3 Both in Household Cultivation and Household Industry				

Instructions to Enumerators for filling in Individual Slips

3 The instructions issued to the Enumerators for filling in the answers to each of the above questions are reproduced below *ad seriatum* :-

(1) Question 2-Age in completed years, last birthday-Write age in years completed last birthday. For infants below one year of age, write 'O'. You will find many persons who cannot state their age correctly. You should assist them to state the correct age. If you are not able to elicit correct age directly, you should stimulate their memory by referring to historical incidents or religious events etc. You may use any local calendar of such events that may have been prepared for the purpose.

(2) Question 6-Literacy and Education-

I Illiterate or Literate

For a person

- 1 Who can neither read nor write or can merely read but cannot write in any language write O
- 2 Who can both read and write write L

The test for reading is ability to read any simple letter either in print or in manuscript i.e., if the person can read one of the examples in the Enumerator's Handbook with felicity he may be taken to have passed the test for reading. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can with understanding both read and write.

II Standard of Education

If the person can both read and write and has also passed a written examination or examinations as proof of an educational standard attained, write the highest examination passed instead of L.

(3) Questions 8 to 11-Working-These questions apply only to workers. A person who is working may be working as a Cultivator, as an Agricultural Labourer, at a Household Industry or may be doing any other work. You have to record the answer in questions 8, 9, 10 or 11 according as the person is working as a Cultivator or as an Agricultural Labourer or at Household Industry or doing any other work. He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a Cultivator and an Agricultural Labourer, in which case he should be entered both in Q. 8 and Q.9. Or, he may be working both as Cultivator and at Household Industry in which case he will be entered in Q.8 and Q.10. Or, he may be working in any possible combination of 8,9,10 and 11, in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four Questions 8 to 11.

In the case of the person whose work has been entered against more than one question it will be ascertained which of his works is principal one and which is secondary. The principal work will be indicated by encircling the question number pertaining to it and secondary by placing a tick mark against the question numbers of the secondary work. Principal work for this purpose will be on which the person devotes more time than on any other and the secondary work will be the work on which time spent is less than that on the principal work but more than that on other works, if any.

Detailed instructions as to how the answers should be recorded in the individual questions are given against those questions below. You should carefully study them before recording the answers. For an undertrial prisoner enumerated in a jail he should be recorded for the work or kinds of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of work he was doing before he was admitted into hospital or institution. But for a convict in a prison or for long term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded but 'I' should be recorded in Q.12 below.

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as *worker*. A person who has been offered work but has not actually joined should be treated as *non-worker*. Work includes not only actual work but effective supervision and direction of work.

Persons under training as apprentices with or without stipend or wages will be regarded as working.

An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purposes of this question. If, however, in addition to her household work she engages herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass etc., or any such work she should be treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in Q. 11.

In the list given below classification has been made as to which of the crops will come under question 8 and which will come under question 10 or 11 :—

Question 8—Cultivation which includes ploughing, sowing and harvesting of the following crops—

- (1) Production of cereal crops (including bengal gram) such as rice, wheat, jowar, bajra, maize, roots and tubers like potato, yam, beet etc., sugar-cane etc.
- (2) Production of pulses such as arhar, moong, masur, urd, khesari, other grams, etc.
- (3) Production of raw jute and kindred fibre crops
- (4) Production of raw cotton and kindred fibre crops

Question 10 or 11—Other field produce and plantation crops —

(a) Other field produce —

- (1) Production of other crops (not included in Q. 8) including vegetables,
- (2) Production of fruits and nuts in plantations and orchards like cocoanut, arecanut, etc.,
- (3) Production of wood, bamboo, cane, reeds, thatching grass etc.,
- (4) Production of juice by tapping palms,
- (5) Production of other agricultural produce including flowers and fruits not covered above.

(b) Plantation Crops—

- (1) Tea and coffee plantations,
- (2) Rubber plantations,
- (3) Tobacco plantations (this will not cover the production of tobacco alongwith the cereal crops according to crop rotation ; in that case it will go in cultivation),
- (4) Production of Ganja, Bhang, Opium, Cinchona, Poppy, Saffron etc.,
- (5) Other plantation crops not included above.

(4) Question 8—Working as Cultivator—For a period working as cultivator write C. For a person not working as cultivator and for a person not working at all put X.

For purposes of the Census a person is a cultivator if he or she is engaged in (a) cultivation of land single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

Cultivation includes ploughing, sowing and harvesting but does not include production of fruits and nuts in plantations and orchards like cocoanut, arecanut etc. and these may be recorded under questions 10 or 11 as the case may be.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as Cultivator. Similarly, a person working in another person's land for wages in cash, kind or share such as share of the produce (agricultural labourer) will not be treated as Cultivator in this question.

(5) Question 9—Working as Agricultural Labourer.—Write AL for a person working as Agricultural Labourer i.e., a person who works in another person's land for wages in money, kind or share such as share of produce. For others put X. The labourer should have no right or lease or contract on land on which he works. He should have been working as Agricultural Labourer in the last or current cultivating season.

(6) Questions 10 (a) and 10 (b)—Household Industry.—If a person is working in a Household Industry write (1) the nature of work done by him in the Household Industry against Question 10 (a) and (2) the nature of the Household Industry against Question 10 (b). Otherwise put X in both questions 10 (a) and 10 (b). A Household Industry is defined as an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. You should carefully keep in mind the definition of Household Industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

A person though he may not be working in his own Household Industry may be working as a paid employee in another Household Industry. You should, therefore, enquire whether the person who is not working in his own Household Industry is working in any other Household Industry and if so, write the nature of the work done by him against question 10 (a) and the nature of the Household Industry against 10 (b).

(7) Question 10 (c)—If Employee in Household Industry.—This question will be filled up only for a person who is working as a paid employee in another person's Household Industry. In his or her case write E. E. For all others put X.

The following examples will illustrate how questions 10(a) to 10(c) should be filled up for persons working at Household Industry :

Question 10—Working at Household Industry

(a) Nature of Work	(b) Nature of Household Industry	(c) If Employee
1 Spinning yarn	Spinning yarn in Ambar Charkha	X
2 Dyeing and pining yarn	Handloom weaving	X

13 Labourer employed for putting iron hoop on cartwheels	Cartwheel-wright	E.E.
14 Repairing of guns	Gunsmithy	X

15 Bee Keeping	Production of honey	X
16 Bidi making	Bidi Industry	X
17 Bidi making on contract	Bidi Industry	X
18 Labourer employed for packing and labeling bidis	Bidi Industry	E.E.
19 Making and repairing wooden agricultural implements	Carpentry	X
20 Making bread	Bakery	X
21 Making of tad gur	Tad gur Industry	X
22 Making of shoes and chappals	Shoe-making	X
23 Stitching cloths on sewing machine	Tailoring	E.E.
24 Making of soap, ink and polish	Chemical Industries	X

(8) Question 11—Doing work other than 8, 9, or 10.—If a worker is not working as a cultivator or as an agricultural labourer or at any Household Industry write the actual work he is doing. If a person is working as a cultivator or as an agricultural labourer or at Household Industry and also does some other work (including dairying or livestock raising, orchard or plantation etc., as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above write here the work on which he devotes more time.

(9) Question 11 (a)—Nature of work.—In the case of persons not working or who work only as cultivator or as agricultural labourer or at Household Industry, put X.

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in vernacular transliteration of English. At previous Censuses much trouble has been caused by inadequate answers, and if you do not succeed in obtaining satisfactory information on the individual slips, you will be required to make a further visit for that purpose.

(10) Question 11 (b)—Industry, Business, Trade, Profession or Service.—In the case of a person who is working and the nature of whose own work has been recorded in Question 11 (a), you should write here the nature of industry, business, trade, profession or service in which the person works.

As in the case of Question 11 (a), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired, should be given. If more than one article is produced the chief article produced or serviced or repaired should be given. In the case of business or trade the principal article of trade should be described. In the case of service describe the nature of the service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population. The description should be either in vernacular or in English or in vernacular transliteration of English.

In the case of a person for whom an X is put in Question 11 (a), put an X in this question also.

Important points to remember in Questions 11(a) and 11(b)

1 Women or children who help with work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass, etc. should be described fully, even if they work part-time. In the case of married or grown-up women who do any of the work mentioned above in addition to the usual household duties such work should be fully described and HW written in brackets after the full description.

2 If a person makes the articles he sells, he should be entered as maker and seller of them.

3 Wherever convenient, for complete description, the work should be expressed by the vernacular name by which it is known.

4 'The following are too vague and must not be used by themselves :

Scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher.

5 **Labourers**—For an unskilled labourer usually employed on one sort of work alone, give also the sort of work done, e.g., railway porter, market or bazar porter, labourer employed on road digging, bricklayer's labourer. If accustomed to work on various jobs, write general labourer.

6 **Machine Operators**—Always state the kind of machine giving its recognised name, if any.

7 **Shop-keepers, retail dealers, shop assistants**—If wholly or mainly engaged in selling, write, 'Dealer' (if principal) or Shop assistant or Salesman (if assisting) and state whether the business is wholesale

or retail or both. For shop assistants and salesmen in stores with several departments, state the particular department in which engaged (e.g., Ship and Railway ports, Fans and Sewing machines, Grocers and Confectioners).

8 **Transport workers**—Describe fully the nature of the transport, e.g., air transport, rail transport, transport by motor car or motorcycle, or vehicles drawn by horse, etc.

9 **Services**—For a person engaged in Defence Services write 'Service of Central Government'.

10 If the job is known in the trade or industry by a special name, use that name. Managers, Foreman, etc., should be given the department/branch wherever applicable e.g., Sales Manager or a Manager of Hardware Department, Machine Shop Foreman or Boiler Room Foreman, etc. The following terms are insufficient by themselves :—

Manufacturer, merchant, agent, broker, refractor, dealer, engineer and iron works, etc.

11 **Domestic services**—In the case of any private servant e.g., a cook or domestic servant, write only 'private cook or domestic servant'. There is no industry in his case but in the case of persons employed in hostels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., should be added.

