CENSUS OF INDIA 1961—UNION PUBLICATIONS

PART I	General Report on the Census, sub-divided into :
PART I-A	General Report
PART I-A(i) Text	Levels of Regional Development in India
PART I-A(ii) Tables	Levels of Regional Development in India
PART I-B	Vital Statistics of the decade
PART I-C(i)	Subsidiary Tables (A-I,1 to B-IX,3)
PART I-C(ii)	Subsidiary Tables (B-X,1 to D-V,1)
PART II	Census Tables on Population, sub-divided into :
PART II-A(i)	General Population Tables
PART II-A(ii)	Union Primary Census Abstracts
PART II-B(i)	General Economic Tables (B-I to B-IV)
PART II-B(ii)	General Economic Tables (B-V)
PART II-B(iii)	General Economic Tables (B-VI to B-IX)
PART II-C(i)	Social and Cultural Tables
PART II-C(ii)	Language Tables
PART II-C(iii)	Migration Tables (D-I to D-V)
PART II-C(iv)	Migration Tables (D-VI)
PART III	
PART III (i)	Household Economic Tables (14 States)
PART III (ii)	Household Economic Tables (India, Uttar Pradesh & Union Territories)
PART IV	
PART IV-A(i)	Housing Report
PART IV-A(ii)	Report on Industrial Establishments
PART IV-A(iii)	House Types and Village Layouts
PART IV-B	Housing & Establishment Tables
PART V	Special Tables of Scheduled Castes & Scheduled Tribes and Ethnographic Notes, sub-divided into :
PART V-A(i)	Special Tables for Scheduled Castes
PART V-A(ii)	Special Tables for Scheduled Tribes
PART V-B	Ethnographic Notes
PART VI	Village Survey Monographs
PART VII	Monographs on Rural Crafts Survey and list of Fairs and Festivals
PART VII-A	Handicraft Survey Monograph
PART VII-B	Fairs and Festivals
PART VIII	Administration Report
PART VIII-A	Administration Report (Enumeration)
PART VIII-B	Administration Report (Tabulation)
PART IX	Census Atlas Volume
PART X	Special Reports on cities with Population of 1 million and over

Fly-leaf		611
B-IX.3	Distribution of 1,000 persons not at work by sex and 1,000 non-workers of each sex by type of activity	612-617

INTRODUCTION

This volume contains the Subsidiary Tables which express the data of the Main Tables of the 1961 Census in terms of percentages or proportions. In all 77 Subsidiary Tables, based on the main tables of A, B, C and D series have been prepared. Due to the enlarged programmes of tabulation undertaken in the present Census, a large number of Subsidiary Tables have been prepared and split into two parts *viz.*, Part I-C(i) and Part I-C(ii) making two independent volumes. The first part contains the tables pertaining to the General Population Tables and General Economic Tables and the second part relates to Household Economic Tables, Social and Cultural Tables and Migration Tables. The Subsidiary Tables to E Series *i.e.*, Housing and Establishments Tables have been published alongwith the main Tables in Volume I India Part IV-B. No Subsidiary Tables have been prepared for the tables of SCT/SC/ST series. Apart from these, two Subsidiary Tables of the B Series *viz.*, B-1.6(i) Working force in India by Broad Industrial Categories from 1911-1961, (ii) Workers per 1,000 population in each State and per 1,000 distribution of workers in Industrial Categories from 1901/1911-1961 and B-II.3(i) Workers in each City and Comparison of workers in Industrial Categories from 1901-1961, (ii) Workers per 1,000 population in each city and comparison of workers in Industrial Categories from 1901-1961, appear in a separate volume, Census of India, Paper No. 1 of 1967.

2. While the main Census Tables give the absolute figures of the various characteristics of the population in each Administrative Division, the Subsidiary Tables give the corresponding proportions of these various characteristics per 100, 1,000 or 10,000 as the case may be. These tables have been specially prepared to facilitate study of composition or distribution of population and comparison or correlation of various characteristics between States or from one Census to another. These tables thus highlight the main characteristics of each such unit which cannot be had at a glance from the absolute figures.

3. The Fly-leaf preceding each table is by way of an explanatory note which elucidates the general lay-out of the table and the method used in calculating the figures, wherever necessary. Besides, it indicates the source of the data appearing in the table.

4. The 77 Subsidiary Tables are based on the main tables of 1961 Census and their distribution Series-wise is as under :

1. A Series—Subsidiary Tables to General Population Tables

There are nine Subsidiary Tables in this Series. All are prepared from the General Population Tables of 1961 Census published in Volume I—India Part II-A(i). Five Tables are based on Table A-I, one each on Table A-II & A-III and two on Table A-IV. Out of nine Subsidiary Tables five tables furnish the

material for earlier censuses and the remaining three tables *viz.*, A-I.1, A-III.1 and A-IV.1 show the distribution of population etc.

2. B Series—Subsidiary Tables have been divided into two parts. The first part is made up of the Subsidiary Tables to General Economic Tables and the second part the Subsidiary Tables to the Household Economic Tables

(i) The first part includes 33 Subsidiary Tables prepared from the General Economic Tables published in Volume I—India Part II-B(i), (ii), & (iii). These tables show the proportion and distribution of population etc. per 1,000 and 10,000 cross-classified with the important characteristics appearing in the Main Tables. The number of Subsidiary Tables based on each General Economic Tables is as follows:—

Main Tables	Number of Subsidiary Tables
B-I	6
B-II	3
B-III Part A	3
B-III Part B	2
B-IV	9
B-V	1
B-VI	1
B-VII Part A	3
B-VIII Part A	1
B-VIII Part B	1
B-IX	3
TOTAL	33

Of these 33 Subsidiary Tables, two tables *viz.*, B-1.6 and B-II.3 are being published in a separate volume as mentioned above. No Subsidiary Table has been prepared from Table B-VII Part B.

(ii) This portion of the Subsidiary Tables contains 12 Subsidiary Tables based on Household Economic Tables of the 1961 Census presented in Part III(i) & Part III(ii) of Volume I, India. Whereas the main tables present absolute figures for India, States and Union Territories and Other Areas on various economic characteristics of the household, the Subsidiary Tables present the same figures in term of percentage or distribution per 1,000, to facilitate comparison of various characteristics of one unit of presentation with another.

(vi)

The data in respect of economic activities of each household was collected through Household Schedule for the first time in 1961 in the history of Indian Census. The information on two chief economic activities of the household *viz.*, Household Cultivation and Household Industry was collected in Household Schedules. This information was used for preparation of Household Economic Tables, which present data for 20% sample of the households drawn for rural and urban areas separately (except for Andaman & Nicobar Islands and Dadra & Nagar Haveli for which all the Schedules were tabulated, but the India figures include 20% sample of households for these areas as well). Household Schedule was not canvassed in Goa, Damán & Diu and NEFA. Thus the India figures exclude these areas. The material presented in these Subsidiary Tables is based on the data presented in the Household Economic Tables.

The Subsidiary Tables based on Household Economic Tables are :—

Main Tables		Subsidiary Tables
B-X	B-X.1	Distribution of 1,000 sample households (i) engaged neither in cultivation nor household industry (ii) engaged either in cultivation or household industry but not in both and (iii) engaged both in cultivation and household industry for all areas.
B-XI	B-XI.1	Distribution of 1,000 sample households engaged in cultivation by interest in land and size of land cultivated in rural areas only.
B-XII & B-XIII	B-XII.1	Distribution of 1,000 sample households engaged in cultivation by size of land cultivated in rural areas only.
	B-XII.2	Distribution of 1,000 sample households engaged in cultivation by size of land cultivated and working strength in rural areas only.

Main Tables		Subsidiary Tables
	B-XII.3	Distribution of 1,000 sample household workers (family/hired) engaged in cultivation with and without household industry by each size of land cultivated and size of employment by family and hired workers in rural areas only.
	B-XII.4	Average no. of family & hired workers per cultivating household by each size of cultivated holding in rural areas only.
B-XIV A & B	B-XIV. A.1	Distribution of 1,000 sample households engaged in household industry only by principal household industry and working strength in all areas.
	B-XIV. B.1	Distribution of 1,000 sample households engaged in Household Industry only by principal household industry (Division Major/Minor Groups) in all areas.
B-XVI	B-XVI.1	Distribution of 1,000 sample households engaged in household industry (with and without cultivation) by principal household industry in each duration.
	B-XVI.2	Distribution of 1,000 sample household workers engaged in principal household industry (with & without cultivation) by family & hired workers in each duration.

