INTRODUCTION

This volume gives the Census Economic Tables in continuation of the Tables published in Part II-B (i). The following Tables are printed in this book.

Table B-V	Occupational classification by sex of persons at work other than cultivation.
Table B-VI	Occupational divisions of persons at work other than cultivation classified by sex, broad age groups and educational levels in <i>urban areas only</i> .
Table B-VII	Part A—Persons working principally (i) as Cultivators, (ii) as Agricultural Labourers or (iii) at Household Industry classified by sex and Secondary work (i) at Household Industry, (ii) as Cultivator or (iii) as Agricultural Labourer.
Table B-VII	Part B—Industrial classification by sex of persons working in non-household industry, trade, business, profession or service, who are also engaged in household industry.
Table B-VIII	Part A—Persons unemployed aged 15 and above by sex, broad age groups and educational levels in <i>urban areas only</i> .
Table B-VIII	Part B—Persons unemployed aged 15 and above by sex and educational levels in <i>rural areas only</i> .
Table B-IX	Persons not at work classified by sex, broad age groups and type of activity.

The Economic Tables published in Part II-B (i) were the following :

Table B-I	Workers and Non-Workers classified by sex and broad age groups.
-----------	---

Table B-II	Workers and Non-Workers in cities, town-groups and towns arranged territorially classified by sex and broad age groups.
Table B-III	Part A—Industrial classification of Workers and Non-Workers by educational levels in <i>urban areas only</i> .
Table B-III	Part B—Industrial classification of Workers and Non-Workers by educational levels in <i>rural areas only</i> .
Table B-IV	Part A—Industrial classification by sex and class of worker of persons at work at Household Industry.
Table B-IV	Part B—Industrial classification by sex and class of worker of persons at work in Non-household Industry, Trade, Business Profession or Service.
Table B-IV	Part C—Industrial classification by sex and Divisions, Major Groups and Minor Groups of persons at work other than Cultivation.

The Economic Tables were built up from the answers recorded against questions 8 to 12 of the Individual Slip which was the chief Census schedule canvassed at the 1961 Census enumeration which had its reference date as 1st March 1961. The form of the Individual Slip and the instructions to enumerators pertaining to the filling up of the answers to questions 8 to 12 of the Individual Slip, that cover the economic characteristics of the person enumerated, are reproduced in Part II-B (i), and the reader is advised to refer to them.

The scope of the data presented in each of the tables is explained in the fly-leaf given at the beginning of each table.

Occupational families 400—Cultivators (Owners), 401—Cultivators (Tenants), and 414—Agricultural Labourers are not included in the Table B-V, because this table relates only to Non-Agricultural workers. Similarly the families X00—Workers, without occupations: Matriculates and above, X08—Workers without Occupations, Literates and X09—Workers without Occupations, Others, which represent persons without any occupation and seeking work, do not find a place in this Table. A new family 673—Teleprinter Operators is added to the list and Tele-typists have been deleted from the family 211—Typists and Tele-typists; Family 0X4 originally representing Geographers is omitted from the list and Geographers are included under family 073; Actuaries who were shown under family—073 are now included under 072 together with Statisticians.		
	<i>Customs Examiners, Patrollers and related workers</i>	902	3. At the 1961 Census, for the first time, a two way classification of workers firstly according to the industry, business or service in which they are engaged and secondly according to the occupation or the actual work that the workers perform in that industry, business or service is presented. It is important to note that the Industrial Classification of the workers given in the previous Economic table, namely, Table B-IV Part C (Printed in Part II-B (i) Volume) and the Occupational Classification of the workers given in the present table are two distinct things. Industry is related to the sector of the economic activity in which the worker is engaged, e.g., Textile Industry, Sugar Industry, Wholesale Grain Trade, State Government Service etc., while the occupation indicates the specific job that the individual performs, e.g., a fitter, chemist, salesmen, manager, clerk etc. A fitter may be found in a workshop attached to Textile Industry or he may be found in a Transport Organisation; a clerk can exist in an Industrial concern or a business firm or a Government Office. Thus, though the occupation may be the same the Industrial Classification may differ and vice versa for in the same industry may be engaged persons of different occupations. Though sometimes some correlation may exist between some occupations and some industries, no exact correspondence between the figures in Table B-IV Part C which gives the industrial classification of workers and Table B-V which gives the occupational classification of Workers can be established because of the very fundamental difference between the concepts of Industrial and Occupational classifications.		
	<i>Watchmen and Chowkidars</i>	903	4. Economic Classification adopted in the past Censuses has already been discussed in paragraph 2 of the fly leaf to Table B-I in Part II-B (i) Volume. Though occupational particulars have

