FOREWORD

This report, spread out in two parts, presents six tables on migration. Such detailed data have been compiled and presented for the first time in the history of Indian Censuses. Each table is prefaced by a brief introductory note, designed to be helpful for a clearer grasp of the table. No attempt whatsoever, has been made to analyse the data or offer comments thereon. The questions, which the enumerators asked at the time of enumeration have been reproduced in the 'Introduction'. Replies to these, constitute the basic data which is now being presented.

INTRODUCTION

This publication contains the following 6 tables, their appendices and supplements:—

Table D— I	Non-Indian nationals
Table D— II	Place of birth
Table D—III	Migrants classified by place of birth and duration of residence in place of enumeration
Table D—IV	Migrants to cities/town-groups classified by sex, broad age-groups, educational levels and in case of workers also by occupational divisions and groups
Table D— V	Cities/town-groups showing population born locally, migrants from rural areas and migrants from other towns and cities
Table D—VI	Distribution of industrial categories of workers and non-workers by place of birth

As administrative divisions were not units for eliciting information regarding migration, figures regarding them are not given in 'D' series tables except in Table D-I.

2 The statistics contained in these tables are based on the answers recorded in the Individual Enumeration Slips against the following questions :—

- 1 Q. 2 Age in completed years last birthday
- 2 Q. 4 (a) Birthplace
- 3 Q. 4 (b) Whether born in village or town
- 4 Q. 4 (c) Duration of residence
- 5 Q. 5 (a) Nationality
- 6 Q. 6 Literacy and education
- 7 Q. 8 Working as cultivator
- 8 Q. 9 Working as agricultural labourer
- 9 Q. 10 Working at household industry
 - 10 (a) Nature of work
 - 10 (b) Nature of household industry
- 10 Q. 11 Doing work other than 8, 9 or 10
 - 11 (a) Nature of work
 - 11 (b) Industry, business, trade, profession or service
- 11 Q. 12 Activity, if not working

3 The relevant instructions to the enumerators to fill in the answers to the above questions are reproduced below :—

- (1) "Question 2—Age in completed years last birthday :—Write age in years completed last birthday. For infants below one year of age, write '0'. You will find many persons who cannot state their age correctly. You should assist them to state the correct age. If you are not able to elicit correct age directly, you should stimulate their memory by referring to historical incidents or religious events etc. You may use any local calendar of such events that may have been prepared for the purpose.

(2) Question 4 (a)—Birthplace :—

- | | |
|---|--|
| 1 If born in village or town in which enumerated | write PL |
| 2 If born in another village or town of district in which enumerated | write D |
| 3 If born in another district in the State of enumeration | write name of district |
| 4 If born in another state in India | write name of district and state if name of district is known ; otherwise write name of state. |
| 5 If born in a country outside India e.g. Pakistan or any other country | write name of country |

6 Persons born at sea or in air or in railway carriages or on road transport e.g. buses etc., should be entered as such

(3) Question 4 (b)—Whether born in village or town :—

- | | | | | | |
|--|----|----|----|----|---------|
| 1 If born in a village | .. | .. | .. | .. | write R |
| 2 If born in a town which is considered a town at the present time even if it was not so considered at the time of birth | .. | .. | .. | .. | write U |

(4) Question 4 (c)—Duration of residence :—

- | | | | | | |
|--|----|----|----|----|---|
| 1 For a person born in village or town or city in which enumerated | .. | .. | .. | .. | write X |
| 2 For a person born in another village or town or city of district of enumeration or who was not born in the district of enumeration | .. | .. | .. | .. | write the number of completed years this person has been in the village/town/city of enumeration.
(Do not take into account periods of temporary absence on leave or holiday or tour or business). |
| 3 If the duration of residence is less than one year | .. | .. | .. | .. | write O |
| If the duration of residence is one year or over | .. | .. | .. | .. | write the actual number of completed years of residence. |

(5) Question 5 (a)—Nationality :—

- | | | | | | |
|------------------------|----|----|----|----|--------------------------------|
| 1 For Indian nationals | .. | .. | .. | .. | write I |
| 2 For other nationals | .. | .. | .. | .. | write the nationality in full. |

(6) Question 6—Literacy and Education :—

- I Illiterate or literate
For a person
- | | | | | | |
|--|----|----|----|----|---------|
| 1 Who can neither read nor write or can merely read but cannot write in any language | .. | .. | .. | .. | write O |
| 2 Who can both read and write | .. | .. | .. | .. | write L |

The test for reading is ability to read any simple letter either in print or in manuscript i.e., if the person can read one of the examples in the Enumerator's Handbook with felicity he may be taken to have passed the test for reading. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can with understanding both read and write.