For persons in the employ of firms carrying on two or more businesses, if the businesses are carried on in separate premises then the business carried on at the premises in which the person is employed should be given. If the businesses are carried on in the same premises but each has a separate organisation (i.e., they have separate records of employment, production, etc.) then the appropriate business should be quoted. If, however, the two activities are carried on side by side then the major activity of the firm or establishment should be given.

12 **Commerce**—Special care should be taken to see that the distinction between retail and wholesale business is clear. As in industries, the goods handled should be clearly indicated.

(11) **Question 11 (c) Class of Worker**—For a person who is :

1 an **Employer**, that is, who hires one or more persons in his work described in Q. 11 (a) . write MR

2 an **Employee**, that is, who does his work described in Q. 11 (a) under others for wages or salary in cash or kind . write EE

3 a **Single Worker**, that is, who is doing his work described in Q. 11 (a) without employing others, except casually and without the help of other members of the family except casually. This will include workers working as members of co-operatives . write SW

4 a **Family Worker**, that is, who is doing his work described in Q. 11 (a) in his own family without wages or salary in cash or kind . write FW

For a person for whom an X is put in Qs. (11) (a) and 11 (b) put an X in this question also.

Explanation :—

(i) An **Employer** is a person who has to employ other persons in order to perform the work entered in Q. 11 (a). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11 (a). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ other persons in his office on behalf of his own employer or employers.

(ii) An **Employee** is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, superintendents, agents, etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above, and should not be regarded as employers.

(iii) A **Single Worker** for the purpose of Q. 11(c) is a person who works by himself. He is not employed by any one else and in his turn does not employ anybody else not even members of his household except casually. This definition of a **Single Worker** will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producer's co-operative. Each one of the partners or members of such producer's co-operative should be recorded as 'Single Worker'.

(iv) A **Family Worker** is a member who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season. For the purpose of the entire Q. 11 such an industry should be on a scale larger than what has been covered in 'Household Industry', in Q. 10 whether run at home or away from home in town or village and even away from village in rural area and should ordinarily be in the nature

of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or head of the household or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

(12) **Question 11 (d)—Name of Establishment**—Describe in detail the name of the factory, workshop, business house, company, shop, etc. If a person has no fixed place of work, write 'No fixed place of work'.

For a person for whom an X is put in Qs. 11(a), 11(b) and 11(c) put an X in this question also.

The following examples will illustrate how Qs. 11(a) to 11(d) should be filled up for persons doing work other than 8, 9 or 10.

Q. 11—Doing work other than 8, 9 or 10

(13) Question 12—Activity, if Not Working—
This question will apply to a person NOT working.

Write X in this question for a person who is working, that is, for whom you have recorded the work in any of the questions 8 to 11 above ;

The following activities should be recorded in the case of persons NOT working :

- For full-time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation, industry, trade or business ... write ST.
- For a person engaged in unpaid home duties (like housewife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business ... write HW.
- For any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age ... write D.
- For a retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work ... write R.
- For a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence ... write B.
- For a convict in Jail (an undertrial prisoner will be shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution ... write I.
- For a person who has not been employed before but is seeking employment for the first time ... write NE.
- For a person employed before but now out of employment and seeking employment ... write UN.

Explanation—If a person, who does not work, cannot be readily classified in any of the above categories, put him in category 5 and write B in this question. A retired person who has taken up regular work again should not be entered in this question as he would have been entered for his new work in Questions 8 to 11.

A person who is not working but has been offered work which he has not joined should be included in item 3 and 'D' should be written. He should not be included in items 7 or 8.

(14) Question 13—Sex—Write 'M' for males and 'F' for females.

For eunuchs and hermaphrodites, write 'M'.

Instructions to Enumerators for filling in Household Schedules

4 As has been indicated earlier the Household Economic Tables B-X to B-XVII included in Part III of the Census Volume are solely based on the information collected on the Household Schedules. The details of

12 C. P.—2

the questions in the Household Schedules are given in item 2 of para 2 above. The questions related to the land under cultivation by the household and its tenure status ; the household industry and the number of workers at cultivation and/or household industry. Like the instructions for filling in the individual slips reproduced in sub-para (1) to (14) of para 3 above detailed instructions were issued to the Enumerators for recording answers to the questions in the Household Schedule. These instructions were as follows :—

(i) Sub-part 'A'—Cultivation—

(i) Sub-Part 'A' relating to cultivation will have to be filled in only where the household possesses land and that land is either cultivated by household or has been given to private persons for cultivation. Land for this purpose means land normally used for cultivation purposes including current fallows. Details of the crops which are included in the definition of cultivation and which are not so included has been given in the instructions relating to question 8 to 11 of the individual slip and are applicable in respect of the entry in the Household Schedule.

(ii) **Land under cultivation by household**—In Sub-Part A three categories of land are given in items 1(i), 1(ii) and 2. Items 1(i) and 1(ii) relate to the land actually cultivated by the household. Item 2 relates to land which is not cultivated by the household but has been given by it to private persons for cultivation for payment in money, kind or share. In each of the three cases the total of separate plots or parcels of land in different places owned or held, or taken or given should be made and entered. A number of lines has been provided for this purpose in 1(i) and 1(ii) to account for separate plots or parcels of land held or owned or taken under different recognised local rights. If the household (a) cultivates land owned or held from Government or taken from private persons or institutions or (b) has given land to private persons for cultivation purposes you should ascertain the local name of the right on such land and record in the column relating to 'local name of right on land'. Category 1(i) land owned or held from Government, will include the total of all pieces of land owned or held in owner-like possession, e.g., land held directly from Government under a grant, lease or assignment, (i) with rights of permanent, heritable and transferable possession, (ii) with rights of permanent and heritable possession, but without the right of transfer and (iii) temporary or conditional leases of any kind with the Government. Category 1(ii) land taken from private persons or institutions for payment in money, kind or share, will include land (i) with rights of permanent, heritable and transferable possession, (ii) with rights of permanent and heritable possession but without right of transfer; (iii) held in a variety of tenancies or tenures which may be broadly classified as follows :—

- (a) tenants holding land with permanent and heritable rights whose land cannot be resumed by the owner on grounds of personal cultivation (such tenants may in some cases have the right of transfer also) ;

- (b) tenants who have been given permanent rights subject to the right of resumption by the owner (in some cases the tenant has the right to acquire ownership of the non-resumable area. In other cases he does not possess the right);
- (c) tenants holding land in areas where interim measures have been enacted for stay of ejectment or for continuing the leases for a specified period;
- (d) tenants holding land on temporary leases who are liable to ejectment;
- (e) areas held on condition of rendering service either to a village community or to Government (this also includes cases where labourers on plantations are given some land for cultivation with permanent rights); and
- (f) the following—
- (1) land taken for a fixed amount of money,
 - (2) land taken for a fixed amount of produce,
 - (3) land taken for a share of the produce,
 - (4) land for which money is paid partly in one and partly in any other form mentioned above, and
 - (5) land held free of consideration.

(iii) *Land given to others for cultivation*—Category 2—Land given to private persons for cultivation for payment in money, kind or share will include the classifications mentioned in Category 1(ii). There may be cases in which the household holds land but no part of the land is cultivated by the household itself but has given all such land to others for cultivation. In this case X will be put against items 1(i) and 1(ii) and the details of the land will be entered against item 2.

(iv) *Land situated in other places*—Categories 1(i) and 1(ii) will include only those plots or parcels of land which are cultivated by the household itself, that is, lands which lie within the village, or in adjacent villages, or within such a distance as enables the household to work on the land or actively supervise the cultivation. They will not include land owned or held in distant places where distance itself is a bar to active cultivation, constant supervision or direction. If a person says that the land lying at distant places be included in the land cultivated by the household then he should be told that such land can only be so included if supervision and direction of cultivation on such land is exercised by him. If he says that he himself supervises and directs the cultivation of such land and insists its inclusion in the land cultivated by the household, then such land be included. But Category 2 will include land in any part of the country whatsoever.

(v) *Recording of land area in acres only*—You should ascertain the extent of land in each category of local right in acres and record in the column relating

to 'Area in acres'. You should write the total of separate plots or parcels of land under the same right if they are situated in different places. If it is not possible to ascertain the extent of land in acres you should, if possible make a conversion from the local measure given to you. For this purpose you should ascertain before hand the ratio between the local measure current in your Block and the acre and should convert the local measure into acres according to that formula. Supposing that the area is reported to you in Bighas and the local bigha in that place is of 2,500 Sq. yards then you will convert the area given to you in acres by multiplying it by 2,500 and dividing by 4,840. If for any reason it is not possible to convert the local measure into acres write the area in local measure giving invariably the name of the measure adopted. The area will be recorded not only in whole acres but where necessary it will be given in decimals also. If the area is under 1 acre, it will be given in decimals and in other cases upto two decimal points. If the land in Category 1(i), and 1(ii) is of different recognized local rights then besides giving area of each right separately total of land of all rights will be given against item 1(iii). Similar total will also be given for the land in Category 2 if it happens to be of different local rights.

(vi) *Households not having land*—This sub-part will not apply to households which do not possess any land. Thus, it will not apply to households which consist of only agricultural labourers without any land. In such cases put an X in all the spaces provided in the right hand side and put a bold cross on this sub-part.

(vii) *Rent free land and land of co-operative farms*—Land under any of the items in sub-part 'A' includes rent-free land, lands enjoyed in permissive possession or gifts without encumbrance or consideration. A household which is a member of a co-operative farm will record only that amount of land in the co-operative farm which had belonged to it before and under right enter 'co-operative farm'. Labour hired by such a 'co-operative farm' should not be entered for this household.

(2) Sub-Part 'B'—Household Industry

(i) *Definition of Household Industry*—Sub-part 'B' relates to Household Industry. This part will be filled up only where there is a Household Industry conducted by the head of the household himself and/or mainly by members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be on the scale of a registered factory. The participation of the head of the household and/or members of the household is an essential feature of the Household Industry. In a rural area the household industry can be located either at home or within the village. But in an urban area the household industry or at least the major part of its work must be located only at home. A household industry should relate to production, processing, servicing or repairing and includes makers and sellers of goods.