(vii)

Main Tables		Subsidiary Tables
	B-XVI.3	Average no. of family and hired workers per household engaged in principal household industry (with & without cultivation) by the duration of household industry in rural and urban areas.
B-XVII	B-XVII.1	Distribution of 1,000 sample households by size of household.

Definitions

URBAN

In order that an area could be classified as Urban a place had to be either a municipal corporation or a municipal area or a town committee or a notified area committee or cantonment board. Besides, places which did not have any of the above mentioned local bodies but possessed the following characteristics were also treated as urban areas or towns. (a) a density of not less than 1,000 per Sq. mile; (b) a population of 5,000+; (c) three fourths of the working population should be engaged in occupation other than agriculture; or (d) any other place which according to the S. C. O. of the State, possessed pronounced urban characteristics and amenities.

All other places were treated as rural areas or villages.

Household

A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so.

Institutions like boarding houses, messes and chumneries have also been regarded as census households but of 'unrelated persons living together'.

In 1961 Census, Household Schedules were also filled up for Institutional Households. These Schedules were however excluded at the time of drawing the sample of households. The data presented in Household Economic Tables relate only to family type households.

Household Industry

A Household Industry is defined as an industry conducted by the head of the household himself and/or mainly by the members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be on the scale of a registered factory. In the case of urban areas the household industry or at least the major part of its work must be located only at home. A Household Industry should relate to production, processing service

ing or repairing and includes makers and sellers of goods. The participation of the head of the household and/or members of the household is an essential feature of the Household Industry. Hired labourers can also be engaged, but their role must be of secondary importance. The classification of Household Industry is according to Standard Industrial Classification Scheme. A list of common "Household Industries" up to 4 digit code household engaged in cultivation is given in appendix.

Household engaged in cultivation

A household having land under cultivation is a cultivating household when the head of the household himself and/or any household member is engaged in cultivation of land which is either owned or held from Govt. or held from private persons or institutions for payment in money, kind or share, the household is said to be engaged in household cultivation. Thus both owner and tenant cultivators are included in this category. The households engaged in cultivation do not include the households whose members work only as agricultural labourers.

Interest in land

The households engaged in cultivation have been classified by interest in land in three parts.

- Owned or held from Govt.
- Held from private persons or institutions for payment in money, kind or share.
- Those engaged in cultivation of land partly owned or held from Govt. & partly from private persons or institutions for payment in money, kind or share.

Type (a) includes the total of all pieces of land owned or held in owner like possession *e.g.*, land held directly from Govt. under a grant, lease or assignment (i) with rights of permanent, heritable and transferable possession (ii) with rights of permanent and heritable possession but without the rights of transfer and (iii) temporary or conditional leases of any kind with the Government. Type (b) includes (i) with rights of permanent, heritable and transferable possession (ii) with rights of permanent and heritable possession but without right of transfer (iii) held in a variety of tenancies on tenures which are broadly classified as :

- tenants holding land with permanent and heritable rights whose land cannot be resumed by the owner on grounds of personal cultivation.
- tenants who have been given permanent rights subject to the right of resumption by the owner.
- tenants holding land in areas where interim measures have been enacted for stay of ejectment or for continuing the leases for a specified period.
- tenants holding land on temporary leases who are liable to ejectment and

(viii)

(e) areas held on condition of rendering service either to a village community or to Govt. and (iv) the following :

- (a) land taken for a fixed amount of money
- (b) land taken for a fixed amount of produce
- (c) land taken for a share of produce
- (d) land for which money is paid partly in one and partly in any other form mentioned above and
- (e) land held free of consideration.

Type (c) is a combination of types (a) and (b) *Principal Household Industry* : The principal household industry is one which is conducted by the household for the longer period in the year.

Family worker

A family worker is a member of the household who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by the members of the family and ordinarily does at least one hour of work every day during the working season.

Hired worker

A hired worker is one who has been in whole time employment of the household during the last working season or is in whole time employment during current working season. This does not include agricultural labourers who are casually employed for short periods for harvesting of crops or other operations.

3. C Series—Subsidiary Tables to Social and Cultural Tables

In this series there are 14 Subsidiary Tables based on the Social and Cultural Tables published in Volume I—India Part II-C(i) and Part II-C(ii).

One Subsidiary Table of each of the main tables C-I, C-III Part-B, C-III Part C, C-V and C-VII have been prepared and two Subsidiary Tables each on tables C-IV, C-VIII Part A and C-VIII Part B. Three Subsidiary Tables have been prepared from the main Table C-II. There is no Subsidiary Table to Table C-VI. Out of these 14 Subsidiary Tables, four tables C-II.2., C-II.3, C-IV.1 and C-IV.2 furnish comparable data with reference to previous censuses. Table C-I.1 is prepared from the data collected in Household Schedules and is based on 20 per cent sample of Households, whereas other tables are based on full count.

4. D Series—Subsidiary Tables to Migration Tables

This series consists of nine Subsidiary Tables prepared on the basis of the 1961 Census Migration Tables published in Volume I—India Part II-C(iii) and Part II-C (IV). Three Subsidiary Tables each from D-II and D-IV and one Subsidiary Table each from D-I, D-III and D-V have been prepared. There is no Subsidiary Table to Table D-VI. One small table for D-I.1 and one Inset Table for D-III.1 have also been prepared to give more detailed information.

The data furnished in the Subsidiary Tables D-IV.1, D-IV.2, D-IV.3 and D-V.1 are in respect of 109 Cities and Town Groups of 1961 Census having population 100,000 and above, Subsidiary Table D-II.1 shows the comparable figures between two decades and Subsidiary Table D-II.2 gives the variation between In-migration and Out-migration for two decades. The remaining three Subsidiary Tables viz., D-I.1, D-II.3 and D-III.1 represent the distribution of important characteristics furnished in the main tables per 1,000 or per 10,000 units.

A—SERIES

SUBSIDIARY TABLES TO GENERAL POPULATION TABLES

NEW DELHI

June 27, 1968

A. MITRA

Registrar General, India

A-I.1 AREA AND POPULATION (ACTUAL AND PERCENTAGE) BY TEHSIL/TALUK/ANCHAL/
POLICE STATION DENSITY

FLY-LEAF

This table has been prepared for India, States, Union Territories and Other Areas. The data presented in this table show the Area and Population (actual and percentage) and its talukwise distribution classified into 8 different ranges of density per Square mile, viz., under 100, 100—150, 150—200, 200—300, 300—450, 450—600, 600—750 and 750 and over.

The area figures used in this table relate to the area figures supplied by State Survey Department except in the case of Jammu and Kashmir, Andaman and Nicobar Islands and North East Frontier Agency where surveyor General's area is taken, as the former is not available. Further in the case of Jammu and

Kashmir the area figures relate to the censused portion only, on this side of cease-fire line.

The five places namely Patna, Gaya, Bhagalpur, Ranchi (including Doranda) and Jamshedpur (including Jugsalai) have been treated as separate units lying outside any anchal in Bihar State.

The area and population figures pertaining to India, given in this table are less by 62,279 Sq. miles (Land Records Area) and 2,718,322 persons respectively than those given in main Table A-I.

This is due to the fact mentioned below :

Name of State/Union Territory	Area and Population which is less, compared to that given in Table A-I		Remarks
	Area (in Sq. mile)	Population	
Bihar	1,778.6	..	The area figures in Subsidiary Table A-I.1 have been computed from the Thana Jurisdiction Lists. While those given in main Table A-I upto district level are supplied by the State Survey Office.
Gujarat	9,485.5	..	The Rann of Kutch and Gir forest which do not form part of any of the Taluks/ Mahals of Kutch and Junagadh districts respectively have been excluded in this Subsidiary Table.
Madhya Pradesh	28,631.3	..	The tehsil-wise break-up in respect of the 'Forest Area' is not available which lie in 18 districts of the State viz., Tikamgarh, Panna, East Nimar, Hoshangabad, Betul, Sagar, Jabalpur Narsimhapur, Mandla, Chindwara, Seoni, Balaghat, Surguja, Bilaspur, Raigarh, Durg, Raipur and Bastar.
Uttar Pradesh	17,869.7	2,677,342	The tehsil-wise break-up of area in respect of Naini Tal district, and separate area figures of the district of Uttar Kashi, Chamoli, Pithoragarh, Tehri Garhwal and Almora are not available.
West Bengal	1,630.0	..	The forest area of 24-Parganas district which forms part of several Police Stations but the respective areas of which could not be ascertained, has been excluded from this Subsidiary Table.
Andaman and Nicobar Islands	303.9	..	The area pertaining to uninhabited Islands has been excluded from this Subsidiary Table.
Himachal Pradesh	2,579.0	40,980	The area and population figures of Kinnaur district, for which sub-division wise figures are not available have been excluded from this Subsidiary Table.
Laccadive, Minicoy and Amindivi Islands	1.0	..	The area pertaining to the uninhabited Islands has been excluded in this Subsidiary Table.

