ACKNOWLEDGEMENTS

The Census Operation in Tripura could not be a success without the whole-hearted co-operation of the people and the enumeration agency. I am, therefore, very grateful to them.

The Sub-Divisional/Additional Sub-Divisional Officers worked as Sub-Divisional Census Officers in connection with the 1961 Census in the midst of their multifarious works and pre-occupations and they helped me a lot in supervising the Census work in their respective Sub-Divisions. I must express indebtedness to them and also to the Administration for their whole-hearted co-operation.

Enumeration is followed by a complicated process of sorting, compilation and tabulation. Great accuracy was to be ensured alongwith speed of the work in completing the various processes of sorting, compilation and tabulation. I must acknowledge the services rendered by Shri H.G. Roy, Assistant Superintendent, Shri S. S. Suryanarayanan, Ex-Tabulation Officer, Shri D. K. Choudhury, Tabulation Officer and also other staff of the Tabulation Office for compiling this report.

I am also very grateful to Shri A. Mitra, I.C.S., Registrar General, India for his constant guidance and valuable suggestions in respect of compilation of this report. Shri K.D. Ballal, I.A.S., Central Tabulation Officer of the Office of the Registrar General, India took great pains in scrutinising the tables and the Fly-Leaves of this report. I am, therefore, very grateful to him for the kind help rendered to me for compiling the report.

PART II-C

CULTURAL AND MIGRATION TABLES

SOCIAL AND CULTURAL TABLES

INTRODUCTORY

All the tables of this series correspond to social and cultural tables of 1951 Census. The subject-wise distribution of social and cultural tables of 1951-Census and 1961-Census is given below :—

1951—Census	1961—Census
1 Size and Composition of Households. (0.1% roughly)	Size and Composition of Households. (20% sample)
2 Age, Civil Conditions and Literacy for 10% sample population.	Age, Civil Conditions and Literacy on full count.
3 Mother Tongue Bilingualism.	Mother Tongue and Bilingualism.
4 Religion	Religion
5 Scheduled Castes and Scheduled Tribes by sex.	Scheduled Castes and Scheduled Tribes by sex, literacy and by workers and non-workers.

In the case of Mother-tongue at the 1951-Census, the languages and dialects were published in the tables as they were returned. In the 1961-Census the Mother-tongues have been exhibited in alphabetical order. The fly-leaf to table C-V which is written by the Linguist, gives *inter alia* classification of the mother-tongues based on the Linguistic Survey of India.

Two tables—one of Scheduled Castes and the other of Scheduled Tribes population showing their distribution according to industrial classification of workers and non-workers and also by literacy, have been included in this series. Special tables for Scheduled Castes and Scheduled Tribes have been presented in Part V-A of the Census volume.

Of the 10 tables in this series, the first table C-I relating to composition of households has been prepared on a 20% sample. All the other tables have been prepared from individual slips and on a full count. The following is a list of social and cultural tables included in this series :—

C-I	Composition of sample households by relationship to Head of family classified by size of land cultivated
C-II	Age and Marital status
C-III Part A	Age, Sex and Education in all areas
C-III Part B	Age, Sex and Education in urban areas only
C-III Part C	Age, Sex and Education in rural areas only
C-IV	Single Year Age Returns
C-V	Mother-Tongue
C-VI	Bilingualism
C-VII	Religion
C-VIII Part A	Classification by literacy and Industrial category of workers and non-workers among Scheduled Castes
C-VIII Part B	Classification by literacy and Industrial category of workers and non-workers among Scheduled Tribes

The mode of presentation of the above mentioned tables have been described in the respective fly-leaves except of table C-V.

The Fly-leaf for Table C-V has been prepared by the Linguist. This table has been presented for total, rural and urban and by Sub-division for each speech given in alphabetical order. The *instructions* for recording answer to Q. 7 (a) regarding Mother Tongue in the Slip are quoted below :—

Q. 7 (a) Mother Tongue

Write the mother tongue in full including dialect as returned by the person enumerated. Mother tongue is language spoken in childhood by the person's mother to the person or mainly spoken in the household. If the mother died in infancy, write the language mostly spoken in the person's home in

childhood. In the case of infants and deaf mutes give the language usually spoken by the mother.

In addition to the above tables, 8 Appendices

have been presented to table C-III, showing the results of the enquiry conducted along with 1961-Census count of the Scientific and Technical personnel in the territory. These Appendices are preceded by a Fly-leaf.

TABLE C-I COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20% sample)

• FLY-LEAF

This table has been prepared on a 20% sample basis from the Household Schedule sorted by mechanical process for total, rural and urban, showing the distribution of sample households by the type of their composition.

The definition of the term 'Household' and the instructions regarding the same are given in Appendix III to the prefatory Note. A household means the entire group of persons who commonly live together in the same census house and take their meals from a common mess unless the exigencies of work prevent them from doing so. By this definition, the Household, therefore, is not the same as a 'Family', as the household includes persons who are not members of the family, but are residing with the family during the census period.

The corresponding table of 1951-Census was table C-I. The National Register of Citizens which showed the details of the individuals arranged by households were utilised for this purpose. An abstract from the National Register of Citizens called the 'Census Abstract of Sample Households' was prepared for the sample households. The construction of 'Household' (size and composition) table was based on that abstract, which was compiled on the basis of a sample of one in one thousand households.

In lieu of the National Register of Citizens, a Census Population Record which forms Part II of the Household Schedule (vide Appendix III to the prefatory Note given in Sub-Part (i) of Part II), has been prepared at the time of 1961-Census.

While selecting the sample Households the following instructions of the Registrar General, India, have been strictly followed :—

"1 All pads of household schedules of rural areas of one tehsil should be arranged in order of ascending number of location codes of villages. If in a village more than one pad is used, these pads should also be arranged according to the serial number given to the pads for that village.

2 Similarly, all pads of urban areas in a district should be arranged in ascending order of location code numbers. Within an urban area these pads will be arranged in the order of block numbers.

3 Every fifth household from the starting random household will be selected to make a 20% sample. After selection of the first sample Schedule, the sample will be continuously picked up without a break until the last pad of the tehsil is exhausted in the rural areas and the district in urban areas.

4 In taking out sample, the institutions should be discarded and the samples should be confined only to family households. In counting every fifth household schedule, therefore, the schedule for institutional household should be left out, the order of the sample being confined only to the schedules of households.

5 The sample households will be indicated by stamping the selected schedule in the right hand top corner with a rubber stamp(s).

6 The sample schedule (i.e., those having rubber stamp mark) will be carefully removed from the pad and tied together for a tehsil in the sequence of villages within the tehsil and in the sequence of towns in the case of urban areas, the slips being arranged in the same order as when the sample were removed.

7 In case two or more household schedules are utilised for a household on account of large size of the household, all such schedules utilised for one household should be considered as one scheduled for the purpose of counting every fifth schedule in the pad for sample selection."

