PREFACE

This report contains tables relating to households. In the words of Shri Ashok Mitra, ICS, Registrar General, India:

“In a predominantly agricultural country where most of the population is in rural areas and where much of the goods produced are consumed by the population itself, collection of information purely on the basis of individuals tends to go slightly out of focus unless such information is supplemented by information on economic activities of the household as an entity. A decision was, therefore, taken that the information relating to the economic activities of the majority of Indian households, viz. cultivation and household industries, should be collected at the Census”.

Our Part III report contains tables in which household is treated as a unit.

Three questionnaire forms were filled up by the enumerators during the 1961 Census: the House-list Form which provided the basis for the report

on “Housing and Establishments” (Part IV); the Household Schedule, providing the material for the present book (Part III); and the Individual slip which is source for Parts I, II and V.

A 20 per cent systematic sample was drawn from the Household Schedules. This sample was tabulated mechanically in the Office of the Registrar General, India, at Delhi. I am grateful to my colleagues Shri Durga Singh, S. S. Sarwal, S.P. Shabi and Roop Chand Sharma for their assistance in preparing these tables. The Manager, Govt. of India Press, Simla, Shri K. Janakiraman, Asstt. Manager (Tech.) Shri N. K. Mudaliar and their staff have always been kind to us and they have done very good job of this report. I would like to convey my sincere thanks to them.

RAM CHANDRA PAL SINGH

Boswell, SIMLA-5

November 23, 1965

INTRODUCTION

Household Schedule in the 1961 Census

In the 1961 Census a standard form, called Household Schedule, was introduced for the first time throughout the country which was designed to collect economic data for a household, no data based on the household as such having been collected in the earlier censuses. In the Household Schedule information on the extent of land cultivated by the household either owned or held from Government or held from private persons or institutions for payment in money, kind or share; land given to private persons by the household for cultivation for payment in money, kind or share; nature of household industry conducted by the household and the duration of the industry in a year alongwith number of family workers and hired workers engaged in cultivation or household industry or in both were collected. At the back of the Household Schedule there was a Census Population Record of individuals as counted at the 1961 Census in each household giving an abstract of information for each individual enumerated in the household, *e.g.*, name, sex, relationship to head of household, age, marital status and description of work, if working. A specimen of the Household Schedule and the Census Population Record is given over leaf.

An enumerator called at every household and took down particulars relating to the household, as stated above, during the 1961 Census count which started on the morning of 10 February and ended at sun rise of 1st March throughout the Country. In Himachal Pradesh there were certain inaccessible areas due to snow during February—March, where the census count had taken place earlier in September—November, 1960.

Tabulation

The present publication — Part III — Household Economic Tables, is the out-come of mechanical tabulation of the household schedules on a 20 percent sample of households. All the tables are based on that. The method adopted for taking out the sample, prescribed by the Registrar General, India, was as under :

“Every 5th household from the first random household will be taken. The sample households will be marked continuously for rural areas of a tehsil/sub tehsil/sub-division and for urban areas of a district, *i.e.*, households left over in a household book should be carried over to the next household book for the selection of sample households. Thus to start with all the pads of household schedules of one tehsil/sub-tehsil/sub-division should be arranged in order of ascending number of the location codes of villages. Secondly, the random number necessary to make a start should be picked up. Thirdly, the first schedule chosen will correspond to this random number. Thereafter the samples will be continuously picked up without a break until the last pad of the tehsil/sub-tehsil/sub-division is exhausted. This procedure is essential to ensure the quality of the sample. The sample household will be indicated by a bold tick at the right hand top corner.”

The mechanical tabulation was done in the office of the Registrar General, India. In all, ten tables were prepared, out of which eight tables B-X to B-XVII listed below are appearing in this publication. The other two tables — ‘C-I Composition of sample households by relationship to head of family classified by size of land cultivated (Based on 20% sample)’ and ‘SCT-V Sample households engaged in cultivation classified by interest in land and size of land cultivated in rural areas only for members of Scheduled Castes and Scheduled Tribes [prepared for the households of number of Scheduled Castes (Part A) and Scheduled Tribes (Part B) on a 20% sample of all households]’, are appearing in two other census publications — Part II—C, Cultural and Migration Tables and Part V—A, Special Tables on Scheduled Castes and Scheduled Tribes respectively.

HOUSEHOLD ECONOMIC TABLES

B-X—Sample Households (i) engaged neither in Cultivation nor Household Industry, (ii) engaged either in Cultivation or Household Industry but not in both and (iii) engaged both in Cultivation and Household Industry for all areas.

(vii)

(viii)

B-XI—Sample Households engaged in Cultivation classified by interest in land and size of land cultivated in Rural and Urban areas separately.

B-XII—Sample Households engaged in Cultivation only classified by size of land cultivated and number of family workers and hired workers in Rural and Urban areas separately.

B-XIII—Sample Households engaged both in Cultivation and Household Industry showing size of land cultivated classified by Principal Household Industry in Rural and Urban areas separately.

B-XIV—Sample Households engaged only in Household Industry classified by Principal Household Industry in all areas.

Part—A—Households classified by major groups of Principal Household Industry and number of persons engaged.

Part—B—Households classified by minor groups of Principal Household Industry.

B-XV—Sample Households engaged both in Cultivation and Household Industry classified by size of land in Rural and Urban areas separately.

B-XVI—Sample Principal Household Industry classified by period of working and total number of workers engaged in Household Industry in all areas.

B-XVII—Sample Households classified by (i) number of male and female members by size of Households and (ii) engagement (a) neither in cultivation nor in Industry (b) in household Industry only and (c) in cultivation sub-classified by size of land cultivated.

It may also be mentioned here that according to 1961 Census Tabulation Plan, there are 17 'B' Series Tables (B-I to B-XVII). Table B-I to B-IX compiled on the basis of data collected in the main enumeration schedule called the individual slip, are styled and printed as Part II-B, Economic Tables, a separate publication. The Tables B-X to B-XVII prepared from the Household Schedule are printed as Part III Household Economic Tables, the present publication. In the first publication — Part II B the individuals—the population are the subject of economic classifications and in the latter — Part III the households.

Instructions to Enumerators for Filling up the Household Schedule

A study of the instructions reproduced here below, which were issued to enumerators for filling up the Household Schedules will be rewarding. Various census terms appearing in the tables are explained in the instructions.

"At the top of the Schedule you will find the Location Code. You will have to write the Location Code of the household here. Your supervisor will give you the Code numbers representing your district, tehsil/thana/town, village/ward/block. You should take care to write these three numbers connected together by oblique strokes in between on every household schedule.

When you are visiting each household for enumeration you should write the code number of the household also on the Household Schedule. For purposes of the census a Census House has been defined as a structure or a part of structure, a dwelling, a shop, workshop, factory or place of business, or shop-cum-dwelling giving on the road or a common staircase or a common courtyard leading to a main gate or enjoying a separate entrance. A *household* is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. In some census houses there may be more than one group of persons, each group with a common kitchen. In such cases, each group should be regarded as a separate household for purposes of the census and a separate household schedule should be prepared. You should write the household number from the extracts of the Houselist given to you by your supervisor. If, in any case, you find a census house or a household satisfying the definitions given above has not been numbered you should bring it to the notice of your supervisor and have a separate number given to the house or household and enumerate the household.

At the right hand corner of the Location Code you will find a question "Is this an institution?" with a rectangle below it. If you are enumerating any penal, charitable or mental institution, hostel, hotel, hospital boarding house, etc., you should write the nature of the institution within the rectangle like jail, hospital, etc.

(ix)

CONFIDENTIAL

CENSUS OF INDIA 1961

(To be filled up during Enumeration)

Is this an institution?