II Standard of Education

If the person can both read and write and has also passed a written examination or examinations as proof of an educational standard attained, write the highest examination passed instead of L.

- (7) Questions 8 to 11—Working :—These questions apply only to workers. A person who is working may be working as a Cultivator, as an Agricultural Labourer, at a Household Industry or may be doing any other work. You have to record the answers in questions 8, 9, 10 and 11 according as the person is working as a Cultivator or as an Agricultural Labourer or at Household Industry or doing any other work. He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a Cultivator and as an Agricultural Labourer, in which case he should be entered both in Q. 8 and Q. 9. Or, he may be working both as a Cultivator and at Household Industry in which case he will be entered in Q. 8 and Q. 10. Or, he may be working in any possible combination of 8, 9, 10 and 11, in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four questions 8 to 11.

× × × × ×

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work

will be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as worker. A person who has been offered work but has not actually joined should be treated as non-worker. Work includes not only actual work but effective supervision and direction of work.

Persons under training as apprentices with or without stipend or wages will be regarded as working.

An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purposes of this question. If, however, in addition to her household work she engages herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass etc., or any such work she should be treated as a worker.

Persons like beggars, pensioners, agricultural and non-agricultural royalty, rent or dividend receivers, who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in Q. 11.

(8) Question 8—Working as Cultivator :—For a person working as cultivator write C. For a person not working as cultivator and for a person not working at all put X.

For purposes of the Census a person is working as a cultivator if he or she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

Cultivation involves ploughing, sowing and harvesting but does not include production of fruits and nuts in plantations and orchards like cocoanut, arecanut etc., and these may be recorded under question 10 or 11 as the case may be.

In the list given below classification has been made as to which of the crops will come under question 8 and which will come under question 10 or 11 :—

1 Question 8 :—Cultivation includes ploughing, sowing and harvesting of the following crops :—

- (1) Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize, roots and tubers like potato, yam, beet and sugarcane etc. ;
- (2) Production of pulses such as arhar, moong, masur, urd, khesari and other grams etc. ;
- (3) Production of raw jute and kindred fibre crops ;
- (4) Production of raw cotton and kindred fibre crops.

2 Question 10 or 11 :—Other field produce and plantation crops :—

(a) Other field produce —

- (1) Production of other crops including vegetables not covered in Q. 8 ;
- (2) Production of fruits and nuts in plantations and orchards (like cocoanut, arecanut etc.);
- (3) Production of wood, bamboo, cane reeds, thatching grass, etc. ;
- (4) Production of juice by tapping palms;
- (5) Production of other agricultural produce (including fruits and nuts not covered by serial no. 2 and flowers) not covered above.

(b) Plantation crops —

- (1) Tea and coffee plantations;
- (2) Rubber plantation;
- (3) Tobacco plantation (does not include tobacco which is cultivated in rotation with other cereal crops, in which case it would go under cultivation) ;
- (4) Production of ganja, bhang, cinchona, opium, poppy, saffron, etc. ; and
- (5) Other plantation crops not covered above.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land for wages in cash, kind or share such as share of the produce (agricultural labourer) will not be treated as cultivator in this question.

(9) **Question 9—Working as Agricultural Labourer** :—Write AL for a person working as agricultural labourer, i.e., a person who works in another person's land for wages in money, kind or share such as share of produce. For others put X. The labourer should have no right or lease or contract on land on which he works. He should have been working as Agricultural Labourer in the last or current cultivating season.

