GENERAL ECONOMIC TABLES

B—GENERAL ECONOMIC TABLES

Economic Tables of the 1961 Census cover a very large field of data and are more elaborate and comprehensive than any of their predecessors. The most important point to remember about the economic tables is that during the past censuses, income or economic independence was the test applied for measuring the economy of the country. Before 1961, economic activity was interpreted in terms of categories like economically independent or economically dependent, semi-dependent, earning dependents or non-earning dependents. In 1951, the economic classification was confined to the eight livelihood classes with stress on income rather than work or economic activity of the individual. The most significant departure that the Census of 1961 has made is the emphasis laid on work, so that all people who work, including family workers who are not in receipt of any income or working children who cannot earn enough for their maintenance have also been included as workers. Even the non-workers have been distributed into eight-fold categories according to the activities pursued by them. This change in concept will help obtain a realistic picture of the economic activity of those important sections of household workers who were left out of account in the past.

According to the Tabulation Plan for the 1961 Census, there are 17 Economic Tables in 'B' series as against 6 in 1951. This series is divided into two parts, viz., (i) General Economic Tables (B-I to B-IX) prepared from individual enumeration slips and (ii) Household Economic Tables (B-X to B-XVII) prepared from Household Schedules. According to the scheme of Census Publications, Tables B-I to B-IX (General Economic Tables) are printed in Part II-B in two sub-parts. The present publication which is Sub-part II-B(1) contains the Tables B-I to B-IV-C and Sub-part II-B(2) Tables B-V to B-IX. The Household Economic Tables which will be published in Part III are an entirely new feature of the 1961 Census. They are prepared from household schedules by mechanical tabulation on the basis of 20 per cent sample and give all possible data relating to the extent of land under cultivation and household industry. Land under cultivation by Household is classified according to interest in land, e.g., (i) owned or held from Government, (ii) held from private persons or institutions for payment in money, kind or share and (iii) given to private persons for cultivation for payment in money, kind or share. They also give data relating to the nature of Household Industry, period of working of Household Industry and persons employed in Household Cultivation only or Household Industry only or in both either as family workers or as hired workers.

Industrial and Occupational Classification

Another noteworthy feature of the General Economic Tables is the systematic classification of industries and occupations. For, the one introduced in 1951 was, as truly pointed out by the Registrar General, neither a purely industrial nor occupational classification of the population but a combination of both. The National Classification of Industries and Occupations adopted by the Government of India and followed by the Census on the present occasion classifies the economic data into 9 divisions, 45 major groups and 343 minor groups of industries and 11 divisions, 75 groups and 331 families of occupations as against a conglomeration of 10 divisions and 88 sub-divisions of services in 1951. The description of divisions, major groups and minor groups of industries which appear in the General Economic Tables has been reproduced as Annexure I from the Standard Industrial Classification. The description of divisions, groups and families of occupations has been spelt out along with the code No. in Table B-V, while the description of divisions appearing in Table B-VI has been given in the flyleaf to that table. The National Classification of Occupations is also reproduced as Annexure I to Table B-V.

The following statement gives the categories of industrial workers adopted in the current census and the eight livelihood classes of 1951.

1961 Industrial Categories		1951 Means of Livelihood	
		AGRICULTURAL CLASSES	
I	As Cultivators	I	Cultivators of land wholly or mainly owned and their dependents
II	As Agricultural Labourers	II	Cultivators of land wholly or mainly unowned and their dependents
III	In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities	III	Cultivating labourers and their dependents
IV	At Household Industry	IV	Non-cultivating owners of land, agricultural rent receivers and their dependents
V	In Manufacturing other than Household Industry	NON-AGRICULTURAL CLASSES	
VI	In Construction	Persons (including dependents) who derive their principal means of livelihood from	
VII	In Trade and Commerce	V	Production other than cultivation
VIII	In Transport, Storage and Communications	VI	Commerce
IX	In Other Services	VII	Transport
X	Non-workers	VIII	Other services and miscellaneous sources

In 1951 the non-workers who were known as non-working dependents were classified according to the occupation of the person on whom they were dependent.

