1961 CENSUS

SOCIAL AND CULTURAL TABLES
C-I—C-IV & C-VII—C-VIII

NOTE

Part II-C is devoted to the 'C' (Social and Cultural) and 'D' (Migration) Series of the 1961 Census Tables. Owing to the volume of statistics compiled it has been split up into three sub-parts. This sub-part, Part II-C (*i*), presents the following 'C' Series Tables, second sub-part, Part II-C (*ii*) contains Language Tables, C-V Mother Tongue and C-VI Bilingualism and the third sub-part, Part II-C (*iii*) presents the 'D' Series.

The following Tables are presented in this book:

C-I	Composition of Sample Households by Relationship to Head of Family based on a 20% Sample
C-II	Age and Marital Status
C-III	Part A—Age, Sex and Education in *all Areas*
	Part B—Age, Sex and Education in *Urban Areas only*
	Part C—Age, Sex and Education in *Rural Areas only*
	Appendix to Table C-III—Scientific and Technical Personnel Tables
C-IV	Single Year Age Returns
C-VII	Religion
C-VIII	Part A—Scheduled Castes and Scheduled Tribes (Classification by Literacy and Industrial Category of Workers and Non-workers among Scheduled Castes)
	Part B—Scheduled Castes and Scheduled Tribes (Classification by Literacy and Industrial Category of Workers and Non-workers among Scheduled Tribes)

The data for Table C-I Composition of Households was abstracted from Part II—Census Population Record—on the back of the Household Schedule filled up during 1961 Census Enumeration. The Household Schedule has been described in the Introduction to Part II-A—General Population Tables. This Table is based on a 20 per cent Sample of Households for all States and Union Territories except for Dadra and Nagar Haveli and Andaman and Nicobar Islands for which the Table was prepared on full count.

New Delhi :
September 1, 1964.

This Table could not be prepared for Goa, Daman and Diu and North-East Frontier Agency as the Census Population Record was not made out for these areas. The All-India Totals for Table C-I have been based on an arithmetic reduction to 20 per cent of the data available on full count for Andaman and Nicobar Islands and Dadra and Nagar Haveli.

All the other Tables have been tabulated from the answers recorded against the following questions in Individual Slips at the 1961 Census Enumeration. The form and content of the Individual Slip has been given in the Introduction to Part II-A—General Population Tables—

Question No.		*Description*
2	..	Age in completed years last birthday
3	..	Marital Status
5(*b*)	..	Religion
5(*c*)	..	Scheduled Caste or Scheduled Tribe
6	..	Literacy and Education
7(*a*)	..	Mother Tongue
7(*b*)	..	Any other languages.

Each table presents statistics for All-India, each Zone, each State, Union Territory and Other Area. Similar statistics for lower administrative units such as district *etc.* will be found in the respective Part II-C of the States/Union Territories.

In the Union Territories of Goa, Daman and Diu and Dadra and Nagar Haveli, a Census was taken as on 15th December, 1960 and 1st March, 1962 respectively; data in the Tables relate to these dates.

Every Table is preceded by a fly-leaf. The fly-leaf gives the Census question relevant to the Table alongwith the instructions for filling up the answers. The nature of the statistics presented in the Table is also briefly described. For the facility of users certain derived tables of proportions are given in each fly-leaf.

For convenience of regional study, States and Union Territories have been constituted into five Zones which differ from those politically constituted under the States Re-organisation Act of 1956 and the Bombay Re-organisation Act of 1960. The States and Union Territories constituting each of the five Zones are given as in Annexure.

A. MITRA
Registrar General, India

ANNEXURE

CENSUS ZONES CONSTITUTING STATES, UNION TERRITORIES AND OTHER AREAS

The following Zones differ from those politically constituted under the States Re-organization Act of 1956 and the Bombay Re-organization Act of 1960 in asmuchas North-East Frontier Agency, Nagaland, Sikkim, Dadra and Nagar Haveli, Pondicherry, Laccadive, Minicoy and Amindivi Islands, Andaman and Nicobar Islands and Goa, Daman and Diu have not yet been notified under any of them. For convenience of regional study, these territories have been informally included in the various Zones as indicated below except Andaman and Nicobar Islands and Goa, Daman and Diu which have not been included in any of the Zones:

Zones	States/Union Territories and Other Areas
1	2
I *Northern Zone*	Jammu and Kashmir Punjab Rajasthan Delhi Himachal Pradesh
II *Central Zone*	Uttar Pradesh Madhya Pradesh
III *Eastern Zone*	Bihar Orissa West Bengal Assam Manipur Tripura North-East Frontier Agency Nagaland Sikkim
IV *Western Zone*	Gujarat Maharashtra Dadra and Nagar Haveli
V *Southern Zone*	Andhra Pradesh Mysore Kerala Madras Pondicherry Laccadive, Minicoy and Amindivi Islands
VI *Areas which have not been included in any Zone*	Andaman and Nicobar Islands and Goa, Daman and Diu

COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY

C-I

M/B(D)3RGIndia—3

C-I COMPOSITION OF SAMPLE HOUSEHOLDS BY RELATIONSHIP TO HEAD OF FAMILY

(Based on 20% Sample)

Fly-leaf

This Table broadly corresponds to Table C-I(*ii*) —Family Composition of Sample Households of 1951. But the contents are different. The Table is based on a 20 per cent sample of households except in the case of Andaman and Nicobar Islands and Dadra and Nagar Haveli which are based on full count. Total for India, Western Zone and Area not included in any Zone (*i. e.* Andaman and Nicobar Islands) are based on an arithmetic reduction to 20 per cent of the data available on full count for Andaman and Nicobar Islands and Dadra and Nagar Haveli. In 1951, the Table was based on a very small sample (0·1%), the size of the sample again differing in some cases. This Table excludes Goa, Daman and Diu and North-East Frontier Agency as the relevant information was not available for these territories.

The instruction issued to State Superintendents on the procedure to be adopted for drawing the 20 per cent sample of the Household Schedule (which contained on its reverse Part Census Population Record, the source of this Table) is reproduced below—

> "For the purpose of tabulation every fifth household from the starting random household will be selected to make a 20 per cent sample. The sample household will be marked continuously for rural areas of a tehsil/taluka and for urban areas of a district *i.e.*, households left over in a household pad should be carried over to the next household schedule pad for the selection of sample households.
>
> Before marking the sample households the household schedule pads should be arranged in the order of location code numbers of villages in a taluka or tehsil in the case of a rural area and in the order of the location code numbers of towns in a district for urban areas. The first sample household should be chosen randomly among the first five households in the first household schedule pad and stamped (s) as selected. This random number (random start) should be chosen separately for rural areas of each taluka/tehsil and for the urban area of the district. From the first random household every fifth household should be continuously stamped as selected. A rubber stamp will have to be specially prepared for that purpose. The sample should be continuously marked for all the pads of villages in a tehsil and urban areas in a district. If in a particular household schedule pad at the end, some households (these will be four or less) are left after the marking of the sample household, the households left over should be carried over to the next household schedule pad and the appropriate household in that pad should be marked as a sample household."

M/B(D)3RGIndia—3(a)

The sampling was confined to family household. Institutional household like boarding houses, jails *etc.* were ignored.

After the Samples were drawn, the household Schedules were arranged by Census Tracts adopted for each State and despatched to the Central Mechanical Tabulation Unit, New Delhi in respect of the following States and Union Territories for coding, punching, machine processing and tabulation for preparation of Table C-I—'Composition of Sample Households by Relationship to Head of Family'.