PART I—HOUSEHOLD SCHEDULE

LOCATION CODE

Full Name of Head of Household

S.C.
S.T.

A. Cultivation		Local name of right on land	Area in acres			
1. Land under cultivation by Household						
(i) owned or held from Government						
(ii) held from private persons or institutions for payment in money, kind or share						
(iii) Total of items (i) and (ii)						
2. Land given to private persons for cultivation for payment in money, kind or share						
B. Household industry		Name of Industry	Number of months in the year during which conducted			
Household industry (not on the scale of a registered factory) conducted by the Head of the household himself and or mainly members of the household at home or within the village in rural areas and only at home in urban areas.						
(a)						
(b)						
C. Workers at Cultivation or Household Industry		Members of family working				
Members including Head of family working and hired workers, if any, kept wholetime during current or last working season.		Head	Other males	Other females	Total	Hired workers
1. Household Cultivation only						
2. Household Industry only						
3. Both in Household Cultivation & Household Industry						

Dated Signature of Supervisor

Dated Signature of Enumerator

NOTE: Para II—Census Population Record overleaf should be filled up during the first round of enumeration (10 February to 28 February) from the enumeration slips relating to the house hold and brought up-to-date with corrections, if any, after the second visit during check period 1 March to 3 March, 1961.

(x)

PART II—CENSUS POPULATION RECORD

(To be compiled from individual Census Slips)

[illegible]

Dated Signature of Supervisor

Dated Signature of Enumerator

(xi)

Below the Location Code you will find a column for recording the full name of the Head of the household. The Head of the household for census purposes is a person on whom falls the chief responsibility for the maintenance of the household. Thus the Head of the household need not necessarily be the eldest male member but may even be a female or younger member of either sex. You need not, however, make any elaborate enquiry about this and should record as Head of household the name of the person who is actually acknowledged as such.

Institutions like boarding houses, messes and chummeries should also be regarded as census households but of 'un-related persons living together'. In such a Household the manager or the superintendent or the person who has administrative responsibilities or who by common consent is regarded as the Head, should be recorded as Head of the household. If in an institution separate families are also living, each such family should be treated as a census household and a separate household schedule should be filled. In such cases the full name of the recognised Head of the household should be written.

If the Head of the household is a person who spends the weekdays in town and spends the week-ends at home, he should be recorded as Head of household and entered for enumeration at his home. If he should be away for a fairly long time which covers the entire enumeration period then the person who is incharge in his absence should be recorded as the Head of the household.

You will find a parallelogram at the right hand side against the Full Name of the Head of the household marked 'S.C./S.T.' If the Head of the household is a member of the Scheduled Caste or Scheduled Tribe obtaining in your State or in your district, you should write the name of the particular Scheduled Caste or Scheduled Tribe to which the Head of the household belongs within the parallelogram.

You should then fill up the part of the household schedule relating to Cultivation and Household Industry. Sub-part 'A' relates to Cultivation; sub-part 'B' to Household Industry and sub-part 'C' to Workers at Cultivation or Household Industry.

Sub-part 'A' relating to Cultivation will have to be filled in only where the household cultivates land (land includes all land normally used for cultivation purposes including temporary fallows). Three categories of land are given in items 1 (i), 1 (ii) and 2. Items 1(i) and 1(ii) relate to land actually cultivated by the household. Item 2 relates to land which is not cultivated by the household but has been given by it to private persons for cultivation for payment in money, kind or share. In each of the three cases the total of separate plots or parcels of land in different places, owned or held, or taken or given should be made and entered. A number of lines has been provided for this purpose in 1(i) and 1(ii) to account for separate plots or parcels of land held or owned or taken under different recognised local rights. If the household (a) cultivates land owned or held from Government or taken from private persons or institutions or (b) has given land to private persons for cultivation purposes you should ascertain the local name of the right on such land and record in the column relating to local name of right on land." Category 1(i) land owned or held from Government, will include the total of all pieces of land owned or held in owner-like possession, e.g., land held directly from Government under a grant, lease or assignment, (i) with rights of permanent, heritable and transferable possession, (ii) with rights of permanent and heritable possession, but without the right of transfer and (iii) temporary or conditional leases of any kind with the Government. Category 1(ii) land taken from private persons or institutions for payment in money, kind or share, will include (i) with rights of permanent, heritable and transferable possession, (ii) with rights of permanent and heritable possession but without right of transfer; (iii) held in a variety of tenancies or tenures which may be broadly classified as follows:

- (a) tenants holding land with permanent and heritable rights whose land cannot be resumed by the owner on grounds of personal cultivation (such tenants may in some cases have the right of transfer also);
- (b) tenants who have been given permanent rights subject to the right of resumption by the owner (in some cases the tenant has the right to acquire ownership of the non-resumable area. In other cases he does not possess the right);
- (c) tenants holding land in areas where interim measures have been enacted for stay of ejectment or for continuing the leases for a specified period;
- (d) tenants holding land on temporary leases who are liable to ejectment; and

(xii)

- (e) areas held on condition of rendering service either to a village community or to Government (this also includes cases where labourers on plantations are given some land for cultivation with permanent rights); and

(IV) the following :

- (a) land taken for a fixed amount of money,
- (b) land taken for a fixed amount of produce,
- (c) land taken for a share of the produce,
- (d) land for which money is paid partly in one and partly in any other form mentioned above, and
- (e) land held free of consideration.

Category 2—Land given to private persons for cultivation for payment in money, kind or share—will include the classifications mentioned in category 1(ii).

Categories 1(i) and (ii) will include only those plots or parcels of land which are cultivated by the household itself, that is, lands which lie within the village, or in adjacent villages, or within such a distance as enables the household to work on the land or actively supervise the cultivation. They will not include land owned or held in distant places where distance itself is a bar to active cultivation, constant supervision or direction. But category 2 will include land in any part of the country whatsoever. You should ascertain the extent of land in each category of local right in acres and record in the column relating to 'Area in acres'. You should write the total of separate plots or parcels of land under the same right if they are situated in different places. If it is not possible to ascertain the extent of land in acres you should, if possible, make a conversion from the local measure given to you. Even if this is not possible write the area in local measure giving invariably the name of the measure adopted.

This sub-part will not apply to households which do not possess any land. Thus it will not apply to households which consist of only agricultural labourers without any land. In such cases put 'X' in all the spaces provided in the right hand side and put a bold cross on this sub-part.

Land under any of the items in sub-part 'A' includes rent free land, lands enjoyed in permissive possession or gifts without encumbrance or consideration. A household which is a member of a co-operative farm will record only that amount of land in the co-operative farm which had belonged to it before and under right enter 'co-operative farm'. Labour hired by such a co-operative farm should not be entered for this household.

Sub-part 'B' relates to Household Industry. This part will be filled up only where there is a Household Industry conducted by the Head of the household himself and/or mainly by members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be on the scale of a registered factory. The participation of the Head of the household and/or members of the household is an essential feature of the Household Industry. In a rural area the Household Industry can be located either at home or within the village. But in an urban area the Household Industry or at least the major part of its work must be located only at home. A Household Industry should relate to production, processing, servicing or repairing and includes makers and sellers of goods.

The test for a Household Industry is mainly threefold:

- (a) Household Industry should embrace manufacture, processing or servicing and may include sale but should not be confined simply to buying and selling. At least part of the goods offered for sale from the household should be manufactured or processed by members of the household.
- (b) Household Industry should be on the household scale where the workers mainly will be the Head of the household himself and members of the household, the role of hired workers from outside being of secondary importance. Thus, in any Household Industry, members of the household should be in a position to lend a hand in the industry whenever they find the time in the course of their daily chores. Household Industry cannot, therefore, be on the scale of a registered factory but can use machinery and employ power like steam engine or oil engine or electricity to drive the machinery.