The test for a household industry is mainly three fold :

- (a) Household Industry should embrace manufacture, processing or servicing and may include sale but should not be confined simply to buying and selling. At least part of the goods offered for sale from the household should be manufactured or processed by members of the household.
- (b) Household Industry should be on the household scale where the workers mainly will be the Head of the household himself and members of the household, the role of the hired workers from outside being of secondary importance. Thus, in any household industry members of the household should be in a position to lend a hand in the industry wherever they find the time in the course of their daily chores. Household Industry cannot, therefore, be on the scale of a registered factory but can use machinery and employ power like steam engine or oil engine or electricity to drive the machinery.
- (c) Location also is important, for proximity decides participation by members of the household. In a village this participation is possible if the household industry is located at home or within the village, because village organisation is such as makes it possible for members of the household to move about freely in the village to look after their work. In urban areas such a free movement is not possible and, therefore, for household industry in urban areas we should consider only those industries which are located at home. Where, however, part of the work is done outside the house, e.g., preparing and dyeing the yarn for weaving or winding into warp and wool or cleaning metal surfaces before electroplating in baths, it should still be considered a household industry, even in urban areas, as the main operation of weaving or of electroplating is conducted within the house and only one or two operations are conducted outside.

The following activities should also be regarded as illustrative of household industry. Bidi-makers who either alone or with help of members of the family roll bidis at home, for wages at piece rates, while the contractor supplies the materials. Certain processes like buttoning and hand sewing of tailored cloths, dyeing and printing of cloth are carried out at home by members of household both at residence and at 'place of work' or where women folk of the household fill in at home with lac gold ornaments prepared at the shop by male members of the household.

(ii) *Recording complete description of Household Industry*—Care should be taken to write full description of the household industry and all such details may be given which clearly indicate the name of article or articles made, what process is carried out and which articles are serviced or repaired.

Ascertain from the head of the household whether there are any household industries and write the nature of the industry(s) in the column provided, if there are any. Then ascertain for how many months in a year roughly they are conducted and put down the number of months in the appropriate column. If the industry is conducted throughout the year write '12'. If there is no household industry of any sort put an X in each of the places in the right hand corner where the answers will be written and put a bold cross on this sub-part.

(iii) If a household possesses and/or cultivates land and is also engaged in any household industry then both sub-part A and sub-part B will be filled in.

(3) Sub-part C—Workers in Cultivation or Household Industry

(i) In the case of households which are engaged only in cultivation, if the Head of the household is working write 1 under the column 'Head', and ascertain how many other male and female members of the family are working. Write the numbers in the respective columns. Write the total number of family workers including the Head, if he is working, in the column relating to 'Total'. Then ascertain whether any hired workers are employed and, if so, write the number of such workers in the column allotted for it. The hired workers should have been in wholtime employment during last working season or should be in wholtime employment during current working season.

(ii) Similarly in the case of households engaged in Household Industry only, if the Head of the household is working write 1 in the column relating to the 'Head' and also ascertain how many male and female members of the family are working and write the numbers in the respective columns. Write the total number of family workers including the Head, if he is working, in the column relating to 'Total' and then ascertain the number of hired workers, if any, and then write the number of hired workers in the appropriate column.

(iii) If a household is engaged both in cultivation and Household Industry ascertain whether the Head is working and write 1 under the column relating to the Head and also ascertain how many male and female members of the family are working both at cultivation and the Household Industry and write the numbers in the respective columns. Write the total number of family workers in the column relating to 'Total'. Ascertain the number of hired workers engaged by the family both for Cultivation and Household Industry and write

the number in the appropriate column. In a household engaged both in household cultivation and household industry, you need not ascertain how many are engaged in household cultivation and household industry separately.

(iv) Even if any of the members of the family working or hired labourers are absent during the period of the Census count they should be counted for the purposes of the Household Schedule.

(v) In the case of households engaged in cultivation only, put X in the columns relating to 'Household Industry only' and 'Both in Household cultivation and Household Industry'. Similarly, in the case of households engaged in Household Industry put X in the columns relating to, Household Cultivation only, and 'Both in Household Cultivation and Household Industry'. If a household is engaged both in household cultivation and Household Industry put X in the columns relating to 'Household Cultivation only' and 'Household Industry only'. If a household is not engaged in either household cultivation or Household Industry or both put X in all the columns and a bold X on this sub-part.

(vi) The test for a worker is whether a person is actually working in cultivation or household industry or supervising or directing work thereon.

Method of drawing sample

5 Household Economic Tables have been prepared on a 20% random sample and not for the whole population. The procedure for the selection of sample Household Schedules was, in brief, as follows :

The tahsil was the unit for rural areas and the district for urban areas. The Household Schedule pads were arranged in an ascending order of Location Code Numbers of villages in a tahsil in the case of rural areas and in the order of Location Code Nos. of towns in a district in urban areas. The first sample household was chosen at random in accordance with the following procedure from the first five households in the first household schedule pad and was stamped with a big 'S' by a rubber stamp. The procedure for selecting the first sample household in rural areas was first to add the digits of the location code number of the unit, that is, the location code number of district and that of the tahsil. If this sum was 5 or less that was taken to be the number of the first sample schedule. If the sum was greater than 5, it was divided by 5 and the remainder was taken as the number of the first sample schedule. Where the sum was exactly divisible by 5, the fifth was taken as the first sample schedule. In urban areas the procedure was that, in the districts where the number of towns was 5 or less, the number of the towns in the district was the number of the first sample schedule ; where the number of towns was more than five the number of towns was divided by 5 and the remainder was the number of the first sample schedule. Thus after determining

and stamping the first sample schedule, every fifth schedule was stamped with the 'S' seal continuously without break till all the pads in the unit were exhausted. In marking the sample household schedules only family schedules were taken into account and institutional households were left out. After marking, all the sample schedules were taken out of the pads for the checking of internal consistencies, coding and tabulation. The coding was done in the respective Census Tabulation Offices of Madhya Pradesh and the checking of codes and tabulation was done at Delhi by the Mechanical Tabulation Unit of the Office of the Registrar General, India, by mechanical process.

Representative Character of Sample

6 The total number of households in the State is 6,615,580 (*vide* Primary Census Abstract appearing on pp 262-263 of Part II A) and the number of Institutional Households is 3,138 (*vide* fly-leaf to Appendix III to Table A-I appearing on page 95 of Part II A). Thus the number of family households comes to 6,612,442. Twenty percent of this number will be 1,322,488, while the number of family households which have come in the sample is 1,321,194 or less by 1,294 households. Thus the sample comes to 99.97 percent of the whole or less by only 0.03 %. Thus the sample can be considered fairly representative of the universe .

Occupational and Industrial Classification of Workers

7 Except for the persons working as Cultivator and working as Agricultural Labourer the 'nature of work' which a worker is doing was written against Questions 10(a) and 11(a) in the individual slip. Besides this, in Questions 10(b) and 11(b) information was also collected about the 'Nature of Household Industry' in the case of persons working at Household Industry and 'Nature of Industry, Profession, Trade, or Service' for persons working in other Industry etc. Thus, there has been a two-fold division of the working population : (1) according to occupation of each individual and (2) according to industry in which he is occupied. In the latter case the word 'Industry' has a wider meaning and covers not only the manufacturing industry but also all sectors of economic activity including livestock, forestry, mining and quarrying, trade, commerce, transport, services, etc.

8 For purposes of Occupational and Industrial Classification of the working population the "National Classification of Occupations" and "Standard Industrial Classification" respectively have been used in the Indian Census for the first time. Both these classifications are based on a three digit code system. In the case of the Occupational Classification, the first digit represents the 'Occupational Division,' the second represents an 'Occupational Group' and the third represents an 'Occupational Family'. While in the case

of Industrial Classification one, two and three digit code numbers represent respectively a 'Division', a 'Major Group' and a 'Minor Group'. However, in one Table B-XIV Part B a four digit code of Industrial Classification has been used.

9 With a view to achieve maximum accuracy in the tabulation of economic tables all enumeration slips having entry against questions 10 and 11 were coded. This coding in the case of urban areas was done before the breaking of enumeration pads for sorting while in the case of rural areas it was done after the completion of village-wise sorting for sex, scheduled castes and scheduled tribes, literacy and primary industrial categories and before making up boxes for further sorting. The coding, its checking and rechecking were done by Coders, Checkers and Supervisors who were specially trained for the purpose. The instructions for the coding were as follows :—

"The coding in the case of Q. 10, Household Industry, will have to be done in all cases where there is an entry in that question. In the case of Question 11 the coding will be done only if it is the principal work, i.e. Q. 8, 9 and 10 are blank or if there is a bold ring round Q. 11. The answers to Q. 10 (a) and 11(a) viz., 'Nature of Work' should be coded with reference to the National Classification of Occupations and Q. 10(b) and 11(b) viz., 'Nature of Industry etc.' with reference to the National Standard Industrial Classification. The three-digit code will be written on the right hand side on the line relating to the respective questions. The Code number should be written legibly and distinctly. If possible, the code numbers should be written with inks of different colours. Each coder will be entrusted with the coding of only one question. The best arrangement would be for one coder to code Q. 10 (a) for a pad and pass it on to the next coder who will code for Q. 10 (b) who will in turn pass it on to the next coder who will code Q. 11(a) and finally the pad will be passed on to the fourth coder who will code for Q. 11 (b). This will ensure accuracy as each coder will after sometime become familiar with the code numbers for the particular classification. The coding will have to be strictly supervised as any mistake that will occur at this stage will be reflected in the tables. Recruitment of coders should be done with great care and after several tests to judge the ability of the person in coding. If possible, those who have already coded for the Housing Tables should be switched on to this work. It is essential that the code numbers should be checked independently. In cases where any doubt arises as is likely in many cases, the orders of the Deputy Superintendent should be taken. It is desirable to organise a discussion among group of experts at the end of each day to solve, by collective consultation, all cases of doubt in coding."

