INTRODUCTION
TO
VISAKHAPATNAM DISTRICT

I. (a) *Situation and physical characteristics.*—The new Visakhapatnam district is the southern half of the Old Visakhapatnam district, the northern half having been constituted into a new district called Srikakulam in 1950. It lies between 17° 10' and 18° 25' of the northern latitude and 81° 50' and 83° 55' of the eastern longitude. The district is elongated from north-east to south-west. It is bounded on the north by the Orissa State and Srikakulam districts, on the east by the Bay of Bengal, on the south by the Bay of Bengal and the East Godavari district and on the west by the Orissa State. The district consists of the following Revenue divisions comprising the taluks noted against each of them :—

Name of the revenue division.	Headquarters of the division.	Name of taluks comprised in the division.	Area of taluk. sq. MILES.	Headquarters of the taluk.
Vizianagaram	Vizianagaram	Bheemunipatnam	337	Bheemunipatnam.
		Vizianagaram	359	Vizianagaram.
		Srungavarapukota { Agency Plains	282 375 }	Srungavarapukota.
		Visakhapatnam	196	Visakhapatnam.
Narasapatam	Narasapatam	Golugonda { Agency Plains	188 328 }	Narasapatam.
		Gudem (Agency)	1,869	Chintapalli.
		Sarvasidhi	347	Yellamanchili.
		Veeravalli { Agency Plains	261 233 }	Chodavaram.
		Anakapalle	304	Anakapalle.
Total			5,179	

The taluks of Bheemunipatnam, Visakhapatnam, Anakapalle and Sarvasidhi are situated on the coast.

The district consists of two natural divisions namely the agency areas and the plains. The agency tracts consist of the hilly regions covered by the Eastern Ghats which run parallel to the coast from the north-east to the south-west and are situated in the interior of the district. They comprise the taluks of Gudem and parts of the taluks of Golugonda, Srungavarapukota and Veeravalli. Portions of Vizianagaram and Visakhapatnam taluks and the northern portion of Sarvasidhi taluk also contain hills. The plains consist of the rest of the district. The hills of the Eastern Ghats are of an average height of 3,000 feet with several peaks over 4,000 feet. The chief peak is Sinkaram 5,300 feet in Srungavarapukota taluk. Between this main hill and the low country intervene ranges of lower foot hills among which there are secluded valleys. Along the shores lie a series of salt, or sandy swamps.

(b) *Rivers.*—The river Machkund rises in the Madugula Hills in Gudem taluk and flows nearly north at first and then turns westwards into the Orissa State. There is a water fall in the river at Doduma. The waters of the falls are being harnessed for production of electricity.

The river Champavathi called also Gosthani rises in the Galikonda hills flows through Srungavarapukota, Vizianagaram and Bheemunipatnam taluks and enters the sea near Konada Salt factory.

The river Sarada rises in Madugula hills, flows through Veeravalli, Anakapalle and Sarvasidhi taluks and enters the sea at Vatada.

The Varahandi rises in the Golugonda hills flows through Bolugonda and Saravasidhi taluks and enters the Bay of Bengal at Vatada. The other rivers flowing in the district are (1) Meghadrigedda flowing in Visakhapatnam, (2) Sarugudu Gedda and Tanda rivers flowing in Golugonda.

The other district roads and village roads are passable only in dry weather and require improvements. The road communications for villages are inadequate. The municipal roads are in good condition and the National Highways and major district roads are in fair condition.

(ii) *Railways*.—There are 58½ miles of Broad Gauge section of the Southern Railway and 69 miles (Broad Gauge) of the Eastern railway in the district. The Madras-Calcutta line traverses the taluks of Sarvasidhi, Anakapalle, Srungavarapukota, Vizianagaram, Visakhapatnam and Bheemunipatnam. A branch line connects Visakhapatnam with Waltair on the main line. Another branch line takes off from Vizianagaram to Raipur via Bobbili in Srikakulam district.

