P R E F A C E

THE CENSUS of 1961 in Nagaland was taken during an important transitory period in the history of this part of the Indian Union. On 1st December 1957 a separate administrative unit known by the name 'Naga Hills Tuensang Area' came into existence. It comprised the former Naga Hills District of Assam and the Tuensang Frontier Division of the North-East Frontier Agency. This administrative unit was placed under the Ministry of External Affairs of the Government of India and administered through the Governor of Assam acting as the agent to the President of India.

From 18th February 1961, in deference to the wishes of the Naga people this centrally-administered territory was called "NAGALAND" and a Council designated as the "Interim Body" was constituted. The full-fledged State of Nagaland was inaugurated by the President of India on 1st December 1963 as the sixteenth State of the Indian Union.

As Nagaland is a small compact area, it was from the very beginning considered unnecessary to set-up any elaborate Census machinery in Nagaland. Pursuant to this, it was decided that the tabulation work of Nagaland would be undertaken by the Superintendent of Census Operations, Assam. Hence, the main tables in this volume have been prepared in the Census Tabulation Office, Shillong (Assam). I am thankful to Shri E. H. Pakyntein, Superintendent of Census Operations, Assam and his tabulation staff for the keen interest taken in preparing these tables. I am also grateful to Shri. K. D. Ballal, Central Tabulation Officer, Office of the Registrar General, India, New Delhi and his staff for thoroughly checking them.

By 1961, the administrative set-up of Nagaland had undergone many changes from what it was in 1951. Also new Districts and Subdivisions, and even villages had come into existence. Therefore several new problems had to be tackled for organising the 1961 Census Operations. However, all tangible aspects of the various tables have been explained in this volume as fully as possible.

Table SCT-V was prepared on a 20% (twenty per cent) sample households drawn from the Household Schedules and all the other tables have been prepared on full count from the individual slips. The relevant extracts from the Manual of Instructions to Enumerators relating to Questions 2, 3, 5(b), 5(c), 6, 7(a), 7(b), and 8 to 12 on the basis of which these tables have been prepared are reproduced in the Annexure to this Introduction. The material obtained in this census on the Scheduled Castes and Scheduled Tribes is important for the planning of the numerous schemes for the welfare, advancement and development of these communities. The detailed data presented in these tables will be more useful in assessing the progress made by these communities in education, economic development *etc.* This will also be helpful in implementing future developmental work to improve the conditions of the Scheduled Castes and Scheduled Tribes as such detailed statistics have not been collected in any of the previous Censuses.

Scheduled Castes and Scheduled Tribes

Certain special safeguards are provided in the Constitution of India for the Scheduled Castes and the Scheduled Tribes. Under Article 46 of the Constitution the State is to promote with special care the educational and economic interests of the weaker sections of the people, and in particular of the

Scheduled Castes and Scheduled Tribes and to protect them from social injustice and all forms of exploitation.

The term "Scheduled Castes" means such castes, races, tribes or parts of or groups within such castes, races or tribes as are declared to be Scheduled Castes by the President of India under Article 341(1) of the Indian Constitution. Scheduled Tribes mean such tribes or tribal communities or parts of or groups within such tribes or tribal communities as are declared by the President of India to be Scheduled Tribes under Article 342(2) of the Constitution. It has also to be noted that according to the instructions issued to census enumerators a Scheduled Caste person may belong to Hindu or Sikh religion only; while a Scheduled Tribe may belong to any religion.

The Articles from the Constitution of India particularly relating to the Scheduled Castes and the Scheduled Tribes, *etc.* which will be of some interests to the readers are reproduced in the Appendix.

No specific list for Scheduled Castes and Scheduled Tribes has been prepared for Nagaland. Hence, as suggested by the Registrar General, India for the Scheduled Castes the list of Scheduled Castes for Assam was adopted. Similarly for the Scheduled Tribes the list as given for Assam under item

I for Kohima and Mokokchung districts and under item 2 for Tuensang district has been followed for enumeration purposes in Nagaland. These lists of Scheduled Castes and Scheduled Tribes which formed the basis of Census enumeration in Nagaland are reproduced below :

Scheduled Castes in 1961 Census

According to the 1961 Census, the population of the Scheduled Castes in Nagaland is only 126 consisting of 80 males and 46 females. The Scheduled Castes form only 0.034 per cent of the total population in Nagaland.

In all only six Scheduled Castes have been returned in Nagaland. They are :

1. Bansphor
2. Dhupi or Dhobi

12. Singpho

The figures returned under the classification "Any Naga Tribes" will reveal that as far as Nagaland is concerned the above list of Scheduled Tribes was not exhaustive as the term does not cover a single composite tribe but a combination of several Naga tribes. Even otherwise the Assam list is vague as it omits the synonyms and generic names of various Scheduled Tribes.