(10) **Question 10 (a) and 10 (b)—Household Industry** :—If a person is working in a Household Industry write (1) the nature of work done by him in the Household Industry against question 10 (a) and (2) the nature of the Household Industry against question 10 (b). Otherwise put X in both questions 10(a) and 10 (b). A Household Industry is defined as an industry conducted by the Head of the Household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. You should carefully keep in mind the definition of Household Industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

A person though he may not be working in his own Household Industry may be working as a paid employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry and if so, write the nature of the work done by him against question 10 (a) and the nature of the household industry against 10 (b).

× × × × ×

(11) **Question 11—Doing work other than 8, 9 or 10** :—If a worker is not working as a cultivator or as an agricultural labourer or at any Household Industry write the actual work he is doing. If a person is working as a cultivator or as an agricultural labourer or at Household Industry and also does some other work (including dairying or livestock raising, orchard or plantation etc., as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above write here the work on which he devotes more time.

(12) **Question 11 (a)—Nature of work** :—In the case of persons not working or who work only as cultivator or as agricultural labourer or at Household Industry, put X.

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in vernacular transliteration of English.

(13) **Question 11 (b)—Industry, Business, Trade, Profession or Service** :—In the case of a person who is working and the nature of whose own work has been recorded in Q. 11 (a), you should write here the nature of industry, business, trade, profession or service in which the person works.

As in the case of Q. 11(a), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired should be given. If more than one article is produced the chief article produced or serviced or repaired should be given. In the case of business or trade the principal article of trade should be described. In the case of service describe the nature of the service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population.

× × × × ×

(14) **Question 12—Activity, if not working** :—This question will apply to a person NOT working.

Write X in this question for a person who is working, that is, for whom you have recorded the work in any of the questions 8 to 11 above.

The following activities should be recorded in the case of persons NOT working :—

- 1 For a full-time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation, industry, trade or business .. write ST
- 2 For a person engaged in unpaid home duties (like housewife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business .. write HW
- 3 For any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age .. write D
- 4 For a retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work .. write R
- 5 For a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence .. write B
- 6 For a convict in jail (an undertrial prisoner will be shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution .. write I
- 7 For a person who has not been employed before but is seeking employment for the first time .. write NE
- 8 For a person employed before but now out of employment and seeking employment .. write UN

Explanation :—If a person, who does not work, cannot be readily classified in any of the above categories, put him in category 5 and write B in this question. A retired person who has taken up regular work again should not be entered in this question as he would have been entered for his new work in questions 8 to 11."

4 In the Censuses prior to the present one only one question was asked about the place of birth of the person enumerated as against three asked this time. It was differently worded in different Censuses as under :—

1901—Q. 12	Birthplace
1911—Q. 12	District, province or country in which born
1921—Q. 12	Birth—district
1931—Q. 13	Birth—district (or country)
1941—Q. 17	Were you born in this district ? If not, in what district ?
1951—Q. 5	Birth-place

5 As detailed in para 1 above this time 6 tables have been prepared from the information collected through questions 4(a), 4(b) and 4(c) of the Census Questionnaire or in combination with the information collected through other questions such as age, literacy and education, industry or occupation. But in all the previous censuses only one table was prepared which was based on the information collected through the above questions. The number and title of the tables were :—

1901, 1911 and 1921—Table XI	Birthplace
1931 —Table VI	Birthplace
1941 —Table VI	Birthplace (only where tabulation took place)
1951 —Table D-IV	Migrants

The above tables gave only the number of immigrants from other districts/states/provinces/countries to the various administrative units of the province/state of enumeration.

6 The following 9 Subsidiary Tables have been prepared from 'D' Series tables i.e. migration tables and appear in Part IC of the Census Series :—

