ACKNOWLEDGEMENTS

I am deeply indebted to Shri Asok Mitra, I.C.S., Registrar General and Census Commissioner, India, who initiated the project for the special study of migration to Greater Bombay and guided and encouraged us in all the stages of work including the publication of this volume.

We are grateful to Dr. C. Chandrasekharan, Dr. K. C. Zachariah and Dr. Pravin Visaria, Dr. Shigemi Kono from Japan for their valuable suggestions regarding the scope of the study and the formats of these tables.

We are also thankful to Shri K. D. Ballal, Central Tabulation Officer, New Delhi, who got the special tables and notes checked in his office and made useful suggestions for improvement.

In the Maharashtra Census Office, Sarvashri D. V. Rangnekar, Deputy Superintendent of Census Operations, R. D. Tipnis and A. W. Mahatme, Tabulation Officers, rendered valuable assistance in compilation of the tables and notes. Sarvashri K. H. Shevade, C. M. Kane and V. G. Surve looked after the printing.

Our thanks are also due to Shri S. R. Desai, Manager, Government Press and Book Depot, Nagpur, for the expeditious and excellent printing of the volume.

POONA :

The 24th December 1965

B. A. KULKARNI

INTRODUCTION

This Part of the Census Report presents ten Special tables on migrants to Greater Bombay. Three of these tables (I, II and VI) present material for total migrants (workers and non-workers) showing their distribution according to religion, age and marital status, respectively, cross-classified by State of origin and economic categories in Table I, by State of origin and duration of residence in Table II and by duration of residence in Table VI. Distribution of migrant workers by nine broad economic activities is shown in Table I and their further distribution by industry according to the Standard Industrial Classification Scheme (reproduced as Appendix I at page 9), cross-classified by place of origin, age, class of worker and duration of residence, is shown in Tables IV, VII and IX and by occupations according to the National Classification of Occupations Scheme (reproduced as Appendix II at page 10), cross-classified by place of origin, age, educational levels and duration of residence at the place of enumeration, is shown in Tables V, VIII and X.

2. In all the tables except Table I, the data regarding distribution of migrants are cross-classified by 'Duration of residence'.

3. None of the tables presented in this volume gives break-up for Wards or Sections of Greater Bombay. A note is added at the beginning of each table to explain its layout, method of presentation, concepts, definitions and limitations of material presented. These notes do not contain any analysis or review of the material presented in the tables which will be found in Part X (1-A) of the Maharashtra Census Report. This Introductory Note describes the questionnaire, instructions and procedure adopted for collection of material and preparation of Special tables for the 1961 Census.

4. The 1961 Census was conducted between the 10th and 28th February 1961. The enumerators called on each household in their assigned areas and filled in Census Forms by interviewing one or more responsible members of the household. They revisited all the households between 1st and 5th March, and corrected their forms for changes occurring between their first visit and the Census reference date, *viz.*, Sunrise of 1st March, 1961. These corrections were, however, restricted to changes due to deaths or new births. No corrections were made for the change of any person's economic activity during the intervening period.

5. In all the Population Censuses from 1881 a Question on 'Birth place' was asked to provide information regarding movement of population. Till 1961, the nature of question regarding 'Birth place' continued to be more or less the same. The enumerators were asked to record the name of the district where the respondent was born and to add the name of the province in case he was born outside the province of enumeration. In the case of persons born outside India, the name of the country was recorded.

6. The question on 'Migration' asked at the 1961 Census and the instructions issued for recording answers thereto are reproduced below :—

Q. 4 (*a*)—*Birth place*

1. If born in village or town in which enumerated.	Write	PL
2. If born in another village or town of district in which enumerated.	Write	D
3. If born in another district in the State of enumeration.	Write name of district.	
4. If born in another State in India	Write name of district and State if name of district is known; otherwise write name of State.	
5. If born in a country outside India, *e.g.*, Pakistan or any other country.	Write name of country.	
6. Persons born at sea or in air or in railway carriages or on road transport, *e.g.*, buses, etc., should be entered as such.		

Q. 4 (*b*)—*Whether born in Village or Town*

1. If born in a village	Write	R
2. If born in a town which is considered a town at the present time even if it was not so considered at the time of birth.	Write	U
3. If the person enumerated is not in a position to say whether the place of birth is a village or town.	Write the name of the place of birth as returned by him.	

Q. 4 (*c*)—*Duration of Residence*

1. For a person born in village or town or city in which enumerated.	Write	X
2. For a person born in another village or town or city of district of enumeration or who was not born in the district of enumeration.	Write the number of completed years he has been in the village/town/city of enumeration. (Do not take into account periods of temporary absence on leave or business.)	
3. If the duration of residence is less than one year.	Write	0
If the duration of residence is one year or over.	Write the actual number of completed years of residence.	

7. Thus, at the 1961 Census, the scope of the question on 'Migration' had been widened to include, besides the location of the birth place, information on—(i) Classification of birth place as rural or urban, and (ii) Duration of stay at the place of enumeration in the case of those born outside the place of enumeration.

8. The Migration Tables included in the general tabulation programme and presented in Part II-C (ii) of the Maharashtra Census Report show classification of the population by States or Countries of origin, with break-up for rural/urban classification of birth places, sex and duration of residence at the place of enumeration (Tables D-II and D-III). In another Table (D-VI), classification into nine broad industrial categories of workers and one of non-workers is also shown. These data are presented for the State, its four administrative divisions and twenty-six districts, with rural/urban break-up.

9. Urbanisation is an important characteristic linked with economic development which deserves detailed study. Data collected at the Census in regard to migrants to towns provide a good basis for this study. It is, however, the cities with a population of 100,000 or over, which attract the largest number of migrants and are, thus, important for further detailed study. In the main Table D-VI, data are presented separately for each City also, in addition to districts and larger units. Two other special tables for cities have also been included in the general tabulation programme. One of them (Table D-IV) shows classification of migrants to cities by workers and non-workers and in case of workers by occupational groups, cross-classified by sex, broad age-groups and educational levels. The other Table (D-V) shows classification for each sex of persons born locally and those migrating from rural areas and other towns and cities, with separate figures for persons resident for less than three years and those resident for three years and more.

10. All these tables are published in Part II-C-(ii) of the Maharashtra Census Report and those relating to cities, *viz.*, D-IV, D-V and D-VI, are also reproduced in the Reports on Cities.

11. The data provided by the abovementioned main tables may not be adequate if a detailed study were to be attempted of trends of migration into a large and highly industrialised city like Greater Bombay, where 64·24 per cent of its population consists of immigrants and which continues to attract large numbers every year not only from other districts of Maharashtra, but also from most of the States of the Indian Union.

12. We felt that such a detailed analysis of material on migration to Greater Bombay would be extremely useful, firstly because of the rapidly growing population and importance of Bombay and secondly because such an exhaustive analysis of trends of migration had not been attempted so far for any city of India.

