P R E F A C E

This volume contains the Migration (also called D-Series) tables relating to Bihar. According to the original scheme, these tables should have gone into Part II-C along with the Social and Cultural Tables. The bulk of all the tables taken together was, however, so large as to make such a course clearly impossible. It was, therefore, decided to print the present series of tables separately in one volume designated Part II-D. It is perhaps necessary to mention here that in most other States, the volume containing these tables has been named Part II-C (ii).

Migration is an important factor in all demographic studies. Both the range of information collected and the scope of tables prepared at the 1961 Census have, therefore, been considerably enlarged with a view to providing deeper insight into different facets of migration. These will be clearly brought out by a mere reference to the six tables presented here. Subsidiary tables containing proportional figures will be found in Part I-C of this State.

The general scheme of presentation of tables in this volume follows the line adopted in other similar volumes relating to Bihar. Each table is preceded by a flyleaf in which its main features are briefly described and the various terms and concepts explained. The flyleaf also reproduces relevant portions of instructions to enumerators on the basis of which the related information was collected at the time of census enumeration.

I am greatly indebted to Shri K. D. Ballal, I. A. S., Central Tabulation Officer, Office of the Registrar General, India and his staff for a very careful and thorough checking of the tables. My thanks are also due to the Technical Press Pr. Ltd., Allahabad, for the care and interest taken in the printing of this volume.

PATNA :  
September 27, 1965

S. D. PRASAD  
Superintendent of Census Operations.

NOTE

The present volume contains six tables on migration compiled from the data collected in the 1961 Census. These are also known as D-Series tables, of which the details are given below :

Table D-I—Non-Indian Nationals;

Table D-II—Place of Birth;

Table D-III—Migrants classified by Place of Birth and Duration of Residence in Place of Enumeration;

Table D-IV—Migrants to Cities classified by Sex, Broad Age-groups, Educational Levels and in case of Workers also by Occupational Divisions and Groups;

Table D-V —Cities showing population Born locally, Migrants from Rural Areas and Migrants from other Towns and Cities; and

Table D-VI—Distribution of Industrial Categories of Workers and Non-Workers by Place of Birth.

Nine subsidiary tables showing proportional figures have also been prepared from the above tables. These are presented in Part I-C of the 1961 Census Publications for Bihar. An analysis of the data on migration will be attempted in the General Report (Part I-A) of Bihar on 1961 Census.

Previous Censuses

Tables D-I and D-II of 1961 correspond to Tables D-VI and D-IV respectively of 1951. In 1941, a limited table on birth-place was prepared for the State only on 2 per cent sample of selected subdivisions because of the restricted tabulation due to the World War. In censuses before 1941, only one table containing birth-place data was presented. Tables D-III to D-VI of 1961 are, therefore, an innovation of the present Census.

Units of Presentation

Figures in Tables D-I, D-II and D-III have been presented for the State and seventeen districts. Tables D-IV and D-V relate to cities only. Cities are towns having population of one lakh or more. There are seven cities in Bihar. Table D-VI deals with the State, districts and cities. The mode of presentation, lay-out and special features of each table have been explained in the flyleaf preceding the table.

The 1961 Census

The Census of 1961 was taken by non-synchronous method between the 10th February and 28th February, 1961. During this period, an enumerator visited each household in the area allotted to him and canvassed a

Household Schedule for the household and an Individual Slip for each member of the household. While the Household Schedule was intended to elicit certain information about the functioning of household as an economic entity, the Individual Slip was designed to collect essential particulars about each individual enumerated in the census. The enumerators revisited the households between the 1st and 5th March, 1961 for incorporating changes occurring between their first visit and the reference date, viz., sunrise of 1st March, 1961, due to deaths or births during the intervening period. The statistics presented in the above mentioned tables, therefore, relate to the sunrise of 1st March, 1961 and are based on the information collected in the Individual Slip in reply to the following questions :

| Question No. | Description                             | Question No. | Description                      |
|--------------|-----------------------------------------|--------------|----------------------------------|
| 2            | Age last birthday                       | 8            | Working as Cultivator            |
| 4(a)         | Birth-place                             | 9            | Working as Agricultural labourer |

Relevant extracts from instructions to enumerators on the above questions have been reproduced at appropriate places in the flyleaf to each table.

