DISTRICT CENSUS HANDBOOK

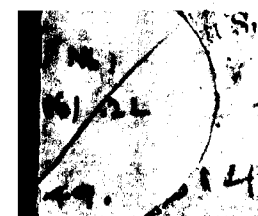

MANIPUR

Compiled By
R. K. BIRENDRA SINGH
of the Manipur Civil Service
Superintendent of Census Operations, Manipur.

*Prepared at the Office of the Superintendent Census Operations,
Manipur.*

1961 CENSUS PUBLICATIONS, MANIPUR.

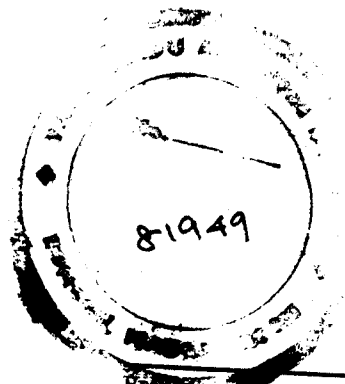

CENTRAL GOVERNMENT PUBLICATIONS

(All the Census Publications of this Territory will bear Vol. No. XXII.)

PART I (with sub-parts)	...	{ General Report. Report on Vital Statistics. Subsidiary Tables.	In one Volume
PART II (with sub-parts)	...	{ General Population Tables, Economic Tables. Cultural and Migration Tables.	
PART III	...	Household Economic Tables.	
PART IV	...	Housing Report and Tables.	
PART V	...	Special Tables for Scheduled Castes and Scheduled Tribes.	Not for sale.
PART VI	...	Village Survey Monographs.	
PART VII—A	...	Handicraft Survey Report.	
PART VII—B	...	Fairs and Festivals.	
PART VIII—A	...	Administration Report on Enumeration.	
PART VIII—B	...	Administration Report on Tabulation.	
PART IX	...	Census Atlas Volume (This will be a combined volume for Manipur, Tripura & Nagaland).	

STATE GOVERNMENT PUBLICATION

1. District Census Handbook.

PRINTED AT THE GOVERNMENT PRESS, MANIPUR AND
PUBLISHED BY THE GOVERNMENT OF MANIPUR.

PREFACE

The decision to bring out District Census Handbooks giving extracts from all the important census tables for every district of the States/ Union Territories was taken by the Census Commission for the first time in 1951. In accordance with this decision the Government of Manipur published in 1954 what was then called the "State Census Handbook" of Manipur in two volumes in respect of the 1951 Census. The 1951 series of District Census Handbooks varied in content and size from State to State depending partly upon the resources offered by the State Governments. The Registrar General, therefore, desired that the Handbooks printed for the Census of 1961 should maintain some uniformity in the presentation of certain minimum statistical data, maps and other useful information. The matter was discussed at the Conferences of State Census Superintendents before the contents of the District Census Handbooks were finally decided upon.

The present Handbook is sub-divided into three parts. In Part I of the volume the district has been introduced by giving at the outset some essential information about its geographical location, physical features, historical back-ground, administrative divisions, soil, topography, climate, temperature, rainfall, etc. Growth of population, its distribution in the rural and urban areas and over the various administrative units, density, literacy, sex-ratio, marital status, economic activities, etc., have been discussed with reference to census tables. A brief review has also been made of agriculture, livestock, co-operation, transport and communication, facilities of education, medical relief, community development programme, welfare of Scheduled Castes and Scheduled Tribes, etc., in the light of available official statistics relating mainly to the financial year 1960-61. Information about important places has been given in a brief gazetteer of place names.

Imphal,
August, 1964.

Part II contains all the important census tables including those compiled from the Houselists and official statistics collected from the various departments of the Manipur Administration. Part III contains the Village Directory or the Primary Census Abstract in which information regarding population, occupied houses, household-workers classified into nine industrial categories, non-workers, literates and educated, etc., for every village, is furnished.

For the preparation of the entire Introductory Essay I have drawn upon various sources, chief among them being the State Census Handbook of 1951 and the various Annual Administration Reports published by the Manipur Administration. Acknowledgement is due especially to the 'Annual Administration Report for 1960-61' published by the Manipur Administration from which I have drawn various materials, perhaps a little too unashamedly. Most of the official data contained in this volume relate to the year 1960-61.

It is expected that future District Census Handbooks will contain more detailed information than is furnished in the present volume, especially as collection of essential official statistics will have made some headway in the coming years. I hope this Handbook, though only a modest beginning, will prove to be of some use to the District Administrators, departments engaged in planning and development, legislators, private trade and business.

The views expressed in this book are my personal views and the Government is not in any way responsible for them.

I am grateful to Shri Asok Mitra, I.C.S., Registrar General and Census Commissioner of India who has taken particular care to see that the District Census Handbooks of 1961 are upto-date reference books, for valuable guidance and suggestions.

R. K. BIRENDRA SINGH,

CONTENTS

PART I INTRODUCING THE DISTRICT

CHAPTER	PAGE
1. Location and Physical Features	1—10
Hill ranges—Rivers—Lakes—Origin and appearance of the Valley—Climate—Rainfall—Fauna—Flora—Forest—Mineral resources—Geological formation—Earthquakes.	
2. Brief History	11—15
General—1891 and After.	
3. Administrative set up	16—23
Present set-up—General Administration—Revenue Administration—Assembly and Parliamentary Constituencies—Administration of Justice—Police—Municipality—Township Committee and Village Authority—Manipur Territorial Council.	
4. Population	23—30
Density of population—Rural/Urban Distribution—Rural Population—Urban Population—Migration—Sex Ratio—Age Distribution—Marital Status—Literacy and Education—Educational Institutions—Languages—Religion—Scheduled Castes and Scheduled Tribes.	
5. Housing	30—31
Type of Census houses and their uses—Households classified by number of members and rooms occupied.	
6. Agriculture	31—32
Land Utilisation—Ceiling on Holdings—Agricultural season—Crop pattern—Irrigation,	
7. Livestock	32—33
Agricultural tools and implements—Animal Husbandry and Veterinary Aid.	
8. Co-operation	33—34
9. Economic Activity	34—37
Concepts and definition—Distribution of workers and Non-workers—Class of workers—Occupational Classification—Non-workers.	
10. Industries and Power	37—38
Industries—Power in Industry—Banking.	
11. Communication and Transport...	39—41
Communication—Important Road Links in the Village areas—Transport—Posts and Telegraphs	
12. Medical and Public Health	41—42
13. Forest	42—43
14. Fisheries	43
15. Community Development	43—45
16. Welfare of Scheduled Castes and Scheduled Tribes	45—47
17. Brief Gazetteer of Place names	47—49

INTRODUCING THE DISTRICT

1. LOCATION AND PHYSICAL FEATURES

1.1 The district of Manipur which is co-extensive in area with the Union Territory of Manipur lies in the north-eastern corner of India. It is almost rectangular in shape with a precious little valley in the middle which is surrounded by ranges of hills which constitute the major part of the area covered by the district. The area of the district is 8,628 square miles out of which nearly 8,000 square miles are covered by the hills. It is bounded on the north by Nagaland, on the west by the Cachar district of Assam, on the south by the Lushai Hills and Burma and on the east by Burma. Out of about 534 miles which constitute the boundary line of the district, an approximate length of 220 miles forms the international boundary line with Burma. As is evident from the following extract from the Administration Report of the then Political Agency, Manipur for the year 1899-1900 by Lt. Col. P. Maxwell, Political Agent in Manipur and Superintendent of the State, the present boundaries of the district were finally settled at the turn of the present century.

"The settlement of the boundary between the Manipur State and the Lushai Hills, commencing from near Langlen Hill, where the last pillar of the Manipur-Chin Hills boundary was erected westward to Tipaimukh, was completed during the year, and the proceedings have been submitted to the Government for final orders. Since the British Administration of the State, the boundary between the State and the Burma Kobo Valley, Burma-Chin Hills and Assam-Lushai Hills, respectively, has been carefully settled; the boundary between the State and Assam-Cachar and Assam Naga Hills, respectively, was arranged during the time of previous Rajas. The boundary of the State is now complete, and a frequent source of expense and often of irritation is removed."

The population of the district as censused in 1961 is 7,80,037 souls. Of this total population 5,14,667 persons or nearly two-thirds are concentrated in the valley and 2,65,370 persons or about one-third is spread over the surrounding hills. The numerically predominant population in the valley is the Manipuri Hindus known also as Meitheis while the hills are peopled with as many as 29 tribes which may be broadly divided into Nagas and Kukis. The district lies between 23.83° and 25.68° N. latitude and 93.03° and 94.78° E. longitude. The headquarters of the district is at Imphal, the capital of the erstwhile State of Manipur which is the only town in the district.

1.2 Hill Ranges

According to some geologists the hill ranges of Manipur are the offshoots of the mighty Himalayas and they are of comparatively young geological formation. As that part of the Himalayas of which the Manipur hills are the offshoots, lies to the north of Manipur the natural inference is that these hill ranges stretch from the north to the south. In a district in which ten-elevenths of the total area is covered by the hills it is quite natural that there should be many hill-ranges and it is the common belief of the ancient Manipuris that their beautiful valley is protected on all sides by as many as nine ranges of hills though it is not known for certain which precisely these 'nine ranges' are. Even in the valley one comes across hillocks and small ranges of hills here and there.

According to another view, the hill ranges of Manipur have no connection whatever with the Himalayas which terminate geographically in the south-east at the curve of the Brahmaputra, far away from the frontiers of the district; they are a continuation of the Patkai, the Barail and the Arakan Yoma ranges which form orographically a part of the Burmese mountain system. Be that as it may, a reference to the map will

show that there is no break in the great chain linking the mighty Himalayas with the hill ranges of Manipur, the great bend of the Brahmaputra notwithstanding. In the ultimate analysis, there seems, therefore, to be no irreconcilable clash between the two views.

The ranges of hills enclosing the valley present a general appearance of irregular serrated ridges which occasionally rise to conical peaks, flat cliffs and bare precipitous rocks. These ridges are intersected by deep drainage lines which force their way to the valley through curves and coils. The highest altitude is reached in the north near the Mao Police Station where a peak rises to a height of about 10,000 feet above sea-level. In the north-east too, there are several peaks which attain to a height of about 8,000 feet above sea-level. At times as in the western ranges adjoining the Cachar district of Assam, the summit of the hills assumes an open and rolling aspect. Most of the hills are covered with dense forests and thick bamboo jungle. Pine trees are common in the hills lying in the south and the west.

The names of the main hill ranges and the elevation of some important peaks are given below:—

I. Ranges in the East.—

- (1) Sarameti
- (2) Somrat
- (3) Kassom
- (4) Nupitel or Mapethe
- (5) Yomadung

Ranges in the West.—

- (1) Nungjaibong
- (2) Kalanaga
- (3) Chakka Nungba
- (4) Kaupum (a spur from the Laimatol)
- (5) Kopru Laimatol

Ranges in the North.—

- (1) The Kunho spurs
- (2) Thumion—Mayang Khong
- (3) Laisom
- (4) Bihifara

Ranges in the South.—

- (1) Haobi

II. Peaks—Elevation:

- | | |
|------------------------------------|-----------|
| (1) Tenipu (Mao & Sadar Hills) ... | 9824 feet |
| (2) Koubru (Mao & Sadar Hills) ... | 8702 " |
| (3) Iso (Mao & Sadar Hills) ... | 8070 " |
| (4) Khayangbung (Ukhrul) ... | 9295 " |
| (5) Siroi (Ukhrul) ... | 8425 " |
| (6) Kachobung (Ukhrul) ... | 8195 " |
| (7) Leikot (Tamenglong) ... | 9290 " |
| (8) Tampaba (Tamenglong) ... | 8412 " |

The names of Sub-divisions are given in brackets.

1.3 Rivers

All the rivers in the valley have their sources in the hills lying to the north and the north-east of the valley. By far the most important of the rivers is the Imphal which is also known as 'TUREL ACHAOUBA' which means the big or principal river. It flows through Imphal, the headquarters of the district and in the past before the introduction of modern means of transport, it served as an important water-way between the capital town and various parts of the valley. The other rivers in the valley are the Iril, the Thoubal, the Nambul and the Nambol. In the dry winter months these rivers look like small streams with scanty amounts of water in them, but in the rainy season they carry a large volume of water and cause occasional floods and damage to sizeable areas along their banks. The Imphal, the Iril and the Thoubal take their rise in the hills to the north of the valley and flow in a southward direction. The Iril and the Thoubal rivers join the Imphal at Lilong, a place on the Indo-Burma road, about 6 miles from Imphal, and at Mayang Imphal 14 miles to the south of Imphal, respectively and the combined waters of these rivers flow, past the Loktak Lake towards Sugnu in the extreme south of the valley, in a course naturally bigger than that of any of the rivers taken separately. The Khuga river which rises in the hills of the

Churachandpur Sub-division to the south-west of the valley joins the Imphal river at Ithai to the south of the Loktak. The Nambul has its source in the hills to the north-west of Imphal and flows, like the Imphal river through the Imphal town; at one point almost in the heart of the town two rivers flow at a distance of only about 500 yards from each other. Both the Nambul and the Nambol which latter river rises from the north-west of the valley, flow into the Loktak lake from which the over-flow emerges as a separate stream under the name 'Kortak'. The Kortak eventually joins the united course of the Imphal-Iril-Thoubal to form one biggish river called the 'Achauba' (which means big) or the Manipur river. Further down Sugnu this Manipur river forces its way through the hills cutting a deep gorge, flows into the Ningthee river in Upper Burma and finally falls into the Chindwin.

Apart from the above rivers there is also a centrifugal system of rivers that rise in the hills of Manipur and flow into the adjoining territories of Burma and the Cachar district of Assam without traversing the valley. In the eastern hills are the Lokchao river which drains into the Kabo Valley and numerous small streams which flow into the YU and thence into the Chindwin. But these are small, insignificant streams inasmuch as all of them, with the exception of the Maglang, practically dry up in the winter, though in the rainy season they flow swiftly and are liable to sudden floods.

The most important of the rivers in the hill areas of Manipur is the Barak which has its sources in the Mao-Maram area about 10 miles to the east of Mao Police Station. Taking a westward course from its source it cuts across the Imphal-Dimapur road at Karong, 40 miles to the north of Imphal from where it bends north. After a distance it takes a turn towards the west till it reaches the north-western corner of the district. From this point it again takes a bend and flows a southward course all the way down to Tipaimukh. From Tipaimukh the river turns sharply to the north and flows out of the

Bhuban Range near Lakhipur. It then takes a tortuous westward course through the Cachar district of Assam. The Barak eventually falls into the old bed of the Brahmaputra near Bhairab Bazar. The principal tributaries of the Barak are the Irang, the Makru and the Jiri. The Irang takes its rise in the high hills to the north-west of the valley and flows into the Barak at a point about 20 miles north of Tipaimukh; it is joined by numerous small streams of which the Leimatak is the biggest. Rising in the western hills from a point to the north-east of Jiribam, the Makru flows in a southward direction almost parallel to the boundary line between Cachar and Manipur until it joins the Barak at a place about 18 miles to the south of the old Cachar Road which it has crossed on the way. The Jiri river takes its rise in the hills to the north-east of the Cachar district and flows to the south in a course almost parallel to that of the Makru until it reaches Godam Ghat. From this point it takes a westward turn and flows as far as Jirighat where it crosses the route from Imphal to Silehar. Here it makes another bend and flows southward until it joins the Barak at a distance of about 12 miles from Jirighat. For a considerable distance the Jiri forms the border-line between Cachar and Manipur. Besides these rivers, numerous small unnamed streams flow into the Barak on its course from the hills of Manipur to the plains of Cachar. Generally, the hill rivers are not navigable because of their strong and swift currents.

1.4 Lakes

The Loktak—It is the biggest lake to be found in the eastern part of India consisting of Assam, Manipur, Nagaland, NEFA and Tripura and constitutes the main drainage of the district. It is situated in the Bishenpur Tehsil, about 18 miles to the south-west of Imphal. It can also be approached from Mayang-Imphal, a place about 14 miles to the south of Imphal. In the dry season it covers an area measuring roughly 25 square miles; but in the rainy season when it is fed by the waters of the Nambul and the Nambol

it occupies an additional area of 15 square miles measuring approximately 8 miles in length and 5 miles in width. It is a broad, shallow expanse of water covered with aquatic vegetation, weeds and water-hyacinths. At places the growth of weeds and water-hyacinths is so thick and bushy that plying of the small dug-out country boats which one commonly sees on the Loktak, is rendered impossible. In the south-western portion of the lake there is a number of hilly islets which rise steeply above the surface. The largest of these islets is Thanga, the others being Ithing and Karang. At the foot of these islet hillocks there are a number of villages inhabited by people whose main occupation is fishing in the Loktak. In pre-British days notorious criminals used to be deported to Thanga which must have therefore been the KALA PANI of Manipur. Here and there on the surface of the lake one comes across thick formations composed of matted roots of aquatic plants. Fishermen build small hutments on these formations which they use as camping places. During the winter flocks of ducks, geese and other migratory birds feed on the Loktak which then attracts a large number of bird hunters. To the south of the islet hillocks, at the southern fringe of the Loktak stretches the Keibul Lamjao game sanctuary where the Antlered Deer, a species said to be extinct in other parts of India is still found. The lake is the largest single source of fish supply in the whole of the district and according to information obtained from the Fishery Department there are 36 villages around it, in which live 15,514 persons who earn their livelihood as fisherfolk. Besides, there grow in the Loktak various edible plants which the poorer section of the people collect daily and sell for paltry sums.

Apart from the Loktak, there are numerous smaller lakes or 'jheels' which are spread over the valley, especially in its southern portion which is comparatively lower. These jheels serve as fisheries, the fishing rights being vested in the administration. They are leased out for specified periods to fishery leasees and Co-operative Societies. The more important of these jheels are the

Ikop, the Pumlen and the Waithou. They differ from the Loktak lake only in point of size and depth. With the passage of time they are undergoing a process of being silted up. Parts of the areas covered by these small lakes are also being reclaimed for cultivation on account of the increasing pressure of population on land.

1.5 Origin and Appearance of the Valley

Adequate geological research has not yet been carried out to ascertain the origin of the Manipur valley. As a result doubts and controversies as to the origin of the valley have not been finally set at rest. One hypothesis has it that the present valley once formed part of a lake very much bigger than the Loktak and that it came into being as a result of the gradual silting up of the basin of that lake which after this process of silting, has shrunk to the present Loktak. The other view is that, "the valley is of comparatively ancient date and has been filled in gradually to its present level by debris brought down from the hills by the tributaries of the Imphal river."

In spite of its so-far-uncertain origin, there is no gainsaying the fact that, in its sylvan setting and especially when contrasted with the surrounding hills the valley is of great aesthetic value. It has been described as "a lotus on lofty heights" and "a little paradise on earth"—descriptions which are perhaps a little too flattering but which may not be very far from the truth to any one with a cultivated sense of beauty. Perhaps one would realise the aptness of the above descriptions as one gains a view of the valley for the first time from one of the hill tops after negotiating bend after bend of difficult hilly road in an automobile or after a strenuous climb up and down the ridges. For, then one would feel, almost perforce, like 'opening up yet one more fragment of the frontier of beauty' as someone has nicely put. Nor are the hills lacking in beauty and quiet charm. One finds it difficult to resist the temptation to quote Mrs. Grimwood whose association with Manipur ended tragically in the death of her husband in the events of 1891:

"Manipur! How well I remember the first time I ever heard the name—a name, too, which was comparatively unknown three short years ago, owing to the fact that it belongs to a remote little tract of country buried amongst hills and difficult of access, far away from civilized India, and out of the beaten track. This is not a geographical treatise, and therefore there is no necessity to dwell much on the exact whereabouts of a place which has already been described more than once. I will therefore attempt no lengthy description, simply stating that the Valley of Manipur lies between Cachar, the Kubo Valley and Kohima, and is surrounded by six ranges of hills which separate it from the tracts of country named. A pretty place, more beautiful than many of the show-places of the world, beautiful in its habitable parts, but more beautiful in those tracts covered with forest jungle where the foot of man seldom treads, and the stillness of which is only broken by the weird cry of the hooluck* or the scream of a night-bird hunting its prey."¹

[*The hooluck is a black monkey; peculiar to Assam.]

As the traveller climbs down and enters the valley he gets the impact of reality and feels a little different though it may not entirely be a case of paradise lost. He would pass through rice fields, green lands covered with grass, clusters of trees and bamboos and neat prosperous-looking villages. The villages are situated within clear and well-defined boundaries and except in the case of villages lying along the bank of a river, do not stretch in one line. Here and there small hillocks and low ranges of hills rise above the ground, which together with the lakes and rivers break the monotony of the flat surface of the valley.

1.6 Climate

Manipur enjoys on the whole an equable climate though it admits of variations in various parts of the district on account of different elevations. Most of the places in the valley and in the hills

have a cool and pleasant climate. One, however, experiences oppressive heat in summer at places like Jiribam adjoining the Cachar district of Assam and Moreh on the Indo-Barma border and intense cold in winter up in the heights of Ukhrul, Mao, Tamenglong and some other hilly regions. But these extremes are confined only to a few places and are not therefore representative of the climate of the district as a whole.

The rainy season starts from June and lasts upto September. The cold season lasts from December to February, and January is the coldest month. By far March and October are the most pleasant months. April and May are the hot season though the heat in these months alternates with occasional rains and does not assume any disturbing proportions. One does not feel any abrupt change in the succession of the seasons. The valley enjoys a more pleasant climate than the hill areas. There is virtually no hot season in some of the hill areas.

There is no meteorological observatory in the more elevated hill areas of Manipur, the only one observatory in the district being situated at Imphal at an elevation of about 2,600 feet. No accurate and reliable records of meteorological conditions in the hills are therefore available. The observatory at Imphal probably records fairly representative meteorological conditions of the valley area. Temperatures rise from March onwards and day temperatures are highest in April and May though the nights continue to be cool. During the monsoon season there is practically no difference in the day temperatures as in April or May though the night temperatures are higher. The temperatures begin to go down from the month of October.

1.7 Rainfall

The district enjoys an adequate amount of rainfall. Rainfall has been recorded at four stations for quite a number of years. On account of the hilly nature of the terrain and varying

¹ "My Three Years in Manipur" by Ethel St. Clair Grimwood.

elevations of different localities rainfall varies from place to place. The distribution of rainfall is higher in the hill areas than in the valley. While the average annual distribution of rainfall at Imphal which is in the valley is 1413 mm. (55.63") that for Tamenglong, the headquarters of the Tamenglong Sub-division lying to the west of the valley is 4017 mm. (158.15"). Ukhrul which lies at a height of about 6,000 ft. enjoys an annual rainfall of 1799 mm. (68.46").

While some rain occurs in all the months of the year, most of the rain falls during the period from April to October. The monsoon season from June to September accounts for a little over half the annual rainfall. Besides a considerable amount of rainfall thunderstorms occur in April and May. The average annual rainfall for the valley is 1413 mm. (55.63"), while it is difficult to work out the average for the hill areas on account of the widely varying amounts of rainfall that occurs in these areas. The number of rainy days in a year, on which there is an average rainfall of about 2.5 mm. (10 cents) varies from 100 to 150. The highest recorded rainfall in the district that occurred during 24 hours was 236.5 mm. (9.31") at Tamenglong on April 26, 1934.

1.8 Fauna

A variety of fauna is found in the district. This is due to the varying climatic conditions obtaining in different parts of the district. Among the larger kinds leopards are found in the hills surrounding the valley. It is said that tigers were found in the past in the valley and in the adjoining hills, but they are not heard of these days. Elephants are also found mostly in the thick forests of the Jiribam sub-division but they are by no means common. Besides, there are the bison or mithun and several varieties of jungle-cats. The wild pig is also commonly found in almost all parts of the district.

Of the smaller type of fauna belonging to the deer-tribe there are several varieties the sambar, the spotted deer and the barking deer, though their number has been drastically reduced in recent

years as a result of indiscriminate shooting and netting. The Antlered Deer which is found in Keibul Lamjao to the south of the Loktak and which is said to be extinct in other parts of India, has earlier been mentioned. Two kinds of black bear are also seen in the high hills, especially in the hills lying to the north of the valley. Among the other animals that are commonly found in the district are monkeys, rats and others.

A large variety of game-birds is found in the hills and in the valley. The more notable among these are the partridge, the jungle fowl, snipe, quail, duck, geese and teal. Besides, there are the common birds found all over India.

1.9 Flora

In spite of the limited area covered by the district, its vegetation is rich and varied in character. This is because of the different climatic conditions found in the district and its peculiar physiography. Contiguous geographical areas possess similar flora on account of the similarity of climate that obtains in those areas. The district which has boundaries with Burma on the east and the south, with the Lushai hills on the south, with Cachar on the west and with Nagaland on the north, naturally shares the flora of each of her neighbours at least in the border areas. The oval-shaped, fertile valley is rich too in flora with various types of trees and bamboos giving it a sylvan character. The following are some of the more commonly found trees in the district.

Albizia Spp. (Khok), *Artocarpus Hirsuta* (Heirukokthong), *Aquilaria Agallocha* (Agor), *Salmalia Malabarica* (Tera), *Eugenia Praecox* (Seleima), *Castanopsis* Spp. (Sahi), *Mesua Ferrea* (Uthau), *Mangifera Indica* (Heinou), *Phoebe Hainesiana* (Uningthou), *Albizia Lebbek* (Uyil) and *Schima Wallichii* (Usoi). The terms in brackets are local names.

Mr. Kingdon Ward who undertook some work of an exploratory nature in the eastern hills of Manipur has found a sizeable variety of plants and flowers in these hills. It is unfortunate that

eminent scholar confined his activities only in the eastern hills of Manipur. For, had his mission of exploration been extended to other parts of Manipur as well, we would have had a fuller picture of the rich flora of the district in all its variety. In the heights of the north-eastern hills alone he found as many as 150 flowering plants of the herb variety. Of particular interest is the Manipur Lily which Kingdon Ward discovered on the heights of the Sirhoi. This peculiar flower growing up in the cool heights attracted his attention. He collected more specimens and had them examined by experts. The plant proved to be a rare species of Lily found only in Manipur.

Wild tea is also found growing in the foot hills to the north-east of Imphal. Some of these trees have now grown about 30 feet above the ground. Some crude tea-plants are reportedly found in the hills of Tamenglong. A rich variety of orchids grows in various parts of the district.

1.10 Forests

The district as a whole is rich not only in forest resources but in the variety of the species of these resources. To the west of the valley towards the Cachar district of Assam we find the mixed ever-green forest while to the east and the south there are the Oak and Pine forests. The forests along the Burma border abound in Teak. Nearly 26 per cent of the area covered by the district is under forests.

The forest area of the district falls into four distinct and well-defined zones, viz., (1) Burma border forests, (2) Ukhrul Pine Forests, (3) Forests over-looking the valley, and (4) Barak Drainage Forests.

The Burma border forests lie along the Indo-Burma Border. The Kabaw Valley marks the eastern boundary of these forests. A number of small streams rise from the hills of Manipur to the east of the valley. The rich alluvial banks of these streams are congenial to the growth

of teak. The hills which slope down the Kabaw Valley are not so high and at places are only a few hundred feet above the ground. Besides teak, one comes across Oak and Eng in these forests. Evergreen forests mixed with muli bamboo also appear towards the southern portion of these forests. The area covered by these forests is roughly 200 sq. miles.

The Ukhrul Pine Forests are scattered almost all over the hills of the Ukhrul sub-division in the north-east of the district. These forests consist of pure Khasi pine interspersed with Oak, and mixed ever-green forests on hilltops. The area covered by these forests is hilly and cut up by deep streams which mostly drain into the Chindwin river of Burma. The altitude varies from 4,000 feet to 8,000 feet above sea-level. The area covered by the forests is about 550 square miles of which good pine forests occupy about 100 square miles. The remaining 450 square miles consist of scrub jungle mostly of oak.

The forests overlooking the valley are situated at no specified place. They are scattered all over the hills surrounding the valley and are named after the hills on which or the villages near which they are situated. The more important of these forests are the Langol, Heingang, Kam-bung, Kaubru and Khuga valley forests. The altitude of these forests ranges from 2,600 feet to about 8,000 feet. Various species of Oak are found in these forests and mixed evergreen forests are met with at higher elevations.

By far the most extensive and sizeable of the forests of the district are the Barak drainage forests. They are situated in the hills to the west of the valley, along the courses of the Barak river and its numerous tributaries and on the Manipur-Cachar Border. These forests are confined to narrow belts varying in width from 0 to 3 miles along the river Barak and its tributaries, viz., Jiri, Tuivai, Leimatak and Makru. As these forests have not been surveyed, it is difficult to make any accurate estimate of the area covered

by them but, at a rough computation, they cover an area of 750 square miles. The region is very hilly and cut up by rivers which flow in parallel valleys of varying width and gradient, and rainfall in this area is the heaviest in the district. Uningthou (*Phoebe Hainiana*), Sahi (*Castanopsis* spp.), Khok (*Albizia* spp.), Tera (*Salmaia Malabarica*), Agor (*Aquilaria Agallocha*), Usoi (*Schima Wallichii*), and Uthau (*Mesua Ferrea*) are some of the important trees that grow in these forests. There are also vast tracts of muli bamboos intermixed with trees in these ever-green forests.