In this table family and non-family members of the household are separately shown. Among the family members Heads of households and their spouses are given. Both can be males or females. Married sons and other married relations are also given separately.

The heads of households are shown as less than the total number of households in some areas on account of the fact that some enumerators had apparently not indicated any persons as the head of household in the 'Population Record' where the conventional head of household was absent from the

household at the time of enumeration and had not been enumerated in that household.

The following tables shows the percentage distribution of population of the sample households by relationship for the territory by total, rural and urban classification :—

Composition of households	Total		Rural		Urban	
	Males	Females	Males	Females	Males	Females
1	2	3	4	5	6	7
1 Head of households	34.92	2.13	35.23	2.02	31.79	3.40
2 Spouses of heads of households	0.04	32.38	0.04	32.48	0.06	27.48
3 Married sons	5.21	...	5.45	...	2.75	...
4 Other married relations	4.01	10.41	4.09	10.64	3.23	8.10
5 Never married, widowed or divorced relations	53.90	54.69	53.58	54.23	57.15	59.48
6 Unrelated persons	1.92	0.39	1.61	0.27	5.02	1.54

The percentage of females under 'other married relations' which include married daughters or married sisters or daughters-in-law or brother's wife or mother's-in-law or son's wife of the heads of households, is higher than that of males. Married males under other married relations generally include sons-in-law, or brothers, or brother's married sons, or brothers-in-law or father-in-law. The proportion of never-married, widowed or divorced relations both

of males and females is higher in urban areas ; while that of the married sons is less in urban areas. The percentage of unrelated persons is higher in urban areas. The domestic servants are included in this group. The percentages of constituents—'Other married relations' and 'Never married, widowed or divorced relations' cover the bulk of the composition of households both in rural and urban areas justifying the existence of joint family system.

TABLE C-II

AGE AND MARITAL STATUS

TABLE C-II AGE AND MARITAL STATUS

FLY-LEAF

This demographic table has been prepared in this Census, on full count. The corresponding table at the 1951 Census was C-III which was prepared on a 10% sample.

The quinquennial age-groups in the range of 10-69 in this table conform to international requirements. It provides scope for an assessment of the increase or decrease that has obtained in the proportions of the marital status conditions since the last Census.

Instructions regarding recording of answers to Q. 2 and 3 are quoted below :—

Q. 2 Age in completed years last birthday.

Write age in years completed last birthday. For infants below one year of age write—'0'. You will find many persons who cannot state their age correctly. You should assist them to state the correct age. If you are not able to elicit correct age directly, you should stimulate their memory by referring to historical incidents or religious events, etc. You may use any local calender of such events that may have been prepared for the purpose.

Q. 3 Marital Status.

For never married ... write NM
Married ... write M
Widowed ... write W
Separated or Divorced ... wri S

For a person who has never been married write 'NM'. For a person married, whether for the first or another time, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for persons in stable *de facto* union. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or in stable *de facto* union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been divorced in a lawful manner, either by decree of a law court or by a regular social or religious custom but who has not remarried, or a person who has been separated from wife or husband and is living apart with no apparent intention of living together again, write 'S'. For a prostitute return her marital status as declared by her.

The slips were first sorted for age-groups with reference to the answer recorded in Q. 2 in the slip and then for different marital status of each of the age-groups with reference to the answer recorded in Q. 3 in the slip, the slips of the age-groups 0-4 and 5-9 being treated as 'Never Married'.

The following table shows the percentage of population under each civil condition to the total population under that civil condition for Total/Rural/Urban and by Territory/Sub-division.

TABLE C-III PART A—AGE, SEX AND EDUCATION IN ALL AREAS

FLY-LEAF

This part of the table is a consolidation of the figures shown in parts B and C of table C-III. Part B deals with urban areas and part C with rural areas, showing figures according to five-yearly age-groups up to 34 followed by two ten-yearly age-groups of 35—44 and 45—59 and another by the age-group 60+.

The educational levels for urban areas are more elaborate than those shown in respect of rural areas. The educational levels for urban areas are :—

- (a) Primary or Junior Basic ;
- (b) Matriculation or Higher Secondary ;
- (c) Technical Diploma not equal to Degree ;
- (d) Non-technical Diploma not equal to Degree ;
- (e) University Degree or Post-graduate Degree other than Technical Degree ;
- (f) Technical Degree or Diploma equal to Degree or Post-graduate Degree ;
 - Engineering ;
 - Medicine ;
 - Agriculture ;
 - Veterinary and Dairying ;
 - Technology ;
 - Teaching and
 - Others

Figures by the above classification have been shown in table C-III Part B.

For rural areas the educational levels are confined to :—

- (a) Primary or Junior Basic ;
- and
- (b) Matriculation and above.

Figures according to the above classification appear for rural areas in table C-III Part C.

Separate figures for Illiteracy and Literacy (with-

out any educational level) have been given by age-groups in the three Parts of table C-III. All other educational levels shown in urban Part, except that of Primary or Junior Basic, have been added up by sex for the purpose of figures for Matriculation and above shown in this Part of the table.

This table shows the growth of literacy in the total population as well as in the different age-groups.

This table is an elaboration of Union table C-IV of 1951 prepared on a 10% sample.

Instructions about the standard of literacy and education under Q. 6 of the Individual slip are quoted below :—

Q. 6. *Literacy and Education*

I. Illiterate or Literate

For a person

1. Who can neither read nor write or can merely read but cannot write in any language ... write O
2. Who can both read and write ... write L

The test for reading is ability to read any simple letter either in print or in manuscript *i.e.*, if the person can read one of the examples in the Enumerator's Handbook with felicity he may be taken to have passed the test for reading. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can with understanding both read and write.

II. Standard of Education

If the person can both read and write and has also passed a written examination or examinations as proof of an educational standard attained, write the highest examination passed instead of L.

The following is a statement showing Percentage to the total population for T/R/U of persons who are
(a) Illiterate (b) Literate without educational level and (c) persons who have attained educational level of Primary or Junior Basic and Matriculation and above

TABLE C-III—PART B

AGE, SEX AND EDUCATION IN *URBAN AREAS ONLY*

TABLE C-III PART B AGE, SEX AND EDUCATION IN URBAN AREAS ONLY

FLY-LEAF

There was only one town *e.g.*, Agartala in 1951 Census. Besides Agartala, five other places of sub-divisional Hd. qrs. *viz.*, Khowai, Kailasahar, Dharmanagar, Radhakishorepur and Belonia have been treated as towns for purposes of 1961 Census. These five new towns were included in rural areas in 1951 Census.

Age means age completed last birthday. The classification of educational levels for urban areas has been given in the Fly-leaf to table C-III Part A. The Figure of sub-group, 'Others' under group 'Technical degree or diploma equal to degree or Post-graduate degree' constitutes those who possess

B.L. or LLB. degree. The figures for Illiteracy and Literacy have also been given separately.

