ACKNOWLEDGEMENTS

Separate Tables have been specially compiled and presented for the Scheduled Castes and Scheduled Tribes at the 1961 Census. The particulars of the Scheduled Castes were mostly ascertained by the regular Census enumerators as they covered the other general population at the 1961 Census. It is to this host of Census enumerators who were essentially honorary workers that the credit goes primarily for having enabled us to compile these Tables. Along with them were the special enumerators of the Agency areas who braved all the rigours of the Agency climate and the difficulties of the terrain and successfully covered the remotest corners of the tract to gather the fullest particulars of the bulk of the Scheduled Tribes of the State that live there. I wish to place on record my appreciation of their devoted efforts which has made the present compilation possible. While the credit for the basic sorting of the Census schedules goes to the regional tabulation offices, the compilation of the Special Tables now published in this volume is chiefly the product of the hard and sustained work of a team of tabulation staff made up of Shri Yadgir Reddy, Tabulation Officer, Shri T. Brahmaiah, Assistant Tabulation Officer, Shri Cr. Koteswara Rao, Statistical Assistant and Shri V.L.N. Acharyulu, Shri K. Srimannarayana and Kumari T. Kusuma, Compilers, under the effective guidance of Shri P.S.R. Avadhany, Deputy Superintendent of Census Operations. The contribution of the comptists, typists, etc., in the preparation and checking of the Tables is of no small order.

I may also record my thanks to the Manager, Government of India Press, Nasik and his staff for their co-operation in bringing out this volume. The checking of proofs etc., was ably attended to by Shri K.S. Narasimha Murthy of my office.

Last, but not the least, I owe a debt of gratitude to Shri K.D. Ballal, Central Tabulation Officer, Registrar General's Office and the Central Tabulation Unit for their close and prompt scrutiny of the Tables and their guidance in finalising them.

A. CHANDRA SEKHAR,
Superintendent of Census Operations.

INTRODUCTION TO SPECIAL TABLES FOR SCHEDULED CASTES AND SCHEDULED TRIBES

Introductory :

This series of special tables for Scheduled Castes and Scheduled Tribes gives the population of each Scheduled Caste and Scheduled Tribe classified by Religion, Age, Marital Status, Education and distributed by Industrial categories adopted in Table B-I. After the 1931 Census, the population figures of individual Scheduled Castes and Scheduled Tribes are being given only at the present Census. The data are presented in the following five tables :

Table SCT—I : Industrial Classification of persons at work and Non-Workers by sex

Table SCT—II : Age and Marital Status

Table SCT—III : Education.

Part A—Urban areas
Part B—Rural areas

Table SCT—IV : Religion

Table SCT—V : Sample Households engaged in Cultivation classified by interest in land and size of land cultivated in Rural areas only (Households of members of Scheduled Castes/Scheduled Tribes in a 20% sample of all households)

All the above tables are given up to district level in this volume.

Besides the above five tables this volume contains the following three special tables relating to either Scheduled Castes or Scheduled Tribes exclusively.

Table SC—I : Persons not at work classified by sex, type of activity and educational levels for Scheduled Castes

Table ST—I : Mother Tongue and bilingualism for Scheduled Tribes

Table ST—II : Persons not at work classified by sex and type of activity for Scheduled Tribes

These three special Tables are also reproduced up to district level.

In the light of the safeguards provided in the Constitution for these communities, the Tables in this series will be of great use and guidance particularly to the State Government who have been working out several measures for the improvement of the condition of these communities by suitable welfare schemes under the Five Year Plans. The total Scheduled Caste and Scheduled Tribe population is given taluk-wise separately for Total, Rural and Urban areas and for each town under the State Primary Census Abstract. The village-wise population of Scheduled Castes and Scheduled Tribes is given under the Village Directory published in the District Census Hand Books.

The Scheduled Castes in Andhra Pradesh are those listed in Part I under "Andhra Pradesh" to Schedule I of the Scheduled Castes and Scheduled Tribes lists (Modification Order, 1956) published in the Notification of the Ministry of Home Affairs, New Delhi, dated 29th October, 1956. The list of Scheduled Castes together with the population of each Scheduled Caste by sex in Andhra Pradesh is given below :

*For brevity all these names have not been shown in the tables. Only the first name, such as Chenchu, Koya, Kondhs, Kotia-Bentho, Oriya, Mukha Dhora, Porja, Rona, Savaras, Gond and Kolam is shown in the tables.

