P R E F A C E

For the first time in the history of Indian Census, a census of houses and establishments was taken in Bihar in September-October, 1960 as a part of the houselisting operation preparatory to the 1961 Census. During previous censuses also, houselisting was an essential feature but it was confined mainly to the listing of occupied census houses used as dwellings. Non-residential houses such as factories, workshops, schools, *sarais*, office premises, business houses, temples, mosques, etc., were not entered in the houselist, as the main purpose of houselisting was to locate the places of human habitation for the purpose of census enumeration. Naturally, therefore, no reliable information about housing conditions and other related matters was available to the country. With a view to filling this gap, a uniform houselist was devised on an all-India basis for the Census of 1961. It envisaged the listing of all types of houses, residential or otherwise, and the collection of certain basic details on housing. Advantage was also taken of this operation to obtain certain essential information relating to industrial establishments, workshops and factories, *e.g.*, name of the proprietor, nature of product(s), number of persons working, and kind of fuel and power, if machinery is used.

The results of the housing and establishment census are being published in two parts—Part IV-A containing the report on housing and establishments (with subsidiary tables); and Part IV-B containing the main tables on housing and establishments, *viz.*, Tables E-I, E-II, E-III, E-IV and E-V. The present volume (Part IV-B) contains the tables.

It seems necessary to explain briefly the general order of presentation of the tables in this volume. Except for Table E-III, the Union Tables showing figures for the State and districts precede in each case the State Tables giving figures for State, districts, subdivisions, cities, anchals and towns with population of 50,000 or more. This has been done primarily with a view to facilitating reference by those who do not need to go into figures for smaller units. In the case of Table E-III, however, figures for the State, districts, cities and towns with population of 50,000 or more only are being presented in respect of census houses used as factories and workshops classified by industry according to the Standard Industrial Classification, power used or no power and size of employment, for rural and urban areas separately in each case. The concepts and definitions have been described fully in the first part, *viz.*, Part IV-A and the reader may find it useful to refer to these for elucidation and clarification of essential points.

S. D. PRASAD

TABLE E-1
CENSUS HOUSES AND
THE USES TO WHICH
THEY ARE PUT

UNION TABLE E-1

CENSUS HOUSES AND THE USES TO WHICH THEY ARE PUT

Table E-1 prepared on full count seeks to present figures of census houses separately for total, rural and urban areas of the State, Districts, Subdivisions, Cities, Anchals or Towns with population of 50,000 or more, classified by different categories according to the uses to which they were put at the time of the house-listing in September-October, 1960. The area of each urban locality appearing in the table, has also been indicated in square miles immediately after or below its name in column 1.

By definition, a 'census house' means a structure or part of a structure inhabited or vacant, or a dwelling, a shop, a shop-cum-dwelling or a place of business, workshop, school, etc., with a separate entrance. Thus, a census house need not necessarily be a residential unit. It refers to all kinds of structures made for human use and having a separate entrance.

A census house can be vacant or occupied. A vacant house is one which was not put to any use and was found vacant at the time of the houselisting. Figures for vacant houses have been shown separately in the enclosed table. Occupied census houses have been divided into twelve categories according to their uses. These are described below—

- (i) Dwellings;
- (ii) Shop-cum-dwellings;
- (iii) Workshop-cum-dwellings;
- (iv) Hotels, Sarais, Dharamshalas, Tourist homes and Inspection houses;
- (v) Shops excluding eating houses;
- (vi) Business houses and offices;
- (vii) Factories, workshops and worksheds;
- (viii) Schools and other educational institutions including training classes, coaching and shop classes;
- (ix) Restaurants, sweetmeat shops and eating places;
- (x) Places of entertainment and community gathering (Panchayat Ghar);
- (xi) Public health and medical institutions, hospitals, health centres, Doctor's clinics, dispensaries, etc.; and
- (xii) Others.

