stable *de facto* union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been divorced in a lawful manner, either by decree of a law court or by a regular social or religious custom but who has not remarried, or a person who has been separated from wife or husband and is living apart with no apparent intention of living together again, write 'S'. For a prostitute return her marital status as declared by her.

Q. 4 (a) Birth place

1. If born in village or town in which enumerated write PL
2. If born in another village or town of district in which enumerated write D
3. If born in another district in the State of enumeration write name of district
4. If born in another State in India write name of district and State if name of district is known; otherwise write name of State
5. If born in a country outside India e.g., Pakistan or any other country write name of country
6. Persons born at sea or in air or in railway carriages or on road transport e.g., buses etc., should be entered as such

Q. 4 (b) Whether born in village or town

1. If born in a village write R
2. If born in a town which is considered a town at the present time even if it was not so considered at the time of birth write U

For the purpose of answering this question a list of towns in Kerala recognised for purposes of census was given to the enumerators. For a person born in the towns mentioned in that list record 'U' in the circle. So far as other States are concerned record R or U according as the answer given by the person as to whether he is born in a town or a village. But, if the person enumerated is not in a position to say whether

the place of birth is a village or a town write the name of the place of birth as returned by him. You need not enter R/U in such cases.

Q. 4 (c) Duration of Residence

1. For a person born in village or town or city in which enumerated write X
2. For a person born in another village or town or city of district of enumeration or who was not born in the district of enumeration write the number of completed years this person has been in the village town/city of enumeration. (Do not take into account periods of temporary absence on leave or holiday or tour or business.)
3. If the duration of residence is less than one year write O
If the duration of residence is one year or over write the actual number of completed years of residence.

Q. 5 (a) Nationality

1. For Indian nationals write I
2. For other nationals write the nationality in full

Q. 5 (b) Religion

- | | |
|-----------|---------|
| For Hindu | write H |
| Muslim | write M |
| Christian | write C |
| Jain | write J |
| Buddhist | write B |
| Sikh | write S |

For others write the answers actually returned

Q. 5 (c) Scheduled Castes and Scheduled Tribes

The answer to this question will be recorded only if a person belongs to a Scheduled Caste or Scheduled Tribe. If the person belongs to a Scheduled Caste or Scheduled Tribe obtaining in your State, or in your district write the name of the caste or tribe to which he belongs. For all others, write 'X' in this column. A list of Scheduled Castes and Scheduled Tribes obtaining in the State/district was also made available to the enumerators.

If the person belonging to a Scheduled Caste or Scheduled Tribe returns his caste or tribe by a synonym

or a generic name of a caste or tribe as given in your list, write the name as returned and the name of the relevant caste or tribe, as per printed list, within brackets.

Do not write the names of Scheduled Castes in general terms as 'Harijan', 'Achhut'. You should ascertain the name of the caste when it is returned and write it. If a person is negligent and insist on calling himself merely 'Harijan' tell him that this description will not earn the person any benefits under the Constitution permissible to Scheduled Castes and Scheduled Tribes. This may persuade him to give out the correct name.

Scheduled Castes can belong only to the Hindu or Sikh religion. If a person belongs to a Scheduled Caste, there will be either 'H' or 'S' in the answer to question 5 (b). Scheduled Tribes may belong to any religion.

Q. 6. Literacy & Education

I. Illiterate or Literate

For a person

1. Who can neither read nor write or can merely read but cannot write in any language. write O
2. Who can both read and write write L

The test for reading is ability to read any simple letter either in print or in manuscript, i.e., if the person can read one of the examples in the Enumerator's Handbook with felicity he may be taken to have passed the test for reading. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can with understanding both read and write.

II. Standard of Education

If the person can both read and write and has also passed a written examination or examinations as proof of an educational standard attained, write the highest examination passed instead of L.

Q. 7 (a) Mother Tongue

Write the mother tongue in full including dialect as returned by the person enumerated. Mother tongue is language spoken in childhood by the person's mother to the person or mainly spoken in the household. If the mother died in infancy write the language mostly spoken in the person's home in childhood. In the case of infants and deaf-mutes give the language usually spoken by the mother.

Q. 7 (b) Any other Language(s)

After recording the mother tongue enquire whether

the person knows any other language(s), Indian or foreign, and write the language(s) returned by him against this question. In case he does not know any other language put 'X'.

The number of languages recorded against this question should not be more than two. These languages should be other than his mother tongue which he speaks and understands best and can use with felicity in communicating with others. Such language or languages will exclude dialects of the same language.