(xiii)

- (c) Location also is important, for proximity decides participation by members of the household. In a village this participation is possible if the Household Industry is located at home or within the village, because village organisation is such as makes it possible for members of the household to move about freely in the village to look after their work. In urban areas such a free movement is not possible and, therefore, for Household Industry in urban areas we should consider only those industries which are located at home. Where, however, part of the work is done outside the house, e.g., preparing and dyeing the yarn for weaving or winding into warp and woof or cleaning metal surfaces before electroplating in baths, it should still be considered a Household Industry, even in urban areas, as the main operation of weaving or of electroplating is conducted within the house and only one or two operations are conducted outside.

The following activities should also be regarded as illustrative of Household Industry. *Biri*-makers who either alone or with help of members of the family roll *biris* at home, for wages at piece rates, while the contractor supplies the materials. Certain processes like buttoning and handsewing of tailored clothes dyeing and printing of cloth, are carried out at home by members of the household both at residence and at 'place of work' or where womenfolk of the household fill in at home with lac gold ornaments prepared at the shop by male members of the household.

Ascertain from the Head of the household whether there are any Household Industries and write the nature of the industry (s) in the column provided, if there are any. Then ascertain for how many months in a year roughly they are conducted and put down the number of months in the appropriate column. If the industry is conducted throughout the year write '12'. If there is no Household Industry of any sort put 'X' in each of the places in the right hand corner where the answers will be written and put a bold cross on this sub-part.

Sub-part 'C' relates to Workers in Cultivation or Household Industry.

In the case of households which are engaged only in Cultivation, if the Head of the household is working write '1' under the column 'Head', and ascertain how many other male and female members of the family are working. Write the numbers in the respective columns. Write the total number of family workers including the Head, if he is working, in the column relating to 'Total'. Then ascertain whether any hired workers are employed and, if so, write the number of such workers in the column allotted for it. The hired workers should have been in whole time employment during last working season or should be in whole time employment during current working season.

Similarly in the case of households engaged in Household Industry only, if the Head of the household is working write '1' in the column relating to the 'Head', and also ascertain how many male and female members of the family are working and write the numbers in the respective columns. Write the total number of family workers including the Head, if he is working, in the column relating to 'Total' and then ascertain the number of hired workers, if any, and then write the number of hired workers in the appropriate column.

If a household is engaged both in Cultivation and Household Industry ascertain whether the Head is working and write '1' under the column relating to the 'Head' and also ascertain how many male and female members of the family are working both at Cultivation and the Household Industry and write the number in the respective columns. Write the total number of family workers in the column relating to 'Total'. Ascertain the number of hired workers engaged by the family both for Cultivation and Household Industry and write the number in the appropriate column. In a household engaged both in Household Cultivation and Household Industry, you need not ascertain how many are engaged in Household Cultivation and Household Industry separately.

Even if any of the members of the family working or hired labourers are absent during the period of the census count they should be counted for the purposes of the Household Schedule.

In the case of households engaged in Cultivation only, put 'X' in the columns relating to 'Household Industry only' and 'Both in Household Cultivation and Household Industry'. Similarly, in the case of Households engaged 'in Household Industry only, put 'X' in the columns relating to 'Household Cultivation only' and 'Both in Household Cultivation and Household Industry'. If a household is engaged both in Household

Cultivation and Household Industry put 'X' in the columns relating to 'Household Cultivation only' and 'Household Industry only'. If a household is not engaged in either Household Cultivation or Household Industry or both put 'X' in all the columns and a bold 'X' on this sub-part.

The test for a worker is whether a person is actually working in Cultivation or Household Industry or supervising or directing work thereon."

Scope and Limitations of Household Economic Data Tabulated

As already explained earlier, all the data tabulated is based on 20% sample. The scope of each of the tables presented has been explained in the fly leaf that precedes each table. However, the following points are of interest to note.

The terms 'land' and 'cultivation' appear in many of the tables. Land here means land normally used for cultivation purposes, including temporary fallows. Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations. So in reference to land under cultivation by household or land given to private person(s) for cultivation, only that land has been recorded during enumeration which involved ploughing, sowing and harvesting. The following classification illustrates as to which land came under the definition of cultivation and which not.

Cultivation, involving ploughing, sowing and harvesting—

- (1) Production of cereal crops (including Bengal gram), such as rice, wheat, jowar, bajra, maize; roots and tubers like potato, yam beet etc.; sugarcane etc.
- (2) Production of pulses, such as arhar, moong, masur, urd, khesari, other gram.
- (3) Production of raw jute and kindred fibre crops.
- (4) Production of raw cotton and kindred fibre crops.

Other Field Produce not covered by the definition of Cultivation—

- (1) Production of other crops including vegetables not covered under cultivation.
- (2) Production of fruits and nuts in plantations, vines and orchards (like cocoanut, arecanut etc.).
- (3) Production of wood, bamboo, cane reeds, thatching grass etc.
- (4) Production of juice by tapping palms.
- (5) Production of other agricultural produce (including fruits and nuts not covered by Sl. No. (2) and flowers) not covered above.

Plantation Crops not covered by the definition of Cultivation—

- (1) Production of tea in plantation.
- (2) Production of coffee in plantation.
- (3) Production of rubber in plantation.
- (4) Production of tobacco in plantation (does not include tobacco which is cultivated in rotation with other cereal crops, in which case it would go under cultivation).
- (5) Production of ganja, cinchona, opium, poppy, saffron etc.
- (6) Production of other plantation crops not covered above.

The extent of land under cultivation by household or given to private person(s) for cultivation by a household, as recorded during enumeration in the light of the said definition of cultivation already provided was according to the version of the head of the household.

Household Industry (not on the scale of a registered factory), conducted by the Head of the household himself and/or mainly by members of the household at home or within the village in rural areas and only at home in urban areas, is another important subject of study in this publication. Detailed instructions reproduced earlier definitions as to what activity could be termed as household industry and on what grounds had been issued to the enumerators. They recorded particulars about household industry accordingly.

Activities not covered by the definition of cultivation of land, such as (1) production of other field produce and (2) production of plantation crops, which have been classified above, could also be regarded as household industry. Wherever these activities were conducted in conformity with the definition of household industry they have been recorded as such during enumeration.

In the Household Schedule it had been provided to record only two entries about household industry in respect of a household. The entries were recording for household industry named by the Head of the household. Wherever more than one entry was recorded, that entry was considered for tabulation which was conducted for the largest number of months in a year. If both the entries show the same number of months, the first entry was considered for tabulation.

The data in the tables has been tabulated for administrative divisions that existed at the time of taking the census. In some tables the presentation is up to district level and in some others it is down to tehsil/sub-tehsil/sub-division level, for urban and rural areas separately. These administrative divisions are listed on the next page as also the urban localities, i.e., the towns. A map of Himachal Pradesh showing the Administrative Divisions has been printed in this publication.

PART III

HOUSEHOLD ECONOMIC TABLES

(xvii—xviii)

TABLE B-X

SAMPLE HOUSEHOLDS (i) ENGAGED NEITHER IN CULTIVATION NOR HOUSEHOLD INDUSTRY, (ii) ENGAGED EITHER IN CULTIVATION OR HOUSEHOLD INDUSTRY BUT NOT IN BOTH AND (iii) ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD INDUSTRY FOR ALL AREAS

(Based on 20% Sample)

Fly-leaf

The table has been prepared on a 20% sample of all households for total, rural and urban areas of each district. In the case of rural areas of a district, the presentation is further shown down to tehsil/sub-tehsil/sub-division level. A study of the definitions of three terms 'household' 'cultivation' and 'household industry' is invited to comprehend the implications and limitations of the table. The definitions are provided in the introduction portion of this publication. The purport of the table is the distribution of the sample households in four categories, viz., (i) households engaged neither in cultivation nor household industry, (ii) households engaged in cultivation only, (iii) households engaged in household industry only, and (iv) households engaged both in cultivation and household industry.