Categories (i) to (iv) above cover the usual residential types of census houses, commonly known as dwellings. The remaining seven

categories relate to non-residential census houses, which were left out of consideration in the earlier censuses. At the 1961 Census, the definition of a 'census house' was suitably modified in order to bring all such structures within the ken of the census. Occupied census houses which did not fall under any of the eleven categories specified above were put in the residuary category, 'Others'. It included census houses used as cattle-shed, lavatory, garage, *baithka* (sitting place), *bhoosa-ghar* (fodder house), pig-house, etc.

The terms used in the aforesaid classification have generally the same meaning as in common parlance. Their full significance has been explained in Chapter II of Part IV-A relating to the General Report on Housing and Establishments. For a better understanding of the figures in the enclosed table, however, some of the terms are explained below—

Shop :

"A shop is a place where articles are sold for cash or for credit."

Workshop :

"A workshop is a place where some kind of production, repair or servicing goes on or where goods or articles are made and sold and is not a factory registered under the Indian Factories Act." For example, handloom-weaving, bucket-making, tailoring, cycle-repairing, shoe-making, halwai's shop, pottery-making, basket-weaving, blacksmithy, carpentry, etc.

Factory :

This term was used specially for a large workshop registered under the Indian Factories Act.

Business Houses :

"Business houses are those where transactions in money or other articles take place, e.g., bank, etc. But rooms or apartments where professional consultations are held, such as doctors, *hakims*, pleaders, etc., should be described as 'professional consultation rooms' and not workshops or business houses. In the case, however, of a dispensary where in addition to consultation by a doctor, medicines are prepared and sold, the house should be described as a dispensary."

TABLE E-II

TENURE STATUS OF SAMPLE
CENSUS HOUSEHOLDS
LIVING IN CENSUS HOUSES
USED WHOLLY OR PARTLY
AS DWELLING

UNION TABLE E-II

**TENURE STATUS OF SAMPLE CENSUS HOUSEHOLDS LIVING IN CENSUS HOUSES
USED WHOLLY OR PARTLY AS DWELLING**

Table E-II has been prepared on the basis of 20 per cent sample of census households. According to the definition adopted at the 1961 Census, a 'household' means 'a group of persons who commonly live together and take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so'.

presented in this table relate to pure dwellings or dwellings combined with other uses such as shop, workshop, etc. This table furnishes information in regard to the number of sample census households living in rented or owned census houses in the State, Districts, Subdivisions, Cities, Anchals or Towns with population of 50,000 or more separately for total, rural and urban areas under different categories of dwellings.

As the table-heading implies, the statistics

AND *NO POWER*
USED AND SIZE OF
EMPLOYMENT

TABLE E-III
CENSUS HOUSES USED AS FACTORIES AND WORKSHOPS CLASSIFIED BY INDUSTRY,
POWER AND NO POWER USED AND SIZE OF EMPLOYMENT

Table E-III prepared on full count gives a comprehensive account of workshops and factories in each District and State separately for rural and urban areas, and for each City and Town of population of 50,000 and over, according to the nature of industry classified by the kind of power used and the size of employment. This is the first time that such data have been collected and are being presented on the basis of the house-listing done in September-October, 1960 preparatory to the Census of 1961.

The Standard Industrial Classification adopted by the Government of India has been followed for the purpose of detailed classification of industries. According to it, all economic activities have been broadly classified into nine Divisions, which are further sub-divided into 45 Major Groups and 343 Minor Groups. In the very nature of things, the kinds of productive activities contemplated for the purpose of this table, can come only under Division 2 & 3—Manufacturing, and certain selected minor groups under Major Group 04 of Division 0. Other minor groups do not come within the purview of this table. To enable proper understanding of the nature of each industry indicated in the table by its minor group code number, full description of the division, major groups and minor groups occurring therein has been given in an annexure to table.