Q. 13. Sex

Write 'M' for Males; and 'F' for Females. For eunuchs and hermaphrodites, write 'M'.

It is relevant in this connection to make a comparative study of the corresponding questions asked in the previous censuses to elicit information on the cultural and migration aspects of the population.

Age

Data relating to age has been collected in all the Indian censuses. In all these, age in completed years was recorded and with the exception of the census of 1931, the age on the birthday prior to the census date was enquired. In the census of 1931 a departure was made by asking the age on nearest birthday though no accuracy was additionally gained by this change. In recording the age of the informants it was suggested to the enumerators that if a person could not state the age correctly, he should refer the person to some well known events of local importance with a view to link the year of birth with such events. In 1941 a calendar giving the outstanding occurrences was prepared for the use of the enumerators. In 1951 and 1961 the calendar was brought up-to-date. The persons whose age had not been recorded in the Individual Slips were grouped under "age not stated" in the 1961 Census.

Marital Status

Information on marital status has been collected from 1881 Census onwards. In 1871 no information was collected on marital status. In 1881 there were three classifications on marital status i.e., married, unmarried and widowed. Widows included divorced and separated also. This was continued till 1951 where the classification was unmarried, married, and widowed or divorced. In 1951, the figures of divorced in various age-groups had, however, been shown separately. In 1961, a four-fold classification was followed to record marital status i.e., married, never married, widowed and divorced or separated. The persons whose marital status had not been specified, were grouped as 'unspecified'.

FLYLEAF TO TABLE C I

Table C I gives the family composition of hosueholds which has been prepared on a 20% sample basis from the household schedules separately for the total, rural and urban areas of the State and the districts. The members in a household have been divided into two groups viz. family members and non-family members. Among the family members, heads of households and their spouses have been given by sex. Married relations have been classified into married sons, other married males and other married females. Never married, widowed and divorced or separated relations also have been given by sex. Similarly sex-wise figures of non-family members or unrelated members are given. This table will be of sociological interest indicating

the strength of the joint family system.

Though the above table gives only the composition of households, the corresponding table C I of 1951 Census gives both the size and composition of households which was based on a 0.1% sample of households prepared from the National Register of Citizens. But in the case of Travancore-Cochin State, this table was prepared from a four per cent sample of households.

The size of the households has been given separately in this Census in table B XVII of Part III—Household Economic Tables—which is also based on a 20% sample of household schedules.

NOTE: The heads of households are shown as less than the total number of households in some areas on account of the fact that some enumerators had apparently not indicated any person as the head of household in the 'Population Record' where the conventional head of household was absent from the household at the time of enumeration and had not been enumerated in that household.

TABLE C I

FLYLEAF TO TABLE C II

Table C II gives the sex-wise distribution of population by age groups and marital status for the total, rural and urban areas of the State and the districts. The age groups followed in this table are 0-9, 10-14, 15-19, 20-24, 25-29, 30-34, 35-39, 40-44, 45-49, 50-54, 55-59, 60-64, 65-69, 70 + and age not stated which conform to international standards.

The corresponding table at the 1951 Census (Table C III—Age and Civil condition) was prepared on a 10% sample unlike the present one done on full count.

The marital status groupings in the 1961 Census and the civil condition groupings in the 1951 Census are given below:—

Marital status (1961)

1. Never married
2. Married
3. Widowed
4. Divorced or separated
5. Unspecified status

Civil condition(1951)

1. Unmarried
2. Married
3. Widowed or divorced

TABLE C III

FLYLEAF TO TABLE C III

Table C III gives the sex-wise distribution of population by age groups and educational levels for the State and the districts. This table is divided into three parts, Part A dealing with all areas, Part B dealing with urban areas and Part C dealing with rural areas. The age groups followed in all the three parts are 0-4, 5-9, 10-14, 15-19, 20-24, 25-29, 30-34, 35-44, 45-59, 60 + and age not stated.

The classification of educational levels are different for rural and urban areas. Besides giving the number of illiterates and literates (without educational level) in both urban and rural areas, the remaining literates of these areas are classified as follows:—

Urban	Rural
1. Primary or Junior Basic	1. Primary or Junior Basic
2. Matriculation or Higher Secondary	2. Matriculation and above
3. Technical diploma not equal to degree	
4. Non-technical diploma not equal to degree	
5. University degree or post-graduate degree other than technical degree	
6. Technical degree or diploma equal to degree or post graduate degree	

- (i) Engineering
- (ii) Medicine
- (iii) Agriculture
- (iv) Veterinary and Dairying
- (v) Technology
- (vi) Teaching and
- (vii) Others

All persons who have ability to read and write with understanding, i.e., to read any simple letter with felicity and write a simple letter with understanding, are considered literates. Those who have passed Lower Primary or Junior Basic but have not passed Matriculation, Higher Secondary, S. S. L. C. or E. S. L. C., come under the category of Primary or Junior Basic and all those who have passed Matriculation, Higher Secondary, S. S. L. C. or E. S. L. C. come under the category of Matriculation or Higher Secondary.

