number of isolated hills and clusters of hills commencing at Kosigi run south. They include the Kamanghat peak, the Adoni Cluster and the lesser hills to the south-east of Adoni.

In Hospet taluk a rugged group of hills called the Daroji hills extend from Daroji tank up to Hospet. The Kampli hills to the north of the Daroji hills is another cluster.

Another cluster worth mention is that at Kurugodu in Bellary taluk, 14 miles north, north-west of Bellary town. The Bellary Rock is 1,976 feet in altitude.

(b) *Rivers*.—The chief river of the district is the Tungabhadra flowing along the district's entire western and northern boundary for just over 200 miles. The river is formed by the junction in Mysore of two rivers, the Tunga and the Bhadra, which have their source in the Varahaparvata hills high up in the Western Ghats, on the frontier between the Mysore State and the South Kanara district. The river's course lies on the western boundary of Harpanahalli and Hadagalli taluks and thence in a north-easterly direction on the northern boundary of Hadagalli, Hospet, Siruguppa and Adoni taluks. There are small islands here and there on the river bed. The chief tributaries of the Tungabhadra are the Chikkahagari and the Hagari.

The Chikkahagari rises in the Mysore State and flowing through the taluks of Harpanahalli, Kudligi and Hadagalli joins the Tungabhadra near Kittanuru.

The Hagari, like the Tungabhadra, is formed by the junction of two streams known as the Veda and the Avati which rise and unite in Mysore State. The river flows in a northerly direction in the taluks of Rayadrug, Bellary and Siruguppa, touching a part of the western boundary of the Alur taluk. The tributaries of the Hagari are (1) the Chinnahagari which also rises in the Mysore State and joins the Hagari in Rayadrug taluk and (2) the Pedda Vanka which rises in the Copper Mountains and flows across Bellary and Siruguppa taluks.

There are several minor streams flowing into the Tungabhadra. The chief of them are (1) the Hagaranurunnalla rising near Harpanahalli, (2) the Hampasagaramnulla flowing north across Hadagalli taluk and joining the Tungabhadra at Hampasagaram, (3) the Bellahunishinulla flowing north across the eastern part of Hadagalli taluk, (4) the Gowripuram nulla flowing

north on the western part of Hospet taluk, west of Sandur hills, (5) the Narihalla river which rises in Kudligi taluk, cuts the Sandur hills and flows across Daroji tank in Sandur taluk and (6) the Harivanam nulla flowing between the Adoni and Alur hills into Siruguppa taluk.

(c) *Forests*.—The area of the forests in the district is 682.21 square miles consisting of 564.21 square miles of reserve forests and 118 square miles of estate forests taken over. The particulars of the area of forests in each taluk are given hereunder :—

| Name of taluk.       | Reserve forest. | Estate forest taken over. | Total         |
|----------------------|-----------------|---------------------------|---------------|
|                      | SQ. MILES.      | SQ. MILES.                | SQ. MILES.    |
| Adoni .. .. .        | 34.94           | ..                        | 34.94         |

| Hospet .. .. .       | 87.04           | ..                        | 87.04         |
| Sandur .. .. .       | 44.59           | 118                       | 162.59        |
| Alur .. .. .         | 18.74           | ..                        | 18.74         |
| Bellary .. .. .      | 9.14            | ..                        | 9.14          |
| Hadagalli .. .. .    | 37.35           | ..                        | 37.35         |
| Harpanahalli .. .. . | 81.42           | ..                        | 81.42         |
| Kudligi .. .. .      | 205.82          | ..                        | 205.82        |
| Rayadrug .. .. .     | 43.90           | ..                        | 43.90         |
| <b>Total ..</b>      | <b>564.21</b>   | <b>118</b>                | <b>682.21</b> |

The forests consist of thorny scrub, deciduous species and soft wood species as well as bamboo and grass. In the Sandur hills there is some teak and sandalwood.

(d) *Climate and rainfall*.—From March to May the thermometer keeps unpleasantly high. The dryness of the air, however, makes the temperature more bearable than in the damp coastal districts. The period from May to October is noticeably cool. From November to February the district enjoys a genuine cold weather, the days being delightful and the temperature at night getting very cold. The western taluks of Hadagalli, Harpanahalli and Hospet from their higher altitude are the coolest. Thus for 9 months in the year the climate is pleasant. The district has low rainfall. A considerable portion of it is had during the South-West Monsoon.

The particulars of the average annual rainfall and the average number of rainy days in a year in the taluks of the district are given below :—

| Taluk.               | Average annual rainfall (inches). | Average number of rainy days in a year. |
|----------------------|-----------------------------------|-----------------------------------------|
| Adoni .. .. .        | 23.59                             | 40.7                                    |
| Siruguppa .. .. .    | 24.20                             | 38.6                                    |
| Hospet .. .. .       | 23.53                             | 38.7                                    |
| Alur .. .. .         | 22.95                             | 38.5                                    |

| December .. .. .  | 85.7                   | 61.9                   | 96                       | 51                      | 0.13                                           | 85.2                   | 62.5                   | 94                       | 59                      | 0.00                                |  |
| For the year ..   | 92.9                   | 71.1                   | 111                      | 51                      | 20.04                                          | 91.5                   | 71.9                   | 105                      | 59                      | 23.87                               |  |

(e) *Soils*.—There are three classes of soils, namely, black, red and mixed. The percentage of soils under each class in each taluk is given below :—

| Name of taluk.       | Black. | Mixed. | Red. |
|----------------------|--------|--------|------|
| Adoni .. .. .        | 66     | ..     | 34   |
| Alur .. .. .         | 75     | 14     | 11   |
| Siruguppa .. .. .    | 62     | 26     | 12   |
| Bellary .. .. .      | 80     | ..     | 20   |
| Rayadrug .. .. .     | 27     | 54     | 19   |
| Hospet .. .. .       | 8      | 90     | 2    |
| Kudligi .. .. .      | 7      | 24     | 69   |
| Hadagalli .. .. .    | 20     | 47     | 33   |
| Harpanahalli .. .. . | 12     | 87     | 1    |

The black soil is considered to be good and the mixed soil equally good and in some cases superior. The red soil varies from rich red loams to hard and stony gravel.