There are 2 males in Agartala town and 1 female in Kailasahar town in the age group of 10—14 who have passed Matriculation examination. There is no female having degree or diploma in Engineering, Agriculture, Veterinary and Dairying and Technology. According to table C-IV of 1951 which was prepared on the basis of 10% sample population, the ratio of literate population of the age group 45 to total literates in Agartala town was 1 : 156, while that to total literates of this town in this age group on full-count comes to 1 : 7 in 1961 Census.

TABLE C-III PART C

AGE, SEX AND EDUCATION IN *RURAL AREAS ONLY*

TABLE C-III PART C AGE, SEX AND EDUCATION IN RURAL AREAS ONLY

FLY-LEAF

The educational classification in this part of the table is confined, as in table B-III Part B, to two broad levels, *e.g.*, (i) Primary or Junior Basic, and (ii) Matriculation and above. The figures for Illiteracy as well as Literacy have also been shown separately in this Part of the Table.

As in part B of this table, there are 3 males and 1 female who are matriculates, appearing in the age-group of 10—14 in Sadar Sub-division.

The ratio of literates in the age-group of 45+, according to table C-IV of 1951 Census, based on 10% sample population, to total literates of that age-group in rural areas registered at 1 : 85. while that to total of the same age-group in rural areas (leaving aside the five sub-divisional headquarters treated as towns) comes to 1 : 5 (4.96) in 1961 Census.

APPENDICES TO TABLE C-III

SPECIAL ENUMERATION OF SCIENTIFIC AND TECHNICAL PERSONNEL

APPENDICES TO TABLE C-III

SPECIAL ENUMERATION OF SCIENTIFIC AND TECHNICAL PERSONNEL

The Council of Scientific and Industrial Research required certain statistics relating to all those who have recognised degree or diploma in Science, Engineering, Technology or Medicine, as available statistics of such personnel are inadequate. An enquiry was, therefore, conducted along with 1961—Census count during the period of 19 days from the 10th February, 1961 to the 28th February, 1961.

Definition of Scientific and Technical Personnel

The qualification for those about whom the information was to be collected, were as mentioned below :—

1. *Science* :—Anybody holding B.A., or B.Sc., M.A. or M.Sc. or higher degrees (Ph. D., etc.) in Science subjects like Physics, Mathematics, Chemistry, Agriculture, Geology, Geo-Physics, Geography etc.
2. *Engineering* :—Anyone holding recognised Degree or Diploma in Engineering.
3. *Technology* :—Anyone holding Degree or Diploma in technical subjects like Chemical Technology, Leather Technology, Textile Technology, Glass and Ceramic Technology, Food Technology, etc.
4. *Medicine* :—Persons holding Degree or Diploma in medicine and/or surgery.

Note :—According to the above definitions of Scientific and Technical personnel, the Under-graduate scientists (i.e., those who have not got any Bachelor's Degree) or Mechanics and Technicians even though holding certificates did not come under the enumeration.

For collection of information regarding the above mentioned personnel, a special enumeration card (in post-card size) was devised and printed centrally by the Registrar General, India. A specimen of the card is given in annexure to this note.

Instructions Regarding the Procedure for Distribution and Collection of Cards

“The cards are to be distributed by the *Enumerators* to the Scientific Personnel after filling in the Location Code (which is XIX for Tripura in Roman figure to be followed by the location code after a stroke/ in the space provided in the rectangle printed at the right hand top corner of the card) during the enumeration period i.e., between 10th February, 1961 to 28th February, 1961, when he visits a household for enumeration purposes after enquiring whether there are any scientific and technical personnel. He should also request that the cards should be completed and kept ready for collection by him when he revisits the household during the revisional round. These should be handed over by him alongwith the census documents to the Supervisors etc.

The Sub-divisional Census Officers should collect all the cards from the Charge Officers and send them by post to the Registrar General, India.”

“The filled up cards so collected during the revisional round by an enumerator should be handed over along with a list of the names of persons showing their location code to the Supervisor.”

“It should be ensured that the person about whom the information has been given in the card, has given his *full signature* and the *date* as well.”

The procedure for collection of cards by the enumerators as indicated above was in revision of the original arrangement according to which the onus of posting the card after filling in the same, was on the person for whom the card had been left by the enumerator. Reports received from Sub-Divisional Offices revealed that some cards had been posted direct by the persons concerned, some had been posted blank and some others which had been

collected by the enumerators were posted by the Sub-divisional Offices. The procedure adopted for collecting the data cannot, therefore, be said to have attained a complete coverage and the appendices, therefore, suffer from consequent limitations.

The results of the special enumeration of Scientific and Technical personnel have been presented in 8 Appendices. A brief description is given below about the nature of statistics shown in each :—

Appendix I—Classification by each branch and Sub-branch of Science or technology.

This Appendix has been prepared for total showing number of persons by sex classified according to Branch or Sub-branch of Science or Technology in which they are qualified.

Appendix II—Type of activity and marital status of persons in each branch of Science or Technology.

This Appendix has been prepared for total only. In this Appendix Scientific and Technical persons have been divided into three categories according to their type of activity, e.g., Employed, Unemployed and Retired, and each type of activity has been further classified by sex according to their marital status, e.g., Never-married, Married and Others. Classification of persons has been made by the Branch only of Science or Technology.

Appendix III—Year of obtaining Post-graduate Degree in physical Sciences and Graduates and Doctorates in Engineering, Technology and Selected Branches of Medicine.

This Appendix also has been prepared for total only. In this Appendix, year of obtaining degrees has been grouped as pre-1920, and then two ten-yearly groupings of 1920-29 and 1930-39 followed by three five-yearly groupings of 1940-44, 1945-49 and 1950-54. From 1955 to 1960 figures have been shown in yearly basis followed by a column for year not stated.

Figures have been distributed according to the above mentioned groupings of years cross-classified by Branch of Science or Technology with their sub-branches. The selected branches of Medicine in which Bachelor's Degree and above were obtained, are—(i) General Human Medicine/Surgery, (ii) Specialised Human Medicine/Surgery and (iii) Animal Husbandry, Live-stock and Veterinary.

Appendix IV—Persons holding Degrees in Engineering and Technology and also holding Degrees in selected Branches of Physical Science.

This Appendix has been prepared for total. In this Appendix, figures of those holding Bachelor's Degree or Post-graduate Degree in any of the selected Branches of Physical Science and also hold at the same time Bachelor's or Post-graduate Degree in Engineering or Technology, have been given. The term, "Others" appearing as column heading for sub-columns No. 23 and 24, includes the following sub-branches (—vide Col. 2 of Appendix I) :—

- | | | |
|----|------------------|--|
| 90 | General Sciences | (Phys., Maths., Stats., Chem., Bio-Sciences, Geol. Geo., Phys. and other Sciences) |
| 92 | Forestry | |
| 93 | Horticulture | |
| 94 | Others | |

Appendix V—Nature and sector of Employment of persons in each Branch of Science or Technology.

