PREFACE

During the 1951 Census, the Government of India offered to hand over to the State Government the Census Tables and Abstracts prepared during Census and suggested that they might be printed and published along with other useful information relating to each district. The State Governments accepted the idea and the District Census Handbooks were brought out in each State. During the 1961 Census, the Registrar General, India, decided not only to continue the series but to improve definitely on its contents, so that the publication would contain basic economic data for the smallest administrative unit and be a reference book for scholars, Central and State Governments, local bodies and private institutions.

Consequent on the merger of the Pondicherry State with the Indian Union, the 1961 Census was extended to this territory also and consistent with the policy of the Registrar General, India, to bring out District Census Handbook for each State, this volume has been compiled for the Pondicherry State also. The Government of Pondicherry have been good enough to bear the expenditure on the production of this volume. An important feature of this volume is the Village Directory which gives a complete list of all villages and towns in each commune along with the distribution of population by sex and various categories of workers and indicating the basic amenities available in each, such as educational, medical, irrigational, post and telegraphs, communication and electrification. A village-wise list of industries classified according to the Indian Standard Industrial Classification Code and the total number of units in the different types of industry for each village, an alphabetical list of villages along with their corresponding Census Location Code Number and a statement showing the sources of Irrigation, important wet and dry crops are included. It also contains the administrative statistics relating to each department of the Government and a list of Fairs and Festivals in the State. A Gazetteer of place names and a Calendar of outstanding occurrences are special features of this publication. A map of Pondicherry State and maps of each commune are other additional features. It is hoped that this volume which contains a variety of information about the State would be useful to the general public.

In preparing this volume, I have been assisted by Sri K. C. Narayana Kurup, my Deputy Superintendent and members of my staff. I am grateful to Sri A. Mitra, I.C.S., Census Commissioner and Registrar General, India, for having made it possible to bring out a volume like this for publication in connection with 1961 Census.

THE UNION TERRITORY OF PONDICHERRY

VILLAGE DIRECTORY

INTRODUCTION

This is an abstract giving a complete list of all villages and towns in each Commune with the distribution of population by sex and various categories of workers. Prior to this Census no attempt was made to compile and tabulate Village Statistics embodying Census data. In 1961-62, the Bureau of Statistics, Pondicherry published village-wise population with sex break up in its Hand book of Statistics. However, the data were furnished by our office.

Information in this abstract has been furnished for each village in the case of Rural while the same has been given for each Enumerator's Block in Urban areas.

Apart from these particulars certain additional and special particulars have been incorporated. With a view to assess the extent of the availability of basic amenities in every village which go to make it self-contained and self-sufficient, village-wise particulars regarding the availability of educational, medical, irrigational and other facilities were called for from the respective departments and incorporated in the Directory. The development activities in rural areas are reflected in the existence of Primary Schools, Middle Schools, High Schools, Dispensaries, Rural Health Centres, Hospitals, Maternity and Child Welfare Centres, Post Offices etc. These data have been shown immediately next to the names of villages in suitable notations, the explanation for which are given separately.

Apart from this information a few statements have been prepared based on authentic information

received from different sources as indicated below :—

STATEMENT I

Prior to enumeration in March 1961, a detailed listing of all houses was conducted in October 1960 when essential data relating to industrial establishments were collected the complete details of which have been presented in a separate volume entitled Housing Report and Tables. This volume is restricted in area-wise particulars relating to Industries classified by number of persons working, kind of fuel used etc. But it was felt that the types of industries existing in each village will provide valuable information and therefore village-wise list of industries classified according to Indian Standard Industrial Classification is presented in this statement. Only the total number of units in each of the different types of industry is furnished for each village. In the case of Urban areas similar information has been furnished in respect of towns and for Urban sectors of the Union Territory as a whole.

STATEMENT II

This refers to the type of soil and terrain whether hilly, river basin, high or low, sources of irrigation, important wet and dry crops and the value of such lands.

An alphabetical list of villages with their Location Code numbers also has been prepared separately for each Commune and presented here.

STATEMENT I

INDUSTRIAL ESTABLISHMENTS

For the convenience of the reader this statement is presented in the following manner. Initially the total number of establishments in the Pondicherry Union Territory, both Rural and Urban is furnished. Then figures are separately indicated for Urban areas in the territory. As the number of Urban areas in the Pondicherry Union Territory is limited, figures for each town/Urban area have been presented separately. Lastly we have given the total figures for industrial establishments for rural areas in each Commune followed by the figures for every village in the Commune.

Figures in brackets indicate the total number of establishments pertaining to the types for which the Industrial Code number is given. Readers are invited to refer to the Industrial Classification furnished at the end of this statement which furnish the key to this code.

ADMINISTRATIVE STATISTICS

ADMINISTRATIVE STATISTICS

This abstract of statistical information collected from the State Bureau of Statistics and other Government Departments will give valuable data on the progress achieved by the Pondicherry Union Territory in various sectors under different plan schemes. In the absence of a narrative report on different aspects like agriculture, industry, communication, public health etc., this compendium of administrative statistics is expected to serve as a useful guide to the reader and a good index to the progress achieved in different sectors of planning and development. With a view to provide easy access to the required data, statements have been classed under seven distinct heads viz.,

- I. Agriculture, Livestock and Animal Husbandry
- II. Industry, Trade and Labour
- III. Education

IV. Public Health and Medical facilities

V. Communications

VI. Law and Order and

VII. Miscellaneous

Unlike the Village Directory which gives data to the smallest administration unit i.e., village, this abstract will give data on different aspects only to the Area level giving information separately for each of the four distinct areas of Pondicherry Union Territory viz., Pondicherry, Karaikal, Mahe and Yanam. Wherever such break-up data are not available information has been furnished for the Union Territory as a whole. This will in no way diminish the value of the abstract as such handicaps occur in the case of very few statements only.