1.11 Mineral Resources

As yet no thorough geological investigation has been conducted in the district to find out its potential mineral resources. It is generally held that the district is poor in mineral resources. Iron, copper, salt and lime are found in limited quantities. It is believed, as a result of a preliminary investigation in the north-eastern portion of the district that a fairly large quantity of nickel may be found.

Iron is found in the valley and is confined more or less to the swampy alluvial bays. The bed in which the ore lies is found covered with a layer of clay and the ore is extracted by the indigenous method of digging into the earth and iron is obtained by heating the same in furnaces. Copper is found in the south-eastern hills of the district bordering the Kabaw Valley.

Lime in the shape of lime-stone deposits occurs in Khangoi and Nungshangkong in the north-eastern portion of the district. Lime pits are also found at Tangjeng, Toupokpi, Khubungkhunou and Kangbung near Sugnu, Aimon Khunyai, Nungjaopokpi and Soubom near Kakching. Coal is reported to occur in some parts of the Jiribam Sub-division.

Quantitatively the most important mineral resource of the district is salt. It is found mainly in the eastern and southern corners of

the valley, near the foot-hills. The chief brine wells and springs are located at Ningel, Shikhong and Chanarakhong in the eastern part of the valley and at Waikhong and Kama near Sugnu in the south. Other salt springs are at Salungpham and Kabrangkhong, Kumbi Laikhong, Maibam Lokpaching and Jubarajkhong (near Heirok). Salt is extracted by evaporating the water from these brine wells and springs. It is believed that large deposits of rock-salt will be found if these numerous sources are properly worked.

1.12 Geological Formation

According to the geologists, the physical features of the district indicate some degree of geological antiquity. They trace the geological formation of the territory occupied by the district to the ice-age. Geographically, Manipur and the territories immediately surrounding it lie on a plateau which stretches northwards towards Central Asia. Along its eastern frontier the physical aspects of the district exhibit some evidence of glatiation. The existence of long level ridges with altitudes varying from 6,000 feet to 8,000 feet, above sea-level suggests an ancient plateau. There are also several U-shaped valleys, a shape which is believed to have been caused by a long process of glatiation. The assumption therefore is that the Manipur valley had once been a lake fed by the water of the melting snows of the plateau. This lake was gradually silted up by the rivers flowing down into it from the plateau and this, according to this assumption, is how the present valley came into being.

1.13 Earthquakes

The district is liable to seismic disturbances. Slight tremors are felt almost every year. The year 1869 recorded a severe shock which did a good deal of damage. The great earthquake of 1897 was also felt in Manipur but the damage done was insignificant. The recent earthquake of 1950 which caused widespread damage to NEFA and Upper Assam also rocked the district though it did not result in any damage.

2. BRIEF HISTORY

2.1 Though the pattern of district administration headed by a District Collector who has been described as "one of the hardest-worked wheels of the governmental machinery" is of very recent introduction in Manipur, and the district as such came into being only in the wake of the integration in 1949, of the then State of Manipur with the Union of India, it will be worthwhile to have an idea of the historical background of the district. For, the present is inextricably linked with the past which cannot therefore be ignored in any scientific study of the present.

The early history of Manipur is lost in the mist of antiquity. Colonel McCulloch who has written a remarkable account of the Manipur valley believes that "from the most credible traditions, the valley appears originally to have been occupied by several tribes, the principal of which were named Koomul, Looang, Moirang and Meithei, all of whom came from different directions. For a time, the Koomul appears to have been the most powerful, and after its declension, the Moirang tribe. But by degrees the Meithei subdued the whole and the name Meithei has become applicable to all. Tradition brings the Moirang tribe from the south, the direction of the Kukis, the Koomul from the east, the direction of the Marrings, and the Meithei and the Looang from the north-west, the direction of the Kabuis." McCulloch and others consider on the basis of similarity in dress and structural types of houses, and of certain linguistic affinities that the inhabitants of the valley are the descendants of the hill-tribes inhabiting the surrounding hills while the Meitheis claim for themselves a Hindu and western descent. While the question of the origin of the Meitheis is not yet free from controversy and nothing definite has been ascertained thereon there appears to be a good deal of substance in the view offered by yet another section of opinion that they belong to the Indo-Mangoloid stock with some

admixture of Aryan blood caused by successive waves of Aryan invaders that passed through the valley in pre-historic times. Regarding the early history of Manipur Johnstone had this to say. "In the days when the Indian branch of the Aryans race was still in its progressive and colonising stage, this district was repeatedly passed over by one wave after another of invaders, intent on penetrating into the remotest parts of Burmah. We have no means of ascertaining what Government it had before the year 700 A. D., but it is believed that a monarchy prevailed at that era."

Of the history of Manipur prior to 1714 A.D., no authentic records have so far been unearthed. But from hints here, and suggestions there, it has been ascertained that she had been existing as an independent kingdom from very early times; that there were small principalities struggling for supremacy; that during the reigns of powerful kings her frontiers extended to the east and the west, far beyond the present boundaries; that there were frequent bloody battles for succession to the throne; that there were contacts with the then neighbouring kingdoms of Shan and Pong; that the Meitheis were competent horsemen and skilful swordsmen; and that just as she had territorial ambitions over the neighbouring States, her beautiful valley attracted the attention of her neighbours especially from across the eastern border resulting in devastating attacks and reprisals. In his book "A Pageant of Burmese History", W.S. Desai, describes Manipur's relations with Burma in the following words:—

"Information as to the early relations between the Burmans and Manipuris is lost in the mist of pre-history. Later information, as to the period from the 17th to the 19th century, reveals, however, a terrible relationship of plunder and devastation operating from both sides, to the damage of both peoples. There is nothing strange however, in this drama of blood and fire. To plunder a

neighbouring State was almost a department of Government, from which high profits could be made. It did not matter if, by so doing, counter-raids were invited. That was the way of life."

The modern history of Manipur dates from the year 1714 when Pamheiba is said to have shot his adopted father, Charairongba, accidentally while hunting, and succeeded him under the name of Garib Newaz. He occupied the throne for 40 years from 1714 to 1754. "He was a brilliant leader marked by much intrepidity. Under him Manipur assumed an out-and-out aggressive role towards Burma and its declining dynasty of rulers." Several expeditions were led into Burma and it is said that a Burmese Raja who acknowledged the suzerainty of Manipur was put on the throne at Ava. But the event which brought about far-reaching social consequences was the introduction, or, as some would have it, revival of Hinduism. In 1754, Garib Newaz led his last expedition into Burma, accompanied by his eldest son Sham Shah, and on their way back, they were attacked and killed by a force sent by Ajit Shah, one of the younger sons of Garib Newaz. After this Ajit Shah ascended the throne and reigned for a period of five years. In the fifth year of his reign his complicity in the murder of Garib Newaz was brought to light. He was thereafter driven out by his brother Bharat Shah, to die an exile in the Jaintia Hills.

After the death of Garib Newaz the power and prestige of Manipur declined rapidly and from 1755 A.D. to 1826 A.D. when the Treaty of Yandabo was concluded, the history of Manipur is one of successive Burmese invasions and internal disputes and dissensions. The history of succession to the throne makes a lurid tale of treason, intrigue and rebellion. The throne of Manipur changed hands in quick succession thrice during the period from 1754 A.D. to 1764 A.D. In 1763 A.D. the country was invaded by the Burmese and though they occupied it only for a few days,

they committed terrible atrocities and carried away a large number of persons. The Burmese made a second invasion in 1765 A.D. during the reign of Jai Singh (1764-98) and in the course of this invasion the Manipuris were defeated at Tammu. As a result, Jai Singh had to take refuge in Cachar. There was complete anarchy and confusion then in Manipur and one pretender after another occupied the throne in quick succession. The period of 60 years from 1764 A.D. to 1824 A.D. saw Manipur in a very dark period of her history; during this period she was invaded four times by the Burmese who remained in occupation of the country for the last five years of this period. Leaving aside the numerous petty princes who followed one another on the throne of Manipur, the reigning Raja was driven out from the GADI no less than six times and twice had the reigning prince been murdered at the instance of his own brother. During this period therefore Manipur was plunged into the worst period of anarchy in her history.

Things, however, began to take a turn for the better after the appointment in 1835 A.D. of a British Political Agent whose presence in the country had the effect of guaranteeing it safety against external aggression, though internal troubles with regard to the throne continued. In the short period of 32 years from 1834 to 1866 A.D. there were no less than 13 attempts on the throne by filibustering adventurers from Cachar and two attempts of revolution from within. The right of primogeniture is not strictly acknowledged, and any descendant of the ruling family who felt that he had but the slightest chance of success did not hesitate to make an attempt on the throne. Each new succession was marked by uprisings. In 1886 and 1887 there were two moves calculated to dislodge Sur Chandra Singh, the Raja from the throne but these were put down with British aid. These internal disputes culminated in the palace revolt of 1890 which led to the disaster of 1891 and changed the course of the history of Manipur.

2.2 1891 And After

In September, 1890 A.D., Maharaja Surchandra Singh was driven out from his palace by his two youngest brothers at the instigation of Senapati Tikendrajit Singh. The Maharaja, who had little reputation for courage, fled from the palace and sought refuge in the Residency. He probably felt that he was not safe even in the Residency and declared his intention to abdicate the GADI and proceed to Brindaban on a pilgrimage. He left Manipur the next day for Cachar with a few followers and on arrival in British India repudiated any intention of abdicating and sought the assistance of the Government of India to regain the throne of Manipur. In the meantime, Jubaraj Kulachandra Singh, who was away from Imphal when the palace coup took place, returned and proclaimed his accession.

The Government of India, after considering the matter came to the conclusion that Jubaraj Kulachandra Singh, who had already proclaimed his accession should be confirmed as Maharaja and that the Senapati, who was known to be hostile to the British should be removed from the State. In order to carry out this decision Mr. Quinton, Chief Commissioner of Assam arrived at Imphal on March 22, 1891, with an escort of 400 sepoy under the command of Lieutenant-Colonel Skene, and a Durbar was announced for the same day. Quinton's intention was to arrest the Senapati in the Durbar itself; the doors of the Durbar room were therefore, all locked with the exception of the front door and guards were stationed in the adjoining rooms and also around the Residency. Tikendrajit got information about the strong contingent of guards posted at the Residency and was already suspicious of the intention of Quinton. After waiting at the gate for some time he returned to the palace and refused to attend the Durbar on the plea of ill-health. He sent the same excuse for nonattendance at the Durbar fixed for the next day. He declined to surrender himself when asked to do so by the Political Agent, and the Regent, Kulachandra

Singh expressed his inability to arrest the Senapati. Thereupon Quinton decided to arrest Tikendrajit by force.

The troops sent by Quinton to the house of the Senapati in the early morning of 24th March were fiercely attacked and a serious engagement followed throughout the day; an armistice was however, agreed to on both sides in the evening and firing temporarily ceased. Tikendrajit perhaps anticipated that, after the failure of the Durbar, attempts would be made to arrest him by force and was determined to resist attempts at his forcible arrest. The attack on the palace was retaliated with heavy fire on the Residency and Quinton thought it expedient to negotiate with Tikendrajit. In the evening, Quinton, accompanied by four other officers, including Grimwood, the Political Agent, entered the fort never to come out of it. It is alleged that Grimwood was fatally speared by a Manipuri Sepoy, and Quinton and the other officers were surrounded by an excited crowd. After about two hours Quinton and the others were beheaded by the public executioner.

As soon as the news of these events reached the Government of India, three columns of troops marched on Manipur from Kohima, Silchar and Tammu. The columns advancing from Kohima and Silchar hardly met with any resistance, but the third column under Lieutenant Grant, proceeding from Tammu was seriously engaged by the forces of Manipur at Khongjom and Thoubal on the Burma Road, though eventually the Manipuris were defeated. The columns arrived before the palace on the morning of the 27th April and found the same deserted. Heavy retribution fell on the perpetrators of the revolt. Thangal General and others were placed on trial before Maxwell, the Political Agent, while the Regent, the Senapati and Angom Sana, the third brother were tried before a special Commission. The Senapati and Thangal General were sentenced to death and the others to transportation for life.

The manner in which Quinton set about the task of carrying out the orders of the Government of India and arresting the Senapati was the subject of some controversy both in England and in India. Lord Lansdowne, the then Viceroy of India strongly defended the action of Quinton and believed that the latter was incapable of carrying out instructions in a treacherous manner. The Viceroy stated in a telegram to the Secretary of State that they could not permit a revolt against a Chief recognised by the British to remain wholly successful and unpunished, and that, therefore, they decided that the Senapati who was the leader of the revolt and who was "a man of turbulent and infamous character" must leave the State. As to the question of treachery, imputed by some to Quinton, the Viceroy had this to say in the same telegram: "We did not prescribe method of his deportation, and we did not know Quinton intended to arrest him in Durbar; but we considered that Durbar was suitable place for announcement of our orders, including order for banishment of Senapati, and we see not treachery whatever in Quinton's intention to arrest Senapati there and then if he declined to submit to these orders which, as subject of subordinate Native State he was bound to obey."

It appears that, Lord Lansdowne, was only defending a *fait accompli* in the above and that no clear instructions had been issued to Quinton regarding the mode of the Senapati's arrest. While agreeing with most of the arguments advanced by Lord Lansdowne the Secretary of State administered a mild admonition, in a despatch on the matter: "... I am equally satisfied that ... and that your decision to remove the Senapati from Manipur and intern him in India was sound and politic ... One question remains, which I think, may be better dealt with in considering the orders of your Government than in considering the action of your subordinates. I refer to Mr. Quinton's intention for causing the Senapati, should he not surrender, to be arrested in the Durbar ...

I fully concur with you that nothing like treachery can be imputed to Mr. Quinton in this matter but care should be taken that persons summoned to Darbars, which are almost universally understood to be held for ceremonial purposes, should not be subjected therein to measures of personal restraint."

It is clear from the above that the last word has not yet been said on the question as to whether Quinton's action amounted to treachery or not, but as we look back, it certainly smacks of the adoption of a sort of Trojan-horse-tactics in empire building. With regard to the character of the Senapati as well, who has been described as "a man notorious for his turbulent and violent character" Mrs. Grimwood, who has reason to be unhappy about the whole unfortunate episode of 1891, records other and favourable impressions in her book on Manipur. The British who were then at the height of their power could not tolerate the existence of strong men who hurled defiance at their encircling authority in a State they were trying to bring under their control. And even to-day, in spite of one-sided and unanswered insinuations against them, Tikendrajit (or Koirang Jubraj as he is commonly known), and Thangal General are regarded, by the people as peerless patriots, precious beyond pearls, as all true patriots are.

After these events the future of Manipur had to be decided and the Government of India, after what appears to be some anxious consideration on the moral right of Manipur to exist as a State, decided to regrant the Manipur State, and notified this decision in the Gazette of India, No. 1700 E, dated the 21st August, 1891. With regard to the selection of the Ruler, the choice fell on Churachand Singh, a minor collateral relative of the deposed Maharaja and a great grandson of Nar Singh, a former Ruler of Manipur. The Sanad under which Churachand Singh was selected to be the Chief of Manipur laid down, *inter alia* that the Chiefship of Manipur would

be hereditary in his family and would descend in the direct line by primogeniture, provided that in each case the succession is approved by the Government of India. Thus the Sanad did away with a bad system of succession under which brother could succeed brother, a system which in the past had landed the State into disorders. The investiture of Raja Churachand was held on 29th April, 1892, and the Political Agent administered the State during the minority of the Raja. The Raja assumed ruling powers in 1907 and took over from the Political Agent the administration of the State assisted by a Durbar consisting of a British Officer, drawn mainly from the I. C. S. of the Assam Cadre as President and six Manipuri members. In recognition of services rendered to the British Government during the first World War His Highness was awarded, the O. B. E. in 1917 and given the hereditary title of Maharaja in 1918. In 1934 he was made a K. C. S. I. Sir Churachand Singh announced his intention to abdicate, in September 1941, after a reign of 50 years; but before this could be arranged, he died in Nabadwip in November, 1941.

He was succeeded by his eldest son, Maharaj Kumar Bodh Chandra Singh. Shortly after the accession of Maharaja Bodh Chandra Singh, Manipur became the target of attack by the advancing Japanese Army who had already overrun Burma. On May 10th and 16th, 1942 there were air-raids on Imphal and the bombs damaged some buildings in the heart of the town. For

some time Imphal was evacuated and the Civil administration ceased to function. Though, under the leadership of the Maharaja and the President, Manipur State Durbar, the civil administration managed to function from about July 1942, conditions were not quite normal till the cessation of hostilities in 1945. Manipur witnessed the worst phase of the war in March, 1944, when the road to Dimapur was cut by the Japanese 15th Division and the siege of Imphal had begun.

After the end of the second World War there was a demand in the State for a representative Government. His Highness agreed to the setting up of a constitution-making committee and on the lapse of British Paramountcy on 15th August, 1947, a Government was formed with the elected representatives of the people for the first time in the history of Manipur. Maharajkumar Priyabrata Singh, the Maharaja's younger brother became the Chief Minister of the State. After a brief period of existence more or less outside the pale of India, the Maharaja signed a merger agreement by which the State was integrated with the then Dominion of India on October 15, 1949. The Government of India abolished the post of Political Agent and Manipur became a Part "C" State administered by a Chief Commissioner. With the abolition of Part "C" States, Manipur became a centrally administered Union Territory under a Chief Commissioner. The Maharaja was granted an annual pension of Rupees three lakhs.

3. ADMINISTRATIVE SET-UP

3.1 Present Set-up

For administrative purposes the district is divided into 10 Sub-divisions and each Sub-division is placed in the charge of one Sub-divisional Officer. There are 6 hill Sub-divisions and 4 valley Sub-divisions. While the Sub-divisions in

the valley consist of only one circle each, the Sub-divisions in the hills are further sub-divided into two to three circles. Each circle is generally placed in the administrative charge of a Sub-Deputy Collector. Details about the Sub divisions, their areas and populations according to the 1961 Census are given below :—

District/ Sub-division.	Name of head quarters	Area in Sq. miles	No. of inha- bited villages	No. of circles	1961 popu- lation	Percen- tage of area.	Percen- tage of popula- tion
1	2	3	4	5	6	7	8
MANIPUR	Imphal	8,628	1,866	19	780,037	100.00	100.00
Imphal West	do	161	142	1	178,235	1.87	22.85
Imphal East	do	131	147	1	122,655	1.52	15.72
Bishenpur	Bishenpur	196	61	1	78,853	2.27	10.11
Thoubal	Thoubal	200	113	1	134,924	2.32	17.30
Ukhrul	Ukhrul	1,832	223	3	48,590	21.23	6.23
Mao & Sadar Hills	Mao	982	368	2	72,039	11.38	9.24
Tamenglong	Tamenglong	1,772	163	3	36,518	20.54	4.68
Jiribam	Jiribam	264	115	2	18,126	3.06	2.32
Churaoham- pur	New Chura- chandpur	1,738	290	3	62,418	20.14	8.03
Tengnoupal	Tengnoupal	1,352	244	2	27,679	15.67	3.55

3.2 General Administration

The District Collector, or the Deputy Commissioner as he is commonly known, is in charge of the general administration of the district, law and order, treasury, jails, land revenue and civil supplies. He is assisted by three Additional Deputy Commissioners, one each for Development, Settlement and Tribal Welfare, and by one Additional District Magistrate. The Sub-Divisions are placed in the charge of Sub-Divisional Officers who are assisted by Sub-Deputy Collectors.

3.3 Revenue Administration

It appears that, in pre-British days, before the year 1892 A.D. there was no well-defined system of land tenure. All land belonged to the

Ruler who could give away or retain land as he pleased. Most of the land was held by members of the Royal family, nobles and officials. Cultivable land, at the rate of one PARI each (2½ acres) was also granted to those who attended "Lalup", a system of forced labour.

The year 1892 A.D. was an important landmark in the history of land tenure in Manipur. In April of that year, Major Maxwell, the then Political Agent announced the termination of the *lalup* system and the institution of a house-tax in its place, at Rs. 2.00 per house per annum. The introduction of a uniform rate of annual land revenue of Rs. 5.00 per pari was also made known. The tax on houses at Rs. 2.00 per house which was of very unequal incidence, being the same for the rich and the

poor alike, was abolished during the year 1899-1900 A.D. and the compounds of all were assessed by actual measurement at the same rate of revenue as was levied on cultivation lands, i.e. at Rs. 5.00 a pari. Thus Maxwell's measures introduced a break from the past in that it did away with the assumption that all land belongs to the Ruler. The cultivators now held land directly under the State on payment of land revenue in cash. Though land tenure was not regulated under any codified law, the cultivators, in effect held land as tenants of the State and had rights of occupancy, inheritance and transfer subject to the payment of land revenue to the State. With the passage of time, growth of population and its pressure on land, another class of cultivators came into being—cultivators who held land not directly from the State but as tenants from the *Pattadars* who held land directly from the State. This new class of cultivators hold land on payment of a standard grain-rent known locally as LOUSAL of 12 *pets* of paddy (about 18 maunds of paddy) to their landlords. Though there is no law of safe-guarding the interest of the tenants *vis-a-vis* the landlords, the relationship between them has always been happy and instances of eviction are rare except in cases of gross and continued failure to pay LOUSAL.

Thus even to this day there are two main categories of interest in land :

- Persons holding land directly under the State as *Pattadars* on payment of land revenue,
- Persons holding and cultivating land under the *Pattadars* on payment of grain-rent to them.

In addition to these categories of interest in land, there are holders of lands known as "Khorposh" and "Tolop Lou". "Khorposh" lands are maintenance lands granted to the close relations of the Maharaja while "Tolop Lou" are lands held by members of Panchayats in lieu of salaries. Both of these lands were formerly

held revenue-free but they have now been assessed at half the revenue payable for other lands.

The then Manipur State Durbar extended the Assam Land and Revenue Regulation, 1886, to Manipur in 1947 in order, perhaps, to provide legal sanction to the collection of land revenue. In 1952, after the integration of the State, the Central Government, in exercise of the powers conferred by Section 2 of the Part C States (Laws) Act, 1950, extended to Manipur, the same Regulation, as then in force in Assam, after making some minor changes to make the provisions of the Regulation applicable to Manipur. In 1960, the Manipur Land Revenue and Land Reforms Act, 1960 (Act 33 of 1960) was enacted by the Parliament. The salient features of the Act which received the assent of the President on 13th September, 1960, are as follows :—

- it extends to the whole of Manipur except the hill areas of the district ;
- it is mandatory on the Administration to institute and constantly maintain an inquiry into the profits of agriculture ;
- assessment of land revenue should be based on the profits of agriculture in so far as it relates to lands used for agricultural purposes ;
- it provides for conferring permanent, heritable and transferable rights in land ;
- land must be personally cultivated. Exceptions have been made in the case of persons suffering from mental or physical disability, widows, members of Armed Forces, etc.
- it provides for resumption of land by a landowner from his tenants for personal cultivation by the former upto a limit which varies according to the size of the holding of the landowner ;

- (vii) it provides for transfer of ownership of land to the tenants in respect of land which cannot be resumed for personal cultivation by the land owner;
- (viii) it provides security of tenure to the tenants and has provisions for determining equitable and reasonable rent;
- (ix) it fixes a ceiling of 25 acres for a family of five persons. Where the number of family members exceeds five, five additional acres for each member in excess of five is permitted over the limit of 25 acres subject to a maximum of 50 acres in the aggregate;
- (x) it has provisions for the prevention of fragmentation of holdings; and
- (xi) it provides for payment of compensation to landowners for non-resumable land in respect of which ownership is transferred to tenants, of an amount equal to thirty times the full land-revenue payable for the land.

With regard to the ceiling of 25 acres, the Act empowers the Administrator to exempt the provision in the case of special cultivation like sugar, tea, coffee, etc.

Rules have also been framed under the Act. The provisions relating to land revenue, land management, prevention of eviction of tenants, fixation of equitable and reasonable rent and prevention of fragmentation of holdings have been enforced in June, 1961. But as yet it has not been found expedient to bring into force the provisions relating to transfer of ownership of land to tenants and fixation of ceiling on holdings on the basis of the existing land records. The Act has also been extended to parts of Jiribam and Churachandpur Hill Sub-divisions where there are low lands and rice cultivation is being carried on. The Settlement operations now being held in the district have not been completed and the change in the rates of land revenue proposed in

the Act, cannot, therefore, be introduced. At present there are three rates of revenue in the district :—

- (i) Rs. 3.60 P per acre of cultivation and homestead land,
- (ii) Rs. 1.80 P per acre of maintenance land, and
- (iii) Rs. 3.00 per house as Hill House Tax for the hill areas.

3.4 Assembly and Parliamentary Constituencies

There are two Parliamentary Constituencies in the district, viz., (1) Outer Manipur Parliamentary Constituency, and (2) Inner Manipur Parliamentary Constituency. The seat for the Outer Manipur Parliamentary Constituency is reserved for the Scheduled Tribes. There are 15 Assembly Constituencies in each of the Parliamentary Constituencies. The total number of Assembly Constituencies in the district is therefore 30. In the Assembly Constituencies, no seats have been reserved for members of the Scheduled Tribes and the Scheduled Castes. There is no double-member constituency in the district. The total number of voters on the rolls for the General Elections held in 1962 was 4,05,210. A list of the Assembly Constituencies together with the number of voters on the rolls is given below:—

Name of Constituencies.	No. of Voters.
1. Khurai	13,710
2. Wangkhei Kongba	19,898
3. Irinbung Yairipok Top Chingtha	10,686
4. Lamlai Keirao	11,882
5. Sagolmang	20,962
6. Sekmai Lamsang	10,086
7. Salam Khumbong Konthoujam	9,925
8. Uripok Lalambung Thangmeiband	14,686
9. Sagolband	16,008
10. Keisamthong	13,633
11. Singjamei	16,230
12. Wangoi-Mayang Imphal	13,974
13. Nambol Keinou	14,198
14. Bishenpur Moirang	16,756
15. Kumbi Thanga	10,291
	212,925

Name of Constituencies	No. of voters
16. Hiyanglam Sugnu	12,261
17. Kakching Wangjing	14,378
18. Charangpat Khongjom	15,070
19. Thoubal Changkhong	12,763
20. Lilong	11,391
21. Tengnoupal	15,604
22. Pheisat	10,304
23. Ukhrul	15,927
24. Mao East	10,266
25. Mao West	9,473
26. Aimol	11,008
27. Tamenglong	10,965
28. Jiri	8,926
29. Thanlon	11,886
30. Churachandpur	21,163
	192,285
	405,210

3.5 Administration of Justice.

Administration of justice in the district is under the District and Sessions Judge. On the criminal side there are 34 Magistrates including the District Magistrate and the Additional District Magistrate. Generally the Sub-divisional Officers are invested with the powers of a Magistrate 1st Class and the Sub-Deputy Collectors with the powers of a Magistrate 2nd Class.

On the civil side the District and Sessions Judge is assisted by two Courts of Subordinate and Additional Sessions Judges and one court of Munsiff for the valley area, with their headquarters at Imphal. In the Hill areas of Ukhrul, Churachandpur, Tamenglong, Mao, Tengnoupal and Jiribam he is assisted by the Sub-Divisional Officers and Sub-Deputy Collectors who have been invested with the powers of a Munsiff. The Sub-Divisional Officers have pecuniary jurisdiction upto Rs. 2,000.00 while the Sub-Deputy Collectors have similar jurisdiction upto Rs. 500.00. An exception has been made in the case of the Sub-Deputy Collector of Mao whose pecuniary jurisdiction has been extended upto Rs. 1,000.00.

The court of the District Judge is the principal court of original jurisdiction for the whole civil district of Manipur. The Court has also appellate

jurisdiction over all appellable orders and decrees of the Sub-Judges where the value does not exceed Rs. 5,000 and over all such orders and decrees passed by the Munsiff. The District Judge has also been made the Special Judge under the Prevention of Corruption Act, 1947.

The two courts of Subordinate judges have unlimited pecuniary jurisdiction while the pecuniary jurisdiction of the Munsiff is Rs. 2,000.00

3.6 Police

At the head of the Police administration of the district is the Superintendent of Police who is assisted by Additional Superintendents and Deputy Superintendents of Police. There are also a large number of Inspectors, Sub-Inspectors, Assistant Sub-Inspectors, Head Constables, and Constables. In 1961 the strength of the Civil Police was as under :—

(i) Superintendent of Police ...	1
(ii) Additional Superintendent of Police and Deputy Superintendent of Police	9
(iii) Inspectors, Sub-Inspectors and Assistant Sub-Inspectors	154
(iv) Head Constables	37
(v) Foot Constables	726

The Police Department has a regular C. I. D. branch and a Police wireless grid covers all the important administrative centres of the district. There are 10 Police Stations and 9 Police-Out-Posts. Their headquarters and the names of the Sub-divisions in which they are situated are shown below :—

(I)		
Police Station		Sub-division
1. Imphal	—	Imphal West
2. Thoubal	—	Thoubal
3. Bishenpur	—	Bishenpur
4. Mayang-Imphal	—	Imphal West.
5. Churachandpur	—	Churachandpur
6. Tamenglong	—	Tamenglong
7. Nungba	—	do
8. Ukhrul	—	Ukhrul
9. Jiribam	—	Jiribam
10. Mao	—	Mao & Sadar Hills.