13. It was therefore decided in consultation with the Registrar General, India, to process the material further for additional tabulations and to obtain five or six way cross-classifications of the social and economic characteristics of the immigrant population presented in this volume.

14. The Registrar General's office drew up a list of special migration tables to be prepared for major cities, including Greater Bombay, and sent instructions for sorting of slips and compilation of posting statements.

15. For limitations of time and costs of tabulations we subsequently had to make a few minor variations in the groupings and formats of the special tables prescribed by the Registrar General for uniform presentation of material of all major cities in India. The basic scheme of cross-classification is however the same as prescribed by the Registrar General and the material presented in this volume is comparable with similar material about to be published under the Registrar General's plan for other large cities in India.

16. In the preparation of Special Migration Tables, emphasis has been on classifying the economic characteristics of the migrant population in as great a detail as possible. The economic data relating to industrial or occupational classification and employment status, when cross-tabulated by characteristics like age, education and duration of residence in the city, provide useful information for a study of the 'pull' factors for migration. Important information can also be obtained on the pattern of social mobility, which is a necessary concomitant of internal migration.

17. Classification by important districts of Maharashtra and by other States of origin furnishes useful data bearing on the attraction of Greater Bombay for people from the various districts of Maharashtra and the various States. Classification by religion is also presented in Table I, which will reveal the pattern of mobility of the various religious communities.

18. Classification by duration of residence, age and marital status provides data which would be useful in finding out whether there has been any shift in the pattern of migration in favour of greater amount of family movement as against the single person movement. This information would be of considerable sociological interest and could also help study of the housing problems that might arise with variations in the pattern of migration.

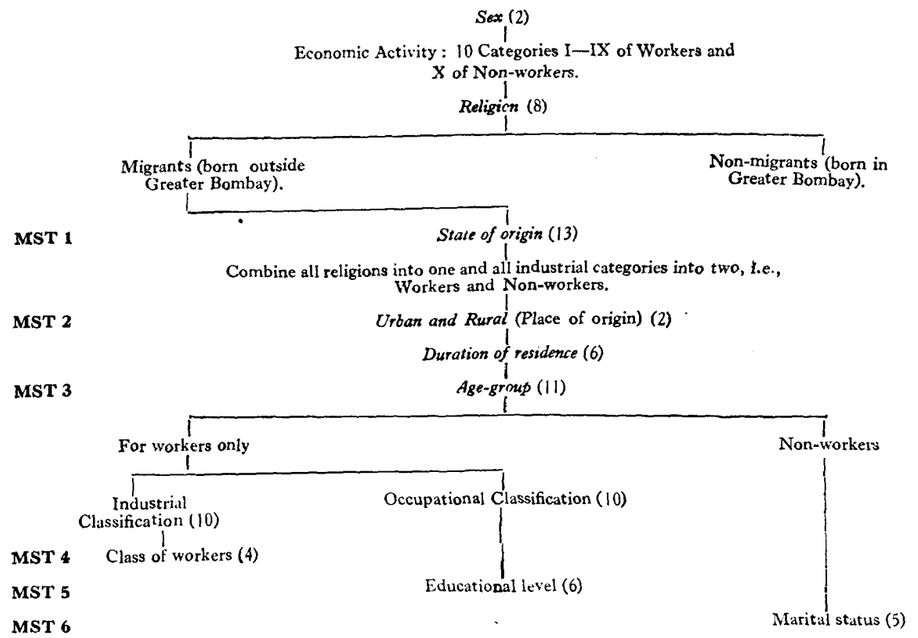
Process of Sorting Operations

19. The special migration tables programme envisaged sorting and cross-tabulation of the characteristics shown in the next column.

(1) State of origin ; (2) Rural/Urban nature of birth place ; (3) Duration of residence ; (4) Sex ; (5) Age ; (6) Marital status ; (7) Occupation ; (8) Industry ; (9) Class of worker ; (10) Non-workers ; (11) Educational level; and (12) Religion.

The process of sorting operations thus, posed a complex problem mainly because of the large number of slips to be handled and as many as 12 variables that were to be cross-tabulated with each other.

20. The following chart will indicate the various stages of sorting operations undertaken for preparation of the special migration tables. Greater Bombay slips left over after completion of Sorter Ticket 29 of the Main Tabulation programme consisted of 160 groups, *viz.*, Sex (2) × Categories of workers and non-workers (10) × Religions (8). The six sorter tickets prepared were as shown below :—



21. Of the six sorter tickets prepared during sorting operations, ticket two was an intermediate step for ticket three and was not used for preparation of any table. The tables prepared from other tickets are as shown in the next column.

MST 1 : Special Migration Table I.
MST 3 : Special Migration Table II.
MST 4 : Special Migration Tables IV, VII and IX.
MST 5 : Special Migration Tables III, V, VIII and X.
MST 6 : Special Migration Table VI.

A-767-2-A—(G. B).

22. The following chart shows cross-classification of the in-migrants to Greater Bombay used in Special Migration Tables I to X.

TABLES		
No. I ..	State of origin ×	(*For all Migrants*) I—X categories of workers and non-workers × Religion × Sex.
No. II ..	Duration of residence × State of origin ×	(*For all Migrants*) Rural/Urban × Workers/Non-workers × Age-groups × Sex
No. III ..	Duration of residence × State of origin ×	(*For Migrant workers only*) Rural/Urban × Educational level × Sex
No. IV ..	Duration of residence × State of origin ×	(*For Migrant workers only*) Rural/Urban × Industrial Divisions × Sex
No. V ..	Duration of residence × State of origin ×	(*For Migrant workers only*) Rural/Urban × Occupational Divisions × Age-groups × Sex
No. VI ..	Duration of residence × Rural/Urban ×	(*For all Migrants*) Workers/Non-workers × Age-groups × Marital status × Sex
No. VII ..	Duration of residence × Rural/Urban ×	(*For Migrant workers only*) Industrial Divisions × Age-groups × Sex
No. VIII ..	Duration of residence × Rural/Urban ×	(*For Migrant workers only*) Occupational Divisions × Age-groups × Educational level × Sex
No. IX ..	Duration of residence × Rural/Urban ×	(*For Migrant workers only*) Industrial Divisions × Class of workers × Sex
No. X ..	Duration of residence × Rural/Urban ×	(*For Migrant workers only*) Occupational Divisions and Groups × Sex

23. According to the original tabulation programme, the material in the first two tables was to be presented for Greater Bombay, its four zones and 88 sections and the remaining tables were to be presented for each zone and Greater Bombay. On account of unmanageable workload, the tables had to be ultimately presented for Greater Bombay alone. Further, the original plan of presenting classification of migrant workers by Standard Industrial Classification Scheme up to major groups (2 digit) was curtailed and the classification has now been presented only by industrial divisions.

Concepts, Definitions and Limitations

24. The various economic and other concepts used in these special migration tables have the same connotation as in the main Census tables. These are described briefly in the following paragraphs.