In the Union Territories of Goa, Daman and Diu and Dadra and Nagar Haveli, a Census was taken as on 15th December, 1960 and 1st March, 1962 respectively. Data in the table relate to these

dates. The source for the material of this table is the main Table A-I, appearing in Vol. I Part II-A(i) General Population Tables of India, 1961 Census.

A-I.1 AREA AND POPULATION (ACTUAL AND PERCENTAGE)

**A-1-2 DISTRIBUTION OF 1,000 OCCUPIED RESIDENTIAL HOUSES AND 10,000 PERSONS BY
RURAL AND URBAN AND COMPARISON WITH 1951 AND 1941 CENSUSES**

FLY-LEAF

This table gives the distribution of 1,000 occupied residential houses and 10,000 persons by rural and urban areas enabling the comparison of figures for 1951 and 1941 Censuses, for India, States, Union Territories and Other areas. In this table two sets of figures have been given in regard to 1951 and 1941 Censuses. The second set is given within brackets below the first set. The rural and urban break up according to first set of figures will take into account the new definition of town of 1961 Census in addition to the territorial change in the Unit while the second set shows only the territorial changes of the Unit. In West Bengal and all Union Territories except Himachal Pradesh one set of figures are given as there is no deleted town in these territories except Himachal Pradesh.

A Census of Goa, Daman and Diu was taken by the Portuguese Government as on 15th December, 1960. The figures of Dadra and Nagar Haveli (where a census was taken as on 1st March, 1962) and Goa, Daman and Diu have not been adjusted as on 1st

March, 1961. The population and houses of these territories for 1941 and 1951 have been assumed to be the same as in 1940 and 1950 respectively as far as figures for India are concerned. Similarly the population of Pondicherry in 1951 has been assumed to be the same as in 1948 for obtaining India figures.

The Population and Number of houses of Jammu and Kashmir for 1951 have been taken to be the arithmetic mean of 1941 and 1961. The population and houses of Jammu and Kashmir for 1941 have been adjusted with reference to the present Censused area of Jammu and Kashmir which excludes territories under the illegal occupation of Pakistan and China.

In the case of West Bengal the number of houses of Chandannagar for 1941 are excluded as the same is not available.

The source for the material of this table is the main Table A-I, appearing in Vol. I Part II-A(i) General Population Tables of India, 1961 Census.

A-I.3 PERSONS PER 1,000 HOUSES AND HOUSES (i) PER 100 SQUARE MILES IN RURAL AREAS AND (ii) PER SQ. MILE IN URBAN AREAS AND COMPARISON WITH PAST CENSUSES.

FLY-LEAF

This table gives the data showing persons per 1,000 houses for total, rural and urban areas houses per 100 Square miles in rural areas and houses per Square mile in urban areas providing for the comparison of census data as of 1921—1951 for India, States and Union Territories and Other Areas.

In this table two sets of figures have been presented for Census 1921 to 1951. The second set is given within brackets below the first set. The rural and urban break-up according to the first set of figures will take into account the new definition of town of 1961 Census in addition to the territorial changes in the Unit while the second set shows only the territorial changes in the Units. In all the Union Territories except Himachal Pradesh only one set of figures is given as there is no deleted town in them.

The Columns relating to houses per 100 Sq. miles in rural areas and 'Houses per Sq. mile in Urban areas' for 1921—41, have been omitted as the information for most of the units of presentation is not available.

In the case of 1951 the 'Houses per 100 Sq. miles in rural areas' and 'Houses per Sq. mile in Urban areas' are worked out on area figures supplied by State Survey Department except in the case of Jammu and Kashmir and Andaman and Nicobar Islands (rural area). In the case of Jammu and Kashmir and Andaman and Nicobar Islands rural area is derived by subtracting the urban area supplied by Local Authorities from the Surveyor General's area.

The density of houses is worked out mostly on area figures corrected upto one place of decimal for rural/urban areas in respect of those States for which area figures are available corrected upto two places of decimal.

In the case of a few States, however, (Andhra Pradesh, Jammu and Kashmir and Mysore) 1951 area figures of some towns, which have not undergone territorial changes, were not available. For these towns, 1961 area figures have been adopted. In the case of Jammu and Kashmir 1961 area figures have been adopted for all the towns as no census was conducted in 1951.

In the case of Andhra Pradesh, Madhya Pradesh, Mysore and Uttar Pradesh 1951 area figures of a few towns were not available because of the fact that these towns were either deleted in 1961 or their jurisdictional change was not ascertainable. The Urban density for 1951 is calculated after deducting the population of these towns from urban population. The rural density is calculated after adding the population of these towns in rural population.

In the case of Tuensang district of Nagaland as 1951 Census was conducted only in 50 Sq. miles of area, the 1951 density of houses of Nagaland has

been worked out on the 1951 Censused area of Nagaland only. Consequential changes have been effected in India figures also.

'Houses per 100 Sq. miles in rural areas' and 'Houses per Sq. mile in urban areas' for 1961 are worked out on area figures supplied by the State Survey Department except in the case of Jammu and Kashmir and Andaman and Nicobar Islands (rural areas). In the case of Jammu and Kashmir and Andaman and Nicobar Islands rural area is derived by subtracting the Urban area supplied by Local Authorities from the Surveyor General's area.

Area figures of some urban units and port areas, included as urban in Gujarat, are not available. Houses of these units are ignored for working out 'Houses per Sq. mile in urban areas', 'Houses per 100 Sq. miles in rural areas' are based on the rural houses only though the area figures include the area of urban units which is not separately available. The same procedure is followed in the case of 8 towns of Goa, Daman and Diu for which area is not available. The area of Mokhasa Mutyalampadu and Malkapuram towns included in the rural areas of Krishna and Visakhapatnam districts respectively.

A Census of Goa, Daman and Diu was taken by the Portuguese Government as on 15th December, 1960. The figures of Dadra and Nagar Haveli (where a Census was taken as on 1st March, 1962) and Goa, Daman and Diu have not been adjusted as on 1st March, 1961. The population and houses of these territories for 1941 and 1951 have been assumed to be the same as in 1940 and 1950 respectively as far as the figures of India are concerned.

The population and houses of Jammu and Kashmir for 1951 have been taken to be the arithmetic mean of 1941 and 1961 population and houses. The population and houses of the State for 1941 and earlier censuses have been adjusted with reference to the present Censused Area of the State which excludes territories currently under the illegal occupation of Pakistan and China.

North-East Frontier Agency was censused for the first time in 1961. Thus cols. for previous censuses are left blank. The area figure for which the all-India schedule was canvassed is not separately available and thus 1961 figure for 'Houses per 100 Sq. miles in rural areas' could not be worked out.

In the case of West Bengal for 1921-1941 Persons per 1,000 houses for Total/Urban excludes Chandannagar (which was entirely Urban), as the figures of number of houses are not available. Consequential change has been effected in India figures.

The source of materials for this table is the main Table A-I, appearing in Vol. I Part II-A(i) General Population Tables of India, 1961 Census.

**A-I-4 FEMALES PER 1,000 MALES TOTAL/RURAL/URBAN POPULATION AND
COMPARISON WITH PREVIOUS CENSUSES**

FLY-LEAF

This table gives the data showing females per 1,000 males for total, rural and urban areas of India, States, Union Territories and Other Areas. It also shows the comparison of figures with previous censuses viz., 1921-1951.

Two sets of figures have been given for the censuses of 1921—1951. The second set is given within brackets below the first set. The rural and urban break-up according to first set of figures will take into account the new definition of town of 1961 Census in addition to the territorial change in the unit while the second set show only the territorial changes of the Unit. In all the Union Territories except Himachal Pradesh only one set of figures has been given as there is no deleted town in them.

The Census of Goa, Daman and Diu was taken by the Portuguese Government as on 15th December, 1960. The figures of Dadra and Nagar Haveli (where

a Census was taken as on 1st March, 1962) and Goa, Daman and Diu have not been adjusted as on 1st March, 1961. The population of these territories for 1941 and 1951 have been assumed to be the same as in 1940 and 1950 respectively as far as the figures of India are concerned. Similarly the population of Pondicherry of 1951 has been assumed to be the same as in 1948.

The population of Jammu and Kashmir for 1951 has been taken to be the arithmetic mean of 1941 and 1961 population. The population of the State for 1941 and earlier censuses have been adjusted with reference to the present censused area of the State which excludes territories currently under the illegal occupation of Pakistan and China.

