ACKNOWLEDGEMENTS

In presenting these tables I would, in the first place, record my feeling of gratitude for my colleagues in the Census Office, a group of temporary workers who, with no more mechanical aid than a few dilapidated hand-facit machines, handled a formidable array of figures and processed them into a fabric of intricate statistics. Most of them, unsophisticated teen-agers, had been picked up from the streets and are already back there after doing with devotion a job that threw them out of employment as soon as completed. The publication, then, belongs more to them than to me.

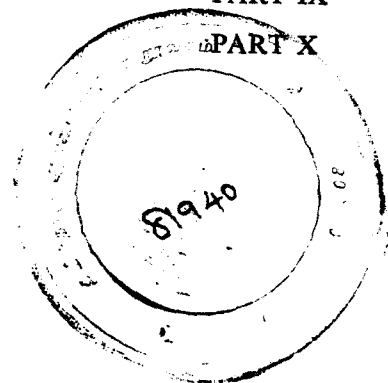

A meticulous operation like preparation of Census tables entails an amount of supervision and a minuteness of instruction that would perhaps be deemed superfluous in most other Government offices. Written instructions, again, are not enough, for whatever the degree of detail into which such instructions may enter, there inevitably arises many a problem the solution of which requires the personal attention of an official having intimate knowledge of the tables and of each stage in their preparation. This attention has on the present occasion been given by my colleague Shri B. Ray who, as Deputy Superintendent of Census Operations, was in charge of the Central Tabulation Unit. He and Shri S. Sinha, Officer on Special Duty, have also helped me with certain points in the notes and fly-leaves. Shri K. D. Ballal, Central Tabulation Officer, New Delhi, has kindly checked the tables for arithmetical accuracy and internal consistency, for which, of course, the responsibility is only mine.

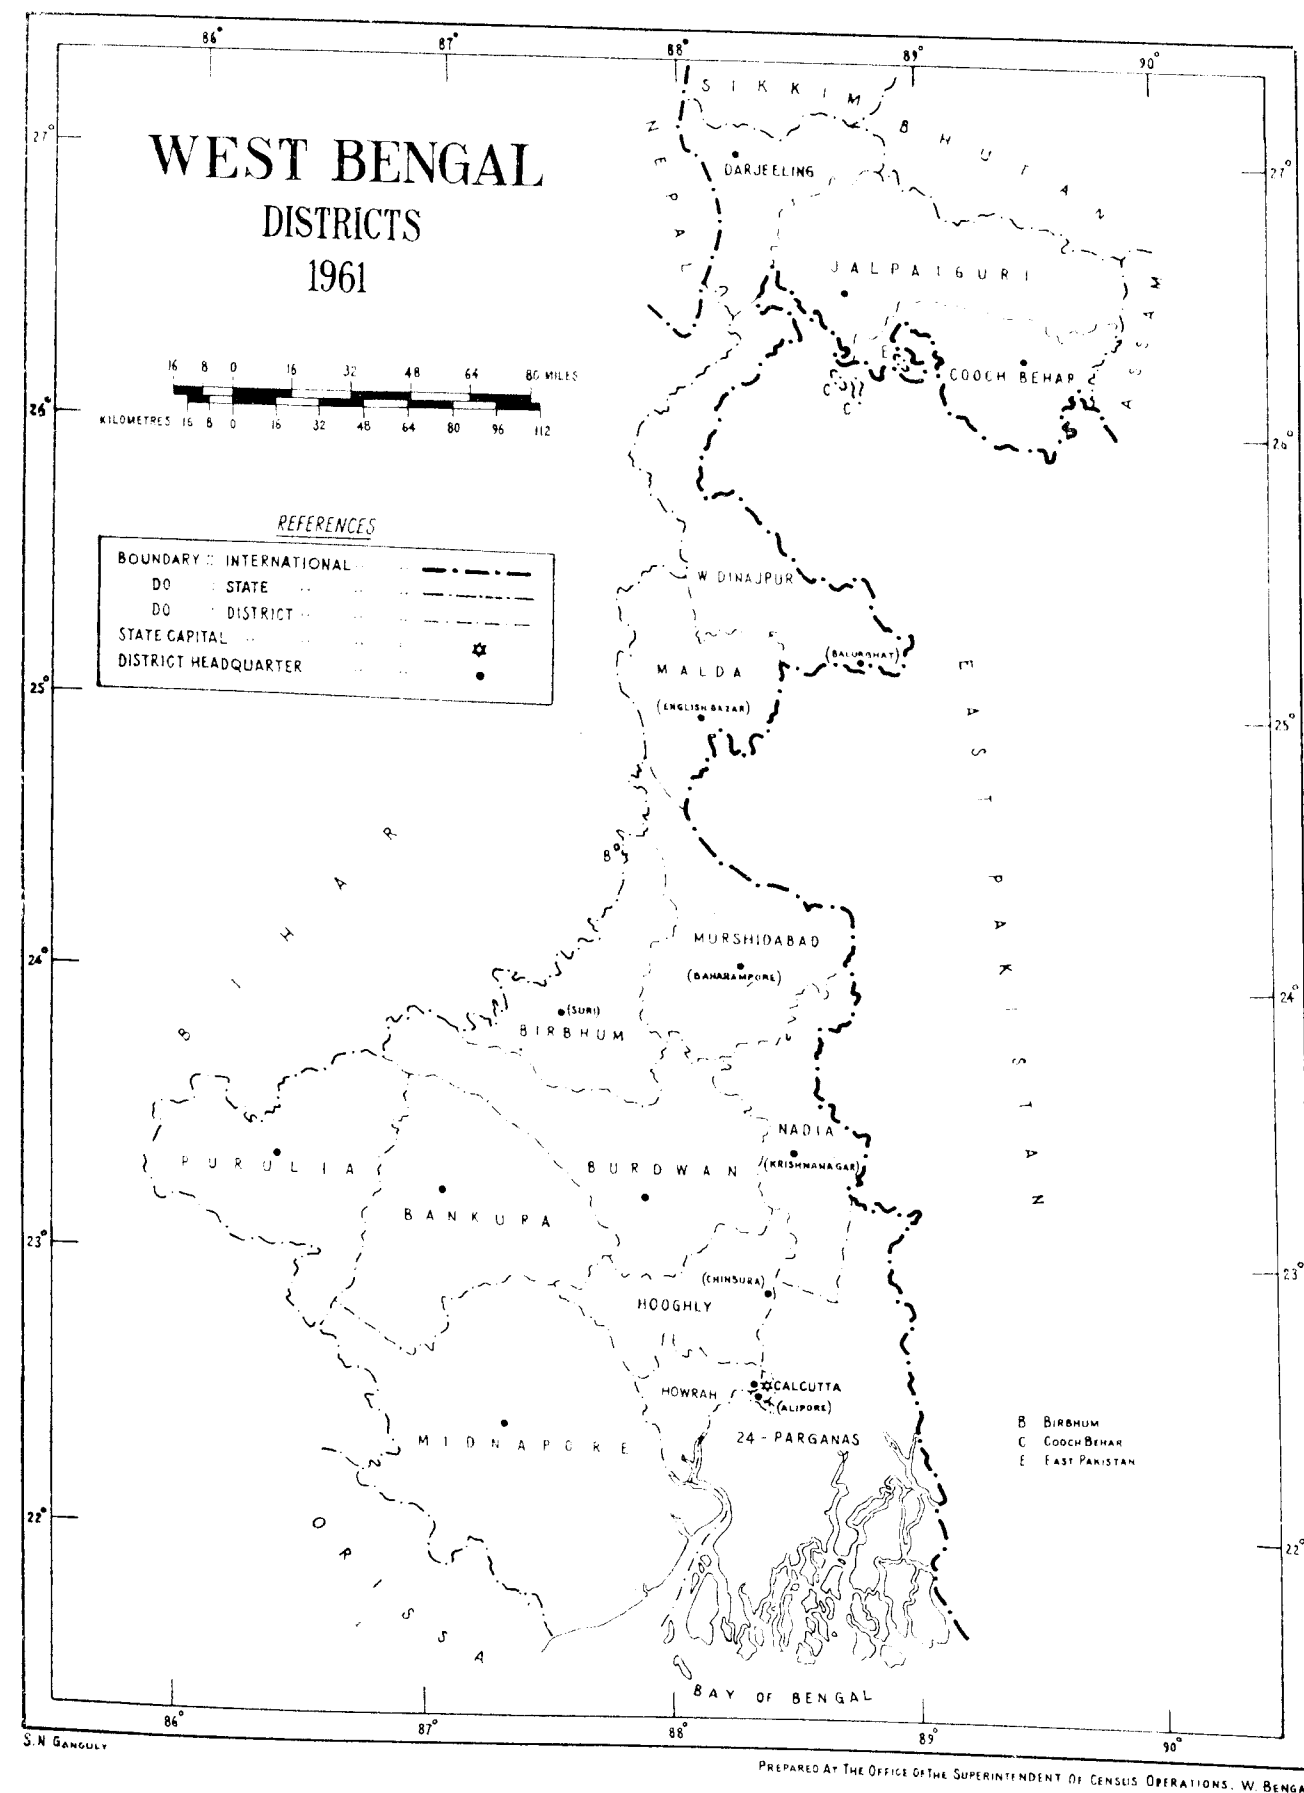

The 1961 Census has been a glorious experience for those who have had the honour of participating in it under the inspiring leadership of Shri Asok Mitra, the Registrar General and ex-officio Census Commissioner for India. The benign confidence he reposes in his colleagues is at once a stimulus and a responsibility.