This Appendix has been prepared for total. In this Appendix, employment of persons has been divided into three broad sectors, e.g., Public sector, Private sector and Self-employment. Each of the sectors has been subdivided by types of employment, the

employment position of those engaged in Research assignment being shown separately in each sector. The type of employment under each sector has been further separated into (i) Teaching in schools, (ii) Teaching in colleges, (iii) Technical in Industry, (iv) Technical outside Industry and (v) non-technical. The description of relative classification No. of Branch of Science or Technology indicated in col. 1 has been provided in col. 2 of Appendix 1.

Appendix VI—Total monthly income of persons employed in each Branch of Science or Technology by sector of employment.

This Appendix also has been prepared for total. In this Appendix total monthly income of persons employed in each Branch of Science or Technology under each of the three sectors as shown in Appendix V, has been given. The income groups are 12 in each sector. These are 'less than 100', '100-199', '200-299', '300-399', '400-499', '500-699', '700-999', '1000-1199', '1200-1499', '1500-1999', '2000-and over and 'Unspecified'. Col. 2 of Appendix 1 shows the description of relative Classification No. of Branch of Science or Technology.

Appendix VII—Tenure and Sector of employment of persons in each Branch of Science or Technology.

This Appendix has been prepared for total. In this Appendix persons

engaged in each Branch of Science or Technology, as already shown by sector of employment, have been further distributed according to tenures of their employment that is whether permanent, or temporary or on contract or otherwise under Public or Private sector or self-employed on contract or otherwise. The descriptions of corresponding classification Nos. of Branch of Science or Technology have been shown in Appendix I.

Appendix VIII—Age and period of unemployment of unemployed persons qualified in any branch of Science or Technology.

This Appendix also has been prepared for total. In this Appendix persons qualified in a branch of Science or Technology, but unemployed, have been shown by their period of unemployment cross-classified by age-groups. The unemployed females of such qualifications have been further classified by their marital status into 'never married' and 'married'. The groupings of periods of unemployment are three-monthly upto 1 year, and then half-yearly upto a period of 2 years followed by a period over 2 years. Period unspecified has been shown separately. Such unemployed persons have been further classified by age-groups of 20 years and below, 21-25 years, 26-35 years, 36-45 years, 46-55 years, 56+ and age not stated.

TABLE C-IV

SINGLE YEAR AGE RETURNS

TABLE C-IV SINGLE YEAR AGE RETURNS

FLY-LEAF

This demographic table has been prepared on full count for total, rural and urban population. The corresponding table C-V at the 1951 Census was prepared on a 10% sample.

The table has been prepared by sorting the slips according to the actual age recorded in the answer to Q. 2 in the slip.

Age in years completed last birthday was recorded in the answer to Q. 2 in the slip.

The instruction for eliciting correct age at the time of enumeration was to stimulate the memory of

the person enumerated as to his year of birth by referring to historical incidents or religious events. A Calendar of EVENTS so prepared for the purpose is reproduced in the Annexure to this table.

No smoothing formula has been adopted in the case of age return over 100 and figures have been recorded as actually returned. All ages above 100 have been lumped and shown in the table under 'Over 100'. Figures of single year ages beyond the age of 100 years are, however, shown in the statement appended hereto.

Statement showing figures of single year ages beyond the age of 100 years presented in lump under 'over 100' in table C-IV

MOTHER-TONGUE

TABLE C-V MOTHER-TONGUE

Alphabetical order

Note 1

- (i) The following mother-tongues arranged in alphabetical order in column 1 of the table given below as per Table C-V have been classified in the Linguistic Survey of India. The Linguistic Survey of India Classification No. is mentioned against each mother-tongue in column 3.
- (ii) If in column 3 no Classification No. is given against any mother-tongue of column 1 then it would mean that the name refers to either old or middle Indo Aryan language or a language group or branch or family name from the Linguistic Survey of India.
- (iii) Wherever a tongue is mentioned in column 3 it is to be understood that the mother-tongue is either a dialect or another name or form of the tongue mentioned against it in column 1 which in its turn has been classified by the Linguistic Survey of India in the appropriate place for that tongue.
- (iv) If in column 1, there is a tongue which bears no classification number in the Linguistic Survey of India then in column 2 the name of the classified language or group will be given of which the mother-tongue of column 1 is either a dialect or another name or form. In such a case the number of classified language of column 2 has been given in column 3.
- (v) In column 2 standardized spellings according to Linguistic Survey of India has been given against each mother-tongue of column 1.

TABLE C—VI

BILINGUALISM

TABLE C-VI BILINGUALISM

FLY-LEAF

This table has been prepared only for total, and is in elaboration by sex of table D-I part II of 1951 Census.

The subsidiary language is the result of sorting of answers recorded under Q. 7(b) in the slip. In cases where two languages have been recorded in answer to Q. 7(b) in the slip, the first of the two mentioned in the slip has been taken for purposes of sorting. The instructions for writing answer to Q. 7(b) are quoted below :—

Q. 7 (b) Any Other Language (s)

After recording the mother tongue enquire whether the person knows any other language (s) Indian or Foreign, and write the language (s) returned by him against this question. In case he does not know any other language, put 'X'.

The number of languages recorded against this question should not be more than two. These

languages should be other than his mother tongue which he speaks and understands best and can use with felicity in communicating with others. Such language or languages will exclude dialects of the same language.

This table shows that, of the total population of 11,42,005 mother tongue of 63.26% (7,22,442) population is Bengali. Of the remaining 36.74% (4,19,563) who are non-Bengali speaking population, 35.71% (1,49,853) have returned Bengali as their first subsidiary language. This comes to 13.12% of the total population. The total Bengali knowing population, therefore, comes to 76.38% (8,72,295), that is to say, the numerically predominant language of Tripura is Bengali.

The ratio of female to male of non-Bengali speaking persons knowing Bengali is 1 : 2.43 while that among them who do not know Bengali is 1 : 0.69, inclusive of those who returned Bengali as their second subsidiary language.

TABLE C-VII—RELIGION

FLY-LEAF

This sociological table has been prepared by sex for total, rural and urban by sorting the slips into religion with reference to the answer recorded in Q. 5 (b) in the slip. The main religions have been presented in Alphabetical order followed by the columns for "Other Religions and Persuasions" and "Religion not Stated." The Term "Other Religions and Persuasions" embraces all other religions included the cases of 'Indefinite belief' such as Atheist, Agnostics, Jews and Zorastrians etc. The Supplement to this table shows the details of the entries made in this column.

This table corresponds to Union Table D. II of 1951 Census.

Instructions for recording answer to Q. 5 (b) are reproduced below :—

TABLE C-VIII PART A—CLASSIFICATION BY LITERACY AND INDUSTRIAL CATEGORY OF WORKERS AND NON-WORKERS AMONG SCHEDULED CASTES

FLY-LEAF

This table which has been prepared for total, rural and urban population belonging to Scheduled Castes in Tripura, shows their distribution by literacy and classification of workers into different Industrial categories and also non-workers.