10 The Occupational and Industrial three-digit Codification Schemes referred to in the preceding paragraph are reproduced as Appendix I and Appendix II to this Note.

Coding of Household Schedules

11 As the Household Economic Tables were to be prepared by the process of mechanical tabulation it was necessary to codify the different entries in the household schedule to facilitate the punching of the cards. The following codes were used to indicate the different economic characteristics entered in the schedules :—

Household class	Code number
1 Households engaged only in cultivation	1
2 Households engaged only in Household Industry	2
3 Households engaged both in Cultivation and Household Industry	3
4 Households engaged neither in cultivation nor in Household Industry	4

Interest in Land

12 The four-digit Industrial Classification Scheme used for classifying the Household Industries in Table B-XIV Part B is reproduced as Appendix III to this Note.

Industrial Categories

13 There are a few General Economic Tables in which the workers have been classified according to "Industrial Categories" instead of the National Classification of Occupations or the Standard Industrial Classification. The Industrial Categories are 9 in number. These are—

- I Cultivator (*i.e.*, those falling under Minor Groups 000 to 004 and 005 (partly) detailed below in this para)
- II Agricultural Labourer
- III Workers in Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities
- IV Household Industry
- V Manufacture other than Household Industry
- VI Construction
- VII Trade and Commerce
- VIII Transport, Storage and Communications
- IX Other Services

As far as Categories I, II and IV are concerned there were separate questions in the Census Questionnaire and therefore, they were classified according to the answers returned against Questions 8, 9 and 10 respectively in the individual slip. Other Industrial Categories *viz.*, III and V to IX represent the following Divisions of the Standard Industrial Classification (I.S.I.C.):—

Industrial Category	Division of I.S.I.C.	Description of the Division
III	O	Agriculture, Livestock, Forestry, Fishing, Hunting except the following Minor Groups which have gone in Industrial Category—I— <i>Cultivation</i> :—
	000	Production of cereal crops (including bengal gram) such as rice, wheat, jowar, bajra, maize
	001	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram
	002	Production of raw jute and kindred fibre crops
	003	Production of raw cotton and kindred fibre crops
	004	Production of oilseeds, sugarcane and other cash crops
	005	(Partly) Production of other crops (including vegetables) not covered above
I		Mining and Quarrying
V 2 & 3		Manufacturing (if the industry is not a household industry)
VI 4		Construction
VII 6		Trade and Commerce
VIII 7		Transport, Storage and Communications
IX	5	Electricity, Gas, Water and Sanitary services
	8	Services
	9	Activities not adequately described (excluding minor group 999)

Distribution of General and Household Economic Tables according to the classification used for them

14 In the General as well as Household Economic Tables different economic classifications have been used for presenting the statistics contained in them according to the needs of the users of these statistics. Below the tables have been arranged according to the classification, used for them.

Tables in which characteristics have been presented by 'Industrial Categories' :

Economic tables prepared in previous censuses

15 The number of economic questions as well as the number of economic tables prepared in the previous censuses is very small in comparison with those of the present census and the concepts are also quite different. The concept of work has for the first time been introduced in the Indian census in 1961 and so also the division of the population into 'workers' and 'non-workers'. In the paragraphs which follow are given the economic questions and definitions with regard to them issued in each of the 6 previous decennial censuses beginning from 1901.

(1) In the 1901 Census there were three economic questions, of which two related to the "occupations or means of subsistence of actual workers"

and for the third one "means of subsistence dependents on actual workers" was to be returned. The questions as given in the Enumeration Schedule and instructions with regard to the filling in those columns were as follows:—

The Schedule Columns

Occupation or means of subsistence of actual workers	Means of subsistence of dependents of actual workers
Principal	Subsidiary
9	10
	11

The instructions for filling in these three columns were as follows:—

(i) Column 9 (Principal occupation of actual workers)—Enter the principal occupation or means of livelihood of all persons who actually do work or carry on business, whether personally or by means of servants, or who live on private property such as house rent, pension, etc. The column will be blank for dependents.

(ii) Column 10 (Subsidiary occupation of actual workers)—Enter here any occupation which actual workers pursue in addition to their principal occupation. If they have no such additional occupation, enter in this column the word 'none'. This column will be blank for dependents.

(iii) Column 11 (Means of subsistence of dependents)—For those who do not work or carry on business, either personally or by means of servants, and who own no private property, enter the principal occupation of the head of the family or of the person who supports them. This column will be blank for actual workers.

(2) In the 1911 Census the same three questions of 1901 were adopted with minor changes in the headings. However, the instructions for filling in the answers to these questions were substantially changed and were as follows:—

(i) Column 9 (Principal occupation of actual workers)—Enter the principal means of livelihood of all persons who actually do work or carry on business, whether personally or by means of servants, or who live on house-rent, pension, etc. Enter the exact occupation and avoid vague terms such as "service" or "writing" or "labour". For example, in the case of labour say whether in the fields, or in coal mine, jute factory or cotton mill or lac factory or earth work etc. In case of agriculture, distinguish between persons who receive rent and those who pay rent. If a person makes the articles he sells he should be entered as "maker and seller" of them. Women and children who work at any occupation which helps to augment the

family income must be entered in column 9 under that occupation and not in Column 11. Column 9 will be blank of dependents.

(ii) Column 10 (Subsidiary Occupation of actual workers)—Enter here any occupation which actual workers pursue at any time of the year in addition to their principal occupation. Thus if a person lives principally by his earnings as a boatman, and partly also by fishing, the word "boatman" will be entered in column 9 and "fisherman" in column 10. If an actual worker has no additional occupation, enter in column 10 the word "none". This column will be blank for dependents.

(iii) Column 11 (Means of subsistence of dependants on actual workers)—For children and women and old and infirm persons who do not work either personally or by means of servants, enter the principal occupation of the person who supports them. This column will be blank for actual workers.

(3) In the 1921 Census also the same three economic questions of 1901 and 1911 were repeated and the instructions to the enumerators for filling in the answers to these questions were also identical to those in 1911. But a special feature of this Census was that certain Industrial Statistics were prepared and published which were based on the information specially collected on Industrial Schedule through the Managers of Industrial Establishments employing not less than 10 persons.

(4) In 1931 the pattern followed in preceding three decades was somewhat changed and for the first time organised industry came into the census picture. In this Census there were the following 4 economic questions in the Census questionnaire:—

- 9 Earner or dependant
- 10 Principal occupation (this will be blank for dependant)
- 11 Subsidiary occupation (occupation of dependants may be given)
- 12 Industry in which employed (for organized employees only)

Like the questions a change in the concepts and definitions also came this time as will be seen from the following instructions issued to the enumerators:—

(i) Column 9 (Worker or Dependant)—Enter "earner" or "dependant". A woman who does house work is a dependant, so is a son who works in the fields but does not earn separate wages. A cultivator cultivating as a principal occupation is an earner.

(ii) Column 10 (Principal occupation)—Enter the principal means of livelihood of all persons who actually do work or carry on business whether personally or by means of servants, or who live on house-rent, pension etc. Enter the exact occupation and avoid vague terms such as "service" or

"writing" or "labour". Replies such as are given to a Magistrate in court are not enough. For example, in the case of labour, say whether in the fields, or in a coal mine, or jute factory, or cotton mill or lac factory, or earth work, etc. In the case of agriculture distinguish between persons who do not cultivate personally, who cultivate their own land, who cultivate rented land and who are hired labourers. If a person makes the articles he sells he should be entered as "maker and seller" of them. Women and children who work at any occupation which helps to augment the family income must be entered in column 9 and in column 11. For dependants make a X only in column 10.

(iii) Column 11 (Subsidiary occupation)—Enter here any occupation which actual workers pursue at any time of the year in addition to their principal occupation. Thus if a person lives principally by his earning as a boatman, and partly also by fishing the word "boatman" will be entered in column 10 and "fisherman" in column 11. If an actual worker has no additional occupation a cross (X) will be put. Dependants who help to support the family by subsidiary work e.g., a woman who helps in the fields as well as doing house work will be shown in this column.

(iv) Column 12 (Industry in which employed)—For managers, clerks, operatives or workmen employed in a factory fill up the name of the industry, i.e., biscuit making, coal mining. For individual workers not employed by others put a X.

(5) In the 1941 Census the number of economic questions rose to as many as eight and 'occupation' altogether went out of picture and its place was taken by "means of livelihood". The questions this time were—

- 9 Are you wholly or partly dependant on any one else?
- 10 If so, means of livelihood of person on whom dependant
- 11 Do you employ (a) paid assistants, (b) members of household? If so, how many?
- 12 Are you in employment now?
- 13 (Only to those who reply in the negative to question 12) Are you in search of employment?

To those who reply in the affirmative the further question will be put—How long have you been in search of it?

- 14 Means of livelihood in order of importance
- 15 (Only to be asked in regard to means of livelihood of a person shown as partly dependant against question 9 or any subsidiary means of livelihood returned by other person against question 14)
Does this means of livelihood exist throughout the year? If not, for what part of the year?
- 16 If you are employed by some one else, what is his business?

As the results of 1941 Census could not be tabulated for the major part of the country owing to the circumstances created by World War II it seems needless to reproduce the instructions about the questions given above.

(6) The number of economic questions in the 1951 Census was 4 as below—

9 Economic Status—

Part one—Dependency

Part two—Employment

10 Principal means of livelihood

11 Secondary means of livelihood

The instructions for recording answers to these questions were as follows:—

Question 9—Economic Status

(i) Part One—Dependency—Write 1 for a self supporting person, 2 for a non-earning dependant, and 3 for an earning dependant. Write the answer in first compartment.

(ii) Part Two—Employment—If a self-supporting person earns his principal means of livelihood as an employer, write 1, as an employee, write 0, as an independent worker, write 3. Write 0 in other cases. Write the answer in the second compartment.