I have, finally, to record my gratefulness to my predecessor, Shri J. C. Sengupta, who piloted the 1961 Census operation of this State from its initial stage till the end of 1963. Much of the material presented here was collected and processed under his supervision.

GENERAL ECONOMIC TABLES

NOTE

The 1961 Census was the tenth Census of the area comprised in the State of West Bengal and the second since Independence. The first Census after Independence was taken in 1951 when the country was ushering in an era of economic planning. The next Census in 1961 came at a time when the Second Five Year Plan was drawing to a close. An attempt was therefore made to frame the questionnaire for this Census in such a manner as would reveal the extent by which two plans had succeeded in making an impact on the economic life of the people. Besides, the growing need for basic data by different Ministries and Departments of the Central and the State Governments made it necessary in 1961 to collect and present more comprehensive data than was done in the previous Censuses.

2. This volume presents nine Economic Tables, Tables B-I to B-IX, of the 1961 Census*. Altogether, seventeen Economic Tables have been prepared, of which these nine are on the General Population. Eight Household Economic Tables (B-X to B-XVII), based on a 20 per cent sample of the households, are produced in Part III of the Census Publications. Against these seventeen Economic Tables of the 1961 Census, there were only seven (Tables A-V, E, B-I, B-II, B-III, C-II and D-VII) in 1951, and all of them related to the General Population.

3. In enumerating an individual, besides the usual demographic and social questions, five economic questions were asked at the 1961 Census. These questions marked a significant departure in the mode and quantum of the collection of economic data. In the earlier Indian Censuses, or at least at the last few Censuses, income or economic independence was made a criterion for cataloguing the economic activities of the population. Account was taken of all persons who were economically independent and of those who were economically dependent. An intermediate category of economic semidependence was also introduced from the 1931 Census. This third category was called Working Dependent in the 1931 Census, Partly Dependent in 1941 and Earning Dependent in 1951, but even here the determining factor was an element of income. It was felt in 1961 that strict application of the criterion of income or economic independence suppressed the contribution to production effort of those who worked in family economic activities but did not actually earn an income, like men other than the head of the household or women of the family or children working at cultivation or cottage industries of the household. Stress was therefore laid at the 1961 Census on *work* so that all people who worked, including family workers who were

not in receipt of any income, or persons working who could not earn enough for their maintenance, were returned as Workers.

4. The five economic questions asked in the 1961 Census were numbered Qs. 8, 9, 10, 11 and 12 in the Enumeration Slip. These questions along with the instructions on them are reproduced below from the booklet entitled 'Instructions to Enumerators' issued by the Registrar General, India :

"Qs. 8 to 11 Working—These questions apply only to workers. A person who is working may be working as a Cultivator, as an Agricultural Labourer, at a Household Industry or may be doing any other work. You have to record the answer in questions 8, 9, 10 and 11 according as the person is working as a Cultivator or as an Agricultural Labourer or at Household Industry or doing any other work. He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a Cultivator and an Agricultural Labourer, in which case he should be entered both in Q. 8 and Q. 9. Or, he may be working both as Cultivator and at Household Industry in which case he will be entered in Q. 8 and Q. 10. Or, he may be working in any possible combination of 8, 9, 10 and 11, in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four Questions 8 to 11.

Detailed instructions as to how the answers should be recorded in the individual questions are given against those questions below. You should carefully study them before recording the answers. For an undertrial prisoner enumerated in a Jail he should be recorded for the work or kinds of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of work he was doing before he was admitted into hospital or institution. But for a convict in a prison or for long term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded but 'I' should be recorded in Q. 12 below.

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry, etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person was

*Owing to the volume of the Statistics compiled, Tables B-V to B-IX are presented in the accompanying book, Part II-B (ii).

employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as *worker*. A person who has been offered work but has not actually joined should be treated as *non-worker*. Work includes not only actual work but effective supervision and direction of work.

Persons under training as apprentices with or without stipend or wages will be regarded as working.

An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purposes of this question. If, however, in addition to her household work she engages herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass, etc., or any such work she should be treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural, royalty, rent or dividend receivers, who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in Q. 11.

After you have filled up the answers to questions 8 to 11, if you find that in the case of any person more than one productive activity has been recorded *i.e.*, more than one of the questions, 8, 9, 10 or 11, has been filled up by some work you should ask him which one of the activities that has been recorded for him is his principal work. The principal work is the one on which the person spends most time. Put a ring round the number of the question, 8, 9, 10 or 11, according to the work on which the person says he spends most time. You should invariably ask for the principal work where more than one work is recorded and put a ring round the question relating to the principal work.

It may be that in a few cases you find that you have recorded more than two productive activities in questions 8 to 11 *i.e.*, more than two of the

questions, 8 to 11, would have been filled up by some work. In such cases you should first ascertain the principal work *i.e.*, the one on which the person spends most time and put a ring round the number of the question. You should then ascertain the work which is the next in importance to his principal work *i.e.*, the work after his principal work which occupies most time. You should put a tick against the question number of that work on the right hand side of the question number. The ring and the tick should be put clearly so that any difficulty will not be felt to recognise them clearly.

Q. 8. Working as Cultivator

For a person working as cultivator write C. For a person not working as cultivator and for a person not working at all put X.

For purposes of the census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations. Persons engaged in fruit growing or orchardry or plantations like tea, coffee, rubber, cinchona and other medicinal plantations should be entered into Q. 10 or Q. 11 as the case may be.

The following classification will illustrate as to which answers should be entered under Q. 8 and which others under Q. 11 :—

Under Q. 8—Cultivation, involving ploughing, sowing and harvesting.

1. Production of cereal crops (including Bengal gram), such as rice, wheat, jowar, bajra, maize; roots and tubers like potato, yam, beet, etc.; sugarcane, etc.

2. Production of pulses, such as arhar, moong, masur, urd, khesari, other gram.

3. Production of raw jute and kindred fibre crops.

4. Production of raw cotton and kindred fibre crops.

Under Q. 11—Other Field Produce, Plantation Crops.

A—Other Field Produce :

1. Production of other crops including vegetables not covered in Q. 8.

2. Production of fruits and nuts in plantations, vines and orchards (like cocoanut, arecanut, etc.).

3. Production of wood, bamboo, cane reeds, thatching grass, etc.

4. Production of juice by tapping palms.

5. Production of other aricultural produce (including fruits and nuts not covered by Serial No. 2 and flowers) not covered above.

B—Plantation Crops :

1. Production of tea in plantation.

2. Production of coffee in plantation.

3. Production of rubber in plantation.

4. Production of tobacco in plantation (does not include tobacco which is cultivated in rotation with other cereal crops, in which case it would go under cultivation).

5. Production of ganja, cinchona, opium, poppy, saffron, etc.

6. Production of other plantation crops not covered above.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land only as a labourer and has no right or lease or contract on land on which he works, nor is responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation and is paid wages in cash, kind or share such as share of produce (Agricultural Labourer) will not be treated as cultivator in this question.

Q. 9. Working as Agricultural Labourer

Write AL for a person working as Agricultural Labourer, *i.e.*, a person who works in another person's land only as a labourer without exercising any supervision or direction in cultivation, for wages in cash, kind or share such as share of produce. For others put X. The labourer should have no right or lease or contract on land on which he works, nor should he be responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation. A share

of the produce goes to him only as wages. He should have been working as Agricultural Labourer in the last or current cultivating season.

Qs. 10 (a) and 10 (b) Household Industry

If a person is working in a Household Industry write (1) the nature of work done by him in the Household Industry against question 10 (a) and (2) the nature of the Household Industry against question 10 (b). Otherwise put X in both questions 10 (a) and 10 (b). A Household Industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. You should carefully keep in mind the definition of Household Industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

A person though he may not be working in his own Household Industry may be working as a paid employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry and if so, write the nature of the work done by him against question 10 (a) and the nature of the Household Industry against 10 (b).