The non-working population is distributed separately for the first time according to eight types of activities, viz., (i) full time students or children attending school who do no other work, (ii) housewives and persons engaged in unpaid home duties, (iii) infants and other dependents including permanently disabled or old persons, (iv) retired persons, rentiers and others who are in receipt of income without doing any work, (v) beggars, vagrants and others of unspecified source of existence, (vi) convicts in jails or inmates of penal, mental or charitable institutions, (vii) persons not employed before but seeking employment for the first time and (viii) persons employed before but now out of employment and seeking employment.

Broadly speaking workers of 1961 represent self-supporting persons and earning dependents of 1951 taken together minus those in receipt of income without work such as rentiers, pensioners, beggars, etc. The groups or divisions of workers for previous censuses which are equivalent to workers and non-workers according to 1961 broad industrial categories are given in Annexure II. The economic activity of persons who are workers was recorded in Qs. 8 to 11—Q. 8 Cultivators, Q. 9 Agricultural labourers, Q. 10 Working at household industry and Q. 11 Working at non-household industry, profession, trade, business or service. Entries in respect of non-workers were made against Q. 12. The following extracts from the Manual of Instructions to Enumerators relating to Questions 8 to 12 on the basis of which the General Economic Tables are compiled will be helpful in appreciating the contents of these tables.

Qs. 8 to 11 Working—These questions apply only to workers. A person who is working may be working as a Cultivator, as an Agricultural Labourer, at Household Industry or may be doing any other work. You have to record the answers in questions 8, 9, 10 and 11 according as the person is working as a Cultivator or as an Agricultural Labourer or at Household Industry or doing any other work. He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a Cultivator and an Agricultural Labourer, in which case he should be entered both in Q. 8 and Q. 9. Or, he may be working both as Cultivator and at Household Industry in which case he will be entered in Q. 8 and Q. 10. Or, he may be working in any possible combination of 8, 9, 10 and 11, in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four Questions 8 to 11.

Detailed instructions as to how the answers should be recorded in the individual questions are given against these questions below. For an undertrial prisoner enumerated in a jail he should be recorded for the work or kind of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of work he was doing before he was admitted into hospital or institution. But for a convict in a prison or for long term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded but 'I' should be recorded in Q. 12 below.

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry, etc., if a person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional visit such a person is found to be unemployed no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as worker. A person who has been ordered work but has not actually joined should be treated as non-worker. Work includes not only actual work but effective supervision and direction of work.

Persons under training as apprentices with or without stipend or wages will be regarded as working. An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purposes of this question. If, however, in addition to her household work she engages herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass, etc., or any such work she should be treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who may be earning income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in Q. 11.

Q. 8 Working as Cultivator—For a person working as cultivator write C. For a person not working as cultivator and a person not working at all put 'X'.

For purposes of the census a person is working as cultivator if he or she is engaged either as employer, single worker or as worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private owner.

Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations. Persons engaged in fruit growing or orchardry or plantations like, tea, coffee, rubber, cinchona and other medicinal plantations, should be entered in Q. 10 or Q. 11 as the case may be.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another person's land only as a labourer and has no right or lease or contract on land on which he works, nor is responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation and is paid wages in cash, kind or share such as share of produce (Agricultural Labourer) will not be treated as cultivator in this question.

Q. 9 Working as Agricultural Labourer—Write AL for a person working as agricultural labourer, i.e., a person who works in another person's land only as a Labourer without exercising any supervision or direction in cultivation, for wages in cash, kind or share such as share of produce. For others put 'X'. The labourer should have no right or lease or contract on land on which he works, nor should he be responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation. A share of the produce goes to him only as wages. He should have been working as Agricultural Labourer in the last or current cultivating season.