(f) *Irrigation and drainage facilities and liability to famine*.—The river Tungabhadra is a perennial source irrigating about 21,200 acres in the district, through channels mainly in Hospet, Siruguppa and Adoni taluks. The Tungabhadra river although flowing between high banks, when it enters the district takes a deep bed lower down. Hence it has not been widely used for irrigation so far. A project for impounding the waters of this river by means of a dam is under execution. The dam which is three miles west of Hospet has been completed. Headworks are going on. The project is expected to command nearly two million acres. There are some minor tanks and channels chiefly in Rayadrug, Kudligi and Hospet taluks. The area irrigated by wells is small and many of the wells fail during severe drought. All the tanks except Kamalapuram tank in Hospet taluk, which is fed by the Raza channel from the Tungabhadra anicut and the Kanekal and Veparalla tanks in the Hagari basin are rainfed. The tanks do not have a

good catchment area and the rainfall is deficient. Some of the tanks are also silted up. There are spring channels in Rayadrug taluk dug from the Hagari river.

*Adoni taluk*.—The streams in the taluk are not useful for irrigation. An extent of about 1,000 acres in the taluk is irrigated by minor irrigation sources and 888 acres from the channels of the Tungabhadra. The rest of the taluk is solely dependant on rainfall. Failure of rains is common and the taluk has suffered from several famines, the recent ones being those of 1921—22, 1924, 1937—38 and 1942—43.

After the completion of the Tubgabhadra Project an area of about 77,475 acres is likely to be brought under irrigation.

*Siruguppa taluk*.—There are a few irrigation channels taken from the Tungabhadra to serve about 2,655 acres. In addition to the river channels there are two irrigation tanks which are precarious sources depending upon rain. The taluk was partially affected by the famines of 1942 and 1945. Scanty rainfall brings the taluk under famine conditions. On completion of the Tungabhadra Project an extent of 93,007 acres is likely to be brought under irrigation.

*Hospet taluk*.—An extent of 11,075 acres is irrigated with the aid of Tungabhadra waters obtained by a dam across the river about three miles to the west of Hospet. The Kamalapuram tank receives water supply from the Tungabhadra channels. An additional area of 8,006 acres will be brought under cultivation after the completion of the Tungabhadra Project. The taluk is not generally affected by famine though it suffered to a small extent in the famine of 1942.

**Sandur taluk.**—The Daroji tank receiving supply from the Narihalli river irrigates an area of 1,200 acres. There are 21 rainfed tanks irrigating about 1,090 acres and there are a number of wells under which garden crops are raised. The taluk is not affected by famine. It suffered only during the State-wide famine of 1877.

**Alur taluk.**—There are 14 rainfed tanks in the taluk, the area irrigated by which is not appreciable. Failure of rainfall is common. The taluk suffered from the famines of 1921–22, 1932, 1934–35, 1937–38, 1942–43 and 1952. After the completion of the Tungabhadra Project an area of 13,832 acres is likely to be brought under irrigation.

**Bellary taluk.**—Except for a few spring and river channels serving negligible areas, the taluk has few irrigation facilities. The taluk suffered from the famines of 1921–22, 1924, 1932, 1934–35, 1942–43, 1945 and 1952. The Tungabhadra Project, when completed is expected to irrigate an area of 32,150 acre. The Mallapanakeri tank of Kurugodu which was repaired under the Grow More Food Scheme was expected to irrigate about 200 acres, but at present it gives supply for only about 50 acres.

**Hadagalli taluk.**—There are about 10 rainfed tanks. About 350 acres is irrigated under the Hagari channels, about 400 acres under the Tungabhadra channels and 1,350 acres under tanks. The taluk has not suffered much from bad seasonal conditions.

**Harpanahalli taluk.**—The taluk contains wells and tanks irrigating an extent of about 2,300 acres. The tanks are rainfed. There is fair rainfall as it is situated in the neighbourhood of the Western Ghats. The taluk was rarely affected by famine. Only a small portion of it was affected by the famine of 1946.

**Kudligi taluk.**—The taluk has considerable area under tanks. It has also a good number of wells and spring channels. Being in a hilly tract, the taluk gets a fair amount of rainfall. Part of the taluk suffered in 1945 on account of failure of rains. The great State-wide famine of 1877 also affected the taluk.

**Rayadrug taluk.**—The taluk contains a large number of tanks, wells and spring channels. Spring channels dug annually from the Hagari river irrigate a few villages on the eastern border of the taluk. There are 6 big tanks in the taluk, the most important of which is the Kanekal tank which is fed by water from the Hagari river. The Veparalla and Nagireddipalli tanks are also river fed. The rest are rainfed. After completion of the Bairvan Thippa Project an additional area of about 4,000 acres is expected to be irrigated in the taluk. The taluk suffered from the famine of 1934–35, 1942, 1945 and 1952.

The particulars of area irrigated by minor irrigation sources and major irrigation sources in each taluk are furnished below :—

| Name of taluk.     | Number of minor irrigation sources. | Ayacut under minor irrigation sources. (in acres). | Ayacut under major irrigation sources. (in acres). |
|--------------------|-------------------------------------|----------------------------------------------------|----------------------------------------------------|

| Rayadrug .. ..     | 118                                 | 12,988.72                                          | 4,488                                              |
| <b>Total .. ..</b> | <b>377</b>                          | <b>25,467.83</b>                                   | <b>32,924</b>                                      |

(g) *Area cultivated with food and commercial crops.*—Paddy and ragi are grown on limited extents. Chulam, cumbu and korra are the food crops widely cultivated. Horsegram is also widely cultivated. Cotton and groundnut are the main commercial crops. The particulars of the area cultivated with food crops, pulses and commercial crops in the taluks of the district in 1949–50 which is the last normal year for the district are furnished in *Annexure I*.