25. A 'migrant' is generally defined as a person who has moved from his home village or town, which is normally his place of birth. In the Census, a person not found at his normal place of residence was enumerated at the place where he was found during the enumeration period, *viz.*, 10th to 28th February 1961, if he was at that place throughout this period. He was, however, enumerated at his normal place of residence if his absence from that place was not for the entire period of enumeration, but only for a part of it. For Census purposes a 'migrant' has been defined as a person who has been enumerated at a place different from the one where he was born. Thus, classification of a person as a 'migrant' is with reference to his place of enumeration, and not with reference to his normal place of residence or work, if these places are not one and the same in his case.

A-767-2-B—(G. B).

26. A person who has been residing at the place of enumeration since childhood, but who was born at a different place, is a 'migrant' according to the Census definition. So also is a person born and normally residing elsewhere, who happened to be at the place of enumeration during the period of Census Operations, *viz.*, from the 10th to 28th February, 1961. But commuters who reside at their places of birth and travel daily to other places for work are not treated as 'migrants'. Examples of the latter type are persons born and residing in places like Thana, Kalyan and Karjat, who travel daily to Bombay for work.

Rural and Urban

27. Urban areas or towns are places which either have municipalities or cantonments or have been treated as towns because they have—

(*a*) population of 5,000 or more ; and

(*b*) 75 per cent or more of male workers engaged principally in non-agricultural pursuits, i.e., devoting most time to such pursuits.

An additional criterion of 'urban' density not being less than 1,000 per square mile, applied in some other States, was not applied in Maharashtra.

All places which are not urban according to the above definition are rural.

Economic Classification

28. The migrant workers are shown classified by nine broad industrial categories and also by industry and occupation according to the Standard Industrial Classification Scheme and the National Classification of Occupations Scheme, respectively.

29. The 1961 Census scheme of economic classification is altogether different from that used in the 1951 or the earlier Censuses. In those former Censuses, income or economic independence was made a criterion for measuring the economy of the country. Economically independent and economically dependent persons had been classified separately. They were called earners and dependants. An intermediate category of economic semi-dependence was introduced in 1931, and continued in 1941 and 1951. They were called working dependants in 1931, partly dependants in 1941 and earning dependants in 1951.

30. In practice, however, this intermediate category did not seem to have worked well. It was felt that the strict application of the criterion of economic independence suppressed those who worked in family economic activities but did not actually earn an income.

31. The 1961 Census, therefore, laid stress on work, so that all people who worked (including family workers, who were not in receipt of any income, or working children who did not earn enough for their maintenance) were included as workers. The concept of dependency has now been completely abandoned for economic classification of the population. Instead, the classification is into *workers and non-workers*.

32. A person is classified as a worker if—

(*a*) in the case of seasonal work like cultivation, livestock, dairying, household industry, etc., he has had some regular work of more than one hour a day throughout the greater part of the working season ; and

(*b*) in the case of regular (non-seasonal) employment in any industry, trade, profession or service, he was employed during any of the fifteen days preceding the day of the enumerator's visit to the household.

33. A person who was working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other cause has been treated as a worker. A person who had been offered work but had not actually joined has been treated as a non-worker.

34. 'Work' includes not only actual work but effective supervision and direction of work also.

35. Persons under training as apprentices with or without stipend or wages have been regarded as workers.

36. An adult woman who was engaged in household duties but doing no other productive work to augment the family's resources has not been considered as working. If, however, in addition to her household work she engaged herself in work such as rice-pounding for sale or wages or in domestic services for wages for others, in minding cattle or selling firewood or in making and selling cow-dung cakes or grass, etc., or in any such work, she has been treated as a worker.

37. Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers who earn an income but who are not participating in any productive work are not treated as workers unless they also work in cultivation, industry, trade, profession or service.

38. A public or social service worker who is engaged in public service actively or a political worker who is actively engaged in furthering the political activity of his party is regarded as a worker.

39. The population classified as workers here is the economically active population including family workers but not including unemployed persons.

40. The Census Questionnaire did not ask any question to determine the extent of underemployment, if any.

41. Classification of workers doing two or more different types of work has been done on the basis of their principal work, i.e., the work which consumes larger portion of their time and not necessarily the work which earns larger portion of their income. The occupational classification figures presented in these tables relate to their principal work only.

42. As described earlier, the period of reference for regular (non-seasonal) work in any industry, trade, profession or service was 15 days preceding the day of the enumerator's visit to the household. In the case of seasonal work like cultivation, livestock, dairying, household industry, etc., it was the greater part of the last or current working season. Entries in regard to industry and occupation were not corrected in the second round visits with reference

to the Census date, *viz.*, 1st March 1961. The material presented here, thus, relates to conditions obtaining around 1st March 1961.

Broad Industrial Categories

43. In the 1951 Census, the entire population was divided into eight livelihood classes. Economically semi-active people known as earning dependants were divided according to their secondary means of livelihood and the economically inactive people or dependants were divided on the basis of livelihood classes of persons on whom they were dependent.

44. In the 1961 Census, non-workers are not classified by their dependence on one or the other sector of economy. The working population alone is classified in the following nine broad industrial categories :—

I Cultivator.
II Agricultural Labourer.
III Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.
IV Household Industry.
V Manufacturing other than Household Industry.
VI Construction.
VII Trade and Commerce.
VIII Transport, Storage and Communications.
IX Other Services.

Category I

This category includes both owner cultivators and tenant cultivators. Along with workers doing manual work on land are also included persons who are engaged in active supervision or direction of cultivation. All persons working at cultivation of land on which they have either ownership or tenancy rights are included in this category.

Category II

All other persons working on land as labourers on wages without holding any right on the land are classified as agricultural labourers and are included in Category II.

Category III

Workers in mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities are included in this category.

Category IV

"Household Industry" is defined as an industry conducted at home in urban areas or within the village in rural areas by the head of the household himself and/or mainly by the members of the household. A household industry is not run on the scale of a registered factory and relates to processing, servicing, repairing or making of goods. This may include sale of goods, but should not be confined merely to buying and selling. Thus, the main criteria for a household industry are its smaller scale, it being run at home in urban areas and within the village in rural areas, and the participation of the head of the household and/or one or more members of the household. Professional, personal and such other "Services" are not covered by this definition, although they may be run at home. A person working as an employee in another person's household industry has also been treated as working at household industry.

Category V

"Manufacturing" includes all types of production, processing, servicing and repairing, etc. which cannot be classified as household industry.

Category VI

This category includes workers engaged in construction and maintenance of buildings, roads, railways, bridges, telegraph and telephone lines, water-ways, reservoirs, etc.

Category VII

This category includes workers engaged in any capacity in wholesale or retail trading activity and in commercial transactions relating to imports and exports, real estate and properties, stocks and shares, insurance, moneylending, banking, etc.