This is a general table relating to the Scheduled Castes. Literacy figures for the Scheduled Castes appear for the first time in this Census. In this table the Scheduled Castes population has been divided into illiterates and literates.

Answer recorded as returned in Q. 5(c) determines whether the person enumerated belongs to any Scheduled Caste or Scheduled Tribe recognised as such in the Territory. The *instructions* for recording answer to Q. 5(c) in the Slip are quoted below :

Q. 5(c) Scheduled Castes and Scheduled Tribes.

The answer to this question will be recorded only if a person belong to a Scheduled Caste or Scheduled Tribe. If the person belong to a Scheduled Caste or Scheduled Tribe obtaining in your State, or in your district, write the name of the caste or tribe to which he belongs. For all others, write 'X' in this column. A list of Scheduled Castes and Scheduled Tribes obtaining in your State or in your district is given to you separately.

If the person belonging to a Scheduled Caste or Scheduled Tribe returns his caste or tribe by a synonym or a generic name of a caste or tribe as given in your list, write the name as returned and the name of the relevant caste or tribe, as per printed list, within brackets.

Do not write the names of Scheduled Castes in general terms, as 'Harijan', 'Achhut'. You should ascertain the name of the caste when it is returned and write it. If a person is negligent and insists on calling himself merely 'Harijan', tell him that this description will not earn the person any benefits under the Constitution permissible to Scheduled Castes and Scheduled Tribes. This may persuade him to give out the correct name.

Scheduled Castes can belong only to the Hindu or Sikh religions. If a person belongs to a Scheduled Caste, there will be either 'H' or 'S' in the answer to question 5(b). Scheduled Tribes may belong to any religion.

Classification into educational levels in respect of Scheduled Castes is as elaborate in table SCT-III. Part A(i) and B(i), as in table B-III. Parts A and B. The tables of SCT series are in Part V-A and table B-III is in Sub-Part I of Part II.

**TABLE C-VIII PART B—CLASSIFICATION BY LITERACY AND INDUSTRIAL CATEGORY
OF WORKERS AND NON-WORKERS AMONG SCHEDULED TRIBES**

FLY-LEAF

This table has been prepared for total, rural and urban population of Scheduled Tribes showing their distribution by literacy and classification of workers into different industrial categories and non-workers.

This is also a general table in respect of the Scheduled Tribes. Literacy figures of Scheduled Tribes have been shown for the first time in this Census. For an elaborate classification of Scheduled Tribes population by educational levels, as shown in General Economic Table B-III. Parts A and B for urban and rural areas respectively, tables SCT-III. Part A (ii) and B (ii) which have been presented in Part V-A of the Census publications, may be referred to. In this table distribution of Scheduled

Tribes population has been made into illiterates and literates only.

The names of Tribes recognised as Scheduled Tribes in Tripura are :—

1. Lushai, 2. Mag, 3. Kuki including the following sub-tribes :—(i) Balte, (ii) Belalhut, (iii) Chhalya, (iv) Fun, (v) Hajango, (vi) Jangtei, (vii) Khareng, (viii) Khephong, (ix) Kuntei, (x) Laifang, (xi) Lentei, (xii) Mizel, (xiii) Namte, (xiv) Paitu, (xv) Rangcha, Rangchan, (xvi) Rangkhole, (xvii) Thangluya, 4. Chakma, 5. Garoo, 6. Chaimal, 7. Halam, 8. Khasia, 9. Bhutia, 10. Munda including Kaur, 11. Orang, 12. Lepcha, 13. Santal, 14. Bhil, 15. Tripura or Tripuri, Tippera, 16. Jamatia, 17. Noatia, 18. Rieng, 19. Uchai.

MIGRATION TABLES

MIGRATION TABLES

INTRODUCTORY NOTE

The migration statistics in the earlier Censuses were produced by the birth-place returns. This was found inadequate for a demographic study of the population with reference to internal migration. In view of the growing industrialisation of the country, rural-urban migration is also taking place in large numbers. In order to make a more detailed study of migration, two new questions were put in this Census: one to ascertain from a person who was not born at the place of enumeration, whether the birth place was rural or urban, and the other to ascertain the duration of his residence at the place of enumeration. The relative questions on birth-place are Qs. 4(a), 4(b), and 4(c). The *instructions* for recording the answers to these questions are quoted below:—

“Q. 4(a) Birthplace

1. If born in village or town in which enumerated.....write PL.
- *2. If born in another village or town of district in which enumerated.....write D.
- *3. If born in another district in the State of enumeration.....write name of district.
4. If born in another State in India.....write name of district and State, if name of district is known; otherwise write name of State.
5. If born in a country out-side India e.g., Pakistan or any other country.....write name of country.
6. Persons born at sea or in air or in railway carriages or on road transport. e.g., buses etc., should be entered as such.

Q. 4(b) Whether born in Village or Town

1. If born in a village.....write R
2. If born in a town which is considered a town at the present time even if it was not so considered at the time of birth.....write U

If the person enumerated is not in a position to say whether the place of birth is a village or town,

write the name of the place of birth as returned by him.

Q. 4(c) Duration of residence

1. For a person born in village or town or city in which enumerated.....write X
- *2. For a person born in another village or town of city of district of enumeration or who was not born in the district of enumeration.....write the number of completed years this person has been in the village/town/city of enumeration.

(Do not take into account periods of temporary absence on leave or holiday or tour or business.)

3. If the duration of residence is less than one year.....write 0

If the duration of residence is one year or overwrite the actual number of completed years of residence.”

Q. 5(a) of the Individual Slip is on Nationality of the person enumerated. The *Instructions* for recording answer to Q. 5(a) are quoted below:—

“Q. 5(a) Nationality

1. For Indian nationals.....write I
2. For other nationals.....write the nationality in full.

Qs. 8 to 11 of the Individual Slip are applicable to workers and Q. 12 thereof to non-workers. The *Instructions* for recording answers to the corresponding questions are quoted below:—

Qs. 8 to 11 Working

These questions apply only to workers. A person who is working may be working as a Cultivator, as an Agricultural Labourer, at a Household Industry or may be doing any other work. You have to record the answer in questions 8, 9, 10 and 11 according as the person is working as a Cultivator or as an Agricultural Labourer or at Household Industry or doing any other work. He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a Cultivator and an Agricultural Labourer, in

*Read “Sub division” or “District” in the case of Tripura.

which case he should be entered both in Q. 8 and Q. 9. Or he may be working both as Cultivator and at Household Industry in which case he will be entered in Q. 8 and Q. 10. Or he may be working in any possible combination of 8, 9, 10 and 11, in which case he will be entered in appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four Questions 8 to 11.