In connection with the enumeration of technical personnel, degrees in science subjects like Physics, Mathematics, Chemistry, Geology, Geo-Physics, Geography etc., have been recognised as technical degrees. These do not come under the specific items covered by 'technical degree or diploma equal to degree or post-graduate degree'. Hence wherever the subject of graduation has been given these has been included under 'others' in the urban areas. This accounts for the high percentage of 'others' coming under the sub-group 'technical degree or diploma equal to degree or post-graduate degree'.

Tables relating to technical personnel are given as appendix to this table.

FLY LEAF TO APPENDIX TABLES OF TABLE C III

During the period of enumeration, an attempt was also made to collect information about technical personnel who possess either a degree or a diploma equivalent to a degree. Special postage pre-paid cards were handed over to the heads of households having members who possess the above qualifications when the enumerator visited each household, requesting that the cards may be filled up by such members carefully and handed over to the enumerator during his revisional round. If these cards were not duly filled up and handed over to the

enumerators during their revisional round it was instructed that the cards may be duly filled up and sent by post without affixing any stamp. Since the cards were self addressed, they reached the Registrar General. But, most of the cards were collected by the enumerators and sent to the Registrar General through the District Census Officers. As no one was compelled to fill up this card, the returns do not ensure complete coverage. A facsimile of the card is given below:—

CENSUS OF INDIA 1961: SCIENTIFIC & TECHNICAL PERSONNEL

The qualifications for those to whom the cards were issued are as follows:—

1. Science

Anybody holding B. A., or B. Sc., M. A., or M. Sc., or higher degrees (Ph.D. etc.) in science subjects like Physics, Mathematics, Chemistry, Agriculture, Geology, Geo-Physics, Geography etc.

2. Engineering

Any one holding recognised degree or diploma in Engineering

3. Technology

Anyone holding degree or diploma in technical subjects, like chemical technology, health technology, glass and ceramic technology, food technology etc.

4. Medicine

Persons holding degree or diploma in medicine and/or surgery

Under-graduate Scientists (i. e., those who have not got any Bachelor's degree) or mechanics and technicians even though holding certificates were not included under the enumeration.

The following eight tables prepared based on the cards relating to technical personnel are given as appendix tables.

Appendix Table I	Classification by each branch and sub-branch of science or technology
Appendix Table II	Type of activity and marital status of persons in each branch of science or technology
Appendix Table III	Year of obtaining post-graduate degree in physical sciences and graduate and doctorate degrees in science or technology and selected branches of medicine
Appendix Table IV	Persons holding degrees in engineering and technology and selected branches of medicine and also holding degrees in selected branches of physical science
Appendix Table V	Nature and sector of employment of persons in each branch of science or technology
Appendix Table VI	Total monthly income of persons employed in each branch of science or technology classified by sector of employment
Appendix Table VII	Tenure and sector of employment of persons in each branch of science or technology
Appendix Table VIII	Age and period of unemployment of unemployed persons qualified in each branch of science or technology

FLYLEAF TO TABLE C IV

Table C IV gives sex-wise single year age returns of the population for total, rural and urban areas of the state and districts. This is a very important demographic table which will be used for computing the mortality rates and for the preparation of life tables. This table will also afford useful study on bias in age returns at the census.

In previous censuses these tables were prepared based on samples and not on the entire population. In the censuses earlier than 1921, the single year age distribution of a limited

number ranging from 25,000 to 100,000 selected at random from representative tracts were prepared in some provinces. In the census of 1951 the corresponding table (C V table) was prepared on a 10% sample.

In this table the single year age-returns up to 100 years have been shown and all the returns over 100 years are lumped into one group viz, 'over 100'. The following statement gives the single year age returns of population aged above 100.

FLYLEAF TO TABLE C V

This table which corresponds to table D—I (I)—Mother tongue of 1951 Census gives the sex-wise distribution of the population under different mother tongues for the total, rural and urban areas of the state and for the total area only in the

case of the districts. This is finalised in consultation with the Linguist of Registrar General's Office. The appendix to this table and the following notes have also been prepared by the Linguist.