Q. 10 (c) If Employee in Household Industry

This question will be filled up only for a person who is working as a paid employee in another person's Household Industry. In his or her case write E. E. For all others put X.

The following examples will illustrate how questions 10 (a) to 10 (c) should be filled up for persons working at Household Industry.

Q. 10—Working at Household Industry

(a) Nature of work	(b) Nature of Household Industry	(c) If Employee
1. Spinning yarn	Spinning yarn in Ambar Charkha	X
2. Dyeing and printing yarn	Handloom weaving	X
3. Threshing and cleaning grain	Flour making <i>chakki</i>	X

Q. 10—Working at Household Industry—contd.

(a) Nature of work	(b) Nature of Household Industry	(c) If Employees
4. Labourer employed for crushing oil	Oil ghani	E.E.
5. Tempering and polishing implements	Blacksmithy making agricultural implements	X
6. Labourer employed for making and firing kiln	Earthenware pottery	E.E.
7. Throwing & Turning pottery	Earthenware pottery	X
8. Making wooden doors and windows	Carpentry	X
9. Filling gold ornaments with lac	Goldsmithy	X
10. Labourer working hosiery machine	Hosiery	E.E.
11. Keeping accounts	Hosiery	X
12. Polishing and Scraping metal	Electroplating	X
13. Labourer employed for putting iron hoop on cart-wheels	Cartwheelwright	E.E.
14. Repairing of guns	Gunsmithy	X
15. Bee Keeping	Production of honey	X
16. Tending cattle	Livestock raising	X

Q. 11. Doing Work other than 8, 9 or 10

If a worker is not working as a cultivator or as an agricultural labourer or at any Household Industry write the actual work he is doing. If a person is working as a cultivator or as an agricultural labourer or at Household Industry and also does some other work (including dairying or livestock raising, orchard or plantation, etc., as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above write here the work on which he devotes more time.

Q. 11(a) Nature of Work

In the case of person not working or who work only as cultivator or as agricultural labourer or at Household Industry, put 'X'.

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in vernacular transliteration of English. At previous censuses much trouble has been caused by inadequate answers, and if you do not succeed in obtaining satisfactory information on the individual slips, you will be required to make a further visit for that purpose.

Q. 11(b) Industry, Business, Trade, Profession or Service

In the case of a person who is working and the nature of whose own work has been recorded in Question 11(a), you should write here the nature of industry, business, trade, profession or service in which the person works.

As in the case of Question 11(a), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired, should be given. If more than one article is produced the chief article produced or serviced or repaired should be given. In the case of business or trade the principal article of trade should be described. In the case of service describe the nature of the service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population. The description should be either in the vernacular or in English or in vernacular transliteration of English.

In the case of a person for whom an X is put in Question 11(a) put an X in this question also.

Important points to remember in Questions 11(a) and 11(b).

1. Women or children who help with work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass, etc., should be described fully even if they work part-time. *In the case of married or grown-up women who do any of the work mentioned above in addition to the usual household duties such work should be fully described and HW written in brackets after the full description.*

2. If a person makes the articles he sells, he should be entered as maker and seller of them.

3. Wherever convenient, for complete description, the work should be expressed by the vernacular name by which it is known.

4. The following are too vague and must not be used by themselves :—

Scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher.

5. **Labourers**—For an unskilled labourer usually employed on one sort of work alone, give also the sort of work done, e.g., railway porter, market or bazar porter, labourer employed on road digging, bricklayer's labourer. If accustomed to work on various jobs, write general labourer.

6. **Machine Operators**—Always state the kind of machine giving its recognized name, if any.

7. **Shop-keepers, Retail Dealers, Shop Assistants**—If wholly or mainly engaged in selling, write, 'Dealer' (if principal) or, Shop Assistant or Salesman (if assisting) and state whether the business is wholesale or retail or both. For shop assistants and salesman in stores with several departments, state the particular department in which engaged (e.g., Ship and Railway Parts, Fans and Sewing Machines, Grocers and Confectioners).

8. **Transport Workers**—Describe fully the nature of the transport, e.g., air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by horse, etc.

9. **Services**—For a person engaged in the Defence Services write 'Service of Central Government'.

10. If the job is known in the trade or industry by a special name, use that name. Managers, Foreman, etc., should be given the department/branch wherever applicable e.g., Sales Manager or a Manager of Hardware Department, Machine Shop Foreman or Boiler Room Foreman, etc. The following terms are insufficient by themselves :—

Manufacturer, merchant, agent, broker, refractor, dealer, engineer and iron works, etc.

11. **Domestic services**—In the case of any private servant e.g., a cook or domestic servant, write only 'private cook or domestic servant'. There is no industry in the case but in the case of persons employed in hostels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., should be added.

For persons in the employ of Firms carrying on two or more business, if the businesses are carried on in separate premises then the business carried on at the premises in which the person is employed should be given. If the businesses are carried on in the same premises but each has a separate organisation (i.e., they have separate records of employment, production, etc.) then the appropriate business should be quoted. If, however, the two activities are carried on side by side then the major activity of the firm or establishment should be given.

12. **Commerce**—Special care should be taken to see that the distinction between retail and wholesale business is clear. As in industries, the goods handled should be clearly indicated.

Q. 11(c) Class of Worker

For a person who is :—

1. an <i>Employer</i> , that is who hires one or more persons in his work described in Q. 11(a)	write	MR
2. an <i>Employee</i> , that is, who does his work described in Q. 11(a) under others for wages or salary in cash or kind.	write	EE
3. a <i>Single Worker</i> , that is, who is doing his work described in Q. 11(a) without employing others, except casually and without the help of other members of the family except casually. This will include workers working as members of co-operatives.	write	SW
4. a <i>Family Worker</i> , that is, who is doing his work described in Q. 11(a) in own family without wages or salary in cash or kind.	write	FW

For a person for whom an 'X' is put in Qs. 11(a) and 11(b) put an X in this question also.

Explanation :—

(i) An *Employer* is a person who has to employ other persons in order to perform the work entered in Q. 11(a). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11(a). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

(ii) An *Employee* is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

(iii) A *Single Worker* for the purpose of Q. 11(c) is a person who works by himself but not as Head of household in a Household Industry. He is not employed by any one else and in his turn does not employ anybody else not even members of his household except casually. This definition of a *Single Worker* will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producers' co-operative. Each one of the partners or members of such producers' co-operatives should be recorded as 'Single Worker'.

(iv) A *Family Worker* is a member who works without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season. For the purpose of the entire Q. 11, such an industry should be on a scale larger than what has been covered in 'Household industry' in Q. 10 whether run at home or away from home in town or village and even away from village in rural area and should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or head of the household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

Q. 11(d) Name of Establishment

Describe in detail the name of the factory, workshop, business house, company, shop, etc. If a person has no fixed place of work, write 'No fixed place of work.'

For a person for whom an X is put in Qs. 11(a), 11(b) and 11(c) put an X in this question also.

The following examples will illustrate how Qs. 11(a) to 11(d) should be filled up for person doing work other than 8, 9 or 10.

Q. 11—Doing Work other than 8, 9 or 10

Q. 11(a)	Q. 11(b)	Q. 11(c)	Q. 11(d)

Q. 12. Activity, if Not Working

This question will apply to a person NOT working.

Write 'X' in this question for a person who is working, that is, for whom you have recorded the work in any of the questions 8 to 11 above.

The following activities should be recorded in the case of persons NOT Working :—

1. For a full-time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation, industry, trade or business. write ST
2. For a person engaged in unpaid home duties (like housewife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business. write HW
3. For any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age. write D
4. For a retired person who is not employed again, *rentier*, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work. write R

5. For a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence. write B
6. For a convict in jail (an undertrial prisoner will be shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution. write I
7. For a person who has not been employed before but is seeking employment for the first time. write NE
8. For a person employed before but now out of employment and seeking employment. write UN

*Explanation :—*If a person, who does not work cannot be readily classified in any of the above categories, put him in category 5 and write B in this question. A retired person who has taken up regular work again should not be entered in this question as he would have been entered for his new work in Questions 8 to 11.

A person who is not working but has been offered work which he has not joined should be included in item 3 and 'D' should be written. He should not be included in items 7 or 8."