Detailed instructions as to how the answers should be recorded in the individual questions are given against those questions below. You should carefully study them before recording the answers. For an undertrial prisoner enumerated in a Jail, he should be recorded for the work or kinds of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of work he was doing before he was admitted into hospital or institution. But for a convict in a prison or for long term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded but 'I' should be recorded in Q. 12 below.

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce, the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as *worker*. A person who has been offered work but has not actually joined should be treated as *non-worker*. *Work includes not only actual work but effective supervision and direction of work.*

Persons under training as apprentices with or without stipend or wages will be regarded as working.

An adult woman who is engaged in household duties but doing no other work to augment the

family's resources should not be considered as working for purposes of this question. If, however, in addition to her household work she engages herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass etc., or any such work should be treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural, royalty, rent or dividend receivers, who may be earning an income but who are not participating in any productive work, should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in Q. 11.

After you have filled up the answers to question 8 to 11, if you find that in the case of any person more than one productive activity has been recorded i.e., more than one of the questions 8, 9, 10 or 11, has been filled up by some work, you should ask him which one of the activities that has been recorded for him is his principal work. The principal work is the one on which the person spends most time. Put a *ring* round the number of the question 8, 9, 10 or 11, according to the work on which the person says he spends most time. You should invariably ask for the principal work where more than one work is recorded and put a *ring* round the question relating to the principal work.

It may be that in a few cases you find that you have recorded more than two productive activities in questions 8 to 11, i.e., more than two of the questions, 8 to 11 would have been filled up by some work. In such cases you should first ascertain the principal work, i.e., the one on which the person spends most time and put a *ring* round the number of the question. You should then ascertain the work which is the next in importance to his principal work i.e., the work after his principal work which occupies most time. You should put a *tick* against the question number of that work on the right hand side of the question number. The *ring* and the *tick* should

be put clearly so that any difficulty will not be felt to recognise them clearly.

Q. 8 Working as Cultivator

Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations. Persons engaged in fruit growing or orchardry or plantations like tea, coffee, rubber, cinchona and other medicinal plantations should be entered in Q. 10 or Q. 11 as the case may be.

The following classification illustrates as to which answers should be entered under Q. 8 and which others under Q. 11.

Q. 8 includes the productions of the following :—

1. Production of cereal crops (including Bengal gram), such as rice, wheat, jowar, bajra, maize; roots and tubers like potato, yam, beet etc; sugarcane etc.
2. Production of pulses, such as arhar, moong, masur, urd, khesari, other gram.
3. Production of raw jute and kindered fibre crops.
4. Production of raw cotton and kindered fibre crops.

Q. 11 includes other Field Produce and Plantation Crops :—

A. Other Field Produce :—

1. Production of other crops including vegetables not covered in Q. 8.
2. Production of fruits and nuts in plantations vines and orchards (like cocoaunt, arecaunt etc.
3. Production of wood, bamboo, cane, reeds, thatching grass etc.
4. Production of juice by tapping palms.
5. Production of other agricultural produce (including fruits and nuts not covered by Sl. No. 2 and flowers) not covered above.

B. Plantation Crops :—

1. Production tea in plantation.
2. Production of coffee in plantation.
3. Production of rubber in plantation.

4. Production of tobacco in plantation (does not include tobacco which is cultivated in rotation with other cereal crops in which case it would go under cultivation).
5. Production of ganja, cinchona, opium, poppy, saffron etc.
6. Production of other plantation crops not covered above.

For a person working as cultivator write C. For a person not working as cultivator and for a person not working at all put 'X'.

For purposes of the census a person is working as cultivator if he or she is engaged either as employer, single worker or family workers in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land only as a labourer and has no right or lease or contract on land on which he works, nor is responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation and is paid wages in cash, kind or share such as share of produce (Agricultural Labourer) will not be treated as cultivator in this question.

Q. 9 Working as Agricultural Labourer

Write 'AL' for a person working as agricultural Labourer, i.e., a person who works in another person's land only as a labourer without exercising any supervision or direction in cultivation, for wages in cash, kind or share such as share of produce. For others put 'X'. The labourer should have no right or lease or contract on land on which he works, nor should he be responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation. A share of the produce goes to him only as wages. He should have been working as Agricultural Labourer in the last or current cultivating season.

Qs. 10 (a) & 10 (b) Household Industry

If a person is working in a Household Industry

write (1) the nature of work done by him in the Household Industry against question 10 (a) and (b) the nature of the Household Industry against question 10 (b). Otherwise put 'X' in both questions 10 (a) and 10 (b). A Household Industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. You should carefully keep in mind the definition of Household Industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

A Household Industry should relate to produc-

The following examples will illustrate how questions 10(a) to 10(c) should be filled up for persons working at Household Industry :

Q. 10. Working at Household Industry

tion, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

A person though he may not be working in his own Household Industry may be working as a paid employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry, is working in any other Household Industry and if so, write the nature of the work done by him against question 10 (a) and the nature of the Household Industry against Q. 10 (b).

Q. 10 (c) if Employee in Household Industry

This question will be filled up only for a person who is working as a paid employee in another person's Household Industry. In his or her case write 'EE'. For all others put 'X'.

Q. 11 Doing work other than 8, 9 or 10

If a worker is not working as a cultivator or as an agricultural labourer or at any Household Industry write the actual work he is doing. If a person is working as a cultivator or as an agricultural labourer or at Household Industry and also does some other work (including dairying or livestock raising, orchard or plantation etc., as distinct from cultivation of crops), which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above write here the work on which he devotes more time.

Q. 11 (a) Nature of Work

In the case of persons not working or who work only as cultivator or as agricultural labourer or at Household Industry, put 'X'.

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in vernacular transliteration of English. At previous censuses much trouble has been caused by inadequate answers, and if you do not succeed in obtaining satisfactory information on the individual slips, you will be required to make a further visit for that purpose.

Q. 11 (b) Industry, business, trade, profession or service

In the case of a person who is working and the nature of whose own work has been recorded in Question 11 (a), you should write here the nature of industry, business, trade, profession or service in which the person works.

As in the case of Question 11 (a), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of Industries, the articles which are produced or serviced or repaired, should be given. If more than one article is produced the chief article produced or serviced or repaired should be given. In the case of business or trade the principal article of trade should be described. In the case of service describe the nature of the service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classi-

fication of the population. The description should be either in the vernacular or in English or in vernacular transliteration of English.

In the case of a person for whom an X is put in Question 11(a) put an X in this question also.

Important points to remember in Questions 11(a) and 11(b)

1. Women or children who help with work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass, etc., should be described fully even if they work part-time. In the case of married or grown-up women who do any of the work mentioned above in addition to the usual household duties such work should be fully described and HW written in brackets after the full description.

2. If a person makes the articles he sells, he should be entered as maker and seller of them.

3. Wherever convenient, for complete description, the work should be expressed by the vernacular name by which it is known.

4. The following are too vague and must not be used by themselves :

Scientist, technician, civil servant, clerk, engineer, Inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher.