State	Union Territory
1 Assam	1 Andaman and Nicobar Islands (Full count)
2 Punjab	2 Delhi
3 Rajasthan	3 Himachal Pradesh
4 Uttar Pradesh	4 Manipur
5 West Bengal	5 Tripura
	6 Dadra and Nagar Haveli (Full count)
	7 Pondicherry
	8 Nagaland
	9 Sikkim

The 20 per cent sample household schedules in respect of the following States and Union Territories were coded and checked by their respective State Superintendents and were sent to the Central Mechanical Tabulation Unit, New Delhi for punching, machine processing and Tabulation.

State	Union Territory
1 Kerala	1 Laccadive, Minicoy and Amindivi Islands
2 Madras	
3 Madhya Pradesh	
4 Orissa	

In respect of Bihar the schedules for all the districts were coded, checked and punched by the State Statistical Bureau and punched cards for 6 districts *viz.*, Patna, Shahbad, Bhagalpur, Saharsa, Palamau and Dhanbad were also machine processed and final tables prepared by the Mechanical Tabulation Unit of the State Statistical Bureau. Eleven districts of the State were machine processed and tabulated by the Central Machanical Tabulation Unit at New Delhi.

The Table for Andhra Pradesh and Mysore State was prepared by the Mechanical Tabulation Unit of the Gokhle Institute of Politics and Economics at Poona.

The Table for Maharashtra was prepared by the Mechanical Tabulation Unit of the Bureau of Economics and Statistics of Maharashtra at Bombay. The Table for Gujarat was prepared by the Mechanical Tabulation Unit of the State Statistical Bureau of Gujarat at Ahmedabad and Table for Jammu and Kashmir was prepared by the Superintendent of Census Operations, Jammu and Kashmir, Srinagar.

Coding was done in each of the Mechanical Tabulation Centres mentioned above in pursuance of the punched card design approved by the Registrar General, India, New Delhi.

Household was defined as the entire group of persons who commonly lived together in the same census house and took their meals from a a common kitchen unless the exigencies of work prevented them from doing so. If in a census house there was more than one group of persons and each group had its own separate kitchen every such group was treated as a separate household.

Institutions like boarding houses, messes and chummeries *etc.*, were also regarded as census households of un-related persons living together but such households were excluded for the purpose of this Table.

The Table gives the total sample household population, number of Heads of Households, spouses of Heads of Households, married relations, other relations and un-related persons separately for rural and urban areas; for India, five Zones, each State and Union Territory. Data down to the district level are given in Part II-C of the respective State and Union Territory.

The following statement gives the average size of sample households, distribution into males and females and the proportion of male and female Heads of Households in rural and urban areas:

C-II AGE AND MARITAL STATUS

Fly-leaf

This Table corresponds to Table C-III Age and civil condition of 1951. While the data of Marital status was tabulated on a ten per cent sample in 1951, this Table is based on the entire population.

The question on marital status at the 1961 Census was worded as follows—

Q·3 Marital Status—

The instruction to the enumerator on the mode of filling the question was :

"For Never Married . write NM
"Married . . write M
"Widowed . . write W
"Separated or Divorced write S

For a person who has never been married write 'NM.' For a person married, whether for the first time or another time, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for person in stable *de facto* union. Even if a marriage is disputed in the locality write 'M'. If the person concerned says he or she is married or in stable *de facto* union. For a widowed person whose housband or wife is dead and who has not been married again, write 'W'. For a person who has been divorced in a lawful manner, either by decree of a law court or by a regular social or religious custom but who has not remarried, or a person who has been separated from wife or husband and is living apart with no apparent intention of living together again, write 'S'. For a prostitute return her marital status as declared by her."

The table gives data for 'Persons', 'Males' and 'Females' classified by 'Total', 'Rural' and 'Urban' in the age groups 0-9, 10-14, 15-19, 20-24, 25-29, 30-34, 35-39, 40-44, 45-49, 50-54, 55 59, 60-64, 65-69, 70+ and 'age not stated' separately for 'Never Married', 'Married', 'Widowed', 'Divorced or separated' and 'unspecified status'. For the purpose of the All India Table and many State Tables, the Age Group 0-9 was regarded as 'Never Married'. But several States tabulated the marital status in this age group also, for which the information has been presented in the respective State Tables. Data are presented in the Table for India, its five zones, and each State, Union Territory and Other Areas; figures at district level will be found in Part II-C of the respective States.

In the Union Territories of Goa, Daman and Diu and Dadra and Nagar Haveli, a Census was taken as on 15th December 1960 and 1st March 1962 respectively; data in the Tables relate to these dates for the two territories.

The following statement shows the percentage distribution of population by marital status according to 1961 Census.

Percentage distribution of population by marital status in rural and urban India, 1961

Marital Status	Total		Rural		Urban	
	Males	Females	Males	Females	Males	Females
Never Married	52·9	42·4	52·4	41·5	55·2	46·4
Married .	43·0	46.3	43·3	46·9	41·8	43·2
Widowed .	3·7	10·8	3·9	11·0	2·8	9·9
Divorced or Separated	0·4	0·5	0·4	0·6	0·2	0·5

The percentage of 'never married' males is much greater than that of 'never married' females. On the other hand the proportion of widows is greater than that of widowers. The proportion of 'Never Married' is greater and those of 'Married' and 'Widowed' less in the urban areas than in the rural area, but numerically the differences are small.

The proportion of 'Divorced or Separated' is very small but between the percentages of Urban and Rural areas, it is higher in the case of latter.

The following statements show (i) percentage of population in each age group under a civil condition to the total population under that civil condition (Total/Rural/Urban) (ii) percentage of population under each civil condition separately for males and females in each age group to the total population of that age group.

STATEMENT I

Percentage of population in each age group under a civil condition to the total population under that civil condition (Total/Rural/Urban)

C-III AGE, SEX AND EDUCATION (PARTS A, B & C)

Fly-Leaf

Table C-III has three parts. Part A relates to 'All Areas'; Part B to 'Urban Areas' and Part C to 'Rural Areas'. It corresponds to Table C-IV 'Age and Literacy' of 1951. The present table covers the entire population, while in 1951, this Table was based on a ten per cent sample. Another distinguishing feature is a variation in the adoption of age brackets; in 1951 the statistics were presented by the age groups 0-4, 5-9, 10-14, 15-24, 25-34, 35-44, 45-54, 55-64, 65-74 and 75 and over. The age groups adopted for this Table are 0-4, 5-9, 10-14, 15-19, 20-24, 25-29, 30-34, 35-44, 45-59, 60+ and 'Age not Stated'. The other and more important departure in 1961 was the tabulation by a number of educational levels attained besides the classification of 'Illiterate' and 'Literate' to which 1951 was limited. Different educational levels, however, have been adopted for presentation for rural and urban areas in 1961.

The form of the question on the individual slip at the 1961 Census for literacy and education was :

Q. 6 Literacy and Education.

The instruction for filling up the individual slip was as follows :—

I. *Illiterate or Literate*—

For a person

(*i*) Who can neither read nor write or can merely read but cannot write in any Language .. .. Write 'O'.

(*ii*) Who can both read and write .. .. Write 'L.'

The test for reading is ability to read any simple letter either in print or in manuscript *i.e.*, if the person can read one of the examples in the Enumerator's Handbook with felicity he may be taken to have passed the test for reading. The test for writing is the ability to write a simple letter. The test of literacy is satisfied if the person can with understanding both read and write.