(h) *Communications.*—(i) *Roads.*—A road leads to Mysore State from Harpanahalli taluk and another road from Kudligi taluk leads into Mysore State. A road from Bellary leads to Bangalore and several roads from Rayadrug taluk and Alur taluk lead to the adjoining districts. Two roads from Adoni taluk lead to the Hyderabad State. There are 1,278 miles of roads in the district consisting of 221 miles of Provincial Highways, 618 miles of major district roads, 197 miles of other district roads, 133 miles of village roads and 109 miles of municipal roads. Their talukwise distribution except in the case of municipal roads is given below :—

| Name of taluk.     | Provincial Highways. | Major District Roads. | Other District Roads. | Village Roads. | Total.       |
|--------------------|----------------------|-----------------------|-----------------------|----------------|--------------|
| Hospet .. ..       | 33                   | 58                    | 15                    | 11             | 117          |
| Kudligi .. ..      | 4                    | 100                   | 23                    | 7              | 134          |

| Bellary .. ..      | 44                   | 58                    | 57                    | 27             | 186          |
| Siruguppa .. ..    | ..                   | 48                    | ..                    | 2              | 50           |
| Alur .. ..         | 59                   | 43                    | 11                    | 29             | 142          |
| Adoni .. ..        | 33                   | 63                    | 34                    | 25             | 155          |
| Sandur .. ..       | ..                   | 23                    | 15                    | 2              | 40           |
| <b>Total .. ..</b> | <b>221</b>           | <b>618</b>            | <b>197</b>            | <b>133</b>     | <b>1,169</b> |

The general condition of the roads is good except in the case of village roads.

The communications so far as village parts are concerned are not adequate. Provision for connecting important villages with the main road is being made in the Five-year Programme for the improvement of village roads.

(ii) *Railways.*—The district has 50 miles of Broad Gauge Railway and 171½ miles of Metre Gauge Railway of the Southern Railway. The Madras-Bombay Broad Gauge line from Guntakal in Anantapur district traverses the eastern part of Alur and Adoni taluks and proceeds to Raichur in a northerly direction. A metre gauge line connects Guntakal in Anantapur district with Bellary and Hospet traversing the southern parts of Alur and Bellary taluks, and part of Hospet taluk. A branch line from Bellary proceeds to Rayadrug. A metre gauge line from Hospet runs south and branches off into two at Gunda Road, one proceeding to Samehalli in the north-eastern portion of Kudligi taluk passing through the western part of Sandur taluk and another to Kotturu in the western portion of Kudligi taluk traversing also the extreme eastern portion of Hadagalli taluk.

The district headquarters as well as the taluk headquarters of Bellary, Adoni, Rayadrug and Hospet alone are connected by railway.

(iii) *Posts and Telegraphs.*—The district has one departmental telegraph office and a non-combined head office, at Bellary. There are 16 sub-post and telegraph offices, 6 non-combined sub-post offices and 132 branch post offices in the district. Their talukwise distribution is furnished below :—

| Name of taluk.     | Branch P.O. | Non-combined Sub-P.O. | Sub-P. & T.O. |

| Alur taluk .. ..            | 111,445           | 122,558           | 10.0                     |

| Name of the district and taluk | Population. 1941. | Population. 1951. | Percentage variation. |
|--------------------------------|-------------------|-------------------|-----------------------|
| Bellary taluk .. ..            | 151,403           | 184,929           | 22.1                  |
| Hadagalli taluk .. ..          | 92,118            | 101,961           | 10.7                  |
| Harpanahalli taluk .. ..       | 104,915           | 117,633           | 12.1                  |
| Kudligi taluk .. ..            | 99,805            | 108,462           | 8.7                   |
| Rayadrug taluk .. ..           | 106,854           | 122,035           | 14.2                  |

“The district increase is 16.4 per cent. This jump from 8.5 in the previous decade is largely due to Hospet and Bellary taluks which have registered an increase of 62.8 per cent and 22.1 percent respectively. The variations in the taluk populations range from 6.1 in Sandur to 62.8 in Hospet. The spectacular increase in the Hospet taluk is of course due to the large labour population from other districts attracted by the Tungabhadra Project Works, the dam-site being close to Hospet town. Many families who had their homes in the submersible areas of Hadagalli taluk have shifted their permanent residence to Hospet taluk. There has also been some immigration into this taluk owing to the Razakar trouble in Hyderabad State just across the Tungabhadra river. The large growth in Bellary taluk is due to Bellary town which is the district headquarters and has all modern amenities including educational and medical facilities and it is one of the two important trade centres in the district, the other centre being Adoni.

At the other end is Sandur taluk which has the lowest growth rate in the district, viz., 6.1 per cent. This is a newly formed taluk comprising the entire ‘merged’ area of Sandur State and some adjoining firkas of Hospet and Kudligi taluks. This is a backward, interior taluk, and there is a large area under hills and forests and it is malarious. The manganese mines in this taluk have not attracted any large population and the taluk is handicapped by inadequate internal road communications.”

(Extracted from the Census Report—Part I.)

(ii) *Vital statistics.*—A statement showing the number of births and deaths and deaths due to various causes in the district for the decennium, 1941–50 is furnished in *Annexure II*.

The average birth rate was 35.5 per mille during the decade under review and compares favourably with the average rate of 31.7 for the State. The average death rate of 25.1 per mille was high when compared to the average rate of 21.2 for the State. However, the annual rates have shown a steady decline except in 1947. The average death rate of 73 per mille from fever is higher than the rate for the State by 28 per cent. There was a very severe epidemic of cholera in 1942–43 and it accounts for over 85 per cent of the total mortality from cholera during the decade. The district experienced a very severe epidemic of plague in 1941 and 1943, and reported cases of plague in all the other years except 1944. The death rates from other principal diseases were about normal.