Persons who have been returned as "Harijans" or simply "Scheduled Caste" in the Census enumeration slips—despite instructions that such general names should be avoided and that the actual names of the Castes should be ascertained in all cases,—have been sorted as "Scheduled Castes not known", in these tables. This was necessitated as some Scheduled Caste persons could not give their specific castes due to ignorance and merely gave their caste as "Harijan" and a few deliberately wanted that they should be recorded only as

"Harijans". Similarly persons returned as only "Scheduled Tribe" or simply "Tribe" have been shown as "Scheduled Tribes not known". The total number of persons under "Scheduled Castes not known" for the State is 18,648 and for "Scheduled Tribes not known" is 2,198.

The percentages of scheduled castes and scheduled tribes to the total population and also for the rural and urban areas in the State and each district are given in the following statement.

State/District	Percentage of Scheduled Castes to total population			Percentage of Scheduled Tribes to total population

TABLE SCT-I

**INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK
AND NON-WORKERS BY SEX FOR SCHEDULED
CASTES AND SCHEDULED TRIBES**

PART A SCHEDULED CASTES

PART B SCHEDULED TRIBES

TABLE SCT-I
INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR
SCHEDULED CASTES AND SCHEDULED TRIBES

This Table is divided into two parts. Part-A gives the total population, the industrial classification of persons at work under nine broad Industrial Categories and non-workers by sex for each Scheduled Caste and Part-B contains similar information for each Scheduled Tribe. The particulars are given for the RURAL AND URBAN areas separately, for the State and each district.

The industrial classification for each of the individual Scheduled Castes and Tribes is given for the first time in this Census. (The Census Reports upto 1931 contain data relating to the occupational classification of certain selected castes and tribes only). This table is very important because not only the strength of each Scheduled Caste and Scheduled Tribe is given but the distribution of working population among different sectors of industry is also available.

The details relating to Industrial Classification, followed in the 1961 Census are printed in the fly-leaf to Table B-I. However, for the convenience of the readers, a brief description of the Industrial categories is reproduced below :

Category I—Cultivation :

This class represents the persons engaged in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government; and (b) cultivation of land or supervision or direction of cultivation of land held from private person or institutions for payment in money, kind or share. For this purpose, cultivation involves, ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working in plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as a cultivator. Similarly, a person working in another person's land only as a labourer without any right or lease or contract on land on which he works, nor is responsible for taking decision as to which crops to sow and when, or taking the risk of cultivation and is paid wages in cash, kind or share such as share of produce, will not be treated as cultivator.

Category II—Agricultural Labourers :

Persons who work on land belonging to other persons, only as labourers, without exercising any supervision or direction in, cultivation, for wages in cash, kind or share such as share of produce belong to this category. Also such labourers do not have any right of lease or contract on land on which they work nor are they responsible for taking decisions as to which crop to sow and when, and are not concerned with the risks of cultivation. A share of produce goes to them only as wages. Persons who were working as Agricultural Labourers in the last or current cultivating season were recorded as such in the 1961 Census.

Category III—Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities :

Persons employed in mines and quarries, those engaged in rearing and keeping of livestock and poultry, in forestry and fishing and persons growing fruits or keeping orchards or groves or working in plantations like tea, coffee, rubber, cinchona and other medicinal plantations are included in this category.

These correspond to Divisions 0 & 1 of the Standard Industrial Classification.

Category IV—Household Industry :

Persons participating in Household Industry are included in this category. The test for a Household Industry is three fold :

(a) Household Industry includes manufacture, processing or servicing and may include sale but is not confined simply to buying and selling. At least part of the goods offered for sale from the household should be manufactured or processed by members of the household.

