C—SOCIAL AND CULTURAL TABLES

Social and Cultural Tables (C Series) are presented in this volume.

The contents of the Social and Cultural Tables of which there are eight closely follow the corresponding tables of 1951 Census. These tables deal with different Social and Cultural characteristics of the population viz. age and marital status, literacy and educational levels, Mother-tongue, bilingualism, religion and special characteristics of Scheduled Castes and Scheduled Tribes. The volume contains the following tables:—

C-I	...	Composition of Sample Households by relationship to head of family classified by size of land cultivated (based on 20% sample).
C-II	...	Age and Marital status.
C-III Part A	...	Age, sex and education in all areas.
Part B	...	Age, sex and education in urban areas only.
Part C	...	Age, sex and education in rural areas only.
C-IV	...	Single Year Age returns.
C-V	...	Mother tongue (Alphabetical order).
C-VI	...	Bilingualism.
C-VII	...	Religion.
C-VIII	...	Scheduled Castes and Scheduled Tribes.
PART A	...	Classification by literacy and industrial category of workers and non-workers among Scheduled Castes.
PART B	...	Classification by literacy and industrial category of workers and non-workers among Scheduled Tribes.

The other special tables on Scheduled Castes and Scheduled Tribes will appear in a separate volume Part V-A. Special Tables on Scientific and Technical Personnel are presented as appendix to Table C-III.

The basic materials used in the construction of all these tables except Table C-I is the data obtained from replies returned to questions 1(b), 2, 3, 5(b), 5(c), 6, 7(a), 7(b), and questions 8-12 of the individual census slips.

Relevant extracts from the Manual of Instructions to Enumerators bearing on questions from which these 'C' series tables are compiled have been reproduced as an annexure to help the reader appreciate the contents of the tables.

The following paras touch a few salient features worthy of mention in this context:

Age: The ascertaining of the correct age is always beset with difficulties. This is more so in a country with a low literacy level like India where people are really ignorant of their age. To stimulate their memory a calender of outstanding occurrences for each district was made available to the enumerators. The other factor influencing age returns is the digital preference particularly in favour of multiples of 10 and 5. The age groupings are therefore so devised that there is minimum scope for this tendency to prevail.

Marital Status: The classification of marital status follow the recommendations of the U.N. based on International census practices.

Literacy and Education: The concepts adopted are based on the recommendations of the U.N. following the census practices prevailing in a number of countries. The population has been classified into literates and illiterates and in respect of literates the highest examination passed is also recorded.

Mother Tongue and Bilingualism: Mother tongue is the language spoken by a person in childhood or usually spoken in the household. In addition to mother tongue two other languages which the person understands best and speaks with facility were also recorded.

Religion and Caste: Collection of caste particulars was eschewed in the 1961 Census. Information about one of the six religions to which the person enumerated belonged and full details pertaining to caste, tribe or race of Scheduled Castes and Scheduled tribes were ascertained. The instructions were further amplified to include the followers of Brahmasamaj, Arya Samaj and aethiests.

Each table is accompanied by a fly leaf explaining the concepts and principles underlying its preparation.

ANNEXURE

EXTRACTS FROM MANUAL OF INSTRUCTIONS TO ENUMERATORS

Q. 1(b) Relationship to the Head of the Household.

In the case of the Head of the Household write 'Head'. The person who should be treated as the 'Head of the Household' has been fully explained in Part A an extract of which is appended here to for facility of ready reference. All relationships in this question should be recorded in respect of that person. In the case of relations write the relationship in full. Do not use words like nephew, niece or uncle, but state whether brother's or sister's son or daughter (for nephew or niece) or father's or mother's brother (uncle). 'Son' will include 'adopted son' or 'step son'; similarly for a daughter. In the case of visitors, borders or employees write 'visitor', 'boarder', or 'employee' as the case may be.

If on the check or revisional round between the 1st and 5th March the Head of the Household as recorded previously is found to have died, the person in the household who succeeds him by common consent as Head should be recorded as Head and the relationships in all other slips will have to be suitably corrected. The slip of the dead of household will, of course, be cancelled.

In the case of places like messes, boarding houses, chummeries, etc., where people live together with no ties of relationship, the manager or superintendent or the person who by common consent is regarded as the Head should be recorded as Head of the Household. Other members should be recorded as 'unrelated' in this question.

Q. 2. Age in completed years last birthday

Write age in years completed last birthday. For infants below one year of age, write 'O'. You will find many persons who cannot state their age correctly. You should assist them to state the correct age. If you are not able to elicit correct age directly, you should stimulate their memory by referring to historical incidents or religious events, etc. You may use any local calendar of such events that may have prepared for the purpose.

Q. 3. Marital Status

For Never Married	write	NM
Do Married	write	M
Do Widowed	write	W
Do Separated or Divorced	write	S

For a person who has never been married write 'NM'. For a person married, whether for the first or another time, 'M'. Write 'M' also for persons who are recognised by custom or society as married and for persons in stable *de facto* union. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or in stable *de facto* union. For a widowed person whose husband or wife is dead, and who has not been married, write 'W'. For a person who has been divorced in a lawful manner, either by decree of a law court or by a regular social or religious custom but who has not remarried, or a person who has been separated from wife or husband and is living apart with no apparent intention of living together again, write 'S'. For a prostitute return her marital status as declared by her.

Q. 5. (b) Religion

For Hindu	write	H
Muslim	write	M
Christian	write	C
Jain	write	J
Buddhist	write	B
Sikh	write	S
Others	write the answers actually returned.	

