PREFACE

The scheme for presenting the large amount of data collected during the 1961-census in Punjab, is outlined on the opposite page. It will be seen that Part II-C(ii), the present book, is devoted to the Tables on Migration. The general layout of the Tables is explained in the Introduction, and the notes preceding Tables explain the concept of terms used and mode of presentation of data.

I am thankful to Shri K. D. Ballal, the Central Tabulation Officer, Office of the Registrar General, India, and his staff who checked the Tables for accuracy and gave some very useful suggestions for improvement.

From among the staff in my Tabulation Office, particular mention is made of Shri Pawan Kumar, the Tabulation Officer, Shri Goverdhan Dass Singla and Shri Kismet Rai Khanna, Statistical Assistants, and Sarvshri Joginder Nath Suri and Dharam Pal Jain, Tabulation Assistants, for their hard and careful work in preparing the Tables. In order to expedite the printing of this book Shri Pawan Kumar, the Tabulation Officer, with a team of seven persons, Sarvshri Goverdhan Dass Singla, Dharam Pal Jain, Raj Kumar, Ajab Lal Kakkar, Gopal Krishan, Gian Chand, and Mohan Lal worked in the Government of India Press at Faridabad for passing the final proofs for printing. The pressure under which they had to work can be judged by the fact that this book passed through the printing machine in a fortnight.

My thanks are due to Shri S. R. Sethi, Manager of the Government of India Press, Faridabad, and his colleagues for their personal interest in the neat printing and get-up of the book.

INTRODUCTION

The Subject of Migration features prominently in the study of population. It brings to light the fresh avenues of employment which attract persons to particular areas. It is also useful in disentangling the two factors in the population growth of a State : natural increase and geographical shift in population. In the present case, migration has been discussed in terms of the place of birth. This data has its limitations since migration in some cases will be artificially inflated and re-migration to place of birth will be masked. Besides, it has not been possible to collect information about the persons who went out of the country. The reader will do well to keep these things in mind while interpreting the Tables given in the book.

In 1961, much more information was gathered on migration than in previous censuses. The questions asked in this connection in the various census years since 1901 are shown in the Annexure, appearing at the end of the Introduction. In 1961, there were four questions in the Individual Slip which, along with the instructions issued to enumerators, are reproduced below.

"Q. 4 (a)—*Birth place*

(*i*) If born in village or town in which enumerated	write 'PL'
(*ii*) If born in another village or town of District in which enumerated	write 'D'
(*iii*) If born in another District in the State of enumeration	write name of District
(*iv*) If born in another State in India	write name of District and State, if name of District is known; otherwise write name of State.
(*v*) If born in a country outside India	write name of country.
(*vi*) Persons born at sea or in railway carriage or on road transport, *e.g.*, buses, etc., should be entered as such.	

Q. 4 (b)—*Whether born in a Rural or Urban area*

(*i*) If born in a village	wirte 'R'
(*ii*) If born in a town which is considered a town at the present time even if it was not so considered at the time of birth	write 'U'

Q. 4 (c)—*Duration of residence, if born elsewhere*

(*i*) For a person born in village or town or city in which enumerated	write 'X'
(*ii*) For a person born in another village or town or city of District of enumeration or who was not born in the District of enumeration	write number of completed years this person has been in the village/ town/city of enumeration. Do not take into account periods of temporary absence on leave or holiday or tour or business.

Q. 5 (a) *Nationality*

(*i*) For Indian nationals	write 'I'
(*ii*) For other nationals	write the nationality in full."

The replies to the above questions have been processed in the form of the following Tables :—

Table D-I .. Non-Indian Nationals

Table D-II .. Place of Birth

Table D-III .. Migrants classified by place of birth and duration of residence in the place of enumeration

Table D-IV .. Migrants to cities classified by sex, broad age groups, educational levels, and in case of workers also by Occupational Divisions and Groups

Table D-V .. Cities showing population born locally, migrants from rural areas, and migrants from other towns and cities.

Table D-VI .. Distribution of Industrial Categories of Workers, and Non-Workers, by place of birth

The 1951-census report had only three Tables. Its Table D-IV corresponds to the present Table D-II, but this time the persons within the District of enumeration have been further bifurcated into (*i*) born at the place of enumeration, (*ii*) born elsewhere in the District of enumeration. Another improvement is that the birth place has been classified into rural and urban.

The Table D-VI of 1951 report corresponds to the present Table D-I. Its Table D-V relating to displaced persons from Pakistan has not been continued in the present report, since resettlement of displaced persons is now a thing of the past. However, the Pakistan-born persons have been shown in Table D-II, under persons born in other countries.

Tables D-III, D-IV, D-V and D-VI are new additions in the 1961 report. In order to know the quantum of migration during different periods in the past, a new question relating to the duration of residence at the place of enumeration was included in 1961, and the information thus obtained is presented in Table D-III.

In Table D-VI migrants have been classified into nine categories of Workers and Non-workers. These Industrial Categories have been explained at length in the Introduction to Part II-B(i)—General Economic Tables.

Tables D-IV and D-V portray the position in regard to migrants enumerated in the five cities of Punjab.

NON-INDIAN NATIONALS

TABLE D-I

NON-INDIAN NATIONALS

This Table corresponds to Table D-VI of the 1951-census, and shows the number of persons belonging to foreign nationalities who were residing in Punjab during the 1961-census enumeration period. The non-Indian nationals who were employed in foreign embassies, missions, etc. have not been included in the Table. All non-Indian nationals have been shown separately for each of the five continents, and some important countries in each continent. Other countries have been grouped under 'Elsewhere' for each continent separately, details of which have been given in the Appendix to this Table.