A 'workshop' is a place where "some kind of production, processing, repair or servicing goes on and where goods or articles are made and are sold". Mere making is not enough; the goods or articles made must be sold or be "for sale". The term 'factory' refers to a workshop registered under the Indian Factories Act. It is thus clear that workshops and factories can pertain only to manufacturing industries which include repairing, servicing or processing of the articles produced. The nature of an industry can be determined by its minor group code number read with the description of the industry given in the annexure to the table.

Kind of power used

Broadly speaking, industrial establishments are of two kinds—those using power or fuel, and those run without power. The latter category,

though not developed, is numerically more significant. It covers such units as are run by employing manual or animal labour and use no power or fuel as such. Establishments belonging to the former category have been classified further into four categories according to the kind of fuel or power used. These are —

- (a) electricity,
- (b) liquid fuel,
- (c) coal, wood or bagasse,
- (d) other power.

The category of 'other power' refers to the kind of power derived from the use of grass, leaves, cowdung cake, paddy husk, etc. Two points have, however, to be noted in this connection —

- (i) The classification of industries according to power or fuel has been made in case only of those industries which use machinery. In actual practice, however, the kind of fuel, e.g., grass, leaves, cowdung cakes, etc., was found entered even in certain industries such as Minor Group 209 (production of other food products, e.g., sweetmeat and condiments, *muri*, *murki*, *chira*, *khoi*, cocoa, chocolate, toffee, lozenge) in which no machine is generally used.
- (ii) Entries for kind of fuel or power having 'nil' figures have been omitted from the table to economise on space.

Size of employment

The relevant instruction to enumerators on this point is reproduced below—

"The total number of workers including apprentices, either paid or unpaid, employed in the factory or workshop, including the owner or proprietor and any of his family members (if working), should be entered. The average number of persons working per day during the week preceding the date of your visit should be entered.

In case more than one product is produced it is not necessary to enquire the number of persons employed in the production of each product. It may not be possible to get this information in cases where the operations may be composite."

For studying employment statistics, all establishments have been classified into seven categories depending on the number of persons employed. These categories are indicated below—

- 1 person
- 2-5 persons
- 6-9 persons

- 10-19 persons
- 20-49 persons
- 50-99 persons
- 100 persons and above.

Figures for this table have been compiled down to the Anchal level. But as the printing of the table down to the Anchals will increase its bulk immensely, it has been decided that the statistics of village industries extracted from the houselists should be printed in the District Census Handbooks in the Village Directory portion. Anyone interested in such details may, therefore, refer to the District Handbooks, if necessary.

ANNEXURE

Standard Industrial Classification

Major Group (Code)	Description	Minor Group (Code)
Division 0—Agriculture, Livestock, forestry, fishing and hunting—		
04	<i>Livestock and Hunting—</i>	
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming ..	043
	Rearing of bees for the production of honey, wax and collection of honey ..	044
Division 2 & 3—Manufacturing—		
20	<i>Food-stuffs—</i>	
	Production of rice, <i>atta</i> , flour, etc. by milling, dehusking and processing of crops and foodgrains.	200
	Production of sugar and syrup from sugarcane in mills	201
	Production of indigenous sugar, <i>gur</i> from sugarcane or palm juice and production of candy.	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits.	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, <i>ghee</i> , cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (<i>Vanaspati</i>)	208
	Production of other food products such as sweetmeat and condiments, <i>muri</i> , <i>murki</i> , <i>chira</i> , <i>khoi</i> , cocoa, chocolate, toffee, lozenge.	209
21	<i>Beverages—</i>	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery.	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from <i>mahua</i> , palm juice ..	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	<i>Tobacco Products—</i>	
	Manufacture of <i>bidi</i>	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222

ANNEXURE—*contd.*

	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by powerloom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266
27	<i>Textile—Miscellaneous—</i>	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made-up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags.	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling.	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	<i>Manufacture of Wood and Wooden Products—</i>	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows.	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures.	283
	Manufacture of other wooden products such as utensils, toys artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289

ANNEXURE—contd.