- 1 Table D—I.1 Distribution of 1,000 non-Indian nationals by countries of nationality
Note :—This subsidiary table is accompanied by small tables for each country the nationals of which are above 1 per 1,000 of non-Indian nationals
- 2 Table D—II.1 Variation in natural population
- 3 Table D—II.2 Migration between the States and other parts of India
- 4 Table D—II.3 Distribution of 10,000 persons enumerated in each state/division/district by place of birth, rural/urban characteristics and sex
- 5 Table D—III.1 Proportion of 10,000 persons born outside the place of enumeration by place of birth, duration of residence at the place of enumeration and sex
- 6 Table D—IV.1 Distribution of 1,000 migrants to cities by age-groups
- 7 Table D—IV.2 Distribution of 1,000 migrants to cities by sex and educational levels
- 8 Table D—IV.3 Distribution of 1,000 workers among migrants to cities by sex and occupation
- 9 Table D—V.1 Distribution of 1,000 migrants (born in India) to cities by place of birth

D—I NON-INDIAN NATIONALS

'Nationality' as a census enquiry appeared for the first time in 1951 census, the first after our independence. In 1951 Census also the nationality was enquired through question no 5(a) and the statistics relating to 'Non-Indian Nationals' appeared in Table D—IV of that census.

2 The present table contains sexwise distribution of non-Indian nationals by countries of their nationality arranged continentwise. The table contains figures for the state, divisions and the districts.

3 To save space only selected countries have been shown in the table while others have been grouped under the head 'Elsewhere'. The details of the nationals of countries included under 'Elsewhere' appears in the Appendix following the table.

4 The number of non-Indian nationals in the state is 2,627 (1,797 males and 830 females) in this census as compared with 2,642 (1,868 males and 774 females) in 1951.

5 A subsidiary table D—I.1 has been prepared from this table. This subsidiary table is accompanied by small tables for individual countries contributing more than 1 in 1,000 of the total non-Indian nationals. The main subsidiary table shows that out of 1,000 non-Indian nationals 832 belong to the countries in Asia (including USSR), 86 are the nationals of countries in Europe, 70 of countries in America and the remaining 12 are equally divided in countries of Africa and Oceania. Out of 1,000 nationals of Asian countries the highest number (445) belong to Nepal followed by USSR (279) and Pakistan (209).

D—II PLACE OF BIRTH

In this table the population classified into total/rural/urban for each unit has been further classified according to birth-place as to whether the place of birth was a rural or an urban area or an area which was unclassifiable. Many of the persons enumerated could not supply information with regard to the question 4(b) 'whether born in village or town' properly: they did not know whether the place of their birth was a village or town and, therefore, they gave only the name of the place of their birth and district and/or state of their birth. For the purpose of classifying such slips into rural and urban a list of towns in each state was prepared and consulted and the slips were classified accordingly. However, there remained 10,675 slips which could not be classified even with the help of these lists and appear in the table as 'Unclassifiable'. This 'Rural', 'Urban' and 'Unclassifiable' classification of birth places has not been made in case of persons born outside India.

2 Like the preceding one this table has also gone through a process of abridgement in case of persons born outside India. Under every continent *i.e.* Asia, Europe, Africa, two Americas and Oceania the persons born in countries not appearing in the table have been grouped together under head 'Elsewhere'. The names of the countries of their birth and the district where they were enumerated are given in a supplement which follows the table.

3 At tabulation stage if it was found that in an enumeration slip answer against question 4(a) has

not been recorded the slip was taken to belong to the category 'born in place of enumeration'. Besides, there were some vague entries which did not give any indication of the district or state of birth; they have, therefore, been shown at the end of the table under the head birth place 'Unclassifiable'. Their number in the state as a whole is only 13,318.

4 In previous censuses migration tables contained only the details of the place of birth and place of enumeration but no rural/urban break up was given.

5 Of the 3 subsidiary tables prepared from this table, D—II.1 and D—II.2 have been prepared for the state only because the details about the district of birth of the persons born in this state and enumerated in other States or Union Territories of India are not available.

6 As the present table D—II does not contain the district wise details of the persons born in the states continuous to our state and also to the districts of Madhya Pradesh State a special table was prepared to study the migration trend between the districts adjoining each other irrespective of whether those adjoining districts were of this state or of some contiguous state. Though this table is not being published the statistics contained in it have been exchanged with other states and has been made use of while studying the migration trend in the various districts of the state in writing the General Report on 1961 Census.