(b) *Medical relief arrangements.*—All the taluk headquarters Stations are provided with hospitals. A list of hospitals and dispensaries in the district with the bed strength is furnished below :—

| Name of hospitals.                                   | Number of beds. |
|------------------------------------------------------|-----------------|
| 1 Government Headquarters Hospital, Bellary ..       | 152             |
| 2 Government Wellesley T.B. Sanatorium, Bellary ..   | 200             |
| 3 Government Hospital, Adoni ..                      | 20              |

| 1 Tekkalakotta ..            | Sri Aravina Mallappa Jathra ..                        | May. 3 days.                                                      |

III. *Educational institutions.*—A statement showing the particulars of the number of the various types of educational institutions and their strength as on 31st March 1951 in the various taluks of the district is furnished in *Annexure III.*

IV. *Industry.*—(i) *Cottage and small-scale.*—The particulars of the number of establishments of the important cottage and small-scale industries in each taluk and the approximate number of persons employed in them are furnished in *Annexure IV.*

(ii) *Large-scale industries.*—There are no large scale industries in Siruguppa, Sandur, Hadagalli and Harpanahalli taluks. The large scale industries in the other taluks and the number of persons employed in them are furnished hereunder :—

| Taluk.     | Industries.                  | Number of establishments. | Number of persons employed. |
|------------|------------------------------|---------------------------|-----------------------------|
| Bellary .. | Cotton ginning and baling .. | 29                        | 761                         |
|            | Oil Mills ..                 | 5                         | 137                         |
|            | Beedi factories ..           | 4                         | 299                         |
| Kudligi .. | Cotton ginning and baling .. | 6                         | 192                         |

| Taluk.      | Industries.                          | Number of establishments. | Number of persons employed. |
|-------------|--------------------------------------|---------------------------|-----------------------------|
| Adoni ..    | Cotton ginning and baling ..         | 37                        | 1,410                       |
|             | Cotton spinning and weaving mills .. | 1                         | 423                         |
| Alur ..     | Cotton ginning and baling ..         | 18                        | 316                         |
| Hospet ..   | Sugar Factory ..                     | 1                         | 654                         |
| Rayadurg .. | Cotton spinning and weaving ..       | 1                         | 120                         |

V. *Items of general importance.*—The district Headquarters is at Bellary. Bellary, Adoni and Hospet are the municipalities in the district.

The dam across the Tungabhadra constructed recently is one of the biggest in South India. The dam site about 3 miles from Hospet and its adjoining colony of workers has grown into a township. The height of the dam above deep bed is 160 feet, while the length is 8,000 feet. The ultimate capacity of the reservoir is 132,700 million c.ft., or 3.05 million acre feet. The project is expected to command a total area of 2 million acres. The power that is to be generated from the Hydro-Power Stations on the two canals will give a great fillip to Irrigation and Industries.

## 9. BELLARY DISTRICT.

## ANNEXURE III—cont.

(Vide item III of the Introduction)—cont.

STATEMENT SHOWING THE PARTICULARS OF THE VARIOUS KINDS OF EDUCATIONAL INSTITUTIONS IN EACH TALUK OF THE DISTRICT AND THEIR STRENGTH AS ON 31ST MARCH 1951—cont.

## Notes.—

1 College of Arts and Science, Bellary taluk (1)—at Bellary.

2 Oriental College : (for advanced study in Arabic) : Rayadrug taluk (1)—at Rayadrug.

3 High Schools for Boys : Adoni taluk (4)—at Adoni 2, Yemraigan, Hospet 1 and Kosigi 1; Siruguppa taluk (1)—at Siruguppa; Hospet taluk (2)—at Hospet 1 and Kampli 1; Sandur taluk (1)—at Sandur; Alur taluk (1)—at Alur; Bellary taluk (5)—at Bellary 5; Hadagalli taluk (1)—at Hadagalli; Harpanahalli taluk (1)—at Harpanahalli; Kudligi taluk (2)—at Kudligi 1 and Kotturu 1; Rayadrug taluk (1)—at Rayadrug.

4 High Schools for Girls : Hospet taluk (1)—at Hospet; Bellary taluk (1)—at Bellary.

5 Anglo-Indian High School; Bellary taluk (1)—at Bellary.

6 Training School (ordinary) for Boys : Hospet taluk (1)—at Hospet.

7 Basic Training School for Boys : Bellary taluk (1)—at Bellary.

8 Basic Training School for Girls : Bellary taluk (1)—at Bellary. The Rayalaseema Government Polytechnic School and the Government Adult Literary Training Centre for women are also at Bellary.

## ANNEXURE IV.

(Vide item IV of the Introduction.)

STATEMENT SHOWING THE PARTICULARS OF THE NUMBER OF IMPORTANT COTTAGE AND SMALL-SCALE INDUSTRIES IN EACH TALUK OF THE DISTRICT AND THE APPROXIMATE NUMBER OF PERSONS EMPLOYED IN THEM.

NOTE.—Subdivisions—(i) Number of establishments.  
(ii) Number of persons employed in them.

## 9. BELLARY DISTRICT.

## PART I.

## Section (i).

## A—GENERAL POPULATION TABLES.

## A-1—Area, Houses and Population.

This table shows for the rural and urban areas of each taluk and for the district, the area, the number of inhabited villages and towns, occupied houses and the total population with distribution by sex.

2. The district area shown in column (2) of this table is that supplied by the Surveyor-General of India. Area figures furnished by the Central Survey Office, Madras, have been adopted for the taluks. The total area of the taluks as furnished by the Central Survey Office, Madras, shown within brackets in column 2 differs from the area of the district furnished by the Surveyor-General.

3. "Village" is the revenue administrative unit within defined boundaries. This table gives particulars in respect of all villages containing one or more groups of habitations. Villages with no habitations are not included in this table.

4. "Town" is a place of usually not less than 5,000 inhabitants, possessing distinct urban characteristics. Cantonments have been treated as forming part of the towns in which they are situated.

5. "House."—Every dwelling with a separate main entrance has been treated as a house for census purposes.

| Taluk.                 | Area in sq. miles. | Villages. | Towns. | Occupied Houses. |         |        |

## 9. BELLARY DISTRICT.

## A-II—Variation in Population during fifty years.

This table compares the population of the district and of each taluk in the district as ascertained at the Census of 1951 with the corresponding figures of the five previous Censuses. The figures recorded at the previous Censuses have been adjusted for subsequent territorial changes, if any, in order to afford a correct basis for comparison. The adjusted figures show the population of taluks and the district as constituted at present.