It can be deduced from the table that 63 per cent of the total sample households in Himachal Pradesh are engaged in cultivation only, 3 per cent in household industry only, 22 per cent both in cultivation and household industry and the remaining 12% follow other professions.

TABLE B-XI

**SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST
IN LAND AND SIZE OF LAND CULTIVATED IN RURAL AND URBAN AREAS SEPARATELY**

(Based on 20 % Sample)

Fly-leaf

The table has been prepared on a 20% sample of all households. The data has been presented first for rural areas down to tehsil/sub-tehsil/sub-division level, followed by presentation for urban areas down to district level only. The households engaged in cultivation, *i.e.*, total of households engaged in cultivation only and households engaged both in cultivation and household industry shown in columns 5 and 7 of Table B-X respectively, are classified in this Table B-XI according to the size of land cultivated, further cross tabulated by the interest in land. Class intervals for holding sizes in acres that have been taken for classification are less than 1, 1.0 to 2.4, 2.5 to 4.9, 5.0 to 7.4, 7.5 to 9.9, 10.0 to 12.4, 12.5 to 14.9, 15.0 to 29.9, 30.0 to 49.9, 50 and above, and unspecified.

The interest in land under cultivation by household was recorded in the Household Schedule under two legends, *viz.*, (i) owned or held from Government and (ii) held from private persons or institutions for payment in money, kind or share.

The interest in land cultivated could, therefore, be classified into the following three categories:—

- (a) Owned or held from Government,
- (b) Held from private persons or institutions for payment in money, kind or share and
- (c) Partly held from Government and partly from private persons or institutions for payment in money, kind or share.

Symbols (a), (b) and (c) are given in place of the above three categories of interest in land cultivated under column 1 of the table.

Classification of households engaged in cultivation by size of land is an interesting study to gauge the number of households who have sufficient or insufficient land with them and where. The cross tabulation by interest in land cultivated provides equally important information in so far as the comparison of number of households is concerned for the two categories of land, *viz.*, (a) owned or held from Government and (b) held from private persons or institutions for payment in money, kind or share.

TABLE B-XI

SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION ONLY CLASSIFIED BY SIZE OF LAND CULTIVATED AND NUMBER OF FAMILY WORKERS AND HIRED WORKERS IN RURAL AND URBAN AREAS SEPARATELY

(Based on 20% Sample)

Fly-leaf

This table has been prepared for the households who are engaged in cultivation only. Cultivating households recorded in column 5 of Table B-X, have been classified according to number of persons engaged in cultivation. In case of households where more than one person is working, the number of family workers and hired workers have been shown separately. The cultivators according to number of persons engaged in cultivation have further been cross-tabulated by size of land.

The data is presented first down to tehsil/sub-tehsil/sub-division level for rural areas, followed by data for urban areas upto district level.

The table gives an insight into the size and scale of employment in cultivation.

TABLE B-XIII

SAMPLE HOUSEHOLDS ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD
INDUSTRY SHOWING SIZE OF LAND CULTIVATED CLASSIFIED BY PRINCIPAL
HOUSEHOLD INDUSTRY IN RURAL AND URBAN AREAS SEPARATELY

Fly leaf

(Based on 20% Sample)

This table has been prepared down to the district level only for rural and urban areas separately. It makes a study of households engaged both in cultivation and household industry. The number of households as recorded in column 7 of the Table B-X, who are engaged both in cultivation and household industry, have been firstly classified by size of land cultivated and then cross tabulated by the nature of household industry. The nature of household industry has been classified according to the Indian Standard Industrial Classification (I.S.I.C.) down to the major group. In the classification the Divisions 0, 1 and 2 & 3 and their major groups as indicated, are given with their standard descriptions.

The Table gives information about the types of household industries in which the households are engaged in rural and urban areas in addition to cultivation.

Major groups of household industries having less than 10% of the figures of the respective division are not given in the table but are shown in an appendix to the table. The divisions thus affected are marked with an asterisk(*) in the table.

APPENDIX

B-XIII—SAMPLE HOUSEHOLDS ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD INDUSTRY SHOWING SIZE OF LAND CULTIVATED CLASSIFIED BY PRINCIPAL HOUSEHOLD INDUSTRY IN RURAL AND URBAN AREAS SEPARATELY

(Based on 20% Sample)

Major groups of I.S.I.C., pertaining to household industries having less than 10 per cent of the figures of the respective division have not been shown in the Table B-XIII, but have been given in a *run on lines* presentation in this appendix. The divisions thus affected are marked with an asterisk(*) in the table.

In the *run-on-line* presentation, the figure preceding brackets represents the I.S.I.C., Code No. of major group dropped from the table. Alphabets given in brackets are the symbols for different size ranges of land cultivated (class ranges in acres). The numerical figure given after an alphabet denotes the number of households in that particular range symbolized by that alphabet as explained below—

Symbols		Size of land (Class ranges in acres)	Symbols		Size of land (Class ranges in acres)
A	means	Less than 1 acre	G	means	12.5—14.9 acres
B	"	1.0—2.4 acres	H	"	15.0—29.9 "
C	"	2.5—4.9 "	I	"	30.0—49.9 "
D	"	5.0—7.4 "	J	"	50.0+ "
E	"	7.5—9.9 "	K	"	Unspecified
F	"	10.0—12.4 "			

Example: Rural: HIMACHAL PRADESH 03 (B-2, C-1)

Figure 03 preceding the brackets stands for I.S.I.C., major group 03 relating to household industry of 'fishing'. Alphabetical symbol B in the brackets means size of land (class range in acres) i.e. 1.0—2.4 acres. Figure 2 against symbol B indicates that there are two households, each cultivating land in the class range of 1.0—2.4 acres. In all it means that there are two households engaged both in cultivation and household industry. Size of land cultivated by each household is 1.0—2.4 acres, and the household industry in which the households participate is 'fishing' denoted by major group 03 of I.S.I.C., dropped from the Table B-XIII. Likewise C-1 means one household engaged both in cultivation and household industry. Size of land cultivated is in the class range of 2.5—4.9 acres and the household industry in which the household is engaged is 'fishing' denoted by major group 03 of I.S.I.C., dropped from the table.

APPENDIX TO TABLE B-XIII

The *run-on-line* presentation of major groups dropped from Table B-XIII is as follows down to district level for rural and urban areas separately.

HIMACHAL PRADESH

RURAL:

00 (A-41, B-64, C-77, D-43, E-28, F-21, G-6, H-15, I-4, J-1, K-1); 01 (B-1); 02 (A-1, B-1); 03 (B-2, C-1); 23(A-93, B-126, C-101, D-27, E-6, F-2, G-2, H-6); 24(A-1); 26 (A-1); 28 (A-218, B-240, C-132, D-37, E-10, F-3, G-1, H-1, K-6); 30 (C-1); 34-35 (A-39, B-64, C-40, D-7, E-2, F-1); 36 (A-173, B-206, C-91, D-16, E-7, F-4, G-1, K-2); 39(A-23, B-38, C-23, D-8, E-3, F-2);

TABLE B-XIV

SAMPLE HOUSEHOLDS ENGAGED ONLY IN HOUSEHOLD INDUSTRY CLASSIFIED BY PRINCIPAL HOUSEHOLD INDUSTRY IN ALL AREAS

(Based on 20% sample)

Fly-leaf

The table has been prepared for those sample households recorded in column 6 of the Table B-X, who are engaged in household industry only. It has two parts A and B.