Category VIII

This category includes workers engaged in transport activities by air, rail, road and water and in services incidental to transport such as packing, carting, loading, unloading, etc., as also workers engaged in storage and warehousing and in communication services such as posts, telegraphs, telephones, wireless signalling, etc., information and broadcasting are also included in this category.

Category IX

This category includes—(*i*) Public Utility Services like electricity, gas or water-supply and sanitary services, (*ii*) Central, State, Quasi-Government or Municipal employees in administrative departments or offices, (*iii*) Professional services, and (*iv*) Trade or Labour associations, recreational services, etc.

Industrial and Occupational Classification

45. The migrant workers are shown classified according to industrial classification and occupational classification in Special Migration Tables IV, VII, IX and V, VIII, X, respectively.

46. The concept of 'occupation' is distinct from that of 'industry'. 'Occupation' of a worker is the function which he personally performs by engaging himself in work in any branch of economic activity which is called his 'industry'. The latter is defined as the sector of economic activity in which a worker is engaged. A worker, no doubt, follows his 'occupation' within a certain 'industry', but the basis for classification of the latter is the character of the establishment or the field of activity in which he is working, while that for classification of the former is the work performed personally by the individual concerned. Thus, for a clerk working in a cotton textile mill, the industry is "manufacture of cotton textiles", while the occupation is that of a 'clerk'. A clerk working in a bank is engaged in an identical occupation, but his industry is 'banking'. The 'industry' of a spinner working in a cotton textile mill is identical with that of the former clerk, but he engages himself in a different 'occupation', *viz.*, spinner.

47. A question about a person's occupation had been asked in the Indian Censuses right from the earliest Census in 1872. But the word had been used more to indicate the means of subsistence or livelihood or the supporting sector of economy. It had never been used to mean the exact function performed by the individual in any branch of economic activity. Only in the Census of 1931, there were two separate economic questions regarding the principal occupation of earners and dependants and the industry in which they were employed. Unfortunately, no separate tables had been prepared even at that Census on industries and the entire Census classification of occupations from 1872 to 1951 has, therefore, been into the means of livelihood, which, at best, were a combination of both industry and occupation.

48. For the first time in the 1961 Census, the two concepts of 'industry' and 'occupation' have been used with specific meanings distinct from each other and Tables have been prepared separately with very elaborate classification of the working population both by Industry and Occupation.

49. These tables do not cover 1,049 persons (734 males and 315 females) whose birth places could not be classified by State or Country of origin. Table I covers all migrants to Greater Bombay, including those from foreign countries. Tables II to X, however, cover only one foreign country, *viz.*, Pakistan, besides States and Territories of the Indian Union. The number of migrants from foreign countries excluding Pakistan, who are not covered by Tables II to X, is 28,925 (18,984 males and 9,941 females).

50. The 'duration' categories shown are : 'Less than 1 year', '1—4 years', '5—9 years', '10—14 years', '15 years and over' and 'Period not stated'. Under each duration period, figures are shown for 'total' and for 'rural' and 'urban' classification of birth place.

51. The above durations differ slightly from those shown in main Table D-III [*vide* Part II-C (ii) of the Maharashtra Census Report, 1961], which are 'less than 1 year', '1—5 years', '6—10 years', '11—15 years', '16 years and over', and 'Period not stated'. The change was considered necessary to enable combination of duration of residence data with age-groups and intercensal periods.

52. For classification of birth places into 'rural' and 'urban', figures for 'unclassifiable' birth places, which have been shown separately in main Tables D-II, D-III and D-VI have been included under 'rural' in these tables and the 'unclassifiable' category has been omitted, since in no case these figures were found to be more than 1 per cent. It has thus been assumed that birth places which could not be specifically classified as 'rural' or 'urban' are rural for the purposes of these tables.

53. However, in the case of migrants from the territory of Goa, Daman and Diu and from Pakistan, slips were not sorted at all for 'rural/urban' classification of birth place, and hence the 'rural' and 'urban' columns under each duration period do not include figures in respect of the above two territories. The total figures in respect of these territories have, however, been shown in the 'total' column. The 'rural' and 'urban' figures shown under the various duration periods may not, therefore, add up to the 'total' figure in many cases. This will be particularly so in the line presented for 'all States of the Indian Union and Pakistan' in Tables II to V. In the further tables also, this may be found to be the case in respect of most of the classifications shown by vertical spread in column 1.

54. It may, however, be mentioned here that the special re-sorting undertaken for purposes of these tables has revealed differences in some cases from the results of the original sorting on which the

main Tables D-III and D-VI [in Part II-C (ii) mentioned above] have been based. The figures in these tables may not, therefore, be strictly consistent with those shown in the main tables, so far as 'rural/urban' classification of birth places is concerned.

55. Tables I, II and VI relate to working as well as non-working migrants. Tables III, IV, V, VII and VIII relate only to working migrants, while Tables IX and X relate only to migrants at work other than cultivation.

56. Classification by State or Country of origin has been presented in Tables I to V only. In Tables II to V, break-up of migrants from within Maharashtra by important Districts contributing substantial numbers of migrants has also been given. The Districts shown separately are Thana, Kolaba, Ratnagiri, Poona and Satara. The remaining Districts have been grouped together under 'other Districts'.

57. Tables VI to X furnish other classifications for the migrant population, but without showing break-up by State of origin.

58. Data for 'males' and 'females' have been presented together in Table I only. In all other tables they have been presented separately, but on facing even and odd pages.

59. The questions in the Individual Slip, the answers to which have been made use of in presenting classifications appearing in these Tables are 2, 3, 4 (*a*), 4 (*b*), 4 (*c*), 5 (*b*), 6 and 8 to 13. The basic questions for the population covered by these Tables are 4 (*a*), (*b*) and (*c*).

APPENDIX I

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into—

9 Divisions
45 Major Groups

The divisions and major groups with their Code numbers are listed below:—

DIVISIONS

0	Agriculture, livestock, forestry, fishing and hunting
1	Mining and Quarrying
2 & 3	Manufacturing
4	Construction
5	Electricity, Gas, Water and Sanitary services
6	Trade and Commercé
7	Transport, Storage and Communication
8	Services
9	Activities not adequately described

MAJOR GROUPS

Division 0—Agriculture, livestock, forestry, fishing and hunting

00	Field produce and Plantation crops
01	Plantation crops
02	Forestry and Logging
03	Fishing
04	Livestock and hunting

Division 1—Mining and Quarrying

10	Mining and Quarrying

Division 2 & 3—Manufacturing

20	Foodstuffs
21	Beverages
22	Tobacco Products
23	Textile—cotton
24	Textile—jute
25	Textile—wool
26	Textile—silk
27	Textile—miscellaneous
28	Manufacture of wood and wooden products
29	Paper and paper products
30	Printing and publishing