been collected right from the earliest Indian Censuses, in view of the specific distinction made between Industry and Occupation at the 1961 Census, as explained in the previous para, it is not possible to exactly compare the occupational statistics collected in the 1961 Census with those published in the earlier Census reports. The occupational particulars of Censuses prior to 1961 more or less represent a combination of Industrial and Occupational classification.

5. In a few cases some obvious discrepancies between the Occupational classifications and the Industrial categorisation may be observable in Table B-V such as e.g., a Railway Ticket Collector who might have been correctly classified for his occupation as a Ticket Collector and who should have normally come under the Industrial Category, VIII, i.e., Transport, Storage and Communications, on account of having been recorded for Industry, in the Census slip, as an employee of the Government of India had been brought under Services-Category IX in compiling the Census Tables. It may also be seen from the Table that a number of Railway Gangmen recorded under Occupational Family 692 in Nellore, Chittoor and Cuddapah Districts are shown in Industrial Category VI—Construction, while in all other districts gangmen are shown against Industrial Category, VIII—Transport, Storage and Communications. Similarly there are 222 persons recorded under Occupational Family 084, i.e., Sculptors and modellers in Karimnagar rural; most of them were probably mere potters who should have been classified under 811.

6. There are instances of production or processing workers being returned under Industrial Category VII—Trade and Commerce or conversely, the sales workers being returned under Industrial Category IV and V i.e., Household Industry and Manufacture, such as a few tailors occurring under Industrial Category VII and a few hawkers, pedlars and street vendors or salesmen and shop assistants under Industrial Category V. This is obviously because the individual or the establishments concerned engage themselves both in Manufacture and Trade and Commerce simultaneously. A cloth shop usually engages tailors etc., for the purpose of making garments to the customers who buy the cloth in the shop. Similarly shops dealing in Hats and Head-gear, manufacture and sell the goods. It may be recalled that the basic Census schedule viz., the Individual Slip contained two distinct questions, one relating to the Nature of work i.e., the Occu-

pation and the other relating to the Nature of Industry, Profession, Trade or Service with which the person enumerated is connected as a worker. Question 11 (a) of the slip reads "Nature of work" and Question 11 (b) reads "Nature of Industry, Profession, Trade or Service." The answers recorded were independently coded, the first by the National Classification of Occupations and the second by the Indian Standard Industrial Classification without attempting to change any in order to merely correlate. Any such manipulation would have given an unrealistic picture of the actual facts. Thus a tailor in a cloth shop may be shown as a tailor under Occupation but as trade for Industrial classification. Though seemingly incongruous, it is true to the actual state of things.

7. A good number of employees of Public Works Department were classified as Government servants and put under the Industrial Category IX, in the absence of specific information such as, working in Irrigation, Buildings etc., in the individual slips. There are a number of P.W.D. workshops in the State and the skilled workers and artisans such as mechanics, fitters, carpenters, and blacksmiths etc., engaged in many of them were classified under the Industrial Category IX, since the entries against question 11 (b) were merely "Government Service" or just "P.W.D."

8. Similarly persons working in Agriculture Department were also classified as Government servants with reference to the answer in question 11 (b), as State Government service etc., when specific information such as dealing with rice production, or engaged in a particular plantation etc., was not available.

9. Again, we see that a few unlikely occupations were returned under Industrial Category IX—Other Services, which is due to the fact that in several cases, the Industry was not adequately described (even though the Occupation was) and such workers were, therefore, put under the Industrial Minor Group 900—which is a residuary minor group relating to activities not adequately described.