II. *Standard of Education*—

If the person can both read and write and has also passed a written examination or examinations as proof of an educational standard attained, write the highest examination passed instead of 'L'.

In parts A and C of this Table the data are presented by—

(*i*) Illiterate;

(*ii*) Literate (without educational levels);

(*iii*) Primary or Junior Basic; and

(*iv*) Matriculation and above.

In part B which is for 'Urban Areas only', in addition to the above mentioned first three characteristics, figures are also given for the following educational levels :

(*i*) Matriculation or Higher Secondary;

(*ii*) Technical diploma not equal to degree;

(*iii*) Non-technical diploma not equal to degree ;

(*iv*) University degree or post-graduate degree other than technical degree;

(*v*) Technical degree or diploma equal to degree or post-graduate degree in—

(*a*) Engineering;

(*b*) Medicine;

(*c*) Agriculture;

(*d*) Veterinary and dairying;

(*e*) Technology;

(*f*) Teaching; and

(*g*) Others.

In all the three parts, literacy and educational levels have been cross tabulated by 'Males' and 'Females' in the various age groups mentioned earlier, for India, the five Zones and each State, Union Territory and Other Areas. Figures at district level will be found in Part II-C Volume of the respective State/Union Territory.

All children aged 4 or below have been treated as illiterate.

Figures in the Table for Goa, Daman and Diu and Dadra and Nagar Haveli relate to 15-12-1960 and 1-3-1962 respectively, the dates on which censuses were taken in these Union Territories. Figures pertaining to a part of North-East Frontier Agency with a population of 297,853 (147,100 Males and 150,753 Females), where All-India Census Schedules were not canvassed, are excluded from this Table.

The following statement shows the proportion of Literates (including educated) to the total population in India, State, Union Territory and Other Areas in 1961 and 1951 :

STATEMENT 1

Proportion of Literates (including educated) to the total population (including population aged 0—4) in India, each State, Union Territory and Other Areas in 1961 and 1951

State/Union Territory	1961 Literacy rates			1951 Literacy rates		
	No. of Persons to 1,000 Persons	No. of Males to 1,000 Males	No. of Females to 1,000 Females	No. of Persons to 1,000 Persons	No. of Males to 1,000 Males	No. of Females to 1,000 Females

*Excludes that portion of North-East Frontier Agency where simplified Census Schedule instead of All-India Census Schedule was canvassed.

'N'=Denotes negligible

In addition to the data relating to the Scientific and Technical Degrees and Diplomas collected through the individual slips, it was found desirable to undertake a more detailed investigation not only into the full spectrum of scientific and technical disciplines but also into certain conditions of work and service obtaining among scientific and technically trained personnel. This was accomplished through a specially designed Business Reply Postcard called as the "S and T card". During his visit to each household between 10 and 28 February 1961, a census enumerator was required to leave these special cards, one for each of the members of such household which contained person or persons trained in Science or Technology with a request that the card should be completed by the person himself and kept ready for collection by him when he visited the household again during the revisional round on 1—5 March 1961. Cards which had been filled in the meantime were collected by the enumerator during the revisional round for onward transmission to the Registrar General. In case of those which had not been filled in, the enumerator was instructed to request the person to fill it in carefully and post the card in the post office as early as practicable.

Based on the information received through these cards, 10 Tables have been prepared and are presented in the Appendix to Table C-III.

C-III PART A—AGE, SEX AND EDUCATION IN *ALL AREAS*

APPENDIX TO TABLE C-III

SCIENTIFIC AND TECHNICAL PERSONNEL TABLES

SCIENTIFI C AND TECHNICAL PERSONNEL TABLES

Fly-leaf

The year 1952 ushered in the era of economic planning with the First Five Year Plan and along with it a heightened appreciation of the importance of scientific and technically trained personnel. It was acknowledged that the latter would hold the key to India's economic and industrial revolution.

The decade 1951—61 saw unprecedented expansion in the field of academic instruction and practical training in science and technology. This field, therefore, came in for much attention from the consultative committees convened by the Registrar General in 1958, 1959 and 1960 for the formulation of the 1961 Census Questionnaire and the 1961 Census Tabulation Plan. As a result of committee deliberations it was decided to elaborate the categories of scientific and technical degrees and diplomas as so many separate variables in the census Cultural and Economic Tables. But this alone was not considered enough. It was found desirable to undertake a more detailed investigation not only into the full spectrum of scientific and technical disciplines but also into certain conditions of work and service obtaining among scientific and technically trained personnel.

Considerable assistance in the designing of the proposed investigation was readily available from the Council of Scientific and Industrial Research CSIR as the Council saw in it a means of testing and bringing up to date its own Register of Scientific and Technical Personnel. This identity of interests emboldened the Census Commission to think of an ancillary inquiry linked integrally to the census count in February—March 1961 and yet separated from it. This proposal found favour with the CSIR and work was commenced in the beginning of 1960 on the designing of a separate structured questionnaire to be addressed to persons who during the census count, when the enumerator would call from door to door, would be found in possession of a science degree or a technical qualification. It was decided in consultation with State Census Superintendents that it would be unfair to think of increasing the workload of the census enumerator by asking them to fill up the special schedules themselves. But the enumerator could well undertake to leave the special form on any household which claimed a person trained in science or technology or in both, requesting the latter to fill it up himself and either to hand it back to the enumerator when he called again during the revisional round on 1—5 March 1961 or, failing this, to mail the filled in card, which was a Business Reply Card addressed to the Registrar General, for which no postage would be necessary if posted in India, the postage to be paid by the addressee.

The arrangement finally agreed upon in the mid year conferences of 1960 was that the special structured schedule for scientific and technically trained personnel would be in the shape and size of a Business Reply Post Card acceptable to the Postal Department. Much thought had in the meantime been paid by the Census Commission and Dr. K. Ray of the CSIR on the designing of the card and questions. The problem being to construct a logically consecutive questionnaire which would be both brief and capable of yielding vital information. The designing of the questions and that of the card itself took many experiments and field tests.

A facsimile of the obverse and reverse of the special S & T Card, as it was called, is reproduced in its original size on page 184.

During his visit to each household between 10 and 28 February 1961 a census enumerator was required to inquire whether the household contained any person trained in science or technology. He would be readily able to make out whether a household contained any such person from the academic qualifications of every person of the household he was required to record. If there was or were a person or persons so qualified the enumerator was required to leave a special card for each such person with the request that the card should be completed by the person himself and kept ready for collection by him when he visited the household again during the revisional round on 1—5 March 1961. Cards which had been filled in, in the meantime were collected by the enumerator during the revisional round for onward transmission to the Registrar General. In the case of those which had not been filled in, the enumerator was instructed to request the person to fill it in carefully and post the card in the post office as early as practicable.

NEW DELHI G.P.O. PERMIT NO. 1518

No Postage necessary if posted in India.

The Registrar General, India

Ministry of Home Affairs,

2A, Man Singh Road,

NEW DELHI-11

The enumeration covered the following categories of scientific and technically trained persons :

1 *Science :* Anybody holding B.A. or B.Sc., M.A. or M.Sc. or higher degrees (Ph.D., *etc.*) in Science subjects like Physics, Mathematics, Chemistry, Agriculture, Geology, Geophysics, Geography, *etc.*

2 *Engineering :* Anyone holding recognised degree or diploma in Engineering.