Qs. 10 (a) & 10 (b) Household Industry—If a person is working in a Household Industry write (1) the nature of work done by him in the Household Industry against question 10(a) and (2) the nature of the Household Industry against question 10(b). Otherwise put 'X' in both questions 10(a) and 10(b). A Household Industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. You should carefully keep in mind the definition of Household Industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

A person though he may not be working in his own Household Industry may be working as a paid employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry and if so, write the nature of the work done by him against question 10(a) and the nature of the Household Industry against 10(b).

Q. 10 (c) If Employee in Household Industry—This question will be filled up only for a person who is working as a paid employee in another person's Household Industry. In his or her case write E. E. For all others put X.

Q. 11 Doing Work other than 8, 9 or 10—If a worker is not working as cultivator or as an agricultural labourer or at any Household Industry write the actual work he is doing. If a person is working as a cultivator or as an agricultural labourer or at Household Industry and also does some other work (including dairying or livestock raising, orchard or plantation, etc., as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above write here the work on which he devotes more time.

Q. 11 (a) Nature of Work—In the case of persons not working or who work only as cultivator or as agricultural labourer or at Household Industry, put 'X'.

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in vernacular transliteration of English. At previous censuses much trouble has been caused by inadequate answers, and if you do not succeed in obtaining satisfactory information on the individual slips, you will be required to make a further visit for that purpose.

Q. 11 (b) Industry, Business, Trade, Profession or Service—In the case of a person who is working and the nature of whose own work has been recorded in Question 11(a), you should write here the nature of industry, business, trade, profession or service in which the person works.

As in the case of Question 11(a), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired, should be given. If more than one article is produced the chief article produced or serviced or repaired should be given. In the case of business or trade the principal article of trade should be described. In the case of service describe the nature of the service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population. The description should be either in the vernacular or in English or in vernacular transliteration of English.

In the case of a person for whom an X is put in Question 11(a), put an X in this question also.

Important points to remember in Questions 11(a) and 11(b)

1. Women or children who help with work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass, etc., should be described fully even if they work part-time. In the case of married or grownup women who do any of the work mentioned above in addition to the usual household duties such work should be fully described and HW written in brackets after the full description.

In 1951 the non-workers who were known as non-working dependents were classified according to the occupation of the person on whom they were dependent.

The non-working population is distributed separately for the first time according to eight types of activities, viz., (i) full time students or children attending school who do no other work, (ii) housewives and persons engaged in unpaid home duties, (iii) infants and other dependents including permanently disabled or old persons, (iv) retired persons, rentiers and others who are in receipt of income without doing any work, (v) beggars, vagrants and others of unspecified source of existence, (vi) convicts in jails or inmates of penal, mental or charitable institutions, (vii) persons not employed before but seeking employment for the first time and (viii) persons employed before but now out of employment and seeking employment.

Broadly speaking workers of 1961 represent self-supporting persons and earning dependents of 1951 taken together minus those in receipt of income without work such as rentiers, pensioners, beggars, etc. The groups or divisions of workers for previous censuses which are equivalent to workers and non-workers according to 1961 broad industrial categories are given in Annexure II. Detailed instructions as to how the answers should be recorded in the individual questions are given against those questions below. For an undertrial prisoner enumerated in a jail he should be recorded for the work or kinds of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of work he was doing before he was admitted into hospital or institution. But for a convict in a prison or for long term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded but 'I' should be recorded in Q. 12 below.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in Q. 11.

Q. 8 Working as Cultivator—For a person working as cultivator write C. For a person not working as cultivator and for a person not working at all put 'X'.

For purposes of the census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land or (b) cultivation of land or supervision or direction of cultivation of land or share.

Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations. Persons engaged in fruit growing or orchardry or plantations like, tea, coffee, rubber, cinchona and other medicinal plantations, should be entered in Q. 10 or Q. 11 as the case may be.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Qs. 10 (a) & 10 (b) Household Industry—If a person is working in a Household Industry write (1) the nature of work done by him in the Household Industry against question 10(a) and (2) the nature of the Household Industry against question 10(b). Otherwise put 'X' in both questions 10(a) and 10(b). Q. 10 (c) If Employee in Household Industry—This question will be filled up only for a person who is working as a paid employee in another person's Household Industry. In his or her case write E. E. For all others put X.