(iii) *Posts and Telegraphs*.—A taluk wise distribution of the branch post offices, sub-post offices and post and telegraph offices in the district is furnished below :—

II. (a) (i) *Growth of population*.—The particulars of population of the district and taluks in 1941 and 1951 and the percentage of variation are furnished below :—

Name of the district and taluk.	Population.		Percentage of variation.
	1941.	1951.	
Visakhapatnam district ..	1,832,246	2,072,698	13.1
Agency—			
Gudem	102,098	109,521	7.3
Srungavarapukota ..	32,231	38,649	19.9
Veeravalli	7,344	7,340	— 0.1
Golugonda	22,812	24,595	7.8
Plains—			
Srungavarapukota ..	174,958	187,108	6.9
Vizianagaram	257,513	291,405	13.2
Bheemunipatnam ..	220,046	232,619	5.7
Veeravalli	259,460	280,654	8.2
Visakhapatnam	161,287	231,907	43.8
Golugonda	177,713	197,132	10.9
Anakapalle	202,520	229,835	13.5
Sarvasidhi	214,264	241,933	12.9

“The district increase is 13.1 per cent. The plains portion has shown an increase of 13.5 per cent while the agency portion has registered an increase of 9.5 per cent. Visakhapatnam taluk has shown an increase of 43.8 per cent. The circumstances, which have led to the appreciable increase of population in

this district are, the growth of Visakhapatnam town, which has a harbour and a ship-building yard employing a large number of labourers, the development of the Agency Tracts and the return of the emigrants from Burma. Bheemunipatnam has recorded only an increase of 5.7 per cent, as it is a dry and backward taluk, and owing to food scarcity there has been emigration. The coastal taluks of Visakhapatnam, Anakapalle and Sarvasidhi are about the average of upland areas in the Northern Circars. The interior taluks are not so well off, while further west, there are the Agency Tracts, which are very hilly and malarious. These explain the variations in the growth rates in the taluks of this district. The large increase of 19.9 per cent in the Srungavarapukota agency is due to the colonization of Araku valley, prompted by the Government and large road works which attracted labourers from the plains and even from other districts. The Golugonda and Gudem agencies show moderate increases of 7.8 per cent and 7.3 per cent, respectively while the population in the Veeravalli agency is practically stationary. (It has shown a decrease of 4 persons).”

(Extracted from the Census Report Part I.)

(ii) *Vital statistics*.—A statement showing particulars of births and deaths and deaths due to various causes in the district for the decennium 1941—1950 is furnished in *Annexure II*.

The average birth rate of 31.3 per mille recorded during the decade differs little from the average rate of 31.7 for the State. The average death rate of 23.1 per mille is however higher than that for the State 21.2. The yearly birth rates have not varied much from the average. The death rates have been coming down gradually from year to year. The mortality from fevers is considerably higher than in other districts, the average mortality rate from this cause during the decade in the district and in the State being 9.9 and 5.4 per mille respectively. Fevers cause on the average 43 per cent of the total deaths. A noticeable fall in the fever mortality is however recorded since the high rate of 12.2 per mille in 1944. The average death rates from other causes are less than the average for the State. The average maternal mortality rate was 7.2 for 1,000 births as against 8.1 for the State and the annual rates tend to decrease.

Section (i)

A—GENERAL POPULATION TABLES.

A-I—Area, Houses and Population.

This table shows for the rural and urban areas of each taluk and for the district, the area, the number of inhabited villages and towns, occupied houses and the total population with distribution by sex.

2. The district area shown in column (2) of this table is that supplied by the Surveyor-General of India. Area figures furnished by the Central Survey Office, Madras, have been adopted for the taluks. The total area of the taluks as furnished by the Central Survey Office, Madras, shown within brackets in column (2), differs from the area of the district furnished by the Surveyor-General.

3. "Village" is the revenue administrative unit within defined boundaries. This table gives particulars in respect of all villages containing one or more groups of habitations. Villages with no habitations are not included in this table.

4. "Town" is a place of usually not less than 5,000 inhabitants, possessing distinct urban characteristics. Cantonments have been treated as forming part of the towns in which they are situated.

5. "House".—Every dwelling with a separate main entrance has been treated as a house for census purposes.

1-A. VISAKHAPATNAM DISTRICT.

A-IV—Cities and Towns classified by Population with variations since 1901.

This table shows the population and distribution of sex of Cities and Towns of the district at each of the last six enumerations.

2. The following towns have been treated as cities for the 1951 Census :—

(1) Visakhapatnam and (2) Vizianagaram.

3. The cities and towns have been arranged in this table according to their population in 1951 under the following six classes :—

Class.	Limits of population.
I	100,000 and over.
II	50,000 to 100,000.
III	20,000 to 50,000.
IV	10,000 to 20,000.
V	5,000 to 10,000.
VI	Under 5,000.

4. Where possible, the former population of places treated for the first time as towns in 1941 and at this Census, has been extracted from Village Statistics. Where this could not be done, the columns have been left blank.