2. The main territorial changes that occurred during the decade are (a) the merger of the State of Sandur with the

district of Bellary and (b) the absorption of the following villages from Mysore State into Bellary district under the Provinces and States (Absorption of Enclaves) Order, 1950. Jodikasinayakanahalli, Gowripura, Jodibommanahalli, Bommagatta, Sarvainam, Obalapuram and Devarabuddenahalli.

3. The district population total has received a net addition of 1,478 persons (752 males and 726 females) on account of the transfer due to the absorption of the enclaves.

| Taluk.               | Persons.                                                       | Variation.                                               | Net variation, 1901-1951.      | Males.                                                     | Variation.                                            | Females.                                                  | Variation.                                            |

## A-III—Towns and Villages Classified by Population.

This table shows the total number of inhabited towns and villages in each taluk of the district distributed on population basis under three main heads with sub-heads under each as follows:—

## (1) Towns and villages with less than 2,000 population—

(a) Less than 500.

(b) 500 to 1,000.

(c) 1,000 to 2,000.

## (2) Towns and villages with population of 2,000 to 10,000—

(a) 2,000 to 5,000.

(b) 5,000 to 10,000.

## (3) Towns and villages with population of 10,000 and above—

(a) 10,000 to 20,000.

(b) 20,000 to 50,000.

(c) 50,000 to 100,000.

(d) 100,000 and above.

II. For definition of a "Town" and "Village" see fly-leaf to Table A-I.

| Taluk.         |    | Total<br>number of<br>inhabited<br>towns and<br>villages. | Total population. |         |          | Towns and villages with less<br>than 2,000 population. |         |          |

## 9. BELLARY DISTRICT.

## A-IV—Cities and Towns classified by Population with variations since 1901.

This table shows the population and distribution of sex of cities and towns of the district at each of the last six enumerations.

2. The following towns have been treated as Cities for the 1951 Census :—

(1) Bellary. (2) Adoni.

3. The cities and towns have been arranged in this table according to their population in 1951 under the following six classes :—

| Class.    | Limit of Population. |
|-----------|----------------------|
| I .. ..   | 100,000 and over.    |
| II .. ..  | 50,000 to 100,000.   |
| III .. .. | 20,000 to 50,000.    |

| Class.   | Limit of Population. |
|----------|----------------------|
| IV .. .. | 10,000 to 20,000.    |
| V .. ..  | 5,000 to 10,000.     |
| VI .. .. | Under 5,000.         |

4. Where possible, the former population of places treated for the first time as towns in 1941 and at this Census, has been extracted from village statistics. Where this could not be done, the columns have been left blank.

5. The population of towns for previous Censuses are those then recorded. No adjustments have been made for intervening changes in area.

6. Municipality, panchayat and cantonment are indicated by the use of the letters (M), (P), (C), respectively brackets.

| Town.            |    | Taluk. |              | Persons. | Variation. | Net variation, 1901-1951. | Males. | Variation. | Females. | Variation. |         |        |         |
|------------------|----|--------|--------------|----------|------------|---------------------------|--------|------------|----------|------------|---------|--------|---------|

## 9. BELLARY DISTRICT.

## A-V—Towns arranged talukwise with Population by Livelihood Classes.

This table shows the analysis of the urban population in towns by livelihood classes, instead of by communities as in the previous Censuses.

2. Under the Indian Census Economic Classification Scheme, the people have been divided into two broad-livelihood categories, viz., the Agricultural Classes and the Non-Agricultural Classes. There are four Agricultural Classes and four Non-Agricultural Classes as shown below :—

(i) *Agricultural Classes.*

I. Cultivators of land wholly or mainly owned and their dependants.

II. Cultivators of land wholly or mainly unowned and their dependants.

III. Cultivating labourers and their dependants.

IV. Non-cultivating owners of land; agricultural rent receivers and their dependants.

(ii) *Non-Agricultural Classes.*

Persons (including dependants who derive their principal means of livelihood from—

V. Production (other than cultivation).

VI. Commerce.

VII. Transport.

VIII. Other services and miscellaneous sources.

3. In this table the figures for the agricultural livelihood classes I to III are not given separately but have been clubbed together.

4. The towns in each taluk of the district are arranged in the order of their population.

5. Municipality, Panchayat and Cantonment are indicated by the use of the letters (M), (P), (C) respectively within brackets.

6. For the definition of a "Town" - see fly-leaf to Table A-I.

| Taluk.            | Town.            |        | Livelihood classes.                                                                |         |         |        |               |          |
|-------------------|------------------|--------|------------------------------------------------------------------------------------|---------|---------|--------|---------------|----------|

| District Total .. |                  |       | 5,759                                                                              | 5,463  | 43,378 | 36,907 | 3,600                                                                                 | 3,721 | 29,243 | 29,923 |

4. Previous census figures of population have been adjusted with reference to the merger of States, transfer of enclaves, and inter-district transfers. The rural and urban population figures have been taken as they were at the 1941 and 1931 Censuses and as they are at the present Census, regardless of the changes of rural areas into urban areas and *vice versa* from Census to Census, for the purpose of calculating percentage variation between 1931 and 1941 and between 1941 and 1951. For calculating density for 'rural' and 'urban' for 1941, the areas of the towns newly formed at the present Census rounded to the nearest square mile have been deducted from the areas given for urban in column (2) for 1951 and added to the areas given for 'rural' in the districts and taluks where new towns have been recognized.

5. In respect of Alur taluk which has no urban areas, the figures represent the total alone.

## E—Summary Figures by Taluks.

The data contained in this table have been given for each taluk in the district.

2. The areas shown in column (2) of the table for the district and the taluk "total" are the latest figures furnished by the Central Survey Office, Madras. The areas given for "urban" are those furnished by the District Officers. The areas for "rural" have been obtained by deducting the figures for "urban" from those for district and taluk "total".

3. The district area furnished by the Surveyor-General, India, which has been shown in Table A-I, could not be adopted in this table as talukwise figures have not been furnished by him. The district areas given by the Surveyor-General differ in varying degrees from those furnished by the Central Survey Office, Madras.