10. A few cases of seemingly unlikely occupations returned under the Industrial Categories given against them, together with probable reasons for such occurrence, are given below, as illustrations:

Occupational Family 1	Industrial Category 2	Explanation 3
031—Physicians, Ayurvedic	IV—Household Industry	Generally, Ayurvedic Physicians prepare medicines themselves, and those, who have returned their Industry as "preparation of medicines", obviously come under this category, since it happens to be a Household Industry.
100—Administrators and Executive Officials, Central Government	VIII—Transport, Storage and Communications	Some Central Government Officers in Railways, Ports and Posts and Telegraphs are shown under this category.
101—Administrators and Executive Officials, State Government	VI—Construction	These are the officials working on Projects like Nagarjunasagar Dam etc.
129—Directors, Managers and working Proprietors, Financial Institutions	IX—Other services	Officers of the State Government on deputation to Co-operative Banks or Financial Corporations etc., seem to have been treated wrongly as in Public Services in these cases.
313—Auctioneers	VIII—Transport, Storage and Communications	Persons dealing with auctions for disposing the goods and articles of Railways, Storage and Warehousing etc., were shown under Category VIII, where they had returned their Establishments or Industry as Railways, Storage and Warehousing etc.

Occupational Family 1	Industrial Category 2	Explanation 3
319—Insurance and Real Estate Salesmen, Salesmen of Securities and Services, and Auctioneers, n.e.c.	VIII—Transport, Storage and Communications	Brokers and Commission Agents who supply lorries or passenger buses to the customers on demand are put in this category.
319—Insurance and Real Estate Salesmen, Salesmen of Securities and Services and Auctioneers, n.e.c.	IX—Other Services	The persons who have simply returned their occupation as mere Commission Agent or Contractor for supplying Labour etc., are classified under this group.
329—Commercial Travellers and Manufacturers' Agents, n.e.c.	V—Manufacturing other than Household Industry	Since it is a residuary Occupational Family, agents, representing manufacturing concerns, who purchase materials required for manufacture but who could not be classified under other Families of this Occupational Group were shown here.
331—Hawkers, Pedlers and Street Vendors	IX—Other Services	Newspaper boys who are mostly street vendors were given the industrial Code No. 853—Business services rendered by professional organisations or individuals such as of those rendered by news agency, newspaper correspondent etc., which falls in Category IX.
402—Farm Managers, Inspectors and Overseers	IX—Other Services	Fieldmen, Farm Supervisors and such other officials belonging to the Agriculture Department, in the absence of full particulars for classifying them under Industrial Division 0 in Category III, were given the code number 809—State Government Officials.
410—Farm Machinery Operators	IX—Other Services	They are all tractor or such other machine drivers who were employees of the Agriculture Department, and recorded as Government servants against Question 11 (b) of the enumeration slip.
419—Farm workers, n.e.c.	IX—Other Services	The Farm workers who are working in Development Blocks Research and Training Centres and also those who could not be classified under any other Family of the Occupational Group 41 were classified in this group.
440—Forest Rangers and related workers	IX—Other Services	They represent the employees of Forest Department such as Rangers, Guards etc., who were given the Industrial Code No. 809 instead of a more specific No. 020, allotted to the Forest Worker.
442—Log Fellers and Wood Cutters	V—Manufacturing other than Household Industry	Workers employed by Timber manufacturers, Industrial Major Group 28 of the Industrial Classification were shown under Category V.
442—Log Fellers and Wood Cutters	VII—Trade and Commerce	Workers engaged by the Timber Merchants were shown under this category.
442—Log Fellers and Wood Cutters	IX—Other Services	A large number of general labourers who go door to door to earn wages for splitting wood required for fuel, were put under the minor group 890.
501—Quarrymen	VI—Construction	These quarrymen are engaged in digging of canals at Nagarjunasagar Project.
611—Engine-Room Ratings, Firemen and Oilers, Ship	V—Manufacturing other than Household Industry	All these persons are engaged at the Hindustan Ship Yard, Visakhapatnam.
672—Radio Communication and Wireless Operators	IX—Other Services	Many of these men are working in Police, Defence and similar other Government Departments.
692—Workers in Transport Occupations, n.e.c.	VI—Construction	Railway gangmen engaged in maintenance and construction of Railway track were put under the Industrial Category VI—Construction. Some of them may also be trolley workers on the site of the big dams and other construction projects.