The following statement shows the population of Scheduled Castes and Scheduled Tribes in Nagaland and its three districts.

3. Kaibartta or Jaliya
4. Mehtar or Bhangi
5. Muchi or Rishi
6. Sutradhar

Out of these six Scheduled Castes, only three Scheduled Castes namely—(1) Dhupi or Dhobi (2) Kaibartta or Jaliya and (3) Mehtar or Bhangi with total population of 31 consisting of 26 males and 5 females found in the rural areas of Nagaland. The distribution of these Scheduled Castes in the rural areas of Nagaland is shown below :

Name of District	Name of Scheduled Castes	Population		
		Persons	Males	Females
1	2	3	4	5
Mokokchung	1. Dhupi or Dhobi	1	1	..
	2. Mehtar or Bhangi	3	3	..
Tuensang	1. Dhupi or Dhobi	12	10	2
	2. Kaibartta or Jaliya	15	12	3

There were no Scheduled Castes in the rural areas of Kohima district. In the urban areas of Nagaland there were in all five Scheduled Castes namely—(1) Bansphor, (2) Dhupi or Dhobi, (3) Mehtar or Bhangi (4) Muchi or Rishi and (5) Sutradhar. The

total population of all these five Scheduled Castes is 95 persons consisting of 54 males and of 41 females. The population details of individual scheduled castes found in urban areas are given below :

Name of District	Name of Scheduled Castes	Population		
		Persons	Males	Females
1	2	3	4	5

The Statement below summerises the percentage of Scheduled Castes for

Nagaland, its three districts and three towns.

Kohima Town	..	0.20	..	..
Dimapur Town	..	1.20	..	1.90

It will be observed that 0.025 per cent of Scheduled Castes live in Kohima district and only 0.002 per cent of Scheduled Castes found in Mokokchung district which is less than Tuensang district where percentage of Scheduled Castes is 0.007.

It will be clear from the above that Nagaland has no indigenous Scheduled Castes. The number of Scheduled Castes enumerated in Nagaland are mainly labourers brought in from outside the territory by contractors and businessmen. And therefore strictly speaking these Scheduled Castes cannot be considered as indigenous Scheduled Castes of Nagaland.

In the 1961 Census, some Scheduled Tribes returned themselves under generic names and a few people were returned under synonyms locally used. Some were merely returned as "Scheduled Tribes" without specifying any of the above classifications. In a few cases, the name of the sub-tribe or clan alone was returned ; while in others only the name of dialects/languages spoken by a section of tribes was mentioned. All these persons including those who returned themselves as

Since the population of Scheduled Castes found in Nagaland is negligible, no attempt has been made to study them in detail.

It will be observed from the above that in Kohima district 86.66 per cent of the population are Scheduled Tribes. Mokokchung district has 94.45 per cent of its population as Scheduled Tribes and Tuensang district has 97.03 per cent. Among the urban units, Mokokchung town has the largest percentage of Scheduled Tribes. In Mokokchung town the percentage of Scheduled Tribes population is 81.68 among males and 91.07 among females which is higher than the Nagaland's average of 44.55 per cent among males and 62.52 per cent among females. ANNEXURE

EXTRACTS FROM THE MANUAL OF INSTRUCTIONS TO ENUMERATORS
[Relating to Questions 2, 3, 5(b), 5(c), 6, 7(a), 7(b) and 8 to 12]

Q. 2 Age in completed years last birthday

Write age in years completed last birthday. For infants below one year of age, write 'O'. You will find many persons who cannot state their age correctly. You should assist them to state the correct age. If you are not able to elicit correct age directly, you should stimulate their memory by referring to historical incidents or religious events etc. You may use any local calendar of such events that may have been prepared for the purpose.

Q. 3 Marital Status

For never married	Write	NM
Married	Write	M
Widowed	Write	W
Separated or divorced	Write	S

For a person who has never been married Write 'NM'. For a person married, whether for the first or another time Write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for persons in stable *de-facto* union. Even if a marriage is disputed in the locality Write 'M' if the person concerned says he or she is married or in stable *de-facto* union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been divorced in a lawful manner, either by decree of a law court or by a regular social or religious custom but who has not remarried, or a person who has been separated from wife or husband and is living apart with no apparent intention of living together again, Write 'S'. For a prostitute return her marital status as declared by her.

Q. 5 (b) Religion

Muslim	Write	M
Christian	Write	C
Jain	Write	J
Buddhist	Write	B
Sikh	Write	S

For others write the answers actually returned.