(b) Household Industry should be on the household scale where the workers mainly will be the head of the household himself and members of the household, the role of hired workers from outside being of secondary importance. Thus in any Household Industry, members of the household should be in a position to lend a hand in the industry whenever they find time in the course of their daily chores. Household Industry cannot, therefore, be on the scale of a registered factory but can use machinery and employ power like steam engine or oil engine or electricity to drive the machinery.

(c) Location is also important, for proximity decides participation by members of the household. In a village this participation is possible if the Household Industry is located at home or within the village but in urban areas only such industries which are located at home only are considered as Household Industries because in other cases free movement of the members of a household to look after their work may not be possible. Where, however, part of the work is done outside the house, e.g., preparing and dyeing the yarn for weaving or winding into warp and woof or cleaning metal surfaces before electroplating in Baths, it is still considered a Household Industry even in urban areas, as the main operation of weaving or of electroplating is conducted within the house and only one or two operations are conducted outside. Persons not working in their own Household Industries but working as paid employees in another Household Industry are also included in this category.

This category may cover those falling under Divisions 0, 1, 2 & 3 of the Standard Industrial Classification, provided the work is carried on an Household Industry basis.

Category V—Manufacturing other than Household Industry :

This category includes all persons engaged in processing and manufacture, repairing but not included in category IV. Persons employed in the registered factories thus form part of this category.

The category will cover Divisions 2 and 3 of the Standard Industrial Classification.

Category VI—Construction :

All persons engaged in construction and maintenance of buildings, roads, railways, bridges, tunnels, telegraph and telephone lines, waterways and water reservoirs such as bunds, embankments, dams, canals, tanks, wells, etc., are included in this category, which corresponds to Division 4 of the Standard Industrial Classification.

Category VII—Trade and Commerce :

This category includes all persons employed in retail and wholesale trade of all kinds and other commercial activities like banking, auctioneering, insurance, money lending and distribution of motion pictures and corresponds to Division 6 of the Standard Industrial Classification.

Category VIII—Transport, Storage and Communications :

All persons employed in any form of transport either by road, rail, water or air and persons participating in storage and warehousing activities, communications such as postal, telegraphic, telephone, broadcasting are included in this category which corresponds to Division 7 of the Standard Industrial Classification.

Category IX—Other Services :

This class includes all persons engaged in services like electricity, gas, water and sanitary services, public services, educational and scientific services, medical and health services, religious and welfare services, legal and business services, trade and labour associations, recreation services, personal services and the practically covers all such persons who do not fall under any of the 8 industrial categories mentioned above and also those whose activities have not been adequately described. General labourers who are accustomed to work on various miscellaneous jobs are classified under 'Other Services'.

Divisions 5, 8 and 9 of the Standard Industrial Classification are covered under this category.

Category X—Non-Workers :

All persons who are not engaged in any productive economic activity irrespective of whether they derive an income or not are shown under this category. This will cover persons who are (i) Full-time Students, (ii) House-wives, (iii) Dependents such as an Infant or Disabled or Infirm, (iv) Retired persons or Receivers not doing any productive work, (v) Beggars, Vagrants, Independent women without indication of source of income, (vi) Convicts in jail or Inmates in penal, mental or charitable institution, (vii) Persons who have not been employed before but are seeking employment for the first time or (viii) Persons employed before but now out of employment and seeking employment.

In addition to the Industrial Classification now wise and caste-wise, Part A of Table SCT-I gives the details of persons engaged in (i) Tanning and Currying and (ii) Scavenging for each Scheduled Caste. Only persons who are engaged in currying, tanning and finishing of hides and skins and preparation of finished leather are shown in the Table.

It will be observed from the Table SCT—I Part A that among the Scheduled Castes, two communities viz. Mala and Madiga are found throughout the State. These two communities are also having the largest population among the Scheduled Castes in all the districts except in East Godavari and West Godavari where 'Adi Andhra' community is the most numerous among scheduled castes. In all other coastal districts and Chittoor district, the population of 'Mala' community is relatively large, whereas, 'Madiga' caste accounts for a larger population in the other districts of Rayachoti and Telangana. 'Arundhatiya' caste is found mostly in East Godavari and West Godavari districts. 'Adi Dravida' in Chittoor District, 'Mala Sale' in 'Manne' Communities in Karimnagar and Adilabad districts.