Occupational Family 1	Industrial Category 2	Explanation 3
692—Workers in Transport Occupations, n.e.c.	IX—Other Services	Since it is a residuary Family, all such workers who were engaged in Transport maintained by Government Departments and Gangmen in P.W.D. were classified under this category.
710—Tailors, Dress Makers and Garment Makers	IX—Other Services	A number of Tailors are employed in Community Development Centres and in various Mahila Sabhas or Mandalis.
730—Furnacemen, Metal	IX—Other Services	The persons working in Government Production-cum-Training Centres or persons working in different Training Centres, Technical or Vocational were shown in this category since the Industrial Code No. 810 was assigned to them.
733—Blacksmiths, Hammersmiths and Forgemen	IX—Other Services	The workers in this Class were mostly employed by the Electricity and Public Works Departments and some of them were also engaged in Waterworks and Sanitary Departments.
750—Fitter - Mechanists, Tool-makers and Machine Tool Setters	IX—Other Services	These persons are working in Government Establishments such as Electricity, Water Works and Sanitary Departments. Even in Public Works Department Workshops those who have reported themselves as Government servants have also come under this Category. And, all such other casual workers who have not returned their place of work specifically have been classified as 'Unclassifiable' and put under Category IX.
751—Machine Tool Operators	IX—Other Services	As in 750.
752—Fitter-Assemblers and Machine Erectors (Except Electrical and Precision Instrument Fitter-Assemblers)	IX—Other Services	As in 750.
753—Mechanics—Repairmen (Except Electrical and precision Instrument Repairmen)	IX—Other Services	As in 750 except those related to Electricity Department.
770—Carpenters, Joiners, Pattern Makers (Wood)	IX—Other Services	Public Works Department engages a good number of Carpenters in the Workshops. Even in other Departments of Central and State Governments some carpenters are working as peons for attending to repairs to furniture etc.
824—Bakers, Confectioners, Candy and Sweetmeat makers	IX—Other Services	Persons working in Hotels, Cafes etc., have come under this Category.
859—Craftsmen and Production Process Workers, n.e.c.	III—Mining, Quarrying, Livestock, Forestry, Fishing etc.	Preparation of cow dung cakes was put in the III Category (Considering cow dung cakes as livestock products); but later when instructions were received to alter the industrial category to V, the change could not be effected because the Primary Census Abstract had already been finalised.
890—Loaders and Unloaders	IV—Household Industry	General Labourers engaged in loading and unloading of finished products such as packed cases of soda water or other aerated water bottles, or bricks etc., into carts or other vehicles, and employed in the concerned household industry have been shown in this category.
11. A statement showing the number of workers in certain Occupational Families, the corresponding Industrial Categories as given in this Table and the Industrial Categories which may		be more probable in respect of these Occupational Families, is given in the following pages.

TABLE B-VI

OCCUPATIONAL DIVISIONS OF PERSONS AT WORK OTHER THAN CULTIVATION CLASSIFIED
BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS *IN URBAN AREAS ONLY*

This table is prepared only for urban areas and upto the Divisions of the National Occupational Classification. The population under each division is distributed into broad age-groups and further classified according to different educational levels. This table gives useful information about those occupations which attract educated personnel.

HOUSEHOLD INDUSTRY (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER**

TABLE B-VII Part A

PERSONS WORKING PRINCIPALLY (i) AS CULTIVATORS. (ii) AS AGRICULTURAL LABOURERS
OR (iii) AT HOUSEHOLD INDUSTRY CLASSIFIED BY SEX AND BY SECONDARY WORK (i) AT
HOUSEHOLD INDUSTRY (ii) AS CULTIVATOR OR (iii) AS AGRICULTURAL LABOURER

This Table is prepared separately for total, rural and urban populations. It presents cross tabulation in the case of persons whose principal and secondary work are any two of (i) Cultivation, (ii) Agricultural Labour, or (iii) Household

Industry. This Table shows the extent to which cultivation is supplemented by Household Industry or vice versa.

The data are presented upto industrial divisions and major groups.

TABLE B-VII Part B

INDUSTRIAL CLASSIFICATION BY SEX OF PERSONS WORKING IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE WHO ARE ALSO ENGAGED IN HOUSEHOLD INDUSTRY

This Table is prepared separately for total, rural and urban populations. It furnishes data regarding the number of persons who are principally engaged at non-Household Industry, etc., but also work additionally in household industry. The Table is limited to Industrial Divisions and Major

Groups only. The description of Divisions and Major Groups of the Indian Standard Industrial Classification appearing in the Table is given below : (For detailed classification please see the flyleaf to the Table B-IV Part C in Part II-B(i)—Economic Tables).