Q. 11 Doing Work other than 8, 9 or 10—If a worker is not working as cultivator or as an agricultural labourer or at any Household Industry write the actual work he is doing. If a person is working as a cultivator or as an agricultural labourer or at Household Industry and also does some other work (including dairying or livestock raising, orchard or plantation, etc., as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question. The description should be either in the vernacular or in English or in vernacular transliteration of English.

In the case of a person for whom an X is put in Question 11(a), put an X in this question also.

Important points to remember in Questions 11(a) and 11(b)

1. Women or children who help with work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass, etc., should be described fully even if they work part-time. In the case of married or grownup women who do any of the work mentioned above in addition to the usual household duties such work should be fully described and HW written in brackets after the full description.

2. If a person makes the articles he sells, he should be entered as maker and seller of them.
3. Wherever convenient, for complete description, the work should be expressed by the vernacular name by which it is known.
4. The following are too vague and must not be used by themselves : Scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher.
5. *Labourers*—For an unskilled labourer usually employed on one sort of work alone, give also the sort of work done, e.g., railway porter, market or bazar porter, labourer employed on road digging, brick-layer's labourer. If accustomed to work on various jobs, write general labourer.

6. *Machine Operators*—Always state the kind of machine giving its recognized name, if any.

7. *Shop-keepers, Retail Dealers, Shop Assistants*—If wholly or mainly engaged in selling, write, 'Dealer' (if principal) or, 'Shop Assistant' or 'Salesman' (if assisting) and state whether the business is wholesale or retail or both. For shop assistants and salesmen in stores with several departments, state the particular department in which engaged (e.g., Ship and Railway Parts, Fans and Sewing Machines, Grocers and Confectioners).

8. *Transport Workers*—Describe fully the nature of the transport, e.g., air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by horse, etc.

9. *Services*—For a person engaged in the Defence Services write 'Service of Central Government'.

10. If the job is known in the trade or industry by a special name, use that name. Manager, Foreman, etc., should be given the department/branch wherever applicable, e.g., Sales Manager or a Manager of Hardware Department, Machine Shop Foreman or Boiler Room Foreman, etc. The following terms are insufficient by themselves :—

Manufacturer, merchant, agent, broker, refractor, dealer, engineer and iron works, etc.

11. *Domestic Services*—In the case of any private servant, e.g., a cook or domestic servant, write only 'private cook or domestic servant'. There is no industry in his case but in the case of persons employed in hotels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., should be added.

For persons in the employ of firms carrying on two or more businesses, if the businesses are carried on in separate premises then the business carried on at the premises in which the person is employed should be given. If the businesses are carried on in the same premises but each has a separate organisation (i.e., they have separate records of employment, production, etc.) then the appropriate business should be quoted. If, however, the two activities are carried on side by side then the major activity of the firm or establishment should be given.

12. *Commerce*—Special care should be taken to see that the distinction between retail and wholesale business is clear. As in industries, the goods handled should be clearly indicated.

Q. 11(c) *Class of Worker*—For a person who is :

1. an *Employer*, that is, who hires one or more persons in his work described in Q. 11(a) write MR
 2. an *Employee*, that is, who does his work described in Q. 11(a) under others for wages or salary in cash or kind write EE
 3. a *Single Worker*, that is, who is doing his work described in Q. 11(a) without employing others except casually, and without the help of other members of the family except casually. This will include workers working as members of co-operatives write SW
 4. a *Family Worker*, that is, who is doing his work described in Q. 11(a) in own family without wages or salary in cash or kind write FW
- For a person for whom an 'X' is put in Qs. 11(a) and 11(b) put an 'X' in this question also.