## 9. BELLARY DISTRICT.

Bellary—3A

## 9. BELLARY DISTRICT.

## B—ECONOMIC TABLES.

## B-I—Livelihood Classes and Sub-classes.

This table shows by rural/urban break-up for each census tract in the district the distribution of population, sex wise, among the eight livelihood classes and the three sub-classes, viz., self-supporting persons, non-earning dependants and earning dependants under each livelihood class into which the economic characteristics of the people have been classified under the I.C.E.C. Scheme—vide fly-leaf to Table A.V.

2. The areas comprised in each of the scensus tracts into which this district has been delimited for purpose of census tabulation are given below :—

## Rural Tracts.

## City Tracts.

|                                       |
|---------------------------------------|
| No. 18—Bellary City in Bellary taluk. |
| No. 19—Adoni City in Adoni taluk.     |

3. The livelihood classification is based on the principal means of livelihood of the self-supporting persons, the principal means of livelihood for earning and non-earning dependants being the same as that of the self-supporting persons on whom they are dependant.

4. "The principal means of livelihood" is the means of livelihood which provides the largest or the major part of the income in the case of self-supporting persons who have more than one means of livelihood. In the case of other self-supporting persons, it is the only means of livelihood.

5. A person has been regarded as "Self-supporting" if the income secured by the person is sufficient at least for his (or her) own maintenance at the level of living adopted by him (or her) at the time or the Census. The income secured may be in cash or kind. Anyone who is not a "Self-supporting" person in this sense has been regarded as a dependant. An 'earning' dependant is a person who secures an income which is not sufficient to support him (or her). A person who does not secure any income either in cash or kind, is a 'non-earning dependant.'

6. The non-earning dependants include persons performing housework or other domestic or personal services for other members of the same family household, but do not include "unpaid family workers" or persons who take part along with the members of the family household in carrying on cultivation or a home industry as a family enterprise. These latter persons have been classed as either self-supporting or earning dependants according to the share of income attributable to them.

7. The self-supporting persons shown in Livelihood Class VIII include also persons who derive their income otherwise than through productive activity, i.e., persons coming under the following groups, details for which are given in the fly-leaf to Economic Table B-III :—

- (1) Persons living principally on income from non-agricultural property ;
- (2) persons living principally on pensions, remittances, scholarships and funds ;
- (3) inmates of jails, asylums, alms house and recipients of doles ;
- (4) beggars and vagrants and
- (5) all other persons living principally on income derived from non-productive activity.

## 9. BELLARY DISTRICT.

## 9. BELLARY DISTRICT.

## B-II—Secondary means of Livelihood.

This table gives for the district the number of persons, in each of the eight livelihood classes mentioned in Economic Table B-I, who possess a secondary means of livelihood; and cross classifies them (according to the nature of such means of livelihood) under the same eight livelihood classes.

2. The secondary means of livelihood shown for self-supporting persons is the means of livelihood next in

importance to their principal means of livelihood. In respect of earning dependants, it is the means of livelihood which provides the earning, or the largest part of their income if they have more than one source of income.

3. Non-earning dependants and self-supporting persons who have no secondary means of livelihood are excluded from this table.

| Livelihood classes.                                                                   | Number of persons deriving their secondary means of livelihood from |                 |                          |                 |                     |                 |

## 9. BELLARY DISTRICT.

## B-III—Employers, Employees and Independent workers in Industries and Services by Divisions and Subdivisions.

This table gives figures for each Census tract in the district. The areas comprised in each Census tract denoted by its number in column (1) have been specified in the fly-leaf to Table B-I. In this table the self-supporting persons in the four Non-agricultural Classes given in Economic Table B-I are distributed in the various divisions and subdivisions of Industries and Services under the Indian Census Economic Classification Scheme, according to their secondary Economic Status, namely, Employer, Employee and Independent worker.

2. (An) Employer (is) a person who employs other persons in order to carry on the business from which he secures his livelihood and pays them a salary of wage in cash or kind.

3. (An) Employee (is) a person who ordinarily works for some other person for a salary or a wage, in cash or kind in order to earn his livelihood.

4. (An) Independent worker (is) a person who works on his own without being employed by anyone for a salary or wage and who does not also employ anyone else in order to earn his livelihood.

5. Under the New Indian Census Economic Classification Scheme all Employers and Independent workers have been classified with reference to the commodity produced or services performed by them individually. As regards Employees, all persons engaged in Production, Commerce, or Transport (and not being domestic servants) have been classified with reference to their own activity and without reference to that of their employer. Domestic servants have been classified in one subdivision without reference to the nature of their work. All other Employees (including all managerial and supervisory employees, clerical services, messengers, watchmen and unskilled labour of every description) have been classified with reference to the commodity produced or services rendered by their Employers.

6. The Non-agricultural classes classified in Economic Table B-I, correspond to the divisions and subdivisions into which they are distributed in this table as follows :—

| Livelihood class.                                    | Division and subdivisions of the Indian Census Economic Classification Scheme.                                                                                                                                                                                                                                                                |
|------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (1)                                                  | (2)                                                                                                                                                                                                                                                                                                                                           |
| Class V—Production other than cultivation.           | Division 0—Primary industries not elsewhere specified.<br>Division 1—Mining and quarrying.<br>Division 2—Processing and manufacture of foodstuffs, textiles, leather and products thereof.<br>Division 3—Processing and manufacture—Metals, Chemicals and Products thereof.<br>Division 4—Processing and manufacture—not elsewhere specified. |
| Class VI—Commerce ..                                 | Division 6—Commerce.                                                                                                                                                                                                                                                                                                                          |
| Class VII—Transport ..                               | Subdivisions 7·0 to 7·4 of division 7—Transport, storage and communications.                                                                                                                                                                                                                                                                  |
| Class VIII—Other services and miscellaneous sources. | Division 5—Construction and utilities.<br>Division 7—Transport, storage and communications with the exception of subdivisions 7·0 to 7·4.<br>Division 8—Health, Education and Public Administration; and<br>Division 9—Services not elsewhere specified.                                                                                      |

Class VIII also includes persons who derive their principal means of livelihood from miscellaneous sources (otherwise than through economic activity), e.g., income from investments, pensions and family remittances, proceeds of begging and other unproductive activities. These are not, however, included in this table as it is limited to economically active persons engaged in Industries and Services. Hence there will be a difference to this extent between the total self-supporting persons of the Non-Agricultural class in Economic Table B-1 and the total of this table. The reconciliation will be effected by adding the figures given in the next paragraph.