5. In the 1951 Census an important change was made in the presentation of primary census

data. In the 1941 and earlier Censuses religion was adopted as the basis on which primary sorting and tabulation were done. At the 1951 Census economic classification substituted the classification based on religion. For this purpose the population was divided into eight Livelihood Classes and in each Livelihood Class were included the Self-supporting Persons of that class and their dependents. The eight Livelihood Classes which were framed with reference to the Means of Livelihood returns at the Census were :

- I—Cultivators of land wholly or mainly owned and their dependants.
 - II—Cultivators of land wholly or mainly unowned and their dependants.
 - III—Cultivating labourers and their dependants.
 - IV—Non-cultivating owners of land ; Agricultural rent receivers and their dependants.
- Persons (including their dependants) who derive their principal means of livelihood from
- V—Production other than cultivation.
 - VI—Commerce.
 - VII—Transport.
 - VIII—Other services and miscellaneous sources.

6. For the 1961 Census, as already stated, the concept of dependency was abandoned, and it was therefore no longer possible to hold on to Livelihood Classes as the criteria of economic classification. Instead, it was decided to adopt, for the basic economic classifications of the population, the following ten Industrial Categories, Non-workers being treated as a distinct category :

- I—Working as Cultivator.
- II—Working as Agricultural Labourer.
- III—Working in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities.
- IV—Working at Household Industry.
- V—Working in Manufacturing other than Household Industry.
- VI—Working in Construction.
- VII—Working in Trade and Commerce.
- VIII—Working in Transport, Storage and Communications.
- IX—Working in Other Services.
- X—Non-workers.

7. This basic classification was maintained throughout the process of sorting of the Census Slips. A statement correlating these ten categories with the corresponding economic groups of 1901—1951 has been given in the Annexure to table B-I.

8. Another unique feature in the presentation of economic data in 1961 is the classification of the working population in the non-agricultural sector (*i.e.*, in Categories III to IX) separately according to the returns for Occupation and Industry. The Indian Census Economic Classification adopted at the 1951 Census was neither a purely industrial nor a purely occupational classification of the population, but was a compromise between the two. There were only 10 Divisions and 88 Subdivisions of Industries and Services. In the 1961 Census the Standard Industrial Classification and the National Classification of Occupation adopted by the Government of India were followed, with the minimum of suitable modifications, for classification of the working population for Industry and Occupation respectively. There are more than 300 Occupational Families and Industrial Minor Groups for which figures are given (in Tables B-IV Part C and B-V). It was necessary for this classification to precode the Slips both for Industry and Occupation before they were subjected to manual sorting. 'Industry' for purposes of this classification means that sector of economic activity in which the earner is engaged, *e.g.*, textile industry, automobile industry, etc., whereas 'Occupation' refers to the exact function that an individual performs in that sector, *e.g.*, fitter, carpenter, etc.

9. The Standard Industrial Classification with 'Explanatory Notes on its use' issued by the Directorate General of Employment and Training, Ministry of Labour and Employment, Government of India, is reproduced below for a proper understanding of the classifications made in the tables. The National Classification of Occupations has been reproduced in the accompanying book, Part II-B (ii).

STANDARD INDUSTRIAL CLASSIFICATION

Explanatory Note on the use of Industrial Classification

1. In order that information regarding employment and unemployment in various sectors of the economy may be more specifically known, an industrial classification of all economic activity has been prepared by the Government of India for being used by its various fact finding agencies. This classification which may be called the 'Standard Industrial Classification' is given in this document. Employment Exchanges will use the Standard Industrial Classification and the Code Numbers provided for purposes of classification of applicants and vacancies.

2. Code numbers have been devised for each industrial group on what is known as the 'digit' system. The system is closely related to international usage as recommended by the I.L.O. Employment Officers must study the industrial classification system as an essential preparation for work under the Second Five-Year Plan so that they may be able to classify applicants and vacancies industrially. The work of industrial classification, it is recommended, should be carried out by persons thoroughly trained in the use of the Industrial Classification Code.

3. It is important that the concept of 'industry' should not be confused with that of 'occupation'. 'Industry' means that sector of economic activity in which the earner is engaged, e.g., textile industry, automobile industry, etc. whereas the 'occupation' describes the exact function that an individual performs in that sector e.g., fitter, carpenter, etc.

Construction of Industrial Classification Code.

4. The following system of notation has been adopted in the classification of Industries :

Divisions :

The whole range of economic activity is divided into nine 'Divisions' and a 'code number' given to each. The first digit of any code number represents the 'Division' under which that activity is classified, e.g., the number given to the Manufacturing Division and manufacturing activity of any kind will have code numbers beginning with '2' or '3'.

Major Groups :

Each 'Division' is then divided into a number of 'Major Groups' not exceeding ten. The first two digits of any code number together represent the 'Division' and the 'Major Group' under which that activity is classified. Thus the number "20" has been given to the "Production of Foodstuffs" (Major Group) under "Manufacturing" (Division).

Minor Groups :

Each 'Major Group' is again sub-divided into a number of 'Minor Groups' not exceeding ten. The 'Minor Group' is represented by a third digit added to the 'Major Group' code number, e.g., '5' under Major Group 20 relates to production of bread, biscuits, cake, etc. Thus, if we find code No. 205 we know that it means production of bread, biscuits, cakes, etc. (Minor Group) in the 'Foodstuffs Industry' (Major Group) in "Manufacturing" (Division). Again if we find No. 701, we know that it means "Transporting by tramway, and bus service" (Minor Groups) in the "Transport Industry" (Major Group) in the "Transport, Storage and Communication" (Division).

Thus, a one-digit code number represents a division, a two-digit code number represents a major group of industries and a three-digit code number represents a minor group of industries. A classification more detailed than the minor groups (3-digit level) has not been made.

5. The code number that should be allotted for economic activity connected with repairing or servicing will be the same as the code number provided for manufacturing of the article or product in that branch of industry (for example, Repairing of electric lamps and fans will be classified under 375 and Repairing of radios under 378), unless a code number is specially provided for repairs or servicing under the 'Minor Group' (for example, Repairing of bicycles and tricycles has been classified under 388, and Repairing and servicing of motor vehicles under 384).

Classification of Order Cards/Vacancies

6. The Industrial Classification Code appropriate to the economic activity of the employer who notifies the vacancy should be entered against the item 'I.Cl.' at the top right hand corner on the front page of the order card (X-2).

7. The following principles should be observed in deciding the industrial classification to be given to order cards :

- Industrial classification should be decided on the basis of local knowledge of the economic activity of the establishment concerned. In case of doubt, enquiries should be made directly from the firm or from the Factory Inspectorate, or any other authoritative source.
- The term 'establishment' means the whole of the premises under the same organisation or management at a particular address, for example, a factory, a mine, a firm, or a shop.
- The establishment should be classified under the code number which best describes the products made or the services provided by that establishment. Where a firm has, at the same address, two or more separate departments manufacturing different products, thereby justifying classification under two or more code numbers, the industrial classification to be allotted is the one which best describes the major activity of the firm in terms of employment.
- Ancillary departments within the establishment, e.g., a department engaged in carrying out repairs, or making containers for the firm's products, or warehousing, transporting, accounting,

selling etc. are to be regarded as a part of the firm and should be given the code number allotted to the establishment's principal activity. For example, a firm manufacturing medicinal products etc., is classified as "335". If that firm makes its own packages or distributes its own products by road, the activity of the department manufacturing the packages as well as the road transport department should be classified as "335".

8. The Industrial Classification Code with reference to vacancies notified, filled/cancelled and outstanding at Employment Exchanges should be the same as the classification number allotted to the order card.

Classification of Employers/Establishments

9. The Industrial Classification Code appropriate to the economic activity of employers included in the employers' register (on form EM-1) should be entered against the item 'I.Cl.' at the top right hand corner on the front page of EM-1 cards. The industrial classification code as entered on EM-1 should also be entered on the EM-returns received from the employer against the dotted portion of item 1 of the return which refers to the principal activity of the employer. In allotting the industrial classification code on EM-1 cards or on EM-returns received from employers, the same principles as laid down in para 7 above should be observed.

Classification of Persons Registering for work

10. In addition to the occupational Code number allotted to an applicant an industrial classification code number should also be recorded at the time of registration. The applicant should, therefore be carefully questioned to ascertain the industrial field of activity in which he was last engaged. An Industrial Classification Code Number of that activity should then be entered against item 'I.Cl.' at the top right hand corner on the front page of Index Card (X-1). In cases where an applicant is re-registered, care should be taken to review the Industrial Classification Code Number previously allotted.