(iii) Question 10—Principal means of livelihood—An answer to this question should be recorded on every slip. If the slip relates to a self-supporting person record his principal means of livelihood. If the slip relates to a dependent (whether earning or non-earning) record here the principal means of livelihood of the self-supporting person on whom he is dependant. The means of livelihood which provides the largest income is the principal means of livelihood for a self-supporting person who has more than one means of livelihood. In the case of other self-supporting persons it is the only means of livelihood.

Use the following contractions—Write 1 for a person who cultivates land owned by him; 2 for a person who cultivates land owned by another person; 3 for a person who is employed as a labourer by another person who cultivates land; 4 for a person who receives rent in cash or kind in respect of land which is cultivated by another person.

For all other means of livelihood write fully and clearly what the person does in order to earn his livelihood and where he does it.

(iv) Question 11—Secondary means of livelihood—For a self-supporting person who has more than one means of livelihood, write the means of livelihood next in importance to his principal means of livelihood. For an earning dependant write the means of livelihood which provides the earning. Use contractions given in question 10.

12 C.P.—3

For a self-supporting person who has only one means of livelihood write 0. In the case of a non-earning dependant also, write 0.

16 Besides the brief instructions reproduced above in each of the previous Censuses some more detailed instructions were issued in respect of the economic questions but those instructions are not being given here. The purpose of giving information about the previous Censuses is limited to the giving of a glimpse of what happened in the past and how the concept of economic questions has changed and developed from Census to Census.

Economic Tables in previous Censuses

17 In the previous six Censuses the following General Economic Tables were prepared. There were certain tables combining occupation with Religion or Castes and Tribes but they have been excluded from the following list as no such tables have been prepared in 1951 and 1961:—

1901

CENTRAL PROVINCES

- 1 Table XV-A—Occupation, Provincial—full Groups
- 2 Table XV-B—Occupation, Amalgamated groups by districts

CENTRAL INDIA

- 1 Table XV—Classification of Occupation or means of livelihood (General)—showing by sex the number of actual workers and partially agriculturists with dependants of both sexes by sub-orders
- 2 Table XV—Occupation or means of livelihood showing by sex the occupations of actual workers and partially agriculturists with dependants of both sexes
- 3 Table XV-A—Subsidiary occupations combined with selected principal occupations

1911

CENTRAL PROVINCES AND BERAR

- 1 Table XV—Occupation or means of livelihood—Part A—General Table; Part B—Subsidiary Occupations of Agriculturists; Part E—Statistics of Industries

CENTRAL INDIA

- 1 Table XV-A—Occupation or means of livelihood; Part B—Subsidiary Occupations of Agriculturists; Part C—showing for certain mixed occupations the number of persons who returned each as their (a) Principal and (b) Subsidiary means of livelihood
- 2 Table XV-B—Statistics of Industries

1921

CENTRAL PROVINCES AND BERAR

- 1 Table XVII —Occupation or means of livelihood (General distribution)
- 2 Table XVIII —Subsidiary Occupations of Agriculturists—
- 1 Rent receivers
 - 2 Rent payers
 - 3 Agricultural labourers
- 3 Table XIX —Mixed occupations—Inter-relation of Agriculture and some of the Principal Industries
- 4 Table XXII —Industrial Statistics
- CENTRAL INDIA
- 1 Table XVII —Occupation or means of livelihood
- 2 Table XVIII —Subsidiary Occupations of Agriculturists—Actual workers only
- 3 Table XIX —Showing for certain mixed occupations the number of persons who returned each occupation as their (a) Principal and (b) Subsidiary means of livelihood
- 4 Table XXII —Industrial Statistics
- Note—This table was in 7 Parts

GWALIOR STATE

Same as in C. P. and Berar

1931

ALL UNITS COMPRISING PRESENT M.P.

- 1 Table X —Occupation or means of livelihood

APPENDIX I

NATIONAL CLASSIFICATION OF OCCUPATIONS

(CODE STRUCTURE)

which classifies occupations into:

331 Occupational Families (three-digit code numbers)

75 Occupational Groups (two-digit code numbers)

11 Occupational Divisions (one-digit code numbers)

Divisions, Groups and Families

PROFESSIONAL, TECHNICAL AND RELATED WORKERS

00 ARCHITECTS, ENGINEERS AND SURVEYORS

- 000 Architects
- 001 Civil Engineers (including Overseers)
- 002 Mechanical Engineers
- 003 Electrical Engineers
- 004 Chemical Engineers
- 005 Metallurgical Engineers
- 006 Mining Engineers
- 007 Surveyors
- 009 Architects, Engineers and Surveyors, n. e. c.

01 CHEMISTS, PHYSICISTS, GEOLOGISTS AND OTHER PHYSICAL SCIENTISTS

- 010 Chemists except Pharmaceutical Chemists
- 011 Pharmaceutical Chemists
- 012 Physicists
- 013 Meteorologists
- 014 Geologists and Geophysicists
- 015 Mathematicians

019 Chemists, Physicists, Geologists and other Physical Scientists, n. e. c.

02 BIOLOGISTS, VETERINARIANS, AGRONOMISTS AND RELATED SCIENTISTS

- 020 Biologists and Animal Scientists
- 021 Veterinarians

NOTE : I The Classification does not provide separate code numbers for *Apprentices, Foremen and Instructors* (in-plant only). These may be classified by giving the prefixes of "A", "B", or "C", respectively before the code number of the occupation which is being learned, supervised or instructed.

NOTE II: n.e.c.—not elsewhere classified

825 Makers of Aerated Water and Brewers
826 Food Canners, Preservers and Related Workers
827 Butchers
828 Coffee and Tea Blenders and Related Workers
829 Millers, Bakers, Brewmasters and Related Food and Beverage Workers, n.e.c.
- 83 CHEMICAL AND RELATED PROCESS WORKERS
830 Batch and Continuous Still Operators
831 Cookers, Roasters and Other Heat Treaters, Chemical and Related Processes
832 Crushers, Millers and Calenderers, Chemical and Related Processes
833 Paper Pulp Preparers
834 Paper Makers
839 Chemical and Related Process Workers, n.e.c.
- 84 TOBACCO PREPARERS AND PRODUCTS MAKERS
840 Curers, Graders and Blenders, Tobacco
841 Cigarette Machine Operators
842 Cheroot, Cigar and Bidi Makers
843 Snuff and Zarda Makers
849 Tobacco Preparers and Product Makers, n.e.c.
- 85 CRAFTSMEN AND PRODUCTION PROCESS WORKERS, n.e.c.
850 Basketry Weavers and Related Workers
851 Tyre Builders, Vulcanisers and Related Rubber Products Makers
852 Plastics Products Makers
853 Tanners, Fellmongers, Pelt Dressers and Related Workers
854 Photographic Dark Room Workers
855 Makers of Musical Instruments and Related Workers
856 Paper Products Makers
859 Craftsmen and Production Process Workers, n.e.c.

- 86 TESTERS, PACKERS, SORTERS AND RELATED WORKERS
860 Checkers, Testers, Sorters, Weighers and Counters
861 Packers, Labellers and Related Workers
- 87 STATIONARY ENGINE AND EXCAVATING AND LIFTING EQUIPMENT OPERATORS AND RELATED WORKERS
870 Operators, Stationary Engines and Related Equipment
871 Boilermen and Firemen
872 Crane and Hoist Operators
873 Riggers and Cable Splicers
874 Operators of Earth-moving and Other Construction Machinery, n.e.c.
875 Materials-handling Equipment Operators
876 Oilers and Greasers, Stationary Engines, Motor Vehicles and Related Equipment
879 Stationary Engine and Excavating and Lifting Equipment Operators and Related Workers, n.e.c.
- 88 LABOURERS, n.e.c.
890 Loaders and Unloaders
899 Labourers, n.e.c.
- 99 SERVICE, SPORT AND RECREATION WORKERS
- 90 FIRE FIGHTERS, POLICEMEN, GUARDS AND RELATED WORKERS
900 Fire Fighters and Related Workers
901 Police Constables, Investigators and Related Workers
902 Customs Examiners, Patrollers and Related Workers
903 Watchmen and Chowkidars
909 Fire Fighters, Policemen, Guards and Related Workers, n.e.c.
- 91 HOUSE KEEPERS, COOKS, MAIDS AND RELATED WORKERS
910 House Keepers, Matrons, Stewards (Domestic and Institutional)
911 Cooks, Cook-Bearers (Domestic and Institutional)
912 Butlers, Bearers, Waiters, Maids and Other Servants (Domestic)
913 Ayas, Nurse-maids

APPENDIX II
STANDARD INDUSTRIAL CLASSIFICATION

This classification groups the industries into :

9 Divisions
45 Major Groups
343 Minor Groups

<i>Division O—Agriculture, livestock, forestry, fishing and hunting</i>			<i>Division O—Agriculture, livestock, forestry, fishing and hunting—contd.</i>		
Major Group (Code)	Description	Minor Group (Code)	Major Group (Code)	Description	Minor Group (Code)
00	Field Produce and Plantation Crops—		02	Forestry and Logging—	
	Production of cereal crops (including Bengal Gram) such as rice, wheat, jowar, bajra, maize.	000		Planting, replanting and conservation of forests	020
	Production of pulses, such as arhar, moong, masur, urd, khesari, other gram	001		Felling and cutting of trees and transportation of logs	021
	Production of raw jute and kindred fibre crops	002		Preparation of timber	022
	Production of raw cotton and kindred fibre crops	003		Production of fuel including charcoal by exploitation of forest	023
	Production of oilseeds, sugarcane and other cash crops	004		Production of fodder by exploitation of forests	024
	Production of other crops (including vegetables) not covered above	005		Production of gums, resins, lac, barks, herbs, wild fruits and leaves by the exploitation of forests	025
	Production of fruits and nuts in plantation, vines and orchards	006		Production and gathering of other forest products not covered above	026
	Production of wood, bamboo, cane reeds, thatching grass, etc.	007	03	Fishing—	
	Production of juice by tapping plams	008		Production of fish by fishing in sea	030
	Production of other agricultural produce (including fruits and nuts not covered by code number 006 and flowers) not covered above	009		Production of fish by fishing in inland waters including the operation of fish farms and fish hatcheries.	031
01	Plantation Crops			Production of pearls, conch, shells, sponges by gathering or lifting from sea, river, pond	032
	Production of tea in plantation	010	04	Livestock and Hunting—	
	Production of coffee in plantation	011		Production and rearing of livestock (large heads only) mainly for milk and animal power such as cow, buffalo, goat	040
	Production of rubber in plantation	012		Rearing of sheep and production of wool	041
	Production of tobacco in plantation	013			
	Production of ganja, cinchona, opium	014			
	Production of other plantation crops not covered above	015			

Division O—Agriculture, livestock, forestry, fishing and hunting—concl'd.