3 *Technology :* Anyone holding degree or diploma in technical subjects like Chemical Technology, Leather Technology, Textile Technology, Glass Technology, Ceramic Technology, Food Technology, *etc.*

4 *Medicine :* Persons holding degree or diploma in Medicine and/or Surgery.

Note : The Under-Graduates/Scientist i.e., those who have not got any Bachelor's Degree or Mechanics and Technicians even though holding certificates will not come under the enumeration.

The enumeration applied to all scientific and technical persons whether they were employed/unemployed, retired or students who were holding a technical degree or diploma but were studying for higher degrees or diplomas.

It was decided that in Assam, Bihar, Gujarat, Jammu and Kashmir, Madhya Pradesh, Maharashtra, Orissa, Rajasthan, Uttar Pradesh and West Bengal the inquiry would be confined to all urban areas and selected rural areas. In the remaining States and Union Territories, the card would be canvassed in all areas. In the former group of States the cards were canvassed only in those rural areas which, in the experience of the Census Organisation, were likely to contain this particular category of persons. The blank cards were issued to enumerators according to a certain scale. In cities with population of over 500,000 it was 50 cards per enumerator. In other urban areas this number was 20. In rural areas it was 5. Reserves of blank cards were kept with Charge Officers and District Census Officers.

Each card contained a Location Code with which to identify the household in which a particular person was enumerated. This Location Code consisted of a Master Code number for the State alongwith the code number for the district/taluk/tehsil/thana/block and house. The census enumerator was expected to fill in the code number of the State and the Census Location Code before handing over the card to the person concerned.

The following questions were asked :

1 Name

2 Date of birth

3 Designation and office address (if employed)

4 Permanent address

5 (*a*) Male/ ( )
(*b*) Female ( )

6 (*a*) Never married/ ( )
(*b*) Married ( )

7 On Feb. 1, 1961 were you ..
(*a*) Employed ? ( )
if so, monthly total income Rs.....
(*b*) Full time student ? ( )
(*c*) Unemployed? ( )
if so, how long ?
——————yrs.——————mths.
(*d*) Retired ? ( )

8 Academic Qualifications (Answer fully)

Degree/ Diploma	Subjects taken	Division	Year of passing

9 Nature of employment :
(*a*) Teaching in School ( )
(*b*) Teaching in College ( )
(*c*) Technical in Industry ( )

If you are trained in science or technology, the enumerator will leave a special card with you during the Census.

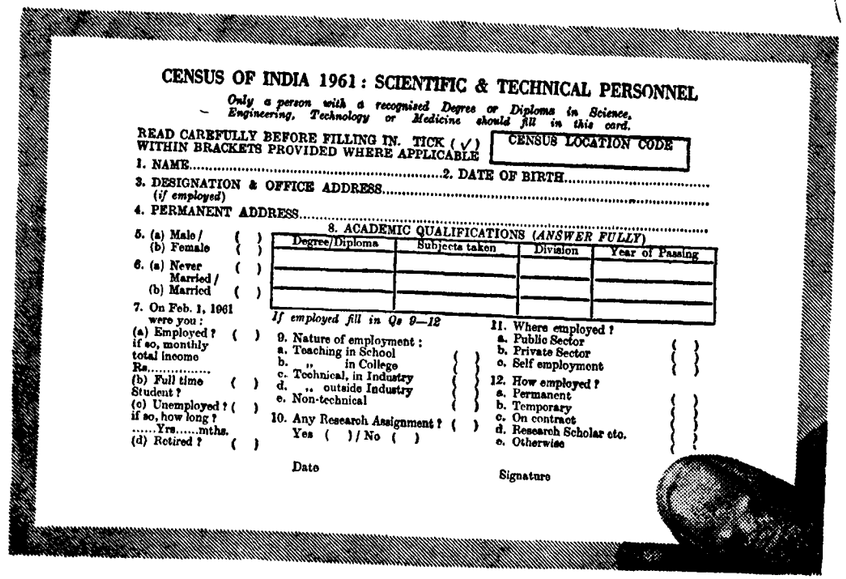

Please do not neglect the card or put it aside. Your answers on the card will be of great national importance. Please read the card carefully before you record the answers.

After filling in the card, you can either hand it over to the enumerator when he calls again or post it. No postage need be paid by you.

Your own identity will not be revealed by the Census Department and personal details will be fully protected.

ARE YOU TRAINED IN SCIENCE OR TECHNOLOGY?

If you are, the enumerator would have given you a special card during the Census (10th February - 5th March).

If you have not yet filled it, please do so at once and post it. No postage need be paid by you; the addressee will pay.

Issued by the Government of India

DA 61/73

The following brief instruction was printed on the card:

> Only a person with a recognised Degree or Diploma in Science, Engineering, Technology or Medicine should fill in this card.
>
> Read carefully before filling in. Tick (√) within brackets provided where applicable.

Although instructions were issued to all census enumerators that they should enquire at each household about scientific and technical personnel, it was thought necessary to give additional publicity to this special census to drive home its importance to those who were concerned. Arrangements were, therefore, made for publicity through newspapers by inserting an advertisement in English on the eve of the census period 10—28 February 1961. The advertisement is reproduced on page 186.

This was followed by a second advertisement in April 1961, reproduced on page 187 when it was found that the number of returns received fell short of expectation.

A total of 184,779 cards was received direct by post through the Business Reply Card System. Another 87,540 cards were received through State Census Superintendents from District Census Offices.

In the course of scrutiny at the time of test sorting and coding it was discovered that about 10,000 cards were deficient in respect of answers to some question or other. Wherever the address was available a letter was addressed again as follows to the enumerated person in May—June 1962 to supply the missing detail.

> "Among the different questions in the card which are reproduced below, we find that you have not completed the information in respect of the question marked with an asterisk. We shall be grateful if you kindly give the necessary information at an early date."

About 10,000 queries were addressed on the Business Reply System to which about 7,500 replies were received. The additional information was incorporated in the relevant S & T Cards. The remaining incomplete cards for which the required information was not received were treated as unclassified and coded and tabulated accordingly.

These cards were further examined in respect of educational standards given in the cards. It was found that 21,669 persons who were either undergraduates (that is, did not hold a Bachelor's Degree) or possessors of technical certificates not equivalent to a degree, had also filled in the cards. These were rejected.

Thus a total of 250,650 (184,779+87,540—21,669) cards including about 2,500 cards treated as unclassified were coded, transferred on to punched cards and tabulated on Hollerith Machines in accordance with the Code Design, Tabulation Plan and Scheme of Subject Classification worked out in consultation with the CSIR.

II

A total of only 250,650 raises questions of coverage and representativeness. Unfortunately, the CSIR itself is not in possession of any accurate estimate of the universe of each field of science or technology. Neither is any estimate available of reduction by mortality or absence from the country. Dr. K. Ray, Assistant Director of the National Register Unit of CSIR has arrived at the following estimates of (1) Scientific and Technical Personnel in India and (2) Annual Out-turn.