Rural and Urban Classification

In 1961, a town was defined so as to include all places having a municipality, notified area, cantonment or civil lines. Other places were also treated as towns if they had (a) a population of not less than 5,000 , (b) density not less than 1,000 persons per square mile, and (c) at least three-fourth of the adult male population engaged in non-agricultural livelihood. Exceptions were made in a few cases because of the historical or administrative importance of the place, or such other factor. A complete list of towns of 1961 will be found in Table A-IV presented in Part II-A (General Population Tables) of the 1961 Census Publications for Bihar. Places, which were not urban, were treated as rural.

Concept of Migration

In Indian Census, migration is determined solely by the concept of place of birth. Thus, if a person was born at

a place other than the place of enumeration (which, according to census procedure, generally coincides with the place of his normal residence), he will figure as a migrant in census returns. On the other hand, a person wandering all over the world ever since birth will not be classed as a migrant if, during the period of enumeration, he was found to have returned to the place of his birth. Thus, true migration often gets artificially inflated, while re-migration to place of birth is sometimes masked. These limitations, inherent in our concept of migration, must be kept in mind while interpreting the data.

**Background**

Migration is an important factor in the study of social, economic and demographic trends. In previous censuses, it did not receive as much importance as in 1961. Before 1951, only one question relating to the place of birth was asked. In 1951, a separate question on nationality was added. Information about the displaced persons from Pakistan and the year of their arrival were also collected on account of their topical interest. On the basis of these materials alone, it was not possible to study the volume and trend of migration in detail. In 1961, the scope of enquiry was considerably widened with the result that the data on migration now presented cover the following characteristics of migrants:

- (1) Birth-place;
- (2) Rural and Urban classification of birth-place;

- (3) Rural and Urban classification of place of Enumeration;
- (4) Duration of Residence in Place of Enumeration;
- (5) Nationality;
- (6) Migrants to Cities classified by Age-groups, Educational Levels and Occupational Divisions and Groups in case of Workers; and
- (7) Industrial categories of Workers and Non-Workers by the Place of Birth.

In previous censuses, migration used to be determined with reference to the district of enumeration; that is to say, movements of population within the district of enumeration were not registered because in place of birth, only the name of the district was noted. In 1961, however, a significant departure was made in the instructions for recording birth-place so that the lowest unit, which applied to the non-migrant population, was the village or town of enumeration. Thus, for the first time, intra-district movements of population have been taken care of in the census.

Another important innovation of the 1961 Census is the classification of birth-place into rural and urban. This will enable an assessment of the trends of migration between rural and urban areas.

For further details, a reference may be made to the flyleaf preceding each table.

TABLE D-I  
**NON-INDIAN NATIONALS**

**TABLE D-I—NON-INDIAN NATIONALS**

FLYLEAF

This table gives the number of persons belonging to different foreign nationalities who were resident in the State during the census. It excludes Non-Indian Nationals employed in Foreign Embassies, Missions, etc.

**Mode of Presentation**

Figures have been presented separately for persons, males, and females, for the State and districts, for total areas only, there being no classification by rural and urban areas. The foreign nationals have been classified into the following five broad groups:

- (i) Nationals of countries in Asia beyond India (including U. S. S. R.);
- (ii) Nationals of countries in Europe (excluding U. S. S. R.);
- (iii) Nationals of countries in Africa;
- (iv) Nationals of countries in two Americas; and
- (v) Nationals of countries in Oceania.

In each group, separate figures are given for selected countries. Entries relating to the remaining countries in each group have been lumped together under the head 'Elsewhere', whose details are given in Appendix to the table.

**Definition and Instructions**

This table has been compiled from information collected in reply to Question 5(a)—Nationality—of the

Individual Slip. The instructions to enumerators regarding this question were as follows:

- 1. For Indian Nationals—Write I
- 2. For other Nationals—Write the Nationality in full.

**Previous Censuses**

This table corresponds to Table D-VI of 1951. Before 1951, no table on Non-Indian Nationals was prepared.

**Subsidiary Tables**

The following subsidiary tables prepared from this table, will be found in Part I-C of the 1961 Census Publications relating to Bihar.

D-I.1—Distribution of 1,000 Non-Indian Nationals by countries of Nationality.

Small Tables showing individual countries contributing more than 1 in 1,000 Non-Indian Nationals.

**Summary**

Out of every 100 Non-Indian Nationals enumerated in 1961 in Bihar, as many as 95 came from countries in Asia beyond India (including U. S. S. R.). Nepal contributed the largest share (66 per cent), followed by Pakistan (22 per cent).

TABLE D-II

PLACE OF BIRTH

TABLE D-II—PLACE OF BIRTH

FLYLEAF

This table shows the distribution of population by birth-place. Figures have been presented for the State and Districts separately for total, rural and urban areas, as well as for persons, males and females. The name of unit where enumerated has been shown below column headings in the centre, while the country or State where born has been indicated in column 1 in vertical spread.