As regards Scheduled Tribes, as may be seen from SCT I—Part B, in Srikakulam district the three tribes, Savaras, Jatapus and Konda Dhoras are the most numerous among tribal population. Bagata and Valmiki tribes apart from Konda Dhoras are found mostly in Visakhapatnam district. East Godavari, West Godavari, Khammam, Warangal and Adilabad districts account for most of the 'Koya' tribal population. Incidentally, Koyas form the strongest Scheduled Tribe in population. Kondareddis are the most numerous among tribes in East Godavari district. The population of

Yenadis who form the second largest scheduled tribe in the State, is considerable in Nellore, Guntur, Chittoor and Cuddapah Districts. Gonds are observed mainly in Adilabad, Karimnagar, Warangal and Khammam districts while Chenchus are conspicuous in Kurnool and Mahbubnagar districts. Sugalis (who are also known as Lambadis), and Yerukulas though spread out throughout the State, are recognised as Scheduled Tribes in the Andhra districts only. Hence no figures against Sugalis or Yerukulas will be found in the Telangana districts.

TABLE SCT-II

**AGE AND MARITAL STATUS FOR SCHEDULED CASTES
AND SCHEDULED TRIBES**

PART A SCHEDULED CASTES
PART B SCHEDULED TRIBES

TABLE SCT-II

AGE AND MARITAL STATUS FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This Table also consists of two parts, Parts A and B. Part A gives the Marital Status of the persons in the age groups 0-14, 15-44, 45+ and "Age not stated" for each Scheduled Caste and Part B furnishes similar information for each Scheduled Tribe for the State and each District.

This Table gives important demographic information relating to Age and Marital Status of Scheduled Castes and Scheduled Tribes which will give an indication whether the Tribal population is decreasing, stable or increasing. It is also possible to know from this Table and Table C—II Age & Marital status for the total population (Printed in Part II-C), the proportion of each of the Scheduled Castes and Scheduled Tribes in different marital status to the total population in the corresponding age group and marital status.

This table is also of considerable sociological interest as it enables us to see how far the custom of child marriage is prevalent among the different scheduled castes or tribes and whether this custom varies with each caste or tribe or the environment in which the caste/tribe is placed. For example child marriage appears to be quite common among the Chenchus as also the Gonds. But this is not so marked amongst Gadabas or Koyas or Kondareddis. Similarly amongst Sugalis, Yerukulas and Yenadis who live mostly in the plains child marriages do not appear to be so common as amongst the Gonds or the Chenchus. Further, the existence or the non-existence of widowed or divorced or separated persons in particular age groups will also throw some light on the prevalence of re-marriages or otherwise.

TABLE SCT-III PART A

**EDUCATION IN URBAN AREAS FOR SCHEDULED CASTES
AND SCHEDULED TRIBES**

PART A (i) SCHEDULED CASTES

PART A (ii) SCHEDULED TRIBES

TABLE SCT-III PART A

EDUCATION IN URBAN AREAS ONLY FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This Table is prepared in 2 sub parts viz., (1) Part-A (i) dealing with Scheduled Castes and (2) Part-A (ii) dealing with Scheduled Tribes and gives the literacy figures in respect of each scheduled caste and scheduled tribe, in the urban areas of the State and of each district.

A literate, according to the definition adopted in the 1961 Census, is one who is able to read matter in print or manuscript and can write a simple letter. In this Table, in addition to the number of mere literates, the number of persons having the following educational qualifications is also given.

- (i) Primary or Junior Basic
- (ii) Matriculation or Higher Secondary
- (iii) Technical Diploma not equal to Degree
- (iv) Non-technical Diploma not equal to Degree
- (v) University Degree or Post Graduate Degree other than Technical Degree and

- (vi) Technical Degree or Diploma equal to Degree or Post Graduate Degree

This Table will be very useful to the educational authorities to formulate plans for providing adequate educational facilities to the Scheduled Castes and Scheduled Tribes.

The statement on the following page gives a comparative idea of the extent of literacy and attainment of different educational levels among the general population, scheduled castes and scheduled tribes in the urban areas of the State and each district, separately for males and females.