STANDARD INDUSTRIAL CLASSIFICATION

DIVISION 0—AGRICULTURE, LIVESTOCK, FORESTRY, FISHING AND HUNTING

- 00 Field produce and Plantation crops
- 01 Plantation crops
- 02 Forestry and Logging
- 03 Fishing
- 04 Livestock and Hunting

DIVISION 1—MINING AND QUARRYING

- 10 Mining and Quarrying

DIVISION 2 & 3—MANUFACTURING

- 20 Foodstuffs
- 21 Beverages
- 22 Tobacco products
- 23 Textile—Cotton
- 24 Textile—Jute
- 25 Textile—Wool
- 26 Textile—Silk
- 27 Textile—Miscellaneous
- 28 Manufacture of Wood and Wooden products
- 29 Paper and Paper products
- 30 Printing and Publishing
- 31 Leather and Leather products
- 32 Rubber, Petroleum and Coal products
- 33 Chemicals and Chemical products
- 34-35 Non-Metallic Mineral products other than Petroleum and Coal
- 36 Basic Metals and their products except Machinery and Transport equipment
- 37 Machinery (all kinds other than Transport) and Electrical equipment
- 38 Transport Equipment
- 39 Miscellaneous Manufacturing Industries

DIVISION 4—CONSTRUCTION

- 40 Construction

DIVISION 5—ELECTRICITY, GAS, WATER AND SANITARY SERVICES

- 50 Electricity and Gas
- 51 Water supply and Sanitary services

DIVISION 6—TRADE AND COMMERCE

- 60-63 Wholesale Trade
- 64-68 Retail Trade
- 69 Trade and Commerce Miscellaneous

DIVISION 7—TRANSPORT, STORAGE AND COMMUNICATIONS

- 70-71 Transport
- 72 Storage and Warehousing
- 73 Communications

DIVISION 8—SERVICES

- 80 Public Services

TABLE B-VIII Part A
PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, BROAD AGE-GROUPS AND
EDUCATIONAL LEVELS IN *URBAN AREAS ONLY*

This Table relates to urban areas. It gives the classification of unemployed persons by their educational levels and age-groups. It is prepared for persons aged 15 years or more, separately for (i) those who are seeking employment for the first time and (ii) those persons who were employed before but are now out of employment and seeking work. These two classes together

constitute the total *unemployed*. In the first case, the age-groups given in the Table are 15-19, 20-24, 25-29, 30-34, 35+, and in the second case 15-19, 20-24, 25-34, 35-44, 45-59, 60 and above. This Table throws light on educated unemployment in different age-groups and will be useful for purposes of planning for employment and also assessing the available manpower.

PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX AND EDUCATIONAL
LEVELS IN *RURAL AREAS ONLY*

This Table relates to rural areas. In this Table, educational levels of all the Unemployed persons aged 15 years and above, taken together without the further sub-divisions as in Table B-VIII Part A are given. Educational levels are limited to 'Primary or Junior Basic' and 'Matriculation and above' as in Table B-III Part B.

TABLE B-IX

PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD
AGE-GROUPS AND TYPE OF ACTIVITY

TABLE B-IX
PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE-GROUPS AND TYPE OF ACTIVITY

This Table is prepared separately for total, rural and urban populations. It relates to Non-Working population. The Non-Workers under broad age-groups are divided according to their activities into eight categories described below :

FULL TIME STUDENTS :—This category includes full time students or children attending school who do no other work such as make articles at home for sale nor even help part time in their own family cultivation, industry, trade or business.

HOUSEHOLD DUTIES :—A person engaged in unpaid home duties (like housewife or other adult female) and who does no other work, such as make articles at home for sale or wages, nor help regularly even part time in family cultivation, industry, trade or business is recorded under this class.

DEPENDENTS, INFANTS AND DISABLED :—All dependents, including infants or children not attending school or persons permanently disabled from work because of illness or old age, are shown in this category.

RETIRED, RENTIER OR INDEPENDENT MEANS :—Retired persons who are not employed again, rentiers, persons living on agricultural or non-agricultural royalty, rent or dividend or other persons of independent means for securing which they do not have to work and who do no other work, are classified in this category.