The source of material for this table is the main Table A-I, appearing in Vol. I Part II-A(i) General Population Tables of India, 1961 Census.

A-I.5 VARIATION AND DENSITY

FLY-LEAF

This table has been prepared separately for total, rural and urban areas of India, States, Union Territories and Other Areas. It gives the percentage variation in population during each decade since 1921 and the density of population i.e., persons per Sq. mile for 1951 and 1961 censuses.

Two sets of figures have been given in the tables for rural and urban areas so far as percentage variation in population is concerned. The rural and urban break-up according to the first set of figures will take into account the new definition of town of 1961 Census in addition to the territorial change in the unit while the second set shows only the territorial change in the unit. In all Union Territories except Himachal Pradesh only one set of figures has been given as there is no deleted town in those Union Territories.

A Census of Goa, Daman and Diu was taken by the Portuguese Govt. as on 15th December, 1960. The figures of Dadra and Nagar Haveli (where a Census was taken as on 1 March, 1962) and Goa, Daman and Diu have not been adjusted as on 1st March, 1961. The population of these territories for 1941 and 1951 have been assumed to be the same as in 1940 and 1950 respectively as far as the figures of India are concerned. Similarly the population of Pondicherry in 1951 has been assumed to be the same as in 1948 for obtaining India figures.

The population of Jammu and Kashmir for 1951 has been taken to be the arithmetic mean of 1941 and 1961 population. The population of the State for 1941 and earlier censuses have been adjusted with reference to the present censused area of the State which excludes territories currently under the illegal occupation of Pakistan and China.

North-East Frontier Agency was censused for the first time in 1961, thus cols. 2-5 and 7 are left blank.

The Urban Table excludes Laccadive, Minicoy and Amindivi Islands, Dadra and Nagar Haveli and North-East Frontier Agency as they are entirely rural.

In working out decennial percentage variation for 1941-51 and 1951-61 for India, the following areas have not been taken into consideration :

- The 1951 Census population of Tuensang district of Nagaland i.e., 7,025 has not been taken into account for 1941-51 as this area was censused for the first time in 1951.
- The 1961 Census population of North-East Frontier Agency and Tuensang district of Nagaland has not been taken into account for 1951-61 as there are no comparable census figures for 1951.

In 1961 density is worked out on area figures supplied by the State Survey Department except in the case of Jammu and Kashmir, Andaman and Nicobar

Islands and North-East Frontier Agency for total and rural where it has been calculated on the figures of Surveyor General. The density of urban areas is worked out using the area figures corrected upto two places of decimals obtained by adding the area figures of individual towns. For total and rural it is worked out on area figures corrected upto one place of decimal.

Area figures of some urban units and port areas included as urban in Gujarat are not available. Population of these units is ignored for working out urban density. Rural density is based on the rural population only but the area figures include the urban area of units which is not separately available. The same procedure is followed in the case of 8 towns of Goa, Daman and Diu for which area figure is not available. The area of Mokhasa Mutyalampadu and Malkapuram is included in the rural of Krishna and Visakhapatnam districts respectively as separate figures are not available.

For 1951 the density is worked out on area figures supplied by State Survey Department except in the case of Jammu and Kashmir and Andaman and Nicobar Islands (Total and Rural only) where it is calculated on the figures of Surveyor General of India. The density is worked out mostly on area figures corrected up to one place of decimal for total/rural/urban except in case of urban areas for a few states where it is available corrected up to two places of decimal (Gujarat, Jammu and Kashmir, Kerala, Orissa, Uttar Pradesh, West Bengal, Himachal Pradesh, Tripura, and Goa, Daman and Diu).

In the case of some States however, (Andhra Pradesh, Jammu and Kashmir, Mysore and Goa, Daman and Diu) 1951 area figures for a few towns which have not undergone territorial change, were not available. For these towns 1961 area figures have been adopted. In the case of Jammu and Kashmir, 1961 area has been adopted for all the towns as no census was conducted in 1951.

In the case of Andhra Pradesh, Madhya Pradesh, Mysore and Uttar Pradesh 1951 area figures were not available for a few towns, which have either been deleted in 1961 or jurisdictional change is not ascertainable. The urban density for 1951 is calculated after deducting the population of these towns from urban population. The rural density is calculated after adding the population of these towns to rural population.

In the case of Tuensang district of Nagaland as 1951 Census was conducted only in 50 sq. miles of area, the 1951 density of Nagaland has been worked out on the 1951 censused area of Nagaland only. Consequential changes have been effected in India figures.

The source for the material of this table is the main Table A-I, appearing in Vol. I Part II-A(i) General Population Tables of India, 1961 Census.

NOTE : *Urban population not ascertainable hence included in Rural.

A-II.1 MEAN DECENNIAL GROWTH RATES DURING FOUR DECADES TOTAL/RURAL/URBAN

FLY-LEAF

This table gives mean decennial growth rates during the last four decades, viz., 1921-30, 1931-40, 1941-50 and 1951-60. Separate tables have been prepared for total, rural and urban areas of India, States, Union Territories and Other Areas.

For calculating the inter-Censal growth rate for India, the population of Tuensang district has been subtracted from the 1951 population of India. For 1961 both the population of N.E.F.A. and Tuensang District have been subtracted.

The table was not prepared for Assam, Madhya Pradesh, Maharashtra, Madras (R/U), Mysore (R/U), Andaman and Nicobar Islands (R/U), Himachal Pradesh, Pondicherry and Nagaland due to non-availability of figures. Therefore, for India and the above mentioned States/Union Territories only growth rates which are based on the figures published in General Population Tables Part II-A(i) are incorporated.

Calculations for various Columns are described below :

Col. 2-5 . Let π_s be the population enumerated in one Census and π_2 the population enumerated in another Census after 'n' years. Mean population over 'n' years is equal to $\frac{(r-1)\pi_1}{\log r}$

where $r = \frac{\pi_2}{\pi_1}$

Col. 6-9 . The procedure of calculation is the same as that of the Col. 2-5.

Col. 10-13 These are the differences between the Census general population at the end and at the beginning of the decade in each Column.

Col. 14 = $100 \times \frac{\text{Col. 10}}{\text{Col. 2}}$

Col. 15 = $100 \times \frac{\text{Col. 11}}{\text{Col. 3}}$

Col. 16 = $100 \times \frac{\text{Col. 12}}{\text{Col. 4}}$

Col. 17 = $100 \times \frac{\text{Col. 13}}{\text{Col. 5}}$

Col. 18-21 are the total number of births in the general population registered during the decade in each column.

Col. 22 = $100 \times \frac{\text{Col. 18}}{\text{Col. 6}}$

Col. 23 = $100 \times \frac{\text{Col. 19}}{\text{Col. 7}}$

Col. 24 = $100 \times \frac{\text{Col. 20}}{\text{Col. 8}}$

Col. 25 = $100 \times \frac{\text{Col. 21}}{\text{Col. 9}}$

Col. 26-29 are the total number of deaths in the general population registered during the decade in each column.

Col. 30 = $100 \times \frac{\text{Col. 26}}{\text{Col. 6}}$

Col. 31 = $100 \times \frac{\text{Col. 27}}{\text{Col. 7}}$

Col. 32 = $100 \times \frac{\text{Col. 28}}{\text{Col. 8}}$

Col. 33 = $100 \times \frac{\text{Col. 29}}{\text{Col. 9}}$

Col. 34 = Col. 22-Col. 30

Col. 35 = Col. 23-Col. 31

Col. 36 = Col. 24-Col. 32

Col. 37 = Col. 25-Col. 33

Col. 38 = Col. 14-Col. 34

Col. 39 = Col. 15-Col. 35

Col. 40 = Col. 16-Col. 36

Col. 41 = Col. 17-Col. 37

But in the case of Orissa, the method of calculation of Geometric Mean Population for area under registration for decade 1951-60 is different due to the variability of area under registration from year to year in this decade. The method is as follows :-

Let $P_1, P_2, \dots, P_x, \dots, P_{10}$ be the intercensal population of the area under registration at any period X. The geometric mean population of area under registration for the decade is given by $10\sqrt{P_1, P_2, \dots, P_x, \dots, P_{10}}$. The intercensal population at time is given by $P_x = P_1(1+r)^x$ and r is given by the relation $P_{10} = P_1(1+r)^{10}$ where P_1 and P_{10} are the two consecutive census year populations.

The source for the material of this table is the main Table A-II, appearing in Vol. I Part II-A(i) General Population Tables of India, 1961 Census.