Q. 5. (c) Scheduled Castes and Scheduled Tribes

The answer to this question will be recorded only if a person belongs to a Scheduled Caste or Scheduled Tribe. If the person belongs to a Scheduled Caste or Scheduled Tribe obtaining in your State, or in your district write the name of the caste or tribe to which he belongs. For all others, write 'X' in this column. A list of Scheduled Castes and Scheduled Tribes obtaining in your State or in your district is given elsewhere.

If the person belonging to a Scheduled Caste or Scheduled Tribe returns his caste or tribe by a synonym or a generic name of a caste or tribe as given in your list, write the name as returned and the name of the relevant caste or tribe, as per printed list, within brackets.

Do not write the names of Scheduled Castes in general terms as 'Harijan' 'Achhut'. You should ascertain the name of the caste when it is returned and write it. If a person is negligent and insists on calling himself merely 'Harijan', tell him that this description will not earn the person any benefits under the Constitutions permissible to Scheduled Castes and Scheduled Tribes. This may persuade him to give out the correct name.

Scheduled Caste can belong only to the Hindu or Sikh religions. If a person belongs to a Scheduled Caste, there will be either 'H' or 'S' in the answer to question 5(b). Scheduled Tribes may belong to any religion.

Q. 6. Literacy and Education

For a person—		
1. Who can neither read nor write or can merely read but cannot write in any language	Write	O
2. Who can both read and write	Write	L

The test for reading is ability to read any simple letter wither in print or in manuscript, *i.e.*, if the person can read one of the examples in the Enumerator's Handbook with felicity he may be taken to have passed the test for reading. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can with understanding both read and write.

If the person can both read and write and has also passed a written examination or examinations as proof of an educational standard attained, write the highest examination passed instead of L.

Q. 7(a) Mother-tongue

Write the mother-tongue in full including dialect as returned by the person enumerated. Mother-tongue is language spoken in childhood by the person's mother to the person or mainly spoken in the household. If the mother died in infancy write the language mostly spoken in the person's home in childhood. In the case of infants and deaf-mutes give the language usually spoken by the mother.

Q. 7(b) Any other Language(s)

After recording the mother-tongue enquire whether the person knows any other language(s), Indian or Foreign, and write the language(s) returned by him against this question. In case he does not know any other language put 'X'.

The number of languages recorded against this question should not be more than two. These languages should be other than his mother-tongue which he speaks and understands best and can use felicity in communicating with others. Such language or languages will exclude dialects of the same language.

Qs. 8 to 11 Working

These questions apply only to workers. A person who is working may be working as a Cultivator, as an Agricultural Labourer, at a Household industry or may be doing any other work. You have to record the answer in questions 8, 9, 10 and 11 according as the person is working as a Cultivator or as an Agricultural Labourer or at Household Industry or doing any other work. He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a Cultivator and a Agricultural Labourer, one of the above four categories or in more than one. Or, he may be working both as Cultivator and at Household Industry in which case he should be entered both in Q.8 and Q.9. Or, he may be working in any possible combination of 8, 9, 10 and 11, in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four Questions 8 to 11.

Detailed instructions as to how the answers should be recorded in the individual questions are given against those questions below. You should catefully study them before recording the answers. For an under-trial prisoner enumerated in a Jail should be he recorded for the work or kinds of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of work he was doing before he was admitted into hospital or institution. But for a convict in a prison or for long term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded but 'I' should be recorded in Q. 12 below.

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, house-hold industry, etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be

treated as *worker*. A person who has been offered work but has not actually joined should be treated as *non-worker*. *Work includes not only actual work but effective supervision and direction of work.*

Persons under training as apprentices with or without stipend or wages will be regarded as working.

An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purposes of this question. If, however, in addition to her household work she engages herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cow-dung cakes or grass, etc., or any such work she should be treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in Q. 11.

After you have filled up the answers to questions 8 to 11, if you find that in the case of any person more than one productive activity has been recorded *i.e.*, more than one of the questions 8, 9, 10 or 11 has been filled up by some work you should ask him which one of the activities that has been recorded for him is his principal work. The principal work is the one on which the person spends most time. Put a ring round the number of the questions 8, 9, 10 or 11, according to the work on which the person says he spends most time. You should put a tick against the question number of that work on the right hand side of the question number. The ring and the tick should be put clearly so that any difficulty will not be felt to recognise them clearly.

It may be that in a few cases you and that you have recorded more than two productive activities in questions 8 to 11 *i.e.*, more than two of the questions 8 to 11 would have been filled up by some work. In such cases you should first ascertain the principal work *i.e.*, the one which the person spends most time and put a ring round the number of the question. You should then ascertain the work which is the next in importance to his principal work, *i.e.*, the work after his principal work which occupies most time. You should put a tick against the question number of that work on the right hand side of the question number. The ring and the tick should be put clearly so that any difficulty will not be felt to recognise them clearly.

Q. 8. Working as Cultivator

For a person working as cultivator write C. For a person not working as cultivator and for a person not working at all put X.

For purposes of the census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) Cultivation of lands or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

Cultivation involves ploughing, sowing and harvesting and does not include fruit-growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations. Persons engaged in fruit-growing or orchard or plantations like tea, coffee, rubber, cinchona and other medical plantations should be entered in Q. 10 or Q. 11 as the case may be.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land only as a labourer and has no right or lease or contract on land on which he works, nor is responsible for taking decisions as to which crops to sow and when, or taking the risk of cultivating and is paid wages in cash, kind or share such as share of produce (Agricultural Labourer) will not be treated as Cultivator in this question.