Part A relates to sample households classified by I.S.I.C., divisions and major groups pertaining to principal household industries and number of persons engaged. The household industries, classified according to the code numbers of divisions 0, 1 and 2 & 3 and their major groups of I.S.I.C., are shown with their standard descriptions. The classification of households engaged in household industry according to the number of persons engaged has been done under five different class ranges of persons engaged, viz, 1 person, 2 persons, 3-5 persons, 6-10 persons and more than 10 persons. The data has been presented down to district level for Total, Rural and Urban areas separately.

The I.S.I.C., major groups of household industries having less than 10% of the figures of the respective divisions are not given in the table but are shown in an appendix separately. The divisions thus affected have been marked with an asterisk (*).

In Part-B of the table the sample households, who are engaged in household industry only, have been classified by code numbers of I.S.I.C., minor groups of principal household industries indicating side by side the standard description of the minor groups. The data has been presented here too down to district level, for Total, Rural and Urban areas separately.

APPENDIX TO PART A

B-XIV—SAMPLE HOUSEHOLDS ENGAGED ONLY IN HOUSEHOLD INDUSTRY CLASSIFIED BY PRINCIPAL HOUSEHOLD INDUSTRY IN ALL AREAS

(Based on 20% Sample)

PART A—Households classified by major groups of Principal Household Industry and number of persons engaged

The I.S.I.C., major groups pertaining to household industries having less than 10 per cent of the figures of the respective divisions have not been shown in the Table B-XIV, Part A, but have been shown in a run on lines presentation in this appendix. The divisions thus affected have been marked with an asterisk (*) in the said table.

In the run on line presentation the figure preceding the brackets represents the ISIC Code No. of the major group dropped from the table. Alphabets given in the brackets are the symbols for the different numbers of persons engaged in household industry. The numerical figure in the brackets after an alphabet denotes the number of households in that particular range symbolized by that alphabet as explained below.

Symbols	Persons engaged	Symbols	Persons engaged
A means	1 Person	D means	6-10 Persons
B "	2 Persons	E "	More than 10 persons
C "	3-5 Persons	F "	Unspecified

Example : Total : HIMACHAL PRADESH 29 (A-1); 33 (E-1)

The figure 29 preceding the brackets stand for I.S.I.C., major group 29 relating to household industry of 'paper and paper products'. Alphabetical symbol A in the bracket means that only 'one' person is engaged in the household industry of 'paper and paper products'. Figure 1 against symbol A indicates that there is only one household engaged in the said industry. In all it means that there is only one household having 'one' person engaged in household industry of 'paper and paper products', denoted by I S.I.C., major group 29 dropped from the Table B-XIV. Likewise 33 (E-1) denotes that there is one household, having more than 10 persons working in the household industry of 'chemical and chemical products', denoted by I.S.I.C. major group 33 dropped from the said table.

The run on line presentation of I.S.I.C., major groups dropped from Table B. XIV is as follows down to district level, for total, rural and urban areas separately.

HIMACHAL PRADESH

TABLE B-XV

SAMPLE HOUSEHOLDS ENGAGED BOTH IN CULTIVATION AND HOUSEHOLD INDUSTRY CLASSIFIED
BY SIZE OF LAND IN RURAL AND URBAN AREAS SEPARATELY

(Based on 20% Sample)

Fly-leaf

The table has been prepared for sample households basically recorded in column 7 of the Table B-X, who are engaged both in cultivation and household industry. In Table B-XIII, which also relates to these households, their distribution was shown according to different sizes in acres of land cultivated and cross tabulated by different types of household industries. In the present table the cultivating households engaged in household industry are shown distributed according to person(s) working and cross tabulated by different sizes of land cultivated. In cases, where more than one person is employed, the number of family workers and hired workers have been separately given.

Data has been presented down to the rural areas of tehsils/sub-tehsils/sub-divisions and urban areas of districts.

TABLE B-XVI

**SAMPLE PRINCIPAL HOUSEHOLD INDUSTRY CLASSIFIED BY PERIOD OF WORKING
AND TOTAL NUMBER OF WORKERS ENGAGED IN HOUSEHOLD INDUSTRY IN ALL AREAS**

(Based on 20% Sample)

Fly-leaf

This table relates to sample principal household industries. The industries have been codified down to I.S.I.C., major groups under the respective divisions 0, 1 and 2 & 3, indicating at the same time their standard descriptions *vide* columns 1 and 2 of the table. The total number of households and workers engaged in the industries are shown under columns 4 and 5—7 respectively. How many of the total households and workers participate in the industries and for what period, their distribution is shown under the remaining columns of the table in relation to different periods of participation.

The data about households engaged in household industries with cultivation is shown separately against symbol (a) in the table and the data about the households engaged in household industries without cultivation against symbol (b). The presentation of the data is down to the district level for total, rural and urban areas separately.

Major groups of household industries having less than 10 per cent of the figures of the respective divisions have not been given in the table but are given in an Appendix separately. The divisions thus affected are marked with an asterisk(*).

[illegible]

APPENDIX.

B-XVI—SAMPLE PRINCIPAL HOUSEHOLD INDUSTRY CLASSIFIED BY PERIOD OF WORKING AND TOTAL NUMBER OF WORKERS ENGAGED IN HOUSEHOLD INDUSTRY IN ALL AREAS

(Based on 20% Sample)

Major groups of I.S.I.C., pertaining to household industries having less than 10 per cent of the figures of the respective divisions have not been shown in the Table B-XVI, but have been given in a *run-on-lines* presentation in this appendix. The divisions thus affected are marked with an asterisk(*) in the table.

In the *run-on-line* presentation, the figure preceding brackets represents the I.S.I.C., Code No. of major group dropped from the table. Alphabets given in brackets are the symbols for the different periods of working of/in the household industries 'with' or 'without' cultivation as explained below. The numerical figure given after an alphabet denotes the number of households in that particular range symbolized by the alphabet.

Household industries with cultivation

<i>Symbols</i>		<i>Ranges of period of working</i>
A	means	1 to 3 months
B	"	4 to 6 months
C	"	7 to 9 months
D	"	10 months to 1 year
X	"	Unspecified months.

Household industries without cultivation

<i>Symbols</i>		<i>Ranges of period of working</i>
E	means	1 to 3 months
F	"	4 to 6 months
G	"	7 to 9 months
H	"	10 months to 1 year
Y	"	Unspecified months

For Example : HIMACHAL PRADESH : RURAL

01 (X-1)

Figure 01 preceding the brackets stands for I.S.I.C., major group 01 relating to household industry of 'plantation crops'. A list of common house holds industries with their Industrial code numbers is given as an annexure to this report. This may be referred for descriptions of the code numbers of major groups in this appendix.

Alphabetical symbol X inside the brackets signifies that the period of working in/of the household industry is 'unspecified in months'. The numerical figure 1 after the symbol X denotes that there is one household so engaged. In all it means that in Himachal Pradesh there is one household engaged in household industry of 'plantation crops' and the period of working in/of the household industry is 'unspecified in months'. The household is engaged in cultivation also.

The *run-on-line* presentation of major groups dropped from Table B-XVI is as follows down to district level for rural and urban areas separately.

Himachal Pradesh

TABLE B-XVII

SAMPLE HOUSEHOLDS CLASSIFIED BY (i) NUMBER OF MALE AND FEMALE MEMBERS BY SIZE OF HOUSEHOLDS AND (ii) ENGAGEMENT (a) NEITHER IN CULTIVATION NOR IN INDUSTRY (b) IN HOUSEHOLD INDUSTRY ONLY AND (c) IN CULTIVATION SUB-CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20% Sample)

Fly-leaf

The table has been prepared for total, rural and urban areas down to the district level. It classifies sample households by their sizes with regard to number of persons in them and engagement. Though the definition of census household is not the same as that of a family, since former includes also unrelated persons living with the family at the time of census count, yet this table may be taken to give a general idea of family sizes, as the number of families having outsiders is insignificant.