In previous censuses there was no classification of place of birth or place of enumeration into rural and urban for the purposes of this table. In this Census, the place of enumeration has been classified into total (columns 3 to 5), rural (columns 6 to 8) and urban (columns 9 to 11) for the State and, similarly, for districts. Column 2 refers to the character of birth-place, i. e., whether it is rural or urban or unclassifiable. The place of birth has been broadly classified in column 1 under the following main heads:

- A. Born in India;
- B. Born in countries in Asia beyond India (including U. S. S. R.);
- C. Born in countries in Europe (excluding U.S.S.R.);
- D. Born in countries in Africa;
- E. Born in countries in two Americas;
- F. Born in countries in Oceania;
- G. Born at sea; and
- H. Unclassifiable.

Under Group A—Born in India, there are two Subgroups, viz., I—Born within the State of enumeration, and II—Born in States in India beyond the State of enumeration. Under Sub-group I, there are three sub-headings, viz., (i) Born in place of enumeration, (b) Born elsewhere in the district of enumeration, and (c) Born in other districts of the State. Under Sub-group II, all the States and Union Territories other than Bihar have been listed one by one. Persons born in Sikkim have been treated as 'Born in India.'

Under each unit in Group A, figures have been presented separately for birth-place rural, urban and unclassifiable. This has a reference to Question 4(b) which sought to classify the place of birth into rural and urban. Where the reply to Question 4 (b) was vague or inadequate, the birth-place for the purpose of column 2 of the table was treated as unclassifiable. The Union Territories (i) Laccadive, Minicoy and Amindivi Islands, (ii) Dadra and Nagar Haveli, and (iii) NEFA are entirely rural and, therefore, the lines for birth places 'Urban' and 'Unclassifiable' (column 2) have been omitted from the table.

The classification of the place of birth as well as the place of enumeration by rural and urban will help in the

study of various kinds of migrations between rural and urban areas.

Under Groups B, C, D, E and F in column 1, only certain selected countries have been shown. The entries relating to the remaining countries in each Group have been put together under 'Elsewhere'. The details of entries lumped under 'Elsewhere' in each Group have been given in the Supplement to Table D-II.

*Distribution of inter-district migrants within the State by district of birth*—A reference to column 1 of the main Table D-II will indicate that migrants to any district from other districts of the State have been lumped together this time under the description 'Born in other districts of the State'. In other words, the distribution of inter-district migrants within the State by the district of origin has not been given. Such information has its own significance and is available for all previous censuses except 1941. Somehow, the sorting instructions of 1961 did not provide for extraction and compilation of such information, though it was collected at the time of enumeration in the Individual Slip. In Bihar, however, a slight departure was made from the all-India instructions, and districtwise sorting of data relating to inter-district migrants within the State was done. The results have not been presented in the main table for the sake of uniformity. These are, however, presented separately in Appendix to the table.

Census Questions and Instructions

This table has been prepared from data collected in reply to Questions 4 (a) and 4(b) of the Individual Slip. The instructions to enumerators in regard to these questions are reproduced below:

Question 4(a): Birth place

1. If born in village or town in which enumerated.....Write PL
2. If born in another village or town of district in which enumerated .....Write D
3. If born in another district in the State of enumeration.....Write name of district.
4. If born in another State in India.....Write name of district and State if name of district is known: Otherwise write name of State
5. If born in a country outside India, e.g., Pakistan or any other country.....Write name of country
6. Persons born at sea or in air or in railway carriages or on road transport, e.g., buses, etc., should be entered as such.

**Question 4(b) : Born R/U**

1. If born in a village.....Write R
2. If born in a town which is considered a town at the present time even if it was not so considered at the time of birth .....Write U
3. If the person enumerated is not in a position to say whether the place of birth is a village or town .....write the name of the place of birth as returned by him.

**Subsidiary Tables**

Three subsidiary tables have been prepared from the main Table D-II. These will be included in Part I-C of the 1961 Census Publications for Bihar. The Subsidiary tables are—

(i) D-II.1—Variation in Natural population.

(ii) D-II.2—Migration between the States and other parts of India.

(iii) D-II.3—Distribution of 10,000 persons enumerated in each State/District by place of birth, rural/urban characteristics and sex.

**Previous Censuses**

This table corresponds to Table D-IV of 1951, Table VI of 1941 (prepared for the State as a whole only on 2 per cent sample of selected subdivisions), Table VI of 1931 and Table XI of 1921, 1911 and 1901.