A-III.1 DISTRIBUTION OF RURAL POPULATION BETWEEN VILLAGES OF DIFFERENT SIZES

FLY-LEAF

This table has been prepared for India, States, Union Territories and Other Areas. It gives the average population per village, rural population per 1,000 of total population and population per 1,000 rural population in villages by size of different classes viz., 5,000 and above, 2000—4,999, 1000—1,999, 500—999, 200—499 and Under 200.

A Census of Goa, Daman and Diu was taken by the Portuguese Government as on 15th December, 1960. The figures of Dadra and Nagar Haveli (where a Census was conducted as on 1st March, 1962) and Goa, Daman and Diu have not been adjusted as on 1st March, 1961.

As separate population figures for the 3 villages of Tirap Frontier Division of North-East Frontier Agency are not available, these have been excluded from the range classification.

There are 13 inhabited villages in West Bengal and Sikkim (11 in West Bengal and 2 in Sikkim) merged in Tea Estates and Forest Units for which separate population is not available. These have been accounted for in the merged units for range classification.

The source for the material of this table is the main Table A-III, appearing in Vol. I Part II-A(i) General Population Tables of India, 1961 Census.

*N—Stands for negligible figures.

*It includes 3 villages with an estimated combined population of 781 (M. 411, F. 370) of Tirap Frontier Division for which the details are not available.
The figures in columns 4 to 9 do not add up to 1,000 for the same reason.

A-IV.1 DISTRIBUTION OF URBAN POPULATION BETWEEN CITIES/TOWN GROUPS/TOWNS

FLY-LEAF

This table has been prepared for India, States Union Territories and Other Areas. It shows (i) the number of cities, town groups and towns, (ii) average population per city, town group and town, (iii) number of persons in city, town group, town per 1,000 of total population (iv) distribution of 1,000 urban population in cities, town groups and towns. These cities, town groups and towns have been classified into six categories viz., 100,000 and over, 50,000—99,999, 20,000—49,999, 10,000—19,999, 5,000—9,999 and

Under 5,000.

A Census of Goa, Daman and Diu was taken by the Portuguese Government as on 15th December, 1960. These figures have been used without being adjusted as on 1st March, 1961.

The source for the material of this table is the main Table A-IV, appearing in Vol. I Part II-A(i) General Population Tables of India, 1961 Census.

NOTE :—The Union Territories of Laccadive, Minicoy and Amindivi Islands, Dadra and Nagar Haveli and North-East Frontier Agency are entirely rural.

A-IV.2 NUMBER OF FEMALES PER 1,000 MALES AND DENSITY FOR EACH CITY/TOWN GROUP/ TOWN

FLY-LEAF

This table gives the females per 1,000 males and density of population for each city, town group and town of States, Union Territories and Other Areas, for the Census of 1951 and 1961.

Towns and town groups have been classified in six ranges of population in 1961 and in the descending order of population. The constituents of Town group are serialised by alphabets (a), (b) etc.

The total Number of towns and town groups in the various class ranges in 1961 Census is :

Class	Town group	Town
All classes	132	2,330
Class I	48	65
Class II	29	109
Class III	40	444
Class IV	10	738
Class V	5	756
Class VI	..	218

Towns treated as such for the first time in 1951 which continue as towns in 1961, have been marked with an asterisk(*).

Towns treated as such for the first time in 1961 have been printed in italics.

A Census of Goa, Daman and Diu was taken by the Portuguese Government as on 15th December, 1960. The figures have not been adjusted as on 1st March, 1961.

As no Census was taken in Jammu and Kashmir in 1951, towns that were recognised as such in 1941 as also in 1961 are treated as towns for 1961 also and their population for 1951 has been taken as the arithmetic mean of the population of 1941 and 1961.

In 1961 the density figures are based on the area corrected upto 2 places of decimal furnished by Local Authorities.

The Suburban Area and Port Area which form part of 20 towns in Gujarat is not separately available in 1961. The density figures of 20 towns have been shown as N.A.

The area figures of Bhadravati Town group of Mysore, in 1961 is available but the separate area of the two constituents is not available.

The area figure of Malkapuram, Mokhasa Mutyalampadu and 11 constituents of Hyderabad Town group in 1961 are not available though (the areas of Hyderabad Town group and Hyderabad City a constituent of the Town group are available).

The area figures of 8 towns of Goa, Daman and Diu in 1961 are not available.

In 1951 the density is worked out on the area figures supplied by State Survey Department. The density is worked out mostly on area figures corrected upto one place of decimal except for a few States and Union Territories where it is available upto two places of decimal (Gujarat, Jammu and Kashmir, Kerala, Orissa, Uttar Pradesh, West Bengal, Himachal Pradesh, Tripura and Goa, Daman and Diu).

In the case of a few States and Union Territories (Andhra Pradesh, Jammu and Kashmir, Mysore and Goa, Daman and Diu) 1951 figures for a few towns, which have not undergone territorial changes, were not available. For these towns 1961 area figures have been adopted. In the case of Jammu and Kashmir 1961 area has been adopted for all towns as no census was conducted in 1951.

List of new towns of 1961 which were separate towns in any Census prior to 1951 and (i) were either declassified in 1951 or in any previous Census (ii) were parts of other towns in 1951.

†Jutogh Cantonment (population not available) in 1951 was part of Simla town.
‡In 1951 Bhabbar was part of Devaprayag (N.A.) for which separate figures are not available.
*Towns treated as such for the first time in 1951 which continues as towns in 1961.
N.A.—Stands for not available.

B—SERIES

SUBSIDIARY TABLES TO GENERAL ECONOMIC TABLES

B-I.1 DISTRIBUTION OF 1,000 PERSONS BY EACH INDUSTRIAL CATEGORY OF WORKERS AND BY NON-WORKERS AND BY SEX

FLY-LEAF

This table has been prepared separately for total, rural and urban areas of India, States, Union Territories and Other Areas. It gives the distribution of 1,000 persons, males and females among the nine industrial categories of workers and by non-workers.

In the 1961 Census the population has been divided into workers and non-workers. The workers have been further classified into the following nine broad industrial categories :

I Working as Cultivator

II Working as Agricultural Labourer

III Working in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting & Plantations, Orchards and Allied activities

IV Working at Households Industry

V Working in Manufacturing other than Household Industry

VI Working in Construction

VII Working in Trade and Commerce

VIII Working in Transport, Storage and Communications

IX Working in Other Services.

Figures for N.E.F.A. exclude 297,853 persons (Males 147,100, Females 150,753) for whom an abridged family schedule was canvassed instead of General all-India Individual Slip and Household Schedule.

The Census of Goa, Daman and Diu was taken by the Portuguese Government as on 15th December, 1960. Data collected in that Census have been tabulated to conform to the formats of tables for 1961 Census of India. Data were not, however, collected for Household Industry (Category IV), in the table for Goa, Daman and Diu.

The source for the material of this table is the main Table B-I, appearing in Vol. I Part II-B (i) General Economic Tables of India, 1961 Census.

B-I.2 NUMBER OF FEMALE WORKERS PER 1,000 MALE WORKERS IN EACH INDUSTRIAL CATEGORY

FLY-LEAF

This table has been prepared separately for total, rural and urban areas of India, States, Union Territories and Other Areas. It gives the sex ratio (female workers per 1,000 male workers) Among total workers and workers in each of the industrial categories I to IX.

Figures for N.E.F.A. exclude 297,853 persons (Males 147,100, Females 150,753) for whom an abridged family schedule was canvassed instead of General all-India Individual Slip and Household Schedule.

The Census of Goa, Daman and Diu was taken by the Portuguese Government as on 15th December, 1960. Data collected in that Census have been tabulated to conform to the formats of tables for 1961 Census of India. Data were not, however, collected for Household Industry (Category IV) in the table for Goa, Daman and Diu.

The source for the material of this table is the main Table B-I, appearing in Vol. I Part II-B (i) General Economic Tables of India, 1961 Census.

B-1.3 DISTRIBUTION OF 1,000 OF TOTAL WORKERS OF EACH SEX INTO AGE GROUPS AND INDUSTRIAL CATEGORY

FLY-LEAF

This table has been prepared separately for total, rural and urban areas for India, States, Union Territories and Other areas. It gives the distribution of 1,000 working persons, males and females separately by broad age-groups and nine industrial categories of workers. The broad age groups are 0-14, 15-34, 35-59, 60+ and age not stated. Figures relating to those whose age was not recorded are given in the last as 'Age not stated'.

Figures for N.E.F.A. exclude 297,853 persons (Males 147,100, females 150,753) for whom an abridged family schedule was canvassed instead of General

all-India Individual Slip and Household Schedule.