5. The population of towns for previous Censuses are those then recorded. No adjustments have been made for intervening changes in area.

6. Municipality, Panchayat and Cantonment are indicated by the use of the letters (M), (P), (C), respectively, within brackets.

7. Towns newly appearing at this Census have been printed in *italics*.

1-A. VISAKHAPATNAM DISTRICT.

A-V—Towns arranged talukwise with Population by Livelihood Classes.

This table shows the analysis of the Urban population in towns by livelihood classes, instead of by communities as in the previous censuses.

2. Under the Indian Census Economic Classification Scheme, the people have been divided into two broad livelihood categories, viz., the Agricultural Classes and the Non-agricultural classes. There are four Agricultural classes and four Non-agricultural classes as shown below :—

(i) *Agricultural Classes.*

- I. Cultivators of land wholly or mainly owned ; and their dependants.
- II. Cultivators of land wholly or mainly unowned ; and their dependants.
- III. Cultivating labourers ; and their dependants.
- IV. Non-cultivating owners of land ; agricultural rent receivers ; and their dependants.

(ii) *Non-Agricultural Classes.*

Persons (including dependants) who derive their principal means of livelihood from—

- V. Production (other than cultivation).
- VI. Commerce.
- VII. Transport.
- VIII. Other services and miscellaneous sources.

3. In this table the figures for the agricultural livelihood classes I to III are not given separately but have been clubbed together.

4. The towns in each taluk of the district are arranged in the order of their population as in Table A-IV.

5. Municipality, Panchayat and Cantonment are indicated by the use of the letters (M), (P), (C), respectively, within brackets.

6. For the definition of a "Town" see fly-leaf to Table A-I.

7. Towns newly appearing at this Census have been printed in *italics*.

1-A. VISAKHAPATNAM DISTRICT.

E—Summary figures by Taluks.

The data contained in this table have been given for each taluk in the district.

2. The areas shown in column (2) of the table for the district and the taluk 'total' are the latest figures furnished by the Central Survey Office, Madras. The areas given for 'urban' are those furnished by the District Officers. The areas for 'rural' have been obtained by deducting the figures for 'urban' from those for district and taluk 'total'.

3. The district area furnished by the Surveyor-General, India, which has been shown in Table A-I, could not be adopted in this table as Taluk-wise figures have not been furnished by him. The district areas given by the Surveyor-General differ in varying degrees from those furnished by the Central Survey Office, Madras.

4. Previous census figures of population have been adjusted with reference to inter district transfers. The rural and urban population figures have been taken as they were at the 1941 and 1931 Censuses and as they are at the present Census, regardless of the changes of rural areas into urban areas and *vice versa* from Census to Census, for the purpose of calculating percentage variation between 1931 and 1941 and between 1941 and 1951. For calculating density for 'rural' and 'urban' for 1941, the areas of the towns newly formed at the present Census rounded to the nearest square mile have been deducted from the areas given for urban in column (2) for 1951 and added to the areas given for 'rural', in the districts and taluks where new towns have been recognised.

5. In respect of Gudem (Agency) and Srungavarapu kota (Agency) taluks which have no urban areas, the figures represent the totals alone.

1-A. VISAKHAPATNAM DISTRICT.

B—ECONOMIC TABLES.

B-I—Livelihood Classes and Sub-classes.

This table shows by rural/urban break-up for each census tract in the district the distribution of population, sexwise, among the eight livelihood classes and the three sub-classes, viz., self-supporting persons, non-earning dependants and earning dependants under each livelihood class into which the economic characteristics of the people have been classified under the I.C.E.C. Scheme—vide fly-leaf to Table A-V.

2. The areas comprised in each of the Census tracts into which this district has been delimited for the purposes of census tabulation are given below :—

City Tracts.

No. 1.—Vizianagaram city in Vizianagaram taluk.

No. 2.—Visakhapatnam city in Visakhapatnam taluk.

3. The livelihood classification is based on the principal means of livelihood of the self-supporting persons, the principal means of livelihood for earning and non-earning dependants being the same as that of the self-supporting persons on whom they are dependant.

Visak.—5

4. "The principal means of livelihood" is the means of livelihood which provides the largest or the major part of the income in the case of self-supporting persons who have more than one means of livelihood. In the case of other self-supporting persons, it is the only means of livelihood.