Explanation :—

(i) An *Employer* is a person who has to employ other persons in order to perform the work entered in Q. 11(a). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11(a). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

(ii) An *Employee* is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

(iii) A *Single Worker* for the purpose of Q. 11(c) is a person who works by himself. He is not employed by any one else and in his turn does not employ anybody else not even members of his household except casually. This definition of a Single Worker will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producers' co-operative. Each one of the partners or members of such producers' co-operatives should be recorded as 'Single Worker'.

(iv) A *Family Worker* is a member who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work everyday during the working season. For the purpose of the entire Q. 11 such an industry should be on a scale larger than what has been covered in 'Household Industry' in Q. 10 whether run at home or away from home in town or village and even away from village in rural area and should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members

of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or Head of the Household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

Q. 11(d) *Name of Establishment*—Describe in detail the name of the factory, workshop, business house, company, shop, etc. If a person has no fixed place of work, write 'No fixed place of work'.

For a person for whom an 'X' is put in Qs. 11(a), 11(b) and 11(c) put an 'X' in this question also.

After you have filled up the answers to questions 8 to 11, if you find that in the case of any person more than one productive activity has been recorded, i.e., more than one of the questions 8, 9, 10 or 11, has been filled up by some work you should ask him which one of the activities that has been recorded for him is his principal work. The principal work is the one on which the person spends most time. Put a ring round the number of the question 8, 9, 10 or 11, according to the work on which the person says he spends most time. You should invariably ask for the principal work where more than one work is recorded and put a ring round the question relating to the principal work.

It may be that in a few cases you find that you have recorded more than two productive activities in questions 8 to 11, i.e., more than two of the questions, 8 to 11, would have been filled up by some work. In such cases you should first ascertain the principal work, i.e., the one on which the person spends most time and put a ring round the number of the question. You should then ascertain the work which is the next in importance to his principal work, i.e., the work after his principal work which occupies most time. You should put a tick against the question number of that work on the right hand side of the question number. The ring and the tick should be put clearly so that any difficulty will not be felt to recognise them clearly.

Q. 12 *Activity, if Not Working*—This question will apply to a person NOT Working.

Write 'X' in this question for a person who is working, that is for whom you have recorded the work in any of the questions 8 to 11 above.

The following activities should be recorded in the case of persons NOT Working.

- 1 For a full-time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation, industry, trade or business write ST
- 2 For a person engaged in unpaid home duties (like housewife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business write HW
- 3 For any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age write D
- 4 For a retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work write R
- 5 For a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence write B
- 6 For a convict in jail (an undertrial prisoner will be shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution write I
- 7 For a person who has not been employed before but is seeking employment for the first time write NE
- 8 For a person employed before but now out of employment and seeking employment write UN

*Explanation :—*If a person, who does not work, cannot be readily classified in any of the above categories, put him in category 5 and write B in this question. A retired person who has taken up regular work again should not be entered in this question as he would have been entered for his new work in Questions 8 to 11.

A person who is not working but has been offered work which he has not joined should be included in item 3 and 'D' should be written. He should not be included in item 7 or 8.

TABLE B-I

WORKERS AND NON-WORKERS CLASSIFIED BY SEX AND BROAD AGE-GROUPS

This is the basic economic table prepared from Primary Census Abstract, giving the total population and the nine industrial categories of workers and non-workers and is presented down to district with total/rural/urban break-up. It corresponds to Table B-I of 1951. It affords comparison of economic data of 1951 Census and 1961 Census.

The classification of workers and non-workers by broad age-groups is the special feature of 1961 Census. The broad age-groups 0-14, 15-34, 35-59, 60+ correspond to the different stages of life which have a special significance to the capacity to work, namely, children, young persons, middle-aged persons and elderly persons. Detailed classification of non-workers is, however, given in Table B-IX.

TABLE B-II

TABLE B-III
INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY
EDUCATIONAL LEVELS

This table is prepared in two parts, Part-A for urban areas and Part-B for rural areas. It corresponds to Table D VII introduced for the first time in 1951, when the entire literate and educated population was classified into educational standards and eight livelihood classes. In 1961 the nine industrial categories of workers and also the non-workers are cross-tabulated by literacy and educational levels. This information will be useful for assessing the educational qualifications of available man-power. In 1951, illiterate persons were not classified according to their economic activity, whereas this table classifies them by industrial category of workers and non-workers.