The answer to this question will be recorded only if a person belongs to a Scheduled Caste or Scheduled Tribes. If the person belongs to a Scheduled Caste or Scheduled Tribe obtaining in your State, or in your dis-

trict write the name of the caste or tribe to which he belongs. For all others, write 'X' in this column.

Do not write the names of Scheduled Castes in general terms as 'Harijan', 'Achhut'. You should ascertain the name of the caste when it is returned and write it. If a person is negligent and insists on calling himself merely 'Harijan' tell him that this description will not earn the person any benefits under the constitution permissible to Scheduled Castes and Scheduled Tribes. This may persuade him to give out the correct name.

Scheduled Castes can belong only to the Hindu or Sikh religions. If a person belongs to a Scheduled Caste, there will be either 'H' or 'S' in the answer to question 5(b). Scheduled Tribes may belong to any religion.

Q. 6 Literacy & Education

I. ILLITERATE OR LITERATE

For a person

- | | | |
|---|-------|---|
| 1. Who can neither read nor write or can merely read but cannot write in any language | Write | O |
| 2. Who can both read and write | Write | L |

The test for reading is ability to read any simple letter either in print or in manuscript. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can with understanding both read and write.

II. STANDARD OF EDUCATION

If the person can both read and write and has also passed a written examination or examinations as proof of an educational standard attained, write the highest examination passed instead of L.

Q. 7 (a) Mother Tongue

Write the mother tongue in full including dialect as returned by the person enumerated. Mother tongue is language spoken in childhood by the person's mother to the person or mainly spoken in the household. If the mother died in infancy write the language mostly spoken in the person's home in childhood. In the case of infants and deaf mutes give the language usually spoken by the mother.

Q. 7 (b) Any other Language (s)

After recording the mother tongue enquire whether the person knows any other language (s) Indian or foreign, and write the language (s) returned by him against this question. In case he does not know any other language put 'X'.

The number of languages recorded against this question should not be more than two. These languages should be other than his mother tongue which he speaks and understands best and can use with felicity in communicating with others. Such language or languages will exclude dialects of the same language.

Q. 8 to 11 Working

These questions apply only to workers. A person who is working may be working as a Cultivator, as an Agricultural Labourer, at Household Industry or may be doing any other work. You have to record the answers in questions 8, 9, 10 and 11 according as the person is working as a Cultivator or as an Agricultural Labourer or at a Household Industry or doing any other work. He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a Cultivator and an Agricultural Labourer, in which case he should be entered both in Q. 8 and Q. 9. Or, he may be working both as Cultivator and at Household Industry in which case he will be entered in Q. 8 and Q. 10. Or, he may be working in any possible combination of 8, 9, 10 and 11, in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four questions 8 to 11.

Detailed instructions as to how the answers should be recorded in the individual questions are given against those questions below. You should carefully study them before recording the answers. For an undertrial prisoner enumerated in a Jail he should be recorded for the work or kinds of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of work he was doing before he was admitted into hospital or institution. But, for a convict in a prison or for long term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded but it should be recorded in Q. 12 below.

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry, etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as worker. A person who has been offered work but has not actually joined should be treated as non-worker. *Work includes not only actual work but effective supervision and direction of work.*

Persons under training as apprentices with or without stipend or wages will be regarded as working.

An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purposes of this question. If, however, in addition to her household work she engages herself in work such as rice pounding for sale

or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass, etc., or any such work she would be treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in Q. 11.

Q. 8 Working as Cultivator

For a person working as cultivator write C. For a person not working as cultivator and for a person not working at all put X.

For purposes of the census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of a land held from private persons or institutions for payment in money, kind or share.

Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations. Persons engaged in fruit growing or orchardry or plantation like tea, coffee, rubber, cinchona and other medicinal plantations, should be entered in Q. 10 or Q. 11 as the case may be.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land will not be treated as working as cultivator. Similarly, a person working in another person's land only as a labourer and has no right or lease or contract on land on which he works, nor is responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation and is paid wages in cash, kind or share such as share of produce (Agricultural Labourer) will not be treated as cultivator in this question.

Q. 9 Working as Agricultural Labourer

Write AL for a person working as agricultural labourer, i.e., a person who works in another person's land only as a Labourer without exercising any supervision or direction in cultivation, for wages in cash, kind or share such as share of produce. For others put X. The labourer should have no right or lease or contract on land on which he works, nor should he be responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation. A share of the produce goes to him only as wages. He

should have been working as Agricultural Labourer in the last or current cultivating season.