Division 2 & 3—Manufacturing—*concld.*

31	Leather and leather products
32	Rubber, Petroleum and Coal products
33	Chemicals and chemical products
34-35	Non-Metallic Mineral Products other than petroleum and coal.
36	Basic Metals and their products except machinery and transport equipment.
37	Machinery (all kinds other than Transport) and Electrical equipment.
38	Transport Equipment
39	Miscellaneous Manufacturing Industries

Division 4—Construction

40	Construction

Division 5—Electricity, Gas, Water and Sanitary Services

50	Electricity and Gas
51	Water-supply and Sanitary services

Division 6—Trade and Commerce

60—63	Wholesale Trade
64—68	Retail Trade
69	Trade and Commerce Miscellaneous

Division 7—Transport, Storage and Communication

70-71	Transport
72	Storage and Warehousing
73	Communications

Division 8—Services

80	Public Services
81	Educational and Scientific Services
82	Medical and Health Services
83	Religious and Welfare Services
84	Legal Services
85	Business Services
86	Community Services and Trade and Labour Associations.
87	Recreation Services
88	Personal Services
89	Services (not elsewhere classified)

Division 9—Activities not adequately described

90	Activities unspecified and not adequately described (This includes new entrants to the labour market)

APPENDIX II

NATIONAL CLASSIFICATION OF OCCUPATIONS

A Code structure which classifies occupations into—

11 Occupational Divisions (one-digit code numbers)
75 Occupational Groups (two-digit code numbers)

Note : n.e.c. = not elsewhere classified.

DIVISIONS

0 Professional, technical and related workers
1 Administrative, executive and managerial workers
2 Clerical and related workers
3 Sales workers
4 Farmers, fishermen, hunters, loggers and related workers.
5 Miners, quarrymen and related workers
6 Workers in transport and communication occupations.
7-8 Craftsmen, production process workers and labourers not elsewhere classified.
9 Service, sport and recreation workers
X Workers not classifiable by occupations

DIVISIONS AND GROUPS

0 Professional, Technical and Related Workers

00 Architects, Engineers and Surveyors
01 Physicists, Chemists, Geologists and other Physical Scientists.
02 Biologists, Veterinarians, Agronomists and Related Scientists.
03 Physicians, Surgeons and Dentists
04 Nurses, Pharmacists and other Medical and Health Technicians.
05 Teachers
06 Jurists
07 Social Scientists.
08 Artists, Writers and Related Workers
09 Draughtsmen, Science and Engineering Technicians, n. e. c.
0X Other Professional, Technical and Related Workers

1 Administrative, Executive and Managerial Workers

10 Administrators, and Executive Officials, Government
11 Directors and Managers, Wholesale and Retail Trade
12 Directors, Managers and Working Proprietors, Financial Institutions.
13 Directors, Managers and Working Proprietors, Other

2 Clerical and Related Workers

20 Book-keepers and Cashiers
21 Stenographers and Typists
22 Office Machine Operators
28 Clerical Workers, Miscellaneous
29 Unskilled Office Workers

3 Sales Workers

30 Working Proprietors, Wholesale and Retail Trade
31 Insurance and Real Estate Salesmen, Salesmen of Securities and Services and Auctioneers
32 Commercial Travellers and Manufacturers' Agents
33 Salesmen, Shop Assistants and Related Workers
34 Moneylenders and Pawn Brokers

4 Farmers, Fishermen, Hunters, Loggers and Related Workers

40 Farmers and Farm Managers
41 Farm Workers
42 Hunters and Related Workers
43 Fishermen and Related Workers
44 Loggers and Other Forestry Workers

5 Miners, Quarrymen and Related Workers

50 Miners and Quarrymen
51 Well Drillers and Related Workers
52 Mineral Treaters
59 Miners, Quarrymen and Related Workers, n. e. c.

6 Workers in Transport and Communication Occupations

60 Deck Officers, Engineer Officers and Pilots, Ship
61 Deck and Engine-Room Ratings (Ship), Barge Crews and Boatmen
62 Aircraft Pilots, Navigators and Flight Engineers
63 Drivers and Firemen, Railway Engine
64 Drivers, Road Transport
65 Conductors, Guards and Brakesmen (Railway)
66 Inspectors, Supervisors, Traffic Controllers and Despatchers, Transport.
67 Telephone, Telegraph and Related Telecommunication Operators.
68 Postmen and Messengers
69 Workers in Transport and Communication Occupations, n. e. c.

7-8 Craftsmen, Production Process Workers and Labourers not elsewhere classified

70 Spinners, Weavers, Knitters, Dyers and Related Workers
71 Tailors, Cutters, Furriers and Related Workers
72 Leather Cutters, Lasters and Sewers (except Gloves and Garments) and Related Workers.
73 Furnacemen, Rollers, Drawers, Moulders and Related Metal Making and Treating Workers.
74 Precision Instrument Makers, Watch Makers, Jewellers and Related Workers.
75 Tool Makers, Machinists, Plumbers, Welders, Platers and Related Workers.
76 Electricians and Related Electrical and Electronics Workers.
77 Carpenters, Joiners, Cabinet Makers, Coopers and Related Workers.
78 Painters and Paper Hangers
79 Bricklayers, Plasterers and Construction Workers, n. e. c.
80 Compositors, Printers, Engravers, Book Binders and Related Workers.
81 Potters, Kilnmen, Glass and Clay Formers and Related Workers.
82 Millers, Bakers, Brewmasters and Related Food and Beverage Workers.
83 Chemical and Related Process Workers
84 Tobacco Preparers and Products Makers
85 Craftsmen and Production Process Workers, n. e. c.
86 Testers, Packers, Sorters and Related Workers
87 Stationary Engine and Excavating and Litting Equipment Operators and Related Workers.
89 Labourers, n. e. c.

9 Service, Sport and Recreation Workers

90 Fire Fighters, Policemen, Guards and Related Workers
91 House Keepers, Cooks, Maids and Related Workers
92 Waiters, Bartenders and Related Workers
93 Building Caretakers, Cleaners and Related Workers
94 Barbers, Hairdressers, Beauticians and Related Workers
95 Launderers, Dry Cleaners and Pressers
96 Athletes, Sportsmen and Related Workers
97 Photographers and Related Camera Operators
98 Service, Sport and Recreation Workers, n. e. c.

X Workers not Classifiable by Occupation

X0 Workers without occupations
X8 Workers Reporting Occupations unidentifiable or unclassifiable.
X9 Workers Not Reporting Occupation

SPECIAL MIGRATION TABLE I

Migrants classified by Sex, Categories of Workers, Non-Workers, State or Country of Origin and Religion

EXPLANATORY NOTE

This Table presents a four-fold distribution of migrants classified by sex, workers, non-workers, nine broad industrial categories of workers and cross-classified by State or country of origin and religion.

2. The classification by sex, workers, non-workers and nine broad industrial categories of workers is shown by a horizontal spread in columns (2) to (26). The concepts of workers, non-workers and the nine broad industrial categories of workers have been described in the Introductory Note.