(II)

Police Out-Post	Sub-division
1. Kangpokpi	— Mao & Sadar Hills
2. Imphal Town	— Imphal West
3. Pallel	— Thoubal
4. Morch	— Tengnoupal
5. Sugnu	— Thoubal
6. Thingat (Singhat)	— Churachandpur
7. Tipaimukh	— do
8. Khorasom	— Ukhrul
9. Chassad	— do

The former State Military Police was re-organised after the integration to form the nucleus of the Manipur Rifles. Recruitment and training of the force is conducted on the lines of a light infantry battalion. The strength of the Manipur Rifles is as follows :—

Commandant	...	1
Asstt. Commandant	...	3
J.C.O.	...	30
N.C.O.	...	196
Rifleman	...	741

The unit is under the over-all control of the Superintendent of Police. The Commandant is, however, responsible for the training, discipline and welfare of the force.

Crime statistics for the district for the years 1960-61 and 1961-62 are shown in Tables 5-C&5-D in Part III.

3.7 Municipality

There is one Municipal Board for the town of Imphal which at present covers an area of 6.75 square miles and has a population of 67,717 persons according to the 1961 Census. The Imphal Municipal Board was constituted for the first time in 1956, under the provisions of the Assam Municipal Act, 1923 as extended to Manipur. The first election of the Board took place in 1956 when it consisted of 12 elected members. The life of the first Municipal Board expired on 31st March, 1962, and the second Municipal election was held on 30th March, 1962. The

present Municipal area is divided into 20 wards each of which is represented by one Commissioner. The Board consists of 22 Commissioners, two Commissioners being nominated. In the conduct of its day-to-day functions the Chairman of the Board is assisted by one Executive Officer. Details of receipts and expenditure of the Board from the year 1956 to 1960 are shown below :

Year.	No. of members.	Receipts.	Expenditure.
1	2	3	4
1956-57	12	Rs. 1,42,866.16	Rs 1,22,971.75
1957-58	12	3,00,334.64	1,51,878.59
1958-59	12	6,01,584.87	3,10,749.40
1959-60	12	3,41,539.17	5,71,364.68
1960-61	12	4,10,083.15	6,24,288.74

3.8 Township Committees and Village Authorities.

Though, for the purposes of the 1961 Census Imphal has been treated as the only town in the district there are numerous places in the rural areas of Manipur which have developed predominantly urban characteristics. Eight of these localities have been notified as small towns under the Assam Municipal Act, 1923, as extended to Manipur and Township Committees have been constituted for the management and development of these localities. The names of these places, the years of notification and the sub-divisions in which they are situated are shown below :—

Locality.	Year.	Sub-division.
1	2	3
(i) Yairipok Bazar	... 1954	... Thoubal
(ii) Sekmai Bazar	... 1955	... Imphal West
(iii) Thoubal Bazar	... 1956	... Thoubal
(iv) Oinam Bazar	... 1957	... Bishenpur
(v) Wangjing Bazar	... 1958	... Thoubal
(vi) Bishenpur Bazar	... 1958	... Bishenpur
(vii) Nambol Bazar	... 1958	... Bishenpur
(viii) New Churachandpur Bazar	... 1961	... Churachandpur

In the hill areas of the district Village Authorities have been constituted under the provisions of the Manipur (Village Authorities in Hill areas) Act, 1956, and the rules framed thereunder. These Village Authorities which also function as Village Courts have been playing an important part in the administration of justice both civil and criminal in the hill areas. Up to the year 1961-62, 371 Village Authorities have been constituted under the Act. The number of Village Authorities and the hill Sub-divisions in which they function are shown below :—

(i) Churachandpur	...	119
(ii) Mao & Sadar Hills	...	110
(iii) Tamenglong	...	87
(iv) Jiribam	...	15
(v) Ukhrul	...	20
(vi) Tengnoupal	...	20

Total :— 371

3.9 Manipur Territorial Council.

Although the Manipur Territorial Council which was set up under the provisions of the Territorial Councils Act, 1956 (103 of 1956) enacted by the Parliament and inaugurated in August, 1957, functions technically, not at the district level but at the level of the Union Territory as a whole, it will be worthwhile to give here a brief account of its constitution and functions. Under the Act, the total number of seats in the Territorial Council to be filled up by persons elected on the basis of adult suffrage from territorial constituencies has been fixed at 30. The Council consists of 32 members including two members nominated by the Central Government. An elector for any territorial constituency is eligible to become a member of the Council. The disqualifications for being a member of the Council are the same as those for becoming a member of either House of Parliament. The term of office of a member of the Council is five years. The Council has to select two members to be its Chairman and Vice-Chairman respectively. Members of the Council are entitled to receive such salaries and

allowances as may be determined by the Central Government. The Act also provides for the removal of the Chairman and Vice-Chairman of the Council under certain conditions.

The functions of the Territorial Council cover a wide range of subjects. The Central Government has, however, the authority to make exceptions impose and conditions with regard to the control and administration of subjects transferred to the Council. The more important of its functions are :—

- (i) construction, repairs and maintenance of such roads, bridges, buildings and tanks as are transferred to the Council ;
- (ii) establishment, maintenance and management of primary and secondary schools, appointment and training of teachers and construction and repairs of buildings connected with these institutions ;
- (iii) establishment, maintenance and management of hospitals and dispensaries, etc., other than those managed by the Central Government ;
- (iv) Construction, repairs and maintenance of embankments and irrigation canals for agricultural purposes ;
- (v) preservation, protection and improvement of livestock and veterinary services ;
- (vi) Public health and sanitation ;
- (vii) Superintendence and control of Panchayats.

Law and order, administration of justice, police, legislation, administration and collection of revenue, and forests have not been transferred to the Territorial Council.

As for the financial powers, the Council can, subject to the sanction of the Central Government, levy the following taxes :—

- (i) Taxes on professions, trades, callings and employment ;
- (ii) Tolls on bridges constructed or maintained at the cost of the Council.

The Central Government may pay to the Council sums equivalent to the proceeds of the following taxes attributable to the area or areas within the sphere of the Council's jurisdiction :

- (i) the net proceeds of entertainment tax,
- (ii) such percentage of the net proceeds of land revenue not exceeding 10 per cent as may be fixed by the Central Government ;
- (iii) the net proceeds of the taxes levied on motor vehicles.

The Act also lays down that the Central Government may, subject to conditions that it may impose, make such financial grants to the Council as it thinks fit. The Council is required to submit its budget proposals in a prescribed manner to the Central Government through the Administrator of Manipur. Accounts of receipt and expenditure of the Council are to be prepared, inspected and audited in such manner as the Central Government may direct.

The Administrator has the power to give to the Council directions considered necessary by him in respect of subjects, curricula, text books and standards of teaching in schools managed wholly or partly by it and the Council is bound to comply with such directions. The Administrator has also the authority to keep in abeyance the execution of any resolution or order of the Council if, in his opinion, such resolution or order is in excess of the powers conferred by law or the execution thereof is likely to lead to a breach of the peace or cause annoyance to the public. The Central Government may confirm, modify, or rescind the orders of the Administrator. It can also supersede the Council if it is satisfied that the Council is not competent to perform, or persistently makes default in the performance of its duties or exceeds the limits of, or abuses, its powers.

The Chief Executive Officer of the Council is appointed by the Administrator and the appoint-

ment of the Principal Officers in charge of Engineering, Health, Education and Veterinary Services is made by the Council with the approval of the Administrator. Appointment to offices carrying a salary of Rs. 300.00 per mensem or more can be made only after consultation with the Union Public Service Commission.

Since the inception of the Council in 1957 a number of subjects has been transferred to it for control and management. A statement of receipt and expenditure of the Council for the year 1960-61 is shown below :—

A		
Receipt		
1. Opening Balance	...	Rs. 1,34,098.68
2. Collection of earnest money	...	2,928.00
3. Deduction from bills	...	1,42,427.77
4. Cashiers' Security Deposit	...	1,700.00
5. Collection of security deposits	...	374.00
6. Total receipts from Central Government	...	98,95,200.00

4. POPULATION

Variation in population from 1901 to 1961

4.1 In 1951, the population of the district was 577,635. According to the 1961 Census the population has gone up by 202,402 and increased to 780,037. The rate of increase is 35 per cent which is the highest during the last 60 years. This high rate of growth of population during the decade is attributable to decline in death rate, improved medical facilities, migration from neighbouring States and perhaps a slight under-enumeration in 1951. The following table gives the growth rate in the district during the last 60 years :—

Year.	Population.	Decade Variation.	Percentage of Variation.
1	2	3	4
1901	284,465	—	—
1911	346,222	+ 61,757	+ 21.71
1921	384,016	+ 37,794	+ 10.92
1931	445,606	+ 61,590	+ 16.04
1941	512,069	+ 66,463	+ 14.92
1951	577,635	+ 65,566	+ 12.80
1961	780,037	+ 202,402	+ 35.04
1901 to 1961			+ 174.21

It may be observed that while the four decades from 1911 to 1961 showed a steady but unspectacular rise in the population of the district,

the decade from 1951 to 1961 has registered a sudden growth rate with the decade from 1901 to 1911 standing a distant second.

4.2 Density of Population.

The densities of population for the district as a whole, Imphal, the only town in the district, and the Sub-divisions are shown below :—

MANIPUR	Density per sq. mile
1. Imphal Town	90
2. Imphal West	10,032
3. Imphal East	1,107
4. Bishenpur	936
5. Thoubal	402
6. Ukhrul	675
7. Mao & Sadar Hills	27
8. Tamenglong	73
9. Jiribam	21
10. Churachandpur	69
11. Tengnoupal	36
	20

Imphal town with 10,032 persons per square mile has the highest density in the district. It may also be seen that the density is higher in the valley Sub-divisions of Imphal West, Imphal East, Bishenpur and Thoubal than in the hill Sub-divisions of Ukhrul, Mao & Sadar Hills, Tamenglong, Jiribam, Churachandpur and Tengnoupal. The lowest density is in Tengnoupal which has only 20 persons per square mile.

4.3 Rural/Urban Distribution.

Till the Census of 1961, there had been no uniform criteria to determine whether a place was rural or urban. In fact the criteria varied from Census to Census and rendered the data collected on the basis of them, incomparable. Uniform tests were, therefore, prescribed for the Census of 1961, by laying down that a place should be treated as an urban area if (a) it had a population of not less than 5,000 souls, (b) it had a density of not less than 1,000 per square mile, and (c) at least three-fourths of

its adult male population should be employed in pursuits other than agriculture. The second test, was not however, strictly applied in urban localities which did not attain as high a density as prescribed therein.

The definition of the term 'Village' remained practically the same during the entire Census period. It is a revenue village which is an administrative rather than a demographic unit. It has got a separate entity in that it has a distinct number assigned to it in the revenue records. It may consist of a single village with a group of houses or a number of hamlets with separate clusters of houses. It may be inhabited or uninhabited.

4.4 Rural Population

The total number of villages in the district is 1,908 out of which 42 are uninhabited. The total rural population of the district is 712,320. The average number of persons per inhabited village comes to 382. The proportion of the rural population of the district to its total population is 91:32. Percentage distribution of rural population by size group of villages is given below :—

Size group.	No. of villages.	Percentage to total No. of village.	Rural population.	Percentage to total rural population.
1	2	3	4	5
Less than 200	1,066	57.13	98,328	13.80
200—499	421	22.56	134,053	18.82
500—999	200	10.72	145,576	20.44
1000—1999	126	6.75	171,377	24.06
2000—4999	51	2.73	151,120	21.21
5000—9999	2	0.11	11,866	1.67
10000 and over	—	—	—	—

Nearly 80 per cent of the villages fall within the class range with less than 500 inhabitants and about 20 per cent belong to the size groups of villages with population varying from 500 to 9,999.

4.5 Urban Population

As has been pointed out earlier, there is only one town namely, Imphal, in the district. This town is the headquarters of the district. The size of the town coincides with the limits of the Imphal Municipality. It has a population of 67,717 which comes to 8.68 per cent of the total population of the district. The area of the town is 6.75 square miles.

Imphal has been treated as an urban area right from the first census of the district. In the absence of uniform tests for the determination of an urban area in the censuses prior to that of 1961, the population of the town has undergone variations that do not stand to reason. In the census of 1951 the population of the town shrank to the small, almost fantastic figure of 2,862. This is because, during that census, the area of the town was drastically reduced to 2 square miles constituting the area covered by the Imphal Bazar, the office and residential portions of the town, which was looked after by the then Imphal Town Fund. The Census

figures of the population of the town from 1901 to 1961 are given below though as stated earlier, they are not strictly comparable.

Year	Population
1901	72,234
1911	74,650
1921	80,003
1931	85,804
1941	99,716
1951	2,862
1961	67,717

If the present uniform tests prescribed for treating a place as an urban area be applied in future censuses as well, a logical study of the growth of urban population will be possible.

4.6 Migration.

The number of persons born (i) at the place of enumeration, (ii) elsewhere in the district, and (iii) outside the district which is co-extensive in area with the Union Territory of Manipur as per 1961 Census is given below :—

Population by place of birth, 1961

Persons/Males/Females.	Total Population.	Place of enumeration.	Elsewhere in the district.	Outside the State/Union Territory.
1	2	3	4	5
Persons	780,037	629,564	132,120	18,353
Males	387,058	330,404	46,189	10,465
Females	392,979	299,160	85,931	7,888
Percentage.				
Persons	100.00	87.71	16.94	2.35
Males	100.00	85.36	11.93	2.71
Females	100.00	76.12	21.87	2.01

The place of enumeration is the same as the place of birth in respect of 87.71 per cent of the population. This proportion for males is 85.36 per cent as against 76.12 per cent for females. The lower percentage of females enumerated at the place of birth is due to the migration of females after marriage. Males born elsewhere in the district account for 11.93 per cent of the population while the corresponding figure for females is 21.87 per cent. Only 2.35 per cent of the population were born outside Manipur.

4.7 Sex Ratio

In 1961, the number of females per 1,000 males in the district was 1,015. As for the urban area of Imphal the proportion is 935 females per 1,000 males. The following is a statement showing sex ratios in the district as a whole and in Imphal in 1951 and 1961.

Females per 1,000 Males in 1951 and 1961

State/District/Town	Sex Ratio	
	1951	1961
	2	3
1 Manipur	1,036	1,015
Imphal Town	633	935

It will be clear from the above that the number of females per 1,000 males is less in Imphal town than in the district as a whole in both the census years. The low percentage of females returned from the town in 1951 is perhaps due to the fact that during the census of 1951 only a limited area where male-workers without their families tended to concentrate was treated as the urban locality.

4.8 Age Distribution

The following statement shows the percentage distribution of population of the district, according to the 1961 Census, by sex and age-groups. Similar figures for 1951 are not available.

Age and Marital Status, 1961

Age-group.	Never Married		Married		Widowed/divorced/separated & others	
	Percentage of males to total males.	Percentage of females to total females.	Percentage of males to total.	Percentage of females to total females.	Percentage of males to total males.	Percentage of females to total females.
	2	3	4	5	6	7
1 Total	59.69	50.89	37.43	37.76	2.88	11.35
0-9	100.00	100.00	—	—	—	—
10-14	99.23	98.81	0.76	1.03	0.01	0.16
15-19	95.58	67.17	4.14	29.66	0.28	3.17
20-24	62.45	20.86	35.13	72.46	2.42	6.68
25-29	25.58	7.64	70.87	85.00	3.55	7.36
30+	3.83	1.37	88.78	67.72	7.39	30.91
Age not Stated.	66.18	60.16	28.59	30.02	5.23	9.82

Percentage distribution of population by sex and age-groups, 1961

Age-Groups	Percentage population of age-groups	Males		Females	
		1	2	3	
Total A to D	—	—	100.00	100.00	
0-4	—	—	15.63	15.55	
5-14	—	—	28.21	26.86	
A 0-14	—	—	43.84	42.41	
15-34	—	—	30.80	32.58	
35-59	—	—	19.82	18.95	
B 15-59	—	—	50.62	51.53	
C 60+	—	—	5.33	5.84	
D Age not stated	—	—	0.21	0.22	

4.9 Marital Status

According to the Census of 1961, 37.59 per cent of the population of the district have been returned as married, 37.43 per cent males and 37.76 per cent females. Never married persons account for 55.28 per cent of the population, males being 59.69 per cent and females 50.89 per cent of their respective populations. The widowed are 5.41 per cent while the divorced or separated constitute 1.60 per cent of the population. The following table shows the marital status of males and females of different age-groups classified into (i) never married, (ii) married, and (iii) widowed, divorced/separated and others.

It may be noticed from the above table that no person belonging to the age-group 0-9 has been returned as married as all such persons were treated as unmarried at the time of sorting. But the table shows that child marriage still persists in the age-group 0-14 to the extent of 0.76 per cent for males and 1.03 per cent for females. It is interesting to note that among males the age of marriage has risen to 20 and above, as only 4.14 per cent in the age-group 15-19 have been returned as married. The percentages rise to 35.13 for the age-group 20-24, to 70.87 for the age-group 25-29 and to 88.75 for the age-group 30 and above. Examination of corresponding figures for females reveals that 29.90 per cent of females in the age-group 15-19 and 72.46 per cent in the age-group 20-24 have been returned as married. This indicates that even in the case of females the age of marriage has gone up. The figures relating to widowed, divorced and

separated persons show that females above 30 years account for 30.91 per cent in this category while the corresponding figure for males is only 7.39 per cent. These figures are indicative of the fact that there is greater tendency towards re-marriage among widowed males than among widowed females.

4.10 Literacy & Education

According to the Census of 1951, there were 65,895 literates in the district which constituted 12.58 per cent of the total population. Percentage of male literates was then 22.93 while that of female literates was 2.74. In 1961 the percentage of literacy rose to 36.04, the percentages for males and females being 53.48 and 18.87 respectively. Percentage of literacy to total population by age and sex for total/rural/urban is given in the following table :—

Literacy by Age-groups 1961

Age-group.	Total.			Rural.			Urban.		
	P	M	F	P	M	F	P	M	F
	2	3	4	5	6	7	8	9	10
1 All ages.	36.04	53.48	18.87	33.82	50.72	17.25	58.86	81.33	35.91
5-14	50.18	61.84	38.12	48.44	60.76	35.71	70.17	74.17	65.97
15-34	37.19	60.92	15.09	34.51	57.95	12.99	63.44	87.95	37.25
35-59	20.56	37.04	3.59	18.05	32.60	3.01	44.67	80.56	9.05
60+	14.11	28.22	1.43	11.94	23.68	1.21	35.23	76.89	3.39
Age not stated.	21.15	34.18	8.78	20.30	33.38	8.46	41.79	46.15	26.67

Literates among children in the age-group 5-14 form 50.18 per cent of whom males account for 61.84 per cent and females 38.12. The highest literacy in the district as a whole is found in this age-group. The next, highest percentage of literacy is found in the age-group 15-34. It may

also be observed that literacy for all age-groups in the urban sector is much higher than in the rural sector. The following table gives sex-wise details of literacy by rural/urban for each Sub-division of the district :—

Rural/Urban Literacy By Literate & Educated Sex, 1961.

Literate and Educated.						
Sub-division.	(Literate) number.	Per cent of total population.	Literate males.	Per cent of total male population.	Literate Females.	Per cent of total female population.
1	2	3	4	5	6	7
Imphal West R	40,975	37.90	31,079	58.43	9,896	18.02
U	26,954	60.50	18,708	82.00	8,246	37.93
Imphal East R	33,117	37.10	25,660	58.48	7,457	16.43
U	7,424	53.60	5,296	79.06	2,128	29.75
Bishenpur R	23,807	53.58	18,107	54.39	5,700	16.95
Thoubal R	36,718	32.49	28,908	51.72	7,810	13.67
Ukhrul R	12,715	31.39	9,082	45.82	3,633	17.57
Mao & Sadar Hills R	13,816	22.91	10,005	33.08	3,811	12.68
(i) Mao R	4,531	15.70	3,792	26.20	739	5.14
(ii) Sadar Hills R	9,285	29.51	6,213	39.39	3,072	19.58
Tamenglong R	7,910	25.66	5,399	36.20	2,511	15.78
Jiribam R	6,034	39.90	4,261	53.15	1,773	24.05
Churachandpur R	22,108	42.01	14,172	54.07	7,936	30.05
Tengnoupal R	5,698	24.46	3,979	34.38	1,719	14.66

It will be seen from the above table that in the urban areas, the highest percentage of literacy, i.e. 60.50 per cent is found in the urban portion of Imphal West, which has also returned the highest percentages of literacy among males (82.00 per cent) and females (37.93 per cent). As for literacy in the rural areas of Manipur, the highest percentage of literacy (42.01 per cent) is found in the Sub-division of Churachandpur and the lowest percentage (22.91 per cent) in Mao & Sadar Hills. The rural area of Imphal East tops the list in the percentage of literacy among males (58.48 per cent), the lowest percentage (33.08 per cent) being returned by Mao and Sadar Hills. Churachandpur shows the highest percentage of literacy among females (30.05 per cent). The lowest percentage of female literacy (12.68 per cent) is in Mao and Sadar Hills.

4.11 Educational Institutions

In the year 1960-61 there were the following educational institutions in the district :—

Educational levels.	No. of Institutions.
1	2
Primary	1,660
Secondary	57
Higher	3
Technical	2

Out of the above number of institutions imparting primary education, 850 were in the valley and 810 in the hill areas. There were 31 full-fledged and 8 junior high Schools in the valley and 12 full-fledged and 6 junior high schools in the hills. There were three colleges for general education and all of them are located at Imphal, the headquarters of the district. There are also 2

colleges for professional and special education, namely, (i) The Manipur Law College, and (ii) The Manipuri Dance College, at Imphal. As for technical education, there were in 1960-61, only two institutions, namely, (i) Industrial Training Institute, and (ii) Adimjati Technical Institute. The former is located at Takyel beyond the limits of the Imphal Municipality area while

the latter is located just near the Dhanamanjuri College within the limits of the town.

4.12 Languages

Table C-V in Part II shows the population of major languages for the district and each Sub-division separately. The distribution of speakers of some important languages/dialects by rural and urban in the district is given below:—

Distribution of Speakers of Important Languages/Dialects.

Sl. No.	Major language/dialect.	Percentage of total population.			Percentage of each language/dialect in	
		Total	Rural	Urban	Rural	Urban
		3	4	5	6	7
1	Total of all languages	100.00	100.00	100.00	—	—
1.	Meithei	64.46	62.51	85.01	88.55	11.45
2.	Thangkhu	5.63	6.12	0.53	99.19	0.81
3.	Thado	2.93	3.20	0.31	99.08	0.92
4.	Mao	2.69	2.92	0.24	99.23	0.77
5.	Kuki unclassified	2.28	2.48	0.21	99.19	0.81
6.	Paite	2.18	2.36	0.36	98.58	1.42
7.	Kabui	2.12	1.99	3.45	85.86	14.14
8.	Hmar	1.97	2.14	0.11	99.50	0.50
9.	Nepali	1.74	1.60	2.56	87.50	12.79
10.	Rongmei	1.63	1.79	0.61	99.97	0.03
11.	Bengali	1.28	1.23	1.81	87.74	12.26
12.	Others	11.07	11.60	5.40	95.76	4.24

It may be observed from the above table that 64.46 per cent of the total population of the district have Meithei as their mother-tongue. 88.55 per cent of them live in rural areas and 11.45 per cent in urban areas. Compared to the speakers of Meithei, the number of speakers of other languages/dialects are not significant.

61.68 per cent of the population are Hindus, 19.48 per cent Christians, and 6.23 per cent Muslims. There are also small numbers of persons professing the Jain, the Sikh, and the Buddhist religions. Persons belonging to other religions and unclassified persuasions account for 12.39 per cent of the population.

4.13 Religion.

The following table gives the distribution of religions in the district as per Census of 1961:—

Religions, 1961.

Religions.	Population.	Percentage of total population.
1	2	3
Total	780,037	100.00
Hindu	481,112	61.68
Christian	152,043	19.49
Muslim	48,588	6.23
Jain	778	0.10
Sikh	523	0.07
Buddhist	325	0.04
Others	96,668	12.39

4.14 Scheduled Caste and Scheduled Tribes

(i) Scheduled Castes.

The total population of Scheduled Castes in the district is 13,376 which forms 1.71 per cent of the total population. The following table shows the population of Scheduled Castes for total/rural/urban:—

Scheduled Castes, 1961.

Total/Rural/Urban	Persons.	Percentage of the total population.
1	2	3
Total	13,376	1.71
Rural	12,218	1.56
Urban	158	0.23

The number of literate and educated persons among the Scheduled Castes is 2,992 which constitutes 22.37 per cent of the total population of Scheduled Castes in the district. Only 158 persons belonging to the Scheduled Castes live in the urban area.

(ii) Scheduled Tribes.

According to the President's Order (the Scheduled Castes and Scheduled Tribes Lists Modification Order, 1956), there are 29 Scheduled Tribes in the district of Manipur. The total population of Scheduled Tribes is 249,049 which constitutes 31.93 per cent of the total population of the district. The population of Scheduled Tribes for total/rural/urban is given in the following table:—

Scheduled Tribes, 1961.

Total/ Rural/ Urban	Population.	Percentage of total popula- tion.
1	2	3
Total	249,049	31.93
Rural	244,903	34.38
Urban	4,146	6.12

Literate and educated persons among the Scheduled Tribes number 67,855 which forms 27.25 per cent of the total population of Scheduled Tribes. It may perhaps be of some interest to note that the percentage of literacy is higher among the Scheduled Tribes than among the Scheduled Castes.

5. HOUSING

5.1 In previous Censuses only the occupied census houses used as dwellings were numbered and listed. Houses of the non-residential type, such as, shops, factories, workshops, temples, schools, sarais, office-buildings and business houses, etc., were excluded from the scope of the census, as it was not necessary to enter them in the houselist for the purposes of enumeration. For the first time in the history of the Indian Census, these non-residential structures have also been brought

under the purview of the 1961 Census and a regular housing census was taken of all residential and non-residential structures. By the adoption of a uniform houselist throughout the country, important statistics on material of roof and wall, tenure status and number of rooms in case of households, number of persons per room, and, in the case of workshops and factories, data on proprietorship, products manufactured, number of persons employed and kind of fuel or power used, have been collected during the course of the 1961 Census Operations.

5.2 Types of Census Houses and Their Uses

The table below shows the distribution of different types of census houses and the uses to which they are put:—

Census Houses and the uses to which they are put, 1961

Sl. No.	Type of Census houses.	Census house.	
		Number.	Percentage to total number of census houses
1	2	3	4
1	Total No. of Census houses.	197,335	100.00
2	Vacant houses.	3,988	2.02
3	Dwellings, shop-cum-dwellings and work-cum-dwellings.	141,858	71.89
4	Shops and business houses.	5,651	2.86
5	Factories, workshops & worksheds.	13,287	6.73
6	Schools, places of entertainment, medical & social institutions.	7,116	3.61
7	Hostels, restaurants, and other miscellaneous houses.	25,435	12.89

It will be seen from the above table that out of a total of 197,335 houses, 71.89 per cent were used as dwellings, and 2.02 per cent were vacant. The rest were used for non-residential purposes such as shops and business houses (2.86 per cent), factories, workshops and worksheds (6.73 per cent), schools, places of entertainment, medical & social institutions (3.61 per cent) and hostels, restaurants and other miscellaneous houses (12.89 per cent). 96.25 per cent of households lived in owned houses and the rest in rented ones. This is because renting of accommodation is of comparatively recent origin in the rural areas of Manipur. In the urban area 86.10 per cent of households lived in owned houses as against 13.90 per cent living in rented houses. The higher proportion of rented houses in the urban area indicates the increasing demand of houses in the town. An examination of the material of wall and roof of census houses reveals that the predominant materials used both for wall and roof are locally available materials which come under the category grass, leaves, reeds, thatch, wood or bamboo.

5.3 Households classified by number of members & rooms occupied.

Sample households were also classified by the number of rooms occupied by them as in the following table:—

Households classified by number of members and number of rooms occupied, 1961.

No. of Rooms.	Percentage of total households.	Percentage of total members.
1	2	3
No regular room.	0.77	1.00
1 room.	26.43	24.46
2 rooms.	20.22	18.81
3 rooms.	18.86	17.40
4 rooms.	26.29	28.43
5 rooms or more.	7.43	9.90

According to the classification adopted in the above table, 46.65 per cent of households lived in houses with one room and 2 rooms while

52.58 per cent lived in houses with 3 rooms, 4 rooms and 5 rooms and more. The percentage of households living in houses with no regular rooms is insignificant. For the district as a whole the number of persons per room is about 2.

