Census Report, Volume X—Maharashtra, is published in the following Parts

- I-A and B .. General Report
- I-C .. Subsidiary Tables
- II-A .. General Population Tables
- II-B (i) .. General Economic Tables—Industrial Classification
- II-B (ii) .. General Economic Tables—Occupational Classification
- II-C (i) .. Social and Cultural Tables [*the present volume*]
- II-C (ii) .. Migration Tables
- III .. Household Economic Tables
- IV .. Report on Housing and Establishments
- V-A .. Scheduled Castes and Scheduled Tribes in Maharashtra—Tables
- V-B .. Scheduled Castes and Scheduled Tribes in Maharashtra—Ethnographic Notes
- VI (1—35) .. Village Surveys (35 monographs on 35 selected villages)
- VII-A .. Handicrafts in Maharashtra
- VII-B .. Fairs and Festivals in Maharashtra
- VIII-A .. Administration Report—Enumeration (For official use only)
- VIII-B .. Administration Report—Tabulation (For official use only)
- IX .. Census Atlas of Maharashtra
- X (1—12) .. Cities of Maharashtra
(15 volumes—Four volumes on Greater Bombay
and
One each on other eleven Cities)

State Government Publications

- 25 Volumes of District Census Handbooks in English
- 25 Volumes of District Census Handbooks in Marathi
- Alphabetical List of Villages in Maharashtra

ACKNOWLEDGEMENTS

The inset tables on classification of mother-tongues (pages 121-128) have been prepared by Shri R. C. Nigam, Linguist of the Census Commissioner's Office. The eight Special Tables on Scientific and Technical Personnel (pages 296 to 316) have been prepared by Shri S. C. Sharma, Mechanical Tabulation Officer in the Census Commissioner's Office. We are grateful to both of them.

In the Maharashtra Census Office, Shri D. V. Rangnekar, Deputy Superintendent of Census Operations, rendered valuable assistance in compilation of tables and notes. I should also mention Sarvashri V. M. Deole, Head Assistant, G. S. Gokarn, A. W. Mahatme and J. G. Deshmukh, Tabulation Officers, R. N. Pongurlekar, J. S. Natekar, Vyas Rao, and S. D. Bhatwadekar, Statistical Assistants, for their painstaking efforts and valuable assistance in compilation of this volume. Sarvashri K. H. Shevade, V. G. Surve and C. M. Kane have looked after its printing.

We are grateful to Shri S. A. Sapre, Manager, Government Central Press, Bombay, and his staff for the excellent printing.

INTRODUCTION

THIS PART of the 1961 Census Report presents eight Social and Cultural Tables. The first Table C-I shows the distribution of household population by relationship to head of household. The next seven Tables present the distribution of population by marital status, literacy and educational levels, single year ages, mother-tongues, bilingualism, religions and Scheduled Castes and Scheduled Tribes.

The 1961 Census

2. The 1961 Census was conducted between 10th and 28th February, 1961. The enumerators called on each household in their assigned areas and filled in the Census Forms (Individual Slips and Household Schedules) by interviewing one or more responsible members of the household. They revisited all the households between 1st and 5th March, and corrected their forms for changes occurring between their first visit and the Census reference date, viz., sunrise of 1st March, 1961. These corrections were, however, restricted to changes due to deaths or new births. No corrections were made for the change of any person's economic activity during the intervening period. The material presented here is thus relevant for 1st March, 1961.

3. The two forms used in the Census and the instructions issued to the enumerators for filling them have been reproduced at pages 11 to 26 in Part II-A of the Maharashtra Census Report. Table C-I alone has been prepared from the information collected in the Household Schedule and on a 20 per cent sample of households. All the other Tables included in this Part are prepared on the basis of a full count from the information collected in the Census Individual Slip.

Urban Areas

4. Urban areas or towns are places which either have a municipality or cantonment or have been treated as towns because they have—

- a population of 5,000 or more ; and
- 75 per cent or more of male workers engaged in non-agricultural pursuits.

An additional criterion of urban density not being less than 1,000 per square mile applied in some of the States was not applied in Maharashtra.

The Scheme of Presentation

5. A note is added at the beginning of each table to explain its layout, method of presentation, concepts, definitions and limitations of the material presented. Those notes are not, however, intended to present an analysis or review of the material presented, for which Part I-A of the Maharashtra Census Report is exclusively reserved.

6. All the tables present the Census material for 31 units, i.e. the State, its four administrative divisions and 26 districts. For purposes of the 1961 Census, the districts had been given a serial (code) number running from north-west to south-east. The order of presentation uniformly followed in the tables is based on those code numbers and is shown below :—

BOMBAY DIVISION	AURANGABAD DIVISION
(1) Greater Bombay	(14) Aurangabad
(2) Thana	(15) Parbhani
(3) Kolaba	(16) Bhir
(4) Ratnagiri	(17) Nanded
(5) Nasik	(18) Osmanabad
(6) Dhulia	NAGPUR DIVISION
(7) Jalgaon	(19) Buldhana
POONA DIVISION	(20) Akola
(8) Ahmadnagar	(21) Amravati
(9) Poona	(22) Yeotmal
(10) Satara	(23) Wardha
(11) Sangli	(24) Nagpur
(12) Sholapur	(25) Bhandara
(13) Kolhapur	(26) Chanda.

7. Each table starts with entries for the State. Then follow entries for Bombay Division and its districts ; then Poona Division and its districts ; and so on.

8. None of the tables presented in this volume gives break-up below the district level. Talukawise tables have been prepared in some cases and are presented in the District Census Handbook volumes concerned.

TABLE C-1

Composition of Sample Households by
Relationship to Head of Family
Classified by Size of
Land Cultivated

EXPLANATORY NOTE

1. This Table presents the distribution of household population by relationships to heads of households. The distribution is shown separately for three types of households classified by economic activity, i.e., participation or otherwise in cultivation and/or household industry. The cultivating households are further classified according to the size of land cultivated by them. Such comprehensive information on the composition of households has never before been published in India.

2. Material is presented for the State, its four administrative divisions and 26 districts and for total, rural and urban areas of each unit separately. The break-up of households by size of cultivated land is shown for rural areas only.

3. The classification of the household population by relationships to heads of households is shown by a horizontal spread in columns 7 to 17 of the table and is in five categories, viz. :—

- (i) Heads of households ;
- (ii) Spouses of heads of households ;
- (iii) Married relations ;
- (iv) Never married, widowed and divorced or separated relations ; and
- (v) Unrelated persons.

A break-up for males and females is presented under each category. The number of sons is also shown separately in column 11 under the third category of married relations.

4. The classification of households by economic activity is shown by a vertical spread under column 2 and is in three types, viz. :—

- (a) Households engaged neither in cultivation nor in household industry ;
- (b) Households engaged in household industry only ; and
- (c) Households engaged in cultivation.

The type (c) above also includes the households engaged in cultivation and in addition in a household industry.

5. A break-up of the households engaged in cultivation [type (c)] is shown only for rural areas by the size of land cultivated by them. It is in the following ten size groups :—

- (1) Less than one acre ;
- (2) 1.0 to 2.4 acres ;
- (3) 2.5 to 4.9 acres ;
- (4) 5.0 to 7.4 acres ;
- (5) 7.5 to 9.9 acres ;
- (6) 10.0 to 12.4 acres ;
- (7) 12.5 to 14.9 acres ;
- (8) 15.0 to 29.9 acres ;
- (9) 30.0 to 49.9 acres ;
- (10) 50 acres and above.

One more group of “ unspecified ” is added at the end to represent the households for which the area of cultivated land had not been returned at the 1961 Census.

6. A household is defined as a group of persons commonly living together in the same house and eating from the same kitchen unless the exigencies of work prevented any of them from doing so.