5. **Labourers**—For an unskilled labourer usually employed on one sort of work alone, give also the sort of work done, e.g., railway porter, market or bazar porter, labourer employed on road digging, brick-layer's labourer. If accustomed to work on various jobs, write general labourer.

6. **Machine Operators**—Always state the kind of machine giving its recognised name, if any.

7. **Shop-keepers, Retail Dealers, Shop Assistants**—If wholly or mainly engaged in selling, write 'Dealer' (if principal) or, Shop Assistant or Salesman (if assisting) and state whether the business is wholesale or retail or both. For shop assistants and salesmen in stores with several departments, state the particular department in which engaged (e.g., Ship and Railway Parts, Fans and Sewing Machines, Grocers and Confectioners).

8. **Transport Workers**—Describe fully the nature of the transport e.g., air transport, rail trans-

port, transport by motor car or motor cycle, or vehicles drawn by horse, etc.

9. *Services*—For a person engaged in the Defence Services write 'Service of Central Government'.

10. If the job is known in the trade or industry by a special name, use that name. Managers, Foreman, etc., should be given the department/branch wherever applicable e.g., Sales Manager or a Manager or Hardware Department, Machine Shop Foreman or Boiler Room Foreman, etc. The following terms are insufficient by themselves :—

Manufacturer, merchant, agent, broker, refractor, dealer, engineer and iron works, etc.

11. *Domestic services*. In the case of any private servant e.g., a cook or domestic servant, write only 'private cook or domestic servant'. There is no industry in his case but in the case of persons employed in hostels, restaurants, boarding houses, institutions; etc., the words hotel, restaurant, etc., should be added.

For persons in the employ of Firms carrying on two or more businesses, if the businesses are carried on in separate premises then the business carried on at the premises in which the person is employed should be given. If the businesses are carried on in the same premises but each has a separate organisation (i.e., they have separate records of employment, production, etc.) then the appropriate business should be quoted. If however, the two activities are carried on side by side then the major activity of the firm or establishment should be given.

12. *Commerce*. Special case should be taken to see that the distinction between retail and wholesale business is clear. As in industries, the goods handled should be clearly indicated.

Q. 11(c) Class of Worker

For a person who is :

1. an *Employer*, that is, who hires one or more persons in his work described in Q. 11 (a).....write MR

2. an *Employee*, that is, who does his work described in Q. 11(a) under others for wages or salary in cash or kind.....write EE

3. a *Single Worker*, that is, who is doing his work described in Q. 11(a) without employing others except casually and without the help of other

members of the family except casually. This will include workers working as members of co-operativeswrite SW

4. a *Family Worker*, that is, who is doing his work described in Q. 11(a) in own family without wages or salary in cash or kind.....write FW

For a person for whom an 'X' is put in Q. 11(a) and 11(b) put an X in this question also.

Explanation :—

(i) An *Employer* is a person who has to employ other persons in order to perform the work entered in Q. 11(a). This is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11(a). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

(ii) An *Employee* is a person who usually works under some persons for salary or wages in cash or kind. There may be persons who are employed as Managers, Superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

(iii) A *Single Worker* for the purpose of Q. 11 (c) is a person who works by himself. He is not employed by any one else and in his turn does not employ anybody else not even members of his household except casually. This definition of a *Single Worker* will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producers' co-operative. Each one of the partners or members of such producers' co-operatives should be recorded as 'Single Worker'.

(iv) A *Family Worker* is a member who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season. For the purpose of the entire Q. 11, such an industry should be on a scale larger than what has been covered in 'Household Industry' in Q. 10 whether run at home or away from home in town or village

and even away from village in rural area and should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members of family may be drawn from beyond the limits of the household by ties or blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or head of the household or other relative.

Q. 12 Activity, if Not Working

This question will apply to a person Not Working.

Write 'X' in this question for a person who is working, that is, for whom you have recorded the work in any of the questions 8 to 11 above.

The following activities should be recorded in the case of persons Not Working :

1. For a Full-time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation industry, trade or business write ST

2. For a person engaged in unpaid home duties (like house wife or other adult female) who does no other work such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business.write HW

3. For any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age..... write D

4. For a retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other workwrite R

5. For a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence.....write B

6. For a convict in jail (an under trial prisoner will be shown as a worker if he used to work before he was apprehended) of an inmate of a penal, mental or charitable institution.....write I

7. For a person who has not been employed before but is seeking employment for the first time...write NE

8. For a person employed before but now out of employment and seeking employment.....write UN

Explanation—If a person, who does not work, cannot be readily classified in any of the above categories, put him in category 5 and write B in this question. A retired person who has taken up regular work again should not be entered in this question as he would have been entered for his new work in Questions 8 to 11.

A person who is not working but has been offered work which he has not joined should be included in item 3 and 'D' should be written. He should not be included in items 7 or 8.

Tables D-I and D-II correspond to similar tables e.g., D-VI and D-IV respectively of 1951 Census. Table D-VI is in elaboration of Subsidiary Table D-IV (i) of 1951 Census. The other tables are new. Although tables D-IV and D-V are generally meant for cities, they have been presented for Agartala town in view of its peculiar geographical position.

Persons born in Sikkim have been treated as 'Born in India' in the D-Series tables.

PLACE OF BIRTH

TABLE D-II PLACE OF BIRTH

FLY-LEAF

This table which shows the distribution of population by birth-place, corresponds to table D-IV of 1951 and has been extracted from answers to Q. 4 (a) and 4 (b) in the slip.

Apart from the fact that the birth-place is classified by Rural and Urban, the figures for place of enumeration have also been shown by R/U separately.

Only selected countries have been retained in the main table and the rest are given in a Supplement to this table.

Figures shown against category 'H. Unclassifiable' under column 1 of this table indicate that their birth-place is not known.

There are certain Territories in India and some countries beyond India against which there is no figure. The names of such Territories/Countries from which there are no migrants, have not appeared in the table. There are listed below :—

A-II—States in India beyond the State of enumeration :

Laccadive, Minicoy and
Amindivi Islands,
Dadra and Nagar Haveli,
Goa, Daman and Diu,
North East Frontier Agency,

**MIGRANTS CLASSIFIED BY PLACE OF BIRTH AND DURATION
OF RESIDENCE IN PLACE OF ENUMERATION**

**TABLE D-III MIGRANTS CLASSIFIED BY PLACE OF BIRTH AND DURATION
OF RESIDENCE IN PLACE OF ENUMERATION**

FLY-LEAF

This new table has been prepared only in respect of in-migrants by sorting slips with reference to the answer recorded in Q. 4(c) in the slip regarding the duration of residence at the place of enumeration in the case of persons born outside the place of enumeration. This table is intended to supplement the information shown in table D-II for a further study of in-migration. Migration is determined solely by the concept of Place of Birth.