Q. 9. Working as Agricultural Labourer

Write AL for a person working as agricultural labourer, *i.e.*, a person who works in another person's land only as a labourer without exercising any supervision or direction in cultivation, for wages in cash, kind or share such as share of produce. For others put X. The labourer should have no right to lease to contract on land on which he works, nor should he be responsible for taking the decisions as to which crops to sow and when, or taking the risks of cultivation, A share of the produce goes to him only as wages. He should have been working as Agricultural Labourer in the last or current cultivating season.

Qs. 10(a) and 10(b) Household Industry

If a person is working in a Household Industry write (1) the nature of work done by him in the Household Industry against question 10(a) and (2), the nature of the Household Industry against question 10(b). Otherwise put X in both question 10(a) and (b). A Household

Industry is defined as an industry conducted by the Head of the Household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. You should carefully keep in mind the definitions of Household Industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

A person though he may not be working in his own Household Industry may be working as a paid employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry and if so, write the nature of the work done by him against question 10(a) and the nature of the Household Industry against 10(b).

Q. 10(c) If Employee in Household Industry.

This question will be filled up only for a person who is working as a paid employee in another person's Household Industry. In his or the case write E.E. For all others put X.

The following examples will illustrate how questions 10(a) to 10(c) should be filled up for persons working at household Industry.

Q. 10—Working at Household Industry

(a) Nature of work	(b) Nature of Household Industry	(c) If Employee
1. Spinning yarn	Spinning yarn in Ambar Charkha	X
2. Dyeing and printing yarn	Handloom weaving	X
3. Threshing and cleaning grain	Flour making <i>chakki</i>	X
4. Labourer employed for crushing oil	Oil ghani	E.E.
5. Tempering and polishing implements	Blacksmithy; making agricultural implements	X
6. Labourer employed for making and firing kiln	Earthenware pottery	E.E.
7. Throwing and Turning pottery	Earthenware pottery	X
8. Making wooden doors and windows	Carpentry	X
9. Filling gold ornaments with lac	Goldsmithy	E.E.
10. Labourer working hosiery machine	Hosiery	X
11. Keeping Accounts	Electroplating	X
12. Polishing and Scrapping metal	Cartwheelwright	E.E.
13. Labourer employed for putting iron hoop on cartwheels	Gunsmithy	X
14. Repairing of guns	Production of honey	X
15. Bee Keeping	Livestock raising	X
16. Tending cattle		

Q. 11. Doing Work other than 8, 9 or 10

If a worker is not working as a cultivator or as an agricultural labourer or at any Household Industry write the actual work he is doing. If a person is working as a cultivator or as an agricultural labourer or at Household Industry and also does some other work (including dairying or livestock raising, orchard or plantation, etc., as distinct from cultivation of crops) which does not relate to any of the above categories write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories, mentioned above write here the work in which he devotes more time.

Q. 11(a) Nature of Work

In the case of a person not working or who works *only* as cultivator or as agricultural labourer or at Household Industry, put 'X'.

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in vernacular transliteration of English. At previous censuses much trouble had been caused by inadequate answers and if you do not succeed in obtaining satisfactory information on the individual slips, you will be required to make a further visit for that purpose.

Q. 11(b) Industry, Business, Trade, Profession or Service

In the case of a person who is working and the nature of whose own work has been recorded in Question11(a), you should write here the nature of industry, business, trade, profession or service in which the person works.

As in the case of Question 11(a), you should describe in detail the nature of industry, business trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired, should be given. If more than one article is produced the chief article produced or serviced or repaired should be given. In the case of business or trade the principal article of trade should be described. In the case of service describe the nature of the service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industriae classification of the population. The description should be either in the vernacular or in English or in vernacular transliteration of English.

In the case of a person of whom an X is put in Question 11(a) put an X in this question also.

Important points to remember in Questions 11(a) and 11(b).

1. Women or children who help with work, such as ricepounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass, etc., should be described fully even if they work part-time. *In the case of married or grown-up women who do any of the works mentioned above in addition to the usual household duties such work should be fully described and HW written in brackets after the full description.*
2. If a person makes the articles he sells, he should be entered as maker and seller of them.
3. Wherever convenient, for complete description, the work should be expressed by the vernacular name by which it is known.
4. The following are too vague and must not be used by themselves:—
Scientist, technician, civil servant,, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant contractor, polisher.
5. LABOURERS—For an unskilled labourer usually employed on one sort of work alone, give also the sort of work done, *e.g.*, railway porter, market or bazaar porter, labourer employed on road-digging, brick-layer's labourer. If accustomed to work on various jobs, write general labourer.
6. MACHINE OPERATORS—Always state the kind of machine giving its recognized name, if any.
7. SHOP-KEEPERS, RETAIL DEALERS, SHOP ASSISTANTS—If wholly or mainly engaged in selling, write, 'Dealer'(if principal) or, Shop Assistant or Salesman (if assisting) and state whether the business is wholesale or retail or both. For Shop Assistants and Salesmen in stores with several departments, state the particular department in which engaged (*e.g.*, Ship and Railway Parts, Fans and Sewing Machines, Grocers and Confectioners).
8. TRANSPORT WORKERS—Describe fully the nature of the transport, *e.g.*, air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by horse, etc.
9. SERVICES—For a person engaged in the Defence Services write 'Service of Central Government'.
10. If the job is known in the trade or industry by a special name, use that name. Manager, Foreman etc., should given the department, branch wherever applicable, *e.g.*, Sales Manager or a Manager of Hardware Department, Machine Shop Foreman or Boiler Room Foreman, etc. The following terms are insufficient by themselves:—