**TABLE D-II—PLACE OF BIRTH**

TABLE D-III

MIGRANTS CLASSIFIED BY PLACE  
OF BIRTH AND DURATION OF  
RESIDENCE IN PLACE OF  
ENUMERATION

**TABLE D-III—MIGRANTS CLASSIFIED BY PLACE OF BIRTH AND DURATION OF RESIDENCE IN PLACE OF ENUMERATION**

**FLYLEAF**

This table shows the distribution of migrants by place of birth and duration of residence in place of enumeration, separately for males and females. Figures have been presented separately for rural and urban areas of the State and districts. An innovation of the 1961 Census, this table should help in the study of migration in greater detail.

**Place of Birth**

Data relating to place of birth have been classified in the table under seven heads, viz.,

- (1) Born elsewhere in the district of enumeration,
- (2) Born outside the district of enumeration but within the State,
- (3) Born in other States of India,
- (4) Born in Nepal,
- (5) Born in Pakistan,
- (6) Born in other countries outside India, and
- (7) Birth-place unclassifiable.

While information under (1), (2) and (3) above has been presented separately for birth-place classified into rural, urban and unclassifiable, migrants from the two neighbouring countries, Nepal and Pakistan have been shown separately without any such classification of birth-place. Migrants from other countries have been clubbed together and shown under the head 'Born in other countries outside India.' Entries under 'Born at sea' have been merged with those under 'Birth-place unclassifiable'.

**Duration of Residence**

The duration of residence of migrants in place of enumeration has been divided into six periods of stay, as indicated below :

|                  |                    |
|------------------|--------------------|
| Less than 1 year | 11—15 years        |
| 1—5 years        | 16 years and above |
| 6—10 years       | Period not stated. |

**Census Questions and Instructions**

This table has been prepared from the data collected in reply to Questions 4(a), 4(b) and 4(c) of the Individual Slip. The instructions to enumerators for recording answers to Questions 4(a) and 4(b) have been reproduced in the flyleaf to Table D-II. The following is an excerpt from the instructions relating to Question 4(c):

**Question 4(c)—Duration of Residence**

1. For a person born in village or town or city in which enumerated Write X
2. For a person born in another village or town or city of district of enumeration or who was not born in the district of enumeration Write the number of completed years this person has been in the village /town city of enumeration.
3. If the duration of residence is less than one year Write 0
4. If the duration of residence is one year or over Write the actual number of completed years of residence.

*(Do not take into account periods of temporary absence on leave or holiday or tour or business.)*

**Subsidiary Tables**

Subsidiary Table D-III. 1—Distribution of 10,000 persons born outside the place of enumeration by place of birth, duration of residence at the place of enumeration, and sex, prepared from this table will be presented in Part I-C of the 1961 Census Publications relating to Bihar.

TABLE D-III—MIGRANTS CLASSIFIED BY PLACE OF BIRTH AND DURATION OF RESIDENCE IN PLACE OF ENUMERATION

191

Table D-III

**TABLE D-III—MIGRANTS CLASSIFIED BY PLACE OF BIRTH AND DURATION OF RESIDENCE OF PLACE OF ENUMERATION—*contd.***

TABLE D-IV

**MIGRANTS TO CITIES CLASSIFIED BY SEX,  
BROAD AGE-GROUPS, EDUCATIONAL  
LEVELS AND IN CASE OF WORKERS  
ALSO BY OCCUPATIONAL  
DIVISIONS AND GROUPS**

2. Production of pulses, such as *arhar*, *moong*, *masur*, *urd*, *khesari*, other gram.
3. Production of raw jute and kindred fibre crops.
4. Production of raw cotton and kindred fibre crops.

Under Q. 11: Other Field Produce and Plantation Crops—

**A. Other Field Produce :**

1. Production of other crops including vegetables not covered in Q. 8.
2. Production of fruits and nuts in plantations, vines and orchards (like coconut, arecanut, etc.).
3. Production of wood, bamboo, cane reeds, thatching grass, etc.
4. Production of juice by tapping palms.
5. Production of other agricultural produce (including fruits and nuts not covered by serial no. 2 and flowers) not covered above.

**B. Plantation Crops :**

1. Production of tea in plantation.
2. Production of coffee in plantation.
3. Production of rubber in plantation.
4. Production of tobacco in plantation (does not include tobacco which is cultivated in rotation with other cereal crops, in which case it would go under cultivation).
5. Production of *ganja*, cinchona, opium, poppy, saffron, etc.
6. Production of other plantation crops not covered above.