TABLE I

Scientific and Technical Personnel in India (Estimates)

Category	1950	1955	1960	1963
1	2	3	4	5
Science Graduates	75,000	110,000	180,000	220,000
Agricultural Graduates	4,500	8,000	14,000	20,000
Veterinary Graduates	1,000	2,200	5,000	7,000
Engg. & Tech. Graduates	28,000	41,000	58,000	80,000
Diploma.	35,000	48,000	74,000	110,000
Medical Doctors (Deg.)	20,000	30,000	44,000	53,000
Medical Doctors (Dip.)	36,000	38,000	37,000	36,000
Post-Graduates Scientists	16,000	25,000	41,000	55,000

TABLE II

Annual Out-turn

Category	1950	1955	1960	1963
1	2	3	4	5
Science Graduates.*	10,000	16,000	23,000	29,000
Agricultural Graduates.	1,000	930	1,900	2,500
Veterinary Graduates.	240	300	820	1,000
Engg. & Tech. Graduates.	2,000	4,000	5,700	9,000
Engg. & Tech. Diploma	2,500	4,500	8,000	13,000
Medical Graduates.	1,600	2,700	3,200	4,000
Medical Diploma	1,200	Diploma course discontinued.		
Post-Graduates Scientists	1,100	2,300	4,000	5,000

*About a quarter of the Science Graduates go in for advanced studies in science and professional courses.

Union Census Table C-III throws light on the extent of coverage achieved by this special enumeration. Several advanced educational levels were tabulated for all urban areas, the sorting for rural areas being limited to only two: (*a*) Primary or Junior Basic; (*b*) Matriculation and above.

The figures obtained from Union Table C-III and those from the S & T Enumeration are given below:

Educational level	Figures according to S & T enumeration	Figures according to Union Table C-III	Col. 2 as percentage col. 3
1	2	3	4
1 Engineering & Technology (Degree or Diploma equal to Degree or Post-Graduate Degree) .	34,292	52,494	65·33
2 Medicine (Degree or above) (Modern and other indigenous systems) .	30,201	49,398	61·14

Further analysis of coverage and representativeness will be available in the Monograph on the subject to be published by the Census Commission.

III

In consultation with the CSIR it was decided to prepare the following tables:

Union Table I	Distribution of scientific and technical personnel by each branch and sub-branch of science or technology.
Union Table II	Age composition of persons in each branch of science or technology.
Union Table III	Permanent addresses by branch of education.
State Table I	Classification by each branch and sub-branch of science or technology.
State Table II	Type of activity and marital status of persons in each branch of science or technology.
State Table III	Year of obtaining Post-Graduate degrees in physical sciences and graduates and doctorates in Engineering, Technology and selected branches of Medicine.
State Table IV	Persons holding degrees in Engineering and Technology and selected branches of Medicine and also degrees in selected branches of physical sciences.
State Table V	Nature and sector of employment of persons in each branch of science or technology.
State Table VI	Total monthly income of persons employed in each branch of science or technology classified by sector of employment.
State Table VII	Tenure and sector of employment of persons in each branch of science or technology.
State Table VIII	Age and period of unemployment of unemployed persons in each branch of science or technology.

A brief description of each table is given below:

Union Table I and State Table I—These two tables are identical. Union Table gives data for India and the States while the State Table gives figures only for each State. In this Table scientific and technical personnel have been classified by each branch and sub-branch of science or technology

and the population under each branch and sub-branch is given separately for persons, males and females.

There are 58 branches and 126 sub-branches.

Branches 0—8 relate to Post-Graduates (including Doctorates) in Physical Sciences. Physics, Mathematics, Statistics, Chemistry, Agriculture, Bio-Sciences, Geology/Geophysics and Geography are separate branches (0—7). All other Sciences are included under Branch 8. There are 17 sub-branches.

Branch 9 relates to Graduates in Science subjects. There are 5 sub-branches respectively for General Sciences, Agriculture, Forestry, Horticulture and Others.

Branches 10—33 relate to Degrees (Graduates and above) in Engineering and Technology. The following branches of Engineering and Technology are separately given :

10—Aeronautical Engineering
11—Agricultural Engineering
12—Applied Geology/Geophysics
13—Architecture & Regional Planning
14—Automobile Engineering
15—16—Chemical Engineering & Technology
17—18—Civil Engineering
19—20—Electrical Engineering
21—Electrical-Mechanical Engineering
22—Food, Sugar & Dairying Technology
23—Fuel & Petroleum Technology
24—Glass, Silicate, Ceramics & Cement Technology
25—Leather Technology
26—27—Mechanical Engineering
28—Metallurgical Engineering
29—Mining Engineering
30—Naval Architecture & Marine Engineering
31—Pharmaceuticals & Fine Chemicals
32—Textiles
33—Others

There are 80 sub-branches. There are numerous sub-branches under 15—16, 17—18, 19—20 and 26—27.

Branches 34—47 relate to Engineering and Technology Diplomas. Separate branches have been given to the following Diplomas:

34—Aeronautical Engineering
35—Automobile Engineering
36—Chemical Engineering
37—Civil Engineering
38—Electrical Engineering
39—Electrical-Mechanical Engineering
40—Glass & Ceramics Technology
41—Leather Technology
42—Mechanical Engineering
43—Metallurgical Engineering
44—Mining Engineering
45—Tele-communication/Radio & Communication Engineering
46—Textile Technology
47—Others

Branch 48 relates to Engineering and Technology—Certificate Courses.

Branches 49—56 relate to Medical Sciences and separate branches are allotted for:

Medicine (Modern System)	49—General Human Medicine/Surgery
(Bachelor's Degree and above)	50—Specialised Human Medicine/Surgery
	51—Nursing
Veterinary	52—Animal Husbandry, Livestock & Veterinary
Medicine (Modern System)	53—Human Medicine/ Surgery
(Diploma level)	54—Nursing
	55—Animal Husbandry, Livestock & Veterinary
	56—Ayurvedic, Unani & Other systems of Medicine

Branch 57 relates to unclassifiable cards.

The Subsidiary Table to Union Table I gives the distribution of 10,000 persons, males and females, in Branches 0—8 (Post-Graduates and above in Physical Sciences) and Branch 9 (Graduates in Science subjects) by branches/sub-branches included therein for All-India and for each State.

Union Table II—In this table scientific and technical personnel in the various branches have been classified by age groups. Age groups are 20 years and below, 21—25 years, 26—30 years, 31—35 years, 36—40 years, 41—45 years, 46—50 years, 51—55 years, 56—60 years, 61+ and Age not stated. The figures are given separately for males and females and for All-India and for All the States and Union Territories.

Union Table III—This table has been prepared for Branches only for All-India and for the States. Under each State scientific and technical personnel have been divided into two categories (1) permanent residents of the State of enumeration and (2) Permanent residents of other States. Details of other States are given in the annexure to the table. The figures are given separately for males and females.

State Table I—This has not been printed since this is the same as Union Table I.

State Table II—This table has been prepared only for All India and only by Branches. In this table scientific and technical personnel have been classified according to their marital status and further classified by employment status, *i.e.*, employed/unemployed/retired. The figures are given separately for males and females.

The subsidiary Table gives the distribution of 10,000 persons, males and females in each of the Branches 0—8 (Post-Graduates and above in Physical Sciences) and Branch 9 (Graduates in Science subjects) by employment status for All-India.

State Table III—This table has been prepared only for All-India and for selected Branches and educational level of degree and above. Technical personnel under each Branch have been classified according to the year of obtaining their degree. The years of obtaining degree have been grouped and classified as before 1920, 1920—29, 1930—39, 1940—44, 1945—49, 1950—54, 1955, 1956, 1957, 1958, 1959, 1960 and Year not stated. Separate figures are given for males and females. Figures for unemployed also include such of the technical personnel who are full time students.