## 9. BELLARY DISTRICT.

## B-III—Employers, Employees and Independent Workers in Industries and Services by Divisions and Subdivisions.

7. Details of persons who derive their principal means of livelihood otherwise than through productive activity and who are included under livelihood Class VIII mentioned in the fly-leaf to Economic Table B-I are given below:—

## Non-productive means of livelihood.

| Tract No.                | Total.       |              |            | Persons living principally on income from non-agricultural property. |    | Persons living principally on pensions, remittances, scholarships and funds. |           | Inmates of jails, asylums, alms-houses and recipients of doles. |    | Beggars and vagrants. |            | All other persons living principally on income derived from non-productive activities. |            |

9. BELLARY DISTRICT.

SMALL-SCALE INDUSTRIES.

I—Distribution of Small-scale Industries by Tracts.

This table gives for each Census tract, the number of small-scale industrial establishments under categories, non-textile and textile, with details for perennial and seasonal establishments. for sale, use or for disposal. Small mines not covered by the Indian Mines Act have also been included. The table does not include plantation industries of any kind.

2. The table covers only those establishments, to which the Factories Act does not apply. It relates, therefore, to all associate activities, where articles are produced, repaired or otherwise treated B-I. 3. The areas covered by each Census tract in the district denoted by its number in column (1) have been given in the fly-leaf to Table B-I.

56

| Tract No.      | Total number of establishments. |              |       | Number of non-textile establishments.   |                                                         |                                                          |                                  |     | Number of textile establishments.       |                                                         |                                                          |                                  |      |

9. BELLARY DISTRICT.

II—Employment in Textile Establishments.

This table gives for each Census tract the number of persons employed in the textile establishments shown in Table—I. The occupations have been grouped with reference to the scheme of grouping adopted in the Indian Census Economic Classification Scheme. 2. 'Boys' and 'Girls' referred to in the table, refer to persons below 15 years of age. 3. The areas covered by each Census tract in the district have been given in the fly-leaf to Table B-I. NOTE.—The symbols 'W.T.' and 'P.T.' adopted in this table stand for 'Whole Time' and 'Part Time.'

57

Number of persons employed.

## 9. BELLARY DISTRICT.

## INFIRMITY.

## L—Incidence of Leprosy by Livelihood Classes for Taluks.

This table shows for each taluk in the district the incidence of Leprosy among the population, males and females, by the eight livelihood classes.

former refers to clear cases of leprosy while the latter to suspected cases of Leprosy.

3. Information regarding the number of leprosy cases and doubtful cases in each village town of each tract has been given in the appropriate Rural and Urban Statistics.

2. Figures are given separately for Leprosy and Doubtful cases. The

### 9. BELLARY DISTRICT.

**Section (ii).**

### Rural Statistics.

This is an abstract giving a complete list of villages and towns in each taluk in the district with sexwise distribution of population in each livelihood class in the villages alone. Among the other items of statistical information furnished, those relating to occupied houses households, inmates of institutions and houseless persons and literates, were obtained from the National Register of Citizens prepared for each village from the information recorded in the enumeration slips. Village-wise statistics of textile and non-textile establishments collected in the

course of the Census of Small-Scale Industries and the number of leprosy cases and doubtful cases are also given in the abstract.

2. For detailed explanation of the livelihood classes I to VIII see fly-leaf of General Population Table A-V.

3. The areas included in each Census tract in the district has been furnished in the fly-leaf to Table B-I.

4. A list of villages with a population exceeding 5,000 but treated as rural is given as an appendix below.

*List of villages in Bellary district with a population of over 5,000 but treated as rural.*

| Taluk.   |    |    |    | Name of village. |
|----------|----|----|----|------------------|
| Hospet   | .. | .. | .. | Kamalapuram.     |
| Do.      | .. | .. | .. | Dam-site.        |
| Alur     | .. | .. | .. | Holagondi.       |
| Bellary  | .. | .. | .. | Kudithini.       |
| Rayadrug | .. | .. | .. | Kanekallu.       |

9. BELLARY DISTRICT.

Section (iii)

Urban Statistics.

This is an abstract giving in respect of cities and other census towns, ward-wise information under all items given for villages in the Rural Statistics, except that relating to cultivated area. The localities or blocks or wards specified are the divisions of the towns made for purposes of numbering of houses.

9. BELLARY DISTRICT.

Location Code number and name of Town and number of Ward (house numbering locality or block).

Urban Statistics.

| Location Code number and<br>name of Town and number of Ward<br>(house numbering locality or<br>block). | Area in<br>Sq. miles. | Occupied Houses.     |                          | Total number of persons<br>enumerated (including inmates of<br>Institutions and houseless persons). |        |          | Inmates of Institutions<br>and houseless<br>people. |          | Literates. |          |       |

## 9. BELLARY DISTRICT.

## PART II.

## C—HOUSE HOLD AND AGE SAMPLE TABLES.

## C-I—Household (size).

This table has been prepared in respect of a population covering the members of sample households selected from the entries in the National Register of Citizens on the basis of one household for every one thousand households. The sample households selected include roughly every tenth household in every hundredth House numbering Block in the Rural areas and every fiftieth household in every twentieth House-numbering block or locality in Urban areas.

2. The Agricultural and the Non-Agricultural classes refer to the four agricultural and the four non-agricultural classes given in Table A-V. The Backward Classes include

the Scheduled Castes, the Scheduled Tribes and other classes not treated as non-backward by the State Government for the purpose of 1951 Census. Anglo-Indians are included among the non-backward classes.

3. Columns (2) to (5) of the table relate to all the households and house hold population in the entire district while columns (6) to (17) relate to the sample households selected.