Q. 10 (a) and 10 (b)
Household Industry

If a person is working in a Household Industry write (1) the nature of work done by him in the Household Industry against question 10 (a) and (2) the nature of the Household Industry against questions 10 (b). Otherwise put X in both questions 10 (a) and 10 (b). A Household Industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. You should carefully keep in mind the definition of Household Industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

A person though he may not be working in his own Household Industry may be working as a paid employee in another Household Industry. You should, therefore enquire whether the person who is not working in his own Household Industry is working in any other Household Industry and if so, write the nature of the work done by him against question 10 (a) and the nature of the Household Industry against 10 (b).

Q 10 (c) If
employee in House-
hold Industry

This question will be filled up only for a person who is working as a paid employee in another person's Household Industry. In his or her case write E.E. For all others put X.

The following examples will illustrate how questions 10 (a) to 10 (c) should be filled up for persons working at Household Industry :—

Q. 10—Working at Household Industry

(a) Nature of work	(b) Nature of Household Industry	(c) If Employee

Q. 11 Doing
Work other than
8, 9 or 10

If a worker is not working as a cultivator or as an agricultural labourer or at any Household Industry write the actual work he is doing. If a person is working as a cultivator or as an agricultural labourer or at Household Industry and also does some other work (including dairying or livestock raising, orchard or plantation, etc., as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above write here the work on which he devotes more time.

Q. 11:(a) Nature
of Work

In the case of persons not working or who work only as cultivator or as agricultural labourer or at Household Industry, put X.

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in vernacular transliteration of English. At previous censuses much trouble has been caused by inadequate answers, and if you do not succeed in obtaining satisfactory information on the individual slips, you will be required to make a further visit for that purpose.

Q. 11 (b) Industry, Business, Trade, Profession or Service

In the case of a person who is working and the nature of whose own work has been recorded in question 11 (a), you should write here the nature of industry, business, trade, profession or service in which the person works.

As in the case of question 11 (a), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired, should be given. If more than one article is produced the chief article produced or serviced or repaired should be given. In the case of business or trade the principal article of trade should be described. In the case of service describe the nature of the service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population. The description should be either in the vernacular or in English or in vernacular transliteration of English.

In the case of a person for whom an X is put in Question 11(a) put an X in this question also.

Important points to remember in Questions 11 (a) and 11 (b)

1. Women or children who help with work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass, etc., should be described fully even if they work part-time. *In the case of married or grown-up women who do any of the work mentioned above in addition to the usual household duties such work should be fully described and HW written in brackets after the full description.*
2. If a person makes the articles he sells, he should be entered as maker and seller of them.
3. Wherever convenient, for complete description, the work should be expressed by the vernacular name by which it is known.
4. The following are too vague and must not be used by themselves :
Scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher.
5. **LABOURERS**
For an unskilled labourer usually employed on one sort of work alone, give also the sort of work done, e.g., railway porter, market or bazar porter, labourer employed on road digging, bricklayer's labourer. If accustomed to work on various jobs, write general labourer.
6. **MACHINE OPERATORS**
Always state the kind of machine giving its recognised name, if any.

7. SHOP-KEEPERS, RETAIL DEALERS, SHOP ASSISTANTS

If wholly or mainly engaged in selling, write 'Dealer' (if principal) or 'Shop Assistant' or 'Salesman' (if assisting) and state whether the business is wholesale or retail or both. For shop assistants and salesmen in stores with several departments, state the particular department in which engaged (e.g. Ship and Railway Parts Fans and Sewing Machines, Grocers and Confectioners).

8. TRANSPORT WORKERS

Describe fully the nature of the transport e.g., air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by horse, etc.

9. SERVICES

For a person engaged in the Defence Services write 'Service of Central Government'.

10. If the job is known in the trade or industry by a special name, use that name. Manager, Foreman, etc., should be given the department/branch wherever applicable e. g., Sales Manager or a Manager of Hardware Department, Machine Shop Foreman or Boiler Room Foreman, etc. The following terms are insufficient by themselves :

Manufacturer, merchant, agent, broker, refractor, dealer, engineer and iron works etc.

11. DOMESTIC SERVICES

In the case of any private servant, e. g., a cook or domestic servant, write only 'private cook or domestic servant'. There is no industry in his case but in the case of persons employed in hotels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., should be added.

For persons in the employ of firms carrying on two or more businesses, if the businesses are carried on in separate premises then the business carried on at the premises in which the person is employed should be given. If the businesses are carried on in the same premises but each has a separate organisation (i. e., they have separate records of employment, production, etc.) then the appropriate business should be quoted. If, however, the two activities are carried on side by side then the major activity of the firm or establishment should be given.

12. COMMERCE

Special care should be taken to see that the distinction between retail and wholesale business is clear. As in industries, the goods handled should be clearly indicated.