7. “ Household ” is thus slightly different from “ family ” in that it includes unrelated persons also. A domestic servant residing and eating at the employer's house is according to the above definition a member of the household. Similarly, a friend or a guest (related or unrelated) residing and eating with the household during the Census enumeration period has been treated as a member of the (host) household. On the other hand, a son or a daughter residing in a hostel (may be in the same town) is not treated as a member of the household.

8. The above definition of the household also applies to the group of inmates of hotels, hostels, prisons, hospitals, etc. They are, however, treated as ‘ non-family ’ or ‘ institutional ’ households. Others are family type households as in spite of the slight differences in composition they are largely based on families.

9. The 1961 Census Household Schedules had been filled in for institutional households also. These Schedules were, however, excluded at the time of drawing the sample of households. The material presented in the table, thus, relates only to family households.

10. The “ head of household ” was defined as the person on whom fell the chief responsibility for the maintenance of the household. No elaborate enquiry was, however, made about this and the person who was actually acknowledged in the household as the head was recorded as such. If the head of household was away throughout the enumeration period from the 10th to 28th February, 1961, the person who was in charge in his absence was recorded as the head of the household and the actual head was not even included as a member of his legitimate household. The intention was, of course, to avoid double counting.

11. Cultivated land includes all land normally used for cultivation including temporary fallows. It includes only those plots or parcels of land which are cultivated by the household itself. Owned land which is leased out to others is not included. Naturally, it will be the land which lies within the village or in adjacent villages or within such distances as enables the household to work on the land or actively supervise the cultivation. It does not include the land owned or held in distant places where distance itself is a bar to active cultivation, constant supervision or direction.

12. Cultivation involves ploughing, sowing and harvesting of land but does not include operations treated as industry such as fruit-growing, keeping of orchards or groves and working for plantations like coffee, tea, rubber, cinchona and other medicinal plantations. This restriction of excluding certain activities relating to growing of fruits, orchards, plantations, etc. was not, however, rigidly applied in Maharashtra at the time of 1961 Census enumeration and the areas of cultivated lands recorded in the household schedules are the areas of cultivated lands as returned by the responding households, some of whom might not be aware of the finer distinction made by the definition.

13. Household industry is defined as an industry conducted at home in urban areas or within the village in rural areas by the head of the household himself and/or

mainly by the members of the household. A household industry is not run on the scale of a registered factory and relates to production, processing, servicing or repairing of goods. This may include sale of goods, but should not be confined to buying and selling only. Thus, the main criteria for household industry are its smaller scale, its being run at home in urban areas and within the village in rural areas and the essential factor of participation of the head of the household and/or one or more members of the household.

14. The form of the Household Schedule had a provision for recording more than one household industries conducted by the household. In such cases, the household industry conducted by the household for a longer period in the year has been treated as its principal household industry. The classification by the nature of industry is, in all cases, based upon the principal industry.

15. As has been described earlier, the table has been prepared from the information collected at the 1961 Census in the Household Schedule and on a 20 per cent sample of family households.

16. The sample of households was drawn from the filled in household schedules for rural areas of each taluka, city and non-city urban areas of each district

separately. The household schedule pads for all the villages in a taluka, city and non-city urban areas of district were first arranged in the order of their code numbers and for each of these beginning from a separate random start, every fifth household schedule was first stamped as a sample and later separated from the pad. Institutional households were not taken into consideration in drawing the sample. Those selected sample household schedules were then coded and processed for mechanical tabulation.

17. The other household economic tables prepared from the Household Schedules are presented in Part III of the Maharashtra Census Report. Tables B-X, B-XI and B-XVII of those tables may be specially mentioned here. Table B-X shows the distribution of households by participation in cultivation and/or household industry. Table B-XI shows the distribution of cultivating households by size of cultivated land in the same groups as are used in this table and Table B-XVII shows the distribution of households by their size cross-tabulated by economic activity.

18. A subsidiary table (C-I.1) prepared from this table and showing the family composition of 1,000 sample households is presented in Part I-C of the Maharashtra Census Report.

C-I—COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

(a) Households engaged neither in cultivation nor household industry.
(b) Households engaged in household industry only.
(c) Households engaged in cultivation only and also engaged both in cultivation and household industry.

TABLE C-II

AGE AND MARITAL STATUS

EXPLANATORY NOTE

This Table presents the distribution of population by sex and marital status, cross-classified by age-groups.

2. Material is presented separately for total, rural and urban areas of the State, its four administrative divisions and 26 districts.

3. The classification of population by marital status is shown for each age-group by a horizontal spread in columns 6 to 13 and is into four marital statuses, viz., (i) never married, (ii) married, (iii) widowed and (iv) divorced or separated.

4. (i) "Never married" are persons who have never been married ;

(ii) "Married" are those persons who are currently married, whether for the first or another time. These include those recognised as married by custom or society and those in stable *de facto* union ;

(iii) "Widowed" are those persons whose husbands or wives are dead and who have not married again ;

(iv) "Divorced" are those persons who have been divorced in a lawful manner, either by a decree of a law court or by a regular social or religious custom but who have not remarried. "Separated" are those persons who have been separated from wives or husbands and are staying apart with no apparent intention of living together again. The table shows only the combined figures for 'divorced' and 'separated' persons.

5. Persons for whom marital status could not be decided for want of correct or adequate answers at the Census are included under 'unspecified status'.

6. The cross-classification by age is shown by vertical spread under column 1 and is in 14 age-groups, viz., 0—9, 10—14 and consecutive five-year age-groups upto 65—69 and 70 years and above. Age here, as

in all the other 1961 Census Tables, is in years completed at the last birthday. The last group 'age not stated' includes those for whom age had not been recorded in the Individual Slip at the 1961 Census.

7. The entire population in the first age-group of 0—9 years has been treated as never married for the compilation of this table irrespective of the answers actually recorded in the individual slips against question 3 on 'Marital Status' and it does not, therefore, show any further classification by marital status against that age-group.

8. Table SCT-II presented in Part V-A of the Census Report shows a similar distribution of population by marital statuses for Scheduled Castes and Scheduled Tribes. No general assumption (as in paragraph 7 above) or classification of the entire population of 0—9 years age-group as never married, has been made while compiling that table. The figures for different marital statuses presented in the two Tables (C-II and SCT-II—Parts A and B) may not, therefore, be quite consistent so far as age-group 0—14 is concerned.

9. Table C-II has been prepared from the total count of population recorded at the 1961 Census. The corresponding tables in the last Census had been prepared on a sample basis.

10. The following three subsidiary tables have been prepared from this table. They are presented in Part I-C of the Maharashtra Census Report :—

Subsidiary Table C-II.1 :—Distribution of 1,000 persons of each sex by marital status.

Subsidiary Table C-II.2 :—Marital status of 1,000 persons of each sex in general population and comparison with previous Censuses.

Subsidiary Table C-II.3 :—Distribution of 1,000 married persons by age-groups in each sex and comparison with previous Censuses.

TABLE C-III

PART A—Age, Sex and Education
in all Areas

PART B—Age, Sex and Education
in Urban Areas only

PART C—Age, Sex and Education
in Rural Areas only

EXPLANATORY NOTE

This Table presents the distribution of population by educational levels, cross-classified by age-groups. The table is in three separate Parts—"A" for all areas, "B" for urban areas and "C" for rural areas.

2. The material is presented in each part separately for males and females and for the State, its four administrative divisions and 26 districts. Part C, which relates to rural areas, presents material only for twenty-five districts, as Greater Bombay District is entirely an urban area and does not, therefore, appear there.

3. The classification by educational levels is shown by a horizontal spread in columns 5 to 12 in Parts A and C and in columns 5 to 32 in Part B. For Parts A and C, the classification is in the following four categories :

- (i) illiterate;
- (ii) literate without educational level;
- (iii) primary or junior basic ; and
- (iv) matriculation and above.