4. The figures have been given for each Census Tract denoted by its number in column (1). The areas covered by each Census tract have been given in the fly leaf to Table B-I.

| Tract No.                  | Total number of households. | Total household population.     |                |                | Total number of sample households. | Sample households.              |            |            |

## 9. BELLARY DISTRICT.

## C-II—Livelihood Classes by Age-groups.

This table shows the livelihood distribution by age-groups for Rural, Urban and District totals in respect of a sample population based on a ten per cent sample taken out when the enumeration slips were initially sorted. The ten per cent sample was taken out as follows :—

Each enumeration pad which consisted generally of 100 enumeration slips was broken and the slips relating to displaced persons which had been noticed during the process of the preliminary scrutiny were removed from the pack of slips for being dealt with separately. The pack was then "cut" as in a card-game. The lower portion was placed above the upper portion and the slips were dealt into two pigeon-holes one marked "G" and the other marked "S" as follows :—

The first five slips were placed in the pigeon hole "G", then one slip was placed in the pigeon-hole "S". Thereafter for every nine slips placed in the pigeon-hole "G", one slip was placed in the pigeon-hole "S" until the total number of slips left was less than 9 and these residuary slips were all put into hole "G". All the slips contained in the pigeon-hole marked "S" were taken out, counted and marked as 'Sample' slips.

No smoothing formula has been adopted in preparing the table as in previous Censuses and the figures have been tabulated as actually returned in suitable age-groups.

The figures under age 'O' represent infants below one year.

## 9. BELLARY DISTRICT.

## C-IV—Age and Literacy.

This is yet another table prepared in respect of the ten per cent samples of the general population. (Vide fly-leaf to Table C-II.)

2. Age groups 0 and 1 to 4 given in Table C-II have been combined into one age-group, and the age-group 5 to 14 has been split into two sub-groups 5 to 9 and 10 to 14. Persons of age-group 0 to 4 are treated as illiterate.

3. The figures are given for each census tract denoted by its number in column (1) in the district. The areas covered by each census tract have been specified in the fly-leaf to Table B-II.

4. 'Literates' are those who are able to read and write any simple letter in any language.

5. Persons who are partly literate, i.e., persons who are able to read only, have been included among the illiterates. Details for such persons are given below :—

| Age group.             | Persons.      | Males.        | Females.     |
|------------------------|---------------|---------------|--------------|
| (1)                    | (2)           | (3)           | (4)          |

## 9. BELLARY DISTRICT.

## D-SOCIAL AND CULTURAL TABLES.

## D-I—Languages.

## (i) Mother-tongue.

This table shows for each Census tract in the district, denoted by its number in column (1) the languages spoken as mother tongue and the number of persons speaking each one of them. The areas covered by each census tract have been specified in the fly-leaf to Table B-I.

2. Mother tongue means the language spoken by the person from the cradle. In the case of infants and deaf mutes the mother tongue of the mother is taken as the mother tongue.

Note.—A resorting of the enumeration slips relating to Rural Census tracts Nos. 85, 87, 88 and 92, Non-city Urban tract No. 21 and City tracts Nos. 12 and 13 was done in 1953 for obtaining village-wise figures in regard to the principal mother tongue languages viz Telugu and Kannada for the Taluks of Adoni, Alur, Bellary and Rayadurg. The figures (both male and female) obtained as a result of resorting are as follows :—

- 85 Adoni Rural—Telugu (96,899), Kannada (85,752).  
 87 Alur Rural—Telugu (77,692), Kannada (84,870).  
 88 Bellary Rural—Telugu (28,608), Kannada (73,836).  
 92 Rayadurg Rural—Telugu (60,548), Kannada (34,215).  
 21 Non-city Urban (Kosigi, Yemmiganur and Rayadurg—Telugu (22,989), Kannada (12,037).  
 12 City (Bellary)—Telugu (23,033), Kannada (17,333).  
 13 City (Adoni)—Telugu (18,334), Kannada (8,062).

## D-I—Languages.

## 9. BELLARY DISTRICT.

(ii) *Bilingualism*.

This table shows in detail the extent to which subsidiary languages are used in addition to the mother tongue.

| Mother-tongue.                          |         |         |                                                                                                                                                                      | Total persons returned as speaking a language subsidiary to that shown in column (1). | Subsidiary Language. |

## D-II—Religion.

This table shows for each census tract denoted by its number in column (1) the distribution of population sex-wise among the major religions, namely, Hindus, Sikhs, Jains, Buddhists, Zoroastrians, Muslims, Christians and Jews. The other religions are classified into tribal and non-tribal and only the totals are given in the table.

2. The areas comprised in each Census tract have been specified in the fly-leaf to Table B-I.

| Tract No.      | Total population. |           |          |         | Hindus.     |          | Sikhs. |          | Jains.  |          | Buddhists.  |          |

## BELLARY DISTRICT.

## D-VI—Non-Indian Nationals.

This table relates to "Nationality", i.e., citizenship status, and furnishes sex-wise figures of non-Indian Nationals enumerated in each tract in the district.

2. The areas included in each census tract denoted by its number in column (1) have been given in the fly-leaf to Table B-I.

| Tract No.<br>(1)         | Total.          |               |                 | Pakistan.     |                 | British.      |                 | Scottish.     |                  |
|--------------------------|-----------------|---------------|-----------------|---------------|-----------------|---------------|-----------------|---------------|------------------|
|                          | Persons.<br>(2) | Males.<br>(3) | Females.<br>(4) | Males.<br>(5) | Females.<br>(6) | Males.<br>(7) | Females.<br>(8) | Males.<br>(9) | Females.<br>(10) |

## 9. BELLARY DISTRICT.

## D. VII—Livelihood Classes by Educational Standards.

This table shows the distribution of the literate population sex-wise among the eight livelihood classes by educational standards, separately for each census tract

(vide fly-leaf to Table B-I) in the district as well as for the district.

2. A person who can read and write a simple letter in any language has been treated as literate.

| Educational Standard.<br>(1)                                    | Total.          |               |                 | Agricultural classes.                                               |                 |                                                                        |                 |                                                  |                  |