11. The following principles should be observed in classifying applicants registering at Exchanges :—

- The applicant should be carefully questioned in order to ascertain the industrial activity in which he was last engaged. For this purpose the record of employment of the applicant should be completely obtained in chronological order in each case. The record of previous

employment will help to ascertain the industrial classification of the applicant. It is, therefore, essential that industrial classification should invariably be reviewed at the time of re-registration. In deciding the industrial classification, the applicant's oral statement may be relied upon and it should not be necessary to verify it by certificates or other documents. At the same time, the economic activity on the basis of which the industrial Classification Code has been given should be supported by details on the Index Card in the 'record of employment' column. The main aim of industrial classification should be to determine the economic activity which the registrant has just left or was last engaged in.

- An applicant who was in employment should be classified according to what his employer or he himself was making or doing. An applicant who has been working on his own account, i.e. self-employed and who is now seeking wage earning or salaried employment should be classified in accordance with the industry in which he was self-employed. For example, if a man who was working on his own account as a fisherman registers at an Employment Exchange, he should be allotted No. 03 (Fishing).
- A person who was engaged in more than one industry should be classified in the industry from which he derived the major part of his earnings. Where the person appears to be in receipt of equal income from two or more jobs, he should be classified under the Code Number of that industry to which he devotes the greater part of his time.
- Where the activity, in which the applicant has been engaged is not provided for in the Standard List, he should be classified under 900 (Activities not specified elsewhere). Any person who has clearly been identified as gainfully employed either as an employee or on his own account, but cannot provide sufficient information about his industrial affiliation, should also be given the same Code No. 900.
- Applicants who are new entrants to the labour market i.e. persons who have not so far worked for livelihood as either employees or on their own account

should be industrially classified as 999. This classification number should not be given merely because the applicant is a 'fresher' in the occupation for which he is registered. A 'fresher' who has been engaged in some economic activity (e.g. a 'fresher' clerk who has been a school teacher) should be given the Code number appropriate to his former means of livelihood.

(f) The economic activity of such persons as wiremen, carpenters and painters who are self-employed (engaged on jobwork) should be classified under the code number appropriate to the industry to which their activity can be assigned. For example, a wireman who was engaged in electric installations in buildings, etc. will be classified under 40 (Construction); a wireman who was engaged in repair of heavy electrical machinery will be classified under 374 (Manufacture of heavy electrical machinery and equipment such as motors, generators and transformers). There may be other persons who are casual workers, who change industry at quick intervals or there may be persons who fail to provide sufficient information about their industrial affiliations to enable them to be classified. Such persons should be classified under 900. These should, however, be few and far between. The Code number 900 should be used sparingly and only in case of activities that cannot be specified and included in one or another industry group.

(g) Code No. 804, 805 and 809 should be allotted if the economic activity concerned is only administrative in nature, and should not be allotted if a more specific code number can be used (see note against Division 8—Public Services). For example, a carpenter, who has worked in the public owned Sindri Fertilizer Factory will be classified under 332 (Manufacture of fertilisers) and not 805. Similarly, a teacher who has worked in a Government High School will be classified under 811 (Educational Services) and not 804 or 809.

12. It should be made quite clear to applicants at the time of registration that the allocation of an industrial code number will have no effect on their submission against suitable employment which will continue to be based on their occupational suitability.

Standard Industrial Classification

This classification groups the industries into 9 Divisions

45 Major Groups

343 Minor Groups

The divisions and major groups with their Code numbers are listed below.

DIVISIONS

10. It was stated earlier in this Note that the code structure adopted for the Census followed the Standard Industrial Classification and the National Classification of Occupations with the minimum of suitable modification. So far as the Standard Industrial Classification is concerned, this modification consists of the omission of Minor Groups 000, 001, 002, 003, 004 and 999, and addition, in respect of West Bengal only, of a new Minor Group 805 P. Minor Groups 000 to 004 relate to agricultural activities such as production of cereal crops, pulses, raw jute, raw cotton, and kindred fibre crops, oil seeds, sugarcane and other cash crops. These activities are covered by Categories I and II (Cultivators and Agricultural Labourers) of workers in the Census economic classification and are not therefore classified for Industry and Occupation separately like the activities in the non-agricultural sectors of the economy. Minor Group 999 in the Standard Industrial Classification stands for the fresh entrants to the labour market. In the Census, these persons were treated as Non-workers and, therefore, this Minor Group had to be excluded from the Census code structure. Minor Group 805 denotes public service in administrative departments and offices of quasi-Government organisation, municipalities, local boards, etc. It was felt in the case of West Bengal that persons employed by the Commissioners for the Port of Calcutta or working in connection with the affairs of the Port of Calcutta could not be readily classified if there were no provision for a separate code number for these types of workers. If they were given the Code Number 805 they would have become indistinguishable from workers in municipalities, local boards and other quasi-Government organisation. This was considered undesirable and it was decided to assign the number 805 P to the port workers in the Census code structure.

11. The Appendix to this Note gives a comparative statement of the 1961 Indian Standard Industrial Classification and the 1951 Indian Census Economic Classification.

12. Code Numbers for both Industrial and Occupational Classification are devised on what is known as the 'digit' system which is closely

related to international usage. For Industry the whole range of economic activity is divided into nine Divisions and the first digit of the industrial code number represents the Division under which that activity is classified, e.g. the number given to Division 'Trade and Commerce' is 6, that given to 'Construction' is 4. Each Division is then divided into a number of Major Groups. The first two digits of any industrial code number together represent the Division and the Major Group. Thus the number 64 represents Major Group 'Retail Trade' under Division 'Trade and Commerce'. Each Major Group is again subdivided into a number of Minor Groups. The Minor Group is represented by the third digit added to the Major Group code number. Thus Code Number 647 denotes 'Retail trading in animals'. Similarly, in the Occupational code structure the Occupational hierarchy is composed of Division (first digit), Group (second digit) and Family (third digit).

13. The sorting for the primary Industrial Classification of the population was done with reference to the principal work of a person. Where an answer was recorded in only one of the Qs. 8, 9, 10 and 11 of the Enumeration Slip, that work was the principal work. In cases where answers were recorded in more than one of these questions, the principal work had been indicated by the Enumerator by a bold ring around the number of the question. For the Census, principal work was taken to be the one on which the person spent the most time. In cases where answers were recorded in more than two of the questions secondary work also had to be indicated and this was done by the Enumerator by giving a mark of tick (✓) against the question number of that (secondary) work, on the left hand side of the question number.

14. Persons whose principal work was recorded in Q. 8, Q. 9 or Q. 10 were classified in 'Industrial Category I (Cultivators), II (Agricultural Labourers) or IV (Workers and Household Industry) respectively. For persons whose principal work was recorded in Q. 11, the classification was done with reference to the answer to Q. 11(b)—which was pre-coded with a three digit Industrial Code Number written on the right hand side of the

Slip. The Slip was classified with reference to the first digit of this number. A Slip, where the first digit Code Number was 0 or 1, was classified under Industrial Category III. A Slip with first digit Code Number 2 or 3 was placed in Category V, one with first digit Code Number 4 in Category VI. Where the first digit Code Number was 6 the corresponding Industrial Category was VII. For first digit Code Number 7 the appropriate Category was VIII. All other Slips, i.e. those beginning with Code Number 5, 8 or 9 were placed in Category IX.

15. The principal work of a person was taken into account for the Industrial Classification as well as Occupational Classification. The Occupational Classification was made with reference to the answer recorded against Q. 11(a) or 10(a), as the case might be, which was also pre-coded with a three digit Occupational Code Number written at the left hand side of the Slip.

16. Tables B-I to B-VI deal with principal work. Cross tabulation between specified principal

and secondary activities has been done in Table B-VII, Parts A and B. In 1951 there was a cross-tabulation of Self-supporting Persons and Earning Dependents with reference to Secondary Means of Livelihood (in Union Table B-II).

17. As already stated, the Economic Tables of the 1961 Census made a significant departure from the earlier Censuses in discarding the criterion of income and economic independence and laying emphasis on actual work as the basis for meaning the economy. The population was divided into two vast groups: (i) all who work, including family workers who do not receive any income, and (ii) all who do not work, including those like rentiers etc., who earn but do not work. Tables B-I to B-VII deal with the Workers while Tables B-VIII and B-IX relate to the Non-workers.