5. A person has been regarded as "self-supporting" if the income secured by the person is sufficient at least for his (or her) own maintenance at the level of living and adopted by him (or her) at the time of the Census. The income secured may be in cash or kind. Anyone who is not a "self-supporting" person in this sense has been regarded as a dependant. An 'earning' dependant is a person who secures an income which is not sufficient to support him (or her). A person who does not secure any income either in cash or kind, is a 'non-earning dependant'.

6. The non-earning dependants include persons performing housework or other domestic or personal services for other members of the same family household, but do not include "unpaid family workers" or persons who take part along with the members of the family household in carrying on cultivation or a home industry as a family enterprise. These latter persons have been classed as either self-supporting or earning dependants according to the share of income attributable to them.

7. The self-supporting persons shown in livelihood Class VIII include also persons who derive their income otherwise than through productive activity, i.e., persons coming under the following groups, details for which are given in the fly leaf to Economic Table B-III :—

(1) Persons living principally on income from non-agricultural property ;

(2) Persons living principally on pensions, remittances, scholarships and funds ;

(3) Inmates of jails, asylums, alms houses and recipients of doles ;

(4) Beggars and vagrants ; and

(5) All other persons living principally on income derived from non-productive activity.

1-A. VISAKHAPATNAM DISTRICT.

B-II—Secondary means of Livelihood.

This table gives for the district the number of persons, in each of the eight livelihood classes mentioned in Economic Table B-I, who possess a secondary means of livelihood; and cross classifies them (according to the nature of such means of livelihood) under the same eight livelihood classes.

2. The secondary means of livelihood shown for self-supporting persons is the means of livelihood next in importance to their principal means of livelihood. In respect of earning dependants, it is the means of livelihood which provides the earning or the largest part of their income if they have more than one source of income.

3. Non-earning dependants] and self-supporting persons who have no secondary means of livelihood are excluded from this Table.

1-A. VISAKHAPATNAM DISTRICT.

B-III—Employers, Employees and Independent Workers in Industries and Services by Divisions and Subdivisions.

This table gives figures for each Census tract in the district. The areas comprised in each Census tract denoted by its number in column (1) have been specified in the fly-leaf to Table B-I. In this table the self-supporting persons in the four Non-agricultural Classes given in Economic Table B-I are distributed in the various divisions and subdivisions of Industries and Services under the Indian Census Economic Classification Scheme, according to their Secondary Economic Status, namely, Employer, Employee and Independent Worker.

2. (An) Employer (is) a person who employs other persons in order to carry on the business from which he secures his livelihood and pays them a salary or wage in cash or kind.

3. (An) Employee (is) a person who ordinarily works for some other person for a salary or a wage, whether in cash or in kind in order to earn his livelihood.

4. (An) Independent worker (is) a person who works on his own without being employed by anyone for a salary or wage and who does not also employ anyone else in order to earn his livelihood.

5. Under the New Indian Census Economic Classification Scheme all Employers and Independent Workers have been classified with reference to the commodity produced or services performed by them individually. As regards Employees, all persons engaged in Production, Commerce or Transport (and not being domestic servants) have been classified with reference to their own activity and without reference to that of their employer. Domestic servants have been classified in one subdivision without reference to the nature of their work. All other Employees (including all managerial and supervisory employees, clerical services, messengers, watchmen and unskilled labour of every description) have been classified with reference to the commodity produced or services rendered by their Employers.

6. The Non-agricultural Classes classified in Economic Table B-I, correspond to the divisions and subdivisions into which they are distributed in this table as follows :—

Livelihood class.	Division and subdivisions of the I.C.E.C. Scheme.
<i>Class V.—Production other than cultivation.</i>	Division 0.—Primary Industries not elsewhere specified. Division 1.—Mining and Quarrying. Division 2.—Processing and Manufacture of Foodstuffs, Textiles, Leather and Products thereof. Division 3.—Processing and Manufacture—Metals, Chemicals and Products thereof. Division 4.—Processing and Manufacture—Not elsewhere specified.
<i>Class VI.—Commerce</i> ..	Division 6.—Commerce.
<i>Class VII.—Transport</i> ..	Subdivisions 7-0 to 7-4 of Division 7.—Transport, Storage and Communications.
<i>Class VIII.—Other services and miscellaneous sources.</i>	Division 5.—Construction and Utilities. Division 7.—Transport, Storage and Communications with the exception of subdivisions 7-0 to 7-4. Division 8.—Health, Education and Public Administration. Division 9.—Services not elsewhere specified.