Manufacturer, merchant, agent, broker, refractor, dealer, engineer, and iron works, etc.
11. DOMESTIC SERVICES—In the case of any private servant, *e.g.*, a cook or domestic servant, write only 'private cook or domesti. servant'. There is no industry in his case but in the case of persons employed in hostels, restaurants, boarding houses, institutions, etc, the words hotel, restaurant, etc., should be added.

For persons in the employ of firms carrying on two or more business if the businesses are carried on in separate premises then the business carried on at the premises in which the person is employed should be given. If the business are carried on in the same premises but each has a separate organisation (*i.e.*, they have separate records of employment, production, etc.,) then the appropriate business should be quoted. If, however, the two activities are carried on side by side then the major activity of the firm or establishment should be given.
12. COMMERCE—Special care should be taken to see that the distinction between retail and wholesale business is clear. As in industries, the goods handled should be clearly indicated.

Q. 11(c) Class of Worker

For a person who is:—

1. an *Employer*, that is who hires one or more persons in his work described in Q. 11(a) . . . write MR
2. an *Employee*, that is, who does his work described in Q. 11(a) under others for wages or salary in cash or kind write EE
3. a *Single Worker*, that is, who is doing his work described in Q. 11(a) without employing others, except casually and without the help of other members of the family except casually. This will include workers working as members of co-operatives write SW
4. a *Family Worker*, that is who is doing his work described in Q. 11(a) in own family without wages or salary in cash or kind write FW

For a person for whom an 'X' is put in Qs. 11(a) and 11(b) put an X in this question also.

Explanation

- (i) An Employer is a person who has to employ other persons in order to perform the work entered in Q. 11(a). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11(a). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.
- (ii) An Employee is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.
- (iii) A Single Worker for the purposes of Q. 11(c) is a person who works by himself but not as Head of household in a Household Industry. He is not employed by any one else and in his turn does not employ anybody else not even members of his household except easually. This definition of a *Single Worker* will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producers' co-operative. Each one of the partners or members of such producers' cooperative should be recorded as 'Single Worker'.
- (iv) A *Family Worker* is a member who works without receiving wages is cash or kind in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season. For the puspose of the entire Q. 11, such an industry should be on a scale larger than what has been covered in 'Household Industry' in Q. 10 whether run at home or away from home in town or village and even away from village in rural area and should ordinarily be in the nature of a recognised partnership, joint-stock company or registered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work if the business carried on either by the person or head of the household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

Q. 11(d) Name of Establishment

Describe in detail the name of the factory, workshop, business house, company, shop, etc. If a person has no fixed place or work write 'No fixed place of work'.

For a person for whom an X is put in Qs. 11(a), 11(b) and 11(c) put an X in this question also.

The following examples will illustrate how Qs. 11(a) to 11(d) should be filled up for person doing work other 8, 9 or 10.

Q. 11—Doing Work other than 8, 9 or 10.

Q. 11(a)	Q11(b)	Q. 11(c)	Q. 11(d)
Nature of Work	Nature of Industry, Profession, Trade or Service	Class of Workers	Name of Establishment
1. Cutting trees in forests	Logging in forests	EE	Forest Department of Government
2. Hunting for fur	Hunting	SW	No fixed place of work
3. Gardener in mango orchard	Fruit growing	EE	Obalappa's mango orchard

Q. 11—Doing work other than 8, 9 or 10—*concl.*

Q. 11(a)	Q. 11(b)	Q. 11(c)	C. 11(d)
4. Paid farm labourer	Coffee plantation	EE	Muthuswamy Coffee Estate
5. Travelling Ticket Inspector	Rail Transport	EE	Northern Railway
6. Senior Scientific Officer	Indian Ceramic Institute	EE	Indian Ceramic Institute
7. Foreman	Kiln room in Ceramic Institute	EE	Indian Ceramic Institute
8. Contractor	Supplying Gypsum to Fertilizer Factory	MR	Sindri Fertilizer Factory
9. Accountant	Locomotive Factory	EE	Chittaranjan Locomotives
10. Goods porter	Railway Station Porter	SW	Delhi Central Railway Station
11. Day labourer	Road digging in Mathura Road	EE	C. P. W. D.
12. Labourer	Assisting brick-layer in house building	EE	Defence Colony, New Delhi
13. General Labourer	No fixed job	SW	No fixed place of work
14. Machine Operator	Electric Transformer in Electric Supply Transformer Station	EE	Delhi Electric Supply Corporation

52. Furnace man	Boiler shop, Iron foundry works	EE	A B C Iron Foundry
53. Mono Type Operator	Printing Works	EE	Government Printing Press
54. Brass turner	Small tools production	EE	A B C Small Tools Company
55. Honorary Social Worker	State Social Welfare Board	SW	State Social Welfare Board
56. Member of Parliament	Parliament	SW	Parliament, Delhi
57. Free lance Journalist	Journalism	SW	No fixed journal
58. Political worker	Political work	SW	Name of party

Q. 12. Activity, if not Working.

This question will apply to a person NOT working.