The residence period has been grouped under six categories, viz.,

1. Less than 1 year ;
2. 1—5 years ;
3. 6—10 years ;
4. 11—15 years ;
5. 16 years and over ;
6. Period not stated.

TABLE D-IV

MIGRANTS TO CITIES CLASSIFIED BY SEX, BROAD AGE-GROUPS,
EDUCATIONAL LEVELS AND IN CASE OF WORKERS ALSO
BY OCCUPATIONAL DIVISIONS AND GROUPS

**TABLE D-IV MIGRANTS TO CITIES CLASSIFIED BY SEX, BROAD AGE-GROUPS,
EDUCATIONAL LEVELS AND IN CASE OF WORKERS ALSO BY
OCCUPATIONAL DIVISIONS AND GROUPS**

FLY-LEAF

Although the table, by its title, is meant for such towns as have population of 1,00,000 and over in each, it has been prepared according to instructions of the Registrar General, India, for Agartala which is a capital town of this territory, in view of its peculiar geographical position.

Occupational distribution of migrants/ workers and non-workers has been given in the table which has been further cross tabulated by age groups and educational levels. The age-groups and the educational levels are the same as shown in table B-VI.

The occupational divisions and groups have been explained in Appendix VII to Note in Sub-Part II(i).

The Occupational groups 40 and 41 exclude families 400,401 and 414 respectively which relate to cultivators and agricultural labourers.

Occupational groups having less than 5% of the figures of the respective Division are not shown in the body of the table. An asterisk mark appears on the Division and the figures of those groups giving the number of group, age-group and educational level in abbreviation and the number of males and females in brackets are shown in run on lines in the Appendix. The abbreviations used are explained at the beginning of the Appendix to this table. Divisions 7—8 are being shown combined both in this

table and its Appendix. The occupational groups under Divisions 7—8 only, which contribute less than 2.5% are omitted from the table and exhibited in the Appendix.

The table reveals that certain seemingly incompatible occupational groups appear against certain educational levels, e.g., Group 02 for males 3 with Primary or Junior Basic as their educational level, Group 20 for illiterate male 1 and group 28 for 16 illiterate males. The three males under group 02 are working as Stockmen under Veterinary, although they are not Matriculates. The illiterate persons under group 20 has returned as working as a Cashier in a Grocer's shop. It is peculiar of course for such a person to handle cash, although presence of such a case in a Grocer's shop cannot be altogether denied. There are as many as sixteen illiterate males who have returned as working as Packers, Binders etc. Existence of illiterate persons in such occupations cannot also be denied. The probable explanation for the correlation of these occupational groups with educational levels in respect of these cases hinges on the fact that they are all migrants from East Pakistan uprooted from their respective pursuits of life and that they have in all probability been obliged to take to occupations, under changed circumstances, quite different from those they had prepared themselves to fit in.

**TABLE D-V CITIES SHOWING POPULATION BORN LOCALLY, MIGRANTS FROM
RURAL AREAS AND MIGRANTS FROM OTHER TOWNS AND CITIES**

FLY-LEAF

This table, although meant for cities, has been prepared for Agartala town showing separately the extent of in-migration from other parts of the territory. In-migration from rural and urban areas has been separately classified by migrants who have been residents for less than 3 years and those who have been residents for 3 years and more at the place of enumeration.

The word, "District", appearing in the column headings of the table should be treated as "Sub-division" wherever it occurs therein.

Persons whose birth places have not been recorded as either rural or urban or whose duration of residence has not been stated, and who are born in birth place 'unclassifiable', have not been included. This table relates only to persons born within the country. Columns 3, 4 and 5 of the table, therefore, do not indicate the actual population of Agartala town.

The following is an account of the population of the Agartala town classified by their birth place :—

(i) Total population of the town according to P.C.A. ...	54,878
(ii) Persons born in the town ...	22,698
(iii) Persons born in rural/urban areas of Tripura and outside the town but residing in the town ...	1,732

(iv) Persons born in rural/urban areas outside Tripura but residing in the town ...	1,967
(v) Persons born outside India but residing in the town ...	28,332

Details of countries where born :—

TABLE D-VI

**DISTRIBUTION OF INDUSTRIAL CATEGORIES OF WORKERS
AND NON-WORKERS BY PLACE OF BIRTH**

**TABLE D-VI DISTRIBUTION OF INDUSTRIAL CATEGORIES OF
WORKERS AND NON-WORKERS BY PLACE OF BIRTH**

FLY-LEAF

The origin of this table is the same as for table D-II, the difference in the presentation being that the population have been distributed in this table according to industrial categories of workers and non-workers by their respective places of birth.

This table corresponds to Union Table D. IV-Subsidiary table (i) of 1951 in so far as it relates to persons born in other States in India (*i.e.*, Group A. II of this table).

This table has been prepared for Total/Rural/Urban separately.

'Unclassifiable' as a line from Col. 2 has been omitted whenever the total for unclassifiable in any particular case is less than 5% of the total immigrants in that particular group, and wherever 'Un-classifiable' occurs as a line in any group with 'Nil' entries. This has been done for total, rural and urban.

In case of 'total' and 'urban', the table has been prepared for all the groups. By group is meant A-I, or A-II, B, C, D, E, F, G, and H appearing in Col. 1 of the table. These two portions of the table (*i.e.*, 'total' and 'urban') exclude the information of those States under group—II. States in India beyond the State of enumeration where the immigrants are less than 1% of the total immigrants. The States thus omitted have been shown in Appendix I to this table. The States having less than 1% of immigrants under group II for purposes of Appendix I have been selected by calculating the percentage of immigrants of the total table and the figures for urban table have been inserted below the same State in the Appendix.

In case of 'rural', the table has been prepared for the following :

- A-I Within the State of enumeration,
- I (a) Born in place of enumeration,
- I (b) Born elsewhere in the Sub-division, of enumeration,

I (c) Born in other Sub-divisions of the State.

II 4 numerically most important States of immigration (adjoining or distant) selected by considering the total number of immigrants in 'rural' table. These 4 States in the descending order of migrants are (1) Assam, (2) Bihar, (3) Orissa and (4) Uttar Pradesh. The selection of these States has been done for each Sub-division separately.

The name of important countries by birth place appearing in the table under each of the groups B, C, E and F are enumerated below :—

Group B	Group C	Group E	Group F
	United Kingdom		
Afghanistan		Canada	Newzealand
Burma		U.S.A.	
Ceylon			
Malay			
Nepal			
Pakistan			
Tibet			

Names of other countries which have been omitted from the table under respective groups have been shown in Appendix II and the figures in the main table in respect of such countries have been clubbed together and presented against 'Elsewhere' under respective groups. In the case of this territory such clubbed figures are being shown in the table and details thereof by countries under group B Appendix II.

Agartala town has been treated as a city for purposes of Migration tables. Details of 'Elsewhere' of Agartala town part of the table under 'Sadar—Urban' are also being shown similarly in Appendix II.