BEGGARS, VAGRANTS, ETC :—Beggars, vagrants or independent women without indication of source of income and other unspecified source of existence are included in this class.

INMATES OF PENAL, MENTAL & CHARITABLE INSTITUTIONS :—Convicts in jail (an under trial prisoner is shown as a worker if he used to work before he was apprehended) or inmates of penal, mental or charitable institutions are classified in this category.

PERSONS SEEKING EMPLOYMENT FOR THE FIRST TIME :—Persons who were not employed before but are seeking employment for the first time are included in this class.

PERSONS EMPLOYED BEFORE, BUT NOW OUT OF EMPLOYMENT AND SEEKING WORK :— Persons employed before but now out of employment and seeking employment are included in this class.

This kind of tabulation was never attempted in earlier Censuses nor were questions even asked on the activities of all the Non-Workers. The eight categories are important and are based on the recommendations of the United Nations. Data are available in this Table for those who have an earning without working. Separate data are also available in respect of housewives who though they do domestic work are not classified as economically active. Data relating to school attending children will be very useful to the educational authorities. There is a residuary category which consists of all other dependents including children and disabled persons. The age classification of this group studied with reference to age tables throws light on the school going children who do not attend school and persons in working age-group who are not working.

A few cases of seemingly unlikely categories in certain age-groups are explained below•as illustrations :

A comparison of the figures of students in the age-group 0-14 with the literate population in the age-group 5-14, given in Table

C-III—Age, Sex and Education, shows, that in Srikakulam (Rural and Urban), Visakhapatnam (Rural), Nellore (Rural) and Cuddapah (Rural) the student population is more than the literate population of age-group 5-14. This is obviously due to the fact that small children attending schools and not satisfying the criterion of literacy, viz., to be able to read and write, could not be treated as literates. In the case of Srikakulam and Visakhapatnam Districts, it is possible that in the Tribal schools, there were comparatively large number of new entrants who were hardly literate. This may be the case even in the backward tracts of Nellore and Cuddapah Districts.

On the other hand, the student population in the age-group 0-14 in Krishna (Urban) and Hyderabad (Rural) is lower than the literate population in the age-group 5-14 which is due to the fact that several children leave the schools at the age of 10 or 12 after having their elementary education and take to some avenues of work. Or there may be children doing other work such as assisting in the running of a shop or at a workshop besides attending schools. Unless one is a wholetime student he will not be shown as a student at the Census. Thus there may be larger number of literate children than those actually attending schools wholetime in that age-group.

It may also be mentioned that during enumeration, enumerators in some areas were inclined to record every student as a literate even if the child did not satisfy the criteria of literacy whereas in some other areas, unless a student had passed fifth class he was not treated as literate. This might have also contributed to some extent to the variations observed.

A total of 1,084 males and 261 females in the age-group 35-59 and 12 males in the age-group 60+ have been returned as “ Full time students”. The full time students in the age-group 60+ might be persons pursuing advanced vedic or sanskrit studies, whereas those in the group 35-59 might be persons pursuing studies in religion, vedas, music or other fine arts or studying in training centres, etc. It is not uncommon for Government or other employees aged 35 and above to prosecute higher studies on study leave. The Administrative Staff College in Hyderabad, the Diocese in Medak town (training persons for Priesthood) and the Basic Training School in Siddipet, Teachers’ Training Schools and Colleges in other places accounted for the large number of full time students in the age-group 35-59 in the districts concerned. In spite of the clear explanation in the “ Instructions to Enumerators ” that “persons under training as apprentices with or without stipend or wages will be regarded as working”, the enumerators seem to have found it difficult to clearly classify some cases and have apparently treated them as non-workers because they had not actually worked for at least one day during the fifteen days preceding the date of enumeration.

A total of 3,608 males were returned as Housewives. A majority of them are in the age-group 0-14 and these cases probably represent children who do not attend schools but who do assist in household duties. In the other cases, presumably the persons concerned would have informed the enumerators that they attend to only household duties to the specific question “ whether they attend to any work”. The enumerators had, therefore, recorded them as ‘HW’ in question 12 of the Individual Slip. Some cases may even be due to the wrong recording of sex in the Individual Slips.