18. Each table presented in this volume is preceded by a Fly-leaf containing a brief Introductory Note.

101 Mining of iron ores	1-2 Iron ore mining
102 Mining of gold and silver ores	1-3 Metal mining except iron ore mining
103 Mining of manganese	
104 Mining of mica	1-6 Mica
105 Mining of other non-ferrous metallic ores	1-3 (Included in minor groups 102 & 103)
106 Mining of crude petroleum and natural gas	1-4 Crude Petroleum and Natural Gas
107 Quarrying of stone (including slate), clay, sand, gravel, limestone	1-5 Stone-quarrying, clay and sand pits
108 Mining of chemical earth such as soda ash	1-7 Salt, saltpetre and saline-substances
109 Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	1-0 Non-metallic mining and quarrying not otherwise classified—including mining and quarrying of such materials as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt, bitumen

INDUSTRIAL CATEGORIES IV AND V DIV. 2 AND 3

DIVISIONS 2 & 3—Manufacturing :	2-0 to 2-9, 3-0 to 3-8, 4-0 to 4-9
20 Foodstuffs :	2-0 to 2-3
200 Production of rice, atta, flour, etc. by milling, dehusking and processing of crops and foodgrains	2-1 Grains and pulses
201 Production of sugar and syrup from sugarcane in mills	2-3 Sugar Industries
202 Production of indigenous sugar, gur from sugarcane or palm juice and production of candy	
203 Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	2-0 Food Industries otherwise unclassified
204 Slaughtering, preservation of meat and fish and canning of fish	
205 Production of bread, biscuits, cake and other bakery products	2-1 (Included in minor group 200)
206 Production of butter, ghee, cheese and other dairy products	2-2 Vegetable oil and dairy products
207 Production of edible fats and oils (other than hydrogenated oil)	
208 Production of hydrogenated oils (Vanaspati)	
209 Production of other food products such as sweetmeat and condiment, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge	2-0 (Included in minor groups 203 & 204)

21 Beverages :	2-4
210 Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	2-4 Beverages
211 Production of country liquor	
212 Production of indigenous liquor such as toddy, liquor from mahua, palm juice	
213 Production of other liquors not covered above	
214 Production of aerated and mineral water	
215 Production of ice	
216 Production of ice cream	
217 Processing of tea in factories	
218 Processing of coffee in curing works	
219 Production of other beverages	
22 Tobacco Products :	2-5
220 Manufacture of bidi	2-5 Tobacco
221 Manufacture of cigars and cheroots	
222 Manufacture of cigarette and cigarette tobacco	
223 Manufacture of hookah tobacco	
224 Manufacture of snuff	
225 Manufacture of jerda and other chewing tobacco	
226 Manufacture of other tobacco products	
23 Textile—Cotton :	2-6
230 Cotton ginning, cleaning, pressing and baling	2-6 Cotton textiles
231 Cotton spinning (other than in mills)	
232 Cotton spinning and weaving in mills	
233 Cotton dyeing, bleaching	
234 Cotton weaving in power looms	
235 Cotton weaving in handlooms	
236 Manufacturing of khadi textile in handlooms	
237 Printing of cotton textile	
238 Manufacturing of cotton nets	2-7 (Included in minor groups 270 to 274)
239 Manufacturing of cotton, cordage, rope and twine

24 Textile—Jute :	2-81
240 Jute pressing and baling	2-81 Jute pressing, baling, spinning and weaving
241 Jute spinning and weaving	
242 Dyeing and bleaching of jute	
243 Printing of jute textile	
244 Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	
25 Textile—Wool :	2-82
250 Wool baling and pressing	2-82 Woollen spinning and weaving
251 Wool cleaning and processing (scouring)	
252 Wool spinning and weaving in mill	
253 Wool spinning other than in mills	
254 Wool weaving in power loom	
255 Wool weaving in handloom	
256 Embroidery and art work in woollen textile	
26 Textile—Silk :	2-83
260 Spinning and weaving of silk textile in mill	2-83 Silk reeling, spinning, twisting and weaving
261 Dyeing and bleaching of silk	
262 Spinning of silk other than in mills	
263 Weaving of silk textile by power loom	
264 Weaving of silk textile by handloom	
265 Printing of silk textile	
266 Manufacture of silk cordage, rope and twine	
27 Textile—Miscellaneous :	2-7, 2-80, 2-84 to 2-87
270 Manufacture of carpet and all other similar type of textile products	2-7 Wearing apparel (except footwear) and made-up textile garments
271 Manufacture of hosiery and other knitted fabrics and garments	
272 Embroidery and making of crepe lace and fringes	
273 Making of textile garments including raincoats and headgear	
274 Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags

275 Manufacture of waterproof textile products such as oil cloth, tarpaulin	2-80 All other (including insufficiently described) textile industries including artificial leather and cloth 2-84 Hemp and flax, spinning and weaving 2-85 Manufacture of rayon, weaving of rayon fabrics and production of staple fabric yarn 2-86 Manufacture of rope, twine, string and other related goods from coconut, aloes, straw, linseed and hair 2-87 Mat weaving
276 Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	
277 Manufacture of coir and coir products	
278 Manufacture of umbrellas	
279 Processing and manufacture of textile products not covered above	
28 Wood and Wood Products (Manufacture of):	4-6, 4-7
280 Sawing and planing of wood	4-6 (Included in minor groups 282 to 289)
281 Manufacture of wooden furniture and fixtures	4-7 Furniture and fixtures
282 Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	4-6 Wood and wood products other than furniture and fixtures
283 Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	
284 Manufacture of other wooden products such as utensils, toys artwares	
285 Manufacture of veneer and plywood	
286 Manufacture of plywood products such as tea chest	
287 Manufacture of boxes and packing cases other than plywood	
288 Manufacture of materials from cork, bamboo, cane, leaves and other allied products	
289 Manufacture of other wood and allied products not covered above	
29 Paper and Paper Products:	4-8
290 Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	4-8 Paper and paper products
291 Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	
292 Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	
30 Printing and Publishing:	4-9
300 Printing and publishing of newspapers and periodicals	4-9 Printing and Allied Industries
301 Printing and publishing of books	
302 All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	
303 All types of binding, stitching, sizing and other allied work connected with binding industry

34-35 <i>Non-metallic Mineral Products other than Petroleum and Coal :</i>	4·2, 4·3, 4·4
34 340 Manufacture of structural clay products such as bricks, tiles	4·2 Bricks, tiles and other structural clay products—Structural clay products such as bricks, tiles etc.
341 Manufacture of cement and cement products	4·3 Cement—Cement pipes and other cement products—Manufacture of cement, cement pipes and cement concrete products
342 Manufacture of lime	
343 Manufacture of structural stone goods, stone dressing and stone crushing	
344 Manufacture of stonewares, other than images	
345 Manufacture of stone images	
346 Manufacture of plaster of paris and its products	
347 Manufacture of asbestos products	
348 Manufacture of mica products	
35 350 Manufacture of earthenware and earthen pottery	
351 Manufacture of chinaware and crockery	4·4 Non-metallic mineral products
352 Manufacture of porcelain and its products	
353 Manufacture of glass bangles and beads	
354 Manufacture of glass apparatus	
355 Manufacture of earthen image, busts and statues	
356 Manufacture of earthen toys and artwares except those covered by code No. 355	
357 Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	
359 Manufacture of other non-metallic mineral products not elsewhere specified	
36 <i>Basic Metals and their Products except Machinery and Transport Equipment :</i>	3·0 to 3·2
360 Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	3·1 Iron and Steel (Basic Manufacture)—Manufacture of iron and steel, including all processes such as smelting and refining; rolling and drawing; and alloying and the manufacture of castings, forgings and other basic forms of ferrous metals
361 Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	3·2 Non-ferrous Metals (Basic Manufacture)—Smelting and refining, rolling, drawing and alloying and the manufacture of castings, forgings and other basic form of non-ferrous metals
362 Manufacture of armaments	3·0 (Included in minor groups 365 to 369)
363 Manufacture of structural steel products such as joist, rail, sheet, plate	3·1 (Included in minor group 360)
364 Manufacture of iron and steel furniture	4·7 (Included in minor group 281)

**WORKERS AND NON-WORKERS CLASSIFIED
BY SEX AND BROAD AGE-GROUPS**

TABLE B-I—WORKERS AND NON-WORKERS CLASSIFIED BY SEX AND BROAD AGE-GROUPS

This is the basic economic table of the 1961 Census. It shows the grouping of the Total Population into the nine Industrial Categories of Workers, and Non-workers, with sex break-up under each category, as in the Primary Census Abstracts (printed in Part II-A General Population Tables Volume), and also divides the population under each category into the following broad Age-groups : 0-14, 15-34, 35-59, 60+ and Age not stated. It presents figures for the State, its administrative divisions and districts. Under each unit Total, Rural and Urban Population have been shown separately.

1.1. The nine Industrial Categories of Workers are those engaged :

- I—As Cultivator ;
- II—As Agricultural Labourer ;
- III—In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities ;
- IV—At Household Industry ;
- V—In Manufacturing other than Household Industry ;
- VI—In Construction ;

- VII—In Trade and Commerce ;
- VIII—In Transport, Storage and Communications; and
- IX—In Other Services.