3. The cross-classification by State or country of origin and religion is shown by a vertical spread under column (1). The table starts with a set of entries for the total migrants from all States and countries of origin with a vertical spread for seven numerically important religions and an eighth residual group of all other religions combined. Then follow similar sets of entries for Maharashtra and other States or groups of States of origin arranged in the order of total number of migrants from each. Then follow similar sets of entries for Pakistan and other countries of origin. Break-up of material for Maharashtra by five individual districts and the sixth group of all the remaining districts shown in Special Migration Tables II to V is not presented in this table.

4. The presentation of religions is by a vertical spread under each State or country of origin and is in the order of the number of migrants appearing against each in the first set of entries for the total of all States and countries of origin.

5. This is the only table presenting classification by religions and the nine broad industrial categories of workers. On the other hand, it is the only table not showing the classification of migrants by duration of residence and rural/urban birthplaces which are used as common factors of classification in all the remaining tables.

6. The total number of migrants covered in this table includes all persons residing in Greater Bombay and not born in that city (district). The total is inclusive of persons born in all foreign countries.

7. A brief analysis of the material presented in the table will be found in the Introductory Note.

TABLE I

SPECIAL MIGRATION TABLE II

Migrants classified by Sex, Duration of Residence, Rural/Urban, State, District or Country of Origin, Age-groups, Workers and Non-Workers

EXPLANATORY NOTE

This Table presents a six-fold distribution of migrants classified by sex, duration of residence and rural/urban birthplace and cross-classified by State, district or country of origin, age-groups, workers and non-workers.

2. As described in the Introductory Note, the classification by sex is by presentation of material for males and females separately on even and odd pages. The classification by duration of residence and rural/urban places of birth is by a horizontal spread in columns (3) to (23).

3. Cross-classification by State, districts and countries of origin and age-groups is shown by a vertical spread under column (1). Groupings of States and the order of presentation have been described in the Introductory Note.

4. Further cross-classification by workers and non-workers is shown by a vertical spread under column (2) against each entry under column (1).

5. The ranges of duration of residence and the concepts of rural/urban birthplaces, workers and non-workers have been described in the Introductory Note.

6. The classification by age is by five-year groups from 0—4, 5—9, etc., up to 30—34 and age-groups 35—44, 45—59, 60+ and age not stated.

7. Out of the foreign countries of origin, the table presents material only for Pakistan. The total number of migrants for which the table shows the distribution is, therefore, a little less than that shown in the Special Migration Table I or the 1961 Census Migration Table D-II or D-III.

8. The set of entries for migrants from Maharashtra is, however, presented with an elaborate break-up for five districts contributing the five largest proportions of migrants to Greater Bombay and the sixth residual group of the remaining 21 districts combined.

9. A brief analysis of the material presented here will be found in the Introductory Note.

SPECIAL MIGRATION TABLE II

Migrants classified by Sex, Duration of Residence, Rural/Urban, State, District or Country of Origin, Age-groups, Workers and Non-Workers

MALES

N.B.—Since "rural-urban" classification of birth place was not obtained in the cases of Goa, Daman & Diu and Pakistan, the "rural" and "urban" columns under each duration period do not include figures in respect of these territories. The total figure is, however, shown against these places of origin in the column designated "total" under each duration period. In the case of 'all States', therefore, the figures in "rural" and "urban" columns will not add up to the figure in the "total" column.

State, District or Country of Origin / Age-group	Total Workers / Non-Workers	DURATION OF RESIDENCE: All Durations			Less than 1 year			1–4 years			5–9 years			10–14 years			15 years and over			Period not stated

SPECIAL MIGRATION TABLE III

Migrant Workers classified by Sex, Duration of Residence, Rural/Urban, State, District or Country of Origin and Educational Levels

EXPLANATORY NOTE

This Table presents a five-fold distribution of migrants classified by sex, duration of residence, rural/urban birthplaces and cross-classified by State, district or country of origin and educational levels.

2. As described in the Introductory Note, the classification by sex is by presentation of material for males and females separately on even and odd pages. The classification by duration of residence and rural/urban places of birth is by a horizontal spread in columns (2) to (22).

3. Cross-classification by State, district and country of origin and educational levels is by a vertical spread under column (1).

4. The ranges of duration of residence, and the concepts of rural/urban birthplaces and educational levels have been described in the Introductory Note. Cross-classification by education is into six educational levels shown by vertical spread under each State, district or country of origin.

5. Among the foreign countries of origin, the table presents material only for Pakistan. The total number of migrants for which the table shows the distribution is, therefore, a little less than that shown in the Special Migration Table I or the 1961 Census Migration Table D-II or D-III.

6. The set of entries for Migrants from Maharashtra is, however, presented with an elaborate break-up for five districts contributing the five largest proportions of migrants to Greater Bombay and the sixth residual group of the remaining 21 districts combined.

7. A brief analysis of the material presented here will be found in the Introductory Note.

SPECIAL MIGRATION TABLE III

Migrant Workers classified by Sex, Duration of Residence, Rural/Urban, State, District or Country of Origin and Educational Levels

N.B.—**Since "rural-urban" classification of birthplace was not obtained in the case of Goa, Daman and Diu and Pakistan, the "rural" and "urban" columns under each duration period do not include figures in respect of these territories. The total figure is, however, shown against these places of origin in the column designated "total" under each duration period. In the case of 'all States', therefore, the figures in "rural" and "urban" columns will not add up to the figure in the "total" column.**

SPECIAL MIGRATION TABLE IV

Migrant Workers classified by Sex, Duration of Residence, Rural/Urban, State, District or Country of Origin and Industrial Divisions

EXPLANATORY NOTE

This Table presents a five-fold distribution of migrant workers classified by sex, duration of residence and rural/urban birthplaces and cross-classified by State, district or country of origin and Industrial Divisions.

2. As described in the Introductory Note, the classification by sex is by presentation of material for males and females separately on even and odd pages. The classification by duration of residence and rural/urban places of birth is by a horizontal spread in columns (3) to (23).

3. Cross-classification by State, district or country of origin and Industrial Divisions is shown by a vertical spread under column (1).

4. The classification of non-agricultural workers by industry is into Industry Divisions according to the Standard Industrial Classification Scheme. For facility of comparison the total numbers of workers, cultivators and agricultural labourers are also shown against each State, district or country of origin.

5. The ranges of duration of residence, the concepts of rural/urban birthplaces and Industrial Divisions have been described in the Introductory Note.

6. Among the foreign countries of origin the table presents material only for Pakistan. The total number of migrants for which the table shows the distribution is, therefore, a little less than that shown in the Special Migration Table I or the 1961 Census Migration Table D-II or D-III.

7. The set of entries for Migrants from Maharashtra is, however, presented with an elaborate break-up for five districts contributing the five largest proportions of migrants to Greater Bombay and the sixth residual group of the remaining 21 districts combined.

8. The total migrant population covered in this table does not include migrants from foreign countries other than Pakistan.