- NOTE 1. (i) The following mother tongues arranged in alphabetical order in Col. 1 of the table given below as per Table C V have been classified in the Linguistic Survey of India. The Linguistic Survey of India Classification number is mentioned against each mother tongue in Col. 3.
- (ii) If in Col. 3 no Classification number is given against any mother tongue of Col. 1 then it would mean that the name refers to either old or middle Indo-Aryan language or a language group or branch or family name from the Linguistic Survey of India.
- (iii) Wherever a tongue is mentioned in Col. 3 it is to be understood that the mother tongue is either a dialect or another name or form of the tongue mentioned against it in Col. 1 which in its turn has been classified by the Linguistic Survey of India in the appropriate place for that tongue.
- (iv) If in Col. 1, there is a tongue which bears no classification number in the Linguistic Survey of India then in Col. 2 the name of the classified language or group has been given of which the mother tongue of Col. 1 is either a dialect or another name or form. In such a case the number of classified language of Col. 2 has been given in Col. 3.
- (v) In Col. 2 standardized spelling according to Linguistic Survey of India has been given against each mother tongue of Col. 1.

NOTE:—The total of columns 2, 5, 8 and 14 will give the total number of mother tongues

FLYLEAF TO TABLE C VI

This table prepared for the State and districts gives the sex-wise distribution of speakers of various mother tongues and of the persons speaking different subsidiary languages under each mother tongue. Those mother tongues where all of its speakers are unilingual are not given in the table as its figures can be obtained from Table C V. The scheme of classification of the languages is the same as that followed in Table C V.

This table corresponds to Table D-I (ii)—Bilingualism of 1951 Census.
In the case of respondents who spoke and understood more than one language in addition to their mother tongue, two languages were recorded in the enumeration slips. But the data abstracted from them for this table was based on the first recorded language.

FLYLEAF TO TABLE C VII

The distribution of population by sex under different religions is given in this table. In the table the figures of only six major religions in India have been shown. The remaining beliefs have been clubbed together into "other religions and

persuasions", the details of which are presented in the supplement to the table.

This table corresponds to Table D—II (Religion) of 1951 census.

FLYLEAF TO TABLE C VIII

The table is prepared in two parts, Part A dealing with Scheduled Caste population and Part B dealing with Scheduled Tribe population. These give the sex-wise distribution of Scheduled Castes and Scheduled Tribes into literates and illiterates and also into workers in the nine industrial categories

and non-workers for total, rural and urban areas of the State and districts.

The corresponding table of 1951 (Table D-III) shows only the population by sex of Scheduled Castes and Scheduled Tribes without giving their livelihood pattern.

FLYLEAF TO TABLE D I

This table prepared for the total area of the State and districts gives the number of persons of each sex belonging to different foreign nationalities who were enumerated in Kerala during the Census of 1961. In the table the figures of nationals

of a few selected countries only are shown. Others are grouped as 'elsewhere' under each continent and their details are shown in the Appendix. Table D VI—Non-Indian Nationals of 1951 Census corresponds to this table.

FLYLEAF TO TABLE D II

This table gives the distribution of population of each sex according to their places of birth for the total, rural and urban areas of the State and districts. The places of birth are broadly grouped as follows:—

- A. Born in India
- B. Born in countries in Asia beyond India (including U. S. S. R.)
- C. Born in countries in Europe (excluding U. S. S. R.)
- D. Born in countries in Africa
- E. Born in countries in two Americas
- F. Born in countries in Oceania
- G. Born at sea and
- H. Unclassifiable

Persons born in India are further classified as (i) within the State of enumeration with three sub-classifications viz, (a) born

in the place of enumeration (b) born elsewhere in the district of enumeration and (c) born in other districts of the State and (ii) States in India beyond the State of enumeration for each of the States and Union Territories. A person is considered as born in the place of enumeration if his birth-place is somewhere in the village where he is enumerated in the case of rural areas and somewhere in the town where he is enumerated in the case of urban areas. An important deviation has been made in the table from the corresponding tables of previous censuses by showing the classification of the place of birth as rural or urban in the case of persons born in India. In the case of persons born outside India the data are given in respect of individual countries under each continent. In the table, however, a few selected countries only are shown, others being grouped as 'elsewhere' under each continent and their details being shown in the supplement to Table D II.

Table D IV of 1951 gives similar data on place of birth.