The classification for urban areas presented in Part B is more elaborate and shows a break-up of the last category of matriculation and above into the following educational levels :—

- (a) Matriculation or higher secondary,
- (b) Technical diploma not equal to degree,
- (c) Non-technical diploma not equal to degree,
- (d) University degree or post-graduate degree other than technical degree, and
- (e) Technical degree or diploma equal to degree or post-graduate degree—
 - (i) Engineering ;
 - (ii) Medicine ;
 - (iii) Agriculture ;
 - (iv) Veterinary and Dairying ;
 - (v) Technology ;
 - (vi) Teaching ;
 - (vii) Others.

4. Educational levels shown here are those which have already been attained and not those which are being studied. A person who has completed primary level is included in the group "Primary or Junior Basic" though he may be studying in a higher standard. A person who is studying or had studied in Intermediate Class is included in the group "Matriculation or Higher Secondary" and so on.

5. Table B-III published in Part II-B(i) of the Maharashtra Census Report shows similar distribution of population classified by educational levels, but cross-tabulated by workers and non-workers and for workers by nine broad industrial categories.

6. The cross-classification by age is shown by vertical spread under column 1 and is in seven five-year age-groups from 0 to 34 years and three more

age-groups of 35—44, 45—59 and 60 years and above. The last group of "Age not stated" represents those who had not returned their ages.

7. "Literacy" has been defined in the Census as ability both to read and write a simple letter. If a person could both read and write and had also passed one or more written examinations as proof of an educational level attained, the highest examination he had passed was recorded in the enumeration slip.

8. Persons who have studied upto the 4th standard but have not passed the primary stage are included in the group of literates (without educational level). Pupils studying in the 1st and 2nd standard who could not read and write a simple letter are included in the group of illiterate persons.

9. The figures of literates (without educational level) presented under columns 7 and 8 are exclusive of persons with educational levels. Similarly, the figures for any other educational level are exclusive of persons who have attained higher educational levels.

10. Talukawise tables for rural areas have been prepared in Part C and are presented in the District Census Handbooks concerned. Figures for literate males and females are shown for each taluka and town in the Primary Census Abstract in Part II-A of the Maharashtra Census Report. Similar figures are shown separately for each village and each ward of every town in the Village Directory (Part I) of the District Census Handbooks concerned.

11. Tables C-VIII-Parts A and B at pages 282 to 289 show figures for literate males and females for the Scheduled Castes and Scheduled Tribes age groups. Table SCT-III-Parts A and B shows the distribution of population by educational levels for each individual Scheduled Caste and Scheduled Tribe separately.

12. The following two subsidiary tables have been prepared from Parts B and C. They are presented in Part I-C of the Maharashtra Census Report :—

Subsidiary Table C-III-Part B.1:—Showing the distribution of 1,000 persons in each age-group and sex by educational levels in urban areas only.

Subsidiary Table C-III-Part C.1:—Showing the distribution of 1,000 persons in each age-group and sex by educational levels in rural areas only.

13. A census of technically qualified persons had been organised in certain areas along with the 1961 Census. Eight special tables and a note explaining the procedure, coverage, concepts and salient findings of that census will be found towards the end of this volume (pages 291 to 314).

TABLE C-IV

SINGLE YEAR AGE RETURNS

EXPLANATORY NOTE

This Table shows the distribution of population by single year ages both for males and females separately.

2. The material is presented separately for total, rural and urban areas of the State its four administrative divisions and 26 districts.

3. The presentation is for each single year from '0' (*i.e.* less than one year) to 100 years and for all ages above 100 combined together. The last group of "Age not stated" represents those whose ages had not been recorded in the Census Slips at the 1961 Census.

4. The age recorded at the 1961 Census and presented here is in years completed at the last birthday. For infants below one year the age had been recorded as '0'.

5. The figures presented in the table are compiled from the answers recorded at the Census against question 2 on "age" in the Individual Slip, and relate to a full count. The corresponding tables in the previous Censuses had been prepared on a sample basis.

6. Figures shown in this Table are crude or unsmoothed returns as were actually returned in the Census. Single year age returns smoothed by the Actuary in the Census Commissioner's Office and Life Tables prepared from them will be found in Chapter on Age Composition in Part I-A of the Maharashtra Census Report. Age returns for units below the district level, *i.e.*, for talukas and towns have been compiled only by broad age-groups. They will be found in Tables B-I and B-II published in Part II-B (i) of the Maharashtra Census Report as well as in the District Census Handbook volumes concerned. Single year age returns for each of the twelve cities in Maharashtra are presented in the concerned monographs published as Part X of the Maharashtra Census Report.

7. The following two subsidiary tables have been prepared from this table. They are presented in Part I-C of the Maharashtra Census Report:—

. Subsidiary Table C-IV.1 :—Females per 1,000 males by age-groups and comparison with 1951 Census.

Subsidiary Table C-IV.2 :—Distribution of 1,000 persons of each sex by age-groups and comparison with 1951 Census.

TABLE C-V

MOTHER-TONGUE

EXPLANATORY NOTE

This Table shows the distribution of population by mother-tongues.

2. Material is presented for the State, its four administrative divisions and 26 districts. The break-up for rural and urban areas is shown only for the State and not for each administrative division or district. It is presented for districts and talukas in the District Census Handbooks concerned.

3. The table has been prepared from the answers returned to Question 7 (a) 'Mother-tongue' at the 1961 Census. Mother-tongue is defined as a language spoken by the person's mother to the person in his childhood or mainly spoken in the household. In the case of infants and deaf mutes, it is the language usually spoken by the mother.

4. Mother-tongues are presented in alphabetical order by a vertical spread under column 1 and the number of their speakers are shown for different administrative units by a horizontal spread.

5. Answers to Question 7 (a) had been recorded in Marathi except in Greater Bombay where they were recorded in English. Enumerators recorded them with different spellings. During compilation and tabulation, some of these names were transferred to and recorded in the compilation sheets with different spellings. All those variant forms of names have been very carefully examined and the names of mother-tongues are shown with standardised spellings adopted in consultation with the Linguist of the Census Commissioner's Office. Note 5 in the Fly-leaf (pages 127-128) also shows those variant forms of names of mother-tongues recorded during enumeration or transcription.

6. Four hundred and fifty-four mother-tongues were returned in Maharashtra and are shown in the table. The Linguist of the Census Commissioner's Office has, on our request, studied the list of mother-tongues with reference to Grierson's classification (the Linguistic Survey of India) and has tentatively classified or reclassified some of them. The results of

the study are incorporated in the five notes prepared by him and presented as Fly-leaf to this table at pages 120 to 128. These five notes cover the following topics :—

- (1) Mother-tongues classified in the Linguistic Survey of India.
- (2) Tentative classification or reclassification of mother-tongues by the Linguist.
- (3) Mother-tongues outside the Indian Sub-Continent.
- (4) Unclassifiable mother-tongues.
- (5) Variant spellings or forms of mother-tongues.

7. A few symbols are shown against some mother-tongues to show (i) whether they were unclassified in the Linguistic Survey; (ii) though classified in that Survey are either tentatively reclassified or considered unclassifiable by the Linguist; and (iii) unclassified by Grierson but are tentatively classified by the Linguist. Explanation of those symbols has been given at the top of the table on page 129. The marking of those symbols is, however, limited only to the Maharashtra State portion of the table and will not be found in the remaining portion pertaining to divisions and districts. As mentioned above, these five notes have been prepared by the Linguist in the Census Commissioner's Office. We do not agree with his tentative classification or reclassification of a few mother-tongues as shown in Note 2 at page 125. It was, however, decided not to discuss those controversial points in this volume. They are discussed in Chapter on Language in Part I-A of the Maharashtra Census Report.

8. Appendix I at page 163 shows the distribution of 454 mother-tongues according to the classification in the Linguistic Survey of India and tentative classification or reclassification by the Linguist.

9. For facility of reference, Grierson's classified list of languages is reproduced as Appendix II at pages 164 to 174.

10. A subsidiary table (C-V.1) has been prepared from this table to show distribution of 1,000 persons by mother-tongues. It is included in Part I-C of the Maharashtra Census Report.