29	<i>Paper and Paper Products—</i>	
	Manufacture of pulp from wood, rags, waste paper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill.	290
	Manufacture of pulp from wood, rags, waste paper and other fibres and the conversion of such pulp into any kind of paper and paper board hand made.	291
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp.	292
30	<i>Printing and Publishing—</i>	
	Printing and publishing of newspapers and periodicals	300
	Printing and publishing of books	301
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry.	302
	All types of binding, stitching, sizing and other allied work connected with binding industry.	303
31	<i>Leather and Leather Products—</i>	
	Currying, tanning and finishing of hides and skins and preparation of finished leather ..	310
	Manufacture of shoes and other leather footwear	311
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur ..	312
	Manufacture of leather products (except those covered by code nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles.	313
	Repair of shoes and other leather footwear	314
	Repair of all other leather products except footwear	315
32	<i>Rubber, Petroleum and Coal Products—</i>	
	Manufacture of tyres and tubes	320
	Manufacture of rubber footwear	321
	Manufacture of rubber goods used for industrial purposes	322
	Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat.	323
	Production of petroleum, kerosene and other petroleum products in petroleum refineries ..	324
	Production of coaltar and coke in coke oven	325
	Manufacture of other coal and coaltar products not covered elsewhere	326
33	<i>Chemicals and Chemical Products—</i>	
	Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified.	330
	Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of fertilizers	332
	Manufacture of ammunition, explosives and fire works	333

ANNEXURE—contd.

Standard Industrial Classification

Division 2 & 3—Manufacturing—contd.		
33	<i>Chemicals and Chemical Products—concl.</i>	
	Manufacture of matches	334
	Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap.	335
	Manufacture of soap and other washing and cleaning compounds	336
	Manufacture of turpentine, synthetic, resin, and plastic products and materials (including synthetic rubber).	337
	Manufacture of common salt	338
	Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats).	339
34	<i>Non-metallic Mineral Products other than Petroleum and Coal—</i>	
	Manufacture of structural clay products such as bricks, tiles	340
	Manufacture of cement and cement products	341
	Manufacture of lime	342
	Manufacture of structural stone goods, stone-dressing and stone-crushing	343
	Manufacture of stonewares, other than images	344
	Manufacture of stone images	345
	Manufacture of plaster of paris and its products	346
	Manufacture of asbestos products	347
	Manufacture of mica products	348
35	<i>Manufacture of earthenware and earthen pottery</i>	350
	Manufacture of chinaware and crockery	351
	Manufacture of porcelain and its products	352
	Manufacture of glass bangles and beads	353
	Manufacture of glass apparatus	354
	Manufacture of earthen image, busts and statues	355
	Manufacture of earthen toys and artwares except those covered by code no. 355 ..	356
	Manufacture of glass and glass-products except optical and photographic lenses and glass-products covered above.	357
	Manufacture of other non-metallic mineral products not elsewhere specified	359
36	<i>Basic Metals and their Products except Machinery and Transport Equipment—</i>	
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods.	360
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms ..	361
	Manufacture of armaments	362

Standard Industrial Classification

Major Group (Code)	Description	Minor Group (Code)
Division 2 & 3—Manufacturing—<i>contd.</i>		
36	<i>Basic Metals and their Products except Machinery and Transport Equipment—concl'd.</i>	
	Manufacture of structural steel products such as joist, rail, sheet, plate	363
	Manufacture of iron and steel furniture	364
	Manufacture of brass and bell metal products	365
	Manufacture of aluminium products	366
	Manufacture of metal products (other than of iron, brass, bell metal and aluminium) such as tin can.	367
	Enamelling, galvanising, plating (including electroplating), polishing and welding of metal products.	368
	Manufacture of sundry hardwares such as G.I. pipe, wire net, bolt, screw, bucket, cutlery (this will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which cannot be classified in major groups 36, 37, 38 and 39).	369
37	<i>Machinery (all kinds other than Transport) and Electrical Equipment—</i>	
	Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors.	371
	Manufacture of machine tools	372
	Manufacture of textile machinery and accessories	373
	Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers.	374
	Manufacture of electric lamps and fans	375
	Manufacture of insulated wires and cables	376
	Manufacture of all kinds of battery	377
	Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of electric machinery and apparatus, appliances not specified above	379
38	<i>Transport Equipment—</i>	
	• Manufacture, assembling and repairing of locomotives	380
	Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code no. 363.	381
	Manufacture and assembling of motor vehicles of all types (excepting motor engines)	382
	Manufacture of motor vehicles engines, parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat, frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines.	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles.. .. .	388