Major Group (Code)	Description	Minor Group (Code)
	Rearing and production of other animals (mainly for slaughter) such as pig	042
	Production of ducks, hens and other small birds, eggs by rearing and poultry farming	043
	Rearing of bees for the production of honey, wax and collection of honey	044
	Rearing of silk worms and production of cocoons and raw silk	045
	Rearing of other small animals and insects	046
	Trapping of animals or games propagation	047
	Production of other animal husbandry products such as skin, bone, ivory and teeth	048

Division 1—Mining and Quarrying—

10	Mining and Quarrying—	
	Mining of coal	100
	Mining of iron ores	101
	Mining of gold and silver ores	102
	Mining of manganese	103
	Mining of mica	104
	Mining of other non-ferrous metallic ores	105
	Mining of crude petroleum and natural gas	106
	Quarrying of stone (including slate), clay, sand, gravel, limestone	107
	Mining of chemical earth such as soda ash	108
	Mining and quarrying of non-metallic products not classified above such as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt	109

Divisions 2 & 3—Manufacturing—

20 Foodstuffs—

	Production of rice, atta, flour, etc. by milling, dehusking and processing of crops and foodgrains	200
	Production of sugar and syrup from sugarcane in mills	201

Divisions 2 & 3—Manufacturing—cont'd.

Major Group (Code)	Description	Minor Group (Code)
	Production of indigenous sugar, gur from sugarcane or palm juice and production of candy	202
	Production of fruit products such as jam, jelly, sauce and canning and preservation of fruits	203
	Slaughtering, preservation of meat and fish and canning of fish	204
	Production of bread, biscuits, cake and other bakery products	205
	Production of butter, ghee, cheese and other dairy products	206
	Production of edible fats and oils (other than hydrogenated oil)	207
	Production of hydrogenated oils (Vanaspatti)	208
	Production of other food products such as sweetmeat and condiments, muri, murki, chira, kholi, cocoa, chocolate, toffee, lozenge	209
21	Beverages—	
	Production of distilled spirits, wines, liquor from alcoholic malt, fruits and malts in distillery and brewery	210
	Production of country liquor	211
	Production of indigenous liquor such as toddy, liquor from mahua, palm juice	212
	Production of other liquors not covered above	213
	Production of aerated and mineral water	214
	Production of ice	215
	Production of ice cream	216
	Processing of tea in factories	217
	Processing of coffee in curing works	218
	Production of other beverages	219
22	Tobacco Products—	
	Manufacture of bidi	220
	Manufacture of cigars and cheroots	221
	Manufacture of cigarette and cigarette tobacco	222
	Manufacture of hookah tobacco	223
	Manufacture of snuff	224
	Manufacture of jerda and other chewing tobacco	225
	Manufacture of other tobacco products	226

Divisions 2 & 3—Manufacturing—cont'd.

Major Group (Code)	Description	Minor Group (Code)
23	Textile—Cotton	
	Cotton ginning, cleaning, pressing and baling	230
	Cotton spinning (other than in mills)	231
	Cotton spinning and weaving in mills	232
	Cotton dyeing, bleaching	233
	Cotton weaving in power looms	234
	Cotton weaving in handlooms	235
	Manufacturing of khadi textile in handlooms	236
	Printing of cotton textile	237
	Manufacturing of cotton nets	238
	Manufacturing of cotton, cordage, rope and twine	239
24	Textile—Jute	
	Jute pressing and baling	240
	Jute spinning and weaving	241
	Dyeing and bleaching of jute	242
	Printing of jute textile	243
	Manufacture of other products like rope, cordage from jute and similar fibre such as hemp, mesta	244
25	Textile—Wool	
	Wool baling and pressing	250
	Wool cleaning and processing (scouring)	251
	Wool spinning and weaving in mill	252
	Wool spinning other than in mills	253
	Wool weaving in power loom	254
	Wool weaving in handloom	255
	Embroidery and art work in woollen textile	256
26	Textile—Silk	
	Spinning and weaving of silk textile in mill	260
	Dyeing and bleaching of silk	261
	Spinning of silk other than in mills	262
	Weaving of silk textile by power loom	263
	Weaving of silk textile by handloom	264
	Printing of silk textile	265
	Manufacture of silk cordage, rope and twine	266

Divisions 2 & 3—Manufacturing—cont'd.

Major Group (Code)	Description	Minor Group (Code)
27	Textile—Miscellaneous—	
	Manufacture of carpet and all other similar type of textile products	270
	Manufacture of hosiery and other knitted fabrics and garments	271
	Embroidery and making of crepe lace and fringes	272
	Making of textile garments including raincoats and headgear	273
	Manufacture of made up textile goods except wearing apparel such as curtains, pillow cases, bedding materials, mattress, textile bags	274
	Manufacture of waterproof textile products such as oil cloth, tarpaulin	275
	Manufacture and recovery of all types of fibres for purposes of padding, wadding and upholstery filling	276
	Manufacture of coir and coir products	277
	Manufacture of umbrellas	278
	Processing and manufacture of textile products not covered above	279
28	Manufacture of Wood and Wooden Products—	
	Sawing and planing of wood	280
	Manufacture of wooden furniture and fixtures	281
	Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows	282
	Manufacture of wooden industrial goods other than transport equipment such as bobbin and similar equipment and fixtures	283
	Manufacture of other wooden products such as utensils, toys, artwares	284
	Manufacture of veneer and plywood	285
	Manufacture of plywood products such as tea chest	286
	Manufacture of boxes and packing cases other than plywood	287
	Manufacture of materials from cork, bamboo, cane, leaves and other allied products	288
	Manufacture of other wood and allied products not covered above	289

Divisions 2 & 3—Manufacturing—contd.

Major Group (Code)	Description	Minor Group (Code)	Major Group (Code)	Description	Minor Group (Code)
29	<i>Paper and Paper Products—</i>		32	<i>Rubber, Petroleum and Coal Products—</i>	
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board in mill	290		Manufacture of tyres and tubes	320
	Manufacture of pulp from wood, rags, wastepaper and other fibres and the conversion of such pulp into any kind of paper and paper board handmade	291		Manufacture of rubber footwear	321
	Manufacture of products, such as paper bags, boxes, cards, envelopes and moulded pulp goods from paper, paper board and pulp	292		Manufacture of rubber goods used for industrial purpose	322
30	<i>Printing and Publishing—</i>			Manufacture of all kinds of other rubber products from natural or synthetic rubber including rubber raincoat	323
	Printing and publishing of newspapers and periodicals	300		Productions of petroleum, kerosene and other petroleum products in petroleum refineries	324
	Printing and publishing of books	301		Production of coaltar and coke in coke oven	325
	All other types of printing including lithography, engraving, etching, block making and other work connected with printing industry	302		Manufacture of other coal and coaltar products not covered elsewhere	326
	All types of binding, stitching, sizing and other allied work connected with binding industry	303	33	<i>Chemicals and Chemical Products—</i>	
31	<i>Leather and Leather Products—</i>			Manufacture of basic industrial chemicals such as acids, alkalis and their salts not elsewhere specified	330
	Currying, tanning and finishing of hides and skins and preparation of finished leather	310		Manufacture of dyes, paints, colours and varnishes	331
	Manufacture of shoes and other leather footwear	311		Manufacture of fertilizers	332
	Manufacture of clothing and wearing apparel (except footwear) made of leather and fur	312		Manufacture of ammunition, explosives and fire works	333
	Manufacture of leather products (except those covered by code Nos. 311, 312), such as leather upholstery, suitcases, pocket books, cigarette and key cases, purses, saddlery, whip and other articles	313		Manufacture of matches	334
	Repair of shoes and other leather footwear	314		Manufacture of medicines, pharmaceutical preparations, perfumes, cosmetics and other toilet preparations except soap	335
	Repair of all other leather products except footwear	315		Manufacture of soap and other washing and cleaning compounds	336
				Manufacture of turpentine, synthetic resin, and plastic products and materials (including synthetic rubber)	337
				Manufacture of common salt	338
				Manufacture of other chemicals and chemical products not covered above (including inedible oils and fats)	339
			34-35	<i>Non-metallic Mineral Products other than Petroleum and Coal—</i>	
				Manufacture of structural clay products such as bricks, tiles	340
				Manufacture of cement and cement products	341

Divisions 2 & 3—Manufacturing—contd.

