PART IV

PANCHAYAT BLOCKS AND VILLAGE DIRECTORY

has been furnished only in respect of towns with a population of over 50,000 and for urban sectors of the taluks as a whole.

STATEMENT II

This refers to the type of soil and type of terrain whether hilly, river basin, high or low, sources of irrigation, important wet and dry crops

and the value of such lands. Since it is too cumbersome to present the data for each village figures have been presented for convenient groups of villages selected for geographical and geological contiguity.

An alphabetical list of villages, and another list of Panchayat Blocks with their population are also presented separately for each taluk.

STATEMENT I

INDUSTRIAL ESTABLISHMENTS

For the convenience of the reader this statement is presented in the following manner. Initially the total number of Establishments in the District, both Rural and Urban is furnished. Then figures are separately indicated for urban areas of each Taluk. Next we have presented the figures for the urban areas, having a population of more than 50,000 in each taluk of the District. Lastly we have given the total figures for industrial establishment for rural areas in each taluk followed by the figures for every village in the taluk.

Figures in brackets indicate the total number of establishment pertaining to the type for which the industrial code number is given. Readers are invited to refer to the industrial classification given at the end of this statement which furnishes the key to this code.

VILLAGE DIRECTORY

INTRODUCTION

This is an abstract giving a complete list of all villages and towns in each taluk in the district along with the distribution of population by sex and various categories of workers. Village-wise statistics embodying the results of Census were first compiled and published in 1872 and this has been the regular feature of every Census except in 1941 when owing to war conditions no village-wise data was tabulated. The particulars however were restricted to total population by sex and religion. A radical change was introduced in 1951 when population was classified into various livelihood classes in each village. In the case of Urban areas, data was presented in respect of each ward, locality or division. (But in 1961 Census, information has been compiled for each enumerator's block in the case of Urban areas) Consequent on the shift in emphasis from income or economic independence, in earlier Censuses, especially in 1951, to actual work irrespective of remuneration, the livelihood classes shown in the rural statistics of 1951 have undergone a complete change, giving place to ten important categories as indicated below :—

- I. Working as Cultivator
- II. Working as Agricultural labourer
- III. Working in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities
- IV. Working at Household Industry
- V. Working in Manufacturing other than Household Industry
- VI. Working in Construction
- VII. Working in Trade and Commerce
- VIII. Working in Transport, Storage and Communications
- IX. Working in Other Services
- X. Non-workers

Apart from the above major difference between the 1951 village-wise particulars and the present scheme, the other minor deviation is the omission of particulars "Institutional and Houseless Population"

from the list though taluk-wise information has been tabulated and shown elsewhere. The proportion of such houseless and institutional population to total population is infinitesimal in the case of all towns having a population of less than 2—3 lakhs, that omission of this data does not in any way minimise the value of this publication.

Apart from these particulars certain additional and special particulars have been incorporated. In order to assess the extent to which the basic amenities are available in every village which go to make it self-contained and self sufficient, village-wise particulars regarding the availability of educational, medical, irrigational and other facilities, were called for from the Tahsildars and Block Development Officers and incorporated in the table. The development activities in rural areas are reflected in the existence of Primary Schools, Middle Schools, High Schools, Higher Institutions including Colleges, Dispensaries, Rural Health centres and Hospitals, Maternity and Child Welfare centres, Post Offices etc. These data have been shown immediately next to the names of villages in suitable notations, the explanations for which are given at the end.

Apart from this information, a few statements have been prepared based on authentic sources as indicated below :—

STATEMENT I

Prior to enumeration in March 1961, a detailed listing of all houses was conducted in October 1960 when essential data relating to industrial establishments were collected, the complete details of which have been presented in a separate volume entitled Housing Report and Tables. But the Volume is restricted to district-wise particulars relating to industries classified by number of persons working, kind of fuel used etc. But it was felt that the types of industries existing in each village would provide valuable information and therefore village-wise lists of industries classified according to Indian Standard Industrial Classification is presented in this statement. Only the total number of units in each of the different types of industry is furnished for each village. But in the case of urban areas similar information

BRIEF GAZETTEER OF PLACE NAMES

1. **AGARAM**: A village in the Dindigul taluk situated six miles north of Dindigul. It is famous for the festival of the Muttalamman temple which takes place in September–October of each year, and attracts crowds from far and near. This festival takes place only if the Goddess signifies Her approval. Two statues of demons each eight feet high, guard the shrine on either side, and the chirping of lizards on the northern of the two great demons is supposed to reveal the approval of the Goddess for the festival. If lizards are silent, no festival takes place and it is considered to be a bad omen for the coming north-east monsoon. Formerly sheep, goats and fowls used to be sacrificed in front of the idol, by people who had taken vows to do so.

2. **AMBATURAI**: A village in the Dindigul taluk seven miles south, south-west of Dindigul. It stands on the high ground between the Palnis and the Sirumalais, and is nearly 1,000 feet above the sea. At present it is only a small handloom weaving centre, and a depot for the products of the adjoining Sirumalai hills; but it is historically important, in that it was formerly the capital of one of the 26 Palayams comprised in the Dindigul country at the time of its cession to the British. This lies on the Dindigul–Madurai rail link and passengers have to alight here for Gandhigram and Chinnalampatti.

3. **ATTUR**: A village ten miles south-west of Dindigul in the same taluk. It lies on the Upper reaches of the Kodavanar, close under the Lower Palnis, and is celebrated for its festival in honour of Vandikaliyamman, a manifestation of Goddess Kali. The temple of Vandikaliyamman also contains an image of Muttalamman and a feast to each of the Goddesses takes place in alternate years; that to the former is the better appreciated. It takes place in March–April. Formerly a large number of buffaloes dedicated to the Goddess Vandikaliyamman used to be sacrificed during the festival in commemoration of the triumph of Kali over Mahishasura. In Muttalama's turn, no buffalo sacrifices occurred, the rituals being much the same otherwise. There is a small irrigation channel, branching off from the river Kodavanar irrigating about 1,000 acres of the village.

4. **AYYAMPALAYAM**: A village 18 miles south-west of Dindigul. It lies in a valley of the lower Palnis and is watered by a river of the same name. It is so called due to its apparent resemblance to an elephant lying down. The *Sthalapurana* of Madurai has it that it is a petrified elephant. The story goes that in their attempt to convert the Saivites of Madurai to Jainism, the Jains of Kancheepuram performed a sacrifice begetting a huge elephant which was sent to Madurai with the Jains marching behind it. The Pandyan King invoked the aid of Lord Siva for deliverance from this evil, and it is said that the Lord slew the elephant with an arrow at the spot where it lies petrified. At the foot of the hill, there is a temple of Narasinga Perumal, the inner shrine of which is cut out of the solid rock of the hill. There are also a few relics of the Jains in the shape of sculptures of the Thirthankaras on a big boulder. About half way up the Anaimalai, are found some sleeping places cut out of the rock which are usually called Pancha Pandavapadukkai, and further on a perennial pool of water. The neighbourhood is noted for plantation industry.