Class VIII also includes persons who derive their principal means of livelihood from miscellaneous sources (otherwise than through economic activity), e.g., income from investments, pensions and family remittances, proceeds of begging and other un-productive activities. These are not, however, included in this table as it is limited to economically active persons engaged in Industries and Services. Hence there will be a difference to this extent between the total self-supporting persons of the Non-agricultural Class in Economic Table B-I and the total of this table. The reconciliation will be effected by adding the figures given in the next paragraph.

1-A. VISAKHAPATNAM DISTRICT.

Section (ii)

Rural Statistics.

This is an abstract giving a complete list of villages and towns in each taluk in the district with sex-wise distribution of population in each livelihood class in the villages alone. Among the other items of statistical information furnished, those relating to occupied houses, households, inmates of institutions and houseless persons and literates were obtained from the National Register of Citizens prepared for each village from the information recorded in the enumeration slips. Village-wise statistics of textile and non-textile establishments collected in the

course of the Census of Small-scale Industries and the number of leprosy cases and doubtful cases are also given in the abstract.

2. For detailed explanation of the livelihood classes I to VIII see fly-leaf of general population Table A-V.

This table shows the livelihood distribution by age-groups for rural, urban and district totals in respect of a sample population based on a ten per cent sample taken out when the enumeration slips were initially sorted. The ten per cent sample was taken out as follows:—

Each enumeration pad which consisted generally of 100 enumeration slips was broken and the slips

by Age-groups.

The first five slips were placed in the pigeon-hole "G" then one slip was placed in the pigeon-hole "S". Thereafter for every nine slips placed in the pigeon-hole "G", one slip was placed in the pigeon-hole "S" until the total number of slips left was less than 9 and these residuary slips were all put into hole "G". All the slips contained in the pigeon-hole

marked "S" were taken out, counted and marked as "Sample" slips.

No smoothing formula has been adopted in preparing the table as in previous Censuses and the figures have been tabulated as actually returned in suitable age-groups.

The figures under age "0" represent infants below one year.

C-IV—Age and Literacy.

This is yet another table prepared in respect of the ten per cent samples of the general population (vide fly-leaf to Table C-II.)

2. Age groups 0 and 1 to 4 given in Table C-II have been combined into one age group, and the age group 5 to 14 has been split into two sub-groups 5 to 9 and 10 to 14. Persons of age-group 0 to 4 are treated as illiterate.

3. The figures are given for each Census tract denoted by its number in column (1) in the district

but not analysed by religion as in previous Censuses. The areas covered by each Census tract have been specified in the fly-leaf to Table B-I.

4. 'Literates' are those who are able to read and write any simple letter in any language.

5. Persons who are partly literate, i.e., persons who are able to read only, have been included among the illiterates. Details for such persons are given below :—

2. The circumstances leading to the substitution of revised figures are briefly as follows:—

At the time of sorting the enumeration slips in 1951, the sorters were given a list of the 77 Scheduled Castes shown in Roman type in the list in paragraph (ii) below. No instructions were given to the sorters as to how the slips were to be treated in the case of persons who returned themselves by a generic Scheduled Caste name such as Harijan or Depressed Class or Adivasi or by a recognised synonym such as Pulacheruman, Eralan, Kudan, Rolan, Alen, Paramban (for Cheruman), with the result that sorters in Tabulation Offices classified the communities according to their own interpretation. Consequently, a number of Scheduled Caste members who had returned themselves by generic names or by synonymous names were left out of the Scheduled Castes count. This situation came to the notice of the Government of India, who decided after careful consideration that persons who had returned themselves by generic or synonymous Scheduled Caste names should be counted as Scheduled Castes and that the Census Tables already published should be revised, where necessary, to show the correct position. In order to arrive at the correct figures of Scheduled Castes population a fresh sorting of the 1951 Census slips was accordingly organised in Madras.

(ii) Before commencing the sorting a list of synonymous names, (i.e.) names synonymous with those of the communities published in the 'Constitution (Scheduled Castes) Order, 1950' was prepared in consultation with the Collectors of districts and sent to the State Government.

of Madras and Andhra for acceptance. The list as finally accepted by the State Governments was got approved by the Government of India. Castes printed in Roman characters in the list below have been declared to be scheduled Castes in the composite Madras State (as it existed before the formation of the Andhra State) by the Constitution (Scheduled Castes) Order, 1950 issued by the President under Article 341 (1) of the Constitution of India. The names in *italics* represent the synonyms of the names printed above them in Roman characters. The approved generic names adopted are the three names, Harijan, Depressed Class and Adivasi shown under Generic names, in the list below:—