For a person who is :

1. an *Employer*, that is, who hires one or more persons in his work described in Q. 11 (a)

Write MR

Q. 11 (c) Class of worker

2. an *Employee*, that is, does his work described in Q. 11 (a) under others for wages or salary in cash or kind Write EE
3. a *Single Worker*, that is, who is doing his work described in Q. 11 (a) without employing others except casually, and without the help of other members of the family except casually. This will include workers working as members of co-operatives Write SW
4. a *Family Worker*, that is, who is doing his work described in Q. 11 (a) in own family without wages or salary in cash or kind Write FW

For a person for whom an 'X' is put in Qs. 11 (a) and 11 (b) put an X in this question also.

Explanation :

(i) An *Employer* is a person who has to employ other persons in order to perform the work entered in Q. 11 (a). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11 (a). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another persons in his office on behalf of his own employer or employers.

(ii) An *Employee* is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as Managers, Superintendents, Agents, etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above and should not be regarded as employers.

(iii) A *Single Worker* for the purpose of Q. 11 (c) is a person who works by himself but not as Head of Household in a Household Industry. He is not employed by any one else and in his turn does not employ anybody else not even members of his household except casually. This definition of a *Single Worker* will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producers' co-operative. Each one of the partners or members of such producers' co-operatives should be recorded as 'Single Worker'.

(iv) A *Family Worker* is a member who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season. For the purpose of the entire Q. 11, such an industry should be on a scale larger than what has been covered, in 'House-

hold Industry' in Q. 10 whether run at home or away from home in town or village and even away from village in rural area and should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or Head of the House or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

Describe in detail the name of the factory, workshop, business house, company, shop etc. If a person has no fixed place of work, write 'No fixed place of work'.

After you have filled up the answers to questions 8 to 11, if you find that in the case of any person more than one productive activity has been recorded i.e. more than one of the questions 8, 9, 10, or 11 has been filled up by some work you should ask him which one of the activities that has been recorded for him is his principal work. The principal work is the one on which the person spends most time. Put a ring round the

number of the questions 8, 9, 10 or 11, according to the work on which the person says he spends most time. You should invariably ask for the principal work where more than one work is recorded and put a ring round the question relating to the principal work.

It may be that in a few cases you find that you have recorded more than two productive activities in questions 8 to 11, i.e. more than two of the questions 8 to 11, would have been filled up by some work. In such cases you should first ascertain the principal work, i.e. the one on which the person spends most time and put a ring round the number of the question. You should then ascertain the work which is the next in importance to his principal work, i.e. the work after his principal work which occupies most time. You should put a tick against the question number of that work on the right hand side of the question number. The ring and the tick should be put clearly so that any difficulty will not be felt to recognise them clearly.

**Q. 12 Activity,
if not working**

This question will apply to a person NOT working.

Write 'X' in this question for a person who is working, that is, for whom you have recorded the work in any of the questions 8 to 11 above.

The following activities should be recorded in the case of persons NOT working :

1. For a full-time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation, industry, trade or business Write ST
2. For a person engaged in unpaid home duties (like housewife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business Write HW
3. For any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age Write D
4. For a retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work Write R
5. For a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence Write B

6. For a convict in jail (an undertrial prisoner will be shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution Write I
7. For a person who has not been employed before but is seeking employment for the first time Write NE
8. For a person employed before but now out of employment and seeking employment Write UN

Explanation : If a person, who does not work, cannot be readily classified in any of the above categories, put him in category 5 and write B in this question. A retired person who has taken up regular work again should not be entered in this question as he would have been entered for his new work in Questions 8 to 11.

A person who is not working but has been offered work which he has not joined should be included in item 3 and 'D' should be written. He should not be included in items 7 or 8.

CASTES AND SCHEDULED TRIBES

**TABLE SCT-1 INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY
SEX FOR SCHEDULED CASTES AND SCHEDULED TRIBES**

Fly-leaf

Part A : This table relates to Scheduled Castes only. It presents the distribution of Scheduled Caste population by sex along with the sectors of industry in which the members of each Scheduled Caste are working. It presents data for Nagaland, its three districts separately for rural and urban areas. Kohima district has no Scheduled Castes in its rural area and hence it has been omitted from the rural area.

Part B : This table presents data for the Scheduled Tribes only. It gives the population figures of Scheduled Tribes classifying them into workers and non-workers and then of workers into nine categories of economic activity. The definition and the concept of workers and non-workers and the nine industrial categories have been explained in the introduction. Data have been presented for Nagaland, its three districts for rural and urban areas separately.