6. AGRICULTURE

6.1 Land Utilisation

The utilisation of land resources forms an important subject in any programme of economic planning in a predominantly agricultural economy. Unfortunately land utilisation statistics are not available for the district as a whole, as it has not been cadastrally surveyed. Some data are, however, available in respect of the valley where piece-meal cadastral survey has been undertaken. On the basis of available village papers the total geographical area of the valley was estimated at 345,607 acres in 1957-58. Out of this area, 36,670 acres were not available for cultivation, as they were either under forest or were barren and uncultivable waste put to non-agricultural uses. Culturable waste, permanent pastures and other grazing land accounted for 77,967 acres, and fallow land for 422 acres. The net area shown during 1957-58 was about 58 per cent of the total geographical area and the per capita cropped area was 0.57 acres only. A statement on land utilisation is given below:—

Land Utilisation, 1961

Class of land.	Area in thousand acres.	Percentage to total.
1	2	3
Forest.	37	10.69
Net area sown	203	58.67
Other culturable land	96	27.75
Fallow	10	2.89

Total geographical area 346

The main crop is paddy and nearly 80 per cent of the total area is under paddy cultivation. Cultivation is also carried on in the hill areas but, as already pointed out, the area under cultivation and the type of crops raised are not known.

6.2 Ceiling on Holdings

There are no large-sized holdings in the valley. This is also the case in respect of the hill areas where on account of scarcity of cultivable land acquisition of large holdings is not possible. The number of holdings above 25 acres is negligible. This is because, more than 30 years ago, the then Manipur State Durbar passed a resolution prohibiting the acquisition of more than 10 *paris* (24.8 acres) of land per land-owner, except with the permission of the Durbar. As this resolution was strictly enforced, holdings above the said limit are very rare. The basic holding under the Manipur Land Revenue and Land Reforms Act, 1960 is 2½ acres.

6.3 Agricultural Seasons

In the valley ploughing is generally done in the months of April and May after the first showers of the year have softened the soil. More intensive ploughing is carried on in June and July when the rains set in. There are two modes of cultivation in the valley, namely, (i) 'Punghul', or dry seeds cast in dry ground which are allowed to grow to full stature without the seedlings being transplanted, and (ii) transplantation of seedlings. The seeds for 'Punghul' are sown in May or early June in a field already ploughed up in April and May. The field is further brought up in June and July by successive ploughings and harrowings into a state of liquid mud. In the case of cultivation by transplantation the seeds are first sown in plots carefully prepared for the purpose, close to the field where transplantation is to be made. In the transplanting season which is generally in late June & July, the plants are pulled up in handfulls and inserted with care in the field prepared for the purpose. Harvesting season generally lasts from October to the early part of December.

In the hill areas *jhum* and terraced cultivations are carried on, the agricultural seasons and operations naturally vary from place to place. But, in general, the land is cleared in the months of January and February; crops are sown in May, June and harvesting starts in October and ends about the early part of December.

6.4 Crop Pattern

Though, various other crops like wheat, sugarcane, tobacco, mustard, pulses and maize are grown in various parts of the district, data on these crops are not available. The crops raised in the hills are barely sufficient for local consumption and the only crop grown for the purpose of export or trade is cotton. In the valley as well as in the hills the acreage covered by these crops forms only a small proportion of the total cultivated area.

6.5 Irrigation

The principal sources of irrigation are natural drains and small private canals scattered all over the valley and as yet no data are available on the area irrigated by these drains and canals. Well irrigation is unknown. The small cultivable area and the adequate amount of rainfall perhaps make the scope for major irrigation projects limited.

In some of the hill areas where extensive terraced cultivation is carried on, water is brought from considerable distances in channels. In almost every village where there are terraced fields customary arrangements are made for equitable distribution of the water brought along the channels. The difficult hilly terrain and the restricted cultivable area are the main hurdle to the construction of a net work of irrigation canals in the hills.

7. LIVESTOCK

7.1 Livestock

According to the livestock censuses of 1951, 1956 and 1961, the cattle population of the district was found to be distributed as under:—

Livestock, 1951, 1956 & 1961.				
Categories of livestock.	1951	1956	1961	
1	2	3	4	
Total livestock	201,331	416,727	495,033	
A. Bullocks and Cows				
1. Males over 3 years	45,208	90,853	107,248	
2. Females over 3 years	51,855	96,052	98,138	
3. Young stock	47,500	80,817	88,033	

Categories of livestock	1951	1956	1961
1	2	3	4
B. Buffaloes			
1. Males over 3 years	3,413	13,208	15,449
2. Females over 3 years	8,023	22,848	23,479
3. Young stock	5,372	16,239	15,851
C. Sheep	86	1,578	4,281
D. Goats	5,197	12,621	18,924
E. Horses and Ponies	687	213	529
F. Donkeys	—	—	—
G. Mules	77	NA	24
H. Camels	—	—	—
I. Pigs	34,413	82,298	123,072
NA—Not available.			

It will be seen from the above that while there has been a spectacular, almost phenomenal rise in the respective populations of bullocks and cows, buffaloes, sheep, goats and pigs during the decade from 1951 to 1961 there has been a decline in the numbers of horses and ponies and mules. There are no donkeys and camels in the district. Increase in the population of bullocks and cows, and buffaloes perhaps indicates progress in the agricultural sector.

7.2 Agricultural Tools and Implements

The number of wooden ploughs in 1951 was 51,077 which rose to 66,333 in 1956 and 104,125 in 1961. The number of iron ploughs for 1951 is not available. In 1956 there were 1,575 iron ploughs. There was a decline in the number of iron ploughs in 1961 when there were only 673 iron ploughs. As for carts their numbers were 13,752, 15,654 and 16,477 respectively in the years 1951, 1956 and 1961. Statistics in respect of hoes and sickles which are used in the hill areas where ploughing is not possible are not available.

Steps were taken by the Manipur Administration to introduce and popularise improved agricultural implements, and during the year 1960-61, 50 Sabash ploughs, 8 maize shellers, 100 Japanese weeders, 5 paddy threshers, 1 hand water pump,

1,000 hand rakes, and 1 rice transplanting machine were purchased. And 77 Sabash ploughs, 3 paddy threshers, 34 Japanese weeders, 9 maize shellers, 220 hand rakes, 1 winnowing fan, 3 buck scrapers and 9 wheel borrows were sold.

7.3 Animal Husbandry & Veterinary Aid

During 1957-58 two artificial insemination centres were opened at Imphal and Thoubal and 1,200 cows were inseminated. Prophylactic inoculation against contagious diseases was given to 1,100 animals. Touring dispensaries were also set-up. As a result of favourable response from the cultivators, the number of artificial insemination centres was raised to 13 in 1958-59 and 2,123 cows were artificially inseminated during that year. In 1957 a cross breeding centre was opened at Perompat in Imphal East Sub-Division and this centre continued to function with four sub-centres at Kanglatongbi, Kalapahar, Kangpokpi and Churachandpur.

In 1958-59 a foundation stock of 396 birds was purchased from outside Manipur and a poultry farm was started at the Agricultural Farm at Mantripukhri. Two electrically operated incubators of 1,000 eggs capacity each were also installed. During that year 11,640 cattle were treated and 831 stud bulls castrated. Poultry development schemes in the hill areas were also initiated in 1959-60 and steps were taken to start eight sub-centres in the hills and 8 kerosene operated incubators of 72 eggs capacity each were purchased. The piggery development scheme initiated in 1958-59 was continued. A sheep breeding scheme was taken up in 1959-60 in order to improve the quality of local breeds. A foundation stock of 104 Patnai type was purchased and kept at Ukhrul and Churachandpur.

8. CO-OPERATION

8.1 There has been a favourable response in the district to the co-operative movement. During the financial year ending, 31st March, 1961 there were 342 general co-operative societies

and 263 industrial co-operative societies. 222 societies were registered during that year, and the more important of these are :

(i). Service Co-operatives.	...	62
(ii). Labour Contract & Forest Labourers Co-operatives.	...	20
(iii). Non-Agricultural Credit Societies (including previous years' societies).	...	53
(iv). Consumers & School Co-operative Stores.	...	19
(v). Farming	...	3
(vi). Marketing.	...	1

The working of the co-operative societies of the general category showed satisfactory progress. Considerable attention was paid to consolidation and revitalization of the existing co-operative societies and the amount of short-term loans made available through the primaries for current agricultural operations increased from Rs. 84,380.00 to Rs. 6,41,190.00. As a result, there was a corresponding increase in the number of societies and membership in the rural primaries increased from 10,165 to 15,393. In 1960-61 the coverage of the rural population by co-operative societies was 15 per cent. At the end of the year there were 16 Co-operative Farming Societies.

The Manipur State Co-operative Bank Ltd. is the central financing agency for the co-operative institutions in the district. Besides its normal function it also undertakes commercial functions. During 1960-61, the Bank planned an accelerated programme of short-term loan advances in order to meet the increasing demands of agriculturists and to popularize co-operative credit for augmenting agricultural production. The Bank also used to advance loans to the Manipur Apex Co-operative Marketing Society Ltd., which is at the head of marketing Societies. There is also one Manipur State Handloom Weavers Co-operative Society which functions as the apex society for Weavers' Co-operatives.

9. ECONOMIC ACTIVITY

9.1. Concepts and Definitions.

During the past censuses, the criterion of income or economic independence was adopted for making an assessment of the economy of the country. Emphasis has been laid at the present census on the work done or the economic activity pursued by a person so that people like family workers and children who work but do not earn enough for their maintenance are also included in the list of workers. Another notable change relates to the presentation of the economic data on the basis of the nine industrial categories of workers and non-workers instead of the eight livelihood classes classified by self-supporting persons and their dependants in 1961.

Persons doing work other than as cultivator or agricultural labourer or engaged in household industry have been classified into four categories, namely, (i) Employer, (ii) Employee, (iii) Single worker, and (iv) Family worker. In view of the wide range of economic data included in this section it will be useful to reproduce in brief the definitions adopted for the above terms.

- An Employer is a person who has to employ other persons in order to perform the work undertaken by him.
- An Employee is a person who usually works under some other person for salary or wages in cash or kind.
- A Single worker is a person who works by himself but not as head of household in a household industry. He is not employed by any one else and in his turn does not employ any body else, not even members of his household except casually.
- A Family worker is a member of the household who works without receiving wages in cash or kind, in an industry, business or trade conducted mainly by member of the family and ordinarily does at least one hour of work every day during the working season.

Industries are classified into household industries and non-household industries. A household industry has been defined as an industry which is not run on the scale of a registered factory and which is conducted by the head of the household himself and/or mainly by the members of the house-hold at home or within the village in rural areas and only at home in urban areas. The rest of the industries, viz., business, trade, profession or service are treated as non-household industries.

9.2 Distribution of Workers And Non-Workers

The following statement shows the distribution of population by workers and non-workers:—

Distribution of population by workers and non-workers 1961

Workers/Non-workers.	Persons.	Percentage to total population.
1	2	3
Total population	789,037	100.00
Workers	357,920	45.89
Non-workers	422,117	54.11

The following statement gives the distribution of workers into 9 industrial categories.

Distribution of Workers And Percentage to Total Workers, 1961.

Sl. No.	Category of workers.	Population	Percentage of workers
1	2	3	4
1.	As cultivator.	234,178	65.43
2.	As agricultural labourer	2,184	0.61
3.	In Mining, quarrying, livestock, forestry, fishing, hunting, plantation, orchards and allied activities.	805	0.22
4.	At household industry.	79,166	22.12
5.	In manufacturing other than household industry.	1,106	0.31
6.	In construction	2,236	0.62
7.	In trade and commerce.	11,889	3.32
8.	In transport, storage & communications.	3,032	0.85
9.	In other services.	23,323	6.52

The population of the district is distributed into workers and non-workers in the ratio of 45.89 : 54.11. Out of the working population, cultivators account for 65.43 per cent and persons working in household industry, 22.12 per cent. The percentage of persons engaged in the rest of the industrial categories is insignificant. The economic pattern obtaining in the district is predominantly agricultural in as much as 66.04 per cent of the working population are engaged in agricultural pursuits.

9.3 Class of Workers

The following statement gives the number and percentage to total of persons working in household industry classified into employees and others.

<i>Persons at work in Household Industry, 1961</i>		
	Persons.	Percentage to total
	1	2
Total	79,166	100.00
Employees	5,339	6.74
Others	73,827	93.26

As has been pointed out earlier, household industry is run mostly by members of the household. The need for having employees working for salary or wages is, therefore, negligible. The following statement shows the number of persons at work in non-household industries.

Persons at work in Non-Household Industry, Trade, Business, Profession or Service, 1961

	Number	Percentage.
	1	2
Total	42,392	100.00
Employers	1,282	3.02
Employees	23,876	56.32
Single workers	14,776	34.86
Family workers	2,458	5.80

It will be seen from the above that in non-household industries, trade, business, profession or service, employees account for 56.32 per cent. Employers, single workers and family workers account for the rest.

9.4 Occupational Classification

The two concepts of 'industry' and 'occupation' are quite distinct though they are often mistaken for each other. 'Industry' means that sector of economic activity in which the earner is engaged, e.g., textile industry, automobile industry, etc., whereas the occupation describes the exact function that an individual performs in that economic activity, e.g. fitter, carpenter, etc.' 1

Table B.V gives the distribution of persons at work other than cultivation. This type of detailed classification based on the National Classification of Occupations has been given effect to for the first time in 1961. The percentage distribution of occupations in the district is shown in the following table.

Percentage Distribution of Workers according to Occupational Divisions 1961.

Occupational Division	Percentage
1	2
0. Professional technical and related workers.	9.25
1. Administrative, executive and managerial workers.	1.69
2. Clerical and related workers.	2.30
3. Sales workers.	9.77
4. Farmers, fishermen, hunters, loggers and related workers.	0.90
5. Miners, quarrymen and related workers.	0.01
6. Workers in Transport, storage and communication occupations	2.47
7-8. Craftsmen, production process workers and labours not elsewhere classified	69.27
9. Service, sport and recreation workers.	3.88
10. Workers not classified by occupation	0.46

It will be clear from the above that the most important occupational division in the district is 7-8-craftsmen, production process workers and

labours not elsewhere classified. Compared to this predominant occupational division the percentage distributed in the other divisions sinks into insignificance.

9.5 Non-workers

Non-workers in the district number 422,117 persons—203,931 males and 218,186 females. Percentage distribution of non-workers by sex according to their type of activity is shown below for total/rural/urban.

Distribution of non-workers by sex according to type of activity, 1961.

Sl. No.	Category of non-workers	Total/Rural/Urban	Males	Females
1	2	3	4	5
1.	Full time students.	T	40.28	18.99
		R	39.48	17.92
		U	47.58	29.51
2.	Household duties	T	3.25	23.31
		R	3.44	23.33
		U	1.51	23.13
3.	Dependants, infants, and disabled.	T	55.04	57.19
		R	56.23	58.28
		U	44.22	46.35
4.	Retired, rentiers, etc.	T	0.46	0.33
		R	0.34	0.32
		U	1.63	0.47
5.	Beggars, vagrants.	T	0.14	0.11
		R	0.12	0.12
		U	0.24	0.07
6.	Inmates of penal, mental and charitable institutions.	T	0.08	0.01
		R	0.04	0.01
		U	0.46	0.01
7.	Persons seeking employment for the first time	T	0.54	0.05
		R	0.27	0.02
		U	2.97	0.33
8.	Unemployed but seeking work	T	0.21	0.01
		R	0.08	Negligible
		U	1.39	0.13

The above table will show that dependants, infants and disabled account for the greatest single percentage of non-workers in the district, the next greatest percentage being accounted for by full time students. The distribution pattern

of non-workers among males and females is very dissimilar in the case of the categories 'full time students' and 'Household duties'. The higher percentage of full time students in the urban area as compared to that obtaining in the rural sector is explained by the greater consciousness and opportunities people in the town area have in respect of education.

10. INDUSTRIES AND POWER

10.1 Industries

The industrial advancement of a place may be gauged by the number of industries existing therein and the size of employment in such industries. Though the district as a whole has to go a long way to catch up with other industrially advanced districts in other States/Union Territories it is worthwhile to examine the number of factories and workshops returned from Imphal Town and the various administrative units of the district and the size of employment. The following statement gives the distribution of factories and workshops and the number of persons employed in each sub-division and in Imphal town:—

Sl. No.	Name of unit	Factories/workshops.	Persons employed.
1	2	3	4
1.	Imphal Town	2,725	4,003
2.	Imphal East	1,804	2,495
3.	Imphal West	8,779	12,554
4.	Bishenpur	291	950
5.	Thoubal	2,276	7,186
6.	Ukhrul	12	85
7.	Churachandpur	112	112
8.	Tamenglong	61	322
9.	Tengnoupal	14	75
10.	Jiribam	4	24
11.	Mao & Sadar Hills	59	64
		13,412	23,866

It may be pointed out that the figures for Imphal town which have been shown above separately to facilitate a study of the industrial

development of the town have been included partly in the figures for the Imphal West Sub-division and partly in those shown against the Imphal East Sub-division as the town lies within parts of the territorial jurisdictions of these two sub-divisions. Inspite of its comparatively small size, the figures returned from the town are high up in the list and the town is by far the most industrially developed area in the district. The above statistics will also show that the Sub-divisions of Thoubal, Ukhrul, Churachandpur, Tamenglong, Tengnoupal, Jiribam and Mao & Sadar Hills are at a very early stage of development.

The following statement shows industries in the district in the descending order of number of establishments.

Industries arranged in descending order of number of establishments 1961.

Sl. No.	Description.	No. of units	Percentage to total.
1	2	3	4
1.	Cotton weaving in handlooms	12,649	94.31
2.	Manufacture of wooden furniture & fixtures.	146	1.09
3.	Making of textile garments including raincoats and head-gear.	142	1.06
4.	Manufacture and tuning of musical instruments.	101	0.75
5.	Repairing of bicycles and tricycles.	84	0.63
6.	Manufacture of iron steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods.	37	0.28
7.	Production of rice, atta, flour, etc. by milling, dehasking and processing of crops and food grains.	34	0.25

1. A Standard Industrial Classification, Adopted by the Government of India and issued by the Directorate of Employment Exchange.

Sl. No.	Description	No. of units	Percentage to total
1	2	3	4
8.	Repairing and servicing of motor vehicles.	30	0.22
9.	Production of edible fats and oils (other than hydrogenated oil).	25	0.19
10.	Manufacture of brass and bell metal products	22	0.17
11.	Manufacture of iron and steel furniture.	18	0.10
Total (1 to 11)		13,288	99.08
Others.		124	0.92
GRAND TOTAL :		13,412	100.00

It is evident from an examination of the above statement that cotton weaving in handlooms constitutes by far the most important industry in Manipur accounting, as it does, for 12,649 units and 94.31 per cent of the total establishments. Manufacture of wooden furniture and fixtures and making of textile garments account for a little more than one per cent of the total number of establishments in each case. Each of the other industries listed in the above statement claims less than one per cent of the total number of establishments in the district. The distribution of the various industries is therefore uneven.

10.2 Power in Industry

An analysis of the data collected during the housing census of 1960 reveals that the majority of factories and workshops in the district are manually operated. Statistics of census houses used as factories, workshops and worksheds classified by power and no-power used have been compiled for the first time during the census of 1961. Details about the extent of power and no-power used in the district in factories and workshops are shown in the following statement :—

Factories and Workshops Classified by Power and No-Power used, 1961

Power or fuel.	Rural/Urban.	No. of factories etc.	Percentage to total.
1	2	3	4
Total	R U	10,687 2,725	100.00 100.00
Electricity	R U	— 39	— 1.43
Liquid fuel	R U	8 4	0.07 0.15
Coal, wood & bagasse	R U	198 77	1.85 2.83
Other power	R U	20 2	0.19 0.07
No-power	R U	10,461 2,603	97.89 95.52

It will be seen from the above that more than 90 per cent of the factories and workshops in the rural and urban areas use no power.

The use of electricity in factories and workshops is confined to the urban area of Imphal town where only 39 units use this power.

10.3 Banking

Banking facilities are of very recent introduction in the district. Before the Second World War, the basic conditions necessary for the growth of banking practices were absent. In 1947, a bank styled "The Manipur State Bank" was established at Imphal with 51 per cent of its capital being contributed by the then State Government. In 1958 the United Bank of India Ltd. opened a branch at Imphal. The banking business of the Manipur State Bank was taken over by the State Bank of India in 1959. There is also the Manipur State Co-operative Bank Ltd. which is the central financing agency for Co-operative institutions in the district.

11. COMMUNICATION AND TRANSPORT.

11.1 Communication

The land-locked and mostly hilly district of Manipur is generally poor in communication facilities and before the coming of mechanised forms of transport the mode of conveyance in the valley was bullock carts and in the hills the porters. The district has no railways and the only land communication connecting Manipur with the rest of India is the Imphal-Dimapur Road which links Imphal, the headquarters of the district with the rail head at Dimapur 134 miles to the north of the town. This road which passes through the hilly tracts of Nagaland is liable to interruption caused by land slides during the rainy season.

Road communications in the Manipur valley are good and adequate, but in the hill areas where on account of the terrain, it is not only costly but difficult to construct roads, the position is different. Imphal is not yet connected by roads with some of the important areas in the hills, but determined efforts are being made and it is expected that before long a network of hilly roads, if only jeepable at first, will be built connecting isolated hilly areas with their respective Sub-divisional headquarters. During the period from 1951 to 1958 there was almost a phenomenal rise in the mileage of extra municipal roads maintained by public authorities the mileage having increased from about 221 in 1951 to about 1,132 in 1958.

National Highway No. 39, Kamagaon-Moreh Road passes through the district and the total mileage of this road within the territorial limits of the district is about 133. It connects Dimapur with Imphal and then runs to Moreh on the Indo-Burma border. This road was widened and considerably improved during the Second World War. Other important roads in the district are :—

(i) The old Cachar Road which, before the construction in 1881 of the Imphal-Mao road, was the only connection between Manipur and British India.

The road was made jeepable during the Second World War. It stretches through a very difficult terrain and there are a number of unbridged rivers. The road is about 134 miles in length from Imphal to Lakhapur in the Cachar district of Assam.

(ii) The Imphal-Tiddim road is an important highway which connects Imphal with New Churachandpur, the Head quarters of the Churachandpur Sub-division, Bishenpur, the headquarters of the Bishenpur Sub-division is on this road about halfway between Imphal and Churachandpur. Beyond Churachandpur the road is jeepable for about 28 miles. The Imphal Tiddim road which had been existing as a bridle path was constructed during the Second World War.

(iii) Another important highway connects Imphal with Ukhrul. It is about 52 miles in length and passes through the Imphal East Sub-division. Ukhrul was formerly connected with Imphal by a road which was widened and improved during the War years. As this old road was considered difficult of negotiation by vehicles the present road was newly constructed from Litan, a place about halfway between Imphal and Ukhrul, from where the road starts going up the hills.

(iv) Construction of an important highway connecting Kangpokpi, a place about 28 miles from Imphal on the Imphal-Dimapur Road with Tamenglong, the headquarters of the not-easily-accessible sub-division of Tamenglong has now been completed. The road is about 75 miles in length and though it passes through difficult hilly terrain, the alignment is considered fairly good.

(v) There is a jeepable road of about 50 miles in length which connects Litan with Chasad, a village on the Indo-Burma border north-east of Imphal. The villages of Kasom and Samak

are on this road. Ukhrul is also connected with this road by a jeepable road between Sansak and Ukhrul. The intersecting point is at a place known as Finch's corner about 3 miles west of Sansak. Finch's corner is a Great Trigonometrical Survey mark.

(vi) A jeepable road of about 44 miles in length links Ukhrul with Kharasom. Another jeepable road about 70 miles long connects Tadubi near Mao with Kharasom. These roads which were constructed during the last World War are of great importance for the development of the Ukhrul Sub-division.

11.2 Important road links in the valley area

(i) *Mayang-Imphal Road*.—It is a motorable road about 14 miles in length and connects Imphal with Mayang-Imphal. This is an old road which served in the past as the link between Imphal and Sugnu in the extreme south of the valley. A bridge constructed over the Imphal river at Mayang-Imphal has now paved the way to connecting the two important centres of Thoubal and Mayang-Imphal.

(ii) *Imphal-Kangchup Road*.—This road is about 10 miles in length. The reservoirs of the Imphal Water Supply Scheme are at Kangchupkhul. This road connects Lamsang Bazar with the National Highway at Pheidingsa, a place 9 miles north of Imphal, through Mayang Langjing and Khurukhul.

(iii) *Imphal-Pukhao Road*.—It is about 14 miles in length. It is an important road of the Imphal East Sub-division and is also a bus route.

(iv) *Imphal-Yairipok Road*.—This road is about 12 miles in length and passes through the Imphal East Sub-division. As it has about

4 miles of difficult hilly road over the Ngariyan hills people prefer to approach Yairipok via Thoubal. The Thoubal-Yairipok road is about 4 miles in length.

There are also numerous bridle paths in the hill sub-divisions which connect the villages. The construction of inter-village paths, maintenance of the existing bridle paths, construction of small suspension bridges and building of rest camps come under the purview of the Tribal Welfare Schemes and Community Projects.

11.3 Transport

In the absence of railways motor transport occupies a place of predominance in the district. There are six principal operators of motor transport; five of these are co-operative societies and the sixth is the Manipur State Transport. The Manipur State Transport is by far the biggest operator with 32 passenger buses, 3 station wagons, 7 mail vans and 48 trucks in 1959-60. It functions as the railway out-agency between Imphal and Dimapur and Dimapur and Kohima. In the middle of 1961, a City Bus service was introduced at Imphal on three routes. There are branch offices of the M.S.T. at Dimapur, Kohima, Mao, Kangpokpi and Sekmai. It also maintains its own workshop for maintenance and repairs.

The other transport organisations are comparatively smaller. The Tiddim Road Motor Owners Co-operative Society owns 26 vehicles operating as stage carriers; the Burma Sugnu Road Motor Owners Co-operative Society owns 37 stage carriers; the Manipur Drivers' Union owns 3 stage carriers; the Ukhrul Road Public Carriers Association owns 5 stage carriers; and the Litan-Ukhrul Road Co-operative Society has 5 stage carriers.

In view of the geographical isolation of the district and its dependence on communication with points in Assam, and Calcutta, air transport has acquired a good deal of significance. The Indian Airlines Corporation operates a daily Dakota service between Calcutta and Imphal through Agartala in Tripura and Silchar in Assam. An increasing number of travellers between Calcutta and Imphal and, the other way round, use the air service as the over-land journey takes about three days including an uninviting road journey of 134 miles between Imphal and Dimapur. At present air freight to and from Imphal is carried by converted Dakotas chartered by three firms, namely, Sky Players, Air Assam, and Assam Travels.

11.4 Posts and Telegraph

The Post Offices in the district are under the Post Master General, Assam. During the year 1959-60 there were 1 Head Office, 4 Sub-Offices, 120 Branch Offices and 6 Telegraph Offices. In the hill areas only New Churachandpur,

the headquarters of the Churachandpur sub-division, had telegraph facilities.

There is a manual and a small automatic telephone exchange at Imphal. In 1960 the number of Public Call Offices was 5 and the number of telephones was 185.

12. MEDICAL AND PUBLIC HEALTH

12.1. There has been a marked improvement in the medical services which look after the public health of the district, since the integration in 1949 of the former State of Manipur with the Union of India. The period from 1951 to 1959 saw a rapid growth in the number of hospitals and dispensaries and the number of patients treated. The following statement shows the growth of medical institutions, doctors and nurses and patients treated between these years.

Hospitals, Dispensaries and Patients treated 1951-1959.

	1951	1952	1953	1954	1955	1956	1957	1958	1959

6. Maternity and child welfare centres.	—	—	1	1	1	5	5	10	10

In 1960-61, Rural Health, Sanitation and Mobile Units were under the charge of the Manipur Territorial Council. The Directorate of Medical and Health Services which functioned directly under the Manipur Administration looked after the following centrally sponsored schemes, and institutions situated at Imphal:—

Schemes.

1. Anti Malaria Measures.
2. B. C. G. Scheme.
3. Leprosy Control Scheme.
4. Anti T. B. Scheme.
5. Anti V. D. Scheme.
6. Family Planning Scheme.
7. Eye Relief Camps.
8. Training Programme.
9. Tribal & Scheduled Castes Welfare Scheme.

Institutions at headquarters.

1. Civil Hospital, Imphal.
2. T. B. Hospital, Imphal.
3. Leprosy Hospital, Imphal.
4. Jail Hospital, Imphal.
5. Police Hospital, Imphal.
6. Nongmeibung Dispensary, Imphal.