Write 'X' in this question for a person who is working, that is, for whom you have recorded the work in any of the questions 8 to 11 above.

The following activities should be recorded in the case of persons NOT Working:—

- For a full-time student or child attending school who does no other work, such as make articles at home for sale nor even help part-time in his own family cultivation, industry, trade or business write ST
- For a person engaged in unpaid home duties (like housewife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, Industry, trade or business write HW
- For any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age write D
- For a retired person who is not employed again, retire, person living on agricultural or nonagricultural royalty, rent or dividend or any other per son of independent means for securing which he does not have to work and who does no other work write R
- For a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence write B
- For a convict in jail (an undertrial prisoner will be shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution write I
- For a person who has not been employed before but is seeking employment for the first time write NE
- For a person employed before but now out of employment and seeking employment write UN

Explanation:

If a person, who does not work, cannot be readily classified in any of the above categories, put him in category 5 and write B in this question. A retired person who has taken up regular work again should not be entered in this question as he would have been entered for his new work in Question 8 to 11.

A person who is not working but has been offered work which he has not joined should be included in item 3 and 'D' should be written. He should not be included in items 7 or 8.

PERSONS TREATED AS “HEAD OF THE HOUSEHOLD”

Below the Location Code you will find a column for recording the full name of the Head of the household. The Head of the household for census purposes is a person on whom falls the chief responsibility for the maintenance of the household. Thus the Head of the household need not necessarily be the eldest male member but may even be a female or a younger member of either sex. You need not, however, make any elaborate enquiry about this and should record as Head of household the name of the person who is actually acknowledged as such.

Institutions like boarding houses, messes and chummeries should also be regarded as census households but of ‘unrelated persons living together’. In such a Household the manager or superintendent or the person who has administrative responsibilities or who by common consent it regarded as the Head, should be recorded as Head of the household. If in an Institution separate families are also living, each such family should be treated as a census household and a separate household schedule should be filled up. In such cases the full name of the recognised Head of the household should be written.

If the Head of the Household is a person who spends the week-days in town and spends the week-ends at home, he should be recorded as Head of Household and entered for enumeration at his home. If he should be away for a fairly long time which covers the entire enumeration period then the person who is in charge in his absence should be recorded as the Head of the Household.

PART II—C (i)

SOCIAL AND CULTURAL TABLES

PERSONS TREATED AS “HEAD OF THE HOUSEHOLD”

Below the Location Code you will find a column for recording the full name of the Head of the household. The Head of the household for census purposes is a person on whom falls the chief responsibility for the maintenance of the household. Thus the Head of the household need not necessarily be the eldest male member but may even be a female or a younger member of either sex. You need not, however, make any elaborate enquiry about this and should record as Head of household the name of the person who is actually acknowledged as such.

Institutions like boarding houses, messes and chummeries should also be regarded as census households but of 'unrelated persons living together'. In such a Household the manager or superintendent or the person who has administrative responsibilities or who by common consent is regarded as the Head, should be recorded as Head of the household. If in an Institution separate families are also living, each such family should be treated as a census household and a separate household schedule should be filled up. In such cases the full name of the recognised Head of the household should be written.

If the Head of the Household is a person who spends the week-days in town and spends the week-ends at home, he should be recorded as Head of Household and entered for enumeration at his home. If he should be away for a fairly long time which covers the entire enumeration period then the person who is in charge in his absence should be recorded as the Head of the Household.

PART II—C (i)

SOCIAL AND CULTURAL TABLES

TABLE C-I

COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY CLASSIFIED BY SIZE OF LAND CULTIVATED

(Based on 20% sample)

This table differs from the corresponding Table of 1951 Census in that this table has been prepared on a 20% sample basis from the Household Schedules while the 1951 Table was based on a sample of one in every 1,000 households. The filling up of a separate Household Schedule for each household in addition to the enumeration slip for each individual facilitated detailed study of the household as a unit. This table gives details about the composition of members in a household which are also classified by size of land cultivated. The data is presented for the State and the districts. Family and non-family members of household are separated. Among the family members, heads of households and their spouses are given. Both can be males or females. Married sons and other married relations are also given separately by sex. The other relations—never married, widowed, divorced or separated are given separately.

A "Household" means the entire group of persons who commonly dine together in the same census house and take their meals from a common mess unless the exigencies of work prevent them from doing so. A family is a group of persons bound together by some sort of relationship either by birth or marriage.

Data presented about the number of households coming under each size of holding group together with the strength of such households will prove useful in estimating the proportion of households depending on agriculture and having a reasonable level of income.

This table is also of sociological interest as it helps to assess how far the joint family system is still prevailing.

The heads of households are shown as less than the total number of households in some areas on account of the fact that some enumerators had apparently not indicated any person as the head of household in the 'Population Record' where the conventional head of household was absent from the household at the time of enumeration and had not been enumerated in that household.

TABLE C-II

AGE AND MARITAL STATUS

This table which gives information about marital status by sex and quin-quennial age-groups has been prepared separately for total, rural and urban population. This is a very important demographic table. The age-groups conform to international requirements and the data are presented down to district by Total/Rural/Urban. From this table it is possible to ascertain whether proportions in the various marital status conditions have increased or decreased since the last census and whether any particular trend is observable in the age of marriage. This will give an indication of mortality in different marital statuses and also in different age-groups. The data on married females by age-group can be utilised for forecasting the future births from age specific birth rates. This table corresponds to Table C-III of 1951. While Table C-III of 1951 was prepared on 10% sample, this table has been prepared on full count.