TABLE SCT-II PARTS A AND B

AGE AND MARITAL STATUS FOR SCHEDULED
CASTES AND SCHEDULED TRIBES

TABLE SCT-II AGE AND MARITAL STATUS FOR SCHEDULED CASTES AND SCHEDULED TRIBES

Fly-leaf

This table has been prepared in two parts—Part A—for Scheduled Castes and Part B—for Scheduled Tribes. This table furnishes data relating to marital status of the Scheduled Castes and the Scheduled Tribes by broad age-groups. The age-groups adopted in this table are 0-14, 15-44, and 45+. The ages of the persons were recorded in Question 2 of the individual slip in completed years on the last birthday before 1st March 1961. The population has been classified into the following four categories of marital status :

(i) *Never Married :*

This category includes persons who have never been married or who never entered into the state of matrimony

(ii) *Married :*

This category embraces all persons who have been married, whether for the first time or another time. These include

those recognised as married by custom or society and those who are enjoying stable *de-facto* union

(iii) *Widowed :*

This category includes persons whose husbands or wives are dead and who have not remarried

(iv) *Divorced or Separated :*

The persons who have been married before, but their marital ties were broken by law, society or by mutual consent and they have not married again were considered as "divorced". Persons who have been separated from wives or husbands judicially or by mutual agreement and are living apart with no intention of living together again were regarded as "separated".

The table has been prepared for total population only of Nagaland and its three districts without any break-up for rural and urban areas.

- (ii) Part A (ii) — Education in urban areas for Scheduled Tribes
- (iii) Part B (i) — Education in rural areas for Scheduled Castes
- (iv) Part B (ii) — Education in rural areas for Scheduled Tribes

Tuensang district being entirely rural has been omitted from the urban tables. Similarly, Kohima district has been omitted from the rural table—Part B(i) as no Scheduled Caste was found in its rural area.

In the case of urban areas, the following seven educational levels have been shown.

- (1) Literate (without educational level)
- (2) Primary or Junior Basic
- (3) Matriculation or Higher Secondary
- (4) Technical Diploma not equal to Degree
- (5) Non-technical Diploma not equal to Degree
- (6) University Degree or Post-graduate Degree other than Technical Degree ; and
- (7) Technical Degree or Diploma equal to Degree or Post-graduate Degree.

In rural tables, data have been presented for three educational levels, viz., (1) Literate (without educational level) (2) Primary or Junior Basic (3) Matriculation and above.

The definition of literacy was the ability to read and write a simple letter. For a person who could both read and write and had also passed a written examination as proof of an educational level attained, the highest examination passed was recorded.

TABLE SCT-IV PARTS A AND B

RELIGION FOR SCHEDULED CASTES AND

TABLE SCT-IV—RELIGION FOR SCHEDULED CASTES AND SCHEDULED TRIBES

Fly-leaf

This table shows the distribution of Scheduled Castes and Scheduled Tribes belonging to different religions. Part A of this table relates to Scheduled Castes and Part B relates to Scheduled Tribes. As mentioned earlier members of Scheduled Castes can belong either to the Hindu or Sikh religion only, but members of Scheduled Tribes may belong to any religion. In Nagaland there are no members of Scheduled Castes belonging to the Sikh religion. As all the Scheduled Castes in Nagaland belong to the Hindu religion, their figures will be the same as those of the caste-wise population given in Table SCT-I Part A and therefore Table SCT-IV Part A has not been prepared.

Table SCT-IV Part B gives the religion for Scheduled Tribes. It presents the figures for Nagaland and its three districts with rural-urban break-up.

In the 1961 Census, instructions had been given to the enumerators that the religion as returned by the enumerated persons was to be recorded in the enumeration slip. However, there were cases wherein entries were

made in terms of tribes. In Nagaland, majority of the Nagas who are Christians have returned their religion as Christians. Other Nagas who are not Christians and who profess their own tribal religion returned themselves as non-Christians. Some Nagas, mostly from Kohima district have returned their religion as Hindu Naga and they have been presented under Hindus. But it is a fact that the term 'Hindu Naga' is used colloquially and inaccurately to describe Non-Christian Nagas. Some members of the Scheduled Tribes have returned their religion as "Animist" and 'Non-Christians' and they have been included under the head 'Indefinite Belief'. Among the Scheduled Tribes in Nagaland Christianity is the predominant major religion professed by the majority. There are 191,344 Christians, 15,355 Hindus and 93,148 persons professing tribal religion. The number returned as Buddhists and Muslims are extremely small being 6 and 4 respectively while those included under 'Indefinite Beliefs' account for 43,828 and only 12 members of the Scheduled Tribes have not stated their religion.