The Census of Goa, Daman and Diu was taken by the Portuguese Government as on 15th December, 1960. Data collected in that Census have been tabulated to conform to the formats of tables for 1961 Census of India. Data were not, however, collected for Household Industry (Category IV) in the table for Goa, Daman and Diu.

The source for the material of this table is the main Table B-I, appearing in Vol. I Part-II B(i) General Economic Tables of India, 1961 Census.

B-I.4 DISTRIBUTION OF 1,000 WORKERS IN EACH SEX AND EACH INDUSTRIAL CATEGORY BY AGE-GROUP

FLY-LEAF

This table has been prepared separately for total, rural and urban areas of India, States, Union Territories and Other Areas. It gives the distribution of 1,000 working persons, males and females separately in each industrial category as well as all categories taken together by broad age-groups viz; 0-14, 15-34, 35-59, 60+ and Age not stated. Column 'Age not stated' relates to those whose age was not stated.

Figures for N.E.F.A. exclude 297,853 persons (Males 147,100, females 150,753) for whom an abridged family schedule was canvassed instead of General all-India Individual Slip and Household Schedule.

The Census of Goa, Daman and Diu was taken by the Portuguese Government as on 15th December, 1960. Data collected in that Census has been tabulated to conform to the formats of tables for 1961 Census of India. Data were not however, collected for Household Industry (Category IV) in the tables for Goa, Daman and Diu.

The source for the material of this table is the main Table B-I, appearing in Vol. I Part-II-B(i) General Economic Tables of India, 1961 Census.

N—Stands for negligible.

B-I.5 WORKERS PER 1,000 POPULATION IN EACH AGE-GROUP

FLY-LEAF

This table has been prepared separately for total, rural and urban areas for India, States, Union Territories and Other Areas. It gives the number of working persons, males and females per 1,000 of total population in the broad age-groups viz., 0-14, 15-34, 35-59, 60+ and Age not stated. Column 'Age not stated' relates to persons whose age was not recorded.

Figures for N.E.F.A. exclude 297,853 persons (males, 147,100, females 150,753) for whom an abridged family schedule was canvassed instead of General all-India Individual Slip and Household Schedule.

The Census of Goa, Daman and Diu was taken by the Portuguese Government as on 15th December, 1960. Data collected in that Census have been tabulated to conform to the formats of tables for 1961 Census of India. Data were not, however, collected for Household Industry (Category IV) in the table for Goa, Daman and Diu.

The source for the material of this table is the main Table B-I, appearing in Vol. I Part II-B(i) General Economic Tables of India 1961 Census.

**B-II.1 DISTRIBUTION OF 1,000 WORKERS IN EACH CLASS OF TOWN BY AGE, SEX
AND INDUSTRIAL CATEGORIES**

FLY-LEAF

This table has been prepared only for urban areas of India, States, Union Territories and Other Areas. It presents each class of town, the distribution of 1,000 working persons, males and females in each of the broad age-groups viz., 0-14, 15-34, 35-59, 60+ and Age not stated among the nine industrial categories of workers.

All the towns have been classified into the following six class ranges according to their population :

Class	Population
I	100,000 and over
II	50,000 to 99,999
III	20,000 to 49,999
IV	10,000 to 19,999

V	5,000 to 9,999
VI	below 5,000

The Census of Goa, Daman and Diu was taken by the Portuguese Government as on 15th December, 1960. Data collected in that Census have been tabulated to conform to the formats of tables devised for household for 1961 Census of India. Data were not, however, collected for Household Industry in Goa, Daman and Diu. There are, therefore, no figures for Household Industry (Category IV) in the table for Goa, Daman and Diu.

The source for the material of this table is the main Table B-II, appearing in Vol. I Part II-B(i) General Economic Tables of India, 1961 Census.

N'—Stands for negligible.

B-II.2 DISTRIBUTION OF 1,000 WORKERS IN EACH CITY OR TOWN GROUP WITH A POPULATION OF ONE LAKH AND OVER BY AGE, SEX AND INDUSTRIAL CATEGORIES

FLY-LEAF

This table gives the data for cities and town groups for States, Union Territories and Other Areas having a population of over one lakh. It shows the distribution of 1,000 working persons, males and females in each broad age-group viz. 0-14, 15-34, 35-59, 60+ and Age not stated among the nine industrial categories of workers.

The Census of Goa, Daman and Diu was taken by the Portuguese Government as on 15th December, 1960. Data collected in that census have been

tabulated to conform to the formats of tables devised for 1961 Census of India. Data were not, however, collected for Household Industry in Goa, Daman and Diu. There are therefore, no figures for Household Industry (Category IV) in the table of Goa, Daman and Diu.

The source for the material of this table is the main Table B-II, appearing in Vol. I PartII-B(i) General Economic Tables of India, 1961 Census

**B-III PART A.1 DISTRIBUTION OF 1,000 WORKERS IN EACH SEX BY EDUCATIONAL
LEVELS IN URBAN AREAS ONLY**

FLY-LEAF

This table gives the distribution of 1,000 Workers of each sex by educational levels for India, States, Union Territories and Other Areas. The following information relating to educational levels has been given in the table only for urban areas.

1. Illiterate
2. Literate (without educational level);
3. Primary or Junior Basic;
4. Matriculation or Higher Secondary;
5. Technical diploma not equal to degree;
6. Non-technical diploma not equal to degree;
7. University degree or post-graduate degree other than technical degree; and
8. Technical degree or diploma equal to degree or post-graduate degree;

- (i) Engineering
- (ii) Medicine
- (iii) Agriculture
- (iv) Veterinary and Dairying
- (v) Technology
- (vi) Teaching, and
- (vii) Others.

Figures for Goa, Daman and Diu are those obtained from the material collected in the census taken in that territory in 1960.

The source for the material of this table is the main Table B-III Part A, appearing in Vol. I Part II-B(i) General Economic Tables of India, 1961 Census.

**B-III PART A.3 DISTRIBUTION OF 1,000 PERSONS NOT AT WORK BY EDUCATIONAL
LEVELS IN URBAN AREAS ONLY**

FLY-LEAF

This table gives the distribution of 1,000 non-workers of each sex by educational levels for India, States, Union Territories and Other Areas.

Figures for Goa, Daman and Diu are those obtained from the material collected in the Census taken

in that territory in 1960.

The source for the material of this table is the main Table B-III Part A, appearing in Vol. I Part B-II(i) General Economic Tables of India, 1961 Census.

B-III PART A.3 DISTRIBUTION OF 1,000 PERSONS NOT

State/Union Territory 1	Educational levels													
	Total		Illiterate		Literate (without educational level)		Primary or Junior Basic		Matriculation or Higher Secondary		Technical dip- loma not equal to degree		Non-technical diploma not equal to degree

entirely rural.

**B-III PART B.1 DISTRIBUTION OF 1,000 WORKERS IN EACH INDUSTRIAL CATEGORY
AND IN EACH SEX BY EDUCATIONAL LEVELS IN RURAL AREAS ONLY**

FLY-LEAF

This table gives the distribution of 1,000 Workers of each sex in I to IX Industrial Categories by educational levels for India, States, Union Territories and Other Areas. The educational levels adopted for rural areas are (i) Illiterate (ii) Literate (without educational level) (iii) Primary or Junior Basic (iv) Matriculation and above. Information relating to total workers is also given on the same lines.

Figures for N.E.F.A. exclude 297,853 persons (Males 147,100, Females 150,753) for whom an abridged family schedule was canvassed instead of

General all-India Individual Slip and Household Schedule.

Figures for Goa, Daman and Diu are those obtained from the material collected in the Census taken in that territory in 1960. Data were not however, collected for household Industry at the census. There are, therefore, no figures for Household Industry (Category IV) in the table.

The source for the material of this table is the main Table B-III Part B, appearing in Vol. I Part II-B(i) General Economic Tables of India, 1961 Census

B-III PART B.2 DISTRIBUTION OF 1,000 PERSONS NOT AT WORK BY EDUCATIONAL LEVELS IN RURAL AREAS ONLY

FLY-LEAF

This table has been prepared for the rural Areas of India, States, Union Territories and Other Areas. It gives the distribution of 1,000 non-workers of each sex by educational levels *i.e.* (i) Illiterate (ii) Literate (without educational level) (iii) Primary or Junior Basic (iv) Matriculation and above. Similar distribution for the total workers has also been given.

Figures for N.E.F.A. exclude 297,853 persons (Males 147,100, Females 150,753) for whom an abridged family schedule was canvassed instead of

General all-India Individual Slip and Household Schedule.

Figures for Goa, Daman and Diu are those obtained from the material collected in the census taken in that territory in 1960.