In 1951 all degrees and diplomas—technical as well as non-technical—were given under one heading, viz., degree or diploma, while in 1961 non-technical diplomas and degrees are clearly distinguished from technical diplomas and degrees, separate information being furnished for each technical degree or diploma equal to degree or post-graduate degree.

Persons holding B.A. or B.Sc., M.A. or M.Sc. or higher degrees (Ph.D., etc.) in Science subjects like Physics, Mathematics, Chemistry, Agriculture, Geology, Geo-physics, Geography, etc., are also treated as technical degree holders and have been classified under 'others'.

Educational levels shown in Part-A are (i) Primary or Junior Basic, (ii) Matriculation or Higher Secondary, (iii) Technical diploma not equal to degree, (iv) Non-technical diploma not equal to degree, (v) University degree or post-graduate degree other than technical degree and (vi) Technical degree or diploma equal to degree or post-graduate degree with the break-up of (1) Engineering, (2) Medicine, (3) Agriculture, (4) Veterinary or dairying, (5) Technology, (6) Teaching and (7) Others.

There are no figures for veterinary or dairying in Surendranagar and Banaskantha districts. These are facts tabulated as returned in the individual slips which reflect the existing condition as regards the paucity of technical personnel in the field of Veterinary Science. This fact is further confirmed by special schemes of training various grades of staff and officers in Animal Husbandry provided by the State Government in the Second Five Year Plan.

The table shows that in Kutch and Bhavnagar districts females are in excess of males in case of 'Non-technical diploma not equal to degree'. On scrutiny it is observed that more than half the female diploma holders are having diploma in sewing and embroidery. The work of embroidery on saris, bed-sheets, pillow covers, etc., is carried on a large scale in these districts, which attract women to undergo such training for diploma courses. This fact explains a little excess of females over males holding non-technical diplomas in these two districts.

There are 2,387 male and 3 female workers other than at cultivation holding engineering degree or diploma equal to degree in Table B-III-A as against 3,601 males and 2 females doing engineering jobs in Table B-V. This is due to the fact that the Occupational Family 001 pertains to civil engineers and includes overseers also coded under this Family. It is, therefore, but natural that the total number of persons doing engineering work including overseers coded under the Family 001 in Table B-V would exceed that of degree holders in Table B-III-A.

The figures of persons holding degrees or diplomas in agriculture are 293 male and 5 female workers other than at cultivation in Table B-III-A as against 17 males working as Agronomists and Agricultural Scientists in Table B-V. This is due to the fact that the extent of persons with B.Ag. degree employed in administrative departments like Revenue, Development Block, Education, etc., is greater than that in the Department of Agriculture itself which had little scope for employment till recently.

It will be interesting to observe that one male with a degree in Agriculture has been returned as Agricultural Labourer, one person with agricultural qualification has been returned in Category VI—Construction and 3 such males as engaged in Category VII—Trade and 3 in Category VIII—Transport. These are tell-tale figures which indicate under-utilisation of technical personnel available in the country.

There are 61 persons with veterinary and dairying qualification in Table B-III-A as against 80 classified as veterinarians in Table B-V. This shows that a few veterinarians are not qualified. This is but natural in view of the dearth of technical personnel in the field of veterinary science.

There are 2 males in Category V, viz., Manufacturing other than Household Industry and one male in Category-III, viz., Mining, Quarrying, Livestock, etc., with qualifications in veterinary and dairying in Table B-III A as against nil figures in Table B-V. These returns also show under-utilisation of technical personnel as already noted above.