9. A brief analysis of the material presented here will be found in the Introductory Note.

SPECIAL MIGRATION TABLE IV

Migrant Workers classified by Sex, Duration of Residence, Rural/Urban, State, District or Country of Origin and Industrial Divisions

N.B.—Since "rural-urban" classification of birthplace was not obtained in the case of Goa, Daman & Diu and Pakistan, the "rural" and "urban" columns under each duration period do not include figures in respect of these territories. The total figure is, however, shown against these places of origin in the column designated "total" under each duration period. In the case of 'all States', therefore, the figures in "rural" and "urban" columns will not add up to the figure in the "total" column.

SPECIAL MIGRATION TABLE V

Migrant Workers classified by Sex, Duration of Residence, Rural/Urban, State, District or Country of Origin, Age-groups & Occupational Divisions

EXPLANATORY NOTE

This Table presents a six-fold distribution of migrant workers classified by sex, duration of residence and rural/urban birthplaces and cross-classified by State, district or country of origin, age-groups and occupational divisions.

2. As described in the Introductory Note, the classification by sex is by presentation of material for males and females separately on even and odd pages. The classification by duration of residence and rural/urban places of birth is by a horizontal spread in columns (3) to (23).

3. Cross-classification by State, district or country of origin and age-groups is shown by a vertical spread under column (1).

4. Further cross-classification of non-agricultural workers by occupational divisions according to the National Classification of Occupations is shown by a vertical spread under column (2) against each entry in column (1).

5. The ranges of duration of residence, the concepts of rural/urban places of birth and occupational classification have been described in the Introductory Note.

6. Classification by age is into five-year groups from 0—4, 5—9, etc., up to 30—34 and age-groups 35—44, 45—59, 60+ and age not stated.

7. Among the foreign countries of origin the table presents material only for Pakistan. The total number of migrants for which the table shows the distribution is, therefore, a little less than that shown in the Special Migration Table I or the 1961 Census Migration Table D-II or D-III.

8. The set of entries for Migrants from Maharashtra is, however, presented with an elaborate break-up for five districts contributing the five largest proportions of migrants to Greater Bombay and the sixth residual group of the remaining 21 districts combined.

9. The total migrant population covered in this table does not include migrants from foreign countries other than Pakistan.

10. A brief analysis of the material presented here will be found in the Introductory Note.

SPECIAL MIGRATION TABLE V

Migrant Workers classified by Sex, Duration of Residence, Rural/Urban, State, District or Country of Origin, Age-groups and Occupational Divisions

Notes.—(1) Since "rural-urban" classification of birthplace was not obtained in the cases of Goa, Daman & Diu and Pakistan, the "rural" and "urban" columns under each duration period do not include figures in respect of these territories. The total figure is, however, shown against these places of origin in the column designated "total" under each duration period. In the case of 'all States', therefore, the figures in "rural" and "urban" columns will not add up to the figure in the "total" column.

(2) Occupational Division 4, which has been marked with an asterisk in this Table, is exclusive of families 400, 401 and 414

SPECIAL MIGRATION TABLE VI

Migrants classified by Sex, Duration of Residence, Rural/Urban, Age-groups, Marital Status, Workers and Non-Workers

EXPLANATORY NOTE

This Table presents a six-fold distribution of migrants classified by sex, duration of residence and rural/urban birthplaces and cross-classified by age, marital status, workers and non-workers.

2. As described in the Introductory Note, the classification by sex is by presentation of material for males and females separately on even and odd pages. The classification by duration of residence and rural/urban places of birth is by a horizontal spread in columns (3) to (23).

3. Cross-classification by age and marital statuses is shown by a vertical spread under column (1).

4. Further cross-classification by workers and non-workers is shown by a vertical spread under column (2) against each entry under column (1).

5. The ranges of duration of residence, the concepts of rural/urban places of birth, workers and non-workers have been described in the Introductory Note.

6. Classification by marital status is into four categories defined below. A residual group of unspecified marital status covers those whose marital status had not been recorded at the Census :

(*i*) " Never married " are persons who have never been married.

(*ii*) " Married " are those persons who are currently married, whether for the first or another time. These include those recognised as married by custom or society and those in stable *de facto* union.

(*iii*) " Widowed " are those persons whose husbands or wives are dead and who have not married again.

(*iv*) " Divorced " are those persons who have been divorced in a lawful manner, either by a decree of a law court or by a regular social or religious custom, but who have not remarried. " Separated " are those persons who have been separated from wives or husbands and are staying apart with no apparent intention of living together again. The table shows only the combined figures for " divorced " and " separated " persons.

7. All persons in the age-groups 0—4 and 5—9 have been treated as Never Married.

8. The total migrant population covered in this table does not include migrants from foreign countries other than Pakistan.

9. A brief analysis of the material presented here will be found in the Introductory Note.

SPECIAL MIGRATION TABLE VI

Migrants classified by Sex, Duration of Residence, Rural/Urban, Age-Groups, Marital Status, Workers and Non-Workers

N. B.—**Since "rural-urban" classification of birthplace was not obtained in the case of migrants from Goa, Daman & Diu and Pakistan, the "rural" and "urban" columns under each duration period do not include figures in respect of these two territories. The column designated "total" under each dnration period, however, includes the "total" figures in respect of these territories. The figures in "rural" and "urban" columns may not, therefore, add up in all cases to the figure in the "total" column.**

EXPLANATORY NOTE

This Table presents a five-fold distribution of migrant workers classified by sex, duration of residence and rural/urban birthplaces and cross-classified by age and industry.

2. As described in the Introductory Note, the classification by sex is by presentation of material for males and females separately on even and odd pages. The classification by duration of residence and rural/urban places of birth is by a horizontal spread in columns (3) to (23).

3. Cross-classification by age-groups is shown by a vertical spread under column (1). Age-groups are of five years from 0—4 to 30—34 and then 35—44, 45—59, 60+ and age not stated.

4. Further classification of non-agricultural workers by industry is into Industry Divisions according to the Standard Industrial Classification Scheme.

5. For facility of comparison, lines for total workers, cultivators and agricultural labourers are also shown under column (2) against each age-group.

6. The ranges of duration of residence, the concepts of rural/urban places of birth and the industrial classification under the Standard Industrial Classification Scheme have been described in the Introductory Note.

7. The total migrant population covered in this table does not include migrants from foreign countries other than Pakistan.

8. A brief analysis of the material presented here will be found in the Introductory Note.

SPECIAL MIGRATION TABLE VII

Migrant Workers classified by Sex, Duration of Residence, Rural/Urban, Age-Groups and Industrial Divisions

N. B.—**Since "rural-urban" classification of birthplace was not obtained in the case of migrants from Goa, Daman & Diu and Pakistan, the "rural" and "urban" columns under each duration period do not include figures in respect of these two territories. The column designated "total" under each duration period, however, includes the "total" figures in respect of these territories. The figures in "rural" and "urban" columns may not, therefore, add up in all cases to the figure in the "total" column.**

SPECIAL MIGRATION TABLE VIII

Migrant Workers classified by sex, Duration of Residence, Rural/Urban, Age-groups Educational Levels and Occupational Divisions

EXPLANATORY NOTE

This Table presents a six-fold distribution of migrant workers classified by sex, duration of residence and rural/urban birthplaces and cross-classified by age, education and occupation.