The source for the material of this table is the main Table B-III Part B, appearing in Vol. I Part II-B(i) General Economic Tables of India, 1961 Census.

**B-IV.1 NUMBER PER 1,000 WORKERS IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS,
PROFESSION OR SERVICE, WHO ARE EMPLOYERS, EMPLOYEES, SINGLE WORKERS
AND FAMILY WORKERS**

FLY-LEAF

This table has been prepared separately for total and urban areas of India, States, Union Territories and Other Areas. It gives the distribution of 1,000 workers in Non-household Industry, Trade, Business, Profession or Service by their employment status. Classification of employment Status of workers has been made into four categories, viz.,

- (a) An Employer, *i.e.*, one who hires one or more persons in his work,
- (b) an Employee, *i.e.*, one who does his work under others for wages or salary in cash or kind,
- (c) a Single Worker, *i.e.*, one who is doing work without employing others, except casually and without help of other members of the

family except casually. This will include workers working as member of co-operatives, and

- (d) a Family Worker, *i.e.*, one who is doing his work in the family enterprise without wage or salary in cash or kind.

This table excludes workers among 297,853 persons (Males 147,100, Females 150,753) from N.E.F.A. for whom an abridged family schedule was canvassed instead of General all-India Individual Slip and Household Schedule.

The source for the material of this table is the main Table B-IV Part B, appearing in Vol. I, Part II-B(i) General Economic Tables of India, 1961 Census.

FISHING, HUNTING AND PLANTATIONS, ORCHARDS AND ALLIED ACTIVITIES, WHO,
ARE EMPLOYERS, EMPLOYEES, SINGLE WORKERS AND FAMILY WORKERS**

FLY-LEAF

This table gives the data separately for total and urban areas of India, States, Union Territories and Other Areas. It shows the distribution of 1,000 workers in the Industrial Category III. The distribution of workers has been made into four categories of Employer, Employee, Single Worker and Family Worker.

This table excludes workers among 297,853 persons (Males 147,100, Females 150,753) from

N.E.F.A. for whom an abridged family schedule was canvassed instead of General all-India Individual Slip and Household Schedule.

The source for the material of this table is the main Table B-IV Part B, appearing in Volume I, Part II-B(i) General Economic Tables of India, 1961 Census.

**B-IV.3 NUMBER PER 1,000 WORKERS AT IV—HOUSEHOLD INDUSTRY WHO ARE
EMPLOYEES AND OTHERS**

FLY-LEAF

This table has been prepared separately for total, rural and urban areas of India, States, Union Territories and Other Areas. It gives the distribution of 1,000 workers of Industrial Category IV for persons, males and females by Employees and Others.

In the case of Household Industry the employment status is classified under two groups viz., (1) Employees and (2) Others. 'Employees are persons working for salaries and wages in cash or kind in some one else's household industry. Others are workers in their own household industry, and the distinction of employer, single worker or family worker in their case was found unnecessary.

This table excludes workers among 297,853 persons (Males 147,100, Females 150,753) from

N.E.F.A. for who an abridged family schedule was canvassed instead of General all-India Individual Slip and Household Schedule.

Figures for Goa, Daman and Diu are those collected in the Census taken in that territory in 1960 have been utilised for other tables. Data were not, however, collected for Household Industry in that Census. There are, therefore, no figures for Household Industry (Category IV).

The source for the material of this table is the main Table B-IV Part A, appearing in Volume I, Part II-B(i) General Economic Tables of India, 1961 Census.

**B-IV.5 NUMBER PER 1,000 WORKERS IN VI—CONSTRUCTION WHO ARE EMPLOYERS,
EMPLOYEES, SINGLE WORKERS AND FAMILY WORKERS**

FLY-LEAF

This table has been prepared separately for total and urban areas of India, States, Union Territories and Other Areas. It shows the distribution of 1,000 workers in Industrial Category VI who are further classified by employment status viz., Employer, Employee, Single Worker and Family Worker.

This table excludes workers among 297,853 persons (Males 147,100, Females 150,753) from

N.E.F.A. for whom an abridged family schedule was canvassed instead of General all-India Individual Slip and Household Schedule.

The source for the material of this table is the main Table B-IV Part B, appearing in Vol. I Part II-B(i) General Economic Tables of India, 1961 Census.

**B-IV.9 DISTRIBUTION OF 10,000 WORKERS OTHER THAN THOSE WORKING AS CULTIVATORS
OR AS AGRICULTURAL LABOURERS BY DIVISION, MAJOR GROUP AND MINOR GROUP
OF INDIAN STANDARD INDUSTRIAL CLASSIFICATION**

FLY-LEAF

This table has been prepared separately for total and urban areas of India, States, Union Territories and Other Areas. It gives the distribution of 10,000 workers other than those engaged in cultivation (Category I Cultivators and Category II Agricultural Labourers) by each division, major group, and minor group as given in the Indian Standard Industrial Classification.

The table excludes workers among 297,853 persons (Males 147,100, Females 150,753) from N.E.F.A. for whom an abridged family schedule was

canvassed instead of General all-India Individual Slip and Household Schedule.

Figures for Goa, Daman and Diu are those obtained from the material collected in the Census taken in that territory in 1960. Data were not, however collected for Household Industry in that Census. There are, therefore, no figures for Household Industry (Category IV).

The source for the material of this table is the main Table B-IV Part C, appearing in Vol. I Part II-B(i) General Economic Tables of India, 1961 Census.

**B-V.1 DISTRIBUTION OF 10,000 WORKERS OTHER THAN THOSE WORKING AS CULTIVATORS
OR AS AGRICULTURAL LABOURERS BY OCCUPATIONAL DIVISION, GROUPS AND
FAMILY OF NATIONAL CLASSIFICATION OF OCCUPATIONS**

FLY-LEAF

This table has been prepared for India, States, Union Territories and Other Areas. Figures have been shown for total and urban areas separately. It gives the distribution of 10,000 workers i.e., persons, males and females separately. The data are shown for workers other than those engaged in Industrial Categories I (Cultivators) and II (Agricultural Labourers) by each Division, Group and their Family according to National Classification of Occupations. All Division Total for persons, males and females have been distributed into Division O-X.

Occupational families 400-Cultivator Owners 401-Cultivator Tenants and 414-Agricultural Labourers are excluded from Division 4, as they relate to workers in cultivation (Industrial Category I—Cultivators and Category II—Agricultural Labourers) who are outside

the scope of this table which covers only workers other than in cultivation. Similarly, Group XO workers without occupations and its families X00—workers without occupations: matriculates and above; X08-workers without occupations: literates; and X09-workers without occupations: Others which relate to non-workers, stand excluded from this table. The table excludes workers from among 297,853 persons (Males 147,100, Females 150,753) of N.E.F.A. for whom an abridged family schedule was canvassed instead of General all-India Individual Slip and Household Schedule.

The source for the material of this table is the main Table B-V, appearing in Vol. I Part II-B(ii) General Economic Tables of India, 1961 Census.

B-VI.1 DISTRIBUTION OF 1,000 WORKERS IN EACH OCCUPATIONAL DIVISION AND IN EACH SEX BY EDUCATIONAL LEVELS IN URBAN AREAS ONLY

FLY-LEAF

In this table data are given relating to urban areas for India, States, Union Territories and Other Areas giving distribution of 1,000 workers other than those engaged in Industrial Categories I (Cultivators) and II (Agricultural labourers) by each sex. It also shows the distribution of literate workers for 'All Divisions' and in each occupational division by Educational

Levels.

Division 4 excludes Families 400,401 and 414 and Division X excludes Group XO.

The source for the material of this table is the main Table B-VI, appearing in Vol. I Part II-B(iii) General Economic Tables of India, 1961 Census.

B-VI.1 DISTRIBUTION OF 1,000 WORKERS IN EACH OCCUPATIONAL DIVISION

**B-VII PART A.1 NUMBER PER 1,000 PERSONS WORKING PRINCIPALLY AS CULTIVATORS
WHO ARE WORKING (i) AS CULTIVATORS AND AGRICULTURAL LABOURERS, (ii) AS
CULTIVATORS AND AT HOUSEHOLD INDUSTRY IN RURAL AREAS ONLY**

FLY-LEAF

This table gives data for rural areas of India, States, Union Territories and Other Areas. It gives the sex-wise distribution of 1,000 persons working principally as cultivators who are also engaged as agricultural labourers or at household industry as their secondary work. The table does not contain figures in respect of the Union Territory of Goa, Daman and Diu as the requisite data were not collected at the Census taken by the Portuguese Authorities in 1960 for this Territory.