Major Group (Code)	Description	Minor Group (Code)	Major Group (Code)	Description	Minor Group (Code)
	Manufacture of lime	342		Manufacture of metal products (other than of iron brass, bell metal and aluminium) such as tin can	367
	Manufacture of structural stone goods, stone dressing and stone crushing	343		Enamelling, galvanising, plating (including electroplating) polishing and welding of metal products	368
	Manufacture of stonewares, other than images	344		Manufacture of sundry hardwares such as G.I. pipe, wire net, bolt, screw, bucket, cutlery (This will also include the manufacture of sundry ferrous engineering products done by jobbing engineering concerns which can not be classified in major groups 36, 37, 38 and 39)	369
	Manufacture of stone images	345			
	Manufacture of plaster of paris and its products	346	37	<i>Machinery (All kinds other than Transport) and Electrical equipment.—</i>	
	Manufacture of asbestos products	347		Manufacture and assembling of machinery (other than electrical) except textile machinery	370
	Manufacture of mica products	348		Manufacture and assembling of prime mover and boilers, other than electrical equipment, such as diesel engines, road rollers, tractors	371
	Manufacture of earthenware and earthen pottery	350		Manufacture of machine tools	372
	Manufacture of chinaware and crockery	351		Manufacture of textile machinery and accessories	373
	Manufacture of porcelain and its products	352		Manufacture of heavy electrical machinery and equipment such as motors, generators, transformers	374
	Manufacture of glass bangles and beads	353		Manufacture of electric lamps and fans	375
	Manufacture of glass apparatus	354		Manufacture of insulated wires and cables	376
	Manufacture of earthen image, busts and statues	355		Manufacture of all kinds of battery	377
	Manufacture of earthen toys and art-ware except those covered by code No. 355	356		Manufacture of electronic equipment such as radio, microphone	378
	Manufacture of glass and glass products except optical and photographic lenses and glass products covered above	357		Manufacture of electric machinery and apparatus, appliances not specified above	379
	Manufacture of other non-metallic mineral products not elsewhere specified	359	38	<i>Transport Equipment—</i>	
36	<i>Basic Metals and their Products except Machinery and Transport Equipment—</i>			Manufacture, assembly and repairing of locomotives	380
	Manufacture of iron and steel including smelting, refining, rolling, conversion into basic forms such as billets, blooms, tubes, rods	360		Manufacture of wagons, coaches, tramways and other rail road equipment other than that covered by code No. 363	381
	Manufacture including smelting, refining of non-ferrous metals and alloys in basic forms	361		Manufacture and assembling of motor vehicles of all types (except motor engines)	382
	Manufacture of armaments	362			
	Manufacture of structural steel products such as joist, rail, sheet, plate	363			
	Manufacture of iron and steel furniture	364			
	Manufacture of brass and bell metal products	365			
	Manufacture of aluminium products	366			

Divisions 2 & 3 Manufacturing—concl'd.

Major Group (Code)	Description	Minor Group (Code)
	Manufacture of motor vehicles engines parts and accessories	383
	Repairing and servicing of motor vehicles	384
	Manufacture of bicycles and tricycles and accessories such as saddle, seat, frame, gear	385
	Building and repairing of water transport equipment such as ships, boats and manufacture of marine engines	386
	Manufacture and repair of air transport equipment including aeroplanes, aeroengines	387
	Repairing of bicycles and tricycles	388
	Manufacture of other transport equipment not covered above such as animal drawn and handdrawn vehicles	389
39	Miscellaneous Manufacturing Industries—	
	Manufacture of optical instruments and lenses, ophthalmic goods and photographic equipment and supplies	390
	Manufacture of scientific, medical and surgical instruments and equipment and supplies	391
	Assembling and repairing of watches and clocks	392
	Manufacture of jewellery, silverware and wares using gold and other precious metals	393
	Manufacture and tuning of musical instruments	394
	Manufacture of stationery articles not covered elsewhere such as pencil, penholder, fountain pen	395
	Manufacture of sports goods	396
	Manufacture and repair work of goods not assignable to any other group	399

Division 4—Construction

40 Construction

	Construction and maintenance of buildings including erection, flooring, decorative constructions, electrical and sanitary installations	400
	Construction and maintenance of roads, railways, bridges, tunnels	401
	Construction and maintenance of telegraph and telephone lines	402

Division 4—Construction—concl'd.

Major Group (Code)	Description	Minor Group (Code)
	Construction and maintenance of waterways and water reservoirs such as bund, embankments, dam, canal, tank, tubewells, wells	403

Division 5—Electricity, Gas, Water and Sanitary Services

50 Electricity and Gas—

	Generation and transmission of electric energy	500
	Distribution of electric energy	501
	Manufacture of gas in gas works and distribution to domestic and industrial consumers	502

51 Water Supply and Sanitary Services—

	Collection, purification and distribution of water to domestic and industrial consumers	510
	Garbage and sewage disposal, operation of drainage system and all other types of work connected with public health and sanitation	511

Division 6—Trade and Commerce

60—63 Wholesale Trade—

	Wholesale trading in cereals and pulses	600
	Wholesale trading in vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry and other food stuff (not covered elsewhere)	601
	Wholesale trading in all kinds of fabrics, and textiles products such as garments, hessian, gunny bag, silk and woollen yarn, shirtings, suitings, hosiery products	602
	Wholesale trading in beverages, such as tea (leaf) coffee (seed and powder), aerated water	603
	Wholesale trading in intoxicants such as wines, liquors	604
	Wholesale trading in other intoxicants such as opium, ganja, etc.	605
	Wholesale trading in tobacco, bidi, cigarettes and other tobacco products	606
	Wholesale trading in animals	607
	Wholesale trading in straw and fodder	608

Division 6—Trade and Commerce—cont'd.

Major Group (Code)	Description	Minor Group (Code)
	Wholesale trading in medicines and chemicals	610
	Wholesale trading in fuel and lighting products such as coke, coal, kerosene, candle	611
	Wholesale trading in toilets, perfumery and cosmetics	612
	Wholesale trading in metal, porcelain and glass utensils, crockery, chinaware	613
	Wholesale trading in wooden, steel and other metallic furniture and fittings	614
	Wholesale trading in footwear	615
	Wholesale trading in tyres, tubes and allied rubber products	616
	Wholesale trading in petrol, mobil oil and allied products	617
	Wholesale trading in other household equipment not covered above	618
	Wholesale trading in bricks, tiles and other building materials	620
	Wholesale trading in wood, bamboo, cane, thatches and similar products	621
	Wholesale trading in paper and other stationery goods	630
	Wholesale trading in agricultural and industrial machinery equipment and tools and appliances other than electrical	631
	Wholesale trading in electrical machinery and equipment like motor, battery, electric fan, bulb	632
	Wholesale trading in all kinds of transport and storage equipment	633
	Wholesale trading in skins, leather and fur	634
	Wholesale trading in clocks, eye glasses, frames	635
	Wholesale trading in hardware and sanitary equipment	636
	Wholesale trading in scientific, medical and surgical instruments	637
	Wholesale trading in precious metals and stones, gold and silverwares and jewellery	638
	Wholesale trading in all goods not covered above	639

Division 8—Services—cont'd.

Major Group (Code)	Description	Minor Group (Code)
64—68	Retail Trade—	
	Retail trading in cereals, pulses, vegetables, fruits, sugar, spices, oil, fish, dairy products, eggs, poultry	640
	Retail trading in beverages such as tea (leaf), coffee (seed and powder), aerated water	641
	Retail trading in intoxicants such as wines, liquors	642
	Retail trading in other intoxicants such as opium, ganja, etc.	643
	Retail trading in tobacco, bidi, cigarettes, and other tobacco products	644
	Retail trading in fuel such as coke, coal, firewood and kerosene	645
	Retail trading in food stuffs like sweetmeat condiments, cakes, biscuits, etc.	646
	Retail trading in animals	647
	Retail trading in straw and fodder	648
	Retail trading in fibres, yarns, dhoti, saree, readymade garments of cotton, wool, silk and other textiles and hosiery products ; (this includes retail trading in piece-goods of cotton, wool, silk and other textiles)	650
	Retail trading in toilet goods, perfumes, and cosmetics	651
	Retail trading in medicines and chemicals	652
	Retail trading in footwear, head-gear such as hat, umbrella, shoes and chappals	653

TABLE B-1—WORKERS AND NON-WORKERS CLASSIFIED BY SEX AND BROAD AGE-GROUPS

In this table workers have been divided into 9 industrial categories according to four broad age-groups (0—14, 15—34, 35—59 and 60 and above) and age not stated. The non-workers also have been classified according to these age-groups. Age and industrial categories have been defined in the Introductory Note appearing in the beginning of this part. This table has been prepared for the State, Divisions and Districts as well as for Total, Rural and Urban.

2 As economic characteristics were never associated with age-groups in any of the previous Censuses there is no table corresponding to this one for the previous Censuses. Table B-1 of 1951 Census differs from this table in the following respects :—

(1) There is no age-groupwise distribution.

(2) The population has this time been divided into workers and non-workers and workers have again been divided into 9 industrial categories. In the 1951 Census the population (both workers and non-workers) was divided into "Livelihood Classes" and "Livelihood Sub-classes". There were 8 livelihood classes : 4 Agricultural and 4 Non-agricultural. How these Agricultural and non-agricultural classes are comparable with the 9 industrial categories of 1961 is shown below :—

1951 Livelihood Class	1961 Industrial Category
I Cultivators of land wholly or mainly owned	I Cultivator
II Cultivators of land wholly or mainly unowned	
III Cultivating labourers	II Agricultural Labourers
V Production other than cultivation	III Mining, Quarrying, Livestock, Forestry, Fishing, Hunting, Plantations, Orchards and allied activities
	IV Household Industry
	V Manufacturing other than Household Industry
VI Commerce	VII Trade and Commerce
VII Transport	VIII Transport, Storage and Communications
VIII Other services and miscellaneous sources	IX Other Services
	VI Construction

NOTE—(1) Non-working owners of non-agricultural property, pensioners and remittance holders, persons living on

charity and other persons with unproductive occupations and inmates of penal institutions and asylum who were included in livelihood Class VIII in 1951 have now been treated as non-workers.

(2) The Livelihood Class IV Non-cultivating owners of land and Agricultural rent receivers have now been treated as non-workers.

(3) The Livelihood Sub-classes in 1951 were S.C. (i) Self-supporting persons, S.C. (ii) Non-earning dependents and S.C. (iii) Earning dependents ; there is no such classification this time.