It will be observed from the statement that even in the urban areas 67.5% among the scheduled castes males and 89.4% amongst the scheduled castes females are illiterate. The percentage of illiterates among the scheduled tribes in the urban areas is still higher, the figures being 83.8% for males and 95.4% for females. The large disparity between the general population and the Scheduled Caste and Scheduled Tribe population in the proportions of those with higher levels of education can also be observed in particular.

TABLE SCT-III PART B

**EDUCATION IN RURAL AREAS ONLY FOR SCHEDULED
CASTES AND SCHEDULED TRIBES**

PART B (i) SCHEDULED CASTES

PART B (ii) SCHEDULED TRIBES

TABLE SCT-III PART B
EDUCATION IN RURAL AREAS ONLY FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This is Rural Part of the Table SCT III giving the literacy figures for Scheduled Castes in the Sub-Part B(i) and Scheduled Tribes in Sub-Part B(ii) in the Rural areas of the State and of each district. This is similar to Table SCT III Part-A in all respects excepting that the educational qualifications have been restricted to only (i) "Literate (without educational level)", (ii) Primary or Junior Basic and (iii) Matriculation and above.

The following statement gives a comparative idea of the extent of literacy and attainment of different educational levels among the general population,

scheduled castes and scheduled tribes in the rural areas of the State and each district, separately for males and females.

89% of the males and 98% of the females among the scheduled castes are still illiterate. The corresponding figures for scheduled tribes are 93% for males and 99% for females.

These two tables SCT-III Part A and SCT-III Part-B will be helpful in locating the regions and the castes or tribes which require particular attention in the matter of educational facilities, etc.

TABLE SCT-IV

RELIGION FOR SCHEDULED CASTES AND SCHEDULED TRIBES

This table gives the religion professed by members of each caste/tribe among the Scheduled Castes and Scheduled Tribes.

tribal population professing each of these five religions to the total Scheduled Tribes population is given below :

<i>Name of the Religion</i>	<i>Proportion</i>
1. Hindu	99.64%
2. Christian	0.32%
3. Buddhist	0.02%
4. Muslim . }	0.02%
5. Jain . }	

This table also is prepared 2 parts viz. (i) Parts A relating to Scheduled castes and (ii) Part B pertaining to Scheduled tribes. The figures are given separately for Rural and Urban areas.

All the 216 Budhists recorded under Scheduled Tribes were returned from Visakhapatnam District Rural only. 171 (79.2%) of these Buddhists were returned in the tribe Konda Dhoras.

Scheduled Castes are recognised only amongst the Hindus and Sikhs. However, all the the Scheduled Castes in this State belong to the "Hindu" religion only. Hence Part A of this table is omitted.

Out of the total of 3,524 Christians, 1,757 and 811 persons (38.8% and 17.9%) respectively were returned from the Ycrukulas and Konda Dhoras respectively. Valmikis with 638 (14.1%) occupy the next place.

Scheduled tribes may belong to any religion. In Andhra Pradesh among the Scheduled Tribes only five religions viz., Hindu, Christian, Buddhist, Muslim and Jain have been returned. The proportion of the

PART A SCHEDULED CASTES

PART B SCHEDULED TRIBES

TABLE SCT-V

SAMPLE HOUSEHOLDS OF SCHEDULED CASTES AND SCHEDULED TRIBES ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED IN RURAL AREAS ONLY

(Households of members of Scheduled Castes/Scheduled Tribes in a 20% sample of all households)

This table gives the two-way distribution of sample households engaged in cultivation among Scheduled Castes/Scheduled Tribes according to 11 categories based on the size of land cultivated in acres *viz.*, (i) less than 1 (ii) 1.0—2.4 (iii) 2.5—4.9 (iv) 5.0—7.4 (v) 7.5—9.9 (vi) 10.0—12.4 (vii) 12.5—14.9 (viii) 15.0—29.9 (ix) 30.0—49.9 (x) 50+ and (xi) Unspecified and three broad types of interest in land cultivated namely (i) owned or held from Government—generally owners or pattadars (ii) held from private persons or institutions for payment in money, kind or share—lessees or tenants and (iii) partly held from Government and partly held from private persons for payment in money, kind or share.