During 1960-61 a total number of 29,303 blood slides from suspected malaria cases were collected, 91 positive cases were found and treated; 3,42,086 houses including cow-sheds were sprayed with D.D.T.; 9,463 children and 3,486 infants were examined. Mass B.C.G. vaccination was carried on and 45,297 persons were tested of whom 17,291 were vaccinated, 1,896 cases of leprosy were under treatment and 14,775 healthy contacts were visited. 90 old cases of T.B. and 60 new ones were treated; 3,626 old cases of V.D. and 561 new cases were seen and treated. As a step towards implementation of the family planning scheme 1,841 persons were contacted for family planning education. The number of sterilisation operations performed was, however, only 6—2 males and 4 females. A total number of 10,095 infants, children, mothers and others visited the Maternity and Child Welfare Centre,

Imphal which distributed 14,652 lbs. of milk powder; medical inspection of 4,389 school children was also carried out. During the year 1960-61 Eye Relief Camps were held at Imphal, Ukhrul, and Churachandpur with the assistance of the Gandhi Eye Hospital, Aligarh. More than 3,000 cases attended the out-patients department out of which 395 cases were admitted for operation and treatment.

There is no mental hospital in the district. Mental patients are therefore treated in institutions outside Manipur. A Dental Clinic was established in the Imphal Civil Hospital in 1957. There are also some private dental clinics at Imphal which are run mostly by unqualified persons.

13. FORESTS.

13.1 An account of the forests of Manipur has already been given. The Forest Department is in the charge of one Chief Forest Officer at the district level.

The total area covered by Government forests as it stood in 1960-61 is 2,325 square miles. This area may be classified into the following categories:—

- | | | |
|-----------------------|---|----------------|
| (i) Reserved Forest | — | 388 sq. miles. |
| (ii) Protected Forest | — | 857 „ „ |
| (iii) Unclassified „ | — | 1080 „ „ |

During the year 1960-61, a sum of Rs. 2,900.00 was spent for survey and demarcation of forest areas. About 47 miles of forest area were demarcated and 300 stone pillars fixed. The area demarcated was the Dampi Reserved Forest. Survey of the Cheklapai Reserved Forest was also taken up. Fire conservancy schemes were also taken up and a sum of Rs. 4,205.00 was spent for fire conservancy. Fire-watchers were employed at important centres during the dry season and a total length of 36½ miles of fire lines, 20 to 25 feet wide, were cut.

Other important steps taken for preservation and regeneration of forests were construction and

maintenance of forest roads and buildings, forest education and distribution of seedlings. 190 acres of forest area were planted with valuable tree species. Match-wood species also were planted on another 40 acres. 450 seedlings of ornamental plants were distributed during the Vanamahotsava Week.

14. FISHERIES.

14.1 At the district level one Chief Fishery Officer is responsible for the Fishery Development of Manipur. He is assisted by one Fishery Officer.

There are four Fish Breeding-cum-Fish Distribution Centres at Lamphel, Chingarel, Wangbal and Ningthoukhong and these four centres have stocking capacity of about 10 lakhs of fry at a time in their 270 nurseries. These four Centres situated one each in the four valley Sub-divisions of Manipur are intended to cater to the fish seed requirements of the people of these areas. The stocking tanks are used for keeping the brood fishes of (a) Indian Major Carp, and (b) Cyprinus Carpio for use in multiplication of fish seeds locally. During 1960-61 the Fisheries Department procured 8.97 lakhs of fry of Indian Major Carp from Calcutta and 9,000 fry of Mirror Carp from Uttar Pradesh and Himachal Pradesh and supplied them at the fingerling stage to the pisciculturists of Manipur at subsidised rates for rearing in ponds and tanks. The Department produced locally 39,020 fingerlings of Common Carp and 65,215 fingerlings of Mirror Carp from their Fish Breeding Centres at Lamphel and Wangbal during 1960-61 and sold them to interested pisciculturists of Manipur.

There are 296 Government fisheries in Manipur which fetch a total fishery revenue of about Rs. 3 lakhs. The Government fisheries are of three types—seels, Rivers, and Irrigation channels. All the fisheries lie in the Imphal valley and the Jiribam Sub-division. Though there are rivers in the hill areas, none of them has been registered as a fishery.

The more important varieties of fish in Manipur are (a) Barbus mahaseer (Ngara), (b) Labeo pongusia (Ngatin), (c) Barbus sarana (Nganoi), (d) Rohtee alfridiana (Pengba), (e) Labeo calbasu (Ngathi), (f) Labeo bata (Khabak), (g) Wallagonia attu (Sareng), (h) Mystus aor (Ngachou), (i) Clarius magur (Ngakra), (j) Anabas testudineus (Ukabi) and (k) Ophicephalus striatus (Porom). The terms within brackets indicate their Manipuri names. No local species have so far been taken up for piscicultural purposes as most of them are predatory and as those which are not predatory are slow in their growth rate. New exotic fishes like Mirror Carp and Common Carp which have been recently introduced are very popular as they grow very fast and also breed in confined water areas.

15. COMMUNITY DEVELOPMENT

15.1 During the year 1960-61, 9 full-fledged Community Development Blocks including one Special Multipurpose Block were in operation. Later on in the year the pre-extension block of Tengnoupal was converted to Stage I Community Development Block. The pre-extension work of one Hill Block at Thanlon was started from 1st April, 1960. With this and other full-fledged Community Development Blocks including the Special Multipurpose Block of Tamenglong, the total area of the district, population and number of villages brought within the operation of the Community Development Programme were as under:—

(1) Area in square miles	—	8,346
(2) Population	—	494,900
(3) Number of villages	—	1,565

The total annual allotment of funds for the year 1960-61 for the Community Development programme was Rs. 26.49 lakhs against which an expenditure of Rs. 26.36 lakhs was incurred. Two other developmental schemes, namely, (a) Local Development Works, and (b) Village Water Supply Works were also taken up during the year.

The following are some of the important physical achievements made during the year:—

(i) *Agriculture and Animal Husbandry*:—Distribution of improved seeds, chemical fertilizers, improved implements, chemical pesticides, construction of compost pits and distribution of improved birds and animals were the main activities in this field. 361 mds. of improved seeds, 3,353 mds. of chemical fertilizer, 297 mds. of green manure, 598 improved implements and 1,432 mds. of chemical pesticides were distributed, and 3,759 compost pits were constructed. 954 agricultural demonstrations were held and 1286 acres of land were brought under the Japanese Method of Cultivation. 76 Gram Sahayak Training Camps were also held.

In the field of Animal Husbandry, 85 improved animals and 359 improved birds were distributed to the public at subsidised rates. 1,994 scrub bulls were castrated and 492 cows artificially inseminated. 100 silage pits were filled.

(ii) *Irrigation and Reclamation*.—Small irrigation channels of a total length of 698 miles were constructed and 32 miles of old channel were renovated. About 27,107 acres of land were brought under irrigation.

(iii) *Health and Sanitation*.—128 drinking water tanks were excavated and 280 old ones were renovated. 129 rural latrines and 101 soakage pits were constructed.

(iv) *General and Social Education*.—Grant-in-aid was given to 61 private schools and 13 school buildings were constructed. Furniture of different types were supplied to 28 schools. 142 Adult Literacy Centres were started. 3,081 adults were made literate. 82 reading rooms/libraries were started; and 189 Youth Clubs and 47 Farmer's Unions were organised.

(v) *Women and Children's Programme*.—78 Mahila Samitis were organised and 5 Women's Camps were held. 40 Balwady Centres were started and 1,781 children attended the same.

(vi) *Communication*.—Kacha roads of a total length of 194 miles were constructed and 148 miles of old kacha roads were improved. 237 culverts were constructed.

(vii) *Village and Small Scale Industries*.—66 sewing machines and 76 bee-hive were distributed. Tools and appliances worth Rs. 16,623.00 were distributed to deserving industrial societies. 135 Co-operative Societies of various types were organised.

(viii) *People's Contribution*.—While the programme of Community Development initiated by the Government has made satisfactory progress the contribution of the villagers themselves in the implementation of the programme was considerable. The contribution of the people in the shape of labour and kind during the year 1960-61 was valued at Rs.18.44 lakhs as against the Government expenditure of Rs. 26.36 lakhs incurred on Community Development Programme.

(ix) *Local Development Works*.—Shingling and construction of Kacha roads and construction of school buildings, bridges and culverts were the main activities in this field. 25.66 miles of kacha road were shingled and another 2.87 miles of kacha road were constructed. 7 bridges and 5 culverts were constructed. Small irrigation channels of a total length of 5.5 miles were also constructed. The expenditure incurred on these works was Rs. 0.61 lakh.

(x) *Village Water Supply Arrangements*.—Under this scheme 84 new tanks were excavated and 9 old ones improved. 25 water reservoirs were constructed and water-pipe schemes were taken up at 12 places. A sum of Rs. 2.60 lakhs was spent during the year on these works.

(xi) *Training Schemes and Study Tours*.—With a view to bring home to the generality of the people the concept and the purpose of the Community Development Movement and to facilitate better co-operation and participation a training scheme to impart training to the non-official Block Development Committee members

and Gram Lakshmis was taken up during the year. A total of 88 non-official Block Development Committee members and 38 Gram Lakshmis were trained. A party of about 50 farmers drawn from different Community Development Blocks was sent out on "Bharat Darshan" tour under the guidance of 4 officials of the Development Department. Another study tour of about 10 persons was performed in Assam. The farmers sent out on tour were much impressed by what they saw in other parts of the country.

The following statement shows expenditure figures in lakhs of rupees incurred under different heads of Development activities during the financial year 1959-60.

Sl. No.	Head of Development.	C.D. Block.		Special Multipurpose Block.	
		59-60	60-61	59-60	60-61

16 WELFARE OF SCHEDULED CASTES AND SCHEDULED TRIBES

16.1 The Scheduled Castes and the Scheduled Tribes constitute the backward classes of Manipur. As per 1961 Census the population of the Scheduled Castes is 13,376 and that of the Scheduled Tribes is 249,049. Special care is taken to develop these backward communities and their

welfare is looked after at the district level by an Additional Deputy Commissioner (Tribal Welfare) who functions under the overall charge of the Development Commissioner. During the year 1960-61 a sum of Rs. 1.36 lakhs was allotted for the welfare of Scheduled Castes and the expenditure incurred against this allotment was Rs. 1.24 lakhs. The allotment of funds for the welfare of the Scheduled Tribes of the district was divided into two sectors—State and Central. The budget allotment under the State sector was Rs. 18.07 lakhs while the allotment under the Central Sector was Rs. 15.00 lakhs. The expenditures incurred under the State and Central sectors were Rs. 28.79 lakhs and Rs. 17.18 lakhs respectively. The excess in expenditure in respect of the State Sector was due to the purchase of a second jeep for the Tribal Welfare Department.

Important achievements made during the year 1960-61 under the State sector are described below:—

(i) *Communication*.—The original programme under this head consisted of the construction of 100 miles of inter-village paths, 5 rest camps, construction of wooden bridges along the existing bridle paths and maintenance of these bridle paths. But as the need for improving communications in the hill areas was acute and the position was aggravated by food-scarcity conditions which prevailed in large parts of the tribal areas, the programme under communications was accelerated. The physical targets achieved were construction of 1,020 miles of inter-village paths including 63½ miles of jeepable roads, construction of 39 suspension and wooden bridges and building of 2 rest camps. In addition, 947 miles of bridle paths and inter-village paths and 606½ miles of jeepable roads were maintained. Savings from other heads were utilised and supplementary grants were also obtained.

(ii) *Technical Education and Aid to Voluntary Agencies*.—The Adimjati Technical Institute which imparts technical education to boys and girls belonging to the Scheduled Castes and Scheduled

Tribes continued to function well. The Adimjati Shiksha Ashram opened a new Ashram Hostel at Motbung, about 17 miles from Imphal for the benefit of tribal students. The 3 hostels for tribal boys at Tadubi, Churachandpur and Liwachangning were maintained. Kanglatongbi Orphanage continued to receive grant from Tribal Welfare funds.

(ii) *Medical and Public Health.*—5 new dispensaries were opened in the tribal areas of (a) Kasom Khullen, (b) Tinsong, (c) Thumkhong Lok, (d) Sempang and (e) Chakpikarong. Distribution of medicines was made at 100 centres. Water supply through the pipe system was introduced at 14 places, and 65 water tanks and 1 ring-well were constructed.

(iv) *Education.*—35 school buildings, 9 hostel buildings and 16 Teachers' quarters were constructed, extensions to 9 school buildings were also constructed. In addition to 80 Hindi schools opened in the proceeding year, 40 new Hindi Schools were opened. 440 Pre-matric stipends were awarded to Tribal students, 9 Community Centres were opened; 40 schools were given furniture grant, and 2 Social Camps were organised. Subsidy was also given for printing of 3 books in tribal dialects.

(v) *Agriculture and Animal Husbandry.*—The agricultural farms which had been opened at Maram, Tengnoupal, Jiribam and Thanlon continued to function satisfactorily. A new Veterinary dispensary was opened at Kangpokpi.

(vi) *Cottage Industries.*—3 Weaving centres and 2 Carpentry centres which had been established in the previous year continued to function well. One weaving centre was opened at Tadubi and financial assistance was given to 5 private Weaving Centres and 3 Carpentry Centres.

(vii) *Others.*—With a view to encourage better housing in the hill areas 250 families were given 5 bundles of C. I. sheets each. 75 miles of irrigation channels were constructed and 134 acres of land reclaimed.

The main achievements under the Central sector are listed below :—

(i) *Shifting Cultivation Control Scheme.*—480 acres of land were brought under terraced cultivation. The terracing was done by about 500 persons and the contribution of the Government was Rs. 500.00 per acre. The farms at Nungba, Tinsong, and Phungyar which had been opened in the previous years continued to function.

(ii) *Additional Schemes for the Rehabilitation of Tribals Doing Shifting Cultivation.*—Under this scheme, 193 miles of minor irrigation channels were constructed and 2,130 acres of land brought under terracing. An additional area of 1,221 acres of land was reclaimed for horticulture.

(iii) *Weaving Training Institute at Chandel.*—The centre continued to function and a Carpentry section was added during the year.

(iv) *Construction of Tadubi Kharasom Road.*—The budget provision for this item of work was Rs. 2.00 lakhs but no new works on this road were undertaken by the Public Works Department against this allotment as there was a separate fund for this road in the general sector. A sum of Rs. 0.47 lakh out of the above allotment was, however, spent to complete payment for works completed earlier. The savings under this head were, therefore, utilised for Shifting Cultivation Control Scheme.

(v) *Tamenglong Special Multipurpose Block.*—This Block continued to function, and a sum of Rs. 5.79 lakhs was spent during 1960-61 but the expenditure had to be met from the Community Development Budget. Because, out of Rs. 15.00 lakhs allotted to this block for a period of 5 years from the Tribal Welfare Grant under the Central sector, a sum of Rs. 13.82 lakhs had already been spent at the end of 1959-60 and the balance had to be kept for 1961-62 as the Block was to complete its fifth year only in 1961-62.

Scheduled Castes.

As stated earlier, a sum of Rs. 1.34 lakhs was spent during 1960-61 towards the execution of

schemes for the welfare of Scheduled Castes. The main achievements during the year under the various heads of development are given below :—

(i) *Education.*—Under this head, 100 pre-matric stipends were granted and 2 Middle English School buildings, 1 Lower Primary School building, 1 Hostel building and 4 teachers' quarters were constructed. 7 existing Adult Education centres continued.

(ii) *Housing.*—80 deserving persons were given 5 bundles of C. I. sheets as contribution for improving their dwelling houses.

(iii) *Communications.*—4 miles of inter-village path, 7 wooden bridges and 8 culverts were constructed.

(iv) *Cottage Industries.*—6 Carpentry Demonstration Centres were opened. 6 Weaving Demonstration Centres which had already been opened continued to function.

(v) *Medical and Public Health.*—Construction of a dispensary building at Khurukhul was completed and the dispensary started functioning. Distribution of free medicines and spraying of D. D. T. continued. 5 tanks and one ring-well were also constructed.

17. BRIEF GAZETTEER OF PLACE NAMES DISTRICT—MANIPUR

17.1 Andro

A Manipuri village of the Loi community. The village lies in the Imphal East Sub-division and is about 14 miles to the east of Imphal. It is an important centre for earthenware production.

17.2 Bishenpur

Headquarters of the Bishenpur Sub-division and also known as LAMANGDONG which literally means 'a high open space'—about 17 miles to the south-west of Imphal. Famous for its scenic beauty, it overlooks the Loktak Lake. It has

a Police Station, a Hospital and an Inspection Bungalow. There is a Vishnu temple in Bishenpur, which is said to have been built by King Kiyamba in about 1475 A.D. Situated just near the foothills it is an important market for the hill people.

17.3 Jiribam

Headquarters of the Jiribam Sub-division. About 25 miles from Silchar in the Cachar district of Assam. At present it is accessible mainly via Silchar and Lakhimpur. During the dry season it can also be approached via Bishenpur through the old Cachar Road. It was an important thana and checkpost in earlier days. This place will gain importance when the new Cachar Road is completed.

17.4 Kakching

Situated in the Thoubal Sub-division, about 28 miles to the south of Imphal, this place has one of the biggest markets in the valley. It has a hospital and an inspection bungalow. During the Second World War there was an airfield near Kakching.

17.5 Kangchup

Situated on a point along the western boundary of the valley, this place is about 10 miles to the west of Imphal. It has a newly constructed Inspection Bungalow. The reservoirs which supply water to Imphal town are situated at Kangchup. A bridle path connects Kangchup with Tamenglong, the Sub-divisional headquarters of Tamenglong Sub-division. In the past, it used to be the summer residence of British Political Agents.

17.6 Kangpokpi

28 miles to the north of Imphal on the Imphal-Dimapur road. It is an important check post. There are an Inspection Bungalow and a small Bazar. The place is gaining in importance as it has now been connected with Tamenglong by the Kangpokpi-Tamenglong road. It has also a Mission Hospital.

17.7 Keibul Lamjao

To the south of the Loktak Lake in the Bishenpur Sub-division, this place is the only game sanctuary in the district. It has the brow-antlered deer—a species said to be extinct in other parts of India. The sanctuary consists of a floating mass of islands made up of aquatic plants and their roots. It is situated about 30 miles from Imphal and can be approached from the Moirang-Kumbi road.

17.8 Langthabal

A hillock situated about 4 miles to the south of Imphal near the Burma Road. Maharaja Jai Singh built a new capital at Langthabal on the northern side of the hillock in 1760. The site was abandoned in 1844 A.D. The place is now in ruins. A large canal was constructed by Gambhir Singh for boat racing.

17.9 Mao

Situated on the border between Manipur and Nagaland, it is the Sub-divisional headquarters of the Mao and Sadar Hills Sub-division. It has a Police Station, an Inspection Bungalow and a Hospital. It is situated at a height of about 6,600 feet above sea level.

17.10 Moirang

An important township in the Bishenpur Sub-division. It is situated near the Loktak, about 26 miles to the south-west of Imphal, on the Imphal-Tiddim Road. It has an Inspection Bungalow and a Hospital. The place was electrified in 1961. Once the capital of the Moirang Principality, the place is famous for the Khamba-Thoibi legend.

17.11 Moreh

A frontier station on the Indo-Burma border this place is about 66 miles from Imphal. It has a Police Out-Post, a Customs check-point and a small Inspection Bungalow. It is said to have been used in earlier days, as a penal settlement for women who committed murder.

17.12 Nambol

An important centre on the Imphal-Tiddim Road about 9 miles from Imphal. The Nambol Bazar is also known as Buri Bazar. It is believed that during the Second World War the Japanese came as far as Maibam Lakhaching, a hillock near Nambol. The Nambol Bazar has a town committee.

17.13 New Churachandpur

Also known as Lamka this place was named after Sir Churachand Singh, Maharaja of Manipur. It is the headquarters of the Churachandpur Sub-division and is 38 miles to the south-west of Imphal on the Imphal-Tiddim Road. The elevation is roughly 3,000 feet above sea-level. It has a Police Station, a Customs check-post, a Hospital and an Inspection Bungalow. It has also been electrified and has telegraph facilities.

17.14 Oinam Bazar

A small Bazar on the Imphal-Tiddim road about 11 miles from Imphal. A town committee has been set up to look after the developmental affairs of this place.

17.15 Sekmai

A village on the Imphal-Dimapur road 12 miles from Imphal. The village is inhabited by Scheduled Castes. There is also a Bazar and a Town committee.

17.16 Sirohifarar

A peak in the Ukhrul Sub-division, in the centre of the hills lying between the Imphal-Dimapur Road and the Ningthi River. This peak which overlooks Ukhrul is at an elevation of about 8,420 feet above sea-level. The slopes of the peak are rich in flora. The place is accessible from Ukhrul and connected by a jeepable road upto the base of the peak.

17.17 Tamenglong

Headquarters of the not-easily-accessible Sub-division of Tamenglong. Situated to the west of

the valley at an elevation of about 4,500 feet above sea-level, it has now been connected with Imphal by a jeepable road which passes through Kangpokpi. The distance between Kangpokpi and Tamenglong is roughly 75 miles.

17.18 Thoubal

Headquarters of the Thoubal Sub-division and situated on the Indo-Burma Road 14 miles to the south-east of Imphal. It has a Hospital and a Police Station. The Thoubal Bazar which is one of the important bazars in the valley has a Town Committee.

17.19 Telloi

A Tangkhul village situated in the Ukhrul Sub-division about 10 miles from Ukhrul at an elevation of 4,500 feet above sea-level. Along with Ukhrul, Ngaimu, Somdal, Tuinem and Phutang, it is engaged in cloth weaving industry.

17.20 Ukhrul

Headquarters of the Sub-division bearing the same name it is connected with Imphal by a motorable road of about 50 miles in length. A beautiful hill station situated at a height of about 6,000 feet above sea-level, Ukhrul is fast becoming a town. It has a Police Station, a Hospital and an Inspection Bungalow.

17.21 Wangjing Bazar

An important bazar in the valley on the Indo-Burma Road 18 miles from Imphal. The place has a Town Committee.

17.22 Yairipok Bazar

An important place in the Thoubal Sub-division and in the eastern part of the valley. It is connected with Imphal by two roads. It is also an important commercial centre in the eastern part of the Manipur valley. A Town Committee has been set up for this place.

PART II

1 CENSUS TABLES

2 OFFICIAL STATISTICS

EXPLANATORY NOTE

1. This Part contains Tables which present various 1961 Census data relating to the district. Some of these Tables present material for the Sub-Divisions of the district and for the town of Imphal which was treated as a separate Census Charge in the Census of 1961. Brief notes on the tables contained in this Part are given in the following paragraphs. Concepts and definitions of terms used in the Tables are also briefly explained wherever it is considered necessary, in order to facilitate ready appreciation of the Tables.

A SERIES—GENERAL POPULATION TABLES.

2. There are four General Population Tables and three appendices in this Series. They constitute the basic population tables and will be helpful in studying the variation of population, sex ratios and distribution of population in various size-ranges of villages in the district.

TABLE A-I

3. This Table shows area, density, number of villages and towns, occupied residential houses and population separated by males and females. Data regarding these are presented for total, rural and urban areas of the district separately. Data relating to Imphal, the only town in the district have been shown separately.

4. A town or an urban area has been defined as a place which has a municipality, a cantonment or a civil line or a place with a population of 5,000 or over if 75 per cent of its male population is dependent on non-agricultural pursuits. The term 'village' has been described in Part I of this volume. Population enumerated in urban areas is urban population while population enumerated in the non-urban areas has been treated as the rural population. Total includes both the urban and rural population.

5. Area figures have been obtained through the Surveyor General of India. Rural area is the difference between the Total area and the Urban area.

6. The figures of occupied residential houses include houses used partly as dwellings and partly for other purposes like shop, workshop, factory, etc. They do not include vacant houses where no persons were found residing during the Census Operations.

Appendix I.

7. This shows the territorial changes that have taken place since 1961. Only the units which have undergone territorial changes during the last decade are shown in this appendix.

Appendix II.

8. This shows the number of villages which inspite of having populations of 5,000 or over have not been treated as towns and the number of towns which have less than 5,000 persons, but which have been treated as towns. While there is no town with a population of less than 5,000 persons in the district, there are two villages with populations of 5,000 persons and over.

Appendix III.

9. This furnishes figures relating to the houseless population and the institutional population in the district separately. Houseless population includes domestic servants who do not reside in

any house but sleep in the passages, corridors, or verandahs of a building, wandering or nomadic tribes, beggars, vagrants, tramps, *Sadhus*, *Fakirs*, lepers, etc., who are found on footpaths and streets or in places like parks, gardens, seashore, etc. Institutional population is made up of persons enumerated in penal, charitable or mental institutions, hostels, hotels, hospitals, boarding houses, etc.

TABLE A-II

10. This Table furnishes data on the population of the district for the seven Censuses from 1901 to 1961 and the variation of population during the decades by actual figures and percentages.

TABLE A-III

11. This Table presents for the district as a whole and each Sub-division the distribution of inhabited villages classified by seven population size groups which are: (i) less than 200, (ii) 200-499, (iii) 500-999, (iv) 1,000-1,999, (v) 2,000-4,999, (vi) 5,000-9,999, (vii) 10,000 and above.

TABLE A-IV

12. This Table shows the variation in the population of Imphal Town during the seven Censuses from 1901 to 1961. The variation shows abnormal features as the area of the town differed from Census to Census. In the 1961 Census towns have been classified into six groups on the basis of their population as under:

Class I	...	100,000 and over
Class II	...	50,000 to 99,999
Class III	...	20,000 to 49,999
Class IV	...	10,000 to 19,999
Class V	...	5,000 to 9,999
Class VI	...	Less than 5,000

B SERIES—GENERAL ECONOMIC TABLES.

13. This series is divided into two parts, namely, (i) General Economic Tables, and (ii) Household Economic Tables. Economic Tables of 1961 cover a wide range of statistical data and are more comprehensive than their predecessors. In the past Censuses, income or economic independence was the test applied in assessing the economy of the country. Before 1961, economic activity was reckoned in terms of categories like economically independent or economically dependent, semi-dependent, earning dependants or non-earning dependants. In 1951, the economic classification was confined to eight livelihood classes based on income rather than on work done or economic activity pursued by a person. The most significant departure made in the Census of 1961 is the emphasis laid on work, and not on income or economic dependence. As a result, all persons who work—family workers who are not in receipt of any income and working children who cannot earn enough for their maintenance, have also been included in the category of workers. This conceptual departure will perhaps help us in obtaining a more realistic picture of the working population of the country as a whole. The population is first divided into Workers and Non-workers on the basis of this changed concept. Even the Non-workers have been classified into eight categories according to the activities pursued by them.

14. The Household Economic Tables are an entirely new feature introduced in the Census of 1961. They have been prepared from Household Schedules by mechanical tabulation on the

basis of 20 per cent sample and furnish a multiplicity of data on the extent of land under cultivation, nature of household industry and the persons employed as family workers or as hired labourers.

15. In the present Census, a systematic classification of industries and occupations has been adopted, and the National Classification of Industries and Occupations adopted by the Government of India has been followed. The following statement gives the categories of industrial workers adopted in the Census of 1961 and the eight livelihood classes of 1951.

1961 Industrial Categories.

- I As Cultivators.
- II As Agricultural Labourers.
- III In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting, and Plantations, Orchards and Allied activities.
- IV At Household Industry.
- V In Manufacturing other than Household Industry.
- VI In Construction.
- VII In Trade and Commerce.
- VIII In Transport, Storage and Communications.
- IX In Other Services.
- X Non-workers.

1951 Livelihood classes.

AGRICULTURAL CLASSES.

- I Cultivators of land wholly or mainly owned and their dependants.
- II Cultivators of land wholly or mainly un-owned and their dependants.
- III Cultivating labourers and their dependants.
- IV Non-cultivating owners of land, agricultural rent receiver and their dependants.

NON-AGRICULTURAL CLASSES

- Persons (including dependants) who derive their principal means of livelihood from.
- V Production Other than cultivation.
- VI Commerce.
- VII Transport.
- VIII Other services and miscellaneous sources.

16. In the present Census, the non-working population has been distributed on the basis of eight types of activities, namely, (i) full time students or children attending school who do no other work, (ii) housewives and persons engaged in unpaid household duties, (iii) infants and other dependants including permanently disabled or old persons, (iv) retired persons, rentiers and others in receipt of income without doing any work, (v) beggars, vagrants and others of unspecified source of existence, (vi) convicts in jails or inmates of penal, mental or charitable institutions, (vii) persons not employed before but seeking employment for the first time, and (viii) persons employed before but now out of employment and seeking employment.

17. As for persons who are treated as Workers the information is available in Questions 8 to 11 of the Individual Slip. The following extracts from the booklet of "Instructions to Enumerators" relating to Questions 8 to 12 of the Individual Slip will be helpful in appreciating the General Economic Tables.

Q. 8—Working as Cultivator.

For purposes of the Census a person is working as cultivator if he or she is engaged either as employer, single worker, or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government, and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment of money, kind or share.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator.

Similarly, a person working in another person's land for wages in cash, kind or share such as share of the produce (agricultural labourer) will not be treated as cultivator.

Q. 9.—Working as Agricultural Labourer.

A person is said to be working as Agricultural Labourer if he "works in another person's and for wages in money, kind or share such as share of produce." An Agricultural Labourer has no right or lease or contract on land on which he works.