10. 50.0 acres and above, and
11. Unspecified

The three types of interests in land are :

1. Owned or held from Government ;
2. Held from private persons for payment in money, kind or share ;
and
3. Partly held from Government and partly from private persons for payment in money, kind or share.

Category 1 relates to the total of all plots of land owned or held in ownerlike possession *e.g.*, land held directly from Government under a grant, lease or assignment with rights of permanent, heritable and transferable possession or with rights of permanent and heritable possession but without the rights of transfer or temporary or conditional leases of any kind with the Government. Encroachment of Government land is treated as land held from Government.

Category 2 includes land taken from private persons for payment in money, kind or share with rights of permanent heritable and transferable possession, with rights of permanent, and heritable possession but without the right of transfer and those held under various tenancies or tenures which may be broadly classified as follows :

- (a) tenants holding land with permanent and heritable rights whose land cannot be resumed by the owner on grounds of personal cultivation (such tenants may in some cases have the right of transfer also)
- (b) tenants who have been given permanent rights subject to the right of resumption by the owner (in some cases the tenant has the right to acquire ownership. In other cases, he does not possess the right)
- (c) tenants holding land in areas where interim measures have been enacted for the stay of ejectment or for continuing the leases for specified period
- (d) tenants holding land on temporary leases who are liable to ejectment

- (e) areas held on condition of rendering service either to a village community or to Government (this also includes cases where labourers working in plantations are given some land for cultivation with permanent rights)
- (f) All lands taken—
 - (i) for a fixed amount of money,
 - (ii) for a fixed amount of produce,
 - (iii) for a share of the produce,

- (iv) for which money is paid partly in cash and partly in kind, and
- (v) land held free of consideration.

If a household had land cultivated under Categories 1 and 2 mentioned above, it is classified under Category 3.

These three kinds of interest in land have been denoted by the symbols (a), (b) and (c) respectively under column 1 of the table.

**TABLE SC-I—PERSONS NOT AT WORK CLASSIFIED BY SEX, TYPE OF ACTIVITY AND
EDUCATIONAL LEVELS FOR SCHEDULED CASTES**

Fly-leaf

This table gives the classification of non-working population among Scheduled Castes. The table has been prepared for total of all Scheduled Castes and not for individual castes separately. Figures have been given for Nagaland and its three districts for total, rural and urban. Kohima district has been omitted from the rural part of the table as there are no Scheduled Castes in its rural areas. Tuensang district being entirely rural, has been omitted from the urban part of the table. The non-working population has been divided into the following Categories :

- (1) Full time student
- (2) Persons seeking employment for the first time
- (3) Persons employed before, but now out of employment and seeking work, and

- (4) Others.

The different educational levels into which the non-workers have been classified are as follows :

- (1) Illiterate
- (2) Literate (without educational level)
- (3) Primary or Junior Basic
- (4) Matriculation or Higher Secondary and
- (5) Above Matriculation or Higher Secondary.

In the 1961 Censuss a person who was able to read and write a simple letter was treated as Literate and one who cannot read and write at all was considered as an illiterate. If the person had passed a written examination as proof of an educational standard attained, the highest examination passed was recorded.

TABLE ST-I—MOTHER TONGUE AND BILINGUALISM FOR SCHEDULED TRIBES

Fly-leaf

This is a special table prepared for Scheduled Tribes only. It shows the languages and dialects spoken as mother tongues by members of the Scheduled Tribes and also data about subsidiary languages, if any spoken by each Scheduled Tribe. Figures have been presented sex wise for Nagaland and all the three districts. Mother tongue is the language spoken by the person from early childhood. The name of the mother tongue is shown horizontally. In columns 2 and 3 have been given the number of males and females

of total speakers of that mother tongue. Columns 4 and 5 show the number of males and females who have been returned as speaking a language subsidiary to that shown horizontally. Column 6 of the table contains run on lines of names of subsidiary languages followed in each case in brackets by number of male and female speakers. The subsidiary languages having speakers less than 0.5 per cent of the total population have been omitted from the table.

Special provision with respect to the State of Nagaland :

371A. (1) Notwithstanding anything in this Constitution,—

- (a) no Act of Parliament in respect of :—
 - (i) religious or social practices of the Nagas,
 - (ii) Naga customary law and procedure,
 - (iii) administration of civil and criminal justice involving decisions according to Naga customary law,
 - (iv) ownership and transfer of land and its resources,
- shall apply to the State of Nagaland unless the Legislative Assembly of Nagaland by a resolution so decides ;

(b) the Governor of Nagaland shall have special responsibility with respect to law and order in the State of Nagaland for so long as in his opinion internal disturbances occurring in the Naga Hills-Tuensang Area immediately before the formation of that State continue therein or in any part thereof and in the discharge of his functions in relation thereto the Governor shall, after consulting the Council of Ministers, exercise his individual judgement as to the action to be taken :