**Question 8 : Working as Cultivator**

For a person working as cultivator write C. For a person not working as cultivator and for a person not working at all put X.

For purposes of the census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

Cultivation involves ploughing, sowing and harvesting and does not include fruitgrowing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations. Persons engaged in fruitgrowing or orchardry or plantations like tea, coffee, rubber, cinchona and other medicinal plantations should be entered in Q. 10 or Q. 11 as the case may be.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as working as cultivator. Similarly, a person working in another

person's land only as a labourer and has no right or lease or contract on land on which he works, nor is responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation and is paid wages in cash, kind or share such as share of produce (Agricultural labourer) will not be treated as Cultivator in this question.

**Question 9 : Working as Agricultural labourer**

Write AL for a person working as Agricultural labourer, i.e., a person who works in another person's land only as a labourer without exercising any supervision or direction in cultivation, for wages in cash, kind or share such as share of produce. For others, put X. The labourer should have no right or lease or contract on land on which he works, nor should he be responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation. A share of the produce goes to him only as wages. He should have been working as Agricultural labourer in the last or current cultivating season.

**Questions 10(a) & 10(b) : Household Industry**

If a person is working in a Household Industry write (1) the nature of work done by him in the Household Industry against question 10(a) and (2) the nature of the Household Industry against question 10(b). Otherwise put X in both questions 10(a) and 10(b). A Household Industry is defined as an industry conducted by the Head of the Household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for a Household Industry is the participation of one or more members of a Household in rural areas. In the urban areas the industry should be confined to the house. You should carefully keep in mind the definition of Household Industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating in urban area.

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

**Question 11 : Doing Work other than 8, 9 or 10**

If a worker is not working as a Cultivator or as an Agricultural labourer or at any Household Industry write the actual work he is doing. If a person working as a Cultivator or as an Agricultural labourer or at Household Industry and also does some other work (including dairying or livestock raising, orchard or plantation, etc., as distinct from cultivation crops) which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above write here the work on which he devotes more time.

**Question 11(a) : Nature of Work**

In the case of persons not working or who work only as Cultivator or as Agricultural labourer or at Household Industry, put 'X'.

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in vernacular transliteration of English. At previous censuses much trouble has been caused by inadequate answers, and if you do not succeed in obtaining satisfactory information on the individual slips, you will be required to make a further visit for that purpose.

**Question 11(b) : Industry, Business, Trade, Profession or Service**

In the case of a person who is working and the nature of whose own work has been recorded in question 11 (a), you should write here the nature of industry, business, trade, profession or service in which the person works.

As in the case of question 11 (a), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced, should be given. If more than one or repaired, should be given. In the case of serviced or repaired should be given. In the case of business or trade the principal article of trade should be described. In the case of service describe the nature of the service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population. The description should be either in vernacular or in English or vernacular transliteration of English.

**Question 12 : Activity, if not Working**

This question will apply to a person NOT working. Write 'X' in this question for a person who is working, that is, for whom you have recorded the work in any of the questions 8 to 11 above.

The following activities should be recorded in the case of persons NOT working :

1. For a full time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation, industry, trade or business ... write ST
2. For a person engaged in unpaid home duties (like housewife or other adult female) who does no other work, such as make articles at home for sale or

wages, nor help regularly even part-time in family cultivation, industry, trade or business ... write HW

3. For any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age... write D
4. For a retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work ... write R
5. For a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence ... write B
6. For a convict in jail (an undertrial prisoner will be shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution ... write I
7. For a person who has not been employed before but is seeking employment for the first time ... write NE
8. For a person employed before but now out of employment and seeking employment ... write UN

**Explanation :** If a person who does not work, cannot be readily classified in any of the above categories, put him in category 5 and write B in this question. A retired person who has taken up regular work again should not be entered in this question as he would have been entered for his new work in Questions 8 to 11.

A person who is not working but has been offered work which he has not joined should be included in item 3 and 'D' should be written. He should not be included in item 7 or 8.

**Subsidiary Tables**

Three subsidiary tables to Table D-IV have been prepared. These are :

- D-IV.1—Distribution of 1,000 migrants to cities by age-groups.
- D-IV.2—Distribution of 1,000 migrants to cities by sex and educational level.
- D-IV.3—Distribution of 1,000 workers among migrants to cities by sex and occupation.

These will be found in Part I-C of the 1961 Census Publications relating to Bihar.