FLY-LEAF TO TABLE C-V

NOTE 1

- (i) The following mother-tongues arranged in alphabetical order in column 1 of the table given below as per Table C-V have been classified in the Linguistic Survey of India. The Linguistic Survey of India Classification number is mentioned against each mother-tongue in column 3.
- (ii) If in column 3 no Classification number is given against any mother-tongue of column 1 then it would mean that the name refers to either old or middle Indo-Aryan language or a language group or branch or family name from the Linguistic Survey of India.
- (iii) Wherever a tongue is mentioned in column 3 it is to be understood that the mother-tongue is either a dialect or another name or form of the

- tongue mentioned against it in column 1 which in its turn has been classified by the Linguistic Survey of India in the appropriate place for that tongue.
- (iv) If in column 1, there is a tongue which bears no Classification number in the Linguistic Survey of India then in column 2 the name of the classified language or group will be given of which the mother-tongue of column 1 is either a dialect or another name or form. In such a case the number of classified language of column 2 has been given in column 3.
- (v) In column 2 standardized spellings according to Linguistic Survey of India has been given against each mother-tongue of column 1.

Alphabetical order of mother-tongues classified by the Linguistic Survey of India	Classified name in the Linguistic Survey of India	Classification number in the Linguistic Survey of India

FLY-LEAF TO TABLE C-V—contd.

NOTE 3

Mother-tongues outside the Indian sub-continent which have been printed in italics in the Table have been arranged by the Linguist according to (a) mother-tongues of other Asian countries and (b) mother-tongues of each of the other continents in the following manner:—

	1	2
Other Countries.	Asian	Afghani Kabuli/Pakhto Pashto/Pathani, Annamese Annamite, Arabic Arbi, Armenian, Balochi Baluchi, Bukhari, Burmese, Cambodian, Ceylonese Simelu/Singhalese, Chinese Chini, Hebrew/Jewish, Indonesian, Irani Iranian, Japanese, Mahl/Maldivian, Malai/Malay/Malaya/Malayan, Persian, Philippine, Siamese Thai, Siberian, Turkish/Turkistani.
Africa	...	African, Somali.
Oceania	...	Fijian.
Europe	...	Austrian, Belgian, Corsican, Czech/Czechoslovakian, Danish, Dutch, English, Eurasian, Flemish, French, German, Greek, Hungarian, Irish, Italian, Latin, Lithuanian, Maltese, Norwegian, Polish, Portuguese, Roumanian, Russian, Scottish, Serbocroatian, Slavic, Spanish, Swedish, Swiss, Yugoslavian.

NOTE 4

The following mother-tongues which appear in the Table have been found unclassifiable by the Linguist for want of any dependable information on them so far:—

Abhahatik, Adhuni, Adivasi, Adnis, Alkari, Andhi, Araji, Ascrini, Ashia, Aurkhati, Balhapuri, Bangargi, Banor, Barai, Basali, Bask, Beldari, Bhagnadi, Bhagnari, Bhagwati, Bhamti, Bhigoli, Bhivadi, Bidichoras, Bojwari, Canthars, Chachi, Chaubar, Chhushmeni, Cushai, Dichhi, Dombari, East Indian, Elonguria, Fatma, Fernada, Gangasi, Garpagari, Garudi, Ghamoli, Ghasi, Godhami, Gopal, Gurjara, Guthara, Halvado, Hamar, Hardasi, Helgo, Kanjari, Kapat, Katgi, Katwi, Khanali, Kharkhadi, Khati, Khuku, Kolhati, Kosan, Kudu, Ladi, Lalgi, Lamzali, Lazodi, Madari, Madgi, Mahajani, Makhiya, Malnuti, Mandakini, Mani, Maral, Mashan, Masti, Matrai, Momidomi, Mungi, Myalor, Nandiwali, Narmadiya, Nuniya, Panchrangi, Parki, Pathari, Pathisadi, Pilgar, Pohani, Pokrine, Razali, Rumai, Samishra, Sanap, Sanku, Sarnarhi, Sarsar, Savaji, Shusha, Sikkargi, Sonjhari, Sungi, Taban, Talami, Tanjarvalngo, Tarane, Taroa, Thakai, Thatwari, Tirguli, Tolor, Topi, Trimali, Trivedi, Tungo, Umathi, Urani, Wakarali, Walli, Walmiki, Wandgiri, Watankari, Zunwar.

C-V-MOTHER-TONGUE

Notes.—(i) Mother-tongues printed in italics belong to countries outside the Indian Sub-Continent.

(ii) Names occurring after hyphen (-) have been introduced by the Linguist to indicate groupings.

(iii) Asterisk (*) means that the mother-tongue is unclassified in the Linguistic Survey of India.

(iv) Dagger (†) denotes that the mother-tongue though classified in the Linguistic Survey of India is either tentatively re-classified or considered unclassifiable by the Linguist.

(v) Asterisk and dagger (*†) denote that the mother-tongue is unclassified by Grierson but is tentatively classified by the Linguist.

APPENDIX I

ABSTRACT OF CLASSIFIED AND UNCLASSIFIED LANGUAGES

Mother-tongues of the Indian Sub-continent															
Total number of mother-tongues	Classified by the Linguistic Survey of India			Unclassified (bearing*)			Unclassified by the Linguistic Survey of India but tentatively Classified by the Linguist (bearing *and†)			Classified by the Linguistic Survey of India but reclassified by the Linguist (bearing†)			Mother-tongues out-side Indian Sub-continent		
	No. of Mother-tongues	Males	Females	No. of Mother-tongues	M	F	No. of Mother-tongue	M	F	No. of Mother-tongues	M	F	No. of Mother-tongues	M	F
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
454	230	20,382,647	19,081,036	121	3,516	3,302	49	4,351	4,267	12	117,864	101,226	54	38,368	36,231

NOTE.—The total of columns 2, 5, 8 and 14 will give the total number of mother-tongues.

APPENDIX II

LINGUISTIC SURVEY OF INDIA—CLASSIFIED LIST

Serial No.	Name of Language or Dialect	Serial No.	Name of Language or Dialect
AUSTRIC FAMILY		KAREN FAMILY	
<i>Austro-Nesian Sub-Family</i>		31	Karen
<i>Indo-Nesian Branch</i>		32	Bwè
<i>Malay Group</i>		33	Karenbyu
1	Salòn	34	Sgaw
2	Malay	35	Pwo
<i>Austro-Asiatic Sub-Family</i>		36	Taungthu
<i>Môn-Khmêr Branch</i>		37	Padaung
<i>Môn-Khmêr Group</i>		38	Yinbaw
3	Môn or Talaing	39	Gheko
<i>Palaung-Wa Group</i>		40	Karenni
4	Palaung	41	Zayein
5	Wa	41a	Others and Unspecified
6	Yanglam	MAN FAMILY	
7	Dapaw	42	Yao
7a	Others	43	Miao or Hmông
<i>Khâsi Group</i>		TIBETO-CHINESE FAMILY	
8	Khâsi	<i>Siamese-Chinese Sub-Family</i>	
<i>Tai Group</i>		<i>Tai Group</i>	
9	Standard	44	Lao
10	Lyng-ngam	45	Siamese
11	Synteng	46	Lü
12	Wâr	47	Khün
<i>Unspecified</i>		48	Daye
<i>Nicobar Group</i>		49	Shân
13	Nicobarese	50	Aiton
<i>Mundâ Branch</i>		51	Āhom
14	Kherwārī	52	Khāmtī
15	Santālī	53	Khāmtī Proper
16	Mundārī	54	Phākīāl
17	Bhumij	55	Tai-rong
18	Birhāt	56	Norā
19	Kōdā	<i>Tibeto-Burman Sub-Family</i>	
20	Hō	<i>Tibeto-Himalayan Branch</i>	
21	Tūrī	<i>Tibetan Group</i>	
22	Asurī	57	Bhōtiā
23	Agariā	58	Bhōtiā of Tibet or Tibetan
24	Brijjā	59	Bhōtiā of Baltistan or Balti
25	Korwā	60	Bhōtiā of Purik
<i>Unspecified</i>		61	Bhōtiā of Ladakh or Ladakhī
26	Kürkü	62	Bhōtiā of Lahul or Lāhuli
27	Khariā	63	Bhōtiā of Spiti
28	Juāng	64	Bhōtiā of Upper Kanawar or Nyamkat
29	Savara	65	Bhōtiā of Tehri Garhwal or Jād
30	Gadabā	66	Bhōtiā of Garhwal
<i>Unspecified</i>

TABLE C-VI

BILINGUALISM

EXPLANATORY NOTE

This Table is on “Bilingualism” and shows the distribution of speakers of each mother-tongue who also speak one or more subsidiary languages, classified by those subsidiary languages.