The definitions and concepts adopted in preparing this table have been described below:—

Marital status has been shown under four categories:

- (i) Never married (ii) Married (with a living spouse) (iii) Widowed (married with spouse deceased) and (iv) Divorced or separated.

A person married whether for the first time or another time, has been treated as “married”. The “married” group, will also include such persons whose marriage is recognised by custom of society and persons in stable *de facto* union.

A “widowed” person is one whose husband or wife is dead and who has not remarried.

“Divorced” or “separated” means a person who has been divorced in a lawful manner, either by decree of a law court or by a regular social or religious custom but who has not remarried, or a person who has been separated from wife or husband and is living apart with no apparent intention of living together again. The marital status of a prostitute was entered as declared by her.

At the stage of sorting, a uniform principal was adopted on an All-India basis to treat all persons in the age-group 0-9 as “Never married” irrespective of the entries against Question No. 3 in the enumeration slip.

“Age” means number of completed years as on 1st March 1961.

In 1951 widowed and divorced persons were clubbed together in the main table, but separate figures were given in respect of divorced persons in the fly leaf. In this Census, figures are being presented separately for “widowed and separated” persons.

The corresponding table for Scheduled Castes and Scheduled Tribes is being presented separately as SCT II in Part V-A, Mysore, Census of India, 1961.

TABLE C—III

AGE, SEX AND EDUCATION

This table deals with the educational standards of the population classified by sex and age groups, presented down to the district level. It is prepared in three parts, viz. Part A for all areas, Part B for urban and Part C for rural areas. The age-groups are quinquennial upto 34 and the grouping thereafter is 35—44, 45—59 and 60+. All the three parts viz. C-III A, B & C figures separately for illiterates and literates (without educational standards). For literates (with educational levels) the classification for *all areas* and *rural areas* is limited to two categories viz. (i) Primary or Junior Basic and (ii) Matriculation and above. But for urban areas, a more detailed classification of educational level among literates has been adopted as indicated below:—

- Primary or Junior Basic.
- Matriculation or Higher Secondary.
- Technical diploma not equal to degree.
- Non-technical diploma not equal to degree.
- University degree or post graduate degree other than technical degree and
- Technical degree or diploma equal to degree or post graduate degree in (a) Engineering (b) Medicine (c) Agriculture (d) Veterinary (e) Technology (f) Teaching and (g) Others.

This table gives a measure of the growth of literacy in the total population as well as in the different age groups since the last census. It also yields information about the spread of adult education.

The concepts and definitions adopted in preparing this table are explained below:—

- Illiterate:** is a person who can neither read nor write or can merely read but cannot write in any language.
- Literate:** is a person who can both read and write. The test for reading is ability to read any simple letter either in print or in manuscript i.e. if the person can read one of the examples in the Enumerator's handbook with facility, he may be taken to have passed the test of reading. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can with understanding both read and write.
- Age:** 'Age' means number of completed years as on the sun rise of 1st March 1961.
- Educational levels:** If a person could both read and write and had also passed a written examination as proof of an educational level attained, the highest examination passed by him was noted in the individual slip instead of merely "literate". The variety of entries relating to educational levels found in the individual slips was fitted in against the broad educational levels adopted for the preparation of this table.

This table which is prepared on full count corresponds to Table C-IV of 1951 prepared from 10% sample slips. The data given in 1951 were only for literates and illiterates while in 1961 additional classifications by educational levels has been made, the classification being a departed one for urban areas.

C-III PART-A—AGE, SEX AND EDUCATION IN ALL AREAS

APPENDIX TO TABLE C-III

SPECIAL TABLES OF TECHNICALLY QUALIFIED PERSONS

A special census of technically qualified persons who held either degrees or diplomas equivalent to degrees was taken as part of 1961 Census. A special card was designed for this purpose by the Registrar General. The agency employed for this work was the same as the one used for census enumeration. The main idea was to obtain detailed information about persons having qualifications in Science and Technology.

In Mysore State, the special enumeration of scientific and technical personnel was conducted in all rural and urban areas.

Business reply cards (pre-paid) devised for this special enumeration were supplied by the Registrar General's office in requisite quantities. The cards were distributed by the enumerators among such households which had in them technically qualified members on their visit for enumeration during the period from 10th February to 28th Feb. 1961 with instructions either to deliver them back after completion during their re-visit to the house on Enumerator's revisional round between 1st and 5th March, 1961, or to post them direct to the Registrar General. The completed cards collected by the Enumerators were handed over to the Supervisors along with other census records for onward transmission to the Charge Officers and then to the district census officers who sent them to the Registrar General, India, New Delhi.

The data so collected were analysed and processed in the Office of the Registrar General, India, and the following tables have been compiled:—

- (1) Union and State Table I—Classification by each branch and sub-branch of Science or Technology.
- (2) State Table—Type of activity and marital status of persons in each branch of Science or Technology.
- (3) State Table III—Year of obtaining post-graduate degrees in physical science and graduates and Doctorates Degrees in Engineering and Technology and selected branches of Medicines.
- (4) State Table IV—Persons holding Degrees in Engineering and Technology and selected branches of Medicine and also holding Degrees in selected branches of physical sciences.
- (5) State Table V—Nature and sector of employment of persons in each branch of science or technology.
- (6) State Table VI—Total monthly income of persons employed in each branch of Science or Technology classified by sector of employment.
- (7) State Table VII—Tenure and Sector of employment of persons in each branch of Science or Technology
- (8) State Table VIII—Age and period of unemployment of unemployed persons qualified in each branch of Science or Technology.