**TABLE D-IV—MIGRANTS TO CITIES CLASSIFIED BY SEX, BROAD AGE-GROUPS, EDUCATIONAL LEVELS AND, IN CASE OF WORKERS, ALSO BY OCCUPATIONAL DIVISIONS AND GROUPS**

FLYLEAF

This table has been prepared only for the seven cities (towns with population of one lakh or more) of Bihar, viz., Patna, Jamshedpur, Gaya, Bhagalpur, Ranchi, Muzaffarpur and Darbhanga. The cities have been arranged in descending order of population. This table is also an innovation of the 1961 Census. It gives the distribution of migrants to cities by sex, broad age-groups and educational levels. For workers, other than cultivators and agricultural labourers, the occupational divisions and groups of the National Classification of Occupations to which they belong are also indicated. This table should help in studying the pattern of migration to cities.

#### Age-groups

The following age-groups have been adopted in this table:

- |             |                     |
|-------------|---------------------|
| (i) 0—14    | (iv) 60+            |
| (ii) 15—34  | (v) Age not stated. |
| (iii) 35—59 |                     |

#### Educational Levels

The migrants have been classified according to the following literacy and educational levels:

- |                                               |                                                                           |
|-----------------------------------------------|---------------------------------------------------------------------------|
| 1. Illiterate.                                | 7. University degree or post-graduate degree other than technical degree. |
| 2. Literate (without educational levels).     |                                                                           |
| 3. Primary or Junior Basic.                   | 8. Technical degree or diploma equal to degree or post-graduate degree:   |
| 4. Matriculation or Higher Secondary.         | (i) Engineering.                                                          |
|                                               | (ii) Medicine.                                                            |
| 5. Technical diploma not equal to degree.     | (iii) Agriculture.                                                        |
|                                               | (iv) Veterinary and dairying.                                             |
| 6. Non-technical diploma not equal to degree. | (v) Technology.                                                           |
|                                               | (vi) Teaching.                                                            |
|                                               | (vii) Others.                                                             |

#### Occupational Divisions

Information is given first for total migrants to cities, then for workers and at the end for non-workers. Among workers, data have been presented separately for Cultivators and Agricultural labourers in the beginning. Then follow workers in Industrial Categories III—IX (For details, please see flyleaf to Table D-VI). Workers coming under this head have been classified further by occupational divisions and groups of the National Classification of Occupations. A list of occupational divisions and groups with their descriptions, as extracted from the National Classification of Occupations (which has been followed), is given in Annexure to this flyleaf.

It may be noted that Occupational Division 4 in the table excludes Occupational Families 400 (Cultivators—Owners), 401 (Cultivators—Tenants) relating to Industrial Category I (Cultivators) and 414 (Agricultural labourers) relating to Industrial Category II (Agricultural labourers). Occupational Division 'X' excludes Occupational Group X0 (Workers without occupations).

#### Appendix to Table D-IV

Occupational groups having less than 5 per cent of workers in the respective division (2.5 per cent in case of Division 7-8) have not been shown in the table. Data relating to these are presented in the Appendix to this table. Divisions thus affected have been marked with an asterisk(\*).

To save space, lines with 'nil' entries have been omitted.

#### Census Questions and Instructions

This table has been compiled from the information collected in reply to Questions 2, 4(a), 6 and 8—12 of the Individual Slip. The instructions to enumerators in regard to Question 4(a) have been reproduced in the flyleaf to Table D-II. Relevant extracts pertaining to Questions 2, 6 and 8—12 are reproduced below:

#### Question 2 : Age in completed years last birthday

Write age in years completed last birthday. For infants below one year of age, write '0'. You will find many persons who cannot state their age correctly. You should assist them to state the correct age. If you are not able to elicit correct age directly, you should stimulate their memory by referring to historical incidents or religious events, etc., you may use any local calendar of such events that may have been prepared for the purpose.

#### Question 6 : Literacy and Education

##### I. Illiterate or literate :

For a person

- Who can neither read nor write or can merely read but cannot write in any language ... write 0
- Who can both read and write ... write L

The test for reading is ability to read any simple letter either in print or in manuscript, i.e., if the person can read one of the examples in the Enumerator's Handbook with felicity he may be taken to have passed the test for reading. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can with understanding both read and write.

#### I. Standard of education :

If the person can both read and write and has also passed a written examination or examinations as proof of an educational standard attained, write the highest examination passed instead of L.