The Subsidiary Table gives the distribution of 1,000 persons in each branch of Science or Technology according to the following periods of obtaining degree: Up to 1939, 1940—49, 1950—54, 1955—60 and year not stated.

State Table IV—This table has also been prepared only for scientific and technical personnel holding degree in Engineering, Technology and selected Branches of Medicine and also holding degrees in selected Branches of Physical Sciences. Figures are given separately for males and females.

State Table V—This table has been prepared in respect of scientific and technical personnel who are in employment. This has been prepared for all Branches of Science or Technology. Scientific and technical personnel in each Branch have been classified according to their employment in public sector, private sector and self-employment. Under each sector they have been further classified by type of employment. The types are teaching in school, teaching in college, technical in industry, technical outside industry and non-technical. Under each sector personnel have also been classified separately by 'With research assignment' and 'Without research assignment'. Figures are given separately for males and females.

State Table VI—This table has been prepared in respect of scientific and technical personnel who are in employment. This table has been prepared for All Branches of Science or Technology. In this table scientific and technical personnel have been classified according to their sector of employment. Under each sector they have been further classified according to their total monthly income. The income groups are less than 100, 100—199, 200—299, 300—399, 400—499, 500—699 700—999, 1000—1199, 1200—1499, 1500—1999, 2000 and above and Unclassified. Figures are given separately for males and females.

State Table VII—This table has been prepared in respect of scientific and technical personnel who are in employment. This table has also been tabulated for each Branch of Science or Technology. Here also scientific and technical personnel have been classified according to the three sectors and in each sector according to their tenure of employment. The tenures are (*a*) permanent, (*b*) temporary, (*c*) on contract, (*d*) research scholar, *etc.*, and (*e*) otherwise. As the question of permanent or temporary does not arise in cases of self-employment, only the last three classifications mentioned above have been adopted. Figures are given for males and females separately.

The Subsidiary Table gives the distribution of 1,000 persons in Branches 0—8 (Post-Graduates and above in Physical Sciences) and Branch 9 (Graduates in Science Subjects) by sector of employment.

State Table VIII—This table relates to scientific and technical personnel who were not in employment at the time when they filled up the cards. This table has been prepared for each Branch of science or technology. Scientific and technical personnel who were not in employment have been classified by age groups and each age group has been further classified according to the period of unemployment. The age groups are 20 years and below, 21—25 years, 26—35 years, 36—45 years, 46—55 years, 56 + years and Age not stated. The period of unemployment were classified by the following periods: Up to 3 months, 4—6 months, 7—9 months, 10—12 months, 1—1½ years, 1½—2 years, Over 2 years and Period unspecified. Figures under columns 24—26 'Period unspecified' also include technical personnel who are full time students. Figures are given separately for males and females.

IV

Based on the data contained in S.T.V.—Nature and Sector of Employment of Persons in each Branch of Science or Technology—the following six maps have been prepared :

Map No. 1—Distribution in the Public and Private Sectors of Scientific and Technical Personnel possessing Degrees or Doctorates in Modern Medicine, Animal Husbandry, Livestock and Veterinary, 1961.

Map No. 2—Distribution in the Public and Private Sectors of Scientific and Technical Personnel possessing Degrees or Doctorates in Physical Sciences, Engineering, Technology and Modern Medicine, 1961.

Map No. 3—Distribution in the Public and Private Sectors of Scientific and Technical Personnel possessing Degrees or Doctorates in selected branches of Engineering and Technology (Architecture/Civil, Electrical, Electrical-Mechnical, Mechnical, Metallurgical and Mining) 1961.

Map No. 4—Distribution in the Public and Private Sectors and Scientific and Technical Personnel possessing Degrees or Doctorates in selected branches of Engineering and Technology (applied Geology/Geo-Physics, Chemical, Food, Civil, Glass and Pharmaceutical) 1961.

Map No. 5—Distribution in the Public and Private Sectors of Scientific and Technical Personnel possessing Diplomas in Engineering and Technology, 1961.

Map No. 6—Distribution in the Public and Private Sectors of Scientific and Technical Personnel possessing Diplomas in Modern Medicine, Nursing, Animal Husbandry, Livestock and Veterinary, 1961.

These maps appear in the beginning of State Table V.

TECHNICAL PERSONNEL EMPLOYED IN PUBLIC SECTOR PRIVATE SECTOR

- GRADUATES OR DOCTORATES IN APPLIED GEOLOGY / GEOPHYSICS
- GRADUATES OR DOCTORATES IN CHEMICAL ENGINEERING & TECHNOLOGY
- GRADUATES OR DOCTORATES IN FOOD, SUGAR & DAIRYING TECHNOLOGY
- GRADUATES OR DOCTORATES IN FUEL & PETROLEUM TECHNOLOGY
- GRADUATES OR DOCTORATES IN GLASS, SILICATE, CERAMICS & CEMENT TECHNOLOGY
- GRADUATES OR DOCTORATES IN PHARMACEUTICALS & FINE CHEMICALS TECHNOLOGY