These tables have been given as an appendix to Table C-III.

It would be interesting to compare the total number of scientific and technical personnel as obtained from these cards tabulated in the Office of the Registrar General, with similar statistics for urban areas only compiled in Table B-III Part A from individual enumeration slips. As per Table B-III Part A there are 11,009 persons holding technical degree or diplomas equal to degrees or post-graduate degrees plus 9615 persons holding technical diplomas not equal to degree. Thus a total number of 20,624 persons have been returned as technically qualified from the urban areas of the State at the 1961 Census as against 21,146 who responded to the Special Survey from the rural as well as urban areas. The excess of 522 persons recorded at the special survey over Table B-III Part A figures in attributable to such personnel found in rural areas who do not figure in Table B-III Part A.

The number of persons with qualifications in Engineering and Technology, Medicine and Agriculture as per Scientific and Technical Tables and as per B III-A would be as follows:—

EDUCATIONAL LEVELS		POST GRADUATES AND GRADUATES		
		Scientific and Technical Tables	B III—A	
Engineering and Technology		3,175	4,701	
Medicine		1,087	1,965	
Agriculture		646	575	

It is observed that the figures of post graduates and graduates in Engineering and Technology and Medicine in the whole State according to the scientific and technical tables are less than the figures appearing in Table B-III Part A against the respective qualifications. This shows that the response even from members having these qualifications in urban areas has not been heartening. The figures of post graduates and graduates in Agriculture in the scientific and technical Tables are however in excess when compared with figure in Table B III-A. On the assumption that about 60% of the graduates and post-graduates in Agriculture in urban areas have posted their replies as in the case of persons with qualifications in Engineering and Medicine more than 300 of the replies will be from rural areas. The fact that at least 300 persons with higher qualifications in agriculture are in rural areas and not doing mere desk work is encouraging.

(i) Classification Nos. 7 Geography 11 Agricultural Engineering 12 Applied Geology/Geophysics 13 Architecture & Regional planning, 22 Food, Sugar & Dairying Technology, 23 Fuel & Petroleum Technology, 24 Glass, Silicate, Ceramics & Cement Technology, 29 Mining, 34 Aeronautical Engineering, 41 Leather Technology 43. Metallurgical Engineering, 51. Nursing, 52 Animal Husbandry, Livestock & Veterinary have note been shown in the table as there are no entries against them.

(ii) Age Groups with NIL entries have been omitted.

(iii) NM—Never Married, M—Married.

TABLE C-IV

SINGLE YEAR AGE RETURNS

This table has been prepared on full count and the data has been presented separately for Total, Rural and Urban population down to the district. This is also a very important demographic table which has helped the census actuary in computing the mortality rates from the age data of the earlier censuses and in preparing the life tables. This table affords a useful study on bias in age returns at the census. Its counterpart of 1951 is C V Table which was prepared on a 10% sample slips.

TABLE C - V

MOTHER TONGUE (ALPHABETICAL ORDER)

This table exhibits the languages and dialects returned as mother tongue with their speakers classified by sex. Separate figures for total, rural and urban have been given at the State level and total figures are given at the district level. This table is of interest to philologists.

The languages returned at the 1961 Census have been classified by the Linguist according to the Linguistic Survey of India. The Notes 1-5 and Appendices I and II given at the beginning of the table have been prepared by the Linguist. Appendix III was compiled by the Central Tabulation Officer, Registrar General's Office, New Delhi.

The details of Notes 1-5 and Appendices I, II and III are reproduced below:

Note 1: This gives the names of mother tongues in Table C-V which have been classified in the Linguistic Survey of India. Their standardized spellings according to the Linguistic Survey of India and Classification No in the Linguistic Survey of India are given against each mother tongue (Cols. 2 & 3).

Note 2: This gives the languages though classified in Linguistic Survey of India but has been tentatively classified or reclassified by the Linguist.

Note 3: Indicates the Non-Indian languages returned classified by the mother tongues of other Asian countries and mother tongues of other continents. These mother tongues have been printed in italics in Table C-V.

Note 4: Gives a list of mother tongues appearing in Table C-V which have been found unclassifiable by the Linguist. They are indicated by an asterisk (*) against the name.

Note 5: Gives the variant spellings or forms of mother tongue returns rationalised.

Appendix I: Gives the abstract of classified and unclassified list of languages.

Appendix II: Gives a classified list of mother tongues.

Appendix III: Indicates the percentage change in each decade (1911—61) of population of Kannada, Telugu and Urdu, which are the three numerically most important languages (including dialects) of 1961.

Table C-V of 1961 corresponds to Table D I of 1951.

Definition: Mother tongue is the language spoken by the person in childhood and mainly spoken in the household.

The notes and Appendices I and II given below have been prepared by Shri R. C. Nigam, Linguist of the Office of the Registrar General, India.

Note 1 (i) The following mother tongues arranged in alphabetical order in Col. 1 of the table given below as per Table C-V have been classified in the Linguistic Survey of India. The Linguistic Survey of India classification No. is mentioned against each mother tongue in Col. 3.

(ii) If in Col. 3 no classification No. is given against any mother tongue of Col. 1 then it would mean that the name refers to either old or middle Indo-Aryan Language or a Language group or branch or family name from the Linguistic Survey of India.