Q.10.—Household Industry.

A Household Industry has been defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

Q.11.—Doing Work Other than 8,9 or 10.

Nature of work which is the function that a person performs in the economic sector in which he or she is engaged was recorded in Q.10. (a) or 11 (a) of the Individual Slip. 'Industry' means that sector of economic activity in which the earner is engaged, and the name of the industry has been recorded according to the name of the main article produced, serviced, or repaired. The following specific instructions were issued in connection with recording of replies to Q. 11 (a) and Q. 11 (b).

- (1) Women or children who help with work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass, etc., should be described fully even if they work part-time. In the case of married or grown-up women who do any of the works mentioned above in addition to the usual household duties such work should be fully described and HW, written in brackets after the full description.
- (2) If a person makes the articles he sells, he should be entered as maker and seller of them.
- (3) Wherever convenient, for complete description the work should be expressed by the vernacular name by which it is known. The following are too vague and must not be used by themselves :—

Scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher.

- (4) *Labourers.*—For an unskilled labourer usually employed on one sort of work alone, give also the sort of work done, e.g., railway porter, market or bazar porter, labourer employed on road digging, brick-layer's labourer. If accustomed to work on various jobs, write general labourer.
- (5) *Machine operators.*—Always state the kind of machine giving its recognised name, if any.
- (6) *Shop-keeper, Retail Dealer, Shop Assistants.*—If wholly or mainly engaged in selling, write, "Dealer" (if principal) or Shop Assistant or Salesman (if assisting) and state whether the business is wholesale or retail or both. For shop assistants and salesmen in stores with several departments, state the particular department in which engaged (e.g., Ship and Railway, Parts, Fans and Sewing machines, Grocers and Confectioners).

(7) *Transport Workers*—Describe fully the nature of the transport, e.g., air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by horse, etc.

(8) *Services*—For a person engaged in the Defense Service write "Service of Central Government."

(9) If the job is known in the trade or industry by a special name, use that name. Managers, Foreman, etc., should be given the department/branch wherever applicable, e.g., Sales Manager or a Manager of Hardware Department, Machine Shop foreman or Boiler Room foreman, etc. The following terms are insufficient by themselves :—

Manufacturer, merchant, agent, broker, refractor, dealer, engineer and iron works, etc.

(10) *Domestic services*—In the case of any private servant e.g., a cook or domestic servant write only 'private cook or domestic servant'. There is no industry in his case but in the case of persons employed in hostels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., should be added.

For persons in the employ of Firms carrying on two or more businesses, if the businesses are carried on in separate premises then the business carried on at the premises in which the person is employed should be given. If the businesses are carried on in the same premises but each has a separate organisation (i.e. they have separate records of employment, production, etc.) then the appropriate business should be quoted. If, however, the two activities are carried on side by side then the major activity of the firm or establishment should be given.

(11) *Commerce*—Special care should be taken to see that the distinction between retail and wholesale business is clear. As in industries, the goods handled should be clearly indicated.

18. Economically active persons were divided into 4 classes, namely (1) Employer, (2) Employee (3) Single Worker and (4) Family Worker.

An 'Employer' is a person who hires one or more persons in his work.

An 'Employee' is a person who does his work under others for wages or salary in cash or kind.

A 'Single Worker' is a person who does his work without employing others except casually and without the help of other members of the family except casually.

A 'Family Worker' is a person who does work in own family without wages or salary in cash or kind.

Q.12—Activity, if not working.

19. As has been observed earlier the activities of non-workers also have been taken into account in the present census. Non-workers have been classified into eight categories according to their activities.

GENERAL ECONOMIC TABLES

20. There are altogether 24 Economic Tables in the B Series—15 General Economic Tables compiled from individual enumeration slips and 9 Household Economic Tables compiled from household schedules on 20 percent sample basis. Out of 15 General Economic Tables the District Census Handbook reproduces the following tables: The Primary Census Abstract which shows

1961 Summary figures for the district and the various administrative units for total, rural and urban areas is also reproduced in the District Census Handbook. The P.C.A. shows for each unit, area in square miles, number of occupied houses, number of households, total population, population of Scheduled Castes and Scheduled Tribes, number of literate and educated persons, and number of workers and non-workers.

B-I.

21. This Table furnishes the number of Workers and Non-workers classified by sex and broad age-groups. This is the basic economic table and furnishes the total population and 9 industrial categories of workers and non-workers. The data are presented for the district in total/rural/urban break-up. The workers and non-workers are classified by broad age-groups, viz. 0-14, 15-34, 35-59 and 60 and above. This classification is significant as these age-groups represent the different stages of life which have a special bearing on capacity to work.

B-III A and B.

22. This Table presents industrial classification of workers and non-workers by educational levels and is given in two parts A and B. Part A relates to the urban area and Part B relates to the rural areas. The nine categories of workers and also non-workers are given for illiterates and literates. Non-technical diplomas and degrees have been distinguished from technical diplomas and degrees and separate information has been furnished in respect of each technical qualification.

B-IV.

23. This Table gives industrial classification by sex and class of worker of persons at work other than cultivation. The Table has been presented in three parts on the basis of the principal work of the persons. Part A deals with persons at work in Household Industry classified by branch of industry and class of workers (employer and others). Part B relates to persons at work in non-household industry, trade, business, profession or service, classified by branch of industry and class of workers, (Employer, Employee, Single Worker and Family Worker), and Part C relates to persons at work in household as well as non-household industry classified by branch of industry.

B-V.

24. This Table gives the occupational classification by sex of persons at work other than cultivation. This is a new Table in which cross-tabulation of industry and occupation has been made for the first time. Figures for the district have been given for Divisions and Groups, for total, rural and urban areas. Separate data are furnished for persons working in household industry and other industrial categories as adopted in the Primary Census Abstract along with the Divisions and Groups. The National Classification of Occupation has been followed in this table.

B-VII.

25. This Table has been presented in two Parts—A and B. Part A presents data in respect of persons working principally (i) as Cultivators, (ii) as Agricultural Labourers or (iii) at Household Industry classified by sex and by Secondary Work (i) at Household Industry, (ii) as Cultivator or (iii) as Agricultural Labourer. Part B relates to industrial classification by sex or persons working in Non-household Industry, Trade, Business Profession or Service who are also engaged in Household Industry. This Table has been prepared separately for total, rural and urban populations of the district. Part A of the table is a cross-tabulation in the case of persons whose principal and secondary works are any two of (i) Cultivation (ii) Agricultural Labourer or (iii) Household

Industry. This table is important as it will show the extent to which cultivation is supplemented by Household Industry or vice versa. And Part B of the Table gives data on the basis of cross-tabulation in the case of persons who are principally engaged at Non-Household Industry etc, and also engaged in Household Industry.

B-VIII.

26. This Table furnishes data regarding persons unemployed aged 15 and above by sex, broad age-groups and educational levels and has been presented in two parts. Part A relates to urban areas and Part B relates to rural areas. Unemployed have been shown separately for (i) those who are seeking employment for the first time and (ii) those who were employed before but are now out of employment and seeking work. The age-groups given in the first case are quinquennial, i. e., 15-19, 20-24, 25-29, 30-34 and 35 + which are modified in the second case as 15-19, 20-24, 25-34, 35-44, 45-59 and 60 +.

B-IX.

27. This Table presents data in respect of persons not at work classified by sex, broad age-groups and type of activity. This is a new table introduced for the first time in 1961. The non-working population has been classified into 8 types of activities as under.

- (i) Full time students.
- (ii) Persons performing household duties without wages.
- (iii) Dependants, infants and disabled persons.
- (iv) Retired persons, rentiers or persons of independent means.
- (v) Beggars, vagrants and others of unspecified source of existence.
- (vi) Inmates of penal, mental and charitable institutions.
- (vii) Persons seeking employment for the first time.
- (viii) Persons employed before but now out of employment and seeking work.

HOUSEHOLD ECONOMIC TABLES

28. Out of 9 Household Economic Tables compiled at the present Census 5 tables, namely, B-X, B-XI, B-XII, B-XVI and B-XVII have been reproduced in the District Census Handbook. All these tables have been prepared on the basis of 20 percent sample.

B-X.

29. This Table furnishes data regarding Sample Households (i) engaged neither in cultivation nor household industry, (ii) engaged either in cultivation or household industry but not in both, and (iii) engaged both in cultivation and household industry. The Table has been prepared for total, rural and urban for the district and for rural areas only for the Charges.

B-XI.

30. This Table presents Sample Households classified by interest in land and size of land cultivated in rural and urban areas separately. For rural areas the data have been given down to the level of the charge while those for urban areas have been given for the district. This Table will be useful as it gives data on the size of holdings and affords a cross-tabulation of local rights over land, namely, (a) owned or held from Government, (b) held from private persons or institutions, and (c) partly held from Government and partly from private persons. Holdings have been recorded in acreage in the ranges of less than 1; 1.0-2.4; 2.5-4.9; 5.0-7.4; 7.5-9.9; 10.0-12.4; 12.5-14.9; 15.0-29.9; 30.0-49.9; 50+ and unspecified.

B-XII.

31. This Table presents data in respect of Sample households engaged in cultivation only classified by size of land cultivated and number of family workers and hired workers in rural and urban areas separately. In this Table a further study of households that are engaged only in cultivation has been made. Each household having a particular size of holding mentioned against Table B-XI has been cross-tabulated with reference to the number of persons working in cultivation. In the case of households where more than one person is working the number of family workers and hired workers have been separated. The Table will, therefore, furnish information on the extent of rural under-employment and yield surmises on the size and scale of agricultural enterprise.

B-XVI.

32. This Table furnishes data regarding Sample Principal Household Industry classified by period of working and total number of workers engaged in household industry in all areas and is presented for total/urban/rural break-up. Data in respect of households engaged in Household Industry only or both in household industry and cultivation have been given separately. Household Industry has been classified according to the period of working grouped under 1-3 months, 4-6 months, 7-9 months, and 10 months to one year. Number of households, number of family workers and number of hired workers have also been given under each duration period. Analysis of the data furnished in this Table for households with cultivation and for households without cultivation will throw some light on relative employment.

B-XVII.

33. This Table gives data on Sample households classified by (i) number of male and female members by size of household and (ii) engagement (a) neither in cultivation nor in industry (b) in household industry only and (c) in cultivation sub-classified by size of land cultivated. Data have been presented separately for total, rural and urban areas. It is intended to give family sizes distributed according to one member, small, medium, large and very large families. Though, by definition, a 'Census Household' is not the same as a 'Family' and includes persons who are not members of the family but are residing with the family during the enumeration period, the table will give a general idea of the family sizes as in the majority of families, the number of outsiders is insignificant.

C SERIES TABLES—SOCIAL AND CULTURAL TABLES

34. There are 8 tables in this Series which deal with social and cultural aspects like size and composition of households, age, marital status, literacy and education, language, religion, Scheduled Castes and Scheduled Tribes. Table C-I has been prepared from Household Schedules on the basis of 20 per cent sample. All the other tables are based on full count. All the tables in this series except C-VI are reproduced in the District Census Handbook.

C-I.

35. This table presents data relating to the composition of households by relationship to the Head of Family. Family and non-family members of the household are given separately. Among the family members, Heads of households and their spouses are given. Married sons and other relations are also shown separately by sex and marital status. This table will be of some sociological interest as it indicates the strength of the joint family system.

C-II.

36. This table which deals with Age and Marital status is an important demographic table. It corresponds to Table C-III of 1951 which was prepared on the basis of 10 percent sample. This table is prepared on full count according to the age-groups which conform to international requirements. From this table it can be ascertained whether proportions in the various Marital status conditions have increased or decreased since the last Census and whether any trend is observed in the age of marriage. This will give an indication of mortality in different marital statuses, and also in different age-groups.

C-III.

37. This Table furnishes statistical information on Age, Sex and Education. It corresponds to Table C-IV of 1951 which was prepared on 10 percent sample. The table has been prepared on full count this time and is presented in two parts—A and B. Broad educational levels upto matriculation and above are given in part A. In part B educational levels are shown in detail with technical and non-technical diplomas, university and technical degrees in urban areas.

C-IV.

38. This Table which furnishes data regarding Single Year Age Returns has been prepared separately for total, rural and urban areas of the district. The age in years completed on 1st March, 1961 has been given; but infants who did not complete a year on this date have been shown under the age-group '0'.

C-V.

39. This Table gives data regarding Mother Tongue. 'Mother Tongue' has been defined as the language spoken in childhood by the person's mother to the person or the language spoken in the household. All the languages as actually returned are shown in the alphabetical order with population, persons, males and females for total, rural and urban areas of the district.

C-VII.

40. This Table deals with Religion and has been prepared separately for total, rural and urban areas of the district. Data are given in this table for six main religions, namely, Buddhist, Christian, Hindu, Jain, Muslim and Sikh. Persons returned as professing other religions, sects, and beliefs which cannot be classified under any of these religions have been grouped under 'Religion not stated'.

C-VIII.

41. This Table relates to the Scheduled Castes and the Scheduled Tribes of the district. The table has been prepared separately for total, rural and urban populations. Total population of Scheduled Castes and Scheduled Tribes and their distribution by nine industrial categories of workers and also non-workers are shown. Part A relates to Scheduled Castes and Part B to Scheduled Tribes.

E SERIES TABLES—HOUSING TABLES

42. For the first time in the history of the Indian Census, a comprehensive housing Census has been taken in 1961 along with the population Census. A comprehensive house-list was adopted for collecting detailed information in respect of each Census-house and industrial establishment. The following tables have been compiled from the house-list.

E. I—Census Houses and the uses to which they are put.

E. II—Tenure Status of Sample Census households living in Census houses used wholly or partly as dwelling.

E. III—Census Houses used as factories and workshops classified by industry, power and no power used and size of employment.

E. IV—Distribution of Sample households living in Census houses used wholly or partly as dwelling by predominant material of wall and predominant material of roof.

E. V—Sample households classified by number of members and by number of rooms occupied.

Out of the above five tables, Tables E-I and E-III have been prepared on full count and Tables E-II, E-IV and E-V on the basis of 20 per cent sample households. All the E Series Tables are reproduced in the District Census Handbook.

E-I.

43. This Table prepared on full count presents figures of Census houses separately for total, rural and urban areas of the district. Census houses have been classified into various categories according to the uses to which they are put. Those found vacant during house-listing have been shown separately as such. The categories into which Census houses have been classified are—Dwellings, Shop-cum-dwellings, Workshop-cum-dwellings, Hotels, Sarais, Dharmashalas, Tourist homes and inspection houses, Shop excluding eating houses, Business and other educational institutions including training classes, coaching and shop classes, Restaurants, Sweetmeat shops and eating places, Places of entertainment and community gathering (Panchayat Ghar), Public health and medical institutions, hospitals, health centres, Doctor's clinics, Dispensaries, etc. and others. Occupied Census houses which do not fall under any of the specific categories have been classified under 'Others'. Concepts and definitions of the terms occurring in the tables are given below in order to facilitate appreciation of the significance of the statistics presented in the E Series Tables.

Census house.

"A Census house is a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-cum-dwelling or a place of business, workshop, school, etc., with a separate entrance."

Census household.

"A household is a group of persons who commonly live together in the same Census house and take their meals from a common mess unless the exigencies of work prevent them from doing so."

Shop.

"A shop is a place where articles are sold for cash or for credit."

Workshop.

"A Workshop is a place where some kind of production, processing, repair or servicing is undertaken or where goods or articles are made and sold, and is not a factory registered under the Factories Act."

Factory.

"A factory is a large workshop which has been registered under the Factories Act."

Business houses.

"Business houses are those where transactions in money or other articles are taking place, e.g. bank, etc."

E-II.

44. This Table has been prepared on the basis of 20 per cent sample of households. It has been confined to households whether they are pure dwellings or dwellings combined with other uses like workshop, shop, etc. Shop-cum-Dwellings and workshop-cum-dwellings are census houses which are partly used for residential or dwelling purposes and partly used as a shop or workshop. The table will furnish useful information in regard to the proportion of rented households to owned households.

E-III.

45. This Table presents data in respect of Census houses used as factories and workshops classified by industry, power and no-power used and size of employment. It relates both to small-scale manufacturing, repairing, or processing establishments (workshops) and to large-scale factories. Details of the products manufactured, processed or repaired under the 3 digit code of the Standard Industrial Classification Scheme along with the number of workshops and factories and their distribution according to the different sizes of employment using various kinds of fuel or power have been furnished. This table which gives an indication of the amount of fuel or power used, may well provide the frame for the collection of basic industrial statistics.

E-IV.

46. This Table has been prepared on 20 per cent sample. It furnishes data on structural conditions of Census houses by type of wall and type of roof. The material out of which most of the walls of Census houses are made has been entered. In the case of roofs, the material out of which most of the outer roof exposed to the weather is made has been entered.

The categories into which the materials of wall and roof have been classified are given below :—

Wall.	Roof.
(1) Grass, leaves, reeds or bamboo.	(1) Grass, leaves, reeds, thatch, wood, or bamboo.
(2) Timber.	(2) Tiles, slate, shingle.
(3) Mud.	(3) Corrugated iron, zinc, or other metal sheets.
(4) Unburnt bricks.	(4) Asbestos cement sheets.
(5) Burnt bricks.	(5) Brick and lime.
(6) C. I. sheets or other metal sheets.	(6) Concrete and stone slabs.
(7) Stone.	(7) All other materials.
(8) Cement concrete.	
(9) All other materials.	

E-V.

47. This Table has been prepared on the basis of 20 per cent sample of households. Sample households have been classified by number of members and by number of rooms occupied. The sex break up of the total number of members occupying sample households and total number of rooms in these households are shown separately. The table may be helpful in assessing congestion and over-crowding in households which have been classified into the following categories :—

Households with

- | | |
|---------------------|---------------------------|
| (i) no regular room | (iv) three rooms |
| (ii) one room | (v) four rooms |
| (iii) two rooms | (vi) five rooms and more. |

**SCT, SC & ST SERIES—SPECIAL TABLES FOR SCHEDULED CASTES
AND SCHEDULED TRIBES.**

48. There are 11 tables in this series, which have been especially prepared for the population of Scheduled Castes and Scheduled Tribes in the district. No special tables were prepared for Scheduled Castes and Scheduled Tribes in the Census of 1951. The only information that Table D-III of 1951 furnished was the total population of Scheduled Castes and Scheduled Tribes for the district. In view of the special safeguards provided for the people belonging to the Scheduled Castes and Scheduled Tribes under the Constitution, it was felt that a more detailed tabulation of the Census data will furnish the basic necessary for the evaluation of the results of the various schemes implemented by the State under the Five Year Plans as also for the formulation of new ones. These tables relate to economic activity, education, mother-tongue and classification of persons at work.

SCT-I.

49. This Table gives the distribution of Scheduled Castes population by economic activity. Information is furnished in respect of the total population of all Scheduled Castes as well as for each Scheduled Caste separately. Classification by economic activity is in the same nine categories as in the Primary Census Abstract. The material is presented for total, rural and urban areas of the district.

SCT-I. B.

50. This presents the distribution of the population of Scheduled Tribes by economic activity. The data are presented for the total of all Scheduled Tribes and also for each Scheduled Tribe separately. Classification of economic activity is by nine categories as in the Primary Census Abstract. The material is presented for total, rural and urban areas of the district.

51. Besides the above two tables, some other tables relating to the Scheduled Castes and Scheduled Tribes are also reproduced in the District Census Handbook. These tables furnish various important data on the population of Scheduled Castes and Scheduled Tribes of the district.

VILLAGE-WISE LIST OF INDUSTRIAL ESTABLISHMENTS.

52. This Table presents important information on the total number of industrial establishments. The table is compiled from the house-lists and presented in run-on manner. There is also a list of villages in the order of the location code number given in the Villages Directory, showing against each village minor group or groups of industries found in the village with the number of establishments shown within brackets against each minor group. Figures relating to the Imphal town are shown separately in a similar manner.

Industrial establishments have been classified according to the minor groups of industries given in the Standard Industrial Classification adopted by the Government of India. This classification is reproduced in the District Census Handbook to enable the reader to identify the industry to which a particular minor group relates.

- Note:—**(i) Areas of Mao and Sadar Hills are not available separately. Hence their relevant columns are not entered.
- (ii) Imphal West Sub-Division excludes an Urban population of P. 51,690, M. 26,385 and F. 25,305 of Imphal Town, which have been shown just below Manipur. It also excludes area, No. of Town and number of occupied Residential Houses.
- (iii) Imphal East Sub-Division excludes an Urban population of P. 16,027, M. 7,736 and F. 8,291 of Imphal Town which have been shown just below Manipur. It also excludes area, No. of Town and No. of occupied Residential Houses.
- (iv) The Sq. Km. and density figures in cols. 3(b) and (4) respectively of Urban areas of District/Sub-Division are worked out using the area figures corrected upto 2 places of decimals obtained by adding the areas of the towns in the respective units and not using the area figures given in the table. In addition to this, the area figures relating to Sq. Km. are further adjusted to make the District/Sub-Division totals tally.
- (v) (a) Denotes Area figures supplied by Surveyor General, India.
(b) Denotes area figures supplied by State Surveyor.
- (vi) (M) Stands for Municipality.

NATIONAL CLASSIFICATION OF OCCUPATIONS

(CODE STRUCTURE)

which classifies occupations into

331 Occupational Families (three-digit code numbers)

75 Occupational Groups (two-digit code numbers)

11 Occupational Divisions (one-digit code numbers)

NOTE: I The Classification does not provide separate code numbers for *Apprentices, Foremen and Instructors* (in-plant only). These may be classified by giving the prefixes of "A", "B", or "C", respectively before the code number of the occupation which is being learned, supervised or instructed.

NOTE: II n. e. e.—not elsewhere classified,

NATIONAL CLASSIFICATION OF OCCUPATIONS

400 Cultivators (Owners)
401 Cultivators (Tenants)
402 Farm Managers, Inspectors and Overseers
403 Planters and Plantation Managers
404 Farmers and Farm Managers, Animals, Birds and Insects Rearing
409 Farmers and Farm Managers, n.e.c.
41 FARM WORKERS
410 Farm Machinery Operators
411 Farm Workers, Animals, Birds and Insects Rearing
412 Gardeners (malis)
413 Tappers (Palm, Rubber trees, etc.)
414 Agricultural labourers
415 Plantation labourers
419 Farm Workers, n.e.c.
42 HUNTERS AND RELATED WORKERS
420 Hunters
421 Trappers
429 Hunters and Related Workers, n.e.c.
43 FISHERMEN AND RELATED WORKERS
430 Fishermen, Deep Sea
431 Fishermen, Inland and Coastal Waters
432 Couch and Shell gatherers, Sponge and Pearl Divers
439 Fishermen and Related Workers, n.e.c.
44 LOGGERS AND OTHER FORESTRY WORKERS
440 Forest Rangers and Related Workers
441 Harvesters and Gatherers of Forest Products including lac (except logs)
442 Log Fellers and Wood Cutters
443 Charcoal Burners and Forest Product Processors
449 Loggers and Other Forestry Workers, n.e.c.
5 MINERS, QUARRYMEN AND RELATED WORKERS
50 MINERS AND QUARRYMEN
500 Miners
501 Quarrymen
502 Drillers, Mines and Quarries
503 Shot Firers
509 Miners and Quarrymen, n.e.c.
51 WELL DRILLERS AND RELATED WORKERS
510 Well Drillers, Petroleum and Gas
511 Well Drillers, other than Petroleum and Gas
52 MINERAL TREATERS
520 Mineral Treaters
59 MINERS, QUARRYMEN AND RELATED WORKERS, n.e.c.
590 Miners, Quarrymen and Related Workers, n.e.c.
6 WORKERS IN TRANSPORT AND COMMUNICATION OCCUPATIONS
60 DECK OFFICERS, ENGINEER OFFICERS AND PILOTS, SHIP
600 Deck Officers and Pilots, Ship
601 Ship Engineers
61 DECK AND ENGINE-ROOM RATINGS (SHIP), BARGE CREWS AND BOATMEN
610 Deck Ratings (Ship), Barge Crews and Boatmen
611 Engine-Room Ratings, Firemen and Oilers, Ship
62 AIRCRAFT PILOTS, NAVIGATORS AND FLIGHT ENGINEERS
620 Aircraft Pilots
621 Flight Engineers
622 Flight Navigators
63 DRIVERS AND FIREMEN, RAILWAY ENGINE
630 Drivers
631 Firemen
64 DRIVERS, ROAD TRANSPORT
640 Tramcar Drivers
641 Motor Vehicle and Motor Cycle Drivers
642 Cycle Rickshaw Drivers and Rickshaw Pullers
643 Animal Drawn Vehicle Drivers
649 Drivers, Road Transport, n.e.c. (including Palki and Doli Bearers)
65 CONDUCTORS, GUARDS AND BRAKESMEN (RAILWAY)
650 Conductors
651 Guards
652 Brakesmen

NATIONAL CLASSIFICATION OF OCCUPATIONS—Contd.

- 66 INSPECTORS, SUPERVISORS, TRAFFIC CONTROLLERS AND DESPATCHERS, TRANSPORT
660 Inspectors, Supervisors and Station Masters
661 Traffic Controllers
662 Signalmen and Pointsmen
67 TELEPHONE, TELEGRAPH AND RELATED TELECOMMUNICATION OPERATORS
670 Telephone Operators
671 Telegraphists and Signallers
672 Radio Communication and Wireless Operators
679 Telephone, Telegraph and Related Tele-Communication Operators, n.e.c.
68 POSTMEN AND MESSENGERS
680 Postmen
681 Messengers (including Dak Peons)
69 WORKERS IN TRANSPORT AND COMMUNICATION OCCUPATIONS, n.e.c.
690 Ticket Collectors and Ticket Examiners
691 Conductors, Road Transport
692 Workers in Transport Occupations, n.e.c.
693 Inspectors, Traffic Controllers and Despatchers, Communications
694 Workers in Communication Occupations, n.e.c.
7 CRAFTSMEN, PRODUCTION PROCESS WORKERS, AND LABOURERS, NOT ELSEWHERE CLASSIFIED
70 SPINNERS, WEAVERS, KNITTERS, DYERS AND RELATED WORKERS
700 Fibre Preparers, Ginners, Cleaners, Sourers, etc.
701 Blow-room Workers and Carders
702 Spinners, Piecers and Winders
703 Warpers and Sizers
704 Drawers and Weavers
705 Pattern Card Preparers
706 Bleachers, Dyers and Finishers (excluding Printers)
707 Knitters and Lace Makers
708 Carpet Makers and Finishers
709 Spinners, Weavers, Knitters, Dyers and Related Workers, n.e.c.
71 TAILORS, CUTTERS, FURRIERS AND RELATED WORKERS
710 Tailors, Dress Makers and Garment Makers
711 Hat and Head-gear Makers
712 Furriers
713 Upholsterers and Related Workers
714 Pattern makers, Markers and Cutters, Textile Products, Leather Garments and Gloves
715 Sewers, Embroiderers and Darners, Textile and Fur Products
719 Tailors, Cutters, Furriers and Related Workers, n.e.c.
72 LEATHER CUTTERS, LASTERS AND SEWERS (EXCEPT GLOVES AND GARMENTS) RELATED WORKERS
720 Shoe makers and shoe repairers
721 Cutters, Lasters, Sewers, Footwear and Related workers
722 Harness and Saddle Makers
729 Leather Cutters, Lasters and Sewers (Except Gloves and Garments) and Related workers n.e.c.
73 FURNACEMEN, ROLLERS, DRAWERS, MOULDERS AND RELATED METAL MAKING AND TREATING WORKERS
730 Furnacemen, Metal
731 Annealers, Temperers and Related Heat Treaters
732 Rolling Mill Operators, Metal
733 Blacksmiths, Hammersmiths and Forgemen
734 Moulders and Coremakers
735 Metal Drawers and Extruders
739 Furnacemen, Rollers, Drawers, Moulders and Related Metal-Making and Treating Workers, n.e.c.
74 PRECISION INSTRUMENT MAKERS, WATCH MAKERS, JEWELLERS AND RELATED WORKERS
740 Precision instrument Makers, Watch and Clock Makers and Repairmen
741 Jewellers, Goldsmiths and Silversmiths
742 Jewellery Engravers
75 TOOL-MAKERS, MACHINISTS, PLUMBERS, WELDERS, PLATERS AND RELATED WORKERS
750 Fitter-Machinists, Tool-makers and Machine Tool Setters
751 Machine Tool Operators
752 Fitter-Assemblers and Machine Erectors (Except Electrical and Precision Instrument Fitter-Assemblers).
753 Mechanics-Repairmen (Except Electrical and Precision Instrument Repairmen)
754 Sheet Metal Workers
755 Plumbers and Pipe Fitters
756 Welders and Flame Cutters
757 Metal Plate and Structural Metal Workers
758 Electro-Platers, Dip Platers and Related Workers
759 Tool-Makers, Machinists, Plumbers, Welders, Platters and Related Workers, n.e.c. (including Metal-engravers other than printing)
76 ELECTRICIANS AND RELATED ELECTRICAL AND ELECTRONICS WORKERS
760 Electricians, Electrical Repairmen and Related Electrical Workers
761 Electrical and Electronics Fitters
762 Mechanics-Repairmen, Radio and Television
763 Installers and Repairmen, Telephone and Telegraph
764 Linemen and Cable Joiners
769 Electricians and Related Electrical and Electronics Workers, n.e.c.