Total number of households and household population from which 20 per cent sample has been drawn are given in the following statement:

Statement showing the number of households and household population

Union Territory/District	Total Rural Urban	Total No. of (†) Households	Total Household Population(‡)

ANNEXURE

LIST OF COMMON HOUSEHOLD INDUSTRIES WITH THEIR INDUSTRIAL CODE NUMBERS

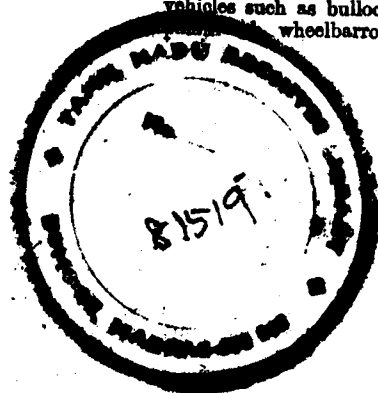

Industrial Code Number	Household Industry	Industrial Code Number	Household Industry
Major Group 00		Major Group 01—contd.	
FIELD PRODUCE AND PLANTATION CROPS		LIVESTOCK AND HUNTING—contd.	
005.1	Production of Vegetables	041.2	Production of wool
005.2	Production of roots etc., not included above	042.1	Rearing and production of pigs and goats (mainly for slaughter)
006.1	Production of fruits and nuts in plantation, vines and orchards	042.2	Rearing and production of other animals (mainly for slaughter) n.e.c.
006.2	Production of copra (from coconuts)	043.1	Poultry keeping and production of eggs
007.1	Production of thatching grass	043.2	Rearing and production of ducks, hens etc. and other small birds e.g. pigeons, parrots, peacock, maina etc.
007.2	Production of wood, bamboo, cane reeds, etc. (excluding thatching grass)	044.1	Bee keeping for production of honey and wax
008.1	Production of juice (Neera) by tapping coconut trees	044.2	Collection of wax and honey
008.2	Production of juice by tapping other palms like date, palmyra n.e.c.	045	Rearing of tasar/eri/maulberry and other silk worms and production of cocoons and raw silk
009	Production of other agricultural produce (including fruits and nuts not covered by 006 and flowers not covered above)	046.1	Dog breeding, rearing of rabbits and guinea-pigs
Major Group 01		046.2	Rearing of other small animals and insects n.e.c.
PLANTATION CROPS		048.1	Collection of bones
013	Production of tobacco in plantation	048.2	Manufacture of glue from animal carcasses
015.1	Pan Cultivation	048.3	Manufacture of gut
015.2	Plantation Crops except tea, coffee, rubber, tobacco, ganja, cinchona, opium and pan	048.4	Production of other animal husbandry products such as skin, ivory, teeth and hair etc.
Major Group 02		Major Group 10	
FORESTRY AND LOGGING		MINING AND QUARRYING	
023.1	Production of charcoal	107.1	Extraction of chalk
023.2	Production of other fuels by exploitation of forests	107.2	Quarrying of lime-stone
024	Production of fodder by exploitation of forests	107.3	Stone and slate quarrying
025.1	Production of Kathha	107.4	Quarrying of sand, clay, gravel etc. n.e.c.
025.2	Production of Lac	Major Group 20	
025.3	Production of gum	FOODSTUFFS	
025.4	Production of resins, barks, herbs, wild fruits, berries and leaves etc. n.e.c.	200.1	Production of flour by village chakkies or flour mill by grinding wheat, maize, gram etc.
026	Production and gathering of other forest products not covered above	200.2	Hand pounding of rice by Dhekhi or Ukhal
Major Group 03		200.3	Production of rice by milling, dehussing and processing of paddy by rice mill
FISHING		200.4	Grinding of chillies, turmeric etc.
030	Production of fish by fishing in sea	200.5	Production of pulses
031	Production of fish by fishing in inland waters and ponds including fish farms and fish hatcheries	200.6	Parboiling of grains
032	Production of pearls, conch, shells, sponges, sea herbs, corals etc., by gathering or lifting from sea, river, pond	200.7	Production and processing of other crops and food grains n.e.c.
Major Group 04		202.1	Gur and Khandasari making from sugarcane and palm
LIVESTOCK AND HUNTING		202.2	Production of bhoora and candy
040.1	Rearing of goat for milk and animal power	202.3	Production of jaggery from coconut and palmyra juice (neera)
040.2	Rearing of buffalo for milk and animal power	202.4	Production of other indigenous products from sugar and jaggery n.e.c.
040.3	Rearing of cows for milk and animal power	203.1	Manufacture of achar, pickles, chutney and murabba
040.4	Rearing of camels and other big domestic animals	203.2	Production of sauce, jam and jelly
040.5	Production and rearing of livestock mainly for milk and animal power n.e.c.	203.3	Processing of cashew nut
041.1	Sheep breeding and rearing	203.4	Manufacture of kokam products
		203.5	Fruit preservation (canning of fruits)
		203.6	Making dried vegetables
		203.7	Production of other fruit products and preservation of fruits n.e.c.

Industrial Code Number	Household Industry	Industrial Code Number	Household Industry
Major Group 20—contd.		Major Group 23—contd.	
FOODSTUFFS—contd.		TEXTILE—COTTON—contd.	
204.1	Slaughtering, preservation of meat and fish and canning of fish.	233.3	Tie and dye (bandhani) of cloth and yarn
204.2	Fish currying or curing and salting (currying applies more to skin and hide)	234	Cotton cloth weaving in powerlooms
205	Production of bread, biscuit, cake and other bakery products	235	Cotton cloth weaving in handlooms
206	Production of butter, cream, ghee, cheese, chhana, khawa and other dairy products	236	Manufacture of khadi textile in handlooms
207	Oil pressing ghani, kolhu or by small machines	237	Printing of cloth (cotton)
209.1	Confectionery	238.1	Making of fishing net
209.2	Making of sweet-meats, laddu, peda, barphi, batasa etc.	238.2	Making of mosquito net
209.3	Sattu, bhunja, papar, barri, danauri, tilauri, sewai, apalam etc.	238.3	Making of other nets
209.4	Making of chura or chira, muri, murki, khoi	239.1	Making of sacred thread
209.5	Making of chat	239.2	Making of thread, rope, cordage and twine (cotton)
209.6	Making of dalmot, chanachur (jor) garam, rewari etc.	Major Group 24	
209.7	Making of other food products for residuary snacks	TEXTILE—JUTE	
209.8	Production of other food products like cocoa, chocolate, toffee, lozenge	240	Jute pressing and baling
Major Group 21		241	Jute spinning and weaving of mats, asanis etc.
BEVERAGES		242	Dyeing and bleaching of jute
210.1	Manufacture of vinegar from coconut juice (neera)	244.1	Making of rope and cordage, out of hemp
210.2	Manufacture of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	244.2	Making of rope and cordage, out of jute
211	Production of country liquor from material obtained from sources other than trees and shrubs	244.3	Making of rope by palm fibre
212.1	Production of indigenous liquor such as liquor, toddy, neera from mahua and palm trees	244.4	Making of rope by date palm fibre
212.2	Production of other indigenous liquors from other materials from trees and shrubs	244.5	Making of fibre, sunn-hemp fibre
214.1	Production of mineral water	244.6	Making of other products from jute and similar fibres such as hemp, mesta
214.2	Production of aerated water such as sodawater, lemonade etc.	Major Group 25	
215	Production of ice	TEXTILE—WOOL	
216	Production of ice cream, ice-candy or kulphi-malai, milk-shake etc.	250	Wool baling and pressing
218	Grinding of Coffee	251	Cleaning, sorting, carding, scouring and processing of wool
219.1	Preparation of sharbats and squashes	253	Spinning of wool by charkha or takali
219.2	Preparation of jeerapani	254	Weaving of woollen cloth in powerloom such as blankets, asanis etc.
219.3	Production of other beverages n.e.c.	255	Weaving of woollen cloth in handloom such as blankets, rugs, pashmina, thulma, gudma, etc.
Major Group 22		256.1	Embroidery with various colours, combinations of various threads and art work in woollen textile
TOBACCO PRODUCTS		256.2	Shawls (with traditional borders)
220	Manufacture of bidi	Major Group 26	
221	Manufacture of cigars and cheroots	TEXTILE—SILK	
223	Manufacture of hookah tobacco	261	Dyeing and bleaching of silk
224	Manufacture of snuff	262.1	Spinning of tussar, other than in mills
225	Manufacture of jerda, kimam, khaini and other chewing tobacco	262.2	Spinning of eri, other than in mills
226	Manufacture of other tobacco products n.e.c.	262.3	Spinning of silk, other than in mills n.e.c.
Major Group 23		263.1	Weaving of Traditional silk (Atlas) by powerloom
TEXTILE—COTTON		263.2	Weaving of tussar by powerloom
230	Cotton ginning, cleaning, carding, pressing and baling	263.3	Weaving of eri by powerloom
231	Cotton spinning (by charkha and takali)	263.4	Weaving of silk artificial silk in powerloom n.e.c.
233.1	Dyeing of cloth (cotton) and yarn	264.1	Weaving of mashru, himroo, brocade, kinkhab by handloom
233.2	Bleaching of cloth (cotton) and yarn	264.2	Weaving of silk and artificial silk in handloom n.e.c.
		265	Printing of silk textile
		266.1	Goat making
		266.2	Making of silk cordage, rope and twine n.e.c.