WALL AND PREDOMINANT
MATERIAL OF ROOF

UNION TABLE E-IV

DISTRIBUTION OF SAMPLE HOUSEHOLDS LIVING IN CENSUS HOUSES USED WHOLLY OR PARTLY AS DWELLING BY PREDOMINANT MATERIAL OF WALL AND PREDOMINANT MATERIAL OF ROOF

Table E-IV has been prepared on a 20 per cent sample of census households used as dwelling, shop-cum-dwelling, workshop-cum-dwelling or dwelling combined with other uses. Column 3 of the table gives the total number of census households included in the sample. This table seeks to present information regarding the structural condition of the house, viz., the predominant material of wall and the predominant material of roof separately for total, rural and urban areas of the State, Districts, Subdivisions, Cities, Anchals and Towns with population of 50,000 or more.

Material of Wall

In most cases, only one kind of material is used for the construction of wall, e.g., grass, leaves, reeds, bamboo, unburnt bricks, mud, burnt bricks, stone, cement concrete, timber, etc. Where a wall consisted of different kinds of material, "the material out of which most of the walls of the house are made" was taken into account. Where a house contained separate structures, each of different material, the material out of which the walls of the main bed rooms were made, was recorded.

The statistics relating to material of wall have been classified into nine categories described below—

- (1) Grass, leaves, reeds or bamboo
- (2) Timber

- (3) Mud
- (4) Unburnt bricks
- (5) Burnt bricks
- (6) C. I. sheets or other metal sheets
- (7) Stone
- (8) Cement concrete
- (9) All other material

Material of Roof

This refers to "the material out of which most of the outer roof exposed to the weather and not the ceiling is made", e.g., tiles, thatch, corrugated iron, zinc or asbestos cement sheets, concrete, etc. In the case of multi-storeyed building the intermediate floor or floors will be the roof of the lower floor.

The data under this head have been classified into seven categories, namely—

- (1) Grass, leaves, reeds, thatch, wood or bamboo
- (2) Tiles, slate, shingle
- (3) Corrugated iron, zinc or other metal sheets
- (4) Asbestos cement sheets
- (5) Brick and lime
- (6) Concrete and stone slabs
- (7) All other material

TABLE E-V

SAMPLE HOUSEHOLDS
CLASSIFIED BY NUMBER
OF MEMBERS AND BY
NUMBER OF ROOMS
OCCUPIED

UNION TABLE E-V

SAMPLE HOUSEHOLDS CLASSIFIED BY NUMBER OF MEMBERS AND BY NUMBER OF ROOMS OCCUPIED

This table has also been prepared on a 20 per cent sample of census households and contains information separately for total, rural and urban areas for the State, Districts, Subdivisions, Cities, Anchals and Towns with population of 50,000 or more. It seeks to give an idea of the congestion and overcrowding or otherwise in households.

as also the total number of rooms in their occupation have been shown separately. The households have been classified into the following six categories depending on the number of rooms occupied—

Households with—

- | | | |
|---|---------------------|-------------------------|
| The sex break-up of the total number of members occupying such sampled households | (i) no regular room | (iv) three rooms |
| | (ii) one room | (v) four rooms |
| | (iii) two rooms | (vi) five rooms or more |