1.2. Non-workers have been treated as the tenth category.

2. Classification of Workers and Non-workers by age-groups is a special feature of the 1961 Census. In 1951 the tabulation covered distribution of the population by eight Livelihood Classes. There was a cross-tabulation (in Table C-II) of these classes by age-groups for the Sample Population only. In 1961 the data on the economic activity of a person were classified separately according to the returns for Industry and Occupation. The present table deals with the Industrial Classification only. It is based on the principal work of a person. The principal work of a person was taken to be the one on which he spent the most time.

3. A comparative Statement of Workers and Non-workers of 1901 to 1951 according to 1961 Broad Industrial Categories has been given in the Annexure to the table.

GROUPS AND TOWNS ARRANGED TERRITORIALY

TABLE B-II—WORKERS AND NON-WORKERS IN CITIES, TOWN-GROUPS AND TOWNS ARRANGED TERRITORIALLY CLASSIFIED BY SEX AND BROAD AGE-GROUPS

This table presents the economic data furnished in Table B-I, including the distribution by broad Age-groups of the population, for the urban parts of the State, its administrative divisions and districts and also for the individual cities, town-groups and towns, arranged territorially under each district.

2. For the purpose of the 1961 Census, every municipal town, cantonment, or every town the civic affairs of which are administered by a Town Committee, a Union Committee, or a Station Committee was treated as a town regardless of all other consideration. For classifying other areas as towns it was stipulated that (i) the total population of such an area should not be less than 5,000, (ii) the population per square mile should be at least 1,000, and (iii) 75 per cent of the adult male population should be engaged in pursuits other than agriculture.

3. Grouping of certain contiguous or adjacent urban units as 'town-groups' is a special feature of the 1961 Census. A town-group is a group of towns which are situated in close proximity to each other and are assumed, on the ground of their geographical proximity, to be economically interdependent to some extent. In the absence of any information regarding place of work of the workers it has not been possible to establish definite economic linkage between the constituent units of a town-group, but by such grouping attention has been focused on the desirability of merging the components of a town-group into a larger or more economically viable unit. No finality is claimed for such grouping, and should the Depart-

ment of Local Self-Government consider it necessary to establish bigger towns in place of the smaller ones, they could, of course, proceed on principles they might think most suitable. In this table data have been produced for a town-group as a whole as well as for each constituent town within the town-group. Separate figures have been given for Baly (N. M.) and Outer Burnpur (N. M.) although for purposes of the Census tables they have been treated as parts of the Baly and Burnpur Towns respectively. Individual figures for each of the four component units of the Kharagpur Town have also been shown.

4. The following abbreviations have been used in the Table to indicate the status of a town :—

- M. C. for Municipal Corporation.
- M. for Municipal Town.
- N. M. for Non-municipal Town.
- T. C. for Town Committee.
- U. C. for Union Committee.
- S. C. for Station Committee.
- Cantt. for Cantonment.

5. Towns treated as such for the first time in 1951 Census which continue as towns in 1961 Census are shown with asterisk (*) on their left. Towns treated as such for the first time in 1961 are printed in italics.

6. The classification of Workers by Industrial Categories has been done on the basis of principal work, as in Table B-I.

B-III

**INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS
BY EDUCATIONAL LEVELS**

PART A

IN URBAN AREAS ONLY

PART B

IN RURAL AREAS ONLY

TABLE B-III—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS
BY EDUCATIONAL LEVELS

This table recalls Union Table D-VII of 1951 which classified the entire literate and educated population into Educational Standards and into eight Livelihood Classes. This time the table is prepared in two parts, the first part relates to Urban areas and the second to Rural areas. In both the parts each of the nine Categories of Workers and also the Non-workers are cross-tabulated by Literacy and Educational Levels. For Urban areas the Levels of Literacy and Education are :

- Illiterate
- Literate (without educational level)
- Primary or Junior Basic
- Matriculation or Higher Secondary
- Technical Diploma not equal to Degree
- Non-technical Diploma not equal to Degree
- University Degree or Post-Graduate Degree other than Technical Degree
- Technical Degree or Diploma equal to Degree or Post-Graduate Degree :
- Engineering
- Medicine
- Agriculture
- Veterinary and Dairying
- Technology
- Teaching
- Others

2. In the rural part of the table the classification is confined to only the following Levels of Literacy and Education :

- Illiterate
- Literate (without educational level)
- Primary or Junior Basic
- Matriculation and above

3. At the 1961 Census a person who could neither read nor write or could merely read but could not write in any language was considered to be Illiterate. A Literate person was one who could both read and write. The following instruction was issued to the Enumerators on this subject :

“The test for reading is ability to read any simple letter either in print or in manuscript *i.e.*, if the person can read one of the examples in the Enumerator’s Handbook with felicity he may be taken to have passed the test of reading. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can with understanding both read and write”.

4. The category “Literate (without educational level)” stands for those persons who can both read and write but have not passed a written examination at least of the Primary or Junior Basic Standard.

5. This table reveals the Levels of Education prevailing among the Workers of the nine Industrial Categories and the Non-workers and at the same time throws light on the manner of utilization of educated man-power.

TABLE B-III PART A—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS
BY EDUCATIONAL LEVELS IN URBAN AREAS ONLY

This part of the table relates to the Urban Population only. It classifies the population into the nine Industrial Categories of Workers and also Non-workers. The Workers at each category and Non-workers are further tabulated by Literacy and Educational Levels. The Levels of Literacy and Education are :

- Illiterate
- Literate (without educational level)
- Primary or Junior Basic
- Matriculation or Higher Secondary
- Technical Diploma not equal to Degree
- Non-technical Diploma not equal to Degree
- University Degree or Post-Graduate Degree other than Technical Degree
- Technical Degree or Diploma equal to Degree or Post-Graduate Degree :
- Engineering
- Medicine
- Agriculture
- Veterinary and Dairying
- Technology
- Teaching
- Others

2. The Census concept of Literacy has been explained in the main Fly-leaf to Table B-III.

3. It is important to note here that of the Levels of Education mentioned above, the seven last named, i.e., Engineering, Medicine, Agriculture, Veterinary and Dairying, Technology, Teaching and Others are only the sub-classes under the level "Technical Degree or Diploma equal to Degree or Post-Graduate Degree". The returns under the sub-class "Others" in the districts of Darjeeling and Jalpaiguri are found to be rather out of proportion when related to the total returns under the main level "Technical Degree or Diploma equal to Degree or Post-Graduate Degree".

The percentage of "Others" to "Technical Degree or Diploma equal to Degree or Post-Graduate Degree" in cases of these two districts are 18.44 and 13.41 respectively, against the State percentage of 4.70 only. The high figures in case of these two districts under "Others" may be due to incomplete returns in the Enumeration Slips or inadequate knowledge on the part of the Sorters who did the classification at the Tabulation Office.

4. It will be seen that the returns under the sub-class "Teaching" in this table have been quite low in comparison with the number of teachers returned in the urban areas of the State and tabulated in Table B-V. This should not be deemed disconcerting as it is a matter of common knowledge that a vast majority of the teachers does not possess a degree or diploma in Teaching. It is also possible that some of the Individual Slips might not have recorded the Educational level as B.T., M.Ed. only, but these degrees might have been returned in conjunction with other general qualifications, such as M.A., M.Sc., etc. with the result that the Sorter sorted these slips for M.A., M.Sc. etc. instead of B.T. or M.Ed. which should have been the proper course. It should, however, be noted that comparison between Tables B-III Part A and B-V serves but a limited purpose. It cannot be expected that all persons with a degree or diploma in a specific branch of science or technology are employed in the corresponding occupation, nor can it be said that all persons engaged in a particular technical pursuit possess a degree or diploma in that subject.

5. This part of the table will reveal that in the district of Malda there is not a single person with a degree or diploma in Technology. Although it cannot be said definitely whether this is a case of error in tabulation, it will not be out of place to mention here that Malda being a non-industrial district the position should not be taken to reflect an abnormal state of affairs.

TABLE B-IV—INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK OTHER THAN CULTIVATION

This table is presented in three parts. Part A deals with Household Industry. It shows separately for Total, Rural and Urban Population—the number of persons of each sex engaged in the different Divisions and Major Groups of the industry. For a description of the Divisions and Major Groups of industry attention is invited to the Prefatory Note printed at the beginning of this volume. The Workers within each Division and Major Group are further classified according to status of employment, *i.e.*, those working as employees, and others. The question asked in the Individual Slip was whether the person working at a Household Industry was an employee or not. Obviously there was no question of any one being returned as an Employer in a Household Industry, because the industry belonged to a household, not to a particular person. 'Employees' therefore, are Workers who are hired from outside the household which owns the industry, and 'others' include those Workers who belong to the household.

