PART—IV**Panchayat Union Blocks and Village Directory**

VILLAGE DIRECTORY

INTRODUCTION :

This is an abstract giving a complete list of all villages and towns in each taluk in the district along with the distribution of population by sex and various categories of workers. Villagewise statistics embodying the results of Census were first compiled and published in 1872 and this has been the regular feature of every Census except in 1941 when owing to war conditions no villagewise data was tabulated. The particulars however were restricted to total population by sex and religion. A radical change was introduced in 1951 when population was classified into various livelihood classes in each village. In the case of Urban areas, data was presented in respect of each ward, locality or division. But in 1961 Census information has been compiled for each enumerator's block in the case of urban areas. Consequent on the shift in emphasis from income or economic independence, in earlier censuses, especially in 1951, to actual work, irrespective of remuneration, the livelihood classes shown in the rural statistics of 1951 have undergone a complete change, giving place to 10 important categories as indicated below :

- I. Working as Cultivator
- II. Working as Agricultural Labourer
- III. Working in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities
- IV. Working at Household Industry
- V. Working in Manufacturing other than Household Industry
- VI. Working in Construction
- VII. Working in Trade and Commerce
- VIII. Working in Transport, Storage and Communications
- IX. Working in Other Services
- X. Non-workers

Apart from the above major difference between the 1951 villagewise particulars and the present scheme, the other minor deviation is the omission of particulars of 'Institutional and Houseless population' from the list though talukwise information has been tabulated and shown elsewhere. The proportion of such houseless and institutional population to total population is infinitesimal in the case of all towns having a population of less than 2-3 lakhs that omission of this data does not in any way minimise the value of this publication.

Apart from these particulars certain additional and special particulars have been incorporated. In order to assess the extent to which the basic amenities are available in every village which go to make it self-contained and self-sufficient, villagewise particulars regarding the availability of educational, medical, irrigational

and other facilities were called for from the Tahsildars and Block Development Officers and incorporated in the Table. The development activities in rural areas are reflected in the existence of Primary schools, Middle schools, High schools, higher institutions including Colleges, Dispensaries, Rural health centres and Hospitals, Maternity and child welfare centres, Post Offices, etc. These data have been shown immediately next to the names of villages in suitable notations, the explanations for which are given at the end.

Apart from this information, a few statements have been prepared based on authentic sources as indicated below :—

STATEMENT—I

Prior to enumeration in March, 1961, a detailed listing of all houses was conducted in October, 1960 when essential data relating to industrial establishments were collected, the complete details of which have been presented in a separate volume entitled 'Housing Report and Tables'. But the volume is restricted to districtwise particulars relating to industries classified by number of persons working, kind of fuel used, etc. It was felt that the types of industries existing in each village would provide valuable information and therefore villagewise lists of industries classified according to Indian Standard Industrial Classification are presented in this statement. Only the total number of units in each of the different types of industry is furnished for each village. But in the case of urban areas similar information has been furnished only in respect of towns with a population of over 50,000 and for urban sectors of the taluks as a whole.

STATEMENT—II

This refers to the type of soil and type of terrain viz. whether hilly, river basin, high or low, sources of irrigation, important wet and dry crops and the value of such lands. Since it is too cumbersome to present the data for each village, figures have been presented for convenient groups of villages selected by geographical and geological contiguity.

An alphabetical list of villages and another list of Panchayat Union Blocks with their population are also presented separately for each taluk.

STATEMENT—I

INDUSTRIAL ESTABLISHMENTS

For the convenience of the reader this statement is presented in the following manner. Initially the total number of establishments in the District, both Rural & Urban is furnished. Then figures are separately indicated for urban areas of each taluk. Next, we have presented the figures for the urban areas, having population more than 50,000 in each taluk of the District. Lastly, we have given the total figures for industrial establishments for rural areas in each taluk followed by the figures for every village in the taluk.

Figures in brackets indicate the total number of establishments pertaining to the type for which the industrial code number is given. Readers are invited to refer to the industrial classification given at the end of this statement which furnish the key to this code.

PART V

Official and Administrative Statistics

OFFICIAL STATISTICS

The pages that follow present authentic official statistics on various items furnished by Government Departments and other administrative organisations. In order to make a comparative study of the position that prevailed in 1951 with that on the eve of the recent census possible, an attempt has been made to present data for the decade 1951-1961. The official statistics have been compiled under seven distinct heads viz:—

I. Agriculture, Animal Husbandry and Irrigation.

II. Industry and Labour.

III. Education.

IV. Public Health and Medical.

V. Law and Order.

VI. Communication.

VII. Miscellaneous.

I. Agriculture, Animal Husbandry and Irrigation:—

Information on various factors that influence agriculture have been presented under this head. Statistics on Temperature, rainfall, land utilisation, irrigated area, irrigation schemes, animal husbandry etc. appear under this head. Temperature recordings upto 1957 are in Farenheit and since 1957 in Centigrade. Farenheit could be converted into Centigrade as follows $C = F (5/9 - 32)$. Data on irrigation schemes have been presented separately for each plan period. Table 3 under this head presents data on classification of area under six different heads viz. Forests, area not available for cultivation, cultivable area other than current fallows, net area under cultivation and acreage under crops. The area not available for cultivation includes uncultivable lands and land put to non-agricultural purposes. The cultivable area other than current fallows include cultivable waste, permanent pastures, other grazing lands, land under miscellaneous tree crops and other fallows. Though information is furnished under Table 3, 4 and 5 from 1905—1906 onwards till 1959—

1960 the figures are not quite comparable due to alterations in the jurisdiction of the district.

II. Industries and Labour:—

Statistical data on industrial growth i.e. increase in the number of establishments and rise in labour force have been presented in the form of three Tables. Information on the service rendered by the Employment Exchange Office in the district have been incorporated. This will further give an idea regarding the depth of unemployment prevailing in the region.

III. Education:—

The Tables presented under this head will trace the development of education in the district. Information on Schools, Colleges, Technical institutions and oriental schools and colleges also are furnished.

IV. Public Health and Medical:—

Detailed monthly statistics of registered births, deaths, information on Anti-adulteration activities and details of medical facilities available in the district are furnished.

V. Law and Order:—

Information on the strength of police force, crimes detected, cases prosecuted etc. and other related information including location of police stations lockups etc. are furnished under this head.

VI. Communication:—

Under this head are furnished data on road mileage, railway stations, post and telegraph facilities, Motor Vehicles in the district and facilities for tourists like tourist bungalows, etc.

VII. Miscellaneous:—

Valuable information on Revenue receipts, ancient monuments both protected and non-protected, banking and insurance etc. are furnished here.