NATIONAL CLASSIFICATION OF OCCUPATIONS—Contd

77 CARPENTERS, JOINERS, CABINET MAKERS, COOPERS AND RELATED WORKERS

- 770 Carpenters, Joiners, Pattern Makers (Wood)
- 771 Shipwrights and Boat Builders
- 772 Sawyers and Wood Working Machinists
- 773 Coach and Body Builders
- 774 Cart Builders and Wheel Wrights
- 775 Cabinet Makers
- 779 Carpenters, Joiners, Cabinet Makers, Cooper and Related Workers, n. e. c.

78 PAINTERS AND PAPER HANGERS

- 780 Painters and Paper Hangers

79 BRICKLAYERS, PLASTERERS AND CONSTRUCTION WORKERS, n. e. c.

- 790 Stone Cutters, Stone Carvers and Stone Dressers
- 791 Bricklayers, Plasterers, Masons
- 792 Glaziers
- 793 Cement Finishers and Terrazzo and Mosaic Workers
- 794 Hut Builders and Thatchers
- 795 Well Diggers
- 799 Bricklayers, Plasterers and Construction Workers, n. e. c.

80 COMPOSITORS, PRINTERS, ENGRAVERS, BOOK-BINDERS AND RELATED WORKERS

- 800 Type-setting Machine Operators
- 801 Compositors
- 802 Proof-Readers and Copy Holders
- 803 Printers (Paper)
- 804 Printers (Textile)
- 805 Photo-Litho Operators, Photo-lithographers
- 806 Engravers, Etchers and Block Makers (Printing)
- 807 Stereotypers
- 808 Book Binders
- 809 Compositors, Printers, Engravers, Book-Binders and Related Workers, n. e. c.

81 POTTERS, KILNMEN, GLASS AND CLAY FORMERS AND RELATED WORKERS

- 810 Furnacemen, Kilnmen and Ovenmen
- 811 Potters and Related Clay Formers
- 812 Blowers and Benders, Glass
- 813 Moulders and Pressers, Glass
- 814 Grinders, Cutters, Decorators and Finishers
- 815 Pulverisers and Mixers, Cement, Clay and Other Ceramics
- 819 Potters, Kilnmen, Glass and Clay Formers and Related Workers, n. e. c.

82 MILLERS, BAKERS, BREWMASTERS AND RELATED FOOD AND BEVERAGE WORKERS

- 820 Millers, Pounders, Huskers and Parchers, Grains and Related Food Workers
- 821 Crushers and Pressers, Oil Seeds
- 822 Dairy Workers (Non-Farm)

- 823 Khandsari, Sugar and Gur Makers
- 824 Bakers, Confectioners, Candy and Sweetmeat Makers
- 825 Makers of Aerated Water and Brewers
- 826 Food Canners, Preservers and Related Workers
- 827 Butchers
- 828 Coffee and Tea Blenders and Related Workers
- 829 Millers, Bakers, Brewmasters and Related Food and Beverage Workers, n. e. c.

83 CHEMICAL AND RELATED PROCESS WORKERS

- 830 Batch and Continuous Still Operators
- 831 Cookers, Roasters and Other Heat Treaters, Chemical and Related Processes
- 832 Crushers, Millers and Calenderers, Chemical and Related Processes
- 833 Paper Pulp Preparers
- 834 Paper Makers
- 839 Chemical and Related Process Workers, n. e. c.

84 TOBACCO PREPARERS AND PRODUCTS MAKERS

- 840 Curers, Graders and Blenders, Tobacco
- 841 Cigarette Machine Operators
- 842 Cheroot, Cigar and Bidi Makers
- 843 Snuff and Zarda Makers
- 849 Tobacco Preparers and Product Makers, n. e. c.

85 CRAFTSMEN AND PRODUCTION PROCESS WORKERS, n. e. c.

- 850 Basketry Weavers and Related Workers
- 851 Tyre Builders, Vulcanisers and Related Rubber Products Makers
- 852 Plastics Products Makers
- 853 Tanners, Follmongers, Pelt Dressers and Related Workers
- 854 Photographic Dark Room Workers
- 855 Makers of Musical Instruments and Related Workers
- 856 Paper Products Makers
- 859 Craftsmen and Production Process Workers, n. e. c.

86 TESTERS, PACKERS, SORTERS AND RELATED WORKERS

- 860 Checkers, Testers, Sorters, Weighers and Counters
- 861 Packers, Labellers and Related Workers

87 STATIONARY ENGINE AND EXCAVATING AND LIFTING EQUIPMENT OPERATORS AND RELATED WORKERS

- 870 Operators, Stationary Engines and Related Equipment
- 871 Boilermen and Firemen
- 872 Crane and Hoist Operators
- 873 Riggers and Cable Splicers
- 874 Operators of Earth-moving and Other Construction Machinery, n. e. c.
- 875 Materials-handling Equipment Operators
- 876 Oilers and Greasers, Stationary Engines, Motor Vehicles and Related Equipment
- 879 Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers, n. e. c.

NATIONAL CLASSIFICATION OF OCCUPATIONS—Concl.

89 LABOURERS, n. e. c.

- 890 Loaders and Unloaders
- 899 Labourers, n. e. c.

9 SERVICE, SPORT AND RECREATION WORKERS

90 FIRE FIGHTERS, POLICEMEN, GUARDS AND RELATED WORKERS

- 900 Fire Fighters and Related Workers
- 901 Police Constables, Investigators and Related Workers
- 902 Customs Examiners, Patrollers and Related Workers
- 903 Watchmen and Chowkidars
- 909 Fire Fighters, Policemen, Guards and Related Workers, n. e. c.

91 HOUSE KEEPERS, COOKS, MAIDS AND RELATED WORKERS

- 910 House Keepers, Matrons, Stewards (Domestic and Institutional)
- 911 Cooks, Cook-Bearers (Domestic and Institutional)
- 912 Butlers, Bearers, Waiters, Maids and Other Servants (Domestic)
- 913 Ayas, Nurse-maids
- 919 House Keepers, Cooks, Maids and Related Workers, n. e. c.

92 WAITERS, BARTENDERS AND RELATED WORKERS

- 920 Waiters, Bartenders and Related Workers (Institutional)

93 BUILDING CARE-TAKERS, CLEANERS AND RELATED WORKERS

- 930 Building Care-takers
- 931 Cleaners, Sweepers and Watermen

94 BARBERS, HAIRDRESSERS, BEAUTICIANS AND RELATED WORKERS

- 940 Barbers, Hairdressers, Beauticians and Related Workers

95 LAUNDERERS, DRY CLEANERS AND PRESSERS

- 950 Laundrymen, Washermen and Dhobies
- 951 Dry-cleaners and Pressers

96 ATHLETES, SPORTSMEN AND RELATED WORKERS

- 960 Athletes, Sportsmen and Related Workers

97 PHOTOGRAPHERS AND RELATED CAMERA OPERATORS

- 970 Movie Camera Operators
- 979 Other Photographers

99 SERVICE, SPORT AND RECREATION WORKERS, n. e. c.

- 990 Embalmers and Undertakers,
- 999 Service, Sport and Recreation Workers, n. e. c.

X WORKERS NOT CLASSIFIABLE BY OCCUPATION

X0 WORKERS WITHOUT OCCUPATIONS

- X00 Workers, without Occupations: Matriculates and above
- X08 Workers without Occupations, Literates
- X09 Workers without Occupations, Other

X8 WORKERS REPORTING OCCUPATION UNIDENTIFIABLE OR UNCLASSIFIABLE

- X80 Workers reporting occupations unidentifiable or unclassifiable

X9 WORKERS NOT REPORTING OCCUPATION

- X90 Workers not reporting occupation

A STANDARD INDUSTRIAL CLASSIFICATION (ADOPTED BY THE GOVERNMENT OF INDIA)

EXPLANATORY NOTE ON THE USE OF INDUSTRIAL CLASSIFICATION

1. In order that information regarding employment and unemployment in various sectors of the economy may be more specifically known, an industrial classification of all economic activity has been prepared by the Government of India for being used by its various fact finding agencies. This classification which may be called the 'Standard Industrial Classification' is given in this document. Employment Exchanges will use the Standard Industrial Classification and the Code Numbers provided for purposes of classification of applicants and vacancies.

2. Code numbers have been devised for each industrial group on what is known as the 'digit' system. The system is closely related to international usage as recommended by the I. L. O. Employment Officers must study the industrial classification system as an essential preparation for work under the Second Five-Year Plan so that they may be able to classify applicants and vacancies industrially. The work of industrial classification, it is recommended, should be carried out by persons thoroughly trained in the use of the Industrial Classification Code.

3. It is important that the concept of 'industry' should not be confused with that of 'occupation'. 'Industry' means that sector of economic activity in which the earner is engaged, e.g., textile industry, automobile industry, etc. whereas the 'occupation' describes the exact function that an individual performs in that sector e.g., fitter, carpenter, etc.

Construction of Industrial Classification Code

4. The following system of notation has been adopted in the classification of Industries:

Divisions:

The whole range of economic activity is divided into nine 'Divisions', and a 'code number' given to each. The first digit of any code number represents the 'Division' under which that activity is classified, e.g. the number given to the Manufacturing Division and manufacturing activity of any kind will have code numbers beginning with '2' or '3'.

Major Groups:

Each 'Division' is then divided into a number of 'Major Groups' not exceeding ten. The first two digits of any code number together represent the 'Division' and the 'Major Group' under which that activity is classified. Thus the number "20" has been given to the "Production of Foodstuffs" (Major Group) under "Manufacturing" (Division).

Minor Groups:

Each 'Major Group' is again sub-divided into a number of 'Minor Groups' not exceeding ten. The 'Minor Group' is represented by a third digit added to the 'Major Group' code number, e.g. '5' under Major Group 20 relates to production of bread, biscuits, cake, etc. Thus, if we find code No. 205 we know that it means production of bread, biscuits, cakes, etc. (Minor Group) in the 'Foodstuffs Industry' (Major Group) in "Manufacturing" (Division). Again if we find No. 701, we know that it means "Transporting by tramway, and bus service" (Minor Groups) in the "Transport Industry" (Major Group) in the 'Transport, Storage and Communication' (Division).

Thus, a one-digit code number represents a division, a two-digit code number represents a major group of industries and a three-digit code number represents a minor group of industries. A classification more detailed than the minor groups (3-digit level) has not been made.

5. The code number that should be allotted for economic activity connected with repairing or servicing will be the same as the code number provided for manufacturing of the article or product in that branch of industry (for example, Repairing of electric lamps and fans will be classified under 375 and Repairing of radios under 378), unless a code number is specially provided for repairs or servicing under the 'Minor Group' (for example, Repairing of bicycles and tircycles has been classified under 388, and Repairing and servicing of motor vehicles under 384).

EXPLANATORY NOTE ON THE USE OF INDUSTRIAL CLASSIFICATION—Contd.

Classification of Order Cards/Vacancies

6. The Industrial Classification Code appropriate to the economic activity of the employer who notifies the vacancy should be entered against the item 'I. Cl.' at the top right hand corner on the front page of the order card (X-2).

7. The following principles should be observed in deciding the industrial classification to be given to order cards:

- Industrial classification should be decided on the basis of local knowledge of the economic activity of the establishment concerned. In case of doubt, enquiries should be made directly from the firm or from the Factory Inspectorate, or any other authoritative source.
- The term 'establishment' means the whole of the premises under the same organisation or management at a particular address, for example, a factory, a mine, a firm, or a shop.
- The establishment should be classified under the code number which best describes the products made or the services provided by that establishment. Where a firm has, at the same address, two or more separate departments manufacturing different products, thereby justifying classification under two or more code numbers the industrial classification to be allotted is the one which best describes the major activity of the firm in terms of employment.
- Ancillary departments within the establishment, e.g., a department engaged in carrying out repairs, or making containers for the firm's products, or warehousing, transporting, accounting, selling etc. are to be regarded as a part of the firm and should be given the code number allotted to the establishment's principal activity. For example, a firm manufacturing medicinal products etc., is classified as "335". If that firm makes its own packages or distributes its own products by road, the activity of the department manufacturing the packages as well as the road transport department should be classified as "335".

8. The Industrial Classification Code with reference to vacancies notified, filled/cancelled and outstanding at Employment Exchanges should be the same as the classification number allotted to the order card.

Classification of Employers/Establishments

9. The Industrial Classification Code appropriate to the economic activity of employers included in the employers' register (on form EM-1) should be entered against the item 'I. Cl.' at the top right hand corner on the front page of EM-1 cards. The industrial classification code as entered on EM-1 should also be entered on the EM-returns received from the employer against the dotted portion of item 1 of the return which refers to the principal activity of the employer. In allotting the industrial classification code on EM-1 cards or on EM-returns received from employers, the same principles as laid down in para 7 above should be observed.

Classification of Persons Registering for work

10. In addition to the occupational Code number allotted to an applicant an industrial classification code number should also be recorded at the time of registration. The applicant should, therefore, be carefully questioned to ascertain the industrial field of activity in which he was last engaged. An Industrial Classification Code Number of that activity should then be entered against item 'I. Cl.' at the top right hand corner on the front page of Index Card (X-1). In cases where an applicant is re-registered, care should be taken to review the Industrial Classification Code Number previously allotted.

11. The following principles should be observed in classifying applicants registering at Exchanges:—

- The applicant should be carefully questioned in order to ascertain the industrial activity in which he was last engaged. For this purpose the record of employment of the applicant should be completely obtained in chronological order in each case. The record of previous employment will help to ascertain the industrial classification of the applicant. It is, therefore, essential that industrial classification should invariably be reviewed at the time of re-registration. In deciding the industrial classification, the applicant's oral statement may be relied upon and it should not be necessary to verify it by certificates or other documents. At the same time, the economic activity on the basis of which the industrial Classification Code has been given should be supported by details on the Index Card in the 'record of employment' column. The main aim of industrial classification should be to determine the economic activity which the registrant has just left or was last engaged in.

EXPLANATORY NOTE ON THE USE OF INDUSTRIAL CLASSIFICATION—Concl'd.

(b) An applicant who was in employment should be classified according to what his employer or he himself was making or doing. An Applicant who has been working on his own account, i. e. self-employed and who is now seeking wage earning or salaried employment should be classified in accordance with the industry in which he was self-employed. For example, if a man who was working on his own account as a fisherman registers at an Employment Exchange, he should be allotted No. 03 (Fishing).

(c) A person who was engaged in more than one industry should be classified in the industry from which he derived the major part of his earnings. Where the person appears to be in receipt of equal income from two or more jobs, he should be classified under the Code Number of that industry to which he devotes the greater part of his time.

(d) Where the activity, in which the applicant has been engaged is not provided for in the Standard List, he should be classified under 900 (Activities not specified elsewhere). Any person who has clearly been identified as gainfully employed either as an employee or on his own account, but cannot provide sufficient information about his industrial affiliation, should also be given the same Code No. 900.

(e) Applicants who are new entrants to the labour market i. e. persons who have not so far worked for livelihood as either employees or on their own account should be industrially classified as 999. This classification number should not be given merely because the applicant is a 'fresher' in the occupation for which he is registered. A 'fresher' who has been engaged in some economic activity (e.g. a 'fresher' clerk who has been a school teacher) should be given the Code number appropriate to his former means of livelihood.

(f) The economic activity of such persons as wiremen, carpenters and painters who are self-employed (engaged on job-work) should be classified under the code number appropriate to the industry to which their activity can be assigned. For example, a wireman who was engaged in electric installations in buildings, etc. will be classified under 40 (Construction); a wireman who was engaged in repair of heavy electrical machinery will be classified under 374 (Manufacture of heavy electrical machinery and equipment such as motors, generators and transformers). There may be other persons who are casual workers, who change industry at quick intervals or there may be persons who fail to provide sufficient information about their industrial affiliations to enable them to be classified. Such persons should be classified under 900. These should, however, be few and far between. The Code number 900 should be used sparingly and only in case of activities that cannot be specified and included in one or another industry group.

(g) Code No. 804, 805 and 809 should be allotted if the economic activity concerned is only administrative in nature, and should not be allotted if a more specific code number can be used (see note against Division 8—Public Services). For example, a carpenter, who has worked in the public owned Sindri Fertilizer Factory will be classified under 322 (Manufacture of fertilisers) and not 805. Similarly, a teacher who has worked in a Government High School will be classified under 811 (Educational Services) and not 804 or 809.

12. It should be made quite clear to applicants at the time of registration that the allocation of an industrial code number will have no effect on their submission against suitable employment which will continue to be based on their occupational suitability.

STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into

9 Divisions

45 Major Groups

343 Minor Groups

The divisions and major groups with their Code numbers are listed below.

DIVISIONS

- 0 Agriculture, Livestock, forestry, fishing and hunting
- 1 Mining and Quarrying
- 2 & 3 Manufacturing
- 4 Construction
- 5 Electricity, Gas, Water and Sanitary services
- 6 Trade and Commerce
- 7 Transport, Storage and Communication
- 8 Services
- 9 Activities not adequately described

MAJOR GROUPS

Division 0—Agriculture, livestock, forestry, fishing and hunting

- 00 Field produce and Plantation crops
- 01 Plantation crops
- 02 Forestry and Logging
- 03 Fishing
- 04 Livestock and Hunting

Division 1—Mining and Quarrying

- 10 Mining and quarrying

Division 2 and 3—Manufacturing

- 20 Foodstuffs
- 21 Beverages
- 22 Tobacco Products
- 23 Textile—cotton
- 24 Textile—jute
- 25 Textile—wool
- 26 Textile—silk
- 27 Textile—miscellaneous
- 28 Manufacture of wood and wooden products
- 29 Paper and paper products
- 30 Printing and publishing
- 31 Leather and leather products
- 32 Rubber, Petroleum and coal products

33 Chemicals and chemical products

34-35 Non-Metallie Mineral Products other than petroleum and coal

36 Basic Metals and their products except machinery and transport equipment

37 Machinery (all kinds other than Transport) and Electrical equipment

38 Transport Equipment

39 Miscellaneous Manufacturing Industries

Division 4—Construction

40 Construction

Division 5—Electricity, Gas, Water and Sanitary Services

50 Electricity and gas

51 Water supply and sanitary services

Division 6—Trade and Commerce

60-63 Wholesale Trade

64-68 Retail Trade

69 Trade and Commerce Miscellaneous

Division 7—Transport, Storage and Communication

70-71 Transport

72 Storage and Warehousing

73 Communications

Division 8—Services

80 Public Services

81 Educational and Scientific Services

82 Medical and Health Services

83 Religious and Welfare Services

84 Legal Services

85 Business Services

86 Community Services and trade and labour associations

87 Recreation Services

88 Personal Services

89 Services (not elsewhere classified)

Division 9—Activities not adequately described

90 Activities unspecified and not adequately described. (This includes new entrants to the labour market)

[Classification and Code numbers at the 3 digit level in respect of minor Groups are shown in the subsequent pages]

STANDARD INDUSTRIAL CLASSIFICATION

Division 0—Agriculture, livestock, forestry, fishing and hunting

Major Group (Code)	Description	Minor Group (Code)	Major Group (Code)	Description	Minor Group (Code)
00	Field Produce and Plantation Crops—		04	Livestock and Hunting—	
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize ...	000		Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat ...	040
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram ...	001		Rearing of sheep and production of wool ...	041
	Production of raw jute and kindred fibre crops ...	002		Rearing and production of other animals (mainly for slaughter) such as pig ...	042
	Production of raw cotton and kindred fibre crops ...	003		Production of ducks, hens and other small birds, eggs by rearing and poultry farming ...	043
	Production of oilseeds, sugarcane and other cash crops ...	004		Rearing of bees for the production of honey, wax and collection of honey ...	044
	Production of other crops (including vegetables) not covered above ...	005		Rearing of silk worms and production of cocoons and raw silk ...	045
	Production of fruits and nuts in plantation, vines and orchards ...	006		Rearing of other small animals and insects ...	046
	Production of wood, bamboo, cane reeds, thatching grass, etc. ...	007		Trapping of animals or games propagation ...	047
	Production of juice by tapping palms ...	008		Production of other animal husbandry products such as skin, bone, ivory and teeth ...	048
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above ...	009			
01	Plantation Crops—			Division 1—Mining and Quarrying—	
	Production of tea in plantation ...	010	10	Mining and Quarrying—	
	Production of coffee in plantation ...	011		Mining of coal ...	100
	Production of rubber in plantation ...	012		Mining of iron ores ...	101
	Production of tobacco in plantation ...	013		Mining of gold and silver ores ...	102
	Production of ganja, cinchona, opium ...	014		Mining of manganese ...	103
	Production of other plantation crops not covered above ...	015		Mining of mica ...	104
02	Forestry and Logging—			Mining of other non-ferrous metallic ores ...	105
	Planting, replanting and conservation of forests ...	020		Mining of crude petroleum and natural gas ...	106
	Felling and cutting of trees and transportation of logs ...	021		Quarrying of stone (including slate), clay, sand, gravel, limestone ...	107
	Preparation of timber ...	022		Mining of chemical earth such as soda ash ...	108
	Production of fuel including charcoal by exploitation of forest ...	023		Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones asbestos, gypsum, sulphur, asphalt ...	109
	Production of fodder by exploitation of forests ...	024			
	Production of gums, resins, lac, berks, herbs, wild fruits and leaves by the exploitation of forests ...	025		Division 2 & 3—Manufacturing—	
	Production and gathering of other forest products not covered above ...	026	20	Foodstuffs—	
03	Fishing			Production of rice, atta, flour, etc. by milling dehussing and processing of crops and foodgrains ...	200
	Production of fish by fishing in sea ...	030		Production of sugar and syrup from sugarcane in mills ...	201
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries ...	031		Production of indigenous sugar, gur from sugar cane or palm juice and production of candy ...	202
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond ...	032		Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits ...	203
				Slaughtering, preservation of meat and fish and canning of fish ...	204
				Production of bread, biscuits, cake and other bakery products ...	205
				Production of butter, ghee, cheese and other dairy products ...	206

STANDARD INDUSTRIAL CLASSIFICATION

Division 2 & 3—Manufacturing—Contd.

Major Group (Code)	Description	Minor Group (Code)	Major Group (Code)	Description	Minor Group (Code)
20	Foodstuffs—Contd.		24	Textile—Jute	
	Production of edible fats and oils (other than hydrogenated oil) ...	207		Jute pressing and baling ...	240
	Production of hydrogenated oils (Vanaspati) ...	208		Jute spinning and weaving ...	241
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, khoi, cocoa, chocolate, toffee, lozenge ...	209		Dyeing and bleaching of jute ...	242
				Printing of jute textile ...	243
				Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta ...	244
21	Beverages—		25	Textile—Wool	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery ...	210		Wool baling and pressing ...	250
	Production of country liquor ...	211		Wool cleaning and processing (scouring) ...	251
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice ...	212		Wool spinning and weaving in mill ...	252
	Production of other liquors not covered above ...	213		Wool spinning other than in mills ...	253
	Production of aerated and mineral water ...	214		Wool weaving in power loom ...	254
	Production of ice ...	215		Wool weaving in handloom ...	255
	Production of ice cream ...	216		Embroidery and art work in woollen textile ...	256
	Processing of tea in factories ...	217	26	Textile—Silk—	
	Processing of coffee in curing works ...	218		Spinning and weaving of silk textile in mill ...	260
	Production of other beverages ...	219		Dyeing and bleaching of silk ...	261
22	Tobacco Products—			Spinning of silk other than in mills ...	262
	Manufacture of bidi ...	220		Weaving of silk textile by power loom ...	263
	Manufacture of cigars and cheroots ...	221		Weaving of silk textile by handloom ...	264
	Manufacture of cigarette and cigarette tobacco ...	222		Printing of silk textile ...	265
	Manufacture of hookah tobacco ...	223		Manufacture of silk cordage, rope and twine ...	266
	Manufacture of snuff ...	224	27	Textile—Miscellaneous—	
	Manufacture of jerda and other chewing tobacco ...	225		Manufacture of carpet and all other similar type of textile products ...	270
	Manufacture of other tobacco products ...	226		Manufacture of hosiery and other knitted fabrics and garments ...	271
23	Textile—Cotton			Embroidery and making of crepe lace and fringes ...	272
	Cotton ginning, cleaning, pressing and baling ...	230		Making of textile garments including raincoats and headgear ...	273
	Cotton spinning (other than in mills) ...	231		Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags ...	274
	Cotton spinning and weaving in mills ...	232		Manufacture of waterproof textile products such as oil cloth, tarpaulin ...	275
	Cotton dyeing, bleaching ...	233		Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling ...	276
	Cotton weaving in power looms ...	234		Manufacture of coir and coir products ...	277
	Cotton weaving in handlooms ...	235		Manufacture of umbrellas ...	278
	Manufacturing of khadi textile in handlooms ...	236		Processing and manufacture of textile products not covered above ...	279
	Printing of cotton textile ...	237			
	Manufacturing of cotton nets ...	238			
	Manufacturing of cotton, cordage, rope and twine ...	239			

STANDARD INDUSTRIAL CLASSIFICATION

Division 2 & 3—Manufacturing—Contd.