#### Questions 8 to 11 : Working

These questions apply only to workers. A person who is working may be working as a Cultivator, as an Agricultural labourer, at a Household Industry or may be doing any other work. You have to record the answers in questions 8, 9, 10 and 11 according as the person is working as a Cultivator or as an Agricultural labourer or at Household Industry or doing any other work. He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a Cultivator and an Agricultural labourer, in which case he should be entered both in Q. 8 and Q. 9 or, he may be working both as Cultivator and at Household Industry in which case he will be entered in Q. 8 and Q. 10 or, he may be working in any possible combination of 8, 9, 10 and 11, in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four Questions 8 to 11.

Detailed instructions as to how the answers should be recorded in the individual questions are given against those questions below. You should carefully study them before recording the answers. For an under-trial prisoner enumerated in a Jail he should be recorded for the work or kinds of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of work he was doing before he was admitted into hospital or institution. But for a convict in a prison or for long-term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded but 'I' should be recorded in Q. 12 below.

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry, etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as worker. A person who has been offered work but has not actually joined should be treated as non-worker. Work includes not only actual work but effective supervision and direction of work.

Persons under training as apprentices with or without stipend or wages will be regarded as working.

An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purposes of this question. If, however, in addition to her household work she engaged herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass, etc., or any such work she should be treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in Q. 11.

After you have filled up the answers to questions 8 to 11, if you find that in the case of any person more than one productive activity has been recorded, i.e., more than one of the questions 8, 9, 10 or 11, has been filled up by some work you should ask him which one of the activities that has been recorded for him is his principal work. The principal work is the one on which the person spends most time. Put a ring round the number of the question 8, 9, 10 or 11, according to the work on which the person says he spends most time. You should invariably ask for the principal work where more than one work is recorded and put a ring round the question relating to the principal work.

It may be that in a few cases you find that you have recorded more than two productive activities in questions 8 to 11, i.e., more than two of the questions, 8 to 11, would have been filled up by some work. In such cases you should first ascertain the principal work, i.e., the one on which the person spends most time and put a ring round the number of the question. You should then ascertain the work which is the next in importance to his principal work, i.e., the work after his principal work which occupies most time. You should put a tick against the question number of that work on the left hand side of the question number. The ring and the tick should be put clearly so that any difficulty will not be felt to recognise them clearly.

The following classification illustrates as to which answers should be entered under Q. 8 and which others under Q. 11.

**Under Q. 8:** Cultivation involving ploughing, sowing and harvesting—

- Production of cereal crops (including Bengal gram), such as rice, wheat, jowar, bajra, maize; roots and tubers like potato, yam, beet, etc.; sugarcane, etc.

ANNEXURE—*concl.*

## National Classification of Occupations

| DIVISION 7-8 CRAFTSMEN, PRODUCTION PROCESS WORKERS, AND LABOURERS, NOT ELSEWHERE CLASSIFIED— <i>concl.</i> |  | DIVISION 9 SERVICE, SPORT AND RECREATION WORKERS— <i>concl.</i>   |  |

TABLE D-VI

**DISTRIBUTION OF INDUSTRIAL  
CATEGORIES OF WORKERS  
AND NON-WORKERS BY  
PLACE OF BIRTH**

**TABLE D-V—CITIES SHOWING POPULATION BORN LOCALLY, MIGRANTS FROM RURAL AREAS AND MIGRANTS FROM OTHER TOWNS AND CITIES**

FLYLEAF

This table, also an innovation of the 1961 Census, has been prepared only for the seven cities (towns having population of one lakh or more), viz., Patna, Jamshedpur, Gaya, Bhagalpur, Ranchi, Muzaffarpur and Darbhanga, arranged in descending order of population. It shows the population born locally and the magnitude of immigration to cities from rural and other urban areas, separately for males and females. The immigrants from rural or other urban areas have been further classified with reference to their place of birth and duration of residence in the city in the manner indicated below :

*Born in rural/other urban areas*

- (i) of the same district and resident in the city for less than 3 years;
- (ii) of the same district and resident in the city for 3 years and more;
- (iii) outside the district but within the State and resident in the city for less than 3 years;
- (iv) outside the district but within the State and resident in the city for 3 years and more;
- (v) outside the State and resident in the city for less than 3 years; and
- (vi) outside the State and resident in the city for 3 years and more.

Migrants falling in the following categories have been excluded from this table :

- (i) Migrants with their birth-place outside India.
- (ii) Migrants with their birth-place unclassifiable i.e. migrants whose place of birth has not been properly indicated in reply to Question 4(a) of the Individual Slip.
- (iii) Migrants in whose case the rural or urban character of birth-place, vide Q. 4(a), was unclassifiable.
- (iv) Migrants whose duration of residence in the city, vide Q. 4(c), was not stated.