2. Material is presented only for the State, its four administrative divisions and 26 districts, but without any break-up for rural and urban areas.

3. Mother-tongues are presented in column 3 in alphabetical order. Columns 1 and 2 show the total speakers for each mother-tongue and columns 4 and 5 show out of them the numbers of those who speak one or more subsidiary languages. The break-up of those speakers of subsidiary languages is shown in column 6 by subsidiary languages arranged in the order of their number of speakers. The first figure in the bracket against each subsidiary language is of male speakers and the second of female speakers.

4. Out of the 454 mother-tongues shown in Table C-V the present table shows only 403, against whom some speakers have returned as speaking one or more subsidiary languages. Fifty-one mother-tongues shown below, together having 201 speakers, are not shown in the table as no subsidiary language has been returned in respect of any of these persons. The number of speakers of all languages shown in the table is, therefore, less than that shown in Table C-V by 201.

5. The table is prepared from the answers regarding subsidiary languages known, recorded against Question 7 (b) in the Census Individual Slip. In the case of persons knowing more than one subsidiary language, the tabulation has been done with reference to the first of the languages recorded at the Census.

Mother-tongues for which there is no bilingualism

TABLE C-VII
RELIGION

EXPLANATORY NOTE

This Table shows the distribution of population, by religions.

2. Material is presented separately for total, rural and urban areas of the State, its four administrative divisions and 26 districts. Tables showing a similar break-up for each taluka and town are presented in the 25 District Census Handbook volumes.

3. The classification by religions is shown by horizontal spread and is into six numerically important religions, viz., Buddhists, Christians, Hindus, Jains, Muslims and Sikhs presented in alphabetical order. The figures for all other religions including Jews, Zoroastrians, etc., have been combined together and are shown under the heading "Other religions and persuasions"

under columns 18 and 19. A further break-up of those combined figures for each religion or belief is presented in the supplement to the table at pages 274 to 276. The category "Religion not stated" includes persons who had not returned their religion at the 1961 Census or had returned only their nationalities in answer to the question on religion, such as Israelites, Goans, Iranians, etc.

4. Figures for various sects returned in a few cases at the Census have been included in the main religions concerned.

5. A subsidiary table (C-VII.1) has been prepared from this table to show the distribution of 1,000 persons by religions. It is included in Part I-C of the Maharashtra Census Report.

TABLE C-VIII

PART A—Classification by Literacy and Industrial Category of workers and non-workers among Scheduled Castes

PART B—Classification by Literacy and Industrial Category of workers and non-workers among Scheduled Tribes

EXPLANATORY NOTE

This Table presents the distribution of population of Scheduled Castes and Scheduled Tribes classified by literacy and economic activity. The table is presented in two parts. Part A presents material for the Scheduled Castes and Part B for the Scheduled Tribes.

2. In both the parts, material is presented separately for total, rural and urban areas of the State, its four administrative divisions and 26 districts.

Scheduled Castes and Scheduled Tribes

3. Certain classes of people are declared by President's Orders issued under Article 341 and 342 of the Constitution of India, as Scheduled Castes or Scheduled Tribes. A few of them are so declared for the whole State but others only for specified areas.

4. The following are the lists of Scheduled Castes and Scheduled Tribes of Maharashtra State as amended through sections 26 and 27 of the Bombay Reorganisation Act of 1960 :—

List of Scheduled Castes

List of Scheduled Castes applicable in the State of Maharashtra throughout the State except the districts of Buldana, Akola, Amravati, Yeotmal, Wardha, Nagpur, Bhandara, Chanda, Aurangabad, Parbhani, Nanded, Bhil, Osmanabad and Rajura—

- (1) Ager ;
- (2) Baked or Bant ;
- (3) Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chambhar, Changar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit or Samgar ;
- (4) Bhangli, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar or Zadmalli ;
- (5) Chalvadi or Channayya ;
- (6) Chenna Dasar or Holaya Dasar ;
- (7) Dhor, Kakkayya or Kankayya ;
- (8) Garoda or Garo ;
- (9) Halfeer ;
- (10) Halsar, Haslar, Hulasvar or Halasvar ;
- (11) Holar or Valhar ;
- (12) Holaya or Holer ;
- (13) Lingader ;
- (14) Mahar, Taral or Dhegu Megu ;
- (15) Mahyavanshi, Dhed, Vankar or Maru Vankar ;
- (16) Mang, Matang or Minimadig ;
- (17) Mang-Garudi ;
- (18) Meghval or Menghvar ;
- (19) Mukri ;
- (20) Nadia or Hadi ;
- (21) Pasi ;
- (22) Shenva, Chenva, Sedma or Ravat ;
- (23) Tirgar or Tirbanda ;
- (24) Turi.

2. In the districts of Buldana, Akola, Amravati, Yeotmal Wardha, Nagpur, Bhandara and Chanda—

- (1) Bahna or Bahana ;
- (2) Balahi or Balai ;
- (3) Basor, Burud, Bonsor or Bansodi ;
- (4) Chamar, Chamari, Mochi, Nona, Rohidas, Ramnami, Satnami, Surjabanshi or Surjaramnami ;
- (5) Dom or Dumar ;
- (6) Dhor ;
- (7) Ganda or Gandhi ;
- (8) Ghasi or Ghasia ;
- (9) Kaikadi ;
- (10) Katia or Patharia ;
- (11) Khatik, Chikwa or Chikvi ;
- (12) Madgi ;

- (13) Mahar or Mehra ;
- (14) Mang, Dankhu-Mang, Mang-Mahashi, Mang-Garudi, Madari Garudi or Radhe-Mang ;
- (15) Mehtar or Bhangli ;
- (16) Sansi.

3. In the districts of Akola, Amravati and Buldana—
Bedar.

4. In the district of Bhandara—
(1) Chadar ;
(2) Holiya.

5. In the districts of Bhandara and Buldana—
Khangar, Kanera or Mirdha.

6. In the districts of Amravati, Bhandara and Buldana—
Kori.

7. In the districts of Aurangabad, Parbhani, Nanded, Rajura, Bhil and Osmanabad—

- (1) Anamuk ;
- (2) Aray (Mala) ;
- (3) Arwa Mala ;
- (4) Beda (Budga) Jangam ;
- (5) Bindla ;
- (6) Byagara ;
- (7) Chalvadi ;
- (8) Chambhar ;
- (9) Dakkal (Dokkalwar) ;
- (10) Dhor ;
- (11) Ellamalwar (Yellammalawandlu) ;
- (12) Holeva ;
- (13) Holeva Dasari ;
- (14) Kolupulvandlu ;
- (15) Madiga ;
- (16) Mahar ;
- (17) Mala ;
- (18) Mala Dasari ;

List of Scheduled Tribes

List of Scheduled Tribes applicable in the State of Maharashtra throughout the State except the districts of Buldana, Akola, Amravati, Yeotmal, Wardha, Nagpur, Bhandara, Chanda, Aurangabad, Parbhani, Nanded, Bhil, Osmanabad and Rajura—

- (1) Barda ;
- (2) Bavacha or Bamcha ;
- (3) Bhil, including Bhil Garasia, Dholi Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava and Vasave ;
- (4) Chodhara ;
- (5) Dhanka, including Tadvi, Tetaria and Valvi ;
- (6) Dhodia ;
- (7) Dubla, including Talavia or Halpati ;
- (8) Gamit, Gamta or Gavit, including Mavchi, Padvi, Vasava, Vasave and Valvi ;
- (9) Gond or Rajgond ;
- (10) Kathodi or Katkari, including Dhor Kathodi or Dhor Katkari and Son Kathodi or Son Katkari ;
- (11) Kokna, Kokni, Kukna ;
- (12) Koli Dhor, Tokre Koli, Kolcha or Kolgha ;
- (13) Naikda or Nayaka, including Cholimvala Nayaka, Kapadia Nayaka, Mota Nayaka and Nana Nayaka ;

- (14) Pardhi, including Advichincher and Phanse Pardhi ;
- (15) Patelia ;
- (16) Pomla ;
- (17) Rathawa ;
- (18) Varli ;
- (19) Vitolia, Kotwalia or Barodia.