Major Group (Code)	Description	Minor Group (Code)	Major Group (Code)	Description	Minor Group (Code)
28	<i>Manufacture of Wood and Wooden Products—</i>			Repair of shoes and other leather footwear	314
	Sawing and planing of wood ...	280		Repair of all other leather products except footwear ...	315
	Manufacture of wooden furniture and fixtures	281			
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows ...	282	32	<i>Rubber, Petroleum and Coal Products—</i>	
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283		Manufacture of tyres and tubes ...	320
	Manufacture of other wooden products such as utensils, toys artwares ...	284		Manufacture of rubber footwear ...	321
	Manufacture of veneer and plywood ...	285		Manufacture of rubber goods used for industrial purpose ...	322
	Manufacture of plywood products such as tea chest ...	286		Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat ...	323
	Manufacture of boxes and packing cases other than plywood ...	287		Productions of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products ...	288		Production of coal tar and coke in coke oven	325
	Manufacture of other wood and allied products not covered above ...	289		Manufacture of other coal and coal tar products not covered elsewhere ...	326
29	<i>Paper and Paper products—</i>		33	<i>Chemicals and Chemical Products—</i>	
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill ...	290		Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified ...	330
	Manufacture of pulp from wood, rags, waste-paper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade ...	291		Manufacture of dyes, paints, colours and varnishes ...	331
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292		Manufacture of fertilizers ...	332
				Manufacture of ammunition, explosives and fire works ...	333
				Manufacture of matches ...	334
				Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap ...	335
				Manufacture of soap and other washing and cleaning compounds ...	336
				Manufacture of turpentine, synthetic, resin, and plastic products and materials (including synthetic rubber) ...	337
				Manufacture of common salt ...	338
				Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats) ...	339
30	<i>Printing and Publishing—</i>		34	<i>Non-metallic Mineral Products other than Petroleum and Coal—</i>	
	Printing and publishing of newspapers and periodicals ...	300		Manufacture of structural clay products such as bricks, tiles ...	340
	Printing and publishing of books ...	301		Manufacture of cement and cement products	341
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302		Manufacture of lime ...	342
	All types of binding, stitching, sizing and other allied work connected with binding industry ...	303		Manufacture of structural stone goods, stone dressing and stone crushing ...	343
31	<i>Leather and Leather Products—</i>			Manufacture of stonewares, other than images ...	344
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310		Manufacture of stone images ...	345
	Manufacture of shoes and other leather footwear ...	311		Manufacture of plaster of paris and its products ...	346
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312		Manufacture of asbestos products ...	347
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles ...	313		Manufacture of mica products ...	348

Division 4—Construction

Major Group (Code)	Description	Minor Group (Code)	Major Group (Code)	Description	Minor Group (Code)
40	Construction—		61	Wholesale trading in medicines and chemicals	610
	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical & sanitary installations	400		Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Construction and maintenance of roads, railways, bridges, tunnels	401		Wholesale trading in toilets, perfumery and cosmetics	612
	Construction and maintenance of telegraph and telephone lines	402		Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Construction and maintenance of water ways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	403		Wholesale trading in wooden, steel and other metallic furniture and fittings	614
				Wholesale trading in footwear	615
				Wholesale trading in tyres, tubes and allied rubber products	616
				Wholesale trading in petrol, mobil oil & allied products	617
				Wholesale trading in other household equipment not covered above	618
50	Electricity and Gas—		62	Wholesale trading in bricks, tiles and other building materials	620
	Generation and transmission of electric energy	500		Wholesale trading in wood, bamboo, cane, thatches and similar products	621
	Distribution of electric energy	501			
	Manufacture of gas in gas works and distribution to domestic and industrial consumers	502	63	Wholesale trading in paper and other stationery goods	630
51	Water Supply and Sanitary Services—			Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Collection, purification and distribution of water to domestic and industrial consumers	510		Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511		Wholesale trading in all kinds of transport and storage equipment	633
				Wholesale trading in skins, leather and fur	634
				Wholesale trading in clocks, eye glasses, frames	635
				Wholesale trading in hardware and sanitary equipment	636
				Wholesale trading in scientific, medical and surgical instruments	637
				Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
				Wholesale trading in all goods not covered above	639
			64	Retail Trade—	
				Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
				Retail trading in beverages such as tea (leaf), coffee (Seed and powder), aerated water	641
				Retail trading in intoxicants such as wines, liquors	642
				Retail trading in other intoxicants such as opium, ganja, etc....	643

64	Retail Trade—Contd.			Retail trading in musical instruments, gramophone record, pictures and paintings including curio dealing	687
	Retail trading in tobacco, bidi, cigarettes and other tobacco products	644		Book-selling	688
	Retail trading in fuel such as coke, coal, firewood and kerosene	645		Retail trading in goods unspecified	689
	Retail trading in foodstuffs like sweetmeat, condiments, cakes, biscuits, etc.	646	69	Trade and Commerce Miscellaneous—	
	Retail trading in animals	647		Importing and exporting of goods and commodities	690
	Retail trading in straw and fodder	648		Real estate and properties	691
65	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products; (this includes retail trading in piece-goods of cotton, wool, silk and other textiles)	650		Stocks, shares and futures	692
	Retail trading in toilet goods, perfumes and cosmetics	651		Providents and insurances	693
	Retail trading in medicines and chemicals	652		Money lending (indigenous)	694
	Retail trading in footwear, head-gear such as hat, umbrella, shoes and chappals	653		Banking and similar type of financial operation	695
	Retail trading in tyres, tubes and allied rubber products	654		Auctioneering	696
	Retail trading in petrol, mobiloil and allied products	655		Distribution of motion pictures	697
66	Retail trading in wooden, steel and other metallic furniture and fittings... ..	660		All other activities connected with trade and commerce not covered above, including hiring out of durable goods such as electric fan, microphone, rickshaw, etc.	699
	Retail trading in stationery goods and paper	661			
	Retail trading in metal, porcelain and glass utensils	662			
	Retail trading in earthenware and earthen toys	663			
	Retail trading in other household equipment not covered above	664			
67	Retail trading in bricks, tiles and other building materials	670	70	Transport—	
	Retail trading in hardware and sanitary equipment,	671		Transporting by railways	700
	Retail trading in wood, bamboo cane, bark and thatches	672		Transporting by tramway and bus service	701
	Retail trading in other building materials... ..	673		Transporting by motor vehicles (other than omnibus)	702
68	Retail trading in agricultural and industrial machinery equipment, tools and appliances	680		Transporting by road through other means of transport such as hackney carriage, bullock cart, ekka	703
	Retail trading in transport and storage equipments	681		Animal transporting by animals such as horses, elephant, mule, camel	704
	Retail trading in electrical goods like electric fan, bulb, etc.	682		Transporting by man such as carrying of luggage, hand cart driving, rickshaw pulling, cycle rickshaw driving	705
	Retail trading in skins, leather and furs and their products excluding footwear and headgear	683		Transporting by boat, steamer, ferry, etc, by river, canal	706
	Retail trading in clock and watch, eye glass, frame	684		Transporting by boat, steamer, ship cargo boat by sea or ocean	707
	Retail trading in scientific, medical and surgical instruments	685		Transporting by air	708
	Retail trading in precious stones and jewellery	686		Transporting by other means not covered above	709
			71	Services incidental to transport such as packing, carting travel agency	710
			72	Storage and Ware Housing—	
				Operation of storage such as ware-houses... ..	720
				Operation of storage such as cold storage... ..	721
				Operation of storage of other type	722
			73	Communication—	
				Postal, telegraphic, wireless and signal communications	730
				Telephone communication	731
				Information and broadcasting	732

LIST OF COMMON HOUSEHOLD INDUSTRIES WITH THEIR INDUSTRIAL CODE NUMBER

Industrial Code Number	Household Industry	Industrial Code Number	Household Industry
Major Group 00	Field Produce and Plantation Crops	042.1	Rearing and production of pigs and goats (mainly for slaughter)
005.1	Production of Vegetables	042.2	Rearing and production of other animals (mainly for slaughter) n. e. c.
005.2	Production of roots etc., not included above	043.1	Poultry keeping and production of eggs
006.1	Production of fruits and nuts in plantation, vines and orchards	043.2	Rearing and production of ducks, hens etc. and other small birds e.g. pigeons, parrots, peacock, maina etc.
006.2	Production of copra (from coconuts)	044.1	Bee keeping for production of honey and wax
007.1	Production of thatching grass	044.2	Collection of wax and honey
007.2	Production of wood, bamboo, cane reeds, etc. (excluding thatching grass)	045	Rearing of tasar/ori/mulberry and other silk worms and production of cocoons and rawsilk
008.1	Production of juice (Neera) by tapping coconut trees	046.1	Dog breeding, rearing of rabbits and guinea-pigs
008.2	Production of juice by tapping other palms like date, palmyra n.e.c.	046.2	Rearing of other small animals and insects n.e.c.
009	Production of other agricultural produce (including fruits and nuts not covered by 006 and flowers) not covered above	048.1	Collection of bones
		048.2	Manufacture of glue from animal carcasses
		048.3	Manufacture of gut
		049.4	Production of other animal husbandry products such as skin, ivory, teeth and hair etc.
Major Group 01	Plantation Crops	Major Group 10	Mining and Quarrying
013	Production of tobacco in plantation	107.1	Extraction of chalk
015.1	Pan Cultivation	107.2	Quarrying of lime-stone
015.2	Plantation Crops except tea, coffee, rubber, tobacco, ganja, cinchona, opium and pan	107.3	Stone and slate quarrying
		107.4	Quarrying of sand, clay, gravel etc. n.e.c.
Major Group 02	Forestry and Logging	Major Group 20	Foodstuffs
023.1	Production of charcoal	200.1	Production of flour by village chakkies or flour mill by grinding wheat, maize, gram etc.
023.2	Production of other fuels by exploitation of forests	200.2	Hand pounding of rice by Dhekhi or Ukhal
024	Production of fodder by exploitation of forests	200.3	Production of rice by milling, dehusking and processing of paddy by rice mill
025.1	Production of Kathha	200.4	Grinding of chillies, turmeric etc.
025.2	Production of Lac	200.5	Production of pulses
025.3	Production of gum	200.6	Parching of grains
025.4	Production of resins, barks, herbs, wild fruits, berries and leaves etc. n. e. c.	200.7	Production and processing of other crops and food grains n. e. c.
026	Production and gathering of other forest products not covered above	202.1	Gur and Khandsari making from sugarcane and palm
Major Group 03	Fishing	202.2	Production of bhoora and candy
030	Production of fish by fishing in sea	202.3	Production of jaggery from coconut and palmyra juice (neera)
031	Production of fish by fishing in inland waters and ponds including fish farms and fish hatcheries	202.4	Production of other indigenous products from sugar and jaggery n. e. c.
032	Production of pearls, conch, shells, sponges, sea herbs, corals etc., by gathering or lifting from sea, river, pond	203.1	Manufacture of achar, pickles, chutney and murabba
Major Group 04	Livestock and Hunting	203.2	Production of sauce, jam and jelly
040.1	Rearing of goat for milk and animal power	203.3	Processing of cashew nut
040.2	Rearing of buffalo for milk and animal power	203.4	Manufacture of kokam products
040.3	Rearing of cows for milk and animal power	203.5	Fruit preservation (canning of fruits)
040.4	Rearing of camels and other big domestic animals	203.6	Making dried vegetables
040.5	Production and rearing of livestock mainly for milk and animal power n. e. c.		
041.1	Sheep breeding and rearing		
041.2	Production of wool		

LIST OF COMMON HOUSEHOLD INDUSTRIES WITH THEIR INDUSTRIAL CODE NUMBER—Contd

Industrial Code Number	Household Industry	Industrial Code Number	Household Industry
Major Group 20—contd	Foodstuff—contd	223	Manufacture of hookah tobacco
203.7	Production of other fruit products and preservation of fruits n. e. c.	224	Manufacture of snuff
204.1	Slaughtering, preservation of meat and fish and canning of fish	225	Manufacture of jerda, kimam, khaini and other chewing tobacco
204.2	Fish currying or curing and salting (currying applies more to skin and hide)	226	Manufacture of other tobacco products n.e.c.
205	Production of bread, biscuit, cake and other bakery products	Major Group 23	Textile—Cotton
206	Production of butter, cream, ghee, choose, chhana, khowa and other dairy products	230	Cotton ginning, cleaning, carding, pressing and baling
207	Oil pressing ghani, kolhu or by small machines	231	Cotton spinning (by charkha and takali)
209.1	Confectionery	233.1	Dyeing of cloth (cotton) and yarn
209.2	Making of sweet-meats, laddu, peda, barphi, batasa etc.	233.2	Breaching of cloth (cotton) and yarn
209.3	Sattu, bhunja, papar, barri, danauri, tilauri, sewai, apalam etc.	233.3	Tie and dye (bandhani) of cloth and yarn.
209.4	Making of chura or chira, muri, murki, khoi	234	Cotton cloth weaving in powerlooms
209.5	Making of chat	235	Cotton cloth weaving in handlooms
209.6	Making of dalmot, chanachur (jor) garam, rewari etc.	236	Manufacture of khadi textile in handlooms
209.7	Making of other food products for residuary snacks	237	Printing of cloth (cotton)
209.8	Production of other food products like cocoa, chocolate, toffee, lozenge	238.1	Making of fishing net
Major Group 21	Beverages	238.2	Making of mosquito net
210.1	Manufacture of vinegar from coconut juice (neera)	238.3	Making of other nets
210.2	Manufacture of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	239.1	Making of sacred thread
211	Production of country liquor from material obtained from sources other than trees and shrubs	239.2	Making of thread, rope, cordage and twine (cotton)
212.1	Production of indigenous liquor such as liquor, tody, neera from mahua and palm trees	Major Group 24	Textile—Jute
212.2	Production of other indigenous liquors from other materials from trees and shrubs	240	Jute pressing and baling
214.1	Production of mineral water	241	Jute spinning and weaving of mats asanis etc.
214.2	Production of aerated water such as sodawater, lemonade etc.	242	Dyeing and breaching of jute
215	Production of ice	244.1	Making of rope and cordage, out of hemp
216	Production of ice cream, ice-candy or kulphi-malai, milk-shake etc.	244.2	Making of rope and cordage, out of jute
218	Grinding of Coffee	244.3	Making of rope by palm fibre
219.1	Preparation sharbats and squashes	244.4	Making of rope by date palm fibre
219.2	Preparation of jeerapani	244.5	Making of fibre, sunn-hemp fibre
219.3	Production of other beverages n. e. c.	244.6	Making of other products from jute and similar fibres such as homp, mesta
Major Group 22	Tobacco Products	Major Group 25	Textile—Wool
220	Manufacture of bidi	250	Wool baling and pressing
221	Manufacture of cigars and cheroots	251	Cleaning, sorting, carding, scouring and processing of wool
		253	Spinning of wool by charkha or takali
		254	Weaving of woollen cloth in powerloom such as blankets, asanis etc.
		255	Weaving of woollen cloth in handloom such as blankets, rugs, pashmina, thulma, gudma, etc.
		256.1	Embroidery with various colours, combinations of various threads and art work in woollen textile
		256.2	Shawls (with traditional borders)

**LIST OF COMMON HOUSEHOLD INDUSTRIES WITH THEIR INDUSTRIAL
CODE NUMBER—Contd.**

Industrial Code Number	Household Industry	Industrial Code Number	Household Industry
Major Group 26 Textile—Silk			
261	Dyeing and bleaching of silk	275	Manufacture of water proof textile products such as oil cloth, tarpaulin etc.
262.1	Spinning of tussar, other than in mills	276.1	Making of namda felt
262.2	Spinning of eri, other than in mills	276.2	Making of suzani (padded quilts)
262.3	Spinning of silk, other than in mills n. e. c.	276.3	Processing of coconut fibre for upholstery
263.1	Weaving of Traditional silk (Atlas) by powerloom	276.4	Handicraft articles made of flax and fibre
263.2	Weaving of tussar by powerloom	276.5	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling n. e. c.
263.3	Weaving of eri by powerloom	277.1	Manufacture of coir matting, cactus fibre for ropes and rope making from coconut fibre
263.4	Weaving of silk and artificial silk in powerloom n. e. c.	277.2	Making of brush, broom etc. from coconut fibre
264.1	Weaving of mashru, himroo, brocade, kinkhab by handloom	277.3	Coir spinning
264.2	Weaving of silk and artificial silk in handloom n. e. c.	277.4	Coconut curing
265	Printing of silk textile	277.5	Other allied products of coir industry n.e.c.
266.1	Goaf making	278	Manufacture and repair of umbrellas
266.2	Making of silk cordage, rope and twine n.e.c.	279.1	Making of daura (thread) batua, cotton thread, buttons
Major Group 27 Textile—Miscellaneous			
270.1	Making of durries	279.2	Manufacture of dolls and toys (rags and cotton)
270.2	Making of carpets and druggets	279.3	Manufacture of other textile products not elsewhere classified
270.3	Manufacture of other similar textile products n. e. c.	Major Group 28 Manufacture of Wood and Wooden Products	
271.1	Making of hosiery goods such as banyans, socks, sweaters, mufflers etc.	280	Sawing, planing and milling of wood
271.2	Making of nales and azarbands	281	Manufacture of wooden furniture and fixtures
271.3	Making of parandas and chooteles	282	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows
271.4	Manufacture of hosiery and other knitted fabrics and garments n. e. c.	283.1	Carpentry works concerned with repairs of agricultural implements (wood)
272.1	Embroidery and making of phulkari	283.2	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipments and fixtures
272.2	Making of jari thread, zardoshi	284.1	Lacquerware (if on wood)
272.3	Traditional embroidery	284.2	Manufacture of wooden utensils, artware and decorative wooden boxes (patras)
272.4	Patchwork embroidery	284.3	Manufacture of wooden toys
272.5	Lace garland making	284.4	Sandal wood and other wood carving
272.6	Making of fringes and crepe laces	284.5	Bead making from wood
272.7	Making of kargots, main garlands, shell garlands etc.	284.6	Sawdust and plaster figure making
272.8	Making of other embroidery products n. e. c.	284.7	Marquetry boxes (inlay work)
273.1	Making of cap, hat, and other head-gear	284.8	Manufacture of photo frames and framing of photo paintings etc.
273.2	Traditional garments	284.9	Manufacture of other wooden products n. e. c.
273.3	Chrochet work (bora caps)	285	Manufacture of match splinters, plywood and veneers
273.4	Making of textile garments including rain-coats and head-gears) n. e. c.	287	Manufacture of boxes and packing cases other than plywood
274.1	Weaving of khes, bed covers, curtains, pillow cases and table-cloth, cloth bags etc.	288.1	Making of box from moonj grass
274.2	Making of newar	288.2	Making of rope mats etc. from moonj and sawal grass and making of cadjar for thatching purposes
274.3	Manufacture of other made-up textile goods like mattress, quilt, resai etc. n. e. c.		

**LIST OF COMMON HOUSEHOLD INDUSTRIES WITH THEIR INDUSTRIAL
CODE NUMBER—Contd.**

Industrial Code Number	Household Industry	Industrial Code Number	Household Industry
Major Group 28 Manufacture of Wood and Wooden Products—contd.			
288.3	Making of mats, handfans and umbrellas from palm leaves	312	Making of clothing and wearing apparel (except footwear) made of leather and fur
288.4	Making of sirki, moora and ohhaj	313	Manufacture of leather products such as leather upholstery suitcases, pocket-books, cigarette and key cases, purses, saddlery, whip, aqueducts (Kos), charsa and other articles
288.5	Making of baskets and broomsticks	314	Repair of shoes, chappals and other leather footwear
288.6	Making of donas (drone) and pattals (patravali) from leaves	315	Repair of all other leather products except footwear
288.7	Caning of chairs	Major Group 32 Rubber, Petroleum and Coal Products	
288.8	Making of chieks, cuscus-tatti and fans, sticks and poles from bamboo	320	Vulcanising tyres and tubes
288.9	Manufacture of other articles from leaf, cane, bamboo, cork and other allied products n.e.c.	321	Manufacture of chappals from torn tyres and other rubber footwear
289.1	Making of sticks and poles from wood	322	Manufacture of rubber products from natural and synthetic rubber including rain-coats, oil cloths, waterproof cloths etc.
289.2	Making of wooden kharaas and other wooden sandals	Major Group 33 Chemicals and Chemical Products	
289.3	Making of artwheels	331.1	Manufacture of dyes, paints, colours, shir, sindoor, varnish etc.
289.4	Manufacture of other wood and allied products n.e.c.	331.2	Manufacture of indigo
Major Group 29 Paper and Paper Products			
291	Manufacture of pulp and paper by hand	332	Manufacture of fertilizer (including from bones)
292.1	Making of envelopes and paper bags	333	Manufacture of fireworks and other explosives such as pataka etc.
292.2	Paper mache articles	334	Manufacture of matches
292.3	Making of kite	335.1	Manufacture of incense and perfumes
292.4	Paper decorations for homes	335.2	Manufacture of Agarbatti
292.5	Making of card-board boxes and cards	335.3	Manufacture of rose water
292.6	Making of paper toys	335.4	Manufacture of power, snow, cream, bindi, tilaki, hair oil and nail polish
292.7	Making of paper flowers etc.	335.5	Manufacture of kumkum and hinglo
292.8	Manufacture of other paper products from paper, paper board and pulp n. e. c.	335.6	Manufacture of mascara and kajal
Major Group 30 Printing and Publishing			
301	Printing and publishing of books	335.7	Manufacture of medicines (ayurvedic, unani etc.) and pharmaceutical preparations
302.1	Printing works, printing of handbills, invitation cards etc.	335.8	Manufacture of perfumes, cosmetics and other toilet preparations n.e.c.
302.2	Lithography, engraving, etching, block making, type cutting and other work connected with printing industry	336.1	Manufacture of soap and washing soda
303	Book binding, stitching, sizing, and other work connected with book binding industry	336.2	Manufacture of other washing and cleaning compounds n.e.c.
Major Group 31 Leather and Leather Products			
310.1	Flaying, processing of hides and skins including taxidermy	337.1	Manufacture of plastic toys
310.2	Currying, tanning and finishing of hides and skins preparation of finished leather	337.2	Making of plastic buttons
310.3	Stuffed animals	337.3	Manufacture of other plastic goods
311.1	Making of leather boots, shoes or chappals (slippers, sandals)	337.4	Making of celluloid goods
311.2	Making of Poola shoes	337.5	Manufacture of turpentine, synthetic resin and other materials n. e. c.
311.3	Manufacture of other footwear n.e.c.	338	Salt production
		339.1	Manufacture of ink including fountain pen ink
		339.2	Making of candles
		339.3	Making of tooth powder
		339.4	Making of boot polish and inedible oils etc.
		339.5	Manufacture of other chemicals products n.e.c.

**LIST OF COMMON HOUSEHOLD INDUSTRIES WITH THEIR INDUSTRIAL
CODE NUMBER—Contd.**

Industrial Code Number	Household Industry	Industrial Code Number	Household Industry
Major Group 34-35 Non-metallic Mineral Products other than Petroleum and Coal			
340.1	Making of bricks	365.3	Making of bottom part of hookah from brass and bell metal
340.2	Manufacture of roofing tiles	365.4	Making of brass and bell metal ornaments
340.3	Manufacture of other clay products n.e.c.	365.5	Making of other brass and bell metal products n.e.c.
341.1	Manufacture of cement door frames and sanitary fittings	366.1	Making of aluminium utensils
341.2	Manufacture of cement jali and tiles	366.2	Making of other aluminium products n.e.c.
341.3	Making of cement statues	367.1	Making of tin utensils
341.4	Making of cement products n.e.c.	367.2	Making of articles from tin sheets
342.1	Manufacture of lishu	367.3	Copper utensils
342.2	Manufacture of lime	367.4	Bronze works including bronze images, medals and articles of alloys
343.1	Stone carving	367.5	Manufacture of other metal products (excluding iron, brass, bell metal, aluminium) n.e.c.
343.2	Marble carving	368.1	Lacquerware (if on metal)
343.3	Granite carving	368.2	Nickel plating and electroplating
343.4	Manufacture of other structural stone goods, stone dressing and stone crushing n.e.c.	368.3	Engraving, embossing, polishing and welding of metal products
344	Making of chakki, chakla, silaut, lorha, jainta, utensils and other articles from stone	368.4	Enamelling and galvanizing of metal products
345	Manufacture of stone images and toys	368.5	Plating and electroplating of metal n.e.c. including silverplating, goldplating, E.P.N.S. etc.
346.1	Making of images from soap stone	369.1	Manufacture of agricultural implements such as ploughshare, khurpi, kudal etc.
346.2	Manufacture of images, toys and other articles of plaster of paris	369.2	Manufacture of light engineering goods including bolts and screws
348.1	Mica splitting	369.3	Making of iron utensils (e.g. buckets etc.) and articles from iron sheets
348.2	Manufacture of mica products, including mica grinding	369.4	Making and repairing of locks and trunks
350	Making of earthenware such as pottery, etc.	369.5	Cutlery
351	Manufacture of crockery	369.6	Manufacture of pins
353.1	Making of glass bangles	369.7	Manufacture of scales, weights and measures
353.2	Making of glass beads	369.8	Foundry Industry (including blacksmithy)
353.3	Manufacture of bead garlands (where making of garlands is undertaken at the place of manufacture of beads) (also see 399)	369.9	Manufacture of other sundry hardware such as G. I. pipe, wire net etc., n.e.c.
354	Manufacture of Laboratory glass apparatus	Major Group 37 Machinery (All Kinds other than Transport) and Electrical Equipment	
355	Making of clay models, earthen images, busts and statues	370	Manufacture of mechanical water pumps, tube well pumps, air pumps etc.
356.1	Making of earthen toys and artware	372	Manufacture of small machine tools and machine parts
356.2	Decorative ceramics	373	Manufacture of sewing machine parts
357	Manufacture of glass and glass products except optical and photographic lenses	375	Repairing and servicing of fans
Major Group 36 Basic Metals and their Products except Machinery and Transport Equipment			
360.1	Re-rolling of M.S. Roads	376	Manufacture of insulated wires
360.2	Manufacture of iron and steel including smelting, refining, rolling, etc. such as billets, blooms, tubes, rods n.e.c.	377.1	Manufacture of storage batteries
362	Manufacture of arms and weapons and their repair service	377.2	Manufacture of charging batteries
364	Manufacture of iron and steel furniture	377.3	Manufacture of other batteries n.e.c.
365.1	Making of utensils of brass and bell metal	378	Repairing and servicing of radios
365.2	Making of brassware	379.1	Manufacture of domestic electrical appliances
		379.2	Repairing and servicing of electrical apparatus, heaters, oven etc.

**LIST OF COMMON HOUSEHOLD INDUSTRIES WITH THEIR INDUSTRIAL
CODE NUMBER—Contd.**

Industrial Code Number	Household Industry	Industrial Code Number	Household Industry
Major Group 38 Transport Equipment			
382	Manufacture of body of trucks and buses including carpentry and joinry work involved	393.7	Gold covering work (fancy jewellery)
384	Repairing and servicing of automobiles	393.8	Bidriware industry
385.1	Manufacture of cycle parts, and accessories such as saddle, seat frame and gear etc.	393.9	Manufacture of jewellery, silverwares etc. n.e.c.
385.2	Manufacture of rickshaw parts	394	Manufacture, repairing and tuning of musical instruments such as harmonium, tabla, sitar, bansuri etc.
386	Manufacture of boats and barges	395.1	Manufacture of chalk pieces
388	Repair of Cycle and rickshaw	395.2	Making of slate and slate pencil
389	Manufacture of animal drawn hand drawn vehicles such as bullock cart, tamtam lagadi, palaki cab, wheel-barrow, handbarrow etc.	395.3	Making of rubber stamps
Major Group 39 Miscellaneous Manufacture Industries			
390.1	Repair of spectacles	395.4	Manufacture of fountain pen parts
390.2	Manufacture of small photographic equipment	395.5	Manufacture of other stationery articles such as pencils, penholders etc.
390.3	Manufacture of optical and photographic equipment n.e.c.	396.1	Manufacture of deshi sports goods such as luzzim and dumbbells
391	Manufacture of scientific goods	396.2	Making of rubber balls and balloons
392	Repairing and serving of watches and clocks	396.3	Manufacture of other sports goods n.e.c. bats, rackets, balls etc.
393.1	Inlay work with ivory and brass	399.1	Making of tikka and cowdung cakes
393.2	Goldsmithy	399.2	Making of beads from conch shells and horn goods
393.3	Manufacture of jewellery, silverware and wares using gold and other precious metal and semi-precious stones	399.3	Making of traditional objects such as Orrisa, Mysore and Tanjore paintings etc.
393.4	Silver artware, including silver repousse work on copper (such as in Tanjore) and silver images	399.4	Making of lac bangles
393.5	Silver filigree industry	399.5	Making of buttons (bone, shell, ivory)
393.6	Manufacture of gold and silver leaves	399.6	Making of gangavan (Making of wig from human hair)
		399.7	Making of garlands from flowers, camphor, sandal wood shavings, seeds and other materials, like beads etc.
		399.8	Repair of petrolmax lights etc.
		399.9	Making and repairing of goods n.e.c.

PART III

VILLAGE DIRECTORY

VILLAGE DIRECTORY

(This Directory gives an account of each village and each ward of town).

Explanatory Note

The Village Directory of 1961 Census is compiled in the same way as the Primary Census Abstract given in the District Census Handbook of 1951 except with the following additions and alterations :—

1. Population figures of Scheduled Castes and Scheduled Tribes have, for the first time, been presented in this Directory with sex break-up for each village.
2. The eight livelihood classes of 1951 Census have been replaced by workers classified into nine Industrial categories and also non-workers.
3. Information on certain essential amenities existing in the village is a new addition.

Thus, on the whole the Village Directory presents 1961 Census population figures for all villages and the town of Imphal showing area in acres of each village or ward, number of occupied residential houses, number of households, total population and its break-up by sex, Literacy, Scheduled Castes, Scheduled Tribes, workers and non-workers. The figures of workers are further split up by sex and by a broad classification into the following nine industrial categories :—

I Cultivator	V Manufacturing other than Household Industry
II Agricultural Labourer	VI Construction
III Mining, quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities	VII Trade and Commerce
IV Household Industry	VIII Transport, Storage and Communications
	IX Other Services and
	X Non-workers

These basic statistics are furnished in the Directory for the smallest possible administrative unit in the District.

The Sub-divisions and the villages within the Sub-divisions have been arranged in order of the location code numbers assigned to them in organising the 1961 Census. The villages and Sub-divisions presented in this Directory are direct extracts from Census Records.

A district map has been prepared showing some important features and locations of the Sub-divisions and is placed at the beginning of the District Census Handbook. In addition to it a Sub-division map will also be found at the beginning of the Village Directory of each Sub-division showing locations of all villages with their code numbers as in the alphabetical list of villages prepared for all Sub-divisions. The Sub-division map and the alphabetical list of villages are both improvements over the 1951 District Census Handbook and they will together facilitate location of any village in the Village Directory as well as in the Sub-division map. Villages having population of 2,000 and above have been indicated by names in the Sub-division maps while in the District map villages having population of 5,000 and more persons have been shown.

The area figures given in acres in column 4 are based on information furnished by the District Collectorate, while the figures of the number of houses and households in column 5 and 6 have been compiled from the Household Schedules prepared for each household and the information given in Column 7 to 37 have been compiled from the individual enumeration slips filled up during the course of enumeration. The information on selected basic amenities in column 3 i. e. Postal and Transport facilities, Educational Institution, Drinking Water Supply, Medical facilities and

Electricities are based on information collected from a variety of sources. For the available amenities the following abbreviations have been used to signify the items shown against each :—

P for Primary School	Mp for Medical Practitioner.
M for Middle School	Mew for Maternity and Child Welfare Centre
H for High School	Tk for Tank
C for Higher Institutions including Colleges	PO for Post Office
T for Technical Institution	TO for Telegraph Office
D for Dispensaries	Tph for Telegraph
Rch for Rural Health Centre	E for Electricity
	Hos for Hospital

In other columns P = Persons, M = Males and F = Females.

Sub-tables to Village and Town Directory have been added at the end of the Directory. In these Sub-tables the following abbreviations have been used to indicate the items noted against each :—

CS = Co-operative Society
 LSCS = Large Size Co-operative Society
 MPCS = Multipurpose Co-operative Society
 OCCS = Oil Crushing Co-operative Society
 HPCS = Hand Pounding Co-operative Society
 WCS = Weaving/Weavers Co-operative Society
 CCS = Carpenters Co-operative Society
 PCCS = Pisciculture Co-operative Society