There are 20,655 males and 12,367 females working as teachers in Secondary, Middle and Primary schools in Table B-V as against 1,545 male and 584 female workers other than at cultivation in Table B-III-A holding degree or diploma in teaching. The number of persons holding 'teaching degree' appears to be comparatively small in the teaching line and truly so as any person possessing certain minimum educational qualifications prescribed for the purpose can be recruited to this profession irrespective of the fact whether he possesses a 'teaching degree' or not.

TABLE B-III PART-B

TABLE B-IV

**INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS
AT WORK OTHER THAN AT CULTIVATION**

This table corresponds to Table B-III of 1951 and gives the employment position in various sectors of economy. It is compiled from the information available in replies to Question Nos. 10(b) Nature of Household Industry, 10(c) If employee, 11(b) Nature of industry other than Household Industry, viz., profession, trade, business or service and 11(c) Class of worker. The table is prepared in three parts on the basis of the principal work of the persons. Part A relates to persons at work in Household Industry, classified by branch of industry (Division and major group) and class of workers (Employee and others). The figures are given for total/rural/urban. Part B relates to persons at work in Non-household Industry, trade, business, profession or service classified by branch of industry (Division & major group) and class of workers (Employer, Employee, Single worker and Family worker). The figures are given for total/urban. Part C relates to persons at work in Household as well as in Non-household Industry classified by branch of industry (Divisions, major groups and minor groups). It thus gives industrial classification of workers in both the types of industries upto minor group without the class to which workers belong. The figures are given for total/urban.

In 1951 Census, the economic tables covered only the distribution of population into eight livelihood classes and their further sub-division into self-supporting persons, earning dependents and non-earning dependents. Self-supporting persons not engaged in cultivation were classified according to their economic status, viz., Employer, Employee and Independent worker and were distributed into various divisions and sub-divisions of industries and services according to the Indian Census Economic Classification. Since the concepts of self-supporting and earning dependents adopted in 1951 tended to minimise the role of unpaid family workers doing work in addition to usual household duties, Table B-III of 1951 accounted for the economic activities of self-supporting persons only but did not take into account the work done by earning dependents. Whereas in 1961 stress has been laid on work so that all people who work including family workers who are not in receipt of any income, or working children, who cannot earn enough for their maintenance, are included as workers.

Thus in 1951, there were three classes of workers, viz., Employer, Employee and Independent workers whereas in 1961 there are four classes of workers, viz., Employer, Employee, Single Worker and Family Worker.

In table B-IV-C minor groups having less than 1% of workers of the respective divisions (less than 0.5% in case of Division 2 & 3) have not been shown in the table. The divisions thus affected are marked with an asterisk (*). Such minor groups are shown run on in Appendix to this table. It may be further noted that lines with nil entries have been omitted from these tables.

The Standard Industrial Classification has been reproduced as Annexure I. It may, however, be noted that the Minor Groups 000—Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize; 001—Production of pulses such as arhar, moong, masur, urd, khesari, other gram; 002—Production of raw jute and kindred fibre crops; 003—Production of raw cotton and kindred fibre crops and 004—Production of oil-seeds, sugarcane and other cash crops, are excluded from the table. Minor Group '999—Fresh entrants to the labour market' also does not appear in the table as these are treated as non-workers.

ANNEXURE I **Standard Industrial Classification**

This classification groups the industries into
9 Divisions

45 Major Groups

343 Minor Groups

The divisions and major groups with their Code numbers are listed below.

DIVISIONS

- 0 Agriculture, Livestock, forestry, fishing and hunting
- 1 Mining and Quarrying
- 2&3 Manufacturing
- 4 Construction
- 5 Electricity, Gas, Water and Sanitary services
- 6 Trade and Commerce
- 7 Transport, Storage and Communication
- 8 Services
- 9 Activities not adequately described

MAJOR GROUPS

Division 0 Agriculture, livestock, forestry, fishing and hunting

- 00 Field produce and Plantation crops
- 01 Plantation crops
- 02 Forestry and Logging
- 03 Fishing
- 04 Livestock and Hunting