2. In Thana district—
Koli Malhar.

3. (a) In Ahmadnagar district—
Akola, Rahuri and Sangamner talukas.

(b) In Kolaba district—
Karjat, Khalapur, Alibag, Mahad and Sudhagad talukas.

(c) In Nasik district—
Nasik, Niphad, Sinnar, Chandor, Baglan, Igatpuri, Dindori and Kalvan talukas and Sargana and Peint mahals.

(d) In Poona district—
Ambegaon, Junnar, Khed, Mawal and Mulshi talukas and Velhe mahal.

(e) In Thana district—
Thana, Murbad, Bhivandi, Bassein, Wada, Shahapur, Dahanu, Palghar, Jawhar and Mokhada talukas.

Koli Mahadev
or
Dongar Koli.

4. (a) In Ahmadnagar district—
Akola, Rahuri and Sangamner talukas.

(b) In Kolaba district—
Karjat, Khalapur, Pen, Panvel and Sudhagad talukas and Matheran.

(c) In Nasik district—
Igatpuri, Nasik and Sinnar talukas.

(d) In Poona district—
Ambegaon, Junnar, Khed, and Mawal talukas.

(e) In Thana district—
Thana, Kalyan, Murbad, Bhivandi, Bassein, Wada, Shahapur, Palghar, Jawhar and Mokhada talukas.

Thakur or
Thakar inclu-
ding Ka Tha-
kur, Ka Tha-
kur, Ma Tha-
kur and Ma
Thakar.

5. In (1) Melghat tahsil of Amravati district, (2) Gadchiroli and Sironcha tahsils of the Chanda district, (3) Kelapur, Wani and Yeotmal tahsils of the Yeotmal district—

- (1) Andh ;
- (2) Baiga ;
- (3) Bhaina ;
- (4) Bharia-Bhumia or Bhuinhar-Bhumia including Pando ;
- (5) Bhattra ;
- (6) Bhil ;
- (7) Bhunjia ;
- (8) Binjhwar ;
- (9) Birhul or Birhor ;
- (10) Dhanwar ;
- (11) Gadaba or Gadba ;
- (12) Gond, including—
Arakh or Arrakh,

Kandra,
Kalanga,
Khatola,
Koitar,
Koya,
Khirwar or Khirwara,
Kucha Maria,
Kuchaki Maria,
Madia (Maria),
Mana,
Mannewer,
Moghya or Mogia or
Monghya,
Mudia (Muria),
Nagarchi,
Nagwanshi,
Ojha,
Raj,
Sonjhari Jhareka,
Thatia or Thotya,
Wade Maria or Vade
Maria ;

- (13) Halba or Halbi ;
- (14) Kamar ;
- (15) Kavar, Kanwar, Kaur, Cherwa, Rathia, Tanwar or Chattri ;
- (16) Khairwar ;
- (17) Kharia ;
- (18) Kondh or Khond or Kandh ;
- (19) Kol ;
- (20) Kolam ;
- (21) Korku, including Bopchi, Mouasi, Nihal or Nahul and Bondhi or Bondeya ;
- (22) Korwa, including Kodaku ;
- (23) Majhwar ;
- (24) Munda ;
- (25) Nagesia or Nagasia ;
- (26) Nihal ;
- (27) Oraon, including Dhanka and Dhangad ;
- (28) Pardhan, Pathari and Saroti ;
- (29) Pardhi, including Bahelia or Bahellia, Chita Pardhi, Langoli Pardhi, Phans Pardhi, Shikari, Takankar and Takia ;
- (30) Parja ;
- (31) Saonta or Saunta ;
- (32) Sawar or Sawara.

6. In the districts of Aurangabad, Parbhani, Nanded, Rajura, Bhil and Osmanabad—

- (1) Andh ;
- (2) Bhil ;
- (3) Gond (including Naikpod and Rajgond) ;
- (4) Kolam (including Mannervaru) ;
- (5) Koya (including Bhine Koya and Rajkoya) ;
- (6) Pardhan ;
- (7) Thoti.

5. A specific question was asked at the 1961 Census to obtain the name of the Caste or Tribe of every person belonging to the Scheduled Castes or Scheduled Tribes notified in the State. Special Tables have been prepared to show the distribution of Scheduled Castes and Scheduled Tribes by age, marital status, literacy, education, religion, language and broad industrial categories. Those special tables and ethnographic notes on each of those Scheduled Castes and Scheduled Tribes are presented in Parts V-A and V-B of the Maharashtra Census Report, respectively.

6. Unlike the 1951 Census, the other Backward Classes have not been separately enumerated in the 1961 Census. The criterion for backwardness, now applied in Maharashtra, is economic condition and not any caste or tribe.

7. The limitation in coverage of these two groups may be mentioned here. The groups of Scheduled Castes or Scheduled Tribes do not include all backward castes or tribes living in Maharashtra. They include only the castes or tribes declared as Scheduled Castes or Scheduled Tribes. In cases where a caste or a tribe is

declared as Scheduled Caste or Scheduled Tribe for a limited specified area, that Caste or Tribe has been separately enumerated only in that specified area and not in other areas of the State. The case of Gonds will illustrate the position. The Gonds are notified as a Scheduled Tribe in parts of Chanda district, but not so in the adjoining Bhandara district. Bhandara district may also have some tribal population and may also have Gonds among them, but no tribe has been declared as a Scheduled Tribe in that district and the figure of Scheduled Tribe population of that district is, therefore, nil.

8. As has been described in the note on Table C-III, the Census definition of literacy is ability to read and write a simple letter. If a person could both read and write and had passed one or more written examinations as proof of educational level attained, the higher examination he had passed was recorded in the enumeration slip. The literates, i.e., those who are able to read and write a simple letter and those who are educated have been grouped together and their figures are shown under the heading "Literate and educated persons" in columns 8 and 9. The figures for illiterates, i.e., those who cannot read and write are shown in columns 6 and 7. An elaborate break-up by literacy and educational levels for each Scheduled Caste and Scheduled Tribe will be found in Table SCT-III-Parts A and B in Part V-A of the Maharashtra Census Report.

9. Classification by economic activity is into workers and non-workers and of workers into nine broad industrial categories. This classification is the same as in the Primary Census Abstract published in Part II-A of the Maharashtra Census Report and in Tables B-I and B-II published in Part II-B(i) of the Maharashtra Census Report. The 1961 Census scheme of economic classification and the definitions of workers, non-workers and each of the nine broad industrial categories are described in paragraphs 10 to 34 below.

1961 Census Economic Classification Scheme

10. The 1961 Census scheme of Economic Classification is altogether different from that used in the 1951 or earlier Censuses. In those former Censuses, income or economic independence was made a criterion for measuring the economy of the country. Economically independent and economically dependent persons had been classified separately. They were called earners and dependants. An intermediate category of economic semi-dependence was introduced in 1931, and continued in 1941 and 1951. They were called working dependants in 1931, partly dependants in 1941 and earning dependants in 1951.