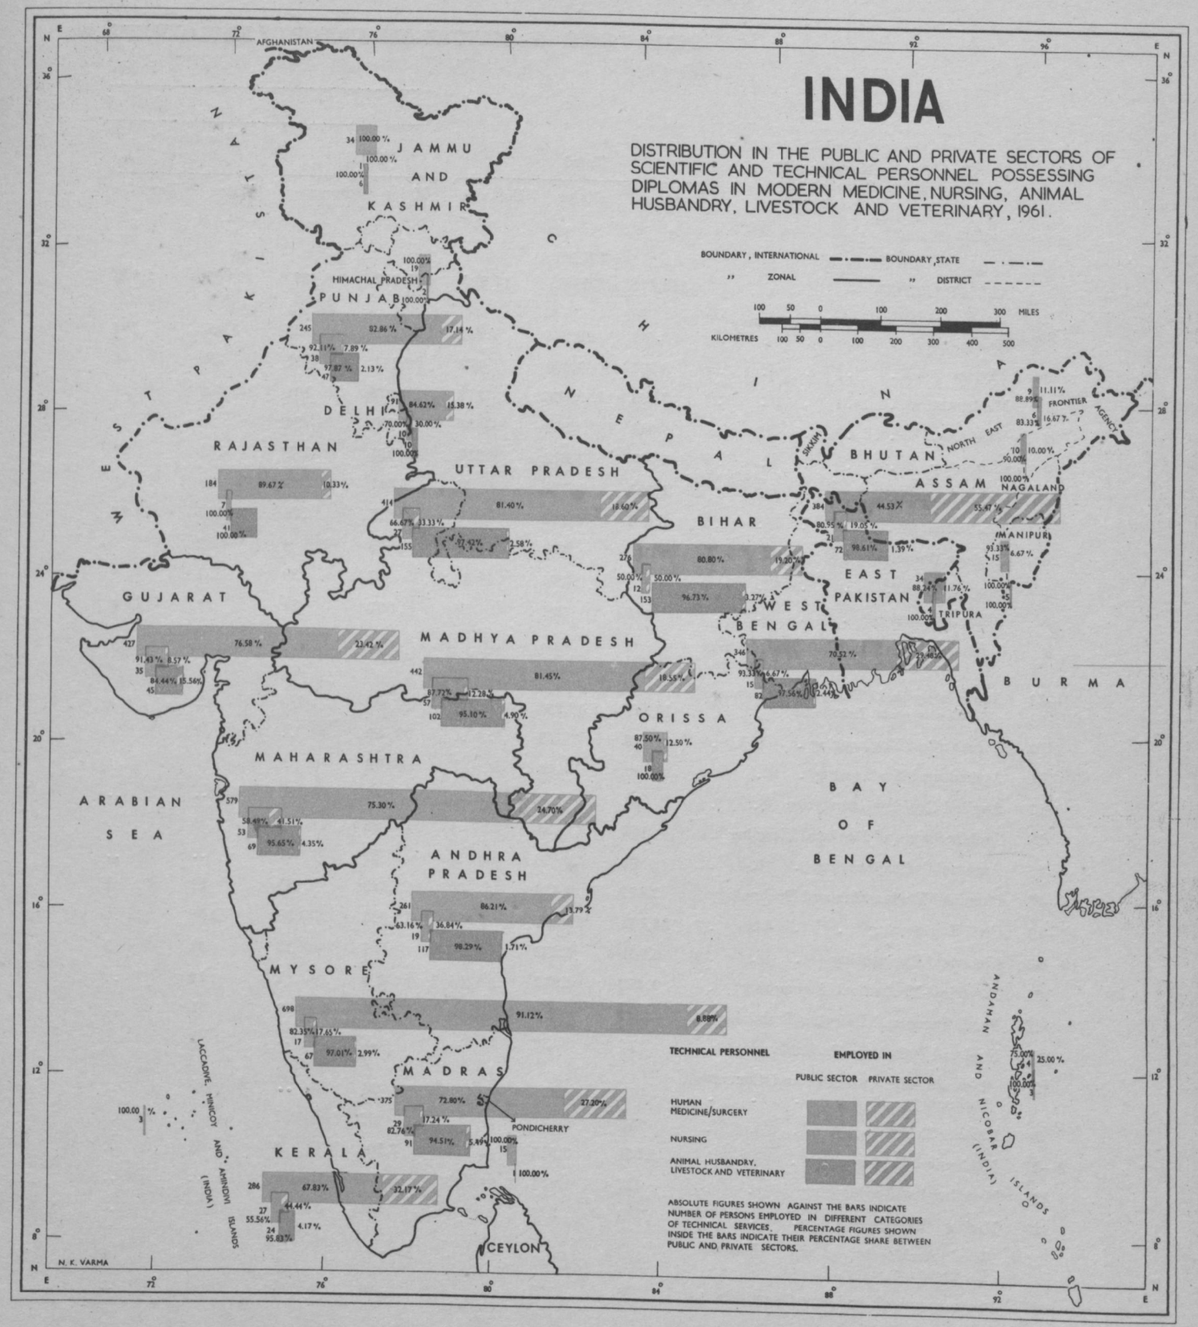

ABSOLUTE FIGURES SHOWN AGAINST THE BARS INDICATE NUMBER OF PERSONS EMPLOYED IN DIFFERENT CATEGORIES OF TECHNICAL SERVICES

PERCENTAGE FIGURES SHOWN INSIDE THE BARS INDICATE THEIR PERCENTAGE SHARE BETWEEN PUBLIC AND PRIVATE SECTORS.

SCALE IS EXAGGERATED IN CASE OF UNION TERRITORIES EXCEPT DELHI

M. BASU

C-IV SINGLE YEAR AGE RETURNS

Fly-leaf

This Table corresponds to Table C-V of 1951 with the difference that while the 1951 Table was based on a ten per cent sample of population, this table gives the single year age distribution for the entire population.

The question on age at the 1961 Census was:

Q. 2 Age last birthday

The instruction to enumerators on the mode of eliciting an answer and recording it was as follows:

> "Write age in years completed last birthday. For infants below one year of age, write '0'. You will find many persons who cannot state their age correctly. You should assist them to state the correct age. If you are not able to elicit correct age directly, you should stimulate their memory by referring to historical incidents or religious events etc. You may use any local calendar of such events that may have been prepared for the purpose".

In all States and Union Territories such calendars were prepared and supplied to the enumerators for their use.

This Table gives the figures by Total/Rural/Urban separately for each sex for each single year of age from 0—100 years. Figures of ages above 100 years have been clubbed together and shown under 'Above 100'. 'Age not stated' at the end show the cases where age was not recorded at the time of enumeration.

Statistics presented in the table relate to unsmoothed age data *i.e.* age as obtained for each person enumerated in the Individual Slip. Smoothed age data are given in Census of India Paper No. 2 of 1963.

Data in this table for the Union Territories of Goa, Daman and Diu and Dadra and Nagar Haveli, relate to Censuses taken on 15-12-60 and 1-3-62 respectively. This table excludes population 297,853 (147,100 Males and 150,753 Females) of that part of North-East Frontier Agency where All-India Census schedules were not canvassed.

The following statement throws light on the extent to which ages ending in certain digits are apt to be returned more frequently in the Indian Census and the shifts in the proportions in which they have been returned in 1951 and 1961.

STATEMENT 1

Proportion of ages ending in certain digits and of certain ages (a) to total population or (b) to certain specified age groups (All India) 1951 and 1961

	Persons		Males		Females	
	1951	1961	1951	1961	1951	1961
1 Proportion of sum of all ages ending in digit 0 to total population	22·0	23·1	21·3	22·5	22·8	23·9
2 Proportion of sum of all ages ending in digit 5 to total population	16·7	17·8	16·9	18·0	16·5	17·7
3 Proportion of sum of all ages ending in digit 0 and 5 to total population	38·7	40·9	38·2	40·5	39·3	41·6
4 Proportion of sum of all ages ending in digit 2 to total population	11·1	11·1	11·3	11·3	10·9	10·8
5 Proportion of sum of all ages ending in digit 4 to total population	8·1	7·3	8·2	7·4	8·1	7·3
6 Proportion of sum of all ages ending in digit 8 to total population	9·1	9·1	9·1	9·0	9·1	9·2
7 Proportion of age 5 to age group 0—9	11·2	11·7	11·3	11·9	11·0	11·4
8 Proportion of age 12 to age group 10—19	14·8	15·0	15·4	15·7	14·1	14·2
9 Proportion of age 18 to age group 10—19	11·2	12·0	10·8	11·5	11·6	12·7

STATEMENT 1—*concld.*

	Persons		Males		Females	
	1951	1961	1951	1961	1951	1961
10 Proportion of age 21 to age group 20—24 . . .	12·1	12·2	12·6	13·1	11·5	11·3
11 Proportion of age 30 to total population . . .	3·8	4·1	3·6	4·0	4·0	4·3
12 Proportion of age 40 to total population . . .	3·3	3·5	3·3	3·5	3·3	3·5
13 Proportion of age 50 to total population . . .	2·5	2·8	2·5	2·8	2·6	2·8
14 Proportion of age 60 to total population . . .	1·7	2·0	1·6	1·9	1·9	2·1
15 Proportion of sum of all ages ending in digit 6 to total population	8·0	7·9	8·1	8·1	7·9	7·7

Note: (*i*) Ages above 99 and 'Age not stated' have not been considered.
(*ii*) Excludes North-East Frontier Agency.

The following statements compares the total population for All-India in quinquennial age group (*a*) as obtained from the Census Count and (*b*) as smoothed by the Census Actuary for 1961.

STATEMENT 2

Population of India in quinquennial age groups (a) as obtained from the Census Count and (b) as smoothed by the Census Actuary for 1961

Age Group	Census Count			Smoothed		
	Persons	Males	Females	Persons	Males	Females

Note: Excludes North EastFrontier Agency.