Division 1 Mining and Quarrying

- 10 Mining and quarrying

Division 2 & 3 Manufacturing

- 20 Foodstuffs
- 21 Beverages
- 22 Tobacco Products
- 23 Textile-cotton
- 24 Textile-jute
- 25 Textile-wool
- 26 Textile-silk
- 27 Textile-miscellaneous
- 28 Manufacture of wood and wooden products
- 29 Paper and paper products
- 30 Printing and publishing
- 31 Leather and leather products
- 32 Rubber, Petroleum and coal products
- 33 Chemicals and chemical products
- 34-35 Non-metallic Mineral Products other than petroleum and coal

- 36 Basic Metals and their products except machinery and transport equipment
- 37 Machinery (all kinds other than Transport) and Electrical equipment
- 38 Transport Equipment
- 39 Miscellaneous Manufacturing Industries

Division 4 Construction

- 40 Construction

Division 5 Electricity, Gas, Water and Sanitary Services

- 50 Electricity and gas
- 51 Water supply and sanitary services

Division 6 Trade and Commerce

- 60-63 Wholesale Trade
- 64-68 Retail Trade
- 69 Trade and Commerce Miscellaneous

Division 7 Transport, Storage and Communication

- 70-71 Transport
- 72 Storage and Warehousing

Major Group (Code)	Description	Minor Group (Code)	Major Group (Code)	Description	Minor Group (Code)
00 Field Produce and Plantation Crops—			04 Livestock and Hunting—		
	Production of cereal crops (including Bengal gram) such as rice, wheat, jowar, bajra, maize	000		Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram	001		Rearing of sheep and production of wool	041
	Production of raw jute and kindred fibre crops	002		Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of raw cotton and kindred fibre crops	003		Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Production of oilseeds, sugarcane and other cash crops	004		Rearing of bees for the production of honey, wax and collection of honey	044
	Production of other crops (including vegetables) not covered above	005		Rearing of silk worms and production of cocoons and raw silk	045
	Production of fruits and nuts in plantation, vines and orchards	006		Rearing of other small animals and insects	046
	Production of wood, bamboo, cane reeds, thatching grass, etc.	007		Trapping of animals or games propagation	047
	Production of juice by tapping palms	008		Production of other animal husbandry products such as skin, bone, ivory and teeth	048
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above	009	<i>Division 1 Mining and Quarrying—</i>		
01 Plantation Crops			10 Mining and Quarrying—		
	Production of tea in plantation	010		Mining of coal	100
	Production of coffee in plantation	011		Mining of iron ores	101
	Production of rubber in plantation	012		Mining of gold and silver ores	102
	Production of tobacco in plantation	013		Mining of manganese	103
	Production of ganja, cinchona, opium	014		Mining of mica	104
	Production of other plantation crops not covered above	015		Mining of other non-ferrous metallic ores	105
02 Forestry and Logging—				Mining of crude petroleum and natural gas	106
	Planting, replanting and conservation of forests	020		Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Felling and cutting of trees and transportation of logs	021		Mining of chemical earth such as soda ash	108
	Preparation of timber	022		Mining and quarrying of non-metallic products not-classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109
	Production of fuel including charcoal by exploitation of forest	023	<i>Division 2&3 Manufacturing—</i>		
	Production of fodder by exploitation of forests	024	20 Foodstuffs—		
	Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests	025		Production of rice, atta, flour, etc., by milling dehusking and processing of crops and foodgrains	200
	Production and gathering of other forest products not covered above	026		Production of sugar and syrup from sugarcane in mills	201
03 Fishing—				Production of indigenous sugar, gur from sugarcane or palm juice and production of candy	202
	Production of fish by fishing in sea	030		Production of fruit products such as jam, jelly sauce and canning and preservation of fruits	203
	Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries	031		Slaughtering, preservation of meat and fish and canning of fish	204
	Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032		Production of bread, biscuits, cake and other bakery products	205
				Production of butter, ghee, cheese and other dairy products	206
				Production of edible fats and oils (other than hydrogenated oil)	207
				Production of hydrogenated oils (Vanaspati)	208