Industrial Code Number	Household Industry	Industrial Code Number	Household Industry
Major Group 27	TEXTILE—MISCELLANEOUS	Major Group 28—contd.	MANUFACTURED OF WOOD AND WOODEN PRODUCTS—contd.
270-1	Making of durries	284-5	Bead making from wood
270-2	Making of carpets and druggets	284-6	Sawdust and plaster figure making
270-3	Manufacture of other similar textile products	284-7	Marquetry boxes (inlay work)
271-1	Making of hosiery goods such as banyans, socks, sweaters, mufflers etc.	284-8	Manufacture of photo frames and framing of photo painting etc.
271-2	Making of nolas and azarbands	284-9	Manufacture of other wooden products n.e.c.
271-3	Making of parandas and chooteles	285	Manufacture of match splinters, plywood and veneers
271-4	Manufacture of hosiery and other knitted fabrics and garments n.e.c.	287	Manufacture of boxes and packing cases other than plywood
272-1	Embroidery and making of phulkari	288-1	Making of box from moonjgrass
272-2	Making of jari thread, zardoshi	288-2	Making of rope mats etc. from moonj and sawaj grass and making of cadjar for thatching purposes
272-3	Traditional embroidery	288-3	Making of mats, handfans and umbrellas from palm leaves
272-4	Patchwork embroidery	288-4	Making of sirki, moora and ohhaj
272-5	Lace garland making	288-5	Making of baskets and broomsticks
272-6	Making of fringes and crape laces	288-6	Making of donas (drone) and pattals (patravali) from leaves
272-7	Making of kargota, main garlands, shell garlands etc.	288-7	Caning of chairs
272-8	Making of other embroidery products n.e.c.	288-8	Making of chikis, cuscus-tatti and fans, sticks and poles from bamboo
273-1	Making of cap, hat, and other head-gear	288-9	Manufacture of other articles from leaf, cane, bamboo, cork and other allied products n.e.c.
273-2	Traditional garments	289-1	Making of sticks and poles from wood
273-3	Chrochet work (bora caps)	289-2	Making of wooden kharaus and other wooden sandals
273-4	Making of textile garments including rain-coats and head-gears n.e.c.	289-3	Making of artwheels
274-1	Weaving of khes, bed covers, curtains, pillow cases and table-cloth, cloth bags etc.	289-4	Manufacture of other wood and allied products n.e.c.
274-2	Making of newar		
274-3	Manufacture of other made-up textile goods like mattress, quilt, reza' etc. n.e.c.	Major Group 29	PAPER AND PAPER PRODUCTS
275	Manufacture of water proof textile products such as oil cloth, tarpaulin etc.	291	Manufacture of pulp and paper by hand
276-1	Making of namda felt	292-1	Making of envelopes and paper bags
276-2	Making of sazan (padded quilts)	292-2	Papier mache articles
276-3	Processing of coconut fibre for upholstery	292-3	Making of kite
276-4	Handicraft articles made of flax and fibre	292-4	Paper decorations for homes
276-5	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling n.e.c.	292-5	Making of card-board boxes and cards
277-1	Manufacture of coir matting, cactus fibre for ropes and rope making from coconut fibre	292-6	Making of paper toys
277-2	Making of brush, broom etc. from coconut fibre	292-7	Making of paper flowers etc.
277-3	Coir spinning	292-8	Manufacture of other paper products from paper board and pulp n.e.c.
277-4	Coconut curing		
277-5	Other allied products of coir industry n.e.c.	Major Group 30	PRINTING AND PUBLISHING
278	Manufacture and repair of umbrellas	301	Printing and publishing of books
279-1	Making of daura (thread) batua, cotton thread, buttons	302-1	Printing works, printing of handbills, invitation cards etc.
279-2	Manufacture of dolls and toys (rags and cotton)	302-2	Lithography, engraving, etching, block making, type cutting and other work connected with printing industry
279-3	Manufacture of other textile products not elsewhere classified	303	Book binding, stitching, sizing and other work connected with book binding industry
Major Group 28	MANUFACTURE OF WOOD AND WOODEN PRODUCTS	Major Group 31	LEATHER AND LEATHER PRODUCTS
280	Sawing, planing and milling of wood	310-1	Flaying, processing of hides and skins including taxidermy
281	Manufacture of wooden furniture and fixtures	310-2	Currying, tanning and finishing of hides and skins, preparation of finished leather
282	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	310-3	Stuffed animals
283-1	Carpentry works concerned with repairs of agricultural implements (wood)	311-1	Making of leather boots, shoes or chappals (slippers, sandals)
283-2	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipments and fixtures	311-2	Making of Poola shoes
284-1	Lacquerware (if on wood)	311-3	Manufacture of other footwear n.e.c.
284-2	Manufacture of wooden utensils, artware and decorative wooden boxes (patras)		
284-3	Manufacture of wooden toys		
284-4	Sandal wood and other wood carving		