2. As described in the Introductory Note, the classification by sex is by presentation of material for males and females separately on even and odd pages.

3. Cross-classification by age is in five-year groups from 0—4 to 30—34 and age-groups 35—44, 45—59, 60+ and age not stated. This is shown by a vertical spread under column (1).

4. Classification by education is into six educational levels and is shown by a vertical spread against each entry in column (1).

5. Further classification by occupation is into Occupational Divisions according to the National Classification of Occupations and is shown by a vertical spread in column (3) against each entry in column (2). For facility of comparison lines for total workers, cultivators and agricultural labourers are also shown against each entry in column (2).

6. The ranges of duration of residence, the concepts of rural/urban birthplaces, age, educational levels and the occupational classification have been described in the Introductory Note.

7. The total of migrants shown in the table is exclusive of persons born in foreign countries other than Pakistan.

8. A brief analysis of the material presented here will be found in the Introductory Note.

SPECIAL MIGRATION TABLE VIII

Migrant Workers classified by Sex, Duration of Residence, Rural/Urban, Age-Groups, Educational Levels and Occupational Divisions

Notes.—(1) Since "rural-urban" classification of birthplace was not obtained in the case of migrants from Goa, Daman & Diu and Pakistan, the "rural" and "urban" columns under each duration period do not include figures in respect of these two territories. The column designated "total" under each duration period, however, includes the "total" figures in respect of these territories. The figures in "rural" and "urban" columns may not, therefore, add up in all cases to the figure in the "total" column.

(2) Occupational Division 4, which has been marked with an asterisk in this Table, is exclusive of families 400, 401 and 414.

SPECIAL MIGRATION TABLE IX

Migrants at Work other than Cultivation, classified by Sex, Duration of Residence, Rural/Urban, Industrial Divisions & Class of Worker under 'Household Industry' and 'Non-Household Industry, Trade, Profession or Service'

EXPLANATORY NOTE

This Table presents a six-fold distribution of migrants at work other than cultivation classified by sex, duration of residence and rural/urban birthplaces and cross-classified by Industry Divisions, type of industry and employment status.

2. As described in the Introductory Note, the classification by sex is by presentation of material for males and females separately on even and odd pages. The classification by duration of residence and rural/urban places of birth is by a horizontal spread in columns (3) to (23).

3. Cross-classification by industry is into Industry Divisions according to the Standard Industrial Classification Scheme and is shown by a vertical spread under column (1).

4. Further classification by type of industry is into household industry and non-household industry, trade, profession or service. It is shown by a vertical spread under column (2) against each entry in column (1). By definition a household industry cannot occur in industry divisions 4 to 9. The classification into industry divisions for household industry is, therefore, restricted to divisions 0, 1 and 2 & 3, while the classification for non-household industry is shown for all the divisions 0 to 9.

5. Further classification by employment status under non-household industry, trade, profession or service is also provided by a vertical spread under column (2) and is into four classes of workers, *viz.*, (*i*) Employer, (*ii*) Employee, (*iii*) Single worker and (*iv*) Family worker.

6. An "Employer" is a person who hires other persons to help him in the economic activity in which he is engaged.

7. An "Employee" is a person who usually works under some other person for salary or wages in cash or kind.

8. A "single worker" is a person who works by himself. He is not employed by anyone else and in his turn does not employ anyone else, not even members of his household, except casually. A person who works in joint partnership with one or several persons without hiring any employee is also a single worker.

9. A "family worker" is a member who works without receiving wages, in cash or kind, in any industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season. Members of the household who help solely in household duties are non-workers and are not, therefore, treated as family workers.

10. The classification by employment status under household industry is only into two classes of workers, *viz.*, (*i*) employee and (*ii*) others.

11. "Employees" are persons working for salary or wages in cash or kind in someone else's household industry. "Others" are workers who are not employees, i.e. who are either employers, single workers or family workers in their own household industry.

12. The ranges of duration of residence, the concepts of rural/urban birthplace and the industry classification into divisions as well as into household industry and non-household industry, trade, profession or service have been described in the Introductory Note.

13. The total number of migrants covered in this table does not include the migrants from foreign countries other than Pakistan. The total is also exclusive of migrant workers engaged in cultivation.

14. A brief analysis of the material presented here will be found in the Introductory Note.

SPECIAL MIGRATION TABLE IX

Migrants at work other than Cultivation, classified by Sex, Duration of Residence, Rural/Urban, Industrial Divisions and Class of Worker under 'Household Industry' and 'Non-Household Industry, Trade, Profession or Service'

N.B.—Since "Rural-Urban" classification of birth place was not obtained in the case of migrants from Goa, Daman, Diu and Pakistan, the "Rural" and "Urban" columns under each duration period do not include figures in respect of these two territories. The column designated "total" under each duration period, however, includes the "total" figures in respect of these territories. The figures in "Rural" and "Urban" columns may not, therefore, add up in all cases to the figure in the "total" column.

SPECIAL MIGRATION TABLE X

Migrants at Work other than Cultivation, classified by Sex, Duration of Residence, Rural/Urban and Occupational Divisions and Groups

EXPLANATORY NOTE

T'his Table presents a four-fold distribution of migrants at work other than cultivation classified by sex, duration of residence and rural/urban birthplaces and cross-classified by occupational divisions and groups.

2. As described in the Introductory Note, the classification by sex is by presentation of material for males and females separately on even and odd pages. The classification by duration of residence and rural/urban places of birth is by a horizontal spread in columns (2) to (22).

3. Cross-classification by occupational divisions and groups is under the National Classification of Occupations and is shown by a vertical spread under columns (1) and (2).

4. The ranges of duration of residence, the concepts of rural/urban birthplaces and the National Classification of Occupations have been described in the Introductory Note.

5. The total of migrant workers covered in the table is exclusive of migrants from foreign countries other than Pakistan. It does not also include the migrant workers engaged in cultivation.

6. A brief analysis of the material presen ted here will be found in the Introductory Note.

SPECIAL MIGRATION TABLE X

Migrants at work other than Cultivation, classified by Sex, Duration of Residence, Rural, Urban and Occupational Divisions and Groups

N. B.—Since "rural-urban" classification of birth place was not obtained in the case of migrants from Goa, Daman & Diu and Pakistan, the "rural" and "urban" columns under each duration period do not include figures in respect of these two territories. The column designated "total" under each duration period, however, includes the "total" figures in respect of these territories. The figures in "rural" and "urban" columns may not, therefore, add up in all cases to the figure in the "total" column.