The following statement shows the percentages to total population of quinquennial age groups and certain broader age group of ages (*a*) as obtained in the Census Count and (*b*) as smoothed by the Census Actuary in 1961.

STATEMENT 3

Proportion of each quinquennial and selected age group to total population; crude and smoothed 1961.

Age Group	India					
	Persons		Males		Females	
	Crude	Smoothed	Crude	Smoothed	Crude	Smoothed

TABLE C-VII—RELIGION

Fly-leaf

This table is analogous to Table D-II-Religion of 1951. It gives statistics of religion in greater detail than is available in Census of India, Paper No. 1 of 1963 on Religion. The notes on page XLVII of the Census Paper on Religion have been omitted here.

The question on religion at the 1961 Census was : Q. 5(*b*) Religion

The instruction to enumerators on the mode of filling the question was :

For	Hindu	..	write 'H'
	Muslim	..	write 'M'
	Christian	..	write 'C'
	Jain	..	write 'J'
	Buddhist	..	write 'B'
	Sikh	..	write 'S'

For others write the answers actually returned.

The table gives data for 'persons', 'males' and 'females' separately for each of the six numerically important religions of India *viz.*, Buddhism, Christianity, Hinduism, Islam, Jainism and Sikhism by 'Total', 'Rural' and 'Urban'.

Figures of other religions which are numerically less important have been grouped together in column 'Other Religions and Persuasions'. Details of Other 'Religions and Persuasions' the strength each of which in India is 100 and above appear in the Supplement accompanying the Table. In the case of those the strength each of which is less than 100 the total population for each State and Union Territory (T/R/U) is given in the Appendix to the Supplement.

There is one more column under the heading 'Religion not Stated' in which are given figures of those who did not return their religion or returned names of nationalities such as 'Iranian', 'Israelite,' etc. for religion.

Statistics are given for India, its five Zones and each State, Union Territory and Other Areas. Figures at district level will be found in volume Part II-C of the respective State.

Data in this table for the Union Territories of Goa, Daman and Diu and Dadra and Nagar Haveli relate to censuses taken as on 15th December 1960 and 1st March 1962 respectively.

M/B(D)3RGIndia—35(a)

The following statement shows the growth of the six religions and other

* Includes 38,705 Persons of North-East Frontier Agency in cols. 4, 7, 10, 13, 16, 19 and 22 where All India Census Schedule was canvassed.

'N' Denotes negligible.

Tabulation of 'Religion' of the population of the area of North-East Frontier Agency where All India Census Schedule was canvassed was completed after the publication of Census Paper No. 1 of 1963 Religion. A few minor misclassification involving very small population were detected in several States. The following statement sets right the defects in this regard. Table C-VII is final. The 'Remarks' column of the statement shows the reasons for the changes made.

STATEMENT

Population of different Religions according to paper No. 1 of 1963—Religion and according to Table C-VII Religion

C-VIII SCHEDULED CASTES AND SCHEDULED TRIBES

Part A—Classification by literacy and industrial category of workers and non-workers among Scheduled Castes

Part B—Classification by literacy and industrial category of workers and non-workers among Scheduled Tribes

Fly-leaf

It is for the first time that a detailed tabulation of census data relating to the social and economic conditions of the members of individual Scheduled Castes and Scheduled Tribes has been attempted. A number of special tables have been prepared which will be published in Part V-A.

This table corresponds to Table D-III of 1951 In 1951 the total of all members of Scheduled Castes/Scheduled Tribes population was classified by ten livelihood classes adopted for the Census. This Table classifies the workers among members of the Scheduled Castes/Scheduled Tribes by the nine industrial categories of workers and also gives the figures for non-workers. In addition, this table also gives the figures for literate population among members of the Scheduled Castes/Scheduled Tribes. Part A of the Table deals with Scheduled Castes and Part B with Scheduled Tribes.

The question adopted in 1961 Census elicit information about members of Scheduled Castes and Scheduled Tribes was :

Q. 5(c). S.C./S.T.

Instructions to enumerators to record answers to this question were as follows :

The answer to this question will be recorded only if a person belongs to a Scheduled Caste or Scheduled Tribe. If the person belongs to a Scheduled Caste or Scheduled Tribe obtaining in your State or in your district, write the name of the caste or tribe to which he belongs. For all others, write 'X' in this column. A list of Scheduled Castes and Scheduled Tribes obtaining in your State or in your district is given elsewhere in these instructions.

If the person belonging to a Scheduled Caste or Scheduled Tribe returns his caste or tribe by a synonym or a generic name of a caste or tribe as given in your list, write the name as returned and the name of the relevant caste or tribe, as per printed list, within brackets.

Do not write the names of Scheduled Castes in general terms as 'Harijan', 'Achhut'. You should ascertain the name of the caste when it is returned and write it. If a person is negligent and insists on calling himself merely 'Harijan' tell him that this description will not earn the person any benefits under the Constitution permissible to Scheduled Castes and Scheduled Tribes. This may persuade him to give out the correct name.

Scheduled Castes can belong only to the Hindu or Sikh religions. If a person belongs to a Scheduled Caste, there will be either 'H' or 'S' in the answer to question 5(*b*). Scheduled Tribes may belong to any religion.

Every enumerator was accordingly supplied with a list of Scheduled Castes and Scheduled Tribes obtaining in his district.

Data relating to this Table have been obtained by a cross tabulation of the above question with the following questions which relate to the economic and social data. In both parts statistics are given for Total/Rural/Urban and separately for each sex.

Q. 6—Literacy and Education
Q. 8—Working as Cultivator
Q. 9—Working as Agricultural Labourer
Q. 10—Working at Household Industry
Q. 11—Doing work other than 8, 9 or 10
Q. 13—Sex

The nine industrial categories of workers adopted for the 1961 Census are :

I—Working as Cultivator
II—Working as Agricultural Labourer
III—Working in Mining, Quarrying, Livestock Forestry, Fishing, etc.
IV—Working in Household Industry
V—Working in Manufacturing other than Household Industry
VI—Working in Construction
VII—Working in Trade and Commerce
VIII—Working in Transport, Storage and Communications
IX—Working in Other Services

Part B gives the same information for Scheduled Tribes.

Scheduled Tribes population of 292,972 (144,586 Males and 148,386 Females) of that portion of North-East Frontier Agency where All India Census Schedules were not canvassed are excluded from this table. Similarly, the Table excludes the Union Territory of Goa, Daman and Diu as there was no order scheduling the Castes and Tribes at the time when census was taken in 1960 in that Territory.

No castes were scheduled by the President for Andaman and Nicobar Islands, Laccadive, Minicoy and Amindivi Islands, North-East Frontier Agency, and Sikkim.

In the absence of any Presidential Order specifying the Scheduled Castes in Pondicherry, the Castes specified in the President's Order for any of the States of Andhra Pradesh, Kerala and Madras, adjoining or encircling one of the four constituents of Pondicherry were adopted.

No tribes were scheduled in the President's Order for Jammu and Kashmir, Uttar Pradesh, Delhi, Pondicherry and Sikkim. Tribes other than a Naga tribe specified in the President's Order for Assam were adopted for 'Nagaland' in the absence of any Presidential Order specifying the tribes for Nagaland at the time of 1961 Census.

The following statement gives the percentage distribution of 'Illiterates and Literates' for each sex by 'Total', 'Rural' and 'Urban' among members of Scheduled Castes and Scheduled Tribes.