Industrial Code Number	Household Industry	Industrial Code Number	Household Industry
Major Group 31—contd.	LEATHER AND LEATHER PRODUCTS—contd.	Major Group 34-35—contd.	NON-METALLIC MINERAL PRODUCTS OTHER THAN PETROLEUM AND COAL—contd.
312	Making of clothing and wearing apparel (except footwear) made of leather and fur	341-3	Making of cement statues
313	Manufacture of leather products such as leather upholstery suit cases, pocket-books, cigarette and key cases, purses, saddlery, whip aquaducts (Kos), charas and other articles	341-4	Making of cement products n.e.c.
314	Repair of shoes, chappals and other leather footwear	342-1	Manufacture of lishu
315	Repair of all other leather products except footwear	342-2	Manufacture of lime
		343-1	Stone carving
		343-2	Marble carving
		343-3	Granite carving
		343-4	Manufacture of other structural stone goods, stone dressing and stone crushing n.e.c.
		344	Making of chakki, chakia, silaut, lorha, jainta, utensils and other articles from stone
Major Group 32	RUBBER, PETROLEUM AND COAL PRODUCTS	345	Manufacture of stone images and toys
320	Vulcanising tyres and tubes	346-1	Making of images from soap stone
321	Manufacture of chappals from torn tyres and other rubber footwear	346-2	Manufacture of images, toys and other articles of plaster of paris
322	Manufacture of rubber products from natural and synthetic rubber including rain-coats, waterproof cloths etc.	348-1	Mica splitting
		348-2	Manufacture of mica products, including mica grinding
		350	Making of earthenware such as pottery, etc.
Major Group 33	CHEMICALS AND CHEMICAL PRODUCTS	351	Manufacture of crockery
331-1	Manufacture of dyes, paints, colours, abir, sindoor, varnish etc.	353-1	Making of glass bangles
331-2	Manufacture of indigo	353-2	Making of glass beads
332	Manufacture of fertilizer (including from bones)	353-3	Manufacture of bead garlands (where making of garlands is undertaken at the place of manufacture of beads) (also see 399)
333	Manufacture of fireworks and other explosives such as pataka etc.	354	Manufacture of Laboratory glass apparatus
334	Manufacture of matches	355	Making of clay models, earthen images, busts and statues
335-1	Manufacture of incense and perfumes	356-1	Making of earthen toys and artware
335-2	Manufacture of Agarbatti	356-2	Decorative ceramics
335-3	Manufacture of rose water	357	Manufacture of glass and glass products except optical and photographic lenses
335-4	Manufacture of powder, snow, cream, bindi, tikali, hair oil and nail polish	Major Group 36	BASIC METALS AND THEIR PRODUCTS EXCEPT MACHINERY AND TRANSPORT EQUIPMENT
335-5	Manufacture of kumkum and hinglo	360-1	Re rolling of M. S. Rods
335-6	Manufacture of masoara and kajal	360-2	Manufacture of iron and steel including smelting, refining, rolling, etc. such as billets, blooms, tubes, rods n.e.c.
335-7	Manufacture of medicines (ayurvedic, unani etc.) and pharmaceutical preparations	362	Manufacture of arms and weapons and their repair service
335-8	Manufacture of perfumes, cosmetics and other toilet preparations n.e.c.	364	Manufacture of iron and steel furniture
336-1	Manufacture of soap and washing soda	365-1	Making of utensils of brass and bell metal
336-2	Manufacture of other washing and cleaning compounds n.e.c.	365-2	Making of brassware
337-1	Manufacture of plastic toys	365-3	Making of bottom part of hookah from brass and bell metal
337-2	Making of plastic buttons	365-4	Making of brass and bell metal ornaments
337-3	Manufacture of other plastic goods	365-5	Making of other brass and bell metal products n.e.c.
337-4	Making of celluloid goods	366-1	Making of aluminium utensils
337-5	Manufacture of turpentine, synthetic resin and other materials n.e.c.	366-2	Making of other aluminium products n.e.c.
338	Salt production	367-1	Making of tin utensils
339-1	Manufacture of ink including fountain pen ink	367-2	Making of articles from tin sheets
339-2	Making of candles	367-3	Copper utensils
339-3	Making of tooth powder	367-4	Bronze works including bronze images, medals and articles of alloys
339-4	Making of boot polish and inedible oils etc.	367-5	Manufacture of other metal products (excluding iron, brass, bell metal, aluminium) n.e.c.
339-5	Manufacture of other chemical products n.e.c.	368-1	Lacquerware (if on metal)
Major Groups 34-35	NON-METALLIC MINERAL PRODUCTS OTHER THAN PETROLEUM AND COAL	368-2	Nickel plating and electroplating
340-1	Making of bricks	368-3	Engraving, embossing, polishing and welding of metal products
340-2	Manufacture of roofing tiles	368-4	Enamelling and galvanizing of metal products
340-3	Manufacture of other clay products n.e.c.	368-5	Planting and electroplating of metal n.e.c. including silverplating, goldplating, E.P.N.S. etc.
341-1	Manufacture of cement door frames and sanitary fittings		
341-2	Manufacture of cement jali and tiles		

Industrial Code Number	Household Industry	Industrial Code Number	Household Industry
Major Group 36 —contd.	BASIC METALS AND THEIR PRODUCTS EXCEPT MACHINERY AND TRANSPORT EQUIPMENT—contd.	Major Group 39	MISCELLANEOUS MANUFACTURING INDUSTRIES
369-1	Manufacture of agricultural implements such as ploughshare, khurpi, kudal etc.	390-1	Repair of spectacles
369-2	Manufacture of light engineering goods including bolts and screws	390-2	Manufacture of small photographic equipment
369-3	Making of iron utensils (e.g. buckets etc.) and articles from iron sheets	390-3	Manufacture of optical and photographic equipment n.e.c.
369-4	Making and repairing of locks and trunks	391	Manufacture of scientific goods
369-5	Outlery	392	Repairing and servicing of watches and clocks
369-6	Manufacture of pins	393-1	Inlay work with ivory and brass
369-7	Manufacture of scales, weights and measures	393-2	Goldsmithy
369-8	Foundry Industry (including blacksmithy)	393-3	Manufacture of jewellery, silverware and wares using gold and other precious metal and precious and semi-precious stones
369-9	Manufacture of other sundry hardwares such as G. I. pipe, wire net etc., n.e.c.	393-4	Silver artware, including silver repousse work on copper (such as in Tanjore) and silver images
Major Group 37	MACHINERY (ALL KINDS OTHER THAN TRANSPORT) AND ELECTRICAL EQUIPMENT	393-5	Silver filigree industry
370	Manufacture of mechanical water pumps, tube well pumps, air pumps etc.	393-6	Manufacture of gold and silver leaves
372	Manufacture of small machine tools and machine parts	393-7	Gold covering work (fancy jewellery)
373	Manufacture of sewing machine parts	393-8	Bidriware industry
375	Repairing and servicing of fans	393-9	Manufacture of jewellery, silverwares etc. n.e.c.
376	Manufacture of insulated wires	394	Manufacture, repairing and tuning of musical instruments such as harmonium, tabla, sitar, bansuri, etc.
377-1	Manufacture of storage batteries	395-1	Manufacture of chalk pieces
377-2	Manufacture of charging batteries	395-2	Making of slate and slate pencil
377-3	Manufacture of other batteries n.e.c.	395-3	Making of rubber stamps
378	Repairing and servicing of radios	395-4	Manufacture of fountain pen parts
379-1	Manufacture of domestic electrical appliances	395-5	Manufacture of other stationery articles such as pencils, penholders etc.
379-2	Repairing and servicing of electrical apparatus heaters, oven etc.	396-1	Manufacture of deshi sports such as lezzim and dumbbells
Major Group 38	TRANSPORT EQUIPMENT	396-2	Making of rubber balls and balloons
382	Manufacture of body of trucks and buses including carpentry and joinery work involved	396-3	Manufacture of other sports goods n.e.c. bats, rackets, balls etc.
384	Repairing and servicing of automobiles	399-1	Making of tikka and cowdung cakes
385-1	Manufacture of cycle parts and accessories such as saddle, seat frame and gear etc.	399-2	Making of beads from conch shells and horn goods
385-2	Manufacture of rickshaw parts	399-3	Making of traditional objects such as Orissa, Mysore and Tanjore paintings etc.
386	Manufacture of boats and barges	399-4	Making of lac bangles
388	Repair of cycle and rickshaw	399-5	Making of buttons (bone, shell, ivory)
389	Manufacture of animal drawn and hand drawn vehicles such as bullock cart, tamtam, lagadi, wheelbarrow, handbarrow etc.	399-6	Making of gangavan (making of wig from human hair)
		399-7	Making of garlands from flowers, camphor, sandal wood shavings, seeds and other materials, like beads etc.