- (iii) Wherever a tongue is mentioned in Col. 3 it is to be understood that the mother tongue is either a dialect or another name or form of the tongue mentioned against it in Col. 1 which in its turn has been classified by the Linguistic Survey of India in the appropriate place for that tongue.
- (iv) If in Col. 1, there is a tongue which bears no classification number in the Linguistic Survey of India then in Col. 2 the name of the classified language or group has been given of which the mother tongue of Col. 1 is either a dialect or another name or form. In such a case the number of classified language of Col. 2 has been given in Col. 3.
- (v) In Col. 2 standardized spelling according of Linguistic Survey of India has been given against each mother tongue of Col. 1.

Alphabetical order of mother tongues classified by the Linguistic Survey of India	Classified name in the Linguistic Survey of India	Classification No. in the Linguistic Survey of India	Alphabetical order of mother tongues classified by the Linguistic Survey of India	Classified Name in the Linguistic Survey of India	Classification No. in the Linguistic Survey of India

Kadubhasha (T)	Kannada	Pinjari (T)	Urdu
		Udipi (T)	Tulu.

Note 3:

Mother tongues outside the Indian Sub-continent which have been printed in italics in the Table have been arranged by the Linguist according to (a) mother tongues of other Asian countries and (b) mother tongues of each of the other continents in the following manner:

Other Asian Countries/Other Continents	Mother Tongue
1	2
OTHER ASIAN COUNTRIES	Afghani/Kabuli/Pakhto/Pashto/Pathani, Arabic/Arbi, Burmese, Ceylonese/Simelu/Singhalese, Chinese/Chini, Hebrew/Jewish, Indonesian, Irani/Iranian, Japanese, Korean, Mahl/Maldivian, Malai/Malay/Malaya/Malayan, Persian, Turkish/Turkistani.
AFRICA	African, Ghanese, Swahili.
EUROPE	Austrian, Belgian, Czech/Czechoslovakian, Danish, Dutch, English, Finnish, French, German, Greek, Hungarian, Irish, Italian, Latin, Luxembourgian, maltese, Norwegian, Polish, Portuguese, Russian, Scottish, Spanish, Swedish, Swiss, Yugoslavian.

Note 4:

The following mother Tongues which appear in the Table have been found unclassifiable by the Linguist for want of any dependable information on them so far:

Bomba	Gadal	Kunija	Pargar	Sikalgari	Tashwar	Vaival
Chabeli	Hakkipikki	Ladar	Phaktun	Sinos	Tepali	
Chaperar	Heirlese	Lagodu	Saswari	Somasahag	Tumbekaru	
Chind	Kansale	Mahajani	Seema	Sonni	Ujra	
Chow	Karkarmundi	Mullu	Sellum	Sujathigar	Uravan	
Ciol	Kikiya	Mumbhara	Servari	Sunkarad	Usthu	
Dombari	Konagar	Nagar	Shaja	Tandara	Vadakkali	

Note 5:

Column 2 shows variant spellings or forms of Mother Tongue returns which are rationalized to the names given against them in column 1.

Rationalized forms of names of mother tongues as listed in table C-V	Variant forms of the names of mother tongues recorded during Enumeration and/or transcription	Rationalized forms of names of mother tongues as listed in table C-V	Variant form of the names of mother tongues recorded during Enumeration and/or transcription
1	2	1	2

†Excludes figures of Bellary, Belgaum, Bijapur, Dharwar, Bidar, Raichur, Gulbarga districts and Kollegal taluk of Mysore district for 1911, 1921 and 1931 as their data of language statistics are not completely available.

Note: * Indicates that total population of all languages if derived would be slightly less than the population given in A-II table of 1961. Because adjustment of minor portions have not been done calculations are based on actual population and not on A-II population.

**Indicates that total population of all languages if derived would be slightly more than the population given in table A-II of 1961 the reasons are the same as are given above.

@Includes dialects as per list appended at the end of this Appendix.

(a)—Absolute figures.

(b)—Percentage variation.

(c)—Percentage to total population.

TABLE C-VII
RELIGION

Figures have been presented in this table of the distribution of population according to Religion in an alphabetical order for rural and urban areas of each district separately. This is an important sociological table.

The figures presented in this table relate to six main religions viz. (i) Hindu (ii) Muslim (iii) Jain (iv) Christian (v) Sikh and (vi) Buddhists. Others have been clubbed under "Other religions and persuasions", the details of which are given in the supplement to this table.

This table corresponds to Table D-II of 1951.

TABLE C-VIII

SCHEDULED CASTES AND SCHEDULED TRIBES

Part-A—Classification by Literacy and Industrial Category of Workers and Non-workers among Scheduled Castes

Part-B—Classification by Literacy and Industrial Category of Workers and Non-workers among Scheduled Tribes

This is a general table prepared for the Scheduled Castes and Scheduled Tribes down to the district and giving figures separately for total, rural and urban. It consists of two parts. Part A relates to Scheduled Castes and Part B to Scheduled Tribes. Both these tables give the distribution of Scheduled Castes and Scheduled Tribes by literacy and classification of workers into nine industrial categories and non-workers by sex.

Literacy figures of Scheduled Castes and Scheduled Tribes are given for the first time in 1961 Census. Apart from this table, a number of special tables have been prepared and they will be presented in Part V-A.

This table corresponds to D-III of 1951.