11. In practice, however, this intermediate category did not seem to have worked well. It was felt that the strict application of the criterion of economic independence suppressed those who worked in family economic activities but did not actually earn an income.

12. The 1961 Census, therefore, laid stress on "work", so that all people who worked (including family workers, who were not in receipt of any income, or working-children who did not earn enough for their maintenance) were included as workers. The concept of dependency

has now been completely abandoned for economic classification of the population. Instead, the classification is into workers and non-workers.

Workers and Non-workers

13. A person is classified as a worker if—

(a) in the case of seasonal work like cultivation, livestock, dairying, household industry, etc., he has had some regular work of more than one hour a day throughout the greater part of the working season; and

(b) in the case of regular (non-seasonal) employment in any industry, trade, profession or service, he was employed during any of the fifteen days preceding the day of the enumerator's visit to the household.

14. A person who was working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other cause has been treated as a worker. A person who had been offered work but had not actually joined has been treated as a non-worker. "Work" includes not only actual work but effective supervision and direction of work also.

15. Persons under training as apprentices with or without stipend or wages are regarded as workers.

16. An adult woman who was engaged in household duties but doing no other productive work to augment the family's resources has not been considered as working. If, however, in addition to her household work she engaged herself in work such as rice-pounding for sale or wages, or in domestic services for wages for others, in minding cattle or selling firewood or making and selling cowdung cakes, or grass, etc. or any such work, she has been treated as a worker.

17. Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers who earn an income but who are not participating in any productive work are not treated as workers unless they work in cultivation, industry, trade, profession or service.

18. A public or social service worker who is engaged in public service actively or a political worker who is actively engaged in furthering the political activity of his party is regarded as a worker.

19. The population classified as workers here is the economically active population, including family workers but not including unemployed persons.

20. The Census Questionnaire did not contain any question to determine the extent of full employment or under-employment.

21. Classification of workers doing two or more different types of work has been done on the basis of their principal work, i.e., the work which consumes larger portion of their time and not necessarily the work which earns larger portion of their income.

22. As described earlier, the period of reference for regular (non-seasonal) work in any industry, trade, profession or service was 15 days preceding the day of enumerator's visit to the household. In the case of seasonal work like cultivation, livestock, dairying, household industry, etc., some regular work of more

than one hour a day throughout the greater part of the last working season was the criterion. Entries in regard to industry and occupation were not corrected in the second round visits with reference to the date of reference, viz., 1st March, 1961. The material presented here, therefore, relates to the reference period approximating to the conditions as on 1st March, 1961.

Broad Industrial Categories

23. In the 1951 Census, the entire population was divided into eight livelihood classes. Economically semi-active people known as earning dependants were divided according to their secondary means of livelihood and the economically inactive people or dependants were divided on the basis of livelihood classes of persons on whom they were dependent.

24. In the 1961 Census, non-workers are not classified by their dependence on one or the other sector of economy. The working population alone is classified in the following broad industrial categories :—

I Cultivator.

II Agricultural labourer.

III Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.

IV Household Industry.

V Manufacturing other than Household Industry.

VI Construction.

VII Trade and Commerce.

VIII Transport, Storage and Communications.

IX Other Services.

CATEGORY I

25. This category includes both the owner cultivators and tenant cultivators. Along with workers doing manual work on land are also included persons who are engaged in active supervision or direction of cultivation. All persons working in cultivation of land on which they have either ownership or tenancy rights are included in this category.

CATEGORY II

26. All other persons working on land as labourers on wages without holding any right upon the land are classified as agricultural labourers and included in the second category.

27. Cultivation involves ploughing, sowing and harvesting and does not include fruit growing, keeping of orchards or groves and working for plantations like coffee, tea, rubber, cinchona and other medicinal plantations. These excluded activities are not, therefore, included in Categories I or II but have been treated as either household industries or non-household industries and persons engaged in them have been classified in Category III or IV as the case may be.

CATEGORY III

28. Workers in mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities are included in this category.

CATEGORY IV

29. "Household Industry" is defined as an industry conducted at home in urban areas and within the village in rural areas by the head of the household himself and/or mainly by the members of the household. A household industry is not run on the scale of a registered factory and relates to repairing or making of goods. This may include sale of goods but should not be confined to buying and selling. Thus, the main criteria for household industry are its smaller scale, its being run at home in urban areas and within the village in rural areas and the participation of the head of the household and/or one or more members of the household. A person working as an employee in another person's household industry has also been treated as working at household industry and included in this category.

CATEGORY V

30. "Manufacturing" includes all types of production, processing, servicing or repairing of goods. This category does not include production, processing, etc., which may be classified as household industry.

CATEGORY VI

31. This category includes workers engaged in construction and maintenance of buildings, roads, railways, bridges, telegraph and telephone lines, waterways, reservoirs, etc.

CATEGORY VII

32. This category includes workers engaged in any capacity in wholesale or retail trading activity and commercial transactions relating to imports and exports, real estate and properties, stocks and shares, insurance, moneylending, banking, etc.

CATEGORY VIII

33. This category includes workers engaged in transport activities by air, rail, road and water and in services incidental to transport such as packing, carting, loading, unloading, etc. Workers engaged in storage, warehousing and communication services such as Posts, Telegraphs, Telephones, Wireless signalling, Information and Broadcasting are also included in this category.

CATEGORY IX

34. This category includes (i) public utility services like electricity, gas or water supply and sanitary services ; (ii) Central, State, quasi-Government or Municipal employees in administrative departments or offices ; (iii) Professional services ; and (iv) Trade or labour associations, recreation services, etc.

35. Table SCT-I—Parts A and B shows a similar distribution of population for each Scheduled Caste and Scheduled Tribe by economic activity, i.e., by workers and non-workers and of the workers into nine broad industrial categories. That Table is presented in Part V-A of the Maharashtra Census Report. In a way, this Table (C-VIII) with its two parts A and B is an abstract of Table SCT-I for the total population of all Scheduled Castes and all Scheduled Tribes separately.

TABLE C-VIII—PART A

**SPECIAL TABLES ON SCIENTIFIC
AND
TECHNICAL PERSONNEL**

EXPLANATORY NOTE

The experience of planned development during the last decade had highlighted the acute shortage of scientific and technically qualified personnel in the country. In view of those shortages and the increasing flight of qualified persons from the country, it was necessary to take stock of the available personnel and the conditions in which they were employed or unemployed. One among the many attempts made in that direction was a special enumeration of such personnel undertaken in selected areas at the 1961 Census. The eight Tables presented in the following pages show the results of that special enumeration. They show the distribution of Scientific and Technical Personnel classified by branch/sub-branch of Science or Technology and further cross-classified by type of activity, years of obtaining degrees, sector of employment, levels of income, tenure of employment and in the case of unemployed among them by age and period of unemployment. Such exhaustive material on this most pivotal element of the population had never been published before. These tables may, as well, have gone as appendices to Table C-III-Part B (pages 62 to 73). They have, however, been brought towards the end of the volume because the method used for the special enumeration and its coverage were substantially different from those of the 1961 Census enumeration.

Method of Enumeration

The material on which these eight Special Tables are based had been collected through special enumeration cards which were left by the Census enumerators with the households which appeared to have one or more scientific or technically qualified persons. One postage prepaid special card was left for each such qualified person. The person concerned was requested to fill the card and mail it on the printed address or hand it over to the enumerator during his second round.

The special enumeration card contained the following twelve items :—

1. Name.
2. Date of birth.
3. Designation and Office address (if employed).
4. Permanent address.
5. Sex.
6. Marital Status (Never Married/Married).
7. Whether employed on 1st February 1961.
 - (a) If employed, monthly income.
 - If not, whether—
 - (b) Full time student.
 - (c) Unemployed—How long ?
 - (d) Retired.
8. Academic Qualifications.