This table is divided into 2 parts. Part A relates to Scheduled Castes and Part B pertains to Scheduled Tribes. The figures are given for the rural areas of the State and each district.

It will be observed that 88% of the cultivating households belonging to Scheduled castes have holdings ranging in extent from less than 1 acre to 7.4 acres while in the case of 58% of the households the extent of holding varies between less than 1 acre to 2.4 acres. Similarly in the case of households belonging to Scheduled tribes, nearly 74% have holdings lying between less than 1 acre and 7.4 acres and 35% of the households possess holdings of 2.4 acres or less.

TABLE SC-1

**PERSONS NOT AT WORK CLASSIFIED BY SEX, TYPE OF ACTIVITY
AND EDUCATIONAL LEVELS FOR SCHEDULED CASTES**

TABLE SC-I
PERSONS NOT AT WORK CLASSIFIED BY SEX, TYPE OF ACTIVITY AND EDUCATIONAL LEVELS FOR SCHEDULED CASTES

This table gives the distribution of persons not at work among the Scheduled Castes by sex and type of activity for Total, Rural and Urban areas of the State and each district. The total non-working population among Scheduled Castes is classified under the following four categories; (i) Full time students, (ii) Persons seeking employment for the first time, (iii) Persons employed before but now out of employment and seeking work and (iv) others and cross-tabulated for different educational levels. The educational levels given in SCT-III Part B have been adopted here except that the level "Matriculation and above" in SCT-III Part B has been split up into two viz., (i) Matriculation and Higher Secondary and (ii) Above Matriculation and Higher Secondary.

This table is prepared for all Scheduled Castes put together and not for individual castes.

The proportions of non-workers among the Scheduled Castes under different educational levels are given below:

1. Illiterates	90.13%
2. Literates (without educational level)	5.89%
3. Primary or Junior Basic	3.64%
4. Matriculation or Higher Secondary	0.30%
5. Above Matriculation or Higher Secondary	0.03%

This table will be useful in formulating plans for relieving unemployment based on the educational attainments of the unemployed persons among the Scheduled Castes.

TABLE ST-I

MOTHER TONGUE AND BILINGUALISM FOR SCHEDULED TRIBES

TABLE ST-I
MOTHER TONGUE AND BILINGUALISM FOR SCHEDULED TRIBES

This table prepared exclusively for the Scheduled Tribes gives the Mother Tongues and the subsidiary languages spoken by each Scheduled Tribe. The figures are given for the State and each district and not separately for the Rural and Urban areas. The Scheduled Tribes have their own peculiar languages and dialects and this table gives the language or dialect of each tribe.

In the case of those members of the tribes who have moved out of their homes and as a result of contact with the local population speak some other languages also, these subsidiary languages are also shown in the table. The number of male and female speakers of the subsidiary language is indicated in brackets after the

subsidiary language under column (6) of the table.

It cannot be taken for granted that a particular tribe will speak only a particular language as Mother tongue. For example a large majority of Gonds in Adilabad District have returned their Mother tongue as Gondi, whereas in Karimnagar District as also in Warangal and Khammam Districts, the majority of Gonds have returned their mother tongue as Telugu. Tribes like Yerukula have returned their Mother tongue as Telugu, Yerukula and Tamil also. This table showing the distribution of each of the tribes according to Mother tongue in each district may help the educational authorities in deciding upon the medium of instruction in the schools in the tribal areas.

AND TYPE OF ACTIVITY FOR SCHEDULE**

TABLE ST-II
PERSONS NOT AT WORK CLASSIFIED BY SEX AND TYPE OF ACTIVITY FOR SCHEDULED TRIBES

This table gives the classification of persons not at work by sex and type of activity for each individual Scheduled Tribe. The types of activity under which the persons not at work are classified are the same as those adopted in Table SC-I viz. (1) full time students, (2) Persons seeking employment for the first

time (3) Persons employed before but now out of employment and seeking work (4) Others. This table is similar to SC-I with the difference that the particulars here are given for each Scheduled Tribe and the number of unemployed in each tribe is given without reference to literacy levels.