This new table of 1961 Census gives the classification of persons of each sex born outside the place of enumeration according to their duration of residence in the place of enumeration. The period of residence is grouped as 'less than 1 year', '1-5 years', '6-10 years', '11-15 years', '16 years and over' and 'period not stated'. Persons born in India are classified as born elsewhere in the district of enumeration, born outside the district but within the State of enumeration and born in each

of the other States and Union Territories. All persons born outside India including those born at sea are grouped as born in other countries outside India except in the case of those born in Pakistan and Nepal for which separate figures are given. The classification of the place of birth as rural or urban is also given in respect of persons born in India. The table is prepared for the rural and urban areas of State and districts.

FLYLEAF TO TABLE D IV

This table is prepared only for cities, i.e. towns each with a population of 1 lakh and over. This gives the educational levels of migrants to each of the cities by broad age groups, viz, 0-14, 15-34, 35-59, 60 + and 'age not stated'. Migrants are classified as cultivators, agricultural labourers, workers in categories III to IX and non-workers. Non-agricultural workers in categories III to IX are further classified under occupational divisions and groups according to their different occupations. The following educational levels are followed in the table:

- Illiterate
- Literate (without educational level)
- Primary or Junior Basic
- Matriculation or Higher Secondary
- Technical diploma not equal to degree
- Non-technical diploma not equal to degree
- University degree or post-graduate degree other than technical degree

Technical degree or diploma equal to degree or post-graduate degree.

- (i) Engineering
- (ii) Medicine
- (iii) Agriculture
- (iv) Veterinary and Dairying
- (v) Technology
- (vi) Teaching
- (vii) Others

Occupational groups having less than 5 per cent of the figures of the respective divisions and less than 2.5 per cent in the case of Division 7-8 are not shown in the table. A mark of asterisk is given on the respective divisions and the figures of those groups giving the number of group, age group and educational level in abbreviation are given in the appendix to this table.

TABLE D IV

D IV—MIGRANTS TO CITIES CLASSIFIED BY SEX, BROAD AGE GROUPS, EDUCATIONAL LEVELS AND IN CASE OF WORKERS ALSO BY OCCUPATIONAL DIVISIONS AND GROUPS

[Occupational groups having less than 5 per cent of the figures of the respective divisions (less than 2.5 per cent in the case of Division 7-8) are omitted from this table and are shown in the appendix. Such divisions are marked with an asterisk (*) on their left.]

FLYLEAF TO TABLE D V

This table is prepared for cities i.e. towns each with a population of 1 lakh and over and gives information on migrants to cities who are born in rural or urban areas of India. Migrants are broadly classified as (a) born in rural areas (b) born in the city of enumeration and (c) born in other urban areas. Persons born in rural areas and in other urban areas are classified as born in the same district, born outside the district but within the State and born outside the State. They are further classified as resident in the city of enumeration for less than 3 years and for 3 years and more. This table excludes migrants to cities coming under the following categories.

- (i) Persons born outside India

- (ii) Persons born in India whose birth place whether rural or urban is not ascertainable and
- (iii) Persons born in rural or urban areas of India whose period of residence in the place of enumeration is not specified.
- (iv) Persons whose birth place is unclassifiable.

The total population given in columns 3, 4 and 5 relate to the total population of the respective cities excluding the above categories of migrants.

This table helps to study the extent of in-migration from rural and other urban areas into the city.

FLYLEAF TO TABLE D VI

This table is prepared for the total, rural and urban areas of State and districts and for each town or city with a population of 1 lakh and over and gives the distribution of population in the nine industrial categories of workers and non-workers by place of birth. The classification of place of birth is the same as that followed in table D II with the following alterations.

1. For rural areas the information is given only in respect of those born within the State of enumeration and for 4 numerically most important States of immigration (adjoining or distant), the selection of the States being made for each district and State separately.

2. Persons born in India whose birth place, whether rural or urban, is not ascertainable are not given in the table wherever their figures are less than 5 per cent of the total figures of the respective groups viz, A, AI and A II.

3. States and Union Territories contributing only less than 1 per cent of the total immigrants from other States are not shown in the table relating to total and urban areas of State and districts, the selection of such States and Union Territories being made on the basis of figures of total area. The figures of such States and Union Territories are shown in the Appendix.

At the time of sorting Goa, Daman and Diu was treated as outside India and hence rural/urban break-up was not ascertainable at the tabulation stage. The number of immigrants from Goa, Daman and Diu to the Trivandrum District is Total (M 13, F 6) — VIII (M 13); IX (F 6) and Urban (M 13, F 5) — VIII (M 13); IX (F 5).