3 The following six Subsidiary tables have been prepared from this table and appear in Part IC :—

Subsidiary Table B-1.1. Distribution of 1,000 persons by each Industrial Category of Workers and by Non-worker and by Sex

B-1.2. Number of female workers per 1,000 male workers in each Industrial Category

B-1.3. Distribution of 1,000 of total workers of each sex into age-groups and Industrial Category

B-1.4. Distribution of 1,000 workers in each Sex and each Industrial Category by age-group

B-1.5. Workers per 1,000 population in each age-group

B-1.6. Workers per 1,000 population in each of the Censuses 1901 to 1961

4 The two tables given below give the more important figures contained in this table in the form of proportions. In Table 1 the proportion of workers and non-workers as well as the distribution of 1,000 workers in each Industrial Category has been given, while in Table 2 the proportion of female workers to male workers in each Industrial Category is shown. Both these tables contain figures for the State, Divisions and the Districts.

5 It is not possible to give comparative figures for 1951 in respect of the characteristics contained in this table because in 1951 figures under each Livelihood Class contained figures for Earning Dependents as well as Non-earning Dependents and secondly the definitions were not similar in both the Censuses. An attempt to make the figures comparable will not, therefore, give satisfactory results and may lead to wrong conclusions.

TABLE B-II—Workers and non-workers in cities, town-groups and towns arranged territorially by sex and broad age-groups

This table is similar to the preceding Table B-I so far as the characteristics are concerned. The difference is only in the areas dealt with. While Table B-I deals with the whole population, Table B-II gives figures for cities, town-groups and towns individually as well as for all urban areas in a district division and the state. The arrangement of the districts in this table is the same as in the previous table and towns in each district have been arranged according to their location.

2 There are in all 219 towns in the State of which 15 towns are such that they form part of some town-group. These towns and the town-groups of which they form part are as follows :—

District	Town	Town-group
Sehore	1 Bhopal Municipality	Bhopal Town-group
	2 Govindpura Industrial Township (H.E.L.)	
	3 Bairagarh Town Area	
Hoshangabad	4 Pachmarhi Municipality	Pachmarhi Town group
	5 Pachmarhi Cantonment	
Sagar	6 Sagar Municipality	Sagar Town-group
	7 Sagar Cantonment	
Jabalpur	8 Murwara Municipality	Murwara Town-group
	9 Tikuri Factory Township	
	10 Ordnance Factory Area Katni	
Jabalpur	11 Jabalpur Municipal Corporation	Jabalpur Town-group
	12 Jabalpur Cantonment	
	13 Kamaria Ordnance Factory	
Durg	14 Bilainagar Industrial Township	Durg Town-group
	15 Durg Municipality	

In this table figures have been given for towns as well as town-groups with break up for each component of a town-group.

3 Three subsidiary tables have been prepared from this table and appear in Part IC of Madhya Pradesh Census Series. For the purpose of these subsidiary tables the towns have been grouped into the following 6 classes according to their population and towns and town-groups of class I have been treated as cities :

	Population range
Class I	100,000 and above
Class II	50,000—99,999
Class III	20,000—49,999
Class IV	10,000—19,999
Class V	5,000—9,999
Class VI	Less than 5,000

These subsidiary tables are the following :

1 Subsidiary Table B-II. 1	Distribution of 1,000 workers in each class of town by age, sex and industrial categories.
2 Subsidiary Table B-II. 2	Distribution of 1,000 workers in each city or town-group with a population of one lakh and over by age, sex and industrial categories.
3 Subsidiary Table B-II.3	Workers per 1,000 population in each city and comparison of workers in industrial categories from 1901—1961.

TABLE B-III—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS
BY EDUCATIONAL LEVELS

In this table workers and non-workers have been classified according to the educational levels attained by them. Workers have further been classified according to the industrial categories in which they are working. The statistics contained in the table relate to the state, divisions and districts.

2 The table is in two parts: A and B. Part A contains information about urban areas only while Part B is for rural areas only. As will be seen from these two parts, literate persons have been classified differently for urban and rural areas. For rural areas while they have been divided into three categories of: (i) Literate (without educational level), (2) Primary or Junior Basic and (3) Matriculation and above, in urban areas, persons above Matriculation or Higher Secondary have further been divided into ten educational levels.

3 For the questions about literacy and education and the instructions about them fly leaf notes of Table C-III (age, sex and education) appearing in Part II-C(i) may be seen. Similarly, explanation about industrial categories of workers can be found in the Introductory Note appearing in the beginning of this Part.

4 During post-enumeration quality check of Table B-III Part A it was found that the figures given in this table are defective to a certain extent owing to the fact that some of the enumerators did not follow the instructions given to them properly in respect of the entry of the details of degrees or diplomas held by the educated persons. The instructions were that in the case of a person who has passed any written examination or examinations the names of the highest examination passed should be written against question No. 6. They were further instructed that where a person has passed different examinations in different subjects the name of the highest examination in each of the subjects be written. But it seems that these instructions were not followed properly by a few of the enumerators with the result that some of the technical degrees or diplomas equal to degree were found not entered in some of the individual slips. Inconsistencies that have crept into the table due to this defect in enumeration are as follows:—

- (1) No Veterinary and Dairying degree holder appears in Mandla district in the table though according to Table B-V there are 7 veterinarians in the district; it seems doubtful that none of them is a degree holder. So also is the total absence of persons having degrees in agriculture and teaching in this district.
- (2) There are 20 districts where there are no holders of degree in Technology and in some the number is very few. In the case of most of these districts this may be true but in a few cases, their total absence seems to be incorrect.
- (3) Total absence of persons holding degrees in "Teaching" in 13 districts of the state.
- (4) In five districts there is an excess of female degree holders in Teaching or Medicine over males.
- (5) According to this table 2 and 1 medical graduates appear in industrial category VI (construction) in Shajapur and Chhindwara districts respectively but there are no corresponding figures in this category in Table B-V.

5 All the above inconsistencies were got investigated on the spot by the Collectors. Though such an enquiry was difficult owing to the passage of time after the enumeration and movement of the persons concerned, many of the cases could be enquired into and following conclusions emerged:—

- (1) There were some degree holders in Agriculture, Teaching and Veterinary in Mandla district at the time of Census. Those who were still there and could be contacted said that either the enumeration was done in their absence or details of degrees were not specifically asked for from them.
- (2) In the case of teaching degrees, it was probable that M.As. or M.Sc.s. who also had teaching degrees might have returned their highest degrees only i.e. M.A., or M.Sc.
- (3) In the case of medical degree holders, technologists, etc. the omission seems to be due to either (a) informant not supplying full information to the enumerator; (b) enumerator failing to make full enquiries and (c) the issue of separate cards for scientific and technical personnel at the time of census.
- (4) The appearance of medical graduates in category VI in this table and not in B-V is not inconsistent as such and can be explained by saying that the 3 persons appearing in industrial category VI may be working as contractors, or manager or director of some concern engaged in construction.

Therefore, while using this table, these and similar other minor shortcomings may be kept in view.

Workers and Non-Workers by Educational levels

TABLE B-IV

Part A—Industrial classification by sex and class of worker of persons at work at household industry

Part B—Industrial classification by sex and class of worker of persons at work in non-household industry, trade, business, profession or service

Part C—Industrial classification by sex and divisions, major groups and minor groups of persons at work other than cultivation

Table B-IV is in above 3 parts and in it male and female workers engaged in activities other than cultivation (i.e., a cultivator and as agricultural labourer) have been classified (i) by class of worker (i.e. employee and others in the case of household industry and employer, employee, single worker and family worker in other cases) and (ii) branch of industry. In Parts A and B the classification of industry is limited to Divisions and Major Groups but in Part C the details upto minor groups are available.

2 The definitions and instructions about the return of nature of industry and class of workers have been given in the Introductory Note.

3 In all the three parts of this table the branches of industries in which there were no workers have been omitted. Besides this, Part C has been subjected to further abridgement by omitting all those Minor Groups of industry in which the numbers of workers was less than 1% (0.5% in the case of divisions 2 & 3) of the total workers in that division of industry. The divisions from which such omissions have been affected have been marked with an asterisk and the figures relating to the omitted Minor Groups have been given in the Appendix to the table in run-on lines. In this appendix details are available for male and female workers in each Minor Group as well as the classification of household industry and non-household industry. The key to the appendix has been given on its fly-leaf.

4 From this table the following subsidiary tables have been prepared which appear in Part IC of the Census series:

- 1 S.T. B-IV.1— Number per 1,000 workers in non-household industry, trade, business, profession or service, who are employers, employees, single workers and family workers (Source-Part B)
- 2 S.T. B-IV.2— Number per 1,000 workers in III-mining, quarrying, livestock, fishing, hunting and plantations, orchards and allied activities who are employers, employees, single workers and family workers (Source-Part B)
- 3 S.T. B-IV.3— Number per 1,000 workers at IV-household industry who are employees and others (Source-Part A).
- 4 S.T. B-IV.4— Number per 1,000 workers in V—manufacturing other than household industry who are employers, employees, single workers and family workers (Source-Part B)
- 5 S.T. B-IV.5— Number per 1,000 workers in VI-construction who are employers, employees, single worker and family workers (Source-Part B)
- 6 S.T. B-IV.6— Number per 1,000 workers in VII-trade and commerce who are employers, employees, single workers and family workers (Source-Part B)
- 7 S.T. B-IV.7— Number per 1,000 workers in VIII--transport, storage and communications who are employers, employees, single workers and family workers (Source-Part B)
- 8 S.T. B-IV.8— Number per 1,000 workers in IX-other services who are employers, employees, single workers and family workers (Source-Part B)
- 9 S.T. B-IV.9— Distribution of 10,000 workers other than those working as cultivators or as agricultural labourers by Division, Major Group and Minor Group of Indian Standard Industrial Classification (Source-Part C)

5 Before adopting this table it was put to a strict quality test. It was not only checked for internal consistencies but also with Table B-V—Occupational classification to see whether either of these two tables has a figure or figures which are inconsistent with that appearing in the other one. Both these tables stood to the test well; the few inconsistencies found were rectified.

B-IV PART A—INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK AT HOUSEHOLD INDUSTRY

NOTE: Lines with nil entries have been omitted.