TABLE D-II

PLACE OF BIRTH

TABLE D-II

PLACE OF BIRTH

This Table classifies the entire population, according to place of birth, for total, rural and urban areas of the State, and each of its Districts. In col. 2 of the Table, classification of the birth place into rural, urban or unclassifiable have also been made for the persons born in India. Persons born in other countries have been arranged in the Table according to the five continents. Such information has been shown for some important countries separately, and for others it has been lumped under 'Elsewhere', and details are given in the Supplement, appearing at the end of this Table.

This Table corresponds to Table D-IV of 1951-census, with an improvement that the details of 'birth place' and 'place of enumeration' have been given for rural and urban areas separately.

This Table throws interesting light on the extent of rural and urban migration.

TABLE D-III

MIGRANTS CLASSIFIED BY PLACE OF BIRTH AND DURATION OF RESIDENCE IN PLACE OF ENUMERATION

TABLE D-III

MIGRANTS CLASSIFIED BY PLACE OF BIRTH AND DURATION OF RESIDENCE IN PLACE OF ENUMERATION

This is a new Table based on a special question asked at the 1961-census, regarding the duration of residence at the place of enumeration in the case of persons born outside the place of enumeration. The duration of residence has been grouped under the following 6 periods :

1. Less than 1 year;
2. 1 to 5 years ;
3. 6 to 10 years ;
4. 11 to 15 years ;
5. 16 years and over ; and
6. Period not Stated.

Figures have been given separately for rural and urban areas of the State, and for each District.

TABLE D-IV

MIGRANTS TO CITIES CLASSIFIED BY SEX, BROAD AGE GROUPS, EDUCATIONAL LEVELS AND IN CASE OF WORKERS ALSO BY OCCUPATIONAL DIVISIONS AND GROUPS

TABLE D-IV

MIGRANTS TO CITIES CLASSIFIED BY SEX, BROAD AGE GROUPS, EDUCATIONAL LEVELS AND IN CASE OF WORKERS ALSO BY OCCUPATIONAL DIVISIONS AND GROUPS

This Table has been prepared only for five cities, each having a population of one lakh or more. Migrants have been distributed according to the nature of their work under various Occupational Divisions and Groups according to the "National Classification of Occupations". The Divisions and Groups have been described in the Annexure I to this note. 'Non-Workers', and 'Workers' under each Division and Group have been cross-tabulated by age groups and educational levels. Details of degrees and diplomas grouped under various educational levels are given in the Annexure II, also appearing at the end of this note.

Occupational Groups having less than 5 per cent of the Workers of the respective Divisions (less than 2·5 per cent in case of Division 7-8) have not been shown in this Table, but their details have been given in Appendix to the Table. Divisions thus affected have been marked with an asterisk (*).

This Table is important as it gives an indication of the professions attracting the migrants to cities.

TABLE D-V

CITIES SHOWING POPULATION BORN LOCALLY, MIGRANTS FROM RURAL AREAS AND MIGRANTS FROM OTHER TOWNS AND CITIES

TABLE D-V

CITIES SHOWING POPULATION BORN LOCALLY, MIGRANTS FROM RURAL AREAS AND MIGRANTS FROM OTHER TOWNS AND CITIES

This Table relates to Cities only and classifies the migrants from rural and urban areas by duration of residence. Duration of residence has been bifurcated into: less than 3 years; and 3 years & more. Immigrants have been further classified into: (1) Born within the District of enumeration; (2) Born within the State but outside the District; and (3) Born within the country but outside the State of enumeration. Figures of the persons born in the city of enumeration have also been given under cols. 18 & 19.

Figures given under cols. 3, 4 and 5 do not indicate the actual population of the city but are the totals of the cols. 6 to 31. The reasons for the difference are :

(i) Persons whose birth place has not been recorded as either rural or urban, those whose duration of residence has not been stated, and those who were born in place of birth labelled as 'Unclassifiable', have been excluded; and

(ii) the Table relates to persons born within the country.

TABLE D-VI

DISTRIBUTION OF INDUSTRIAL CATEGORIES OF WORKERS, AND NON-WORKERS BY PLACE OF BIRTH

TABLE D-VI

DISTRIBUTION OF INDUSTRIAL CATEGORIES OF WORKERS AND NON-WORKERS BY PLACE OF BIRTH

This Table classifies the population according to place of birth, into workers and non-workers for the State, each District, and each City. In the case of workers, details according to nine industrial categories have also been given. Classification according to place of birth is the same as in the case of Table D-II. The Table is arranged into three sets, separately for total, rural and urban areas.

In the case of total and urban sets, the States which had returned less than 1% of the total immigrants from all the States other than the state of enumeration have been omitted from the main Table: their details appear in Appendix I to this Table. In the case of rural set, figures have been given for four numerically most important States of immigration in the descending order of immigrants. Separate details of persons born in other countries have not been given at all in the rural set. Figures for other States and countries for rural areas can be worked out by subtracting the urban figures from the total. Col. 2 shows whether the birth place is rural or urban. Immigrants, for which birth place is not known, have been grouped under 'Unclassifiable.' Such figures, however, do not appear in the Table, because their number is less than 5% of the total immigrants under the respective groups A-I and A-II.

Col. 3 of Appendix I to this Table indicates whether the birth place is rural or urban. In col. 6 category-wise details of the total immigrants appearing under cols. 4 and 5 have been shown. Roman numerals appearing under col. 6, represent industrial categories of workers, and non-workers.

Details of the countries, included under 'Elsewhere' of each continent in the main Table, appear in Appendix II, where Roman numerals, appearing under col. 6, indicate industrial categories of workers, and non-workers.