For Persons employed

9. Nature of employment—
 - (a) Teaching in School.
 - (b) Teaching in College.
 - (c) Technical in Industry.
 - (d) Technical outside Industry.
 - (e) Non-technical.
10. Any Research Assignment.
11. Where employed—(a) Public Sector.
 - (b) Private Sector.
 - (c) Self-employed.
12. How employed—(a) Permanent.
 - (b) Temporary.
 - (c) On contract.
 - (d) Research Scholar, etc.
 - (e) Otherwise.

Definitions

The following were considered as Scientific or Technical personnel :—

- (a) *Science*.—Any person holding B.A. or B.Sc. or M.A. or M.Sc. or higher degree (Ph.D. etc.) in Science subjects like Physics, Mathematics, Chemistry, Agriculture, Geology, Geo-Physics, Geography, etc.
- (b) *Engineering*.—Anyone holding a recognised Degree or Diploma in Engineering.
- (c) *Technology*.—Anyone holding a Degree or Diploma in Technical subjects like Chemical Technology, Leather Technology, Textile Technology, Glass and Ceramic Technology, Food Technology, etc.
- (d) *Medicine*.—Persons holding Degree or Diploma in Medicine and/or Surgery.

The under-graduate scientists (i.e. those who have not received any Bachelor's Degree) or mechanics and technicians even though holding certificates were left out from the special enumeration.

Coverage

The special cards were distributed only in urban areas and at a few rural centres where work of major irrigation or power projects was in progress. Even the urban areas covered were those which were classified as such on the basis of 1951 Census figures. They are, therefore, slightly different from the urban areas for which material in Table C-III-Part B is presented.

The coverage of special enumeration was also limited by the extent of response from the qualified persons to whom the special cards had been distributed. A comparison with the figures in Table C-III-Part B shows that out of 65,434 returned from the areas covered as qualified for special enumeration and to whom the special cards had been distributed, only 38,544 or 58.9 per cent responded by sending the filled-in cards. The response was 61.39 per cent among males and 38.22 per cent among females. By branches of Science or Technology the response was best from persons having Degrees in Agriculture (82.9 per cent).

The special cards received from persons with degrees in technology were actually more than the persons shown in Table C-III-Part B against that item. It shows that, during the finer classification of such scientifically and technically qualified persons into branches of Science or Technology made in the Tabulation Offices from the meagre information recorded in the Census slip against Question No. 6, many persons with degrees in Technology had been included in the general residual group of "Others".

In view of the voluntary nature of returns, the response by 58.9 per cent of qualified persons may be considered as satisfactory. The information presented in the tables thus, relates to a majority of such qualified persons and because of their distribution over wide areas, it may also be considered to be fairly representative of the entire group.

The following eight tables present material only for the State as a whole. None of them shows district-wise break-up for any item. The layout and contents of each of the tables are briefly explained in the following paragraphs :

Table I

This table presents the basic data regarding distribution of scientific and technical personnel classified into different branches and sub-branches of science or technology for total, males and females separately.

The classification by branches and sub-branches is shown by a vertical spread both by code numbers and description in columns 1 and 2 respectively.

The break-up is shown into 56 branches and 126 sub-branches of science or technology. This is the only table presenting the classification into sub-branches. The remaining seven tables present it only by branches of science or technology. Persons who could not be classified under any of the branches have been grouped under "Unclassifiable".

This is also the only table showing each branch or sub-branch of science or technology both by its code number and description. The remaining tables show the branches only by their code numbers and users may have to refer to this table for their description as well as to find out the sub-branches grouped in each branch.

Table II

This table presents the distribution of scientific and technical personnel classified into branches of science

or technology and further classified by 'Type of activity' and 'Marital Status'. The classification into branches of science or technology is shown by vertical spread under column 1. Cross-classification by type of activity is into three broad groups, viz., (i) Employed; (ii) Unemployed; and (iii) Retired. The table shows a further break-up under each type of activity by marital status for males and females separately. Classification by Marital Status is into three categories, viz., 'Never Married', 'Married' and 'Others'. The last category includes widowed, divorced, separated and 'unclassifiable'.

Table III

This table shows the distribution of Post-Graduate degree holders in Physical Sciences, Graduates and Doctorates in Engineering, Technology and selected branches of Medicine classified by the branches of science or technology in which they are qualified and the year of obtaining the qualifications. The years of obtaining the degree etc. are classified into 12 groups, viz., (i) Before 1920; (ii) 1920-29; (iii) 1930-39; (iv) 1940-44; (v) 1945-49; (vi) 1950-54; and (vii to xii) for each single year from 1955 to 1960. Those for whom the year of obtaining the degrees is not recorded are grouped under 'Year not stated'.

Table IV

This table shows persons holding Bachelor's or Post-Graduate Degrees in Engineering and Technology and also holding Bachelor's or Post-Graduate Degrees in selected branches of Physical Sciences. Branches of Engineering and Technology are shown by vertical spread under column 1. Persons possessing Degrees in each of these branches are classified by selected branches of Physical Sciences in which they have obtained degrees.

Table V

This table shows the distribution of scientific and technical personnel in different branches of science, classified by the sector and nature of employment. Three sectors of employment are shown, viz., (i) Public Sector; (ii) Private Sector; and (iii) Self-employment. Type of employment in each sector is shown classified into five categories, viz., (i) Teaching in School; (ii) Teaching in College; (iii) Technical in Industry; (iv) Technical outside Industry; and (v) Non-Technical. For each sector of employment break-up of figures of those with Research assignments and without Research assignments is also given.

Table VI

This table shows the distribution of scientific and technical personnel classified by branches of science or technology and classified by Sector of Employment and Income. The branches of science or technology are shown by a vertical spread under column 1. Classification by Sectors is the same as in Table V i.e. into three Sectors, viz., (i) Public Sector; (ii) Private Sector; and (iii) Self-employment. Further classification by

income is into twelve monthly income ranges, viz., Less than Rs. 100; Rs. 100-199; Rs. 200-299; Rs. 300-399; Rs. 400-499; Rs. 500-699; Rs. 700-999; Rs. 1,000-1,199; Rs. 1,200-1,499; Rs. 1,500-1,999; Rs. 2,000 and over; and 'unspecified'.

Table VII

This table shows the distribution of scientific and technical personnel classified by branches of science or technology and further classified by Sectors and Tenures of employment. The branches of science and technology are shown by a vertical spread under column 1. Three Sectors of employment are shown as in Tables V and VI, viz., (i) Public Sector; (ii) Private Sector; and (iii) Self-employment. Under each sector a further classification by tenure of employment is shown into five categories, viz., (i) Permanent; (ii) Temporary; (iii) On Contract; (iv) Research Scholar; and (v) Otherwise.

Table VIII

This table shows the distribution of unemployed scientific or technical personnel classified by branches of science or technology and further cross-classified by broad age-groups and period of unemployment. The broad age-groups used in the table are (i) 20 years and below; (ii) 21-25 years; (iii) 26-35 years; (iv) 36-45 years; (v) 46-55 years; and (vi) 56 years and above. Persons for whom age had not been recorded are included in a separate group of 'Age not stated'. The classification by the period of unemployment is into seven periods, viz., (i) upto 3 months; (ii) 4-6 months; (iii) 7-9 months; (iv) 10-12 months; (v) 1-1½ years; (vi) 1½-2 years; (vii) over 2 years. The persons for whom information regarding period of unemployment had not been recorded are included under 'Period unspecified'. For unemployed females further break-up by 'never married' and 'married' is also given.

SPECIAL TABLE I
CLASSIFICATION BY EACH BRANCH AND SUB-BRANCH OF SCIENCE OR TECHNOLOGY

Classification No. of Branch/Sub-Branch of Science or Technology	Description of Branch/Sub-Branch of Science or Technology	Persons	Males	Females