2. For the purpose of the 1961 Census a uniform definition of Household Industry was followed throughout India. A Household Industry was defined as an industry conducted by the Head of the Household himself and/or mainly members of the household at home or within the village in Rural areas and only at home in Urban areas. The industry should not be run on the scale of a registered factory. It should relate to production, processing, servicing, repairing or making and selling of goods. It should not include professions such as those of pleaders, doctors, barbers, watermen or astrologers.

3. Threefold tests for determining the household nature of an industry, as prescribed by the Registrar General, were :

- (a) Household Industry should embrace manufacture, processing or servicing and may include sale but should not be confined simply to buying and selling. At least part of the goods offered for sale from the household should be manufactured or processed by members of the household.
- (b) Household Industry should be on the household scale where the workers mainly will be the Head of the household himself and members of the household, the role of hired workers from outside being of secondary

importance. Thus, in any Household Industry, members of the household should be in a position to lend a hand in the industry whenever they find the time in the course of their daily chores. Household Industry cannot, therefore, be on the scale of a registered factory but can use machinery and employ power like steam engine or oil engine or electricity to drive the machinery.

- (c) Location also is important, for proximity decides participation by members of the household. In a village this participation is possible if the Household Industry is located at home or within the village, because village organisation is such as makes it possible for members of the household to move about freely in the village to look after their work. In urban areas such a free movement is not possible and, therefore, for Household Industry in urban areas we should consider only those industries which are located at home. Where, however, part of the work is done outside the house, *e.g.*, preparing and dyeing the yarn for weaving or winding into warp and wool or cleaning metal surfaces before electroplating in baths, it should still be considered a Household Industry, even in urban areas, as the main operation of weaving or of electroplating is conducted within the house and only one or two operations are conducted outside.

4. The following activities were also regarded as illustrative of Household Industry. Biri-makers who either alone or with help of members of the family roll biris at home, for wages at piece rates, while the contractor supplies raw materials. Certain processes like buttoning and hand sewing of tailored cloths; dyeing and printing of cloth, are carried out at home by members of the household both at residence and at 'place of work' or where womenfolk of the household fill in at home with lac gold ornaments prepared at the shop by male members of the household.

5. A "List of Common Household Industries with their Industrial Code Number" was circulated by the office of the Registrar General. According to this list, Household Industry could

include some of the activities ancillary to agriculture such as rearing of cattle and other animals for milk and other purposes, production of wool, production of charcoal, poultry keeping etc. These activities are generally covered by Industrial Category III—Mining, Quarrying, Livestock etc., but are included in Category IV—Household Industry if undertaken at Household level.

6. Part B of the table relates to Non-household Industry, Trade, Business, Profession or Service, in other words, to Workers under Industrial Categories III, V, VI, VII, VIII and IX. Industrial activities have been classified, as in Part A of the table, between Divisions and Major Groups of the Standard Industrial Classifications. Figures have been shown for the Total and Urban Population. Data for Rural areas can be worked out after subtracting 'urban' figures from 'total'. The Workers at each Division and Major Group are further classified, by Sex, into four different status of employment viz., Employer, Employee, Single Worker and Family Worker.

7. An Employer is a person who has to employ other persons in order to perform his work. That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business which is returned as his own industrial activity. But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an Employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

8. An Employee is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and have not been regarded as employers.

9. A Single Worker is a person who works by himself but not as Head of household in a Household Industry. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household, except casually. This definition of a Single Worker includes a person who works in joint partnership with one or several persons hiring no employees, and also members of a producers' cooperative. Each one of the part-

ners or members of such producers' cooperatives has been recorded as Single Worker.

10. A Family Worker is a person who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of his family and ordinarily does at least one hour of work every day during the working season. Such an industry, for the purpose of this part of the table, is on a scale larger than what has been covered in 'Household Industry' whether run at home or away from home in town or village and even away from village in rural area and is ordinarily in the nature of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The Family Worker may not be entitled to a share of profits in the work of the business carried on either by the person or head of the household or other relative. Members of the household who help solely in household duties have not been treated as Family Workers.

11. Part C of the table brings under one compass all economic activities other than Cultivation and Agricultural Labour. Apart from combining the Divisions and Major Groups shown separately in the first two parts of the table, it classifies each Major Group into different Minor Groups (three digit codes) of industry according to the Standard Industrial Classification. Against each Division, Major Group and Minor Group, Workers have been classified by Sex into two broad sectors : (i) Workers at Household Industry and (ii) Workers at Non-household Industry, Trade, Business, Profession or Service.

12. Figures are shown for Total and Urban Population. Data for Rural Population can be worked out by subtracting 'urban' figures from 'total'.

13. For economy of space, Minor Groups having less than 1 per cent of Workers of the respective Division (less than 0.5 per cent in case of Minor Groups of Division 2 & 3) have not been shown in the main table. They have been shown in an Appendix to the table. Divisions thus affected have been marked with an asterisk (*) in the main table.

14. It is necessary to state here that Minor Groups 000 to 004 of the Standard Industrial Classification are excluded from this table. These Minor Groups denote agricultural acti-

vities such as production of cereal crops, pulses, raw jute, raw cotton and kindred fibre crops, oilseeds, sugarcane and other cash crops and are therefore covered by Industrial Categories I and II of Workers which are outside the scope of this table. Minor Group 999 of the Standard Industrial Classification which relates to 'fresh entrants to the Labour Market' is also excluded from this table, because such persons were not treated as Workers for purposes of the Census. Minor Group 805P in the table for West Bengal stands for public service in administrative depart-

ments and offices of the Port authorities of Calcutta.

15. Table B-IV of 1961 recalls Union and State Table B-III of 1951. Union Table B-III of 1951 classified self-supporting persons as Employers, Employees and Independent Workers in Industries and Services by Divisions and Subdivisions of the Indian Census Economic Classification. In State Table B-III the Livelihood Classes V to VIII were split up into Livelihood Divisions, Subdivisions and Groups.

TABLE B-IV PART A—INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER
OF PERSONS AT WORK AT HOUSEHOLD INDUSTRY

This part of the table deals with Wokers at Household Industry only. It shows—separate-ly for Total, Rural and Urban Popuation—the number of persons of each sex engaged in the different Divisions and the Major Groups of the industry. The Workers within each Divi-sion and Major Group are further classified

according to status of employment, *i.e.*, those working as employees and others.

2. Conceptual and procedural matters connec-ted with this part of the table have been explained in the main Fly-leaf to Table B-IV.

TABLE B-IV PART B --INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER
OF PERSONS AT WORK IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS,
PROFESSION OR SERVICE

This part of the table relates to Non-household Industry, Trade, Business, Profession or Service, in other words, to Workers under Industrial Categories III, V, VI, VII, VIII and IX only. Industrial activities have been classified, as in Part A of the table, between Divisions and Major Groups of the Standard Industrial Classification. Figures have been shown for Total and Urban Population. Data for Rural Population

can be obtained by deducting 'urban' figures from 'total'. The Workers at each Division and Major Group are further classified, by Sex, into four different status of employment, viz., Employer, Employee, Single Worker and Family Worker.

2. For an explanation of the procedural and conceptual matters reference is invited to the main Fly-leaf to Table B-IV.

TABLE B-IV PART C—INDUSTRIAL CLASSIFICATION BY SEX AND DIVISIONS, MAJOR GROUPS AND MINOR GROUPS OF PERSONS AT WORK OTHER THAN CULTIVATION

Part A and Part B of Table B-IV deal with classification of Household and Non-household Industries respectively. Part C of the table brings under one compass all economic activities other than Cultivation and Agricultural Labour. Apart from combining the Divisions and Major Groups shown separately in the first two parts of the table, this part classifies each Major Group into different Minor Groups (three digit codes) of industry according to the Standard Industrial Classification, subject to exclusion of a few Minor Groups, as explained in the main Fly -leaf to

Table B-IV. Figures are shown for Total and Urban Population. Data for Rural Population can be worked out by deducting 'urban' figures from 'total'.

2. For economy of space, Minor Groups having less than 1 per cent of Workers of the respective Division (less than 0.5 per cent in case of Minor Groups of Division 2 & 3) have not been shown in this table. They have been shown in an Appendix to this table. Divisions thus affected are marked with an asterisk (*).

APPENDIX TO TABLE B-IV PART C

Minor Groups having less than 1 per cent of Workers of the respective Division (less than 0.5 per cent in case of Minor Groups of Division 2 & 3) have not been shown in Table B-IV Part C for economy in space. These Minor Groups, except those with nil entries, have been shown in this appendix in run-on lines.

2. The following abbreviations have been used :
- HI=Household Industry
 - NHI=Non-household Industry
 - M=Males
 - F=Females