Provided that if any question arises whether any matter is or is not a matter as respects which the Governor is under this sub-clause required to act in the exercise of his individual judgement, the decision of the Governor in his discretion shall be final and the validity of anything done by the Governor shall not be called in question on the ground that he ought or ought not to have acted in the exercise of his individual judgement :

Provided further that if the President on receipt of a report from the Governor or otherwise is satisfied that it is no longer necessary for the Governor to have special responsibility with respect to law and order in the State of Nagaland, he may by order direct that the Governor shall cease to have such responsibility with effect from such date as may be specified in the order ;

(c) in making his recommendation with respect to any demand for a grant, the Governor of Nagaland shall ensure that any money provided by the Government of India out of the Consolidated Fund of India for any specific service or purpose is included in the demand for a grant relating to

that service or purpose and not in any other demand ;

(d) as from such date as the Governor of Nagaland may by public notification in this behalf specify, there shall be established a regional council for the Tuensang district consisting of thirty-five members and the Governor shall in his discretion make rules providing for—

(i) the composition of the regional council and the manner in which the members of the regional council shall be chosen :

Provided that the Deputy Commissioner of the Tuensang district shall be the Chairman ex-officio of the regional council and the Vice-Chairman of the regional council shall be elected by the members thereof from amongst themselves ;

(ii) the qualifications for being chosen as, and for being, members of the regional council ;

(iii) the term of office of, and the salaries and allowances, if any, to be paid to members of, the regional council ;

(iv) the procedure and conduct of business of the regional council ;

(v) the appointment of officers and staff of the regional council and their conditions of services, and

(vi) any other matter in respect of which it is necessary to make rules for the constitution and proper functioning of the regional council.

(2) Notwithstanding anything in this Constitution for a period of ten years from the date of the formation of the State of Nagaland or for such further period as the Governor may, on the recommendation of the

regional council, by public notification specify in this behalf,—

- (a) the administration of the Tuensang district shall be carried on by the Governor ;
- (b) where any money is provided by the Government of India to the Government of Nagaland to meet the requirements of the State of Nagaland as a whole, the Governor shall in his discretion arrange for an equitable allocation of that money between the Tuensang district and the rest of the State ;
- (c) no Act of the Legislature of Nagaland shall apply to the Tuensang district unless the Governor, on the recommendation of the regional council, by public notification so directs and the Governor in giving such direction with respect to any such Act may direct that the Act shall in its application to the Tuensang district or any part thereof have effect subject to such exceptions or modifications as the Governor may specify on the recommendation of the regional council :
Provided that any direction given under this sub-clause may be given so as to have retrospective effect.
- (d) the Governor may make regulations for the peace, progress and good government of the Tuensang district and any regulations so made may repeal or amend with retrospective effect, if necessary any Act of Parliament or any other law which is for the time being applicable to that district ;
- (e) (i) one of the members representing the Tuensang district in the Legislative Assembly of Nagaland shall

be appointed Minister for Tuensang affairs by the Governor on the advice of the Chief Minister and the Chief Minister in tendering his advice shall act on the recommendation of the majority of the members as aforesaid ;

(ii) the Minister for Tuensang Affairs shall deal with, and have direct access to the Governor on, all matters relating to the Tuensang district but he shall keep the Chief Minister informed about the same ;

(f) notwithstanding anything in the foregoing provisions of this clause, the final decision on all matters relating to the Tuensang district shall be made by the Governor in his discretion ;

(g) in articles 54 and 55 and clause (4) of article 80, references to the elected members of the Legislative Assembly of a State or to each such member shall include references to the members or member of the Legislative Assembly of Nagaland elected by the regional council established under this article ;

(h) in article 170—

(i) clause (1) shall, in relation to the Legislative Assembly of Nagaland, have effect as if for the word 'sixty' the words 'fortysix' had been substituted ;

(ii) in the said clause, the reference to direct election from territorial constituencies in the State shall include election by the members of the regional council established under this article ;

(iii) in clauses (2) and (3), references to territorial constituencies shall mean references to territorial

constituencies in the Kohima and Mokokchung districts.

(3) If any difficulty arises in giving effect to any of the foregoing provisions of this article, the President may by order do anything (including any adaptation or modification of any other article) which appears to him to be necessary for the purpose of removing that difficulty :

Provided that no such order shall be made after the expiration of three years from the date of the formation of the State of Nagaland.

Explanation.—In this article, the Kohima Mokokchung and Tuensang districts shall have the same meanings as in the State of Nagaland Act, 1962.