In view of the above, the total population of cities as shown in this table in columns 3—5 will not correspond with their actual population.

**Census questions and instructions**

This table has been compiled from data collected in reply to Questions 4(a), 4(b), and 4(c) of the individual slips relating to persons enumerated in cities. Instructions to enumerators in regard to these questions have been reproduced in the *flyleaves* to Tables D-II and D-III.

**Subsidiary tables**

Subsidiary Table D-V. 1—Distribution of 1,000 migrants (born in India) to cities by place of birth, has been prepared from this table and will be presented in Part I-C, Volume IV, Bihar, Census of India, 1961.

**TABLE D-VI—DISTRIBUTION OF INDUSTRIAL CATEGORIES OF WORKERS AND NON-WORKERS BY PLACE OF BIRTH**

FLYLEAF

This table gives the distribution of population by sex, birth-place and industrial categories of workers and non-workers. It has been presented separately for total, rural and urban areas of the State and districts, and for cities. The places of birth have been categorised in column 1 in the same manner as in Table D-II. The total number of workers and their industrial categories have been shown in columns 6 to 25. Columns 26 and 27 relate to non-workers. Workers have been divided into the following nine industrial categories :

**Working**

- I. As Cultivator.
- II. As Agricultural labourer.
- III. In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities.
- IV. At Household Industry.
- V. In Manufacturing other than Household Industry.
- VI. In Construction.
- VII. In Trade and Commerce.
- VIII. In Transport, Storage and Communications.
- IX. In Other Services.

**Rural Table**

In the table for rural areas, in addition to total population, figures have been presented only for the following categories of birth-place :

**A. BORN IN INDIA**

**I. Within the State of enumeration**

- (a) Born in place of enumeration.
- (b) Born elsewhere in the district of enumeration.
- (c) Born in other districts of the State.

**II. States in India beyond the State of enumeration**

In Group A-II under the head, 'States in India beyond the State of enumeration', figures relating to 4 States only which sent the largest number of immigrants, have been shown. The States so selected are arranged in descending order of the number of immigrants from them. The selection of numerically important States has been done separately for each unit of enumeration by considering the number of immigrants to rural areas, and not total areas, of that unit. In other words, each district has been considered separately in terms of immigrants to its rural areas only from other States. Figures for other categories of birth-place have not been presented.

**Total Table**

In the table for total area, all categories of birth-place have been shown in column 1. Under Group A-II, 'States

in India beyond the State of enumeration', however, figures for only those States have been presented which sent at least 1 per cent of the total immigrants to the particular unit of enumeration (State or district) from other States in India.

**Urban Table**

As in the case of Total table, all categories of birth-place have been shown here also in column 1. The States in Group A-II selected for total part of the table for any unit of enumeration have, however, been presented for the urban part also.

Details in respect of States not printed in Group A-II of the total and urban tables have been given in Appendix-I to the table.

**Birth-place unclassifiable**

The line for 'unclassifiable' under column 2 has been omitted wherever the total for it in any case is less than 5 per cent of the total immigrants in that group. Since in all cases the total for 'unclassifiable' in column 2 is less than 5 per cent of the total entries in the main group, the line 'unclassifiable' along with its entries has not been printed.

**City Table**

No abridgement has been done in the city part of the table except that the head 'unclassifiable' in column 2 has been omitted because in all cases, the total figures against it are less than 5 per cent of the figures relating to total immigrants in the groups concerned.

**Immigrants from Other Countries**

As in Table D-II, only selected countries have been shown in the Groups B, C, D, E & F under column 1. Entries in respect of the remaining countries in each group have been clubbed together under 'Elsewhere' in that group. The details of combined entries under 'Elsewhere' in each group are given in Appendix II to the table. Persons born in Sikkim have been treated as born in India.

**Census Questions and Instructions**

This table has been prepared from data collected in reply to Questions 4 (a), 4(b) and 8-12 of the Individual Slip. Instructions to enumerators in regard to Questions 4(a) and 4(b) have been reproduced in the flyleaf to Table D-II and in regard to Questions 8-12 in the flyleaf to Table D-IV.

**Previous Censuses**

This table has also been prepared for the first time in 1961. It shows, among other things, the sectors of economic activities which attract immigrants.

**TABLE D-VI—DISTRIBUTION OF INDUSTRIAL CATEGORIES OF WORKERS AND NON-WORKERS BY PLACE OF BIRTH**

| WORKERS                                             |                                  |                  |            |            |               |            |                  |           |                                |           |                                                                                                                                |         | TOTAL<br>Table D-IV |  |