TABLE D—III

D—III:—MIGRANTS CLASSIFIED BY PLACE OF BIRTH AND DURATION OF RESIDENCE IN PLACE OF ENUMERATION

For the purpose of this table all persons except those which were born in the same village or town in which they were enumerated, have been treated as 'migrants'. In other words all those persons which have their birth place outside the place of enumeration are said to be 'migrants' to the place of enumeration irrespective of the cause of migration *i.e.* economic, social, political or even accidental.

2 This table has been prepared separately for the State, and districts and for each of these units figures for the rural and urban areas have been given separately. The migrants to the place of enumeration have been divided into the following categories:—

- (1) Born elsewhere in the district of enumeration
- (2) Born outside the district but within the state of enumeration

- (3) Born in other states (each State and Union Territory appearing separately)

For all the above 3 categories details of birth place : Rural/Urban/Unclassifiable have also been given.

- (4) Born in Nepal
- (5) Born in Pakistan
- (6) Born in other countries outside India
- (7) Birth place unclassifiable

3 The duration of residence at the place of enumeration has been classified into 6 groups *viz.*, less than 1 year, 1 to 5 years, 6 to 10 years, 11 to 15 years, 16 years and over and period not stated.

4 The subsidiary table D—III.1 prepared from this table contains the proportion of 10,000 persons born outside the place of enumeration by place of birth, duration of residence at the place of enumeration and sex and appears in Part IC.

**D-IV—MIGRANTS TO CITIES/TOWN GROUPS CLASSIFIED BY SEX, BROAD AGE-GROUPS,
EDUCATIONAL LEVELS AND IN CASE OF WORKERS ALSO BY OCCUPATIONAL
DIVISIONS AND GROUPS**

This table and also the table which follows it deal with the towns/town groups having a population of 100,000 and over presented in descending order of their population.

2 Cross tabulation by educational levels indicates the skilled and unskilled workers of different age groups migrating to cities and town groups and the occupational distribution suggests the occupations which attract them.

3 During the scrutiny of these returns a few seemingly incompatible occupational groups *vis-a-vis* the educational qualifications were noticed which reflect the existing facts of our present day economy wherein occupations and educational qualifications do not *always* go hand in hand. For persons follow any occupation they get, irrespective of their educational qualifications, as the primary consideration which influences a person in such matters is that of earning bread or making money.

4 To save space, this table has been abridged firstly by omitting all lines with nil entries and secondly by shifting from the table the occupational groups having less than 5% of the workers in the respective division (2.5% in case of divisions 7 & 8) to the Appendix. The divisions from which one or more occupational groups are shifted from the Table to the Appendix are marked with an asterisk (*).

5 The description of the divisions and groups used in the Table and Appendix is given in the Introduction on page nos. 6 and 7.

6 Three subsidiary tables *viz.*: (1) D-IV.1, (2) D-IV.2 and D-IV.3 have been prepared from this table and they respectively present the distribution of 1,000 migrants to cities/town groups by (1) age-group, (2) educational level and (3) occupation and appear in Part IC of Madhya Pradesh Census series.

D-V—CITIES, TOWN GROUPS SHOWING POPULATION BORN LOCALLY, MIGRANTS FROM RURAL AREAS AND MIGRANTS FROM OTHER TOWNS AND CITIES

Like the preceding one this table has also been prepared for 8 cities and town groups having a population of 100,000 and over and which are presented in descending order of their population.

2 The in-migration from rural and urban areas has been separately classified by (i) migrants who have been resident for less than 3 years and (ii) those who have been resident for three years and more at the place of enumeration. The data have also been shown separately for the different types of migration, namely :

- (1) Born in rural/other urban areas of the same district
- (2) Born in rural/urban areas outside the district but within the state
- (3) Born in rural/urban areas outside the state.

3 The population dealt with in this table is short of the actual population of the city/town group for the reason that the present table does not cover the following categories of immigrants to the city/town group :

- (a) Migrants whose birth places could not be ascertained whether rural or urban;
- (b) Migrants whose duration of residence has not been stated;
- (c) Migrants born in other countries; and
- (d) Migrants whose birth place is unclassifiable.

4 The following statement shows the actual population of the city/town group, the population covered in Table D-V and the difference between the two.