Similarly, relevant data for workers among 297,853 persons (Males 147,100, Females 150,753) from N.E.F.A. for whom an abridged family schedule was canvassed instead of General all-India Census schedule, are not available.

The source for the material of this table is the main Table B-VII Part A, appearing in Vol. I Part II-B (iii) General Economic Tables of India, 1961 Census.

B-VII PART A.1 NUMBER PER 1,000 PERSONS WORKING PRINCIPALLY AS CULTIVATORS WHO ARE WORKING (i) AS CULTIVATORS AND AGRICULTURAL LABOURERS, (ii) AS CULTIVATORS AND AT HOUSEHOLD INDUSTRY IN RURAL AREAS ONLY

**B-VII PART A.2 NUMBER PER 1,000 PERSONS WORKING PRINCIPALLY AS AGRICULTURAL
LABOURERS WHO ARE WORKING (i) AS AGRICULTURAL LABOURERS AND
CULTIVATORS, (ii) AS AGRICULTURAL LABOURERS AND AT HOUSEHOLD
INDUSTRY IN RURAL AREAS ONLY**

FLY-LEAF

This table has been prepared for the rural areas of India, States and Union Territories and Other Areas. The table gives the sex-wise distribution per 1,000 persons working principally as agricultural labourers and having cultivation or household industry as their secondary work.

Figures for the Union Territory of Goa, Daman and Diu are not given as the requisite data were not collected at the Census taken by the Portuguese Authorities in 1960 for this territory.

Similarly, relevant data for workers among 297,853 persons (Males 147,100, Females 150,753) for N.E.F.A. for whom an abridged family schedule was canvassed instead of General all-India Census Schedule, are not available.

The source for the material of this table is the main Table B-VII Part A, appearing in Vol. I Part II-B(iii) General Economic Tables of India, 1961 Census.

B-VII PART A.3 NUMBER PER 1,000 PERSONS WORKING PRINCIPALLY AT HOUSEHOLD INDUSTRY, WHO ARE WORKING (i) AT HOUSEHOLD INDUSTRY AND AS CULTIVATORS, (ii) AT HOUSEHOLD INDUSTRY AND AS AGRICULTURAL LABOURERS

FLY-LEAF

This table has been prepared separately for total rural and urban areas of India, States, Union Territories and Other Areas. The data in the table gives number per 1,000 persons working principally at Household Industry and having their Secondary work as a Cultivator and Agricultural labourer by each sex.

These figures for the Union Territory of Goa, Daman and Diu do not appear in this table as data were not collected in the Census taken by the Portuguese Authorities in 1960 for this territory.

Similarly, relevant data for workers among 297,853 persons (Males 147,100, Females 150,753) for N.E.F.A. for whom an abridged family schedule was canvassed instead of General all-India Census Schedule, are not available.

The source for the material of this table is the main Table B-VII Part-A, appearing in Vol. I Part II-B (iii) General Economic Tables of India, 1961 Census.

**B-VIII PART A.1 DISTRIBUTION OF 1,000 MALES AND FEMALES WHO ARE UNEMPLOYED
IN EACH AGE-GROUP ACCORDING TO EDUCATIONAL LEVELS IN URBAN AREAS ONLY**

FLY-LEAF

This table relates to unemployed males and females aged 15 and above for urban areas of India, States, Union Territories and Other Areas. It gives the distribution of 1,000 males and females relating to two Categories of non-workers viz., (i) Persons seeking employment for the first time and (ii) Persons employed before but now out of employment and seeking work. This table also gives the distribution of 1,000 males and females of two categories of non-workers by broad age-groups and these are further classified by educational levels. The age-groups adopted are as follows:

(A) Persons seeking employment for the first time

- 15—19
- 20—24
- 25—29
- 30—34
- 35+
- Age not stated

(B) Persons employed before but now out of employment and seeking work

- 15—19
- 20—24
- 25—34
- 35—44
- 45—59
- 60+
- Age not stated

Figure for 'Age not stated' relates to those whose age was not recorded.

The following educational levels have been adopted:

- (1) Illiterate
- (2) Literate (without educational level)
- (3) Primary or Junior Basic
- (4) Matriculation or Higher Secondary
- (5) Technical Diploma not equal to degree
- (6) Non technical diploma not equal to degree
- (7) University degree or post graduate degree other than technical degree
- (8) Technical degree or diploma equal to degree or post-graduate degree
 - (i) Engineering
 - (ii) Medicine
 - (iii) Agriculture
 - (iv) Veterinary and dairying
 - (v) Technology
 - (vi) Teaching
 - (vii) Others

Relevant data for two categories of non-workers among persons 297,853 (Males 147,100, Females 150,753) for N.E.F.A. for whom an abridged Family Schedule was canvassed instead of General all-India Individual Slip and Household Schedule are not available.

The source for the material of this table is the main Table B-VIII Part A, appearing in Vol. I Part II-B(iii) General Economic Tables of India, 1961 Census.

Educational levels

[illegible]

**B-VIII PART B.1 DISTRIBUTION OF 1,000 MALES AND FEMALES WHO ARE UNEMPLOYED
BY EDUCATIONAL LEVELS IN RURAL AREAS ONLY**

FLY-LEAF

This table gives the distribution of 1,000 unemployed males and females aged 15 years and above by educational levels. It relates to rural areas of India States, Union Territories and Other Areas. The figures relating to males and females of two categories of non-workers, viz., (i) seeking employment for the first time, and (ii) employed before but now out of employment and seeking work, have been clubbed together. The educational qualifications are also restricted for the rural areas as indicated below:

- (1) Illiterate
- (2) Literate (without educational level)

- (3) Primary or Junior Basic
- (4) Matriculation and above

Relevant data for two categories of non-worker among persons 297,853 (Males 147,100, Female 150,753) from N.E.F.A. for whom an abridged family schedule was canvassed of General all-India Individual Slip and Household Schedule are not available.

The source for the material of this table is the main Table B-VIII Part B, appearing in Vol. I Part II-B(iii) General Economic Tables of India, 1961 Census.

B-IX.1 NUMBER PER 1,000 OF POPULATION AGED 15+ AND OF POPULATION OF EACH AGE-GROUP 15-34, 35-59, 60+ AND AGE NOT STATED (WHO ARE UNEMPLOYED, SEPARATELY FOR PERSONS, MALES AND FEMALES

FLY-LEAF

This table has been prepared for the rural and urban areas of India, States, Union Territories and District Areas. It gives the proportion of unemployed persons, males and females classified in three broad age-groups, viz., 15-34, 35-59, 60+ and Age not stated and also population of age 15+. Figures for 'Age

not stated' relate to those whose age was not recorded.

The source for the material of this table is the main Table B-IX, appearing in Vol. I Part II-B(iii) General Economic Tables of India, 1961, Census.

B-IX. 2 DISTRIBUTION OF 1,000 PERSONS NOT AT WORK BY AGE-GROUPS

FLY-LEAF

This table has been prepared separately for total, rural and urban areas of India, States, Union Territories and Other Areas. It gives the distribution of 1,000 non-workers of each sex classified by broad age-groups viz, 0-14, 15-34, 35-59, 60+ and Age not stated. Figures for 'Age not stated' relate to those whose age was not recorded.

This table excludes population of non-workers

from among 297,853 persons (Males 147,100, Females 150,753) of North-East Frontier Agency for whom an abridged family schedule was canvassed instead of General all-India Individual Slip.

The source for the material of this table is the main Table B-IX, appearing in Vol. I Part II-B (iii) General Economic Tables of India, 1961 Census.

TV stands for negligible.

**B-IX.3 DISTRIBUTION OF 1,000 PERSONS NOT AT WORK BY SEX AND 1,000 NON-WORKERS
OF EACH SEX BY TYPE OF ACTIVITY**

FLY-LEAF

This table has been prepared separately for total, rural and urban areas of India, States, Union Territories and Other Areas. It gives the distribution of 1,000 non-workers by sex. It also gives the distribution of 1,000 non-workers in each sex by eight types of activities indicated below:

- (i) Full time students
- (ii) Household duties
- (iii) Dependents, infants and disabled
- (iv) Retired, rentier or independent means
- (v) Beggars, Vagrants etc.

- (vi) Inmates of penal, mental and charitable institutions
- (vii) Persons seeking employment for the first time
- (viii) Persons employed before but now out of employment and seeking work

This table excludes the figures of non-workers from among 297,853 persons (Males 147,100, Females 150,753) of North-East Frontier Agency for whom an abridged family schedule was canvassed instead of general all-India Individual slip.

The source for the material of this table is the main Table B-IX, appearing in Vol. I Part II-B(iii) General Economic Tables of India, 1961 Census.
